## Heart Expert Cautions Against False Hopes

DALLAS, Tex. (AP) — A New York heart specialist today cautioned doctors against being overly enthusiastic about drug treatments for angina pectoris — lest they be fooled by "sleeping" aspects of the heart disease.

Dr. Arthur W. Master of Mt. Sinai School of Medicine said in a report to the annual scientific meeting of the American Heart Association that new studies indicate the symptoms of angina may disappear spontaneously for several months or longer only to return again.

Angina pectoris results when the heart muscle fails to receive enough blood, causing a vise-like pain in the chest and often in the left arm and shoulder. It commonly occurs when the walls of the coronary arteries, which supply blood to the heart muscle, are narrowed by atherosclerosis, a process involving the formation of fatty deposits that are a kind of "biological rust."

"In 800 patients with angina pectoris studied consecutively during the past 10 years, about 50 per cent of the survivors have maintained their anginal syndrome during the entire period," Dr. Master said.

"In the other 50 per cent, the angina pectoris disappeared for several months or longer and then reappeared for a variable length of time. This alteration occurred frequently."

He added: "The fact that the anginal syndrome may disappear spontaneously in large numbers of patients with established coronary sclerosis (clogging) should be considered in evaluating surgical procedures and drugs used for amelioration of symptoms of angina pectoris."

In another report, a team of researchers from the Australian National University of Canberra described launching of a study seeking to determine whether a switch to urban living can alter the heart-health of a tribe of New Guinea highland natives, in whom coronary heart disease has long been rare.

The doctors said their research subjects are "1,500 natives whose primitive living conditions are threatened by urbanization."

## Arms Limitation Talks Scheduled

HELSINKI, Finland (AP) — The Soviet-American strategic arms limitation talks will open Monday in a Finnish government building in downtown Helsinki, it was announced Wednesday. Succeeding meetings will be held alternately in the Soviet and U.S. embassies.

The banquet house chosen for the opening meeting was once the Russian governor's palace, and after the Bolshevik Revolution became headquarters for Soviet troops in Finland. It is named Smolna Palace.

## PRICE K. TARBET

### Neighbors Pitch In To Help Ill Farmer

ACKERLY — One worry that need not plague Price K. Tarbet, who farms the Andy Brown place a mile north of Ackerly, is that of getting in his cotton crop.

Mr. Tarbet has been seriously ill and unable to gather 200 acres planted to cotton. His neighbors have relieved him of that concern by defoliating, harvesting and hauling it to the gin.

It was a sort of informal effort. When Jess Billingsley heard about Mr. Tarbet's illness, he spread the word around. Sixty acres already had been sprayed to defoliate the cotton, so half a dozen farmers quickly got that out and then sprayed the balance of the fields.

About that time, however, a series of showers came along, but Monday and Tuesday, the fields had dried out sufficiently for more than a score of men to get with it. By Tuesday the last of some 130 bales from the field had rolled off the gin presses.

No accurate count was kept on the number of machines brought in, but first and last it must have been in the neighborhood of 20.

Among those who brought machines or otherwise helped were Larry Billingsley, Jerry Hall, M. E. Dyer Jr., Darrell Bearden, Bob Hunt, Leon Bodine, Rex Zant, Joe Billingsley, Cartis White, Earl Newcomer, Bob Merrick, Jerry Merrick, Mark Snell, L. W. Batson, Bob Oaks, James Jeffcoat, A. D. Reed, Vernon Shortes, Dan Shortes, Bill Hambrick, Edgar Herm, Cecil Allred, W. M. Doser, J. D. Hall, Derwood Blagrove, Gail Batson, G. W. Martin, Arthur Reed, Ed Oaks, Darrell Smith, Jess Billingsley and possibly others.

## Two Hungry Men Spark Big Manhunt

SAN ANTONIO (AP) — Two tired, hungry men who asked for food and fled sparked a fruitless manhunt Wednesday after a report that they resembled two youths wanted in the slaying of a highway patrolman.

About 25 state and county officers fanned out in rough brush country northeast of here and a Department of Public Safety helicopter was dispatched to the scene.

The search lasted about three hours and officers called it off as night fell. Highway patrolmen said there were no plans to resume it today.

Two youths are wanted for questioning in the slaying of Waxahachie state highway patrolman Travis Locker, who was mortally wounded north of Waxahachie Sunday night after stopping a car. He was shot twice in the back.

Up to 300 officers and three helicopters searched for the youths in the Waxahachie area early this week.

Officers here Wednesday reported two persons said they spotted two youths near Selma, Tex., 12 miles northeast of here, Wednesday afternoon.

One witness, a teen-age girl, said the dirty, hungry, weather-beaten pair came to her house and asked for food and water. They grabbed sandwiches and ran, she said.

She indicated the pair matched the description of the wanted youths, officers said.

## Juvenile Officer Has 34 Referrals During October

Thirty-four juveniles were referred to the Howard County Youth Council. Five girls remain on official probation.

Fifty-five children were counseled by Jones during October, 21 were contacted by telephone. Seven children were visited in the juvenile section of the county jail and six visits were made to various state schools.

As of Nov. 1, nine boys from Howard County were in the State School for Boys, Gatesville; and seven boys are on parole from the Texas Youth Council.

Also as of Nov. 1, two girls from Howard County were in the Gainesville State School for Girls and one girl in the Corsicana State Home. Four girls are currently on parole from the Texas Youth Council in Howard County from the Texas Youth Council.

Referrals included one boy for burglary, one girl for minor in possession, three boys for game law violation, one boy for disorderly conduct, nine boys and four girls for runaway, one boy for public affray, seven girls for truancy, one boy and two girls for domestic problems, one girl for forgery and runaway, and three boys for drunk.

Dispositions included one child placed with a relative out of the county, five on continued supervision, eleven counseled and released, nine released to parents out of the state, one referred to school officials, six placed on supervision, and one committed to the State School for Girls, Gainesville.

There are currently 13 children on supervision in Howard County, eight are girls. One boy was released from supervision during October following satisfactory adjustment, and one girl on supervision was committed to the custody of the Texas

## Requests Funds

FRANKFORT, Ky. (AP) — The Kentucky Railroad Commission, sometimes considered a quaint relic of the past, says it's alive and in dire need of more money.

It asked Gov. Louie B. Nunn for an extra \$45,000 for the next year or so to help rule on what it called an increase in railroad rate adjustment requests.

# New Convention Center Sparks Change

FORT WORTH (AP) — Something of a metropolitan renaissance is reshaping the Fort Worth skyline, due largely to a glittering new Convention Center.

More than 60 downtown blocks figure in current, pending or proposed construction projects, including one which could give the city its first 50-story skyscraper.

The city has suddenly come alive with the sounds and signs of industrial and commercial progress, a revival some say was unnecessarily slow in occurring.

### EVIDENCE

"I always felt Fort Worth had the most latest potential for development of any other city in Texas," says Bill Shelton, manager of economic development for the Chamber of Commerce. "Now we're seeing evidence of it in everything that is happening."

Much of what composes the skyline now was built in the 1920s, he said.

"The convention center was the first major change. The center has perhaps been the catalyst for the changes that have come about."

The \$20 million Tarrant County Convention Center sprawls across 11 city blocks, once a haven for winos, pawn shops, bars, cheap hotels and decaying, vacant buildings.

Prior to construction of the center, there had been scattered projects, mostly by banks and the federal government.

But, as Shelton says, "nothing of the magnitude of what's coming up now."

### CHANGED NAME

Hotels, banks, insurance companies, the federal government and others are involved in major developments.

The Fort Worth National Bank has purchased more than four blocks for a future building which, it was reported, "may be as high as 50 stories, although no specific plans have been drawn."

Congress has given its approval to a \$22.5 million post office, which will cover 16 blocks, and should be ready for occupancy by 1974 if economy drives do not slow it.

The Sheraton Corp. leased the Hotel Texas, changed its name to the Sheraton-Fort Worth and launched a \$6.2 million expansion and modernization program.

This project includes the construction of a 230-room annex, which, like the main hotel, overlooks the convention center complex.

### BIG PACKAGE

One of the most ambitious projects involves the Chamber Development Corp. which is trying to put together a four-block package for private development.

Planners envision an area similar in some ways to Houston's Market Square, St. Louis' Gaslight Square, San Francisco's Ghirardelli Square and Chicago's Old Town.

This area would include restaurants, nightclubs, art galleries, gift emporiums, antique shops, bookstores and various types of "shoppes and salons."

Such a square would be designed largely as a lure for the tourist and the conventioner. The Blackstone and Worth Hotel began extensive renovation projects.

The Fort Worth Star-Telegram is nearing completion of a multimillion dollar modernization program that includes a new annex across the street from the main building and connected by a three-story "bridge."

A new \$7.2 million city hall is in the works.

The Convention Center and Continental National Banks are building multi-story parking garages. A federal parking garage also is going up.

Some of the skyline changes are coming about not by new structures going up but by old ones coming down.

The Bewley Mills buildings, comprising an 80-year-old landmark on the eastern edge of the downtown area, are being torn down—some 12 years after milling operations were suspended.

The developer who made that decision, Shelton suggested, "should be given a beautification plaque."

### STRIPPED AWAY

Another area harsh to the eye would be largely stripped away and replaced by a city park, some four blocks in size, under a proposal still pending.

This would provide east and west bound motorists a panoramic view of the convention center as they sped across the southern edge of the city.

At least two major hotel chains are conducting location studies in the downtown area and, says Shelton, "I think we're going to see some more announcements in the near future."

Significantly, perhaps, most of projects are being carried out through private enterprise. Voters rejected urban renewal several years ago.

# Big Ground Attack Along DMZ Kills 26 Americans

SAIGON (AP) — North Vietnamese troops launched their biggest single ground assault along the demilitarized zone in more than a year and had 108 men killed by superior American firepower, military spokesmen reported today.

Twenty-six Americans were killed, 70 wounded and two helicopters shot down in 17 hours of close combat that lasted from Wednesday afternoon until dawn today. The battle took place six miles southwest of the allied outpost at Con Thien and 3 1/2 miles below the demilitarized zone.

One American company—reportedly outnumbered as much as 3 to 1 when an estimated 500 North Vietnamese soldiers attacked their night bivouac in the predawn hours today—suffered 17 men killed. The company beat off the attack with the help of tanks, armored personnel

carriers, artillery and helicopter gunships.

More than 100 miles to the south, in the populous coastal lowlands south of Da Nang, 130 North Vietnamese and Viet Cong were reported killed and 58 captured in the heaviest fighting in that region in 2 1/2 months. Allied casualties in eight actions in the area were seven Americans and three South Vietnamese killed and 26 Americans and 13 South Vietnamese wounded.

Another battle, on the edge of the U Minh forest in the Mekong Delta, brought total enemy casualties reported in the past 24 hours to 251 killed and 58 captured.

The allied commands in their weekly casualty summaries reported that the number of Americans killed in action last week totaled 97, a slight increase over the previous week.

while South Vietnamese and enemy fatalities were the highest in two months. The summaries listed 476 government troops and 2,476 Viet Cong and North Vietnamese killed. Another 698 Americans were wounded.

"Enemy activity last week increased by 100 per cent compared to the previous week," said the communique from the Saigon government.

The weekly report brought the total American combat dead reported since Jan. 1, 1961, to 39,329 and the total reported for the enemy to 568,989 in that period.

Since the enemy kicked off his winter-spring offensive on Nov. 4, his attacks have been concentrated in the southern part of the central highlands and the Mekong Delta, and a spokesman for U.S. Command termed the attack Wednesday afternoon below the demilitarized zone "an isolated action."

## Agency Planning Attack On Crime

AUSTIN — Detailed proposals for massing a statewide attack on crime and narcotics among school age Texans will be drawn up by the Texas Education Agency for classroom use beginning in September, 1970.

The State Board of Education Monday authorized the agency to develop proposals requesting funds through the federal Juvenile Delinquency Prevention and Control Act of 1968, plus state and private sources.

Teachers and children destined for direct involvement in the program will approach the two million mark, according to Dr. L. Harlan Ford, agency assistant commissioner for teacher education and instructional services. The 61st Legislature directed the agency to develop curriculum and other materials necessary for teaching Texas public school pupils in grades five through 12 "a course on the evils of crime and narcotics" to be required of all students.

## New Textbooks Win Adoption

AUSTIN — Ninety-six new textbook titles expected to cost nearly \$11 million their first year in the public school classrooms were adopted Nov. 10 by the State Board of Education.

The new texts, which range across subjects from arithmetic to Latin and grades from one to 12, will be distributed to Texas public school students in September, 1970. They will continue in adoption from three to five years.

An estimated 2,765,093 copies will be purchased the first year at an average cost of \$3.96 per book. The total first year bill is expected to tally out at \$10,964,994. The 96 different books published by 30 firms were selected from an original list of 264 books bid by 48 publishers.

# Tower Says United States Winning War

BEAUMONT, Tex. (AP) — Sen. John Tower, R-Tex., said Wednesday that the American public must insist that its public servants do what they are supposed to do.

Speaking at a Beaumont dinner, Tower said the nation is still confronted by a growing crime rate, inflation and the Vietnam war.

"None of these lends itself to public reaction. You must be patient," Tower said.

"The American government cannot survive if people are not willing to discipline themselves. We are coming to the realization that the government can't do all in solving social and economic problems," Tower said.

**DEAR ABBY:** Rudy works for a large company, and as you know there is a pecking order in all companies. The chairman of the board is apple-polished by the vice presidents, the vice presidents are apple-polished by the department heads, the department heads are apple-polished by the buyers, and so on down the line.

We'll, whenever Rudy's company has a party, they have an orchestra and dancing. Rudy is a very good dancer, but never get to dance with him. He spends the entire evening dancing with his bosses' wives, so the bosses will be free to dance with all the cute young things. Rudy says I am not to complain because this is "legitimate apple-polishing," which is a part of his job.

Now I'm all for Rudy making points with his bosses, but do you think it's fair for him to

**Ingram Tours Texas Institute**

SAN ANTONIO — A tour where one may actually see Texas history adds tremendously to one's understanding of it.

This was the reaction of Mike Ingram, Big Spring, as he ended a recent tour of the Institute of Texan Cultures at San Antonio, an institution which is a repository for documents, artifacts and other items of interest in Texas history.

Ingram was among a group of 37 students making the tour.

One of the most valuable things about the tour, Ingram added, was "knowing what we saw was true. Some things in books one can hardly believe."

The Institute of Texan Cultures, open to the public at no charge, is part of the University of Texas System. Hours are 10 a.m. to 4 p.m. Tuesday through Friday, and 1 p.m. to 6 p.m. on Saturdays and Sundays. The Institute is closed on Mondays.

Special tours for schools and other groups may be arranged by writing to Mrs. Pat Thatcher, Institute of Texan Cultures, P.O. Box 1226, San Antonio, Texas 78206.

**New Political Party Hinted**

NEW YORK (AP) — Sen. Eugene J. McCarthy, D-Minn., says a new political party may emerge in the 1972 presidential campaign with Mayor John V. Lindsay of New York as its standard bearer.

leave me sitting all evening while he dances with the bosses' wives?

**RUDY'S WIFE:** Rudy doesn't need polished apples for all the applesauce he's giving you. NO man should dance with another woman unless his own ylfie is occupied. (A little "henpecking" could have a legitimate place in this pecking order.)

**DEAR ABBY:** I am a 65-year-old woman, never married and just retired. I have taken care of an older ailing sister who died eight weeks ago.

I was so lonesome I went to a store and bought myself a beautiful large doll. I set her in the chair and I sometimes talk to her.

I am worried. Is anything wrong with me? Why did I buy a doll at my age? Should I give it away or just let it set there? Thank you.

**WORRIED:** You bought a doll at your age because you wanted one. And there is nothing wrong with that. But you really should get out a little more, see people, and perhaps team up with a companion. Too much solitude can be depressing.

**DEAR ABBY:** In our office there is a girl who has been "single" ever since the death of her husband two years ago. The boss lost his wife about a year ago, and these two have been very chummy ever since. They've even taken out-of-town trips together just like married folks, and have recently announced (to the surprise of no one) that they are "engaged" to be married!

A large wedding is planned and I have heard that all of us in the office will be invited. How can I tactfully turn down this wedding invitation? I don't care to attend the wedding of people who have lived in sin for a whole year.

**INDIGNANT:** Simply decline. You are not expected to explain why. P.S. You could be wrong about this "sin" charge, you know. Are you "indignant" enough to quit working for this "sinner"? If not, why not?

**Bans Film 'From Here To Eternity'**

SAIGON (AP) — The South Vietnamese government has banned the movie "From Here to Eternity" for security reasons, the official South Vietnamese news agency announced today.

No explanation was given, but the report noted: "This very popular film has appeared on many screens in Vietnam for the past 10 years."

Where choices of bids are presented, the success of the hand frequently will depend upon the exact sequence in which the player elects to make his several calls.

In today's hand, North opened with one heart and East made a vulnerable overcall of one spade. After South's free bid of two diamonds, North had several calls available to him. He could bid three or four diamonds, three clubs or make a cue bid of two spades. North chose to bid three clubs.

While it is true that technically this bid is not forcing and South might legally pass, as a practical matter, it is inconceivable that he would care to do so. After all, he did fancy his hand sufficiently to make a free bid. Why, therefore, would he suddenly decide to throw in the sponge

in the face of North's display of great strength? The risk was infinitesimal and was worth taking for the sake of describing the texture of North's hand.

If the clubs were not shown at this point, it would be almost impossible to show the suit later, because at such time partner would gain the impression that you were merely showing the ace. South took the preference by returning to three hearts and North was encouraged to show the spade void. South now bid four clubs with the intention of describing a value in that suit. North's invitation bid of five diamonds was then accepted by South.

To the casual observer it might appear that South was unduly aggressive with a hand that on the surface did not appear to hold much power but, as the bidding developed, it gained new luster. He held precisely the right kings, each of which must be considered as having been promoted to the rank of an ace. There could be no question but that they would completely solidify North's hand. His only weak spot, spades, had been taken care of by North's cue bid. He had no wasted values.

North's sequence of bids had simplified South's task. The knowledge that North had a club suit, rendered the king-ten of clubs much more impressive than they might otherwise have appeared.

It is generally good tactics to postpone cue bids until late in the auction after descriptive bidding has been completed.

**WINS THE BATTLE** — Actress Mercedes McCambridge, triumphant in a battle against alcoholism, talks at her Westwood, Calif., apartment about the many warm messages and "fantastic letters" she has received since she appeared before a U.S. Senate subcommittee recently. Miss McCambridge hopes to see alcoholism discussed openly.

**Nice People Don't Die Of Booze, Says Actress**

HOLLYWOOD (AP) — Actress Mercedes McCambridge once won an Oscar, but she said her biggest prize in life was her triumph over alcoholism. She likes to talk about it; wants to bring it out in the open. "The way we treat the whole problem is barbaric," she told an interview.

"I knew a woman, heiress to a fabulous fortune, who died in a corner suite of one of our best hospitals. She died of alcoholism and malnutrition after her family—in ignorance—overprotected her."

"Nice people don't die of booze, said the 51-year-old character actress, "so it's called something else."

Miss McCambridge, who won her Academy Award in 1950 for her role in "All the King's Men," said her life with the bottle was "a kind of hell."

She blames basic insecurity for getting her started. "I always compared my worst qualities to everyone else's best qualities," she said. "I knew there was a rat race going on inside of me, but I thought everyone else had it made," she said.

"Now, of course, I know that everybody has problems." She said some of her film roles were destructive, too. "I played the worst harridans, the most hard-bitten women, the absolute heavies, and it just about did me in."

Now she spends much of her time on college campuses, starring in otherwise all-student productions.

**Eight Going To FB Meet**

Eight members, together with their wives, are planning to represent the Howard County chapter of the Texas Farm Bureau at the state convention in San Antonio Nov. 16-18.

They are Johnnie Walker, Harvey Adams, Ralph White, Neil Fryar, Bud Nichols, Larry Shaw, Derwood Blackgrave, and J. L. Baugh.

The local chapter concluded its fiscal year Oct. 31 with a membership of 758, an increase over the previous year. On a state basis, the total was 116,622, a gain of 6,000 for the year and the largest annual gain in 13 years.

Featured speakers at the state meeting include House Speaker G. F. (Gus) Mutscher, Brenham, and Rep. W. S. (Bill) Healy, Paducah, chairman of the House Appropriations committee. The Rev. Estes L. Various subjects including transportation, communications, utilities, natural resources, marketing, dairying, labor, livestock, poultry, insurance, research and purchasing, will be discussed.

Adams heads the Howard County bureau, while Jerry Iden is vice president, and Walker is secretary-treasurer.

**TECH CADET ADMITS HOAX**

LUBBOCK (AP) — Col. Maxwell Murphy, head of the ROTC unit at Texas Tech, said Wednesday that a cadet has admitted his story that he was beaten by white-robed men was a hoax.

The cadet, highest ranking in the Tech school, is Ira D. Walker, 22. He was suspended Tuesday pending further investigation.

Col. Murphy said Walker admitted to him that he told the story "to get back at those who are trying to destroy the nation."

Walker also reported that he had received threats aimed at getting him to resign from the reserve officers' training program.

The cadet told officers he was taken to a park by six men and beaten. He said they wore white sheets.

**Swaps Parties**

HOUSTON (AP) — A precinct chairman who won his position as a Democrat has announced that as of Nov. 18, he will be a Republican precinct chairman.

E. Burke Huber said Tuesday he is switching parties because, "I am tired of being a hypocrite—living two lives—being a Texas Democrat and a national Republican."

Mrs. Nancy Palm, GOP county chairman, said Huber would be "welcome to the Republican Party."

## Duty To Accept High-Risk Pupils

CHARLOTTE, N.C. (AP) — Admissions counselors were told Tuesday the nation's colleges had a duty to accept more high-risk Negro students.

Only 12 to 15 per cent of more than 200 state colleges surveyed

by the Southern Education Foundation have "serious programs" for handling these students, the counselors were told by Dr. Theodore K. Miller of the University of Georgia.

Miller headed the counselors panel at the Southern College Personnel Association Conference.

## Decides To Sell Painting By Ike

LONDON (AP) — Field Marshal Viscount Montgomery has decided to auction off a portrait of him done by a military colleague, the late Dwight D. Eisenhower.

Montgomery said he sat for the painting while acting as Eisenhower's deputy supreme al-

lied commander in Paris after World War II.

Montgomery said he had decided to sell the painting at an auction Nov. 26 because "an American friend who was visiting me said he thought it ought to be in America."

## 'Let 'Em Jog It'

NEW YORK (AP) — Three city firemen have formed the

Moratorium on Moratoriums. Their aim is to cut down the number of New Yorkers attending the Vietnam protest activities in Washington Saturday. Their tactic is to try and persuade drivers of 650 buses chartered by moratorium sympathizers not to make the run. The three firemen paraded Tuesday outside the Transport Union Workers headquarters advising drivers, "Let 'em jog it."

GLENN MAY RUN FOR SENATE — Former astronaut John H. Glenn Jr., who dropped out of one Senate race, has indicated he may make another try.

## El Paso Paper Didn't Libel Prof Trexler

AUSTIN (AP) — The Texas Supreme Court ruled Wednesday the El Paso Times did not libel a University of Texas El Paso professor when it published a letter to the editor attacking him.

The court upheld a decision by an El Paso trial court but reversed a decision of the El Paso Court of Civil Appeals, which had ordered a new trial.

Richard C. Trexler, the professor, filed the libel suit after the Times published a letter from Cris Loukes of El Paso.

Trexler had led a demonstration against the war in Vietnam and was the object of considerable controversy, the high court's opinion noted.

The trial court ruled that Trexler was a "public figure," and under decisions of the U.S. Supreme Court could not collect because it was not proven that the Times acted with malice in publishing the letter.

# BIG SPRING DAILY HERALD

SECTION B BIG SPRING, TEXAS, THURSDAY, NOVEMBER 13, 1969 SECTION B

(Photo by Danny Valdes)

**FOR FLYING SAFETY** — Flanked by Winston Harper and J. W. (Bill) McClendon, Jack Gulley holds the Corporate Business Flying Safety Award presented to Cosden for 2,982,689 consecutive plane miles without injury or accident. In the past Gulley, who is now traffic manager, was for more than four years a pilot for Cosden.

## Cosden Pilots Share Flying Safety Awards

National Business Aircraft Association, whose roster of members includes most of the top-ranking corporations in the United States, has recently officially notified Paul D. Meek, president of Cosden Oil & Chemical Co., of three Flying Safety Awards.

Winston Harper, chief pilot for Cosden, has been cited as a Million Miler. The award was given him "in recognition of having been first pilot on aircraft operated in the conduct of business for a total of 1,105,651 or more consecutive plane miles without accident involving damage to property or injury to persons."

J. W. (Bill) McClendon, pipeline patrol pilot for Cosden, received a Pilot Safety Award for having compiled a safe-flying record of over 500,000 miles — 654,167 miles to be exact.

**15-YEAR RECORD**

Cosden itself was presented a Corporate Business Flying Safety Award for having operated aircraft in the conduct

of business for a total of 2,982,689 consecutive plane miles without injury or accident, over the past 15 years.

In his letter to Meek advising him of the awards, Robert B. Ward, executive vice president of the NBAA, said: "These awards indicate that your aviation operation has successfully met the world's highest standards for flying safety and reflects great credit upon the professionalism of your management, operations, pilot and support personnel who have made this enviable record possible."

**COSDEN VETERAN**

Harper, in addition to his duties of Chief Pilot, acts primarily as captain on the company's six-passenger turbo-prop aircraft. He is an eleven-year Cosden veteran and holds various ratings, among them airline transport pilot and instructor pilot. He served three years with the Royal Canadian Air Force as an instructor in night fighters and seven years with the USAF. He and his wife reside in Odessa.

**600-700 MILES DAILY**

After nearly four years in what was then the U.S. Army Air Corps, largely in the China-Burma-India theatre of war as a radio operator on B-24's, McClendon learned to fly when he returned to Big Spring. He has been with Cosden since April, 1954. For a decade he has been in the aviation department, most of it patrolling the 300-mile products pipeline and some 600-700 miles of gathering lines daily. He holds commercial pilot's license, commercial flight instructors license and commercial ground instructors license, all with assorted ratings. Mr. and Mrs. McClendon reside at 2510 East 24th Street with their two daughters, Linda Gail and Paula Leigh, BSHS sophomore and freshman respectively.

## Arctic Air On Its Way To West Texas

**By The Associated Press**

A two-ply front—warm from Waco eastward into Louisiana and cool from Waco toward Laredo—produced mixed weather in Texas today.

Meanwhile a blast of arctic air on its way from the north was dragging its feet and the Texas Panhandle stayed warmer than expected.

The Weather Bureau in Amarillo said there appeared to be only "a very slight possibility of snow" for the Panhandle by this evening, with perhaps enough white flakes to cover the ground in that section.

Forecasts nevertheless promised temperatures as low as 22 degrees tonight in the Panhandle and close to freezing in parts of North Central and West Texas. Readings down to the middle 30s or low 40s were predicted for other parts of the state.

## 'Recruit,' Lions Urged Wednesday

Recruit men in Lionism, particularly young men, and give them enough challenge in service to hold them, A. E. Prugel, Sonora, governor of Lions District 2A-1, told the Downtown Lions Club in his official visit Wednesday noon at the Settles.

He urged the club to help the district meet an increase of five per cent in membership during the year. To do this, the district is going to have to halt turnover, and an active program that meets the need of a community is the best way to do this, he said.

A special emphasis on recruitment in October has given the district a net gain for the year, and he pleaded for individual effort to keep this up.

Prugel also urged the club to step up its youth work, perhaps organizing a Leo Club, encouraging the international youth exchange program, and to add at least one other youth activity for the year.

"Within two months we will come to the end of the decade known as the Sizzling Sixties," he reminded. "It has been a decade of marvels such as landing men on the moon, heart transplants, computers and many technological advances. But it has brought problems such as war, inflation, social and political upheavals of all sorts.

"If there was ever a need for an international service organization, that time is now," he said. He applied the Lions International slogan for the year, "Unite Mankind" to local situations, urging "let's unite our communities."

He called upon the club to determine if it is doing all that it can or should do to serve the community, to see if it is making it possible for men to be a part of the fellowship, to turn a hard, critical look upon its objectives.

The Downtown Club, he said, is second only to a club with 300 members in its monetary support of the Texas Lions League for Crippled Children. Prugel, who was elected last June when the district convention was held here, was introduced by Schley Riley, a former district governor.

## Safe Driving Plan Told

"Holidays Free From Danger" campaign was announced by Maj. Gail M. Key, chief of safety at Webb AFB, during a 10:30 a.m. meeting at the base with a number of civic leaders and newsmen. Maj. Key expressed hope that the campaign would become a joint effort between the base and community.

Featured at the meeting was the demonstration of the Air Force's new method of teaching driver's education. The method employs a magnetic tape control system, Media Master Learning System, which controls three cameras and computes the student's answers and scores. Each student is equipped with an answering unit with three buttons for "a,b,c" choices. The films put students in actual driving situations.

The Air Force driver education program has in the past two years begun to show favorable results. There have been 20 fewer deaths in the past two years than in previous years. Each year the Air Force loses 3-400 people in traffic fatalities. Accidents cost the Air Force more than \$20 million a year, according to W. W. Brown, ground safety officer.

## Good To Doctors

**RAMSGATE, England (AP)** — Two doctors here received surprise legacies from one of their woman patients who died recently.

She directed in her will that each be given 12 bottles of whisky 'good' brandy and 'good' sherry.

## Gina To Work On 'Snow Job'

**NEW YORK (AP)** — Gina Lollobrigida says she will continue making films after marrying New York realtor George S. Kaufman Dec. 20.

Kaufman, who says he's never seen Miss Lollobrigida on the screen, said Wednesday he approved of her career, "part-time."

"Not very much," she agreed, as the couple arrived at Kennedy Airport from Rome.

The auburn-haired actress, 41, was wearing an orange mink coat and patent leather boots.

Kaufman, tall, dark-haired and also 41, is not related to the late playwright of the same name.

She will fly back to Rome Sunday to work on her new movie, "Snow Job," returning here for the wedding, the couple told newsmen.

# Four Arrested In NY Bombings

NEW YORK (AP) — FBI agents and New York City police have arrested three men and a woman after two of the men allegedly attempted to place time bombs aboard U.S. Army trucks in a midtown National Guard Armory.

The arrests Wednesday night came hours after a bomb exploded in the Criminal Courts building — the fourth major blast in the city in less than two days. One woman suffered minor injuries.

The FBI said the four arrested persons — two of them identified as being associated with radical publications — would be questioned about "additional

bombings in the New York City area."

Early Tuesday bombs were set off in the RCA Building in Rockefeller Center, the General Motors Building on Fifth Avenue and the Chase Manhattan Bank Building in the downtown financial district.

No one was seriously hurt but those blasts caused heavy property damage. There have been a dozen other unsolved blasts in the city in recent months.

Arresting officers recovered four dynamite bombs allegedly set to go off at 4 a. m. today, the FBI said. Frederick M. Lussen, chief of detectives, said the bombs were "professionally made."

TWO BOMBING SUSPECTS LEAVE FBI HEADQUARTERS — Two of four New Yorkers arrested on conspiracy to destroy government property charges in connection with a series of recent bombings in New York, are led from the FBI headquarters in New York Wednesday after questioning. They are George Demmerle, 39, left, and Samuel Joseph Melville, 34, right.

# Re-Election Woes Mount

WASHINGTON (AP) — Senators running for re-election next year may find themselves a bit short on campaign time. Majority Leader Mike Mansfield anticipates only a brief recess for 1970 electioneering.

"This is a year-round operation now, and that will have to apply in election years as well as off-years," Mansfield said.

Mansfield said the Senate probably will be open for business until Dec. 20, then recess for a between-sessions break until sometime between Jan. 12 and Jan. 19. He said that schedule is tentative.

Next year, Mansfield said, the Senate will take an August recess and probably another break closer to election day. He said that campaign recess may be for two weeks.

Mansfield said Congress should forget its traditional effort to adjourn prior to the autumn campaigns and acknowledge membership in the House or Senate means full-time attendance in Washington, like any other government job.

Democrat Mansfield, who will be seeking another term in Montana in 1970, dismisses the suggestion that sessions requiring campaigning incumbents to stay close to Washington will give challengers an edge.

"Whatever advantage they have is equalized by our being back here tending to the people's business," he said.

## Sunday Blue Laws Probe

SAN ANTONIO (AP) — Officials of four local discount stores today were expected to make a second appearance before the Bexar County Grand Jury in connection with the state's so-called Sunday Blue Laws.

The State Supreme Court has upheld a law banning sales of certain items on consecutive Saturdays and Sunday.

An attorney for one of the discount houses announced that eight of the stores planned to remain open, with employees working either Saturday or Sunday but not both days.

Dist. Atty. Ted Butler Wednesday issued subpoenas for nine district supervisors and store managers to appear before the grand jury that afternoon. Eight showed up, he said.

The grand jury was to reconvene today at 9 a.m., he said, adding that those subpoenaed were scheduled to return at that time.

LEISURELY LETTERING—Kathy Teeple, 16, of Fairfax, Va., finds her place on the floor of the New Mobilization Committee to End the War in Vietnam in Washington last night to letter signs for today's "March against Death." The placards, each bearing the name of an American serviceman killed in Vietnam, will be worn by participants in the procession from Arlington Cemetery to the Capitol.

## 'Hovercraft' Idea Pays Off

SAN ANTONIO (AP) — Thanks to a prize-winning model aircraft that resembles a flying saucer, high school senior Mark Johnston will be among the spectators at Cape Kennedy for the Apollo 12 launch.

Johnston, 16, son of Lt. Col. and Mrs. Roy B. Johnston, will attend the launch as a guest of the Space Agency.

His model of a "Hovercraft" won first place in the Churchill High School Science Fair here this spring and went on to win five other awards.

The Space Agency invited him to the launch after the model was among 20 prize winners from the Texas-Oklahoma area at the Youth Science Congress of the National Science Teachers Association last spring.

"The Hovercraft model was only a partial success," he grinned. "It didn't fly, but it did hover."

At the cape, he plans to gather for his next contest entry—a demonstration of radio waves emitted by rocket fuel during blast-off.

## Governor Inspects Indian Pictographs Near Amistad

DEL RIO, Tex. (AP) — Gov. Preston Smith didn't paint mustaches on these. Vandalism has done worse than mustaches at another site. (A four-letter word for human waste has been drawn in foot-tall letters in green paint.)

Formerly difficult to reach, the sites now are accessible in the new Amistad reservoir.

Panther Cave is perhaps the best site. It is named for a pictograph of a 19-foot-long cougar whose tail arches high over its back. Shamans (medicine men) rise spookily on the wall, arms outstretched, two-dimensional and kite-like, intimidating in their ceremonial dress and magical symbols.

**BARBED WIRE**  
This site is protected by a 12-foot-high cyclone fence topped by a six-stranded "V" of barbed wire.

D. J. Sibley, flamboyant rancher, philanthropist and re-

tired physician, paid \$2,000 to have the fence erected. Sibley is a director of the Texas historical foundation, which has a three-year lease on the property.

Decked out in cowboy hat, bobcat vest and an ornate silver and turquoise belt, Sibley accompanied the party. His wife, Jane, wore a striking outfit of black jeans, black cowboy shirt and black hat with a flat brim and a tall feather. They are completing a stone and glass house atop one of the Glass Mountains on their 25,000-acre spread near Fort Stockton.

**MORE MONEY**  
The major pictograph sites are on private land, Smith said he would like to see the sites included in a state park, but he recognizes that "the national people have more money."

A bill before Congress would enlarge the Amistad national recreation area to include the sites.

Meantime, it is up to people like Sibley to finance leases and fences to protect the sites.

"These are some of the finest pictographs in North America, and very likely the oldest," Curtis Tunnell, state archeologist, told newsmen and state and federal officials with Smith.

**NEW COMMISSION**  
Tunnell said excavations at the base of the cliff shelters where the pictographs are found have turned up woven sandals similar to those worn by ancient Egyptians. Carbon dating shows they are 10,000 years old.

Smith said he would ask Singleton and other state agency heads to learn the status of the federal legislation and study the problem of how the state can help protect the sites.

Smith announced his appointments to the new state antiquities commission: Dr. W. C. Holden, Texas Tech historian; and Dr. Fred Wendorf, SMU archeologist.

The other five members are set out in the law creating the commission: the director of the Texas Memorial Museum, Dr. W. W. Newcomb (who has a Shaman design in his gold ring); the state archeologist, Tunnell; the Parks and Wildlife executive director, J. R. Singleton; the executive director of the Texas Historical Survey Committee, Truett Latimer; and the land commissioner, Jerry Sadler.

The committee has only a small appropriation and cannot buy the pictograph sites.

**Will 'Fish-In' To Snag Oil Drill Action**

SANTA BARBARA, Calif. (AP) — A citizens group says it will stage a "fish-in" to block erection of the first drilling platform off their shores since an oil well blew out in the Pacific and blackened their beaches last January.

The protest is being organized by a committee of 750 citizens under the banner of Get Oil Out (GOO).

"We'll have at least 30 to 40 boats and maybe a hundred or a couple hundred," said Marvin Stuart, director of the committee. "We'll have everything that can get out there and drop a fish hook."

Stuart said the boats would congregate on the spot where the Sun Oil Co. plans to set up an eight-legged, 200-foot high steel drilling platform called "Hillhouse" in the Santa Barbara Channel, where there already are 12 platforms.

"We'll impede their progress in towing the platform to the utmost," Stuart said. "They're going to have to drive us off the site to get the platform in."

Sun says it plans to tow the platform within the next few days to a spot one-half mile east of a similar platform operated by Union Oil Co., where the blow-out occurred Jan. 28.

Oil from the Union well blackened 800 square miles of ocean, spilled onto 40 miles of beach and killed hundreds of sea birds.

Members of GOO, joined by the city and county, won a court order Monday placing a temporary ban on new exploratory wells and platforms.

But the ban didn't affect "Hillhouse," approved by the Army Corps of Engineers before the court order was issued.

"Hillhouse" was built in Oakland and is on a barge there ready for towing to the channel.

Stuart conceded that the fish-in can cause only a temporary delay.

"I'm sure the Coast Guard can order our boats out," he said. "But the fact that we'll be there and they'll have to order us out one at a time will create enough disturbance at sea to get the message across that we simply don't want that platform out there."

### Learning Problems Discussed At PTA By Dr. H. Smith

Dr. Harold Smith discussed children with learning disorders at Tuesday's meeting of the Moss Elementary School Parent-Teacher Association.

Dr. Smith stressed that facilities to aid these children are available at Dora Roberts Rehabilitation Center and the Special Education School. A question and answer period was held following the talk.

Mrs. Joe Clark was appointed secretary, following the resignation of Mrs. Bob Wilson. Mrs. Reg Hyer, carnival chairman, reported a profit of \$507.07.

Mrs. Ralph Caton, membership chairman, announced the unit now has 198 members. The unit received a "Certificate of Achievement" from the state PTA office, because all teachers have joined the unit, and there are more members than pupils.

Two free subscriptions to the Texas PTA magazine were received with the award, and they will be donated to the Dora Roberts Rehabilitation Center and a local hospital.

Mrs. Bennie Porter, president, appointed a committee composed of Mrs. Hyer, Frosty Robison, Bill Irwin, Mrs. J. B. Cushing, M. A. Barber and C. A. Ross Jr., who will select the school project for the year. The project fund was raised to \$350.

Mrs. Ted Hicks' first grade won the room count, and the mothers served refreshments.

The Dec. 9 meeting will be held in the Big Spring High School planetarium.

### Chap. Lee Butler Talks On Health

Chaplain Lee Butler of Big Spring State Hospital spoke on "How Is Your Emotional Health?" at Tuesday's meeting of the Gay Hill Parent-Teacher Association.

Mrs. Jack Buchanan's fourth grade class, which presented a play about the first Thanksgiving, won the room count.

Mrs. Jack Brown presided, reporting that the membership now totals 67. It was announced that George Archer, principal, is attending the state PTA convention in San Antonio. Mrs. Dois Ray gave the devotion.

Refreshments were served by the mothers of fourth grade students. The next meeting will be Dec. 9, when all grades will present the Christmas program.

### BPO Does Will Assist Family

Plans were completed for giving a Thanksgiving basket to a needy family at Wednesday's meeting of the BPO Does in the Elks Lodge. ## 'Assure Child Of Love' Says Club Speaker

Mrs. Lee Butler spoke on sibling rivalry at Wednesday's meeting of the Child Study Club in the home of Mrs. Calvin Daniels, 421 Edwards. Mrs. Don Grantham was cohostess.

Mrs. Butler stressed methods of encouraging the first child to accept the second child. She explained that jealousy is a normal reaction for a first child who is then forced to share his parents' attention with a new baby.

"The first child may develop

feelings of insecurity when the second child is born," said Mrs. Butler. "Parents should try to develop understanding by empathy and remembering their own childhood."

Mrs. Butler emphasized that a child should be taught that parental love is forever, no matter what the child does, and he should never be threatened by loss of love if certain rules are not obeyed.

"A child needs to know by his parents' attitude that he is loved, and this love should be expressed," said Mrs. Butler. "If this need is met, there will be no feelings of jealousy, or of being slighted and made to feel inferior."

### Brenda Ingram Will Head FTA

Brenda Ingram was elected president of the Future Teachers Association Tuesday evening, and serving with her will be Jackie Cordes, vice president; Rose Cordes, corresponding secretary; Sheila Manning, recording secretary; and Ladonna Nichols, treasurer.

Mrs. Frank Pierce and Mrs. Rick Moses were appointed to represent the club at the Nov. 20 luncheon for volunteer workers at Big Spring State Hospital.

Four new members, Mrs. Bill Reynolds, Mrs. Kinney Taylor, Mrs. Moses and Mrs. Bill Bryant, were welcomed. The next meeting will be Dec. 10, when the club will host a salad luncheon.

### Try Chef's Salad Dish This Week

Potatoes prefer just a bit of pampering.

In fact, a little care will help maintain their naturally desirable qualities for several weeks, according to the U.S. Department of Agriculture.

Store potatoes just as they come from the market, in a paper or plastic bag, in a special storage bin, or in some other preferred storage container.

Be sure the storage area is cool, has circulating humid air and is protected from light. The potatoes themselves should be kept dry. Inspect your potato purchase for the occasional injured or defective potato that may find its way into your shopping bag. Remove it at once to avoid further spoilage during storage.

Cooked potatoes, whether left over or right from the range, should be covered and stored in the refrigerator. Use them within a few days.

To avoid a last-minute rush at mealtime, raw potatoes may be peeled and cut several hours ahead when you may have a little more time. Place the ready-to-cook potatoes in a deep, narrow container and generously cover them with salted water. They will remain white this way for a few hours, but this is not recommended for longer storage times.

U.S.D.A.'s Consumer and Marketing Service says full supplies of potatoes are plentiful. They'll come in handy for the busy holidays ahead.

No matter how potatoes are to be cooked, first remove sprouts and cut off green portions. If potatoes are pared, keep parings thin. To get the most food value from potatoes, cook them whole in their jackets, boiling in as little water as possible to save the vitamins.

**CHEF'S SUPPER BOWL**  
4 cups diced raw potatoes  
2 tsp. salt  
2 cups water  
4 cups sliced celery  
1 medium-size onion, chopped  
Caraway Cheese Dressing  
1/2 cup mayonnaise or salad dressing  
1 cup diced dill pickle  
1 small head iceberg lettuce, shredded

1 small head Boston lettuce, separated into leaves  
3 ripe tomatoes, cut into wedges

4 slices process American cheese, cut into thin strips  
4 slices process Swiss cheese, cut into thin strips  
1/4 lb. bologna, cut into thin strips

Combine potatoes, salt and water in a medium-size saucepan and cover. Heat to boiling, then cook 10 minutes. Add celery and onion and cook five minutes longer, or just until potatoes are tender. Drain well. Shake pan gently over low heat to dry potatoes and place in a large bowl.

Pour one-half cup Caraway Cheese Dressing over the mixture and toss lightly to mix. Cover, chill at least an hour to season and blend flavors. When ready to serve, fold in mayonnaise or salad dressing and dill pickle.

Place shredded lettuce in bottom of large, shallow bowl. Arrange leaves of Boston lettuce in a nest on top. Mount potato salad in center. Tuck Tomato wedges under Boston lettuce around edge. Arrange American cheese, Swiss cheese and bologna strips on potato salad. Garnish with sprigs of fresh dill, if you wish.

**CARAWAY CHEESE DRESSING**  
1 cup evaporated milk  
1/4 cup vinegar of lemon juice  
1 tsp. salt  
1 tsp. caraway seeds  
1/4 cup grated cheese (mild American or tangy Parmesan)  
Stir milk while adding vinegar. Add salt, caraway seeds and cheese and blend thoroughly. Serve cold with crisp grated cabbage. Makes 1-1/2 cups dressing.

### PANTRY PICK-UPS

Delightful Sunday supper platter: stuffed baked potatoes, fresh green asparagus, broiled tomatoes and crisply cooked bacon strips. For a go-along, hot cornbread or corn muffins.

Do not try to re-use cartons from cottage cheese, ice cream or milk for freezing foods.

Do not refreeze frozen egg whites after thawing.

When you measure flour in fraction cups or spoons, always level it with the straight edge of a spatula or knife.

## Serve Roast Duck With Dressing

By CECILY BROWNSTONE  
Associated Press Food Editor

When you can use a ready-mix and produce as delicious a dish as you would gain had you "cooked from scratch," we're the first to want to spread the news.

That's how we feel about this apple-and-corn bread dressing for roast duck. The corn bread used in the stuffing is made from a handy mix that comes with its own mixing bag and baking pan. Isn't that a lovely thought? Just as important, this corn bread has just the right flavor for this particular dressing.

One caution: please do find yourself some tart green-skinned apples when you try this recipe. This old-fashioned fruit is the right partner for the corn bread.

We usually roast duck at the moderate (350 degrees) temperature given in the recipe. But we know some cooks prefer a slow (325 degrees) oven; so if that happens to be your preference, go along with it!

You may want to prick the duck skin during the roasting in the hope of draining off all the fat. Sometimes we do this, sometimes we don't — depending upon how busy we are with other chores. The pricking does help the fat to drain, but so does a long enough roasting time.

### ROAST DUCK WITH APPLE CORN BREAD DRESSING

- 1 package (10 oz.) corn bread mix (with mixing bag and baking pan)
- 2 cups finely chopped peeled tart apple
- 1/2 cup finely diced celery
- 1 tsp. salt
- 1/4 tsp. pepper
- 1/2 tsp. thyme
- 1/4 cup butter or margarine, melted
- 1/2 cup water
- 1/2 to 5 pound duck

Make up corn bread mix according to basic package directions. Cool. Crumble coarsely into a medium size mixing bowl. Add the apples, celery, salt, pepper and thyme. Sprinkle with melted butter and water. Lightly toss together.

Stuff dressing loosely into neck and body cavity of duck. Close openings with small skewers and lace with cord. Do not truss. Place breast side up on a rack in a shallow roasting pan. Roast, uncovered in a moderate (350 degrees) oven until tender and skin is crisp — 2 1/2 to 3 hours.

## Serve This Dessert To Please Family

A homey cobbler made with canned peaches and a cornmeal topping.

### PEACH COBBLER

- 3 cans (each 1 lb.) peach slices, thoroughly drained
  - 2/3 cup plus 1/2 cup sugar
  - Salt
  - 1/2 tsp. nutmeg
  - 2/3 cup sifted flour
  - 1/2 cup enriched white cornmeal
  - 3/4 tsp. baking powder
  - 1 large egg, slightly beaten
  - 2/3 cup milk
  - 1/4 cup butter or margarine, melted
- Stir together the peaches, two-thirds cup sugar, pinch of salt and nutmeg; turn into ungreased 8 by 8 by 2 inch cake pan.
- Into a medium mixing bowl sift together the flour, pinch of salt, cornmeal, one-half cup sugar and baking powder; add egg and milk; stir in butter mixing only until dry ingredients are moistened.
- Pour batter, spreading evenly, over peach mixture in pan. Bake in preheated 375-degree oven until cake tester inserted in center comes out without batter sticking to it — 45 to 50 minutes. Serve warm with cream. Makes six servings.

## Serve Casserole On Wintry Day

For a family supper, try this tamale casserole.

### TAMALE CASSEROLE

- 1 can (7 1/4 ounces drained weight) ripe olives, cut from pits
  - 8 tamales, sliced 1-inch thick
  - 1 1/2 cups (lightly packed) medium-grated cheddar cheese
- Mix corn and olives and turn half of mixture into an oblong 1 1/2-quart glass baking dish (10 by 6 by 1 3/4 inches) or similar utensil. Arrange half the tamales over the corn; cover with remaining corn mixture. Sprinkle with cheese.
- Bake in a preheated 350-degree oven for 30 minutes. Makes six servings. (In testing this recipe we used tamales that were five to six inches long.) Any wrapping around tamales must, of course, be discarded before tamales are used.

# Mrs. Raymond Torp Has Won Food Prize

**By MARILYN NEVELS**  
Dr. and Mrs. Raymond Torp have lived in Big Spring less than two years, but during this time they have taken an active part in the community. Mrs. Torp is vice president of the American Cancer Society's local unit, and vice president of the Permian Basin Medical Society Auxiliary.

The young Torps are Raymond, 8; Alison, 7; Billy, 6; Paul, 5, and Kiersten, 4. The oldest three attend College Heights School and Paul attends St. Mary's School.

The Torps moved here from Grosse Pointe, Mich., near Detroit, and this is the first time the family has lived outside of a large city. Mrs. Torp finds Big Spring a "very friendly, clean city after the smog, dirt and traffic of Detroit." "It is refreshing to be here," said Mrs. Torp. "We love it and wouldn't go back for anything. Since moving to Big Spring we have rediscovered the outdoors."

They feed the birds in their back yard and the children can now identify many of them. "We have cardinals, cowbirds, wrens, mockingbirds and last spring we saw a vermilion flycatcher," she said. "Every weekend we try to do something special with the children. Their favorite place is the Dennis the Menace Park in Midland."

They like to hike around the mountain in their back yard on Highland Drive, exploring in the caves and collecting fossils. "As soon as it is cold enough to send the snakes into hiding, we plan to have a cookout on the mountain," she said.

The Torps live in a rambling five-level home artistically decorated by Mrs. Torp who says she has no particular style, but likes to use whatever appeals to her.

"I like greens and golds," she said. Their family room is wood-paneled with a stone floor, a large brick fireplace and occasional antiques. Dr. and Mrs. Torp hand-built and finished a walnut stereo system for their living room. When Mrs. Torp has the time she dabbles in oil painting, usually doing abstracts. An artistic touch of hers is a wall arrangement of engravings, old illustrations and photographs of her father and Dr. Torp's father who was born in Denmark. Other interesting photographs were those of Dr. Torp's great-grandmothers in front of their homes in Denmark.

Dr. Torp is a camera enthusiast who photographed their travels throughout the United States, Canada, Mexico

MRS. RAYMOND T. TORP

and the Caribbean. Both the Torps love to travel. He also enjoys coin collecting and hunting. He used to hunt with bow and arrow in Michigan. He and Mrs. Torp target shoot with BB guns aiming for targets on the mountain and rattlesnakes that stray into their backyard. So far they have killed one rattler each.

Mrs. Torp finds just enough time to bowl with the Blue Monday league which meets every Monday at 9 a.m. She plays duplicate bridge at Big Spring Country Club and attends a dinner bridge twice a month. She also sews and likes to read the best sellers.

"Right now I'm reading a book about the Detroit riots," said Mrs. Torp.

Mrs. Torp has had quite some experience in cooking. In 1967, her recipe was entered by a neighbor in a chicken cooking contest. Her recipe won and Mrs. Torp went to Dover, Conn.,

for the National Chicken Cooking Contest. "I think my recipe must have won in Michigan because of the cute name my neighbor gave it, 'Bride's Delight,'" said Mrs. Torp. "The recipe was a barbecue sauce calling for honey, mustard and lemon."

However, when the neighbor entered Mrs. Torp's recipe, she left out a few ingredients, "like salt and pepper," according to Mrs. Torp. At the contest she had to duplicate the incorrect recipe that the neighbor sent in without adding the omitted ingredients.

"It was horrible," she said with a laugh. Mrs. Torp gives some of her family favorites. Her husband's favorite is rice pudding, a recipe from Mrs. Torp's mother. The Texas Turnovers is original by Mrs. Torp, and was named by her son, Raymond.

## RECOMMENDED RECIPES

### Used By Mrs. Raymond Torp

**SPAGHETTI SAUCE**  
1/2 lb. diced bacon  
2 1/2 pounds ground beef  
2 cups finely chopped onion  
1 cup finely chopped green pepper  
6 finely chopped garlic cloves  
3 2-lb., 3-oz. cans Italian plum tomatoes  
3 6-oz. cans tomato paste  
1 1/2 cups dry red wine  
5 tps. oregano  
5 tps. basil  
1 1/2 cups water  
1/2 cup chopped parsley  
2 tps. thyme  
1 crumbled bay leaf  
2 tps. salt  
Freshly ground pepper  
Fry bacon until crisp in a wide, six-quart saucepan. Remove bacon and all but two tablespoons fat. (Save both bacon and extra fat.) Add ground beef, breaking up with spoon, and cook until brown, stirring occasionally. Stir in onion, green pepper and garlic. Cook for 10 minutes, adding more bacon fat if needed. Mash plum tomatoes with spoon. Stir the tomatoes, tomato paste, bacon, one cup of wine, four teaspoons each of oregano, basil and all remaining ingredients into the sauce. Bring to a boil, reduce heat and simmer uncovered for three hours, stirring occasionally. Taste after an hour, and correct seasonings to personal taste. If the sauce is made early, cool in refrigerator until an hour or two before dinner. Let it warm to room temperature before reheating. Ten minutes before serving, blend in one teaspoon each of oregano, basil and the remaining half cup of wine. Serve over cooked spaghetti, providing plenty of grated Parmesan cheese to sprinkle on top.

4 tps. butter  
7 tps. flour  
2 cups milk  
3 well-beaten egg yolks

Sprinkle nutmeg over top. Bake in 350 degree oven for 45 minutes, or until knife inserted one inch from edge comes out clean. (The soft center will set as it stands.) ## One Of Defendants In Riot Conspiracy Trial Arrested

CHICAGO (AP) — Jerry Rubin, one of the defendants in the Chicago riot conspiracy trial, has been jailed for walking out of court while the case was in progress.

Judge Julius J. Hoffman revoked the 30-year-old New Yorker's bail when his absence was noted Wednesday. Rubin surrendered to U.S. marshals later and was placed in the Cook County jail pending an appearance before the judge today.

One of Rubin's lawyers, William M. Kunstler, said he had left court early to catch a plane and meet a speaking engagement at Rutgers University in New Brunswick, N.J.

Rubin did not appear at Rutgers and said later he never left town. He added that he had not

Rubin and six fellow defendants had been free on bail during the trial of charges that they conspired to incite riots during the 1968 Democratic National Convention.

An eighth defendant, Bobby G. Seale, chairman of the Black Panther party, has been ordered to stand trial separately.

Judge Hoffman made this decision after sentencing Seale to four years in prison for contempt of court.

The contempt sentence has been stayed pending disposition of a Connecticut attempt to extradite Seale on a murder charge. He is in jail in San Francisco.

A spokesman for her husband said the price was "very fair" because of the expensive work done on the yacht.

### Police Nab Five, Recover \$10,000

AUSTIN (AP) — Three men and two women were in jail today after an audacious bank holdup that might have worked except for the alertness of two state police officers.

The five Houston Negroes were arrested less than 30 minutes after three men with toboggan hats pulled over their faces robbed the Citizens National Bank in Capital Plaza shopping center Wednesday.

Officers said they recovered \$10,000 from the prisoners' car. All five were charged with robbery by firearms. Justice of the peace Bob Kuhn ordered them held without bond.

Three armed men, all wearing green coveralls, entered the bank at 1:28 p.m., placed a cardboard box on a woman teller's counter and ordered everyone to lie on the floor.

Employees and customers only stared.

"I told everyone to lie down," barked one of the men, waving his pistol.

All dropped to the floor. The robbers ordered the teller to fill the box with money. She obeyed.

Then they raced away in a car that was reported stolen only 15 minutes before.

Texas Ranger Joe Davis spotted the men a mile from the bank and saw them transfer to

a black auto carrying two women. He put out an alert over his radio.

Highway patrolman David Hicks of Georgetown saw a car that fitted the description of the getaway vehicle two miles north of Round Rock. He gave chase and headed it to the side of Interstate 35 about 1.5 miles south of Georgetown.

Two men and two women were seated in the car.

When Hicks and Ranger George Brakefield opened the car's trunk, a third man pointed a cocked pistol and pulled the trigger. The weapon did not fire, and the man surrendered.

Charges were lodged against Matthew Breedlove, 24; Aaron Lumley, 23; Claude Reed, 28; Constance Patterson, 21; and Beverly Parker, 21, all of Houston.
