RAIN DUE Cold Front Sweeps In

By The Associated Press

The coldest weather of fall moved over Northwest Texas Saturday.

By noon the leading edge of the chilled air had reached a line from near Muskogee, Okla., to Abilene to Wink and to Alamogordo, N.M. Temperatures dropped sharply behind the front, which was due to reach the Gulf soon after noon Sunday.

The Panhandle had noon temperatures in the mid 40s and the South Plains and Red River Valley had middle and upper 60s. South of the front the mercury was in the upper 70s and low 80s.

Heavy snow warnings were up for the east slope in Colorado. Travelers warnings were continued in the mountain sections of northern New Mexico. A mixture of snow and sleet was forecast for those areas before dawn Sunday. Snow fell during Saturday in Colorado and north and northeast winds pushed the storm southward.

Boulder and Longmont in Colorado had six inches of snow early Saturday. Georgetown five and Estes Park 12. Eight inches of snow made Bethoud Pass slippery. The fall on the Pass reached 50 inches for October.

The Weather Bureau said the upper half of Texas would be much cooler Saturday night and Sunday and that scattered rain would fall in most sections. The southern half of the state also was due for cooler weather.

Some scattered showers and rain were forecast for all parts of Texas by the end of Sunday.

Few Mourn Intercept's End

LAREDO, Tex. (AP) — Intercept lay buried by official command Saturday and few mourners could be found on either side of the Mexican-U.S. border. The survivors began straightening out the tangle.

A Friday communique from Washington ended three weeks of angry shoppers, workers, tourists, businessmen and diplomats.

But whether the relaxed rules will affect drug addicts and peddlers — the target of Operation Intercept—remains to be seen.

The Washington announcement said U.S. customs agents will "adjust" their inspection procedures at the border and Mexico will intensify its programs against drug production and traffic.

Official orders did not reach customs agents on duty immediately and they continued their detailed, time-consuming searches into Saturday.

It was businessmen who suffered the most as persons on both sides of the border refused to face the hot, wearying delay in entering the United States.

The publicly announced purpose of Operation Intercept was to tighten up inspections of automobiles and pedestrians crossing to the U.S. side in an effort to stop drugs, including marijuana, from entering the United States.

Reviewing the . . .

Big Spring Week

. . . with Joe Pickle

Two crashes half way across the country and halfway across the world shook us here last week. Lou Ann Phillips, daughter of Mr. and Mrs. Ted Phillips, died in the crash of a plane in the jungles near Florencia, Colombia, and Capt. Carl W. Oliver, husband of the former Sue Arrick, died in the explosion of a helicopter in Florida. He was in the service of his nation; Lou Ann, who had just arrived in her new mission station, in the service of God.

The United Fund is nearing the \$50,000 mark, which is not quite half way to the campaign goal. This biggest single community job needs to be cleaned up successfully this month, and thus, all workers are urged to buckle down and complete their contacts. More than that, all people are urged to give — and give a fair share. Last week Southwestern Bell Telephone came in 100 per cent with a fair share (and averaged \$34 per employee). That's far better than most businesses, us (we are ashamed to say) included.

Sgt. Alvin Malone, flight engineer assigned to Detachment 18 Western Aerospace Rescue and Recovery at Webb AFB, has had a tremendously great honor paid him. He is one of three men in the Air Force nominated for consideration as one of 10 outstanding young men in America in the annual Jaycee selection, Flying out of Da (See THE WEEK, Page 5-A, Col. 1)

Cloudy and cooler today and tonight, with chance of light rain or drizzle. Monday cloudy and mild. High today mid 60's, low tonight upper 40's, high Monday near 70.

Nixon Pleas For Action On Legislation

WASHINGTON (AP) — President Nixon, in a mildly phrased plea for action on his legislative program, urged Saturday a close "working partnership" between his Republican administration and the Democratic-controlled Congress.

In a special message that will not formally reach Capitol Hill until Monday noon, Nixon declared:

"The country is not interested in what we say, but in what we do—let us roll up our sleeves and go to work . . ."

"Neither the Democratic Congress nor the Republican administration is without fault for the delay of vital legislation," Nixon said.

In recent days, the President said, "a call to partisan combat has grown more compelling." But he argued that politics should be forgotten where great issues are concerned and that a partnership between the executive and legislative branches "is imperative for the good of the country."

Nixon conceded that some Republicans have been lambasting the 1969 Congress for alleged foot-dragging and that Democrats have countered that his administration has been laggard in presenting its proposals.

"But, in my view," he said, "the American people are not interested in political posturing between the executive branch and Capitol Hill."

Demonstrations Spur Viet War Consultations

WASHINGTON (AP) — President Nixon conferred on Vietnam with his military chiefs Saturday, then turned toward the diplomatic front to see what progress might be made in the stalled peace talks.

The chief U.S. negotiator, Henry Cabot Lodge, will meet with Nixon Monday afternoon, along with Lodge's deputy, Philip C. Habib, the White House said.

Lodge and Habib flew home Friday for consultations and instructions as the administration went into a flurry of activity on Vietnam in advance of Wednesday's nationwide antiwar demonstrations. They were slated to return to Paris in time for the next negotiating session Thursday.

During Saturday's White House parley lasting nearly three hours, Nixon heard Gen. Earle G. Wheeler report increased momentum in the effort to turn over more of the combat load to the South Vietnamese.

The chairman of the Joint Chiefs of Staff had just returned from a battlefield inspection. Sitting in at the meeting were Secretary of Defense Melvin R. Laird and the armed services chiefs.

The discussion went on so long that baseball fan Nixon skipped a chance to see the

World Series opener in Baltimore. His family watched the Orioles' 4-1 victory over the New York Mets, then returned to the White House and flew with Nixon to Camp David, Md., for an overnight stay. The helicopter touched down at the presidential retreat at 4:20 p.m. EDT.

It was understood that the U.S. ambassador to Saigon, Ellsworth Bunker, who met with Nixon before heading back Friday to the South Vietnamese capital, also reported progress in the Vietnamization program. Bunker was said to have counseled patience and firmness in carrying the program forward.

The immediate problem facing Nixon is how to maintain public support for his Vietnam policy. He is committed to U.S. disengagement from combat, either through a peace settlement or through South Vietnamese ability to take over the fighting role. But he wants more time for this than do his critics.

Administration sources say the President feels he is on the right course and is not going to change policy because of get-out-of-Vietnam demonstrations. They acknowledge, however, that the administration would like to blunt the impact of the Oct. 15 protests and criticism from congressmen.

AFTER BLASTOFF — Russian cosmonaut Gregory Shonin is at work in Soyuz 6 shortly after the spacecraft blasted off from the Soviet Union Saturday. Shonin and fellow cosmonaut Valery Kubasov were sent into space to weld in a weightless condition, apparently a step toward building an operational space platform. This picture was monitored from a Russian television broadcast.

Soviets Planning Welding In Space

MOSCOW (AP) — The Soviet Union launched the Soyuz 6 spaceship with two cosmonauts aboard into earth orbit Saturday in what semi-official sources said was the start of a space spectacular that will involve two other imminent launchings.

These sources said that the three ships will be used to construct the first space platform for carrying out extended experiments in earth orbit and possibly for launchings into outer space.

Soyuz 6 has welding equipment on board.

The Soviet Union apparently

has indefinitely postponed manned flights to the moon in the wake of the U.S. Apollo 11 success, and has decided to try for new space prestige with the earth orbiting Soyuz meaning Union, series.

The second and third launchings, the semi-official sources said, would take place over the weekend, with each additional ship also manned by two cosmonauts.

The official Soviet news agency Tass announced that the Soyuz 6 flight started at 2:10 p.m. — 7:10 EDT—with Lt. Col. Georgy Shonin as commander and civilian engineer Valery Kubasov as the one-man crew. Both are 34-year-old space rookies.

Both were backup men for the Soyuz 4.5 mission in January.

Tass reported that the spaceship was orbiting normally and both cosmonauts felt well.

It said one of their missions would be to experiment with welding in conditions of weightlessness, a possible indication that other spaceships would be joined permanently.

The Soviet Union has not made a major breakthrough in manned space flight since Alexei Leonov took the first space walk in March of 1965. Since

the United States has taken a lead, culminating in the landing of the first man on the moon in July.

The Kremlin leadership has given ample indications of concern over the Soviet lag in both technology and prestige, and would obviously welcome a feat that might make it look as if this country had caught up.

The Soviet manned space program was struck by disaster in April 1967 when the first Soyuz crashed after an erratic flight, killing Col. Vladimir Komarov.

No further Soyuz flight was attempted until last October when Gen. Georgy Beregovoi put another spaceship in the series through its paces. This was apparently a check to insure that the fatal flaws of the first Soyuz had been overcome.

Then two Soyuz craft were launched on the same day last January—one with only a commander, the other with three men on board. There was a link-up and crew transfer by space walks. Both ships returned safely.

The Soyuz 6 is apparently an attempt to go beyond the January flight, perhaps leaving one or more spaceships in orbit to be visited later.

MOON WALKERS CONFER — Astronaut Charles (Pete) Conrad uses his hand during a chat with Astronaut Alan L. Bean during the Apollo 12 crew news conference. Conrad and Bean did their conferring with Astronaut Richard F. Gordon (center) who will be flying around the moon in the command ship as Conrad and Bean do their exploring of the moon surface.

Astronauts To Pick Up Parts Of Surveyor

SPACE CENTER, HOUSTON, Tex. (AP) — When they land on the moon next month, Apollo 12 astronauts Charles Conrad and Alan L. Bean plan to walk 150 feet down a sloping crater wall to retrieve parts of an unmanned Surveyor spacecraft that has been there more than two years.

Negotiating the crater wall could be difficult, commander Conrad said Saturday. So he and Bean plan to approach it carefully.

"There are some who think the slope might be too steep or too slippery," Conrad said. "So we'll try it first with Al attached to a 30-foot tether. He'll try walking into the crater and if he has trouble I'll pull him back up and we'll forget about the Surveyor."

Conrad, Bean and the third, Apollo 12 crew member, Richard F. Gordon Jr., held their final preflight news conference Saturday. They are to blast off from Cape Kennedy Nov. 14 on man's second lunar landing mission. They plan to land in the Ocean of Storms, about 800 miles from the Apollo 11 landing site in the Sea of Tranquility.

Gordon will orbit 65 miles overhead while Conrad and Bean explore.

Conrad said a major goal will be to practice techniques that have been developed for a pin-

point landing. Apollo 11 missed its landing site by four miles for a variety of reasons, mainly action by the lunar module thrusters that altered the orbital path slightly.

"We feel with changes we have made in procedures and in computer inputs that we have a reasonable chance of landing right on target," the commander reported.

The touchdown point is about 1,000 feet short and 500 feet to the right of the crater where the Surveyor landed in April 1967.

Conrad described the landing point as a relatively smooth circle 300 meters in diameter.

"There's also a 100 meter circle area right next to the crater," he said. "If everything is under control, I'd like to park there. It would give us the best chance to complete all the science activity, including the Surveyor, without too much walking."

"We plan to be on the moon 32 hours and will make two outside excursions, each lasting about 3½ hours," Bean reported.

"The first EVA (extravehicular activity) will be concerned with setting up five scientific experiments—a seismometer to measure moonquakes and other disturbances, and devices to study the solar wind, the moon's atmosphere and its magnetic field," he said. "The second EVA will be primarily to gather carefully and document rock samples."

Conrad and Bean hope to roam up to half a mile from their landing craft.

No Return To Old Routine

WASHINGTON (AP) — The government expects shutdown of Operation Intercept will speed the eventual success of blocking the flow of illegal drugs across the Mexican border.

A spokesman for the border campaign, renamed Operation Cooperation, called in newsmen Saturday to stress the point that there will be no return to the casual check of border crossers that was routine before the nonsense, skin-tight inspection of pedestrians and vehicles started three weeks ago.

The official, who asked not to be identified, said the concept of Operation Cooperation "means there will be additional enforcement on both sides of the border" although the strict procedures of recent weeks will be relaxed to speed up border crossings.

"We feel with changes we have made in procedures and in computer inputs that we have a reasonable chance of landing right on target," the commander reported.

The touchdown point is about 1,000 feet short and 500 feet to the right of the crater where the Surveyor landed in April 1967.

Conrad described the landing point as a relatively smooth circle 300 meters in diameter.

"There's also a 100 meter circle area right next to the crater," he said. "If everything is under control, I'd like to park there. It would give us the best chance to complete all the science activity, including the Surveyor, without too much walking."

"We plan to be on the moon 32 hours and will make two outside excursions, each lasting about 3½ hours," Bean reported.

"The first EVA (extravehicular activity) will be concerned with setting up five scientific experiments—a seismometer to measure moonquakes and other disturbances, and devices to study the solar wind, the moon's atmosphere and its magnetic field," he said. "The second EVA will be primarily to gather carefully and document rock samples."

Conrad and Bean hope to roam up to half a mile from their landing craft.

Official Hurt By Militants

CHICAGO (AP) — A city official was paralyzed Saturday night after being kicked in the head by a member of a Students for a Democratic Society demonstration.

Richard Elrod was crippled after he tackled a youth who broke away from a main group of demonstrators during a rampage of window breaking in the Loop.

A reporter near Elrod said that after he tackled the youth, the demonstrator squirmed free and kicked Elrod in the right temple.

A spokesman at the University of Illinois hospital said Elrod had a small broken bone in his neck; however, the spokesman added, it is not yet known if paralysis will be permanent.

The spokesman said Elrod had a tracheotomy.

Police arrested 103 persons at the start and finish of the march by members of the ultra-militant SDS faction called the Weathermen.

The demonstrators had been chanting, "Ho, Ho, Ho Chi Minh" and "Bring the war home" as they marched.

Later 150 National Guardsmen were mobilized to patrol Michigan Avenue. The guardsmen were called in by police as youths roamed through the Loop and counter marchers appeared in the form of Nazi demonstrators.

Cong Cadre Gives Up To U.S. Troops

SAIGON (AP) — Thirty-three Viet Cong cadre and their 45 children walked into a U.S. fire base northeast of Saigon Saturday and surrendered to American troops, U.S. military spokesmen reported.

"All the adults were regular Viet Cong cadre," an American officer said. "They said they wanted to give themselves up because they had very little food and were constantly harassed by helicopters and artillery."

The officer said the defectors told of 94 more people in their village just south of the Cambodian border "who wanted to come out."

The 78 Vietnamese surrendered to U.S. 1st Air Cavalry Division troops manning a fire base outside the provincial capital of Song Be, 25 miles northeast of Saigon.

It was the first report of Viet Cong cadre surrendering in the Song Be area, although more than 300 Vietnamese civilians have walked into American bases and Special Forces camps in the area in recent weeks.

1st Air Cavalry Division officers contend that main force

ONE GIFT WORKS MANY WONDERS

UF At \$51,000

The United Fund climbed steadily Friday to reach a total of \$51,007.43. The VA Hospital, Webb AFB, Roger Brown's big gifts division, Ken Perry's employee division, and Erven Fishers' public employee's division all turned in contributions. Clyde McMahon Jr. is president of the United Fund, and Harry Sawyer is campaign chairman.

MOBILE UNITS CARRY HELP WHERE NEEDED
Part of Salvation Army's emergency help

Salvation Army Gave Help To Thousands

In the wake of Hurricane Camille, the Salvation Army extended emergency aid to thousands, the report of the Army's relief mission shows, according to Col. Paul Thron-

burg, Texas state commander. The report shows that 75 officers and 1,200 volunteers spent 144,431 man hours in distributing food, clothing and other necessities, and in searching for missing persons whose relatives across the country were making inquiries.

Salvation Army installations at Biloxi, Gulfport, Hattiesburg and New Orleans were distribution points for 1,530 tons of clothing for hurricane victims.

Prospects Bright For Scurry JC

SNYDER — Prospects of a Scurry County Junior College are brighter now than ever. A hearing by two members of the Texas Coordinating Board for Colleges drew a large crowd Wednesday, and Harry Province, Waco, and Walter Basanno, Paris, board members, told local people they saw no reason why the board would not approve the application for an election to create a district. The way for the move was opened last year when a rider attached to another bill modified the minimum enrollment requirements which previously had blocked efforts to secure a district.

The report lists 92,551 families served. The aggregate total includes repeat requests from families hardest hit by the hurricane, many of whom were homeless and dependent upon the Salvation Army for food. The Army distributed 3,288 tons of canned goods, meats, bread and other staple food requiring little or no cooking or preparation. Supplies were given according to the family's capacity to store them over a two to five day period.

FBI Seeking New Personnel

The FBI offers job opportunities with the Bureau in Washington, D.C. for young people at least 16 years old. They must be U.S. citizens, high school graduates and able to pass rigid investigation of loyalty, reputation and character. Applicants are sought for positions as clerks, fingerprint clerks, typists and stenographers. Those who have college degrees and work with the FBI in a clerical position for one year, are considered for special agent positions with a starting salary of \$10,252. FBI applications may be obtained by writing to the Special Agent in Charge, Mr. J. Gordon Shanklin, FBI, 200 Mercantile Continental Building, Dallas, 75201; or telephoning 741-1851.

Forsan Asks Bids For Teacherages

Advertisements for bids on the Forsan County Line Independent School District teacherages project have been posted. The opening is set for 4 p.m. Oct. 21 in the high school auditorium at Forsan. John W. Gary of Gary & Hohertz, architects, said that several general contractors have checked out plans. Eight of the homes will be at Forsan, two at Elbow. All will have about 1,450 square feet and one carport except the superintendent's home at Forsan which will have 1,800 square feet and two carports. All will be brick veneer, carpeted, and have two ceramic tile baths.

DISCOUNT SAVINGS—Foodway Store, a discount operation of Buddy's Supermarket, Inc., of Fort Worth, will be opening for business Tuesday. The store will carry only USDA choice meats and all nationally known brands in the grocery section, and will provide a drive-in pick-up service for customers. George Hamilton is store supervisor.

Foodway Store To Open Tuesday

Foodway Store, in the Coronado Hills plaza, will have its grand opening Tuesday, according to the store supervisor, George Hamilton.

"We aim to provide good customer service at competitive prices," he said; "convenience and savings are the important things."

The store has more than 1,900 square feet of floor space and 1,300 feet of shelf space, which can hold approximately 9,300 items. The market section will carry only USDA choice meats; the grocery department will stock all nationally-known brand merchandise, including Kimbell's.

The store will have wide aisles and all the merchandise will be marked, Hamilton said. All the checkers have been given a five-day special training course to help make check-out service fast and accurate. The store will employ approximately 50 people, all local.

"We will also provide a drive-

Vets Planning 52nd Reunion

The 90th Division Veterans of World War I will hold their 52nd annual reunion Nov. 2-6 at Lake Texoma State Lodge, Kingston, Okla. The 90th Division was known as the "TO" because a majority of the men were from Texas and Oklahoma. Others came from the north central states — Camp Dodge, Iowa.

The "TO" was organized at Camp Travis, San Antonio, in August, 1917. Maj. Gen. Henry T. Allen was the first commander. The "TO" was demobilized at Camp Pike, Little Rock, Ark., and Camp Bowie, Fort Worth, in 1919 by Maj. Gen. Charles H. Martin.

As a member of the American Expeditionary Forces in France, the "TO" was active in the Battle of St. Mihiel, the Lorraine Offensive and the Meuse-Argonne Drive. Gen. John J. Pershing awarded the "TO" a special citation for its contributions.

More than 50,000 men served in the 90th Division. An estimated 12,000 are still living, over half of them still in Texas.

The reunion program emphasizes that lots of time will be spent "visiting and renewing friendships of old comrades" in the pleasant, relaxing atmosphere at the lodge. The wives and widows of the "TO" are invited.

Featured will be a welcoming address by Gen. Hal Muldrow, Norman, Okla. and a speech by Col. Gus Dittmar, San Antonio. C. D. Steel, executive secretary of the 90th Division Association will give a short report.

Students from Southeastern State College, Durant, Okla., will provide music for all special programs. Also planned is a banquet and an Outstanding Memorial Service. The service is scheduled Sunday with a sermon by the Rev. David A. Thomas, Aldergate Methodist Church, Tulsa, Okla. Mrs. Wayne Frederick, Dallas, will read the scripture.

Reservations should be made with Boyce Harkey, Lake Texoma State Lodge, Kingston, Okla. Further information may be obtained by writing to R. S. Dillard, Star Route 1, Clifton, 78634.

Blight Of Desert Sand Spreading Over Africa

KRUGER NATIONAL PARK, South Africa (AP)—A blight of desert sand is slowly spreading over Africa from southwest to northeast, a leading Swedish conservationist says. Deserts and semideserts already cover 43 per cent of the continent's surface, mostly in the north. Now, thanks to man, the waste land is moving up from the south.

Many bird species are among wildlife threatened by the change man has wrought in his surroundings. Dr. Kai Curry-Lindahl told the Pan-African Ornithological Congress, meeting in South Africa's largest game reserve.

Man and birds have lived together in Africa for two million years, longer than in any other region of the world, he said, but

in the past century whites in Africa have been blind to the "ruthless destruction" of nature

by cattle.

"It was not realized that tropical Africa is a climax region where animals and plants live in a balanced inter-relationship after millions of years of uninterrupted evolution," he said.

"If one or several elements of this highly specialized and productive community is disturbed the whole system collapses."

In southern Africa, he said, only a few fragments of the former richness and productivity of the natural countryside remain. "Plows and tractors have transformed the savanna into farm land where few birds and plants can live. More than one-third of southern Africa has already been conquered by deserts and arid shrub steppes."

Big Spring (Texas) Herald, Sunday, Oct. 12, 1969 3-A

Local Administrators Plan To Attend Parley

Big Spring school administrators are planning to attend the Texas State Teachers Association (TSTA) annual convention in San Antonio Oct. 23-24.

Gov. Preston Smith will be the featured speaker. Other speakers will include Sam M. Lambert, executive secretary of the National Education Association, and Charles D. Holleman, superintendent of schools, Mustang, Okla. Also scheduled on the program are Claude A. Hearn, TSTA president; Jewell Harris, president-elect; L. P. Sturgeon, executive secretary; and Antoinette Miller, immediate past president.

Wayne King and his orchestra will perform for the third general session in the San Antonio convention center.

Culminating the convention will be the meeting of the 1,288-member House of Delegates. They will discuss and act on proposed new policies, changes in the constitution, etc. The delegates are composed of voting delegates from local associations throughout the state. One delegate is sent for every 400 members in a TSTA chapter.

Big Spring will send four delegates. They are: James Holmes, president of the local TSTA and principal of Kentwood Elementary; Mrs. Wayne Speegle, secretary; Wilbur Cunningham, first vice president; and J. P. Cushing, second vice president.

Included among area principals who plan to attend the conference are Tom Henry, Cedar Crest Elementary; Er-

Fly The Flag, VFW Officer Says

SPRINGFIELD, Ill. (AP)—The Illinois commander of the Veterans of Foreign Wars urged Saturday that the U.S. flag be flown Oct. 15 as a silent counter action against the Vietnam moratorium observances that day.

Commander James J. McClellan of Wood River, Ill., said in a statement the demonstrations are "keyed toward immediate capitulation to the Communist demands in Vietnam."

He called the planned demonstrations "shameful" and said the demonstrators "seek to undermine the bargaining position of the President in the Paris talks and this will further endanger lives of our fighting men in Vietnam."

neft Boyd, Park Hill Elementary; and M. A. Barber, Moss Elementary. Superintendent of schools S. M. Anderson and Noel Reed plan to attend. A number of teachers plan to attend if substitutes are found to take over their classes, said Holmes.

in pick-up service," Hamilton said, "the first in Big Spring. The customer will be able to go to his car and drive it up to the door, where his groceries will be loaded. This will save having to carry groceries to a distant parking space." The store will also provide a check-cashing service, as well as money orders, he added.

Foodway Store is the discount operation of Buddy's Super-

Hamilton Has 23 Years Experience In Groceries

The supervisor at the new Foodway Store, opening Tuesday in the Coronado Hills plaza, will be George Hamilton.

Though Hamilton has only worked with the company eight months, he is not new to food stores. He has been in the grocery business for the last 23 years in Lubbock and Amarillo, seven of which were spent as manager.

Hamilton was born and raised in Hereford and graduated from high school there. A member of the Methodist Church, he served with the U.S. Army during the Korean war.

During his off hours, which are few since many times he has to spend seven days a week at the store, he likes to play golf, tennis, or do yard work. He and his wife, Sylvia, live at 1711 Alabama.

"We like Big Spring," he said. "We have found the people very

GEORGE HAMILTON

friendly. We want to become part of the city."

Robbed Twice By Same Group

ST. LOUIS (AP) — Dean Smith was robbed twice Friday night.

Smith stopped his car at a stop sign on his way home from work and a thug reached in and took his wrist watch.

Smith called police and while waiting three more young thugs came up and said he could have his watch back for \$10.

When Smith took his wallet out of his pocket one youth grabbed it and they all fled. The wallet contained \$40.

THE ARTS Boosters Meet, Artist Exhibit

SNYDER — Fred Harman, one of the 28 Cowboy Hall of Fame artists, will autograph copies of his book, "The Great West In Painting," and exhibit 15 of his paintings at a personal appearance next Sunday, at the Diamond M Museum here.

One of the best known Western artists, Harman's comic strip, Red Ryder, was followed by 75 million readers in newspapers on three continents until he gave up the feature in 1965 to devote full time to painting.

The Harman exhibit will be open to the public at the Diamond M Museum between the hours of 1 p.m. and 5 p.m. next Sunday.

The Big Spring Choir Boosters Association will convene at 7:30 p.m. Monday, in the Senior High School choir room, for the regular monthly meeting.

The budget for the coming year will be considered, and plans for the choir tour will be discussed.

Choir members from Runnels Junior High School, under the direction of Sampy Wall, will perform following the business meeting. The officers of the association will hold a brief board meeting beginning at 7 p.m.

All parents and friends of the choirs of the high school and junior high schools are urged to attend the general meeting.

A photography exhibit will be included in the annual West Texas-New Mexico Arts and Crafts Exhibition of the Midland Art Association. It will open noon to 8 p.m. Oct. 19-25. Texas Tech University's professor of art, Dr. Clarence Kincaid, will judge the photos and give awards for color and black and white.

ABILENE — The Lettermen will open the Hardin-Simmons University Artist Series Tuesday, Oct. 28, at 8:15 p.m. in Behrens Chapel. This trio fills the current entertainment gap by giving the public of all ages what they want to hear. In their own unique style, they present standard ballads, modern arrangements, folk songs and show songs.

The office of Dr. W. O. Beazley, Artist Series coordinator, urges those who want good seats to get their tickets now. Tickets are available in Dr. Beazley's office, 677-7281, Ext. 214, or at Brown's Music Store, North Fourth and Walnut.

Chuck Mitchell, actor, singer, guitarist, will star in the

Globe of the Great Southwest "The World Of Carl Sandburg" which opens Oct. 21. He has appeared professionally throughout Canada and the United States.

Mitchell appeared in summer stock with Lloyd Richard and Vivaca Lynfos in "The Rose Tattoo"; then toured the country doing "In Search Of Dylan" ... the writings of Dylan Thomas. He is up for the lead with Kathryn Hepburn in "Coco" on Broadway as well as two films in Hollywood: "The Love Story" starring Aly McGraw and "Adam at 6 a.m." His new album, "Dreams and Stories" will be released soon.

Appearing with Mitchell will be Neil Howard and Gilda Gant.

Dallas Civic Opera will open 12 box office locations Monday for over-the-counter sale of tickets to its 1969 festival season Nov. 1-29, a season that is being called the most star-studded in the company's history.

Six major prima donnas, joined by an array of well known male singing stars, will sing in the three 1969 productions, "Aida," "Don Giovanni" and "Fedora."

There will be two performances each of the three operas — "Aida" Nov. 1 and 7, "Don Giovanni" Nov. 14 and 16, and "Fedora" Nov. 26 and 29, plus a special student matinee of "Aida" Nov. 9 and a bonus concert for subscribers Dec. 3.

Prima donnas Elena Suliotis, Teresa Stich-Randall, Teresa Zylis-Gara, Grazella Sciutti, Shirley Verrett and Magda Olivo and male stars Justino Diaz, Bruno Prevedi, Amedeo Zamboni, Gian Giacomo Guelfi, Sesto Bruscantini, Ugo Benelli and Italo Tajo head a glittering cast list for the company's 13th annual fall season.

Mail orders should be sent to the One Main Place box office, Dallas, 75202, telephone 742-1008.

Five Texans Are In Contest

PECOS — Five Texas cowboys are participating here in the finals of the World's Steer Roping championship, led by Walt Arnold of Silverton. The cowboys competed Saturday and today.

Other Texas cowboys in the finals include Bud Upton, San Angelo, Tim Prather, Post, Jim Bob Altizer, Del Rio, and Jack Newton, Carrollton.

THE WEEK

(Continued from Page 1)

Nang, Vietnam, he earned three Silver Stars and was credited with saving at least eight lives.

We didn't quite make it, but no one is anything but proud of our Steer roping team Friday against Abilene Cooper. The players never gave up, on the contrary, they smote the opposition hip and thigh with increasing force down to the wire. We beat them at their game (passing) but they beat us at ours (defense) by grounding our running game. But everyone, most of all the boys, could walk out with their heads held high. You can't ask more than that.

Johnny Peugh, Knott 4-H member, did last week what no one else has done in the 27 years of the county pig show: He had both the grand champion and the reserve champion. His heavyweight Duron won, and his champion Hampshire was reserve. It is something of a family affair, because his sister, Patty, had the reserve Hampshire. Ricky Harris, Big Spring, had both champion and reserve in crossbred pigs, and Allen Murphy the reserve Duroc. One reason that Howard County has a vastly better quality of swine today is because of the influence of this program over the past quarter century.

Police were offering a \$100 reward for information which will lead to the apprehension of those responsible for vandalism against some 30 business firms during the past week. Windows, windshields, plate glass, etc. were shattered in an utterly senseless and tremendously costly foray. Anyone who can possibly furnish a lead owes it to his town to pass this information on to the police.

City commissioners, after a public hearing, adopted a \$3,063,442 budget for the fiscal year beginning Oct. 1, a fiscal guide that is practically in balance. After the hearing and adoption, an item for half a

year for the police merit pay and one for a sewer capital expenditure were pulled out of the budget.

Our area missed a good chance for rain last Monday when the bottom fell out — but only briefly. The amount was about half an inch. What we need urgently within the next 10 days is one like that which will pour two or three inches rapidly on the lake sheds.

The seventh annual Policemen's Ball comes up this week (Saturday evening) at Skateland, and indications are it will be a big affair. Net proceeds from this event go to departmental welfare and civic service projects.

Texas Electric Service Company had its annual Quarter Century Club banquet honoring the old timers of the company here last week. Burl Hulsey Jr., president, continued a theme which has characterized his administration — impressing upon the TESCO family the importance of each worker. Must be something to it, for the company came through the most demanding summer on record without a hitch.

Bobby Eugene Chrisco, 22, found guilty of the murder of A. D. Blount here last December, has decided against an appeal of his life sentence and has been sent to state prison in Huntsville. With him went Narciso Santiago, who has been in the Howard County jail for better than two and a half years.

This is Oil Appreciation Week, and certainly West Texas knows how to appreciate the oil industry. Not only has it been the region's major producer of revenues for years, but it has furnished aggressive, forward-looking leadership in every community, plus more than its share of taxes.

(Photo by Lynna Kay Weaver)

INCREASED CONTRIBUTION—This committee, composed of Cosden management and members of Local 826, International Union of Operating Engineers, is finishing this year's United Fund drive among the employees of Cosden Oil and Chemical Co. Reports thus far show contributions already surpass last year's total by more than \$1,100, with a few more contributions still to be counted. In the bottom row (left to right) are J. D. Fortenberry, Frank Parker, and Floyd Young; in the top row (left to right) are Jerry Jenkins, L. T. King and Clovis Phinney.

Only 508 Arrested In Pre-Game Parties

DALLAS (AP) — Officers controlled the Oklahoma-Texas pregame celebration pretty well, considering, observers said Saturday. They arrested only 508 persons. That's quieter than last year's 663, at least.

Thousands jammed the Commerce and Akard intersection Friday night—as they always do before the universities of Oklahoma and Texas play.

Youngsters prowled about, a bottle of booze in one hand and a blonde in the other. Glassware crashed on the sidewalk. One youngster banged another's head against a bumper sticker repeatedly. The sticker read "peace."

The streets were jammed with people and automobiles. About 700 officers—police, liquor agents, deputy sheriffs and highway patrolmen—kept things from really getting out of hand, particularly by breaking up fist fights and sending drunks to jail before they passed out.

As usual, there were far more Dallas people in the crowd than students and exes from the two schools. Years ago the college crowd forsook the intersection

and began staging private parties. Of the 508, 450 went to the city jail and 58 to the county jail. This year, there was no waiting in line to be booked.

But there was some waiting in line to be released. By kick-off time, about half those arrested remained behind bars.

By dawn, workmen had the streets and sidewalks gleaming. Barriercades, removed and stacked, all trash gone, and the area washed down.

At that hour, only workmen going to their jobs were in evidence except at Stone Place Mall.

A little cluster of hippies sat in the mall, their favorite hangout. They were giggling.

Minor Fires On Firemen's List

Several minor fires were reported to the Big Spring Fire Department Friday, including one at West Fourth, and Gregg, caused by a cigarette. Damage to John Arnold Jr.'s car was confined to a burned seat. At 3:40 p.m., a grass fire was reported on the Texas-Pacific Railway yard north of Kimbell Mills.

Another car fire was reported Friday afternoon at Fifteenth and Gregg, damage was done to the wiring of Harry Crevling's car which caught fire from oil. M. S. Knowles, 1309 Johnson, reported a washing machine on fire at his residence Friday night, damage was confined to the motor.

School Trustees To Meet Tuesday

Three major items are on the agenda for Tuesday's 7:30 p.m. meeting of the Big Spring School Board. In addition to routine business, the Park Hill PTA will make a request for campus improvements; consideration will be given to a pilot program project for vocational education for handicapped students; and the preliminary application for Foundation funds, 1969-70, will be presented for approval.

School board meetings, open to the public, are held in the portable classroom building behind the superintendent's office on Eleventh Place.

Juvenile Department Has 31 September Referrals

The September report from the Howard County Juvenile Probation Department, released Friday, shows 31 youths referred to the probation department during September.

Referrals came from law enforcement agencies, school officials, parents and citizens, and included one for vagrancy, nine for minor-in-possession, two for truancy, one for theft investigation, one for minor consuming, four for public affray, one for possession of stolen property, three for destruction of private property, five for run-aways, one for disturbance, one for domestic problem, and two for vandalism.

Three youngsters were released to parents out of the county in September, 22 were counseled and released within the county, one continues on supervision, two were released to another county's juvenile officer, and one is still pending.

One boy left pending in the month of August has since been counseled and released. There are currently nine children on supervision during September due to favorable adjustment and good behavior. There are five girls on probation in the county.

There are seven boys and three girls on parole from the Texas Youth Council in the county and twelve youths from the county are in placement with the Texas Youth Council; nine at Gatesville State School for Boys, two at Gainesville State School for Girls, and one at Corsicana State Home.

Three youngsters were released to parents out of the county in September, 22 were counseled and released within the county, one continues on supervision, two were released to another county's juvenile officer, and one is still pending.

One boy left pending in the month of August has since been

Judge Rules Against Rural Taxpayers Assn.

District Judge R. W. Caton granted summary judgment Friday afternoon for the defendants, the Big Spring Independent School District, in the controversial tax suit brought by members of the Rural Taxpayers Association.

The judgment stated there was an absence of any material fact in the plaintiff's suit for declaratory judgment, and that summary judgment should be rendered for defendants. It also stated that plaintiffs recover nothing by their suit.

The taxpayers association brought suit in September as a result of their dissatisfaction with the re-evaluation of their land last spring, which raised farm land assessments from 33 to 100 per cent. Attorneys for the taxpayers arrived at a compromise valuation with attorneys for the four county taxing agencies, and it was accepted by the Forsan In-

dependent School District, Howard County Junior College, and Howard County.

The Big Spring school board trustees also accepted the compromise plan, which lowered the valuation on rural land about \$10 per acre. The gist of the suit is that the taxpayers claim the board of equalization also entered into that agreement and should therefore be bound by it.

An affidavit filed by the board Sept. 22, however, absolves the board of any responsibility in

any such agreement stating it never entered into one.

The trustees, represented by Gil Jones, stated three main points in their defense in the case. One, that the board of equalization's decision is final and conclusive, and not under the supervision of the school board; two, that the board cannot delegate its power to the trustees; and that three, in the absence of illegality or fraud, the court has no jurisdiction. This was the position upheld by Judge Caton's decision.

Vocational Study Panel

Lt. Governor Ben Barnes has announced the appointment of five Senators to the Senate Interim Vocational-Technical Education Study Committee.

Named by Barnes were Sens. Chet Brooks, Pasadena; Jim Bates, Edinburg; Mike McKool, Dallas; David Ratliff, Stamford; and Murray Watson, Mart. Brooks was named chairman of the committee by Lt. Governor Barnes.

Authorized by Senate Resolution Number 317, the group will review the over-all problems of vocational-technical education, placing emphasis on:

- (1) Recruiting training, and certifying of teachers of vocational-technical education;
- (2) Study the administration of current programs;
- (3) Study the level and format of state, local and federal funding, pointing to problems of districts with large numbers of disadvantaged or non-college-bound students;
- (4) Plans to improve the adequacy of present and proposed programs.

Barnes directed the committee to present recommendations to members of the 62nd Legislature meeting in January, 1971.

Rider Killed When Car Skids, Rolls

MINERAL WELLS, Tex. (AP) — Ralph Coulter died early Saturday, two hours after the car in which he was riding skidded 486 feet and rolled over several times.

Both Coulter and the driver, Francis Corey, also of Mineral Wells, were thrown from the car. Corey was in critical condition in Weatherford.

The Public Is Invited

to meet the renown artist and author FRED HARMAN who will present and autograph his new book "The Great West In Paintings" and exhibit a collection of his paintings.

BIGGER YET—Mrs. Nellie Barber, 604 Abrams, holds her two-foot lemon tree that bore a fruit 10 1/2 inches in circumference. Her son sent her the tree about seven years ago from California, but it first bore fruit last year.

Another Big Lemon Grower

By JOHN HILBIG
Huge lemons are apparently not as scarce as one might imagine. Mrs. Nellie Barber, 604 Abrams, has grown one measuring 10 1/2 inches in circumference, smaller than a cantaloupe but larger than most apples, oranges, or pears. Mrs. Barber has had the tree, which her son sent from California, seven years. Her son had also sent her an orange tree at the same time, but she said it died several years without ever bearing fruit. "The lemon tree had its first crop last year," Mrs. Barber said. "It bore three lemons, from which I made two pies. This year the tree had three

other lemons besides this one, but they fell off. All these other lemons were about the size you would buy in the store." Mrs. Barber has the tree planted in a flower pot in cat-claw sand; but it has hardly grown (it's about two feet tall now) since she first got it. Mrs. Barber has had plenty of practice with her green thumb; she has lived on a farm much of her life and always planted a little vegetable garden. Originally from Ohio, Mrs. Barber came to Big Spring with her husband in 1962. She has two children: Warren Markin, Dallas, and Mrs. Ruth Foster, Orlando, Fla. Her husband died in 1967.

A Roaring Good School

By JOHN VINOCUR
Associated Press Writer

MARSEILLE, France (AP) — Five panthers and two men in a cage, the panthers flatheaded and humorless, the men each carrying a 4-foot-long stave and a practice whip that looks like a child's fishing rod.

One man is in khaki clothes and white tennis sneakers and moves so purposefully that the panthers seem fascinated by him. He is Jim Frey, a 74-year-old who teaches people who want to train and put on shows with big cats. He says his lion tamer's school is the only one in the world open to the public.

The other man in the cage is a student, an electronics technician named Georges Lopin, who is paying \$130 a month for the schooling.

Next to the panthers, Lopin is stiff and still, his eyes too intent to blink. He watches as Frey takes a piece of meat on the end of his stave, puts it on a pedestal, then commands a panther to jump for it. But the animal lands heavily; the others roar and bellow and spit, opening their mouths so wide that their heads seem to have split open.

"Stay quiet, Georges," Frey says and hushes the animals. In a moment, they are calm again and being led out a chute and into their cages surrounding the circus training ring at the Marselle Zoo, where Frey is technical director.

After more than six months of watching, observing and feeding the big cats, it was Lopin's first time in the cage with the panthers.

"Mr. Frey has worked me with lions, but they're different," he said. "Panthers are tougher and faster. A swat from a lion could knock you straight through the bars, but if he knocks you to the ground, there's a chance that a lion won't be interested and let you get up. A panther, never. He

wouldn't miss out on a meal."

Lopin is one of Frey's five students, the enrollment limit. He spends his leisure time at the zoo because "it is a sport for me, a kind of conditioning." But others want to become circus performers. Frey says he has graduated seven or eight, including two women, who now are working in circuses.

At 74, Frey is the son of an American architect who, after being born in France, spent much of his young life on a ranch outside Helena, Mont. He is a showman with ringmaster-sleek hair, a great seriousness about working with cats and an unoffensively philosophical approach to the job.

Frey starts his students by just having them observe the animals and reporting to him on what they notice. When he feels they have good perceptions, they move on to feeding and bringing water, unlocking and locking cages, and then sweeping them clean.

At the same time the students are learning how to crack a whip effectively—it doesn't frighten, but rather gives emphasis to commands—to pitch their voices, and walk easily. But the big thing is Frey's observations, his getting the feel of when it's what he calls "D-day, H-hour"—the time they go into the training cage.

Water Study Funds Allotted

LUBBOCK — The sum of \$39,364 for a Texas Tech contract study of water quality below feedlots on the Texas High Plains has been announced by Director Frey E. Briggs of the Office of Research.

Congressman George Mahon notified the university of the grant from the Federal Water Pollution Control Administration to Geosciences Prof. William D. Miller, the principal investigator.

"This research should show if the problem does exist and, if it does, the extent of the problem," Miller said.

He pointed out that several hundred feedlots exist now on the High Plains, ranging from small home-owned operations to those of major nationwide corporations.

"More than 50 per cent of the municipal and industrial water supply and more than 90 per cent of the irrigation water supply for the region come from groundwater," he said. "This supply is produced mostly from the underlying Ogallala formation by approximately 65,000 wells distributed over a 35,000 square mile area."

The over-all purpose of his study, said Miller, is to determine the distribution of nitrogen in the groundwater zone below feedlot operations.

Baptists To Meet Monday In Coahoma

COAHOMA — The annual meeting of the Big Spring Baptist Association will be held in the First Baptist Church here Monday at 7:30 p.m.

Featured speakers will include the Rev. A. B. Lightfoot, former pastor in Big Spring, Odessa and Snyder and now director of the Howard Payne center in Odessa; Wimpy Smith, Baptist General Convention of Texas staff member; and the Rev. James Puckett, Baptist Temple pastor, who will bring the annual sermon at the 7 p.m. meeting Tuesday.

Another highlight will be the report of the Permian Baptist Encampment, brought by the manager, John S. Rankin. During the past year the encampment had a cumulative attendance of over 4,000, and there were 196 decisions for Christ and 123 commitments to special service.

A new chapel, with 3,200 square feet of carpeted floor space, was completed during the year. The structure takes care of congregational services or conference-type meetings.

Among special gifts to the project were 16 pews and furnishings, plus a cash gift of \$1,000 from the Sparenberg Baptist Church in Dawson County; 20 pews for the tabernacle and \$1,600 cash from the Frankel City church in Andrews County; and 26 pews for the tabernacle from the Green Hill Church in Snyder.

Members of the Encampment board are the Rev. Puckett, the Rev. William H. O'Dell of Big Spring, the Rev. T. L. Pond, Courtney, and the Rev. W. H. Uhlman, Stanton.

FIRST BOOK IS BIG HIT

SAN ANTONIO (AP) — Robert Kelsey, 8, has realized the dream of all authors — his first book is a hit. It is becoming one of the most popular books in the Woodridge Elementary School library. "The Lion That Wanted" is the story of a lion that went to the fair, visited the spook house, tossed rings and ate pies instead of throwing them in a pie-throwing game.

Far West Texas Ranges Improving

COLLEGE STATION, Tex. (AP) — Rains have slowed the harvest in Texas but improved prospects for fall grazing and seeding.

Director John Hutchison of the Texas Agricultural Extension Service said cotton harvesting is shifting to the west and northwest and grain sorghum and corn harvests are moving to the High and Rolling Plains.

Warm, sunny weather is needed by South Plains (Lubbock) cotton for the normal maturing process. Defoliation and harvesting are increasing in the south and regrowth is causing some problems. Over half the sorghum is harvested; yields are generally good but test weights are low in some areas. Soybeans are maturing rapidly and some are being harvested. Sugar beet yields were good but sugar content is low in some areas. Army worms damage grain. Livestock and ranges are in good condition.

Moisture is adequate over the Rolling Plains (Vernon) and fields have dried enough to al-

Cotton Grades Are Improving

The weather has slowed harvesting, just as it was gaining momentum. Grades of samples were improving too, says B. B. Manly Jr., in charge of the USDA's Cotton Classing Office in Abilene.

Grades were beginning to improve, indicating that cotton had been killed and stripped before rain. Earlier some cotton had been killed and received several rains before it could be harvested. Reports indicate a lot of cotton has been defoliated this week and weather permitting, the harvest should get under way next week.

A breakdown of grade, staple, and mike for last week is as follows:

GRADES — 31, six per cent; 40, one per cent; 41, 15 per cent; 51, 10 per cent; 61, two per cent; 32, five per cent; 42, 41 per cent; 52, 15 per cent; 33, one per cent; 43, three per cent; Below Grades, one per cent; and three per cent of the samples classed were barks.

STAPLE — 28, six per cent; 29, 49 per cent; 30, 34 per cent; 31, six per cent; 32, two per cent; 33, one per cent; 34, one per cent; and 35, one per cent.

MIKE — 3.3-3.4, two per cent; 3.5-4.9, 95 per cent; and 5.0-5.2, three per cent.

The Consumer and Marketing Service had no prices to report this week as most producers are busy harvesting and have not had time to sell their cotton.

Child Abuse Charges Filed Against Couple

NORTH MIAMI BEACH, Fla. (AP) — A young couple was arrested on child abuse charges Friday after police said they found three battered children including a 2-year-old boy whose nose was broken and the bone protruding.

North Miami Beach Police Lt. Shirley Withrow said, "This is the same couple who had a 7-months-old baby girl die about a week ago."

He identified the couple as Michael Campbell, 22, and Mary Violet Campbell, 23. Their address was listed as the Midget Mansion Motel.

Withrow said the Campbells were charged with torturing or unlawfully punishing a child. There were no charges in the infant's death. No bond was set.

Two-year-old Travis had both eyes blacked and a broken nose, the officer said. "It was a compound fracture and a piece of the bone was sticking out," he said.

The oldest girl, Chris, 7, had a battered face, he said. "The entire front of her dress was full of blood."

The third child, Ginger, 6, had bruises, said Withrow. "All of them had mosquito bites and some of the bites were infected," said Withrow. "They said they had gotten repeated beatings with open hand, fist and a belt."

He said the couple's 7-months-old baby, Kalen, died last week from "massive head injuries." He said investigation into the death is continuing. Withrow said Campbell reported the baby had suffered the injuries in a fall.

Convocation To Pay Special Tribute To Dr. Newman

BROWNWOOD — The name of Dr. Guy D. Newman is synonymous with Howard Payne College and its Douglas MacArthur Academy of Freedom.

And, as hundreds of dignitaries, scholars, and school children pour into this Central Texas City Oct. 16-18 to feature a special convocation which features Army Chief of Staff Gen. William C. Westmoreland as the main speaker, to view the unveiling of MacArthur's statue by his widow and to tour the nationally known complex, they will be paying a special tribute to the one-time salesman, one-time Baptist minister, who now enjoys the longest tenure as president of a Texas Baptist institution of advanced learning. "Doc," as he is addressed by his close friends and they are numerous, indeed, has two characteristics that mark his every moment. They are his love for his God and his love for his country.

Perhaps, because of these traits, one could easily say he is the reason the Academy is now a reality. Intent upon the need for HPC to take the lead as a college to popularize the country's basic freedoms, to keep them dynamic for the students, to keep viable the values of the Constitution and the free enterprise system, Dr. Newman, with the assistance of others, started more than a decade ago to put his idea into effect.

It has come in two parts — a Democracy-in-Action (DIA) program — which has been honored by the Freedoms Foundation of Valley Forge, Pa., and the Academy.

For the DIA program, bright students meet to discuss the history, the present and the future of America, as well as the forces which threaten this nation. Each year nationally-

known speakers are invited, including always those who have had first-hand experience with Communism.

As Dr. Newman pictured the Academy, he believed that it should be a window from which light would shine to others.

"I thought," Dr. Newman said, "of Gen. Douglas MacArthur as a name to dramatize it."

Dr. Newman talked to Price Daniel, former Texas governor, and Daniel wrote the general. As Dr. Newman remembers, MacArthur replied, "I'll see Mr. Newman at 12 o'clock high noon." So he told the general "the story of my dream."

MacArthur would be delighted to have his name used for the academy.

The basic idea has been to provide an understanding and intelligent support of freedom and liberty by making these terms meaningful. It represents the story of mankind's past accomplishments and of the challenges and opportunities of the future.

The academy, centered around the historical Daniel Baker College (DBC is now a part of HPC) administration building, which was constructed in 1890, underwent extensive renovation. Today, it is one of the most photogenic complexes in Texas.

JONES BOYS GALORE!!!

HENDERSON, Tenn. (AP) — Keeping up with the Jones is quite a job on the campus of Freed-Hardeman College here. There are five of them—and they're brothers.

And more are on the way. Wade Jones, 19, says a brother, Don, 25, will join the five at Freed-Hardeman in January. The father, James A. Jones, plans to enroll next fall to study for the ministry.

Commendation Letters Won

By KAREN MCGONAGILL

Letters of Commendation have been awarded to Robert Margolis and LaShara Shanks honoring them for their high performance on the 1969 National Merit Scholarship Qualifying Test (NMQST).

They are among 39,000 students in the United States who scored in the upper two per cent of those who are expected to graduate from high school in 1970.

The 1970 EL RODEO goes on sale Monday, Oct. 13 for \$3. EL RODEO staff members will sell the books until Nov. 13.

Miss Inez Gifford will present "Songs in Technicolor" at a paid assembly Tuesday morning in the auditorium. The assembly will be sponsored by the student council and price of admission is ten cents.

Miss Gifford has appeared on the Jack Parr, Ed Sullivan, and Gary Moore television programs. She has also made many appearances on the Celebrity Concert Series, as well as being a soloist at the Radio City Music Hall in New York City.

The sweetheart nominees of the BSHS Steer Band have been selected for the 1969-70 school

year. They are Janice Majors, who will be escorted by Bobby Bryant, Betty Chavarria, escorted by David Knous, and Izell Johnson, escorted by James Person.

The band has already voted but the results will not be released until Keith Gum, band president, crowns the sweetheart during halftime ceremonies at the Odessa game, Friday, Oct. 17.

Monday, Oct. 13 will be the first October meeting of the FTA. All members are reminded to pick up their Christmas card catalogs from William Martin, club sponsor.

Kenny Sheppard, choir director, has announced that Monday, Oct. 20, is the date set for the second annual Pops Concert. The concert, which will consist of a medley of show tunes, folk songs, and pop music, will be at eight o'clock in the BSHS auditorium.

Tickets for the concert may be purchased from any choir member. Tickets will be \$1.50 for adults and 75 cents for students.

Third year French students are co-sponsoring the French Club with Mrs. O. T. Brewster.

Officers for this year are: Judy Dyer, president; Susan Cape, vice president; Kathy Dean, secretary; and Leah Harris, journalist.

The first night meeting of the Astronomy Club took place on the tennis courts behind the high school Thursday night to observe the constellations and visible planets.

Key Clubbers are selling activity calendars for 50 cents each. These calendars have school activities for the 1969-70 school year.

Twenty-seven student council members went to the West Texas Forum in Kermit Saturday. Fifteen members of the Runnels Student Council went with the BSHS council members.

Twenty-three library club members went to Coahoma for the district meeting Saturday. A style show sponsored by Montgomery Wards and the Dixie Land Band provided the entertainment.

On Saturday, Oct. 11 students from BSHS who participate in extracurricular University Interscholastic League activities and their sponsors traveled to Odessa to attend the Odessa Literary Events Conference.

Over 50 people, which includes both students and teachers, made the trip to Odessa, according to Charles Burnsed, science teacher.

The students took part in workshops which were designed to prepare them for competition in such fields as forensics, science, slide rule, number sense, ready writing, and many others this year. Consultants from the University of Texas at Austin were present at the conference.

COAHOMA MAJORETTES—Prancing down the chalk-lines is a weekly occupation for these pretty majorettes from Coahoma High School. From left to right are: Pam Patterson, Mischa Read (head majorette), Sherry Boyles, and front center, Terri Wolf.

GARDEN CITY School Braces For Homecoming

By BEVERLY HARTLEY

Homecoming is the main topic at Garden City School. The juniors began selling mums on Monday. They are selling them for \$3, \$4 and \$5.

The Pep Squad is planning the homecoming float which the three candidates for football sweetheart and their escorts will ride. The escorts will be three candidates for Mr. Bearkat. This ceremony will take place before the game on Oct. 24.

The pompons ordered by the Pep Squad came in Wednesday. They will be used for every football game and also for the homecoming routine.

The pep rally for the football boys first district game filled the Garden City High School gym with spirit once again Friday afternoon. The boys traveled to Loop after the pep rally.

The seniors chose the style of invitation they desired on Wednesday. They are to decide on the amount they need by the middle of November. The invitations should arrive about the first of April.

The senior class will sponsor a basketball game on Dec. 3. It will be Boyd Buies' Harlem All-Stars. The feature performance will begin at 8:30 but there will be earlier activities which will include student games. The prices will be 50

cents for first through the sixth grade; \$1 for seventh through the twelfth grade; and \$1.50 for adults.

The Student Council met this week to vote on the adoption of a standard senior ring. The result was six for the adoption and two against it. The standard senior ring will be like the seniors of 1970. The classes will have the option of the side of the ring opposite the Bearkat and a choice of a red stone and either white or yellow gold.

The suggestion box was also a topic of discussion at the meeting. This box was designed a couple of years ago so that the student body might express their criticisms. The council decided to provide the box once again for suggestions.

The final topic of the meeting was the homecoming party. Committees were organized for the preparation of it.

School pictures were passed out Wednesday to all of the students and teachers. The seniors have not received theirs as yet.

The Future Homemakers of America are now selling de-greaser for a money making project. The quart bottles are selling for \$1.75 each.

Monday the first late practice for the Garden City Girl's Basketball team was held. A scrimmage is planned for games. The prices will be 50

HCJC

Harvest Queen Crowned Friday

By PHILIP STEPHENS

Harvest Queen for 1969 was Debra Williams, who was crowned at the annual Harvest Dance, Friday, Oct. 9. The Spanish Club-sponsored dance rocked to the sounds of the Bicycle until 12 midnight.

First place runner up to Debra was Rosie Maria Casillas. The voting, which went on all day Thursday, also produced a tie for second runner up between Amanda Guess and Adelyne Scott.

Starting Nov. 5 at 3:45 p.m., the other will be closed for the sounds of a new radio program over KHEM, featuring news about HCJC. Sponsored by the Radio Club, the program will be aired each Wednesday for seven weeks. Amateur golden-throats Ronald Baird, Billy Brock, Ed Cunningham, Don Hise, and Doyle Ramirez, will handle the announcing chores under the supervision of Martin Landers, instructor.

HCJC PRESENTS will feature Dallas Nash and Dallas Nash II, instructors in Electronic Data Processing and audio-visual aids showing the use of

computer machines, offered at the college.

Less than two weeks remain for the opening night performance of "All My Sons" by Arthur Miller, to be presented by the Drama Department in the SUB lounge.

Tickets for the performance will cost 75 cents for students and \$1.25 for adults. College students with a student ID will be admitted free, of course.

Performance time will be 8 p.m.

Students should be aware that the SUB lounge will be closed for a week prior to the performance, from Oct. 17 to Oct. 24.

Cheerleader tryouts for the Jayhawks will take place in the auditorium, at 9:45, activity period Wednesday.

Rocca Hamma (Geology Club) has announced officers for the semester. Bill Ray Henry is the president. Don Swaim, vice president. Elizabeth Moore, secretary. treasurer; Russell Rutledge, reporter; Butch McMains, business manager; and Debra Williams, sweetheart.

FORSAN JR. HI Cheerleaders Spark Buffs

By BRENDA COWLEY

The Buffs traveled to Bronte, Thursday, to play the Longhorns.

A pep rally was held at 2 p.m. Thursday afternoon. Speeches were made by three of the football boys and coaches Adams and Barnes. During this pep rally the assistant cheerleaders did a pompon routine to the record Indian Giver. At last weeks pep rally the cheerleaders also did a pompon routine to the tune of Wipe Out. They also performed this routine during half time at the game at Loraine.

A bus was not provided for the pep squad to Bronte because of the distance from Forsan to Bronte. However the cheerleaders did attend that game.

The junior high's halls were plastered with victory and spirit signs. This week locker signs were also put up. This was to promote spirit for the Buffs.

Also, grades 6-8, put up signs from their grade to show that they are backing the Buffs all the way.

COAHOMA Coahoma High Hosts Library Assistants

By JAN STOUT

The annual District III Texas Association of Library Assistants was held this past weekend in Coahoma High School. Music was provided by the Dixie Land Band from Big Spring. The Big Spring Library Club was also in charge of the program and a skit. A style show was presented by Montgomery Ward. Mrs. J. O. Gunning was in charge of this.

The meeting began at 9 a.m. and lasted until 2 p.m. Several workshops were held for the president, vice president, bulletin boards, scrapbooks, and a public.

A general meeting was held

in the afternoon where the election of officers took place. About 200 girls and boys attended the convention. They were served lunch by Mrs. Lucille Richters.

A library club meeting was held Tuesday, Oct. 7, in which Lucretia Drake was elected vice president for District III.

The Spanish Club met Tuesday night, Oct. 7. The first year students were initiated by the second year students. Refreshments were served. Mrs. Janie Parrish is the sponsor for this club.

The Band Boosters and the Coahoma band members are urged to bring items for the rummage sale that will be held the weekend of the Coahoma-Cooper football game. Mrs. Irene Harding will be in charge of the sale.

The Science Club met Monday night, Oct. 6, in the Science room. Lt. Samuel Travers presented the program on flying. Refreshments were served after the program. About 25 members were present.

The FHA will meet at 7:30 p.m. in the activity room in the high school building. Chaplain Lee Butler will present the program. A business meeting will be held after the program followed by refreshments.

A general assembly will be held Monday, Oct. 13. Inez Gifford will give a presentation of songs illustrated in glorious hi-fi color. An admission of 10 cents will be charged.

A pep rally was held Friday, Oct. 10, to promote spirit for the Coahoma-Rotan football game. Judges for the spirit stick were Mrs. Mary Crawford, Mrs. Nan McKinney, and Mike Carter. A pep talk was given by Coach Bill Easterling.

Student Council Readies To Elect

By JILL RHYMES

The Student Council had its first meeting Tuesday. A nominating committee composed of five eighth graders and five seventh graders was appointed.

Student Council members are Bruce Abbe, Mona Adams, Sharon Baker, Tom Biddison, Jan Bledsoe, Wesley Boullion, Barry Canning, Matt Carl, Kelly Carlisle, Joann Claveran, Connye Curry, Tim Dunn, Rodney Farroul, Mickle Fletcher, Karen Fortson, Lonnie Gillihan, Kim Grice, Mary Ellen Guess, Nita Hodges, Leigh Jones, Ruth Knight, James Lacy, Susy Lawlis, Darcy Lobdell, Lori Mason, Joe Matthews, Dan McDonald and Ronald McKee.

Also Kathy Meek, Candida Mejia, Terri Morris, Ricky Murdock, Deborah Necholi, Kathy Perry, Druanne Priddy, Earl Reynolds, Pete Rhymes, Patti Robertson, Wayne Sigmon, Prudence Sparks, Sylvia Sulak, Bill Sullivan, Paul Talbot, Guy Teague, Terry Tredaway, Stan Vick, Donald Wheeler, Teresa Wickline and Deborah Williams.

Last week the School Fund Drive was conducted. Eighty per cent of the funds collected go to the School Welfare Fund, which is used to buy shoes for needy school children. The other 20 per cent goes to the Community United Fund.

On Tuesday, Wednesday and Thursday of every week from 7 to 9 p.m., the Trinity Lutheran and St. Mary's Episcopal Churches offer tutoring sessions or seventh and eighth graders who are making grades below C. There is no charge for these sessions which are conducted at the Episcopal Church.

The Library Club met Friday of last week to discuss plans for a Book Fair. The fair will be held during American

Education Week in November.

At the pep rally Thursday, Mitt Rogers and James Lacy gave pep talks to the student body. The pep squad appeared for the first time, and the choir sang the new Maverick Fight Song. Words to the song were written by Mrs. Small, choir teacher, and members of the fifth period choir class.

New students at Goliad this week are Jimmy Ray Taylor, Beverly Gaston and Suzanne Neal, all eighth graders.

Lamesans Get Key Cotton Posts

LAMESA - Two Lamesa men have been named alternates to key cotton posts.

Donnell Echols was named alternate to one of three Texas trustee posts open this year on the Cotton Producers Institute. Also named alternate as one of 12 delegates from the High Plains to the National Cotton Council was Bill Reid.

FLOWER GROVE

Pep Squad Announces Officers, Activities

By JACKIE CAVE

This is a very busy week at Flower Grove High as six-week tests are being taken. Grade reports will be received next week.

As Flower Grove doesn't field a football team, our pep squad activities have just begun in anticipation of the beginning of basketball season on Oct. 15. On Tuesday, the group met and elected officers for this year, and they are as follows: Virginia Pribyly, president; Becky Ross, vice president; Bonnie Hill, secretary; and Jackie Cave, treasurer. They immediately embarked upon a sales campaign to raise money for their various projects during the year. They are selling red pencils with the Dragon inscriptions, red and white litter bags with the Dragon emblem, and stationery with the school insignia.

The sophomore class sent its

first order for the school jewelry on Monday. The order should be received in two or three weeks.

The seventh and eighth grades are selling school sweat-shirts. They are \$2.75 and \$3.75 and are red with black letters and emblems. The Dragons will travel to Fluvanna next Friday to open the basketball season. This year the girls are coached by Mr. Karl Kitto. The team members are Cynthia Hill, Cathy Dennis, Janet Simmons, Senaida Ramos, Judy Cave, Nancy Seely, Janice Haggard, Judy Simmons, Charlotte Martin, Jackie Cave, Rita Pribyly, Bonnie Hill, Beth Holcomb, Virginia Pribyly, Becky Ross and Linda Lemon.

The boys team is coached by Mr. Harold Ross, and its members are Danny Howard, Rex Hopper, Robert Lueb, Eugene Hill, Frank Fleming, Frank Cruz and David Pribyly.

RUNNELS

Speech Class To Give Play On Youth Crime

By CARRIE WHEELER

The eighth grade speech class has been practicing a play on juvenile delinquency. It is an original play written and directed by Ken Abernathy, Curtis Condray and Terry Allison.

It is about a television special on juvenile delinquency.

The first scene is a college riot. Those in the riot are Joel White, Patti Fitts, Cynthia Dennis and Cindy Peary. David Wright is the news commentator.

The second scene is a gang fight. Those in the fight are Larry Cates, Tom Oliver, Gary Hager, Mark Allen, Kenneth Platte, Ken Abernathy and Hover Gomez. The policeman is Curtis Condray.

The last scene is about dope pushing. The pusher is Terry Allison, and the victim is Terry Clinton. The policemen are Curtis Condray and Mark Allen. The ambulance men are Terry Billingsly and Gary Hager.

This play will probably be performed sometime this week.

This past week, Runnels has been having the United School Fund Drive. David Long, student council president, announced over the public address system each day, the top home-room of the seventh and eighth grade. In all, the seventh grade gave \$137 and the eighth grade gave \$151. All together, it was a total of \$288. A dance was held in reward of the good job. This was one of the best drives Runnels has had.

Thursday, Oct. 9, a pep rally was held. The head cheerleaders were Anne Thomas, eighth grade; and Leslie Long, seventh grade.

The captains for the eighth grade football team were Vicki Woodruff, Clifford Crow and Nathan Baker.

The seventh grade P.E. classes completed their softball intramurals, Wednesday, during

the afternoon where the rummage sale that will be held the weekend of the Coahoma-Cooper football game. Mrs. Irene Harding will be in charge of the sale.

The Science Club met Monday night, Oct. 6, in the Science room. Lt. Samuel Travers presented the program on flying. Refreshments were served after the program. About 25 members were present.

The FHA will meet at 7:30 p.m. in the activity room in the high school building. Chaplain Lee Butler will present the program. A business meeting will be held after the program followed by refreshments.

A general assembly will be held Monday, Oct. 13. Inez Gifford will give a presentation of songs illustrated in glorious hi-fi color. An admission of 10 cents will be charged.

A pep rally was held Friday, Oct. 10, to promote spirit for the Coahoma-Rotan football game. Judges for the spirit stick were Mrs. Mary Crawford, Mrs. Nan McKinney, and Mike Carter. A pep talk was given by Coach Bill Easterling.

FORSAN Candidates Elected For Homecoming Queen

By PATSY REED
Classes met Monday to elect Homecoming queen candidates. The candidates are Susie Moreno, senior; Marcy Faught, junior; Kay Walraven, sophomore; and Gayle Moore, freshman. The crowning will take place as part of the half-time activities at the football game between Forsan and Hawley on Oct. 24. Parents of exes are encouraged to let them know of the date in which our homecoming is to be held.

player for the remainder of the season. Alton Callihan, after sustaining a knee injury was operated on Thursday in Midland. This was ironic since he gained entrance to the coveted Black Mamba Club only last week.

The pep rally was held seventh period Friday afternoon. Competition for the spirit stick stills grows. The freshmen have held it for quite awhile now. A speech was given by Tommy Hollandsworth.

Mr. David Redwine was elected teacher of the week. The honor is bestowed each week by the Student Council.

Gas Rate Hike In C-C Asked

COLORADO CITY (SC) — The Lone Star Gas Company filed a request for an increase in gas rates with the Colorado City Council last week, according to J. C. Wilkerson, local manager. Wilkerson will appear Monday night at the council's regular meeting to explain and discuss the rate raise with councilmen.

Gas Project Plans Are Inked

NEW YORK — Definitive agreements for the largest liquefied natural gas (LNG) project in history, involving capital expenditures of almost \$1 billion and designed to ease U.S. gas supply problems, were signed Thursday by El Paso Natural Gas Company and Sonatrach, the Algerian national oil and gas company.

SANDS HIGH Halloween Carnival Set For November

By SHARA DEE HAMBRICK
The Halloween carnival has been set for Nov. 1 in the Knott gym. Each class will have a booth and 10 per cent of all the money made on this booth will go to the Student Council, since it is sponsoring the carnival. There will also be a Halloween queen to be crowned at a coronation which will be held at the beginning of the carnival. Each class elected a boy and a girl for their representatives in this election. To determine the winner of this contest, each person will cast two votes. One for his representative and one for another representative outside of his class. The winner will not be revealed until the coronation, which begins at 7 p.m.

The junior high football team traveled to Klondike for their second game of the season. They were victorious over Union 30 to 18 in last week's game.

The Sands Mustangs had an open date this weekend but will return to play again next week when they meet Lubbock Christian in a home game.

TRICK OR TREAT?

SOUTH VIENNA, Ohio (AP) — Kids who go trick or treating here Oct. 30, will have more than Halloween witches and goblins to worry about.

Police will check their permits. The village Council has decided that local children who go trick or treating must obtain free permits at the village hall.

The action was taken to meet complaints from residents who said that in the past kids have flocked into this small community from other areas.

Nonresidents caught begging will be ushered out of town.

BIG SPRING DAILY HERALD

SECTION B BIG SPRING, TEXAS, SUNDAY, OCTOBER 12, 1969 SECTION B

Koosman Vs. McNally In Second Game

BALTIMORE (AP) — Mike Cuellar and the Baltimore Orioles brought the giddy New York Mets back to earth Saturday with a 4-1 victory over Tom Seaver in the opening game of the World Series.

Don Buford's leadoff homer in the first inning and a three-run fourth inning ruined Seaver, who had finished the regular National League season with 10 straight victories and added another in the playoffs.

Cuellar, a fast-working Cuban left-hander with a darting screwball pitch, mastered the Mets except for a few brief moments in the seventh inning when they loaded the bases with one out and scored a run on Al Weis' sacrifice fly.

A total of 50,429 tickets were sold but only 48,400 showed up, leaving gaps in the upper stands of Memorial Stadium despite the warm sunshine and clear skies. It was an orderly crowd with only a smattering of the wild banners that always decorate Shea Stadium for Met home games.

FANS EIGHT

Cuellar, the Orioles' top winner with a 23-11 record during the regular season, struck out eight Mets and walked four in his first World Series start. The Orioles acquired the veteran from Houston last December in a deal for Curt Blefary.

The Mets managed to stir up a mild fuss in the ninth when Ron Swoboda scratched a single off Cuellar's glove and Al Weis walked. But with two out, two on and the tying run at the plate, Cuellar made pinch hitter Art Shamsky bounce to Dave Johnson for the final out.

It was a routine game, polished off in 2 hours, 13 minutes with Buford's leadoff homer on Seaver's second pitch providing the most excitement.

Jerry Koosman, 17-9 during the regular season, will try to put the Mets back in the ball game Sunday at 1 p.m., CDT. He will be opposed by Dave McNally, 20-7, who won his first 15 games this year before losing Aug. 3. Both are left-handers.

After Sunday's game there will be an open date for travel Monday with the Series resuming at Shea Stadium in New York Tuesday.

Tech Red Raiders Upend Texas Aggies, 13 To 9

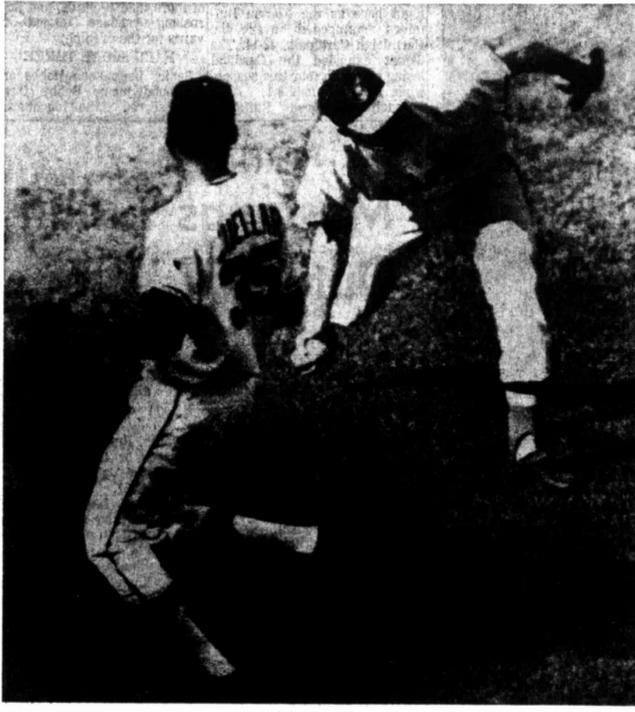

LUBBOCK, Tex. (AP) — Tech rode a long distance pass interference penalty to a desperation touchdown Saturday night and upset Texas A&M 13-9 in a Southwest Conference football thriller.

Danny Hardaway cracked into the Aggie end zone on a dramatic fourth-and-one situation with 1:16 left in the game to register the winning touchdown.

The winning drive covered 88 yards in 14 plays. The killer came on a 43 yard pass inter-

Sul Ross Wins

STEPHENVILLE, Tex. (AP) — Sul Ross rallied for three third-quarter touchdowns to break a close game open and beat Tarleton State 33-14 here Saturday.

BROOKS ROBINSON FOILS THE METS Throws out Rod Gaspar; Cuellar watches

Typical Cuellar Game, Says Baltimore Skipper

BALTIMORE (AP) — It was, Manager Earl Weaver said, "a typical Mike Cuellar game." The Baltimore Orioles' ace left-hander, a 23-game winner during the regular season, had just whipped the New York Mets 4-1 on a six-hitter in the opening game of the 1969 World Series. It was anything but routine for him.

"I was nervous before the game," the Cuban-born southpaw said. "It was not a regular game, you know." Cuellar baffled the Mets with an assortment of screwballs through the early part of the game, then switched to sliders and change-ups after that.

Steers Are 4th In Tennis Meet

ANDREWS — Big Spring High School, behind the third place finish of Stewart Bunn, finished fourth in the Andrews Invitational Tennis Tournament, Friday and Saturday.

Amarillo Tascosa won the nine-team tournament with 71 points. It was followed by Andrews, Snyder and Big Spring, which earned 61, 47 and 42 points respectively.

Trailing the Steer netters were Amarillo Caprock (38), Seminole

and Andrews "B" (26), Monahans (12), and Midland Lee (10). Bunn finished third of 16 individuals competing in the boys singles. Bobby Dyer, the other Big Spring singles player, ended up in 11th place.

Top Steer in the girls singles was Karen King. Miss King came in fifth. Lynda Meador finished in 11th place.

In boys doubles competition, Geren Martin - Steve Burnett gained sixth place while Alan Hill - Ray Kennedy took 11th place. In girls doubles, the Steer entries tied for seventh. They were Martha Boadle - Stephanie Dickens and Phyllis Faulkner - Lana Parks.

Steer results were as follows: Stewart Bunn; defeated Mike McDanel (And) 6-0, 6-2; Ricky Disney (Lee) 6-0, 6-4; Joe Don Bates (Sem) 6-0, 6-2; Lost to Winn Carter (Tas) 6-3, 3-6; Bobby Dyer; defeated Scotty Hoyer (Mon) 6-4, 6-1; William Rasco, 6-1, 6-3; Rick Whitfield (Mon) by default; Lost to Joe Don Bates (Sem) 2-6, 2-6; and Brad Wilson (Tas) 4-6, 2-6; Geren Martin-Steve Burnett; defeated Palmer-Dodson (Mon) 7-5, 6-2; Shirley Althez (Mon) 6-3, 8-6; Lost to Rudy Nelson (Medford) (And) 1-6, 5-7; and Howard Slagpa (Tas) 4-6, 1-6; Alan Hill-Ray Kennedy; defeated Wicks-Watson (Sem) 6-4, 6-3; Fulmer-Dodson (Mon) 7-5, 6-2; Lost to Maddox-Falls (Sny) 0-6, 1-6; and to Henthorn-Berryhill (Cap) 3-6, 6-1, 1-6; Kevin Susan Woods (Cap) 6-3, 6-4; Joan Brazel (Sny) 6-1, 6-2; Carla Derrina (Cap) 6-2, 6-1; Lost to Debbie McMurry (Tas) 2-6, 2-6; Lynda Meador; defeated Becky Sims (Sny) 2-6, 6-3, 10-8; Diana McCleod (Sem) 7-5, 6-3; Lost to Rudy Nelson (Cap) 0-6, 0-6; and to Kathy Wilson (Sem) 2-6, 2-6; Martha Boadle-Stephanie Dickens; defeated Thompson-Thompson (Sny) 6-3, 6-2; Lost to Hutcherson-Brosswell (And) 3-6, 8-6, 2-6; and to Cates-Duncan (Sem) 6-2, 1-6, 3-6; Phyllis Faulkner-Lana Parks; defeated Cypher-Fulcher (Mon) 6-3, 6-2; Lost to Castellan-Price (And) 2-6, 0-6; and to Robinson-Bowers (Cap) 7-5, 1-6, 9-6; Legend: Tas—Amarillo Tascosa; And—Andrews; Sny—Snyder; Cap—Amarillo Caprock; Sem—Seminole; Mon—Monahans; Lee—Midland Lee; and And "B"—Andrews "B".

Bucks Smash Spartan 11

COLUMBUS, Ohio (AP) — Brilliant Rex Kern fired three touchdown passes and ran for two more Saturday in guiding No. 1-ranked Ohio State to a convincing 54-21 Big Ten football romp over Michigan State before a record Ohio Stadium crowd of 86,641.

The Buckeyes, extending the nation's longest winning streak to 17, handed the outclassed visitors their worst conference defeat. It was the largest number of points since 1947 when Michigan hung a 55-0 loss on the Spartans.

A punishing Buckeye defense set the stage for the rout as a pass interception, a fumble recovery and punt return resulted in a 20 point first quarter explosion.

Mich State	7 7 0 7-21
Ohio State	27 7 6 14-54

Arkansas Porkers Shade Baylor Bears, 21 To 7

WACO, Tex. (AP) — Tailback Bill Burnett scored three touchdowns to push third-ranked Arkansas to a 21-7 Southwest Conference football victory over winless but inspired Baylor Saturday night.

The Bears, who last week were humiliated by Louisiana State 63-8, led in statistics after the scoreless first quarter as the powerful Arkansas ground attack couldn't get started.

It took the Razorbacks, Southwest Conference leaders in total offense, until 1:28 before half-time to get on the scoreboard.

Burnett climaxed a 65-yard drive with a one-yard plunge into the end zone.

Midway through the fourth quarter Burnett plunged over from the three to give Arkansas a two-touchdown bulge.

Trailing 7-0 at halftime, the fired-up Bears got a break when Hog fullback Bruce Maxwell fumbled and Baylor linebacker David Jones recovered to set up the Bears' score.

JACK MILDREN SCORES FOR OU Eight-yard run around end pays off

Texas Steers Rip Oklahoma, 27-17

Street's passing arm, Happy Feller's field goal kicking and a monumental Sooner bobbie for a 27-17 victory in the 64th meeting of the ancient rivals.

Feller's field goals of 27 and 21 yards gave Texas a shaky 20-17 lead going into the third period of the nationally televised battle before a capacity 71,938 in the Cotton Bowl.

DALLAS, Tex. (AP) — Second-ranked Texas, its famed triple offense mangled by an aroused Oklahoma defense, found offensive life Saturday on James' eighth-ranked Oklahoma

Street's passing arm, Happy Feller's field goal kicking and a monumental Sooner bobbie for a 27-17 victory in the 64th meeting of the ancient rivals. Feller's field goals of 27 and 21 yards gave Texas a shaky 20-17 lead going into the third period of the nationally televised battle before a capacity 71,938 in the Cotton Bowl.

DALLAS, Tex. (AP) — Quarterback Gary Fox, performing with poise and precision in snow and freezing cold, combined with a skilled Wyoming defense to defeat Texas-El Paso 37-9 Saturday in a Western Athletic Conference football game.

Fox, a sophomore who was inserted late in the first period after starter Ed Synakowski failed to move the club, passed for three touchdowns as the 18th-ranked Cowboys picked up their fourth consecutive victory without a loss.

The Wyoming defense, second nationally in rushing, continually stopped the Miner ground game while the secondary con-

tained quarterback Neil Lovorn's passes for most of the game. Fox delivered the killing blow to UTEP late in the third quarter as he rolled to his right and spotted flanker Bill Kyranakis waving his arms in the end zone. The pass zipped into one defender into Kyranakis' arms for the score.

Moments earlier defensive tackle Rich Trautwein ran 35 yards for a touchdown with an intercepted pass for the Cowboys. Defensive end George Kellerman deflected a Lovorn pass and it landed in Trautwein's lap and he went in untouched.

Feller's first field goal put Texas briefly into the lead in the third period but a 22-yard field goal with the wind brought Oklahoma into a 17-17 tie in the see-saw battle by Bruce Derr.

scored every time they got their hands on the ball, except at the end of the second and the fourth quarters, when time ran out. The offensive line turned in a fine performance; it consistently mowed down defenders to free backs for the long gainer. Six of Forsan's eight touchdowns were scored on runs of more than 30 yards, and their rushing yardage totaled 492 yards for the evening.

EACH SCORE THREE
Senior back Leon Hobbs and 135-pound junior Bobby Davis each scored three touchdowns

OVER PURPLE Mustangs Grind Out 19-17 Win

DALLAS (AP) — Southern Methodist put down its terrible swift sword and whipped Texas Christian with a plastic-popping crowd game Friday night for a 19-17 Southwest Conference Football victory.

The Mustangs, with pass artist Chuck Hixson frustrated by swirling 29-mile-per-hour winds and an alert TCU secondary, ran right at the hulking Horned Frog interior linemen.

Sixteen consecutive times the Mustangs came at TCU on the ground in a third quarter of bang-bang football.

Gordon Gilder's 25-yard touchdown gallop put SMU within a point of TCU at 17-16 in the third period.

Sophomore Chipper Johnson's first field goal of his career—a 26-yard effort—gave the Mustangs their winning margin in

the fourth period.

"They just whipped our line," said TCU Coach Fred Taylor. "That's all there was to it."

Hixson completed a career low of only 14 of 22 passes for 145 yards. But SMU gouged out 316 yards on the ground with little Darryl Doggett getting 109 and Gilder 77.

SMU Coach Hayden Fry said, "We'll take the run any time they give it to us. That's always our game plan."

TCU piled up a 17-10 half-time lead on spectacular passing by sophomore Steve Judy of Longview. Judy nailed speedster Linsy Cole with a 78-yard touchdown shot—longest in Horn Frog history. Cole also snared a 17-yard touchdown pass from Judy.

Busty Underwood kicked a 40-yard field goal, the first of his career, and the winless Horn Frogs appeared headed for victory.

Gary Hammond's five-yard touchdown run and Bicky Lesser's 37-yard field goal kept the Mustangs within reach the first half.

Then Fry brought Gilder off the bench for his second-half ground assault. SMU went 72 yards in 11 plays—all on the ground—in the third period, with Gilder getting 59 and the final 25.

Johnson's field goal with 12:31 remaining turned out the lights for the luckless and winless Horned Frogs.

SMU is now 1-0 in SWC play and 1-3 overall. TCU is 0-4 overall and 0-2 in league warfare.

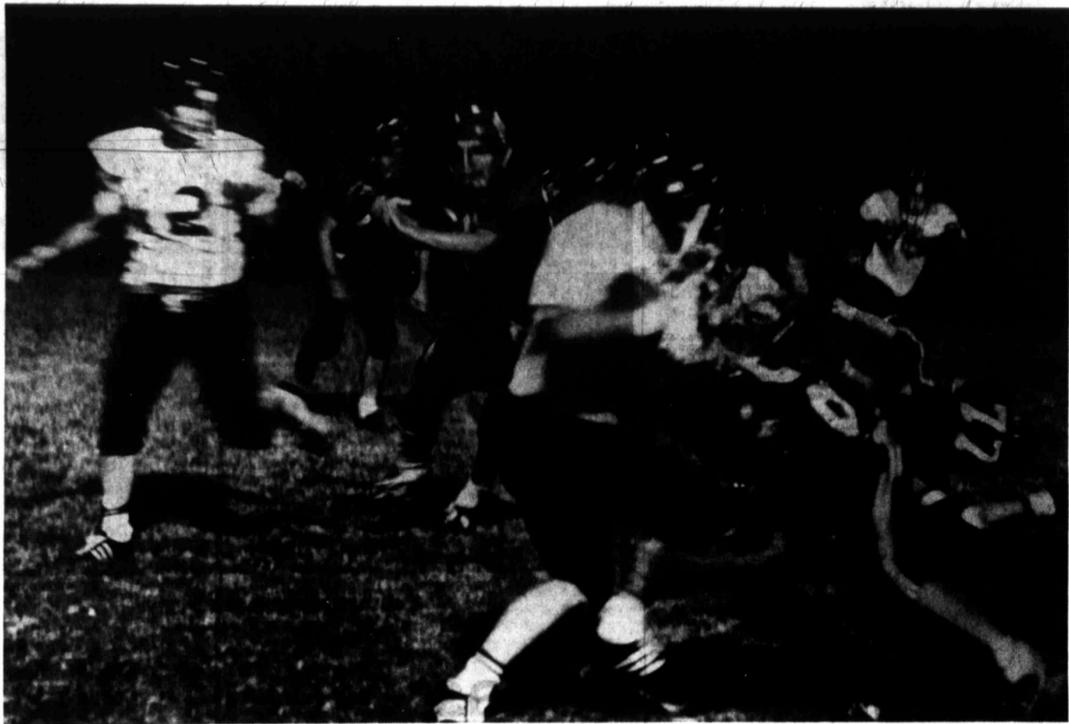

Gilder, a sophomore from Kountze, has seen sparse action for the Mustangs because of his weak blocking but he was spectacular when he had the ball.

"I was well pleased with our running game," Fry said. "Doggett did a good job inside and Gilder outside."

Even though he didn't have a great passing night, Hixson was elated after suffering through three close losses.

"It finally came, it finally came..." he said.

And with a sledge hammer, he might have added.

A DETERMINED RUNNER, A SUDDEN STOP AT LINE IN COOPER GAME
Ricky Peurifoy (in white), Big Spring, speared by Cougar

(Photo by Danny Valdes)

Safety Is Difference In Defeat Of Steers

after five starts, could never breathe easy until they picked up a down renewal with less than 30 seconds to play.

Cooper's ability to lock Big Spring's ground maneuvering in the deep freeze, in the end, wrote the script as Cooper partisans wanted it to happen.

A bobble, a pass defense that broke down on occasions and an inability to make the big third down play at times all damaged the Steers' chances to pull this one out but nothing could detract from Big Spring's epic effort.

A first quarter safety actually provided Cooper with the cushion it needed to win.

LONGACRE HELPS
Linebacker Roy Longacre crashed through to block Gary

Hinds' punt at the Steer 18 and the ball caromed out of the end zone. The dramatic turn of events came with 5:47 left in the period and gave the Cougars a 2-0 ledge.

Cooper went farther ahead with 9:56 to go in the second round when quarterback LeRoy Polnick, poisonous on his end sweeps throughout the first half, bruised his way ten yards off left tackle for a TD at the end of a 72-yard surge.

A 22-yard pass to Mike Mayes and a 20-yard completion to Bobby White fueled the drive.

Hobby Stevens gambled for two extra points by fleeing toward the flag after he had knelt as if to hold for John Villareal's placement kick. His logics was admirable but the

play didn't work.

Mike Barnes slowed Stevens at the line of scrimmage and Jimmy Farris snuffed him out at the one.

Big Spring came back to score with 5:55 left in the half after shifting into the Shotgun formation, which spreads the attacking team all across the field.

A pass from Hinds to Farris ate up the final 11 yards in a 70-yard march, a drive in which the Longhorns discovered they had an aerial weapon that can prove devastating.

MIX THEM WELL
A 15-yard strike to Lewis Switzer and an 11-yard clothesline shot to Mike Barnes, coupled with Hinds' heady run from the 21 to the 11, highlighted the advance.

When Farris speared the touchdown pass, he turned and dove into the end zone.

Hinds tried another aerial thrust to Barnes for the two extra points that would have delocked the score but it fell short.

In the third, Big Spring safety Rick Peurifoy was jarred loose from the ball when he ran back a punt from his five to the Steer 20 and Stevens made the recovery for Cooper.

Coach Merrill Green of Cooper, who had kept an ailing Ricky Bearden on the sideline, then felt compelled to dispatch the 187-pound senior into action.

Mildren spotted White in the corner of the end zone on the second play of the series and hit him with a TD pass from 12 yards out. When White came down with the ball, 6:07 remained in the quarter.

Villareal added the PAT on a kick and the Cougs led, 15-6.

With a favorable wind acting on their behalf in the fourth, the Steers took advantage of a wretched Cooper punt to score again, gaining possession on the enemy 44.

They covered the real estate in six plays and Mike Barnes got the score on a 13-yard pass from Hinds, bending low to make the catch. Only 1:09 remained on the clock at the time.

Big Spring was penalized five in a try for point but Hinds easily cleared the uprights with his kick.

The Steers tried an onside kick but Cooper recovered on its own 43 and maintained in possession thereafter.

PEURIFOY SICK
Big Spring might have been able to establish a better running game had not Peurifoy been sick much of the week. But Cooper's stellar defense against the runner created an inventiveness in the Big Spring secondary that resulted in 130 yards in aerial gains. Up until now, the Steers simply haven't been able to hook up on their passes. But Cooper became acutely aware of the Steers' air arm and grew to respect it.

Farris, Tony Dean, Robert Dennis, Fillmore Guinn, Roy Anderson, Randy Morgan and Mike Barnes — those were some of the boys who were operating on defense like lumberjacks felling trees while drawing overtime pay. The lessons they taught, the shocked pupils will remember for a long time.

Pups Record 2 Victories

STANTON — Both the seventh and eighth grade teams of Coahoma posted football wins here Thursday evening.

The eighth graders prevailed, 36-0, and now are 1-1 on the season.

Eddie Padron scored two touchdowns for Coahoma, one following an interception.

Glenn Washington raced 35 yards for one Bullpup tally. Ricky Bearden added another and tacked extra point tries in two different running attempts.

Keith Grant sailed 30 yards for another Coahoma score. Tim Tindol made one extra point.

Offensively, Dean Wood, Frank Coates, Kyle Kiser, Glenn Washburn and Grant looked good for the Pups.

The defense recovered four enemy fumbles and intercepted three passes. Coates, Grant, Valentine Torres, Wesley Bailey, Bearden, Washburn and Padron were salty on defense.

Coahoma's margin in the seventh grade contest was 14-0.

Putt Choate scored once from five yards out and Steve Pherigo went in from 30 yards away. Choate also accounted for an extra point.

Don Meacham, Choate, Pherigo, Keith Stone and Guy James appeared strong on offense.

Defensive giants included Emenecio Hinejosa, Choate, Pherigo, Brad Milliken, Meacham, Stone and Steve Newton. The seventh graders are now 3-0.

Racing Course Is On New Schedule

Jay Blankenship, owner of Jay's Greyhound Coursing track in Reagan County, announces he is now conducting Sunday afternoon sessions, starting at 1 p.m.

He hopes to hold that schedule through next spring.

Until recently, Blankenship has been staging race programs each Sunday morning, before the heat set in.

Blankenship also reveals he is in the process of installing a dummy track. All persons interested in greyhound racing are invited to attend, the owner said.

Blankenship's farm can be reached by traveling 18 miles south and two miles west of Garden City.

Roby Demolishes Loraine, 52 To 0

ROBY — The Roby High School Lions shelocked the Loraine Bulldogs, 52-0, in football action here Friday night.

The undefeated Lions held a 38-0 halftime margin, raised it to 46-0 after three quarters of play, then added a final touchdown in the last stanza.

YMCA To Teach Life Saving

A life saving course for both seniors and juniors will be offered at the local YMCA, starting Tuesday and extending through Nov. 20.

Classes will be conducted Tuesday and Thursday of each week, from 7:00 until 8:30 p.m.

Members will be charged a fee of \$5. Non-members pay \$15.

Those registering will get a manual, a card and a patch.

Individuals can register by calling the YMCA, No. 267-8234.

Persons must be 12 years of age or older to register as juniors. All 15 and older will be placed in the senior class.

Abilene Earns 21-13 Victory

BROWNWOOD — The Abilene High Eagles scored a come-from-behind 21-13 football victory over Brownwood here Friday night.

Trailing 7-6 after two quarters of play, the Eagles scored on a Don Cobb two-yard run in the third quarter and another Cobb one-yard ram in the fourth quarter to register victory. Abilene also added second half PATs on a Greg Sturman-to-Mike Brooks pass for two points and a Danny Edwards boot for another point.

Brownwood scored its second touchdown late in the fourth quarter to narrow the margin to 21-13, but Abilene hung on for the victory.

Abilene lost the statistic battle to Brownwood. The Eagles recorded 12 first downs, 148 yards rushing and 39 yards passing. Brownwood, meanwhile, registered 16 first downs, 174 yards rushing and 70 yards passing.

Loop Shades Bearkats, 40-20, In 3-B Debut

LOOP — Moser City and Loop High School staged an aerial show here Friday night with the Longhorns outflanking the Bearkats, 186 yards to 131 yards, and registering a 40-20 football victory.

It was the class B eight man district opener for both teams. The two now sport identical 3-2 slates, however, Loop owns the vital one game advantage in district standings.

The Bearkats, playing without halfback Floyd Schwartz, their leading scorer and defensive standout, let Loop's stringy freshman quarterback Danny Yocom whittle their defensive secondary, for two touchdowns and two PATs via the air routes. Yocom, who completed eight of 12 passes, set up other scores with his passing wizardry.

Schwartz, a 157-pound junior sparkplug, sat out the game with a leg injury incurred in the Smyer game. Without him, Garden City appeared demoralized. The key back is expected to return to the lineup for the Bearkats' second district clash with Sterling City Friday night.

OTHER INFLUENCES
It was more than Yocom's passing that spelled defeat for Garden City in the Loop engagement. Sloppy line play and ineffective tackling helped Loop's running backs to pile up 229 yards rushing.

The Longhorns scored in every period and owned a 12-0 lead before Garden City lighted the scoreboard early in the second quarter. Thereafter, every time the Bearkats scored a touchdown, Loop would at least match the TD and maintain comfortable margins.

Adding insult to injury was

the fact that Loop played almost the entire second half with a freshman backfield. The ninth graders scored two touchdowns against Garden City during that period.

SCORING PARADE BEGINS
Loop's initial touchdown came on its second possession of the football. Yocom capped a four play, 50-yard march with a 35-yard pass to halfback Barry McConal. It was Yocom's first pass attempt of the evening and a sign of bombs to come.

McConal, who figured in the first four Longhorn tallies, was on the firing end of the next Loop TD. He threw 34 yards to Rodger McKenzie with 43 seconds left in the first quarter.

The play climaxed a 55-yard march and gave Loop a 12-0 lead.

Garden City capitalized on a recovered fumble to score its first touchdown with the second quarter only two minutes old. Sophomore Earl Jansa pounced on a Longhorn fumble at the Loop two-yard-line. On the next play quarterback Steven Hirt went the two yards for the six points. The score came with 7:51 remaining in the half.

Loop retaliated eight seconds later. McConal ran back the Bearkat kickoff and upped the Loop lead to 18-6. The first Bearkat kickoff was called back on a Garden City off-side penalty. It gave Loop its second chance, and the Longhorns gratefully cashed in on it.

LOOP SCORES AGAIN
The Longhorns were back on the scoreboard with 3:39 left in the half. Yocom spotted McConal all alone and launched a 47-yard touchdown strike to him. Yocom followed that pass with a successful two point conversion pass to freshman Eddie Aldridge. It raised Loop's margin to 26-6.

Garden City, with its best sustained march of the evening, narrowed the gap to 26-12 before halftime. In seven plays, the Kats moved 50 yards to score with 1:12 left in the second

quarter. Halfback Pat Halfmann did the scoring honors with a two and one half run.

MCCONAL INJURED
McConal, the bruising Loop halfback, was injured on the second play of the third quarter. In his place came sophomore Eddie Sepeda and later freshman John Garcia. The backfield transformation slowed Loop's offense slightly. It even forced the Longhorns to punt for the first time in the game early in the third quarter. Garden City, meanwhile, could not capitalize on Loop's sudden relaxation and continued unoffensive play.

With a complete freshman backfield composed of Yocom, Aldridge and Garcia, the Longhorns moved 50 yards in 10 plays for the only score of the third period. Yocom tallied on a half yard run. Next he threw to another freshman end Mike Boggan for a two-point conversion. Loop, after three quarters of play, stood on top, 32-12.

BEARKATS' FINAL TALLY
Hirt scored early in the fourth stanza on a nifty 15-yard run around right end to bring Garden City within 14 points of Loop, 34-18. Halfmann, on a successful two-point conversion run, made it 34-20.

The touchdown appeared to inspire Garden City. Kenneth Chandler recovered an on-side kick and Garden City was back in business on the Loop 38-yard-line. Aldridge quickly stifled the drive four plays later when he intercepted a Hirt pass at the Loop 28.

The interception reversed the momentum and Loop doggedly marched 50 yards for its final touchdown. Aldridge scored the TD with 2:52 remaining for the 40-20 Loop advantage.

Garden City tried desperately to catch up with desperation passes. Loop however, was adamant in its stand. Garden City, for the game, attempted 22 passes. It completed only seven.

Score By Quarters:
Garden City 0 12 0 8—20
Loop 12 14 8 6—40

Low Alcindor Era Launched In NBA

By The Associated Press. The three-time All-American who led UCLA to an unprecedented three straight national collegiate championships, before getting a \$1 million bonus and the American Basketball Association.

LOOKING 'EM OVER

Permian Quick With Needle

By TOMMY HART. The University of Houston is developing the reputation as the football team most susceptible to upset when least expected.

TOM SEAVER

Before Alcindor plays his opener against Detroit Saturday, most of the NBA teams will have been in action.

After Tuesday's opener in New York's Madison Square Garden, three games are listed for Wednesday, one on Thursday and three on Friday.

On Wednesday Chicago is at Baltimore, New York at Cincinnati and Seattle at Atlanta. San Diego is at Phoenix Thursday.

On Friday Cincinnati is at Boston, Los Angeles at Philadelphia and New York at Chicago.

Topping off the first week's schedule six Saturday night games will be played following Alcindor's afternoon debut.

The night games pair Boston at Baltimore, Philadelphia at Cincinnati, Seattle at Chicago, Los Angeles at New York, Phoenix at Atlanta and San Diego at San Francisco.

Tommy Heinsohn has succeeded Russell as Boston coach and once more the question is will the Celtics again win the championship?

They surprised everyone last season by winning the NBA crown for the 11th time in the last 13 years after finishing fourth to Baltimore in the Eastern Division, then beating Philadelphia, New York and Los Angeles in the playoffs.

In the wake of Boston's upset victory over Los Angeles in the championship playoff, Butch Van Breda Kolff resigned as the Laker coach and became the new coach at Detroit.

Joe Mullaney, former Providence College coach, succeeded Van Breda Kolff at Los Angeles. Other new NBA coaches are Bob Cousy at Cincinnati and Lennie Wilkens at Seattle.

The ABA, which for a time held discussions with the established NBA looking towards a possible merger, has two new teams going into its third season. They are the Carolina Cougars and the Washington Caps as a result of franchise shifts from Houston and Oakland, respectively.

Rick Barry, who led Oakland to the ABA title last season, and Spencer Haywood, the U. of Detroit All-American who signed a sizeable bonus contract with the Denver Rockets, are expected to be among the leading players in the ABA.

Crane Trounces Wink Decisively. WINK — The Crane Golden Cranes, erupting for 26 points in the first period, continued its offensive rampage and buried Wink, 63-0, in football action here Friday night.

The Golden Cranes piled up 295 yards rushing and added another 196 yards passing, while coasting to the lopsided victory. The Wildcats, meanwhile, mustered only seven yards rushing and six yards passing.

Wingback Jerry Smith was the scoring leader of the evening. He scored four times on passes, twice on runs of 13 and 19 yards and ran back an interception 10 yards for a seventh touchdown.

Chiefs Oppose Oilers Today In Own Park

KANSAS CITY (AP) — Houston and Kansas City, two teams who could be playing for the American Football League championship come December, collide here Sunday in their only regular-season meeting.

A crowd approaching 50,000 is expected to be on hand in Municipal Stadium for the 3:05 p.m. CDT, kickoff. It is the Chiefs' home opener after four straight road games.

Kansas City, battling critical injuries at quarterback, tight end and offensive guard scored a 26-13 victory at Denver last Sunday in what Coach Hank Stram thinks might have been a turning point for the Chiefs.

"Although our loss at Cincinnati the week before really had little to do with the injuries," Stram said, "you never know how those things will affect you. The victory at Denver was a very important one for us."

The main thing the Denver triumph proved was that the Chiefs can win with third-string quarterback Mike Livingston. He has been shoved into starting duty by a knee injury to Len Dawson and an ankle injury to Jacky Lee.

Kansas City also will be without tight end Reg Carolan, guard Mo Moorman and reserve end Gene Trosch Sunday. Carolan underwent knee surgery before the season opened; Moorman was hurt two weeks ago, and Trosch was injured last Sunday.

"That's the measuring stick in pro football," Stram said. "You've got to win when you're hurt to be a great team."

Both Houston and Kansas City stand 3-1 and are flexing some defensive might to be where they are. Houston, which has tightened its defensive unit dramatically, has given up the fewest yards passing, 579, and has intercepted 11 passes in four games.

The Chiefs lead the AFL in fewest points allowed, 46, and fewest total yards yielded, 890. Stram calls the Oilers of Coach Wally Lemm the team to beat for the AFL Eastern Division title.

"I really think they have to be regarded as one of the top quality teams in the American Football League," said Stram.

They surprised everyone last season by winning the NBA crown for the 11th time in the last 13 years after finishing fourth to Baltimore in the Eastern Division, then beating Philadelphia, New York and Los Angeles in the playoffs.

In the wake of Boston's upset victory over Los Angeles in the championship playoff, Butch Van Breda Kolff resigned as the Laker coach and became the new coach at Detroit.

Joe Mullaney, former Providence College coach, succeeded Van Breda Kolff at Los Angeles. Other new NBA coaches are Bob Cousy at Cincinnati and Lennie Wilkens at Seattle.

Rick Barry, who led Oakland to the ABA title last season, and Spencer Haywood, the U. of Detroit All-American who signed a sizeable bonus contract with the Denver Rockets, are expected to be among the leading players in the ABA.

Crane Trounces Wink Decisively. WINK — The Crane Golden Cranes, erupting for 26 points in the first period, continued its offensive rampage and buried Wink, 63-0, in football action here Friday night.

The Golden Cranes piled up 295 yards rushing and added another 196 yards passing, while coasting to the lopsided victory. The Wildcats, meanwhile, mustered only seven yards rushing and six yards passing.

Wingback Jerry Smith was the scoring leader of the evening. He scored four times on passes, twice on runs of 13 and 19 yards and ran back an interception 10 yards for a seventh touchdown.

The victory maintained the Owls' undefeated football ledger for 1969.

The Reagan County ground game netted 230 yards and three touchdowns. The passing attack, which accounted for a fourth touchdown, totaled 69 yards.

Jets On Road Again, Face Cincy Bengals

By The Associated Press. The New York Jets, pro football's longest running road show, can expect a tough time in a final game before their long-awaited New York debut as Super Bowl champs.

Forced to switch two home games to the road because the baseball Mets are in the World Series, the Jets take on the up-and-coming Cincinnati Bengals in their fifth consecutive road game.

The Jets have broken even 2-2, away from home this season, their only victories coming against Buffalo and Boston, two of the American Football League's lesser lights. Cincinnati, surprisingly, no longer stands in that category.

The Bengals, 3-1, promise to give the Jets a super battle, despite the doubtful presence of brilliant rookie quarterback Greg Cook as both teams try to improve their second place standing.

The teams ahead of them also are in action Sunday as Houston, 3-1, ahead of the Jets in the Eastern Division, plays at Kansas City, 3-1, tied with the Bengals for second in the West. Oakland, 3-0-1, the West leader, travels to Denver, 2-2.

Boston played at Buffalo and San Diego at Miami Saturday night.

In the National Football League on Sunday, Green Bay is at Detroit, Los Angeles at San Francisco, Minnesota at Chicago, Pittsburgh at New York, Cleveland at New Orleans, St. Louis at Washington and Dallas at Atlanta. Philadelphia is at Baltimore in a Monday night contest.

The Jets, who had to switch the Boston game last week and the Cincinnati contest to the road, haven't played in New York since the AFL title game last December. They don't return until Monday night, Oct. 20, against Houston, providing no World Series games are rained out.

Along with road worries, the Jets have been hurting physically, but for the first time in several weeks, they will almost be at full strength. Only safetymen Jim Hudson is certain to miss the game, while fullback Matt Snell is doubtful.

Cook, leading the league in passing, might be ready to play after missing last week's only loss at San Diego with an injured arm. Sam Wyche replaced him.

Philadelphia (AP) — Former heavyweight champion Muhammad Ali, still hankering for a fight with Joe Frazier, is going to put on the gloves again against an as yet unnamed opponent.

Ali, also known as Cassius Clay, claimed at a Friday news conference here he has been granted a license to fight Dec. 15 in Mississippi.

"Frazier said he would fight me if I got a license," Ali said after he received the Mississippi license. "Well, bring on Frazier because I've got a license."

Frazier is recognized as the heavyweight champion in six states.

When asked whether he believes the public still recognized him as the heavyweight champion, Ali said, "I'm undefeated. That's all I'm going to say."

CASSIUS CLAY IS GRANTED LICENSE TO FIGHT AGAIN

Bob Charles Lays Claim To Picadilly Golf Title

VIRGINIA WATER, England (AP) — Bob Charles fired an eagle 3 on the first extra hole Saturday to beat Californian Gene Littler in the final of the Picadilly world match-play golf tournament. Littler had rallied to even the 36-hole match on the 34th hole.

Littler had a conceded birdie 4 on the par 5 37th.

The left-handed Charles, who was beaten in last year's final by Gary Player, hit a magnificent iron shot about four feet from the pin on the extra hole and then sank the putt for the eagle.

Littler reached the edge of the green with his second shot and then just missed his putt in a bid for an eagle.

The victory was worth \$13,800. Littler collected \$8,350 for second.

PLAY NOV. 18 Jayhawks Drill For Cage Debut

Three former area basketball stars are among the 14 Howard County Junior College players who will don Jayhawk uniforms for the HCJC roundball opener against Southwestern Christian College here Nov. 18.

Danny Clendenin, ex-Big Spring High standout, along with Coahoma's Billy King and Forsan's Terry Wooten, are the three local boys on the 1969-70 Jayhawk squad.

The largest single school representation on the D. E. Travis-coached team comes from Bel Air High School in El Paso. They are Sammy James, Cleve Carter and

Eagles Slam Weber State

DENTON, Tex. (AP) — North Texas State found a running game to complement the passing of Steve Ramsey Saturday, and defeated scrappy little Weber State 35-13.

Fullback Jim Sword rumbled 51 yards around end on TSU's first play of the game for a touchdown.

Sword left the game in the third quarter with 171 yards rushing. Flanker Roy Myers added 114 on the ground.

Ramsey added to his NCAA career touchdown mark by flinging a pair of scores to tight end Bob Heltner. Ramsey now has 55 touchdowns passes.

Ramsey put the ball in the air only 29 times. He suffered four interceptions, three of them in the enemy end zone.

Weber, from Ogden, Utah, picked up its points on an eight yard run by Sam Gipson and a 12 yard scamper by Buford Wilson.

Glenn Miller Orchestra Coming To Country Club

Buddy De Franco, rated by his peers as the leading clarinet player in the nation, will bring the Glenn Miller orchestra to the Big Spring Country Club Thursday evening.

Don Womack, president, said that there were a limited number of reservations (at \$15 per couple) remaining and will be issued as they last by the Country Club (7-7701).

The appearance of the band here is in connection with the club's golf shootout. Reservations for the dance are open to members for themselves and a guest.

De Franco has been leading the orchestra since 1966 when "Sergeant" Ray McKinley, who took over the direction of the band upon the death of its founder during World War II, retired. The Glenn Miller Estate persuaded De Franco to keep alive this American musical institution because of his unique credentials as a craftsman who ranks feeling and flawless tone

BUDDY DE FRANCO

combinations right up there with technical skill.

He has preserved the liquid reeds with the unique clarinet lead, the brass, the romantic ballads, and the jumping swing numbers mixed with imaginative novelties.

Interest in the famous orchestra has been revived with release of the film, "The Glenn Miller Story," which detailed the bumpy road which led Miller to stardom. He had been one of Tommy Dorsey's boys until he started his own or-

chestra in 1937. There followed several lean years when there was a flood of good bands in the face of a declining market. Then, Miller's experimentation led to a unique sound combination with reeds and the clarinet lead. Based on his theme, it became his trademark and rocketed his recordings to all-time sales records. While in service, Miller was lost at sea, but his widow permitted the band to continue under the baton of McKinley. Now De Franco is continuing the tradition.

Poitier As A Teacher

Past performances contribute to present triumphs, Sidney Poitier has found. The brilliant star of "To Sir, With Love," at the Jet Theatre in Technicolor, plays a young teacher in a tough East End of London school.

Helping Poitier break through student apathy and rebellion are facets of his psychiatrist role in "Pressure Point," his performance as a student in "The Blackboard Jungle," his understanding of the anti-social, garnered in "The Defiant Ones," his sympathy for people as evidenced in "A Patch of Blue" and "Lilies of the Field," which won him an Academy Award as best actor of the year. And yet, Poitier makes his teacher an entirely new, exciting and memorable characterization!

Grier, Dean New On 'Daniel Boone'

"Now that we are launching our sixth 'Daniel Boone' season on Thursdays," said Fess Parker, "I have been asked by several people: 'What will be new and different about it?'"

"We'll have a semi-regular country-western singer Jimmy Dean — plus a new co-star, famed former professional football player Rosey Grier." Dean was in several "Daniel Boone" episodes last season, but this year he will be appearing in the series on a regular basis as Josh Clements, a mountain trapper.

BLAZING GUNS — Robert Mitchum and George Kennedy come out shooting in this scene from "The Good Guys and The Bad Guys" opening Thursday at the Ritz.

'Good Guys, Bad Guys' To Open Thursday At Ritz

"The Good Guys and the Bad Guys," opening at the Ritz Thursday, is a turn-of-the-century western drama, set in time at the passing of the old West. Horseless carriages were beginning to replace the horse, but authentic heroes still remained, and so did authentic bad men.

Robert Mitchum, George Kennedy and Martin Balsam star in the production. Much of the film was shot around Chama, in the remote mountains of northern New Mexico.

The story concerns a western marshal, in times past a heroic figure, but now retired against his will; and an aging outlaw, once notorious, but now merely a face on a yellowing wanted poster. Marshal and badman, formerly bitter enemies, combine to thwart a group of young outlaws out to rob a train of a large shipment of money.

Mitchum plays the marshal, a has-been who makes a comeback to glory. Mitchum has starred in some of Hollywood's finest films. His most recent was "Young Billy Young."

Kennedy portrays the notorious outlaw who teams up with the marshal to become a good guy. Kennedy won the Oscar for best supporting actor in "Cool Hand Luke" and has since had starring roles in "Guns of the Magnificent Seven," "The Boston

Strangler," "Bandolero" and "Gaily, Gaily."

Balsam is the mayor of the town of Progress, a politician with a fine sense of humor and an eye for the ladies. Balsam won a best-supporting Oscar for "A Thousand Clowns" and the Tony award for "You Know I Can't Hear You When the Water's Running." His most recent film was "2001: A Space Odyssey."

David Carradine plays Waco, chief of the outlaw gang. His most recent role was that of the menace in "Young Billy Young." David is joined by his father, John Carradine, who portrays a railroad worker who tries to save the train from being robbed. It marks the first time the Carradines have appeared together in a picture.

Tina Louise plays a married lady caught by the blandishments of Mayor Wilker. She recently completed "The Wrecking Crew," with Dean Martin, thus resuming her film career after working three years as the star of TV's "Gilligan's Island."

Couglas Fowley, the veteran character actor, plays Grundy,

the bearded recluse who is Mitchum's friend. Fowley has appeared in more than 100 motion pictures, and had a continuing role in the "Pistols 'N' Petticoats" TV series.

Dick Peabody is the deputy marshal who succeeds Mitchum as marshal. The picture is Peabody's third feature film since he starred as Littlejohn in the long-running "Combat!" TV series.

Other important roles are played by Marie Windsor, who is the owner of a saloon-brothel; Lois Nettleton as the young widow in love with Mitchum; and Bobby Riha, as her son. Nick Dennis and George Dunn portray the train engineers. The outlaw gang is composed of John Davis Chandler, Phil Vandervort, Jimmy Murphy, Garrett Lewis and David Cass.

Buddy Hackett did a cameo role, as Mr. Peters, a townsman of Progress; and the governor of New Mexico, David Cargo, responded to a suggestion by director Kennedy, and played a newspaper reporter who asks Mayor Wilker if he intends to character actor, plays Grundy,

Miss Hepburn's Niece In Screen Debut At Jet

nounced Hoe-ton) makes her motion picture debut in "Guess Who's Coming to Dinner," in Technicolor at the Jet Theatre.

Starred in the social-comment comedy are Spencer Tracy, Sidney Poitier and Katharine Hepburn. All three are Academy Award winners. Any one of them ordinarily would be formidable for a newcomer to work with but Miss Houghton had something going for her, beside her impressive young beauty and talent.

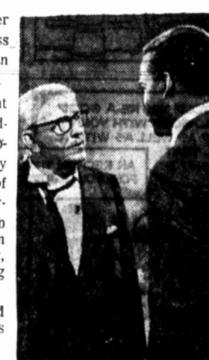

Miss Houghton just happened to be Katharine Hepburn's niece.

She bears a strong resemblance, vocal and facial, to the star. She has the same clipped Yankee diction that became a Hepburn trademark, the same tawny red hair and the same imperious tilt of the chin.

Miss Houghton also has some of the same stubborn independence for which her aunt is famous and, in the last analysis, she made it on her own. All she got from Miss Hepburn was a rock-like support and inspiration, and some good advice. She actually was recommended to Kramer by the talented Carl Reiner who had thought of casting her in his "Enter Laughing."

The attractive screen newcomer was auditioned and tested without being aware of it when, in New York one day, she received a call from Stanley Kramer, asking her to stop by and chat. Aware that her famous aunt was about to go to work on the new Kramer social-comedy of our time, Miss Houghton thought he was merely being friendly. During their three-hour chat, Kramer casually asked her to read sections of the screenplay. He signed her to play the daughter of Tracy and Miss Hepburn in "Guess Who's Coming to Dinner" without screen-testing the girl.

While a student at Sarah Lawrence College, Miss Houghton became interested in acting when she was persuaded by some Princeton students to work in their amateur movie. She later appeared in three similar amateur films and, after graduation, studied acting in New York. She won a small role in a Broadway play but, to the delight of her aunt, was

GUESS — Spencer Tracy and Sidney Poitier star in the Jet feature, "Guess Who's Coming to Dinner."

later fired. Miss Hepburn has always delighted in recounting the number of times she was fired from plays, at the start of her career, and relishes the thought that her niece is carrying on that particular family "tradition."

BUZZ SAWYER

MR. SAWYER!
MR. SAWYER!

WHAT'S THE MATTER, SEAT?
MR. MIKE! HE'S GONE!
YOU MEAN HE'S NOT ASLEEP ON THE BOAT WHERE WE LEFT HIM?
GONE! I'VE LOOKED EVERYWHERE! I'M AFRAID HE TRIED TO COME ASHORE, AND IN HIS CONDITION, SIR... I'M REALLY WORRIED.

PEANUTS

THERE'S A RABBIT!

CHASE HIM! CHASE HIM!
CHASE HIM! CHASE HIM!

YOU LET HIM GET AWAY ON PURPOSE!! I'M GOING TO REPORT YOU TO THE HEAD BEAGLE!!

I'M DOOMED! ONCE YOU GET REPORTED TO THE HEAD BEAGLE, YOU'VE HAD IT!

GASOLINE ALLEY

Eve, have you done anything with the dirty clothes? They were right here!

You know where they are?
I'll tell you if you won't tell I told!

Coach gaus Nubbin needs more tacklin' practice!

DICK TRACY

TO JOLLY LI'L OLD ENGLAND!

TO JOLLY LI'L OLD US --

TO JOLLY LI'L OLD MR. KENT, WHO MADE THESE.

TO JOLLY LI'L OLD ZODIAC GANG!
PST-PST-TALRUS, BETTER HIDE THE -- YOU WANT --

NANCY

I FEEL SORRY FOR EVERGREEN TREES... THEY NEVER CHANGE TO PRETTY COLORS LIKE THE OTHERS

OH, YES, THEY DO

MARY WORTH

YOU HEARD IT, JEAN?... I'M SORRY... AND ASHAMED THAT I LOST MY TEMPER!

BUT I WANT MY SON TO HAVE WHAT I KNOW IS BEST FOR HIM!
BLAST IT ALL! I'M NOT SOME KIND OF A SELFISH MONSTER... I WORK FOR THE RED CROSS--AND THE CHEST--AND A DOZEN GOOD CAUSES!

I WISH I HAD KEPT CALM AND MADE DICK SEE THAT HE CAN HOLD A JOB AND STILL HELP PEOPLE!
NOW LOOK! I WANT YOU BOTH TO SIMMER DOWN AND GET A GOOD NIGHT'S SLEEP... THEN HAVE A QUIET, REASONABLE TALK AT THE HOTEL TOMORROW!
THAT'S AN ORDER, DARLING!

LI'L ABNER

WHERE'S THE HAMMUS ALABAMUS AND THE WILDLY ROMANTIC WILD BOAR?
BOTH STILL IN D-DOG-PATCH, SIR!!

WHY AREN'T THEY HERE -- IN MY PORK AND BEAN POT?

THEY WILL BE, SIR, IF YOU'LL FOLLOW M-M-Y PLAN --
PSS! PSS!
CHUCKLE! -- YOU HAVE A PROMISING STREAK OF NASTINESS IN YOU, SON!!

REX MORGAN

THIS IS GOING TO BE A VERY SPECIAL NIGHT! IN FACT, I RENEW MY FAVORITE CHEF IN FROM NEW YORK JUST TO PREPARE DINNER FOR US.

WILLIE, YOU THINK OF EVERYTHING!
THAT'S THE PHONE RINGING IN MY OFFICE! I'M NOT HERE UNLESS IT'S WALLACE FROM NEW YORK!

YES, MR. WOODS!
JUST GIVE MR. WOODS A MESSAGE -- ONE OF THE NATIONAL MAGAZINES WILL BE CALLING HIM ANY MINUTE -- TELL HIM I THINK IT IMPORTANT THAT HE TALK WITH THEM.
YES, MR. WALLACE

BLONDIE

BLONDIE -- WHERE'S THE STRINGS OUTTA MY PJAMAS?

I DON'T KNOW, DEAR

DO YOU REALLY NEED IT?

YES, YOU MIGHT SAY THAT!

TERRY

TERRY PILOTS THE POLICE AIRCRAFT BACK TO THE SCANDINAVIAN COUNTRY'S CAPITAL.

HERE'S THE TAPE, SIR... TOO BAD WE COULDN'T GET BACK THE DESERTER, TOO...
SUPPOSE THE EAST GERMANS ARE WELCOME TO HIM THOUGH...

WHILE, ELSEWHERE IN EUROPE...
CLIVE, DARLING, YOU'RE A TRIPLE PAUNCHY FOR YOUR COSTUME, YOU KNOW.
SHUT UP AND POUR ME A MARTINI FROM THE THERMOS, CORA, DARLING!

RICK O'SHAY

RUSTLERS HAVE BEEN STEALING MY STOCK FOR THE LAST THREE MONTHS. I'VE LOST NEARLY THREE HUNDRED HEAD...

...AND THEY'VE KILLED FOUR OF MY HANDS... THE LAST ONE JUST A WEEK AGO. THAT'S WHEN I SENT FOR YOU.

I'M TOLD YOU'RE A GOOD MAN... GOOD WITH YOUR HEAD AS WELL AS WITH A GUN. THAT RIGHT?
AH RECKON THAT'S FOR YOU 'J RUBE.

...BUT AH CAN SAY ONE THING FOR ME... AH'M STILL ALIVE.

SMITTY

SCRAPPY! DON'T LET HERB OUT OF TH' YARD!

HE'S TAKE IT EASY, DOG!

?

SNUFFY SMITH

NUSS -- TELL DOC PRITCHART I GOT A TERRIBLE BAD CRICK IN MY BACK -- I CAN SCARCELY WALK AN' --
HE'S OUT ON A HOUSE CALL, LOWEEZY --

TH' BARLOWS HAD A FAMILY SPAT AN' DOC'S GONE TO PATCH UP LUKEY

WAIT TILL ELVINEY HEARS THAT!!

MOON MULLINS

BLAST IT, MAMIE!! WHAT DO WE PAY YOU FOR?

HE GETS UP EARLY WHEN I SLEEP LATE AND WHEN I'M UP EARLY, HE SNOOZES TILL NOON!!

SOMEDAY I'M GONNA LET THEM PEOPLE GO -- LORD PLUSH-BOTTOM AND I ARE COMPLETELY INCOMPATIBLE.

JUMBLE -- that scrambled word game
by HENRI ARNOLO and BOB LEE

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

Webb Honor Pilots Are Announced

Honor pilots at Webb AFB have been announced.

Maj. Phillip Raig, a senior Cessna T-37 training officer in the 3561st Student Squadron, pinned on the bronze oak leaves of a major, received a doctor's degree in jet flight instruction, and was selected the academic instructor of the quarter for the July through September cycle. A senior pilot who has logged 3,360 hours of flying time in seven different aircraft, he earned the doctor's certificate for recording 3,241 hours of accident-free flying with 1,626 hours of that total derived as an instructor pilot.

The major has been stationed at Webb since October, 1967. Prior to his arrival, he served with the 11th Tactical Reconnaissance Squadron, Udorn Air Base, Thailand. While there he registered 100 photo reconnaissance missions over North Vietnam, earning the Silver Star, Distinguished Flying Cross with 10 oak leaf clusters, and the Air Medal with nine oak leaf clusters.

An instructor pilot who received his wings at Webb and returned for instructional duties is the Instructor Pilot of the

Month in the 3561st Pilot Training Squadron. 1st Lt. Phillip Clark, Cessna T-37 Instructor Pilot assigned to "O" flight, won September's squadron award for his outstanding accomplishment of duties, acceptance of responsibility and dedication to purpose.

As an additional duty, Lt. Clark is responsible for his flight's standardization evaluation. He has been commended for a program which has greatly reduced perennial student weaknesses.

The lieutenant has frequently devoted much energy to areas outside the scope of instructional duties. On his own volition, he designed, fabricated and finished a flight planning room in one of the flight line buildings. This room has helped alleviate congestion at base operations and provided an atmosphere most conducive to learning.

LEGAL NOTICE

NOTICE OF PUBLIC HEARING ON PROPOSED ZONING CHANGE

According to our records, you are the owner of certain property which is located within the City of Big Spring, Texas. You are hereby notified that there will be a public hearing before the City Commission on October 28, 1969, at 7:00 p.m. on the following proposed zoning change: A change in zoning from "SF-1" Single Family Residential to "SF-2" Single Family Residential for supplemental Dwelling (Parking trailer home to be occupied by a member of the family) on the lots described below:

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

Section 5, 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence.

LEGAL NOTICE

NOTICE OF EXECUTION SALE

By virtue of an execution issued out of the District Court of Howard County, Texas, on a judgment rendered by said Court on the 16th day of October, 1968, in favor of SECURITY STATE BANK against JIMMIE D. JONES, No. 12-683 in such Court, I did on the 25th day of September, 1969, at 2:30 o'clock P.M., levy upon the following described tracts and parcels of land situate in the County of Howard, State of Texas, on the property of said JIMMIE D. JONES, to-wit:

All that certain parcel and piece of land out of and part of a 4.92 acre tract, hereinafter conveyed to Clyde McMahon by J. Arnett, et al., being out of and part of the Northwest One-Fourth (N.W. 1/4) of Section No. Forty-two (42), Township 11 North, T. 11 N., R. 17 West, Howard County, Texas, the parcel herein conveyed being more particularly described as follows:

BEGINNING at a 1/4-inch I.P. on the Southwest corner of said 4.92 acre tract and the Northwest corner of a 4.8 acre tract of land heretofore conveyed by G. G. Arnett, et al., to Clyde McMahon by deed recorded in Volume 477, Page 78 of the Deed Records of Howard County, Texas, said 1/4-inch I.P. bears from the Northwest corner of said Section 46, S. 14 degrees 46 minutes W., 76.47 feet;

THENCE N. 14 degrees 46 minutes W. along the West line of said 4.92 acre tract 41.5 feet to a 1/4-inch I.P. set in fence; THENCE S. 14 degrees 46 minutes W. along the North line of said 4.92 acre tract 63.2 feet to a 1/4-inch I.P. set in fence;

THENCE N. 59 degrees 27 minutes E. along the South line of said 4.92 acre tract 41.4 feet to a 1/4-inch I.P. set in fence;

THENCE S. 8 degrees 32 minutes E. along a line parallel to the East line of said 4.92 acre tract 47.2 feet to a 1/4-inch I.P. set in the South line of said 4.92 acre tract and the North line of said 4.8 acre tract;

THENCE S. 75 degrees 59 minutes W. along the West line of said 4.92 acre tract 53.13 feet to the Place of Beginning, and comprising 0.76 acre of land;

and on the 4th day of Nov., 1968, being the Tuesday next after Thanksgiving, at 10:00 o'clock a.m. and 4:30 o'clock p.m. on said day, at the courthouse door of said County, I will offer for sale and sell of public auction, for cash, all the above described property of the said JIMMIE D. JONES in and to said property.

Dated this 4th day of September, 1969. A. N. STANDARD, Sheriff of Howard County, Texas. BY ED CHERRY

MEN—TRAIN NOW

FOR A BIG PAY JOB AS A CLAIMS ADJUSTER

Former I.A.S. graduate, JAMES E. RALLS from Leavenworth, Kansas, now owns his own independent adjusting company. "I enjoy very much working as an adjuster and I feel that I must credit I.A.S. with my success in such a short time."

You can earn top money in this fast moving, action-packed field. Insurance investigators are urgently needed to settle claims worth billions of dollars annually. The tremendous increase of auto accidents alone have doubled the need of qualified adjusters. INSURANCE ADJUSTERS SCHOOLS of Miami, Florida, lets you train at home in your spare time followed by two weeks Resident Training at school owned facilities — MIAMI BEACH, FLORIDA or LAS VEGAS, NEVADA. Nationwide employment assistance. Don't delay! Write Today for FREE information. No obligation.

MRS. J. B. APPLE, owner and manager of Retail Merchants Association, provides a service which protects both customer and merchant.

MISS RUTH DYER, owner and manager of beauty shop bearing her name, creates new hair fashion for a customer, Mrs. Ber Beach.

MRS. JOHN HARDY, a teacher at College Heights Elementary School, stops to answer a question from one of her students, Monte Hamilton.

"The Professionals"

By JO BRIGHT

The National Federation of Business and Professional Women's Clubs had its birth at a meeting in St. Louis, Mo., July 19, 1919, when delegates and representatives from four societies of women sought to merge into one federation, which at the time, was reported would affect some 6,000,000 in the United States.

Groups meeting were the Women's Association of Commerce, the Business Women's Committee, the Women's Advertising Clubs of the United States and the National Altrusa Clubs.

Notables among the 212 delegates present were Lena Lake Forrest, insurance broker from Detroit; Lena Madelin, New York City attorney; Dr. Minnie L. Maffett, physician and surgeon from Dallas; and Ida M. Tarbell, noted writer and author.

These were only a few of the women doctors, lawyers, educators and businesswomen who realized, that to make themselves heard, women had to unite. The successful women of that day were acutely aware that they were discriminated against because of their sex.

Even at this early date Woman Suffrage was about to become a fact. The platforms of reforms adopted at this meeting included such present day sounds as "equal pay for equal work," "elevate the standards of the working woman" and "elimination of discrimination because of sex."

The powerful organization which came into being through this uniting is now celebrating its golden anniversary year which will be marked with National Businesswomen's Week, Oct. 19-25.

Sharing locally in the observance will be the 52 members of Big Spring Business and Professional Women's Club who are saluting all working women in Howard County.

Chapter officers are Mrs. Weldon Nuckolls, president; Miss Movelda Rhine, first vice president; Mrs. Garland Morrison, second vice president; Mrs. R. C. Nichols, recording secretary; Mrs. Dealon Stanley, corresponding secretary; Mrs. Leslie Lloyd, treasurer; Mrs. Rip Smith, assistant treasurer; Mrs. W. B. Sullivan, parliamentarian; and Miss Edith Gay, publicity.

The committee in charge of the local events is composed of Mrs. J. Robert Smith, chairman;

Mrs. J. B. Apple, cochairman; Mrs. Laura Boubek, Miss Sybil Head and Miss Gay. The week's theme is "The Value of Work."

On Oct. 19, the club will host a guest tea from 3 to 5 p.m. in the home of Mrs. Apple, 419 Westover, and on Oct. 21, guests will be invited to a banquet at Coker's Restaurant.

The local club, organized in October, 1939, designs its programs to better inform women of their responsibilities in today's world and to close the lines of demarcation between men and women in business, education, the professions, sciences and economics. There are three program areas of study: Personal Development, World Affairs and Civic Participation. Health and safety, legislation and finance are studied in conjunction with the others.

The club, which actively encourages women to run for places on city, county and school boards, has offered scholarships at Howard County Junior College for many years. The 1969-70 recipients are Mrs. Troy Williams and Miss Rosalinda Palomino.

Each year, the B&PW sponsors a picnic for employe-patients at Big Spring State Hospital and helps host the annual hospital party at Christmas.

For the past 50 years the National Federation story is a saga of modern women influenced by events that have gone before and the winds of change to come. It is the story of working women seeking and taking responsibility for their particular views and their consequent actions. The struggle for the right to vote that Susan B. Anthony had strived for over 60 years had left American women with a valuable legacy — clear proof that they could make their efforts count.

Since that time, the state and national federations have taken the lead in pushing through legislation in the interest of women throughout the country — not only business and professional women, but women in all walks of life.

Much ground has been won, but B&PW clubs feel there is still a long fight ahead for (1) a constitutional amendment to provide equal rights for women, (2) equal employment opportunities, (3) removal of inequities, (4) major changes in

(Continued From Page 1)

the tax structure with regard to single women workers or working mothers who support their children, and (5) more effective crime control and law enforcement. Mrs. Hermine Tobolowsky, an attorney from Dallas, is the B&PW state legislative chairman.

The B&PW National Foundation is supported by every member and disburses money from three basic funds: one for graduate research at the doctoral level which contributes to knowledge of woman's role in economics, politics or social spheres. The second is a Latin-American award, a grant which provides for study in the United States with the proviso that the recipient return to her own country to teach. The other fund enables a B&PW member to spend a year in participation and study of one or more agencies or commissions of the United Nations which encourages understanding of government.

The B&PW Texas Federation is as old as the parent group and is now headed by Mrs. Doroth

L. Pendleton of New Boston, with Federal Judge Sara T. Hughes of Dallas as honorary president. Divided into 15 districts, the state has 7,300 B&PW members. Besides backing legislation for women, it urges women to educate themselves in areas that advance careers and enrich their lives. On the state level, clubs contribute to funds which further nursing, medical research, world friendship and the education of foreign women to give them an appreciation of democracy.

International in scope, B&PW clubs encompass 40 countries representing 228,000 individual members. Twelve delegates from the United States attended the international congress held in London during August when the incumbent president, Lady Barbara Littlewood, urged women around the world to "concern yourselves with the survival of human values in our technical age." Patience R. Thomas of Australia will serve as president for the coming triennium, which will climax with the twelfth congress in Edmonton, Alberta, Canada, in 1971.

STRESS EDUCATION — Strong emphasis is put on higher education by members of the Business and Professional Women's Club who offer scholarships at Howard County Junior College. This year's recipients are shown here with club officers. At front are Miss Rosalinda Palomino and Mrs. Weldon Nuckolls, club president. Standing are Miss Movelda Rhine, first vice president and scholarship chairman, and the second recipient, Mrs. Troy Williams.

Historical Facts Told About City

Joe Pickle, editor of the Big Spring Herald, reviewed the history of Big Spring at Thursday's luncheon of the Permian Basin Medical Society Auxiliary at Big Spring Country Club.

He traced the history of Big Spring back to 1535, when Cabeza de Vaca probably stopped at the spring, through Indian times to Capt. R. B. Marcy's "discovery" of the spring in 1849. Then he touched on the great ranch empires and the legendary character, the Earl of Aylesford; the land and oil booms; through the time when most of today's institutions had their greatest flower.

Mrs. John Affleck, president, announced plans to collect coat hangers for the Future Nurse's Club at Big Spring High School. The club will paint and sell the hangers.

The next meeting will be a brunch held jointly with Odessa and Midland at 10:30 a.m., Nov. 5, in the Midland Country Club. The meeting will honor the state president.

FOCUS ON FAMILY LIVING

Your Child Is An Individual, Understand His 'Growing Up'

By CATHERINE CRAWFORD COUNTY HD AGENT

The way each child grows is unique. Just as the fingerprints of each person differ, every individual is a little different from every other.

Differences are influenced by inherited traits and environment. Two children in the same family usually grow and develop at different speeds. This is normal and healthy. Parents can't hurry or prevent growth. They can only provide a healthy happy environment in which the child can grow.

INFLUENCES
Inborn differences that are due to their environment are the foundation on which a child's development is built. Some children learn slowly; others learn rapidly and easily. Some have an unusual capacity for understanding abstract concepts and working creatively with ideas.

Basic traits of temperament are apparent at birth. Some babies are quiet and cuddly; others active and independent. Some react quickly, while

others respond more slowly. Some react to frustration with lusty crying and active body movements; others do not seem so deeply disturbed. Even in the first days of life, some babies have more energy and drive than others.

But whereas heredity determines the potential that can be developed, the environment determines how and even whether this potential is developed. The influence of heredity and environment on the development of a child's personality cannot be separated. It is useless to argue whether heredity or environment, nature or nurture, has the greater significance for a child's development because both affect the child's ability to grow into a mature adult.

GROWTH PATTERN
To help a child grow to his full potential one must understand the over-all sequence and pattern of growth characteristics of all children. As we talk about stages of development, we need to remember, however, that there is no sharp cutting-off point at which one stage ends and another begins. Each stage passes naturally into another. At any point in development, a child still shows some of the needs of a previous stage of growth even as he shoots forward into a more advanced stage of development.

The toddler occasionally behaves like an infant, although at times he carries out activities more typical of the run-around. The adolescent sometimes returns to the dependency of a grade school youngster and, at other times, displays the responsible behavior of a young adult.

If we are to understand and help children grow, we must accept the fact that within a range termed "normal" some children will develop much more rapidly than the average, others much more slowly. In the total process of growth they will all reach normal adulthood. In every group of children, some may be as much as

several years ahead of their age group physically, mentally, emotionally or socially, while others may be as far behind. So when we speak of "the five-year-old" or "the 10-year-old," we are talking of averages — the stage of development most children reach around five or 10. Some children may reach "five-year-oldness" at four or even three, others not until six or seven.

INDIVIDUAL FOCUS
Alert parents and others who work with children should always keep the individual child foremost in their minds, seeing him against the background of the over-all developmental picture. If a child's growth seems to differ greatly from that of most children his age, it is wise to look for a reason.

Adults can help a child with his own special way of growth. Understanding guidance from parents and teachers can help the child grow with trust for others and a basic feeling of security.

AFFECTION — The first and perhaps greatest need of a child is love. When you feed, change or cuddle a child, you express this love. Adults continue letting a child know they love him in many little ways as he grows older. Adults bandage scratches, attend baseball practices and leave a night light when a child is frightened of the dark. The child's feeling of security develops from an accumulation of adult expressions of affection.

SELF-RESPECT — During the pre-school years, a child goes through a most important learning period — the discovery of self. It is at this point that

parents grow weary of "I-I-I". The child is developing a sense of self-respect and independence. It is a trying time; the child does not know his own limitations. During this time it helps if parents make as few rules as absolutely necessary, and then are firm about those they do make.

ABILITIES — All of growth is interwoven. A part of a child's independence comes as he learns to do things alone — feed himself, tie shoelaces, put on his coat or put away his toys. Every child needs to develop these and other abilities and skills. Parents can help by giving the child the time and opportunity to develop many different abilities.

VALUES — Another special need of the child is a set of values. Values are really standards by which we make the choices or decisions we face. The child sees his parents making these choices every day. His ideas about what is important — such as to tell the truth, to be kind — are growing as he watches adults. Parents help reinforce these ideas when they approve his being kind or doing something else that they value. Adults' approval builds and reinforces a child's values.

Information in this article has been adapted from a Texas A&M University Agricultural Extension Service Fact Sheet entitled "Your Child — An Individual" prepared by Jennie C. Kitching, Extension Specialist in Family Life Education. This fact sheet and other publications of child care and development are available upon your request from the Howard County Extension Service office located in the basement of the Howard County Courthouse.

Club Tours Gardens

The Green Thumb Garden Club took a field trip Tuesday and toured the gardens at the homes of Mrs. Arlis Ratliff, Mrs. Stephen Currie and Mrs. James Currie in Garden City. Following the tour, the club had lunch at Furr's Cafeteria.

Workshop For PTA At Sweetwater

The 16th District, Texas Congress of Parents and Teachers will hold its fall workshop Oct. 14 in Sweetwater at the First Baptist Church, Third and Elm.

Theme for the workshop will be "Chains of Communication," an exploration of the generation gap between parent-teacher and the child.

There will be a panel discussion with cross questions to parents, administrators and students, to be followed by small discussion groups.

Registration will be held at 9:30 a.m., and the sessions will begin at 10 o'clock. The meeting will conclude by 2 p.m. The Maryneal and Philip Nolan PTA's will be host for the workshop, and Mrs. Glenn Wortham is handling reservations for the luncheon.

Gift Party Honors Mrs. D. J. Davis

Mrs. Dee Jon Davis was honored at a neighborhood coffee and gift party Friday morning in the home of Mrs. Akin Simpson, 1600 Indian Hills. Mrs. A. K. Guthrie was co-hostess.

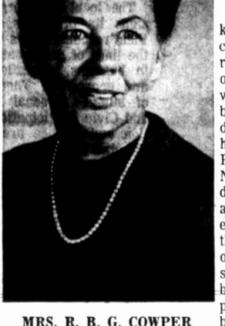

A daughter, Shelly Dianne, was born to Mr. and Mrs. Davis on Sept. 28. The refreshment table was laid with a gray linen cloth and centered with an arrangement of a miniature baby buggy surrounded by sprays of English ivy and pink dwarf zinnias. The coffee service was brass and copper, and other appointments were brass.

Mrs. Cowper Heads Republican Women

Mrs. R. B. G. Cowper was named president at the West Texas Republican Women's Club for the new year when the group met Thursday at the home of Dr. and Mrs. M. A. Porter, 1608 Indian Hills.

Other officers elected were Mrs. Delner Poss, vice president; Miss Helen Ewing, secretary; Mrs. Dan Wilkins, treasurer; and Mrs. Akin Simpson, reporter.

Mrs. Cowper appointed Mrs. Floyd Mays membership chairman and Mrs. Grant Boardman ways and means committee chairman. The appointments of the telephone committee chairman and the political action chairman are to be announced later.

MRS. R. B. G. COWPER

Aims and goals of the club were discussed, and Mrs. Cowper advocated studies and activities which will "enlarge individual freedoms." Other goals named are: (1) to promote the two party system in Texas; (2) to educate members in local, state, and national affairs; and (3) to promote the candidacy and election of qualified members of the Republican party to local, state, and national offices.

A bi-partisan panel of knowledgeable persons will discuss the ramifications of the tax reform bill as it will affect the ordinary citizen at a meeting which will spearhead a membership drive of the group. The discussion is scheduled to be held at the Flame Room of the Pioneer Natural Gas Company Nov. 13. The panel will include discussions of the oil depletion allowance cut, the removal of exemptions of foundations, and the effect of the tax reforms on the stock market and the sale of state and municipal bonds. The public is invited, and pie and coffee will be served by the women's club members.

MISS RUTH LEMON
Ruth Lemon Becomes Therapist

Miss Ruth Lemon, daughter of Mr. and Mrs. Joe Lemon of Ackerly, has become a physical therapist on the staff of the Hot Springs Rehabilitation Center, Hot Springs, Ark.

Miss Lemon received her BS degree in Physical Therapy, June 10, 1969, from the University of Texas Medical Branch at Galveston. She then did clinical affiliation work for 16 weeks in four rehabilitation departments, Jeff Davis Hospital in Houston, the Cerebral Palsy Center in San Antonio, the U.S. Public Health Service in Galveston, and Baylor Medical Center in Dallas.

Upon completion of the affiliate work, she was certified as a physical therapist by the University of Texas Medical Branch at Galveston at a recognition dinner, Sept. 27. She is a member of the American Physical Therapy Association. Her work in Hot Springs will consist mainly of rehabilitation of amputees and paraplegic patients.

Miss Lemon is a graduate of Sands High School and attended McMurry College, the University of Texas in Austin and the University of Texas Medical Branch at Galveston.

MRS. MICHAEL WAYNE BACK

Webb Chapel Setting For Nuptial Service

Nuptial vows were exchanged by Miss Phyllis Ann McMains and Sgt. Michael Wayne Back in the Webb Air Force Base chapel Friday evening with Chaplain Edward G. Galloway performing the ceremony.

The organist, Mrs. Virginia Martin, played "Traumeri," "Romance" and the traditional wedding march.

Parents of the couple are Mr. and Mrs. Marion D. McMains, 1601 Donley, and Mr. and Mrs. Jesse Back of Wellington, Ky.

The bride was attired in a street-length wedding dress of white crepe with Valenciennes lace motifs bordering the wide V neckline and enhancing the long fitted sleeves. The molded bodice ex-

tended into the dress front, and the natural waistline was marked at either side with soft gathers which formed the skirt. Her bouffant veil of illusion fell to elbow-length from a double bow of white crepe, and she carried a cascade bouquet of white Frenched carnations circling a white orchid.

ATTENDANTS

Miss Mary Evans, maid of honor, wore a street-length dress of turquoise blue bonded crepe and a white carnation corsage.

Marion D. McMains Jr., brother of the bride, was best man. Ushers were Airman 1.C. Allan Bell and Sgt. Jerry Stone, both of Webb AFB.

The couple left on a wedding trip to an undisclosed destination, and upon returning will be at home at 511 Goliad.

The bride is a graduate of the Nocona High School, where she was a member of the Future Homemakers of America and the Library Club. She attended Bud Hall's Beauty College and is presently employed at Lin-

ette Beauty salon. The bridegroom graduated from Menifee County High School in Kentucky, where he was a drum major and a member of the Beta Club. He joined the Air Force in 1967.

RECEPTION

A reception was held in the chapel annex. Mrs. Taylor Rudd and Mrs. Merle Hodnett presided at the refreshment table, which was laid with a white lace cloth and centered with a blue centerpiece. Crystal appointments completed the setting. The tiered wedding cake was decorated with blue confection roses and topped with a miniature bridal couple.

Miss Patty Goodman presided at the guest register, and other house party members were Mr. and Mrs. M. B. Weyerts, grandparents of the bride; Mrs. Eula McMains, grandmother of the bride; and Mrs. James Callihan and Jimmy Wayne, all of Uvalde.

Out-of-town guests were Mrs. L. J. Franklin, Uvalde; and Mrs. Cecil Tidwell, Del Rio.

Music Club Hears Of Holy Land

STANTON (SC) — Mrs. Glenn L. Brown spoke on the Holy Land, where she visited last summer, at Wednesday's meeting of the Stanton Music Club in the Reorganized Church of Jesus Christ of the Latter Day Saints. Mrs. Carl Leonard Jr. was hostess.

A presentation of organ solos was by Diana Payne, Betty Anderson and Mrs. Leonard.

It was announced that the district meeting of the Texas Federation of Music Clubs will be held Saturday in Midland.

Guests were Miss Payne, Miss Anderson, Mrs. Steve Church, Mrs. Richard Payne and Mrs. Billy Houston. The next meeting will be Nov. 12 in the home of Mrs. Roy Koonce.

Talk Emphasizes Music Training

"No matter what life holds for our children, one thing cannot be taken away from them," said Mrs. Jim Baum. "That is the ability to enjoy either as a listener or a performer, the wonderful world of music."

Mrs. Baum was guest speaker at Tuesday's meeting of the Park Hill Elementary School Parent-Teacher Association.

Choosing the topic, "Music and Your Child," she discussed the importance of music in children's education. She told the group how to select a piano and an instructor and explained children's practice sessions. Mrs. Ron Phillips introduced the speaker.

Mrs. Jerry Barker, president, announced the Halloween carnival will be held Oct. 25 at the school.

MR. AND MRS. T. C. CLEARMAN

T. C. Clearmans To Mark Anniversary

Mr. and Mrs. T. C. Clearman, 1013 Wood, will celebrate their golden wedding anniversary today with a reception in their home from 2 until 5 p.m. The couple's daughter, Mrs. N. B. Perkins, and daughter-in-law, Mrs. Wesley Clearman of Kermit, will serve as hostesses. All friends and relatives are invited to attend the affair.

The refreshment table will be laid with a hand-crocheted cloth and centered with an arrangement of fall flowers. Crystal and silver appointments will complete the setting.

The honoree will wear a green suit and will be presented a white carnation corsage.

Mr. and Mrs. Clearman have eight children. Mrs. Art Shanks, Chandler, Ariz.; Mrs. John Brown, Riverside, Calif.; Mrs. C. E. Nelms, Fort Lauderdale, Fla.; Mrs. Jerry Brice, Auburn, Wash.; Wesley Clearman, Kermit; Troy Clearman, Pawnee, Okla.; and Mrs. C. L. Lunsford and Mrs. Perkins, both of Big Spring.

The couple met in Pilot Point, where the former Miss Abbie Godi lived on a cotton farm with her parents, the late Mr. and Mrs. H. T. Godi. Mr. Clearman came to the farm to pick cotton. They kept company about a year and were married Oct. 12, 1919, in the home of her parents.

Shortly afterward, the couple moved to Clyde, where he farmed until they moved to the Vincent community in 1928. They lived there 18 years, and later spent 17 years in Lenora. Mr. Clearman retired five years ago, and they moved to their

present address in Big Spring.

The Clearmans are members of the Trinity Baptist Church, and Mrs. Clearman is a member of a TOPS Club. She spends her time caring for the home and enjoying her favorite hobbies of knitting, crocheting and embroidering.

**Bride-Elect
Honored At
Gift Party**

Miss Jacque Jones, bride-elect of Sgt. Robert Timothy Mauch of Mountain Home Air Force Base, Idaho, was honored with a bridal shower Thursday evening in the home of Mrs. Robert Boadle, 2505 Fisher.

Cohostesses were Mrs. Charles Boadle and Mrs. Edman McMurray.

The bride was attired in a navy blue pin-striped shift and was presented with a white corsage, as was her mother, Mrs. Ben Boadle, and her grandmother, Mrs. H. G. Miles, of Sand Springs.

The refreshment table was laid with a blue cloth overlaid with white net. Milk glass and silver appointments completed the setting. The bride-elect's colors of blue and white were used in the decorations.

The couple will marry Oct. 27 in Great Falls, Mont.

Club Sets 'Shoot Out' For Next Weekend

Mrs. Floyd Mays, president of the Ladies Golf Association, Big Spring Country Club, announced the first annual "Big Spring Shoot Out," Oct. 17-19, which will include a dance, dinner, golf, horseshoes and other activities, during Friday's luncheon at Big Spring Country Club.

Mrs. John Taylor, golf chairman, reminded the members of a playday for women golfers Oct. 21 at the club. On Nov. 1-2, a Mr. and Mrs. tournament will be held, and the women's club tournament is slated Nov. 11-13.

Mrs. Mays announced new carpets and draperies have been ordered by the association to refurbish the club. Mrs. James E. Williams won the centerpiece.

Hostesses were Mrs. Jaspar

Atkins, Mrs. Arnold Marshall, Mrs. Monroe Gafford, and Mrs. G. F. Dillon.

Mrs. Jimmy Butler, teen chairman, resigned because she and her family are moving from the city.

Tint Table Cloth

To have a really pretty table, tint one of your old white linen tablecloths a delicate color to either match or correspond with your china.

Altrusans Meet For Initiation

Mrs. R. F. Dorsey was initiated as a member of the Altrusa Club at Thursday's meeting in Coker's Restaurant. Mrs. Zarah LeFevre and Mrs. Norman Read conducted the initiation.

Mrs. G. C. Broughton Jr., president, read a letter of appreciation from Shirley Ray, club scholarship recipient at Howard County Junior College.

Six members have joined the club since the membership drive began in July. They are Mrs. Steve Baker, Mrs. Dorsey, Mrs. Willard Sullivan, Mrs. Loyd Wooten, Mrs. C. R. Rhoades and Mrs. J. B. Apple.

Programs Slated By Fairview Club

Programs for the forthcoming year were planned by members of the Fairview Home Demonstration Club at Tuesday's meeting in the home of Mrs. W. H. Ward.

The home demonstration exhibit was announced for Oct. 23, and members made articles for display. Mrs. O. D. Engle gave the HD City Council report, and Mrs. C. A. Smauley presided.

The next meeting will be in the home of Mrs. Smauley, 1000 Howell, on Oct. 21. Mrs. Delaine Crawford will present the program.

Jim Lockharts Announce Birth

Mr. and Mrs. Jim Lockhart, 1300 Monmouth, are announcing the birth of a daughter, Kathryn Lynn, born at 8:23 a.m., Oct. 4, at Medical Arts Hospital. The infant weighed six pounds, one-half ounce. The mother is the former Katharine Clifton, and the maternal grandparents are Mr. and Mrs. S. L. Clifton of Big Lake. Paternal grandparents are Mr. and Mrs. Carl Lockhart, Gail Route, Big Spring.

WOMEN'S SHOE COLLECTION

BARNES PELLETTIER

Miss Laura Campbell Weds D. C. Kissell

Miss Laura Ann Campbell became the bride of S. Sgt. Davis C. Kissell in a morning ceremony held Saturday in the Immaculate Heart of Mary Catholic Church with the Rev. William Meagher officiating for the double ring ceremony.

Parents of the couple are Mr. and Mrs. E. D. Campbell, 2700 Larry, and Mr. and Mrs. Bernard M. Kissell of Louisville, Ky. Mrs. Kissell was here to attend the ceremony.

The organist, Miss Debbie Dunlap, presented the prelude which included "Wedding Prayer," "With This Ring" and "I Love Thee." The altar was enhanced with twin baskets of gladioli, chrysanthemums and emerald fern, and white satin bows marked the family pews.

SATIN GOWN
The bride was attired in a formal gown of embossed satin with A-line skirt and petal point sleeves. The high-rise collar and bodice were unadorned, and the Empire waist was marked by a velvet bow with streamers falling to the hemline of the gown. A crown of seed pearls held her elbow-length veil of illusion, and she carried a cascade of pink Frenched carnations centered with a white orchid.

Attending the bride were Mrs. Steven Sojka of Riverside, Iowa, matron of honor, and Miss Ester Coates, bridesmaid. Their identical floor-length gowns were of pale pink pique trimmed with lace. Each carried a nosegay of pale pink mums with rosy pink satin streamers, and their headpieces were pink pique pillboxes, briefly veiled.

The best man was Airman I. C. Steven Sojka, and ushers were Walter E. Campbell, Sgt. Ralph Shafter and Carl Jackson.

SCHOOLS
The bride, a member of the Order of Rainbow for Girls, is attending Big Spring High

MRS. DAVIS C. KISSELL

School. The bridegroom, a graduate of DuPont Manual High School in Louisville, is attending Howard County Junior College while stationed at Webb Air Force Base.

The couple was honored at a reception in the fellowship hall of the church where Miss Janice Honey presided at the guest register. Members of the house party were Miss Linda Kennedy, Miss Debby Dunlap, Miss Nancy Bortner, Mrs. Guy Cook, Mrs. Beade Northcut, Mrs. John Edgar and Mrs. D. Bender.

Attending from out of town were Mr. and Mrs. W. G. Hill and Mrs. A. Peterson, all of St. Louis, Mo.

The refreshment table, laid with a white damask cloth, held a white wedding cake decorated with pink roses and topped with a miniature bride and groom. The centerpiece of pink roses was flanked with pink candles in silver holders.

When the couple left on a wedding trip to Dallas, the bride wore a blue linen costume with black accessories and the orchid from her bouquet. Sgt. Kissell will reside in Big Spring.

ESA Units Will Vote On Projects

A model meeting for rushees was held Thursday evening by Alpha Chi Chapter, Epsilon Sigma Alpha, in the home of the rush chairman, Mrs. Ruben Reavis, 3711 Conley.

Mrs. Jack Price, president, introduced the guest, Mrs. Bill Adams.

District service projects, to be voted on at Snyder Oct. 19, were previewed by Mrs. Price. The choice will be made between Big Spring State Hospital, Halfway House at Odessa and the West Texas Children's Home at Pyote, the latter having been the project for the past two years.

Mrs. Frank Perry, welfare chairman, announced that the chapter will assist with the muscular dystrophy fund drive Oct. 16.

Following a talk, "The Scope of ESA," by Mrs. Reavis, refreshments were served from a table covered with a lace cloth and accented with an arrangement of yellow jonquils, the sorority flower. Appointments were crystal and silver.

The next social meeting will be a "Dinner on the Moon" at 7 p.m., Oct. 18, with husbands as guests. The next business meeting will be Oct. 23 in the Pioneer Gas Flame Room.

Carl L. Gileses Announce Birth

Mr. and Mrs. Carl L. Gileses of Bangkok, Thailand, announce the birth of a daughter, Carissa Marie, born Sept. 21 in the U.S. Army hospital at Bangkok. The infant weighed six pounds, 6 ounces.

The mother is the former Patricia Ellen Fisher, and the maternal grandparents are Mr. and Mrs. Clifford W. Fisher of Dallas. The paternal grandparents are Mrs. Barbara Giles, 1600 Park Hill Drive, and Elmer B. Giles, Route One, Big Spring.

Special Education Coordinator Explains MBI School Program

Mrs. Roscoe Newell, coordinator of Special Education for Big Spring schools, explained the "MBI" program to the College Heights Parent-Teacher Association at Thursday's meeting.

The definition used by the Texas Education Agency in the state plan for these classes is: "Children who are normal or above in intelligence, but who

Revolution Influences Musicians

"The common people had much to do in influencing music produced in the era following the French Revolution," said Mrs. H. M. Jarratt at Wednesday's meeting of the Big Spring Music Study Club in the home of Miss Helen Ewing, 709 E. 15th.

She explained that different, exciting types of music came out of this period, and that there was much martial music resulting from the revolt of the masses.

Miss Audrey Hyden was cohostess. Mrs. Richard Cook played a piano solo, "My Heart At Thy Sweet Voice," by Saint-Saens, and Mrs. Charles Bell played a composition by Franz Liszt.

Mrs. Mamie Lee Dodds gave a history of the French and American national anthems.

Four new members, Mrs. Mary Grenier, Mrs. Don Richardson, Mrs. Jack Berry and Mrs. Star Warford, were welcomed.

Mrs. G. R. Robinson presided, and Mrs. Michael Leinen was elected first vice president.

4-C Big Spring (Texas) Herald, Sunday, Oct. 12, 1969

Violet Reed's second grade room. The latter also won the room count.
J. A. Beam, principal, reminded parents of the United School Fund, part of which goes into a fund to buy shoes for needy children.

MRS. DARRELL W. MCCHRISTIAN

Miss Charles Weds Darrell McChristian

The announcement is being made here of the marriage of Miss Lorrie Charles and Darrell Wayne McChristian on Oct. 11 in Lubbock.

The bride is the daughter of the late Col. and Mrs. Christopher A. Charles of Bridgeport, Conn. Parents of the bridegroom are Mr. and Mrs. Bennie F. McChristian of Sterling City Route, Big Spring.

Mrs. McChristian is a graduate of Highland Park High School in Dallas, where she was

'RCUND TOWN

By LUCILLE PICKLE

It was just a little research on my own time... not in any hurry to get where I was going. I very carefully observed every speed limit in the city limits, by the schools, on Thorp Road, on the highways etc., and you know I was all alone. The only time anyone was near me was when they passed me.

Recent guests of LT. COL. and MRS. C. C. NIELAND have been his parents, MR. and MRS. CHARLES NIELAND of Bradenton, Fla.

Visiting in the home of ELMER RAINEY are his two cousins, MRS. JEWEL TOLAND and MRS. ERA MAE SCOTT both of Dallas. They came to see their sister, MRS. M. A. RAINEY, and Mr. Rainey, both of whom live at the Big Spring Nursing Inn. They plan to return home Monday.

When the FRED BECKHAMS returned from a vacation trip Thursday they were catching up on the news and learned their son's fiancée was the first runner-up for the Maid of Cotton contest.

The Beckhams are in Lubbock today where they met their son James, who is in school in Michigan, and will visit with Miss Pamela Sue English and her parents.

The local couple has been fishing at Rock Port, Fulton Beach, Copano Bay and other spots along that area of the coast.

C. J. S. DURHAM of Great Falls, Va., is here for a visit with his mother, MRS. T. M. COLLINS, and a cousin, DELMAR DANIEL. He has been here for two weeks and will return home Monday.

WALTER SMITH, former resident of Big Spring whose home base now is just about all over the world, is visiting his brother and sister-in-law, MR. and MRS. HERBIE SMITH. Walter works for Lummas Construction Co., and has recently completed a job in Nova Scotia.

KINNEYS who now live in Lubbock... MISS ELIZABETH DANIEL, would have been here but on the way from Austin she had a car accident which prevented her from joining her friends for the occasion.

Also the B. E. FREEMANS came out from Fort Worth and DR. and MRS. DAVID GREENLEES and their son came from Odessa to be with his mother, MRS. W. G. GREENLEES.

MRS. JAMES B. DAY of Rotan was with her niece, MRS. MARGARET COOPER and the H. F. KEITHS came over from Kermit.

The TESCO employees have the best time at their Quarter Century Club dinner every year but I think the one the past week surpassed them all. The entertainment was by the Lamesa Slumtown Symfany and they are funnier than ever. Not only are they funny but they are accomplished musicians. They are led by that versatile RICHARD CRAWLEY who, I understand, played first chair trumpet at the Juilliard School of Music right after that chair was occupied by none other than AL HIRT... who covers a lot of chair.

MR. and MRS. JOHN BARKER of Houston spent the last weekend here with MR. and MRS. J. P. CAUBLE and MRS. DOROTHY PETTY.

Workshop Slated By HD Members

A drapery workshop was announced for Oct. 21 in the home demonstration agent's office at Tuesday's meeting of the College Park Home Demonstration Club in the home of Mrs. Jerry Phillips, 2402 Alabama. Mrs. Delaine Crawford, county HD agent, presented a program on low calorie foods. The next meeting will be in the home of Mrs. Melvin Brown at Sand Springs, and the program will be on bringing files up to date.

ENGAGED — Mr. and Mrs. D. R. Hayley, 2903 Cactus, announce the engagement and forthcoming marriage of their daughter, Zonette, to Timothy Rhodes, son of Lee E. Rhodes of Torrance, Calif., and Mrs. Lucille Russell, 904 Nolan. The couple is planning a December wedding.

Agent Discusses Low-Calorie Food

Mrs. Vern Vigar was hostess at Tuesday's meeting of the Airport Home Demonstration Club in the HD agent's office. Mrs. Delaine Crawford, home demonstration agent, gave a program on low-calorie foods.

Two guests, Mrs. Gordon Williams and Mrs. Mary Ann Morton, were introduced. The next regular meeting will be in the home of Mrs. A. N. Standard, 504 E. 15th.

A workshop was slated for 9:30 a.m. Tuesday in the home of Mrs. D. M. Gillihan, 1603 Lancaster. A covered dish luncheon will be served, and members will prepare for the exhibit at the First Methodist Church Oct. 23.

Mrs. Leon Stockton was welcomed as a new member.

Phi Zeta Omega Has Crazy Bridge Party

Phi Zeta Omega Chapter, in the Halloween motif. The Beta Sigma Phi, held a rush party Thursday evening in the home of Mrs. Joe Schalk, 1906 Alabama.

Donated To MOD — Members of the Sew and Chatter Club completed work on a wool quilt, which they will sell for the March of Dimes, at Wednesday's meeting in the home of Mrs. Marvin Sewell, 407 Washington. The refreshment table was laid with a linen cloth and centered with an arrangement of fall flowers. Fourteen members attended.

Miss Sheila Tidwell won high receiving a gift of jewelry, and Miss Pam Dyer, with low score was presented a box of stationery.

Refreshments were served from a table covered with a white lace cloth and decorated

Program Of Aid Told By Speaker

Miss Hazel Kelly, case worker for the State Department of Public Welfare, outlined programs for the aged, blind, disabled and families with dependent children at Thursday's meeting of the TOPS Plate Pushers. The group met in the Pioneer Gas Flame Room. Mrs. K. C. Webb, president, won the fruit bowl. The next meeting will be a picnic at the city park. Anyone interested in joining the club is asked to call Mrs. Webb, 263-2570 or Mrs. R. V. Washburn, 391-5259.

Pre-School Clinic Slated At Church

The Permian Basin Pre-School Association will meet at 2 p.m., Oct. 18, in College Baptist Church. Mrs. Tolbert Grisham will present the program on "Understanding and Dealing With Children's Emotions." Anyone interested in pre-school children is invited to attend the meeting.

Mrs. W. Wells Presents Program

STANTON (SC) — Mrs. W. T. Wells gave a program on candle-making, with members making candles, at a recent meeting of the Koffee Kup Home Demonstration Club in the home of Mrs. James Doyle. Mrs. Fred Bowlin, president, introduced Mrs. Charlie Burnett, a new member. The Christmas salad luncheon was discussed and will be held in the home of Mrs. Delbert Hopper. The next meeting will be Oct. 23 in the home of Mrs. Nolan Simpson.

Saturday Habakkuk 2:1-20	

We'd be lost, wouldn't we, if suddenly computers were withdrawn from our daily life? We have become dependent on them to schedule airplane flights, point out scholastic aptitudes and aid the Internal Revenue Service in checking income tax returns.

But there are things a computer can't do. It can't make a home a better home or a man a better man. A computer can't heal sorrows and disappointments. It can swallow up a lot of statistics and clank out a lot of conclusions, but it can't direct a man to God's love.

As today's world is run more and more by automation, we need the help of the Church to guide us in the spiritual realm of life. We need to experience God's great love for all men. In our mechanical world, only the Church can help us find God's love.

NEW RESIDENTS — The John Aken family recently moved to Big Spring. Shown at left are Leonard, Albert, Frank, Mrs. Aken and Aken. In center front are daughter, Rose, and James Lee.

Lively Family Works, Little Spare Time

By RHODA LEMONS
Possibly, two of the busiest people in town are newcomers, Mr. and Mrs. John Aken of 2725 E. 25th St. Aken is owner and operator of Windy's Camera Center and the owner of the Crystal Cafe. Mrs. Aken works four hours a day at the cafe and two hours at the Camera center. The rest of the time, she works at home with the help of her five children.

Mr. and Mrs. Aken have nine children, five of whom are still at home. They are Frank, 17, Leonard, 16, Albert, 15, Rose, 14, and James Lee, 11. Her other children are Mrs. Michael Hartley (Carylan), Canoga Park, Calif.; Miss Patricia Marie Aken, Michigan City, Ind., and Mrs. James W. Mings (Cynthia Louise) of Anaheim, Calif.

Aken is the son of H. L. Aken, 2205 Johnson, who has made his home here for 27 years, and who was instrumental in getting his son and family to move to Big Spring.

Mrs. Aken is the daughter of the late Henry Fuller and Mrs. Edith Mayo of Quincy, Ill. She was the former Miss Margaret Fallor of Harrisburg, Pa., and she attended high school in Hannibal, Mo.

Mrs. Aken was a divorcee and she wrote a letter to T. Sgt. Aken, not expecting to hear from him. She told him about herself and her children and described her family life. He was stationed with the Air Force in Thule, Greenland, at the time, and he replied to the letter. They corresponded frequently, and when he came home to leave he came to her house to see them. He was dressed in civilian clothes, and as she had only seen pictures of him in uniform, she did not recognize him. However, her children did and loved him immediately.

The couple married two weeks later, and he adopted her children. They have been married 12 years now, and most of their married life has been spent moving from base to base. That is the reason that they are glad to be in Big Spring, where they plan to make a permanent home. The longest their children ever attended one school was a period of almost three years.

His first station after their marriage was at Orlando, Fla., where they stayed three

Mrs. D. Pittman Elected President

Mrs. D. Pittman was installed as president of the XYZ Club by Mrs. Morris Robertson at Friday's luncheon in Furr's Cafeteria. Mrs. Jim Butler, president, resigned because she and her family are moving to Waco. Hostesses were Mrs. Bill Sheppard and Mrs. Elmo Phillips. Door prizes were given to Mrs. J. D. Jones and Mrs. Maxwell Green. Mrs. Robertson announced that "ladies day" will be Oct. 31 at the ABC Club luncheon.

Halloween Theme Used In Meeting

Mrs. O. G. Hughes presided when the members of the Past Matron's Gavel Club, Laura B. Hart Chapter No. 1019, met Thursday evening at Coker's Restaurant. Hostesses were Mrs. Hughes and Mrs. Ollie McDaniel. The Halloween theme was used in decorations, and pumpkins and miniature witches accented the table. Hostesses for the Nov. 13 meeting will be Mrs. Lloyd Duncan and Mrs. Bill Smelser. Mrs. McDaniel will be card chair-

Forum Unit Tours New Art Gallery

Members of the Junior Woman's Forum toured Signor's Art Gallery Thursday under the guidance of Mrs. J. H. Holloway. Following the tour, the group met in the home of Mrs. Jim Anderson, 1715 Yale. Mrs. Doug Cutsforth was cohostess.

Mrs. Joe Horton presided at the business meeting, and Mrs. Paschal Odum presented "A Definition of Federation."

Refreshments were served from a table laid with a beige linen cloth and centered with a fall flower arrangement.

The next meeting will be Nov. 13, when Mrs. Richard Patterson will draw portraits of members in the Horton home at 3300 Cornell.

BSP Chapter To Found Memorial

STANTON (SC) — Plans were made to begin a scholarship fund in memory of Walter W. Ross, founder of Beta Sigma Phi, at Thursday's meeting of Rho Xi Chapter in the home of Mrs. Eddie James. The fund will be made available to children of sorority members.

Mrs. Jerry Waid gave a program on prose, with each member participating in the program by adding a phrase until a complete story was composed.

Members signed a letter to NASA requesting that prayer and Bible reading be allowed in space flights. Mrs. Charles Burnett was welcomed as a transfer member.

Plans were made to have Mrs. Joe Henson show a film on cancer soon. The next meeting will be a model meeting, Oct. 16, in the home of Mrs. Phil Stovall.

"I could not manage if the children didn't pitch in and help," said Mrs. Aken. The boys take turns getting up at 5 o'clock and opening the cafe. The three older boys have turned the garage into their bedroom, where they can have privacy and more freedom. They vacuum and clean their room, and Rose helps with the housework. They do all the yard work, and Leonard is the family chef. He prepares all sorts of delicious meals, but his favorite is spaghetti.

The boys attend football games at high school, and James Lee plays football during physical education in the sixth grade class at Kentwood Elementary.

Mr. and Mrs. Aken's special hobbies are bowling, and the boys like to do this, too. Mrs. Aken likes to swim, but no member of this working family has time for frivolity.

The children are adjusting to Big Spring after a more active life in California. They miss the beach, but they are helping their parents in every way possible to make a success of their businesses in Big Spring.

The Aken home is attractive, spacious and comfortably "lived in." Mrs. Aken makes no effort to keep a spotless home, just one that invites you in to relax and stay awhile.

"If I am not down at the cafe or the camera store, then you can almost always find me home with a pot of coffee on the stove," said Mrs. Aken.

CAFETERIA MENUS

Music Clubs At Conference

The Twelfth District, Texas Federation of Music Clubs, held its annual conference Saturday in the First United Methodist Church of Midland, with Mrs. Guy Bullock of Garland, TFMCC president, as principal speaker. She was introduced by Mrs. Louis Rochester of Odessa, TFMCC first vice president.

Attending from the Big Spring Music Study Club were Mrs. G. R. Robinson, president; Mrs. Star Warford and Miss Helen Ewing. Through the day, musical selections from each club were heard, with Mrs. Warford presenting a medley of folk songs.

Mrs. W. Lloyd Haseltine and Mrs. John T. Greer were co-chairmen for the conference, and the welcome was extended by Robert Mann, director of the Midland-Odessa Symphony and Chorale.

Mrs. James H. Bowman, district president, called for reports from district officers, chairmen and club presidents.

Mrs. R. P. Morrison of Odessa gave the invocation at the luncheon, and during the luncheon an original folk opera, "Old Greer," was presented. The opera was written by Ferne Harie Crowley, sister of Mrs. Louis Kluck, Odessa. Singers included Louis Kluck, Melanie Sewell, Mrs. Robert Sewell, Mrs. Delmar Burgess and Mrs. Ronald Bennett, all of Odessa. The composer provided comments on the opera.

The public was invited to a choir program presented in the afternoon. Choirs which performed were the Big Spring A Cappella, directed by Kenny Shepard; Midland Lee A Cappella, directed by Henry Sellers; Odessa College A Cappella, directed by Maurice Alfred; and the Permian A Cappella, directed by Louis Jordan.

The conference theme was "American Women in Music."

Teachers Present Fashion Satire

Mrs. David King was commentator for a comic fashion show presented at Tuesday's meeting of the Washington Place Parent-Teacher Association. Ten teachers served as models for the show.

Mrs. Ben Boadie presided, and the devotion was brought by Mrs. Dan Coffey. Mrs. Aaron Combs read the proposed budget, which was approved, and Mrs. Tom Giles reported on the project of buying new drapes and shutters for the school auditorium.

Van Brown, ways and means chairman, announced that the annual school carnival will be held from 5:30 to 8:30 p.m., Oct. 18, at the school. Supper will be served.

The group was reminded of the district workshop in Sweetwater Tuesday, and the meeting time for the unit was changed to 7 p.m.

Stanton Chapter Has 'Hippie' Party

STANTON (SC) — The Mu Lambda Chapter, Beta Sigma Phi, met recently for a "hippie" party in the home of Mrs. Herb Sorley.

A model meeting was conducted for Marilyn Glaspie, a rusee, and Mrs. Granville Graves, president, outlined what is done at typical sorority meetings. She was assisted by Mrs. A. J. Smith, Mrs. Owen Kelly, Mrs. Gene Atchison, Mrs. Nettie Byrd, Mrs. Floyd Sorley and Mrs. Herb Sorley.

The history of BSP was read by Mrs. Claude Nowlin, vice president. A sack lunch was served, and the living room was decorated as a "pad." Each member was dressed in costume, with Mrs. Nowlin receiving the best costume award.

Delta Kappa Gamma Regional In Andrews

Beta Kappa Chapter members will be going to Andrews Saturday, Oct. 18, to attend the regional meeting of Delta Kappa Gamma Society in the Andrews High School.

The local chapter officers are Mrs. B. F. Yandell, president; Miss Velma Blagrove, first vice president; Mrs. Jack Denson, recording secretary; Miss Elzada Herring, corresponding secretary; Miss Eulalia Mitchell, treasurer; and Mrs. Rogers Hefley, parliamentarian. The registration and luncheon fee of \$3 should be mailed by Tuesday to Mrs. Jane Clay, 1101 Golf Course Road, Andrews, 79714. Delta Phi will be the host chapter.

PROGRAMS

The meeting theme will be "It Is In Spending Oneself That One Becomes Rich," with each chapter participating in the general theme by presenting a skit, panel, speaker or demonstration. The presidents' conference and coffee will be held at 8 a.m., and 9 to 9:30 a.m. has been allotted to registration.

The roll call for participating chapters will be at 9:30 a.m. They will be Beta Kappa, Big Spring; Delta Iota, Zeta Kappa and Theta Mu, all of Odessa; Epsilon Eta, Midland; and Theta Tau, Monahans.

Following a report on the Southwest Regional Conference, the chapters will be called for their individual program

MRS. BESS McDONALD

MRS. MATTIE NOWLIN

presentations, and at 12:15 the luncheon will begin.

SPEAKERS
Principal speaker for the luncheon will be Mrs. Mattie

Ruth Nowlin of Plainview, past area director for Delta Kappa Gamma. Mrs. Nowlin is a past secretary of Hale County Unit of Texas State Teachers Association, a past board member of Classroom Teachers Association, which she also served as district membership chairman, and has been a teacher in various Texas schools. In 1962, she was named Teacher of the Year by the Caprock District, Texas Federation of Women's Clubs.

She received a BA degree at McMurry College and M.Ed. degree at the University of Texas. She has served as president of numerous organizations and began her association with Delta Kappa Gamma in 1936, receiving the State Achievement Award in 1952, and heading state committees at various times.

The luncheon will climax with the presentation of award certificates by Mrs. Beth Church McDonald, chairman of the State Committee Achievement Awards.

Mrs. McDonald, a teacher for 31 years, received her BA at McMurry College and a masters degree from Texas Christian University. She has completed 30 hours above a masters in counseling and has been counselor of Crockett Junior High School in Odessa for 11 years. She has been a member of Delta Kappa Gamma for 22 years, has served as president of two chapters and assisted in organizing several new chapters. At different times, she has held the chairmanship of most committees at chapter level and served on three state committees, being chairman of one.

Auxiliary Makes Convention Plans

The Ladies Auxiliary to Big Spring Barracks No. 1474, WWI, USA, Inc., made plans to attend the district convention Oct. 25 in Lubbock at Thursday's dinner meeting in the IOOF Hall.

Honored guests were Mr. and Mrs. Sid Lowery of Lubbock and Mr. and Mrs. R. M. Crabtree of Plainview. Lowery is district commander of the barracks, and Mrs. Lowery is district president of the auxiliary. Crabtree is past commander.

The next meeting will be Nov. 13 when a Veteran's Day program will be presented.

MRS. JOHN K. GIESELMAN

Wedding Solemnized In Baptist Church

Miss Shirley A. Cobb and Sgt. John K. Gieselmann were united in marriage Saturday evening at the Grace Baptist Church. The Rev. Roy E. Honea performed the ceremony before an arch entwined with greenery and flanked by candelabra and baskets of white carnations.

Parents of the couple are Mr. and Mrs. Tex J. Cobb, 4304 Connally, and Mr. and Mrs. Kenneth H. Gieselmann, Springfield, Ohio.

Mrs. C. B. Underwood, organist, accompanied Vernon Gamble as he sang "Whither Thou Goest," "One Hand, One Heart" and "The Lord's Prayer." The bride is a graduate of Forsan High School and is attending Howard County Junior College. The bridegroom graduated from Springfield South High School and is attending HCJC while stationed at Webb Air Force Base.

The bride was attired in a gown of Chantilly lace and silk organza, designed with trumpet sleeves, and a contoured neckline enhancing the bodice. An overlay of Chantilly lace formed a scalloped hemline and the voluminous chapel train was made of organza sprinkled with Chantilly lace motifs. She carried a bouquet of white carnations centered with a white orchid. Her illusion veil was attached to a cluster of organza roses.

Miss Mary Martin of Corning, Calif., was the maid of honor, and Miss Vicki Cobb, sister of the bride, was a bridesmaid. They were attired in lilac Empire A-line dresses fashioned with bell sleeves.

James D. Ryerson of Chicago, Ill., was best man, and Mark S. Redfern, New York, N.Y., was groomsmen. Ushers were Darrow Cobb and Ricky Cobb, brothers of the bride.

Lisa Burt of Anton was flower girl, and Dwayne Burt of Anton was ring bearer. Altar tapers were lighted by Lester T. Cobb, brother of the bride, and Christine Burt.

Out-of-town guests were J. E. Cundiff and Mrs. Cleo Burt, both of Aubrey; Mr. and Mrs. Virgil Burt, Levelland; Mr. and Mrs. Richard Burt, Anton; Mr. and Mrs. Joe Burt, Lewisville; Mr. and Mrs. L. C. Burt and Mr. and Mrs. Kenneth Burt, all of Denton; and Dr. Beatrice Cobb of Lubbock.

RECEPTION

A reception was held in the First Federal Community Room. The refreshment table was laid with a white lace cloth and centered with the bridal bouquets. The cake was decorated in lilac confection and topped with a bridal couple. Crystal and silver appointments were used.

Mrs. Fred Riggan presided at the guest register. Others in the house party were Miss Jo Ann McWhorter, Mrs. A. W. Medlin,

PTA Hears Music Program Thursday

Miss Cathy Woods, Cedar Crest Elementary School music teacher, presented the fifth grade in a program at Thursday's meeting of the Parent Teacher Association. Mrs. Iver Spencer led the pledge, and Tom Henry, principal, led the Pledge of Allegiance and prayer. Mrs. Laura Wiley gave the devotion. The principal introduced the teachers, and Mrs. Charles Parks received the attendance prize. Refreshments were served to approximately 50.

Mrs. Leroy Lawrence and Mrs. Sam Wells.

Out-of-town guests were J. E. Cundiff and Mrs. Cleo Burt, both of Aubrey; Mr. and Mrs. Virgil Burt, Levelland; Mr. and Mrs. Richard Burt, Anton; Mr. and Mrs. Joe Burt, Lewisville; Mr. and Mrs. L. C. Burt and Mr. and Mrs. Kenneth Burt, all of Denton; and Dr. Beatrice Cobb of Lubbock.

WEDDING TRIP

The couple left on a wedding trip, and for traveling, the bride chose a deep green bonded knit dress accented with a rolled collar, gold buttons and pleat on the A-line skirt. Her accessories were black.

Sgt. and Mrs. Gieselmann will be at home at 104 1/2 Washington.

ANNOUNCING TAWANA SMITH

is now taking appointments. She invites old and new customers to call 263-8194 or come by Mary's Beauty Salon 207 W. 9th

Visual Education Media Discussed

O. A. Madison, visual media co-ordinator at Big Spring High School, presented a program on visual education at Thursday's meeting of the Boydston Parent-Teacher Association.

Madison displayed visual education media explaining techniques and equipment available to teachers which makes learning more interesting for students.

Monty Stokes, district Boy Scout executive, invited all parents to participate with their children in the Cub Scouts. Anyone interested in this program may call John Cline, Scout leader for the school.

Mrs. Bob Davis, president announced alternates elected to the state convention in San Antonio. Those named were Mrs. John Cline and Mrs. Carl Morrow. Delegates will be Mrs. Davis and Herman Smith, principal.

Mrs. Thurlo E. Grissom's class won the saving stamps and room count awards. The membership drive closed last week with a total of 113 members.

The fall festival was announced for Oct. 18 from 5 until 9 p.m. Hot dogs will be sold for 35 cents and chili will be served for 50 cents. The public is invited to attend the event.

Characteristics For Club Woman Noted

"To be a true club woman demands three characteristics, efficiency, loyalty and vision," said Mrs. J. P. Dodge when she spoke on "Outstanding Accomplishments of the Federation Through the Years," at Friday's breakfast of the Modern Woman's Forum. The group met in the Hotel Settles.

Mrs. Dodge named the federation presidents and the

outstanding accomplishments credited to each during her term.

Mrs. Harwood Keith and Mrs. W. E. Moren were cohostesses. Mrs. W. A. Laswell gave the invocation, and yearbooks were distributed by Mrs. H. M. Rowe, vice president.

Mrs. S. R. Nobles, president, announced the Western District leadership board meeting and workshop Oct. 21-22 in Marfa. Those planning to attend are Mrs. Laswell, Mrs. Nobles, Mrs. H. M. Rowe and Mrs. Mary Brown.

Plans were made to purchase Texas place mats, a project of the Texas Federation of Women's Clubs.

The tables were laid with white cloths and centered with yellow chrysanthemums and brown daisies encircled with pyracantha berries.

Members Initiated

The Laura B. Hart Chapter, No. 1019, Order of Eastern Star, held initiation services for two new members at Thursday's meeting in the Masonic Temple. Horace Jarrett, worthy patron, and Mrs. L. Z. Marchbanks, worthy matron, performed the service.

FOR HOWARD COUNTY, WEST TEXAS

Depletion Cut Called Dangerous

By PAUL MEEK, PRES. COSDEN OIL & CHEMICAL COMPANY

The proposed congressional cut in the percentage depletion allowance from 27 1/2 per cent to 20 per cent sounds to the general public like a rather minor change and one that should not cause much trouble for an industry as large as the petroleum industry.

This, however, is far from the truth in that the innocent-appearing 7 1/2 per cent decrease is in fact a 27.2 per cent decrease in the allowance itself. As far as Howard County and West Texas generally are concerned, this is particularly a dangerous recommendation.

The days of finding large pools of oil or great gas reserves in our immediate area are gone, and are probably gone forever, as the area has been actively explored since the 1920's. Most of the new oil to be found in the area will come from rather small reservoirs, which give only a lesser marginal return on the investment.

WILL REDUCE DRILLING
Believe me, the decrease in percentage depletion recommended by Congress will make a large dent in the number of wells to be drilled in this area unless, of course, the resulting loss in revenue to the producer is made up by an increase in the price of crude oil.

Though we at Cosden Oil & Chemical Company do not explore for oil, our parent, American Petrofina, does engage in this activity basic to the industry. We do have a rather substantial stake in the fight. For example, it might surprise

you to know that on completion of our new crude facilities here the first of 1969 — which allowed us a very modest increase in our throughput — we had difficulty in finding enough oil to satisfy this new demand. As a matter of fact, if a very substantial increase in the crude capacity were accomplished, the greatest problem we would have would not be finding a market for the additional product, as most people would think, but finding the crude oil to run in our stills.

CONSTRUCTING INFLUENCE
This does not mean, and I am not implying, that Cosden consumes a large portion of the oil produced in West Texas. Most of this material leaves here by pipeline and is committed to Gulf Coast and Midwestern refiners, where it is much in demand. Nevertheless, the decrease in the depletion allowance would certainly have a big effect on the new crude oil reserves added to this area and emphatically would have a distinct effect on our future expansion.

Cosden is by far the largest industry in Howard County, supplying jobs for over 800 of the county's residents. This fact is well known. Now let's look at some of the lesser known facts concerning the importance of oil to Howard County.

For example, Howard County oil and gas wells pumped \$45 million into the county's economy last year, according to a study recently released by the Texas Mid-Continent Oil & Gas Association. The county ranked 27th in the state in value of production. Of this total, county landowners and others with

PAUL MEEK

mineral interests received royalty payments of \$5.6 million. Total drilling expenditures on the 119 wells drilled in the county (of which 89 were completed as oil wells) was \$8.8 million. The 30 dry holes cost \$2.3 million.

NO TAX WINDFALL
To accomplish all of this it is estimated that 691 workers, in addition to those mentioned at Big Spring Refinery, were needed in the oil patch. It is those jobs that will be in jeopardy if the depletion allowance is cut by 27.2 per cent, as I mentioned above. Proponents for the bill cutting depletion allowance would lead you to believe that the oil companies pay no tax and this is merely a loophole to fatten profits for all major oil companies. Nothing could be further from the truth, however, and especially from the standpoint of Howard County and local

taxes. You may be interested to know that of the total \$4.8 million taxes collected in Howard County last year, \$2.7 million or 55 per cent came from oil interests. Oil accounted for 90 per cent of the taxes in the Forsan School District and 75 per cent in the Coahoma School District. Even in the Big Spring Independent School District, which does not have a lot of production in its area, 34 per cent was collected from oil interests. Howard County State and Junior College taxes collected were approximately \$1.7 million; some 55 per cent of this, or \$932,000, came from oil interests.

PAYS MORE
On a national average several studies have shown the petroleum industry certainly pays its fair share of taxes. For instance, when all taxes are considered, it is estimated that the industry pays out on an average of 5.1 cents for every dollar of gross revenue it receives. The average tax burden for all business corporations is reported as 4.5 cents of every dollar of gross revenue.

Certain advocates would also have you believe that cutting the depletion allowance would not affect you, the consumer, but would simply mean that additional taxes would come out of the big fat pocketbooks of oil companies. This "big fat pocketbook" is certainly a misconception of the industry that has been around a long time. The movie industry has depicted good old days when all one had to do was to punch a hole in the ground to become

a millionaire. But I believe that if you talk with anyone who is currently in the business, he will be quick to tell you it is just like any other business — one has to work mighty hard in it to make a living.

PROFITS BELOW AVERAGE
It might interest you to know that the profits of oil companies, when compared to all of the manufacturing industries, run below the average. For the last decade, a study made by The First National City Bank of New York shows that all manufacturing companies earned an average of 12.1 per cent after taxes on their net assets. The oil company profits were not exceptional; they showed 11.5 per cent return after taxes on net assets. If the depletion allowance is decreased, the oil companies will have no alternative except to pass on the additional cost to you, the consumer, at the gasoline pump.

To sum it up, each and every citizen of Howard County certainly has a stake in the depletion allowance affecting oil production. The House of Representatives has already passed a bill, and sent it to the Senate, suggesting that the depletion allowance be reduced to 20 per cent from the present 27 1/2 per cent.

If you feel as I do, you can make your opinion heard by letting Senators Ralph Yarborough and John G. Tower know that you are not in favor of this bill passed by the House of Representatives.

Forty-five years ago Howard County had its first commercial oil well completion.

Today, there are more than 4,000 wells in the county producing from 14 different zones in more than 40 fields.

The end is not in sight, although it stands to reason that a county with that many holes has experienced a considerable volume of exploration and thus reduced the areas of undiscovered potential.

When the first wells were drilled, and later when a major boom erupted, experts confidently predicted that the field would last for 20 years. It has exceeded 40 years, and at that point, thanks to secondary recovery methods, was producing more oil than it had ever done before.

RECENT DEVELOPMENT
Although electricity, chemicals, new technology had made operations far more simple, the sheer number of wells increasing over the years has meant no lesser number of people in the oil fields. Within the past 20 years, the number of producing oil wells in Howard County has almost doubled. After several seasons of slackened exploratory pace, Howard County this summer was treated to one of the biggest flurries within a decade. Amerada-Hess, drilling out lease commitment east of Big Spring, tapped a good well in the Wolfcamp, regarded as a northwest extension of Hutto (Wolfcamp) pool. With a score or so leases to test before expiration date, the company accelerated its development program.

NEW ZONES
Most of the wells were producers, although there were some marginal or non-producers, but what was considerable interest was that some of the ventures produced from other zones. One was dually completed and would have been

triple producer had the well bore been large enough to contain three oil strings. Naturally, this activity has drawn other operators into the area for offsets, and stepouts.

To the north of this play, there has been a gradual but steady extension southward of the Big Spring (Fusselman) area, and one of the wells east of Cosden refinery found pay in this zone. Northeast of

Coahoma, there also has been some excitement over Fusselman developments by Texaco on the H. N. Read ranch. The operator then went back up the hole on one venture and completed a producer in the Clear Ford, which may open up other possibilities for that area.

STILL LOOKING
Other activities have involved a small producer on the Quinn Ranch west of Big Spring, probably from the Grayburg which produces in the Moore and Varrel fields; separate tests in the Pennsylvanian in the extreme northwestern quadrant. Some of these have been producers, but none touched off extensive drilling.

Within the past week, a wildcat north of Coahoma tapped a gas pocket and almost blew out. Thus the search for oil continues within the county. As the older pools inevitably must show some signs of decline, new sources are needed, especially when Big Spring has a major refinery to supply with crude.

Texas Oilmen Paying Their Way

Texas oil men are paying their share of the cost of government and education — and then some! During the past 10 years they have paid \$2,250,000,000 into the state treasury in oil and gas production taxes, regulatory levies, servicing taxes, property taxes and franchise taxes. Payments to the state have increased by about 20 per cent.

Allowance For Depletion Provides New Incentives
When L. T. Barret drilled that first Texas oil well 100 years ago, he had a clue to start on. Oil seeped out of the ground in the vicinity of Naacogdoches. Today, however, all the "easy" oil has been found. The Texas oil man must probe at great depths, miles into the earth. Just part of the risk taken by the industry is shown by the drilling costs alone last year: some \$700 million. And \$231 million of that was lost in dry holes. In the face of such hazards, the man who risks his money looking for oil and gas in Texas must have a number of in-

centives to encourage the effort. One of the most important of these is the provision in the federal income tax law which allows him to plow back part of the income he gets from production into more drilling. It is called "the percentage depletion allowance." He must also be allowed to share in the available markets for Texas oil. This is effected through the state's "proration system."

The average Texas citizen has a voice in framing public policies affecting the development of our state's oil and gas resources.

WE ARE 'OLD HANDS' AT OIL PROGRESS

We at Cosden are busy unlocking the secrets of that great Genie, Oil. It is hard to believe, but even oil has to go to school. You see, when oil is pumped from the ground, it is a very crude baby. And it's our job to cook, crack, chill and squeeze this crude so it graduates as hundreds of oil and petrochemical products that serve you every day.

From its earliest uses as a humble lubricant and fuel for torches and lamps, oil has grown to be the nation's largest industry. Oil is a veritable treasure chest whose applications have become known in nearly every phase of modern living

Yes, oil has unlocked many a door along the path of human progress and continued research and experimentation give promise of still broader use yet to come.

Cosden is dedicated to continuing progress in oil research for use in home, industry and agriculture.

COSDEN OIL & CHEMICAL COMPANY

Wholly Owned Subsidiary of American Petrofina Incorporated

Allowable At 17 Million Bbls.

Oil production during last May of 4,165 Howard County wells totaled 1,397,347 barrels according to the latest available figures from the Oil and Gas Division of the Texas Railroad Commission.

Applied to a 12-month period, this would mean 16,768,164 barrels of oil could be produced in Howard County.

Reports came in from 33

fields, with the Howard Glasscock topping the list with a pay of 533,665 barrels from 1,729 wells. Iatan East, Howard was next with 866 wells showing a production of 347,689 barrels and the 64 wells in the Vealmoor area produced 97,176 barrels.

Though there are 522 wells in the Snyder field, only a production of 89,306 barrels was recorded.

Unique Crop For Landowners

One of the most significant distributions of money received for the sale of Texas oil and gas is that paid to the landowners — principally the farmers and ranchers of Texas.

dollars a year paid by Texas oil men for leases on which to drill in the search for oil, Texas royalty owners last year received nearly \$480 million. This "crop" alone — which requires no planting, cultivating, or harvesting by the farmer — is equivalent in value to more than one-fourth of the total value of Texas agricultural products.

America moves forward on oil. Everywhere you turn . . . from the car on the highway to the plane in the sky . . . from the kitchen mixer to the farm tractor it is oil that "makes the wheels go 'round" . . . freeing millions from physical toil . . . making life run more smoothly, more happily for all!

FARM Oil has transformed life on the farm . . . to the vast benefit of the farmer and his family. With tractors and other mechanized equipment, the farmer can cultivate more land and produce more food with far less labor than ever before. Petroleum-based insecticides help him to control pests. The farmer's life is easier, more successful, more satisfying . . . because of Oil!

HOME Household tasks are lighter . . . home life brighter because of oil. Electric appliances are lubricated by oil . . . it is ever present both inside and outside the home . . . its products range from asphalt roofing and linoleum floor coverings to plastic covered furniture.

INDUSTRY Every wheel that turns in every factory is lubricated by oil. Mining and manufacturing industries and public utilities are tremendous users of petroleum fuels. Petroleum also furnishes raw materials for plastics, synthetic rubber and many other commodities. Oil plays a basic part in maintaining America's productivity and high standard of living.

County Gets \$45 Million Oil Boost

Howard County oil and gas wells pumped some \$45 million into the county's economy last year, according to a study just released by the Texas Mid-Continent Oil & Gas Association.

Value of production from oil wells was \$44.1 million and from natural-gas wells \$29,000, based on the most recent U.S. Bureau of Mines figures compiled by the association. The county ranked 27 in the state in value of production.

"Output from Howard County is part of this country's domestic oil supply which is endangered by some of the proposals now before

Congress," commented Corbin J. Robertson, association president. "Attempts to destroy percentage depletion provisions of our income tax laws and to nullify present controls over imported oil could discourage further development of Texas oil resources. Eventually oil markets now shared by the county would be given over to foreign producers."

Last year, the county produced 15.1 million barrels of crude oil and 6.4 billion cubic feet of natural gas.

Of this total, county landowners and others with mineral interests received royalty payments of \$5.6 million.

The state received \$2 million in production taxes with crude oil accounting for \$2 million and natural gas \$58,000. A number of school districts in the county lean heavily on oil production for ad valorem tax support, such as Coahoma, 77.4 per cent, and Forsan, 90.8 per cent.

Drilling expenditures were an estimated \$8.8 million. Of the 119 wells drilled in the county, 89 were completed as oil wells, according to Ira Rinehart's Yearbook. The 30 dry holes cost \$2.3 million. There were nine

wildcats drilled.

The Texas Employment Commission lists 691 workers on oil and gas payrolls, which totaled \$4.3 million.

Also adding to the county's economy, the Oil and Gas

Journal shows one refinery with a 31,500 barrels daily capacity, two carbon-black plants, three petro-chemical plants, one natural-gasoline processing plant with a daily capacity of 70 million cubic feet.

1859

Okay Bag Limit

AUSTIN (AP) — After two years of negotiations, Texas and Louisiana have agreed on a bag limit of 15 a day and no possession limit for black bass fishing in Toledo Bend Reservoir, the Parks and Wildlife Department said today.

The agreement removes Creel and possession limits on Catfish, White Bass, Crappie, Sunfish and other species.

Will we STRIKE OIL or STRIKE OUT?

That's the question a drilling company—like ours—asks itself every time it drills into the earth. Yes, drilling for oil is a risky business.

Exploring and producing is the part we play in America's progressive oil industry. Like thousands of other independent companies—large and small—we compete to serve you, to be sure you have all the oil products you want.

America's future growth—in both population and prosperity—will continue to be great and we in the oil industry will continue to do our share. That is why the oil depletion allowance is so vital for future growth to our country. When you consider that 4 out of every 5 wells drilled is a "dry hole", you can see that this modest depletion allowance is necessary in order that the oil industry can continue to serve America and you.

ONE OF Harding's eight mobile pulling units services an oil well near Coahoma.

Coahoma Well Service Expands Its Facilities

Harding Well Service in Coahoma greatly expanded its facilities during the summer. New offices, land and a huge repairs building were acquired.

Fourteen lots, nearly a block, were purchased adjoining the original Harding Oil Company office and repairs building. Two roomy, wood-paneled offices for the dispatcher, Jack Darden, and supervisors, J. C. Boyd and Raymond Overton, were built. Also a recreation room with game tables and television set was built next to the offices.

The new repairs building was completed Aug. 1. It measures 128x56 and 36 feet high to easily accommodate a pulling unit. The pulling unit is a mobile rig used to pull the rods and tubes from oil wells. An overhead crane runs the length of the building to facilitate repairs.

J. E. Washburn is the mechanic who repairs all well servicing equipment. Included in the equipment are eight double and single derrick pulling units, two hot oil trucks and one steamer. The hot oil

Task Force To Report Monday

A report from the President's Task Force on Priorities will be at the top of the Chamber of Commerce board of directors regular meeting Monday. The directors will also be given a job description for the chamber manager to be discussed.

since 1953. Mr. Harding and his two sisters bought out the B&H Well Service in 1961 and formed their own corporation. Mrs. Gladys Harding Pillow is vice president. Mrs. Carlene H.

Nation To Need More Energy

By 1980 the nation will need 70 per cent more energy — for power, heating, cooling and transportation.

Today the oil and gas industry of Texas alone provides approximately one-fourth of the nation's energy.

If Texas is to continue its vital role as a major contributor in the national growth, its oil men must receive every encouragement to seek new fields and to develop new technologies for recovering greater percentages of the petroleum which has been located.

Cooper is secretary-treasurer. Mr. Harding has lived in Howard County since 1948. He is married and he and Mrs. Harding have a daughter, Gayle, who is a senior at McMurry College, Abilene, and a son, Gaylan, 17.

Harding Well Service employs 45. The office is staffed by Mrs. Iona Bright, typist and billing clerk, and Mrs. Reba Wadde, bookkeeper. Mrs. Wadde also operates the corporation's new \$10,000 Burroughs accounting system. Mr. Harding figures that he has built his assets up from \$110,000 in 1961 to \$450,000 during this year's expansion.

Accidents Cost

AUSTIN (AP) — Texas traffic accidents in September cost the public an estimated \$69 million, increasing the year's total to \$589 million, the Texas Safety Association reported today.

Urban accidents for the month accounted for \$43 million, and rural accidents \$26 million.

TOTAL ENERGY PROGRESS THROUGH ENGINEERING

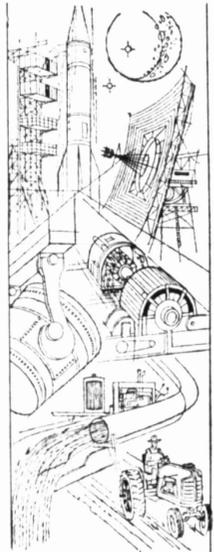

Engineering developed total energy... a new way of producing low cost electricity, heating and cooling from natural gas. It does this by maximum utilization of the energy produced by a gas engine or turbine. Shaft power drives a generator to produce electricity, while exhaust heat from the engine or turbine is recovered for building heat, hot water and steam for absorption cooling.

Total energy readily generates high-frequency power for greater lighting efficiency.

It's practical in shopping centers, office and apartment buildings, schools, motels, industrial plants and hospitals.

Total energy is growing in use because it saves on the cost of power and fuel.

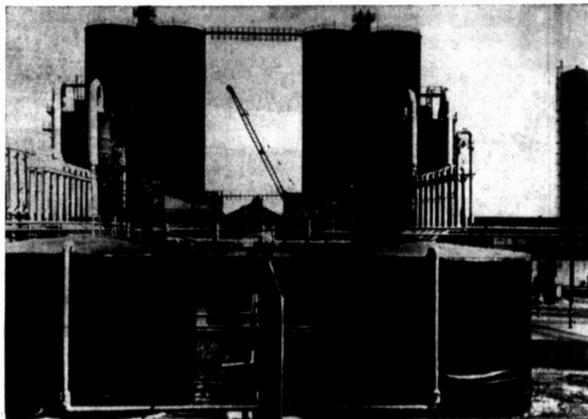

Thanks to engineering research and design the total energy concept has given industry and commerce a new means of low cost energy production.

PIONEER NATURAL GAS COMPANY

We're proud to be a part of the oil industry...

Oil Speeds America's
Forward March To New
Horizons Of Achievement

Cabot Corp. with more than a century of know-how in producing the finest carbon blacks, burns a special furnace oil to yield the highest grades of carbon black available today.

This modern plant recovers the microscopic particles of black so effectively that it is smokeless in its operation. These particles are pelletized and packaged for shipment throughout the United States and to several foreign countries.

Expert craftsmen using the best in equipment, control quality precisely to any specification for furnace blacks.

Many products have been greatly improved through the use of carbon black. One result is the rugged automobile tires which last longer.

CABOT

Production In Decline

Oil production in Howard and its six contiguous counties has declined from 1967 when it amounted to 46,091,266 barrels a decrease of about four million barrels from 1967 when 50,597,700 were produced. However, it is well above the 42,928,708 in 1966 and the 39,878,300 in 1965.

Since the discovery of oil in each of the counties (Borden, Dawson, Glascock, Howard, Martin, Mitchell and Sterling), they have produced 342,041,574 barrels of oil. By 1972 they may attain the billion-barrel status.

Howard is the leading current producer with 15,095,033 last year, and a cumulative total of 383,477,614 barrels. Dawson County ranks second among current producers with 10,233,783 barrels in 1968, but Borden is second in cumulative figures with 154,719,164 against Dawson's 108,295,939.

This is the production record of Howard and surrounding counties for 1968:

County	Year of Discovery	1968	1967	1966	1965	Cumulative Production
BORDEN	1949	8,757,909	7,269,000	8,300,155	6,984,000	154,719,164
DAWSON	1937	10,233,783	9,705,200	9,780,956	8,914,000	108,295,939
GLASSCOCK	1925	3,404,183	8,540,900	1,299,805	962,800	94,922,688
HOWARD	1925	15,095,033	14,527,000	16,756,081	17,400,000	383,477,614

Howard Has At Least 15 Oil Zones

Oil pools may be on top of different depths (formations) at different depths (formations). The same formation may produce at different points in the county, and thus is regarded as another pool, or there may be two or three producing zones at one spot, and each would be regarded as a separate pool.

Howard County has some two-score pools, and these are produced from at least 15 formations.

These start with the Yares, which produces around 1,280 in the Howard-Glascock area. Next is what some call the Hyer sand, named for Fred Hyer who had the county's first producer in 1925, and which may be a part of the Queen, around 1,500. Next is the Seven Rivers at 1,650, followed by the Grayburg at 2,150, the San Andres at about 2,400 and the Clear Fork at 2,900. All these are in Howard-Glascock field, and some produce in other areas such as the San Andres and Clear Fork in East Howard and the Grayburg in the Moore and Yarels pools.

Other producing zones are the Glorieta, the Wichita-Albany, the Spraberry and the Wolfcamp.

Then the Pennsylvanian series — Cisco, Canyon and Strawn — or some times identified only as Pennsylvanian produce in the northern part of the county at zones usually ranging from 7,800 up to 8,800. Then follows the Silurian-Devonian and the Fusselman, which produces from Luther southeastward to near Cosden refinery at around 9,200, also at a slightly shallower depth northeast of Coahoma.

The county formerly had a producer in the Mississippian at an even deeper depth, but this venture has been depleted. So far, Howard County has not had a producer in the Ellenburger, the bottom zone.

Critical Period For Oil Fraternity

HOUSTON — Against a backdrop of threatened changes in the percentage depletion allowance and oil import program, the Texas oil fraternity will begin gathering here today to celebrate the 50th anniversary of the Texas Mid-Continent Oil & Gas Association.

"Our association has never met during a more critical period," says Corbin J. Robertson, Houston, association president. "Proposed changes in federal tax laws affecting the oil and gas industry endanger the very security of our nation. If legislation now being debated in Congress passes, you can look for a sharp reduction in the search for oil and gas in this country with the result that we may come up short in the event of a national emergency."

The association, which will meet Monday and Tuesday in the Rice Hotel, will take a critical look at the state of the petroleum industry. Monday morning, several committees will convene to consider policy in regard to leasing of federal lands for mineral exploration and development, acquainting the public, schools and communities with the oil and gas industry, outlook for state and local taxing and regulatory changes, preservation of the natural environment, and reporting procedures to governmental agencies.

At a morning general session, two top representatives of the industry and one from government will take a look at current problems of the industry. Following addresses by Robertson and Texas Oil Information Committee Chairman J. C. Johnston, Rawleigh Warner Jr., New York, chairman of the board of Mobil Oil Corporation, will speak on "The Unknown Industry." He will be followed by Ben Ramsey, Austin, chairman of the Texas Railroad Commission, who will speak on "The Public Interest and Our Energy Supply." Michael L. Haider, New York, chairman of the American Petroleum Institute, will conclude the session with an address, entitled "Oil and the National Security."

Distinguished service awards will be presented at a noon luncheon to W. A. Moncrief, Fort Worth independent oilman, and M. A. Wright, Houston, chairman of the board and chief executive officer of Humble Oil & Refining Co.

Life Would Not Be Worthwhile!

LONDON (AP) — Only a fourth of the men who wear hairpieces are confident that their secret is never detected.

Nearly 65 per cent believe the toupee is spotted only occasionally. The other 10.5 per cent believe they are often found out.

These figures come from an investigation by Which, a British consumers' magazine. It questioned 196 men who use hairpieces.

Few wearers reported any embarrassment in making their first appearance with new hair. One reported: "Don't wear it if it makes you look younger than your wife: life would not be worthwhile."

'Dead End' Woes

ORANGE, Mass. (AP) — The sign on Grove Street reads "Dead End."

The Rev. Warren B. Lovejoy thinks it is in bad taste. He has asked town officials to take the matter under consideration.

At the end of the street is Central Cemetery.

Banks Have Gains In Rural Areas

Exceptional gains registered in 1968 maintained the leadership of Texas banks among lenders providing credit and other financial services to the state's farmers and ranchers, according to Derrell Henry, Odessa, President of the Texas Bankers Association.

Henry said that as 1969 opened, Texas banks were aiding farm and ranch customers with \$886,220,000 in loans. Included in this total were \$722,237,000 in production and other types of loans not secured by real estate, a gain of 10 per cent over the previous year and of 47 per cent since 1964; also \$163,983,000 in mortgage loans, up 16 per cent for the year and 71 per cent since 1964.

POWER

& PEOPLE

Serving the Oil Industry in the Permian Basin

Providing dependable, economical electric energy to our customers in the oil industry is an important part of Texas Electric Service Company's job. So is helping these customers get the maximum benefit from their uses of electricity. That's why we have oil field spe-

cialists — informed and trained to provide accurate, helpful information about the applications of electric power. These men make cost studies, furnish estimates and supply other information that is beneficial to our customers. This specialized service is just one of the ways Texas Electric Service Company works to help the oil industry — and the Permian Basin area it serves.

Over \$1 Million In Oil Values Drop From Roll

The rate of decline in oil values in Howard County stepped up this year with the drop of over a million oil dollars on the 1969 tax roll, even though total valuation for the county is up a million dollars over 1968. This is due to an increase in rural land values.

The percentage of oil valuation as to total valuation in the county has been dropping 2 of a per cent every year since 1965, but this year there is a marked decrease of 2.2 per cent.

Officials, as well as oilmen are hopeful that discoveries and developments during 1969 will be reflected in slowing of any decline, if not a modest increase. Two areas have attracted interest — the Hutt (Wolfcamp) play east of Cosden and the North Coahoma (Fusselman and now the Clear Fork) field northeast of Coahoma.

In 1964 oil valuation was \$34,327,672, which was 56.9 per cent of the total valuation. The percentage remained the same in 1965, but in 1966, with total valuation at \$62,781,939, the percentage of oil valuation was 56.7. The same 2 per cent decrease was evident in 1967 and 1968, with oil valuation at \$35,716,708 and total roll \$44,294,490. The marked increase in valuation for 1968 is due to an increase of assessed value from 20 per cent to 25 per cent of actual value. Total valuation that year jumped from 1967's figure of \$63,206,628 to \$78,357,440.

The current oil roll, which includes oil, utilities and railroads, shows a tax levy of

\$888,167 for 1969, down \$123,629 from last year's figure. Of this assessment, the state should receive \$181,612, which is 87.2 per cent of last year's amount; the county should get \$454,039, 97.7 per cent of last year; and the junior college should receive \$252,514, which is 97.5 per cent of last year's figure.

The state tax figure is down more in percentage than county or junior college figures because of a new law passed this year by the Texas Legislature phasing out the state tax. Last year's rate was 47 cents per \$100 valuation, but this year starting the phasing out program, it was reduced to 42

cents. Mrs. Zirah LeFevre, county tax assessor-collector, said her collections usually run 96 or 97 per cent and that oil collections are probably about the same or possibly a little higher. She added that such a high collection percentage is considered very good.

Dear Abby

DEAR ABBY: This will be neither short nor sweet as I have a lot to tell. I am a young woman, 40. I married a serviceman at 19. We have two sons.

After 21 years, my husband wants a divorce. (He has somebody else.) Abby, military life is all I have ever known. I have never worked and wouldn't know what kind of job I could get or hold. I gave this man my life and now he wants to give it back to me — in pieces.

Mine was one of those "have to" weddings, but I have tried so hard to be a good wife and mother. There was never much love on his side. He looked on me and the boys as a "responsibility."

Now, after 21 years I am alone with the boys. One is going into the service soon.

am now living with my parents. I can't afford to send the boys to college, or even to a trade school.

My husband makes \$13,000 a year. He retires next year on \$600 a month, plus a \$15,000 a year job. We have about \$9,000 savings, plus his insurance.

I don't know which way to turn. I am going to try to see my husband and talk to him. If he refuses, I'll get myself a motel room and take my bottle of pills. Then my husband will have to take care of my boys. What else is there for me to do?

BROKE, HEARTBROKEN AND ALONE

DEAR BROKE: If you haven't seen a lawyer — SEE ONE! If you don't know a lawyer, get in touch with your STATE BAR ASSOCIATION. Or call your local LEGAL AID SOCIETY. They will provide you with a competent attorney at no cost to you if you are "broke." You and your sons will be provided for in accordance with your husband's means. The Law will see to that.

And if there is a SUICIDE PREVENTION CENTER in your area, call them. They have trained personnel who converse with "broken - hearted and lonely" people by the hundreds. It's not possible to ascertain how many lives they have actually saved, but I'm sure they have saved many. Good luck.

DEAR ABBY: I have been married for a year to a most wonderful man. We are both young, and my husband makes a very good living. We have a comfortable home and a reasonable amount of money saved.

My problem is this: My husband gets furious every time I look in his billfold. I have looked in it several times when he has been in the shower, and when he catches me he almost goes berserk. What do you suppose he has to hide?

NO NAME, PLEASE DEAR NO NAME: I don't know. But whatever it is, one of these days you are apt to

Sun Oil Fills Three Posts

PHILADELPHIA — Selection of three Sun Oil Company executives to fill principal posts in the company's new raw materials group has been announced by Robert G. Dunlop, president.

Named were John H. Douma, who will head Sun's North American production operations; Kingsley V. Schroeder, who will head its North American exploration operations; and Fred M. Mayes, who will direct the group's research and development activities. They will report to R. E. Foss, previously designated chief officer of the Raw Materials group and will assume their duties later this year when the company's corporate reorganization linking Sun and Sunray DX, becomes effective.

Douma, a Sun director and senior vice president of the DX Division's extractive operations, will be responsible for Sun's oil and natural gas production activities throughout North America.

find it — and you may regret it.

DEAR ABBY: Saw the letter from "FOOLISH BUT LUCKY" and wish that you would let your readers know that we, members of the Refrigeration Service Engineers Society, have been waging a campaign for several years to alert the public to the danger of abandoned refrigerators. This year The Boy Scouts of America are helping us.

All members of our society are pledged on receipt of a notice of a hazard of this type, to immediately remove the door, or transport it to a dump or salvage yard after making it safe. There is no charge for this service. Almost every refrigeration service shop or repair shop has one of our members employed. Sincerely, HAROLD BOYD, JACKSON, TENN.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069, and enclose a stamped, self-addressed envelope.

First Federal Salutes The Oil Industry

We wish to thank the men of the oil industry for their continued research in a noble endeavor to make life more enjoyable. The myriad branches of the oil industry provide daily minute and seemingly insignificant necessities and conveniences which we tend to take as a matter of course. True, these products are a matter of course; but discounting them from daily activities would bring upon us the realization of our great debt to research and development divisions of the sundry oil industries. May we at this time pause to count our blessings and include in our enumeration the oil industry.

NEXT YEAR IS 50TH ANNIVERSARY First Well On City's Doorstep

Next year will mark the 50th anniversary of the discovery of oil and completion of the first commercial producer in West Texas. It happened right on Big Spring's doorstep.

It was in July, 1920, that the first oil in commercial quantities was tapped in the General Oil No. 1 McDowell, in northern Glasscock, but the well was not completed. That honor went to the Underwriters No. 1 Morrison in Mitchell County.

This gave rise to the Westbrook field and the construction of an oil refinery (later Col-Tex) at Colorado City. It was five years later (November, 1925) when Fred C. Hyer No. 1 Clay came in for 25 barrels and the first producer in Howard County. While this stimulated a lot of lease buying and trading, the cork did not pop until the following spring when Steve Owens and Sam Sloan hit a 200-barrel well, with substantial gas, on April 18, 1926.

THE CLINCHER
The clincher came later that year when Magnolia No. 1 Roberts experimented in shutting off bottomhole sulphur water and deepened. The drillbit had not gone far before it hit a new zone, the Clear Fork, and tapped a prolific pay. The Herald had black headlines: "4,800-barrel Well Secured." The venture flowed 200 barrels per hour. Subsequently, it flowed 3,000 barrels a day for 30 days.

Leasing trades grew wider by the minute. One deal was for \$7,500 an acre; another operator laid \$1,200,000 on the line in a trade, and that was in a day when the dollar would probably buy two or three times as much as now.

LIKE BEANSTALKS
Oil derricks sprouted along the southeast edge of the county like Jack's beanstalks. Wildcaters began to test other areas, and soon the East Howard oil pool was discovered southeast of Coahoma.

About this time the notorious Great Depression set in, and oil

became a glut on the market. The Howard-Glasscock pool became the first area in the state to establish proration, agreeing upon an "empire" who administered the voluntary efforts which later became a state function. Oil, however, dropped to 10 cents a barrel. With things in the doldrums, wildcaters were siphoned off

quickly when the famous and fabulous East Texas field was discovered.

MORE EXPLORATION
Nevertheless, exploration continued. The Harding field southwest of Big Spring (renamed in 1937 the Moore pool) was opened (and the Varel to the north), and in 1935 the Snyder pool (not to be confused with

the monumental strike in the Kelly-Snyder pool of Scurry county in the late 1940's) was found on the D. H. Snyder ranch between the East Howard and the Chalk pools.

Other strikes followed — the Iatan-North (a northward extension of the East-Howard) in 1943, the Morita (A Grayburg spur from the Moore field) in 1944.

The super-strike, however, came in 1947 when Seaboard Oil took over a test abandoned by Brown & Karcher around 6,600 feet. From 7,946-56 feet, oil returned from the Canyon reef. Seaboard moved north to the Tora Campbell lease and tapped a well which was officially rated at 1,162 barrels a day. Calculations from three tests in one day indicated it really had the capability of 10,695 barrels from the porous reef.

RAMPANT DRILLING
Once more, drilling was rampant. In the meantime, the prolific Reinecke pool was discovered by Cosden in southeastern Borden, and a projection westward led to the discovery of the Hobo field, and on southward into Howard County the East-Vealmoor pool.

The trend stemmed southward from that, but in a deeper zone with tapping of the Silurian-Devonian zone in the Luther field. Continuing southeastward the play led to the discovery of the Big Spring (Fusselman) field which has not yet been finally defined.

A step west from the Vealmoor pool, another small but immensely rich pay zone was found in the Oceanic field. This stimulated exploration across the northwest part of Howard County, including discoveries in the Bond, Brookings, Knott, Modesta, and other pools, none of which have been extensive. However, showings have kept up wildcatting in the area.

VINCENT AND COAHOMA
The Reinecke discovery also had its influence to the southeast, with the resultant discovery of half a dozen or more small pools in the Vincent area, ranging from shallow production in the Coronet pool to the Mississippi on the Gartner lease (now depleted). It spread also to the south to the small finds on the O'Daniel ranch, and eventually to the Coahoma area.

At one time, it was thought the Abo reef had been tapped northeast of Coahoma, but despite a flare of wild trading, this turned out to be the Spraberry. This year, however, the Fusselman has been found and also the Clear Fork.

In the early 1950's the Wolf-camp was first produced on the Hutto Ranch, southwest of Coahoma. Efforts to substantially expand this met with modest to disappointing success until this year when Amerdahess moved the play to the north and west, just east of Cosden's refinery. There was intensive drilling for several months. Unobtrusively Spraberry production has eased into the west edge of Howard County.

WILL IT CONTINUE
The search for oil goes on.

Horoscope Forecast

FOR TODAY AND TOMORROW
—CARROLL RIGHTER

SUNDAY
GENERAL TENDENCIES: You now have made arrangements for cooperative measure with others and you are ready to put your part of any agreement reached into active motion. With this urge and desire to produce results of a dynamic order, you are able to do so by making the necessary changes and acting speedily.

ARIES (March 21 to April 19) You can easily gain the favor of experts who will tell you now the best way to improve your financial status. Once you have everything nicely mapped out, be happy with mate. Out to dinner or a good time.

TAURUS (April 20 to May 20) It would be well to sit down with that partner today and talk over matters of importance to you both. If you are stubborn, you will get nowhere, but a spirit of cooperation is just fine. Be wise.

GEMINI (May 21 to June 21) Instead of fuming about something you can do little about, do something thoughtful for one who has been most loyal and an excellent helper. Take the exercise, etc., that will make you healthier. Be stronger and lick the world, instead of vice versa.

MON CHILDREN (June 22 to July 21) Forget all that usual routine work today and sleep out to places and with people who can make your life more worthwhile and abundant. Be very devoted to mate, though. This can be a particularly delightful day for you.

LEO (July 22 to Aug. 21) Sit down with him and state your ideas on how conditions there can be improved considerably in all ways. Make your home a place of harmony and understanding. Be an inspiration to outsiders.

VIRGO (Aug. 22 to Sept. 21) If you first go out to the services you sometimes neglect, you will be inspired and the rest of the day will go just fine for you. Handle that correspondence strictly. Visit with persons you like and admire.

LIBRA (Sept. 22 to Oct. 21) Plan now to become for more affluent in the days ahead in the fields in which you excel. It will require much work before it can become an actuality. Study your newspaper well, also.

SCORPIO (Oct. 22 to Nov. 21) You can sit down with good friends now and come to a better understanding. Be happier. Be sure that you dress nicely, since appearance can be very

important now.

SAGITTARIUS (Nov. 22 to Dec. 21) Try to find out why others are acting in such a strange fashion, and then you know exactly how to handle them better. Think out how to make your living more secure and solid. Stop laughing so much.

CAPRICORN (Dec. 22 to Jan. 20) Contacting bigwigs you know and discussing your aims leisurely today can result in fine benefits for you. Little social excursions today can be very fine in all ways. Be clever with others.

AQUARIUS (Jan. 21 to Feb. 19) Contacting that higher-up for an introduction to persons who might be of help to you is wise now. Find the right outlets for your talents. Do some reading tonight.

PISCES (Feb. 20 to March 20) Concentrate on a different attitude so that you can advance more quickly in the days ahead. Make new acquaintances today with a different background to your own. They can give you a new approach to things.

MONDAY
GENERAL TENDENCIES: All sorts of chances are now present for you to get at those responsibilities that are a part of your life as a good citizen. It is also an excellent time to take advantage of whatever will make a quicker record into those bills you need to collect. Be resourceful, clever.

ARIES (March 21 to April 19) Give more heed to those chances that you have since they can be very helpful in whatever your sphere of endeavor may be. The evening can be delightful with the one you love. Be gentle.

TAURUS (April 20 to May 20) Be sure you get your points across with a bigwig or partner who is about to move you down. Take your rightful place in the scheme of things. Make a fine impression on the boss, etc.

GEMINI (May 21 to June 21) Be sure you handle every duty ahead of you meticulously. Don't postpone them or you get into trouble later on. A good day to adjust that nagging problem. Be sure you do not fall for some very aggressive salesperson.

MON CHILDREN (June 22 to July 21) During spare time, set up those appointments for the weeks, months ahead that are important to you. Be they of a personal or business nature. Get the O.K. ahead from higher up for some fine talent you possess. Commercialize on it.

LEO (July 22 to Aug. 21) Make your home more harmonious and comfortable. Place and others will be happier there. Look for the cause behind puzzling behavior. Then you know exactly how to proceed.

VIRGO (Aug. 22 to Sept. 21) These appointments you have been putting off can now be made with fine results following. Make sure you do not lose out on any telephone calls that could mean advancement in your special field of endeavor.

LIBRA (Sept. 22 to Oct. 21) You can make these business affairs pay off well now that has been difficult for you to do in the past. You have good advice from one who has been very successful. Work with vim and wisdom.

SCORPIO (Oct. 22 to Nov. 21) Figure out how to gain the cooperation of allies for the projects you have in mind and achieve more happiness in the future. Do some entertaining tonight. Gain the goodwill of key people.

SAGITTARIUS (Nov. 22 to Dec. 21) Certain situations have been very puzzling in the past. Investigation now clears them up very nicely. Quite a good evening for happiness with romantic life. Show that you are a dashing individual.

Largest Life Insurance Pact

On the fourth anniversary of its inception, the nation's largest group life insurance program is providing coverage for 98.4 per cent of eligible members of the Armed Forces of the United States, VA Administrator Donald E. Johnson said.

Supervised by the VA, the Servicemen's Group Life Insurance program covers more than 3,700,000 servicemen — the largest under any single group contract.

SGLI, established in 1965, provides \$10,000 life insurance coverage to servicemen at a cost to the insured of only \$2 per month, Johnson said.

Automatic coverage is provided for each serviceman unless he indicates in writing that he does not want a policy. Only 1.6 per cent of the eligibles have chosen not to be covered, and most of those covered take the full amount rather than the optional \$5,000 amount that costs only \$1 per month.

The primary insurer is The Prudential Insurance Company of Newark, N.J. On a formula basis prescribed by VA, 591 qualified companies participate as reinsurers and converters.

Coverage under the program continues for the serviceman until 120 days after his separation from service and no premium payments are required during this period. At any time while the coverage is in force, the group insurance may be converted to regular individual insurance in any participating commercial insurance company.

OIL PROGRESS

The men and women of the oil industry have contributed tremendously to the economic, social and cultural achievements of their communities, our state and our nation.

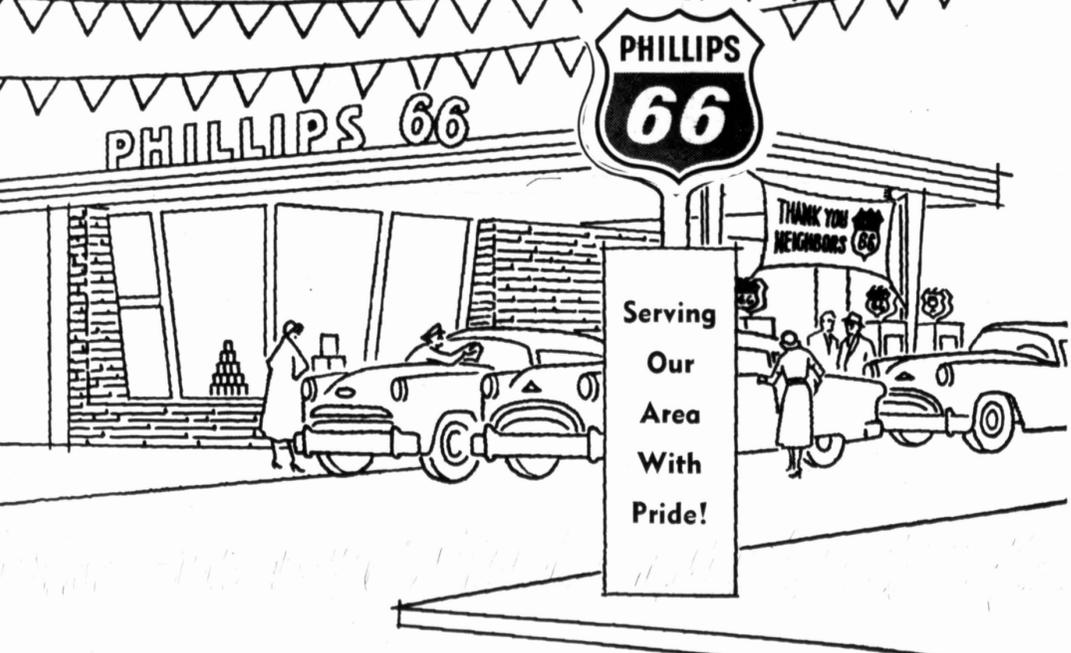

We, at the First National Bank of Fort Worth, through our correspondent banks in the oil centers of the southwest, are proud to have been a part of many of these achievements.

We'll help every way possible, too, to see that today's oil plans and ideas become tomorrow's achievements.

Cox Set Off Big Oil Leasing Boom

Big Spring — and for that matter Colorado City — are entitled to consider a Golden Anniversary observance next year of the discovery of oil in West Texas.

First oil was found by S. E. J. Cox on the McDowell Ranch in July, 1920, but it was a home-organized wildcat in Mitchell County which made the first producer later that year.

There had been some effort to find oil in the Big Spring vicinity, principally by the Home Development Company,

which kept plugging away southwest of Big Spring for several years without success. But in 1919 S. E. J. Cox, who had turned a sour experience as a stock broker into a \$40 million oil business, moved uninvited and almost unheralded into Big Spring and touched off one of the most fantastic booms imaginable.

OIL FEVER

For his part it turned out to be almost oilless and eventually ended in destruction of his empire and consigned him to

Water Helps Bring Up More Oil

One of the best investments of Texas water is its use as an agent to increase recovery of oil.

Approximately one-fourth of today's oil production in Texas is from fields in which water and other fluids are injected to force out millions of barrels of oil which otherwise would be lost to man's use.

Water injection programs in Texas fields — frequently called "waterfloods" — increase the productivity of the state's economy by more than one-half billion dollars a year.

Yet, less than 1 1/2 per cent of Texas water used annually for all purposes — municipal, industrial, agricultural — is needed to recover this much oil.

In this area, several companies depend upon the Colorado River Municipal Water District for water to be used in secondary recovery operations. During 1968, oil operators used 4,498,900,000 gallons from the district, a modest portion going to industrial use for this purpose. The year before the figure was 4,525,434,000 gallons.

The district furnishes SACROC, Monsanto, Sharon Ridge, in the Scurry-Borden area; Standard-Sinclair in the East Howard; Sun Oil and Standard Northeast IAB in Coke County; and more recently the Walsh & Watts unit in East Howard County. The latter will use from 80 to 100 million gallons a year, which is in low quality water taken from the Colorado River to prevent downstream pollution in Lake E. V. Spence. Sun Oil, which uses around 100 million gallons a month, is taking the bulk of its requirements in this low quality water. Still another of the repressuring units is being shifted to this type of water.

The district is adding another major industrial customer in American Magnesium in south-

west Scurry County. Currently its use is at the rate of about 40 million a year, but will jump to several times this figure when operations begin in full, possibly in November.

The SACROC unit, normally the largest user, has applied for an increase in allowable, and if granted, this will mean expansion of its unit so that it would be needing around 300 million or more gallons a year.

The figures cited for CRMWD are for example only, for the bulk of repressuring in West Texas is done with brine produced coincidentally with oil, or by drilling brine wells to supply the water. For example this is the way pressure is maintained in the Howard Glasscock field.

TRA President Speaks In Basin

Charles W. Horan Jr. of Fort Worth, president of the Texas Restaurant Association, will speak in Odessa Oct. 20. He is making his official visit to the Permian Basin Restaurant Association. His presentation will be made at Furr's Cafeteria, 3120 Andrews Highway, beginning at 7:15 p.m.

W. Price Jr., Austin, executive vice president of the TRA will outline the new state minimum wage law which goes into effect Feb. 1, covering all food service operations with four or more employees. W. D. Brown, Permian Basin president, invites anyone connected with food service, whether TRA members or not, to attend the Oct. 20 dinner meeting and hear Horan and Price. Advance reservations may be made with Brown in Midland at 563-0580; Mike Keith, Odessa, 332-6676; or Al Bagwell, Big Spring, 263-6465.

Men In Service

Sgt. E-5 Freddie L. Williams, son of Lindy Williams and Mrs. Garland Green, both of Big Spring, has returned home after serving with the First Logistical Command in Saigon, Vietnam. He graduated from Wilson White High School, Rosebud, in 1966 and attended Howard County Junior College.

SGT. FREDDIE L. WILLIAMS

Marine Pfc. Juan M. Flores, son of Mr. and Mrs. Manuel R. Flores, 2201 Runnels, is serving with the First Tank Battalion, First Marine Division in Vietnam. The battalion supports the division's infantry units by providing direct supporting fire.

Capt. Wilbert R. Menix, son of Rudolph F. Menix, Rt. 1, Ackerly, completed a 16-week helicopter pilot course at the Army Primary Helicopter School, Ft. Wolters, Tex., Sept. 12. During the course, he was trained to fly Army helicopters and learned to use them in tactical maneuvers.

He will next undergo advanced flight training at Hunter Army Airfield, Ga. Capt. Menix entered the Army in April, 1966, and received his commission through Officers Candidate School. He holds the Silver Star, Bronze Star Medal for heroism,

Needs Of School Systems Given A Helping Hand

Texas parents and other taxpayers get a tremendous helping hand from oil and gas operations in meeting the growing costs of education each year.

Late Burgers For Students

Two million Texas children will eat hamburgers Oct. 15 for their school lunches to participate in National School Lunch Week Oct. 12-18. They'll be joining 20 million other children in the U.S. who eat lunch at school food services operating under the National School Lunch Program.

The program has been in operation 23 years. Last year nearly 3.4 billion meals were served. Fifteen per cent of those were offered free or at reduced prices for children of low income families. The lunches are planned to provide children with one-third to one-half their daily food needs.

Local schools will have their hamburger lunch late, as notice of National School Lunch Week was received too late to change the menu, according to Ray Lawlis, director of cafeteria services.

AFB, Thailand. He is a squadron commander serving with the 432nd Combat Support Group, a unit of the Pacific Air Forces. Before his arrival in Thailand, he was assigned at Webb AFB.

His wife, Mary, is the daughter of Mr. and Mrs. V. O. Wade, 1807 Winston, Big Spring.

Fireman Thomas S. Nieland, USN, son of Lt. Col. and Mrs. C. C. Nieland, 2806 Apache, Big Spring, is serving aboard the guided missile destroyer USS Cochrane in Vietnam. The Pearl Harbor based ship recently participated in a fire mission in support of the 22nd Vietnamese Army Division.

Pvt. I.C. Michael L. Johnson, 22, whose parents, Mr. and Mrs. R. T. Johnson, and wife, Cheryl, live at 1607 W. 2nd, Big Spring, re-enlisted for six years in the Regular Army Aug. 27 while serving with the 4th Infantry Division near Pleiku, Vietnam. He is a medical aidman with Company C of the division's 4th Medical Battalion. He entered the Army in July, 1968, received basic training at Ft. Polk, La., and was stationed at Ft. Benning, Ga., before arriving overseas in April, 1969.

Army Pvt. I.C. Alfonso Calvio, 20, son of Mr. and Mrs. Leland Calvio, Route 1, Knott, was assigned Sept. 3 to the 1st Infantry Division in Vietnam as a rifleman.

Sgt. Randall O. Cline has been recognized for helping his unit earn a citation from the Republic of Vietnam. An aircraft mechanic at Bien Hoa AB, Vietnam, he is assigned to the 3rd Tactical Fighter Wing which was recently awarded the Vietnamese Cross of Gallantry with Palm. His wife is the former Virginia A. Wise, daughter of Mr. and Mrs. W. L. Wise, 707 Aylford St., Big Spring.

Floyd G. Wheeler, 20, son of Mr. and Mrs. Floyd C. Wheeler, Stanton, was promoted to Army specialist five Aug. 21 in Vietnam, while serving with the 1st Cavalry Division (Airmobile). He is a mechanic with Headquarters and Service Company of the division's 15th Medical Battalion. He entered the Army in December, 1967, received basic training at Ft. Polk, La., and was stationed at Ft. Rucker, Ala., before arriving overseas in November 1968. He is a 1967 graduate of Stanton High School.

WESTBROOK — Pvt. James H. Williamson, son of Mr. and Mrs. J. K. Williamson, has started nine weeks of training with the Marine Corps Recruiting Depot in San Diego, Calif. He was inducted Sept. 24 at Shreveport, La.

Williamson is a graduate of Westbrook High School and Howard County Junior College, and attended Stephen F. Austin College in Nacogdoches. His wife, Judy, daughter of Mr. and Mrs. Gaylon Long, Nacogdoches, is a junior at Stephen F. Austin College.

Check Heaters, Furnaces Before Lighting For Winter

Now that cold weather is approaching and evenings are more chilly, it is time to check furnaces and heating devices.

"With the first cold spell, some residents light furnaces and heaters without seeing that everything is cleaned and in order," said A. D. Meador, fire marshal. Leaking gas, vents clogged with lint, dirty furnaces, hot motors on furnace blowers and central heating unit failures cause fires, Meador said.

"It might cost a little money to get gas heaters checked over, but it's a lot cheaper than losing your house," he said. Fire losses in the nation are calculated at \$25 a minute. Fire Department Capt. Alvie Harrison added that a window should always be open when open flame heaters are in use.

Fire losses this year through August have amounted to \$182,993.06 on buildings and \$43,726 on contents, or a total of \$226,719.06. Fifty-one fire calls were answered during August alone, with losses totalling \$600. A majority of these fires were caused by burning grease pans on stoves. Many also were caused by cigarettes and by electrical defects. An electrical defect sparked the year's largest fire at Kimbell Feed Mill.

Another heating danger during cold weather is carbon monoxide poisoning. Everytime a person burns gasoline, kerosene, wood, natural or manufactured gas, coal, coke or oil he is starting a potential carbon monoxide source.

Commissioner of Health for Texas, Dr. J. E. Peavy, warns that a car engine running in an average-sized garage can produce a lethal dose of carbon monoxide in only five minutes. A car should never be run in a closed garage, he said. Even with garage doors open, fumes might move into the house, cautions Dr. Peavy. Cars should be checked regularly for leaks in exhaust pipes, mufflers and their connections to prevent fumes from seeping into the car.

Carbon monoxide gas is odorless, tasteless and colorless. It kills hundreds of Americans every year. Recently several people in San Antonio were treated after being overcome by fumes at a charcoal plant, Dr. Peavy reported. Last week in Canada four people died of

carbon monoxide poisoning fresh air when car exhaust was piped under a house in an effort to kill skunks. Dr. Peavy explained that carbon monoxide ranges should be connected with rigid piping, never with rubber bloodstream making him weak and groggy and results in death if the person is not moved to fresh air. Gas heaters may cause suffocation, too, according to Meador. All gas heaters and ranges should be connected with rigid piping, never with rubber hose, he said. This leads to gas leakage and sometimes explosions.
