Brawl Had Few Students

DALLAS (AP) — Only 22 of 466 persons arrested Friday night in downtown Dallas were students of the University of Texas or University of Oklahoma, Police Chief Charles Bachelor learned Thursday.

He received the information in a special report on the annual brawl the night before football teams of the two schools played in the Cotton Bowl.

Underscores

The analysis of police operations underscored what several authorities had declared earlier — that outsiders, and not students of Texas or Oklahoma, are largely responsible for the disorders.

The report showed 363 arrests were for liquor law violations, 31 for fighting and 34 for disturbing the peace. Of the 466 taken into custody, 287 listed Dallas County addresses, 121 were from elsewhere in the state, 18 were from Oklahoma and 18 listed only Texas or Oklahoma without towns. There were 313 males and nine females less than 21 years old.

Sales Tax Conference

West Texas cities, from Abilene to Odessa, Lubbock to San Angelo, have been invited to a meeting here next week to discuss the possible coordination of any sales tax efforts.

Larry Crow, city manager, said the meeting is purely for informational purposes and to discuss the matter in the light of mutual interests of the cities. He emphasized that none of the participating cities or any of the officials would be obligated or committed during the meeting.

Set Next Thursday

The meeting will be held in the Cosden Country Club Thursday at 7 p.m. He asked the various city representatives to indicate whether they would attend by 2 p.m. Wednesday.

Crow said cities in the Rio Grande Valley, the Dallas-Fort Worth area, and San Antonio area are taking similar steps. In an informal telephone poll by Crow, many cities in this area have indicated an interest in coordinating a city sales tax effort, with elections perhaps in December.

The Big Spring City Commission has made no decisions on the matter, although it has been informally discussed from time to time.

Thieves Take \$100,000

CRESAPTOWN, Md. (AP) — Thieves broke into a branch of the First National Bank of Western Maryland early today and escaped with an estimated \$100,000.

Cresaptown is about eight miles southwest of Cumberland, Md., in the mountains of western Maryland.

Prisoners Finally Freed

FORT LAUDERDALE, Fla. (AP) — The man with the keys didn't get the word — and two young prisoners stayed in Broward County Jail nearly a month after a grand jury cleared them.

Both were free Thursday, still wondering who didn't pass the word between the grand jury and the jail. Officials said they didn't know.

Refused To Indict

James Sylvester Thomas, 18, and Terry Lloyd Cotton, 17, spent three weeks in jail after the grand jury refused to indict them on rape charges.

Their plight was discovered Thursday when Thomas' attorney petitioned for his client's release because there was no charge.

Capt. James Knight of the sheriff's department received a copy of the petition, checked his prisoner file and ordered both men released.

No Anti-War Demonstration

SAN MARCOS (AP) — Students at Southwest Texas State College apparently aren't having any of the anti-Vietnam protest movement echoing on some other campuses. The students burned anti-war literature spread on the campus here.

Ten peace advocates from nearby University of Texas at Austin got a cool reception Thursday when they visited the alma mater of President Johnson.

Dean Addresses Visitors

Dean of Students Floyd Martine told the visiting students as they departed from their motorcades, "I am sure you would not want to break college rules by attempting any sort of demonstrations."

No permit had been issued, the dean said. "I guess if any San Marcos students want to protest the killings in Vietnam, they'd better come up to Austin," one visitor said.

Pilots Escape Doomed TFX In Module

BOWIE, Tex. (AP) — A new escape system, put to use for the first time, saved both crewmen as a supersonic F111A fighter-bomber cracked up in a North Texas pasture Thursday night.

The \$5 million plane was an Air Force version of the controversial TFX, a variable-sweep wing jet built at the Fort Worth plant of General Dynamics 70 miles southeast of here.

WITNESSES

The plane hit and broke apart as two oil operators, Ed Spragins and Dick Darner of Wichita Falls, worked on a farm nearby.

The two men heard a loud boom about 6:10 p.m. and saw a parachute lower the craft's ejection module into a field 19 miles southwest of Bowie.

Test pilots David Thigpen and Max Gordon, civilian employees of General Dynamics, were unhurt as the parachute draped across a power line and left them hanging upside down in the module. They quickly freed themselves.

Spragins said, "According to the pilots, the hydraulic system failed and they were unable to maneuver the aircraft. It began to pitch and roll, and they had to get out of it."

Thigpen told newsmen only that "something went wrong" about an hour after takeoff at General Dynamics and "I made the decision to eject."

Seven Of 18 Convicted In Civil Rights Trial

Eight Acquitted, Mistrials For 3

MERIDIAN, Miss. (AP)—An all-white federal court jury convicted seven white Mississippians, including a deputy sheriff and a Ku Klux Klan imperial wizard, today on conspiracy charges stemming from the 1964 backwoods slaying of three young civil rights workers.

The jury of seven women and five men, which at one point declared itself "hopelessly deadlocked," acquitted Neshoba County Sheriff Lawrence A. Rainey and seven others.

U.S. Dist. Court Judge Harold Cox declared a mistrial in three other cases after the jury pleaded it could not reach a decision on them.

TESTIMONY

Testimony produced by the Justice Department during the trial which began 12 days ago pictured the convicted Klan chief, Sam Holloway Bowers Jr. as the man who ordered the elimination of one of the three workers, slain near Philadelphia, Miss., during the racially

tense summer of 1964. Bowers is from Laurel, Miss.

Neshoba County Chief Deputy Sheriff Cecil R. Price, 29, also convicted, delivered the three workers—the marked man and two companions—to a waiting execution squad of Klansmen, the Justice Department claimed.

Also convicted were Alton Wayne Roberts, 28, a former Meridian night club bouncer and recently a trailer salesman; Jimmy Arledge, 29, a Meridian stock worker; Billy Wayne Posey, 30, former Philadelphia, Miss., service station operator; Jimmy Snowden, 32, a Meridian laundry truck driver, and Horace Doyle Barnett, 31, now a Cullen, La., truck driver.

A statement signed by Horace Doyle Barnett was introduced as evidence. It described the backwoods execution as a Klan murder.

Found innocent besides Sheriff Rainey were Oren L. Burrage; Herman Tucker; Travis Maryn Barnett; James T. Harris; Frank J. Herndon; Bernard L. Akin; and Richard A. Willis. All are from the Meridian-Philadelphia area.

The judge declared mistrials in the cases of Ethel G. "Hop" Barnett, the Democratic nominee for Neshoba sheriff; Edgar Ray Killen and Jerry McGrew Sharpe.

The convictions of the seven were the major guilty verdicts in civil rights cases in this Deep South state.

Judge Cox ordered Price and Roberts taken into custody immediately and held without bond. He accused the two of "loose talk" after he delivered a new charge Thursday when the jury told him it could not reach a verdict.

MISTAKEN

"If you think you can intimidate this court you are sadly mistaken," Cox said to Roberts. "I'm not going to let any wild man loose on a civilized society."

The judge accused Roberts of saying, "He gave the jury the dynamite charge. Well, we've got the dynamite for him ourselves."

The judge said the statement was made in the hallway of the Meridian Post Office Building where the courtroom is located.

"We're not going to have any anarchy while I'm sitting down here," Cox added. "There isn't anybody on earth who can frighten this court. It's unthinkable that he (Roberts) made those remarks. Nobody else need be afraid of his bluster."

The judge added that he was annoyed by Roberts' "stupidity" in making the remarks. He did not reveal what Price had said.

The others convicted remained free under \$5,000 bond.

Lifesaver

This self-contained escape module, carrying the pilot and flight engineer of an F111A which crashed near Bowie Thursday, lies upside down in a field after being successfully separated from the stricken fighter. Both men escaped injury in the first actual use of the module.

MARATHON BARGAINING SESSION NEAR END AT FORD

Strike Settlement Expected Today

DETROIT (AP)—What could be one of the richest labor contracts ever in a manufacturing industry appeared all but locked up today as negotiators for Ford Motor Co. and the striking United Auto Workers remained closeted in marathon bargaining for nearly 24 hours.

"When I leave here today I expect it will be after an announcement," said a bargaining table source, caught in a brief

postdawn recess. Asked if he meant an announcement of settlement, the source said "Yes."

He did not elaborate on the contract. Whatever agreement is reached was expected, however, to be tentative until ratifying meetings are held — probably Sunday — and even then a complete end to the industry's fourth longest strike—may not be in sight.

Most recent settlements in the industry have been followed by local walkouts where bargainers have been unable to reach at-the-plant agreements. Sources said today that the majority of these local agreements have not been reached.

The 12-story Ford headquarters in suburban Dearborn, scene of the talks, was a bustle of activity in the predawn hours and it was learned that a free

lance broadcaster had been roused out of bed shortly after midnight to record advertisements for Lincoln Mercury saying the strike was over and the 1968 models would be plentiful.

None of the commercials had been aired.

Wednesday the union sent telegrams to the presidents of Ford locals telling them that no meaningful progress had been

made on most key money issues, but that there had been some in other areas. The strike, which started Sept. 7 and has killed 100,000 workers at Ford plants in 25 states, entered its 44th day today, becoming, along with a 1957 walkout, the fourth longest in industry history.

The UAW is seeking at Ford a pattern-setting contract it will take to Chrysler and then GM for matching or bettering.

Seventh Largest Diamond Found On 20 Foot Stake

NEW YORK (AP) — The seventh largest known gem diamond, found on a 20-square foot stake in the tiny African kingdom of Lesotho last May, will probably bring in more than \$1 million when cut, says the New York firm that acquired it.

Mrs. Ernestine Ramoiba found the 601-carat, pale brown stone almost the size of an egg while sifting gravel on the claim. It is called the Lesotho diamond.

Mrs. Ramoiba is the daughter-in-law of Petrus Ramoiba, the 35-year-old principal shareholder in the claim worked with three other men. He got half of the \$302,400 for which the stone was sold.

Harry Winston, head of the Fifth Avenue firm Harry Winston Inc., declined Thursday to say how much he paid for the stone. It was briefly shown Thursday in Geneva and will be

sent here sometime in the next 10 days by registered mail.

The stone's size ranks just below that of the 650-carat Jubilee Diamond found in South Africa in 1895.

Employees Boost United Fund Total

The employe and big gifts divisions of the United Fund Drive took big jumps Friday morning to bring the total reported to U. F. to \$62,499.42.

A report lunch was held Thursday noon at the Cosden Club for the chairmen of the divisions of the United Fund Drive. The big gifts, special gifts and metropolitan divisions reported their campaign was about half completed and a target date for completion set for Friday, Oct. 27.

Senators Oppose Budget Slashing

WASHINGTON (AP) — Senate Appropriations Committee members indicate they are unwilling to follow the budget-slashing House in its tug-of-war with President Johnson over government spending.

JUNK IT Democratic Leader Mike Mansfield, a committee member, said he favored junking a House directive that the President cut expenditures an estimated \$6 billion to \$8 billion in the current budget year ending June 30, 1968.

Committee Republicans expressed doubt the House measure is workable but said they are exploring different approaches aimed at achieving substantial spending reductions. Another committee meeting was called for today after a hearing Thursday at which Budget Director Charles L. Schultz testified the precise impact of the House resolution would depend on legal interpretations of its language.

Schultz estimated the measure would force expenditure cuts of something like \$6 billion to \$8 billion.

The key provision would require government spending, with some important exceptions, to be held to last year's level.

Southern Democrats and Republicans in the House teamed to write spending limitations into an emergency measure to finance for another month government departments whose regular appropriations for the current fiscal year have not yet been voted.

EXPIRES

Present spending authority of these departments expires at midnight Monday.

Despite this, Mansfield told a reporter he did not plan to try for Senate action today even if the Appropriations Committee completed a redraft of the House resolution.

Typhoon Holds Up Air War Over Vietnam

SAIGON (AP) — Typhoon Carla ran out of steam today but its backlash of winds and rain apparently curtailed the U.S. air war against North Vietnam for the second day in a row.

WASHED OUT

Carla's center winds over the Gulf of Tonkin dwindled to a piffling 29 miles an hour, but the storm washed out all strikes Thursday by U.S. Navy planes from the three carriers in the gulf.

All air strikes Thursday were flown by Air Force and Marine fighter-bombers from Thailand or South Vietnam. They managed 77 attack missions, including an attack on a railroad bridge 70 miles northwest of Hanoi and infiltration routes and transport facilities in the southern half of North Vietnam.

Reports on Friday's operations over the north will not be available until Saturday, but military spokesmen indicated the storm still was cutting into naval air operations.

GROUND WAR

In the ground war in South Vietnam, the U.S. Command reported that South Vietnamese civilian irregulars led by U.S. Special Forces troops killed 64 Communists two days ago in three scattered actions.

There were no American casualties, headquarters said, and South Vietnamese casualties were light.

The U.S. 1st Air Cavalry Division's 3rd Brigade reported killing another 25 Communist troops while suffering no casualties in a series of small skirmishes in the coastal lowlands 370 miles northeast of Saigon.

Rally Turns Into Melee; 40 Arrested

By The Associated Press

An antiwar rally at Brooklyn College erupted Thursday in a bloody clash between demonstrators and police after more than 40 of the protesting students and two faculty members were arrested.

BRACED

In Oakland, Calif., police braced today against a threatened resumption of demonstrations at the Oakland Armed Forces Induction Center at the end of a sometimes violent "Stop the Draft Week."

University of Wisconsin faculty members meanwhile gave a vote of confidence to Chancellor William Sewell who initiated a get tough policy with unruly student demonstrators on the Madison campus.

A demonstration in support of the war is planned in New York City this weekend by the National Committee for Responsible Patriotism. A two-day

vigil will be held in Battery Park and five parades will step off in the greater metropolitan area on Sunday.

Participating groups will include veterans organizations, union, fraternal orders and "anyone who wants to march or show any spirit for his country," said Charles H. Wiley, executive director of the committee.

The Brooklyn college battle began with a sit-in to protest the presence of a Navy recruiting team in a student activities building. Several hundred students turned on police after the arrests.

INJURED

One policeman was injured in the melee and dozens of students suffered cuts, bruises and torn clothing when a flying wedge of officers fought its way into a student crowd that blocked a roadway.

Troops Airlifted In To Protect Pentagon

WASHINGTON (AP) — Defense officials airlifted troops from as far away as California to counter antiwar demonstrators threatening today to ignore government restrictions and lay siege to the Pentagon with "acts of civil disobedience."

HUNDREDS

Between 15 and 20 Air Force transport planes unloaded hundreds of Army military policemen Thursday after flying them from Ft. Bragg, N.C., Ft. Hood, Tex., and the Presidio in San Francisco. The MPs were the vanguard of what could grow to 5,000 regulars mustered to cope with what some organizers expect to be 70,000 demonstrators bent on shutting down the Pentagon, symbol of the Vietnam war they oppose.

After days of haggling with federal authorities, leaders of the National Mobilization Committee to End the War in Vietnam accepted late Thursday a permit specifying ground rules for the massive demonstration Saturday and Sunday.

But Dave Dellinger, committee chairman, said his group intends "to engage in acts of civil disobedience which may very well entail action beyond the scope of the permit."

He did not say what such acts would involve, but organizers of the protest have said in the past they want to bring the Pentagon's operations to a halt. A few hours later, Dellinger distributed another statement claiming that "some of the conditions of the permit impose unconstitutional restrictions on our fundamental democratic

rights—such as our rights of peaceful picketing and assembly for redress of grievances."

Dellinger objected because "the Pentagon will only allow picketing in a small restricted area."

TERMS

Officials said the terms of the permit allow the demonstrators to set up a stand and loudspeaker in a parking lot well removed from the Pentagon, and to confine their picketing to a grassy triangle about 100 yards from one of the main entrances.

The permit, issued by the General Services Administration which runs government buildings, also covers meetings at the Lincoln Memorial before the climactic demonstrations at the Pentagon.

ONE GIFT
THE UNITED WAY
works many wonders

HINTS FROM HELOISE Baby Wash Made Easier

Dear Folks:

Diapers are diapers and the only complaint I have is that they must be washed. Thank goodness that today a lot of women are lucky enough to have a washing machine. I washed mine by hand . . . and it taught me many things.

Here's some of them. We all know when it's about time for that precious little 'un to do his job. Happens about the usual hour each day. So why not line the diaper with a folded paper napkin? Just be sure that it's the soft kind. These can be cut in half with that old pair of scissors and they go twice as far, thus saving on your budget again. Not only that, but also mother's nerves, bleach and soap. The napkin can be discarded easily. Saves dunking the diaper "you know where" . . .

Also, facial tissue can be used for the same thing. Great. And don't hesitate to splurge on a package of disposable baby diapers. You don't have to use them EVERYDAY. Besides, they can be cut in half, thirds and fourths (which I did) and inserted in the most important place in the middle in each cloth diaper, 'specially when visiting and at night.

These absorb beautifully — where it's needed the most! So buy just one box and try it. You can cut them up with those old scissors again in any shape you want 'em. (Little boys and girls do differ, you know!)

When you put that "little angel" to bed at night TRY tearing at least one gauze diaper (or an inexpensive birdseye) in half or thirds, folding it to

proper size many times and putting it where it'll do the most good.

With the bulk which you will attain from this one small folded piece you will find, with great joy, the baby won't be flooded in an entire wet diaper the next morning when he screams for his bottle. How would you like to be in a wet raincoat eight to ten hours? Also saves on excessive wet pajamas, bed clothing and blankets. Besides, they're EASIER to wash.

And for those lucky enough to have their own washing machines, and soak certain diapers in water (with solutions) — DON'T take your hands and wring them and then start to wash. Just dump the water and all in your washing machine and put it on spin-dry. Then give it a cold water rinse, put your other diapers in and wash them all as usual.

Don't forget that the last rinse water can have a cup of vinegar added to it. Helps cut film. This does NOT have to be re-rinsed. The odor will not be noticeable after diapers are dry, whatever method you use. Makes 'em soft. Cuts down ammonia odors, too.

How I love my old friend vinegar. Did you know that for "certain" diapers you could pour a blub, blub-blub out of the bottle (and that means about a fourth of a cup or whatever noise you hear that comes from a bottle of it without measuring . . .) into that pail of water you soak them in before washing, and that it will help eliminate the "ammonia odor"? This will help neutralize it also.

And may I give my special blessing to all mothers, whether new or old. Those angels you are raising will run the world in the next generation. Give 'em a big kiss from me. . . Heloise

LETTER OF LAUGHTER
Dear Heloise:

When my purchases include crackers, toast, etc., that are to be made into crumbs for a recipe, I ask the clerk to put them in individual bags.

On returning home, I place the bags in the driveway directly in the path of one of the front wheels. Then when I drive into the garage, the wheels crush the crackers, toast, etc., into crumbs.

I have crumbs immediately with little effort. . . Wendy

(Write Heloise in care of the Big Spring Herald.)

Cookbooks Being Sold By Girls

American Legion Junior Auxiliary members are selling cookbooks as a fund-raising project and are decorating trays at the Veterans Administration Hospital. It was announced at the Tuesday meeting at the Legion Hall.

The trays will be completed by Nov. 11, Veteran's Day. The group will participate in the Poppy Day sale on Nov. 4 and the school poppy poster contests. They are making corsages to be entered in the 19th District poppy contest, Oct. 27-28, in Lubbock. Eight attended.

Westbrook WMU Hears Program

WESTBROOK (SC)—"Power Given for World Witness" was the Bible study program presented by program chairman, Mrs. L. B. Edwards Tuesday at 9:30 a.m. in the Westbrook Baptist Church.

Mrs. C. E. Ranne, president, voiced the opening prayer and Mrs. Floyd Rice gave the call to prayer with Mrs. Hoyt Roberts leading the prayer.

It was announced the World Day of Prayer will be observed on Nov. 6. A planning day will be held at 9 a.m. on Oct. 31. Eight members and two guests attended the WMS meeting.

Mr. and Mrs. Charles Maughon, 2160 Locust, Colorado City, announce the birth of a son, Byron Dee, Oct. 14 at Malone and Hogan Foundation Hospital in Big Spring. Mrs. Maughon taught home economics in the Westbrook High School for six years. Maternal grandparents are Mr. and Mrs. J. D. Sprawls of San Antonio.

Mrs. O. G. Burns Leads Study Group

Mrs. O. G. Burns brought the lesson, "Faiths Next Door," at the Thursday meeting of the Mary Martha group at the First Christian Church. Mrs. Preach Martin gave the devotion. Hostesses were Mrs. Dow Keith and Mrs. Roberta Elam. Twelve attended.

Lions Auxiliary Holds Luncheon

The Downtown Lions Auxiliary met at noon Wednesday for a luncheon at Coker's Restaurant. Mrs. Carl Smith is president, and Mrs. Marshall Cauley served as secretary as the group discussed plans for November and December. Eleven attended. The next meeting will be Nov. 15 with the place to be announced.

A LOVELIER YOU

Uplift Bosom With Firming Exercises

By MARY SUE MILLER

The appearance of the bosom-line is affected more often by lift than by weight. To have serious consequences, measurements must be way out of proportion with the rest of the figure — much too small or large.

Uplift resulting from firm tone is the main factor in ideal lines. And, ideally, the bosom's high-rise is on a level with the center of the upper arm. When it falls below the mark, there is every indication that the supporting muscles have gone slack. It is most likely to happen in mature years. It may be triggered at any time, however, by large gains or losses in weight.

The routine below acts to create a firm, youthful line. To perform, you need a sturdy leather strap or belt. This is the action:

1. Hold strap high over head, with hands slightly more than shoulder width apart; pull strap taut and keep it so. By bending elbows, draw strap down behind head to touch shoulders. Then fling arms back to starting position. Go slow on down pull; punch air hard on upward fling. Repeat 10 times daily.

2. Hold strap overhead, as be-

fore. Slowly swing arms in forward arc, until strap touches legs. Swing back to starting position, reaching well behind body. Ten brisk repeats.

ENHANCED BOSOMLINE

For a more attractive bosom, write Mary Sue Miller in care of the Big Spring Herald, requesting her ten cent pamphlet, Enhanced Bosomline. Don't forget to include ten cents in coin and a large, self-addressed, stamped envelope. Enhanced Bosomline contains detailed instructions on how curve and lift can be improved through exercise, posture and corsetry.

PROVIDES SCHOLARSHIP

Piano Teachers Forum Will Sponsor Concert

The appearance here of pianists Charles Webb and Wallace Hornbrook, was discussed Thursday evening by the sponsoring organization, the Piano Teachers Forum, which met in the home of Mrs. Ann Gibson Houser, 183 Cedar. School music teachers were guests, and hostesses were Miss Elsie Willis, Mrs. William Row and Mrs. Chester Barnes.

The concert, which is being held to provide funds for a scholarship at Howard County Junior College, is scheduled for Nov. 9 in the municipal auditorium.

The charge will be \$1.50 for adults and 75 cents for students. That same morning the guest artists will conduct a workshop at the college for all area piano teachers. Hours will be from 9 a.m. until 12:30 p.m., with a registration fee of \$10. Advance registrations may be made with Mrs. H. M. Jarratt, 429 Edwards.

Parents Announce Daughter's Birth

Mr. and Mrs. Marvin Simmons of Fort Carson, Colorado Springs, Colo., are parents of their first child, a daughter, Catharine Ann, born Thursday at the base hospital and weighing five pounds, 15 ounces.

The maternal grandparents are Mr. and Mrs. W. L. Thompson, 1608 Stadium, and the paternal grandparents are Mr. and Mrs. L. M. Simmons, Moss Creek Road.

Costumes Worn For PBX Party

The PBX Club held a tacky party Thursday evening in the home of Mr. and Mrs. W. T. Phillips, 1309 Virginia. The women wore dresses that they had purchased at the club's September auction.

Mrs. John Rains presided and reported that the club donated clothing and food for hurricane victims in the Rio Grande Valley. Miss Alice Williford was chairman for this activity which was a project of all PBX Clubs in Texas. Mrs. Fern Smith announced plans to provide a basket of food for a needy family at Thanksgiving, and Mrs. Melvyn Daratt and Mrs. Alice Crane were named to visit the club's "adopted" patient in October.

Yearbooks were distributed to the 10 attending. They were asked to bring canned goods to the Nov. 2 meeting in the Corden Coffee Shop.

League Members At Dallas Rally

Instructions for Thursday's Texas Division rally day in Dallas was given by Mrs. James B. Deggs at the Wednesday meeting of the Ladies Home League of the Salvation Army. The group met in the Citadel.

Nine from here were to attend the meeting. They are Lt. and Mrs. Deggs, Mrs. Jimmy Moore, Mrs. H. M. Moore, Mrs. Jerry Stephens, Mrs. Wanda Scown, Mrs. William McNew, Mrs. Jackie Rushing and Mrs. Jess Rushing.

The group planned to spend Thursday night at the Salvation Army Camp at Midlothian, returning to Big Spring today.

Birth Announced

The Rev. and Mrs. Jeff L. Smith Jr., 1107 E. 14th, announce the birth of a daughter, Anna Marie, born at 2:30 p.m. Tuesday, at Cowper Clinic and Hospital. The infant weighed six pounds, nine ounces. Maternal grandparents are Mr. and Mrs. Ray Bloodworth of Greenville, and paternal grandparents are Mr. and Mrs. Jeff Smith Sr. of Odessa.

Protestant Women View Air Force Film

The film, "There Is A Way," was shown at the Tuesday meeting of the Protestant Women of the Chapel at Webb Air Force Base. The film dealt with Air Force missions over North Vietnam.

Hostesses were Mrs. Charles Edgar and Mrs. William Koehler, who served refreshments.

Mrs. Smith Swords announced a need for children's summer clothing at the Da Nang Air Force Base in Vietnam. Anyone wishing to contribute may take the articles to Mrs. Swords' home, 2807 Gollad.

Mrs. Richard Formica cited the need for clothing and furnishings for Mrs. Ernest Bauch's daughter and children, ranging in age from infancy to seven years. Mrs. Bauch's daughter was in the hospital giving birth to her youngest child when the Texas floods ravaged her home. Mrs. Bauch is director of the Westside Recreation Center.

The Church Women United will hold Community Day at 10 a.m., Nov. 2, at the First Presbyterian Church. Eight attended.

Hunters Travel To Meeker, Colo.

KNOTT (SC)—On a deer hunt to Meeker, Colo., are J. S. Jackson and Wayne Jackson of Vealmoor and Robert Nichols.

Mrs. J. S. Jackson is spending the week with her daughter, Mrs. Robert Nichols, and family.

B. F. Airhart is receiving medical treatment at the Hall-Bennett Memorial Hospital.

Mrs. Robert Davidson and daughter, Melinda, of Sparenburg visited Mrs. Maedelle Davidson in Big Spring Wednesday.

Bykota Class To Support Mission

Mrs. W. H. Kay presided and announced plans to continue support for a local Baptist mission at the Thursday evening meeting of the Bykota Sunday school class of First Baptist Church. The group met in the home of Mrs. H. L. Derrick, 1204 Pennsylvania, class teacher. Miss Gladys Hardy brought the devotion, and Mrs. Clayton Swinney led in prayer. Refreshments were served to 10.

Yoshida, Who Led Japan Back From War Ruins, Dies

OISO, Japan (AP) — Former Prime Minister Shigeru Yoshida, who led Japan back to prosperity from the ruins of World War II and firmly allied it with the United States, died in his sleep today. He was 89.

An aide said Yoshida died while taking his afternoon nap at his seaside estate in Oiso, 50 miles southwest of Tokyo. Doctors said a gall bladder inflammation and general deterioration of his condition overburdened his heart.

Yoshida's death caused Prime Minister Eisaku Sato to cut short his tour of Southeast Asia. His office said Sato—now in Manila—would return to Tokyo Saturday night after only a brief visit to Saigon instead of spending Saturday and Sunday there as he had planned.

A state funeral will be held in Tokyo in about a week, a government spokesman said.

Yoshida, a prewar diplomat and the foreign minister in Japan's first two postwar governments, became prime minister in May, 1946, and headed the government until 1954, three years after the U.S. occupation ended with the signing of the San Francisco peace treaty.

He headed the government longer than anyone else since the parliamentary system was

established in Japan in 1870.

During his first months in office millions of soldiers had to be demobilized and resettled, a democratic constitution was promulgated, food had to be imported quickly to stave off famine and aid was needed to reconstruct shattered industries.

Five years later Yoshida signed the peace treaty in San Francisco, then signed a security treaty with the United States firmly tying his newly independent country to the free world.

Political enemies accused Yoshida of high-handedness and one-man rule. His square, thrust-out jaw, ever-present cigar and pince-nez delighted cartoonists, who portrayed him in a wide variety of defiant attitudes. But no one questioned his integrity and honesty.

The alleged offense for which Arrick was arrested occurred on March 8, 1963. He was not indicted until Oct. 26, 1965, and not tried until March 18, 1966.

High Court Affirms Case

Jerry Arrick, under conviction for DWI second offense, has lost his appeal to the state court of criminal appeals. The court on Wednesday affirmed the findings of the 118th District Court in which Arrick was tried on March 18, 1966. His punishment was put at nine months in the county jail.

Wayne Burns, district attorney, said that Arrick has the right to ask for a rehearing on his appeal. If he does not, Burns said the mandate of the court should reach here in about 10 days to two weeks and the sentence become effective.

To some congressmen, this sounded almost like an endorsement of the weed and they were horrified.

Goddard, meanwhile, issued a

Weed Less Dangerous Than Booze, FDA Chief Says

WASHINGTON (AP) — The hippies may love him, but some members of Congress are out for the scalp of Dr. James L. Goddard because of his comments about marijuana.

Goddard, director of the Food and Drug Administration, dropped something of a bomb Tuesday at a news conference at the University of Minnesota when the discussion turned to marijuana.

"Whether marijuana is a more dangerous drug than alcohol is debatable—I don't happen to think it is," he said.

Penalties for possession should be repealed, the FDA chief said. He said he favored retention of penalties for pushers, however.

statement which he apparently hoped would put his remark of Tuesday in better perspective.

"The statement that marijuana may not be more hazardous than alcohol can be misleading to those who are not familiar with the hazards of alcohol," he said. "It is estimated that there are 11,000 deaths from alcohol each year—and most experts regard that as a conservative figure."

He noted that saying something is less harmful than alcohol is not to say it is good for a person. The FDA has often ruled adversely against drugs considered less harmful than alcohol, he said.

Tells Editors To Resist Restrictions On News

CHICAGO (AP) — J. W. "Jake" Ehrlich, a famous criminal lawyer, has told some 500 newspaper editors to resist recommendations by the American Bar Association for restrictions on news coverage of trials.

Ehrlich, of San Francisco, spoke Thursday at the annual meeting of the Associated Press Managing Editors Association.

"Do not accept the recommendations of the American Bar Association or its committee," Ehrlich urged.

"Neither the press nor the bar is the exclusive keeper of the keys to the kingdom of justice," Ehrlich said. "I know of no editor who opposes fair trials."

know of no lawyer who opposes public disclosure."

He added: "The problem of free press and fair trial is one in which the use of decency, understanding and charity must be exercised jointly by the agencies of the law and the news media."

On pretrial news coverage, Ehrlich said: "I have tried hundreds of jury cases during my career, and during these years, I have never found that newspaper, radio or television pretrial publicity has done harm to my clients or to me. You cannot prejudice a jury against a Dillinger, an Oswald, a Ruby, a Hauptmann or a Speck. There has been too much publicity about these cases."

The bidding:
South West North East
1♥ Pass 2♦ Pass
2♥ Pass 4♥ Pass
Pass Pass

Opening lead: Ten of ♠

When the situation appears to be well in command, declarer should take a moment to ask himself what might go wrong. South would have found a pause at the opening gun to be most refreshing, inasmuch as the apparently routine four heart contract was in jeopardy.

West opened the ten of diamonds, and when the dummy was spread, it appeared to the declarer, that there was little more to the hand than taking a finesse in trumps. If he succeeded in picking up the king of hearts, then he would score 12 tricks—three spades, five hearts, and four diamonds.

The ace of diamonds was played at trick one and the

queen of hearts was put thru. West followed with the four, North the deuce, and East was in with the king. The latter shifted to the king of clubs on which West dropped the ten. East continued with the ace and another club which his partner ruffed with the nine of hearts.

A diamond was returned and East trumped to score the fifth trick for his side. The ruff was now complete and South conceded a 100-point deficit on the deal.

Had West chosen a club opening originally, declarer would not have had a chance, for the defense obtains an immediate ruff, and then East ultimately scores the setting trick with the king of hearts. With the diamond lead, declarer should have seen to it that his opponents were not offered a second opportunity.

Since South has tricks to burn, he should forgo the heart finesse in the interest of extracting trumps as quickly as possible. After he wins the diamond opening, he first cashes the king and queen of spades. A heart is now led to the ace and the ace of spades is played on which South discards a club.

Another round of trumps follows. If East plays the king and switches to clubs, South can ruff on the third round to provide assurance against an overruff in case West has the long trump. The last heart is now extracted and declarer claims.

Picnic

Youngsters of all ages turned out Thursday afternoon for a stay-in-school picnic led by the Rev. E. J. Browning, pastor of the Methodist Church AME in Georgetown, here Thursday. Here one youngster who can't stay because he hasn't got there yet, learns you have to take off the bottle cap first. Rev. Browning says he is the state director for the Crime Prevention League, an organization speaking out against violence and rioting and urging education and respect as keys to solution of problems.

Silence On French Talk

PARIS (AP) — Silence and skepticism were the main reactions today to a French journalist's book reporting that President Charles de Gaulle believes police were involved in the assassination of President John F. Kennedy and the slaying of Lee Harvey Oswald.

De Gaulle's office refused to comment on the report by Raymond Tournoux that the French president said of the assassination: "The police did the job, or else they pulled the strings or else they let it happen. In any case they were involved."

Police Chief Charles Batchelor of Dallas said: "We are standing on the reports of the investigation by the Warren Commission and will have no comment on the statements attributed to General de Gaulle."

Five Are Arrested For Disturbance

Five young men in their early 20s were charged with disturbance as a result of throwing beer bottles into yards and talking loudly, Friday morning four of the men had paid fines in the amount of \$25 each.

Charges are pending against two of the young men for destruction of private property after the tires of Airman Topper, Webb AFB, were slashed while his car was parked at the 66 Truck Terminal, IS 20 and US 87, Thursday 2:10 a.m.

Battle Of The Knee

Art teacher Hope Palmer's knees — not visible here — are the focal point of the anger of 200 parents who want Hope's miniskirt — also not visible here — banned from Brake Junior High School. The seat of Mrs. Palmer's miniskirt was the target several weeks ago of a kick aimed by a child's grandmother. Hope, 24, says she'll wear what she likes.

Parents Protesting Teacher's Hemline

TAYLOR TOWNSHIP, Mich. (AP) — About 200 parents of children in Brake Junior High would like to see just a bit less of Hope Palmer.

It's not that Mrs. Palmer isn't attractive. She is. And it's not that the 24-year-old former model who teaches art isn't talented. Her superintendent, Simon Katcharian, says she's one of the best around.

But Hope wears miniskirts to school.

The board told the group's leader, Mrs. Carolyn Kalnins, that only she and six others would be heard on the issue of the exposed knee. The board told them, too, that they would not be heard in public.

It was Mrs. Kalnins' mother.

Trailride Starts At Midway School

Participants on Saturday's trail ride of the Howard County Sheriff's Posse are asked to unload their horses at Midway School at 1 p.m. Saturday.

The group will ride to Moss Creek Lake from that point. A sandwich supper, followed later by a campfire, is on tap for the trail riders.

Quads In School Releases Mom For Some Peace, Quiet

HOLYOKE, Mass. (AP) — The Feyre quadruplets have been in school a month and so far Mrs. Raymond Feyre has cleaned out the closets, sorted the family's clothes, cleaned out a basement room, rebuilt her kitchen benches and learned to enjoy peace.

Mrs. Feyre, 42, is the mother of 11 children. The 6-year-old quadruplets—Margaret, Maureen, Robert and Jamie—are out of the house for school for the first time this year.

"It's beautiful," said Mrs. Feyre.

Two-year-old Michael, the youngest of the family, is the only child who remains at home all day.

The eldest daughter, who is 21, is married. The other children are in school. The father is away at business daily.

"I think the main thing about the quads being away," Mrs.

Feyre said, "is that I have time now to enjoy them when they're home. Before there was so much to do that it was all just routine."

"I'm able to plan my day now so that when they get home I am ready for them and can enjoy them."

"It's a terrible thing to say," she said, "but there were times in the past when I felt like a prisoner. You know, I'd be sitting at home and want to get out. But I couldn't do that unless I took everybody along and

that was just too much trouble." "Now," she said, "in the morning I can take Michael and just go. Just get in the car and go and not have to holler at a lot of children. And I can come back when I want to."

When the quadruplets come home about 3 p.m., Mrs. Feyre said they "have a lot to talk about. And then they have their little home work to do."

"I don't think there's any doubt about it," she said, "this is to their good as well as mine."

50 million French Fries can't be wrong.

Youths Held For Hijacking Camper

Two Snyder men, aged 20 and 22, are being held in Colorado City in connection with the alleged hijacking of two Vernon vacationists early this morning.

Lindy Oldfield, deputy sheriff, said that he received a call at 2:20 a.m. from D. C. Congle, and G. W. Anderson, both of Vernon, who said they had been hijacked.

Two Local Steers Place At Dallas

Mike Brady's Hereford steer placed sixth at the Dallas State Fair in the division for animals from 800-875 pounds. The steer entered by Linda Foster, in the same weight group, wound up in 13th place.

These were the only two Howard County animals entered in the Dallas Fair. It had been planned to send several others but the young exhibitors decided their animals were not quite ready.

The local exhibitors and the two county agents, Paul Gross and James Shelton, are due back from Dallas this afternoon.

Stations Got A Bit Squirrely

CINCINNATI (AP)—A bushy-tailed intruder knocked a local radio and television station off the air Thursday for a short time.

The intruder was a grey squirrel that crawled into a transformer at WKRC radio and WKRC-TV and caused a 13,200 volt power line to short circuit.

Dear Abby Of Personal Morals

DEAR ABBY: After reading your letter from the woman who signed herself "California," and your answer that she should not concern herself with what others think, believe me, MY eyes were shot up, too. My son is 30, and we wouldn't think of sharing a room. She claims she did it to save expenses. There must be cheaper accommodations.

I wonder if your answer would have been the same if it had been a father and his daughter? Or perhaps a brother and sister, both grown, but close in age?

And why did the mother casually mention such a matter to her friends? Would she have mentioned that she and her husband had shared a room? Probably not, because that would have been socially acceptable behavior.

I may be stupid to see anything indecent about this, but I think Mamma was looking for approval because she knew it wasn't the thing to do. Usually, you are right on the ball. But no one can be right all the time. I think that woman should at least be told to keep such information to herself.

SURPRISED AT YOU

DEAR ABBY: You were too mild in your reply to Californian. You should have asked her how she felt about families who go on camping trips together. Would she consider it indecent for all of them to sleep in the same tent? Or should they have separate tents? DISGUSTED

DEAR ABBY: To the Californian who shared a room with her 30-year-old son: I am a grandmother of a 27-year-old boy and when we go on trips, we always share the same room. His mother and I think nothing of crawling into bed with him in the mornings for chit chat.

We've had eyebrows raised, too, but we just put it down to nasty-mindedness. There is no harm in it. To a mother he is still a small boy. HIS GRANNY

DEAR ABBY: What amazed me most about Californian's letter was that her 30-year-old son apparently had no objections to sharing a room with his mother. I would have been revolted!

He surely showed a lack of manliness. Furthermore, I am surprised that the motel proprietor would have permitted such an arrangement.

VANCOUVER ISLANDER

Trees Shipped

OLYMPIA, Wash. (AP) — South Vietnam's Da Nang air base is going to be ringed with Christmas trees this year—because of an airman's wish. Airman 2 C. Ronald Key of Mount Vernon, Wash., wrote Gov. Dan Evans asking for "the largest tree we can get." The governor's office said 1,000 trees from state lands will be shipped to the base.

MILADY'S STRING — These pearls, worth \$10,000, are fetchingly displayed by Katana as a prelude to the exhibition of rare jewels to be held in Frankfurt, West Germany.

PREHISTORIC — Harvard savants say this is the remains, found in New Jersey, of a primitive worker ant imbedded in a piece of amber 100 million years old.

RESTRICTED ROUTE — Tracy Lepine-Smith is lucky. Dad built this one-third scale model of a trolley bus and it runs in garden of their home at Great Bookham, England.

MOVING MENAGERIE — It was simpler to march the animals than truck them from rail depot via the Broadway bridge for the circus' stay in Portland, Ore.

LEADER — Morarji Desai holds the dual posts of deputy prime minister and finance minister of India. His chief task is to establish the nation on a sound economic basis.

RELOAD ON HIGH — A Royal Air Force Victor tanker refuels two Royal Navy planes during the Unison 67 flying display over Boscombe Down air base in Wiltshire, England.

BIG BOARD — What you're looking at is the giant Weston main heating and air conditioning control console installation at NASA headquarters in Houston, Texas.

SALES SETUP — They may be on the inside but prisoners at the state penitentiary at Joliet, Ill., with aid of an agent, display art work for public sale.

FUN FOR FREE — Take one cameraman, add two discarded pipe cleaners and use some imagination. This is the pictorial result. "Off to school they go" is the suggested title.

DUAL PURPOSE — It's fun blowing bubbles but also a help for asthmatic Richard G. Lorenzo Jr. Denver hospital authorities say the practice aids the boy's breathing.

DIVIDED LOVE — It's a gag but the new Mrs. John Lenahan played along when hubby took to the tee at Madison, Wis., country club where reception was held.

CHANGING A HABIT — Board and car models are not a game to children in Stockholm. They must learn to accommodate themselves to Sweden's new right-hand traffic.

SHAPING UP — Vet defensive tackle Floyd Peters, who's battled many an offensive charge, builds up his strength.

FUN AT THE FAIR — Vice President Humphrey is at the wheel and Mrs. Johnson is his passenger in a vintage car at the outdoor carnival held on the White House grounds.

NEWS BRIEFS

Riot Units Go To School

MUNCIE, Ind. (AP) — Police called out riot units today in a second straight day of racial disorders at Southside High School.

Baby Nother Arrives

By The Associated Press — Although a baby nother coasted into the Texas Panhandle early today, widely separated points ahead of the new Pacific cool front were the chilliest in the state.

Farm Bureau Parley

AUSTIN (AP) — Some 2,000 persons, including 500 voting delegates, are expected for the Texas Farm Bureau's convention Nov. 12-15.

Shriver Talks On Poor

LUBBOCK, Tex. (AP) — Senator Shriver, director of the Office of Economic Opportunity, said Thursday night, "There are more poor people in Texas than any other state and 70 per cent of all the poor people in America are white."

Shelling In Korea

SEOUL (AP) — North Korean troops fired more than 50 howitzer shells across the Korean armistice line Thursday, killing two South Korean soldiers as they ate in a barracks, the South Korean army said today.

Ducks Do It, Too

WASHINGTON (AP) — Even the ducks are doing it. Ducks, eight of them—each with an orange bill and white feathers—helped a band of women who said they were Long Island housewives picket the White House Thursday.

Snake's Rude Awakening

SAIGON (AP) — A sleeping cobra fell on the belly of a sleeping lieutenant Thursday, and the awakening was rudest for the snake.

Stanton Posse To See New Act

The Stanton Sheriff's Posse will be in Big Spring Saturday with their families for a 2 p.m. visit to the Pet-A-Zoo and see Julius von Uhl, lion trainer who has set up his indoor arena.

Santone Plans Sales Tax Vote

A. D. Blount, Pet-A-Zoo operator, said Uhl will be here the winter months and will stage regular shows. Blount has also acquired a lion of his own, for which he traded off his mountain lion. It is "Rascal," a 12 weeks old cub, which he describes as "playful as a kitten."

Public Gets Chance To See Great Generating Plant

Residents of this area are urged to participate in the Texas Electric Service open house Sunday at its massive power plant near Colorado City.

Viruses May Cause Tumors

WASHINGTON (AP) — There are strong indications that viruses cause tumors in humans and that by exploring this connection cancer may yet be added to the list of diseases checked by science, a federal research official says.

Home Loan Study Starts

FORT WORTH (AP) — The district attorney and two state agencies are probing home improvement loan practices here close on the heels of a similar investigation in Dallas.

Cub Pack Gets Several Awards

COAHOMA (SC) — Awards were presented to members of Cub Scout Pack 236 at a meeting Thursday night in Midway school. Bob Roeber, cubmaster, awarded, and Glen Leopard, president, presented.

LIVESTOCK

Table listing various market prices for livestock and commodities, including items like hogs, cattle, and oil.

Conference Evangelist To Lead Methodist Services

The Rev. Edmund W. Robb, conference evangelist, will be with the First Methodist Church for eight days of revival meetings starting Sunday.

REV. EDMUND W. ROBB

A former pastor of St. Paul Methodist Church in Midland for four years, Rev. Robb was named fulltime evangelist by the Northwest Texas Methodist conference and now operates out of Abilene under a 30-member board of prominent laymen and pastors.

Joining the evangelist team here will be Gene Moore, a Methodist minister and singer, and his wife, Bonnie, vocalist and pianist.

Services will be held at 8:30 a.m. and 10:35 a.m. and at 7:30 p.m. on this Sunday and the following Sunday, closing day of the meeting. They will be held during the week at 7 a.m. and 7:30 p.m., and the pastor, the Rev. Leo K. Gee, invited the entire community to share in these spiritual feasts.

The evangelist formerly was pastor in Marshall, Hamlin and Amarillo, and during a 15-year period led in more than 100 revivals and preaching missions. At Midland, St. Paul's grew from 616 to 1,170 members during his ministry.

He served as chairman of the conference board on evangelism, he toured South America for the General Board of Evangelism and attended the World Conference on Evangelism in West Berlin in 1966.

For the past 10 years, Rev. and Mrs. Moore have been singing in Methodist revivals in 11 states. These have included the National Committee of the

Twelve at Purdue University, and the South Central Jurisdictional conference. They have two record albums.

Homecoming Is Planned

Homecoming Day will be held Oct. 29 at the Coahoma Church of Christ, Ralph Beistle, local minister, said today.

Activities will coincide with the Coahoma High School homecoming on Oct. 28.

On Sunday, the church hopes to set attendance records for both Bible classes and worship services. Bible classes for all ages will begin at 10 a.m. followed by morning worship at 10:30 a.m.

Clant Higginbotham, longtime resident of Big Spring and one of the congregation's first preachers, will be guest speaker for the morning sermon. The sermon for evening worship at 7 p.m. will be delivered by Beistle.

A fellowship dinner at the school cafeteria is planned to honor out-of-town visitors following the morning service.

Rev. Puckett To Give Series On Prophecy

Sunday at 7:15 p.m. the Rev. James A. Puckett, pastor of Baptist Temple at Eleventh Place and Goliad, will begin a series of eight sermons—"The Great Events of History—Past and Present."

These sermons are based on prophecies in the Book of Revelation, and in a sense they are a sequel to a brief series he preached almost two years ago from the same book. Response was so great that the Sunday evening attendance almost equaled that of the morning worship.

Since that first series, he pointed to the Arab-Israeli war this year, plus many other events which focus new attention on prophesied events which appear in the process of fulfillment.

The series will open with a sermon on the state of the church in this age. Others will include: "Will Russia invade Israel? Will the last great battle of history be in Israel? Will there be a world dictator before Jesus comes? Is lawlessness in the streets a sign of the second coming of Christ? Is a United States of Europe in the Bible? Is there coming a time of great tribulation unlike any seen before in the world? What is the mark of the beast? What is the next great event in God's timetable?"

The pastor has made a specialty of serious study of prophetic subjects for 15 years. In addition, he visited the Biblical lands where many concluding events of history have been prophesied to take place. The church also is planning a discussion group in Training Union for every age group at 6 p.m.

Missionaries Protest Policy

An interdenominational group of 23 American missionaries in the Philippines, of whom nine are Methodists and two are Evangelical United Brethren, have addressed to the U.S. government a strong protest and appeal on American policy in Vietnam. Copies of their statement were received by the Methodist Board of Missions in New York.

Calling for the U.S. to take "bold initiatives to stop hostilities" with a cessation of bombing North Vietnam as a first step, the missionaries said America "must make repeated attempts to demonstrate its credibility, its good faith and its genuinely peaceful intentions." "We recognize that risks are involved in what we call for, but these risks are not as great as the present course of steady escalation and widening war."

The statement was sharply critical of U.S. war policy in Vietnam. It said: "We are appalled by the gross evils being perpetrated daily by both sides in the conflict."

Among Methodist missionaries signing the appeal are Dr. and Mrs. Richard Deats of Big Spring.

State BSU Opens Today In Dallas

DALLAS — A leading Fort Worth pastor, Dr. J. P. Allen, is the keynote for a three-day meeting of some 3,000 Baptist students here from 70 Texas college and university campuses.

The occasion will be the 48th annual Baptist Student Union convention at the Park Cities Baptist Church, Friday through Sunday.

Several students from Howard County Junior College are expected to attend.

Howard Payne President Praises Fighting Men

BROWNWOOD — The president of Howard Payne College is busy singing the praises of the American fighting men in Vietnam.

Dr. Guy D. Newman, now in his 13th year as president of the Baptist college, thinks that their morale is high and they are committed to the idea that if their government demands that they stay till the war is over, however long delayed, they will do so.

"Whether we should have gone there in the first place is an academic question," he said, "but now that we are there, it seems that, by and large, most of them believe we should stay until an honorable peace ensues and the Communists are convinced that we are not a paper tiger."

Dr. Newman is kept busy these days with his lecture, "Asia As I Saw It."

He draws his conclusions from a recent trip to Asia. His visit included Japan, Formosa, Hong Kong, Thailand and South Vietnam.

Dr. Newman also points out that the "morale of the South Korean troops was good." He said 90 per cent of the young men of South Korea "assisting" us in South Vietnam have vol-

Church Calendar

INTER-DENOMINATIONAL — BIG SPRING GOSPEL TABERNACLE — The Rev. C. F. Inley, evangelist, will continue the revival through Sunday evening services.

Women Planning Special Week

Methodist women in Woman's Societies of Christian Service and Wesleyan Service Guilds across America will participate the week of Oct. 23-31 in one of their most important annual observances, the "Call to Prayer and Self-Denial."

Initiated by Methodist women in 1887 the call focuses on guided mission study, an offering for special mission projects and a deepened spiritual life. More than 1,800,000 women in 36,000 societies and guilds (the society's auxiliary for employed women) in all 50 states will join in the observance.

The theme of the 1967 call to prayer and self-denial is "Feed My Sheep," taken from John 21:17. The theme emphasizes love and brotherhood through care for children and young women in the United States and leadership training for women around the world. The two major events of the observance are a program meeting for interpretation of mission projects to which money from a special offering will be given, and a quiet day service of prayer, meditation and a silent meal.

Witnesses Plan Circuit Meet

Jehovah's Witnesses of Texas Circuit 31 will hold a three-day circuit assembly in San Antonio, Oct. 27-29, James L. Watkins, overseer of the northeast unit, said today.

"The purpose of the meeting is to analyze our preaching activity and lay plans for additional expansion," said Watkins. He expects 600 delegates to attend.

REFUSAL TO SEEK GOODNESS CAN BRING ON DESTRUCTION

God has established laws for the government of the universe and for mankind. These are flaunted and ignored at the peril of the people.

In Sunday's uniform lesson (Amos 3-6), the prophet sounds a warning and a judgment for Israel's transgressions. Behavior had grown so basically evil that "the prudent (kept) silence." It was not only dangerous to speak out against the practices which have a sobering similarity with many today. He particularly cites the tendency to ease, to place greatest value upon things and upon comfort and pleasure. In the midst of this it was impossible for Israel to be "grieved for the affliction of Joseph (Israel)."

God was obliged to send famine (4:6) and drought (4:7) because Israel had refused to return from its evil ways. Greater affliction lay ahead because of the moral and spiritual deafness. Israel was to be sent into captivity.

The thrust of Amos' appeal was to be related to God in the right manner. It follows inevitably that men then will be related to good in the right way. The standard of goodness is Godlikeness. Thus, it is impossible to turn toward the right without turning away from the wrong. The inner secret of life is seeking God.

Amos sounds a dire warning, "Woe to them that are at ease in Zion . . . that lie on beds of ivory . . . but are not grieved . . ." Yet, he holds out hope for those who "seek good . . . that ye may live; and so the Lord, the God of hosts, shall be with you."

Hippies Hurl Challenges

Hippies accuse the church of being as impersonal as the rest of the society upon which they turn their backs, and challenge it to forget "its past successes" and to become a vital factor in American life today.

So reports Dr. Allen J. Moore on the basis of extensive studies of the off-beatniks.

Not only are the vast majority of hippies "social dropouts from middle-class society and its institutions," but also church dropouts who feel that traditional religious bodies do not practice what they profess to believe and are instruments "of conformity reinforcing the systems which produce the injustices and inequalities in society," Dr. Moore reveals.

In the main, he finds, the hippie movement is "something of a new religion" which blends Hinduism, Buddhism, Judaism, Christianity and Indian folklore with pragmatism, individualism and existentialism, he adds. They fail to realize that even love must have some structure and order.

Dr. Moore, professor of Christian education at the School of Theology at Claremont, Calif., classifies three hippie types—committed hippies, fellow travelers and imitators.

The committed "have dropped completely out of society" and have lost themselves in "tribal living"; fellow travelers include teenagers, students, white-collar young adults, professors, artists, housewives and "even entire families" who are disenchanted with the so-called American way of life and who drop out temporarily; and imitators "play at being hippies." Dr. Moore says in the Christian Advocate, Methodist bi-weekly magazine for ministers and other church leaders. "These oftentimes include the 'squares' who go slumming in the hippie world for kicks."

State BSU Opens Today In Dallas

DALLAS — A leading Fort Worth pastor, Dr. J. P. Allen, is the keynote for a three-day meeting of some 3,000 Baptist students here from 70 Texas college and university campuses.

The occasion will be the 48th annual Baptist Student Union convention at the Park Cities Baptist Church, Friday through Sunday.

FORGOTTEN SOMETHING

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Have you been forgetting something lately? Have you been forgetting yourself?

Let's be completely selfish, for the moment, about this matter of going to Church. Let's look at it solely from your own point of view.

Will the Church offer you an escape from reality? Will it lead you into some kind of a rosy dream world? Will it be your own, personal panacea—a kind of spiritual crutch?

Emphatically no! What the Church will do is give you Faith. It will help you find the courage and strength to meet life's tests. It will bring you complete realization of one all-important fact: with God's love, it is never too late to begin again.

If you haven't been going to church you have undoubtedly forgotten yourself. Start going now!

Nation's Population Due To Reach 200 Million

WASHINGTON (AP) — About 11 a.m. Nov. 20, the United States will reach a milestone achieved only by three other nations in history—a population of 200 million.

That's the time pinpointed by the Census Bureau, which is already arranging a round of ceremonies one official said will include a "few breathtaking moments" while its automatic population counter clicks to 200 million.

Only China, India and the Soviet Union have populations exceeding 200 million.

It took the United States until 1915 to reach its first 100 million; 52 years to reach its second 100 million, but the third 100 million could come in 35 years, even by 1990 under one bullish projection.

When the first census was taken in 1790, the bureau counted

3,929,214 persons, all on the Eastern Seaboard. Since then, Americans have taken the advice of Horace Greeley and moved westward.

The center of population in 1790 was 23 miles east of Baltimore while now it's less than 50 miles east of St. Louis and the westward movement is continuing.

In a report issued earlier this month, the bureau said the West's share of the nation's population will increase to 19.4 per cent in 1985 compared with 16.5 per cent in 1965, at the expense of the Northeast and North Central states.

Population in the South is expected to remain at roughly its present percentage of just over 31 per cent.

Negroes will comprise about 11 per cent of the 200 million Americans, including service-

men overseas. But this is far below the 20.3 per cent nonwhite population counted in the 1790 census.

Since the 1960 census, when 179,323,175 Americans were counted, California has replaced New York as the most populous state and Los Angeles has overtaken Chicago as the second largest metropolitan area. New

York City is in front by far.

The 200 million ceremony will be held in the lobby of the Commerce Department where the census clock—a Washington tourist attraction—clicks off a new American every 13 1/2 seconds based on births, deaths and migrations.

The clock hit 199,833,565 at closing time Thursday.

U.S., Mexican Border Moves Again, As Result Of Beulah

REYNOSA, Mexico (AP) — The United States and Mexican boundaries are due to change slightly as a result of Hurricane's Beulah's terrific floods along the Rio Grande boundary, a Mexican official said Thursday.

David Herrera Jordan, Mexican representative on the International Boundary and Water Rights Commission made the prediction after helicopter flights over the area.

He said the river has carved out variations from the former border line in at least three places that have become evident

since flood waters began receding.

Under international treaty on waters and limits, lands which change from one border to the other because of the Rio Grande's fickle nature will continue to be considered part of the nation to which they originally belonged. The original owners would retain full rights over the affected lands.

Herrera said a more elaborate study will have to wait until waters sink to their normal level but a preliminary survey indicates a swapping of lands is involved near Matamoros and Nuevo Progreso, both in Mex-

ico, and near San Benito, in Texas. About 75 acres near San

Benito now lie south of the river instead of north as before the flooding.

Failure Predicted For Support Of Viet Policy

CHARLOTTE AMALIE, V.I. (AP) — Democrats and Republicans at the National Governors' Conference headed today for a countdown in their battle over a proposal to pledge support for President Johnson's prosecution of the war in Vietnam.

Gov. George Romney of Michigan predicted the Democrats would fail to get the three-fourths majority necessary to bring before the conference a resolution expressing "resolute support" for the President's course.

Gov. Calvin L. Rampton of Utah, one of the resolution's sponsors, said he thought the Democrats have a chance of putting it over although 20 of the 44 state and territorial governors at the conference are Republicans.

"When it comes to a showdown of supporting the boys who are fighting in Vietnam, I don't think some of the Republicans are going to vote like they talk," said Rampton.

GOP Govs. David F. Cargo of New Mexico and Paul Laxalt of Nevada said that wasn't the issue at all.

"We just don't think the governors' conference is the place or this is the time to be making policy statements about Vietnam," Laxalt said.

New York Gov. Nelson A. Rockefeller, who supported the decision of a Republican caucus decision to oppose bringing up the Vietnam matter, flew home Thursday and said he saw little

chance the resolution would be passed. He added that "we all support our boys in Vietnam, but what the governors say or don't say is immaterial."

Romney disclosed at a news conference that he is trying to draft an alternative course to Johnson's.

He said that as a part of this effort he hopes to visit Vietnam in December—and be there for Christmas.

He also said he would use a half-hour television program on Nov. 15 to discuss a recent tour of big city ghettos. But he said he wasn't sure whether he would announce then whether he would seek the 1968 GOP presidential nomination.

The governors already have ducked one controversy—over the open housing issue—with a recommendation of the conference executive committee that a task force report be commended but not accepted officially.

The report, prepared by a committee headed by Romney, laid out a massive program for rebuilding of ghettos, elimination of racial inequalities and adoption and implementation of an open housing law.

Resolutions approved by the executive committee for expected conference acceptance included a fresh commitment to law and order and improved riot control training for police and National Guardsmen. The governors also recommended wire tapping approved by federal courts to combat organized crime.

Communications Agency Talked

WASHINGTON (AP) — Formation of a new federal agency to deal with radio, telephone, satellite and other means of communication—possibly a Cabinet-rank Department of Communications—is under top-level consideration.

A high administration source says several plans have been advanced tentatively for consolidation of some of more than a dozen agencies now in the field. The Budget Bureau, he indicated, will need at least a year to come up with recommendations.

Under orders from President Johnson, the bureau is charged with developing the proposal in cooperation with the 16-member President's Task Force on Communications Policy.

Johnson's Aug. 14 message to Congress mentioned briefly creation of the task force and said it would seek solutions for the multiplying international and domestic conflicts and problems in the communications field.

The realization has dawned belatedly on the agencies concerned that the White House is prepared to consider a major agency shakeup if the task force studies indicate this is needed.

An official reported the proposals range from creation of a 13th Cabinet department to a clustering of some existing bureaus in an existing department. Another proposal calls for a new independent agency, below Cabinet rank. One suggestion is that the communications functions be merged into the youngest of the present departments, to form a Department of Transportation and Communications.

The only centralized authority now existing belongs to James D. O'Connell, who has a tiny staff as Director of Telecommunications Management in the Office of Emergency Planning, a White House unit. O'Connell also is a special assistant to Johnson.

The planning effort reportedly

caused some concern at the Federal Communications Commission, the regulatory agency in the field. One well-posted official suggested that no serious tampering with FCC's regulatory and rate-making powers is likely.

Likes Prison Life Better

RENO, Nev. (AP) — "A man is better off in the penitentiary," a Seattle man told police officers who arrested him.

Lester Kenneth Price, 40, said he has spent half his life in prisons.

Officers said he attempted to cash a counterfeit \$87 money order in a downtown casino Wednesday. The order was drawn on the United States National Bank of Oregon.

Price told police he cashed nearly \$10,000 worth of the checks in Western states the last few months.

He said he was glad he was apprehended.

"You get to the point where you have no friends and can talk to no one or tell the truth to anyone, and no future. A man is better off in the penitentiary."

Returns Check For \$150,000

SEATTLE (AP) — An unidentified woman turned over to police Thursday a piece of paper she had found on a sidewalk. It was a check for \$150,000.

Investigation revealed the check, made out to King County from a suburban sewer revenue bond fund, had been dropped by a bank messenger en route to the courthouse.

Come on out this Saturday to OPEN HOUSE

It's family day at our Morgan Creek Power Plant on Lake Colorado City 10 a.m. to 6 p.m.

- Plant tours
- Door prizes
- Music
- Refreshments
- Favors

Come on out to our Morgan Creek power plant on Lake Colorado City and visit us during our Open House on Saturday, October 21.

This will be an opportunity for you to see a modern outdoor-type steam-electric generating station . . . one of the largest in the Southwest. Guides will be on hand to show you interesting features of the plant, and to explain how the plant operates and how electricity is produced.

While at the plant, you'll see our new 500,000 kilowatt steam-electric generating unit which is the most recent

addition to the Morgan Creek plant and the largest generating unit in the Texas Electric Service Company system.

Ample electric power is an asset vital to the growth of any area. By planning ahead and building facilities such as the Morgan Creek power plant, Texas Electric Service Company is making sure that plenty of dependable electric service will be available for the continued growth of the areas served.

Be sure to visit us during our Open House, Saturday from 10 a.m. to 6 p.m. We'll be looking for you!

LADIES MAY BE MORE COMFORTABLE IN SLACKS AND LOW HEEL SHOES.

A Devotional For The Day

I came not to judge the world, but to save the world. (John 12:47)

PRAYER: O my Savior, I am thankful for the sacrifice You offered on the cross at Calvary. Help me to serve Your people according to God's holy will and to His honor and glory. In Your name I pray. Amen. (From the 'Upper Room')

Standoff

When President Johnson recently applied a freeze to all new government projects not already under contract he lit a time-delay fuse. Now the effects of that action are beginning to be felt.

This was the President's answer to the decision of the House Ways and Means Committee to abandon consideration of his request for a 10 per cent income tax surcharge.

Construction starts contemplated by the Department of Health, Education and Welfare would have approximated \$100 million a month. This includes almost \$30 million in contracts for new post offices and for postal equipment.

Work under the Rivers and Harbors Bill, one of the pet "pork-barrel" programs of a majority of members of Congress, will soon come to a halt, with no new starts authorized. This

touches home, since it curtails channel deepening and widening and other projects on the Intracoastal Canal and connecting works.

Even nonessential travel by government employees has been banned.

What is the prospect? Apparently the freeze will continue as long as the President's tax plan remains in limbo. That should be at least until early next year.

By then members of Congress may have had a chance to talk with their constituents, who also seem to oppose a tax increase, but who may have begun to feel the effects of inflation. Many if not most economists and businessmen are agreed that the alternative to a tax increase is inflation. That inflation may indeed take more from the average family pocketbook than a tax increase.

Time For Serious Search

The resignation of Billy Paul Thomas as the supervisor for Howard County roads should be a fresh reminder of the need to search for a county engineer.

The resigned supervisor had been with the county road department for many years and had doubtless accumulated considerable knowledge about the operation of the county road department. This knowledge and his long tenure made it handy to handle administration on this basis.

The county has been without the services of an engineer for a long, long time, and all projects planned by the last engineer have been accomplished. The time is at hand when a technically trained man, one experienced in road and similar construction and with a reasonable background in administration, be secured to consolidate and direct, under policies set by the commissioners court, the operation of the county's largest single department.

Marquis Childs

Restlessness In Humphreysland

ST. PAUL, Minn. — In the heart of Hubert Humphrey land a revolt is brewing. Once-ardent activists in the Democratic - Farmer - Labor party have joined with dissenting Democrats to try to substitute a favorite son delegation for the Johnson-Humphrey slate at the national convention next summer.

DEEPLY TROUBLED by the expanding war in Vietnam, their goal is to pressure the administration to de-escalate and find a compromise solution for ending the war. Several hundred sponsors signing a newspaper advertisement in the form of an open letter addressed to President Johnson said, "Your administration threatens us daily with the prospect of an all-out confrontation with China and inevitably with the Soviet Union, leading us inexorably toward a thermonuclear holocaust."

While many of the signers are professors at the University of Minnesota and the other colleges in the Twin Cities area, they cannot be dismissed as merely being the "intellectuals" whom Secretary of State Dean Rusk scorns. These men and women have been the heart and soul of the DFL party in urban Minnesota. As one of Rep. Donald M. Fraser's principal workers put it, "That list reads like Don's volunteer committee in the last campaign."

THIS IS THE point that Rusk and others in the administration simply do not get when they spurn the intellectuals. For the Democrats in state after state they have supplied

Billy Graham

My wife and I were church members for many years, and then we found Christ as our personal Savior. Three of our children go along with our new-found faith, but our oldest son is very rebellious, and says he wants nothing to do with that "Bible Junk." Our question: how does one deal with such a problem? G.F.G.

You are fortunate that three of your children have accepted Christ, and I have no doubt that the older son will do the same, given time. You see, you brought your children up under conventional church-going, without them knowing anything of a real experience with Christ — and your older son obviously was quite happy the way things were. Walking daily with Christ imposes some discipline upon an individual, and your son probably thinks you have gone "overboard" on religion, and is rebelling against the restrictions your new faith may demand of him. Let's face it: to be conventionally religious brings no stigma from society. But Paul said that the "preaching of the cross is foolishness to them that perish," and this includes your son. He considers the deep consecration, the Bible-reading, and the prayer that has developed from your new walk with Christ irrelevant, no doubt.

Be patient with him, and do not try in any way to force him to accept your new way of life. In due time he will see that your new way of life is superior to the old. This will take time, and he may test you to the limit. But all the while he is making an appraisal. If you are faithful, God will honor your consecration and prayers.

Around The Rim

Now Here's A Garage Sale

The city editor and I were thinking along the same lines the other day when he used this space to explore garage sales—the latest fad money play to obtain a little extra money that the leaders haven't earmarked for necessities like new golf clubs.

I, TOO, WOULD like to have a garage sale. Yes, the GARAGE — the whole bit, take-it-or-leave-it, no exchanges, no refunds, and no questions asked.

It has become a sore spot with me, and I do mean sore. It just sits there like a cancer, growing and spreading until the malignant mess is beginning to spill out into the driveway. I envision it soon oozing down the street and out to sea. Who knows on what foreign shore the waves may deposit our perfectly good two-pound coffee cans and utterly useless rake handles? And think what passing interest might be added to the flotsam and jetsam of the seas by our battered suitcases, broken lamps and just bad bargains.

THAT'S WISHFUL thinking. It's not going away—ever. It's just going to stay there and swell, with no one to put it out of its misery. It was my intention to do something about it long ago, but it got too big for me. Now I just habitually go out after dark and shift things around to make it as comfortable as possible.

LET'S SEE, what could we sell? What's in that old green Navy footlocker other than a stenciled World

War II uniform? Hmmm. Navy regulations book (unread so good as new), diagrams to identify Navy planes (you never know when one of those devils may make it back), and a list of coded phrases. (These might be hard to work into conversation unless your companion is Japanese.)

BACK THERE in the shadows, under that torn tarp, well, what do you know? I've been looking for that box for ages. Those little metal cup things came from France and you're supposed to cook something in them (maybe you know what), and that cookie cutter turns (you just wheel it across the dough, you know, and get dainty little shapes) and there's that octagon-shaped pie pan (it provides a guide for serving so that nobody gets huffy about who got the biggest piece.)

CAN YOU SQUEEZE past that trunk-size wooden box? Say now, you won't want to pass up this! It holds a shedding pair of Eskimo mukluks (a love gift) and a grass skirt (everybody else was sending them home) and the wooden shoes that came from Holland. (These are practical if you have small feet or you can fasten to a kitchen wall and grow ivy in them like I did). The voodoo candles you can burn while you're stinking pins in an effigy of some gal you'd like to see gain 20 pounds.

Ha! I see you're finally getting interested! All right, ladies, what am I bid? —JO BRIGHT

David Lawrence

Story Was Told 15 Years Ago

WASHINGTON — Memories are a re short—and what happened 15 years ago at the Geneva conference which tried to bring peace to Indo-China is pertinent today. For almost everything that has since occurred in Vietnam was envisaged by many observers in 1954. The great powers of the world, however, failed to perceive that they were merely temporizing and brushing aside a problem that was destined to grow even more serious a decade later.

THIS CORRESPONDENT spent several weeks in Geneva and witnessed the chagrin of Secretary of State Dulles and his associates as the representatives of Great Britain and France, listening to the appeasers back home, accepted a patched-up agreement that wasn't worth the paper on which it was written. The United States found it necessary to disassociate itself from the "settlement."

The day of reckoning now has come, and another surrender is actually being advocated. In order to understand what occurred in 1954, it may be informative to take an excerpt from a dispatch which this correspondent wrote at that time:

"GENEVA, JULY 14, 1954 — There are some folks in the world who naively believe the Indo-China war is just a natural movement by the people there to gain independence and that the rebels are merely persons who have embraced communism as a political philosophy. The evidence shows clearly that Red China has been guilty of aggression in neighboring countries. Here are the words of Secretary Dulles bearing on this point:

"The situation in Indo-China is fraught with danger, not only to the immediate area, but to the security of the United States and its allies in the Pacific area. That area is one which is vital to the peace and safety of the United States.

"COMMUNIST CHINA has been supplying to the Viet Minh (Ho Chi-Minh's forces) an ever-increasing vol-

ume of munitions and military supplies. There is also evidence that Soviet arms have been supplied in increasing quantities to Communist forces in Indo-China.

"In their classic manner the Communists have sought to capitalize on local aspirations for independence, and have used these aspirations to gain control of a movement which was primarily nationalistic in its inception.

"THE RULERS of Communist China train and equip in China the troops of their puppet, Ho Chi-Minh. They supply these troops with large amounts of artillery and ammunition made in Soviet bloc countries. They supply military and technical guidance in the staff section of Ho Chi-Minh's command, at the division level, and in specialized units such as the signal and engineering corps, artillery units and transportation.

"The plan is not only to take over Indo-China but to dominate all of Southeast Asia. The struggle thus carries a grave threat not only to Vietnam, Laos and Cambodia, but also to such friendly neighboring countries as Thailand, Malaya, Burma, Indonesia, the Philippines, Australia and New Zealand."

THIS WRITER, on returning to Washington from Geneva, wrote a dispatch on July 21, 1954, from which the following is an excerpt:

"Plainly the trend in Europe on the part of America's allies is toward further surrender to Communist imperialism. This is ominous because some day the allies will wake up to the imperative need of taking a stand. The Communists will think it is a bluff, as they have regarded every action of recent months. In the end, a third world war can come because there will be no way to avoid a showdown of arms. The Indo-China truce, like the so-called peace at Munich, may not prove a harbinger of peace but a precursor of war. It is an hour of great tragedy for the free world." (Copyright, 1967, Publishers-Holt Syndicate)

The Iran-Israel Understanding

TEHRAN, Iran — It isn't impossible to understand the Middle East, but it's almost beyond human powers of elucidation to explain it. The visitor here meets many Arabists, entrepreneurs, scholars and old residents who know what it's all about, but the subject is too full of incredible complexities and contradictions to yield to a wrap-up presentation.

IN THE 1930's Persia changed its name to Iran. The ethnic stock, as the name was intended to show, is Aryan. The Hitlerites in Germany hailed Iranians as close kin to the Master Race and hence blood enemies of the Hittite breeds, which include both Arabs and Jews. This suggests a pat explanation of why West Germany is today the largest single supplier of goods to Iran (20 per cent of the total Iranian imports come from the Federal Republic) with the USA in second place with 17 per cent. But, in fact, Iran is culturally closer to the Arab World than to Germany. Moreover, Iran maintains an affinity-of-convenience with Israel which largely owes its foundation to Germanic brutality and precariously keeps its existence in the face of Arab hatred.

IRAN, THEN, is a triborough bridge that makes an unbelievable linkage between what was once Jew-hating Germany, and what are now the Jew-hating Arab States, and what is often assumed to be the regionally isolated Israel. Actually, West Germany sells its goods here not because of any ethnic ties, but because it out-hustles other competing nations in salesmanship. And the Arab cause against Israel is publicly supported by Iran partly because of Arabic linguistic ties and the cohesion of the Moslem religion, but despite a popular and po-

litical detestation of Gamal Nasser. IF THAT ISN'T complicated enough, consider why Iran has an almost unmentionable friendship with Israel. These two countries do not accord one another any diplomatic recognition. But instead of exchanging ambassadors, they exchange representatives. Each has a somewhat sub rosa mission in the other's capital. Israel gives foreign aid to Iran, mostly in agricultural technology, but it is done on the Q.T., and does not ordinarily get into the newspapers.

THE CHANGING relationship between Iran and the USA also takes expert explanation to the curious reporter. For example, there is the planned pipeline which will carry natural gas from Iranian oil fields into Russia. This physical joining of the two economies, especially in the sensitive commodity of petroleum products, certainly is not in the American interest. And although the pipeline is being laid through Iranian territory by European companies, two American companies are in on the work.

THE MOTIVATIONS here are intricate. The USA does not choose to thwart Iranian freedom of policy, having striven to implant it. The Shah, who makes all important decisions in Iran, does not choose to grant American exclusivity in his country's affairs, his country having a long memory about Western imperialism. And yet it is vital both to Iran and the USA that American influence be paramount, though not omnipotent, throughout this Soviet frontierland. Nobody with knowledge much doubts that the paramountcy will remain. The Shah will go so far, no further, with Russia. (Distributed by McNaught Syndicate, Inc.)

'DON'T TELL ME HOW TO PLAY A DRUM'

Meat Prices Wrangle

By OVID A. MARTIN
Associated Press Farm Writer

WASHINGTON (AP) — The housewife's complaints about meat prices are matched by grumblings over the same thing from down on the farm.

The family shopper insists meats cost too much, so as a consequence she often turns to chicken, fish and the like.

But the livestockman says prices are too low for meat animals and he is having trouble keeping his head above economic waters.

THERE IS room for debate, but many of the dollars-and-cents facts are on the side of the livestock farmer.

Furthermore, it appears certain for the long pull that meat prices will tend to be a little higher. Otherwise, there is apt to be an inadequate supply.

How high are meat prices? The Agriculture Department reports choice grade beef sold nationally at an average retail price of 83 cents a pound during the early summer. This compared with 85.5 cents a year earlier and with 78.1 cents for the 1957-59 average.

PORK SOLD at an average retail price of 66.1 cents a pound last summer compared with 72.4 cents a year earlier and a 1957-59 average of 60.5 cents, said the department.

This year's prices are discouraging production of hogs and beef cattle. The number of beef cattle on farms is declining for the third consecutive year. This year's calf crop was down one per cent from last year and farmers cut down on the number of pigs raised.

If the livestockmen were making big money producing beef cattle and hogs, they would not be likely to curtail their operations.

Government reports show, however, that many cattle feeders did not get enough from the sale last winter of

quality fattened cattle to cover costs.

CATTLE PRICES have eased upward a little in recent weeks, but not sufficiently to encourage any sizable increase in production.

Hal Boyle

Best Free Shows

NEW YORK (AP) — Jumping to conclusions:

The biggest problem with this civilization is that so many of us are all stressed up—but seem to have no place to go.

AFTER 45 the two hardest things for a man to find are an interesting woman conversationalist and a good cigar.

To any true lover of the human race what is most rewarding about a trip to the zoo is watching not the animals but the people watching the animals.

If you are placid enough to peel and enjoy eating artichokes, you'll probably never die of hypertension.

WHEN RETIRED generals and colonels over 70 get together, they are less likely to brag about their victories than to bemoan the fact that the U.S. Army has never been the same since it did away with the horse cavalry.

No matter how many spectacular television puts on, the greatest free shows on earth are still sunrise and sunset.

One of the things I can't figure out is whether I'm getting stronger—or shoelaces are getting weaker.

WHEN A GIRL in talking to her fellow begins to address him by name less and less often, that is a pretty sure sign the romance is coming to an end. A girl truly in love likes to sound the guy's name over and over—even if he is named Eustace or Wirberforce or Herman.

Gourmets don't spend all their

time searching for new and exotic dishes. They get as much enjoyment out of a well-cooked pot of baked beans and bacon as anyone else.

If modern youth has decayed so badly, why is it so many of these kids can beat their parents at kid rummies?

No woman goes content to her grave unless she has owned at least one fur coat in her lifetime.

WHEN A CLERK in a Manhattan store says "thank you" as he gives you back your change, you automatically wonder what other part of the country he was born and raised in.

The easiest way to tell whether a husband is henpecked is to look at the ashtrays in his living room. If they are man-size, instead of those little dinky dunks that women insist on, you can be sure that he is masher in his own house.

A perfect martini and a perfect marriage have something in common: neither ever really requires an encore.

HALF THE cases of "walking pneumonia" in America today are guys who bought a topcoat with a zip-in warmer but who are just too darned lazy to zip it in when cold weather hits.

A true philanthropist is a bald-headed man who carries a pocket comb, just in case one of his friends might need it.

Flattery may get you nowhere personally in this world, but it'll always get you one thing—an audience.

To Your Good Health

Two Diseases—in One—Of A Leg Bone

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: Please explain Legg-Perthes disease. My son, 6, has it, and is to have an operation. I understand it usually takes three years to heal, but with an operation, less time. Will he always walk with a limp?

Dear Doctor: Please tell me something about Osgood-Schlatter's disease. Is it something terrible, so people don't want to talk about it, or is not much known? Can it happen to a person over 21?—A.R.

These are similar diseases except for the location. Both involve a softening of the bone (non-infectious necrosis is the technical term) due to interruption of circulation to that area of bone.

Reason for the impaired circulation is another matter; it may be from some injury, but it is seldom easy to find out for sure.

In any event, given time, the circulation returns to normal and the bone regains its proper hardness and strength.

The important thing is to relieve the softened bone from stress until it has hardened again. Otherwise the bone can be shortened or otherwise distorted from pressure on it while

it is soft.

Legg-Perthes involves the top of the thigh bone where it joins the hip joint. If it is not treated as soon as detected, the softened bone becomes shorter, resulting in a permanent limp—unless, in a given case, some surgical means of correcting it is possible.

The simple although time-consuming treatment is to see that a child (this is essentially a problem of growing children) puts no weight on the affected leg. This may involve brace, cast, wheel chair, or a combination. Relieved of pressure, the bone tends to correct itself as circulation resumes, but this may take from one to three years.

Osgood-Schlatter's is different in that it affects the large bone of the lower leg, producing pain and tenderness below the knee. Treatment is to limit movement of the knee for about six weeks, usually with a plaster cast. Prospects of recovery are good—the tenderness calls attention to the condition promptly.

With either disease, infection is not present and this, of course, is a good thing, since bone infections can be difficult to control.

There is a tendency, understandable enough, especially

with Legg-Perthes, to feel that "the doctor ought to do something" besides keeping weight off the affected bone. Actually there is little or nothing to be done that is preferable.

In some cases surgery may be necessary, and there may very well be something about the case in today's letter of which I am not aware. Therefore the question about a limp had best be referred to the doctor handling the case.

As to getting Osgood-Schlatter's disease after age 21, I would think it rather unusual but cannot see why it would be impossible.

For a comprehensive discussion of how to cope with the change of life, including scores of pertinent questions and their answers, send in care of The Herald for my booklet, "Make Menopause Easier" enclosing 25¢ in coin and a long, stamped, self-addressed envelope to cover cost of printing and handling.

Dr. Molner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Dist. 2-4A Will Grow

Odessa Ector has been added to District 2-AAAA, which becomes 3-AAAA in 1968 when the state's conference alignment experiences growing pains.

The circuit will retain its other members, including Big Spring. Ector became eligible for membership when the Odessa schools were integrated and many of the Negro students were assigned to Ector.

The El Paso area is being divided into two districts (1-AAAA and 2-AAAA).

The realignment plan involves many other area clubs, too. District 3-AAA retains its eight schools and adds Colorado City (up from AA), Slaton and Lubbock Estacado.

Stanton moves from 4-AA to 6-AA, which has Big Lake, Crane, McCamey, Midland Carver and Ozona as other members.

Tahoka, up from Class A, replaces Stanton in 4-AA.

Coahoma remains in 5-A but Lubbock Cooper and Wink have been added to that circuit, which has O'Donnell, Plains and Seagraves as other members.

Sands moves up from eight-man ball to 11-man, joining 6-B. Other schools in that district include Hermleigh, Jayton, New Home, Roby and Wilson.

Forsan goes into 7-B, which will have Bronte, Hawley, Lo-

Pokes, Rams Should Win

Palmer Looks For Trouble At Houston

HOUSTON, Tex. (AP)—How about a Ryder Cup match pitting players such as Arnold Palmer, Jack Nicklaus and Bill Casper against a British Commonwealth team including Gary Player of South Africa, George Knudson of Canada and Bob Charles of New Zealand among others?

Such was the widespread speculation as one of sport's most one-sided competitions—the biennial golf series between the top pros of the United States and Britain—opened today over the sprawling Champions' Cypress Creek course.

"It would be a tough match," said Palmer.

"They might even beat us," added Johnny Pott.

American pros have made a mockery of the Ryder Cup, which grew out of a discussion over afternoon tea in 1926, winning 13 meetings, losing only three and never dropping a decision on this side of the Atlantic.

They are prohibitive favorites to continue that mastery in the 17th match, starting with eight Scotch two-ball foursome matches today.

Here is the line-up for the opening 18-hole matches, in which two-man teams play one ball, hitting alternate shots:

Julius Boros and Bill Casper, United States, vs. George Will and Brian Huggett, Britain.

Arnold Palmer and Gardner Dickinson, United States, vs. Christy O'Connor and Peter Alliss, Britain.

Doug Sanders and Gary Brewer, United States, vs. Tony Jacklin and Dave Thomas, Britain.

Bobby Nichols and Johnny Pott, United States, vs. Bernard Hunt and Neil Coles, Britain.

Eight four-ball matches, the better ball counting, are scheduled Saturday with 16 singles contests completing the series Sunday.

Dallas 24, Pittsburgh 20—This may be tough to do—without Dandy Don Meredith and Steelers are seething after loss to Giants. Cowboys have too many weapons, plus a tremendous pass rush.

San Francisco 23, New Orleans 14—Forget the preseason win by Saints 24-10 at Portland Aug. 26. This is for keeps. John Brodie's passes and that big back attack will do the job while the Chase Saints' Gary Cuzzo to cover.

Cleveland 21, Chicago 14—This pick is a shaky one. Bears' defense is best against passes and Browns have scored 10 of 15 touchdowns in air. Leroy Kelly vs. Gale Sayers on the ground could be a draw but Frank Ryan gets the nod over any and all Bear passers.

Detroit 21, Atlanta 14—Injury to Mel Farr tough blow to Lions who already had lost Nick Eddy. Return of Pat Studstill should help. Falcons should be fired up after tie with Redskins.

Kansas City 21, Houston 17—Chiefs won season opener 23-20 but Oilers picked off six Joe Namath passes last week in 28-28 tie with Jets. If Pete Beathard has learned Houston offense, he might upset his old mates but Len Dawson and Otis Taylor should be enough to save the day.

New York 20, Miami 14—A turkey shoot. Namath can call his shots against Dolphins' defense. New York won first meeting 29-7, Oct. 1.

San Diego 31, Denver 17—John Hadl impressive in Chargers' 45-31 win over Kansas City with speedy Les Duncan sparking the defense. Broncos coming off bye week should get improved effort from Steve Tenst.

Boston 24, Oakland 21—Oakland won 35-7 when they met earlier but Patriots have been rolling in recent weeks with Babe Parilli dealing a hot hand and Jim Nance enjoying three straight 100-yard plus days. Raiders ran against Buffalo but will pass against Pats' weak secondary. A Gino Cappelletti field goal may win it.

Texas, Rice Given Nod

By HAROLD V. RATLIFF Associated Press Sports Writer

Texas, Rice and Texas A&M are favored to win Southwest Conference football games this week, and if predictions are upheld Rice will be leading the league come Saturday night.

But forecasts have been as erratic as the weather of late, and it could be that Southern Methodist or Arkansas will be on top when the last gun fires.

Texas goes into the Ozarks for its annual melee with the Arkansas Razorbacks, with the loser to fall out of contention in the title race.

Rice is host to Southern Methodist, which right now is on top of the heap through a 20-17 victory over Texas A&M Sept. 16, although it has lost three straight since then. Those three happened to be nonconference games.

Texas A&M, all pepped up at winning its first game of the season last week—a 28-21 triumph over Texas Tech, goes to Fort Worth to play the Texas Christian Horned Frogs, who haven't won yet.

Baylor, which only has a 10-10 tie with Arkansas to show for its conference efforts, rests this week while Texas Tech journeys to Florida to play Florida State in the lone intersectional game. While the Rice-SMU game may mean more and the Aggie-TCU rivalry is most attractive, major interest, as usual, rests on Little Rock, where Texas and Arkansas clash in one of the two day games on the schedule.

It will be nationally televised, which doesn't augur good things for Texas. The two teams have met before the cameras three times in the past seven years and Arkansas has won all three.

However, Texas is a 5½-point favorite since it seems to have more skill than the sophomoric Razorbacks, with Bill Bradley finally hitting his stride and the whole Longhorn team looking up since that fine last fall come-

Goliad Defeated By Sweetwater

Goliad's eighth graders dropped a 30-0 decision to Sweetwater here Thursday afternoon.

The Mavericks are still winless after six starts. They get another chance against San Angelo Edison here next Thursday.

Despite the reversal, the Mavs had their defensive standouts, among them Rondal Brock, Bill Stewart and Scott Knight.

They Look To Abilene Tonight

Pictured here are the quarterback and two ace blockers on the Big Spring High School football team, which invades Abilene tonight, seeking to win its first victory against an AHS team since 1940 on an Abilene field. The boys, from the left, are Jerry (Moose) Ryan, Bill Burchett and Mike Rios.

Steers Seek Fourth Victory In Abilene

Two District 2-AAAA contestants, neither of which appears to be going anywhere in the league race, clash at 8 o'clock this evening in Abilene.

The antagonists are the Big Spring Steers, 3-2 on the year and 0-2 within the family, and Abilene High School.

Abilene is favored, if for no other reason than it has held the whiphand over the Steers down through the years. Big Spring hasn't beaten the Eagles at home since 1940 and the Longhorns have had some pretty fair teams since that time.

Both teams are plagued by injury problems. The Steers must get along without ace line-backer Rocky Wooley and center Bob Purser.

Abilene will go into battle without its quarterback, D. D. Douglass, one of the leading ground gainers in the district.

The Eagles will lean mainly on a durable line and a penchant for letting the other team make mistakes.

Big Spring appears to have jelled only recently. The Longhorns should have beaten Mid-

Handball Meet Opens Nov. 6

A singles handball tournament for members will be held by the YMCA, starting Nov. 6 and continuing through Dec. 18. Entry fee is \$2.

Handballers can play their matches at their leisure, so long as they respect the opening and closing dates of the meet.

The winner in each of two divisions (A and B) will be determined in a double-elimination style meet.

Trophies will be awarded to first, second and third place finishers in each division.

Entry blanks are available through Mike Harris at the Y. Defending titlist is Aramis (Tito) Arencibia.

Sophs Nudge Cee City 11

COLORADO CITY — Big Spring's scintillating sophomores had their goal line crossed for the first time this year here Thursday evening but made a first quarter touchdown and an extra point stand up for a 7-6 victory over Colorado City's B team.

Following the game, the Dogie coaches lauded the Cee City team and said it was the best team the Big Springers have played all year. The Dogies had previously beaten Forsan's B team, Coahoma's B team and soph units representing Andrews and Midland.

Herman Evans took a quick pitch from quarterback Gary Hughes and ran 80 yards for the Big Spring score, after which Fernando Mendoza boot- ed the all-important extra point.

The Dogies ran up about 350 yards total offense and composed a constant threat, but eight fumbles hurt them badly.

On two other occasions, Big Spring was in Colorado City's 20 in the first half but couldn't mount the necessary fire power.

The Dogies' defensive unit yielded only two first downs to Cee City the first two periods. The Wolves counted early in the fourth on a 50-yard drive, ultimately going over from the one on a third-down play.

The Wolves throw went for broke on the extra-point try, but Mike Barnes knocked down a pass.

JV's Tangle With Odessa

The Big Spring JV's go after their fifth straight victory at 2 p.m. here Saturday, at which time they host Odessa High's powerful B team.

After losing their opener to San Angelo, 14-0, the local JV's have come back to topple Snyder, 26-0; Andrews, 14-8; Abilene, 36-20; and Midland High, 21-0, in that order.

Odessa has lost twice this season but local coaches insist that the Hossea will be one of the toughest teams the locals have faced this year.

The Odessians are coached by Harold Kirk, former head coach of Midland High School.

Evans Favors Foot Injury

COAHOOMA — Halfback Ricky Evans was injured in practice earlier this week and it is unlikely he will be able to play against Tahoka here tonight.

Coahoma needs a win over the Tahoka club to remain in the running for the District 5-A crown.

Evans was on pass defense in the drill when he was kicked on the foot.

Middle linebacker Rodney Wall of the Bulldogs is still favoring a bad sprain he suffered in the Brady game.

Cliff Thomas of the Tahoka club is probably the biggest running threat the Coahomans will face all season. Some backers are promoting him for all-state honors.

Bubba Wyche Starts For Vols Saturday

By The Associated Press
 Bubba Wyche gets a chance Saturday to be the Volunteer of the Year.
 The 21-year-old junior from Atlanta didn't ask to be starting quarterback, but because of injuries that's what he'll be when the seventh-ranked Tennessee Volunteers meet No. 6

Alabama in the big game of the college football weekend. To Wyche is given the burden of penetrating an Alabama defense, which is not as potent as past seasons but has been good enough to help keep the Crimson Tide undefeated in four games.
 Wyche did the job last Saturday when he replaced injured Charlie Fulton in the first quarter and guided the Vols to a 24-13 victory over Georgia Tech. Fulton, who started the season at tailback, moved to quarterback when the talented Dewey Warren injured a knee in the 27-13 victory over Auburn.

Warren will be in uniform and might see action, but Fulton will not play because of a broken rib.

All of the other Top Ten also see action Saturday.
 No. 1 Southern California is at Washington, second-ranked Purdue is at home against Oregon State, UCLA is at Stanford, No. 4 Colorado is at Nebraska, Wake Forest plays at No. 5 North Carolina State at night.

Lamar Triumphs By 14-0 Tally

SNYDER — Big Spring's Brahmas won the battle of statistics but lost the war here Thursday night, yielding to powerful Snyder Lamar, 14-0.

Lamar, completely outplayed the first half, scored on the second half kickoff, then went around end with the Brahma defense stacked in close.

The Brahmas made 13 first downs and 200 yards overall against Lamar's touted defense. Big Spring marched down to Snyder's three in the first seven minutes of play but couldn't go in.

Buc Blocked

Wilbert Frazier (24) of the Houston Mavericks tries to block a shot by Doug Moe of New Orleans as the Buccaneers made their debut in the American Basketball Association Thursday night. Houston's Leary Lentz (5) is at right. New Orleans won, 120-112.

LOOKING 'EM OVER

With Tommy Hert

The Lamesa Tornados go into their sixth game against Levelland still seeking their first point of the season.

In their five starts, the Tornados have yielded a total of 118 points, or an average of 23.6 per game.
 The Lamesans had an excellent chance to go in against Big Spring in the second quarter of their first game of the season, when they popped on a Steer tumble 11 yards away from pay dirt. They lost the ball the same way a play later. The Tornados should be able to score against Levelland. The Lobos have had their problems under their new coach, ex-Big Spring quarterback Bobby Hayworth.

According to Chuck Moser, athletic director of the public schools, Abilene Cooper has great material coming along for at least the next two years.

Cooper is now benefitting from a better feeder system than its cross-town rival, Abilene High.
 The Cougars are starting six juniors up front this fall but its great backfield will be virtually wiped out by graduation after this year.

Quarterback Jack Mildren is the best known member of the Cooper team that ducks in here next week to oppose the Steers but tailback Kenny Stephens is as good as any in the state. Periman Coach Gene Mayfield says Stephens is the best broken field runner he's ever seen.

The Steers tried to defend one of the finest pass receivers in West Texas last week in Larry Pipkin of Midland High. It may even go up against a better one next week when Jon Harrison of Cooper comes to town.

Bettye Mims Danoff, who gave a golf exhibition here a few years ago, is tied for 57th position on the earnings list of touring women golfers.

She's competed in only one tournament since Jan. 1, however, and the \$31 check she picked up isn't listed as official money. It was probably earned in a pro-am.

When the Big Spring Brahmas routed Monahans' ninth graders here the other night, five different boys scored touchdowns—Phillip Ferguson, Tony Dean, Joe Zubiate, Mike Pipes and Roddy Caffey.

There are one or two boys on the Big Spring football team who could and should be forgiven if they pass up a school pep rally every now and then.

Those who steeled themselves into a high pitch of nervousness prior to a contest and such a meeting might serve to overdo the job of getting them keyed for an adventure.

Don Maynard, the former Colorado City athlete, is one of two players who has gained more than four miles following pass receptions in the American Football League. He's Joe Namath's favorite receiver. Both play with the New York Jets.

HCJC and Odessa College will both be seeking their third Odessa College Basketball tournament title in the upcoming event, which takes place Dec. 7-9.

The Jayhawks won in 1961 and 1964, Odessa in 1962 and again last year.

Coach Larry McCulloch has lined up an excellent field for the tournament. Other teams which have accepted invitations are N.M. Junior College, Hobbs; Lubbock Christian, Ranger, St. Phillips, San Antonio; Cisco and Christian College of the Southwest, Dallas.

Ranger likely will be favored. The Rangers will probably start an all-Negro quintet.

Yearlings Swarm Over Lamar 11

Runnels' eighth graders made their finest effort of the season in lashing Snyder Lamar, 26-12, here Thursday evening.

The win was the second of the season for the Yearlings, compared to three defeats and a tie. The locals get a chance to even their record next Thursday, when they play Snyder Travis on the road.

Runnels dominated play throughout and led from the first quarter on, after Billy Wood had gone over from 22 yards away. Gatlin Jones added

the two extra points on a run. Jones scored later in the quarter on a three-yard jaunt, after which the Yearlings failed to add their conversion.

The Yearlings never looked better after yielding a Lamar touchdown in the second period following a Big Spring fumble on its own seven.

Runnels beat the clock to score in the final 30 seconds of the first half and carry a 20-6 lead to the dressing room.

The Yearlings got the score in five plays, a 40-yard pass from Jones to Rodney Imel, and a 17-yarder to Jesse Henry setting up the score. Jones went over from inside the three on a sneak, with one second left.

Snyder drove for its second TD in the third but Big Spring came back to score in the fourth when Henry bruised through from the seven.

On defense, the coaches cited these boys for their stellar play: Joe Pesina, Gene Mitchell, Manny Rodriguez, Robert Foster, Albert Puga, Richard Flores, Henry, Jones, Arthur Trevino, Bobby Edwards and Charles Turner.

On offense, Jones, Henry, Pesina, Trevino, Rodriguez, Emil and Puga glistened along with Sidney Rau, Thomas Brewer, Barry Armstrong, Mike Johnson, Wood and Jan Whatley.

Toros Batter Colts, 18-0

STATISTICS		Sweetwater
16	First Downs	10
28	Yards Gained	79
23	Yards Passing	0
1	Passes Completed	0 of 3
4	Points Interced. By	0
4	Fumbles Lost	0

Despite four damaging fumbles, the Big Spring Toros bombed Sweetwater's ninth graders, 18-0, for their third victory of the season here Thursday night.

In their last two starts, the Toros have scored a total of 48 points while blanking the opposition.

Sweetwater did not complete a pass and made only 95 yards rushing against Big Spring's rugged defense. The Toros were deprived of another TD in the final two minutes when they fumbled on the enemy's two.

Larry Vasquez, who called an excellent game at quarterback for Big Spring, ran 11 yards for Big Spring's first tally in the opening period.

In the second, tailback Steve Plunkett powered over from one yard out at the end of a 77-yard drive into the wind. A 23-yard pass from Vasquez to Ray Ward kept the drive alive.

In the third, Vasquez ran 40 yards to score on a punt return, aided by fine blocking on the part of his mates.

Sweetwater never progressed beyond the Toros' 40. Most of the Colts' success came on trap plays up the middle.

Fullback Joe Chavez was among those who sparkled with his blocking and running.

The Toros got to Sweetwater's one and the ten on other occasions but couldn't go in.

Venus Probes Revealed No Major Surprises

PASADENA, Calif. (AP) — American and Russian spacecrafts have made the deepest probes yet into the mysteries of Venus—but neither has found any major surprises.

The 540-pound U.S. Mariner 5 swept within 2,500 miles of Venus Thursday, making electronic measurements of the depth and density of its shrouding vapor clouds.

About the only things flight controllers at Jet Propulsion Laboratory would say immediately were that the craft's instruments worked well and that the planet's atmosphere is very dense.

This confirmed a portion of the findings of the 2,400-pound Soviet Venus 4 which parachut-

ed an instrument package onto the planet Tuesday.

Venus 4 radioed that the atmosphere was almost entirely made up of carbon dioxide, that it was so dense that its pressure on the surface was 15 times that of earth and that the surface temperature was 536 degrees Fahrenheit.

None of this was surprising. Observations from earth had already determined, by analysis of light from the planet, that Venus' clouds are largely carbon dioxide. Measurements made by Mariner 2 in its flight past Venus in 1965 indicated surface temperatures between 600-800 degrees.

Dr. Conway Snyder, project scientist, told newsmen Thursday the only thing unexpected

turned up by either craft was Venus 4's report that it detected no nitrogen—a gas Mariner 5 was not equipped to sample.

Earth nitrogen, like many of its gases, is believed to have been thrown into the atmosphere by volcanic action when the earth's crust was hot.

"Since Venus is much hotter than earth one would certainly expect to find nitrogen," Snyder said. "But failure to detect nitrogen doesn't mean it isn't there."

Despite the absence of positive surprises, scientists were delighted with the confirmation of earth-based observations by the two probes launched on the 200 million mile journey last July.

Anne Baxter Takes Publicity Tour

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — The public will be seeing a lot of Anne Baxter, the film star and 1946 Oscar winner, during the next couple of weeks.

She will be one of the stars of an NBC "world premiere" show on Oct. 31, one of those made-for-TV film features called "Stranger on the Run." In order to publicize the show, Miss Baxter was persuaded to take on a two-week assignment that is one of the grueling penalties of act-

Device May Have Crashed

MOSCOW (AP) — Soviet reports of Venus 4's space triumph indicate that the instrument package radioed back information from the atmosphere of the earth's sister planet not from its surface.

The reports also raise doubts that the device made a soft landing on Venus.

The planet's surface conditions still may be unknown in detail. The highest temperature recorded by Venus 4, 536 degrees Fahrenheit, and the greatest pressure, 15 times the earth's at sea level, could be readings of the atmosphere and not those of the planet itself.

A brief Soviet announcement Wednesday said data was radioed to earth while the instruments were floating toward Venus on a 15.5-mile, 90-minute course through the planet's atmosphere.

But there has been no Soviet claim that the instrument package, a rounded object 35.4 inches in diameter, was still transmitting when it reached the surface. Just where and why it stopped transmitting has not been disclosed.

Observers suggested that Soviet scientists may not know. One possible explanation is that the heat melted the instruments or burned up the parachute that was carrying them, sending the device crashing into the surface of Venus.

The official announcement said the instruments descended smoothly through the atmosphere and that they landed. But it did not claim a soft landing, in the sense of a space vehicle floating down intact on an object.

Hemphill-Wells

Science And You

Space, Weather, Economics

—By DR. LEONARD REIFFEL

Everybody, including the community of space scientists, is concerned about just how much money should be spent in space exploration. We are spending a great deal—there's no doubt about it—and there are other places the money could go.

What I would like to suggest is that some day history may show us that we paid for the whole space program with the weather satellites. We already have a series of weather satellites in orbit. These satellites have beamed back more than one million usable photographs of meteorological conditions throughout the world. Every day one or another of our weather satellites produces a photographic weather map of the entire globe.

Now those maps are not just matters of scientific curiosity. They actually can be used. The information from them allows forecasters to increase their accuracy in weather prediction.

These satellites have filled in enormous blind spots in our knowledge of the weather. Before the age of space we could not see the weather over 70 or 80 per cent of the Earth's surface. Now we can see it all. The result has been a tremendous improvement in our understanding of such important weather systems as big storms. With weather satellites watching the whole world, we can see these storms form in their birthplaces out in the oceans and track them all the way in.

This allows us to do weather forecasting on storm conditions as much as two weeks in advance which, in turn, permits people in the track of a storm to get ready for it. This is only one aspect of space meteorol-

ogy, but it promises to save us millions or even billions annually.

Someday, with the tremendous increase in our knowledge of the weather being developed with the help of the space program and other research, we may reach a point where weather control is possible.

Even now various power companies are carrying out cloud-seeding experiments in an attempt to increase the rainfall in their areas for the purpose of making more hydro-electricity. Later on, perhaps before the end of this century, we'll actually be able to control the weather in various areas of the world so that we can convert arid wastelands into fertile farms.

This capability will not be without its complications. It wouldn't do at all if we converted some desert area into a green farmland by stripping out the water that would have fallen, say, on the wheat belt of the United States! This means that our increasing ability to understand and ultimately to control the weather may bring the world closer together. We simply will have to learn to think of the planet as a whole instead of considering only a series of individual nations or isolated societies. Maybe this is one of the greatest things the space program will finally do—that is, help convince mankind that it really is one world, after all. Think of all the money that would save!

Found Out It Was Legal

MOUNT CLEMENS, Mich. (AP) — A Clinton Township man, who had some second thoughts about a second wedding ceremony, has been told his first one was legal.

Macomb County officials did not identify the man in telling this story.

A couple was married July 28 but the justice of the peace dated the marriage license July 29. The justice notified the couple that they should go through the ceremony again to make the marriage legal.

But the groom decided that he liked single life better and if he wasn't married, so much the better.

Then Macomb County Prosecutor George Harris ruled Wednesday that the original ceremony was valid and that the error in dates was "not material."

No Helicopter Landings Anymore

CEDAR RAPIDS, Iowa (AP) — Because the neighbors complained, the Cedar Rapids City Council moved to keep Robert Welty from landing his helicopter in his yard.

The council gave first reading to an ordinance that would ban heliports where there is any obstruction more than 50 feet high within 100 feet of the landing area.
