

RUNNELS STREET Parallel Parking Approved

Parking on Runnels Street is being changed again.

Merchants on the east side of the street in the 300 block presented a petition to the city commission Tuesday, asking that parking be changed from angle parking to parallel parking.

Willard Sullivan, of the Settles Drug, told the commission that angle parking adds to flood problems, as the cars form an obstacle at the curbline which raises the water height from 6-8 inches. Changing the parking angle won't stop all the flooding, but it will help the problem, he said.

The commissioners were reminded that merchants in the 200 block were also interested in changing the parking angle, for the same reason. The change would reduce parking spaces by one in the 300 block and by two in the 200 block, according to Public Works Director Ernest Lillard.

Commissioners approved the change, on the east side of Runnels Street only, for both blocks.

Kills Wife, 7 Children

JERSEY CITY, N.J. (AP) — A 40-year-old grocer was arrested early today and charged with stabbing to death his wife and seven of his nine children.

Police said Rafael Torres was picked up at his home shortly after he called his brother and told him he had killed his wife, Maria, 40, all six of their daughters and one of their three sons.

Police identified the other victims as: Lillie, 9; Annie, 10; Victor, 11; Fay, 12; Carrie, 17; Ann, 19 and Maria, 20.

Police said another son, Raymond, 15, was admitted to Jersey City Medical Center with three stab wounds.

A third son, Rafael, 14, was visiting overnight at a grandmother's home.

Police said the stabbings were done with a hunting knife between 1 and 3 a.m.

McDivitt Hangs Up Space Suit

SPACE CENTER, Houston, Tex. (AP) — Apollo 9 Commander James A. McDivitt hung up his space suit today and moved behind a desk — the fourth veteran of the Apollo program to end active space flying.

McDivitt, an Air Force colonel who commanded the flight of Apollo 9 in March of this year, quit active space flying to assume the managership of Lunar Landing Operation Studies at the Manned Spacecraft Center here.

In his new duties, the two-time space flight veteran will be responsible for decisions connected with lunar landing missions following the first planned moon touchdown next month.

McDivitt's Apollo 9 flight last March was the third in the Apollo series and included the first manned flight of the moon landing craft.

Two other Apollo flight commanders announced earlier they were returning from space flight.

Voters Okay Sales Tax

By The Associated Press

Residents in Bedford, Arlington, Hurst and Cleburne approved a one per cent city sales tax Tuesday in local elections.

Bedford voters approved the measure by a vote of 215 to 87. In Arlington, the vote was 3,645 to 1,017. Hurst residents approved the measure by a count of 805 to 296. And Cleburne adopted the tax by a vote of 1,081 to 242.

The tax proposals had been defeated in Arlington in 1967 by a mere 39 votes, and Hurst voters turned down a similar proposal last year by a margin of 2-1-1.

A Cleburne city official said the tax would take effect there Oct. 1.

The Texas Municipal League said before Tuesday's election that 384 cities and towns in the state had previously adopted the tax.

New Land Program In Peru

LIMA, Peru (AP) — President Juan Velasco has announced the revolutionary government will nationalize all major landholdings in Peru to "end once and for all the unfair social order that has kept Peru in poverty and inequity."

The sweeping land reform law, to be published today, is aimed at replacing the country's sprawling private estates with agrarian-industrial cooperatives.

It also will involve expropriation of foreign-held lands, including holdings of the U.S.-owned Cerro de Pasco mining firm and W. R. Grace & Co., which has sugar and paper interests in Peru.

Relations between Lima and Washington have been at a low ebb since Velasco seized power last October and expropriated the International Petroleum Refinery. IOC is a subsidiary of Standard Oil of New Jersey.

The United States has halted arms sales to Peru and threatened to cut off all aid.

The new law also will affect Casagrande, one of the world's biggest sugar plantations, which stretches from the Pacific Ocean to the eastern region of the Peruvian Andes.

Velasco said agrarian reform "will mark the start of the true liberation of the national peasantry." The peasant, he added, no longer will be "the outcast and defenseless being that used to live in poverty from birth to death and impotently saw an equally desperate future coming for his children."

The president warned that resistance will not be tolerated and the reform "will be applied in all the nation. There will be no privileges or cases of exception recognized that would favor certain groups or interests."

A few hours before Velasco's announcement, the government charged that the National Agrarian Society, an organization of big landlords, planned to "carry out an intense campaign by television to stop the implementation of the reform, to halt sales of agricultural products to create a shortage, to start strikes to stop production and marketing, block roads with the aim of disturbing transportation and to request support of cane sugar workers to cooperate in sabotage."

Farmers were warned not to take part in the campaign and told the law would "free the underfed farmers from the landlord's plague."

After the law was announced, the society attacked it, charging that society officials had not been consulted. The measure was worked out by the government in strict secrecy.

Smoking-Health Report May Have Giant Impact

WASHINGTON (AP) — The federal government is putting the final touches on a new smoking-health report that may have important impact on the debate over curtailing cigarette advertising.

The report is expected to go to Congress next week. Although officials decline to give any details, indications are it contains new evidence linking cigarette smoking to cancer, heart disease and bronchial troubles as well as other illnesses.

"It certainly contains no significant negative evidence that refutes any previous conclusion," said Dr. Daniel Asnes of the National Clearinghouse on Smoking and Health.

Tire Blowout Kills Child

SWEETWATER, Tex. (AP) — State police blamed a tire blowout for overturning a pickup truck and killing a California child Tuesday. Four others in the family suffered injuries.

Kimberley Morgan, 4, of Pomona, Calif., riding in a camper on the pickup, was killed as the vehicle left Interstate 20 and rolled two and one-half times. The accident happened 10.7 miles east of Sweetwater in West Central Texas.

Officers said Myrtle F. Morgan, 53, of Pomona was driving. He suffered severe bruises along with his wife Doris, 47; their daughter-in-law, Mrs. Patricia Morgan, 25, and her son Timothy, 2.

Enemy Hits Besieged Special Forces Camp

Surtax Measure Delayed

WASHINGTON (AP) — The decision against a House vote today on President Nixon's surtax extension bill has shattered administration hopes for an early, dramatic anti-inflation move.

House leaders called off the crucial vote after head counts showed the measure to continue the surtax past the June 30 expiration date was likely to be defeated.

No new date was set for bringing the bill to the House. Democratic Leader Carl Albert of Oklahoma told reporters it will not be called up until after the July 4th congressional recess.

Meanwhile, emergency legislation will be proposed to continue income tax withholding at the present rate — including the 10 per cent surcharge — until Congress completes work on the extension measure.

The Nixon bill would extend the surtax at 10 per cent for six months and at five per cent for a second six-month period ending June 30, 1970. Other provisions repeal the seven per cent investment tax credit, provide for a special low income allowance taking two million poor families off the tax rolls, and give some tax relief to about 13 million taxpayers.

Jubilant members of the Democratic bloc which has been fighting the bill in its present form said the House Ways and Means Committee now will be under pressure to speed up work on elimination of some tax preferences and incorporate them in the surtax extension bill.

Rep. Charles A. Vanik, D-Ohio, one of the group, predicted the delay will not gain any votes for the measure as it is now written.

House Speaker John McFall told newsmen the postponement was decided on at the request of Ways and Means Chairman Wilbur D. Mills, D-Ark., who has been suffering bouts of intestinal illness.

Sign \$194,000 Contract

George McAlister, president of DataMate Computer Systems, Inc., (left) and Dwayne Clark, representing B. D. Click, Abilene, look on as Robert Franklin, secretary-treasurer of Siboney, Inc., Dallas, links the contract awarding a

\$194,000 bid for a 22,500 square foot home for DataMate and a 5,000 square foot manufacturing plant and office building for Perceptual Development Laboratories to be located on the Snyder Highway.

DataMate Complex Reveals \$194,000 Plant Expansion

A \$194,000 contract for a computer building and a manufacturing plant-office building on the Snyder Highway was awarded to B. D. Click, Abilene, shortly before noon today in the offices of Gameco Industries, Inc.

George McAlister, president of DataMate Computer Systems Inc. and former president and founder of Gameco, said the buildings would be located north of Gameco on the Snyder Highway.

A 22,500 square foot building will be constructed to house computers of DataMate, a wholly owned subsidiary of Siboney, Inc. DataMate was created in 1968 to carry on the business of educational computer products begun while a division of Gameco.

Prime products of the division are the ECP-16 and ECP-18 computers, primarily used for instructional purposes, and the new DataMate-16 scientific-

industrial digital computer line, the nation's first fully IC computer features MSI devices with a 4K memory, 16-bit word length and one-microsecond cycle time. It has a high performance rate of 16,000,000 bits per second throughput.

Contractors will also construct a 5,000 square-foot building to house a manufacturing plant and offices for Perceptual Development Laboratories, now located in St. Louis, Mo.

Perceptual Development Laboratories, which will gradually be phased into Gameco's Creative Visuals division, manufactures instructional films and projectors. McAlister said the plant employs 32 people in Missouri, but only four or five key people will be moved to Big Spring. Employees needed to complete the staff will be hired in the Big Spring area.

The contract does not include

paving or a sprinkling system, McAlister said. Bids for these items will be let at a later date. Contractors have set a Thanksgiving completion date for the new buildings.

Democrats Disclose 'Hickel's Disease'

WASHINGTON (AP) — Frustrated Democratic leaders have come up with the term "Hickel's disease" to describe President Nixon's agility at turning issues to his own advantage.

Around Democratic National Committee headquarters "Hickel's disease" means preempting the other fellow's thing before he gets a chance to do it himself.

The allusion is to the transformation of the image of Secretary of Interior Walter J. Hickel from that of a hard-nosed businessman into that of a conservationist of the first water after he took office.

National Chairman Fred Harris complains to colleagues that every time the Democrats set up a good issue, Nixon comes along and carts it away—say, by personally visiting a ghetto or checking Washington traffic jams from a helicopter.

It's not so much what Nixon says that Harris is complaining about, it's the image the President is creating for himself.

As an example, Harris told a group of reporters Tuesday that while the President talks a good civil rights program, his advisers have backed the administration off from extending the 1965 Voting Rights Act under which Harris said there had been a "tremendous" registration of Negroes in the south for the first time.

He said the administration was trying to curry favor in the South while maintaining it wants civil rights for everyone.

As for the Democrats, Harris seems to think they are on the road to party unity despite some flareups here and there.

He has reached an understanding with Democratic congressional leaders that he will not step on their toes with pronouncements of a party policy council he intends to set up.

Mercenaries Landed By U.S. Helicopters

SAIGON (AP) — Hundreds of American-led South Vietnamese commandos were flown in to reinforce the embattled Ben Het Special Forces camp today. Spokesmen said they made brief contact with North Vietnamese troops threatening the border post.

The commandos, elite mercenaries specially trained by U.S. Special Forces troops, were landed by U.S. helicopters. They thrust into the jungles two miles south of Ben Het and spokesmen reported a 15-minute firefight just before noon today.

The allied forces suffered no casualties and enemy losses were not known.

Another brief fight flared at about the same time northeast of the camp, where about 2,000 South Vietnamese infantrymen are trying to keep open a 10-mile stretch of Highway 512 that leads from Dak To to Ben Het. One South Vietnamese was killed and four wounded, while enemy losses were not known.

North Vietnamese artillerymen kept up their two-month bombardment of the camp, slamming in 110 artillery, mortar and recoilless rifle shells Tuesday.

"The report we have is that there were no casualties or damage," said a U.S. Command spokesman. "This is not too unrealistic if everyone stayed in their holes."

Field reports said a second allied supply convoy pushed through to the camp Tuesday from Dak To. The first arrived Monday with badly needed ammunition.

On its return trip to Dak To Tuesday, that convoy came under small arms and bazooka-type rocket attack. One American was reported killed and two wounded.

Spokesmen have said two North Vietnamese infantry regiments and an artillery regiment moved across the border from Laos and Cambodia and began putting pressure on Ben Het and Dak To around the beginning of May.

Every Time A Wife Shops, She Pays For Crime Losses

NEW YORK (AP) — Every time a housewife shops, up to a nickel of each dollar she spends pays the shopkeeper for his losses due to crime.

"It has to be brought home to the consumer that she pays for theft," said James Gordon Gilkey, vice president of Carson Pirie Scott & Co., a Chicago-based department store chain. "We have to pass along this shrinkage to customers as part of our costs."

Losses from thefts of all types average 1.5 per cent of all sales in department stores, according to Carson Pirie Scott Chairman C. Virgil Martin. Among Chicago stores the average is 1.89 per cent and losses are upwards of 5 per cent for several chains of discount stores, he said. This does not include the cost of insurance and crime protection.

"The customer pays in a number of ways other than money," says J. Gary Taylor, general manager of Bergdorf Goodman, a New York store. "She loses in service as the store is forced to pay for crime and cut services she used to get free. She also loses in availability of selection."

"We used to deal with theft as an exception to the rule," Taylor said. "But now it's an on-going problem."

The problem has reached such proportions that the National Industrial Conference Board has scheduled a one-day meeting in New York Thursday to discuss the effect of crime on the corporation.

The Senate's Select Committee on Small Business is holding hearings to determine the extent and causes of crime against business. It plans to offer legislation attacking the problem on a nationwide level. The committee also is looking for ways busi-

nessmen can prevent losses due to thefts.

A study on crime against small business sponsored by the Senate committee put the total cost of crime against business at \$3 billion in 1968. This figure does not include losses in the distribution and transport of goods.

Albert J. Reiss, a professor at the University of Michigan, who headed the study broke down the business crime bill this way:

Burglars stole \$958 million, vandalism cost \$813 million and shoplifters took some \$504 million. Other losses came from employ theft, \$381 million; bad checks, \$316 million, and robbery, \$77 million.

Reliable figures on the cost of thefts against the transport industry aren't available but truckers estimate the loss at more than \$1 billion annually.

Law officials agree, however, that reported crime is only the top of the iceberg. Businessmen as well as individuals often fail to report thefts.

In the past, some stores have denied that crime costs are passed on to the consumers, saying losses are taken from profits or that they are covered by a reserve.

Reiss rejects such statements as ridiculous. "In a cost accounting system losses due to crime are a cost of doing business," he said.

Swimmer Escapes Into West Berlin

BERLIN (AP) — An 18-year-old East Berlin boy swam the Spree River Tuesday night in a thunderstorm and escaped into West Berlin, police reported.

Later, on another part of the border, East German foot patrols sent up flares into the rainy night, apparently searching for another refugee trying to make it to West Berlin.

City Planning To Negotiate Or Condemn Street ROW

Whether by negotiation or condemnation, Big Spring City Commissioners Tuesday instructed City Manager Larry Crow to acquire a parcel of land 33 feet wide and 230 feet long from Miss Jo Cole and Miss Pearl Cole to provide right-of-way for Twenty-fifth Street.

Crow told the commission that when the area on 25th south of the Cedar Ridge Addition was platted, a 30-foot street was shown, but the developer (Bruce Frazier) owned but 17 feet. The balance was owned by the Cole sisters. He said the only access to Fisher Street is over this route, and it does not provide adequate right-of-way for emergency vehicles. He asked for authorization to negotiate or condemn the property.

"Did the Frazier plat include land he did not own?" Commissioner George Zachariah asked.

"Yes," Crow said. "He feels it is not his problem because the land has been sold and he has no interest in providing access."

Lanny Hamby, attorney for the Cole interests, said his clients are opposed to condemnation, and suggested that if the city takes any of the property, it should take enough to extend Twenty-fifth Street through to Goliad. He said the Cole sisters believe that taking just the 33 by 230 foot section to serve only four families is unjust. The people who bought property on Fisher Street knew there was only 17 feet of right-

Local Group To Speak On Site For New College

The Big Spring Chamber of Commerce Education committee sponsored a letter sent to Frank C. Irwin, chairman of the University of Texas board of regents, asking for time on next Monday's agenda to speak about the location of the upper-level college between Midland and Odessa. The board will determine the site.

The committee also sent a letter to the Midland Chamber of Commerce reaffirming its March 10 position to support Interstate 20 and FM 1788 as the college site. Tom Eastland, Big Spring Chamber of Commerce manager, said the committee sees no reason to move the college from the Scarborough land.

of-way for Twenty-fifth Street, he said.

"If you will negotiate part of it, why not all of it?" he asked. Crow said when and if Twenty-fifth Street is extended through to Goliad, developer of the property will be obligated to provide right-of-way and pavement. The street now dead-ends at the acquisition of right-of-way. Commissioner Jimmy Morehead stipulated that all possibilities be explored.

In other business, the commission:

- (1) Approved a resolution commending Col. William C. McGlothlin for his service to the community during his tenure as wing commander at Webb AFB.
- (2) Approved a resolution to be sent to the Board of Regents of the University of Texas, urging that the new Permian College be located at IS 20 and FM 1788.
- (3) Approved a resolution, to the members of Congress representing this area, opposing any limitation on the tax exempt status of interest paid on municipal bonds.
- (4) Set a public hearing for July 24 to consider adoption of the revised zoning ordinance.
- (5) Awarded a bid to Mobil Oil Corp. to provide gasoline to the city for six months, at a cost of 1647 cents for regular grade, 1847 cents for Ethyl grade, Gulf Oil Corp. bid 1660 and 1860; and Chevron Oil Co. bid, 1748 and 1928. Ten firms had been invited to bid.
- (6) Approved the extension of the contract with the Department of Labor for the Neighborhood Youth Corps to Aug. 31. The present contract expires July 5. Larry Smith, administrative assistant, said the contract would be for \$20,700.

Shotguns Stolen From Chi Police

CHICAGO (AP) — Police in Chicago will stop carrying shotguns in the front seats of their squad cars because six have been stolen since officers began keeping them up front a few months ago, Police Supt. James B. Conlisk said Tuesday.

The guns will be moved to holders inside the trunk. Citizens have complained that the presence of the shotguns up front is frightening, but Conlisk said the complaints didn't influence the move.

IN SUNBAKED TEXAS

Searing South Winds Help Spread Flames

Searing south winds kept Texas uncomfortably hot today and helped spread big grass fires in at least three counties.

Temperatures hit 100 degrees or more in a dozen cities Tuesday, mounting to a high of 109 at Presidio in the sunbaked Big Bend country of West Texas.

The wind-fanned heat routed most of the thunderstorms and showers roving northern sections of the state 24 hours earlier, although a few persisted into Tuesday night around Del Rio on the Rio Grande.

A few thundershowers started developing over West Texas this morning as a new cool front approached the state, but forecasts promised only limited relief for Northwest Texas and part of North Central Texas. Little change was in prospect elsewhere.

Fires blackened several thousand acres of grass land in Central Texas, mostly between San Saba and Lampasas. Some acreage also burned to the north in Mills County. Authorities said there were no injuries and farm homes escaped damage although some were threatened.

Sheriff Brantley Barker at San Saba reported the blazes, in at least four areas of his county alone, had been controlled with help of soldiers and heavy equipment sent by the Army from Ft. Hood.

With the drying wind still blowing, however, Barker said there was concern that more fires could spring up at any time.

In addition to the high of 109 degrees at Presidio, Laredo recorded 108, Cotulla 106, Wink 104, Childress 103, Big Spring and Del Rio 102, Mineral Wells and San Angelo 101, and Lubbock, Midland and Wichita Falls, 100.

NIENCE

Dear Abby

DEAR ABBY: My husband is a professional man who has started to work late about two or three nights a week. On these nights he takes his secretary out for dinner. Perhaps I should mention that they dine at a cocktail lounge where there's dancing, and he has been seen dancing with her. (How about a 52-year-old man having the strength to dance after putting in a 10-hour day?)

Perhaps I am overly suspicious because I married this divorced man as a result of having worked "overtime" for him, and I am well aware that you can't teach an old dog new tricks. Any ideas?

EX-SECRETARY DEAR EX: Yes. Tell him of your suspicions. He might interpret your silence as ignorance, indifference or approval. This old dog doesn't need to learn any new tricks as long as the old ones work.

DEAR ABBY: I am in the NINTH GRADE, and our English teacher announced that if our term papers were not typed they would not be accepted.

Abby, how many math graders do you think know how to type? In our class only five out of 30 do.

Our teacher said if we couldn't type them ourselves we could have our mothers, or a friend type them for us. And if that wasn't possible, we could HIRE a professional typist to do it. Well, I inquired, and around here it costs anywhere from \$1.25 to \$1.50 a page for a professional typing job, and my term paper is 15 pages long, and I certainly can't afford that.

I can sympathize with the teacher, and I'm sure it's a lot easier on her if all the term papers are typed, but as long as they're written neatly and are legible, I think they should be acceptable. What do you think?

NO MILLIONAIRE DEAR NO: Your teacher is going to hate me, but I think you're right.

DEAR ABBY: What do you mean telling that woman who complained because she had to iron seven pair of undershorts every week that it was "nothing"? It's easy to see that you don't do your own ironing.

If she had asked me, I'd have told her to buy her husband some shorts that don't need ironing. There are lots of underwear fabrics on the market that you can throw in the machine and they tumble dry and look like new. And if her husband STILL insisted on the old-fashioned kind that have to be ironed, I'd iron 'em all right — with plenty of STARCH. Sign me.

NO SLAVE IN HARTFORD Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069, and enclose a stamped, self-addressed envelope.

The bidding: North 3♠ East 3NT West 3NT Pass Pass

Opening lead: Seven of ♠. While there was no assurance that North's three club opening bid was based on a solid suit, South was willing to gamble out a three no trump contract. If he were doubled, however, there was always an option open to retreat to four clubs. West opened the six of spades and East put up the king which was permitted to hold the trick. The nine was returned, covered by South's ten and West was in with the jack. A third round dislodged the ace.

Declarer led the seven of clubs and put up dummy's ten, which East allowed to hold. He won the continuation with the ace, and observing partner's vigorous signal of the eight of hearts, he shifted to the deuce of that suit.

On the surface, it may appear that South was confronted with a guess, for if East is leading away from the queen of hearts, the correct play is to put in the jack in an effort to force out the ace. However, declarer was convinced that if West ever regained the lead, he would be in position to cash a sufficient number of spade tricks to submerge the contract.

Declarer went up with the king of hearts in an all-out attempt to prevent West from getting in. When the king held, South ran for cover with the rest of the tricks, discarding his remaining hearts on the dummy's clubs. If West had shifted to a heart at trick three after winning his partner's spade return, the defense would have had time to establish the setting trick while they still retained the ace of clubs. South cannot avoid the loss of two hearts in addition to two spades and one club.

Gun Deaths In U.S. Up

By The Associated Press

There were 206 gunshot deaths in the United States during the week of June 15 to June 22 including 131 homicides, 59 suicides, and 16 accidental deaths, an Associated Press survey shows.

This represents an increase of seven deaths over the number counted during the same period in 1968, before a limited federal gun control law went into effect.

In 1968, the one-week survey counted 199 gunshot deaths, of which 115 were homicides, 65 suicides, and 19 accidents.

The gun control law, signed by President Lyndon B. Johnson on Oct. 22, 1968, limits the interstate mail order sale of firearms and ammunition. It also bans the over-the-counter sale of weapons to non-residents of a state.

Family fights, lovers' quarrels and barroom brawls led to many of the shootings in last week's survey.

A former mental patient in St. Louis was shot to death by his father, who said the joy tried to set the family car on fire.

Gasoline Alley Creator Dies

WINTER PARK, Fla. (AP)—Frank King, 86, creator of the Gasoline Alley comic strip that amused millions of newspaper readers for half a century, died Tuesday at his home.

King created Gasoline Alley in 1918 as part of a page of miscellaneous drawings for the Chicago Tribune. The strip developed into a separate feature Aug. 24, 1919.

Its main character was Wally Walley, a large, good natured bachelor whose trademark was an unruly lock of hair.

Walley and a few of his neighbors, all car owners, used to meet in the alley back of their garages to tinker with their autos and exchange gossip.

As times changed, so did the strip. In later years it became a chronicle of family life and its name possibly a puzzle to younger readers.

Dr. Harty Named

DENTON, Tex. (AP) — Dr. Margaret B. Harty, director of nursing education for the National League of Nursing, has been named dean of the College of Nursing at Texas Woman's University.

Mail Thefts Aboard Ships

YAP (AP) — The U.S. Post Office Department is investigating mail thefts aboard ships en route here from the U.S. mainland.

Dock workers unloading the vessel Taiposok on its arrival from San Francisco June 21 found roughly a quarter of the mail sacks in the ship's hold had been slit open.

Some tattered sacks were half-empty and packages had been torn apart, authorities said.

Postmaster Carmen Chigy said mail thefts have become a serious problem in recent months.

"Mail bound for U.S. trust territory ports was once sealed in vans," Mrs. Chigy said. "I doubt if the problems will end until sealed vans are again put in use."

Industrial Death

SILSBEE, Tex. (AP) — Herbert Minyard, 63, of Jasper died in an industrial accident Monday. Investigators said Minyard, the driver of a logging truck for a paper mill, was helping to unload logs when the accident occurred.

Charm Course Graduates

Incorporated into this year's summer homemaking program at Big Spring High School was a charm course taught by Mrs. Wilbur Cunningham. The course climaxed with two informal fashion shows at Furr's Cafeteria. Here, some of the 20 girls enrolled learn graceful modeling techniques. The models are Toni Burchell, left, and Shirley Sturm.

'ROUND TOWN

By LUCILLE PICKLE

Just about the time I have gotten accustomed to seeing men wear ruffles on their dress shirts, the designers are outdoing themselves again by trying to make the male dress take the spotlight away from the female of the species.

From the news services we recently read where the new fall finery for men includes red velvet pants with matching top worn with brilliant yellow suspenders. I don't expect to see any worn hereabout, but then I didn't think I would see any men wearing long fur coats here but I did . . . once.

The heat has just got to be one of top topics of conversations. I don't know if it would make a lot of difference to one's state of coolness, but I've given a lot of thought the past week of putting into action that title of a long ago popular song, "It Ain't No Sin to Take Off Your Skin and Dance Around in Your Bones."

The BILL LANSINGS got a varied assortment of weather during their vacation the past two weeks. They went to Cedar Rapids, Iowa, to visit relatives and during the forepart of their visit, the weather was normal. But a cool front moved in, and they wore long sleeves and stocking cup to a ball game. Sweaters and Bill even wore a Returning home as they neared Wichita Falls, the weather was no longer cool, and by the time they got to Haskell they had to yell call rope at an air-conditioned motel to restore them enough to get back home.

Vacationing at their favorite spot on Inks Lake are MR. and MRS. WAYNE HENRY and their children, Shauna and Gregg, and MR. and MRS. PAUL PETERSON.

MRS. PALMA HAMILL of Vernon has been visiting here with relatives that include MR. and MRS. EUGENE TURNER, MR. and MRS. LONNIE COKER and MR. and MRS. LEONARD COKER. She is en-

Vacationing Families Visit Forsan Homes

FORSAN (SC) — Guests in the J. W. Skeen home are the Charles Skeens of Follett.

Sunday visitors in the A. P. Oglesby home were the Everett Oglesbys of Kermit.

Weekend guests of the Jimmy Shoultz were the Herman Hudsons of Carlsbad, N.M. Shoultz and Hudson entered the Colorado City golf tournament.

Mr. and Mrs. C. L. Girdner and sons of Abilene were recent visitors in the L. T. Shoultz home.

Mrs. Mae Robinson and daughters of Fort Worth are visiting in the home of Mr. and Mrs. Jesse Overton.

Mr. and Mrs. Fred Holguin and Debbie have returned from a vacation at Imperial and Ruidoso, N.M.

The Wayne Monroneys of Snyder recently visited Mrs. G.

Volunteers Set Meeting Here

Plans for the state volunteer council meeting slated here Oct. 3-4 were detailed by Mrs. Helen Colburn of Austin Tuesday at a luncheon in the Allred Building at Big Spring State Hospital.

"We are anxious for others to see the exciting, almost miraculous things that are radiating out of this hospital," said Mrs. Colburn, Chief of Volunteer Services. "We have obtained some outstanding authorities on psychiatric treatment as program speakers, and

WCSA Hears Talk By Psychologist

Tad Corbet, psychologist at Big Spring State Hospital, spoke at Tuesday's meeting of the Woman's Society of Christian Service, First United Methodist Church.

Mrs. Clyde McMahon Jr. introduced the speaker, and Mrs. Max Fitzhugh read the prayer calendar and worded prayer.

Mrs. H. C. Ernsting announced a mission school will be held July 28-Aug. 1 in Abilene. A clothing pickup will be made July 5 by Church Women United to be distributed to Church World Service.

Mrs. Walter Osborne was program chairman, and refreshments were served by the Sylvia Lamun Circle.

Lodge Contributes To Chapel Fund

The John A. Kee Rebekah Lodge No. 153 contributed \$10 to the All-Faith Chapel at Big Spring State Hospital during Tuesday's meeting in the 100F Hall.

Mrs. M. R. Ray noble grand presided, and Mrs. Joe Evans, representative to Big Spring State Hospital, announced the lodge will serve 125 dozen cookies on July 2.

Mrs. Ray and Mrs. E. Lee Thackrey will serve refreshments Saturday at the Veterans Administration Hospital. Mrs. Alton Allen, lodge deputy, gave lodge instruction and presented Mrs. W. W. Grant with a certificate of perfection in unwritten work.

Knott Residents Return From Trip

KNOTT (SC) — Mr. and Mrs. E. L. Roman have returned from Austin, where they visited a son-in-law and daughter, Mr. and Mrs. Robert Owen. They were also in San Antonio to visit another son-in-law and daughter, Mr. and Mrs. James T. Rutledge. Their grand-daughter, Pat Rutledge, accompanied them home.

Judy Beckham Plans Wedding

Mrs. Jesse Lemons of Snyder and C. B. Beckham of Big Lake are announcing the engagement and approaching marriage of their daughter, Judy Beckham, to Harley Fred Bynum, son of Glendon Bynum of Snyder. The couple will be married at 7 p.m., Aug. 9, in the 57th Street Church of Christ at Snyder.

Methodist Circle Has Bible Study

Mrs. Howard Berry, 2900 Cherokee, was hostess Tuesday morning for a meeting of the Martha Poster Circle, Wesley United Methodist Church. Prayer was led by Mrs. Gertie Wescott, and the program was a Bible study. The next meeting will be at the church.

Miss Bodine To Leave For Spain

Miss Zelta Bodine, daughter of Mr. and Mrs. L. C. Bodine of Ackery, will depart John F. Kennedy Airport, New York, June 26, for Salamanca, Spain. She will be traveling with a group of students from Asheville, N.C., who will study at a university in Spain. The group will also tour other parts of Spain and sightsee in Tangiers, Africa, and Rome.

Bride Is Honored At Shower

Mrs. Cooper Proctor, the former Mary Stricklin, was honored with a linen shower Thursday in the home of Mrs. Loyd Lille, 1510 Sunset.

Cohostesses were Mrs. Milton Carver, Mrs. Pete Anderson, Mrs. Shirley Walker, Mrs. Gordon Wheeler, Mrs. Paul Garrett, Mrs. Parnell Garrett, Mrs. Henry Stewart, Mrs. Ulysses Hall, Mrs. F. F. McElreath and Mrs. R. L. Collins.

Hears Program On Recreation

The Airport Home Demonstration Club met Tuesday in the home of Mrs. R. P. Moran at 2303 Austin, where Mrs. D. A. Bunn gave a program, "Recreation For Retirement."

Previous business was reviewed by Mrs. Laury Cheatham, assistant volunteer coordinator, and dinner music was by Frank Wharton. The luncheon was prepared under the direction of Charlie Voight, and the invocation was by Chalmers Lee Butler.

Shower Held For Karen Conway

Miss Karen Conway, bride-elect of Ernie McCustian, was honored at a shower Friday in the Pioneer Gas Flame Room. Hostesses were Miss Annette Felt, Mrs. Jeff Thomas, Miss Carolyn McMurtrey, Mrs. Ronnie Long, Miss Cathy Grant and Miss Gloria Neill.

The honoree her mother, Mrs. L. B. Conway, her grandmother, Mrs. E. S. Conway, and her fiancé's mother, Mrs. Vera Kiser, received corsages made of pot holders and kitchen novelties.

The refreshment table was covered with a yellow cloth overlaid with lace and centered with yellow and white daisies. The hostess gift was an electric can opener.

NCO Wives Host Farewell Coffee

Mrs. William C. McGlothlin was honored at a farewell coffee Tuesday morning by the NCO Wives Club at the NCO Open Mess, Webb Air Force Base. Mrs. Joseph Barank served as hostess.

An engraved gold cigarette lighter was presented to the honoree by the club, and Mrs. D. L. Reid, a guest, gave her a black mantilla.

The refreshment table was laid with a white cloth and centered with a floral arrangement, also presented to Mrs. McGlothlin. China and silver appointments completed the setting.

Business, Professional Women Install Slate At Tuesday Dinner

Mrs. Weldon Nuckolls became president of the Business and Professional Women's Club during an installation dinner Tuesday at Cosden Country Club.

Assuming their post with Mrs. Nuckolls were Miss Movelda Rhine, first vice president; Mrs. Garland Morrison, second vice president; Mrs. R. C. Nichols, recording secretary; Mrs. Deaton Stanley, corresponding secretary; Mrs. Leslie Lloyd, treasurer; Mrs. W. B. Sullivan, parliamentarian; and Miss Edith Gay, reporter.

The service was conducted by Mrs. Bill Griese who used a large coloring book to illustrate the duties of office.

Mrs. Sullivan, retiring president, was presented a past president's pin and expressed appreciation to the membership. The president's pin was accepted by Mrs. Nuckolls, who presided as a dinner was scheduled July 2 at Coker's Restaurant in observance of the federation's Golden Anniversary.

The invocation was by Mrs. Magne Roberts, and Mrs. Frank Arner, accompanied by her husband at the piano, sang "You'll Never Walk Alone." The dinner was planned by the hospitality committee; Mrs. I. S. Bonnek, chairman; Mrs. Zula Reeves, Mrs. M. A. Webb,

comred were Mrs. Arner, Mrs. Dorothy Baker and Mrs. Cleo Read.

Guests introduced were Miss Pat Buckley, Duncan, Okla.; Miss Frances Maxwell, Graham; Mrs. Meta Vanosdoll, Kansas City, Mo.; and Mrs. Jo delabra with yellow and green tapers.

Providing The Music

Larry Stanley, Howard County Junior College voice instructor and choir director, is directing the music for "Little Mary Sunshine," comedy musical to be staged Friday and Saturday in the city auditorium. Playing the twin pianos are Jane Anderson Mitchell (left) and Marilyn Quillin. Ducats are still available for this musical with the largest cast ever offered by the Little Theatre.

Otepka, Ousted In 1963, Wins Senate's Approval

WASHINGTON (AP) — Otto F. Otepka, ousted in 1963 as chief security evaluator for the State Department, has won the Senate's approval for a higher-ranking job.

After relatively brief discussion, the Senate voted 61-28 Tuesday to confirm President Nixon's nomination of Otepka as a \$36,000-a-year member of the Subversive Activities Control Board. Supporters hailed the outcome as a vindication of Otepka, who was ordered dismissed from the State Department on grounds he provided the Senate internal security subcommittee with confidential documents without authorization. In 1967, the dismissal order was changed to demotion, transfer and reprimand.

Only 8 Sign Beauty Pledge

Tom Eastland, Chamber of Commerce manager, screened a series of slides to the Rotary Club Tuesday, as part of his talk on "Beautiful, Beautiful Big Spring." The slides showed past and present areas of the city and helped emphasize the need for cleaning up and renovating some of them. At the close of the program those interested were asked to sign a slip pledging to use "what influence I have" to help make Big Spring "an even better looking place than it is." Of more than 50 people present, only eight signed the slip.

Sheriff Might Give Tit For Tat

SEATTLE (AP) — Sheriff Jack Porter and Seattle's Young Democrats may give tit for tat. Porter, a Republican, says he may cancel the July 4 rock festival near Woodinville, a suburban community just north of Seattle, because he believes it would be too noisy, overcrowded, too messy and permissive toward illegal activities. After a meeting Phil Mahoney of the Young Democrats said they might seek a court injunction to cancel Seattle's annual Seafair trophy race for hydroplanes.

Picks Dallasite

WASHINGTON (AP) — President Nixon has nominated Luther Holcomb of Dallas to another five-year term as a member and vice president of the Equal Employment Opportunities Commission. Holcomb, a Democrat, gives his party three members on the commission to one Republican and one Independent. The agency keeps an eye on civil rights practices under federal laws. Holcomb, 55, draws \$36,000 a year.

Total Clip Job Hurts Dignity

CHARLESTON, W. Va. (AP) — Several Charleston area women are being clipped — literally bald — by a man who cons them out of their hair instead of their money. Police said the man usually offers a home-hair styling that turns into a total clip job. There are six confirmed cases in the past four years, but detectives say many more women may be involved and are too embarrassed to call police. The man operates with his scissors and razor just outside the reach of the law. If women give him consent to work on their hair, police say, the man can't be charged with assault. Police files show the man frequently tells women in a door-to-door campaign that he is opening a new beauty salon. He offers the lady of the house a sampling of his work. Those who agree have wound up bald. None of the women to date has been harmed beyond damaged dignity.

Water Woes In Houston

HOUSTON (AP) — Water consumption records are being set in Houston as the city goes into its 20th day without rain. Temperatures have ranged in the mid 90s daily. City water wells pumped a record, 233.3 million gallons of water Monday. The previous high was 208.98 million gallons Aug. 19, 1968. Air conditioners also have been busy lately. Houston Lighting and Power Co. generated an unprecedented 4.6 million kilowatts between 3 and 4 p.m. Monday. Some areas are complaining of low water pressure and Mayor Louie Welch asked residents of three southwest Houston areas to cut down on water consumption. Welch proposed residents on city water wells pump an even-numbered address on even-numbered days Monday. The previous high was 208.98 million gallons on odd-numbered addresses last Friday when 222 million water gallons were pumped. Prior to days.

ASSOCIATED PRESS NEWS IN PICTURES

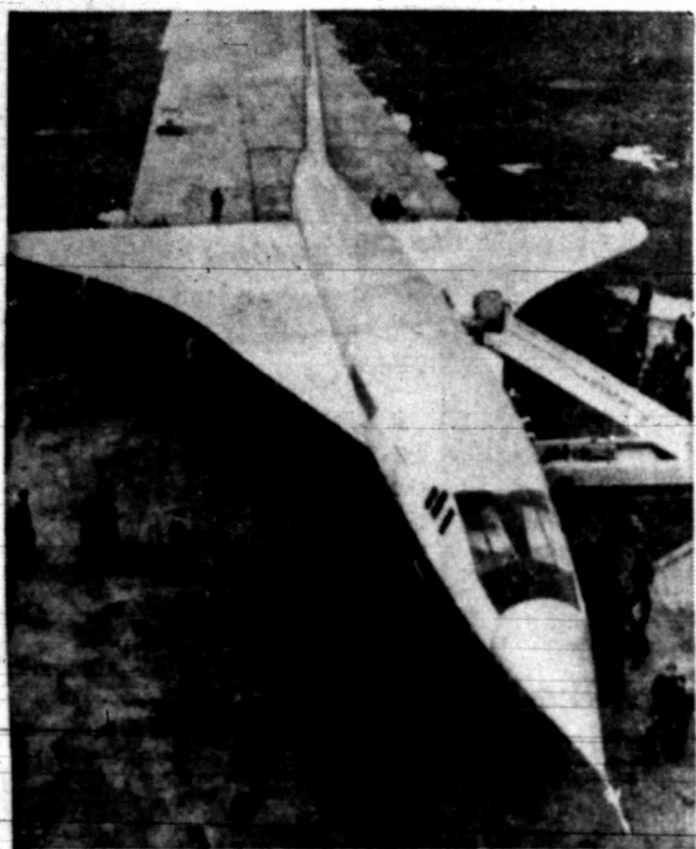

FASTER FERRIES — Two 177-ton Mountbatten class hovercraft race across the English Channel during recent speed trials. They each can carry 254 passengers and 30 vehicles at cruising speeds of up to 65 knots. They can make the crossing in 40 minutes.

A PIPEFUL — The question is when the multi-compartmented soap bubbles will burst. Setting up the spattering moment is Jana Fajrservice, 5, at Seattle, Wash.

IN SOLITARY SPLENDOR — All that is visible is the conning tower as the USS Whale surfaces at the North Pole. The nuclear-powered attack submarine came up while conducting an exercise in the area to demonstrate its under-ice capabilities.

SOVIET SPECIAL — People are dwarfed by the giant TU144 as they crowd around the Soviet supersonic airliner following public landing at a Moscow airport.

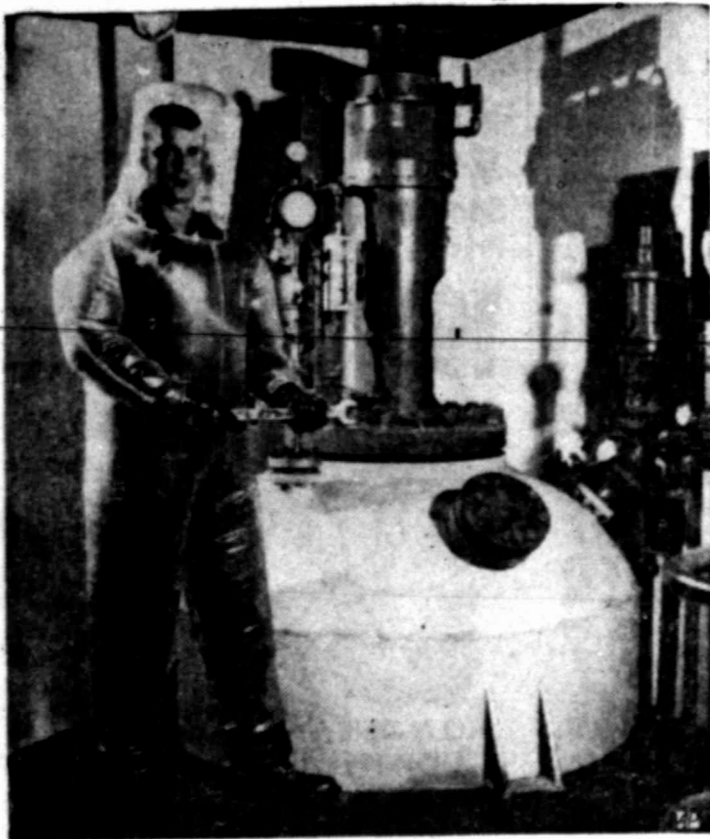

FUR FOR HER — Here's an item for the obviously affluent. Worth in London has created this luxurious trench coat of leopard skin for Milady. Asking price? \$12,000.

DIVE OPERATIONS — Cmdr. E. Frederick Murphy, Jr., shows Vice President Spiro T. Agnew how the diving planes are operated aboard the USS Hammerhead. The nuclear attack sub, with Agnew aboard, made a short run in the Atlantic off Port Canaveral, Fla.

SET TO SAIL — The papyrus craft which explorer Thor Heyerdahl plans to sail across the Atlantic Ocean rests in harbor at Safi, Morocco, after launching.

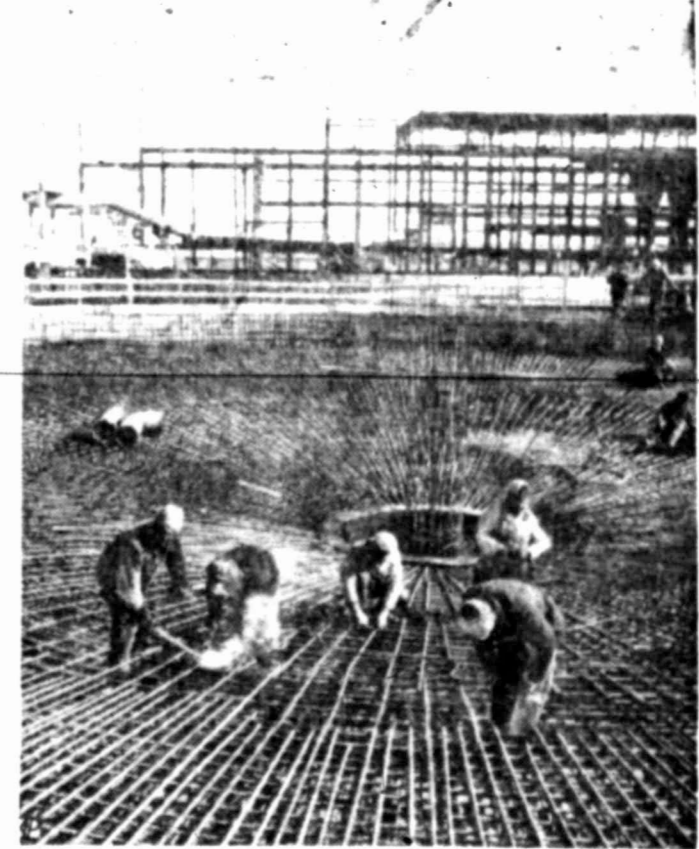

MOON MAN? — Technician garbed in outfit resembling a space suit really wears it at Newport, Tenn., to supervise the production of an organic chemical.

LOW-LEVEL SEARCH — Youngster takes advantage of a low tide for his first experience in clam hunting and virtually everything else along a beach near Everett, Wash.

CHAMPION — Majestic Prince, unbeaten three-year-old colt, may go for the triple crown of racing in the Belmont Stakes. Colt's already won the Derby and the Preakness crowns.

PLANT SETUP — Workers weld fittings on spider-webbed, dish-shaped part of fertilizer plant being built at Soligorsk in White Russia area of Soviet Union.

AN UNUSUAL CLIENT — How often do you see formal portraits being made of cows? At present North German farmers, on the advice of police, are having their cattle photographed as a means of identification to combat the rising number of rustlings in the area.

REGAL WORKER — Emperor Hirohito, coatless and booted, plants rice in a paddy near his biological laboratory at the Imperial Palace grounds in Tokyo, Japan.

A SILENT PROTEST — The statue of the River Nile seems to be defending itself from cleaning in a Rome square. It's part of Bernini's "Fountain of the Four Rivers."

School Trustees Plan More Budget Study

The school board of the Big Spring Independent School District Tuesday night postponed tentative approval of the 1969-70 budget until July 8 and called a special budget study session for Tuesday, July 1, at 7:30 p.m.

Trustees approved maintaining a \$650 increase over the minimum teachers salary set by the State Legislature during the past session. The salary was approved at the suggestion of Lynn Hise, assistant superintendent in charge of instruction, to aid in recruitment of teachers.

She Never Knows What'll Happen

ST LOUIS (AP) — Miss Shirley Seiler, director of the Animal Protective Association shelter, was telling visiting Browns Tuesday she never knows what will happen next in her work, then a nervous motorist arrived.

Skyjacking Research Progress

WASHINGTON (AP) — Researchers report encouraging progress in the hunt for ways to detect would-be aircraft hijackers.

Developments revealed Tuesday lead officials to feel—for the first time—that the problem can be solved. A Federal Aviation Administration task force, created last February to study characteristics of hijackers and to evaluate various weapons-locating devices, said it has narrowed the need to screen passengers to less than one per cent.

The panel reported it has developed a hijacker behavioral profile based on the detailed study of the personality of every known sky pirate. It added that, during field testing of weapons-spotting devices at airports in five major cities, it has discovered that "all of the devices were much more precise than we had been led to believe by the claims of their developers."

Slices Damage

FORT WORTH (AP) — The Corps of Engineers estimates that \$31 million in flood damage was prevented by Corps projects during recent floods in North Texas. Flood damages amounted to \$13.6 million.

DEATHS

Juan Alvarez, Dies On Birthday

Juan M. Alvarez died Tuesday, his 54th birthday. Galveston. Services are pending at Valley-Pickle Funeral Home. Mr. Alvarez was born June 24, 1915, in Mexico. He was a construction worker and came to Big Spring from Colorado City in 1934. The last nine years he has lived in Lubbock.

Arthur D. Webb, Formerly Here

Arthur D. Webb, 65, former resident of Big Spring, died Tuesday in Big Spring after a six-week illness. He resided at 605 S. Bassett Eastland. Mr. Webb, a member of the First Christian Church of Eastland, was born June 6, 1904 in Eastland, and married Edith L. Miller Nov. 4, 1923, in Breckenridge.

'Old Ranger' Dies
LOS ANGELES (AP) — Stanley Andrews, 77, the "Old Ranger" in the radio and early television period of "Death Valley Days," died Monday. He was a veteran of more than a half century in show business.

Youngsters Join Appeal To Stamp Out Smog

Children wear surgical masks and display banners in the hearing room of the Los Angeles County Supervisors yesterday. They were there with their parents, members of a volunteer group called Stamp Out Smog, to appeal to the supervisors to get rid of smog. The group claimed the county is going backward instead of forward in controlling air pollution in Southern California.

Seven Denied Hawaii Routes

WASHINGTON (AP) — Seven airlines were once again denied permission to serve air routes to Hawaii Tuesday. The Civil Aeronautics Board postponed for the fifth time the long-sought authorization.

Drilling Activity Spurred By Five Area Locations

Drilling activity in the Big Spring area received a shot in the arm with the announcement of a wildcat in Glasscock County and locations of four other units in Sterling, Howard and Dawson counties. Neil Brown, Big Spring, has staked the No. 1 Carter for 3,750 feet to explore the Permian formation in Glasscock County, 8 1/2 miles northeast of Garden City. The venture is planned as an offset to the depleted Carter multiphase field, and is 4 1/2 miles

FIERY CRASH COINCIDENCE

MIAMI (AP) — A slow-moving freight train running late blocked traffic on N.W. 34th Street Monday moments before the fiery crash of a cargo plane — a coincidence that may have prevented a far higher death toll.

Deanna, Judy Major Study In Contrast

HOLLYWOOD (AP) — A study in contrast: Frances Gumm and Edna Mae Durbin were best friends in the MGM studio school. Both were small girls, with extraordinarily big singing voices, and they were under contract to the biggest studio in Hollywood.

Road Melts

HANCOCK, Md. (AP) — The eastbound lane of Interstate 70 was closed near here early today because the road melted. A tractor-trailer hit a bridge abutment and burned. The driver walked away unharmed, but the flames melted the blacktop on the super highway in western Maryland's Washington County. Traffic was detoured.

OIL REPORT

Drilling activity in the Big Spring area received a shot in the arm with the announcement of a wildcat in Glasscock County and locations of four other units in Sterling, Howard and Dawson counties. Neil Brown, Big Spring, has staked the No. 1 Carter for 3,750 feet to explore the Permian formation in Glasscock County, 8 1/2 miles northeast of Garden City. The venture is planned as an offset to the depleted Carter multiphase field, and is 4 1/2 miles

COMPLETIONS

HOWARD
Amerada Petroleum Corp. No. 1-A Furr is drilling at 3,754 feet in line. Amerada No. 1 Miller is drilling at 3,748 feet in line. Amerada No. 1 R. E. Stringfellow is drilling at 7,716 feet. The lower Wolfcamp was drilled with 84 gallons of total depth of 7,716 feet. The lower Wolfcamp was drilled with 84 gallons of oil and 50 barrels of water in 1 1/2 hours and 20 barrels of oil and no water in 1 hour through a 2 1/4-inch choke, with tubing pressure of 25, 25, 25, and they recovered 100, 43 barrels of oil and 5 barrels of water.

DAILY DRILLING

BORDEN
Midwest Oil Co. No. 1-A Drum is at total depth of 8,000 feet and fishing. Reasens and Kirby No. 1 Thompson is at total depth of 4,637 feet and taking a drillbit test.

ALIENS CAUGHT

Border patrolmen arrested 17 persons as aliens Tuesday in Midland County.

Cops Cell 30 Negro Youths

VENICE, Ill. (AP) — Police arrested 30 Negro youths and two juveniles Tuesday night in the wake of a series of six fire-bombings. Three buildings, two police cars and a fire truck were hit by incendiary devices.

Officers said damage was minor and there were no injuries suffered in the incidents. Assistant Chief Ralph Bralley said the disorders apparently stemmed from a Monday afternoon incident when about 20 Negro youths demanded police to stop patrolling an all-Negro residential area in the St. Louis suburb of about 5,800 persons. They also demanded that mattresses be placed in city jail cells and that police help unemployed youths get jobs.

Demo Elected Congressman In Montana

HELENA, Mont. (AP) — Democrat John Melcher, who opposed President Nixon's proposal to deploy the Safeguard antimissile system, was elected Tuesday to the vacant Montana 2nd District seat in the U.S. House of Representatives.

Unofficial returns from all but 13 precincts gave Melcher, 44, a Forsyth veterinarian, a margin of more than 2,000 votes over his Republican opponent, William S. Mather. Mather, a Billings attorney, had told the electorate a vote for him was a vote for Nixon. Melcher had 45,190 votes and Mather 43,168.

Melcher succeeds Rep. James F. Baffin, a Republican appointed by Nixon to a federal judgeship.

In Washington, Sen. Fred R. Harris, D-Okla., chairman of the Democratic National Committee, said Melcher's victory was another indication that "the Democratic party is a viable force in areas which have been previously regarded as Republican strongholds."

Harris said that in four congressional elections since Nixon was inaugurated in January, Democrats have scored a net gain of two seats.

Nixon carried the Montana 2nd District last November by 18,000 votes.

Melcher said Tuesday night there will be many times he will support the Republican president. "I don't feel the antiballistic missile was of real significance in this election," he added.

Both major party candidates took strong stands for law and order, denouncing campus disorders and racial violence. The two also took similar stands in opposition to gun control legislation.

It Was A Sadder Story Today

Mickey Deans and Judy Garland were in high spirits together back in December, 1968. They were to be married soon. Today

Deans testified at her inquest in London which revealed her death was from an overdose of barbiturates.

Verdict Rules Out Any Suspicion Of Suicide

LONDON (AP) — A coroner's inquest ruled today that entertainer Judy Garland's death in her Chelsea home Sunday was accidental following an "incautious self-overdosage" of barbiturates.

The inquest in a courtroom near the houses of Parliament was called to determine what happened to Miss Garland, 47, who had won world-wide acclaim but was dogged by divorces and suicide attempts.

Her fifth husband, former New York discoteque owner Mickey Deans, said she occasionally took tablets for sleeping.

"Judy always locked the bathroom door," he told the court. "She told me this habit went back to her MGM (Metro-Goldwyn-Mayer) days when she was a little girl of 11 standing in a slip with men walking all round her and she felt self-conscious."

Deans said Miss Garland "drank very little, as opposed to what people think."

"She left a lot of drinks around the house but she sipped more than she drank," he said. "She was not a drinker in the true sense."

Deans found his wife's body in their bathroom.

The verdict ruled out any suspicion of suicide. Friends had said before the hearing that Miss Garland had been extremely happy in London since her marriage to Deans.

Coroner Gavin Thurston said there was no question of alcoholism and he also ruled out any question that Miss Garland had meant to take her own life. He said there was no sign of cirrhosis of the liver.

Thurston said 49 milligrams of quinal barbitone was found in Miss Garland's blood, an extremely high level. He said medical evidence showed a clear pattern of a person who had been habituated to barbiturates over a very long period of time.

"She had taken more barbiturate than the body could tolerate," he said.

Deans, wearing a dark blue suit and tinted glasses, testified in his real name of Michael De Vinko.

He told Thurston: "Judy and I met about three years ago. We married on March 15—about three months ago."

"Judy was weak, run down a bit but otherwise happy. She disliked eating. It was more of a necessity."

He said she had taken sleeping tablets since she was a child.

In New York, throngs of sorrowing fans are expected to pay their last tribute to Miss Garland when her body goes on public view Thursday.

The public will be admitted to the Frank E. Campbell funeral home at Madison Avenue and 81st Street to view Miss Garland's open coffin between 11 a.m. and 8 p.m. Thursday and 8 a.m. to 11 a.m. Friday.

A private funeral service will be held at 1 p.m. James Mason, who played opposite Miss Garland in "A Star is Born," will deliver the eulogy.

The funeral arrangements were announced Tuesday by agents for Liza Minnelli, eldest of the singer's three children.

Rocket Expert Dies

NEW YORK (AP) — Willy Ley, 62, German-born rocket expert and author who long ago envisioned man landing on the moon, died Tuesday after suffering a heart attack. Ley, born in Berlin, was a planning consultant to the National Aeronautics and Space Administration.

Paving 20 Blocks Still Under Study

The fate of about 20 blocks of the current assessment paving program is still in the balance today while commissioners study a problem of past due taxes and assessment costs.

W. D. Caldwell, contractor for the program, explained that 31 blocks in the program involved property in which large amounts of back taxes are owed. He said tax liens take precedence over paving liens and he cannot be assured of receiving payment of paving costs under such conditions.

Herb Prouty, city attorney, explained that the city cannot force the contractor to accept paving projects where it is not economically feasible for him to collect the cost of paving. He agreed with Caldwell that some of the property involved is not worth the amount of taxes owed, and pointed out that in most cases these back taxes have been owed for five or six years.

Angie Glenn, associated with Caldwell, said he had four pieces of property that had been taken in past paving programs that he would give to anyone who would accept them and pay the taxes. He suggested that the city take assignment of the paving liens, which it could eventually collect.

Caldwell said he had tried to get the owners to sign for the paving, but had not been successful. At the same time, he said, "we are paving a lot of them where back taxes are owed, but we feel we can collect these."

Jack Watkins said he had checked at the courthouse and found that only one of 18 blocks had filed for a homestead tax exemption. He estimated it would cost about \$21,000 for the city to pay the costs of paving the blocks under consideration.

Prouty said a resident could claim homestead exemption, even if he had not filed for it.

Commissioner George Zachariah urged that none of the blocks be cut from the paving program.

Ernest Lillard, public works director, said residents who won't pay taxes, probably won't pay a paving assessment either. To pave their streets free is not fair to other residents of the city, he added.

"If we take care of all of these," Mayor Arnold Marshall said, "then other groups will have a tendency to ask that the city pay for their paving."

Caldwell agreed with him. "Some will tell me when I try to collect for paving to let the city pay it."

Eleven other blocks were outlined by Caldwell as having only one or two tax problems. He asked that the city guarantee collection of the assessment on these. They include seven blocks on North Gregg, between Lamesa Drive and IS 20, and he asked the city to guarantee paving assessment of three residents, which will cost \$1,830.02. Back taxes for these three totals \$4,796.89.

The other four blocks are on Northeast Eighth, between Main and Goliad, with an assessment for two property owners of \$389.90 and back taxes of \$484.23.

On the recommendation of Lillard, the commission agreed to guarantee the assessment in order to proceed with paving the 11 blocks, but decided to continue studying the problem of the 20 blocks in question.

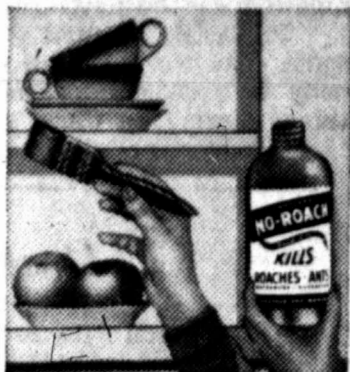

The latter includes Thirteenth, between Dixie and Settles; Fourteenth, between Dixie and

Settles; Northeast Tenth between Main and Runnels; Lorilla, between Seventh and US 80; Austin, between Fifth and Sixth; Northeast Tenth, between Goliad and Benton; Northwest Third, between Trades and Dundee; Northwest Fifth, between Scurry and Main; Northeast Eighth, between Main and Goliad; Eighth, between US 80 and Andree; Northwest Eighth, between Aylford and San Antonio; Trades, between Northwest Third and Northwest Fourth.

In another paving project, in cooperation with the Texas Highway Department, commissioners approved assessment for curb and gutter on US 87, from FM 700 south to the bridge. Adjacent property owners to be assessed, and the amount, includes Scenic Gardens Inc., \$1,143.76; Rock Oil Co., \$52.25; Big Spring Hunting and Fishing Club, \$259.59; Texaco, \$440.74; Duncan Drilling Co., \$1,160.61; and Leisure Homes Inc., \$32.69.

Also, at the suggestion of Zachariah, the city administration will contact the Elks Lodge and offer to trade about 2 of an acre of City Park land for US 87 right-of-way needed by the Texas Highway Department for the improvement project.

Why Do Business With Me?

WHY DO BUSINESS WITH ME?

I am your hometown, self-employed businessman. I support the local community.

There are two kinds of agents: company agents and independent agents. A company agent can sell only the policies of the company he represents. He usually has nothing to do with claims.

As an independent agent, I represent several insurance companies. I am an independent businessman. I select the best policies for each individual car owner, home owner or businessman from the several insurance companies I represent.

When there is a loss, as an independent insurance agent, I help with the details and assist my policyholder in obtaining a prompt and fair payment.

To sum up:

1. I am a self-employed professional businessman in the community.
2. I am not a salesman for just one insurance company, but represent various insurance companies.
3. I help you choose the right protection.
4. I recommend only strong, reliable companies known to pay claims quickly and fairly.
5. I keep your insurance protection up to date.
6. I am YOUR representative, and will see that you get prompt, fair payment on any claim presented.
7. YOUR INDEPENDENT INSURANCE AGENT SERVES YOU FIRST.

Kiwanians Ready With Opening Day Barbecue

Red-eyed and smoky-smelling Kiwanians were keeping watch on the barbecue pits at the Big Spring City Park Wednesday.

More than 1,500 pounds of choice beef, which will be the piece de resistance of the annual Kiwanis Club Rodeo barbecue to be served from 5 p.m. to 8 p.m. today, began cooking around midnight Tuesday. The club members, charged with the duties of chef, said the beef would be done to a turn by the time the first hungry patron shows up at the park at 5 p.m.

Lodges Planning Installation

Three Masonic lodges in Howard County will have a joint installation Friday at 7:30 p.m. with Lodge 1340 at 2101 Lancaster being the site.

F. H. Jack Franklin will be succeeded by Lloyd Nalls at 1340; Harold Broughton will turn over the office of worshipmaster to Bob West for the lodge at 598, and Gerald Culpeper will be succeeded as worshipful master of the Coahoma lodge by O. A. Madis.

Unhappy In Cuba

Raymond Johnson, a Black Panther member of Alexandria, La., told newsmen today he was instructed by a high-ranking party member in Cuba to report that the Panthers there have been "isolated and imprisoned," and want to leave. He implied that Eldridge Cleaver, above, is among the discontented.

Hearing Set For Disannexation Bid

A disannexation request was presented Tuesday to the Big Spring City Commission, which set July 8 for a public hearing on the matter.

Ben Bancroft, attorney for Ted O. Groehl, Jerry Currie and Dr. Harold Lindley, told the commission that 89.1 acres, east of present development in the Kentwood area, was annexed during the housing "boom." The original intent was to develop the area, but due to the slow-down in building, he said his clients did not plan to build in the area in the near future.

He said there are no city utilities needed or provided in the area, but in the event development begins, annexation will be requested. He said the owners would pay all the taxes through 1969, and pay the property's share of bond indebtedness estimated by Finance Director Charles Smith at \$500.

Commissioner George Zachariah's motion to call the hearing was approved on a 3-1 vote, with Commissioner Jimmy Morehead voting against it. During the discussion, Zachariah said the city had not taken similar action in recent times, and Public Works Director Ernest Lillard answered Morehead's question that the property was annexed at the owner's request. When Morehead asked if the same owners were still involved, Currie replied affirmatively. Morehead asked Bancroft if he planned to show at the hearing that the disannexation would benefit the city, and said he hoped this fact would be explored. The attorney said he planned to discuss the long term benefits. Omar Jones, who has the property in the Western Hills area and has made similar requests which were denied, asked if the commission planned to hear all similar requests or just this one. He said he opposed the request until the commission has heard all other similar requests.

SUMMER CLASSES IN SPEED READING SET FOR BIG SPRING

The famous Cutler Accelerated Reading course has over 10,000 successful graduates due to its comprehensive approach and taught here this summer in day-closely supervised professional and evening classes. The average teaching staff. A series of meetings have been scheduled for those who would like more details about the course. At these one hour orientations, the Accelerated course will be given in complete detail. There is no cost or obligation to enroll by attending one of these most informative meetings so be sure to attend and find out how you can make 1969 a more successful year. The meetings are open to all persons should read ages and will be conducted as follows: No. 1 meeting room of the Settles Hotel, 200 East 3rd, Big Spring, Texas, THURS., June 26 at 7 and again at 8:30 p.m. FRI., June 27 at 5:30 and again at 7:30 p.m. SAT., June 28 at 10:30 a.m. 1:30 p.m. and 3:00 p.m. SUN., June 29 at 2:30, 5:30 and again at 8:30 p.m. —ADV.

Leveling Off Prospects Dim

WASHINGTON (AP) — Although the cost of living rose just three-tenths of one per cent during May, the Labor Department reports prospects are dim for continued leveling off. Last month's increase was the lowest since January.

The boost means about 173,000 workers will get cost-of-living pay increases under their union contract provisions, the department said.

"There is still pressure on prices," explained assistant commissioner Arnold Chase as he predicted larger increases in the coming months.

At the current rate, he said, the cost of living will climb more than 5 per cent this year compared to 4.7 per cent last year.

The non-newsmakers...

what are they doing?

Publicity and public attention at any price is the farthest thing from their minds. They are not looking for something to complain about. They can see things about them which need improvement and they are willing to tackle the task. But they see some good things too.

They don't believe in criticism and protest without offering constructive alternatives. They believe that soap and water and a neat appearance go hand in hand with health and happiness. They know their strength is in their numbers because they comprise the overwhelming majority of the young people in the world today.

Why are they so inconspicuous? Because they are busy doing things which need to be done. More of them perform works of charity than we ever hear about. They are applying themselves

to their educations, going to church every week, participating in sports, furnishing the real leadership in their own groups, and working in ways which contribute to the betterment of society.

Right now they are seeking summer jobs. Thousands upon thousands of them are ready to contribute an honest day's work for a fair wage during the summer months. Groups like this are studying the Want Ad pages daily in search of summer work. Can you use a fine American in your place of business? If you can, let them know of your opening by placing a Help Wanted Ad in The Big Spring Herald. Call 263-7331.

To Compete In Meet

Three of the Big Spring entries in the TAAF track meet here Saturday at Memorial Stadium are shown here with coach Garland Braun, left. They are Danny Smart, Walt Campbell and Kyle Rosene. Braun said from...

Baltimore Opens 10 Game Bulge

The Orioles' sweet sixteen party was in full swing in Baltimore and Bill Melton had a ball in Seattle. But Ken Harrelson's homecoming turned sour in Boston. These were the highlights of Tuesday's action in the American League, which ended with the Orioles opening a 10-game bulge over Boston in the East while Minnesota vaulted back into first place by one-half game over Oakland in the West.

Astros Soaring With Eighth Straight; Allen Lost Again

While the New York Mets and the Houston Astros keep winning games, the San Diego Padres keep losing them and the Philadelphia Phillies keep losing Richie Allen.

The Astros defeated San Francisco 4-1 Tuesday night for their eighth straight victory and 21st in their last 24 home games. The Padres, on the other hand, dropped their 10th in a row, a 4-3 decision to Cincinnati.

The Mets, who used to be the worst expansion team in the majors, continued their reversal, gaining their second consecutive doubleheader sweep by knocking off the Phillies 2-1 and 5-0.

But while the Phillies pondered the incredible Mets, who have won 20 of their last 25 games, they also wondered where Allen went.

The controversial first baseman failed to show for the second time this season, and Manager Bob Skinner suspended him indefinitely without pay.

In other National League action, Atlanta downed Los Angeles 9-5, Chicago edged Pittsburgh 3-2 and Montreal lopped St. Louis 4-1.

The Mets moved to within 4 1/2 games of the Cubs, the leaders in the National League's East Division, behind Tom Seaver's seven-hit pitching in the first game and Jim McAndrew's two-hit hurling for eight innings in the second. Ron Taylor finished up for McAndrew in the ninth.

Larry Dierker won his 10th game for Houston as Sandy Valdespino banged a three-run double in the fourth. That wiped out the Giants' 1-0 lead.

San Diego grabbed a 3-1 lead against Cincinnati, but the Reds battled back and broke a 3-3 tie in the ninth on Pete Rose's run-scoring single, his third hit of the game. Relief pitcher Clay Carroll won his 10th game against three defeats.

Rico Carty and Bob Tillman led Atlanta past Los Angeles. Carty hit bases-empty homers in the second and seventh innings while Tillman socked a

grand slam homer in the third. Pittsburgh also fell to a home run—Ron Santo's three-run blow in the third. The victory was the 11th straight for the Cubs over the Pirates at Chicago's Wrigley Field.

And to keep in step, Montreal used the home run, too. Bob Bailey hit a pair for three runs and Coco Laboy hit one for the

other run. The victory over St. Louis was the first for the Expos in their last 13 home games.

Shortstop Eddie Brinkman, of the Senators said the ball was "foul definitely foul a yard or

two past the pole. It was a choke call. None of them have a gut in their body. They're all losers."

But Powell, who was in the on-deck circle, said he was "standing looking right at it. I saw it good and it went around the right side of the pole—fair."

Cap Peterson's three-run homer enabled Cleveland to win its day game from Boston. But Syd O'Brien's leadoff homer in the bottom of the first triggered a five-run Boston explosion in the nightcap. Tony Conigliaro socked a two-run triple and

scored on a single by George Scott, who hit two homers in the first game.

There were no wild demonstrations for Harrelson such as his trade to Cleveland brought forth—just a good round of applause. But the slugger fanned to get the ball out of the infield all day.

Harmon Killebrew's fifth single in the fifth inning snapped a 3-3 tie and Leo Cardenas brought home an insurance run in the sixth with a squeeze bunt as Minnesota beat California 2-1.

Elsewhere, Minnesota edged California 5-3, Kansas City nipped Oakland 6-5 and Detroit trounced the New York Yankees 2-1.

The Baltimore-Washington contest ended in a wild argument with the Senators claiming Robinson's homer was foul. Third base umpire Hank Sauer first raised both hands, the foul sign then pointed to fair territory. He said he was blinded momentarily.

Shortstop Eddie Brinkman, of the Senators said the ball was "foul definitely foul a yard or

two past the pole. It was a choke call. None of them have a gut in their body. They're all losers."

But Powell, who was in the on-deck circle, said he was "standing looking right at it. I saw it good and it went around the right side of the pole—fair."

Cap Peterson's three-run homer enabled Cleveland to win its day game from Boston. But Syd O'Brien's leadoff homer in the bottom of the first triggered a five-run Boston explosion in the nightcap. Tony Conigliaro socked a two-run triple and

Reggie Jackson May Give Oakland Box Office Draw

OAKLAND (AP) — "What we don't have is a super star," Charles Finley once remarked. "Until we develop that magical kind of guy, our box office will be down."

The Oakland A's owner may now have that magic draw in right fielder Reggie Jackson, who had 27 homers going into Tuesday night's game and was ahead of the record paces of Babe Ruth and Roger Maris.

But only in the current home stand has Jackson's rapidly growing star image caught up with the A's fans, who have stayed away in large numbers and have booed Oakland pitchers for purposely walking such sluggers as Al Kaline and Carl Yastrzemski.

A first-place battle with the Twins attracted more than 31,000 after Jackson received a congratulatory letter from President Nixon for hitting two homers at Washington and after he knocked in 10 runs in a doubleheader at Boston.

At Sunday's doubleheader with Minnesota, most of the

young autograph seekers yelled, "Hey, No. 9!" Jackson didn't seem to mind this indication that his name hasn't yet become a household word.

Soft-spoken but articulate, he tries to ward off praise and comparisons, and especially speculation on whether he can top 60 homers in only his second full season in the majors.

"I'm too inexperienced to be compared with anybody but Reggie Jackson," he says. "After his 27th homer—only two fewer than he had all last season—he said, 'I'll be happy with No. 28 as long as we win. If it were September and I had 50, then I'd probably start thinking about 60.'"

He is aware that he has a chance to beat Ruth's mark of 59 homers by June 30, which the Yankee great hit in 1925 and 1930.

Still another record possibly within reach is Rudy York's 15 in one month. Jackson had 12 in June going into Tuesday night's game.

A stocky 6-foot, 195-pounder, the 23-year-old Negro slugger is one of the faster Athletics. He also has a batting average of only .262, and teammates call him "No Singles Jackson" because he has hit twice as many homers as singles.

A left-handed swinger, he also has been hit four times in three weeks on the right hand by inside pitchers. A's coach Joe D'Maggio lauds his power and says his potential is unlimited. "He's just trying to find himself," remarked former A's Manager Bob Kennedy. "When he does, he's really going to be something."

"The kid's got superstar status," declares Mickey Mantle. Jackson was recruited for a \$75,000 bonus in 1966 of a championship Arizona State University team. He has a \$30,000 contract. Maintaining his Arizona ties, he is just four units short of a degree in physical education. He has set up a realty office in Tempe.

Corporate State Income Tax Foe

DALLAS (AP) — O. H. "Ike" Harris, Republican state senator from Dallas, stated Tuesday he will be working against a corporate state income tax he said Texas liberals seek.

Harris said the tax is proposed to fund a two-year state appropriation bill which Gov. Preston Smith wants.

"I am going to be working against it and I would hope that those of us who oppose it can get help from the leadership of the state legislature," Harris told the Dallas County Republican Men's Club.

"The liberals can pass it up from the Senate if they get help from the chair," Harris said. "They've got the votes."

Harris speculated that the state would need \$300 million to \$450 million to fund a two-year bill.

Dummies Unseated In Staged Crash

Workmen, top, put dummies in position inside a school bus yesterday in Los Angeles for a staged auto-bus crash. After researchers crashed the auto into the side of the bus,

the dummies lie scattered inside the vehicle, bottom. Object of the crash: testing the possibility of designing school buses without seat belts.

Blames Insecticide For Poisoning Fish

DUESSELDORF, Germany (AP) — Dutch Scientists say an insecticide is the substance that has killed millions of fish in the Rhine River and threatens to pollute the water supplies in Dutch and German cities.

But West German officials said they could not confirm the Dutch report Tuesday night.

"We're still very much up in the air because we don't know the origin of the poison," an official of the North Rhine-Westphalia Agriculture Ministry said.

Dead fish began appearing last week along a 12-mile section of the Rhine between Bingen and St. Goarshausen in the West German state of Rhineland-Palatinate.

By Tuesday, millions of dead fish had been found along the 185-mile stretch of the river that runs north from Bingen to Am-

sterdam. Amsterdam officials cut off water from the Rhine, which normally supplies half of the city's needs, and began using emergency reservoirs.

West German authorities ordered waterworks along the river "to make continuous checks for possible poison" and to be prepared to shut off Rhine water that goes to 3.5 million Germans.

West German purification plants placed baskets of live trout between the river and their plants to serve as poison detectors. Officials were prepared to switch to auxiliary water supplies if the trout died.

Dutch and German police warned swimmers, fishermen, campers and residents to stay away from the polluted waters and not to touch dead fish. Farmers were warned to keep their cattle from the river.

Wild ducks in the Coblenz area reportedly died after drinking river water, but ducks at Duesseldorf, 60 miles to the north, apparently suffered no ill effects.

Water traffic was disrupted in the Netherlands' vast network of canals and lakes when authorities closed locks fearing contamination.

The Communist East German news agency ADN charged that West German firms had poisoned the river with a plant killer produced for U.S. forces in Vietnam. The West German firms said the charge was "completely baseless in fact."

The Dutch government health service said it had identified the poison as an insecticide of the chloride carbonylate group. It said it had found one microgram of the poison per liter of water, a ratio fatal to most fish but not to humans.

The poison apparently entered the Rhine somewhere between Bingen and St. Goarshausen, a picturesque grape-growing region which includes the legendary Lorelei Rock. Legend says a blonde siren sat on a high bluff and lured fishermen to their deaths on the rocks below.

An official of the Rhineland-Palatinate Agriculture Ministry said the poison probably was dumped late last week from a ship or barge, since there is little industry in the area. He said the substance might have been used to clean a tank aboard the vessel.

Gertrude's Head Bumped, Bumped

GRAND RAPIDS, Mich. (AP) — With the help of Gertrude—a wooden-headed dummy—the Ohio Department of Public Transportation and the American Seating Co. think they have come up with a safe seat for school buses.

Gertrude's head was bumped against the tops of bus seats thousands of times in the process of developing the new seat made of high strength fiber glass, reinforced with plastic and padded.

The seat is designed to absorb energy in the event of a crash, with a special absorption device built into the top.

School authorities decided against safety belts as the answer to bus safety because of the time and trouble it would occasion on the part of drivers to see that all his pupils were belted at all times.

Trinity Elected

SAN ANTONIO (AP) — Trinity University has been elected to membership in the Southern University Conference, an organization of 59 colleges and universities.

Horoscope Forecast

TOMORROW
—CARROLL RICHTER

ARIES (March 21 to April 19)

See that all tax government and other important matters are in order. Improve your basic structure. Be sure you are more affectionate with your loved one.

TAURUS (April 20 to May 20) If you have about what your associates expect of you and then try hard to please them, you can accomplish much together.

GEMINI (May 21 to June 21) Here's a chance to do a real important job. Get busy at your duties with that vim and vigor that makes you so popular. You are a real success.

MOON CHILDREN (June 22 to July 22) Once you work in your own field with good results and participate in the hobbies and recreation you all enjoy, the cause of your interest becomes a reality. Show that you are an expert.

LEO (July 23 to Aug. 23) Be sure you do those improving but necessary things. This is the kind of help that clears the way for future happiness. Don't forget to do those important things.

VIRGO (Aug. 24 to Sept. 23) As soon as your work is done, get out with your good friends and relax. Be especially fine for romance. Anything of a confidential nature is fine today.

SCORPIO (Oct. 24 to Nov. 23) On this day you can accomplish almost anything you set your mind to. Concentrate on your personal aims. You have wonderful chances in the social world. So be on the alert for them. You can make contacts that could extend far into the future.

SAGITTARIUS (Nov. 24 to Dec. 23) This day is important in your career. Get advice from someone you trust. You can get ahead. Don't let anything especially fine for romance. Anything of a confidential nature is fine today.

CAPRICORN (Dec. 24 to Jan. 23) Be with good friends and enjoy social time. Include only those who are congenial. Get into the club member that will help you to improve your image. Why not protect your rightful image? Seek your own good.

AQUARIUS (Jan. 24 to Feb. 19) Now is the time to search out the important people you know who can help you to advance through modern ideas, theories and inventions. A harmonious person, out of town, can offer fine suggestions. Also, look to persons of different culture and background than yours.

PISCES (Feb. 20 to March 20) Find the right new people who can help you to advance through modern ideas, theories and inventions. A harmonious person, out of town, can offer fine suggestions. Also, look to persons of different culture and background than yours.

Two Israeli Jet Fighters Bomb Arab Stronghold

TIBERIAS, Israel (AP) — Two Israeli jet fighters bombed and strafed an Arab guerrilla stronghold inside Jordan today after guerrillas attacked an army patrol in the Beisan valley, the Israelis reported.

The planes launched a 25-minute assault on Adasiya, an uninhabited cluster of huts facing the Israeli settlement of Ashdot Yaqov near the southern shore of the Sea of Galilee.

Witnesses said the planes encountered anti-aircraft fire but returned to base undamaged. The patrol also was unharmed, they said.

Witnesses said several shells from Jordan crashed into a children's nursery at Ma'oz Haim, a few miles south of Ashdot several hours before the air strike.

The children were sleeping in underground shelters and were not injured.

The Israeli army announced its troops killed one of a group of guerrillas trying to infiltrate into Israel east of Geshur. Witnesses said several sacks filled with explosives were left by the guerrillas.

Other informed sources reported saboteurs tried to attack an Israeli army outpost east of the Sea of Galilee where the Syrian, Jordanian and Israeli borders meet. They said the

Wheeler Dealer Without License

TAMPA, Fla. (AP) — Ray Lewis has been given the clearance by Florida's top trooper to speed away in his motorized wheelchair at full tilt—six miles an hour—without licenses.

In Amman, a Jordanian military spokesman said Israeli and Jordanian forces fought a tank and cannon duel in the Adasiya and Baquran areas for 15 minutes today. There were no Jordanian casualties, he added.

Several weeks ago a state trooper pulled Lewis, 24, to the side of the road and suggested he get a license plate and a driver's license to operate his battery driven wheelchair.

there is **comfort** in quietness . . .

In the quiet of solitude, there is a special sort of peace that brings consolation to the bereaved. That is why our chapel is open for meditation at any hour of the day or night.
