## AUTHORITIES QUESTION STUDENTS WHO ASK ASYLUM

# Russians Skyjack Plane Into Turkey

ANKARA, Turkey (AP) — Turkish authorities today questioned two Soviet students seeking asylum after the second successful hijacking of a Soviet plane in two weeks. There was speculation that the hijacking would harden the Soviet government's attitude toward two U.S. generals whose plane crossed into Soviet Armenia last week.

**LET'S GO**  
Nikolai Gintov, 20, and Vitaly Pozdeyr, 25, "put a bag over the pilot's head, trussed him up and landed the plane at Sinop themselves" Tuesday, the semi-

official Turkish news agency Anatolia reported.

"They said let's go, and we came," pilot Alexei Menshikov, 50, said.

The Turkish government sent state security police and an interpreter to Sinop, on Turkey's Black Sea coast, to investigate. Anatolia said the pair had been planning their escape from the Soviet Union for two years.

The Turkish state radio said Gintov and Pozdeyr told security police they wanted to go to the United States.

The plane, a small two-engine

craft of the government-owned Soviet airline Aeroflot, was on a domestic flight from Kerch to Krasnodar, north of the Black Sea, when Gintov and Pozdeyr took it over. One other passenger was aboard, Yuri Derbinov, 35.

The first hijacking of a Soviet plane to Turkey was carried out Oct. 15 by two Lithuanians, Pr nas Stasio Brazinskas and his son Algedas. They diverted an Aeroflot airliner to Trabzon, 200 miles east of Sinop, after killing a stewardess and wound-

ing three crew members.

### CRIMINAL CODE

The father and son also have asked for political asylum, while the Soviet government has demanded their return to face criminal action. The Turkish minister of justice is studying the case, and there have been indications that the government will let the Turkish courts decide whether the pair is entitled to refuge under a provision of the Turkish criminal code which says foreigners accused of crimes abroad that were politi-

cally motivated cannot be sent back for trial.

The Soviet ambassador to Turkey hinted Tuesday that the Russians might use a Turkish colonel now being held in the Soviet Union in bargaining for the two Lithuanians. The colonel, Cevat Deneli, was aboard the small American military Beechcraft that the U.S. government says lost its way and landed in Soviet Armenia last week while taking two American generals on an inspection flight in Turkey.

### POINT OF VIEW

"Right now in Turkey there are two murderers and in Russia a Turkish colonel," Ambassador Vassily Grubyakov said in Ankara. "Both from the point of view of friendly relations between the two countries and according to international customs, they must be returned."

"The two matters should be considered separately," he said. "However, the two questions have similar aspects. The connection is that both Turkey and

Russia have asked for the return of their citizens."

Grubyakov did not mention the three Americans aboard the plane: Maj. Gen. Edward C. D. Scherrer, chief of the U.S. military mission in Turkey; his assistant, Brig. Gen. Claude M. McQuarrie Jr., and their pilot, Maj. James P. Russell. But Pravda today repeated earlier charges by the Soviet government that the generals' flight, like that of U2 pilot Francis Gary Powers 10 years ago, was directed against the security of the Soviet Union.

The article did not say when the Americans might be released but there was no threat to put them on trial as Powers was.

### HIGH HOPES

Two U.S. consuls visited the Americans and the Turkish colonel Monday at a government guest house in the Armenian town of Leninakan, where they landed and are being held.

**MURDER CHARGE DROPPED** — The Army announced today murder charges against Green Beret Capt. Jeffrey MacDonald in the slaying of his wife and two small daughters had been dropped.

## Mitchell, Cops To Mull Bombings

WASHINGTON (AP) — Atty. Gen. John N. Mitchell and a baker's dozen of the nation's top law officers meet Friday for a discussion of the escalation in police shootings and terrorist bombings.

The conference grew out of an invitation dropped by the attorney general in a speech earlier this month to the International Association of Chiefs of Police.

Such a meeting, Mitchell said then, "would be most constructive and most helpful in clarifying all of the problems relating to these subject matters."

Adding urgency to the attempt to find solutions are figures released recently by the IACP showing 560 attacks on policemen and 21 deaths for the three-month period starting last July 1.

The IACP count also listed 141 bombings during the period.

Among the problems likely to be discussed by the 13 state and local law enforcement heads invited: Alleged failure of federal authorities to pass on some information to local police.

Such a failure was alluded to last summer when several Midwest mayors met in Omaha, Neb., after a rash of bombings in their cities. But Omaha Mayor Eugene Leahy, who raised the charge, refused to elaborate.

A subsequent meeting with Mitchell quieted complaints by the mayors, but similar rumblings have come out of several police organizations, including the IACP.

Mitchell last week said there had been no substantiation of any such allegations that reached him. And FBI officials, publicly making no comment, angrily denied in private that information "needed by police would ever be withheld."

One purpose of the meeting undoubtedly will be to acquaint the police officials with new federal laws restricting legal access to explosives and increasing penalties for illegal use.

The new laws also give the FBI immediate jurisdiction in campus bombings and authorize use of electronic surveillance in suspected bombing plots.

## Apartments Boom Looms

MIAMI BEACH, Fla. (AP) — Within the next five years, it is estimated that one out of every two new housing units built in the United States will be an apartment.

Despite rising costs, the apartment industry is booming, with the government playing an increasingly large role, industry sources say.

Last year, apartments accounted for about 40 per cent of the approximately 1.4 million new housing starts, Jenard M. Gross, president of the National Apartment Association, said.

Of the 2.4 million housing units expected to be built in 1975, apartments will account for at least 1.2 million, he predicted today in a speech prepared for the Mortgage Bankers Association convention.

The tremendous surge in population among people in the 20 to 34 age bracket, and those over 55, is fueling this apartment upswing, he said, describing these age groups as "prime apartment markets."

Many apartment complexes now include golf courses, recreation rooms, bars and gymnasiums, he said. Family projects even have day nurseries with baby sitter services, he added.

**ELENA'S NEW LOOK** — Elena Arroyo, an Otomi Indian girl, was born seven years ago in a remote Mexican village without ears. For that reason some tribesmen told her parents they should kill her. But a missionary at work among the Indians took her to Oklahoma City where an operation gave her hearing for the first time and made it possible for her to learn to speak. Realistic Industries in Oakland heard of the girl's plight and offered to donate a pair of artificial ears. This week a grinning little girl walked into the factory and received her ears.

## Warm, Damp Welcome For Nixon In Florida

ST. PETERSBURG, Fla. (AP) — President Nixon, appealing for both Democratic and Republican support of GOP candidates in this battleground state, got a warm—and damp—welcome today to Florida's gulf coast.

Arriving by motorcade at the jammed Bayfront Center Arena, Nixon got doused to the knees when wellwishers dumped over a water-filled oil drum that was anchoring a rope barricade.

**NO SIGN**  
The President kept waving to his greeters and gave no sign that the water bothered him.

The chief executive took a circuitous 12-mile motorcade route to the arena from the airport in neighboring Clearwater, at one point detouring a block out of his way to skirt a street lined with people. The White House gave no explanation for the detour.

At the Clearwater airport, hundreds greeted Nixon and the leaders of the state's Republican ticket.

**'YOU ARE'**  
A few youngsters held aloft placards protesting construction of the federally-financed Cross-Florida Barge Canal.

Turning to GOP Gov. Claude Kirk, Nixon remarked: "They

### UF PASSES 40 PER CENT

The United Fund thermometer on the courthouse lawn will soon be getting a new paint job, as contributions passed the 40 per cent mark this morning on the way to this year's \$109,975 goal. Today's new total of \$45,296.72 represented amounts turned in by "just about everybody" campaigning for the United Fund.

want to stop a canal. Are you building it?"

"You are," said the governor. "In appearances Tuesday night in convention halls at West Palm Beach and Miami Beach, Nixon repeatedly urged a non-partisan stance by the electorate while stumping hard for the GOP Senate candidate, Rep. William C. Cramer, who faces a strong opponent in Democratic newcomer Lawton Chiles.

**FORGET LABELS**  
At the Palm Beach meeting, for example, he said, "Let's forget party labels for a moment." While asserting it was traditional to be outspokenly partisan in the final week of a campaign,

Nixon said he felt the issues in the balloting next Tuesday are too important for that.

The chief executive went on to solicit support for Cramer and Republican Gov. Claude Kirk, indicated by polls to be running behind Democrat Reubin Askew.

In the Miami Beach Convention Hall where he received the GOP presidential nomination two years ago, Nixon made bows in the direction of Florida Democrats.

Following final Florida rallies in St. Petersburg and Tallahassee, Nixon was heading for Texas where Democrats enjoy a 4-1 edge in registered voters.

**WASHINGTON (AP)** — One of every 10 high school academic leaders contacted in a national survey say they personally use marijuana.

More than 22,000 youths 16 to 18 years old in 18,000 private, public and parochial schools responded to the 70-question survey distributed by Merit Publishing Co., Northfield, Ill.

Recipients, all juniors and seniors, were top scholars and student leaders recommended by the schools, the sponsors said.

**SEX QUIZ**  
When asked whether they use marijuana now, 10 per cent replied yes, 88 per cent said no and 2 per cent didn't respond. In answer to another question, 21

per cent indicated that they would use it if marijuana were legalized.

When asked whether they approved of premarital sexual intercourse, 5 per cent failed to respond, 53 per cent said no and 42 per cent said yes. But 24 per cent of the respondents ducked the question when asked whether they participated in sexual relations. Of those answering, 16 per cent said they had and 60 per cent said they had not.

The sponsors said nine students were selected to write the questions, which ranged from Vietnam to drug use and national politics to ecology.

**RACE RELATIONS**  
Most of the students said that ending the Vietnam war is the

national's No. 1 priority and a whopping 85 per cent said that respect for this country had suffered because of the Vietnam conflict.

On race relations, 68 per cent opposed bussing students from either black or white communities, but 84 per cent said they would move into an integrated neighborhood.

On national politics, 75 per cent favored lowering the voting age to 18, and 85 per cent would abolish the electoral college. Forty-six per cent said they would have voted for President Nixon in 1968, 40 per cent for Hubert Humphrey and 5 per cent for George Wallace.

Fifty-two per cent said they felt Nixon is doing a good job as president.

# Tate Defense Calling 'Stars'

LOS ANGELES (AP) — John Lennon of the Beatles is being sought as a witness in the Sharon Tate murder trial. The defense wants him to say whether the group's songs could have inspired Charles Manson to violence.

"We want John Lennon to testify," a defense source said in an interview Tuesday. "We feel he may want to explain the lyrics."

**'HELTER SKELTER'**  
The state has asserted that Manson ordered his followers to kill Miss Tate and six others in August, 1969, aiming to trigger a race war which he felt was predicted in a Beatles song, "Helter Skelter."

The source, who asked not to be identified, said the defense had been trying for months to subpoena Lennon, believed to be in the Los Angeles area, but "there is an unbelievable wall surrounding him."

He added, "We still hope to reach him. He's the most articulate and philosophical of the Beatles and he understands his social and political effect on the world."

The defense case is scheduled to open next week—the 21st week of the trial. The source said it would last about a month. Manson, 35, and three young women followers are charged with murder-conspiracy in the slayings.

**MAMAS, PAPAS**  
Other entertainment personalities have been subpoenaed, the source said. Among those scheduled to take the stand are Mama Cass Elliot and John Phillips, both former members of the Mamas and the Papas singing group.

Both are said to have known Manson in 1968 when he tried for a career as a musician and

socialized with recording personalities.

"All of these people are extremely reluctant to testify," said the source, "but they are under subpoena."

He said the women defendants in the case are not expected to take the witness stand.

Manson is scheduled to be the last witness for the defense.

Much of his testimony is expected to be his version of the philosophy he preached to members of his hippie-type "family."

**CAST DOUBT**  
A four-pronged defense is planned, the source said. It will seek to:

—Cast doubt concerning the identity of the killers. "We are going to try to prove that other people committed the offenses."

—Discredit the testimony of Linda Kasabian, the state's star witness, by calling character witnesses to say she was known to lie. Among them will be a social worker who says Mrs. Kasabian told her she was out of California when the murders occurred.

—Rebut the prosecution's case by calling to the stand every key person named in testimony. Several prosecution witnesses may be recalled. "Also on call are persons named as having provided knives or other implements allegedly used in the crimes."

—Explore Manson's philosophy by putting family members on the stand. "There are probably about 10 members still in this area. They will really elucidate the philosophy of Manson and show his benevolent side. They will show him as a great non-leader who sometimes kissed people's feet and usually was the last to eat at dinner time."

**STARTING TO MOVE**  
"Here we're starting to move into the bizarre," said the source. "It is not our intention to put on a bizarre defense, although it would be possible to push the prosecution case farther out over the credibility gap. You could laugh the whole thing out of court."

## Vote Deadline 5 P. M. Friday

Absentee balloting for the Nov. 3 General Election which has been comparatively light to date, ends Friday. All persons who have not cast their ballot by mail or by personal appearance in the Howard County Clerk's office and will be out of the county Nov. 3 are urged by County Clerk Pauline Petty to vote before 5 p.m. Friday.

All registered voters who will be out of town on the day of election may vote now in the County Clerk's Office. If the voter is out of the county during the entire absentee period, the ballot will be mailed to an out-of-county address and must be postmarked from an out-of-county address when returned.

Those wishing to vote absentee because of illness or disability must submit to the county clerk an affidavit signed by a qualified physician or Christian Science practitioner attesting to the voter's illness. The ballot will be mailed to the voter's home and must be returned before Friday.

Anyone who is a registered voter in another county and has lived in Howard County less than six months is eligible to vote a limited ballot in the clerk's office before Friday. The ballot includes state and national issues only. No one may vote the limited ballot Nov. 3.

Early this morning, 187 persons had voted. This is behind the 1966 gubernatorial race absentee vote of 288. In the 1968, a presidential election year, 1,039 absentee ballots were cast. According to Deputy County Clerk Margaret Rfy, this year's ballot will probably equal the 1966 total by absentee closing Friday.

## Great Pumpkin A Little Frosty

The frost was on the pumpkin in some portions of the county this morning as Halloween approaches, but it was apparently a borderline frost that may only result in some leafdropping.

Bill Fryrear reported that the temperature dipped a little below 31 degrees at the U.S. Soil and Water Conservation Research Station, but only stayed there for 10 or 15 minutes.

"I doubt if it was enough in most areas to kill the cotton plants," Fryrear said. "It would take about three or four hours of frost to do that."

County Agent Paul Gross said this morning that he had not been out to look yet, but guessed that the frost was not hard enough to damage the cotton, but would probably be beneficial to the farmers by defoliating some of the cotton that is ready to be harvested.

The degree of a frost varies with the humidity, wind conditions, and elevation in a particular locale, so that people in lower areas get a bit heavier frost if there is enough breeze.

**Absentee Voting**  
Voting Ends Oct. 30

**Total To Date**  
General Election: 192  
Fire District: 8

'NOTHING SHORT OF EXCELLENCE'

# Three Inducted Into TESCO Quarter Century Club

VETERAN TESCO EMPLOYEES — President B. L. Hulsey Jr. (left), congratulates D. L. Pettitt, L. M. Fulmer and W. E. Booth (right) into the TESCO Quarter Century Club.

Nothing short of excellence will satisfy the challenges that Texas Electric Service Company faces in the next decade, Burl B. Hulsey Jr., company president, told more than 200 employees and guests Tuesday evening at the Big Spring Country Club.

The occasion was the meeting of the Quarter Century Club, into which W. E. (Ed) Booth, L. M. (Les) Fulmer, and Denver L. Pettitt were inducted. All are from the transmission department.

Hulsey presented watches to the three, holding them up as examples of capable, loyal service that has built the company. Among other Quarter Century members on hand were S. F. Baker, A. E. Deel, A. C. McClelland, C. L. Merritt, J. W. Skeen, H. M. Smith and E. L. Whatley, plus J. W. Garrison, retired.

Touching on the growth and reliability of the TESCO system, Hulsey said that the present generating capability is 25 times greater than it was 25 years ago.

TESCO had 100,000 KW generating capacity at the time Big Spring was added to the system more than two score years ago; today the Big Spring division alone has more than a 200,000 KW demand.

But whatever the record of tremendous expansion, it is mild compared with what lies ahead, Hulsey said.

"There will be more changes and growth in the next five to 10 years than in the previous 25," he said. For example, existing capabilities will double within the next six years.

Among the challenges facing the company, Hulsey added, is that of rising costs of operation and financing. Recently TESCO sold \$25 million in fort mortgage bonds at an interest rate of 8 3/4 per cent — almost double the interest rate paid just five years ago.

The company recognizes its environmental responsibility, and besides supplying the cleanest form of energy, it has embarked on other enterprises such as the catfish growing research at the Morgan Creek plant near Colorado City, and the long-term leasing of land at the lake for a state park.

Hulsey looked confidently to the future, citing adequate generating reserves, sufficient fuel supply, ample construction on schedule, and an area of the country which offers a good place to make a living and a home. He noted that TESCO is

## 'PEOPLE POWER'

Members of the Texas Electric Service Company family Tuesday evening got a closeup of the six young voices made familiar by the jingle "you live better electrically."

The People Power girls, who have developed the TESCO theme, furnished entertainment for the company's Quarter Century Club meeting here Tuesday at the Big Spring Country Club.

They exhibited as much sparkle and zip as the product they promote. The large banquet crowd brought them back for an encore after varied program of familiar contemporary tunes.

Members of the vivacious group have been singing together for eight years since their days in Haltom City (Fort Worth) High School. One of them, Betty Massoietti, said she was especially delighted to be "back home. You see, I was born in Big Spring — right here in Cowper Hospital."

Others are Cherie Lambrecht, attending the University of Texas; Patsy Leach, Sam Houston State University; Gaylene Dwight, North Texas State University; and the twins — Ann Stroud and Jan Stroud.

Accompanying them were Lou Gillis, director-arranger, and the Charles Baxter quartet, which also played for the company dance after the banquet.

not faced with the problem of blackouts and brownouts which have afflicted other areas of the country.

The only hope of TESCO achieving the excellence demanded to meet challenges, he said, lies in its people. Hulsey expressed appreciation for the 5,000 creative ideas employees submitted last year, 114 of which were prize-winners from the Big Spring division.

He cited the suggestion of using the reverse of the billing card as space for customer reaction. TESCO is the only company in

the nation doing this.

Don Womack, division manager, served as master of ceremonies and James Kinman offered the invocation. Top officials of TESCO were on hand for the annual dinner affair.

Booth, a native of Altus, Okla., joined TESCO Oct. 15, 1945, in Odessa following service in World War II. He became chief transmission clerk in Big Spring in 1952, later becoming assisting operator of switching. He is involved in many activities, including Wesley United Methodist Church, bowling and other sports.

Fulmer, a native of Nacogdoches, would have had over 42 years service, had his TESCO connections been continuous. He started first in 1928 at Wink, took another job, came back in 1929, moved to East Texas, and then joined TESCO in 1945. He is past master of the Masonic Lodge, Pettitt, who retired in May,

came from Nolan County to Big Spring in 1942 to help build the air base, served with the Air Force until Feb. 2, 1945, when he joined the transmission department in Big Spring. In 1951, he was made foreman of construction. His hobby of woodwork has turned into a business for him now. Pettitt is widely known also as a violin maker.

# U.S. Sounds Out Members Before Taking U.N. Stand

UNITED NATIONS, N.Y. (AP) — The United States is

sounding out other members of the United Nations before taking a stand in the Middle East debate now under way in the General Assembly.

that it wants the Big Powers to do their utmost to enable U.N. envoy Gunnar V. Jarring to resume his role as the go-between in indirect negotiations between Israel and Egypt and Jordan.

But the United States has balked at fixing a target date for resumption of Jarring's mission. The Americans are still backing Israel's refusal to resume the talks until Egypt pulls back the Soviet anti-aircraft missiles which the United States and Israel charge have been moved closer to the Suez Canal zone in violation of the three-month cease-fire that began Aug. 7.

Washington has made clear

U.S. sources said Ambassador Charles W. Yost will speak in the debate but probably will wait until a resolution is introduced. He discussed the Middle East situation in separate talks Monday with Foreign Ministers Abba Eban of Israel and Mahmoud Riad of Egypt.

The United States and other members are moving cautiously until they find out what tack the Arab states and their allies intend to take.

LYNDON'S WATCHWORD—'ECONOMY, ECONOMY'

# Christmas Season Dims Grief

By LADY BIRD JOHNSON  
Part Four  
SATURDAY,  
December 21,  
1963

## White House Diary

I believe I am about to catch my second wind.  
At 10 this morning a nice young assistant from Miss Genevieve Hendricks' decorating shop came over with loads of samples of chintz, pretty things, and we explored Lynda's and Luci's bedrooms and the possibility of a little sitting room for Luci and decided what would be pretty with what.  
We looked into the room here in the White House where they kept the stored furniture and had various pieces moved in, remembering always Lyndon's watchword — "economy, economy" — because I mustn't buy anything if something we already have might do. I think we found some nice things but I have to look at them over and over and then decide.

**SHATTERING NEWS**  
It was about that time I got the shattering news. Congress had thrown up a few roadblocks. They were not going to adjourn, so we were not going home Sunday. In other words, things were in just about as bad a state of inactivity with regard to legislative matters as they could be.  
I had some feeling of the amount of effort Lyndon must have put into trying to make this a productive day in Congress, his old home. So I went over to his office, knowing full well there wasn't anything I could really do, but just with the same instinct that leads you to call on a sick friend, knowing

this was a bad time for Lyndon and wanting to pat him on the back.  
**MONDAY, December 23,**  
Gone is the black mourning crepe that swathed the great crystal chandeliers in the State Rooms and draped the high doorways. The flags, at half-mast this long month, now rise — and with them my spirits.

**LBJ Ranch**  
**CHRISTMAS EVE, Tuesday, December 24**  
The House of Representatives met very early this morning to pass the Foreign Aid Bill. The bill passed, thanks to a tremendous effort by a lot of people, and this released us from our bondage. So we left Washington about 9:30, chapered to Andrews, flew to Philadelphia for the funeral of Cong. William Green, and from there on to Austin.

The first thing we did in Austin was to go by the Governor's Mansion to see John and Nellie. They were there, lined up on the back porch — John with his arm in a black sling and looking, as cattlemen would call him, "drawn." He appears older and in pain, but he is fine and so handsome. Nellie was smiling again, and there were cute little Sharon and Mark. We had some coffee and a good visit, and continued our journey home.

We decided to visit our neighboring ranchers, the A. W. Moursunds, on the way, and it was just about sunset. Lyndon got in the car with A. W. and there they went, away to get lost over the horizon. How often I have seen that picture; how much I like it; and what a real release. They might do a little deer hunting, but they'll do a lot more talking. I returned immediately to the Ranch to find the house a good deal changed by my friend Nancy Negley, at my request. And most of it I liked very much. The Alexanders (Lyndon's sister and her family) — Lucia, Becky, and Birge — soon came up to join us. And Cousin Oreole, who brought along Aunt Jessie Hatcher, came over from her house. (They are two elderly relatives of Lyndon's.)

**SOME CHANGES**  
There are some changes about the Ranch that I don't like. For instance, there are two enormous silver saucers, pointing to the sky. I suppose they're radar and have something to do with the landing strip. At each entrance gate, there's a little white cubicle of a guard house, with the guards, who check everyone who comes and goes. And all around the house, front and back, large searchlights project out into the night, so that we will never be quite settled into the anonymity of darkness. The

place is also abristle with Secret Service men aided by Texas Highway Patrolmen. Much is changed. The impact of this, I suppose, will gradually get through to me, and I shall get used to it.

**CHRISTMAS DAY, Wednesday, December 25**  
Today was a beautiful, clear, bright day. I loaded some pointsettias in the back of the car; got Jerry Kivett, my Secret Service agent, and we went to deliver them to friends. Eventually we joined up with Lyndon, stopped by the Lutheran Church just as the service was over, gave some pointsettias to decorate it, and took one to the Lewis Ranch and one to the Scharnhorst Ranch. Then we just drove around — over the beautiful Hill County which I love so much.

In fact, we were rather late getting back for the big Christmas dinner, to which we had invited all of Lyndon's kinfolks: Uncle Huffman and Aunt Olivee; Aunt Josefa, very dressed up and still looking pretty in spite of her many years, and her family. Col. and Mrs. Paul Kinnison and their three children; Sam Houston, Lyndon's brother, walking very slowly and heavily on his cane; the three Alexanders — and if there is one family member Lyndon needs most and responds to most, it is his sister, Lucia. The Bobbitts — Lyndon's sister Rebekah and her husband — came, and their son Philip has grown about three inches. There was Cousin Oreole, of course, and Aunt Jessie and her family, which

consists of her daughter and her husband and two children. Bernie (Bernard Rosenbach, the young Navy ensign to whom Lynda is engaged), was there, looking very handsome and very devoted; and Lynda and Luci.  
The usual press contingent was waiting to take a family Christmas picture. One woman reporter asked, "Mr. President, could we go through the house?" I said to Lyndon, "Now, honey they're coming back again on Friday. Don't you think we'd just better put off the tour of the house, because the gravy is getting colder?" Lyndon said, "No, no, let's go on through the house." So through they went — a swarm, 50 to 75 strong, with me trailing along behind them, knowing that dinner was not improving as time went by. Lyndon gave them all ashtrays as Christmas gifts. Finally they departed, and we all sat down to grace and a big family Christmas dinner.

**NEXT: My trip to Greece, and talks with President Truman.**  
(From the book, "A White House Diary" by Lady Bird Johnson, published by Holt, Rinehart and Winston Inc. Copyright (c) 1970 by Claudia T. Johnson.)

**CALLEY IN SAIGON** — Lt. William Calley Jr., accused of mass murder of 102-Vietnamese civilians in the 1968 slayings at My Lai, ignores microphone, center, as he walks from airliner to waiting car after arriving today at Saigon's Tan Son Nhut Airport. At left is Maj. Kenneth A. Raby, Calley's chief military counsel. The two are in Vietnam to interview witnesses of the alleged massacre.

## Thomas Named President Of Rehab Center Directors

The board of directors of the Dora Roberts Rehabilitation Center approved the election of officers and directors for the coming year at its meeting Tuesday evening.

Truett Thomas was elected board president, replacing Dr. Harold Smith who will remain on the board of directors as past president. Thomas was elected a board member of the center two years ago and served as vice president last year.

Jack Powell was elected as vice president. He was a member of the board of directors for 1971-1972.

Dr. Dean Box, secretary; and John Wilson, treasurer, were re-elected for the coming year.

**MEMBERS ELECTED**  
The election of six board members was approved. New members are: Mrs. R. T. Torp, Mrs. Jack Irons, Max Green, Don Crockett, Bob Brown and Harold Canning. The new members replace retiring board members Mrs. Dorothy Garrett, Dr. William Riley, Dr. M. W. Talbot, Andy Brown, Ernest Welch and Keith Swim.

**TRUETT THOMAS**

The board heard and approved the outline of accomplishments presented by Jim Thompson, director of the center.

Thompson said the center treated 481 more individual

patients this year than last year. The total number of patients treated is more than 1,200. He noted that the increased patient load was distributed among physical therapy, audiology and speech pathology and vocational rehabilitation.

**NEW EQUIPMENT**  
New equipment at the center include an isokinetic exerciser for physical therapy and a sound proof booth for audiology, Thompson reported.

"Financially, the center continues to do well," he said. "Treatment fees collected amounted to \$32,450 out of a possible \$65,123, or a collection percentage of 50 per cent. Other financial highlights were the establishment of a trust fund and a building fund."

The center's facilities, are available to all persons in the Big Spring area, with fees based on the individuals ability to pay. The center is supported by the fees and funds from the

United Fund and Easter Seal collections.

**STAFF SHORTAGE**  
"There remains a critical shortage of staff physical therapists. A \$2,000 scholarship for prospective physical therapy students has been established in hopes of alleviating this problem. The first scholarship was awarded to Kathleen Norton, Big Spring, who will graduate in August next year and then work at the center," Thompson said.

In other business at the meeting the board approved the construction of a sign to mark the center from the West Third Street side. The board directed Thompson to check with the city on zoning requirements and to determine if the sign would be covered by the center's insurance policy.

The board also appointed a committee to study the possibility of the creation of a retirement plan for center employees.

## GOP To Keep Unemployment Info Secret?

WASHINGTON (AP) — House Speaker John W. McCormack, D-Mass., said Tuesday latest government statistics showing a sharp increase in unemployment probably will be withheld until after the election.

In a statement accusing the Nixon administration of trying to "distract from the evident failures of their economic policies," McCormack said 18 more labor areas will be added to "the substantial unemployment list."

These, he said, include five major labor markets—Los Angeles-Long Beach, San Diego, the San Bernardino-Riverside-Ontario areas in California, New Brunswick-Perth Amboy in New Jersey, and Lawrence-Haverhill in Massachusetts.

Smaller areas to be added to the post-election unemployment area list were identified by McCormack as Brevard County, Fla.; Mitchell, Clinch and Lanier Counties, Georgia; Fulton and Hickman Counties, Kentucky; Webster Parish, Louisiana; Greenfield and Taunton, Mass.; Linn County, Oregon; Orangeburg County, South Carolina; Ogden, Utah, and Ritchie County, West Virginia.

Substantial unemployment is defined as more than 6 percent of the labor force in an area.

When Nixon became President, McCormack said, there were only six major labor markets listed as having substantial unemployment while today there are 38 in addition to 186 smaller areas.

## 'ROUND TOWN

BY LUCILLE PICKLE

There are times in the life of our wild chinaberry trees that I look at them with no love at all and no appreciation for their shade. That time is when they shed those millions of berries that fall into the grass and generally make a mess. There are also times when they are just above my favorite... one of the times is in the hot summer when the thick leaves make a delightfully heavy shade. The other time is now when the leaves are just about the brightest gold one can imagine coming from Nature's paint pots. If our area only had more leaves we could almost compete with East and Central Texas where the fall leaves are breathtaking in their beautiful combination of golds, reds, rusts and browns.

SGT. and MRS. ROBERT GOODLETT have returned from Dallas, where Mrs. Goodlett met him Tuesday when he arrived from a year of duty with the Air Force in Vietnam. Sgt. Goodlett was stationed with the 3rd Tactical Squadron at Bien Huu which is 14 miles from Saigon.

After a month's leave which he will spend here with his parents, the W. S. GOODLETTs, and her parents, the BARNEY HINDSES, the couple will go to Sacramento, Calif., where he will be based at Mather AFB.

MRS. CAROL BAKER got back home Sunday from her two week trip to Bangkok, Thailand, and her luggage got back as far as customs at Anchorage, Alaska, but as of Tuesday she hadn't heard any more concerning it. Mrs. Baker had been with a group of Air Force wives on a trip to Thailand to visit their husbands. Capt. Carl Baker is serving his second tour in the area and he took Mrs. Baker to his base at Korat for a tour. Mrs. Baker arrived at Midland Sunday and was met by her parents, MR. and MRS. R. W. ROSENE. She has returned to her teaching post at St. Mary's Episcopal School.

MRS. J. R. PIPER shares a little correspondence with us from JERRY C. BLEDSOE who was passing through our area on his vacation trip and stopped at our city operated camping grounds at Comanche Trail Park, Bledsoe, a staff writer for the Greensboro, N.C., Daily News, wrote one of his columns from here and mentioned the free camping area as one of the best they came across during the vacation tour. He also mentioned that they en-

## New Books Discussed Couple Marks Anniversary

Trends in current literature were discussed by Mrs. Bill Coleman Tuesday evening for members of the Spoudazio Forum at the home of Mrs. James C. Jones.

Mrs. Coleman named the newest books on the publisher's list and gave a brief review of Dr. David Reuben's latest, "Everything you ever wanted to know about sex."

During the business session the club made plans to assist with activities at the Westside Center and also aid volunteer work at the Big Spring State Hospital.

Mrs. H. O. Hudgens will be hostess for the Nov. 10 meeting.

### Sands Auxiliary To Have Concessions

Plans to assist at the Boy Scout carnival Thursday at Midway School were made by Sand Springs Lions Club Auxiliary Tuesday.

Mrs. LeRoy Headrick was the hostess and Mrs. Hershell Matthies, cohostess. The auxiliary will operate a concession at the carnival.

The next meeting will be a salad luncheon Nov. 24 in the home of Mrs. R. H. Roeber with Mrs. Kenneth Scott as cohostess.

Mr. and Mrs. Charles C. Hamilton of Loraine will celebrate their 50th wedding anniversary Sunday with an open house from 2 until 5 p.m. at their home on South Main in Loraine.

The affair will be hosted by the four sons and daughters-in-law of the couple. They are Mr. and Mrs. Harris Hamilton and Mr. and Mrs. Lynn Hamilton of Loraine; Mr. and Mrs. Leland Hamilton of Andrews; and Mr. and Mrs. Darwin Hamilton, Roswell, N.M.

Friends from the area are invited to join the couple in the celebration during the calling hours.

Mr. and Mrs. Hamilton have 10 grandchildren and one great-granddaughter and most of them will be present to assist in the house party duties.

Mr. Hamilton was born Oct. 13, 1894, in Comanche County and moved with his parents, the late Mr. and Mrs. S. Y. Hamilton to Taylor County in 1902, then to Mitchell County in 1916. He served in Co. A, 53rd Ammunition Train during World War I. Soon after his return from France in February, 1919, he met Miss

## \$500 Made At Carnival

More than \$500 was raised at the carnival Saturday sponsored by Lakeview Parent-Teacher Association at the school. The proceeds will be used for PTA projects benefiting the school and students.

The high point of the carnival was the coronation of a king and queen, with 11 classrooms participating.

Lakeview king is Timmy Ortega, son of Mr. and Mrs. Joe Ortega. Queen is Judy Marquez, daughter of Mr. and Mrs. Bobby Marquez.

First runners-up were Peter Hernandez, son of Mr. and Mrs. Raul Hernandez; and Irene Chavez, daughter of Mr. and Mrs. Elias Chavez. Second runners-up were Pete Florez, son of Mr. and Mrs. Fermin Florez; and Angie Rubio, daughter of Mr. and Mrs. Felix Rubio Jr.

## Communication Of Gospel Is Study

The first in a series of four mission studies on "Communicating The Gospel" was given at the Womens Society of Christian Service meeting Tuesday at the First United Methodist Church. Mrs. R. W. Thompson described the details and goals of the four-part study, and Mrs. Harroll Jones presented the book report, "Image And Impact."

Mrs. H. C. Ernsting presided and Mrs. Bill McIlvain was a guest. A salad luncheon was served by the Morris-Lamun Circle.

### Quilting Done By Slender Benders

Quilting for a Dec. 5 bazaar was done Tuesday by TOPS Slender Benders in the home of Mrs. Tommy McFarland. The weekly weight loss prize was shared by Mrs. McFarland and Mrs. Ernest Richters. Members will meet next Monday to continue working on bazaar items at Midway School.

## Beauceant Dinner Is Planned

Plans were finalized for the Social Order of Beauceant's annual Thanksgiving dinner when members met at the Masonic Temple Monday night.

Date for the Thanksgiving affair has been set for Nov. 23 when Sir Knights will join the Beauceants at 6:30 p.m. at the Masonic Temple. Mrs. C. O. Nalley and Mrs. W. C. Fryar will serve as food chairmen.

Mrs. Ernest Welch and Mrs. Albert Smith are in charge of the Thanksgiving basket for a needy family which is to be delivered on Nov. 25.

Mrs. Wright Vickers presided at the meeting and talks on charity were given by Mrs. R. V. Middleton, Mrs. C. R. McClenny and Mrs. O. L. Nabors. Mrs. Allen Hull reported on cards sent to members who are ill. Pro tem officers were Mrs. Harry Middleton, Mrs. Ralph LaLonde, Mrs. Willard Sullivan and Mrs. T. R. Morris. The next regular meeting will be Nov. 9.

## A LOVELIER YOU

# Winter Sunglasses Protect Beautifully

By MARY SUE MILLER

Sunglasses now make the urban scene at all seasons. Not so long ago winter wear was reserved for resorts. The switch is welcome.

Today's sunglasses cover a multitude of needs besides protection from glare. Quite as important in the city is protection from polluted air, from squinting and its wrinkled results. But hear this: However mild your climate, wintertime glasses, like wintertime clothes, have a special character.

You would not wear summer's pastel frames with your new black coat. Would you now? Here's what the experts have to say on the subject:

Among new sunglasses that suit "in town" backgrounds, count airy, handcrafted aluminum frames and French Tortoise (tortoise to you and me).

The aluminums are lightweight, curly, delicately textured and aglow with golden, silver or copper tones. The tortoise frames range from blond to dark shades in forthright angular shapes.

The lens is always pale — pale blue, gray, violet or bronze — the better for you to see through and be seen. All for the good of your vision and your social communication. For safety's sake, make a point of break-resistance and scratch-resistance.

There's more than fashion in sunshades. Eyes!

**EYES OF YOUTH**

You are not lost to youthful beauty because of dark circles, puffiness, or wrinkles around the eyes. These problems can be brought under control by proper skin care, cosmetic applications, health habits and facial expressions. Methods are detailed in my leaflet, "The Eyes of Youth." To obtain your copy, write Mary Sue Miller in care of the Big Spring Herald, enclosing 15 cents in coin and a long, self-addressed, stamped envelope.

# Pollution Expert Tells Service In Pakistan

"Your World, Your Fight Against Pollution" and a comparison of industrial U.S.A. with agricultural East Pakistan was the topic of John E. Tilton, guest speaker at Rosebud Garden Club Tuesday at the YMCA. Tilton, who is research biologist for Texas Electric Service Company, spent three years as fisheries advisor to East Pakistan Agriculture University. Slides of Pakistan illustrated his talk.

"In East Pakistan there are many epidemics, because there are no sewer disposal plants to prevent water pollution," Tilton said. There is little beef eaten there and 97 per cent of the agriculture comes from plowed fields using the same methods used 2,000 years ago. Human beings become the electric motor; a man works for 60 cents a 12-hour day. A bus ride of 30 miles costs 20 cents."

Tilton described a fishery at the Bay of Bengal which had no electricity, no refrigeration

or ice; therefore the fish dry to preserve them. The drying causes the fish to lose in food value.

"In a pottery village I visited," said Tilton, "the average man weighed only 80 pounds. They eat nine grams of protein a day. Some of the people have symptoms of brain damage caused by low protein diets as children. The life expectancy there is between 27 and 32 years. In the United States it is 70 years. Many girls marry at the age of 12 and have many children by the time they are 22 and appear much older. There is no birth control, for a father's hope is to have many children. Children are his social security, because it is customary for children to send money to their father."

The slide views included a 70-mile stretch of unspoiled beach.

"There were no beer cans on this beach," Tilton said. "But just 10 miles inland many starving people didn't know the beach existed. They had no time, interest or money to see this beach, for their problem was getting enough rice to eat."

In a visit to a Pakistan museum at a shrine Tilton saw the same items for sale in the street, because the articles haven't changed over the centuries. Fishing methods, for example remain primitive, using nets and by hand.

"The male superiority attitude there is something frightening," Tilton noted. In America, our comparatively affluent farmers are willing to take chances with experiments on crops. Pakistan farmers will not risk change because they

know they can make enough to exist and dare not chance failure."

In closing Tilton compared industries to individuals, noting that some people throw out beer cans while others pick them up. Discussing the environmental issue, Tilton asked his audience to listen to both sides. He is for clean-up but against shutting down industry.

"An industrial nation must put up with a little pollution. The point is where do you stop?" Tilton asked. "With more research and effort we can correct the problem."

Hostesses were Mrs. Bill Edwards and Mrs. Dale Smith who served refreshments from a table decorated with masks and pumpkins to depict resources vs. pollution. Plans were discussed for the Rosebud Garden Club Christmas Placement Show Dec. 1 in the home of Mrs. Clyde Thomas. The next meeting will be Nov. 24 with Mrs. Paul Malone as hostess.

Guests and representatives of other garden clubs were Mrs. Don Wilkins, Paul Koshi, G. L. Randell, Mrs. C. Y. Clinkscales, Mrs. R. L. Collins and Mrs. Lawrence Robinson.

## Gives Talk On Ceramics

Mrs. Richard Hooper discussed the various stages of working with ceramics for members of the HCJC Faculty Ma'am's when they met Tuesday afternoon at the home of Mrs. Marshall Box.

Mrs. Hooper who makes her own greenware, showed the members slip used. She displayed her molds and discussed the process of firing in the kiln. She also explained coloring and told of various techniques used in working with ceramics.

Mrs. Jack Dunn assisted Mrs. Box in serving from a tea table that featured a Halloween motif.

Mrs. Wayne Bonner will be hostess for the November meeting.

## Kitchen Shower Fetes Newlyweds

Mr. and Mrs. Coy Joe McCann, recently returned from a wedding trip to New Mexico, were honored with a surprise

Big Spring (Texas) Herald, Wed., Oct. 28, 1970 7-A

kitchen shower Monday evening at their home, 510 Goliad. Gifts were presented in large containers bedecked with ribbons and wedding bells.

Guests included parents of the couple, Mr. and Mrs. L. E. Smith and Mr. and Mrs. Dwight McCann. The shower was given by Becky Goodman, Rodney Fugua, Debbie Bennett and John Arnold.

## Tricia Jackson Is New Club Member

Mrs. Odie Petty was the queen for the week when the TOPS Salad Mixers met Monday evening at Knott Community Center. Miss Tricia Jackson attended as a new member. Mrs. Petty was also winner of the points contest and won 12 towels. Mrs. Bill Hambrick will give a facial demonstration at the next meeting which will be at 6 p.m. Monday.

## District Director Is B&PW Speaker

"The Era of Responsibility" was the theme of the address by Business and Professional Women's District 3 director, Mrs. Eva Bauer of El Paso, Tuesday at Coker's Restaurant.

The dinner meeting was the final session in the National Business Women's Week observances. Mrs. Bauer was accompanied on the visit here by Mrs. Estelle Partee of El Paso who is past state president of B&PW.

Mrs. Bauer urged the members to enrich themselves by working for their community, renew their outlook by taking advantage of educational opportunities and to act upon their knowledge by working.

Mrs. Partee spoke to dispel any misconceptions of the business women's work for equal legal rights as opposed to the women's liberation movement. She pointed out that the club works quietly for their aims in

helping women earn their right in business, etc.

Mrs. Velma Lloyd, postmistress at Luther, gave a humorous reading entitled "Is That You, Ike?" and Miss Elaine Webb, an HCJC student, played piano selections.

Five Lamesa club women were present and local guests were Mrs. Tony Barron and Miss Gladys Burnham.

Miss Movelda Rhine and Mrs. Cleo Reid will represent the club at the all-day session of the Student Drug Lab orientation scheduled for Nov. 4 at the Big Spring High School cafeteria.

## Opti-Mrs. Club To Help Teenage Boy

Projects were discussed and plans for future activities were made when Opti-Mrs. Club members met Tuesday evening in the home of Mrs. Bill Tune.

The club will provide a teenage patient at the Big Spring State Hospital with spending money and also send him birthday and Christmas presents. The group also planned a bake sale within the club and will entertain all Optimists and their wives at a coffee in the evening of Nov. 14 at the home of Mrs. Jess Looney, president. Hours for calling are from 8 until 10 p.m.

# Hanoi Charges Village Hit By Bombers

SAIGON (AP) — U.S. B52 bombers flew more strikes today against North Vietnamese supply routes through southern Laos. The big bombers have flown more than 500 strikes in the region in the past 2½ weeks.

Many of the raids are concentrated in a 70-square-mile area just west of the demilitarized zone. The area is south of the Bang Hien River and north of Khe Sanh, and there have been reports of heavy North Vietnamese movement through it toward the northwestern part of South Vietnam.

**PROPAGANDA**

North Vietnam charged Tuesday that many U.S. warplanes, including B52 bombers, attacked Huong Lap Village in the northern part of the demilitarized zone last Sunday.

"We don't comment on propaganda from Hanoi," said a U.S. spokesman.

The B52s have concentrated their raids along a 200-mile stretch of the Ho Chi Minh trail through the southern Laotian panhandle. The campaign is so concentrated that no B52 raids have been flown in South Vietnam since Oct. 10.

Despite the massive campaign, sources said, there has been a sizable buildup of North Vietnamese troops in the northern quarter of South Vietnam. Informants said one North Vietnamese division is pushing from the west and is poised just southwest of Khe Sanh, and that one regiment crossed the demilitarized zone and is within 12 miles of the provincial capital of Quang Tri.

**MAJOR OFFENSIVE**

Tons of supplies were reported moving along a four-lane highway running southwestward from the DMZ into Laos and then circling around eastward to the north of Khe Sanh.

Meanwhile, Associated Press correspondent John T. Wheeler reported from Phnom Penh that Hanoi has committed almost an entire division to oppose a major Cambodian offensive expected to start this week north of the capital.

Cambodian troops operating near Kompong Thom, a provincial capital 80 miles north of Phnom Penh, were attacked Tuesday. First reports said one Cambodian soldier was killed and another wounded, and that 10 North Vietnamese and Viet Cong soldiers were killed. Field reports indicated that the fighting and losses may have been far more serious.

American bombers were called in to support the Cambodian troops.

A Cambodian spokesman said that Cambodian forces had recaptured the town of Kirivong, near the South Vietnamese border and the 70 miles south of Phnom Penh. The area had been one of the enemy's sanctuaries. Cambodian troops were forced out of the region six months ago.

# Port Tunnel Bids Opened At Cowtown

FORT WORTH (AP) — Bids were opened Tuesday on a 3½-mile utility tunnel at the Dallas-Fort Worth Regional Airport, and officials found the lowest offer was about \$14.5 million.

Engineers had estimated the cost at around \$8.5 million, and as a result the tunnel's construction will be delayed.

Ernest Dean, deputy executive director for engineering at the airport, opened the bids.

Dallas and Fort Worth city councils had agreed the work should draw a "heavy highway" pay scale rather than the higher "building trades" scale requested by labor unions.

Jack Downey, deputy executive director, said, "We will have to take a look at this tunnel project and see what we can rework. What we have is a difference of thinking between our engineers and the contractors."

Contracts on the tunnel, which will house communications lines, electrical wiring and navigational aids connections and plumbing, were expected to be let at the next board meeting.

It was not known when the board would take up the matter. Officials said the overall construction program at the airport would not be set back because of Tuesday's action.

A special meeting of the regional airport board scheduled today to call for the execution of a \$50 million bond sale has been postponed, airport director Tom Sullivan said.

This was done because of "an erratic bond market at the present time," he said.

A spokesman for the airport staff said officials wanted to wait because of high interest rates.

COMMUNIQUE FOUND — Rachel Lash of Montreal looks at copy of the Montreal Star which was found in a little barrel near McGill University and contained a communique from the outlawed Front Liberation Quebec. Police have not announced the details of the latest communique, but indications were that it was the FLQ response to Mayor Jean Drapeau's victory speech Sunday.

# Montreal Police Attempt To Trace Kidnaper Notes

MONTREAL (AP) — Two more notes purporting to come from Quebec's political kidnappers turned up Tuesday night. One said the body of British Trade Commissioner James R. Cross could be found near a bridge, and police said it was a hoax. The other contained "the old FLQ bull we've all heard about" and was probably authentic, a police spokesman said.

The fake note said the body of Cross, kidnapped Oct. 5 by the Quebec Liberation Front, or FLQ, was near the St. Rose bridge in Laval, north of Montreal. Police searched the area and found no trace of the 49-year-old Briton.

The other communique, a

three-page letter, was accompanied by a passport page bearing the photograph of Paul Rose, one of five men for whom warrants have been issued in the investigation of the kidnaping of Cross and the kidnap-murder of Quebec Labor Minister Pierre Laporte. The last page of the letter also carried one of Rose's fingerprints, the police said.

The letter outlined the FLQ's revolutionary aims but made no mention of Cross, the police said.

Usually booming fall business in downtown Montreal's restaurants, art galleries, boutiques, theaters and department store had dropped an average of 40 per cent since the beginning of the terrorist crisis, the Canadian

Press reported in a survey today.

The area hardest hit appeared to be Old Montreal, where police barriers have been set up around City Hall, police headquarters, the Justice Department and other likely targets for the terrorists.

# \$1 Million Plus Spent By Hopefuls

AUSTIN (AP) — Republican George Bush has outspent Democrat Lloyd Bentsen by some \$272,000 in their race for the U. S. Senate, according to reports filed Tuesday with the secretary of state.

Midnight Monday was the deadline for getting the expense and contributions reports in the mail.

Bush said he has spent \$969,008 and has received \$665,708 in campaign contributions, including nearly \$63,000 from the Republican Senate Finance Committee, headed by U.S. Sen. John Tower, R-Tex.

The GOP candidate also said he has borrowed \$35,000.

Lloyd Bentsen, the Democratic Senate candidate, reported donations of \$424,563 and expenditures of \$419,332.

Gov. Preston Smith said he has spent \$652,860 while receiving \$534,651 in contributions.

His Republican opponent, Paul Eggers, said he has paid out \$409,028, with contributions totaling \$312,661. He also reported debts of \$31,573 and loans amounting to \$96,000.

# Weaver Lands \$45,000 Job

MADISON, Wis. (AP) — John C. Weaver, president of the University of Missouri, has been appointed president of the University of Wisconsin.

The announcement Monday said Weaver would assume his \$45,000-a-year post not later than Feb. 1. He succeeds Fred Harvey Harrington, who resigned Oct. 1.

Weaver, 55, is a University of Wisconsin graduate. He has been president of the University of Missouri since 1966.

# Bid To Kill Off Quickie Divorce Trade In Juarez

JUAREZ, Mexico (AP) — Legislators in the state capital at Chihuahua, south of here, have dealt a death blow to a flourishing quickie divorce business in this border city, a leading lawyer reported today.

Their surprise vote repealing Chihuahua's 1933 divorce statute commanded top headlines in Juarez newspapers.

State officials in Chihuahua were not available at once for comment.

"STARS" SPLIT

Javier Alvarez, an interna-

tionally known lawyer who has handled divorce cases for many celebrities from the United States, reported the legislative development.

He and other sources in Juarez, across the Rio Grande from El Paso, Tex., said it will put an end to a divorce trade in this border city estimated at \$50 million a year. The figure includes court and lawyer fees and revenues of hotels, air lines and restaurants.

Juarez court attendants said several hundred divorce cases

already on file will be handled under the old law but no new suits will be placed on the docket.

**45,000 GRANTED**

They reported about 45,000 divorces were granted here last year, mostly to residents of New York and California.

Under the repealed statute, a person seeking a Juarez divorce was required only to register at the municipal palace and file a petition to obtain a decree within 24 hours.

28 OCT 28

Dear Abby

**DEAR ABBY:** Something has been on my mind a whole week. Last Saturday, Karen, my 8-year-old daughter, and I were doing the weekly grocery shopping. I have a large family and we are on a tight budget. While I was trying to figure out how I could work in a watermelon that wasn't on my budget, Karen left my side. Then I saw her helping an elderly lady who seemed to be having trouble standing up. I went to help Karen when I realized the old lady was crippled. She said she felt dizzy and weak, but she thought she could make it home — a block away.

We put her in my car and I drove her to what appeared to be an old convalescent home. We helped her out of the car and rang the bell and someone came to let her in. Then the old lady opened up her purse and took out a dollar and handed it to Karen. Karen looked at me for a signal to refuse it or accept it. I thought about the watermelon and nodded "yes," take it.

Now I am sorry. I should have nodded "no," and told Karen to never accept money for doing a good deed. Am I foolish to let this bother me?

**DEAR SORRY:** No. It's still not too late to tell Karen that you now regret letting her accept the money. Be honest. Tell her you thought about the watermelon. Children respect honesty, but too few parents are big enough to admit to their children that they are less perfect — and also make mistakes. You know where the lady lives. Perhaps Karen would like to return the dollar.

**DEAR ABBY:** Thank you so much for a good laugh. I thought for sure my laughing days were over, for tomorrow morning I go into the hospital to have my left breast removed. I have cancer.

What made me laugh? That letter from the cat lover who feared that if she did not outlive her precious cat, it would die of a broken heart, so she wanted to have the cat "gently put to sleep" and buried with her. You replied, "Let nature decide. The cat may miraculously survive the loss and have a ball." You are so right, Abby.

**DEAR READER:** And God love you, too. Please let me hear from you when your ordeal is over.

**DEAR ABBY:** So you think animals will live happy, healthy lives after their masters are gone, do you? Well, that shows you how much you know. Humans can look after themselves. Animals cannot! I have 22 dogs and at my death every one of these beautiful animals will be put to sleep and buried in the pet cemetery. They have been protected all their lives and I don't intend to leave them to the mercy of anyone else after I'm gone.

ANIMAL LOVER, BALTIMORE

**DEAR ABBY:** About cats: A cat is loyal to the person who feeds him. If a cat is mistreated, he will take off and look for a better home. Not true of dogs. Dogs will take all kinds of abuse and hang around forever.

A cat's best friend is himself. **CAT FANCIER**  
**What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply enclose stamped, addressed envelope.**

**Hate to write letters? Send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069, for Abby's booklet, "How to Write Letters for All Occasions."**

### Judges Need To Set Terms Of Guilty?

HOUSTON (AP)—Judges need to set the sentences of persons found guilty of crimes by a jury, a Senate Interim Committee on Penal Servitude was told.

Harris County Dist. Atty. Carol Vance said, "The judges ought to set the sentence. They should have pre-sentence reports. I don't like our assistants making recommendations as such but there's now no way we could handle the number of cases we do otherwise."

Vance said he was less than enthusiastic about indeterminate sentences recommended by Dr. George Beto, director of the Texas Department of Corrections. Under an indeterminate sentence system the convicted felon would be sentenced to a term encompassing the entire range of punishment allowed by law. He would be released when a board connected with the prison system decided he should be.

"We've got a pretty flexible system now," Vance said. Dr. Beto, in backing indeterminate sentences said, "Some men should never be let loose" while for others one month in prison is enough to convince them they do not want to return to crime.

"I think the jury should be restricted to determine whether he did it or not," Beto said. Sen. Grady Hazlewood of Amarillo, chairman of the committee, severely criticized the prisons because so many inmates who make trusty and then are paroled commit violent crimes. Hazlewood constantly referred to a stack of papers which contained such case histories.

Beto replied that a statutory provision which gives a man an extra 20 days credit for each month he serves in conformance with prison rules a help in maintaining discipline. "We can give good time, we can take it away, we can restore it," Beto said. And Vance later said that "Everybody ought to have some hope some time."

### Managing Editor At Joplin Dies

JOPLIN, Mo. (AP)—Robert L. Chaplin, 45, managing editor of The Joplin Globe since 1968, died Monday night of cancer. Chaplin also owned and published The Neosho Miner-Mechanic and The Newton County News and Granby Record.

## Low-Lead Gasoline Introduced Locally

Humble Oil & Refining Company today begins sales of its new low-lead-content, high-octane gasoline in the Big Spring area.

The new gasoline will be sold as "Big Plus," and replaces the company's previous middle grade of gasoline, according to J. B. Montgomery, manager of Humble's Midland retail marketing district. The new gasoline has a 96-octane rating and contains only one-half cubic centimeter of tetraethyl lead compound per gallon, about 70 per cent less than the previous middle grade.

Humble first introduced the new low-lead gasoline in the metropolitan New York City and Connecticut area on July 15. Since then, distribution has been extended throughout the East and South and to the San Francisco Bay area in California. Additional areas will receive the new gasoline as distribution arrangements are completed, Montgomery said.

time of the new fuel's original introduction, Chas. F. Jones, Humble's vice chairman of the board said that, "Humble chose to market a reasonably-priced gasoline that will reduce emissions from most of the 83 million cars already on the road — not just from 1971 models."

Humble could have introduced a no-lead gasoline, but research and testing indicated that a very small amount of lead is needed in gasoline to prevent possible engine valve damage in today's automobiles.

"We are confident," Montgomery said, "that our high-octane, low-lead gasoline is the right answer for most motorists." Nine out of ten motorists can use Humble's new gasoline without worrying about harmful engine knocks, he said.

## Horoscope

TOMORROW  
 —CARROL RIGTER

**GENERAL TENDENCIES:** This is a good day to investigate and find the answers to many problems that have been puzzling you, but you will need more information. You are determined to put in motion a plan you have been considering for a long time, but it would be wiser to wait until tomorrow before actually doing so.

**ARIES (March 21 to April 19):** Know what your responsibilities are and how to handle them quickly and efficiently. Keep promises made to others, especially your mate. Avoid extravagance.

**TAURUS (April 20 to May 20):** Know just where your efforts with associates are heading and get on the right path. Instead of being so sloshed about them, settle any differences you may have had with another. Be careful of your grammar.

praise your real estate home. Don't jump into it without planning first.

**GEMINI (May 21 to June 21):** Once you know that you are using your efforts in the right direction, you can discharge many chores that have been lagging. Complete whatever co-workers expect of you. Stop putting words in other persons' mouths.

**MOON CHILDREN (June 22 to July 21):** Put worry aside and get to those social events that ease your worries, and give you a better perspective on how to eliminate them. Put that specialized talent to work. Show that you are witty.

**LEO (July 22 to Aug. 21):** Find some way to eliminate that resentment kin have toward you. Analyze what you might have done that was wrong. Don't give any power to any problems of a personal nature you may have. Control your temper.

**VIRGO (Aug. 22 to Sept. 23):** You have many routine duties to handle and an early start sees them behind you very quickly. Take care of correspondence you have been putting aside. Make better plans for the future in the evening.

**LIBRA (Sept. 23 to Oct. 22):** Make an effort to clear up all your bills and plan how to live more intelligently in the future so that you need not worry so much, or so often. Plan how to im-

**SCORPIO (Oct. 23 to Nov. 21):** You had better delve right into all those personal responsibilities and get them behind you. You have some trouble that good friends can help you overcome. Get to bed early tonight.

**SAGITTARIUS (Nov. 22 to Dec. 21):** Some serious concentration on how your affairs and life are heading will show you where you can make improvements. Have a talk with some expert who can give you fine ideas. Having more self-confidence is vital now.

**CAPRICORN (Dec. 22 to Jan. 20):** Making certain you keep promises you have made to others is important now, or you could get into trouble. Don't delay. Accept that invitation to a group meeting that appeals to you and to which you have been hinting at for some time.

**AQUARIUS (Jan. 21 to Feb. 19):** Handling all those outside responsibilities that show you are conscientious is right. Do whatever will improve your credit rating. Relax in the evening and have a good time.

**PISCES (Feb. 20 to March 20):** While you are finishing old projects, take the time to study new ones. It is important you support loyal allies. Do not correspond with your correspondence later. Don't keep others waiting unnecessarily.

**'I WANT TO REPORT A MADMAN'** — Problems ensue in "The Star-Spangled Girl" when Sophie (Belita McCravey) becomes the object of Andy's (Kerry Gunnels) roommate's affection. The sparkling Neil Simon comedy will be presented by the Howard County Junior College Hawk Players at 8 p.m. Thursday and Friday in the HCJC Auditorium.

## Neil Simon Comedy On HCJC Stage

Many comedies have been written about love triangles, but in "The Star-Spangled Girl" Neil Simon takes a fresh look at an over-worked situation and manages to create a hilarious story.

Curtain goes up at 8 p.m. Thursday and Friday in the HCJC auditorium. Tickets are \$1.25 for adults and 75 cents for students, with HCJC students admitted on their activity cards.

The plot revolves around Norman (Randy Hatfield) who adores Sophie (Belita McCravey) who hates both Norman and his roommate Andy (Kerry Gunnels) — but maybe she hates Andy a little less.

Andy hires Sophie to just stay around "and smile" at Norman in order to keep Sophie from complaining to the police after Norman gets her fired from her

job teaching swimming at the YWCA and at the same time get Norman back to his type-writer. Norman is a supposedly genius-writer and Andy spends most of the play trying to get Norman to write.

Conflict arises from the fact that Sophie is a former member of the U. S. Olympic swimming team ("I came in fifth behind a little fat girl from the desert.") And Andy and Norman are the staff of "Fallout Magazine," dedicated to complaining about anything and everything.

The play ends on a more or less moralizing note similar to the famous quotation: "I may not agree with what you say, but I will defend to the death your right to say it."

The play is directed by Dan Shockey, instructor, and produced by the theatre activities class.

## Honors Accorded Pilot Who Hit Church In Plane

McALLEN, Tex. (AP) — About 75 persons attended funeral services Tuesday for Frank Alexander, a former school teacher who last Friday crashed a small rented airplane into a Roman Catholic shrine in the Lower Rio Grande Valley.

Alexander, 52, of San Juan, was buried at McAllen's Rose-law Cemetery with full military honors in a section reserved for veterans. He was a World War II veteran.

**'VERY RELIGIOUS'**  
Members of the McAllen American Legion post fired a salute for Alexander as a group

of relatives and friends stood around the flag draped casket. Alexander's death was ruled suicide by McAllen Justice of the Peace Dario Garcia. He died Friday when the small rented plane crashed into the Shrine of the Virgin of San Juan Catholic Church at nearby San Juan. The shrine was destroyed. A church spokesman said the shrine had been visited by about 15,000 persons each week.

Alexander, described as "very religious" by friends, had been living with his wife and four children in a former church building in San Juan only some seven blocks from the Catholic shrine.

**SHE SAID NOTHING**  
Although he held a degree from Carnegie Tech, he had been most recently working as a taxicab driver at McAllen after resigning his job last year at Pharr - San Juan - Alamo School.

Roy Pennington and Lloyd Price, who described themselves as "laymen of no particular church," read from the Bible and prayed during the brief funeral services at Skinner Funeral Home in Pharr.

Alexander was buried less than a mile from the McAllen Airport where he had rented the plane a short time before the crash.

Several relatives of the widow a former Aeronaves de Mexico Airline stewardess, attended the services from Mexico. One Catholic sister attended the funeral. She said nothing and left immediately after the service.

## Scout Carnival

Cub Scout Pack 136 will have a Halloween Carnival Thursday night at Midway School beginning at 7 p.m. Food will be served by the Sand Springs Lions Club. Booths will include cake walk, apple bobbing, spool house, country store and many more.

## TEXAS BAPTIST LEADER Calls For Stand At Polls Against Liquor By Drink

AUSTIN (AP) — Christians should "come out of hiding" on the liquor-by-the-drink issue, says the president of the Baptist General Convention of Texas.

Dr. Jimmy R. Allen, pastor of San Antonio's First Baptist Church, delivered his address to the convention's annual meeting Tuesday night.

**GREATEST PROBLEM**  
Alcohol, Dr. Allen asserted, is "the greatest drug problem in our nation."

He said it was "unbelievable, but true" that Texans must vote next Tuesday on whether to legalize a process of liquor-by-the-drink and encourage the establishment of 12,000 outlets, for this drug of alcohol instead of

the 2,000 plus which we now have.

"To complicate the picture, many Christians are so weary of fighting this battle and so discouraged about the fact that profiteering interests are willing to keep spending thousands of dollars to manipulate Americans to approve of this drug that they search for some justification for hiding," Allen said.

**WAR AND WANT**  
"They feel they have found it in the discovery of other problems in our society which are destructive of human life. It becomes unsophisticated and old fashioned to still be worrying about liquor in a world of war and want."

But, he said, "destroyed lives are just as heartbreaking if they come apart at the seams through a drug as through other means."

**POPS PROFITEERS**  
"The issue pressed upon us by the profiteers is liquor-by-the-drink. Sophisticated or not, this issue demands our coming out of hiding. It calls for us to protect the young and the weak from destruction through alcohol," Allen told the 3,000 messengers.

He also called for Baptists to work for solutions to urban problems and to oppose efforts to obtain tax dollars for church-supported schools.

"The effort to get tax support for church education has shifted its battlefield from

## Ford Earnings Dip, Sales Up

Washington to Austin... The greatest threat to the free public school system in the history of our country is being made right now," he said.

**Albino Monkey Secret Is Out**  
GREENSBORO, N.C. (AP) — A disbanding zoo believes it has one of the few albino monkeys in the world.

The monkey, a macaque from Asia, was born Oct. 8. Officials of the Greensboro County Park Zoo have kept him a secret until now for fear the public's curiosity could endanger his life.

"Actually, we weren't sure what we had," said Ed Vonderlippe, director of the zoo's science center. "I didn't know whether baby macaques were born white and turned dark later. We still have some questions which only an expert can answer."

Ordinarily, a macaque has black fur and eyes and a red face. The Greensboro baby has white fur, a pink face and blue-gray eyes.

DETROIT (AP) — Ford Motor Co. has announced that its sales for the first nine months of 1970 were almost even with last year, but earnings were down considerably due to higher labor and materials costs.

Third quarter sales were reported Tuesday at a record 3.4 billion, compared to Ford's previous high third quarter of \$3.2 billion in 1969. Net income per share was 68 cents contrasted with 50 cents per share in 1969.

Henry Ford II, board chairman of the Ford Motor Co. said new car sales in the United States for the third quarter were at an 8.9-million-car annual rate and said the rate would be still higher except for the United Auto Workers strike at General Motors.

"Although dollar sales were about the same in the first nine months of 1970 as those in the comparable period of 1969, net income was nine per cent lower this year than last," said Ford.

# Introducing the lowest-lead, highest-octane gasoline for the money.

**New Big Plus.**  
We've taken lead out, kept the octane high. And we've priced it below premium.

**To help clean the air.**  
Cleaning the air is the biggest thing we wanted to accomplish. So we took lead out of Big Plus. Actually, there wasn't that much lead to begin with. One-and-a-half cc's of tetraethyl lead, about an eyedropper-full in a gallon. Now we've removed one cc of that. To make Big Plus 99.98% lead-free on a volume basis.

Then we doubled the amount of engine-cleaning detergent, to reduce exhaust emissions even more.

It all adds up to this: Big Plus can cut automotive air pollution from your car significantly. Right now.

**9 out of 10 drivers can use Big Plus without worrying about engine knock.**

Big Plus is high in octane. It has what engineers call a 'research octane' rating of 96. Octane, of course, is not the only guide to choosing a

gasoline. But it's important. Big Plus will work perfectly in cars that don't have real high-compression engines. Cars that do should use our premium gasoline, Enco Extra.

There are 83,000,000 cars on the road today. What we've done is to make Big Plus an anti-pollution gasoline that 9 out of 10 drivers of today's cars can use without worrying about engine knock. And it'll be good for the 1971 cars, too.

**Why we didn't take out all the lead.**  
We could have, of course. But engine testing shows that some lead is needed to prevent possible valve damage.

So we left a sufficient amount in. And still made a cleaner gasoline. Try it soon. And help your car run clean.

**There may be other questions about gasoline you'd like answered.**

So we've prepared a comprehensive brochure. You can get it free at Enco stations. Or write Humble's Consumer Affairs office, Box 2180, Houston, Texas 77001.

OFFENSIVE ALIGNMENT FOR BIG SPRING STEERS — Although changes are made in the forward wall from time to time, here's one offensive alignment coach Clovis Hale of Big Spring could send against Abilene Cooper in Abilene Friday night. From the left, they are Cal Lowery, Steve Rich, James Miller, Dale Crenshaw, Howard Stewart, Pink Dickens and David Englert. The Longhorns will be after their third league win in five starts at Abilene.

# Oilers Lose Ace Runner

**HOUSTON (AP) —** The Houston Oilers added another name to their long injury list and traded for some backup protection Tuesday.

The latest casualty is running back Woody Campbell, and coach Wally Lemm also is keeping an eye on the progress of Garland Boyette, his big line-backer.

Campbell is expected to miss at least three weeks with a dislocated toe and Boyette carries a doubtful tag due to a severely strained arch.

The Oilers traded with the Denver Broncos for 6-foot-2 Tom Smiley, a 225-pounder from Lamar Tech who has just been released from military service. They gave up a future draft choice for him.

Smiley, from Port Arthur, Tex., was a second round draft pick of the Cincinnati Bengals in 1968, and the big fullback was traded to Denver, where he rushed 56 times for 166 yards last year.

He could be activated for Sunday's game with the Cardinals in St. Louis.

"I certainly hope so," said Lemm. "But that's hard to say until he gets here and starts working out."

If Boyette can't start Sunday, the job will fall to Loyd Wainwright or Olen Underwood, both from the University of Texas.

Campbell was injured catching a pass in the Oilers' 31-3 tie with the San Diego Chargers last Sunday.

"He caught the pass toward the sidelines," Lemm said, "and Pete Barnes (of San Diego) hit Woody from behind and knocked him forward. On artificial turf he might not have gotten hurt."

# Court Ruling Could Ruin Clay's Hopes

**ATLANTA (AP) —** The U.S. Supreme Court and Bob Foster stood today as the two major blocks to a heavyweight title fight between Muhammad Ali and champion Joe Frazier, a fight that easily could be the richest in history and one of the best.

Figures like \$10 million were being bandied about Tuesday, the day after Ali returned to the ring after a 3 1/2-year exile and stopped Jerry Quarry in three rounds by splitting his left eyebrow.

Madison Square Garden in New York wants the Ali-Frazier fight for February and Houston interests also are trying for it.

**JAIL POSSIBILITY** But first there is the appeal of Ali's conviction in 1967 of refusing induction into the Army. Should the Supreme Court refuse to hear the appeal, Ali faces a prison sentence of five years. There is no indication of when this litigation will end.

Then there's the lanky figure of light heavyweight champion Bob Foster who will take his thunderous left hook into the ring in a bid for Frazier's crown in Detroit Nov. 18.

There is also an outside chance that Ali might fight rugged Oscar Bonavena in December for Miami promoter Chris Dundee.

"I could box you and we'd sell out," Ali quipped to a newsman Tuesday as a means of underscoring his gate appeal which in the nation's current social and political climate seems greater than ever.

It is certain that a Frazier-Ali fight would be one of the biggest draws in boxing history.

"There is no limit to what an Ali-Frazier title fight would gross," said Michael Maltz, president of Sports Action, Inc., which co-promoted the Ali-Quarry fight. "It could make \$10 million—certainly more than any fight in history. We would run out of satellites."

Monday night's fight was shown on closed circuit television to 206 locations, with 900,000 seats in the United States and Canada. It also was beamed to South America, Europe, Australia, Asia and the Soviet Union.

No receipts are available but Ali's percentage was expected to be about \$1 million and Quarry's about \$500,000.

Ali, 28, now has a license to fight in New York, a license that was granted after Atlanta cracked the ban against Ali by giving him a license.

**ALI IMPRESSED** Ali was impressed by the warm reception he got from the packed throng of 5,100 in the old Atlanta Municipal Auditorium.

"It's nice feeling when they're for you," said the man who rose to the heavyweight title as Cassius Clay and who

knows the feeling of people on strike would be glad to be back to work." As for his return to the fight, Ali said, "I'll come. I don't have to talk about it. I'll be home and the phone will be ringing, and he'll be back to work."

There's already a line on such a fight. It was quoted as even by odds-maker Jimmy "The Greek" Snyder after he watched Ali's impressive comeback.

As for Quarry, who is only 25, he called the cut, "a set of circumstances. It was luck. I wasn't beat by a better fighter. If I could have gone another round, I could have got back in the fight and won."

The blond Californian said he had no immediate plans about his future.

Midwestern writers who participate in the collegiate football polls are chomping at the bit, eager to install Notre Dame in the No. One spot ahead of Texas and Ohio State.

That is one of the big reasons Ohio State lost ground in the most recent AP ratings. The shifting of sentiment for the Irish will become more pronounced if Texas should falter in any of its remaining starts. The Longhorns don't have to lose any of those starts, merely look bad on occasions.

The Cotton Bowl people stand a better chance to land Notre Dame as the visiting team, if the Irish wind up No. Two behind Texas in the balloting. If Notre Dame is ranked first, the Irish will almost certainly pick the Orange Bowl over Dallas.

Because the casualty rate has swung sharply upward this year, pro football scouts have likely been told to concentrate more and more on finding quarterbacks.

Some of the best ones are getting old. Some of the most reliable are getting hurt. Some of the younger ones are moving ahead too fast simply because vacancies in the lineup occur and no one else is available.

Dallas likely would go first for Stanford's Jim Plunkett or Archie Manning of Ole Miss if it thought it had a chance. One diamond in the rough who could be worth polishing is Lynn Dickey of Kansas State, a multi-talented young man whose fire power diminished this fall because of a wrist injury that really has stripped from the 1970 season.

Dickey, who was being boomed for the Player of the Year baubles this year but who never really had a chance because his name doesn't rhyme with Heisman, threw for only two touchdowns in Kay State's first six games but his physical miseries kept him from unloading the bomb. Because he was hurt, the opposition knew it could bring its deep defenders in and contain the Wildcat's attack.

It's an ill wind or a rare discomfort that does no one good — even if the beneficiary is the corner apothecary. Even now some pro team may be figuring that Dickey will be the steal of the decade in the upcoming draft.

The supply of good quarterbacks never equals the demand in pro ball — or in college and on the high school level, for that matter. Even when they've got a cold hand and have to rely on their own game or their ability to extort someone else to rise above their ability, they're worth their weight in 50-yard line seats.

That brings to mind Big Spring's talented Dave Duncan, the young man with a mission — namely, to plant the ball as deep in enemy territory as humanly possible.

Probably no Class AAAA quarterback in the state has as good a running average as Dave The Rave. Field conditions have not always been ideal when the Steers played this season but Dave has managed to get traction in a hurry in starting for where he's going.

The list of football coaches who may lose their jobs after this season is burgeoning. Their luckless ranks include Phil Bengtson, Green Bay; Tom Fears, New Orleans Saints; Gene Stallings, Texas A&M; Tom Cahill, Army; Bill Peterson, Florida State; Jim Valk, Illinois; Ray Nagel, Iowa; Duffy Daugherty, Michigan State; Rick Forzano, Navy; Jess Claiborne, Virginia Tech; and Bob Hagan, Rice.

Big Spring ex Gary Hinds ran for one touchdown when the University of Houston freshmen knocked off UT-Arlington, 48-6, recently.

In the Kittens' first two games, Gary completed seven of ten passes for 103 yards (he was intercepted once) and gained a net of 27 yards in four carries.

Local basketball buffs are looking forward to the night of Dec. 8, when Arlen White brings his Crane team here to play the BSHS Steers.

White enjoyed signal success both as a player at Forsan High and Howard County JC and as a coach at Sands before moving to Crane.

# Cougs Rough On Defense, Says Hale

Abilene Cooper, next football foe of the Big Spring Steers, has been described by Steer coach Clovis Hale as a team which may not be as potent on offense as some of the past Cougar clubs but a unit which is every bit as good on defense as anything Merrill Green has fielded in recent years.

The two elevens will carry identical 2-2 conference records into battle. Against comparable opponents, however, Cooper has been more impressive.

The Cougars lost to Permian, 16-9, last week. Permian beat Big Spring, 34-8. Cooper slaughtered Midland Lee, 34-7, a short time Big Spring had to struggle to nip the Rebels, 7-3.

In QB Leroy Polnick, Cooper boasts a very tough player who runs the sprintout to perfection. His inspired leadership has lifted the Cougars time and again.

Fullback Larry Stuart, tailback Roy Longacre and halfback Willie Burton are other threats in Cooper's backfield. Stuart, who weighs 170, is a very hard runner. Longacre tips the scales at 180 and boasts good speed and excellent balance. His second effort has gained him many an extra yard.

Up front, the Cougars boast such standouts as end Terry Silbey, guard Scooter Finley and center Russel McKeever, all proven ball players.

Don McQueen, a member of Big Spring's punting team, strained a knee against Lee and likely won't be able to play Friday night.

However, linebacker Tony Dean, who didn't even suit out last week due to a strained back, is counting on playing against Cooper.

Hale had warm words of praise for Rondel Brock, who filled in for Dean.

"We didn't suffer at the position because Brock played inspired ball. He did everything we asked of him," Hale stated.

The Steers have only three games remaining and will have to win two of them to finish with a 500 season. After Cooper comes Odessa High and San Angelo.

# Hahn's Show Is Delight To Fans

An estimated 40 golfing buffs braved cold winds to watch the trick golfing exhibition staged by Paul Hahn Jr. at the Municipal course Tuesday.

Hahn went through his repertory of shots as taught him by his famous father, Paul Sr., who has shown here twice, was as famous for his dialogue as his ability to coax amazing shots out of his golfing hosts.

The son, who toured Africa with his dad earlier this year, isn't far behind his sire in either department.

Hahn was working on a guarantee. A program many pro Charles Brantley sold helped meet the guarantee.

Hahn went on an hour, non-stop, talking and hitting exhibition that brought applause from the audience. He hit drives over 250 yards with clubs that looked like a pawnshop nightmare.

From his knees, from a sitting position, he hit shots out beyond the long hitters. From tees elevated to three feet he drove unbelievable distances.

All during the clinic and trick shot exhibition he kept up a patter that tickled the ribs of the gallery.

# DURING CONTEST McMurry Coach Is 'Good Show'

ABILENE — For those who get their kicks observing a football coach under fire, Tommy Estes is the best show since that private eye in the movies, Peter Sellers.

Estes, the first-year defensive backfield coach of the McMurry College Indians, "handles the phone in the pressbox, relaying messages and observations to his fellow coaches on the field."

And handles the phone, he does. One instance he appears to be cramming the receiver in his left ear, and the next moment he is chomping on it like a hungry dog on a bone. Which all leads to the fact that Estes is one of those nervous coaches.

But he is a winner. His defensive backfield has stolen 15 passes (linebacker K. K. Klaerner has the other) in six

games, making the Indians one of the hottest teams in the Lone Star Conference with a 4-and-2 season record and 3-and-2 LSC mark.

Latest victim, the NIAA's 10th-ranked team Sul Ross State, was robbed of five passes in a 31-21 McMurry victory in Alpine Saturday night. It was the third straight conference win for Buddy Fornes' rampaging Tribe.

"We've come up with big defensive plays the past two games, and they've all been by the secondary," said Fornes. "That Lanny Baker (senior safety from Kermit) has been sensational for three straight games."

The five steals against Sul Ross State broke the old school record of four and brought the season total to 16, just three short of the 1967 record.

# Nicklaus And Casper Seek Links Rallies

LAS VEGAS, Nev. (AP) — A hungry, impatient horde of golf's young lions stood ready to challenge faltering Jack Nicklaus and Billy Casper for the favorite's role today on the eve of the \$100,000 Sahara Invitational golf tournament.

Both Nicklaus, the defending champion and reigning British Open title-holder, and Casper,

the Masters champion, had their troubles last week. Each missed the cut for the final two rounds in the Kaiser International, only the second time this year they had failed to qualify for the final 36 holes.

But the two giants of the game remained the top choices with Las Vegas' legal bookies in the 72-hole chase for the \$20-

000 first prize that begins Thursday over a pair of par-71 desert layouts.

Both the Paradise Valley and Sahara Nevada Country Club courses will be used for the first two rounds, the golfers switching courses each day.

The final two rounds, Saturday and Sunday, will be played on the 7,109-yard Paradise Valley layout.

The failures of Casper and Nicklaus last week dropped them out of the one-two spots on the money winning list—Lee Trevino took over on a second place finish—and had some of the younger players eyeing the first place spot here.

Among the leading contenders are Gibby Gilbert, who won the Houston Champions International this year and took a solid 69 in Tuesday's pro-am, \$100,000-plus winner Larry Hinson and a couple of strong young Californians who have played well in recent weeks, Dick Lotz and Bob Lunn.

Some other top choices include Bert Yancey, who lost in a playoff to Ken Still last week and appears at the top of his game, always-dangerous Frank Beard, Mason Rudolph, tough little Dave Hill, PGA champion Dave Stockton and possibly Still.

"I'm hitting the ball just super," said Hill, who missed a tie for the top by just one stroke last week. "If I can start making some putts, ol' Davey will be tough."

(AP WIREPHOTO)

**HE ASKED FOR IT** — Green Bay's Donny Anderson complained last year about not getting enough playing time. Here he takes a brief breather between two of his many assignments this season. He has played a lot and has responded by leading the Packers in rushing with 90 carries for 380 yards and three touchdowns. He also has caught 11 passes for 177 yards.

## Wildcats Rugged, Records Prove

NEW YORK (AP) — Something's gotta give this weekend in the Big Ten and Ivy League football races.

Ohio State and Michigan are unbeaten and supposedly heading toward a showdown battle in Columbus on Nov. 21. But a glance at the Big Ten standings show that the second-ranked Buckeyes and fifth-ranked Wolverines have company in the Wildcats of Northwestern.

Northwestern hasn't had a winning season since 1963. But the Wildcats have won three straight league games after dropping their three nonconference tilts and are ranked 20th this week in The Associated Press poll.

Northwestern visits Ohio State on Saturday while Michigan plays at Wisconsin.

Barring a tie between Dartmouth and Yale, the Ivy League will have only one leader Saturday after two unbeaten Saturdays in the Yale Bowl before a crowd expected to approach 60,000.

Northwestern at Ohio State—"If you think you're going to get a quote on that, you're not," Woody Hayes told a newsman Tuesday after the Buckeyes, though still unbeaten, dropped from first to second in the AP poll this week. "I've got more important things to do."

That means plotting to get the Bucks back on top, which a lopsided victory might accomplish. Hello Columbus; goodbye Northwestern. Ohio State.

Michigan at Wisconsin—It's a good thing the Badgers beat Indiana last weekend because all they've got coming up is Michigan, followed by Ohio State. Michigan.

Dartmouth at Yale—Both teams have swift-striking attacks and both rank among the national leaders in most defensive categories. Yale won the series opener 113-0 back in 1884 but times have changed. Dartmouth.

Southern Methodist at Texas—Longhorns are on top in the rankings and mean to stay there. Texas.

Nebraska at Colorado—Cornhuskers are roaring toward the Big Eight title. Nebraska.

Wake Forest at Tennessee—Vols burst Deacons' bubble at four straight. Tennessee.

Auburn at Florida—Gators are unbeaten at home ... until now. Auburn.

Pitt at Syracuse—After several lean years, Pitt is riding high. Panthers are ranked 15th and they're tops in the East. Having digested all that ... Syracuse.

Oregon at Washington—Ducks are still alive in the Rose

Bowl race. Oregon. West Virginia at Penn State — In preseason forecasts, this game was expected to decide the Eastern championship. Penn State has had the Indian sign on the Mountaineers since 1955. A new decade shouldn't prove any different. Penn State.

## Jethro Pugh Wins Kudos For Job Against Chiefs

DALLAS, Tex. (AP) — It was in the closing minutes of the game Sunday and Kansas City quarterback Lenny Dawson was attempting somehow to overcome a 27-16 Dallas lead.

Dawson faded to pass. And then a 260-pounder, coming from his blind side, drove Dawson into the ground. Dawson gave his chief tormentor, Cowboys defensive tackle Jethro Pugh, a hard stare.

Pugh said later "that's the greatest feeling in the world for

a defensive tackle—next to scoring a touchdown or a safety, of course."

The 6-foot-7 Pugh dropped Dawson for losses four times and was credited with 11 unassisted tackles. His performance earned him The Associated Press National Football League Defensive player of the Week laurels.

"The Kansas City victory was one of my biggest thrills because it came after that Minnesota thing," Pugh said.

"Not only did Minnesota beat us bad (54-13) but my car wouldn't start when I got back to the airport," Pugh said. "We had to have the KC game."

Pugh credits fellow defensive tackle Bob Lilly with much of his success.

"I dread the day when that man retires," said Pugh, who noted that Lilly was double-teamed 19 times and triple-teamed three times by Kansas City blockers, leaving Pugh in a one-on-one situation against Chief offensive guard Mo Moorman.

Pugh, a graduate of Elizabeth City State, N.C., said he got off to a slow start this year "because I was keying too much ... waiting too much ... looking too much. I wasn't playing enough on instinct and reaction. I talked with (defensive line) coach (Ernie) Stautner and he agreed I should blow and go more."

Stautner said, "It was Jethro's greatest game. His pursuit in particular was something. Pugh will be one of the greatest in the game if he can keep himself aroused. And he was aroused Sunday."

## Walser Honored

PALM BEACH GARDENS, Fla. (AP) — Joe Walser Jr. of Oklahoma City has been named winner of the Professional Golfers Association's Horton Smith Trophy awarded annually to the PGA member who has contributed greatly to the field of golf professional education.

## No Word On Fate Of Kidnap Victim

QUITO, Ecuador (AP) — The Ecuadorian dictatorship held two sons of the ousted leftist vice president and a son of an exiled provincial chief today, but there was no word on the fate of the kidnaped air force commander.

Truckloads of soldiers patrolled Quito and other cities as the army and national police searched for Gen. Cesar Rohn Sandoval, 45, abducted by several persons from his car Tuesday morning.

President Jose Velasco Ibarra declared martial law. The army stopped publication of four large newspapers, and paratroopers occupied broadcasting stations. Airports were closed, and the highways were under military control. There were many arrests. The country was under curfew from 9 p.m. until 5 a.m.

Cabinet ministers and high military officers met at the national palace and in the Defense Ministry when they learned of the abduction, and they suspended ceremonies honoring the 50th anniversary of the air force.

Extraordinary security measures were ordered to protect delegations to the celebration from 10 South American countries and the United States, Britain and Spain.

Those arrested included the sons of former Vice President Jorge Zavala Baquerizo, who was ousted by Velasco Ibarra when the 77-year-old president established a dictatorship last June with the backing of the armed forces. Also picked up was the son of Gov. Asaad Bucaram, who fled to Panama after the presidential coup.

The coup was preceded by a period of violent student unrest, and the dictatorship shut down Congress and the universities and rounded up labor and student leaders, university officials and other leftists.

Last week two homemade bombs exploded near the presidential palace, and the regime cracked down again, reportedly arresting at least 100 persons, most of them students.

Rohn Sandoval is said to be a close confidant of Defense Minister Jorge Acosta Velasco, the president's nephew who is considered the strong man of the dictatorship. Acosta Velasco was in Madrid Tuesday.

**SALUTE FROM THE VEEP** — Vice President Spiro T. Agnew salutes gathering of Navy officers at a dinner of the Navy League in New York Tuesday night at which he was guest of honor. Remarking on his controversial campaign travels, Agnew told the assembled officers that he has "relished this assignment for President Nixon." Others in picture not identified.

## CLOUDBURSTS, TORNADOES Rough Weather Keeps State Under Siege

By The Associated Press

Wild weather kept Texas under siege Tuesday, concentrating cloudbursts and damaging tornadoes this time on the southeast part of the state.

Deluges drenched the area, measuring more than 18 inches at the village of Deweyville—east of Beaumont near the Louisiana line—and setting off flash floods in places.

Snow which fell earlier in the Texas Panhandle stopped late in the day, leaving a one-inch cover to melt in some sections.

By this morning a cold front triggering the storms had moved over the Texas coast and the rainfall dwindled to showers near Brownsville, up the coast past Beaumont and Orange, and down the state's east side from Marshall past Lufkin.

**RAGING STORMS**  
State patrolmen reported at least five tornadoes dipped down from raging thunderstorms near Houston in Harris County, damaging homes and injuring a construction worker.

Streets and underpasses flood-

ed on the south side of Beaumont which received more than eight inches of rain, and in parts of Orange, where the measurement topped five inches, but there were no reports of injury or severe hardship.

The downpours caused many business places in Beaumont to close early in the afternoon and motorists abandoned many stalled cars. Traffic accidents happened too fast for police to deal with most of them very quickly.

**ROADS CLOSED**  
Roads were closed by heavy downpours along the Sabine River, which flooded in low areas as far north as Longview. High water caused two Houston streets to cave.

Moisture amounts elsewhere in East Texas included 7.30 inches at Mabank between Dallas and Tyler, 6.40 at Edom, 6.32 at Overton and 5.25 at Canton.

One of the Harris County twisters injured Winston McWhorter, who suffered a dis-

located shoulder as it overturned a mobile home at a construction site where he and two other men sought shelter.

**HOW BIG?**  
A funnel cloud damaged about 10 houses in the Greenridge North subdivision and five others in the Imperial Valley subdivision, and still another tornado slashed into a motel parking lot to upset a small house and a pickup truck.

Yet another twister was spotted near Corpus Christi in late afternoon but there was no word of damage.

Hail the size of golf balls pounded the airport at San Marcos.

Afternoon temperatures ranged up to the nation's top mark of 95 degrees at Alice, still ahead of the cold front at that time, while the mercury reached only a cool 45 at Amarillo in the Panhandle.

Readings near dawn today dipped to 21 at Marfa, 23 at Dalhart, 25 at Amarillo, 26 at Alpine, 27 at Lubbock, 28 at El Paso and 30 at Wink. At the same hour it was still 59 in Brownsville.

to authorize any county to issue bonds in an amount not to exceed one-fourth of the assessed valuation of real property in the county. Bonds proceeds would be for construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid thereof, upon a vote of a majority of the resident property taxpayers.

The arguments for:

"1. Construction and maintenance of sufficient roads and turnpikes to meet the traffic needs of rapidly growing Texas have been hampered by the constitutional debt limit and the requirement of a two-thirds vote of the qualified electors. The proposed Amendment No. 5 would alleviate this situation."

"2. The amendment's requirement that bonds may be issued only on approval of a majority vote provides adequate assurance that tax burdens cannot be increased without full knowledge and majority consent of the individuals to be affected. At the same time, the amendment modifies present requirements enabling a minority of only one-third of the voters to override wishes of the majority."

The arguments against:

"1. The majority vote requirement of the proposed amendment would make it too easy for a bond election to pass. When bond elections are called with the timing selected to assure turnout of only those in favor of an issue, a majority of the voters could, in fact, be thwarted."

"2. The liberalized debt limit in the proposed amendment is much broader than it appears, and the reduction in the number of voters required for approval of the extended indebtedness could open the door to the issuance of a number of taxpayers' money."

**NEXT: Homestead Exemptions**

### I SHORE DO APPRECIATE IT

SAN DIEGO, Calif. (AP) — Clarence Burris had been down in the mouth at news he was to ship out on a training cruise.

Then Burris dropped into the base theater where Adm. Elmo R. Zumwalt, chief of naval operations, was meeting with officers and about 1,000 sailors. As all listened, Burris told the 49-year-old admiral of his plight.

"Son, if what you're saying is true, you'll have orders written for shore duty this afternoon," Zumwalt said.

As the sailors cheered, one chief petty officer told the admiral: "Finally we've got someone who gives a damn about people."

The shore duty papers came down 24 hours later.
