## 'BUDSTIKKE' FROM NORWAY; CITY'S PHOTO FROM SPACE

### Community Receives Unusual Gifts

Gifts To City

A large color photograph of West Texas — taken from the Apollo moon space ship and a scroll holder from Lt. Gen. Wilhelm Mohr, chief of staff, Royal Norwegian Air Force, were presented to Mayor Arnold Marshall, at Monday's Webb AFB-Community Council meeting. Making the presentations is Col. William C. McGlothlin, wing commander.

Would you like to see a Norwegian budstikke?

How about a look at a color photograph made of the Big Spring section of West Texas during the Apollo 7 mission last year?

#### UNUSUAL GIFTS

These two unusual gifts have come Big Spring's way, thanks to community-base relations. They were received by Mayor Arnold Marshall Monday at a meeting of the Base Community Council steering committee.

The "budstikke" was received from Lt. Gen. W. Mohr, commander in chief of the Norwegian Air Force who, upon a visit to Webb last November, was greeted by civic officials, made an honorary citizen of Big Spring, and presented with a big western hat. This struck the General's fancy, and he reciprocated with a warm letter of thanks to the city, and the unusual gift.

The budstikke was used in Norway many, many years ago as a scroll cylinder, and was used by persons

to pass important messages (of public meetings, church affairs, etc) from hand to hand. Later the stick became a hollow cylinder with the written message within its case. There is a long spike at one end, so that, if a messenger found no one at the home which he was supposed to contact, he could thrust the budstikke in the door.

In the Big Spring item was a letter from Gen. Mohr lauding this city's welcome, and expressing thanks for courtesies shown Norwegian students in training at Webb.

#### SPACE SHOTS

The "space shot" of Big Spring? Last Fall at an Air Force Association symposium held here, films were shown of the Apollo 7 mission, including shots made of the earth by the astronauts. One was directed over the West Texas area, with Big Spring visible.

Col. William C. McGlothlin, Webb wing commander, arranged for NASA to provide a colored photograph of this particular film frame, and this was presented to the mayor Monday.

# Nixon Gives Support For British View

LONDON (AP) — President Nixon renewed to Britain today a pledge that the United States supports the concept of an enlarged Common Market, including Britain, within a unified Europe.

Then with business aside, the President lunched with Queen Elizabeth II, broke the bonds of his tight security to shake hands with Londoners and became the first U.S. president to attend a session of the Mother of Parliaments.

#### DELIGHTS

This live side of Nixon the politician delighted the Londoners and dismayed his battery of bodyguards.

The security men were partic-

ularly worried when the President, after lunching with the queen at Buckingham Palace, ordered his bullet-proof car stopped at the exit gates and leaped out into a crowd of about 300, shaking hands right and left. White House men frantically pushed through to surround the grinning President.

The palace incident strayed completely off the hard and fast program laid out for his crash visit to London as part of an eight-day tour of Europe.

So did his later call at the House of Commons, an impromptu visit after he laid a wreath at the tomb of Britain's Unknown Warrior in Westmin-

ster Abbey across the street.

#### IGNORED

He sat as a spectator for about 15 minutes in the Commons, officially ignored. Under House rules even a visitor so eminent cannot be recognized from the floor.

At the U.S. Embassy in Grosvenor Square, scene of violent anti-American riots in the past, Nixon spent about 20 minutes giving a sort of pep talk to the assembled staff.

When he emerged there were several hundred spectators, mostly in the same cheerful and friendly mood the President had been exhibiting all day. One little knot—a handful of youths—shouted "Viet Cong" and "Nixon go home." But they were somewhat drowned out by the pro-Nixon cheers and the roar of his motorcycle escort revving up their engines. Nixon shook some more hands.

By now the President was so eager for public contact that he went even further when he arrived at Claridge's Hotel for a brief rest and a meeting with selected Britons from various walks of life.

#### SHAKE HANDS

He got out of his car at the main entrance and strode across the street to shake hands with idly curious. Most of them were obviously pro-Nixon and rather flattered at the attention. But there were some cries of "Victory for the National Liberation Front."

From somewhere in the crowd demonstrators threw mimeographed anti-Vietnam war pamphlets at the President. They fell harmlessly at his feet or on the shoulders of the security guards surrounding him. Nixon paid no attention at all, still gay, wandered back to his hotel.

Earlier in the day he met Prime Minister Harold Wilson for almost three hours at No. 10 Downing St., and pleased the British government leaders mightily by assuring American backing for their bid to join the Common Market. Ranging through the additional topics of the North Atlantic Treaty Organization and East-West détente, the President told the British just about everything they wanted to hear.

#### AFFIRMED

Nixon also affirmed the abiding commitment of the United States to the North Atlantic Treaty Organization and European security.

Trevor Lloyd Hughes, the British spokesman, reported Wilson expressed pleasure at Nixon's affirmation of support for the NATO alliance.

This appeared to place the U.S. administration in opposition to the policies attributed to President Charles de Gaulle for recasting the institutions of allied Europe.

But the French president's quarrel with Wilson's government was not directly discussed. The U.S. and British spokesmen said at the joint news conference.

## Blast Rocks Consulate

JERUSALEM (AP)—An explosion rocked the British consulate in East Jerusalem Tuesday while another charge went off in Lydda City market place, 10 miles from Tel Aviv, police reported.

Police said an explosive charge was hurled in the window of a ground floor apartment at the consulate.

British Consul John Lewin said the flat was occupied by Miss Joan Bennett, 28, a secretary from Ipswich, England. She was at home but escaped injury, he said.

Damage was reported to be serious.

The consulate had a narrow

## Czech Burns Self, Dies

PRAGUE (AP) — A young Czech student set himself afire and died today at crowded Wenceslas Square in downtown Prague.

The student, identified as Jan Zajic, about 19, splashed gasoline on himself, ignited it and dashed into the square from a building, witnesses reported.

They said passers-by tried to beat out the fire as the young man collapsed, apparently from the fumes and shock.

As police arrived he was carried into a building facing the square.

Reports circulated in the crowd of 200 Czechs at the scene that Zajic burned himself to protest the yielding of Czechoslovak leaders to Soviet pressure since the Soviet invasion in August.

## Mariner On Course For Tour Of Mars

PASADENA, Calif. (AP) Lugging two powerful television cameras, Mariner 6 sped on course toward Mars today.

The unmanned Mariner cast a glow visible for miles Monday night as it rocketed from Cape Kennedy, Fla. Scientists tracked it for 4½ hours, then locked its navigation equipment on two guide points, the sun and Canopus, the brightest star in the southern hemisphere.

Ahead lay a five-month, 226.3 million mile journey. Controllers at the Jet Propulsion Laboratory in Pasadena plan to fine-tune Mariner's course in about four days.

"We don't expect to determine whether life exists on Mars . . . but we may be able to establish whether it could exist or possibly even whether it did," said Dr. Robert Leighton of the California Institute of Technology. He's chief scientist for the television experiments.

"At the worst, we should be

able to kill a lot of old legends—such as the ones that say the dark lines seen by some astronomers are really canals carrying water from polar ice caps to cases in the desert, or the ones that say the vast regions that change color every spring are vegetation."

If all goes as planned, the 901-pound, windmill-shaped craft will sweep about 2,000 miles over Mars, its cameras and infrared equipment seeking water vapor clouds, dust storms and vegetation. From that height the camera could pick out an object 900 feet across.

**POCKED SURFACE**  
Man's closest look at Mars' surface came by way of Mariner 4 in 1965. From a height of 6,100 miles its less powerful camera showed a landscape pocked like earth's moon.

On March 24, Mariner 7 will rocket toward Mars. The twin craft are designed to photograph 20 per cent of the planet's surface.

## 'SMOOTHLY' Ike Making Good Progress

WASHINGTON (AP) — Former President Dwight D. Eisenhower continued today to recover "smoothly" from abdominal surgery and doctors called his progress "little short of remarkable."

A midmorning medical bulletin from doctors attending the 78-year-old general at Walter Reed Army Hospital said his "vital signs and cardiac status remain stable," important in view of his seven heart attacks.

"He is able to converse for short periods and his morale is excellent. Tea is being added to his oral intake," said the bulletin given reporters by Brig. Gen. Frederick J. Hughes, the hospital's commanding general.

Although doctors said Eisenhower "will have to be watched very carefully during the next two weeks," the atmosphere was relaxed at the press center today.

Officials indicated the round-the-clock watch might be stopped at the end of the day.

"General Eisenhower's general condition should be better than before his surgery in that the adhesions which have caused repeated attacks of gastrointestinal upset in the past have now been eliminated," Hughes explained.

## Truman Recovered

KANSAS CITY (AP) — Former President Harry S. Truman, described by his daughter as joking and in good spirits but eager to go home, may leave Research Hospital today.

Truman entered the hospital last Thursday night suffering an attack of gastrointestinal flu. The 84-year-old former chief executive was reported Sunday to have recovered from the attack, but doctors kept him in the hospital for some other tests.

"He's fine — he really is," said Mrs. Margaret Truman Daniel, who arrived Monday afternoon to visit her father. "He was talking and laughing. He wanted to come to the airport."

## Twins Enlist On Parents' Anniversary

Clifton Earl Coffman and Clayton Merle Coffman, twin sons of Mr. and Mrs. Jack Coffman, Coahoma, will celebrate their eighteenth birthdays by enlisting in the Navy at Albuquerque, N.M., Wednesday. Mr. and Mrs. Coffman also celebrate their 25th wedding anniversary on this date.

The Coffman twins enlisted with Chief Petty Officer Bill Bowers, local Navy recruiter, and took advantage of a special two year enlistment now being offered by the Navy. They attended Coahoma High School prior to enlistment.

## Wiley College Closed After Doors Barricaded

MARSHALL, Tex. (AP) — Wiley College closed today after Negro demonstrators barricaded buildings for the second time in less than 10 days.

Masses of state and local officers moved in, removed the material blocking the doors and searched one dormitory room-by-room. Local police said the search was for weapons but none were found.

#### ORDERED

The school closed on orders of the president, Dr. T. Winston Cole. He ordered students to leave the campus by 6 p.m. today.

In a notice nailed to a campus tree, the president said the decision to close the school would not be reconsidered under any circumstances.

Students barricaded doors one week ago and placed roadblocks on campus streets to enforce their demands for a long list of changes, including the resignation of the president, more Negro faculty members, more Negro cafeteria workers and restoration of intercollegiate athletics which had been cancelled a few days before.

The president could not be reached for comment. Methodist Bishop Kenneth Copeland of Houston, whose jurisdiction includes Wiley College, was in conference in Austin.

Harrison County sheriff's officers, Texas Rangers and state highway patrolmen today pulled down new barricades erected at some campus buildings. The number of officers was about 120.

It was the second time state officers had been sent to the college. About 100 went there last Tuesday but there were no demonstrations and they left. Students removed barricades and attended classes Thursday and Friday.

Dr. Cole had given the students until 8 a.m. today to remove the barricades.

The officers were greeted at

the campus by about 150 jeering students.

#### ON TREE

Dr. Cole in his notice on the tree said he took the action to close the school after conferring with the chairman of the trustees of the college.

The state officers were sent to the college both times on the

request of Police Chief Bill Oldham.

He said an undetermined number of students started barricading the buildings, picketing and "just milling around" about noon Monday, but no violence had occurred.

Wiley College was the scene of similar incidents last week.

## 7,000 SIGN IT

### Pupils Condemn Campus 'Violence, Disruption'

EAST LANSING, Mich. (AP) — More than 7,000 Michigan State University students have signed petitions condemning "intimidation, violence and disruption" on the campus.

Peter W. Hens, a Greenwich, Conn., senior, and an organizer of the petition drive said the campaign was begun because it was "ridiculous" that a small group of students could disrupt the normal functions of the university which has over 37,000 students.

Some young people recently have held sit-ins and demonstrations in protest of the firing of Bertram Garskof, a psychology professor.

The petitions against disruption said: "It is the aim of the undersigned students and faculty of MSU to seek the welfare of all the students while preserving the dignity of the university."

"This can never be accomplished in an atmosphere of intimidation, violence and disruption which is being fostered by irresponsible people."

Hens said he and other students hoped to present the petitions to MSU President John A. Hannah.

Goldman, who was an adviser to President Johnson, believes a caretaker government should assume the powers of the president in the event of the death of a President while new elections are conducted.

Goldman, talking with newspapermen Monday also proposed an end to use of joint resolutions by Congress and the position of "intellectual in residence" such as he held at the White House.

## Historian Wants To Ax Veep Post

PASADENA, Calif. (AP) — Historian Eric F. Goldman suggests the vice presidency should be abolished.

Goldman, who was an adviser to President Johnson, believes a caretaker government should assume the powers of the president in the event of the death of a President while new elections are conducted.

Goldman, talking with newspapermen Monday also proposed an end to use of joint resolutions by Congress and the position of "intellectual in residence" such as he held at the White House.

The building contains the main university switchboard which the protesters threatened to destroy "if the police come."

request of Police Chief Bill Oldham.

He said an undetermined number of students started barricading the buildings, picketing and "just milling around" about noon Monday, but no violence had occurred.

Wiley College was the scene of similar incidents last week.

## Protesting Students Hold Control At Two Colleges

By The Associated Press

Protesting students maintained occupation of buildings at Stillman College in Tuscaloosa, Ala., and on the Newark, N.J., campus of Rutgers University in the latest round of campus demonstrations.

#### NO POLICE

Rutgers President, Dr. Mason Gross, said there were no plans to call police to oust the 30 Negro students who "liberated" a major classroom building Monday to protest alleged "racist" admission policies.

A spokesman for the Black Organization of Students said they would remain in the hall until the university met all demands including admission of a greater number of Negro students.

The building contains the main university switchboard which the protesters threatened to destroy "if the police come."

Other than the loss of telephone service most university functions were normal.

At Stillman, a predominantly negro, Presbyterian Church-supported college, the protesting students ignored a deadline for vacating the closed school Monday.

College President Harold Stinson said a decision was expected today on what action to take against the students.

He ordered the college closed Sunday in the face of sit-ins and boycotts by protesters seeking better food service, dismissal of an acting dean and other demands.

Elsewhere: STONY BROOK, N.Y. — About 100 students blocked the office of one of four civilian Army recruiters and prevented him from holding interviews. The other recruiters interviewed all those interested in

the technical jobs.

UNIVERSITY PARK, Pa. — About 400 protesting students ended a sit-in at the Pennsylvania State University administration building after the school obtained a court injunction against the demonstration. They were seeking a greater voice in college affairs.

#### FIVE SEIZED

MILWAUKEE, Wis. — Five persons were seized by police during a demonstration at the University of Wisconsin-Milwaukee. The students were seeking the hiring of a Negro administrator for the Afro-American center.

SAN FRANCISCO — Tentative settlement of a teachers' strike was reached at San Francisco State College, but teachers said they would not return until the campus is peaceful—and striking students said it wouldn't be until their demands are met.

### Blaz Bailon Tosses Hat In City Race

Blaz Bailon, a local cafe owner and former Big Spring policeman, became the first candidate to enter the race for two city commission seats that will be selected by voters here April 1. Four filing applications were also picked up by others from City Secretary Charles Smith; however, none have been returned.

### City Receives Couple Ambulance Service Bids

The city received two replies in its request for an ambulance service here, when two bids were opened Monday. Action is expected to be taken tonight by city commissioners at their 7 o'clock meeting in city hall.

### Astronauts Test Skills

CAPE KENNEDY, Fla. (AP) — The Apollo 9 astronauts sharpen their skills in a spacecraft trainer today, rehearsing emergency actions they might have to take if their Saturn 5 rocket falls during the launching.

Air Force Col. James A. McDivitt and David R. Scott and civilian Russell L. Schweickart start a 10-day earth orbit flight Friday. Their main job is to test the lunar module (lem), the spindly-legged spider-like vehicle designed to land men on the moon.

A successful mission could open the way for two Americans to land on the lunar surface in June or July.

The lengthy countdown proceeded smoothly toward Friday's 11 a.m. EST, liftoff.

During the night, crews brought the main Apollo ship to a state of flight readiness. Today they load critical helium, used to pressurize fuel systems.

On another Cape Kennedy launch pad, the ESSA 9 weather satellite was readied for launching at 2:35 a.m. Wednesday.

From its 900-mile-high orbit, the craft is to keep a camera eye out for storm systems over the entire globe.

### Planned Parenthood Unit Selects New Officers

Officers and a board of directors were elected Monday for the newly organized Planned Parenthood Association, and the group set a target date of Sept. 1 for the opening of a clinic.

# Says Autopsy Deal Served Its Purpose

NEW ORLEANS, La. (AP) — The autopsy on President John F. Kennedy did exactly what it was supposed to do, an Army pathologist testified at Clay Shaw's conspiracy trial today.

"The purpose of the autopsy was to determine the nature of the wounds and the direction of the wounds," said Col. Pierre A. Finck. "We were satisfied with the nature of the wounds, their direction and the cause of death. In my opinion, this autopsy fulfilled its purpose."

Finck, a Swiss-born pathologist, was one of the three co-authors of the autopsy report, much of it still secret. His long cross-examination by Asst. Dist. Atty. Alvin Oser ended this morning after about nine hours on the stand.

Oser sought to discredit the autopsy's findings that Kennedy was shot from behind.

"As of this date, have you gotten any information that would cause you to change your opinion?" asked defense lawyer F. Irvin Dymond.

"No," Finck replied. Dist. Atty. Jim Garrison claims the President also was hit from in front during an alleged crossfire ambush in Dallas' Dealey Plaza on Nov. 22, 1963.

The Criminal District Court trial is in its sixth week. Shaw, 55, a retired businessman, is charged with conspiring with Lee Harvey Oswald and others to murder Kennedy.

Finck was definite in stating that all medical evidence showed the President was shot in the back of the neck and in the back of the head—and that it didn't take a microscopic examination to know it.

Finck refused to go any further, except to say the United States is conducting a "continuing and careful review" of the "understanding."

WASHINGTON (AP) — The State Department indicates any U.S. reprisals against North Vietnam because of bombardment of South Vietnamese cities would depend on how long the enemy attacks continue.

Press officer Carl Barth said the assaults "clearly raises a question as to the other side's desire to work toward a peaceful settlement of the conflict."

But he stopped short of charging that the attacks on southern population centers violated an "understanding" under which the United States stopped bombing of the North while the enemy halted attacks on southern cities and violations of the demilitarized zone.

Dressed in saffron robes, their heads shaven, a group of boys from an orphan village near Long Thanh, 20 miles east of Saigon in South Vietnam, give the traditional Buddhist greeting. The sign was erected by Allied troops in an effort to protect the village from the Viet Cong. The village is supported by a number of religious and civic organizations.

## Texas Baptist Leaders Study Controversial Carden Report

DALLAS (AP) — A closed-door meeting of the Texas Baptist Christian Education Commission today centers on the controversial Carden Report concerning the future of schools operated by Baptists.

The Carden Report prompted immediate statements by commission members that the document was only advisory.

Supporters of individual schools quickly pointed out that final authority concerning the schools apparently rests with the boards of each school under a Baptist principle avoiding tight, centralized control of the denomination's churches and schools.

Recommendations of the commission are not expected to be made public immediately.

The Carden Report submitted to the commission, recommended that Howard Payne College at Brownwood and Wayland Col-

lege at Plainview be sold to local tax districts and be separated from the denomination; that East Texas Baptist College at Marshall become primarily one for religious vocations; that the University of Corpus Christi be given an independent board and "allowed to determine its own future," that Mary-Hardin-Baylor College at Belton be placed under administrative control of Baylor University at Waco, and that Hardin-Simmons University at Abilene drop some of its graduate programs.

J. D. Moore of Victoria, chairman of the commission, said it is going to be a long time before any of our colleges are closed, if at all. The report was just one man's idea. Even if you accept a report it does not mean you approve of all of it."

The committee reviewed its efforts in 1968, and discussed the possibilities of a reviewing session for local businessmen at the Big Spring Experiment Station, at which time the soil survey report would be announced.

Also discussed were goodwill tours to communities in the area, and the visitation of the committee to a fair and stock show in the area.

The committee voted to look into the federal farmers insurance program, with the Chamber of Commerce determining the economic feasibility of such a program and if it would be available to farmers.

It was recommended that the agricultural committee and chamber of commerce staff watch for outstanding farm achievements in the local news media, and recognize farmers for their efforts.

A resolution was passed by the agricultural committee in support of the industrial team's efforts to secure a textile mill for the area.

Standard said that it is now officially agreed that the bones found Jan. 15 in a pasture west of here are those of Clark.

Clark was last seen alive three years ago. His niece told Sheriff Standard that she had made a search for her uncle when he disappeared in 1966.

Walter Grice, justice of the peace, has accepted the identification of the bones as those of Clark and has ruled death due to natural causes.

Close friends assisted in clearing up the case by identifying clothing fragments, an old hat and a pair of boots found near the skeleton as articles Clark was wearing on April 22, 1966, when he was last seen alive. The man was attending a funeral here on that date, his friends said.

Funeral services for Richard Lecroy, 52, traffic accident victim, will be at 10 a.m. Wednesday in the Nalley-Pickle Rosewood chapel. The Rev. James Puckett, of the Baptist Temple Church, will officiate. Interment will be in the Trinity Memorial Park.

Palbearers are to be C. C. Christenson, Haskell Coker, Muri Williams, Dale Hooper, Troy Newton and E. L. Osborn.

Mr. Lecroy, an employee of the Steere Truck Lines, was struck by a passing car as he sought to direct traffic around a disabled Steere truck on a highway near Llano. The accident occurred at 11:45 p.m. Saturday.

Mr. Lecroy was a native of Kansas and had lived here for about 10 years.

He is survived by his wife, three sons, three daughters, four brothers, three sisters and his parents.

Robert F. Cook, 78, retired former employee of the VA Hospital, died suddenly at 4 p.m. Monday in a local hospital.

Services are to be at 2 p.m. Wednesday in the Rosewood Chapel. The Rev. Pat Bullock, Crestview Baptist Church, will officiate. Nalley-Pickle is in charge of arrangements.

The body will then be removed to Murchison, Texas, where services are to be held on Thursday at 4 p.m. in the First Baptist Church. Burial will be in the Red Hill Cemetery at Murchison, beside his wife, who died in 1938.

Mr. Cook was a veteran of World War I.

He was born June 27, 1898, in Melrose, and came here in 1948. He worked for the VA Hospital until 1958. He was a member of the Crestview Baptist Church and also a member of the Independent Order of Odd Fellows lodge of Big Spring.

Survivors include five sons: Dawson Cook, Oklahoma City; Chilton Cook, Fort Bliss; Rev. Bill D. Cook, Odessa; Conley Cook, Portland, Ore.; and Daniel Cook, Louisville, Ky.; one daughter, Mrs. Myriene Slaughter, Corpus Christi; two brothers, Roy Cook, Big Spring, and Clyde Cook, Kilgore. There are 14 grandchildren.

## NEWS IN BRIEF Enemy Attacks Reprisals Key

WASHINGTON (AP) — The State Department indicates any U.S. reprisals against North Vietnam because of bombardment of South Vietnamese cities would depend on how long the enemy attacks continue.

## Baseball Dispute Settled

NEW YORK (AP) — The baseball dispute between players and owners has been settled, it was officially announced today.

## Cotton Week Okay Voted

The agricultural committee of the Big Spring Chamber of Commerce agreed Monday to continue its support of Cotton Week here and to continue the award for the first bale of cotton ginned in the county.

## Vocational Bill Postponed

AUSTIN (AP) — A bill creating a statewide Commission for Rehabilitation — postponed Monday after Sen. A.M. Alkin Jr. of Paris threatened to vote against it because "I don't know what it is" — was at the top of the Senate calendar today.

## Eye-glass Fitters Feud

AUSTIN (AP) — An old feud between two groups of Texas eye-glass fitters — the independent and the so-called chain store optometrists — will play a return date in the Senate sometime this session.

## Recruit City Candidates

GREENVILLE, Tex. (AP) — Residents of this North Texas city took steps Monday night to recruit candidates for an April 1 election to replace their city councilmen, who all resigned.

## Teachers Delay Return

SAN FRANCISCO (AP) — Tentative settlement of a teachers' strike has been reached at San Francisco State college but teachers say they won't return to classes until the campus is "peaceful."

## Planned Parenthood Unit Selects New Officers

Officers and a board of directors were elected Monday for the newly organized Planned Parenthood Association, and the group set a target date of Sept. 1 for the opening of a clinic.

## Probe Death Of Aquanaut

SAN DIEGO, Calif. (AP) — The Navy's formal inquiry into the death of Sealab 3 aquanaut Berry L. Cannon opens Wednesday under a three-man board headed by the commander of Naval weapons laboratory.

Final autopsy results confirmed that carbon dioxide poisoning caused the death of Cannon, 33.

He died Feb. 17 while attempting to check a helium leak in the Sealab habitat 610 feet deep on the ocean bottom off San Clemente Island.

The \$10-million Sealab project — man's most ambitious undersea living experiment — has been suspended pending the investigation. The support ship and habitat will return to Long Beach.

Palbearers are to be C. C. Christenson, Haskell Coker, Muri Williams, Dale Hooper, Troy Newton and E. L. Osborn.

Mr. Lecroy, an employee of the Steere Truck Lines, was struck by a passing car as he sought to direct traffic around a disabled Steere truck on a highway near Llano. The accident occurred at 11:45 p.m. Saturday.

Mr. Lecroy was a native of Kansas and had lived here for about 10 years.

He is survived by his wife, three sons, three daughters, four brothers, three sisters and his parents.

Robert F. Cook, 78, retired former employee of the VA Hospital, died suddenly at 4 p.m. Monday in a local hospital.

Services are to be at 2 p.m. Wednesday in the Rosewood Chapel. The Rev. Pat Bullock, Crestview Baptist Church, will officiate. Nalley-Pickle is in charge of arrangements.

The body will then be removed to Murchison, Texas, where services are to be held on Thursday at 4 p.m. in the First Baptist Church. Burial will be in the Red Hill Cemetery at Murchison, beside his wife, who died in 1938.

Mr. Cook was a veteran of World War I.

He was born June 27, 1898, in Melrose, and came here in 1948. He worked for the VA Hospital until 1958. He was a member of the Crestview Baptist Church and also a member of the Independent Order of Odd Fellows lodge of Big Spring.

Survivors include five sons: Dawson Cook, Oklahoma City; Chilton Cook, Fort Bliss; Rev. Bill D. Cook, Odessa; Conley Cook, Portland, Ore.; and Daniel Cook, Louisville, Ky.; one daughter, Mrs. Myriene Slaughter, Corpus Christi; two brothers, Roy Cook, Big Spring, and Clyde Cook, Kilgore. There are 14 grandchildren.

Palbearers are to be C. C. Christenson, Haskell Coker, Muri Williams, Dale Hooper, Troy Newton and E. L. Osborn.

# Teens Touring Texas From Land Of Incas

By JO BRIGHT

Peru, which was once the heart of the mighty Inca empire, and later, the seat of Spanish colonies in this part of the "New World", is also the home of two guests of Howard County, Miss Lita Espejo of Trujillo and Jose Antonio Cacho-Sousa of Lima.

The two young people are both members of Clubs Agrícolas Juveniles Peru (Agricultural Youth Clubs of Peru) which is the counterpart of 4-H clubs in the United States. They are part of a 15-member group which is visiting Texas under the sponsorship of the International Farm Youth Exchange program called "People to People." Since schools in Peru are in session from April to December, this is vacation time for Jose and Lita, who pay their own expenses for the trip. Students must apply for participation in the program in Peru, and families in Texas who wanted individual members of the group as guests in their homes, registered with the A&M state 4-H office. Lita's father is the adult leader accompanying the group. The youngsters' particular interests were considered in matching up the visitors and their host families. Jose is the guest of Mr. and Mrs. Joe Mac Gaskins of the Knott Community, and Lita is staying with the John Couch family near Luther.

The group left Peru by plane, going first to Ecuador and Mexico before arriving in Texas on Jan. 14. After spending two days in Bryan, Jose went to Brady where he stayed until coming here Feb. 8. He and Lita will rejoin the others in Houston Thursday where they will attend the annual rodeo and fat stock show.

When the other students return to Peru, Jose and Lita both plan to remain in the United States for a longer vacation. Jose plans another month of visiting friends in Wyoming, Nebraska and California. His older brother and sister have both spent a year in this country, and their hosts have invited him to spend some time in their homes. Lita's father will return home with his other charges, while she goes to Norfolk, Va., to see her uncle, Dr. Guillermo Espejo and his family. (Since her cousins in Virginia do not speak Spanish, Lita hopes to improve her English.) Dr. Espejo plans to take her to Washington, D.C., and New York City.

Jose is the son of Mr. and Mrs. Luis Cacho-Sousa who reside in Lima with their 10 children, four of whom are members of agricultural youth clubs.

Peruvian Guests

Jose Antonio Cacho-Sousa and Lita Espejo have been comparing West Texas living with customs of their native country, Peru, while they have been guests of Howard County families for the past two weeks.

His father owns a dairy which is located 600 miles from Lima (and 11,000 feet above sea level). It is stocked with Brown Swiss cattle which were purchased in the United States. Jose helps on the farm during the summer, but during the school year, he remains in Lima where he is enrolled at Colegio Santa Maria, a school operated by American Catholic brothers and priests. Students there do not choose their subjects, but Jose noted that his text books there are some of the same used in Texas. While here, he has visited the Sands High School and Howard County Junior College. When he graduates, he will enter medical school.

Lita's parents are Mr. and Mrs. Manuel Espejo of Trujillo, and she has one sister who is

16 years old. Her father has been a professional adult leader with the agricultural clubs for many years, and her mother is a medical doctor. Lita, who celebrated her nineteenth birthday Jan. 16, has completed two years of college work at a girls' school and plans to earn a degree in homemaking, with the aim of being a teacher.

Because her sister is in school, and her mother is occupied with a medical practice, Lita has been in complete charge of their home for several years. She enjoys doing the work of homemaking, or supervising others when extra help is needed. Besides visiting the Gail school and H.C.J., she has had a trip to Carlsbad Caverns. Her hobbies are writing poetry ("for me only") and playing the guitar.

Friday evening, the young travelers were honored by the county 4-H clubs with a party in the First Federal Community Room. Jose and Lita came to Big Spring through an exchange program which stresses better world understanding. They will leave Thursday with at least the knowledge that they have been welcome guests — and that hospitality is much the same in Texas and Peru.

effects in the home. In home decorating, she advised that lamps should be chosen according to size and type as well as the purpose they are to serve.

Mrs. Roy Granbery presided and Mrs. Wade Choate reported on the Head Start program sponsored by the local school system. Beta Sigma Phi members are volunteering their time to assist the program.

The next meeting will be in the home of Mrs. Wade Choate, 1807 Main, on March 10.

## Mrs. Jack Blizzard Is Speaker For Xi Mu

"Better Light for Better Living" was the program given by Mrs. Jack Blizzard Monday evening for members of Xi Mu Chapter, Beta Sigma Phi. Mrs. Lamar Greene, Oil Mill Road, was hostess, and Mrs. Leslie Caperton served as cohostess.

Mrs. Blizzard described the different types of light as direct, indirect, artificial, natural, incandescent and fluorescent. She noted that good light prevents eye strain and also contributes to better decorative

continue to beat until very stiff. Use this uncooked meringue as a garnish for chocolate pudding.

## PANTRY PICK-UPS

Ever sprinkle eggs, as they are frying, with crumbled crispy cooked bacon?

Use a slotted spoon when you need to remove onion from the fat in which it has cooked.

You can use either vinegar or lemon juice — or both — when you are making homemade mayonnaise.

Beat a leftover egg white until foamy; gradually beat in a couple of tablespoons of sugar;

If cornstarch pudding is to be unmolded, it must be allowed ample time in the refrigerator for setting.

Crackers soggy? Spread them with soft butter and heat in a moderate oven just until they are lightly browned. Allow them to stand a few minutes to gain crispness before serving them.

## Program Describes French Impressionist

Pierre Auguste Renoir, the French painter who lived from 1841 to 1919, was the subject of a program on art given by Mrs. Bob Hughes and Mrs. Joe Bond at Monday's meeting of Beta Omicron Chapter, Beta Sigma Phi.

Renoir, one of the first great impressionists, mixed vivid colors to create bright and cheerful paintings which often gave the impression of sunlight or reflected light. Prints of his paintings were shown as were paintings done by one of the club members, Mrs. Bill Patton. Among Mrs. Patton's paintings

was an abstract in black, brown, yellow and gold. Another, entitled "Tomb of a Tree," was painted in fall colors.

Mrs. Charles Madry, 1805 Hamilton, was hostess, and Mrs. Daniel Johnson presided as a nominating committee was appointed. The first spring rush event will be a couples "Roaring 20's" party March 22, the place to be announced. An open meeting will be held March 10 in the home of Mrs. Hughes, 2104 Cecilia.

Mrs. Bond, cohostess, assisted in serving refreshments.

## Gift Party Is Honor For Bride

Mrs. Donnie Hall, the former Miss Betty East of Houston, was honored with a bridal shower Monday evening in the home of Mrs. Odell Womack, 1601 Tucson.

Cohostesses were Mrs. Tommy Gage, Mrs. R. L. Heath, Mrs. Clayton Bettie, Mrs. Faye Morgan, Mrs. James L. Johnson, Mrs. Leroy Hollingshead, Mrs. R. H. Weaver, Mrs. Roxie Dobbins, Mrs. Leonard Coker and Mrs. Marshall Cauley.

Mrs. Hall was attired in a pink silk crepe dress styled with long, full sleeves and Chelsea collar. She received guests with her husband's mother, Mrs. Harold Hall, and Mrs. Womack. All wore white carnation corsages as did Hall's grandmothers, Mrs. G. H. Hayward and Mrs. George W. Hall. House party members wore corsages of white orange blossoms tied with bayberry green ribbon on lace hearts.

Out-of-town guests were Mrs. Conrad Reeves of Abilene and Mrs. D. W. Garvie of Fort Worth.

Refreshments were served from a table covered with a white cloth overlaid with white net and appointed with brass and milk glass. Centering the table was a brass candelabrum arranged with bayberry green candles and white orange blossoms interspersed with green net. The focal point was a lace heart. A corresponding arrangement of white blossoms and green ribbon was placed on the register table.

The hostess' gift to the honoree was a vacuum cleaner. Mr. and Mrs. Hall were married Sept. 10 in Houston where they are now residing.

## A LOVELIER YOU Apply Facial Masks For Corrective Care

By MARY SUE MILLER

The beauties of ancient civilization masked their faces with packs made of mud and ooze. The facial mask is not a new development. What's new about today's masks is a high degree of refinement and specialization.

There is now a corrective

mask for one's individual requirements. It would be folly, of course, to use any other. A young, oily skin needs an entirely different formula than a thin, dry complexion.

For oily skins, scrub and alkaline masks are indicated. The first type deep-cleanses; the second discourages oil and blemishes. Slack, dry skins respond to creamy mixtures and slightly retreating formulas. With a honey content, preparations have the power both to lubricate and firm.

At this season, most every lovely could use a pick-up mask. Their number grows out of sheer demand. In a very few minutes, applications freshen and brighten tired skin before an evening engagement. What a boon!

Some masks harden on the face, while others remain soft. Application therefore differs. Naturally, instructions come in the package. But to achieve glowing results from any product, the skin must be thoroughly cleansed before use. Cleansing, when you come right down to it, is the beginning of any super skin treatment and every super makeup.

BEAUTY KNOWS NO AGE

Some women age before their time; some retain their youthful beauty and charm. Why? The secrets of non-stop attractiveness are revealed in "Beauty Knows No Age." Advice covers ways to a youthful figure, skin and hair; to flattering make-up, hairstyles and fashions. For your copy, write to Mary Sue Miller in care of the Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 35 cents in coin.

## Shampooing Helps Keep Hair Shiny

The inconvenience of being the kind of blonde who has been helped along with modern chemistry is that you must combat dryness.

Yet blond hair must always be shiny clean to look its most beautiful. What's the answer?

Shampoo just as often as your hair loses the shiny-clear look that is the envied quality of blonde hair — but use only gentle baby shampoo. The purest shampoo is one that has the lowest alkaline content.

## Decorate Walls With Samplers

Three samplers are included in this one pattern of No. 783. They make attractive wall decorations for your home and are easily embroidered in cross stitch.

Send 30 cents plus 10 cents for third-class mail postage in coins for this pattern to MARTHA MADISON (care of the Big Spring Herald), Morris Plains, N.J. 07950. Add 15 cents for first-class mail.

For New Fall and Winter Needlework Book send 50 cents. Contains free coat pattern and embroidery and a coupon for free pattern of your choice.

Nixon At The Palace

President Richard M. Nixon (right), is met by Queen Elizabeth II and her husband, Prince Philip as he arrived to lunch with them at Buckingham Palace today.

## Food Given Pueblo Crewmen Just Enough To Sustain Life

CORONADO, Calif. (AP) — The food given USS Pueblo crewmen in their North Korean prison was barely enough to sustain life and was served in scrub buckets, one of the ship's commissarymen says.

After it was eaten, Commissaryman L.C. Harry Lewis testified at a court of inquiry Monday that the guards took the buckets — "The type you swab the floor with" — away and returned them unwashed and filled with drinking water.

At least seven crewmen were listed as witnesses on today's court schedule. The Navy has said it plans to hear the entire crew.

**RICH AND HAPPY**  
Lewis was asked his view as a 14-year Navy commissaryman of the quality and quantity of food in the North Korean prison. "Poor," Lewis said. "Very poor."

"Enough to sustain life?" "That's just about it," Lewis said. He later gave an estimate of 500 calories a day. Few adult American males average under 3,000.

Lewis was one of 11 crewmen who appeared Monday to recount their treatment at the hands of the North Koreans and their efforts to resist and defy their tormentors.

Lewis, a Negro, said he was questioned in prison at length about the condition of Negroes in the United States. "I told them we were all rich and happy," he said with a smile.

He said his treatment was neither more nor less harsh than that of his shipmates.

**"THIS IS A LIE"**  
Seaman Richard J. Rogala testified that when forced under threat of death to write a confession of alleged crimes, he concealed in the text the Morse Code symbols for "this is a lie."

All witnesses were questioned by Navy lawyers about their grasp of the U.S. Code of Conduct. Under it, prisoners are admonished to reveal to captors only their name, rank, serial number and date of birth.

Engineer L.C. Rusel Blansett of Orange, Calif., said he thought that through torture the North Koreans could have gotten him to sign "whatever they wanted."

Did he think the code of conduct was realistic? "I don't think in our case it was," he said.

Engineer 2.C. Howard Bland, 21, of Leggett, Calif., said he had misgivings about signing a repatriation petition his captors had prepared because it would mean violating the code of conduct.

"Did you resist in signing it?" "I did — up to a point."

"What point?" "They said they would shoot me, sir."

The commission said 82 oil and 61 gas wells were completed the year's total to 690 oil and 434 gas wells. This compares with 729 oil and 333 gas wells during the same period of 1968.

Field workers plugged 176 wells including 49 dry holes.

**19th Marriage**  
LOS ANGELES (AP) — Glen Wolf, 55, a retired hotelman, has taken out a license for his 19th marriage. His new intended, Gloria Mascari, 23, listed her occupation as Hollywood model.

**Drill Nineteen 'Cat Gas Wells'**  
AUSTIN (AP) — Nineteen wild-cat gas wells were drilled in Texas the past week, with the Corpus Christi District pacing the activity with nine discoveries.

The Texas Railroad Commission said Saturday there were eight oil discoveries scattered around the state, with one each in San Antonio Dist. 1 and the Midland district and two each in San Antonio Dist. 2 and the Houston and Abilene districts.

Six gas discoveries were in San Antonio Dist. 2, two in San Antonio Dist. 1 and one each in the Houston and Kilgore No. 3 districts, in addition to the nine wildcats in the Corpus Christi district.

The commission said 82 oil and 61 gas wells were completed the year's total to 690 oil and 434 gas wells. This compares with 729 oil and 333 gas wells during the same period of 1968.

Field workers plugged 176 wells including 49 dry holes.

**Dear Abby**  
*About Spoiled Children*

DEAR ABBY: When I was little, I was spoiled by my parents and now that I am older I am still spoiled, so they yell at me and punish me. Do you think it is fair that I get yelled at and punished for their mistakes?

DEAR R.R.: You have asked a very intelligent question. A "spoiled" child is no joy to his friends, his teachers, OR to his parents. But saddest of all, a child who brings no joy to others receives none himself. It's the parents' "mistake," to be sure, but the child pays for it.

DEAR ABBY: Will you please tell us WHO is responsible for the care of a widowed mother? There are four of us children. We all do quite well, but three of us are married with family obligations, and one is a single "career girl" in her early 40s. She has an excellent position and nobody to worry about but herself, and SHE thinks we should all pitch in EQUALLY for Mother's support.

We married ones have mortgages to pay off and children to educate, but our single sister has a beautifully furnished apartment, a new car every other year, and her biggest problem is where to go on her next vacation.

So, Dear Abby, do you think we should all share the burden of Mother's support EQUALLY? A FAMILY DIVIDED

DEAR FAMILY: Yes. How sad that children should quarrel over an "obligation" which should be considered a privilege.

DEAR ABBY: The neighbor who lives across the street from us leaves for work every morning at 7:30. Between the hours of 7 a.m. and 3 p.m. I have seen about two or three men drive up every day and stay for maybe an hour or so and they leave. His wife couldn't be having that many repairsmen. Abby, I feel that I

## Three 'Death Date' Diaries Before Jury

LOS ANGELES (AP) — Despite Sirhan Bishara Sirhan's strong objections, his three "death date" diaries are before the jury trying him for Robert F. Kennedy's assassination.

As Police Sgt. William E. Brandt testified Monday about finding the notebooks in Sirhan's bedroom, the young Jordanian suddenly rose half out of his chair and argued vehemently with his attorneys.

**VOWING DEATH**  
"Your honor, my client asks for a recess," said Grant B. Cooper, one of Sirhan's defenders. Court was adjourned early and Brandt continues today.

Sirhan is charged with first-degree murder in the June 5, 1968, death of Sen. Kennedy — slain as he left a celebration of his California Democratic Presidential primary victory.

Mayor Sam Yorty revealed the existence of the diaries soon after the shooting Sirhan had written, Yorty said, "of the necessity of killing Sen. Kennedy before June 5, 1968." That date was the first anniversary of the Arab-Israeli war.

Others have said the notebooks are filled with inscription after inscription vowing death for the New York senator who had supported more U.S. military aid for Israel.

Cooper had argued that the notebooks were seized illegally without a search warrant and without permission of the defendant.

**OBJECTIONS**  
He made the objection in various ways a half dozen times while Sgt. Brandt was in the witness chair.

Brandt said he and other officers were let into the Sirhan home by the defendant's brothers Adnan and Munir.

Fragments of the bullet that killed Kennedy and photographs

when their car apparently was swept off FM 70 by the swift waters of the flooding creek.

The car was found submerged in the creek after fierce tides and thunderstorms struck the coastal regions.

The bodies of Mrs. Guerrero and the two children were discovered last Monday and Tuesday after waters subsided.

**Boosters Need More Sale Items**  
Items are still being sought by the Choir Boosters for their big garage sale Friday and Saturday.

Those with things to enter in the benefit sale are asked to call Mrs. Roy Watkins, 267-2875, and she will arrange for the place to be opened. In the alternative, she will make appointments for the members of the choir to call and pick up the donations.

Donations of almost anything will be received until the sale begins Friday.

**Helps You Overcome FALSE TEETH Looseness and Worry**  
No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. PASTETECH, an improved alkaline powder holds plates firmer so they feel more comfortable. Avoid embarrassment caused by loose false teeth. Dentures that fit are essential to health. See your dentist regularly. Get PASTETECH at all drug counters.

He said a state law would have to be passed to go along with the federal act, which was signed by President Johnson June 28, 1968.

These are the proposed changes: Washington's birthday would be on the third Monday every February (instead of Feb. 22); Memorial Day would be the last Monday in May (instead of May 30); Columbus Day would be the second Monday in October (instead of Oct. 12); and Veterans Day would be the fourth Monday in October (instead of Nov. 11).

Armstrong said he did not know of anyone who opposed the bill, and "basically all people who sell gasoline or have tourist-oriented businesses, such as the airlines, favor the proposal."

He said a state law would have to be passed to go along with the federal act, which was signed by President Johnson June 28, 1968.

Armstrong told the House State Affairs Committee that Congress had adopted an act, effective in 1971, putting four well-known holidays on Mondays, regardless of when they normally would fall.

Under a Dec. 17 resolution of the General Assembly, the committee was to consist of the 27 countries on the Economic and

The Communist action resulted from Arenales' decision to appoint West Germany to the 34-nation committee. He also named Belyorussia, Poland and Romania to the group at the same time, but diplomatic sources said the three Soviet bloc countries would join the boycott.

**Monday Holiday Bill' Pressure**  
AUSTIN (AP) — If Texans want to do what the rest of the country will be doing in a couple of years, legislators should adopt Rep. Bob Armstrong's "Monday Holiday Bill," the Austin lawmaker said Monday night.

Armstrong said he did not know of anyone who opposed the bill, and "basically all people who sell gasoline or have tourist-oriented businesses, such as the airlines, favor the proposal."

He said a state law would have to be passed to go along with the federal act, which was signed by President Johnson June 28, 1968.

## Three Going To Water Meet

The Colorado River Municipal Water District is due to be represented by at least three persons at the Silver Anniversary meeting of the Texas Water Conservation Association Thursday through Saturday in Austin.

O. H. Ivie, general manager, is a member of the water districts and authorities panel, and also serves on the recreation and the water laws groups.

A highlight of the meeting will be a plaque presented by John Simmons, Orange, president of the TWCA, to some individual picked as the outstanding leader in the field of water conservation and development. Lt. Gen. William F. Cassidy, chief of engineers, U.S. Army, will be the speaker at this occasion.

Joe G. Moore Jr., former executive director of the Texas Water Development Board, now federal commissioner of pollution, also will be a speaker.

## New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas — If you don't suffer from male pattern baldness, you can now stop your hair loss and grow more hair.

For years "they said it couldn't be done." But now a firm of laboratory consultants has developed a treatment for both men and women, that is not only stopping hair loss — but is really growing hair!

They don't even ask you to take their word for it. If they believe that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. However, it is impossible to help everyone.

The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot

But, if you are not already slick bald, how can you be sure what is actually causing your hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR hair loss.

Many conditions can cause hair loss. No matter which one is causing your hair loss, if you wait until you are slick bald and your hair roots are dead, you are beyond help. So, if you still have any hair on top of your head, and would like to stop your hair loss and grow more hair now is the time to do something about it before it's too late.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially by mail and without obligation.

—Adv.

NO OBLIGATION COUPON

To: Loesch Laboratory Consultants, Inc.  
Box 66001, 3311 West Main St.  
Houston, Texas 77006

I am submitting the following information with the understanding that it will be kept strictly confidential and that I am under no obligation whatsoever. I now have or have had the following conditions:

Do you have dandruff?  Is it dry?  or oily?

Does your scalp have pimples or other irritations?

Does your forehead become oily or greasy?

Does your scalp itch?  When?

How long has your hair been thinning?

Do you still have hair?  or fuzz?  on top of your head.

How long is it?  Is it dry?  Is it oily?

Attach any other information you feel may be helpful.

## From Ford the Wagonmaster...

Ford's Country Squire has Better Ideas where some wagons don't even have ideas. Ford's new "Front Room" features instruments grouped together cockpit fashion for the driver and extra leg and knee room for his passengers. Top-of-the-line interiors like those in our luxury LTD's. Distinctive paneling, hidden headlamps and a 302 CID V-8, all standard.

You also get Ford's exclusive one-two-three doorgate that: (1) swings down for cargo; (2) swings out for passengers, and (3) offers you extra convenience because it opens like a door with the window down or up.

Drive the Country Squire soon. See why Ford is America's best-selling wagon. Again.

FORD

1969 Ford Country Squire

The first Magic Doorgate to open like a door with the window down or up.

The place you've got to go to see what's going on-your Ford Dealer! Save at his Pop-Option Sale!

## Masonic Panel To Help Youngsters Get Help

A Masonic committee to serve the needs of crippled children in the Big Spring area was created Friday, according to Ted Groebel, president of the Big Spring Shrine Association.

At present, the committee will concentrate its efforts on the Shrine Burns Institutes, Shrine Crippled Children Hospital, and Scottish Rite Crippled Children Hospital," Groebel said.

The committee will be responsible for locating local children in need of care these hospitals can provide, Groebel said. The Shriners of North America operate 22 crippled children hospitals and three burn institutes. The Scottish Rite Bodies of Texas operate the crippled children's hospital in Dallas.

Through the two Masonic organizations, more than \$16 million is spent each year to maintain and operate these hospitals. The cost is the same whether there are patients in them or not," he said. "We will attempt to see that every local child, who needs this care, will have the opportunity to receive it."

Money for the operation of hospitals comes from trust funds maintained by the two Masonic organizations.

Qualifications for admissions are few, Groebel said. First, the child must need the care, and not have reached his 15th birthday. The child must be mentally normal for his age.

Serving on the committee will be Ken Leach, chairman; Ralph Johnson, Joe Lemon, Ackery, Walt Johnson, Mac McDonald, Groebel, and Willard Sullivan.

## Air Workshop

WACO — The Texas Association of Broadcasters (TAB) and Baylor University will sponsor a summer radio-TV workshop for high school students. The workshop will be conducted at Baylor by the Division of Radio-TV-Film, June 22-28, James McElhaney, director of the division, said.

## A Devotional For The Day

Be imitators of God, as beloved children. (Ephesians 5:1, RSV)

PRAYER: Almighty God, in the light of Thy countenance may we behold not only what we are, but be given a vision of what is possible for us to become as we follow the Master. We make our prayer in the name of Christ our Lord. Amen.

(From the 'Upper Room')

## Off Base

Texas Land Commissioner Jerry Sadler is off base in complaining about federal oceanographic studies within this state's unique offshore border. The jurisdiction there is joint in most matters, not exclusive, and oceanographic research within state territorial waters is surely a federal right. And it should be welcomed, not objected to, by the state which will be a main beneficiary of any findings.

Texas is alone in having a state border extending three leagues, or 10.35 miles seaward, with state ownership of submerged lands and their minerals. That is a consequence of annexation provisions, with state retention of public domain, as finally recognized by Congress in federal quietclaim legislation after an adverse U.S. Supreme Court ruling in the first famous tidelands case.

Sadler objected that the Gulf survey by the Interior and Navy Departments may disclose mineral deposits

in Texas submerged lands in such a way as to lessen leasing revenues from the four million square mile area that go to the public schools, a dubious complaint. Interior's answer is that the current study by the U.S. Geological Survey and Naval Oceanographic Office will be outside Texas territorial waters, but indicates other federal or federal-aided studies may be within.

Federal surveys within Texas waters — Gulf, bays and littorals — are important to fish conservation, navigation, pollution control, weather forecasting, national defense, and many other federal concerns besides state-owned submerged-land minerals. Sadler would have been wiser to seek, and offer, cooperation on federal oceanographic studies where they touch on primarily state interests.

Making the most of sea resources at all levels should be a closely coordinated intergovernmental concern — federal, state and local.

## Possible Solution

Since Jan. 1, 16 commercial airliners, 10 of them U.S. craft, have been hijacked to Cuba. This compares with 13 U.S. commercial airliners forced to Cuba in 1968.

Airline officials, law enforcement agencies, and the Federal Aviation Agency agree that they have found no solution to the problem. Nor are they optimistic that a remedy can be found in the field of electronic detection.

There is the constant fear, though, that a hijacking attempt may end in tragedy for the airplane and its passengers. A shot from a pistol, for instance, might pierce the fuselage of the aircraft, leading to explosive decompression at a height of 35,000 feet. Or a number of passengers could be killed or wounded by a berserk gunman. The pilot has no choice but to take the plane to Cuba. The only concession by the Cuban government

to date is to permit the planes to take off with their passengers from Jose Marti International Airport, where they usually land. Before that, the planes and their crews were freed, but the passengers were taken to Varadero airport, 60 miles from Havana, sometimes spent the night, and then were picked up by propeller-driven craft sent from Miami.

There is now one apparent solution to the problem: Persuade the Cuban government to extradite the hijackers. The practice would probably cease overnight if it were known that the hijacker would be returned promptly and stand trial in the United States.

The State Department is exploring this avenue hopefully. We hope that the Cuban government is beginning to get tired of these incidents. Every effort should be made to reach an agreement on a subject so fraught with the potential of tragedy.

## Marquis Childs

### Growing Business Has Bugged Us Down

NEW YORK — One of the big banks here in New York recently computerized all operations, including the drafting of checks for stockholders. Not long after the computers had taken over a stockholder phoned with a puzzled and slightly amused query.

He wondered why he had received a check for \$1,999,999.99 which was very much more than the dividend he was entitled to. Look, he said, I could go out of the country and cash this check and there would be nothing you could do to me unless and until I decided to come back.

AS INDIGNANT letters began to pour in, it developed that every stockholder whose name began with the letter D got a check for \$1,999,999.99. The computers had gone haywire, thereby proving that even in a computerized world there will be error. And this will be no news to anyone with a charge account, discovering each month that the mechanical man has made the same old mistake.

As the high level of prosperity is sustained into the 97th month, the explanation may be simply too many and too much. With close to 23,000,000 investors in the stock market, Wall Street had a private case of the jitters. Stock deliveries are weeks and months behind. If enough customers, fed up with waiting, demand their money the result could be pretty scary.

eral of the larger brokerage houses might fall under the pressure of an avalanche of long-delayed transactions. The banks, too, are caught up in the same fouled-up paper mill. One of the smaller New York banks is known to have up to \$250,000,000 in uncompleted transactions. This reflects the way pensions, trust funds, foundations and other institutional buyers have come into the market to try to keep up with inflation.

THE NIXON administration is engaged in the most delicate economic sleight-of-hand. That is to slow down the economy without going too far and causing a sharp rise in unemployment. This is like scaling down the size of a house while it is being lived in by a noisy, happy-go-lucky family filling it to the bursting point.

Chairman Paul McCracken of the Council of Economic Advisers gave sensible testimony in his first appearance before the Congressional Joint Economic Committee. He said it was essential to keep the jobless rate below four per cent, since any increase above that figure would have serious consequences on Negro unemployment in the ghetto. Moreover, he held out little hope that the rate of inflation could be substantially slowed this year even though the 10 per cent surtax is retained.

PESSIMISTS IN Washington with vivid memories of the boom and bust of the late '20s and '30s see certain ominous parallels today. The 13-million to 15-million share days give them nervous tremors. This tidal wave of buying and selling has snowed the banks and brokerage houses under. The whole thing is still a horse-and-buggy operation.

## Billy Graham

In a sermon our minister said that David was a man after God's own heart. How could this be possible when he committed murder and adultery?

T.P. True, David did commit these sins. But it was not these sins which made him a man "after God's own heart." It was the fact that he was grieved over these sins and repented of them. God, like loving parents, does not only love us when we do good, but when we do evil. And He especially loves us when we are truly sorry for our sins. "A broken and contrite heart, the Lord will not despise."

Any of us may fall into evil, even God's children. But what distinguishes the Christian from the non-Christian, is his sorrow over sin and immediate repentance. The Bible says: "If we confess our sins, he is faithful and just to forgive our sins, and to cleanse us from all unrighteousness." This promise was given to followers of Christ — not to deliberate, overt sinners. The altar of the church is the bench where souls are repaired, and when we are repentant, we become people after God's own heart, as well as David.

HAVING PRIVATELY pushed from the vantage of official position for action, the pessimists are grateful for the steps taken by the New York exchanges. They have called in the Rand Corporation for a long-range study, and another firm, North American Rockwell, to get on with immediate improvements in the trading system.

This is not 1929. The governors of the Federal Reserve Board have taken stringent measures to push interest rates to record levels and tighten the money supply. Yet with 23,000,000 investors looking to the market, for salvation, the parallels cannot be laughed off.

### 'I Gave Him His Last Drink Of Water'

By BOB POOS  
(Subbing for Hal Boyle)

WASHINGTON (AP) — I spent 16 months in Vietnam observing the hardships endured and heroism displayed by American soldiers there and most of them march across my memory as admired and respected but still for the most part faceless ranks of jungle-green fatigues.

BUT THERE is one I shall always remember even though I never knew his name. This young man is etched indelibly in my memory because I gave him his last drink of water.

He was a light-haired, nice looking guy, a private or a specialist four, sort of the Jack Armstrong All-American boy type. From the waist up, below that he was a mass of blood and torn flesh because he had absorbed a burst of heavy machine-gun bullets in the stomach and legs.

THE YOUNG American lay in a wet, muddy, sandy trench that he and his comrades in A Co., Second Battalion of the 7th Cavalry, had just torn from the hands of a very tough North Vietnamese regiment.

My young friend whom I found myself lying next to was one of those who paid the price for the trench. Up to that time in Vietnam I had seen many, many men killed and wounded but I had never seen one who was so badly wounded yet had lived so long.

As a heavy rain poured down and the North Vietnamese raked the area with machine-gun bullets the young man would remark in a matter of fact tone: "I'm going to die. I don't mind that so much but I sure would like to see my folks again first."

THERE WAS never any fear or panic, just a sort of sad resignation to fate. He never acted as if he were in pain either.

Finally, however, the boy groaned and said he was terribly thirsty and would someone give him a drink of water.

A medic on hand named Tommy Cole from Richmond, Va., looked at me over the top of this boy's head inquiringly. I had two canteens full of water and would gladly have given the youth a drink at any time; but was aware of the rule that you don't give a man shot in the stomach water, or anything else, to drink.

However, Tommy nodded and then I, and the other men crouching in that trench, knew that this man was going to die.

I PULLED A khaki, plastic canteen from its canvas pouch, unscrewed the top and placed it in the young man's hand and helped him raise it to his lips.

He drank. Just a couple of swallows. Then he choked and the canteen slipped from his hand and rolled down the side of the trench. The water gurgled out and soaked into the already wet sand of the trench and the young man died.

But many others, on both sides, died that day and the next in a tiny central Vietnamese village called Au Thi.

One of them was the young North Vietnamese who killed my friend. A swirling charge of cavalrymen overran the machine-gun position. The crew, fighting to the last, died in the blast of hand grenades and the sharp spitting of M16 rifles.

## John Cunniff

### Go-Go Funds Prove Point

NEW YORK (AP) — Among the more unexpected twists in a strange stock market is the curious fate that seems to have befallen some of the go-go funds.

These funds, if you remember, flashed upon the scene a few years back and brought to the language of the market a new term and a new manner of trading that made conservative investors seem like slouches.

The term was "performance," and it meant that a fund at all times should show the greatest possible return. This is an understandable goal, for the greatest return is the goal of most investors.

THOSE INVOLVED in what became known as the performance mania, however, weren't satisfied with performance over the period of a year; they had to show it by the quarter or even by the month.

Associated with performance were practices that startled old-fashioned investors. Portfolios were turned over completely in one year; some stocks were bought and sold in the same month; a stock's activity rather than its fundamental

value often was the criterion for trading.

Box scores, listing stocks bought and sold by each fund during a quarter's time, came to be read as avidly as baseball statistics. Every month or so the results of the performance derby was listed in newspapers. Speculation, it seemed, ceased to be a risky venture.

NATURALLY THE fund with the biggest percentage gain also was the fund whose shares were sought most avidly. As a result, within a few years some funds acquired assets of several hundred millions of dollars.

The highly competitive nature of the go-gos brought some good to the entire market. Since performance counted so much, few money managers could sit back as they once did and let some blue chip deliver them earnings.

Instead, almost every manager of pension funds, foundations, endowments and trusts was forced to spend less time at the club, more at the office. Safe-deposit boxes were opened for the first time in years and the contents examined to see if tradable stocks were among them.

## To Your Good Health

### Diet And Your Gall Bladder

By G. C. THOSTESON, M.D.  
Dear Dr. Thosteson: A friend of mine had a gall bladder operation. Before the operation certain foods gave him trouble. Now these same foods still bother him.

Several years ago my uncle had a gall bladder operation. At that time the doctor told him he would have to be careful about what he ate because without the gall bladder he had nothing to throw off the poisons in his system.

Of course this sounds a little odd to me, but I wanted your opinion. Is there any kind of medication to prevent these certain foods from hurting my friend? — M.B.

It might — might, I say — help if you had told me what foods bother your friend.

As to your uncle's case, the facts somehow got sadly tangled up. The gall bladder has nothing to do with "throwing off poisons." It is merely a reservoir for bile, which is one of the important digestive juices and comes originally from the liver.

BILE IS particularly important in digestion of fats, so if your friend's trouble is with fried foods, rich pastries, or other items high in fat, you have a good clue. This doesn't mean he has to give up fats entirely, because, even without his gall bladder, he still is getting bile from the liver. Without the "reservoir," however, he no

longer has extra amounts stored for eating times. The answer is to eat smaller meals, or at any rate to avoid very much fat at any one sitting.

It is possible that he may also have trouble with onions or cabbage or certain raw fruits.

A further possibility is this. He may have an allergy or sensitivity to certain foods, in which event he had best learn to avoid them. In such a case there would be no particular connection with his gall bladder operation. It's easy to overlook the fact that a person may have two things wrong with him, and correcting one won't necessarily correct the other. It's one of the pitfalls of health care — forgetting that all of one's ills may not come from a single cause.

MORE DETAILS  
For further detail on how a gall bladder operates, and what to do about surgery as well as how to care for yourself after surgery, your friend might benefit from reading my booklet, "You and Your Gall Bladder." For a copy, send 25 cents in coin and a long, self-addressed, stamped envelope, to Dr. Thosteson, care of The Big Spring Herald.

Dear Dr. Thosteson: I have recently been told that I have an eye disorder known as pinguecula. They say it quite often covers the eye and impairs vision. How serious is it?

— Mrs. B.B.  
Pinguecula is a yellow spot appearing in older people on the inner or outer side of the eyeball. It is related to wind and dust exposure. It does not interfere with vision.

You may be confusing it with pterygium, which is a fold of tissue usually extending out from the inner side of the eyeball. It can extend far enough to interfere with vision, but can be removed before it extends that far.

PLENTY OF CAUSES  
Dear Dr. Thosteson: Some months ago I had what my doctor called a Bartholin cyst. I told several friends and you should have seen the looks I got. They insisted that it was caused by the same germ that causes gonorrhea. — M.W.

A good example of how some folks can be led astray by a little knowledge. It is true that the gonorrhea germ is one cause of creating a cyst in a Bartholin gland, but cysts can form from plenty of other causes, including entirely different organisms.

Much heart trouble is preventable. Write to Dr. Thosteson in care of this newspaper for your copy of his booklet, "How To Take Care of Your Heart," enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

## Around The Rim

### When It's '30', That's All

If you have been around newspaper shops much or have any personal contact with newspaper people, or even if you have watched the far out versions of newspaper doings on the telly, you have certainly heard someone say "thirty" about something or other.

"Thirty" (or "30" as it is usually expressed in newspaper circles) is one of the oldest and most widely used journalistic cliches.

It means the end. The end can be on anything — a news story, the death of someone, the termination of employment of an official or a reporter. When the end comes that's "30."

IF YOU ASK, you'll get a different story from nearly every old ink-stained veteran on where "30" originated.

I read the other day that we should credit it to Walter Winchell, the nasal-toned, cocksure radio bigwig of a quarter century or so ago. He always closed his sessions with the expression "Goodnight and thirty."

I refuse to accept that version. I was around newspaper offices before Winchell ever quit writing scandal for the big city tabs and before radio had made its way out of the laboratory.

And we were using "30" everywhere and every day.

WHEN WE finished writing a story, we typed "30" at the end. This told the editor there wasn't anymore — that this was it. No additions were

coming up; no tables or boxes were to be picked up.

When a newspaper or a newsman died the obituary was very likely to include the figures: "Editor John Doe, 67, for half a century with the Morning Blast signed '30' to his last story today" . . . "Today was '30' for the Morning Blast which has been published in this community for the past two decades." And so on.

WE HAD OUR stories of where it originated but the most logical one to me was that a certain leaden slug called a 30-em dash was usually stuck in to indicate the end of one news article and to separate it from another following in the same column.

There are other stories about the origin of the practice. One is that the first news dispatch telegraphed from the front in the Civil War comprised 30 words. The telegrapher tapped out the number of words and it was added to the message.

IN THE OLD old days a newspaper which was a member of the Associated Press was provided with 30 messages ("stories") per day. The end of the day's quota was followed by the symbol "30."

My guess is that the telegraphic code employed by the early day news dispatchers required a combination of easily recognizable dots and dashes to separate items. Probably "3" and "0" were such symbols.

So much for the matter. For today this is "30."

—SAM BLACKBURN

## Holmes Alexander

### A Policy To Back Up Our Weapons

WASHINGTON — We could substitute SABMIS for Sentinel.

That is, we could pick up the U.S. Navy's long-considered plan for a seaborne anti-ballistic-missile intercept system (SABMIS). We could make it the alternative to the land-based anti-ballistic-missile system (Sentinel) which is now in a state of suspended deployment.

SABMIS WOULD BE much cheaper than Sentinel. The Navy says that for about \$3 billion we could have seaborne anti-missiles in operation. The "thin" Sentinel would cost not less than \$5 billion, and it's supposed to protect us only against a nuclear Red China of the 1970's. A "thick" Sentinel would cost up to \$100 billion, and it would be intended as an adequate defense against all nuclear comers.

SABMIS would be mobile, and Sentinel would be fixed. The seaborne anti-missile system would be deployable over 70 per cent of the earth's surface, and the land-based complex of "missile-farms" would be confined to the six per cent of the earth's dry land which belongs to the U.S.A.

BUT EVEN WHEN we give SABMIS the best of it, and give Sentinel and associated weapons the worst of it, we haven't got a nuclear solution. We haven't got to the heart of the Nixon administration's first major military decision.

There's no solution in moving nu-

clear weapons off shore when we haven't got a clear-spoken, full-throated doctrine for using them there or anywhere else. The USS Pueblo wasn't saved, or avenged, although we had the seapower, airpower and nuclear power to do so. There's no certainty that SABMIS vessels can count for safety on freedom-of-the-seas. Oceanic Strategy is grandiose nonsense without a presidential doctrine to back it up.

PRESIDENT NIXON has allowed — more probably, has ordered — Defense Secretary Laird to back down on the go-ahead to deploy most of Sentinel. This may be a more regrettable decision than President Kennedy made on the Bay of Pigs.

It's said that the country isn't prepared to live with Sentinel around its cities. If that's true, the country isn't prepared to live in the Nuclear Age. The Russians are thus prepared. They are outspending us, according to Secretary Laird, seven to one in offense-defense nuclear weapons.

THE U.S.S.R. isn't a democracy, and the people aren't consulted. The democratic U.S.A., consulted by the anti-arms lobby, has given the flabby answer that it's gunshy of its own weapons. If this flabby answer is final, we are done for as a nation capable of self-government and self-defense.

(Distributed by McNaught Syndicate, Inc.)

## Art Buchwald

### A New Anxiety Every Day

WASHINGTON — Has it ever occurred to you why our newspapers and the TV news media are constantly switching from one crisis to another? You may think it has to do with the news itself, but you're wrong.

All the news stories in this country are controlled by an organization called the Council for the Advancement of Anxieties. I visited the council headquarters in an unmarked brownstone house just outside of Princeton the other day, and much to my surprise, the executive secretary agreed to see me. He briefed me:

"THE CAA was founded just after World War II when we discovered that people were becoming too relaxed and too apathetic about world events. We decided we had to structure the news in such a way that the public would constantly have something to worry about."

"How do you do this?"  
"We have a large research staff that is always searching for new crises and fears to spring on the people — things they probably would never have thought of themselves. The staff refines this material and submits it to an editorial board which meets every morning and decides what story will cause the most apprehension for that day. We're having a meeting in a few minutes. Stick around and see what happens."

A FEW MINUTES later 12 solemn men, each with a folder under his arm, sat down at the conference table. I sat in, at the side of the room, listening.

The executive secretary said, "Wallin, what do you have to report?"  
"Sir, I know the Vietnamese situation can no longer get people excited. But perhaps the Tet holiday offensive could get them on edge again."

A man called Simon disagreed. "People have had it with Vietnam. No one worries about it any more. I think we ought to go with Berlin. It has a frightening quality to it, not only because of the East Germans and the Soviets, but also because of the West German students. Talk about anxiety — you couldn't ask for a more upsetting situation."

RICHMAN SAID, "Do you really believe people can get upset about

Berlin? I think we should continue with the Middle East crisis. That's the one they're losing sleep over."

"We've had the Middle East three days in a row. Why don't we go back to racial unrest? That always gets Americans uptight," Kalcheim said.

Baker shook his head. "Let's not overdo racial unrest. We need it for a rainy day. I think the student revolution is the one that people understand the least. We've got some great photos from Berkeley and San Francisco State, as well as film for TV."

THE EXECUTIVE SECRETARY said, "For sheer anxiety, there was nothing like the snowstorm in New York City. Don't we have anything comparable to it coming up?"  
"There's a hurricane hovering somewhere in the Bahamas, but that's too regional. The nation never gets too upset when something happens in Florida."

"Any new oil leaks in Santa Barbara?"  
"No, sir. And President Nixon hasn't come up with an appointment this week that could get anyone scared."

"What about De Gaulle?"  
"HE'S FRIGHTENING, but I think we need something fresh. We haven't given the public anything really new to worry about since the military asked for the antiballistic missile system."

The executive secretary said, "If there only were some way of bringing the Hong Kong flu epidemic back. Well, since that's all you've got — and I must say it's a pretty lot — let's scare the hell out of them with Berlin tomorrow."

The meeting broke up, and I asked the executive secretary, "I understand how you work, but where do you get the funds to operate with?"

"We're mostly supported by aspirin and tranquilizer manufacturers. But we get help from the alcohol industry, too."

(Copyright, 1969, The Washington Post Co.)

### The Big Spring Herald

6 Big Spring (Texas) Herald, Tuesday, February 25, 1969

# Snags Sterilization Of Mental Patients

By The Associated Press

Hundreds of mentally ill Americans have been subjected to involuntary sterilization in recent years in six states whose laws on the subject may be affected by a Supreme Court review.

Indiana, one of the six, sterilized 706 males and 870 females from 1936 to 1962.

In California, sterilizations totaled 21 in 1962; 19 in 1963; 16 in 1964; 4 in 1965; 19 in 1966; 10 in 1967; 7 in 1968.

**EIGHT CHILDREN**

The Supreme Court agreed Monday to grant a hearing to a Nebraska woman who challenged the right of state officials to have her sterilized. She was Gloria Cavitt, 37, of Grand Island, who has had eight children in 14 years.

Nebraska law, which applies only to inmates of the Beatrice State Home for the Feeble-Minded, provides that sterilization may be imposed by a board of examiners as a condition for parole or discharge. Mrs. Cavitt is an inmate at the home.

In 1964, 1965 and 1966, Nebraska sterilized 11 males and 16 females.

In California, the medical director of a state hospital can order the sterilization of any mentally retarded or mentally ill patient, subject to the objections of relatives or friends. The objections may, however, be overruled by a court.

Dr. William F. Sheeley, commissioner of the Indiana State Department of Mental Health, ordered on Monday the sterilization of two women mental patients—the first such orders in 21 months.

"It's a job I don't like," he said.

Indiana law provides for sterilization, after open hearings, of the feeble-minded, epileptic and hereditarily insane if the action is deemed to be "in the best interests of the patient and of society."

In Maine, a subject in a state institution may be sterilized by consent of guardian or relatives or by court order. The state has had one such case in the past five years.

**CAN'T REMEMBER**

Maine residents not in an institution may be sterilized upon the approval of a three-doctor board for "the prevention of reproduction of further feeble-mindedness or for therapeutic treatment of certain forms of mental disease." Sterilizations in this category average about five a year.

Wisconsin law authorizes the sterilization of institution inmates if there is unanimous agreement by a surgeon, psychiatrist and institution director that "procreation is inadvisable." The state has not sterilized anybody in the past two years.

The sixth state with a sterilization law is North Carolina. Mrs. Sue L. Casebolt, executive secretary of the State Eugenics Board says: "I can't remember the last time we had a hearing."

In North Carolina cases may be brought before the eugenics board by any penal or charitable institution, mental hospital or welfare organization.

## Ambulance Pact Okayed

FORT WORTH (AP) — After nearly three years of haggling, city council voted unanimously Monday to award a city ambulance contract to Ray Crowder Funeral Home.

Councilmen discussed the issue only 45 minutes before reaching agreement. The matter had been a subject of council discussion 43 times since 1964.

There was speculation that the controversy would spill over into the spring mayor-council races, causing continued bitterness.

Crowder, under the new terms, will be required to make calls at a maximum charge of \$25 per run. The firm will be eligible to collect a maximum city subsidy of \$90,000 per year.

The contract requires the city to reimburse Crowder only for calls dispatched by police.

Gold Cross Ambulance Service had been answering city calls the last 26 months and last year received \$88,000 in city subsidies.

## Four Junior Stock Shows Planned In Dawson County

LAMESA — Four livestock shows are to be staged in Dawson County during March. The climax will be the annual Dawson County Livestock Show March 13, 14 and 15.

First of the series will be the Lamesa School District Show, March 1. It opens at 1 p.m. in the Dawson County Fairbarns at Lamesa. There will be classes of steers, lambs and barrows. Entries will be accepted from members of 4-H and FFA Chapters of the Flower Grove School District, Dawson County, and Borden County.

Judging of the barrow show will begin at 1 p.m. March 14, with Paul Gross, Howard County agent, judging this event.

Judging of the lamb show will begin at 8 a.m. March 15, with Billy Earl Roach, Scurry County agent judging. Judging of the steer show will begin at 1 p.m. March 15 with Shelton judging the steer show, and Calvin Holcomb, Gaines County agent, judging showmanship.

### TB Prevalent

NEW DELHI (AP) — City officials estimate 55,000 of the capital's three million residents have tuberculosis, and that one-third of the cases are infectious.

**SOUTH**  
 ♠ K Q 4  
 ♥ A Q 8 6  
 ♦ A 10 9 2  
 ♣ A 9

The bidding:  
 South West North East  
 1♥ Pass 2♥ Pass  
 6♥ Pass Pass Pass

Opening lead: Ten of ♠

Altho the combined North-South holdings do not offer a valid play for six hearts, the partnership was confronted with duplication in values that was difficult to recognize during the auction. Observe that, if either North's jack of spades or jack of diamonds were transferred to the heart or club suit, declarer's prospects would be considerably enhanced. Similarly, South's queen of spades contributed little to the cause, and those points would have been much more useful in another suit.

West opened the ten of spades and the ace was played from dummy. The outlook for declarer was exceedingly dismal, for a club loser appeared inevitable and unless both the king and jack of hearts were located in the East hand—where they could be finessed

—at least one heart trick must be conceded as well.

South was reluctant to bank everything on the remote prospect of finding two honors favorably located. However, if the king of hearts was onside and suits split more or less according to expectations, an end play might be in the offing provided that declarer successfully stripped out the hand first.

The king of diamonds was cashed at trick two and then South switched to spades, playing the king and queen, and discarding the jack of diamonds from dummy. A diamond was led to the queen and the stage was set.

A heart was led and the queen was played from the closed hand, which held the trick. The ace was cashed, dropping East's king and declarer proceeded to run his good diamonds. West postponed the evil moment by discarding a spade and a club. However, when South was finished with the diamonds, he exited with a trump and West was in with the jack of hearts.

A small club was the forced return and now South had only to make the winning guess. Fortunately, he chose to play a small club from dummy and East was confronted with Hobson's choice. If he put up the king to drive out declarer's ace, North's queen would be high. On the other hand, if East played the seven of clubs, South could win the trick cheaply with the nine and claim his contract.

## Bikini Triggers Fatal Stabbing

PHILADELPHIA (AP) — Joseph Ivasiatyn, 20-year-old Ukrainian immigrant, admitted in court Monday he stabbed his teenage wife to death because she went out in the street in a bikini.

The wife, Shirley, 17, was headed for a swimming pool owned by her mother several blocks away.

Ivasiatyn was sentenced to 3 to 13 years in prison for voluntary manslaughter.

## New Pipeline Work Begins

The laying of 42-inch pipeline from Moss Creek Lake to Big Spring has been started by Wittman Construction Company as the third increment of its contract.

The section will be about 10 miles long, and at Moss Creek Lake it will connect with succeeding sections which will cover the remaining 48 miles to the new lake at Robert Lee. Moss Creek will become a terminal storage point, and ultimately a mixing basin for water from Lake Thomas and Robert Lee.

The 42-inch inside diameter pipe is the largest size which the district has in its nearly 200 miles of supply lines.

H. B. Zachary Company of San Antonio has the next section of 42-inch line which will extend 24 miles southeast from Moss Creek. Work on this will start possibly within a month, and the project will cost \$2,562,507.

## Bad Breaks Blues

EVERGREEN, Ala. (AP) — John Price, 9, fell as he swung from some high vines and broke both arms. His brother Gene, "upon seeing John fall, fell himself breaking one of his arms. Then Lewis, 13, ran for help, slipped and broke his right arm.

The only consolation is there won't be any large doctor bills. Their dad is a physician, Dr. Cecil E. Price.

# Living's more fun in a Total Electric home!

### CAREFREE COMFORT

All you do is set the thermostat and, winter or summer, you and your family enjoy indoor comfort . . . automatically . . . with clean flameless electric heating and cooling.

### PUSHBUTTON CONVENIENCE

Your electric range, dishwasher, disposer, washer, dryer and other appliances zip through household chores with automatic ease, saving your energy for more enjoyable things.

### WORK-SAVING CLEANLINESS

With clean flameless electricity as the only energy used, your walls, curtains, drapes and woodwork stay fresh and new-looking longer . . . with much less cleaning and care.

### MORE LEISURE TIME

You'll have more time for your family, for hobbies, club work and entertaining with a houseful of electric servants ready to help you at the turn of a dial or the flip of a switch.

# Clarendon Tries HC In Bid For Top Spot

Clarendon College moves its HCJG Gym here this evening to try and do something about the Jayhawks' surge to the Western Conference basketball championship. Tipoff time is 7:30 p.m.

Despite a 62-60 defeat suffered at the hands of HCJC in Clarendon back in January, the Bulldogs have hung tough in the

league race and can tie the locals for first place with a win. Indications are the field house will be packed for the action.

HCJC is a robust 23-3 on the season and stands 12-1 in the league race. The Jayhawks' only loss came at the hands of NMMI on the road.

Clarendon is 18-12 over-all and 11-2 within the family. The Bulldogs are averaging 74

points a game against conference opponents and have yielded only an average of 64.8 points a game. The Bulldogs are coached by Larry Overcast.

Howard County, fresh from a dazzling 115-73 victory over South Plains, is averaging 94.5 points a start within conference, compared to 78.1 for the opposition.

It took a field goal in the final four seconds of play by Robert Jackson to swing the issue Howard County's way in the game played at Clarendon. Tonight's encounter could be equally close.

Look West For Bi-District Challenge

The Sands Mustangs (above) go to Odessa tonight to tangle with Barstow in Class B bi-district play. Game time is 7:30 p.m., scene of action the Odessa Permian Gym.

Kelly Gaskins, Kynn Maxwell, Ronnie Taylor, Ike Lewis, Felix Robles, Lance Hopper, Bruce Kemper, Larry Shaw. Bottom row, Robert Herren, Eddie Newcomer, coach James Blake, Johnny Peugh, Steve Herm. Jim Fryar was missing when the picture was made.

# Tennessee's Defense Again Corrals Pete

Forgive Pete Maravich if he's losing his taste for Chow Mein and Chop Suey. It's just that Pistol Pete has had a stomach full of Tennessee's Chinese Defense and there's just no room for seconds.

Maravich, the Louisiana State hotshot who is the country's

leading collegiate basketball scorer, was shackled in Tennessee's specially rigged defense again Monday night. He was limited to 20 points—his lowest output of the season, as the Volunteers whacked LSU 87-63.

# Lamar Yields In 3 Games

Local girl volleyball contingents swept three matches from Snyder Lamar here Monday evening.

In a ninth grade game, Big Spring prevailed, 3-0, for the year.

# AT SWEETWATER Coahoma, Wylie In Headliner

SWEETWATER — The Coahoma Bulldogs get their big chance in bi-district basketball play here at 8 o'clock tonight, when they square off with Wylie.

A victory over the Wylie club would send Coahoma into the Regional tournament this weekend.

Coahoma carries a 19-7 win-loss record into the floor, having lost its most recent start to Class AA Crane, 95-90.

# Sands Tough In District

ODESSA — Sands carries a splendid district record into its bi-district clash with Barstow here tonight. Tipoff is 7:30 p.m., scene of action the Odessa High gymnasium.

The Mustangs, although they have changed coaches since last year (James Blake in, Arlen White out), have lost only one conference contest in the past three seasons. That was to Gail in Gail.

The game was set for the early hour because Lamesa High School would have played a second game, had it remained in the playoffs. However, the Tornados were eliminated by Lubbock Dunbar last weekend.

# Tascosa Opposes Odessa Tonight

LUBBOCK — Amarillo Tascosa (23-8) is the decided underdog to Odessa High in their Class AAAA bi-district basketball game here tonight.

# Coahoma Fems Lose, 61-56

JAYTON — Rochester came on strong in the second half to defeat Coahoma, 61-56, in a girls' practice basketball game here Monday evening.

# Forsan Buffaloes Ousted By Miles Quintet, 61-48

The Miles Bulldogs adroitly screened Forsan away from the basket, depriving the Buffs of more than one shot, and defeated the 11-B champions, 61-48, in a Class B bi-district struggle played in the HCJC gymnasium Monday night.

# Bullets Launch Critical Trip

BALTIMORE (AP) — The Baltimore Bullets—up, up and away to a 4½-game lead in the Eastern Division of National Basketball Association—start a road trip Thursday thinking "By the time the Bullets reach Phoenix" for a game against the Suns on March 10, they should have a good idea of whether the title is within their grasp.

Even with the comfortable bulge over second-place Philadelphia, the western swing won't be easy. It calls for eight games in 12 days.

Coach Gene Shue hasn't set any victory goal for the trip, but he acknowledges the Bullets won't be able to relax—the way they did Monday night while beating the Detroit Pistons 123-119.

# Adult Volleyball Play Under Way

# Tar Heels Are Back In 2nd Spot In Poll

By The Associated Press

North Carolina is back in the hot spot—the No. 2 position behind mighty UCLA—as college basketball's nationally ranked powers hit the homestretch this week.

# Richards Scornful Of Brave Catcher

By The Associated Press

Atlanta's Paul Richards, caught up in the heat of major league baseball's spring training player boycott, has taken a slap at his missing catcher.

Richards said he didn't care if Torre "holds out until Thanksgiving."

"No more than he has contributed the last two years, it wouldn't hurt us if he did," Richards added.

# LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:  
TRAVIS WILLIAMS of the Green Bay Packers, offering words of advice to those Washington Redskins players who will catch the wrath of new mentor Vince Lombardi:

"When Mr. Lombardi tells you to sit down, don't bother looking for a chair."

JIM MALONEY, Cincinnati pitcher, objecting to playing games in Houston's Astrodome:

"You've got to watch your language because of the echo. You can't shout DAMMIT! It comes back Dammit dammit . . . dammit!"

The late BRANCH RICKEY, discussing controversial Leo Durocher:

"He has the infinite capacity to take a terrible situation and make it immediately worse."

RUSS NIXON, former big leaguer, who was with Boston when Ted Williams was there, expressing doubt that Ted will succeed as a manager:

"I don't think he'll have the patience. He could never sit still two minutes."

AL CAMPANIS, Los Angeles Dodger general manager, on why he thinks the USC quarterback, Steve Sogge, will succeed in baseball:

"A quarterback has to read a defense and a catcher has to decipher a hitter. Tom Haller was also a quarterback in college. We like Sogge's arm, his receiving, his quick bat and his speed. He's a leader who plays to win."

Tennis star ARTHUR ASHE, on the problems of being one of the few Negro players:

"In the beginning, it was a real problem. But now it is really an advantage being black. I've become used to sticking out like a sore thumb on the tennis court . . . If I'm militant, I'm a moderate militant. I can make my protest heard by winning. If I, as the only black team member, had decided to boycott anything, who would have missed me? I'm black and I'm caught up in it. You just can't sit back and watch the world go by. I owe a lot of back dues to the cause, but I'm adamantly opposed to separation. Integration in the long run has to work. One of my ideas for Black Power is to win on the tennis courts. But I also play for my country. Remember, the umpire doesn't say 'Advantage Ashe.' He says, 'Advantage USA.'"

JOHN P. CARMICHAEL, Chicago scribe:

"Edward Bennett Williams (president of the Washington Redskins) couldn't sing Jimmy Hoffa out of jail but apparently Vince Lombardi is an Ulysses. He listened and succumbed. The temptation to resume coaching has outweighed any sentimental attachment to Green Bay. In one year Vince decided he no longer can live happily with just a roof over his head. Well, that's par for the course. Football employs, collegiate and pro, always operate on the premise that contracts are made to be broken, but only by them. They walk a one-way street. They know that employers hesitate to enforce their side of a pact, lest they're saddled thereafter with a disgruntled workman."

LOU BROCK, star outfielder for the St. Louis Cardinals:

"I like baseball . . . It's the only game in which you can shake a stick at a white player and not start a race riot."

# BIG SPRING Business Review

BIG SPRING (TEXAS) HERALD, TUESDAY, FEBRUARY 25, 1969

## Ward's Garden Center Fills Green Thumb Spring Needs

Montgomery Ward is ready for spring with a complete gardening center at their store in Highland Shopping Center.

The gardening center has supplies for the full-time farmer down to the window sill flower grower. There is a wide assortment of plants available for those who want to take advantage of the current months for transplanting and preparing the ground.

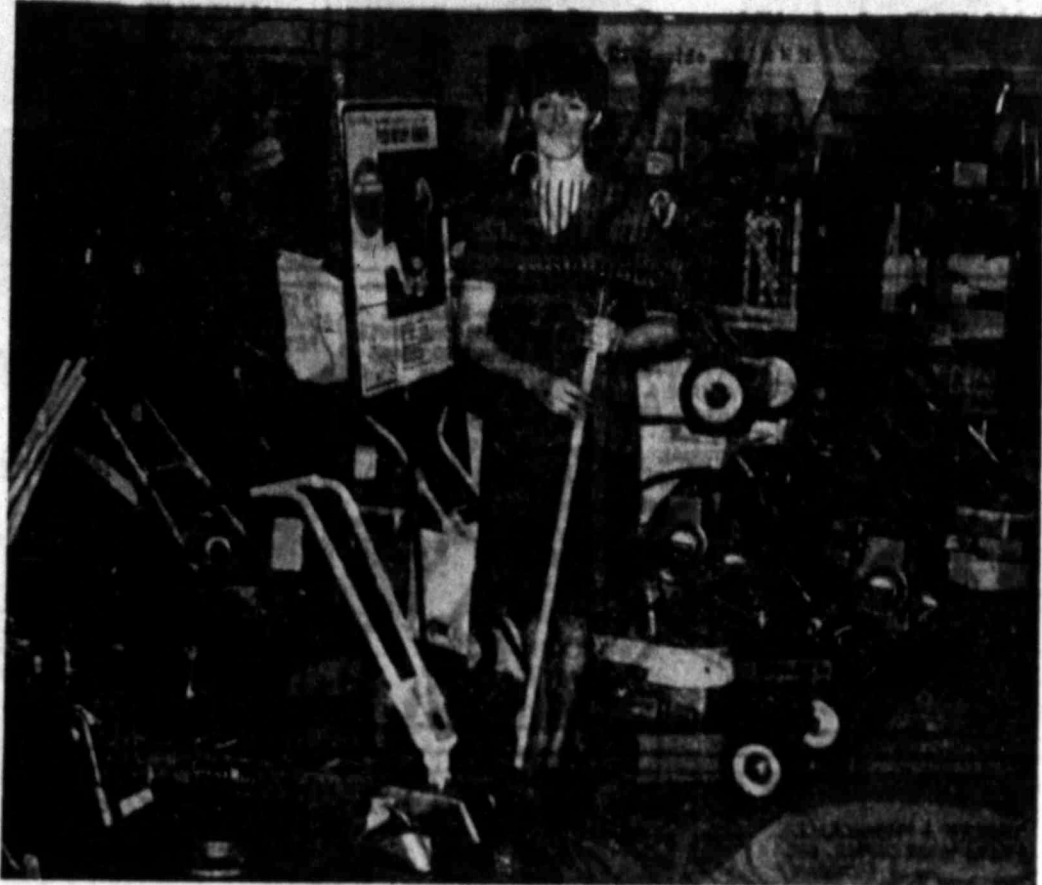

Ward's guarantees for a year every tree, bush and plant it sells to grow, if it is planted according to instructions and given proper care. But because of the carefully selected nursery stock sold at Ward's, the guarantee is seldom needed.

Plants now being sold at Ward's were selected for the West Texas Area. Ward's stocks plants which will fulfill the needs of almost every gardener and homeowner. Fruit trees are available in a wide variety and types, as are plants for landscaping.

Ward's garden center offers the buyer the opportunity to have the world's finest roses at a bargain price. These are not ordinary field grown plants, but all are Grade No. 1, which means they have husky roots that become quickly established. All are guaranteed to bloom the first summer. These bushes when planted now will be in bloom by June.

The garden center at Ward's has a wide selection of hand tools and other aids, which will help to make any garden the pride of the neighborhood. A productive garden can be produced with little effort with the aids and tools at the garden center.

In other lines, Ward's stocks motorized garden aids designed to take the sore muscles out of gardening and make any plot

Ward's Garden Center

(Photo by Frank Brandon)

Lela Reed, salesclerk in Ward's Garden Center, is ready to help the local gardener prepare for the summer growing season. The garden center has complete supply of garden tools, plants and seeds.

of ground more productive. A Garden Mark rotary tiller will speed the spading of the garden area and get the ground ready to receive the seed later. A garden tilled with a rotary tiller will have fewer weeds, because the fast action of the tilling blades grind up the weeds' root system. A Garden Mark tiller can be used year around by adding attachments for spring soil bust-up, summer weed control, fall clean up and winter snow removal. To protect the garden area,

Ward's has a selection of fencing materials, which range from rustic-looking western cedar to vinyl-clad chain link. All are available at Ward's and are easy for the do-it-yourselfer to install in any place he desires. Ward's garden center has a selection of lawn mowers to aid the homeowner in keeping his yard in top condition. The mowers are available in a variety of horsepower and cutting widths. The wheels are adjustable on the lawn mowers, in order that

they might be adapted to any kind of turf. Some come equipped with pickup bags, which save time and effort in cleaning the grass cuttings from the yard. There are three kinds of starters to choose from when selecting a lawn mower at Ward's garden center, rope pull, spring activated and battery starts.

The garden center also stocks yard trimmers, which help put the final touches on the lawn to make it look neat and trim.

## Knight's Pharmacy Continues Service

Gound's Pharmacy will become Knight's Pharmacy this week, but by any name it will continue to give the same high quality service it always has given.

Bob Knight, owner of Gound's Pharmacy will make the name change official after two years' ownership.

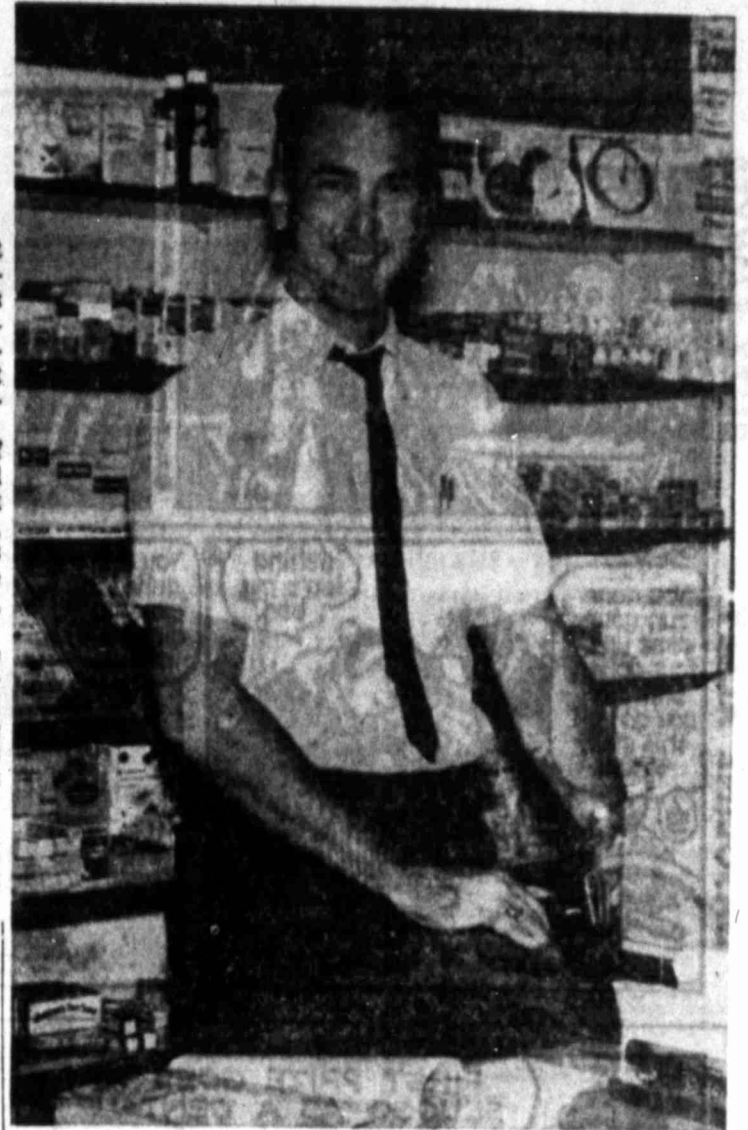

Knight's Pharmacy will still offer the complete pharmacy service with a full line of drugs and prescription department, which can fill any drug order from the doctor. Knight's can be relied upon regardless of whether the doctor orders medicines that require compounding, ointments or capsules.

Records are kept accurately on each family member who has prescriptions filled at Knight's Pharmacy. The system is so accurate that Knight's Pharmacy is accredited with Blue Cross-Blue Shield Insurance Co. Knight explains that the family record sheet maintained at no extra cost includes the name, the medication required and the date the prescription was filled. The amount of the purchase is also recorded, he said.

Knight's carries a supply of hospital equipment which will fulfill every demand of the sick room. Hospital beds, lifts, wheelchairs, prescription canes and walking canes are available by either renting or buying, Knight said.

Knight's features complete lines of both scented and unscented Marcella cosmetics, which are hypo-allergenic. He also stocks other cosmetics, as well as Goody hair care items for girls.

Mother can shop at Knight's for baby's needs, such as lotions, bottles, formulae and infant clothing.

Knight's Pharmacy

Bob Knight stands ready to help you with all of your drug needs at Knight's Pharmacy, formerly Gound's.

## Blue Lustre Helps Keep Carpets Clean All Year

It's during winter and early spring that the housewife is called into action in the fight against carpet soil. Tracked-in dirt caused by inclement weather is the enemy against which housewives wage constant battle. Now there is a modern weapon — which is no longer a secret! Blue Lustre has come to the rescue!

Women all over the country are singing the praises of America's new favorite, Blue Lustre, which has become a potent ally in the fight against grime.

Safe as water for any fine fabric, and so mild it may be used even on orientals, as well as on man-made fibers used in kitchen and outdoor carpeting. Blue Lustre's foaming action penetrates and cleans deeply, holding in suspension every last particle of dirt, which is then vacuumed away when the carpet is dry after shampooing.

Just one-half gallon cleans three 9 x 12 rugs. Carpet colors are restored to their original brilliance. Carpet nap is left open and fluffy — even in the well-worn traffic lanes — and the dirt is gone! Blue Lustre is odorless, contains no soap, and leaves no residue to cause rapid resoiling. The Blue Lustre

shampoo machine is lightweight, easy to carry and easy to use.

Rent the handy shampooer for \$1 a day with your purchase of Blue Lustre, and do a professional cleaning job at home. It's available at Big Spring Hardware.

## Baker Begins Duties Here

George Baker, who for the past two years has been assistant manager for Woolworth at a Lubbock store, has begun his new duties as assistant manager of the Big Spring Woolworth establishment. He replaces Randy Callan, who has moved to Duncan, Okla., to become assistant manager of the store there.

Baker has established his home at 1510 Stadium. He is married and has one daughter, aged four years.

Council Honor

Col. W. C. McGlothlin, Webb wing commander, presents Marvin Miller, 1968 co-chairman of the Base-Community Council, with a Webb wing plaque. Looking on is the new

civilian co-chairman of the council, R. J. Ream. Col. McGlothlin is military co-chairman of the council.

# Base-Community Council Zeroes In On Housing Need

A program to develop more rental housing units in the city, and establish a closer working relationship between the Webb AFH housing office and local landlords is emerging as one of the major projects of the year for the Base-Community Council. The council, made up of civilian members and Base personnel, directs cooperative efforts in a number of areas. Its first meeting of the new year was held Monday and a report was given showing that with the number of student

pilots increasing in the training classes — there is a press to accommodate military people in housing, mostly rental units. Special committees will be set up to work on this in the near future. Jeff Brown and Col. Donald A. Jones share the chairmanship of the council's housing-commercial committee, and have slated some informational sessions. Dick Ream, new civilian chairman of the council (serving along with Col. William C. McGlothlin, Wing Commander) presided at the Monday meet-

# Hundreds Evacuate California Homes

SANTA PAULA, Calif. (AP) — Thousands of Californians fled floods and new earthshakes as a record rain still poured today. Highway washouts cut off rescues of the stranded. An estimated 6,000 persons were evacuated throughout the night in six counties from Fresno to south. Rains from the three-day storm pushed totals to new highs for the first two months of the year. For example, about 44 inches in San Luis Obispo and about 24 inches in Los Angeles. Blizzards closed roads and isolated the eastern approaches to the High Sierra where a week-long search has been under way for an airliner lost with 35 persons aboard. The biggest evacuation was in Santa Paula, a Ventura County community of 18,000 about 60 miles northwest of Los Angeles and only a few miles west of Sespe Creek, where January rains swept nine persons to their deaths. Police evacuated 4,000 persons as swollen Santa Paula Creek flooded the east end of town. After drenching weekend rains, three inches of new rain fell Monday and another three inches was predicted. A flood two feet deep rolled through town, inundating stores. It was the second time in less than a month that floods forced Santa Paula residents to evacuate their homes, and officials

## Kidney Swap Lad Improves

Todd Swinney, young kidney transplant recipient, who formerly lived here, is making good progress in the Medical Center at Denver. He was provided with a kidney donated by his father, Don Swinney, four weeks ago. Young Swinney has been permitted several passes to leave the hospital since the surgery was performed and while not all of his recovery interval has been ideal, the doctors are well pleased with the case. He will have to stay in the hospital at least three months longer before he will be released to go home — assuming that his recovery continues satisfactory. The transplant was made on Jan. 28. The young patient is eight years old. His father is a Church of Christ minister at Albuquerque, N.M. The Swinney family formerly lived here. The father was able to leave the hospital in eight days after he had given his son the organ. He is now back at his work but manages to make weekly trips to Denver to visit Todd.

## Four Attend Baylor Study

Four from Big Spring were among the 250 Texas educators and churchmen attending the 11th annual school of Alcohol and Narcotics Studies at Baylor University last week. They were Mrs. Roberta Wiley, Mrs. Irene Wiley, Anna Smith and Glenda Arnold. The school was sponsored jointly by Texas Alcohol Narcotics Education (TANE) and Baylor University. Experts in the fields of alcohol, narcotics, other dangerous drugs, tobacco and highway safety conducted the school. Dr. Jorge Valles, director of alcoholism research and treatment at the Veterans Administration hospital in Houston, and clinical assistant professor of psychiatry at the Baylor University College of Medicine spoke on "The Cause of Alcoholism," and "Early Recognition of the Alcoholic." Dr. F. C. Vickery, consultant of Temperance Education, Department of Education, State of Alabama, Montgomery, Ala., spoke on "Positive Alcohol and Narcotics Education in Public Schools." Donald K. Fletcher, distribution protection manager for Smith, Kline & French Laboratories, Philadelphia, Pa., spoke on "The Growing Threat of Drug Abuse in America." Others spoke on practical help for the alcoholic and his family; relation of smoking and lung cancer; alcohol and highway safety, and many other topics.

## Little Lady Luck

SHEPHERDSVILLE, Ky. (AP) — Seven should be a lucky number for Cynthia McCubbins. She was born on the seventh month of the year, weighed seven pounds, and is the seventh child of the family.

## County Asks Bigger Share, But Not A Higher Rate

Howard County Commissioners Court adopted Monday a resolution calling for a 60 cents "across the board" commission to the county for vehicle registrations. The court did not call for a 60 cent increase in vehicle registration fees as The Herald Monday implied. Counties in Texas now receive a commission of 60 cents each for the first 5,000 registrations, 30 cents each for the next 10,000, and 20 cents each for the remainder of registrations. The Texas Association of Tax Collectors-Assessors has called for a flat 60 cents commission for each registration, regardless of the number. Howard County commissioners approved that resolution. Counties also receive the full amount of the registration fees up to the first \$50,000 and 50 per cent of the fees until \$175,000 is reached, which is the limit a county may receive for registrations. In 1968 Howard County received the full \$175,000 for 26,022 registrations. Its commission amounted to about \$12,500. With a 60 cents "across the board" commission, the county would have received \$15,500.

## Meet The Queen

ABILENE — Miss Jan Wilson, 1968-69 university queen at Hardin-Simmons University, will be introduced to H-SU alumni and friends prior to the second presentation of "Where's Charley?" at 8 p.m. Friday in Behrens Chapel. The production, sponsored jointly by the H-SU Theater and School of Music, will be given at 8:15 p.m. nightly in Behrens Chapel. It will be the major highlight of H-SU's homecoming which starts Friday.

## O'Neill Ready To Resign?

BELFAST, Northern Ireland (AP) — Prime Minister Terence O'Neill conceded failure today in his bid for Roman Catholic backing of his Protestant-based government and indicated he is ready to resign. O'Neill, leader of strife-torn Northern Ireland for the past six years, said his own political future was up to fellow members of the ruling pro-British Unionist party. He faces the paradox that his party's representation in the 32-seat Parliament is virtually certain to increase as result of Monday's election yet his personal position as advocate of reform and moderation in the long-standing religious feuding has been gravely undermined. Once again, Catholics charging discrimination in jobs, housing and local elections called for street demonstrations. With 47 of the 52 Parliament races decided, Unionists held 37 seats, Nationalists 5, Labor 2, Republican-Labor 2, Independents one. The Unionist-Labor tie equaled the 37 seats they held in the long-standing Parliament. But the trouble for O'Neill was that the powerful rebel faction inside his own party demanding that he resign had retained at least 11 seats and his bid to destroy its Parliament base had failed.

# AMERICAN CASUALTIES CLIMB Commie Offensive Continues

SAIGON (AP) — American casualties rose steadily today as the Viet Cong's new offensive continued for a third day. Authoritative sources said about 200 U.S. troops had been killed in the three days of fighting and several hundred others wounded. Allied military spokesmen said the offensive had cost the enemy more than 2,500 Viet

troops killed so far, most of them by air and artillery bombardment. FIGHTING SPREADS South Vietnamese headquarters reported 340 government troops killed and 1,063 wounded since the enemy launched the offensive with artillery attacks on 150 towns and bases Saturday night and Sunday, followed by some ground probes. At least 90 South Vietnamese civilians were reported killed and nearly 400 wounded, most of them by the enemy mortar and artillery attacks on cities and towns across the country. Although military analysts said Saigon still appeared to be the Communist's command's ultimate objective, the fighting spread north today and 28 U.S. Marines were reported killed in two attacks just below the demilitarized zone. They were the first attacks reported along the DMZ since the Communist offensive began. Northwest of Saigon, troops of the U.S. 25th Infantry Division repulsed a heavy assault on a firebase near the Cambodian border—the second in three days—and killed 78 North Vietnamese soldiers in a 2 1/2-hour battle. For the second night in succession, the allied commands reported about 50 enemy mortar and artillery attacks Monday night and early Tuesday on cities, towns and military posts. A military spokesman said the attacks appeared to be less intense than those the night before, casualties were fewer and damage was light. SAIGON SPARED Saigon was spared for the second night after being hit twice Sunday at the start of the offensive. In the northern fighting, the U.S. Command said North Vietnamese troops today broke through the defenses of one firebase of the 4th Marine Regiment two miles below the southern boundary of the DMZ. Twenty Marines were killed and 95 wounded, but enemy losses were not known, the command said. North Vietnamese gunners cut into the 150 Marines in the camp

with a mortar barrage during the middle of the night, then enemy infantrymen smashed through the barbed wire firing machine guns and rifles. Close-quarter fighting raged for 2 1/2 hours until dawn, then the North Vietnamese pulled out under American artillery bombardment. Three hours earlier, North Vietnamese troops attacked another 4th Marine artillery base three miles farther south with machine guns and small arms. The Marines battled the enemy through the night and turned artillery on the charging North Vietnamese, finally driving them off. Eight Marines were killed and 20 wounded, and the bodies of 17 North Vietnamese were found on the battlefield.

## New Texas Conference Of Churches Organized

AUSTIN (AP) — Thirty-eight Texas Protestant, Roman Catholic and Greek Orthodox leaders bind their faiths today into a new statewide ecumenical organization. In what has been called the largest ecumenical step ever taken in the western hemisphere, the churchmen planned to sign the Constitution of the New Texas Conference of Churches shortly after 9 a.m. Dr. Arthur S. Flemming, national Council of Churches president, was scheduled to address the "service of praise and intercession" following the signing of the constitution. The conference absorbs the 16-year-old Texas Council of Churches, a Protestant organization, and adds to it the 10 Texas dioceses of the Roman Catholic church as well as the Texas Greek Orthodox Diocese. The Council of Churches went out of business Monday. The new conference is an association for joint action as the Council of Churches has been. The conference's purposes include "attempting to apply more effectively the substance and insights of the Christian Gospel to the structures and institutions of this state." The state's largest Protestant denomination, the Southern Baptists, are not members of the new conference nor were they participants in the council. Member denominations of the conference are the African Methodist Episcopal, Catholic, Christian Methodist Episcopal, Christian, Church of the Brethren, Cumberland Presbyterian, Episcopal, Lutheran Church in America, Presbyterian U.S., United Church of Christ, United Methodist, United Presbyterian, United of the Brethren and Greek Orthodox.

## County Asks Bigger Share, But Not A Higher Rate

Howard County Commissioners Court adopted Monday a resolution calling for a 60 cents "across the board" commission to the county for vehicle registrations. The court did not call for a 60 cent increase in vehicle registration fees as The Herald Monday implied. Counties in Texas now receive a commission of 60 cents each for the first 5,000 registrations, 30 cents each for the next 10,000, and 20 cents each for the remainder of registrations. The Texas Association of Tax Collectors-Assessors has called for a flat 60 cents commission for each registration, regardless of the number. Howard County commissioners approved that resolution. Counties also receive the full amount of the registration fees up to the first \$50,000 and 50 per cent of the fees until \$175,000 is reached, which is the limit a county may receive for registrations. In 1968 Howard County received the full \$175,000 for 26,022 registrations. Its commission amounted to about \$12,500. With a 60 cents "across the board" commission, the county would have received \$15,500.

## Big Spring Job Applications Lag

Fewer job applications were received at the Big Spring office of the Texas Employment Commission in January than in the same month a year ago, Leon Kinney, manager of the office, has announced. There were 159 applicants handled by the office last month. The same month a year ago saw 248 applications filed. There were 117 applications filed in December, 1968. The office had 181 job openings in January this year and 229 for the same month a year ago. The office placed 126 in non-agricultural jobs last month and 25 in agricultural posts. Statewide, TEC reported increases in most of their offices' activities. A considerable surge of job applications hit the offices during January exceeding the volume in December.

## Cites Need For Special Law To Deal With Campus Riots

AUSTIN (AP) — Campus disruptions "seem to be contagious around the country," says a Fort Worth representative who thinks Texas needs a special law to deal with such disturbances. Rep. Joe Shannon Jr., Fort Worth, appeared before the House Criminal Jurisprudence Committee Monday as the sole witness on his bill prohibiting violent disruptions at tax-supported schools and colleges. "I feel this sort of legislation is virtually an urgent matter," Shannon said. "It has not occurred in Texas, and I seriously doubt it ever will because I think the students in Texas are more responsible than those in some other states. It seems to be contagious around the country. That's what both-

## Eggers Lands Job

WASHINGTON (AP) — Paul W. Eggers, unsuccessful Republican candidate for governor of Texas last year, will be nominated as general counsel of the Treasury Department, Secretary of the Treasury David M. Kennedy said today. The appointment is one that must be made by the President. Eggers, 49, is a Wichita Falls attorney.

### LEGAL NOTICE

Notice is hereby given that the election to fill two vacancies of the Glasscock County Independent School District Board of Trustees will be held April 5, 1969. Candidates must file with the Glasscock County (Texas) County Judge not less than 30 days prior to the date of the election.

JAMES CURRIE  
President, Board of Trustees

## 'Two A Penny' Fails To Show Easy, Pat Answers For Young

"It tells it like it is," said one person after viewing "Two A Penny," the World Wide film which opens Thursday at The Cinema in College Park Shopping Center for a six-day run.

It is a full-fledged and outstanding wide-screen production for and about young people in an unreservedly modern setting, and the 35 young people who previewed it here recently were,

with minor exceptions, excited about it. So were the adults, including Mayor Arnold Marshall who termed it a "great production with a message for the youth and adults of today."

Both the photography and acting in the film are exceptional, and the story moves through reality for young people without easy, pat answers. It has music with a beat and with some original songs that left many of the young people indicating they wanted a sound track of the show.

World Wide Pictures handles the Billy Graham films, and there are a couple of scenes from one of his London crusades. These, however, are only minor and fit into the story. A number of adults who saw the show rated this the best of the World Wide films.

There will be showings on weekdays at 2:30 p.m., 4:30 p.m., 6:30 p.m. and 8:30 p.m. Saturday (March 1) will add a 1:20 p.m. showing to this. Sunday (March 2) will have 2:30 p.m. and 4:30 p.m. showings. Admission is by ticket (\$1 if purchased in advance) only for a specific show time, but as space is available, tickets may be purchased (for \$1.25) at the door.

G. G. Morehead, general chairman for the "Two A Penny" presentation here, acknowledged the limited seating capacity might make it difficult for some to see the show, but he is confident of a

### PRE-SALES STOP AT FIRST SHOW

Pre-sale of tickets for "Two A Penny" will cease with the first showing Thursday at 2 p.m. Reserver seats for subsequent showings will still be available, but not at the pre-sale price. A showing at 8:30 p.m. Sunday has been added, said officials. The show's ticket office at Cinema is seeking Mrs. W. R. Beasley to confirm a block of tickets.

### Sincere Thanks For \$2 Million

NEW YORK (AP) — Jose Martinez found a friend at Chase Manhattan bank. A teller gave him \$2 million by mistake. Then Chase Manhattan found a friend in Jose Martinez. He gave it back.

It seems that Martinez asked for a \$12 money order to pay two months dues to his chef's union. The bank made out the money order for \$2,000,012.

Martinez took the money order back Monday and was given a very cordial reception, some sincere thanks—and a correct order.

### Horoscope Forecast TOMORROW —CARROLL RIGHTER

**GENERAL TENDENCIES:** Although this is a day and evening when you feel that life is not worthwhile, there is a ray of light present. A very understanding and spiritual person shows you how present problems can be opportunities by which you can actually gain success.

**ARIES (March 21 to April 19)** A good advisor shows that it is wise to just ignore the rather secular actions of a close friend. Don't be so upset about financial affairs. You worry too much over nothing. Take.

**TAURUS (April 20 to May 20)** Keep busy at routines, but try to get assistance of a good friend for some responsibility that has you stumped. Be more careful in motion of all kinds. Be clever with other persons or they get the best of you.

**GEMINI (May 21 to June 21)** Your money matters are best settled if you take some blows under your wing and get right results. Follow advice given. Stop feeling you are limited financially. Thinking big will make you big.

**MOON CHILDREN (June 22 to July 21)** Show that you understand a new contact very well whose ideas are quite different to yours. Stop feeling that you are always right and others in error. Be fair and think things out wisely.

**LEO (July 22 to Aug. 21)** You may have private anxieties, but release them to their proper place. Use your intuition and be more successful in the days ahead. Take care you do not change your mind in some important matter.

**VIRGO (Aug. 22 to Sept. 22)** Listen to what an associate has to say instead of listening to what a silly friend has to suggest. Many surprising things happen, but the future will be much clearer. Be clever.

**LIBRA (Sept. 23 to Oct. 23)** You have problems, but talking to everyone accomplishes nothing, so get busy working them out intelligently. See that you improve your health. Then you find everything does much better for you.

**SCORPIO (Oct. 23 to Nov. 21)** If you are kind or entertain one who does not think as you do, you can get this person to be a good friend. Some new idea is fine provided you retain right perspective. Stop dreaming your life away.

**SAGITTARIUS (Nov. 22 to Dec. 21)** Now you know just how to get into the right outfit that brings real security to yourself and family. See to it that your home is in finer condition. Then romance can come to you more easily.

**CAPRICORN (Dec. 22 to Jan. 20)** Why not sit down with an associate and get his views on some new project or well? You can only see your side so far. You have a close tie who is very sensitive; don't stir up trouble for the fun of it.

**AQUARIUS (Jan. 21 to Feb. 19)** Plan how to get things done so that you increase your abundance appreciably and a co-worker gives you the aid you want. Build up your vitality in the best way you can. Stop dreaming about some small gains. Be sure.

**PISCES (Feb. 20 to March 20)** You have excellent judgment so get busy doing what you want to do and forget all that confusion around you. A social matter brings real help, but you have to cut aside that romantic interlude for the time being.

### Help Wanted

The U.S. Civil Service Commission has announced openings for positions in the Air Reserve technician program as flight engineer instructor (GS-9-10) and flight engineer (GS-8) at Ellington Air Force Base, Tex. The salaries range from \$7,699 to \$9,297 per year, plus the military salaries for duties as an Air Force reservist. Information and applications may be obtained from the Post Office.

## '68 Oscar Nominations Revealed By Academy

By GENE HANDSAKER  
Associated Press Writer

HOLLYWOOD (AP) — The movie academy Monday announced its Oscar nominations, including for best picture of 1968, "Romeo and Juliet," "Funny Girl," "The Lion in Winter," "Oliver!" and "Rachel, Rachel."

Winners will be announced in nationally telecast ceremonies April 14.

Other top nominations: For best performance by an actor in a starring role: Alan Arkin, "The Heart is a Lonely Hunter"; Alan Bates, "The Fixer"; Ron Moody, "Oliver!" Peter O'Toole, "The Lion in Winter," and Cliff Robertson, "Charley."

For best performance by an actress in a starring role: Katharine Hepburn, "The Lion in Winter"; Patricia Neal, "The Subject Was Roses"; Vanessa Redgrave, "Isadora"; Barbra Streisand, "Funny Girl," and Joanne Woodward, "Rachel, Rachel."

Actor in supporting role: Jack Albertson, "The Subject Was

Roses"; Seymour Cassel, "Faces"; Daniel Massey, "Star"; Jack Wild, "Oliver!" and Gene Wilder, "The Producers."

Best achievement in directing: Gillo Pontecorvo, "The Battle of Algiers"; Franco Zeffirelli, "Romeo and Juliet"; Anthony Harvey, "The Lion in Winter"; Carol Reed, "Oliver!" and Stanley Kubrick, "2001: A Lonely Hunter"; Kay Medford, Space Odyssey."

## District's January Pace Off Slightly

The Colorado River Municipal Water District ran slightly off the financial pace during January, the monthly revenue statement shows.

Receipts for the first month of the year amounted to \$233,395, or about \$32,550 under the comparable period a year ago. Most of the money came from sale to the cities (\$118,180 as compared to \$112,474 in January, 1967), and sale to oil companies (\$98,495 compared to \$131,745 a year ago). One reason for the latter drop was that a year ago SACROC made a payment in January for contracted water not used the preceding year; most of the other company payments were steady.

Recreation collections in January stood at \$14,612, or about \$2,000 off the previous year's pace.

Expenses for January stood at \$84,145, and the previous January they were \$75,600. Most of the difference was in increased payrolls and Social Security taxes, plus payment of some miscellaneous expenses earlier than previously. The amount held for transfer to net revenues for use in meeting bond obligations was \$149,250, down about \$38,000 from January, 1967.

All of the 822,660,000 gallons metered to customers came from Lake J. B. Thomas except for 960,000 gallons from city lakes and wells. The amount of water delivered was less than a million gallons below a year ago. At the end of January, Lake J. B. Thomas was at elevation 2231.17 feet, and the content was 58,190 acre-feet, or 28.3 per cent of capacity.

### Name Fits Driver

PUEBLO, Colo. (AP) — A car skidded out of control for 400 feet, burst through a fence, a copse of trees, and a shopping center and smashed into a service station sign.

The driver, a 22-year-old soldier, stepped out unhurt. His name: Donald R. Luckey.
