CANCER SOCIETY Door-To-Door Campaign Set Tonight

Volunteers of the Howard County Cancer Society will be knocking on doors tonight to ask for contributions to the cancer fund.

Heading the workers will be Mrs. Dee Jon Davis, Mrs. Ralph Caton, president of the society and crusade chairman, said that workers will be distributing educational material as well as accepting contributions.

The drive is expected to kick off about 6 p.m. and residents are asked to turn lights on for the volunteers.

At the regular board luncheon meeting Monday at the Silver Star Restaurant, Mrs. Larson Lloyd, chairman of the nominating committee, presented the slate of new officers. New president will be Dee Jon Davis; vice president, Mrs. Bob Galbraith; secretary, Mrs. Caton; treasurer, John Burgess.

Bill Whittis, Midland, area representative for the Cancer Society, reported a medical committee headed by Lt. Col. E. C. Parker will be organized soon. Burgess reported \$1,381 collected in advance gifts by R. L. Tollett, chairman, Mrs. W. N. Norred, reported on the efforts of the educational pamphlets on cancer.

The annual membership meeting will be held May 6, with Mrs. K. H. McGibbon and Mrs. Dee Rogers in charge of the program. Anyone interested in serving on the cancer board is urged to attend. Board members present included Dr. W. A. Hunt, Davis, Mrs. Norred, Burgess, Mrs. Caton, Mrs. Rogers, Whittis, Mrs. H. W. Smith, Dr. P. W. Malone and Deen Booth.

LOUD, CLEAR

Quick Answer

AUSTIN (AP)—In the wake of President Johnson's decision not to run again, a University of Texas journalism professor posed this question to his class:

"What alternatives are left to conservative Texas Democrats trying to maintain the establishment?"

"Liquor by the drink," came back the answer loud and clear.

Gold Price Eases

LONDON—The price of gold eased further today in Europe's free bullion markets and there was little buying.

The price of gold at the London morning fixing was \$37.70, down 10 cents an ounce from Monday's fixing level. The official price is \$35 an ounce.

The gold price in Paris dipped to \$37.66, down from Monday's \$38.08. The quotation was the lowest since the free market opened March 15 with the price hitting \$44.36.

Prices were unchanged at Frankfurt, down to \$37 an ounce at Zurich and eased in Hong Kong. The price level faced speculators who snatched up whatever amounts of the metal they could get in last month's gold panic, with the dilemma of selling out to cut their losses or hanging on for a longer haul.

Weapons, Pot In Mail

WASHINGTON (AP)—The Customs Bureau found live grenades, submachine guns, marijuana and switchblade knives in a test opening of all foreign mail packages at just two ports on one day.

"Absolutely amazing," said Rep. Silvio O. Conte, R-Mass., after Commissioner Lester D. Johnson told a House Appropriations subcommittee about the tests at San Francisco and New York. He didn't say when the tests were made.

Practically all of the military weapons came from the Vietnam area, Johnson said—some possibly as souvenirs. He said military authorities are moving to crack down on the situation.

His testimony was made public today. "The thing that concerns me most about this situation is the explosives and firearms that are being found," Johnson said. "This is something relatively new."

Fear Execution

TOKYO (AP)—One of the crewmen of the USS Pueblo was quoted today as saying the 82 crew members will be executed for spying if the United States fails to apologize.

The Korean Central News Agency distributed a letter it said was written by Lt. Stephen R. Harris, research officer of the ship, which pointed out that the penalty for espionage is death.

After saying "our lives have been spared because we sincerely and frankly confessed the crime," he added that the crew would not be released unless the United States confesses to espionage activities in North Korea's waters, assures the North it won't happen again and delivers an apology.

Cloudy, windy and cooler. Scattered thunder showers and locally blowing dust. High today 75; low tonight 45; high tomorrow 65.

Thieu Says Troops Can Be Relieved

SAIGON (AP)—President Nguyen Van Thieu said today his government could agree to a gradual withdrawal of U.S. troops beginning by the end of this year, but he made clear he would hate to see them go.

In his first comments on President Johnson's de-escalation speech Sunday night, Thieu told a news conference that only more troops can hasten the end of the war. He also said if the United States withdraws from Vietnam, "they will be avoiding their responsibility and deserting the free world."

END OF YEAR

But when asked by what date he thought the United States could begin to withdraw, Thieu replied: "If the United States requests a withdrawal of its troops, we can agree to a gradual withdrawal beginning by the end of 1968. Of course, we will never ask the United States to go home, but if the U.S. government wants it, we can begin to relieve some American troops with our new effort to mobilization."

Thieu recently announced the South Vietnamese armed forces would be increased by 135,000 men by the middle of the year and said general mobilization would be necessary after that.

Although an aide said earlier that Thieu had accepted President Johnson's invitation to visit the United States, Thieu said the invitation was still under consideration. He said the formal invitation had been received "only this morning," some hours after Johnson revealed it in a speech in Chicago.

SCHEDULE

A spokesman for the South Vietnamese government said earlier that the date of the visit would depend on Thieu's schedule and Vice President Nguyen Cao Ky would not accompany him.

Thieu told the news conference the South Vietnamese government had agreed to the curtailment in U.S. bombing of North Vietnam, but "this is the last time we want to show our good will."

He said if there is no satisfactory response from Hanoi his government will not delay its general mobilization order "We will do it now."

Like President Johnson in his announcement of the bombing curtailment, Thieu set no deadline for Hanoi's response. But the South Vietnamese leader said: "It is a matter of weeks, not a matter of months."

Tempo Picking Up For Youth Award Nominees

The tempo had picked up today in the Zale-Herald Youth Achievement Award program, and four more nominees—all of them with high credentials, just like other nominees—had been listed.

URGING

Sponsors again are urging the public to turn in the names of young people who have made outstanding records in their scholastic work, in leadership areas, and in volunteer activities in civic and church work. All juniors and seniors in the three Howard County high schools, Big Spring, Coahoma and Forsan, are eligible. They must be nominated on a special form (it appears in The Herald today on Page 8), but a supplemental sheet may be added to list the young person's activities.

Nominations will be received only until the first of next week. A notable public dinner program is being planned for April 19, when all nominees, their dates, their parents and other guests will be present. Here, the winner will be announced, and will receive a trophy and an engraved wrist watch from Zales. All nominees will receive special certificates and gifts.

Purpose of the award program is to recognize the boys and girls who are setting an example of good citizenship, and even those nominated receive high honor, although, unfortunately, there can be only one winner.

NAMES

Names received today included: Lorinda Sue Watkins, BSHS junior, in the honor society, Latin Club, in the choir and F.H.A., and an active church worker.

William R. (Bill) Jones, BSHS junior, in the honor society, basketball player, active in several clubs and member of his church choir.

Ann Garrett, BSHS senior,

Demos Give Connally 'Favorite Son' Nod

Voting Brisk At City Polls

Voting was brisk early this morning at most of the five polling places in the city commission election. At the Eighteenth and Main fire station, Mrs. Pat Drake, left, was assigned by Eddie Acrl and Mrs. George T. Thomas, two candidates, as a poll

watcher. George Mclear, second from left, judge at the polling place, checks a completed ballot. Mrs. Dan Conley, Mrs. V. A. Jones and M. R. Turner assist as tally clerks.

'Poll Watchers' Turn Up At Two City Voting Boxes

Something new in a city election—"poll watchers"—were in evidence today as Big Springers voted for selections of three city commissioners to serve for two-year terms.

Never in the memory of local observers had the poll - watching technique been employed in a municipal election. They appeared at two of the polling places, sent to the posts by two candidates, Eddie Acrl and Mrs. George Thomas. Mrs. Pat Drake was at the Eighteenth and Main Fire Station, and Ray Nall was at the Eleventh and Birdwell

Fire Station. Other polling places were at the Central Fire Station, Northside Fire Station and Airport Fire Station.

All residents of the city, who have registered under state law to vote in 1968, may vote at the box of their convenience. Polls remain open until 7 p.m.

Indications were that — with nine candidates on the ticket—there would be a heavy turnout. Voting was steady during the first hours of the morning, and by 11 a.m. a total of 540 votes had been cast.

A breakdown of voting by boxes at 11 a.m. showed: Central, where L. R. Mundt is judge, 191; 18th and Main, George Mclear as judge, 200; 11th and Birdwell, Lawrence Robinson, judge, 90; Northside, Andrew Tucker,

judge, 43; Airport, C. R. McClenny, judge, 16. Absentee votes totaled 35.

In addition to Acrl and Mrs. Thomas, other names on the

ballot are those of Arnold Marshall, Walter Stroup and Jimmy Morehead, incumbents; M. M. Hines, W. A. Fitzgerald, E. A. Fiveash and A. A. Porter.

Air Strikes Stepped Up Against North

SAIGON (AP)—U.S. warplanes are stepping up their attacks on the southern part of North Vietnam during President Johnson's ban on bombing of the Hanoi-Haiphong industrial heartland, it was learned today.

U.S. bombers flew more than 100 missions against the North Monday, nearly double the average number of raids on the southern part of North Vietnam before Johnson's curtailment of the bombing.

One raid Monday made clear that the area of North Vietnam which Johnson left open to attack extends to within 80 miles of Hanoi and some 210 miles

northwest of the demilitarized zone. That was the location of the northernmost attack, on a supply target a mile south of the coastal city of Thanh Hoa, and a U.S. military spokesman said it was outside the area covered by the bombing ban.

U.S. planes flew a total of 105 missions against North Vietnam Monday, with the major effort against targets in the area of the Mu Gia Pass, a supply funnel into the Ho Chi Minh trail through eastern Laos. Air Force pilots reported destroying or damaging seven trucks, one railroad tunnel, nine military storage structures and one bridge.

BRITISH GET COLD SHOULDER

Reds Silent On Peace Offer

LONDON (AP)—The Soviet ambassador to Britain has turned a cold shoulder to a British overture for Vietnam peace talks based on President Johnson's bombing curtailment, but Moscow and Hanoi maintained official silence today.

Seeking a resumption of the Geneva conference on Vietnam, of which the Soviet Union and Britain are co-chairmen, British Foreign Secretary Michael Stewart met for 45 minutes Monday night with Ambassador Mikhail Smirnovsky and told him he was ready to fly to Moscow to see Foreign Minister Andrei Gromyko.

NOT ENCOURAGED

"Mr. Smirnovsky restated some of the familiar Russian and North Vietnamese positions so you could not say I was encouraged," Stewart said in a television interview afterward.

But he added: "This move will not have been wasted. It will prove in time to be part of the process that in the end will get peace."

Smirnovsky told newsmen Johnson's limitation of the bombing of North Vietnam was "incomplete" and "non-conditional," as the North Vietnamese had demanded. His re-

mark echoed comments in a dispatch from Washington by Tass, the official Soviet news agency.

The delay in official reaction from Moscow and Hanoi was not unusual, but various unofficial comments indicated Moscow and Hanoi would reject Johnson's overture for peace negotiations.

Officials in Europe familiar

N. Vietnam Army Paper Claims LBJ Misleading

MOSCOW (AP)—The North Vietnamese army newspaper said today President Johnson is trying to mislead public opinion with his order limiting bombing of North Vietnam, Tass news agency reported from Hanoi.

It was the first North Vietnamese reaction to Johnson's proposal Sunday night to begin peace talks in exchange for the bombing limitation and foreshadowed possible rejection of the President's offer.

The newspaper said Johnson still has not agreed to halt bombings and other military ac-

with Vietnamese affairs predicted that Hanoi would reject peace talks on the ground that parts of North Vietnam were still being bombed. However, the North Vietnamese delegation in Paris relayed a copy of Johnson's speech to Hanoi.

In Cairo, a member of a visiting Viet Cong delegation said the President's speech indicated "the Americans mean no peace

and our people have no choice but to continue fighting."

The delegate, Pham Van Quang, observed that Johnson said he was sending more troops to Vietnam and was seeking an increase in war expenditures.

The Red Chinese, long opposed to any settlement in Vietnam short of a complete Communist victory, were also expected to reject or ignore the Johnson overture. The Peking correspondent of Japan's Kyodo News Service said the Chinese interpreted the Johnson announcement to mean the Americans had lost confidence in their ability to win the war.

DEFEAT

In Hong Kong, both Communist and anti-Communist newspapers agreed that the bombing curtailment spelled U.S. defeat in the fight against communism in Asia.

Australian Prime Minister John Gorton said his government has cabled Britain and Russia, asking them to use their best efforts to persuade Hanoi to agree to peace talks. He said Johnson's bombing curtailment was a "most significant and generous offer" and said it "will provide the acid test of whether Hanoi wants peace or not."

High Hopes Of Blocking Bobby's Bid

By GARTH JONES
AUSTIN (AP)—Texas Democratic party leaders unanimously endorsed Gov. John Connally today as a favorite son presidential candidate despite warnings it might cause another bitter intra-party revolt.

All agreed the favorite son resolution was merely a long-range effort to throw state party machinery behind Vice President Hubert Humphrey and to block the efforts of Sen. Robert Kennedy, D-N.Y., for the presidential nomination.

'DEEP REGRET'

The favorite son vote by the State Democratic Executive Committee followed quick and unanimous approval of a resolution that expressed "deep regret and profound sorrow" that President Johnson would not seek renomination. State Democratic Chairman Will Davis said the committee already had in hand approval of Johnson's renomination from 135 counties before the President's surprise announcement Sunday night.

Rep. Tom Moore, Waco committee member, who called himself a "liberal," presented most of the argument against the favorite son resolution, but saying he would vote for it and would not try to defeat it.

"There are grave questions in my mind . . . to me this resolution is a subrosa effort to stop Sen. Kennedy's efforts in Texas, but I have doubts this resolution will do it . . . I fear this resolution will be simply a rallying point for another liberal-loyalist factional fight that will carry on the bitter factional fights we have had for so many years . . . I think this is just an effort to hold the Texas Democratic party for Hubert H. Humphrey," Moore said.

MOST CONSERVATIVE

Moore added he "never thought I'd live to see the day when Hubert H. Humphrey was the most conservative candidate to seek nomination of the Democratic party, but he is."

Davis said he contacted Humphrey's office Monday night and told vice presidential aides of plans for the favorite son resolution.

"They raised no objection and said they felt it was the best course of action for the state committee to follow," he said.

Connally was not at the meeting, but he was vigorously supported and represented in a campaign-type speech by Eugene Locke, candidate for Governor.

Locke wanted that "the immediate stability and health of the Texas Democratic party and the long-range interests of our nation will be dramatically affected by Texas' choice of a favorite son for the presidential nomination. The divisive elements that are threatening the unity of the national Democratic party will not be without their champions in Texas."

SUPPORT

Statements supporting Connally as a favorite son were read from two other candidates for governor, Lt. Gov. Preston Smith and Waggoner Carr. Davis said he had endorsement wires from Speaker Ben Barnes; Atty. Gen. Crawford Martin; Rep. Gus Mutscher of Brenham, expected to be the next speaker; about 60 county party chairmen; and more than 300 telegrams from private citizens.

Peace Offer Called 'Fraud'

TOKYO (AP)—North Vietnamese official newspaper charged the United States is planning a "new plot" in Vietnam and described an American peace offer as a "fraud," a Japanese report from Hanoi said today.

The official Communist newspaper Nhan Dan apparently was referring to President Johnson's order Sunday halting the bombing of most of North Vietnam and calling for peace talks. But it made no specific mention of Johnson's offer.

Eggs Thrown

Police of Ridley township, a suburb of Philadelphia, close in around Senator Robert F. Kennedy after young people in the crowd pitched raw eggs at the Senator. Kennedy, is making his first campaign appearance in the Philadelphia area. No one made a direct hit, although some of the people sharing the platform were splattered.

West Tex Road Link Approved

SAN ANGELO (AP) — The Texas Highways Commission, meeting Monday in San Angelo, gave the green light to a highway to serve the proposed Dallas-Fort Worth Regional Airport area.

The commission authorized contracts with local officials for right-of-way purchase for the 9.1-mile controlled access highway in Dallas and Tarrant Counties.

Construction was authorized for a 1.7 mile freeway section of US 175 in Dallas and Kaufman counties to cost \$1.2 million.

A 10.6-mile, \$6.3 million link of Interstate 10 in Far West Texas

between Boracho Station and Kent was approved by the commission.

And the commission told engineers to proceed with preliminary planning and the buying of right of way for the Chamizal Border Highway in El Paso.

The controlled access loop will be built along the United States-Mexico border for 12.5 miles.

The commission also instructed its workers to give extra attention to roadside maintenance, development of wildflowers along highways and maintenance of roadside parks during this Memorial Day week.

Approved establishment of a visitor information center to be located in the Institute of Texas Cultures of HemisFair.

Approved construction of a new road side park approximately 5 miles west of Mentone on Texas 302 in Lavina County.

Lindsay Seeking Power To Ban Booze, Weapons

NEW YORK (AP) — Mayor John V. Lindsay today asked for emergency powers to ban the sale of firearms and alcoholic beverages and to impose a curfew in the event of civil disorders in the city.

Lindsay said the city "has been fortunate in avoiding any civil disorders for the past two summers" but added that there can be "no guarantee of tranquility."

He sent legislation to the City Council which would empower

him to declare a state of emergency, either citywide or in a specified area, upon written certification of the city's emergency Control Board.

Under the proposed legislation, in the event of an outbreak of civil disorder, the mayor would be empowered to ban the sale and display of firearms and ammunition, establish a curfew, prohibit the sale of alcoholic beverages and close places normally used for public entertainment.

Pass Pass Pass

Opening lead: King of ♦

The abundance of material wealth bestowed by nature on West apparently lulled the latter into a false sense of security in defending against South's doubled four-spade contract. A careless lapse at the opening plop led to a surprise verdict for the declarer.

North's opening bid of four hearts is based on a hand that would normally rate to produce eight tricks. West was dealt a powerhouse, but the preemptive call forced him to settle for whatever penalty was available. South's eventual runout to four spades was a calculated risk which we are not inclined to recommend. When partner opens with a preempt, it does not usually pay to act the part of a nursemaid, particularly with a broken suit. Observe that North can always win eight tricks at a heart contract.

West opened the king of

diamonds and East signaled encouragingly with the eight. West continued with the ace of diamonds and declarer trumped in his hand. The ace of clubs followed by a club ruff provided South with access to the dummy, so that he could discard two more clubs on the ace king and hearts.

The closed hand was reentered by ruffing a diamond, and declarer proceeded to drive out the ace and queen of spades — eventually drawing West's last trump with the ten. Inasmuch as West's king-queen of clubs had made their appearance on the first two rounds of that suit, South was able to cash the game-fulfilling trick with the jack of clubs.

West's diamond continuation at trick two cost the defense three tricks, for it not only permitted declarer to trump a club loser but enabled him also to utilize dummy's ace-king of hearts which would otherwise have gone to waste inasmuch as South had no other entry to the North hand.

West should have been aware of the threat presented by North's singleton club. He could easily have countered this menace by switching to the ace of spades at trick two, to remove the dummy's trump. Observe that he surrenders nothing in the process, for his queen of spades is still guarded. West may now switch back to diamonds, if he chooses, and declarer is obliged to play the remainder of the deal from his own hand. He must lose — in all — two spades, one diamond, and three clubs for a 500-point deficit.

'IF YOU CAN'T BEAT 'EM, JOIN 'EM'

Candidates Plump For Connally

By The Associated Press

With national politics again stealing the spotlight, Texas candidates for governor seem to be adopting campaign tactics of "if you can't beat 'em, join 'em."

Six of the men bidding for nomination as governor in the May 4 primaries took occasion Monday to talk about the surprise withdrawal of President Johnson as contender for another term.

FAVORITE SON

And three of the gubernatorial candidates, Waggoner Carr, Eugene Locke and Lt. Gov. Preston Smith, plumped for the man they want to succeed, fellow Democrat Gov. John Connally, as the state's favorite son choice for president at the party's national convention.

Smith told Austin newsmen that the move by Johnson projects "a gaping hole in the Texas Democratic Party representation on the national level." He said Democrats with an eye to the future should make Connally a rallying point in addition to advancing the governor as a serious bidder for the presidency.

Locke, in Dallas, sent telegrams to Connally and state Democratic chairman Will Davis appealing for steps to hold the party together and expressing himself as "shocked and stunned at the President's decision."

"The only way I can see for us to prevent a serious split in the party," Locke said, "is to ask John Connally to be the party's favorite son for president."

CARR GIGS DON

Carr managed a job at Don Yarborough, considered the lone liberal in the governor's race, and at U.S. Sen. Ralph Yarborough—no relation—in another telegram proposing Connally for the presidential nomination. It appealed for moderates and conservatives "to repel the invasion of our party that now will be attempted by the Yarborough twins—Ralph and

John Hill, at Waco, said the decision by President Johnson and an earlier one by Connally not to seek another term "emphasized the need for strong new leadership for Texas."

Goodlett Wins Merit Award

Whitmore S. Goodlett Jr., area conservationist for the Soil Conservation Service, this morning became one of five men in the service to receive a special merit award from Secretary of Agriculture Orville Freeman.

The presentation was made at 10 a.m. in the department in Washington, D.C., where Mr. and Mrs. Goodlett flew Sunday evening.

He was cited for outstanding cost reduction achievement and was the only area conservationist in the nation to be so honored. Numerous factors entered into the award such as effective management, utilization of contract work, youth corps assistant, efficient planning, etc.

Goodlett, a graduate of Texas A&M College, entered the Soil Conservation Service at Stephenville in July, 1944, as a conservationist. He was made work leader at Mineral Wells in July, 1945, and in June, 1951, he was transferred to Big Spring and promoted to district conservationist. This position later was upgraded into area conservationist.

Counties in his charge include Crane, Ector, Midland, Howard, Martin, Scurry, Mitchell, Borden, Dawson, Andrews, Yoakum, Terry, Gaines, Lynn and part of Glasscock.

Johnson's withdrawal prompted Edward L. Whittenburg to voice an opinion that the state should hold a preferential primary and thus enable Texans to have a voice in picking presidential nominees.

Czech Prober Found Hanging From Tree

TYNEC, Czechoslovakia (AP) — Czechoslovakia's top investigator of Stalinist crimes was found hanging from a tree today, five days after his mysterious disappearance.

Police in this village south of Prague said "we are 99 per cent sure" that Dr. Jozef Brestansky's body from view.

City Court Fines Surpass \$1,000

Filings were very heavy in Corporation Court Monday with 64 charges filed and fines assessed in the amount of \$1,030.

Thirty charges of being drunk were filed and brought fines totaling \$705. There were 26 traffic violations put on the docket and fined \$325.

One charge of burglary was transferred to the County Court. One charge each of being drunk, disturbance and traffic violation have been set for hearing on April 11.

Diamond Watch, Cross Missing

Mrs. Homer L. Williford, 1606 Main, reported to police the theft of a diamond wristwatch and a gold cross necklace, value \$295, from the jewelry box in the bedroom at her home.

Police are also investigating the reported theft of a tire and wheel from D. Mike Moore, 211 Circle.

both major parties, adding that "at present the average Texan does not have an opportunity to let his wishes be known."

Probations Ax Asked

Probated sentences of two defendants in 118th District Court may be revoked at a hearing on Wednesday afternoon.

Wayne Burns, district attorney, has filed motions to set aside probations in the cases of Raymond Puga Nunez and Alfredo Hinojos.

Nunez is at liberty under a 3-year probated prison term assessed on his conviction for burglary. Hinojos is free on a probated sentence of 4-years assessed for theft.

Burns alleges both have violated terms of their probation and is asking Judge Ralph Catton to set the probations aside and order the two men taken to the state penitentiary.

Son Of Yale Prexy Denies Dope Guilt

EDGARTOWN, Mass. (AP) — Kingman Brewster III, 29, son of the president of Yale University, pleaded innocent Monday in District Court to a charge of being present where narcotics were kept.

Brewster was arrested Saturday shortly after arriving on Martha's Vineyard island. At an arraignment before Judge James A. Boyle, his case was continued until April 10 and he was released in personal recognizance.

Republican, took a view of national developments which was far more cheerful than the reactions of his Democratic counterparts.

Eggers said he felt his own "opportunity to win has increased significantly." He added, "The Democratic Party is divided. Our party is united and people will turn to us for leadership."

Don Yarborough, wooing voters in the Houston area, said he proposed as governor to open regional offices over the state in order to be "available to all the people" and deliver televised speeches every three months to outline the problems of state government.

BACK IN RACE

Pat O'Daniel, son of a former governor and U.S. senator, informed reporters he has been inactive as a campaigner because of the serious illness of his mother, Mrs. W. Lee O'Daniel. He said she has improved and he was "getting back into the race and staying to win."

Speaking at College Station, Dolph Briscoe likened his campaign to that of the Texas A&M football team which suffered early losses last fall but rallied to claim the Southwest Conference championship.

Forsan Spelling Champ Selected

FORSAN — Kay Wakraen, 14, is the Forsan school 1968 spelling champion and will represent her school in the Sixth Annual Howard County Spelling Bee on April 20.

She is the daughter of Mrs. Norma Liles, 4012 Vicky. Kay is an eighth grader. She won her title on Monday in a spell out at the school. Alternate speller from Forsan for the Sixth Annual Howard County Bee will be Lyndel Fletcher. He is 14 and also an eighth grader. He is the son of Mr. and Mrs. Robert O. Fletcher, Sterling City Rt.

Sen. McCarthy, Nixon Test Their Hopes In Wisconsin

MILWAUKEE, Wis. (AP) — Democrat Eugene J. McCarthy — his real rival in the election to come — and Republican Richard M. Nixon checked their White House credentials today in a Wisconsin presidential primary that offered only shadow contests.

SHADOWS

Chief among the shadows: Lyndon B. Johnson, the President whose announcement that he will not run again turned Wisconsin and Democratic politics from a battleground into a maze.

Republicans and Democrats, even men in the McCarthy camp, said the President undoubtedly would get more votes in Wisconsin than he would have had he remained in the presidential race. Johnson's name remains on the ballot.

McCarthy said he thought most Wisconsin voters had their minds made up and wouldn't change them despite the President's announcement. "What happened might make some minor changes in the results, but I don't think they'll be measurable," he said.

SYMPATHY

But the primary was the first

E. J. MCCARTHEY

test of voter sentiment toward a president who has decided to stand aside. Wisconsin politicians in both parties expected a sizable vote of sympathy and compliment.

Should that Johnson vote be large, McCarthy said, he would

have to "go on to Indiana and say this was not a real political test, I suppose."

In Madison, the state capital where the University of Wisconsin campus has seen several antiwar demonstrations, a municipal referendum faces voters on Vietnam issues.

The referendum question asks whether there should be "an immediate cease fire and withdrawal of the United States troops from Vietnam, so that the Vietnamese people can determine their own destiny."

Indiana holds the beginning of the real Democratic contest. For there, on May 7, New York Sen. Robert F. Kennedy will run against McCarthy in a Democratic primary matching the two dissenters who have suddenly become the top contenders.

KIND WORDS

That rivalry led McCarthy to program an election-day campaign mission to Omaha, Neb. He and Kennedy will meet on May 14 in the Nebraska presidential primary.

McCarthy said he could not guess whether Vice President Hubert H. Humphrey would now

join the battle for the Democratic nomination. "I would say to people that there certainly are day that who would be ready to support him," he said.

McCarthy looked beyond Wisconsin, too, in an election eve address to the nation, a televised speech which began with kind words for Johnson.

In a broadcast which cost his campaign treasury \$72,000, McCarthy said Johnson was a man committed to peace and had proved it by announcing Sunday night that he would not seek nor accept renomination. He said that erased any possible doubt that there might have been a political purpose in Johnson's decision to de-escalate the war in Vietnam.

GENE UNCHANGED

"It would very well have been his most direct and positive action in the interest of the United States of America," McCarthy said.

And he said his intention to fight for the Democratic nomination is unchanged and will stay that way, "no matter who may come into the contest with me," and no matter what happens in the primary elections.

GRAHAM PURCELL

Clubbers Cite Rep. Purcell

A former Big Spring attorney, who is now a member of Congress, has been cited as one of the outstanding former 4-H Club members in the nation for 1968.

The announcement has just been made by the National 4-H Service Committee.

He is Graham Purcell, (D-Tex.) who serves the district of which Wichita Falls is the center and was formerly a district judge in that city.

He was one time associated with the law firm of Coffee and Coffee here as an attorney.

Purcell is one of eight persons to receive the citation as the outstanding former 4-H Club member and will attend the 47th National 4-H Congress in Chicago the first week of December. He and the others will be guests of Olin Mathliessen Chemical Corporation, sponsor of the 4-H program since 1953.

The alumni, four men and four women, also will receive a gold 4-H Alumni key.

Rep. Purcell was a 4-H boy in Wichita County, Texas, back in the mid-1930's. His home is still in Wichita Falls.

He now resides with his wife, Betty, and four children in Alexandria, Va. His oldest son, Blaine, 19, is a sophomore at his father's alma mater, Texas A&M University, studying veterinary medicine.

As a young 4-H'er, Graham Purcell made a name for himself through his 4-H beef project. He not only showed champion steers, but also rated highest in efficient beef production classes at 4-H shows. He was president of his local club.

Demos Critical Of Johnson Privately Express Relief

WASHINGTON (AP) — Democratic senators openly critical of President Johnson's Vietnam policies are privately expressing relief that he has decided against running again.

Many had viewed Johnson as the party's likely nominee and felt that—if this were the case—they would be hard-pressed to run under his political mantle with their opposition to his war policies a matter of public record for opponents to seize on.

FACE FIGHTS

In this presidential election year, Democrats face stiff fights in both the Senate and House. Republicans express confidence in their chances of winning 31 seats and grabbing House control while sharply reducing the nearly 2-1 Democratic majority in the Senate.

Of 35 Senate seats being contested, 23 are held by Democrats, including eight outspoken critics of U.S. war policies.

"It seems to me it (Johnson's decision) reduces some of the tension and conflict in the campaign," Sen. George S. McGovern, D-S.D., a war policy critic, said in an interview. He added that he thought it would make his own re-election bid easier.

Sen. Warren G. Magnuson, D-Wash., who has generally stood by the President on the war issue, said he doubts the President's decision will have

major impact on his own re-election bid.

But he acknowledged "the chances of keeping unity might be better," although adding he has always expected most Democrats to line up behind whoever the nominee is.

VOTE TIGHTROPE

Sen. Albert Gore, D-Tenn., a war policy critic whose current term still has two years to run, said he thinks the President's decision pleased the Democratic senators running for re-election.

Besides McGovern, seeking his second term in a normally Republican state, Democratic opponents of Vietnam policies running this year include Sens.

Wayne Morse of Oregon, Frank Church of Idaho, J. W. Fulbright of Arkansas, Ernest Gruening of Alaska, Gaylord Nelson of Wisconsin, Joseph S. Clark of Pennsylvania and Abraham A. Ribicoff of Connecticut.

For some weeks, Senate and House Democrats who oppose Johnson on the war have been walking a political tightrope, afraid to offend either wing of their divided party and worried about the possibility of having to campaign on a ticket headed by a President of whom they were critical.

FALSE TEETH That Loosen Need Not Embarrass

Don't live in fear of false teeth loosening, wobbling or dropping just at the wrong time. For more security and more comfort, just sprinkle a little FASTEETH on your plates. FASTEETH holds false teeth firmer. Makes eating easier. No pasty, gooey taste. Helps check "denture breath." Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Food Section Given Plaque

Big Spring State Hospital received a plaque for outstanding food service at a food department seminar for state hospitals held in Austin last week.

Presentation was made by Dr. John Kinross Wright, commissioner of Mental Health and Mental Retardation, to Dr. Preston E. Harrison, superintendent, and Charles Voight, food service manager. Others attending the ceremonies were Gatlin Jones, assistant food service manager, and James McDonald, supply officer.

BUSY APRIL FOR HEMISFAIR

Hostelries Booked Solid

By PAUL RECER

SAN ANTONIO (AP) — If you're planning to come to HemisFair during the opening month, you'd better already have room reservations, plan to stay with Aunt Susie and Uncle George or bring a tent and bedroll. Almost everything else is taken.

HemisFair, the first international exposition in the South west, opens Saturday and already has created an accommodations bind for that month.

All major hotels and motels are booked solid and some of the smaller places are rapidly getting that way. An official of the Visitor's Service Bureau said one 500-room hotel in Austin, 79 miles away, already is fully booked for April with HemisFair visitors.

One San Antonio executive who operates an office in a hotel jokingly asked the hotel's reservations clerk how much he would charge to put a bed in

his office for some out-of-town friends.

"I don't know," she said, taking him seriously, "but that's a good idea. You probably won't find anything else."

Many apartment house owners expect to do well during HemisFair. One owner is asking \$20 a night for a two-bedroom apartment which normally rents for \$150 a month. He said most of his units already are reserved for April.

Adding to the opening month hysteria will be the annual San Antonio Fiesta, the largest of many South Texas civic celebrations. Also, there's the annual Easter Holy Week, or Semana Santa, in Mexico. Stores there close and thousands of Mexican residents flock to San Antonio to shop and visit.

Prices for hotel and motel accommodations have leaped in the last few weeks by an average of 18.8 per cent. Travel agents and motor touring clubs, some of whom

claimed "price gouging" at the World's Fairs in Montreal, New York and Seattle, said, however, the San Antonio prices are in line. They attribute the prices to two things—the prices were low to begin with and the Visitor's Service Bureau has kept them in line.

Room rates in recommended hotels range from \$12 to \$22 for singles and \$2 to \$5 more for doubles. One travel agent said these prices were lower than in San Francisco and Washington.

Hotel executives said the price rise was triggered by the Feb. 1 increase in the minimum wage. Some rates have risen as much as 30 per cent, but W. G. Hopkins of visitors' service said these are places which have improved their facilities.

Visitors service was organized to find rooms for the roomless, and hotels, motels and restaurants have been anxious to stay in its good graces. As a result, the establishment's menus have matched the bureau's rigid requirements on rates.

Hopkins said one of these requirements is that the rates remain the same throughout the fair. At other world's fairs, he noted, innkeepers set their rates according to demand. Some towns here, including one well-known chain, has not received visitor's bureau approval.

Even though facilities here are jammed for April, HemisFair officials indicate things will get worse. Advance studies show that April will be the second least popular of the fair's six months. The number expected at the fair for April is 1,012 million. It will be less than a million for May, and then the figures climb steadily to an estimated 1,462 million for August, the peak month.

And, officials warn privately, these figures are based on the official total HemisFair attendance prediction of about seven million. Some officials predict an attendance of about 11 million.

About 25 per cent of those attending the fair are expected to require motel and hotel rooms.

Spring Storm Sweeps West

By The Associated Press

A windblown spring storm swept the Far West today and bore down on the northern and central Rockies with a wintry mixture of rain and snow.

A variety of winter weather warnings—for travelers, fruit growers and stockmen—were issued for parts of seven states from central California to Colorado, Wyoming and Montana. Snow and rain spread eastward across the plateau from Nevada to Montana after the storm spread rain along the Pacific Coast Monday. Up to four inches of snow was predicted for mountain regions.

A separate storm system doused parts of Texas, Louisiana, Kansas and Missouri with rains and drizzle.

Cooler, but dry, air settled across much of the eastern half of the country and ended a spell of record warmth in the Northeast. The mercury sank to 32 at Bradford, in northwest Pennsylvania.

Temperatures in the Midwest and Plains before dawn were mostly in the seasonal upper 30s and 40s, with more warming indicated today.

El Paso Natural Gas Is Moving in New Directions

EL PASO NATURAL GAS COMPANY Progress Report

THE YEAR 1967—Record natural gas sales of 1.58 trillion cubic feet were achieved in 1967. Facilities to deliver an additional 253 million cubic feet per day to Southern California were completed by the first of the year. Plans are under way for further expansions of 512 million cubic feet per day to California, the Southwest, and the Pacific Northwest.

OCTOBER 1967—El Paso Natural Gas acquired Narragansett Wire Co., a fabricator of electrical copper wire for the building industry.

JANUARY 1968—El Paso Natural Gas announced agreement with two major European corporations to form an international company, Nobel-Paso Geonuclear, for development and promotion of peaceful uses of nuclear explosives outside the United States. El Paso also formed a special nuclear group to spearhead the company's activities in development of peaceful uses of nuclear explosives.

OCTOBER 1967—Beaunit Corporation, major manufacturer of synthetic fibers and textiles for apparel, home furnishings and industrial products, was merged into El Paso Natural Gas Company.

DECEMBER 1967—Project Gasbuggy detonation, world's first joint government-industry experiment using nuclear explosives for industrial purposes, was conducted by El Paso Natural Gas, the Atomic Energy Commission, and the U.S. Bureau of Mines. This pioneering technique may be successful in unlocking hitherto unrecoverable reserves of natural gas.

For a copy of El Paso's 1967 Annual Report, write: El Paso Natural Gas Company, El Paso, Texas 79999

El Paso Natural Gas Company is a diversified gas transmission firm, serving 11 western states through a 20,000-mile pipeline network. In addition, it has extensive interests in petrochemicals, agricultural chemicals, electrical copper wiring, plastics, textiles, mining and oil and gas production.

A Devotional For The Day

Have ye not read this scripture: The stone which the builders rejected is become the head of the corner? (Mark 12:10)

PRAYER: Disturb us, O Christ. Grant us Thy compassion, Thy courage. May we so identify ourselves with Thee that we can share Thy joy, Thy victory, and accord Thee Thy rightful place in every area of our lives. In Thy name we ask. Amen.

The Overriding Issue

The dramatic announcement by President Johnson in his message to the nation that he would neither seek nor accept his party's nomination for another term in office is a traumatic experience for the nation.

Although those in high places of responsibility become the object of advice, criticism and sometimes irresponsible abuse, the fact is that they remain in the popular eye as the leader. The possibility or probability of continuing in this role strengthens this image. Thus, next to providential intervention or resignation, unexpected and flat statement of imminent retirement is a jolting thing.

Pundits will pontificate upon the President's reasons, but only the President can speak for himself. What he has to say, therefore, must be taken at its face value.

On this basis, it must be assumed that Mr. Johnson has come to the soul-wrenching decision that the stakes for humanity are so tremendously high that he must take a step that will block the imputation of personal political motives to every decision or move. No matter what he might do, his critics and detractors — enjoying the luxury of not having responsibility for defining or implementing alternatives — have attempted to cast constant doubt upon his sincerity of a quest toward an honorable peace that will not leave the sacrifices of war in vain.

Perhaps it was a consuming desire to rise above this and to seek in one grand gesture to unite the nation in its bid for safety and stability in the world that prompted the President to take this dramatic step.

This, then, transcends the speculations concerning petty partisan

maneuvers. This should fix attention clearly upon the besetting problem of organizing a peace rather than finding a cheap and futile way to leave off fighting.

There is the calculated danger that leaders of North Vietnam and other aggressive-minded spheres of power will misread the President's announcement as a sign of personal weakness, or national weakness, or of an insoluble division with this nation. This would be a tragedy for mankind if they were to embrace this interpretation.

If North Vietnam does not now responsibly move toward the conference table, then it will become abundantly clear that it seeks domination and not self-determination, that it insists either upon communism or ruin. That would leave us with but one clear course; the nation could not in good conscience retreat or flinch from its duty as the leader of the free world.

In effect, President Johnson has disabused North Vietnam of the temptation to hope that attrition and terror will somehow spell out in November's presidential election a mandate for capitulation. He has, by his course of action, confronted North Vietnam with a crucial decision now, and not after November.

There are many secondary considerations on the domestic front, including conjectures over whether the President has weakened his power to deal with the Congress or to influence the nation. The compelling question is whether he has increased this country's leverage for a significant and enduring peace.

We pray that in this view his personal sacrifice will have proven a worthy one.

Art Buchwald

How Not To Buy A \$250 Ticket

WASHINGTON — There have been rumors that certain government agencies have been putting the arm on federal employees to buy tickets to the \$250-a-plate Democratic fund-raising dinner in Washington to honor President Johnson on April 4. Several employees making \$18,000 or more have complained that their supervisors have hinted that attendance at the dinner would be in their best interests. They have also been reminded that they have been promoted and given pay raises by the Johnson Administration.

"This sort of thing is bound to backfire, as it did the other day when George Hornwinkel, a grade-15 employee in the Bureau of Revisions and Retrenchment, was called in by his supervisor, Arthur Argonaut.

Argonaut greeted Hornwinkel warmly and asked him to sit down.

"Hornwinkel, you're doing a fine job. Everyone in the bureau says you're on the ball."

"Thank you, sir. I always say a man is as good as his supervisor, and you're the best."

"YOU'RE VERY kind, Hornwinkel,

Billy Graham

We had a discussion at work the other day about a person persisting in doing wrong, and excusing himself by saying that God is all-loving, and will forgive him, if and when he becomes willing to repent. Isn't this trying the patience of God?

S.C. God's patience has already been tried and not found wanting. That is the wonder of the grace of God! He is so long-suffering with us that He is called "The God of Patience." (Rom 15:5.) His love is so abiding, so patient, that it is incomprehensible by man. The Bible says, "As the heavens are high above the earth, so are his ways higher than our ways." Yet, some people have a misconception of God and our relationship to Him. So, they trifle with His mercy, and spurn His love. They somehow think that being a follower of Christ imposes unbearable restrictions upon us, but this concept is a mere caricature of Christianity. People who profess Christianity and fail to radiate the joy of Christ, are poor advertisements for the kingdom of God. According to the Bible, the person who rejects God deliberately shuts himself off from the greatest joys and satisfactions of life. Sadly, the reason many people persist in their separation from God is that they have drawn their conclusions about Christianity from poor representatives of Christ, rather than from the Bible. The happiest, most contented people I know are followers of Christ. Tell your friend who is toying with the grace of God that he is missing the best things of life. Christ said, "Seek ye first the kingdom of God and all of these things will be added unto you."

'Better Stop Using The Expression, Sound As A Dollar'

Hal Boyle

Back To The Past

NEW YORK (AP) — Nostalgia has always been one of man's favorite pastimes—at any age, in all eras.

The growing child reads fairy tales that begin with the immortal words, "Once upon a time." He is very curious about his own brief past, and is vastly entertained when his parents tell him anecdotes about his infancy.

Adults, of course, tend to spend more time recalling yesterday than they do in planning for tomorrow. After all, no matter how rough it may have been, yesterday is safer. We are more comfortable with yesterday than we are with tomorrow because we have endured its threats and survived its perils. It consoles us more than it hurts us.

THE PAST is so popular today that there now is even a Nostalgia Book Club which each month recommends to its members new books about bygone days and historic figures.

Your own stock of nostalgia is pretty extensive if you can look back and remember when—

A dollar bill was as good as gold.

A modern mother was one who insisted that her children take daily doses of cod liver oil in winter to be sure they got plenty of Vitamin D.

The usual reason a fellow grew a mustache was to hide the fact he had a hare lip.

THE IDEA of putting radios in cars was opposed on the grounds that they would distract drivers and cause more accidents.

A proud wife never was defeated by family poverty as long as she was able to keep clean white lace curtains hanging in the front windows of her home.

Only the very, very idle rich had French poodles as pets.

You knew you were in a house of gentility and pretensions to culture if the parlor contained two goldfish and at least one canary.

But the dream of every little boy was to own a brightly colored parrot that would startle starched ladies with its terrible swearing.

DURING A small town Fourth

of July parade, it touched your heart with awe to see the few time-bent veterans of the Civil War go by, and to think that these same men had once been young and eager and had shook the land in their glory.

Most butchers wore straw hats on the job and had a pencil stuck behind an ear. They wrapped the meat in rough "butcher paper" instead of sticky plastic.

Just 40 years ago—in 1928—physical culturist Bernarr MacFadden sternly warned bachelors: "If you are looking for future happiness, avoid the girls who wear high heels."

That same year two Mickey

made their screen debuts—Mickey Rooney and Mickey Mouse.

A JUVENILE delinquent was a schoolboy who put a hoptoad in a girl's lunchbox.

In 1929 Herbert Hoover banished seven riding horses from the White House stables as a government economy measure. On Oct. 25—four days before the "Black Tuesday" on which the stock market collapsed—he issued a statement declaring, "The fundamental business of the country is on a sound and prosperous basis."

Those were the days! Remember?

James Marlow

GOP Splits Muffled

WASHINGTON (AP) — The appearance of unity in the Republican party with Richard M. Nixon breezing along toward the presidential nomination obscures deep divisions in the party on issues before Congress.

In the big fight over spending cuts, a sizable group of House Republicans is trying to counter the meat-ax approach favored by the GOP leaders with a plan to plow some savings into programs to help the cities.

The group has set up a staff, conducted hearings and welded a program of cuts totaling \$6.5 billion, of which \$2.5 billion would be used to expand programs to meet "urgent human needs and the urban crisis."

"WE NEED a new set of priorities," says Rep. Charles E. Goodell of upstate New York, a leader of the effort. "One that recognizes the enormous financial difficulties facing us, but which also recognizes the terrible human waste which is resulting from past and current inattention."

About 40 Republicans, mostly younger ones and those from the suburbs, have indicated an interest in such an approach.

But the party hierarchy is lined up solidly behind a move to

slash spending without permitting any increases.

ON NO issue, however, is the split in Republican ranks sharper than on the open-housing provision in the Senate-passed civil rights bill now before the House.

Rep. Gerald R. Ford of Michigan, the GOP boss in the House, is insisting the bill be sent to a conference with the Senate to seek a compromise on the housing section. He has a majority of the Republicans with him, but Rep. Clark MacGregor of suburban Minneapolis, who wants the Senate bill accepted, says as many as 45 per cent of the 187 House Republicans are prepared to desert Ford and vote for the bill.

FORD'S refusal to go along with the Senate bill also puts him at odds with his party's leader in the Senate, Everett M. Dirksen, who played a key role in breaking a Southern filibuster to get the bill passed.

Just as Rockefeller avoided openly tangling with Nixon in the name of party unity, so the divisions on issues are muted in the House.

(By John Becker, for James Marlow, who is ill.)

To Your Good Health

Taking Precautions Against Pinworms

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: I consider myself a meticulous housekeeper. However, my son, six, has just recovered from his second episode of pinworms in nine months. Both times the doctor told me, after a course of medication, that nothing more need be done.

The druggist, however, suggested cleaning the toilet with disinfectant each time the child used it, changing sheets daily, airing the rooms, etc. He also said the mattress must be burned since it contains millions of eggs from the worms. He said his own son had the worms four times, and after he got a new mattress it stopped.

What is your opinion? I know the most important thing is cleaning hands and nails after a bowel movement.—Mrs. F.G.

I'll go along with everything you mention except burning the mattress. Doubtless you have a mattress cover on it. If it is cloth, a good washing should be sufficient—or a thorough scrubbing if it is plastic. Or if you don't have a cover on the mat-

ress, then get one.

As to disinfecting the toilet every time the child uses it—well, that sounds like a lot of work and I'm not too sure that it gets at the root of the problem.

The worms infest the intestinal tract, lay their eggs near or just outside the anus. The eggs don't hurt anything—unless they are swallowed, and hatch in the intestine.

How do eggs get swallowed? They are so small you have a hard time seeing them. They get on the fingers, or under the nails. And—kids being kids—the eggs are carried to the mouth on unwashed fingers.

Aside from medication to get rid of the pinworms in the body, the most important goal is to prevent children's fingers from carrying the eggs.

A child (and everyone else) should wash the hands after every use of the bathroom, before every meal, before putting the hands into or near the mouth.

Keeping nails trimmed short and clean obviously is part of it. You can disinfect toilets until

you are blue in the face, but it isn't the toilet bowl that is important: It's the seat—or anything else that the youngster may touch and perhaps deposit some eggs.

Put the fullest emphasis on clean hands and nails.

It may be, too, that the source of the worms is outside your home—possibly a playmate of your son's.

What causes "balance" trouble? What can be done to correct or overcome it? Dr. Molner's new booklet, "Dizzy Spells," discusses loss of balance, vertigo and nausea, Meniere's disease and labyrinthitis. For a copy of the booklet write to Dr. Molner in care of The Herald enclosing 25 cents in coin and a long, self-addressed, stamped envelope.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

Spring-Time In The Desert

When you speak of the country south of here along the Rio Grande and west of Del Rio the picture conjured up in the mind of your hearer is usually one of wasteland — bleak grassless valleys, barren rock, strewn hills, thorny cactus and other desert growth.

AND AS A matter of record, this is the usual picture of this part of the state at this season.

But you should go there now. Go south from here to Iraan (and there stop and visit the amazing Alvey Oop park that little community maintains. Few cities of 10 times Iraan's population can boast a community playground so interesting, well kept and attractive.)

TRAVEL ON south to Sheffield and then head straight south into what is normally rated as a close relative of the Sahara, and continue on through the hills and valleys to Dryden.

You won't make much time. You'll be stopping often to take in the lush greenness of the country side and to revel in the pastures so gaily hued with wild flowers.

AT DRYDEN head east on US 90. Normally this drive, while certainly always interesting, is not something to be associated with spring and greenness. The road traverses a high plateau not too far from the Mexican border. It is level, almost devoid of trees and usually brown and arid.

Now it is green. The yucca are top heavy with huge clusters of snow-white blossoms soon to be in full bloom. Thousands of small ground flowers provide flashes of yellow, purple

and red to break up the over-all green flooring.

YOU MAY have crossed the towering highway bridge over the Pecos many times and been impressed with the rugged river valley where it joins the Rio Grande. This year, you see a different gorge — one that is green and flourishing. A heavy stream of clear water roars far below on its way to join the riotous Rio Grande.

At Comstock, take the road which goes north to Ozona. Plan on taking plenty of time. This, in my opinion, is one of the most beautiful drives that I have ever made. You cross and recross the Devil's River with its wide-spread bed of rounded snowwhite stones. You travel through timbered hills in valleys where trees and shrubs are rampant with blossoms.

I DO NOT know the names of the flowering trees, but some have clusters of yellowish blossoms and are alive with bees. Others (I did recognize the red bud, which to my amazement, abounds in this area) are red, pink and varying shades of red. Many trees have huge clusters of purple, sweet-smelling flowers which look like wisteria. And all around is lush green grass, wild flowers and trees heavy with foliage.

IT IS a color photographer's dream world.

Unfortunately for me the skies were overcast and the sun was partially hidden. It was not a good day for photography, but it was a fine day for just reveling in springtime as you rarely see it in deep Southwest Texas. —SAM BLACKBURN

Holmes Alexander

A Kennedy Predestination

WASHINGTON — Newspapersmen must pause to eat and when they do so around midday at a certain table, you find almost none surprised at seeing a Kennedy in hot pursuit of the presidency. The group-reasoning runs as follows:

John F. Kennedy, a decent sort, was rather diffident at first over his victory in 1960. He polled less than half the popular vote, and his margin over Nixon was fractional. President Kennedy was always frank in saying that he did not regard his election a mandate. This was his answer when some of his radical advisers and critics expressed disappointment that the New Frontier was not a more daring enterprise in its first two years.

PRESIDENT KENNEDY also said, and was so quoted, that Gov. Rockefeller as GOP nominee would probably have beaten him. There are men who saw something of JFK in office and who say today that the late President suffered from a guilty feeling that the 1960 election had been stolen for him and that he would not feel truly secure until his expected vindication in 1964.

AS EVERYBODY knows in the press corps, Barry Goldwater drifted into presidential politics only because he expected to be running against John Kennedy. Goldwater thought he could trounce Kennedy, and no one will ever know if he was right. But newspapersmen, for the most part, believe that Kennedy, had he lived, would have handily won a second term and gone on to become a much more confident, decisive and popular figure.

TWO SUBJECTS of subliminal conversation were going the rounds

among Kennedymen, and seeping out to the press, in the weeks preceding the Dallas tragedy. One was the dumping of Vice President Johnson. The other was repeal of the 22nd Amendment which forbids a presidential third term. Dislodgment of Johnson, a pet project of the then attorney general, would have ended any chance for LBJ to get the 1968 nomination, and with the Democratic party's accent on youth LBJ would probably have been shunted aside in any event. Repeal of the 22nd Amendment would have been difficult. The argument being raised against it was that it was a denial of the people's free choice, and a dirty trick perpetrated by the Republican 80th Congress. Newsmen who saw three Kennedys simultaneously in the White House, the Justice Department and the Senate did not regard any power-grab as impossible.

ALL THIS is why there is little surprise among the press corps to find a Kennedy seeking the presidency in 1968. They see it as the working out of an inevitability which neither the Constitution, nor historical precedents, nor the hand of murder, nor war and internal upheaval could avert.

THIS SORT of speculation, serious and semi-serious but not ill-informed, takes place where good fellows get together. They are not Kennedy-haters by any means, but the events of the past eight years have made them near-fatalists on one subject.

None of them is for calling off the election which is a fun-time in our profession. But as the contest approaches, there are uneasy feelings of political predestination.

(Distributed by McNaught Syndicate, Inc.)

Complex-Task Facing Clifford

WASHINGTON — Across the Potomac in the fortress-like Pentagon a new hand is slaving away. Clark M. Clifford has been Secretary of Defense for a month and he has barely got his head above water.

The other day he went out to Burnside Tree for a round of golf for the first time since his immurement, with an audible sigh of relief that at last he could get some exercise. But he had scarcely reached the first tee when an urgent phone call came. He rushed away not to be seen again.

IN TAKING over from Robert S. McNamara he faced a situation of incredible complexity. Neither publicly, except in a brief informal meeting with Pentagon reporters, nor privately had Clifford discussed the complexities of his assignment with anyone outside a small circle of close associates at the top level of government.

His dilemma is further complicated by a series of current closed-door hearings by the Preparedness Subcommittee of Senate Armed Services Committee. The evidence being assembled and soon to be released after classified material is removed casts another doubt on the rapidly rising cost of the Vietnam war. Development of sophisticated new weaponry on which the American deterrent must be based has failed to keep pace with that of the Soviet Union.

AS ONE example, committee members have been shown what they consider convincing evidence that the Soviets have placed in production 13 new and different models of Soviet fighters. These have been photographed by the same satellites with their almost incredible capacity, sufficient, according to one source, to photograph a hat on the ground from

100 miles up. The new Soviet fighters include the MIG-23, the fastest plane in the world at over 3,000 miles an hour. In contrast, committee members note, the last fighter plane placed in production here was in 1955.

ANOTHER EXAMPLE is the top-secret photographs shown the committee of a Soviet STOL, a short-take-off plane, and a VTOL, vertical take-off, in flight. The committee has been told that only recently the Pentagon canceled a contract with the Germans which was the main hope for these advanced types.

THE CONTRAST in submarines is even sharper with the implication that when the committee report is released it will be a shock. The figures McNamara gave out just before stepping out are challenged as grossly inaccurate with respect to nuclear-powered attack submarines, the Soviets having 55 either operational or soon to be against perhaps half that number for the United States either in being or projected. The Navy should be going either under the water or the ice but is moving in only a limited fashion in that direction, the committee will say.

WITH THE increasing concentration on the Vietnam war, in the view of one of the most knowledgeable committee members, America's best brains in the Soviet Union are working intensively to prevent retaliatory missiles from landing on target and in other ways to erode America's deterrent capacity.

But the committee's basic challenge — and to Clifford as well — is McNamara's centralization of decision. The McNamara system, the critics contend, simply did not work in the face of the rapid escalation of the war. (Copyright, 1968, United Feature Syndicate, Inc.)

Lay Groundwork For Seminar

The annual Region Five meeting of Desk and Derrick Clubs is slated here April 19-21 with several guest speakers slated to appear on the programs. Here, Mrs. Doryne Hefner, vice president, and Mrs. S. Gorman, president, of the local chapter, complete the schedule of events.

Desk-Derrick Slates Regional Meet Here

Big Spring will be the site of the annual Region Five meeting of Desk and Derrick Clubs on April 19-21 with headquarters in the Hotel Settles. "Pioneers to Progress—Petroleum to Petrochemicals" is the chosen theme. Registration will begin April 19 at 4 p.m., and a "Pioneer Potluck" hospitality will be the kickoff event of the meeting.

The business session, which begins at 8:30 a.m. Saturday, will fill the morning schedule. The luncheon speaker will be Jerry Jenkins, vice president of Licensing, Cosden Oil and Chemical Company, and his topic will be "Licensing, Passports, Patience, Profits."

A field trip through Cosden's polystyrene complex and color laboratory is scheduled for Saturday afternoon, and speaker for the Saturday evening banquet will be R. A. Paulsen, Special Services Coordinator, E. I. du Pont de Nemours and Company. His subject will be "Prescription for Progress."

The Rev. Tom Strother, Wesley Methodist Church, will present the Sunday morning devotion, and the meeting will conclude at noon following a morning business session.

Registration from the 18 clubs in the region is expected to exceed 200. Region Five is comprised of clubs in Abilene, Amarillo, Andrews, Big Spring, Borger, Breckenridge, Graham, Midland, Monahan, Odessa, Pampa, San Angelo and Wichita Falls, Texas, and Albuquerque, Artesia, Farmington, Hobbs and Roswell, N.M.

Current officers of the local Desk and Derrick Chapter are Mrs. S. Gorman, president; Mrs. Doryne Hefner, vice president; Mrs. Chester Matheny, treasurer; Mrs. Stan Ballou, recording secretary; and Mrs. Bill Horne, corresponding secretary.

Other new officers are Mrs. Phillip Robbins, Fort Stockton; Mrs. Richard Hammer, Lower Valley Woman's Club; and Mrs. Richard Storey, Midland, vice president.

Refreshments were served at the meeting. The speaker said that the purpose of the "Discover America" program is to stimulate greater travel to this country by foreign visitors and within this country by its citizens.

Junior Forum Wins Eight District Awards

The Junior Women's Forum of Big Spring walked off with eight first place awards during the weekend convention of the Western District, Texas Federation of Women's Clubs, in El Paso.

Mrs. Morris Rhodes of Big Spring, district junior club director, modeled her knitted garment in the "Fashions for Fun" style show and competition, and won first place and the privilege of entering the state contest.

Other first places taken by the club were for the president's report, pressbook, Conservation Department, CARE, outstanding club program, Operation Healthy Babies and the Health Division of Public Affairs.

Mrs. Hayes Stripling Sr. of the 1905 Hyperion Club received first place for her president's report, and Spoudazio For Study Club won first place in the Citizenship Division of Public Affairs.

The Woman's Forum took first place for their yearbook entry and second place for their pressbook.

Big Spring made the winning bid for next year's district convention.

Mrs. Richard Dublin of Odessa was elected district president during the sessions held at the Sheraton Motor Inn. Mrs. Dublin, former vice president of the district, will serve a two-year term.

Other new officers are Mrs. Phillip Robbins, Fort Stockton; Mrs. Richard Hammer, Lower Valley Woman's Club; and Mrs. Richard Storey, Midland, vice president.

Mrs. Walter J. Schade III of Ysleta Junior Woman's Club was named Outstanding Junior Clubwoman of the Year of the Texas Federation of Women's Clubs. She was the nominee from the Western District and received the title at the awards banquet Friday. Mrs. J. Conrad Dunagan of Monahan was named Outstanding Clubwoman for 1968 for the Western District.

Mrs. Omar Decker, president of the Howard County Home Demonstration Council, has announced a personal development course will be held Friday at 1:30 p.m. at the First Federal Community Room. Plans were made at the Monday meeting of the council in the HD agent's office. The theme for the meeting will be "Creative Use of Leisure Time."

Mrs. W. N. Norred, Mrs. J. F. Skalicky and Mrs. Ennis Cochran will be program speakers.

Mrs. Decker, Mrs. Alton Underwood and Mrs. A. W. Griffith gave reports on the District Two, Texas Home Demonstration Association, annual spring meeting Thursday in Tulsa.

AAUW Views Art Of Dance

Mrs. John Pearson climaxed the program at the Monday meeting of the American Association of University Women with an interpretive dance of "The Lord's Prayer." Both study groups of AAUW met in the Student Union Building of Howard County Junior College.

Mrs. Pearson discussed the development of the dance throughout the ages and told of the changes that have transpired. She presented the classic form of ballet from "The King and I," and those participating in the dance were Carl Van Fleet, Sue Fannin, Cindy Dietrich, Ethel Green, Ears Miller, Ginger Adams and Joyce Walker.

The next number was an interpretive dance on forms of manual arts, and the music was from "Exodus." The dancers were Linda McWhirt, Carol Perkins, Pam White and Nancy Riddle.

New officers were elected. The slate includes Mrs. W. H. Hallmark, president; Mrs. Star Warford, first vice president; Mrs. Walter Wheat, second vice president; Mrs. Oakey Hagood, secretary; and Mrs. Richard Rossmiller, treasurer.

The regional AAUW conference will be held April 5-7, and Mrs. Hallmark and Mrs. Thomas Ross will attend. Mrs. Hallmark will assist with the program.

Refreshments were served from a table decorated with spring flowers. The next meeting will be Monday in the SUB, HCJC.

Bath Oil Usage Greater In Young

Contrary to what many people believe, young women suffer from dry skin. One survey revealed that the greatest usage of bath oil is among women under 35 who are perhaps more sophisticated in skin-care techniques than their mothers.

Today's bath oils are a vast improvement over the skin treatment used by women in the Renaissance. They plastered pieces of raw bacon on their skin to alleviate dryness.

HINTS FROM HELOISE Terry Cloth Covers Broom To Dust

Dear Heloise: With a few stitches on the sewing machine and an old terry towel, I solved my cobweb and tile floor problem.

I made a terry cloth cover for my broom and it works nicely in place of the regular dust mop, which involves a long drying time after being washed.

I folded the towel lengthwise, stitched it up the two sides and slid the towel over the broom. I use a safety pin to secure the top, but one could use elastic or a drawstring.

I made four covers for my broom and always have a clean one ready for use.

This cloth-covered broom is excellent for using around the edges of a rug. Turned sideways it will go into narrow places. Also, I can lay it flat and dust under my washer and dryer.

Then off comes the cover and a clean one is put on for the next cleaning job.

My neighbor has two dogs and has adopted my "cover-up" idea. She tells me that dog hairs stick as if the terry cloth were magnetized. Mabel Dean

Dear Heloise: I've been married two years and though I'm not yet a classified "senior housewife," I would like to contribute to your column.

Being a housewife is one of the most rewarding jobs in the world, but it can become drudgery if you let it. So I think the key to preventing this is imagination.

If everyday you just move and rearrange a piece of furniture, change knick-knacks around, set your dinner table with those placemats you still haven't used, etc.

Not only will you find yourself happier, your husband will think what a clever woman he married! Mrs. V. Ranieri

Dear Heloise: When draining canned cherries or peaches for recipes, save the juice and boil for a short time with some sugar. It makes delicious syrup for waffles and pancakes! C.D.H.

Dear Heloise: While helping my wife clean

While helping my wife clean

Gardeners Convention

LAMESA (SC) — Mrs. J. E. DuBose, president of the Dawson County Garden Club, and Mrs. J. D. Banta, first vice president and national flower show judge, attended the state meeting of the Texas State Garden Clubs, Inc. March 26-28 when it celebrated its "Forty Fabulous Years."

More than 350 women attended the convention which was held in the Robert Driscoll Hotel in Corpus Christi and presided over by the state president, Mrs. E. O. Barton of Houston.

Mrs. Irene Haddock of Dallas, an instructor of national flower show schools and symposiums, presented a flower arrangement demonstration depicting "Birthdays — Past, Present and Future." Mrs. Russell W. Christenson, floral artist and lecturer from Skokie, Ill., created arrangements depicting "The Fabulous Future" using abstract and lighted arrangements.

"The Rose, Fabulous Flower" was presented by Mrs. Mel Sharpe who used a "hippie" theme. Real specimen flowers were characterized with huge Mexican paper flowers, the colors being described with the use of music and the fragrance by psychedelic lighting.

The Dawson County Garden Club received the president's award at the meeting.

Mrs. Mike Ray was elected president of the Hearers and Doers Sunday school class of Baptist Temple at a Monday meeting in the home of Mrs. Van Perry, 1601 E. 6th.

Mrs. Charles Dunnam was named vice president. Mrs. Benjie Porter led prayer, and Mrs. Ray brought the devotion. Mrs. Bob Newsom reported on a mission which the class will assist when it starts in Laredo during May.

The next meeting will be in the home of Mrs. Dunnam, 1610 Indian Hills.

AT DESK-DERRICK MEETING

Mrs. Paul Van Sheedy Gives Tips On Touring

Mrs. Paul Van Sheedy, immediate past president of the Big Spring Desk and Derrick Club, presented the story of today's interstate highway system in connection with "Discover America" when she spoke Monday evening to the group at the Petroleum Building Sank Bar.

"The interstate highway system, which is due for completion in 1974, will enable coast-to-coast driving without a traffic light or stop sign," said Mrs. Van Sheedy. Although operating costs to motorists are part of these well-designed facilities, the important factor is that one life can be saved for every five miles built each year.

State and federal gasoline taxes, which now average 10 1/2 cents per gallon, are the major source of revenue which means that highway users are paying the entire cost of the interstate highway project, already almost 60 per cent complete.

The speaker said that the purpose of the "Discover America" program is to stimulate greater travel to this country by foreign

FRESH WIT, GOOD HUMOR, QUOTING CLASSICS

Fronts Promising More Showers

Occasionally heavy thunderstorms, showers, drizzle and fog dampened most of the eastern two-thirds of Texas this morning.

Forecasters looked for still more April showers—the sort calculated to bring May flowers—tonight and in most areas Wednesday.

Three distinct weather fronts contributed to the state's weather pattern and the outlook for the next couple of days.

Remnants of a dying push of cooler air which arrived during the weekend were dissipating in early morning along a line linking Laredo, San Antonio, Austin and Lufkin.

This was credited for occasionally heavy rains Monday night and early today, with measurements ranging up to 2.60 inches at Tyler and sizable amounts at some other East Texas points.

A second front approaching from the Pacific was expected to shove into West Texas near nightfall, and forecasters looked for a third and colder one showing southward from Canada to move into the state about 12 hours later.

These conditions were expected to produce scattered thunderstorms tonight across the northern half of Texas and noticeable cooling Wednesday, with temperatures as low as 35 degrees in the upper Panhandle.

Scattered showers were promised in southern sections of the state but forecasts called for the readings there to drop no lower than the 50s to 60s.

Top marks Monday ran as high as 84 at McAllen and 83 at Brownsville in the Lower Rio Grande Valley. Lubbock and Childress were the coolest reporting stations with highs of 53.

Before dawn today the temperatures ranged from 42 at Dalhart in the Panhandle up to 73 at Brownsville.

Westbrook Contestants Selected

WESTBROOK (SC) — Names of students from Westbrook Junior High and High School who will compete Friday in Class B University Interscholastic League contests were announced today. Competition will be held in Hermligh.

High school contestants and the events they will enter include Junior Odeon, poetry interpretation; Eddie Ranne, prose reading; Gary Matlock, number sense, typing and tennis; Cynthia Richardson, poetry interpretation, ready writing.

Also Patricia Bell, science, prose reading and shorthand; Karen Hubbard, typing; Robert Chambers, tennis; Sue Bell, ready writing; Christine Head and Wanda Whitehead, poetry interpretation.

Eighth grade students include Dwayne Kelly and Rogena Doss, oral reading, and Roxanne Moore, math and ready writing.

Seventh grade students include David Sweat, math; Larry Miller, Charles Smith, Randy Anderson, oral reading; Donnie Rich, ready writing and spelling; Teresa Silvera, math and spelling.

Instructors are Mrs. Sam Scroggins, spelling; Charles Pope, typing and shorthand; Ralph Bryant, science and math; Maxey Ware, prose and poetry; ready writing and oral reading.

Delegation Maps Convention Bid

A delegation from the Big Spring Chamber of Commerce will be in Brownwood Saturday to make a bid for the District 2-A Lions Club convention in 1969.

Spearheading the bid for the convention is the Tourist and Convention Committee of the Chamber with Jeff Brown as chairman.

The Chamber has been notified that the Western District of Texas Federation of Women's Clubs has accepted the bid submitted by the C-C for the 1969 convention to be held in Big Spring. The bid was accepted at the 1968 convention held in El Paso this past weekend.

Farmers Union Unit Due Charter

Vernon Chandler, Midland, temporary chairman for the Midland County Farmers Union, said today that the newly established Farmers Union unit will receive its charter on Tuesday, April 9, at 8:00 p.m., in the Aloha Room of the Sands Motel.

Jay Naman, Waco, state FU president will make the charter presentation and discuss farm program developments. The state farm organization leader has recently returned from Washington where he testified before committees of Congress on proposed farm legislation.

Local Building Permits Drop

A total of 19 building permits in the amount of \$53,231 were issued for the month of March, 18 permits less than one year ago.

Also issued were 46 electrical permits, nine plumbing permits, one sewer tap and one water tap.

Construction has leveled off since January, when 18 permits totaling \$103,063 were issued. Al Milch, 2701 Rebecca, acquired two new residence permits for construction at \$14,000 each at 4054 Vicky and 2513 Ann. Bob Spears, Gall Route, obtained a \$7,000 permit to build a car lot at 1300 E. 4th.

WEATHER

NORTH CENTRAL TEXAS: Cloudy tonight. Scattered thunderstorms tonight and Wednesday morning. Partly cloudy and turning cooler Wednesday afternoon. Low tonight 32 to 37. High Wednesday 42 to 47.

NORTHWEST TEXAS: Partly cloudy tonight and in south Wednesday. Scattered thunderstorms tonight, ending in extreme easterly Wednesday morning. Cloudy in north Wednesday. Turning cooler in south Wednesday. Much cooler in Panhandle Wednesday. Low tonight 38 in northwest to 56 in southeast. High Wednesday 42 in northwest to 68 in southeast.

SOUTHWEST TEXAS: Partly cloudy, windy and turning cooler with scattered thunderstorms tonight. Decreasing cloudiness and cooler Wednesday. Low tonight 45 to 57. High Wednesday 62 to 72.

WEST OF THE PECOS: Partly cloudy, windy and cooler with a few isolated thunderstorms, mostly in east, tonight. Fair and cooler Wednesday. Low tonight 40 to 52. High Wednesday 65 to 75.

Weather Forecast

Snow flurries are forecast for Tuesday night in the Rockies, along with colder weather. Rain is due from Minnesota to Colorado, and showers are slated for the Mississippi River valley. Warmer temperatures are due in the eastern part of the U.S.

McCarthy Campaigns Like Stevenson

MILWAUKEE, Wis. (AP) — The benevolent spirit of the late Adlai E. Stevenson must be hovering delightedly over the campaigning of Sen. Eugene J. McCarthy, D-Minn., for the Democratic presidential nomination.

Like Stevenson, whom he admired greatly, McCarthy is imparting a freshness of wit and good humor to the ordinarily dull grind of grubbing for votes.

There is one difference. Stevenson, twice his party's presidential nominee, loathed primaries. He complained that all of the chores of making set

speeches, ploughing through crowds grasping every hand in sight and attending cocktail parties for local political bigwigs didn't give a man time to think.

McCarthy, on the other hand, seems to take all of this traditional campaigning in stride. He never had so much national

Rousing Welcome

Vice President Hubert Humphrey talks to the crowd after a rousing welcome last night at Andrews Air Force Base. A large crowd of supporters was on hand to greet him on arrival from Mexico City. Humphrey didn't talk of any political plans. Mrs. Humphrey stands beside her husband. At rear of the Vice President is Secretary of Agriculture Orville Freeman.

HUMPHREY DELAYS DECISION

President Will Discuss Unity With Sen. Kennedy

WASHINGTON (AP) — Vice President Hubert H. Humphrey heads for a crucial meeting with President Johnson after telling supporters he'll say "later on" whether he will seek the presidency. Humphrey said they would meet today. Johnson also has on tap a meeting with Sen. Robert F. Kennedy, who already is contending for the Democratic nomination, with no date announced. Kennedy requested the

Lectures Planned By Dr. Grollman

Dr. Arthur Grollman, well-known lecturer and member of the faculty of the University of Texas Southwestern Medical School, will be at the Big Spring Veterans Administration Hospital Wednesday and Thursday as physician in residence. All physicians in the community and surrounding areas are invited to attend the lectures which Dr. Grollman will present daily in the first floor training room of the VA Hospital. Lectures will be from 11 a. m. until noon each day and from 3 to 4 p. m. on Wednesday. The Thursday afternoon session will be from 2 to 3 p. m. Subjects for Dr. Grollman's lecture include: Wednesday, "Mechanism of Action of Antibiotics as a Basis for their Clinical Use" and "The Penicillins"; Thursday, "Use and Abuse of Adrenal Corticosteroids in Clinical Practice and Addison's Disease" and "The Newer Antibiotics."

Senate Maps Answer To New Tax Hike Appeal

WASHINGTON (AP) — The Senate is reading an answer to President Johnson's latest appeal for a tax increase. Senate Democratic leaders voiced hope of getting a vote today on a 10 per cent income tax surcharge offered as a rider to a House-passed excise tax bill. The auto rates telephone service excise and the measure would extend dropped automatically Monday. But the government has asked the companies to continue to collect them at the old rates since Congress is considered certain to extend them retroactively.

KEY TEST

The key test on tying an income-tax increase to the bill will come on a package amendment sponsored by Sens. John J. Williams, R-Del., and George A. Smathers, D-Fla. This proposal also contains a \$6 billion spending cut and other expenditure controls. Smathers said he felt Johnson's Sunday night speech had given the amendment an important boost. The President not only renewed his plea for the tax hike but said he would go along with budget reductions voted by the Congress.

However, Williams said it would be a mistake to view the speech as an endorsement for the package amendment. The Delaware Republican said he checked high administration officials and was told they were not supporting the package. They opposed it strongly in Senate Finance Committee hearings.

FEDERAL ROLLBACK

Sen. Russell B. Long, D-La., floor manager for the legislation, said the administration still finds the specific spending

meeting to discuss national unity following Johnson's startling announcement Sunday night that he won't seek or accept re-nomination.

REQUEST GRANTED

Johnson told newsmen Monday he would grant Kennedy's request. Johnson's announced exit prompted Sen. Eugene J. McCarthy, another Democratic contender, to make last-minute efforts to counter a potential sympathy vote for the President in today's Wisconsin primary.

In a nationally broadcast speech on primary eve, McCarthy said Johnson's decision not to run again "deserves, I think, the approval, the honor and the respect of every citizen of the United States."

Humphrey, who was on a diplomatic mission in Mexico when Johnson made his decision public, stepped from a plane into the chilly Washington air late Monday night and got a warm welcome from about 500 persons, many of them bearing placards urging him to run.

"I will meet with President Johnson tomorrow and I shall be talking to you later on," Humphrey told them.

Standing behind him as he read his statement was Secretary of Agriculture Orville L. Freeman, a former three-term governor of Minnesota who was Humphrey's protegee early in their careers.

FREEMAN MUM

Freeman made no comment about whether he would back a Humphrey bid but Sen. Harrison A. Williams Jr., D-N.J., who also was in the crowd, said he would support such a bid. A Humphrey bid apparently would also attract support

among Democratic leaders and labor chiefs. An Associated Press poll showed that some Democratic national committeemen and governors would look toward Humphrey although a large percentage of them expressed hope Johnson would change his mind and a few mentioned a draft-Johnson attempt.

Humphrey's name came up repeatedly in a spot check of the Democratic party's labor wing in Washington.

One union president—Thomas W. Gleason of the International Longshoremen's Association — said Humphrey was a working liberal "long before any of these guys with the long hair stood up."

Nixon Says He Favors Short Moratorium On Viet Slams

NEW YORK (AP) — Richard M. Nixon says he favors a two-to-three week moratorium on criticism of President Johnson's Vietnam policy "while we explore this avenue for peace."

The leading contender for the Republican presidential nomination said Monday he would hold off making "the comprehensive statement on Vietnam which I had planned for this week."

TALK PREPARED

But he added the statement was "all prepared and will be ready to deliver if the bombing pause fails to produce meaningful negotiations and a reduction of the fighting. I hope this is a speech that is never delivered."

The former vice president, in the city for the day, made his remarks in a prepared statement and in a subsequent television interview with CBS News. Today he returns to Wisconsin for the primary with a stopover

enroute in Cincinnati where he planned a news conference.

Nixon praised the President for his peace efforts but emphasized his view that "a bombing halt by itself would not be a step toward peace."

He said he assumed the president "would not have announced a bombing halt under present conditions unless his action was based on private diplomatic information available only to the government."

"I further assume that intensive and delicate diplomatic moves are now under way, possibly involving the Soviet Union," he said, adding that he decided on a moratorium "in order to avoid anything that might even inadvertently cause difficulty for our negotiators."

MISTAKE?

Nixon said, "I think that if this bombing pause has been agreed to or initiated because of

some assurances that the administration has that it's going to bring some progress, then it would be a very good step."

"We'll know, I would say, within two or three weeks whether this pause was based on that or whether it was simply unilateral desperate action," he said. "If it was the latter it was a mistake."

He declared that "unless this bombing pause does produce some real progress toward peace, the disillusionment in this country is going to be very, very strong and the reaction will be to do more on the military side."

Nixon said the United States should remember that most U.S. casualties in the Korean War were suffered "after peace talks began and that a weak settlement in Vietnam would encourage further Communist aggression."

IT TOOK SUPREME COURT FOUR YEARS TO SPIN OUT

Local Apportionment Revolution

By BARRY SCHWEID WASHINGTON (AP) — Propped by logic and an extra-large dosage of judicial activism, the Supreme Court has spun out the revolution it began in March, 1962, when it gave federal courts jurisdiction over malapportioned legislatures.

If state legislatures must be based on districts that are substantially equal in population, as the court said in June, 1964, they must be, shouldn't city, town and county governing bodies that are creatures of these legislatures be bound by the same rule?

It took almost four years and a few false starts, but Monday five justices decided the logic was inexorable.

"The actions of local government are the actions of the state," Justice Byron R. White reasoned. Logically he found little difference between the exercise of state power through legislatures and its exercise by

election officials in the cities, towns and counties. The logical simplicity was what appeared to irk most of the three dissenters. Thurgood Marshall, the ninth justice, did not participate.

Potter Stewart scorned the use of "sixth-grade arithmetic" to resolve subtle problems of constitutional law. Abe Fortas, said his colleagues

Midland Mayor Hails High Court's Decision

MIDLAND, Tex. (AP) — "This wasn't a case for the timid or the weak at heart," Midland Mayor Hank Avery said Monday in applauding the Supreme Court's extension of "one-man, one-vote" rule to county and city government.

His comment followed the high court's 5-3 decision reminding such government units that the Constitution expressly prohibits "the election of local government officials from districts of disparate size."

COSTLY ACTION

Previously the Supreme Court ruled that boundaries of congressional and legislative districts, starting in 1962, must be drawn to give voters substantially the same voice in picking their representatives.

"It was an expensive endeavor but well worth the cost," Avery said in the suit he filed Sept. 24, 1962, over the election of Midland County commissioners.

His challenge was directed against the choosing of commissioners from four districts while all but about five per cent of the population resided in one district, made up of the city of Midland.

LAUDS LAWYERS

Avery said there was considerable opposition even within his

city to his court case. "The opposition was so bad," he said, "I had to go outside of Midland to find lawyers to represent me."

He applauded the successful handling of the case by William A. Olson of Houston and Lyndon Olson of Waco. Their initial verdict in a Midland trial court was won in May of 1964.

Says Towns Often Art 'Wasteland'

AUSTIN (AP) — Big cities have most of Texas' cultural activities while small towns are often a cultural wasteland, Gov. John Connally said Monday.

He challenged the first Governor's Conference on the Fine Arts to make enjoyment of the arts statewide, to give the arts a greater role in the schools and to help keep Texas talent at home.

"The smaller cities and towns of Texas, with people, especially young people, just as eligible as anybody else to experience the arts, are still unawakened," Connally said.

He suggested the development of the arts in Texas can be achieved to some extent "by spreading the plenty found in our cities over the areas where there is paucity."

Rep. Jim Wright said Johnson still was his first choice for president, Humphrey was his second and he had no third choice.

Wright said Johnson "has been consistently hounded, harassed, badgered and mistrusted" and that his "shocking decision" was needed to impress skeptics that he meant what he said in seeking peace.

Reps. Graham Purcell and Jack Brooks joined in favor of seeking a Johnson change of heart.

"I was shocked to hear it," said Rep. George Mahon. "I will approach with great caution the matter of supporting someone else. It's too early to evaluate candidates."

"It just leaves one big vacuum in Texas," said Rep. Omar Burleson. "Who have we got besides Kennedy, McCarthy and Humphrey?"

"Of course, there's always

of dissenters. The die is cast. The remaining question is how cities, towns and counties will get in line with Supreme Court-made law.

At the beginning of 1967 there were 81,253 units of local government in the United States. This includes 3,049 county governments, 18,051 municipal governments, 17,107 township governments, 21,782 school districts and 21,264 other special districts.

The number and variations are staggering. Some 20,000 to 23,000 elect officials by district. It is these that are most directly affected by Monday's decision. Many already are in line with one-man-one vote. Additionally, the state supreme courts of California, Maryland, Minnesota, Missouri, New York, South Dakota and Wisconsin have applied the principle to local governments.

SCHOOL DISTRICTS Those that are not in line and that exercise what White called "general governmental powers" will have to get in line. Some will do so voluntarily. Others will be directed to do so by their state legislatures and a third group, probably a minority, will hold off until they are ordered to comply by courts. As for the remaining 60,000 lo-

cal bodies, the ruling serves largely as an admonition that if they ever adopt the election-by-district system they cannot draw districts substantially unequal in population.

Some of these 60,000 may be exempt. White's decision hinted there may be exceptions in the case of the "special purpose unit of government." The decision is not explicit, however, and the question of application awaits future court actions.

Among the school districts, the impact of the ruling appears limited. Most school board members are elected at large.

Morgan Looks To Best Year In Baseball

COCOA, Fla. (AP) — Joe Morgan has lost a running mate, but the littlest Astro expects to set a faster pace on his own this summer.

THINGS TO CHANGE
'I've missed about 30 or 40 games each season since my rookie year, but it'll be different this year if I can help it.'

Morgan will have a new double play partner in 1968. Shortstop Sonny Jackson, who teamed with Joe in the minors before joining him at Houston two years ago, was sent to Atlanta during the winter in a deal that brought pitcher Denny Lemaster to the Astros.

PERSONALLY, from a friend's point of view, I was glad to see him go to the Braves," Morgan said. "He was in a rut with this club and the people in Houston didn't appreciate him as much as they had the year before. The trade should give him a fresh start."

Morgan expects rookie Hector Torres to tighten the Astros' infield as Jackson's likely successor. "We've been working together a lot in camp and there's no doubt Torres knows his way around the shortstop position," he said.

Morgan, however, thinks Jackson's absence won't stop the Astros from finally moving up in the National League after their ninth place finish in 1967, "which couldn't have been more disappointing to me."

LOUPEY REGARD
'I think we can finish anywhere from third to fifth, but I'm not saying that's our limit,' he said. "Anything else wouldn't surprise me either. We have better hitters than we had the Dodgers had when they won the pennant two years ago and our pitching is very strong now."

Morgan's speed paid off in one respect last season. In 49 at-bats he hit into only two double plays.

Longhorns Seek 2nd League Win Today

Encouraged by a come-from-behind victory at the expense of Odessa High, the Big Spring Steers try to make it two District 2-AAAA baseball wins in a row against Abilene Cooper in Abilene today.

Starting time is 4 p.m. This is the first road game of the conference season for the Steers, who are 12-3 on the year and 1-1 in family tilting.

Either Thomas Ham or Junior Mendoza will charge the hill for the Longhorns. Ham is 2-0 while Mendoza boasts a 3-3 record.

Cooper is the defending champion in the circuit but has compiled no better than a 6-6 record over all this year.

Larry Hoff (3-0) likely will pitch for the Cougars while Bob Boyer and Richard Vannoy will be available for relief duty, in event they're needed.

Other Cooper starters could be Randy Allen, shortstop; Harrington, first base.

In their first league assignment, the Cougars smashed Odessa, 4-2. Midland Lee handled the Cooper team in its start, however, 4-2.

Coach Oakay Hagood of Big Spring is apt to start Gary Don Don Newsom behind the plate, James Newman at first base; Felix Martinez at second; Tony Martinez at third; Bill Hurchett at shortstop; Dean Gilstrap in left field; R. J. Englert in center and Ronnie Wright in right.

Cooper managed only four hits against Lee but that was two more than Big Spring managed off Odessa pitching.

The Steers will also be on the road Saturday, tangling with Permian in Odessa.

Five players previously under contract are Rod Laver, Ken Rosewall and Fred Stolle, all of Australia; Andres Gimeno of Spain and former U.S. champion Pancho Gonzales.

The NTL makes its United States debut in a tournament at the Forum here, April 7, 9 and 10 with much of the interest centered on the girls.

Billie Jean believes the entry of the women will bring more interest in tennis among younger girls.

"It should create motivation and more purpose," she declared. "In this country, if you're a pro—you're somebody. If you're an amateur, you're nobody."

She also looks forward to open tournaments such as those in England this year... at Bournemouth later this month and at Wimbledon in July.

MacCall did not divulge the exact money involved in the contracts and the earnings ultimately will reflect how the players do in the tournaments.

He did say Mrs. King was guaranteed between \$40,000 and \$50,000 with the opportunity to earn up to \$70,000. The other women are expected to earn in the \$25,000 vicinity and Emerson with a guarantee of about \$75,000, could earn up to \$100,000 for each year of his two-year pact.

GRAPEFRUIT BASEBALL
MONDAY'S RESULTS
Boston 1, Atlanta 3; St. Louis 3, Chicago 4; Houston 2, Detroit 3; Philadelphia vs. St. Louis at St. Petersburg, Fla., night.

WEDNESDAY'S GAMES
Atlanta vs. New York, A. of Fort Lauderdale, Fla.; Cincinnati vs. Pittsburgh at Tampa, Fla.; Houston vs. Detroit at Cocoa, Fla.; Philadelphia vs. St. Louis at St. Petersburg, Fla., night.

SANDS WILL KEEP CAGE ALIGNMENT
Sands High School, which will field an 11-man football team for the first time next fall, will keep its old alignment in basketball and other sports.

HANK POPE WINS MOUND DECISION
ABILENE — Although he had to have relief from Randy Seney in the seventh inning, Hank Pope of Big Spring received credit for Sul Ross College's 1-0 victory over Abilene Christian College here Monday afternoon.

Fem Net Star Opens Tour In LA Forum

INGLEWOOD, Calif. (AP) — "I don't think people look on a sport these days unless money is involved," says Billie Jean King, the tennis queen who could make \$70,000 playing the game during the next year.

Mrs. King, Ann Haydon Jones of England, Francoise Durr of France and little Rosemary Casals of San Francisco signed contracts Monday to play with the new National Tennis League.

Also joining the pros was Australian Roy Emerson who could earn up to \$100,000 for each of the next two years.

Contracts for the five were announced by George MacCall, former United States Davis Cup captain who is now president of the pro group.

Five players previously under contract are Rod Laver, Ken Rosewall and Fred Stolle, all of Australia; Andres Gimeno of Spain and former U.S. champion Pancho Gonzales.

The NTL makes its United States debut in a tournament at the Forum here, April 7, 9 and 10 with much of the interest centered on the girls.

Looking 'Em Over

SPORTS DIALOGUE: RON FIMRITE, San Francisco scribe: "Just when one feels prepared to ignite boxing's funeral pyre, the corpse revives. In fact, I should say, despite the monumental confusion evident in the heavyweight division — or perhaps because of it — boxing is in better shape now than it has been in several decades. New arenas, such as those in Oakland and New York, have, of course, contributed to the economic renaissance. But, artistically too, there has been dramatic improvement. There are attractive champions now in the divisions from welterweight through light-heavyweight. I am particularly enamored of welterweight Curtis Cokes, a veteran professional who is only now beginning to receive the acclaim long due him. Cokes is one of those master boxer-punchers who have historically made his division one of the more entertaining."

CHICAGO DAILY NEWS: "In 1939 the Chicago Cubs were training at Catalina Island, hoping to retain the championship they had won in 1938. Toward that end, they traded shortstop Billy Jurges to the New York Giants, for shortstop Dick Bartell. Bartell had a sharp tongue. On his way to a workout he noticed two portly sportswriters watching the action. "When does the balloon go up?" cracked Bartell. One of the writers turned purple. He never forgot the insult. A colleague recently recalled: "He had it in for Bartell all season. He was the official scorer and whenever Bartell made an error, he'd yell, 'Another boot for Bartell.' He never let up on him all season. He rode him mercilessly in his stories. Bartell couldn't do anything right, according to him." The stiff treatment began affecting Bartell's play. Ordinarily, he was a good hitter, having batted over .300 six times in his career. But that year, he fell off to .238. His fielding was affected. And the Cubs dropped into fourth place in 1939."

DR. RHEA WILLIAMS, director of the University Interscholastic League: "No state in the Union can take care of the crowds that want to see a state basketball tournament. In Illinois, they have 18,000 unheated seats and they have just as much trouble as we have with people wanting to get in."

JOHNNY MURPHY, general manager of the New York Mets: "The old Met image of being lovable simple bums is being changed. The fans have been wonderful and patient, but they want us to win now. They want better performance and our aim is to give it to them."

BOB ST. JOHN, Dallas scribe: "Some 500 fans met the Houston Cougars' funeral plane at the Houston airport (on its return from the team's NCAA game with UCLA). One guy said they were picketing."

GOLFER TOM WEISKOPF, discussing Jack Nicklaus' recent troubles: "It all stems from the fact he broke his favorite driver two years ago. I personally think if he'd just get one and stick with it he would be all right but he's bound and determined to find just the right one."

THE ARKANSAS GAZETTE, discussing a meeting to reclassify schools (athletically) in that state: "One of the coaches at the meeting alleged that several Negro junior highs were using players who were ineligible because of age. He said he was tired of playing his 13 and 14 year olds against players with mustaches and goatees."

WARREN WOODSON, who compiled one of football's winningest records, will succeed Bob Polk as athletic director at Trinity. Polk resigned the post to devote full time to coaching basketball.

DON ROBBINS, former head coach of the Big Spring Steers, has taken a coaching job under Bill Meek at the University of Idaho.

ROBBINS RESIGNED RECENTLY from the coaching staff at the University of Texas at El Paso to sell insurance but decided he liked coaching better.

HIS FAMILY PLANS TO REMAIN in El Paso until school is out. Meek formerly was head coach at SMU.

Dear Abby That Swinging Widow

DEAR ABBY: My wife died a year ago and, this lady I'm interested in has been a widow for two years. We knew each other way back "when."

Before I renew our friendship I'd like to ask you a few questions. Since her husband died, this lady has had several men staying with her (one at a time) in her two-bedroom trailer. I also heard that she has visited an old farmer at his farmhouse (just the two of them) for days at a time.

Last week she headed for Arizona with another old buddy in his camper truck. She said she planned to sleep in motels on the way, and he would sleep in the truck, but she didn't say where they would sleep once they got to Arizona. Now, Abby, a man doesn't want to marry a woman who has a bad reputation. She's the talk of this little town, but she

is really a very high-class lady and everybody likes her. What is your advice?

WAITING TO HEAR
DEAR WAITING: It seems almost a disservice to the community to take this aging swinger out of circulation — if indeed you could. But if you regard this woman as a "high-class lady," any advice I could give you would fall on deaf ears. And your vision isn't too good, either.

DEAR ABBY: I am a 21-year-old Catholic girl secretly married to a 27-year-old Jewish boy, Sheldon (made up name) and I were married by a justice of the peace, intending to announce it later on. Now it seems that Sheldon doesn't want to announce it at all.

You see, Sheldon is a mama's boy, and his mother hates me. When we were married Sheldon promised he would marry me later in my church. Now he refuses. He wants to rent a furnished room and put me there and come to see me whenever he wants to, and then go home to mama without anyone knowing we are married. I've talked to a lawyer and I've also talked to my priest. The lawyer says I should file for divorce. The priest says I am not married in the eyes of the church. I still love Sheldon and don't want to break up with him, but if we can't live out in the open like decent married people, I don't want to go on like this. What should I do?

KATHY
DEAR KATHY: It would appear that Sheldon is not a "keeper." So unless he agrees to marry you in your church and accept the responsibilities of marriage, send him home to mama — permanently.

DEAR ABBY: As "The Pill" 100 per cent foolproof?

MUST KNOW
DEAR MUST: Nothing is 100 per cent "foolproof" in the hands of a fool.

Heart Pump Record Set

HOUSTON (AP) — Ralph Thiers, 43, of Horsham, Pa., remained in critical condition today as he continued to set an apparent record for using an artificial heart pump.

Thiers received the device 13 days ago from doctors at Methodist Hospital where he underwent an operation to replace a diseased mitral heart valve.

The bypass is designed to assist the pumping of the heart's left ventricle, which is the main pumping chamber. Intended only for temporary use, the pump enables the natural heart to gain strength, doctors said.

Five of the seven former heart pump patients died from other complications, doctors said. Marta Acuman, 16, of Yugoslavia received the pump for 11 days, and remains hospitalized here with kidney complications. Mrs. Esperanza del Valle Vasquez of Mexico City was released from the hospital September, 1967.

Promotion Panel To Meet Thursday

Advertising and Promotion Committee of the Big Spring Chamber of Commerce will hold its organizational meeting Thursday at 3 p.m. in the conference room of the C-C, according to Glenn Coates, chairman. Jim Baum is serving as coordinator on the committee to the C-C board of directors.

Horoscope Forecast

FOR TOMORROW
—CARROLL RIGHTER

GENERAL TENDENCIES: A day and evening when there are out to be many friends and when promises made are apt to be broken or under severe strain, so do not be too demanding of others and realize also that you are subject to such pressures as well. Carrying through with whatever agreements you have made brings you out of any adverse situation. Keep cheerful.

ARIES (March 21 to April 19) You may get letters that are not to your liking or which you do not care to read, but keep calm and handle intelligently. Search for mistakes in statements, etc. Take some time for contentment.

TAURUS (April 20 to May 20) Instead of worrying about money, get busy with those ideas you have that can increase abundance quickly and ethically. Be practical but very broad-minded for best results. Show that you have fine business acumen.

GEMINI (May 21 to June 21) You feel discontented and so need to calm down early in the day or you can make some big mistakes, both written and oral. Get your health improved. Forget fun until you feel much stronger and cheerfulness.

SCORPIO (Oct. 23 to Nov. 21) Go ahead with ideas you have to pay your accounts without further procrastination or thinking you can get away with avoiding them. Don't be forceful with one you love in a moment. Remain bold.

SAGITTARIUS (Nov. 22 to Dec. 21) Don't try to clear up that situation with one who has not been amicable of late; wait for a better time. Show partners you really support them, like them. Be loyal to the nth degree. Retire early tonight.

CAPRICORN (Dec. 22 to Jan. 20) Persevere with work ahead of you instead of thinking it boring or feeling you cannot do it. Plan time wisely and all goes well. Take that treatment you need for better health and more vitality.

AQUARIUS (Jan. 21 to Feb. 19) Although you want recreation, be sure it is not of the very expensive kind that would not be satisfying anyway. Listen to the troubles of friends and give them the assistance they need. Be kind, generous.

PISCES (Feb. 20 to March 20) Do what you expect of you to do on March 20. You may not quite understand the reasoning behind it as yet. Take care you do nothing to spoil the security you now enjoy. Add to it instead in a very practical way.

IF YOUR CHILD IS BORN tomorrow he or she will be one of those fascinating young people who is constantly wanting to make changes. But if you indicate the importance of steadiness, your clever progeny will then make a wonderful success in life instead of becoming a lack of all trades and master of none. The field of selling is ideal here, especially.

LT. GOVERNOR—1

Equally Important Race

By LEE JONES
AUSTIN (AP) — Governors often feud with him. House members cuss him and resent his power. Interest groups cater to him as a man who can block or push their programs more effectively than just about anybody in state government.

Obscured by this year's wide open governor's race is an issue-filled contest among four men who want to become this powerful officeholder, the lieutenant governor of Texas.

Senate rules and the development of the post in the last two decades by the men who held it have made the lieutenant governor a man with broad power over the course of legislation. If a senator wants to pass a bill, the lieutenant governor decides which committee must approve it first. Once the bill is out of committee—if it ever is—the lieutenant governor can look the other way every time

the sponsor seeks recognition to bring it up for debate on the floor if he opposes the measure. His rulings on disputed points of parliamentary procedure can bring life or death to a bill. He hand picks committees and committee chairmen, generally

giving the key appointments to those who think as he does about major issues.

An unending lieutenant governor can be disastrous to a governor's program. "In no state is there a parallel of the strong legislative position of the lieutenant governor in Texas," Dr. J. William Davis of the Texas Tech government department said in his recent study of the post. "There shall also be a Lieutenant Governor."

"None of the candidates has any Senate experience. Three Democrats are campaigning for the job—Speaker Ben Barnes, Rep. Don Gladden of Fort Worth and Gene Smith, a former state representative and Tarrant County district clerk.

Running unopposed in the Republican primary is Douglas R. DeChitt, 33, a Waco investment banker.

Barnes is expected to receive most of the support from the conservative Democrats, although he is getting some liberal help as well. Gladden represents the liberal wing of the party. Smith calls himself an "independent conservative Democrat" but apparently lacks Barnes' heavy conservative backing.

Each has picked certain issues to hit hard in their campaign appearances. With Barnes, it's crime. He has offered a 12-point program, including a state police academy for local officers, better juvenile and adult probation systems, judicial determination of punishment and uniform crime reporting.

Gladden attacks the way Barnes ran the House of Representatives, claiming he deprived members of their right to cast independent votes, was too chummy with the lobby and worked too closely with the governor.

Smith issued a seven-point program, including opposition to liquor by the drink, retaining the so-called right to work laws and creation of a state-trained volunteer force from all races to prevent rioting.

DeChitt, without a primary opponent, has not campaigned much. In one of his few campaign statements, he said education should receive more attention.

Paris, Texas, (AP) — Three new officers of the newly organized Red River Valley Council for the Aid of Persons With Mental Problems, Inc. have been elected. They are W. M. Stribling of Mount Vernon as vice president, Mrs. Gwen Pickering of Cooper as secretary and L. W. Bassett of Paris as treasurer. Elected earlier as president was the Rev. C. E. Fortman of Paris.

Officers Elected
PARIS, Texas, (AP) — Three new officers of the newly organized Red River Valley Council for the Aid of Persons With Mental Problems, Inc. have been elected. They are W. M. Stribling of Mount Vernon as vice president, Mrs. Gwen Pickering of Cooper as secretary and L. W. Bassett of Paris as treasurer. Elected earlier as president was the Rev. C. E. Fortman of Paris.

Snyder Hosts Hospital Group

The city of Snyder was host to the patients from Unit 5 of the Big Spring State Hospital at a picnic held Friday in Towle Park.

Mrs. Maude Harrison, Mrs. Eva Allen and Mrs. Eunice Wethersbee were in charge of the day's activities which were supervised by 14 Snyder volunteers.

Lunch was served to 36 patients after singing, games and walks in the park. The patients were taken to Snyder by bus and private automobile.

Unit 5 patients are from Howard, Scurry, Martin, Mitchell, Borden, Dawson and Fisher counties. Hospital staff members attending were Dr. Frankie Williams, Mrs. Dorothy Hassell, Miss Elvira Rios, Desmond Powell, Mrs. Mildred Bennett, Mrs. Betty Duncan and Mrs. Dorothy Baker.

Take Junket

Mrs. Mildred Bennett, program director, and Mrs. Dorothy Baker, office manager of the Volunteer Grant Project at the Big Spring State Hospital, will be in Austin Wednesday and Thursday to learn new administrative procedure for their program which is being put into effect by the Governor's Committee on Aging.
