LUBBOCK MURDER

Two Youths Arrested Here

Two 19-year-old men were arrested Wednesday at 10:30 p.m. by Big Spring police and are being held for investigation.

The youths fit the description of suspects wanted by the Lubbock police department for questioning concerning the murder there Monday night. Police report they made pictures of the boys and sent them to Lubbock to be used in the investigation.

Lubbock police are checking leads, but admit they have little new information on the death of Mrs. Richard O. Morgan, whose body was found Monday at 8:15 p.m. by two co-workers. Her throat had been cut with a scalpel and police said the killer had apparently attempted to decapitate her with a bone saw.

The police stated Mrs. Morgan also had suffered a blow on the head. The scalpel and saw, broken in three pieces, were found near the body in a building on the Texas Tech campus.

Digs Up Body

HOUSTON (AP) — "I believe that God above picked you out from all the rest, because He knew I loved you best."

Police quoted David Pierce Everett, an unemployed hotel bellboy, as saying he had written these words to Nancy Elaine Novotny, 23, shortly before he shot her to death and buried her body in a shallow grave at a trash dump.

While police and newsmen watched Wednesday, Everett, 21, dug up the body which was in a sleeping bag. He knelt and dug to the body with his hands.

He cried as he carried the body to a waiting ambulance.

Everett was charged with murder in justice of the peace court Wednesday night.

Everett was arrested Tuesday night and officers quoted him as saying he would lead them to the grave if he could dig up the body. Police agreed.

Fiery Protest

Demonstrators at the California State College at Los Angeles burn a department store mannequin in effigy, which they said was covered with napalm, in a protest against campus recruiting by Dow Chemical Co.

Infiltration Routes Reported Hit

EGLIN AIR FORCE BASE, Fla. (AP)—Military sources report U.S. planes now are bombing Communist infiltration routes into Thailand from Laos, but the U.S. Embassy in Thailand categorically denies it.

An embassy spokesman also directly denied a report from the military sources that some American planes have been shot down over Thailand, and said the embassy knew nothing of any Communist anti-aircraft guns or missiles in the country.

CONTRADICTION
In contradicting reports, the spokesman said no U.S. armed forces of any kind are carrying out bombing missions on Thai soil, and added: "No U.S. planes have been lost to hostile fire from within Thailand."

The military sources were equally firm.

These same sources say: —The Communists have sought to counter the raids by positioning anti-aircraft guns and surface-to-air missiles in the extreme northeastern corner of Thailand.

—Some American planes have been shot down over Thailand although there has been no official statement on the losses.

These disclosures, made Wednesday by officers here, appear to indicate a worsening insurgency situation for the Thais, confronted more and more with Communist penetration of their borders.

The problem has required some American actions similar to early U.S. efforts in South Vietnam, officers said.

He declined to be specific but said the actions involve U.S. air commandos in Thailand.

Eglin AFB is a major Air Force Tactical Command facility where air commandos—Air Force counterparts to the Army's Green Berets special

forces—are trained. Earlier last year the Pentagon acknowledged U.S.—flown helicopters were being used to ferry Thai troops into the northeast section for counterinsurgency operations.

U.S. Expected To Seek U.N. Meeting On Vietnam

UNITED NATIONS, N.Y. (AP)—The United States is expected to call for a meeting of the U.N. Security Council soon to launch new attempts toward a negotiated settlement of the Vietnam war, informed sources said today.

Prof Predicts Invasion Of North Vietnam Soon

COLLEGE STATION (AP)—A former assistant secretary of state for Far East affairs, Dr. Roger Hilsman, predicts an invasion of North Vietnam in the next few months.

Hilsman, who now is a government professor at Columbia University, volunteered this forecast Wednesday in a speech at Texas A&M University. He keynoted the school's 13th student conference on national affairs.

The speaker likewise said bombing by U.S. airmen will not cause North Vietnam to stop fighting but a cessation of such raids would create a climate enabling this country to re-

But the Pentagon said then that U.S. pilots were under strict orders to avoid involvement in combat and would be replaced as soon as enough Thai chopper pilots had been trained.

The United States has under-

taken a major buildup in Thailand the last few years with total American strength now exceeding 35,000 men, including some 1,000 air commandos. The commandos help train Thais in counterinsurgency operations.

come back from Washington with some further information on the timing of the council session.

Goldberg spent Wednesday in Washington for a Cabinet meeting, and it was generally believed that he discussed the Senate resolution adopted last week asking President Johnson to put the war before the United Nations.

There was speculation that further U.S. action may have been delayed by differences which have arisen with Saigon over participation of the Communist Viet Cong in any council debate on Vietnam.

Transplant Patient Leaves Sterile Room

NEW YORK (AP)—Four grim men pushed their way into the small, crowded auditorium in the basement of Malmonides Hospital in Brooklyn. They had been up all night.

"I think, first of all, I'm sorry to have to report to you that we have had news, not good news."

The speaker, Dr. Adrian Kantrowitz, 49, disclosed Wednesday that his 22-man medical team had failed in the second attempt in four days to transplant a human heart. The transplant of the healthy heart of a dead two-day old boy into the breast of a 2½-week-old boy was completed but the child died 6½ hours later.

"Really, it was quite unexpected," Dr. Kantrowitz said. The boy was doing "reasonably well," he said, but then the heart "stopped suddenly."

"We do not know at this time why this transplanted heart failed," he said.

Dr. Kantrowitz described the attempt as "unequivocally, a failure" but said he and his team are planning to try such transplants again.

legislators in special Harris County elections Tuesday was a disappointment.

Connally Doubtful Of Sales Tax Hike

AUSTIN (AP) — Gov. John Connally says he doubts a sales tax increase will be necessary in 1968. And he repeated that he does not expect to be appointed secretary of defense.

The governor was hoarse, coughing and complaining of tiredness from his four-day trip to France, where he promoted San Antonio's HemisFair '68.

Connally returned home to find that several capitol reporters had chided him in columns for saying at a news conference last Wednesday he would not speculate on whether he would take the defense secretary's post but then telling Washington reporters several hours later such an offer would be "hard to turn down."

"I'm going to tell you the best I know at the time," he said at a news conference, defending himself against the "credibility gap" charges leveled in several columns.

As for the possibility he might become secretary of defense, he

said "I don't think he is about to offer me that job—I hope he doesn't. You know I don't want it—I've served my time up there. I intend to serve out my term."

NO NEED
The governor said he does not think "we are going to need the amount of money a sales tax increase would generate" although he would not "foreclose any possibility on a tax bill."

Widespread approval of a one-cent city sales tax by several dozen cities will not affect his tax program, he said. A penny hike in the two-cent state sales tax would raise \$140 million a year, Connally said, and "I don't think we are going to need that kind of money."

While he has not ruled out any month for the special session to appropriate funds and balance the budget with new taxes, he said "it is highly unlikely I'd call one in January."

On other matters, Connally said: —Election of two Republican

legislators in special Harris County elections Tuesday was a disappointment.

Barrage Hits Marine Post

SAIGON (AP) — North Vietnamese gunners hit the U.S. Marine forward post at Con Thien Wednesday with the heaviest artillery barrage in more than two months and probed a nearby Marine position with a ground attack.

In the same area just below the demilitarized zone, a Marine fighter-bomber supporting the ground troops accidentally dropped a bomb on the perimeter of American positions and added to the U.S. casualties.

The barrage of 276 rounds of artillery and mortar fire and the ground probe by an estimated company of North Vietnamese killed seven Marines and wounded 77, the U.S. Command said. The accidental bombing killed another five Leathernecks.

The Marines reported killing three North Vietnamese.

Headquarters said the artillery barrage included 60, 82 and big 120mm mortar and 85mm artillery rounds.

Patient Leaves Sterile Room

Doctors said there has been no sign so far of "immunological rejection" of the heart transplanted Sunday from a 25-year-old woman killed in an auto crash, but they kept a minute by minute watch on the patient.

Dr. Christian Barnard, who headed the team that operated, told newsmen Wednesday he believes Washkansky's body will continue to accept the new heart.

Washkansky's own heart had been expected to quit this week. But Dr. Barnard said the patient may go home in three weeks if he keeps up his steady improvement. He said Washkansky would be better off at home because "hospitals are where germs are found, and the chance of infection would consequently be greater."

APPETITE
Washkansky's appetite was "not so good" today, a hospital spokesman said. He breakfasted on two boiled eggs after eating minced chicken and mashed potato Wednesday.

were distributed.

Mrs. Sarah Alice Morgan, 54, her throat slashed and her neck almost severed by her attacker late Monday, was to be buried later today in the City of Lubbock Cemetery.

Heavy Fog Blamed For Two Killed

SAN ANTONIO (AP) — A freight train rumbling through thick fog early today slammed into a car, killing a woman and her young daughter.

They were Mrs. Florence Green, 39, and Valeria Green, 4.

Police said Mrs. Green was driving home after having taken her husband, an Army lieutenant colonel, to work at Ft. Sam Houston.

Alvin Blascoe of Smithville, the engineer, said he did not see the car.

MORE FRIENDS HELP FUND

More friends responded today to the appeal of the CHRISTMAS CHEER FUND, but more help is needed if the program provides some holiday happiness for the poorer youngsters of the community.

Every cent of this fund goes to provide parts for repair of toys—done free by city firemen—to be distributed to the needy children. It also makes available food and medicine for children who are ill and hungry.

If you want to join in this goodwill program, make your check to CHRISTMAS CHEER FUND and forward to The Herald for acknowledgment. Any amount will be gratefully received.

RADIATION

Dangerous TV

WASHINGTON (AP)—The Electronics Industries Association has been asked by the U.S. Public Health Service to take part in a nationwide check for possible excessive radiation from TV sets.

The health service said Wednesday an extensive survey of TV sets in Pinellas County, Fla., indicates radiation danger found in some General Electric Co. color television sets may be an industrywide problem.

Excessive radiation from some big screen GE color sets was discovered last July. Since then, the health service said, 112,000 potentially dangerous receivers have been located and corrected. About 9,000 receivers have not been found.

WT Court Bill OK'd

WASHINGTON (AP)—A compromise bill establishing a new division of federal court in West Texas was approved Wednesday by the Senate Judiciary Committee.

The compromise provides that the U.S. District Court will be located in Midland but sessions could be held at Odessa at the discretion of the judge, if court facilities are available at no cost to the government.

BREAKS TRADITION TO GIVE PRESS RARE PEEK

LBJ Makes New Anti-Inflation Plea

WASHINGTON (AP) — President Johnson continues to mix the tried and true with the totally unexpected—like making another anti-inflation pitch to business leaders after breaking tradition to give the press a rare peek at a Cabinet meeting.

The President's orthodox economic sentiments were delivered at an off-the-record dinner meeting of the prestigious Business Council, composed of about 100 leaders of the biggest industrial and financial corporations. His text was made public later.

Second-hand efforts to promote a healthy balance of payments and some attack on the dollar by speculators. Johnson said the speculative attack has been "decisively repelled" but added "we cannot rest on this victory."

Johnson gave the public a second-hand look at a formal Cabinet meeting earlier Wednesday by admitting three reporters and permitting them to take complete notes and report their findings. The reporters weren't shooed out until Director Richard Helms of the Central Intelligence Agency began briefing the Cabinet on latest national security developments.

In his speech to the Business Council, Johnson coupled his anti-inflation plea with a new attack on trade protectionists, a call for expanded exports, an appeal for voluntary business

LETTER TO EDITOR

Gives Background To Show Airport Needs

I would like to help clear up some misinformation that seems to have arisen concerning the airport development issues to be voted on December 18. I want to give the voters of our county the facts and reasons for asking such an election.

In March of 1966, the Federal Aviation Agency sent representatives to Big Spring to inspect the Howard County Airport to determine if it was of adequate size — length and width of runways, proper lighting and marking and other items necessary to the physical layout of an airport adequate for more advanced commercial aircraft. The report on the airport was that it was "marginal" and not adequate in length and width of runways for a fully loaded plane; and that under certain conditions, particularly if there existed a cross-wind, a "fly-over" or failure to stop would be necessary.

Your Chamber of Commerce aviation committee upon learning of this report immediately requested a hearing with the Federal Aviation Agency regional office in Albuquerque, N.M., to determine what steps to take to correct this condition. The recommendation was that corrections should be made, and after several firms were contacted, the firm of Freese, Nichols and Endress was employed as consulting engineers to engage in planning, engineering and compilation of costs for the improvements.

These plans and specifications were presented to the FAA for its approval for operational and safety standards. They did, to the extent that the FAA has authorized a first grant of nearly \$200,000 to help finance the first of a series of improvements. It has accepted application for a second grant of some \$240,000.

The Chamber of Commerce Aviation committee was selected from successful businessmen; some who have had experience in administration and management of airports, men who are interested in the community and future development of our county and city, who give their time and have contributed their time and money for many trips to the FAA regional office and to Austin in this endeavor.

In as much as the operation of the Howard County Airport is under the supervision of the Commissioners Court, the aviation committee discussed with the county judge the possibilities of obtaining the necessary additional funds for the required improvements of the airport. It was pointed out that the county tax rate is at its maximum and that in order to create enough tax revenue to make the necessary improvements, the valuations on the property would have to be increased, and that the state would receive a considerable amount of the increased tax revenue. At the present time the county tax rate is \$1.07 per hundred based on 20 per cent of the valuation of the property, and the state receives 45 cents per hundred based on the county valuation, hence, if valuations were increased it would mean that it would require at least a 47 cents per hundred increase in taxes of which the county would receive about 18 cents, which is

the amount of increase that would be required to finance a \$750,000 bond issue. The present tax rate for the Howard County Junior College is 60 cents per hundred also based on the county valuation.

The next step was to obtain legislative approval of a special bill which permits Howard County voters to decide in an election on the creation of a new agency, known as the Howard County Airport Authority. This authority, if approved Dec. 18, will be administered by a board of seven individuals — three to be appointed by the County Commissioners Court, three by the Big Spring City Commission, and one by the District Judge — to serve without pay, just as do our school and college trustees.

The proposition is to create the authority with a maximum taxing rate of 25 cents per \$100 on the county valuation. The Airport Authority would assume ownership and operation of the airport, taking over assets and liabilities, including the assumption of the county's outstanding bond debt on the airport — now \$400,000.

The authority method is obviously the most economical method the people of the county could take.

If the voters approve the authority, tax payers will save approximately 25 to 27 cents per hundred due to the fact that the difference between 18 to 20 cents based on the present 20 per cent valuation and or 47 to 50 cents they would be required to pay if the valuation was increased proportionately with a sizable portion of the increase going to the state.

It has been said that you don't need an airport — that you can drive to Midland-Odessa and get better service. Well, you could do all your shopping over there also, and seek all manner of services in the neighbor cities. What would this do to the Big Spring economy? It would mean a decline, a loss of business and a loss of jobs.

If we want industry — and everybody does — we must make available transportation facilities. More and more people, freight, express and mail move by air. It has been forecast that transportation will be done exclusively by air in the next few decades, and industry will be located only where adequate air transportation is available.

I feel that if we are to keep air service at all, we must improve our airport. With improvements, I believe we can expect continued regular service with more modern planes.

I am going to vote FOR the airport issues. They are completely vital to the way this area is going to face the future — whether in an attitude of progress, or an attitude of decline.

LEE O. ROGERS, DDS
P.S.—and for progress, I am for the city penny tax, too.

Miseries Of Cities Spin Around Funds

Editor's Note: The most pressing problem of the cities today, says one mayor, is money. With it, many other problems could be eased or would disappear. The viewpoint from a typical Texas city by its mayor, Dewitt McKinley.

FORT WORTH (AP)—In this day of metropolitan miseries, cities face few problems as critical as the eternal skirmish for the tax dollar, says Mayor Dewitt McKinley.

"We have cities at the bottom of the totem pole in the great competition for the tax dollar in a great inflationary period," he said.

"First Uncle Sam has the privilege of reaching in and taking all the tax money the national economy can stand through payroll and corporate taxes and other federal levies.

BAD SITUATION

"Then come the state taxes and actually the school and water districts have the preference over city taxes. And so we are in a bad situation insofar as being able to do all the increased services that this fast changing urbanization calls for the city tax to do."

Such were the comments from McKinley, interviewed about cities' problems and goals and the demands on modern mayors.

Race, housing, traffic, pollution, taxes, crime, water all pose problems which cities around the country are coming to grips

with, some successfully, others less so.

"There's a lot of publicity about water and air pollution nationwide," said McKinley. "But mostly these are areawide problems and should be worked out on an area basis."

'SKYRISE' GHETTOS

This city has been free of racial violence, its traffic and crime problems are not yet critical. But, said McKinley, "We do have a housing shortage."

He attributed this essentially to "100 per cent employment" and the fact that "We're importing people in here."

Federally financed "skyrise" apartments with "rent subsidies in one form or another" are not the answer to housing problems here or anywhere, he said.

"This will create far greater ghettos than we've ever seen. If it will be possible to police these high skyrise ghettos at all, it will be more expensive than any policing we've ever done in other areas."

He added, "So we have to do a lot of thinking and planning before we move these people out of what we call ghettos now and into other ghettos."

PORK BARREL

"My one solution to that is that we ask the federal government for a small percentage of the income tax monies be reverted to local government with no strings attached."

"That way we are not dependent upon pork barrel-type legislation to grant monies to different towns and areas according to politics."

To cope with such problems, McKinley said, the modern mayor needs "experience and a level head," plus the ability to communicate with one and all.

"With the conditions we have to work under now—riots and that sort of thing, loud voices from minorities—a mayor must be a man with experience who

can deal with people from all walks of life," he said.

MORE POWERFUL

The mayor's office is more powerful here today than before, he said, not necessarily because of the tasks he performs, but because the mayor is elected by the people. Until 1964, the City Council selected the mayor.

McKinley scored a stunning upset last spring in defeating the incumbent mayor, Willard Barr, who was endorsed by the city's recognized power structure.

"This is not a victory for me," he said at the time. "It is a victory for a cross-section of the people of Fort Worth."

In a subsequent interview, he said the mayor's role is "more definitely a job for the people than I realized. I feel the importance of it."

Among his foremost goals, he said, is to achieve a stable economy for the city by attracting "diversified industry." A by-product would be a reduced tax load on homeowners.

'SOLID SIX'

"I think it is my responsibility to look at these things," he said. McKinley's tenure has been a stormy one, due in part to a majority of councilmen, called the "solid six," who oppose him frequently.

McKinley also had been criticized for his role in Dallas-Fort Worth negotiations to build a regional airport to serve North Texas.

Some council members have accused him of attempting to muscle his way onto the airport board. McKinley has denied this but has said of the airport project, "We can't afford to make any mistakes in planning."

'Our Ancestors' Is Rotary Topic

STANTON (SC)—Three visitors, A. C. Faulkner and Cleve Young, both of Big Spring and Paul Coleman of Odessa were welcomed when the Stanton Rotary Club met Wednesday. The Rev. John Rankin led the group in a panel discussion on, "Our Ancestors of Rotary Club." Plans were made to stage "Ladies Night" Dec. 18, when a dinner will be served.

Fifth Highway Patrol Officer Assigned Here

Howard County's newest addition to its highway patrol force is a former drill sergeant in the U.S. Marines and in his younger days, played football at Ector High School in Odessa and at Texas Western University.

WILLIAM E. ROBINSON

He is William E. Robinson, recent graduate of the Department of Public Safety Academy, and currently riding as a partner with Jimmy Parks, long time patrolman in this area.

When he has served a six-months apprenticeship with an experienced patrolman, Robinson will become eligible for his own patrol car.

Robinson, whose parents are Mr. and Mrs. C. P. Robinson of Odessa, where his father is a justice of the peace, is intimately familiar with this part of Texas. He is happy, he says, to have been assigned to a county he knows so well.

When he was mustered out of the Marines — he was staff sergeant at the time — he came back to Texas and enrolled in the DPS Academy.

He and his wife, Linda, and their two children, Darcel, 3, and Bradley, nearly eight months, live at 1908 Morrison. Mrs. Robinson is a former Long Beach, Calif., girl and is a secretary by profession.

Robinson is spending a lot of time getting acquainted with his young son, Brad.

"He's not quite eight months old," said Robinson, "and I was in the academy for four months of his lifetime. So I haven't had too much chance to get acquainted with him."

The Robinsons have been married four years.

Robinson is the second recent graduate of the DPS Academy to be assigned here. Kenneth Maxwell is the other patrolman. With these two men, the current strength of the DPS here is four patrolmen, and one safety officer.

Jack White, a long time patrolman, recently transferred from that service to safety officer.

Arvin Henry and Parks are the other veteran patrolmen here. Increase in the patrol strength in Howard County to

Walking Boosters Urged For Issues

Eighty-five people from various walks of life packed the Community Room of the First Federal Savings and Loan Association Wednesday to hear explanations of the proposed city sales tax and county airport authority issues and were urged to be walking boosters for these.

"A Penny for Progress" will help break bottlenecks and avoid a probable city ad valorem tax hike, several speakers—including Mayor Arnold Marshall and Commissioner Walter Stroup—explained at the meeting.

The airport authority, and its correlative bond issue to assume presently outstanding county airport bonds and to issue others to finance the local share of improvements, was termed by Dr. Milton Talbot, an investment in community future.

Those attending were urged to ask questions to get a clear picture in order to be able to enlist others to back and vote for these issues.

It is not so much a question of whether, but how, more revenue will be raised to meet rising city costs, speakers said. While there is no connection between the sales tax and the airport authority proposals, Commissioner George Zachariah said that urban property owners can support the latter and still come out with a property tax credit if the sales tax passes.

Here are some of the highlights of explanations at the meeting.

CITY SALES TAX
Big Spring has not voted capital (permanent improvement) funds since the Master Plan of five years ago, said Mayor Marshall. Half of the sales tax revenues will be applied to capital outlay. Commissioner Stroup said this would mean double value, because interest (which in long term bond issues almost equals the principal amount) would be avoided. About one-fourth of the total would go to replace funds when the property tax is cut 10 cents. The remaining fourth would go to meet rising operation costs, better wages and benefits, expanding services (such as a child welfare worker).

The tax excludes the same items as now are exempt under the state tax, and the state will handle the collection for a minor fee, Stroup explained. The Big Spring Independent School District and Howard County Junior College are wholly dependent upon ad valorem taxes for local support, he pointed out, and a cut in the city property rate will have the effect of relieving property tax pressures in favor of the schools and college.

"We can expect some ad valorem tax increase within the next two or three years if we do not get the sales tax revenue," said Mayor Marshall. With it, he could see no cause for an ad valorem increase within five or 10 years, or "the foreseeable future."

AIRPORT AUTHORITY

The Federal Aviation Authority has upgraded requirements for runways and facilities, especially for handling commercial aircraft, said Dr. Milton Talbot. The north-south runway urgently needs to be lengthened from 5,200 to 6,500 feet and made about twice as wide. The east-west runway must be widened and lengthened, otherwise FAA will continue to authorize over-flights for Trans-Texas Airways and any other commercial carrier when weather and load factors make landings marginally safe.

Approval of the authority will permit a separate tax levy without raising the percentage of valuation levy by the county (which would also raise the valuation assessment for state ad valorem and HCJC, and some other school taxes). He estimated a 16-cent rate will bring in enough to assume the \$400,000 outstanding county bonds and pay the local share which would match some \$45,532 in federal funds for port improvements over the next several years.

Improvements are not proposed for benefit of private fliers, he said, but rather to try and hold (and improve) commercial passenger schedules, express, mail and air freight movements; also facilitate the landing of corporate and industrial planes which are increasing rapidly in importance and number.

While the airport does bring in some revenues, "What it can bring to the community is its future, rather than direct revenue," said Dr. Talbot. It is just as logical to go to another city to buy shoes and clothes, get medical or other services as it is to advocate going to these cities for air service, he pointed out.

Congress Adjournment May Come Next Week

WASHINGTON (AP)—Only the possibility of last-minute disputes over antipoverty and foreign aid bills appears threatening plans to adjourn Congress by the end of next week.

A controversial meat inspection measure cleared both houses Wednesday and leaders expect action before adjournment on such major bills as Social Security benefit increases, hikes in postal rates and federal pay, and perhaps elementary and secondary education.

Left behind until next year in the drive for adjournment will be such bills as interest disclosure, higher education, crime prevention, civil rights and President Johnson's proposed 10 per cent income tax surcharge.

In a move related to the tax proposal, Senate-House conferees finally agreed late Wednesday on a proposal aimed at cutting planned federal spending by some \$4.1 billion this year. The spending cut is attached to a normally routine measure to keep agencies going which have not received their annual appropriations.

Rep. Frank T. Bow, R-Ohio, said he will try to increase the spending cut to \$5.7 billion. Expected approval of the measure next week will mean an end to the threat of payless paydays for government workers in the Peace Corps, Agency for International Development and Office of Economic Opportunity.

Goldberg Is Reported Ready To Quit UN Post

WASHINGTON (AP) — Ambassador Arthur J. Goldberg is considering resigning soon from his post as top U.S. representative at the United Nations. Goldberg has discussed his resignation with President Johnson and it is understood that Johnson is agreeable to his desires. But Goldberg has not submitted his resignation formally, according to information available here, and no time has been set by him and the President for him to leave his post. Goldberg spent Wednesday in Washington, attending a Cabinet meeting and conferring with administration officials.

TALKS TO LBJ
Afterward it was learned he had talked with the President on several occasions, going back some time, about ending his career at the U.N. Goldberg, 55, has been Johnson's ambassador to the world organization since July, 1965. He has told friends he does not consider himself a career public official and is understood to have been interested in returning to the private practice of law, probably in New York. However, there has also been speculation he might be returned to the Supreme Court by the President when a vacancy develops there. Goldberg left

the high court at the President's request to take the U.N. assignment following the death of Ambassador Adlai E. Stevenson. He earlier served in the Cabinet of President John F. Kennedy as labor secretary, bringing to that job years of experience as a lawyer and negotiator in the labor field. LABELED 'DOVE' Goldberg is known in government circles and at the U.N. as a "dove" on issues arising out of the Vietnam war and there have been reports from time to time he was dissatisfied with administration handling of war policy problems. On several occasions Goldberg has been the spokesman for U.S. statements defining Vietnam war and peace aims and calling on North Vietnam to negotiate. Recently, in congressional testimony, he announced the United States is prepared to have representatives of the National Liberation Front, political arm of the Viet Cong in South Vietnam, invited to attend U.N. Security Council discussions of peace-making problems.

Opening lead: Six of ♠
When his partner passed, South abandoned hopes for a slam and chose to overcall directly with four hearts after East opened the bidding with one spade. If the opposition elected to persist in spades, he was prepared to deal with them. West opened the six of spades, the ten was played from dummy and East followed with the deuce. It was not safe to lead a second spade thru East with trumps outstanding, so South proceeded to cash his three high

hearts. When the jack remained outstanding, West was given his trump trick. West shifted to the ten of diamonds and North played the ace. The jack of spades was led and covered by East's queen and declarer's king. South was unable to gain access to the dummy to take another finesse against the nine of spades, and he ended up one trick short on the deal. East made a fine play in ducking the first round of spades; however, declarer had it in his power to assure his contract against any defense. All he has to do is to play the seven of spades from the dummy instead of the ten. If East covers the seven with the nine, South wins the trick with the king. Trumps are drawn in four rounds and the ace of diamonds provides reentry to the dummy subsequently to repeat the spade finesse against East's queen. If East permits the seven of spades to win the first trick, the final outcome will be the same. The key to victory for South is to take the deep finesse against the nine of spades initially. The queen can be picked up just as conveniently later in the play.

Youths Enter County Stock

Twelve Howard County Herefords will be entered by 4-H Club members in the Odessa Fat Stock Show which opens on Jan. 1. James Shelton, assistant county agent, said that youngsters entering stock in the Ecot County event are Robert O'Daniel, Max Barr, Marly Brooks, Robert Haney, Linda Foster, Mark Barr, Toby Soetiching and Terry Soetiching, one steer each. Mike McClain and Dolores Lanford will enter two steers in the show. The Odessa show is the kickoff for a crowded stock show season for Howard County 4-H Club members. The Odessa show runs Jan. 1-5. The next events for the local exhibitors will be the Fort Worth Fat Stock show, Jan. 25-Feb. 2; El Paso show, Feb. 3-9; San Antonio show, Feb. 8-18; Houston show, Feb. 26-March 3; San Angelo show, March 6-10, and Howard County Fat Stock show, March 13-15.

Health Hints

Series No. 6

This man didn't believe in chiropractic when his wife came and got a lower back condition corrected by having a slipped disc replaced. However when he developed a bursitis of the arm and the pain continued in spite of all treatment, he came for a spinal examination. The nerve pressures in the spine which manifested themselves in his arm and shoulder were located and treatment rapidly reduced the discomfort and within a short time was cleared of all spinal disorder which in turn restored his arm to full working capacity without pain or disability. No. 3493 It is more than likely that your spine is affected when you are uncomfortable because of pain or aching therefore the spine should be examined to find the offending nerve pressure. HC Rated Back In Pack

Howard County Junior College has been placed in the saltier bracket of the Odessa College Basketball tournament...

In first round games in the lower bracket, Odessa has it out with Cisco at 7 p.m. while New Mexico JC squares off with St. Phillips of San Antonio at 9 p.m.

Wanglers and Amarillo College have the best records. Amarillo has defeated two opponents in Dodge City, Kan., 83-63 and Cameron State, Okla., 67-58.

The Wranglers have the best offensive average with a 90-point average but Amarillo has the best defensive record, holding the two teams to a 60.5 average.

Cooper, Reagan Favored To Reach Grid Finals

By HAROLD V. RATLIFF Associated Press Sports Writer

Autumn's Legions dwindle to eight teams this week as Texas schoolboy football decides its finalists in an upsetting campaign.

Ablene Cooper and Austin Reagan in Class AAAA, Brownwood and Seguin in Class AAA, Plano and San Antonio Randolph in Class AA and Seagraves and Tidehaven in Class A seem to be the logical favorites to reach the big showdowns.

But there has been more of the illogical in the sizing drive down the stretch. The defensive greatness of Richardson and McKinney, the offensive might of Kountze and the close-to-the-vest efforts of little Clifton may give the finals a much different picture than now being painted.

Cooper seems to be an overwhelming favorite to clip Richardson, a two-time loser, in the Cotton Bowl Saturday afternoon.

Richardson has just finished felling two undefeated, untied teams in a row and even mighty Cooper, a 12-game, 443-point machine, holds no terrors for the doctory Eagles.

Reagan puts its undefeated, untied teams as El Campo clashes with Seguin at Victoria Friday night. However, the big game is considered to be Brownwood vs. McKinney at Fort Worth Saturday afternoon because Brownwood is the championship favorite.

McKinney is undefeated but has been tied while Brownwood has lost one and tied one, but when Brownwood whipped Dumas 17-15 last week it established the Lions as the team to beat.

Plano, a former champion, runs into Phillips, which also won Class AA, at Vernon Saturday night. From this game will come the state championship favorite.

The other Class AA semifinal sends high-scoring Kountze against unbeaten, once-tied San Antonio Randolph at College Station Saturday night.

Kountze has rolled up 448 points although losing one game and tying one. Randolph, however, is only nine points behind and has a much better defensive record, giving up 37 points to 149 for Kountze.

Seagraves and Clifton clash at San Angelo and Rogers meets Tidehaven at Brenham, both games Friday night, in semifinals of Class A. Seagraves and Tidehaven are the only undefeated, untied teams.

Seagraves has been the favorite ever since the season opened and has given no indication down the line that it shouldn't still hold that spot.

Twelve out of 16 last week produced the best average of the playoffs. Here's how they look this week:

Class AAAA—Saturday, Abilene Cooper over Richardson, Austin Reagan over Houston Bellaire.

Class AAA—Friday night, Seguin over El Campo; Saturday, Brownwood over McKinney.

Class AA—Saturday night, Plano over Phillips, San Antonio Randolph over Kountze.

Class A—Friday night, Seagraves over Clifton, Tidehaven over Rogers.

Chuck Fairbanks, coach of the very successful University of Oklahoma football team, will take time off from tutoring his Sooners for their Orange Bowl date to visit Odessa Dec. 11 for the annual Odessa Permian football banquet.

Fairbanks is a candidate for Coach of the Year honors but the laurel wreath will be placed upon the brow of Indiana's John Pont.

Jimmy Ellis, who is on the verge of winning the world's heavyweight boxing championship, is far more successful as a campaigner among the super-dreadnoughts than he was as a middleweight.

As a 160-pounder, he lost five fights (four of them on split decisions).

Texas high school football got front page exposure in last Friday's edition of the Wall Street Journal. The article lent special emphasis to the impact made on the autumnal mad-dness this fall by the Abilene Cooper Cougars. That impact, of course, has been considerable.

The article mentioned the one-time hotbed of schoolboy football, Breckenridge, without identifying it. What it said complimented the zeal of the Breckenridge recruiters but not necessarily their sense of values. In part, it read:

"This zeal sometimes breeds trouble. Towns often try to recruit other town's top high school players. Until recently, one West Texas town annually dispatched scouts—usually oilmen—to search out star grade-school and junior high school players in neighboring communities. The scouts then offered jobs to parents of the young aces. Such recruiting violates academic rules, but 'we could never catch them' at it," says a state official.

The Texas Interscholastic League obviously never tried very hard to catch Breckenridge or any other school in such a breach of football-etiquette. Many years ago, Breckenridge scouts plundered players from another community to such an extent that the pillaged school had to stop fielding football teams.

Big Spring lost one of its players earlier this year to an oil-rich school which decided it was in a position to improve the economic station of the family. The Interscholastic League couldn't have been less interested.

Thespian Anthony Perkins reportedly is negotiating for the purchase of a large share of stock in the New York Jets of the AFL.

Owner Sonny Werblin will make part of his stock available to Perkins, the story goes.

LOOKING 'EM OVER

With Tommy Hart

More and more, basketball has progressed to the point where muscle as much as any one thing wins games.

Robert Jackson didn't have a deft scoring touch for Big Spring last year but he was big and strong under the basket and the opposition found him hard to move out when it came to fighting for the rebounds.

Jackson's 6-3 height was deceptive. He had long arms and he was quick to get up on the boards. Largely because of Jackson and because they developed a good scoring touch from outside, the Steers sped to a record 25 victories.

The present Steers thus far haven't come up with that big man who can clog the middle, although they return a lot of experience from last season. Jerry McGuire will fill the bill in time, if he continues to improve.

Odessa High popped Big Spring in the Odessa meet last week by stopping Danny Clendenia, who was held to one basket. Some coaches thought no opponent could do that. The Longhorns have got to and will learn to switch off and use Clendenia as a decoy and strike in other ways, when that happens.

Coach Kirby Pugh reasons his Steers will give Odessa a bad time away from the friendly confines of the Bronchos' gym next time around, despite the fact that Odessa's John Wilson—at 6-7—is four inches taller than anyone the Steers can field.

Jimmy Ellis, who is on the verge of winning the world's heavyweight boxing championship, is far more successful as a campaigner among the super-dreadnoughts than he was as a middleweight.

As a 160-pounder, he lost five fights (four of them on split decisions).

Unsold Looms Big In Card Cage Plans

By The Associated Press

Westley Unseld appears headed for his greatest season in college basketball.

The 6-foot-8 All-America for the University of Louisville got the key baskets and the key rebounds in leading the Cardinals to a 57-51 victory over the Kansas Jayhawks Wednesday night.

A sellout 17,000 turned out at Lawrence, Kan., for the battle between the nationally third-ranked Cardinals and the fourth-ranked Jayhawks that headlined a busy night on the college hardwood.

Unsold threw in 20 points, the same total as his teammate Butch Beard, but it was Unseld's free throw with 6:12 left that put Louisville ahead to stay at 45-44.

"While Beard meant a lot in the stretch," said Louisville Coach John Dromo, "the guy who was the real difference was Unseld. He got the key buckets and particularly the key rebound when we needed it. I thought our zone defense was fabulous in the clutch."

Jo-Jo White's layup put Kansas within 47-46, but as Kansas Coach Ted Owens put it "Louisville had the poise and the patience to make the plays when it mattered."

Fourth-ranked North Carolina and ninth-ranked Kentucky, the other teams in The Associated Press Top Ten to see action, enjoyed home court romps.

Larry Miller's 24 points led North Carolina over Kent State, despite a 41-point performance by Kent's Doug Grayson. Kentucky overwhelmed Xavier of Ohio 111-76 behind Phil Argento's 23 points for Coach Adolph Rupp's 363rd career victory.

Rupp needs only nine to break the all-time record of 371 held by the retired Phog Allen of Kansas.

Steers Host Hobbs Five

Big Spring and Hobbs square off in an 8 o'clock basketball engagement here this evening, as the Steers (now 5-2) stage a final warmup for the Snyder tournament.

A win over Hobbs would be quite a feather in the cap of coach Kirby Pugh and the Longhorns but the job won't be easy.

The Eagles risk a few fouls to get at the basket because they can afford to lose a few hands along the way—Tasker believes in the two-platoon system.

The Eagles are coached by Ralph Tasker, who believes in attacking the enemy like the Viet Cong—in wave after wave.

The Steers host Hobbs five on Friday night at 8 o'clock. The Steers are coached by Kirby Pugh and the Longhorns but the job won't be easy.

Mustang Star AP Honoree

By The Associated Press

Most of the attention surrounding Southern Methodist's 28-14 victory over Texas Christian Saturday went to quarterback Mike Livingston, whose offensive statistics were remarkable.

But notice should not be lost of linebacker Bruce Portillo, whose defensive statistics were amazing.

Chosen Associated Press Line-man of the Week for the final weekend of the season, Portillo, a 190-pound sophomore from Irving, Tex., was all over the field, especially when TCU made as if to score.

He made nine tackles alone, assisted on 10 more, recovered a fumble to stop one TCU driver and intercepted two passes—one on the SMU 18—to terminate two more.

In the meantime, Livingston completed 26 of 41 passes for 323 yards and three long touchdowns for the upset victory.

SMU Coach Hayden Fry termed Portillo's fine game "one of many he has played this season. I think he is most deserving of this recognition."

Portillo, who made Mustang fans forget all about the good linebackers of last season he replaced, is strong on pass interception, Fry said, and is particularly good on getting away from blockers.

Bill Crutcher Of Forsan Named To All-District

Interior lineman Bill Crutcher was the only Forsan player named to the All-District 4-B football platoons chosen Wednesday night in a meeting of coaches held at Loraine.

Under the voting plan, coaches were not permitted to vote for their own players.

Gaining honorable mention on the squad were Steve Park and Johnny Dolan of the Forsan club.

Coach Oscar Boeker represented Forsan at the meeting. Bronte, recently crowned district, bi-district and regional champion, dominated the platoons, having had six players named to the offensive platoon and five selected for the defensive squad.

Players who rated the team both ways included David Corley, Bronte; Brian Richards,

Bronte; Victor Brock, Bronte; Larry Hellums, Trent; David Clatten, Bronte; and Doug McCutchen, Bronte.

Two Buffs Named To All-District

Two Stanton players, quarter-back David Jones and interior lineman Bert Decker, were near-unanimous choices for the All-District 4-AA football team chosen Wednesday night at Friendship by coaches.

Rules of the election dictated that coaches could nominate but could not vote for their own players. Coach Bryan Boyd represented Stanton at the meeting.

Jones was named to the offensive platoon while Decker was chosen on the defensive unit.

Dwayne Young of Denver City and Bill Smart, Morton, were named to both platoons. The two are guards on offense and linebackers on defense.

Jones is one of three juniors chosen on the offensive club. Four juniors were named to the defensive unit.

Champion Denver City dominated the teams, with five players on the offensive team and four athletes on the defensive platoon.

The coaches chose a 6-2-3 unit

MRS. DARYLE HOHERTZ, TRESA AND SHANA

Mountain-Side Home Offers Scenic View

By RHODA LEMONS
A panoramic view of Big Spring can be seen from the mountain-side home of Mr. and Mrs. Daryle Hohertz, No. 7 Highland Heather. One entry at the side is gained by climbing a flight of stairs on to a deck and then entering the large living area with beamed ceiling. The front entrance has handsome double doors opening into the foyer, with a flight of stairs leading up to the living area or another stairway leading to the lower floor.

The main floor of the house is upstairs from the front yet is mountain base level at the back. This area is glassed in from all sides and has a living room, dining area, kitchen and two bedrooms with two baths. Downstairs, there is one large living area which the Hohertzes have converted into a playroom for their three young daughters, and a small bedroom, bath, utility room and work room. The family has every opportunity to grow with the house. In later years, as the girls mature, the downstairs will be used as their apartment, and the upstairs bedroom will be the guest room.

From the house, the entire city can be seen from east to west. At night, with the city lights on and house draperies opened the scene is just short of spectacular.

The Hohertz daughters are Andra, 8, a second grade student at College Heights Elementary School; Tresa, 6, a kindergarten student at Farrar's; and Shana, 4. Hohertz is associated with the firm, Gary and Hohertz, Architects.

Color tones used throughout the home are gold, bronze and black, with orange and blue accessories. Walnut furnishings and oak stained walnut paneling complete the decor.

Mrs. Hohertz plans her schedules and her menus around her husband's and children's activities. She enjoys shopping, but finds it more economical to go alone. The family has breakfast together and then have dinner at 5:30 or 6 p.m. Mrs. Hohertz fixes a light lunch for herself and younger daughter.

Mrs. Hohertz is an enthusiastic wife and mother, and enjoys almost all aspects of homemaking. She tidies the home herself, but relies on domestic help once each week to assist with the heavy cleaning. She bakes cookies and cakes for her children and their friends, and confesses that her husband is a "meat and potatoes" man who does not care for casseroles.

PANTRY PICK-UPS

Cream butter with blue cheese; put a spoonful of the mixture on each giant hamburger you are serving, and run under the broiler. Serve with crisp potato sticks and salad.

Fine noodles may be cooked, seasoned with butter and sprinkled with poppy seed; fixed this way, the noodles make a fine accompaniment for veal.

Five cups of fine noodles yield about five and one-half cups after cooking.

When you are baking pastry crust for an ice-cream pie, try spicing the pastry! Use $1\frac{1}{2}$ teaspoons cinnamon, $\frac{1}{2}$ teaspoon nutmeg, $\frac{1}{4}$ teaspoon allspice and $\frac{1}{4}$ cup sugar to a package of pastry mix.

If you want those biscuits to brown all around and to rise evenly, bake them on a cookie sheet instead of in a pan with high sides.

Ever add minced green pepper, along with minced onion to that ground beef you are making into hamburgers? This combination is excellent served with hot catchup.

Glaze a slice of ham with honey and grated orange rind mixed together.

Ever add a little bottled horseradish to the liquid you use for cooking beef pot roast?

Grated orange rind and anise seed make Scandinavian rye bread something special.

If you want to give a loaf of homemade yeast bread delicious flavor, add nutmeg, sage and caraway seeds.

When a baking recipe calls for sour cream, you may use commercial buttermilk.

When you are baking a pineapple upside-down cake, you can put a maraschino cherry in the center of each pineapple ring. Pretty color and good flavor this way!

True chicken à la king has no flour in its sauce — egg yolks and cream are used for it.

If you thoroughly chill a cheese spread, you'll find you can usually roll it into balls. Then the balls may be rolled in minced nutmeats and served as an hors d'oeuvre.

RECOMMENDED RECIPES

Mrs. Daryle Hohertz

- TUNNEL OF FUDGE CAKE**
3 sticks butter or margarine
6 eggs
 $1\frac{1}{2}$ cups sugar
2 cups flour
1 pkg. butter cream double-Dutch frosting mix
2 cups chopped walnuts or pecans
Cream butter in large mixing bowl at high speed. Add eggs, one at a time, beat well after each addition. Gradually add sugar. Cream at high speed until light and fluffy. Stir in flour, frosting mix and walnuts by hand until well blended. Pour in greased bundt pan or 10-inch tube pan. Bake at 350 degrees for 60 to 65 minutes. Cool two hours before removing from pan.
- CINNAMON NUT BREAD**
2 loaves frozen yeast bread
 $\frac{1}{2}$ cup sugar mixed with cinnamon to taste
 $\frac{1}{2}$ cup to 1 cup pecans
Soften bread enough to slice. Sprinkle with cinnamon and sugar, and roll. Stack close together in bundt or tube pan, scattering pecans between layers. Dot with butter. Slightly grease pan if it is not Teflon lined. Let bread rise two to three hours until doubled in size. Bake at 375 degrees, 20 to 30 minutes.
- ICING**
 $\frac{3}{4}$ cup powdered sugar
1 to 2 tbsps. coffee
 $\frac{1}{4}$ stick butter
Melt butter in coffee and sugar. Pour over bread while hot.
- FRESH APPLE CAKE**
2 cups sugar
1-3 cups cooking oil
3 eggs
3 fresh apples, peeled and grated
3 cups flour
1 tsp. soda
1 tsp. vanilla
 $\frac{1}{4}$ tsp. salt
1 cup nuts
Mix together ingredients as listed. Put in greased and floured bundt or tube pan and bake at 350 degrees for one hour.
- ONE HOUR ROLLS**
1 cup milk
3 cakes yeast dissolved in $\frac{1}{2}$ cup water
2 heaping tbsps. shortening
1 tsp. salt
 $\frac{3}{4}$ - $\frac{1}{2}$ cup sugar
5 cups flour
- Scald milk and cool until lukewarm. Add shortening, salt, sugar, yeast and water. Stir in flour to make soft dough. Let rise to double in size (about 25 minutes). Knead on floured board. Roll the dough and cut with biscuit cutter. Put in greased pan and let rise 20-30 minutes. Cook in 400 degree oven approximately 15 minutes.
- APRICOT COCONUT BALLS**
 $1\frac{1}{2}$ cups dried apricots, ground
2 cups shredded coconut
2-3 cup condensed milk
Confectioners sugar
Mix apricots and coconut, add condensed milk and blend well. Shape into balls and roll in powdered sugar. Let stand until firm.
- PINEAPPLE - CHEESE RING**
1 No. 2 can crushed pineapple with juice
1 6-oz. pkg. lemon gelatin
1 8-oz. pkg. cream cheese, cubed
 $\frac{1}{2}$ cup nuts chopped
 $\frac{1}{2}$ pt. heavy cream, unwhipped
Heat crushed pineapple to boiling point, add gelatin. Remove from heat, stir until gelatin is dissolved. Cool until lukewarm. Add cream cheese, nuts and heavy cream (unwhipped). Refrigerate until set. This salad stays solid for hours.
- CHICKEN CRUNCH**
3 cups diced cooked chicken
 $\frac{1}{2}$ cup chicken broth
2 cans cream of chicken or mushroom soup
 $\frac{1}{4}$ cup chopped onion
1 cup diced celery
1 5-oz. can water chestnuts sliced
1-3 cup toasted almonds
Put broth and soup in casserole; add all other ingredients except almonds. Mix together. Put almonds on top and cook at 325 degrees for 40 minutes. Serve alone or over rice.
- CURRIED FRUIT**
1 No. 2 can peaches
1 No. 2 can apricots
1 No. 2 can pears
1 or 2 tps. curry
 $\frac{1}{4}$ cup brown sugar
Melt two or three pats butter in casserole dish, place drained fruit in dish and sprinkle with sugar and curry. Heat at 350 degrees approximately 20 minutes.

BUZ SAWYER

WHAT? YOU HEAR PROPELLER NOISES?

LOUD, SIR? LIKE A SUBMARINE?.. FROM THE AREA CDR. SAWYER AND RED WERE INVESTIGATING.

IT'S PICKING UP SPEED, SIR...IT'S HEADING WEST TOWARD HAVANA.

THEN IT'S GOT TO BE A SUB. THERE'S NO SURFACE SHIP IN SIGHT.

WHAT DOES THIS MEAN, CLIFF? ARE BUZ AND RED IN DANGER?

DON'T KNOW, CHRISTY, BUT I'M TAILING THAT SUB TO SEE WHERE SHE GOES.
