FIGHTING REPORTED ON CAMPUS TODAY, SHOOTING FLARES

Ibarra Assumes Dictatorial Powers In Ecuador

QUITO, Ecuador (AP) — President Jose Velaso Ibarra took dictatorial powers Sunday night after a week of street fighting between students of Quito's Central University and police. Some fighting was reported on the campus early today, and shooting could be heard there through the night.

The official reason for the takeover was an imminent Supreme Court ruling declaring presidential tax decrees uncon-

stitutional. But observers believed the real reason was the student "rebellion" against the government.

Jorge Acosta Velasco.

the leftist leaders ordered ar-**REAL STRONGMAN** rested was Vice President Jorze Velasco Ibarra's assumption Zavala Baquerizo, whose whereof dictatorial powers was said to abouts were not known. have the full support of the mili-PROTEST BOMBING tary, and it was believed the Among those arrested was real strongman in the new dictatorial regime is the presi-

ing roundup of leftist leaders,

and paratroopers occupied the

campuses of colleges throughout

the nation of 5.5 million. One of

the terrorist bombing of the university printing shop. Aguirre and the students maintained that army paratroopers were responsible for the attack.

Velasco Ibarra is 77, and it was generally believed that his nephew, Defense Minister Jorge Acosta Velasco, was the architect of the coup. However, all members of the cabinet reportedly approved it, along with the military leaders.

ELECTED IN 1968 Velasco Ibarra was elected to a four-year term in 1968. He had been president four times before but had completed only one of those terms. He returned from exile in 1968 to campaign for his fifth term.

Two weeks ago, the president issued four economic decrees levying new taxes. He learned

over the weekend that the Supreme Court was preparing to rule the decrees unconstitutional on the ground that only

Congress could levy taxes, and on Sunday night the president resigned, saying in view of the impending court decree he did not wish to continue in office. But the High Command refused to accept the resignation and instead urged him to take full powers.

TO OUTLAW REDS

The president was reported preparing to declare a state of siege throughout the country, a form of martial law. It was learned that one of his first dictatorial decrees also would outlaw communism and the Communist party.

In taking full power, Velasco Ibarra dissolved Congress, suspended the constitution and put all banks and foreign exchange dealings under government control.

The military was reported ready to put down any attempts to demonstrate against the coup. But most Ecuadorians slept through the night without knowing what had happened.

NARCOTICS SUSPECT SWINGS AT PHOTOGRAPHER - One of three handcuffed narcotics suspects swings at a news photographer as they were taken to the U.S.

Commissioner's office today in Miami for arraignment. They were among 137 arrested in a 10-city nationwide roundup Sunday by federal officers.

Fed Agents Plan More Dope Raids

WASHINGTON (AP) -Atty. been arrested in 10 cities as anticrime proposal providing can begin using it against the Gen. John N. Mitchell, elated by part of Operation Eagle, the mass arrests stemming from code name for a six-month unwhat he called "the biggest operation of its kind," hints federal agents are planning more attacks on organized trafficking in narcotics.

Mitchell indicated more is to come in announcing Sunday that 190 persons, mostly Cuban refugees, had been named in complaints or warrants as part of what officials said was a ring controlling most of the cocaine and a large share of the heroin traffic in the United States.

TWO WOUNDED The Justice Department said early today 137 persons had should pass President Nixon's

dercover investigation that culsaid. minated in weekend raids

across the nation. Two of those arrested were critically wounded by federal agents-one in New York, the other in Miami.

While personally disclosing developments at a swiftly called news conference Sunday, Mitchell gave much of the credit for Operation Eagle to legal wire tap provisions.

He also pointed to the shooting incidents as fresh support for his stand that Congress

Six Political Figures Named By Grand Jury

NEW YORK (AP) - Reliable sources say a Baltimore grand jury report names five members of Congress and a former senator as figuring in a case involving alleged attempts by a contractor to defraud the government, the New York Times reports.

The grand jury report-called a presentment-has not been made public.

The Times quoted the sources as saying the presentment accused Baltimore contractor Victor H. Frenkil of trying to exert pressure on employes of the Office of the Architect of the Capitol to settle a \$5 million claim. One result of the grand jury inquiry was a struggle between Atty. Gen. John N. Mitchell and then-U.S. Atty. Stephen H. Sachs over whether to make the presentment public, the Times said.

Mitchell forbade Sachs to use the names of the congressmen in any case against Frenkil, reportedly believing that because the public figures were not being indicted their reputations would suffer unjust damage, the Times said.

Sachs held that the officials had to be named to make the government's case against Frenkil, the Times said.

The six political figures the sources reported named by the grand jury were Sen. Russell B. Long of Louisiana, former Sen. Daniel Brewster of Maryland, and Reps. Hale Boggs of Louisiana, House Speaker John W. McCormack of Massachusetts, and Samuel N. Friedel and Clarence Long, of Maryland, the newspaper said. All are Democrats. They figured in varying degrees of prominence in the case, the paper said.

USES TOY PISTOL Albanian Hijacks Jet Cairo

BEIRUT, Lebanon AP) - A 30-year-old Albanian armed with a toy pistol hijacked a Pan American World Airways 707 jetliner to Cairo today, Egypt's Middle East News Agency reported.

The Cairo dispatch said there were 133 persons aboard the flight, which originated in Beiruit and was scheduled to fly to Rome, Paris and New York. Pan American said earlier the hijacker took over the plane after it left Beirut and was over the Mediterranean. That report said there were 114 passengers on the plane.

The news agency report said all aboard the aircraft disembarked safely in Cairo after the plane cane to a stop at the end of the runway of the Cairo International Airport.

The dispatch gave this account:

The hijacker at Cairo rammed his pistol into the back of Capt. John Burn, the pilot, and ordered everyone to stand clear.

A few minutes later he got off and surrendered to security men. It was only then that it became apparent the weapon was a toy.

The Albanian, whose name was not given, was booked to fly from Beirut to Rome the agency said.

It was the second jetliner hijacked in the Middle East within 24 hours. Two Iranian law students and a 12-year-old brother of one of them diverted a Boeing 727 of the Iranian National Airlines to Baghdad, Iraq, on Sunday and asked for political asylum. The plane and its 88 passengers returned later to Tehran, Iran's capital.

Credit Keeps Poor On Ropes

WASHINGTON (AP) - The National Commission on Consumer Finance, getting off the ground after a belated start, is opening hearings into a variety of credit devices consumer advocates say keep the poor on the ropes.

The commission, headed by Harvard law Prof. Robert Braucher and including members of Congress and other private citizens, listed Ralph Nader as its first witness today.

Calls Agnew's New Behavior 'Disgraceful'

WASHINGTON (AP) - Sen. Mike Mansfield, D-Mont., replying to Vice President Spiro Agnew's attack on Democratic senators opposed to the Vietnam war, called today for an end to speeches which cause it divisiveness and polarization.

Mansfield was asked about Agnew's speech at Cleveland, Ohio, Saturday criticizing "sunshine patriots" and defeatists, and naming among others Sen. J. W. Fulbright, D-Ark., George McGovern, D-S.D., and Edward M. Kennedy, D-Mass.

The Democratic leader noted that Agnew is president of the Senate, and commented:

"If a Democratic vice president singled out Republican senators for attack I would be the first to come to their defense.

"We ought to be keeping our voices low and doing all we can to bring the country together and not doing things which increase divisiveness and polarization.

McGovern commented Sunday that Agnew's behavior has been disgraceful, divisive and perhaps more damaging to U.S. strength and unity than the actions of North Vietnam.

He spoke after Agnew, at a Republican fund-raising event in Cleveland Saturday, had described McGovern, five other Democratic war critics and New York City's nominally Republican Mayor John V. Lindsay as "sunshine patriots" and defeatists.

WASHINGTON (AP) - President Nixon ordered into effect today a revised international air transport policy placing greater emphasis on U.S. ability to compete with foreign airlines and on the value of both scheduled and

supplemental service. The policy statement was much the same as a draft proposal of last Jan. 15.

Interjected, however, was a statement that purposes of the policy could not be realized until aircraft hijackings are stopped. "By any standard, air piracy is reprehensible," the statement

said. "We support measures designed to end this terrible practice."

The statement did not propose any measures for prevention of hijackings. however.

A spokesman for the committee that drafted the policy said the matter is currently before other organizations, improving the International Civil Aviation Organization currently meeting Montreal. in

Nixon said the policy had been carefully framed to conserve the opportunities of all U.S. airlines for continued growth. "It is directed realistically at-

making a new variety of services available to passengers and shippers," Nixon said.

After release of the proposed statement last January, the supplemental airlines praised the document while the Air Transport Association said the scheduled airline industry could not live with the proposed policy. Dr. Paul Cherington, former

tions of the scope of the one cli-

Asked if there are more coming, he replied with one word: "Undoubtedly." When questioned if they would be coming soon, he responded again with just one word: "Hopefully." The attorney general said Operation Eagle was aimed at diminishing "the flow of hard narcotics into and within the United States."

WIRETAPS HELP

"By concentrating the federal enforcement on the sourcesthat is, wholesalers and distributors of narcotics-we believe we can interrupt the supply lines sufficiently to curtail addiction particularly among our young," he said.

Mitchell insisted Operation Eagle "would have been impossible" without the provisions for court-approved wiretapping as contained in the 1968 Crime Control Act. He said such "courtapproved electronic surveillances" were on telephones in Miami, Chicago and New York. "We still need more help-we still need the narcotics legislation which is before the House of Representatives," Mitchell continued.

"The Senate ... has passed the bill and we need swift House approval so that President Nixon can sign it into law and we

12-Man Juries

WASHINGTON (AP) -Breaking away from 72 years of tradition, the Supreme Court ruled 7 to 1 today that juries in criminal trials may be composed of less than 12 people.

"We hold that the 12-man panel is not a necessary ingredient of trial by jury," said Justice Byron R. White for the court. Justice Thurgood Marshall was the sole dissenter.

The ruling specifically approved Florida's six-man jury. But it left open the question whether juries may consist of less than six people.

Back in 1898 the Supreme Court gave common law the strength of constitutional command by requiring 12-man jury trials.

Today's decision said "that particular feature of the jury system appears to have been an historical accident, unrelated to the great purposes which gave rise to the jury in the first place."

At present 13 states besides Florida use juries of less than 12 members for criminal trials.

CHARLES H. GOREN

BY CHARLES H. GOREN [@ 1970: By The Chicage Tribune] **ANSWERS TO BRIDGE QUIZ** Q. 1—As South, vulnerable; you hold: ▲AQ2 ♡KJ64 ◇AJ7 ♣AQ3 The bidding has proceeded: South

Bridge Test

West North East 1 🐥 Pass Pass 1 🛇 What do you bid now? A .- Pass. There is no one so

broke as a partner who is unable to keep a one club bid open. It would, therefore, be pointless to prolong the struggle and might lead to a disastrous penalty if the outstanding strength is concentrated behind you.

Q. 2-Both vulnerable, as South you hold: ▲A1096 ♡75 ◊A9873 ♣KQ The bidding has proceeded: North East South West Pass 2 🖤 3 🛦 1 🋦 4 NT 5 ♡

What do you bid now? A .- Five no trump. When an adverse overcall is made over Blackwood four no trump bid, the responding hand starts counting from his opponent's suit. In this instance, a pass would show no aces, five spades would show one, five no trump would show two, etc.

Q. 3 - Neither vulnerable,as South you hold: ▲KJ9 ♡AJ6 ◇KQ8 ♣ 10 9 7 4 The bidding has proceeded: West North East South 1 A Pass Pass -1 NT Pass 2 NT Pass

What action do you take? A.—Three spades. Since you have a point over minimum and distributed values you well should accept partner's invitation. Therefore, the suggested call is three spades, affording partner a choice. He will realize that you have a balanced hand and probably only three trumps from the fact that you failed to raise at once.

Q. 4—As South, vulnerable, you hold: ▲A93 ♡AK74 ◇5 ♣AQ543

The bidding has proceeded: South West North East Pass 1 A Pass 1 🐥

What action do you take? A .- You must attack this problem in a roundabout way. A three spade rebid is not acceptable because we avoid such jumps with less than four trumps. No thought is to be given to any such mild

bid as a single raise. The com-promise bid is, therefore, two hearts, "a reverse" showing about 19 points. When spade support is shown later it will mark you with 5-4-3-1. Q. 5-Both vulnerable, and

as South you hold: ▲J864 ♡KQ93 ◇J4 ♣A 105 The bidding has proceeded: South West North East Pass 1 7 1 A Pass

What action do you take? A .--- Three spades. This bid shows strong support for spades but is not forcing. If partner has a sound overcall he is asked to carry on.

Q. 6-East-West vulnerable, as South you hold: **▲**AK643 ♡A4 ◇10642 ♣83 The bidding has proceeded: East South West North 10 14 Pass 2 🌲 Pass ?

What action do you take? A .-- Pass. Partner has offered a mild raise asking you to proceed if your overcall has something to spare. In our view this rates as a moderate overcall with the ability to win only about five tricks. In the absence of a double raise from partner there should be no good play for game.

Q. 7-Both vulnerable, as South you hold: ▲K54 ♡A64 ◇K8 ♣109742 The bidding has proceeded: North East South 1 🐥 1 🖤 . ?

What action do you take? A.—One no trump. Your 10 points in high cards justifies such action. This is a far superior call to a single raise in clubs. It will permit partner to tell at a glance whether there is a reasonable chance for game.

Q. 8-East-West vulnerable and as South you hold: ▲A4 ♡KQ 10 9 5 3 ◊A9 3 ♣5 2 The bidding has proceeded: North East South West 1 ♡ Pass 1 🌲 Pass 2 🐥 Dble. Pass Pass 20 Pass Pass Pass 2 NT Pass

A .- Four hearts. In view of partner's display of strength a game should be reached but it should be clear that no trump is not the spot. It is apparent that North has only one club stopper; if he had two he would surely have doubled two clubs. Therefore, East and West will have their clubs established before the

ace of hearts is dislodged.

Jail Stabbing **Death Suspect**

HOUSTON, Tex. (AP) - Jonas Dalton McGough, 51, was returned to Houston Sunday by deputies after his arrest Friday Burnett, Tex.

McGough has been charged with murder in the June 7 stabbing death of his wife, Mrs. Geneva McGough.

It was the second time Mc-Gough has been charged with the slaying of a spouse. He was indicted for murder in

Texas City 19 years ago in connection with the shotgun slaving of his ex-wife, Mrs. Bette Sue Havman

After the indictment, however, a jury found McGough to be insane at the time of the crime and he spent three years at the Rusk State Hospital for the criminally insane before being released.

Ex-Ziegfeld Performer Dies

HOUSTON, Tex. (AP) - Funeral services will be held here this afternoon for former Ziegfeld Follies performer Harris Curtis Ledford

A clear balloon was attached to the exhaust pipe of this car with Scott Carpenter Astronaut/Aguanaut it's dirty engine running. The Dirty exhaust emissions reduced sharply balloon began to fill with dirty The balloon remains clear! No dirty smoke personally witnesses this dramatic demo exhaust until it looked like this F-310 turns dirty smoke into good clean showing how exhaust emis sions from dirty engines go into the air - and waste mileage

New F-3IO in Chevron gasolines turns dirty exhaust into good clean mileage.

Now, scientists at Chevron Research Company have developed a remarkable new gasoline additive-Formula F-310*-that sharply reduces dirty exhaust from dirty engines. And helps toward cleaner air.

Tests conducted by Scott Research Laboratories, an independent research group, showed that Chevron gasolines with F-310 reduced unburned hydrocarbon and carbon monoxide emissions dramatically. Clearly, this is an important step towards solving one of today's major problems.

F-310 also improves mileage, because dirty exhaust is really wasted gasoline. So F-310 literally keeps good mileage from going up in smoke.

What causes an engine to produce dirty exhaust in the first place? Over a period of time, deposits make engines "run rich." They actually consume more gasoline than they can burn efficiently. Result: wasted gasoline goes out the exhaust pipe as unburned hydrocarbons, along with increased carbon monoxide emissions. You can even see the emissions as dirty smoke. And you can feel-and hear-the rough idling. It all adds up to a car that is unnecessarily

emitting dirty exhaust and wasting gasoline. Just six tanksful with F-310 can correct the condition.

Formula F-310, a patented gasoline additive, is now available in Chevron gasolines wherever you see the F-310 sign.

*F-310 Registered Trademark For Polybutene Amine Gasoline Additive.

Avoid Stains

The outside of a refrigerator is not impervious to stains. Wipe up spills immediately. Even with modern finishes, such foods as lemons, tomatoes and milk can eat into enamel if left on the finish. And brightly colored vegetables such as carrots and beets also can leave stubborn spots.

Cracked Dishes Chipped and cracked dishes should be discarded because the tiny cracks prove an ideal breeding ground for bacteria.

A Devotion For Today . . .

To him who has will more be given, and he will have abundance. (Matthew 12:12, RSV)

PRAYER: O Lord, do not make my life easy. Make me a person of strength that I may give to those who have not felt life's winds. If I am to live, let my life count, let me feel deeply, and help me to give with liberality. Amen. (From the 'Upper Room')

Action Needed On Crime Control

no legislative action has been taken on any of the major crime measures proposed by the Nixon administration. The District of Columbia bill, designed to reduce the notorious crime rate in the capital, has been stalled in conference. The Organized Crime Control Act, with nationwide impact, still is undergoing hearings in the House.

Nixon as a candidate in 1968 promised to make crime control a national priority, and he is sternly calling for action from Congress. His various measures would add judges, increase police in the District of Columbia, make federal enforcement training available at the local level. and aim generally to tighten enforcement and speed court action.

These proposals have evoked controversy. What about preventive detention (by which a judge could jail a suspect if his record indicated a likelihood that he would commit crime while awaiting trial); the "no

It is difficult to anderstand why knock" provision (allowing police in search of drug evidence to enter a home without first knocking); and restriction of the Fifth Amendment (against self-incrimination)?

All I I MALL MARY ALL INTO I ALK

Ú,

There has to come a decision as to whether the nation's appalling crime rate demands that the balance must swing over from its traditional safeguards for the rights of individuals to a large concern for the rights of society to have protection. The public mood patently is in favor of this changed emphasis.

There are two ways to fight crime. One is by tougher law enforcement, in all its aspects. The other directs its attack on crime's sources; poor living conditions, poor schooling, joblessness. Better enforcement will cost perhaps \$2 billion more per year; the wider attack, \$30 billion.

Both attacks are needed. But until Vietnam costs taper off, the second probably cannot be financed. The enactment of stronger laws, however, could and should come now.

Need To Explore Our Own Planet

While man has been bulling his way into the anteroom of the vast expanses of space, scientists have been laboring intensely to unravel a wealth of mysteries right here on earth.

He hasn't yet matched Neil Armstrong's television ratings, but Dr. Albert V. Crewe of the University of Chicago has come up with his own claim to some degree of fame in the form of a new election microsope. It was unveiled recently as the instrument which finally has enabled man to see the uranium atom with which he has been working these many years. And now biologists hope that it will be the key to direct observation of DNA molecules, the strands of genes believed to control organic growth.

The size of the universe staggers the imagination - it cannot be con-

ceived in the mind of man. But, by the same token, how can we grasp the immensity of our own planet in the context of its microscopic and submicroscopic components?

Exploration of outer space is a monumental task, and the flights to the moon have been monumental achievements - applauded as the greatest accomplishment of man's history. But if that exploration becomes a mania and if the money and efforts extended are allowed to outstrip scientific returns, we stand only to lose in the long run.

We must be concerned as well with an exploration of our own planet its vast oceans, the astounding complexity of its biological and chemical makeup and the secrets of its amazing ability to sustain itself through the centuries.

Around The Rim The Yippies As Capitalists

One thing and another: Those ubiquitous Yippies, Abbie Hoffman and Jerry Rubin, are not only making a mockery of law in this country, they're earning a handsome living at it.

On one hand, they profess to identify with that segment of society which is disenchanted with The Establishment and preach revolution. On the other, they find it easy to conform to The Establishment's standards by accepting all offers for lectures literary undertakings and movie production.

HOFFMAN has written two books that have already earned him \$50,000 in advances, royalties and resale rights - and he's only scratched the surface of the income potential. MGM has purchased rights to his book, "Revolution for the Hell of

The more the two get arrested, and each has stood before a judge more than 30 times, the more smoke screens they send up about the system and the richer they get for exploiting its wickedness.

Their literary efforts are aimed at youth — and naive youth, at that. They remind me of entertainers who sing their songs of protest, who march with the dissenters when they are sure members of the news media are going to be present but who use the

loot they amass to firm up their places as part of The Establishment.

WHAT MAKES most women in this world think they're good cooks? On the other hand, how do most men go about convincing themselves they're good drivers?

I AM ONE of those who doubted the wisdom of going into Cambodia and would look askance at those who say it was a successful operation. However, you have to look at such things objectively. One writer said that, by capturing all that rice, we have succeeded in disrupting all Viet Cong weddings for a year. They will now have to throw confetti.

AMERICAN INDUSTRY has now shown it can manufacture automobiles for each member of the family plus the family dog. Training people who can take care of those vehicles is something else again, however.

Figures show there is now only one mechanic for every 125 automobiles on the street today.

In a way that reminds me of an ad one garage ran for help. It read: "Wanted. Experienced mechanic, good pay. Short hours. Must have honest face."

David Lawrence Mr. Nixon And The Economy

WASHINGTON - President Nixon's address to the nation last week emphasizes that the United States is

definitely moving into a peacetime economy. The announcement that the national government is, for the first time in 20 years, spending more on human-resources programs than on defense reveals a significant step, even though the result is that 400,000 military and civilian employes have been released in the past year by the armed forces and about 300,000 have lost jobs in defense plants.

BUT, AS THE President sees it, the transition from a war economy to a peace economy makes it possible to build what he describes as a "much more enduring prosperity in this country." Mr. Nixon points out that in the decade of the sixties, federal deficits totalled \$57 billion,

and the American consumer had to

will lead to more stable prices."

THE PRESIDENT'S Council of Economic Advisers is to prepare a periodic "inflation alert" which will "spotlight the significant areas of wage and price increases and objectively analyze their impact on the price level." This will call attention to outstanding cases of price or wage increases, and will be made public by the productivity commission

THERE IS A HINT that the government itself may become involved in helping to reduce prices in its own way. The President is establishing a "regulations and purchasing review board" within the federal government, so that "all government actions will be reviewed to determine whether federal purchasing and regulations drive up costs and prices," while our

'Conspiracy' For Rising Prices?

WASHINGTON - It is nice to know that some of the best people in Big Business are appalled by Sen. William Proxmire's suggestion that B i g Business is one of the chief contributors to inflation. Their reaction suggests Proxmire may have something there.

The Wisconsin Democrat, in a letter to Federal Trade Commission Chairman Caspar Weinberger, asked that the FTC investigate so-called oligopoly industries - those in which up to four firms control more than 50 per cent of sales. It is Proxmire's feeling that there may be a conspiracy to keep prices rising.

WEINBERGER SINCE has been named deputy director, under Labor Secretary George P. Shultz, of the new Office of Management and Budget, which will come into being July 1. But Proxmire's concern is still material, whoever runs the FTC. In urging an FTC probe, Proxmire said that reports by various economists indicate that the FTC and the Justice Department "m u s t shoulder the responsibility for bringing this devastating inflationary situation under control."

Billy Graham

What bothers me about Christianity is the piety of Christians. Their better-than-you attitude annoys me and I don't want any of it. Is it possible to be a follower of Christ without piosity? B.K.

One of the most insidious lies ever foisted on mankind is the untruth that following Christ makes for obnoxious piety. Christ himself was not given to piosity. He saw life realistically, and he lived it that way. He dined with publicans and sinners. He called a spade a spade. He was a real man - gentle but strong; fearless, but understanding; loving, but uncompromising. In fact He was the only normal man who ever lived.

The word Christian means to "be like Christ." Unfortunately, the definition of this word has been corrupted. To many it means to be a prude, a pious person, a nominally religious person.

As to the last part of your question, can one be a Christian without piosity? My answer is an unequivocable yes! One of Jesus' main targets when He was upon earth was the piosity of the Pharisees. He found religious pretense to be one of the most revolting things in the world, and warned His disciples against false piosity. To follow Christ will not make you abnormal. To be reconciled to God through Him is to find the real norm of living!

INCREASINGLY in recent months, economists on the White House staff have come to believe that companies in the steel, automobile and chemical industries are not interested in competing on the basis of price, but act as if they were one monopoly company. At any rate, there are indications such oligopolies force the consumer to bear the burden of their inflationary labor costs and higher profits.

Any Main Street shopper might have made the same point. It must seem strange to the housewife visiting the local supermarket to discover that despite the fact of a recession and a 5 per cent unemployment rate, the prices they pay continue to go up.

THE REASON is that when the government tries to slow inflation by spending less money and by raising taxes and interest rates, noncompetitive industries take care of their own fat selves. When there is a resultant decline in consumer demand, they simply reduce production or shut down altogether instead of cutting prices.

The report also noted that profit rates tend to be 50 per cent higher in highly concentrated industries than in moderately concentrated ones. At almost the same time, an FTC memo prepared by its bureau of economics said "price rigidity in the face of downward market pressures suggest an absence of effective competition. In some industries, such as automobiles and drugs, the level of profits has been consistantly above what may be considered the competitive norm.'

WEINBERGER HAD said that the FTC for some time has been planning an antitrust study of profits and prices in the steel, auto, drug, electrical machinery, energy and chemical industries. Perhaps his sweeping reorganization of the agency, with emphasis on antitrust functions, signaled the start of this study. (Distributed by McNaught Syndicate, Inc.)

Quarry Closes

ABERDEEN, Scotland (AP) -Rubislaw quarry near Aberdeen in Scotland, the deepest quarry in the world, is to close after nearly 200 years of exploitation in which more than 6.000.000 tons of grey granite were extracted.

The quarry now is 480 feet deep and its floor is 180 feet under the North Sea level. It is 900 feet long and 700 feet wide.

Granite from this mine helped build many famous buildings all over the world. It is estimated that half the buildings in Aberdeen were made of its granite giving the city its second name, "granite city."

pay for much of it in terms of a rising spiral of prices. His main emphasis is on the fact that the administration has gained control of what he terms "the runaway momentum of federal spending - the spending that triggered the rise in prices in the first place." The

Quotable notables: "Democ-President says: "IN THE THREE years before this administration took office, federal

spending rose an average of 15 per cent a year - the sharpest rate of increase since the Korean war. In the current fiscal year, we slashed that rate of increase in half, to 7 per cent. And in the coming year. we intend to cut that rate of increase in spending by half again."

But the cuts in federal spending do not tell the whole story. Mr. Nixon has undertaken a substitute for "wage and price control" through a novel approach. He is appointing a "national commission on productivity," with representatives from business, labor, the public and government, whose task will be to find ways "to achieve a balance, between costs and productivity that

import policy "will be reviewed to see how supplies can be increased to meet rising demand, without losing jobs here at home."

The President urges Congress to enact the legislation ne submitted a year ago to strengthen the unemployment insurance system. He requests Congress also to pass the manpower training act, which provides an automatic increase in manpower training funds in times of high unemployment

MR. NIXON, also calls for the enactment of the emergency home finance act of 1970, which he says would attract as much as \$6 billion into the housing market in the coming fiscal year. He declares that more than one-third of a million families need this legislation now and that the resulting new construction of more than 200.000 houses would provide many new jobs.

T h e President's main thesis, however, is that the modern freeenterprise sytem should not be "managed by government and not ignored by government, but helped by a government that creates a climate for steady, healthy growth." (Copyright, 1970, Publishers-Hall Syndicate)

Burleson Reports When Inflation Strikes Home

WASHINGTON - It was one of those evanings of gusty winds and intermittent downpours. A threequarter moon seemed to enjoy dodging in and out of the clouds.

inside the brightly lit grocery store six carts of groceries were lined up behind each of two opened check-out counters. Beside each cart stood people who looked tired and bored, waiting their turn.

First in line was a lady with two small children clinging to her side. Her accent suggested that she was Puerto Rican. Both she and the children watched attentively as each item was rung up on the register.

THE WOMAN took a final look at the white figures on the spinning wheels and then in her purse. In a soft voice she said to the checker, "I have got to take something back." The little girl at her side looked up at the others; not realizing their bored and impatient attitude.

Doubtless the checker had been through this before and tried to be helpful and even cheery. "How much are you short," he

asked the woman. "It was the check," she said. "It

wasn't as much this time."

WITH THE checker's help they looked over her cart of groceries. There was a large bag of rice and about three pounds of cheap hamburger meat. There was a box of laundry powder and two loaves of yesterday's bread, which can be bought for ten cents off the regular price.

Then there were some fresh vegetables, some toilet tissue and a quart of skim milk. Included were potatoes, wieners and a large box of cereal. There were several packs of soft

Back to the shelves went a jar of red cherries, two or three oranges, some vanilla ice cream and a jar of jelly.

Back went about everything that makes things a little nicer - to improve on the plebeian.

The woman was still a dollar short. so back went the peanut butter and one carton of Kool Aid, and maybe another little item.

THE WOMAN would not be interested in the theories of inflation. There are a lot of them but you can't eat them. She would not be interested that food, as related to over-all living costs, is lower priced than other essentials. Washington thrives on statistics. People who have to put the nice little item back on the shelf and see the disappointment in their children's eyes can't live on these statistics which come from averages and generalities. Because we have to have it every day we are aware that food prices are high and that inflation continues to be one of the greatest problems of the country.

A NUMBER OF remedies have been applied and more are talked about, but relief is slow in coming. Those who have money can afford it; those with none can usually draw on programs of assistance; the large number in between - those on fixed or modest incomes, which includes most of us - are feeling the pinch.

WINNERS - Brazilian soccer player Pele, known as the "black pearl of Latin America" for his athletic prowess, is hoisted up on shoulders of teammates and fans after playing key role in Brazil's winning the World Cup soccer championship Sunday in Mexico City. Pele scored one goal and set up the other three goals as Brazil beat Italy, 4-1.

World Cup Goes To Brazil For Keeps, In Third Win
