

SPECIAL SESSION? Smith Signs Permian Basin College Bill

AUSTIN (AP) — Gov. Preston Smith signed a bill today creating the University of Texas of the Permian Basin.

LT. SHARON LANE

Enemy Fire Kills Army Nurse In Viet

SAIGON (AP) — Lt. Sharon Lane, an Ohio girl who liked the Vietnamese people and had compassion for the Viet Cong wounded, is the first U.S. Army nurse to die from hostile fire in the Vietnam war.

Political Protests

WASHINGTON (AP) — America will develop into a society of garrison cities unless it commits itself to massive political and social reform, a new study warned today.

Air Travel Woes

WASHINGTON (AP) — Thousands of tourists face possible cancellation of their trips because they may have unwittingly booked passage on illegal charter flights in Europe, according to Civil Aeronautics Board officials.

Teacher Resigns

SOMERVILLE, Mass. (AP) — The Somerville School Committee accepted the resignation of Mrs. Eleanor Sobel Monday night, apparently ending a controversy over a comment she wrote on a 7th grade essay on the Vietnam war.

Youth Claims 'Roughed Up'

DALLAS (AP) — A Dallas youth who claims he was roughed up by a Garland policeman during a traffic violation arrest filed suit for \$14,000 in U.S. District Court Wednesday, alleging violations of his constitutional rights.

Jet Grounded By Bomb Threat

SAN ANTONIO (AP) — A bomb threat kept a continental airlines jet en route from Houston to Los Angeles grounded for nearly two hours here Monday but investigators found nothing.

Rob Houston Bank

HOUSTON (AP) — Two long-haired bandits, one who courageously opened the door for an elderly woman and later threatened to kill her, robbed the Houston Bank in downtown Houston of more than \$25,000 today.

Pontiff Makes Appeal For Economic Justice

Paying Historic Visit To Geneva

GENEVA (AP) — Pope Paul VI came to this traditional center of Protestantism today and found the crowds greeting him smaller than in other places he has visited as Roman Catholicism's most traveled pontiff.

who accompanied the Pope on his trips to the Holy Land, India, New York, Portugal, Turkey and Colombia called this the smallest turnout the Pope had ever seen.

LACKS SYMBOLS

The Pope passed within view of St. Peter's Cathedral, the church where John Calvin was pastor during the 23 years he lived here and made Geneva an austere but flourishing theocratic state.

The cathedral is unadorned by crosses on its towers and lacks religious symbols of any kind inside.

Speaking to the ILO's 50th anniversary meeting, the Pope besought the 1,700 delegates from 121 nations to "hear this cry of sorrow which still rises up from suffering humanity."

He pleaded for the protection of man "stunned by the growing contrast between the prodigious increase of the goods at his disposal and their distribution, so easily made unjustly, between man and between peoples."

He pleaded, too, for the protection of man's spiritual and physical happiness in a world bursting with scientific advancement and material plenty, but still plagued with hunger, injustice, inequality and wars.

TERRIBLE DRAMA "Who can describe the sometimes terrible drama of the modern laborer," the Pope asked, "torn between his double destiny as a grandiose accomplice, too often the prey of the intolerable sufferings of a miserable proletarian condition, in which the lack of food is allied with social degradation to create a state of real insecurity, both personal and family?"

"You have understood this. It is labor as a human, prime and fundamental fact which constitutes the vital root of your organization and makes it into a magnificent tree."

The Pope cautioned the ILO delegates: "In this stormy hour of mankind's history, full of peril but also filled with hope, it is up to you, for the greater part, to build justice and thus to ensure peace."

(AP WIREPHOTO)

A Hit With The Ladies

Pope Paul VI leans forward and rests his weight on one hand to shake hands with women employees of the United Nations on steps of the Palace of Nations in Geneva, Switzerland, today. This followed the pontiff's speech to the International Labor Organization.

THREATS

Swiss police took heavy precautions because of threats from Protestant extremists in advance of the visit. Plans for the pontiff to ride in an open car were abandoned and he rode about Geneva in a closed limousine, occasionally waving an arm out an open window.

Before his arrival police swept up hundreds of leaflets that called the Pope a "usurper."

Police set up wooden stake fences along parts of the route to City Hall, but so few spectators turned out that they were hardly necessary.

Papal aides and newsmen

PAPAL TRIPS REVIEWED

GENEVA (AP) — Pope Paul VI's trip to Geneva today is his seventh outside Italy since he became Pope on June 21, 1963.

The others: Holy Land, Jan. 4-6, 1964.

Bombay, India, Dec. 2-5, 1964.

New York, Oct. 4-5, 1965.

Fatima, Portugal, May 13, 1967.

Turkey, July 25-26, 1967.

Bogota, Colombia, Aug. 22-25, 1968.

His next foreign trip will be to Kampala, Uganda, on July 31.

Children Charged After 12 Perish

PARKERSBURG, W. Va. (AP) — Warrants charging murder were issued by the Wood county prosecutor's office today against two young children whose parents and 10 brothers and sisters perished in a house fire early Sunday.

Prosecutor Bruce White said the warrants were issued against Roger Bailey, 13, and his sister Susan, 15. He said this followed an investigation which produced evidence of arson in the house blaze.

White said the children were only being charged with murder of their father, Charles Bailey, 41.

"We obviously wouldn't set forth charges in all the deaths, so at random we settled on the father's name," White told The Associated Press.

He said arraignment was scheduled for later in the day.

White said the youngsters were being held in the detective bureau of the city police department pending arraignment.

The pre-dawn fire whipped through the family's small frame home here Sunday. The only occupant to flee the flames was the children's grandfather, Obie, 63.

Emmett C. Roush, assistant state fire marshal, said earlier that two persons had admitted intentionally setting the fire. However, he declined at that time to identify those involved.

Nearly 400 Killed In Ground Fighting

SAIGON (AP) — Nearly 400 Viet Cong and North Vietnamese were killed in heavy ground fighting Monday after a brief lull in the Vietnam war, military spokesmen reported today.

The 5th Marine Regiment reported killing 186 North Vietnamese soldiers in a two-day battle 22 miles southwest of Da Nang, and the U.S. Command said 137 enemy troops were killed in four other clashes involving American forces. South Vietnamese headquarters claimed 70 enemy killed in two fights in Tay Ninh Province.

95 WOUNDED

American losses were 18 killed and 95 wounded. Six Saigon government troops were reported killed, and 16 were wounded.

A Marine spokesman at Da Nang said North Vietnamese troops attacked a platoon of the 5th Regiment Sunday night. "We called in artillery, and then the big battle started."

Heavy air strikes and artillery pounded fortified enemy positions during the night, and about 500 Marines attacked Monday morning.

The fighting raged on the outskirts of An Hoa, the Marines' regimental headquarters, and through the rich lowlands rice area until 3 o'clock this morning.

"Traditionally, since 1965, the enemy has been putting pressure on this area," a Marine spokesman said.

The Marines said they counted 186 enemy dead, compared to six of their own men killed and 38 wounded.

U.S. headquarters said American soldiers riding tanks and armored personnel carriers clashed with the North Vietnamese in four fights on old familiar battlegrounds 32 to 65 miles northwest of Saigon.

Spokesmen said 137 enemy troops and 12 Americans were killed. Fifty-seven Americans

were reported wounded. "There were no ground attacks by the enemy," an American military spokesman said. "In most cases we found him in fortified positions... It fits in with his tactics." He's sitting in fortified positions until he's ready to move out and attack somebody. "We're continually out looking for him. Yesterday, we found him." Forty-five enemy rocket and mortar attacks were reported during the night, 23 more than the night before. Military spokesmen said 25 of the latest attacks caused casualties or damage, but these were light. Ten rockets were fired at the U.S. Army and Air Force installations at Bien Hoa, 15 miles northeast of Saigon. The U.S. Command did not give details of the attack but said some Americans were killed and wounded, and there was some damage.

Water Pistol Fights Banned

NEW YORK (AP) — Water pistol fights have been banned from the floor of the New York Stock Exchange.

Also out are such capers as dousing people with talcum powder or disrupting business by sending up gas-filled balloons.

Instructions to this effect have been issued to the 1,366 members of the Big Board by Bernard J. Lasker, chairman of the exchange's board of directors, he confirmed Monday. A similar directive went out to the 2,000 men and boys who perform support duties on the floor.

Members who violate the taboo will be fined \$1,000, and the others will be suspended from work for two weeks.

Lasker declined to elaborate, but brokerage sources said pranksterism in recent weeks had disrupted trading and even damaged some electronic communications devices.

Stock exchange folk have an old tradition of sprinkling talcum powder on prospective bridegrooms. On a recent occasion, the talcum powder flew so freely it put a number of teletype machines out of whack.

Charged With Murder Of Mexia Baton Twirler

DALLAS (AP) — The accused knife-slayer of a Mexia high school girl was charged today with the slaying of Karen Lynn Kubat, 17, on Aug. 20, 1968.

A charge of murder and another of burglary were filed against Carlos Don Stoltz before Justice of Peace Tom Naylor.

Naylor denied bond for Stoltz, who was being held in the Limestone County Jail at Groesbeck.

Grand Prairie detective C. R. Roberts said Stoltz, an itinerant ranch hand, had signed a statement in the slaying of Miss Kubat. She was stabbed to death in the home of her father and stepmother in Grand Prairie as she slept on a couch.

Her father was alerted by her screams and found her fatally stabbed. Before she died three hours later, she indicated she knew the man who had slashed her throat.

Roberts said Stoltz lived across the street and three doors down from the Kubat home.

Grand Prairie detectives renewed their interrogation of Stoltz after he had been charged with the June 4 knife slaying of Kathy Jones, 17, a baton twirler for the Mexia High School band.

Stoltz was also charged with burglary on a complaint signed by Barbara Collier. The offense allegedly took place Aug. 19, 1968, in Grand Prairie.

Dallas County Sheriff Bill Decker said Stoltz had been questioned in connection with the strangulation death of Barbara Ann Bryan, 16, whose body was found in the Trinity River Oct. 7, 1968.

"He's the first good suspect we've had in that girl's death," Decker said Tuesday.

The sheriff indicated Stoltz lived in the vicinity of the Bryan girl's home at the time of her death.

Grand Prairie police said they are also questioning Stoltz in the attempted knife attack on Becky Baker, 18, a few weeks before Miss Kubat was killed.

LATEST VICTIM IN A CHAIN OF SIX SLAYINGS Shot, Stabbed, Sexually Abused

ANN ARBOR, Mich. (AP) — A pretty, unidentified young woman, shot, stabbed and sexually abused, is the latest victim in a chain of six slayings near this college town in 22 months.

Her mutilated body was discovered Monday on an abandoned farm. Sheriff Douglas J. Harvey said it seemed probable she had met her fate at the hands of the same killer as the others. He added that no likely suspect had been sighted.

Since Aug. 7, 1967, the bodies of five other girls have been found within a seven-mile radius of Ann Arbor, home of the University of Michigan. Two of the victims were coeds at Eastern Michigan University, one nearby Ypsilanti and one was a student at the University of Michigan.

The one death that didn't fit the pattern was that of Jane Louise Mixer, 23, a student at the Michigan law school from Muskegon, Mich.

Unlike the others, her body, which was found March 21 in a cemetery near Ypsilanti, was fully clothed. There was no evidence that she had been sexually attacked, and she had been killed by several shots in the head.

All the other girls had been stabbed or strangled. The latest victim, however, was both stabbed—once in the heart, seven times in the chest—and shot—once in the head.

Harvey said he and his men thought they were looking for a single killer, adding that there were "similarities linking all the deaths."

The unidentified victim was described as 5 feet, 5 inches tall, weighing 137 pounds with long, dark hair. Police said she was between 18 and 20 years old.

She was dressed in a purple blouse, a white miniskirt and a

multicolored striped coat. No shoes were found.

The body lay near a clump of bushes on an abandoned farm, one of many in the farmed-out area of northern Washtenaw County.

Three teenage boys discovered the body about 4 p.m. Harvey said the girl had been killed sometime Sunday night.

The young women killed in the area have ranged in ages from 13 to 23. They were, in addition to the unidentified girl and Miss Mixer, Mary Flezar, 19, Joan Schell, 20, Maralynn Skelton, 19, and Dawn Basom, 13.

Hawks and doves in Congress are beginning to fly a common course toward withdrawal of U.S. troops from Vietnam, even though they still may disagree on timing. See Page 1-B.

MR. AND MRS. JACK WAGNER, JAMIE AND JACKIE LEE

Jack Wagners Leave Humidity Of Gulf Bay

By RHODA LEMONS

A little over eight years ago, Miss Rebecca Burdette met Jack Wagner in San Marcos, and the couple was married almost a year later. They are the newcomers living at 4044 Vicky, and they now have two sons, Jackie Lee, 6, and Jamie, 4. Jackie goes to first grade at Christian Day School.

Mr. and Mrs. Wagner were married in Fairbury, where Mrs. Wagner was reared. She attended two years of high school there and graduated

from San Marcos Baptist Academy. After graduation, she attended Nixon Clay Commercial College in Austin. Her parents are Mr. and Mrs. Walter J. Huckabee of Temple.

Wagner is the son of Mr. and Mrs. Jack H. Wagner of Rio Hondo. He graduated from Rio Hondo High School, attended A&I College, was working in San Marcos when he met his future wife. After their marriage, he dropped out of college and became a dairyman for awhile. Later, he went back to college and got his BS degree

in chemistry with the same number of hours in business administration. He graduated in 1967.

The couple moved to Corpus Christi, where he worked for Pontiac Oil and Refining Company for almost two years. He is now an analytical chemist for Cosden Oil and Chemical Company.

They purchased a home, and both are eagerly working in the yard and adding personal decorator touches to their home. They have an interesting collection of rocks which they have collected during the years.

"I am glad to get to a climate that is less humid, but the dust here upsets me," said Mrs. Wagner. She admitted, however, that it has rained often since they arrived here.

"We both love the outdoors," said Mrs. Wagner, and they often have cookouts in the backyard. She collects coins for the children, hoping the collection will "become valuable."

Wagner is interested in hunting and fishing, and they get away as often as possible for him to indulge in this sport. Mrs. Wagner said the game helps on the grocery budget.

Wagner's favorite sport is tennis, and he plays as often as he can find a good partner. Now that the children are older, the family plans weekend outings and are interested in go-kart races and miniature golf.

Wagner wants to get his master's degree in business, which he feels is essential for advancement and success in his field.

Both Mr. and Mrs. Wagner enjoy playing all card and domino games. They are looking forward to meeting more people with this interest so they can "get up a game."

The Wagners are of the Methodist faith.

Ceremony Held Friday In Odessa

The wedding of Miss Betty F. Buchholz and James G. Lively was solemnized at 8 o'clock Friday evening in the sanctuary of the First Presbyterian Church at Odessa. The Rev. Joe Brown read the double ring ceremony.

The bride is the daughter of Mrs. A. J. Cain, 701 Goliad, and the late Mr. Cain. Parents of the bridegroom are Mr. and Mrs. J. P. Lively of Brownwood.

The prelude of organ nuptial music was by Miss Mary Lou Kelsey, and attendants for the couple were Mrs. Rose Eberle of Midland and O. P. May.

The bride was attired in a princess-style blue dress, and blue bows formed her headpiece. She carried a bouquet of carnations, centered with an orchid and accented with net, ribbon and lily of the valley.

The bride is a teacher at Gonzales Elementary School, and the bridegroom is employed by the Texaco Oil Company in Midland.

Immediately following the ceremony, a reception was held in the family home. Mrs. J. L. Christensen of Big Spring and Mrs. A. J. Cain Jr. of Midland served refreshments from a table covered with a handmade lace cloth over blue. Appointments were crystal and silver. The three-tiered wedding cake was decorated with blue roses and topped with a seed pearl heart and white doves.

After a short trip to El Paso and Mexico, Mr. and Mrs. Lively will be at home at 1311 Laurel, Odessa.

Parents of the couple attended, and other out-of-town guests were A. J. Cain Jr. and P. Mills, both of Midland.

Beauceants To Hold Friendship Night, Initiation

A Friendship Night was scheduled June 23, when the Social Order of Beauceants met Monday at Masonic Temple. Guests at the special event will be Sir Knights of the lodge as well as visitors from Midland, Odessa and Sweetwater.

Mrs. R. L. Lee presided and read a letter of appreciation from McKnight Hospital for gifts of fabric. At the next meeting, following the initiation of Mrs. Alden Ryan, the order will prepare another box of fabric for the hospital.

Mrs. Lee reminded the group that their trading stamps and money are needed to help purchase a bus for elderly residents of the Masonic home in Arlington.

Hostesses were Mrs. Ray Thomas, Mrs. T. R. Morris and Mrs. G. T. Hall.

Webb Debs Honored At Tea

The festivities of "coming out" make for an exciting time for these five debutantes who will be the first presented at Webb Air Force Base. Shown at Monday's tea hosted by Mrs.

William C. McGlothlin are, from left, Miss Carolyn Scarbrough, Miss Adele Deming, Miss Paula Estes, Miss Jennifer Schneider and Miss Christine Wall.

Monday Tea Honors Webb Debutantes

Mrs. William T. McGlothlin, wife of the wing commander at Webb Air Force Base, was hostess Monday at a tea in her home, No. 1 Albrook, honoring debutantes who will be presented at a Webb Air Force ball this weekend.

Cohostess was Mrs. Michael Rega, and Mrs. James Malone joined the two in receiving guests.

In the receiving line were the five honorees, Miss Paula Estes, Miss Adele Deming, Miss Jennifer Schneider, Miss Carolyn Scarbrough and Miss Christine Wall.

Calling hours were from 2 to 4 p.m. The guest list included mothers of the honorees, out-

See Making Of Burlap Flowers

A program on making burlap flowers was given by Mrs. Joe Myers at the Monday meeting of TOPS Salad Mixers in the Knott Community Center. Mrs. Dan Brashears presided, urging all members to be present at the next meeting to receive assignments for working on the rodeo parade float. Miss Loretta Zant, monthly queen, received a free hair style, and Mrs. B. J. Williams was named weekly queen.

The tea was the second event of the week to honor the debuts. This evening they will be guests at a pavilion party at Webb Air Force Base.

Use Hotter Water

Water should be hotter than 140 degrees F to destroy bacteria on soiled clothing or household textiles.

Bride-Elect Is Honoree At Saturday Gift Party

Miss Patricia Bogard, bride-elect of Sgt. Roy Spires, was honored Saturday afternoon with a surprise shower and rice bag party in the home of Mrs. Wayne Burleson, 1702 Runnels.

Cohostesses were Mrs. Mike Schultz, Miss Janie Boadle and Miss Shirley Ray. Calling hours were from 3 to 5 p.m.

Miss Bogard was presented a corsage of yellow daisies as was her mother, Mrs. Stanley Bogard, and her grandmothers.

Mrs. George Bogard and Mrs. E. G. Christensen, the mother of the prospective bridegroom, Mrs. Quentin Spires of Shabonna, Ill., was unable to attend.

The hostesses' gift to the honoree was a peignoir set. Refreshments were served from a table covered with a crocheted cloth and appointed with crystal and silver.

Miss Board and Sgt. Spires plan to be married June 20 in the Westside Baptist Church.

A LOVELIER YOU Use Conditioners On Dull Lustreless Hair

By MARY SUE MILLER

A lovely writes: It's easy for me to get a shine on my nose, but not on my hair where I could use it. Why is some hair glossy and some like mine, so dull and drab? A smart chemist should invent a hair polish.

The Answer: A number of factors contribute to lackluster locks. First off, like all facets of feminine beauty, your hair is affected by your general health and the healthfulness of your living patterns.

Then, a very oily scalp condition dulls the hair. The answer is frequent shampooing, possibly with medicated or pH suds. In severe cases, a visit to a dermatologist is advisable.

Gloss is dimmed, too, through harsh, drying treatment—careless waving, bleaching and shampooing, for instance. Any sort of improper care roughs up the outer layer of individual hairs, a layer that is made up of microscopic scales.

For sparkle, the scales must lie smooth in overlapping formation. The obvious remedy for scuffed state is to end abuse and then begin conditioning treatments.

Immediate increase in gloss is a project on which "smart chemists" have been working for years. Brilliantine has a long, very long history and is still available. Modern products,

cream and creamy fluid hair-dressings, provide instant shine and a fair amount of conditioning. So what's to keep you from polishing?

HAVE LOVELIER HAIR

Overcome your hair problems! Send for my booklet, "How To Have Lovelier Hair." Advice includes: corrective care of dry, abused, oily and hard-to-manage hair; expert coloring methods and treatment of tinted hair; hairstyle formulas; tips on perfection cutting, permanents, straightening and grooming. Write to Mary Sue Miller in care of the Big Spring Herald for your copy, enclosing a long, self-addressed, stamped envelope and 35 cents in coin.

Summer Homemaking Offers Four Courses

The annual summer homemaking program offered at Big Spring Senior High School is off to a good start with approximately 40 girls enrolled for the free instruction. Work will be done in three areas: home, community and school.

The latter will involve four classes being offered at the school this summer. Each girl must enroll in one course; however, she may enroll in several if the class is not crowded.

COMMUNITY WORK
In the community work area of summer homemaking, each girl is required to have at least one hour of community work; however, she may acquire as many as 50 hours if she chooses. Possible places where girls may serve this year are vacation Bible schools, Big Spring Nursing Inn, the Veterans Administration Hospital, Big Spring State Hospital, Head Start, Rehabilitation Center and Girl Scout Camp. For the required work at home, students may choose from the following: Personal and Family Clothing, Family Meals, Home Improvement, Child Care and Home Management. Records are kept on all work and are submitted for grading July 23.

The total summer experience will involve 100 hours of work during June and July. If work is satisfactory, one-half credit may be earned toward high school graduation. Students may participate in two summer homemaking projects during their high school career, and must have completed one full year of homemaking the regular term per summer project.

A PLAY SCHOOL, June 9-13, 9 to 11 a.m. Mrs. Charlotte Hamilton and Miss Helen Willard will supervise homemaking students in conducting a play school for approximately 12 children four and five years of age. The activities will include a story-telling, quiet play, creative play and active play. Refreshments will be served daily.

Entertains Webb Debs
Debutantes, who will be formally presented July 14 during a ball at Webb Air Force Base, were honored at a tea Sunday in the home of Mrs. John Stull, 551 Hillside, with Mrs. William Lund as cohostess. Others honored were the girls' mothers and members of the Officers' Wives Club debutante committee.

REGULAR SCHOOL
Separate and apart from the free homemaking program is the homemaking course being offered for the first time in regular school. Students may take Homemaking I, II, III, Foods and Related Areas which will be taught by Mrs. Billye Grisham and Mrs. Carol Torbensen.

B CHARM COURSE — June 9-13, 1:30 to 3:30 p.m. Mrs. Wilbur Cunningham will conduct a charm course for approximately 20 girls. There will be lectures, demonstrations and practice in developing good posture and modeling techniques. Speakers will discuss hair styling and care, selection and care of foundation and undergarments, and the entire class will be guests at the Health Spa for one session. Other topics included will be skin and nail care, make-up and feature control. The course will terminate with two informal fashion shows in Furr's Cafeteria June 16-17 at noon. Fashions and shoes will be provided by Highland Center stores.

The honorees were Miss Paula Estes, Miss Adele Deming, Miss Carolyn Scarborough, Miss Jennifer Schneider and Miss Christine Wall. Mothers attending were Mrs. Chandler B. Estes and Mrs. Robert T. Deming. Special guests were Mrs. William C. McGlothlin, wife of the Webb wing commander; Mrs. James Malone, Miss Beth Graumann, Miss Patty Finke, Miss Kitty Harris and Miss Sharon Estes.

These courses are of particular interest to girls who do not have time for elective courses during the regular school year, those who have not passed homemaking courses and those who wish to complete their high school education in a shorter period of time. Nine students have enrolled this summer and increased enrollment is expected in coming years. One-half credit toward graduation may be earned in each course. The classes are two hours in length for eight weeks.

C CLOTHING CONSTRUCTION — July 7-11, 9 to 11 a.m. Clothing construction will be taught by Mrs. Jack Alexander. The students will provide their own materials and work on a garment of their level of difficulty.

Calling hours were from 2 to 4 p.m., and refreshments were served from a table covered with a royal blue skirt and Alexander. The students will provide their own materials and work on a garment of their level of difficulty.

These courses are of particular interest to girls who do not have time for elective courses during the regular school year, those who have not passed homemaking courses and those who wish to complete their high school education in a shorter period of time. The classes are two hours in length for eight weeks.

D FURNITURE ANTIQUING — July 7-11, 1:30 to 3:30 p.m. Mrs. John Annen will teach students basic techniques of antiquing during this week. The

state president, gave the meditation Friday at an executive board meeting which preceded the first general session. At that time, the meditation was by Miss Sarah Mitta Hill, state past president. Featured as speaker at the president's dinner that evening in the Terrace ballroom was the immediate past international president, Mrs. Nell B. McMains. Her topic was "Look to the Future."

Registrations are now being taken for session Two, June 29-July 12. The fee is \$42 for Girl Scouts and \$44 for girls who are not Scouts. For further information write the Girl Scout Office, P.O. Box 5586, Abilene, Tex. 79605.

G. T. Williamses Residing Here
Mr. and Mrs. George W. Williams Jr. have returned to Big Spring following his graduation, May 24, at East Texas State College. They are residing at Blackshear Trailer Court, and he is employed at Carver's Pharmacy.

The Southwest Regional Conference was slated July 27-30 in Reno, Nev.

Registrations are now being taken for session Two, June 29-July 12. The fee is \$42 for Girl Scouts and \$44 for girls who are not Scouts. For further information write the Girl Scout Office, P.O. Box 5586, Abilene, Tex. 79605.

Delta Kappa Gammas Convene In Houston

Mrs. B. F. Vandell, president of Beta Kappa Chapter, Delta Kappa Gamma, has returned from Austin where she attended the society's state convention, June 5-8 at the Terrace Motor Hotel. Mr. Vandell accompanied his wife on the trip.

Over 1,000 women educators participated in the three-day conference of the international honor society for women who have made outstanding contributions in the field of education. The theme was "I Caught the Fire from Those Who Went Before."

Following registration Thursday, the women spent the evening on the riverboat, Commodore, and had dinner at Greenshores.

Mrs. Dadie Ray Powell, past president, presided at the dinner. The main speaker was Dr. Mary Frances White, international first vice president, who asked the question, "How Far Does Your Shadow Fall?"

The couple are parents of a daughter, Shannon LeAnne, born May 31 in Dallas, weighing seven pounds, four ounces. The mother is the former Connie Carver, daughter of Mr. and Mrs. Milton Carver, 601 Circle Williams is the son of Mr. and Mrs. George W. Williams Sr., 1308 Stadium.

Registrations are now being taken for session Two, June 29-July 12. The fee is \$42 for Girl Scouts and \$44 for girls who are not Scouts. For further information write the Girl Scout Office, P.O. Box 5586, Abilene, Tex. 79605.

Following registration Thursday, the women spent the evening on the riverboat, Commodore, and had dinner at Greenshores.

John Cunniff Who Pays Pilferage Costs?

NEW YORK (AP) — Although business is the immediate loser in what appears to be a growing incidence of theft, it hasn't always been the first to complain publicly.

seems to prevail that crime is something bigger than the ability of any one company to contend with and therefore should be accepted as a cost of doing business.

Hal Boyle Possible Comeuppances

AT KENNEDY Airport here, the Airport Security Council made up of airlines and freight forwarders, complained this week that \$100,000 in watches have been stolen this year.

NEW YORK (AP) — Every man should try to have a good opinion of himself—but not so high a one that it startles his neighbors.

WHY THE reticence? In Wall Street, at least, some brokers are said to feel that it is better to cover up rather than reveal securities thefts.

Boasting about the bargain secondhand car you got for \$1,000 and then finding out it's the same car an acquaintance down the street sold to the dealer for \$450.

"STILL, THERE will be a lot left over for myself and my family, won't there?"

WHILE BROODING over the fact your hair is getting thinner and grayer, you discover the hair in your ears is getting bushier and whiter.

To Your Good Health Every Pain Doesn't Mean Arthritis

By G. C. THOSTESON, M.D. Arthritis isn't one disease. It is many!

time I was pregnant, one of my symptoms was strong sneezes, usually two or three in a row, and usually in the morning, when I was hungry or had just started to eat.

I WAS SCARED. Two young girls with African hair-do's got aboard, never so much as looked at me but talked in low voices with sinister scowls.

Around The Rim The Price Changed, Too

I just looked in the top drawer of my desk. There must be at least 25 ballpoint pens of assorted types, colors and ages piled helter-skelter in the drawer.

to open so they could buy "the miraculous pen that will revolutionize writing."

ANYWAY, I am told that was the year the ballpoint pen made its debut on the American scene.

Thousands of others are sold in stores and the price runs from half a dozen for a half dollar to several dollars each. But the old \$12.50 tag is long, long gone.

Do you remember what the price tag for a ballpoint made by Reynolds read? It was \$12.50!

I NEVER GO OUT without one or two ballpoints in my pocket. I carry two or more because I never know when the ink supply in one will peter out and I may be caught inkless while making important notes.

ON THE FIRST day they were sold, the records show that 5,000 men and women jammed the streets in front of Gimbel's famous department store in New York waiting for the store

Besides, juggling them around has become a habit — I feel partly unwell if I forget to pocket my ballpoint pins.

Marquis Childs The Disastrous Rockefeller Mission

WASHINGTON — The disaster of Gov. Nelson Rockefeller's Latin-American exploration is more than a personal tragedy, although it certainly is that.

Prices of coffee and other commodities for earning dollars drop while the costs of manufactured goods continually rises. Up to 80 per cent of Alliance funds — a billion dollars, a year — are spent in the United States for goods going into Latin-American development.

VENEZUELA told him to keep out for fear that hostile demonstrations would get out of hand and result in widespread damage Rockefeller's personal safety could not be assured.

PERHAPS BETTER than anyone else through his long relationship Rockefeller knows the cause and effect triggering the unrest. A staggeringly high birth rate is a root cause.

IN THE LARGER context what is so hard to understand is that all this could not have been foreseen.

One thing can be said for the Rockefeller fracas: that useful Spanish word, meaning snafu on a grand scale. There is an urgent need for far-reaching changes in American policy with a positive approach and not just the tired old rhetoric.

WASHINGTON — It was a \$5 taxi ride to the suburban hospital where my friend lay, and only 45 cents, including the transfer ticket, by bus.

I WASN'T THERE, but I was certain what had happened in Los Angeles. Those white people, many of whom had voted for Bradley the first time, were scared this time.

WHILE BROODING over the fact your hair is getting thinner and grayer, you discover the hair in your ears is getting bushier and whiter.

EVERY FEELING in me was discreditable and illogical, for there had not been the nuance of a threat and these individual passengers could not be fairly indicted, no more than I could be, for things that our separate races had done at other times and places.

WHILE BROODING over the fact your hair is getting thinner and grayer, you discover the hair in your ears is getting bushier and whiter.

NOBODY WOULD call this a desirable situation, and a good many will call it the double backlash of racial resentment on both sides.

WHILE BROODING over the fact your hair is getting thinner and grayer, you discover the hair in your ears is getting bushier and whiter.

NOBODY WOULD call this a desirable situation, and a good many will call it the double backlash of racial resentment on both sides.

The on 25 per cen The Howa would lose a tax rate valuation. Bruce not decrease in more than that 95 net...) WARRANTY D...) Publi...) -W...)

Oil Valuations Down, County To Lose \$6,000

Howard County will lose \$571,610 this year in valuation of oil property, the commissioners court was told Monday by Prichard and Abbott, oil property appraisers for the county.

The decrease is due to the loss of 150 oil producing wells and a drop in production of 2,357 barrels per day, according to Earl Bruce, appraiser for the firm.

Bruce said the total net loss of \$571,610 in value is the difference between a drop in mineral values of \$1,321,610 and an increase in improvements of \$750,000. The figures are based on 25 per cent of total valuation.

The Howard County treasury would lose \$6,001.90, based on a tax rate of \$1.05 per \$100 valuation.

Bruce noted that this year's decrease in valuation is the first in more than 14 years, and said that 95 new wells were completed in 1968. The new wells, however, could not offset the number of wells which were plugged, he said.

There were 3,693 producing oil wells in the county's 46 fields in 1968, but there are 3,343 wells in 1969. Value in 1968 was \$29,952,780 compared to \$28,631,170 in 1969.

Bruce noted that a large part in the increase in personal oil

property was from \$708,000 in improvements of Cosden Oil & Chemical Co.

Oil fields showing the sharp decrease were the Howard-Glasscock, Iatan, East-Howard, Ruwe-Cobb (Pennsylvanian), Snyder and Coronet (Canyon).

Production in the Howard-Glasscock field showed a loss of 537 barrels per calendar day, and production was down 167 barrels per day in the Gloria formation of the field. The Wolf-camp zone was plugged back to the San Andres this year.

The Iatan, East-Howard showed a reduction of 455 barrels per day, and production was off 40 per cent in the Ruwe-Cobb (Pennsylvanian).

The Snyder field showed a loss of 585 barrels per day. Production was down 53 per cent in the Coronet (Canyon) field.

Production was up in the Brookling, Northeast (Cisco) field, and the Modesta, South (Cisco) field showed a gain of 166 barrels per day. The Sara-Mag (Canyon) field also had a slight increase in production.

The E Sprayberry (Dean-Wolf-camp) was a new discovery in 1968, and the Vealmore, East showed no change in production.

In other business the commissioners court took no action on the resignation of Harvey

Hooser as constable for Justice Precinct 1. Hoover, a local attorney who took office last Jan. 1, resigned because of a state law which said certain elected officials could not appear in a court of record and plead as attorneys.

The commissioners also voted to allow \$810 in expense money to bring five people from Kansas City to appear as witnesses for the state in the A. B. Blount murder case. Wayne Tollett, special investigator for the district attorney, said the money would be refunded by the state to the county.

Commission To Consider Bids

Commissioners will meet at 7 p.m. today in the City Commission Room of City Hall and to consider the award of a uniform rental bid.

Bids will be opened and tabulated at 2 p.m. today and submitted to the commissioners tonight for rental of uniforms for 90 city workmen.

The agenda also includes a discussion on a "bold harmless" agreement between the city and Cosden Oil and Chemical Co. The agreement holds Cosden blameless for damage to city equipment or injuries to city workmen while on Cosden premises.

A consumption of beer on premises for the Gomez Cafe, owned by Thurman Randle, will be considered for the third and final reading.

Three Mishaps Investigated

Police investigated three minor accidents Monday.

Cars belonging to Raymond Hughie Cooley, 1507 Stadium, and Virgil Alvin Whitaker, Vincent Route, Coahoma, were in collision at Eleventh and Rannels.

A minor accident at Eighth and Gregg involved cars driven by Angela Sanchez, Route A, Lamesa, and Barbara Carver, 604 Gollad.

J. B. Hardeman, 104 NE 9th, and Alex Banks, 505 NW 4th, were the drivers of car involved in a fender-bender at Bell and Northwest Fourth.

Guitar Deadline

Today is the last day for students enrolling in the YMCA beginning class, according to Curt Mullins, director. The class will meet at 8 p.m. Tuesdays, through July 29. Students must be at least in the fifth grade, and furnish their own guitars. The fee is \$11.50 for Y members and \$15.50 for non-members.

Juveniles Nabbed

Four cases involving juveniles were referred Monday by the Big Spring Police Department to Keith Jones, juvenile probation officer. The cases included two for shoplifting, one disturbance and one offense against the public.

Recreation Program Off To A Good Start

The Citywide Summer Recreation program is off to a good start, and Big Spring youngsters are urged to join in the fun.

The activities centered at City Park have 75 enrolled so far, and although this is an increase, more school-age children are wanted. Forty of those signed reported the first day, and additional ones came Tuesday.

At Lakeview YMCA, where 112 are enrolled, 82 were present Monday.

The basketball program, something new this summer, so far has 80 boys signed. League play will begin today at 6 p.m. and will continue from 6 p.m. to 9 p.m. Monday through Friday for the next two months under the supervision of Bill Richey. Other boys are wanted.

Salvationists Mark 80th Anniversary

The Texas Division of The Salvation Army celebrates its 80th anniversary Thursday.

On June 12, 1889, the first street meeting in Texas was conducted by Adam Janelli, an Italian immigrant, at the corner of Main and Ervay in downtown Dallas. A bronze plaque marks the site.

Corps commands were established rapidly that same year at San Antonio and Houston, and before the turn of the century at Galveston and Corsicana.

Today the Army is staffed by over 100 men and women officers under Col. Paul Thornburg, divisional commander. It provides services for the underprivileged in over 550 communities, with officers in 37 larger cities and volunteer Service Units in 318 smaller cities.

Over 3,700 advisory board and Service Unit committee members make possible a variety of programs meeting human needs. Help is directed to youths, families, alcoholics, transients, unwed mothers and the aged.

The religious welfare organization came to Texas only nine years after the first Salvationists arrived in New York from England in 1880 and knelt on the cobblestones of the Battery to give thanks for a safe arrival. The Army was founded in England in 1865 when William Booth launched his life work of bringing the gospel to the unchurched masses of the slums.

Water District Equalization Set

The board of equalization for the Howard County Water Control and Improvement District No. 1 will meet from 8 a.m. to 12 noon, Wednesday, June 18, at the City Hall in Coahoma.

There is no change in valuation or rate, district officials said. Members of the board are J. F. Gibson, Leonard Kinder, and W. W. Lepard.

The water district, which serves Sand Springs and Coahoma, is comprised of 12 sections of territory.

Delegates Going On Austin Junket

Five Big Spring residents will attend a workshop Wednesday in Austin to stimulate the preservation and enhancement of natural beauty in Texas. G. V. Preston Smith will deliver the keynote address.

Attending from Big Spring are Larry Smith, the city's administrative assistant, Mayor Arnold Marshall, L. D. Bender, president of the Men's Garden Club, Tom Eastland, Chamber of Commerce manager, and Ralph McLaughlin.

Talks will be made on highway, rural and urban beautification.

Bus Seats Available

There are only 21 seats left on the 39 seat air-conditioned charter bus, leaving the downtown city parking lot, Saturday at 10 a.m. for the Lake E. V. Spence dedication ceremony, according to Tom Eastland, Chamber of Commerce manager. The bus will return to Big Spring about 4:30 p.m.

Cost of the round trip is \$3 per person. Barbecue tickets for a noon barbecue at the site are available at the chamber at \$1.55 per person.

Large delegations are expected from Odessa, Midland, Snyder, Stanton, San Angelo and Colorado City as well as Big Spring.

Aliens Nabbed

Border Patrol officers arrested 15 men Monday and charged them as illegal aliens. Four were picked up in Big Spring and 11 in Martin County.

At Scout Camp

The 28 members of Boy Scout Troop 7 are attending camp near Ft. Davis this week following a successful fund drive. Mrs. Selis Garcia received a bedspread donated by Mrs. Humberto Padilla.

They're All For Water
Three Texas governors joined forces in Austin Monday as they spoke before a large group of Texans in behalf of a water amendment to be voted on August 5. Left to right are Governor Preston Smith and former Governors Price Daniel and John Connally.

Governors Press State Water Plan

A large group of Texans, from all corners of the state, gathered in Austin Monday to join forces in behalf of adoption, on Aug. 5, of the constitutional amendment (No. 2) for the ballot for a "life-or-death" water development program.

Leading the campaign are the four latest governors — Preston Smith, John Connally, Price Daniel and Allan Shivers. Shivers could not be present because his son had been seriously injured in an accident, but the other three "laid it on the line" that Texas must move to get more water in future years or face loss of farming, industry and population.

Daniel and Smith put it strongly when they said that future generations of Texans live and prosper, or shrivel and die depending upon the August 5 vote, which opens the way for \$3.5 million in bonds — with federal grants to supplement this — for an interstate water importation program.

Connally warned the group, which includes most members of the Legislature and business leaders throughout the state, that the demand for Texas water will be doubled by the year 2020 and that more than 12 million acre-feet of water will have to be imported by then.

"At the same time," he said, "the population of our state will triple — assuming that adequate water will be available."

He noted that the over-all cost of the Texas water plan is estimated at \$9 billion, including \$5.5 billion in federal funds.

"Texas faces a major water problem," Connally said, "small answers will not get the job done."

In Austin for the session were W. E. Gibson Jr., O. H. Tyler, R. W. Whipkey, Lester Morton, Arnold Marshall and George Zachariah.

DAILY DRILLING

HOWARD
Amerada Petroleum Corp. No. 1 B E. Sprindletown is at total depth of 7,200 feet and circulating samples.
Amerada No. 1 Marchbanks is at total depth of 9,291 feet and awaiting to top.
Amerada No. 1 Robinson is drilling at 2,223 feet in anhydrite.
Texaco No. 1-C Reed is drilling at 5,992 feet in lime.

College Hits 300 Mark

For the first time, Howard County Junior College has topped the 300 mark in a summer session.

Final registration for the first six weeks of the summer term was 302, according to a tabulation by Don Shoemaker, business manager.

This exceeds the first six weeks of last summer by three.

Vaccinations Due

COAHOMA — Owners of pets are reminded that Dr. Joe Neff will be at the fire station in Coahoma Tuesday, June 17, to vaccinate cats and dogs. As of July 1, the City of Coahoma will begin enforcement of an ordinance which requires that pets be vaccinated and not allowed to run at large. Un-tagged dogs and cats will be picked up. Fee for the vaccinations will be \$3.

Youth Charged

A 13-year-old boy was charged with theft under \$5 in a shoplifting incident at Cook's Discount Store Monday. He was turned over to the juvenile officer.

DEATHS

Clyde E. Box, Kin Lives Here
Clyde E. Box, 69, brother of Mrs. Gary Thornton, Ernest Box and Roy Box, died Monday noon in Longview. He had been ill about a year.

Services will be held at 4 p.m. in the Welch Funeral Home in Longview, and burial will be at Longview.

Mr. Box leaves his wife, one son, and one daughter. He worked with Cosden here until about 1934 when he moved to Longview, and over the years had visited here on numerous occasions.

Harold Anthony, Resident's Kin
Harold Anthony, 36, nephew of Mrs. Willard Smith, Rt. 2, Big Spring, died Thursday of a heart attack at Bridge City. He is survived by his wife, the former Virginia Kyte, and two daughters. He was a Baptist and a graduate of Lamar Tech. Funeral was held Saturday at Orange. Mr. and Mrs. Smith attended the rites.

Gooseby Infant

Graveside services for the infant son of Mr. and Mrs. Charlie Gooseby, who died at birth Tuesday in a local hospital, will be at 10 a.m. Wednesday in Trinity Memorial Park.

Chap. Robert Deming, Webb AFB, will officiate, and Nalley-Pickle Funeral Home will be in charge. Survivors other than the parents are the paternal grandparents, Mr. and Mrs. Milton Gooseby, Miami, Fla.

Jury Finds Rodriguez Guilty Of Robbery

15 YEARS IN PRISON

STANTON — Teofilo (Duffy) Gonzalez, 39, was assessed 15 years in prison by a Martin County jury in 118th District Court at 11:30 a.m. today.

He had been found guilty earlier today of armed robbery. The jurors deliberated 10 minutes in finding the man guilty and about twice as long in fixing his punishment.

STANTON — A Martin County district court jury took 10 minutes this morning to find Teofilo (Duffy) Rodriguez, 39, guilty of robbery with firearms.

It was then reassembled by Judge Ralph Caton, 118th District Court, to hear evidence on which to determine his punishment. At 11 a.m. the jurors were still hearing evidence in the case.

Dan Saunders, Martin County sheriff, said the trial got under way Monday morning. Evidence by both state and defense was terminated before 5 p.m. This morning the case was argued and the jury heard the court's charge.

Wayne Burns, district attorney, indicated he would ask the jurors to assess Rodriguez's punishment at life in prison.

John Richard Coffee, Big Spring, is defending Rodriguez. He is charged with having taken a gun from Dawson County deputy sheriff Basil Lambert at pistol point March 28, 1968.

Sheriff Saunders said that Lambert, in response to a call from Martin County, had set up a road block eight miles south of Patricia. Saunders was in pursuit of Rodriguez to question him on a house burglary complaint.

When Rodriguez approached the roadblock, he stopped. As Lambert approached the car, he said the fugitive alighted with a revolver in his hand, took Lambert's gun and the officer's car keys, and fled from the scene.

Arrested three months later in New Mexico, he has been held in Martin County jail since with the exception of one week in May of this year. That week he was at liberty after having broken out of jail in company of Johnny Vela, 22.

Telemobile To Bring Exhibit Here Thursday

Big Spring residents will see the story of telephone service — from Alexander Graham Bell's first telephone to the laser communications of tomorrow — when Telemobile is in the city Thursday.

Telemobile is Southwestern Bell Telephone Company's exhibit trailer. It will be open free to the public at Highland South Shopping Center from 9 a.m. to 6 p.m. The exhibits show the story of progress made by the telephone industry since its beginning.

In the first section, visitors will see early model telephones and learn how their development brought about today's vast telephone network.

The second section shows how the telephone works, and illustrates the various methods of getting through to their destinations.

The last section provides a glimpse at what's in store for telephoning in the future — including demonstrations of the laser and Picturephone service. Also, recorded narrations and special lighting effects serve to emphasize certain parts of the exhibit message.

"Everyone is invited to see this free display," said Harry Sawyer, manager for Southwestern Bell. "Less than 10 minutes is required to tour the trailer. It is interesting and educational."

Barbecue Ducats Still Available

Tickets for the barbecue featuring the dedication of the Robert Lee Dam and Lake E. V. Spence are still available at the Chambers of Commerce in Odessa, Big Spring, Snyder, Midland, San Angelo and Robert Lee.

The meal will be served by the Odessa Chuck Wagon Gang and will immediately precede the dedication rites at which Cong. Omar Burleson will speak. Tickets are \$1.55 each.

The lake and dam represent almost half of the \$4,500,000 price tag for the Colorado River Municipal Water District's 1966 construction program.

Budget Study

Trustees of Howard County Junior College meet today at 5 p.m. in the conference room of the administration building. In addition to the list of routine business, the trustees will consider a draft of the proposed budget for the fiscal year beginning Sept. 1, 1969.

Bell Ringing Program Set

Big Spring will join a national revival July 4 of ringing bells to celebrate Independence Day.

The annual "Let Freedom Ring" ceremony, sponsored by the cultural affairs committee of the Big Spring Chamber of Commerce, will be held at 6:45 p.m. July 4 on the courthouse square, according to Mrs. Robert Knight, project chairman.

The Declaration of Independence will be read and will be followed by the ringing of the Big Spring High School victory bell.

Citizens are requested to ring bells in the celebration from 7 to 7:04 p.m.

For the first 100 years of the nation's life, ringing of bells was the standard method of celebrating Independence Day.

Drivers Bend Fenders

Drivers of these two vehicles met unexpectedly in a noontime collision Monday at Eighth and Gregg, Angela Sanchez, Route A, Lamesa, was driver of the pickup on the right and Barbara Carver, 604 Gollad, was driver of the auto. No one was injured, but a wrecker was called to remove the Carver auto.

Dear Abby

DEAR ABBY: My six-year-old daughter has three times been taken into the woods by the 12-year-old neighbor boy. The explanations were, "We were taking a little nap," or "We were looking at the Christmas trees," and "We were playing hide and go seek."

I have been told that until I have medical proof of actual damage, there is nothing I can do: I would rather not wait that long. What would YOU do?

WORRIED: I would explain to my daughter exactly what was "wrong" with going into the woods with this boy, and any other boy, and I would tell her that she was to have nothing more to do with him. Then I would visit the parents of this neighbor boy, and tell HIM in their presence that he

was not to come near my house, or my child again. And finally, I would keep a sharp eye on my daughter.

DEAR ABBY: Lucy's letter got to me. She said a friend of hers gave up smoking, but took to chewing tobacco instead. Well, what's so bad about that? There are clean chewers and dirty chewers, and I happen to be a clean chewer. I am 72 years old and have chewed tobacco since I was in the fifth grade, and my wife first found out about it only a year ago when she went through my jacket pockets before sending a suit to the cleaners and found a plug of tobacco.

I have been on planes, trains and elevators when I wished the smokers were chewers. A

tobacco chewer doesn't pollute the air for everyone around him.

KIRK: DEAR KIRK: Either you did all your chewing in private or you disposed of the tobacco juice as only a Houdini could. Please chew me in before my readers chew me out.

DEAR ABBY: How about a word in your column about these so-called "parties" where guests are invited to view certain products and are expected to buy some so the hostess can win prizes?

I have received invitations to dish parties, toy parties, lingerie parties, and clothing parties.

I feel it is in poor taste to try to sell anything to your friends, let alone using a party pretext for doing it. What is your opinion, Abby?

ALAMEDA, CALIFORNIA: DEAR ALAMEDA: It is "poor taste," only if the hostess invites her friends to such a party without letting them know what to expect. One can always attend if he doesn't care to attend.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069, and enclose a stamped, self-addressed envelope.

With Delta

Myron J. Babler has completed initial training at Delta Air Lines' training school at the Atlanta Airport and is now assigned to Delta's pilot base in Dallas as a second officer. Prior to joining Delta, he was in the Air Force. Mrs. Babler is the former Rosalie DeVaney of Coahoma.

Water Usage Down Sharply

An abnormally wet May pulled deliveries by the Colorado River Municipal Water District down sharply and left a tiny deficit for the year.

Totals reported by W. P. Odom, assistant general manager, showed 1,035,976,426 gallons delivered to customers in May, a decline of 7.23 from May of last year.

The effect of weather is reflected in the draw by cities, which was down 14.72 per cent at 628,620,600 gallons. Oil companies used 407,355,826 gallons, or up by 7.33 per cent, offsetting the decline by municipalities.

Deliveries to date this year stand at 4,430,059,218 gallons, down .72 of one per cent.

During May, Odessa required 346,410,000 gallons, down 20.02 per cent; Big Spring 219,489,000, down 11.19 per cent; Snyder 58,559,000, up 2.97 per cent, and Stanton 4,167,000.

'Algiers Motel' Case Goes To The Jury Today

MASON, Mich. (AP) — Attorneys opened the fifth week of the trial Monday with their arguments. They reviewed testimony of a suspended white policeman accused in the death of a Negro youth during Detroit's 1967 racial riot.

Circuit Judge William Beer told the jurors Monday they were limited to two choices in their verdict: a first-degree murder conviction or acquittal. Under Michigan law, first-degree murder calls for a mandatory sentence of life imprisonment without parole.

BODIES FOUND

The ruling came after Beer denied for a second time, a defense motion for a directed verdict of acquittal.

On trial is Ronald August, 30, charged with murdering Aubrey Pollard, 19, at the Algiers Motel on the night of July 26, 1967.

Pollard was one of three Negro teenagers whose bodies were found after police and National Guardsmen raided the motel in a search for reported snipers.

August has admitted killing Pollard but said it was in self-defense in a struggle over a shotgun.

Prosecuting and defense attorneys

Ex-Texas Tech Printer Charged With Forgery

LUBBOCK, Tex. (AP) — Ben Gene Murray, 26, a former Texas Tech printer, was jailed Monday in lieu of \$10,000 bond after he was charged with forgery.

He was arrested Thursday at his Lubbock home on two warrants—one from Dallas and the other from Lubbock.

Murray was charged in Dallas with forgery and passing of six counterfeit State Treasury warrants totalling more than \$3,000. Bond of \$7,500 was set in Dallas.

Possession of a forged Texas driver's license was the charge on the Lubbock warrant. Bond was set at \$2,500.

Murray was also being detained for violating parole in Colorado. William Skelton of the State Parole Association said, "Lubbock District Attorney Blair Cherry said an examining trial would probably be held before a Justice of the Peace in Lubbock this week. Grand jury arraignment would come in July."

A Department of Public Safety spokesman said the forged warrants were "very good."

Aw, How Sweet

SYRACUSE, N.Y. (AP) — A motorist may keep the venison if his car is damaged when it hits a deer, state police say.

Cost of repairing such damage usually is \$100 to \$500.

Babies 'For Sale'

Television master-of-ceremonies Ben Hunter, microphone in hand, performs as an "auctioneer" for babies made available by the Los Angeles County Bureau of Adoptions during a weekly 15 minute segment of his afternoon show. Case workers Sally Meier, Carol Sage and Judi Cavaliere (left to right)

of the bureau hold available children as Hunter provides a word description. He has found homes for 110 in 19 months. All are physically or emotionally handicapped or of minority race.

'I Hope Today We'll Find A Mommy, Daddy For Him'

HOLLYWOOD (AP) — Jimmy is six months old, chubby, lively. His big bright blue eyes look normal. But he's blind.

"Gee," said the television pitchman as the camera zeroed in for a close-up on Jimmy. "I hope that somewhere in our audience today we'll find a mommy and daddy for him."

"SPECIAL NEEDS"
By next morning there were six applicants for Jimmy, one of 110 youngsters TV emcee Ben Hunter has placed for the Los Angeles County Department of Adoptions in 19 months. All are hard-to-place "special needs" children, as the department calls them—physically or emotionally handicapped or of minority race or mixed parentage. Is it "selling" children?

"Yes," says Hunter, 49, a local radio-TV veteran with gray, flecked hair and a pleasing personality. "That's sort of a euphemistic phrase, sounds like the old-time auction block. But that's what we're doing. We're selling kids."

The youngsters appear during a 15-minute interruption every Thursday in his daytime program of old movies on station KTTV. During other breaks commercials include those for carpeting, sewing machines and land and the services of a driving school.

Last Thursday, Jimmy and two other potential adoptees sat on the laps of attractive, nimble-kirted case workers of the Department of Adoptions.

Nancy, five months, is a bright-eyed Negro. "Negro children are particularly difficult to place," says Walter Heath, director of the Department of Adoptions.

Garth, 2½ months, who toyed with a large rattle and did considerable crying, is half Negro, half Caucasian.

Next day both were assigned to already approved families. A fourth case worker held a photo of Dick, 7, a handsome white boy.

"Dick has no problems at all," Hunter told his audience, "except that he's 7. Everybody

usually wants a little baby, a Caucasian female with big blue eyes and curly hair, who looks like Daddy. They may have to get in line and wait a long time."

Next morning there were 22 applications for Dick, one from the program's technical director, Robert Ellis, who has two older children adopted in infancy. Cameraman Clyde Bell has adopted a child from the show. The station is owned by Metromedia.

Older children are shown by photograph rather than in person. Director Heath says: "To be made the objects of pity, and then maybe not get a family more than they could stand." Care is taken that they don't see the show.

Heath calls the program "wonderful, the greatest single thing" in getting special-needs children adopted. In addition to the 110 placed, between 40 and 60 other applications are being processed.

In the show's first year, the department received nearly 2,000 inquiries about adoption compared with 600 the previous year.

A station official says similar programs are on the air in New York City, Washington and Kansas City, and one will begin soon in San Francisco.

Copter Firm Shuts Plants

FORT WORTH (AP) — More than 10,000 employees of the Bell Helicopter Co. remained on strike today.

Pickets went up at 13 Bell plants, the nation's largest supplier of helicopters, at midnight Sunday. The plants are in Fort Worth, Arlington, Grand Prairie and Hurst.

The company closed the plants, leaving only security guards, and a few other personnel on the job.

Company officials and representatives of the striking United Auto Workers Local 218 met briefly Monday.

The company issued a statement that the Bell position on a new contract with the local has not changed.

The terms of the company's offering were turned down by rank-and-file local members at a meeting Sunday.

The members said the pay hikes in the contract were concentrated in the upper labor grades and did not provide enough of an increase for the lower grade employees. The contract would have provided for a 70-cent-per-hour raise to \$5.14 over a three-year period for top-salaried employees.

3 NT Pass Pass Pass
Opening lead: Four of ♠

Altho a trickless dummy did not offer much comfort to South, the declarer at three no trump, he did—in fact—have a legitimate play for his contract.

West opened the four of diamonds and South put up the ten in dummy. When this card held the first trick, declarer realized he was in the North hand for the last time, and he led a small heart. East followed with the nine and South played the jack.

Observe that if West takes his ace, he can establish the diamonds with one more lead, however, he has no card of reentry left to run the suit. In the meantime, South can clear the hearts by playing the king and another heart. East is in with the queen, but he is unable to reach his partner and declarer has nine tricks — one spade, two hearts, two diamonds, and four clubs.

PERSONAL FORTUNE \$3.5 MILLION

'Yes, I Do Think I Have A Conflict'

WASHINGTON (AP) — A North Dakota congressman, volunteering details of a private fortune of more than \$3.5 million, freely concedes some of his holdings could involve him in a conflict of interests with his House duties.

Rep. Thomas S. Kleppe says he intends to avoid such a pitfall, if a direct conflict ever arises, by voting "present," instead of aye or nay.

A former Bismarck, N.D., mayor and past treasurer of his state's Republican party, Kleppe disclosed he holds common stock and municipal bonds valued at \$3,514,942, which he said resulted in \$67,021 in income during 1968.

OIL DEPLETION
While not unprecedented, Kleppe's disclosure is unusual for a member of Congress holding extremely large and varied assets.

House members, who are now paid \$42,500 annually, are required under recent ethics legislation to make public only the names of stock and bond holdings worth more than \$5,000. They list the worth of their assets also, but that information is kept secret by the House Ethics Committee.

Kleppe's portfolio of 46 stocks and 19 municipal bonds includes, he said, \$1.13 million in

THOMAS S. KLEPPE

the common stock of International Business Machines Inc.

He said any conflict would come because of his membership on the board of directors of Cardinal Petroleum Inc., Billings, Mont., in which he owns \$273,600 in stock, and a directorship of Bismarck's Dakota National Bank in which he owns stock worth \$18,750.

"Yes, I do think I have a conflict," Kleppe said. "If a bill was on the floor to end or cut back the oil depletion allowance

I would vote 'present' unless I decided to resign from the board of Cardinal."

Legislation involving banking and savings-and-loan interests might place him in similar conflict, Kleppe said. When such a bill came up last year, he said, "I think my position was prejudiced by the fact I am a bank director."

BANKING INTERESTS
"I indicated to banking interests at the time that if the bill came up I would vote 'present.'"

Kleppe said that on other stocks held by himself or his family he regards himself as just one of a large group of minority stockholders with no control of corporate policy and, therefore, no conflict.

"I have voted against my own best financial interests many, many times," he said.

"I believe in laying my financial interests on the line," Kleppe said as he told an interviewer he also owns a \$150,000 residence in Bismarck and a \$75,000 residence in a Washington suburb.

Of his reported outside income and assets, which he said do not include personal property, bank deposits, savings certificates and insurance, Kleppe had this comment:

"I didn't inherit it and I didn't

Hawks, Doves Start To Fly Common Course

WASHINGTON (AP) — Hawks and doves in Congress are beginning to fly a common course toward withdrawal of U.S. troops from Vietnam, even though they still may disagree on when more cutbacks should take place.

Doves such as Sen. John Sherman Cooper, R-Ky., and hawks such as Sen. John Sparkman, D-Ala., are almost unanimous in hoping that President Nixon's decision to pull back 25,000 U.S. troops is only the beginning.

"Escalation" once a dirty word to Vietnam doves because it meant increased U.S. involvement in the war, is now taking on a new use. Both hawks and doves speak of "escalation" of troop withdrawals.

Sparkman, consistently a supporter of war policies, said he was disappointed that at least 50,000 U.S. troops were not going to be moved out of the war area.

"But if the situation works out, perhaps we can escalate the withdrawals just as the input of troops was escalated," he said.

The Alabama senator, a senior member of the Foreign Re-

lations Committee, said any such withdrawals would have to depend on whether there was any response from Hanoi.

Cooper, long a dove, said in a separate interview he hopes for such a response which might lead to progress in the Paris negotiations.

"But if there is no such response, we should continue to arm the South Vietnamese and by stages withdraw all of our troops," he said.

Sen. John G. Tower, R-Tex., found reason to believe that what he said is the growing military capability of Saigon's troops will "enable us to make significant reductions in numbers of American troops in South Vietnam without downgrading our military posture or sacrificing our military initiative."

Sen. Edward M. Kennedy, D-Mass., a recent critic of military pressure on the enemy during the Paris talks, said he hopes Nixon's decision to pull out 25,000 men signifies a change in policy which will be followed by additional withdrawals and a reduction in the level of fighting.

But the assistant Democratic leader declined to join Sens. Eugene J. McCarthy, D-Minn., and George S. McGovern, D-S.D., in calling the troop pullout inadequate.

Sen. Hugh Scott, R-Pa., the assistant minority leader, chided the doves for criticizing Nixon for not going far enough in the pullout. He said they were getting a beginning of what they demanded and now were complaining about it.

Secretary of Defense Melvin R. Laird said Monday "we will only pull out when South Vietnam can replace U.S. forces."

He said the 25,000 troops to be withdrawn this summer will consist mainly of regular combat veterans in both Army and Marine units. Most would be brought back to the United States, he said, although some may be sent to Okinawa or Hawaii to bolster U.S. forces there.

steal it. I earned it."

Neither the House nor the Senate presently requires full disclosure of a member of Congress' finances. But several bills are pending which would do just that.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, goosy taste or feeling. Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

ARE THE INSIDE LINES CURVED?

No. They only look that way. The lines are perfectly square. Check it yourself with a ruler. Illusions are like that. They prove that things aren't always what they seem to be.

Take Muzak, for example. It sounds like music. But it's not, actually. It's an unobtrusive, scientifically-conditioned musical environment that people didn't consciously listen to, but subconsciously react to in a positive way.

What Muzak does is motivate people and increase their efficiency. That by itself has to make Muzak one of the most effective management tools yet devised to step-up employee productivity. On the assembly line in offices, in stores. Practically anywhere where "people" can work more efficiently.

We have all the proof you'll ever need to convince you how effective Muzak really is. We'd love to show you. Just call or write us.

Burger Wins Approval As Next Chief Justice

WASHINGTON (AP) — The Senate, moving with polished efficiency against a tiny, ineffectual group of dissenters, has overwhelmingly confirmed Warren E. Burger to be the nation's 15th chief justice.

After the few vocal critics failed to win a delay Monday, the Senate by a 74-3 vote put its stamp of approval on the 61-year-old Burger, nominated by

President Nixon to succeed Earl Warren, who retires later this month.

The dissenters claimed consideration of the nomination should have been prolonged in order to hold a more careful and extensive look into the appointment, particularly in view of the Abe Fortas affair.

Sen. J. W. Fulbright, D-Ark, asked at one point during the rambling three-hour debate, "Why vote today?" When Sen. James O. Eastland, D-Miss., said there had been nearly no opposition to the appointment, Fulbright retorted: "There wasn't any opposition to Fortas, either."

The Arkansas senator said he knew of no reason to oppose Burger, a 14-year veteran of the federal court of appeals, but he thought the Fortas incident demanded a close look at any new Supreme Court appointment.

Fortas quit the court last month following disclosures that he had agreed to accept \$20,000 a year from Louis E. Wolfson, a Florida industrialist now in jail.

Fortas' 1965 nomination to the court went through the Senate in a fashion similar to the dispatch of the Burger appointment, although his selection last year to be chief justice fell short in a flap over his financial dealings, among other things.

The Burger success leaves Nixon with another court position to fill—the seat left vacant by Fortas' resignation. The President has indicated he will move quickly to bring the high court to full strength.

Most of the appointment supporters pointed to Burger as a tough man on law violators who won't go along with the activist and social-liberal nature of the court under Warren.

Yancey Cites His Maturity In Golf

HOUSTON, Tex. (AP) — Bert Yancey, who blows his big ones, says it's just a matter of growing up and he believes he's mature enough now to win the Open.

back of the winner, Lee Trevino. "I've changed a lot since last year," the tall, blond ex-West Pointer added today in recalling how he led through the first three rounds of the U.S. Open Golf championship a year ago at Oak Hill in Rochester, N.Y., only to finish third, six strokes

Legalize Spitter, Says Lew Burdette

ATLANTA (AP) — Lew Burdette was no friend of the hitter as an active major league pitcher but now he wants to help his former foes by legalizing the spitball.

The year before, in 1967, Yancey opened with a 67 in the Masters for a three-stroke lead, still led by a shot after the second round and tied after 54. He shot a final round 73 and finished third behind the late-charging Gay Brewer, Jr.

Burdette added that the spitball "was a seed that grew for me. The implication was that if that so-and-so didn't use the spitball and wasn't cheating, they could knock me all over the ball park." "You let the batters know they might have to hit at the spitter, they'll quit taking those slim bats at the end and trying to hit everything out of the park."

"I have convinced myself that if anyone can win this Open, I can."

Yancey grew up in Jacksonville, Fla., started playing golf at five, won the national pee wee championship at 13. He entered West Point but suffered a nervous breakdown and later enrolled at Florida State, turning pro in 1961 before finishing college.

Burdette, just voted the Braves' greatest right-handed pitcher of all time in a poll of fans, said he never really did well with the spitball.

Mike Pruitt, the winning pitcher, was also a power at bat. He wound up with three hits. The Panthers, now 7-3-1 in the standings, scored at least four runs in every inning.

Burdette said the spitball "After Mr. Giles said I didn't throw it, I did... but they always seemed to hit on the dry side." Burdette observed wryly. But Burdette said the spitball

Morton's Foods and Webb AFB will play a softball doubleheader on the City Park diamond Wednesday evening, with the first game down for 7:30 p.m.

HOYLAKE, England (AP) — Dale Hayes, 16-year-old South African whom Gary Player rates one of the finest up and coming amateurs in the business, went into the second round of the British Amateur Golf Championship today and said: "I hope I do well because Gary has arranged for me to play in an American junior tournament at San Diego in August."

KING EDWARD

Club

Thomas, England, 4 and 2. Hyndman, 53, had a rest and started his bid today. He said: "I reckon I'm as fit as they come at my age. I exercise every morning and watch my diet carefully. This course is made for somebody who drives the ball like I do."

Joe Rains pitched the Wildcats to a 9-0 National Little League victory over the Lions here Monday evening, limiting the losers to five hits.

Hayes Stripling, who mopped up the last innings for Rains, led his team in batting with three hits. Warren Jones clubbed two safeties for the winners.

Dick Earhart and Will Guthrie each had two hits for the losers. The Wildcats are 7-6 in the standings, the Lions 4-9.

Big Spring (Texas) Herald, Tues., June 10, 1969 5-B

\$1897 is only part of its beauty.

After the low cost of buying it, there's the low cost of running it. It gets about 27 mpg. Takes pints of oil. Not quarts. And the engine is air-cooled. No anti-freeze. No water. It's the small price you pay for owning a Volkswagen.

Busy Man Gains Master's Degree

SEATTLE (AP) — Al Shaver, who is receiving a master's degree in social work at the University of Washington this week, is a busy man.

When not in class, he has been piloting a United Air Lines plane between Seattle and Chicago and counseling people at the mental health center in Seattle's predominantly Negro area.

He has applied for a job with the Western State Hospital consultation unit where, beginning in the fall, he wants to work 20 hours a week while continuing his flying.

Shaver, an active churchman, returned to school in 1968. "In the past three years," he said, "I've been able to help people in a way I never did in church."

POST MORTEM-6

Bills To Update Texas Medically

By ROBERT HEARD
Associated Press Writer

AUSTIN (AP) — Texas may lead in heart transplant surgery but it lags in general practitioners. The Legislature decided to do two things about it: Build two more medical schools and subsidize the Baylor School.

It also did something about the shortage of dentists and nurses, and it modernized laws on organ transplants.

There is one doctor for every 968 Texans, compared with a national ratio of one for every 658 Americans.

NOT ENOUGH
A new University of Texas medical branch was opened in San Antonio last fall, but that wasn't nearly enough.

An \$8.5 million branch is slated for Houston and an \$8 million branch will be built in Lubbock.

The Houston school will open with 50 students in 1971, increasing its freshman class to 200 by 1975. That will mean an eventual enrollment of 800 and an annual operating cost of \$7 million.

Facilities of the Houston school will permit the UT medical branch in Galveston to increase its entering class from this year's 162 to 200.

The Lubbock school will open with 100 students in 1972. West Texas has one doctor for every 1,300 citizens, and it is hoped the Lubbock school will help break the medical drought.

The Baylor medical college in Houston gets 15 qualified applicants for every one it has room to accept. Present enrollment is 345. The entering class in 1972 will be doubled under a law that permits the college coordinating board to contract

for training Texans at the Antonio school will be part of the medical-dental complex. The El Paso school will be on the campus of the University of Texas at El Paso.

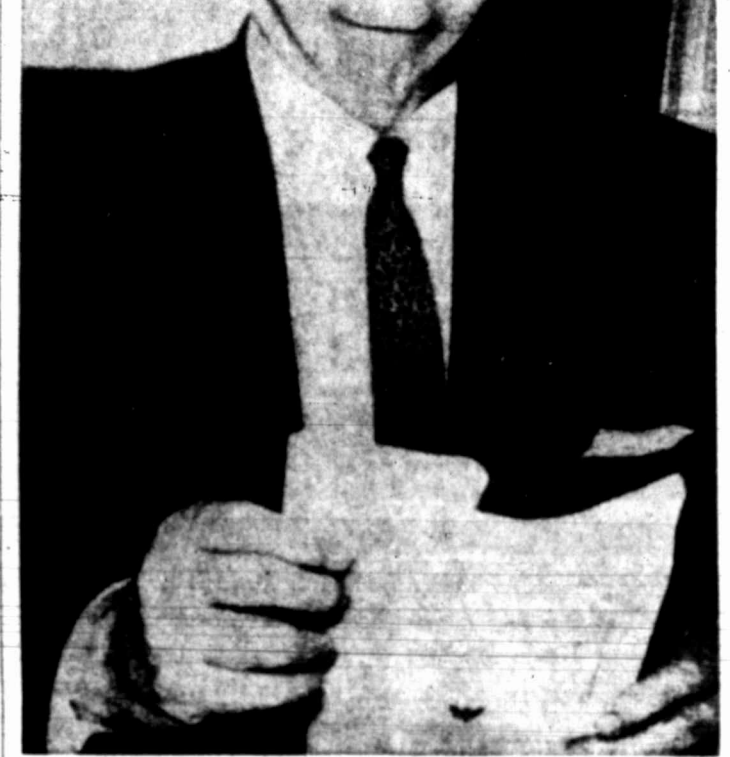

Average annual cost per student is estimated at \$13,640 — what it costs to train a doctor at the state schools.

The site for still another medical school may be chosen by the University of Texas board of regents.

The ratio of dentists to population in Texas is 1 to 3,225, compared with a national ratio of 1 to 2,222.

The state will build dental schools in San Antonio and Dallas. The San Antonio school will be operated in conjunction with the new medical school there.

University of Texas nursing schools will be built in San Antonio and El Paso. The San Antonio school will be part of the transplant team.

(AP WIREPHOTO)

Cramer Takes Houston Tour

Alan Cramer, eight-year-old son of Mr. and Mrs. John Cramer, Gail Route, was one of eight area Boy and Cub Scouts awarded a trip to Houston which opened Friday and continued through Monday. The Buffalo Trail Council made the award in recognition of high ticket salesmen for area Scout Expositions.

Alan sold 140 tickets to the Scout Exposition at Highland Shopping Center March 15 and was the high ticket salesman in Big Spring. He is a member of Cub Scout Pack 63.

While in Houston the Scouts were scheduled to see a baseball game at the Astrodome, visit Astroworld, the Sea-Arama, and take a sight-seeing trip through Houston.

Others on the trip were Kenneth Townsend, Midkiff, Gil Walters, Andrews; David Dearden, Snyder; Grady Locklar and Mark Ritter, Odessa; and John Muire and John Nichols, Midland. E. O. Vaughan, field director, sponsored the group.

C-City Scientist Helps Argentines

LUBBOCK — Two Texas Tech soil scientists have arrived in Argentina, en route to the province of Santa Fe where they will aid in a project designed to turn rangeland into high production cropland.

Agronomy Prof. B. L. Allen and Bill L. Harris, who received his master's degree with a major in soil science May 31, will be working with Bunge y Born Ltd. in a project started by Chairman A. W. Young of the Department of Agronomy. Harris is the son of Mr. and Mrs. W. E. Harris, Route 3, Colorado City. Harris will conduct the studies for two months before returning to the United States to begin work on his doctoral degree.

Hailstones Like Snow Near El Paso

By The Associated Press

Hailstones the size of golf balls whitened the ground like snow Monday night near El Paso in a rare display of such weather for far West Texas.

Less severe thunderstorm activity continued this morning in a belt 50 miles wide from Presidio in the Big Bend country northward to around Hobbs, N.M.

There also were thundershowers early in the day from Eastern New Mexico across the Texas Panhandle near Amarillo and Dalhart, ranging on into Western Oklahoma.

The accumulation of hail was heaviest at the village of Ysleta, 7.5 miles south of El Paso. While it blanketed parts of the countryside, no severe damage was reported.

Weather turbulence developed far behind a waning cool front, which by morning had pushed as far south as a line from Lufkin to Junction, curving back from there toward the northwest into New Mexico.

Official observers looked for still more unruly thundershowers by tonight in Northwest and North Central Texas. Scattered showers were expected in the northeast and southwest sections of the state.

Another surge of cool air from the Pacific was expected into the northwest part of Texas by Wednesday.

Many points recorded summery temperatures Monday, with top marks running as high as 102 degrees at El Paso and Laredo, 95 at Cotulla, 94 at Alice and Del Rio, 93 at McAllen, 92 at Beaumont, Houston, Lufkin, Port Arthur and Wink, 91 at Brownsville, Victoria and Waco, and 90 at Austin, College Station and Corpus Christi.

The mercury climbed only to 77 at Big Spring and 79 at Childress and Wichita Falls.

Horseshoers Win

SPRINGFIELD, Ill. (AP) — The Illinois House refused to pass a bill to raise the licensing standards for horseshoers.

Objectors said it was hard enough now to pass the state's licensing tests for a business which has increasingly fewer practitioners. "You almost have to be a metallurgist," said Rep. Robert Craig.

Captive Audience Speech Tailored

CAPRON, Va. (AP) — "I realize you did not ask me to speak. However, I am here. Please be quiet and sit still until I finish. I won't be long."

With this preface, the speaker at a graduating in this small hamlet launched his commencement address.

The speaker was Otis Brown, director of the Virginia Department of Welfare. His audience

was 81 high school graduates imprisoned at Southampton Correctional Farm.

The speech was tailored for the captive audience.

Brown said all over the country similar speakers were urging graduates to "go out into the world and find their rightful places... but you will note I am not charging you to do that."

"For, if you took me literally and attempted to do that, both you and I would be in trouble."

Skunk's Bite

FARGO, N.D. (AP) — A skunk's bite may be meaner than his smell, according to a North Dakota State University professor.

"Not only do skunks constitute a serious public health hazard but rabies in cattle appear to be due almost exclusively to contact with skunks," said Dr. Myron Andrews, who is administering a \$33,000 federal grant to study skunks.

Unhappy Over Bank Interest Boost

Rep. Wright Patman, D-Tex., chairman of the powerful House Banking Committee, today urged President Nixon to withdraw government deposits from banks that raised their prime interest rate to an unprecedented 8 1/2 per cent. He charged the boost was a conspiracy that threatens to force the nation into a severe recession.

The Chrysler Way on Pennies a Day

AUTHORIZED DEALERS CHRYSLER MOTORS CORPORATION

Gum Ball Gambit

The gentleman pictured above has just successfully pulled the "Gum Ball Gambit" to get his new Chrysler. What is the "Gum Ball Gambit"? It works like this: You put a penny gum ball machine on your porch. Fill it with gum balls. And wait. A couple of weeks later, you empty the machine's coin box. About a dollar and a half. Every two weeks. That's the difference between a full-size Chrysler and one of those popular smaller cars, comparably equipped. Although the Gum Ball business isn't particularly lucrative, it doesn't have to be. A 1969 Chrysler isn't particularly expensive. Besides, the neighborhood children will love you. And you'll love your new Chrysler.
