DEATH TOTALS FROM EPIDEMIC ARE HIGH, 30 STATES LIST CASES

Spreading Hong Kong Flu Forces School Closings

The spreading Hong Kong flu epidemic has forced the closing

of some schools and colleges and raised absenteeism in business and industry.

FROM CALIFORNIA The new strain of flu has spread from Los Angeleswhere officials say almost 300,000 adults and children are absent from work or school—to New York City where Adelphi University in suburban Garden City canceled undergraduate

classes until Jan. 5, saying, "The Hong Kong flu has hit." The Merchant Marine Academy at Kings Point began Christmas vacation eight days early after about half of the 728 midshipmen were stricken.

The National Communicable Disease Center said deaths from exceeded normal expectations and termed the flu outbreak an epidemic. The center said outbreaks of flu and respiratory diseases from 30 states have been reported, with Hong Kong flu confirmed in 14 states, Puerto Rico and the District of Co-

Here's a rundown on what effect the flu has had on some areas of the country:

California-Los Angeles county health officials say the epidemic is expected to reach a peak between Dec. 17 and Christmas. Gov. Ronald Reagan's voice is husky and he's coughing frequently. All members of the police department have been immunized. In San Diego, four judges, eight court clerks and five court reporters absentee rates of 10 to 25 per cent, instead of the normal 5 to 6 per cent.

Michigan - Two Catholic schools in Detroit were closed because of flu and a spokesman for the public school system said 13 per cent of the students were absent Thursday. Chrysler Corp. reported "a significant

a General Motors Corp. employe said, "You could tell something was wrong. The expressway traffic was too light this morning." Classes at public schools in suburban Livonia, Mich., were canceled after 150 students came down with

Illinois - Hospital administrators in Chicago said employe absentee rates were four times as high as normal and warned outpatient services at some hospitals might have to be cur-tailed. Wheaton College in Wheaton, Ill., said it would close for Christmas vacation Friday -five days early-because of

today showed that admissions due to flu are not on the rise; in fact, in some cases there are fewer than in recent weeks. There is no appreciable attendance loss in the Big Spring

schools, officials said this morn-

ing, although there were a number of isolated cases.

Several business houses in the city reported some absenteeism, but there appeared to be no flu epidemic problem.

Massachusetts — College infirmaries are reported filling up, although no schools or colleges are closed. Dr. Nicholas J. Fiumara, director of the state's division of communicable diseases, predicted 30 per cent of the people in the greater Boston area would get the flu when the epidemic reaches its peak-expected around the first of the

Nebraska-Spokesmen for the Omaha school district said the number of absent teachers has increased from a normal figure of 80 to 85 to between 110 and

Washington, D.C.-The Hospital Council of the National Capitol area asked for voluntary restrictions on hospital visitors, warning that visitors can bring flu to hospitalized patients in

Virginia - Randolph - Macon College for women at Lynchburg was closed Thursday because of more than 100 cases of flu-type illness. Hollins College at Roanoke, Lynchburg College, Woodberry Forest preparatory school and two public schools closed earlier because of flu out-

breaks South Carolina - The Citadel in Charleston suspended classes after 165 cadets were hospitalized with flu.

Washington State — Fort Wright College in Spokane dismissed classes Thursday for Christmas vacation, which had been scheduled to begin next

PROSTITUTION

Ring Recruits School Girls

DALLAS (AP) - Chairman John McKee of the Dallas Crime Commission said Thursday that an interstate prostitution ring recruited 32 girls from Dallas high schools in the past 18 months.

He added in a report to the city council and police chief Charles Batchelor that investigators for the commission "were able to secure a woman for prostitution purposes" at 35 Dallas hotels or motels no longer than two months ago.

McKee said one of the high school girls is a daughter of a city policeman.

"Our conclusion is that prostitution is a well organized and well controlled machine tied in with dope," McKee said.

No ZIP For Santa

WASHINGTON (AP) - The Post Office Department, which urges use of zip codes, acknowledged today an embarrassing situation: it doesn't have a zip code number for Santa Claus

The issue arose with a letter received from a father in Roanoke, Va., who said he was helping his 5-year-old boy write a letter to Santa Claus. The boy reminded his dad not to forget the zip

What was the zip code? "Ho, ho, ho," the boy replied, according to his father, who sent it on

as wisdom from the mouths of babes. The Post Office hasn't replied - the matter is under consideration. At any rate, it would have to be "Ho, ho, ho, ho, ho." A zip code has five numbers - or ho's.

Draft Call Up

AUSTIN (AP) - Texas' February draft call is for 1,564 men, highest since May, when 2,223 were called, state Selective Service headquarters said

The national call is for 33,700 men. State draft director Morris Schwartz said the quota is mostly for the Army. The February quota compares with 1,363 in January and 869 in December.

Truckers Killed

COLORADO CITY (SC) - Two Georgia men were killed about 1:50 a.m. Thursday when the 21/2 ton truck in which they were riding plunged over the side of an overpass on Interstate 20 at the edge of Loraine, and fell 30 feet to FM 644. The driver, Calvin Leon Sprinkles, 21, of Wintersville, Ga., was killed instantly, according to Justice of the Peace Homer Hart, Loraine.

The passenger, Bobby Gene Seagraves, 21, of Athens, Ga., was pinned in the wreckage for almost an hour. When finally released, he was taken to the Johnson Hospital in Loraine, where he died about an hour later.

The bodies of the two men were at the Kiker and Son Funeral Home in Colorado City Thursday and were to be taken to Midland today to be returned to Athens, Ga., by plane.

It's Kettle Time Again

And none too soon, for the Salvation Army is being beseiged with needs for Christmas help. C. W. Pruitt, Dudley Jenkins, H. W. McCanless and R. H. (Shorty) Snyder tuned up Friday in preparation for manning the kettles Saturday for the Elks. The kettles are a week late this

year in order to hold them to volunteer help so all funds can go to the Christmas baskets. So you are being urged to help make up for lost time by responding generously as you pass the kettles. Already 260 families are depending upon this for a merrier Christmas.

OLD FRIENDS HELP FUND

FUND got a substantial lift today, thanks to a traditional gift from the Big Spring Wholesale Beer Distributors Association, and gifts from other friends.

One remembrance came from military people formerly at Webb but who now live in Austin. They recalled the local program of helping take care of poor children at the Christmas season.

The CHRISTMAS CHEER

The CHEER FUND needs more help, and your gift doesn't have to be a large one. Any amount will help carry on a program that means holiday cheer to poor children, and helps meet emergencies of illness and hunger throughout the year. If you want to help, make your check to CHRISTMAS CHEER FUND and forward

acknowledgment. Thanks to these:

Gun Being Checked For Connection To Murder

Ballistics tests on the gun which is thought to have been used in the shooting death Monday of A. D. Blount are being made today in the Texas Department of Public Safety laboratory in Austin. Howard County Sheriff A. N. Standard Jr. left early this morning for Austin and the tests were scheduled for 1 p.m.

The gun, a .45 calibre automatic which was found early Wednesday morning by Standard, within a mile of the scene of the shooting, has turned out to be one of the keys in the investigation.

Blount, 40, who operated a local pet shop business, was slain about 10:45 p.m. Monday by an unknown gunman in the hallway of his apartment in the rear of the Pet-A-Zoo, one mile south of Big Spring on US 87.

After the gun was found Standard and his deputies began tracing the weapon from its point of origin at the Colt Firearms Co. in Hartford, Conn., to its last point of sale in Kansas City, Mo. Officers have found that it had not been reported lost, stolen or missing since it was last purchased

District Attorney Wayne Burns said today that a complaint may be filed soon should ballistics tests reveal that the gun in custody could be the one used in the shooting.

Jet Crashes, 51 Are Lost

A Pan American 707 jet exploded over the Caribbean sea and plunged into the water Thursday night 16 miles from Venezuela's international airport north of Caracas.

Fifty-one persons were reported aboard, 42 passengers and a crew of nine, including a trainee stewardess. A search for survivors was continuing, but none was reported.

Seven bodies were reported recovered before dawn.

A passenger list released by Pan American in New York listed 21 persons from addresses in the United States, but a number of these had Latin names, and it was not immediately known if they had been residing or visiting there.

Another five passengers were listed from addresses in Canada, one was from Italy and one passenger was believed to be from Ireland. The airline listed the other 14 passengers from Venezuela

News Parleys Are Planned

WASHINGTON (AP) - Herbert Klein, director of communications for President-elect Nixon, announced today that all members of the new Cabinet will hold news conferences, two of them today, and the rest by the end of next week.

Klein told newsmen that the newcomers are "most impressed" by the cordiality and helpfulness of President Johnson and his Cabinet team in easing the transition.

Most of the Johnson Cabinet officers have arranged office space in their own suites for the use of the newcomers.

Klein said the new members will be combining their indoctrination period here with trips home to settle personal and business affairs and trips to New York to confer with the Nixon staff on the selection of appointees to the "little cabinet"-assistant secretaries and undersecretaries-and less-

Table Plan Offer PARIS (AP) - High-ranking U.S. and South Vietnamese dip-

lomats met again as they readied a new offer to the Communists today aimed at ending the stalemate holding up the expanded Vietnam peace confer-

There was no advance indication that the Communists would agree to the latest allied plan. The allies were reported proposing a two-table arrangement for the conference, hewing to their concept of the parley as being two-sided between them and their opponents.

A North Vietnamese delegation spokesman stood fast on Hanoi's position. He said the table layout must reflect the Communist view of the meeting as four-sided, with full status for the Viet Cong's National Liberation Front.

Informants said the deputy chief U.S. negotiator, Cyrus R. Vance, arranged to present the new allied offer to his North Vietnamese counterpart, Col. Ha Van Lau, late in the day.

The North Vietnamese were also planning a protest to Vance.

The women stressed that parents should work with teachers in building a better understanding of art in the child. This includes encouraging the child to use materials on hand in creating art, and letting them put their ideas on paper. They emphasized that the object of art courses in school is to show the talented that they possess talent and to give the untalented an appreciation of art.

Mrs. David Hodnett reported on the recent PTA state convention and gave excerpts from a talk by Dr. Haim Ginott, author of "Between Parent and Child," who was one of the convention speakers. The author noted that the time to make friends with a child is very limited, and he should be "listened to" if he is expected to listen.

Mormons Form WT Stake

Jesus Christ of the Latter-Day Saints will be formed in West Texas Saturday and Sunday in

Both the preliminary and general meetings will be held at the Odessa Ward Chapel.

Elder Harold B. Lee, member of the Quorum of the Twelve Apostles, and Elder James A. Cullimore, assistant to the Quorum, will fly from Salt Lake City to Odessa Saturday to help formally create the new stake. A stake in the Mormon Church is a body of church membership roughly the size of a diocese in area. Although geographically smaller than a mission, a stake has a greater concentration of members. There are two missions in Texas. A stake is divided into wards, ELDER HAROLD B. LEE

ASSURANCE TO THE FAITHFUL

In last Sunday's lesson, we noted Revelation is divided into three parts - past, present and future. This Sunday's

lesson deals with the future and assurance to the faithful. Scripture reading this week comes from Revelation 4, 5

and 7. In the selection we see the scene shift from earth to heaven and the conditions of the everlasting life of the faith-

Revelation. The most significant number is seven, which is

universally known as the number of completion. In Revela-

tion we read of seven seals, seven trumpets and seven bowls. These all describe God's final judgement upon sinful human-

In chapter seven, we read of the sealing of the 144,000.

The multitude of the redeemed (7:9) is described as coming from all nations. The saved are pictured in white, long recognized as a symbol of purity, which parallels the so-called triumphal entry of Jesus into Jerusalem. How-ever, in Revelation Christ is securely seated on His eternal

Probably the best interpretation is that this number stands

for all the faithful of all ages. The number symbolically is said to represent 12 (Old Testament) times 12 (New Testa-

IMPRESSIONABLE

... ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

THE CHURCH FOR ALL . .

You have to be so careful what you say to children when they're at that impressionable age.

Our neighbor has a little daughter. And, being something of a skeptic, he's been careful not to let her be exposed to religious teaching, at least not in any direct way.

But the other night she asked, "Who is God?" And, since he wants to see her grow up with the highest ideals, he hesitated a moment before he answered her question.

Then he said, "God made the world." (And he wondered why he hadn't said "God is nobody - there

Her wondering eyes and pursed lips tugged at his heart. "Gosh, Daddy," she mused, "He's somebody

Whether you're a child or an adult, that pretty well sums it up. Either God is nobody-or He Is Somebody To Know!

And the church bells ring every Sunday.

BY GROUP REPRESENTING STATE COLLEGES

Fed Aid To Students Is Opposed

resenting many of the nation's

state universities and colleges. In a report issued in New York Thursday, the Carnegie Commission on Higher Education proposed that the federal government increase its spending for education from its present annual level of \$3.5 billion to \$13 billion by 1976, partly to provide direct aid to students through a loan bank.

RED TAPE Officials of the National Association of State Universities and Land Grant Colleges said the report was disappointing. Any increased federal spending for education should go directly to the schools, who could then pass the benefits on to the students, they

Russell I. Thackery, executive director of the association, which represents 100 public colleges and universities, said his group is sympathetic to the report's hope for providing aid to disadvantaged students.

But he said the Carnegie plan ignores the institutions themselves for the purpose of widening educational opportunities for all qualified students.

He said that increasing federal aid to the schools themselves would enable them to cut the costs for students.

"That would mean that a vast majority of qualified students could go to college without the bureaucracy which will be essential to administer any program of direct financial assistance to students," Thackery declared.

MONEY BURDEN "If funds are channelled

through individuals, there is a chance that many institutions which already are operating at substantial losses will be inclined to raise costs and charges more rapidly," Thack-

State Transition

Much thought has been given to the transfer of presidential power, and though the problem is less crucial and urgent in the transfer of gubernatorial authority in the states, more attention is surely due it there. Few states provide a governor-elect any funds, office space, staff, or agency access so that he can be well prepared to take over the executive branch on inauguration.

Gov.-elect Preston Smith, because of experience and facilities as lieutenant governor (a capitol office, chairmanship of the Legislative Budget Board, familiarity with the governmental machinery), should have a minimum of difficulty. But he has encountered enough to move him to decide to recommend that the next Legislature provide the governor-elect with funds and other means to prepare for his take-over of the state administration.

Smith should make a generous recommendation, and the Legislature should approve it. Permanent provision for the gubernatorial power transfer should be written into the statutes; it should be made a regular budget item.

Between election day and the inauguration, a governor-elect must organize a staff and get it in working order. He must prepare budget recommendations on taxing and spending that he will have to live with throughout his first term (Texas still has a biennial budget). And he must develop a detailed legislative program to present to the Legislature.

A governor-elect should not be expected to do all this on his own uncompensated time and at his own expense (or that of private contributors). It is in the state's best interest for a new governor to take office immediately ready for decision-making and action, and the state should pay for the necessary preparations. State government would be stronger and more effective if it provided for a smooth transition in executive authority.

Cabinet Speculation

Just as there was much speculation over whom President-elect Nixon would name to his cabinet, there now will be much conjecture over what his appointments mean.

Already there have been observations categorizing the appointments -all Republicans (because some had speculated that there would be some Democrats in an attempt at a coalition), all white (some had ventured there might be a spot to be filled by a personality of another race), all relatively close friends of Mr. Nix-

on (recalling the charge of chronyism levelled frequently at President Johnson), all middle-of-the-roaders (not surprising since this is where Mr. Nixon ran his successful campaign), etc.

Despite the temptation to indulge in the indoor sport of political guessing, it will be well to wait and see, and to accord to members of the cabinet all the charity and openess of mind that is due the new President. The well-being of the nation talking to a stone fence." is wrapped in all this.

S. Vietnamese At The Peace Table

PARIS - Members of the American negotiating team seek to get agree-ment with South Vietnamese negotiators on preliminary details for the opening of peace talks with representatives of all four sides sitting down at the conference table.

The arrival in Paris on Sunday of South Vietnamese Vice-President Nguyen Cao Ky ended a five-week delay while the government in Saigon of President Nguyen Van Thieu sought to wring concessions from Washington on terms of negotiations.

BUT IT APPEARED unlikely that the first session of the enlarged peace conference could begin this week as procedural details, including the shape of the table, were still unsettled. A North Vietnamese negotiator, speaking privately, virtually ruled out any chance of a start this week.

Ky with his beautiful young wife settled into a handsome villa in the fashionable suburb of Neuilly, indicating he expected the negotiations to be long-drawn-out. His formal airport arrival statement struck a conciliatory note.

"WE WILL NOT demand advantages or privileges," Ky said. "We will not demand that those on the other side surrender. We only ask that justice and reason prevail.'

Billy Graham

Because of financial limitations we are forced to live with my husband's father and mother. As you can imagine, this is far from ideal for newlyweds. We have little privacy, and although his parents are nice, I feel like we are living in a fish bowl with our every action seen by all. What is your opinion of such an arrangement?

When life was simpler in the U.S. many couples lived with one or the other of their parents. It was almost a necessity. The Metropolitan Life Insurance Company says that twenty years ago almost 10 per cent of all newlyweds lived with their in-laws, but today that figure is down to 1.7 per cent. This is no doubt due to the higher standard of living, and the increased capability of couples to strike out on their own.

There is no doubt about it: every couple should sit under their "own vine and fig tree," to use a Scriptural figure. The first year of marriage is the roughest, for the couple is really getting to know each other, and are called upon to make many

adjustments. Surely the Bible was right when God said: "Therefore shall a man leave his father and mother and shall cleave unto his wife: and they shall be one flesh." (Gen. 2:24). Perhaps this refers to living with parents or in-laws. It is far better to live on your own . . . but for some it is impossible at first. Then ask God to help you make the best of it.

But speaking to reporters outside his villa after chief negotiator Averell Harriman had called on him he took a tougher line. Asked if South Vietnam found Harriman an impediment to effective negotiation, as has been

HE TOLD reporters he was coming to Paris solely to ask the North Vietnamese to stop their aggression. If this is the line to be taken by the South Vietnamese delegation the talks can go on for months or they can be broken off following a long and bitter stalemate.

American sources continued to express hope that a formal session of the four parties can be held this week but how frail this hope is was evident by the difficulties encountered in arranging a meeting today between ing like a chimney? I know at Harriman and the head of Saigon's least three husbands in this negotiating team, Pham Dan Lam. very block who have given up Lam has been the official South Vietnamese observer during the twosided talks between Hanoi and the United States. Ky's role is to set the line for his negotiating team while

staying in the background. COINCIDING with Ky's arrival, Mrs. Nguyen Thi Binh, head of the National Liberation Front delegation, said in an interview with United Press International that if the NLF came to power in Vietnam they would grant diplomatic recognition to the United States and accept American technical and other assistance on the basis of mutual self-interest, Mrs. Binh also said the NLF taking power would be conciliatory toward former opponents in South Vietnam who promised to mend their ways and work for the

common good of the country.

ONE THING is abundantly clear as the haggle continues over how the talks shall be conducted. Any substantive discussion of the terms of a settlement is in the indefinite future, with January 20, the start of Nixon Administration Washington, as the nearest possible deadline. It is assumed here that Henry Cabot Lodge, now Ambassador to Germany, will take over from Harriman at that time. As a friend and close associate of Ky during his second tour of duty as Ambassador to Saigon between 1965 and 1967, Lodge will have a close working relationship with the South Vietnamese delegation. By that point the Chicago Police had been featured through hundreds of paragraphs and scores of photographs as foulmouthed, sadistic composites of the Hun, the cossack and the Hitlerite storm-trooper. The cops were no more saints than the invaders were martyrs.

The defense of Chicago was no more a crowd-control operation than the filthy incitement to counterviolence was an exercise in political dissent. The bare-armed policemen were in a pitched battle to save the city and the Democratic Convention, the authority and policy of the U.S. government, the very life of the nation, from overthrow at the hands of organized revolutionaries. It was war, and war is hell.

What is little understood is that dictatorships and irresponsible governments which have substantial military power study carefully the statements made by prominent Americans and watch the course of anti-war demonstrations. Thus, the feeling has grown recently in the realms of communism that the United States will not again resist a takeover of a smaller country by an aggressor

IN 1914, when World War I broke out, the United States pursued a policy of aloofness. When unarmed passenger ships were torpedoed in 1915 by the Germans and American lives were lost, diplomatic notes were exchanged, but, once assurances were given to respect American rights, they were accepted. The Kaiser's government, having taken it for granted that America wouldn't enter the war, suddenly announced early in 1917 that there would be unrestricted submarine warfare against all ships, neutral as well as belligerent. President Wilson tried in February, 1917, to get Congress to enact legislation to permit the arming of our merchant ships, but the Senate balked with a filibuster. In April, 1917,

after more American ships were sunk,

WASHINGTON - The war it became necessary for Congress to adopt a resolution declaring a state of war.

> ALMOST THE SAME thing happened prior to World War II. Isolationism was extolled, and antiwar demonstrations were carried on. Indeed, President Roosevelt won a third term in 1940 largely because he indicated clearly what the United States would not become involved in the war which had broken out in Europe a year earlier. The Hitler government, however, wanted to take no chances, so it persuaded the militaristic regime in Tokyo to attack Pearl Harbor in the hope of forcing the United States to concentrate militarily in the Pacific and abandon any idea of helping Western Europe.

TODAY THERE are trouble spots in the Middle East as well as in Southeast Asia. The Soviets are building up their naval forces in the Mediterranean, and this will make the problems of the North Atlantic Treaty Organization even more difficult if it should be called upon to protect Italy, Greece and Turkey, along with Western Europe, from invasion.

Meanwhile, misunderstanding and miscalculations can grow. Secretary of Defense Clark Clifford, undoubtedly with the best intentions, has just proposed that there be a mutual withdrawal of United States and North Vietnamese troops from South Vietnam starting in the next 40 days. But nothing was said about how to prevent the Viet Cong, which is a military arm of the North Vietnamese, from continuing guerrilla warfare in South Vietnam.

THE BIG QUESTIONS are whether the North Vietnamese, who can any day go back across the border into South Vietnam, will honor the obligations of an armistice agreement and whether any international force will again defend the invaded country.

Peace in the world today and for many years to come depends on the resoluteness of the United States whether the American people are prepared to help protect weaker nations around the globe. (Copyright, 1968, Publishers-Hall Syndicate)

That defeat suffered by HCJC's Jayhawks by CCSW in the Odessa Basketball tournament last weekend may be the best

thing to happen to the Big Spring team this season. A team that yields 124 points, as the Hawks did, couldn't be offering much resistance. Coach Buddy Travis had been telling his boys all year they were going to have to cement their defenses if they expected to contend for the Western Conference

championship CCSW then went out to prove Travis' point. The Jayhawks ing defensive player on the beat a steady rat-a-tat-tat on the Trojans' goal. The only trouble team will be recognized when was, they couldn't score often enough to win.

So it's back to the drawing board for Travis and his athletes. stages its banquet for the 1968 se-an Incidentally, Travis is of the opinion that CCSW is as strong Bulldogs at 7:30 o'clock in the as it was last year, when little Joe Hamilton led the Trojans to Elementary School Cafeteria the Region V title here. Hamilton has fled to North Texas State here Saturday night. University but coach Bill Blakeley spent the summer recruiting Dan LaGrasta, head coach in the East and Midwest with good results.

If the present Big Spring High School basketball team can overcome a tendency to worry itself into defeat before a game and plays up to its potential, it'll win some games in District 3-AAAA.

The Longhorns met a tall but undisciplined El Paso Jefferson in the first round of the recent Odessa tournament. For a time, the locals played as if the Silver Foxes were the Boston Celtics and the ball weighed a thousand peunds.

By the time the locals untracked, it was too late. When 6-3 Snake Tucker returns to the lineup, the Steers can and will show more muscle under the baskets.

Midland Lee, which met the Steers earlier this week, returned only three lettermen but what veterans they were - 6-8 Randy Prince (only a junior), 5-10 Ted Knight and 6-5 Kelly Roach.

That Excitement '68 campaign in Dallas conducted in advance of the 1968 SMU football campaign didn't get the fans' adrenaline to racing as school officials had hoped. The Ponies averaged only 31,000 paying customers at each

other game species.

The rabbit is hunted by man and beast alike and simple arithmetic would seem to dictate his extinction, but that is not the case. Nature equipped this fellow with the ability to multiply as fast as all his (or her) subtractions. Sometimes, even faster.

Without man as a controlling factor (many of the hare's natural enemies have been eliminated with the taming of the land, thereby upsetting the balance of nature), we would be up to our noses in bobbing bunnies.

Years ago, a few dozen European rabbits were introduced into Australia, where there never were any balancing predators. The result was that the rabbit population grew to billions in jig time. To this day, the rabbit population grew to billions in constant problem and the furry creatures threaten constantly to eat the Aussies off the continent.

We have they oppose the simple representatives.

The cottontail navigates at speeds up to 18 miles an hour but can change directions like a ricocheting bullet. His prairie cousin, the jackrabbit, on the other hand, can rocket along at speeds up to 45 m.p.h.

More jackrabbits are, of course, homesteaded in this part of Lone Star Conference football the world. Some hunters insist it takes three persons to see Coach-of-the-Year is Buddy them - one coming, one here and one going.

AUSTIN (AP) — Gov.-elect
Preston Smith has announced that V. Larry Teaver Jr., a
Lubbock real estate man, will be an administrative assistant in the governor's office.

Teaver's duties will include management, staff services and public information as well as traveling with the governor, Smith said.

The governor - elect's announcement said Teaver, 40, has been a close confidant of Smith for a number of years and traveled with him throughout his campaign.

After World War II service, Teaver went into the real estate business. His firm, Teamac Homes, Inc., also handles mortgage loans and general insurance. Teaver also was chief inspector for the Retail Credit Co., Dallas, before going into the real estate business.

We also sell some superior domestic used cars.

May sound funny coming from a Volkswagen dealer, but it's

Because we get all kinds of cars as trade-ins. And as they come in, whether they're Chevys, Fords, Caddies, or VWs, our mechanics put them through a rigid 16-point safety

The ones that pass get the complete treatment. They're tuned up, tightened, completely reconditioned.

And then we guarantee them 100% for the repair or replacement of all major mechanical parts* for 30 days or 1000 miles. We simply can't afford to sell an unsatisfactory used car. Because every used car we sell carries the Volkswagen reputation with it. No matter what make it is.

Well-Heeled Super-Santa's **Shopping List**

CHICAGO (AP) - As most Christmas shoppers agonize over \$4 ties and \$5.98 blouses, a few are considering \$3,000 miniature silver pagodas and \$500

Those two items might show up on a well-heeled super-Santa's shopping list this year. The foot-high silver pagoda, suggested for use as a centerpiece, has greenery in the cen-

South opened the bidding with one diamond and, over his partner's response of two clubs, he rebid two spadesknown in the trade as a "reverse." This is a strength showing call inasmuch as it forces partner into the three level to show a mere preference for diamonds. When North raised to three spades, South took charge and, after checking back for aces, he drove to a small slam in

trick with the ace. A club was led to the ace and a trump was returned. Declarer put up the king from his hand and West played the ace. A heart came back and the king

was played from dummy. A diamond was led to the ace and then a small one was ruffed in dummy. The closed hand was reentered with a trump as East's ten appeared, and another diamond was trumped with the nine of spades. East was out of diamonds by this time, but he had no more trumps. South ruffed himself in with a heart, drew the last spade, cashed the king of diamonds dropping West's queen and claimed the balance,

West could have defeated the slam if he had held off on the first spade lead for, if declarer leads a second trump, West can now play the ace and another spade. South will be unable to establish his diamond suit. If, on the other hand, declarer leaves the trumps alone and tries to ruff diamonds, East will overruff the dummy on the third round with the ten of spades.

West had no good play to make when he was in with the ace of spades, and he should have retained his only control until such time as the proper course of action be-
