## FHS Play Schedules Public Performance

Open dress rehearsal for Friona High School's Contest Play will be held next Thursday, March 22, at 8 p.m. at the High School Auditorium.

The public is invited to attend, without charge, the performance of "The Golden Grotto," which will later be performed (on March 27) at Dimmitt, in University Interscholastic League competition.

The play depicts a classic legend turned upside down: a frog has been turned into a prince by a bumbling wizard. The princess is commissioned by a dragon, a valkyrie and the wizard to rescue the golden ball, which the princess, her handmaiden and nurse have tried to "drown" in the river.

The one-act comedy is considered entertainment for all ages.

Stage manager for the production is David Fleming. Susi Noah and Sunny Horton are in charge of lighting; Donice Glover, Janna Reeve, Christy Bengel and Amber Smith are in charge of costumes and props.

Acting as Royal Musicians and providing other special effects are

Mark Bavousett, Mark Zachary, Tim Mercer, Stanley Ellis and Andy Fleming.

Otherwise, the cast consists of: Siegfried Wagner, the dragon; David Merrell; King Ludwig, Mark Blankenship; Prince Bracko, formerly a frog, Gary Wright.

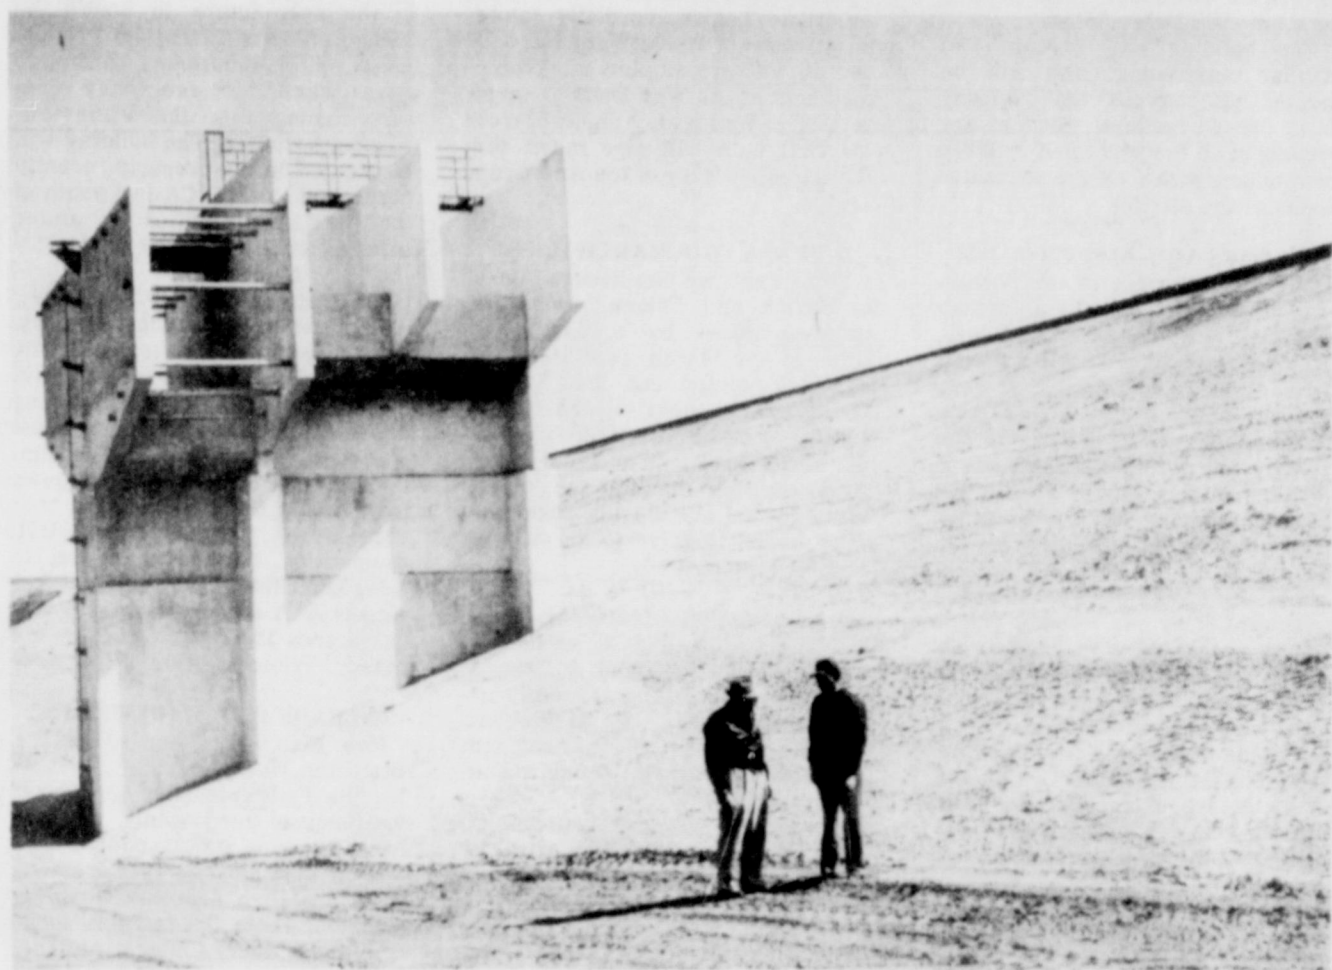

Laura Ellis portrays Princess Blanda; Tracy Horton is Nurse Woepful, and Ricky Taylor is cast as The Great Zaubringer, a wizard.

Sharla Duggins plays the part of Hildegard Loch, a "valkyrie," and the handmaidens, Etta, Hetta and Gretta are played by Dana Smith, Karen Edelman and Rosa Garza.

Joy Morton, F.H.S. speech teacher, is faculty director.

**DAM COMPLETED....**The huge floodwater control dam on Running Water Draw, located east of Lazbuddie, was officially completed this week, with final inspection made by the Soil Conservation

Service. In the above photo, W.L. Edelman, who was the first chairman of the board of directors of the Parmer County SCD, and Mac Mauldin, district supervisor, are shown in front of the structure.

IT MAY COME AS a surprise to residents of our semi-arid county to learn that the flood prevention dam, which was completed this week on Running Water Draw near the Lazbuddie community is one of the largest of its kind in the entire state.

The huge dam, built through the supervision of the Soil & Water Conservation Service, is quite an impressive structure, and would be worth your time to see sometime when you are in that area.

Hopefully, sometime in the future we can go back and inspect the site when it will be holding water. It is designed to accommodate a lake which would hold 4400 acre feet of water.

The dam itself is 56 feet high, from top to bottom, and is over 2200 feet long.

The structure required 410,000 cubic yards of dirt for the fill, plus an additional 10,000 cubic yards of soil cement.

An eight foot square conduit was constructed to carry the water through to the spillway, so SWCD engineers must have faith that someday there will be some water in the facility.

R.J. Sanderson, on whose land the dam is constructed, also must have faith that some water will be in the structure in the future. He had a boat dock constructed on his property. Now, all he needs is a big rain.

Unlike the floodwater dam near Bovina, the spillway pipe in this structure is 27 feet from the bottom of the dam, which means that there would have to be that much water in the lake area before any water entered the spillway.

Continuing the massive statistics, the contractor hauled in 210,000 tons of rock from near Canyon, Texas, to place in the spillway area on the east side of the dam, to prevent erosion from anticipated drainage from the dam sometime in the future.

You don't have to have too much of a memory to recall times when floods have sent the draw to flood stage.

In previous years, before Highway 214 was rebuilt, we have seen Running Water Draw put the highway under water, and to a considerable degree at times.

The next time this happens, we should have a new lake in the county, and then perhaps we'll have to select a name.

Of course, it hasn't rained enough in recent years to even fill up the playa lakes in the county, but as everyone knows, our weather likes to deal in excesses, and one of these years we'll have another "gulley-washer," like the one in 1963, which caused millions of dollars of property damage in the city of Plainview, and made the Running Water Draw project possible.

There is some evidence that the average citizen is beginning to rebel against too much regulation. We pay for government regulations in two ways. First, we pay taxes to support the growing staff of persons required to write and enforce the regulations. Then we pay higher prices for the products and services we buy because of additional costs to comply with these regulations.

Even Senator Edward Kennedy spoke out recently against excessive government regulations. He said, "There is a government mentality that sees regulation as the natural order of the universe, that equates the Federal Register with the Holy Writ and that believes anything the marketplace can do, the government can do it better."

The Director of the President's Council on Wage and Price Stability figures that the cost of complying with federal regulations is already adding at least ten per cent to the inflation rate, and the bill is continuing to go up.

There are more than 100 federal agencies in the business of regulating the private sector in areas ranging from all matters affecting the consumer, anything

## Music Program Set Here Saturday Night

A program of music is scheduled for Saturday, March 17 at the Friona Community Center. The program begins at 7:30 p.m.

A free-will offering will be taken at the door, with proceeds going to benefit the building fund for the Senior Citizens Friendship House.

Among those planning to be on the program are the George Green family, Geary Brogden and some of his young singers from First Baptist

Church, Jo Witten, Anna Mae Thomas, and possibly another quartet and other singers.

"This entertainment is being presented by the Friendship House Senior Citizens, in an effort to show the interest we feel in the community. All donations will be used for the building fund for a new center for Friendship House," said a spokesman for the organization.

**LIGHTS, CAMERA, ACTION....** Members of the FHS Thespians are shown as they rehearse for the UIL Contest One-Act Play, "The Golden Grotto" will be performed free for the public in Friona on Thursday,

March 22, at 8 p.m. in the High School Auditorium. Shown above are the Wizard, played by Ricky Taylor, King Mark Blankenship, Frog Prince Gary Wright, Nurse Tracy Horton, Handmaid Dana Smith,

Princess Laura Ellis, Valkyrie Sharla Duggins and Dragon David Merrell. The play is a classic-legend comedy and would be enjoyed by all ages.

**SPILLWAY....**An idea of the size of the spillway on the new dam on Running Water Draw is seen in this shot. The spillway opening measures eight feet by eight feet.

The vehicle parked at left of the spillway gives an indication of the size. Over 10,000 tons of rocks were hauled to the site to pack the spillway area.

## Sports Banquet Set; Ticket Deadline Told

Deadline for buying tickets for the Friona High School athletic banquet is Tuesday, March 20, according to a reminder from the Chieftain Parents.

Tickets are on sale at Ruthie's, Bi-Wize Drug, Reeve Chevrolet-Olds and the Country Store, at \$6.00 each.

The banquet will be held Friday, March 23, at 7:30 p.m. at the Community Center, and will feature Brian Hall, former Friona resident and former star placekicker for the Texas Tech Red Raiders.

Brian is the son of former Friona residents Paul and Doris Hall, and the brother of Roxanne Hurst. He started to school in Friona and the family moved to Dalhart when he was in the sixth grade. Brian played football for Dalhart in high school, and even though he had lost a foot as the result of a farming accident, he held the district record for extra points kicked. He followed this with an outstanding record as a kicker with the Texas Tech Red Raiders.

Brian has received two awards from the Panhandle Sports Hall of Fame, one of which is the Dee Henry Award. He also received the Kern Tipps Award while he was at Tech.

This past year Brian appeared on the nationally televised program "To Tell the Truth." Brian now is Field Director for the Red Raider Club and lives in Dallas.

The food for the banquet will be catered by Zebbie Land Catering of Canyon.

## Texas Names Omitted From Ag Committee

(Editor's note: The names of the Texas delegation were inadvertently omitted on the House Agriculture Committee in last week's American Agriculture Ad.)

Kent Hance, 1039 Longworth Bldg., Charles Stenholm, 1610 Longworth, E. DeLaGara, 1434 Longworth, and Thomas Foley, (Chairman-Washington), 1201 Longworth.

Farmers, especially AAM members, are urged to write to the committee members urging their support of HJR 144 and HJR 148, which would hike the price support loans to 90 per cent of parity.

# Book Talk

By NELSON LEWIS

We are all ignorant—just about different things!

Do you realize that an education may be obtained without cost? Look again—an education, not a degree!

Pick any subject you choose—business, pleasure or hobby, there are probably a hundred books that cover it from A to Z. And they are yours for the asking. This situation comes about due to a system called Interlibrary Loan—and it's free!

Here's how it works. Tell one of the ladies at the Friona Public Library what you are interested in. She will look in a huge volume called Books in Print and help you select the material you need. If it's not available locally, she will put out a call for it to other libraries in the system; they will track it down anywhere in the U.S.A. You pay neither phone calls nor postage and you may keep the book for 30 days.

Oh, another thing—cassettes may be borrowed for a week at a time and framed reproductions of various art work may be used in your home up to three months.

You couldn't beat a deal like that if you had it tied down and hamstrung!

It would be kinda silly to write a review for someone who had not yet learned to read—so I'll talk to you folks who have heard the question (a hundred times) "Will you read me a story?"

I don't think I have ever seen a library so geared to little folks as ours is. Low tables, shorty chairs and two rooms full of beautiful picture books! Delightful.

Story hour, summer reading programs, helpful ladies and books, books, books. You would have to be a Frankenstein or a Dracula not to be thrilled when they scatter like a covey of young partridges and then settle down to the serious business of laying the foundations of their future educations. We had better encourage them—after all, the future of our country is in their hands—not ours!

The library is open on Saturdays from 10 to 12 and 1 to 3; while most folks are off from their jobs. Why not gather up an armful of younguns and give them a free treat?

++++

Speaking of kiddoes, there is nothing nicer than Robert Louis Stevenson's little volume 'A Child's Garden of Verses.' The fact of the matter is that Stevenson wrote for all ages. You had 'Travels with a Donkey' in high school and you've read 'Treasure Island.' How about 'The Strange Case of Dr. Jekyll and Mr. Hyde'? While the children are browsing about in Storyland, go into the reference room and read up on Stevenson. Learn of the mountaintop on Samoa and the road he engineered, and learn too what is to this writer the most beautiful of all requiems:

Under the wide and starry sky,  
Dig the grave and let me lie.  
Glad did I live and gladly die,  
And I laid me down with a will.  
This be the verse you grave for me:  
Here I lie where he longed to be;  
Home is the sailor, home from the sea,  
And the hunter home from the hill.

# Chieftains Shine As Meet Champions

The Friona Chieftains track team showed up well in their first track outing of the season last Saturday, winning the team title at Farwell's Twin-City Relays for the second straight year, setting a meet and school record in the process.

The Chiefs, defending District 3-AA track and field champions, won six events while rolling up 112 points to second-place Olton's 88.

Friona won both relays. The foursome of Leslie White, Rod Owen, Robert Alexander and Chitto Caballero won the mile relay event with a 3:38.3 timing.

The 440-yard relay team of Michael Gowens, Alexander, Owen and Mike Hubbard toured the lap in 4:7 for first place. They had run a 4:1 in the preliminaries.

Vaulter Chuck Nichols won his event with a height of 12 feet, seven inches. That broke the Farwell meet record, and also broke David Barnett's school record of 12-6 set during the 1976 season.

Other wins were turned in by Leslie White in the 880-yard dash at 2:09.5, by Caballero in the 440-yard dash in 52.3 and Mike Hutson in the high jump with a 6-1 leap.

The Chiefs practically swept the 440-yard dash event, with their three entrants (Caballero, Alexander and David Fleming) placing first, second and fourth, respectively, for 22 points.

"We were in much better shape physically than I thought we were," said Coach Robert Mears. "We wanted to win our first one, to set a pattern, and we did."

Mears said he thought that the Chieftain track team had set their goal at repeating as district champs. "In fact, we're out to win every meet we enter. We're gonna give it a try," he said.

The Chiefs matched themselves with three other district mates, Olton, Littlefield and Morton. They expect to see the other two, Dimmitt and Muleshoe, this week at Hereford, when the team enters the Deaf Smith County Relays.

**RECORD-SETTER....**Chuck Nichols set a school and meet record in winning the pole vault event at Farwell's Twin City relays last Saturday. Nichols won the event with a 12-7 leap, bettering the meet record by four inches. The former school record, 12-6, was held by David Barnett.

**Clyde Woodard likes 3311 with 3195**

"I think 3311 is about the best companion to 3195 you can find. 3311 yields with 3195, but it sicks earlier. I'll be able to spread my weather risks and harvest load."

is there an **energy leak**

in your house? shut it off with: storm doors, storm windows, insulation, caulking

Your home may be like this one... it's leaking. Energy leaks that you can't see that are wasting your valuable energy dollars. Inadequate ceiling insulation and ventilation are two of the biggest offenders. The lack of weatherstripping and caulking that seals cracks and joints tightly is another problem. And no storm doors and windows to cut down on heat loss or gain can waste even more energy. Call your local Southwestern Public Service Manager for suggestions on how you can shut off the energy leaks in your home. Make it more energy efficient and save!

**DIDOMI** is coming! This group of college-age young people will be presenting a creative worship service at Friona's First Baptist Church, which include professionally staged musical presentations, congregational singing, scripture sharing, and highlighting the services, dramatized Biblical illustrations in full costume.

Their performances recently at the Baptist Youth World Conference in Manila, the Philippines proved very inspiring and also at several Baptist churches in Tokyo, Japan and Honolulu, Hawaii.

The group will appear at the church's Wednesday, March 21, evening service beginning at 7:15 p.m.

## Club Hears WTSU Prof.

Progressive Study Club members met on the evening of March 13 at the Club House.

The meeting was called to order and members answered the roll call by giving their astrological signs. Kipi Fleming entertained the group with a prose reading.

The program was given by Dr. Vaughn Nelson, associate professor and head of physics at West Texas State University, Canyon. He presented slides that dealt with the solar system and also other systems apart from our own.

The club members and guest were served refreshments from a table decorated in St. Patrick's Day theme by hostesses, Nancy Edelman and Lunell Horton.

Business included discussion of our fashion show and luncheon entitled "Spring Fling" to be held in April.

A new member, Cordella Jeter, was welcomed into the club.

## Leaders Honored At Bovina Banquet

The community of Bovina honored its outstanding citizens at its annual Chamber of Commerce and Agriculture banquet Thursday night.

Honored as Man of the Year was Steve Sherrill, who has served the past year as Chamber president. Sherrill, vice president at Bovina's First State Bank, has been active in Jaycees, the Lions Club, Bovina Roping Club, Little League, and has been a chairman of the community's Bull Town Days celebration.

Woman of the Year selection was Virgie Cary. Mrs. Cary is active in church as a Sunday School teacher, has been an active member of the Booster Club, Band Boosters, and among other things has operated the concession stand during the summer at the Lions Club's baseball park.

Chosen as outstanding young people by the Bovina Chamber of Commerce were Sandi Sides and Ronnie Cary.

Miss Sides is a member of the National Honor Society, is a band officer, was in the junior class play, a class favorite twice, and is active in youth work in church. She played basketball, and is an outstanding member of the Fillies' defending state champion track team.

Cary has been active in Future Farmers, was class president, basketball king, and is active in the Methodist Church, where he attended a leadership conference. Also active in sports, he has played football, basketball, baseball and golf.

New awards were presented by the chamber to an outstanding member of the school faculty, to a senior citizen and a special

community award. Given the outstanding teacher award, which is to become an annual award, was Phyllis Dillman, who is an elementary teacher at the Ridgelea School. The honoree was cited for the extra attention she gives to students.

Longtime resident L.M. Grissom was given a special "senior citizen" award. A director for First State Bank, Grissom was on the board and helped to organize Bovina Wheat Growers, and now is an active member of the Senior Citizens Club.

Special awards were presented to Dick and Mary Richards, for their contribution to the community's new ambulance service.

Banquet speaker was Bill Brown, humorist. Entertainment was furnished by Dorothy and Grady Sorley. Leslie McCain served as master of ceremonies.

Brown told his audience we need to have the proper attitude about our problems. "We need to look on our problems as opportunities," he said.

The speaker said we need to stop every so often and count our blessings. "Look for the good points in your community—be optimistic," he challenged.

Lastly, he said we need to give "expression" to our gratitude. "Scatter the flowers while they're living," he said, in reference to parents or loved ones.

He challenged the audience to reaffirm their belief in the American way, in patriotism, and reminded them that the family unit is the foundation of our society.

Some 350 people attended the function.

## Prairie Acres Party Line

Templo Bautista had our worship services this last Sunday. The music and service were outstanding and enjoyed by all.

This was the first service that Templo Bautista has had; however, we are hoping to give them a permanent place on our calendar.

Since we've been having such pretty weather, Prairie Acres has been a beehive of activity. Everyone is anxious to get out for some fresh air and sunshine combined with a little exercise.

Family members and friends of our residents have taken advantage of the pretty days by visiting, taking residents out for meals or shopping.

Of course, we've had our usual activities including bingo, dominoes, movies, book reviews, newspaper reading and exercises.

The Summerfield Quartet was unable to keep its regular

appointment due to the death of Homer Garrison's mother. Anyone desiring to send cards may address them to 126 Cherokee, Hereford, Texas, 79045.

Two of our residents, Margaret Powell and Lena Bracken are confined to the local hospital.

# Angie Guerra, Ruben Gomez United In Church Ceremony

Miss Angie Guerra of Friona and Ruben Gomez of Bovina exchanged wedding vows Saturday, January 27 at 5 p.m.

Father McGovern of Bovina performed the ceremony in St. Teresa's Catholic Church of Friona.

The bride is the daughter of Mr. and Mrs. Jose Angel Guerra of Friona. The bridegroom's parents are Mr. and Mrs. Adam Gomez of Bovina.

The church was decorated with an arch of pink, peach and dusty rose flowers, ribbon and greenery.

Wedding selections were presented by Cynthia Vega of Friona, pianist, and Diamond Perez of Friona, guitarist. They presented "Lift Your Eyes to Jesus" and "Dios Os Guarde."

As the bride was presented in marriage by her father, she was attired in a formal length gown of dacron polyester organza trimmed with chantilly lace. The gown featured an empire waistline, high lace trimmed neckline, lace sleeves with self ruffles, detachable chapel length train, a deep self ruffle around the bottom of the skirt and a satin bow at the back.

Her veil of bridal illusion was trimmed with chantilly lace. The chapel length veil was attached to a caplet of leaves and pearls.

She carried a nosegay of spider mums, baby's breath, lilies of the valley and ribbons in shades of peach.

Carrying out bridal tradition, she wore a cross belonging to her mother for something old. Her wedding dress was new. She borrowed her earrings from a friend and wore the traditional blue garter.

Rachel Guerra of Friona served her sister as maid of honor.

Bridesmaids were Mary Jane Gomez and Cynthia Gomez, sisters of the groom from Bovina, Sylvia Bermea, Rosa Garza, Frances Guerra, sister of the bride, Blanca Guerra and Norma Cruz, cousins of the bride, all from Friona.

The feminine attendants wore peach colored quiana dresses with empire waistlines, long full sleeves and sashes. They wore cascades of silk flowers in their hair and carried long stemmed silk roses.

Jimmy Soliz of Bovina served as best man.

Chamberlains were Paul Ortiz, Ray Caballero, Eddie Bermea, Salvador Saldana and Ray Lee, all of Friona, and Freddie Quiroga and Victor Robledo, both of Bovina.

Flower girls were Sally Cruz of Friona, daughter of Mr. and Mrs. Andy Cruz of Friona and Patricia DelToro, daughter of Mr. and Mrs. Ray DelToro of Muleshoe.

Train bearers were Rachel Toscano of Muleshoe, cousin of the bride, and Juan Miguel of Muleshoe, cousin of the bride.

The groomsmen wore black tuxedos with peach colored shirts. The groom wore a maroon tuxedo with a ruffled shirt.

The bride's mother wore a two piece pink floor length dress with stand-up collar. The groom's mother wore a dark blue floor length dress.

A reception was held in the Fellowship Hall of the church.

Lisa Guerra, sister of the bride,

and Jose Gomez, brother of the groom, presided at the guest register.

The four tiered wedding cake was decorated with pastel flowers. A fountain was under the bottom layer with piano shaped cakes on each side with sitting stool.

Mrs. Claudio Tamez of Bovina served cake.

For a wedding trip to Las Vegas, New Mexico, the bride wore a three piece peach colored vested pants suit.

The couple will reside in Bovina.

Out-of-town guests attending the ceremony were Mrs. Geronima Perez of Muleshoe, grandmother of the bride, Mr. and Mrs. Gilirardo Guerra of Whiteface and Mr. and Mrs. Tony Perez.

The bride attended Friona Schools and is presently employed at Parmer County Community Hospital.

The bridegroom attended Bovina

Schools and is currently employed as assistant manager at Bovina Supermarket.

Performance proves...

## The top 8 corn hybrids on the Irrigated Plains are all from Pioneer.

That's a pretty bold claim, we admit. But in farmer's fields, county agent test plots, wherever they're grown, these Pioneer® brand corn hybrids consistently out-perform competitive hybrids year after year. Each hybrid has its own particular strong points that make it especially well suited for certain environmental and management conditions. When thoughtfully selected and properly managed to meet the conditions, each of these

hybrids delivers top performance... winning performance that's head and shoulders above the competition.

Don't take our word for it. Ask your Pioneer dealer about yield data in your area for the last several years and see for yourself. The consistent performers... the top 8 performers are all from Pioneer!

**Short Supply**  
**3195**

High-yielding, full-season powerhouse! 3195 gets off to a good start with high seeding vigor, then makes the most of High Plains growing conditions. High test weight grain is hard textured and dries down fast. Ideal for grain or silage.

**NEW**  
**3183**

Contest winning yield potential with excellent disease tolerance makes 3183 an ideal companion for 3184. It also has excellent seeding vigor plus good standability and stay-green qualities.

**3305**

A silage grower's dream come true (even if your plans change mid-season)! Tall with good standability and a high grain-to-stover ratio. Adapts well to the high plant populations required for top silage yields. And if your plans change, excellent grain yields make it a profitable grain crop, too.

**Short Supply**  
**3184**

Steady corn maker, popular for excellent yields and consistent performance. Strong stalks, good roots provide outstanding standability.

**3780**

The corn you can manage almost like sorghum. Total fertilizer, water and insecticide requirements similar to sorghum. Maximum water use period makes it an ideal companion crop to cotton. Yield average of more than 7,800 lbs./A in four years of High Plains production at 96 locations.

**NEW**  
**3311**

A new hybrid you can trust like an old friend! It delivers top yields and is an outstanding companion for 3195. It silks earlier than 3195 and performs better under stress.

**3541**

Very early silking, a long kernel fill period, and fast drydown help 3541 produce extremely high yields for its maturity. Give 3541 the management it needs, and it could easily be your top income producer. Excellent standability, ear retention and head smut tolerance.

**3360**

Plant this one for your banker! It has the consistency to be the high-yielding workhorse hybrid you can rely on. Outstanding early season vigor. Excellent for silage on the Irrigated Plains.

## Anne Spring Gives Study Club Program

Modern Study Club members met March 6 for a regular meeting at the Women's Club House.

Faye Reeve, president, called the meeting to order. The Pledge of Allegiance to the Flag was given. Roll call was answered by giving a favorite foreign dish.

Mary Johnston, program director, introduced Mrs. Anne Spring who brought an interesting discussion on "Reflections of a War Bride."

The program closed with the reading of the club collect.

Refreshments were served by the hostesses, Nellie Pearl Shelton and Ilene Osborn to fourteen members and six visitors, Anne Spring, Ethel Ruth Spring, Lucile Lewis, Lucile Rocky, Doris Sears and Mary Boswell.

Have you ever observed more beautiful spring weather than we've been having the past several days? Few people have, so all of us are enjoying the sunshine, balmy temperatures and lack of southwest wind, which is one of our most plentiful commodities in the Texas Panhandle during the month of March.

Two of our favorite apricot trees are in full bloom. They're in the neighbor's yard, but for the past two years we have enjoyed bountiful harvests from them. Randy Weatherley is a good neighbor and he shares his fruit and garden produce with all of us every year.

Let's all keep our fingers crossed, or do whatever is necessary to keep Old Man Winter from returning and robbing us of a good fruit crop.

Curtis and Mary Nell Israel and daughters recently moved to Friona from Lubbock. For a few weeks they lived at the corner of Ninth and Ashland, but the house they lived in sold, so they have moved again.

They are now living in the former home of the late Charlie and Tina Bainum at the corner of Sixth and Woodland. Curtis is the parts man at Friona Ford Sales, Inc. and Mary Nell is a teacher.

Opal and Oscar Baxter have done a lot of traveling since their retirement from the automobile business about a year ago. Their most recent trip was to South Texas. They went down to the Harlingen area in their home away from home.

Then after sightseeing and visiting friends in that area, they took a bus tour into the interior of Mexico.

Now they're home and Oscar is getting itchy fingers to start planting a spring garden. He has probably started since the weather has been so nice.

Hap and Julia Fairchild are home, too. They've been fishing at Zapata and apparently Hap's luck wasn't too good. When someone asked him about it at the Parmer House Restaurant at noon Sunday, he wasn't very enthusiastic about discussing it.

Doris and Eugene Boggs;

Cotton and Ruth Houser and Rene and Jinx Snead have all been to Devil's Lake, where the fish must have been biting a little bit better than they were at Zapata.

At least they had fish to eat while they were gone and brought home a few.

Cotton and Ruth came home in time for Mrs. Ada Houser's birthday. She was ninety a week or so ago. Then, the Sneads had to come home due to the serious illness of Jinx's father, Ivan Gray, who lives in the Port Arthur area.

Enroute to and from Devil's Lake, Eugene and Doris visited with their daughter Robbie, her husband, Hal, and children, Lisa and Mitch, who live in Midland.

Mrs. Haywood Vaughn is also home. She has been down near Roswell visiting in the home of Jeff and Charlotte Cleveland Daniels and their brand new baby girl, Brandi Michelle.

The baby was born February 22 and weighed nine pounds and six ounces. Her great-grandmother, Mrs. Lillian Jones, has also been down to spend a few days with the Daniels family.

The most recent report from Ray White, who had heart surgery in Lubbock recently, is that the surgery was successful and his condition is stable.

The following was borrowed from the Blue and White Review, which is the house organ for Northwest Texas School of Nursing, Amarillo:

Lieutenant Commander James Edmond Stokes, Class of 1966, has been named recording secretary of Sigma Theta Tau, an honor society of nursing schools.

Lt. Stokes is currently attending DuPaul University in Chicago, Illinois and will receive his Master of Hospitalization Science in Nursing degree in May 1979.

Stokes, who will be remembered here as "Jimmy," or "Jim," is the son of Lucy Mae Stokes of Friona and is a 1963 graduate of Friona High School.

He has served in the United States Navy a number of years and has been stationed in California, Japan,

Florida, Connecticut and South Carolina before his present assignment to a base in Chicago.

Jim's next assignment will be assistant chief nurse in a navy hospital in the Phillipine Islands.

Another member of the 1963 graduating class of Friona High School, who is in the nursing field is Tom Gee, son of Mr. and Mrs. J.T. Gee.

In late November Tom graduated from the Ashford Medical Center School of Anesthesia in Puerto Rico. He is now a Certified Registered Nurse Anesthetist and is employed at the Kaiser Hospital in Oakland, California.

Tom lives in San Francisco - about 30 minutes away from the hospital when traffic is normal. Tom and Dan Douglas were good buddies when they were in school and enjoy seeing one another occasionally.

Dan does a lot of his work overseas, but his home base is in San Francisco. One time when he was in Hong Kong, he met up with a man who had been a friend of Tom's at Texas Tech who had lost contact with Tom.

A third member of that graduating class, who is in the health careers field is Dwight Bates. Dwight holds a bachelor of science degree from Abilene Christian University and represented a pharmaceutical supply firm a number of years before enrolling in The Ohio School of Podiatry, which is located in Cleveland.

Following his graduation in December, Dwight hopes to be able to return to the Southwest to do his internship.

Mike Smith is home, too. Mike had some complications following a skiing accident several weeks ago and had to remain in a Denver hospital for awhile.

Included in his list of home town visitors during his stay in the Colorado capital, were Herschel and Edith Johnson.

They're really not winter sports enthusiasts, but do like to go to Denver to visit their daughter, Kay, who teaches there.

Kay Neel, who teaches in Stinnett, Texas, was home last weekend for a visit with her parents, Mr. and Mrs. Otis Neel.

Anita Taylor, who is in the process of moving to Friona from Colorado, is hospitalized at Del Norte. She is undergoing tests and will probably be there several days.

Little Darla Sue Procter of Shallowater has been eagerly looking forward to this weekend. Her brothers, Darren and Wade, are scheduled for tonsilectomies at Lubbock's Methodist Hospital Friday and Darla Sue will be spending the weekend with her paternal grandparents, James and Sue Procter.

Ronnie and Libby Procter and children, Jeff and Jenny, who currently live in Cedar Hill, Texas, also plan to spend this weekend here.

The Alton Peaks and Dale Widners did some furniture moving last weekend. Their daughters, Janice and Jaton, have moved into a furnished apartment in Lubbock and needed "a few things from home."

Of course, the fathers, Alton and Dale were not too busy to load whatever the girls wanted into a stock trailer and take them down. Louise, Elizabeth, Jeff and Alicia went along to supervise the moving operation.

Janice is employed at Methodist Hospital and Jaton is a student at Texas Tech University.

Granville and Irene McFarland came home from Kingsland, Texas, Wednesday evening. Their fishing report was slightly different from some of the others.

They reported, "The fish were just beginning to bite...."

Martha Bates and Lessie Watson also came home from Central Texas Wednesday evening. They hadn't even been fishing. Clyde Watson of Belton had eye surgery in a Waco hospital and Fannie Curry, who is a resident of a convalescent home in Killeen, is ill.

Clyde is a brother of the late J.M. Watson and his wife, Leona, and
