

**39 COUNTIES IN TEXAS ELIGIBLE FOR FEDERAL RELIEF**

## Smith Goes To Bat For Drouth-Stricken Farmers

SAN ANTONIO (AP) — Gov. Preston Smith called again Wednesday for full federal drouth disaster assistance, but Secretary of Agriculture Clifford Hardin said it already has been granted, "in effect."

Hardin said he will make no recommendation for a presidential disaster declaration for Texas because the Agriculture Department already is taking steps to assist drouth-stricken farmers and ranchers.

One item scheduled for "ac-

tive consideration" is the problem of credit throughout the drouth area, he said.

"We are going to do everything we can to create a maximum of flexibility in credit, particularly for farm operations," Hardin said. He said this would be in addition to \$10 million in emergency credit released by President Nixon Tuesday.

Hardin visited here briefly Wednesday to confer with Gov. Smith and other Texas officials, and to take a 30-minute helicop-

ter tour of the dusty, dry area south of here.

Smith told Hardin the state is thankful for measures already set in motion. "We in Texas are not, however, satisfied that the federal government has done enough," Smith said.

Presidential disaster designation will not be recommended, Hardin said, because it involves broader programs such as unemployment compensation that are more applicable to disasters like earthquakes and tornadoes.

He told a news conference that adequate steps already are being taken by his department. "In effect, we have declared a major agricultural disaster here (in Texas) and in western Oklahoma," he said.

Earlier Wednesday in Amarillo, Hardin said 39 Texas counties will become eligible for drouth relief in the form of feed grain at reduced prices, or subsidized transportation assistance for hay brought in from other states.

The counties stretch from the San Angelo area south to San Antonio and the Lower Rio Grande Valley, he said.

He also said that in various counties designated for disaster relief, the department is waiving fees for the use of acreage previously taken out of production.

Smith told Hardin and others in his Washington delegation that he believes Texas "is deserving of full disaster assist-

ance from our federal government."

He noted the state asked March 31 that President Nixon officially issue a drouth disaster declaration. "We regret very much that this was not done... and we continue to hope that it will be done," Smith said.

of Agriculture as eligible for drouth relief:

Aransas, Atascosa, Bandera, Bee, Bexar, Blanco, Brooks, Burnet, Caldwell, Cameron, DeWitt, Dimmit, Duval, Frio, Gillespie, Goliad, Gonzales, Guadalupe, Hidalgo, Jim Hogg, Jim Wells, Karnes, Kendall, Kerr, Kimble, La Salle, Live Oak, McMullen, Medina, Nueces, San Patricio, Schleicher, Starr, Uvalde, Val Verde, Willacy, Wilson, Zapata, Zavala and Dimmit.

### Counties

SAN ANTONIO (AP) — Here are the Texas counties designated by the U. S. Department

**THE AGGRESSORS** — Two freshman coeds at the University of California Davis campus, Linda Dankman, left, and Candy Cooley, divulged they have completed a three-month study in boy-chasing for an experimental sociology class. The scholarly report, titled "A Sociological Study of the Divergence of Sexual Dimorphism" — in lockerroom lingo means, "Do Men Like Being Husted by Women?" The 18-year-old coeds reported the main answer was, "Not if you're talking about an-ice cream date and only if you don't tread on masculinity."

## Debate 'Hold The Line' Budget In Texas House

### Pollution Fight Calls For Taxes

AUSTIN (AP)—Texas House members voted today to beef up spending for air pollution control as they debated a two-year "hold the line" state budget that would cost Texans nearly \$600 million in new taxes.

They approved without objection an amendment by Rep. Don Cavness of Austin to create a deputy health commissioner for air pollution and provide \$1.4 million in salaries for his employees.

An amendment by Rep. Lane DeHoff of Waco to provide \$500,000 a year in state financial aid to kidney patients was tabled, 112-30.

Also tabled, 99-39, was an amendment by Rep. Dan Kubak of Rockdale to hold state salaries of all judges and district attorneys at their current level, at a saving of \$1.2 million.

Rep. W. S. Healy's House Appropriations Committee spent some three months drawing up the \$6.9 billion measure to finance state government for the next two years.

The House bill would require Texans to dig into their pockets for \$597.9 million in added taxes over the two-year period beginning Sept. 1, 1971.

**HEFTY BILL**

Shortly before the House took up the 1½-inch thick bill, "friends of the earth," a conservation group, declared it was "environmentally unacceptable" because Healy's committee had provided "inadequate" funds to fight air and water pollution.

As soon as the bill came up, Rep. Dave Finney of Fort Worth moved to send it back to Healy's committee to get a second-year welfare appropriation in the measure.

Leaving out the second year welfare item in the hope that

Congress will assume all welfare costs "is the cruelest, cruelest joke on the people who receive these funds because there is no way we could raise these funds (in a special session) for welfare," Finney said.

**\$250 MILLION**

Healy, of Paducah, said including the welfare item "would add \$250 million to the tax bill" and the "size of the tax bill is about as big now as any of us could afford to vote for."

Finney's motion was tabled, 99-39.

Senators last Friday passed an appropriations measure requiring \$694.4 million in additional revenue from Texans' pockets.

**WELFARE**

Five senators and five representatives will work out a compromise later between the two houses—the same way in which the final tax bill will be written.

Both the House and the Senate money bills leave out the second year welfare appropriation in hope that Congress later this year will vote to relieve the states of all or part of their welfare costs.

Congress' refusal to take over the welfare program completely would bring on a special legislative session—and still more taxes—in 1972.

A number of state agencies were critical of the House bill, which limits most state programs to their present levels, except for pay raises for rank and file employees.

Meanwhile, hope faded that the Senate could debate a tax plan this week.

Lt. Gov. Ben Barnes had hoped a tax-writing subcommittee could complete its work in time to send out a bill for debate Friday.

**REMEMBERS THE WAR** — Dave Slaughter, 22-year-old veteran of the Vietnam war, joins an antiwar demonstration outside the Pentagon. Slaughter, from Brookings, S.D., finds the protest like being in the Army all over again.

### Suit To 'Tap' H. L. Hunt For Million

DALLAS (AP)—A \$1.5 million suit has been filed against multimillionaire oilman H. L. Hunt, it was learned Wednesday, by a woman who claims Hunt and his associates wiretapped her home telephone.

The suit was filed by Joyce Rothermel, wife of a security chief once employed by Hunt. She also named as defendants one of Hunt's sons, Hunt Oil Co., three Houston private detectives and a telephone company man she claimed installed the tap.

One of the private investigators, Jon J. Kelley, was arrested in January, 1970, on charges of tapping the telephone of Paul and Joyce Rothermel. Richardson, Tex., police found the radio receiver and tape recorder connected with the telephone and turned the evidence over to the FBI. The case never reached federal court, however.

### SON TO RULE Death Takes 'Papa Doc' In Haiti

PORT AU PRINCE, Haiti (AP) — Dictator Francois "Papa Doc" Duvalier is dead at 64. His 19-year-old son Jeanne Claude was announced today as the new president of Haiti.

An announcement from the presidential palace said: "President Duvalier is dead after a three-month illness. He passed away last night." The death apparently occurred about 8 p.m., but it was not disclosed until 12 hours later.

Haitian radio stations began playing funeral music. Some women were seen weeping at street corners. Others stood aimlessly along roads, listening to the distant strains of a palace guard band, playing somberly.

Jeanne Claude, who will be 20 in May, was designated months ago by his father as the heir to the presidency. He was cheered by a throng when he appeared in the garden in front of the palace. Officials said he already had been sworn into office — apparently during the night.

The official radio announced a new cabinet with only two holdovers.

The elderly Duvalier, a little doctor who built a political machine out of a mixture of Voodoo, pressure and popular appeal, had run the country with an iron hand for nearly 14 years.

### Boot Manson After Howls

LOS ANGELES (AP) — Convicted killer Charles Manson was evicted from another court room after he screamed on being told he can't represent himself in a second murder case.

Manson, 36, was ejected from the courtroom Wednesday after Superior Court Judge Raymond Choate ruled he isn't competent to handle his own defense.

At that Manson howled about five seconds and declared: "I have a voice. I can speak. I really can."

The judge told him to be quiet or he would be removed. "Would you please," Manson replied. "It's hard for me to sit here."

Manson was taken to a nearby holding cell for the remainder of the hearing which involved pre-trial defense motions in the Gary Hinman, "Shorty" Shea murder case. Choate continued the hearing to Monday.

### 1971 Auto Show Shapes

Preparations were all but complete today for the 1971 Automobile Show to be held Saturday from 9 a.m. to 5 p.m. at the Highland Shopping Center parking area.

It is the biggest single collection of new automobiles presented throughout the year, with all local franchised new car dealers participating.

They will have on display scores of models, to interest the mood of any prospective buyer. The public is invited to tour the show area at leisure and to have a good look at the automotive offerings for 1971.

Dealers in the show are Bob Brock-Ford & Lincoln-Mercury; Broughton American Motors and Jeep; Hicks Pontiac and Datsun; Jimmy Hopper Toyota; Jack Lewis Buick and Cadillac; Pollard Chevrolet; Dewey Ray, Chrysler and Plymouth; Shroyer Oldsmobile, and Barney Toland Volkswagen.

## OK, Let's All Play 'Chinese Checkers'

WASHINGTON (AP) — President Nixon has accepted honorary membership in the U.S. Table Tennis Association, the group Vice President Spiro T. Agnew is reported as saying fell into a Chinese propaganda trap.

Without announcement, Nixon accepted the membership Wednesday from Graham B. Steenhoven, president of the association and leader of the U.S. table tennis team that toured mainland China last week.

**AGNEW'S FEAR**

It appears significant that Nixon called Steenhoven to the White House following Agnew's privately expressed concerns about the team's China visit.

Agnew told Republican governors in a private session Monday he was concerned by over-emphasis on the Chinese tour by the 15 American athletes, and about the way the tour received press coverage in the United States.

He was said to have feared an adverse effect on the Nationalist Chinese government based on Taiwan.

Nixon presumably could only be less than happy about Agnew's reported statements never denied. They followed the announcement on a five-point Nixon plan aimed at renewal of at least limited trade and travel between the U.S. and China.

All forthcoming participants in inner-council arguments that preceded Nixon's decision agree that the vice president took a skeptical stance at the time.

While most Cabinet members have kept silent, Secretary of State William P. Rogers made a rare for-direct-quotation statement Tuesday that, in effect, he could hardly be happier about the recent developments.

Moreover, the State Department placed an "excellent" rating on reporting from China by the three American newsmen permitted to travel there with

the U.S. table tennis team.

Agnew, by contrast, has been quoted as questioning the reporting job done by the American newsmen.

Chinese table tennis players have an oral invitation from Steenhoven to make a return visit here. They have accepted in turn.

After meeting with Nixon for about an hour Wednesday, Steenhoven said a more formal written invitation will be extended almost immediately.

He said that if the Chinese want a private session with Nixon, "then I'll ask the President to accommodate them."

The White House wouldn't say publicly whether Nixon would receive the prospective visitors, but knowledgeable sources said he would be delighted to do so.

White House press secretary Ronald L. Ziegler said visas for the Chinese, if they want to come, will be expedited.

### Cops 'Cool' Demonstration By Viet Vets Near Capitol

WASHINGTON (AP) — District of Columbia police broke up a demonstration by Vietnam veterans on the steps of the Supreme Court building today, leading about 150 of the antiwar activists away to jail.

The veterans, in town this week for a series of activities

aimed at speeding an end to the Vietnam war, offered generally no resistance as police escorted them from the steps under the huge pillars of the court to a police bus.

Some of the veterans told newsmen they were protesting specifically in opposition to Wednesday's Supreme Court decision upholding a U.S. District Court ruling forbidding the veterans to sleep, build fires or pitch tents on the Capital Mall where they have been staying all week.

**WAR STYLE**

Many of the veterans at the court clasped their hands on top of their heads and marched off with the police in what they called "prisoner of war style."

The veterans and about a half dozen girl antiwar protesters showed up at the court about 8:45 a.m. and began singing and chanting.

Some of their slogans included obscenities but the group was otherwise orderly.

Wednesday night, the veterans voted 480-400 to continue staying at the Mall site through the week of activities. They voted to sleep at that site in violation of the court order.

The court upheld a lower-court ruling which banned camping on the grassy area between the Capitol and Lincoln Memorial. And former Atty. Gen. Ramsey Clark, a lawyer for Vietnam Veterans Against the War, suggested the demonstrators obey the order.

**WON'T GO**

But a 480-400 vote Wednesday night affirmed sentiment voiced throughout the day by protest leaders: "Hell no, we won't go."

Spokesmen for the Justice Department, District of Columbia police and National

Park Police indicated no action would be taken immediately against the battle-clad veterans.

"We are not going in there at 1 in the morning and pick up some wounded veteran and throw him into the street," said Park Police Lt. William R. Kinsey. "We don't treat people like that."

Lt. L.H. Herring, asked if it might take days for official word of the court order to reach Park Police, smiled and replied, "You're right."

# Soviet Union Could Deploy 70 Big Missiles This Year?

WASHINGTON (AP) — Soviet construction of this system is moving ahead at a rapid rate, a top Pentagon official said today.

Secretary of Defense Melvin R. Laird told the American Newspaper Publishers Association in New York Wednesday that recent intelligence confirms Russia is involved in a new and apparently extensive ICBM construction program. Laird said the new evidence appeared this month.

Laird appeared to be laying groundwork for an earlier-than-expected decision on whether to ask Congress for more money and authority to expand this nation's nuclear forces, at an eventual cost of billions of dollars.

Laird said the U.S. hopes for "convincing progress" at the strategic arms limitation talks (SALT) with the Soviets. But one Pentagon official said "hopes for SALT are not going anywhere but down," because Soviet moves "have narrowed the time in which we can negotiate from a stand-pat position."

**NO DETAILS**

Laird gave no details of the recent evidence he cited. But associates indicated he was talking about new, operational launch silos.

DARLA SAWYER

## Grady Lions Choose Queen

LENORAH — Darla Sawyer has been chosen as the representative of the Grady Lions Club in the Lions District 2A-1 queen contest.

She was selected in judging held at a ladies night affair Monday evening. Darla, a junior in Stanton High School, is the daughter of Mr. and Mrs. Jimmy Sawyer, Lenorah.

Darla is a member of Future Teachers of America, of the Pep Squad, basketball and track teams at Stanton High. She is a square dance enthusiast, is a member of the Martin County Rodeo Association and rides the barrels. During summers she works at the Permian Basin Baptist Encampment. She will compete with two score other queen contestants in the district finals in Midland May 7.

Entertainment for the club party Monday was furnished by the Buster Haggard family, instrumentalists and vocalists.

Judges for the queen contest were Joe Pond and Jim Lemons, Big Spring, and John Wood, John Roesche, and Roy Pickett, Stanton. Presiding over the program was Myrl Mitchell, president.

## Urban Ills Fault Of Bureaucracies?

NEW YORK (AP) — Nine mayors, faced with "myriads of problems" and money shortages, say the country's urban ills are the fault of sluggish state legislatures and antiquated local bureaucracies.

The mayors, members of the Legislative Action Committee of the U.S. Conference of Mayors, toured the city Wednesday to focus attention on urban problems.

They were asked to describe the toughest thing about being a mayor. Here are the responses:

**IT'S FRUSTRATING**  
Kevin White, Democrat of Boston:

"I think the most frustrating thing for new mayors—and many of them are quitting after the term, these days—is not being able to solve the problems of their cities."

"It's not enough to be elected anymore. We've got a better breed of mayor than ever before. But many walk into the job thinking they can shelve the politics of the crises because of the importance of the problems. They can't."

"We've experimented with imaginative civic programs and the patients—the people and groups within the city—haven't responded. What today's mayor needs is courage to stand up to his constituency and money—a lot of it from Washington."

Kenneth A. Gibson, Democrat of Newark, N.J.:

"The toughest aspect of being mayor is not being able to make the changes in the cities as rapidly as you'd like. You can develop programs, but there's always reasons you can't implement them right away."

"The basic problems are money, local and state legislative bodies and an inherited bureaucracy that can't seem to shift gears fast enough."

Henty W. Maier, Democrat of Milwaukee:

"We continuously have crises in resources and authority and

## 'Who Gets VD?'—V 'Swingers' Get And Give

By G. C. THOSTESON, MD.  
(Fifth of seven columns)

Our 2,500,000 cases of venereal disease a year average out, on the basis of total population, to roughly one case per 100 population. (If one in a hundred got, say, pneumonia every year, what an uproar there'd be.)

But this one-in-a-hundred is somewhat misleading. Most of these cases are in the age bracket of 15 to 30 years.

Let's not blink at the facts. That means that among young people of "VD age," about one in 25 contracts VD each year.

However, it is less prevalent in many rural states, much more prevalent in the big, crowded cities, and it is calculated that in some of the densest metropolitan areas, the frequency of VD is as high as one young person out of four.

**SEX PLAY**

I don't think there's much doubt that "sexual freedom" and "liberation" and such catchwords have a lot to do with it.

Perhaps later age for marriage has something to do with it, too—but I can't see how this explains the rise of venereal disease among the kids aged 13, 14 and 15. Do you?

No. "Permissiveness" has gone too far. Maybe just saying "don't" to the younger generation no longer cuts any ice, but isn't it time that the young (or even older) "swingers" begin to learn they can't play around, switching partners with impunity?

In a word, it's the promiscuous ones who get—and give—venereal diseases.

"Sexual liberation," like everything else, it has its price—risk of pregnancy, guilt feelings, upset emotions, and so on.

What I am saying is that, if young folks (and older ones, too) are going to insist on sex when they want it, they should at least heed the consequences. Sex is one thing; indiscriminate sex—switching from partner to partner is another. For with every new partner there is a risk of finding VD in anywhere from one in 50 to one

in four partners.

Part of the picture is the availability of "the pill," the "loops" and "spirals," and other forms of contraception.

Girls no longer fear pregnancy as they used to (but I note that illegitimacy has not disappeared).

Yet none of these new contraceptive methods offers one particle of protection against VD. Can it be that that simple fact just hasn't been emphasized?

**'WASH AWAY'**

Years ago the condom ("rubber" or "safe") was about the only contraceptive available. I can remember snorts of derision among my contemporaries when they read the legend on the package. "For prevention of disease only." The condoms were used to prevent pregnancy! The legend was printed to comply with laws against birth control.

Yet here's the wry turn of facts. The condom DOES prevent disease by avoiding that vital "skin-to-skin" contact which lets VD germs pass from person to person. A check of druggists shows that some folks now are realizing it—and in enough numbers to result in an increase in sales of the simple condom.

In passing, the advice has been given that if the male, after sexual contact, urinates immediately, he can "wash away" some of the germs, but some authorities on the subject tell me that, in plain words, it often doesn't do much good. Don't rely on it! (More on this in my booklet, "Venereal Disease: How to Avoid It; How to Cure It."—Send 35 cents)

The same applies to women using a douche. It is highly unreliable as a means of preventing pregnancy—but as to preventing venereal disease, experts state positively that it doesn't work, any more than washing your face can keep you from getting pneumonia or the flu.

But don't waste time on worthless methods that may give you a false sense of security. (Tomorrow — "Breaking the Vicious Chain")

## Drop In Housing, Auto Prices Counters Boost For Groceries

WASHINGTON (AP) — High-dollar last month, but a drop in grocery prices nicked more than a penny from the purchasing power of every food item, a report said today.

The report, from the White House, said that a drop in housing and new car prices, along with a drop in doctors' fees and hospital charges, the report said, was the smallest first-quarter rise in four years.

SGT. ELBIE BRADLEY

## Army Assigns New Recruiter

The Big Spring Army recruiting staff has been increased from one to two men in accordance with the modern volunteer Army program.

Sgt. Elbie Bradley will assume the duties of the second recruiter. He will help the station commander, Sgt. Larry West, with the stepped-up recruitment program in an effort to build an all-volunteer Army.

Sgt. Bradley moved to Big Spring with his wife, Karen. They have three daughters and one son. Sgt. Bradley was stationed at Ft. Riley, Kan., where he was motor sergeant. He was transferred to the Army recruiters school at Ft. Benjamin Harrison, Ind. He was then assigned to the Big Spring post.

The 17-year Army man has served in Germany and South Vietnam, as well as other posts in the United States.

"I like Big Spring," said Sgt. Bradley. "I was born in Wharton. My wife and I plan to buy a house and retire in Big Spring after my discharge in three years. We have relatives in the area and are real familiar with it."

Prices over the year were up 4.6 per cent, compared with 5.5 per cent in 1970's and 6.1 per cent adjusted basis, prices the first hike, biggest two-year jump in three months of 1971 rise at an two decades.

### BEST NEWS

McCracken said the best news in the report were figures showing that on a seasonally adjusted basis, prices the first hike, biggest two-year jump in three months of 1971 rise at an two decades.

**INTEREST RATES**

The over-all rise in living costs was three-tenths of one per cent, pushing the government's Consumer Price Index up to 119.8, said the report by the Labor Department's Bureau of Labor Statistics. This meant it cost \$11.98 last month for every \$10 worth of typical family purchases in the 1967 period on which the index is based.

Grocery prices rose 1.1 per cent, sharper monthly increase in six months, but housing costs declined two-tenths of one per cent, almost entirely because of a continuing drop in mortgage interest rates.

New car prices dropped eight-tenths of one per cent, but used cars were up 1.2 per cent. Over-all transportation costs rose three-tenths of one per cent because of additional price increases for train, plane and bus travel, the report said.

Clothing costs rose four-tenths of one per cent, including a 1.3 per cent increase for men's wear, the biggest rise in several years. Women's wear declined by two-tenths. Medical costs rose eight-tenths of one per cent because

## Ship Channel Cleanup Work

HOUSTON (AP)—A member of the Texas Water Quality Board says the Houston ship channel is indeed polluted but a lot of cleanup work has been done and more is being done by the state and the City of Houston.

Lester Clark, a Breckenridge oilman commented Wednesday after a tour of the ship channel. The freshman member of the board said that a federal enforcement conference on channel pollution is "unnecessary and uncalled for."

The federal conference, at a place and time yet to be announced, was called last week by the Environmental Protection Agency in an effort to halt pollution of Galveston Bay.

"I just think the State of Texas is capable of handling this," Clark said. "And I think this conference is just another intentional federal encroachment on state and local authority."

## Gene Kelly Takes 'I Quit' Post

BEVERLY HILLS, Calif. (AP) — Dancer-actor Gene Kelly, who says he once smoked three packs of cigarettes a day, has been named national chairman of the American Cancer Society's "I Quit" campaign.

The campaign is aimed at pointing out the health hazards of smoking.

Kelly, who succeeds actor Tony Curtis, said he quit smoking 11 years ago.

Photo by Steve Hutton  
MULTI-MEDIA — C. W. Tanner is setting up the Aetna Drivocator, the latest electronic teaching aid put to use here. The Drivocator is used to teach drivers education at the high school.

Big Spring (Texas) Herald, Thurs., April 22, 1971 3-A

## Classroom On Wheels Big Aid In Driver Education

Step inside the long white trailer parked across from the high school and you will find one of the latest, most modern teaching classrooms in Texas.

The Multi-Media Classroom uses movies, film strips and a tape recorder to teach Big Spring High School students how to drive.

The air-conditioned, carpeted and paneled trailer is a far cry from the classroom of yesterday. Students sit at desks that have push buttons they can use to answer questions. The multi-media drivers education presentation tests, the students during the lesson and provides the teacher with a running total score for each student in the class, as well as what per cent of the class answers each choice.

For example, if the correct answer is D, the meter on the control console may register 80 per cent of the class as answering the question correctly, eight per cent with answer A, four per cent with answer B and eight per cent with answer C.

A class session starts with a filmed introduction, then moves on to a driving problem explained on the film and then to film strip slides showing possible answers to a question asked about the driving problem.

Weathermen predicted showers and thunderstorms today and tonight in central and eastern portions with fair skies in the west.

question. After the question is answered the tape and film strip show the proper answer. The movie progresses on with a new problem.

The instructor can hold the process at any point where he feels more discussion is needed. The tape recorder controls the timing of the lesson, cueing the movie projector and the film strip projector at the proper time.

The driver education program

## Julian Bond In Hospital

ALBANY, N.Y. (AP) — Civil rights activist and Georgia legislator Julian Bond was in satisfactory condition at an Albany hospital today after he was rushed to the emergency room Wednesday night with abdominal pains.

A spokesman at Albany Medical Center Hospital said Bond was undergoing extensive tests and observation.

Bond, 31, was stricken in his motel room. He was to participate in Black Week activities Wednesday night at the State University campus here.

includes 18 lessons, each about one-half hour.

"The multi-media trailer is produced by the Aetna Life and Castally Company," said C. W. Tanner, director of driver education at Big Spring High School.

"The official name is Drivocator. We obtained the unit from the Midland West Texas Education Center and will use it until May 21, when it will be transferred to Andrews."

"The \$43,000 Drivocator was paid for with a federal grant," said Tanner. "The operating cost is covered this year by the grant, but next year the schools that use it will pay their share of the cost."

"We have 471 students enrolled in driver education, but only 280 are in the classroom phase. We could use the Drivocator much longer."

"We had to gain confidence using it at first, but it's a great help. It came completely equipped — even to a vacuum cleaner."

## Drug Exec Dies

LYNCHBURG, Va. (AP) — John Shafrman Zinsler, 76, retired pharmaceutical manufacturer, died Tuesday after a long illness. The former president of Sharp & Dohme was a member of the War Production Board during World War II.

## Engineering Cells To Kill Disease Looms

SAN FRANCISCO (AP) — A prize-winning scientist says researchers are on the threshold of engineering human cells "so none of the things we now call disease need exist."

Dr. Robert A. Good, 49, a professor of pediatrics at the University of Minnesota and 1970 winner of the Albert Lasker prize for medicine, said Wednesday that the conclusion is based on newly evolving methods of cell manipulation.

The research has involved patients whose lymphatic systems had inborn defects for disease resistance, Good said in an interview.

"We can actually grow genetically determined diseases in a test tube," he said. "This means we will be able to study and manipulate them in standardized experiments all over the world."

Research with Dr. B.H. Park at the University of Minnesota has underscored the importance of "stem cells" in the human bone marrow for controlling the lymphoid cells which provide man with resistance to disease, Good said.

A transplant of bone-marrow stems cells at Minneapolis nearly three years ago shows that it is possible to engineer mosaic blood cells to overcome genetic deficiency in the disease fighting mechanisms, Good said.

## Skies Clear In West Texas

Fog, thundershowers and cloudy skies began forming over all but far West Texas today.

all of it welcomed by rain-hungry Texans. Skies were clear in West Texas.

Severe thunderstorm warnings were issued during the night in Wichita and Clay counties while half-inch hail was falling near Wichita Falls. The storms moved on, skirting the Red River north of Denton and then wandered into Oklahoma.

Temperatures before dawn

were generally in the 50s in the west and in the lower 70s in Central and East Texas.

The range, however, spread from a nippy 42 at Dalhart to the middle and high 70s in the Lower Rio Grande Valley.

Weathermen predicted showers and thunderstorms today and tonight in central and eastern portions with fair skies in the west.

STAR SPANGLED GENTLEMAN SPEAKS OUT  
Abilene Banker Lois Dunlap in Uncle Sam Role

## Uncle Sam Boosts American Ideals

Uncle Sam (Lois Dunlap, Abilene banker) had a holiday Wednesday — only it wasn't. He put in a very full day — five appearances before classes at Coahoma elementary school, a talk to the Downtown Lions Club, and two more appearances during the afternoon at Coahoma. And for a warmup, he visited with the Boys Club the night before. This was his San Jacinto Day bank holiday.

His message was slightly different, but the theme the same in all these casual talks.

Dressed in the costume of Uncle Sam and made up to look like the venerable personal symbol of the United States, Dunlap pleaded for an active patriotism.

Write officials from the President to the governor to the mayor, and write to say "thank you" as often as you complain, he urged. Show respect for law and for authority; show respect to individuals regardless of position or color; show respect to men in military service; show appreciation to others who are doing a good job; shun complacency and don't think that one person or one vote doesn't count.

"You can't push Americanism

and patriotism on someone, but can motivate them to show these virtues," he said.

Before the Lions, he outlined his approach to children in classrooms. His colorful garb, he said, was a sort of visual aid or tool to get attention and stimulate remembrance of the lessons.

Regardless of how one feels about the Vietnam War, he added, he can express appreciation to those in service. Recalling how he had once told a sergeant how much he appreciated what he had done and was doing for the county, he was told, "You're the first person who ever said thank you."

Dunlap reminded his listeners that the United States is the only nation in the world with a waiting list of those who want to get in.

"Maybe your freedom doesn't make any difference," he added, "but if you wake up some morning and have lost it, that will make all the difference in the world."

The program was conducted by Eddie Read, who coincidentally was one of two new members inducted into the club by Roy Hughes. The other was Ralph Beckham.

## Social Security Tab 41 Per Cent?

WASHINGTON (AP) — The day of reckoning is here on the cost of Social Security medicare benefit changes approved by the House Ways and Means Committee—and the likely tab may be a 41 per cent increase in payroll taxes.

That would mean a maximum of \$168.80 each for employer and employee.

The committee has approved, subject to a final vote, costly increases in Social Security benefits, including higher pay-

ments for widows, a cost-of-living adjustment in the future, more leeway for pensioners' earnings and extension of medicare to the disabled.

The committee started work Wednesday on payroll-tax changes needed to finance the increases. No firm decision has been reached, but sources said the most likely outcome would be an increase in the payroll tax Jan. 1, 1972, to 5.4 per cent on a base of \$10,600 in wages. This would mean a total of \$572.40 in tax withheld from anyone earning \$10,600 or more in 1972 and an equal amount from his employer.

By contrast, the rate this year is 5.2 per cent on a \$7,806 maximum, or \$405.60.

The committee may still work out a different financing method, or even cut back on some of the benefit increases.

And whatever it decides must face the test of House and Senate consideration.

## Youth Delegates Urge Legalization Of Pot

ESTES PARK, Colo. (AP) — Delegates to the White House Conference on Youth, winding up four days of lively discussion, have called for an end to U.S. military involvement in Vietnam and for the legalization of marijuana.

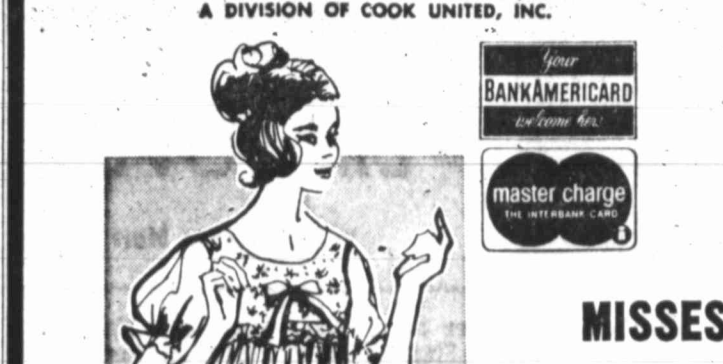

With about half of the conference's original 1,400 youth and adult delegates casting paper ballots, the vote Wednesday night for an immediate halt of U.S. military action in Southeast Asia and a complete withdrawal by year's end was 450 to 155 with 37 undecided.

existing marijuana laws be wiped clean.

Eight other conference task forces worked in such areas as the environment, race, legal rights and justice, and values, ethics and culture. All task force recommendations will be given to the President in about two months.

Aside from the foreign relations minority resolution, all proposals put to a full conference vote were approved by wide margins.

They included a demand for the immediate resignation of FBI Director J. Edgar Hoover, endorsement of the 26th Amendment to extend the vote to 18-year-olds, and national recognition of full legal rights for 18-year-olds.

5 ♥ Pass 6 ♣ Pass  
Pass Pass

Opening lead: Queen of ♠

In his haste to learn his fate in today's hand, declarer did not make use of every available prospect and the outcome was an unnecessary loss on the deal.

The slam was a sound endeavor. Once the trump suit was fixed by North's jump raise to three spades, the partnership began to exchange information by showing controls. South's five-heart bid following the previous four heart call reveals that he holds the king of hearts as well as the ace. Since North has the top card in clubs and a sound holding for his previous bids — he proceeded without further ado to six spades.

West opened the queen of clubs and the ace was played from dummy. Declarer drew trumps in two rounds. He observed that he was confronted with a potential loser in diamonds and one in hearts, but he observed that

if the outstanding diamonds were divided three-three, the long diamond in dummy would provide an ultimate parking place for his heart loser.

He put his conclusions to a quick test by leading the ace, king and another diamond. West showed out on the third round, however, and East exited comfortably with his last diamond. When the queen of hearts did not drop under the ace, king-declarer was obliged to concede defeat.

South did not give himself the best chance, because his reasoning did not go far enough. Success did not hinge solely on an even diamond break. Declarer might be able to execute either an end play or a squeeze if the outstanding high card strength in the red suits is concentrated in one hand. South could have availed himself of all opportunities, had he not surrendered control of the diamond suit.

After trumps are drawn, it is suggested that declarer play ace and another club, ruffing in his hand. Dummy is reentered with a spade and a small-diamond is led away from the ace, king. East must play the jack in order to prevent South from winning a trick with the ten. Any return East makes at this point will give declarer his 12th trick.

The recommended line of play retains the prospect for finding a favorable diamond division, while at the same time expanding declarer's opportunities. If all else fails, South may still win the hand via a squeeze provided that the same defender has the queen of hearts as well as four of diamonds.

**PAT IS TERRIFIC TOO!** — Pat Linso, eye-catching in hot pants and high-laced sandals, takes to Terrific, which happens to be a harness horse at Philadelphia's Liberty Bell track where he will be after his fourth consecutive victory in the Rittenhouse Trot Series on Saturday.

# Stories All Wrong, Says Texan Coody

RANCHO LA COSTA, Calif. (AP) — "Tell 'em I'm not really a tightwad." The 33-year-old Coody, who shared Jack Nicklaus' dream of a sweep of pro golf's Grand Slam, was one of the favorites for the \$33,000 first prize in this tournament that brings together the winners of the last 12 major events from the last 12 months. "I'm getting a lot more attention this week than I've had before," the soft-spoken Coody said. "But I really don't know what the Masters means, or will mean, to me."

# MILWAUKEE WINS Bucks, Bullets In Ragged Bout

MILWAUKEE (AP) — It was the Milwaukee Bucks against the opener of the National Basketball Association championship series, but the spectre of last year's champion New York Knicks hovered over them. "We played very bad," Coach Gene Shue of the Bucks said simply. Coach Larry Costello of the Bucks said only a bit more. "We were not sharp. I think Baltimore can play better and I know we can play better."

# GOLF CALENDAR

Table listing golf tournaments for April, May, June, and July, including dates, locations, and organizers.

# Ernie Banks Gets His Own Diamond Season Started

CHICAGO (AP) — Ernie Banks, the Chicago Cubs' unshakable optimist, officially starts the 1971 baseball season today and it may be a boon to the struggling Bruins. "Subconsciously, we have had to readjust our thinking," explained Greg Smith of the Cubs. "The Bucks, haunted by the thirst for revenge against the Knicks, who eliminated them in the playoffs last season and were the only team to dominate them this season, had only two days to put the Knicks out of mind and set their sights on the Bulls." Banks, 40-year-old first baseman, was placed on the disabled list April 1 because of arthritic knees and he missed being in the opening day lineup for the first time since his first full Cub season in 1954. "I feel fine, just fine," said the ever-smiling Banks, "and I hope that in some way I can continue to help the Cubs."

ERNIE BANKS

# BASEBALL STANDINGS

Table showing American League and National League standings for the East and West divisions, including team names, wins, losses, and games behind.

# Invitational Dates Moved

The 40th annual Big Spring Invitational Golf tournament will be wrapped around Labor Day again this year, officials of the Country Club have announced. The tournament is scheduled Sept. 4-5-6. Last year, the tournament was staged the first week in August and lured only 100 players, somewhat below the average who have competed in recent years.

# Cooper Wins Over Angelo

SAN ANGELO — Abilene Cooper poured more salt in the baseball wounds of San Angelo Central by edging the Bobcats, 3-2, here Wednesday behind the three-hit pitching of Steve Estes. Cooper banked all its runs in the third, making the most of four hits. The win was the first in two second half starts for Cooper while San Angelo slumped to 0-2. Over-all, Cooper is 4-16. San Angelo has now lost eight games in a row and stands 5-17 on the year.

# Newman Named Baseball Coach

John Newman has been named to coach the Big Spring Senior Teenage baseball team, which will compete in a league embracing several West Texas communities on a twice-a-week basis. Teenage Association prexy Jimmy Felts has announced.

# Huffman Speaker At Tech Party

LAMESA (SC) — Burl Huffman will be the principal speaker for the April 24 Texas Tech activities scheduled here. The program will be staged under the auspices of the Dawson County chapter of the Texas Tech Ex-Students Associations in the Pioneer Park Community building. The event begins at 7:30 p.m. Admission price will be \$4, which covers dues for the coming year and the banquet meal. The dinner will be catered by the Lazy S Steak House.

# Jim Northrup Thorn In Side Of Orioles

Who's on first? Jim Northrup. As a matter of fact, he's done a thing for his ego on second, third and home plate, too. "Northrup is hot," says Baltimore Manager Earl Weaver, "and when you're hot, you're hot." Baltimore's been burned two nights in a row by the Detroit outfielder, so Weaver speaks from painful, first-hand experience. Northrup, who delivered four runs in Tuesday night's Detroit victory, belted in three more Wednesday night as the Tigers bumped the Birds 5-1. The powerhouse performance has lifted Northrup in front in the American League's RBI race. But they haven't done a thing for his ego.

# LOOKING 'EM OVER

With Tommy Hart

The best therapy, or maybe the worst, for a high school baseball coach like Big Spring's Oakey Hagood is to be trapped in a hospital while one's team is playing. Last week, after Hagood had been knocked cold while trying to score in a softball game and taken to the hospital for observation and treatment, he watched several innings of the Big Spring-San Angelo game from his hospital window — a distance of about two blocks. The silhouettes Oakey made out were very remote but he could see Big Spring was "up to something" — all those boys in white were touring the bases.

Don't waste too much sympathy on the plight of the big league umpires, a few of whom might complain they never see a friendly face. Some earn more than \$25,000 annually and will benefit from a generous pension plan. In addition, they get \$40 a day walking-around money. Al Salerno, the American League arbiter who with Bill Valentine was bounced by league prexy Joe Cronin, tried to milk \$50,000 from baseball by threatening to carry his damages suit all the way to the Supreme Court. (That panel of jurists refused to hear the case.)

The New England Patriots (nee Boston), whose record at home in 11 seasons of AFL and NFL play was 39,350, have already sold 39,513 season tickets for the 1971 season. The Patriots open in a new 69,000-seat stadium in Foxboro, which isn't very far out of Boston. The advance sale isn't likely to hurt the bargaining power of Jim Plunkett, the Stanford quarterback who was picked by the NFL club in the first round.

Each of Odessa's three high schools will be permitted to add a man to its coaching staff before next season. Both Odessa High and Odessa Permian of District 5-AAAA have been making do with a head coach and seven assistants. Incidentally, Ector, which couldn't field 22 able-bodied men when Harold King was in his final year as a coach, now have 121 out for football. So says Prentis Williams, the Eagles' head coach.

Know the youngest horse ever to win the Kentucky Derby? They're all three-year olds, you say? Technically, that's true, because all race horses grow a year older each Jan. 1. However, Northern Dancer, the 1964 champion, was foaled May 27, 1961, and was not yet three years of age when he won the 90th Derby. Two other horses were still not three when they copped the Run for the Roses.

The Daily Herald is according to a multitude of demands in re-running the accompanying picture. It features the only catcher to hit .186 for Jamestown, N.Y., in the Pony League in 1957 (name supplied on request). We've reduced the size of this photo somewhat so that it can safely be shown to small children, if they have been warned in advance.

The two worthies reportedly have been made honorary citizens of the great commonwealth of Oklahoma. It is my understanding that that honor was decreed when the governor was out of the state.

# Abilene Eagles Deflate Steers For Second Win

ABILENE — Inability to hit with runners aboard cost the Big Spring Steers in their 7-1 loss to Abilene High here Wednesday. The Longhorns, now 0-2 in second half play, return to competition at home at 2 p.m. Saturday against Odessa Permian. Big Spring left eight runners stranded in the game. David Carter, on the mound for Big Spring, did reasonably well after a rough start. He yielded two runs in the first and two more in the third. The Steers escaped a shutout when Gray scored in the fifth, after reaching base on the fielder's choice. Ray moved to second on a single by Gatlin Jones, advanced to third on a passed ball and legged it home on a wild pitch. Stan Lambert was in command all the way for Abilene. He surrendered only five hits, fanned 11 and walked only two in achieving his fourth victory of the year. The triumph enabled Abilene to tie for first place in second half standings with a 2-0 record. Jim Reese paced Abilene's nine-hit offensive with three hits. Randall Tatum clubbed a sixth inning triple for the Eagles that sparked a three-run outburst. Roddy Caffey, David Englert, Pete Shaffer and Tommy Fletcher had the other hits for Big Spring.

# Junior Buffs Place Fourth

ROBERT LEE — Eden won the District 8-B junior high track and field meet here Wednesday, scoring 36 points to 31 for runner-up Wall and 30 for third place Bronte. Forsan was fourth with 26. Jack Adams' Forsan team might have done better had it been able to compete in the relay events. Adams carried only eight boys with him and three of those scored. Landon Soles, winner of the 440 in 57.5, led the Bison team with 12 points. Joe Moreno counted ten and Wes Thixton the other four. Dierschke, Wall, was the top point getter of the meet with 15 points while Soles ranked second. For Forsan, Thixton was third in pull-ups with 20 and third in the 880 in the time of 2:25.0. Soles, in addition to winning the 440, was second in the broad jump with a leap of 17-9/16, third in the shot put with a toss of 43-0; third in the 100 with a time of 11.0; and sixth in the low hurdles in the time of 14.5. Moreno tied for first in the pole vault with a leap of 8-6, was fourth in the broad jump, fifth in the 100 in the time of 11.2 second in the low hurdles in 13.5 and second in the 50 in the time of 6.0. Phil King, Forsan placed sixth in the discus with a toss of 119. Team standings: TEAM TOTALS 1. Eden, 36; 2. Wall, 31; 3. Bronte, 30; 4. Sterling City, 27; 5. Miles, 18 1/2; 6. Merton, 8; 7. Garden City, 2; 8. Water Valley, 1; 9. Point Rock, 1/2; and Melvin, 1/2. Christoval and Verbit failed to score.

# Nickel Beer Back In Domed Stadium

HOUSTON — Nickel beer and Orange Crush come to the Astrodome this Friday, April 23. And then buttons, helmets, portraits, baseballs and a lot of other special features are lined up as the Orange Crush, sometimes known as the Houston Astros baseball club, comes home for a nine-game homestand against the Montreal Expos, the Philadelphia Phillies and the New York Mets. The Astros and the Expos will open the series at 7:30 p.m. Friday, and it'll be Old Fashioned Night in the Astrodome. Beer will be served in regular-sized cups all night long for just five cents a cup. A Dixieland band will play, too. Also, the first 5,000 ladies attending will receive free black Astros garter and the first 5,000 youngsters will receive a large pin-on Expos button. Collectors will want to add this Expos button to the entire group of team buttons which will be given away at Astros games this year.

# Larned Is Named Monahans Coach

MONAHANS — Jerry Larned, defensive secondary coach at Sul Ross University, has been named head coach and athletic director at Monahans High School. Larned, 33, succeeds Maurice Hodges, who quit recently to take a similar position at Snyder. Larned's two-year contract calls for a starting salary of \$13,500. In September, however, that scale will be upped to \$14,000. He graduated from Haskell High School and North Texas State University. Larned formerly coached at Bowie, Hamlin, Duncanville and Iraan.

# Jenkins Boys Set To Play For Rams

LAMESA (SC) — The Jenkins twins, Lloyd and Floyd, who played basketball for Lamesa High School two seasons ago, have signed letters-of-intent at Angelo State University. Each boy stands 6-2 1/2. They were mainstays on the 1969-70 team here, which advanced to the state playoffs. Floyd was named to the all-state team.

# Tours Garden Of Roy Peet

Roy Peet, 710 Edwards Blvd., conducted a tour of his home and oriental garden Tuesday evening for members of the After Five Garden Club.

The group first viewed the lighted garden from a picture window in the home then walked through the grounds which features a shadow fence, statuary, rock gardens, a gold fish pond with bridge, numerous plants and shrubbery trimmed to exotic shapes.

## Shari Arrington To Be Married

Mr. and Mrs. Jim W. Arrington, 2806 Navajo, announce the engagement and approaching marriage of their daughter, Shari Gail, to Harrell Ray Newton, son of Mr. and Mrs. E. M. Newton, Rt. 2, Box 56. The couple will be married May 15 in the Prairie View Baptist Church with the Rev. Leslie Kelley officiating.

## Knott, Ackerly Families Have Guests, Travel

KNOTT (SC) — The Lannie Smiths, the M. A. Crockrells and Mrs. Alice Thomas, the latter of Lamesa, have returned from a trip to Lake Mathis.

Mrs. Lynn Chamberlin of Highland is visiting her parents, the Joe Kings, who will soon move to Big Spring.

The Bill Wallace family spent Easter in Lamesa with Mrs. Wallace's father, W. E. Womack. Mary Ann Wallace was guest soloist that night at Northside Baptist Church, Lamesa.

The Don Shortes family were guests of the R. C. Huilts in Lamesa.

The Louis Harrells spent Tuesday with her brother and sister-in-law, the Lee Logues, in Eunice, N.M.

Afterward, the group reconvened in the home of Mrs. Hervey Perry, 2408 Robb Drive, with the hostess presiding for the election of new officers.

The chosen slate includes Mrs. Paul Sheedy, president; Miss Bessie Love, vice president; Mrs. Charles Porch, corresponding secretary; Mrs. Don Yates, treasurer; and Mrs. John Burgess, recording secretary.

Mrs. Jimmy Morehead urged club members to support and take action in the Chamber of Commerce "PRIDE" project, as well as a new undertaking which will involve gathering information on historical homes and pioneer families to preserve the heritage of Howard County.

Trading stamps were collected to help secure equipment for the county library. The next meeting will be a salad supper May 17 in the home of Mrs. Dee Thomas, 1907 Mittel. Guest speaker will be W. E. Gibson who will discuss conservation and pollution.

MR. AND MRS. J. C. THAMES

## Sunday Reception To Mark Anniversary

Mr. and Mrs. J. C. Thames, 601 W. 16th, will be honored for their 25th wedding anniversary at a reception from 2 p.m. to 4:30 p.m. Sunday in the home of Mr. and Mrs. Jess Witche, 424 Ryon. Friends and relatives of the honorees are invited to attend.

Hostesses will be Mrs. Jim Woolverton, Mrs. M. A. Dungan, Mrs. Clyde Denton, Mrs. G. F. Painter, Mrs. Maurice Chapman, Mrs. H. A. Gilmore, Mrs. O. A. Davis, Mrs. Alfred Stanley, Mrs. Henry West, Mrs. Delbert Harland and Mrs. Witche.

Mrs. Thames, the former Elizabeth Harden, is a niece of the late Mr. and Mrs. William A. Hall of Pampa, with whom she made her home before marriage. She and Thames were married April 28, 1946, at the First Baptist Church of Pampa. Thames was then on leave from the Navy, having served in the South Pacific.

The Thames' first home was in Moran, where he was employed by St. Mary's Oil and Gas Co., and she operated a

## Auxiliary Planning Work On Float

The Volunteer Auxiliary of the Dora Roberts Rehabilitation Center had a called meeting Tuesday morning at the center to schedule work on the Easter Seal float for parade in June.

Work team captains and their assigned days are Mrs. Bill Cashion, Tuesday; Mrs. G. T. Guthrie, Thursday; Mrs. Donald Richardson, Friday; and Mrs. Charles Amos, over-all workers will meet at the former Posey Tractor Building on Lamesa Highway on their assigned days. Mrs. Merrill L. Creighton presided and recognized five guests for the help with the Easter egg hunt at the center. They were Mrs. Amos, Mrs. Scott Gordon, Mrs. Lyle Rotzel, Mrs. D. Terry Lizotte and Mrs. Paul F. Rietschel.

## Knott 4-H Clubbers To Canvass Area

KNOTT (SC) — Members of the Knott 4-H Club will be canvassing Knott and Ackerly Saturday for the Cancer Crusade. Anyone wishing to help is asked to contact club members or Mrs. Lloyd Robinson, adult leader.

## Birthday Party Held On Monday

Mrs. Emma J. Stovall was honored with a combination birthday and farewell party Monday in the home of Mrs. Dan Conley, 308 W. 15th. Co-hostess was Mrs. Lucy Petty.

Mrs. Stovall, 83, is a long-time resident of Big Spring and has operated the Stovall Drapery Shop at 606 Elgin for many years. Mrs. Stovall is leaving Big Spring soon, to make her home in San Angelo, following several months visiting her children in Arkansas and California.

Guests at the party included members of Mrs. Stovall's Sunday school class at Baptist Temple and other friends. She was presented a money corsage, as well as personal gifts and a shower of birthday cards.

Mrs. Petty, pianist, accompanied the group in a selection of Mrs. Stovall's favorite songs. Mrs. M. S. Warren led the singing. Other guests honored at the party for being between the ages of 83 and 92 were Mrs. Lydia Sorrells, Mrs. J. J. Daily, Mrs. Ila Cane, Mrs. Warren and Mrs. Petty.

The refreshment table was covered with a white lace cloth and centered with a fruit arrangement.

## Mrs. Ray Crooks Named Winner

Mrs. Ray Crooks won a money tree, awarded in a fund-raising project by the PBX Club of Big Spring, Tuesday in the home of Mrs. Joe Blasingame, 618 Caylor. Miss Melissa Blasingame was a guest.

Members agreed to cancel July and August meetings. Also, plans were made for a family picnic in June to observe National PBX Week.

The club will meet at 7:30 p.m., May 18 in the home of Mrs. Jack Barber, 2508 Seminole, for a salad supper, election and installation of officers. Mrs. Blasingame will be the installing officer.

## Mrs. Rick McKinney Gives BSP Program

Mrs. Clay LaRochelle presided over the Ritual of the Ring for Mrs. Byron Hedges, Mrs. Rick McKinney, Mrs. Allen Carlile and Miss Diana Allen during a meeting in her home Monday evening of Phi Zeta Omega, Beta Sigma Phi.

An installation ceremony, also conducted by Mrs. LaRochelle, was held for the new officers, Mrs. Wayne Stroup, president; Miss Lana Lloyd, vice president; Mrs. Morgan Martin, recording secretary; Mrs. Hedges, treasurer; and Mrs. McKinney, corresponding secretary.

Final plans were made for the

# Parishioners Attend Deanery Conference

The Rev. Isidor Garcia of Our Lady of Guadalupe Church, Midland, was the principal speaker Tuesday when the Big Spring Deanery, Diocesan Council of Catholic Women, met at Sacred Heart Youth Center.

The welcome was extended by the Rev. James Delaney, deanery moderator, and the response was by Mrs. Jack Powell. The opening prayer was worded by the Rev. John Kenelly of St. Anne's Church, Colorado City.

Other speakers were Sister Mary Eva, diocesan president, and Mrs. Maurice Smith, a registered nurse. Mrs. Smith, who is employed on the alcohol unit at Big Spring State Hospital spoke on "Alcoholism as a Disease."

A highlight of the program was a talk by Bishop Steven A. Leven of San Angelo.

Mrs. W. R. Ward, organization services commission chair-

man, introduced the committee chairman, vice chairman and parish president for their reports. Mrs. Lanny Wadeigh, public relations chairman, brought into focus a new project, the deanery newsletter, "Spoke Signal."

### COMMENDED

In closing remarks, the Rev. Robert Kelly of Menard, diocesan moderator, commended the group on its efforts in church, community, family, international and organizational work. The closing prayer was by the Rev. J. Lopez of Snyder. Mrs. George T. Foster is president of the Big Spring Deanery, and assisting with registration were Mrs. Fred Hyer, Mrs. James Fininger, Mrs. A. N. Rutherford, Mrs. Keith Thompson and Mrs. Luis Puga.

During registration, coffee and doughnuts were served by St. Thomas Altar Society. After mass, a luncheon was served by the Sacred Heart Guadalupeans with background music by Mrs. Leslie Green. Hostesses were Mrs. Jack Engel and Mrs. Bob Anderson.

The Immaculate Heart of Mary Altar Society members arranged the tables with red roses, and places were marked with a printed prayer for peace accented with gold praying hands. Place favors were provided by the Immaculate Heart of Mary Mothers Club.

## Compares Bible Times To Present

Mrs. A. W. Page discussed the "Parable of the Sower" for the Women's Missionary Union, Baptist Temple, Tuesday in the home of Mrs. Jim Bennett, 3310 Cornell.

Paralleling the sowers, seeds and soil to modern day life, Mrs. Page said the sowers are the Christian people, the seed is the teaching of the Bible and the soil is the recipients of the teachings.

Mrs. Page said, "There are four types of lives; the trampled life of indifference, the thin life of pretention, the strangled life of lukewarm Christians and the abundant life of devout Christians."

The group will meet at 9:30 a.m. Tuesday for a work day at the church.

## Mrs. Roscoe Cowper Reviews 'Mandala'

Mrs. R. B. G. Cowper reviewed the Pearl S. Buck novel, "Mandala" Monday evening at the Howard County Library. The book tells about the life and customs of people

in India, and particularly about the life and love of an American girl in the country.

Attired in an Indian sari, Mrs. Cowper provided a vivid description of a prosperous Indian family that turned one of its palaces into a tourist hotel in order to support the people of its province.

The review was sponsored by the Friends of the Library, who will meet at 1:30 p.m. Tuesday at the library. The public is invited to the meeting.

## 4-H Candy Sale To Build Center

The sale of candy to help finance a state 4-H center at Lake Brownwood was discussed at last week's meeting of the Lucky Acre 4-H Club in the county agent's office at the courthouse.

It was announced that if each member sells 15 candy bars at a cost of \$1 each, the center may be built this year. A county-wide meeting on the candy sale will be held Thursday in the district courtroom.

Method demonstrations were also discussed. Any member wishing to do a demonstration should contact the agent's office as soon as possible. Help will be available in selecting a demonstration.

Games were played, and refreshments were served.

## Mrs. G. McCrary Wins Free Hairdo

Mrs. Grady McCrary won a hair-do Tuesday at the TOPS Pound Rebels meeting in the YMCA. Mrs. Elton Carlile presided and won the attendance prize. The pledge was led by Mrs. W. J. McNew. Members will have a talent show at 7 p.m. Tuesday at the YMCA.

**BIG SPRING VISITORS** — Dr. D'Andre Allard, center foreground, of Brussels, Belgium, has been visiting his daughter and her family this week before he attends a medical convention in Houston. Posing on either side of him are his grandchildren, Corinne, 8, and Francois, 10. Behind him are his daughter, Colette, and her husband, Jacques Hubin. The Hubins are residing at 1109 Douglas while Hubin trains at at Cosden Oil & Chemical Co. to be a chemical plant manager.

## Aviation Medicine Is Life's Work Of Visitor

By LINDA CROSS

Aviation and medicine may not be linked in everyone's mind, but Dr. D'Andre Allard, Brussels, Belgium, has spent his lifetime combining the two into a career.

Dr. Allard, medical director of Belgian Airlines and secretary-general of the International Academie of Aviation Medicine, is in Big Spring visiting his daughter, Colette Hubin. She is the wife of Jacques Hubin who is training at Cosden Oil & Chemical Co. in order to become plant manager of a new chemical plant near Brussels.

Dr. Allard ends his visit here today to attend an annual session of the Aerospace Medical Association in Houston. He said that he has been coming to this country for the past 26 years to attend these sessions which have been held in many major U.S. cities.

His life has centered around aviation since his earliest days, and Dr. Allard is a former pilot. "My father had the first pilot's license in Belgium. His license bore the number '1. He got his license in 1908 or 1909, and he was a friend of the Wright brothers. During World War I, he was in charge of the production of airplanes," said Dr. Allard.

"I lost my pilot's license for medical reasons. While I was in the Congo, I contracted typhus, and it affected my heart. This is the sort of thing we try to prevent with our pilots," he added.

**AIRLINE DOCTORS**

There are 17 doctors who work for the airline under Dr. Allard's direction. Some are full-time staff doctors and others are specialists who strive as consultants.

Part of the duties of the medical staff is to see that the 12,000 airline employees are vaccinated to prevent small pox, yellow fever and other diseases, and to perform medical examinations for the licensing of pilots, according to Dr. Allard. He added that another part is to research problems that are peculiar to airlines.

"Now we are working on noise and its affect on employees' hearing — like the mechanics who must work with the loud engines. Also, we must worry about tropical diseases. Although it is no longer the Belgian Congo, we still do a lot of flying in that part of Africa, and we must protect the health of our employees," he said.

**FROZEN FOOD**

The hygiene levels vary in all countries, said Dr. Allard, and one way that all airlines combat this problem is to serve frozen food that can be prepared on the plane.

Dr. Allard has also served as chairman of a committee of the International Air Transport Association, which regulates international freight and fare rates. His duty was to help establish international medical regulations for airlines.

Dr. Allard, who is a reserve military officer, has visited many of the best military hospitals in this country, including Brooks Aerospace Hospital in San Antonio, Walter Reed Army Hospital, and Bethesda and Pensacola Naval Hospitals.

**MEDICAL MECCA**

"The Mayo Clinic is the Mecca of medicine," said Dr. Allard. He added that he found it surprising that more Americans were not more familiar with the work of such institutions.

While in Houston, Dr. Allard hopes to visit with Dr. Chuck Berry, director of medical operations at the National Aeronautics and Space Administration.

"We (members of the Aerospace Medical Association) have been briefed on the results of the Apollo flights, and we have been shown some of the moon rocks," he added.

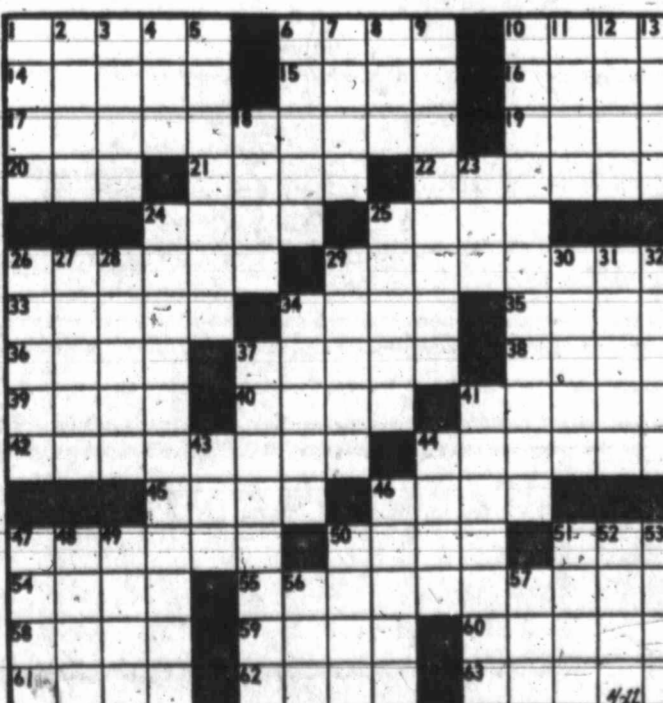

"One thing about his visit to Big Spring has amused and surprised Dr. Allard.

"My granddaughter, Corinne, speaks French now with a Big Spring accent. She speaks French with a drawl."

Puzzle of Wednesday, April 21, Solved

### FIRE LOSSES IN BIG D UP

**DALLAS (AP)** — Fire losses in Dallas during March were the highest since December, 1969, according to Fire Capt. Q. L. Colquitt, who says: "It's one of the worst months we've ever had."

Firemen answered 15 multiple alarm fires in businesses and apartment blocks and there were two fire deaths, besides damage set at close to \$1 million.

The average monthly fire loss in Dallas runs between \$110,000 and \$350,000. The worst fire on record here was the \$11 million blaze at the Neiman-Marcus store in December, 1964.

### Horoscope Forecast

TOMORROW

—CARROL RIGHTER

**GENERAL TENDENCIES:** Cyclic but be ethical about it. Take it easy changes are now taking place in your life and if you go along with them you can reap the benefits. However, if you balk at them and try to force doubtful conditions you could have some difficult moments ahead. Show you are the one who is wide awake and alert.

**ARIES (March 21 to April 19)** Although an associate operates much different than you, go along with him or her now, and you benefit greatly. Try not to argue with one who opposes you. Do what you think is right and all is well.

**TAURUS (April 20 to May 20)** Don't become frustrated about conditions around you, but get your work done efficiently and all works out fine for you. A health condition should be taken care of now instead of permitting it to get worse later on.

**GEMINI (May 21 to June 21)** Keep out of any argument going on between your loved one and a friend since it will all blow over very quickly. It's all right to go after what you desire.

**SCORPIO (Oct. 23 to Nov. 21)** Look into those puzzling matters instead of getting all worked up emotionally about them and doing nothing. Investigate carefully. Give a helping hand to those who are in difficulty of some sort.

**SAGITTARIUS (Nov. 22 to Dec. 21)** Although you want to entertain, make sure you do not bring together individuals who are much opposed to one another or there is trouble. Give deserved compliments to those you admire. Put business matter out of the way early.

**CAPRICORN (Dec. 22 to Jan. 20)** It's all right to try and make home life more harmonious, but don't take all day about it. Save time for important outside duties. Things you want to make should await a better day.

**AQUARIUS (Jan. 21 to Feb. 19)** You have excellent ideas but they are best worked out on familiar soil instead of places about which you are not familiar. Gain the assistance of an associate you can trust. You cannot handle everything all alone.

**PISCES (Feb. 20 to March 20)** A plan you have may not be good, so study it more carefully before making any decisions. Don't start making radical changes or you can certainly get in trouble quickly.

### Land Board Meet Reset

**AUSTIN (AP)** — The School Land Board has reset its scheduled May 4 oil and gas submerged lease sale for July 6.

Land Commissioner Bob Armstrong said the sale was reset after it was learned the U.S. Corps of Engineers apparently will allow drilling in coastal waters.

The corps had declared a moratorium on offshore drilling pending completion of a statement on what drilling would do to the environment.

Armstrong said all nominations for tracts must be received by May 14.

SPECIAL SESSION IN '72 LOOMS

# 'We've Got To Get Out Of Town'

By GARTH JONES  
Associated Press Writer

Legislators are not looking forward to it, but most of them expect to be back in Austin in 1972 for a special session.

And 1972 is a presidential election year so that is just one of the complications they will face—not to mention another tax bill.

But one thing is definite in talking with legislators, lobbyists and everyone involved with the 62nd legislature—everyone wants this current session to end May 31 and let them get out of Austin for several months at least.

NAME CALLING

"We've got to get out of town says a veteran House member. "Everybody's bickering. I've heard more name calling this year than ever before. The leaders of the houses have less control and coordination than ever before. It's just a bad show."

Lt. Gov. Ben Barnes and Speaker Gus Mutscher agreed recently to do everything possible to wrap up current tax and spending needs along with several other vital issues in time for the mandatory May 31 closing.

Appearance of the Senate and House appropriations bills with state welfare funds furnished for only one of the next two years was a sure sign of a special session.

Gov. Preston Smith, Barnes and others keep talking about the chance of a federal takeover state welfare costs or federal revenue sharing plans.

Privately, persons close to these same high officials say practically all hope is gone of federal help in time to solve Texas' situation. The Congress may take such action in coming years, much to the state's benefit, but the present revenue-sharing plans are getting nowhere fast in the present hostile Congress.

OTHER REASONS

Barnes also said he would not push a tax bill covering both years of welfare appropriations until state welfare procedures are reorganized.

And there are other reasons that legislators want a special session in 1972.

Some senators, particularly some of the liberal bloc that have caused Smith's appointments so much trouble, want a special session to act on any appointments Smith might make after the legislators go home May 31. If there is no special session the Senate would not get a chance to question Smith's choice until the 1973 session.

If the constitutional amendment to raise the ceiling on welfare payments fails May 18, a special session apparently will be necessary to answer pending orders in federal courts about

welfare payments. Also, if another constitutional amendment on the May 18 ballot is defeated, the one on legislative ethics and pay raises legislators may want to ask voters again in the November 1972 general election for a pay raise.

Still another cause of a special session could be the results uncovered by Senate and House investigating committees looking into the downfall of the Sharp-

town State Bank at Houston and any possible connections with legislative activities. Many legislators say any law changes concerning manners and morals of legislators and state officials should be put into effect before the 1973 legislative meets.

The time of a special session poses a problem itself. Barnes, who says he will be running either for governor or senator, and other legislators with political ambitions naturally would prefer that a special

session be held after the 1972 primaries. Under present law all 1972 political candidates must announce their intentions by the Feb. 7, 1972, filing deadline, with the primary date, probably back to July or August where it was before it was switched in 1960 so Lyndon Johnson could run both for Senate and vice president.

That means the 1972 special session likely will be held before the summer primaries and in the midst of political campaigns. Smith, who has the sole authority to call a special session, might even set it in January just before the filing deadline.

Chances are good this legislative session will change the

## Pesky Rat Now Pickled Trophy

A few months ago in the 2050th Communications Squadron, the men of the computer maintenance section had a real problem—the computer seemed to go crazy.

The console typewriter forgot how to spell. The printer went haywire. After hours of fruitless searching, a rat ran from underneath the flooring. Apparently the rat had become so hungry that it had gnawed several cables bare.

After repairing the cables and broken wires, maintenance men successfully sought the source of their trouble—which ac-

2-B Big Spring (Texas) Herald, Thurs., April 22, 1971

## Lon Nol Forms New Government

counts for a pickled rat in the maintenance office trophy room.

HOUSTON (AP) — Mayor Louie Welch will meet with a committee of business and civic leaders Friday to consider seeking the Democratic and Republican national conventions for Houston next year.

Welch named the committee after a larger group met to discuss methods of attracting political meetings to the city.

## Lon Nol Forms New Government

PHNOM PENH (AP) — Gen. Lon Nol, who two days ago said he was too sick to continue as premier, reportedly formed a new government today, ending the young Cambodian Republic's first political crisis.

Sources close to the government said Lon Nol had bowed to entreaties by Chief of State Cheng Heng and several leading army officers and agreed to remain in office even though he has only partially recovered from the stroke he suffered two months ago.

## Health Research Grant Awarded

HOUSTON (AP) — A \$56,650 biomedical sciences support grant for health research has been made to Rice University by the National Institute of Health, an agency of the U. S. Department of Health, Education and Welfare.

Dr. William E. Gordon, vice president and dean of science and engineering at Rice, announced receipt of the grant Wednesday.

Gordon said it is a "no-strings-attached" grant designed for the use of scientists outside the health care field.

It is the fifth such grant made to Rice which has a close working relation in the biomedical sciences with Baylor College of Medicine.

## STATE COURTS

AUSTIN (AP) — Texas Supreme Court Civil appeals reversed, remanded to that court:

Yanira Eloja Stanley vs. Southern Pacific Co., Jackson.

Applications: Writ of error refused.

Mary Carter vs. Union Bankers Insurance Co., Dallas.

Writ of error refused; no reversible error.

Texas General Indemnity Co. vs. Joel M. Hope, Howard.

W. M. Weaver vs. Terminal Produce Co., Brazoria.

William J. O'Day vs. Sakowitz Brothers, Harris.

Norman T. Strain vs. W. Sale Lewis, Savinas & Loan Commissioner, Travis.

Parkview General Hospital Inc. vs. A. J. Ashmore, Nueces.

Dorothy Ann Conrads Jones vs. Ida Walther.

Robert P. Moore (1970 Ford Automobile) vs. Texas, Taylor.

Writ of error dismissed for want of jurisdiction.

Douglas Howard Bond vs. Phyllis Florence Bond, Randall.

Commercial Standard Insurance Co. vs. Billy J. Hunt, Bowie.

Motions: Rehearing of a cause overruled.

M. McDonald Jr. vs. Charles Weiprecht, Reeves.

Rehearing of applications for writ of error overruled.

D. D. Johnson vs. Granite State Insurance Co. vs. Jefferson.

International Security Life Insurance Co. vs. Moss Jones, Jones.

International Security Life Insurance Co. vs. Kenneth W. Everett, Lamb.

Western Preferred Life Insurance Co. vs. Empire Finance Service Inc., Dallas.

Miscellaneous matters:

Randall E. Fariss vs. Arthur Tipps, district judge, original mandamus, order entered on January 28, set aside, and re-hearing petition for writ of mandamus denied.

Earl James A. Sipleberry, petition for writ of habeas corpus denied.

Jimmie Bennett vs. The Court of Civil Appeals, motion for leave to file petition for writ of mandamus overruled.

# RECIPES

Shared By  
Mrs. Thompson

**CHERRY SPARKLER SALAD** is a favorite dessert of the Jim Thompson family. It's easy to prepare and refreshing to taste. Also shown are several of the cookbooks which Mrs. Thompson likes to collect and read, although she said most of her recipes come from friends, newspapers and magazines.

**BISCUIT PUDDING**  
4 left-over biscuits, crumbled  
2 eggs, unbeaten  
1 1/2 cups sugar  
1 cup milk  
2 tbsps. cocoa  
1 tsp. vanilla  
2 tbsps. butter  
1/2 cup chopped nuts

Mix all ingredients together and bake at 375 degrees in a buttered casserole dish, until firm. About 40 minutes to 1 hour. Serve with whipped cream. You may make lemon biscuit pudding by substituting 2 tbsps. lemon extract and 1 tsp. grated peel for the cocoa. Serve caramel sauce or lemon sauce with lemon pudding.

**CHERRY SPARKLER SALAD**  
1 6 oz. pkg. cherry gelatin  
2 cups boiling water  
1 tray ice cubes  
1 cup gingerale or 7-Up  
1 can cherry pie filling  
1/2 cup chopped nuts  
Whipped cream for garnish  
Candied or maraschino cherries for garnish

Dissolve gelatin in boiling water. Stir in ice cubes until the gelatin has the consistency of egg whites. Remove undissolved cubes. Gently pour in 1 cup gingerale or 7-Up. Chill slightly. Stir in cherry pie filling and nuts. Place in mold or casserole dish. Let set. Unmold, garnish with whipped cream and cherries.

**RYE BREAD**  
2 pkgs. yeast  
1/4 cup lukewarm water  
1/4 cup plus 2 tbsps. sugar  
3 cups scalded milk, (cooled)  
2 cups rye flour  
1 tbsps. salt  
3 tbsps. shortening  
1 cup dark molasses  
7 cups white flour

Dissolve yeast in water and sugar mixture. Melt shortening in the scalded milk. When cool, add to yeast mixture. Pour over rye flour, salt, and molasses. Beat until smooth. Begin adding white flour until the dough is firm enough to knead. The amount of flour that may be worked in varies, so the 7 cups is an estimate. Put dough in a greased bowl, let rise until double. Punch down, knead lightly again, shape into two loaves, and place in large loaf pans. Let rise again until double. Bake at 325 degrees for 1 hour. Grease the tops with butter as soon as you remove the loaves from the oven. Freezes well.

**VANILLA WAFER DESSERT**  
2 sticks margarine  
2 cups powdered sugar  
4 eggs, separated  
1 cup grated or crushed pineapple  
1 cup chopped nuts  
large package of vanilla wafers, crushed  
Cream sugar and butter, add egg yolks, pineapple and nuts. Fold in beaten egg whites. Crush vanilla wafers and put a layer in a 2-quart casserole dish. Spread with a layer of the pineapple mixture. Continue to alternate layers, ending with a sprinkle of vanilla wafer crumbs. Chill at least 4 hours, before serving. Top with whipped cream. This is a good make-ahead dessert. It keeps for days.

**OUR FAVORITE MEATLOAF**  
1 pound ground chuck  
1 chopped medium onion  
2 slices bread, crumbled  
1 egg, unbeaten  
2 tbsps. salt  
Pepper to taste  
4 tbsps. warm cream (strained milk)

Crumble the bread into medium-fine crumbs. Pour canned milk over crumbs. Add meat, onion, egg, salt, and pepper. Garnish with sweet and sour sauce. Bake at 350 degrees for 45 minutes to 1 hour.

**SWEET AND SOUR MEATLOAF SAUCE**  
1 cup catsup  
5 tbsps. brown sugar  
2 tbsps. dried mustard  
1/2 tsp. nutmeg

Mix all ingredients, and pour over meatloaf before baking.

**QUICK BLUEBERRY PANCAKES**  
1 pkg. blueberry muffin mix or Duncan Hines blueberry pancake mix  
1 can blueberry pie filling  
1 cup water  
1 cup sugar

Prepare pancakes according to directions on package. Make a blueberry syrup by bringing 1 cup water and 1 cup sugar to a boil. Stir in the canned blueberry pie filling. Use as syrup for the pancakes. This is a good Sunday night supper treat.

**Extra Flavor To Cut Green Beans**

Next time you serve canned snap beans, you might like to offer them this way.

Add chopped onion and celery to the bean liquid and cook down rapidly in a saucepan to a little less than half the original amount.

Add the drained beans and butter and reheat.

# 'Quickie' Meals Make Up Working Woman's Menus

By BARBARA LORD

After a full day of work, Mrs. Jim Thompson, 2808 Coronado, comes home to a hungry husband and two hungry sons who don't want to wait a couple of hours while she prepares dinner.

Thompson is director and physical therapist at the Dora Roberts Rehabilitation Center. Sons, Mike, 11, and Brian, 6, attend Park Hill School and Jack and Jill Kindergarten, respectively.

"We eat mostly quickie meals," said Mrs. Thompson. "I've accumulated quite a few of them over the years." The last meals are for her benefit as well as her family. She gets home from teaching school at 4:30 p.m., and the "quickie" meals allow her time to relax or catch up on her homework in the evening.

During the weekends, Mrs. Thompson serves the foods the family likes that take longer to prepare. She enjoys working in the kitchen and has a lot of experience behind her. Because her mother and father both worked, she did much of the cooking while she was in high school, feeding a family of seven. She was the only girl of five children.

"I knew how to cook pretty well when I got married, but the big problem I had was cutting down meals from seven people to two people," she said. "You wouldn't believe the amount of potatoes I had left over at times."

Now Mrs. Thompson is back to fixing fairly large meals. Although there are only four in the family, she said her two sons have the typical appetites of growing boys.

"We pick menus rather than

foods that we want for dinner," said Mrs. Thompson. "We have learned what types of foods we like together and usually have the same menu with every main dish."

"The boys would eat hamburgers every day if I let them," said Mrs. Thompson, "so on Saturdays we usually have a family picnic outside. Red beans and corn bread are favorites of theirs, too."

**SUNDAY DINNER**  
A Sunday meal of ham, roast or Swiss steak is usually cooking while the family attends church. Mrs. Thompson thinks Sunday should be a relaxing day, and she doesn't like to come home from church and be faced with preparing the whole meal from scratch. With her big meal at noon, the family usually tops their Sunday off with blueberry pancakes in the evening.

The Thompsons seldom entertain formally, but enjoy an easy dinner party with not more than 12 people — just enough for two tables of "84." They play some bridge, but prefer more relaxing games.

Most of the Thompsons' spare time is spent with the family or working around the home. They both like garden work and redecorating. They have a lovely patio and a garden with many spring flowers in bloom.

Their recently redecorated living room has the look of a professional job. Much of their furniture has been passed down from the family and has the stately elegance which is lost in so much of the newer furniture. Mrs. Thompson credits her husband with more of the antique and redecorating. She said she knows how she wants things to look in the end, but he does most of the work.

### Pizzas Are Travelogue From Italy

The Mediterranean is as close as one's imagination when sandwiches of salami cooked with onions, green pepper, mushrooms, garlic salt and catsup are enjoyed for lunch or supper. Sprinkled with Parmesan or mozzarella cheese, these spicy sausage sandwiches will set minds to dreaming.

**SALAMI PIZZA IN A BUN**  
1 lb. salami, cut julienne-style  
1/2 cup minced onion  
1 medium-sized green pepper, cut in thin strips  
1/2 lb. fresh mushrooms or 1 can (2 ounces) mushrooms, drained  
2 tbsps. lard or drippings  
1/4 tsp. garlic salt  
1/2 tsp. leaf oregano  
3/4 cup catsup  
1/4 cup water  
8 frankfurter buns, split  
Grated Parmesan or mozzarella cheese, if desired  
Cook onion, green pepper and mushrooms in lard or drippings until lightly browned. Pour off drippings. Add salami, garlic salt, oregano, catsup and water. Cook slowly, stirring occa-

Spiced to aid would-be travelers

## Surprises Fill This Any Occasion Cake

Half the fun of a surprise party is in the planning and plotting. But whatever elaborate scheme you cook up for the guest of honor, try baking up a distinctive dessert that will surprise all your guests with its unique appearance and taste. Buttermilk Crumb Cake is full of surprises to go with your party. Buttermilk is the batter's only liquid, so there's a refreshing tang you don't expect. The cake looks like a Strussel, tasted like a spice cake, and is as versatile as both of these combined. Its springy, moist texture is light enough to cap off a fancy brunch affair, but rich enough to be the center of attention at a "just dessert" surprise. Whether you're concocting a going-away, a birthday, or an engaging shower, there's nothing fancy about assembling all the ingredients for Buttermilk Crumb Cake. Before adding the buttermilk, soda and

an egg, mix the dry ingredients and set a portion of these aside for a crumb topping that's almost as flavorful as the cake itself. And why not—it's got the same flavor boosters of cinnamon and cloves, and even a portion of chopped nuts. There's one more surprise that comes after baking and cooling. In between the crumb-bedecked layers goes a filling of the sweetest jam or marmalade this side of a party. **BUTTERMILK CRUMB CAKE**  
1/2 cup walnuts  
1/2 cup raisins  
2 cups sifted all-purpose flour  
1 cup sugar  
1 tsp. salt  
1 tsp. cinnamon  
1 tsp. cloves  
3/4 cup shortening (part butter for flavor)  
1 tsp. soda  
1 cup buttermilk  
1 large egg  
3/4 cup thick strawberry jam or orange marmalade

Chop walnuts and raisins. Resift flour with sugar, salt and spices into mixing bowl. Add shortening and cream together until mixture resembles fine crumbs. Measure out 1 cup crumbs and stir in about half the nuts; set aside to use as topping. Stir soda into Buttermilk and immediately add to remaining crumb mixture in bowl, along with the egg. Beat until well blended. Stir in remaining walnuts and the raisins. Turn batter into 2 greased and floured 8-inch layer cake pans. Sprinkle reserved crumbs evenly over top of each layer. Bake in moderate 350 degrees oven about 35 minutes, until cake tests done. Remove from oven and let layers stand in pans a few minutes, then turn out on wire racks to cool. Put layers together with thick strawberry jam or marmalade, crumb-side up. Let stand 1/2 hour to set. Makes 10 to 12 servings.

**POLYNESIAN MEATBALLS**  
A delicious summer picnic treat

### Easy Backyard Meals Delight Whole Family

Enjoy precious daylight hours with a supper in the yard. The menu? "souper" delicious Polynesian Meatball Sandwiches, a supper treat to satisfy the whole family. This "souper" sandwich features soy-flavored ground beef balls in a luscious sauce of condensed golden mushroom soup. This soup, rich and robust, made from deep-flavored beef stock with sliced whole mushrooms, is so versatile—great as a sauce or cooking ingredient. Here the soup is enhanced with thinly sliced green onion and ground ginger. Serve the hot sauced surprise meatballs (there's a pineapple tidbit inside) in split and toasted rolls.

Along with the meatball sandwiches, serve a molded perfection salad and an iced fruit drink. For easy, relaxed cooking all through the summer months, make "souper" dishes part of your menu routine. From sandwiches to complete skillet suppers, condensed soups are your answer to quick, delicious meals.

#### POLYNESIAN MEATBALL SANDWICHES

- 1 lb. ground beef
  - 1 egg, slightly beaten
  - 1/4 cup fine dry bread crumbs
  - 1 tsp soy sauce
  - 16 pineapple tidbits
  - 1 can (10 1/2 ounces) condensed golden mushroom soup
  - 1/4 cup water
  - 1/4 cup thinly sliced green onion
  - 1/4 tsp ginger
  - 4 long hard rolls, split and toasted
- Combine beef, egg, bread crumbs, and soy. Shape meat firmly around each pineapple tidbit to form 16 meatballs. In skillet, brown meatballs; pour off fat. Add remaining ingredients except rolls. Cover; cook over low heat 20 minutes. Stir now and then. Serve on rolls. Makes 4 sandwiches.

#### CALLING ALL HOME MAKERS

By Ted Hatfield

WANT SOME IDEAS FOR YOUR HOME?

In our column this week we're happy to pass along a few additional decorating suggestions we haven't published before.

Whether you use any of them or not, they may start you thinking about developing ideas of your own. Here are some ideas:

Invent some new uses for wall paper. It can be used most effectively in covering a waste basket, a small chest or a door. Consider using it on a bedroom ceiling or an arched or sloping ceiling.

Tired of the same old matching tables and lamps on each side of your sofa? Try using one round and one square table with one table lamp and a hanging chain lamp.

Instead of the usual large picture or mirror over your sofa or fireplace, use a grouping of differently sized and framed pictures or make an interesting mixed group of both pictures and other wall ornaments.

Have your hallways been completely overlooked? They should be treated as part of your home. Bright wall-paper or pictures or a combination of both may make a great difference.

Did you ever consider what just one piece of new furniture can do for your living room? One outstanding serving table, cocktail table or chair can make a world of difference.

Through the years we have specialized in helping our customers find the right thing for the right place. We can help you, too.

## Selective Enforcement

Gov. Preston Smith may be correct in his charge that political considerations motivated the prosecution of banks which made political campaign loans to candidates. He was singled out under peculiarly suspicious circumstances, and since then it has been developed that many others, irrespective of party, have done likewise.

Perhaps it is well to concede this point, and then start from there.

For after all, the matter of politics (except for calculated embarrassment) is irrelevant. The law forbidding such loans surely must be one of the most obscure laws supposedly governing political campaigning. Almost no one seemed to know of its existence. But, it is a settled rule of law that ignorance of a law is no excuse, nor is ignorance of the law a defense against enforcement.

The outcry by candidates and officials against the enforcement of the ban against bank loans for political campaigns is symptomatic of the time. It has become all too common to urge selective enforcement of the law, to be lenient

in some areas and to ignore it in others. The use of the district and county attorney's offices as a hotcheck collecting agency, when the law makes it a misdemeanor for an individual to file a hotcheck charge and then withdraw it when restitution is made, is an example.

Our young people are particularly bitter about selective enforcement of the law. Their anger is also aroused by the selective emphasis given to some areas of enforcement over others, such as the massive effort directed against marijuana use

and the less active attention given crimes against property or against the person. Nor can they understand why a defendant in a marijuana case can get a term of 30 years in prison, while a defendant in a murder case can get away with a suspended sentence, or a few years in prison.

If we demand law and order, we must demand the strict enforcement of all laws. If, in practice, we find some laws oppressive, we should move promptly to repeal them, instead of deciding to ignore them.

## The White Hats

For the sixth year now The Herald has joined with the Zale Corporation to pay tribute to the young people in the white hats. This puts the good guys and girls in the spotlight for personifying the virtues which most of us revere.

In all these years, one thing that has impressed us is the basic soundness of our young people,

and their willingness to put their ideals to work. Even more impressive is the great reservoir of talent and dedication not waiting for tomorrow, but working at being good citizens today.

Don't despair; we've got some great ones ready to come on stage.

## Gin Rummy Team

Art Buchwald

WASHINGTON — "Good evening, comrades. This is Wo Pang of the Mao Tse-tung Broadcasting System in Peking. Seated with me in our studio tonight are the members of the People's Republic of China Gin Rummy team. Last week, in an unprecedented diplomatic move, the Americans invited our team to visit the United States to compete in the Gin Rummy Mixed Doubles Classic at Pebble Beach, Calif. This is the first time that citizens of the People's Republic of China were permitted behind the Nylon Curtain and we would like to ask them their impressions of what they saw in this most mysterious of all Western countries.

"LET US BEGIN with Tai Bun, the captain of the gin rummy team. Comrade Bun, what impressed you the most about your visit to the United States?"

"The friendliness of the American people. Everywhere we went, people said, 'We may not agree with what your government stands for, but we really like Chinese food.'"

"Comrade Lo Song, did you find the American people well-clothed?"

"The older people seemed to have enough clothes, but the young people were very poor. All the young people we saw had torn pants, dirty sweat shirts and none of them had any shoes. Our translator said that the young people in America preferred to dress this way, but we knew this was capitalistic propaganda. Why would people who could afford it walk around in their bare feet?"

"COMRADE BU WONG, did the Americans let you see everything you asked to see?"

"No they didn't. They were very careful to let us see only the things they wanted us to see. For example,

they wouldn't let us see Los Angeles."

"What reason did they give?"

"They said no one could see Los Angeles because of the smog. They said on most days even people who lived there couldn't see it. They expected us to swallow this story."

"Comrade Ili Toy, do you also feel the Americans tried to prevent you from seeing what you wanted to see?"

"YES. But they were very clever about it. They said we could go anywhere we wanted to, so one day I asked to go for a drive in the countryside. They took me on a road which they call a freeway. We traveled five miles in four hours and by the time we got out of the city, our translator said we had to go back because it would take us another four hours to return to our hotel. So we didn't see anything. I asked if we could take a train the next day and he told us there were no passenger trains in the United States any more. Of course, none of us believed it."

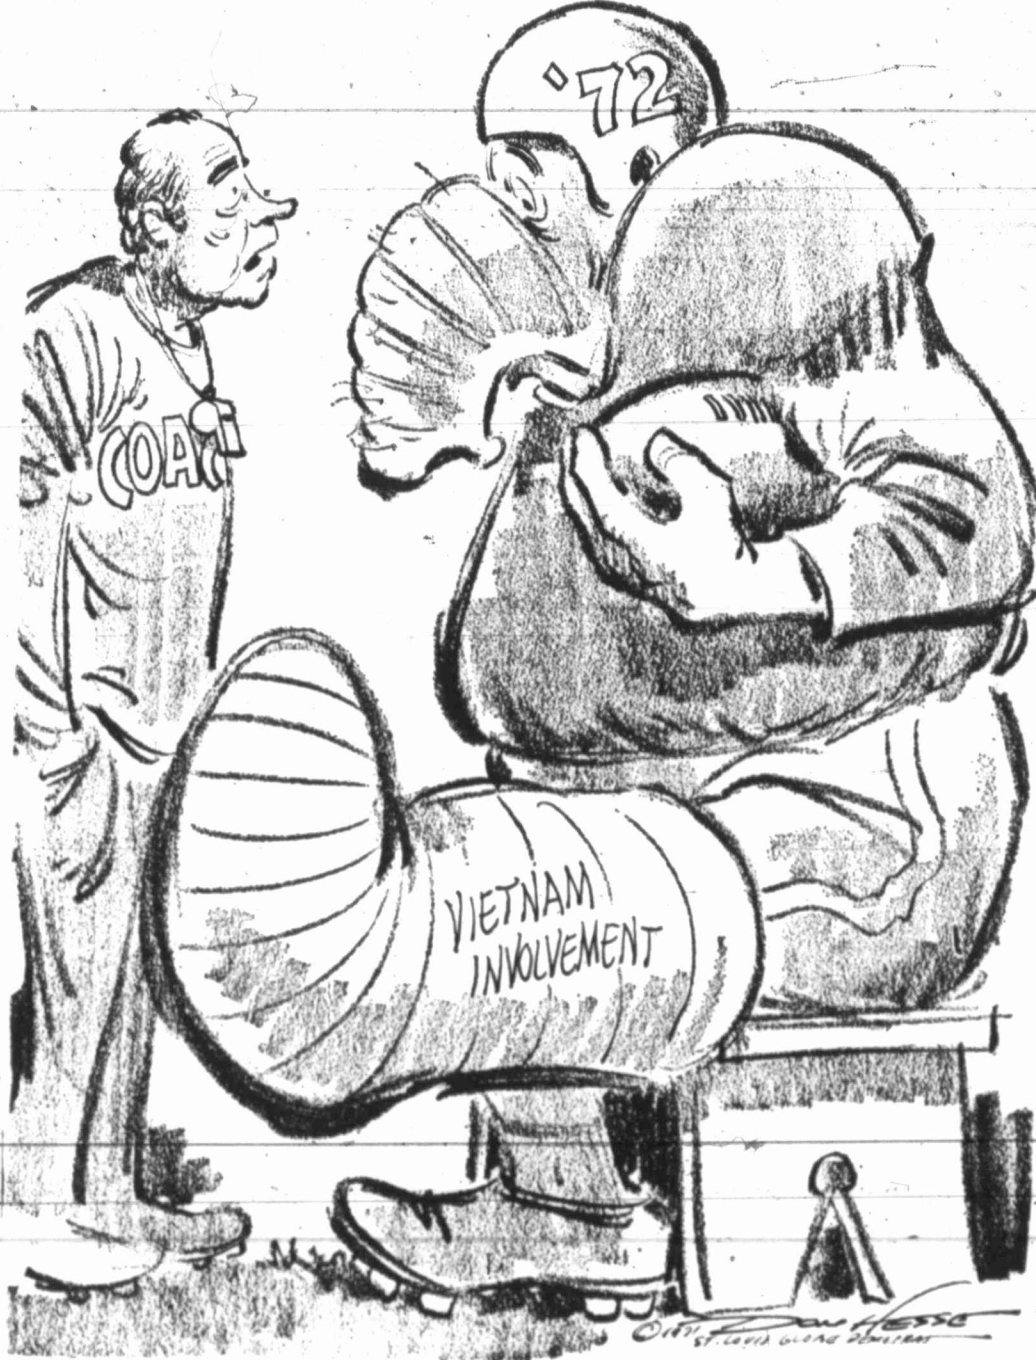

"Comrade Ro Poh, what was the highlight of the trip as far as you're concerned?"

"I THINK THE highlight of the trip was our private visit with Vice President Spiro Agnew. He was very friendly and he told us many things about the United States that no one else would talk about."

"Such as?"

"He told us that the American press and television networks were full of lies and they slanted the news and took things out of context so the American people never knew the truth. It was exactly what Mao Tse-tung had told us and we were happy to hear it confirmed from the lips of a high American government official."

'YOU HAVE TO LEARN TO RUN WITH IT ON'

## How Come You're Not Rich?

John Cunniff

NEW YORK (AP) — One of the most revealing and rewarding pastimes for an investor is to go back over the recommendations of securities advisers and compare their forecasts with conditions that actually ensued.

Revealing in the sense that the investor will see how glib and cheap is such investment advice. Rewarding in that he will learn how cheap advice can be costly and therefore to be ignored in the future.

In late November and early December of 1968, with the market ready to slide into a prolonged decline that would be the worst since 1929, long-term New York Stock Exchange included:

"There are now and will be many good buying opportunities during this present tax adjustment period. A large reservoir of buying power is still on the sidelines, waiting to 'uncover' new and attractive situations."

"Right now we have bullish action in all three key segments of the market. The technical background is very strong, and there is not enough adverse fundamental news to make us doubt our interpretation."

"The upside implication . . . plainly points to considerably higher levels, i.e., 1300 for the Dow Jones Industrial Average over the longer term and a possibly nearer term, 1100 to be reached, say, in the first half of 1969."

Many people have threatened to dig up the damning records that so often, and curiously remain safely ignored, permitting so many vain forecasters to boast. "As I told you last year

John Springer did look at the records, and now he has written a book, to be published soon

by Henry Regnery Co., about the quality of investment advice. It has the provocative title, "If They're So Smart, How Come You're Not Rich?"

Read it and you'll likely maintain your own counsel hereafter. The forecasts quoted above are not isolated examples. Springer claims that a study of market letters at that time showed bullishness by an 8 to 1 ratio.

The evidence assembled, much of it previously published but not so skillfully coordinated, shows that investment advisers not only need not be smart, but they need be almost nothing else either.

"As long as you have no criminal record and have not been caught violating securities laws, Springer states, "you may set up your own advisory service and advertise for clients."

## Rain Formulae

### Around 'The Rim.

Jean Fannin

It's just human nature I guess that when something goes wrong no one wants to take the blame, but when something goes right you've got more contenders for the credit than you know what to do with.

TAKE OUR LATE unpleasantness — the extremely long period of disgustingly dry, dusty weather. Did you hear anyone going around saying: "I knew it wasn't going to rain — I forgot to have my car washed."

But — immediately after our blessed 2.07 inches, guess what happened. "Of course it rained, I waxed my car didn't I," my next-door neighbor told me. Now he's a retired farmer from Illinois, and he's been worrying about the dry weather here since he moved to town. So why didn't he wax his car before this late date?

BEFORE I EVEN had the opportunity to talk to him though I had already heard at least 50 others take credit for the rain.

Of course the board of directors for the water district must be strutting around beaming. Their rainmaker hadn't been tampering with Mother Nature's clouds for a full 24 hours when we got the first rain. And he was just getting started good

when we got the second rain.

EVEN THE CITY officials had to get in on the act. They claimed the reason for the rain was that they had begun work on that infamous drainage ditch on the east end of town. And they seem to have the statistics backing them up on the rain-producing qualities of the ditch. Do you think we could keep a permanent crew at the ditch? It might be worth it.

THERE WERE all sorts of other reasons given for the rain. One woman had just had her dog shampooed. Another woman had just had a permanent. A man downtown said he had left the top down on his convertible. Some of the people at Big Spring High School were crediting the University Interscholastic League track and field events with bringing on the downpour.

AFTER CAREFULLY considering all the evidence I believe I have a rainmaking scheme so unique that we might make scientific history. Let's everybody try real hard to remember what we did last Thursday — and then everybody do the same thing again. I think we had a winning combination.

## Nixon And Calley

David Lawrence

WASHINGTON — The widest publicity was given to the resignation of Capt. Aubrey M. Daniel III, prosecutor in the Calley Case, that President Nixon, by injecting himself into the review process, had undermined the morale of the armed services. Unfortunately, many people have not learned the President's answer to this charge, which was given succinctly in his radio interview on April 16.

THE FACT that the President allowed Lieutenant Calley to be confined to his quarters rather than sent to prison and decided, as commander in chief, to exercise final review of the case was immediately regarded by some people to indicate that the President is partial to Calley and believes he should have been acquitted. No inference of that kind is justified. Mr. Nixon praised the military records of the six members of the jury and stressed that he respects those who served on it. The President explained his participation as follows:

"I ACTED as I did because one of my capacities is commander in chief of the armed forces. There was enormous interest in this case, concern expressed throughout the nation with regard to that decision, going far beyond the innocence or guilt of Lieutenant Calley with regard to the charges. I felt under the circumstances I should take two steps that I think are completely consistent with upholding the judicial process of the armed forces."

"One, it seemed to me that if in civilian cases where an individual is charged with a crime, he cannot get out on bail — it seemed to me that the least that could be done would be to say that Lieutenant Calley, pending the time that an appeal made his sentence final, should not be sent to Leavenworth Prison, but should be confined to his quarters. I think that was the right decision to make about that man at that time."

THE SECOND point had to do with my decision that I announced when I said that I, as President and as commander in chief, would exercise

the authority which I had in such cases to review the case, that I would not pass the buck to a commission, I would not pass it to the secretary of the Army. But in this case, because of the great public interest in the case and because it went beyond simply the innocence or guilt of this one man, that I would review the case personally before final sentence was passed.

"IT SEEMED to me under the circumstances that a presidential statement at the highest level should be made once this case is completed, should be made setting the whole thing into perspective and without infringing upon his rights, a decision that would let the American people know and the world know why such a prosecution did take place and why it was upheld or why it was not upheld. I, of course, will not prejudge it at this time before it goes through the judicial process."

THERE IS not the slightest reason for jumping to the conclusion that the President has already made up his mind what he will do about the verdict and the sentence in the Calley case. What he desires is to examine all the different episodes dealing with the same type of incident during war. This is why no basis exists for concluding that the President has prejudged Lieutenant Calley in any way.

(Copyright, 1971, Publishers-Hall Syndicate)

## Lost Time

NEW YORK (AP) — America has become the land of the commuter as more and more families retreat to the suburbs to avoid the hazards of big city living. According to researchers at the Bulova Watch Company, the average commuter spends approximately 520 hours a year getting to and from work. Add this to the approximate 2,050 hours a year spent working and the 2,920 hours spent sleeping and a man is left with only 3,460 hours to spend with his family, read, or pursue hobbies.

## My Answer

Billy Graham

My family and I are Christians and have always tried to pay our bills. Lately, however, we are getting behind in our payments and we just don't know what to do.

There are two things you must do. First of all you should make a careful study of your budget and find out whether you are spending money for things which are not necessary; possibly good in themselves but with which you could just as well do without. Secondly, you should examine your own heart and see what place Christ has in your own life.

Is He your God on Sunday but only a casual friend the rest of the week? Have you truly put Him first in your life? Christ has given us the answer to our economic problems but so often we fail to recognize the simplicity and the effectiveness of His plan. He tells us in the Bible: "But seek ye first the Kingdom of God and His righteousness; and all these things (houses, lands, food, clothing — the necessities of life) shall be added unto you." The heart of the promise is that we must put Him first in every area of our lives, and when we do, He provides all things necessary.

## A Devotion For Today . . .

In all thy ways acknowledge him, and he shall direct thy paths. (Proverbs 3:6)

PRAYER: O God, help us to be more diligent in the study of Thy Word, and that the reverence of Thee is the beginning of wisdom and to depart from evil is knowledge. Help us to be examples of faithfulness to Thee in our homes, and devote time to studying the holy scriptures. To Thee, in Jesus' name, we pray. Amen.

(From the 'Upper Room')

## Bold Girl Tale Blooms

Hal Boyle

NEW YORK (AP) — A man without a memory is a man without a mind.

The more memories that cluster within that bone-sheltered cluster of nerves we call our brain, the more knowledgeable we are and better able to deal with life. But memory has the power to deform as well as inform us.

It is well to pick and choose with care among our memories, summoning up the good ones as often as possible and relegating the bad ones to the dark closet of the mind and kept there under lock and key.

Your own house of memories is well-stocked if you can look back and remember when— Kids in the old swimming hole thought they had it made when they quit mudcraving and learned to dog paddle clear across the pond—Marco Polos

afloat. Any carnival that had one flea-bitten elephant called itself a circus.

Most children in America still studied their school lessons at night around kitchen tables lit by a kerosene lamp or a 40-watt light bulb.

A pious home was one in which family Bible never had to be dusted because someone in the household read it every day.

When you went barefoot in summer and stepped on a thorn or rusty nail, mother worried for days in fear that you would come down with lockjaw.

In every grammar school class there seemed to be at least one bold girl who would put the boys in a quandary by snatching caps off their heads and putting them in her bloomers.

You could cut the initials of yourself and your loved one on a tree trunk without being accused of threatening the local ecology.

Everybody knew what a bomb was, most people had at least a vague idea of what an atom was, but no one even dreamed of what the atom bomb might do to the destiny of mankind.

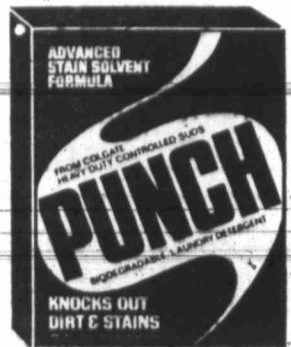

In city streets horse residues were more of an environmental problem than gasoline fumes.

More people were afraid of tuberculosis than the federal income tax.

Somehow the postman found time to read all the postcards on his route—and still make two mail deliveries a day.

Those were the days—remember?

# September-May

Dear Abby  
Abigail Van Buren

DEAR ABBY: Please, help me. I am a widower and very much in love with an 18-year-old girl. Although I am over 60, the difference in our ages doesn't matter, as the girl is very mature for her age and I am in the best of health.

But here is my problem. My son is trying to break us up. He tries to tell me that this girl is too young for me, that she is only after my money. He's tried to turn me against her, but I think he is trying to get her for himself.

First he tried to make her look bad in my eyes, and when that didn't work, he tried to make ME look bad in HER eyes. How can I get this girl to marry me before my son

needed, but wanting to send them something useful, we sent a generous check with our letter of congratulations.

We received no note of thanks from this couple. However, when my canceled checks were returned from the bank, I found that the young man had CASHED our check the day he received it, and ON the check he had written, "Thank you."

DEAR ABBY: For me, I don't want to lose her.

DEAR DAD: A long engagement would be to your advantage. Don't worry about "losing" the girl. If it's the real thing, it will stand the test of time. And if it's not, you're ahead to find out early.

DEAR ABBY: You will never believe this, but it is the truth: We received an announcement of the marriage of the son of old friends of ours. The last time we saw the lad he was

He and his bride live in another state where he is studying law and the bride is working for her Master's degree. Not knowing what they

Children can add strength and purpose to a relationship.

LOVES CHILDREN attitude, you should have a wide selection. In fact, you should have an open field as there is apt to be very little competition. Raising children is expensive in terms of money and emotions. If you can afford them, I say more power to you. I think you're generous, courageous and one in a million. (And if your identity ever becomes known, you'll need police protection.)

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069.

DON'T FORGET.

## Upset Breathing

Your Good Health  
Dr. G. C. Thosteson

Dear Dr. Thosteson: Sometimes my heart beats real fast and after I exhale I can't get my breath. This lasts a few seconds and then I am all right, but it scares me. It happens mostly when I go to bed, sometimes three or four attacks a night.

My doctor checked me over and said I was in good health. He thought it was my nerves. He gave me some pills that made me sleepy. I took them for a week and had no more trouble with my breathing.

Is it possible nerves could cause this? I have had this trouble for 10 years: I am now 26 and have two children.—Mrs. D.H.

Yes, it is possible for nerves to affect breathing, heart rate, and other physical functions.

Normally, we breathe automatically, without thinking about it. However, anxiety and tension sometimes lead to breathing too much (called hyperventilation).

This leads to too low a level of carbon dioxide in the blood (the dioxide level ordinarily governs our breathing rate).

The person who is hyperventilating becomes conscious of his breathing, tries to breathe too much, and makes his own trouble even worse. He gets his lungs full, has the idea that he needs to breathe more, yet can't. So he develops a feeling of not being able to catch his breath when actually he has more than he needs.

This sort of thing is not particularly unusual in colleges, especially around examination

time. One simple measure, which works except in extreme cases, is to have the patient hold a paper bag to his face, and breathe in and out — he thus re-inhales some of the carbon dioxide that he has exhaled, his dioxide level goes back to or toward normal, and presently he feels better.

Along with this, he needs to be reassured that nothing terrible is happening to him, and that he should relax and let nature take its course. Sometimes medication may be used to help him relax.

This helped you, your letter says. The pills, rather than actually "making" you sleepy, probably merely helped you relax.

Dear Dr. Thosteson: I have diabetes. Please tell me what my blood sugar should be an hour after I eat breakfast.—Mrs. L.E.

A level of 180 milligrams or less would be acceptable — but a more significant reading would be two or three hours after a meal. That gives a better index of how well you are utilizing sugar, and whether an adjustment in diet or medication is advisable. Fur-

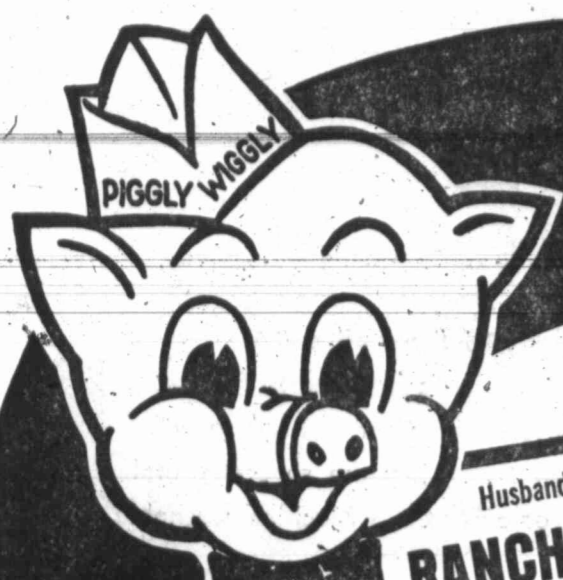

## ACCUSED BANK BANDITS HELD

MARSHALL, TEX. (AP) — A man and a woman captured in Texarkana, Ark. were arraigned here in connection with the \$14,000 robbery Monday at the Security State Bank at Elysian Fields.

Jailed in lieu of \$20,000 bond were Ronald J. Ramagosa, of White Castle, La., and Ann Mahana, 24, of Dallas.

The money taken in the robbery was recovered.

# Tale Of Tangled Intrigue Unravels At Cocaine Trial

DALLAS (AP)—An apparently healthy pilot who suddenly dropped dead and a woman in terror of federal agents whom she mistook for Mafia mobsters were new elements in the tale of tangled intrigue told at the alleged cocaine smuggling conspiracy trial Wednesday.

**FREE MAN**  
One man was dismissed from the case on orders of U.S. Dist. Judge Sarah T. Hughes, who accepted his lawyer's argument that his role in the alleged conspiracy had not been proved. Elis Fernandez-Gomez, 42, of Miami, Fla., and Panama City, walked out of court a free man.

Still facing the federal charges were Joaquin Him Gonzalez, 42, air-traffic controller at the Panama airport, Robert

L. Robertson, 47, former head of a Dallas aviation firm bearing his name, and James D. Vicars, 40, of Hurst, Tex. All pleaded innocent to the charges in the five-count indictment.

**CLOSE FRIEND**  
A jury of 10 men and two women spends a fourth day on the case today. The government rested its case Wednesday. The pilot who died was Hobart Higgins and his sudden death June 20, 1970, surprised most of his friends, one witness testified. He had passed his physical for renewal of his pilot's license only a few weeks before.

Higgins used to fly for Robertson and had been a close friend of his since World War II.

Jack Arosemena, son of Mrs. Lydia Arosemena, Panama consul in Dallas, testified that he was in Robertson's office doing summer work at the time word was received of Higgins' death from an apparent heart attack.

"I was surprised by his sudden death as were most of his friends," said Arosemena. "He looked a very healthy man. He didn't smoke, he didn't drink and he exercised daily."

The witness said Robertson was greatly upset by Higgins' death and "we feared he would come down with a heart attack."

**VERY SUDDEN**  
Mrs. Velina Gibbons, of Lewisville, Tex., who took the stand later, had been working as executive secretary in Robertson's office when Higgins died.

"It was very sudden," she said. "I'd talked to him at twenty before eleven and at 11:30 they called to say he was dead. I said I don't like bad jokes..."

She said Higgins was about 61 years old. Robertson took his death very hard, she said. "It was a great shock."

Mrs. Gibbons, who has three teen-age children by her first

marriage, at one stage was Robertson's second wife, she testified. But his ex-wife from his first marriage claimed there were flaws in the divorce and threatened to file suit for bigamy.

**I LOVE HIM**  
"We were advised to get annulment so the bigamy charges could not be pressed," said Mrs. Gibbons. "And this we did."

She said of Robertson, in a voice near tears: "I still love him very much." The children, she said, had adopted Robertson as "their real dad."

Mrs. Gibbons said Robertson changed completely after Higgins' death.

They made a trip to Panama, where Robertson had business with the COPA airline, and he was under a great strain, she said. "He was very irritable, very edgy, and it didn't change when we came back."

After testifying how Robertson brought home a package which he collected from Higgins' garage, Mrs. Gibbons told of the pressure they lived under.

**DIDN'T UNDERSTAND**  
"Bob was irritable all the time, telling me that I must be cautious, careful, but I didn't understand why."

She described his attitude as "frightened all the time" from the moment that cocaine came into his possession. And she added: "We learned things about Hobart's (Higgins) past which we had never known—about Hobart and his associates in South America."

Mrs. Gibbons, an attractive brunette, went on to tell how she began to notice that she was being followed.

## Arab Newspapers Whipping Up Anti-American Campaign

By The Associated Press  
Arab anger at the U.S. sale of more warplanes to Israel may result in hostile demonstrations in the Middle East the first week in May.

State Department aides said Wednesday that Rogers hoped to visit Israel, Egypt, Jordan, Lebanon and Saudi Arabia after he attends the meeting next week in Turkey of the Central Treaty Organization. But already newspapers in Beirut and Cairo are whipping up an anti-American campaign reminiscent of the criticism that sparked demonstrations during Undersecretary of State Joseph Sisco's visit to Beirut a year ago.

**ASK EXPLANATION**  
Beirut's Al Liwa said Lebanese Foreign Minister Khalil Abuhamad had asked U.S. Ambassador William Buffum for an explanation of the U.S. sale of 12 more Phantom fighter-bombers to Israel.

Al Shaab, another Beirut paper, asked the 100 million Arabs: "What are you waiting for in order to move against U.S. interests in the Arab world?"

A visit by Rogers would be the first by a U.S. Secretary of State to the Arab world since John Foster Dulles went to Cairo in 1955.

The Phantom deal shared the spotlight in Egypt with Israel's new conditions for an agreement permitting reopening of the Suez Canal. Cairo's semi-official newspaper Al Ahram said Egypt "categorically re-

jects" the Israeli demands, but sources in Jerusalem said the Israeli government believes it has advanced the issue to the stage of active negotiations.

Al Ahram repeated Egyptian President Anwar Sadat's condition that his troops must cross the canal to "assume their national responsibilities" if Israeli forces pull back from the east bank.

A primary Israeli condition for reopening of the waterway is that neither Egyptian nor Soviet forces cross it and occupy territory evacuated by the Israelis.

**CALL FOR PLEDGE**  
Israel also has called for an Egyptian-pledge not to resume the fighting and a guarantee that the canal issue be regarded separate from an overall Middle East settlement.

Al Ahram said that "reopening of the canal must be a procedural move towards an over-all settlement including total withdrawal from occupied Arab territories."

The Israelis have repeatedly rejected the idea of total withdrawal from land they occupied in the 1967 war. Israel says that it is going to improve its security by retaining the Golan Heights of Syria, Sharm el Sheikh protecting the waterway to the port of Eilat and the Gaza Strip, and is also going to hold on to the Arab sector of Jerusalem.

**SATISFACTION**  
In late March Sadat renewed his offer to reopen the Suez Canal if Israel made a partial withdrawal from the Sinai peninsula. He said Egyptian troops would cross the canal as the Is-

raelis pulled back, but Egypt would agree to "practical arrangements" to separate the Israeli and Egyptian forces.

Premier Golda Meir, at a meeting Monday with U.S. Ambassador Walworth Barbour, delivered Israel's conditions for an agreement with Egypt to reopen the canal.

MARY CURTIS

## VA Librarian Now On Duty

Miss Mary Curtis arrived in Big Spring April 9 and assumed the duties of chief librarian at the Big Spring Veterans Administration Hospital.

The VA Hospital has been without a librarian since Miss Bonnie Hartley transferred to the VA Hospital in Poplar Bluff, Mo., in December.

Miss Curtis moved to Big Spring from Ohio, where she earned her master of library science degree at Kent State University. She earned a BS in education at Kent State and a librarian's degree at Grinnell College, Iowa. She worked as a librarian in a junior high school while studying for her master's degree.

## Banquet To Honor CRMWD Officials

The Odessa Chamber of Commerce will host an appreciation dinner for present and past directors of the Colorado River Municipal Water District at 7:30 p.m. Tuesday in Exhibition Hall "A" of the Ector County Coliseum.

Big Spring directors planning to attend the event are H. W. Wright, R. W. Currie, John L. Taylor and Dr. Lee O. Rogers. The only living past director from Big Spring is Willard Sullivan. Deceased directors are Robert T. Piner, R. L. Cook, George G. White, George Mims, Curtis Driver and Ward R. Hall. Also planning to attend is Joe Pickle, editor of the Big Spring Herald, who has acted as secretary-treasurer of the water district since 1949.

The event will take place 20 years after the first spad of dirt was turned in the Colorado River bed in southwest Scurry County to launch the building of the most unique water districts of its kind in the country.

Highlight of the Chuck Wagon Gang steak dinner will be the appearance of J. B. Thomas as the principal speaker of the evening. Thomas, retired president of Texas Electric Service Co., is a Fort Worth resident and is the one man who motivated the formation of the CRMWD.

Tickets to the affair are available from the Big Spring Chamber of Commerce for \$7 each. Reservations should be made with the Chamber by 5 p.m. Monday.
