## UNITED FUND Fair Share Campaign Kicks Off

The 1968 United Fund Drive for Big Spring and Howard County officially kicked off with 40 persons attending a breakfast this morning at the Settles Hotel.

Headlining the event were talks by Harold Davis, United Fund president, and Clyde McMahon Jr., drive chairman. It was reported that just over 30 percent of the \$109,225 goal had been reached by Friday before the drive had officially started.

Davis urged all United Fund workers to make contacts as quickly as possible and return their worked cards to the United Fund office in the Permian Building. Persons who have not received their work cards may pick them up at the United Fund office.

McMahon reminded workers that the deadline to complete the drive has been set for Nov. 8, when all the gifts should be in.

The women's division of the United Fund campaign will get under way at 2 p.m. Tuesday, with a coffee at the home of Mrs. Ralph Caton, 619 Colgate, who is women's division co-chairman with Mrs. Bob Galbraith.

Southwestern Bell Telephone Co. employees started the drive within the company today with a noon luncheon. Don Womack, employe division chairman, presented a film and gave a talk. Womack is in charge of collections for the largest division in the drive, which had a goal of \$34,270.92 last year.

There are nine divisions enlisted in the 1968 drive to help 15 agencies. Other division chairmen are Raymond Tollett, out-of-town; Jimmy Taylor, big gifts; Charles Bell, special gifts; Lanny Hamby, metropolitan; Col. William McGlothlin, Maj. C. T. Pajot and Lt. Donald Paladino, Webb AFB; Ervin Fisher, federal and state agencies; and Alton Marwitz, area gifts.

Agencies participating in the United Fund this year and their budget allocations are the YMCA, \$16,500; Lakeview YMCA, \$6,000; Girl Scouts, \$7,200; Salvation Army, \$17,000; Westside Youth Center, \$1,800; Summer Recreation Program, \$1,175; Dora Roberts Rehabilitation Center, \$10,500; Boy Scouts, \$13,600; Texas United Fund, \$300; Milk and Medicine Fund, \$2,400; American Red Cross, \$15,000; Texas Rehabilitation Center at Gonzales, \$1,000; Air Force Aid Society, \$2,750; Half Way House, \$300; and the USO, \$1,200.

## Bar Stands Firm

CHICAGO (AP) — The chairman of an American Bar Association committee is standing firm on endorsement of Abe Fortas for Chief Justice of the United States.

Albert Jenner of Chicago, head of the ABA Committee on Federal Judgeships, said, Sunday, he knows of "nothing relevant that has come forth" that would warrant a change in the recommendation.

"The committee passes only on the question of the professional qualifications of a prospective nominee to the court," Jenner told a newsman.

William Gossett, president of the ABA, said Friday the committee did not have all the facts when it endorsed Fortas. But, he added, it was up to Jenner to decide whether the committee should take another look at the endorsement. Jenner criticized the Senate for considering decisions Fortas has made while serving on the court as a basis for his suitability.

"We would not presume," Jenner said, "to inject ourselves into the areas of consideration that have been on the U.S. Senate floor—for example, the inquiring into decisions of the court — and I respectfully submit that the Senate should not either."

## Center Damaged

EUGENE, Ore. (AP) — Arsonists who tried to destroy the Naval and Marine Corps training center in Eugene caused \$106,000 damage Sunday.

No one was hurt, but at least three explosions about 1 a.m. wrecked a 12-ton crane with a 35-foot boom, two large bulldozers, four dump trucks and a truck used to carry personnel.

Two unignited gasoline bombs were found in the main building. Investigators said the arsonists hooked powder fuses to plastic sandwich bags filled with gasoline. These devices were placed near diesel fuel and gasoline that was spread in a hallway of one wing of the main building.

The investigators found the same type of bombs attached to a one-story storage garage behind the main building.

## In Today's HERALD Slams Extremists

Vice President Hubert H. Humphrey pictures the nation as facing potential destruction from extremists of the right and left. See Page 1-B.

## MILD

Partly cloudy and continued mild this afternoon, tonight and Tuesday with little chance of rain. High today low 80's; low tonight near 60; high Tuesday mid 80's.

## Explosion Rips CIA Quarters

ANN ARBOR, Mich. (AP) — Federal and local investigators today probed an explosion at a downtown Ann Arbor office building that is generally believed to house the eastern Michigan recruiting office of the Central Intelligence Agency.

### INVESTIGATORS

"We're going out to the airport this morning to pick up two CIA investigators from Washington," said a highly placed source in the Ann Arbor police department.

The explosion Sunday night shattered the glass front on both floors of the two-story stone and frame building and flew a three-inch deep hole in the concrete sidewalk in front.

The Ann Arbor street directory lists the tenants in the building as the U.S. Department of Defense, the State Farm Insurance Co., Phillips Electrical Instrument Co., and the Pitney Bowles Postage Meter Co.

### NO INJURIES

No injuries were reported. Police said they had no leads on possible suspects.

William Trembl, police reporter for the Ann Arbor News, said agents from the Ann Arbor office of the FBI appeared on the scene Sunday night.

The area was cordoned off at dawn today.

## Mild Weather

By The Associated Press

Texas will continue to enjoy the mild temperatures and generally clear skies that hover the state because of a ridge of high pressure.

The balmy autumn weather will be the rule with warm afternoons and mild to cool nights, at least through Tuesday.

Texas experienced a mild, pleasant day Sunday with daytime temperatures ranging from 96 at Presidio to 74 at Dalhart.

# Vietnam Postwar Plans Proposed

SAIGON (AP)—Foreign Minister Tran Chanh Thanh proposed today that North and South Vietnam engage in cultural and economic exchanges to unite the two nations after peace is restored.

### WITHDRAWAL

But he said that peace is contingent on the withdrawal by North Vietnam of all its regular troops as well as its "auxiliary forces" from the South.

Thanh spoke with newsmen after releasing South Vietnam's ninth annual white paper on the Vietnam war. Entitled "The War in Vietnam, Liberation or Aggression?", the 52-page document presents evidence of what it says are North Vietnam's overt and covert operations to overthrow the Saigon government and install a Communist regime.

A white paper is a government document considered to have greater than usual importance.

Thanh said the white paper also shows that his government "is ready to meet North Vietnam with a view to discussing the cessation of hostilities, the respect for the demarcation line along the 17th parallel, peaceful coexistence and cultural as well as economic exchanges between the two zones once peace is restored."

"It is up to the North and the South, together, in meetings, to settle these points," Thanh said, "including where, when and how to organize general elections in North and South Vietnam to work out unification."

Thanh reiterated that "any settlement between North and

South Vietnam and any outside party, without South Vietnam's explicit agreement is nullified."

Thanh said the United States must continue the bombing of North Vietnam "until North Vietnam stops all its aggressive activities," which he said included the use of regular troops and acts of terrorism and sabotage by guerrilla forces.

"Then and only then will the allies agree to halt the defensive bombing of North Vietnamese territory by air," Thanh said.

Thanh said South Vietnam would be the beneficiary of exchanges with the North, because people in the North are forbidden to learn about the South.

"The day we are able to bring them the truth, we will be the winners," Thanh said.

Thanh said the 1954 Geneva agreements ending the French-Indochina war are a good basis for a new peace agreement in Vietnam, but noted that most countries interpret differently the provisions that divided Vietnam at the 17th Parallel.

Although Thanh supported general elections, he said the one-man, one-vote concept would not apply in South Vietnam to members of the Viet Cong's National Liberation Front.

### NOT LEGAL

"The NLF is not a legal political party," he said. "Any citizen who wants to enjoy the right of voting should first show his good will by accepting the constitution and laws of the country." The constitution prohibits the participation of Communists in elections.

TRAN CHANH THANH

# LBJ Urges Help For Have - Nots

WASHINGTON (AP) — President Johnson urged the world's developed nations today to resist the temptation to cut back their assistance to the have-nots of the globe.

"This would be a tragic end to two decades of commitment, of

trial and error and, I think, magnificent achievement," the President said.

Johnson was a surprise speaker at the opening session of the combined annual meetings of the International Monetary Fund and the World Bank.

### MAJORITY

The meetings have assembled finance ministers from the majority of the non-Communist nations.

"We simply cannot turn our backs on the majority of our fellow human beings," Johnson said.

By sensible cooperation, the President said, it will be possible to increase world income five per cent per year over the next five years. The alternative, he said, is to allow uncontrolled forces to determine the progress with the likely result that growth would sink to three per cent.

"Let us not fail to be wise," Johnson said.

The President's remarks, while addressed directly to finance ministers and central bank heads from scores of other nations, seemed indirectly aimed at Congress, which this year is cutting foreign aid funds to the lowest point since World War II.

"The more we move together," he said, "the more each of us will be able to advance the economy of our own people."

Johnson addressed the joint gathering before a speech by the bank's president, Robert S. McNamara.

### PLAN

McNamara proposed a five-year plan of increased lending in Africa, Latin America and Asia. He said the bank's loans should double during the plan.

McNamara said the new plan would include a broadening of the bank's past emphasis on South Asia—India and Pakistan — to the other underdeveloped areas of the world.

## At Finance Ministers Meet

President Johnson, left, a surprise speaker at opening session of the combined annual meetings of the International Monetary Fund and World Bank, talks with Pierre-Paul Schweitzer, chairman of the executive board and managing director of the IMF, today at the meeting.

# Supporters Give Fortas' Confirmation Little Chance

WASHINGTON (AP) — Abe Fortas' bruised and battered nomination to be chief justice is being given little chance for Senate confirmation, even by some supporters.

Sen. Joseph Tydings said Sunday an attempt to kill a filibuster against Fortas' appointment will fail when it comes up Tuesday.

### WILL SUCCEED

"The filibuster will succeed" in keeping the Senate from voting on the nomination itself, the Maryland Democrat said.

Tydings' assessment came in a weekend of many gloomy developments for Fortas' supporters whose hopes were brightened by only a couple of items.

Albert Jenner, a Chicago attorney who heads the American Bar Association's committee that endorsed Fortas, said Sunday that "nothing relevant has come forth" requiring reconsideration of the endorsement.

He was responding to ABA President William Gossett's earlier statement that the committee acted without knowing all the facts, particularly some brought out in Senate Judiciary Committee hearings.

And a new organization, the Lawyers' Committee on Supreme Court Nominations, urged the Senate Sunday to stop a filibuster and let the matter go to the floor for a vote on the merits of the appointment.

"Nothing would more poorly

serve our constitutional system than for the nominations to have earned the approval of the Senate majority, but to be thwarted

because the majority is denied a chance to vote," the 162-man committee's statement said.

The only effect the statements

## Billie Sol Asks Shorter Sentence

ABILENE (AP) — Billie Sol Estes, convicted of mail fraud in a Texas case that attracted nationwide attention, has asked for a reduction in the 15-year federal prison sentence he is now serving.

His wife, Patsy, in Abilene where she is now living, revealed Estes' petition for a shorter sentence. The Justice Department in Washington said the application was one of 1,100 filed with the department's pardon attorney, a spokesman said.

### RECEIVED

"We can only say the document has been received here," a Justice Department official said.

Mrs. Estes said in an interview, "I feel he served as long as he should serve. Billie Sol owed a debt to society, of course, but I believe it has been fully repaid."

"Everyone," continued the attractive mother, "should be satisfied. They've taken four years of his life—and of our life as a family."

"We still have two children," she reflected coolly, "but we've already lost two to adulthood."

As Estes' appeal winds through complex channels to the White House (investigation by the pardon attorney, review by the attorney general, submission to the President) he and his family play charades in different worlds, linked only by mail.

They are torn asunder. Estes whines away the years at a minimum security prison near Sandstone, Minn. His wife, three daughters and a son reside at 70 Castle Road in Abilene, and another daughter is studying dental hygiene at the University of Texas medical branch in Houston.

## TRAFFIC ACCOUNTS FOR 22, GUNS FOR FIVE

# Weekend Violence Claims 33 Texans

By The Associated Press  
Violence over the weekend in Texas killed 33 persons. Motor vehicle crashes accounted for 22 of the deaths, and shootings took five more lives.

Two persons were strangled, three died in plane crashes and an infant was asphyxiated in her crib.

A single traffic mishap Sunday cost the lives of seven persons, including three children. The accident occurred two miles south of Rockdale on US 77.

James Mack Wood, 19, of Houston was killed early Sunday on US 59 in Harris County when the car in which he was riding left the road and crashed.

Three persons were killed and two injured in a head-on auto collision late Saturday night on US 84 about 13 miles west of Mexia. Justice of the Peace Sam Bonner identified the dead as Mrs. Willie Lee Collins Walker and R.L. Busby, both of Mart, and Larine Chambers of Mexia. One of the injured was

reported in critical condition.

Mrs. Gladys Simmons Wicks, 57, of Fort Worth was shot to death Saturday and her son suffered fatal wounds in the shooting. The son, Wendell Simmons Jr., 25, died Sunday. Both were Fort Worth teachers. Police arrested a 74-year-old man.

Killed in the crash at Rockdale were Jefferson Davis, 60, Rosie Hemphill, 35, Annette Dealey, 12, Sherana Matthews, 6, all of Eagle Lake; William Jackson Jr., 35, of Ledbetter and Harry James Green, 45, of Dal-

las. Davis' wife, Mrs. Lavella Mae Davis, died a few hours later in a Temple hospital.

Still in a critical condition at Temple was tiny Sharon Davis, the dead couple's year-old granddaughter, also of Eagle Lake. Another victim, Larry Joe Mitchell, 27, of Fort Worth, was treated and released from a Rockdale hospital.

A one-car accident 12 miles south of Austin on Farm Road 186 killed two St. Edward's University students shortly after

midnight Saturday. They were Mary Paulissen, 17, and Mary Allen Clark, 18, both of Austin, killed when an automobile overturned.

Lt. (j.g.) William B. Harrington, 23, of South Orange, N.J., was killed Saturday when his F9 Cougar jet crashed 22 miles southwest of Freer in South Texas. He was stationed at Kingsville Naval Air Station.

Raymond Lee, 31, of Ingleside was killed Saturday when the horse he was riding was hit by

a truck on Farm Road 1069 near Ingleside in South Texas.

Mrs. Shirlee Bachman, 32, was dead on arrival Saturday night at a Wichita Falls hospital after being struck by a truck while horseback riding on Texas 79.

Two Tyler men, Jimmy C. Wilkinson, 41, and Ernest Crejo, 25, were killed Sunday night when their light plane crashed in a creek bottom seven miles southeast of Gilmer. The pair was flying from Dallas where they witnessed a naval air show.

### National Academy Artist Will Exhibit In Lubbock

Frank Gervasi, a member and former official of the National Academy, opens a new exhibit next Sunday afternoon, Oct. 6, at the Baker Collector Gallery, 13th and Avenue L in Lubbock. Both Mr. and Mrs. Gervasi will be in the gallery for the opening day to greet Lubbock and West Texas friends. The new paintings by this highly respected artist are a combination of nostalgia for his home land Italy, and a new look at his adopted West Texas.

This summer the Gervasis traveled to Italy to revisit the land that has inspired him with its color and clear skies and sunny Latin warmth. The small town of Marfa in far West Texas was no chance selection in 1960, for the new home of the Gervasis after residing in New York City some 30 years, for here again are the sunny skies and a land similar in many ways to Southern Italy and Spain.

Gervasi could not resist the opportunity to paint his home land, and thus, a planned vacation became more of a working tour.

Working in the precise technique required in watercolor, Gervasi has taken a number of recognized Italian sites and

transformed them into his own personal memory paintings of these loved landmarks.

By interesting contrast, Gervasi's paintings of West Texas and New Mexico have substituted the structural mountains and rock formations if compared with the paintings of Italy, and they tell us much about Gervasi, the man and the artist.

Gervasi is a long-time member of the National Academy of Design, Allied Artists of America, American Watercolor Society, Audubon Artists, Salmagunda Club, and Art Students League of New York. His paintings have won two medals of honor and numerous first prize awards in major national exhibitions.

The opening day preview is 1:30 to 5 p.m., Sunday. The paintings will be on exhibit during regular gallery hours from 9 a.m. to 5 p.m. weekdays, and 9 a.m. to 12 noon on Saturdays, through Oct. 24.

### Honored At Pink, Blue Gift Party

Mrs. Jerry Graves was honored with a pink and blue shower Thursday evening in the education building of the Vincent Baptist Church.

Cohostesses were Mrs. LaRoy Shafer, Mrs. Bill Winters, Mrs. Tommy Wyrick, Mrs. Terrel Shafer, Mrs. Elmo Dunn, Mrs. Hap Wilson, Mrs. Jack Dunn, Mrs. J. V. Bristow and Mrs. Jim Hodnett.

The honoree was presented a corsage of pink and blue carnations.

The refreshment table was laid with a lace cloth and centered with an arrangement of pink and white roses in a milk glass container.

Mrs. Hodnett presided at the guest register, and Mrs. Wyrick and Mrs. Winters attended the refreshment table.

Approximately 30 attended from Big Spring, Luther and Vincent.

**Engaged**  
Mr. and Mrs. L. D. Coppedge, 1906 Morrison, are announcing the engagement and approaching marriage of their daughter, Kay, to Sgt. James Ronald Goodwin of Webb Air Force Base. The prospective bridegroom is the son of Mr. and Mrs. James E. Goodwin of Port Byron, Ill. The couple will be married Nov. 16 in the First United Methodist Church with the Rev. Leo K. Gee officiating.

### Forsan Families Welcome Guests

FORSAN (SC) — Guests in the S. C. Cowley home have been Mr. and Mrs. Mac Chestney of Pecos.

The G. L. Monroneys and the Bob Cowleys had as recent guests Mr. and Mrs. Wayne Monroneys and daughters.

Mr. and Mrs. B. R. Wilson visited in Hobbs, N.M., last week with the Dennis Hughes family.

Mr. and Mrs. Larry Miller and daughter of Weatherford, Okla., are visiting here this weekend with her parents, Mr. and Mrs. E. M. Strickland, and in Big Spring with his parents, the Roger Millers.

Mrs. Mary Archer has been in Stanton for several days with Mr. and Mrs. A. O. Jones. Recent guests of Mrs. Archer were Mrs. and Mrs. L. D. Parker of O'Donnell.

Visiting here with the L. P. Kubeckas were Mrs. M. B. Cox and Mrs. Phil Nepper of Sweetwater.

Mrs. Gordon Hodnett has been dismissed as a surgical patient at Cowper Clinic and Hospital.

### 4-H Members Give Talk On Recreation

Martha Couch and Annette Couch presented the program on recreation at Monday's meeting of the Gay Hill 4-H Club. New officers assuming their duties were Brenda Jackson, president; Martha Couch, vice president; Debra Buchanan, secretary; Sherry Jackson, treasurer; and Billy Jackson, reporter.

## HINTS FROM HELOISE Want To Build A 'Castle'?

Dear Folks: We've had so many requests to repeat the instructions on how to BUILD A CASTLE, and with the kiddies now needing projects for school... here it is:

How would you like to have an inexpensive and fascinating hobby?

People used to call this a "cool garden," but we found that chunks of broken brick (about the size of a large egg), porous rocks (not slick ones), and pieces of synthetic foam rubber or cellulose sponge were even better. Sponges are great because it can be cut in any shape you desire. We made one the shape of a little Christmas tree with branches and all.

Place in a shallow glass bowl (do not use metal of any kind), and arrange the damp pieces to fit your fancy, placing some on top of one another. Don't throw away any little pieces or granules, just dump them on top and wonder what's coming! Just you wait and see!

Into a glass fruit jar, put four tablespoons of water, four tablespoons of laundry bluing (old-fashioned liquid type) and four tablespoons of ammonia. Pour this over the wet rocks, being sure to dampen all of them with this mixture.

Put a few drops of food coloring (just one color, or several) and a few drops of bluing on one or two of the rocks.

Now take four tablespoons of salt and sprinkle this evenly all over the broken chunks of brick, rocks or sponge. If you have an old plastic flower, it is darling if stuck into the arrangement.

This will look like a little oriental garden. Within a few hours, snowflakes begin to form. If you sit and watch closely, you can actually see them grow! In less than six hours, it starts building beautifully. The second day they grow even faster. Soon it will look like Mt. Fuji in technicolor!

I have a beautiful oriental garden growing in a big platter on my dining room table. I used more rocks and doubled the recipe. I completely covered one rock with pure, undiluted bluing before adding the salt, and it's a knockout.

After two days, add two more tablespoons of water and two tablespoons of ammonia. Be very careful not to pour it over the pretty crystallites. Pour it in the edge of the bowl. This will make it start growing again, and when it gets to the exact size you want, stop adding the extra fluid. It will stop growing completely when the ammonia water solution evaporates.

If at any time, you move the bowl and accidentally knock down your castle, don't fret... just go ahead and mess it all up. LEAVE the powder in the bowl and add some more of the original mixture to it. It's even prettier.

If your garden starts growing too fast and grows over the side of the bowl, get a piece of damp facial tissue and wipe it off.

CAUTION: Don't let any of the crystals grow beyond the bowl as it might damage furniture. It will damage marble. Don't use metal of any kind for your garden. It might ruin a beautiful bowl.

This will not grow without the old-fashioned, liquid bluing. Nothing will substitute for it. They are so breathtakingly beautiful that you will never believe it.

So... go make one. What more fun can you have for five cents? And that's just about what it will cost!

Love  
HeLoise

Dear HeLoise: Because I'm a coupon saver, I finally devised a way to put them in some order, so a certain one could be found quickly when needed on shopping day.

I purchased a 3 x 5 file with dividers and separated the coupons into various categories... cereals, hand soaps, dish and laundry detergents, cleaning products, puddings and gelatin, toothpaste, sauces and gravies, etc.

Now I don't have to hunt for the coupon I need when I know I'm going to purchase soap — or what have you.

As you know, the mailman delivers envelopes containing free coupons, various magazines have some, and the newspaper has several too. Those I cannot use, I "swap" or give to neighbors.

Mrs. Paul Simandl

### Midlanders Will Talk At Garden Club Wednesday

A change of meeting place has been announced by Mrs. James B. Frazier for the Big Spring Garden Club. The group will meet Wednesday at 9:30 a.m. in the home of Mrs. J. Gordon Bristow, 554 Hillside to hear two guest speakers from Midland, both of whom are national flower show judges.

The speakers will be Mrs. Elna Cowden who will speak on roses, and Mrs. Paula Grubb who will discuss chrysanthemums.

### Dental Assistants Study Mechanics

The Permian Basin Dental Assistant's Society met Thursday at the Rogers Ford Company in Midland for a "petticoat mechanics" course.

Jack Herring presented the program and told the women how to change a tire and how to start a car without a key.

Members presented Lydia Acosta of Lamesa with a \$100 scholarship fund.

Those attending from Big Spring were Mrs. Herschel Fowler, Mrs. Chuck Prutti, Mrs. Marvin Callahan, Mrs. Ralph Wilson, Mrs. Gayle Miller and Mrs. Larry Osborn.

The next meeting will be in Big Spring, Oct. 21, in the home of Mrs. Ralph Wilson, 1219 E. 16th.

### Flower Show Set In Highland Mall

The Oct. 26 council-sponsored flower show was the main topic of discussion when the Big Spring Council of Garden Clubs met Wednesday in the home of Mrs. Paul Guy, 1305 Tucson, with Mrs. Frank Wilson presiding. The show, with "HemisFair '68," as its theme, will be held in the Highland Center mall with the public invited to attend at no charge.

It was announced that the Southern Zone meeting will be held at 9:30 a.m., Nov. 21, in Monahans, and Mrs. Wilson urged each club to have a representative in attendance.

The next council meeting will be Nov. 26 in the home of Mrs. Tom Ivey in Silver Heels.

### Actresses Added To Dallas Fair Museum

DALLAS — Ten famous actresses from the Southwest are on stage in lifelike wax figures at the Southwestern Historical Wax Museum in Dallas' Fair Park for the 1968 State Fair of Texas, Oct. 5-20.

The stars in wax are Carol Burnett, Debbie Reynolds, Ginger Rogers, Dorothy Malone, Dolores Del Rio, Joan Crawford, Greer Garson, Mary Martin, and the late Linda Darnell and Ann Sheridan.

Six of these talented women were born in Texas: Miss Burnett and Miss Crawford in San Antonio, Miss Reynolds in El Paso, Miss Martin in Weatherford, Miss Darnell in Dallas and Miss Sheridan in Denton. Although born in Independence, Mo., Miss Rogers was living in Fort Worth when she won a Charleston contest in Dallas to begin her stage career. Miss Malone is a native of Chicago, but grew up in Dallas. Miss Garson has maintained homes in Dallas and New Mexico, as well as California, since she married a Dallasite, Miss Del Rio was born in 1963.

### A LOVELIER YOU Flirty Hats Range From Big To Small

In shape, new hats reflect the influence of the flirty thirties. That era of beguiling femininity! One of the most popular silhouettes of the thirties was known as a half-hat or profile cap and it is having a big revival. The shape conforms to the head, covering half of it and a large part of the cheek. A flower or feather cluster adorns the cheek section. How's that for coquetry!

Berets generate renewed interest, too, in important proportions and a precipitous side tilt. Fedoras are shown in a variety of brims from snap to flaring. Snuggled to the head, cloches come on strong when worn over a flirtatious eye.

Provocative is the word for fabrics. Buttery leathers, classic tweeds and textured felts are ideal for day wear. Velvets and satins bring a gleam to the late day. Furs are more than ever handsome, applied lavishly to lavish shapes.

The colorscope favors soft neutrals — grays, the brown family, creamy white and camelbeige. There are flashes of Carmoon red and there's siren black — black — black.

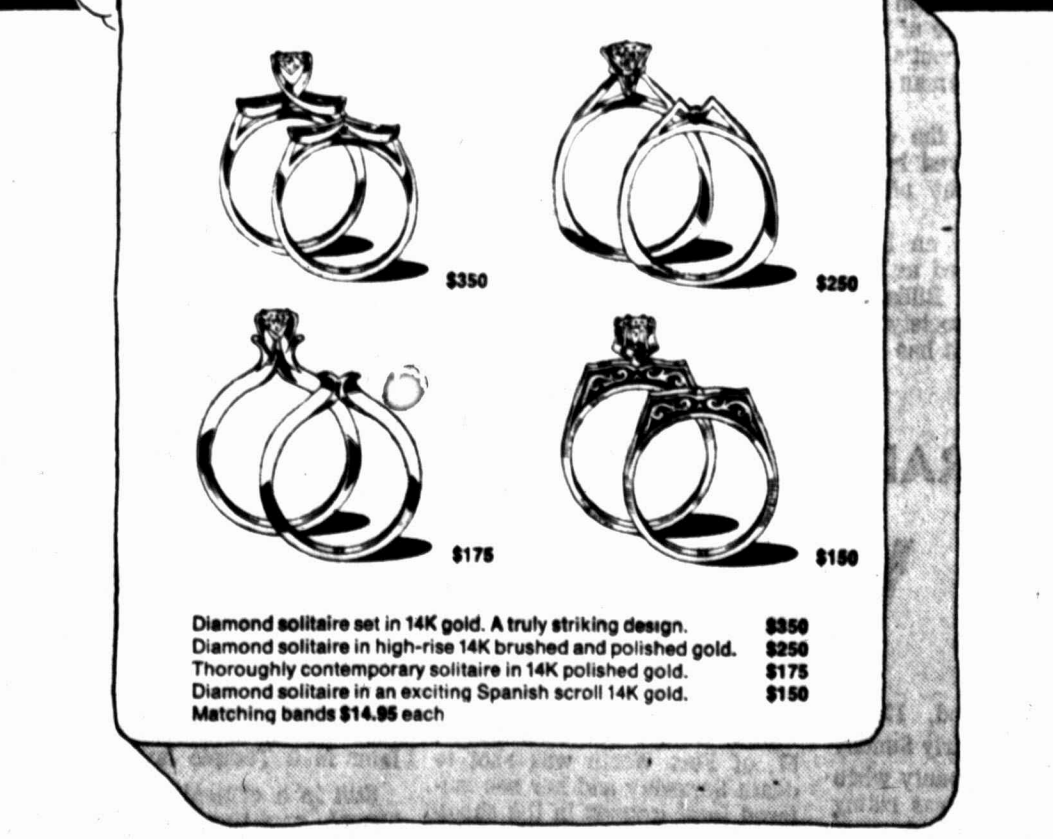

In short, hats have a way about them. The way of a woman with a way! To make the most of it, choose shapes with lines that run contrary to those in your face you could do without. Make sure the proportions of a hat are in balance with your own. In teaming a hat and a costume, work for subtlety. Wear a creamy leather beret, for instance, with a gray flannel suit or a brown velvet cloche with a black wool dress.

**A LOVELIER COMPLEXION**  
Whatever your skin problems, to find a solution send for my booklet, "A Lovelier Complexion." Detailed advice contained includes the correct care for dry, oily, combination and normal skin types; proper application methods; treatments for blackheads, enlarged pores, circles, wrinkles, crepsiness, etc. For your copy write Mary Sue Miller in care of The Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 25 cents in coin.

**Couple Honored At Surprise Party**  
Mr. and Mrs. Homer Thorp were honored with a surprise party Friday evening by friends and relatives. Refreshments were served. Out-of-town guests attending were Mr. and Mrs. Claude Tredaway and Teresa, Mrs. H. L. Cates, Mrs. Bill Johnson and Pamela and Mr. and Mrs. John Phillips and Johnny Ray, all of Midland.

# Million Children Return To Classes

NEW YORK (AP) — Most of New York City's 1.1 million public school children returned to classes today after a three-week teacher strike and many of them were happy about it.

But in the Ocean Hill-Brownsville section of Brooklyn, center of the community control controversy which touched off the strike, some students who had gone to their schools walked out as controversial teachers came in under police escort.

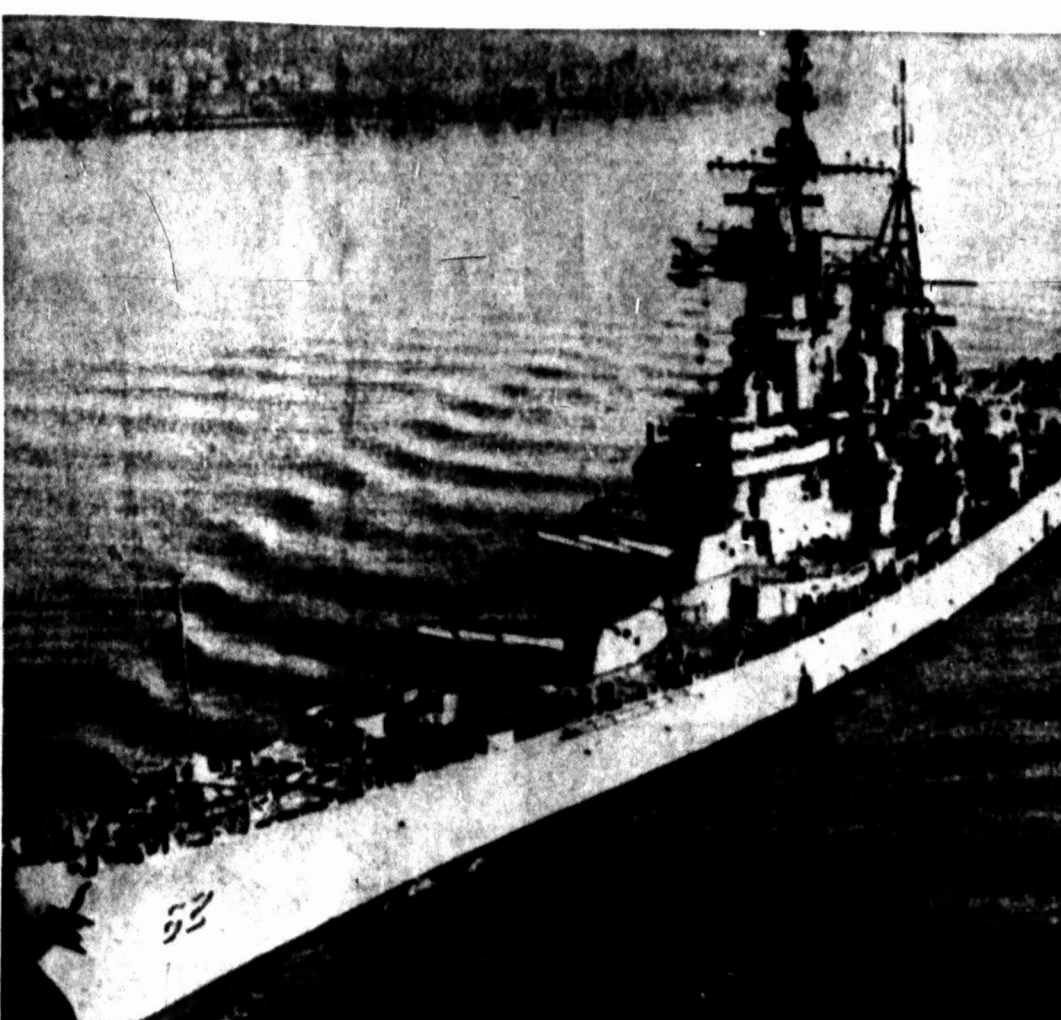

The Brooklyn district's schools had operated during the strike with teachers hired by the district governing board.

**BARRICADES**  
A number of Negro teachers walked out with students today as the hour for classes approached. Later some students said they had been asked by teachers to walk out.

Police had set up barricades a good distance from schools to keep all but students and teachers from approaching the buildings.

**POLICEMAN**  
Lindsay said the written agreement "should allow our city schools to open" today.

The plan calls for sending 110 teachers, opposed by the governing board of Brooklyn's Ocean Hill-Brownsville schools, back to their classes in the predominantly Negro and Puerto Rican district. It also provides for observers named by the Board of Education and the predominantly white UFT to be stationed in the district's eight schools to see that the teachers are not molested or threatened. Uniformed and plainclothes policemen also were to be on hand.

Enters Vietnam War

The battleship New Jersey, shown last March heading out from Philadelphia for sea trials in the Atlantic, entered the Vietnam conflict today by bombarding North Vietnamese positions in the northern half of the demilitarized zone. The first American battleship to see action since the Korean War, the New Jersey fired her 16-inch guns from her battle station in the Tonkin Gulf.

# \$50 Million Question Mark

SAIGON (AP) — The battle-planes. The argument was particularly telling because the jets action off the Vietnamese coast were then going down at the today — a \$50 million question mark.

The battleship and another \$20 million vessel which was budgeted for her last previous bombardment. Fuel, spare parts and ment off the coast of Korea 15 the cost of the 1,400-man crew years ago has become some \$50 million experiment.

Even then, however, the Navy year ago to put her back in didn't win all it wanted. The original plan had called for two battleships. That would permit a stiff upper lip and hopes the one ship to be on the gunline at battleship's nine 16-inch guns all times. The second ship would will prove more than useful in be back at Subic Bay in the Vietnam. Privately, however, Philippines, replacing the bar many officers feel the ship is a rels of her guns which wear out victim of de-escalation and find after about 300 firings if maximum enough targets to justify her presence won't be easy.

The naval command won an argument in August, 1967, within the confines of the Pentagon to bring the ship — which flew Adm. William F. "Bull" Halsey's pennant in World War II — out of mothballs.

Elaborate charts and reports were drawn up to show that a battleship—with guns able to reach 23 miles—could blast a majority of the targets in North Vietnam being hit then by war-

## RAY HEARING

# Fight Continues Over Free Press

MEMPHIS, Tenn. (AP) — A legal battle continues today regarding where to draw the line between constitutional guarantees of free press and a fair trial for the man accused of murdering Dr. Martin Luther King Jr.

The Shelby County Circuit Court hearing regards whether four persons—including two newspaper reporters—should be cited for contempt of court as a result of publicity regarding the case.

**RAY'S CELL**  
Attorneys noted during the opening session of the hearing Friday that they were moving into an area in which the U.S. Supreme Court had yet to provide solid guidance.

At issue is whether the four violated Judge W. Preston Battle's orders restricting out-of-court comment on the forthcoming trial of James Earl Ray.

A defense motion that security in Ray's jail cell be modified also was due for consideration.

## Star Scouters Meet Thursday

The commissioners and district committee meetings for the Lone Star district are set for Thursday at Cosden Country Club, Tommy Cone, Scout executive said Monday.

Commissioners will meet at 6:30 p.m., and the district committee follows at 7:30 p.m. Plans for expanding the Explorer program will be discussed, said Cone. There will be reports from the recent Scout night enrollment, Wednesday, Cone will begin the follow up in junior highs for boys interested in the adventure of Scouting.

Cub and Scout roundtables will be held at 7:30 p.m. Oct. 10 at Withycombe Hall at Webb AFB. The Rev. James Puckett is in charge of the Scouters and Leon Miller, the Cubbers. The Roundtables will be preceded by a Scouters training session at the same place at 6:30 p.m.

## Annual Concho Valley Entries

Four Howard County breeders will be consignors to the annual Concho Valley Hereford Association bull sale Nov. 4 in San Angelo.

Leland Wallace, Big Spring, president of the association, will have four bulls in the show and sale, and he will be joined by Charlie Creighton, Kenneth Lobo, and James Coates.

The sale this year will be larger than usual with 123 bulls consigned. Of these, 103 are horned and 20 are polled, said Wallace.

Most of the consignors are entering at least a pen of three, and several have more than this number. More than a score of breeders in this region will be represented.

## Horoscope Forecast FOR TOMORROW

—CARROLL RIGHTER

**GENERAL TENDENCIES:** One of those rare days when most everything should sail along like a breeze for there is a benign feeling in the air and most everyone not only wants to get things done but in such a fashion that others are pleased. Be truly cooperative, therefore, and show you are the one who does value any and all of your allies.

**ARIES (March 21 to April 19)** Show associates that you really admire them instead of criticizing so much. A good day to come to a better understanding with others by removing tensions. Don't forget "last service" when you are in a hurry. Save an ass.

**TAURUS (April 20 to May 20)** Get busy with mop and broom and get your home in a most ideal condition. If you communicate more with fellow workers, you find that you soon are top banana. Stop having such a recalcitrant attitude.

**GEMINI (May 21 to June 21)** Happiness is a state of mind, so drive straight for it. A big inspiration is yours now. Instead of being so contrary with the one you love, try a little tenderness, kind words, and all is much, much better.

**MOON CHILDREN (June 22 to July 21)** Tiny courtesies to kin can really work wonders. Bring for closer rapport. Show those who give you a real life in fundamental affairs that you are grateful. Get rid of that self-righteousness.

**LEO (July 22 to Aug. 23)** Don't try to do it alone where some big project is concerned, but go through with that plan you have made with associates. Keep appointments on time with those who can help you to climb the ladder of success.

**VIRGO (Aug. 24 to Sept. 23)** You can quickly gain the favor of those persons who know what you should do.

to make a bigger success of life. Do so. Show you have good horse sense. Make a good more charming, immaculate.

**LIBRA (Sept. 23 to Oct. 23)** If you use practical methods, you can easily gain some aims you have in mind, provided you are of a practical and ethical nature. Out to the social tonight with chum. Have a whole of a time, but don't arrive too late in P.M.

**SCORPIO (Oct. 23 to Nov. 21)** Any kind of a personal nature has a good chance of succeeding for you now. Make your arrangements early for appointments. Showing others that you can lend a helping hand where it is most needed is good, also.

**SAGITTARIUS (Nov. 22 to Dec. 21)** Your finest expression can come through the social today and tonight, so plan early for such. Be with interesting persons only. Some very special wish you have can be realized quite easily now. Be diplomatic.

**CAPRICORN (Dec. 22 to Jan. 20)** Take your rightful and active place in the busy, teeming world of activity. Stop being so timid. Enhance your reputation through taking part in some big and important venture. Show wisdom, vision.

**AQUARIUS (Jan. 21 to Feb. 19)** Ideal day to get ahead in some interest that requires a new attitude or approach, so be active and alert to such. Then be out with new acquaintances who can add much to your present knowledge, culture. Let your motions be free.

**PISCES (Feb. 20 to March 20)** Be charming with persons who have done you favors; are indebted, so they are even more amenable later on. It behooves you to spend more time with your mate also. Showing affection and devotion is imperative.

# Wallace Tests His Strength

CHICAGO (AP) — George C. Wallace pointed his presidential campaign at the North this week, aiming at industrial states and Democratic and Republican voters.

Advancement for the American Independent party candidate arranged a noon-hour motorcade today in this Democratic stronghold and an evening speech in Cicero, an all-white working class suburb where he is popular.

### WINS PERMIT

The route for the procession was one mile of State Street, Chicago's main shopping area. The time and the downtown district long have been favored by visiting politicians because thousands of lunch-hour workers

and shoppers are on the streets anyway.

Richard M. Nixon, the Republican presidential nominee, was seen by 400,000 persons, by police estimate, in the downtown area early this month.

Wallace, former governor of Alabama, planned to make a speech at Albright Field in Cicero, a southwestern suburb of 71,000.

An open-housing march there on Sept. 4, 1966, drew police, National Guardsmen and crowds of brick and bottle hurlers.

Cicero officials first denied then granted Wallace a permit to speak there. However, they denied him use of City Hall property and limited his parade route.

### HURTS BOTH

The State Street route—from Wacker Drive to Van Buren Street—comes within three-quarters of a mile of the section of Grant Park where demonstrators clashed with police and National Guardsmen during last month's Democratic National Convention.

About 12,000 persons marched to the park Saturday to protest against police action last month and against the war in Vietnam. About 50 persons marched to the park Sunday to display support for Chicago's police and to demonstrate patriotism. There was no violence either day.

Arthur Kelly, Cook County manager for Wallace, said Wallace is drawing support from both major parties in Chicago, workingmen's suburbs and industrial communities downtown.

Wallace, resuming his vote wooing after a week of rest and conferences with advisers in Montgomery, Ala., plans to proceed from Chicago and Cicero to Michigan, Ohio, Indiana, Pennsylvania, New York and New Jersey.

### Lehigh Student Faces Blackball

WASHINGTON (AP) — Thomas R. Przybeck, 19, a student at Lehigh University in Bethlehem, Pa., came to Washington Sunday with a special assignment.

In order to qualify to join a fraternity at the university, he was told to latch on to the front doormat of the Soviet Embassy, he told police.

This was after police Pvt. Donald G. Odell, who was patrolling nearby, put a quick end to the adventure.

Przybeck, whose home is in Reading, Pa., was charged with petty larceny, police said.

# Willis Loses In Louisiana

NEW IBERIA, La. (AP) — Rep. Edwin E. Willis, chairman of the House Committee on Un-American Activities, has been defeated in his re-election bid by a 35-year-old lawyer who says he will do his "best to be moderate in all things."

Patrick Thomson (affery of New Iberia, who opened his career in public office when he was elected to the legislature in 1964, defeated Willis Saturday in a Democratic runoff primary. He has no Republican opposition in the Nov. 3 election.

Thomson declined to "indulge in the use of labels" when asked how he classified himself politically when compared to Willis, 64, a congressman for 20 years.

Willis polled 48,792 votes to 36,004 for Willis for the 3rd District seat.

If the Democrats retain control of the House, Willis will be succeeded as committee chairman by Rep. Richard H. Ichord, D-Mo. If the Republicans get control, the chairmanship probably will go to Rep. John M. Ashbrook, R-Ohio.

# Big Baby Girl

PORTLAND, Ore. (AP) — The seventh elephant born in six years at the Portland Zoo arrived Sunday. The baby girl weighed 200 pounds and measured 36 inches from shoulder to ground.

The mother is Oakland Effie. The father is Thonglaw, who has sired all the baby elephants.

# Bridge Test

—CHARLES H. GOREN

BY CHARLES H. GOREN (as told by the Chicago Tribune)

### ANSWERS TO BRIDGE QUIZ

Q. 1—As South, vulnerable, you hold:

♠K5 ♣AKQ8543 ♦6 4 3 ♣Pass

The bidding has proceeded: North East South West Pass Pass 4♥ 4♠ Dble. Pass?

A.—Pass. Your preemptive bid has warned partner that you are not to be relied upon for any defensive strength and he is, therefore, doubling on his own power. The fact that you hold the king of spades should be a pleasant surprise. For you to go on to five hearts would be an unwarranted usurpation of authority.

Q. 2—Neither vulnerable and as dealer you hold:

♠AKQ742 ♥Q97 ♦5 4 3 ♣Pass

What is your bid?

A.—One spade. The hand has too much merit for a preemptive bid of three spades. It totals 12 points, 11 in high cards and two for the doubters.

Q. 3—Neither vulnerable and as South you hold:

♠K52 ♥K53 ♦A97 ♣AK1092

The bidding has proceeded: South West North East 1♣ Pass 1♠ Pass 1NT Pass 2♠ Pass?

What do you bid now?

A.—Pass. There is a temptation to return to two spades on this hand, but it should be curbed. Your hand is such a minimum that there can be no reasonable question of a game.

Q. 4—East-West vulnerable and as South you hold:

♠KQ73 ♥A63 ♦Q105 ♣653

The bidding has proceeded: North East South 1♥ 2♠

What do you bid?

A.—Two hearts. The fact that you are making a free bid will show that you have a good hand. Don't make the mistake of bidding two spades. Such a bid will almost automatically land you in game. If partner holds three hearts, under compulsion you will surely take him to four without any idea of whether or not he has more than a minimum.

Q. 5—As South, vulnerable, you hold:

♠Q1093 ♥A98 ♦AJ6 ♣QJ5

The bidding has proceeded: West North East South 1♠ Dble. Pass?

What do you bid?

A.—Bid three no trump. With 24 points in high cards, a balanced hand, and aces double stopped, there is no question but that you should assume a game contract opposite partner's take-out double.

Q. 6—Neither vulnerable and as South you hold:

♠KQ1064 ♦AQJ9863 ♣Pass

The bidding has proceeded: South West North East 1♣ Pass 2♥ Pass 2♦ Pass 4♥ Pass 6♥ Pass?

What do you bid now?

A.—Our inclination is to bid seven hearts. Certainly the ace of trumps should be found in partner's hand, as he could hardly jump twice in that suit on a jack high holding. The chances of finding a singleton diamond in partner's hand seems excellent. If so, the suit should be established by one or two ruffs.

Q. 7—As South, vulnerable, you hold:

♠K9 ♥Q10952 ♦1043 ♣AKQ

The bidding has proceeded: East South West North 1♣ 1♥ Dble. 3♠ Pass 4♠ 5♦ Pass?

What do you bid now?

A.—It is as true that partner's bid of three spades indicates a hand that is not robust in high cards but merely contains a good suit of good texture. Nevertheless, it is also obvious from the bidding that partner is very short in both hearts and diamonds, which makes your club holding doubly attractive. Surely the penalty that may be inflicted upon the opposition cannot be great. Bid five spades and hope to make it.

Q. 8—As South, vulnerable, you hold:

♠QJ754 ♥A ♦Q1076 ♣K93

The bidding has proceeded: North East South West 1♣ Pass 1♠ Pass 2NT Pass?

What do you bid now?

A.—This hand has all the earmarks of a slam. You have virtually the equal of an opening bid and partner has opened and jumped. The proper call is a temporary bid of three diamonds, awaiting partner's next move. This bid is forcing by common sense. If you were not interested in big things, you would merely proceed to three no trump or, if you had a bad hand, you would pass two no trump.

# Gasbuggy Well Tests Planned

HOUSTON (AP)—The Project Gasbuggy well in New Mexico will soon undergo three new tests to help determine the success of the first nuclear explosion for peaceful purposes.

Plans for the tests were announced Sunday at the opening session of the four-day fall meeting of the Society of Petroleum Engineers.

**GAS CAVERN**  
More than 4,000 persons are expected at the meeting, where 154 technical papers will be delivered in 29 sessions.

The new 30-day production tests will begin Nov. 1 at the Gasbuggy natural gas well near Farmington, N.M., spokesmen said.

Plans for the tests on the joint government-industry project were announced by the El Paso Natural Gas Co., the Atomic Energy Commission and the U. S. Bureau of Mines.

Results of the series will be used in preparing plans for a later test.

Scientists detonated an underground nuclear device in the Gasbuggy test last Dec. 10. The explosion formed a gas-collecting cavern about 80 feet in radius and 333 feet high.

## PRODUCTION

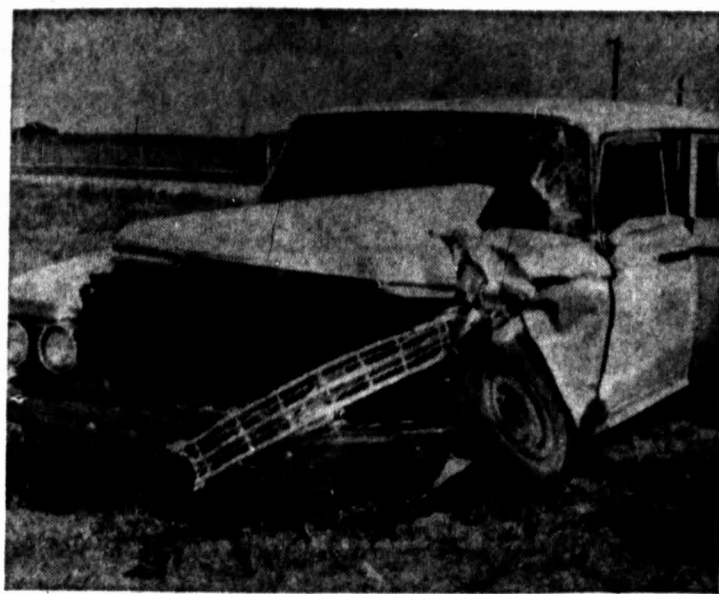

A 15-day production test in June produced more than 57 million cubic feet of gas from the cavern, some 4,200 feet below the earth's surface.

The three 30-day tests will be conducted over a four-month period, spokesmen said. Gas will be withdrawn at rates to keep a pre-selected bottomhole pressure, which will be changed for each test.

The tests are designed to measure the rate of flow of gas into the cavern from surrounding fractured formations.

Spokesmen said additional information will be sought from an old gas producing well some 435 feet northwest of the Gasbuggy well. As part of the Gasbuggy test, the old well was filled with sand, cement and drilling mud. Workmen will begin cleaning out the old well Oct. 7.

Gasbuggy is the first of three tests to determine if nuclear explosions can be used to fracture deep reservoirs in the Rocky Mountain area sufficiently to make commercial production possible.

**THREE PERSONS HOSPITALIZED IN CAR-PICKUP COLLISION**  
Mr. and Mrs. James G. Crenshaw and Homer Clark victims of two-car crash here Sunday  
**NONE IN SERIOUS CONDITION**

# Four Hurt In Two Wrecks

Four people were hospitalized as a result of two accidents Sunday. One occurred in the city, and the other was two miles northeast of the city.

Brenda Fuller, 1109 Lamar, was taken to a local hospital after a sand buggy in which she was riding tipped over on its side about 5:30 p.m. Sunday.

It was driven by David DeWayne Peters, 517 Scott. The accident happened on property located just south of the ball park on Adams street.

Miss Fuller was listed in good condition at a local hospital this morning.

Three persons were hospitalized and two motor vehicles extensively damaged at 12:05 p.m. Sunday at the intersection of the Gail Road and SH 450, about two miles northeast of Big Spring.

State highway patrol officers, who investigated the collision, said that James G. Crenshaw, 19, of Rt. 2, Big Spring, and his wife, Pamela, 17, are in the Medical Arts Hospital, as is Homer Clark, 66, of Gail Road.

The Crenshaws were in a 1962 model station wagon enroute to Big Spring, Clark, in a pickup truck, tried to turn north on the Gail Road.

While it is not believed their injuries are serious, all of the victims suffered extensive cuts and abrasions.

In a minor accident at 8:57 p.m. Saturday, David Wendell, Webb AFB, and Rufus V. Hargrove Jr. collided at Eleventh and Goliad.

**Tipped Over**  
Brenda Fuller, 1109 Lamar, received extensive cuts and abrasions when this sand buggy, in which she was a passenger, tipped over.

# Russian Troops Linger Awhile

PRAGUE (AP)—Czechoslovakia's Communist party newspaper Prava complained anew today that the Soviet-led occupation would last longer than foreseen as recently as a week ago.

In a weekend speech by Gustav Husak, deputy premier and Slovakian Communist party chief, reminded the country that it is naive to think that troop withdrawal is something Czechoslovakia can decide on its own.

**REAL HOPE**  
Husak's address was televised and printed in full by all Sunday newspapers. There was no further mention of Premier Oldrich Cernik's Sept. 21 statement that a gradual pullout of most of the occupation forces would begin "in the next few days."

"There is real hope that a considerable part, a great part, of these troops will leave our territory," Husak declared, without saying when.

Information from Moscow indicated that the Soviet Union was not yet satisfied with Czechoslovak political solidarity against anticommunism. The Soviet Communist party newspaper Pravda complained anew today that the Soviet-led occupation would last longer than foreseen as recently as a week ago.

**TO SPEND WINTER**  
Czechs and Slovaks on Sunday outings reported seeing bulldozers leveling ground around camps of the occupation troops and some building construction for those units planning to spend the winter.

Czech informants said the Russians had once agreed in principle to pull out all but about 100,000 of the estimated 500,000 troops by Oct. 28. This was to have been ratified by a Soviet-Czechoslovak meeting in Moscow but the session has been postponed repeatedly. Reasons for the postponements were said to be Czechoslovak resistance to Soviet political conditions and Russian opposition to Czechoslovak Communist party leader Alexander Dubcek heading the Prague delegation.

# Congress Reform Pros Picking Their Spots

WASHINGTON (AP)—House members bent on reorganizing Congress and revamping the electoral process appear to be fighting a losing battle but they aren't giving in.

Three weeks ago, a small group of Republicans announced plans to create a parliamentary-style government, hoping to embarrass Democratic leaders and revive congressional reorganization and election reform bills.

Both measures are now in the deep freeze reserved by the Democratic-controlled House Rules Committee for measures not favored by Speaker John W. McCormack and other leaders.

The reorganization bill was recommended by a bipartisan Senate-House committee and passed by the Senate about a year and a half ago.

**100 CHANGES**  
It contains more than 100 changes to modernize and streamline Congress' structure and working methods, transfer power from the committee chairman to ordinary members, require open-door transaction of much business now conducted in secret, give minority members more staffing, and tighten lobbying regulations.

The election bill—also passed by the Senate—would, among other things, strengthen controls on campaign finances.

In their first attempt to disrupt the House Sept. 11 the group-Republicans, primarily, but also a few Democrats—prevented the body from doing anything except answer endless roll calls and listen to a reading of the previous day's proceedings for 2 1/2 hours.

Last Thursday, Democratic Leader Carl Albert of Oklahoma asked the House to give its consent to permit the calling up of two bills this week under the general rules. The bills—concerning older Americans and federal banks—would not have to go to Rules Committee if there were no objections.

**OBJECTED**  
Rep. Donald Rumsfeld, R-Ill., objected.

"It seems unfortunate that the gentleman from Oklahoma is not asking unanimous consent to bring one of those bills (legislative and electoral reform) to the floor of the House. We have not been meeting every day. We have had plenty of time for the consideration of these pieces of legislation," Rumsfeld said.

Replied Albert: "Of course, the gentleman knows the circumstances are entirely different. Almost every week we do

# Eggers Flays Driving Test

BRYAN, Tex. (AP) — Campaigning here Sunday, the GOP gubernatorial candidate, Paul Eggers, said Texans could not afford to put his Democratic opponent, Lt. Gov. Preston Smith in the driver's seat as governor.

"A bill which would have authorized breath tests of drivers suspected of drunk driving failed to pass at the special legislative session in June," Eggers said.

A report issued last week by the State Board of Insurance involving drinking drivers "points up another of my opponent's failures to solve a serious problem," the Republican candidate continued at a barbecue in the city's American Legion Hall.

Eggers said the report revealed that drinking drivers are a major cause of automobile deaths.

"The approach Mr. Smith ignored in the Senate would have gone a long way toward taking guess-work out of DWI cases," Eggers said.

# One Out Of Eight To Get Welfare?

NEW YORK (AP) — One out of every eight New York City residents will be receiving welfare by the end of the year, says Jack R. Goldberg, city commissioner of social services.

Goldberg said Sunday that 875,000 residents now receive public assistance.

# Drilling Rig Accident Hurts

A Sweetwater man is in a local hospital under close observation for head injuries he received in an oil drilling rig accident about 5:30 this morning.

W. O. Eubanks received head injuries on a rig 18 miles out of the city on the Garden City highway. According to reports of the accident, Eubanks became entangled in some of the rig's machinery.

# Asks \$41,400

A damage suit has been filed in 118th District Court naming Denver Pettit as defendant and listing H. V. Miller as the plaintiff. The action is brought as result of a two-car traffic mishap of last June 27 on FM 700 at Goliad. Miller asks \$41,400 for injuries allegedly suffered in the accident.

# British People Told Time To Tighten Belt

BLACKPOOL, England (AP) —Chancellor of the Exchequer Roy Jenkins appealed to the British people today for 18 months of hard work and belt-tightening austerity to reach "new horizons" for Britain.

"There is no easy way out," he said.

Jenkins was given a standing ovation by the Labor party's annual convention after his "hard-hitting defense of the deflationary policy of Prime Minister Harold Wilson's government, curbing wages and prices."

Britain has been living on borrowed money for too long, he said, enjoying benefits of the welfare state while piling up a huge foreign debt. He said he had called a halt in March when he imposed on the nation the greatest increase in taxes ever laid down by a British government.

Jenkins was stating the government's views on a number of resolutions, presented by trade unionists and left-wingers, demanding that the Labor party reject the government's efforts to limit pay raises and set up

# DEATHS

## Mrs. Gonzales, Rites Pending

Funeral services for Mrs. Vicenta Sandoval Gonzales, 55, 806 NW 4th, which were scheduled for 3 p.m. today at Nalley-Pickle Funeral Home, are now being delayed until the arrival of a daughter from England.

She was born April 5, 1913, in Big Spring. She married Guadalupe Gonzales here in 1929. He died in 1958. She was a member of the Sacred Heart Catholic Church.

Survivors include two sons, Albert and Charlie Gonzales, both of Big Spring; three daughters, Mrs. Ben Rodriguez, Big Spring, Mrs. Joe Rivera, Dallas, Mrs. Oscar Munoz, England; three brothers, Severo, Frank, and Pablo, all of Big Spring; a sister, Mrs. Ben Ramos, Fort Worth; and 14 grandchildren.

# THANT PRESSING

The initial reaction to the Thant proposal from Washington was negative, but Rusk did not appear to rule out the subject. He will meet later in the week separately with Soviet Foreign Minister Andrei A. Gromyko, British Foreign Secretary Michael Stewart and French Foreign Minister Michel Debre.

That also has pressed for an immediate halt of all bombing of North Vietnam by the United States. Rusk, who has opposed the idea, did not comment specifically on it to newsmen.

Rusk first met briefly with Foreign Minister Emilio Arenales, of Guatemala, president of the General Assembly, then with Thant. It had been billed previously as a "courtesy call."

Rusk and Eban both arrived Sunday to take part in the U.N. General Assembly policy debates, and in other diplomatic conferences.

# Rusk Sets Up Conference With Israeli Minister Eban

UNITED NATIONS, N.Y. (AP) — Secretary of State Dean Rusk discussed Vietnam, the proposed Big Four summit conference and other issues in a "lively and friendly" private talk with Secretary-General U Thant today.

Rusk planned to see Israeli Foreign Minister Abba Eban this afternoon.

Rusk talked with reporters briefly after meeting for more than an hour with Thant—the first in a series Rusk will hold in the next 10 days with foreign ministers and other top officials here for the General Assembly session.

In response to questions, Rusk said the subjects gone over with Thant included the latter's proposal that the Big Four foreign ministers set up a summit meeting.

**THANT PRESSING**

# DeMolays Stage Annual Party

Big Spring DeMolays held their annual back-to-school and rush party Friday night.

Thirty-five DeMolays and their guests attended the party which was held at the home of the chapter's master counselor Easy Ezell. The boys played volleyball, ping pong and pool.

A fried chicken with all the trimmings buffet was served. Afterwards a brief meeting was held and chapter advisor T. S. Abbott explained the purposes and function of the Order of DeMolay to the rushees.

The party paused briefly while Ezell offered nine o'clock interludes, a prayer for the parents of the chapter.

# Elite Troops Swoop Down On Reds Attacking Camp

SAIGON (AP) — The New Jersey, the first American battleship to see action since the Korean War, entered the Vietnam conflict today by bombarding North Vietnamese positions in the northern half of the demilitarized zone.

The 56,000-ton vessel, three times as long as a football field, turned her 16-inch guns on enemy gun positions and bunkers seven miles north-northwest of the U.S. outpost of Con Thien.

The battleship hurried her 2,700-pound missiles into the enemy positions from the allies and aerial attacks.

These placements, some dug deep into hillsides, contain big Soviet-built artillery pieces which have been harassing allied camps along the frontier, including Con Thien, Gio Linh, and Dong Ha, headquarters of the U.S. 3rd Marine Division and a vital operational base for the DMZ.

**WAR BOMBS**  
The DMZ is 37 miles long, but

most of the enemy's artillery emplacements fall within the 23-mile range of the New Jersey's nine 16-inch guns.

Within minutes the New Jersey can lay down a nine-gun broadside roughly equivalent to half the bomb load of a B52 bomber.

On her first day in action the New Jersey fired 29 rounds of 2,700-pound shells from her 16-inch guns and 45 rounds of smaller shells from her 5-inch guns into targets eight miles inland. The Navy declined to disclose how far out at sea she was at the time.

The New Jersey, whose home port is Long Beach, Calif., carries a crew of 80 officers and 1,556 enlisted men. The skipper is Capt. J. Edward Snyder Jr., 43, a native of Grand Forks, N.D.

# Young Looks At Wallace

BOSTON (AP) — Whitney M. Young Jr., executive director of the National Urban League, says the only thing preventing the election of George C. Wallace as president is the fact there are three candidates in the race.

Young, a Negro, said the third party candidate and former Alabama Governor is "the man who represents the worst in America."

"He is the one who permitted young children to be bombed, who preached racial prejudice," Young told a dinner meeting of the Combined Jewish Philanthropies Sunday.

Young criticized "that rank and file membership of labor in America who taught us how to use sit-ins, and demonstrations and violence and who are now saying they will vote for Wallace because he is for law and order."

Young said that rank and file membership of labor in America who taught us how to use sit-ins, and demonstrations and violence and who are now saying they will vote for Wallace because he is for law and order."

Young said that rank and file membership of labor in America who taught us how to use sit-ins, and demonstrations and violence and who are now saying they will vote for Wallace because he is for law and order."

# Young Folks Defend Hips

By GEORGE W. CORNELL  
Associated Press Religion Writer

KANSAS CITY, Mo. (AP) — The young people and the professor disagree about the hippies.

He says they're dirty, shiftless spongers. The young folks defend them as needlers of American society.

"They're practitioners of the worst sort of hypocrisy," said the Rev. Dr. Robert E. Fitch of San Francisco, who called them lazy, immature, irresponsible, immoral and smelly.

**NEW PRODUCT**  
"I question this hard name-calling," said Peggy Liggett, a student at Texas Christian University. "Rather than name-calling, we ought to try to rectify conditions in society that cause them to withdraw from us."

The youngsters and Dr. Fitch, who teaches Christian ethics at the Pacific School of Religion, tangled on the subject Sunday night at the General Assembly of the Christian Church (Disciples of Christ).

"The hippies are trying to tell us something about the society we're living in," said Frederick W. Smith, of Minneapolis, chairman of the youth panel. "In a sense they're a product of society. We need to ask what they're saying about a society on which they've turned their backs."

**COMMENTS**  
Commented Dr. Fitch: "They're trying to tell us they don't want to grow up and be responsible adults."

**OVER 30?**  
About 10,000 church people in Kansas City's Municipal Auditorium applauded points scored by the contenders, most often for Dr. Fitch's views.

"It looks as if there's a majority over the age of 30 in this audience," observed Smith.

"Don't talk to me about being over 30," said Dr. Fitch. "My grandchildren would consider this youth panel a bunch of old men and women, and I communicate with them."

Negro delegates formed a black caucus Sunday night to plan strategies on proposals of particular concern to Negroes at the seven-day convention which runs through Wednesday.

The group is led by the Rev. Dr. Raymond E. Brown, of Reidsville, N.C. The denomination of about 1.4 million and 6,000 congregations has about 90,000 Negro members in 500 of the congregations.

Delegates voted Saturday to approve a new charter to make their loose federation of churches a representatively organized denomination. The new church is to be formally constituted Tuesday night.

**DOPE TRAFFIC**  
The on-stage argument came after Dr. Fitch assailed hippies as phonies who regard themselves as nonconformists but who are such conformists in dress, speech, conduct and odor that they remind one of a "flock of sheep."

He said hippie colonies spur increases in narcotics traffic, rape, venereal disease, petty theft and the accumulation of garbage, filth, vermin.

Karl L. Munson of Maywood, Ill., a student at Hiram, Ohio, College, said similar conditions existed around Jesus. "Everywhere Jesus went, lepers, beggars, the poor and prostitutes congregated," he said, suggesting Dr. Fitch "confused causes for effects" in regard to hippies.

"I balk at your analogy with Jesus," the professor said. "I don't think you believe it yourself."

## Negro Commie Link Ruling

NEW YORK (AP) — A Defense Department trial examiner has ruled that a Negro should

not be denied access to government secrets, although he was a member of the Communist party for 17 years.

The examiner, Charles J. Klyde, said it is "relatively easy to understand" why a Negro seeking equality would have joined the Communist party in 1933.

The ruling made last week was revealed Sunday by the Negro's lawyer William Kunstler. Alfred N. Johnson, 53, of Harlem, joined the Communist party in 1933 and left in 1950, he wrote on his application for a government security clearance while working as an electronic engineering aid for a New York firm working on government contracts.

The government turned down Johnson's application, but he appealed the denial and it was reversed by Klyde. The Department of Defense said it will appeal Klyde's ruling.

Big Spring (Texas) Herald, Mon., Sept. 30, 1968 7-A  
**Bottle Of Rum Smashes Dream**  
SHEFFIELD, England (AP) — Townsfolk, officials and a Salvation Army band turned out Sunday for the christening of the 62-foot steel yacht that Joe Phillips took five years to build for a voyage around the world. A bottle of rum was smashed across her bow and the 26-ton vessel was lowered into the water.

# BIG SPRING DAILY HERALD

SECTION B

BIG SPRING, TEXAS, MONDAY, SEPTEMBER 30, 1968

SECTION B

## Nixon Picking Up Tempo Of Attacks

KEY BISCAVNE, Fla. (AP) — Richard M. Nixon has entered a new phase of his presidential campaign, spelling out the details of his programs for the first time and intensifying the attack on his foes.

The Republican nominee announced Sunday his crime fighting proposals, calling for creation of a national academy of law enforcement to train local police and a high-level national crime fighting council.

### TAXES NEXT

The day before, he dealt with the problems of the aged, pledging cost-of-living increases in Social Security pensions.

In both statements, Nixon hit hard at his Democratic opponent, Vice President Hubert H. Humphrey. And he is now dealing openly in speeches with his other foe, George C. Wallace, the American Independent party candidate.

"We are picking up in both fire and substance," said an aide. "We are now filling out the programs. You'll also notice the tempo of the attack picking up."

In the future, he said, Nixon will be announcing the details of his proposals on taxes, inflation, because he said it would hurt veterans problems and other issues.

his proposals on taxes, inflation, because he said it would hurt veterans problems and other issues.

On Vietnam, the aide said, Nixon's plans "depend on what happens in the negotiations."

Nixon has criticized the conduct of the war but has declined to propose specific alternatives.

## Agnew Calls For A Better Way Of Life

MILWAUKEE (AP) — Gov. Spiro Agnew called Sunday for "a better way of life through the law."

The GOP vice presidential nominee said the "moral leadership" of his running mate, Richard Nixon, is a reliable reply to mounting crime rates.

"Is it not proper," he said Sunday in televised remarks, "to ask what has happened to our society when the President's crime commission reports that 43 per cent of the American people are afraid to walk on the streets at night?"

"Our system is capable of redressing just grievances," Agnew was applauded loudly Saturday during an Alverno College rally attended by 400 persons when he denounced violent dissenters.

The theme continued that night as he addressed a \$100 dinner:

"This small number of dissenters that's causing all the trouble for the youth of today is just that—a small bunch of professional hoodlums."

Agnew said there is room in society for constructive opposition, even dissent.

"Where the demonstrators break existing laws, then I'm not for dissent," he said.

Agnew again said the United States must not withdraw unilaterally from Vietnam.

The Vietnam war, he said, can be resolved by courageous Americans who "aren't about to give up just because some people have developed a little jelly in their spines about a tough situation."

## Hubert Pictures Nation As Facing Destruction

SALT LAKE CITY (AP) — Hubert H. Humphrey pictured the nation today as facing potential destruction from extremists of left and right and declared, "No democracy can, or should, stand for it."

The Democratic presidential candidate, who flew here Sunday after two noisy confrontations with organized hecklers in the Pacific Northwest, made it clear that his denunciation of extremism applied not only to them but to the forces of third party candidate George C. Wallace and to Negro revolutionaries.

### ANTIWAR SHOUTS

Humphrey, faced with speech-disrupting shouts from some 200 young antiwar activists in Seattle Saturday night, tried to quiet them by letting one of their leaders address the clearly pro-Humphrey audience. The tactic failed, and, in the end, the demonstrators were ejected from the packed Civic Center arena, seating 5,000. More than a dozen resisted police who steered them out, with a brief but violent uproar ensuing.

Having experienced a noisy walkout by about 400 protesters at a similar party rally in Portland, Ore., the night before, Humphrey came here still searching for a way to deal with the demonstrators who have been plaguing him from coast to coast.

In a speech prepared for delivery at the Mormon Tabernacle here, the vice president criticized both ends of the political spectrum.

### PREJUDICE

"There are people today who made their basic appeal to the baser instincts—to fear, to racial prejudice, to escapism, to the darker side of the human character. They are dangerous."

These are the words he has used repeatedly to describe the Wallace campaign, though he did not name the former Alabama governor in his text.

## Muskie Raps Fence Rider

DES MOINES (AP)—Sen. Edmund Muskie told Iowans that Hubert Humphrey "says what he means" when he talks about helping agriculture. He asserted that Richard Nixon "is a fellow who can ride the fence while keeping both ears to the ground."

The Democratic vice presidential nominee campaigned here Saturday and asserted that "farmers are going to get in the neck next Jan. 20" if a Republican is elected president.

"Since 1910, farm income has turned for the worse in every Republican administration and it has turned for the better every time the Democrats have taken the wheel," Muskie said.

"I came here to remind you that although none of us is satisfied with the agricultural economy, farm income for the past four years has been better than it was in any of the Nixon years," he said, referring to the eight years when Nixon was vice president.

Then Humphrey went on to decry youths "who are preaching the same doctrine of disorder and anarchy, and using the same totalitarian tactics of the street that brought Adolf Hitler to power."

And, finally, he dealt with those "who would destroy homes, businesses and lives, in their supposed zeal to correct injustices—the Negroes who seem to believe that rioting and burning will help solve racial problems."

These factions, said Humphrey, "all share a basic disdain for the democratic process. No democracy can, or should, stand for it."

He said the presidential campaign "will decide whether the extremists will succeed, whether the voices of hate, or pride and division will drive out the forces of opportunity, progress and justice." He concluded that "America shall prevail."

## Weevils Drop First Round

GARDEN CITY — The first round of spraying in a boll weevil control program has been completed in Glasscock County.

It is, so far as is known, the first wholly farmer-financed diapause control program in the state, and has drawn 100 per cent cooperation of farm operators, said Oliver Werst, county agent.

Subsequent sprayings are scheduled for Oct. 7 and Oct. 21, and again early in November unless frost comes before the scheduled date. If frost is late and farmers elect to defoliate, then the weevil control poison will be mixed with the defoliant.

Werst estimated that over 15,000 acres of cotton land have been treated in the areas east of the Big Spring-Garden City highway, south of the Garden City-Midland west of the Garden City-Big Lake roads. Also some cotton in the Midland area (near the Midland, Upton, Reagan and Glasscock corner) and in the Lee's area reaching into the small portion of Howard County.

The diapause control gains

its name from efforts to poison weevils just before the last generation goes into the diapause (similar to hibernation). Fattened by feasting on cotton bolls, weevils late in the season leave the fields and make their way to turn rows, pastures, mesquite thickets, etc., and find places to winter. If they can be killed off before this time, the surviving members may not present a threat to the succeeding crop.

There has been considerable damage from the weevils this year, said Werst. The insects did not show up until August, but the degree of infestation was heavy.

Heading up the organization for enlisting farmer participation were Lawrence Jost at St. Lawrence, Richard Johnson at Garden City, and Benny Blissard at Lees. Werst coordinated all the work and contacted state entomologists. The producers contracted with aerial sprayers, who poisoned with straight guathion at the rate of one pint per acre.

### FOOLISH

The aide said Nixon, concerned about the dangers of "peaking" his political campaign too early, had talked purposely in general terms since he was nominated.

"If you look at any campaign, it's foolish to lay out all your programs in the first week," the aide said.

The campaign will also take him deep into the South, territory where his aides say Wallace is running either slightly ahead or even with the GOP machine.

### DIXIE QUIZ

Nixon will be questioned by a panel of Southerners selected by his staff on a regional telecast in Atlanta, Ga., Thursday night, then make a speech in Spartanburg, S.C.

Nixon aides said the lack of a strong grassroots GOP organization in both states is helping Wallace. Humphrey, they said, is running third.

But in South Carolina, they are counting heavily on the personal popularity of Republican Sen. Strom Thurmond to carry the state for Nixon.

## Thefts Reported To Local Police

Two thefts were reported to police over the weekend.

Charles Johnson, 601 N. Lancaster, reported a television, table, lamp and student handbook missing from his home Sunday.

Elmer Franklin, 1203 Mesa, reported \$2.54 cents taken from his daughter's purse Sunday at his home. A window screen had been torn off and the window forced open, according to police.

## Boll Weevil Control Meet

A group of experts from the Extension Service will be in Big Spring tonight to discuss cotton harvesting procedures and boll weevil control with cotton farmers and land owners.

The experts will be in the district court room at the Howard County courthouse at 7:30 p.m. All farmers in the area are urged to be present.

Paul Gross, county farm agent, has sent letters to all cotton farmers of the county calling attention to the meeting and recommending all attend.

Defoliation has already started in some parts of the county and gins will be firing up for full operation in the relatively near future.

This fall, the farmers of the county are faced, for the first time, with the problem of dealing with the boll weevil. The visiting scientists will discuss the best possible methods of handling this new pest in their discussions tonight.

They will also report on the latest improved chemicals used in defoliation designed to cause minimum damage to the lint.

## Will Plan Yule Season Events

Members of the advisory board of the Salvation Army will meet at 7 a.m. Tuesday at Coker's to plan activities for the Christmas season.

G. G. Morehead, Christmas chairman, will be in charge of the meeting, said Oliver Coker, chairman of the board. Reports are due from Dr. W. A. Hunt, information; Jack Alexander, volunteers to man the kettles; and Marvin Miller, correspondence.

## A Devotional For The Day

"Rise and stand upon your feet; for I have appeared to you for this purpose, to appoint you to serve and bear witness to the things in which you have seen me" (Acts 26:16, RSV)

**PRAYER:** Gracious God, who in every generation has work to do and calls persons to help in its accomplishment, I await Your call. Send me. Use me. In Jesus' name. Amen. (From the 'Upper Room')

## More Revocations

Everyone knows about drunks on the road: They're poison. When a drunk takes a wheel and roars out onto the highway, all normal bets are off. He may get to where he's going — fuzzy judgment, slow reflexes, released inhibitions and all — in one piece, and without hitting anyone. Or he may, as happened a year ago in Illinois, careen into another car and kill 10 people, himself included.

The Illinois accident, worst in that state's history, is cited by the National Safety Council to point up figures showing that alcohol is a factor in about half of all fatal motor vehicle accidents in this country. It has been so for 20 years; it almost certainly is so again this year. Statistically, this means that some 25,000 Americans die on the road each year because someone drank too much.

The problem has long been familiar. The question is: What can be done to deal with it? For one thing, the laws on license revocation should be tightened as needed, and then firmly enforced.

## Toward Cooperation

The best contributions made by the three-term administration of Gov. John Connally have been its long looks ahead into the state's future and efforts to prepare Texas for the governmental tasks looming in the 1970's.

Some of these have been no more, as yet, than unimplemented forecasts of needed state action, but others, particularly in public school and college education, have been impressive beginnings on massive longrange programs. And they cover a broad spectrum, from state parks, recreation, conservation and tourism, to reorganized local government, improved state-local relations and work toward constitutional revision, to water-resources planning and air-water pollution control, and on through a long list.

Typical of his commendable mark is the current effort of the governor and state agencies to work out with educators the means and objectives for closer, mutually beneficial cooperation between the University of Texas and the state government.

Under study for several years, this idea has great potential, as has been indicated by results of similar efforts in other states, such as Michigan and Florida.

State agencies can draw helpfully on the tremendous research facilities, advisory expertise, knowledge bank and analysis machinery of the university. And the university in turn can get closer to the realities, the workaday problems, of a state in transition and its challenges to self-government, especially in technologically advanced works and services.

How far away this seems from the only-yesterday distrust between the two institutions, the university's justified fear of the state's threat to its academic freedom and the state government's provincial suspicion of the intellectual community. Their current movement toward enlightened cooperation for double benefit to the public interest is hardly the least of the accomplishments in which the Connally administration can take pride.

## David Lawrence

### Responsibility Remains

WASHINGTON — Vice President Humphrey has just made a campaign speech in San Francisco in which he promises, if elected, to do everything in his power "to place international peace-keeping soldiers in troubled areas rather than American soldiers."

He adds that "nowhere would a United Nations peace-keeping force be more welcome than in Vietnam."

**BUT, REALISTICALLY,** the United Nations is helpless and paralyzed. Not only does the Soviet Union, which is primarily responsible for the prolongation of the Vietnam War, possess a veto power in the security council, but it has managed by intimidation, subversion and other means to command at times a majority in the general assembly.

But the suggestion that the U.N. will take over from the United States the military problem of forcing peace lacks any practicality. No matter who is elected president this year, the United Nations is not going to undertake the task of ending the war in Vietnam.

### WHAT IS EVEN more misleading

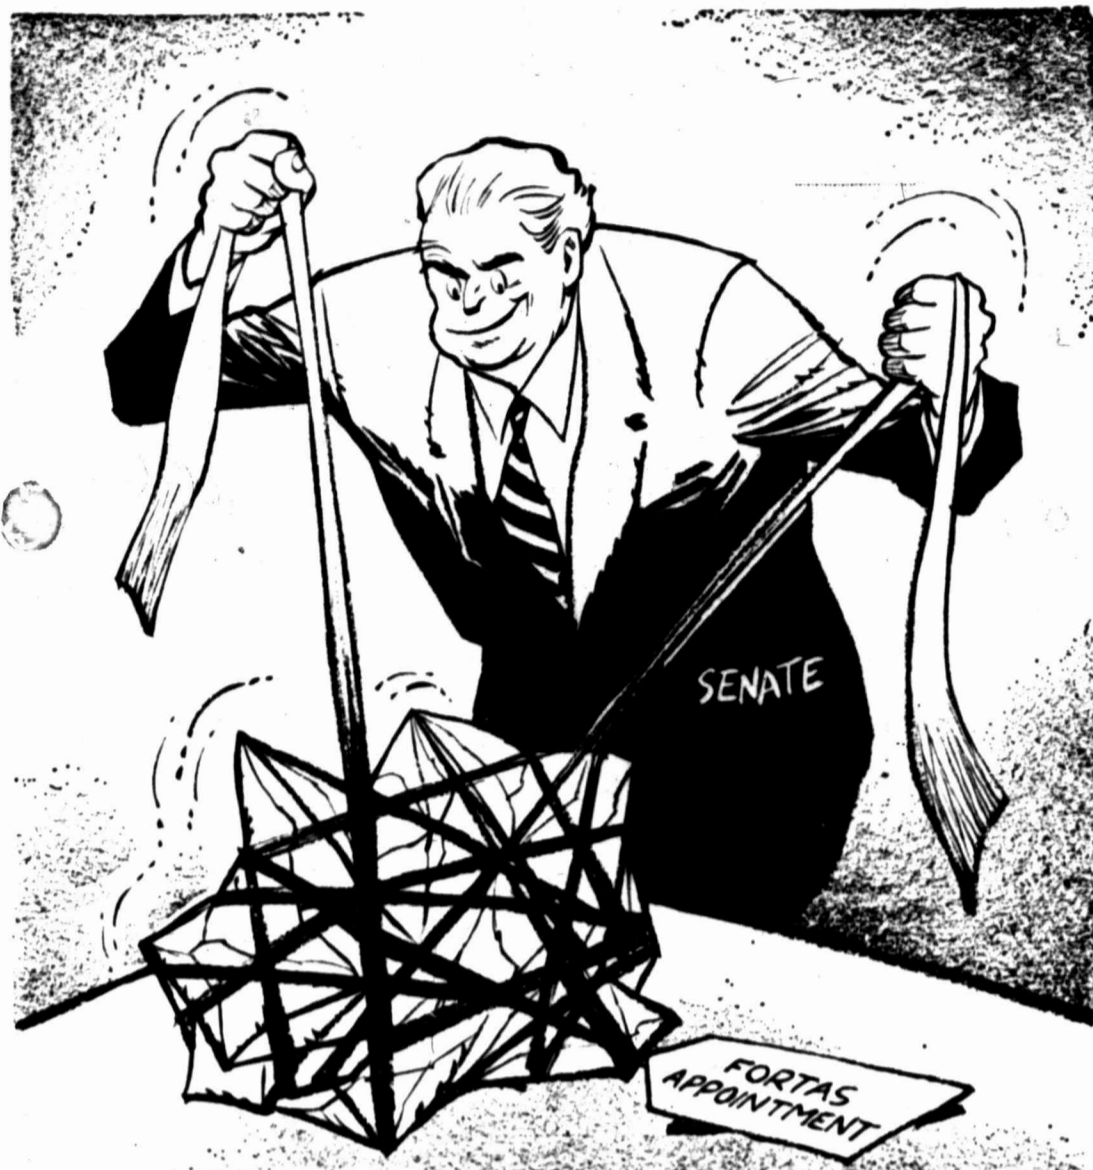

## Billy Graham

What do you think of the charge that TV Westerns and spy programs are influencing our children toward violence? Is there any way to curb the growing violence in our society?

The TV Western and spy program conveys the idea to children that "the end justifies the means." The "good guys in the white hats" use guns to shoot up the bad guys, and thus, the users of violence become heroes, and their actions justified, in the mind of children. While the idea conveyed the "crime doesn't pay" is good, the concept that violence is always justified in righting wrongs is misleading.

Psychiatrist Wertham said in U.S. News and World Report, "Children of 12 and 13 are killing now... we seem to be running a 'head start' program for violence." Violence is contagious, and when children see people flagrantly breaking the law (even in a good cause) on TV, in the news and in Westerns, an idea spawns in their impressionable minds, and a more violent generation is born.

Historian Dr. Daniel J. Boorstin has said, "Lots of academic people... who are sympathetic to minority groups and poor people seem to be very ingenious at finding justification for the use of other than traditional and civilized means. I really think this tragedy is just the beginning, unless we are willing to ostracize people who advise others to use violence." If we were to try Christ's Golden Rule (it is to date untried) we would come nearer settling our modern problems. Lincoln said, "There can be no successful appeal from the ballot to the bullet."

TYING UP LYNDON'S GOING-AWAY PRESENT

## John Cunniff

### A Feeling Of Awe

NEW YORK (AP) — This is the day that the Boeing Company rolls out its superjet, the incredibly large 747 that can carry up to 400 passengers at 625 miles an hour for 6,000 miles. Everything about this plane is so large that it seems to belong more to the future than the present. But there is always a sense of awe about the vehicles of air and space that doesn't apply to those of land and water.

TEN YEARS ago Americans were fascinated by the first American commercial jet airliner. It was bigger and heavier than anything lofted into the sky before. It was 152 feet long, weighed 328,000 pounds and carried 111 passengers.

Most reports about that 1953 event convey a feeling of awe. Never would the writers have believed that in one decade technology would make their reports sound embarrassingly unsophisticated.

The present jumbo, a term the Boeing engineers dislike, makes the 1953 plane seem like something from the distant past. It is 231 feet long, weighs 710,000 pounds and carries four times as many passengers.

ALMOST EVERYONE who has seen it finds it difficult to believe. Some financiers went through the plant the other day and were excited as kids. Photographers who have tried to encircle the plane with their lenses have been frustrated. Writers have been unable to convey their feelings.

Just as well for the writers, perhaps, for even bigger and swifter products will be coming out of the hangar-factories in the next few decades. It seems inevitable, for the know-how and momentum are there.

Already Boeing is working on designs for a supersonic plane and, although the company is well behind schedule and some of the original theories might have to be dropped, the craft is almost certain to be flying in the 1970's.

UNTIL IT CAN, however, the 747 may be the plane that makes Boeing rich, returns airlines to a high level of profitability and even cuts down congestion around airports. That is what the Boeing people are hoping for.

At least one of the airlines that put in an early order for the new \$20 million jet also said

it would cut fares. Nobody has heard much about that suggestion of late, however, and rising costs might ruin the prospect.

To fulfill its own forecasts, Boeing has already invested \$500 million in design and development, \$200 million to build and equip a 44-acre building, and \$50 million to bring in rail lines and water and other necessities.

THE PLANE will be assembled at Everett, 30 miles north of Seattle, but the impact will be felt in every state. Primary suppliers of 133,000 Boeing-designed parts and materials number 1,500. And "second tier subcontractors" number 15,000. Somehow all this will be coordinated and connected and inspected in the plane. Boeing is certain the job can be done. So are the airlines. Twenty-six of them have announced orders for 158 planes.

By 1972 Boeing expects to have produced and sold 400 airplanes and to be building them at the rate of one every 2 1/2 days. Sales by 1978 are expected to total between 600 and 900.

Confidence doesn't put a plane in the air, however, and the 747 hasn't been one inch off the ground under its own power. It will rise, the engineers say. It has to. A \$750-million investment and the laws of physics dictate that it must.

## Hal Boyle

### It's Better To Have Loafed And Lost

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Drinking coffee is no longer regarded as a birth control help, but when the brew was first introduced to Europe in the 16th century it was feared that coffee made women barren and frigid. In Constantinople, a law was passed enabling husbands to forbid wifely use of the beverage.

LIKE TO BE comfy in bed? The prototype of a "dream bed" was recently displayed in Tokyo that was equipped with such cozy gadgets as a liquor cabinet, tape recorder, television screen and stereo set. Surely a bargain at only \$14,000.

Did you think the Sahara was the world's largest desert? No, the Antarctic continent is, notes the National Geographic Society. Its vast frozen wastes get only six inches of snow a year, equal to about half an inch of rain. This is less moisture than falls on Death Valley in California.

HEALTH TIPS: Unrelieved tension and stress contribute to heart attacks and age you sooner, says Dr. Hans Selye. Experimenting with rats, he found that a simple program of cold baths and regular exercise helped build their resistance against heart attacks.

Highway safety slogan: "The faster you go, the faster YOU go."

Urban woes: Those who flee the country for the city may face a future of disillusion. U.S. census surveys indicate that in the next five years the decaying cores of our major cities will increase three million in population but suffer a reduction of up to 66 per cent in available jobs.

Wool from Timber: Sheep have thrived on a diet consisting of 30 per cent cellulose fibers made by steam-heating hard and soft woods in tests conducted at the University of Missouri College of Agriculture. So far none of the sheep has grown a leaf.

WORTH REMEMBERING: "One of the queerest things about modern life is the number of people who are spending money they haven't got for things they don't want, to impress people they can't stand the sight of." —Catholic Digest.

Have you a cricket on your heart yet? These cheerful insects, long popular in the Orient, are now in vogue as pets among American youngsters. They sometimes make better burglar alarms than watchdogs do. In Hong Kong gamblers bet on cricket fights, and a bull cricket with a goat left-footed job sells for more than \$100.

It was James Thurber who observed, "It is better to have loafed and lost than never to have loafed at all."

## Around The Rim

### Change In The Weather

The man looked to the heavens as if hoping he could nod his head and bring a change in the weather and remarked:

"I wonder if it'll ever rain again. They say it always does out here but I don't now..."

His appearance belied his age — except for the tired look around his eyes. The orbs were expressive and alert to the passing parade, but had been asked to do too much down through the years. He was still vigorous at 50, but the odds were that he would never make it to the Biblical three score and 10. Man walks a tight rope down to old age.

HIS FATHER before him had hung on until he was 90, after telling people 60 years was enough time for any mortal. The parent had lived to the hilt, too, and oft acted as if he courted death.

"Sometimes I think God has turned His back on us out here," the fellow continued. "God, industry and the government. There was a time when this country had a future. But we've geared our economy so that when it don't rain it hurts. Actually this never was farm country and maybe God is exacting His revenge for changing it from ranch land, I dunno. "There was a time when the railroads provided the community with a big income and depended heavily upon the trade that originated from here. Now they turn most of the business over to the trucking industry.

"ALL THE YOUNG kids want to go on to school these days and that's commendable. But they all want to go into the professions, so's they can charge you what they want to and be within the law. It would be interesting to know if the professions ante up what they're supposed to at income tax time. Tell me this, who's going to grow the crops and repair the plumbing in another generation or two?"

"Everything that prospers these days either benefits from federal subsidies or get a tax writeoff. The insur-

ance companies loan the government money and then write their own tax laws.

"WE POKE FUN at Europeans for fawning over royalty, but we defy actors and athletes as if they weren't cut from the human mold. We wouldn't give a starving kid on the street a nickel, unless it was before a TV camera. Some of the biggest rackets being worked these days are being done in the name of Sweet Charity. Who ever sees their book-keeping?"

"The most honest guy I ever knew was in the rackets. He didn't use the muscle but the patrons knew he could and they were paralyzed by the thought. People are running scared and it's no wonder. They're afraid they're not going to get theirs. They'll cheat and lie for what they think is coming to them and if someone gets hurt that's too bad. The important thing in this day and time is to take care of yourself. The big guys move you around like chess pieces. You stay with one job 20 or 30 years and suddenly they push you over the side and beckon for some punk that won't stay put for six months.

"IF YOU GET something going, a chain outfit will move in next door and beat you 40 ways to Sunday, or else the Supreme Court will declare it illegal because you haven't hired enough of the minority races.

"A man takes his knocks and then goes home to get chewed out by his old lady because he's not being a good father. Tell me now, what do the dames want, besides your paycheck — a pint of blood? No wonder men die of heart trouble at 50."

The fellow looked up at the sky again and meditated awhile, then muttered:

"IT MAY RAIN. My corn is aching. Of course, I don't believe in such signs but my mother always believed it and usually could call a change in weather." —TOMMY HART

## Holmes Alexander

### Nixon Needs Boldness

WASHINGTON — That was Richard Nixon, statesman, talking when he said he would keep hands off the case of Abe Fortas because it was the Senate's business. And Statesman Nixon was talking when he said he favored school integration, but not the withholding of federal funds to punish states for non-compliance presumably because he knows that education ought to go forward, with or without race-mixing. And it was statesmanlike of Nixon to believe in nuclear non-proliferation, but not at the time Russia is occupying Czechoslovakia.

IN EVERY instance, Nixon was threading the needle of hightone knowledgeability. He was on the beam in the stratosphere of exalted leadership. He was right, dead right, as he strode along, but by November he could be just as dead as if he'd been wrong.

Has he forgotten that he isn't in the White House yet? Tom Dewey in 1948 remarked when he heard of President Truman sending an emissary abroad, "Oh, I wish they'd let foreign policy alone until I get down there!"

Charles Evans Hughes went to bed on election night, 1916, and left word that "the President-elect" does not wish to be disturbed.

WELL, THE unexpected happens in politics as usually it does, to the swollen heads who fail to wear the crown. There is a time for all things. Statesmanship can wait until the frost is on the pumpkin. A political campaign is a time for being a campaigner and being a politician.

It can be done with class, as winners and losers have both proved. This is a contest, not a cabinet meeting, and the people want to know just this "Nixon, Wallace, Humphrey — does it make any difference?"

## Presidential Room

### Unique West Texas Tribute

By MIKE COCHRAN  
Associated Press Writer

ODESSA, Tex. (AP) — The poster says: "\$100,000 reward for Booth and 2 accomplices." A few steps away is the flowing inaugural gown of Mrs. Lyndon B. Johnson in miniature. There's a whaling ship permit signed by Andrew Jackson and a letter from John Quincy Adams.

Across the pillared, gold-carpeted room is a bust of George Washington, a portrait of a beardless Abraham Lincoln, a Goldwater-Miller campaign button.

AND A COPY of a very young John F. Kennedy's plea to his father for a 30-cent increase in his weekly allowance.

This is the Presidential Room, an unusually moving, expanding tribute to the most powerful office in all the world. It is dedicated fully to the American presidency.

It is one of this West Texas oil mecca's liveliest flirtations with culture, a project that has been a source of much civic pride.

"The Presidential Room," it is noted, "was conceived in an hour of national tragedy... created in an hour of total unity... and completed in an hour of faith that the presidency of these United States is a great and noble responsibility."

of the United States," explained one observer.

"A bi-partisan committee was formed to establish a museum that would show the constancy of the presidency through the commemoration of all those who had borne the title: Mr. President."

The citizenry responded to the plea for funds while the Ector Commissioners Court provided two rooms in the library basement.

An architectural firm donated plans for renovation. An interior decorator offered her services at no charge. Presidential mementoes poured in from a variety of sources.

"IT HAS GROWN from just a few exhibits to two rooms and we're out of room again," said Mrs. Frank Fischer, the museum's fulltime curator.

"We're hoping someday to have a building of our own, or at least a larger facility. 'We've had visitors from 46 states and about 10 foreign countries,'" she said.

More than 20,000 persons have visited the main room, its entrance marked with the presidential seal, and the Presidential Room annex.

Many have been school children, some herded in by teachers in a multi-county area around Odessa. "They can see a plate used at Dwight D. Eisenhower's first White House birthday party or the hat President Johnson wore at his inauguration."

There is Franklin D. Roosevelt's red umbrella, a signed color portrait of the nation's first family, a similar portrait of Theodore Roosevelt and a naval commission signed by Thomas Jefferson.

### Gains Ground

Halfback Leonard Basco (43) churns out yardage against the Odessa Etor Eagles Saturday night in the Big Spring Steers' 28-10 victory. An unidentified Eagle player comes up for the tackle while Big Spring end Jimmy Farris moves in for a block.

## Steers Leading Opponents In Most All Departments

Although the Big Spring Steers are sporting only a 1-2 record at this point, they are leading their opponents in almost every phase of the game. Big Spring has chalked up more first downs than opponents, 52 to 32; more rushing

## Pass Steal Was Turning Point

When the third act after the intermission opened Saturday night in Odessa the Big Spring Steers were cast in the same role as their two previous games. They were playing catch-up to the Etor Eagles. Only this time when the curtain came down they were the heroes and had wrapped up a 28-10 victory, their first of the season.

The Odessa eleven had played a superb contest in the first half, building up a 10-0 margin before intermission. But the Steers made a transition from 90-pound weaklings to vigorous rambling giants in the dressing room and when they emerged for the final 30 minutes of play, the Eagles were sitting ducks. Coach Spike Dykes said that after playing in a low key the first half, the Steers made several adjustments in their game plan in the halftime caucus. And they talked about the future of football in Big Spring.

The boys decided to make up their minds about playing good football or not. Dykes said, "They weren't pleased with their play, why Etor had played good in the first half."

When the Steers hit the field it didn't take long to reverse the situation. With Ken Barfield's pass interception, Big Spring went on to score. Then a blocked punt five minutes later by Emmett Miller gave the Steers the chance to go ahead.

"The interception was the turning point in the game," Dykes said, "and the blocked punt made the big difference in morale. The win gave the boys a lot more confidence." Dykes said that the Steers' outlook should be different in the weeks to come. "There's no reason why they couldn't play like that all year. We can meet anybody if we

## Cards Prepare For Series, Romp 11-1 Over Astros

Richie Allen and the St. Louis Cardinals are ready for the next stop. Only the Cardinals are sure where it will be.

St. Louis prepared for its World Series date with Detroit with an 11-1 romp over Houston Sunday that helped erase memories of a mediocre September for the National League champions.

Allen, reportedly unhappy and anxious to be traded, walked a grand slam and drove in seven runs in Philadelphia's 10-3 rout of the New York Mets.

In other National League action on Sunday's final day, Atlanta nipped Los Angeles 2-1, Chicago shaded Pittsburgh 5-4 and Cincinnati shut out San Francisco 3-0.

The Cardinals packed nine runs into the second inning—three of them scoring on a single by Orlando Cepeda.

offense, 668 to 501; and more total offense, 934 to 811. Competitors lead in yards gained passing, 310 to 266, with opponents completing 12 of 39 aeriels and the Steers hitting on 21 of 65.

The Steers mistakes column shows 13 fumbles lost to nine for the enemies, but Big Spring has swiped five passes to three for the opponents. The Bovines also lead in punting with Gary Hinds boasting a 38.3 average on 13 boots, while opponents have a 30.3 average on 17 kicks.

Roy Lee Warren paces Big Spring ball carriers with 345 yards in 68 carries for a 5.1 mean, while Leonard Basco has 127 yards in 18 trips for a high 7.3 mark.

Hinds leads in passing with 142 yards in 29 attempts and nine receptions for two touchdowns. Johnny Patton has attempted 34 passes, and completed 12 for 124 yards.

Leading receiver is John Rutherford with eight catches for 86 yards and one touchdown, and Jimmy Farris has four receptions for 45 yards.

He also said the passing game needed more improvement in all departments, passing, receiving and protection.

The Steers left the field without an injury this week, and will be in better shape to face the Lubbock Westerners in Big Spring Friday.

"The win showed what the boys can do if they try," Dykes said. "We can be just as good as we want to be."

## COWBOYS MAKE IT 3-0 WITH 45-13 WIN

# Dandy Don's Aerials Buzz Eagles

PHILADELPHIA (AP) — Apparently it's true that some people never learn. Bob Hayes inferred as he explained the touch-down play that keyed a 45-13 National Football League victory for the Dallas Cowboys over the winless Philadelphia Eagles Sunday.

The unbeaten Cowboys led, 14-13, in the third period when quarterback Don Meredith hit the speedy Hayes with a 44-yard touch-down pass. It was a slaughter from then on as Dallas turned numerous Eagles' mistakes into a parade of points.

The Green Bay Packers beat the New York Giants both and the Los Angeles Rams and apparently they haven't done a thing about it," said Hayes after the game.

The "route" Hayes took to outpace the Philadelphia defenders was a plain down-and-in pattern. Hayes took the ball over his shoulder and the former Olympic sprint champion ran away from a pair of defenders.

That was the play we were looking for all day," said Hayes. Asked about the play and in-

formed of Hayes' observation, Eagles' coach Joe Kuharich replied: "The winners tell stories and the losers cry deal."

The story of the winners was five touchdown passes by Meredith, the third time in his nine-year career the dandy Dallas passer has accomplished this feat. After the Eagles took a brief 3-0 lead in the first period on a 23-yard field goal by Sam Baker, Meredith took over.

The Dallas passer threw touch-down aeriels of two yards to Dan Reeves and 11 to Lance Rentzel for a 14-13 halftime lead.

The key play to Hayes and the Philadelphia mistakes—five interceptions, two fumbles and a short punt—caught up with the Eagles in the second half. Dallas eked out its third win and Philadelphia had its third defeat.

Asked if he thought Dallas had improved over last season, when the Cowboys won the Eastern Division title and lost the NFL crown in the last seconds to Green Bay, Kuharich said: "Some players improve, some remain static and some go backwards."

## Jones Boy Snares Five For Giants

By The Associated Press — The Jones boy has New York buzzing again and a couple of Smiths are hitting it big for Baltimore. But Green Bay has had its fill of just-play Bills.

Speedster Homer Jones, shackled in New York's first National Football League game this season, snared five Fran Tarkenton passes for 179 yards and two touchdowns Sunday as the Giants drubbed the Washington Redskins 48-21 for their third consecutive victory.

The Smiths—295-pound Bubba and 250-pound Billy Ray of Baltimore's defenses—set up three interceptions that were back for touchdowns as the unbeaten Colts demolished the Pittsburgh Steers 41-7.

At Green Bay, Bill Munson's second scoring strike to Billy Gambrell, a 12-yard flip with 1:55 to play, gave the Detroit Lions a 23-17 nod over the Packers, who have lost two in a row

## Raiders Win 13th From Oilers, 24-15

HOUSTON (AP) — The Houston Oilers nursed injured pride today while the Oakland Raiders were home celebrating their most successful Eastern Division American Football League road trip.

The Raiders' defending AFL champion, notched their 13th consecutive regular season victory Sunday with a 24-15 triumph over the Oilers in the Astrodome.

The victory also was the third in as many games this season for the Western Division Raider who defeated Houston 40-7 the week last year for the championship.

He tossed 44 to Hayes and 10 to Don Perkins to make it 28-13 after three quarters. Mike Clark kicked a 26-yard field goal and Meredith completed his banner day with an eight-yard scoring pass to Rentzel in the fourth period. Meredith's sub, Craig Morton, tallied the final Cowboys' TD on a four-yard run.

It was a contest for a half as the Eagles, trailing 14-3, moved within a point by intermission with an 18-yard TD pass from King Hill to Gary Ballman and Baker's second field goal, a 13-yarder.

### PROGRIDS LATE

### Twins To Put On New Coaches

MINNEAPOLIS — ST. PAUL (AP) — Manager Cal Ermer and his coaching staff will not be rehired by the Minnesota Twins for 1969, the American League team was expected to announce at a news conference today.

### Betsy Rawls Wins Wright Tourney

ALBROOK, Calif. (AP) — "I was beginning to think I'd never win a tournament again," said Betsy Rawls after winning the eighth annual Mickey Wright Invitational Golf Tourney.

## Namath Intercepted Five Times, Jets Upset 37-35

By The Associated Press — Most professional quarterbacks, when they've passed for four touchdowns and 280 yards, figure they've had a pretty good day.

But don't talk to Joe Namath about it. The New York Jets' signal-caller also had five interceptions, with three of them run back 198 yards for touchdowns in the Jets' 37-35 upset defeat by Buffalo Sunday.

It was New York's first loss, dropping the Jets into a share of first place in the American Football League's Eastern Division with Boston, and the first victory in four starts for Buffalo.

Those interceptions murdered us," Namath said. "I'm the one to blame for 'em. This dumb guy sitting here, I just wasn't reacting properly."

In other AFL games Sunday, San Diego and Oakland remained tied at the top of the Western Division with 3-0 marks. San Diego beating Cincinnati 31-10 and Oakland taking Houston 24-15, while Boston edged Denver 20-17. Kansas City trampled Miami 48-3 Saturday night.

Tom Janik made the longest run with the steal of a Namath pass, 100 yards in the second period. But Joe came back for a 55-yard touchdown toss to Don Maynard to give the Jets a 21-20 halftime margin.

Bruce Alford kicked a field goal, shortly after the half for a 23-21 Buffalo lead, and the Bills put it out of reach with Butch Byrd returning an interception 53 yards and Booker Edgerson another 45 yards for fourth period touchdowns and a 37-21 lead. Namath's third touchdown pass to Sauer in the closing seconds

### Garden City To Play Rock Springs

GARDEN CITY — The Bearkats came out of their loss to Imperial Friday in fairly good physical shape and Coach Jack Woodley thought the team might be at full strength when they go to Rock Springs Friday.

The Kats will need to be, especially on defense, because Rock Springs pounded Sterling 76-20 and another opponent 60-8.

Pat Halfmann, who has been nursing a sprained ankle, is due to be ready. Less certain is Robert Hilger, who had a shoulder injury at Imperial and only played a half. Otherwise the club is in good condition.

# GOP Is Expected To Be Big Spender

WASHINGTON (AP) — When Richard M. Nixon was nominated for president, Republican National Chairman Ray C. Bliss proudly presented him with \$1 million and a smoothly functioning campaign organization.

When Lawrence F. O'Brien was installed by Hubert H. Humphrey as both campaign manager and chairman of the Democratic National Committee, he found what he terms "a modest deficit."

In addition, the Democratic organization was in disarray.

Now, with five weeks to go until election day, O'Brien says that his organization is ready. But "we have nowhere near the financial resource that we would like to have," adding that, in this regard, "I envy Ray Bliss."

"You live with what you have," O'Brien says, adding

RICHARD NIXON

that he expects the Republicans to outspend the Democrats by 4 or 5-to-1.

Nixon relies on the more traditional pattern of a personal or-

ganization, operating out of New York and headed by John Mitchell.

Mitchell and Bliss meet each week to coordinate. But in over-all charge is the candidate himself.

For the Democrats, O'Brien functions as both head of the party and of Humphrey's own drive.

Neither O'Brien nor Bliss would estimate in interviews what the two parties plan to spend on the presidential and congressional races.

**\$20 MILLION**

A Republican source said, however, his party will spend at least \$20 million.

One result of the money situation is that the GOP advertising campaign is well ahead.

Shortly after Nixon's nomination, television commercials featuring excerpts from his acceptance speech began to appear.

But the first Humphrey television spot, about Medicare, went on the air only last week.

As a result, the Democrats have been trying "to secure as much free television time as we can," O'Brien says, by having Humphrey appear on such programs as late evening talk programs and question-and-answer sessions that are carried as a public service.

# New Park Manager Eyes Fee System

Big Spring State Park has changed superintendents again but no announcement was made of the shift.

"I've been here about three weeks," said E. C. Wisenbaker, the new park manager. "I was sent here when Ron Britton, who was here after Mr. Cramer left, had been transferred to Left Memorial Park."

Wisenbaker comes to Big Spring from Tyler, where he served for three years with the state park commission. He said he likes his new assignment but that it is a big change from the park in Tyler where he had worked.

He said he is getting acquainted with his new area and preparing for a number of additional improvements which are to be made in the park.

One feature soon to be activated, he said, was a charge for entering the park. The state park commission authorized charges for use of the park at a meeting some months ago.

Wisenbaker said he does not know how the fee system will

E. C. WISENBAKER

function, but that he has been told it is soon to be made operative.

Wisenbaker's family, comprising his wife and their three children, are now established in the official residence at the park.

His children are Michael Edward, 12, who is enrolled in school, and his two daughters, Melinda S., and Zephia, 3.

**Hollywood's Hippies Walk**

HOLLYWOOD (AP) — Hollywood's hippies don't like the new antiloitering ordinance aimed at keeping them off Sunset Strip.

About 500 young demonstrators marched along the strip Saturday night carrying signs criticizing the City Council and county supervisors for passing the laws. There were no incidents or arrests.

The ordinance was passed after the merchants on Sunset Boulevard complained that hippies were driving away their customers. The law makes it a misdemeanor to "unreasonably" loiter on any county street or sidewalk.

**Injured Teen Bouncing Back**

Charles Billeck, 14, is listed in much better condition this morning in a local hospital.

Young Billeck received a punctured lung Saturday morning when the car in which he was riding went out of control and overturned near Gail. His condition then was listed as fair.

The car was driven by Jimmy Brown, 16. Both boys attend Gail High School.

Billeck, lives with his parents at the Skelly Oil Co. Camp in northern Howard County.

# Republicans Open Office For Campaign

A campaign headquarters for the Howard County Republican party has been opened at 410 E. 3rd St., and the office is to be open every day, Monday through Saturday from 10 a.m. to 6 p.m. it was announced today by Dr. Akin Simpson, Republican County chairman.

"We propose to carry on campaigns for all Republican candidates, local, state and national," said Simpson. "We invite all people interested in any or all of the Republican candidates to visit headquarters, call the office (phone 263-1331), or to volunteer their services. We are open to helpful suggestions from any one."

Campaign materials are available from many of the candidates, and more are arriving each day, the chairman said. "We urge everyone to become active in the days ahead; only in this way can we have a part in the direction our country takes in the years ahead."

Plans are under way for many party activities in the next few weeks. Several speakers are scheduled for appearances before election day, Nov. 5, and announcement of specific dates will be made later.

# County Convict Asks Immediate Release

A convict, who has served 12 years in prison on a Howard County district court conviction, has filed a petition in 118th District Court here asking his immediate release on a writ of habeas corpus.

He is Millard Hassell, who was found guilty here for forgery on April 1, 1957. Because he was also ruled to have been previously convicted on two other charges of felony offenses, he was assessed a life sentence by the late Judge Charlie Sullivan, assumedly on the grounds that he was a habitual criminal.

Hassell, in his petition, asserts that he was not indicted as a habitual but was indicted for forgery and passing. He contends that he was convicted for forgery and no mention

# GRIN AND BEAR IT

made of the passing charge. He alleges that while the two prior conviction episodes were cited, that the indictment does not, in so many words, accuse him of being a habitual criminal.

Nor, he says, does the verdict returned by the jury designate him as such even though it does read that he had been previously convicted on two other complaints.

He says that under the law he is serving time for forgery, a crime that carries a maximum penalty of seven years, five years in excess of the maximum penalty for the crime for which he contends he was found guilty.

He asks that he be immediately released.

AGENTS RECEIVE 100 CALLS DAILY SINCE STORIES

# Drug Crusade In San Antonio

SAN ANTONIO (AP)—A concentrated effort to fight San Antonio area drug abuse is being planned by two county organizations and the eight-county Alamo Area Council of Government.

Robert Hein, president of the

Bexar County Pharmaceutical Association, said his group plans to introduce a preventive program on dangerous drugs to San Antonio schools, kicking off the drive during National Pharmacy Week, Oct. 6-12.

The program will be patterned after a similar one sponsored by the Harris County Pharmaceutical Association based in Houston, he said.

**CLOSE TO HOME**  
The Mental Health Association of Bexar County has offered assistance to any group interested in learning about or combating the abuse of drugs among young people.

Police Chief George Bichsel also has offered similar assistance from men on his force.

Officials of the organizations credited the recent surge in offers to combat drug abuse to a series on teenage drug addiction in the San Antonio Light. The newspaper articles, Tom Rocha, manager of crime patrol planning for the council, said, "brought the drug problem close to home." He said he plans to meet with officials of the Department of Health, Education and Welfare in Washington, Oct. 9 to determine how San Antonio can reduce juvenile delinquency under provisions of the Juvenile Delinquency Prevention and Control Act of 1968.

Harold S. Bass, president of the county Mental Health Association, also commended the Light, adding, "the problem is more serious than is generally realized."

**PAPER PRAISED**  
Meanwhile, agents at the San Antonio office of the Bureau of Narcotics and Dangerous Drugs said they have received from 100 to 150 calls a day on drug problems since the drug stories first appeared in the newspaper Sept. 23.

One unidentified agent described the calls as a "direct result" of the Light stories the newspaper reported. The agent said many of the callers gave

bureau information about illegal drug activities in San Antonio.

The county pharmaceutical association's educational pro-

gram calls for training three or four two-man teams of pharmacists to present a basic program in local schools, depicting the dangers in the misuse of drugs.

**SUCCESS**  
Hein said the Houston group "achieved quite a bit of success in preventive program in the sixth through eighth grade levels. We feel that we would be doing the most good at this level since we would be getting the message to children before they have the chance to experiment with marijuana and other dangerous drugs."

Hein added that his organization also plans to present the program to parent-teacher groups, civic clubs and youth clubs.

Officials of the county mental health association have offered to supply speakers, films or literature to any group wishing to learn more about the subject of drug abuse.

**Rally Kicks Off Crusade Here**  
Dr. Gordon Clinard, San Angelo, president of the Baptist General Convention of Texas, will speak at the Big Spring Association rally kicking off the Crusade of the Americas here today.

His address will be a feature of the meeting in the First Baptist sanctuary starting at 7:30 p.m. A huge choir, composed of members of a score of churches in this area, will be on the program, said the Rev. Byron Orand, College Baptist pastor and moderator, and the Rev. Jack Boyett, East Fourth Baptist minister and crusade chairman. Details of the hemisphere evangelistic effort in 1969 will be outlined to the hundreds expected for the event.

**Hound Is AWOL**  
MEMPHIS, Tenn. (AP)—The Shelby County penal farm has been plagued with several escapes during the past two weeks, and the job of tracking escapes was made even harder Saturday. The farm's blood hound went AWOL.

**Computerized Jetliner To Be Rolled Out Today**  
EVERETT, Wash. (AP)—The Boeing 747—a giant computerized jetliner destined to boost the airline industry into a new era—rolls off the production line today for its first public appearance.

The swept-wing superjet, costing about \$20 million each, can deliver 490 passengers—four times the number now carried on the largest commercial jetliner.

Some 1,200 persons, including Secretary of Commerce C. R. Smith, have been invited to the ceremonies when the 747 will be rolled out of a giant hangar in this city on the edge of Puget Sound, 30 miles north of Seattle.

The plane will be splashed with champagne by 26 stewardesses representing the airlines already signed up to buy the big plane.

The 747 can go nonstop for 6,000 miles at 625 miles an hour. The Boeing 707, the largest commercial jetliner now in service, carries an average of 141 passengers. It can go nonstop for 6,000 miles at up to 605 m.p.h.

The cargo version of the 747 can haul up to 100 tons, compared with 45 tons for Boeing's 707 cargo liner now in service.

Boeing officials say the superjet is a step into a new era for aviation, delivering more people faster than ever before, and they say, doing it cheaper than current intercontinental jets.

The 747 has been on the drawing boards for more than seven

years and construction has been under way for more than one year. The first plane will not get into the air until late December and then faces a year of flight testing for government approval before being delivered to the airlines.

Boeing already has orders for 158 of the big jets and the company expects to produce about 400 by 1972.

**Dear Abby**  
Lesson In Courtesy

DEAR ABBY: Last evening my daughter brought her boyfriend over to visit. I was pouring coffee, so I asked the young man if he cared for a cup. He just stared at me and didn't say a word. When he finally spoke, it was to say that he never realized before that I was cross-eyed, and he didn't answer me right away because he didn't know I was talking to him!

I said to him, "Young man, I am not only cross-eyed, I am extremely sensitive about it, but most people spare me embarrassment by not mentioning it, having learned from their mothers when very young that such remarks are rude and unkind."

Do you think I was justified in answering him that way? Or should I apologize to him just to please my daughter?

**WONDERING**  
DEAR WONDERING: You owe the boorish fellow no apology. He should have thanked YOU for the lesson.

**DEAR ABBY:** I am a widow who's been seeing a very eligible man for nearly two years. I know he thinks a lot of me because I am the only

woman he goes with. During our more intimate moments I have told him I "loved" him, but he has never said "I love you" to me. He has said, "I adore you. . . I think the world of you. . . you're the greatest," but he has yet to say, "I love you." Abby, these are the words a woman wants to hear.

We're not kids. I am 46 and he is 51. I've quit saying, "I love you" to him because I feel foolish when he doesn't reciprocate. (He says, "actions speak louder than words.")

I'd like to marry this man, Abby. What's wrong with him, and what do you advise me to do?

**LOVES HIM**  
**DEAR LOVES:** Actions do speak louder than words. And your friend acts like a man who doesn't want to get involved. The words, "I love you" are a commitment, usually followed by, "will you marry me?" He is shrewdly avoiding a more permanent relationship with you. Lose him, Lady. He'll "adore" you for as long as you let him, but I doubt if he's marriage material.

**DEAR ABBY:** I've been dating this boy for quite a while. I enjoy being with him a lot, but he just doesn't know how to kiss a girl.

It's hard to explain what he does, but after kissing him a few times, my lips are all bruised. Maybe it's because he plays the trumpet. Anyway, I have tried awfully hard to show him how to kiss, but he doesn't catch on.

I'd gladly skip the kissing and just sit around and "cuddle" with him when our friends are making out, but I'm afraid I'll hurt his feelings. What to do?

**SORE LIPS**  
DEAR SORE LIPS: It's either his feelings or your lips. If something must be sore — let it be his feelings.

**CONFIDENTIAL TO MARY R. IN HERMANN, MO:** If your fiancé is serious about wanting to buy you a \$7,500 diamond for your navel, tell him I think that's a lot of dough to go into the hole for.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069 and enclose a stamped, self-addressed envelope.

Hate to write letters? Send \$1 to Abby, Box 69700, Los Angeles, Calif. 90069, for Abby's booklet "How to Write Letters for All Occasions."

**Public Checking Changes In Returning TV Series**  
By CYNTHIA LOWRY  
AP Television-Radio Writer  
NEW YORK (AP)—Now that all the 20-odd new programs have had their premieres, the public will have time to take a look at the returning television series to see what, if any, changes have been wrought over the summer.

**BARBED REMARKS**  
"The Don Rickles Show" had its ABC premiere Friday night, a half-hour without much form but apparently designed to permit the star to indulge in his specialty—hurling barbed remarks in a good natured way. Rickles worked hard; his straight man, Pat McCormick, laughed a lot, and Danny Thomas came along to help. Nothing worked out very well for Rickles who is funnier as a guest on someone else's show than on his own.

**You Would Say Teacher Isn't A Day Over 17**  
EAST LANSING, Mich. (AP)—Walk into Edith Stern's trigonometry class for freshmen at Michigan State University, you would swear the teacher isn't a day over 17.

She isn't. She's only 16.

Edith is a mathematics phenomenon from Florida who was exposed to 24-hour-a-day classical music shortly after birth; was reading—and drawing books from the public library—at 2½; has an IQ of 154 to 201, depending on the test; and worries about her weight.

**FAT THING**  
She's lost 20 pounds since starting her graduate work at Michigan State, but would like to lose more. "So I can find inexpensive dresses that aren't so old-looking."

"I always was a fat little thing," she added.

Edith decided to come to MSU after graduation from Florida Atlantic University because she learned the school had an excellent reputation in mathematics and because MSU offered her a graduate assistantship to help pay costs. Her father is unable to work because of illness, and her mother is a sales clerk in a bakery.

There are two other young geniuses at Michigan State.

Michael Grost, 14, son of a Lansing couple, is completing his senior year this semester and will join Edith in the MSU graduate college studying mathematics.

**CRUSH OR TWO**  
Norman Plantnik, 16, a graduate student in zoology, is teaching general biology to sophomores. He is a graduate of Concord College in Athens, W. Va. The classical music as an infant was the beginning of years of disciplined work for Edith guided by her father, Aaron, who said he wanted to create a genius in his daughter.

Public school officials fought her father's plans to take Edith from the ninth grade into Miami-Dade Junior College. They lost in court.

Edith accepts—with reservations—her father's opinion that she is a genius.

"I believe it is questionable that I was born a genius," she stated. "It must be the experience, in terms of IQ I am a gen-
