Nixon Says U. S. Afflicted With 'Cancerous Disease'

MANHATTAN, Kan. (AP) — A blunt-spoken President Nixon said today America is afflicted with a "cancerous disease" that is spreading violence and terror as a political tactic.

Egypt Says Peace 'Pitch' Now Dead

U.S. Arms Sales Warning Voiced

By The Associated Press Egypt says America's military support of Israel has killed the U.S. Middle East peace initiative and warns that continued U.S. arms sales to Tel Aviv will result in even more serious consequences.

the Suez Canal, withdrew from the talks Sept. 6 with a demand that the missiles be removed.

Foreign Minister Mahmoud Riad pronounced the peace initiative dead Tuesday but said Egypt "is ready to respect" the Middle East cease-fire as long as Israel doesn't start shooting again.

RIAD SAID Egypt believes "the American initiative has never started since it was practically rejected by Israel from the first moment."

DON'T GIVE UP Sources in Washington said the United States has not given up on its initiative and will do everything possible to get Egypt, Israel and Jordan back to the peace table.

SERIOUS STEP Regarding the cease-fire, the foreign minister said: "Egypt accepted the temporary cease-fire to facilitate the Jarring mission. If Ambassador Jarring could start his work to implement the U.N. Security Council resolution of November, 1967, then we would welcome this and cooperate fully with Ambassador Jarring and continue to give him all facilities needed."

The action virtually assures adoption of a \$55,000 per-crop limit on cotton, feed grain and wheat subsidies. No ceiling has ever been placed on the payments.

Like the French plan, a settlement under the U.S. proposal would be based on the resolution, which called for Israeli withdrawal from Arab territory occupied in the 1967 war and for Arab recognition of Israel's right to exist within secure boundaries.

By a 44-20 vote, the Senate Tuesday reversed an earlier decision in which the \$20,000 ceiling had been written into the agriculture appropriations bill.

The Big Four's ambassadors to the United Nations have continued meetings in New York to discuss the Middle East—their last meeting was Monday—but emphasis shifted to Jarring's peace efforts after the U.S. plan was accepted by Egypt, Israel and Jordan.

The bill now goes to a conference with the House which passed a different version. But the House bill also includes the \$55,000 subsidy limit.

Of Course, Chancellor BERKELEY, Calif. (AP) — Chancellor Roger W. Heyns of the University of California has warned a faculty members against relaxing teaching and classroom requirements, such as happened last spring when U.S. troops invaded Cambodia.

Both versions provide for extension of price support, loan guarantee and subsidy payments and other programs affecting operations of most of the nation's farms.

A five-page document distributed Tuesday, says "significant changes of either content or structure" in courses must be approved by a faculty committee set up for that purpose.

WARRENTON, Va. (AP) — Defense Secretary Melvin R. Laird says present "temporary" economic problems—such as unemployment—are good for America because they provide valuable experience for solving tougher domestic questions.

He warned against permitting course content being "determined conclusively by a vote of students" or "allowing the course to be deflected from its intended aim by extra-academic pressures, political, social or other."

He commented Tuesday night in criticizing "gloom and doom statements about the economy as we shift from war to peace."

NEW YORK (AP) — Rock music spokesmen reject both the tune and the lyrics of Vice President Spiro Agnew's claim that some songwriters and filmmakers encourage drug use.

Declaring unemployment only temporary "as we shift from reliance on war" for prosperity to a peacetime economy, Laird said:

Her 80th Book LONDON (AP) — Agatha Christie, the crime story writer, has marked her 80th birthday with the publication of her 80th book, and it's right abreast of the news—about the fictional hijacking of four airliners.

"This kind of temporary problem is a good kind of problem. It means that we can face up to such important problems as health, education and welfare in much more realistic fashion."

PARADE-FESTIVAL Climax Of Diez Y Seis Celebration Set For Today

Laird made the remarks in accepting the second annual Statesmen in Medicine award of the Airlie Foundation.

As part of the nationwide celebration of "Diez y Seis," Mexican Independence Day, Mexican-Americans in Big Spring are taking part in festivities including a beauty and talent contest, parade, and street dance sponsored by the local chapter of the GI Forum.

Health, Education and Welfare Secretary Elliot L. Richardson, one of the speakers at

The parade today, scheduled to begin at 4 p.m. at Medical Center Memorial Hospital and continue north to Second Street, was planned to include the Webb Color Guard, Webb Wing Commander Col. A. W. Atkinson, and city and county commissioners, the mounted police patrol, the Goliad Junior High band and several floats.

With all but 44 precincts reported, the count showed a vote of 158,597 to 138,992 against removing constitutional authority for "establishment and maintenance of separate schools for white and colored children."

Allen Klein, president of ABKCO Industries, management firm for the Beatles, said, "I would like to know what he bases his assumption on."

Ed Tickner, the group's manager, said, "A lot of hallelujah was raised over the song, but if you listen to the lyrics, you'll see the song is about the group's first trip to England as rock and roll stars."

Another song Agnew mentioned was "Eight Miles High," by the Byrds.

Texas Oil Allowable Hike Granted

AUSTIN (AP) — The Texas Railroad Commission hiked the statewide oil allowable for October to 87 per cent of potential today, the highest market production factor since January, 1949.

RAIL PICKETS Hopes For Fast End To GM Strike Fade

Prospects of a lengthy strike by the United Auto Workers against General Motors Corp. loomed larger today but three railroads reported operations near normal after picketing Tuesday.

Farm Subsidy Lid Rejected By Senators

WASHINGTON (AP) — The Senate, approving a three-year \$3.5 billion agriculture authorization bill, has rejected overwhelmingly an attempt to impose a \$20,000 limit on subsidies paid farmers for not farming.

The increase was granted, however, on the condition that oilmen operate in "strict compliance" with a special order accompanying the allowable.

Both sides in the GM strike were to meet briefly today to set an agenda for future talks as UAW President Leonard Woodcock was to take to the picket lines in Detroit to rally rank and file members.

The action virtually assures adoption of a \$55,000 per-crop limit on cotton, feed grain and wheat subsidies. No ceiling has ever been placed on the payments.

The provision states that: —No oil wells which are under special no-flare gas orders shall violate the no-flare orders.

Serious bargaining was put off until next Tuesday. Top UAW leaders go on a nationwide tour Thursday to meet representatives of the 157 striking bargaining units.

By a 44-20 vote, the Senate Tuesday reversed an earlier decision in which the \$20,000 ceiling had been written into the agriculture appropriations bill.

—No gasoline plant or absorption plant which processes casinghead gas from any well in the state shall be permitted to flare gas in October.

The union called the walkout of nearly 344,000 workers Tuesday in the United States and Canada to back contract demands. Production continues at Ford Motor Co. and Chrysler Corp. where contracts also have expired.

The House bill also includes the \$55,000 subsidy limit.

—No oil field brines shall be produced in "any greater volumes than can be disposed of through approved disposal facilities in order to prevent avoidable damage to the natural environment.

In the rail showdown, federal Judge Howard Corcoran ordered the four AFL-CIO unions to show cause at a hearing today why they should not be held in contempt for violating his temporary restraining order prohibiting the strike.

Both versions provide for extension of price support, loan guarantee and subsidy payments and other programs affecting operations of most of the nation's farms.

Spokesmen for Pan American Petroleum Corp. and Mobil Oil Corp. said they were having little or no success making spot purchases of crude oil for October. R. W. Pitcher of Pan American said his company's inventories were "below working levels."

The pupil was sent to John Sealy Hospital in Galveston for further examination.

Both versions provide for extension of price support, loan guarantee and subsidy payments and other programs affecting operations of most of the nation's farms.

Gulf Oil Corp. dropped its nomination for October because, D. L. Williams said, a sour crude unit at the Port Arthur refinery was being overhauled.

Commission chairman Ben Ramsey said Texas crude oil stocks as of Sept. 4 totaled 97.8 million barrels, or 1.6 million below a week ago, 1.8 million below a month ago and 1.7 million below a year ago.

Both versions provide for extension of price support, loan guarantee and subsidy payments and other programs affecting operations of most of the nation's farms.

Next month's allowable will permit maximum production of 4,234,781 barrels a day, compared to 3,949,560 this month under a 79.9 per cent factor.

The four men and four women were found guilty of compulsion and deprivation of liberty by forcing the airliner at gunpoint to divert its course from a domestic route to Germany.

As part of the nationwide celebration of "Diez y Seis," Mexican Independence Day, Mexican-Americans in Big Spring are taking part in festivities including a beauty and talent contest, parade, and street dance sponsored by the local chapter of the GI Forum.

The activities began Tuesday night when Pat Huante, Belen Rubio, and Irma Vargas were chosen as finalists in a queen contest at a dinner held at St. Thomas Catholic Church.

Miss Huante is the daughter of Mr. and Mrs. Bernard Huante. Miss Rubio is the daughter of Mr. and Mrs. Benito Rubio, and Miss Vargas is the daughter of Mr. and Mrs. Hijino Moreno.

The parade today, scheduled to begin at 4 p.m. at Medical Center Memorial Hospital and continue north to Second Street, was planned to include the Webb Color Guard, Webb Wing Commander Col. A. W. Atkinson, and city and county commissioners, the mounted police patrol, the Goliad Junior High band and several floats.

Tonight's street dance will begin at 7 p.m. in front of Gomez Hall, where two blocks of West Fourth street will be blocked off to traffic. GI forum members have been designated by the mayor as special deputies for patrolling the inside of the perimeter and preventing any disturbance, with the regular police patrolling outside the perimeter.

Allen Klein, president of ABKCO Industries, management firm for the Beatles, said, "I would like to know what he bases his assumption on."

Ed Tickner, the group's manager, said, "A lot of hallelujah was raised over the song, but if you listen to the lyrics, you'll see the song is about the group's first trip to England as rock and roll stars."

Mayor, Foes Slate Confab

SAN ANTONIO (AP) — A meeting was set for 2 p.m. today between Mayor W. W. McAllister and members of a Mexican-American group whose protests against him erupted in violence last week.

A spokesman for the group, meeting at the home of State Sen. Joe Bernal, said shortly after midnight that both sides had agreed to the session.

Roman Catholic Bishop Patrick Flores will act as mediator, spokesmen said.

McAllister, 81, has faced criticism on several fronts since July, when he remarked in an NBC-TV interview that Mexican-Americans are perhaps not quite as "ambitiously motivated as the Anglos are to get ahead financially."

A Mexican-American boycott committee began picketing his savings firm and called on others to boycott it.

Mass arrests and a clash between protesters and police grew out of stepped-up picketing last week.

Committee spokesmen expressed hope that city manager Verdad Henckle also would attend today's meeting.

"The boycott committee feels it is symbolic that this meeting is held on Sept. 16, Mexican Independence Day, as the committee will discuss the denial of freedom and equal opportunities of the Mexican-Americans in our community, and explore the possibilities of further self-determination of this vital force in our city," the group said in a statement.

AMMAN, Jordan (AP) — A royalist military regime, dominated by British-trained Field Marshal Habis Majali, took power in Jordan today and imposed martial law to put an end to the threat of civil war.

One of Majali's first acts was an appeal to rebellious Palestinian guerrillas to respect a new cease-fire agreement with the royal army, set to go into effect at noon EDT.

FASCIST REGIME
Damascus radio reported that Yasir Arafat, head of the Al Fatah guerrilla organization and over-leader boss of all Palestinian commandos, had placed guerrilla forces under an "emergency alert" and under his personal command to fight what he called Jordan's new "Fascist regime."

The broadcast said Arafat had summoned all Arab ambassadors from Amman to convey to them the decision of his Central Committee of the Palestinian resistance movement. It said Arafat had pledged to fight the new Jordanian government "to the end."

Football Barbecue Set For Friday

Tickets are still available — and will be at the door — for the traditional football season opening barbecue of the Evening Lions Club.

The event, staged always from 5 p.m. to 7 p.m. on the evening of the first home football game, will be held Friday at the Downtown Tea Room.

No reservations are necessary, and Squeaky Thompson, ticket chairman, urged football fans to avoid the problem of preparing an evening meal and cleaning the supper dishes before game time. Tickets are only \$1.50 for a bountiful meal with all the trimmings.

Skyjackings Up Insurance Rates

LONDON (AP) — Lloyds of London never discloses its insurance rates, but sources close to insurance circles say premiums that airlines pay for coverage against hijackers have been raised by as much as 500 per cent in some cases.

Lloyds maintains that there has been no change in the hijack insurance market.

Big Spring (Texas) Herald, Wed., Sept. 16, 1970 3-A

FIELD MARSHAL HABIS MAJALI
Jordan's new military governor

Martial Law In Jordan

The new government, clearly acting under Majali's control, is headed by Brig. Mohammed Daoud, a Palestinian from Jerusalem, as prime minister. He is said to be fiercely loyal to the king.

Informed sources said at least one army officer, two soldiers and the 15-year-old son of the new military governor of the Amman district, Gen. Kassem El Mahta, were killed in fighting Tuesday between Palestinian guerrillas and Jordanian troops in Zarqa, 15 miles from the capital. Guerrillas were also reported in control of Irbid, Jordan's second largest city, 40 miles north of Amman.

FIGHTING
The guerrillas clashed again today with the army in Zaqa, with both sides firing heavy rockets and artillery. The guerrillas controlled the town, as they have for the past few weeks, with the army following its policy of staying in position on the town's outskirts.

The new government said in a proclamation that its primary objectives would be to end internal fighting, assist the Palestinian resistance movement, and implement cease-fire agreements between the government and the guerrillas.

The latest agreement calls for withdrawal of most army units from the cities in return for the removal of guerrilla roadblocks, an end to their armed presence in the streets, and other shows of guerrilla force seen by the government as provocative.

It also replaces troops with police at embassies and public buildings in Amman, with guerrillas to be stationed outside the city's electric power station and other sites of recent fighting.

Most of a dozen earlier agreements were broken by the guerrillas.

King Hussein urged his people in a radio speech to give their "selfless cooperation" to the new government to help return the strife-torn country to normal.

In accepting his new post, Majali pledged "unswerving allegiance" to the king and the Hashemite throne.

NO REACTION
There has been no official reaction from the guerrilla movement on the appointment of the new government, but the deep mistrust between the two sides was reflected in a guerrilla broadcast urging the commandos to "keep your fingers on the trigger and remain vigilant."

The military takeover had no direct link with the fate of airline hijack hostages still held in secret locations by the Popular Front for the Liberation of Palestine, one of the more extremist guerrilla groups.

The hostages, apparently split into small groups, were believed held in various guerrilla camps near Amman.

It seemed likely, however, that the king's exasperation over the quadruple hijackings on Sept. 6 contributed to his decision to place the nation under military rule.

AF Probing Mistreatment Claims Filed By Trainees

SAN ANTONIO (AP) — The Air Force says it is investigating mistreatment claims filed by a trainee against drill sergeants at Lackland Military Training Center, where 14 recruits leveled similar charges a year ago.

Officials also said the Air Force inspector general is here "to review the over-all operation and training procedures."

Lackland is the only Air Force basic training facility.

Two training sergeants have been relieved of duty pending outcome of the investigation.

A spokesman said authorities were checking on a basic trainee's complaint that he required surgery after a sergeant banged his head and another airman's head together.

NO NAMES
No names were made public. Officials said the airman, from Omaha, Neb., claimed that the incident occurred Sept. 5. After he became ill, doctors diagnosed a blood clot in his head and performed surgery, a spokesman related.

The spokesman said the airman filed his complaint after regaining full consciousness last Wednesday. He said the airman is still hospitalized.

The other airman, from Los Angeles, was reported uninjured. Both were in their third day of training at the time, the spokesman said.

Fourteen trainees filed mistreatment claims against Lackland sergeants a year ago.

CAN'T SAY
An investigation followed and three training sergeants were tried by courts-martial. Two were convicted in December of 1969 and each received a \$225 fine and a reprimand. The third was found innocent.

One of the sergeants involved in the current probe has been a Lackland training instructor for about three years, a spokesman said. He said he was "not at liberty to say" why two drill sergeants had been relieved of duty in connection with the case.

"Depending upon the outcome of the investigation," spokesmen said, "the instructors could face court-martial proceedings."

Officials said Gen. John Ryan, Air Force chief of staff, ordered the Air Force inspector general, Lt. Gen. Selman Wells, and a team of inspectors to review the training center's over-all operation.

HOUSTON (AP) — A third day of testimony was scheduled today in the trial of Dr. Archie H. Burkhalter of Pasadena, charged with hiring the sniper slaying of his partner.

The trial recessed early Tuesday when Dist. Judge George L. Walker sent the jurors home after tropical storm Felice appeared headed for the Houston area.

Burkhalter is charged in the sniper slaying of Dr. Robert E. Pendleton Jr., gunned down on the steps of the Red Bluff Hospital in Pasadena which he and Burkhalter owned at the time.

In Tuesday's testimony, two witnesses testified they saw a man resembling Robert Edward Akridge run from the hospital at the time of the slaying.

The other airman, from Los Angeles, was reported uninjured. Both were in their third day of training at the time, the spokesman said.

Latin Parents Ask For Help

VICTORIA, Tex. (AP) — Government intervention was asked Tuesday in a suit over desegregation of Corpus Christi schools.

The motion came from counsel for Mexican-American parents who brought the suit against the school system.

U.S. Dist. Judge Woodrow Seals took the proposal under advisement.

The jurist said he had no objection to asking what help the federal government could give the court but he wanted the Corpus Christi school board to have an opportunity to study the motion.

It was the plaintiffs' contention that resources, skill and technical assistance can best be provided by the government through the Department of Health, Education and Welfare.

BY LUCILLE PICKLE

There is much more of the beautiful serenity about the city than shows up before the riotous blooming season, one of which it is in at the present time. It has been said there is no more grateful plant than this desert sage when it comes to responding to a "drink of water". I never really realized what Zane Grey was talking about in his "Riders of the Purple Sage" until ours got to be so beautiful. I don't suppose the plants were too thick when he used them as a color background for his novel, but he certainly recognized beauty when he saw it.

MRS. JEWEL KUYKENDALL who lived here so many years is back visiting her many friends, among them MRS. RILLA WEBB. Mrs. Kuykendall now makes her home at her cottage on Lake LBJ next door to that of her daughter and son-in-law. Judy had been in Lubbock visiting relatives last week and was among those who enjoyed the Lawrence Welk program.

Had a nice telephone chat with MRS. ALTA KING who called to say she had talked to her daughter, Mrs. CLYDE PEARCE and Mr. Pearce Sunday and they were in Amsterdam, Holland. Just before the call was expected to come through, Mrs. Pearce's son, JACKIE MILAM, who lives in McCamey, happened in to see his grandmother King, so he was on hand to talk to his parents.

Mr. Pearce is employed by the Oasis Oil Co. in Tripoli, Libya, and the couple has lived there several years. They are now on a 45-day vacation that will take them to Rotterdam before they leave on a five-day cruise down the Rhine River in Germany.

They will spend time in France and Switzerland and then take a train to Austria and then enplane for Spain, Portugal and Tunisia before returning to Tripoli.

The Pearces plan to retire late in December and will make their home at their lake house on Lake Colorado City.

The ODELL WOMACKS probably won't speak to anyone for a while if anything happens to their plans to make a plane trip to the Orient. It's not so much what they would miss seeing but "everything's taking" according to Mrs. Womack and they are "feeling their shots" so to speak. It would be unbearable as far as they are concerned to have gone through all this discomfort and still have to stay home.

If the plans hold up, they will leave Oct. 15 for Hawaii, and they then will go to Taipei, Taiwan, where they will be the

guests of former Big Spring, WELDON BIGONY, and his wife. Weldon is a commercial pilot and flies out of Japan now. (Their three children are all students at Texas Tech University in Lubbock.) The Womacks will go with the Bigonys to Japan and tour some in Thailand and Hong Kong.

The trip is one that MRS. STEWART WOMACK, of Fort Worth, Odell's mother, his sister, MRS. T. R. BARNHILL, of Hobbs' N.M., and MRS. NOVIS WOMACK have recently made. They are expected back at the end of the week, except Mrs. Novis Womack who stopped in Okinawa to see her daughter and son-in-law and their new grandbaby.

MRS. FLOYD PANNELL called to say she had a letter from the OMER WILLIAMSES, who are now living in Hope, Ark. The Williamses had moved from here to Morgan's Point on Lake Belton. They were through with their work the first of this month and then left to make their home in Hope. Their address is 313 N. Washington, 71801.

POLICE OCCUPY PANTHER HEADQUARTERS — Police occupy the Black Panther headquarters in New Orleans following a shootout Tuesday morning.

Cops Mount Fresh Attacks On Suspected Firebombers

By The Associated Press

One black man has been killed and a total of six wounded by police gunfire in New Orleans and Birmingham as officers and deputies mounted new attacks on suspected firebombers and Black Panther sympathizers in those Southern cities.

The New Orleans death occurred Tuesday night when four policemen hiding in a grocery store in the neighborhood where a gun battle had taken place earlier in the day shot four blacks with shotguns. Police said they had information the store was to be firebombed.

EVICTON NOTICE

Three of the men shot were found in the dark outside the store and taken to a hospital, where they underwent surgery. The fourth lay under a street light for more than two hours until an armored car arrived because police said they might be exposed to sniper fire if they moved unprotected into the lighted street.

The grocery store was near the Black Panther headquarters

that police raided during the morning.

In Birmingham, three blacks were wounded Tuesday when deputies moved in on a house occupied by members of the Alabama Black Liberation Front, Chief R.E. Belcher said the ABLF was "part of the Black Panthers or trying to be."

Jefferson County Sheriff Mel Bailey said the raid was conducted to serve an eviction

Mayor Reveals He Didn't Vote

MINNEAPOLIS (AP) — Mayor Charles Stenvig said he didn't vote in Tuesday's primary election because "I don't believe in voting a straight ticket."

Stenvig, who won his office last year running as an independent, said there were not enough "good men" on either party ticket this year to warrant a straight party vote.

notice. A volley of shots accompanied the action but it was unclear whether any were fired by the blacks, he said.

KICKS IN DOOR

Shots were fired when deputies kicked in the door of the building and saw men holding what appeared to be rifles or shotguns, Belcher said. A rifle and a shotgun, both loaded, were confiscated afterwards.

The three wounded men and a woman were arrested and charged with resisting arrest and assault with intent to murder. One of the men, Wayland Bryant, 42, was described as the leader of the Panthers. All are Birmingham residents.

In Mobile, Ala., shots were fired from a passing car Tuesday night into the home of Bishop William Smith, former president of the Alabama chapter of the National Association for the Advancement of Colored People. His wife was in the rear of the house when the shot was fired through a front window but was unharmed. The bishop was away at the time.

Base Becomes Second Home For Families

SAN ANTONIO (AP) — Lackland Air Force Base is becoming almost a second home to military families at the Matagorda Island Air Force range on the Texas coast.

In the past two months they have been evacuated twice in the face of hurricanes, moving into officer training school quarters at Lackland.

The Matagorda base an Air Force practice shooting range, is on an island between Corpus Christi and Port Lavaca.

The first evacuation occurred when Celia approached Texas last month.

This time between 100 and 200 families were first alerted for Hurricane Ella.

Then, as Mrs. Salvador Barrientes tells it, "We had just unpacked our suitcases when we heard about Felice. We've been living out of suitcases for three days."

Mrs. Barrientes, an Amarillo native, reached Lackland at mid-afternoon Tuesday with her mother, four children and a neighbor.

She was among several wives of Air Force men who made the drive here to wait out the storm threat.

She said the men of the families were transferred to Foster Field at Victoria, where most of the moveable military equipment from Matagorda is taken as part of the evacuation procedure.

'Malignancies' Is Topic Of Lecture

"Recent Advances in the Treatment of Malignant Disease" will be the topic of a lecture and video-tape to be presented Thursday at 1:30 p.m. at the Veterans Administration Hospital. Dr. William Gutierrez Figuerola, head of the outpatient medical clinic at the University of California at Los Angeles, will present the program.

Dr. Figuerola's lecture is part of an educational series sponsored for the benefit of its hospital staffs by the VA. Medical professions in the community are also invited to attend the series.

A video-tape will be presented with the lecture to demonstrate the latest techniques for combating malignant disease.

Dr. Figuerola is a member of several medical associations and research groups. He is also the author of 39 publications concerning his medical research.

Controversial Volumes Up For Approval Today

AUSTIN (AP) — The State Book Committee ballots today on a large group of books, including several controversial volumes intended to make literature "relevant" to minority pupils.

Recommendations of up to five texts per course will go to state Education Commissioner J. W. Edgar and the State Board of Education for final action.

Textbooks will be adopted by the board Nov. 9.

WORLD HISTORY

Ten world history, six literature and seven biology books

were criticized at Tuesday's hearing before the committee.

Appearing in protest to various books were Mrs. Mel Gabler, Longview; Mrs. Charles N. Baker, Sanger; Mrs. H. G. Vanderlee, Tyler; and the Rev. Charles A. Clough, Lubbock. Publishers generally relied on written rejoinders.

The history and biology books were criticized, generally, for their discussion of the theory of evolution. Protesters also claimed certain history books were too sympathetic in their treatment of communism

and not sympathetic enough to Christianity.

FIRST TIME

This year, for the first time, the Board of Education asked publishers to submit some books for 11th and 12th grade literature with which "cultural minorities can identify strongly" and containing "numerous selections written from the point of view of the minority groups."

The "Crossroads 11 and 12" series, published by Noble and Noble, and the "MacMillan Gateway English" series, which fit that criterion, were criticized strongly by Mrs. Gabler, Mrs. Baker and Mrs. Vanderlee.

Mrs. Gabler, who said she is in her tenth year of screening textbooks, said the crossroads books are directed "90 per cent to one race."

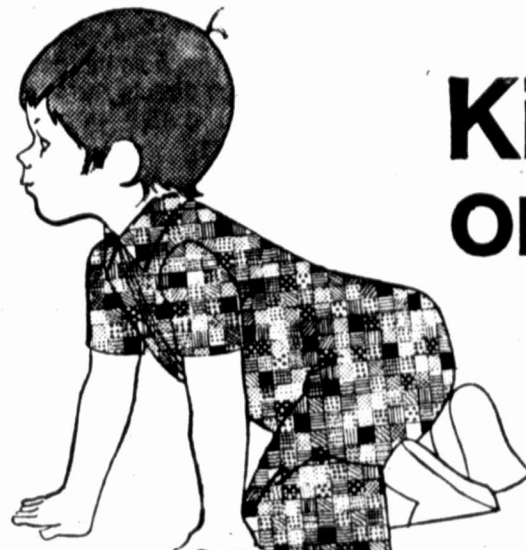

"But beyond race is the prejudice, the hatred, the crudeness. After reading these books I wanted to go out and vomit," Mrs. Gabler said, her voice quivering.

TRY AGAIN

"I read some of them three times to see if I hadn't read something wrong," she added.

Mrs. Vanderlee, who said she was the mother of two high school pupils, said most of the stories in the "Voices of Man" series published by Addison-Wesley are "sad, depressing, violent, provocative or degrading to some person or element in our society."

She said "From Jazz Country," a story about a white boy and a Negro musician, is a "depressing, race-agitating story."

ACTRESS PREPARES FOR MOTHERHOOD — Actress Tina Louise, shapely redhead who has epitomized sex in film and television, sits on the floor of her San Fernando Valley home discussing the forthcoming birth of her first child—although she has recently filed for divorce from the baby's father, TV personality Les Crane. She's an advocate of yoga and maintains a daily regimen of meditation and exercises.

She Is Spending Her Time Waiting

By BOB THOMAS

HOLLYWOOD (AP) — "I've had good experiences and bad experiences all my life, plenty of both. But this one is going to be good — I'm convinced of that."

Tina Louise, the shapely redhead who has epitomized sex in films, "Lil Abner" and television, "Gilligan's Island," was reflecting about her unusual situation: she is expecting her first child on Oct. 23; she recently filed for divorce from television personality Les Crane.

The prospect of facing a fatherless birth doesn't seem to faze her.

IT'S NOT EASY

"Of course it's not easy," she remarked at the Hidden Valley home where she lives alone. "There are times when I become overwhelmingly lonely. But I've entered a new phase: the baby is kicking now. That becomes a reminder that it will all be worth it."

Miss Louise has always been a frank and open talker, but she was strangely silent about the details of her parting with Crane. She said only that they both were aware of the pregnancy before they separated—"the rest is too personal to talk about."

Folksinger Sentenced For Sex Sin

WASHINGTON (AP) — Folksinger Peter Yarrow has been sentenced to three months in jail for taking "immoral liberties" with a 14-year-old girl in a Washington hotel on Aug. 31, 1969.

Yarrow, best known as a member of the Peter, Paul and Mary trio, had pleaded guilty in March.

His wife, Mary Beth, 23, cried softly as Judge Edward M. Curran handed down the sentence after hearing a plea for mercy from attorney Edward Bennett Williams.

Yarrow, 32, was led away immediately to begin serving the term. With good behavior, he could be freed in 75 days.

Moments earlier Yarrow told the court "I am deeply sorry, I have hurt myself deeply, I hurt my wife and the people who love me. It was the most terrible mistake I have ever made."

Curran said he could not grant Yarrow probation because of the nature of the crime. "What he did is bad," said the judge.

Curran, however, suspended all but three months of the full sentence of one to three years.

Williams said Yarrow would continue treatment by Dr. Salvano Arieti, a New York psychiatrist.

According to a statement by the girl involved, she and her 17-year-old sister went to Yarrow's room after telephoning him from the lobby.

The statement, read aloud by Curran at the time of Yarrow's plea, said that the singer had greeted the girls at the door naked. A few minutes later, it continued, the younger girl and Yarrow engaged in an illegal act while her sister watched.

Attorney Williams said the girls were "groupies" whom he described as a "liberated breed" of female hero-worshippers who swarm around rock musicians.

The attorney added the girls were "sexually mature" and the younger one had lied about her age.

Williams said Yarrow does not plan any more public appearances but instead, with his wife, will devote his activities to social improvement projects.

Moneyless Panel Plans JFK Memorial

AUSTIN (AP) — A state commission which the legislature de-nied funds has gotten a late start in its efforts to arrange a "living memorial" to the late president John F. Kennedy.

Two Dallas men, developer Raymond Nasher and lawyer William D. Cox Jr., were elected chairman and vice-chairman of the John F. Kennedy Memorial Commission at its first meeting Tuesday.

Bernard Rapoport of Waco said Sen. Ted Kennedy, D-Mass., the late president's brother, had called him "several times . . . He's very interested in this . . ."

The first thing the nine-member commission learned was that the 1969 legislature which created it turned down attempts to provide \$55,000 in state funds for it to operate.

The members will have to pay all their own expenses. But they still agreed to meet several times around the state and to write colleges, fraternal, civic and other groups to find out how Texans want to memorialize Kennedy.

Nasher said even Sen. Mike McKeel of Dallas, who sponsor the bill creating the commission, was "surprised" that no state funds were available.

The commission went into effect Sept. 1, 1969, and the members were appointed by Gov. Preston Smith.

Rapoport, president of the American Income Life Insurance Co. and a frequent fund raiser for liberal causes, said the "central thing about Kennedy was that he was concerned with the dignity of each individual . . . not just those with an IQ of 140-150."

He said a "fitting tribute" to Kennedy would be scholarships "for those who want to go to vocational schools" or a "John F. Kennedy Symphony Orchestra in Texas—amply endowed, that would play all over and probably not charge admission.

Legion Meeting

American Legion post 355 will hold awards night at 8 p.m. Thursday in the post home on Country Club Road. All members eligible as of 1970 will receive membership awards, Larry Phillips, commander, said. Veterans who are not members of the post are also invited to attend the meeting, Phillips said.

Dear Abby

DEAR ABBY: I would like to comment about the middle-aged widower who had arranged for a "cute young doll" to come to his hotel room for some "pleasure — C.O.D."

"The doll turned out to be the daughter of a friend of his. He said she held a secretarial job and he had always thought she was a lovely young lady. He said as soon as he opened the door and recognized her, he called it off by saying, 'there had been some "mistake" . . ."

Now he wonders how she can face him when he goes to visit her parents?

I would like to ask him how he can face her? What makes him think that he is blameless? Wasn't it a two-sided proposition? What's good for the goose is good for the gander.

GANDER AND GOOSE
DEAR G AND G: The young doll was obviously new in the oldest profession. It's hard to say which one has more cause to be humiliated — the buyer or the seller. I suspect if this gander and goose never see each other again it will be ducky for both of them.

DEAR ABBY: I have a friend who is a great talker. The minute she appears she starts talking and goes on and on without hardly coming up for air. No exaggeration, last Sunday we went for a drive and she talked for six hours straight. All I said was "Uh-hu" and "Is that so?"

How does one handle such a very charming person. Thank you. **NO NAME, PLEASE**
DEAR NO NAME: How can a nonstop talker be "charming?" And when? If you can explain that to me I will tell you how to "handle" the situation.

DEAR ABBY: The people down the block have a beautiful collie dog, and she is a mess.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply enclose stamped, addressed envelope.

Bank Slices Prime Rate

PHILADELPHIA (AP) — The First Pennsylvania Banking and Trust Co., the nation's oldest bank, has cut its prime interest rate by one-half point.

By doing so it became the first big American bank to adopt a 7½ per cent interest charge on loans to blue chip borrowers during 1970.

Two years ago, First Pennsylvania, the city's largest bank, was the first to drop its prime rate to 6½ per cent. Other banks followed suit two weeks later.

The prime rate is the interest a bank charges large corporate customers. Many economists have said a prime-rate reduction would stimulate the economy and create new jobs.

Your entire family protected for a full month FREE!

No obligation on your part—continue after first month, only if you wish, at low rates shown below.

- ★ Pays you cash at the rate of \$400.00 a month for each hospital stay... even for life, if necessary.
- ★ Pays in addition to any other companies' coverage you have—including Medicare.

- ★ Pays all cash direct to you (not to doctor or hospital).
- ★ Guaranteed Renewable for Life. National Home guarantees never to cancel your protection no matter how old you become or how many claims you have.

No salesman will call—No medical examination required—No age limit

SEND NO MONEY—BUT MAIL YOUR ENROLLMENT FORM BY MIDNIGHT, THURS., SEPT. 24, OR IT CANNOT BE ACCEPTED

ONE out of two families will have someone in the hospital this year! It could be you—or some beloved member of your family—tomorrow... next week... next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in our National Home plan that...

Pays you \$400.00-a-month tax-free cash whenever you are hospitalized.

What a blessing it is when you know you have \$400.00 cash coming in every month when you go to the hospital. You get your \$400.00-a-month cash—tax-free—as long as you are confined in the hospital. You are covered from the very first day for accidents and from the fourth day for sickness—even for life, if necessary! Most everyone has some insurance or savings to take care of a one to three-day hospital stay. Since we provide lifetime benefits, this "deductible" feature enables us to give you the broadest possible coverage at the lowest possible cost.

Now, this low-cost plan from National Home enables you to enjoy this protection at once, FREE. Yes, we will provide the first month's coverage for your entire family without cost... to prove the value of this wonderful tax-free cash protection for you and your loved ones. Then, you may continue at National Home's regular low rates.

The added protection you NEED!

All benefits of our \$400.00-a-month plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your insurance with any other company! Use the money as you see fit—for hospital or doctor bills, mortgage or rent payments, to replace savings—or any necessary, but costly, expenses not covered fully by other hospital policies. Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have some hospital insurance, most have found it does not cover all bills that pile up when sickness or accident strikes. That's why National Home developed this low-cost plan that helps you pay hospital costs or other expenses.

We can never cancel your policy!

You can count on this wonderful protection no matter how old you become or how many times you collect from us. Your policy guarantees that we can never cancel your protection for any reason whatsoever. It is Guaranteed Renewable for Life! And that's not all. Suppose you have a growing family—this policy (NH10-669EP)...

- PAYS \$400.00-A-MONTH CASH** for each accident or illness. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the fourth day in the hospital.
- PAYS \$200.00-A-MONTH CASH** for the first three months, when you're 65 or over. And a full \$400.00-A-MONTH CASH thereafter—even for life. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the fourth day in the hospital.
- PAYS \$240.00-A-MONTH CASH** if a covered child is hospitalized for injury or illness. Coverage for accidents begins the very first day in the hospital; sickness coverage begins the fourth day in the hospital. And the benefits continue for as long as necessary.
- PAYS \$1,600.00-A-MONTH CASH** when both husband and wife (under age 65) are hospitalized at the same time for accidental injury or as long as both remain in the hospital—even for life, if necessary.
- PAYS \$400.00-A-MONTH CASH** for a Registered Nurse at home if your doctor has you hire one within five days following a covered hospital confinement of five days or more.
- PAYS up to \$2,000.00 CASH** for complete accidental loss of limbs or eyesight.

65 OR OVER? YOU COLLECT IN ADDITION TO MEDICARE BENEFITS

We have designed this plan as a valuable addition to whatever is paid by Medicare—or health insurance you may have with any other company. Remember, all checks will be sent directly to you (not to the doctor or hospital), to give you that "extra" help just when you need it most. Use the tax-free cash any way you see fit. In addition to any benefits you may receive from Medicare, this National Home plan pays you at the rate of \$200.00 a month for the first 3 months, and \$400.00 monthly while hospitalized thereafter... even for life, if necessary!

Pays you \$240.00-a-month cash whenever any dependent child is hospitalized.

When you choose Coverage for Children, all your dependent, unmarried children from age one month through 18 years are covered, too! What's more, any newborn children you have in the future are covered automatically at the age of one month—at no additional cost to you. And whenever any of your children go to the hospital—for removal of tonsils or appendix, for any illness or injury—this National Home plan pays you at the rate of \$240.00-a-month cash, for as long as necessary. Children are covered for accidents from the first day and for sickness from the fourth day.

Pays you tax-free cash Maternity Benefits, too.

With this plan, you can also collect cash at the rate of \$400.00 a month for every day you are confined to the hospital for pregnancy, childbirth, or even miscarriage. You get this cash, which is yours to use as you see fit, when Coverage for Children and Maternity Benefits have been added to the basic plan.

Pays you up to \$4,800.00 cash for a Registered Nurse at Home.

Here's a wonderful "get well" benefit of this National Home plan: You collect cash benefits at the rate of \$400.00 a month when your doctor has you employ a full-time registered nurse within five days after you come home, following a stay in the hospital of five days or more for which benefits were payable. You are actually paid for every day you were in the hospital—even up to 12 full months!

Double Cash Accident Benefit.

When you and your insured spouse are hospitalized at the same time for an accidental injury, this National Home plan pays you an EXTRAORDINARY DOUBLE CASH BENEFIT. You receive not \$400.00 but \$800.00 a month. Your spouse receives not \$400.00 but \$800.00 a month. That's \$1,600.00 in all, in cash payments to you every month (when under age 65) starting the day you enter the hospital for as long as you both remain there.

Pays you up to \$2,000.00 cash for these accidental losses.

The accidental loss of limbs or eyesight can be terrible. But if such loss occurs any time within 90 days of the accident, you collect \$1,000.00 for the complete loss of a hand or a foot or the sight of an eye—and \$2,000.00 for loss of two limbs or the sight of both eyes.

Waiver of premium benefit.

Should you—the policyowner—be hospitalized for 8 consecutive weeks or more, this National Home plan will PAY ALL PREMIUMS that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. And your protection continues just the same as if you were paying the premiums yourself. Then, if you leave the hospital and must return for the same condition before you have resumed full normal activities for 90 days, we will again pay any premiums while you are in the hospital—for the total confinement! This means you pay no premiums, yet your full protection remains in force.

These are the ONLY exclusions!

Your National Home policy covers every kind of sickness or accident except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy... during the first 2 years only.

This last item is a real help if you already have a health problem. If you are sick before you take out this policy, you will even be covered for that condition after the policy has been in effect for 2 years. Meanwhile, of course, every new condition is covered.

Nationally known and respected.

This is the kind of outstanding protection you have read about in *Reader's Digest*, *Parents*, *National Geographic* and other leading publications. The special plans offered by the National Liberty Corporation group of companies are today helping policyowners in all 50 states—and many foreign countries—paying benefits at the rate of more than \$1,500,000.00 a month. Fast, reliable claim service when needed most. You never really know how good a policy is until you have to make a claim. That's why we think you'll be interested in what some of our National Home members have to say. Their comments—quoted below—are typical of the hundreds of expressions of appreciation we receive from policyowners every week...

"Received your check for \$500.00. I appreciate having the money sent directly to me so I could decide how to use it."
NICHOLAS CRISTL, Green Bay, Wis.

"It was wonderful to receive your check for \$555.00. I'm very pleased. It paid real well."
Mrs. BESSIE GEISINGER, Kansas City, Mo.

DR. E. STANLEY JONES, internationally known evangelist, author, missionary statesman: "In offering low-cost health insurance by mail, you are rendering a valuable service to thousands of people who have no other opportunity to avail themselves of such protection. It's reassuring to know that policyowners insured by the National Liberty group are receiving more than \$1,500,000.00 a month in benefits."

LT. GEN. W. K. HARRISON, U.S. Army (Retired): "People benefit in many ways when they purchase insurance direct by mail from National Home Life Assurance Company. They save money through lower rates. No salesman calls. And no medical examination is required. I consider it a sensible, economical way to increase one's health protection in these days of mounting hospital and medical costs."

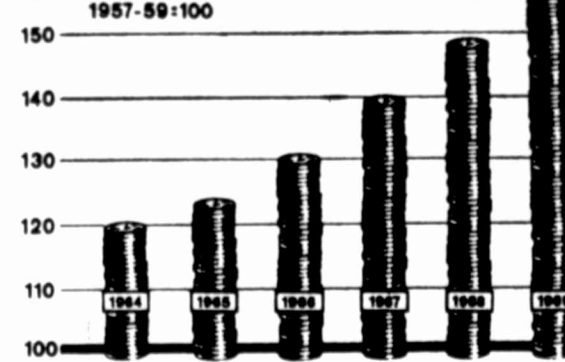

JEROME HINES, leading bass with the Metropolitan Opera Company: "It seems to me that the concept of health insurance by mail is a very sensible one. It's quick, easy and economical. Nobody makes surprise visits to your home to ask personal questions. There's no medical examination. And costly processing charges are eliminated. This means more protection at less cost. I congratulate National Home Life Assurance Company for meeting a real need."

Why you must act before the date shown on your Enrollment Form—just a few days from today.

Why do we give you so little time to enroll in this plan? Because this is a guaranteed enrollment offer, we can open the enrollment only during a limited time period—with a firm deadline date for everyone. To provide you with this broad coverage at these rates, we must receive your Enrollment Form during the same period as all the other members of your family. As soon as we receive your Enrollment Form we will rush your policy to you by First Class Mail. When your policy arrives, examine it in the privacy of your own home. It is a very short document and you'll be pleasantly surprised to see there is no fine print. Show it, if you wish, to your doctor, lawyer, insurance agent, or some other trusted advisor.

Coverage for illness begins the fourth day—and benefits are paid in full for as long as you're hospitalized... even for life, if necessary.
- Do you pay me cash when my children go to the hospital?**
You collect cash at the rate of \$240.00 a month whenever any of your children (age 1 month through 18 years) go to the hospital—if Coverage for Children is added to the basic plan. Coverage for accidents begins on the first day—sickness on the fourth day. And if you have a growing family—as soon as any newborn child is one month old, he, too, is covered—automatically... at no additional cost.
- Will you pay me cash benefits for pregnancy?**
Yes, when Coverage for Children and Maternity Benefits have been added to the basic plan. You collect cash at the rate of \$400.00 a month for pregnancy, childbirth or miscarriage that results in a hospital stay.
- Are there any other cash benefits I can collect?**
There are! If you and your insured spouse are both in an accident and hospitalized at the same time, you receive this DOUBLE CASH BENEFIT: You collect at the rate of \$800.00 a month and your spouse collects at the rate of \$800.00 a month—you receive a total of \$1,600.00-a-month tax-free cash (when under age 65) for as long as you both remain in the hospital. Then, too, if any accident results in the complete loss of limbs or eyesight—even as long as 90 days after the accident—you are paid up to \$2,000.00 cash.
- Suppose I'm hospitalized for a long time and can't meet my premium payments?**
If you—the policyowner—are hospitalized for 8 consecutive weeks or more, this National Home plan will PAY ALL PREMIUMS that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. You aren't expected to pay us back, either.
- What do I do when I have a claim?**
Whether you have a claim, or just want to ask us a question, don't hesitate to contact us. As a National Home policyowner, you are entitled to prompt, courteous and direct attention at all times... and you will get it.
- Now tell me what's the "catch"—what doesn't my policy cover?**
Get ready for a welcome surprise. Your policy covers everything except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy—but even this last "exclusion" is done away with after you've been a policyowner for only two years. Everything else is definitely covered.
- Does this plan pay in any hospital?**
You will be covered in any hospital of your choice except a U.S. Government hospital or a nursing or convalescent facility.
- What are the requirements to enroll in this National Home plan?**
You must not have been refused or had cancelled any health, hospital or life insurance due to reasons of health; and to qualify during this Enrollment Period—you must enroll before midnight of the date shown on the Enrollment Form.
- Besides saving money—are there any other advantages to joining this plan during this Enrollment Period?**
Yes. A very important one is that you don't need to complete a lengthy, detailed application—just the brief Enrollment Form in the corner of this page. Also, during this Enrollment Period there are no extra requirements for eligibility, and no "waivers" or restrictive endorsements can be put on your policy!
- How do I enroll?**
Send no money. The first month's protection for your entire family is FREE. Simply complete and mail the brief Enrollment Form to: National Home, Valley Forge, Pa. 19481.

NO-RISK OFFER

We will send your National Home policy by mail. Examine it carefully in the privacy of your own home. Show it, if you wish, to your own insurance agent, doctor, lawyer or other trusted advisor. Tropical Storm Felice Brings Rains To Texas

HIGH ISLAND, Tex. (AP)—Tropical Storm Felice hit Texas coast near here Tuesday night without ever attaining hurricane force, and torrential rains fell in its wake.

As much as 6.25 inches of rain descended at Galveston, and streets in that island resort filled with water.

The Weather Bureau said Felice, with peak winds estimated at 70 miles per hour, began to break up shortly after its ill-defined center crossed the coast

about 25 miles northeast of Galveston. In Galveston the top velocity was 55 m.p.h.

DYING FAST

While official observers reported the storm was dying fast, they said concentrated rains up to six inches could be expected along a narrow path as the storm moved northwestward through East Texas during the night and today.

Storm warnings were lowered along the Upper Texas and West Louisiana Coast at 11 p.m. Winds, tides and seas were expected to diminish during the night.

The Department of Public Safety said one of its patrol cars traveled from High Island northeast to Sabine Pass over Texas 87 as soon as the storm's eye passed and reported the road was never under water, as had been expected.

1,100 RUN

Early evacuation from Sabine Pass over Texas 87 had been urged, since the road was the only escape route after a bridge had been knocked out on another highway north to Port Arthur in a barge accident Sunday night.

About 1,100 residents left the Sabine Pass area, and most traveled farther north instead of stopping at a refugee center opened at Hamshire, 16 miles north of High Island. Roadblocks were removed before midnight to permit their return to Sabine Pass.

It was estimated 3,000 persons fled low areas of neighboring Cameron Parish in Louisiana, where Hurricane Audrey took hundreds of lives in 1957. Shelters were set up in Lake Charles, 25 miles inland from the town of Cameron.

ONE MORE DAY

Peace officers who stayed in the Sabine Pass vicinity said the center of the storm went ashore

over waste marshland about 20 miles southwest of Port Arthur, Tex.

Joe Faggard, a constable on Bolivar Peninsula which juts toward the southeast from High Island, said if Felice had spent another day forming over the Gulf of Mexico "we would have been in trouble."

As the latest storm crosses the coast Faggard said he was at the same spot—the intersection of Texas 87 and Texas 124—where he watched mighty Hurricane Carla strike the night of Sept. 15, 1961. Carla killed 30 people in Texas and five in Louisiana.

Of Galveston's 6.25-inch rain, observers said 4.35 inches fell in the six hours before midnight.

The rain belt covered Southeast and much of Central Texas, coming down in moderate to heavy amounts as it spread past the Dallas-Fort Worth area to the north and around Junction and Throckmorton to the west.

COOL FRONT

Thunderstorms were mixed with showers in North Texas, and lighter showers pattered down in the Texas Panhandle from Amarillo and Dalhart westward into New Mexico.

A stationary cool front stretched across the Panhandle-Plains sector near Lubbock and a shallow layer of cool air was blamed for fog which limited visibility north of the front.

Skies were at least partly cloudy nearly everywhere except in the Lower Rio Grande Valley.

PRIEST IN POLITICS — Rev. Robert F. Drinan gives victory sign as he accepts congratulations with his youthful campaign workers at his headquarters in Newton, Mass., after winning upset victory in Democratic primary for Congress over incumbent Rep. Philip J. Philbin in the Massachusetts 3rd Congressional District. Drinan said his campaign was successful in large part to efforts of mostly youthful canvassers.

Humphrey, Jackson Smash Black, Antiwar Opponents

By The Associated Press

Hubert Humphrey and Sen. Henry M. Jackson of Washington easily defeated black, antiwar opponents in Democratic primaries for the Senate, while Sen. Joseph D. Tydings of Maryland overcame a surprisingly stiff conservative challenge.

Sen. Edward M. Kennedy won without opposition, and Sen. John O. Pastore of Rhode Island overcame a token foe in primary Tuesday for five Senate seats the Democrats hope to retain in November.

Two Democratic governors, Marvin Mandel of Maryland

and Frank D. Licht of Rhode Island, were renominated, and gubernatorial nominees were also selected in Massachusetts, Minnesota and Oklahoma.

MAIN EVENT NEXT

Tuesday's voting was the last big round of primaries before the Nov. 3 general election.

In Massachusetts, Boston Mayor Kevin H. White, 44, led state Senate President Maurice A. Donahue, 52, in the bitter, four-way Democratic fight for the gubernatorial nomination against Republican Gov. Francis W. Sargent, 55. He was unopposed for renomination.

In the same state, Rep. Philip Philbin, 72, a 28-year House veteran and second senior Democrat on the Armed Services Committee, was ousted from Congress by the Rev. Robert F. Drinan, 47, a Jesuit priest who ran on an antiwar platform.

In Maryland, veteran Rep. George H. Fallon, 68, chairman of the House Public Works Committee, was unseated by Paul S. Goswami, 37, a state legislator

from Baltimore. But Rep. Samuel D. Friedel, 72, chairman of the House Administration Committee, won a squeaker over Parran J. Mitchell with a final but unofficial, count of 23,491 votes to 23,309.

FAST START

Humphrey, 59, scored a smashing 3-1 margin victory over black studies instructor Earl D. Craig Jr., 31, to capture the Democratic nomination for the Minnesota Senate seat being vacated by Democrat Eugene J. McCarthy.

Humphrey's Nov. 3 GOP foe will be Rep. Clark MacGregor, 47, who easily outdistanced a lone opponent. Polls show Humphrey running ahead of MacGregor in his bid to return to the Senate, where he served for 16 years until elected vice president in 1964.

In Oklahoma's Democratic runoff, Tulsa attorney David Hall defeated state Sen. Bryce Baggett of Oklahoma City and the House Public Works Committee will run against Republican Sarbanes, 37, a state legislator

GOP Displays Harmony, Vows

FORT WORTH (AP)—The balloons and ballyhoo behind them, Texas Republicans fanned out across the state today vowing to change in November "the political history in our state and in our country."

They deftly averted a floor fight, haggled over only minor issues, adopted a broad platform, beat the party drum into the night and left their state convention in harmony.

TOUGH TASK

They now face in dead earnest the task of electing Paul Eggers governor, George Bush a U.S. senator and a number of lesser candidates to state office.

And they said they were confident they would do so.

Cheering wildly the appearances of various party luminaries, delegates adopted with only minor revision a platform Tuesday described by one source as "the most specific we've ever had."

The policy document flirted with labor, responded to certain minority requests, sidestepped controversy and struck hard at crime, drug pushers, campus disorder, forced busing of school children and pollution.

Platform writers excluded specific planks on labor and ethnic groups but dealt with their requests in several planks.

TRIED HARD

"Although it did not deal with the largest number of issues," said committee chairman Maurice Angly Jr. of Austin, "we tried as hard as we could to write a party platform that said something to the voters of Texas."

He said he doubted that "any of our candidates are going to be uncomfortable with the platform and virtually all will feel it can be of material benefit to them."

Angly said he knew of no pressure put on Mrs. Palm, influential chairman of the Harris County (Houston) delegation, to back down from her threat to lead a floor fight over platform issues.

STRONG PLANK

"No one overrode Nancy Palm as far as I know," Angly said. "Various people talked to Nancy and Nancy freely changed her mind. As I understand it, she wanted a strong plank on the drug problem and we passed a strong plank."

Mrs. Palm, who responds with a smile to the nickname "Nancy Palm," said she would oppose on the convention floor any GOP support of reduction of the penal-

ty for first offenders to a misdemeanor.

Keynote speaker Linwood Holton, Virginia's first GOP governor of this century, forecast sweeping Republican victories in the November general election and added:

"One-party dominance is a one-way street to stagnation and we can't follow that one-way street any longer."

HUMPTY DUMPTY

Eggers tore vigorously into Gov. Preston Smith, noting in his opening remarks that former President Lyndon B. Johnson "shore up" Smith's candidacy.

"But let me tell you this," he said, evoking a roaring ovation, "the king's horses and all the king's men can't put Humpty Dumpty back together again."

Bush expressed confidence in a November triumph contending that "today's Texas voter will not fall for the phony 'vote the straight ticket—let someone else think for you' line."

And, said Sen. John Tower, the state's leading national GOP figure, in attacking the Democratic party:

"Let us remember who is responsible for the winter of our discontent in this country and if we remember it, I have no doubt about the outcome in November."

TINY TIM

Byron Fullerton of Austin, GOP candidate for lieutenant governor, unloaded one of the most lively assaults on the Democrats for the assemblage of several thousand.

At one point he noted that the comparison in print of the incumbent, Ben Barnes, with Thomas Jefferson is like comparing "Tiny Tim with Thomas Edison." And he called former President Johnson's endorsement of Barnes "ludicrous."

And for a parting shot, there was this prediction from national committeeman Peter O'Donnell, former state chairman:

Rob Bandleader

SOUTH LAKE TAHOE, Calif. (AP)—Bandleader George Libera, brother of the pianist, told police his apartment was burglarized of \$3,000 in clothing and jewelry.

Libera said Tuesday he was visiting his home in Vallejo, Calif., when the burglary occurred. He is appearing at a Nevada casino on Lake Tahoe's south shore.

Demos Put Together Reform Platform, Triggers Hassle

DALLAS (AP)—Texas Democrats were bound today to a revolutionary reform platform designed to meet intra-party challenges of the leadership of Gov. Preston Smith.

The platform of 14 basic is-

ues was hammered out late Tuesday in a hectic hour of confusion, name calling and muddled parliamentary maneuvering that ended the biennial state convention.

Otherwise the convention was uneventful and routine.

JUST FADE AWAY

Much of the confusion centered around State Democratic Chairman Elmer Baum, who had to act as both temporary and permanent chairman—a compromise to save liberal Democrats who said Smith wanted Railroad Commissioner Ben Ramsey as the chief gavel pounder.

Smith made no appearances before the convention after his morning keynote speech. He and Baum, long time campaign associates, disappeared quickly after adjournment with neither commenting on the convention results.

About 20 members of the Lubbock delegation walked out in the final moments, protesting what they said was "improper parliamentary procedure."

convention would change primary elections from early May to no earlier than July 15. The May election dates were set back in 1960 when then Senate Majority Leader Lyndon Johnson was running both for reelection to the Senate and as the party's candidate for vice president.

Other highlights of the platform include:

—A "minimum foundation program" for law enforcement agencies similar to the plan where public schools get certain state money according to the school's daily attendance.

—That courts of civil appeals be given authority to handle criminal cases also.

NIX INCOME TAX

—Unalterably opposed to adoption of a personal income tax and against including food, medicine and farm equipment in the sales tax.

—An increase in the state minimum wage.

—A state civil service commission for state employees.

—A statewide system of day-care centers for working mothers.

—That courts of civil appeals be given authority to handle criminal cases also.

—Re-style school programs to better serve pupils of Negro and Mexican-American heritage.

—Complete control of holding companies that control insurance companies; require the State Board of Insurance to consider investment income in setting auto insurance rates.

—Establishment of an Office of Consumer Protection; authorization of class action law suits in cases of consumer fraud.

WELFARE FUNDS

—That the constitution be changed to provide four year terms for all statewide offices in place of the two-year terms.

—That the \$80 million ceiling on state public welfare contributions be removed.

A resolution approved by the convention body said the party favors legislation banning the use of no-return bottles and cans because of the highway litter problem.

Sen. Barbara Jordan became the first Negro to serve as a high state Democratic convention official when she was elected both temporary and permanent convention secretary. The Houston attorney already is the first Negro woman to serve in the state Senate.

Baum was re-elected chairman of the State Democratic Executive Committee and most of the 62 committee members were re-elected.

FREEDOM OF CHOICE

Much of the argument centered around a platform plank that put the party on record as supporting the freedom of choice school desegregation theory. It was offered by Dallas County Chairman Earl Luna, an attorney in a Garland school desegregation case.

Baum first ruled that a voice vote favored removing the Luna plank but that vote was wiped out and another left the plank as Luna presented it.

Smith's forces also defeated several attempts in committee and floor action to make Texans declare their political party affiliation when they vote. The effort for "primary purity" was led by Benton Musslewhite, Lufkin, a top administrative aide of Sen. Ralph Yarborough, D-Tex., who was defeated by Lloyd Bentsen in the May 2 primary.

Yarborough, who did not attend the state convention, has claimed he lost to Bentsen because Republicans voted against him.

VOTER REGISTRATION

One of the major planks in the platform calls on the legislature to approve a proposed change in the constitution outlawing the present annual voter registration plan. Voters would have the last say.

The platform plank, which was approved by Smith and Lt. Gov. Ben Barnes, would let a voter re-register merely by voting at least once every four years.

A Devotion For Today . . .

This commandment we have from him, that he who loves God should love his brother also. (I John 4:21, RSV)
PRAYER: O God, help me to accept all people as Thy children, precious in Thy sight, and to know that when I minister to anyone in need, I minister to Thee. Amen.

Space Exploration Slows Down

In the wake of the recent cutback of funds for space exploration, the question arises, will the country put a comparable amount of money into housing, education, cleaning the environment and rehabilitating city slums?
It is probably over-simplification to say that this is a hard and fast decision. Yet, public polls have shown that a majority of people were opposed to setting aside money for a trip to Mars, and also for further exploration of the moon and planets. So, the administration apparently has taken notice.
The National Aeronautics and Space Administration has been forced to cancel two lunar landings; there will be six in all now. Space exploration definitely has been put on the shelf for a time: The NASA budget for fiscal 1971 is down to \$3.27 billion as against some \$5 billion when the space program was at its peak. The

force has been reduced by 142,000 — about half the total of three years ago.
This, of course, is disheartening to the space scientists and astronauts. The best minds in NASA and related agencies probably will be lost.
Being abandoned or postponed are such projects as establishment of semi permanent scientific stations on the moon, more extensive unmanned interplanetary probes, and dispatch of scientists for more detailed research on the moon's composition.
Some programs will continue. The Skylab program, which places teams of astronauts in earth orbit aboard workshops for a long as 56 days, will go ahead, probably in 1972. But the space program definitely is at a slower pace.
It seems to be a matter of national emphasis, and domestic problems are given more urgency.

Containing The Campus Terrorists

Some sources in Washington are saying that the most disastrous violence on the campuses this school year will take a different turn.
Intelligence agents are said to fear that small "anonymous" groups of militants will be at work on bombings and other acts of terrorism rather than organizing massive demonstrations. Perhaps, for one thing, the mass of students are becoming disenchanted with the demonstration pattern. Worse, though, is the fact that groups of from three to 10 members of terrorist groups can, ultimately, cause more disruption.
Law enforcement authorities are

apprehensive over these reports because it will be harder to contain and catch terrorists operating in small bands, especially at night. As one lawman put it: "You can take protective and preventive measures against a rally by a thousand youths, but there aren't enough police to watch every group of three or four terrorists."
Success of the new mode of operation was evidenced in the bombing at Michigan. If there is a solution at all, intelligence people will be all the harder pressed to seek out the sources of organization and resources of these bombing bands.

David Lawrence 'Popular Election' Hits Smaller States

WASHINGTON — The Senate is struggling with a proposed amendment to the Constitution to abolish the electoral college and conduct all presidential elections hereafter by direct vote of the people. The plan is to let the candidate who receives the largest number of votes be declared elected if this is at least 40 per cent of the total votes cast. If no candidate gets that percentage, a run-off election would be held between the top two.
BUT THE STATES would not hereafter cast their ballots in the electoral college and would thus lose a power they have held since the republic was founded. It would be incredible if the three fourths of the states of the union necessary should ratify any such amendment, because it certainly could mean a diminution of the influence of the smaller states in the election of the national administration.

electoral votes by getting majorities in states of large and small population in different sections of the country. Yet their total popular vote was close to that cast for an opponent.
THERE HAVE BEEN elections in which sectional problems have influenced the outcome of elections. The electoral college has performed a service in such instances, because it has protected the interests of smaller as well as larger states concerned with certain questions.
The proponents of the suggested amendment keep emphasizing that election of a President would be by "direct popular vote," and imply that the electoral college doesn't satisfy such a requirement. A group of senators, both Republican and Democrat, in opposing the amendment, make this comment:
"DIRECT ELECTION of the President, we believe, would—
"Destroy the two-party system and encourage the formation of a host of splinter parties;
"Undermine the federal system by removing the states as states from the electoral process;
"Remove an indispensable institutional support for the separation of powers;
"RADICALIZE public opinion and endanger the rights of all minorities by removing incentives to compromise;
"Create an irresistible temptation to electoral fraud;
"Lead to interminable electoral recounts and challenges;
"Necessitate national direction and control of every aspect of the electoral process."

UNDER THE proposed amendment, a plurality of the votes could be obtained almost entirely from one section of the country, and the new President could cater to the demands or desires of that region. But, with the electoral college, even the most populous states have a relatively small number of electors, and these can be offset by a combination of electors from smaller states. Some presidents, for example, have been elected by a substantial number of

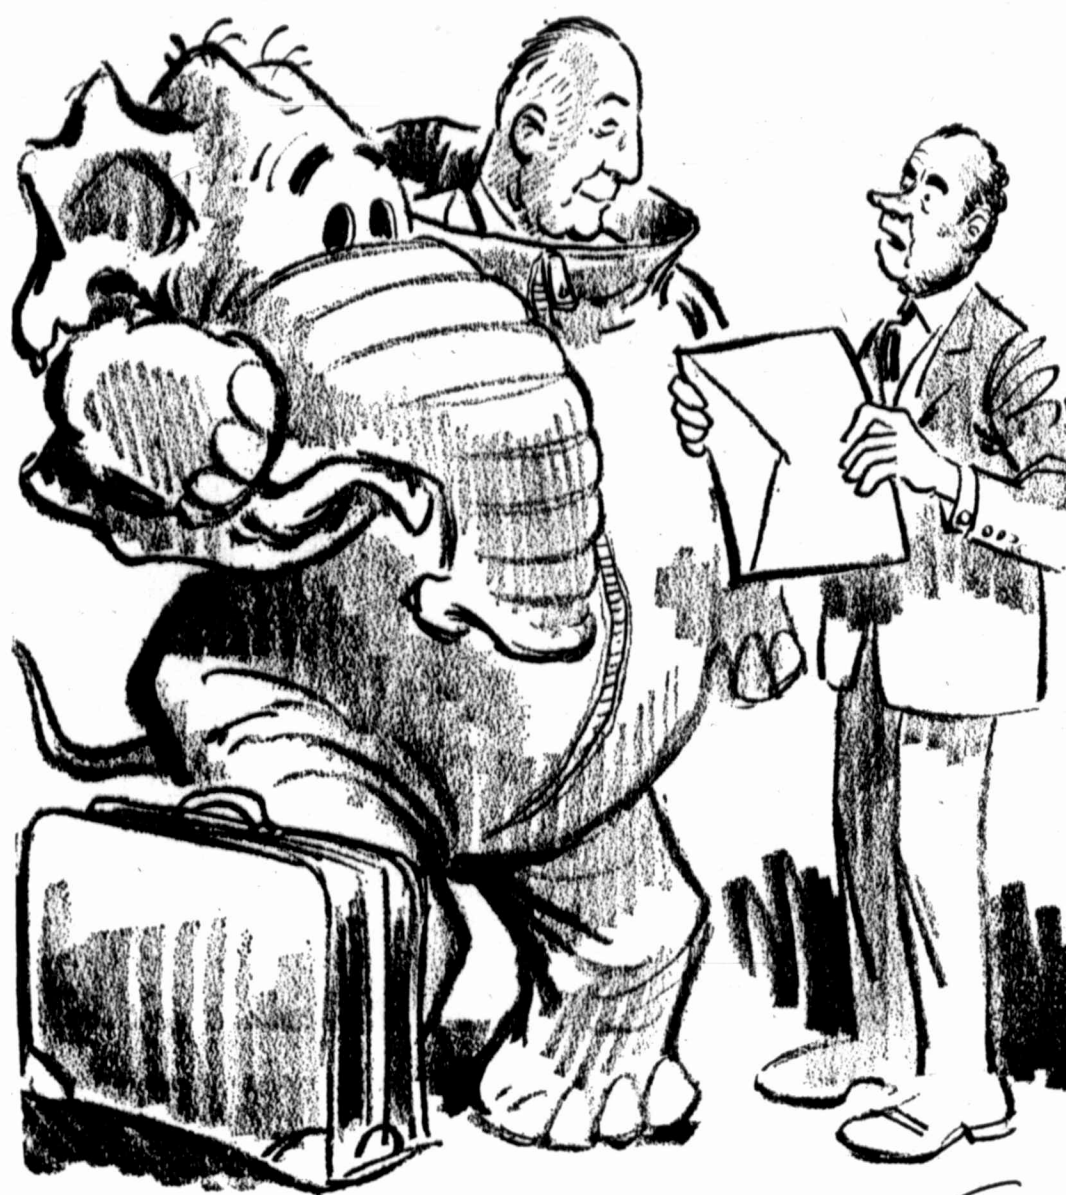

Billy Graham

Recently I had an argument with my parents because I sat outside in the car during the church service. I worshipped in my own way, and sang hymns in the car. My parents were upset with me because I didn't sit with them in church. I think I was right. Or were they right? G. C.
I am glad you "worshipped" and sang hymns. But, I believe you were wrong in the way you did it.
First, the Bible says of worshippers, "Forsaking not the assembling of yourselves together." Hebrew 10:25. Corporate worship is a wonderful thing, where you join with others in corporate prayer, and corporate praise to God. Life's great experiences are sometimes more meaningful when they are shared with others.
Second, you upset your parents by disobeying them, and ignoring their wishes. The Bible says, "Children be obedient to your parents." You say you are fourteen years old. But, until you are able to make your own decisions, and living, you owe it to your parents to obey them.
Don't allow yourself to be infected with the epidemic of rebelliousness which is abroad in the world. I know the older generation is not perfect. But, it is hypocrisy for the young people, who are also imperfect, to sit in the judgment seat against the older generation. It's the adults who pay the taxes, who feed the youngsters, furnish them cars, give them an education, work hard for a living, and take most of the insults from arrogant youth in silence. Since youth couldn't manage without their parents, don't knock them too hard.

Moreover, the government figures are based on a car costing about \$3,200. Thousands of company representatives own more expensive models that also may be more expensive to operate.
At any rate, the survey shows that 88 companies now pay 10 cents, but that seven pay as little as 8 cents a mile. One outfit pays 15 cents and another company reports it is considering a raise to that figure.
Companies appear to be more liberal in their attitude toward the private use of company cars, the NICB study shows. About 85 per cent of survey participants that own or lease cars permit their personal use by employees.
Not all of them do so with equal enthusiasm, however. It's just that the cost of policing employees in their personal lives, merely to see that they didn't misuse the company car, would not only be embarrassing but costly.
The NICB figures on mileage rates are part of a larger survey of company practices regarding flying and driving that

What Others Say

The 750 or so residents of Culebra, a tiny piece of land in the Caribbean used as a target range by the Navy, may find some comfort in the announcement by a Senate committee that it intends to study the plight of the islanders, all of whom are American citizens. The Culebrans understandable are more than a little weary by now of being shot at, bombed and rocketed. Far from stopping the shooting, the Navy, much to the distress of Culebrans, would like to use more of the island for a firing range, and a House subcommittee, inexplicably, has endorsed the proposal. This is a stirring display of humanitarian concern. We presume the Senate group will not be taken in so easily and will do what it can to provide the Culebrans with relief.

John Cunniff Company Car Costs Climb

NEW YORK (AP) — A report by the Federal Highway Administration states that the average motorist spends 11.9 cents a mile to own and operate an automobile.
A study by the National Industrial Conference Board of 128 manufacturers who use per-mile formulas to reimburse their employees for use of their personal cars shows that all but 10 of them pay less than that figure.
True, the manufacturers almost always pay parking and toll charges, which the government estimates to amount to 1.8 cents a mile, but that still doesn't make the typical 10-cent reimbursement eminently fair.
Here's why. The government estimate of car costs is based on a 10-year life span for the vehicle, with the greatest depreciation in value taking place during the first few years and almost none at the end of the 10-year span.
But how many companies permit their representatives to drive 10-year-old cars? More likely they must trade them in every three years or so thus suffering far greater depreciation costs than the government's 3.2 cents a mile estimate. More like 5 cents a mile.
Moreover, the government figures are based on a car costing about \$3,200. Thousands of company representatives own more expensive models that also may be more expensive to operate.

tends to suggest that some manufacturers may have become a bit more tightfisted of late.
"The airlines industry may have cause to speculate about the future of its first-class service," the report states, because 145 of 160 participants in this aspect of the survey have established coach, economy or tourist as the preferred accommodation.
First-class air travel once was automatically chosen by top management in some companies, but several firms reporting to the NICB now say they do not permit their officers to routinely choose the most expensive service.

Hal Boyle Meet A Loser

By WARD T. SIMS
(Substituting for Hal Boyle)

NEW YORK (AP) — It seems inconceivable, in this age of science, that a person could tangle with rabbit brush and not come out on top.
But, meet a loser.
Rabbit brush—the scientific name is chrysothamnus graveolens—is a plant common throughout much of the West.
To all but those who find it infesting their fields of grain or other crops it is rather attractive, with rich green stalks and leaves and a bright yellow flower.

My first—and hopefully last—encounter with rabbit brush came during a recent vacation trip which took in the Pineville area of central Oregon.
While stepdad Les Hubble, son Dixon and I were trying to deplete the trout population of Pineville Reservoir one sunny day, Les mentioned casually that he had to hack out the rabbit brush on the five acres of oaks he calls the farm.
"Foolishly, I offered my services for the following day and that, simply, is how I found myself armed with a mattock ready to do battle with rabbit brush.
At the outset, it seemed as though it would be no contest. Les also had a heavy duty mattock and Dixon was wielding a junior-sized weapon.
"Now," Les admonished, "the easiest way to go about it is to start through the field abreast. We'll make as many sweeps as necessary to clear the full five acres."
And away we went, tilting the chrysothamnus graveolens. The first 10 minutes or so were easy, even for a typewrit-

er jockey who now calls New Jersey home.
One determined, accurate swing would usually separate a full plant from its woody root and I had visions of an early return to trout fishing.
But, the more I swung that infernal mattock, the more rabbit brush there seemed to be and 10 minutes quickly stretched into a half hour.
When I finally reached the fence after the first sweep, Dixon was nowhere to be seen. I found him lounging in a particularly heavy patch of tall oats, doing that teen-ager thing, nothing.
I also found that I had missed some rabbit brush on the way through, so I spent another 15 minutes or so doubling back and clouting the plants that had escaped me.
And so it went for a full three hours or more — swing, miss; swing, foul tip; swing, hit. Next plant, ditto.
On the final sweep through the oats, I really felt elated. Nothing to this farmer bit.
Then I looked back, and with that glance I knew I really hadn't won.
Either I had missed a lot of rabbit brush or those pesky plants were coming up as fast as we knocked them down.
And all I had to show for it were blisters—one on the little finger of my left hand; two on my ring finger, one broken; one on my middle finger; and two on my forefinger.
Six blisters, an aching back and still enough green and yellow plants on the five acres of the Hubble farm to screen all the jack rabbits in Crook County, Oregon.

MARIJUANA is used most often to "feel different."
The use is so widespread "as to potentially touch every young person in this state," says Gov. Preston Smith.
A national survey indicates more than eight million people have tried marijuana, but the federal government admits "exact statistics are difficult to obtain because of the legal penalties."
"Crisis is a strong word but it fits our state's present threat from drug abuse," insists Smith. "It is Texas' most immediate enemy."
Smith's aide, Harold Dudley, now coordinator of the state drug abuse program, says the "drug problem is increasing at geometric rates."
Lt. Gov. Ben Barnes appears to have collected information on drugs as a special project. He says he has learned from young people that 75 per cent of the young in urban areas have experimented with drugs and 25-50 per cent are actual users, primarily of marijuana.

To Your Good Health Difference Between Neuritis, Neuralgia

By G.C. THOSTESON, M.D.
Dear Dr. Thosteson: Is there any medication for neuritis, or inflammation of a nerve? — J.L.B.
Yes, but not the same medication in all cases.
I'm glad to see you identify neuritis properly. It's my guess that not one person in a thousand knows the difference between neuritis and neuralgia — both being pain involving nerves.
Neuritis means that something is affecting a nerve trunk, such as infection or poisoning of some sort.
Neuralgia is the pain that comes from pressure on or irritation of the nerve. Examples are tic douloureux, or sciatica due to pressure from the vertebrae, or a tumor or some such cause.
Neuritis, on the other hand, is usually a secondary result from some other condition. Shingles is inflammation of a nerve caused by a virus infection. Diabetes, gout, and pernicious anemia all can cause neuritis. So can abscessed teeth or other

focal infections. Alcoholic neuritis is not uncommon — it is, in fact, a type of poisoning. Lead or arsenic poisoning can cause neuritis. Vitamin deficiency, especially lack of the B vitamins, can cause neuritis, and beri-beri is an extreme form of that.
With that preface we can start to answer your question so it will be of some help.
Where focal infections are the basic cause, subduing the infection is the basic aim, of course. If heavy metal poisoning is involved, treatment although a bit too complicated to describe here is the proper answer.
Vitamin B, in some cases, is effective treatment.
Such common afflictions as shingles and Bell's palsy tend to subside spontaneously (although shingles is a stubborn ailment that occasionally hangs on for a brutal length of time). Usually, however, means of limiting the pain are the principal treatment, while nature gradually corrects the basic trouble.
Generally speaking, pain-

killers, vitamin B, and often the application of heat are helpful in relieving the pain of neuritis. In severe cases, the root or trunk of the nerve may be injected with alcohol, hot water, or other material to deaden the pain for a protracted period, and in tic douloureux sometimes the nerve is cut surgically.
In pernicious anemia, routine injection of vitamin B-12 subdues the pain and also keeps the anemia under control which, actually, is more important than just stopping the pain, because pernicious anemia, unless controlled in that way, can be fatal.
"You Can Stop Sinus Trouble!" is the title of my booklet explaining what sinus trouble really is and encouraging sinus sufferers to do something about it. For a copy write to Dr. Thosteson in care of The Herald, enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

Around The Rim Building Character

Scene: Weekly meetings of Fair-weather Fans Club) JOE BLOW, president: Hi there, Dads and Mothers, we're pleased tonight to present our new football coach, Zeke Zilch, who has brought a lot of enthusiasm to our program and who I know will be good for our boys. After all, the boys are the important thing, and we want them to come out of their football experience loving the game and having fun. Coach Zilch is the type of man who will give us the right program, win or lose. I'm proud to present him to you.

happened out there last Friday. But our lads really scrapped, and that's what counted. Right Coach Zilch?"
COACH ZILCH — Yes, sir! I guess the opposition didn't receive our press notices. (Dry laughter.) I'm just as proud of our boys as if they had won (scattered hand claps.) I think, however, we'll take 'em this week (cheers) Give us a little time, and we'll make it more than interesting. (Cries of "You tell 'em, Coach").
(Four meetings later; the record is 0-7)

COACH ZILCH (raising his hands to still the applause — Thanks, thank you very much! As you all know, we're a little short on experience, but I think we'll make up for that in effort. (Applause). Some say we're a little short on material, but I sort of feel a few hot workouts will melt out a little lead (more applause, plus laughter).
Now I'm not one to use the crying towel. I figure we have 11 men, and the opposition has 11 men, and by golly we ought to be just as good as they are. You can't put your pants on but one leg at a time, you know. (Chuckles).

PRESIDENT BLOW (with poorly disguised sarcasm): "I'll tell you folks, we built a lot of character out there last week. Maybe Coach Zilch can tell us more about it."
COACH ZILCH (giving the peace sign): Well, I started to wear my pads and helmet this week. Or maybe put on a bullet-proof vest. (No laughter.) Like Mr. Blow says, we're building character out there (grumbles). "Winning's not everything — I guess you might say with us winning's not anything." (groans).
(Three meetings later; the record 0-10)

SERIOUSLY, I want to stress that football is only a game. If we don't come out of this program with boys of stronger character, boys who learn how to keep on when the going gets tough, boys who find out that you have to have team work to get the job done, and who also learn that only you can hold up your end, then I think we miss the mark. So if we don't win, I hope you will appreciate the more important lessons, and be just as proud of us if we do our best."
PRESIDENT BLOW: What did I tell you? That's the kind of a man we're privileged to have. Win or lose, Coach, we're with you."
(Three meetings later; the record is 0-3).

PRESIDENT BLOW (with stab at light-heartedness: "Well, something to come, but I guess someone, if not the team, has to hold this outfit together. How about that Coach Zilch?"
COACH ZILCH: Well, I guess you can say that was a pretty long season. (A voice: "You can say that again.") Looking over the fun that the boys had and their spirit, I can't honestly say I'm disappointed. (Muffled boos.) After all, who cares about winning if you can hold your head up high? (Hisses from the back of the room.) I tell you this was only a game, and when it ceases to be that, we've missed the mark. (Voice: "Oh, Brother!") I don't have much else to say (hand claps), except that I've handed in my resignation as coach for next year. (Wild cheers.)

Hopheads To Lead? Drug Use In Texas Skyrocketing

By JACK KEEVER
Associated Press Writer

AUSTIN (AP) — Today's hopheads tomorrow's leaders?
House Speaker Gus Mutscher, for one, dreads the possibility.
"Drug abuse," says Mutscher, "has become so epidemic that it is frightening. I am deeply concerned because in another decade today's generation of youth will be strongly influencing, if not dominating the course of government and society in this state."

spring and concluded that the age level of drug users has dropped from adults to elementary school children. "We can't go much lower," he said.
The president of the Texas Pharmaceutical Association, Edward L. Baker, said 26 of 200 fifth and sixth graders he spoke to recently told him they knew someone who sniffed glue, which can put a person into a coma, cause temporary blindness and even death.
A minister who works with drug addicts in San Antonio estimated the city has 3,000 heroin users, many thousands who smoke marijuana and an undetermined number who use other "dangerous drugs." It takes an average of \$23 a day for a hard drug addict to support his habit, the minister said, and the money usually comes from robberies, thefts and burglaries.
Rep. Curtis Graves, Houston, said 700,000 bottles of cough syrup containing a form of codeine, which comes from opium, were sold in Houston in 1969 and "there were no laws on the books in Texas to regulate the use or abuse of this . . ."

LI. Gov. Ben Barnes appears to have collected information on drugs as a special project. He says he has learned from young people that 75 per cent of the young in urban areas have experimented with drugs and 25-50 per cent are actual users, primarily of marijuana.

Rep. Curtis Graves, Houston, said 700,000 bottles of cough syrup containing a form of codeine, which comes from opium, were sold in Houston in 1969 and "there were no laws on the books in Texas to regulate the use or abuse of this . . ."
The district attorney of an East Texas city found 70 empty cough syrup bottles under the bleachers after a football game.
Teenage arrests for drug abuse increased 800 per cent in the 1970s, Smith says, and the Department of Public Safety reported recently that more than 1,100 defendants were charged last year with violating narcotic and dangerous drug laws. Through August the department's 50 agents were filing an average of 200 complaints a month.

Andrew Tully Protection For Law-Abiding Negroes

WASHINGTON — There is a messy little example on the desk of how Negro victims of crimes by other Negroes are betrayed by damphand liberals. It is a governmental commission study showing the extent of black criminality against other blacks — and it was suppressed until a few days ago.
The report, prepared by a task force of the National Commission on the Causes and Prevention of Violence, reveals that most blacks who commit the crimes of murder, rape and aggravated assault choose other blacks as their victims. It also discloses that urban Negroes are arrested eight to 20 times more frequently than whites for those three crimes and for robbery.

black majority which is hard-working and law-abiding. If I lived in a black ghetto I'd wonder why the authorities didn't make more of a fuss over crime in my neighborhood. By this time, the working, law-abiding black should be insulted by the almost daily pronouncements of instant experts and sudden sociologists that because of the "demoralizing conditions" under which he lives he can't be expected to amount to much.
THE FACT he works and obeys the law proves his belief that by God he can, too, make it within the system. He doesn't want to be patronized, he wants equal protection as an equal, and blast the social scientists who weep over the thug who makes his life miserable.
TO BE SURE, as a black I would have some doubts about a system that in the past has worked so imperfectly in favor of whites. But I would derive considerable comfort from the curious circumstance which found the very system under attack by black revolutionaries coming to their assistance during the Brotherly Love. It was a U.S. District Court judge who issued an injunction prohibiting the police from interfering with the rights of the Panthers assembled at their constitutional convention.

OFFICIALLY, the explanation for delaying publication of the report, which was ready last fall, is that the commission ran out of funds. This is sophisticated baloney. The report was suppressed because it offended two Negro members of the commission, Patricia Harris and Judge A. Leon Higginbotham, and a gaggle of white super-liberal apologists for black criminals.
It is an incident which reminds us that the nation still suffers from a philosophical legacy of the permissive Sixties, to wit, the premise that one should not publicly discuss crimes by blacks because they are a deprived minority. The presumption of the philosophers is that if we don't notice something explosive it will go away.
CERTAINLY, as the report notes, much Negro crime is the result of "the demoralizing conditions and life patterns" of the black ghettos. But to suppress the criminal results of these conditions is to make everyday life a frightening adventure for that

MEANWHILE, as that same black, I would be delighted at the release — finally — of the commission report on crimes committed by Negroes against other Negroes. Equal rights also demands that the protection of whites against crimes by blacks should be extended to defend blacks against crimes by blacks.

HEAD OVER HEELS — Heavyweight Charles "Devil" Green (white trunks) goes sprawling over opponent, former heavyweight champion Floyd Patterson, in a first round tumble during their Tuesday night bout at New York's Madison Square Garden. Referee Tony Perez looks on. Patterson won the fight with a 10th round knockout.

Mets Lose Ground In Torrid Race

By The Associated Press
One, two, three.
The Pittsburgh Pirates, Chicago Cubs and New York Mets are doing their number.
The names and places may change ... but the characters usually remain the same.
Willie Stargell stayed in character with a three-run homer that powered Pittsburgh over Philadelphia 8-3; Billy Williams did his hitting thing to pace Chicago over St. Louis 5-3 and Montreal tripped New York 5-4 on an uncharacteristic bad pitch by Jerry Koosman in the National League's dramatic East race Tuesday.
The Pirates thus pulled a full game ahead of the Cubs and Mets, who changed places after Tuesday's developments. Chicago is now second, less than a percentage point over third-place New York.

LOOKING 'EM OVER
With Tommy Hart

Anyone who had been away from the area for five years and returned would be right in thinking things haven't changed much in District 5-AAAA.
Numerically, the league has been promoted — it used to be 2-AAAA and then was changed to 3-AAAA. Otherwise, conditions are about the same.
Odessa Permian is still the team to beat. At Permian, coach Gene Mayfield takes his pick of some splendid athletes and trains them to become football players, an ideal arrangement.
Abilene Cooper gets the choice talent from Abilene's junior high schools and in coach Merrill Green has a man who is an expert at deciding who plays where. San Angelo is a city with a multiple school system but the demarcation lines discriminate against Lake View in favor of San Angelo Central. For that reason most of the gifted athletes wind up at Central.
In Abilene High they go with sophomores every four years or so in hopes they occasionally will reclaim the greatness that once was Rome's.
In the rest of the schools, they're prone to look bravely and optimistically to a future that never quite materializes. The fans talk euphemistically of maintaining their sense of balance and not losing sight of the real objective in school athletics, that games serve to unify a school and a community.
Anytime Big Spring can experience a 5-5 or 6-4 season, the fans are prone to rejoice. They become ecstatic over anything better than that. Perhaps local buffs are more sophisticated in their approach to sports than people in the other communities because they have learned to live with frustrations down through the years. A victory will hasten their heart beat but they can digest a defeat and stoically look to another day, knowing the sun will again come up on the morrow.
It may be one of the better places to coach and live because there are no effigy hangings, no pilgrimages to Lourdes in times of athletic debacle.
In San Angelo, friends of the school grow sullen and embittered over defeat. They treat their winning teams royally and canonize their championship coaches but rents develop in the spirit of the fans if the Bobcats dare to flay too often.
Odessa High had its moment of glory back in the late '40's and early '50's but it since has fallen upon evil times. The Bronco backers accept the crumbs that are tossed their way and stuff cotton in their ears to soften the cheers which echo about the community for crosstown Permian.
Midland High is beginning to come back a bit under Larry Click but the long range outlook of the school in athletics and more specifically football isn't too promising. The unity of the student body and the adults who support the program at Midland Lee is impressive. Down through the years the Rebels have taken their lumps in football more often than not but the backers maintain a flaming spirit that does the community proud.
For that reason the Rebels go into battle against the contenders thinking they have a chance. Against the also-rans they convince themselves the gods of fortune will smile on them because they court their favor. It's an admirable attribute and one that would compliment any community.
So the status quo remains. An eight-team race would be ideal and observers who are rash enough to forecast the outcome of the pennant scramble delight in saying that "any team is capable of upsetting one of the leaders on a given weekend and with any luck could take it all."
Their lack of sincerity betrays them as pitchmen who are trying to sell for a product rather than sell an idea.

Richardson Is Sent To Miami Dolphins

By The Associated Press
For one of the National Football League's top wide receivers, Willie Richardson is running a pretty crazy pattern before the 1970 season begins.
The 30-year-old veteran caught 43 passes and averaged 15 yards a catch with Baltimore last season. That was good enough to get him traded to Pittsburgh for Roy Jefferson, last year's third best passer with 67 receptions.
Then there was a brief walk out on the Steelers' camp in a money squabble he signed his contract, and he caught only four passes for 62 yards in three pre-season games.

SAYS STEER SCOUT Bel Air Boasts Fine Personnel

Big Spring scout David Verner described Ysleta Bel Air as a team boasting an offense the Steers will see only once this year in a report given to members of the Quarterback Club Tuesday night.
For that reason, it is difficult to get a team like Big Spring ready for the game, Verner stated.
The Highlanders, who come here Friday night to battle the Steers, operate behind an unbalanced line, with three backs in an I formation immediately behind the center.
Verner lavished praise upon the Bel Air quarterback, Junior Bobby McKinley, a 170-pounder. Verner said the Bel Air coaching staff was convinced that McKinley was going to become the greatest quarterback in the history of the school before he graduates.
McKinley runs the option very well and is an outstanding passer on dropback passes. He throws long, hard and very accurately, according to the Big Spring scout.
When McKinley does pass, he'll usually go to flanker Billy Avery, a 165-pound senior possessed of excellent hands and blinding speed. He is very dangerous when he catches the football and is a menace of unusual dimensions because he throws the halfback pass. Furthermore, he unlooses it with his left hand.
Fullback James Porras and halfback Mike Alvarez are other threats in the Bel Air secondary.
Split end Kenny Lege, 165 pounds, is another Ysleta player who must be watched, Verner told his boss, head coach Clovis Hale. He is a dangerous open field runner because he has excellent moves after he takes the ball.
The best Bel Air lineman was said to be Austin Musgrove, a 200-pound tackle. He has an appetite for hitting.
Hale, in discussing last week's Steer game with Monterey, said he was very proud of the improvement his team showed during its game with Monterey. "Young kids like we have," Hale stated, "make mental mistakes. Our kids realize that the mental mistakes beat them. Had we been able to defense the sprintout pass, I think we might have won. We pretty well stopped the Plainsmen coming up the middle and that is what Monterey likes to do."
"Overall, our team's effort was very pleasing to me. I think we're going to come out now," Harroll Jones, QBC co-captain, presided at the session. He urged the membership to attend the Friday morning breakfast at the First United Methodist church. The breakfast, he added, would begin at 7 o'clock and adults can gain admission by paying 25 cents.
Hale narrated game films of the Big Spring-Monterey contest, which ended the 90-minute program.

BS Quarterback Is Son Of A Forsan JH Mentor

Mike Adams, promising quarterback for the Big Spring Steers who went the entire distance in last week's opener against Lubbock, Monterey, is the son of a coach.
The two are active in different school districts, however. The father is the junior high mentor at Forsan.
The family resides at 1902 Winston in Big Spring, an area where children have the option of attending either school.
Jack asked for time off last weekend in order to watch Mike perform against Monterey.
Born in Quanah, Mike has resided with his family here the past 12 years. He was active in International Little League play and won his division of the Punt, Pass & Kick Competition four years running.
Jack, a native of Crowell and a graduate of West Texas State, coached at Slaton and Limon, Colo., before moving to this area. Like his son, he played quarterback in high school.

Staubach Is Set As Starting QB

DALLAS, Tex. (AP) — Dallas Cowboy head coach Tom Landry said before training camp that performance would count in determining Cowboy starters, and if you didn't believe him, just look at Sunday's starting lineup against Philadelphia.
Landry announced Tuesday he was starting No. 2 quarterback Roger Staubach in place of No. 1 Craig Morton.
"Craig's in a slump," Landry said. "And Roger's been throwing good. We'll just keep working with Craig in practice and see if he can work it out."
Morton had another ineffective showing in last Sunday's 29-21 exhibition loss to the New York Jets. Staubach came in and pumped some life into the offense, at least momentarily.
Landry also said he would start Dennis Homan, the Pokes' No. 1 draft choice of 1968, at split end in place of Bob Hayes. Blaine Nye will start in place of perennial all-pro Ralph Neely at guard.

Linksters Flock To Small Town

ROBINSON, ILL. AP — This small southeastern Illinois community of 8,000 will be overrun by most of the nation's top golfers this week as the PGA money trail leads to the \$100,000 Robinson Open Golf Classic.
The 72-hole tournament opens Thursday at the Crawford Country Club with a field of about 140, including defending champion Bob Goalby.

Rams, Giants, Vikes Picked By Writer

By JACK HAND
Associated Press Writer

NEW YORK (AP) — This will be the year of the Rams in the National Football Conference. After a series of late season disappointments, George Allen will keep the Los Angeles Rams on the ball right through January

into the Super Bowl with a good chance of winning the world championship. It won't be easy in the re-aligned NFC which has been split into three divisions with a playoff system that involves three winners and the best runner-up.

The exhibition season gave you a line on what to expect but it never is wise to base too much on the results of those August games when many coaches are trying rookies and installing a new system.

WINNING FORM — Frank Smith leans his Opel Sedan into the turns of the gymkhana course on his way to claiming top honors in last week's driving competition sponsored by the American Rallye and Gymkhana Organization at the College Park Shopping Center.

Frank Smith Continues Automobile Win String

Frank Smith, driving a 1970 Opel Sedan, continued his string of recent driving victories by winning last Sunday's driving competition at the College Park Shopping Center.

He posted a time of 1 minute 8 seconds for the winding course set up by the American Rallye Gymkhana Organization. In recent months Smith and the two Opels he entered have won trophies in Lubbock and Big Spring competitions. For his winning time in the weekend event he was awarded the first place overall trophy provided by Dewey Ray Chrysler-Plymouth.

Derryberry New Coach At Cisco

CISCO — Bob Derryberry has replaced Kenneth Henson as basketball coach at Cisco Junior College.

Henson resigned recently to move to Howard Payne College as basketball coach. Derryberry, a native of Oregon, has a 238-62 coaching record encompassing nine seasons. He attended Grayford High School in Texas, Decatur Baptist College (now Dallas Baptist) and Pan-American College in Edinburg.

SAYS HOUSTON POST Texas Supports Houston's Bid

HOUSTON (AP)—The University of Texas will sponsor the admittance of the University of Houston to the Southwest Conference, the Houston Post reported in Wednesday's editions.

The newspaper said Texas will bring up the matter at the annual conference meeting in December. If the application is approved, the Post said, Houston could contend for the Southwest football crown in the 1974 season.

Houston's athletic director Harry Fouke refused to comment on the story.

The Post said it has learned the Texas faculty representative J. Neils Thompson visited Houston recently and conferred with officials of Rice University and UH about the Cougars' admission to the conference.

Fouke and Texas athletic director Darrel Royal have held several discussions on the subject, the Post said.

Contacted at Austin, Royal said, "It would serve no useful

purpose to anyone involved if I said anything about it at this time. It's premature for me to talk about it."

Houston has been an independent since withdrawing from the Missouri Valley Conference in 1959.

A three-fourths vote—necessary by six members—is necessary for expansion of the conference.

The proposal would have to be made in writing at least 30 days in advance.

Schools do not apply for admission to the Southwest Conference. They are invited to join. Texas Tech, admitted to form an eight-team league in 1956, participated in the football race for the first time in 1960.

At the same time Tech was admitted Baylor University representatives proposed that UH join the conference but the motion died for lack of a second.

The state-supported University of Houston has an enrollment of 25,000 this year, surpassed in the state by the 35,000 at the University of Texas at Austin.

Floyd Eyeing Ring Future

NEW YORK (AP) — "The next time I'll be better. And the next time after that I'll be even better. And whoever it is I fight it has to be in New York."

Floyd Patterson, his reflexes dulled by a two-year layoff and his skills diminished by his 35 years, still spoke of the future Tuesday night after his 10th-round knockout over crude Charlie Green.

"I was heavyweight champion twice," said Patterson, the only man ever to regain the title, "and now what am I rated? 20th, 30th or 40th? But now the applause I get is greater than I got then."

A crowd of 10,809 paying \$72,985 gave him a roaring ovation.

The future for Patterson probably means another bout with Jimmy Ellis later in the fall or possibly a fight with Oscar Bonavena from the Argentine.

It will take at least six weeks for the cut over Patterson's left eye to heal. Dr. Edwin Campbell of the New York State Athletic Commission, said it would take nine stitches to close the deep gash.

Patterson, obliging to newsmen in his dressing room, climbed on a bench so that all could hear after he knocked out Green in 1:57 of the 10th with a left hook to the body.

"I didn't think it was a knock-out," he said, "I thought he got up and it was a TKO. I didn't expect to knock him out with that punch."

Gross Fires 9-Under 64

The apparent medalist in the City Golf course toured the Municipal course Tuesday.

He is Ted Gross and the nine-under par 64 he achieved has rarely been beaten by anyone playing the layout.

Gross put together ten birdies with a bogie and seven pars. He birdied 1-2-3-4-7 on the front side, bogied 11 and then birdied 13-14-15-16-17 on his way to the clubhouse.

Gross also putted for eagles on 15 and 16.

Linksters have through Friday to qualify for the tournament. The tournament extends through Oct. 4, Jerry Barron is the defending champion.

Military Court Has Right To Try

FT. HOOD, Tex. (AP) — S. Sgt. David Mitchell, accused in the alleged My Lai massacre, has lost the first round in his fight against the Army's right to try him.

Col. George R. Robinson, military judge for Mitchell's court-martial, ruled at a pre-trial hearing Tuesday that the Army has jurisdiction of the case despite Mitchell's honorable discharge seven months after My Lai.

Robinson deferred rulings on other defense motions, including one demanding subpoena for President Nixon, Defense Secretary Melvin Laird, Army Secretary Stanley Resor, and Army Chief of Staff Gen. William Westmoreland.

The defense said it needs the testimony of those four on the question of whether they exerted unlawful influence on Mitchell's commanding general to order his court-martial.

The defense quoted Nixon as saying of My Lai: "what appears was certainly a massacre and under no circumstances was it justified."

Robinson ordered the prosecution to ask a House Investigating subcommittee for transcripts of the testimony of four men the Army says it intends to call in the Mitchell case:

Lawrence Colburn, Jerry R. Culverhouse, Lt. (then Chief Warrant Officer) Hugh C. Thompson, and Lenny B. Lagunoy.

All were in the service and at My Lai, the lawyers said.

More than 100 witnesses testified before the sub-committee but the Army says it will call only these four.

The subcommittee, headed by Rep. F. Edward Hebert, D-La., issued a report July 15 in which it said: "Competent testimony established conclusively that a large number of unarmed Vietnamese, not in uniform, were deliberately killed..."

Robinson said the Army has jurisdiction in the Mitchell case despite his discharge because the case met the three conditions set out in federal law: that the alleged offense must be punishable by imprisonment for five years or more; that it was one that cannot be tried in American civilian courts; and that the accused must have re-enlisted and once again come under the Uniform Code of Military Justice.

Chamber Directors Back Economy Group's Efforts

The Chamber of Commerce's Economy in Government task force has the chamber's backing in efforts to seek savings in public budgets.

Directors in their Monday meeting also endorsed a balanced city budget, expressing the hope that within this framework funds could be squeezed out for city participation with Howard County in a museum.

The principle of being involved in seeking governmental savings won ready approval, but the debate on the specifics was long and detailed. Board members said they did not want to be in the position of attempting to tell city commissioners how to run city affairs, but rather to give assurance of support in reduction of proposed expenditures where

necessary to avoid operating in the red.

Also at the meeting was Bill deTournillon, general manager for a group of five television stations including KWAB-TV, Big Spring. He was responding to a resolution passed by the board protesting the summary closing of originating studios here and operating jointly with KMOM-TV, Monahans.

The board had taken sharp exception to the Federal Communications Commission action in changing the operating permit without notice to local people. With the exception of three engineers, a secretary and

one other representative, the operations here were transferred overnight.

DeTournillon said he was surprised to learn of opposition and dissatisfaction with the new arrangement. After all, he explained, it was designed to provide better signals and better service. The board heard him without comment.

Mrs. Khosrovi Gets Nixon's Nod

WASHINGTON (AP) — President Nixon announced Tuesday he plans to nominate Carol M. Khosrovi to the \$38,000 position as head of VISTA—Volunteers in Service to America.

Mrs. Khosrovi currently in charge of congressional and governmental relations for the Office of Economic Opportunity.

If approved by the Senate, she would become one of the top six women serving in the federal government.

VISTA is the domestic version of the Peace Corps. The directorship of the organization has been vacant since mid-1968 when William H. Crooks resigned.

Three Killed, Five Injured

MCKINNEY, Tex. (AP) — Three members of a Dallas family were killed Tuesday night and five other persons injured in a collision two miles east of McKinney on Texas 24.

Authorities listed the dead as Larry Joe Combest, 19; his wife Patricia, 18, and their two-month old child, Christi.

Officers said the Combest car hit the second vehicle and then ran into a ditch. The other car was turning off the highway into a drive.

Workshop On Moral Issues

HOUSTON (AP) — U.S. Senate candidate Lloyd M. Bentsen and George Bush addressed Tuesday a workshop on moral issues sponsored by the Texas Baptist General Convention.

Bentsen, a Democrat, who labeled this country "the world's champion polluter," said we should also lead the fight against pollution.

He said the Manned Spacecraft Center's environmental research and control center here should be enlarged.

"The space program has been undergoing some drastic budget cuts," he said. "I think it is both short-sighted and tragic... The brainpower concentrated at NASA offers our brightest hope for speeding up solutions to the problem of environmental control," Bentsen said.

Bush, a Republican, warned that the prediction that the population of the world would reach seven billion by the year 2000 was a major pollution factor and he advocated expanded birth control information.

Bush said that pollution was a moral issue which churchmen should confront.
