## Two Fierce Battles With Dug-In Troops

SAIGON (AP) — U.S. Marines and Army infantrymen clashed with dug-in North Vietnamese troops in separate fierce battles within five miles of each other Thursday south of Da Nang.

### BATTLES

The two battles, one a marathon of 26 hours along the coastal lowlands in the northernmost 1st Corps area, left 14 Americans dead and 106 wounded, U.S. headquarters reported. Thirty-five North Vietnamese were reported slain, many of them by massive bombardment from U.S. artillery, tactical fighter-bombers and helicopter gunships armed with rockets.

The U.S. Command also disclosed in its weekly summary of aircraft losses that three more American warplanes have been downed in combat over North Vietnam but were not announced at the time, bringing to 735 the total of U.S. combat planes officially reported lost in the air war against North Vietnam.

U.S. pilots flew a total of 153 missions against the North Thursday, their largest number in weeks, but the northeast monsoons blanketed the Hanoi-Haiphong heartland area. Most of the U.S. raids were against targets west and south of the North Vietnamese capital.

### SINKS BOAT

In the Mekong Delta, the Viet Cong sank a U.S. Navy river patrol boat with recoilless rifle fire 97 miles south of Saigon. One U.S. soldier was killed and three Navy men were wounded in the attack Thursday; one Viet Cong also was reported killed.

In the coastal lowlands fighting, U.S. Marines pushing through a cluster of heavily fortified North Vietnamese villages in a valley 27 miles south of Da Nang clashed fiercely for 26 hours with tough Communist forces entrenched in a hamlet. It was the second heavy battle for the Marines this week in Operation Essex.

# Connally Decides Not To Seek Fourth Term

## 'Free For All' Governor's Race

GOV. JOHN CONNALLY

AUSTIN (AP) — Gov. John Connally, one of President Johnson's oldest friends and staunchest supporters, said today he has decided not to seek an unprecedented fourth term.

Connally, secretary of the Navy under President John F. Kennedy, said he had given months of thought before reaching the decision.

The decision throws the door

open to a free-for-all governor's race and could give Republicans their best chance in years to capture the governorship.

Connally's withdrawal also deprives the President of an absolutely sure and firm grasp over the state's political machinery in the crucial 1968 election year.

Two potential candidates for Connally's job, Sen. Ralph Yarborough, D-Tex., and former state Atty. Gen. Waggoner Carr, were on their way to Austin. It was not known whether they planned any announcement.

"I have reluctantly concluded that after the drain of what will have been eight years of vigorous public service, I no longer can be assured in my own mind that I could bring to the office for another two years the enthusiasm, the resilience, the patience that my conscience would demand, and the state would deserve," Connally said.

The eight years of service includes more than a year as Kennedy's secretary of the Navy. The governor was wounded in the volley of rifle shots that killed Kennedy in Dallas on Nov. 22, 1963.

Only Lt. Gov. Preston Smith has announced for governor so far.

### POLL

Connally told a packed news conference that he recently had a private poll taken that showed him ahead of other potential candidates by a clear majority. He refused, however, to reveal details of the poll.

"I cannot express fully Mrs. Connally's and my deep gratitude for the tide of expressions of friendship and confidence that has come our way during the period of this agonizing decision. The unprecedented pledges of support for another term in office are heartwarming."

Connally said during the remaining 14 months of his term he would "make every effort to make the final year of my administration a proud one—to do full honor to the sacred trust that is mine, and to merit the confidence of millions of Texans, which will remain my greatest treasure."

## Twin Successes Scored In Space

PASADENA, Calif. (AP) — Surveyor 6 televised pictures of a very rugged area of the moon today after a lucky soft-landing that climaxed a day of space successes for the United States.

### TOUCHDOWN

The three-legged spacecraft touched down at 8:01 p.m. EST Thursday just hours after a capsule like the one expected to carry three Apollo astronauts to the moon splashed into the Pacific, ending a successful test of a 36-story-tall Saturn 5 rocket.

Within an hour after landing, apparently on a slight slope, Surveyor 6 began sending excellent pictures of the roughest terrain yet photographed in the moon-scouting program. One showed a cliff-like prominence on the horizon a mile away. Others pictured narrow depressions nearby which scientists said they could not immediately explain.

Dr. Werner Von Braun, who coddled the Saturn 5 from idea to steel in seven years of work, said, "It was undoubtedly the greatest moment of my life."

His "bird," the biggest thing ever to fly, climbed to 117-mile orbit with a world record satellite of 140 tons. From there, an Apollo spacecraft went out a lonely 11,386 miles and sizzled home into a rainy Pacific in a tough test of its heat shield.

From dream countdown to on-the-button liftoff to splash-down only 10 miles off target, it took just eight hours and 37 minutes to prove the United States owner of a clear, wide lead in the space race.

The largest satellite orbited

by the Soviet Union weighed only 13½ tons, and their well-advertised automatic docking mission earlier this month is a symptom that their moon plans are based on a booster capability about half that of Saturn 5. The American rocket can loft the kind of moon craft that the Russians apparently must patch together in orbit.

Plans for Big Spring High School's first homecoming in many years promise ex-students a three-day reunion they'll be talking about until the next one.

Setting the tempo for weekend activities was the 5 p.m. parade to be held today which was to feature over 40 units, in addition to vintage cars and others filled with exes.

Moving north from Sixth and Main, the downtown parade was to turn west on Second and south on Scurry to Sixth, where it would disband.

Bands, choirs, speech students, cheerleaders, ex-students, student council members, club-sponsored floats and club representatives were all included in the opening festivity.

Homecoming fever will continue during the Odessa - Big Spring football game tonight as exes sit in a reserved section and recall teams of yesteryear.

For present students, a triple header is promised when three queens are named during halftime activities. The band queen, football queen, and homecoming queen will be announced and crowned as the high school band plays "Lara's Theme" and "Shadow of Your Smile."

Candidates for band queen are Rayne Nell Dyer, Teresa Conner and Tricia Bogard. Nominated

## Webb Project Left In Bill

WASHINGTON (AP) — Senate Appropriations Committee members voted Thursday to make \$8.217,000 less available for Army projects in Texas than is provided in a military construction bill approved earlier by the House.

The Senate committee's approved bill contains \$2,296,000 for Webb AFB, the identical figure included in the House bill. It would therefore appear that with an agreed total, this figure would be acceptable in conference and would stand in the final bill.

Included in the figure for Webb is \$2,121,000 for a hospital facility to replace the frame structure created 26 years ago, \$55,000 for a data processing plant, and \$120,000 for automatic sprinkler system for fire protection.

## Rains Finally Tapering Off

Rain fell into the sixth straight day over parts of Central and Northeast Texas today before finally starting to taper off.

Temperatures remained relatively mild. Dalhart's 29 degrees was the only subfreezing mark reported before sunrise. At the same hour the reading was a warm 68 in both Brownsville and Corpus Christi.

Skies were clear over practically all of West Texas and clouds were expected to thin elsewhere across the state.

## Veterans Day Program Set For 10 A.M. Here Saturday

"Peace with Honor" will be the theme of the Veterans' Day ceremony to be held at 10 a.m. Saturday on the lawn of the Veterans Administration Hospital. Maj. Glenn E. Jones, 3561st Pilot Training Squadron at Webb AFB, will be speaker.

COLOR GUARD  
Sgt. I. C. Joe A. Welch, U.S. Army Recruiter; Seaman I. C. Gerald Waggoner, U.S. Navy Recruiter; Sgt. Steve O. Elggen, U.S. Marine Corps from Midland; and S. Sgt. Willie J. Marshall, Webb AFB, will form the Color guard for presentation of the Colors. The Pledge of Allegiance will be led by Corky Grantham, Senior Girl Scout, and Mike Alexander, Eagle Scout.

Lt. Col. Robert T. Deming, chaplain at Webb AFB, will give the invocation and Donald D. Van Meter, VA Hospital director, will welcome residents. Mayor Arnold Marshall will be master of ceremonies.

A fly-by from Webb AFB, led

MAJ. GLENN E. JONES

by Col. C. J. Butcher, commander of the 3560th Pilot Training Wing, will follow the benediction by the Rev. C. O. Hitt, chaplain at the VA Hospital.

The 761st Air Force Band

from Sheppard Air Force Base, under the direction of CWO D. L. Hale, will give a concert from 10 to 10:25 a.m. and also after the fly-by.

VOLUNTEERS  
Volunteers from the Red Cross, World War I Auxiliary and the Veterans of Foreign Wars Auxiliary will assist wheel chair patients at the hospital during the program.

Webb AFB, Veterans Administration Hospital and the Chamber of Commerce is sponsoring the Veterans' Day observance, assisted by Disabled American Veterans, American Legion, Veterans of Foreign Wars and World War I Veterans.

There are 26 million American veterans, and 4,540 of them are residents of Howard County. Maj. Jones, a native of Unionville, Mo., was recently awarded the Distinguished Flying Cross and the first Oak-leaf Cluster to the Distinguished Flying Cross at wing parade and

Clear to partly cloudy and warmer through Saturday. High today 79 degrees; low tonight 44 degrees; high Saturday 72 degrees.

## Dedication Set Sunday For New School Plant

Sunday's formal dedication and open house of the multi-million dollar high school plant promises residents a long walk—one covering some 370,000 square feet all under one roof.

Following 2 p.m. dedication services, student council members will conduct tours from

3:5 p.m. of the four-block structure housing a computer lab, planetarium, enlarged library, cafeteria, auditorium and general classroom area. Tours of additions to Runnels Junior High will also be offered.

### LATER DATE

Plans had first called for open house in all major additions constructed under the \$5,500,000 bond program, but Superintendent Sam Anderson said today these would be held at a later date.

Headlining dedication ceremonies is Dr. John W. McFarland, dean of the school of education at the University of Texas at El Paso. Dr. McFarland, who will speak on "Potentialities for the Future," is prominent in state education programs.

"In El Paso he works with students through and teaches courses in secondary school curriculum, instructional supervision and educational research," said Anderson. He added that Dr. McFarland holds three degrees from the University of Texas at Austin, and also has taught there. In addition, Dr. McFarland has been superintendent of schools in Amarillo, Vernon and in Houston from 1958 to 1966.

He holds life memberships in state and national organizations and is the author of several books and pamphlets.

Anderson will preside during

DR. JOHN W. McFARLAND

the program. The high school's symphonic band will open the ceremonies with "America the Beautiful" and "The Star Spangled Banner." Don Crockett Jr., student council president, will lead the pledge of allegiance. Following the invocation by First Methodist Church minister, Rev. Leo K. Gee, Mayor Arnold Marshall will welcome residents and out-of-town guests. "Song of Democracy" will be sung by the high school a cappella choir.

### MOSS, ROGERS

Short addresses by Joe A. Moss, school board president, and Dr. Leo O. Rogers, Chamber of Commerce president, will precede Dr. McFarland's keynote speech.

The program will end after announcements by principal John F. Smith and the benediction by Dr. R. Gage Lloyd, minister of the First Presbyterian Church.

# Hatmakers Are Shrewd Politicians In Making Something For Everyone

By JEAN SPRAIN WILSON

NEW YORK (AP) — Hat designers, taking a tip from pork-barrelling politicians, have learned to do a little something for everybody to win their votes of gratitude. They have had to in order to get back on top, or rather, to get their hats back on tops again. They have had to make hats that please husbands, attract attention, be witty, flatter, keep heads warm, cover unkempt hair, keep from roughing up

new coiffures, suggest youthfulness, disguise agedness, suit the modern mood, and maintain tradition, to name a few little things. At a show given for buyers recently, the Millinery Institute proved that it now has hats for every one of these aesthetic and practical uses. Though pleasing husbands is the hardest bill to fill, attracting attention is the easiest. Hats have had a lot of experience at that. As for flattery, that's an individual matter. Certainly the hat-

makers have created styles with enough diversity to do right by all. There are hats flat or toques tall, brims and bonnets and berets and caps and cloches. It is up to the wearer to select what is right for her. Some would rather a hat be witty than pretty. Ever since Eve went shopping for something to wear with her fig leaf, there have been plenty of these. Ask any man what a joke some hats are.

More recently, the rapid pace of life of the modern woman in a world that worships youth has changed her attitude towards hats. While in the good old days she might never have seemed without a chapeau to complete her costume, for some hats got to be too much trouble, or got in the way of hairdos. Besides the young were demonstrating their new independence by going long-haired and hatless.

As for the young, the hatmakers broke their hatless habits with floppy brimmed felts and vinyls in primary colors, or crazy caps, or ear warming fuzzy wuzzy hats. As for the not-so-young, the hatmakers did the best they could for them by propping up their sagging chins with string ties and hiding their wrinkled necks with scarf attachments. Apparently the something-for-everyone system is working, for people in the know are calling this The Year of the Hat.

## Bowling Trophies Are Presented To Winners

Phil Hines, Webb Air Force Base recreation director, and Capt. Charles Anderson, personnel service chief, presented bowling trophies at the Thursday evening meeting of the Independent Wives' Club. The group met in the John H. Lees Service Club at Webb AFB. Trophies were given to Mrs. Robert Barnett, high series scratch; Mrs. Wayne Lister, high game scratch; Mrs. Edward Dorsey, high game with handicap; and Mrs. David Dollar, high series handicap. New officers are Mrs. Preston Crickard, chairman; Mrs. James Moore, assistant chairman; and Mrs. James L. Sasser, secretary-treasurer.

to Mrs. Donald DeFlich, whose husband is returning from Vietnam. Eleven attended including two new members, Mrs. Joe L. Boyd and Mrs. Sasser.

## Altrusans Hear Vietnam Veteran

Hospital Corpsman 2.C. Josh Sullivan spoke on Vietnam at the Thursday meeting of the Altrusa Club at Coker's Restaurant.

Corpsman Sullivan recently returned from Vietnam, and he told of the people, their customs and the existing poverty. He cited a number of ways in which the American people can aid them.

He is the son of Mr. and Mrs. C. J. Sullivan, 100 NE 9th. Eighteen members and two guests, Corpsman Sullivan and Mrs. E. M. Newton, attended. Mrs. Homer Petty presided.

## A LOVELIER YOU

# Curls Come Back To Feminine Heads

By MARY SUE MILLER

Feminine heads are once again adorned with curls — fat, thin, smooth, fluffy and even corkscrew curls — and almost all requiring a permanent. Naturally, more heads are getting perms than in many a day. Letters from lovelies asking for information about home permanents swell this column's mailbag. Here are the popular questions with answers:

Q. My hair is hard to curl and manage. What kind of home permanent would take hold? A. Use a kit labeled for hard-to-wave hair with a super-curl lotion.

Q. When hair is dry and split will it take a perm? A. Trim off split ends and recondition the hair before having a perm. This is a must.

Q. Is it safe to permanent tinted hair? A. There are several home perms formulated for tinted hair. They are characterized as "gentle" to color-treated locks. For safety's sake be sure to follow enclosed instructions.

Q. Can I tint my hair and give myself a permanent at the same time? A. This is not advisable. Have a permanent two weeks before tinting.

Q. How long should a home permanent last? A. Three to four months. If your hair grows fast or requires frequent trimming, you may need to wave

more often — but not much. Q. Should I have my hair cut before or after waving? A. Either way is acceptable. New waves have a better chance on fresh-cut hair. But your hair-do may have more shape if trimming follows a perm.

TEEN TRESSES Is your hair a problem, Miss Teen? Then send for my leaflet, "Teen Tresses, Model Type." It tells how to correct such ailments as oily hair and flaky scalp; fly-away, unmanageable, lackluster locks. Included, too, are styling tips and model grooming quickies. For your copy write to Mary Sue Miller in care of the Big Spring Herald, enclosing a self-addressed, stamped envelope and 10 cents in coin.

## P-TA Group Told Future Of School

Mrs. Dale Smith of the Oasis Garden Club spoke on landscaping the school grounds at the Tuesday meeting of the Moss Elementary School Parent-Teacher Association. Sam Anderson, school superintendent, spoke on the planning, development and future of the school and of the special education program offered.

Reports were heard concerning the Halloween carnival, and the P-TA workshop held at Highland School in Roscoe. Bill Irwin, principal, brought the devotion and discussed facilities available at the school and spiritual needs of children in the home. Sixty-five attended, and Mrs. Ted Hick's first grade won the room count.

## College Heights P-TA Views Film

The Optimist Club presented the film, "Every Hour, Every Day," at the Thursday meeting of the College Heights Parent-Teacher Association at the school cafeteria.

Mrs. Charles Bell gave the devotion, and Mrs. Harlan Hill reported on the fall workshop held Oct. 14 at Highland School in Roscoe. Ten members of the unit attended. Room count was won by Mrs. Tom L. Newton's second grade. Mrs. Elvis McCrary, hospitality chairman, served refreshments to approximately 50 people. The next meeting will be Dec. 14.

## Circle Discusses Modern Movies

Contemporary films were discussed by the Esther Circle of Kentwood Methodist Church at a Tuesday meeting at the home of Mrs. Don Campbell, 2700 Larry. Leading the discussion were Mrs. Paul Koshi, Mrs. Bill Bodin, Mrs. Walter Maynard and Mrs. Kenneth Born. Mrs. Born voiced the closing prayer. The next Tuesday meeting will be in the home of Mrs. Harold Pearce, 1515 Vines.

# Mrs. L. Lloyd Talks To Club

Mrs. Larson Lloyd was guest speaker at the Thursday meeting of the Junior Woman's Forum in the home of Mrs. Niles Rough, 2503 Ann. Mrs. Alton Marwitz served as cohostess.

Mrs. Lloyd chose as her topic, "Today's Woman in Public Speaking," and stressed that never has it been so important for women to express themselves as it is today. She gave basic rules for making a public talk and emphasized comfortable clothing, familiarity with the subject and correct and organized facts with dependable visual aids or props. She pointed out that it is best to memorize opening and closing remarks.

Mrs. Lloyd gave the talk, "You Can - Pull the Strings," that she presented in the Tail Talker's Toastmistress contest. Mrs. Wayne Henry presided.

and Mrs. Jim Williams reported on the Community House project. She announced plans for a Dec. 21 Christmas party for residents there, and the forum will take them carolling if weather permits.

A Christmas pilgrimage will be held Dec. 14 for members and guests.

## Dear Abby

Not A Facts Bureau

DEAR ABBY: I am 13 and people tell me I am very mature for my age. Abby, I know more about the facts of life and the course of nature than most kids, and I got it straight from my mother. She told me everything starting from the age of eight.

I don't know how I got the reputation, but girls from 10 to 16 come to me for information about the pill and that sort. Even boys come to me with questions.

Should I answer their questions, or tell them to ask their mothers or what?

### Finding On Title Basis Of Damage Suit By Bank

A suit has been filed in 118th District Court here by the Security State Bank against Harvey Hooser Jr., attorney, asking damages of \$12,000 on the allegation that incorrect information was given the bank on a land title examination.

The plaintiff recites it employed Hooser to examine title to a tract of land, the examination being to determine if the land would be accepted as security for a loan being considered. The petition alleges Hooser held the title to be good and that a loan was made on this opinion. It is claimed that the institution has since found a valid deed of trust against the land held by Big Spring Savings Association.

The bank seeks to recover \$12,000 plus six per cent interest on the contention that it depended upon the attorney's report the collateral was free and clear.

### Marijuana Found Taped To Hood

FALFURRIAS, Tex. (AP) — Jose Felipe Hernandez Jr., 24, of Robstown, was charged Thursday with possession of 20 pounds of marijuana. Officers found it taped to the underside of the hood and was in a plastic container. Officers watched the car for six days, then arrested Hernandez. He was held in lieu of \$7,500 bond.

don't know how you got the reputation of knowing so much, but it's not because you've kept it a secret. If a girl (between 10 and 16) asks a 13-year-old for information about "the pill and that sort," perhaps her mother should know she is seeking such information, so the best thing for you to do is to tell her to ask her mother. Your own mother appears to have pretty good sense, so ask her how much she thinks you should be telling the other kids.

DEAR ABBY: We are a family of five, plus one. The new addition is a basset hound. We got him when he was three weeks old. He was real cute then and everybody loved him.

Today he is eight months old and a regular pain-in-the-neck. When he eats, he slops all over. And when he drinks water, his ears get sopping wet. He drools and climbs up on the furniture and slobbers all over everybody and everything. And he's still not housebroken.

My husband can't stand him. He says he makes him sick. I put up with the dog because the children love him. My husband wants to get rid of him, but it would break the children's hearts.

The hound's name is "Snoopy," but we should have named him "Smelly." But that's another problem. What should we do?

DOG TIRED  
DEAR DOG TIRED: It's not the poor dog's fault that he wasn't properly trained to be a lovable, obedient, attractive pet. Dogs (not unlike children) can't be expected to know what they haven't been taught. It may be too late to train "Snoopy," but give it a try. Otherwise, I'm with dad.

DEAR ABBY: This is for Cindy, whose husband asks her out with only an hour's notice:

God bless him for asking you and not one of the girls from the office. Let me tell you from experience, it's smart always to be ready. Have a long list of sitters you can call at the last minute. And some good "friends" in reserve in case you can't get a sitter. Do something with your hair during the daytime just in case that's the night your husband wants to take you out. And always have something ready to wear.

Me? I take no chances. All I need is five minutes notice and I can get ready for an audience with the pope.

In the world ye shall have tribulation: but be of good cheer; for I have overcome the world. (John 16:33)  
**PRAYER:** Gracious God, our Father, in the midst of our world of tumult and tension we thank Thee for Christ, the light of the world. May we ever turn to Him and find inspiration in His triumph over all the ravages of time and tide, defeat and death. We pray that His spirit may rule in us. In His name. Amen.

**Opportunities Enough**

In this upside-down era when pacifists sometimes seem more aggressive than militarists, it is little wonder that the Norwegian parliamentary committee decided not to award a 1967 Nobel Peace Prize. It had a record 47 nominations, but it would take only a glance about the globe to suggest that a peace prize might be more ironical than respectful of the intent of the conscience-stricken dynamite inventor who wanted to reward those benefiting mankind.  
 This is the second year in a row with no Nobel Peace Prize. That has happened three times before: 1955 and 1956, 1923 and 1924, and 1929 and 1941 (Nobel prizes were suspended in 1940, 1941 and 1942). And the peace prize was not awarded in three straight years—1914, 1915, and 1918—for understandable reasons in World War I. In the 67 years of the Nobel prizes, the peace prize has not been awarded seven times.

**Be Sure To Vote Tomorrow**

Your attention again is directed to the fact that you have an obligation to go to the polls Saturday, and write your decision on six proposed amendments to the Texas Constitution.  
 It's easy, and even tempting, to dismiss this sort of civic assignment. No great public appeal is involved, and likely little controversy. The fact remains that these are important issues affecting state and local government.

The Herald again recommends your support for four of the amendments. No. 2 provides permissive local machinery to provide operation of mental health, mental retardation and public health services. It can mean providing treatment to the mentally ill in localities where they live. It is a practical program.  
 No. 4 would authorize counties to pay the medical and hospital bills of law enforcement officers injured in line of duty. If a criminal is injured while being arrested, a county is obligated to provide his medical care. It ought to do no less for its

officers.  
 No. 5 sets up a bond program (designed to be self-supporting, to expand and provide new parks in the state system. This is important to the recreational advantages of our own people, in providing more attractions for the important tourist dollar. This means a great deal to the future development of Texas.  
 No. 6 permits (with legislative consent) non-elective officers and employees to serve in other appointive positions in the state and nation. It would make qualified personnel available for various advisory boards and those in state-supported schools could make use of their talents on federal agencies. This is simply putting to use much of the expert talent of the state.  
 There is question, in our mind, on amendments No. 1, which opens the door to county fund transfers; and No. 3, which would revive and expand the veterans land program.  
 You may make your decision on any of these issues. The important thing is that you vote.

 Our Wealth And Our Wisdom**

WASHINGTON — With nations as with persons, it's said that the rich find it harder to deserve a place in Heaven. The U.S.A. is a trillionaire many times over in its net worth. We generate a gross national product of \$1.5 trillion every two years and an expendable annual income of \$600 million.  
 This is prodigious and unexampled richness, but the question is do we use it wisely and well? The American Enterprise Institute is sponsoring what it calls a Rational Debate, held at George Washington University this winter, and giving a forum to many assailants and defenders of the American way, among them ex-Senator Paul Douglas and Enoch Powell, a Tory member of the British Parliament.

**Billy Graham**

I'm a businessman and a Christian, but my business is of such a nature that it requires all my time. I don't like it, but what can I do?  
 I know there must be extenuating circumstances in such cases as yours, but on the surface I would say that some adjustment could be made in your affairs so you can attend church and work for the Lord. After all, we are not sent upon this earthly scene to "make a living," but to make a life. A very small part of our lives are lived in this world, for as children of God, we are made for eternity. Personally, I would rather be a poor businessman than an impoverished Christian. Spiritual poverty can have much more serious repercussions than material poverty, and you can't spend all of your time in your business without paying a price, spiritually.  
 I know one businessman who prospered so much, and got so involved in making money, that he decided to curtail his business operation 75 per cent so he could give some time to God's work. Personally, I think he was smart, for it is eternity's values that really count. That man carries a big influence for God in his community.  
 I'm not telling you what to do, but I would say: You have only one life, and I would let Christ be primary, and the business secondary. Jesus said it this way: "Seek ye first the Kingdom of God, and all these things shall be added to you."

WASHINGTON (AP) — Here's a new twist in American politics: One way to win public confidence is to keep your mouth completely shut, or almost completely. Another is to keep talking. But that can turn out badly.  
 Maybe the answer is: Just how you do or don't keep quiet. These are conclusions to be drawn from the latest Gallup public opinion poll on handling the war in Vietnam. It was taken for the National Broadcasting Co.

**To Your Good Health  
 Painful Heel Spurs And Their Cause**

**BY JOSEPH G. MOLNER, M.D.**  
 Dear Dr. Molner: Please write more about heel spurs. Do they get larger? Do they ever go away? Is surgery needed?  
 The lump in my heel doesn't hurt for ordinary walking but pressing on it does hurt. Should I have it removed before it gets larger? — Mrs. W. B. S.  
 A heel spur is not a "growth" in the ordinary sense. It is an accumulation of calcium at a point at which there has been some injury, or sometimes an infection. The calcium gathered there as part of a healing process.  
 Therefore, if there is no further injury, there is no reason for the heel spur to grow any larger. If there is further injury, then the spur may enlarge.  
 These spurs as a rule are very tiny. If you injured your shoulder bone, for example, and a similar spur formed, you'd never notice it.  
 On the bottom of the heel, it's different. Your weight presses on it. You might compare it to having a very small pebble, or even a sharp grain of sand in your shoe. It feels a lot bigger than it really is.  
 Consequently, the best treatment for a heel spur is to find a way of keeping weight off that spot. There aren't many ways of doing it. Some sort of pad or soft innersole, in fact, is about the only method I know, although the padding may take different forms. A piece of felt to fit inside the shoe, with a hole cut where the spur is, would be one method. A small sheepskin or other soft padding is another.  
 When ordinary walking doesn't cause pain, but only special pressure on the heel, then very minor padding may be enough to solve the whole matter. It would be wise to avoid putting on enough pressure to cause pain, since you may inflame the area enough to require a new period of healing — and thus enlargement of the spur.  
 It is true that in severe cases, when the spur is unusually large or sharp or strategically located, surgery may be necessary. For a small spur, surgery is a rather drastic step in comparison with the problem. It may not be easy to find and remove a very tiny spur, and besides, the healing of the wound itself may give rise to new discomfort unless great care is taken to keep off the foot until full healing has taken place.  
 My answer, therefore, is not to resort to surgery unless padding under the heel simply cannot cope with the trouble.  
 Dear Dr. Molner: I have been reading about the new vaccine for measles. I am 19 and have never had measles. Do I need this vaccine so late in my teens, or at 19 am I immune to measles? — A. R.  
 Age is of no particular significance. If you haven't had the disease, or the vaccine, there is no reason to think you are immune. (You may, however, have had a light case that was mistaken for something else.)  
 If you don't think you've had measles, I would certainly have the vaccine, because the older you are, the more severe the disease can be if you catch it.  
 To learn of new treatment for this cruel and painful disease, write for Dr. Molner's booklet, "Gout — The Modern-Way To Stop It." To receive a copy, write to Dr. Molner in care of The Herald enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover cost of printing and handling.

**Marquis Childs  
 After 50 Years—Still Separated**

WASHINGTON — Fifty years ago America's Ambassador to Russia was a stouthearted St. Louis banker named David R. Francis.  
 Returning home in 1919 after a considerable stay in London, Francis said in an interview that he gave Bolshevikism only a few weeks or months before the Russian people, with their patriotism and good sense, would rise and wipe it out.  
**THAT WAS AMERICA'S** age of innocence which went on for an unconscionable time. On this, the 50th anniversary of the Soviet Revolution the contrast with those days of America's innocent isolation could hardly be sharper.  
 Despite diplomatic amenities and solemn declarations of the desire for coexistence, the two giants face each other across a great divide of hostility and suspicion. In the nuclear arms race and in the back-alley war of espionage and subversion, Americans and Russians on each side of the divide are engaged in platoons and whole divisions in silent and yet nonetheless lethal warfare.  
**IN THE HEADLINES** the back-alley war often gets a bigger play than the infinitely more serious contest over missiles and antimissiles. Symptomatic of the tension was Moscow's reaction to Svetlana Alliluyeva's decision to seek asylum in the United States and publish her memoirs here. The Kremlin saw this as a plot engineered by the CIA to bring about the defection of Stalin's daughter, with the timing intended to cause the utmost embarrassment during the anniversary celebration.  
**SO FAR AS CAN** be determined the CIA had nothing to do with Svetlana's wandering into the American Embassy in New Delhi requesting to be allowed to come to this country. The thrust of her often-confused and melancholy memoir was not intentionally anti-Soviet. It did reveal how completely the life of the top rulers was

divorced from that of the common people, and that this revelation cannot have been a happy one for a society based on the theory of socialist equality.  
 In the game of one-upmanship in defectors the Soviets were bound to come up with a counter. They have produced a small fish named John Smith, who is now writing his memoirs for the weekly Literary Gazette. Two instalments have appeared without demolishing the CIA.

**THE SOVIETS** spend at least three to four times as much as the United States on the spy business, David Wise and Thomas Ross say in their forthcoming book, "The Espionage Establishment." It is a murky, obsessive world in which little fish like John Smith get hooked as well as far bigger fish.

**THE BACK-ALLEY** war is inseparably entwined with the nuclear arms race. The CIA's highest priority is to determine the extent of the antiballistic missile system being installed around Moscow and several other areas. It is not hard to imagine the hundreds, even thousands, of agents and subagents at work on this assignment in every corner of the world. Secretary of Defense Robert S. McNamara's announcement that the Soviets are almost certainly developing an orbital nuclear bomb was based on a mosaic of intelligence reports like the pieces in a gigantic jig-saw puzzle.  
**ONLY A RECKLESS** prophet would venture to say what the state of relations between the U.S.A. and the U.S.S.R. will be on the hundredth anniversary of the Bolshevik Revolution. David Francis, observing that unruly mob before the Winter Palace in St. Petersburg, could never have dreamed of today's confrontation. In 1927 the enigma is as dark and shrouded as in 1977.

**David Lawrence  
 Legal Aspects Of The Vietnam War**

WASHINGTON — Two members of the Supreme Court of the United States — Justices Stewart and Douglas — dissented this week when six other justices refused to grant a review in a test suit brought by three soldiers who were drafted into the Army in 1965 and ordered to Vietnam. Justice Marshall took no part in the case.  
**JUSTICES STEWART** and Douglas said that, while they didn't want to intimate what their conclusions would be if the case were given a hearing, they felt that the high court should first decide whether it had the power to rule on the issues. If a majority concluded that it was within the court's authority to go into the matter, there would then be an examination of some of the "large and deeply troubling questions" which exist in the case. These involve a controversy over whether the conflict in Southeast Asia is a "war" within the meaning of the Constitution and whether these soldiers could be jealously ordered to go to Vietnam. Justice Douglas said:

**"A HOST OF** problems is raised. Does the President's authority to repel invasions and quiet insurrections, his powers in foreign relations and his duty to execute faithfully the laws of the United States, including its treaties, justify what has been threatened of petitioners? What is the relevancy of the Gulf of Tonkin resolution and the yearly appropriations in support of the Vietnam effort?"  
**THE PROVISION** in the Constitution which gives Congress the power "to declare war" doesn't say just when war has to be formally proclaimed. What is most pertinent, however, is that the Constitution, separately provides that the President of the United States is commander-in-chief of the armed forces. As such, he is authorized to engage in military operations to insure the security of the country. Again and again in past history, presidents have found that there was not time to ask for a declaration of any kind by Congress. They had to act immediately in order to prevent catastrophes.  
**THUS, THE STRATEGY** of the United States today is based primarily upon the potential use of our manpower and military resources as a "deterrent." At any moment—without even consulting Congress — the President may have to order a nuclear attack in retaliation for such an onslaught by the enemy. He certainly need not wait hours or days for Congress to adopt a resolution embodying a "declaration of war."  
 Even more significant is the long list of precedents over the last 150 years wherein the chief executive has ordered troops of the United States into foreign lands to protect the lives and property of American citizens.

**WHAT IS KNOWN** as the "Tonkin Gulf" resolution — adopted overwhelmingly by both houses of Congress in August, 1964 — authorized "the President, as commander-in-chief, to take all necessary measures to repel any armed attack against the forces of the United States and to prevent further aggression" in Southeast Asia. It may be argued that this referred only to a particular threat arising in this area. But since Congress has not limited the scope of the resolution or subsequently modified it, the President has every right to assume that the resolution has the broadest meaning when it authorizes military action to defend a country that has been promised American protection by the Southeast Asia Treaty.  
**THE FACT THAT** the majority of the Supreme Court of the United States decided not to pass judgment on the legality or illegality of American military operations in Vietnam is in itself an indication that no persuasive legal points have been cited to alter the present situation.

# Pal Says Bickford 'Gruff To The End'

HOLLYWOOD (AP) — Actor Charles Bickford, who played rugged he-man roles on the stage, screen and television, died Thursday night at 78.

One of Hollywood's top character actors, Bickford succumbed in the University of California at Los Angeles Medical Center.

After suffering an attack of emphysema, he was hospitalized last July. The illness later was complicated by an infection of the bloodstream and pneumonia.

CHARLES BICKFORD

A friend said Bickford was "still hard, strong and gruff" until the end.

Survivors include his widow, actress Beatrice Loring, whom he married in 1919, and a married son Rex, 42, and daughter, Doris. No funeral plans have been made.

The red-haired Bickford, after more than 100 film credits, was enjoying success in television as the hard-fisted ranch owner on "The Virginian." Recently actor John McIntire—who moved into "Wagon Train" when Ward Bond died—filled in for Bickford.

He was born in Cambridge, Mass., Bickford did almost everything but act in his early years. In his autobiography, "Bulls, Balls, Bicycles and Style of Things that Happened to Me in Transit from a Roughneck Logger, Hobo, Barker, Roach Exterminator, U.S. Navy Boxer, Vaudeville Performer, Broadway Star to Cinema.

Once he got into a dispute with Louis B. Mayer, and the producer fired him.

"I wouldn't give in, I wouldn't be disciplined," Bickford recalled, "and Mayer said I would never play again. The rest of the studios, which didn't dare oppose, stood behind him."

**BLACKLISTED**

"I was blacklisted but I stayed on—not because of motion pictures, but because I like California—stayed on, marked time, took care of myself, found outside interests."

At the time of his death, Bickford owned a feed business for race horses, a delivery service, and a medical exchange for Beverly Hills doctors.

Although Bickford admitted that he speak-your-mind, shoot-from-the-lip attitude often won him enemies, he never regretted it.

"I have no use for people in general," he said crustily.

Bickford's show business career began in San Francisco where he found himself penniless after a trip to China. He met two blondes and the manager of a burlesque show, and was invited to have a drink. After a few rounds, the manager asked him to join the show.

## Denton Books Tax Election

By The Associated Press

Two more municipalities—the North Texas city of Denton and suburban Olmos Park near San Antonio—have decided to hold elections next month on the one per cent city sales tax.

The Denton City Council voted Thursday to hold an election Dec. 9. Olmos Park will hold its election Dec. 27.

A flood of elections will be held Dec. 5 with residents of the state's four largest cities—Houston, Dallas, Fort Worth and San Antonio—voting on the sales tax that day.

The Olmos Park vote date coincides with that of the San Antonio suburbs of Alamo Heights and Terrell Hills. If the issue fails to carry in San Antonio, the suburban areas could cancel their elections.

The Dallas-Fort Worth area will be the site of an area-wide election Dec. 5. The Dallas Chamber of Commerce says some 30 municipalities in the area will hold elections that day on the sales tax proposal.

Denton officials estimated the sales tax could bring in \$225,000 a year to city coffers if approved. It also would put some tax load on the city's 20,000 college students.

# Senator Hopes Probe Will Lead To Reform

WASHINGTON (AP) — Sen. John L. McClellan, heading a Senate panel probing big-city riots, says hearings indicate laxity in the federal antipoverty program.

The Arkansas Democrat, chairman of the Senate permanent investigations subcommittee, said he hopes its probe will lead to reform within the Office of Economic Opportunity.

**NOT THE PLACE**

Sen. Jacob K. Javits, R-N.Y., said in an interview he feels the investigation may be turning into a trial of the federal antipoverty agency. "This is not the place to try the OEO," said Javits.

"I'm not out to get the OEO," McClellan said in a separate interview, but added he felt the probe might point up the need for policy changes within the agency.

When the inquiry resumes in about a week the operation of poverty-fighting programs in Nashville, Tenn., is again expected to be a major topic.

**RIOTS PROBLEM**

So far, the investigation of Negro disorders in Nashville and in Houston has been marked by charges of ties between poverty workers and racial militants.

McClellan said he does not know whether this will be a pattern as the subcommittee moves to other cities in a riot investigation expected to continue well into next year.

He said the inquiry will continue until it determines the pattern of cause and possible cure in city race riots. "But when that point will be, I don't know," he said.

The OEO faces a different kind of problem in the House—a Republican effort to reduce its funds by \$600 million.

Rep. Charles E. Godell, R-N.Y., proposed Thursday reducing from \$2.06 billion to \$1.4 billion President Johnson's money request for the OEO in fiscal 1968.

**RECKLESS PLAN**

The House isn't expected to

## Police Probe Five Mishaps

Police records show five minor accidents were reported Thursday. Loralee Richey, Colorado City, and Marilyn Corbell, 2509 Carol Drive, were in collision at 1000 Main.

Nan Phillips, 1304 Scurry, and Melton Roberts, 1606 Main, were in an accident at Ninth and Gollard. Emma Tucker Davis, 2001 S. Monticello, was in collision with a car that left the scene of the accident at Howard County Junior College parking lot.

An automobile belonging to Marie Lopez, 206 NW 3rd, rolled backward into a parked car belonging to Beverly Alexander, 707 W. 18th, at the Highland Shopping Center parking lot. Donna Sue Collingsworth, 1006 Baylor, and Ruby Popejoy Bayne, Howard County Junior College, were in collision at the East Fifth Street entrance to the College Park Shopping Center.

# Packed House Sees 'Evening With Nail'

"An Evening with Robert Nail" was a delightful event Thursday, when the dramatic organizations of Big Spring High School, under the direction of Dan Shockey, entertained several hundred residents for a supper theatre.

The young actors frolicked through two of Nail's plays, doing credit in both instances to the delights, heartbreaks, loves, problems, laughs, and mysteries in the lives of teenagers. To the teenagers in the audience, as well as those who have lived through that exquisite time, both plays were well received.

"A Portrait of Nelson Holiday Jr.," immediately captured the fancy of the packed foyer of the new high school, as the audience interrupted the play's time and again with applause. Randy Morgan and Diana Landrum set the tempo perfectly, which was maintained throughout by the balance of the cast: Barry Knocke, Sharon Swin, Cindy Dittrich, Kay Stephens, Barbara Todd, Carl Van Vleet, Wayne-Murphy, and David Cooper.

Shockey directed this opener, with Terry Conner as assistant director; Jim Clark, stage manager; Joyce Walker and Joan Knight, properties; Sue Fannin, costumes; Donna Reid and Martha Jordan, make-up; Linda Helton, Karen Bell and Bob Pursler, publicity; Claire-Marie Caulfield, Linda Helton, Virginia Wise, arrangements; and Barbara Todd, tickets.

"Antic Spring," the second offering, continued to emphasize the talents of the high school dramatists, with cast members Janet Perry, Kerry Gunnels, Elizabeth Lipscombe, Charles Kimble, Susan Boyd and Kent Fish.

Miss Sharon Ryan, high school teacher, directed this one, with Janelle Langford, assistant director; Betty Fleming and Danny Bohannon, props and set; John Robertson, Gayle Webb, and Ginger Adams, costumes; Sybil Wiggins and Cathy Macklin, make-up; Marianna Lipscombe, publicity; Richard Rigdon, Diana Oliver and Phyllis Faulkner, arrangements; Carla Wiggins, tickets.

The playwright had been invited to attend the performances Thursday evening, but he had a previous engagement. He is the writer, director, and producer of the Fandangle, held annually at Albany.

## Beautiful Actress Found 'Near Death'

HOLLYWOOD (AP) — Academy Award winning actress Jennifer Jones was rushed to Mt. Sinal Hospital today after sheriff's deputies found her "near death" in the Pacific surf at the foot of a 440-foot cliff.

The shy, beautiful actress found unconscious and not breathing, may have fallen about 100 feet, said Los Angeles County sheriff's deputies.

A deputy restored her breathing after performing mouth-to-mouth resuscitation for two or three minutes.

**FOOTPRINTS**

The deputies found her footprints winding down a 1,300-foot-long path to the surf and said they ended about 100 feet from where she was found.

Her stomach was pumped at the Malibu Hospital before she was taken to Mt. Sinal. A sheriff's spokesman said Miss Jones, widow of producer David O. Selznick, reportedly had called her personal physician and said she was about to take some pills.

There was no immediate word from hospital officials on her condition.

Sheriff's deputies found her after spotting her sports car at the top of the cliff.

**BORN IN TULSA**

Miss Jones won an Academy Award for her performance in her first film, "Song of Bernadette." She was found just hours after the death of her costar in that film, Charles Bickford. Bickford died at UCLA Medical

JENNIFER JONES

Center of emphysema.

Miss Jones, 48, born Phyllis Isley in Tulsa, Okla., married the late actor Robert Walker in 1939. The couple had two sons. She was divorced from Walker in 1945 and in 1949 married Selznick. They had one daughter.

In 1955, Miss Jones was voted by some 15 million moviegoers as the best actress of the year for her performance in "Love is a Many Splendored Thing." The Oscar for the best performance by an actress that year, however, was awarded to Anna Magnani for her role in "The Rose Tattoo."

During her years as a star, Miss Jones was rarely seen in public and never at public functions.

Three women and a man from Snyder spent Thursday at the Big Spring State Hospital receiving volunteer orientation. This was the first group from Snyder in connection with the Circuit Riders program which is part of the Volunteer Grant Project.

The Snyder group will be spending one day a week at the state hospital working with patients from the Snyder area, particularly with senior citizens. Thursday they brought refreshments and had a get-acquainted party with the Snyder area patients.

County Judge Sterling Taylor, Snyder, accompanied the volunteers on their first day at the state hospital. Judge Taylor had been instrumental in setting up of the Snyder Volunteer Grant office which will coordinate the program from that area. Additional volunteers are being recruited through the office.

Orientation was conducted by Walter Widger and Desmond Powell, Social Service Department; Mrs. Mary Cochran, Volunteer Coordinator, and Miss Hope Leyva, physical therapist. The group toured the Occupational Therapy department and several units of the hospital.

Colorado City has eight women doing volunteer work one day a week at the hospital under the Circuit Riders project, and the Lamesa group will soon be spending one day a week as volunteers.

Snyder volunteers are Mrs. Eva Allen, Mrs. Eunice Weathersbee, Miss Jan Summers and

## Lubbock Voters Okay Sales Tax

LUBBOCK (AP) — Voters approved a one per cent city sales tax and at the same time defeated five of 11 proposed bond issues Thursday.

It was the first time in Lubbock history that a municipal bond issue has failed to carry.

The Lubbock residents likewise rejected expansion of urban renewal in a straw vote. About 10,000 went to the polls.

Slightly more than one-half of a bond program totaling more than \$29 million was turned down. The proceeds were to finance a five-year capital improvements plan.

**Tax Levy Approved**

LOCKHART (AP) — Residents of this Central Texas town voted Thursday to levy a one per cent municipal sales tax.

The vote, as certified by city councilmen Thursday night, was 348 to 103.

## Coin Club Officers Selected

M. K. Britton was elected as president of the Big Spring Coin Club at the meeting of the organization Thursday night. He succeeds O. O. Craig. Craig was elected vice president for the new year.

W. E. Wozencraft was named as secretary and also re-elected as representative of the club to the Texas Numismatic Association — a post he has held since the local club was first organized. Lois McKee is the new treasurer.

Next meeting of the club will be Dec. 14 at the home of Mr. and Mrs. M. K. Britton. It will be a Christmas party and all members are asked to bring gifts for exchange.

## Snyder Volunteers Take Hospital Orientation

Opening night customers attending formal opening of the La Posada Restaurant, 206 NW 4th, at 5 p.m. today will find Latin American decor in the recently redecorated dining rooms.

Formerly Morales Restaurant, La Posada specializes in Mexican food, as well as steak, sea food and chicken.

Mr. and Mrs. Oscar Zertuche, managers, describe the decor as a mixture of authentic Spanish and Mexican. The style is predominant throughout the structure, accented by the sculptured effect of the building's finish and heavy lanterns hung at the front entrance.

La Posada — "the Inn" — offers two dining areas, the Matador and Anacacho rooms. A gold carpet sets off five ceramic tile portraits of bullfight scenes. Greenery tops an off-white room divider, while black wrought iron Spanish lanterns add a romantic glow.

A waiting room carpeted in aqua blue leads to the Matador room, which features still more Latin charm. Ceiling chandeliers cast a faint light on west wall paintings of a bullfighter and his senorita. Mounted candles are centered on the east wall as artificial flowers hang lazily from corner balconies.

Zertuche, a native of Del Rio and graduate of Southwest Texas State College, returned to Big Spring recently with his wife, the former Cynthia Gonzales of Big Spring, to supervise La Posada. She is a graduate of Incarnate Word College in San Antonio.

Zertuche said the restaurant would be open seven days a week, serving from 11 a.m. to 2 p.m. and again from 5 p.m. to 11 p.m. Advance reservations may be made by calling 267-9112.

## Anderson Traces Education Growth

The growth of education and the connection it has with liberty and freedom formed the theme of a short talk Thursday by Sam Anderson, superintendent of the Big Spring city schools, to the Kiwanis Club.

Anderson told of the slow expansion of education from primitive times to the present and of the changing patterns which have marked the ages.

He was introduced by Noel Reed, a member of the club and an associate of Anderson in the city school administration.

A brief mention was made of the homecoming plans for Friday and the open house planned at the city's expanded school system on Sunday.

**Fines Total \$505**

Twenty-four charges in Corporation Court brought assessed fines of \$505 from Tuesday through Friday. Twelve traffic charges had fines totaling \$230 and 11 charges of being drunks had fines of \$275. One traffic charge was dismissed.

Opening lead: Ace of ♣

Altho North's jump raise of South's one diamond response to three diamonds is not forcing—only a jump in a new suit by the opening bidder is unconditionally forcing—South elected to carry on. He had only six points in high cards; however, with four card length in hearts, which was West's overall, it appeared likely that North was very short in that suit. South's singleton was an added feature.

West opened the ace of hearts against five diamonds, feinting dummy's lone king. A shift did not appear inviting and West continued with the queen of hearts which North ruffed with the deuce of diamonds.

Declarer observed that, if he could ruff out all of the losers left in his hand—which consisted of two more hearts and one spade—that he could come to exactly 11 tricks. However, care must be exercised in timing his campaign to avert an overruff by East in the heart suit.

South's first step was to cash the king and ace of spades and then trump the jack with dummy's five of diamonds. Next came the ace of clubs followed by a club ruff. Now a third round of hearts was led and declarer carefully put North's ace of diamonds on this trick. His precautions were well taken for East showed out himself, discarding a spade.

A third club was led and East discarded another spade as declarer ruffed with the seven of diamonds. The remaining heart was led and trumped with dummy's queen of diamonds. Declarer had no objection if East overruffed this time with the king, for South's J-10-9 of diamonds would then take the rest of the tricks.

South's only losers on the deal were the ace of hearts and the king of diamonds. His key play was trumping the third heart with the ace in dummy for, if he had ruffed with the queen—East could have overruffed with the king and then returned a trump, leaving his opponent with a losing heart.

## REASONS BEHIND SINS OF ISRAEL RECORDED BY HOSEA FOR LESSON

Where there is sin, there is a reason behind it. This is the thrust of Sunday's uniform lesson taken from Hosea 4:1-2, 11, 12b; 8:11-14; 10:12. Hosea, apparently born and reared in Israel, knew well the sins which had engulfed that nation. He prophesied boldly as to the debauchery and to its impending consequences. At the time he spoke, the materially golden age of Jeroboam II had passed and of the next six kings all but one were assassinated.

Hosea records that God had an indictment against the people because "there is no truth, nor mercy, nor knowledge of God in the land." People could not trust each other anymore. Consequently they had no mercy — or steadfast love. The third point is a natural evolution, for as Kell said, neither truth nor love can be sustained unless they have their roots in the knowledge of God.

A catalogue of some of the sins is recited: Swearing, lying, killing, stealing, committing adultery, breaking out (which is more accurately translated breaking in or robbery), and blood touching blood (murder and other violence), whoredom and wine and new wine.

What lay behind this was they had embraced other Gods. The Israelites had all sorts of gods, including silver and gold. Some of the purported worshipers were in reality indulgences. Animal sacrifices had turned into an occasion of gorging and revelry; fertility rites became sexual orgies under guise of worship. Immorality bred immorality. No wonder God was revulsed.

## Encounter Leader Speaks Wednesday

Dr. O. Byron Richardson, director of Revival Evangelism for the Texas Baptist Convention, will be the speaker for the annual fellowship dinner of the Baptist Temple Church at the new high school cafeteria Wednesday at 7 p.m. There will be a children's party at the church and the nursery will be open.

Dr. Richardson, who directed the successful August Encounter Crusade in Big Spring, has for the last seven years led the Baptist Convention in the field of Revival Evangelism on a staff basis. Prior to that, he served 20 years as a Baptist pastor in Baytown, San Angelo and Alice, where he was pastor of the First Baptist Church for many years. In San Park Heights Baptist Church and active in community affairs. Dr. Richardson formerly served as president of both District 4 and later District 16 of the Baptist Convention.

### 'Pastor's Day' Held At Webb

Thirty-five pastors from Big Spring and surrounding communities spent the day at Webb AFB yesterday in conjunction with a "Pastor's Day" sponsored by the Chaplain Division. Chaplain (Lt. Col.) Robert T. Deming, wing chaplain, introduced the guests in the morning and spoke about the Air Force chaplain program. Following this briefing, the group of pastors was given a "red carpet" tour of the base.

## CHURCH NEWS Services Set

### Revival Plans

Weekend revival services are being held at the Church of God at Fourth and Galveston, the Rev. Bob Bohannon, pastor, announced.

These will be climaxed by special services Sunday honoring retired ministers. The Rev. W. E. Mitchell, Weatherford, a former pastor who will be conducting the revival services, will speak at both Sunday worship hours. Originally the church had planned to observe this special day on Oct. 29, but the Rev. N. L. Sutter, the speaker scheduled then, became ill. Revival services will be at 7:30 p.m. today and Saturday, and on Sunday at 11 a.m. and 6:30 p.m.

Rev. Mitchell was pastor here in 1953-56 and recently retired after 39 years in the Church of God ministry. He and Mrs. Mitchell, who will accompany him here, celebrated their Golden Wedding anniversary Sept. 16.

### Mission Program

William Joseph Rawlins, a United States Presbyterian missionary to Brazil since 1956, will address the Coahoma Baptist Church, 208 N. 1st St. in Coahoma at 11 a.m., Sunday, telling of his mission work and showing slides.

# BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, FRIDAY, NOVEMBER 10, 1967 SEC. B

Travel Plan

Map outlines President Johnson's two-day tour of military installations which is to start Friday. From Washington he will go to Ft. Benning, Ga.; El Toro, Calif.; Marine Air Station; Camp Pendleton, Calif.; the aircraft carrier Enterprise; the North Island Air Station at San Diego; McConnell Air Force Base, Kan.; Langley Air Force Base, Va.; and the Coast Guard base at Yorktown, Va.

## LBJ To Woo Voters On Two-Day Journey

WASHINGTON (AP) — President Johnson, displaying a new fighting stance in his effort to confound pollsters and woo voters, sets out on a coast-to-coast tour to visit American fighting men ashore and at sea.

Embarking on his first major barnstorming trip of 1967, Johnson was scheduled before nightfall today to watch Army ranger and paratrooper training in Georgia, greet Vietnam combat pilots in California and observe operations aboard the nuclear-powered carrier Enterprise somewhere in the Pacific.

**FAST-PACED**  
The two-day journey will take the commander-in-chief to bases of all the armed services—including the Coast Guard—in four states and on the high seas.

## HHH Attends Garner Rites

UVALDE, Tex. (AP) — John Nance Garner, former speaker of the U. S. House of Representatives and vice president, was buried Thursday beneath a big mimosa tree on the western outskirts of his hometown.

Vice President Hubert H. Humphrey joined several hundred other mourners as they stood in the sticky, cold mud and repeated the Lord's Prayer for the man who twice tried to be the first U. S. president from Texas.

Garner died early Tuesday, 16 days before his 99th birthday. "Death is nothing but a horizon—and the horizon is nothing but the limit of our sight," said the Rev. Romilly Timmins, local Episcopal rector. Timmins conducted a 12-minute service at a downtown funeral chapel and a 4-minute service at the graveside.

Tully Garner, 71, the former vice president's only immediate survivor said the bushy browed politician never talked about death except to say he wanted his funeral to be as brief and simple as possible.

There was no sermon, no eulogy.

More than 500 persons braved a cold, misting rain, unusual for this normally balmy section of South Texas, to file past Garner's open casket as he lay in state for almost two days.

Johnson's fast-paced travels were keyed to the observance Saturday of Veterans Day.

The President got scant rest before taking off. Without advance White House announcement, he flew Thursday night to New York City to speak before some 1,000 patrons of a dinner sponsored by an arm of the Jewish Labor Committee. AFL-CIO President George Meany was the honored guest.

**NEW STYLE**  
Johnson, long noted for his nonbelligerent "come let us reason together" phrases, tried out a new, fighting style—to the obvious delight of an audience that interrupted with such cries as, "Give 'em hell."

It's been apparent for several weeks that Johnson has been deeply concerned about public opinion polls depicting him as the underdog in the 1968 election if he decides to seek another term. His tougher language seems a direct new bid to generate voter backing for his policies.

**'PURE BUNK'**  
Strengthening the language of his prepared text as he went along, the President asserted "it is just pure bunk" to claim progress in Vietnam must come at the sacrifice of progress at home.

The President said "we can meet our commitments at home and abroad—and I believe we will."

Arguing for his Vietnam policies, he said the nation "is being tested on the anvil of war," and continued: "If we fail, we may forfeit our hope for world stability. We may risk a

## East Texas Pine Timber Increases

COLLEGE STATION, Tex. (AP) — East Texas has much more pine timber than a decade ago, a survey made by the U.S. Forest Service shows. Hardwood volume has declined.

East Texas now has more than nine billion cubic feet of timber in sound, well-formed trees at least five inches in diameter. Softwoods have increased 40 per cent since the previous survey in 1955. Hardwoods have dropped about 11 per cent.

## Hippies Must Wear Shoes On Airliners

WASHINGTON (AP) — It all boils down to shoes and socks. At stake: Can you get on a commercial airliner barefoot?

Hippies, those self-styled flower children who often plane-hop from demonstration to demonstration, show up at airline ticket counters with guitars, long hair—and often no shoes.

**BATH BLUES**  
Airlines have rules about passengers. They won't accept babies under 7 days old, the mentally deranged, anyone with a contagious disease or drunks.

But someone without shoes? Or someone who needs a bath? "We don't want to dictate fashion," said an Eastern Airlines spokesman, "but we now require shoes." So does the Public Health Service.

"Shoes are a question of policy," said American Airlines in New York. "We're meeting this week with other airlines to discuss such a policy."

An industry journal, Aviation Daily, says "airlines should exercise their right to refuse passage to those not meeting cleanliness standards."

**GUITARS DON'T FIT**  
The American Civil Liberties Union says airlines have no authority to decide cleanliness. "No right at all," said a spokesman. "To do so is the same kind of reasoning that kept Negroes in the back of the bus."

The Federal Aviation Agency says shoes are out of its jurisdiction. "Congress," said a spokesman, "has not given us statutory authority to make passengers bathe before boarding an airliner, unless it can be proven their presence has an adverse effect on aviation safety."

The FAA did deal indirectly with guitar-playing hippies last week by ruling that a passenger can take aboard only one piece of hand luggage, and it must fit under his seat. Guitars don't fit. "Which does away with in-flight entertaining," noted United Airlines.

## Radar For Birds?

BOULDER, Colo. (AP) — Radar is for the birds at the University of Colorado.

Dr. Warren L. Flock is tracking migration of birds on radar, hoping to learn more about the possible role of radar in reducing the danger of airplane-bird collisions.

Flock, an electrical engineer, said the research eventually may provide a basis for predicting bird migrations and guiding planes over or around large flocks of birds.

He said the Air Force spends about \$10 million a year repairing aircraft damaged in collisions with birds. He said in 1965, 75 jet engines—costing \$130,000 go to a Coast Guard station at Yorktown, Va.

The President is expected to return to the White House late Saturday or sometime Sunday.

## Nine Rivals Concede Child Star Is Tough, Famous Foe

REDWOOD CITY, Calif. (AP) — A former Marine who won the Navy Cross, Silver Star and Purple Heart in Korea.

The founder of controversial Ramparts magazine who has the support of actor Robert Vaughn of "The Man From U.N.C.L.E."

The son of a World War II undersecretary of the Army.

A sheriff who wants tougher crime laws.

These are among the nine congressional candidates who think Congress can and should get along without the race's most celebrated entrant: Shirley Temple Black.

**VIET ISSUE**  
They are running in next Tuesday's special election in San Mateo County's 11th Congressional District to fill the vacancy created by the death of Republican Rep. J. Arthur Younger.

The rivals concede that Mrs. Black, the dimple-cheeked child star of the 1930s, is a tough and famous foe. They note that while she is 39, wife of an executive and mother of three teenagers, she has listed herself on the ballot as Shirley Temple Black and not Mrs. Charles Black.

But political observers here doubt that any one of the 10—four Republicans and six Democrats—will get more than 31 percent of the vote. This would mean that the top vote-getter in each party will face each other in a runoff on Dec. 12.

The Vietnam war has become a key issue.

**MARINE LEADS**  
Mrs. Black, a Republican, says the war should be ended quickly and honorably and that the tactics of fighting the war should be left to military leaders.

Some polls put Republican lawyer Paul McCloskey, 40, who was a Marine lieutenant in Korea, in the lead. He opposes the war, and thinks the Geneva accords of 1954 should be enforced. He has the Black camp worried.

Vaughn has joined the battle on behalf of Edward M. Keating, 42, a Democrat, who wants the United States to stop the bombing of North Vietnam and negotiate an end to the war.

The other Republican candidates are Palo Alto businessman William H. Draper III and County Sheriff Earl Whitmore.

## Small Piece Of Metal Snags Nuclear Reactor

MONROE, Mich. (AP) — A \$120 million nuclear reactor near this community downriver from Detroit is out of action because somebody dropped a piece of metal in it.

The reactor will remain idle for several months as a result of that small item.

**BEER DENIAL**  
There have been published reports that the metal is, of all things, a beer can, but the general plant manager, Walter J. McCarthy, denied this.

The facility, the Enrico Fermi Nuclear Reactor, has been out of operation for 13 months and McCarthy said it will take about four more months of work to get it going again.

The work is aimed, he said, at fishing the piece of metal out of the reactor chamber. The piece is a bit of sheet metal eight inches long and three inches wide.

McCarthy said the metal apparently was left in the reactor chamber during construction and was overlooked when the chamber was inspected.

The reactor, which in layman's terms is designed to produce more fuel than it consumes, broke down after a 52-hour test.

**SPECIAL CAMERA**  
McCarthy said the metal sheet had clogged the flow of metallic sodium, which is used to carry the reactor's heat to the section where it is generated into steam, which, in turn, is converted to electricity.

Because of the clogging, the heat began accumulating and partially melted two uranium

fuel elements, causing an automatic shutdown.

In searching for the cause, 120 tons of sodium were removed and placed in storage tanks. A special camera was used to photograph the inside of the reactor.

McCarthy said the reactor will have another test run after the sheet is removed and repairs, if necessary, are made.

**Tot Accidentally Shot And Killed**

HOUSTON (AP) — Debbie Reed, 20 months, was accidentally shot and killed Thursday.

Police said her 4-year-old stepbrother was playing with a .22 caliber pistol.

McCarthy said the metal sheet had clogged the flow of metallic sodium, which is used to carry the reactor's heat to the section where it is generated into steam, which, in turn, is converted to electricity.

Because of the clogging, the heat began accumulating and partially melted two uranium

## Pelican Oil Hike Slated

NEW ORLEANS (AP) — Louisiana's conservation commissioner told oilmen Thursday the state's allowable oil production in December will be increased to 40 per cent.

J. M. Menefee said at a statewide hearing on oil production that the daily output during December would pass the 2,250,000-barrel mark. Wells in the state were limited to 1,970,489 in November, or 39 per cent. Oilmen requested an allowable of at least 2,009,442 barrels each day to meet the market demand.

# Concrete Burial Vaults Manufactured At Trinity

Trinity Memorial Park has had to substantially increase the number of vaults they produce each month as the demand has risen in the Big Spring area as people learn of their superior qualities.

The concrete vault is less expensive than many other types of vaults. In strength and durability it is equal to or superior to all other types with the possible exception of solid copper.

Trinity vaults are built of steel reinforced concrete with a water proofing agent mixed with the concrete before it is formed. Dense concrete with a strength of over 4,000 pounds per square inch is required and tests have shown this concrete increases in strength as the years go by. A concrete vault prevents sunken graves and rust and corrosion are not possible. Trinity Memorial Park, local manufacturers of concrete vaults, believes a more everlasting vault could not be built regardless of the price.

A special feature of the Trinity vault is the "Air Seal" which prevents moisture. Any dampness which might occur in this type vault from condensation of air or any other possible source

can escape, so the interior will be kept in a dry condition. Experience has proven vaults which are "air tight" sealed and have no "air-seal" provision will not permit the escape of moisture which gathers.

## Enrollment Dips

BEAUMONT (AP)—Total enrollment for the 1967-68 school year for the Beaumont Independent School District has been set at 14,998—31 less than the district counted last year.

A breakdown shows 7,580 elementary pupils; 3,235 high school pupils; 3,857 junior high pupils, and 326 special-education pupils.

## CHRISTMAS SALES

### Expecting Record Rise

AUSTIN (AP)—Texas retailers are expecting record pre-Christmas sales this year, the Bureau of Business Research reports.

"Earlier in the fall Texans seemed to be hanging back a bit, especially from purchases of durable goods," the bureau said.

There was an 11 per cent August-to-September decline in sales of durables and a five per cent drop in nondurables.

This "shook some retailers' confidence more than was warranted," the bureau said, explaining, "September had six per cent fewer weekdays except holidays than August and which is also the first month during which

the new Sunday closing measure was in force."

September is normally a weak month in many retail lines, the bureau said.

Apparel-store sales this fall "have been surprisingly strong" throughout the state. "Surprisingly" because fall no longer is the best season in clothing lines.

Gradual changes occur in consumer's preferences, habits and disposable income. Food-store sales in Texas have tended in recent years to drop sharply in November, for example, even considering Thanksgiving, the bureau said.

Furniture and appliance stores now regard September as one of their poorest months, whereas it used to be one of their best.

## PHILLIPS TIRE CO.

### Suggest Safety Check

Phillips Tire Co., 311 Johnson, carries the Michelin X tire and a complete line of Fisk tires. It also has a retread department open every weekday.

Ted Phillips, owner of Phillips Tire Co., urges all automobile drivers to check their tires—or better yet drive in to Phillips and let him check them for you. Winter will soon be here and older tires do not have the traction for driving on icy streets.

The Fisk Premier, top quality tire for passenger cars, is made for greater high speed safety. It is constructed of four plies of low-angle, pressure-cooled nylon. The company feels so strongly about the durability of the tire they offer an unconditional road hazard guarantee for the life of the tire. If you should run over a glass bottle, spike or any object that damages your Fisk Premier, it would be judged as a faulty tire.

Outstanding steering control is offered with the Premier due to the wrap-around tread with deep shoulder grooves. Surfer and safer stops are assured by the 27,648 sharp biting edges which give superior traction. The Fisk Premier will give you extra mileage for the tread is 20 per cent deeper than standard new car tires.

Another top quality tire stocked at Phillips Tire Co. is the Machelin X which has a three-point guarantee. The Machelin X is constructed with radial ply and will not build up heat. This tire is guaranteed to have an original tread life of 40,000 miles. If the original tread wears out before the 40,000 miles, Phillips will, upon presentation of the guarantee card and in exchange for the worn out tire, either allow credit against the purchase of a new tire or a cash refund.

Every Michelin X Radial Tire is guaranteed to be free from manufacturing defects in workmanship and material. The tire is also guaranteed to withstand normal road hazards during the life of the original tread of the tire.

Trained men operate the retread department at Phillips. Truckers have found that recapping tires saves them money and gives them new tire service. Have Phillips check your tires for recapping—driving on

worn-out tires is dangerous.

Farmers operating tractors should try Phillips "in-the-field" service for their tractor tire problems. Farmers will find this service is easier and cheaper than taking the tire off, bringing it into town and then putting it back on. A call to 267-8271 will bring men having 25 years experience with tractor tires to take care of your problem.

Phillips is open 7:30 to 6 Monday through Friday and 7:30 to 2 on Saturday. Don't let bad tires place your life in danger—or the lives of your loved ones or those you meet on the streets and highways.

## Motoring In Austria Not Easy

VIENNA (AP)—Motoring in Austria still is in the developing state, with outdated roads and few speed limits and the motorist almost has to be a mechanic to get a license.

But motoring is developing fast. Cars are important to Austrians and about one person in seven has one. To adults, a car represents years of saving money; to young people, a status symbol.

To get a license, Austrians study books showing detailed drawings of the clutch, brake system, the engine and gears.

"I am no mechanic, so why should I know what all those pistons are doing?" asked one candidate for a license.

"It's SILLY. If my car stalls I would push it to the curb and call a mechanic," said an official of the Austrian Automobile Drivers Association. Austrians hope a new traffic law next year will make things easier for them.

But the Vienna Traffic Department says: "Drivers should know enough about the mechanical parts of their cars to operate them safely."

Authorities recently imposed a 65-mile speed limit on the southern freeway on Sundays. "For what do we have fast cars when we are not allowed to drive fast," one newspaper editor protested.

FEW ZONES  
Cities and residential areas have 35-mile speed limits, but few motorists observe them. Police patrols to stop speeders are rare, and few school zones have special limits.

# New York Leaf Duster Works Up Floor By Floor

NEW YORK (AP)—Ada Lyons starts at the bottom and works her way up every week.

She's a leaf duster for 300 artificial plants scattered over 33 floors of a Manhattan skyscraper.

Mrs. Lyons, 30, starts her plant cleaning rounds at 5:30 p.m. and dusts her last leaf six hours later.

Each week she starts on the first floor and works up, floor by floor. By the end of the week she finishes up on the 33rd floor.

Mrs. Lyons is the only leaf cleaner among the 10,000 employees of National Cleaning Contractors, the maintenance division of Kinney National Services, Inc.

Her supervisors say she was picked for the job because she has a sensitive touch, is patient, can work alone, and isn't disturbed by tedium.

As Mrs. Lyons, who dusts leaves at the rate of one a minute, says: "I like to clean them. I don't get bored."

Mrs. Lyons' tools are a sponge, a bucket of soap and water, a feather duster, a bottle of spray. Each leaf is cleaned individually.

Some plants have dozens of tiny leaves. Others have only a few but they're great, big things. Some of the plants are pot size. Others are taller than Mrs. Lyons, who stands five

feet. She uses a ladder to clean these. Why so many artificial plants and so few real ones?

Economic mostly? "A big artificial plant costs about \$45," says a spokesman. "A big live plant costs about \$50. A live plant has a life span of about six months in a place like this. With care, an artificial plant will last indefinitely."

**By TOMMY HART**  
Two teams which are not going anywhere in the District 2-AAAA race, Odessa High and Big Spring, come to grips in the Steers' final home game of the 1967 season here at 8 o'clock this evening.

Much will be at stake, even though both clubs have long since been eliminated from the championship race. Too, the Steers will be displaying their wares before a Homecoming crowd and that should help the locals' incentive.  
Big Spring will be seeking to stay out of the conference cellar and insure itself of at least a .500 season. Odessa will be trying to pull the Longhorns down into the dungeon with it and, in so doing, win its first game of the campaign.  
The Red Hosses have come very close to breaking their slump, at times. They tied Lubbock High early in the year and lost a one-point decision to El Paso Coronado, 29-28.  
In addition, they almost upset Midland High but yielded, 7-6.

RONNIE PEOPLES

Midland earlier had come from behind to topple Big Spring, 21-14.  
The Bronchos also played a tremendous game with Abilene High only to lose, 20-13.  
Only Abilene Cooper and San Angelo has made the Cayuses look bad.  
The defenses of both teams have leaked badly over the year. Odessa has yielded a total of 186 points for an average of 24.3 a game.  
Big Spring has surrendered 105 points in its last three assignments (one of which it won). The Longhorns have yet to be shut out this season. Odessa failed to score in three of its starts.  
Over the year, Odessa has

## LOOKING 'EM OVER

With Tommy Hart

Cassius Clay, who expressed undying love for the city of Houston when he was the King of the Hill among the heavy-weight boxers, is now a resident of Chicago.  
When Clay was sued for \$284,615 by his former attorney recently, he requested that the case be transferred—if it is not dismissed—to his 'home town', Chicago, for 'convenience in calling witnesses.'

Victories achieved over Odessa High by Big Spring have come only a little more frequently than they have against Abilene High.  
Down through the years, the two clubs have met 26 times and Big Spring has won only eight of the games. More than half of those occurred prior to World War II.  
About 20 years ago, the Bronchos (then representing a one-half school town) were dealing out such humiliating defeats to Big Spring that fans in both communities were asking that the series be ended for humane reasons.  
The two schools came down to their 27th meeting in history here tonight. The game, although it means absolutely nothing in the District 2-AAAA race, takes on a lot of significance to both teams.  
Big Spring needs the victory to stay out of the league cellar and savage a .500 season. Odessa is desperate for a victory, something it hasn't tasted all season. For that reason, coupled with the fact that it is Homecoming for Big Spring, both evenings likely will be "up" for this one.  
Odessa's record belies its strength. The Bronchos have played some tremendous games only to lose. Injuries hurt them early in the year but the club is said to be healthy now.

Big Spring's biggest margin of victory in the series occurred way back in 1922, when the local prevailed, 43-0. The Steers' last success at the expense of the Bronchos occurred in 1965, at which time their edge was 21-0.  
Odessa walloped the Longhorns, 64-0, in 1950 and on five occasions has counted 40 or more points against the Herd.  
The two clubs played scoreless ties in 1940 and again in 1962.  
In 1946, Odessa came here to vanquish the Steers, 12-0, but lost face on the field. The Bronchos were gathering steam for a successful run at the state championship—that year, Byron Townsend was the team's bell wether, but had it not been for a fullback named Pug Gabriel, the Red Hosses might have been upset that night.  
The Odessans were terrific that fall. In the state finals at San Antonio, they knocked off a San Antonio Thomas Jefferson team that boasted, among other standouts, a boy by the name of Kyle Rote, who went on to become an All-American at SMU and later was a pro standout.

The resident Steers have experienced their problems this fall but Coach Spike Dykes wonders how much better they would have fared had halfback Lonnie Clanton stayed healthy. Clanton injured his knee in the second game against Plainview and hasn't been the same since.  
With Clanton operating at 100 per cent, Dykes could have run the kind of game he likes best—straight power up the middle, around the ends and off the tackles.  
All things considered, the Longhorns have done very well this fall. Victories over Odessa and San Angelo would simply add frosting to the cake.

## Cards, Pokes And Packers Given Edge

NEW YORK (AP) — New Orleans' upset of the heavily favored Philadelphia Eagles last Sunday and the flu bug combined to knock out Jack Hand, the regular operator of this weekly guessing game. While Hand is recuperating and resting on a 56-20-7 record, we borrowed his play books and miniature computer.  
But you need more help than that in trying to figure out the big game of the week—Green Bay vs.—Cleveland—for both the National and American football leagues Sunday.  
Baltimore finally caught up to Green Bay after losing to the Packers five straight, and now the Browns have the same chance against the Packers at Milwaukee. It's going to be very close but we don't think the Browns are going to make it.  
Here's how we see the Sunday program:

**NFL**  
Green Bay 17, Cleveland 14—The Packers, leaders in the Central Division with 5-2-1, will have Donny Anderson and Ben Wilson as their running backs in place of injured regulars Elijah Pitts and Jim Grabowski. But Vince Lombardi has Bart Starr at quarterback as well as the NFL's No. 1 team in total defense and pass defense. The Browns, 1-4-1, 38-31, in their opener after holding a 31-7 lead at the half, Johnny Unitas and Co. won't let down this time at Atlanta.  
Dallas 28, New Orleans 14—The Cowboys, 6-2, leaders of the Capitol Division, should break the Saints' one-game winning streak at New Orleans. Dallas beat the Saints, now 1-7, in the rain and without Don Meredith in Dallas, 14-10. This time the Cowboys have Meredith at the throttle.  
St. Louis 31, Pittsburgh 7—The Cardinals, 5-3 have Jim Bakken, the league's top scorer, to throw a fright into the Steelers, 2-6, at St. Louis. Bakken kicked a record seven field goals in nine attempts in a 28-14 win over the Steelers at Pittsburgh on Sept. 24.  
Los Angeles 35, Philadelphia 7—The erratic Eagles, upset 31-24 by New Orleans last week, are hurting badly with tackle Bob Brown and tight end Mike Ditka. L.A. is 5-1-2 and Philadelphia 4-4-1.  
Chicago 28, New York 24—The Giants, 4-4, have been hurt badly on kickoff returns. The Bears, 3-5, have the NFL's best kickoff returner in Gale Sayers.  
San Francisco 28, Washington 14—The 49ers, 5-3, have lost their last two games while the Skins, 2-4-2, haven't won in their last five (two ties, three losses). Washington probably regains linebacker Sam Huff from the injury list but it won't be enough even on the homefield.  
Minnesota 17, Detroit 7—An upset for the rebounding Vikings, 2-5-1, over the tough Lions, 3-4-1, at Minnesota. The Vikings' fine rookies are coming along fast.

**AFL**  
New York 28, Buffalo 24—The Bills, 3-5, have beaten the Jets, 5-2-1, in their last four meetings. Although the Jets have lost running back Emerson Boozer, they may get Matt Snell back.

## U.S. Golf Team Leads In Cup Play

MEXICO CITY (AP) — Arnold Palmer and Jack Nicklaus, fighting to keep the World Cup golf team championship for the United States, held a one-point lead over Argentina today as the second round started and 80 golfers sharpened to the course.  
Palmer, who said the greens seemed to have gotten faster overnight, made most putts count as he came out of the first nine two-under par, shaved off two more strokes on the back nine, and finished with a 68 that tied him with Argentina's Flaminio Molina for low individual score.  
Nicklaus fired a steady 72 to

give Palmer the backing he needed. Molina's teammate, Fidel de Luca, came in at 73.  
South Africa's Gary Player carded a 69 on the strength of his putting. He finished with a flourish, sinking a 30-foot putt on the 17th and a 10-footer on the 18th for two birdies.  
Palmer and Nicklaus, who are defending the team title they won last year in Tokyo, played three holes in the rain, which caught Player and teammate Harold Henning on the 18th.  
Player and Henning hoped to get back in it as a team today.  
"Harold finished with a 74," Player said Thursday, "but he

had some impossible shots. He didn't play that badly, more like a 71."  
In at 70 were Canada's Al Balding, Spain's Ramon Sota, and Jose Maria Gonzalez of Brazil. George Knudson of Canada, defending his individual championship won at Tokyo, shot a 73, but his teammate said later, "George will be the individual star before this thing is over."  
Balding said he believed the altitude was affecting him, as did Palmer. "I've never felt so shaky," said Balding.  
Palmer said that in the program tourney Wednesday the altitude affected him so much he couldn't drive. "But I felt much better today," Palmer said.

## Permian Wins By 29-14 Tab

ODESSA—Odessa Permian's powerful JV's had all kinds of trouble before edging the Big Spring JV's, 29-14, in a football game played here Thursday evening.  
Permian blocked four Big Spring punts in the first half and converted into two touchdowns.  
Ricky Ray Thomas scored in the opening period for Big Spring on a run of eight yards at the end of a 70-yard march. Thomas also added the two points on the conversion try on a run.  
After Permian had gotten on the board for the first time, Kenny Barfield roared 90 yards on a kickoff return for the Short-horns' second tally.  
Later in the game, the Big Springers seriously threatened the Permian goal only to be frustrated by an intercepted pass.  
Junior Jimmy Wilson, who played fullback, and halfback Thomas, a sophomore, stood out for the Big Springers on offense while soph Jimmy Farris, in at middle linebacker, was outstanding on defense for the visitors.  
The defeat left Big Spring with a 4-3 won-lost record.  
The win was the 14th in a row for Permian, which frequently has split its squad for games this year. The Panthers had beaten San Angelo's JV, 26-0, last week.

**Sophs Edged In San Angelo**  
SAN ANGELO — In a game that could have gone either way, San Angelo's Sophomores edged the Big Spring Sophs, 20-13, here Thursday.  
The defeat was the first in 10 starts for the Big Springers. The game wound up play for the busy Dogies.  
Big Spring took a 13-0 lead. San Angelo went ahead for the first time with three minutes to go in the game and counted again with 44 seconds left, after Big Spring had muscled its way to San Angelo's 30, only to be set back by a major penalty.  
Herman Evans counted on an inside belly play from 52 yards away in the opening period of the Big Spring club, after which Fernando Mendoza added the extra point on a kick.  
In the third period, Leonard Basco swept end for 29 yards and Big Spring's second tally.  
The Big Spring club lost no lustre in losing and were roundly applauded by their coaches following the game.

## Massive Turnout Sees Prepsters

MIAMI, Fla. (AP) — When Coral Gables High School defeated Miami High 16-0 Thursday night, in the Orange Bowl, a crowd of 39,029 paid to watch the state's top-ranked prep teams tangle in a nonchampionship game. At the last Miami Dolphins' home game in the Orange Bowl, 30,049 fans watched the American Football League team lose to the New York Jets.

## Mercein Is Signed

GREEN BAY, Wis. (AP) — The Green Bay Packers Thursday said they have signed former New York Giants' fullback Chuck Mercein and placed halfback Elijah Pitts on the National Football League's disabled list.

## SEASON TICKETS FOR JAYHAWK GAMES NOW AVAILABLE HERE

Season tickets for home games of the HCJC Jayhawks, priced at \$5 for adults and \$3 for students, can now be obtained by contacting the business office at the school or through coach D. E. (Buddy) Travis.  
The ducks are good for 12 home games, including Dec. 1-2 games with Hill County JC — which open the campaign locally.  
The pastebards will also admit the holders to both ends of a Dec. 29 doubleheader, which will feature Paris, Wilburton, Okla., and Odessa as the other teams. HC won 23 of 37 starts last year.  
One of the highlights of the Hawks' home play will be a Dec. 11 game with Murray, Okla. Murray fields one of the nation's better junior college teams, year in and year out.  
HCJC opens its season in Hillsboro next Friday, playing there on successive nights. McClennon Junior College, New Mexico JC and Hill County JC will be the other teams in action here.  
The Hawks will play at 9 p.m. Friday and at 7 o'clock Saturday evening.  
The action will serve as a warmup for the Garden City, Kan., tournament scheduled Nov. 23-24-25. The Hawks have again drawn the host school in the first round of that tournament.

## Sands Hosts Gail In 7:30 Battle

ACKERLY — Although it has yet to win in two District 3 eight-man starts, Sands is favored to defeat Gail in a 7:30 p.m. game here this evening.  
The Ponies have been tied by Garden City, 20-20, and lost an 8-6 heartbreaker to Sterling City but, over-all, they are 5-2-1.  
Gail owns a win over Flower Grove but otherwise has had its troubles.  
The Coyotes depend heavily upon quarterback Ab Hendley, a 157-pounder; and the 173-pound Randy Adcock.  
The Mustangs are in fairly good physical trim for the game. Missing is guard Alvis Jefferson. Freddy Hodnett and Jim Fryar will start at the guard positions for the Coyotes.  
Halfback Larry Newcomer will see limited service for Sands team. He is favoring a hip bruise. Alfonso Calvo could start in his place on offense while Ricky Graham will replace him at a linebacker's spot on defense.  
Sands winds up its season next Friday in a game at home against Flower Grove.

Probable starters:  
GAIL — Jim Hodges 128 and Jay Smith 141; G-Frank Carrasco 217 and Gary Wilkerson 143; C-Joe Harding 145; QB Ab Hendley 157; HB-Randy Adcock 173 and Glenn Perry 155 or Don Jackson 124.  
SANDS — Ken Gillespie 145 and Ronnie Taylor 135; G-Jim Fryar 210 and Freddie Hodnett 190; C-Kelly Gosselin 147; QB Lance Hooper 155; HB-Kynn Maxwell 155 and Larry Newcomer 145 or Alfonso Calvo 141.

# Abusive Calls To Relatives Of GIs In Vietnam Decline

WASHINGTON (AP) — The Pentagon reports a great decrease in abusive telephone calls to relatives of U.S. servicemen in Vietnam.

"Calls are continuing as far as is known, but at a greatly reduced level from the 1965 Vietnam buildup period," the Defense Department said Thursday in response to inquiries about the present situation.

## TRACING

The tracing of abusive telephone calls "has proven very successful in attacking this problem," the Pentagon said.

Tracing was started last year and the Pentagon credited the American Telephone & Telegraph Co. with cooperation in the effort.

A rash of abusive telephone calls and some other forms of harassment caused considerable concern to American soldiers in Vietnam.

Some soldiers talking with newsmen in Vietnam have declined to give their home towns or to list the names of their

wives or mothers, expressing fear that persons opposed to the war might see the names in print and make upsetting calls to the families.

## JAIL PROPOSAL

Responding to the problem, the Senate earlier this year passed a bill by Sen. John Pastore, D-R.I., that would provide federal penalties for "obscene and harassing telephone calls."

The bill, awaiting action by the House Commerce Committee, would impose a maximum \$500 fine or six months in jail on anyone convicted of using interstate telephone lines for such purposes.

While asserting the number of such calls has been sharply reduced, the Pentagon said it was unable to provide any figures.

"The armed services do not maintain formal reporting requirements in this respect," it said.

The Pentagon also disclaimed any knowledge of arrests or convictions growing out of such calls or other harassment involving service families.

The Pentagon said telephone companies now assign special representatives to investigate complaints of harassing calls.

# McCarthy Links Dilemma To Treaty-Signing Zeal

ST. PAUL, Minn. (AP) — Sen. Eugene J. McCarthy, D-Minn., has blamed the U.S. dilemma in Vietnam on a combination of the treaty-signing zeal of the late John Foster Dulles and a military establishment willing to "program" anything.

McCarthy, a critic of President Johnson's Vietnam policies, told 1,500 persons at MacAlester College Thursday night that continuation of the war "is no longer justified" on a moral basis.

## DRAFT QUIZ

He said a Vietnam united under communism should not be a major worry.

America, McCarthy said, has lost a clear relationship between its power and its objectives.

"The flag has followed military forces rather than the traditional order," he said.

A student asked him what he would do if he were 22 and faced a military draft call.

McCarthy said it would be "difficult" if a 22-year-old felt no one was trying to end the Vietnam war.

"I think it's in order for you to demonstrate and complain and make speeches," McCarthy said, "all the way to the induction center."

## POLICEMAN ROLE

He added that he felt there should be room in the draft law for those who object to war on nonreligious grounds.

In Vietnam, McCarthy charged, the Johnson administration and its military chiefs have escalated their objectives in tandem with their escalation of military power.

This has reached the point, he said, where invasion of North Vietnam is a possibility.

McCarthy blamed the treaty-signing penchant of Dulles, secretary of state during the Eisenhower administration, for the start of a trend to commit the United States to a policeman role for the entire world.

WASHINGTON (AP) — Five Army enlisted men from Texas were listed by the Pentagon Thursday as killed in action in Vietnam.

# Five More Texans Killed In Action

WASHINGTON (AP) — Five Army enlisted men from Texas were listed by the Pentagon Thursday as killed in action in Vietnam.

The dead: —S. Sgt. Roy P. Gillespie, husband of Mrs. Roseta K. Gillespie, 416 Bates Way, El Paso.

—Spec. 4 James R. Brown, son of Mr. and Mrs. O. C. Brown, Route 1, Box 117, Tennessee Colony.

—Cpl. Charles K. Johnston, whose wife lives at 60 Wilson, Apt. 12, Borger.

—Pfc. Stephen F. Jumper, son of Mr. and Mrs. Stephen O. Jumper, State St., Jasper.

—Pfc. Sanders K. Stroud — son of Dr. S. K. Stroud, 454 Poenisch Drive, Corpus Christi.

# LBJ Expected To Sign Stoppag Paychecks Bill

WASHINGTON (AP) — President Johnson's signature is expected on a stopgap financing bill to allow several thousand federal employes to receive their paychecks next week.

The Senate completed congressional action Thursday by a voice vote shortly after the House approved the measure 354 to 6.

Most of the employes involved work for the Office of Economic Opportunity, the Atomic Energy Commission and foreign aid program.

Regular appropriations for those agencies have not been

approved by Congress. A resolution allowed temporary spending after the close of the fiscal year ending June 30, but it expired Oct. 23.

# 'Hot' Check Suspect Posed As Tax Agent

FALFURRIAS, Tex. (AP) — Henry Trevino, 41, of Victoria, was charged Thursday with passing worthless checks. Brooks County Sheriff Ed Wilkinson said Trevino posed as an Internal Revenue Service agent in passing the checks.

# Trinity Bequest

SAN ANTONIO (AP) — Miss Virginia Sanford, who had no direct connection with Trinity University, left the school \$65,000 for a scholarship fund when she died last spring at the age of 97.

Her nephew, David P. Carter, said his aunt had acquired a sizable estate by wise investment of her schoolteacher's salary. Other bequests, many of them to charities, amounted to several thousand dollars.
