

American Troops Placed On Alert

WASHINGTON (AP) — The reported Syrian intervention in the Jordanian civil war appears to increase the possibility of direct U.S. involvement in the conflict. But U.S. officials hope urgent appeals to Russia, Syria and other nations will avert broadened fighting.

Secretary of State William P. Rogers condemned the alleged invasion Sunday as "irresponsible and imprudent" and warned: "This action carries with it the danger of a broadened conflict."

RIGHT NOW!

"We call upon the Syrian government to end immediately this intervention in Jordan," he said, "and we urge all other concerned governments to impress upon the government of Syria the necessity of withdrawing the forces which have invaded Jordan."

Pentagon officials said today

that selected U.S. infantry and paratroop units in West Germany and the United States have been put on alert for possible use in evacuating Americans from Jordan.

The Nixon administration's initial reaction took the form of the Rogers denunciation and warning and a direct request to the Soviet government, plus diplomatic appeals to other governments, to put pressure on Syria to end its intervention.

APPEAL TO MOSCOW

The appeal to Moscow was made through the ranking Soviet diplomat here, Minister-Counselor Yuly M. Vorontsov. Russia is Syria's major arms supplier and U.S. officials assume Moscow can exert considerable influence in Damascus. In a sense, the publicized U.S. appeal was a challenge to the Russian government to dem-

onstrate what it is willing to do to curb the peril of spreading conflict in the Middle East.

The official and public position of the Nixon administration has been one of concern for more than 400 Americans, including 38 out of 54 hostages held by the Palestinian guerrillas, with the possibility that force would be used if it was judged necessary to evacuate them.

However, unofficial reports from Chicago last Friday, following briefings of editors there by President Nixon, described Nixon as being prepared to intervene forcibly in Jordan if he thought such action was required to save the government of King Hussein and keep the guerrillas from taking over.

JUST IN CASE

One possibility foreseen in the Chicago report was that Nixon

might decide to act if Syria or Iraq entered the Jordanian civil war in support of the guerrillas.

The United States has powerful naval forces including aircraft carriers in the Eastern Mediterranean and late last week, Nixon ordered the 6th Fleet there reinforced by units from the Atlantic fleet.

His move was described officially by the Pentagon as a "precautionary step" related to the possibility that Americans might have to be evacuated from Jordan.

The State Department did not say what other countries in addition to Russia were being asked to join in putting pressure on Syria, but Rogers' public statement constituted the kind of appeal which U.S. ambassadors in friendly capitals all over the world would normally bring promptly to the attention of the foreign offices.

GATHER FOR MONETARY MEETING — Danish King Frederik, second from left, and Queen Ingrid, wearing hat, are welcomed Monday to the opening of the week-long meeting of the World Bank and International Monetary Fund in Copenhagen. Others are Danish Premier Hilman Baunsgaard, left; Mrs. Remedios O. Crofoot of Washington, back to camera; and World Bank President Robert McNamara, right, wearing glasses. King's wrist is in sling because it was broken in a fall last week.

Soviet-Built Tanks Take Major Town Near Amman

BEIRUT, Lebanon (AP) — Royal Jordanian army forces were outnumbered and taking heavy casualties today in battles with tanks from Syria in Irbid, Jordan's second largest city, Radio Amman reported.

Israeli military informants in Tel Aviv said they had received information that Irbid, about 50 miles north of Amman, had fallen to a force of Soviet-built tanks that entered Jordan on Sunday in the second of two thrusts from Syria.

The Jordanian broadcast said two brigades of tanks converged on Irbid in support of Palestinian guerrillas holding the city's center in the fifth day of their war against King Hussein's government in Amman.

HOLD FAST

The Amman broadcast exhorted troops of the 40th Royal Tank Brigade in Irbid to "hold fast and teach the heretic rulers of Syria a lesson in heroism." The Syrians denied their forces had entered Jordan.

King Hussein himself went on the radio later, accusing the Syrians of hatching a plot that would allow Israel to occupy all of Jordan.

"But Jordan is defended by lions," the young king declared. He praised the 12,000 Iraqi troops stationed in Jordan since the 1967 Middle East war and this was taken to mean he was appealing indirectly to them to intervene on Jordan's behalf. They had been encamped near Irbid before the fighting began. The Iraqis are reported to

have moved away from the battle zone but allowed Jordanian tanks to pass through their lines.

BITTER DISPUTE

The Baath Socialist regimes of Iraq and Syria are locked in a bitter ideological dispute.

The 34-year-old monarch claimed Syria's leaders withdrew tanks from the cease-fire line with Israel in the Golan Heights in order to strike against Jordan.

Hussein contended his forces had just about ended the uprising by Palestinian guerrillas—who opposed his agreement to enter peace talks with Israel—when "the real imperialist agents, the rulers of Syria, staged their treacherous aggression against us."

INVASION DENIAL

Syrian President Nureddin Atassi denied that his country's troops had crossed the border after the first of two invasion claims by Amman, and Damascus Radio reiterated the denial today.

The official Syrian government statement also demanded that the United States withdraw its 6th Fleet units from the eastern Mediterranean Sea.

The guerrilla command, in broadcasts from Damascus and Baghdad, claimed to have fought off continual Jordanian tank and artillery assaults on Irbid prior to the reported Syrian intervention.

A message from Jordanian army leader Field Marshal Habis Majali praised the Jordanian 40th Brigade for success-

fully resisting superior enemy forces and "holding fast in the face of the aggressors, as fast as the steel of your tanks."

STANDING ALONE

Majali said: "You are standing alone against a mass attack unleashed on you by the rulers of Syria, who could not hold for two hours in the Golan Heights in 1967." It was a reference to the easy Israeli victory against the Syrians in the six-day war.

In Washington, Secretary of State William P. Rogers, calling the reported incident an "irresponsible and imprudent inter-

Governor Here On Thursday

Gov. Preston Smith will bring his campaign for re-election to a second term to Big Spring Thursday, at a public reception in the Community Room of the First Federal Savings and Loan Building beginning at 3:30 p.m.

Gov. Smith, the first West Texan to serve in the governor's office in a score of years, is expected to speak briefly, explaining the progress of his campaign.

Prior to arriving in Big Spring, the governor will be in Snyder for the dedication of a mobile home plant. After the reception he will be in Sweetwater for dedication ceremonies of the Texas State Technological Institute.

Supporters from Howard, Mitchell, Martin and Scurry are expected to attend the Big Spring reception, which is open to the public.

Gov. Smith won the Democratic nomination unopposed, the only candidate in history to do so.

George J. Zachariah, Big Spring, is directing arrangements for the supporter reception. Mrs. Joe Darden, Coahoma, Jack Buchanan, Big Spring, Morgan Hall, Stanton and Harold A. Lack, Snyder, are serving as city chairmen for Gov. Smith's campaign.

vention of Syria into Jordan," demanded that the alien forces be removed. He urged the Soviet Union to press Syria for withdrawal.

Tunisian President Habib Bourguiba proposed a summit conference of Arab states in Cairo to thrash out a Jordanian solution, and several, including Egypt, had accepted. But Cairo sources said Sunday the Syrian invasion ended chances for such a meeting.

TWO POSITIONS

Cairo took two positions on the conflict Sunday:

—Hussein should intervene immediately to ensure compliance with a cease-fire plan worked out by Egyptian President Gamal Abdel Nasser and reportedly accepted by the government and guerrilla forces.

—Iraq's ruling Baath party tricked the guerrillas into continuing to fight after their leaders accepted the truce.

Nasser sent Hussein two messages accusing the royalist troops of disregarding the cease-fire. If Hussein doesn't stop his men, Nasser warned, "dangerous consequences" might result.

Hussein answered over Radio Amman that shortly after he ordered his troops to hold their fire, "the other side openly shelled for hours my own residence." The royal summer palace outside Amman was shelled Saturday night, but the king was away.

SABOTAGE

He said, however, that negotiations are under way which "we hope will lead to peace," and that Gen. Mohamed Sadek, Cairo envoy to Amman, will be invited to join in Sadek carried the Nasser initiative to Hussein and Yasir Arafat, leader of the Al Fatah guerrillas and the Palestinian central committee.

The newspaper Al Ahran, which usually reflects the Egyptian government's thinking, said the Baathists in Iraq—which opposed the cease-fire between Israel and the Arab states—used a breakdown in commando communications to sabotage implementation of the Nasser truce plan.

'IRRESPONSIBLE INTERVENTION' Fast Glance At Mideast

By The Associated Press
TEL AVIV—Israeli military sources said a Syrian tank force captured Jordan's second largest city, Irbid, today after heavy fighting against King Hussein's outgunned forces.

BEIRUT—Jordan accused Syria of sending tanks across the border to fight for Palestinian guerrillas in the Jordanian civil war, and Amman Radio said today about 50 Jordanian tanks faced double their number from Syria in Irbid. Amman claimed its forces drove back a Syrian force near Ramtha Sunday after a 12-hour battle.

WASHINGTON—Calling the alleged invasion "irresponsible and imprudent intervention," Secretary of State William P.

Rogers demanded that Syria withdraw its forces and urged the Soviet Union to work for a quick Syrian withdrawal.

BEIRUT—A Syrian government statement broadcast from Damascus reiterated President Nureddin Atassi's claim that Syrian tanks had not intervened in Jordan. The broadcast said U.S. Secretary of State William P. Rogers' statement demanding the withdrawal of Syrian forces was designed to allow the United States to send in troops.

CAIRO—Egyptian President Gamal Abdel Nasser warned King Hussein in two notes to step in and force his troops to honor an Egyptian-sponsored cease-fire to avoid "dangerous consequences."

Anticrime Bill Moves Toward Okay

WASHINGTON (AP) — Under heavy pressure from the administration and the House Republican leadership a Judiciary subcommittee moved today toward expected approval of a tough anticrime bill.

The bill, moved along by Chairman Emanuel Celler, D-Iowa, is aimed primarily at organized crime and includes stiff antibombing provisions.

With law and order a major campaign issue this year, members of both parties are anxious to get on record against crime.

The GOP-sponsored discharge threat was first made Thursday, causing Celler to go along with the bill favored by the Republicans and many Democrats and abandon his effort to make extensive changes.

73 TO 1

The result is a bill closely paralleling the version passed 73 to 1 last January by the Senate. A major difference is the addition of a new section aimed at the use of explosives in terror bombings.

The bill requires manufacturers, dealers and importers of explosives to be licensed by the federal government. It also bars sales to persons under 21, felons, drug addicts, and anyone not a resident of the state in which the purchase is made, or a contiguous state.

Although a final decision on penalties has not been made, tentative approval has been given to the death penalty for anyone convicted of a bombing in which a death occurs.

In addition to covering federal buildings, the bill makes it a crime to bomb property used or leased by the government, which would cover Selective Service offices and military recruiting stations.

The provisions dealing with organized crime strengthen the wide variety of laws and court procedures in hopes of making it easier to arrest and convict syndicate leaders.

GRAND JURIES

The many sections of the bill establish special grand juries with expanding authority to investigate organized crime. Other provisions create new rules of contempt, perjury and immunity in an effort to compel witnesses to testify before grand juries.

WITH SAMPLES Spaceship Returning From Moon

MOSCOW (AP) — The Soviet spaceship Luna 16 took off from the moon today and began returning to earth with samples of moon rock, Tass reported.

The unmanned moon probe made a controlled landing in the Sea of Fertility Sunday, the Soviet news agency reported. Luna 16 was launched Sept. 13 and went into lunar orbit last Thursday.

Scientists at Bochum, West Germany, reported monitoring pictures of "excellent quality" transmitted by Luna.

Bank Slashes Prime Rate

NEW YORK (AP) — A major New York bank initiated a cut in the prime interest rate to 7½ per cent from 8 per cent today, and a number of other banks quickly followed.

Morgan Guaranty Trust Co., the nation's fifth largest bank, led in announcing reduction of the rate, which is the interest charged by banks to their biggest and most creditworthy borrowers.

Among other banks going along were Chemical Bank of New York, the country's sixth largest; First National Bank of Louisville, Ky.; South Carolina National Bank, Columbia; Union National Bank of Kansas City and Central Penn National Bank of Pittsburgh.

But most major banks held back, saying they were studying the situation.

Three Church Bombings

MILAN, Italy (AP) — Firebombs exploded early today in three Milan churches, including the famous Santa Maria Delle Grazie in which Leonardo da Vinci painted "The Last Supper."

The bomb in Santa Maria Delle Grazie slightly damaged a side altar. Leonardo's world known fresco was not harmed.

In the two other churches fire damaged vestments and fittings.

Anticlerical leaflets signed by an anarchist group were found by police in the churches.

Physician Shot Four Times In Head

GLEN ROSE, Tex. (AP) — Dr. Robert B. English was shot to death early today at Glen Rose, some 30 miles west of Cleburne.

Officers said the physician had been shot four times in the head with a .22 caliber pistol.

Officers said they arrested a man in connection with the slaying.

Resume Search For 24 Crewmen

MIAMI (AP) — U. S. Coast Guard planes were ordered out to resume searching today for 24 crewmen reported to have abandoned a burning freighter — believed to be Spanish — in the Caribbean Sea about 200 miles southeast of Kingston, Jamaica.

Distress calls from the freighter were monitored by ham radio operators in the United States and South America, the Coast Guard said.

Pay, Price Lids Proposed At Funds Meet

COPENHAGEN (AP) — The managing director of the International Monetary Fund told the World Bank's annual meeting today he hopes the United States will strengthen its balance of payments position by working to eliminate inflation and restore price stability.

At the same time, Pierre-Paul Schweitzer, chief official of the 116-nation body, proposed that inflation-hit industrial countries consider instituting wage and price controls.

STAMPED OUT

The French IMF chief did not specifically single out the United States in exploring this idea, but declared that wage and price controls may be particularly useful in tackling continued cost-push forces "at a time when fiscal and monetary policies have stamped out excess demand and the economy is operating below capacity."

This summarized the current situation in the United States and left the implication that Schweitzer was directing his remarks to Washington, among others.

In a speech prepared for delivery to the opening session of the IMF-World Bank annual meeting, Schweitzer underlined the importance to the international monetary system of obtaining a sustained improvement in the U.S. balance of payments position.

THERE'S HOPE

While noting some "encouraging" recent signs in U.S. and Canadian price developments, Schweitzer said over-all stabilization efforts against stubborn inflationary momentum had met with some disappointment.

"In both countries wage settlements are still running substantially in excess of normal productivity growth and the task of economic management is clearly difficult," he declared.

Government Debts Pile Up

WASHINGTON (AP) — The Justice Department, while admitting that its collections of debts owed the federal government declined last year, says it won't resort to private bill collectors.

"It's not just a matter of going out and getting the bucks," said Leo Pellerzi, assistant attorney general for administration.

"You have to have justice," he said. "We're not going to throw old people out of their homes or cause families to disintegrate or put people on welfare."

The department will strengthen its collection procedures, however, through assignment of four field supervisors and an attorney in each U.S. Attorney's office to supervise collections and regularly review uncollected debts. Pellerzi said FBI reports will be made on debtors who haven't paid within three months.

A House Government Operations subcommittee had suggested use of private collection agencies to get money owed because of fines, judgments and penalties.

Davis To Combat Aerial Hijacking

WASHINGTON (AP) — Benjamin O. Davis Jr., retired Air Force general, was named today to head the government's task force to combat aerial hijacking.

The announcement came from Secretary of Transportation John A. Volpe, who brought Davis to the White House for a

conference with President Nixon.

Davis retired from the Air Force in 1969 as a lieutenant general. He formerly was Cleveland's public safety director and his new job will be director of civil aviation security for the Transportation Department.

Davis, 57, is one of the highest-ranking Negroes ever to serve in the military.

In addition to announcing the appointment, Volpe said his department is offering American air carriers aviation war risk insurance coverage because it is unavailable from commercial insurers at reasonable rates.

Sew What's New For Bernadette

LONDON (AP) — Bernadette Devlin, 22-year-old youngest member of Parliament, is learning to crochet while serving six months in Northern Ireland's Armagh Prison for inciting riots. Her teacher is a murderer in for life.

This news was disclosed by Ivan Cooper, an Ulster member of Parliament, Sunday after visiting the young civil rights leader.

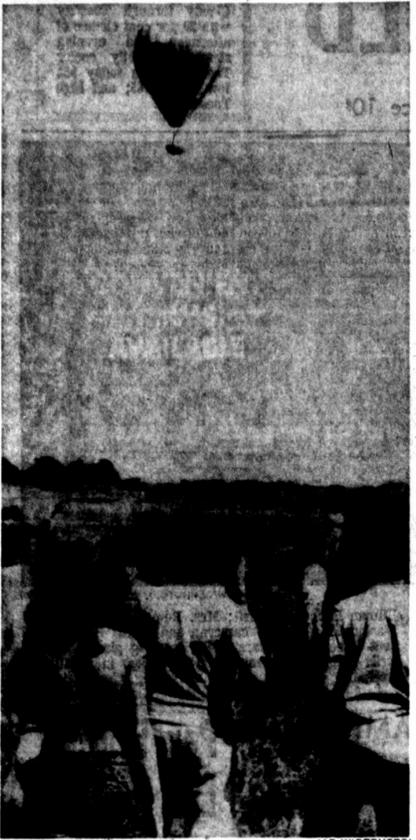

Hard Hat For Agnew

MEMPHIS, Tenn. (AP) — Vice President Spiro Agnew will become an honorary member of the International Union of Operating Engineers here Tuesday.

The vice president will be given credentials and a hard hat so he can operate a bulldozer at the groundbreaking for a new multimillion-dollar Internal Revenue computer center.

The new federal project at Memphis International Airport will be the first stop on an itinerary which will include a motorcade to the heart of the city and a benefit dinner rally at Mid-South Coliseum to be attended by about 10,000.

(AP WIREPHOTO)

EASTWARD HO! — Spectators gape as balloon floats away from East Hampton, N.Y., Sunday on an attempted transatlantic crossing. Making the flight are Rod Anderson, 32; his wife, Pamela Brown, 28; and Malcolm Brighton, 32. The crossing, although attempted several times, has never been completed successfully.

It's A Gas For Three

EAST HAMPTON, N.Y. (AP) — With champagne toasts and cheers from a thousand spectators, three adventurers have set off in a beautiful balloon on a 3,000-mile flight to "somewhere in France."

The attempt at the first balloon crossing of the Atlantic began at 1:40 p.m. Sunday and by the time dusk fell the craft had floated east to the vicinity of Boston.

Making the flight are Rod Anderson, 32, a New York commodities broker; his wife, television actress Pamela Brown, 28; and Malcolm Brighton, 32, of Farnham, England, an aeronautical engineer and amateur balloonist.

They ride in a 12-foot-by-5-foot fiberglass gondola swung beneath the 80-foot-high, helium-filled balloon that is a brilliant orange topped by yellow and white stripes.

Before leaving from a cow pasture in this Long Island community the three balloonists broke open champagne and christened their craft, "The Free Life."

Brighton, said he saw no reason why the flight should not succeed but declined to predict where they might land. "We'll take any inch of land we can get," he said.

Bridge Test

—CHARLES H. GOREN

BY CHARLES H. GOREN
(© 1970; by The Chicago Tribune)

ANSWERS TO BRIDGE QUIZ

Q. 1—Neither vulnerable, as South you hold:

♠K105 ♠AKJ6 ♠AQ53 ♠K8

The bidding has proceeded: South West North East

1 ♣ INT Pass ?

2 NT Pass 3 ♣ Pass ?

What do you bid now?

A.—Three spades. This allows for all contingencies. If partner has a five card spade suit he might prefer to play the game in that suit. If his bid was based on a four card suit, he still has the option of returning to four hearts or three no trump.

Q. 2—East-West vulnerable, as South you hold:

♠74 ♥84 ♠A109653 ♠AJ7

The bidding has proceeded: West North East South

1 ♣ INT Pass ?

What do you bid?

A.—Three no trump. Your hand contains nine points and you have a six card suit is ample to carry on to game. There is nothing to be gained by jumping in diamonds.

Q. 3—As South, vulnerable, you hold:

♠A105 ♥AJ1063 ♠KJ75 ♠43

The bidding has proceeded: West North East South

Pass 1 ♣ 2 ♣ ?

What do you bid?

A.—Two hearts. While it is tempting to double and exact from the enemy a suitable toll for what may have been an in-temperate act, nevertheless such a step should be taken with caution when support for partner's suit is held. Vulnerability in this case militates against an early double. Chances for game are too slight to accept, what might be an inadequate penalty. Were clubs and spades interchanged, we would favor the double.

Q. 4—As South, vulnerable, you hold:

♠9843 ♥8754 ♠KJ3 ♠KJ

The bidding has proceeded: North East South

1 ♣ Pass 1 ♣ 2 ♣

What do you bid?

A.—Two spades. Opposite a partner who has opened the bidding, you cannot afford to sell out so cheaply and, this is not, strictly speaking, a red-bleedable suit, there is no other call available.

Q. 5—As South, vulnerable, you hold:

♠4 ♥KQ3 ♠K32 ♠QJ10754

The bidding has proceeded: East South West North

1 ♣ Pass 2 ♣ Dble. Rdbl. ?

What do you bid now?

A.—One of both of the opponents appear to be taking liberties with the truth. There is little doubt that your side has a game, inasmuch as your partner was strong enough to make a take-out double at such a high level. Perhaps the atmosphere would best be cleared by passing and permitting partner to rescue himself from the redouble. If he bids hearts you will raise and, if not, you may contract for game in clubs.

Q. 6—Neither vulnerable, as South you hold:

♠A64 ♥10875 ♠983 ♠862

The bidding has proceeded: North East South West

2 ♣ Pass 2 NT Pass 3 ♣ Pass ?

What do you bid now?

A.—Three no trump. Except for the ace your hand is worthless and no inducement should be offered partner to go past the nine trick level.

Q. 7—As South, with both sides vulnerable, you hold:

♠AK9863 ♥A ♠AKJ10 ♠43

The bidding has proceeded: South West North East

2 ♣ Pass 1 ♣ 2 ♣

What do you bid now?

A.—Pass. This strategy is clearly indicated. Partner may be in a position to inflict a severe sting and he should be given the courtesy of the read. If he does not choose to double, he is obliged to proceed with the bidding inasmuch as your original bid was forcing to game.

Q. 8—Both vulnerable, as South you hold:

♠A10963 ♥73 ♠J983 ♠K5

The bidding has proceeded: North East South West

1 ♣ Pass 1 ♣ 2 ♣

What do you bid now?

A.—Two spades. Opposite a partner who has opened the bidding, you cannot afford to sell out so cheaply and, this is not, strictly speaking, a red-bleedable suit, there is no other call available.

CREATING WINDS CAPABLE OF RIPPING LIGHT AIRCRAFT Big Jets Can Cause Problems

WASHINGTON (AP) — The government has discovered that wingtips of the new jumbo jets are creating tornado-like winds in the sky capable of tearing apart light aircraft and hurling other jetliners toward the ground.

The potential hazards of the funnel-shaped winds spinning off the wings of the 747s and C5As had been underrated, said Federal Aviation Administration officials familiar with a series of flight tests now being concluded.

The tests showed, for example, that the swirling winds trail behind the huge planes for many miles and do not readily dissipate at high altitudes. They disclosed, too, that the invisible turbulence can endanger passenger airliners as well as small planes.

20 DEATHS
Because of the winds — called wake turbulence or wingtip vortices — the FAA has ordered a five-mile spacing at all times between the giant jets and aircraft weighing less than 300,000 pounds.

There have been no cases reported of planes crashing after flying into the turbulence generated by the jumbo jets.

However, records compiled by the National Transportation Safety Board from 1964 through 1969 reveal 98 cases where wake turbulence generated by smaller jetliners was a cause or contributing factor in crashes of light aircraft.

These crashes caused 20 deaths and 54 serious injuries.

Wingtip vortices have been a recognized phenomenon for years. All planes cause them to some degree. But, said Richard Sliff, deputy director of the FAA's flight standards service, "We didn't know the extent of the turbulence until we undertook this testing program. We were fully aware of wake turbulence but we didn't know its intensity."

GO BOOM!
The tests showed that small aircraft which penetrate the wingtip vortices within three miles of the giant aircraft can be forced into a sudden roll of 75 degrees.

"In other words," said the FAA's William M. Flener, director of air traffic service, "what we're saying is that under certain circumstances a light aircraft would break up structurally."

However, the FAA's chief of regulation and procedures, Robert Martin, said he does not believe that a plane flying into a powerful vortex would break up. But he does foresee a danger of crashing.

The FAA measures the 747's vortex strength as 7,700 feet squared per second and the C5A's as 7,260 feet squared per second. Agency officials translate this to wind speeds of 80 to 90 miles per hour.

MORE POWERFUL
The power of these vortices is nearly double that of the 707 jetliner which is listed in Safety Board records as the generator of crash-causing turbulence in six cases in a three-year period.

The vortex of the planned SST (supersonic transport) is estimated by the FAA at 11,200 feet squared per second — half again more powerful than that of the 747s.

The power of a vortex is demonstrated in a film — not yet shown publicly — taken by the FAA during flight tests this year at Edwards Air Force Base, Calif.

year at Edwards Air Force Base, Calif. FAA and Boeing Aircraft Corp. pilots landing a two-engine 737 jetliner 1.7 miles behind a 747 jumbojet deliberately flew into the preceding plane's vortex. At 60 feet above the runway the 737 suddenly jerked into a 28-degree bank. The right wing dipped almost to the runway and the plane yawed abruptly leftward. Without exceptional pilots at the control, FAA officials said, the plane would have crashed.

There are reports that an F104 fighter plane used in the tests was flipped upside down when the pilot flew into the vortex of one of the giant jets.

Asked about this, Al Morrissey of FAA's Flight Standards Service, said: "The F104, having a short wingspan, did experience rather drastic results as a result of vortices. Not only the F104 but other light planes were rolled out, pushed out of the vortices. During maneuvers some equipment was shaken up and some pilots were shaken up."

But Morrissey emphasized that these were cases of test pilots deliberately positioning there and deliberately flying deeper into the spinning winds. "This is quite different from every day operations where nobody would purposely go in and stay there," he says.

FAA officials say the wingtip vortices are most dangerous during landings and takeoffs when large numbers of aircraft are concentrated in limited areas. But they say that requiring several-minute intervals between takeoffs and landings allows crosswinds time to break up the vortices.

The agency does not consider the problem to be as great at high altitudes, although the tests revealed that — contrary to long-held belief — vortices of big jets do not readily dissipate when formed at 30,000 feet and above where most jetliners were formed at 30,000 feet and above where most jetliners cruise.

TWISTING WINDS
FAA officials cannot say precisely how long the vortices last at high altitudes, but estimates range from a few minutes to half an hour.

Given the longer time and jetliner cruising speeds of 500 miles an hour, this means the twisting winds could stretch out behind the jets for 250 miles.

At present, about 65 of the 747s have been delivered to airlines and about 200 are on order. The Air Force is operating six C5As, and eventually will have 81.

Short of the required two-thirds margin.

The amendment would do away with the Electoral College and give the election to the presidential candidate who received 40 per cent or more of the popular vote. Failure of a candidate to receive 40 per cent would result in a runoff election between the two front runners.

Opponents who succeeded in beating back an attempt to invoke the Senate's debate-closing rule last Thursday say a direct vote would destroy the two-party system and eliminate the role of the states in the election process. They were led by Sens. Roman L. Hruska, R-Neb., and Sam J. Ervin, D-N.C.

Supporters of the proposed amendment, were admittedly hard-pressed to pinpoint how they could overcome the defeat but said they would keep trying.

Since last Thursday's vote defeating the cloture move, Senate debate on the proposed amendment has halted while action proceeded on other measures in the drive for adjournment of Congress by the middle of next month.

Rail Strike Woes Bloom
WASHINGTON (AP) — The Nixon administration, having moved to bar a threatened rail strike by four unions Sept. 24, has acted to avert another one called for the same day.

Secretary of Labor James Hodgson said a meeting was set for Tuesday with the United Transportation Union to solve a long-standing dispute over firemen. The Transportation Union was among four unions barred from striking over pay issues Sept. 24, but said over the weekend a strike would start at 12:01 a.m. on that date, if the firemen question isn't solved.

Asst. Secretary of Labor W. J. Usery will head the government mediation team on the firemen issue.

Fresh Try To Junk Electoral College

WASHINGTON (AP) — Senate leaders looked today toward making another attempt to force a vote on a constitutional amendment to junk the Electoral College in favor of the direct election of presidents.

Democratic Leader Mike Mansfield had said a second attempt to end debate today on the proposal would depend on whether a new attempt would be more successful than an effort last Thursday, which failed.

The vote then was 54 for invoking the Senate's debate-closing rule and 36 against, or six

American Party Candidate Complicates Arkansas Race

BILOXI, Miss. (AP) — Republican Gov. Winthrop Rockefeller, up against a stiff re-election challenge, has rejected in advance any "position that would be inflammatory" when Southern governors deal with the issue of busing to desegregate schools.

That politically sensitive topic was certain to come up as 14 Southern governors began two days of business sessions today at their 36th annual conference. Gov. John Bell Williams of Mississippi said he wants the conference to adopt a resolution condemning the busing of school children for the sake of racial balance, saying that would be a message to Congress from the South.

JUST THE BEGINNING
Rockefeller, conference chairman, is campaigning for a third two-year term in Arkansas against a formidable Democratic newcomer, Dale Bumpers, who defeated former Gov. Orville E. Faubus to win his party's nomination.

A Rockefeller aide said the primary victory gave Bumpers momentum that would win him the election if it were held now but added that Rockefeller had only begun to campaign with the voting still six weeks away.

A third candidate, Walter Caruth of the American Party, complicates the Arkansas picture.

Rockefeller said Bumpers already has disclaimed the busing issue. "My opponent came out very emphatically when he was running against Mr. Faubus that he did not feel it would be an issue because the vast majority of the people of the state are opposed to it," Rockefeller said in an interview.

RACIAL BALANCE
Rockefeller said he is content with the position the Southern governors adopted a year ago which, he said, emphasizes quality education, and opposes busing designed only to achieve racial balance.

"I personally would not want to take a position that would be inflammatory because we are making progress," he said. "We have a record of which Arkansas can be proud."

Two Democratic governors, Robert W. Scott of North Carolina and Buford Ellington of Tennessee, accused the Nixon administration of renegeing on assurances that the busing of pupils would be stopped.

DIFFERENT RULES
Scott said the administration has a Southern strategy which he described this way: "It is simply 'We'll tell the folks one thing, sort of pour oil on the water, but we'll push with vigor in the opposite direction and maybe we can get away with it.'"

(AP WIREPHOTO)

AIRBORNE ACROBATIC RANCHER — George Garcia, 70, San Jose, Calif., leads a quiet life alone on his 135-acre mountain ranch six days a week, but on the seventh, takes to the sky for an hour or two of barrel rolls, figure eights, loops and spins. With his instructor, Amelia Reid (right), the only way he'll fly, he has gone well past the stage where most pilots end formal training — 105 hours solo — he is taking up acrobatics. Loops and rolls make him a bit queasy at times. "No more greasy food before I fly," he says.

Assessment Of Allende's Latin Impact

WASHINGTON (AP) — American officials view the Chilean election of Marxist Salvador Allende as marking the possible start of a large Latin American Communist bloc of nations.

In addition to Chile, officials mentioned Peru, Argentina and Bolivia as candidates for Communist domination.

An assessment of Allende's impact on Latin affairs came from a high American official who briefed Midwestern publishers, editors and broadcasters in Chicago. The White House-organized background was presented Wednesday, but ground rules prevented release of what was said until the weekend.

Although President Nixon was involved in some briefings, he was not on hand for the Allende analysis.

Allende failed to get a clear popular-vote majority in the Chilean election, but his election by the Chilean Congress, with whom the decision rests, was expected by the American official.

Over a period of years, Allende said that newspapers and radio stations are being sold in the wake of threats of violence. Newsmen have resigned and anti-Marxist reporters have been dismissed, IAPA said.

The American view of South America in years to come is that Chile might be joined by already deeply divided Argentina; by Peru, described as heading in directions difficult to deal with; and by Bolivia, which the official said is moving left, in an anti-United States direction.

IS SORT
Fifteen North Vietnamese were reported to have been killed in a battle with South Vietnamese troops during the 24-hour flight by one plane.

Informed sources reported that North Vietnamese bombers flew up against North Viet routes in Laos during the past week.

A Cambodian government aimed at opening from Skoun to K. was stalled for three days. The drive up Route 1 at Taung Kauk village Skoun, Sept. 13, North Vietnamese Cong force that it losses on the Cambodian side.

Field reports from the reinforced troops might get rolling again at an Cambodian frontier. The front line said he was pleased with the government's progress so far.

COPTER CASE
Elsewhere, relations Bangkok reported can airmen were their CH3 rescue, shot down Aug. 18, east Thailand.

The U.S. Embassy imposed a news ban incident, which was reported officially the helicopter was known case of an

South Viet Naval Force Starts Major Operation

SAIGON (AP) — A South Vietnamese naval task force has launched a major operation in Cambodia along the Bassac River about 35 miles southeast of Phnom Penh, a military spokesman reported today.

The operation, involving scores of gunboats and more than 1,000 Vietnamese marines, started Saturday but was not disclosed until today for security reasons, he said.

Informed sources said there had been little significant action to date.

MINOR SKIRMISH

South Vietnamese headquarters reported one minor skirmish Sunday when a Marine battalion clashed with North Vietnamese and Viet Cong troops along Route 30 near Phum Taey, about 10 miles from the Vietnamese border.

It was not immediately disclosed how many Vietnamese troops were committed in the new drive aimed at destroying North Vietnamese and Viet Cong sanctuaries between the Bassac and Mekong rivers, which lead into South Vietnam's fertile Mekong Delta.

At last report, 13,500 South Vietnamese troops were operating inside Cambodia.

TONS OF BOMBS

Meanwhile, American warplanes slammed hundreds of tons of bombs into North Vietnamese positions around two artillery bases in the northern quarter of South Vietnam and kept up raids on enemy supply routes in Laos and Cambodia.

American bombers began their third week of concentrated raids around embattled Fire Base O'Reilly, near the Laotian border, where fresh fighting flared during the past 24 hours.

They also attacked North Vietnamese positions threatening Fire Base Fuller, four miles south of the demilitarized zone.

South Vietnamese headquarters reported that more than 200 government troops clashed with North Vietnamese soldiers about 2 1/2 miles southeast of Fire Base O'Reilly, which has been besieged for the past two months.

16 SORTIES

Fifteen North Vietnamese soldiers were reported killed. Field reports said one South Vietnamese soldier was killed and one wounded.

The U.S. 7th Air Force said its tactical fighter-bombers flew 16 sorties in support of the South Vietnamese troops at O'Reilly during the 24-hour period ending at 6 a.m. today. A sortie is one flight by one plane.

Informed sources said U.S. bombers flew up to 300 sorties against North Vietnamese supply routes in Laos and Cambodia during the past 24 hours.

A CAMBODIAN GROUND OPERATION

A Cambodian ground operation aimed at opening the road from Skoun to Kompong Thom was stalled for the eighth day. The drive up Route 6 was halted at Taing Kauk village, north to Skoun, Sept. 13 by a powerful North Vietnamese and Viet Cong force that inflicted heavy losses on the Cambodians.

Field reports from Skoun said the reinforced Cambodian troops might get the offensive rolling again at any time.

Cambodian Premier Lon Nol flew to the front lines today and said he was pleased with the actions of the government troops so far.

COPTER GUNNED

Elsewhere, reliable sources in Bangkok reported four American airmen were killed when their CH3 rescue helicopter was shot down Aug. 13 over northeast Thailand.

The U.S. Embassy in Bangkok imposed a news blackout on the incident, which never has been reported officially. The loss of the helicopter was the first known case of an American air-

Lach Trial Due To Start

FORT WORTH (AP)—Benjamin Lach, 26, was called to trial today in the killing three years ago of a Texas Tech cleaning woman.

The trial was moved to Fort Worth after the defense asserted that widespread publicity which would have prevented a fair trial at Lubbock.

Lach, a former student at the school, is accused of killing Sarah Morgan, 54, with a scalpel in the university's science building.

Lawyers had asked that testimony about Lach's arrest three months after the slaying be suppressed. Judge Byron Matthews ruled on Sept. 11 that such testimony could not be kept out of the trial.

The motion alleges Lach was apprehended after an attempt to steal questions on an examination which were kept in a room in the building where the woman was killed. The motion charged Lach stole a car to escape police. Lach was ruled insane in 1968 but another jury subsequently ruled him competent to stand trial.

Teachers Elect

ALBUQUERQUE, N.M. (AP) — An Albuquerque school teacher, Lois Collins, has been named president-elect of the New Mexico Association of Classroom Teachers. She will succeed Joe Middleton of Albuquerque. Other new officers include Bonnie Cramer, Gadsden, vice president, and O.M. Whitmon, Los Lunas, treasurer. Middleton said the group approved a \$2,000 legislative lobbying fund during its Saturday meeting. He said the money amount was "unusually large."

Kremlin's Hard-Line May Kill SALT Talks

WASHINGTON (AP) — An administration source says the U.S.-Soviet arms curb talks — a showpiece of President Nixon's "Era of Negotiations" policy — may fail if the Kremlin pursues a hard-line policy. Speaking under rules barring direct quotation, the source said of the strategic arms limitation talks — SALT:

"We can't say that it will succeed, but we can say that if they fail it will be as a result of a political decision, on the basis that the Soviets have decided to adopt a hard-line."

These remarks, made to newsmen in Chicago and released by the White House over the weekend, contrasted in tone with earlier administration statements. President Nixon, for example, said at a May 8 news conference:

"We're still far apart, but I will predict now that there will be an agreement, and when that agreement comes, it will be of great significance."

And last month the officials told another group he was extremely optimistic about the SALT prospects. But speaking in Chicago he said he is now cautiously optimistic about the outcome of the negotiations.

No explanation was given for the apparent dampening of U.S. expectations.

Among items other sources reported about the secret talks are:

— The Soviets made no response, other than asking typical questions, to the U.S. missile freeze offer made late in the Vienna negotiating session which ended Aug. 14.

— U.S. negotiators hope for a substantive reply when the talks resume in Helsinki Nov. 2.

— Soviet negotiators turned down a proposal by U.S. Ambassador Gerard C. Smith for wording in the joint communique at the end of the initial round of talks in Vienna which would have indicated the two sides were reaching agreement in principle.

— The administration official in Chicago saw no direct setback for a SALT agreement in what he termed the "flagrant Soviet and Egyptian violations of the Mideast cease-fire."

which ended Aug. 14.

U.S. negotiators hope for a substantive reply when the talks resume in Helsinki Nov. 2.

— Soviet negotiators turned down a proposal by U.S. Ambassador Gerard C. Smith for wording in the joint communique at the end of the initial round of talks in Vienna which would have indicated the two sides were reaching agreement in principle.

TIME FOR A CHANGE? — Britain may be the home of the miniskirt, but both Britain's Princess Anne, left, and her aunt, Princess Margaret, right, favored a maxi look Friday as they arrived at the charity concert in London.

R. Spiveys Feted By Children

Mr. and Mrs. Roy Spivey were honored by their children, Judy, Roy Lee and Tim, with an anniversary party Friday evening in the Pioneer Gas Flame Room.

Refreshments were served from a table covered with a white net cloth and centered with an anniversary cake decorated with white roses and topped with a 25th anniversary bell. Crystal and silver appointments were used. Mrs. Bill Fishback served cake, and Mrs. Phil Grozier of Austin served punch.

Guests were registered by Mrs. Joe Trujillo, and other members of the house party were Mrs. Neal Bryant, Mrs. Omer Decker and Mrs. Leroy Findley.

The children presented their parents with a silver coffee service.

Out-of-town guests were Mrs. Delbert Simpson, Odessa; Mr. and Mrs. Claude Tredaway, Midland; and Phyllis Grozier, Austin.

S. F. Goolsby Is Party Honoree

S. F. Goolsby was honored with a surprise party on his 83rd birthday Friday evening in the home of Mr. and Mrs. Troy Langston, Stanton. A birthday cake decorated with dominoes was served from a table covered with a pink cloth.

Honoring Goolsby were his daughters and their families, Mr. and Mrs. Cecil Robertson, Alan and Alisa, Odessa; Mr. and Mrs. Faye Perry and Lea, Tarzan; Mr. and Mrs. Troy Langston; and granddaughters and their families, Mr. and Mrs. Roy Challis, Lenorah; and Mr. and Mrs. Ken Chapman and Mike, Big Spring; and grandsons and their families, Mr. and Mrs. Jimmy Don Graves, Lenorah; and Mr. and Mrs. Corky Perry and Ricky, Tarzan.

Lakeview Club Begins Projects

STANTON (SC) — Mrs. W. D. Bryant was hostess for the Lakeview Home Demonstration Club meeting Thursday. Mrs. E. P. Madison and Mrs. W. J. Harlowe gave HD council reports, announcing that Nov. 12 will be "achievement day." Members worked on club projects. Mrs. Alfred Franks, president, worded the prayer, and Mrs. Bryant gave the devotion. A salad luncheon was served. The next meeting will be Oct. 1 in Texas Electric Reddy Room with Mrs. Franks as hostess.

Forsan 42 Club

FORSAN (SC) — The Forsan 42 Club held a monthly party Thursday evening in the Community Clubhouse with 19 persons participating in 42 and domino games. A covered dish supper was served.

PTA Meets Today

The Lakeview School Parent-Teacher Association will meet at 7:30 p.m. today in the school library. All parents are urged to attend.

A LOVELIER YOU Cosmetic Science Is Changing Rapidly

By MARY SUE MILLER

New cosmetics are coming on the scene at a fast and furious pace these days. You really have to be on the alert to keep up with them. And keeping up has its rewards. You just may find the development you have always wished and waited for.

For instance, what do these new cosmetic terms mean? And could they mean something special to you?

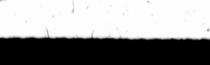

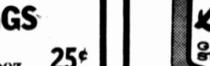

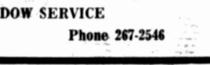

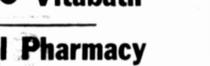

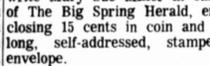

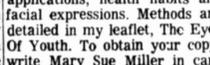

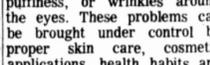

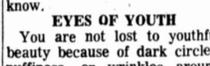

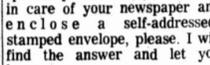

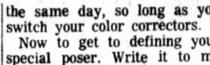

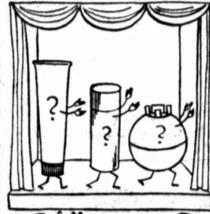

Skin-Care Densities. The term applies to one cream in three strengths geared to an ounce-of-prevention for normal skin, to extra moisturizing for adult skin, and to intensive care for aging skin. By this scheme you can put your complexion on a stepped-up program at a given moment.

Facial Iron. Just what it says — an iron, small and lightweight — to boost the benefits of home-facial treatments. You plug it in to an ordinary electrical outlet and heat; then you "iron" in your favorite treatment cream. A protein cream, perhaps.

Color Corrector Sticks. So you'd rather have fair than brunet skin? Or you'd like to change rosy to olive? That's where color correctors come in handy. Pure red adds a rosy tone. Pure green does it for a ruddy complexion. Both leave neutral base to do with as you desire. You can even decree an imperial miracle and switch from a blond to black wig on the same day, so long as you switch your color correctors.

Now to get to defining your special poser. Write it to me in care of your newspaper and enclose a self-addressed, stamped envelope, please. I will find the answer and let you know.

EYES OF YOUTH
You are not lost to youthful beauty because of dark circles, puffiness, or wrinkles around the eyes. These problems can be brought under control by proper skin care, cosmetic applications, health habits and facial expressions. Methods are detailed in my leaflet, The Eyes Of Youth. To obtain your copy, write Mary Sue Miller in care of The Big Spring Herald, enclosing 15 cents in coin and a long, self-addressed, stamped envelope.

Hints From Heloise

Dear Gals:

Did you ever discover something and giggle with glee and think, "Gee, I've outwitted a manufacturer and not only saved some money, but have something better?"

I just did . . .

I was going to wear slacks and couldn't find any regular old nylon stockings to use with them. After rummaging through the drawer, I happened to spy three pairs of panty hose with a runner in one leg only. They were the stretchy kind.

(These were easy to spot because when I have a run in one leg—not mine, the stocking — I take the hose off, tie a loose knot in the bad leg and leave them that way — even when washing — so that I won't have to take the time trying to find a good pair when I am in a hurry and need them.)

Well, I took my scissors and cut the panty hose off just below where the thick part of the panty starts, thinking to myself, "Well, old gal, now cut them off at the ankle and go on your way."

Then a little gremlin in my noodle yelled at me and said, "Try them like they are first and see if they won't roll like a garter below the knee and prevent that unsightly ankle show."

When I put them on, sure enough they stretched way above my knee just like they ordinarily do, then I rolled them just below the knee. What a beautiful sight to see. Real cool and makes for a neat looking ankle. No garter to wear either. They stayed up all day.

And to think all this time I had been throwing that leg part away!

Heloise

My husband has a favorite

breakfast that I thought perhaps some of your readers might enjoy . . .

I shred cheese into hot creamed dried beef until it is melted, then I serve this to him on waffles or toast.

Makes him putty in my hands all day!

Yours for Contentment

Dear Heloise:

I am a secretary with a handy tip for you . . . I keep an emery board taped to the side of my typewriter and rub the blackened end of my ink eraser on so it won't smudge the paper.

It's fast and makes for neat copy.

Dorothy E.

Dear Heloise:

Our yard is a new one and it seems like was "born" out in that sea of mud and weeds, as we spend every available minute watering, pulling weeds, planting grass, etc.

I have a million and one things to catch up on inside, and once I remove those muddy shoes and take a breather, I'm likely to forget that hose which we try to move about every half hour or so.

So I decided to set our timer

La Gallina Bridge

Winners Named

Six tables of bridge were in play at the La Gallina games Friday. Mrs. Jerry J. Jenkins and Mrs. Joe A. Moss won first place; Mrs. Hayes Stripling Jr. and Mrs. Ralph McLaughlin, second; Mrs. Granville Hahn and Mrs. Auriel LaFond, third; Mrs. Don Wiley and Mrs. Paschal Odom, fourth; and Mrs. Clarence Peters and Mrs. Pete Cook, fifth.

4-H Leaders Forum Held At Ceta Canyon

WESTBROOK (SC) — Returned from a District Two 4-H Leaders Forum at Ceta Canyon are Mrs. Rex McKenney, Mrs. W. E. Harris and Mrs. Warren Anderson. Accompanying them to the forum were Bobby Lemons, county extension agent, and Mrs. Stanley Moore, home demonstration agent for Colorado City. Guest speakers at the forum were Dr. John E. Hutchison and Joe Rothe, who spoke on 4-H work for the '70's and responsibilities of 4-H leaders and county agents. The forum was sponsored by Texas A&M Agricultural Extension Service.

companied Mitchell County Home Demonstration Club members to the state convention in Galveston last week.

The Joe Brackeens, Clyde, visited Mrs. Brackeen's sister, Mrs. Bettye Oglesby.

The Rev. Ray Elmore, pastor of Coahoma and Westbrook Methodist churches, was guest speaker at the Baptist Brotherhood meeting Thursday. During the meeting J. K. Williamson was elected president of the men's organization. Guests were Terrell Minor, Lee Minor and Alvin Byrd.

Recent guests of the Alvin Byrds were their son-in-law and daughter, Mr. and Mrs. Charles Candler and children, Monahans. The Candler's also visited his parents in Colorado City.

"Sounds of the Seventies" was the theme of the "Week of Prayer" observed by state missions at the Baptist Church last week. Daily programs were conducted by Mrs. Gerald Rollins, Mrs. Homer Rice, Mrs. F. W. Hodnett and Mrs. Altis Clemmer. Mrs. Hoyt Roberts presided. The church goal for the Mary Hill Davis offering was set at \$146.

Guests of Russell Bird and the Pete Hines family have been the Bill Joe Bird family, San Francisco, Calif.; and the Charles Blavelts, Austin, the latter couple en route to New York for a month's visit with his parents. Russell Bird's son, Don Bird, is on service leave in Hawaii and has been joined there by his wife who resides in Midland.

It's Rough Year For Poor Farmer

OAKLEY, Idaho (AP) — It has been a rough year for rancher W.B. Whiteley. A cellar he owns at Declo burned last spring. In July, some of his fall potato crop was lost because of a hail storm. Then the week before harvest another fire destroyed his cellar at Oakley, leaving him no place to store his potatoes.

GENERAL TENDENCIES: A new plan can be thought out today that can give you insight into the best way you can handle those pressing problems of a family or emotional nature. You also can find new ways and means by which to bring your ideas to the attention of those who are able to help. ARIES (March 21 to April 19) If you make a point to keep promises with the near future. Find out where you can cut down on expenses. Try not to live so much beyond your means. TAURUS (April 20 to May 20) Fine day for communications and correspondence and handling transportation matters intelligently. Being sure to time your appointments correctly is the best way to be sure to keep them. GEMINI (May 21 to June 21) Contacting persons who are business experts is your best method for getting ahead in the near future. Find out where you can cut down on expenses. Try not to live so much beyond your means. MOON CHILDREN (June 22 to July 21) You are able to do almost anything you like today, especially that which is of a social nature, so be with the right groups. Others will appreciate your charm now. Avoid the non-achievers. LEO (July 22 to Aug. 21) A private matter that you would hardly be proud of should be forgotten now. Put those ideas to work before it is too late. This will bring advancement quickly. VIRGO (Aug. 22 to Sept. 22) Being with good friends is fine provided you are not with them, since they are pressured and need thoughtfulness, not criticism. Assist where you can. Make the plans for the future tonight. LIBRA (Sept. 23 to Oct. 23) Plan your time so that you are able to see persons you like more often. Be alert to changes that are good for you. Correspond with those who are helpful and get ideas from them that are helpful. Avoid persons you do not understand. SCORPIO (Oct. 24 to Nov. 21) This can be a fine day if you use ingenuity in doing work ahead of you. Find the best way to have greater health and true dynamism. Why not step out to see a friend you have been neglecting lately. SAGITTARIUS (Nov. 22 to Dec. 21) If you tell those persons you admire that you like them, you can deepen friendships and get the information you need from higher-ups. Find the right items of clothing to make you more charming and more popular. CAPRICORN (Dec. 22 to Jan. 20) You have to study every angle of the work of those persons who attract you. Do not let a fine day slip by. Find the right items of clothing to make you more charming and more popular. AQUARIUS (Jan. 21 to Feb. 19) Trying to please those persons who attract you and vice versa, makes this a fine day for you. Buying a nice gift for loved one will bring you much favor now. Devilian has to be shown to be returned.

MORE LEAVE THAN ARRIVE IN VIETNAM Two Way Street To Freedom

CAMP EVANS, Vietnam (AP) — When the big Boeing arrives at Da Nang air base it is called the Prison Bird. When it leaves it's dubbed the Freedom Bird. The United States is steadily reducing its force in Vietnam, but the GIs still arrive to replace men whose tours of duty have expired. The home bound men leave on the same plane that brings in recruits. More leave than arrive, but it's still a war.

(AP WIREPHOTO)

IT'S WAR What do they think about when they first step onto Vietnamese soil? Pfc. Jose Paddila, an 18-year-old plumber's helper from the Bronx, N.Y., recalled a bit later: "I was thinking about New York. I was thinking how the last day was the saddest day, about that plane taking off, thinking I might never come back."

REPLACEMENTS — Newly-arrived troops of the 101st Airborne division get a briefing at Camp Evans, South Vietnam, before boarding UH-1 helicopters, landing in background, Vietnam, GIs such as these still arrive.

GET DRAFTED "You get drafted and you can't do anything about it," said Pfc. Thomas Sowa, also 19, of Niagara Falls, N.Y. He had been a utility laborer in a carbon processing plant and he wanted to study to be an electrician. The Army sent Paddila, Powell and Sowa to this 101st Airborne Division camp in the coastal lowlands in the northern region of South Vietnam.

First there was a week of indoctrination. "We want to give them a chance to start mentally thinking they are in Vietnam," the training commandant explained. Then they were assigned to the 3rd Battalion, 187th Infantry, 3rd Brigade of the 101st, which has headquarters here.

DOWN ON FARM All three were infantrymen, also known as grunts. None of them ever had taken part in a demonstration, and they had not thought much about the war they would have to fight. "It looks like all this could have been avoided," Powell said.

REPLACEMENTS — Newly-arrived troops of the 101st Airborne division get a briefing at Camp Evans, South Vietnam, before boarding UH-1 helicopters, landing in background, Vietnam, GIs such as these still arrive.

said one day as he walked through scrub country on a training exercise. He came across a dud mortar

Top Texas Chili Cooks

SAN MARCOS, Tex. (AP) — Amid the usual cries of foul play, Texas chili cooks named their top chef Saturday—Albert S. Agnor of Marshall.

Two other chili chefs named to represent Texas at the so-called world chili cookoff Nov. 7 in Terlingua were Dub Rhodes of Abilene and B. C. Kimmel of Houston.

Thirty-four contestants competed in the first Republic of Texas chilympiad at Aquarena Springs. Dr. Billy Mac Jones, president of Southwest Texas University here, awarded each of the 34 contestants a degree of "Doctor of Chilyosophy."

Although the winners concocted their hot, spicy meat stews out of regular Texas beef, there was numerous chili variations among the entries. A group from Uvalde offered chili made of armadillo meat, a Dallas man used alligator. A Corpus Christi entrant used bay shrimp as the main ingredient while an entry from Kerrville used rattlesnake meat.

round and gave it a wide berth. "The only thing I ever thought about the war was that I thought they could have got along without me."

On the farm they grew cotton, beans and wheat. Powell made about \$90 a week. He and his wife Saide were tenants.

MAKING BOX CARS "We got a TV and a telephone and two cars, and sometimes we got nothing to do, you can just lay around," Powell remembered. "I'm intending to get back," he said. It was a promise to himself. "I'm sure gonna be doing my

best to get back home, I'll try to get a good job. Go to St. Louis, maybe get a job making box cars. My uncle, he works there in the beginning. They didn't want to be here, but as they see it, this was a fight against communism."

NOT RIGHT "If they take over Vietnam, what do you think will be the next place they take over?" said Paddila, who lived in Puerto Rico before moving with his family to New York nine years ago. "If they see we're afraid to

come here, they'll all join together against one place: the United States."

"If the Communists do take over South Vietnam, I wouldn't think much of it, but I guess Uncle Sam would," said Sowa, who was a pretty good baseball player at home.

"Anyhow, I don't think running away is right. If anyone thinks anything of their country, they can't be happy in Canada, never being able to come back to your home."

The end of their training meant going into the field for real. It also meant they were a week closer to home.

"All right, you are now going to get a chance to apply everything you've learned the past week," said their training sergeant.

FIRST DEAD VC They were combat—assaulted into the field outside Camp Evans.

Sowa soon saw his first dead VC. They came across him at night: he'd been dead a long time.

"When it starts getting dark, I sorta get scared and more alert because that's when Charlie works," said Sowa.

"The day is like a relief." He sat in the dirt. Rain started to fall.

"Sometimes I wonder about Americans dying and the Communists aren't even close to the United States. But my opinion doesn't mean much and I still got a year to go."

Murder Rap Hits Minister

CHICAGO (AP) — A murder charge was filed Sunday against a minister who told police he shot two youths—killing one—after they allegedly threatened him with guns outside his West Side church.

The dead youth was identified as Charles Willis, 17, who was shot in the chest. Police said Willie Hall, 20, was hospitalized in critical condition after the Friday night incident. The Rev. Governor F. Powell, 61, was released on \$10,000 bond. State law allows a murder suspect to be released on bail if here are extenuating circumstances in the case.

According to police, the Rev. Mr. Powell said he was accosted by two youths who demanded money and pulled out pistols as he walked from his auto to his church to deliver an evening sermon.

Shocking Bill

BOKSBURGH, South Africa (AP) — The monthly electricity account carries a shock for householder A. M. Barker — it was for Rands 672.08 (\$940.98). Barker sarcastically asked electricity officials if he could pay in installments. A red-faced meter reader checked the meter and corrected the amount of electricity used from 300,360 units to 360 units. Barker paid the amended account of Rands 4.43 (\$6.20) in one installment.

Happy Use For Old Car Bodies

FT. SILL, Okla. (AP) — Ft. Sill's range division tests wrecked car bodies to its artillery target range and blows them to bits. "We purchase between 1,000 and 1,100 wrecked auto bodies from wrecking dealers each year," says Capt. Gay R. Wright Jr., operations officer for the range division. Wright said the wrecks make fine targets because they explode into a large fireball when a direct hit is made.

DEAR ABBY: Why do so many people say that "pot" is harmless? Our daughter began using it in January. She went on to mescaline in March, started seeing a psychiatrist in May, and was in a mental hospital in July. She really had no intentions of getting involved with drugs, but her nearest and dearest friend, a girl I liked and trusted, got her started. Now the mother of this girl says, "You know, I've been reading up on marijuana, and it's really not so bad. It's no worse than tobacco or alcohol."

What can I possibly say to her? And to all the people who are spreading this plague with their permissiveness?

CONCERNED DEAR CONCERNED: While the most reliable authorities tell us that marijuana is no more addictive (habit-forming) than tobacco or alcohol, excessive use of pot can be as destructive to some individuals as excessive drinking and smoking is to others. There is no way of knowing who can "handle" such things and who can not. Some people who drink like fishes and smoke like chimneys live to be 90. Others become alcoholics in their twenties and die of lung cancer in their thirties. It's a gamble. And of course the only winners are those who stay out of the game.

DEAR ABBY: Just who says "pot" is harmless? From personal experience I know it can cause ulcers, insomnia, heartache, financial problems, and the desire to commit suicide. Not to all, but to a significant percentage of those who are caught. I am 22 years old. I threw newspapers all through junior high. I bagged groceries through high school, and left for college with a pat on the back from my proud father. After graduation I taught school for one year and was considered to be an outstanding teacher. While home on vacation, a friend invited me to a "groovy party." He said there would be pot there, and even though I disapprove of pot, I was too weak in character to say no. The next thing I knew, a policeman's flashlight was shining in my eyes. I was sitting on the same blanket with a bag of pot beside me. Now, 10 days later, I have lost everything; my fiancée, my opportunity for Coast Guard O.C.S. (I was to leave in two weeks!) After a decade of pulling myself up by my bootstraps, career opportunities are now limited. It saps my desire to live. My "friend" consoles me by saying that the law is outdated and will be changed "soon," and any society that punishes for such a thing is "stuck." This all may be true, but I am the

21 SEPTEMBER 21

A Devotion For Today . . .

Ye are no more strangers and foreigners, but fellow citizens with the saints, and of the household of God. (Ephesians 2:19)

PRAYER: As citizens of the heavenly kingdom, O God, we pray we may always evince the spirit of our King, the Lord Jesus. For His sake. Amen.

(From the 'Upper Room')

Looking Toward Better Government

A distinctively forward-moving step has been taken in the decision to have a detailed study made by the Texas Research League on governmental functions and activities in Big Spring and Howard County.

This has come about through a proposal initiated by the Chamber of Commerce governmental-economy task force, and, importantly, it had the endorsement of all local public agencies, representing city and county schools, the city, the county and the college district.

The Research League is strictly a professional organization, supported by private subscriptions, and its sole aim is to provide analyses and projections in the area of government improvement. It does not enter the political arena at all.

The area is fortunate in that a full-fledged study of this type can be made, and at nominal cost. The Research League will be paying for its own staff people, and the only local outlay is for out-of-pocket expense for these.

The survey, as has been stressed

by James McGraw, executive director of TRL, will be done with no preconceived ideas or formulas. Its sole intent is to explore current operations and to recommend what changes might be made in the interests of economy, efficiency and overall benefit to the public.

Actually, the Research League would like to find a "model" governmental system for cities and counties, and has been ready for some time to undertake such a task. In some counties, the officials themselves were not open-minded to such a proposal, and it is to the credit of our own officials that they have welcomed a study here.

The study likely will take many months, and any speculation on final findings and recommendations is decidedly premature. What we can look for, hopefully, is a formula that means better government for the people, and perhaps at less cost to them. The people, then and finally, would have to have the vision to put changes into effect.

High Risks In Auto Strike

A long strike by the United Automobile Workers against General Motors could send shockwaves throughout an economy that is beginning to show signs of an upturn.

Strikers will suffer, of course. The union's strike fund provides a top of \$40 a week in benefits to a married man with children. Strikers must actively participate in the walkout to collect benefits and may not earn more than \$50 a week in another job. The strike fund will be exhausted in six to eight weeks.

General Motors will be hurt. The strike comes just as the 1971 cars were being introduced. GM has an inventory of new cars expected to last eight weeks, about as long as the union's strike fund.

GM facilities in 31 states and two Canadian provinces have been struck.

Businesses in these communities will feel the pinch almost immediately as the strikers try to live on their benefits.

The longer the strike lasts, the wider the ripples will spread. Many businesses and communities throughout the nation are linked in one way or another to General Motors products. GM is the world's largest manufacturing firm.

The consumer seems to hold the ultimate key to the strike's effect on the total economy. He may turn to other makes of cars, spend the money in other areas or hold onto the cash. Economists differ on which way the consumer will move.

In any case, a lengthy strike will be costly to all involved. We hope the walkout doesn't drag the entire economy down dangerously.

Andrew Tully Yale's New Stand On Student Politics

WASHINGTON — Do I detect a trend — a cloud to the starboard no bigger than Abbie Hoffman's little finger — in Yale University's decision not to give its students two weeks off to work in political campaigns?

I think I do. In deciding against adopting the so-called "Princeton Plan," Yale President Kingman Brewster, Jr., seems finally to have recognized a fact of life, to wit, that a great many people — some of them with prestigious academic degrees — do not consider that residence on campus automatically qualifies a boy or girl for special privilege.

THIS IS A switch from Brewster's offhand sponsorship of a Black Panther rally several months ago. A cad would suggest it shows Brewster has come to his senses. In the more kindly spirit of one who welcomes back an exiled favorite, I prefer to conclude that Kingman Brewster gave the matter mature thought and opted for what might be called equal rights for the shoe clerk and steelworker.

That is to say, I accept Brewster's statement that the two weeks' holiday "would make a special privileged class out of students, since few of

their fellow citizens will have the same recess from their jobs." In part, I accept it because it is what this space has been saying all along, but I possess just enough modesty to admit that since Brewster is a member of the academic club his stand has more impact on his intellectual peers.

HOWEVER, I suggest also that Brewster's pragmatism is showing. I believe he took a look around, perhaps with a special eye to the mansions of fat-cat contributors to Yale's endowment, and decided neutrality is the best policy. He says "would be a mistake for institutional, educational and political reasons."

Most colleges and universities, notably chaotic Columbia, are feeling the financial pinch applied by the fat cats. They are also in bad odor with many parents who naively believe colleges are for learning, not bomb throwing.

IT MAY BE unfair to conclude that Brewster's decision was motivated by this hostility, but it surely was a consideration. Yale couldn't operate without dough and the good will of both its alumni and the mamas and papas of its students.

Even as a second thought, therefore, Brewster's decision must be applauded. He copped a plea of "institutional neutrality" which any judge would accept, on account of that is what this business is all about. Although Princeton has denied with a straight face, that the recess will benefit mostly those students working for so-called "peace candidates," Brewster would have none of this sophistry. "However nonpartisan in form," said Brewster, the recess "is designed to facilitate a particular political result," and thus is "fundamentally inconsistent with our institutional neutrality."

Even Atty. Gen. John Mitchell or Barry Goldwater couldn't have said it better.

I FOUND felicitous, also, Brewster's comment that students have plenty of time, anyway, to go politicking if they wish. He can say that again. For the past few years, indeed, I have found myself wondering if any college student ever did any school work. Technically supervised by tutors who toil only a few grudging hours a week, the kids would seem free to indulge virtually full time any pursuit that meets their fancy.

ANYWAY, Brewster has rejected for Yale the premise offered by Princeton that only the candidates of college students deserve and require special help on the hustings. I now await, but not with bated breath, an endorsement of Brewster's stand by that more-or-less "gallant army of egalitarians — the political students."

(Distributed by McNaught Syndicate, Inc.)

Billy Graham

I am truly disturbed over the declining interest and belief in God among our young people. Where have we, the parents, failed? When I ask this question I refer to parents who have truly tried to bring their children up in a religious atmosphere.

The trouble is: there are too few parents who "have truly tried to bring their children up in a Christian atmosphere." I really believe that the young people today are amazingly good, considering the fact that educators (some of them) have tried to rob them of their faith, dope pushers try to sell them drugs, cigarette and liquor advertisers spend millions to give them the alcohol and tobacco habits, and grownups in general are concerned with making money, and surface pleasures.

We find that more than 50 per cent of those attending our crusades are under 21 years of age. Our young people are searching for life's meaning, and even those we call "hippies" are frantically searching for spiritual purpose and the things of the Spirit.

I realize that many of our young people are rebelling against the hypocrisies of the older generation. But, I have been doing that for a long time. I think it is time we all faced up to the fact of the seriousness of living that we lay aside all the sham, and false goals of our society, and begin to live clean, simple, meaningful lives.

This is where we have failed, and this is where we can begin to make amends.

'I THINK WE'RE GETTING SOMEWHERE NOW'

John Cunniff The Responsiveness Of Business

NEW YORK (AP) — "The responsiveness of a firm to the consumer is directly proportionate to the distance on the organizational chart from the consumer to the chairman of the board."

Whether that statement is true can be argued. But that millions of Americans believe it to be true can hardly be disputed, and among their number is Virginia Knauer. She made the statement in a speech.

Mrs. Knauer is the President's assistant for consumer affairs, and so it is rather surprising to hear her speak out so unequivocally on the issue of corporate bigness, an issue that touches every single American.

Bigness, after all, has never been officially regarded as either bad or good. No legislation has been passed limiting a company to a certain size; its profits, yes, as in the case of utilities, but not its size.

But, as a lot of consumers have learned in recent years, a company need not be a monopoly to abuse its customers, to ignore their complaints, to refuse them service, to threaten their credit ratings.

Much of this treatment, it is argued, is really not intended. It is the system, it is said, the impersonality of the seller-buyer relationship. It is the mechanisms that have failed: companies may be big, but regardless, it is the substance out of which much of the consumer movement has emerged. In many instances, the mechanism does not recognize that it is dealing with real, flesh and blood, thinking, feeling, suffering human beings.

And so a customer is misled. He writes to the store asking that the error be rectified. He receives no response until the next month's bill, and there again is the error. And now he is charged a month's interest also.

Again he writes and receives no answer. He telephones, but gets a busy signal. Finally, he gets a clear line and he waits and waits in frustration, counting 25 rings before hanging up.

Comes another month and another bill, and with it a reminder that payment is now overdue. The reminder is signed—fortunately, the customer thinks, because now he can at least communicate with an individual. And so he writes "R. Peterson," for example, not knowing that the name is as fictitious as Betty Crocker.

The escalation continues until the customer receives a threat to his credit rating, which is a threat to his good name. In turn, he threatens suit, and per-

haps if he is lucky he finally gets the matter settled.

Many companies recognize the problem as critical and have taken corrective steps, demonstrating that the situation need not be a permanent one. Others, unfortunately, remain utterly unresponsive both to customers and to the changing business environment.

Mrs. Knauer knows this to be true, of course, because her mail is filled with the evidence every day.

Is bigness bad? Maybe not, but unresponsiveness is.

Hal Boyle Your Years Are Showing, If—

NEW YORK (AP) — Yep, your middle age is showing if—

Your enemies start telling you how well you're looking.

When you bend over quickly, everything goes blurry for a moment—and when you straighten back your face looks like a paled beet.

Justice is what you think the other fellow should have. As for yourself, you prefer mercy.

It vaguely annoys you when you read about how much money pro basketball and football stars get. What, all that dough just for playing games?

It hurts your conscience to sit on the front porch and watch your wife cut the grass—but it doesn't hurt so much you can't stand it.

Whenever you hear the price of anything, you sigh, point your nose toward the sky, and begin to bellow about how nothing anymore is worth what you have to pay for it.

Nostalgia rules your mind. If you see anything that doesn't remind you of something you saw before in your life, it doesn't interest you very much. They sure don't build cars now like they did in the old days, do they?

Your arguments with your wife become fewer and less strident. After all, you concede, there may be a few things she is

right about, and anyway it takes less energy to listen to her than to fight back.

It makes your hackles rise to hear anybody under the age of 30 express an opinion in public. What could anybody that young know about the real facts of life?

The sofa needs to be reupholstered because you've been taking more naps on it lately than the family cat.

The pretty secretary in your office who used to bring you a single red rose on your birthday now just silently hands you two aspirin tablets and a paper cup full of water.

You know now who your true friends are, and in moments of utter honesty you wonder if you seem as dull to them as they do to you.

The more credit cards you stuff into your wallet, the more you wish it contained real money.

You haven't learned the words to a new love song in a decade, and you have forgotten the words to most of the ones you learned when younger.

Now and then you subconsciously ask yourself, "There has the time gone? When does the fun begin?"

Yep, you may not think of yourself as middle aged—but your years are showing.

To Your Good Health What's The Meaning Of 'Myocardial Ischemia'?

By G. C. THOSTESON, M.D.

Dear Dr. Thosteson: I have learned more through your columns than I do with my own doctors. Wonder if you can help me some more? I am a heart patient with "myocardial ischemia," but do not know just how serious it is.

I do not take any pills for it as I am allergic to most antibiotics. Anyway, can you tell me exactly what it is? Why isn't it called something else? Should one take it easy?—P.D.

Well, thank you, but remember that your doctors can't sit down and explain everything to each patient, whereas I can explain to several million at once.

"Ischemia" means a reduced or deficient flow of blood. "Myocardial" tells where—the heart muscle isn't getting its full share of blood. And a muscle deprived of some of its normal supply of blood can't work as efficiently as it used to.

Some cardiologists dislike the term because, they point out, it describes the result of a defect, rather than the cause. There are several. Hardening of the arteries, and thickening of them, so less blood can flow, is one common cause. Another

cause is a defect in the aorta, or principal artery of the body, from which the heart muscle gets its blood supply.

Whatever the cause, what limited blood supply the heart muscle cannot do as much work as formerly, without getting tired.

This can bring on attacks of angina pectoris (pain in the midchest area), or lesser degrees of chest pain, or shortness of breath, or some combination of these symptoms.

Various approaches are used, in an attempt to increase the blood flow in the coronary artery (the artery that directly serves the heart muscle). Vasodilators, which temporarily increase the flow in the arteries, are helpful (such as the nitroglycerin tablets used for angina attacks). A longer-range approach is to prescribe exercise to tolerance—that is, as much exercise as you can tolerate without shortness of breath or chest discomfort. This is suitable for some patients, not for others. Reduction of cholesterol and triglyceride levels in the blood sometimes is advised, meaning restriction of fats and carbohydrates in the diet. Medication may or may not be used for this, too.

Antibiotics, however, have no place in this condition, as it is not a matter of bacterial infection.

If you don't care for "myocardial ischemia" as a term, others that mean essentially the same thing are coronary heart disease, coronary arteriosclerosis, or atherosclerotic heart disease.

Whatever you call it, yes, you should take things easy, so as not to make too heavy demands on the heart muscle.

However, since there are all degrees of this, you must be guided by your doctor, as well as your own good judgment, in how easy to take it. Shortness of breath and chest pains are signs that you are overworking your heart, so avoid activity to the point where those symptoms appear.

Although cholesterol has been implicated in heart attacks and other circulatory troubles, it is nevertheless vital to human life. For this reason, Dr. Thosteson has entitled his booklet, "Control Your Cholesterol Sensibly." For a copy write to him in care of The Herald, enclosing 25 cents in coin and a long, self-addressed, stamped envelope.

Around The Rim More Folk Singers Than Folks

I ask you now: Why is it that some of these roadside inns which advertise on marquees that "kids are free" charge double for adults?

How many growing boys do you know who get hungry again even before they finish eating?

Don't you think the horses laugh when they watch today's motorist adjust his shoulder harness?

DOES IT STRIKE YOU that there are a lot more folk singers than folks these days?

Wouldn't it be a lot easier for all of us to stay on a diet if we just ate what we could afford?

Is it universally true, the old saying that the dog goes with the family but the cat stays with the house?

Why did the explorers get so confused when they named Iceland and Greenland? Most of Iceland is green and most of Greenland is ice.

THE TIGHT - MONEY situation we've been going through has hit Las Vegas and not especially because of less patronage.

People continue to gamble but many of them are paying off with checks that bounce. Fifteen major casinos along the Las Vegas strip reported \$8 million in bad checks last year. That figures out to 3.8 per cent

what they reportedly took in.

THERE'S AN old saying that some people will pay their grocery bill but the gambling impresarios don't want that kind of business. How else are they going to pay alleged entertainers like Liberace 40 big ones a week, if the gulls hang a lot of worthless paper around town?

The big time plungers don't worry the casino board chairmen much. Most are considered good credit risks. It's the fellow who thinks the entire industry is doing so well it can afford to treat him to a week.

PERHAPS THIS should be said in defense of the newspaper reporter: If he were asked and expected to pay his way for everything he covered on behalf of his employer, he'd have to borrow money to live. If he's performing a service, he shouldn't be expected to.

In so many instances, a newsman covering a speech, a banquet or a convention would rather be home with his kith and kin. Invariably, he is being called upon to work overtime or on his own time. If he performs no service under such conditions, and merely becomes a freeloader, then he should not be the exception to the rule.

—TOMMY HART

Burleson Reports No Federal Revenues To Share

WASHINGTON — The idea of a "revenue sharing plan" between the federal government and the states is gaining momentum.

While the President has vetoed several over-spending measures passed by Congress, it is inconsistent for the administration to press for two big spending programs. One is already in the mill, namely, the costly welfare program and the other, tax revenue sharing, is being pressed for action.

Serious flaws are obvious in any revenue sharing plan. The main flaw is that the federal government has no revenue to share in the first place. With deficits running into the billions and with a public debt of \$380 billion, how is it that we can piously say we can share anything with local governments?

THE SECOND glaring flaw is the lack of any proposal to phase out any programs while phasing in unlimited sharing with the states. At this point it appears that it will be just another layer of programs piled onto the thousands which already exist. There is no indication of any link with this plan to the concept of a balanced budget. Revenues collected by Washington would automatically be returned to the states and localities no matter how astronomical the federal deficit may be. If such a plan should be adopted, at the very least there should be included a provision that no revenue sharing would be available unless Congress first balanced the budget. Such a requirement might have the effect of stopping a lot of dreamed up federal programs and to eliminate old ones which have blatantly failed.

MANY FEDERAL programs now require certain matching funds from the states or local governments. A good question is, what happens if local governments were to use their tax sharing money to match federal grants under old programs. There is no question that the federal treasury

could be bled white with its own money.

Another defect is that local officials, not having the responsibility of imposing taxes for the money they spend, could easily be less prudent in their spending. There should be no division of responsibility as between the authority which impose taxes and the authority which spends the money.

THERE IS NO question that local governments, from city to the state level, are having a difficult time in finding sources of tax revenues. The National Governors' Conference has been on record since 1965 in support of the principle that the federal government share a portion of its tax revenue with the states. During the recent Governors' Conference they reaffirmed their stand to "employ every means available toward the immediate and favorable enactment of revenue sharing." States and local taxing bodies are limited in most instances in the amount of tax they can impose and in the case of the state of Texas, we are on a pay-as-you-go basis, but the federal government can continue to turn the crank and add to its debt, the interest on which is now approximately \$17 billion.

THE PROBLEMS in meeting the needs and demands of our time are not going to be solved by trying to pass the buck from one level of government to another. Problems will not be solved by greater centralization of taxing power in Washington.

A better answer is provided in H.R. 10580. This has been a subject of previous releases but in essence simply provides that no taxes be collected by the federal government for education and welfare and that the sources of revenue for this purpose be reserved for the states. In turn, the states would levy, collect and administer these programs out of the taxes which the federal government does not collect in the first place.

David Lawrence President's Trip Brings Questions

WASHINGTON — There is a guessing match here — why is President Nixon going to Europe at this time? So many important problems confront him at home — such as two big strikes and the pressures in Congress with respect to several important pieces of legislation. Above all else, a campaign has begun for the election of a new House of Representatives, and party control of the Senate is at stake.

THE OFFICIAL announcement merely says that the President "will make a visit to some Mediterranean countries and Great Britain." His first stop is to be Rome, where he will be the guest of the President of Italy and will call on Pope Paul. Then he will meet with the commanders of the U.S. Sixth Fleet in the Mediterranean and review exercises from the aircraft carrier "Saratago." After this, the President will visit NATO headquarters in Southern Europe and hold a meeting with American ambassadors in the Mediterranean area. Finally, Mr. Nixon will be the guest of General Franco in Madrid and stop in England to confer with Prime Minister Heath.

"AT SOME POINT during the trip," the statement says, "the President plans to meet with Ambassadors Bruce and Habib in order to review (Vietnam) negotiations in Paris. This trip will afford the President an opportunity to undertake a full exchange of views with his respective hosts and with our officials in an effort to strengthen the structure for peace and to give impetus to the President's efforts to bring about an era of negotiations."

The President will be accompanied by Secretary of State William P. Rogers, his advisor for national security affairs Henry A. Kissinger, and presidential counselor Daniel P. Moynihan.

THERE HAVE BEEN intimations from time to time that the United States is not happy over the increase of naval power by the Soviets in the Mediterranean. Also, it has been

reported that the countries which are members of the North Atlantic Treaty Organization are worried about the prospective reduction of American troops in Europe. It is assumed that some reassurances are to be conveyed through the medium of the ambassadors and heads of state with whom Mr. Nixon will meet. But all these phases of the European situation could undoubtedly have been dealt with after the November elections.

USUALLY, during a congressional-election campaign, a President finds himself deeply concerned with the way the political contest is shaping up and takes a hand in making such statements on current issues as are deemed helpful to his party. In international affairs are, of course, woven into the political debates that are heard across the country; and in recent weeks the Nixon administration has played a prominent part in trying to bring peace in the Middle East. But the chances for a peace settlement seem to have been impaired by the controversy over the plane hijackings and the outbreak of some fighting among the Arabs. It probably is assumed by the administration, however, that before the Nixon trip to the Mediterranean starts there will be a favorable development in the Middle East and the President can start on his journey with less concern about that region.

What Others Say

For many years the U.S. Post Office Department painted its mail boxes a drab green, and the mail moved poorly. Then the boxes were painted red, white and blue, but this didn't speed up the mail. Now the boxes are being repainted all blue, but, thus far, this innovation has not improved sluggish mail service. The only thing the Post Office accomplished was to give new meaning to an old Army and Navy slogan: "If it doesn't move, paint it."

IN MEMORIAM — Chester Cathey, president of the Big Spring Shrine Club, and Mrs. Travis Greenfield look over a check for \$2,000 donated by Cosden Oil and Chemical Co. to the Shrine Burn Center in memory of Mr. Greenfield who died of burns received in an explosion at the Cosden Refinery. Looking on are Paul D. Meek, Cosden president (left); George W. Bair (back), D. A. Brazel, and Ted Groehl (right).

Only Whites Left In Neighborhood

MIAMI (AP) — When Wayne Frankforter moved into 52nd Street only white families lived there and the only Negroes seen were maids or yard men who left before dark.

Now, Frankforter and the Max Larrabee family are the only whites left around northwest 52nd Street and 13th Avenue, an area involved in black rioting twice in recent years. They say they have no intention of moving.

"I've lived here since 1946," said the white-haired, 75-year-old Frankforter. "I was all alone and I thought I could live here just as well as any place else. I don't have long to stay in any place."

His days are full of doing for his black neighbors. He is the kind of man who mows the lawn of a neighbor on vacation.

"I have to pass by his house to get to the lawnmower shop," said Fred Morley, a black man. "I never make it. Mr. Frankforter stops me and before you know it he not only tells me what's wrong, but even fixes it for me."

When blacks started moving into the neighborhood in the late 1950s most whites left.

Larrabee, who works for the Florida Department of Transportation, said: "I had more roots than most people. We built this house and know what's in it. I'm always working on this house."

Larrabee and Frankforter seem to be accepted as just neighbors, not whites in a black neighborhood.

During the rioting at the time of the Republican National Convention in 1968 Scott and other black neighbors kept an eye on Frankforter's house.

When two Negroes tried to start trouble with the elderly white man, Scott and the others persuaded the troublemakers it would be healthier to leave. And when the troublemakers' landlady heard what had happened, she evicted them.

Teachers Mull Ethics Code, Strikes Ban

AUSTIN (AP) — Texas teachers and administrators are reviewing a proposed code of ethics that includes a flat prohibition on strikes.

The tentative draft of the code was prepared by the Texas Professional Practices Commission, created by the legislature last year.

After teachers submit their comments, the code will be revised and submitted back to the educators for a referendum in February.

The commission then will have the right to make further changes, based on the referendum, then will finally adopt a code June 1, effective next Sept. 1.

The proposed code states "the educator shall not engage in strikes or organized work stoppages."

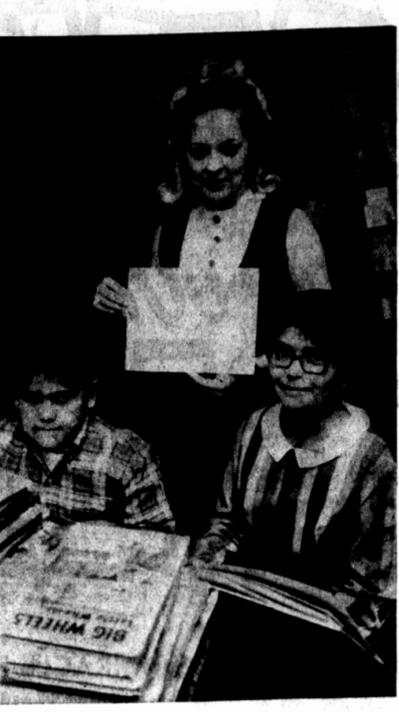

Texas already has an anti-strike law for public employees on the books, but similar laws have not deterred teacher strikes in other states.

The 24-item code also says each teacher "shall endeavor to understand community cultures and relate the home environment of all students to the school"—an apparent attempt to make Texas' largely middle class teachers more sympathetic with minority groups' subcultures.

It also would prohibit teachers from exposing pupils to ridicule and require them to keep confidential information about pupils secret "unless disclosure serves professional purposes or is required by law."

"The educator shall endeavor to present facts without distortion," another principle says in an apparent effort to keep teachers' opinions about controversial matters out of their teaching.

The code also would make it incumbent on teachers, as a professional practice, to comply with state law, Texas Education Agency rules and local school board policies.

READING CERTIFICATES — Mrs. Kinney Taylor, vice president of the Friends of the Library, congratulates Jonathan and Joann Perez on being among the 65 children to receive certificates for the summer reading program at the Howard County Library. The children's parents are Mr. and Mrs. Joe Perez, 204 Lockhart.

Sanitation Fee Hike Is Being Studied

City commissioners seriously discussed the possibility of a balanced budget this morning, with expenditure cuts and a 25 cent increase in monthly sanitation charges.

Commissioner Eddie Acrl had set up the informal conference with Paul Meek, Chamber of Commerce president, and Lanny Hamby and Jack Watkins, co-chairmen of the governmental economy committee to discuss areas of the proposed budget in the interest of making it balance.

No vote was taken, but three commissioners asked City Manager Larry Crow to work out balanced budget figures. Crow said the budget is now within about \$36,000 of being balanced.

The commissioners suggested that some of the cuts suggested by Hamby and Watkins after two recent meetings with Crow be included, and proposed that the city go to a containerized sanitation system if the cost of the system can be defrayed by increasing the garbage service charge.

Sanitation revenue would be increased by an additional 25 cents in the monthly service charge to help pay for the sanitation containers and modified garbage trucks purchased during the transition period.

Meek expressed his confidence that the commissioners are doing a good job in curbing expenditures and said the chamber had agreed to support the final decision.

All operators and employees of food service departments in local hospitals, nursing homes, schools and commercial eating establishments have been invited to attend a three-day course in "Newest Techniques in Safe and Sanitary Food Handling" at the Veterans Administration Hospital Tuesday through Thursday.

Each class will be taught twice daily from 9 to 10:30 a.m. and from 2 to 3:30 p.m. William D. Rawlings, San Angelo, state food and drug inspector; Buck Kirksey, chief registered sanitarian; and Harold Knap, health inspector, will serve as instructors.

A variety of films, lectures and demonstrations will be used as instructional materials. Further information may be obtained from Kirksey at the local health department or Verna Elliott, chief of the dietetic service at the VA Hospital.

No formal charges have been filed against five men and a woman arrested Saturday for auto theft. The six are in custody in Howard County jail in lieu of \$1,500 bond each set by Justice of the Peace Jess Slaughter.

The six were arrested by Highway Patrolmen Kenneth Maxwell and A. N. Henry. One 23-year-old man arrested in the case is an escapee from an Ohio penitentiary. Four of the prisoners list a Jacksonville, Fla., address, and one man a New Orleans address.

Jurors were still being qualified this morning for the trial of James Reed, 23, of 1407 Park Reed is charged with sale of marijuana. The trial was expected to begin this afternoon.

Julian C. Patterson, chief of social work service at the Veterans Administration Hospital here is attending a sub-regional social workers meeting in Temple today and Tuesday.

Cosden Gives Burn Institute \$2,000 Gift

A \$2,000 donation has been made in the name of Travis Greenfield by Cosden Oil and Chemical Co. to the Shriners Burn Institute, Galveston Unit.

Mr. Greenfield died Feb. 25 of burns sustained in the Feb. 6 explosion at the Cosden refinery on IS 20 East. He had been employed by Cosden for almost 24 years. His wife and son, Larry Greenfield, live in Coahoma. Survivors also include four daughters.

The money is being donated toward the purchase of an electron microscope which costs \$60,000.

The Galveston unit is one of three burn centers financed by the Shriners. The others are in Cincinnati and Boston. Shriners also operate 19 orthopedic hospitals for children.

The burn centers were begun five years ago when the Imperial Council Shrine learned there was not adequate research of any type for burns and appropriated several million dollars toward building the three centers for research on the prevention and treatment of burns.

Mr. Jones entered the newspaper field in 1917 as an apprentice printer for the Wise County Messenger in Decatur. He later bought the paper then sold it in 1927 to buy the Lufkin Daily News which he sold in 1929 to buy the Snyder News. The News was consolidated with the Scurry County Times and later sold.

While in Snyder Mr. Jones was president of the Snyder Chamber of Commerce and in 1942 was named a director in the West Texas Chamber of Commerce.

Mr. Jones and his brother-in-law, H. G. Lackey, owned three papers, the Hamlin Herald, the Haskell Free Press and the Texas Spur, in partnership from 1946 to 1950. In 1950 the partnership was dissolved with Mr. Jones keeping the Hamlin and Haskell papers. Jones sold the Haskell paper in 1951. He retired in 1960 after 43 years in the newspaper business.

Survivors include his wife; a son, June Jones, Abilene; and a daughter, Mrs. Dick Rollins, Abilene.

Edward O. Petree, 90, brother of Mrs. Bertha Anderson, Big Spring, died Saturday in a Big Spring hospital. A funeral is pending at Elliott's Funeral Home, Abilene.

Mr. Petree was born Nov. 13, 1879, in Russellville, Ala. He married Leta Dearman at Dudley, Nov. 20, 1904. They moved to Cisco from Potosi 23 years ago.

Survivors include his wife; six sons, Alvin Petree, Midland; Dow Petree, Fresno, Calif.; Guy Petree, Murr Petree, Joe Petree and Billy Petree, all of El Centro, Calif.; one daughter, Mrs. Don Cunningham, Arlington; two sisters, Mrs. Anderson, Big Spring, and Mrs. Dora Abbott, Abilene; 25 grandchildren; and 28 great-grandchildren.

Carl Billings, 54, died this morning in a local hospital after an illness of several months. Services are pending at Nalley-Pickle Funeral Home.

He was born Sept. 29, 1915, in Thurber. He married Ina Lee Burk May 8, 1938, in Roby, and they came to Big Spring in 1953. He served in the United States Navy. He was manager of the Giant Food Store here, and he was a member of Westside Baptist Church.

Survivors include his wife, Big Spring; two sons, John Billings, Colorado City, and Sgt. Jimmie Billings, Ft. Hood; one daughter, Mrs. Warren Miers, Denison; six grandchildren; one brother and three sisters.

Commissioners Buy Trucks

Acceptance of bids and the approval of bills occupied commissioners' time this morning during County Commissioners Court.

Commissioners accepted a \$14,471.42 bid from Bob Brock Ford Company for the cost of purchase of two diesel-powered dump-trucks for county road crews. It was the only bid.

Gibson's Discount Store was awarded a contract over 12 bidders to supply the county with anti-freeze at \$1.13 per gallon. Other bidders were Big Spring Automotive Supply, \$1.43 per gallon; Pat Boatler Fina, \$1.44 per gallon; Continental Oil Co., \$1.51 per gallon; Merrill Creighton Tire Co., \$1.35; and Carroll Auto Parts, \$1.67.

Bids were also submitted by Tommy Gage Oil Co., \$1.45 per gallon; McGibbons Oil Co., \$1.55 per gallon; Montgomery Ward, \$1.30 per gallon; Smith and Coleman, \$1.47 per gallon; TG&Y, \$1.27 per gallon; Walker Auto, \$1.48 per gallon and White's Auto Store, \$1.25 per gallon.

John Sullivan, Resco Refrigeration, submitted a \$4,000 bill for repairs to the courthouse air conditioning system. Further discussion and approval of the bill was postponed when Sullivan was called out of the court because of an emergency.

In further action, commissioners agreed to supply the paint for the inside of the T-41 hangar at Howard County Airport. G. L. Armstrong, Central American Flying Service Inc., said that his company will furnish the labor for the job. Central American leases the hangar.

Following completion of business, commissioners made an inspection of the new Howard County Library.

Heart Society Wrong Date For Cotton Meeting

Howard County's division of the American Heart Society will have a buffet dinner Thursday at 7 p.m. in the Big Spring Country Club for directors and their wives, together with all others interested in the heart association's work. Program for the year will be planned, hence a large attendance is being sought.

Shrine Circus Here Tuesday

Performances of the Shrine Circus are scheduled for 8 p.m. Tuesday and at 3:15 p.m. and 8 p.m. Wednesday at the rodeo arena west of town.

Tickets purchased for the original date of Sept. 14 — cancelled because of rain — will be honored, and tickets for the performances are still available for the three-ring thriller.

Gunfire, Gas Used To Disperse Crowd

THIBODAUX, La. (AP) — Scores of deputy sheriffs moved into this city early today to reinforce state troopers and local police after a weekend of racial tension.

Gunfire and disabling gas were used to disperse a crowd of Negroes Saturday and a curfew was placed in effect Sunday night.

No one was injured but 36 were arrested after about 150 blacks gathered around fire trucks answering an alarm.

The bar is in a black neighborhood. Meloncon said that when his officers attempted to disperse the crowd several Negroes grabbed one of his men.

"When they grabbed him I shot in the air three times and I encouraged some of my men to do the same," the chief said. The blacks released the officers, moved back but then regrouped and headed for police, the chief added.

"When they came towards us, we used the pepper fog (akin to tear gas). Before they reached the smoke screen they moved back," Meloncon said. At that time several dozen state police from a headquarters at nearby Raceland moved into the area and the blacks scattered, Meloncon said. Several were arrested on charges ranging from disturbing the peace to resisting arrest.

Officials said disorder started after the Friday night when groups of blacks roamed the streets throughout the night smashing windows and tossing rocks and bottles at police.

COAHOMA — Linda Read was elected chapter sweetheart Thursday at the first meeting of the Coahoma Chapter of Future Farmers of America. Dues were set at \$3.50.

Named to honorary memberships were Shannon Boyles, Charles Hall, Guy James and Ray Meyers. Officers this year are Daryle Coates, president; Alan Mathies, vice president; Ernest Lode, secretary; Don Richters, substituting for Joe Elmore as treasurer; David Elmore, reporter, and Terry Meeks, sentinel. Jon Scott is sponsor.

UAW President Says 'No Quick Settlement In View'

DETROIT (AP) — Top officials of the United Auto Workers returned to Detroit today to prepare for a resumption of contract talks with strikebound General Motors Corp.

The negotiations are to resume Tuesday, the start of the second week of the strike. There have been no national-level negotiations since contracts between GM and the UAW expired at midnight last Monday and

the strike by 344,000 auto workers began.

Leonard Woodcock, president of the UAW, told a national television audience Sunday that there is "no quick settlement in view."

Woodcock, Irving Bluestone, codirector of the union's GM department, and other top officials spent most of the past five days touring the nation and meeting with local union leaders.

assembly lines to the speed at which those lines move.

In 1967, when national contracts last were negotiated, the last local settlement at GM was not signed until one year and nine days after the start of bargaining.

Nationally, when negotiations broke down, the union and GM were 25 cents an hour apart on the first-year wage increase. The average hourly wage of GM workers under the old contract was \$4.02.

Woodcock said Sunday there was "room for compromise" on the UAW's two other primary demands—restoration of an unlimited cost-of-living escalator and retirement at a \$500 monthly pension after 30 years service, without regard to age.

Setback For Socialists In Swedish Election

STOCKHOLM (AP) — Swedish Prime Minister Olof Palme, whose Social Democratic party lost its majority in Sunday's general election, made it clear his party will accept Communist help to stay in power.

"This is a clear setback," Palme said of his party's unofficial capture of 166 of the 350 seats in the newly reorganized one-house legislature. Three major non-socialist parties, which had hoped for enough votes to form a coalition govern-

ment, won 167 seats, and the Communist party 17.

"We have lost votes both to the Communists and the non-socialist camp," Palme said, "and the blame rests wholly with the party leadership and me. We did not put across important campaign issues the right way, and international trends that forced price hikes and a tough economic policy may have contributed."

Palme, 43, made it clear that the Social Democrats were ready to continue ruling with Communist aid.

"The nonsocialists failed to get the majority they wanted to form a government," he said. "We will pursue our policy for a more equal society and the Communists can take it or leave it. It is up to them whether they will topple a workers' government."

Communist party leader C. H. Hermansson replied, "We will carry on an independent policy fighting for our program, but we will never topple a socialist government to help the nonsocialist bloc gain power."

Hermansson said one of his party's primary aims is to keep Sweden out of the European Common Market.

The Swedish Communist party got about 100,000 more votes than it did in 1968, the year of the Soviet invasion of Czechoslovakia.

An estimated 85 per cent of Sweden's 5.6 million registered voters cast ballots, including some 350,000 20-year-old newcomers. Final results will not be known for 10 days, after officials count about 675,000 mailed votes. Also at stake were 25,000 county and municipal offices in 6,500 districts.

Knudson Breaks His Long Famine

ROBINSON, Ill. (AP)—George Knudson, leathery 33-year-old Canadian, sums up his sensational, 11-hour, 40-hole marathon against George Archer to win the \$100,000 Robinson Open Golf Classic as "breaking a seven-month famine of bad golf."

With the second round rained out, the finale of the neat, little tournament was packed into a 36-hole round Sunday over the Crawford County Country Club course, steaming in 90-degree weather.

The gangling Archer, without a victory since the 1969 Masters, and gritty Knudson, who had not won since taking the Phoenix and Tucson opens in succession in 1968, were in the same threesome for the entire day. And both were victory hungry.

The third man was young Bob Payne of Mt. Vernon, Ill., who had caddied on the Crawford course prior to his student days at Southern Illinois University. He has never won anything, and stayed in contention until being wrecked with a closing 73 for 277.

Meanwhile, Archer captured a three-stroke lead over Knudson with a morning 68 for 202 while his tenacious opponent from Toronto had a 69.

Then Knudson caught fire. He had six birdies on the front side starting the last round on putts of up to 20 feet and a 30-foot chip that went in. His 29 to Archer's fine 32 tied them at the 63-hole mark.

Knudson finally went ahead with a two-foot birdie putt on the 12th and remained that way until the rolling 17th. His second shot from a severe downhill lie left him short and he bogeyed as Archer parred and the two were square.

They parred the short 18th, Knudson ending with a blistering 63 and Archer with 66 for 16-under totals of 268.

Into the sunset they went for the \$20,000 first prize.

They halved the 19th in regulation. Archer had to make a great trap shot to match Knudson's par on the short 20th. Another fine recovery from a trap gave

Archer a birdie on the long 21st as Knudson reached in two for his cinch 4.

On the 410 yard 22nd, both were on in regulation. Archer 25 feet away and Knudson 14. Archer three putted, missing from about two feet on his last try. Knudson had a cool par 4, and

the marathon was over. Archer collected \$11,400 for second. Larry Zeigler took third with 271. Grier Jones and Hal Underwood were next at 274, one stroke ahead of Mason Rudolph, J. C. Snead and Charlie Sifford. At 276 were Deane Beman, Dave Eichelberger, Hale Irwin and Bert Weaver.

HAPPY CANADIAN — George Knudson of Toronto, Canada, waves to the gallery in Robinson, Ill., here Sunday after making a birdie putt here. Knudson tied George Archer of Gilroy, Calif., in regulation play and won on the fourth hole of a sudden death playoff. The 33-year-old Knudson came from behind to catch Archer in the final round of the \$100,000 Robinson Open Golf Classic.

Bruce Develin Is Irish Winner

PORTMARNOCK, Ireland (AP) — Bruce Develin, 32-year-old Australian golfer, picked up a check for \$55,000 today and said: "Well, that's how lucky you can get if you conquer the winds and the rain of Ireland."

Develin won the prize money over Portmarnock's 7,117-yard, par-72 course by conquering the winds from the Irish Sea and the rain that plagued the Alcan "Golfer of the year" Championship.

Bob Rosburg of Winthrop, Maine, finished second with a score of 285—seven strokes behind Develin. He collected \$15,000 for that effort.

Develin's seven-stroke advantage was the same as Britain's

Tony Jacklin held in winning the U.S. Open earlier this year. Develin was involved in a field of 25 top players for the championship and later Rosburg said: "I thought I had it going great for me but it was impossible to catch up with the Aussie."

Develin picked up his check with a 72 hole score of 69-71-70-68—278. Lee Trevino, El Paso, Tex., Neil Coles, England, and Peter Oosterhuis, England, all had 287s to win \$9,333.

Miller Barber of Sherman, Tex., and Billy Casper, the defending champion from Bonita, Calif., each collected \$4,100 by finishing at 288.

Thai To Speak

LAS CRUCES, N.M. (AP) — The foreign minister of Thailand, Thanat Khoman, is scheduled to discuss developments in Southeast Asia Sept. 30 at New Mexico State University. The veteran diplomat, a former ambassador to the United Nations, is expected to talk about developments in Laos and Cambodia and relations with the United States. His speech at 8 p.m. at Corbett Center will be free.

Teams' Poise Pleasing To Hale, Warns Of Tigers

Pleased as punch with the poise and the spirit of his Big Spring Steers, Coach Clovis Hale shook his head Monday over his team's generosity in giving up the football.

"You can't give them the ball inside the 30-yard line three times in a row like we did Friday against Ysleta and win," he said. Backs had a miserable record in holding the ball. Although only half a dozen showed up in the books because of enemy recoveries, several more were bobbled and recovered, but nullifying gains.

On the whole, however, Hale was pleased with his boys, especially the great improvement they had shown since their opener with Monterey in Lubbock. Except for a let-down in the third quarter when Ysleta drove for an honest TD, the Steers were superb on defense.

For a moment, defenders couldn't decide what to do about the roll out, but they solved it in the fourth.

"That's been our record so far — great play in the first, second and fourth quarters," said Hale. "Again, we had that double let down in the third, letting them run back the kick-off for a score and then having our only defensive lapse. One of these days we're going to play four good quarters, and someone had better look out."

Naturally, he hopes this will be Friday in Snyder when the Steers meet the big Tigers. Their starting line averages a mere 203 pounds.

The Tigers, who likely had rather beat Big Spring than anyone, have a fine running back in Stuart Sims, and a strong quarterback in Butch Buchanan, whose running ability keeps the defense honest. The team runs basically from the I, using a standard tandem

against Stamford and then switching to a pro set against Andrews. They're hungry after two defeats and could take it out on the Steers.

Big Spring came out of the Ysleta game with only bruises. Dave Duncan's charley horse didn't appear serious, and more work should put it in shape. Hale could hardly say enough

about the Steers' poise, coming back from deep defeat to score two TDs in six minutes and connecting on a pressure fourth-down pass. But, he said, on the two-point try, the poise vanished as part of the kicking team rushed on and by the time the snap came, it was an odd mixture in the lineup. That, however, didn't dull his pride one iota.

Steers Hold Statistical Margin Over Opponents

Although down 0-2 in the worst column, the Big Spring Steers hold the over-all edge on opponents in statistics through two games of the 1970 season.

The almost three-to-one bulge over El Paso Bel Air, edged the Steers by a single point, gave Big Spring a big boost in the yardstick-department.

The Steers have one more first down, 35 more total yards, led interceptions by three to one although they have completed only one in four passes against the opponent's one in three. The Steers also have a comfortable bulge in punting.

Breakaway runs have provided Roddy Coffey, a healthy margin in yards gained (202) an average carry of 7.4 yards. Tommy Fletcher is the leading pass receiver both in catches (3) and total yards (55).

The statistics:

Retains Title

ANKARA (AP) — The Soviet Union retained the world title in the world saber team championship, defeating Hungary 9-3 Sunday.

Charley's Cool Hand Pays Off For Houston

PITTSBURGH (AP) — It was Charley Johnson's first game in his 10th season. It was Terry Bradshaw's first game as a pro. Johnson is a seasoned veteran—cool, experienced. Bradshaw is a \$300,000 rookie—confident and with unhoneed talent.

That was perhaps the biggest difference between the Houston Oilers and the Pittsburgh Steelers Sunday when the Oilers soundly defeated the Steelers 19-7 in the season opener for both teams.

Johnson threw two touchdown passes and clicked for 11 of 25 passes for 138 yards. Bradshaw completed only four of 16 for 70 yards.

Bradshaw also threw an interception, setting up the Oilers second touchdown.

Jerry Levias caught both touchdown passes from Johnson and perhaps it was he who summed up best the difference between the two quarterbacks. "Charley has brought this team together. You have to give him credit as a quarterback, but you have to give him more credit as a man. He knows how to listen."

"He not only plays the game according to the scouting report but also according to his experience. That's the difference between a veteran and a rookie."

"Bradshaw is a good quarterback and he's going to be a better quarterback."

Said Johnson: "He (Bradshaw) is a young kid with a lot of talent. I didn't have time to watch him much, but I hope he stays well. He's good for football. I'd pay to watch him play."

"It's his first regular season game. How could he know what it was going to be like?"

Johnson became an Oiler this season when Houston acquired him from St. Louis where he was sharing playing time with Jim Hart.

How has Johnson (a Big Spring, Tex., native) helped the Oilers?

"Immeasurably," says Coach Wally Lemm. "He's a good solid football player much like Bart Starr."

Bradshaw was trapped in his own end zone when he went back from his four yard line and couldn't find running room or an open receiver. That made the score 16-0.

Terry Hanratty finally replaced Bradshaw at quarterback and led the Steelers to their only score on a 21-yard pass to Ron Shanklin with less than three minutes remaining.

"It (being benched) put a big lump in my throat but I wasn't throwing the football well," said Bradshaw.

"The receivers were open but I wasn't hitting them. I felt so good but I did so poorly."

"I wasn't nervous though. Next week, I'll hit 20 for 20. I'd better."

PHILADELPHIA (AP) — The Dallas Cowboys have taken a brand new approach to the National Football League season. It is designed to provide victories in December and January as well as the first three months of the season.

Cowboy's coach Tom Landry and some of his players talked about the new philosophy after 17-7 Sunday in an NFL opener.

"We approached this season differently," Landry said in the Dallas dressing room. "We still played like it was a pre-season exhibition. Our passing still leaves a lot to be desired, but the running game is sharp right now."

Dallas in the last four years has won more games than any team in the NFL, but has lost key games at the end of the season for the championship.

Lance Rentzel, Cowboy's wide receiver, who caught a 31-yard pass in the third period for the winning touchdown against the Eagles, agreed with the new approach.

The Cowboys did scramble to beat a Philadelphia team which didn't win at all in five exhibition games. The Eagles stunned the two touchdown favorites by taking a 7-0 lead in the first period on a 9 play, 63 yard drive. Quarterback Norm Snead passed 10 yards to Ben Hawkins for the TD.

Dallas didn't tie it until less than two minutes before the end of the half. Walt Garrison ripped through left guard for a one-yard touchdown that wrapped up a 34-yard drive after the recovery of an Eagles' fumble.

Cowboys Come On Slowly

PHILADELPHIA (AP) — The Dallas Cowboys have taken a brand new approach to the National Football League season. It is designed to provide victories in December and January as well as the first three months of the season.

Cowboy's coach Tom Landry and some of his players talked about the new philosophy after 17-7 Sunday in an NFL opener.

"We approached this season differently," Landry said in the Dallas dressing room. "We still played like it was a pre-season exhibition. Our passing still leaves a lot to be desired, but the running game is sharp right now."

Dallas in the last four years has won more games than any team in the NFL, but has lost key games at the end of the season for the championship.

Lance Rentzel, Cowboy's wide receiver, who caught a 31-yard pass in the third period for the winning touchdown against the Eagles, agreed with the new approach.

The Cowboys did scramble to beat a Philadelphia team which didn't win at all in five exhibition games. The Eagles stunned the two touchdown favorites by taking a 7-0 lead in the first period on a 9 play, 63 yard drive. Quarterback Norm Snead passed 10 yards to Ben Hawkins for the TD.

Dallas didn't tie it until less than two minutes before the end of the half. Walt Garrison ripped through left guard for a one-yard touchdown that wrapped up a 34-yard drive after the recovery of an Eagles' fumble.

Loses Shirt

ALBUQUERQUE, N.M. (AP) — Goodwill Industries officials say someone must have lost his shirt at the horse races at the New Mexico State Fair on Saturday. Goodwill officials noticed that a mannequin at the booth was completely dressed, except for a shirt and tie. Someone had taken these articles and carefully put the jacket back on the mannequin.

Texas-Tech Tilt Tops Of Week

The University of Texas returns to the scene of its latest defeat this weekend—that's two years ago you understand.

It'll be Texas vs. Texas Tech in football-mad Lubbock, but there'll be different flavoring from the 1968 meeting when the Raiders started the Longhorns 31-22.

Since that defeat, the Longhorns have won 21 straight games, sacked up two Southwest Conference championships and a national title to boot.

But Texas Coach Darrell Royal isn't concerned with recent history. He's plenty concerned about the present.

"I'm much more concerned with the Texas Tech team of this year than of two years ago when we went up there," Royal said after the Longhorns opened their season Saturday with a crunching 56-15 victory over California.

"We're playing a team that has won two games and they'll be as high as any team we've seen in a long time."

The Raiders got off to a surprisingly quick start with victories over Tulane (21-14) and Kansas (23-0 last Saturday) in Coach Jim Carlen's first two games at the Raider helm.

While Tech and Texas kick off SWC play this week, the rest of the league continues intersec-

Green Bay Had Just As Soon Forget About First Game

By The Associated Press

Paul Brown would like more time to relive the first weekend of pro football's second half-century. Phil Bengtson would prefer to forget it.

Brown's Cincinnati Bengals struck down the Oakland Raiders 31-21 while the Detroit Lions mauled Bengtson's Green Bay Packers 40-0 Sunday as the National Football League's 51st season exploded in startling fashion.

Jess Phillips bolted 76 yards on a third-period draw play for the deciding touchdown as the Bengals duplicated a 1969 upset that handed the Raiders their only regular-season setback.

The Lions pinned Green Bay with its first shutout in 12 years. Mel Farr scoring twice and Errol Mann booting four field goals to lead the attack while a ferocious defensive unit shackled Bart Starr.

In Sunday's other openers, Minnesota whipped Kansas City 27-10 to gain some measure of revenge for its Super Bowl loss to the Chiefs; Baltimore nipped San Diego 16-14; Houston downed Pittsburgh 19-7; Dallas overcame Philadelphia 17-7; San Francisco upended Washington 26-17; Boston topped Miami 27-14; Atlanta trimmed New Orleans 14-3 and Denver thumped Buffalo 25-10.

Los Angeles riddled St. Louis 34-13 in Friday night's curtain-raiser and Chicago beat the New York Giants 24-16 in a Saturday night game.

The New York Jets visit Cleveland in a nationally-televised tussle tonight to complete the first week card.

The Vikings also took advantage of mistakes, in a reversal of their 23-7 Super Bowl collapse last January, to build a 17-7 halftime lead and then pulled

away from the Chiefs in the closing minutes of the game.

Jim Marshall scooped up a Kansas City fumble, lumbered downfield and then lateraled to Roy Winston to complete a 38-yard scoring play and Paul Krause returned an interception 40 yards to set up another score.

Rookie Jim O'Brien lifted the Colts past San Diego in their American Conference debut with his third field goal—a 28-yarder in the final minute. The Chargers had seized a 14-13 lead on John Hadl scoring strikes to Gary Garrison covering 65 and 43 yards.

Houston's formidable defensive crew ruined Terry Bradshaw's first start as a pro and Pittsburgh's first in the American Conference.

The heavily-favored Cowboys broke a third-period tie on Roger Staubach's 31-yard touchdown pass to Lance Rentzel and held on to subdue the Eagles at Philadelphia.

John Brodie hit on 17 of 20 passes, outshining Washington ace Sonny Jurgensen and leading the 49ers to their first opening game victory in three years, rambled for touchdowns 74 sec-

Carl Garrett and Jim Nance onds apart after an interception and fumble recovery in the second period, sending the Patriots on their way to an upset triumph over Miami.

Southland Tries To Lift Record

By The Associated Press

Southland Conference football teams try to lift the league's inter-sectional record above the 500 mark this week in another round in non-conference matches.

Abilene Christian takes its aerial circus to Angelo State; Arkansas State is at Southeastern Louisiana; Louisiana Tech is at Lamar Tech; Southwest Texas is at Trinity; and UT-Arlington seeks its first victory against Southern Mississippi.

S.L.C. teams won three out of five games during the weekend to even the league non-conference slate at 4-4.

The victories included Arkansas State 53-14 over Wichita State; Lamar Tech 33-28 over West Texas State; Abilene Christian 41-21 over East Texas State.

SNAGGING A FLY — Pittsburgh Pirate Roberto Clements strains, left and upper right, then succeeds in snagging while falling, right field fly ball hit by New York Met Cleon Jones during the third inning of the first game of Sunday's doubleheader at New York's Shea Stadium. Mets won the game, 4-1.

Intrepid Nosed In Zaney Race

NEWPORT, R.I. (AP) — Australia's Gretel II won a spectacular America's Cup race Sunday. But she'll have to win it twice as a result of a protest that was only one feature of a mad, mad, mad day at sea that only Jack London could have written—if he dared. It was a day that saw: —Two dramatic rescues at sea. One was of Intrepid's 27-year-old cockpit tactician, Steve Van Dyke, who went ashore by helicopter suffering from a severe reaction when a bee stung his lip while he was sipping a soda before the start.

Ickx Doesn't Court Title

By The Associated Press Belgian bridegroom Jackie Ickx won the Grand Prix of Canada in a breeze Sunday but admits it was a hollow victory. "The world driving champion for 1970 is Jochen Rindt," the 26-year-old Ferrari driver said after leading teammate Clay Regazzoni of Switzerland across the finish line to give the Italian Marque its third straight Formula 1 triumph. Rindt was killed Sept. 5 while practicing for the Italian Grand Prix, later won by Regazzoni. The Austrian Lotus driver had gained five victories and had amassed 45 points toward the driving title.

Ickx now has 28 points and could edge Rindt for the title by winning the remaining two races—at Watkins Glen, N.Y., Oct. 4 and at Mexico City Oct. 25.

"I am going to try to win them," Ickx said Sunday. "But I consider that the title rightfully belongs to Rindt. And I hope the Grand Prix organizers award it to him posthumously, regardless of who gets the most points."

Ickx averaged 101.27 miles per hour as he wheeled his No. 19 Ferrari into the lead at the 100-mile mark and dominated the race the rest of the way. He collected \$20,000 from the \$156,300 purse.

In other auto races Sunday, Britain's Brian Redman drove a Chevron B16 to victory in the Trophy des Ardennes race at Francorchamps, Belgium; Parnelli Jones wheeled his Mustang to victory in the Trans-American sedan race at Seattle International Raceways; Jack Bowsher of Springfield, Ohio, won the 250-mile late-model stockers race at Milwaukee in a 1969 Ford Torino; and Richard Petty of Randleman, N.C., in a 1970 Plymouth, won the Mason-Dixon 300 at Dover, Del.

—Intrepid, the American defender, finish within inches of Gretel II after the Australian challenger collided with her at the starting gun within feet of the race committee that will decide the protest.

—The other was of seven people in an outboard which capsized in the wash of the boats of the spectator flotilla.

Van Dyke recovered promptly after treatment ashore and the seven spectators were quickly rescued.

—A mine scare. A rusted old globe first identified as a meandering old explosive from World War II was spotted amongst the fleet which immediately took evasive action. Later it turned out to be a fishing buoy.

The protest presumably will be decided today by the race committee of the New York Yacht Club. The committee already has had to handle one protest arising from a near collision in the first race last Tuesday.

Both Intrepid, the NYCC Cup defender, and Gretel II protested, but the committee disallowed it.

If Intrepid is sustained, the score in the best-of-7 series will be 2-0. If Gretel II wins, it will be 1-1 up.

Astros Lose Marathon

LOS ANGELES (AP)—Second place in the National League West is the lone prize remaining for Los Angeles and the runner-up berth goes squarely on the line tonight when the Dodgers engage San Francisco in the opener of a three-game series at Dodger Stadium.

Pitching the series opener will be Joe Moeller, 7-8, for Los Angeles against San Francisco's Juan Marichal, 11-10.

The only things left for the Dodgers are second place, where they've been without interruption since June 22, and a winning season at Dodger Stadium. They enhanced their chances at both Sunday with a four-hour, 13-minute, 14-inning 7-6 victory over Houston before 28,614 Maury Willis Day fans.

The victory increased the Dodgers' advantage over third place San Francisco to a full game while it left their home record at 38-40. The Dodgers have never been under .500 since Dodger Stadium was opened in 1962 but they need three straight over the Giants to preserve that mark.

While it was Willis who received the gifts, including a new car, in the pre-game ceremonies, it was Manny Mota who was the star of the game. Mota drilled a single to center in the bottom of the 14th, scoring Bill Grabarkewitz who'd tripled home the tying run moments earlier.

Nancy Easy Net Winner

CHARLOTTE, N.C. (AP) — Nancy Richey easily defeated 15-year-old Chris Evert, 6-4, 6-1, Sunday to win the women's singles in the Carolinas International Tennis Classic.

The 5-3, 98-pounder, who had beaten France's top ranked women's player, Francoise Durr, on Friday, and No. 1 World Series Saturday with a 5-3 win over Omaha in 11 innings. The win gave the Chiefs the championship of minor league baseball.

Syracuse dominated the best-of-seven series, losing only one game—the fourth—to its Omaha rival.

SEATTLE (AP) — Arthur Ashe of Richmond, Va., defeated Tom Groman, Seattle, 6-3, 6-4 Sunday to win the \$4,100 first prize in the first Seattle Tennis Invitational.

Seattle defeated Jan Kodes of Czechoslovakia 6-1, 6-4 for third place.

Hayes Pouts On Bench

PHILADELPHIA (AP) — Bob Hayes, who ranks 10th among all-time National Football League pass receivers, says if he can't be a starter he'd rather leave the Dallas Cowboys.

The 27-year-old Hayes said Sunday after the Cowboys defeated the Philadelphia Eagles 17-7 that he was "very, very unhappy" about being demoted to a second stringer.

Hayes, who was benched by Dallas coach Tom Landry, was used only on punt returns against the Eagles. Dennis Homan played in the wide receiver spot for the Cowboys. Homan caught two passes for 15 yards.

"I'm too good to play on the second team," said the disgruntled Hayes.

The former Olympic sprinter said he understood he lost his starting job on the basis of performance in exhibition games. "There were five touchdowns by receivers in exhibition games and I caught four," he said.

Hayes said he led in receptions and "if they are going by past performance, all grades (other receivers) were lower than mine."

The 185-pound receiver said, "I'm unhappy and they know it. I'm still developing and if I can't play regular I'd rather leave. I'm very, very unhappy. I don't like playing on the second team when I know I'm best."

Beall Knows Who Gets The Ball

WEST POINT, N.Y. (AP) — Bill Beall and the Baylor Bears had a ball Saturday... but they won't have it for long.

A hard-fought 10-7 victory over Army marked the first triumph under Beall after 10 losses a year ago and an opening route by Missouri this season. The jubilant Baylor dressing room resembled that of a World Series or Super Bowl champion.

The game ball went to Beall, and he knows just what he's going to do with it. Last year, he promised the ball from Baylor's first victory in the Beall regime to Reuben Sage, a former Bear footballer stricken with multiple sclerosis.

Beall came to Baylor from Louisiana State, where, as an assistant coach, he built some of the nation's finest defensive units. So it was only right that the Baylor defense should seal Saturday's victory, stopping four Army threats in the final 18 minutes.

Beall was ecstatic, observing:

Tulsa-Hog Tilt Threatens To Sully Record

By The Associated Press North Texas State and Louisville, both of whom have dropped four games in non-conference play, begin their Missouri Valley Conference league schedule this week while Tulsa tangles with Arkansas in an inter-sectional highlight.

North Texas, plagued with pre-season injuries, is 0-2 after last Saturday's 23-0 jolt by San Diego State. Louisville felt its second loss when beaten by Southern Illinois, 31-28.

Tulsa's encounter with the Razorbacks will seriously jeopardize the league's only unblemished record. The Hurricane zapped Idaho State 38-13 Saturday for its second straight victory.

In other games this week Memphis State is at Virginia Tech; Wichita State is at West Texas State; Omaha is at Drake; and Bradley is at Western Illinois.

McDonnell Wins Minors' Crown

SYRACUSE, N.Y. (AP) — The Syracuse Chiefs wrapped up the rain-bedecked Little League World Series Saturday with a 5-3 win over Omaha in 11 innings. The win gave the Chiefs the championship of minor league baseball.

Syracuse dominated the best-of-seven series, losing only one game—the fourth—to its Omaha rival.

Seagraves Loss Biggest Shocker Of Grid Week

By The Associated Press Seagraves' No. 1 ranking in Class A of The Associated Press Schoolboy football poll appeared in danger this week after a shocking 34-8 loss to Abernathy last Friday.

Seagraves' defeat was the big shocker in a weekend of upsets in the schoolboy ranks.

In Class AAAA, No. 2 rated Austin Reagan tumbled to Spring Branch 13-12 and No. 10 Killen was beaten by No. 5 Odessa Permian, 7-0.

In Class AAA, No. 8 Wichita Falls Hirschi lost its second

Willie Stargell's Homer Grievously Hurts Met Hopes

By The Associated Press One banner—among the many strung out along the facades of jam-packed Shea Stadium—told it like it was for the New York Mets.

"Down, but NOT Out!" was a brave message.

Then Willie Stargell landed a 450-foot haymaker and the Pittsburgh Pirates left baseball's defending world champions reeling on the ropes in the National League East division count-down.

Left-hander Jerry Koonsman put the stumbling Mets back on their feet in the first game of Sunday's doubleheader at New York, taming the Pirates 4-1 with a two-hitter.

But Stargell's tape-measure homer ignited a four-run explosion in the 10th inning of the nightcap, powering the division leaders to a 9-5 victory that kept the third-place Mets 3½ games off the pace with just nine to play.

Javelinas In Form

By The Associated Press Defending national NAIA champion Texas A&I, successful in its season opener last Saturday, wades into its Lone Star Conference schedule this week-end against McMurry while unbeaten Southwest Texas State meets Trinity in inter-sectional play.

The Javelinas showed some of their 1968 championship form in dunking Trinity 23-0 Saturday. It was the seventh straight victory for A&I over two seasons.

Southwest Texas got the LSC title race off to a successful start with a 20-13 victory over Angelo State.

In other games this week, Tarleton State is at Sul Ross; S. F. Austin is at Howard Payne; East Texas State is at Sam Houston; and Abilene Christian is at Angelo State.

Other games last Saturday included: ACC 41, East Texas 21; Northwest (La.) 9, S. F. Austin 7; Sul Ross 35, Eastern New Mexico 13; Sam Houston 24, McNeese (La.) 19.

Rookie Hurler Puts Twins Within Two Of A Clinch

By The Associated Press The Minnesota Twins have Bert Blyleven on the mound... and an Angel in the outfield.

Blyleven uncorked a three-hitter as Minnesota chopped Chicago 8-1 and outfielder Alex Johnson helped the California Angels cut down Oakland 4-2 Sunday, reducing the Twins' magic number to two in the American League West race.

"He doesn't walk a lot of guys and he has good stuff," said Twins Manager Bill Rigney of his teen-age phenom. "We brought him up last June when Luis Tiant got hurt and he's done a great job."

In 154 innings, the 19-year-old right-hander has issued only 41 walks while striking out 132. He's 10-8 on the season.

Johnson, California's bull-strong leftfielder, pounded his 14th homer in the seventh to tie the game 2-2, then singled and scored the go-ahead run in the Angels' two-run ninth.

Jim Palmer became Baltimore's third 20-game winner, blanking Cleveland 7-0, homer power pulled Boston over Washington 3-1; New York topped Detroit 5-1 with the long ball and Milwaukee squeezed by Kansas City 4-3 in the AL's other Sunday games.

Rigney was obviously elated that Blyleven will give Minnesota added pitching power in the pennant run.

He chirped after the teenager's strikeout performance Sunday: "That should put the kid in the record book."

Rigney referred to Blyleven's victory total, accomplished in

Syracuse Wins Minors' Crown

SYRACUSE, N.Y. (AP) — The Syracuse Chiefs wrapped up the rain-bedecked Little League World Series Saturday with a 5-3 win over Omaha in 11 innings.

The win gave the Chiefs the championship of minor league baseball.

Syracuse dominated the best-of-seven series, losing only one game—the fourth—to its Omaha rival.

Yarborough Still Plugs Big Thicket

WASHINGTON (AP) — Sen. Ralph W. Yarborough, the Texas Democrat who was defeated in this year's primary, would like as his final effort to push through Congress a bill creating the Big Thicket national park in his home territory in East Texas.

But it appears that Big Thicket bills introduced by Yarborough, father of legislation creating two other national parks in Texas, and other state congressmen have little chance of succeeding this session.

WOODPECKER
Yarborough is anxious to save the Big Thicket, with its trees, birds and flowers not found anywhere else. For years, he has taken to meetings a stuffed ivory-billed woodpecker rarely seen outside the thicket.

With adjournment of Congress targeted for Oct. 15, there appears to be little likelihood that even the appropriate subcommittee will get to the Big Thicket bills.

For 13 years, Yarborough has introduced bills to create a Big Thicket and public support for it has grown to thousands of citizens and many conservation groups.

"But my term of office is soon coming to a close," Yarborough said, "and the reality of a national park in this forest wonderland still seems to be dreadfully far away."

A Senate Interior Committee source said it has no plans to hold hearings on the bill before adjournment unless the House committee takes action.

And the House committee is scheduling no more hearings on fresh legislation after Monday.

At the beginning of the century, the Big Thicket was a three-million-acre wilderness and swamp.

CHOPPING AWAY
Now, Yarborough says, the thicket is down to about 300,000 acres and lumbermen are chopping away at that every day. Yarborough has proposed a 100,000-acre park, as has Rep. Jim Wright, D-Tex.

QUITTING — Roy Burke, 29, police chief of Cairo, Ill., says he is quitting. He became chief of the 17-man force about seven months ago in the racially troubled city of 10,000.

Three Chiefs In 15 Months

CAIRO, Ill. (AP)—Saying the town has been blighted by "fear, repression and economic problems," the police chief of this racially troubled city of 10,000 says he is quitting.

Roy Burke, 29, who became chief of the 17-man force about seven months ago, was incommunicado Sunday night as scattered reports of gunfire in both white and black neighborhoods reached the police station. There were no reports of injury and no arrests.

The city has had three police chiefs in 15 months.

Burke said he could no longer work among citizens who "advocate violence, hatred and animosity toward their fellow men." He came to Cairo in February after serving as police chief for two years at Winthrop, Maine. "In the 7½ months I've been here, every day I prepare for racial confrontation," he said. "This is the only city in the world that's like that."

In his letter of resignation Saturday, Burke praised Cairo police for "withstanding bullets, abuses, arsonists and nuts."

Train-Truck Crash Kills Four Men Close To Dallas

The weekend violent death count in Texas was heightened by a spectacular train-truck collision near Dallas which killed four men, three of them train crewmen.

The Associated Press began tabulating violent deaths at 6 p.m. Friday and counted until midnight Sunday.

By midnight Sunday, 28 had died. Car wrecks had killed 21 people, and seven others were killed in miscellaneous incidents including five shootings.

The four men killed in the collision of the Cotton Belt freight train at the tractor-trailer rig at Coppell, just outside of Dallas, were not identified officially until almost midafternoon.

EXPLOSION
The dead included three members of the Cotton Belt train crew. Robert A. Hood, 63, engineer from Commerce; and two brakemen, H. L. Sims, 57, of Commerce and G. H. Thomas, 65, of Texarkana. The fourth man killed was L. E. Broglin, 50, of Springfield, Mo., driver of the big truck.

COIN SHOW HELD SUNDAY
The Big Spring Coin Club held its annual coin show Sunday at the Settles Hotel with 17 exhibitors competing for the best of show trophy.

Fred Homeyer, San Angelo, won the trophy for his display of eagles on regular issue U.S. coinage 1808-1969. He also won the first place trophy for his display of a queen and an emperor on Austrian coins.

Second place winner was Clea Britton, Big Spring, for her display of U.S. twentieth century coins.

Tina Teague, Big Spring, won the junior division first place trophy for her display of type sets of countries. Her brother, Guy, won the second place trophy for his display of U.S. type sets.

Capt. John Edwards was awarded a \$20 gold piece. Trophies were contributed by Bob Brock Ford, City Pawn Shop, Zale's Jewelry and the First National Bank.

The ensuing explosion and fire blocked traffic for over three hours. Several of the train cars were derailed by the accident.

James W. Mathewson, 65, of Beaumont, was killed at Fannett in Jefferson County late Saturday when struck down by a car on Texas 124, police said.

Three members of a Savoy, Tex., family died in a two-car accident at Sherman around midnight Saturday. An Oklahoma man was critically injured.

Police identified the dead as Larry J. Pinkston, 26, his wife, Frances, 21, and their daughter, Donna Sue, 4.

TRIPLE FLIP
Victor Garcia, 16, was killed Saturday night when his pickup truck overturned near Rio Grande City in the Rio Grande Valley.

A Houston man, Bobby Sam Lennox, 49, was killed Friday night in the Bayou City when his car collided with a train. Austin police said Ylaro G. Corona, 29, of Bastrop, was struck and killed by a hit and run driver Friday on Austin's north side.

A car driven by Bobbie L. Denard of Waco overturned 15 miles south of Waco Friday night, killing him and seriously injuring his wife.

STRUCK, KILLED
Police at Waco said Jacqueline Finney of Waco was struck and killed by a car there Friday night.

Rose L. Coleman, 58, of West, was killed in a car-truck accident three miles north of Waco Friday night, police said.

Police arrested an 18-year-old man in connection with the Saturday beating death of Mrs. Don Davidson, 75, of Texas City. The woman's body was discovered at her home by a daughter and son-in-law.

Beverly Shorten, 28, a Houston nurse, was shot and killed Saturday by a man who then turned the gun on himself. Police said the 50-year-old insurance investigator was in critical condition at a Houston hospital.

A Dallas youth was shot to death Saturday while playing with a pistol with a friend.

DEAD BOY
The dead boy was Donald R.

NOW IS THE TIME

TO CHECK YOUR HEATING SYSTEM

Don't wait until the cold weather is here to see if your heating system is in tip-top shape. Check it now before the first cold snap. For complete heating service call your plumber or heating contractor. Ask him to change filters, oil the fans, and check the vents. But call early and avoid the rush.
