

ONE, DEAD, FIVE MISSING IN HURRICANE'S WAKE

Weak Abby Blows At Moonport

FROM BONHAM

Jack Powell Named To VA Post

Jack D. Powell, 53, presently director of the VA center in Bonham, has been named director of the Veterans Administration Hospital here.

The announcement was made today in Washington D. C. by William J. Driver, administrator of veterans affairs.

The date of Powell's arrival is uncertain, but he likely will precede his family here. With two members of the family in summer sessions at college, the family will not be here until mid-July.

Powell has been with the VA for 22 years, 19 years of it with the VA regional center in Houston.

A native of El Reno, Okla., he is a graduate of the University of Oklahoma where he received his BS degree in 1940. He entered the United States Army Air Force in October, 1940, and served until August, 1946, when he entered the employ of the VA, serving at the Houston regional center until December, 1965, as assistant manager and manager. He then became a hospital administration trainee at Houston, going from there to Bonham Jan. 1, 1967, as director.

His wife, Patricia Ann, is also a graduate of the University of Oklahoma. They have four children, John, 25, who is in the U.S. Army at Fort Lewis, Wash.; James, 19, a student in Texas A&M University, Pat, 18, student at East Texas State University, and Anne, 14, a high school sophomore.

He will succeed Donald Van Meter, who died unexpectedly May 9 when he sustained a massive heart attack on the heels of an attack May 2. He had come here in April, 1964, to direct the hospital's affairs.

HemisFair Perks Up

SAN ANTONIO (AP) — HemisFair's head counter told the fair's executive committee today what they had been waiting weeks to hear: Attendance is picking up at the 92.6 acre world's fair.

Comptroller Jack Trawick, speaking to the fair executive committee's weekly meeting, said attendance is running 12,000 a day over the low point for April.

Trawick said present indications are that HemisFair, which opened April 6, will reach its attendance hopes of 7.5 million by its Oct. 6 closing.

Final Vote Tally

DALLAS (AP) — The final tabulation from the Texas Election Bureau for Saturday's Democratic runoff election shows a total vote of 1,379,741.

In the governor's race winner Preston Smith received 738,654. Don Yarborough had 621,487.

Smith carried 217 counties, Yarborough 36 and one county, Jasper, had a tie with 1,788 for each candidate.

Yarborough lost 17 counties which he had carried in the first runoff. They included such major lodges of votes as Bexar, Cameron, Denton, McLennan, Smith, Tarrant and Travis counties.

'Sock It To 'Em, God'

GLENDALE, Calif. (AP) — A young Roman Catholic priest says he was "praying from the heart, not just words" when he closed his high school baccalaureate benediction with "Sock it to 'em, God."

Cortez High School Supt Howard Roberts said the Rev. William Healy's benediction was misunderstood. The superintendent apologized after it was protested at a school board meeting Monday night.

The Rev. Mr. Healy, said in part, "We ask your blessing on things and people you created. . . Bless hair spray, miniskirts, turndown shirts. For God's sake, bless our parties, religious exercises, the use — not abuse — of narcotics.

"We ask this because we realize you are an understanding God, a swinging God."

Neil McKenzie Killed

Neil McKenzie, 27, of 424 Hillside Drive, was killed instantly in an oilfield mishap near Otis-chalk in southeastern Howard County Tuesday morning.

He apparently fell and was caught by the line on the main drum. The mishap occurred on the Mobil lease at the Owen & Sloan No. 7 well at 10:15 o'clock. The body was brought to the Nalley-Pickle Funeral Home.

Mr. McKenzie was an employe of the Forsan Oil Well Service Company, having joined the company in July, 1964.

SHOWERS

Warmer with a chance of isolated thundershowers tonight. Light, southeasterly winds. High today 90. Low tonight 65. High tomorrow 90. Soil temperature 70 degrees.

PUNTA GORDA, Fla. (AP) — Hurricane Abby moved onto this west coast Florida fishing village today and aimed her diminishing winds and torrential rains across the state toward the nation's moonport on Cape Kennedy.

Behind her five persons were missing and a child was dead, a victim of Abby's flooding.

Flood and tornado warnings were in effect in parts of central and southern Florida.

Abby passed over Punta Gorda at latitude 27 north, longitude 82 west, or 100 miles south of Tampa. The storm harassed

residents with gale winds and two-foot tides. There were no reports of injuries or extensive damage.

Forecasters Arnold Sugg at the National Hurricane Center in Miami said the storm would weaken as it moved north-northeast across the state.

At the moonport, heavy rain was reported. The Air Force and National Aeronautics and Space Administration, ordered equipment vulnerable to gusty winds tied down.

A \$28 million Saturn I rocket to orbit America's first three-

man Apollo crew this fall was left enclosed in its hurricane-proof tower on the launch pad.

Hurricane warning flags flew from Marco Beach to Tarpon Springs on the west coast. Gale warnings along the east coast extended from Miami to Daytona Beach. Small craft were warned to remain in port.

After being spawned off of Mexico's Yucatan Peninsula Sunday, Abby howled across western Cuba, forcing thousands of persons to flee their homes. Then she headed north into the Gulf of Mexico on a stop-go course that pointed the

storm toward Tampa Bay, where a million people live.

But early today Abby swung almost due east and hit the mainland at Punta Gorda.

Officials said Abby spawned floodwaters claimed the life of one-year-old April Geans in Key West. Deputies said she drowned after wandering away from a relative.

Coast Guard search craft located a fishing boat sunk in the storm-whipped surf off Pigeon Key east of Key West. The man reported to have been aboard was not found, officials said.

A second boat, a 34-foot sloop

with two Miami couples aboard, was reported missing near the Dry Tortugas, islands west of Key West.

Abby was a small hurricane when she moved onto the west coast fishing village of Punta Gorda early today and by noon was demoted to a tropical storm. Top winds were estimated at 40 miles per hour.

AS Abby crept northeastward across the citrus belt, tornado and gale warnings were posted on the east coast from Palm Beach to Jacksonville.

Hurricane warnings along the

west coast were lowered.

Weather forecasters said the storm probably would emerge into the Atlantic Ocean between Cape Kennedy and Daytona Beach and continue to skirt the Florida coast as it moved northward, regaining strength.

Forecasters Arnold Sugg at the National Hurricane Center in Miami said Abby would continue to weaken as she moved over land, away from life-giving water.

But he said the storm would be strong enough to survive the overland journey.

French Union Leaders Seek Member Okay

PARIS (AP) — French union leaders went to their striking members today, seeking approval of agreements to get the trains and the Paris buses and subways moving again. The government was optimistic, but there was no assurance the workers would ratify the agreements.

PARTIAL BREAK

The Banque de France resumed operations after being closed two weeks. Hundreds of small and medium-sized factories reopened across the country, signaling a partial break in the paralyzing general strike now nearing the end of its third week. Coal miners also were returning to the job, with normal operations expected Wednesday.

But many of the country's industrial giants were still struck, with no resumption of operations in sight. And until mail deliveries resume, trains start rolling and public transport is restored in the cities, there will be nothing like a return to normal.

Millions of Parisians flooded back into the city after spending the three-day Pentecost weekend in the country. Monster traffic jams built up at all entrances to the capital, and at main intersections.

AGREEMENTS

Transport Minister Jean Chamant announced the agreements with the railway workers after an all-night bargaining session. He told newsmen: "All the union delegates, without exception, told me they would recommend acceptance."

The minister said train traffic could start again Wednesday if the workers ratified the agreements.

Government officials seemed confident that Paris bus and subway employees would vote in favor of a settlement which one union source estimated would give them an extra \$30 million during the year. The average wage increase would be about 10 per cent, and the 45-hour work week would be cut by 2.5 hours by 1970.

The Paris stock exchange, gold and foreign exchange markets remained closed.

Israel Pounds Jordan Guns

TEL AVIV (AP) — Israeli warplanes swept across the River Jordan to hammer Arab artillery positions today on the eve of the first anniversary of the Arab-Israeli war.

Artillery, mortars and tanks kept up a barrage of rapid fire from both sides of the frontier. Columns of black smoke rose from several Arab villages.

The Israeli army announced three Israeli civilians had been killed by shelling of a number of border farm settlements. First reports said at least eight were wounded.

The fighting began before dawn. The Israeli army accused the Arab troops of lobbing a number of mortar shells at the settlements along the river immediately south of the Sea of Galilee.

Later in the morning the Israelis charged Jordanians fired machine guns at laborers in the field.

The Jordanians were reported shelling four settlements along the river during the afternoon. The reaction was the third major Israeli air raid on Jordan this year. Fighter-bombers from Tel Aviv swept along the Jordan Valley March 21, covering an Israeli invasion force of thousands that wiped out Arab commando bases. They returned eight days later to attack Jordanian artillery emplacements.

SALES TAX INCREASE, LIQUOR-BY-THE-DRINK

Big Tax Hike Asked

Legislators Given Connally Proposal

AUSTIN (AP) — Gov. John Connally asked the legislature today to dig up \$125 million in new taxes, including a \$14.5 million levy on the sale of liquor in miniature bottles.

The governor, who continued to make Texas legislative history by recommending legislation for the drink for the second time, spoke to a joint meeting of senators and representatives, soon after the special session opened.

Connally began his brief address with the comment that "You should all be able to be home with your work behind you in plenty of time for celebration of the day of independence of this great country," July 4.

To raise the \$125 million in new revenue that Connally said would be needed for the state's next fiscal year beginning Sept. 1, he recommended:

—\$76 million plus by increasing the present 2 per cent sales tax to 3 per cent, broadening

Local Option Elections

the tax to include cigarettes and tobacco products and to include services such as laundry and dry cleaning, barber and beauty services, property repairs, intrastate telephone and telegraph and storage and repairs to motor vehicles; and abolishing the city sales tax, giving a part of the one cent increase to all incorporated cities on the basis of 1960 population figures.

—\$30.6 million by a one per cent increase in the motor vehicle sales tax, with no distribution to cities.

—\$1 million by a realty transfer stamp tax.

—\$7.5 million by a one-time transfer from the operators' and chauffeurs' license fund.

appropriations and the Senate Finance committees have been holding public hearings for 1969 spending requests and will be ready to make their recommendations within a few days.

Committee work on new tax bills, which must originate in the House, will begin as soon as legislators know the exact difference expected between outgoing and income for the fiscal year beginning Sept. 1.

Pre-session indications were that legislators would be asked only to finance a 1969 balanced budget based on present spending levels with most big spending programs left for the 61st regular session that begins Jan. 14, 1969.

Quick Consideration

However, pre-session plans also called for quick consideration of revised liquor control and riot control regulations in light of developments since the 1967 session ended.

After the primary call for the session is handled, Connally can open debate to any topic subject to the time remaining in the 30-day session. He can call as many 30-day sessions as he thinks necessary.

"If the special session does not get hung up on liquor we should be out of here in 30 days or six weeks," said Sen.

Returns To Scene

President Johnson is besieged by smiling school students at Glassboro State College today at Glassboro, N.J., scene of his historic summit conference with Soviet Premier Alexi Kosygin last year.

LBJ Appeals For Soviet Peace Help

GLASSBORO, N.J. (AP) — President Johnson revisiting the site of his year-ago summit talks with Soviet Premier Alexi N. Kosygin, said today the road to peace in Vietnam will be slow and tough—but it would be less rocky if the United States and Russia "are willing to travel part way together."

Johnson, speaking at commencement exercises at Glassboro State College, made what amounted to an appeal for new, closer American-Soviet cooperation. He said he wanted to move "from war to peace, from hostility to reconciliation, from stalemate to progress."

The President said in the preliminary Vietnam peace talks in Paris the United States so far has "met with little more than bellicose statements and evasions" from Hanoi's representatives.

APPEAL

This was part of his appeal to the Soviets, too, in enunciating his view of a major principle in

the search for peace.

"The road there (in Hanoi) is far less rocky when the world's two greatest powers—the United States and the Soviet Union—are willing to travel part way together," the President said.

Johnson was unabashed in soliciting flatly the good will and help of Russia in seeking an end to the Vietnam fighting and leaving "this world a little more orderly than we found it."

The President told the 1,051 graduates that since his summit meeting with Kosygin at Hollybush, the home of the college president, cooperation between the two nations had reached new heights.

"Although old antagonisms have not been erased," Johnson asserted, "we have proved that our two countries can behave as responsible members of the family of nations."

Johnson left little doubt that he'd welcome more of the same, suggesting new avenues of American-Soviet cooperation in studying the human environment and exploring the world's resources—from ocean floors to

tropical rain forests, Johnson said.

"It is by small threads that we will weave a strong fabric of peace in the world."

The exercises were held outdoors for the crowd of about 7,000.

Johnson said since he and the Soviet premier met here last June 23 and 25 to forge what was then called "the spirit of Hollybush," he believes that the "two great powers" have begun, however haltingly, to bridge the gulf that has separated them for a quarter of a century.

MAJOR ADDRESS

Johnson, taking advantage of the anniversary for this major foreign policy address, acknowledged that peace isn't just around the corner. He emphasized, "We will run into difficulties and painful setbacks" with the correct course of public policy often seeming unclear.

But, he said, the task ahead is to "seek answers not slogans to strive to tip the balance in the right direction."

INFILTRATORS SNEAKING INTO SAIGON

New Cong Troops Enter Battle

SAIGON (AP) — The Viet Cong sent fresh troops into Saigon today on the heels of the heaviest enemy shelling so far of the harassed capital district. U.S. sources conceded that the enemy "certainly could keep the fighting going for quite a while."

NEW FIGHTING

New fighting broke out only a mile and a half north of President Nguyen Van Thieu's Independence Palace, in the heart of Saigon, while government forces were still battling other enemy troops for the fifth day in the western part of the capital and in the northeastern suburb of Gia Dinh, 2 1/2 miles from the city's center.

Military spokesmen reported that South Vietnamese marines and rangers, spearheaded by a column of tanks, mounted a massive attack on North Vietnamese and Viet Cong troops in Gia Dinh this afternoon. The spokesmen said the government troops overran Viet Cong positions and drove the enemy back a mile.

In the western part of the capital, the Chinese section called Cholon, government forces were still trying to root out rocket-firing, sniping enemy troops holed up in a residential area three miles from the presidential palace. Intelligence sources had estimated 15 to 20 guerrillas

were holed up, but a defector reported 200 enemy in the area. U.S. sources said there were reports that five-man Viet Cong cells were infiltrating into the capital in civilian clothes. The reports said the cells were told to hide in "safe" houses as back-up forces.

During the night the Saigon area was hit by some 40 enemy rockets between about 1:30 and 2:30 a.m. It was the biggest enemy bombardment of the war in the area, and as it began the city's sirens sounded for the first time to alert the three million inhabitants. But only 10 persons were reported injured and damage was comparatively minor.

Eighteen of the rockets landed around a company from the U.S. 9th Infantry Division five miles south of the center of Saigon, but no American casualties were reported.

SERIOUS VIEW

As an indication of the serious view the Saigon government took of the situation in the capital, it today appointed a major general, Nguyen Van Minh, to direct the defense of the capital military district. This had been one of the duties of the commander of the 3rd military corps area, which also includes the 11 provinces around Saigon, and he delegated day-to-day operations in the city to a colonel.

The 1968 appropriation, without need of new taxes, totaled \$446.8 million from general revenue.

Presently, liquor cannot be sold in containers of less than half a pint. Special legislation would have to be passed to allow sale of the tiny bottles, each containing 1.6 ounces or about one jigger, in eating places and clubs. A miniature bottle plan failed in the 1965 legislature and a regular mixed drinks bill lost in the 1967 session.

Another \$30.6 million could be channeled to the state's coffers by increasing the special auto purchase sales tax from two to three per cent. This would not be shared with cities.

# HHH Is Soaking Up Votes In Key Nonprimary States

**EDITOR'S NOTE:** While public attention is focused on the presidential primary, the campaign is being fought with equal intensity in non-primary states. Here's a report on the struggle for a key delegation.

By **DICK BARNES**  
Associated Press Writer

DETROIT (AP) — Hubert H. Humphrey's strength in the

Michigan delegation typifies how and why the vice president is soaking up votes from non-primary election states for the Democratic presidential nomination.

### DEMOS MUM

Old time loyalties, party regularity, a delegate selection system not particularly attuned to public opinion and concern by some blocs with their party position combined almost inevitably for Humphrey in Michigan.

The delegation picked last weekend at an organization-

dominated state Democratic convention is nominally uncommitted. But 60 or more of the state's 96 votes lean to Humphrey in varying degrees. Sen. Robert F. Kennedy appears to have most of the others except for two or perhaps three aligned with Sen. Eugene McCarthy.

State Chairman Sander Levin successfully imposed for two months a rule that principal Democrats keep quiet about their preferences. He sought to avoid fratricide in a party badly damaged by the Republican sweep of 1966.

Now he has lifted the ban and the Humphrey camp is pushing for individual delegates to declare their choices, hoping to create a bandwagon which might attract some waverers.

Kennedy forces contend that half the delegation leans toward the New York senator. But they refuse to say even generally where their support lies.

"We know they (Humphrey people) are making a lot of false assumptions and we don't want to pinpoint them," said William H. Merrill, Michigan chairman of Citizens for Kennedy.

# Christians Refuse To Face Social And Racial Issues?

HOUSTON (AP) — The Christian church has neglected to face social and racial issues that confront the United States, Southern Baptist Convention women were told today.

"The church has sung its songs, has prayed its prayers, and then closed and locked its door to the real reason for its being," said Dr. Dorothy Brown of Nashville, Tenn.

In a speech prepared for the Women's Missionary Union, Dr. Brown, a Negro surgeon, said the church could have prevented racial disorder.

**DERELICT**

The meeting was a prelude to the full convention assembly which begins tonight for an expected record crowd of more than 16,000 messengers from the nation's largest Protestant denomination.

"If the church would do its job, we wouldn't need any more human relations commissions or further civil rights laws," Dr. Brown said.

"I can personally testify to the fact that the church has been derelict and indifferent in both its charge to keep the brotherhood and its failure to execute its commitment of extending Christianity into every day living."

A statement asking Baptists to work for better race relations was to be presented to executive committee. It adopted, the proposal will go before the full convention Wednesday.

It urges the denomination to accept Negro Christians as brothers and welcome "every person irrespective of race or class into the fellowship of faith and worship."

**BUDGET ACTION**

Elwin I. Skiles, president of Hardin-Simmons University at Abilene, Tex., told a pastors conference that Baptists should consider accepting more federal support for their colleges.

"Our schools are seriously handicapped in competing with other schools which have financial support from federal and state educational funds," he said. "As this gap widens, we may become less and less effective in our educational program."

Baptists should rethink the

# 14 Counties In Texas Due Federal Food

WASHINGTON (AP) — Fourteen counties in Texas are among 42 across the nation where the Agriculture Department is starting to set up commodity food distribution programs.

A spokesman said the department had asked these counties and 22 others lacking such programs to decide what they would do about the matter by May 29.

Projects in the new counties are due to be operating by mid-July.

The remaining 22 counties have indicated they will cooperate in food stamp or direct distribution programs.

Of the 42 holdouts, 28 are in Texas and Virginia. The others are in Florida, Georgia, Iowa, Louisiana, Nebraska, South Dakota and Tennessee.

Last July the department listed 331 counties among the 1,000 lowest income counties as not having food programs, and thus as targets for food programs by this July 1. The 42 named Monday for independent action are the last of the target counties to be covered by programs or plans for them.

There are 3,091 counties in the United States. The 2,091 others include 571 counties without federal food programs or plans for them, the spokesman said.

Groundwork will begin this week in 23 of the 42 remaining counties, he said. Federal officials will visit these counties to hire local people and make other arrangements to administer the programs.

Arrangements will be made in the remaining counties in the following three weeks, the spokesman said.

The Texas counties in which food programs will be established by federal officials: Cass, Cherokee, Comanche, Freestone, Goliad, Gonzales, Hill, Lee, Leon, Madison, Tyler, Waller, Washington and Williamson.

# Atheist Conducts Series On LBJ's Radio Station

AUSTIN (AP) — Broadcasts of programs titled "The Atheist Point of View" and replies from a clergyman began Monday night over Radio Station KTBC, owned by the business interests of President Johnson's family.

The once-a-week series is being conducted by atheist Madelyn Murray O'Hair, who was a plaintiff in a case leading to a 1963 U.S. Supreme Court ruling against compulsory prayers or Bible readings in public schools.

Mrs. O'Hair sponsors her own broadcast under the name of Society of Separationists, the Austin station said.

She was followed on the air by an answer from the Rev. John Barclay, pastor of Austin's Central Christian Church which the President sometimes attends.

# Sanctuary For Dissenters Off To Sputtering Start

NEW YORK (AP) — A campaign by U.S. clergymen to grant Vietnam war dissenters church sanctuary from federal law is off to a sputtering start.

On the basis of the preliminary evidence, the idea, while long on tradition, is short of official acceptance in the 20th century. In Washington, a Department of Justice spokesman commented today: "There is no basis in law for such claims of immunity or asylum."

**CARRIED OFF**

Youths who want to escape military service, it seems clear, will continue to be much safer in Canada than in the church buildings of their choice. It was different in ancient Greece and the Europe of the Middle Ages.

The test of modern religious sanctuary came in late May. Robert A. Talmanson, 21, under a three-year prison sentence for

failing to report for Army induction, and William Chase, 19, an AWOL Army man, took refuge in the Arlington Street Church of the Unitarian-Universalist order in Boston.

U.S. marshals carried Talmanson out of the church the same day Chase stayed inside for 10 days but finally surrendered and was taken to Ft. Meade, Md., to face Army discipline.

The interdenominational movement to make churches sanctuaries for Vietnam war objectors is loosely organized into a group calling itself "The Resistance," which has surfaced in Detroit, Boston, Cleveland and some other cities.

**DRAFT EVADERS**

Last Tuesday the general assembly of the Unitarian-Universalist Association adopted a resolution encouraging its pastors

to offer "symbolic sanctuary" to draft evaders. Association churches, however, have the right to disregard the resolution.

Two draft resisters followed up the assembly's action by entering the Unitarian-Universalist Church of the Mediator in Providence, R.I., last Saturday.

Ronald P. Moyer, 23, of White Plains, N.Y., asserted that "We stand for something higher than civil law."

His companion, Anthony Ramos, 24, recently returned from Canada, declared that jail for draft evaders is "a punishment that derives from the state and therefore inconsequential."

They were carried from the church Monday by FBI agents and were taken to state prison for lack of bail after appearance before federal authorities.

Meanwhile, 170 Detroit churches—St. Joseph's Episcopal and Christ Lutheran—and the St. Andrews Presbyterian Church in Marin City, Calif., which have announced that they will offer sanctuary to draft resisters, were still waiting for their first customers.

# Hulk Found By Divers May Be German U-Boat

NORFOLK, Va. (AP) — A hulk found off Cape Henry by divers hunting for the missing submarine Scorpion may be the German submarine U-548, destroyed by U.S. warships April 30, 1945, seven days before V-E Day.

The submarine Pargo detected the hulk last Friday 70 miles east-northeast of Cape Henry. Divers descended 180 feet to the ocean floor from the submarine rescue ship Sunbird. They reported the hulk was about 250 feet long.

**SLEEK CRAFT**

One of the divers, Chief Machinists Mate Ronald C. Hall, told Capt. John Caruso, a physician aboard the Sunbird, that the barnacle-encrusted sub appeared to be in an upright position and partly embedded in the ocean floor.

"His visibility was 40 or 50 per cent," Caruso said, "and he could make out a long, sleek craft with what appeared to be sail-like configuration on top and double rod-like objects toward the front which he said

appeared to him like 20mm gun mounts.

"He told me the hull went back as far as he could see, and when he approached it, it appeared to be like a vertical wall of steel about 40 feet high.

"He said he banged his helmet on it and kicked it with his boot and found it was metal. He was unable to read any markings on the vessel."

**HUBCAPS STOLEN**

R. F. L. Martin, 1403 W. 1st, told police Monday that 20 hubcaps, valued at \$30, were taken from a box at his business at 901 W. 3rd sometime during the weekend. Officers are investigating.

to his partner that he had the situation "well under control" and, in order to relieve East of any anxiety in discarding, West played the nine of clubs on the third round of diamonds followed by the seven of hearts on the next diamond.

As the suit was continued, West found the discarding much less to his liking, however. He had only one spare card left, the three of clubs, and when the last diamond was led—he was in serious trouble. He did not wish to give up one of his spades, for they represented the setting tricks, so he reluctantly parted with the four of hearts.

South was fully tuned in on his opponent's performance, and when a heart was led from dummy, he promptly played the ace from his hand—dropping West's king and establishing both the queen and jack for his ninth and tenth tricks.

At the other table, West adopted a more blasé attitude. Once the spade was cleared, he was aware that East had filled his role in the defense and would be a mere spectator for the balance of the deal. There was no reason then for West to inform anyone of his own holding.

As the diamond suit was run, West discarded in an impassive manner—first the three of clubs, then the four of hearts, the nine of clubs and, finally, the seven of hearts. When the deuce of hearts was led from dummy, declarer had nothing to go on and he elected to take the finesse. West finally came to life, spreading his hand and claiming the last four tricks, to pin a 200-point defeat on South.

When declarer is running a long suit at no trump, a stoical attitude is an essential characteristic of the defenders, since they may be subjected to considerable pressure in discarding.

In the above hand taken from a team-of-four match, one West gave away the whole show to the declarer, while his counterpart at the other table overcame adversity by maintaining a stiff upper lip and not revealing his discomfort to his opponent.

The bidding was identical at both tables and against South's three no trump contract, the four of spades was opened. East put up the king and returned the three. South's ten was covered by West's ace and a third round cleared the suit.

With only eight top tricks available, both declarers decided to run the diamond suit first in order to apply the maximum pressure against the defenders. One West was fully bent on making it clear

## Chrysler Newport now priced about \$3.78 a month more than Ford LTD\*

Chrysler Newport now priced about \$3.78 a month more than a Ford LTD\* (which is still a Ford, a high-price, low-price car).

Chrysler Newport now priced about \$2.29 a month more than a Chevy Caprice\* (which is still a Chevy, a high-price, low-price car). That little more now moves you up into a big, full-size, almost shamefully elegant Chrysler—and that's an unbeatable deal. Afford a Chrysler? Can you afford to pass it up?

Store Vice President Here

W. W. George, center, executive vice president of T. G. & Y. stores, Oklahoma City, was in Big Spring today visiting the College Park and Highland Shopping Centers T. G. & Y. stores. Here he chats with Jerry Sheriff, left, College Park store manager, and

W. P. Campbell, Odessa, area supervisor for the chain. George, who has been associated with T. G. & Y. operations for the past 22 years, is on a brief tour with his wife visiting T. G. & Y. concerns in Lubbock, Odessa-Midland, Wichita Falls and Big Spring.

Morrison Fails To Tunnel Out

ABILENE — Marvin (Rip) Morrison, 35, waiting in the Taylor County jail for an appeal of his conviction for robbery of the State National Bank here last December, failed in an attempt to tunnel out of his cell. He was returned to solitary confinement Monday.

Morrison was caught by Sheriff's deputies trying to bore a hole with the metal part of a mop handle through the wall of his cell. Deputies first heard the noise Saturday night but allowed Morrison to continue digging until he had scragged away a hole three-inches deep, they said.

Saturday was Morrison's first night out of solitary confinement where he had been placed for trying to have hacksaw blades smuggled to him, Sheriff George Maxwell said.

Morrison was convicted here May 21 by a federal jury of planning the Dec. 12 robbery of State National Bank. About \$12,000 was taken.

Maxwell said Morrison would remain in solitary confinement — a six-foot by six-foot room in the jail basement — until federal authorities move him.

Thieves Nab Dallas Gems

DALLAS (AP) — Thieves made off with jewelry valued at more than \$85,000 from two Dallas stores Monday afternoon.

Police reported three men took gems, watches and cameras plus \$1,200 cash for a haul worth \$50,000 to \$60,000 from a Zale's Jewelry Store on the city's west side. At the NorthPark branch of Neiman-Marcus, a well-dressed man, about 35, stepped a few feet from counter to door, seeking better light to examine a list of items — and kept going. The loss was placed at \$27,000.

Patrolman M. W. Angell said a man with a .22 caliber pistol and three Zale's employees and a customer to lie on the floor while they looted the place.

Lt. Bray Named Pilot Of Month

The 3561st Pilot Training Squadron at Webb has named 1st Lt. John K. Bray as T-37 Instructor Pilot for May. Col. Edward W. Luby, commander of the squadron, called Lt. Bray "a dedicated and enthusiastic instructor pilot who takes great pride in knowing all facets of his job."

In the nominating letter, Col. Luby noted that Lt. Bray flies more than 40 instructional sorties each month and freely volunteers for additional flights. He was also highly complimentary of the lieutenant's work with marginal students.

C-C Conference At Longview Set

Plans Call For Troop Strength To Be Steady

WASHINGTON (AP) — The Johnson administration is assuring Congress that plans call for U.S. troop strength to be held steady in Vietnam and lowered in Western Europe.

Both questions have been major foreign-policy issues on Capitol Hill.

NO INCREASE

A recent White House meeting of congressional leaders was told there are no plans for increasing the number of troops in Vietnam beyond the present authorization of 550,000 men.

Secretary of Defense Clark M. Clifford told the group he is determined to fulfill his pledge that South Vietnamese forces take back once again more of

Vandals Shatter School Windows

Vandals did approximately \$300 worth of damage to Rannels Junior High School during the weekend, shooting out the windows in all doors with B-B guns.

Police also said that several screens were torn. The vandalism was discovered Monday.

Frazier Resigns From HCJC Staff

James Bruce Frazier, one of the ranking members of the Howard County Junior College faculty in tenure, has resigned his post as instructor in agriculture and related subjects.

Trustees Monday accepted the resignation with regret and expressed appreciation for Frazier's long service as a teacher and also as a loyal supporter of the college.

In submitting his resignation, Frazier pointed out that his business activities were requiring more and more time, and that under Southern Association regulations, he could not continue. Dr. W. A. Hunt and the board had offered him a part-time instructional situation, but Frazier said that he could not accept because "I must attend more to the Bennett House" (a nursing home which he established several years ago).

As a successor, the board employed Tommy Buckner, who was reared in Big Spring, and attended HCJC, and who holds his master of arts in agriculture from Texas Tech. Currently, Buckner is instructing in agriculture in South Plains College at Levelland.

Also elected to the faculty were Dallas Nash Jr., who holds his bachelor of arts from North Texas State University and who lacks only his thesis on his master's. He, like his father, will be assigned to electronic data processing department.

Mrs. Joy Burned, who is a graduate of HCJC and holds her BA degree from Hardin-Simmons as well as a master in library science from Texas Women's University, was elected as a member of the library staff.

James Doerr was named to the mathematics department, succeeding Leslie (Red) Lewis, who will become registrar of the college, succeeding B. M. Keese, who is retiring at the end of this school year. Doerr has his BA and MA degrees from North Texas State University.

The board also approved one air conditioner to serve the manager's apartment in the men's dormitory. This will avoid hav-

ing the responsibility for fighting the war.

In other public and private discussions, Clifford has talked of the eventual withdrawal of big numbers of U.S. military men stationed in Western Europe.

There have been continuing calls for this move from several members of Congress, including Senate Democratic Leader Mike Mansfield.

The administration has set no timetable for any cutbacks in U.S. forces in Europe, but Clifford merely to talk about them is highly welcome to many Congress members.

PROTESTS

Some have complained that the maintenance of 300,000 U.S. troops and their dependents as part of the North Atlantic Treaty Organization force has been a major aggravation to the balance-of-payments problem.

Others, such as Mansfield, hold that the present policy is based on post-World War II conditions that no longer exist. Clifford recently told the Senate Foreign Relations Committee he had informed other NATO member nations they could not expect an indefinite U.S. presence of the current size in Western Europe.

The administration cutlook on Vietnam and NATO apparently

Registration At HCJC Up

Registration for the first six weeks of summer school at Howard County Junior College showed a substantial gain Monday over the first day a year ago.

There were 260 who cleared the business office through Monday evening, and registrants Tuesday, plus those who had signed but not paid, promised to push the total Tuesday to around 280 or better. The first day last year brought 235. The final for the first period was 261.

Registrations will be accepted the remainder of the week although Dr. W. A. Hunt urged that prospective students sign as promptly as possible. Intensive work such as a short summer session, it is important not to miss more class work than is absolutely necessary, he said.

Basic courses in math, English, science and history are being offered, along with some work in the vocational division such as data processing.

Young Speaker Is Hospitalized

Larry Shaw, Knott 4-H club, who was rated as one of Howard County's best bets to win top honors at the State 4-H Club roundup in College Station this week, is not competing. A sudden illness which struck the young public speaker last Saturday morning hospitalized him and he is still a patient in the Malone-Hogan Foundation Hospital.

Larry was supposed to have left Monday morning with his fellow 4-H club winners for College Station. He had won the top place in public speaking at Lubbock in the District 2 4-H competition and, by his victory, a chance at the state title and a free trip to the National 4-H Roundup.

Larry is not alone in the hospital, however. His mother, Mrs. Larry Shaw Sr., is also a patient at Malone-Hogan. She is recuperating from surgery.

CALIFORNIA DEMOS MAKE CHOICE TODAY Bobby Kennedy Or McCarthy?

LOS ANGELES (AP) — California Democrats were making their choice today in the final presidential primary match between Eugene J. McCarthy and Robert F. Kennedy.

The last one was the big one for both contestants, with the victor virtually certain to emerge as the final challenger to Vice President Hubert H. Humphrey for the Democratic presidential nomination.

HEFTY VOTE

Generally sunny election day skies were forecast across the nation's most populous state. Polls opened at 7 a. m. and close at 8 p. m. PDT—11 p. m. EDT. A vast turnout was expected.

State officials predicted a turnout as high as 67 per cent of the registered voters. There were 4,347,406 Democrats registered to vote and 3,197,815 Republicans.

Kennedy was the pollsters' favorite in the Democratic race, but a Los Angeles Times poll indicated that people who reported themselves undecided held

the balance of decision. A hefty turnout would benefit McCarthy, the Times poll reported.

On Monday night the National Broadcasting Co. reported that a poll conducted for the network by the Oliver Quayle Co. showed Kennedy getting 39 per cent of the vote to 30 per cent for McCarthy. Thirteen per cent favored delegates headed by California Atty. Gen. Thomas C. Lynch and 18 per cent were undecided.

3-WAY RACE

The poll was taken Sunday, the day after McCarthy and Kennedy met on television. In the three-way race to take

charge of the 174 nominating votes California will cast at the Democratic National Convention, there were delegate slates pledged to McCarthy and to Kennedy, and an uncommitted entry headed by Lynch. Since write-in votes are not permitted, the Lynch slate presumably will get the votes of people who fa-

vor Humphrey.

The one certain victor: Republican Gov. Ronald Reagan, running as a favorite son, unopposed in the GOP presidential balloting, and assured of control of California's 86 votes at that party's convention.

Kennedy and McCarthy were meeting in another contest, too, in South Dakota. Humphrey backers there are promoting votes for a slate pledged to President Johnson, who has said he will not run again. South Dakota's 28 convention votes will go to the victor.

A Senate contest in California was expected to pull out Republican voters. In that one, Sen. Thomas H. Kuchel seeks re-nomination for a fourth term against the challenge of Max Rafferty, state superintendent of public instruction.

WONT QUIT

The Kennedy-McCarthy contest, final round in a series which began in Indiana on May 7, reached an angry peak in Monday's windup round of campaigning. Kennedy accused McCarthy of desperation tactics; McCarthy charged the Kennedy forces with running a "cheap" newspaper advertisement questioning his record on law enforcement.

Kennedy has talked of quitting the presidential race should he lose in California. He suffered his first setback to McCarthy one week ago in the Oregon presidential primary after winning in Indiana and in Nebraska.

An Established Newcomer Greeting Service in a field where experience counts for results and satisfaction.

Your Hostess: 1207 Lloyd 263-2005

THANK YOU

Although I was unsuccessful in my bid for County Commissioner of Precinct 3, I regard it as a rewarding experience because people were uniformly courteous. To those good enough to listen to my request, and certainly to those who gave me their vote and support, I am sincerely grateful. The majority vote has spoken and I abide by it with nothing but good will for all. I congratulate Mrs. Mae Hayden on her victory.

Union Boss Says Reuther Hurt Labor By Splitting

WASHINGTON (AP) — A fellow union president says Walter Reuther hurt the labor movement in a critical election year by splitting his United Auto Workers from the AFL-CIO.

"This serves only to strengthen the hands of the enemies of labor," said William Pollock, president of the 200,000-member AFL-CIO Textile Workers Union of America.

BACKS HUMBERT

Pollock's union backs Vice President Hubert H. Humphrey for the Democratic presidential nomination. The Auto Workers have declined to endorse any candidate although Reuther reportedly leans toward Sen. Robert F. Kennedy.

Reuther's 1.6 million-member UAW, largest of the AFL-CIO's 128 unions, was suspended by AFL-CIO President George Meany last month under an automatic provision of the federation's constitution for refusing to pay dues.

Pollock, the second union chief to criticize Reuther publicly, said, "You can't build and strengthen the labor movement by dividing it."

P. L. (Roy) Siemiller, president of the million-strong AFL-CIO International Association of Machinists, earlier voiced similar criticism of Reuther.

Pollock said Reuther's split in a leadership dispute with Meany will also weaken labor's efforts to organize more workers in the South, particularly in tough battles with the textile industry.

"The United Auto Workers is one of the unions which have had a common interest with us in organizing the South," Pollock told a Textile Workers convention Monday. "We had worked closely with Walter Reuther."

"So we deplore the fact that this great, progressive union is now going its own way," he said.

Pollock said Reuther should have accepted the AFL-CIO's offer of a special convention to discuss his charges against the federation's leadership. Meany and other AFL-CIO leaders asked only that Reuther agree in advance to abide by any decision of such a convention.

"Even though there may be merit in some of Walter Reuther's criticisms of the AFL-CIO, his refusal to accept a special convention to hear his complaints, and abide by the majority decision of that convention, is a tragic mistake," said Pollock, one of 27 AFL-CIO vice presidents.

HEARING BOOKED

Four administration officials will appear for continuation of a policy begun by President Franklin D. Roosevelt. Despite Congress' general attitude, Johnson contends such restrictions as import quotas are "self-defeating" because they only prompt other countries to impose similar restrictions on American goods.

The House Ways and Means Committee scheduled as witnesses for the first hearing Ambassador William Roth, President Johnson's special representative for trade negotiations, Secretary of Labor Willard Wirtz, Secretary of Commerce C. R. Smith and Secretary of the Interior Stewart L. Udall.

Secretary of State Dean Rusk and Secretary of Agriculture Orville L. Freeman are scheduled to testify Thursday along with Betty Furness, Johnson's representative for consumer affairs.

FOWLER ABSENT

By scheduling its top officials as witnesses, the administration underscored the importance it attaches to its policy of freer trade and the depth of the protectionist sentiment it will be battling.

A significant omission among the witnesses, however, is Secretary of the Treasury Henry H. Fowler.

His absence indicates the administration has no plans now if at all—to propose a tax on im-

South Viet Desertions Jump Nearly 40 Per Cent

SAIGON (AP) — Desertions from the South Vietnamese armed forces rose nearly 40 per cent over the 1967 rate in the three months after the start of the Viet Cong's lunar new year offensive.

Defections from Viet Cong and North Vietnamese ranks are only a fourth the number who defected in the first five months of 1967. The total in May was the lowest in three years.

On the brighter side, South Vietnamese officials report a dramatic increase in the number of volunteers and draftees for the army and militia forces. But as yet it is a long way from being enough to offset the deser-

tions and at the same time provide the net increase of between 135,000 and 268,000 men which the Saigon government has talked about for this year.

An estimated 79,000 men deserted from South Vietnam's armed forces in 1967, more than twice the number lost due to discharge and casualties. This was 32 per cent less than the year before, and in January the number dropped again, to 6,000.

The enemy big offensive at the end of January changed the picture. During February, March and April, defections averaged more than 9,000 men, compared with about 6,000 a month in 1967.

Drive For Freer Trade Due Fight

WASHINGTON (AP) — Top Johnson administration officials are carrying to Capitol Hill the President's drive for freer trade while congressional sentiment is strong for using import quotas to protect U.S. industry.

The administration drive, launched today, amounts to the first major review of U.S. trade policy since the 1962 Trade Expansion Act, which greatly reduced tariffs.

Airman Burchett Wins Webb Honor

Airman I. C. Neil C. Burchett, a veterinary specialist, has been selected airman of the quarter for the 356th USAF Hospital at Webb.

As a veterinary specialist he inspects the nearly two million pounds of food which is sold and served to Webb personnel during a month. Also, he inspects the dining halls, vending machines and other eating places for sanitation. In addition to a letter of congratulation, Airman Burchett received a three-day pass and relief from all fatigue details for a month.

Rodeo Box Seats Reminder Issued

Residents who have held box seats at the annual Big Spring Rodeo and Cowboy Reunion in past years must confirm their reservation with the Chamber of Commerce as soon as possible, according to Edith Gay, secretary.

"These boxes are not automatically reserved," Miss Gay said. "Residents wishing to retain their box seats must contact us."

The boxes are \$15 for the season or \$6 per night. Each box will seat six people. The rodeo is June 19-22.

# Miss McCarta Weds Sgt. James P. Jones

Miss Burma Carol McCarta became the bride of Sgt. James Paul Jones of Montague, Calif., during a ceremony performed at 8 o'clock Monday evening in the Sand Springs Baptist Temple, officiated for the double ring service.

The altar was lighted with branched candelabra and graced with basket arrangements of white gladioli and greenery. Miss Cindy Gressett, pianist, accompanied the soloist, Miss Jan

Tedford, as she sang "Because" and "One Hand, One Heart."

The bride is the daughter of Mr. and Mrs. Gordon L. Gentry, Route One, Big Spring, and parents of the bridegroom are Mr. and Mrs. Paul V. Jones of Dundee, Ill.

Given in marriage by her stepfather, Mr. Gentry, the bride was attired in a white peau de soie slender sheath with chiffon and scalloped lace

cage. The gown featured a jewel neckline and a lace panel extending down the front and back of the skirt. Lace appliques and edging enhanced the belted sleeves. Her veil of bridal illusion was attached to a headband of white camillas, and she carried a white Bible and bouquet of white Franchised flowers tied with white streamers.

The maid of honor was Miss Margaret Mangan of Mount Elerns, Mich. She wore long white gloves with a floor-length dress of yellow dotted Swiss and carried a yellow pompon chrysanthemum circled with white tulle. Her headpiece was a white peau de soie bow.

The best man was Hughlon Marberry of Big Spring, and ushers were Wayne Drewere of Coahoma and Morris Molpus Jr. of Big Spring.

The bride's brother, Roger Gentry of Big Spring, lighted the altar candles.

Other host couples were Mr. and Mrs. Cecil Guzrie, Mr. and Mrs. Dee Jon Davis, Mr. and Mrs. Bob Dyer, Mr. and Mrs. Bill Currie, Mr. and Mrs. Tom Huckaby, Mr. and Mrs. Harrol Jones, Mr. and Mrs. W. E. Ramsey, Mr. and Mrs. Harold Talbot, Mr. and Mrs. Jerry Worthy and Mr. and Mrs. T. J. Rowland.

Ninety guests attended, and dancing followed the dinner.

## 80 Attend Reunion In City Park

The annual reunion of descendants of the late Mr. and Mrs. W. A. Tindol was held Saturday in the City Park with 80 in attendance for the dinner and fellowship.

Children of the couple are Mr. Henry Miller, Mrs. Lee Harrison, Charlie Tindol and Marcell Tindol, all of Big Spring; Mrs. Melvin Tindol, Forzan; and Walker Tindol of Odessa. The children, along with their families, hosted the event, and all were able to attend except Walker Tindol.

The reunion, always held on the first Saturday in June, fell on what would have been the late Mrs. Tindol's 98th birthday. In her honor, Mrs. Melvin Tindol read the poem, "Are All the Children In?"

Family members attended from towns in Texas, Nevada and Oklahoma.

## Dr. R. Gage Lloyd Talks To Group

Dr. R. Gage Lloyd spoke on a quotation from Nehemiah "... and the people had a mind to work." at the Monday meeting of the Women of the Church at First Presbyterian Church.

Mrs. C. D. Read presided and announced the group had sponsored parties at the Westside Recreation Center and Big Spring State Hospital. The women will serve refreshments at the hospital during the month of June.

Thirteen attended. The next meeting will be July 1.

## Wednesday Dance Club Has Party

The Wednesday Night Dance Club held an informal summer party and barbecue Sunday evening at the Webb Air Force Base pavilion with Dr. and Mrs. Jeff Hanna serving as host chairmen.

Other host couples were Mr. and Mrs. Cecil Guzrie, Mr. and Mrs. Dee Jon Davis, Mr. and Mrs. Bob Dyer, Mr. and Mrs. Bill Currie, Mr. and Mrs. Tom Huckaby, Mr. and Mrs. Harrol Jones, Mr. and Mrs. W. E. Ramsey, Mr. and Mrs. Harold Talbot, Mr. and Mrs. Jerry Worthy and Mr. and Mrs. T. J. Rowland.

Ninety guests attended, and dancing followed the dinner.

## Wedding Solemnized In Episcopal Church

The wedding of Mrs. Jean Harris and Dan Shockey was solemnized at 7 p.m., Monday, in St. Mary's Episcopal Church with the Rev. Don Hungerford of Odessa and the Rev. Jarrell Sharp of Stamford officiating for the double ring service.

The altar was graced with an arrangement of pink gladioli, and Miss Merry Lee Dibrell, organist, played traditional selections during the ceremony.

Parents of the couple are Mr. and Mrs. Otto Peters Jr., 811 Runnels, and Mr. and Mrs. V. D. Shockey of San Antonio.

The bride was given in marriage by her father and was attired in a powder blue silk sheath with lace tunic. The sleeveless dress was styled with stand-up collar, and the tunic fastened with three lace-covered buttons. Her bouquet was a modified crescent of white carnations accented with pink sweetheart roses.

Attending the couple were

Mrs. Joe Newham as matron of honor and Mel Ivey of Denton as best man. Mrs. Newham wore a pink crepe dress with lace jacket and white accessories. She carried a lovenot of braided blue satin ribbon designed with white carnations.

Billy Crocker lighted the altar tapers.

Immediately following the ceremony, a reception was held in the home of the bride's parents who joined the couple in receiving guests.

Miss Beverly Peters presided at the register, and members of the house party were Mr. and Mrs. Bill Crocker, Mr. and Mrs. W. H. Bethell, Mr. and Mrs. Bill G. Emerson and Mr. and Mrs. Pat Boatler.

The refreshment table was covered with a white organdy cloth and appointed with crystal and silver. The centerpiece was a crystal bowl arranged with white carnations and blue pompons accented with gypsophila and leather leaf foliage. Wedding bells topped the white tiered cake.

Mrs. Shockey is employed by the Big Spring School System. She graduated from Big Spring Senior High School and attended Howard County Junior College. Shockey received his MA degree at Sul Ross State College and is a speech and drama instructor at Big Spring Senior High School.

Upon returning from a wedding trip to Santa Fe, N.M., Mr. and Mrs. Shockey will reside at 2600 Rebecca. For traveling, Mrs. Shockey wore her wedding dress with a companion blue silk coat.

## Mrs. Zelda Rea Named Delegate

Mrs. Zelda Rea was named delegate to the Fourth Division convention of the American Legion Auxiliary at the Monday meeting of the local auxiliary, Howard County Unit No. 355, at the Legion Hut.

The convention will be held Saturday and Sunday in Mineral Wells.

Mrs. Byron Hill of Big Spring, Fourth Division vice president, was scheduled to preside at the convention, but due to sickness, Mrs. Carl L. Flack Jr., of Odessa, state department president, will conduct the sessions.

Mrs. Foster Kemp presided at Monday's meeting. Initial plans were made to provide a scholarship fund to Howard County Junior College.

## Men's Club Sees Film On Bulbs

Bill Sneed showed the film, "Wonderful World of Bulbs," at the Monday meeting of the Men's Garden Club at the Veterans Administration Hospital conference room. Two new members, M. R. Turner and Walter Schattel, were accepted, and Dr. Paul Koshi was appointed program chairman. Refreshments were served to 10.

## HINTS FROM HELOISE

### Coin Purse Holds Extra Stockings

Dear Heloise: Like most women, I carry change in my billfold. So I use the cloth coin purse in my pocketbook to carry an extra stocking or even a pair of stockings the same shade I'm wearing that day.

In this way, I'm always prepared for any emergency, be it snag or run. Great for working girls. Mrs. M. L.

I love to save recipes, complete with full page illustrations which I clip from magazines and newspapers. The one problem with this is, they always clutter up the drawer and I can never find anything I want when I need it.

To solve this problem I converted a deep kitchen drawer into a recipe filing cabinet. I trimmed manila folders down to fit the drawer and added clear plastic index tabs.

As well as the usual headings, I also included "Party and Holiday," "World Cookery" and "Miscellaneous Cook Books." The latter took care of the many little booklets and pamphlets one collects.

Now I really feel organized! Bettie Jordan

Dear Heloise: We have a travel trailer and there's not a convenient place in the small bathroom to put a toilet tissue holder. So I got the idea of using a plumber's helper.

I painted the handle to match the room. Then put the new rolls of paper on first — right in their wrappers. At the top I placed an open roll where it is handy.

Makes a useful decoration as well as a conversation piece, too! Ruth Ferry

Dear Heloise: I do a lot of crocheting and usually have a lot of different colors of thread left, but not enough of any one color to make large articles.

Instead of throwing the thread away, I buy round asbestos dish pads at the dime store and crochet covers in a rosette design.

They make such pretty little hang-ups for the kitchen wall and are so nice to give away as little gifts. Chelsea Moreland

Ruth, you're an honest to goodness angel for sending us this clever hint. Just think of the thousands of trailer owners and home owners with tiny half-baths, etc., who have been at their wits end to find a place for those rolls.

We all send you a big hug for this whopper. Heloise

LETTER OF LAUGHTER  
Dear Heloise: After celebrating our 48th wedding anniversary, a friend asked how we had managed to keep it going so long. So I told him it had been very easy because of an understanding before marriage.

We had agreed that my wife would make all the small decisions and that I would make all the big ones. ... and up to today there had never been any big decisions to make. Wise Old Charley

Dear Heloise: While in the hospital recently, I noticed that an elderly woman in a high-back wheel chair was unable to keep her pillow in place behind her.

The nurse had to replace it so often that I finally suggested to her that one side of the pillowcase be put over the back of the chair. This way the pillow stays put instead of constantly falling to the floor.

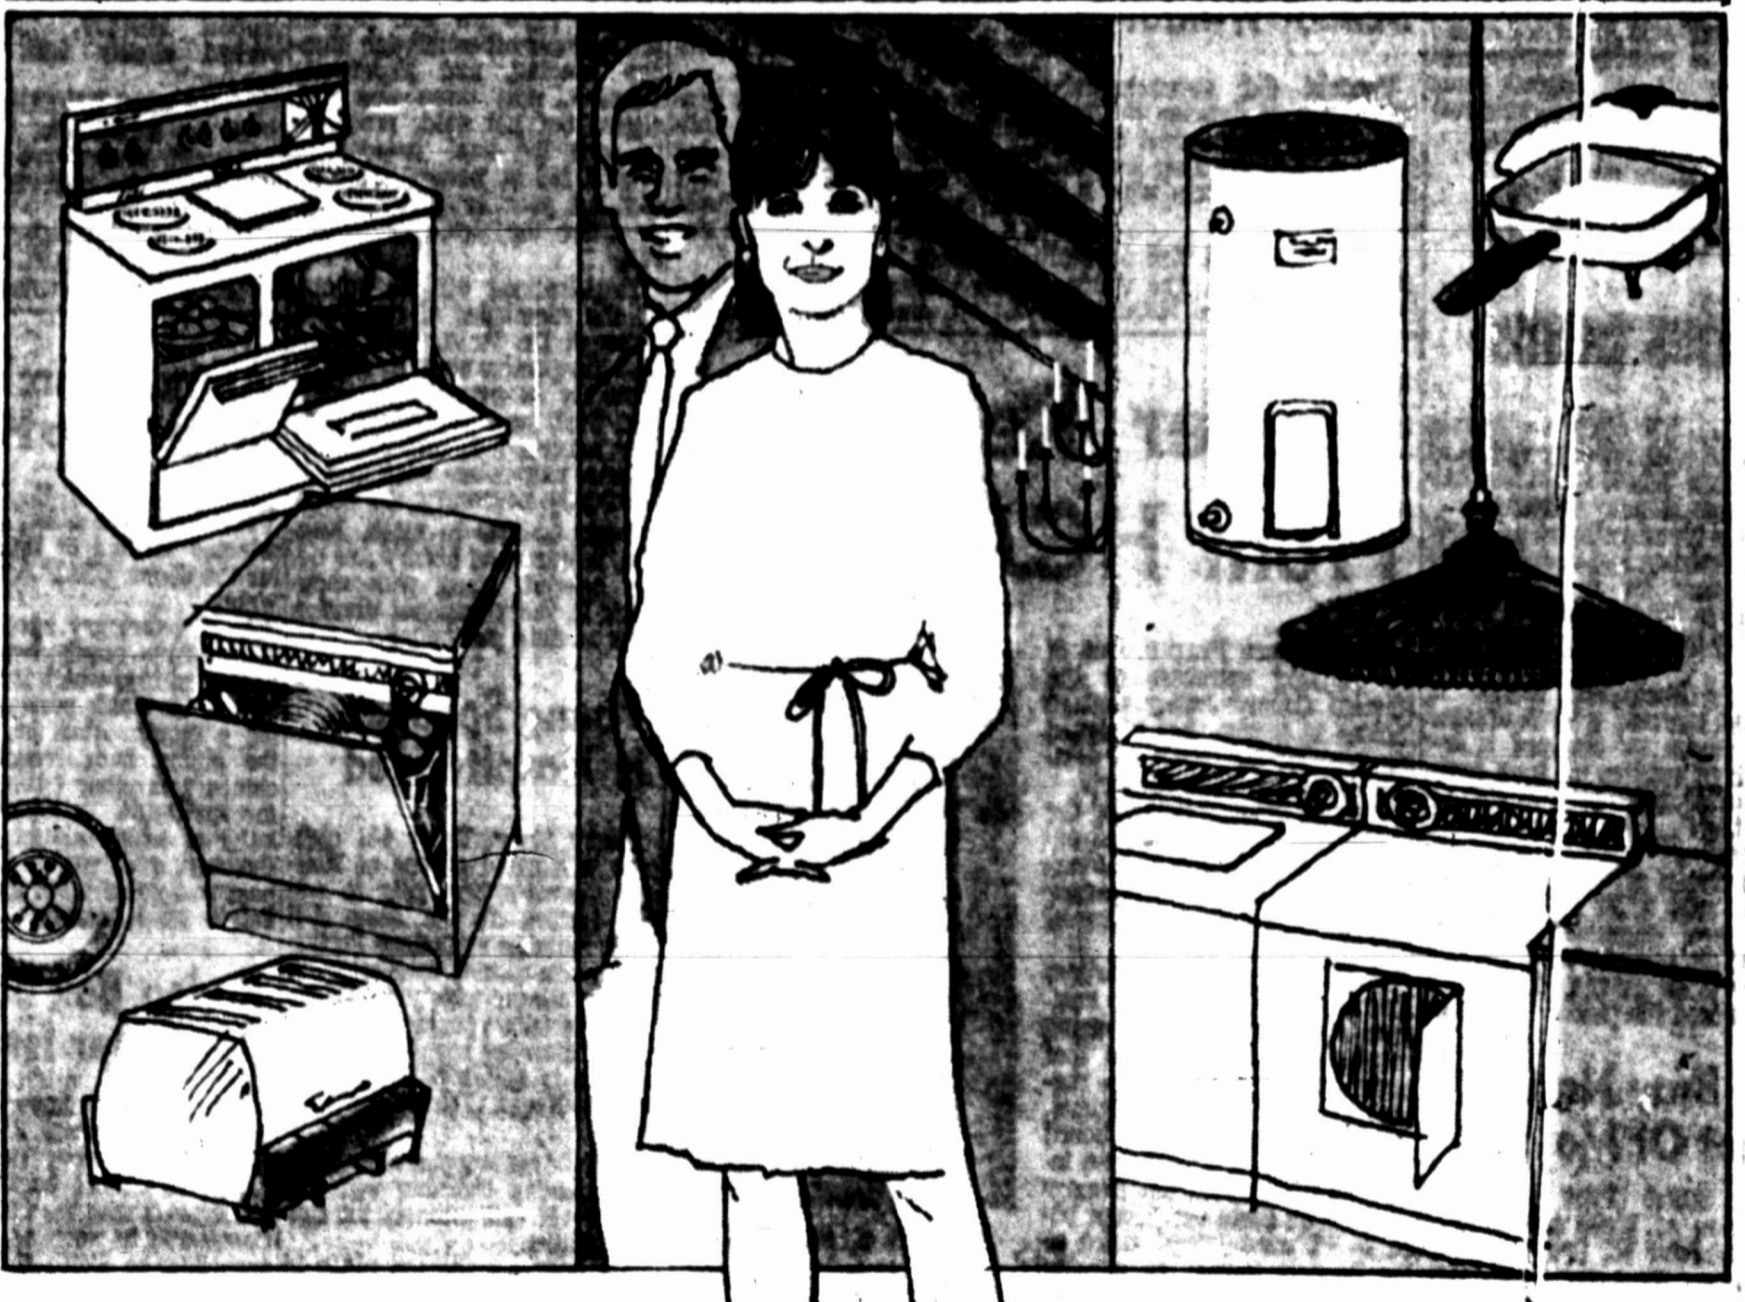

Of course, a pillowcase may not fit over the back of some wheel chairs but it sure did on this one. Stella Staley

# United In Marriage On Monday Evening

STANTON (SC) — Miss Linda Sue White and Walter Thomas Taylor were united in marriage Monday evening at the First Methodist Church.

Parents of the couple are Mr. and Mrs. D. M. White of Lenora and the Rev. and Mrs. Thomas H. Taylor of Cotton Center.

The father of the bridegroom served as officiant at the double ring ceremony performed before an arch of greenery flanked by branched candelabra and baskets of blue and white gladioli.

Miss Melrae Angel, organist, accompanied Miss Sue Walker as she sang "The Twelfth of Never" and "The Wedding Prayer."

Given in marriage by her father, the bride chose a formal gown of embossed peau de soie designed with a scoop neckline and petal point sleeves. Her veil of illusion fell from a pillow covered with peau de soie and lace encrusted with seed pearls. Her only jewelry was a pearl necklace, and she carried a bouquet of cymbidium orchids and carnations atop a white Bible.

Miss Jamie Taylor of Cotton Center, sister of the bridegroom, was maid of honor. Bridesmaids were Miss Gaylene Etchison and Miss Linda Henley. The attendants were attired in identical blue A-line dresses with white lace and blue short veils. They carried single long-stemmed carnations with blue ribbon trim.

Samuel E. Tanksley, Orange Park, Fla., was best man. Altar tapers were lighted by the ushers, Richard White, brother of the bride, and Terry Winfrey.

Toni Blackwell was flower girl. She wore a dress similar to the other attendants and carried a basket of blue and white flowers. Bradley Martin was ring bearer.

## WEDDING TRIP

The couple left on a wedding trip to an undisclosed destination. For traveling, the bride wore a blue A-line dress, accented with a white panel front, and an orchid corsage. Her accessories were white. The couple will reside south of Stanton.

## RECEPTION

A reception was held in the fellowship hall. Joining the bride-

al couple in greeting guests were the parents and feminine attendants.

The refreshment table was laid with a white lace cloth over blue, and flanked with baskets of gladioli. The centerpiece was a twin arrangement of long-stemmed blue carnations in cut glass bud vases. A three-tiered wedding cake was decorated with blue confection roses and topped with a miniature bridal couple.

Miss Kathy Gamel presided at the guest register. Others in the

house party were Mrs. L. T. Graves, Mrs. Jack Kuhlman, Mrs. Eddie Odum, Mrs. Charlie Smith and Miss Betty Smith.

Guests attended from 10 cities.

## Duane Allison Is Graduated Friday At Angelo State

FORSAN (SC) — Mrs. Ozro Allison of Forsan and Mr. and Mrs. Rodney Allison of Big Spring attended commencement at Angelo State College Friday evening when Duane Allison received his B.A. degree. Duane's father, Ozro Allison, was unable to attend, since he is hospitalized with a heart condition in Room 201 at Medical Arts Clinic and Hospital. Guests of the Allisons have been his brother-in-law and sister, Mr. and Mrs. Verdie Murphy of Austin.

Mr. and Mrs. Carl Tippie have returned from Hamilton where they attended funeral services of a relative, Curtis Thompson.

Mr. and Mrs. Jim Miller have returned from Waurika, Okla., where they visited his brother and sister-in-law, the Eddie Millers. They were also in Hobbs, N.M. to visit a daughter and family, the Vernon Cannons.

The Oscar Boeker's guests were his brother and family, the Ralph Boekers of Cotulla.

Mr. and Mrs. Dan Holt of Snyder and W. D. Russell of Lubbock were recent guests of Mr. and Mrs. C. V. Wash.

## Shopping Burns Up Extra Calories

Add all the extra calories spent in three hours of spring shopping and what do you have? At least about 224, and at the most approximately 672 calories expended.

Even a quick, one-hour shopper would burn between 75 and 224 calories. After that, even a dedicated weight-watcher is entitled to a caloric replenishment. Not only for sweet enjoyment, but for that hungry, empty feeling as well. Sugar — alone or confectionally combined with other foods — satisfies the taste buds, appeases hunger, and re-energizes quickly.

## Convention Delegates Named By HD Council

Mrs. Omer Decker, chairman of the Howard County Home Demonstration Council, announced the delegates to the state convention Sept. 18 in McAllen at the Monday meeting in the HD agent's office.

## Judy Hinds Honored At Coffee

Miss Judy Hinds, bride-elect of Robert Goodlett, was honored at a coffee Saturday morning in the home of Mrs. Jeff Brown, 600 Highland.

Cohostesses were Mrs. Leslie McNeese, Mrs. Ed Shive and Mrs. Roy Rosene. Members of the house party were Ginger Brown, Sara King, Kay Trupp, Merry Lee Dibrell and Annette Fitzhugh.

The honoree was attired in a black and white hounds-tooth checked sheath and was presented a white carnation corsage. Mrs. B. W. Hinds and Mrs. W. S. Goodlett, mothers of the couple, were presented carnation corsages.

The refreshment table was laid with a cutwork linen cloth and centered with an arrangement of carnations in the bride-elect's chosen colors of mint green and white. Crystal and silver appointments completed the setting.

The hostess' gift to the honoree was a silver bread tray.

The register table held a bud vase containing green carnations. Members of the house party alternated at the guest register.

Approximately 60 attended. Out-of-town guests were Mrs. Beuford Hinds of Anson, aunt of the bride-elect, and Mrs. T. R. Willis of Abilene.

## Represents Pythians

Mrs. Choc Smith will leave Friday for Austin where she will serve as grand representative of the Pythian Sisters, Sterling Temple No. 43. The announcement was made at the Monday meeting in the Castle Hall.

Mrs. Smith will attend the Nomad of Avrudaka ceremonials Friday and Saturday and the Grand Temple Sunday.

Three new members, Mrs. Gerald Bennett, Mrs. Jean Hanke and Mrs. Melvin Newton, were initiated by Mrs. Herbie Johnson Jr., president.

Mrs. L. D. Chrane, temple deputy, made her official visit. She was presented a gift and won the silver drill prize. Mrs. Bob Renshaw was presented the capsule award.

Mrs. Chrane and Mrs. R. W. Thompson will be hostesses at the next meeting, June 17. Eighty-eight visits to the sick were reported, and 38 cards were mailed. Thirteen attended.

## Benefit Kitchen Shower Planned

A benefit kitchen utensil shower for St. Thomas Catholic Church will be held Sunday at 2 p.m. at the church under the sponsorship of the Altar Society. The plans were made at a Monday meeting in the church basement when Mrs. Carmen Gonzales presided. Anyone wishing to contribute to the shower may do so.

A rummage sale, to benefit the society treasury, will be held in the church basement on June 15, and members were reminded that tickets are now being sold for the mid-summer festival at the church. Tickets are also available from members of St. Joseph's Society.

Small dolls were distributed, which the women will dress and give as prizes at the festival July 20-21.

Refreshments were served to 32, and the next meeting scheduled July 1. Miss Tina Molina won the attendance prize.

## Massage Body After Gardening

After the gardening session and before the muscles start to ache and stiffen give them a witch-hazel workout. Knead the leg, arm and back muscles with the fingers.

Use the technique of professional trainers. Work the witch-hazel into the muscles with lengthwise strokes. Keep the muscles flexing. Don't let the body cool too quickly.

## Play In Recital

Three piano students of Mrs. Maurine Terrell were heard in recital Sunday afternoon at 1:30. The students were James Morgan, Reina Hamby and Russell Eggen. Each performed several selections.

## Miss Brenda Baker Honored With Gift Tea

Miss Brenda Baker, bride-elect of David Burleson, was the honoree at a gift tea Monday evening in the home of Mrs. Bill Banks, 2109 Carl.

Cohostesses were Mrs. Millard E. Saunders, Mrs. J. M. Hill, Mrs. Sidney Clark, Mrs. Vaughn Martin, Mrs. Alva Thomas, Mrs. Harold K. Bull, Mrs. E. P. Driver, Mrs. Tom Martin, Mrs. Buddy Andrews, Mrs. Billy Joe Bowers and Mrs. Zack Gray.

The honoree was presented a yellow carnation corsage, and the mothers, Mrs. Duke Baker and Mrs. Wayne Burleson, re-

ceived white carnation corsages.

The refreshment table was covered with a white satin damask cloth and centered with a large yellow net heart and wedding bells. Alternation at the table were Mrs. Martin, Mrs. Thomas, Miss Dana Baker, Miss Carol Burleson and Miss Betsy Burleson. Miss Karen Odell presided at the guest register.

The hostesses presented Miss Baker with an electric broiler. The couple plans to be married June 22 in the Berea Baptist Church.

## A LOVELIER YOU

### Grooming Aids Need Leak-Proof Bottles

By MARY SUE MILLER  
Among beauty and grooming aids there are a number of special interest to travel-bound lovelies. The items we have in mind are light-weight, compact and leak-resistant. As for example:

Brush-on eye makeup — four colors and two highlighters — housed with a brush in one small, mirrored case.

Eye makeup remover pads, smearless and disposable. For an "instant tan," tones of tinted sunscreen in tbrony shades that range from minitan to maxitan.

Beamed especially to teens, envelopes of little linen squares that blot off shine and soil from the face without disturbing makeup.

Individual spillproof packets of hand lotion; of towelettes saturated with skin freshener and after-shower oil. Spray-on sheen to give travel-worn locks a quick shot of sheen and bounce.

To wear swimming and after-bathing cap wigs wherein synthetic curls sprout from a rubber cap. Pretty as can be, too!

Purse-size aerosols of breath-freshener, a great comfort en route.

To keep a wardrobe on the go, lint remover and shoeshine pads.

For safety's sake in case of minor cuts or blisters, a tube of first aid cream and a supply

of sheer strip and spot bandages.

Using these ideas as clues, look around cosmetic and notion counters. You'll find all manner of essentials packaged to travel.

Tomorrow: Part 9, Your Tour Allure: Packing Good Tips. TOPS FOR TEENS

Fifty ways to ideal skin and natural makeup for young adults — ages 13 to 19 — are detailed in my booklet, "Model Tips For Teens." Advice covers corrective skin care; how to use makeup to accent good points and play down problems; fashion model makeup tricks. For your copy, write Mary Sue Miller in care of The Big Spring Herald enclosing 25 cents in coin and a long, self-addressed, stamped envelope.

### A Devotional For The Day

If ye then, being evil, know how to give good gifts unto your children: how much more shall your heavenly Father give the Holy Spirit to them that ask him? (Luke 11:13)  
PRAYER: Our Father God, admitting our unworthiness, but claiming Thy promise for our own, we earnestly seek the indwelling presence of Thy Holy Spirit. Help us to accept His guidance to grasp opportunities that will bring Thee honor and glory. Through Jesus Christ we pray. Amen.

### Light That Didn't Fail

The light that went out in Helen Keller's life became the light that illuminated two generations of mankind.  
Miss Keller died Saturday, just short of her 88th birthday, and characteristically, as her physician described, "gently, and with a smile on her face."  
Deprived of her sight and her hearing at 19 months of age, she was a self-centered, unruly child until Anne Sullivan came into her life as her tutor. This young Irish woman, who had had the good fortune to recover her own sight, became the instrument not only for unlocking Helen Keller from the shackles of her disabilities but also freeing her great soul.  
As Helen Keller grew to maturity, she became a symbol of hope, an inspiration to all. Ignoring her own physical limitations, she consecrated herself to "helping those less fortunate than myself."  
When life can turn bitterness into love and concern, it is indeed in the image of God. Helen Keller, through her gentle spirit, cast that image more clearly and enduringly.

### Trend Confirmed

The convincing victory of Lt. Gov. Preston Smith in the Democratic runoff primary Saturday has implications of a conservative-moderate leaning on the part of a majority of those who voted in the gubernatorial race.  
This would seem a logical conclusion, based on the distribution of votes in the first primary, which Saturday's results tended to underline.  
One curious development, however, was the attrition among the state senators of a more conservative bent. At least two of the old timers were eliminated, but here the issues were perhaps not so much conservative and liberal as they were personal or a revolt against entrenchment and proprietary power.  
Texans, by and large, seem able to sift the claims raised in campaigns and to reason which are catch phrases and which are things that can be changed cooperatively. Appealing to the pocketbook is a powerful pitch, but the appeal has to be based on more than innuendo and must carry with it some tangible proposal of reform. State voters in the nominating primaries seem to have been pointing toward the reasonable and the responsible.

### David Lawrence Between Now And November

WASHINGTON — Sen. Robert F. Kennedy is by no means eliminated from the contest for the Democratic presidential nomination just because he didn't win a three-cornered primary race in Oregon. He is considered a strong contender for the 174 delegate votes in California being chosen in today's primary. He also has a powerful organization working for him to corral New York's 190 votes at the primary on June 18 and at the subsequent state convention. A large slice of the 364 votes from the two most populous states in the union can be much more important than Oregon's 35 votes.

THERE ARE only 11 states with presidential primary systems, and what will really count in the national convention this year is the attitude of the delegates from the other 39 states. It might be argued that a preponderant number of delegates is bound to be influenced by results in the few states with presidential primaries. But political history doesn't always bear this out.

The situation would have been much clearer if Sen. Eugene J. McCarthy had not made such a spectacular showing and if Vice President Hubert Humphrey had been able to enter the primaries earlier instead of being required at a later date to rely on write-ins. No one of the Democratic aspirants has had a clear majority in all of the primaries. Pluralities here and there are not conclusive.

FORMER VICE President Richard Nixon, on the other hand, has won substantial majorities in his primary campaigns, and the delegates in other states have been impressed by his performance. Even in the Republican race, however, Gov. Nelson Rockefeller of New York cannot be written off either. For the nomination will be de-

### Billy Graham

My boy friend is a "square." He is always talking about such things as ethics and values, and I don't dig such language. He thinks I have no "character," but I'm young and I want to live a little. Do you think I should break up with him? m.m.  
I have a feeling that you are a challenge to your boy friend rather than a romantic attraction. You, like many young people of today, think that character is an old-fashioned word and has no place in today's slick, cool world. But, young lady, if you will take time to read a little history, you will find that it has been the people of solid, rock-ribbed character who have made the world inhabitable.  
If you young people don't begin to "dig" such words as ethics, values, and morals, we will have mortgaged our future to a same society.  
I have devoted my life to the preaching of the Gospel of Jesus Christ, not because I was brought up in a Christian home, but because I have found that Christ can give a person character. I know that there are some who claim to follow Him who are mere caricatures of real Christianity, and use the high name of Christ as a cloak for their meanness. But, I have seen with my own eyes low, ulterior - motivated human beings transformed into people who cherished the words, "ethics," "honesty and goodness, and all this through faith in Jesus Christ."

### Concert Group Sets Record

HUTCHINSON, Kan. (AP) — The Hutchinson Community Concert Association, just completing its 32nd program, is the oldest continuous community concert group in the United States.

Through the years the organization has brought to the stage of its south central Kansas city such performers as Eileen Farrell, Cesare Siepi, Robert Merrill, Piatigorsky and Rudolf Firkušny.  
When the organization launched its first season, 1936-37, tickets were priced at \$3.50 for adults and \$1.50 for students. Today those same tickets cost \$10 and \$4.

The highlights of this season included the appearance of a native son, pianist James Dick who first won international acclaim in competition in Russia about three years ago.

### Steel Talks May Heat Up Like Blast Furnace

NEW YORK (AP) — So far in 1968 the nation's steel mills have cast more than 59 million tons of this most widely used of all metals, a record, but you'd never guess it from the long faces of steelmen.

Neither were steelmen congratulating each other at their recent annual meeting here on reports that first-quarter profits rose 39 per cent over 1967.

THE IMMEDIATE concern is with labor negotiations, which sometimes heat up like a blast furnace. Talks began this week between 11 major steel companies and representatives of 400,000 workers.  
With contracts due to expire July 31, the steel managers fear they will share with labor an unwanted August vacation. Cold furnaces are a prospect. Labor very likely will seek an increase of near 6 per cent. This would bring hourly labor costs up to \$5.20, enough to shiver those profits. A strike cannot be ruled out.

Already some management have expressed concern about their ability to convince labor that the present record-high shipments are due mainly to customers hedging against a strike, and that the high profits merely reflect this temporary situation.

THAT ISN'T the only complaint either. But with a recent record of chronic gripes, the steelmen are finding it a bit difficult to get the nation aroused about its problems. A credibility gap separates them from the public.

Steel's problems are real, however. Foreign imports are taking a large share of the market, a total that might reach 15 million tons by the end of the year—more in the event of a prolonged strike.

Shipping problems could develop too, at a time when agriculture and the automotive industries will be using the rails heavily.

In addition, the No. 1 steel-maker, U.S. Steel—the same U.S. Steel that got into a price hike hassle with President John F. Kennedy—is being accused by competitors of price cutting.

IN FACT, the entire pricing

structure is becoming mighty confusing for some steelmen. Traditionally, a one-price system was adhered to by all producers. Not so now. Although prospects of price wars are slim, these prospects are being treated seriously by the industry's press.

Upcoming also are some serious price shifts, mostly higher. Steelmen approach price changes with mixed feelings: they want the extra money, but they shrink from the hostility with which their increases are greeted by government and the public.

THEY MIGHT be understood if not excused, therefore, if they

### How To Tell Hims From Hers

NEW YORK (AP) — It is nice to know, when you're with another person, what sex that person is.

Men, for example, traditionally feel more free to be themselves, are more at ease, even speak in a different manner if they are in the company of other men. They are also usually more boisterous and less boyish.

WOMEN, on the other hand, when in the company of women show just the opposite traits. They are more lit at ease, less free to be themselves, and in many cases profoundly less feminine and fun-worthy.

One of the increasing problems of civilization is how to tell one sex from the other. The passion for conformity appears to be gradually destroying many of the recognizable differences between the sexes.

Here are a few guidelines that help the interested bystander distinguish the hims from the hers:

IF IT LIKES, while swigging something straight from a paper cup, to stand in the backyard and brag about the barbecue sauce it has concocted, it is a man. If it would rather go to

an indoor cocktail party and gab what it doesn't know about baseball and politics, it is a woman.

Does it punch you in the ribs while it tells a merry story? Has to be a buck. Does it place a soft but infinitely restraining hand upon your arm while it tells you its troubles? Has to be a doe.

THE ONE THAT SAYS, "Let's have another one," can be safely described as male. The one that inquires, "Oh, do you really think I should?" is undoubtedly female.

Out to the incinerator to deliver the garbage with a grim air of resignation trudges the husband. Out to the incinerator with a burst of oratory, "This isn't the way it happens in the apartment next door—after all, SHE is married to a civilized man," walks a burdened wife.

Does it accept love as a bond and a mystery that must be taken for granted? That's the eternal lad. Must it be assured of love and does it demand that love's mystery be expressed in words, however lame and unhelpful, as well as in conduct, however eloquently mutual? That's the eternal lass.

### To Your Good Health What If A Pill Doesn't Stay Down?

By JOSEPH G. MOLNER, M.D.  
Dear Dr. Molner: How long does it take for a birth control pill to dissolve in the stomach? For example, if you take a pill and throw it up within 10 minutes, would you take another? Does that apply to all pills? — Mrs. L.G.

I feel a bit foolhardy even trying to answer this puzzle, but will try to give you some guidelines, however slight.

The absorption rate of the pill depends on the binding material used in it and the coating, if any. (Some pills are made deliberately so they will be absorbed gradually over a period of hours. Others are intended for immediate absorption.)

It usually takes more than 10 minutes for a pill to be dissolved and the ingredients absorbed.

The more important question, however, may be: why do you throw up the pill? Is it because of the pill? Or for some other reason? If this happens repeatedly, by all means see your doctor to find out why it is happening.

One immediate question would be whether you could see and

self-addressed, stamped envelope for the booklet.

Depending on the degree of cramping and the causes, sometimes it takes longer to control them — and sometimes it can be done more quickly than two weeks.

Usually it requires regular (daily) attention to the various methods, but that means only a relatively few minutes per day.

Dear Dr. Molner: What is the reason for not having sexual relations until six weeks after childbirth? — A.R.

It takes about six weeks for the uterus to return to normal after childbirth. Danger of infection is the chief reason for abstinence during that interval (so most doctors set six weeks as the time for a post-partum checkup).

Headaches! You can beat them. Write to Dr. Molner in care of The Herald for a copy of the booklet, "How to Tame Headaches." Please enclose a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

### Around The Rim A Few Hours And A Few Fathoms

Submarines are no place for claustrophobia - type guys.  
"My total experience aboard a sub lasted a little less than eight hours, but I have no desire to repeat the experience. The brief time I was aboard was classified by the crew and officers as a routine practice run.

THE SUB I was aboard was the USS Gudgeon. It was one of the older craft powered by electricity under water and by diesel engine when on the surface.

I boarded the long, dingy, black pig-boat at its mooring dock in Pearl Harbor. There were seven of us visitors. Below decks, an additional seven persons poses a problem in room.

THE GUDGEON was 270 feet long and its average width was 27 feet. Jammed into the interior of this long steel cigar was all of the complicated machinery needed to operate it on the surface and under the sea. A 150 crammed into part of the area were quarters for the crew of 75 men and seven officers including officers' quarters, the galley and dining area. In addition the Gudgeon carried 22 huge torpedoes.

At the surface, the Gudgeon was oval in shape; when we were 400 feet below the blue waters which surround Oahu, the pressure had transformed the oval form into a nearly perfect circle.

BELOW SURFACE there is no sense of motion. A greenhorn has a vague uneasy feeling of pressure but it is imagination since the change in pressure is compensated artificially. There is no sense of depth. The nearest I can come to in describing my sensation is that it was much like one had been trapped in an elevator car stuck between floors in a tall building.

ONE MEMORY remains sharp. There was a device which recorded the depth of the submarine and the depth of the sea bottom below us.

Since the seas around Hawaii are jammed with sunken mountain peaks, this device shifted with disturbing rapidity. One minute, as we cruised across a submerged valley, the stylus might record bottom of the sea at 600 feet. As we topped the peak of a drowned mountain, the stylus would suddenly report we were perhaps 50 feet or less above the sea bottom — in this case the ragged volcanic crest of undersea mountain.

My obsession was that this recording device might be just a trifle incorrect.

I FOUND myself growing tenser as we continued our cruise. I listened to the weird noises from the many machines and recording devices. I saw multicolored lights flash off and on as the seamen at the controls responded to signals which to me were mysterious. I heard brief verbal orders in Navy jargon which were as vague to me as Sanskrit.

Finally, I heard the order to go up to 100 feet. Later the order to surface was sounded and we came to the top. The hatch was opened and we scrambled up the iron ladders onto the narrow water-curved deck. Suddenly a hundred yards or so from us the second submarine in our party surfaced with a tremendous splash of frothy seawater.

THE FRESH air was great; the change from the tight cramped quarters grand; the smell of the outdoors delicious.

Submarine crewmen get extra pay for this type of duty.  
I think they earn it.  
—SAM BLACKBURN

### Art Buchwald Little Old Lady Speaks Up

WASHINGTON — No one has heard from the Little Old Lady in Tennis Shoes this election year, although in 1964 she was Barry Goldwater's staunchest supporter and was quoted constantly during the entire campaign.

I was fortunate to run into her the other day on the street. Except for the fact she looked a little grayer and her shoes were a little more scuffed, she had changed little during Lyndon Jonson's years in office.

"Hello, Little Old Lady in Tennis Shoes," I said. "It's good to see you again."

"YOU SAY THAT every four years, but you never come to see me when there aren't any elections going on."

"I'm sorry," I apologized. "But I've been awfully busy covering President Johnson."

"I'll bet you have," she cackled. "You all laughed at me in 1964, but in your heart you know I was right."

"Tell me, Little Old Lady in Tennis Shoes, what have you been doing for the past four years?"

"Perfecting my serve. When my man lost, I went back to tennis."

"I KNOW THIS is a personal question, but who are all the little old ladies in tennis shoes supporting this year?"

"Well, that Ronald Reagan seems like such a nice young man. He's no Barry Goldwater when it comes to thinking, but he dresses so neatly, and he's got such a sincere quality in his voice. I even liked him before he went into politics."

"You had to like him, then," I said.  
"Reagan stands for God, home and

country," she said, swinging her tennis racket for emphasis. "He believes in the American virtues that all of us hold dear."

"How do you feel about Rockefeller?"

"THAT SOCIALIST? Do you know he tried to steal the nomination away from Barry Goldwater in 1964? He would have, if we hadn't booted him at the convention."

"Was that you tennis ladies booing Rockefeller?"

"Well, it wasn't Happy," she chuckled as she hit a tennis ball across the street.

"How do you feel about Nixon?"

SHE PAUSED in the middle of a swing. "Old Tricky Dicky. We tennis shoe people like the old Nixon. The new Nixon gets on our nerves. If we have to go that route we will, but it's the last time."

"You wouldn't consider supporting a Democrat, would you?"

"You must be kidding," she said. "I wouldn't even play one doubles."

"It's that bad, huh?"

"LOOK, SONNY, we little old ladies in tennis shoes have very high standards. We're not going to throw our vote away on leftist, pinko, deficit spenders who want to flouridate our drinking water."

"I guess I'll see you at the Republican convention."

"You bet your sweet life you will, Sonny," she said, jumping over an imaginary net to shake my hand. "And this time we're going to give it to Rockefeller good. Those Eastern Establishment socialists just never learn."

### Marquis Childs Bobby Isn't Jack

WASHINGTON — "Bobby Kennedy isn't Jack Kennedy." This judgment on the current Kennedy has been heard more often than any other as Bobby campaigned in the primary states.

Yet it is almost wholly irrelevant to the fate of the present champion of the Kennedy dynasty. For 1968 is not 1960. Insofar as he has patterned his style and his appeal after that of his brother, the late President, Bobby has been going counter to the mood of the country today.

JOHN F. KENNEDY in 1960 was running against the complacency and smugness of the Eisenhower years. He promised to get the country moving again. With the charge of a "missile gap," subsequently proved wholly unjustified, he said America's defense had dangerously deteriorated. He wanted to take the country where the action was and millions of young voters were ready to follow him.

Robert Kennedy is a Democrat who, while he opposes many of the policies of a Democratic administration, cannot run against his own party in power for eight years.

FAR MORE IMPORTANT, however, is what appears to be the mood of the country. From many indications the deep underlying desire is not for action but reaction. The riots in the cities, the student revolts, the marches and demonstrations, these furious phenomena have convinced the great middle mass of the American electorate that things have gone too far and it is time for a return to order, control, calm.

IN THE SOMBER remarks he dropped in the last days of the Oregon campaign Kennedy indicated he senses this mood. He wondered whether it was his year and where his po-

litical career might go. A larger question for the Democratic party is whether, given the mood of the country and the divisions within Democratic ranks, it is not a Republican year regardless of who may be nominated.

THE KENNEDY of 1960 was a fresh face on the national scene. While his bright young men had been bloodied in the rough school of Massachusetts politics they, too, were new and refreshing in the larger arena. The Kennedy of 1960 could just manage to hold most of the old coalition — labor, the minorities, the city bosses — that had come out of the Roosevelt era.

Bobby Kennedy has been in a conspicuous position for many years. He had made innumerable enemies. The drive by organized labor in Oregon for Lyndon Johnson, netting nearly 13 per cent of the vote with another 7-plus for Hubert Humphrey, chiefly to block Kennedy may have had as much to do with the Oregon defeat as any single factor.

However disinterested the motives of those supporting Kennedy, the public, nevertheless looks upon them as merely eager to take power again.

THE KENNEDY of 1960 had a stationary target in the failures of the Eisenhower years. Yet, as is often ignored in the great outpouring of grief and guilt following the assassination, he was elected by the narrowest of margins. His majority in the popular vote was 118,550 out of nearly 70,000,000 cast, with the result in several states so paper thin as to put to question the validity of the count. The Kennedy of 1968 running as in 1960 against Richard Nixon would face far greater obstacles than did his brother eight years ago.

# Commissioners Mull HCJC Tax Change Bid

Howard County Commissioners Court was still in session at noon today after more than five hours debate over a proposal that the county and Howard County Junior College rate for taxation be increased from 20 to 25 per cent of actual value. The court was deadlocked and no progress had been made toward a solution of the issue.

At noon, Bill Tune, commissioner, made a motion which proposed an increase in percentage from 20 to 25 per cent to meet increased costs of operations, coupled with a second provision that a revaluation of real and personal property be made in 1969.

Lee Porter, county judge, stepped out of his role as presiding officer of the court to second the motion after earlier motions by Tune, all basically the same as the one offered at noon, had died for lack of a second.

On a call for votes, Tune and Porter voted for the motion. Simon Terrazas, Mae Hayden and Ray Nichols sat silent and abstained from voting.

At that hour, Tune said that he was "opposed to adjournment" and the session which had begun early Monday afternoon continued.

The issue, which has been often discussed, was precipitated into a minor crisis at a joint meeting of the commissioners and the trustees of the Howard County Junior College, and the Big Spring Independent School district trustees.

At that session, the junior college spokesman bluntly told the court it could not operate on the 20 per cent formula.

If the county commissioners failed to raise the percentage to 25 per cent, (which the college indicated it could accept at this time) the college would set up and operate its own taxing agency. The college taxing operations are now a part of the county tax system.

Don Crockett, speaking for the school system, pressed on the county commissioners the need for a revaluation of rural properties in line with urban properties. Real property, urban property and livestock, it was urged, should be on the rolls at a realistic figure, compared with the valuations that urban dwellers are given.

Although the discussion was long during the meeting of the commissioners court on the issue, it is not entirely clear, other than the distaste of officials naturally have for the responsibility of raising taxes, the nature of the strong opposition.

It seemed agreed that revaluation of all property in the county is needed, since no such general revaluation has been made in nine years.

At the Tuesday morning session, Ray Ebling, with the tax department for Cosden Oil and Chemical Co., said his firm—the biggest single taxpayer in the county—would not protest an increase from 20 to 25 per cent, provided a revaluation was made to equalize properties.

The county commissioners court meets on Wednesday as an equalization board to fix oil, gas and utilities tax values. Representatives of Abbott and Pritchard, tax engineers employed by the county to fix these taxes, and representatives of all of the major oil companies, which have property in this county, will be in session all day and possibly into Thursday on questions of tax assessments.

It was rumored that the oil companies will make a strong protest if the tax rates are lifted to 25 per cent and not coupled with a revaluation program.

It was pointed out by Porter that not only is the junior college facing difficulties living with its budget, but that the county itself must have more money or face a grave crisis.

He cited a number of commitments which the commissioners have made which will need more money in the year ahead. At noon it was not clear what the next step would be.

Second Time Around  
Landing gear of Trans World Airlines Boeing 727 jet, background, lies on ground of New York's Kennedy airport yesterday. The jet, with 102 persons aboard coming in from Cincinnati, attempted to land in a fog at nearby Laguardia airport. The pilot, apparently aware that the wheels had stuck something in the approach, applied power and lifted the plane into flight again. Pilot flew the jet to Kennedy, apparently because of the longer runway. The gear broke off as the jet skidded about 5,000 feet before veering off to a halt.

# Gov. Connally Urges Sale Of Booze In Mini Bottles

AUSTIN (AP) — Gov. John Connally urged the legislature today to legalize sale of liquor in miniature bottles—a form of liquor by the drink—and to tighten up state laws on alcoholic beverages.

Connally compared Texas prohibition on liquor by the drink with prohibition during the 1920s and early 1930s, and said "Many of the over 1,300 private clubs in Texas owe their very existence to the laws of this state which attempt to impose a moral code of non-consumption upon citizens who do not subscribe to it."

Connally urged the legislature today to legalize sale of liquor in miniature bottles—a form of liquor by the drink—and to tighten up state laws on alcoholic beverages.

Connally said he wanted liquor by the drink only on a local option basis. If passed, he estimated it would raise \$14.5 million a year through a nickel per ounce tax on each drink.

# Midway School Closed Down

COAHOMA — The Midway elementary school will not be operated next school year, the Coahoma school board decided Monday evening.

Trustees considered the results of a survey in the Midway area and concluded that it would not be economically practical. This indicated that there might have been 27 in the second grade, but there were only 36 others between the first, third and fourth grades. With one and possibly two classes possible, the board concluded it was not practical to operate the plant. Pupils in the Midway area will be bused to Coahoma elementary in the fall.

In other business, trustees received reports on the construction of four new high school classrooms, together with auxiliary rooms. These are due to be ready well in advance of the opening of school, Supt. W. A. Wilson said.

Resignations were received from five teachers. Mrs. Perry Moring and Mrs. John Westmoreland are retiring. Mrs. Joy Shaver is taking a year's leave. Mrs. Annie Ruth Van Meter is moving, and Elzaida Herring is taking a teaching post at Fort San.

# Argentina's Swap Fails

BUENOS AIRES, Argentina (AP) — Argentina's first heart transplant patient, Antonio Enrique Serrano, died early today, four days after the operation touched off debate over whether the country was ready for such surgery.

The last previous report on the 34-year-old salesman had said he was progressing satisfactorily although he had not regained consciousness after receiving the heart of a 47-year-old man who died of a brain hemorrhage.

Serrano's death left six survivors from the world's 20 heart transplants. Before the operation, doctors had told Serrano's family he had a life expectancy of only four days because of incurable heart disease.

The head of the transplant team, U.S.-trained Dr. Miguel Bellizzi, 42, replied to critics by saying: "I have no time for polemics. I care for the sick and if I have to perform an operation I do so and try to save the patient's life." Dr. Pedro Cossio, 68, a renowned cardiologist, had said: "We are by no means ready in this country to undertake human heart transplants."

The heart transplant survivors now include two in Houston, Texas, and men in Paris, London, South Africa and Brazil.

# Argentina's Swap Fails

BUENOS AIRES, Argentina (AP) — Argentina's first heart transplant patient, Antonio Enrique Serrano, died early today, four days after the operation touched off debate over whether the country was ready for such surgery.

The last previous report on the 34-year-old salesman had said he was progressing satisfactorily although he had not regained consciousness after receiving the heart of a 47-year-old man who died of a brain hemorrhage.

Serrano's death left six survivors from the world's 20 heart transplants. Before the operation, doctors had told Serrano's family he had a life expectancy of only four days because of incurable heart disease.

The head of the transplant team, U.S.-trained Dr. Miguel Bellizzi, 42, replied to critics by saying: "I have no time for polemics. I care for the sick and if I have to perform an operation I do so and try to save the patient's life." Dr. Pedro Cossio, 68, a renowned cardiologist, had said: "We are by no means ready in this country to undertake human heart transplants."

The heart transplant survivors now include two in Houston, Texas, and men in Paris, London, South Africa and Brazil.

# Gov. Connally Urges Sale Of Booze In Mini Bottles

AUSTIN (AP) — Gov. John Connally urged the legislature today to legalize sale of liquor in miniature bottles—a form of liquor by the drink—and to tighten up state laws on alcoholic beverages.

Connally compared Texas prohibition on liquor by the drink with prohibition during the 1920s and early 1930s, and said "Many of the over 1,300 private clubs in Texas owe their very existence to the laws of this state which attempt to impose a moral code of non-consumption upon citizens who do not subscribe to it."

Connally urged the legislature today to legalize sale of liquor in miniature bottles—a form of liquor by the drink—and to tighten up state laws on alcoholic beverages.

Connally said he wanted liquor by the drink only on a local option basis. If passed, he estimated it would raise \$14.5 million a year through a nickel per ounce tax on each drink.

ALL TOGETHER BOYS, INTO THE DRINK!  
HELP! HELP!  
SPLASH!

**GASOLINE ALLEY**

That'll be \$1.00! I'll bet she's found someone to drive us to the sale!  
RING!  
Oh, hello, Skeezix!  
Nina, there's a folder on my desk! Could you bring it over to the garage right away?  
Skeezix, I don't have a car!  
Use Chipper's and hurry!  
But, Skeezix!  
This is an emergency! I have to have that folder!

GERRY! HOW THOUGHTFUL! I'LL...  
WAIT! THERE'S MORE, GORGEOUS! I WAS AFRAID YOU MIGHT BE FRESH OUT OF PINS! SO I STOPPED IN AT YOUR FRIENDLY NEIGHBORHOOD DIME STORE!  
I--I'M COMPLETELY OVERWHELMED!  
FRANKLY, THAT WAS THE INTENTION!

**REX MORGAN**

I WOULDN'T KNOW, SENATOR!  
DOESN'T WARREN PIER ALWAYS SPEAK BY AT THIS TIME? WHERE IS HE?  
MR. PIER GOES OUT OF TOWN OCCASIONALLY!  
WELL, HE'S NOT OUT OF TOWN, HE'S IN TOWN!  
SENATOR, I'VE BEEN LOOKING FOR YOU-- YOU'VE GOT A SPEECH TO GIVE IN LESS THAN AN HOUR!  
SIT DOWN, RICK, AND HAVE A DRINK!

**TERRY**

BY MANIPULATING ITS FUEL MIXTURE, TERRY MAKES IT APPEAR THAT HIS ENGINE IS NOT FUNCTIONING PROPERLY.  
THERE'S SOMETHING WRONG WITH THAT PLANE, NIKKI! ITS ENGINE IS SPUT-- IT'S STOPPED!  
THEN NOSING HIS PLANE DOWNWARD TO MAINTAIN AIR SPEED, TERRY PICKS OUT THE TINY GREEN RECTANGLE WHICH IS NIKKI VON TORTE'S FRONT LAWN.

**SMITTY**

SLOOOO... LEFTY  
WE'LL HAVE ANOTHER STUDY LESSON TOMORROW!  
DO YOU THINK HE'S GETTING ANY SMARTER?  
DUNNO  
WELL, I THINK WE'RE MAKING A LITTLE PROGRESS WITH HIM--  
RIGHT  
...I SAW HIM TYING HIS OWN SHOELACE THIS MORNING!

**MOON MULLINS**

I DABBLE IN WORDS, TOO, MR. LOCKE-- SCIENTIFIC PAPERS, MOSTLY...

# U. S. Envoys Wait To Hear Thuy Spell Out Peace Bid

PARIS (AP) — U.S. negotiators withheld judgment today on a shift that appears to be developing in North-Vietnam's position in the Paris peace talks. The Americans were waiting to hear Ambassador Xuan Thuy spell out any new proposal at the conference table.

**NEW PLAN?**  
Ambassador W. Averell Harriman and his advisers have been following closely a series of moves from the Communist side which suggests a possible

new maneuver. So far they have found nothing committing Hanoi to a new tack although there are several indicators in that direction.

Harriman and Thuy are to meet Wednesday for their seventh talks. Their last previous meeting was Friday.

What seems to be developing is a move by North Vietnam to get around its own limitation that until the United States "unconditionally and definitively" halts all attacks on North Vietnam, no other subject can be discussed between Harriman and Thuy.

and said this is preventing progress. But he added:

"I am persuaded that if the American side renounces its obstinate attitude, the conversations on other problems of interest to the two sides can begin without delay as our government said in its declaration of May 3, 1968."

This appeared to leave the way open for some formula by which the United States could declare its willingness in principle to end all attacks on the North without actually doing so until conditions change. President Johnson has made clear he will not end all attacks until North Vietnam stops infiltration into the South, and Hanoi has said it would not take any reciprocal action to get the talks stopped.

# Forecasts Of Mass Arrests Fizzle Out

WASHINGTON (AP) — Forecasts of the first mass arrests in the Poor People's Campaign have fizzled in a demonstration that turned into a civil rights songfest on the steps of the Justice Department.

**PLAN TO RETURN**  
Protesters planned to return today in another bid to meet with Atty. Gen. Ramsey Clark. Campaign leaders voiced re-

**Gordon V. Comer, newly-elected president of the First Church of Christ, Scientist, told approximately 7,000 Scientists gathered in Boston, Mass., that "whatever the turmoil of the present times, spiritual values and all the blessings they bring to humanity will survive." Comer spoke at the annual meeting of the church, at which Arthur P. Wuth, new chairman, stressed individual effort as the first step in any attempt to help solve the world's ills.**

**'Upward Bound' Plans Polished**  
SAN ANTONIO (AP) — St. Mary's University recruited high school students from low income families for an "upward bound" program aimed toward college for the youngsters. The six-week program was jointly sponsored by St. Mary's and the Office of Economic Opportunity. The students contacted are those listed as having a "potential for college" but who are deficient in college entrance criteria.

## QUESTIONS

Le Duc Tho, a member of the nine-man Communist party politburo in Hanoi and hence an influential leader, arrived Monday on a flight which brought him by way of Moscow. Editorial comment on the Paris talks in Hanoi and Moscow, coincident with his trip, struck a new note. This was that the United States would have to accept responsibility for stopping the bombing before other issues could be talked about.

This suggested that Hanoi, with Moscow's support, might be interested in moving the Paris conference into a second phase.

Tho seemed to bear this out. He spoke specifically about the possibility of getting an early start on discussion of "other problems"—obviously broad political questions which get more fully into issues of peacemaking.

Tho charged that although the Paris talks are three weeks old, the United States is still stalling on North Vietnam's demand that it "unconditionally cease bombing and all other acts of war" against the North.

## LBJ'S PLAN

He accused the United States of employing "dilatory means"

peated predictions of arrests amid a rising tone of militancy in the eight-hour demonstration that lasted into the night Monday. Protesters blocked the closed doors of one building entrance and marched in the street in front of police, but no clash came.

Most marchers left when Hosea Williams, field leader for the protests, said, "We have found out they are not going to arrest us yet."

About 100 of the 300 demonstrators stayed behind to start an all-night vigil in support of seven Mexican-Americans jailed in a Los Angeles controversy, but left later when word came that they had been released. The seven were charged with conspiring to disturb the peace in a school protest walk-out.

The singing siege was the longest demonstration to date in the four-week-old drive to win more federal aid and attention for the needy.

Asst. Police Chief J. V. Wilson said, "I'm sure they came here to be arrested and that's all right with me, but I'm not going to arrest them for blocking a locked door."

## NO WONDER

Justice Department officials clanged shut the 20-foot-high iron doors at nightfall after six hours of futile negotiations over how many demonstrators would be admitted to talk to Clark.

The demonstrators demanded an audience for 100. But the department would admit no more than 25 and campaign leaders refused any compromise, leading to the late-night vigil.

A spokesman for Clark said he was "not going to stand" for campaign leaders disrupting the "various government agencies, including his own, or to have them dictate the terms of when they meet with him and where they meet and how many will meet."

The bearded Williams, who tried to negotiate entrance with Clark, said he told the attorney general the nation's cities were going to burn. But he said of Clark, "His soul and his heart are not right."

And, referring to the unsolved assassination of civil rights leader Dr. Martin Luther King Jr., April 4, Williams added, "No wonder they have not found the man who murdered Dr. King."

## Governor Frees Mac The Gander

ATLANTA, Ga. (AP) — Three Atlanta high school youths favored Gov. Lester Maddox Sunday with a nonpolitical donation—a white goose named Mac.

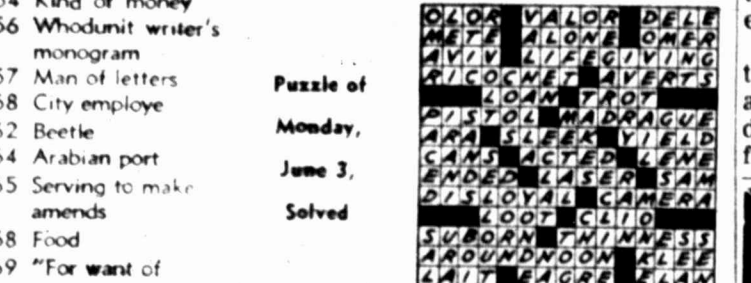

The boys, Jim Patton, Steve Bishoff and George Knight, said there was no particular occasion for the gift; they just wanted the governor to have it.

Maddox accepted the nearly grown gander and set it loose in the fountain in front of the governor's mansion.

There are no other geese on the premises, but Mac may find a playmate in another fountain dweller, Leaping Lester II, a frog.

There is much artistic ability in this child and precision of action and much social grace which could even mean fame in the long run. College.

**Diplomas At UT Reveal New Look**  
AUSTIN (AP) — Innovation has caught up with tradition at the University of Texas at Austin: Diplomas have a new look. The lettering is still Old English and the gold seal of the university is still used, but the name of the institution has been updated. "At Austin" has been added to the nameplate to conform with the systemwide series of name changes authorized by the 1967 Legislature. Innovation slowed the wheels of distribution, however. The January diplomas are about six months late.
