RENDEZVOUS, LINK-UP COMPLETED

Moon Visitors Coming Home

ROCK SHOVELING BACK HOME — While his dad, Apollo 12 Commander Charles "Pete" Conrad, was picking up rocks on the moon, Andy Conrad, 10, was doing similar chores at home in Houston.

SPACE CENTER, Houston (AP) — Apollo 12's moon explorers blasted off the bleak lunar surface today, chased their mother ship 3½ hours and linked up safely for the long journey home.

Charles "Pete" Conrad Jr. and Alan L. Bean, the third and fourth humans to land on the moon, skillfully guided their lunar ferry Intrepid through a series of rocket firings to catch Richard F. Gordon Jr. in the command vessel Yankee Clipper.

The two ships maneuvered into position and then gingerly moved together to lockup nose-to-nose—the first time they had been secured since Intrepid started the descent to the moon Tuesday night.

The linkup climaxed a busy day in which Conrad and Bean trekked a mile across lunar wastelands and carefully collected a treasure for science.

Conrad and Bean were to transfer into the command cabin after assembling their containers of lunar rocks and other gear they want to bring home.

Ninety minutes after they blazed away from the moon they spotted their fleeting target, the command vessel Yankee Clipper, racing about 140 miles ahead and 15 miles above them.

"I got you visually, Yankee," Conrad radioed.

"Roger," came the reply from Richard F. Gordon Jr., who has been orbiting on a lonely vigil since Intrepid started the trip down to the moon Tuesday night.

Right on schedule at 9:26 a.m. EST, a burst from the engine at the base of their cabin section vaulted Conrad and Bean off man's second lunar outpost, this one on the Ocean of Storms.

"Man, this is a hot machine," Conrad exclaimed as the tiny Intrepid blasted them off the moon after a stay of 31 hours, 32 minutes. "What a nice ride."

Seven minutes later they swept into an orbit ranging from 10 to 54 miles above the surface, 300 miles behind Gordon, orbiting at 65 miles.

An hour after liftoff, they fired their jet engines to move into an orbit at an altitude of about 50 miles. On the lower path they required less time to circle the moon and gradually closed in on their quarry, flashing through the lunar skies.

On the way up, the astronauts reported a master alarm flashed on briefly, but they could detect nothing wrong.

Conrad said he "got to watching that problem" and allowed a slight overrun of 1½ seconds, which he was able to trim out.

Conrad and Bean had to catch Gordon in a 3½-hour chase to get back to earth. The lunar craft was not designed to take them home.

After executing a complex series of maneuvers, they were to hook up with the command ship at 1:05 p.m.

Conrad and Bean will transfer into the command ship and later today the astronauts plan to deliberately crash Intrepid on the moon, about 15 miles from Apollo 12's base, to excite a moonquake device left on the surface.

Then they'll spend an extra day in lunar orbit, photographing future landing sites before starting back to earth Friday. Splashdown is scheduled for 3:57 p.m. Monday in the Pacific Ocean.

Shortly before liftoff, Mission Control assessed Intrepid's systems and reported: "You're going to cast off," using a nautical term for the all-Navy crew.

"Liftoff and away we go," Conrad exclaimed as the tiny craft rocketed off the moon.

The four-legged descent stage that lowered them to the moon Wednesday served as a launching pad today and was left behind on the moon, along with five scientific instruments and unneeded boots, tools, trash and other items dumped there by the astronauts.

The moon voyagers locked themselves inside Intrepid early today after completing their second four-hour scientific safari on the cratered Ocean of Storms.

PATH OF MOON WALKERS — Arrows show approximate path taken by Apollo 12 astronauts in their mile-long second moon walk late Wednesday night and early Thursday morning.

"Man, is it filthy in here," Conrad reported. "We must have 20 pounds of dirt and all kinds of junk. Al and I look like a couple of bituminous coal miners. But we're happy."

Conrad also reported that he had fallen down one time while outside. When Mission Control asked if either of them had knelt down to retrieve rocks, he replied: "I'd take the shovel and stick it in the ground and just do an arm pushup and lean down and pick a rock off the ground with my other hand. I fell over once out there and Al picked me up. It's no big deal."

He added that both did kneel at times to gather samples.

Both men reported they did not get tired working outside but that they did get thirsty.

Intrepid has only one liftoff engine. It must work, or the astronauts would be stranded with less than a day's supply of oxygen and no hope of rescue from man's second outpost in the surface of the moon.

Once linked up, the three spacemen will spend an extra day in lunar orbit photographing future landing sites. On Friday, they'll shoot out of lunar orbit and streak for a splashdown in the Pacific Ocean Monday.

Apollo 12 crewmen will bring home the harvest from more than a day spent on the cratered, dusty surface by Conrad and Bean, including more than seven hours spent outside Intrepid by each man.

Their booty could help scientists learn the origin of the moon and perhaps the earth and the solar system.

The astronauts also left behind five scientific instruments powered by the first nuclear generator taken to the moon. The instruments are expected to transmit data for at least a year on moonquakes and other disturbances, magnetic fields, the solar wind and the moon's atmosphere and ionosphere.

The excursion to the Surveyor, carried out in the high-spirited tone that has marked Apollo 12, climaxed the mile-long scientific foray on the second moon walk that extended from late Wednesday to early today.

Surveyor rests about 150 feet down the gentle slope of a 600-foot-wide crater. It is just 600 feet from where Intrepid made a bull's-eye landing early Wednesday.

Conrad and Bean found the sides of the Surveyor crater terraced and followed one level around to the dead spacecraft. They reported the vehicle was a light tan and asked what color it was when it left earth in April 1967. They were told it was white and blue.

"The sun has cooked it," Conrad said.

They photographed the build-up of dirt around the spacecraft to compare with pictures Surveyor took when it landed.

They then clipped off five pieces of the craft—the television camera, a piece of cable, a strut, a scoop shovel and a section of glass. The shovel was a bonus; the flight plan called for only four pieces.

The astronauts had two regrets: The failure of a color television camera and the fact that they didn't have more time to spend on the surface.

The camera failed, apparently because its image tube was burned when Bean pointed it at the sun.

DOING HER THING — Amy Sue Bean, 6, whose dad, Apollo 12 lunar module pilot Alan L. Bean, has been doing some moon walking the last few days, does a few tricks or her own as she climbs on a car while waiting for the school bus in Houston today.

BLUE LAW Stores Seek Re-Hearing

AUSTIN (AP) — Four San Antonio discount houses filed a motion for rehearing Wednesday over a Texas Supreme Court decision upholding the "Sunday closing law."

The court upheld the law by a 6-3 count Nov. 5. The stores contested the law forbidding sale of certain items on both Saturday and Sunday. Filing the motion were Spartan's Industries, Inc.; Barker's of San Antonio, Inc.; Shoppers World of San Antonio, Inc.; and Globe Stores, Inc.

Currently, the law lists 46 categories of merchandise commonly carried by department stores and discount houses. In effect, it forces such stores to close on either Saturday or Sunday.

A San Antonio district court declared the law unconstitutional, but the state appealed the constitutional question directly to the state's highest court and prevailed in a split decision.

TOY GUN Plane Hi-Jacked

VIENNA (AP) — Brandishing a toy pistol and talking menacingly of bombs which turned out to be dummies, two young Poles hijacked a Polish twin-engine airliner today and forced it to land in Vienna.

The men, both 20, were whisked away to police headquarters for questioning. The plane, with a four-man crew, a hostess and 16 passengers, was cleared to get back on course.

The stewardess told reporters the men hijacked the plane. Antonov 24 of the Polish airline LOT, not long after it left Wroclaw en route to Warsaw and forced it to change course southward to Vienna.

Talks Continue

HELSINKI (AP) — U.S. and Soviet arms negotiators met for an hour and a half today, continuing their discussion of arrangements for negotiations to curb the nuclear arms race. Afterward they observed their rule of silence, refusing to say if any progress had been made.

The meeting in the Soviet Embassy was the second business session of the talks, which began with a formal public opening Monday and continued with another 90-minute business session behind closed doors at the American Embassy Tuesday. The talks were in recess Wednesday.

33 Nuclear Mishaps

STOCKHOLM (AP) — American military forces have had at least 33 major accidents involving nuclear weapons, the Stockholm International Peace Research Institute reported today. It said such accidents in the Soviet Union are more difficult to determine, but the organization is sure that there have been at least two.

Fair and a little warmer this afternoon, tonight and Friday. High today low 60s; low tonight 25-30; high tomorrow upper 60s.

Nigerian Airliner Crashes, No Survivors Among 77

LAGOS, Nigeria (AP) — A Nigeria Airways VC10 from London crashed today four miles north of the Lagos airport. There were no survivors among the 77 persons reported on board, airport sources said.

The plane lost radio contact as it was coming down to land. There was no indication of trouble. The weather was foggy over the crash site but clear at the airport.

It was the first reported crash of one of the British-built VC10s since the four-jet airliner went into service in 1962.

The charred wreckage lay smoking in the dense jungle just beyond the outskirts of metropolitan Lagos.

Airline officials did not immediately release the passenger manifest but said it was evenly divided between foreign and Nigerian passengers.

The plane had stopped en route in Rome and at Kano, in northern Nigeria.

Airport sources in Lagos said the last radio contact with the plane was made when it was 12 miles north of Ikeja Airport about the time it was scheduled to land. Terrain is swampy and thickly grown around Ikeja.

The Nigeria Airways plane went into service Oct. 7, the first VC10 owned by the national line though several had been chartered from BOAC. It normally carried a British pilot and a Nigerian copilot.

In the past few days there has been a dispute over whether European or Nigerian pilots should fly the aircraft. Several pilots were suspended and the head of state, Maj. Gen. Yakubu Gowon, personally intervened.

Draft Call To Be Lower

WASHINGTON (AP) — Defense officials say they are confident the projected 35,000-man draft call for January can be lowered.

The drop is possible, they indicated, because the over-all size of U.S. armed forces is being reduced and the rate of new volunteers has been satisfactory.

A new random draft lottery system probably goes into effect in January, replacing the system of inducting men from the 19-26 age group, with the oldest called first.

The Senate Wednesday completed congressional action on administration-requested legislation permitting President Nixon to order the lottery mechanism into effect. He is expected to sign the bill without delay.

After a transitional year, only 19-year-olds will be vulnerable for induction. During that first year all qualified men between 19 and 26 will be subject to the draft so that nobody will get a free ride.

According to present calculations the Pentagon expects to draft about 250,000 men during 1970—a decrease of about 40,000 from this year's bobtailed draft total.

As the United States pulls back gradually from Vietnam, the Pentagon is cutting down on the total number of men in uniform. So fewer draftees will be needed, assuming recruiting does not fall off drastically.

Last September, as the Vietnam withdrawal gathered momentum, Nixon canceled the 50,000-men draft quota for November and December and stretched out October's 29,000-man increment over the three-month period.

At that time, Secretary of Defense Melvin R. Laird said the 35,000-man draft call programmed for January would be reviewed in December.

HENRY CABOT LODGE

Lodge Resigns As Peace Talks Chief

WASHINGTON (AP) — Henry Cabot Lodge has resigned as chief U.S. peace negotiator at Paris, the White House announced today and will be immediately replaced.

In addition, New York attorney Lawrence E. Walsh also is resigning simultaneously as deputy head of the U.S. delegation at the Vietnam negotiations.

Press secretary Ronald L. Ziegler said he had no idea when a successor to Lodge would be selected. In the meantime, the acting head of the U.S. delegation will be Philip C. Habib, a career diplomat who has been Lodge's senior adviser.

The resignations of Lodge and Walsh, accepted with regret by President Nixon, became effective Dec. 8.

Ziegler was asked whether the uncertainty about when Lodge may be replaced was a calculated effort to downgrade the Paris talks.

"It's a matter of selecting a successor," he replied.

The White House made public exchanges of letters between Nixon and the two envoys in which both Lodge and Walsh complained about the posture of the Communist negotiators in Paris.

Wrote Lodge in his letter, received Wednesday:

"I strongly support your efforts to negotiate an end to the war. You have left no stone unturned. It is sad that the other side has flatly refused to reciprocate in any kind of meaningful way."

Lodge said he was quitting "because personal matters

14 Perish In Airplane Crash

LAKE GEORGE, N.Y. (AP) — A twin-engine Mohawk Airlines plane smashed into foggy Pilot Knob Mountain in a ball of fire Wednesday evening, killing all 14 persons aboard.

Mohawk identified the crew today as pilot Raymond Hourihan of Dover, N.H., copilot John P. Morrow, 31, of Orchard Park, N.Y., and stewardess Anne M. Miklochuk, 23, of Kingsbury Park, N.Y.

State police closed off the crash site before starting their search for bodies of the 11 passengers and three crewmen.

The cause of the crash on the 2,078-foot Adirondack Mountain peak was not immediately pinpointed.

It was raining at the time and winds had gusted to 50 miles an hour. Thick fog covered the area late in the evening.

Snow began falling early today.

The first men to reach the site radioed: "No survivors."

The flight, 411, originated at LaGuardia airport in New York City with nearly a full load of 44 persons. All but 11 passengers got off at Albany.

The prop-jet aircraft took off at 8 p.m., bound for Warren County Airport at Glens Falls. The crash came 10 miles north of Glens Falls.

A Mohawk spokesman said the pilot of Flight 411 had only "routine" communications with the control tower at Albany after takeoff. There was no indication that the airplane was in trouble, he said.

The press secretary said lack of progress in the talks "is the direct result of the refusal of the other side to enter into serious negotiations."

ONE GIFT
WORKS
MANY
WONDERS

PROUD WIVES — Wives of the three Apollo 12 astronauts who flew to the moon and put the United States' second pair of astronauts on the moon are proud and happy at their homes at the Space Center near Houston, Tex., today after the touchdown. From left: Mrs. Charles "Pete" Conrad, wife of the flight commander; Mrs. Alan L. Bean, wife of the lunar module pilot, and Mrs. Richard F. Gordon Jr., wife of the command module pilot.

Cong Says Massacre One Of Many

PARIS (AP) — The Viet Cong declared today that the alleged American massacre of hundreds of civilians in Quang Ngai Province of South Vietnam in March, 1968, "are only a few among thousands and thousands of crimes perpetrated by the United States and its puppet administration every day and every hour."

Mrs. Nguyen Thi Binh, foreign minister of the Viet Cong provisional revolutionary government, told the 43rd session of the deadlocked Paris peace talks that the killing at the village of My Lai and other American "war crimes" helped to turn the American people themselves against the Vietnam war. "No village, no hamlet, no district capital in South Vietnam is exempt from the traces of the bloody American crimes," she said.

Mrs. Binh said the American people showed their opposition to the war and to President Nixon's Nov. 3 speech despite "all the deceitful, deterrent and intimidating measures" of the Nixon Administration. South Vietnamese delegate Pham Dang Lam said the talks remained stalemated because Hanoi and the Viet Cong were still seeking "total victory for the Communist side rather than to restore peace in Vietnam."

He said the independence the Communists wanted for South Vietnam resembled the independence of Czechoslovakia and required "complete subservience to the dictatorial Communist countries."

Fowler To Speak

PARIS, Tex. (AP) — War correspondent, humorist and sometimes champion chili chef Wick Fowler of Austin will speak here Nov. 24 at the annual Youth Appreciation Banquet.

Laird Reports Stepup Of Infiltration

WASHINGTON (AP) — Secretary of Defense Melvin R. Laird, in a marathon defense of administration diplomatic and military policy, reports a stepup of enemy infiltration into South Vietnam during the past two weeks.

"I can't give you the reason that Hanoi has decided to increase infiltration," Laird said. Word of the enemy activity came as military sources reported U.S. combat deaths in Vietnam have risen for the second straight week. The sources said the weekly casualty report due Thursday will show more than 100 American soldiers killed in battle last week, compared with 97 the previous week and 3 the week before that.

Officials said the level is still low enough to permit the President to order additional U.S. troops withdrawn. Lowered rates both of casualties and of North Vietnamese troop movement into the southern war zone were among the hopeful signs mentioned by President Nixon in his Nov. 3 report to the nation on Vietnam.

"There has been some increase in infiltration during the last two weeks," Laird said Wednesday after spending more than six hours behind the closed doors of the Senate Foreign Relations Committee.

Laird gave no figures, but Committee Chairman J. W. Fulbright, D-Ark., said the secretary had said infiltration had risen to the rate of a year ago. Laird told the committee that ground combat will be turned entirely over to South Vietnam

"in a reasonable time frame." Fulbright said Laird refused to be more specific about a timetable or the number of American forces to remain in a supporting role.

"I hope that I have satisfied the critics," Laird said after his committee appearance. He had not. "It's a program for the continuation of the war," said Fulbright. He said he believes some 200,000 Americans would have to remain in Vietnam even if Saigon took over ground combat.

Petrofina Acquires Tenneco Stations

DALLAS (AP) — Officials of American Petrofina, Inc., said Wednesday they will acquire marketing properties in a 10-state Rocky Mountain area from Tenneco Oil Co.

The transaction calls for transfer of 132 service stations plus some 250 other outlets of distributors now identified with Tenneco, Bay and related brands. Not included in the deal are Tenneco convenience food store-gasoline outlets.

A spokesman for Petrofina said the outlets will be changed to the Fina brand soon after the closing of the transaction, scheduled for Dec. 1.

Five Israeli Positions Hit

TEL AVIV (AP) — Arab guerrillas fired bazookas and mortars during the night at five Israeli army positions or settlements on the Jordanian and Syrian frontiers, but Israeli counter fire was believed to have killed five guerrillas, reliable sources said today.

No Israeli casualties were reported. The five Arabs were believed killed in a clash with an army patrol near Geshar, in the Jordan Valley about 10 miles south of the Sea of Galilee.

A former prisoner in Iraq reported in Beirut that eight more Iraqis have been executed secretly in Baghdad after being convicted of spying for Israel. He said six were hanged in late September, and two early in October, and that one was a Jew.

The source also reported that Abdul Rahman Bazzaz, Iraq's prime minister in 1965-66 and the Iraqi ambassador to Britain for two years before, has been jailed for 30 years on charges of plotting to overthrow the country's leftist regime.

In Jerusalem, the arson trial of Denis Michael Rohan neared its end, and Israel's attorney general asked the court to convict the 28-year-old Australian on charges of arson and desecration of a holy place.

Down-To-The-Wire Fight Seen In Haynsworth Vote

WASHINGTON (AP) — Most of the dwindling band of uncommitted senators apparently plan no announcement in advance of Friday's voting on the Supreme Court nomination of Judge Clement F. Haynsworth Jr.

But three senators—Democrat Jennings Randolph of West Virginia and Republicans John Sherman Cooper of Kentucky and Charles McC. Mathias of Maryland—said they would announce their positions today.

As debate resumed today, an Associated Press survey showed 41 senators for confirmation, 41 opposed and 15 uncommitted in the dramatic, down-to-the-wire battle.

Sen. Mark Hatfield, R-Ore., is one of the uncommitted willing to leave the outcome in suspense to the last. "I'm not going to make any comment," said the Oregon Republican. "I'm just going to vote."

Similarly, in a separate interview, Sen. William B. Saxbe, R-Ohio, said he will not make his position known until he votes. "I might want to change my mind," he said.

Senate GOP Leader Hugh Scott of Pennsylvania previously has said he will have no statement in advance of the vote, and this was the word also from Republican Sens. Charles H. Percy of Illinois and Robert W. Packwood of Oregon.

Packwood's office said, however, it could be stated publicly that he is leaning against the nomination. Sen. Henry M. Jackson, D-Wash., was reported by his office to be in the same category.

Two of the Senate's senior Republicans split Wednesday when John J. Williams of Delaware came out against Haynsworth and George D. Aiken of Ver-

mont announced he would vote for confirmation. Haynsworth, chief judge of the 4th U.S. Court of Appeals, also picked up the votes of two other Republican senators, J. Caleb Stevens of Delaware and Ted Stevens of Alaska.

The decision by Williams was hailed by opponents of Haynsworth's nomination as a major break for their side. "Williams' decision is really more than one vote," said Sen. Birch Bayh, D-Ind. "Many members of both parties consider him the conscience of the Senate."

But within hours Aiken, the dean of Republican senators, was out with a statement in support of Haynsworth.

Aiken said that during his 29 years in the Senate he has voted to confirm the major appointments of six presidents, except in one instance.

"On the whole this policy has served me well and I see no advantage in digressing from it in the case of Judge Haynsworth," he said.

Williams, a 22-year veteran in the Senate, said that Haynsworth's record indicates he is "insensitive to the expected requirements of judicial ethics, especially the rule that requires judges to separate from business connections and to avoid even the appearance of impropriety."

But Boggs, Williams' colleague from Delaware, said his study of the record "confirms my opinion that Judge Haynsworth is a man of great integrity and of eminent judicial qualifications."

The tenseness of the battle was reflected during the debate in the Senate. At one point Sen. Spessard Holland, D-Fla., read two newspaper editorials saying Bayh should have disqualified himself from the Haynsworth controversy because of more than \$60,000 in campaign contributions from organized labor.

Bayh retorted that the amount was not a significant percentage of his total campaign costs of \$700,000 to \$800,000. "If I was a tool of organized labor I should have gotten twice that amount," Bayh said.

Labor leaders have been urging defeat of Haynsworth's nomination. Bayh said Holland's remarks came "perilously close to the rule of this Senate that prohibits one senator from impugning the motives of another."

Burglars Break Coin Machine

Big Spring police investigated three thefts Wednesday. Burglars broke into a coin machine at the Howard County Junior College student union building and took \$30-\$55 in coins; they inflicted \$35 damage to the machine.

Clifford Stafford, Lamesa, reported his pickup stolen while it was parked at I'll Do Bar. Kathryn Browden told police her wallet containing \$6 cash and credit and personal cards was taken from her car while it was parked at 2512 Larry.

ARMED FOR THE FUTURE — Cute as a button Tina Gracia is like any other vain young lady and spends considerable time in front of the mirror preening herself up. But Tina is special in that managing to comb her hair herself is something fate almost took away. The Denver youngster had her left arm severed at the shoulder in a train-car accident in April of 1965. The arm was reattached by surgeons at Colorado General Hospital and today four and a half years later she has almost complete use of her left arm.

Demo Reformers Vote For A Better Balance

WASHINGTON (AP) — Democratic party reformers have voted to require "a reasonable relationship" between the number of Negroes, women and young people in each state and the makeup of its delegation to the 1972 national convention. But they compromised the difficult "proportional representation" question by delaying until 1976 at the earliest any requirement for inclusion of minority political viewpoints in each delegation. They did, however, urge efforts in this direction in 1972. The decisions came Wednesday from a party reform commission, finishing work today on guidelines to be sent to state Democratic leaders for implementation.

Judge Favors It, But Orders Plan Thrown Out

HOUSTON (AP) — A federal judge has ordered the Crosby school district to throw out its freedom of choice integration plan although he said he personally favored the method. "My private views favor freedom of choice—a freedom, it seems, that should be cherished by all people," U. S. Dist. Judge Joe Ingraham said Wednesday. "But my judicial views are bound by the decisions of the appellate court." His opinion made it clear that school trustees must quickly come up with a new plan. Ingraham ordered them to meet with Justice Department officials and representatives of the Department of Health, Education and Welfare. If trustees do not come up with another integration plan within 15 days he will order one himself, the jurist said. What ever plan is decided upon, it must be in effect no later than the start of the district's second term on Jan. 19, Ingraham said. One plan offered at a recent hearing called for pairing the district and busing children to achieve a racial balance. In commenting on the pairing and busing, school Supt. Jerry Prochazka said, "I think we can improve on that one." Ingraham also enjoined the school district from building any new classrooms until a new integration plan is approved. Government lawyers asked for the injunction, claiming that the proposed classrooms would perpetuate the district's dual school system. Ingraham's ruling came one day after 14 judges of the 5th U. S. Circuit Court of Appeals, sitting "en banc," heard 15 appeals challenging desegregation methods in six Southern states. In many of these cases the appeals judges were asked to throw out freedom of choice plans presently in use. Rulings of these appeals will be issued later from the court's headquarters in New Orleans. Last summer U. S. Dist. Judge Ben C. Connally ordered the Houston school district to abandon its freedom of choice plan.

Americans Sustain Highest Death Toll In Two Months

SAIGON (AP) — The U.S. Command reported today that 113 Americans were killed in action in Vietnam last week, 16 more than the week before and the highest toll in two months. Official sources said, however, they did not consider the increase significant enough to affect any further American troop withdrawals that President Nixon might plan. "It's not shooting way up," one source said of the U.S. casualty increase. Despite the increase, the total was still far below a weekly average for the year of 1963.

One Of Best Years For Farmers Is Shaping Up

WASHINGTON (AP) — This year is shaping up as one of the best in history for over-all net farm income, says the Agriculture Department.

High crop yields, particularly for feed grains, and near-record livestock prices during part of the year have helped boost estimates of 1969 net farm income to near \$16 billion, officials said in a report on the demand and price situation.

Last year's realized net farm income—not including inventory stocks—totalled \$14.8 billion. If the \$16 billion mark is reached, it would be the most since \$16.3 billion in 1966 and slightly more than \$16 billion in 1948.

The all-time high was \$17.3 billion in 1947, according to department records. Looking ahead, officials said rising farm expenses during the first half of 1970 may cut the rate of income growth from a year earlier.

Higher livestock prices were the main "source of price strength" for farmers again in 1969, the report said. Officials added that only modest increases in livestock production resulted from the price surge.

Larger consumer spending and inflationary pressures throughout the economy helped push average livestock prices 11 per cent more than in 1968, the report said.

"On the crop side, a record harvest slightly above last year's appears in the making," the report said. "This and bigger carryover for grains and soybeans have weakened average prices a little for crops."

"However, with the volume of crop marketings up, cash receipts to crop producers have held about steady."

Exports of farm products during the first three quarters of 1969 totaled an estimated \$4 billion, down \$500 million from January-September, 1968, the report said.

The South Vietnamese command reported 497 government troops killed last week, the highest government toll in nine weeks. The allied forces claimed 3,013 North Vietnamese and Viet Cong killed, the highest enemy toll reported in three months.

A total of 643 Americans were wounded in action last week, compared with 69 the week before. South Vietnamese wounded totaled 1,310 the government said.

A South Vietnamese spokesman said the level of enemy activity decreased last week except in the southern part of the Central Highlands near the Bu Prang and Duc Lap Special Forces camps, and in the southern Mekong Delta.

South Vietnamese troops are fighting in those regions with American air and artillery support but without American infantry units to aid them. The government troops have taken some heavy casualties there.

A U.S. spokesman said the higher casualty total on all sides last week "just goes along with the general rise in enemy activity reflecting the beginning of their winter-spring campaign."

The casualty figures raised the reported total of American combat deaths in the war to 39,442 since Jan. 1, 1961, and the total of North Vietnamese and Viet Cong dead claimed in that period to 572,041.

Meanwhile, American B52 bombers kept up their attacks on North Vietnamese troops around the Bu Prang and Duc

Lap camps along the Cambodian border northeast of Saigon.

North Vietnamese gunners shelled a government task force headquarters a mile southeast of Bu Prang three times Wednesday. South Vietnamese casualties were reported light.

A North Vietnamese company commander captured Tuesday near Duc Lap told interrogators that a major attack against that camp was planned for Wednesday night. But no such attack was reported. A second North Vietnamese company commander was captured Wednesday a mile northwest of Bu Prang.

Enemy troops firing machine guns and small arms hit a U.S. Army helicopter removing wounded Americans during fighting Wednesday 35 miles northwest of Saigon. "The aircraft was not

downed; however, one pilot was wounded." U.S. headquarters said. Three American infantrymen were killed and six wounded in the 30-minute ground fight, while enemy losses were not known.

The American withdrawal program continued with the departure by ship for Oknawa of the 4th Marine Regiment's 3rd Battalion, which left Da Nang aboard the assault transport Tripoli. The 900-man unit was the last one from the 3rd Division to leave Vietnam.

The division, which numbered about 23,000 men with supporting air and ground units, had operated near the demilitarized zone for nearly five years. Most of the men who left today had completed at least eight months in Vietnam. Those men of the battalion who hadn't were transferred to the 1st Marine Division, which is operating south of Da Nang.

Bombs Hit U.S. Sites

BUENOS AIRES (AP) — Fifteen bombs exploded throughout this city today and most of them were aimed at U.S.-owned banks and commercial establishments.

No injuries were reported immediately. Damage assessments were not available. Police said the explosives, apparently planted by terrorists, went off between midnight and 2 a.m.

Among the places hit were Dow Chemical; John Deere; Duclil, a Dupont subsidiary; Pan American Oil Co.; Braniff Airlines; the Bedford Co.; First National Bank of Boston; Burroughs; Coca-Cola, and Pepsi-Cola.

The vote was 10 to 9 in favor of the move by Sen. Birch E. Bayh, D-Ind., to strengthen an antidiscrimination provision by requiring representation of minority groups in delegations to the group's presence in the population of the state."

The commission then voted 13 to 7 to provide similar requirements for women and young people. McGovern said 16 delegations at the 1968 convention had no members under 30, while 13 others had one.

Moves In A Hearse

DENTON, Tex. (AP) — Dr. Gerard R. Dobson arrived at North Texas State University from a South Dakota school via a hearse. There were no deadly motives, just that Dr. Dobson had to move some foul-smelling chemicals that were part of a research project. The old hearse was equipped with a glass partition, separating the foul smells from the driver.

Gordon Plays A Lifeguard

SPACE CENTER, Houston (AP) — The lonely life of the third man on an Apollo moon mission nears its end for Richard E. Gordon Jr. but not without some effort on his part.

The captain of the Yankee Clipper, whose only contact with human life since Tuesday night has been a radio that blacks out when he's behind the moon, must perform the final maneuvers to reunite his ship with Intrepid.

Gordon said before the launch he saw himself as a sort of bus driver with a lot of responsibility. Into his care now come the third and fourth men to walk the moon and their scientific treasure.

He also plays the role of a lifeguard. It's up to him to save the two moon explorers if they should be trapped in the wrong orbit after leaving the moon.

There have been few words from Gordon since his fellow Navy commanders, Charles Conrad Jr. and Alan L. Bean left him for the lunar surface.

Soon after Intrepid landed, Conrad spotted the moon lander.

"I have Intrepid! I have Intrepid!" he cried.

"There's a fairly good-size crater to the north, slightly east of it. But directly behind him. He is on the Surveyor crater."

Then, moments later, Gordon saw the craft that preceded Conrad and Bean to the moon by 31 months. "I see the Surveyor! I see the Surveyor!"

Big Spring (Texas) Herald, Thurs., Nov. 20, 1969 5-A

RENDEZVOUS OFF THE MOON — This artist's concept from the Space Division of North American Rockwell Corp. shows the Lunar Module, background, drawing near the Apollo 12 spacecraft, foreground, during Thursday's scheduled rendezvous prior to docking.

TIMETABLE THROUGH FRIDAY Strolling Tour Of Moon

SPACE CENTER, Houston (AP) — Here is a brief look at the winding, mile-long trek across the barren moonscape by the Apollo 12 astronauts on their second moonwalk Wednesday and today.

Setting out from their spaceship with a little map they drew, they followed Mission Control's directions and walked northwest 800 feet to their scientific experiments, picking up rocks and making photographs along the way.

To test the seismometer there, they rolled rocks down the wall of Head Crater and learned that the sounds could be picked up by the equipment and transmitted to earth.

Still selecting rocks, they walk south 800 feet along the west rim of Head Crater, descended about 60 feet down a small hill, and ended up at Bench Crater. There they found bedrock, which they said appeared to have things melted

over it. Southwest about 500 feet was Sharp Crater where they took panoramic pictures and dug a trench to check the dirt. They also took an eight-inch core sample of the soil.

Swinging east in a 1,400-foot arc to Halo Crater, they climbed a gentle hill about 30 feet high. That's where the handle of their camera broke off.

More rocks, more pictures. After a brief rest, they went on northeast and descended into the Surveyor Crater, where they took another core sampling and stripped some rocks off the craft—a television camera, cable, aluminum tubing—to take back home for tests.

Climbing up the north wall, they proceeded to Block Crater, a tiny crater on the north lip where the Surveyor is, and from there back to Intrepid, about 450 feet.

TIMETABLE

SPACE CENTER, Houston (AP) — Here are highlights of

the seventh and eighth days on Apollo 12's moon-landing mission, all times Eastern Standard:

Thursday, Nov. 20
9:23 a.m.—After completing two moon walks during 31½ hours on the lunar surface, astronauts Charles Conrad Jr. and Alan L. Bean trigger landing craft's ascent engine for critical seven-minute, 10-second burn to propel them into lunar orbit.

1:02 p.m.—Intrepid docks with Yankee Clipper.

2:26 p.m.—Conrad and Bean join astronaut Richard F. Gordon in command ship.

3:19 p.m.—Unmanned Intrepid jettisoned from Yankee Clipper's nose, then command ship backs a safe distance away but within camera range of Intrepid.

4:46 p.m.—Intrepid's engine triggered to crash it into the moon. Maneuver takes it from orbit to make future lunar flights safer, and the impact may send sound waves through

the moon to seismic experiment left by Apollo 12, giving scientists a better idea of moon's interior structure.

5:15 p.m.—Intrepid crashes.
5:22 p.m.—Astronauts begin 7½-hour sleep period.

Friday, Nov. 21
12:32 a.m.—Sleep period ends.
2:53 a.m.—Yankee Clipper's engine triggered 18 seconds to change orbital path so astronauts zip over three sites being considered for future moon landings—the highland areas of Fra Mauro, Descartes and Lalande. Crew takes numerous photos of sites.

9:22 a.m.—Astronauts start 45-minute meal, then take more photos and experiment with navigation techniques that call for tracking lunar features.

3:43 p.m.—Command ship's main engine triggered 2 minutes, 9 seconds for critical burn needed to kick astronauts out of moon orbit and back toward earth.

Big Market Makes Halting Narcotics Flow Difficult

DALLAS, Tex. (AP) — Mexico's foreign minister said in Dallas Wednesday night that halting the flow of narcotics into the United States is difficult because "the U.S.A. is the world's greatest market for all things—good things and bad things."

Dr. Antonio Carrillo Flores, in Dallas to receive an honorary Doctor of Laws degree today from Southern Methodist University, said Mexico is making "utmost efforts" to check illicit drug traffic.

"Both our countries face problems connected with the evils of drugs and narcotics," the foreign minister said. "It is important to both of us that this traffic be stopped."

A substantial portion of illegal drugs smuggled into the United States each year travel through Mexico. American law enforcement officials set up "Operation Intercept" earlier this fall to try to curtail the flow along the border, from Texas to California.

The project became controversial when tourist and regular commercial traffic on both sides of the border was stacked up for hours each day due to thorough inspections by customs officers.

"I am pleased," Carrillo Flores said, "that Operation Intercept, which was started unilaterally by the United States, ultimately became a cooperative action by both our countries."

He said Mexico has a permanent force of 5,000 to 6,000 government troops engaged solely in seeking out and destroying marijuana patches.

"Like any campaign against an evil," he said, "it must be worked at day and night."

But he said efforts at stem-

Health Units Make Report Of Activities

The Big Spring-Howard County Health Unit reports that its activities for the month of October included 29 food inspections, resulting in one major improvement. There were 39 general sanitation inspections with 28 corrections; 22 vector control inspections with 18 corrections; 59 food conferences, and 65 sanitation conferences.

The health unit nurse reports a total of 288 immunizations were given at the Tuesday clinic; 66 children were aided by child care services; 12 persons were treated in the dental health unit; eight were treated for venereal disease, six for tuberculosis control, six for heart ailments and cancer, five children in the child health unit, four persons for chronic diseases. Fifty-one conferences were held.

ming the drug traffic run into complex social problems—the huge American market, for one thing, and "well organized, powerful forces," for another.

"It is bad for Mexican peasants to take money from organized crime," Carrillo Flores said. "For one thing, they put themselves in danger of losing their lives from our own soldiers."

Dr. and Mrs. Carrillo Flores were met at Dallas Love Field by Texas Secretary of State Martin Dies Jr., SMU president Dr. Willis Tate, Mayor Pro Tem Jack McKinney and City Councilwoman Mrs. Anita Martinez.

Dr. Willis Tate, president of SMU, is scheduled to confer the honorary degree on Carrillo Flores at McFarlin Auditorium ceremonies on the SMU campus. The honoree will address the gathering on "Mexico and the United States—Pacesetters in Problem Solving." The convocation is open to the public.

FB Backs Supports

SAN ANTONIO (AP) — Delegates to the Texas Farm Bureau voted Wednesday to support the extension of the Agricultural Act of 1965, marking a major change in direction of the Bureau, a spokesman said.

The Farm Bureau voted in the past to drop government supported programs.

The spokesman said the change in policy was the object of a campaign by cotton farmers.

By-laws of the organization were also changed for the first time in 19 years, spelling out some executive practices that had been taken for granted.

One change specified that the president is not a full-time employee and that the executive director is the chief administrative officer.

Sidney Dean of Victoria was re-elected to the post of president. He is a cotton, grain and cattle operator and has not sought to make the job full time. The administrative assistant and executive officer is Cliff Laywell.

Another by-law change called for election of the president by the delegates to conventions rather than election by the directors.

In another action, directors were limited to three consecutive terms of two years. There has been no limitation on the number of times a director could serve. The change applies as of 1968.

The group also elected new officers for one year, including the re-election of Dean.

M. F. Frost of McAllen was re-elected vice president and H. L. King of Brownfield, secretary treasurer.

New state directors named were Carroll Chaloupka of Dalhart and John A. Smith of Cameron.

1♥ Pass 2NT Pass
3NT Pass Pass Pass

Opening lead: Five of ♠
Proper planning by South at the outset of the campaign provided the extra stroke required to land a touch and go three no trump contract.

West opened the five of spades, the queen was played from dummy and East won the trick with the ace. The jack of spades was returned, dislodging declarer's king.

South was in desperate straits. If he made a move to establish some heart tricks, the opposition would surely put up the ace and then cash a sufficient number of spades to send him down to defeat.

Declarer's only chance was to run the minor suits without surrendering the lead. If he could win four tricks each in diamonds and clubs, these along with the king of spades already in, would bring his total up to nine.

He first cashed the king and queen of clubs, so that he might retain a finessing position against West in the event that the latter had started with four clubs to the jack. When the jack appeared on the second lead, however, assuring that the suit divided favorably, South overtook his queen with North's ace in order to provide the maximum number of entries to dummy.

The six of diamonds was played and declarer successfully finessed the jack. The North hand was reentered by leading the five of clubs over to the ten and on the diamond return, South put in the queen which dropped West's ten and promoted declarer's nine to finessing rank.

The carefully preserved deuce of clubs was overtaken by dummy's four so that a third diamond could be led.

When East followed with the five, South put in the nine and West's ace was overtaken by dummy's four so that a third diamond could be led.

The diamonds provided declarer with his ninth trick, and he graciously conceded the balance to the opposition.

DESERT SANDS RESTAURANT

Has Home Cooking Daily

If it's home cooking you are hungry for, then the newly decorated Desert Sands Restaurant is the place to go. The restaurant and motel complex is conveniently located at 2900 West Highway 80. Its owners for the past five years are Mr. and Mrs. Allan

Risetter. The restaurant and motel are open daily and holidays 5:30-2:30 a.m. Fresh, warm bread, cinnamon rolls and pies are baked every morning by Mrs. Risetter. The waitresses, two on each shift, are friendly and speedy. Every day a homecooked luncheon

special is offered by the two cooks, Beulah Melton, who has worked there five years, and Manuel Enriquez, who makes mouth-watering Mexican dishes. A daily special of sirloin strip steak dinner for \$1.69 and a rib-eye steak special for \$1.49 are also featured.

"We also have delicious seafood plates and fried chicken," Mrs. Risetter said. "We are happy to prepare foods to go and to accommodate private parties. Another specialty is our delicious coffee." Courtesy coffee is offered in all the motel rooms, of which the Desert Sands Motel has 30 units, including family units and rollaway beds and baby cribs for families with several children.

"All our rooms have a home-like atmosphere," said Mrs. Risetter. "Pets are welcome too." The Risetters have two black, brown and white-spotted dogs of their own. All the rooms are equipped with central heating and air-conditioning and color television sets.

"Commercial truck drivers and Air Force personnel are given special rates, and our family rates are very reasonable," she said. The rooms are fully carpeted. All have double beds and showers, or tub shower combinations. The motel unit is set back from the highway to insure quiet nights. There are spacious parking areas for both the motel and the restaurant.

"We'd like to invite the hometown folks as well as travelers to our restaurant," Mrs. Risetter said. The restaurant includes a cafe counter for quick service and a separate cocktail lounge. The spacious dining area has recently been painted in airy spring green, and the booths and tables were rearranged for better seating. Also, heavy new carpeting has been laid throughout the restaurant. High chairs are available for small children.

The Desert Sands Restaurant is eager to serve, whether it be for an early Sunday breakfast or a leisurely Saturday dinner. The atmosphere is certain to be congenial.

DESERT SANDS Restaurant and Motel are open 2:30 - 5:30 p.m. daily and holidays, offering good home cooking and comfortable accommodations. (Photo by Lynna Kay Weaver)

Permian Professionals Offer Quality Service

The staff at the Permian Insurance Agency, 103 Permian Building, are specialists in the varied fields of insurance, and are qualified to offer professional service to the citizens of Big Spring. JEFF BROWN, who holds licenses in all forms of insurance, is the agent and owner of Permian Insurance Agency, which opened in 1965. He manages the agency and counsels on all forms of insurance, plus handling all the industrial and commercial insurance accounts. Since Brown is also a certified real estate appraiser, he can appraise property for insurance value purposes. MRS. BABS MOORE acts as general secretary for Permian Insurance. Though her principal duties consist in rating and issuing insurance policies, she can also handle a claim or explain policy coverage to a customer. Mrs. Moore has seven years experience in the insurance field. MRS. VERA BRIGHT serves as bookkeeper for the company and assists with policy preparations and insurance claims, besides counseling with customers about coverages in their automobile and home policies. She is also receptionist at the office. JIMMY RAY SMITH, a licensed life insurance counselor, is a sales associate with Permian Insurance. He has sold life insurance in this area for several years, and was recently licensed as a solicitor with Permian. He will concentrate on life, automobile, and home insurance sales. The staff at Permian Insurance invites residents to visit their office in the Permian Building at any time. To present customers the staff extends a "thank you" for their patronage, while Brown invites non-customers to call or visit and discuss insurance needs. Permian Insurance is a general insurance agency, offering all types of insurance and complete insurance service. Call in professionals by dealing with the staff of the Permian Insurance Agency.

PROFESSIONALS AT INSURANCE — The staff at Permian Insurance Agency, 103 Permian Building, is experienced and qualified to offer professional insurance service to customers. From left to right are Mrs. Babs Moore, general secretary; Mrs. Vera Bright, bookkeeper; Jeff Brown, owner and agent; and Jimmy Ray Smith, sales associate. (Photo by Lynna Kay Weaver)

Knight Is Standout In Seagraves Attack

JOHN McMEANS

John McMeans All-District

Champion Big Lake and Crane dominated the District 5-AA all-star football platoons chosen earlier this week by the coaches.

Big Lake placed five boys on the offensive unit and six on the defensive team. However, three made it both ways — Joe Barnes, James Watson and Danny Curtis.

Five Crane players rated the squad on offense, four on defense. Two of the Golden Cranes, Steve Pendleton and Bill Burton were on both platoons.

Five players on offense and six on defense were unanimous selections. They were Pend-

SEAGRAVES — Veteran coach A. D. Shaver will take his Eagle football team into the state play-off action Friday night when the Warbirds meet the Roscoe Plowboys at Memorial Stadium in Big Spring at 7:30 in the first round of action to determine who advances in the Class A state playoffs.

The Eagles have an impres-

sive set of credentials in their portfolio. They have gained 4,006 yards in 10 games, and have scored 414 points, while allowing only 102 for the opponents. The undefeated, untied Warbirds have averaged over 40 points per game, while giving up only 10 points. Their opponents have averaged 190 yards per game against the Seagraves team, and many of these yards were gained in fourth quarter action after coach Shaver had sent in his reserve players.

On offense the Eagles run respect option plays, with a respectable passing arm in quarterback Eddie Knight to keep their opponents honest. The Seagraves field general has scored eight times on keepers, has tossed eight bombs for touchdowns, and has passed for eight two point conversions. He can run the hundred in 10.2, and is a threat in anybody's books.

Fullback Donnie Hoover has carried the ball for the bread and butter situations, and his 210 pounds make him a formidable threat through the center of the line. Leon Sellers, 215-pound tackle is a key factor for the Eagles, being able to go off-tackle for big gains. Coach Shaver said Sellers is one of the strongest boys ever to play for him, and is one of the best linemen in the state. Leon is also a monster on defense, holding opponents to no gain, and often dumping them for big losses.

End Robin Taylor is a six foot-three inch threat who has been the prime receiver of Knight's passes, and has crossed the opponent's goal line consistently to help the team in their 10 wins this season. Taylor also plays middle linebacker on defense, and is just as tough when the opponents have the ball.

Defensive ends Kent Crutcher and Mike Cayce are also 6-3 boys who push 200 pounds. Both boys have been expert on keeping their position from making the wide gains this year. On key plays, both ends stopped Sudan and Coahoma when the going was rough this year.

Corner men Kim Shaver and Armando Blanco have been flies in their opponents' ointment with hard tackles and intercepted passes to their credit. Shaver is perhaps the hardest hitting Eagle on the team.

Dennis Payne has played safety with poise, and has snagged opponents passes for touchdowns, and has been able to get his hands on the ball when it counted.

Richard Mendola has gone the distance on the Eagle line both ways this year, and his teammate Jimmy Thornton, who weighs in at 228 pounds has been a rock of Gibraltar in the center spot this season.

FIELDS TOP SCORER
Halfback Ricky Fields is the high point scorer for the Eagle attack, having registered over 100 points this year. Fields is also a fine pass receiver, along with being one of the best running backs in West Texas.

EAGLES ARE FAVORITES
Seagraves is rated first in State Class A circles by the Harris Rating System while Coahoma reentered the top ten in the final poll. Coahoma finished in the No. 9 spot, immediately behind Clifton and ahead of Mason.

Seagraves is rated a 22-point favorite over Roscoe in their bi-district clash. The two teams play in Big Spring at 7:30 p.m. Friday.

LOOKING 'EM OVER
With Tommy Hart

If you overhear QB Roman Gabriel grunting "Ugh, Ugh" rather than "Hut, Hut" in that NFL barnburner for Los Angeles against Dallas Sunday, you can probably forgive him.

He's been filming a movie. In it, he takes the role of an Indian.

Name of the epic is very appropriate, considering the high station the Rams occupy in the NFL these days. It's called "The Undefeated."

No, it was titled long before the Rams piled up nine straight wins in the league.

Those who saw the film here recently might not have recognized Gabriel but he played Blue Boy, a Cheyenne Indian. If memory serves me correctly, Will Rogers had a prize pig answering to that name in a motion picture years ago, but that's beside the point.

In the movie, Gabriel plays the adopted son of John Wayne, the fearless hero of the story, and Roman says of the part: "It was easy. I've been playing the same role with (coach) George Allen for three years."

Gabriel, who is of Filipino-Irish descent, had never been on a horse before the movie. At 6-4 and 227 pounds, he might have reasoned it would take a Percheron to hold him up. Producers rounded up 3,000 horses for the show but didn't explain whether it took that many to find one big enough for Roman The Quarterback.

Merlin Olsen, a member of the Rams' Fearsome Foursome, is also in the movie.

Whether Tom Landry let his Dallas team see the film isn't known. Tom might well try to con his troops into thinking that the two Rams are bragging about their football record.

I'm sure Landry would like to add a few credits to the game film coming up Sunday. Something like:

Go-ahead touchdown scored by Calvin Hill. Crucial tackles made both in black and white and color by Bob Lilly and Lee Roy Jordan. Key interceptions contributed by Mike Gaechter and Cornel Green.

Landry might even be willing to pass out a few Oscars himself for such performances, though he's not known for his magnanimity at such times.

One wonders where Gabriel got his size. His father was a Filipino who stood only 5-feet-5.

Big Spring's Rocky Wooley had a fabulous day when the University of Texas Yearlings laid a 37-6 defeat upon the TCU Polywogs last Friday.

The Rock gained 80 yards in 22 carries and went in for Texas' second touchdown in Round Two from three yards away.

The deft scoring touch isn't yet there, and it may never be, but Howard County JC will pack plenty of clout onto the basketball court against this year.

The Hawks sandbagged a good Southwestern Christian club here the other night, 108-67, and coach Buddy Travis seemed to be resorting to extra precautions not to run up the score.

If the Hawks win again in the Western Conference race this year — and they are heavily favored — they'll probably have to do it with their muscle. They appear to have plenty of that.

Jerry Phillips looks like he's on the verge of a great year. Not only does Jerry fight the boards well but he complements the play of the other boys who battle for the caroms.

Barring injury to a knee that has always been suspect Sammy James should do famously, too.

HC's freshman talent looked good against SW Christian, especially Decell Lewis, a 6-3½ boy from Madison, Miss.; 6-6 Shelly York of Lake City, Ark.; and Melvin Perez, 6-2, from Santa Fe, N.M.

In Rillo King, the Hawks have an area product who showed a willingness to mix it up with the opposition around the basket.

Not too many boys from schools in this vicinity have made good with the Hawks but King, who resides in Coahoma, likely will be the exception.

(Picture courtesy Sweetwater Reporter)

McCovey Is Narrow Selection For MVP

NEW YORK (AP) — Willie McCovey, San Francisco's home run and runs batted in champion, shaded Tom Seaver, the New York Mets' ace who led the majors with 25 victories for the 1969 National League Most Valuable Player Award Thursday although each received 11 first place votes.

McCovey wound up with 265 points to Seaver's 243 in the balloting of the 24-man committee of the Baseball Writers Association announced by Jack Lang, secretary-treasurer. The secret vote by two committee men from each league city was taken after the season and before the playoffs and included only regular season performances. Lang tabulated the votes this week.

Hank Aaron, Atlanta outfielder who ranks No. 3 on the all-time home run list, was third with two first-place votes and 188 points. Aaron won the MVP in 1957 when the Braves were in Milwaukee. Pete Rose of Cincinnati, the two-time batting champ, was next with 127 points, followed closely by Ron Santo, Chicago's third baseman, with 124.

Tommy Agee and Cleon Jones, who play side by side in the Mets' outfield, were next. Agee had 89 points and Jones,

who led the league during most of the summer, had 82 points.

Roberto Clemente of Pittsburgh, the winner in 1966, was eighth with 51 points, followed by Phil Niekro, Atlanta's knuckleball pitcher with 47 and Tony Perez, Cincinnati third baseman, with 28.

In addition to Aaron, and Clemente, other former MVP winners to get votes were Ernie Banks, the 1958-59 champ, 15; Maury Wills, of Los Angeles, the 1962 winner, 17; Bob Gibson of St. Louis, last year's MVP, 2; and Orlando Cepeda of Atlanta, the 1967 MVP, 1.

A total of 38 players were mentioned in the scattered voting. Last year when Gibson won he received 14 of the 20 firsts, the other six going to Rose. The committee was expanded to 24 this year because of the addition of Montreal and San Diego.

McCovey beat out Seaver with 11 firsts, nine seconds, two thirds and two fourths, the only player mentioned on all 24 bal-

lots. Two men did not list Seaver, who received 11 firsts, four seconds, five thirds, one fourth and one fifth. Aaron was listed on 23 of the 24 ballots. Some writers confine their votes to men who play every day and do not list pitchers.

The American League's Most Valuable Player was Harmon Killebrew of the Minnesota Twins. Like McCovey, Killebrew played for a team that did not win the pennant although the Twins did take a divisional title.

McCovey, who played much of the season with a painful arthritic condition in his hip, batted .320 while appearing in 149 of 162 games. It was the second straight year McCovey, 31, had won both the homer and RBI titles. In '69, McCovey had 45 homers and 126 RBI.

Seaver won his last 10 regular season starts for the Mets in their pennant drive. He is only 25 years old.

HE'D SWAP FOR FLAG
SAN FRANCISCO (AP) — "Without a doubt," says Willie McCovey of the San Francisco Giants, "it's the high point of my career. But if I could make a straight trade, I'd take a pennant."

That was the first baseman's reaction today when told that he had been voted the National League's most valuable player for the first time.

Dummit Lifts UCLA Eleven
LOS ANGELES (AP) — UCLA had a miserable 3-7 football season in 1968. Today the Bruins are 8-0-1 and will meet the University of Southern California, with the same record, Saturday for the right to play in the Rose Bowl New Year's Day.

What brought about such a happy flip-flop for UCLA? A jammed crowd of 90,000 in Memorial Coliseum, plus a national television audience, may see some of the reasons when these come town rivals tee off at 5 p.m., Big Spring time.

One of the reasons is UCLA quarterback Dennis Dummit, 20, 6-0, 180 pounds—a clean-cut, good-looking blond, an economics major—with the boldness of a daytime burglar.

Another reason is much improved, experienced offensive line, one that has been able to set the scene for an explosive attack.

To date, high-scoring UCLA has amassed 317 points. They came from many sources and a variety of distances, including the long-range Dummit-propelled bomb.

UCLA's rugged defense, incidentally, has held opponents to 89 points.

The lone blemish on the Bruins' season is a 20-20 tie with a fine Stanford outfit, a team Southern Cal edged on a field goal as time ran out 26-24.

The UCLA schedule included several opponents of lesser stature on the national scale. But the Bruins pointed for two now in the books—Oregon State and California, which fell 32-0.

Billiards Great Scheduled Here
Jack White of Los Angeles, one of the great pocket billiards players in the world, will play Santa Claus in the mall at Highland South Shopping Center starting at 1 p.m. Saturday, Nov. 29.

The public is invited to watch the match without charge.

White, who is only 38, also plays snooker and straight pool but says pocket billiards is his game.

He has appeared on numerous TV shows. He once had a perfect game in snooker and a run of 226 in billiards at Salem, Ohio.

Jayhawks Launch Tournament Play

LEVELLAND — Howard County JC is favored to win its first game in the annual South Plains Basketball tournament starting today.

Should the Jayhawks prevail over Schreiner Institute in their first assignment, however, they may run into a buzzsaw. HCJC and Schreiner open the show at 2 p.m.

An HCJC win would send the Hawks out against the winner of the Cisco-New Mexico JC game at 7 p.m. Friday. Cisco is heavily favored there, having handled the Thunderbirds easily in a scrimmage early in the year.

Cisco and New Mexico JC square away at 7 p.m. today.

Two other Western Conference teams, Odessa and South Plains, are entered and they are in the upper bracket of the eight-team meet.

Weatherford and Odessa clash at 4 p.m. while South Plains takes the court against Butler, Kan., at 8 p.m.

The other semifinal game Friday gets under way at 9 p.m. The third place contest Saturday starts at 4 p.m. while the title goes on the line at 9 p.m.

Howard County made an auspicious debut earlier this week, flogging Southwestern

(Frank Brandon Photography)

ALL-STAR RETURNEE Soph George Tilley

Christian of Terrell, 108-67.

The Big Spring collegians are the defending titlists in the tournament, having knocked off the host school in the finals last year, 108-88.

Robert Jackson of the Hawks was named the most valuable player of the tournament while George Tilley was included on the all-tournament squad.

McCovey Is Narrow Selection For MVP

NEW YORK (AP) — Willie McCovey, San Francisco's home run and runs batted in champion, shaded Tom Seaver, the New York Mets' ace who led the majors with 25 victories for the 1969 National League Most Valuable Player Award Thursday although each received 11 first place votes.

McCovey wound up with 265 points to Seaver's 243 in the balloting of the 24-man committee of the Baseball Writers Association announced by Jack Lang, secretary-treasurer. The secret vote by two committee men from each league city was taken after the season and before the playoffs and included only regular season performances. Lang tabulated the votes this week.

Hank Aaron, Atlanta outfielder who ranks No. 3 on the all-time home run list, was third with two first-place votes and 188 points. Aaron won the MVP in 1957 when the Braves were in Milwaukee. Pete Rose of Cincinnati, the two-time batting champ, was next with 127 points, followed closely by Ron Santo, Chicago's third baseman, with 124.

Tommy Agee and Cleon Jones, who play side by side in the Mets' outfield, were next. Agee had 89 points and Jones,

who led the league during most of the summer, had 82 points.

Roberto Clemente of Pittsburgh, the winner in 1966, was eighth with 51 points, followed by Phil Niekro, Atlanta's knuckleball pitcher with 47 and Tony Perez, Cincinnati third baseman, with 28.

In addition to Aaron, and Clemente, other former MVP winners to get votes were Ernie Banks, the 1958-59 champ, 15; Maury Wills, of Los Angeles, the 1962 winner, 17; Bob Gibson of St. Louis, last year's MVP, 2; and Orlando Cepeda of Atlanta, the 1967 MVP, 1.

A total of 38 players were mentioned in the scattered voting. Last year when Gibson won he received 14 of the 20 firsts, the other six going to Rose. The committee was expanded to 24 this year because of the addition of Montreal and San Diego.

McCovey beat out Seaver with 11 firsts, nine seconds, two thirds and two fourths, the only player mentioned on all 24 bal-

Quake Shakes Eight States

By The Associated Press
A furniture-rattling earthquake startled residents of eight eastern states Wednesday night, but caused no reported injuries or damage.

Southern Ohio, Virginia, West Virginia, North and South Carolina, Kentucky, Tennessee and Georgia felt tremors for about 10 seconds at 8 p.m.

The National Earthquake Information Center in Rockville, Md., said the quake measured 4.75 on the Richter scale, strong enough to break windows. The tragic Alaskan quake of 1964 measured 8.5 Richter.

"People in this area aren't too used to earthquakes," a spokesman at the center said. "This is the strongest one we've had in quite some time this far east."

The quake's center was in West Virginia, 60 miles west of Roanoke, Va., and 70 miles southeast of Charleston, W. Va., the center said.

Moore Jr., said he felt the governor's mansion shake as tremors "made my desk jump two inches."

In Cincinnati, Audrey Falkenstein said she was in her room when the tremor hit. "There was a plant across the room and its leaves were shaking," she said.

Wytheville, Va., reported its telephone and electric service was disrupted by the quake.

On Nov. 9, 1968, a quake that measured 5 on the Richter scale hit Illinois, with tremors felt in 23 states and Canada. Last July a tremor felt through most of Tennessee measured 3.5 Richter.

"This one was sharper than the one which hit the state last July," said Mack Morris, manager of WBEJ Radio, Elizabethton, Tenn. "It almost shook our equipment out of steel racks at the station."

Says Pornography Gives An Insight

COLUMBIA, S.C. (AP) — Dr. Morse Peckham flicked his gray beard, bit down on the cigarette holder and, from behind a cloud of smoke, said, "It is wrong to judge pornography as something that is all about sex—it can be an insight into human beings."

The University of South Carolina English professor, author of a new book entitled "Art and Pornography," said of his 300-page work: "Don't get excited, it isn't illustrated."

Peckham, a professor at the University of Pennsylvania for 18 years before coming to South Carolina, said he had no great interest in pornography when he started work on his book. Later, he said, he found the subject "one of extraordinary intellectual experience—an opportunity to gain an insight of human beings."

He said pornography is viewed differently by the intellectual, who believes in innovation, and the anti-intellectual, who believes in social stability. The intellectual is hesitant to admit that art can be pornographic, he said, and it is "mere carelessness on the part

of literary critics to say that pornography cannot be literature and cannot be art."

The anti-intellectual, he said, refuses to admit that anything pornographic can be art and public while enjoying it in private. He feels he must maintain the morality of the community.

Among his other views: —"Cheap pornography is moving up the cultural ladder; it's better written now than the typical stories that once appeared in the old Saturday Evening Post."

—The current increase in pornography is natural because "there is always a flood of pornography during times of cultural crisis, as we are undergoing today. The biggest spurge of pornography in history came during the French Revolution."

—There is no evidence that pornography has caused any harm, nor is there evidence it hasn't.

—Neither law nor a Supreme Court decision can resolve the controversy over pornography. "There has been pornography throughout history and there will continue to be."

Apollo 12 To Contribute More Than Previous Trip

SPACE CENTER, Houston (AP) — With a bull's-eye landing, treasure chests full of carefully selected moonstones, pieces of Surveyor 3 and an array of sophisticated experiments deployed on the lunar surface, Apollo 12 is sure to contribute more to science than any previous space flight.

Only one major objective remains—taking close-up pictures of three possible landing sites for future missions—before astronauts Charles Conrad Jr., Richard F. Gordon Jr. and Alan L. Bean can head home knowing they did all they set out to do. They'll do that Friday.

Apollo 12's landing just 20 feet from the edge of a crater in which Surveyor 3 is located clears the way for future missions to more rugged terrain, where smaller safe landing zones exist but where scientists say the most knowledge can be gained.

The theory is that volcanoes or meteor impacts have tossed material from deep inside the lunar crust onto the surface in these areas. If so, rocks collected from these rugged sites could harbor numerous secrets about the moon's interior and thus possibly provide more information about the origin of the moon, the earth and the solar system.

During two excursions outside the Intrepid lander craft, Conrad and Bean collected an estimated 80 to 100 pounds of rocks far more carefully selected than those picked up on Apollo 11—including some that may have been tossed to the site when the huge crater Copernicus was created 200 miles to the north.

Knowledge to come from this treasure chest of rocks will only be learned after long months of studying the specimens, "but we're sure we'll learn something, I can tell you that," one scientist predicted.

Pieces of Surveyor 3 snipped off by Conrad will give engineers valuable information about how well man-made materials stand in the lunar environment. This type of data can prove useful in designing future spacecraft or permanent habitats to house scientists on the lunar surface.

Five scientific experiments deployed on the surface by Conrad and Bean have already begun to unravel secrets of the moon. Sources said one of them, designed to measure any gas particles above the surface, has shown the moon may have an atmosphere one-millionth that of earth.

Data was recorded on a seismometer experiment when Conrad rolled a rock down a nearby crater, proving the device should be able to do what it is designed to do: determine the structure of the moon's interior by listening for moonquakes or sonic signals produced by falling meteors.

Hunter Falls Out Of Tree

SAN ANTONIO (AP) — Larry Voight, 49, of Port Arthur, was reported in serious condition today after a fall from a tree Tuesday.

Voight apparently fell while deer hunting in Mason County. His son said several hunters, including his father, had scattered to separate deer stands, and his father failed to return by dark.

A search was organized, and

Voight was found unconscious under a tree.

Next Flights Are Approved

WASHINGTON (AP) — As Apollo 12 astronauts walked on the moon, the financial future of Apollos 13, 14 and 15 were assured by President Nixon.

The President signed Wednesday a bill authorizing \$3.7 billion for the National Aeronautics and Space Administration. It includes funds for three more manned moon flights in the next nine months.

Puzzle of Wednesday, Nov. 19, Solved

Chili Cookoff Horseplay Continues At Pasadena

PASADENA, Tex. (AP) — State Sen. Chet Brooks said Wednesday that he feels sure Gov. Preston Smith will call a special session of the Texas Legislature to settle a chili controversy.

Brooks made his remarks after dethroned world chili-making champ Wick Fowler was named winner of the Ship Channel Chili Championship of the World here, even though Fowler was not a contestant.

Both announced contestants were disqualified, and a panel of judges made Fowler the winner.

Outlawed were Pasadena newspaper publisher Tex Adams and Pasadena Mayor Tom Lay Fowler is an Austin newsman and chili maker.

Self-proclaimed qualified experts testified Wednesday that Lay's chili contained sweet potatoes and X-rays of Adams' concoction revealed screws, nails and other foreign articles.

Following his crowning, Fowler invited Pasadena to be the host to a world's chili championship cookoff of its own next year.

Workman Dies In Ditch Cavein

SAN ANTONIO (AP) — Verlando M. Rodriguez died Wednesday when he was buried in a construction ditch cavein.

Several rescue workers tried to reach Rodriguez, but he was dead when found.

Witnesses said the workman was covered when a ditch in which he was working collapsed at a construction area about 100 yards west of the Bexar County Hospital.

Firemen and fellow workers made up the unsuccessful rescue team.

Look what's happened since Maverick was introduced in April.

Your Ford Dealer's holding the price line. Maverick. Still \$1995*

When it comes to prices, you know what's going on. And what's going up. But there's one thing still going straight. Maverick. It holds the line. And its small price makes it America's biggest car value. Here are the facts about our Simple Machine. It's simple to drive. You get the passing power of a 105-hp Six. Great gas mileage too. It's simple to park. Maverick can turn in a tighter circle than the leading import. It's simple to service. Maverick is easier and less expensive to maintain than an economy import. It needs fewer oil changes, fewer chassis lubrications. It's simple to repair. You can do many routine maintenance jobs yourself.

It's simple to own. Maverick saves you money when you buy it. And when you drive it. That's the reason our small car is going over big. Maverick lets you stop worrying about rising costs. Come see the Simple Machine at your Ford Dealer's now.

For more information about Maverick see your Ford Dealer or write: Maverick Catalog, Dept. N-4, P.O. Box 1603, Dearborn, Michigan 48121.

*Ford's suggested retail price for the car. White sidewall tires are included; they are \$30.00 extra. Since dealer preparation charges (if any), transportation charges and state and local taxes vary, they are not included, nor is extra equipment that is specially required by state laws.

Unique Gift Shop Plans Formal Opening Friday

Inland Port 213 Main, will be opened officially Friday at 10:30 a.m. when Mayor Arnold Marshall cuts the ribbon to the gift store's entrance. Assisting in the ceremony will be the Chamber of Commerce Ambassadors in their red coats. Cookies and coffee will be served at the grand opening.

Owner Roy Peet opened his unique gift shop two months ago with ideas and purchases made during his trip to Europe last year. The store is an inland port for a colorful, tasty and fragrant myriad of unusual gifts from 15 different countries. There are gourmet foods in one corner, a table of incense, one of India brass, and a wall of colorful scented soaps in The Village corner of the back room.

For Christmas, among the large assortment of lovely items, there are many sculptured candles from Germany, scented candles, a variety of candleholders and a gallery of Christmas angels and wise men.

Peet has been in Big Spring for seven years working with a local florist shop. He has been in the floral business for 26 years and found the gift shop business a natural transition. His artistic talents and taste are immediately apparent in his

window displays. Assisting Peet in serving customers is Mrs. Melba Carter, long-time Big Spring resident, and previously Edwards Heights Drug Store.

(Photo by Pete Stone)

FINAL PERFORMANCES — The cast of "A Thousand Clowns" begin the last of three performances this evening at the Cosden Club, with a curtain time of 8 p.m. Tickets are available at Kathy's Card Shop, Modesta's, Fiveash Plumbing, or by calling Mrs. Fiveash at 267-8033. The final curtain Saturday will close the six performance production of the Little Theatre. Members of the cast include (from left), Gary McCrummen, Brian Sursky, Jon Howard, Chuck Boland, E. A. (Slim) Fiveash, and Darlene Fiveash. Mrs. Lida Boland is director, and Danny Fiveash is producer.

(AP WIREPHOTO)

HELD ON ROBBERY CHARGES — A Dallas night club operator, Jack Wesley Flanagan, and his wife, Marie Wells Flanagan, are shown leaving a Dallas jail in custody of U.S. Marshal John Lowe Wednesday. The Flanagans were arrested in Dallas by the FBI and are charged with armed robbery of the Bank of Dallas. The robbery take amounted to \$43,446. Flanagan's bond was set at \$50,000; his wife's bond set at \$25,000.

Dallas Couple Arrested For Bank Robbery

DALLAS (AP) — FBI agents arrested a Dallas couple Wednesday on charges of armed robbery in the \$43,446 robbery of the Bank of Dallas Sept. 22. Jack Wesley Flanagan, 41, and his wife, Marie Wells Flanagan, 27, were in the custody of a U.S. marshal here late Wednesday. They were the subject of a secret indictment issued Tuesday by a federal grand jury.

Flanagan was identified by Asst. U. S. Dist. Atty. Andrew Barr as the owner of a night club about two blocks from the Bank of Dallas.

The couple was held in lieu of a combined \$75,000 bond set by U. S. Dist. Judge W. M. Taylor. Flanagan's bond was set at \$50,000; his wife's was set at \$25,000.

Both were also charged with using a dangerous weapon.

A man and a woman robbed the Bank of Dallas by waiting until two bank employees and a porter were walking with the money from drive-in teller booths to the bank.

That robbery was preceded by one in 1966, when a drive-in teller was robbed of \$12,000.

In October of this year, another attempt was made on the bank, but the youth involved fled when the drive-in teller screamed for help.

The successful heist this year kicked off a wave of drive-in robberies at several savings institutions.

Juveniles Counseled

During the month of October, 34 juveniles were referred to the Howard County juvenile probation department, according to the department's monthly report.

One juvenile was held for burglary, one for minor possession of intoxicants, three for game law violations, one for disorderly conduct, 13 as runaways, one for involvement in a public affray, seven for truancy, three for domestic problems, one for forgery and three for drunkenness.

Eleven were counseled and released, nine were released to their parents or county or state officials, six were put under supervision, five continued under supervision, one was referred to school officials, one was placed with a relative, and one was committed to the Texas Youth Council (Gainesville).

There are currently 13 children under supervision of the juvenile department in Howard County. The officer counseled 55 children in his office, 21 were contacted by telephone, and 13 contacted elsewhere.

Oilmen Take New Aim At Imports

WASHINGTON (AP) — Domestic oilmen are citing potential losses to private payrolls and federal and state treasuries in their fight against relaxing oil import quotas.

It is a new approach for the oilmen, who have based opposition to letting down the import barriers in the past on the claim it would weaken the United States strategically by hurting the domestic industry.

Rep. George Bush, a Texas Republican and former oilman, led the attack by predicting an increase in U.S. imports of foreign crude oil by four billion barrels a day would cost \$6.8 billion in lost taxes and payroll cutbacks within five years.

Bush said the increased inflow would cause a cutback in domestic production of three billion barrels a day.

Taking up the economic issue apparently is a response to opponents of the oil import quota system, established by former President Dwight D. Eisenhower in 1959, who claim it is costing American consumers between \$2.2 billion and \$8.3 billion a year in higher prices for petroleum products.

Bush contended the economic loss to government and the private economic sector would offset any drop in prices for the consumer.

Oil import quotas now are set at 12.5 per cent of domestic production. President Nixon has appointed a cabinet-level committee to review the oil import system, but it has not yet made a recommendation.

Texas would be the biggest loser, if import quotas were relaxed, Bush said. It produces 35 per cent of the domestic total now and its potential loss over a five-year period would be \$1.4 billion, he said.

Bush said petroleum producers pay \$513.5 million in state taxes, 40.1 per cent of the total state revenues. One of every 16 Texans works in some phase of the industry, he added.

Editor Claims News Muzzling

By The Associated Press

The president of the American Society of Newspaper Editors says members of the Nixon administration are trying to muzzle the news media. A top Nixon aide denies there is any effort to control the media or stifle dissent.

Norman E. Isaacs, executive editor of the Louisville Courier-Journal and Times, said Wednesday the administration had undertaken a campaign to bring both newspapers and broadcast stations under "some form of covert control."

In a speech at the University of Michigan he suggested two possible motives, intimidation or control, then asked: "But is there any essential difference so long as you succeed? The end result is muzzling of some kind."

In New York, Herbert G. Klein, President Nixon's communications director, addressed industry executives at the International Radio & Television Society at the Plaza Hotel.

"Let me say flatly that, from the President on down, no one in this administration is for censorship or control," Klein said. "That would be one of the greatest disservices you could render this country."

Klein did say that he felt the questions raised by Vice President Spiro T. Agnew regarding television analyses of Nixon's Nov. 3 Vietnam speech were valid and deserved the industry's attention.

Klein, a former editor of the San Diego Union, was asked at

a news conference prior to his address for his professional opinion of those analyses.

"In many cases," Klein said, "I found the comment after the speeches was rebuttal, not commentary. I felt much of it was unfair and not objective."

Klein also told the news conference that Agnew's speech carried no implied threat. "His speech was a personal view of problems in the television industry and it called for self-examination and not for censorship," he said.

At a news conference prior to his address in Ann Arbor, Isaacs said he thought Dean Burch should be removed from his new position as head of the Federal Communications Commission, charging that Burch has set himself up as both "prosecutor and judge" over the media.

Isaacs noted Burch had voiced support of Agnew's attack on the broadcast news media last Thursday. Broadcast stations require licensing by the commission.

"I cannot help but wonder what the substantive difference is between their position and that which is practiced in the Soviet Union," Isaacs said.

He said many political leaders in the past had been angered by the press, "but I cannot recall a drive mounted by a national administration containing the threat of retribution—and this one certainly is that."

Experts Go In Isolation

ABOARD USS HORNET (AP) — Two space experts went into isolation Wednesday in a quarantine trailer to prepare for the reception of Apollo 12 astronauts Monday.

They will accompany the as-

tronauts to Houston in the air-tight trailer, designed to protect humans from possible dangerous moon germs.

The specialists entered quarantine five days before splash-down to guard against terrestrial viruses.

They are Dr. Clarence Archibald Jernigan, 35, specialist in aerospace medicine, and Brock Randall Stone, 25, a NASA engineer.

City Policemen Have Busy Month

Traffic accidents resulted in the death of one person and injury to 27 others in the city during the month of October according to the monthly report of the Big Spring police department. A total of \$42,945 damage was done to vehicles involved in the 85 accidents. Damage to other property amounted to \$1,810.

Criminal offenses for the month numbered 67 including 33 reports of larceny under \$50, 17 burglaries, 13 reports of larceny over \$50, two auto thefts, one robbery, and one report of aggravated assault.

One offense of aggravated assault was cleared, and two offenses each of burglary, larceny over \$50, and larceny under \$50 were cleared.

The total value of property stolen was placed at \$9,339.66 and property recovered during October was valued at \$3,348.16.

Arrests totaled 267 of which 38 were transferred to county authorities, 11 were released to other jurisdictions, and 17 were released with no charge.

The traffic division reported contacting 479 violators including 182 for moving violations, 62 driver license violations, 17 for mechanical violations, 33 for hazardous parking violations, and 20 for

juveniles were taken into custody of which five were released to the County Juvenile Probation officer. Fourteen were released to their parents or others.

The city jail reports that 1,777 meals were served prisoners in October for a total food cost of \$185.83 or an average of 10.49 cents per meal.

The city animal warden impounded 102 dogs, two of which were redeemed or sold, 83 were destroyed. The number of dead dogs and cats removed was 111.

Local Vocational Program Praised By Supervisor

Big Spring has one of the most comprehensive vocational training programs of any city of comparable size in Texas, Ed Shive, area supervisor for the Texas Education Agency in the field of vocational and industrial education, told the Downtown Lions Wednesday.

With 13 programs offered in half a dozen major fields, the comprehensive area vocational school is doing an outstanding job, according to Shive. He had praise for businessmen who support the cooperative training efforts.

Here, as elsewhere in this district, explained Shive, the occupational training is relevant

to a local employment situation. In addition, each of the fields opens up basic job training in a number of related fields. For instance, auto mechanics may lead to a career in not just mechanics, but in auto electricity, body work, sales, etc.

Figures show that nine of 10 who go through the vocational program are employed, and 80 per cent in the field in which they trained, he said. Shive was introduced by J. B. Cushing, program chairman for the month.

Moderate Fire Loss For Month

The Big Spring fire department reports that losses to fire in the city for the month of October amounted to \$2,925.

Calls answered by the department totaled 27, including 11 building fires, five automobile fires, four brush or grass fires, and seven calls of miscellaneous nature. None of seven fires investigated by the department was determined suspicious.

Champ Blood Donor Honored

HOUSTON (AP) — A professional drummer—and possibly the world's champion blood donor—has been honored by the American Association of Blood Banks.

Alfred Ross, 63, of New York City accepted a special citation Wednesday night at the association's annual convention. It honored him for "noble generosity over many years through unselfish donation to the ill and injured of 15 gallons of blood."

Before he could come to Houston, however, Ross had to get a substitute drummer to perform for him in the pit orchestra of the road show of "Fiddler on the Roof", now playing in Boston.

"I've been a drummer for about 45 years and I've given blood for over half that time," he said.

Ross said he gave his first blood to help save the life of the son of a musician-friend in 1943. He carries a card stating he has donated 124 pints in recent years.

"I get more satisfaction from giving a unit of blood than from anything else I do—and I have to stay in pretty good shape to continue donating," he said.

"Blood is the greatest gift there is," the stocky, graying musician added.

Delinquent Tax Take OK

The city has collected delinquent taxes in excess of \$71,000 through the month of October. City Attorney Herb Prouty stated in his monthly report to the City Commission that this figure surpassed budgetary expectations. He estimated that total collections of taxes, penalty and interest may reach \$80,000 by Jan. 1, 1970.

Several new suits have been filed to collect delinquent taxes, Prouty reported.

"We are holding up most of our suits until we have had the chance to talk with the Austin law firm which has been employed by the county to collect its taxes. . . . We feel that it will be mutually beneficial for the three attorneys who are representing the various taxing agencies in Howard County to get together and set up some sort of a standard, coordinated effort to push for the collection of delinquent taxes."

Cut Severely By Plate Glass

Roy Bailey, 38, formerly a Big Spring resident and currently residing in Snyder, received an eight-inch gash across the chest Wednesday in Snyder.

He was unloading a 10x12 foot piece of plate glass at the Snyder Glass Company, which he owns, when the sheet broke and slashed him. He underwent surgery for two hours in a Snyder hospital, according to his sister, Mrs. Lawrence Allen, who resides here. Doctors think he will recover completely. He is the son of Mr. and Mrs. Nile Bailey, Big Spring.

'Crash Pads' In Schools For Those 'Freaked Out'

SAN FRANCISCO (AP) — mind-bending drugs they can't stand under the influence of dangerous drugs will soon have "crash pads" for emergency treatment available just down the hall from their classrooms in four high schools.

Some teenagers come to classes so "freaked out" on

the program to be operating in about 10 days. The estimated \$115,000 annual cost will be borne by the Health Department.

Each "pad" will be staffed by a nurse, a psychiatric technician, and several student aides.

"For the first time a youngster under the influence of drugs while at school can be treated—without fear of reprisal—at school with no questions asked," Dr. Stubblebine explained.

The Board of Education and the city Health Department laid the groundwork Wednesday for

Sergeant Says He Saw Americans Kill Civilians

By The Associated Press My Lai in March, 1968.

An Army sergeant stationed at Ft. Dix, N.J., says he saw American soldiers kill hundreds of South Vietnamese men, women and children in the village of

slaying as the result of an order by the company commander.

In another development related to the deaths, the Cleveland Plain Dealer today printed photographs showing South Viet-

namese civilians allegedly killed in the incident. It said the photographs came from a former Army combat photographer, Ronald L. Haerberle, of Cleveland.

Haerberle said in a copyright story that he joined the company just before it entered the village and heard from the men that it was suspected the villagers were Viet Cong sympathizers. He said he saw men, women and children slaughtered.

Lt. William L. Calley Jr., 26, of Miami, Fla., has been charged with murder in the case, and Staff Sgt. David Mitchell, St. Francisville, La., has been charged with assault with intent to murder.

A Pentagon spokesman in Washington said he did not expect there would be any official comment on the Plain Dealer story or photographs. "We don't want to say anything that would prejudice this case," he said.

The charges brought against Calley Sept. 5, one day before he was due to be discharged from the service, were prompted by the actions of Ronald Lee Ridenhour, 23, a former Army Spec. 4 now attending college in California.

Newsweek magazine said in its current issue that Calley's case is "only one of a string of related incidents" in which 567 civilians in three hamlets were killed.

Bernhardt, 23, of Hempstead, N.Y., said in an interview that the My Lai incident rose out of an order given the day before by the company commander whom he refused to identify.

He said the company was temporarily stationed in a field base about five miles from the village. He said the commander gave a briefing during which he said "words to the effect that the village and its inhabitants were to be destroyed."

The operation was actually against three villages, designated on Army maps as My Lai Four, Five and Six, Bernhardt said, and the killing began at My Lai Four.

He corroborated reports by South Vietnamese who claimed to have survived the alleged massacre that the troops gathered the villagers in three groups and shot them down with rifles and machine guns.

Tippit Case Is Continuing

DALLAS (AP) — Charles A. Tippit, 19, testified Wednesday he was invited to the apartment of a woman who later accused him of attempted rape.

Tippit, son of patrolman J.D. Tippit who was killed attempting to arrest Lee Harvey Oswald, said he struck the 31-year-old woman when she complained he was wasting her time.

The woman testified earlier that she left a New Year's party and walked to her nearby apartment for a man needed by Tippit. She said he followed and tried to rape her.

Tippit said he went with the woman and the pair argued when she started to return to the party.

Tippit insisted there was no attempt at rape.

Tippit will inherit more than \$100,000 from a \$650,000 fund established with contributions after the death of officer Tippit. Attorney Charles Tessler said the woman, authorized another lawyer to sue Tippit for injuries.

Final arguments will begin this morning in the court of Dist. Judge Jerome Chamberlain.

Dillon Takes Museum Post

NEW YORK (AP) — C. Douglas Dillon, an investment banker who was secretary of the Treasury in the Kennedy administration, takes over as president of the Metropolitan Museum of Art Jan. 1.

The museum announced Wednesday that Dillon had been elected to succeed Arthur A. Houghton Jr., president of Steuben Glass and the Met's president since 1964. Houghton was elected chairman of the board.

Dillon, an art patron and collector who has been a museum trustee since 1951, was elected a vice president last year. He is expected to play a key role in helping the Met improve its financial position.

The Met is the nation's richest museum, but faces a deficit. It is celebrating its centennial year with a series of special exhibitions, and has begun an extensive building program and expanded its educational activities.

Shoes Needed For Children

The children's shoe project sponsored by the Civitan's was the main topic of discussion Tuesday when the Civinettes met in the home of Mrs. Henry Brewer, 2513 Carol.

The Civinettes will assist as needed on Dec. 20 at the R-70 Theatre when shoes will be given to needy children. The drive for new or good used shoes will continue until that time.

According to Mrs. Tommie Merrill, there are approximately 200 children up to 12 years of age, who need shoes. Persons who wish to buy a pair of shoes, donate money or give used shoes are asked to call her at 263-4058. Cartoons will be shown at the theatre as the children are being fitted for their shoes.

Mrs. George Colvin, secretary, presided at Tuesday's meeting as the Civinettes planned a Thanksgiving party for the residents of the Work Village at Big Spring State Hospital. Mrs. Colvin, who is chairman for the party, said it will begin at 7 p.m., Nov. 25. The club is also buying a 30-cup coffee maker for the village.

The Civinettes will prepare food baskets for needy families at Thanksgiving and Christmas under the direction of Mrs. Brewer and Mrs. Mike Craddock.

A Christmas open house for Civitan's and Civinettes will be held from 6 to 10 p.m., Dec. 5, at the home of Mr. and Mrs. Mike Craddock, 1804 Dixie. The next regular meeting will be Jan. 27 in the Craddock home.

Girls' Ranch Executive Is Speaker

B. R. Miller, executive director of High Sky Girls' Ranch at Midland was guest speaker Tuesday for the Women of the Chapel, Webb Air Force Base.

Miller told of his personal experiences in guiding girls at the ranch, ages six through 18, who are "unadoptable." He discussed the problems and rewards of working with the girls.

Mrs. Roy Peterson introduced the guest speaker. Hostesses were Mrs. Ray Niemotka and Mrs. Bruce Brizklaus.

Mrs. Kenneth Rider gave the devotion on an article by the late Helen Keller, "Three Days To See," in which the author told of some of the things she would want to see if she had three days of sight. Mrs. Rider reminded the members that, although they had sight, some are unable to see the wonders surrounding them.

A business session followed the program, with Mrs. Harry Hopper presiding. She announced that the group is collecting dolls for the Salvation Army, and anyone having a doll to donate should bring it to the base chapel.

The net meeting will be a couples' potluck supper at 6:30 p.m., Dec. 16.

Mrs. L. Griffith Hosts Luncheon

Mrs. L. A. Griffith, Gail Route, hosted a Thanksgiving luncheon Tuesday for the Fairview Home Demonstration Club.

Three guests, Mrs. L. M. Brooks, Mrs. Sally Sanders and Mrs. Della Hicks, were welcomed. Mrs. Glen Airhart was a new member.

The group will number the Christmas gifts for the HD council party, where new officers will be installed.

The club Christmas party was slated Dec. 16 in the home of Mrs. Pete Van Pelt, and plans were made to buy a Christmas gift for a Big Spring State Hospital patient.

Mrs. J. M. Smith and Mrs. Mary Riddle gave the program, "Keeping Your Files Up To Date."

Mrs. Alton Allen Instructs Lodge

Mrs. Alton Allen, deputy of John A. Kee Rebekah Lodge No. 153, gave instruction in lodge work at Tuesday's meeting in the IOOF Hall.

Also, Mrs. Allen presented a certificate of perfection to Mrs. Kyle Caudle. Mrs. Homer Pettit read a resolution in respect in memory of the late Ray Phillips, brother of Elra Phillips.

Mrs. Grady Beck, vice grand, presided. Mrs. Jones Lamar read a letter from Mrs. Margaret Galey, assembly president, advising that representatives from the Home for the Aged in Ennis will arrive in Big Spring Friday afternoon en route to Austin. Members were asked to meet the visiting representatives who will spend several hours in Big Spring.

Visits Sister Here

Mrs. Mertie Moncrief of Cisco is visiting her sister, Mrs. T. B. Morris, and Mr. Morris. She plans to be here for several days.

Birth Announced

Mr. and Mrs. Bill Sneed and Mr. and Mrs. L. D. Simpson have received word of the arrival of a grandson, Sean Christopher, on Nov. 18 at 6:09 p.m. at Bethesda Naval Hospital, Bethesda, Md. Parents of the baby are Hospitalman and Mrs. Bob Sneed.

Airport HD Club Sees Holiday Decorations

Mrs. Don Wiley demonstrated the making of Christmas gifts and decorations at Tuesday's meeting of the Airport Home Demonstration Club. The group met for a Thanksgiving luncheon in the home of Mrs. S. A. Wilson, 2500 Seminole.

The table was laid with a Thanksgiving cloth and centered with miniature turkeys and pyracantha berries. China and silver appointments were used.

Mrs. Vern Vigar showed slides on her travels in Tennessee, Texas and California.

The club will have a Christmas party Dec. 16 at Furr's Cafeteria, prior to going to the home of Mrs. B. A. Bunn, 503 E. 15th, for a gift exchange.

Members will attend the HD Council Christmas party Dec. 9 at fellowship hall in First Methodist Church. It was announced that Mrs. Delaine Crawford, county HD agent, will conduct a drapery class Friday in the HD agent's office.

Mrs. J. O. Murphy directed the program, "God's Use of His Chosen People," at Tuesday's meeting of the Woman's Missionary Society, Westside Baptist Church. Mrs. J. A. Andrews gave a description and the location of the town of Ur, and Mrs. H. N. Hipp told of Abraham's call from God to leave the city of Ur and go into an unknown country. Members participated on the program by reading scripture. Mrs. Larry Minchew read the prayer calendar, and prayers were worded by Mrs. D. S. Brooks and Mrs. Hipp.

TWO HATS AT ONCE — Model shows a new trend in hats — wearing two at once. She raises a wide-brimmed model in japonica and white felt to reveal a close fitting cloche. The hats were displayed Monday at the Millinery Guild's showing in London.

Lodge Delegation Stops Here On 'Fund' Flight

Claude Morris of Beaumont, Grand Master of Odd Fellows of Texas, and Mrs. Morris, past president of the Rebekah Assembly of Texas, will head a delegation arriving in Big Spring today on a campaign to raise funds for the Home For the Aged at Ennis.

The group, members of the state campaign organization and the campaign staff, will arrive at Howard County Airport at 1:10 p.m., to be met by local and Stanton Odd Fellows and Rebekahs. During a three-hour stay here, the campaigners will be greeted by Mayor Arnold Marshall and be transported to Odd Fellow Lodge No. 284 for a salad luncheon.

E. V. Riley of Brownfield is general campaign chairman. The five-day trip to 17 Texas cities is being made to dramatize the need for funds at the home. The visitors will meet with local campaign officials to get reports on the campaign and collect pledges currently on hand.

The delegation was due to depart at 5:37 this afternoon for Dallas.

Jonnie Billings' Announce Birth

Mr. and Mrs. Jonnie Billings, 804 E. 7th, Colorado City, are parents of a son, Marcus Allen, born at 5:11 p.m., Monday, at Root Memorial Hospital in Colorado City. The couple has one other child, a daughter, Kristie, 3. Maternal grandparents are Mr. and Mrs. James Lloyd Curry, 1407 Mt. Vernon, and paternal grandparents are Mr. and Mrs. Carl (Bud) Billings, 1411 Johnson.

Members of the Knott Home Demonstration Club met at Big Spring State Hospital Tuesday to pack Christmas boxes for patients. Guests were Mrs. Norman Wallace and Mrs. Harold Luce, both of Ackerly. The next regular meeting will be Dec. 15 in the home of Mrs. Dalton Wright.

After Five Gardeners To Decorate

The After Five Garden Club held a business session Tuesday in the home of Mrs. Jack Little, No. Six Highland Cove, with Mrs. John Burgess as cohostess.

Mrs. Jimmy Morehead presided and announced the club will decorate a ward at the Veterans Administration Hospital for Christmas.

Two guests, Mrs. J. K. Cunningham and Mrs. Loretta Friday, were welcomed, and refreshments were served.

The group reconvened in the home of Mrs. James H. Hughes in Silver Heels where the hostesses presented a program on making Christmas decorations.

Knott Residents Visit, Entertain

KNOTT (SC) — Mrs. Pat Roality of Cincinnati, Ohio, visited her father, J. G. Nichols, who is a patient in a Big Spring hospital. Mrs. Roality is the former, Miss Una Pearl Nichols.

Mr. and Mrs. Don Lilly and sons of Odessa were weekend guests of the James Jeffcoats.

Mrs. Eddie Newcomer has been visiting her son-in-law and daughter, Mr. and Mrs. Lambert Miskel, in Big Spring.

Couple Marries In San Antonio

Announcement is being made of the marriage of Mrs. Virginia Polo to Capt. Jerry N. Casden in San Antonio on Nov. 18. Mrs. Casden is the daughter of Mr. and Mrs. T. R. Morris, 1012 Stadium, and is a teacher at the Caravajah School in San Antonio. Capt. Casden is serving with the US Army.

Hints From Heloise

Dear Heloise: It's a good idea to repair your gardening tools before you put them away at the end of the season.

If you want to paint the handles, there's a very easy way to do it. Just tie each tool upside down with string, rope or wire to a tree limb or anything handy. Even the clothesline.

Makes the job much easier, and they dry evenly and quickly.

Luncheon Held At Christian Church

The Homemaker's Class of First Christian Church was joined by the Mary Martha Class for luncheon meeting Tuesday in the fellowship hall.

Hostesses were Mrs. O. G. Burns, Mrs. W. W. Grant and Mrs. R. J. Michael. Mrs. Grant gave the invocation, and Mrs. Beulah Morrison presided.

The Thanksgiving theme was carried out by using tables laid with white cloths and centered with pyracantha berries, fruit and fall flowers.

The class will present a gift to a patient at Big Spring State Hospital.

Guests were the Rev. John Beard, Mrs. Florence Hallam and Mrs. John C. Crews, the latter of Fountain, Colo.

Mrs. Robert Tinley Prepares For Holiday

By RHODA LEMONS
 "I had a terrible time writing recipes," said Mrs. Robert E. (Bobette) Tinley, "because I just drop it in and don't measure anything." Mrs. Tinley is the wife of Dr. Robert Tinley of Big Spring State Hospital. They reside at No. 15 Parkhill Terrace.

Mrs. Tinley listed her Thanksgiving menu as roast turkey, giblet gravy, dressing, whipped potatoes, creamed onions, relish tray (stuffed celery, pickled peaches, watermelon pickles), fruit salad and Orange Slice Cake.

The couple has three sons, Mike, vice president of Daniels Inc., Hobbs, N.M.; Robert Jr. vice president of First National Bank at Hobbs, and Patrick, a lawyer in Kerrville. The couple had another son, Matt, who died over a year ago. They have nine grandchildren.

"We will spend Thanksgiving in Hobbs with the boys and their families," said Mrs. Tinley.

"We go to Mike's house because it is the largest and there will be about 12 of us together," continued Mrs. Tinley. "His wife will fix the turkey, and I will bring almost all the rest of the food."

This year Mrs. Tinley canned approximately 50 jars of watermelon preserves, 30 jars of pickled peaches, 30 jars of chili sauce, 35 jars of pickled okra and a number of jars of green tomato preserves. She makes them for her sons' families, because they don't have time to do this themselves and they enjoy it very much.

Mrs. Tinley's mother, Mrs. R. W. Daniels and her brother, Jack, both live in Hobbs. "We make constant trips to that little town," said Mrs. Tinley.

Dr. and Mrs. Tinley are originally from Council Bluffs, Iowa, later moving to Denver City, Tex., where Dr. Tinley practiced medicine. Due to ill health, he was forced to give up his practice, and they moved to Puerto Vallarta, Mexico, for over two years. There, they lived in semi-retirement until he could regain his health. The Tinleys have a deep love for Mexico, its people, the climate and the country. They visit

MRS. ROBERT E. TINLEY

there at least twice each year.

Once, when Mrs. Tinley was admiring a painting in the home of her friends, Dr. and Mrs. Feliciano Alvarez, the painting was given to her just because I liked it.

"It is truly the land of 'my house is yours,'" said Mrs. Tinley. Another time, she was admiring a handsome ring and bracelet at the Saint Angel bazaar, and the owner presented it to her as a present.

Mrs. Tinley took Spanish last year at Howard County Junior

College so she could speak better Spanish on their trips to Mexico. She found that in most places, however, the Mexican people are eager to try English, so she doesn't have as much chance to use Spanish as she would have liked.

"Robert and I must like left-overs, because we always have them," said Mrs. Tinley. "I just never learned to cook without all those boys at home. We live in relaxed, comfortable life now that our children are grown. When we moved to Mexico, we sold our home and our furnishings, so now we are entirely free in apartment living."

Mrs. Tinley plays bridge often and reads avidly, preferring historical and biographical books. Her husband's hobby is "puttering" in the yard and taking care of his special plants.

Another hobby of the Tinleys is having one grandchild visit a week at a time each year. Tinleys love having the children and the children seem to enjoy every minute with their grandparents.

Mrs. Tinley is a member of the 1948 Hyperion Club.

Fruits Are Good Buy This Month

Planning your fruits and fruit beverages for the holidays?

You'll be glad to know there's a big crop of oranges in the making, according to the U.S. Department of Agriculture. Current forecast, excluding California Valencias, figures at 172 million boxes, eight per cent above last year and half again as many as were produced two years ago.

Grapefruit predictions, on the other hand, show a slightly shorter crop than last year. Production this year is expected to run about 51.4 million boxes. However, Texas is expecting its largest grapefruit crop since the 1948-49 season, with a forecast 20 per cent above last year of eight million boxes.

Florida's tangelo and temple orange productions are heading for new records. Amount of tangelos is expected to be up about 60 per cent and temples up about 30 per cent. However, this year's tangerine output will be down about 12 per cent from last season's levels.

Fruit and vegetable market news offices of USDA's Consumer and Marketing Service report increasing arrivals of most citrus at local markets.

HONEYED ORANGE PEEL

It may be used as a confection or to flavor and decorate cakes, puddings and breads. To prepare, remove the peel from three oranges. Cover this peel with water. Add one-half teaspoon salt. Boil one-half hour. Drain and then cover again with water and boil until peel is tender. Drain and cut peel in strips. Bring one-half cup sugar, one-half cup honey and one-fourth cup water to boil. Cook peel in this gently until clear. Cool in syrup several hours. Reheat. Drain and spread out to dry. Roll in granulated sugar, if desired.

Try Easy Holiday Treats For Young

For holiday snacking, make these easy bars for the children.

CHOCOLATE BARS

INGREDIENTS:
 4 cups puffed rice
 ½ cup light or dark corn syrup
 1 package (6 oz.) semi-sweet chocolate pieces

METHOD:
 Heat puffed rice in shallow pan in moderate (350 degrees) oven ten minutes. Pour into large bowl that has been greased with butter or margarine. Bring corn syrup to a boil; remove from heat. Add semi-sweet chocolate pieces; stir until smooth. Pour over puffed rice, stirring until all kernels are evenly coated. Press into buttered pan (11 by 7 by 1½ inches). Mark surface of candy into 24 bars. Refrigerate until hardened; cut along marked lines to make 24 bars.

PERFECT DESSERT
 Delightful treat for family

Chiffon Pie Completes A Bountiful Table

Here's a new dessert that's a perfect finale to your Thanksgiving Day dinner. Sunny Almond Chiffon Pie combines a rich scalloped crust made from round buttery crackers and a smooth fluffy filling. You make the filling from a custard base flavored with almond. Toasted slivered almonds and silver dragees decorate the top of this attractive sweet.

SUNNY ALMOND CHIFFON PIE
 30 round crackers
 2 tbsps. sugar
 ½ cup melted shortening
 12 round crackers
 1 envelope unflavored gelatin
 ¼ cup sugar
 ½ tsp. salt
 1½ cups milk
 3 eggs, separated
 1 tsp. almond flavoring
 ¾ cup toasted slivered almonds
 Silver dragees

Crust: With blender or with rolling pin, crush 30 crackers into very fine crumbs (there should be about 1½ cups). Mix well with two tablespoons sugar and melted shortening. Press firmly and evenly over bottom

TRADITIONAL THANKSGIVING TURKEY — All eyes are on the Thanksgiving turkey as it rests majestically on the platter waiting to be served. Appetites are at their peak, having been sharpened by the wonderful aromas coming from the kitchen. At last, here is the golden-brown bird, fairly bursting with savory stuffing.

Spotlight Thanksgiving Dinner With Big Turkey

Turkey takes the spotlight at most Thanksgiving dinners. This has been the traditional bird since the Colonists had their first feast in America in 1621, called by Gov. Bradford for the Plymouth Colony. However, the origin of these holidays actually dates back to ancient times.

Butter-Roasted Turkey with Foil allows for a high roasting temperature. Rinse turkey with cold water, then pat dry. Fill neck area with stuffing, then fasten neck skin to back with skewer. Stuff cavity lightly. Push drumsticks under band of skin at tail, or tie them to tail. Brush skin with melted butter.

Place turkey in center of foil strip, 12 inches longer than bird. Splice two sheets of foil with a double fold pressed flat, if one width isn't enough. Bring ends of foil together over breast of turkey and fasten tightly. Bring sides of foil up high enough to prevent drippings from escaping into pan. (Large turkeys may have as much as three pints of drippings.) Package should not be airtight.

Place foil-wrapped turkey, breast up, in bottom of shallow pan, not on a rack. Place in preheated 450 degree oven and cook to within 30 to 40 minutes of the total time, as shown below. Carefully open foil and fold away from bird to edges of pan. Insert meat ther-

mometer, if one is to be used, in center of inside thigh muscle or thickest part of breast muscle at this time. Continue cooking until done. Thermometer should reach approximately 185 degrees and thickest part of drumsticks feels very soft when pressed between protected fingers.

Total cooking time by the above method is about two and one-quarter to two and one-half hours for a seven to nine pound bird, two and three-quarters to three hours for 10-13 pounder, three to 3 and one-quarter hours for 14-17 pounder, three and one-quarter to three and one-half hours for 18-21 pounder and three and one-half to three and three-quarter hours for turkeys weighing 22 to 24 pounds.

OLD-FASHIONED STUFFING
 2 cups butter
 7 cups chopped onion
 9 cups diced celery
 25 slices white bread
 1 tsp. nutmeg
 1½ tbsps. salt
 ½ tsp. pepper
 2 tbsps. poultry seasoning
 4 eggs

Fry onion and celery in butter until tender. Toast bread until dry and golden brown. Soak bread in cold water until soft. Remove bread from water and squeeze until dry. Tear into small pieces (measure about three and one-half quarts) and put into bowl. Add onions, celery and butter.

Sprinkle with seasonings that have been mixed together. Combine. Add slightly beaten eggs and toss together with forks. Stuff bird just before roasting. Makes 17 cups of stuffing, enough for a 14 to 16 pound read-to-stuff turkey. If there is extra dressing after stuffing turkey, place in buttered casserole, cover and bake at 325 degrees for 30 minutes.

Sliced hard-cooked egg makes an excellent garnish for a Waldorf Salad. That salad was originally made with apples, celery and mayonnaise, but modern cooks like to add walnuts.

Add To Potatoes

Add finely grated Swiss cheese to mashed potatoes.

Bake Cake For Holiday Company

Serve delicious butter-layer cake to top off a holiday meal for your family and friends.

BUTTER LAYER CAKE

INGREDIENTS:
 2½ cups sifted cake flour
 1½ cups sugar
 3 tsp. double-acting baking powder
 1 tsp. salt
 2 large eggs (separated)
 ½ cup soft butter
 1 cup milk
 1½ tsp. vanilla

METHOD:

Grease bottoms of two round layer-cake pans (each nine by one and one-half inches); line bottoms with waxed paper; butter paper and sides of pans. Sift together the cake flour, one cup of the sugar, the baking powder and salt into a large mixing bowl, beat egg whites with rotary beater (hand or electric) until foamy; gradually beat in the remaining one-half cup sugar until peaks stand straight up when beater is slowly withdrawn.

To sifted dry ingredients, quickly add soft (but not melted) butter, one-half cup of the milk and the vanilla. Without washing beater, beat one minute; add remaining one-half cup milk and the egg yolks; beat one minute more or until smooth. Fold in beaten whites. Turn into prepared pans.

Bake in moderate (350 degrees) oven 25 to 30 minutes or until cake tester inserted in center comes out clean. Turn out onto cake racks; strip off paper; turn cakes right side up on racks. When cold, fill and frost as desired.

Add Nuts To Salad

Sliced hard-cooked egg makes an excellent garnish for a Waldorf Salad. That salad was originally made with apples, celery and mayonnaise, but modern cooks like to add walnuts.

RECOMMENDED RECIPES By Mrs. R. E. Tinley

CREAMED ONIONS

12 small onions
 2 tbsps. butter
 1½ tbsps. flour
 1 cup milk
 Salt
 Parsley

Stew onions until tender and drain. Make white sauce by melting butter and adding flour. Stir until free of lumps, then add milk and cook until thickened. Salt to taste. Pour over onions, and garnish with parsley.

TURKEY

1 12-16 lb. turkey
 Put whole onion in turkey. Season with salt, pepper and monosodium glutamate. Rub with butter. Wrap well in heavy foil. Bake at 300 degrees, one-half hour per pound.

DRESSING

1 recipe of corn bread mix, baked
 12 slices of light bread, toasted
 1 cup chopped celery
 ½ cup chopped onion
 2 sticks margarine
 1 can chicken broth
 1½ tbsps. ground sage
 Salt and pepper
 Stew celery and onion in margarine until tender. Break bread and corn bread in small pieces. Pour celery, onion and margarine over bread. Add sage, salt and pepper to taste.

Serve Special Dish To Delight Friends

Serve this delectable dessert to your most epicurean friends.

STRAWBERRY MOUSSE

1 envelope unflavored gelatin
 ¼ cup sugar
 Pinch of salt
 1 pkg. (16 oz.) sweetened sliced strawberries, thawed
 ¼ cup kirsch (clear cherry brandy)
 ¾ cup heavy cream

In a one-quart saucepan stir together the gelatin, sugar and salt. Turn strawberries into a strainer set over the saucepan; allow syrup to run from berries to drain thoroughly into gelatin mixture. Reserve berries. Set the gelatin mixture over low heat; stir constantly with a rubber spatula, around sides as well as at bottom of saucepan, until gelatin dissolves. Stir in reserved berries, then kirsch. Chill until slightly thickened. Whip cream until stiff and fold in. Turn into a one-quart serving bowl. Chill for several hours or longer. Serve from bowl because dessert may be too soft to unmold. Makes six servings.

Add enough chicken broth to make mixture moist. Bake at 375 degrees for about one hour. Optional: One pint of fresh oysters added makes the dressing delicious.

STUFFED CELERY

1 stalk celery
 1 lg. pkg. cream cheese
 1-oz. Roquefort cheese
 ½ tsp. Worcestershire sauce
 Paprika
 Small amount cream
 Blend cream and cheeses. Add Worcestershire sauce and moisten with cream until good consistency for stuffing celery. Sprinkle each piece with paprika.

WATERMELON PICKLES

Rind of ½ melon
 Boiling water
 2 tbsps. powdered ginger
 3 lbs. sugar
 1 pint vinegar
 5 doz. cloves
 2 sticks cinnamon
 Prepare rind of melon by peeling and cutting into small slices. Cover with boiling water and add ginger. Boil slowly for about one hour, or until rind is clear. Drain. Make syrup of sugar, vinegar, cloves and cinnamon. Cook slowly two hours. Put rinds in sterilized jars and cover with syrup to fill.

FRUIT SALAD

2 small cans mandarin oranges
 1 can pineapple chunks
 1 3½-oz. can coconut
 ½ cup nuts
 1 cup miniature marshmallows

1 small carton sour cream
 Mix all ingredients and let stand overnight.
ORANGE SLICE CAKE
 1 lb. orange candy slices
 1-8-oz. pkg. dates
 2 cups pecans
 1 can coconut
 3½ cups flour
 1 cup margarine
 2 cups sugar
 4 eggs
 ½ tsp. salt
 ½ cup buttermilk
 1 tsp. soda

Chop fruit and cover with one-half cup flour. Place in large bowl. Cream margarine and sugar. Add eggs, milk and dry ingredients, including remaining flour. Pour over fruit mixture. Blend and bake in ungreased tube pan one hour and 45 minutes at 300 degrees. While cake is still hot, pour this sauce over it.

SAUCE

2 cups powdered sugar
 1 cup orange juice
 Mix together and pour over cake. Leave in pan to cool.

Horoscope

TOMORROW

—CARROLL RICHTER

GENERAL TENDENCIES: You are tied down to a practical course and now you are not likely to like it. But if you spend your time thinking out what you can do to get your material affairs on a better basis, you will turn an adverse day into one in which you achieve much heartw.

ARIES (March 21 to April 19) Don't argue about your bills or collection. Study it well and then do things right. See where you can cut down on expenses. You are too extravagant in personal matters. Be more careful.

TAURUS (April 20 to May 20) Instead of trying to be forceful with others, make yourself a more attractive and charming person and you find life becomes much easier for you. Forget some bad habit you may have set up tomorrow's appointments now.

GEMINI (May 21 to June 21) You can do something about those private anxieties that have been bothering you so much lately. Show patience with delays. Do something nice for advisors who have done so much for you in the past.

MOON CHILDREN (June 22 to July 21) Be diplomatic in showing others your finest points and make a good impression on them. Avoid the party tonight or you get into some kind of trouble. Evening is fine for some study.

LEO (July 22 to Aug. 23) Put aside those fun projects you have in mind and get into important civic matters right now. Find right appliances to make your work easier, more efficient. Do some writing that is important to you.

VIRGO (Aug. 24 to Sept. 23) You have some knowledge of what you want to do in the future but you have to study further in order to be successful. Some new contacts may be arising to you as an expert. Do some checking up before you accept what is said as gospel truth.

LIBRA (Sept. 24 to Oct. 23) Be enthused about making these collections and saving bills since you could get into trouble at this time if you are not particular about them. Steer clear of that irate individual. Otherwise, keep silent.

SCORPIO (Oct. 24 to Nov. 21) Instead of doing all that ongoing, listen to what a wise partner has to say and cooperate since your ideas are not as good as his. Keep promises made to the letter. Evening can be very happy with mate.

SAGITTARIUS (Nov. 22 to Dec. 21) Be sure to get your work done efficiently and correctly so that you please higher-ups and then do something to improve health. Avoiding obligations will be very hard for you later on. Be smart.

CAPRICORN (Dec. 22 to Jan. 20) You have to handle that private matter well first before you can get out for that much-desired recreation. Do not be extravagant, though. Always stay within your budget and you find life is easier for you.

AQUARIUS (Jan. 21 to Feb. 19) Try to find the right way to get around that individual who simply will not go along with your important plan. Be sure you do your work well. You get the cooperation of others by not being demanding.

PISCES (Feb. 20 to March 20) Morning is best time to handle correspondence, making out reports, etc., and being very courteous with co-workers everyone. Be particularly careful in driving or there is potential for accident. Be alert.

Texan Named Rodeo Rookie

DENVER, COLO. — A 22-year-old Texan, Phil Lyne, has been named professional rodeo's rookie of the year, the Rodeo Cowboys Association said today. The rookie award has been given annually since 1956 to the newcomer who not only wins a fair share of the prize money in his first year as a pro, but who also exhibits strong potential. Lyne, who ranches with his parents near a town with the improbable name of George West, won \$12,565 this year. He earned \$9,018 in calf roping alone, finishing the season in 16th place in that event. He earned money in five events, reflecting great promise, the association said. Honors are nothing new to the 5-8, 165-pounder, who picked up 42 trophy saddles in junior, high school and collegiate competition from 1955 through 1968.

STATE COURTS

AUSTIN (AP) — Supreme Court Proceedings:
Orders:
Civil appeals reform, case sent back to trial court.
M. D. Collins vs. R. V. Mize, Cochran. Civil appeals reversed, trial court affirmed.

Big Spring (Texas) Herald,
Thurs., Nov. 20, 1969 7-B

Dear Abby

—ABIGAIL VAN BUREN

DEAR ABBY: Although I've never seen my problem in your column, I'm sure other men have had it, too. I am 41, and a bachelor. Believe me, Abby, I enjoy the company of women, but it seems that in this day and age any man who is still a bachelor at 40 is immediately suspected of being a homosexual. I actually find myself holding hands with my date, hugging her, and acting affectionate, even when she doesn't appeal to me in that way, just to let on-lookers know I'm normal and to "reassure" my date. Many women think if they don't turn a man on, he must be queer. When I go to dinner or to a movie with another man, I get all sorts of funny looks. And I've heard people have said that the only reason I date women is to cover up my preference for men.

I have my reasons for not wanting to marry. I like my privacy, don't care for the responsibilities of marriage, can't stand children, and frankly I am very selfish and would make a lousy husband. So, how does a normal man go about proving to the world that he's not queer?

DEAR STRAIGHT: First, he quits protesting too much. Then he doesn't make a phony fuss over women who don't turn him on. And lastly, he doesn't give a second thought to what people say.

DEAR ABBY: I am 25 and a graduate student at Berkeley. A month ago my sister came out here to visit me, and she reported back to my mother that I had lost a lot of weight and I looked awful. (I heard this every time I went home to Ohio at Christmas, although my weight hasn't varied more than five pounds in the last eight years.)

My mother then mailed me five pounds of cookies. I just got a letter from her complaining about the \$2 postage she had to pay for the cookies, and saying that she had contracted with an Oakland department store to keep me in a steady supply of cookies. Should I tell my mother that her efforts are not appreciated?

DEAR CRUMBS: The "crumbs" are not confined only to your beard. Your entire attitude is "crumbly." Let the cookies come, and if you don't appreciate them, give them to someone who will. You won't have to look far.

DEAR ABBY: Would you please inform teenage girls that no decent boy wants to be called by phone or chased by a girl, regardless of what he may have told her on the back porch last night. I am the mother of a teenage boy, and I get the message from the other end of the line.

Also, please inform mothers of girls that we, the mothers of boys, appreciate their efforts to provide wives for our sons, but please, leave the driving to us.

My complaint, Dear Abby, is that we're trying to rear our sons to be gentlemen and to respect women. Our method of dealing with a disrespectful, unappreciative "big mouthed" son is to sometimes withhold the use of the family car. Well, tough luck to us! The girl comes over in her family car, and off they go!

Mothers of boys can do only so much. The mothers of daughters have to do the rest. No wonder so many girls get into trouble. They practically wear signs that say, "Here I am, fellows, car and all. Come and get it!" MRS. I.V.H.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 69700, Los Angeles, Calif. 90069.

BUTTERBALLS 49^c

TURKEYS BY SWIFT

1968 SPECIAL BUY! LB.

We're tempted each year - when offered an extra low price on last year's Butterballs - to not say anything, just sell 'em as Butterballs - However, there is a difference - and we don't feel it's fair. Sooo - we bought some anyway - to sell at a saving to our customers. We also bought a bunch of nice fresh 1969 (October) Butterballs to grace the holiday tables of those who have come to expect the best on these special days. Well, there it is, 1968 Butterballs, 49^c; 1969 Butterballs, 59^c. You be the judge... we offer both... honestly.

Nixon-Sato Talks Shift To Economic Differences

WASHINGTON (AP) — President Nixon's talks with Japanese Prime Minister Eisaku Sato shifted today from Okinawa and nuclear weapons to economic differences—chiefly textiles and trade barriers.

Both leaders were under strong domestic pressures on the textile question. The United States wants Japan and other producing nations to voluntarily restrain the flow of woolen and man-made textiles entering this country.

Sato, who faces a critical election this year, wants to avoid any impression he is "buying back Okinawa" by making concessions on textiles.

A major concern of the three-day negotiations has been the return of Okinawa to Japanese control.

Authoritative sources said a joint communique to be issued Friday by the two leaders would have some carefully constructed language to get around the political dilemma.

But after Sato's return home U.S. officials expect to see some real movement from Japan at a Geneva conference on textile restraints.

The communique also is expected to cover an agreement reached by the President and prime minister at their first

meeting Wednesday on the ground rules for continued U.S. bases on Okinawa after its return to Japan in 1972.

However, the communique sources say, but it was nevertheless agreed on by the two leaders during their initial meeting Wednesday.

WHITE HOUSE TALKS — Prime Minister Eisaku Sato of Japan looks toward President Nixon during yesterday's welcoming ceremony for the Asian leader at the White House. The two leaders have scheduled three business talks on U.S.-Japanese relations.

Klein May Lose Funds

DALLAS (AP) — A government lawyer asked Wednesday that all federal funds to a Houston suburban school district be cut off for violating the Civil Rights Act of 1964.

George Jones, attorney for the general counsel of the Department of Health, Education and Welfare, said the Klein Independent School District is in violation of the act.

A hearing to determine whether or not the district complies with federal civil rights requirements was conducted by Charles Evans, a HEW hearing examiner.

Attorneys for the schools read part of a letter from Sen. John Tower, R-Tex., in which Tower said he was hopeful of some flexibility toward resolution of the Klein desegregation deadline.

The district withdrew a desegregation plan acceptable to HEW last July because of "community pressure," HEW compliance officer Lacy Johnson testified.

Johnson said a freedom of choice plan was substituted.

Klein had been required to complete desegregation by the 1969-70 school year.

Klein School Superintendent Edgar Simpson said a new school that would accommodate all students at all-white and all-Negro schools will be built soon enough to begin classes by September, 1971.

Wilson To Confer

WASHINGTON (AP) — British Prime Minister Harold Wilson will visit Washington Jan. 27-28 to confer with President Nixon, the White House announced Wednesday.

French President Georges Pompidou will come to Washington in February for talks with Nixon.

Pentagon Wants To Keep Nuclear Base On Okinawa

WASHINGTON (AP) — The Pentagon has told President Nixon giving up Okinawa as a nuclear base would seriously degrade the U.S. deterrent against aggression in the Pacific by such countries as Red China.

Defense officials, reporting this, say they expect some "special arrangement" to emerge from this week's discussions between Nixon and Japanese Prime Minister Eisaku Sato over Okinawa's expected reversion to Tokyo's control in 1972.

The arrangement, presumably would permit U.S. use of Okinawa—seized by the United States from Japan in World War II—as a nuclear springboard in case of extreme crisis in the Western Pacific.

An official communique reporting the result of the three days of meeting is scheduled Friday.

While the State Department wants an agreement politically acceptable to Sato's anti-nuclear opponents back home, Pentagon officials have been approaching the matter more from a strict U.S. security standpoint.

"The military significance of Okinawa would change drastically if we lost 'free use' of the island," a defense official said.

Defense officials won't talk about where nuclear weapons are stored but acknowledge that they are covered under the term "free use."

The Defense officials regard Okinawa as a "fantastic" military complex which places U.S. deterrent forces within 1,500 miles of such potentially hostile nations as Red China, North Korea, and North Vietnam.

"It is important for its deterrent value, the other fellows' knowing we can use it anytime," as one official put it.

Arctic cold numbed much of the eastern half of the nation today and dropped temperatures well below freezing across a wide stretch of the Deep South.

Snow, riding strong northerly winds, swept the Great Lakes region before dawn. Travelers were warned of possibly heavy snow along the lower lakes, in parts of Ohio, Pennsylvania and New York.

Temperatures settled to zero in the Northern Plains, into the teens over much of the Midwest and ranged down to the 20s from the lower Mississippi Valley through Georgia.

Rain soaked portions of New York and New England ahead of the cold front, then turned to snow as temperatures fell. More than an inch of rain washed Albany, N.Y., during the night.

Fourteen persons died Wednesday night when a Mohawk Airlines plane slammed into a mountainside during a heavy wind and rain storm near Lake George, N.Y.

Milder weather fanned through most of the nation from the Pacific to the central Plains, and clear skies were widespread.

Temperatures ranged from 2 above zero at Grand Forks, N.D., to 70 at Key West, Fla.

Life Membership

PARIS, Tex. (AP) — Leland Smith has been presented a life membership in the Chamber of Commerce of Lamar County. The award was made at a recent chamber banquet.

Smith has served for 12 consecutive years on the chamber board.
