Camp City Scene

The possessions of former residents of Resurrection City are left on the flooring as the plywood and plastic shanties of the Poor People's Campaign are dismantled today by workmen. Plywood sections are being loaded on trucks to be carted away. The possessions will be cataloged by tent and stored.

POLICE, FIREMEN STANDING BY

Shanties Demolished

WASHINGTON (AP) — Government workers began demolishing the Poor People's Campaign shantytown today with conditions in the nation's capital nearing a business-as-usual pace.

However, police leaves were canceled for the day and all off-duty firemen remained on call in the wake of the wholesale arrests Monday which sealed off the Resurrection City headquarters of the campaign.

The mule train of the Poor People's Campaign left its temporary lot on the Virginia side of the Potomac River at mid-

day and headed for headquarters of the Southern Christian Leadership Conference at 14th and U Streets.

The SCLC, sponsor of the campaign, has its headquarters in the heart of the Negro district—in the area worst hit by last April's riots. There was some trouble there Monday night but it did not approach the wholesale rioting, arson and looting that frightened the city in April.

In the mule train were 11 wagons drawn by mules and one beast being ridden. It was flanked fore and after by police as it moved along the streets.

Over 400 Working

More than 40 government workers were put on the job of taking apart the plastic and plywood community of Resurrection City near the Lincoln Memorial.

The equipment largely included trucks to haul away the materials. One bulldozer was employed to pull other vehicles out of the mud.

Workers were marking and packing personal items found at the site and placing them in storage for eventual return to their owners, many of whom were arrested Monday for staying on the federal land without a permit.

Some 2,000 District police, supported by 1,400 D.C. National Guardsmen and with 1,600 federal troops in reserve, contained the several flare-ups that followed the police shut-down of Resurrection City.

Mayor Walter E. Washington was considering whether a curfew should be set tonight, as it was Monday night, and whether to ban the sale of guns, liquor and gasoline.

Police reported three smashed windows Monday night at shops in the main downtown shopping area.

Reports 46 Fires

Fire department headquarters had reports of 46 fires from 7 a. m. Monday to 7 a. m. today.

Among those were five of incendiary origin including one caused by a fire bomb being thrown through an apartment window. Fire damage was described as light.

One alleged looter was shot by a policeman during a raid on a liquor store Monday night and was reported in serious condition at D. C. General Hospital.

One police officer suffered reportedly minor injuries when, he said, he was jumped by four men while making a burglary arrest at a cleaning plant.

District Mayor Walter Washington declared a state of emergency and called in 1,450 National Guardsmen Monday after unruly crowds of Negro youngsters hurled bottles and rocks at officers in the same area where riots occurred last April.

These measures, plus the extensive use of tear gas and the imposition of a dusk-to-dawn curfew appeared effective and there was relatively little damage. Police Chief John Layton reported 274 persons were arrested and one man wounded by a detective's bullet as he fled a looted liquor store.

Mayor Washington said late Monday there had been "a relatively small number of windows broken" and "very little looting."

"The amount of disorder and violence is very limited," added Public Safety Director Patrick Murphy. "I urged the mayor to impose the curfew. As a result, we were successful in clearing streets of crowds."

Mayor Washington said the curfew would be lifted "as soon as conditions are restored to normal."

Teenager Killed In Fight Over Girls

GRAPEVINE, Tex. (AP) — A sudden, savage fight in downtown Grapevine Monday night left a teenager dead, a companion injured and two youths facing murder charges.

A dispute involving girls apparently started the fight, police said.

Robert Alford Henry, 18, stabbed in the chest, staggered into the police station, asked for help and collapsed, mortally wounded.

Bobby Thomas, 21, also of Grapevine, was slashed on the arm during the fight but was not seriously injured.

Police Chief Hank Scruggs said Henry approached two out-of-state youngsters, attending a

horseshoeing institute near here, about dating Grapevine girls.

A fight erupted, Henry was knifed and Thomas, who jumped into the melee, was slashed, Scruggs said. He said the two other youths, arrested at the institute dormitory, admitted the knifings.

KNIVES HIDDEN

A number of other youths apparently witnessed the incident but none was arrested.

The two taken into custody led police to where a switchblade and a large pocket knife had been hidden, Scruggs said. He said murder charges were being prepared.

He gave their ages as 18 and 21.

Senators Delay Tax Bill Debate

AUSTIN (AP) — Texas senators refused today to debate the House-passed tax bill, the primary unfinished business of the special session.

A motion for immediate debate, which needed a two-thirds majority, failed by a 14-16 vote. The Senate then quit until 10 a. m. Wednesday when the tax bill will be laid out as unfinished business.

Sen. Charles Wilson of Lufkin asked the Senate "to give us a few more hours, 24 more hours, and we'll come up with a bill you'll be for." Wilson, a liberal, directed his remarks to Sen. Dorsey Hardeman of San Angelo, who is sponsoring the tax bill.

'SPASMS'

"Every newspaper in this state is about to have spasms to increase the sales tax, and my plan will enable them to participate," Wilson said.

Wilson later handed out his "viable alternative," which proposed the following taxes: 8 per cent of value on natural gas at the well, an increase in the franchise tax from \$2.25 to \$2.75 per \$1,000 in assets, a one cent tax per bottle on soft drinks, at the bottling plant, alcoholic beverages, cigarette and tobacco products and telephone service under the 2 per cent sales tax; and a 5 per cent amusement tax.

Also, Wilson said, the tax plan would include putting advertising services, by radio, television, newspapers and magazines, under the 2 per cent tax.

The plan would raise \$151.2 million, he said. Wilson said someone else would probably sponsor it.

BOOZE

Senators cleared the house-approved liquor bill for floor debate.

"Maybe tomorrow," Sen. Joe Christie of El Paso, Senate author, said when asked when he planned to present the liquor measure for Senate debate.

"The chances are still about 50-50 in the Senate. Maybe 15 for, 15 against and one undecided."

The 6-4 approval of the mini-bottle bill by the Senate cities, counties and towns committee followed two delays of floor consideration made in recent days.

on the motion of Sen. Chet Brooks of Houston.

Brooks was one of the six senators voting for the bill today.

"I've studied the bill and I'm convinced it is in as good shape as this committee can get it," Brooks said. "Any amendments, I have I will offer on the floor."

RATLIFF

The four senators voting

against committee approval of the liquor bill were Sens. Tom Creighton of Mineral Wells, Jack Hightower of Vernon, David Ratliff of Stamford and J. P. Word of Meridian.

There were no amendments made today in the liquor bill, which actually is a Senate revision of the bill that passed the House last week 78-67.

Negotiators Add More To Giant Spending Bill

AUSTIN (AP) — Negotiators on the \$2.5 billion 1969 appropriations bill added more than \$2 million today in spending items contained in neither House nor Senate versions of the measure.

The bulk of the additions were for the state prison system, which received \$200,000 for vocational training and two million for construction and remodeling of buildings.

And \$30,000 was added for a new airplane for the Texas Aeronautics Commission, although there were rumblings about putting the state's growing fleet of aircraft "under one tent."

The commission needs the added plane—it already has one—to oversee its growing program of state aid to help small towns build and improve airports, Sen. Tom Creighton asserted.

Conferees accepted the House's \$300,000 for a museum at Washington State Park instead of the Senate's \$150,000. The park is in the district represented by Mutscher, probable speaker of the 1969 House.

The Building Commission's executive secretary's salary was raised to \$16,500 instead of the \$13,000 in the bills approved by majorities of the House and Senate already.

In two meetings Monday, totaling about 90 minutes, the negotiators agreed to accept Senate provisions for the Department of Mental Health. The Senate amounts for the agency

were \$12 million larger than the House items.

Senators quickly accepted a House rider prohibiting the Texas Air (pollution) Control Board from spending state money on research into pollution caused by cotton gins. A similar rider in last year's appropriation bill was vetoed by Gov. John Connally.

"Sandstorms pollute, but gins don't. We ought to change that rider to let them do some research on sandstorms," Healy said facetiously.

Senate quickly accepted a House rider prohibiting the Texas Air (pollution) Control Board from spending state money on research into pollution caused by cotton gins. A similar rider in last year's appropriation bill was vetoed by Gov. John Connally.

"Sandstorms pollute, but gins don't. We ought to change that rider to let them do some research on sandstorms," Healy said facetiously.

The stage for the tax debate was set Monday when the Senate State Affairs Committee House-passed bill that now amended, then approved, the has a 1969 revenue potential of \$182.4 million.

Most of the money in the bill would come from adding another penny to the general state sales tax, as of Oct. 1.

The main Senate changes, which must be approved by the House, include deletion of the "drain shop" liability provision for tavern owners and private clubs, authorization for private clubs in dry areas to serve drinks only from two-ounce bottles, and a 10 per cent gross receipts tax or fee on money received by private clubs from serving or storing alcoholic beverages.

"What happens the next 48 hours may decide whether we will need a second special session," said Speaker Ben Barnes late Monday.

DEADLINE

Deadline for the first special session is midnight July 3 but are trying to close out the session the end of this week if possible.

The stage for the tax debate was set Monday when the Senate State Affairs Committee House-passed bill that now amended, then approved, the has a 1969 revenue potential of \$182.4 million.

Most of the money in the bill would come from adding another penny to the general state sales tax, as of Oct. 1.

Guard Keeps Tight Grip On Prison

COLUMBUS, Ohio (AP) — National Guardsmen kept a tight grip on the Ohio Penitentiary today while authorities sought to determine what sparked Monday's disastrous riot and fire.

Officials have launched an intensive search for important keys missing and presumed in the hands of inmates. They also sought weapons of any kind among prisoners.

The Ohio Highway Patrol took charge of seeking out the causes and perpetrators of rioting which burned out nine buildings

and damaged at least six others. Damage estimates range upward from \$1 million.

Thirty or more persons were hurt.

There have been suggestions of Black Power sentiment among the prisoners. Authorities said 43 per cent of the inmates are Negroes.

Maury C. Koblenz, state corrections chief, suggested the uprising may trace to recent violence in the nation's cities.

"Outside influences stir these things up," he said.

Prison Warden Ernest Maxwell said 15 to 20 inmates were injured and at least eight guards were hurt.

Maxwell said he had no information on the cause.

"There probably were less than 100 prisoners actually involved," he added. "When we get it all boiled down there may be less than 50."

John McElroy, chief aide to Gov. James A. Rhodes, said 150 guardsmen were being kept on duty inside the cellblocks and on the grounds of the huge complex in three shifts. He said an additional 800 troops remained on standby duty at nearby Ft. Hayes.

FIVE HOURS

Prison guards, highway patrolman and Columbus police fought rampaging convicts for more than five hours Monday before restoring order. During the height of the riot inmates set eight fires that caused heavy damage to seven prison buildings, including the hospital.

Most of the injured suffered smoke inhalation and did not require hospitalization.

General rioting erupted after the first fire was set about 8:30 a. m. in the prison's print shop. Soon convicts were battling guards and police with baseball bats, homemade knives, scissors and golf clubs taken from a miniature golf course as fires began about the prison compound and burned unabated.

Five hours later Maury C. Koblenz, state corrections chief, said the situation had been brought under control and inmates were being returned to their cells. About that time 200 National Guardsmen were brought into the prison to relieve weary police.

PINPOINT

Neither Koblenz nor Prison Warden Ernest Maxwell could pinpoint the cause of the rioting. But Koblenz said there had been "simmering discontent" among the inmates in recent weeks and Maxwell said the outbreak was touched off by "90 to 100 troublemakers" among the 2,750 prisoners.

No shots were fired during Monday's rioting.

The 122-year-old prison near the heart of downtown Columbus has been a controversy for years because of overcrowded conditions. On April 21, 1930, a fire set by disgruntled inmates killed 320 convicts. At that time, 4,222 inmates were crowded into quarters built for 1,900.

1ST QUARTER

Homicides Increase In Large Cities

WASHINGTON (AP)—Homicides in the 13 largest Texas cities during the first three months of this year totaled 161, compared to 154 during the same period in 1967, the FBI said Monday.

Houston reported a drop in homicides during the first quarter of the year but led Texas cities with 48. During the same period in 1967 Houston had 54.

Dallas was a close second with 43, compared to 37 during the same period last year.

Houston also led the state in a general increase of crimes committed during the period. The city showed an increase in six of the seven categories of crimes listed by the FBI's Uniform Crime Reports.

The figures for Houston were in line with an overall increase of 17 per cent in serious crime in the United States, Atty. Gen. Ramsey Clark said in the report.

Crimes of violence as a group recorded an 18 per cent increase nationally, with murder up 16 per cent, forcible rape 19 per cent, aggravated assault 13 per cent and robbery 24 per cent.

Crimes against property climbed 16 per cent with burglary up 15 per cent, auto theft 17 per cent and larceny over \$50 up 19 per cent.

Rocky Coming To Texas

SAN ANTONIO (AP)—New York Gov. Nelson Rockefeller, striving for the Republican presidential delegates and alternates at a noon luncheon Saturday.

An earlier announcement said Rockefeller was to come to San Antonio to speak to the League of United Latin American Citizens (LULAC), a Mexican-American political action group.

The Texas GOP delegation is committed to a favorite son candidacy of Sen. John Tower.

Vacationettes Coming?

WASHINGTON (AP)—President Johnson has before him a bill to make four more holidays fall on Monday every year.

The Senate, with about eight members present and no debate, Monday passed the measure which has been kicking around Congress for years.

With Labor Day already falling on Monday every year, the bill would have the effect of making five three-day vacationettes—two of them in October—when it takes effect Jan. 1, 1971.

The bill provides for Washington's birthday to fall on the third Monday in February, Memorial Day on the last Monday in May, Veterans Day on the fourth Monday in October and Columbus Day on the second Monday in October.

Clear to partly cloudy and getting cooler this afternoon and tomorrow. Dust blowing today, northerly winds 15-25 m.p.h. Chance for isolated thunder-showers this afternoon and tonight. High today 88 degrees, low tonight 60 degrees, high tomorrow 88 degrees.

Soviet Ship Hit By Shells

MAR DEL PLATA, Argentina (AP) — A Soviet trawler was held in port today after being hit by shellfire when it ignored an Argentine destroyer's order enter this harbor 250 miles south of Buenos Aires.

The Navy said trawler Golf-Strim was part of a Soviet fleet fishing 120 miles offshore—with in the 200-mile limit Argentina claims as territorial waters.

The Argentine destroyer Santa Cruz pursued the Golf-Strim and a second ship, the Pavlovo, but the latter escaped.

ommendations said the President "has answered the demand of the American people to heed the menace of the gun traffic."

The President's new recommendations call for federal registration of guns to be recorded in a single computer center, and licensing under definite federal standards of all persons who own guns.

The licensing could be done by states if they meet the federal standards but the federal

government would step in if they failed to establish the licensing in 10 years under the proposals.

PREVENT

Johnson said the federal licensing standards he proposes would prevent purchase or possession of firearms by criminals, dope addicts, alcoholics, the mentally ill, and all others whose possession of guns would jeopardize public health, safety or welfare.

Midland Redistricting Plan Approved Monday

MIDLAND, Tex. (AP) — The Midland County Commissioner's court voted 3 to 1 Monday for a proposal to redistrict along population lines.

It was an extension of the U.S. Supreme Court's landmark "one-man-one vote" decision April 1 that prompted their action. The decision has implications far beyond this West Texas agricultural and oil county.

ALTER LINES

The new plan will alter district lines so that each unit will contain about 6,200 to 8,000 registered voters.

The suit prompting the high court ruling was filed by former Midland Mayor Hank Avery after he asked the Commissioner's court to voluntarily redistrict. Avery alleged the City of Midland elected only one of four county commissioners, although the city and one county precinct contained 95 per cent of the county population.

The Supreme Court said in its decision that "The Constitution permits no substantial variation from equal population" in local government units with representation based on districts.

Louis Osborne, the dissenting

commissioner, said he preferred a plan in which the city would be divided between three commissioners with one commissioner representing the entire rural population around Midland.

Willie DuBois, county attorney, also opposed the plan, contending that redistricting would have a detrimental effect on voting in the November general election.

Midland County Judge Barbara Culver supported the new plan however. "By putting redistricting off until the November general election," she said, "we would have continued our old situation whereby 90 per cent of the people choose one commissioner, then we would tell three-fourths of the people that we have moved them into other commissioners' precincts."

UNFAIR

"I think this would have been unfair to the candidates and to the voters," she added.

The county commissioners say state law requires that votes cast in the November general election should be cast along new district lines.

Campaign Ends In Riots, Canadian Elections Today

MONTREAL (AP) — Canada's lively election campaign came to a bitter end Monday night as Prime Minister Pierre Elliott Trudeau watched a riot between police and demonstrators defying him on the issue of Quebec's future.

Sixteen years on the force and this is the worst I've seen, said one constable at the height of the riot in front of the reviewing stand at the St. Jean Baptiste Day parade, high point of French Canada's chief holiday.

The 48-year-old bachelor prime minister shook off persons urging him to leave the stand and watched coolly from the front row as police on horseback and on foot drove back charging demonstrators who hurled bottles, stones, firecrackers and light bulbs filled with paint.

One bottle whizzed past Trudeau's head.

Police said 91 bystanders and 44 policemen were injured. The number of injured rioters was not known, but police arrested more than 290 of the demonstrators demanding a new del for French-speaking Quebec Province.

"Trudeau to the gallows!" some of the demonstrators shouted. There were also rumors of a bomb plot against him, but 1,400 uniformed police and additional plainclothesmen were on guard, and the prime minister was not harmed.

Trudeau is a native of Quebec but has campaigned on a "one Canada" theme to the chagrin of those seeking a special status of independence for the province.

For many years there has been a movement to set up the French-speaking province as a separate country, but by all electoral yardsticks the separatists are a small minority.

Trudeau's Liberal party forces expressed confidence in his national leader.

Two months ago, virtually all polls and newspaper forecasts predicted a victory for Trudeau over Robert Stanfield, the former premier of Nova Scotia who succeeded John Diefenbaker as leader of the Conservative party last year.

Trudeau's Liberals were trying today to do what they never could accomplish under Pearson—win a clearcut majority in the House of Commons. In the last two elections the Liberals emerged as the biggest party but failed of a majority because minor parties splintered the vote.

The Liberals held 131 of 265 seats in the last Commons. The party in power has the right to call a new election any time within a nominal five-year term.

Trudeau's bouncy style reminds many Canadians of the Kennedy's. His campaign attracted enthusiastic crowds across the country.

Stanfield, 54, shines more in small gatherings than at mass meetings. His party's advertising presented him as "a man who appeals to the mind."

Drug Apparently Helps Prevent Heart Attacks

WASHINGTON (AP) — A physician today urged extensive testing of a drug which his studies find is effective in preventing heart attacks.

Dr. Louis R. Kravitz, director of clinical research for United Air Lines in San Francisco, said the frequency of heart attacks was 3.7 times higher among men not taking the drug than among those receiving it daily.

In testimony prepared for a subcommittee of the Senate Committee on Appropriations, Kravitz said the 3½-year study has involved 1,400 men aged 40 to 60. Only 44 had had heart attacks before entering the study. Half of the 1,400, including 22

could be taken today, he said. The drug is Atromid-S, whose generic name is clofibrate. Kravitz used the trademark in his testimony. It acts to lower the amount of cholesterol in the bloodstream.

"We may have in hand a practical and definitive answer to the ever-menacing problem of atherosclerotic heart disease," he said.

While the results of this study "are impressive indeed," he noted it was too early to make "any definite claims without confirmation through additional large-scale independent investigation." He urged that such research be undertaken "as expeditiously as possible."

Kravitz said the study found that men who did have heart attacks incurred a second one 4.6 times more frequently if they were not receiving the drug. Heart attacks appeared to be fatal twice as often in men not receiving the drug, he added.

Plane Collides With TV Tower

SIoux FALLS, S.D. (AP) — An airliner with 22 persons aboard made a safe landing Monday night after it collided with a television tower.

The 2,000-foot tower crumpled to the ground, smashing a garage and putting two TV stations off the air.

The North Central Airlines Convair 440 two-engine prop jet was making an instrument landing at Joe Foss Airport during a thunderstorm, an airline spokesman said, when one of the engines struck the tower during the landing pass.

The pilot, Daniel Otten of suburban Minneapolis, shut off the damaged engine. None of the 19 passengers and three crewmen of the 48-seat plane was injured.

Spokesmen for KSOO-TV and KELO-TV said the stations went off the air at 9:37 p.m. EDT. The stations share the tower 10 miles east of the airport.

Army Pfc Donald Niven, a passenger, said windows on the left side of the plane were shattered.

Italy's Most Beautiful
Cristina Busnari, 19, has been chosen as Italy's representative to the Miss Universe contest in Miami next month. Miss Italy posed yesterday in front of the Castel Sant'Angelo in Rome.

Rioters Receive Prison Sentences

DALLAS (AP) — Three young Negroes were sentenced to prison Monday for their role in an outbreak of lawlessness which followed the funeral of Dr. Martin Luther King early in April.

Judge Henry King sentenced Thomas Burnley, 22, and Jimmie Session, 19, to four concurrent 10-year sentences and one seven-year sentence for theft, robbery, destruction of property, manufacture of fire bombs and attempted arson.

A third defendant, Billie Green, 18, received four concurrent 10-year sentences for theft, robbery, destruction of property and manufacture of fire bombs.

All pleaded guilty before Judge King to charges of theft from a Zale jewelry store, breaking windows and robbery of a Tom Thumb supermarket, destruction of private property and manufacture of fire bombs.

Burnley, Session and Green also pleaded guilty to the attempted fire bombing of an H. L. Green store.

Asst. Dist. Atty. Ken Blasingame who read the stipulated testimony against the three said they were members of a gang which formed at a South Dallas drive-in April 9.

After breaking a window in a Zale store and taking a large quantity of jewelry, they moved into West Dallas and robbed the Tom Thumb store.

Police said the gang made fire bombs on the night of April 9 which they hid in Stone Place Mall downtown and attempted to bomb the H. L. Green store April 10. The one bomb hurled into the store failed to ignite. Police found 20 others in the mall.

Death, Parades Mark 18th Year

SEoul (AP) — Rifles cracked, grenades exploded and men died on the eastern front today while South Korean cities observed the 18th anniversary of the Korean War with ceremonies and parades.

The South Korean army reported four North Korean infiltrators were killed in two brief fire fights 3½ miles south of the demilitarized zone. No South Korean casualties were reported.

Army spokesmen said the infiltrators wore South Korean army fatigues without insignia. Two Russian light machine guns and a camera with film were found among the bodies.

The army said this raised to 20 the number of North Korean infiltrators killed in five clashes in nine days.

In a war anniversary speech in Seoul, soldier-President Chung Hee Park called for unity to continue economic programs while defending the nation from Communist threats. He accused the Communists of turning the entire land into military camps and scheming to launch a guerrilla war against South Korea as the Viet Cong is doing in South Vietnam.

Government agencies across the country held ceremonies to remember the Sunday 18 years ago when North Korean Communists attacked along the 38th parallel, reaching the South Korean capital in three days.

North Korea celebrated the war anniversary with rallies and speeches demanding U.S. withdrawal from South Korea.

Liberty Tower For Alcatraz?

SAN FRANCISCO (AP) — Mayor Joseph Alioto said Monday that Lamar Hunt of Dallas has offered to build a tall tower of "liberty and freedom" on Alcatraz Island, longtime site of a federal prison.

The tower would have three observation levels with a restaurant and concessions on all three levels. The plan also includes an aerial tramway service from San Francisco to the 35-acre island.

The prison was closed in 1963 and now only a caretaker, his wife and a helper now live on Alcatraz which once held as many as 1,200 of the nation's most hardened criminals.

The General Services Administration in May offered to give Alcatraz to the City of San Francisco provided the city can offer a definite plan for its use within 90 days.

Mayor Alioto said the Hunt plan or any other adopted would have to have the approval of the city's art commission.

Investment In Midland Climbs

MIDLAND — Investment in the Industrial Foundation of Midland, Inc. has reached \$200,000, which is two-thirds of the \$300,000 being sought. The figure has been subscribed from only 46 investors. Funds invested in the foundation through purchase of debentures will return five per cent per annum, according to Al Hamilton, president. Funds are being used to purchase and develop a 134-acre site for industrial prospects. It is east of the Holiday Hill road and is between IS 20 and the T&P railroad.

Rails Slowdown Chokes British Transportation

LONDON (AP) — A spreading slowdown by railroad employees choked Britain's transport system today. Prime Minister Harold Wilson was reported near to declaring a state of emergency.

Some 30,000 locomotive engineers joined 227,000 other railroad men already "working to rule" in their demand for more pay. The effect was chaos for rush hour traffic between London and the suburbs and disruption elsewhere in the country.

The employees demand an immediate pay increase of 3 1/2 per cent for all members of their two rival unions—the National Union of Railwaymen and the Associated Society of Locomotive Engineers and Firemen. The state-owned British Railways Board refused any increase until the unions cooperate in manpower economies.

Political sources said Wilson's Cabinet, anxiously recalling the crippling effect of other transport strikes on the economy, was ready to declare a state of emergency within a few days.

This would allow the government to step in to keep essential services going but first would be used mainly as a lever to spur the two sides into talks.

The "work to rule" tactic means meticulously following a book of 279 rules which every railroad man carries.

An engineer finding the slightest fault on his engine will refuse to take it out. When a signal is at caution he will drive so slowly that the timetable is shown off.

The Big Spring Herald

'THERE WON'T BE ANY GREEN MEN, OR BEETLES'

Disagree On Life Elsewhere

SAN ANTONIO (AP) — If you worry about "little green men from Mars" you're wasting your time, a Nobel Prize-winning scientist said here Monday.

Dr. Harold C. Urey, a professor at Revelle College of the University of California at San Diego, told newsmen that if there is life elsewhere, it won't be in any form that man can readily recognize.

Dr. Urey, a speaker at the fourth International Symposium on Bioastronautics and the Exploration of Space, said that life on other planets would take another form because they would take another path of evolution.

Man, he said, could probably not even imagine what the life form could look like.

"There won't be any homo sapiens (man)," he said. "There won't be any little green men or even green beetles."

Dr. Urey made the statements after he and Dr. Fritz Zwicky, well-known scientist at the California Institute of Technology, disagreed about the possibility of life elsewhere in the universe.

Dr. Zwicky said flatly that life elsewhere in the universe is impossible because of the precise requirements needed to start life and to maintain it.

He said life is impossible without a protective atmosphere and although there are known planets with atmospheres, there are none with the type peculiar to earth.

Bridge Test

Both vulnerable, South deals.

NORTH: J, A5, QJ8654, J986

WEST: Q972, Q83, A732, 74

EAST: K843, J972, K9, 532

SOUTH: A1065, K1064, 10, AKQ10

The bidding: South West North East

1 Pass 2 Pass 3 NT Pass Pass Pass

Opening lead: Deuce of

Genius and insanity, it has many times been said, are blood relations. I have evidence to support the theory that inspiration and ignorance are next of kin.

Part of my evidence is submitted herein. The anecdote recounted I picked up in my peregrinations among the high stake-low talent games around New York City.

No, gentle reader, I have not changed my bidding style. The diagram above provides the exact sequence of calls when I saw the hand played.

South found this system very effective in auction days, and he has seen no reason to change his methods with the passing of the years.

Since both of his four card suits had been adversely bid, West chose to lead dummy's suit and the deuce of diamonds came out briskly.

Dummy played low and East went into a prolonged huddle during which West showed manifest signs of annoyance.

It was apparent to him that the only card that would present his partner with a problem was the king, and he was naturally rooting inwardly for East to win the trick.

After extensive fumbling, the nine of diamonds came forth to be taken by declarer's ten. This was almost too much for West, who violated any number of tenets by expressing his opinion of his partner then and there.

Decorum was reestablished and play continued. Try as he would declarer was unable to take more than eight tricks.

The diamond suit could never be brought in for, while South had two entries to dummy to establish the suit, he lacked the third which was required to cash it.

Had East gone up with the king at trick one, the dummy's suit could have been established in one more lead and the contract easily fulfilled.

As a matter of technique, I think East's play was correct. South is marked with one diamond. If it is the ace, the king play cannot be fruitful. If it is a low card, the nine will win and if it is the ten, nothing will be lost, since there is no fear of blocking partner's diamonds.

Sentinel Missiles Survive Major Challenge In Senate

WASHINGTON (AP) — The Sentinel antiballistic missile program—so-called "thin" line of defense against a possible Red Chinese attack—has survived a major Senate challenge.

The Senate Monday rejected a move to delay for a year authorization of \$227.3 million to acquire sites and start work on the Sentinel program, expected to cost \$5 billion to \$7 billion over the next several years.

A move to strike it altogether from a \$1.8 billion military construction bill was turned back 72-12.

Flood Crests Tumble In Wake Of Candy's Fury

Although mild weather returned throughout Texas today, flood crests still tumbled down numerous streams in the wake of a costly assault by tropical storm Candy.

For a change, most of the state experienced a night free of showers for the first time in days.

Losses were reckoned at \$1 million by Weather Bureau observers, meanwhile, from Candy's unexpected swipe toward the north through Texas cotton and grain fields, plus damage to an offshore oil rig, boats and piers.

Rains measuring more than a foot on the coast died down as the storm, once barely short of hurricane force, dwindled into a low pressure system as it moved into Oklahoma and on toward the north.

The Weather Bureau reported 0.2 inch in a shower at Tyler in only measurable moisture during the night.

By early morning, however, there were a few thundershowers marking the advance of a new cool front across Texas.

Patches of low clouds overhung the east half of the state. Skies were clear at many points elsewhere.

Pizza Maker Can't Hurl Dough Now

LYNBROOK, N.Y. (AP) — A pizza maker who says he used to hurl pizza dough 10 feet into the air to make it taste better has been awarded \$335,000 because, a jury found, an auto accident prevents him from doing it anymore.

Comilio Calogero was delivering pizzas when the accident occurred last Sept. 30. His neck was broken in the crash.

Speaking Monday at his home in Lynbrook, and still wearing a neck brace, the 33-year-old father of three said hundreds of people had watched him throw pizza dough into the air, in the traditions of his forebears in Palermo, Italy, whence he came five years ago.

He said pizzas "probably taste better" when the dough is kneaded by twirling it up in the air.

For three years Calogero had been employed as a chef at Gino's Pizzeria in this Long Island community, earning more than \$100 a week. He was not sure what work he would turn to now, "but I won't take any chances," he said.

A tow truck allegedly went through a stop sign and struck a car which then collided with Calogero's delivery auto here. In addition to the broken neck, he suffered internal injuries and underwent surgery during 26 days in the hospital.

Calogero sued for \$500,000. A State Supreme Court jury in Mineola returned the \$335,000 award Saturday.

Justice Edward R. Lynde denied motions of a defense lawyer to set aside the verdict as excessive.

That Was Peach Of An Accident! NIAGARA FALLS, N.Y. (AP) — Thomas R. Zarcone, 51, of the Buffalo suburb of Amherst may have developed an aversion to peaches early Monday—and for good reason.

Zarcone was driving a truck and eating a peach when juice from the fruit squirted into his eyes. The vehicle went out of control and hit a pole. Zarcone was released from the hospital after treatment for arm and nose injuries.

Zarcone was driving a truck and eating a peach when juice from the fruit squirted into his eyes. The vehicle went out of control and hit a pole. Zarcone was released from the hospital after treatment for arm and nose injuries.

Stops Tormenting Rectal Itch

Exclusive Formula Promptly Stops Itching, Burning and Relieves Pain of Piles In Most Cases

New York, N.Y. (Special): The embarrassing itch caused by hemorrhoids is most torturous. But science has found a special formula with the ability, in most cases—to promptly stop the burning itch, relieve pain and actually shrink hemorrhoids. And all without nar-

cotics or stinging astringents of any kind. The secret is Preparation H®. There is no other hemorrhoid formula like it. Preparation H also lubricates, soothes irritated tissues and helps prevent further infection. In ointment or suppository form.

Big Spring's Highest Rated Radio Station

DOES IT AGAIN...

News Department RECEIVES

FOUR Texas Associated Press Broadcasters' Ass'n. AWARDS

Presented To KBST At the Annual Texas AP Broadcasters' Association Meeting at Sherman, Saturday, June 22

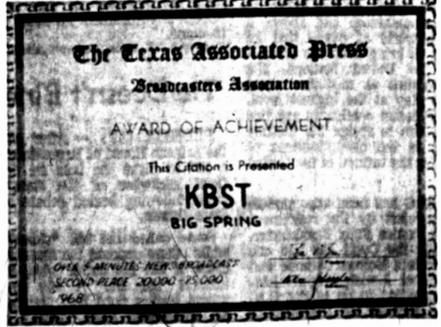

AWARDS:

- 1. KEY STATION AWARD For Outstanding Coverage of News for the Texas AP Report
2. OVER 5 MINUTES NEWS BROADCAST Second Place (20,000-75,000 Population Class)
3. BEST NEWS SPECIAL Second Place (20,000-75,000 Population Class)
4. BEST NEWS SPECIAL Third Place (20,000-75,000 Population Class)

BOB LEWIS, KBST NEWS DIRECTOR, ELECTED FIRST VICE PRESIDENT, TEXAS AP BROADCASTERS' ASS'N.

FOUR MORE AP AWARDS THAN FOR ANY OTHER BROADCAST STATION IN BIG SPRING!

KBST RADIO 1490 On Your Dial

A Devotional For The Day

"Wherefore, O King Agrippa, I was not disobedient to the heavenly vision." (Acts 26:19, RSV)
PRAYER: Father, may I not be disobedient to that which I know to be the right way. Make me sensitive to the many opportunities for service in Thy name. Give me the courage to undertake the difficult as well as the pleasant tasks. Amen. (From the 'Upper Room')

Full Publicity A Requirement

It is no credit to Texas or much of its higher administrative and legislative echelons that a special report has found myriad weaknesses in past operations of the Liquor Control Board.

Much of this has been erased through a reorganization and a considerable change of personnel, and it is to be hoped that now drastic corrections have been made and strict enforcement observed.

It took some effort on the part of private citizens, in various cities of the state to bring to light many of the derelictions in the LCB setup. In fact, pressure had to be exerted to get hearings that resulted in changes.

It would seem that there should be a standing "watchdog" committee of some nature created in the Legislature that could and would keep a searchlight on the various agencies that are set up as the Liquor Control Board. There has been a committee with authority, but it, for rea-

sons of its own, did not delve into the LCB complaints. This itself, was a shortcoming.

Another factor has been that most of the operations, transactions and even complaints brought to the LCB were handled in secrecy, and the public information media were denied access to these.

Under a new setup, it now appears that LCB operations can be exposed to the white light of publicity, as indeed they should be.

Much of the fault of this rather sorry record of a state agency must be borne by those who should have conducted examinations into any charges that were brought, and to a policy of keeping public matters behind locked doors. Nothing will cure shortcomings in public agencies more quickly than full exposure to the public. May Texans have the knowledge that from now on the functions of boards like the LCB will take place, literally, in a goldfish bowl.

The Cost Of Credit

Will the American people, aware for the first time of the actual cost of credit financing, curb somewhat their buying habits when the federal Consumer Credit Protection Act takes effect in July, 1969? The question is of vital interest to most retail businessmen in the United States.

Among other things, the measure will require that customers be informed of how much interest they are paying at an annual rate, as well as a monthly rate. They must be told, for instance, that a charge of 15 per cent a month approximates an annual interest rate of 18 per cent.

The simpler days of "a dollar down and a dollar a week," with scarcely a mention of the selling price, much less the rate of interest, will be over in mid-1969. The federal government will have the authority to crack down on money lenders charging exorbitant interest rates and prevent a borrower

from unwittingly signing a second mortgage to his home on a home-improvement loan.

Best news to consumers and borrowers in every state except Texas, Pennsylvania, and Florida, which do not permit wage garnishment, is the limitation on wage garnishment to one-quarter of an individual's wages, after taxes. Lower income workers can retain not less than \$48 a week secure from garnishment.

Realization of the cost of credit may not affect the buying habits of most Americans. In fact, there seems to be a tendency on the part of some, particularly young married couples, to blind themselves deliberately to the high cost of credit. This is revealed by the single question: "How much are the payments?" Only those who are shocked by the cost are likely to think twice.

Holmes Alexander Prophets Against Democracy

WASHINGTON — Two campaigners, Ralph Abernathy and George Wallace, more than any others on the hustings today, hold up the skull to remind us that our country is mortal. We are sick, all right. Perhaps sick unto death — unless there is a healer in the house. Consider these men, and what they signify.

THEY ARE not campaigners as we have known that breed in times past. Neither has any visible means of livelihood. Rev. Abernathy, although ostensibly pastor of a church, is here in Washington at the head of the Poor People's campaign. He told us at a speech before the National Press Club that he had just 30 cents in his pocket. But he takes his bed and board elsewhere than Resurrection City, and he does not live badly. We have in Abernathy a week-round revolutionary — not usual in America.

falling democracy. We would see the usual similarities in the leaders of the extremes of Left and Right.

BOTH MEN are at the head of armies of Discontent. Abernathy and his followers have a foothold in the national capital. They have become too powerful in their special way to be dislodged by anything short of para-military action. We don't want that.

Wallace and a host of supporters have dug into political entrenchments, certainly in several Southern States and probably in the electorate of many northern cities where the races have clashed. There are indications that he may have to be routed on election day by means best known to the political bosses in charge of ballot boxes and voting machines. We don't want that either.

GOV. WALLACE, out of office for going on two years, is ostensibly a lawyer, but he has no clients. In the four years prior to his election in 1962, according to his biographer, Marshall Frady, Wallace was financially supported by angels as mysteriously as those which minister to Dr. Abernathy. Wallace gives full time to counter-revolution — very unusual in America.

BOTH THESE men deny racism, but flourish on it. Both affect a "humility," but know the uses of demagoguery. Both are Populists in the loose sense of being "for the people." Both fear assassination, and are political heirs to men who died by murder. Abernathy, successor to Martin Luther King, and Wallace to Huey Long. Neither Abernathy nor Wallace can have his way in America without changing America totally beyond recognition.

If we were viewing these men, Abernathy and Wallace, from afar — if we watched their activities in some other country — we would say that Communism and Fascism were making their separate bids to take over.

Billy Graham

My husband is impatient with the children and does not spend much time with them. The children don't understand that he is very tired when home, as he is a very busy man. How can I let him know that the children need him? — K.T.

Most successful businessmen and many unsuccessful ones are tired and preoccupied when they come home. Others are just made up that way. Tranquil atmosphere is their need. I would see that he had a time of undisturbed rest on his arrival. Let him read, listen to the radio or just plain loaf. Tell the children why he is tired and wants quiet. It is for their sakes, too, to help them not only to understand but also so that they will be sympathetic and love him more. Plan some quiet, absorbing activity for them while supper is readied. At supper keep your remarks limited to things that will interest and amuse him. After supper he will feel refreshed. He then should be led to a few minutes attention to the children. Talk this over with your husband and work out a plan of this general sort.

I KNOW there are those among us who believe that the Agriculture Department should feed persons who do not earn their bread, and that the Treasury should give income to those without wages, and the Justice Department should waive the trespass laws for those who organize to break them, and that housing and health services should be supplied upon demand. Dr. Ralph Abernathy is the leader for all with such beliefs, for these are his "goals."

PUT IT another way: if the process of a national election fails to give us a healer for our sickness, we are going to perish because of men like Abernathy or like Wallace, one a revolutionary and the other a counter-revolutionary.

Long after it's happened, it will look very familiar: Communism or Fascism will have replaced Democracy. (Distributed by McNaught Syndicate, Inc.)

John Cunniff A Dose Of Medicine We Can Swallow

NEW YORK (AP) — Sluggishness, high level stagnation, slow-growth, dip, even recession are among terms now being used by financial analysts to describe the economy during the upcoming months of higher taxes.

The words sound dismal and spiritless, even foreboding when you consider that the tax increase-spending cut formula had come to be considered a panacea for the nation's economic ills.

It was maintained. It had been slipping; foreigners felt dollars were cheap or inflated.

IF INFLATION is slowed an almost automatic dividend results: the balance of payments situation should improve.

A psychological dividend also would be declared by a tax rise. Americans and foreigners would feel more confident that sensible, realistic financial policies were being pursued.

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Two out of three people in American cities above 100,000 population go to and from work by car. Only about 19 per cent journey by public transit. The rest walk.

Air conditioning is important to animals as well as people. It has been found that cows give more milk, hogs get fat quicker, and hens lay more eggs if their quarters are air conditioned.

LEST YOU become alarmed, however, consider what was being said a few weeks ago, before Congress approved a tax increase. Sluggishness, you must admit, is an improvement over crisis, catastrophe, depression and so on.

The tendency now of some analysts to greet the tax increase with less than the same fervor they used in promoting it, is partly the result of some awareness of pitfalls ahead. Their sense of relief is restrained by wariness.

A REVIEW of reports by some analysts here show a feeling that some discomfort could result from the size of the package passed by Congress: \$11.6 billion in corporate and personal income taxes and \$6 billion less spending. This, a few analysts feel, could be too strong a dose.

Nevertheless, the more general feeling is that enormous plusses will be derived from the tax measure, which will be retroactive to April 1 for individuals and last until June 30, 1969. Among the improvements that could result:

NEXT ON the market: A laundry bag made of a mixture of detergents and water-soothing ingredients. When the bag is full, you simply toss it into the washing machine—and as the temperature hits 140 degrees the bag dissolves and goes to work on the laundry.

How fearful of violence are we? A poll by the Ladies' Home Journal disclosed that three out of five responding women said they don't feel safe walking alone at night in their own neighborhood. Three out of five also expressed the belief they "could use a weapon if their own safety was at stake."

WHEN IS the best time to marry? Well, young lady, if you want to avoid divorce, June is your best bet. Girls married in that month have the fewest number of divorces. However, if you marry in January, February or March, your chances of winding up with a divorce are above average.

IF YOUR wife is bored with trying to decide whether to vacation at the shore or mountain, why not solve her dilemma by taking her on a bow and arrow big game hunting trip in Mozambique? You can both make the round trip from here for a tidy \$3,750—including tips to the natives.

WORTH remembering: "Some guys will give you an honest day's work even if it takes them all week to do it." —Arnold Glasow.

Men are more susceptible than women to most diseases, but diabetes is an exception. It is estimated that six out of 10 of the nation's known 24 million diabetics are women. The person most likely to suffer from diabetes is an elderly woman who is also overweight.

WARINESS about the size of this reduction in inflation is expressed by some economists who note that rising wages will continue for many months to push prices higher. And they also foresee businessmen paying for their higher taxes through price increases.

—Confidence in the dollar will be strengthened, the dollar is so widely used in world trade it is essential that confidence

To Your Good Health Ways Of Avoiding Kidney Stones

By JOSEPH G. MOLNER, M.D.
Dera Dr. Molner: I would like to know what foods contain calcium oxalate, to prevent kidney stones, if possible. Mine have been of that type. — J.B.

The basic principle in suppressing kidney stones of any type is to drink sufficient quantities of water to keep the urine dilute — the stones are more likely to form in a concentrated solution rather than dilute.

As to calcium oxalate stones in particular, the goal is to reduce calcium. This is one of the few situations in which there is good reason to limit calcium in the diet.

Milk, cheese, and other dairy products are the chief sources of calcium, so it is wise to take them only in small amounts, as, for instance, a small amount of milk or cream with your coffee or tea. Stones do not, your system still needs at least a minimum of calcium.

Beyond that, attempts should be made to keep the urine acid. Medication (as sodium acid

phosphate) may be used. Cranberry and prune juice produce an acid, hence are helpful in this way. Aluminum gel preparations also are used.

Overactivity of the parathyroid glands can be a factor in formation of calcium stones. A test for blood calcium is a clue to this disorder.

Dear Dr. Molner: Why in "health books" do you read that natural vitamins are better for you but doctors never recommend them? They say use synthetic ones. I am taking natural ones but don't see any improvement. Is there really a difference? — Mrs. R.A.

Most vitamins have been analyzed completely, hence can be produced so they are exactly the same in chemical structure whether made from natural food products or from other materials. Being the same composition, the "natural" and synthetic vitamins behave in exactly the same way.

The so-called "health books"

never offer any rational explanation for their claims.

Dear Dr. Molner: I have a hiatal hernia, but also want to do some exercises for my waistline and posture. Do you think exercises, not strenuous, tough ones, would be injurious to the hernia? — T.Y.

The answer depends on the extent of the hernia and how much fat you have in your abdomen. Some folks with hiatal hernia have discomfort in bending as well as lying on their backs. Try some exercises; if no distress, continue.

Are you having a gall bladder problem? To find out how the gall bladder works and what types of trouble to look for send for Dr. Molner's booklet, "You and Your Gall Bladder." Write to Dr. Molner in care of The Herald for a copy of the booklet, enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover the cost of printing and handling.

Around The Rim It's The Sentiment

There's an old saying, which we have all heard but inwardly ignore while giving outward assent, namely "It's not the gift that really counts, but the sentiment which inspired it."

On the daughter's birthday, her mother would ceremoniously present her with Spot — to be her dog for one year.

SOME PEOPLE will go to almost any length to figure out a price tag; they may even go to the store to ferret-out what a present cost — just to determine the degree of sentiment, I'm sure.

Not so a certain mother and daughter I know about.

WHEN THE mother's birthday rolled around, the daughter with just as much solemnity and ceremony, would formally present Spot to her.

This happy custom went on for several years. Probably until the "present" lived out his span and passed to great beyond.

This all happened half a century or so ago, and things financially and otherwise were a great deal different from what they are now. At least it was for mother and daughter, who had little money and lived on a poor, isolated farm deep in the backwoods.

THE ODD thing about it was that the present made the recipient as happy as though she had been given a precious jewel. And the ownership was strictly adhered to by both for the year involved.

I do not know what the solution was after old Spot had passed on to his reward. Doubtless, the mother and her daughter worked out some equally happy answer for their birthday problem.

THE FAMILY was owned by a small, white dog with black spots. The dog was deeply beloved by the mother and by her daughter.

Therefore, the pair worked out a fantastic but happy little method of coping with the problem of a gift for

each other's birthdays.

THEIR was a happy lot.

—SAM BLACKBURN

Art Buchwald Who's Conducting The Orchestra?

WASHINGTON — Vice President Hubert Humphrey is having a difficult time of it these days. He has to keep insisting that he's loyal to President Johnson without looking as if he's really loyal to President Johnson.

from the same score with the same musicians. But it's different music. Now what exactly was wrong with my conducting?

It must be tough for the vice president, particularly when he's in Washington.

"Hi there, Hubert. Haven't seen you in some time."

"NOTHING," MR. President. You conduct a great orchestra. I should know. I've been playing second violin in it for the last three and a half years. I was just trying to make the point that if I got to conduct the orchestra it might not sound exactly the same."

"Hello there, Mr. President. It's good to see you again. I was just saying to Muriel the other day, 'I wonder how the Johnsons are getting along.'"

"Do you think you can do a better job of leading the orchestra?"

"I didn't say that, Mr. President. All I said was my music would be different. It's not as though I'm going to change any of the arrangements."

"WELL, LADY BIRD was saying to me the other day that she thought the Humphreys were avoiding us."

"Why, that's ridiculous, Mr. President. I'm a loyal member of your team. I've just been busy explaining how much I support your policies in Vietnam."

"BUT YOU DID indicate that if you were captain of the team you might do things differently than you did as a member of the team."

"I got my metaphors all mixed up. What I meant to say is that if the American people would give me the ball this year, I'd run with it."

"What do you say?"

"That we're both for peace and all we want is freedom for everybody; and we never expected a military solution in the first place."

"How does that go over?"

"THAT'S NOT true, Mr. President. You made me what I am today. Everything I am or ever hope to be, I owe to you. As far as I am concerned, you're still the greatest President the United States has ever had."

"That's nice of you to say, Hubert. If everything you say is true, I just have one favor to ask."

"What's that, Sir?"

"Would you stop conducting the U.S. Marine Corps band until I move out of the White House?"

(Copyright, 1968, The Washington Post Co.)

"NOT VERY WELL. I wish you could come up with something better."

"Hubert, it seems to me that you're trying to establish your own identity."

"How can you say that, Mr. President? I have said time and time again, 'What's good for President Johnson is good enough for me.'"

"Hubert, you know I'm very fond of you, but there are some things I just can't understand. I refer to this statement you made at the National Press Club: 'Every conductor of an orchestra makes his own music, even

successful and richly rewarded lawyers, was a Johnson intimate from the start of the President's career in Washington.

UNDER the American system of divided powers the President has historically devoted a generous share of his time and attention to the trends of the High Court's opinions and how he can shape those trends. Lyndon Johnson has been no exception to this rule.

HIS RELATIONSHIP with the Court has been characterized by the king of maneuvering, called Byzantine by his critics, that came out of his rough, tough conditioning in Texas politics. It is nowhere better illustrated than by the instance of the former Associate Justice, Arthur Goldberg, who is now stepping out as Ambassador to the United Nations and retiring from public life.

THE PRESIDENT has had his way. Goldberg was deeply disillusioned by his experience at the U.N. This may have been due merely to the inflation of the ambassadorship in recent years rather than to the grandiose vista the President had painted. But the fact is that he is leaving the job with a half-suppressed sense that he was deliberately frustrated in his efforts to find a peaceful way out of Vietnam.

GOLDBERG WAS Secretary of Labor when he was appointed to the Court in 1962 by President Kennedy. Of a reserved and scholarly temperament he was happy with his work on the supreme bench. General counsel of the CIO and United Steel Workers, he had shown his shrewd skill as a diplomat and mediator in the bargaining between big labor and big industry.

THIS OPENED the way to replace a Texan who had voted the conservative line in civil rights and crime cases, with Thurgood Marshall, the first Negro ever appointed to the Supreme Court. Not only an historic first, the appointment shaped the Court's direction. If in his last six months in office the President can fill two or three vacancies, including that of the chief justiceship, he will as other presidents have done, determine the direction of the judicial branch of government for many years to come.

(Copyright, 1968, United Feature Syndicate, Inc.)

THEN, ON A momentous day now nearly six years ago, Goldberg was invited to the White House for a talk with the President. He was taken up onto the mountaintop and shown a vista of a world at peace that he could help to bring about as Ambassador at the United Nations. His great capacities as mediator would come into play at the highest level. Goldberg's closest confidants say this persuaded him to resign his lifetime justiceship in the quiet confines of the Court for the turmoil of the United Nations.

IN ANOTHER instance Johnson had his way with the Court. He moved Nicholas de B. Katzenbach out of the attorney generalship and named Ramsey Clark to that office. Since Clark is the son of Associate Justice Tom C. Clark it was hardly fitting that the son should represent the executive branch in the highest legal office while the father served on the supreme bench. Justice Clark retired not long after Ramsey's appointment.

GOLDBERG had been appointed to the vacancy left by the retirement of the late Justice Felix Frankfurter. Traditionally the Court has had one justice who is a Roman Catholic and one who is of Jewish origin. Goldberg's resignation to go to the U.N. opened the way for the President to name Abe Fortas to the Court.

Fortas, one of Washington's most

TIE DOESN'T Bind

PHOENIX (AP) — After passing the Arizona House of Representatives, a bill to make the bola tie the official neckwear of the state was killed following heated debate in the State Senate.

Some called the bill "ridiculous," while others opposed the measure because it did not define what constitutes a "bola tie." A bola tie is a woven leather cord held together by an ornamental clasp, usually made of silver, copper, turquoise or a combination.

Editorials And Opinions The Big Spring Herald

4-A Big Spring (Texas) Herald, Tues., June 25, 1968

Cleveland Sorry That Northrup Out Of Slump

By The Associated Press
Detroit's Jim Northrup has swapped his needle for a cannon and turned the Indian reservation into a private artillery range.

Northrup, an unsuccessful bench jockey during Sunday's doubleheader split with Cleveland, exploded from a long slump and tied a major league record Monday night by hitting two grand slam homers as the American League leading Tigers shelled the second place Indians 14-3.

Elsewhere, Reggie Jackson's three-run homer and Ed Sprague's brilliant relief pitching carried Oakland past California 3-2 and Minnesota nipped Chicago 1-0 behind Dean Chance in a rain-curtailed game.

Northrup spent the first game of Sunday's twin bill needing Luis Tiant from the dugout and drawing an 0-for-4 blank as the Cleveland right-hander tamed the Tigers 3-0.

"DO SOMETHING"
"I haven't been hitting a lick, and I have to do something," he explained after another futile at-bat in the nightcap sent his batting average sagging to .225.

May put the Mets' opportunity to reach the 500 level and the first division for the first time since last year in the season in jeopardy with a three-run homer in the sixth. Then he squelched everything with a two out in the ninth, but Ed Charles' two-run single capped a rally that sent it into extra innings.

A walk, a pinch single by Ed Kranepool and Bud Harrelson's sacrifice fly produced one run. Ken Boswell's single and J.C. Martin's infield hit loaded the bases for Charles, who had singled home a run in the eighth, tied it.

Lee May's Stance Poison To Mets

By The Associated Press
Lee May of the Cincinnati Reds experimented around a little more with his batting stance Monday night. Consequently the New York Mets still were wondering today whether a first division stand really is an impossible dream.

Chicago suffered its fourth straight loss at Houston 3-1 in the only other National League game. Pittsburgh at St. Louis was rained out, and all other league games were idle.

Lions Defeat Orioles, 5-2

The Lions pushed across three runs in the third and staked Parker to a winning lead as they beat the Orioles 5-2 in a Sophomore League game Monday evening.

While Parker was allowing only two hits, Adams gave up eight. Every Lion except Parker and Yanez got a hit. The Lions are now 5-1.

Cowboys Trade Off Harold Hays

DALLAS (AP) — Harold Hays, the Dallas Cowboys' only experienced reserve linebacker, figures being traded to the Francisco 49ers is going to mean he'll play more this fall in the National Football League.

After five years with the Dallas club, he was swapped Monday for a high draft choice. Hays, a 225-pounder who stands 6-foot-2, was quick to applaud.

Dickens Pitches Colts To Victory

Behind the two-hit pitching of Wayne Dickens, the Colts hung a 4-1 decision on the Jets in an American Little League game Monday evening.

Wayne struck out 12 Jet batters in six innings. Duck Robertson was the losing pitcher, although he gave up only three hits. The game left the Jets with a 5-12 record, the Colts with 10-7-1. The box score:

Box score for Dickens vs Jets. Includes columns for team, player, and statistics.

Box score for Lions vs Orioles. Includes columns for team, player, and statistics.

Walking Away A Winner
Joe Frazier walks away after knocking down Manuel Ramos near end of second round in heavyweight title bout in New York's Madison Square Garden last night. Referee is Art Marcante.

Marcante, Frazier scored a second-round technical knockout to retain his five-state heavyweight crown.

Staggered, Frazier Comes Back To Devastate Ramos

NEW YORK (AP) — Joe Frazier, looking more and more like another Rocky Marciano, next may take on Jimmy Ellis in a fight-off for the heavyweight title after his explosive, second round conquest of Mexico's fiery Manuel Ramos.

Frazier retained his five-state version of the heavyweight title after six minutes of thrilling action at Madison Square Garden Monday night.

Even in losing, the hard-hitting, aggressive Mexican champion may be a winner—winner of some more big pay days. He could wind up against either king-sized Buster Mathis or former two-time heavyweight champion Floyd Patterson in the Garden.

Frazier, winner of all 21 of his pro fights, 19 of them by knockouts, was staggered by a right hand to the head in the first round before he rallied to wobble his foe late in the round and then drop him twice in the second round.

STOPS FIGHT
Referee Art Marcante stopped the fight after the bell had ended the second round. The 6-foot-3 Mexican had absorbed a savage, relentless body and head pounding and had been down for counts of nine and seven. The second count went on after the round had ended, according to the rules.

Under New York rules it was scored as a second-round technical knockout.

Ramos, the 4-1 underdog, said later in his dressing room that he had taken enough.

"I knew Frazier could punch but I didn't know he could punch so fast," said Ramos, whose eyes were puffed and discolored. "I thought it was impossible for me to go down."

"I knew my only chance was to punch with him. I know I hurt him in the first round."

That he did. He thrilled the crowd of 10,785, which paid \$121,302 for the televised fight, by gamely trading punches with the ever-punching Frazier and then by wobbling him with a solid right to the head.

"That's the first time I've ever been hit that hard," said Frazier, who has been floored three times in his career. "He can punch. I'll tell you that. I was really shook, but when you're in condition you can shake it off. Retaliate—that's the best defense for the shot I took."

"I won't fight for a full year unless I can get Cassius Clay or Jimmy Ellis," said Frazier, recognized as world champion in New York, Pennsylvania, Illinois, Massachusetts and Maine, Ellis, of Louisville, Ky., is recognized as world champion by the World Boxing Association. Clay, still appealing his conviction for avoiding military induction, is considered champion in some parts of the world.

Ramos, 208 to Frazier's 203, had his winning streak snapped at 15. His record is 20-7-2. Frazier matched the retired Marciano's pace of 19 kayos in his first 21 fights.

Yank Lassies Are Confident
WALTON HEATH, England (AP) — Seven American girls averaging 25 years of age challenged the best women golfers of Britain and Europe today for a title the United States has been able to win only four times in 75 years.

The test over Walton Heath's two courses, both par 75 and something over 6,200 yards long, could well be the biggest ever facing an American invasion.

The Heath, halfway between London and seaside Brighton, is notorious for rain and wind.

Walton, an inland layout, is a sharp contrast to the traditional seaside links. It appears to the American assault team as a formidable obstacle and none of them was super-confident except possible 21-year-old Peggy Conley of Spokane, Wash.

Little Peggy, who played in this championship in seaside Sandwich when she was only 17, said she wasn't much afraid of things.

Her aggressive attitude and the experience of such players as Phyllis Preuss, 29, of Pompano Beach, Fla., and 31-year-old Anne-Welts, Mount Vernon, Wash., put the American contingent as favorites among the odds-makers.

Styles, Seeded Netters Firm

WIMBLEDON, England (AP) — Tennis may be open for the first time at Wimbledon, but the rules stayed closed tight today for the world's top girl players—all white outfits with only a speck or two of color.

In this historic championship, with professionals and amateurs battling together for the biggest prestige titles in the game, English decorum still kept to the fore in the department of feminine fashion.

Designer Teddy Tinling, once denounced for bringing "sin and vulgarity" to Wimbledon by allowing Gussie Moran to play in lace bloomers 19 years ago, has bowed this time to the Wimbledon style.

"Our time for really gorgeously colored tennis dresses will be 20 years," Tinling said.

Mrs. Billie Jean King of Long Beach, Calif., is defending her women's singles title for the first time as a professional. Her first match is against Peaches Bartkowicz of Hamtramck, Mich., who played well in the recent Wightman Cup series.

Top-seeded Billie Jean is bidding for her third straight title. Her great rival for the title is Australia's Mrs. Margaret Court, another two-time Wimbledon winner. Mrs. Court, the former Margaret Smith, plays Mrs. Annette Du Plooy of South Africa in her opening match.

Nancy Richey of San Angelo, Tex., seeded third, meets Maryna Godwin of South Africa in the opening round.

There were no upsets in Monday's opening play in the men's singles—a day plagued by rain and bad weather.

Top-seeded Rod Laver and second-seeded Ken Rosewall, both of Australia, won their singles matches without too much cause for concern.

Third-seeded Andres Gimeno of Spain, fourth-seeded John Newcombe of Australia, the defending champion, fifth-seeded Roy Emerson of Australia, sixth-seeded Manuel Santana of Spain, seventh-seeded Lew Hoad of Australia, and ninth-seeded Dennis Ralston of Los Angeles all won their matches.

Eighth-seeded Pancho Gonzalez of Los Angeles did not start his match.

Austin Enco Stretches City Softball Margin

Austin's Enco stretched its lead in the City Softball League with a 6-1 conquest of Skateland Monday evening. This left Enco with an unblemished 9-0 season record and well in front of challenging Morton's Food, which beat VA Hospital 4-0.

Morton's stands 6-1. Theibert Camp managed to scatter five hits to Skateland, and only Don Ritchey's second inning double went for extra bases.

Enco's Gene Simpkins held the Encoes off for four full innings before the roof began caving. A fat fifth inning pulled Morton's through. Cotton Mize got the victory, allowing three hits but Bill Scott also held Morton's to three safeties but one was Tito Arenzibia's homer with one aboard. Mize struck out seven. Scott only three. The box score:

Box score for Austin Enco vs Skateland. Includes columns for team, player, and statistics.

Box score for VA Hosp vs Morton's. Includes columns for team, player, and statistics.

LOWER CLUBS LAND PLACES

Nats All Star Starters

NEW YORK (AP) — Cincinnati and Chicago, two second-division teams, each placed two men on the National League's starting team for the All-Star game against the American League in Houston July 9.

Pete Rose, Cincinnati's right fielder, led all players with 236 of a possible 258 votes. His teammate, Tommy Helms, was named to start at second base.

on the team announced Monday. The Cubs have half of the infield—shortstop Don Kessinger, who made the team for the first time, and third baseman Ron Santo.

Willie McCovey of San Francisco is the first baseman, Jerry Grote of New York the catcher and Curt Flood of St. Louis and Atlanta's Hank Aaron the other outfielders.

Aaron, who is on the team for the 14th time, is the only repeater from the 1967 squad that edged the American League 2-1 in 15 innings at Anaheim for its record-setting fifth straight victory.

Selection of the Braves' right fielder was a surprise since he is hitting only .236 and is off to the worst start of his 15-year career. He was third in the voting for the outfielders, edging Willie Mays of San Francisco 109-100 for the final outfielder berth. Flood received 166 votes.

Pittsburgh's Matty Alou, the league's leading hitter with a .365 average, was sixth in the balloting with 44 votes.

The rest of the National League squad will be announced at a later date. The American League's starting team will be announced Wednesday.

From left: Pete Rose, Don Kessinger, Willie McCovey, Jerry Grote, Curt Flood, Hank Aaron, Matty Alou.

Dierker Gets Another Win

HOUSTON (AP) — Righthanded pitcher Larry Dierker of the Houston Astros was the first 10-game loser in the major leagues this season but he's not worried.

"Ten is no magic number," said the 6-foot-4 hurler. "I'd rather be 7-10, as I am now, than be 4-8 or 3-7. At least I've got some wins along with the losses."

Dierker spaced six hits Monday as Houston took a 3-1 National League victory over the Chicago Cubs.

Although Dierker's record climbed to 7-10, he is still disappointed.

"I think I've pitched better than that," he said.

Dierker missed his second shutout of the year by one inning—the fourth—when Ron Santo hit an infield grounder after Glenn Beckert and Billy Williams singled.

Houston struck for its runs in the third off southpaw starter Rich Nye, who absorbed the loss and now stands 4-8.

A walk to Dick Simpson triggered the action, and Hector Torres' single moved the right fielder to third base. Rusty Staub singled in one run and Jim Wynn's sacrifice fly to deep center scored another before Denis Menke's triple made it 3-0.

It was the third victory in four games for Houston, now 5-3 under new manager Harry Walker. The Cubs suffered their fourth consecutive defeat.

Box score for Houston vs Chicago. Includes columns for team, player, and statistics.

Horoscope Forecast

TOMORROW
—CARROLL RIGHTER

ARIES (March 21 to April 19) Why don't you give kin as much attention as you do outsiders? Then you come to a real understanding, have a little peace around the house. Discuss those ideas with them, too. Then you can be sure of getting the most valuable criticism.

TAURUS (April 20 to May 20) Of course you are going to go out and get that business deal going, but don't forget to take along that little blarney stone. Pick up some little trinket for the secretary, too. Slip out to see your doctor, but don't tell anyone. Then you feel fine.

GEMINI (May 21 to June 21) Do something about your living quarters — get rid of your antique or a high price buy a few pieces of modern furniture, and wash the walls. Try to find free hours daily. Put money in the bank. Then go into business. Be progressive.

MOON CHILDREN (June 22 to July 21) If you are as modern as you think you are, you find it easy to make business calls and get right results, while you deftly drop in to see some charmer who intrigues you in the interim. Take note to social affair tonight without grumbling. Be inspired.

LEO (July 22 to Aug. 21) You know exactly what a friend should do to solve his or her problems, so be generous and state your ideas. Stop being so selfish. You can do so that extra information you want if you go to barber or beauty shop. Tip well.

VIRGO (Aug. 22 to Sept. 22) You just have a yen to see your pals, both the lady and the stud ones, but concentrate on the latter right now and feel more balanced. A good time to pursue that one who plays hard to get. Then drop her like a hot potato.

LIBRA (Sept. 23 to Oct. 23) Ideal day to start on some new venture or to get that old one completed, since either one brings advancement right now. That influential person now comes through with backing, etc., though reticent before work.

SCORPIO (Oct. 24 to Nov. 21) Be enthused about some new ideas. Plan in stead of sitting in that easy chair and dreaming your life away. You may get a letter that will start you thinking very constructively. Give it your full attention.

SAGITTARIUS (Nov. 22 to Dec. 21) This is one of those banner days when you can get much done and with true efficiency, thus making parties, too. Being precise gets you appreciation. Or what a fine night for romance!

CAPRICORN (Dec. 22 to Jan. 20) If you ask partners what they have on their minds, you can then go along with their ideas in a most interesting way. Get together on the policy level. Then you can sail along like doves in the sky.

AQUARIUS (Jan. 21 to Feb. 19) All you have to do is to get right of all those duties in front of you and they are soon done, without later having to fret over them again. Ally yourself with those who are dynamic and charming. Let some of this rub off on you.

PISCES (Feb. 20 to March 20) Go in search of business leads wherever you may find it and stop being so downright glum. Be an interested, thinking person again, why not try being kinder to mate and see what the results are?

Thuy Brushes Off Call For Immediate Cease-Fire

PARIS (AP) — "We drink coffee as we do here . . . We speak of the weather, the climate, of food and the landscape."

Xuan Thuy, North Vietnam's chief negotiator at the Vietnam cease-fire talks was telling foreign newsmen about his coffee break conversations with U.S. Ambassador W. Averell Harriman. When they talked for 40 minutes over the coffee cups last Wednesday, there was considerable speculation that they were getting down to some serious private discussion.

U.S. peace negotiators found no cause for cheer in Thuy's other remarks to the newsmen, in which he brushed aside the call from Vice President Hubert H. Humphrey for an immediate cease-fire and stuck firmly to Hanoi's stand that U.S. attacks on North Vietnam must stop before other peace issues can be discussed.

Use For 'Queen' Still Uncertain

WACO, Tex. (AP) — Baylor University has a 26-ton replica of a Mississippi steamboat but isn't certain yet what it will do with it.

The 50x19 boat, the "Texas Queen," was built in Houston 11 years ago. It was towed to Waco from Seabrook and temporarily moored on Lake Waco.

Baylor may use the boat for meetings. It cost \$100,000 and is powered by two diesel engines.

Dear Abby

This Marriage Won't Work

DEAR ABBY: My 18-year-old daughter claims she is deeply in love with a 30-year-old man who has been married and divorced FOUR times. He is paying child support to three wives for a total of SIX children.

How he intends to support my daughter is a mystery to me. My daughter is set on marrying him and she refuses to listen to me. Maybe you can get some sense through her head. I can't.

HER MOTHER

DEAR MOTHER: Even if your daughter were interested in getting some sense through her head (which she's NOT), it would have a tough time penetrating because a woman in love doesn't THINK — she only FEELS. I would say the odds for a successful marriage with this man are like 1,000 to one. Someone ought to tell your daughter that she doesn't have to marry every man she thinks she's in love with.

DEAR ABBY: I am a "widow" with a living husband. In summer it's golf. My husband plays nine holes every evening after work, skipping dinner with me. I haven't had Sunday dinner with him since we've been married because he golfs all weekend.

There is no talking to him; if I tell him I don't like being alone so much he tells me not to "run" his life. I don't want to "run" it — I just want to be a part of it.

After golfing all day Saturday he is "too tired" to go to a movie. When the golf season ends, he spends his weekends fishing and hunting. Do you think I am selfish for wanting to spend some time with him on weekends? I feel so tied up I could scream.

Before I was married I won-

dered how a woman who loved her husband could look elsewhere for someone to be with. Now I think I know. At times I wish I could have a summer fling with a lover. I'm really not that kind of person, but I just don't get any attention from my husband. What am I to do? Please print my letter with your answer. Maybe he will see it and wake up.

AMSTERDAM, N.Y.

DEAR AMSTERDAM: I'll print your letter, but I'm afraid it will take more than my answer to "wake" up your husband. You don't say how long you've been married, but I would say your marriage is in the "rough." You both need some counseling. If he won't go with you, go alone. You two are living in different worlds.

DEAR ABBY: I don't want a personal reply, but through your column maybe something can be done about this problem.

I am concerned about cough syrup and aspirin companies sending samples of their products through the mail.

Don't they realize that some people have drop-through mail slots in their doors, and that small children can easily get into these packages?

Today I received a RAZOR BLADE sample in a cardboard envelope that popped open when I picked it up. What good does it do for conscientious mothers to keep poisons and medicines locked up when equally dangerous things are sent unsolicited through the mails?

Today I am going to buy an outside mailbox, and maybe your readers will join me in writing these sample senders a protest letter. Thank you.

HAYWARD, CALIF.

'DEATH KNEEL OF REPUBLICAN PARTY'

Rocky Wants Repudiation Of Wallace

New York Gov. Nelson A. Rockefeller says refusal by his Republican presidential rival Richard M. Nixon to repudiate a suggestion that George Wallace join the GOP would be 'the death knell of the Republican party in the next election.'

Nixon's Southern campaign coordinator, Howard 'Bo' Callaway, had repeated earlier Monday his view that the Republican side is where third party presidential candidate Wallace 'ought to be.'

Nixon had no comment and his aides have said Rockefeller's charges would not be answered.

But Rockefeller accused Nixon of remaining silent because the former vice president's presidential strategy 'depends on getting the southern vote and Mr. Wallace is cutting in on his strength.'

On the Democratic side, aides say Vice President Hubert H. Humphrey is concerned that Sen. Eugene J. McCarthy might break party ranks and lead a third party if he loses the Democratic presidential nomination.

McCarthy has specifically denied any such intention, saying: 'I have stressed from the beginning that I had in mind to work this out within the Democratic party.'

The speculation by the Humphrey camp was based on McCarthy's refusal to say he could support the vice president as the party's presidential nominee.

A leader of last winter's

'Dump Johnson' movement, meanwhile, said prominent anti-war figures plan an emergency meeting in Chicago next Sunday on promoting the nomination of McCarthy or some other anti-war candidate.

Allard K. Lowenstein, a Democratic congressional candidate, said the meeting has no official connection with McCarthy's presidential campaign.

But a spokesman for Lowenstein said McCarthy had agreed to address the meeting.

Lowenstein was a New York

leader of a movement to deny the Democratic nomination to President Johnson before Johnson announced he was not a candidate. The movement evolved into the Coalition for a Democratic Alternative, which backs McCarthy.

In other political developments, Louisiana Gov. John McKeithen is reported conducting a behind-the-scenes campaign to become Humphrey's vice presidential running mate on grounds he could draw votes

which would otherwise go to Wallace.

A Harris survey shows a Humphrey-Sen. Edward M. Kennedy ticket would bring a Democratic landslide in November but Kennedy as the party's presidential nominee would not run as well against Nixon as would Humphrey or McCarthy.

Secret Service men have been added to California Gov. Ronald Reagan's security force even though he is not a declared presidential candidate.

Secretary of the Treasury Henry C. Fowler says Reagan's recent activities warrant the federal protection given candidates.

And last Friday Secretary of the Treasury Henry C. Fowler and an advisory committee on protection of candidates agreed that Reagan's activities warranted such protection for him during the campaign months.

Seven security men met the governor at Sacramento airport Monday. Reagan told reporters he would just 'go about my business as usual.'

No one would say how many Secret Service men were assigned to Reagan and the governor's office refused to elaborate on the security measures.

Reagan's staff always has been conscious of security. Armed police stood atop the capitol roof overlooking Reagan's inauguration in January, 1967.

Protection was increased significantly after the May 2, 1967, sortie into the capitol and assembly chamber by armed members of the Black Panthers, a Negro group with headquarters in Oakland.

The stepup mounted again following Kennedy's death and last week's demonstration in Washington by members of a California poor people's march. The Treasury said Monday the assignment of Secret Service men to Reagan had nothing to do with the poor people's demonstration.

McCarthy Denies 3rd Party Plans

WASHINGTON (AP) — Vice President Hubert H. Humphrey said by many supporters to be deeply concerned that Sen. Eugene J. McCarthy may break away from the Democratic ranks and lead a third party this fall.

The speculation has been fed by McCarthy's refusal to say he will support the vice president if his former political mentor wins the nomination—plus increasing signs that many of McCarthy's backers are not amenable to a reconciliation.

There was talk of a possible third party at the bruising Democratic Farmer Labor party convention in St. Paul, where the forces of the two Minnesota presidential contenders met head-on in the party convention, and Humphrey won.

However, McCarthy has denied any intention to lead his

supporters out of the regular party. He told a news conference: 'I have stressed from the beginning that I had in mind to work this out within the Democratic party and I didn't intend to lead a third party movement.'

However, Geri Joseph, the Democratic national committee woman for Minnesota, said McCarthy candidates for national convention seats in her area had to swear they would not support Humphrey under any circumstances.

Key Humphrey people acknowledged their concern but said it is still too early to make any forecast, particularly in a year that has betrayed political soothsayers.

McCarthy's recent strong showing in the New York primary has heartened his supporters. However Humphrey strategists estimate privately that their man has enough delegate votes now to win the Democratic nomination on the first ballot.

McCarthy has said that he sees little choice between Humphrey and Richard M. Nixon, expected to win the Republican nomination, on the issue of Vietnam.

One Humphrey backer said, 'I think a great deal will depend on who the Republicans nominate. If it's Richard Nixon I believe most of the Democratic liberals who see themselves as pretty dovish will return to the fold.' But then he shrugged.

Another Humphrey source sees a good possibility of a return of the Democratic troubles in 1948.

That year southern Democrats, angered by the party's civil rights platform, broke away and ran Strom Thurmond as their presidential candidate under the Dixiecrat banner.

This year former Alabama Gov. George Wallace is running under a similar states rights banner.

Also in 1948, the Progressive party was formed on the left side of the political spectrum with former vice president Henry Wallace as the candidate. Despite the splintering in the Democratic party that year Harry S. Truman was returned to the White House.

Counting only votes committed on the record, Richard M. Nixon had almost two-thirds Monday of the 667 needed for a first-ballot presidential nomination in the Republican National Convention.

On the basis of first-ballot votes won in primaries, pledges

at the time delegates were elected, and responses in a poll by The Associated Press, the former vice president had 445 of the needed 667.

Trailing on the same basis at 180 was New York Gov. Nelson A. Rockefeller.

Both had a big pool of 373 delegates back of favorite sons and 219 who had declined to take a stand, to work on up to the time voting starts in the GOP convention opening Aug. 5 in Miami Beach. Only 87 delegates remained to be selected.

On the Democratic side, with three more weeks to go than the Republicans have, Vice President Hubert H. Humphrey had a lead of 48 1/2 to 35 1/4 over Sen. Eugene J. McCarthy. It takes 1,312 to win at the Chicago Democratic conclave.

The Democratic pool of those who had not taken a definite stand in public was far the bigger—462 backing favorite sons until they picked a real candidate and 675 1/2 votes otherwise uncommitted.

The Democrats had assigned 1,988 of the 2,622 Chicago votes.

The House Government Operations Committee suggested an executive branch task force to be set up to study insurance requirements for federal contractors and subcontractors.

The committee said there currently is a lack of uniformity which could result in the public suffering uncompensated personal injury and property loss. It suggested the task force be set up soon enough to make a report in depth within 15 months.

The Senate Appropriations Committee was assured by the head of the National Aeronautics and Space Administration that the Apollo program for landing a man on the moon by the end of next year will be carried forward despite cut-backs in NASA funds.

James E. Webb said, however, the reduction in funds will cause stretchouts and slowdowns in other space programs.

SEVEN MEN

Ronald Reagan Assigned Secret Service Guards

SACRAMENTO, Calif. (AP) — U.S. Secret Service men have been assigned to guard Gov. Ronald Reagan, a California favorite-son candidate for the Republican presidential nomination.

The Secret Service men have been added to Reagan's own security force, and daily public tours of the governor's outer office have been canceled.

Legislation was passed after the assassination of Sen. Robert F. Kennedy in Los Angeles June

5 providing Secret Service protection for all presidential candidates.

And last Friday Secretary of the Treasury Henry C. Fowler and an advisory committee on protection of candidates agreed that Reagan's activities warranted such protection for him during the campaign months.

Seven security men met the governor at Sacramento airport Monday. Reagan told reporters he would just 'go about my business as usual.'

No one would say how many Secret Service men were assigned to Reagan and the governor's office refused to elaborate on the security measures.

Reagan's staff always has been conscious of security. Armed police stood atop the capitol roof overlooking Reagan's inauguration in January, 1967.

Protection was increased significantly after the May 2, 1967, sortie into the capitol and assembly chamber by armed members of the Black Panthers, a Negro group with headquarters in Oakland.

The stepup mounted again following Kennedy's death and last week's demonstration in Washington by members of a California poor people's march. The Treasury said Monday the assignment of Secret Service men to Reagan had nothing to do with the poor people's demonstration.

AMARILLO (AP) — West Texas Republicans will hear California Gov. Ronald Reagan speak at a fund-raising rally here July 19 honoring Rep. Bob Price, R-Tex.

Confirmation from Reagan came Monday afternoon and all details have not been completed, a party spokesman said.

Moderates Take Control Of NAACP Convention

ATLANTIC CITY, N.J. (AP) — The national convention of the National Association for the Advancement of Colored People enters its second day today with its moderates in control.

The session follows a day in which the delegates voted down a resolution by a group of so-called 'Young Turks' that some termed 'an endorsement of looting and burning.'

The militants had claimed that they had the support of three-quarters of the 2,000 delegates. But the vote against the move was 432 to 288.

The resolution was sponsored by Fred Crockett, president of the NAACP Illinois delegation, and a member of the group of militants calling themselves the National Committee to Revitalize the NAACP.

As introduced by Crockett, the resolution called for establishment of five committees or commissions within the NAACP. These would study what Crockett termed the issues of black survival, economic and political power in the ghettos and the need for emphasis on African-American culture.

Crockett said a Committee on the Survival of Black Americans was needed because of what he called repressive measures being instituted against Negroes in the guise of an anti-crime bill and because of the increased arming of police.

The other study committees would have considered means of Negroes gaining economic and political power in ghetto areas through a series of boycotts and other methods, and ways of fostering a sense of pride in Negroes through emphasis on African-American culture.

Two Atlantic City Negro businessmen accused the NAACP of discriminating against the Negro community by giving its convention business to white-owned motels, hotels and restaurants.

'The black business people in our community have supported the NAACP throughout the years and can't understand why or how all the NAACP activities should be confined to the white community,' said a telegram

sent Monday night to NAACP officials.

The two-page telegram was signed by Reggie Edgill, owner of a liquor store, two taverns and a motel; Bobby McCurdy, also a liquor store owner; and the Rev. I. S. Cole, a Negro deputy city commissioner. They said they represented 'Negro business in Atlantic City.'

John Morsell, the NAACP's assistant executive director, said the national office had asked its chapter in the resort area for an advance list of Negro-owned business establishments. 'We never got it,' he said.

The majority of delegates are staying in white-owned hotels and motels along the boardwalk and Pacific Avenue on the city's South Side, all within walking distance of the hall.

'Maybe we have 400 to 500 'class rooms' on the North Side and none are doing any business,' Edgill said in an interview. His motel is one of two in the predominantly Negro North Side.

WASHINGTON (AP) — The Senate has passed two bills providing \$3.3 billion for a vast array of health care and related programs.

The funds were contained in separate bills that cleared the Senate Monday by voice vote and without debate.

Some \$2 billion is earmarked for the Health Manpower Act, which would provide funds for training of doctors, dentists, veterinarians, pharmacists, podiatrists, optometrists, nurses and public health personnel, and training people for such allied fields as medical library science.

The bill, which extends many of the programs for three years under an existing law, also provides funds for construction of health facilities.

The second bill provides \$1.3 billion for vocational rehabilitation grants to the states.

In other congressional action: —The Senate Banking Committee approved legislation which would direct the Federal Reserve Board to back up the home mortgage market in periods of tight money.

The legislation, opposed by the administration, was added to a bill extending for two years the authority of the federal regulatory agencies to fix inter-

est ceilings on savings deposits in banks and savings and loan associations.

The committee also added an amendment to the bill to permit regulation of advertising by banks and savings and loans of their interest rates.

—The House Government Operations Committee suggested an executive branch task force to be set up to study insurance requirements for federal contractors and subcontractors.

The committee said there currently is a lack of uniformity which could result in the public suffering uncompensated personal injury and property loss. It suggested the task force be set up soon enough to make a report in depth within 15 months.

—The Senate Appropriations Committee was assured by the head of the National Aeronautics and Space Administration that the Apollo program for landing a man on the moon by the end of next year will be carried forward despite cut-backs in NASA funds.

How They Stack Up

Nixon, HHH Hold Leads

A comparison of delegate strength among the leading presidential hopefuls of both major parties Monday showed Richard Nixon with almost two-thirds of votes needed for a first-ballot presidential nomination in the Republican National Convention.

Vice President Hubert H. Humphrey led on the Democratic side. The 'others' columns refer to favorite son and uncommitted votes.

Both had a big pool of 373 delegates back of favorite sons and 219 who had declined to take a stand, to work on up to the time voting starts in the GOP convention opening Aug. 5 in Miami Beach.

Only 87 delegates remained to be selected.

On the Democratic side, with three more weeks to go than the Republicans have, Vice President Hubert H. Humphrey had a lead of 48 1/2 to 35 1/4 over Sen. Eugene J. McCarthy. It takes 1,312 to win at the Chicago Democratic conclave.

The Democratic pool of those who had not taken a definite stand in public was far the bigger—462 backing favorite sons until they picked a real candidate and 675 1/2 votes otherwise uncommitted.

The Democrats had assigned 1,988 of the 2,622 Chicago votes.

The House Government Operations Committee suggested an executive branch task force to be set up to study insurance requirements for federal contractors and subcontractors.

The committee said there currently is a lack of uniformity which could result in the public suffering uncompensated personal injury and property loss. It suggested the task force be set up soon enough to make a report in depth within 15 months.

The Senate Appropriations Committee was assured by the head of the National Aeronautics and Space Administration that the Apollo program for landing a man on the moon by the end of next year will be carried forward despite cut-backs in NASA funds.

James E. Webb said, however, the reduction in funds will cause stretchouts and slowdowns in other space programs.

The House passed and sent to the Senate a bill intended to slow the disposition of lands acquired by the national wildlife refuge system. The measure would require the Interior Department to obtain consent of the Migratory Bird Conservation Commission before selling such land.

WASHINGTON (AP) — The Progressive party was formed on the left side of the political spectrum with former vice president Henry Wallace as the candidate. Despite the splintering in the Democratic party that year Harry S. Truman was returned to the White House.

Counting only votes committed on the record, Richard M. Nixon had almost two-thirds Monday of the 667 needed for a first-ballot presidential nomination in the Republican National Convention.

On the basis of first-ballot votes won in primaries, pledges

at the time delegates were elected, and responses in a poll by The Associated Press, the former vice president had 445 of the needed 667.

Trailing on the same basis at 180 was New York Gov. Nelson A. Rockefeller.

Open 'Til 9:00 P.M. Every Tuesday Perfect Squelch. Have a friend who's been boring you with talk about his VW's mileage and operating economy? Here's a neat way to silence him. Get yourself a 1968 VW. Then you, too, will have a car that gets up to 27 miles per gallon of gas, and up to 40,000 miles on a set of tires . . . that needs only 2.7 quarts of oil . . . that never needs antifreeze because it doesn't have a radiator. You can even play one-upmanship, if he doesn't have a 1968 Volkswagen. Because your VW will have seats with built-in headrests, a fresh air ventilation system, padded dash, and scores of new safety and performance features his older model doesn't have. So come in and let us fix you up with a new VW. Then next time your friend stops by you'll be ready for him. Barney Toland VOLKSWAGEN 2114 W. 3rd 263-7627

DENNIS THE MENACE 'YOU WERE RIGHT, DAD! YA GOTTA HAVE SNOW!'

Wedding Solemnized In Mississippi Rites

Miss Frances Lenieu Wood and Comer Clarence Brassell Jr. pledged their marriage vows Saturday evening in the First Methodist Church of Greenwood, Miss. The Rev. Blanton Doggett, pastor of the church, officiated.

The bride is the daughter of Mrs. Ira Broyles Bright of Greenwood, and the late Dr. George Harden Wood of Big Spring. Mr. and Mrs. Comer Clarence Brassell Sr. of Marshall are the parents of the bridegroom.

The sanctuary was lighted by ivory tapers in branched candelabra and arrangements of white gladioli, Fuji and pompon chrysanthemum furnished the decorations. Mrs. Billy Dean Jones of Greenwood, played organ selections and accompanied Warner Wells Jr. of Greenwood, as he sang "Because" and "The Lord's Prayer."

Given in marriage by Dr. Ira Broyles Bright, the bride wore a gown of candlelight silk organza and imported re-embroidered Alencon lace traced with seed pearls. The moulded bodice was fashioned with a wide oval neckline and long lace Camelot sleeves. Tiny self-covered buttons fastened the back of the gown, enhanced by a small shaped organza bow. The slim A-line skirt, appliqued with medallions of the jeweled lace and accented at the hemline with scallops of the lace, was complemented by a chapel length train. Her veil of ivory silk illusion fell below her shoulders from a petal coil of appliques of Alencon lace, and she carried a cascade bouquet of stephanotis and white orchids.

MRS. COMER CLARENCE BRASSELL JR.

ATTENDANTS
Miss Mildred Bright of Greenwood, was her sister's maid of honor. Mrs. Harris Wood of Arlington, Va.; Miss Sherrill Lewis, Miss Betsy Walt, and Miss Erma Whitworth of Dallas, were bridesmaids.

The brides' attendants wore identical gowns of turquoise blue silk chiffon veiling a silhouette of lime green crepe. The yoked sleeveless bodices were fashioned with circle ring necklines and the silk cage gowns were floor length. They wore matching bows in their hair and their bouquets were of yellow roses.

Harris Spencer Wood Jr. was ring bearer.

Delbert Phillips of Austin was best man and the groomsmen were Jim Phillips, Grover Blissard and Jack Willis, all of Dallas, and Joe Whicker of North Wilkesboro, N.C. Serving as ushers were the bride's brothers, Dr. George Harden Wood of Knoxville, Tenn. and Harris Spencer Wood of Arlington.

RECEPTION

The traditional motif of white and green was continued in the decorations at the reception in the Greenwood Country Club. Assisting the guests in registering was Miss Kathy Biggers of Greenwood and the table was decorated with a single gleaming taper and arrangement of stock bouquets.

In the ballroom, the mantel and piano were graced with arrangements of white gladioli and stock, and the same flowers were used in the foyer and on the porch. The refreshment tables were draped with Point de Venise lace and silver epergnes held stock, Fuji and pompon chrysanthemums flanked by silver candelabra with ivory tapers.

The refreshment tables were overlaid with floor-length cloths of peau de soie highlighted by the bride's cake, the tiers frosted in white rosebuds, and the bridegroom's cake which was encircled with garnet roses.

Assisting at the reception were Mr. and Mrs. Harry Stabel, Mr. and Mrs. Walter Walt, Mr. and Mrs. Albert King, Mr. and Mrs. Howard Lewis, Mr. and Mrs. Ben McCarty, Dr. and Mrs. Howard Nelson, Dr. and Mrs. J. S. Pittman, Mr. and Mrs. Norman Brewer, Mr. and Mrs. Robert Parish, all of Greenwood, Mrs. J. H. Whicker of North Wilkesboro, N.C. and Mr. and Mrs. Frank Everett of Vicksburg.

Mr. and Mrs. Brassell left for a wedding trip to Bermuda. The bride chose a green silk sleeveless sheath with matching jacket for traveling. They will make their home in Dallas, where Brassell will continue his studies at School of Law, Southern Methodist University.

The bride was reared in Big Spring and is a graduate of Big Spring Senior High School. Out-of-town guests were Mr. and Mrs. James L. Gray, Augusta, Ga.; Mr. and Mrs. Taliaferro Murff, Memphis, Tenn.; Mr. and Mrs. Roy Johnston, Atlanta, Tex.; Mr. Allen Thompson and Barney Gary of Marshall, and Mrs. Lady Jane Gray, aunt of the bride, of Big Spring.

Belt Is 'Cinched' This Year

By JEAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP) — Fashion is fiscal anytime, as any man knows who pays the bills for his wife's clothes. But more so now.

With talk of gold, silver, the dollar and the pound, the style commentaries at the American Designer Series sound like an international monetary conference.

Of course, wherever there is a woman there is a discussion of the pound with the usual conclusion that it is never good to have too many. But designers at Monday's fall collection previews made it clear that this year the distribution of the pound is what really counts.

Some may settle on the bosom and some on the bottom, but the middle must stay little. For this is the season of the cinch. The waistline which was only beginning to ease into fashion six months ago is now the center of the designer's attention. Tiny belts have become the timid approach to midriff madness. Corsets are bolder.

Still when you are older, you're entitled to thicken, said White House designer Mollie Parnis, in effect, as she introduced some body skimming, slimming princess lines for daytime wear.

With her evening wear Miss Parnis confirmed what the more than 300 fashion writers here had already begun to suspect—that the American garment industry has a corner on the gold market.

Frugal Indian women toss their gold-woven saris into the melting pot when they are ready for something new. The Asian-inspired 14-carat gowns of Miss Parnis and the New York House of Christian Dior would sweeten such a pot considerably.

Silver, too, glittered among the golden glow fashioned the same pretty, fragile way, in the Parnis collection. For women who prefer to bank their fortunes on jewels there were gowns with gem-laden sleeves, dress yokes, and belts.

All designers begin their shows by lamenting the increasing numbers of dollars their dresses sell for, but Leo Narducci proved he was at least thinking thrifty by introducing a clan of pretty misses in pantsuits, suits, and evening gowns made of Scottish tartan plaid.

Acquire Habit Of Saving On Water

The current threat of water shortages and with the possibility of permanent water shortages in the future, it is important to acquire good habits of water usage.

A few to keep in mind are: Check faucets for dripping (which can waste four gallons a day), keep drinking water in refrigerator (two to three gallons can be wasted running to cool the water), don't let water run while rinsing dishes, (10 to 15 gallons can go down the drain this way).

Trim Waist Is 'In'

White House designer Mollie Parnis demonstrated the trend toward trim waists with these two offerings at the American Designer Series fall collection previews in New York yesterday.

Left, is an Indian-look gold metallic long dress with low cut front, belt and jacket. Right, is a printed crushed velvet dress in shirt style.

Gift Party Compliments Bride-Elect Monday

Miss Cheryl Jones, bride-elect of Stephen Poitevin, was complimented with a gift party Monday in the home of Mrs. Edgar Ray, 1801 Choctaw.

Cohostesses were Mrs. Homer Petty, Mrs. Marion Newton, Miss Shirley White, Miss Brenda Mize and Mrs. Morris Mollphus.

Miss White registered the guests. The refreshment table was

laid with a white cloth and centered with a red heart in front of an altar featuring a bridal scene and flanked by candelabra holding white tapers. Crystal and silver appointments completed the setting. Miss Mize presided at the refreshment table.

The hostess' gift was a bedspread. Approximately 100 attended. The couple plans to marry July 6.

Mike Harris Talks To Salad Mixers

Mike Harris of the YMCA in Big Spring was guest speaker at the Monday meeting of TOPS Salad Mixers in the Knott Community Center.

Harris demonstrated the use of a new machine which was invented for the astronauts and enables a person to do the equivalent of 30 sit-ups in 10 seconds. He discussed the relationship between diet and exercise with losing weight.

Mrs. B. J. Williams has attained her weight loss goal and is now a KOPS-in-waiting. Miss Sandra Wells was named weekly queen, and Miss Sandra Williams won the attendance prize.

The next meeting will be at the Big Spring City Park. A picnic will be served, and the six-month's queen will be crowned. Eighteen members and three guests, Mr. O. G. Langston, Mrs. Jerry Spencer and Mrs. S. M. Buchanan, attended.

Club In Coahoma Elects Reporter

Mrs. Rodeney Brooks was elected historian-reporter at the Monday meeting of the Young Homemakers of Coahoma in the Activity Room at the Coahoma High School.

Mrs. Billy Spears presided and announced the group will assist the Future Homemakers of America with the July 4th celebration. Mrs. Spears also brought the program on camping.

Six members and two guests, Mary Lewis and Sharon Romans, attended.

Aid Development By Love And Care

Mothers help the development of their newborn babies by talking a lot to them and by frequently looking at them face to face, says a Harvard psychologist, Dr. Jerome Kagan.

The effects can be observed as early as four months, he has reported. The more attentive mothers may be providing their infants with early training in problem-solving, and richer experiences at a time when they are undergoing rapid mental growth, Dr. Kagan suggests.

Announce Birth

Mr. and Mrs. Johnny Morrell of Duncanville announce the birth of a daughter, Dana Marie, at 4:45 a.m., June 19, in a Dallas Hospital. Mrs. Charles Morrell, 707 W. 5th, is the maternal grandmother, and Mr. and Mrs. L. W. Greenhill, 1103 W. 5th, are paternal grandparents.

Use Beauty Facial For Lovelier Skin

Here's a daily hard-working beauty facial designed especially for typically oil teen skin. Every night before going to bed work up a big lather with pure castile baby soap to fight the bacteria that causes pimples. Spread the lather all over your face and allow to remain on the skin for 10 minutes. Then gently brush the lather all over your face in circular movements with a soft cosmetic brush to help dislodge any small blackheads. Thoroughly remove all the lather with water, first warm, then cold. Then pat on witch hazel with a fresh cotton ball. Your face will tingle and shine with cleanliness and the hexachlorophene in the baby soap will give it a head start on combating the oil that your skin secretes while you sleep.

Sally Rodriguez is now taking appointments at **LIN-ETTE Beauty Salon** 11th & Johnson

NEWCOMER GREETING SERVICE
Mrs. Joy Fortenberry
An Established Newcomer Greeting Service in a field where experience counts for results and satisfaction.
