

JAILED HERE

Man Linked To Murder

A 27-year-old Latin-American, said to be wanted in Tucson, Ariz., to answer murder charges, is being held in the Howard County jail here.

He is Ramon Perez Amaro, who is said to make this county his home. Police and sheriff officers know him and have arrested him on local complaints in the past.

He was arrested Thursday at a farm 10 miles north of Big Spring where he was working.

His arrest was in response to a telegram from authorities in Tucson. They asked that Amaro be arrested and held for them. He is wanted, the telegram related, for a murder investigation but no details as to the slaying were provided.

Deputy Sheriff A. G. Mitchell and Detective Stanley Bogard made the arrest.

Amaro was brought before Jess Slaughter, justice of the peace. Slaughter appointed Wayne Basden, local attorney, to represent Amaro. Bond, as a fugitive, was set at \$2,000. Amaro did not indicate, it was said, if he would waive extradition. His attorney had not had a chance to consult with him at 10 a.m. today. Until Basden talks with the prisoner, no further action is expected in the case. Tucson has been notified that the man has been apprehended and is being held in the county jail here.

TWO KILLED

Plane Crash

AURORA, Mo. (AP)—A man and a woman from Oklahoma City were killed early today when their light plane crashed into a wooded area and burst into flames about one mile south of the Aurora airport.

They were identified as Dr. Ron Edwards, 37, and Kay Edford, 23. The patrol said the craft apparently had just taken off from the airport in southwest Missouri's Lawrence County.

The cause of the accident was not at once determined.

Demolition Set

TOKYO—The 44-year-old Imperial Hotel, a master work of the late architect Frank Lloyd Wright, held its farewell banquet Thursday night, and its owners announced today that demolition will begin next Friday.

The owners' newspaper advertisements said thank you to the hotel's guests but made no mention of the international fund-raising drive to save Wright's three-story section of the hotel.

The owners delayed demolition plans from Nov. 15 to Dec. 1 to give the hotel's admirers time to raise the millions needed to save the building.

Like such New York hotels as the Ritz and the Astor, the land under the 222-room Wright wing is now so valuable that the structure is considered uneconomical.

Enemy Strength

SAIGON (AP)—The U.S. Command, revising downward its estimate of Communist military strength lined up against the allies in South Vietnam, put the total today at between 223,000 and 243,000 men.

Announcing a complete overhaul of its intelligence appraisals of the enemy's potential, headquarters omitted from its new tabulation 40,000 Viet Cong political agents previously included.

The gun-carrying Reds and the card-carrying political agents have been lumped together in estimates that totaled 297,000.

Under the new look, Communist military ranks have been cut from 9,000 to 34,000 men.

The political cadres were estimated to total 75,000 to 85,000, a sharp rise. The figures apparently included some Viet Cong who formerly had been classified as guerrillas.

Toys Are Needed

Few toys were donated to the firemen's toy drive over the Thanksgiving holiday, according to battalion chief Hubert Clawson.

"The drive is getting off to a slow start and is far behind collections of previous years," he said. Nine 7-11 stores have offered to serve as collection points in addition to the city's six fire stations. Pickups will be made if local residents call 267-6083.

Most wanted items are bicycles, tricycles, wagons and dolls.

In Today's HERALD
Rumors Fan Riots

New York's police commissioner tells the President's riot commission that most city riots follow a similar pattern, with rumors and agitators playing prominent roles. See Page 3-A.

THOUGHT HE WAS IMMUNE

Snakebite Proving Serious

MIAMI, Fla. (AP)—While 50 tourists watched, a deadly Australian Tiger snake plunged its fangs into the hand of Bill Haast, a professional snake handler. He is reported in serious condition, suffering from his 102nd and most dangerous snakebite.

FIRST TIME

"It was a brand new snake being handled for the first time," said Clarita Haast, wife of the 56-year-old herpetologist and his partner in the Miami Serpentarium, a tourist attraction.

Haast was rushed to a hospital in the intensive care ward, his condition was reported somewhat improved.

Haast claims he has built up immunity from snakebites through in-

jecting himself over the last 19 years with a potion mixed from the venom of cobras, the green mamba, the coral snake and the Indian blue krait.

Doctors inject such serum into horses, then bleed them to use their blood for snakebite remedy—but the horses usually die within two years.

After many of his snakebites — almost all of them suffered while taking venom daily from the snakes among the 700 reptiles at his serpent farm—Haast has refused medical attention because of his belief in his immunity.

Sometimes he has been near death, paralyzed, when rushed to a hospital. After one bite by a king cobra Haast pulled the fangs from his arm, cleansed the snake's mouth so it

would not suffer ill effects, and continued his work until the venom began to work.

His eyelids drooped and his knees went rubbery. Breathing was difficult and he said sounds were tremendously magnified and colors wildly brilliant.

TOTAL PARALYSIS

Total paralysis wrapped his legs and he could not speak or open his eyes. He arrived at the hospital stiff as a plank.

"One moment, I was fighting for breath like a drowning person," Haast said. "Then a great wave of relief swept over me, like the relief a badly beaten fighter must feel when the bell ends the last round. I think this is the feeling of death."

Gold Rush Threatens
Value Of U. S. DollarBullion Buyers
Tapping Ft. Knox

LONDON (AP)—The gold rush became a stampede in Western Europe's bullion markets today and scenes of near pandemonium were reported in the bidding for gold shares on the Johannesburg stock exchange.

The Swiss National Bank moved to halt forward sales of gold—sales for delivery of the metal in 30, 60 or 90 days—to protect its dollar holdings.

SILVER TOO

The record sale of bullion also was reflected in the London silver market in the general rush to get out of paper money and into something solid-like gold, silver or even stock in a gold mine.

It was a reflection of the general public uneasiness following Saturday's devaluation of the pound and also speculation that the United States will be unable to hold the line of \$35 an ounce for gold which it is pledged to defend.

A change in the U.S. buying price for the metal could mean huge profits for speculators.

In London more than 100 tons of the metal was believed to have sold for the second day running. A record 10 tons changed hands in Paris. No estimates of sales in Zurich were available.

PRUDENCE

In Switzerland all gold transactions must take place in dollars and the Swiss National Bank's move was described as a measure of prudence to protect its supply of dollars.

London dealers reported a gigantic turnover in the bullion market. The price remained unchanged as the United States and its partners in the international gold pool continued to provide the metal to meet the demand. But the run on gold which developed after Britain devalued the pound raised threats to the dollar.

Dealers said the turnover in the first hours of selling today indicated that a record would be set.

STRONG

Gold stocks were also strong on the London Stock Exchange, but industrial shares continued the big decline that set in with wide profit-taking Thursday. Within half an hour of the opening the Financial Times index of 130 industrials had plunged below the 400 level for the first time in weeks.

Record gold sales were reported Thursday in the London, Paris and Zurich markets as buyers, apparently expecting still more countries to devalue their currencies, traded paper money for gold. The French government let the word out it would resume cashing dollars for gold, which it stopped in October, 1966, because it was running short of dollars.

The U.S. government is committed to buying and selling gold at \$35 an ounce on the foreign market. If a scarcity in its gold supply forces up the metal's price, this means the value of the dollar has declined.

CANNOT HOLD

One important bullion dealer commented: "Even the American gold board cannot hold out indefinitely against this sort of demand." But British experts said the United States has several ways to defend the dollar.

The United States so far has

TREASURY
UNMOVED

WASHINGTON (AP)—In the face of the gold-buying rush reported from Europe today the Treasury Department stood unmoved behind President Johnson's Nov. 18 pledge to maintain the value of the U.S. dollar in terms of the metal.

Treasury aides said there is no intention for Secretary Henry H. Fowler to make any statements beyond those he made shortly after Great Britain's devaluation announcement last Saturday.

had the help of seven other nations in a gold pool now digging into its reserves to satisfy the new demand. The pool was founded to stabilize the price of gold—and the value of currencies pegged to it—by buying or selling whatever was needed to satisfy the market. At least half the gold going through the pool to the anxious buyers comes from Ft. Knox.

The gold rush was expedited by the French announcement Monday that France had quit the pool in June and the obviously calculated leak of word that President Charles de Gaulle was preparing to demand U.S. gold for France's dollar holdings.

Arrives Home Safe
After His Funeral

ELIZABETHTON, Tenn. (AP)—Pfc. John W. Guinn, whose mother thought she buried him last Tuesday, flew home from Vietnam today and said he knew the soldier who was mistakenly buried in his stead.

Guinn, 23, of Elizabethton, said he and Pfc. Quinn W. Tichenor, 23, of Louisville, Ky., were in the same company.

"I'm glad they've got it all straightened out now," he said before he boarded a commercial flight at Seattle. He arrived earlier at McChord Air Force Base near Tacoma, Wash., on a military flight.

TRAINED

Guinn said Tichenor was in the 2nd platoon of his company and he was in the 1st. "We took advanced infantry training together at Ft. Polk, La."

Guinn's mountaintop home was still bedecked with floral wreaths from the funeral his mother had thought was for him.

He said he and the dead man were acquaintances but not close friends.

Guinn said he talked to his mother, Blanche Guinn, by telephone from Vietnam Thanksgiving Day, but she didn't tell him of the mistake.

Until a Seattle Post-Intelligencer reporter talked to Guinn at the Seattle airport, he was

ATHENS (AP)—U.S. presidential envoy Cyrus R. Vance sought in Athens today to head off a Greek-Turkish war over Cyprus while the two North Atlantic alliance members continued military preparations. Both nations' armed forces were alerted.

EVACUATE

The tense situation caused the U.S. Embassy in Nicosia to order the evacuation of Beirut of 400 American wives and children from Cyprus. The State Department advised American travelers to stay away from Cyprus, Greece or Turkey, and the Canadian government issued the same warning to its citizens.

Vance arrived in the Greek capital after talks with Turkish leaders in Ankara Thursday that roused resentment in the Turkish press and a rock-throwing anti-American demonstration by 2,000 students eager for war. He was met with reserve by Turkish officials and made no comment on the negotiations.

WARMER

Vance could expect a warmer reception in Athens, where the military regime is in a less advantageous position. For the Greeks, war in Cyprus would mean fighting 500 miles from their mainland but only minutes from Turkish jet airfields 40 miles away. Turkey also is stronger militarily than Greece, and the Greek dictatorship can count on little or no aid from abroad.

JOHN W. GUINN

unaware of the mistake.

Mrs. Guinn had quoted John as saying on the telephone from Vietnam:

"I'm coming home. I don't know what the deal is, but they're sure getting me out of here fast. I'll be home in 24 hours."

Nasser Bombs
Peace Hopes

JERUSALEM (AP)—A tough speech by President Gamal Abdel Nasser warning that Egypt will fight if necessary to get its territories back, today strengthened Israel's determination that a settlement can be reached only through direct negotiations with the Arabs.

One Israeli diplomat said Nasser's speech Thursday "torpedoed" hopes raised by Egypt's acceptance of the U.N. Security Council resolution on the Middle East and "puts us back at square one."

"That's why we want direct talks with the Arabs—not a U.N. arranged settlement," the source said.

Nasser ruled out such negotiations or an armistice with Israel in an address to his National As-

sembly and said the Israelis must evacuate all areas of Egypt, Jordan and Syria seized in the June war.

"What has been taken by force cannot be recovered without force," he warned.

Optimists at U.N. headquarters in New York suggested that Nasser might be talking tough to keep his people quiet, a standard tactic of his. But Israeli Foreign Minister Abba Eban said in New York: "We take it as an authentic expression of Egyptian policy."

Nasser, in his first public statement in four months, said he was not satisfied with the U.N. peace formula adopted on Wednesday. Israel has said it was willing to cooperate with the proposal.

survey of traffic deaths covering a 102-hour nonholiday period equal to that of the Thanksgiving holiday. From 6 p.m. Wednesday, Nov. 8, to midnight Sunday, Nov. 12, there were 567 deaths reported.

Motorists were faced with hazardous driving conditions in sections of the West, Southwest, North and Northeast. The Weather Bureau reported that highways in 15 states were slippery from rain, snow or freezing rain.

The National Safety Council makes advance estimates of the number of persons expected to die on the highways all holidays except Thanksgiving. The council feels that most Americans spend this holiday at home, and consequently, there are fewer cars on the highways than during most other national holidays.

The worst accident reported thus far during the Thanksgiving period took the lives of four 18-year-olds at Tell City, Ind. Their car ran off a road and hit a tree.

During the four-day Memorial Day holiday this year there were 608 traffic deaths. And 732 fatalities were reported during the four-day Independence Day observance. Both are records for the respective holidays.

The toll during the three-day New Year observance was 469. The Labor Day holiday—also three days—accounted for a loss of 604 lives. Neither was a record.

BY STATES

The number of traffic deaths by states:

Alabama 4, Alaska 0, Arizona 2, Arkansas 0, California 17, Colorado 1, Connecticut 2, Delaware 0, Florida 6, Georgia 4, Hawaii 0, Idaho 3, Illinois 3, Indiana 10, Iowa 5, Kansas 2, Kentucky 10, Louisiana 6, Maine 0, Maryland 2, Massachusetts 0, Michigan 7, Minnesota 4, Mississippi 4, Missouri 4, Montana 3, Nebraska 0, Nevada 0, New Hampshire 0, New Jersey 3, New Mexico 3, New York 6, North Carolina 8, North Dakota 0, Ohio 7, Oklahoma 3, Oregon 0, Pennsylvania 5, Rhode Island 0, South Carolina 1, South Dakota 1, Tennessee 0, Texas 7, Utah 0, Vermont 0, Virginia 0, Washington 7, West Virginia 0, Wisconsin 0, Wyoming 1.

Reds Ambush Truck Convoy,
Gunships Help Beat 'Em Off

SAIGON (AP)—U.S. cavalrymen and helicopter gunships beat off a Red ambush of an American truck convoy today in the central highlands in one of three sharp actions reported to have cost the Communists 150 dead.

Enemy troops struck the truck column about 2½ miles east of Pleiku and 60 miles south of Dak To, which was attacked again after serving as the focal point for the bloodiest battle of the Vietnam war.

Associated Press correspondent John Lengel reported from Pleiku that the Communists killed four soldiers of the U.S. 1st Air Cavalry Division.

U.S. infantrymen reported killing 118 Communist soldiers in two battles—with bazooka-firing Viet Cong who attacked near Saigon and with entrenched North Vietnamese troops far to the north in the Que Son Valley.

MIG KILL

In the air war, the U.S. Command claimed another probable MIG kill northwest of Hanoi and announced the loss of four more American planes.

A company from the 196th Light Infantry Brigade and an armored unit from the 1st Air Cavalry Division made contact with the North Vietnamese in the Que Son Valley 25 miles south of Da Nang on a search-and-destroy mission. The enemy opened up with heavy machine-gun fire from a complex of bunkers and holes in the bamboo-thicketed rice valley.

In a fierce 11-hour battle that raged until dark Thursday, the U.S. infantrymen claimed killing 61 enemy soldiers. They reported seven Americans killed, and 42 wounded and two armored personnel carriers destroyed.

A company of U.S. reinforcements was flown in Thursday and two more companies went in today, but no further contact was reported.

OTHER BATTLE

In the other battle, 52 miles northwest of Saigon, outnumbered American troops reported killing 57 of about 300 Viet Cong who tried unsuccessfully before dawn today to break through the barbed-wire perimeter of a 1st Infantry Division company with mortars and small rockets fired from bazookas. They got

to the wire but never penetrated it.

The Dak To front in the central highlands was quiet after three weeks of epic fighting—the costliest battle of the war for both sides—culminated in the Thanksgiving Day capture of Hill 875 by American paratroopers. Only one contact with North Vietnamese troops was reported since Thursday afternoon.

INCREASED

The U.S. Command increased the casualty figures for both sides at Dak To, reporting 280 Americans and 1,398 North Vietnamese killed and 974 Americans wounded there since fighting began Nov. 3. It said American forces killed 1,005 of the enemy, and South Vietnamese forces claimed the others.

Loss of four more planes over North Vietnam brought to 755 the total number of U.S. combat aircraft officially reported downed in the North.

Snow, Rain
Falls Reported

By The Associated Press

Rain pelted northern sections of the Atlantic and Pacific coasts today, with snow in the interior.

Other weather systems dampened or whitened the North Central region, the Ohio Valley and the lower half of the Mississippi Valley.

SOAKED

Wind-driven rain soaked the New England coast, and two to four inches of snow fell in the mountains of New Hampshire.

The heaviest snowfall was in the northern and central Rocky Mountains, with depths up to 12 inches. Lesser falls were reported across the Northern Plains into the Great Lakes area.

There were scattered rains in the Texas Panhandle and Kansas.

Keeps Smooth, Crisp Lines

Something new in beauty and wearing pleasure has been added to suit fashions. A hand-some linen-textured 100 per cent mohair fabric that defies wrinkling. Here, Ernest Strauss styles it in a tailored suit with new long

jacket, notched collar and four flapped pockets with side slit entry. Completing the costume is a sleeveless cutaway weskit in striped silk and worsted.

Family Reunion Is Held In Claude Nowlin Home

STANTON (SC) — Mr. and Mrs. Claude Nowlin have had 22 guests in their home, and Mrs. C. H. Powers of Sandston, Va., remained for a week with her sister, Mrs. Nowlin. Others attending the family reunion were Mrs. Norene Tankersley, Midland; Mrs. S. C. Glass, Luling; Mr. and Mrs. Weldon Glass, Monahan; Mr. and Mrs. J. W. Tippit and son, Lubbock; Mr. and Mrs. Beryl Tippit and children, Odessa; and Mr. and Mrs. John Thomas Tippit and son, Tahoka. Mrs. Tippit and Mrs. Powers visited Monday in Lubbock with Mr. and Mrs. J. W. Tippit.

Mr. and Mrs. Nolan Sorrels and son are visiting in Pampa with his grandparents, Mr. and Mrs. W. O. Grace, and Mr. and Mrs. Nolan Sorrels Sr.

Mr. and Mrs. Granville Graves and family have as Thanksgiving guests, Mr. and Mrs. G. A. Bridges, Mr. and Mrs. Walter Graves and Mrs. Fannie Graves. Mrs. Delbert Franklin is in Lubbock for medical treatment. Mrs. Charlie Gravens is staying with her sister.

Albert Louder was to undergo surgery Wednesday, at the M. D. Anderson hospital in Houston.

Mrs. Loyd Hastings is in the Hall-Bennett Memorial Hospital in Big Spring where she had major surgery.

Mrs. Lennie Teague and

Altrusans Told To Give Thanks

Dr. Clyde Campbell, pastor of the Hillcrest Baptist Church, brought the Thanksgiving program at the Wednesday meeting of the Altrusa Club at Coker's Restaurant.

Dr. Campbell spoke on "The Psalms of Thanksgiving." Glenn Faison, minister of music at the First Baptist Church, sang two selections, "A Thanksgiving Song," and "How Great Thou Art," accompanied by Mrs. Faison.

Mrs. Homer Petty presided and introduced the guests, Mrs. Sol Bledsoe and Mrs. W. U. O'Neal. Mrs. Willard Hendricks, program chairman, presented the guest speaker.

The group will join with the Business and Professional Women's Club in sponsoring a Christmas party at the State Hospital.

The table was laid with a white cloth and centered with a bouquet of yellow chrysanthemums.

A LOVELIER YOU

Hold Weight Down For Holidays Ahead

By MARY SUE MILLER

A lovely could easily gain 10 pounds between now and the New Year, what with partying and feasting. Perhaps you've had the experience in past seasons.

Still, only an unregenerated Scrooge would suggest going on a diet at this moment. Besides, there is a happier course. A weight-worrier can hold the line, or nearly so, just by curtailing one meal a day. For most women luncheon is the logical meal. However, it could be the evening meal on quiet nights at home.

In any case, menus should total under 300 calories. As suggestions:

Cup vegetable-beef soup; thin slice toast, spread lightly with whipped butter; big red apple.

Two poached eggs on wafer-thin toast; green salad, dieter's dressing; tangerine.

Broiled breast of chicken; asparagus, lemon garnish; dieter's unsweetened apple sauce.

Peach halves stuffed with cottage cheese (2 halves dieter's canned peaches, four tbsp. cottage cheese); two slices Melba toast; small slice sponge cake.

Bowl onion, soup; broiled mushrooms on thin toast; lemon jello.

In addition, you may have coffee, tea or skim milk. A glass

LEANER, LOVELIER

Here's a painless way for teens and adults to reduce! Just send for my booklet, "Leaner, Lighter and Lovelier." It includes menus for delicious meals and snacks; Calorie Counter and Nutrition Chart; Diet Shortcuts; Spot Reducers. For your copy write to Mary Sue Miller in care of the Big Spring Herald, enclosing a self-addressed, stamped envelope and 25 cents in coin.

Mrs. R. G. Crum Of Midland Is Honored By OES

Mrs. R. G. Crum of Midland was the honored guest at the Tuesday meeting and banquet of the Order of Eastern Star, Big Spring Chapter No. 67. The banquet was held at Coker's Restaurant and the meeting in the Masonic Temple.

Mrs. Crum is deputy grand matron of the Midland Chapter No. 253 of the OES. Other grand officers honored were Mrs. Norman Read, Mrs. A. E. Johnson, Mrs. Steve Baker, Mrs. W. D. Peters and Charles Hall.

Artist palettes trimmed with leaves and flowers decorated the hall, and a bird cage held pink roses.

The Christmas party will be held at the Masonic Hall at 7:30 p.m., Dec. 5. Gifts will be exchanged.

Mrs. Baker was mistress of ceremonies, and A. A. McKinney gave the invocation. Mrs. Carl McGlothlin presented Mrs. Crum with a corsage. Mrs. Dick Mitchell accompanied Mrs. Forrest Gambill as she sang musical selections, and Mrs. W. D. Fryar presented Thanksgiving readings. Mrs. Jim Layman gave the benediction.

Mrs. Layman and Mrs. Orbin Dailey presided at the guest register, and Mrs. J. B. Langston, Mrs. George Bair and Mrs. Lee Porter were in charge of the refreshments.

Chapters represented were the Laura B. Hart, Norman Read, Midland No. 253, Muskogee, Okla., Amarillo, Coahoma and Wichita, Kan. Approximately 65 attended.

Twins Club Lists Committee Heads

Mrs. Newlin James presided at the newly-formed Mother's of Twins Club meeting Tuesday at the Downtown Tea Room, and committees were appointed.

Chairmen are Mrs. Lorraine Simms, welfare; Mrs. Joe Langford and Mrs. Kenneth Morrow, telephone; Mrs. Larry Dudash and Mrs. David Stevens, Sunshine; Mrs. Morrow and Mrs. Stevens, ways and means; and Mrs. Russell DeVore and Mrs. James, flowers.

Names were drawn for secret pals, and a Christmas party for the children will be held Dec. 19 in the Pioneer Natural Gas Flame Room. The group will meet the third Tuesday of each month at 7:30 p.m.

Refreshments were served to 10.

Circles Join In Tuesday Meeting

Mrs. J.-B. Hollis hosted the Martha Foster and the Lalla Baird Circles Tuesday morning in her home, 108 Air Base Rd. The study program, "Religions of Escape," was given by Mrs. W. B. Morris and Mrs. David Pohl. Mrs. Janie Cofer and Mrs. M. O. Hamby worded the prayers, and Mrs. Hamby will host the next meeting. Refreshments were served to 17.

HINTS FROM HELOISE

Save Time On 'Warm Up'

Dear Folks:

Now here's what I call a dilly of an idea.

When you wish to heat a partially used can of dog or cat food which has been refrigerated, let me tell you how I save washing a pan.

After tearing off the label, I set the can over the pilot light on my gas stove. Then, if I have any left-over vegetables (which most pets need), I dump them in the can also, stir it up and leave it until the can gets warm.

This is just like feeding a baby. Not ever too hot, yet it has warmth to it. And it sure beats washing another pan, eh?

Heloise

Dear Heloise:

When your umbrella wears out, don't throw it away.

If you'll remove the worn cloth, it makes an excellent portable clothesline. The spokes are just right for the small hand-wash that you do every week, such as slips, hose, etc.

Pin on your wash and hook it over the clothesline outside, in the garage or basement over a rafter. If you're short on line space it can be hooked over the bathtub shower rod. . . . Lili Herman

Dear Heloise:

I have found a solution to an uneven load when washing small throw rugs in an auto-

matic top-loader washer.

I have one rug which I wash alone due to the color. It always causes the machine to stop several times during the rinse and spinning cycles because of an unbalanced load.

So now, after the wash cycle, and again after the rinse cycle, I just drape it over the agitator and lo and behold, it spins dry with no more trouble.

Now my machine doesn't do the "Watusi" while spinning. . . . I.C.B.

Dear Heloise:

My year-old daughter just got over a bout with a chest cold. We used a vaporizer with tincture of benzoin compound at night. But when the cold was gone, I was left with a gooey mess in the vaporizer well.

Our druggist, bless him, recommended good old nail polish remover. And believe me, it works. Our vaporizer was like new in five minutes! . . . Teri Kelly

Dear Heloise:

Recently we bought a queen-size bed and were faced with the problem of buying a headboard that would match our contemporary dresser.

I got the idea of buying a three-foot-wide door and stain-varnishing it. My husband bolted it to the bed frame and it's really lovely. Less expensive,

too, than a ready-made headboard. . . . Joann Hunter

Dear Heloise:

A friend of ours was stricken with a severe heart attack and was taken to the hospital and placed under intensive care for some time. His wife went with him in the ambulance, not having time to even take her purse; and stayed with him during the critical period.

Another friend brought the wife a "Care Package" — toothpaste, brushes, combs, mouthwash, facial tissue, and a package of dimes. Have you ever tried to get change for phone calls or coffee and soft drink machines in the wee hours of the morning?

This was such a thoughtful, useful idea that I felt perhaps someone else could help a friend when help is really needed. . . . Hazel Thompson

Hazel, you're a luv for sending us this one. During critical illness of our loved ones, we need someone else to help us think. . . . Heloise

Joanie Keeps Pace By Counting Steps

BRAINTREE, Mass. (AP) — Sixteen-year-old Joanie Hyland checked her blue sweater and gray skirt costume, then stepped off to the sound of the band with other girls from the Braintree High School drill team at half-time ceremonies of the Braintree-Milton Thanksgiving Day football game.

Joanie kept in position by counting the exact number of steps needed to go one way, then the exact number of steps she should move in another direction before turning again. During the difficult maneuvers her teammates whispered directions to her.

The pretty teenager needs a little extra help from the other girls—she has been blind since birth.

"Joanie has been with the drill team all this year," said her mother, Mrs. John F. Hyland, "but I never go to see her—I'd be very nervous if she goofed. But she does have a lot of fun."

Joanie practices with her teammates every day after school but still finds time to keep on the school honor roll with a full load of college preparatory courses.

She studies braille textbooks and takes notes on a typewriter-like machine which forms braille symbols on special paper. She takes her tests and does her homework on a regular typewriter and even goes to the blackboard to do problems in class.

"She's a very independent girl," her mother said, "and she finds blindness no handicap. In fact she often jokes about it."

Pass 1 ♠ Pass 2 NT
Pass 3 NT Pass Pass

Opening lead: Six of ♥
A clever false card by a defender induced South, the declarer at three no trump, into making a fatal change of plans.

West opened the six of hearts, East played the jack and South permitted him to hold the trick. East continued with the queen which was also ducked, however, declarer won the third round with the ace.

A diamond was led to the ace and a small one returned to the queen to test the lie of that suit. When the defenders followed both times, declarer was in position to count eight running tricks—five diamonds, and an ace in each of the other suits.

He had a choice of taking the spade finesse or working on the clubs to develop his ninth trick. He decided to work on the clubs in an effort to keep West out of the lead for, if the latter ever got in—he would surely cash enough hearts to defeat the contract.

The nine of clubs was led from the closed hand at trick six. West had been doing some thinking of his own, however, and he decided to take measures to throw South off the track. He put up the king of clubs to dislodge dummy's ace.

West's play provided the declarer with some second thoughts. If his opponent held the king-queen of clubs which appeared to be a distinct possibility, then it would be fatal to surrender the lead in that suit, for West would cash out. There was an alternative available, however, and that was to play East for the king of spades.

So reasoning, declarer led the queen of spades from dummy and took the finesse. Unfortunately, West produced the king and cashed his hearts to score the setting trick.

Observe that, if West had played a low club when South led that suit, the nine will dislodge East's queen. The latter presumably returns a spade and if declarer goes up with the ace and repeats the club finesse, he has more than enough tricks to land his game.

Reds Planning To Use Port In Cambodia?

WASHINGTON (AP) — Some U.S. military leaders express concern that North Vietnam, Red China and the Soviet Union are planning to use a Cambodian port to get arms and ammunition to Communist forces in South Vietnam.

This development could come if the stepped-up U.S. bombing of land routes from North Vietnam seriously slows up the movement of supplies southward. It is expected that the intensified bombing attacks, begun in August, will begin showing their effects perhaps in January.

The port in neutralist Cambodia is Sihanoukville, on the Gulf of Siam.

Although there have been military studies of a possible quarantine or blockade of the port, it is believed that this country's top civilian defense leaders would not approve of such a step under present conditions.

Washington has refused to authorize the bombing or mining of Haiphong Harbor in North Vietnam, where Soviet ships deliver supplies. The reason is a wish to avoid direct confrontation with the Soviet Union or Red China which could lead them to more directly enter the Vietnam war.

It is for much the same reason that a quarantine or blockade of Sihanoukville would likely not be approved.

In addition, the United States is seeking to avoid further trouble with Cambodia's chief of state, Prince Sihanouk, who already is hostile to the American effort in South Vietnam.

Sihanouk professes neutralism in the war, but with or without his approval, U.S. military officials say, his country has been used as a sanctuary for Viet Cong and North Vietnamese forces for rest and resupply purposes.

Ku Kluxers Offer A \$500 Reward

COLUMBIA, S.C. (AP) — The South Carolina Ku Klux Klan is offering a \$500 reward for the name of the person turning over the Klan information to the press and law enforcement officers.

A Klan bulletin which carries the name of state Grand Dragon Bob Scoggins of Spartanburg says the Klan does not object so much to the information being made public.

But the informer "is a traitor to Christianity and disloyal to his fellow men" by his actions, the bulletin says.

Ferryboat Toots For Last Time

NEW YORK (AP) — A ferryboat has chugged and tooted its way across the Hudson River between New York City and New Jersey for the last time.

Champagne corks popped and ferry bufs carried signs reading, "Don't give up the ship" and "Heartbroken is Hoboken" as the old Elmira of the Erie-Lackawanna Railroad made the final run from New York.

Horoscope Forecast FOR TOMORROW

—CARROLL RIGHTER

GENERAL TENDENCIES: A beautiful Saturday to get all of those little duties that require your undivided attention and for getting them behind you with dispatch and in a very organized fashion. Do also what can give you more health by some additional attention to your diet and take some exercise to enhance your vitality as well.

ARIES (March 21 to April 19) A good time to get caught up on much unfinished business, be it in the realm of home or elsewhere. Get some shopping done also. Or at least plan to buy fine wardrobe to tide you over the holidays nicely.

TAURUS (April 20 to May 20) Others are anxious to have you meet with them for fun and you should do so provided that you dress to a T. Be generous financially, also. You have fine talents and should bring them out now to please others.

GEMINI (May 21 to June 21) Study well what needs to be done at home to make life there more comfortable and harmonious and talk over improvements with kin. Get rid of whatever is not progressive. Stop hanging on to old, antiquated things.

MOON CHILDREN (June 22 to July 21) Fine day for shopping and running errands that are very important to your shop, office or home life. Information you require can also be gotten now speedily. Get right down to brass tacks.

LEO (July 22 to Aug. 21) If you cut down on expenses and find a new outlet for your capabilities, this can lead to the comfort and ease you desire. Look to that clever business person for ideas. You can be for more successful in the days ahead.

VIRGO (Aug. 22 to Sept. 22) Study yourself well and see where to improve both in appearance and modus operandi. Be very natural in your efforts to please and entertain others. Stop trying to imitate others. Remember that there is nobody like you in all the world.

LIBRA (Sept. 23 to Oct. 23) If you confer with some expert or go to a new source, you can get a new slant on certain projects you are working on or have in mind. You like neatness and this is the time to establish it around you. Keep busy.

SCORPIO (Oct. 24 to Nov. 21) Discuss personal ambitions with good pals and then get together with them at social affairs where you make excellent contacts. You know exactly what you want now. Have a delightful time, also.

SAGITTARIUS (Nov. 22 to Dec. 21) Handling responsibilities in the business world and improving credit is important if you want to make a big start in some project of note. Take more time with that civic work. It is vital to your future.

CAPRICORN (Dec. 22 to Jan. 20) You are now able to garner the information you need so that you can get ahead more quickly in your line of endeavor. Get in touch with those new contacts. They hold the key to your future success.

AQUARIUS (Jan. 21 to Feb. 19) Carry through with exactness any promises you have made to associates and others today, tonight. Forget going off on that tangent that is pecking away at you. Show that you are a sensible person.

PISCES (Feb. 20 to March 20) Be sure you understand what the plan is behind the expectations of your associates, and you can then execute with greater intelligence. Show that you cooperate nicely. Express your ideas later on.

IF YOUR CHILD IS BORN tomorrow he, or she, will be one of those fascinating youngsters whose mind is sharp and clear, and is not to be pretty discriminating, to the point of harsh judgment, so teach early to be more thoughtful of feelings of others. There can be much success in detailed work of a practical nature, research, laboratory technician, etc.

Commissioner Says Riots Follow Similar Pattern

WASHINGTON (AP) — Police Commissioner Howard R. Leary of New York City has told President Johnson's Advisory Commission on Civil Disorders the requisites of a riot include what he called "dry grass" conditions sparked into flame, fed by rumors and fanned by agitators.

Leary's testimony before the commission Sept. 20 was released Thursday. The commission was set up to investigate causes of last summer's riots and to make recommendations for dealing with the problem.

LEFT OUT
Leary described dry grass conditions as "a congested urban area, inhabited largely by persons who feel left out of the prosperity that marks most of the contemporary American society."

"It is marked by a rising standard of living," Leary said, "but an even more steeply rising scale of demands on society. There is generally a high level of frustration, an increasing amount of anger and almost always a feeling that comes from years of broken promises, and ranges from mute disappointment to outspoken rage."

The spark usually is an incident in which the police are involved, such as an arrest or the policeman's use of a gun, he continued. This is inevitably followed by rumors which magnify the original incident out of proportion, he said.

Thus, Leary testified, with the condition, the incident and the rumor, "Step No. 4 begins when the agitators appear on the scene, ready to promote their own aims and ambitions and programs at the expense of the community they profess to serve."

Leary told the commission the agitator inevitably turns his attention to teenagers, exciting them into committing acts of vandalism.

TIME TO WORK
At that point, he said, a sufficient police force is required—first, to prevent further vandalism and then to head off looting.

"This is a most critical area, because it is at this point that the agitator's efforts to turn a disturbance into a riot will succeed or fail," Leary explained.

If large-scale looting can be prevented, he continued, it will give the "decent, orderly and reasonable forces, within the community" time to work and "good sense is given a chance to argue against destruction and disorder."

Leary's testimony and that of three others who appeared Sept. 20 concluded that adequate community relations programs are needed to solve riot conditions.

KEY LINK
One major course of action when riots occur, said E. Wilson Purdy, public safety director of Dade County, (Miami) Fla., is the police-community relations approach "in which you attempt to enlist or involve the total community in the problem-solving machinery."

Added Byron Engle, public safety director for the Agency for International Development: Community relations programs are needed "to maintain the important communication link between the police and the people and encourage better respect of the police organization, its acceptance by the population."

Community relations programs are needed "to maintain the important communication link between the police and the people and encourage better respect of the police organization, its acceptance by the population."

Texas' First Thanksgiving May Have Been In Area

Texas' first Thanksgiving service may have occurred near Big Spring in 1535, according to a story by Marquita Moss, member of the Dallas News Austin bureau.

"Forget Plymouth Rock and the Pilgrims. Forget Jamestown colony. Forget the turkey and the women wearing austere brown and white costumes," she wrote in a Thanksgiving feature for the News. "At least that's what Texas historians claim. They have it on pretty good authority that the first American Thanksgiving was celebrated in Texas in 1535, or 85 years before the Plymouth event."

"Cabeza DeVaca described the ceremony in his diary." Then she goes on to quote Mrs. D. M. Parmelee, director of research for the Texas Historical Survey Committee, to wit: It transpired near Big Spring about seven years after DeVaca's Spanish expedition ship was wrecked on the coast by a storm. "He had no supplies, no horses, no mules, nothing."

When the Eastern Apache Indians encountered DeVaca in 1535, he was walking along the Pecos River without a stitch of clothing on," she (Mrs. Parmelee) continued. The Indians

Sells Gold To Support Loan

PARIS (AP) — The usually well-informed newspaper Le Monde said today the International Monetary Fund would sell \$400 million worth of gold to raise part of its \$1.4-billion loan to support the British pound.

Finance editor Paul Fabra, who cites no source, said the gold sale will be made "on the demand of some Continental European countries."

Of the balance of \$1 billion, half will come from the IMF reserves of convertible currencies, and the other half will be furnished by the Group of Ten, he said.

Of the gold, \$80 million worth will be sold to France in exchange for francs, \$90 million worth to Germany for marks, \$60 million worth to Italy for lira, \$30 million worth to Belgium for Belgian francs, and \$30 million worth to Holland for florins, "and no one," he said.

Fabra did not give a complete list, nor did he specify the sales price. Presumably it would be at \$35 an ounce.

He said part of the IMF's gold reserves is in the U.S. Treasury and on the books as U.S. reserves. The sale means the United States will have to turn over \$40 million worth of it to the IMF.

To Decide If Lion Can Stay

LOS ANGELES (AP) — The Los Angeles County Zoning Board must decide if Buttercup, a 5-year-old lioness, may continue to live in a residential area of Topanga Canyon.

Erik Hallmark, who owns the lion, was recently convicted of violating a section of the zoning code forbidding such things.

Now Hallmark's wife Edna has petitioned the zoning board for special permission to keep Buttercup because, she says, the pet is tamer than a house cat and neighbors don't object.

A fine levied against Hallmark has been suspended until the zoning board rules on the petition.

These Fellows Have Problems

MARSHALLTOWN, Iowa (AP) — Kenneth L. Koehler, who recently moved to town, is having problems, as is Kenneth L. Koehler, who has lived here a while.

While sorting out mixed up mail recently, the two men discovered:

- They share the same middle name, Leroy.
- Each has a father named Fred.
- Each has four children.
- Each has one uncle, named John.

Both have families who settled years ago in the Galena, Ill., area. However, the men say they doubt they are related.

Two Minor Mishaps Reported To Police

Two minor accidents were reported to the police Thursday, but there were no injuries. Jefferson H. Peacock, Sweetwater, and Joann Brewer Kottwitz, 4107 US 80 West, were in collision at Airport and Madison. Donald Andrew Templeton, 1509 Sunset, and Raymond R. Plasse, Webb AFB, were in an accident at the Wagon Wheel Drive in, Fourth and Birdwell Lane.

piled pelts, maize (corn) and pecans before him, but DeVaca "knew he couldn't do a thing with those gifts, so he showed his good will by holding a short blessing service," she said.

Then the News story adds that "if that Thanksgiving service doesn't give Texas first claim to the ceremony, Dr. H. E. Bolton goes on in his book, 'Coronado: Knight of Pueblos

and Plains,' to describe a second one in 1541." This occurred in Randall County near Palo Duro Canyon.

Coronado had been baited by tales spread by DeVaca, and while in search of the legendary seven cities of gold, he was misled by an Indian guide and finally reaching the Tule Canyon near the Palo Duro Canyon, he came upon the same tribe of In-

dians which had plied DeVaca with gifts. The Indians repeated the performance, expecting Coronado to bless them; but accustomed to accepting gifts in the name of the king, he took them. This shocked the Indians to tears, but they recovered. Together Spaniards and Indians threw a great feast."

The reference to the Pecos in Miss Moss's story in the News, however, may be a bit premature. While it is true that Cabeza DeVaca did cross the Pecos, this was quite a number of days or weeks after he had paused at the "big spring." Prof. Bolton, in his book on Coronado's adventures, says that Cabeza DeVaca escaped from Galveston Island where Indians had made him a prisoner, if not slave, and made his way to the Colorado River. Then he followed this north, finally turning off on the Sulphur Branch (what we now call Big Spring Creek) and came to the site of what is now Big Spring. Here he halted briefly at the historic spring, then continued westward, finally reaching El Paso and then making his way to Mexico City. If the Thanksgiving event occurred near Big Spring, then it was somewhere on Beal's Creek, probably in Eastern Howard County.

Three Big Springers will have parts in the 44th annual convention of the Texas Association for Health, Physical Education and Recreation when it meets in El Paso Nov. 30-Dec. 1-2.

Around 1,000 are expected to attend the party which deals with means of improving programs in health, physical education and recreation in schools and colleges. Mrs. Katherine Magee, Texas Women's University in Denton, is president of the 4,000-member group.

Miss Anna Smith, dean of women at Howard County Junior College, is vice president of the Health and Safety Education division of TAPHER. Martin Landers, head of the drama speech department at HCJC, will present Norma Sterling's short play "Scattered Showers" at a meeting of the division.

Miss Arah Phillips, formerly HCJC girls' coach and dean of women, will lead a panel discussion at one of the division's meetings.

As she puffed on a cigarette in a long black cigarette holder backstage at a Baltimore burlesque theater, Miss Jones said she thought her book would be good for housewives "and good for their husbands, if they learned that taking it off might inject a new element in a humdrum marriage."

Miss Jones said Jane Housewife should then grab a copy of her book, "How to Strip," and get ready to give the old man the surprise of his life when he comes trudging home from the office.

As she puffed on a cigarette in a long black cigarette holder backstage at a Baltimore burlesque theater, Miss Jones said she thought her book would be good for housewives "and good for their husbands, if they learned that taking it off might inject a new element in a humdrum marriage."

Miss Jones said Jane Housewife should then grab a copy of her book, "How to Strip," and get ready to give the old man the surprise of his life when he comes trudging home from the office.

and Plains,' to describe a second one in 1541." This occurred in Randall County near Palo Duro Canyon.

Coronado had been baited by tales spread by DeVaca, and while in search of the legendary seven cities of gold, he was misled by an Indian guide and finally reaching the Tule Canyon near the Palo Duro Canyon, he came upon the same tribe of In-

dians which had plied DeVaca with gifts. The Indians repeated the performance, expecting Coronado to bless them; but accustomed to accepting gifts in the name of the king, he took them. This shocked the Indians to tears, but they recovered. Together Spaniards and Indians threw a great feast."

The reference to the Pecos in Miss Moss's story in the News, however, may be a bit premature. While it is true that Cabeza DeVaca did cross the Pecos, this was quite a number of days or weeks after he had paused at the "big spring." Prof. Bolton, in his book on Coronado's adventures, says that Cabeza DeVaca escaped from Galveston Island where Indians had made him a prisoner, if not slave, and made his way to the Colorado River. Then he followed this north, finally turning off on the Sulphur Branch (what we now call Big Spring Creek) and came to the site of what is now Big Spring. Here he halted briefly at the historic spring, then continued westward, finally reaching El Paso and then making his way to Mexico City. If the Thanksgiving event occurred near Big Spring, then it was somewhere on Beal's Creek, probably in Eastern Howard County.

Three Big Springers will have parts in the 44th annual convention of the Texas Association for Health, Physical Education and Recreation when it meets in El Paso Nov. 30-Dec. 1-2.

Around 1,000 are expected to attend the party which deals with means of improving programs in health, physical education and recreation in schools and colleges. Mrs. Katherine Magee, Texas Women's University in Denton, is president of the 4,000-member group.

Miss Anna Smith, dean of women at Howard County Junior College, is vice president of the Health and Safety Education division of TAPHER. Martin Landers, head of the drama speech department at HCJC, will present Norma Sterling's short play "Scattered Showers" at a meeting of the division.

Miss Arah Phillips, formerly HCJC girls' coach and dean of women, will lead a panel discussion at one of the division's meetings.

Holiday Death Toll Takes Huge Drop In Texas

By The Associated Press

Thanksgiving Day's usual traffic carnage took a holiday of its own in Texas Thursday and the result was an unusually abbreviated toll of holiday deaths.

Many hours remained ahead for the violent death count encompassing the weekend, however.

An Associated Press survey showed at least seven persons dead in traffic accidents, with one fatal shooting, a strangling and a fire fatality pushing the total figure to 10.

STRUCK, KILLED

The AP began its holiday

Priest Leaves Note For Yeggs

BLOOMINGTON, Ind. (AP) — The Rt. Rev. Msgr. Thomas Kilfoil penned this note to thieves who stole an amplifier from St. Charles Roman Catholic Church:

"To the two who entered an unlocked church at night to prey:

"You're welcome to our \$200 amplifier which you stole. We only used it to pray. Since your need is greater than ours—accept it with our pity.

"P.S. The church remains and always shall be unlocked. You may bring it back when your guitar loses its song."

Pentagon Studying Plans To Re-Equip Viet Army

WASHINGTON (AP) — Pentagon authorities are studying U.S. military proposals to re-equip the South Vietnamese army so it can take on a larger share of the war burden.

Modernization of the Vietnamese army, development of better leadership, and the instilling of self-confidence are basic to Gen. William C. Westmoreland's hopes for beginning at least a token withdrawal of U.S. troops by late 1969.

The United States has been trying to fashion the South Vietnamese army into an effective fighting force for six years or more.

NEW COPTERS

But Westmoreland, U.S. commander in Vietnam, believes this objective is within grasp and is basing his program on that faith—judging by his statements in Washington this week.

The plans envision a staged modernization program to provide the South Vietnamese regular army with about 225,000 M16 rifles and with M60 machine

death count at 6 p.m. Wednesday. The survey continues until midnight Sunday.

The deaths included: Tony Wickerson, 6, burned to death in a fire in a two-room

frame house Thursday night in Dallas.

The girl's father, Bill George Wickerson, 27, was in critical condition with burns.

A car struck and killed Jewell

TV CHAMPS CONSISTENT

Fickle Public Charge Refuted

By CYNTHIA LOWRY

AP Television-Radio Writer

NEW YORK (AP) — That fickle public that picks up a show, gives it a ratings whirl, then, bored, drops it, is not really as faithless as it is reputed to be.

The A. C. Nielsen Company, which projects the vital statistics by which television programs live and die, recently came up with a list of 35 programs that between 1951 and 1966 consistently stayed in its "top 20" popularity list for at least four seasons.

An amazing number of them—about one fourth of the list—are still on top. The all-time champs, each with 12 years to their credits, are Ed Sullivan and Red Skelton. Sullivan first made the top 20 in 1951, and

Skelton, the following year.

"DRAGNET"

Lucille Ball, first with "I Love Lucy" and then "The Lucy Show" has 10 years on top. Jackie Gleason and "Gunsmoke" have seven; Andy Griffith and "Bonanza," six, and "Dragnet," five.

This suggests strongly that once members of the television audience finds someone and something they really like, they stick with it indefinitely.

But not always. "You Bet Your Life," the Groucho Marx comedy-quizz programs, had eight years in the top 20—then slid into oblivion. Arthur Godfrey's "Talent Scouts" was a hit for six seasons and "Arthur Godfrey and His Friends" for four. Attempts to revive the former have not amounted to much, and the other show died quietly years ago.

"YOUR HIT PARADE"

The 15 year reprise of hits recalled some shows that have been almost forgotten, but once were prime favorites. There was "This is Your Life," "Your Hit Parade," "December Bride," "Fireside Theater," as well as Milton Berle's early "Texaco Star Theatre."

Thanksgiving was a great day for football, but a poor day for the televised parades, especially in soggy New York. One of the great public displays of fortune took place during the NBC broadcast of the New York festivities when, in the middle of a number by the American Opera Company ballet, the drizzle turned into a downpour—and they carried on without missing a step, without losing their smiles.

Recommended weekend viewing:

Tonight—Telephone Hour, NBC, 10-11 EST, documentary on Joseph Fuchs, famed violin teacher.

Sunday—"Diary of Anne Frank," ABC, 9-11 p.m., adaptation from the play and film, with Lilli Palmer, Max von Sydow and Diana Davila making her TV debut as Anne.

N. Richey, 73, as she started to cross US 82 Thursday in the town of Saint Jo in North Texas. The accident happened at dusk. Officers quoted the driver of the car as saying she was unable to see the woman.

HIT-AND-RUN

Mrs. John Qualls, in her 50s, was struck and killed by an automobile near Weatherford on US 80 Wednesday evening. The driver of the car did not stop, police said.

George Hinojosa Garza, 23, of Clarkwood, a Corpus Christi suburb, was killed about 11 p.m. Thursday when two cars collided head-on on one-fourth mile south of Corpus Christi on FM 2292. Six persons in the other automobile escaped serious injury.

Capt. Dean E. Hedelund Jr., 31, an Air National Guard officer from Honolulu, was killed Thursday when an auto struck a tree at Sherman. Hedelund was attached to a combat training squadron at Perrin Air Force Base.

MULESHOE MISHAP

Sgt. Albert T. Parker, 29, of Thornton, Colo., and Pfc. Walter F. Herbert, 23, of Billings, Mont., were killed Wednesday night when their cars collided 11 miles east of Childress. Parker was stationed at Sheppard Air Force Base at Wichita Falls while Herbert was an Army man at Ft. Sill, Okla.

Art Bowen, about 72, of Portales, N.M., was killed Wednesday night in a car-truck crash in which three other persons were injured. The accident occurred on the western outskirts of Muleshoe, about 90 miles northwest of Lubbock.

LBJ Mixing Play, Work

SAN ANTONIO, Tex. (AP) — President Johnson is settling back into the workaday routine of a ranch stay after a family-style Thanksgiving.

The Texas White House had no word Friday on any official visitors or agenda for the chief executive. However, it is his pattern while here to mix paperwork, phone calls to Washington officials and plain recreation.

One of his big concerns, of course, was the threat of a Turkish-Greek conflict over Cyprus.

There was the possibility, too, that before returning to Washington early next week Johnson might try to dramatize—perhaps with a ranch conference of high officials—his renewed drive for a 10 per cent income tax hike.

Once given up for dead, the tax bill got a new lease on life because of last week's devaluation of the British pound.

Administration officials will present a revised tax plan to the House Ways and Means Committee next Wednesday.

The Johnson clan gathered at the ranch, some 75 miles north of here, for a late-in-the-day Thanksgiving dinner. Present were daughters Luci and Lynda; Luci's husband Patrick J. Nugent and son Patrick Lyndon Nugent, and Lynda's fiancé, Marine Capt. Charles S. Robb.

Other relatives and friends also were on hand for a typical holiday menu of turkey, sweet potatoes, asparagus and multiple trimmings.

Tower Eyes Viet Change

DAK TO, Vietnam (AP) — Sen. John G. Tower, R-Tex., said Thursday he believes the South Vietnamese and their allies are "winning the war here on all fronts—military, political, social and economic."

Tower, who is making his fourth visit to Vietnam, said he had seen considerable progress on this tour as compared with his last previous visit in February.

The senator ate Thanksgiving dinner with troops of the U.S. 4th Infantry Division at their forward command post here and later visited some units in the field.

"The big change is that there are more people and more territory under our control," he said. "There is a growing sense of confidence in the Vietnamese people."

Cobra Captured In Storage Room

FORT WORTH (AP) — The 11 foot-long King Cobra missing since Nov. 14 was found alive Thursday in a storage room of the reptile house at Forest Park Zoo.

Elzie Turner, zoo director, said the snake was found by Steve Boyd, a part-time zoo employee.

Buzz Ross, assistant supervisor of the reptile house, captured the snake and returned it to its display case.

Ross said the cobra had apparently suffered no ill effects during its 10-day disappearance.

WARREN CHORN

Chorn Selected For Ad Position

Warren Chorn, five-year veteran with Gibson's discount stores, has been named assistant manager of the Big Spring store at 2303 Gregg. As such, he will be in charge of advertising and promotion.

Before joining the Gibson location in Abilene, Chorn was a partner in a drug store at Borger.

He was born in Snyder and was graduated from Abilene High School. His wife, Aline, works as a supervisor at Bennett House. They have four children, all attending Kentwood Elementary. They are Carolyn, 11; Christine, 9; Terry, 8, and Joe, 7.

The family resides at 2507 Seismic.

Mother Convicted Of Scalding Child

DALLAS (AP) — Ten years in prison was the sentence recommended Wednesday for a mother convicted of scalding her one-year-old daughter in hot water.

In a statement introduced by the state, Mrs. Phillipa Jane Jones admitted dipping the child in the water, saying "she did it because of anger for her husband. The child was critically hurt in the incident."

Heavy Fog Dots Texas; Warmup Prospects Good

By The Associated Press

Heavy fog cloaked a big chunk of Texas from the Piney Woods of East Texas to Brownsville at the tip of the state today. A slush of rain and light snow fell in the extreme northern reaches of the Panhandle.

The Panhandle rain and snow represented the southernmost activity in a dying cold front that brought travelers warnings to northern New Mexico and dumped 1 inch of whiteness on Lamar, Colo.

SNOWFLAKES

Texas weathermen said a warmup was in prospect for most of the state during the next few days with little precipitation in prospect.

Weather Bureau radar today spotted a mixture of snowflakes and light rain in an area from 30 miles west of Amarillo to 15 miles east of Dalhart and as far north as Gage, Okla.

More moisture was contained in another rain area around Waco.

Fog was reported from Lufkin to San Antonio and south to Brownsville in the pre-dawn hours.

HOUSTON 'HOT'

Thanksgiving Day temperatures were unseasonably warm. Houston's 84 was the warmest ever recorded on Turkey Day. The hottest maximum was 86 at

Ex-Webb Officer Normile Knows Heroes Can Be Afraid

A former Webb AFB officer, widely known here, was the subject of a "Texans at War" feature by the Associated Press Thursday.

He is Maj. Thomas H. Normile. He and his wife, Peggy, lived here for a considerable time when the major, then a captain, was at Webb AFB.

The interview said that Maj. Normile is due home from Vietnam in December. He has been in Vietnam since February.

He will join his wife in San Antonio and visit his parents, Mr. and Mrs. Joe H. Normile, who reside in Denton.

The AP's story reads:

Maj. Thomas H. Normile knows that heroes can be afraid.

The Texan at war from Denton and recipient of the Silver Star says, "There have been times when I've been scared to death, but something always made me go back again and again."

16 MEDALS

The combat pilot, 35, has received 16 medals including two Distinguished Flying Crosses, the Vietnam Campaign Medal and the Medal for Gallantry in Vietnam. He received the Silver Star at Cam Ranh Bay Air Base in November for combat as an F4 Phantom aircraft commander and flight leader during fierce fighting near Hue.

Flying in adverse weather, the major braved intense ground fire to defend allied ground forces besieged by a large Viet Cong force.

His attacks were credited with inflicting heavy losses on the enemy and securing the allied position.

230 MISSIONS

Normile has flown 230 missions, 90 over North Vietnam.

"I don't fly north anymore," he said, "so my chances for survival are much better."

"Even though I've been so afraid at times, I've enjoyed the

and wouldn't have missed this war for the world."

Normile flies the Air Force's fastest operational fighter as a member of the 557th Tactical Fighter Squadron. He was reassigned to the combat zone from the Air Command and Staff College at Maxwell Air Force Base in Alabama.

He is a 1950 graduate of Den-

ton High School and was commissioned in 1956 through the ROTC program at North Texas State University where he received his bachelor of science degree in education.

Normile earned his master's degree in public administration last year from George Washington University. He was a member of Lambda Chi Alpha.

Local Detective Completes Police Institute Training

Twelve weeks of study at one of the nation's top police academies ended Nov. 17 for Detective Sergeant Sherrill Farmer of the Big Spring Police Department.

He was one of 30 law enforcement officers in the United States awarded a grant to the Southern Police Institute at the University of Louisville and the first from Big Spring to attend.

The class numbered 60 and represented 57 departments in 24 states — three from Texas.

MORE DEPTH

Although Farmer has attended numerous in-service training programs offered by the local department, the 12-week Louisville school went into more depth.

"We dealt mainly with police administration and constitutional law, whereas other schools are set up more as training schools to do specific duties," said Farmer. "This school was more on the educational level."

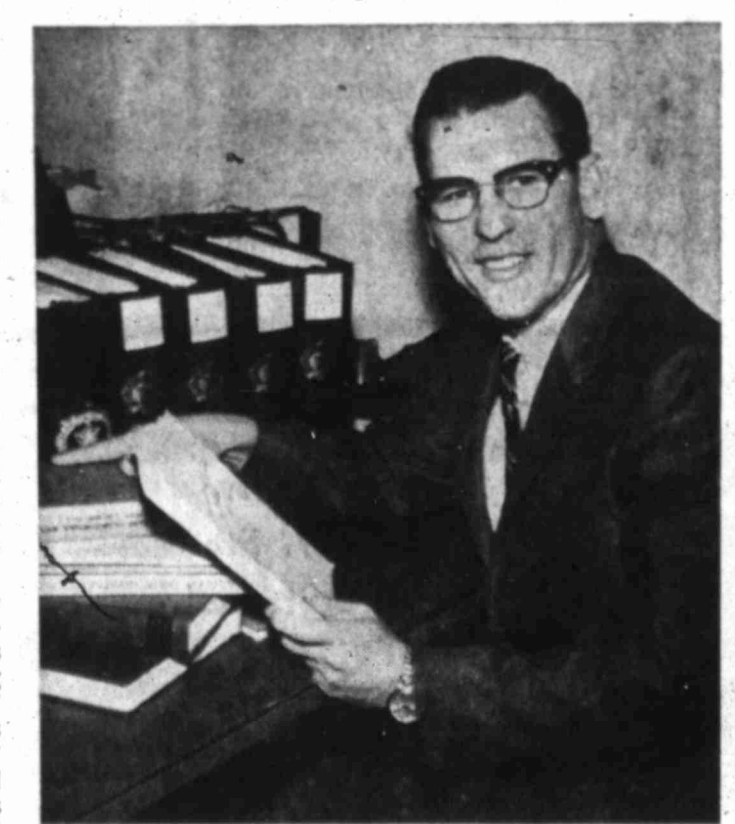

In addition to constitutional law and administration, studies were made of evidence and criminal procedure and psychology for law enforcement personnel.

Classes began Aug. 28 and ran five days each week with a four-day break Oct. 4 between semesters. Six hours of classroom lecture each day and individual outside projects were required for completion of the course.

GUEST LECTURERS

"Every Monday a guest lecturer in some specialized field—pathology or subjects related to the courses... spoke to the class," said Farmer. Many of them were graduates of the Southern Police Institute.

On free weekends Farmer and other officers in the class made side trips to Frankfurt, the state capital, the Indiana, Wisconsin game and famed Churchill Downs. Typing class notes seemed to occupy much

GLAD TO BE BACK
Sherrill Farmer and "school notes"

of the time outside regular school hours, said Farmer, referring to four volumes of typewritten notes accumulated during the three month course.

Farmer and the majority of officers enrolled in the class lived in dorms, although others chose to live off campus. His roommate — Lt. Don Archer of Dallas police department — was one of the officers who arrested Jack Ruby in the city jail's basement after Ruby shot John Kennedy's alleged assassin Lee H. Oswald. The third Texan in the class was from Lubbock.

SCOUT LEADER

Shortly before graduation, Farmer's wife, the former Jane Hill of Big Spring, flew up for the occasion. The Big Spring

detective also received a congratulatory telegram from Mayor Arnold Marshall as graduation ceremonies got underway.

He has been with the local police department 11 years, first joining the department April 1, 1956, as a dispatcher. Since that time he has served as a patrolman, accident investigator, warrant officer, sergeant in the patrol and traffic divisions and was named a detective in 1965. He and his wife have an eight-year-old daughter, Shanna. He is active in Boy Scout work, helping with the troop sponsored by the police department. This year he is serving as chancellor commander of the Knights of Pythias Lodge and captain and commanding officer of the Texas state guard security unit.

Ouija Board Popularity Analyzed By Minister

By GEORGE W. CORNELL
Associated Press Religion Writer

NEW YORK (AP) — Ouija boards, those wooden slabs decorated with mystical signs and letters and used to seek answers from the spirit world, are becoming common items in American households.

This is seen by a Washington, D.C., analyst of religious affairs as an indication that church institutions are failing to deal sufficiently with human concern about supernatural realities.

"Most of the churches in their presentation nowadays tend to ignore or downgrade the supernatural and mysterious," said Kenneth H. Wood, a Seventh-day Adventist minister and editor of the denomination's Review and Herald.

"This has left people wide open for all kinds of deviations to fill the vacuum," he asserted, adding details on the matter for his church's publication.

He said in an interview that spiritism—attempts to make

contact with the dead—has "been growing stronger all the time," involving pitfalls for the Christian faith.

He cited various evidence, including increased attention to seances, the growing interest in psychic phenomena, the preoccupation of some clergymen with such activity, in addition to the ouija board boom.

Although the board is mostly a home pastime, often taken lightly, he said it has become the top seller among games, the

spirit-dealing board surpassing the money-dealing game, Monopoly, for the first time in 32 years.

Ouija board sales were expected to exceed two million in 1967, he said, adding, "Americans are tremendously interested in the occult."

However, he said that many churches, in their current emphasis on secular involvement and service, have increasingly skipped teachings about the other-worldly sacred realm, leaving a need in the human conscience.

To fill the gap, more and more people have turned to non-Biblical substitutes, he said. He cited Leviticus 19:31 as a warning against such activity. It says: "Do not turn to mediums or wizards; do not seek them out, to be defiled by them. I am the Lord your God."

In other areas, however, numerous clergymen recently have encouraged research into psychic phenomena—telepathy, clairvoyance, telekinesis—and related fields of intangible processes.

A national organization, Spiritual Frontiers Fellowship, including many clergymen and lay Christians, was formed several years ago to promote such work.

COMMUNIST BOOKS BANNED

Saigon Press Popular

Communist literature is banned in South Vietnam, according to Royce Rexilius, literature director of the Alliance Gospel Press in Saigon. Literature - hungry Vietnamese are wide open to Christian literature which has been adapted and translated into their own language.

Twenty thousand copies of "The Life of the Lord Jesus Christ," a 110-page paperback by Maureen Clarke, has been printed by Rexilius' organization in Saigon with a grant provided by the David C. Cook Foundation, Elgin, Ill.

Miss Clarke, an honors graduate in literature, has been training Indian nationals in journalism for many years at Khristya Lekhan Santha, in Nasik, India. She is a missionary of the Bible and Medical Missionary Fellowship with headquarters in Toronto, Canada.

Trustees Expected For Meeting

Trustees of Texas Baptist schools will be briefed on the proposed non-profit corporation, "Associated Baptist Colleges of Texas," in a two-day conference at the Stagecoach Inn in Sado, Dec. 5-6. More than 100 trustees from nine institutions of higher learning and San Marcos Baptist Academy are expected to participate at the annual conference.

Speakers will include Dr. J. L. Zwingle, Washington, D.C., executive vice president of the Associated Governing Boards of the Universities and Colleges; C. Eugene Kratz, president of Maryland Baptist College, Walkersville, Md.; and Dr. E. N. Jones, secretary of the Christian Education Commission, who is scheduled to retire from his post on Dec. 31.

Baptists Slate Sunday Ceremony

STANTON (SC) — Ground-breaking ceremonies for the Mission Baptist Church, located on the corner of Elizabeth and Oak, will be held at 3 p.m. Sunday, according to Troy Bradshaw, building superintendent.

Start Work On New Parsonage

Construction began Tuesday on a \$27,500 parsonage at 1605 Kiowa Drive for Grace Baptist Church, according to the Rev. Roy Honea, pastor. It is expected the home will be completed in early March.

DISCIPLINE BASED ON GOD'S LOVE
ACCORDING TO UNIFORM LESSON

To learn right from wrong, a child needs discipline. So does the child of God. This week's uniform lesson, based on Hosea 2:13-14, 18-23, 3:4-5, reveals discipline as evidence of God's love and concern.

Just as every "black cloud has a silver lining," there must be discipline and restoration before the sun can shine through the clouds. When the people of northern Israel continued to observe holy days, but connected them with the worship of idols, they had changed gods without a radical change in ceremonies — they needed discipline.

Israel is guilty of spiritual adultery as evidenced in Hosea 2:13 — "she went after her lovers, and forgot me, saith the Lord." Because Israel had forgotten Him, God decided to lure her back into a wilderness, that once more He could show His love and win love and loyalty in return. God promises no harm shall come to them while in His care — and in Hosea 2:19, 20 promises an everlasting covenant. Eventually, after being punished for their sins, the children of Israel will return to the Lord.

God promised punishment for Israel because she forgot Him. Though He does not always "strike people dead in the act of sinning," He does punish. His disciplines, however, are to produce God's purposes which are always for man's good.

Church Calendar

ASSEMBLY OF GOD — The Rev. Homer Rich, 11 a.m., "The Dayman"; 7 p.m., "Entire Sanctification and Strengthening."

Former Pastor Approved As African Missionary

The Rev. and Mrs. Warren B. Newberry, Midland, former pastors of the First Assembly of God in Stanton, are among eight couples who have been approved as missionaries of the denomination. The foreign mission board announced the approval at its final meeting of the year.

The Assemblies of God lists 884 missionaries serving in 75 countries of the world. Last year the budget was about \$11.2 million, and this has been increased substantially this year.

College in California where she took her A.A. in history. He earned his B.A. in religion in Southern California College and was ordained in March, 1965, in the Southern California district. He supported himself as a bricklayer, manager of a drive-in dairy unit, and as a high school custodian. He also served as pastor of the Assembly of God Church in Dana Point, Calif. Both Warren and Mildred A. Newberry will attend the 1968 school of missions before taking a final assignment.

Rotarians Learn Of African Life

STANTON (SC) — George B. Shelburne III, formerly of Stanton and presently on leave from his missionary post in South Africa, spoke Wednesday to the Rotary Club. He described the lives of the natives and illustrated his speech with a film strip.

Rogers To Show Film Thursday

Sig Rogers will show a missionary sound film on India at 7 p.m. Thursday, Nov. 23, at the Brown Community Assembly, 18 miles north on Lamesa Highway and seven miles west.

CANDLE in the Night

There is something about a candle . . . something about a flame . . . something about fire itself . . . that has fascinated man throughout the centuries. Despite the fact that you can translate fire, these days, into a known chemical formula, it is still a mystery, a wonder, and sometimes a fear.

It is an elemental thing that this little girl is studying as she watches the candle flicker. And, like so many of the elemental things—like Nature itself, and like Faith, for that matter—it is awesome.

Faith, too, is a mystery and a wonder. Yet the only fear that Faith engenders is the fear, deep within one's heart, that it might be lost.

So that this essential ingredient of life does not elude you and does not diminish during misfortune, make it a habit of attending the church of your choice regularly. Here you will be given spiritual strength and inspiration and kindle the mystery of love and joy within your heart.

FIRST DOWN FOR CARDINALS
Johnny Roland runs line for six yards

Cowboys Pour It On Cards

DALLAS, Tex. (AP) — Coach Tom Landry said early this week it would take the big play to beat St. Louis. His Dallas Cowboys went out and substantiated that prophecy Thursday night.

The Cowboys broke three touchdowns plays of 59 to 74 yards and had one of 34 yards in whipping the Cardinals 46-21—the best combination of offense and defense Dallas has shown this year. Its point total was a season high.

Bullet Bob Hayes and Lance Rentzel figured in all the big plays. Hayes turned loose his tremendous speed on scoring plays covering 69, 59 and 34 yards and Rentzel was on the

receiving end of a 74-yard pass. He also caught a 10-yard scoring toss.

The two Eastern Conference clubs went at it in the first quarter as if they were going to blow each other out of the Cotton Bowl. In the end Dallas calmed the Cardinals while stirring its offense to a 45-yard frenzy.

"The big plays were what did it," Landry said. "They have a fine defensive play and if you don't get the big plays, then you're not going to beat them."

Coach Charley Winner of St. Louis affirmed that "they just beat the heck out of us. They got the cheap TDs early. They let them out of the hole."

Steers, Lubbock Tangle Tonight

Winners over Andrews in a cliff-hanger in their season's debut earlier this week, the Big Spring High School bouncers return to the floor in Lubbock this evening against the Lubbock High Westerners.

The game gets under way at 8 o'clock and will be aired over two local radio stations (KBST and KBYG). Junior varieties of the two schools play at 6:15 p.m.

Big Spring beat Andrews, 63-62, thanks to two free pitches by Wayne (Goose) Johnson in the final 13 seconds. At the same time, Lubbock High was losing a 66-55 decision in its opener to another District 2-AAAA team, Midland High.

The Longhorns come home Monday to play for the first time before the local buffs, at which time they oppose Lamesa, which won the state AAA championship last year.

Probable starters for Big Spring tonight include Jerry McGuire, who at 6-3 is the tallest member of the club; Charley Tubb, Danny Clendenin, Wayne Johnson and Dean Gilstrap.

Snake Tucker is due to play

since Monday. Too, he's still favoring an ankle injury he suffered in last week's football game with San Angelo.

The Spring takes part in the Odessa tournament next weekend, tangling with the Permian JV club in the first round Nov. 30.

Hawks Claw Hosts In Kansas Meet

GARDEN CITY, Kan.—Howard County Junior College of 7 o'clock this evening against Big Spring, Texas, caught fire in the second half to vanquish Garden City's Bronc Busters, 80-54, in a first round game of the annual Garden City Chamber of Commerce Juco Basketball tournament here Thursday night.

A victory there would put the Texans in the Saturday night finals. Regardless of how they fare today, the Big Springers are assured of playing a third game Saturday, since all eight places in the tournament are being decided.

Garden City kept pace with the Hawks for a half and left for the dressing room trailing only by two points. It was all HCJC in the second half, however. Several times, HCJC led by more than 30 points and coach Buddy Travis made use of all the talent he took — 12 boys in all.

Should the Hawks lose tonight, they would play again at 4 p.m. tomorrow in the consolation finals.

Ten Hawks got into the scoring act. Terry Fields and Hiron Hubert each bucketed 15 for the Texans while Bobbie Lemons and Robert Jackson each collected ten.

Garden City was paced by Larry Pierce, who settled for 15 points. Archie Gooden followed with 13. They were the only two to hit in double figures for the Texans.

The Hawks hit 34 per cent of their shots the first half but warmed to 54 per cent after the intermission. More importantly, perhaps, they adjusted so well on defense the last half they limited the Bronc Busters to 15 points.

Cameron won over Paris, Tex., and Highland, Kan., rallied to topple one of the favorites, Dodge City, Kan., in other first round contests.

LOOKING 'EM OVER

With Tommy Hart

I think that, had Big Spring played San Angelo in the middle of October and caught Midland High and Midland Lee anytime in November, the Steers would have finished with an 8-2 won-loss record for the football season just ended.

San Angelo warmed up after a frustrating start and, quite probably, was the third best team in the league at the end. The two Midland schools, on the other hand, tailed off after both had worked over San Angelo.

Be that as it may, Big Spring finished with a 5-5 won-loss record and no one appears to be too unhappy about it. When you consider the fact that coach Spike Dykes had only four boys who had charted much playing time back from the 1966 season, the Longhorns didn't do badly.

It has to be a tough league, when you consider the fact that seven of its eight members played .500 or better ball over the year.

San Angelo played exceedingly well against Big Spring and coach Dan LaGrasta had warm words of praise for his boys after the game. Said he:

"I feel we could win this district next year if I had this same club returning."

However, San Angelo loses 15 players and may experience rough going. Permian becomes the early favorite to win it all and the Bobcats won't have championship momentum going for them in 1968, as they did this fall.

The Cats will have a fairly impressive array of defensive talent coming back but will be shy of offensive linemen.

Gone from the San Angelo lineup will be such talented boys as quarterback Mike Phelps, fullback Mark Dove, fullback Daryl Jones, fullback Bill Rich, centers Bill Dement, Jerry Barnett and Bobby Lara, guards Benny Dacy, David Burnett and Louis Williams, tackles Trinidad Ybarra, Jerry Rauterkus and Tim Corder and ends Stacy Allen and Raymond Mullins.

Down in Houston, Roy Hofheinz has tucked an acrylic fiber paid 3-8th of an inch thick under the 37-ton Astrodome stadium surface.

Hofheinz says he thinks the new pad has served to make the Astroturf the ultimate playing surface both in player safety and performance.

Some coaches had been apprehensive about taking their teams into the domed stadium because of the uncertain footing but Earle Edwards, who coaches at North Carolina State, was lavish in his praise of the field after his boys had worked out there. (He made that statement before, not after, his Wolf pack had knocked off Houston in a shocking upset.)

Slippage wasn't a problem on the Astroturf before the pad was installed. Hardness was. Now that appears to have been eliminated.

Buddy Travis, the HCJC basketball mentor, says he thinks his Jayhawks could have won both games on their recent trip to Hillsboro had diminutive Hiron Hubert made the trip.

Hubert was left behind due to a groin injury. He's an outstanding playmaker and serves to steady the team.

Denver City has won the District 4-AA football championship seven times during the past eight years.

Midland Lee will employ the same tactics it has in the past in basketball this season.

Coach Paul Stueckler tries to come up with two well-balanced units which he alternates regularly. The Rebels, playing much like the Hobbs, N.M., club, hawks the ball and storms the basket.

At 6-3, Don Lawrence will be the tallest member of the starting club but a 6-7 sophomore named Randy Prince will be on the alternate team.

Sooners Defeat Huskers; Virginia Tech Kayoed

No one gave Texas A&M a ghost of a chance to win the Southwest Conference football championship when the Aggies lost their first four games of the season to Southern Methodist, Purdue, Louisiana State and Florida State.

But they didn't reckon with the heroics of quarterback Edd Hargett from the little Texas town of Linden.

He beat Texas Tech by running for a touchdown as time ran out, threw three touchdown passes to beat Arkansas, hurled two TD passes to beat Baylor and on Thursday hurled an 80-yard pass in the last quarter that beat Texas 10-7.

Oklahoma, fifth-ranked in The Associated Press poll and already picked to oppose second-ranked Tennessee in the Orange Bowl at Miami, also came from behind to down Nebraska 21-14.

Virginia Military edged Virginia Tech 12-10 in the 63rd renewal of the Military Classic of the South at Roanoke, Va., and Toledo crushed Villanova 33-6 at Toledo in other major games on Thanksgiving Day.

John Schneider hurled touchdown passes of 51 and 63 yards and Roland Moss scored three TDs to lead Toledo over Villanova. It was the ninth straight victory for the Rockets, co-champions of the Mid-American Conference.

Southern Mississippi walloped Louisiana Tech 58-7, Idaho State edged Portland State 22-21, Middle Tennessee downed Tennessee Tech 33-20 and Hofstra blanked C. W. Post 19-0 in other Turkey Day rivalries.

Nebraska had been expected to land a Liberty Bowl bid in the event of a victory over Oklahoma, but the Huskers' defeat did not definitely eliminate them of the chance to meet Georgia at Memphis Dec. 16.

Jan. 1 Stallings will lead his Aggies into Dallas to play Alabama in the Cotton Bowl. Bryant now is the Alabama coach.

Stallings got the automatic invitation to play in the Cotton Bowl after Thursday's game. Field Sovell, co-chairman of the Cotton Bowl selection committee, extended it.

FIGHT RESULTS

Portland, Maine — Jimmy McDerrett, 18, Holyoke, Mass., knocked out Rudy Bent, 17, New York.

BARCELONA, Spain — Manuel Calvo, 13, Spain, shot Salvatore Cannone, 13, Italy.

TD PASS TO BOB LONG BEATS LONGHORNS, 10-7

Hargett Spurs A&M To Win

By HAROLD V. RATLIFF

Associated Press Sports Writer

COLLEGE STATION, Tex. (AP) — Edd Hargett, Texas A&M's man in the clutch, pulled another out of the fire Thursday and the Aggies not only won their first Southwest Conference championship in 11 years but got into the Cotton Bowl after a quarter of a century.

The Aggies were behind 7-3 with 10 minutes to go in their ancient (74th) game with Texas and Hargett, A&M's finest passer of all time, swung his arm like he was using a slingshot.

The ball arched far downfield, was grabbed by Bob Long on the Texas 36 and the slender flanker rumbled across with Pat Harkins of Texas riding him down.

That was an 80-yard play—the longest scoring pass in the conference for the season—and it brought the Aggies a 10-7 victory they had sought for 10 years.

It was another in the football heroics of Hargett, the sturdy quarterback from little Linden, Tex. He ran for a touchdown with time out to beat Texas Tech, he threw for three touchdowns to whip Arkansas, his two

BOB LONG EDD HARGETT

touchdown passes broke open the game for a victory over Baylor, and his passing Thursday gave the Aggies one of the most cherished victories in their football history.

Actually, Hargett's passing got the Aggies in position to win at least three other games but his mates couldn't take advantage of it.

The victory made possible the greatest comeback in conference history—the first team ever to lose its first four games then rally for a drive down the stretch that produced six straight victories and the conference championship.

The 6-4 record doesn't sound impressive but the Aggie finish was. They lost only one conference game—to Southern Methodist when Hargett threw for a touchdown with only 43 seconds left only to see Jerry Levas pass for a 20-17 SMU victory with four seconds on the clock.

Lions Master Dunbar, 28-0

By The Associated Press

Brownwood opened the quarter-final round of the Texas high school football playoffs with a victory Thursday and by Saturday night the semifinalists in the four classes playing to state championships will be decided.

The Lions defeated Lubbock Dunbar 28-0, rolling up 273 yards while holding Dunbar to 66 yards and three first downs.

Six games are on tap tonight in Classes AAAA, AAA and A. Class AAA has five games. On Saturday, AAAA and A have two games each, AA three and AAA one.

Two defending champions — Sweeney in Class AA and Sonora in Class A—are bidding to repeat in Saturday night games. Sweeney meets Poth at Victoria and Sonora plays top-ranked Seagraves at San Angelo.

Three former champions are in the Class AAAA playoff. Wichita Falls, a five-time winner, meets Amarillo Tascosa Saturday afternoon. San Antonio Brackenridge, twice champion, plays city rival Lee tonight and Longview, the 1937 titlist, hosts Richardson tonight.

Two of the highlight games to night pits Abilene Cooper, top rated in AAAA, against twice-beaten El Paso Burges and Odessa Ector against two-time Class AAA champion Dumas.

Abilene Cooper, Longview and San Antonio Brackenridge are undefeated and untied.

In Class AAA, former champions seeking another title are Brownwood and Palestine.

Courtney Red-Hot

SAN JUAN, Puerto Rico (AP) — Chuck Courtney of La Jolla, Calif., tied the course record with a five-under-par 67 Thursday and took the first-round lead in the \$19,000 Puerto Rico Open Golf Tournament.

End Is Honored

TORONTO (AP) — Mike Eben, a 6-foot-2, 200-pound sprinter for the University of Toronto, was named Canada's top college football player Thursday.

Airport In Lake Being Proposed

CHICAGO (AP) — A jet age airport more than one half the size of Manhattan on the bottom of Lake Michigan?

In a city that laid its foundation in a basin of mud, reversed the flow of a river, rebuilt itself after a disastrous fire and pioneered the skyscraper, it just could be.

HOLE
A "hole" in Lake Michigan off Chicago's South Side—surrounded by a dike and accessible from shore by a combination bridge-tunnel—has been proposed as one of 15 sites for the city's third major airport.

With an airport in the lake, Chicago would be the only city in the world which would be capable of handling the present family of jets, jumbo jets and the supersonic jet aircraft in an

the city," said Mayor Richard J. Daley.

City officials have given no indication of when a site for a new airport will be given final approval. But aviation experts say the city will need a new airport by 1975, despite the planned expansion of O'Hare International and Midway airports, to handle increased traffic.

ADVANTAGES
The possibility of almost unlimited expansion is one of the advantages of an airport in the lake. But the proportions of such a project would be monumental and it would have a price tag to match.

A feasibility study concluded that the lake site could be prepared in four years at a cost ranging from \$247 million to \$284 million.

The task of wresting the land from the lake would be similar to Holland's centuries-old struggle to reclaim land from the North Sea. The project would begin with the construction of a circular dike in the relatively shallow waters of the lake about 3½ miles off 31st Street, just south of the downtown section.

One boat and scows would haul more than 59 million cubic yards of sand, gravel and rock to the site—some six million cubic yards more than went into construction of Egypt's Aswan High Dam on the Nile River.

Heater Explosion Hurts Two Boys

EDINBURG, Tex. (AP) — A hot water heater explosion and the resulting fire resulted in injuries described as "painful, but not serious" for two boys at the Rio Grande Bible Institute near here Wednesday.

A spokesman for the Edinburg Municipal Hospital identified the victims as Jose Peralta and Javier Salinas. Witnesses said a hot water heater exploded and fire followed and the boys were injured as the building was being evacuated.

The institute, a non-denominational school for prospective missionaries, is located about three miles south of Edinburg on US 281.

and dump it into the water to form a circle with a diameter of four miles.

DIKE
The dike, varying in height from 50 to 80 feet and about 12½ miles long, would enclose an area of 8,000 acres—more than half the size of Manhattan. The water, ranging in depth from 35 to 55 feet, would then be pumped out to expose the lake's floor.

Borings into the lake floor showed that the layer of sand and clay covering the bedrock should present no problems in construction.

The saucer-like dry spot in the lake would be connected with shore by a short causeway built out from the Stevenson Expressway, a long, low bridge almost to the dike and a short tunnel underneath the dike into the airport.

HOPE
But despite the prestige a lake airport might bring to the city, some hope it never is more than a sketch on an engineer's drawing board.

"We did not expect them to propose an airport on the bottom of the lake," said Charles H. Ruby, president of the Air Line Pilots Association, based in Chicago. "That means there's a built-in obstruction all around at the end of every runway."

Ruby said the airport would be inoperable when mist from the lake freezes on the runways. "You can't operate under those conditions," he said. "The winds would blow in and splash water all over the place."

The engineering study says the dike would be high enough and wide enough to thwart the most severe breakers. And it would be faced with 13,700,000 cubic yards of stone—more than four times the amount used to build the Great Pyramid of Cheops.

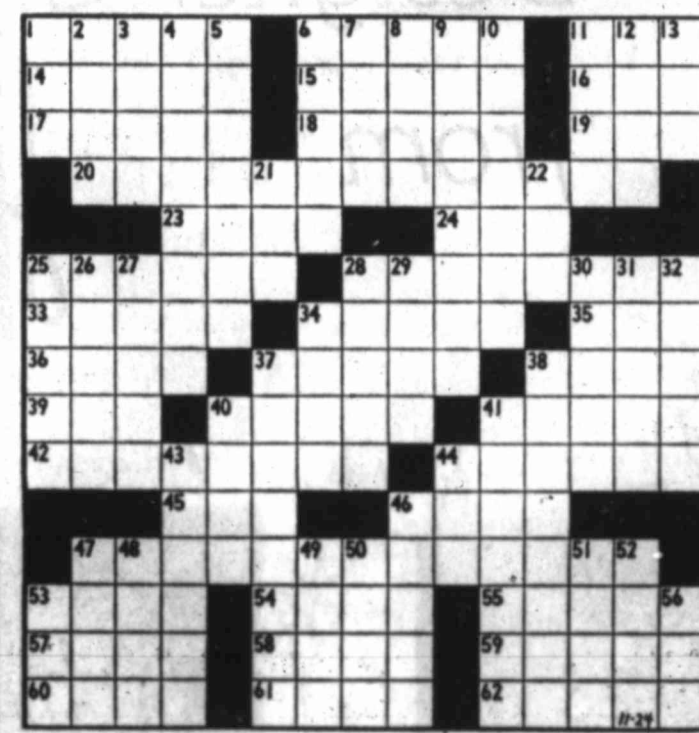

PROBLEM
"You get lower ceilings and visibility down on the lake than you do inland anytime such a problem exists," Ruby said. "We're not against airports; we're for them. But we think they should be operable 365 days a year and 24 hours a day if possible."

Air line executives meeting in Chicago when the engineering study was released said collectively that an airport in the lake is an intriguing idea but that it must be thoroughly examined before construction.

Dear Abby

Marriage Not The Answer

DEAR ABBY: I am a 16-year-old girl who has a very unhappy home life. My folks fight all the time. They have been fighting ever since I can remember. They treat me like dirt and I want to tell you, it is miserable and rotten.

My boy friend, Denny, is 17 and he comes from a home that's even rotten if there is such a word. His folks not only fight all the time, but his father beats his mother. Anyway, Denny has been crazy about me ever since eighth grade and we are thinking of getting married when he graduates from high school in June. If the Army doesn't get him, he hopes to work days at a garage and go to trade school for mechanics at night. He's real good with cars and motors.

Should I quit school and get a job when Denny graduates? I'd have only a year to go, and could finish later. We wouldn't have much money, but we wouldn't need much, and at least we'd have each other. I need advice. Thank you.

DENNY'S GIRL: Don't use marriage as an excuse to get out of the house—no matter how "miserable" it is. I urge you to finish high school while you have the chance. The "later" you mention rarely comes. Children usually do, instead.

DEAR ABBY: Why must our 16-year-old son be penalized by the auto insurance companies just because he is a teenager?

Ray worked all last summer at a very responsible job, and since there was no other way to get to work, we loaned him the money to buy a little sports car. Ray had already taken driver's education in school, plus on the road training, so our confidence in him was completely justified. He is an A-B student, and used the car for very little pleasure driving. He has never had a ticket, been involved in any kind of accident, nor has he ever scratched a fender.

Despite his excellent record he may be forced to give up his car. Why? Because his insurance premiums are \$500 a year! Almost every cent Ray made has gone for insurance.

And listen to this. When my husband tried to get cheaper insurance with another company, he received a letter stating, "We will not insure any male sports car driver under the age of 30!"

Is this fair? Please say something in your column that may help responsible teenagers to get a break on auto insurance.

DEAR MOTHER: I agree, it's too bad that responsible teenagers should be penalized for the carelessness of other drivers in their age group. Unfortunately, statistics show that teenagers (especially boys) are poor risks. I am sure the insurance companies are aware of this.

They could consider giving a break to students with better grades, because they are usually more mature behind the wheel. I would like to hear from insurance companies about this problem so I can pass the facts on to my readers.

Sweepstakes Are Popular

By PHIL THOMAS
AP Business Writer

NEW YORK (AP) — Almost everybody likes something for nothing, and a few people are getting it from games that they don't really play but only enter.

All they usually have to do to have a chance at winning such prizes as sports cars, original oil paintings, milk coats, trips to Europe, color television sets or cash is sign their name and address and mail in a numbered card or entry blank.

NO MORE
No more writing in 25 words or less why this product is better than that one, or trying to match two halves of something and hoping it makes one. The numbered card or the blank does the work.

These promotions are known as "sweepstakes" in the industry.

Jerry Poncher, board chairman of J&H International Corp., one of the firms that think up the games, says the sweepstakes promotions are modern versions of the 25-word contest.

"The old-style contests have just lost their punch," he says. "People don't have time to sit down and scribble 25 words or less about a product."

There are two basic types of sweepstakes.

The first usually requires a visit to the marketplace, such as a supermarket, drugstore, or restaurant to get an entry card or to check whether an entry card received by other means is a winner. The card is then mailed to the promotion sponsor or his agent.

SECOND TYPE

The second type is handled by sending numbered cards through the mail or by inserting them in magazines. These numbered cards carry appeals to buy or subscribe to a variety of products, but all also emphasize there is no obligation to buy.

Why the spurt in sweepstakes promotions on which many firms spend millions annually? "The giant companies are just beginning to jump on a successful promotion bandwagon," says Poncher. "The smaller, more aggressive companies have used the sweepstakes promotion to make inroads in markets controlled by bigger companies. In order to meet this competition, the larger companies have turned to the sweepstakes promotion as well."

Do those who buy something

have a better chance of winning than those who don't?

"No," says Richard Kane, executive vice president of Marden-Kane, Inc., which specializes in promotions. "Your odds are just as good whether you buy or not. That's because the winning numbers have been preselected."

COMPUTER

A computer picks as many winners as the company wants to give prizes. These numbers then are placed under lock and key and the promotion mailing is made.

At the end of the contest period, the entries are hand-matched against the winning numbers. The winners are checked to make sure they are not ineligible because they are relatives or associates of employees of the firm sponsoring the sweepstakes. When this is done, the remaining winners are notified by mail and their prize is delivered.

Secretary Eyes Governor Race

AUSTIN (AP) — Secretary of State John Hill says that if his support "continues to crystallize" he will run for governor next year.

This includes "money, votes, promises of work, encouragement, everything one analyzes to determine whether he can properly present his case to the public."

Hill said his political philosophy is close to that of Gov. John Connally, who appointed him to his present office in March, 1966, and who opened the door to a free for all governor's race by declining to run for reelection.

"I generally subscribe to the progressive approach he has taken to the problems of this state," Hill said. He said he has not asked Connally to support him.
