

# Bullets Still Whiz Across Suez Canal

By The Associated Press  
 Israel and Egypt traded artillery and small arms fire across the Suez Canal Sunday night and early today Israeli spokesmen said.  
 Egypt said Sunday its planes downed an Israeli jet over the Gulf of Suez and its intelligence agents cracked an Israeli spy network in Cairo.  
 The canal firing was reported at El Quantara in the north and south of the Great Bitter Lake near the southern end of the 108-mile waterway. An Israeli spokesman said one lieutenant was killed and two soldiers wounded in the exchanges.  
 There was also action in the troubled Gaza Strip during the night.  
 The Israelis also said one of their patrols killed an Arab sab-

oteur near the southern end of the Gaza Strip during the night. One Israeli soldier was wounded.  
 According to a Cairo military communique, Sunday's air battle took place after Egyptian planes crossed over Israeli-occupied Sinai on a reconnaissance mission. Israeli Mirage fighters challenged them and one was shot down. Cairo said the pilot was seen bailing out. There was no confirmation of this from Israel.  
 The Cairo communique was Egypt's first official admission that its planes crossed the cease-fire line into Sinai since the June, 1967, Arab-Israeli war.  
 The Egyptian government also reported the breakup of "one of the most important and dangerous" spy networks that has operated in Cairo for Israel.  
 The announcement said the ring was made up of two West German citizens and two Egyptians who were captured June 2 while trying to flee the country with maps showing Egyptian military positions along the Suez Canal.  
 On the Israeli political front, Deputy Premier Yigal Allon told a Zionist council meeting in Jerusalem, Israel is prepared to reconsider its policy of reprisals against the Arab states if the Arabs would honor the cease-fire agreements.  
 He said Israel was prepared to honor the cease-fire arrangements on the basis of reciprocity until they are replaced by a peace treaty.

# United States Reported Pushing To Avoid Debate

UNITED NATIONS, N.Y. (AP) — The United States is trying to get the U.N. General Assembly to forgo its usual debate on Korea during the coming session which starts Sept. 16, diplomatic sources said today.  
 The U.S. delegation reported by has told representatives of Communist countries that it will not insist on discussing the latest report of the U.N. Commission on the Unification and Rehabilitation of Korea, provided the Communists agree not to bring up the demands they usually make when such a dis-

al agenda distributed last week by Secretary-General U Thant. Members of the commission are Australia, Chile, the Netherlands, Pakistan, the Philippines, Thailand and Turkey.  
 Both North and South Korea have been accusing each other recently of increasing incursions and attacks across the demilitarized zone. Informants said an assembly debate probably would result in the United States and the Soviet Union re-

TEXAS WATER PLAN-2

Look At Proposed Reservoirs

EDITOR'S NOTE: Texans will vote Aug. 5 on a proposed constitutional amendment to authorize the state to issue \$3.5 billion in bonds to pay its share of the plan to provide water for Texas to the year 2020. A big part of that money would go for 42 new dams and reservoirs and other new construction projects. Here's a look at them.

- Colorado, \$298.4 million, Stacy, Upper Pecan Bayou, Clyde, San Saba, Mason, Pedernales, Columbus Bend and Matagorda. -Lavaca, \$56.8 million, Palmetto Bend. -Guadalupe, \$240.5 million, Ingram, Clopin Crossing, Lockhart and Cuero I and II. -San Antonio, \$93.6 million, Cibola and Goliad. -Nueces, \$153 million, Choke Canyon, R&M, Montell, Concan and Sabinal. -Coastal, \$24.2 million, Garitas. -Salt water barriers are proposed for the Sabine and

By JACK KEEVER By The Associated Press AUSTIN (AP) —In a space-age, Texans will have to spend time and money closer to home to prevent what the experts say will be a water shortage by the year 2000.

"In just 31 years, Texas will pass from water sufficiency to water deficiency unless we take positive and affirmative action now," says Gov. Preston Smith. Smith recently told 500 influential Texans supporting a \$3.5 billion water bond issue. "Our concern is not limited to this generation alone. It extends to generations yet unborn."

Three former Texas governors —Allan Shivers, Price Daniel and John Connally—are among those appealing for voters to approve the bond issue, amendment No. 2 on the Aug. 5 ballot. It would be the first major step by the citizens to provide the 32 million acre-foot of surface and ground water that water planners say the state will need for just one year by 2020. A larger share of the money —about \$2.4 billion—would be spent on 67 new dams and reservoirs, to be built as the need arises, and two salt barriers to go along with Texas' 157 major reservoirs—those with a conservation storage capacity of at least 5,000 acre-feet.

They would be financed by a combination of federal, state and local funds.

The proposed reservoirs, by river basins, and total cost per basin: —Red, \$90.5 million, Lelia Lake Creek, Sweetwater Creek, Ringgold, Bonham (Bois d'Arc), Big Pine, Pecan Bayou, Liberty Hill and Barkman Creek.

—Sulphur, \$242.3 million, Cooper, Parkhouse I, Parkhouse II, Naples and Texarkana enlargement.

—Cypress, \$91.2 million, Titus County, Marshall, Black Cypress and Caddo enlargement.

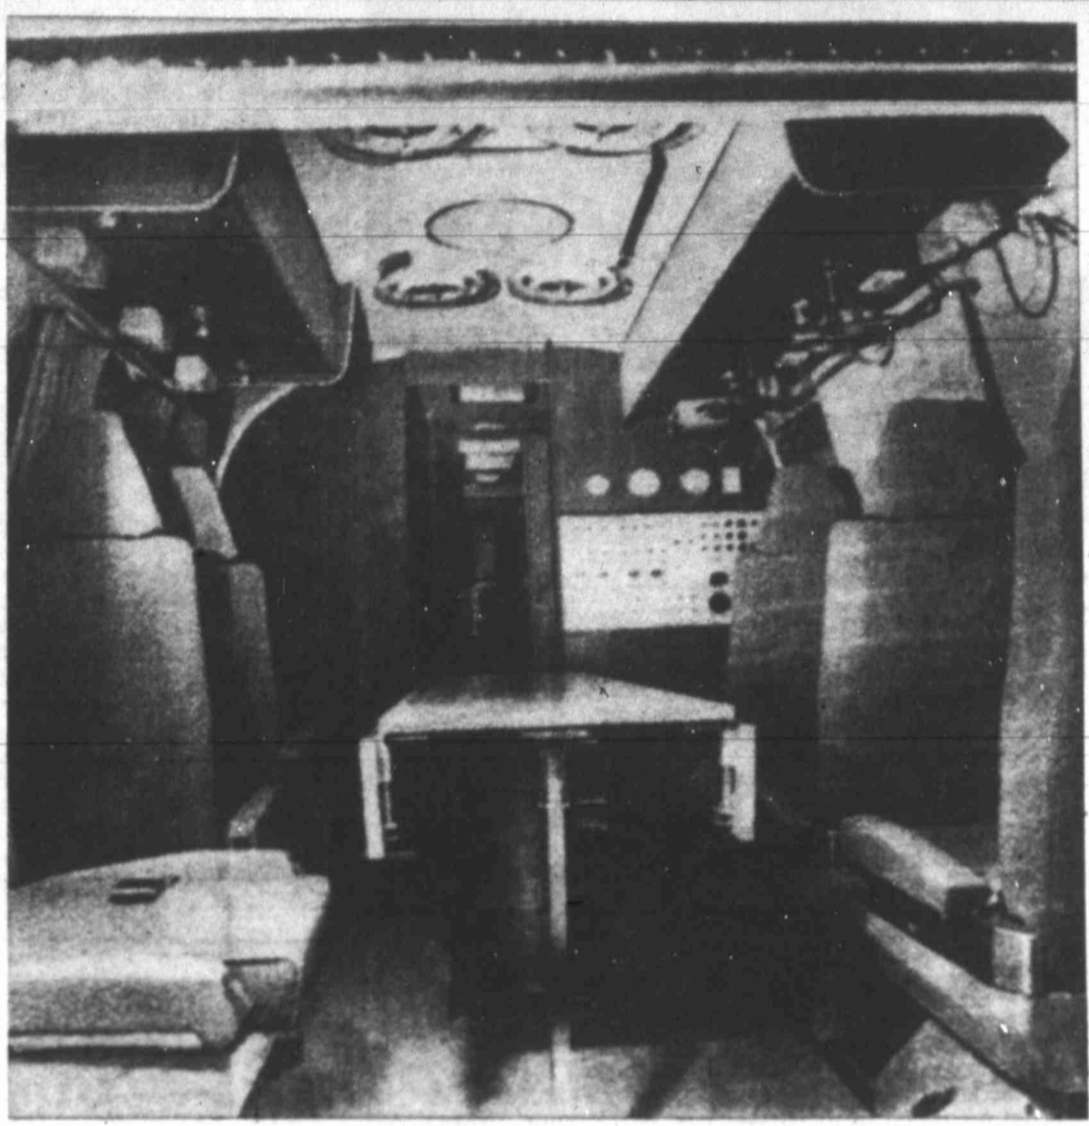

—Sabine, \$242.9 million, Minnieola, Lake Fork, Big Sandy, Kilgore No. 2, Cherokee No. 2, Carthage and Bon Wier.

—Neches, \$210.3 million, Neches, Ponta and Rockland.

—Trinity, \$331.8 million, Bridgeport enlargement, Aubrey, Garza-Little Elm, Lakeview, Tanzeke Colony and Bedias.

—San Jacinto, \$77.8 million, Cleveland, Lower East Fork and Lake Creek.

—Brazos, \$257.8 million, Millers Creek, Breckenridge, Stephenville, Aquilla Creek, Cameron, Navasota No. 2, Millican and South San Gabriel.

Astronauts' Home Away From Home

This is the interior of the quarantine capsule that will house the astronauts of the Apollo 11 moon flight after their splashdown in the Pacific Ocean. The astronauts will remain in this capsule until their arrival in Houston, Tex. Photo taken in Honolulu, Hawaii.

The Water Development Board Act specifies that needs within a basin will have an absolute priority for 50 years before the water may be exported. Demands of intrabasin requirements will be met on a "100 per cent firm basis" before any exportation.

Astronauts Begin Final Days Of Training Before Blastoff

CAPE KENNEDY, Fla. (AP) —Relaxed after a July 4th weekend with their families, the Apollo 11 astronauts today begin their final days of training for next week's blastoff toward a landing on the moon. Neil A. Armstrong, Edwin E. Aldrin Jr., and Michael Collins planned a full day of sharpening skills in trainer spacecraft at Cape Kennedy following an early morning flight from their Houston, Tex., homes.

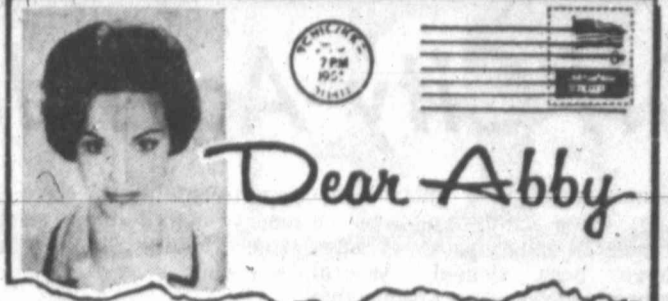

The three moonmen spent the holiday with their families near the Manned Spacecraft Center at Houston discussing the dangers of landing on the moon. "They want to know every detail of what we're going to do and how we're going to do it," Armstrong said in an interview.

Aldrin said his wife, Joan, "perhaps has more concern for my peace of mind than for any danger that might befall me." Collins, who will orbit the moon alone and act as life guard for his two colleagues exploring below, said his three children—Kathleen 10, Ann 7, and Michael 6—"are really too young to appreciate the implications of this flight."

"I got the three of them together and tried to explain the historic import. They sort of listened and nodded and only one question from my boy who wanted to know, 'Who's driving?'"

At the launch pad, crews today planned to check for leaks on spacecraft engines. Sunday, they finished repainting the outside of the Saturn 5's upper stage after the old coating—needed to protect supercool fuel from the sun—was found to be peeling.

Apollo 11 is to blast off at 9:32 a.m. EDT July 16, with Armstrong and Aldrin landing on the moon July 20. The next day, Armstrong is to leave the lunar module landing craft and make man's first step on the lunar

Dear Abby

DEAR ABBY: This is in reference to "LONESOME AND BLUE," who complained about how "rough" the wives of traveling men have it. She said that while the men are living it up on expense accounts, eating every meal out and going to exciting far-off places, the poor wives are stuck at home with the kids.

Our wives are married to men who "travel" a lot, too. We "live it up" on our \$47.88 expense accounts, and eat every meal "out." We also go to some very exciting "far-off" places. Never a dull moment.

But do our wives complain? Not on your life. All they say is, "Do a good job, and come home in one piece, Honey."

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069, and enclose a stamped, self-addressed envelope.

DEAR OFF: And it's always later than we think.

DEAR ABBY: I am 55 years old, and I am tired of hearing my generation called the "do nothing" generation. Actually, we did more for society than any generation since the caveman days.

Fire Destroys Car At Lake

A car owned by J. A. Smith was destroyed by fire at Moss Creek Lake at 6:45 p.m. Saturday, Sheriff A. N. Standard said. He said when his office received the report of the fire, he notified the Sand Springs unit of the county fire fighting system and a truck was sent to the scene.

Hilltop fire crew was called out Saturday evening to the Wolfe Ranch, north of town, to answer a grass fire alarm.

Tires Slashed

Saturday, Linda Harvey, 2005 Morrison, told police vandals had slashed three of her car's tires while it was parked at her home. Value of the damage was not estimated.

CITE SCORCHING SUN Farmers At Dallas' Market Voice Fears

DALLAS (AP)—"If it doesn't rain right soon, we won't have any vegetables to bring in," commented one Texas farmer as he surveyed his wares at the farmer's market here Sunday. J. P. Rowan, like many other producers, is concerned about the scorching sun that has beat down on Texas for the last couple of weeks creating over 100 degree temperatures. "Man, it's just about torn us up," said Rowan.

Nearby, Rowan's helper Roy Berry was at work sorting blistered tomatoes from the good ones the pair had brought in from their Van Zandt County farm. "Mine's about gone," said Thomas Reid. He harvests squash, cucumbers, melons and tomatoes on a farm midway between Edgewood and Canton in Van Zandt County.

"No rain and too hot," Reid summarized. "You can stand the hot weather if the wind doesn't blow," said Jack McMahan of Princeton in Collin County. The hot winds dry out surface moisture and start the "misery," he said. Little relief appears in sight for the weather woes at the produce market. The Weather Bureau said in a long-range forecast there would be less than

an inch of rain after midweek, and temperatures would continue 3 to 4 degrees above normal. "We're irrigating every day," reported Mrs. C. W. Heath of Jacksonville, Cherokee County. "The weather's cut down one third what we would bring in normally. We need to plant again. We might have to irrigate just to plant." Rowan said his tomato production was down as much as three fourths from normal. Others were more optimistic. A spokesman for the Searcy Ferguson farms in Dallas and Kaufman Counties said the weather had not affected their alfalfa crops. "But 'rain wouldn't hurt anything," he noted. Bill Blanton of Dallas, who has extensive area farms producing grain sorghum, said the hot spell has not lasted long enough to cause real problems. The U.S. Weather Bureau at Dallas Love Field reported .44 of an inch of rain for June, compared to a normal June rainfall of 3.24. Temperatures, though hot, are not really unusual, the bureau noted. Highs in Dallas for the past week have ranged from 98 to 102.

# Rocky's Info To Shape South Of Border Policy

NEW YORK (AP) — Gov. Nelson A. Rockefeller completed a 38,731-mile Latin-American survey for the Nixon administration Sunday and is expected to give the President his recommendations on a new policy next month.

Informants said President Nixon may unveil a new policy during a Latin-American economic conference in October.

The Rockefeller report will cover impressions and opinions gathered by the New York governor and 23 experts accompanying him to 20 nations, ranging from Brazil, larger than the continental United States, to the

microstate of Barbados, smaller than the city of Los Angeles.

The mission skipped four Latin countries—Cuba, which has no relations with the United States; and Peru, Chile and Venezuela, which asked Rockefeller to postpone or cancel stops there because of volatile internal conditions.

Many of the countries that hosted Rockefeller suffered riots, demonstrations, bombings, gunfights and acts of terrorism. Eight persons were killed during his tour, but most of the deaths were not directly attributed to anti-Rockefeller demonstrations.

Rockefeller returned from Barbados Sunday.

Besides his policy recommendations, Rockefeller also is expected to urge setting up special government machinery to implement the new Latin-American policy and make it viable. Some aspects may require congressional approval.

During his trip, Rockefeller emphasized a belief that the Alliance for Progress failed to achieve many of its goals because the machinery necessary to push it through was never created and laws and regulations blocking alliance goals were never eliminated.

Two members of Rockefeller's advisory staff said Latin Americans were partly to blame for the alliance's shortcomings. They said many Latin nations reacted too slowly or not at all to creating complementary planning and development boards to see alliance projects through.

But at the same time the Rockefeller mission provided clear indications that the new policy will incorporate some, if not most of the alliance's principles and objectives.

Rockefeller started his tour critical of the Kennedy program for Latin America, but he appreciably altered his statements toward the end.

"The objectives of the alliance have been accepted universally in almost all countries as very interesting and important goals for peoples of American countries," he told one news conference.

"There have been frustrations because we could not fulfill the promises, and therefore what is important is to analyze why it was so and how we can change things so as to advance in fulfillment of these objectives."

Rockefeller's recommendations are expected to cover, among other things:

1. Protectionist U.F. trade policies that Latin Americans claim are curbing their export potential.
2. Elimination of conditions to U.S. aid, such as the requirement that aid funds be spent in the United States. The governor said these conditions amounted to a subsidy for U.S. exports.
3. The drain on Latin-American foreign exchange reserves through unfavorable trade balances and loan repayments.

Brazil alone will pay \$500 million this year in principal and interest on foreign debts. This is almost as much as the U.S. has apportioned in aid funds for Latin America this year.

## White House In Grip Of Arch-Conservatives?

BOSTON (AP) — Dr. John H. Knowles, rejected by President Nixon for the nation's top health post, says the White House under Nixon is "in the grip of the arch-conservatives and progress is at a complete standstill."

He said the influence of conservative pressure groups on the President was "absolutely catastrophic."

"Nothing has changed in this country in the last five months; the crisis, in fact, has deepened," Knowles said Sunday in an interview on the WKBG-TV "Point of View" program.

Knowles, director of Massachusetts General Hospital, had been the first choice of Robert H. Finch, secretary of health, education and welfare, to be as-

# Peking Singles Out U. S. As Top Foe?

WASHINGTON (AP) — Communist China has singled out the United States as its No. 1 enemy and is working to tap needed scientific information here by any means, FBI Director J. Edgar Hoover says.

"The potent threat to our national security posed by Red China still exists," is the way Hoover phrased it. "In fact, the blatant, belligerent and illogical statements made by Red China's spokesmen during the past year leave no doubt that the United States is Communist China's No. 1 enemy."

Hoover's warning was delivered behind closed doors last April to a House Appropriations subcommittee. His testimony was released today.

"This bitterness towards the United States and other Western countries—even the Soviet Union—is a factor in Red China's ambition to equal other major powers economically, militarily and, especially, in scientific endeavors," Hoover said.

This goal, Hoover said, has resulted in Chinese Communist intelligence activities here—overt as well as covert—to get needed material, particularly in the scientific field.

The FBI chief said one clandestine effort was thwarted in 1967 when an effort was made to send electronic equipment to Hong Kong by way of Canada.

Hoover said informants have made "deep penetrations in intelligence operations" in this country by Communist countries, particularly the Soviet Union, Cuba and Red China.

But, without specifying which countries, Hoover said these Communist intelligence services also try to penetrate his own FBI, the CIA, State and Defense Departments. He didn't mention the degree of success.

Turning to Communist China, Hoover said: "Red China has been flooding the country with its propaganda and there are over 300,000 Chinese in the United States, some of whom could be susceptible to recruitment either through ethnic ties or hostile situations because of relatives in Communist China."

—In addition, up to 20,000 Chinese immigrants can come here each year "and this provides a means to send illegal agents into our nation." He said there are active Chinese Communist sympathizers in the Western Hemisphere in a position to aid in operations against this country.

—A growing problem con-

cerns the 40,000 Hong Kong based Chinese seaman, many actually living on the China mainland. "We are aware of situations where they have served as couriers in intelligence operations."

On any given day, Hoover said, three-fourths of these crewmen are on ships around the world and about 27,000 are members of the Chinese Communist-dominated Hong Kong Seamen's Union.

"Although it is not necessary for a seaman to desert ship to perform an intelligence assignment," Hoover said, "it is noted that there were over 700 desertions by Chinese crewmen in the United States in fiscal 1967, and this accounted for more than 80 per cent of the total desertions by Chinese crewmen throughout the world during that year."

## Congressional Experts Counting On Big Whack

WASHINGTON (AP) — Congressional defense experts, laying the foundation for massive development of new weapons, are counting on a substantial cutback in the armed forces to open the way for financing the hardware without an increase in military spending.

This is the clear message of two recent statements by Sen. John Stennis, D-Miss., chairman of the Armed Services Committee, and from background discussions with other key congressional defense experts.

They indicate a million-man cutback in the 3.5 million man military establishment would save some \$10 billion annually of the \$80 billion the Pentagon now spends.

Between this sum and the anticipated decline over the next few years in the \$25 billion annual cost of the Vietnam war, more than enough funds would be available to pay for new missile systems, long-range bombers, submarines and even the controversial Safeguard missile defense program.

It would mean most of the \$10 billion-\$15 billion annual fiscal dividend—the extra government revenue available from the growth of the economy—could be channeled into domestic projects.

Hearings last year by the Senate preparedness subcommittee laid the basis for increased spending over the next decade for military hardware, especially on items deferred in recent years because of war costs.

The current Pentagon budget includes go-ahead funds for the Aircraft, a new bomber long sought by the Air Force; and to convert land-based Minuteman II intercontinental ballistic missiles and sea-based Polaris

# Tribal Warfare Threatens Kenya

NAIROBI (AP) — Small clashes between Luo and Kikuyu tribesmen flared Sunday in the wake of Tom Mboya's assassination and a government minister warned tribal warfare threatens Kenya.

Finance Minister Odera Jowi, who became the leading Luo in government with Mboya's death, said: "This is a tribal situation. We are going to have to fight hard to contain it. We have made appeals to our people for calm and order."

The Kikuyus' largest and most powerful tribe in Kenya, are led by President Joseph Kenyatta. The Luos had been led by Mboya, 38, minister of planning and economic development.

A Kikuyu who came to Mboya's house to view the open coffin was attacked by part of the wailing crowd of Luo mourners. When police tried to intervene, a stone-throwing mob forced them to leave the grounds.

Tribal disturbances in two other cities were quickly broken up. Two persons were reported injured and seven arrested in one clash.

Every available policeman was on duty throughout the country with an officer posted at every street corner in Nairobi, as the police pressed their nationwide hunt for the man who killed Mboya as he left a pharmacy in downtown Nairobi Saturday.

A police spokesman said there was "nothing new to report on our investigation." He was un-

**Max, The Printer, Offers One Stop Service Here**

When looking for a printer, make it a one-stop trip to McMillan Printing and Office Supply, 1712 Gregg.  
Harry L. McMillan, better known as "Max the Printer," owner and manager of the firm, has 25 years experience in printing. He has one of the most completely equipped printing shops in West Texas.  
He does all types of social, business and commercial printing. Brochures, letterheads, invitations, business cards — in short, almost anything — can be printed by McMillan.  
What makes it convenient, he said, is both printing and supplies can be picked up in one place. He has a complete selection of office supplies.  
McMillan can print either offset or letterpress and can handle three or four color work. He has a large selection of wedding invitations on hand.  
Max invites residents to drop in and look over his store. He keeps both front and back neat and clean; his new layout makes it easy to find individual products.  
"We're proud of how our store looks," he said.

**Office Supplies At McMillan Printing**  
Max the Printer offers quality office furniture, including Hon, Paoli and Hoosier lines. His new layout makes stock inspection easy. Hugh Merworth is shop superintendent while Edward Akin works the letterpress. Perry McMillan, son of Harry McMillan, and Edward Bedwell do the offset work. Paula Miller acts as secretary and clerk. Also working as part-time clerk is McMillan's daughter, Jo LaNae.  
McMillan Printing has steadily improved its services since coming to Big Spring. It offers a quality line of office furniture including Hon metal furniture, Hoosier wood furniture and Paoli chairs.  
Harry McMillan is interested in the Big Spring community. This interest extends to other spheres besides printing; for example, he serves as vice president of the Teenage Baseball Association. It helps keep young people off the streets, he said.  
The next time a printing need arises, be sure to check first with McMillan. His quality and service are hard to beat.

**Pizza Hut Passing Out Discount Coupons**

Don't be surprised if Pizza Hut discount coupons start popping up in the most unlikely places, like under the car's windshield wiper. Pick them up; they're for real.  
The Pizza Hut, 2601 Gregg, under Loyd Cordell's management, has launched a campaign to increase its sales 50 per cent by Christmas. Some coupons offer \$1 off the price of a large meat pizza.  
The campaign is worth the effort. As anyone who's eaten at Pizza Hut knows, there's no beating their pizza in taste or quality. A fine selection of expertly cooked pizzas is always available, including Mozarella cheese, green pepper, mushroom, pepperoni, pizza supreme, onion, hamburger and half cheese, half sausage.  
Five specials are also on the menu: jalapeno pepper, black olive, Canadian bacon, shrimp and sliced baby tomato, ranging from \$1.35-\$2.70. Any one provides a tasty treat.  
The sauce at the Pizza Hut, made of a special blend of herbs, is credited for the pizza's popularity. The sauce and the dough for the shell are always

fresh and never frozen. That gives the pizzas a fresh-made flavor and taste every time.  
Bob Brown helps Cordell as assistant manager, and there are three other full time employees.  
Since it takes 20 minutes to prepare the pizza, anyone can call 263-3333 and place an order ahead of time if there's a hurry. Otherwise just drop in and while waiting, enjoy any of the drinks served, including soft drinks, tea or cold beer.  
Featured are Michelob and Budweiser served in cold frosted mugs. Delicious hot coffee is always available as well as milk for the children.  
The Pizza Hut's spacious dining area seats 80 persons.  
Serving hours at the Pizza Hut are from 11 a.m. to 11 p.m. Mondays through Thursdays, from 11 a.m. to 1 a.m. Fridays and Saturdays, and 4 to 10 p.m. Sundays.  
There's plenty of parking space at the Pizza Hut, and a crowd's always around at eating time. People come to enjoy the hottest and juiciest pizzas in Big Spring.

When planning parties, call Pizza Hut too. Just phone in an order and then leave the food to them; they'll deliver pizzas while still hot and tasty. On orders over \$15 there's a 10 per cent discount in price.  
Whether eating a pizza at home or at the Pizza Hut under a delightful atmosphere, one knows he is getting the best. Cordell and his staff are ready to provide the finest service in Big Spring. When tired of kitchen drudgeries this summer take a cool break in the Pizza Hut and give yourself a pizza service are hard to beat.

**ELECTRICAL NEEDS Haston Provides Fast Services**

When wiring in new appliances needs to be installed, fast dependable service is wanted. That's when Gene Haston should be called.  
Backed by years of experience and familiar with all types of electrical work, Haston can provide quality service when quality is needed. There's few jobs which Haston Electric can't do.  
Haston's shop is located at 109 Goliad. In addition to his service as an installation and maintenance electrician he carries a complete stock of equipment and replacement material.  
If it's something in the field of electricity, there's a good probability it can be found at Haston's. A phone call to 267-5103 will easily determine if the part or item needed is on hand. It generally is.  
Haston prides himself on the quality of his work. A job done by Haston is a job well-done, and this is why the Haston enterprise has flourished for the many years it has been serving the Big Spring area.  
Haston does not limit himself to one field. He is ready for any type of job — residential, commercial or industrial.  
A skilled electrician himself, Haston employs a staff of assistants who are as able in their craft as himself. A long line of satisfied patrons is the pride of Haston's.  
If something's needed in the electrical line or if an installation problem develops, call Haston Electric or drop by the shop at 109 Goliad.

# Couple United In Marriage

COLORADO CITY (SC) — Miss Donna Kay Carter, daughter of Mr. and Mrs. Bill F. Carter of Colorado City, became the bride of Donnie Joe Higginbotham, Thursday at 7 p.m. in the First Baptist Church.

The bridegroom is the son of Mr. and Mrs. Oscar Higginbotham of Colorado City.

The double ring wedding was performed by the Rev. Glenn Roenfeldt, pastor.

The bride wore a traditional wedding gown of imported silk organza and Alencon lace, and

the headpiece was a full-length Chantilly lace-edged manilla, attached to a caplet applied with lace and pearls. She carried a cascade bouquet with pink orchid and stephanotis.

Mrs. Dwain Crow of Lubbock, the bride's sister, served as matron of honor, and bridesmaids were Miss Connie Carter of Colorado City, Mrs. Gary Parker of San Angelo and Mrs. David True of Lubbock.

The bride's brother, Craig Carter, was candlelighter.

Curtis Higginbotham of Lubbock, the bridegroom's brother, was best man, and groomsmen were Larry Paul of Colorado City, Gary Parker of San Angelo and Dwain Crow of Lubbock.

Mark Waldrip of Colorado City and Jim Clendennon of Silver were ushers.

The bride has completed her sophomore year at Texas Tech and the groom his sophomore year at the University of Texas at El Paso. They will both continue their studies at El Paso, and following a wedding trip to Big Bend National Park, will be at home at 1007 Montana, Apt. 7, El Paso.

# Bride Is Honored At Shower

Mrs. Guy Burrows, the former Miss Debbie Hardison, was honored with a bridal shower Thursday afternoon in the home of Miss Shelley Greer, 3710 Calvin.

Miss Hardison, daughter of Mr. and Mrs. E. G. Hardison, 3606 Dixon, and Burrows, grandson of Mrs. W. K. Mills, 1911 Rannels, were united in marriage June 27 in the home of the bride's parents. The bride's mother was among the 12 attending.

The refreshment table was covered with an ecru lace cutwork cloth and centered with an epergne arranged with colorful fruit. Crystal appointments were used. An arrangement of summer flowers was placed on the register table.

The bride, attired in a pink dress with matching accessories, was presented a corsage of white daisies, and the hostess' gift was a steam iron.

# Glasscock Slates 4-H Dress Revue

"Yards and Yards of Fashion" will be the theme for the Glasscock County 4-H Dress Revue slated Thursday in the St. Lawrence Hall. Judging will begin at 4 p.m., and the public is invited to attend the final revue at 6 p.m.

# OES Club Meets For Breakfast

The Past Matrons Club of Coahoma Eastern Star Chapter No. 499 held a breakfast meeting Saturday at Coker's Restaurant with Mrs. A. D. Martin and Mrs. Charlie Engle Sr. as hostesses.

An Independence Day program was given by Mrs. Norman Read who read a poem, "Old Glory" by James Whitcomb Riley and presented thoughts on patriotism by Calvin Cooledge.

Mrs. D. S. Phillips, card chairman, reported sending cards to two members who are ill. The August meeting was cancelled.

# Visits Parents

M.M. 3 Robert A. Beaty of the Navy is visiting his parents, Mr. and Mrs. James Harmon, 183-A Fairchild. He has been aboard the submarine, the SS Von Steuben, and will return to duty July 7 at New London, Conn.

# They Dude It Up

This is what well dressed men will be wearing if style setters John Weltz, Bill Blass and Oleg Cassini have their way. Their latest creations for men are shown being modeled in New York City at a series of showings sponsored by the American Designer Group.

From left: Fringed jacket and trousers with detachable chaps, by Cassini; plaid suit with wide leather belt, by Blass; and tided striped pants with navy velvet shirt stitched like denim, by Weltz.

# Hints From Heloise

Dear Heloise: I sew quite a bit and here's my method of taking up hems.

I have one of those nice free yardsticks that the lumber yards give out, so I marked my skirt length (from waist to hem) and put a dot of nail polish at that point on the stick.

When I want to shorten a skirt or dress, I just place it on my ironing board wrongside out, and using this yardstick, turn up the hem, pressing it as I go along. Then go around again and pin it.

Only takes a few minutes to turn up a hem this way.

MRS. J.L.H.

ches high. Then set it on the grass or wherever I am serving my picnic lunch.

It makes a nice flat surface, and bowls, jars, etc. won't tip over like they do on a tablecloth laid over the grass.

MRS. B. NANCY

# LETTER OF LAUGHTER

Dear Heloise: My contribution to easier housework is . . . a BIKINI!

I found a darling and reasonably priced one in a catalogue and ordered it, thereby avoiding the stares of a salesgirl. It has a lovely cover-all blouse top that I put on to answer the door and which I wear all the time at the beach, so it wasn't an extravagance.

Sure, after two babies I look like the devil in it. But doesn't every woman wish she could wear one — especially in hot weather?

So who sees you scrubbing a floor, running the vacuum or ironing? It's cooler and offers more freedom of movement.

Another thing. It's a wonderful incentive for pulling in those tummy muscles many times during the day!

A FAN

Dear Heloise: When we have leftover roast and get tired of eating it, I just cut the lean up in small pieces, add a can of red beans, chili powder, salt to taste and a little water. Simmer a short time and place in freezer until needed.

Delicious! SARAH NICHOLL

Dear Heloise: In making papier mache items I use liquid cooked starch

# Phillipses Hold Family Reunion On Anniversary

The 49th wedding anniversary of Mr. and Mrs. Dewey Phillips Sr., 624 Ridglea, was celebrated Friday with a family reunion in their home.

Their five children who attended, along with their husbands and wives, were Mr. and Mrs. Dewey Phillips Jr., Garland; Mr. and Mrs. James Phillips and Mrs. Gene Breeden, all of Dallas; Mrs. Clyde Gregory, Dumas; and Mr. and Mrs. Jerry Phillips, Big Spring.

There were 11 grandchildren in attendance, as well as seven of the 12 great-grandchildren. Other guests were Mrs. Phillips' sister, Mrs. Bertha Moore, Jerry Bernockey, Odessa; and Jerry Montgomery, Dallas.

A barbecue dinner and homemade ice cream was served, and the anniversary cake was baked by Mrs. J. C. Pevelo of Orange.

Mrs. Phillips is the former Miss Essie Moore, daughter of the late Mr. and Mrs. Webb Moore of Bragg City, Mo., and her husband is the son of the late Mr. and Mrs. Sam Phillips of Merkel. The couple was married July 4, 1920, in Bragg City.

Phillips has been with the Texas and Pacific Railway for 41 years, and the couple has resided in Big Spring since 1958. Prior to that, they lived in surrounding counties.

# Installed At Fraternity Conference

Mrs. Jack D. Powell, alumnae district president for District XII, Kappa Alpha Theta, Okla., where she attended a five-day officers' conference and leadership school of the fraternity.

At the opening session, Mrs. Powell, along with 35 other college and alumnae district presidents, took the oath of office.

National officers of the fraternity, delegates from 94 college chapters, alumnae serving as chapter advisers and visitors from the Norman and Oklahoma City area brought the number in attendance to approximately 250. The leadership school was held at the University of Oklahoma.

Kappa Alpha Theta is a national social fraternity, and its major service project is the Institute of Logopedics, Wichita, Kan. Since adoption of this national philanthropy in 1945, Theta's gifts to the institute have exceeded half a million dollars.

Following the conference, Mrs. Powell and her mother, Mrs. S. J. Doyle, visited relatives in Oklahoma and Houston before returning to Big Spring.

# Birthday Party Saturday Honors Miss Gonzales

Miss Amelia Gonzales was honored with a birthday party Saturday in the home of Mrs. Homer Petty, 707 N. Gregg.

A birthday cloth covered the table which was centered with a cake decorated in pink and green. The cake was made by the honoree's sister, Mrs. Jesse Rios, and those serving were her nieces, Miss Mary Helen Barrera and Miss Irene Barrera. Fortune favors were presented to the guests.

Among the 29 guests attending were the honoree's sisters, Mrs. Martin Paradez of Denver, Colo., and Mrs. Jaime Gomez of Mineral Wells.

# Wins Art Trophy

Mrs. Billie Simpson of Big Spring was awarded a first place trophy in the Adult Portrait Division at an art show held Friday in the Towle Park Show Barn at Snyder. There were over 300 entries in the annual July 4 show.

# A LOVELIER YOU Fake Sun Lightener Works Magic Trick

By MARY SUE MILLER

A Lovely writes: The color of my mousy locks improves in summer from sun lightening. But it takes a lot of hot sunning to obtain results. Meanwhile, my hair gets brittle as straw. There must be a better way.

The Answer: Many a Lovely labors an entire summer for sun-lightened or sun-streaked hair. For their likes, the happy news is the development of a process that produces desired effects within a few days.

It's done with applications of spray-on liquid that uses nature's own sun to speed up the finish. At the same time, conditioning ingredients help protect the hair and add highlights.

Application methods are a cinch: You generously spray your hair, whether damp or dry. And then comb through. Now sit in the sun for a few minutes until the spray dries. Shampoo as usual.

Use the spray once for minimum lightening. For increased definition it may be applied several times in one day and on a few following days until the desired shade is realized.

If it is streaks you're after, you simply spray isolated areas. You might make a slit in a piece of heavy paper and pull through the strands to be

treated. Then you are sure to hit the target.

In any case, a sun-in for your hair is a sure thing.
