ADOPTED DAD — Tommy Sullivan of suburban Memphis had two young ducks, but one died. The survivor, "Donald," was lonely at first, but then struck up a friendship with another Sullivan family pet, "Kelly," a big boxer. Kelly has now assumed the role of father and protector to the duckling.

## Finch Wants To Double School Desegregation In The South By Next Fall

WASHINGTON (AP) — Secretary Robert H. Finch of the Department of Health, Education and Welfare set a goal today of doubling the present amount of school desegregation in the South by next fall.

That would have 80 per cent of the area's Negro children attending essentially desegregated schools.

"We're striking for dramatic results," Finch said at a news conference.

Finch and his civil rights chief, J. Stanley Pottinger, indicated generally that President Nixon's recent message on school desegregation would change their department's policies very little.

Pottinger read the President's message "as a clear mandate to bring into compliance all school districts which discriminate against children on the basis of race, color or national origin."

Finch said the department's previous desegregation guidelines are still in force, existing policies on busing have not changed, and Southern cities will still be required to eliminate dual systems based on past policies or practices.

Finch said 1.2 million black children in the South are now attending schools with significant numbers of white pupils — double last year's 600,000 total.

"We think we can double that again next fall," he said.

The secretary said the existing mix of court suits and administrative actions would be used to attain the desegregation goal for next fall.

Finch denied several times that any "backward motion" has struck his department and its desegregation efforts. He was questioned in the light of signs that Nixon's message had triggered new resistance to integration.

But he added later: "There will be fewer desegregation plans drawn and more monitoring." The department's office for civil rights both negotiates desegregation plans and helps monitor progress in school districts under court order.

Wichita, Kan., is reported ready to scrap a three-month-old desegregation plan largely because the President strengthened his opposition to the busing of school children for racial balance and shunned action against de facto segregation—that is, caused by housing patterns.

Gov. Claude Kirk Jr. of Florida took over Bradenton schools Monday to prevent a desegregation plan approved by the Supreme Court.

One day after the Nixon message two weeks ago, a federal judge postponed large-scale busing in the Charlotte, N.C., schools until next fall. He had originally ordered it for this spring.

## At Least Five Persons Die In Earthquake

MANILA (AP) — At least five persons perished and more than 175 were injured today by a shattering earthquake that shook the central Philippines for nearly a minute.

Most of the known casualties were in Manila. There were fears that the toll would rise when reports come in from the provinces.

Workers digging through the ruins of a three-story elementary school found four injured teachers and the child of one of them. All schools had been closed for the day because of a transit workers' strike, which fizzled out after one day Monday.

The quake at 1:34 p.m. also caved in a large portion of a high school roof, and other school buildings suffered lesser damage.

One wall at the Manila city jail crumbled and others cracked, but police said none of the 1,500 inmates was injured or escaped.

The three fatalities were a man hit by falling concrete and two young girls pinned under the rubble of a house wall.

Hospitals and infirmaries in the capital reported treating nearly 100 persons, most of whom were treated and released.

The city's tallest building, the 22-story Manila Hilton Hotel, had many cracks in its walls, and chunks of marble and plaster littered its stairwell.

Many office buildings in Manila were evacuated, clogging downtown streets with workers and shoppers trying to get home on jammed public transit facilities.

Some international communication links were cut and telephone service in some areas of Manila was interrupted.

In Naaga City, 165 miles to the south, a water tower burst.

The weather bureau said the quake lasted about 50 seconds and reached an intensity of seven in Manila on the Rossi-Forrel scale, which has a maximum of nine. The U.S. National Earthquake Center in Washington measured the force at 7.2 on the Richter scale of earthquake intensity.

EARTHQUAKE VICTIM — Felipe Venuya, 29, lies dead inside his house in Manila in the Philippines, a victim of today's earthquake there. The concrete wall of a nearby school fell on the victim's house.

## Federal Pay Raise Bill Skips Hurdle

WASHINGTON (AP) — The Senate Post Office Committee voted unanimously today for a bill to provide a 6 per cent retroactive pay increase for all federal civil service workers.

The action sends the bill to the Senate, where early action is expected.

In a 12-0 roll call vote, committee members also voted to extend the pay raise to Capitol Hill employees, to District of Columbia judges and to the staffs of former presidents.

Chairman Gale McGee, D-Wyo., said the pay raise measure—which was attached to a House-passed civil service bill—could receive congressional clearance by the end of the week.

A pay raise retroactive to last Dec. 27 was agreed on in negotiations between administration officials and representatives of seven postal unions following a

widespread strike of post office employees.

McGee said the measure was not tied to the Nixon administration's proposal to increase the pay of postal workers an additional 8 per cent after Congress acts on post office reform—another part of the strike-ending agreement.

Republican leaders said after meeting with President Nixon that congressional approval of a 10-cent letter rate Nixon proposed should be considered along with the pay raises.

Several influential members of the Senate and House have indicated they oppose Nixon's proposal that the rate be boosted by four cents.

But Sen. Hugh Scott of Pennsylvania, the Senate GOP leader, told newsmen there is no discussion of any shrinkage in the proposed 10-cent rate and his counterpart, Rep. Gerald R. Ford of Michigan, said:

## Labor Woes At-A-Glance

**RAILROADS** — The Senate Labor Committee has unanimously approved a bill to impose on railroad unions and carriers a contract which they negotiated. One union which rejected the agreement had threatened a strike Saturday which could have led to a nationwide rail shutdown.

**TRUCKING** — A selective trucker strike in Chicago and wildcat strikes in other cities across the nation have endangered a proposed nationwide contract.

**AIR CONTROLLERS** — Air traffic controllers continued to call in "sick" today despite a threat by Transportation Secretary John Volpe that leaders of the protest will be fired "through due process." The Federal Aviation Administration said there has been some easing of flight cancellations and delays caused by the sick-out.

**NEWSPAPERS** — Mediator Theodore Kheel said substantial progress was needed in New York newspaper negotiations in order to avert shutdowns this weekend at the New York Times, the Daily News, the New York Post and the Long Island Press.

**BUSES** — Bus drivers struck in San Diego, Calif., when the city ignored a demand for arbitration of a new contract. The strike forced 52,000 riders to find alternate transportation.

## Big Spring GI Wounded In Combat

Spec. 4 Benny Lloyd Dixon, 20, son of Mr. and Mrs. Floyd Dixon, 904 Baylor, was wounded seriously in combat action in Vietnam April 1.

He has been evacuated to a hospital in Tokyo, Japan and will be brought back to the States later. Meager reports indicate he had alighted from a helicopter sent in for evacuation of wounded when the group was hit by mortar fire.

## 300 Junk Cars Crushed

The City's campaign to rid the community of junk cars accounted for 330 during the past few weeks.

City officials offered to haul off the junkers and turn them over to a "crusher" operator, who converted them to scrap. Residents had only to call City Hall, then sign a release.

"We are pleased with the response to this special program," City Manager Larry Crow said this morning. "The removal of 330 junk cars will certainly help to improve the appearance of our city."

## Kopechne Grand Jury Adjourns

EDGARTOWN, Mass. (AP) — The Dukes County grand jury adjourned today after a special session without making any findings in its investigation of Sen. Edward M. Kennedy's auto accident last July.

After the grand jury had been in session today only three-quarters of an hour, the foreman, Leslie H. Leland told the court, "we have no presentment to make" and Judge Wilfred J. Paquet adjourned the session.

The grand jury session had been called at the urging of the foreman to investigate the death of Miss Mary Jo Kopechne, 28, found dead of drowning in Sen. Kennedy's car after it plunged into a tidal pool last July 18.

When the grand jury returned to the courtroom shortly before 11 a.m. EST Judge Paquet again ordered the clerk to call the roll of the 10 men and 10 women present for this session.

Then the clerk, Mrs. Sophia Campos, asked:

"Mr. Foreman, do you have any presentment to make?"

"No, I have no presentments," said Leland.

Judge Paquet interrupted.

"Well, has the grand jury any presentment to make, stand up, Mr. Foreman," Paquet said.

Rising, Leland said:

"No, we have no presentment."

"Mr. Foreman and members of the grand jury, having completed your business I will excuse you," Paquet said.

"I remind you again of the need for secrecy," Paquet said.

Judge Paquet told the jurors that while they still were members until their year's term runs out next month that they had finished their duties.

He thanked the grand jury members and excused them.

The grand jury stayed in session less than three hours on the opening day Monday after hearing the outline of its responsibilities from presiding Superior Court Judge Wilfred J. Paquet.

It is conducting an independent inquiry into the 28-year-old secretary's death last July 18 when Sen. Edward M. Kennedy's car plunged off a narrow bridge into a tidal pool on Chappaquiddick Island.

The grand jury called in two witnesses, both by telephoned invitation, bypassing the usual subpoena process.

## Gunfire Kills Two Elderly Sisters

AMARILLO, Tex. (AP) — Gunfire erupted at a residence Monday night, killing two elderly sisters and critically injuring a man.

Dead are Mrs. Cora Samuel, 62 and her sister, Mrs. Zula Dell, 69. Police said both women were shot with a .38 caliber pistol.

Mike Horodnyki, 46, was taken to a hospital in critical condition with head wounds.

Officers said Horodnyki called police to his aid.

A rifle and shotgun were found under a couch and the pistol was found in a trash can outside the residence.

## Measles May Delay \$375 Million Shot

CAPE KENNEDY, Fla. (AP) — The Apollo 13 crew practiced descending to the moon today while medical specialists hurried blood tests to determine if the astronauts' exposure to German measles is going to delay the \$375 million mission a month.

The space agency said it expected a report on the measles investigation late today or early Wednesday.

James A. Lovell Jr., Thomas K. Mattingly II and Fred W. Haise Jr. went ahead with their normal training schedule as if they were going to take off for the moon Saturday on schedule.

The astronauts have been exposed to German measles, usually a childhood ailment, through one of their backup pilots, astronaut Charles Duke, who broke out in a rash Sunday.

It tests show the immunity of any of the three is low, their chief physician probably will recommend that the launching be delayed a month.

Even if their immunity is high, doctors will be faced with a tough decision.

There is no medical experience in the progress of such a disease in a spacecraft environment.

Dr. Charles A. Berry, medical director for Houston's Manned Spacecraft Center, said: "We certainly would be concerned about launching them if there was a possibility they could de-

velop the disease during the mission. It certainly could disable them during the flight."

If the launching is postponed, Lovell, Mattingly and Haise would have to wait a month for their moon trip. Saturday is the only favorable launch day in April for their intended landing area in the Fra Mauro Highlands. The next opportunity is May 9.

Delay would be costly. When the Apollo 9 launch was postponed three days last year because of astronaut colds, the space agency estimated the extra cost of the mission at \$500,000.

Disclosure that Duke had German measles, known medically as rubella, was made Monday. He had reported his condition to medical authorities Sunday night.

Officials said it was not known how or when Duke was exposed.

But the prime crew continued to practice in spaceship simulators, following a schedule that assumes a launching Saturday.

Blood samples of all crewmen were flown to Houston for comparison with samples taken 25 days ago. This and other data should help doctors determine just how immune the spacemen are to German measles. The specialists hoped to have the answer by Wednesday.

Lovell, through his 4-year-old son Jeffrey, also was exposed

last week to the more infectious red measles. Immunity tests also were being made for this variety.

## Rail Strike Package Vote

WASHINGTON (AP) — Legislation to head off a nationwide rail strike, a possibility Saturday, has cleared its first hurdle in Congress.

The Senate Labor Committee voted unanimously Monday to approve a bill asked by President Nixon which would impose a settlement on the railroads and unions.

The measure awaits approval by the House Commerce Committee, which was to meet again today, and votes in both the House and Senate.

Nixon's package would put into effect for the remainder of this year an agreement worked out by negotiators in December.

Members of three of the unions ratified the pact, but a fourth union, the sheet metal workers, voted it down, objecting principally to work rules changes.

## The Inside News Shot In Gun Fight

FOES TRYING TO SWAY HANDFUL OF SENATORS

# Carswell Now Good Bet To Win

WASHINGTON (AP) — Foes of Judge G. Harrold Carswell's Supreme Court nomination zeroed in today on a handful of senators they say hold the key to reversing an initial setback in the bitter Senate fight.

Although losing 52 to 44 in a first-round vote Monday, the opposition maintained they still

have a chance to defeat confirmation of the 50-year-old Tallahassee, Fla., judge in Wednesday's showdown vote.

But Republican Leader Hugh Scott of Pennsylvania and other key supporters said they are confident Carswell will be confirmed, although they conceded a tight margin.

Sen. Clifford P. Case of New Jersey, one of eight Republicans who voted to send the nomination back to the Judiciary Committee, told a newsman opponents can block confirmation if they get the vote of Arkansas Democrat J. W. Fulbright.

Fulbright, who voted to return the nomination to committee, had said he would review the situation before deciding how to vote on confirmation.

The vote Monday on Indiana Democrat Birch Bayh's motion to recommit the nomination, and thus kill it, was not necessarily conclusive because three senators who voted against it—Thomas J. Dodd, D-Conn., Hiram L. Fong, R-Hawaii, and Robert W. Packwood, R-Ore.—already had announced they would vote against confirmation.

And a number of other senators, some of whom voted on both sides of the recommitment question, had declined to say how they stand on the showdown vote.

## Annual Oscar Awards Tonight

HOLLYWOOD (AP) — The movie academy stages its 42nd annual Oscar awards presentation tonight and it's likely one of the most emotional and star-studded ever.

Besides a galaxy of contenders, 17 stars—against last year's 10—will present the statuettes.

Among them is Elizabeth Taylor, wearing the \$1.05 million diamond given her by husband Richard Burton, a nominee for best actor honors. Another presenter will be John Wayne, himself nominated for "True Grit."

The two-hour program from the Los Angeles Music Center will be aired over ABC-TV starting at 10 p.m. EST. In the first satellite transmission, the show will be seen live in Brazil and Chile.

The academy estimates at least 200 million persons in 40 countries will see the ceremonies live or by delayed broadcast.

The honors have been secretly voted by the 3,100 members of the Academy of Motion Picture Arts and Sciences.

Leading with nominations in 10 categories, including best picture, was the historical drama "Anne of the Thousand Days." Challenging it for best film of 1969 was "Midnight Cowboy," the seamy life of a Texas drifter and a Manhattan bum.

"Hello, Dolly!," "Butch Cassidy and the Sundance Kid" and "Z" also were nominated for the best picture award.

Favored among best actor nominees, in pre-award speculation, were the durable Wayne and the six-times nominated Burton, up for "Anne of the Thousand Days." Burton has never won.

Opposing them from the youth-oriented sector were Jon Voight and Dustin Hoffman of "Midnight Cowboy." Another contender was Peter O'Toole of "Goodbye, Mr. Chips."

Two second-generation stars were among competitors for best actress honors: Henry Fonda's daughter Jane, of "They Shoot Horses, Don't They?," and Judy Garland's daughter Liza Minnelli, for "The Sterile Cuckoo."

Seeking the same award were Genevieve Bujold, "Anne of the Thousand Days"; Jean Simmons, "The Happy Ending"; and Maggie Smith, "The Prime of Miss Jean Brodie."

The academy's board of governors has voted two special awards. One goes to Cary Grant, for many memorable

take a stand is likely to be intense before the roll is called.

Sen. Robert J. Dole, R-Kan., a Carswell supporter, said the outcome could depend on Vice President Spiro Agnew's vote. The Vice President presides over the Senate and votes in case of a tie.

"It is now clear that it is a case of raw politics as far as most senators are concerned," Dole said. "It is no longer Carswell's fitness or experience but whether or not the liberals can hang another defeat on President Nixon and—more importantly—prevent President Nixon from establishing some balance on the Supreme Court."

The first Southern justice Nixon nominated for the court post, Clement F. Haynsworth Jr., of Greenville, S.C., was rejected 55 to 45 by the Senate last November.

An Associated Press survey of the 96 senators expected to be on hand for the Wednesday vote shows 44 for confirmation, 39 against and 13 uncommitted or unwilling to disclose their position.

At his home near Tallahassee, Carswell watched television reports of the Senate action but he declined comment pending the Wednesday confirmation vote.

Opponents picked up a key vote when another Southern Democrat, Sen. William B.

## Cattle Testing Rules Revised

AUSTIN (AP) — The Animal Health Commission revised its rules for tuberculosis testing of Mexican cattle by telephone without consulting him, a commission member complained Monday.

R. W. Hodge of Del Rio said he never saw the proclamation, issued after a court order, until Monday's meeting.

The proclamation exempts steers and spayed heifers from tuberculosis testing after they are imported from Mexico. Before it was issued March 26, over Gov. Preston Smith's signature, commission rules required such testing of all cattle.

Dist. Judge Herman Jones issued an order March 18 requiring the commission to obey its own rules after milk producers complained that steers and unspayed heifers weren't being inspected.

Sources said the milk producers felt the commission was inadequately inspecting all cattle from Mexico for tuberculosis and used the suit to demonstrate their power to the commission.

The rules were then re-written to reflect the commission's desire not to inspect neutered cattle.

Word also came from Sen. Albert Gore, D-Tenn., after he voted for Bayh's recommitment motion, that he will vote against confirmation.

But another senator who had not previously disclosed his stand, James B. Pearson, R-Kan., said he will vote for confirmation. He voted against recommitment.

Sen. Roman L. Hruska, R-Neb., floor manager for the nomination, hailed the defeat of Bayh's motion as forecasting Carswell's confirmation.

He construed it as rejection of what he termed "the unfair, irresponsible and unfounded charges which have been made against Judge Carswell."

## Almost Ideal Marks Posted

By The Associated Press

Texas basked in another serving of almost ideal spring weather today.

Except for a small area of high clouds over the southwest part of the state, skies were generally clear this morning. Occasional patches of fog appeared near the coast and around Alice in extreme South Texas.

It was a bit cool in the Panhandle, where temperatures near dawn sank to 37 degrees at Dalhart. Readings were in the 40s to 50s through other sections, staying as high as 59 at Brownsville.

These marks compared with highs Monday afternoon ranging from 69 at Galveston up to 84 at Dallas.

Aside from a little cooling Wednesday in Northwest Texas and the chance of a few showers in the south central and southeast sections, little change was predicted.

## Myth Of Neutralism

The recent overthrow of Cambodia's Prince Norodom Sihanouk has done at least one thing: It has destroyed the myth of neutralism in Southeast Asia.

Ever since the Geneva accords of 1962, which provided for the neutralism of Laos and Cambodia, neutralism has had an uneasy life. North Vietnam supported the Pathet Lao in Laos, and the United States supported the Vientiane regime through the CIA. In Cambodia, wily Prince Sihanouk tried to buy neutralism by winking at the use of

a part of his country for the movement of North Vietnamese troops and supplies into South Vietnam. He also tried to play Hanoi against Peking and Moscow.

Now in exile, alternatively in Moscow and Peking, Prince Sihanouk has begun his bid for a return to power. The result will almost inevitably be a civil war. North Vietnam could end up with control of Laos and Cambodia, a nationalist dream of centuries.

So much for neutralism in a bitterly divided world.

## Test On Fundamental Question

Before too long, perhaps within the next two years, the Supreme Court of the United States will be asked to answer an apparently simple question: Does the individual have a legal right to pure air, clean rivers and unpolluted beaches? The question is fundamental.

A Wall Street Journal survey indicates that scores of suits have been filed recently by conservation organizations, irate individuals and public officials "determined to establish the right of everybody to pollution-free surroundings." They range from a \$2 billion suit against copper smelters in Arizona, for injurious smoke emissions and impairing the natural beauty of the countryside, to the Justice Department's suit against Florida Power Co. for thermal pollution of Biscayne Bay.

Most of the suits are against cor-

porations. One of the major polluters of waters, municipal sewage plants, has so far escaped suits, but they may be next. (The Texas Water Quality Board, for instance, is threatening the City of Galveston with court action and possible penalties of \$1,000 a day if it does not cease pumping untreated sewage into Galveston Bay.)

The suits ride a rising tide of public concern over the defilement of our environment. Concerned corporations are making valiant efforts to abate pollution, but a combination of outmoded plants or processes and the infant state of pollution control technology hampers their work.

Court action and legislation may combine to see that our children will suffer much less from air and water pollution than this generation, unless the rising population nullifies our efforts. There is hope, then, for tomorrow. But we cannot relax.

## Marquis Childs Golda Meir On Israel's Struggle

**JERUSALEM —** In the judgment of Israel's Prime Minister, Mrs. Golda Meir, two-power talks or four-power talks on the conflict in the Middle East are entirely futile. They may even be harmful in that they relieve the Arab leaders of any responsibility for finding a way to peace, encouraging them in the belief that they can get everything they sought in war through a settlement dictated by the Western powers.

**IN A FAR-RANGING** interview this extraordinary woman who was born Golda Mabovitch 72 years ago in Kiev, Russia, discussed every aspect of her country's position in a threatening and often-hostile world. She has the look of a patient, kindly grandmother, smiling her gentle smile and responding unhesitatingly to all questions. But behind that look is the shrewd, penetrating knowledge of one who has been an active participant in every phase of Israel's struggle for nationhood.

"The United States wants peace that is fair to all," Mrs. Meir said. "But her partner in these talks is an enemy of Israel. Our desire for peace is not one iota less than that of Washington. But we cannot afford not to be realists and to forget what the facts and realities are."

Every time I pray in private I get tears in my eyes. This doesn't happen in public, just in private. Is it right for me to be so emotional?

L.L.T. Tears are a wonderful spiritual catharsis, David the Psalmist said: "A broken and contrite heart the Lord will not despise."

These are days of contrived emotion, in the theater, on TV, and on the stage. How wonderful that you have real emotion! No, there is nothing wrong with you. In fact, you may be one of the comparatively few normal people around. We are living in a day when emotion is discouraged in the church. Strange, that it is encouraged at the ballgame, in the theater and at the race track — but stifled in religion. Perhaps our lack of emotionalism is due to a reaction to the extreme emotionalism of some religious groups a few years ago. It was a sad day when we lost the joy, the laughter and the tears in our worship. The devil must have been happy about that.

Don't restrain your tears. Let them flow in repentance; let them flow in joy of sins forgiven. The Bible says that there will be emotion in heaven. It says: "There is more joy in heaven over one sinner that repenteth, than over ninety and nine just persons who need no repentance."

In the midst of an emotional generation on everything else, let your tears flow for God.

### How're We Going To Keep 'Em In Big Cities?

**NEW YORK (AP) —** The lure of cultural advantages, more money and even the command of the corporation isn't enough these days to cause young executives to move to some of America's largest cities.

Executive recruiters, the men who slyly and silently travel the country in search of talent, say they are meeting with increasing resistance when they attempt to sell executives on city life.

Said one who failed to deliver on an assignment to find a vice president, and who understandably prefers to remain anonymous, "Transfer to a big city used to be considered a mark of achievement; now it's more like a sentence."

Money once was the primary enticement. Advancement was another. Sometimes the company merely commanded its employe to take a promotion to the big city or else leave the firm. Today, some executives call the company's bluff.

"If times get tough and jobs harder to find," said R. James Lotz Jr., of Battalia, Lotz & Associates, "the negative factor of the big city may diminish. But this country hasn't seen tough times in a decade, and so perhaps executives may be changing permanently."

Said Lotz, "Once an executive gets to the point where he's living comfortably, life style and family values assume relative importance—even though he may have surpassed them on the way up."

Although urban problems cited by some reluctant executives apply to many big cities, New York appears to have become the symbol.

On a recent search where even the general area could not be mentioned in the initial contact, Lotz reports he lost half

the candidates when they found out it was New York.

Among the more commonly cited reasons: poor commuting, high taxes and living costs, the

### Rewards Of Directing

**NEW YORK (AP) —** William Wyler still takes a wistful pride in the \$60-a-month disability payment he gets from Uncle Sam for damage to his right eye while filming high altitude scenes as a combat photographer during World War II.

"It's a shame that only war and common danger bring out the best in men," he said.

But at 67 Wyler, a landmark Hollywood director and producer whose films have accounted for 40 Oscars and 140 Academy Award nominations, is still trying himself to bring out the best in men.

"It is my philosophy that a man should stand up for something," he said. "I like to make entertaining pictures, but I also get great satisfaction out of making a film that hopefully can contribute something to the improvement of our society."

Right now he is hopeful that his latest film, "The Liberation of L.B. Jones," a drama of lust and revenge, will help the plight of the Negro in the South.

A careful craftsman who takes two years or more to complete a picture, Wyler has been remarkably successful in turning out films that ring the cash register whether they are pure entertainments or also carry a message.

The director came to this country at the age of 18 from his native Alsace and started as a

film company clerk at 20 a week. By 1925 he was earning \$60 a week turning out two-reel westerns budgeted at \$2,000 each.

"His work since then has won him 13 personal Academy Award nominations and three Oscars. They were for directing "Mrs. Miniver," "The Best Years of Our Lives," and "Ben Hur." He has also won critical acclaim for such other films as "Wuthering Heights," "The Little Foxes," "Roman Holiday," "Detective Story," and "Funny Girl."

What are the chief requirements of directing?

"I'd say they are a knowledge of your craft and a passion for your subject," replied Wyler. "You have to have both. One alone is not enough."

"And that's a big problem. It isn't always easy to find a story or a subject that stirs a passion in you."

And what are the rewards of directing?

"Well, it is fascinating because there are no two days alike," he said. "And when you do something good, the rewards are tremendous."

"People remember what you've done for 20 years or more. That's very gratifying, when you consider that so many millions of people who do good work every day in other fields get only a slap on the back."

## Around The Rim

### Ye Olde Knee Slappers

"Have you heard the one about . . .?" Usually I have, and am sorry I did.

Has the day of decent, delightful joke passed into oblivion along with most other clean entertainment? Just asking. Maybe age not only entitles, but inclines, one to indulge in selectivity.

I LOVE A clever jest, applaud a well-turned phrase and am enthralled by a witty raconteur. What would life be without the merry gentlemen (and women) who dispense laughter for the ill of the world? Still, well, they say a woman's way is to think sex is fun — but never funny.

Tell you what. Are you tired of the double entendre? Bored with bedroom stories? Disgusted with plain dirt? Try these spottish little goodies from the 1970 Farmer's Almanac:

"Dad, I'm in love with a girl."

"Son, you couldn't have made a better choice."

"WELL," snarled the tough old sergeant to the private. "I suppose after you get discharged from the Army you'll just be waiting for me to die so you can come and spit on my grave."

"Not me, Sarge," the GI assured him. "Once I get out of this Army I ain't never going to stand in line again!"

Two hippies in dark glasses and long hair were strolling down an avenue when one of them happened to look up. "What's that?" he asked his companion. "The sun or the moon?"

"Don't ask me, man," said the other. "I don't live in this neighborhood."

**SAID THE GOLFER:** "You must be the worst caddy in the world." Caddy: "Hardly, sir. That would be too much of a coincidence."

"My father can whip your father." "Big deal. So can my mother."

This is his second marriage. He's been unlucky in both — his first wife left him and this one won't.

**SIGN:** In the event of atomic attack, the federal ruling against prayer in this school is temporarily suspended.

The professor stepped up on the platform, and by way of breaking the ice, he remarked: "I've just been asked to come up here and say something funny."

At this point, a student heckler in the back of the hall called out: "You'll tell us when you say it, won't you?"

The professor answered: "I'll tell you. The others will know."

A WILDLY excited man ran into the police station shouting, "I need help! A man just stole my car!" "Did you see him?" asked the desk officer. "No, but I got the license number as he pulled away."

**THE CHICKEN FARMER** was losing a lot of his flock and wrote to the Department of Agriculture: "Gentlemen: Something is wrong with my chickens. Every morning when I come out, I find two or three lying on the ground cold and stiff with their feet in the air. Can you tell me what is the matter?"

Eight weeks later he received this letter from Washington: "Dear Sir: Your chickens are dead." —JO BRIGHT

### Throwing Out The First Baseball

**WASHINGTON —** One of the most unfortunate aspects of the Justice Carswell nomination fight is that it has clouded the constitutional issues on who has the right to throw out the first ball at the Washington Senators' opening baseball game.

Originally, President Nixon was going to throw out the first ball. But he decided that because of the press of Supreme Court business, he would designate the task to his Vice President, Spiro Agnew.

**BUT, THEN,** Republican Sen. Robert Griffin of Michigan at the last minute pleaded with the President to allow the Vice President to be in the Senate for the vote on Carswell and suggested that the President throw out the ball instead.

This angered the President because he felt that he was being challenged on his right to select someone of his own choice to throw out the baseball. He wrote a letter to Sen. William Saxbe of Ohio challenging anyone in the Senate to question the President's choice as to the opening day ball-thrower.

**THE QUESTION** the President raised is what power does the executive branch have over the legislative branch on the opening day of baseball?

Our Founding Fathers, back in 1776, were well aware that this problem would crop up time and time again in our future history, and so after some bitter and acrimonious debate, they spelled out in the Constitution who would replace the President at the Washington Senators' ball park.

**THE ARTICLE** in the Constitution reads as follows: "If for any reason

the President of the United States is unable to throw out the first baseball on the opening day of the season, and his Vice President is required on Capitol Hill, the President may designate another nominee with the advise and consent of the Senate.

"The Senate may only question the President's choice if it feels the President's nominee is not able to get the ball from the stands to the infield. If more than two nominees are rejected by the Senate, then the Speaker of the House must throw out the first ball."

It is interesting to note that on many occasions the Senate has rejected presidential nominations for hurling out the first ball.

**THE SENATE** has turned down the nominees of Presidents Washington, Madison, John Q. Adams, Tyler, Fillmore, Buchanan, Grant, Hayes, Cleveland and Johnson. In each case the Presidents had asked their sons-in-law to fill in for them.

The opponents of President Nixon's choice for throwing out the ball have claimed that the President's nominee is at the most a very mediocre ball player who was only selected because he was a southpaw. This, the opponents say, was nothing more than an attempt to appease the South.

**WHILE THE BASEBALL** league has given Nixon's choice a "qualified" rating for the job, managers and coaches of baseball teams all over the country have expressed their concern that the person President Nixon selected to throw the first ball did not measure up to the great pitching arms of Presidents Harding, Hoover and Polk.

### The Ted Kennedy Wound Reopened

**WASHINGTON —** Politics not only puts odd couples in bed. In its shortsighted fashion it also is too quick to call defeat by victory's name. The reopening of Teddy Kennedy's Chappaquiddick tragedy by a Massachusetts grand jury is a case in point.

Last October, the youthful Senator won his fight for a closed inquiry into the accident last July 18 in which Mary Jo Kopechne was killed when a car driven by Kennedy plunged off a bridge on Chappaquiddick Island. As some of his advisers warned at the time, this victory has turned out to be the biggest single inconvenience to the Senator's bid for re-election next November.

**IT IS ALMOST** as if Kennedy's Republican enemy planned it that way. For no matter what the grand jury finds, its well-publicized deliberations already have reopened the wound. Indeed, the jury could conclude that it was all Mary Jo's fault, and the way would remain open for a campaign of carefully conducted innuendo against the last Kennedy brother. From Kennedy's point of view, the tragedy is that the case again has made headlines at approximately mid-point in the campaign year.

**KENNEDY'S** tactical error was that he rejected the opportunity to get it over and done with — either in the weeks following the accident or at the time of the inquiry. He was advised to do so by three of the late President Kennedy's shrewd advisers — former Defense Secretary Robert McNamara, Arthur Schlesinger Jr., and Ted Sorensen. It was better, they said, to dispose of the matter in 1969 than to drag it into the campaign year 1970.

**IN AFFECTIONATE** Massachusetts, Kennedy probably could be re-elected if he were charged with high treason on election eve. But his delaying tactics have exposed him to a whispering campaign of pharisaical smear.

Unexpectedly, perhaps, the GOP has an ally in the tragic figure of Mrs. Joseph Kopechne, Mary Jo's mother. Of the grand jury investigation, she said she was "glad they're going to bring it out. Some things go through my mind . . . and I'd like to know if some of them have been answered." Moreover, she noted that she and her husband had been barred from the inquest, and added, "I know the public is interested and I'm more interested than the public."

**OF HER POIGNANT** comments, it surely can be said that few will challenge a mother's right to learn what happened to her dead daughter. There is a reasonableness in her comment that "We have been waiting patiently to find out what took place at the inquest."

Nationally, the Republican hierarchy now believes it can make political hay against Kennedy with prudent and continuing references to Chappaquiddick behind — as it were — country club doors. But the bosses' hopes for victory are not high. Kennedy's Republican opponent, Josiah Spaulding, is a thoroughly decent man, and a technician who learned the ropes as state GOP chairman. But he is a lousy candidate in the "Who dat?" class.

**BUT THE** campaign against Teddy will be escalated. If Spaulding is too virtuous to resort to sly gimmickry, the back rooms are full of guys eager and able to sketch the issues with a black brush.

# NSA Chapter Hosts Secretaries Seminar

Registration numbered almost 75 for the "Interpersonal Communications Skills" seminar held Saturday at Big Spring Country Club under the sponsorship of the Big Spring Chapter, National Secretaries Association. Mrs. Frank Long, chairman, presided, and welcomed the attendees. Mayor Arnold Marshall and Mrs. Jerry Callahan, chapter president, were also present. The program, stressing a goal of betterment through continuing education, featured guest speakers, a style show luncheon and exhibits by several business machine companies. Dan Shockey, head of the drama department at Howard County Junior College, was the morning speaker, discussing problems in communication. "Effective communication can be accomplished orally, by gestures, a look, silence or by writing," said Shockey, noting that breakdowns in communication are either physical, emotional or psychological. Several skits regarding communications were presented by members of the Hawk Players, including Teresa Conner, Barbara Todd, Carl Van Vleet, and Rowan Settles. LISTENING "Effective Communication Through Effective Listening" was presented by Jack E. Teague, a management trainer for the Air Force. He pointed out that listening and reading are the primary ways by which people learn, noting that a good listener stops talking, looks at the speaker, gets rid of distractions, strives for empathy and avoids jumping to conclusions. He concluded by saying that the listening skill diminishes as a child progresses through the education levels. Tests show that 90 per cent of first graders are listening, but by high school age it was down to 28 per cent. "Let the Sunshine In" was the theme of the style show luncheon arranged by Mrs. Camille Patterson. Mrs. Herbert Heath, assisted by Mrs. Roberta Shive, was commentator, and fashions were from Swartz. Models were Mrs. David Mott, Mrs. Michael Rega, Mrs. W. D. R. Lund, Mrs. Harold T. Boe and Mrs. Larry McLain. Piano background was by Mrs. J. L. Ryals, and several popular songs were sung by Sgt. William J. Cardoza Jr. who accompanied himself on the guitar. The first afternoon speaker was Mrs. Lund, a former airline stewardess, now a teacher and president of Oasis Garden Club. She is a past president of the Officers Wives Club. In summation, Mrs. Lund said that all people possess emotions of fear, love and rage, so it is advisable to think before speaking. To be a leader, she said one must recognize his talents and shortcomings.

## Jack White Discusses Safety Tips For Women

Defensive and precautionary measures that women can use for self-defense were discussed by Officer Jack White, Texas Department of Public Safety, at the Monday meeting of the 1941 Study Club of Coahoma. Mrs. Ray Swann was hostess with Mrs. Wendell Shive as cohostess. When driving alone a woman should keep the car doors locked, he said. In the home she should keep doors locked and curtains closed. If someone appears to be following you, don't stop, but try to get the license plate numbers, he advised. If traveling alone, don't have obvious signs, such as suitcases, in the car. Conceal luggage in the trunk. Mrs. W. A. Wilson, president, announced that \$241 was collected by members last week for the Cancer Crusade. Mrs. Lawrence Davis was welcomed as a new member. A family outing was planned for April 18 at the home of Mrs. Trevor Crawford. The next meeting will be May 4 in the home of Mrs. Jack Cauble.

## Leaders Elected By Salad Mixers

Leaders were elected Monday by the TOPS Salad Mixers who met in Knott Community Center. Mrs. Robert Nichols is the leader with Mrs. John Couch as co-leader. Mrs. Odie Petty won the weekly fruit basket for the most weight lost. The next meeting will be Monday with 4-H Club members giving a program of method demonstrations.

## A LOVELIER YOU Spring Time Calls For Pale, Romantic Colors

By MARY SUE MILLER A Lovely asks: What makeup shades look prettiest on a spring evening with a long, floating dress? The bronzy stuff I wear in the daytime looks too outdoorsy at night. I do not wish to appear anemic. Just less of a "champ" and more of a charmer. The Answer: Every Lovely who is in tune with the tender skies and stars of spring envisions a tender kind of look for herself. Worn up and tendriled, hair graces her fragile complexion. Why she has the coloring of Victorian porcelain. Yes, but just how does she get it? She might begin with a foam foundation and foam blusher — sheer beige for the foundation and soft rose for the blusher. The combination blends in every light to give the skin a delicate, transparent tone. Eye allure develops with a dusting of iced shadow powder on the lids in a grayed amethyst tone; of charcoal mascara tipped on to spidery lashes. Pale skin and smoky eyes want a flash of lipstick the color of bright pinks in a garden or red poppies in a field. Glossed with a little nothing of a lip gloss — a complete see-through

— the lip color glistens like spring dew. Carried out with a deft hand, the makeup makes of you a marvelous kind of champ — a champion charmer.

## Program On 'Thought' Is Presented

A program, "Thought," was presented by Mrs. Gerald Wooten and Mrs. Robert Von Rosenberg at the Mu Zeta Chapter of Beta Sigma Phi meeting Monday. Mrs. Jack Hopper, Silver Heels, was hostess with Mrs. Tom Rutledge as cohostess. "Thought is the process by which man becomes aware," Mrs. Wooten said. She described the effects of emotions and imagination on one's individual thoughts. Mrs. Von Rosenberg showed members various objects and asked them to write their first impression of what the objects meant to them.

Mu Zeta will meet Thursday in the home of Mrs. Owen Wormser to plan decorations for the Founder's Day Banquet April 30 at Big Spring Country Club. The next regular meeting will be April 20 with Mrs. Jerry Foust and Mrs. Jerry Kilgore as hostesses.

## Pythians Change Meeting Time

Mrs. A. F. Hill, most excellent chief, presided at Sterling Temple 43, Pythian Sisters, meeting Monday in Castle Hall. She announced that meetings would begin at 8 p.m. until October, when the time would be 7:30 p.m.

The official visit of Mrs. A. L. Weatherford, Pampa, grand chief, was announced for Aug. 3. Mrs. Doyle Vaughn won the silver drill, and Mrs. Al Bagwell won the capsule prize. Members made plans to attend the District 5 convention in Weatherford, April 18. Mrs. L. D. Chrane will be hostess at the next meeting April 20. Plans were also discussed to take a drill team to the Grand Temple meeting in Lubbock in June.

MRS. JOHN RAINS

## Named To PBX Slate

Mrs. John Rains, Big Spring, has been elected treasurer of the Texas PBX Association which concluded its convention in Austin Saturday.

Other officers named were Jean Croucher, Houston, president; Gladys Butler, Odessa, vice president; Evelyn Johnson, Houston, secretary. Mrs. Rains, state chaplain during the past year, conducted memorial services for the meeting.

A highlight of the convention which started last Thursday at the Commodore Perry Hotel was the installation banquet Saturday, emceed by Crawford Martin, attorney general, and addressed by Leonard Passmore, counsel and secretary for the Texas Bankers Association.

The boss of the year was Jim Cook, cashier of the Republic National Bank, Dallas, and the operator of the year was Jimmie Fischer, Sunray DX at Midland. Each of the local clubs had entered nominations.

The meeting included workshops conducted by Southwestern Bell Telephone and led by Mrs. Croucher and Miss Verdine Mize, Midland.

Mrs. Alice Willeford, Fort Worth, a past president, conducted the installation, and June Blanchard, retiring president, presided. A featured guest was Hilda Christensen, Los Angeles, Calif., international president.

Attending from here were Mrs. John Ray (Malone-Hogan), local president; Mrs. Fern Smith (Webb AFB), Mrs. C. H. Cox (Cowper) and Mrs. W. Hedges of Amherst.

PTA INSTRUCTOR—Mrs. Wiley Alexander of Amarillo, vice president of Region One, Texas Congress of Parents and Teachers, will conduct a school of instruction for all PTA officials and chairmen Wednesday in the First Federal Community Room. Hours will be from 8:45 a.m. to 2:30 p.m. with a break for lunch at noon. Everyone interested in PTA work is invited to attend. Mrs. Alexander has held PTA offices on the local, council, district and state levels besides being active in a number of other organizations. She is currently state chairman for Safety and Disaster Defense.

## Howard County 4-H'ers Do Well In Food Show

Howard County 4-H Club girls did well in the District Two Food Show, "A World of Foods," held Saturday on the campus of Texas Tech University in Lubbock. One hundred and thirty-four girls participated in the show, representing 19 counties in the district. All eight Howard County girls scored above 90 on their exhibit.

The girls who represented Howard County, along with their placings, are as follows: Joan Crawford, senior fruit and vegetable group, was named winner in her group. She was awarded a silver bowl and is eligible to enter the state food show at College Station in June. First prize at the state show is a \$500 scholarship.

Phyllis Wynn, senior milk group, was recognized as second place in her group, and was awarded a blue ribbon.

Carla Perry, senior bread group, was named as second place in her group, and was awarded a blue ribbon. Debra Buchanan, senior meat group, was awarded a blue ribbon for her entry.

Kayla Gaskins, junior fruit and vegetable group, was named winner in her group. She received a recipe book. Junior contests do not go beyond district. Patty Peugh, junior meat group, was the winner in her group and was awarded a recipe book. Kaye Hunt, junior milk group, placed second in her group, and received a blue ribbon. Tricia Jackson, junior bread group, placed second in her group, and received a blue ribbon. Among those attending from Howard County were Mrs. Phil Wynn, Linda Biesle, Dennis Mays, Mrs. Jack Buchanan, Mrs. Sam Buchanan, Daria Buchanan, Mrs. B. W. ## Ambassadors In Guatemala Hint Exodus

GUATEMALA (AP) — Guatemala is threatened with an exodus of ambassadors in the wake of the terrorist slaying of Count Karl von Spreti, the West German envoy.

Msgr. Gerolamo Prigione, the papal nuncio and dean of the diplomatic corps, said Monday night that nearly 70 per cent of the ambassadors "have said they are seriously considering asking their governments to reassign them or withdraw them from Guatemala."

Von Spreti was kidnapped last Tuesday by four members of the anti-government Rebel Armed Forces, or FAR, and was found shot to death Sunday night in a mud hut outside Guatemala City. The government had refused to meet the kidnapers' demands for the release of 22 jailed FAR members and \$700,000 in ransom money.

The West German government in retaliation announced it would withdraw the rest of its embassy staff and indicated Guatemala's ambassador to West Germany, Antonio Gandara, was no longer welcome in Bonn.

An army spokesman said special protection was being given to all ambassadors.

The army continued its search for Von Spreti's abductors, patrolling streets and making house-to-house searches under the 30-day state of siege declared by President Julio Cesar Mendez Montenegro following the kidnapping. But there was no indication that the arrest of the kidnapers was near.

Countess von Spreti spent Monday at the funeral home beside her 63-year-old husband's body, which lay in a cedar casket surrounded by huge wreaths.

The body was to be transferred today to the National Palace to lie in state there until it is returned to West Germany.

Mendez Montenegro declared three days of national mourning and wrote West German Chancellor Willy Brandt that his government had done everything it could to achieve the ambassador's release. The government would violate the constitution.

Brandt, visiting the United States, said earlier that the Guatemalan government had shown itself "unable to give accredited diplomatic representatives the necessary security."

He and President Nixon planned to discuss possible ways of dealing with international terrorism when they meet in Washington later this week.

**RELATE THEIR EXPERIENCES** — Glenn S. (Steve) Hoag and his wife tell of their experiences with Jack Wright Twining, a suspect in the slaying of four California Highway Patrol officers who had taken refuge in their home near Saugus, Calif., early Monday. Mrs. Hoag and her 17-year-old son, Jeffrey, managed to get away from the home shortly after the suspect arrived, but Hoag was held hostage for about six hours before he was released unharmed. Twining killed himself about an hour after Hoag's release.

## Minor Car Wreck Led To 12 Hours Of Gunfire

SAUGUS, Calif. (AP) — Police said today a minor car collision led to 12 hours of gunfire which left four highway patrolmen and another man shot to death.

Recovering in a hospital from a pistol wound in the chest was a 28-year-old man identified by police as one of the two principals in the lengthy shootout. The second man was dead, of an apparent self-inflicted shotgun blast in the head.

The wounded man was booked for investigation of murder under the name Russell Lowell Talbert, 28, of Winston-Salem, N.C., the name on identification papers he had on his person.

Winston-Salem police said, however, that a man of the same name in that city had reported his identification papers stolen in a burglary at his home. The FBI was asked to check the wounded man's fingerprints.

The police reconstruction of the events which ended with five men dead went like this:

Two officers in a highway patrol car received a complaint from a motorist that two men in a car pointed a shotgun at him after a collision on Interstate 5 Freeway about 35 miles north of Los Angeles.

The patrol car chased the two men and spotted their car parked outside a coffee shop here. The occupants of the car shot them down.

Another patrol car pulled up and also came under fire. One of the two officers in this car was killed immediately. His partner held off the gunmen for five minutes before falling mortally wounded.

The two men fled in their car but abandoned it when the tires went flat on a dead end street. They took to the surrounding hills.

One man, identified by police as Jack W. Twining, 35, of Winston-Salem, took refuge in the home of Glenn S. Hoag but released him unharmed after a five-hour police siege. When police charged the house with tear gas grenades a shotgun blast rang out and the man fell dead — he "blew his head off," one deputy said.

Meanwhile the second man had exchanged shots with Dan Schwartz, 40, of Chicago, who was in a camper truck. Although wounded, the man fled in the vehicle. He was arrested a short distance away and taken to the hospital.

The dead highway patrolmen were Roger D. Gore and Walter C. Frago, both 23, George M. Ayley, 24, and James E. Pence Jr., 25. They left four widows and seven children.

Flags flew at half staff in the

## Funds To Probe Pollution On Texas Coast Held Up

AUSTIN (AP) — Texas' water pollution investigators plan to turn their attention to the Gulf Coast, but their efforts could be stalled by the Nixon administration's "penny pinching tactics," says the chairman of the state Water Quality Board.

Gordon Fulcher said Congress had approved \$250,000 for a study of Galveston Bay, but the new commissioner for the Federal Water Pollution Control Administration had refused to release it.

Fulcher said Nixon talks big about fighting pollution. "Fulcher said, 'but he lets David Dominick (the commissioner) hold back the funds we need to get moving.'"

The bay study proposal is based on the idea that complete scientific data is needed before spending vast sums of money for improved treatment facilities.

Fulcher said Operation Clean Sweep has covered the Sulphur,

## Green Berets Doc Linked To Murders

FT. BRAGG, N.C. (AP) — The Army says a doctor in its elite Green Berets is being "questioned as a suspect" in the slaying of his wife and two young daughters seven weeks ago.

The doctor, Capt. Jeffrey R. MacDonald, 26, of Patchogue, New York, had said that a hippie-like band of a girl and three men had killed the other members of his family in their Army post apartment and wounded him.

Army authorities said Monday they had advised Capt. MacDonald of his right to obtain legal counsel and to remain silent.

An Army spokesman said the captain had not been charged, but was confined to his quarters and could visit mess halls and other facilities only under escort.

He was relieved of his duties in the preventive medicine section at Ft. Bragg, home of the Green Beret Special Forces and the 82nd Airborne Division.

MacDonald has been in the Army since June 20, 1969.

The bodies of MacDonald's wife, Coleen, also 26, and their daughters, Kimberly, 6, and Kristen, 2, were found before dawn Feb. 17 when military police responded to his telephone call for help.

MacDonald, who had been stabbed several times in the chest, lay next to the body of his wife in the master bedroom. The children were found in separate beds in other rooms.

Authorities said the word "Pig" had been scrawled in blood on the headboard of the master bed.

UPSET MOTHER  
DEAR MOTHER: First, sucking on a pacifier will do your child no harm. But denying him the pleasure, comfort and security he obviously needs and derives from it can do him a great deal of harm. Let him have his pacifier as long as he wants it. And if you doubt the soundness of this advice, ask your pediatrician.

DEAR ABBY: It has been a long time since I wrote to tell you that I was a compulsive gambler who had lost a fortune in time, money and self-respect. I also told you that I have written bad checks, embezzled money, served time, and lost my family. Not to mention one attempted suicide.

I just want to thank you again for recommending Gamblers

Dear Abby: I am a school teacher who has been happily married for three years. We are expecting our first child, but that's not my problem.

Last summer my husband and I joined a nudist club and spent our vacation at their camp. I wasn't for it at first, but went to please my husband, and I must admit that the people there were the friendliest I had ever met.

Well, my husband wants to go again this summer, but I don't care to go.

Should I force myself to go just to please my husband? Or should I follow my feelings and ask my husband to go somewhere else this summer?

FEELING GUILTY  
DEAR FEELING: Follow your feelings, and don't feel guilty.

DEAR ABBY: I have a terrible problem. My beautiful 2½-year-old son is spoiled rotten. He still sucks a pacifier. I have tried everything from putting hot sauce to castor oil on it to make it taste bad, but he still asks for it again and again.

I am expecting another baby soon and I would like to have my 2½-year-old off that ugly pacifier by then. He wants it most at night and I'm determined not to give it to him but he keeps crying until I finally give in. I think he's much too old to be sucking that thing.

Please help me. It's about to drive me nuts!

DEAR ABBY: I joined them and have not gambled since — and it's been three years! I still go to meetings and give strength and hope to others who were in the same shape as I was. I've met doctors, lawyers, cab drivers, school teachers, bartenders, millionaires and bell boys who couldn't resist betting on anything from the roll of the dice to the horses.

Thanks again, Abby, and God bless you in your work.

"STILL FIGHTING"  
DEAR STILL: I'm not a betting woman, but I'll gamble on you! And if others want information about GAMBLERS ANONYMOUS, write to their home office: P.O. Box No. 17173, Los Angeles, Calif. 90017.

For Abby's new booklet, "What Teenagers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Calif. 90069.

## MAVERICK. \$1995\*...it's a little gas.

\*Ford's suggested retail price for the base Maverick model. White sidewall tires are not included. They are \$30 extra. Since dealer preparation charges (if any), transportation charges and state and local taxes vary, they are not included, nor is extra equipment that is specially required by state laws.

Our little Maverick is America's best selling small car. The reason is simple—solid value. Maverick is simple to drive. Turn on the engine and you turn loose the power of 105 horses. Yet Maverick rivals the economy imports in gas mileage. Simple to park. Maverick can U-turn in a tighter circle than the leading import. Simple to service. Maverick requires fewer oil changes, fewer chassis lubrications. You save time and money. Simple to repair. The Maverick Owner's Manual has 24 pages of instruction for routine maintenance jobs you can do yourself. Simple to own. Save right from the start—the Simple Machine is your Ford Dealer's lowest priced car.

## For a little more...it's a GRABBER!

The new Maverick Grabber has all the same features as our Simple Machine but we've added an extra sporty flare to it. Here's what Grabber gives you: ① Racy bodyside tape stripes, choice of five hot Grabber colors, 14-in. whitewall tires and wheel trim rings. High excitement, yes. High price, no. ② 200 CID Six and 3-speed fully synchronized manual transmission. Lots of pep, but not hard to tune. Grabber adds to your fun, not your mechanical problems. ③ Dual racing mirrors. But no high "muscle car" insurance rates. ④ Three-spoke woodgrained steering wheel just like the racing cars. But no hard, stiff ride. Grabber's sprung for comfort, not for the track. ⑤ Black-painted hood and grille. Grabber puts on a great front, but maintenance costs are low. Service is fast and simple. With lots you can do yourself. ⑥ Rear deck-lid spoiler. Even an economy car can dream, can't it?

**UNUSUAL ART**—Merrill Ellis, director of electronic music composition laboratory at North Texas State University, is shown at the electronic synthesizer. He will present a program Friday at 9:35 a.m. in the Howard County Junior College Auditorium.

## Special Assembly At HCJC To Feature An Unique Art

A special assembly program featuring the electronic synthesizer will be presented Friday from 9:45-10:35 a.m. in the Howard County Junior College auditorium. Merrill Ellis, teacher of composition and director of the Electronic Music Composition Laboratory

at North Texas State University, will direct the program.

Ellis explains that the work starts as a regular concert piece, and gradually a metamorphosis takes place during which the audience is totally surrounded by sound, light and images. The state of the art of music seems to be extended to include all of the senses, not just the ears alone.

This instrumental performance on the electronic synthesizer has been presented

with the Dallas Symphony Orchestra and college symphony orchestras throughout the country.

Ellis is in charge of a Faculty Research Grant "to improve, expand, and operate the newly established electronic music composition laboratory for the study and development of techniques of composing from electronic sound sources."

The public is invited to the assembly program. There is no admission charge.

## Printers Increase Pressure

NEW YORK (AP) — Union printers today increased their economic pressure on the New York Times in newspaper contract negotiations by lengthening the duration of chapel meetings to four hours on each shift.

The development came after mediator Theodore W. Kheel warned Monday of a possible newspaper shutdown unless the city's four major daily newspapers and 10 unions were broken by the weekend.

Members of the 10 unions have been working without contracts for a week but only the printers have taken any job action. They are considered the key to a settlement with the Times, the New York Post, the Daily News and the Long Island Press.

Since the contract expiration, the printers had been stopping work at the Times for about three hours each shift to hold chapel meetings. The union said the tactic was aimed at reducing the amount of advertising copy set.

Arthur Ochs Sulzberger, publisher of The Times, said last week the newspaper would continue to publish as long as it could maintain acceptable standards of both news coverage and advertising representation.

Kheel told the Monday news conference that he was "distressed with the course of negotiations between the printers and the publishers," noting that several weeks of daily talks had passed "without any significant progress."

Sidney Gruson, assistant to Sulzberger, commented later: "The statement of Mr. Kheel speaks for itself. We hope that we can settle even before Saturday. We are ready for meaningful and serious negotiations at any time. We still trust that there will be no cause to close The New York Times."

If the Times closed, the shutdown would probably spread to the other three papers, affecting all 13,000 members of the 10 unions involved.

The publishers offered a 16.5 per cent pay increase over three years and the unions rejected the package. Kheel declined to discuss details of the negotiations but said that money issues were of "major, very major importance."

Conducted quarterly, the clinic is free for crippled children of the South Plains area. Four orthopedic surgeons and the sponsors of the clinic, the Fellowship Class of St. John's United Methodist Church, will supervise activities.

# Think you can't afford an Olds? Here are two reasons to think again!

Our own surveys indicate that quite a few people think an Olds costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money.

It's so unnecessary, too, because Oldsmobile has many models that are priced right down with so-called low-priced cars. See your Olds dealer. He'll prove that you're closer to Olds than you think.

Opening lead: King of ♠. North was reluctant to settle for what he feared might be a negligible profit by doubling West's pre-emptive four spade overcall. Had he done so, the deal would have been a washout, for the 100 honors wipes out the one trick deficit that West would have incurred.

When North raised his partner to five hearts, instead, East doubled in the expectation that his trump holding and the ace of diamonds together with one trick from partner—would be sufficient to defeat the opponents.

West opened the king of spades and East began a high-low by playing the six. West continued with the queen, North ruffed with the four of hearts and East followed with the five of spades. It appeared to South that

his right hand opponent must hold all of the missing trumps to have any signs of a double, in which case it would be quite a task to do East out of a heart trick. As an initial step, declarer led the seven of hearts from dummy. East covered with the eight, South put up the jack and West showed out.

The queen of diamonds was led. East played the ace and returned a club which was won in dummy with the king. The king of diamonds was cashed and a small diamond ruffed in the closed hand with the three of hearts as both opponents followed suit. Next came the ace of clubs and the jack which was overtaken by North's king to produce the following four card position:

A diamond was led from dummy and in order to prevent declarer from scoring a cheap overruff, East trumped in with the nine of hearts. South topped this with the queen and then led the jack of spades, trumping in dummy with the ace of hearts as East helplessly undertrumped with the deuce.

On the diamond return, East's 10-5 of hearts were trapped under declarer's K-6, and the defender's apparently sure trump trick had vanished into thin air.

# Lolich Paralyzes Washington Power

By The Associated Press

A Nixon and Eisenhower graced the Washington routing section. Ted Williams barked encouragement from the dugout and a micro-skirted cutie hugged Frank Howard at home plate.

With that kind of support, how could the Senators miss? Detroit's Mickey Lolich had the answer, but he was keeping it a secret Monday after taming the Senators 5-0 in the American League's traditional season opener...

**HAD NEW PITCH** "I worked on a new pitch and I threw it a lot today," said the Tigers' stocky left-hander, who scattered seven hits and struck out 10 in a rain-delayed, three hours and 43 minutes marathon. "I call it the classified pitch."

Pressed for elaboration, he said: "I refuse to answer on the grounds the hitters may incriminate me."

While Lolich, subbing for suspended Tiger ace Denny McLain, was pinning Washington with its eighth straight opening day loss, Cincinnati gave new Manager Sparky Anderson a solid sendoff by trimming Montreal 5-1, behind southpaw Jim Merritt's three-hitter in the National League opener.

"I just sat on the bench and enjoyed a nice relaxed time," Anderson said after watching Merritt hold the Expos hitless for 6 1-3 innings and the Reds' Lee May, Bob Toland and rookie Bernie Carbo rock Montreal's Joe Sparrma for fourth inning home runs.

All the other clubs were set to play today, with the exception of the St. Louis Cardinals, who open Wednesday at Montreal.

**ASTROS ON ROAD** Tom Seaver got the starting call for the world champion New York Mets at Pittsburgh against the Pirates' Steve Blass, Baltimore's American League defender opened at Cleveland, and Dave McNally pitching against the Indians' Sudden

**IN HIS WINDUP** — David Eisenhower leans back in his windup for the opening pitch of first baseball game of the season. He substituted for his father-in-law, President Nixon, and watched the Detroit Tigers beat the Washington Senators, 5-0.

Sam McDowell. The Chicago Cubs were at Philadelphia, Atlanta at San Diego, Houston at San Francisco and Cincinnati at Los Angeles in other NL action.

Milwaukee's new American League club, the Seattle Pilots, entertained California while Oakland was at Kansas City, Minnesota at the Chicago White Sox, Boston at the New York Yankees and Detroit at Washington.

With Nixon detained at the White House because of a key Senate vote on the Supreme Court nomination of Judge G. Harrod Carswell and Vice President Agnew also unavailable, young Eisenhower was assigned to throw out the first ball.

After a 55-minute rain delay, the President's son-in-law flipped a blooper from his box seat to the first base line, where Senators' outfielder Hank Allen made the catch. Allen also caught Nixon's first toss a year ago.

When Howard came to bat in the bottom of the first, Morgan Roberts, an exotic dancer, bolted from the stands and embraced the towering Washington slugger. She had made a similar unscheduled foray last summer at Atlanta, planting a kiss on the Braves' Cleve Boyer as he went to the plate.

Thus fortified, Howard grounded out. He and Ed Brinkman divided six of the Senators hits, but by the time Nixon arrived in the fifth inning, Lolich still was ahead 2-0.

At Cincinnati, a crowd of 30,124 saw Merritt stop the Expos cold until Rusty Staub tripled with one out in the seventh. Ron Fairly followed with a run-scoring single but Merritt allowed only one more the rest of the way.

## LOOKING 'EM OVER

With Tommy Hart

**HOUSTON** — If Richie Allen fits in as well at St. Louis as the management thinks the former knight errant of the New York Yankees, Joe Pepitone, has at Houston, then everything will be coming up roses for the Cardinals.

Pepitone was determined to make the transition from the American to the National League as smoothly as possible and, from all indications, he has succeeded.

He approached Spec Richardson, general manager of the Astros, immediately after arriving in the Houston spring training camp and asked him how much more he wanted him to donate to the wig factories.

Richardson allowed as how he didn't care if Joe wore his hair to his shoulders, if only he would deliver in the clutch occasionally for the Astros, who definitely needed someone to complement the power of Joe Wynn.

The New York press, notorious for blowing issues all out of proportion, had been so antagonistic in its treatment of Pepitone that Joe told confidants he had been thinking of getting out of baseball for the past three years.

The writers, some of whom act as if they do their spring training with the Cosa Nostra, apparently had never quite forgiven Pepitone for daring to take Mickey Mantle's place in the Yankee lineup. Mickey, of course, got somewhat of the same kind of roasting when he first went up because the magic of Joe DiMaggio was still fresh in the memories of the writers and the fans.

Mickey, in time, came to be revered by the working stiffs in the press box mainly because he was known to take a drink with them from time to time and because he took all criticism in silence.

Roger Maris, to understate the case, became disenchanted with the pillars of the city's sports writing community and asked to be traded. Roger allowed the ink-stained wretches acted like jackals rather than civilized human beings, because they were convinced that Maris had violated baseball tradition by daring to break Babe Ruth's home run record.

Pepitone, let it be said, never claimed to be a DiMaggio or a Mantle.

He came up thinking baseball should be a fun game and saw no need to maintain a funeral quiet in the dressing room. He became the clubhouse comic, the light-hearted individual who tried to convey the idea that professional baseball was bigger than life itself.

Some of the greybeards who had resisted all change in the game's image down through the years resented Pepitone.

It so happens that Joe is a good dresser and a great favorite with the ladies. Pepitone learned he couldn't say "hello" to a girl without it being played up in the papers. In time, his off-the-field activities were being discussed and debated far more in the gazettes than anything he did on the playing field. (It's obvious many of the metropolitan writers covet the life of a gossip columnist and pattern their work after the Broadway bugles.)

Pepitone may never blossom into a super star at Houston and the management certainly isn't projecting him as one at this writing. He can make a contribution, however, to what the front office reasons is the finest Astro club ever fielded.

Pepitone is better suited to play first base or center field but he volunteered to try it right because, in the words of manager Harry Walker, Jim Wynn is "temperamental" and it is likely that John Mayberry, Bob Watson and Jim Beau-champ will divide time at the initial base.

Wynn has been patrolling center field for years and, although he's no Tris Speaker when it comes to fielding the ball, he does hit with authority. He probably wouldn't take to the idea that he move over to make way for Peppy.

The Houston fans have made Pepitone feel at home. They haven't treated him like a conquering hero but they've made him feel there's a place for him if he earns it. All he wanted in the beginning was a chance.

## Cards Split With Snyder

The Big Spring Cardinals and Snyder clash again in a double header in Snyder next Sunday.

The two teams split a double-header here the past weekend. Snyder rallying to win the second game, 7-5, after the Red Birds had prevailed in the opener, 20-6.

Hank Pope and Tony Fierro combined to pitch the win in the opener, surrendering seven hits to the visitors.

Jessie Zapata, Pat Martinez Jr., and Jodie Florez each had three hits for Big Spring in the opener.

In the second game, Pat Martinez Jr. was the only Card to hit safely twice.

## Seattle Stages Welcome Meal

**SEATTLE (AP)** — The second-annual Seattle Pilots' Welcome Luncheon went off without a hitch here Monday, although the team was in Milwaukee.

Fifteen die-hard baseball fans jammed the spacious grand ballroom of the Olympic Hotel here on the theory that just because the team had abandoned Seattle to become the Milwaukee Brewers, it shouldn't spoil the party.

## Estes Assuming McMurphy Post

**ABILENE** — Tommy Estes, head coach at Graham High School the past three seasons, has resigned to become an assistant in both football and basketball at McMurry College here.

Estes attended Abilene High School and the University of Texas.

## Steers Enjoy Fine Round In Golf Play

**ABILENE** — Big Spring High golfers gained a notch on leading Odessa Permian and San Angelo Central Monday and is now within three strokes of second place. Mark Peters paced Steer linksters with a 72, which tied Shane Fox, Abilene, for the lowest round.

Permian has a 11-stroke buge over San Angelo and 14 over Big Spring with one more round to go.

Monday Permian golfers turned in 311 for a season's total of 1,245. San Angelo, however, picked up two strokes with 309 to make 1,256. Big Spring came in with 307, making 1,259.

Best round of the day, however, came from Abilene High with 306, but the Eagles languish in last place with 1,328.

Odessa High came in with a disastrous 338, making 1,292, and Midland Lee had 326 and 1,285.

Tim Phillips of Permian holds the medalist round with 224 or three rounds, trailed by Randy Smith, Permian, 226, and Bill Carson, Odessa, 229. Carson shot an 84 Monday, but medalists contenders may disagree one round.

This is the way Monday's play went:

**Team Totals** — Permian, 311; Odessa, 299-125; Big Spring, 207-129; Midland Lee, 326-128; Odessa, 338-129; Midland, 329-126; Abilene, 306-128; Abilene, 306-128.

# Farris, Walz Tackle Hill Duties Today

**Big Spring seeks to derail** the San Angelo express in the District 3-AAAA East Zone baseball race at 4 p.m. here today. San Angelo is 2-0 in the title scramble and has yet to suffer a defeat in eight games this year. Big Spring is 1-1 in league

competition and is 4-6 over-all. Both teams scored impressive wins in their last starts. San Angelo knocked off a highly rated Abilene High team, 10-3, with the help of a four-run outburst in the first inning. Big Spring charged by

Fern Smathers, the San Angelo coach, likely will go with Gary Lacy at shortstop, Ramsey Koschak behind the plate, Roy Holland in center field, Neal Sykes in left field, Chris Frederick at first base, Steve Caraway in right, Greg Yule at third base, and Eddie Lewis at second base.

**Righthander Joe Walz**, who has won both his starts, will open on the mound for the Bobcats.

Coach Oakey Hagood of Big Spring will likely counter with Joe Martinez behind the plate, Felix Martinez at first base, Raddy Caffey at second, Randy Womack at shortstop and David Hanson, Andy Gamba and Roger Dixon in the outfield.

The Steers visit Abilene Saturday for a return game with the Eagles.

## McCauffery Given Tom Sevey Picks Up 3rd Win Behind JVs, 7 To 1

**BALTIMORE (AP)** — After considering 28 applicants, the Baltimore Colts have elevated assistant Don McCauffery to the head coaching job.

Owner Carroll Rosenbloom, who ended six weeks of speculation with the announcement Monday, said the most difficult problem was deciding which "highly qualified" assistant to promote.

Rosenbloom, who rejected applications from three head coaches in the National Football League, said McCauffery should view the delay as a compliment.

McCauffery, 49, an offensive aide with the Colts for 11 seasons, replaces Don Shula, who resigned Feb. 18 to become head coach, general manager and part owner of the Miami Dolphins.

McCauffery said he was satisfied with the one-year contract which he signed, terms of which were not disclosed.

The banquet is being sponsored by the Forsan Booster and Service Club.

## QUARTERBACK CORNER Painting Days Rescheduled

By HARROL JONES and PAUL SHAFFER

It was an untimely and tragic accident which took the life of our Dave Thomas in Florida Saturday night. The Dave Thomases of this world "make a difference" wherever they go and certainly this fine young man made a difference to Big Spring.

His athletic probabilities were not considered too highly in the lower grades, but Dave set out to change things and culminated his high school efforts by making all-district center and winning a four-year scholarship to the University of Houston.

This achievement was monumental and should be an inspiration to all younger athletes who seemingly "don't have it."

Dave's many friends and admirers are not restricted to the athletic world. Active in his church, his fellow members of

the Catholic Youth Organization, Immaculate Heart of Mary Church here have several tributes in mind for his memory, and will hold a Memorial Mass at the church for all of us to attend, Wednesday at 7 p.m.

The paint was delivered to the baseball stadium last Saturday morning as scheduled but the elements did not cooperate so we have postponed the event until Wednesday. We will paint each afternoon from 5 p.m. until dark until the job is finished.

If you have never seen a Bustamante double steal, you will want to come out to Steer Stadium soon. So far the courageous maneuver has produced 100 per cent results and seemingly baffles the opposition. The Bobcats will probably be the next victims today. See you at the arena!

The Big Spring JV's rolled to their sixth consecutive victory here Monday, defeating Midland High's reserves 7-1, for the second time this season.

The Dogies return to play at 1:30 p.m. today, with David Newman likely to get the mound assignment.

The provincials struck for three runs in the first inning, added two in the fourth and picked up single tallies in both the fifth and sixth.

Big Spring made the most of nine hits while Randy Womack and Tommy Sevey combined to limit the visitors to three blows. Sevey was credited with his third win of the year.

In the first, Darrell Brunson singled for Big Spring. Tommy Fletcher reached base with an infield hit. Pete Shaffer walked and Tommy Brewer walked to force in a run. Tommy Tune then singled to drive in Fletcher and Shaffer.

In the fourth, Jesse Ologue singled for Big Spring. He stole second and later scored on a one-baser by Shaffer. Pinch runner Henry Haro later counted on a single by Brewer.

In Big Spring's fifth, David Stanley walked and stole second. He advanced to third on a wild pitch, from where he scored on an attempted pickoff play at second.

Big Spring got its final run in the sixth when John Weeks walked, David Carter reached base on a bobble, Don Holiday walked and Stanley squeezed in Weeks.

## Dick Barnett Leads Knicks Past Bullets

**NEW YORK (AP)** — Dick Barnett, the wondrous Old Man of the New York Knicks, was skirting friendly, verbal pokes about his age and stamina.

"It's performance that counts, not my age," said the National Basketball Association veteran who's on the verge of 34. "I believe I've still got five more years in this league."

Believe, believe. He looked as agile as a startled gazelle Monday night, scoring 29 points to pace New York's 127-114 victory over Baltimore that gave the Knicks their Eastern Division semifinal series, four games to three.

The victory, before a rowdy full house of 19,500 at Madison Square Garden, shot the Knicks into the Eastern finals against Milwaukee. The best-of-7 series starts Saturday afternoon in New York.

Phoenix, holding a 3-2 edge in the best-of-7 Western semifinals with Los Angeles, hosts the Lakers in the only NBA action tonight.

Barnett, guarded by Baltimore's magnificent Earl Monroe, admittedly went for the basket often "to try to put Monroe on defense more ... and maybe affect his offensive game."

Monroe wound up with a game-high 32 points, but his performance wasn't enough to offset the Knicks' well-braced effort that had Barnett crowing, "It was a heck of a team game."

Wichita Falls (AP) — Head basketball coach Dennis Vinzant of Midwestern University resigned last weekend.

McCauffery, 49, an offensive aide with the Colts for 11 seasons, replaces Don Shula, who resigned Feb. 18 to become head coach, general manager and part owner of the Miami Dolphins.

## Candidates Engage In Fuss Over Carswell's Nomination

By The Associated Press

Three of the men who want to win the next Texas election of a U.S. senator had some contradictory things to say Monday about the Supreme Court nomination of G. Harrold Carswell.

Sen. Ralph Yarborough, the Democrat seeking another term, cast an unsuccessful vote for referring the Carswell matter back to committee—and quickly drew fresh fire from a couple of his opponents.

Lloyd Bentsen, challenging Yarborough in the May 2 Demo-

cratic primary, and Republican Rep. George Bush, bidding for the GOP nomination for senator, both took issue with Yarborough.

There was no immediate expression on Carswell from Robert Morris, who is running against Bush in the Republican primary.

Prior to voting for further committee consideration of Carswell, Yarborough said in Washington, "Some confusion has been created by press reports and other reports over what Judge Carswell stated at different times. I prefer that

these confusions be cleared up before I vote on the merits of the matter."

Bentsen asserted in Houston that Yarborough, in voting to recommit the Carswell nomination, "aligned himself with those forces in the Senate which want a Supreme Court totally dominated by ultra-liberals."

Bush, also in Washington, declared, "The Senate acted properly in refusing to send the nomination . . . back to the Judiciary Committee. Those who voted to recommit the nomination, tantamount to killing it, must now act on the real issue and vote for Judge Carswell or against him."

Noting that Sen. John Tower, R-Tex., voted with the majority on the Carswell test, added, "This was a vote for Texas. I am hopeful both senators from Texas will vote for Judge Carswell on Wednesday (when the nomination comes up for confirmation or rejection)."

Bentsen, in talking to newsmen in Houston, also said he was informed that at least two Senate employees of Yarborough "are working out of his campaign office in Austin and that other Senate employees may also be engaged in purely political activity."

"I believe it to be a flagrant abuse of public office when a U.S. senator uses the taxpayers' money to run a political campaign," Bentsen added.

## Horoscope Forecast

TOMORROW

—CARROLL RIGHTER

**GENERAL TENDENCIES:** You now want to make with good friends. You are able to organize your material affairs in such a manner that you have more financial security. But you have to be painstaking. Take no chances. Make preparations to launch the big undertaking that interests you so much.

**ARIES (March 21 to April 19):** You can be preoccupied with financial and property affairs and how to get along better with co-workers. Being more cooperative is your best bet. Be kind and more understanding with those around you.

**TAURUS (April 20 to May 20):** You are of your best with friends who have a lot in common with you. Delve only in pleasure that you truly like. Do not argue with that irritable individual who ruins your nerves.

**GEMINI (May 21 to June 21):** There is much to be done at home so get family to assist you. You will then have more free time for outside activities. Do not take any chances with present security. Be with tried and true friends.

**MOON CHILDREN (June 22 to July 21):** Talk over that trip or some change

you want to make with good friends. You are able to organize your material affairs in such a manner that you have more financial security. But you have to be painstaking. Take no chances. Make preparations to launch the big undertaking that interests you so much.

**LEO (July 22 to Aug. 21):** A higher-up expects much from you now, but consider his worries and be more cooperative. Be more serious about work responsibilities. Add much to prestige you now enjoy. Be happy with love one tonight.

**VIRGO (Aug. 22 to Sept. 22):** It would be wiser to re-evaluate your various activities and study new ones that are intelligent and practical. Show appreciation for ideas given you. Be wise.

**LIBRA (Sept. 23 to Oct. 22):** Keep your problems to yourself or you run the risk of losing valued friendships. Organize everything with others more intelligently. Show that you have faith.

**SCORPIO (Oct. 23 to Nov. 21):** You are interested in going out for some entertainment but be sure you go along with charming and dependable persons. Find out what mate expects of you. Do your utmost to please.

**SAGITTARIUS (Nov. 22 to Dec. 21):** Ideal day and evening to do your work in such a way that higher-ups have nothing to criticize. Develop a different working approach and improve your image. Be clever with those who are trying to deceive you.

## UNTIL LAW FORBIDS Use Of Lead Additives In Gas Will Continue

SAN ANTONIO (AP) — The president of Union Oil said Monday his company will continue to produce gasoline with lead additives until laws are passed prohibiting it.

"We have no intention to take all the lead out until we're told we have to by law," Fred Hartley told a session of the 68th annual meeting of the National Petroleum Refiners Association. Lead in gasoline is one of the most controversial anti-pollution issues facing the government and petroleum industry. Lead is added to gasoline to improve octane or anti-knock performance required by high compression engines.

James Gill, a senior vice president with Ethyl Corp., charged in an address Monday that in some instances lead has been made the "whipping boy" in the anti-pollution issue. "The slogan, 'get the lead out' is just that—a slogan not based on sound grounds," Gill said. He said extensive research has shown no conclusive evidence that leaded fuel presents a health hazard in terms of pollution.

Gill and another speaker, W. H. Burnap, an executive vice president of Continental Oil Co., said removing lead from gasolines could force small refineries to shut down because of the costs of converting to new systems.

Burnap also said this could lead to a severe cut in the nation's future supply of asphalt, which he said generally comes from smaller refineries.

Hartley accused politicians of jumping on the lead issue to get votes. Politicians have discovered they can get elected with an anti-pollution campaign "and they don't care who pays for it," he said.

He urged refiners to tell federal officials that they want to keep producing gasolines high in lead content until present

cars requiring such fuels are no longer in use.

He also urged them to tell the government they want to introduce one or more other grades of gasoline low in lead content and to delay decision on removing lead entirely until more research is done on lead and pollution.

Hartley warned that the auto industry fully intends to begin producing low-compression engines that can run on fuels containing less lead.

He said Union Oil presently plans to produce gasolines both high and low in lead content. He predicted there is better than a 50 per cent chance that a small amount of lead will be allowed in future fuels.

In other speeches, Du Pont and Ethyl officials reported they have developed mechanical devices designed to reduce exhaust emissions in cars using leaded gasolines. The two companies are major producers of high performance fuel additives.

## Employees Will Share In Profits

Employees of 7-Eleven Stores in Big Spring will share in \$37,129.60 accumulated in 1969 by the Southland Corporation employee profit sharing fund, it was announced by Bob Davis, zone manager.

Davis explained that the Big Spring employee portion of the fund showed an increase of \$5,069.47 during the year. Twelve men and women 7-Eleven employees shared in the profit increase in Big Spring. The average account balance per Big Spring employee exceeds \$3,094.13.

Employees in 7-Eleven's Southwestern Division in 1969 numbered 1,034 and their account balance totalled \$5,496,119.36, or almost \$5,315.40 per member.
