NO THREAT Dolly May Stay Away From Land

CAPE HATTERAS, N.D. (AP) — Hurricane Dolly, with highest winds 75 miles per hour near the center and gales extending out 175 miles in all directions, was reported far at sea today and no threat to land areas.

A Weather Bureau advisory at 6 a.m. said the storm was near latitude 37.5 north and longitude 62.5 west or about 375 miles north, northeast of Bermuda.

Dolly moved between east and northeast at about 25 miles per hour, the Weather Bureau said.

The forecast was for little change in size or intensity of the storm for 24 hours.

The storm, which formed in the Atlantic off Cape Hatteras Monday morning, achieved hurricane status late Monday night.

Flames Cause Evacuation

HAMILTON, Tex. (AP) — Fire broke out as a tanker truck unloaded at a gasoline station about 1:30 a.m. today and the roaring flames caused the evacuation of homes up to 10 blocks distant.

The blaze destroyed the self-service gas station near the south edge of Hamilton in Central Texas, the truck, three small houses and 12,000 gallons of gasoline.

Fire quickly enveloped living quarters back of the station occupied by a wheelchair invalid, Mrs. Ada Simpson. County commissioner Charles Coston broke through a screened window to rescue her.

HELD IN PRISON Unhappy Witness

MEMPHIS, Tenn. (AP) — Charles Quilman Stephens has an air-conditioned private room, three meals a day, a television, radio and telephone and plenty of newspapers, books and magazines to read.

But the 57-year-old World War II veteran says he is unhappy.

So unhappy, in fact, that he has fired his public defender and hired two private lawyers in an attempt to gain his release from the Shelby County penal farm.

Stephens was not sent to the penal farm because he committed a crime. He is being held in lieu of \$10,000 bond as a material witness in the slaying of Dr. Martin Luther King Jr.

But a source close to Stephens said Stephens is determined to get, if not complete freedom, "at least some of the amenities other free American citizens are guaranteed by the constitution."

The district attorney general's office said Stephens was placed in protective custody to insure his safety and to assure his presence when needed to testify.

Stephens was a resident of the rooming house where police say the sniper fired the bullet that killed King April 4. He has told officers he saw a man fleeing the scene.

Looters Driven Off

CHICAGO HEIGHTS, Ill. (AP) — An explosion-triggered fire swept a business in Chicago Heights Monday night and kindled a standoff between several dozen young people and police which smoldered past dawn.

Two men were injured as a result of the explosion which shook the East Side Lauderette, then erupted into fire which spread to the nearby church and the Hayman and Hawkins clothing store.

After firemen extinguished the clothing-store blaze, police said, 25 Negro boys and girls entered the store and attempted to take out merchandise but were driven off by a canister of tear gas.

Sniper Fires At Police

LITTLE ROCK, Ark. (AP) — Police say several shots were fired at a cruiser Monday night as they and National Guardsmen patrolled the city following three previous nights of racial disturbances. No injuries were reported.

Little Rock and Pulaski County remained under a night-time curfew imposed by Gov. Winthrop Rockefeller.

The patrolman and two National Guardsmen inside the car said they failed to capture the sniper.

No major disturbances broke out Monday. It was not known whether the curfew would be in effect tonight, but Police Chief R. E. Briens described the curfew Monday as the "best weapon we've got."

Congressman Meets VA Patients

Rep. Omar Burleson greets patients at the Veterans Administration Hospital during a visit there this morning. The congressman included the hospital on a round of calls while spending the day in Big Spring. Earlier he had toured Webb Air Force Base and was given a briefing on its activities by the wing commander, Col. Wm. C. McGlothlin. Administrator Jack

Powell was his official host while he greeted employees and patients at the hospital. At noon, Rep. Burleson addressed a luncheon meeting of the Rotary Club and other service clubs which consolidated their sessions for the affair. He was due to depart the city later this afternoon.

Sweep Claims 181 Cong In 4 Battles

SAIGON (AP) — U.S. and South Vietnamese forces sweeping the southern approaches to Saigon killed 181 Viet Cong in four battles through the rice paddies of the Mekong Delta, military spokesmen reported today.

It was the heaviest combat in the sector in more than a month.

In one engagement infantrymen of the U.S. 9th Division smashed into a Viet Cong battalion and killed a third of the troops before the remainder fled under heavy American bombardment. Field reports said

the Americans killed 104 of the enemy in the fight 21 miles southwest of Saigon.

The Americans also captured 13 prisoners and 36 weapons. U.S. casualties were 15 killed and 30 wounded.

After intelligence reports of about 300 Viet Cong in the area, helicopters landed more than 1,000 men of the 9th Division in the wet rice paddy area in an attempt to set up a cordon around the enemy force.

During the night, the fighting tapered off to sporadic gun bursts and the surviving Viet Cong slipped away. Contact was reported lost, but the U.S. infan-

trymen continued sweeping the battlefield.

While this fight was going on Monday, other 9th Division troops were battling about 50 Viet Cong five miles to the north. Thirty-three of the enemy were reported killed, and two Americans were wounded.

South Vietnamese headquarters reported that government troops killed another 44 Viet Cong soldiers in two fights in the same general area. Five government soldiers were killed and 22 wounded.

The U.S. 9th Infantry Division, along with South Vietnamese units, is responsible for Saigon's southern defensive perimeter. The American Division has several battalions sweeping through Long An Province and has had frequent clashes there with troops from seven Viet Cong battalions. Each enemy battalion in the area ranges in strength from 100 to 300 men, according to intelligence reports. These Communist battalions could be assigned to attack Saigon or some key district or provincial capital.

DAMAGING BLOWS

In Saigon itself, two damaging blows to Communist sabotage plans were reported.

Government agents raided a house four blocks from the sprawling Tan Son Nhut Air Base and seized a munitions cache containing 11 Chinese assault rifles, 200 pounds of dynamite and 50 rounds of bazooka-type rockets.

Gun Hunt Begins, Law Requires Registration

SAN FRANCISCO (AP) — The big gun hunt is on. Police acting under a new law expect to locate 400,000—enough to arm more than half the people of San Francisco.

An ordinance takes effect Friday requiring the registration of all pistols, rifles and shotguns before Oct. 1.

Pressed by Mayor Joseph Alioto after the assassination of Sen. Robert F. Kennedy in Los Angeles June 5, the Board of Supervisors approved the law July 1 by a 7-3 vote.

Its constitutionality was challenged last week by an association of gun clubs. Superior Court Judge Andrew J. Eymann ruled there was no conflict with the federal or state constitution.

Law enforcement officials, the military and people in legitimate firearms sales are exempt from the registration. The fee for others is \$1 per weapon. Gun

owners don't have to carry their weapons when they register them at any police or fire station.

Any sale, gift or transfer of a weapon must be reported to police. The maximum penalty for violation is six months in jail and a \$500 fine.

Before he called for the law, Alioto urged San Franciscans to turn in their weapons voluntarily. Two thousand weapons were turned in, without a question asked.

More Showers Patter Down

More showers pattered down on Howard County last night, but still the precipitation lacks a lot of being enough to do any material good to parched fields and pastures.

Moss Creek Lake area has had 1.30 inches in two days for the heaviest reported fall. Of this total .90 inch fell Monday, and the remaining last night.

In Big Spring, the U.S. Experiment Station gauged .35 inch for the night which brings the two-day total to .54 inch at that point.

Forsan, to the south, has had only .30 for the two days. The showers seem to be highly localized in nature and no two areas report the same moisture.

The rains of Monday were followed by a hot afternoon which saw the temperature climb to 90 degrees. The coolest reading last night, even with the showers falling, was 68.

Tuesday morning dawned partly cloudy but the clouds were replaced by a searing August sun by midday.

ATHENS, Greece (AP) — An attempt to assassinate strongman Premier George Papadopoulos was made today on a road outside Athens and later at least two bombs were exploded in Athens, a government spokesman said.

The spokesman said a bomb blew up on the road just about the time the premier's car was passing but Papadopoulos was unhurt. A man suspected of planting the bomb was seized.

FIRST TIME

It was the first known assassination attempt on any member of the army-backed Greek regime since the military seized power in a coup d'etat April 21, 1967.

The outbreaks showed every sign of being well coordinated and planned by resistance elements, the spokesman said. A "Greek Resistance" movement had announced in Paris that organized resistance to the regime would begin today in Athens.

The government spokesman, Byron Stamatopoulos, told a news conference that the premier's car was traveling the 18 miles to Athens from his summer villa at Lagonisi when "an explosion occurred at the side of the road."

GEORGE PAPADOPOULOS

Stamatopoulos said the blast went off just after a security car preceding the Premier's car had passed and just before Papadopoulos' car reached the spot. The bomb was placed at the entrance of a road on the coastal bay skirting the Saronikos Gulf.

The spokesman said the 49-year-old premier "maintained

Police Hunt Caller; Says He Killed 3

FORT LAUDERDALE, Fla. (AP) — Warning their quarry may kill again, police today hunted for a man who directed them by telephone to the body of a young girl and her wounded mother and then begged: "Please catch me. Please."

Acting on telephone calls from a man who said, "I've murdered three people," police Monday located the body of an 11-year-old girl and her critically wounded mother.

DIRECTIONS

The caller told police if they wanted to find his victims' bodies to "go down to the airport and then there's one in the water and there's one on a side street."

The woman, Mrs. Dorothy A. Clark, 42, of Clarkston, Ga., was found slumped over the wheel of a car parked at the Fort Lauderdale-Hollywood International Airport. She was bleeding from five bullet wounds in her head and neck. She was reported in critical condition.

Motorists discovered the body of her daughter, Marilyn, at the edge of a side road four miles away in Hollywood. The girl, clad in the bottom half of a two-piece bathing suit and a cotton blouse, had been shot twice in the head.

A search of waterways for a third victim continued today. "He wasn't lying about the first two, so why should he lie

MARILYN CLARK

about the third?" a detective said.

After listening to tape recordings of the caller's conversations, Fort Lauderdale police issued a public warning that the man was "mentally disturbed" and "may attempt to take more lives."

A man who told a clerk at the airport Monday to "give me a ticket to anywhere" was still in custody today but police said he wasn't considered a "prime suspect."

Transcripts of the taped conversations with Officer James Rice included:

Caller: Sir, I'd like to report a

murder.

Rice: A what?

Caller: Murder.

Rice: A murder?

Caller: I just killed three people.

Rice: Just killed three people?

Caller: Right.

Rice: Are you serious?

Caller: I'm serious. Please catch me. Please.

Rice: Where are you?

Caller: Please, I ju... Please.

Rice: Where are you son?

Caller: I'm gonna kill 'em tonight, too. Please.

Rice: Where are you?

Disconnect.

The directions to the bodies came in a second call 12 minutes later.

Broward County Deputy Harold Lamore said the caller told him he was telephoning from a service station on US 1 and then broke off the conversation with: "Hurry up. Please."

GONE

The caller was gone when officers arrived.

Police officials said "we do not want to alarm the public," and added they thought the warning necessary because the caller "has indicated that he may attempt to take more lives."

Police said it had not been determined if a third person was with Mrs. Clark and her daughter or why they came to the area.

HOWARD, GLASSCOCK CASES

Screwworms Reported

Screwworm cases have been reported in Howard and Glasscock counties by the Texas Animal Health Commission.

Oliver West, Glasscock County Agent, said Tuesday positive tests were confirmed for screwworm on the George Schwartz farm, eight miles south of Garden City.

West said that S. B. Henderson, field man for the Texas Animal Health Commission, also reported a case on the H. B. Reagan farm in Howard County. Reagan's farm is eight miles southeast of Big Spring and one mile south of the Midway school on the west side of Moss Creek Lake Road.

Sterile screwworm flies will be dropped on a five-mile radius of both farms and from airplanes as soon as pilots receive their coordinates, West said.

West urged that any farmer or rancher in the area who has a possible case of screwworm on his place should collect samples and bring them to their county agent or send them to the Screwworm Laboratory, Mission, Tex.

Four positive cases of screwworm have been reported in Sterling County, West said. The Reagan case is the first for Howard County in two years.

Autopsy Results Still Awaited

FORT MYERS, Fla. (AP) — Results of autopsies still were awaited today to determine what deadly poison killed five men within two minutes Sunday as they prepared to unload a cargo of fish.

The men toppled into the hold of the 125-foot trawler Novelty one-by-one as the deadly, fast-acting poison took effect.

A biologist from the U.S. Bureau of Commercial Fisheries advanced the theory that the men may have inhaled methylene or hydrogen sulfide, gases which could be produced by decaying fish.

The Novelty arrived in port Saturday night with a load of trash fish to be processed into fertilizer.

Ex-Convict Loses Gun Battle With Policeman

FORT WORTH (AP)—A man identified by officers as an ex-convict died Monday night in an exchange of bullets with a policeman in suburban Euless.

Police Chief W. M. Sustairste said two shots struck and killed Eual Vester Martin, 35, of Arlington as he sat in a stolen car. Euless patrolman Gilbert Elliott, who had stopped to investigate as he saw Martin parked during a rain storm, escaped injury during the gun play.

Elliott said he asked Martin's name and turned to jot it down along with the car's license number. He quoted the slain man as telling him: "Don't turn back or you're dead!"

Sustairste said the patrolman grabbed for his pistol, spun about and each man fired three times at pointblank range.

The police chief said Martin was free on bond and officers had been seeking him for questioning about an armed robbery.

Johnson Awaits X-Ray Results

AUSTIN, Tex. (AP) — President Johnson is combining work with relaxation as he awaits expert evaluation of X-rays of his ailing intestinal tract.

The medical findings presumably will determine whether Johnson must undergo surgery for the third time in four years — a possibility the Texas White House has refused to rule out.

THIRD VISIT

Johnson made his third visit

Council Okays Church Ramp

COLORADO CITY (SC) — The city council Monday night agreed to allow First Methodist Church to build steps and a ramp across the front of the church on the sidewalk in the 300 block of Chestnut Street.

The church requested permission to make extension onto city property so that those who find it difficult to climb steps could walk up the ramp into the church vestibule.

The council instructed J. A. Sadler, city manager, to grant permission for the new entryway with the church assuming all liability in connection with any possible damage suits.

City fathers also accepted the audit report for 1968 from Darrell Knight, Abilene; voted to ask state highway department maintenance of Hickory street which had been state highway 208 but has since been rerouted to pass across the eastern edge of the city; and heard a report from Sadler that the city sewerage plant is operating within acceptable limits.

in a week Monday to Brooke Army Medical Center, San Antonio, where X-rays of the lower intestine were made so doctors could assess the extent of his ailment called diverticulosis.

Normally not a serious or disabling condition, diverticulosis produces pouches on the inner lining of the intestine. Should these become inflamed, surgery might be required.

The White House made a point, however, of saying "the President is feeling fine. He is carrying on an active schedule."

The X-rays were flown to the Bethesda, Md., Naval Medical Center and to the Mayo Clinic, Rochester, Minn. There they were being compared with X-rays taken in previous years.

This was being done at Bethesda by Vice Adm. George G. Burkley, the President's personal physician, and at Rochester by Dr. James M. Cain, an internist who frequently has treated Johnson since his 1955 heart attack.

NO INDICATION

There was no indication when the results of this study would be announced.

At his ranch home, some 65 miles west of here, Johnson had ample paperwork to deal with: consideration of bills passed before the month-long congressional recess, reports on all aspects of the nation's affairs at home and abroad, and personnel matters.

With all that, Johnson had ample time for relaxing drives around his ranch property.

Cain made an unannounced trip to San Antonio last week, apparently at White House request, to look over some of the results of medical checkups given both the President and Mrs. Johnson.

Apart from the matter of diverticulosis, these were said to have been "well within normal limits."

Marble Falls Queen

Gina Swift, 16, daughter of Dr. and Mrs. Edward Swift, of Marble Falls and formerly of Big Spring, has been crowned queen of the Marble Falls Rodeo for 1968. Gina teaches horsemanship to seven daily classes at Camp Champion, where she is wrangler. The camp sponsored her in the Rodeo competition. She will travel extensively this summer to display her horse, Smokey Stampede, at numerous rodeos. The Swifts moved from here about two years ago.

Students Attend Citizenship Meet

Three high school students from this county attended the sixth annual Texas Farm Bureau Citizenship Seminar

July 30-Aug. 3 at Baylor University, in Waco, according to Derwood Blagrove, Rt. 1, Ackerly, president of the Howard County Farm Bureau.

The students include: Diane Cheatham, daughter of Mr. and Mrs. Robert Cheatham, Star Route, Knott, a student at Sands High School.

Debbie Fryar, Rt. 1, Big Spring, daughter of Mr. and Mrs. Martin Fryar, a Coahoma High School student.

Clayton McKinnon, son of Mr. and Mrs. Ray S. McKinnon, Garden City Route, Big Spring, attends Forsan High School.

The annual training school for high school junior and senior students is a course in citizenship, the American heritage, and the role of government, according to Blagrove. "It is designed to complement the formal education of these young folks and make their roles as citizens more meaningful."

The Farm Bureau sponsors the students by paying their tuition, room and board and transportation to and from Waco. A total of 425 students from 156 counties enrolled this year.

Four nationally-known lecturers addressed the 1968 school.

Lady, It's The Law
PELICAN RAPIDS, Minn. (AP) — It's illegal in Pelican Rapids to dance with anyone but your wife.

Village attorney Richard Nitz discovered an ancient ordinance which apparently hasn't been enforced for many years. Nitz said he will draw up a new ordinance to keep dancers from being lawbreakers.

The Texas senator also criticized Atty. Gen. Ramsey Clark, saying he believes Clark is attempting to create "an atmosphere of good will" in which crime would diminish.

"This is phony," said Tower. Maryland Gov. Spiro T. Agnew, the GOP nominee for vice president, also has placed heavy emphasis on the issue of law enforcement, stirring some controversy with his statement that policemen should be authorized to fire at looters who disregard orders to stop during city riots.

Tower said "the continuing war of attrition in Vietnam" is also a prime campaign issue. He would not discuss this in specific terms, saying, like Nixon, that he feared such political talk might hamper the peace negotiations in Paris.

Hospital Airman At Webb Honored

Selected as the Airman of the Quarter at Webb AFB's 356th USAF Hospital recently was Airman 1. C. John S. Urbine. He is a medical service specialist on the night shift in the emergency room.

Before entering the Air Force in May, 1966, he worked as a film processor and X-ray technician at Worthington Corporation, Harrison, N.J.

Photo Classes

A photo hobby class open to all military servicemen and their dependents began Monday at 7 p.m. in the John H. Lees Service Club at Webb AFB. Those interested can register at any class meeting. No fee is required except for materials. The 24-hour photography course is taught by S.Sgt. Nathan Mitchell. Classes will be twice a week, on Tuesday and Thursday evenings. A certificate of completion will be awarded at the end of the course.

Nigerians Will Not Stop Gunning Jets

ADDIS ABABA, Ethiopia (AP) — Prospects of getting sufficient food and medicine to the starving Biafrans grew dimmer today after the Nigerian government spurned an appeal to stop shooting at Red Cross planes and peace talks in the Ethiopian capital stalled.

"The Nigerian reaction is to shoot at any plane," an international Red Cross spokesman reported after the Lagos government rejected its appeal to quit

shooting at mercy flights into blockaded secessionist Biafra.

FEARS
The Red Cross, which had been flying food and medicine into besieged Biafra since November, suspended flights from the Spanish island of Fernando Po, 100 miles off the Nigerian coast, after a DC8 carrying food was fired on over the weekend.

Fears that arms are being airlifted into Biafra in large quantities are behind the federal government's action, the Red Cross spokesman said, but he added that negotiations were continuing. He denied that any Red Cross flights carried arms and military supplies, although he said he had heard larger quantities of arms are being flown to Biafra since President Charles de Gaulle expressed support for the secession.

Caritas, the Roman Catholic relief organization, also is flying supplies in Biafra, using planes chartered from Henry Wharton, a German-born American arms dealer, and this is continuing despite the threat from Nigeria. But all the relief flights have been able to carry only a fraction of the food needed to ward off mass starvation.

The U.S. State Department announced that Secretary of State Dean Rusk is sending a special emissary to Geneva for "urgent consultations" with Red

Cross officials on ways to resume the mercy flights. The emissary, C. Robert Moore, deputy assistant secretary of state for African affairs, is being accompanied by a team of experts on Africa and disaster relief.

U.S. officials in Washington also reported that 200 to 400 persons are dying of starvation each day in Nigeria and Biafra as a result of the civil war. The estimate is based on figures compiled by the U.S. Embassy in Lagos, the Red Cross and voluntary agencies.

NEED OF FEAR
Officials estimated about three million persons behind the rebel lines in Biafra and about 750,000 persons in territory occupied by federal Nigerian forces are in urgent need of food. All told, the civil war has affected some 13 million persons in what was formerly the Eastern Region of Nigeria.

The Red Cross went ahead with plans to transport food by ship from Lagos to Calabar, about 400 miles eastward along the southern coast, where an estimated 280,000 refugees are located. Calabar is in federal control.

PESSIMISM
The German ship, Minna Schupp, was to leave today with 700 tons of food. The Red Cross also is chartering a ship with a 620-ton payload to carry relief supplies to Calabar starting in September.

The Nigerian-Biafran peace talks in Addis Ababa started Aug. 5 under the auspices of the Organization of African Unity (OAU), but pessimism deepened today as the chief Nigerian negotiator went back to Lagos and a spokesman said he did not plan to return, "unless there is going to be something that demands his presence."

Demo Runoff In Arkansas

LITTLE ROCK, Ar. (AP) — Mrs. Virginia Johnson, the first woman to seek the Arkansas governorship, opposes state Rep. Marion H. Crank today in a runoff Democratic primary.

The winner will run in the Nov. 5 election against Gov. Winthrop Rockefeller, the state's first Republican governor since Reconstruction.

Mrs. Johnson, 40, of Conway, who is the mother of three sons, is in the first political race of her own but she did campaign for her husband, Jim, two years ago.

Mrs. Johnson's husband lost the governorship election by 50,000 votes to Rockefeller in 1966 and placed second two weeks ago in a four-man race in which Sen. J. W. Fulbright, D-Ark., won renomination without a runoff.

Johnson is a segregationist and his wife shares his views on racial issues. When asked if he, too, is a segregationist, she replied: "Aren't we all?"

Today's runoff was made necessary when no one received a majority in the primary two weeks ago. Crank, 53, of Foreman, who is completing his 18th year in the legislature, led the primary field with 107,000 votes. Mrs. Johnson got 88,000.

Police Probe Missing Bank

Theft of a \$40 tachometer from a car owned by Laddie Lawson, 1106 Mesa, between noon and 9 p.m. Monday is being investigated by police.

Officers said the instrument was taken from Lawson's car in the Furr's Super Market parking lot where he is employed. The car was locked, police said, and there were no signs of forced entry.

Officers are also investigating the theft of a \$16 radio-type bank containing \$15.80 which was taken Monday from the residence of Clara McKinley, 707 Wyoming.

Nixon's Pro Says Crime, Civil Disorder Key Issues

SAN DIEGO, Calif. (AP) — One of Richard M. Nixon's top advisers on issues awards top campaign billing to crime and civil disorder—subjects the Republican presidential candidate's aides already consider crucial and potentially troublesome.

Sen. John Tower of Texas, chairman of Nixon's key issues

committee, confers with the former vice president today.

Nixon's aides foresee difficulty in stressing law and order, and an end to disturbances, without appearing insensitive to the plight of Negroes in urban slums.

PIECE OF ACTION
Nixon already has devoted considerable attention to the

subject, insisting that order and progress must go hand in hand, urging a program of "black capitalism," to offer city Negroes "a piece of the action" of American enterprise.

Charles S. Rhyne, chairman of United Citizens for Nixon, said Monday that this program, which would be based largely on tax incentives, is attracting interest in the Negro community.

Rhyne said the interest is being translated into support. He said there are large numbers of Negroes in the citizens campaign organization, but he could not say how many that meant.

Tower said "the growing crime rate and disorders in our cities" represent the major issue of the campaign. He said there is a need for the federal government to provide more effective steps to cope with "massive civil disorders."

TOWER BLASTS
The Texas senator also criticized Atty. Gen. Ramsey Clark, saying he believes Clark is attempting to create "an atmosphere of good will" in which crime would diminish.

"This is phony," said Tower. Maryland Gov. Spiro T. Merchants Are Smart When They Advertise In The Big Spring Herald

Knowledgeable merchants know the most likely people to become customers are those who have already decided to buy. They know that these people will read the ads before they decide "from whom" they will buy. By advertising in our newspaper, we guarantee you will reach those who are the most prospective customers in this area, and make more sales.

A Devotional For The Day

To draw near to listen is better than to offer the sacrifice of fools. . . . Be not rash with your mouth, nor let your heart be hasty to utter a word before God, for God is in heaven, and you upon earth; therefore let your words be few. (Ecclesiastes 5:1-2, RSV)

PRAYER: Our Father, we thank Thee for the forgiveness of our sins and for Thine endless blessings upon us. Help us that we may surrender ourselves to Thy will. In Jesus' name we pray. Amen.

A Real Cooling Off?

President Johnson must be reading the intelligence reports from South Vietnam with intense interest. He must be asking himself this question: Is the lull in fighting in South Vietnam Hanoi's answer to the U.S. demand that reciprocal de-escalation is required before all bombing of North Vietnam is halted?

The intelligence reports can lead one to two conclusions: (1) That the Viet Cong and North Vietnam are calling in their forces for rest and for refitting before mounting a new offensive in late August, or (2) that the Viet Cong and North Vietnam have responded to the U.S. demand for de-escalation, but will not admit it.

An estimated 25 per cent of the North Vietnamese regulars in South Vietnam have been withdrawn from

the South. No rockets have fallen on Saigon since June 21. The movement of replacements from North Vietnam to South Vietnam has been cut approximately in half.

But in Paris, where meaningful talks between North Vietnam and the United States have been stalled by Hanoi's adamant insistence on prior cessation of all bombing attacks on the North, Hanoi's representatives refuse to comment on the fighting lull. Is face being saved, or is this Oriental williness?

President Johnson could at any time announce that an act of de-escalation had occurred, whereupon he could halt all bombing of North Vietnam. There are elements of risk in this approach, but certainly not unacceptable risks.

No 'Male' And 'Female'

The help-wanted ads in America's newspapers as of next December 1 will not be "classified" the way they have been. On that date the Equal Employment Opportunity Commission's new ruling goes into effect, providing that "male" and "female" ad headings be eliminated, except where sex is a "bona fide occupational qualification."

The EEOC based its ruling on Title VII of the Civil Rights Act of 1964 which outlaws employment discrimination "on grounds of race, color, religion, sex or national origin." There already are some rulings affecting differences other than sex.

The object seems to be to encourage women to apply for jobs in management, engineering and similar categories which traditionally have been the bailiwick of the male.

Overcoming discrimination, of course, will only help create a climate in which women will in fact be hired on the basis of qualifications.

Preference for the masculine tone can be expected to yield only slowly and stubbornly.

Yet there is no reason more women should not seek out and qualify for positions now largely the privilege of men. The shortage of college-trained workers is forcing many employers to consider women for responsibilities which sheer custom would have kept closed to them even a few years ago.

A considerable breakthrough, however, was noted in World War II days, when women stepped in to handle all manner of work while men were in uniform. And the recent progress of women in the job market is pronounced. Such jobs as carrying the mail are open to them now, and many more likely will become open.

With the labor market like it is, employers may be willing to give more consideration to women applicants, regardless of federal regulations.

The Unknown Quantity

The selection of Gov. Spiro Agnew as Richard M. Nixon's running mate on the Republican ticket caught everyone including Gov. Agnew by surprise.

Having talked to many people and having pieced all the facts together I can now reveal how the Republicans made this choice.

An hour after Nixon was nominated to be his party's standard bearer he started conferring with Republican leaders as to who would be the vice presidential candidate.

THE DEBATE lasted well into the morning and from all reports it became bitter and occasionally acrimonious.

This is how some of it went.

A party leader said, "What we need to balance the Republican ticket is an unknown quantity, somebody that the people don't know, somebody that they've never heard of before, somebody who could unite the party."

"That's all well and good," said a second party spokesman said. "But where can we find someone at this late date that isn't a household name?"

A third member of the group, "How about what's-his-name?"

"Who?"

"YOU KNOW, the senator from somewhere in the Midwest. I forget which state."

"He might be a possibility, but would the South take him?"

"I think it should be an unknown quantity from the West. If we're going

to pick someone nobody's heard of, he should at least balance the ticket geographically."

"What about Mark Hatfield?"

"He's too well known. He's been mentioned by the press as a possibility, so people know who he is."

"They may know him, but he's certainly not a household name."

"NEVERTHELESS there are some voters in the United States who have heard of him, and therefore it would be too risky to nominate him. Don't forget this time we want to win."

"He's right," said one of Nixon's managers. "Why don't we go with Bill Miller. Barry Goldwater's running mate. He's the perfect unknown quantity. People never heard of him before he ran, and after he ran they still don't know who he is."

"It's a good idea but that would mean both the President and Vice President would be from New York state."

"THAT ELIMINATES Miller. When we talk of an unknown quantity we have to pick someone who is a statesman, a leader, who is familiar with the problems of the cities, the counties and the suburbs."

"How do we know he's all these things if he's an unknown quantity?"

"You're always throwing up roadblocks," a party leader said angrily.

"Gentlemen, gentlemen," said Nixon. "Let's remember we're all Republicans."

"Mr. Nixon, our researchers compiled a list of strong vice presidential candidates that nobody's heard of and have just taken a spot survey."

"What are the results?"

"THEY LISTED 10 of our leading unknown quantities and polled 113,678 people. The name of Spiro Agnew came in first every time. As a matter of fact, not one person surveyed knew who he was."

"Great. Who is he?"

"Let's see. Here it is. He's governor of Maryland."

"That's beautiful. He's not a household name, yet he can placate the South. Get him on the phone."

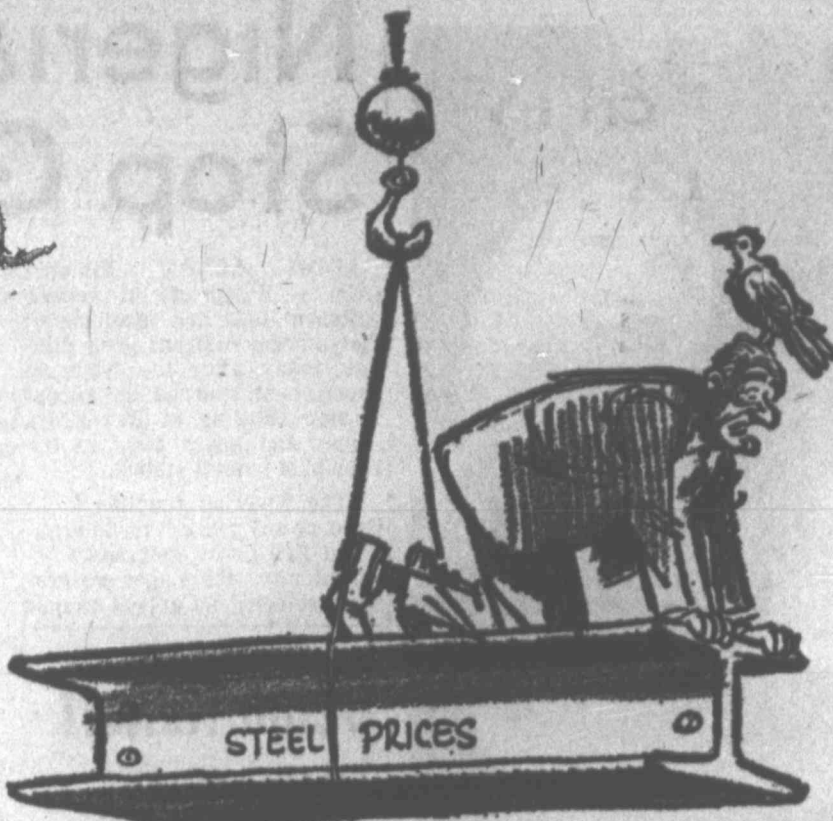

"We've been trying to. But because he's such an unknown quantity no one knows where he's staying."

The Political Scene And Business

NEW YORK (AP) — Can a corporate employe be a good worker and an elected politician at the same time? In many instances he apparently cannot, judging from opinions expressed in a recent survey of 1,633 companies.

THE ANSWERS have special significance in an election year. But they serve also as a contrast to some widely held corporate views, typical among them:

"Business must involve itself in the social problems of the community. It must participate. It must fulfill its obligation as a corporate citizen."

"No matter what we business do we'll never be able to make politicians understand the requirements of business. They'll always suspect our motives."

THE OPPOSITION to political involvement by employes would seem, therefore, to contradict the first attitude and make the second attitude seem fatuous.

The study, by the nonpartisan National Industrial Conference Board, showed that 89 per cent of the companies studied encouraged workers to register and vote.

However, the percentage of support dropped off sharply as the degree of political activity increased. Only 41 per cent said they encouraged contributions to political parties and only 39 per cent encouraged running for office.

The reasons given varied. Many companies said they felt politics was none of their business. Some public utilities noted that government regulations discouraged their participation. A few retail stores feared customer reactions. Some cited labor union opposition.

FEW TOP executives, of course, can forget the experience of New Jersey Bell Telephone Co. last year. The company was proud of its political involvement, reporting in its 1966 annual report that it employed

15 mayors, 58 councilmen, 68 school board members, 11 tax assessors and a state assemblyman.

Within months, one of these employes was accused of making anti-Semitic remarks and New Jersey Bell was in hot water over a matter that had nothing to do with corporate attitudes.

ALTHOUGH ONLY one company in three encouraged politi-

cal activity, the corporate political activists stated their case firmly. Said the president of a large oil company:

"Whenever a community or nation finds itself in difficulty, there may be, and probably are, dozens of surface reasons. A much more fundamental cause may be discovered, however, in the indifference of its citizens."

This year business still seems to favor leaving the business of government to the politicians.

Life Is Like Lollipop

NEW YORK (AP) — Jumping to conclusions:

Women and professional athletes fret most about their health. Women often go to doctors chiefly to add a little variety to their lives, but a pro athlete's whole career hangs upon his health, and he can worry himself into ulcers over it. Even a hangman bothers an athlete more than it does an ordinary person. He feels even the slightest imperfection in his body machinery is a potential threat to his earning power.

THE AVERAGE dog in America now eats a more balanced diet than the average teenager. He has fewer dental cavities, too.

Wearing too-tight clothing is one of the main causes of melancholy and bad temper among adults. It is hard to show much loving kindness when your feet hurt and a choking collar is shutting down the blood supply to your brain. We'd have a more friendly and hopeful national mood if Congress simply passed a law forcing every man and woman over 40 to wear shoes a half size larger and men to wear shirts a half size bigger at the neck.

WITH SO MANY people becoming amateur painters in order to express their inner personality, one of the big problems

of modern living is what to do with one of their creations when you politely admire it and they insist on presenting it to you. We hung one on our living room wall recently. Our cat took one look, arched its back in panic, scrambled to the top of the bookcase and stayed there until we took the painting down.

This is the season of the year when secretaries are at their grumpiest. They've splurged all their savings on an expensive vacation—and all most of them have to show for it is a peeling nose instead of the wealthy fiancée they had hoped for.

NO MATTER how many character faults a wife may have, a husband can ordinarily put up with her if she has learned how to cook a good dish of scrambled eggs. No man could be happy married to a saint if she massaged his breakfast eggs for 40 years.

A fellow never finds out how few really true-blue friends he has in this world until his cat has kittens and he tries to give them away.

There's never been a perfect marriage on earth since apple pie was first wedded to cheese.

Why is everyone in such a rush nowadays? Don't they realize that life is like an all-day lollipop? Only if you savor it slowly will the flavor last until dark.

Why The Callus Comes Back On His Foot

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: I have had a callus on the ball of my foot for months. I have used callus pads and bathed my feet like the directions say. The callus goes away for about a week and comes right back again. What is the best way to get rid of these for good?—T.E.D.

Best way to get rid of them for good is to find out what is causing them. As you've already discovered, just getting rid of them isn't too hard, but staying rid of them is something else.

What is a callus? It is a thickening of the skin. Why is it there? Because nature thickens the skin to protect against pressure or irritation.

Remove this thickened skin, and what happens? Why, sir, unless the cause has been removed, too, the callus will form again.

Overweight, a weak arch, shoes that do not fit properly are all causes of a callus. Sometimes, when you've had a favorite pair of shoes too long, ridges form in the inner sole. These ridges may seem to fit

your foot — and in a way they must. But it is also possible for an edge to form and put pressure on the flesh of the foot.

Or an innersole can work up a wrinkle — and a callus.

Having new insoles installed, or even some of the special padded ones, sometimes is more helpful than you might think.

If such a simple means doesn't help, my suggestion is to see a podiatrist and find out whether some fault has developed in the arch of the foot, so pressure now comes at a different point.

Dear Dr. Molner: How can one get rid of planter's warts? One of our children is in misery with a lot of them on the bottom of his heel.—Mrs. D.M.L.

In blunt language, I don't know any home remedy for planter's warts. (It's planter, not planter's, as everybody seems to think. The term "planter" merely means that the warts are on the planter portion of the foot — the sole.)

These warts apparently are the same as any other warts,

except that on the sole they are as annoying as pebbles in a shoe.

It is best for a person with them not to walk around the house unless wearing his own slippers. This is to prevent risk of spreading the wart virus to others.

Sooner or later the warts, like all warts, will disappear, but they often are painful enough so it is better to have them removed — and they may have to be removed more than once if a new crop appears. Have a podiatrist or your physician remove them. Various methods are used, including paring, cautery, and sometimes surface X-ray in persistent cases.

Arthritis sufferers CAN be helped. Dr. Molner's booklet discusses many types of arthritis and related joint diseases as well as outlining effective treatments and medications.

For a copy of "How You Can Control Arthritis" write to Dr. Molner in care of The Herald enclosing 35 cents in coin and a long, self-addressed, stamped envelope.

Around The Rim

The Old Oliver No. 5

Very often fellows who collect oldtime things take me by the hand and lead me to a corner to show me something they think will make my old eyes pop out.

"Did you ever see a typewriter like that?" they demand.

And they point eloquent fingers at their rare machine.

Nine times out of ten they are showing me an Oliver No. 5.

AND THEY ask me if I ever saw one — my gosh, man, an Oliver 5 was the first machine I ever owned and the kind on which I first learned what little I know about using a typewriter.

The Oliver had a lot of admirable features that other typewriters of its day lacked. It was a "visible" writer for one thing. Most typewriters of that vintage were so built that the keys struck upward from inside the carriage hitting on the bottom of the platen. Thus when you typed if you wanted to see what you had written you had to lift up the carriage to bring the line into view. The Oliver had its banks of keys above the carriage in the form of a V. When you depressed a key, the letter struck downward so that the line you were writing was right on top of the platen.

THE OLIVER had another feature which I didn't care for too much. Instead of four rows of keys, there were only three. On an ordinary typewriter you write lower case letters as the machine stands; to make capital letters you depress a button called a "shift."

My old Oliver went that step one better. It had two shift keys. One was marked "Caps" and the other "Figs."

If you wanted to capitalize a word, you pressed down on "Caps." If you wanted to write a number or if you needed to put in a punctuation mark or a dash you depressed "Figs."

INSTEAD OF just two symbols on each key bar there were three. If you absentmindedly pressed the wrong button — that is to say if you depressed Figs when you wanted Caps whatever it was you were writing turned out pretty odd.

The early day typewriters I used to write on lacked enough punch to produce decent carbon copies. Of course, the carbon paper of that day wasn't what it is now. But the Oliver had the edge on the others — you could hit about as hard as your fingers would let you and if there was any printing left in the carbon it was bradded on your letter copy.

I DON'T think you could wear out an Oliver. Nor was it easy to break one to the point where it needed repair. If the ones I used were ever out of order, I never knew about it.

They were tolerably compact compared to the Remington Invisible, the Smith-Premier (which had an individual key for each letter, each capital, each figure and each symbol) and other early day machines.

I used my Oliver as a doorman when I wasn't writing on it. Made a darned good one, too.

Our Garrison State In Europe

WASHINGTON — Sen. Stuart Symington of Missouri, no isolationist, is being taunted as one. The way it works out is that Eugene Rostow of the State Department, desiring to twist Symington on a NATO matter, funnels the abuse through a New York Times columnist who labels the senator as the purveyor of frustration and back-to-the-blockhouse thinking.

SYMINGTON has an amendment to the Defense Department appropriations which would cut down our standing army in Europe from 250,000 to 50,000 in round figures. This would save a lot of money from our military budget, make our armed forces more flexible for worldwide use, reduce the draft calls, relieve inflationary pressures on the home economy and modernize our European policy. The NATO partners for many years have been capable of supplying their own ground defense. They'll never do it so long as we do it for them.

If this is isolationism, then we should make the most of it. Troops-in-Europe reverses the old adage that you can do everything with bayonets except sit on them. We have been sitting on our own bayonets there for a quarter-century now. Financially speaking, it is an intolerable posture. Militarily speaking, it is a ludicrous one.

FRUSTRATION and blockhouse-thinking are in the picture, but on Rostow's side, not Symington's. As an administration policymaker, Rostow dreads change. To reduce the number and size of U.S. divisions in Europe might be taken as a retreat instead of a regrouping. It might hurt our prestige at the time it is already being mauled in Asia. The NATO allies would claim themselves forsaken, and the Russians would claim a victory. Rostow says all these consequences are to be feared.

BUT TO GIVE them credence,

Marquis Childs

Nixon's New Realism On Peace

MIAMI BEACH — Behind all the dreary ritual of the recent convention and underlying the endless rhetoric of the Presidential campaign to come there is only one central concern: Which of the two candidates can bring an end to the fighting in Vietnam?

In his public words on this score, Nixon makes sense. Obviously, in response to a press conference question, he could not say the war was unwinnable. There must, he said, be a negotiated settlement, and it was not unreasonable to add that a strong military, economic and political presence will encourage the enemy to negotiate rather than fight.

HE SEEMED to verge on a Churchillian grandiloquence when he declared that he was not seeking the Presidency to preside over the destruction of the credibility of American power throughout the world. But one must allow for the habit of grandiloquence that has been a kind of Nixon conditioned reflex.

It was his frank statement on the change of circumstances and the change in his own thinking between 1960 and 1968 that promised a foreign policy of negotiation as against the missile rattling of the Dulles era when we were to use nuclear bombs at times and places of our own choosing. Nixon, it should be added, was very much a part of that era, his bluntparts at home and abroad being hardly less threatening than those of the master himself.

SO NOW as a realist, a pragmatist, by his own description, he intends to be a negotiator, bringing about a relaxation of tensions between the two great blocs. If only as a reminder during the campaign heats up, his exact words are worth repeating:

"Whoever is President, whether it is President Johnson or whether it is Humphrey or whether it is Nixon, whoever is President in the next four years and these eight years must proceed on the assumption that negotiations with the leaders of the

which they don't deserve, the administration spokesman has to make unbelievable exaggerations. He must say that six U.S. divisions have prevented 25 Communist divisions from invading West Europe, whereas everybody knows the true preventive has been the deterrence of American nuclear power.

Fifty thousand GI's would do just as well as 250,000 to serve as a tripwire across the heart of Europe. Rostow must argue that NATO morale depends exclusively upon the U.S., whereas it depends on the readiness of the entire North Atlantic Alliance.

THERE ARE other untenable administration arguments. Its spokesman contends that the large American presence has encouraged Rumania, and Czechoslovakia to wiggle around on their Soviet shackles. But there was no intervention for Hungary in 1956, and there will be none for Czechoslovakia in 1968. Sadly, our troops are on-lookers, and not liberators. The administration doesn't fear the falsely-predicted consequences that it has conjured up. It fears unknown consequences. Its policies, therefore, are dictated by psychosis, which is to say, dictated into inaction by dread of disturbing the status quo.

SYMINGTON's call is for us to stand up off the bayonets, which are pricking nobody but us, and to play the man. American self-interest should call the shots, even if it means to take some chances. No matter how wise it was to make West Europe a block-house in 1949, any policy of immobility is folly in these days of nuclear competition.

Financially we need to get off the dollar-drain. Militarily, we need to get off the dime.

(Distributed by McLaughlin Syndicate, Inc.)

Soviet world, negotiations eventually with the leaders of the next super power, Communist China, must take place. This is a change that has come about and therefore policy must change."

BUT DEEPLY DISTURBING, even to many who have come along with him on his triumphant march to the nomination, is the degree to which Nixon's private words fail to match his public words. A superb technician who has engineered a long and difficult upward climb out of the pit of disaster, in the war between expediency and principle the expedient operator seems too often to win the last round.

WHEN NIXON spoke off the record in Washington to Republican members of the House about policy and winning elections some time ago, he dismayed liberal-moderates by his expediency. Foreign aid? The way you vote on foreign aid depends on the district you're running in. If you're from a district where the feeling against it is strong, then you'll have to vote "No." No matter how you finally vote, it must be cut and cut and cut again.

BUT SOME OF Nixon's postures are past if one takes words at their face value. Even on Cuba, a highly sensitive subject here where so many thousands of Cuban refugees vent their hatred of Castro, he was sensible. He called for the most discreet and effective use of America's economic and political power to help the Cubans make a free choice of their future.

The Democratic opposition, once the campaign gets going, will certainly try to revive the Nixon past. The researchers are busy digging up all his excesses of word and deed. But the benefit of the doubt will be his so long as he speaks to the new realism in the era of negotiation that he proclaims.

A LOVELIER YOU

Quality Of Speech Is Indicative Of Person

By MARY SUE MILLER

Your speech communicates to the world the kind of person you truly are. Your tone of voice and choice of words are an index to your personality. Like an unkempt appearance, unkempt speech shows both the lass and the lady to be careless of the opinion of others and lacking in regard for herself. In fact, an unpleasant voice, a shoddy word, a ruminous idea, lose a speaker her audience. Husbands, children, friends and strangers flee such assaults on their sensitivities.

Quite oppositely an attractive speech pattern carries more magnetism and lasts longer, too, than good looks. When you tactfully offer fresh ideas in a clear, warm voice, you win a devoted following. You carry a passport to successful relations within the range of your voice, just by being thoughtful about what you say and how you say it.

The truth of this comes into sharp focus when we go traveling and meet new people. In strange surroundings our perception is keener. We can't miss the shrewish mother disciplining her children in public and we cringe. We are driven to find solitude when the voices of a rocking chair brigade drone on and on and on. But we think it would be fun to invite the couple whose voices never intrude to have supper with us. You see they've got a passport.

Patricia O'Brien Honored At Party

Miss Patricia O'Brien was complimented with a lingerie shower Saturday in the home of Mrs. Michael Maderer, 2109 Grace. The honoree is the bride-elect of Fred Riggan.

Cohostesses were Miss Karen Moore, Miss Shirley Cobb, Miss Marcia Kirkpatrick and Mrs. James Hargrove.

The honoree was attired in a beige and cream dress designed with a jewel neckline. She was presented a corsage of blue sweetpeas and yellow roses accented with miniature bells and rings.

The hostesses wore yellow dresses in keeping with the honoree's chosen colors of yellow and white. They wore similar corsages.

The refreshment table was laid with an ecru lace cloth over yellow and centered with a miniature bridesmaid dressed in yellow and a tiny bride in white, enhanced with silver wedding bells.

The couple will be married Sept. 7 in the East Fourth Baptist Church.

50 Patients Are Guests At Church

Fifty employe-patients at Big Spring State Hospital were guests Monday evening of the Wesleyan Service Guild of First Methodist Church.

Refreshments were served in the fellowship hall where singing was led by Miss Jane Norris, and the Rev. Leo Gee extended the welcome and spoke briefly on the "True Meaning of Life." Mrs. B. M. Keese was pianist, and several guests performed duets.

A business session followed the social hour, and Mrs. W. E. Moren presided as plans were announced for a joint meeting of the guild and the Woman's Society of Christian Service. This will be in October, which is termed "charter month." At that time, all organizations will receive new charters under the United Methodist Church structure. The district meeting of the Big Spring District will be held Sept. 15 in Snyder.

Hostesses were Mrs. H. M. Rowe, Mrs. W. R. Yates and Mrs. W. L. Vaughan. Other guests were Mrs. Bert Affleck Sr., Mrs. Lina Flewellan and Mrs. Laura Anderson.

Forsan Residents Take Trips, Visit

FORSAN (SC)—Mr. and Mrs. Bruce Aubuchon of Dallas were recent guests of her parents, Mr. and Mrs. Roy C. Klahr and Ricki. Guests in the Klahr home this weekend are Mrs. Phil Moore and Karen of Midland. The Charles Spurgeon family of Kermit visited in Forsan during the week.

Mr. and Mrs. M. M. Fairchild attended funeral services in Colorado City. Guests of the Fairchilds have been Mr. and Mrs. Dan Fairchild and sons of Odessa.

Mrs. S. C. Cowley and guests, Mrs. Harold Erich and Linda visited in Lamesa during the week. Mrs. Erich and daughter left Saturday for their home in Galt, Calif.

Mr. and Mrs. Donald Gressett and children of Snyder were recent guests of his parents, the Walter Gressetts.

Mr. and Mrs. Tommy Willis are home from a two-year stay in Anchorage, Alaska.

Mr. and Mrs. Charles McGuire and children of Las Vegas, Nev., are visiting her parents, Mr. and Mrs. J. D. Gilmore.

Recent guests of the C. V. Washes were the Russell Sallee from Eldorado.

Mrs. John Welch of Sterling City is convalescing in the home of her son and daughter-in-law, Mr. and Mrs. Noble Welch, 207 E. 13th, following hospitalization in a Sterling City hospital.

Party Honors Mrs. J. Ream

Mrs. Jimmy Ream, the former Miss Jan Forrest, was complimented with a bridal shower Saturday afternoon in the parlor of Wesley Methodist Church. Approximately 40 guests called between the hours of 3 and 5 p.m.

Hostesses for the affair were Mrs. Jerry Allen, Mrs. Don

Party Fetes Miss Knox

Miss Sue Knox, bride elect of Capt. John Stull, was honoree at a luncheon and rice bag party Friday in the home of Mrs. R. W. Thompson, 908 W. 17th. Mrs. H. Fitzhugh was cohostess.

The bride-elect was presented a white carnation corsage and was attired in a yellow voile dress accented with lace trim. Her mother, Mrs. John B. Knox, joined her and the hostesses in greeting guests.

The table was laid with a white linen cloth and centered with bittersweet carnations and green grapes. Place cards were miniature rice bags bearing the guests' names. China and silver appointments completed the setting.

The hostess' gift was an ironstone clock. Mrs. Bill Smith of Andrews was a guest.

Two Couples On Trip To Colorado

FORSAN (SC) — Mr. and Mrs. C. L. Gooch are vacationing in Colorado this week. They were accompanied by the Gary Wiggins family of Big Spring.

DOYLE HOLDER

Holder Elected Veep Of Newly Organized Group

Doyle Holder, director of the new mid-management program at Howard County Junior College, has returned from Austin following a week-long training-workshop sponsored by the Texas Education Agency.

Mid-management is keeping pace with the growth of junior college enrollment in the 41 state supported junior colleges. In 1966 mid-management was offered in eight of these institutions; in 1967, there were 16; and in 1968, 21 will offer mid-management as part of their curriculum.

The Mid-Management Coordinators, representing the 21 junior colleges, organized a professional group and will be known as the Texas Association of Mid-Management Educators. Sid Streicher of Odessa College, was elected president, and Doyle Holder, HCJC, was elected vice president. This group will petition the American Vocational Association for recognition as a separate division of A.V.A. at the National Convention to be held at Dallas in December.

Mid-management is an accelerated management course that includes an on-the-job internship. Students who complete the course will have the necessary knowledge, attitudes, skills and experiences to qualify them as junior executives. Students or businessmen may contact Holder at the college for more information.

Mighty Hot Yarn

FORT ROCK, Ore. (AP) — R. A. Long, a rancher in south-central Oregon, described the summer's dry weather this way: "I sent off a sample of water to be analyzed and the report came back—40 per cent moisture."

Uruguay's Capital Expects New Riots

MONTEVIDEO, Uruguay (AP) — Uruguay's capital expected certain today to have more bloody student riots as public opposition to President Jorge Pacheco Areco's tough policies steadily increased.

A score of students, policemen and bystanders were in hospitals with bullet wounds or other injuries suffered in daily violence that began last Friday with a police raid on the University of Uruguay.

Censorship-minded officials kept the exact number of casualties secret. Nor would police say how many demonstrators have been arrested, but there have been more than a dozen.

Racial Jail Attack Leads To 23 Raps

NEW YORK (AP) — A racial attack in the city's jail on Rikers Island has led to the indictment of 23 white inmates on charges of assault and possession of weapons.

The indictments, made public Monday, charged that about 80 whites attacked six Negroes on the night of July 9.

The attack allegedly occurred after the six Negroes moved a picnic table into a recreation area that the white prisoners had designated for whites only, and the Negroes sat down at the table to watch white prisoners play handball.

The six Negroes allegedly were attacked by white prisoners armed with chair legs, bent tin cans, mop handles, chains and knives made from filed-down spoons.

The indictments and the attack were discussed at a joint news conference by Bronx Dist. Atty. Isidore Dollinger, his chief assistant, Burton E. Roberts, and City Correction Commissioner George F. McGrath.

Roberts said one of the victims of the attack, a star pitcher for the jail's baseball team, still is "in a comatose state" in the prison ward of Bellevue Hospital. "His chances of recovery are absolutely nil," Roberts said, "and at best the doctors say he will always be a vegetable."

Roberts praised McGrath for reporting the attack and insisting on prosecution. "This kind of thing happens in institutions all the time, but they usually are swept under the rug," Roberts said.

'Bohemian' Bid Due New Look

SANTA CRUZ, Calif. (AP) — A Superior Court judge is taking another look at an Iowa State Supreme Court ruling which gave custody of a boy to his grandparents because his father was "bohemian."

Harold Painter filed a petition Monday seeking permanent custody of his son Mark, who was 7 when the controversial ruling was made in 1966.

Superior Court Judge Gilbert B. Perry postponed Mark's scheduled return Thursday to Iowa after a month's visit in California. He gave Painter temporary custody and set Aug. 28 for a hearing on the question of permanent custody.

The boy's maternal grandparents, Mr. and Mrs. Dwight Bannister of Ames, Iowa, were given custody of the boy. The Iowa court ruled life with his father would be bad for the youngster because the atmosphere would be "arty, bohemian and probably intellectually stimulating."

Car Wreck Kills Woman, Hurts Son

NACOGDOCHES, Tex. (AP) — A two-car wreck on US 59 Monday night killed a Garrison, Tex., woman and injured two other persons, including her son.

Killed was Mrs. John Connell, 23. The accident happened some 18 miles north of this East Texas city.

Colorful Prospector

Charles Ferge (above), 86, a California desert prospector best known as Seldom Seen Slim, died Sunday of cancer in a Trona, Calif., hospital. He was the last and most famous resident of Ballarat, tiny ghost town on the edge of Death Valley.

Ballarat, Calif. (AP) — Seldom Seen Slim, 86, earned his nickname with the way he lived—a recluse for 50 years in a desolate corner of Death Valley.

After all those lonely years Slim was the last resident of Ballarat, now a ghost town.

Welfare records indicated he was born Charles Ferge on Oct. 21, 1881, in Springfield, Ill., but Slim always said, "I got no people... I was born in an orphanage."

The last of Ballarat's seven saloons shut down in 1917, after the gold and silver mines petered out, but Slim stayed.

"I don't get lonely," he explained. "Hell, I'm half coyote and half wild burro."

Last Tuesday Slim was found ailing in his rundown trailer in Ballarat's ruins. He was taken 70 miles to Trona, but he lived only five days.

A simple funeral is planned Saturday in Boot Hill. It will be the first burial in Ballarat in half a century.

Dear Abby

They Face Temptation

DEAR ABBY: I am absolutely furious and don't know where to turn. My son, Dick, is 23 and has been out of the service for two months. Dick met a girl about a month ago and he's been seeing a lot of her. She is 22. Now he tells me he's driving to the west coast (we live in Ohio) and this girl is driving along with him (just the two of them) as she has never seen the west. Dick said that the girl's mother is all for it. I wondered just what kind of mother would be "all for" a trip like this, so I rang her up and she said, "I raised my daughter to be a respectable girl, and if you raised your son to be a respectable boy, what do we have to worry about?" I was speechless. How would you have answered her?

DEAR SPEECHLESS: To send a couple of healthy, normal kids who are obviously physically attracted to each other off alone together on a cross-country trip is asking for trouble. No matter how "respectable" they were in Ohio, a little hanky-panky can be expected about the middle of Missouri.

DEAR ABBY: The other day you printed a letter about a couple who stayed together because of their kids. As far back as I can remember my parents hated each other, but refused to separate. As a matter of fact, one of my earliest recollections was watching my father try to kill my mother. I was about three at the time. Dad was an alcoholic. He was insufferable when drunk. He wasn't much better when he was sober. When my teacher asked our class to write a composition titled, "Why My Father Should Be Chosen Father of the Year," I smiled a little smile and asked if there were any alternate assignments.

DEAR ABBY: I read in your column the other day where a girl wrote in and said her family was much happier now that her parents got divorced than they were when the parents were trying to stay together for the sake of the kids. Well, my parents have been divorced for five years now, and they tried to stay together for a few years before that. I don't know which was worse. Them together or them apart. It is really terrible for us kids, but I guess maybe they just weren't meant for each other. All I can say is I hope to God more couples think more before getting married 'cause if they did I would sure save the kids a lot of unhappiness. "I KNOW" (age 11)

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif., 90069 and enclose a stamped, self-addressed envelope.

Proposed CONSTITUTIONAL AMENDMENT NUMBER SIX ON THE BALLOT (SJR21)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 1-e to read as follows: "Section 1-e. (a) The Legislature may, by General Law, exempt from ad valorem taxation by the state and its political subdivisions all or a portion of any equipment, device or improvement installed or constructed on real property, which is designed to eliminate or abate the harmful effect of air emissions or water effluents on the air and water quality in this state, to the extent that the capital investment in such property is made to comply with or to exceed air or water quality standards established by law. (b) Legislation which may be enacted in anticipation of the adoption of this Section is not void because of its anticipatory nature." Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November

1968, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment giving permissive authority to the Texas Legislature to exempt from ad valorem taxation by the State of Texas and its political subdivisions equipment installed on real property to eliminate or abate the harmful effect of air emissions and water effluents, provided that the capital investment in such equipment complies with the air and water quality standards established by the State of Texas."

Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT (SJR32)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article VIII, Constitution of the State of Texas, be amended by adding a new Section 1-e to read as follows: "Section 1-e. (1) From and after December 31, 1976, no State ad valorem taxes shall be levied upon any property within this State for State purposes except the tax levied by Article VII, Section 17, for certain institutions of higher learning. (2) The State ad valorem tax established by Article VII, Section 3, of this Constitution shall be imposed at the following rates on each One Hundred Dollars (\$100.00) valuation for the years 1968 through 1974: On January 1, 1968, Thirty-five Cents (35c); on January 1, 1969, Thirty Cents (30c); on January 1, 1970, Twenty-five Cents (25c); on January 1, 1971, Twenty Cents (20c); on January 1, 1972, Fifteen Cents (15c); on January 1, 1973, Ten Cents (10c); on January 1, 1974, Five Cents (5c); and thereafter no such tax for school purposes shall be levied and collected. An amount sufficient to provide free textbooks for the use of children attending the public free schools of this State shall be set aside from any revenues deposited in the Available School Fund, provided, however, that should such funds be insufficient, the deficit may be met by appropriation from the general funds of the State. (3) The State ad valorem tax of Two Cents (2c) on the One Hundred Dollars valuation levied by Article VII, Section 17, of this Constitution shall not be levied after December 31, 1976. At any time prior to December 31, 1976, the Legislature may establish a trust fund solely for the benefit of the widows of Confederate veterans and such Texas Rangers and their widows as are eligible for retirement or disability pensions under the provisions of Article XVI, Section 66, of this Constitution, and after such fund is established the ad valorem tax levied by Article VII, Section 17, shall not thereafter be levied. (4) Unless otherwise provided by the Legislature, after December 31, 1976 all delinquent State ad valorem taxes together with penalties and interest thereon, less lawful costs of collection, shall be used to secure bonds issued for permanent improvements at institutions of higher learning, as authorized by Article VII, Section 17, of this Constitution. (5) The fees paid by the State for both assessing and collecting State ad valorem taxes shall not exceed two per cent (2%) of the State taxes collected. This subsection shall be self-executing." Sec. 2. That Article III, Section 51, of the Constitution of the State of Texas, be amended so as hereafter to read as follows:

"Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public moneys to any individual, association of individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors under such regulations and limitations as may be deemed by the Legislature as expedient, and to their widows in indigent circumstances under such regulations and limitations as may be deemed by the Legislature as expedient; provided that the provisions of this Section shall not be construed so as to prevent the grant of aid in cases of public calamity." Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed on them the following: "FOR the Constitutional Amendment continuously reducing State ad valorem property taxes and abolishing all State ad valorem property taxes after December 31, 1978, except the tax levied by Article VII, Section 17, for certain institutions of higher learning."

PROPOSED CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT (HJR3)

Section 62. (a) The Legislature shall have the authority to levy taxes to provide a State Retirement, Disability and Death Compensation Fund for the officers and employees of the state, and may make such reasonable inclusions, exclusions, or classifications of officers and employees of this state as it deems advisable. The Legislature may also include officers and employees of judicial districts of the state who are not compensated in whole or in part directly or indirectly by the state, and may make such other reasonable inclusions, exclusions, or classifications of officers and employees of judicial districts of this state as it deems advisable. Persons participating in a retirement system created pursuant to Section 1-a of Article V of this Constitution shall not be eligible to participate in the Fund authorized in this subsection; and persons participating in a retirement system created pursuant to Section 48-a of Article III of this Constitution shall not be eligible to participate in this subsection, except as otherwise provided herein. The amount contributed by the state to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time six per centum (6%) of the compensation paid to each such person by the state.

There is hereby created as an agency of the State of Texas the Employees Retirement System of Texas, which shall have the authority to administer the membership in which, the retirement privileges and benefits thereunder, and the management and operations of which shall be governed by the provisions herein contained and by present or hereafter enacted Acts of the Legislature not inconsistent herewith. The general administration and responsibility of the operation of said system are hereby vested in a State Board of Trustees to be known as the State Board of Trustees of the Employees Retirement System of Texas, which Board shall be constituted and shall serve as may now or hereafter be provided by the Legislature. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund and all other securities, moneys, and assets of the Employees Retirement System of Texas shall be administered by said Board and said Board shall be the trustee thereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any securities, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed, whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Employees Retirement System including land, equipment, and office building; or in such corporation bonds or other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any state of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments, no more than one per cent (1%) of the book value of the total assets of the Employees Retirement System shall be invested in the stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that not less than twenty-five per cent (25%) of any one time of the book value of investments of said Fund shall be invested in Government and Municipal Securities as enumerated above. This Amendment shall be self-enacting and shall become effective immediately upon its adoption without any enabling legislation."

(a) The Legislature shall have the authority to levy taxes to provide a State Retirement, Disability and Death Compensation Fund for the officers and employees of the state, and may make such reasonable inclusions, exclusions, or classifications of officers and employees of this state as it deems advisable. The Legislature may also include officers and employees of judicial districts of the state who are not compensated in whole or in part directly or indirectly by the state, and may make such other reasonable inclusions, exclusions, or classifications of officers and employees of judicial districts of this state as it deems advisable. Persons participating in a retirement system created pursuant to Section 1-a of Article V of this Constitution shall not be eligible to participate in the Fund authorized in this subsection; and persons participating in a retirement system created pursuant to Section 48-a of Article III of this Constitution shall not be eligible to participate in this subsection, except as otherwise provided herein. The amount contributed by the state to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time six per centum (6%) of the compensation paid to each such person by the state.

There is hereby created as an agency of the State of Texas the Employees Retirement System of Texas, which shall have the authority to administer the membership in which, the retirement privileges and benefits thereunder, and the management and operations of which shall be governed by the provisions herein contained and by present or hereafter enacted Acts of the Legislature not inconsistent herewith. The general administration and responsibility of the operation of said system are hereby vested in a State Board of Trustees to be known as the State Board of Trustees of the Employees Retirement System of Texas, which Board shall be constituted and shall serve as may now or hereafter be provided by the Legislature. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund and all other securities, moneys, and assets of the Employees Retirement System of Texas shall be administered by said Board and said Board shall be the trustee thereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any securities, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed, whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Employees Retirement System including land, equipment, and office building; or in such corporation bonds or other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any state of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments, no more than one per cent (1%) of the book value of the total assets of the Employees Retirement System shall be invested in the stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that not less than twenty-five per cent (25%) of any one time of the book value of investments of said Fund shall be invested in Government and Municipal Securities as enumerated above. This Amendment shall be self-enacting and shall become effective immediately upon its adoption without any enabling legislation."

FOOTBALL COSTLY

TV Industry Is Hurting

NEW YORK (AP) — Despite the football boom, television in the United States and Canada finds itself in the position of a team that can't gain, yet dare not kick.

"All of us are in trouble — we're hurting," one American television executive says.

Another official of a U.S. network explains: "None of us are making money on football, but none of us would dare give up our contracts. In fact, we're trying for more. It's a funny business. You blow a Saturday or a Sunday afternoon and you blow an entire audience for the weekend."

"It has never been a big commercial success," says John Malloy director of sales for the Canadian Broadcasting Corp.

And Murray Chercover, president of CTV, Canada's other network, says the production cost of football is out of proportion "in relation to the advertising efficiency."

There's no doubt about fan interest in football being at its peak. Sellout crowds are the rule rather than the exception.

So why are the television people worried. "I'm afraid football TV has reached the saturation point — it's overexposed," says an American network official.

"Sponsors don't come running anymore — you have to chase them and twist their arm."

Another says, "The three major networks NBC, CBS, ABC are committed to around \$110 million worth of football television this season. They will be lucky to sell three-fourths of it."

Waner, DiMaggio Due At Houston

HOUSTON — Hall of Famers Lloyd Waner and Joe DiMaggio, along with crowd-pleasing Pete Reiser and Harry Walker, will be among the many baseball greats who will appear in the Houston Astros' fourth annual "Oldtimers Game," in the Astrodome on Saturday, Aug. 24.

They will join Joe DiMaggio, the New York Yankees' all-time great, in the outfield for the "Oldtime Favorites" team. The "Favorites" will meet a team of "Houston Oldtimers" in the 6:00 p.m. "Oldtimers Game" Aug. 24.

The three-inning contest, matching many of baseball's biggest names, will be played as a preliminary to a 7:30 p.m. game between the Houston Astros and the Chicago Cubs.

Waner compiled a .317 lifetime batting average in 17 major league seasons, all but two of them with Pittsburgh. He finished up in 1943 with more than 2,400 hits.

Medwick, former standout of the St. Louis Cardinal "Gashouse Gang," was named to the Hall of Fame this year. He battled .324 over 17 seasons in the majors, collecting 2,471 hits and driving in 1,383 runs.

Reiser, one of baseball's finest outfielders, posted a .298 average in nine major league seasons, most of them with the old Brooklyn Dodgers. Reiser's career was shortened by a rash of injuries, but he still ranks as one of the more spectacular outfielders the game ever has produced.

Walker, the manager of the Astros, was one of baseball's better hitters, averaging .296 for 12 years. He became the first National Leaguer ever to win the batting championship while playing with two clubs (1947). Since taking over as the Houston manager in mid-June, he has had the Astros playing .500 ball.

DiMaggio, who was announced as an "Oldtime Game" participant earlier, is regarded as one of the greatest players ever to put on a uniform. His greatest single record is his unmatched 56-game hitting streak.

HOUSTON, Tex. (AP) — Quarterback Joe Namath of the New York Jets was in the Astrodome but his white football shoes failed to hex the Houston Oilers.

Namath, sidelined with a sore knee, watched the Oilers surge from behind to thrash his teammates 23-14 Monday night in an American Football League exhibition game.

Houston's Pete Beathard passed for three touchdowns before a crowd of 40,354 as the Oilers held the Jets to 161 yards total offense.

SECOND VICTORY

The victory was the second for the Oilers, who stopped the Washington Redskins of the National Football League last week. It was the first outing for the Jets.

Namath, scheduled to lead the New York club's passing attack, wore a blue blazer and manned a spotter's telephone on the sidelines as Houston gathered 407 yards total offense, 236 yards in the air.

A New York City television sports announcer reported during the game that Namath may have been using his sore left knee as an excuse for not playing.

A Jets club source said Namath was holding out for \$3,000 per exhibition game. Dick Young of WOB-TV reported.

Young said Namath reportedly was promised the money earlier by Sonny Weblin, former Jets owner.

"The way I had it, he had been promised \$3,000 by the former Jets owner," Young said. "I don't know how the promise was made."

One of the present owners of the New York team, Phil Ilesin, said he knew of no such contract obligation.

Namath said flatly, "I don't know anything about it (the reported agreement). My knee hurts."

JETS SLOWED

The Oilers, meanwhile, ran their total offense to 337 yards, compared to 11 for the Jets through the third quarter.

Beathard capped drives of 52 and 78 yards in the third period with scoring passes of 15 and 60 yards to Charlie Frazier.

Dallas Cowboys Lose Daniels

THOUSAND OAKS, Calif. (AP) — The Dallas Cowboys face a possible large hole at free safety with the news Monday that three-year veteran Dick Daniels will be out of action for four weeks with a dislocated shoulder.

Daniels was injured Sunday when the Cowboys won 16-14 over the San Francisco 49ers. He had replaced free safety Mel Renfro, out with a charley horse.

Coach Tom Landry said he hopes Renfro will be back in shape for Saturday's game against the Los Angeles Rams.

Landry said he will use first string quarterback Don Meredith Saturday and former California star Craig Morton will play the second half.

Pascual Shows He Can Project, Too

By The Associated Press

HOUSTON, Tex. (AP) — Tony Horton, on the way to his 24th triumph of the season as the first-place Tigers trimmed Cleveland 6-3 Monday night.

Pascual also flipped a five-hitter in hurling the last place Senators past Minnesota 2-0 for a modest—but respectable—11-6 mark.

McLain scattered five hits, including a pair of homers by

more shaded Oakland 3-1 in 10 innings, Boston edged Chicago 2-1 and New York topped California 5-2.

The Chicago Cubs ambushed St. Louis 7-3 and Atlanta cuffed Cincinnati 9-2 in the only games on the National League schedule.

McLain, 24-3, took another confident step toward becoming the majors' first 30-game winner since Dizzy Dean reached that peak 34 years ago. The hard-throwing right-hander, who should get at least 12 more starts in the final 1½ months of the season, reeled off his sixth straight victory and 15th in his last 16 decisions.

Horton homered with the bases empty in the fourth for the Indians' first hit and cracked a two-run homer in the ninth after the Tigers had given McLain a commanding lead.

The victory, their fourth in a row, kept them seven games up on second place Baltimore.

Norm Cash drove in two Detroit runs with his 18th homer and a sacrifice fly, Jim Northrup poked a two-run single and Mickey Stanley also delivered a pair of tallies with sacrifice flies.

Pascual recorded his second shutout of the year and helped himself with a run-scoring single as the Senators ended Minnesota's winning string at three games.

The Senators broke up a scoreless duel between ex-Twin Paul Muehle and left-hander Jim Kaat in the sixth when pinch hitter Cap Peterson stroked a bases-loaded sacrifice fly, Pascual drove in the second run in the ninth.

LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:

ELROY HIRSCH, former pro grinder and current general manager of the Los Angeles Rams:

"Pro football is no longer the lucrative business it might have once been. With the 'peace' plan negotiated with the NFL players, the Rams figure to collect only 1.5 per cent on their investment, even if we are in title contention."

JACK NICKLAUS, pro. golf's Golden Bear:

"I've never really done much scoring on the par five holes — not the way I should for as long a hitter as I am."

DOUG SANDERS, explaining his ultra-abbreviated golf swing:

"We used to sneak onto this particular course to play because we didn't have enough money for greens fees. And, man, it had tight fairways, with honeysuckle vines on one side and water on the other. I found I could hit it straighter by shortening my backswing, and that's the style I naturally adopted."

DR. ROBERT HUTCHINS, who as chancellor, booted football out of the University of Chicago a generation ago:

"Most paid athletes, black and white, should stop trying to go to college. It probably would be better for them to play professional football right after high school, or go into some other work... honest work like running a laundry route or moving lawns."

LEROY KELLY, star running back for the Cleveland Browns:

"I want a rematch with Dallas for the Eastern Conference championship. I've been thinking about the Cowboys ever since we did so poorly in Dallas last December."

LARRY ZENO, who ranks second to Gary Beban in all-time football offense at UCLA:

"Because we're similar in size (six feet) and style, I'd say that Beban would be better off in Canadian football. He'll have it tough in the NFL. Beban has the mentality to make it, but I'm not sure he's that great a passer, especially from the pocket."

Ex-basketball player DR. DENTON COOLEY, heart transplant specialist:

"The greatest opportunity a young man can have today is to play on a varsity team of a major university. It is an enormous privilege, and a man who distinguishes himself on the playing field has an entree to business and the professions. It's absurd for somebody to say he is being exploited."

PAUL BRECHLER, newly-named athletic director at the University of California, after having served eight years as commissioner of the Western Athletic Conference:

"I prefer campus life. I had a good job, and they treated me great, but the thing I miss most in a commissioner's job was having any campus relations. When I was league commissioner, the schools always acted as if they were happy to see me come onto campus — but I kind of get the impression they were glad to see me go, too... I believe in athletics, that many great things can come from athletic competition. Not all universities take advantage of this. I think athletic competition makes a better individual out of a person. It's not a substitute for other things — I certainly believe in academic standards — but rather it is a part of the total."

GEORGE ALLEN, coach of the Los Angeles Rams:

"I'm asked if the 49ers or Baltimore are the teams to beat in our division. First, the Rams are the team to beat. But, to finish on top, we'll have to beat out the Colts. You have to prove yourself every season. However, I think we have too much character on our team to let anything stop us."

District Meeting Opens At 10 A.M. Wednesday

Members of the District 3-AAA executive committee convene at the Big Spring Country Club at 10 a.m. Saturday for their annual pre-football season session.

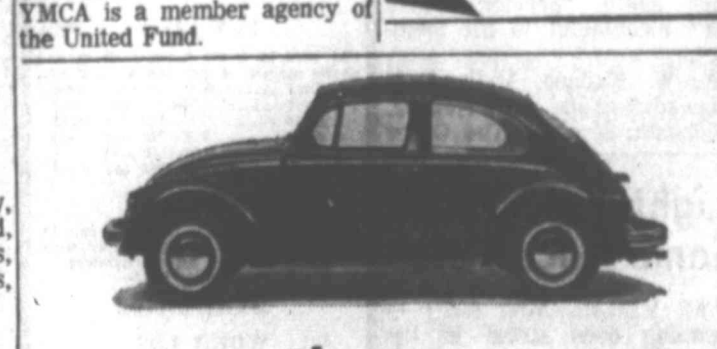

Sports writers of the five member cities will meet with the committee and gather with the coaches for a questions-and-answers session after lunch has been served to the group.

Among other formalities, Odessa Ector will be accepted as a member school. Ector has been playing in Class AAA, Harold King, former head coach at Midland High School, is head coach at Ector.

The Wednesday convale will likely be routine. Due for discussion are league office finances in regard to payment for awards, eligibility problems, baseball plans, girls' volleyball, the site for the 1969 annual spring meet plus a decision on the general director of that meet.

Presiding at the Wednesday meeting here will be Polly Wells, superintendent of schools at Abilene.

Head coaches scheduled to attend include, in addition to King, Merrill Green, Abilene, Cooper; David McWilliams, Abilene High; Dan LaGrasta, San Angelo; Bob Burris,

Cheaper in the long run.

Gas will never cost you much. (You'll get about 27 miles to the gallon.) And the amount of oil you use is like a drop in the bucket. (It only takes 2.7 quarts and almost never needs more between changes.)

And the engine is air-cooled, so you don't have to spend a red cent for anti-freeze or rust inhibitors.

And you get more than your money's worth out of a set of tires (around 40,000 miles).

But don't think buying a new Volkswagen is just another get-rich-quick scheme. You have to wait until the second set of tires wear out.

ENDS WITH ECONOMIC AGREEMENT

Czech-Ulbricht Meeting

KARLOVY VARY, Czechoslovakia (AP) — East German Communist party chief Walter Ulbricht's meeting with Czechoslovakia's liberal leaders ended Monday night with an expression of broad agreement on economic cooperation but little other indication of rapprochement.

Crowds at the west Bohemian spa of Karlovy Vary neither

boomed nor cheered East Germany's Stalinist leader but showed him an enthusiastic display of support for their Communist party chief, Alexander Dubcek, who started the nation's liberalization drive. Ulbricht was one of the leaders of the attempt within the Soviet bloc to reverse Czechoslovakia's new course, and he was booed at the Bratislava conference

which conceded victory to the Czechoslovaks.

SURPLUSES

A communique after the six-hour meeting Monday said the East German and Czechoslovak delegations "agreed on measures for the deepening of mutual economic relations and the coordination of long-term plans, the furtherment of cooperation and the specialization of produc-

tion and also scientific and technical cooperation."

The two nations are the most industrialized of the smaller Communist nations and have similar economic interests. Both have big trade surpluses with the Soviet Union and want to have some system of convertibility set up so they can use the surpluses.

U.S. Auto Makers To Fight Invasion Of Foreign Cars

By The Associated Press
U.S. automobile manufacturers are reported to be moving into an era of smaller cars.

Chairman Roy D. Chapin Jr. of the American Motors Corp. said in Washington Monday that his firm is prepared to challenge foreign car makers for the affections of America's economy-minded drivers.

FORD FIRST
The New York Times said in a story from Detroit today that the auto industry is preparing a new class of cars—smaller and cheaper than any built in this country now but still bigger than the tiny imports.

The Times said the first of these new cars is set for production by the Ford Motor Co. as a 1970 model and will go on sale in eight months. Others are in the design or tooling stage, it said.

For Detroit, the Times said these cars represent a major effort by the industry to combat an invasion of foreign products built by low-paid German and Japanese workers.

PLAY CATCH UP
Other car makers are working

to catch up with Ford, the story said, adding in part: The General Motors Corp. is working on a car closer in size to the tiny European imports. The Chrysler Corp. is not now planning to build a smaller, cheaper car.

In Washington, Chapin told newsmen at a dinner meeting and preview of his firm's new models Monday that American Motors is developing a new car. "Not necessarily conventional in terms of today's accepted automotive configurations."

Chapin declined to expand the statement, but he had said earlier: "I believe that the 900,000 foreign car sales this year will be a high-water mark, and one of the reasons is that we at American Motors are turning more of our efforts toward the growing segment of the U.S. market to which the imports appeal."

Apollo Spaceship Ground Testing Scheduled Today

CAPE KENNEDY, Fla. (AP) — Ground testing begins today on the Apollo spaceship that will fly aboard the first manned Saturn 5 super rocket in January.

The cone-shaped moonship arrived at Cape Kennedy Monday after a cross-country airplane trip from the plant of its prime contractor, North American Rockwell Corp. at Downey, Calif.

Scheduled to ride the space-

ship on an earth-orbital mission in January are Air Force Lt. Col. James A. McDivitt and David R. Scott and Russell L. Schweickart, a civilian astronaut. Their flight, named Apollo 8, will be the first manned mission aboard a 363-foot-tall Saturn 5 rocket, the type of booster which is to hurl three astronauts to the moon late next year.

In late October or early November of this year, three other astronauts—Navy Capt. Walter M. Schirra Jr., Air Force Maj. Donn F. Eisele and Walter Cunningham, a civilian—are scheduled to make America's first three-man space flight. They will be launched by a Saturn 1 rocket, however, forerunner of the larger Saturn 5 man-to-the-moon booster.

The Apollo 8 flight plan includes a space walk by Schweickart outside the Apollo capsule and the first manned test of a lunar module, the spacecraft that will ferry two astronauts from an Apollo command ship in lunar orbit to the moon's surface.

Hughes Wants Airline Firm

LAS VEGAS (AP) — An aide says Howard Hughes offered a \$90-million deal to buy Air West Inc. because he was dissatisfied with the airline's service to Las Vegas.

Hughes, who was rebuffed by stockholders recently in an attempt to gain control of the American Broadcasting Co., agreed Monday to pay \$22 a share for Air West.

Although board chairman Nick Bez said in Seattle, Wash., he and other major stockholders will try to push the deal through, other top executives expressed doubt.

"We don't consider it in the best interests of the stockholders," said G. Robert Henry, company president, at San Francisco.

Henry said he doesn't think the Civil Aeronautics Board would approve such a transaction.

Air West closed Monday on the American Stock Exchange at 19 1/4. There are 3.7-million shares outstanding.

Bill To Curb Cotton Vetoed

WASHINGTON (AP) — President Johnson has vetoed Congress' bill to curb imports of extra long staple cotton, calling it a "protectionist measure" that would tie his hands in conducting foreign affairs.

Johnson, announcing the veto Monday, said the bill would have deprived him of flexibility in diplomatic and trade relations. He said it would have hurt the textile industry and consumers—and in the long run, U.S. cotton farmers.

"The bill is as unnecessary as it is unwise," Johnson said. "There are far better means to help domestic producers of extra long staple cotton."

Transfer Sought

WASHINGTON (AP) — The Federal Communications Commission announced Monday receipt of this application:

Double Trouble For Texas Demos

DALLAS (AP) — Paul Eggers literally doubled up Monday on his campaigning as the Republican nominee for governor of Texas.

It was easy. All he had to do was introduce his identical twin brother, Arthur Eggers of Walla Walla, Wash., at a news conference.

Candidate Eggers, 49, from Wichita Falls, and his brother, 20 minutes older, confessed they've been standing in for one another for years. They promised to stir up double trouble for Lt. Gov. Preston Smith, the Democrat also bidding to succeed retiring Gov. John Connally.

Arthur Eggers told reporters he and Paul used to take turns reciting for a nearsighted teacher. One day Arthur would stand, recite and slip around to the other side and do it over for Paul. Next day Paul would follow suit.

They described this and similar practices, such as substituting on dates before the two married, as a "share-the-wealth program."

Both are lawyers, both are Republicans and Arthur twice has made successful races for prosecuting attorney in Walla Walla County.

Someone asked if they might campaign simultaneously in opposite halves of Texas against Paul's Democratic rival, each representing himself as the GOP candidate.

"We wouldn't do that to him," said Paul.

Opening lead: King of ♠
Altho South encountered strenuous opposition from East and West during the auction, he finally managed to buy the contract for five diamonds, which was doubted by East.

West opened the king of hearts and South ruffed with the four of diamonds. Declarer could count 10 tricks on power alone; eight diamonds, one club, and one spade. There was a good prospect for scoring an 11th if he could reach the dummy twice to lead spades toward the king and queen in his hand, inasmuch as East was pretty well marked with the ace of that suit from the bidding.

The ace of clubs was the only visible entry to the

North hand, however, so South decided to find out how much pressure he could apply against his opponent by running the diamond suit. He quickly rattled off six rounds of diamonds, producing this six card position with East not yet having followed to the last trick:

NORTH
♠ 8 6

♦ A J 8
♣ A J 8

EAST
♠ A J 7
♥ A
♦ K Q 6
♣ K Q 6

SOUTH

♦ 9 2

East discarded the ace of hearts, and South now led his last diamond. North gave up the nine of hearts and East found himself hard pressed. He was reluctant to part with the six of clubs, for this would enable declarer to win two tricks in that suit by allowing East to win the first club and then putting up the ace on the next round to drop the king—and thereby establish dummy's jack.

East discarded the seven of spades, but this play only postponed the fatal moment. South now led a club and put in dummy's eight which East topped with the queen. If the latter returned a club it would give North two tricks. East, therefore, cashed the ace of spades and returned the jack. South's king and queen were thereby established for the fulfilling tricks.
