

COME INTO MY PARLOR — Paulette Miller, age 2, of Hazelwood, Mo., looks as if she's about to be devoured by a giant grasshopper at the Granite City, Ill., Army depot. Actually the youngster was standing at the rear of a CH-47 "Chinook" helicopter during Armed Forces Day ceremonies.

## Turkish Government Wages War Of Nerves With Rebels

ISTANBUL (AP) — The Turkish government waged a war of nerves today with leftist terrorists who held Israeli Consul-General Ephraim Elrom captive and threatened to kill him unless the government released all "so-called revolutionaries." Elrom's kidnapers from the Turkish People's Liberation Army said if their demand was not met by 5 p.m. Thursday—11 a.m. EDT—the 58-year-old Israeli would face a firing squad. The government replied that unless Elrom was released immediately it would enact a retroactive law permitting death sentences for kidnapers, all those harboring them and those failing to tell police of their whereabouts. It was believed this would apply to some 30 persons arrested in roundups since martial law was proclaimed April 26.

**KIDNAPED BY FOUR**  
Deputy Premier Sadi Kocak also announced that all persons known to have any connection with the People's Liberation Army and other revolutionary groups would be arrested immediately. Several hundred leftists already had been arrested in the past three weeks.

Elrom was a member of the Israeli police force for 27 years and was one of the chief interrogators of Nazi war criminal Adolf Eichmann. His assignment to Istanbul two years ago was his first diplomatic post.

He was kidnaped by four youths who entered his apartment building soon after noon Monday and seized the residents of a downstairs flat, a janitor, and nine other persons who called at the building in the next hour.

When Elrom returned from his office for lunch, they knocked him out with a pistol butt, covered his head with a sheet, and bundled him into a small sedan.

**FIRST TIME**  
The People's Liberation Army kidnaped four U.S. airmen in Ankara on March 4 and released them unharmed, but Elrom is the first diplomat kidnaped since the start of a wave of urban guerrilla activity three months ago. It is also the first time the Turkish extremists, apparently modeling their tactics on those of South American revolutionaries, have demanded the release of political prisoners.

Captured members of the People's Liberation Army have said their objective is the overthrow of the present government and its replacement by a Marxist regime without "imperialist" ties, meaning an end to Turkey's membership in the North Atlantic Treaty Organization.

Members have said the "army" is organized into cells of six members each, reportedly armed with modern weapons.

### VANDALISM

Vandalism to walls at the college Park Shopping Center was reported Monday to the police. Peace symbols and obscene words had been painted on the back walls of the buildings and fences behind the shopping center. No damage value was assessed to the walls or fence.

# EFFECTS OF RAIL STRIKE MOUNT Commuter Scramble Continues

By The Associated Press  
A dozen coal mines closed in West Virginia, some auto workers were on reduced hours and two major cereal makers fur-loughed 3,500 employees today under the mounting impact of a two-day-old national rail strike.

In West Virginia, hundreds of workers were turned away from their jobs on the morning shift, including employees at six mines owned by Consolidation Coal Co., one of the nation's largest producers. A spokesman said all mines in the state could be shut down Wednesday if the strike continued.

In Washington, the Interstate Commerce Commission ordered trucks, buses and inland barges and ships to give priority to hauling such items as food, fuel and health necessities. The Post Office said mail would continue to move under a contingency plan.

**SLOW PARADE**  
For a second day, more than 300,000 commuters jammed buses, subways and car pools in a slow-moving parade to major cities.

Produce and citrus growers in Texas and Florida watched as tons of their perishable prod-

ucts piled up on rail sidings and terminals.

While Congress weighed emergency legislation to end the walkout by the AFL-CIO Brotherhood of Railroad Signalmen, the strike sent tremors of impending paralysis through the nation's economy.

Many coal companies in West Virginia, the nation's top producing state, advised workers Monday that there would be no work today. U.S. Steel, the nation's biggest producer of steel, cut back coke production by about 10 per cent Monday because of the strike and said that if the walkout lasted 48 hours "the problems will really start to get serious."

**LAYOFFS**  
A spokesman for Bethlehem Steel Corp. said the company can operate for a day or two but then "we will have to curtail operations and begin major employe layoffs."

In the auto industry, Chrysler Corp. and General Motors Corp. put some plants on short shifts Monday. American Motors Corp. said it would "shut down, period," if nothing is settled by Wednesday night.

Despite the growing seriousness of the situation, there was

a lighter side to the walkout as well.

Nineteen circus elephants, stranded in a New Jersey rail yard, walked through Lincoln Tunnel under the Hudson River Monday night so the show could go on today in New York City.

The strike, which came on the first day of National Transportation Week, delayed the start of some trains in the Amtrak system—the government-run operation to improve passenger service.

**MAIL MOVING**  
The Santa Fe's Amtrak-operated passenger trains made runs to San Diego and Chicago from Los Angeles Monday and there was a scheduled run to Seattle today.

Livestock movement was reported generally unaffected by the strike but produce growers were in a different situation.

Supervisory personnel on most of the nation's railroads worked Monday to move perishable shipments that were en route when the strike started to places where they could be transferred to refrigerated trucks.

Postmaster General Winton M. Blount announced in Washington Monday that he had in-

voiced the department's contingency plans to keep mail moving. Airmail, first-class, registered and military mail will be accepted and delivered, he said, as will second-class, third-class and fourth-class mail for destinations within a specified distance of the point of origin.

WINS HIGHEST ELECTIVE OFFICE — Lois H. Stair, 47, a Wisconsin church school teacher and business woman, became the first woman to head the annual assembly of the 3.1 million members of the United Presbyterian Church, U.S.A., in balloting at Rochester, N.Y. She was elected moderator of the governing body of the church from a field of four candidates on the third ballot. The 10-day national convention began Monday.

## Silt Slated To Cloud Sky In West Texas

By The Associated Press  
Cooler weather blustered across Texas today along a course marked by flailing winds and occasionally heavy thunderstorms.

Turbulence developed quickly during the evening and persisted this morning as the latest cold front ran into warm air and stiff south winds in its path toward the south and east.

Hailstones the size of golf balls bounced off the rooftops at Big Spring and there was smaller hail in other places, including Midland and Snyder.

By daylight the forward edge of the frontal system stretched from near Quanah to Lamesa and westward into an area south of El Paso. It was expected to shove into Central Texas by tonight and the southeast part of the state Wednesday.

The unruly weather caused of-ficial forecasters to put six counties—Clay, Cooke, Hardeman, Montague, Wichita and Wilbarger—under a tornado watch until midnight.

Thereafter they posted a severe thunderstorm watch which was in force until 7 a.m. today for 47 counties in West and Central Texas, plus 10 in Oklahoma. The alert covered a 140-mile corridor centered on a line from southwest of Abilene past Ardmore, Okla.

## 5 Per Cent SS Increase Voted

WASHINGTON (AP) — The House Ways and Means Committee has given final approval to a bill carrying a 5-per-cent increase in Social Security benefits and the basics of President Nixon's welfare-reform plan.

"I have been assured by the President himself that the administration is in full support of this bill," the committee chairman, Rep. Wilbur D. Mills, D-Ark., said Monday.

**TIED TO WELFARE**  
Although President Nixon would have preferred not to have the benefit increases tied to welfare, Mills said, the \$12-billion legislation has bipartisan backing and should clear the House easily.

The estimated \$2.1-billion benefit boost would take effect June 1, 1972, on the heels of a 10-per-cent increase this year and a 15-per-cent hike last year.

It was written in by a 13-12 vote Monday after Rep. Joe D. Waggoner Jr., D-La., shifted his position from last Thursday.

The welfare portion of the measure, a modification of Nixon's family assistance plan, was criticized anew by the National Welfare Rights Organization and a Coalition, Campaign for Adequate Welfare Reform Now.

"The bill is an insurance policy for state treasuries but hurts poor people, especially women and children," said

George A. Wiley, executive director of the National Welfare Rights Organization.

"It is worse than the present welfare system," commented David M. Ackerman of the National Council of Churches, a member of the Coalition.

By establishing a \$2,400 income floor for families of four, the Federal government would take on a bigger share of the nation's welfare costs.

**FEDERAL SCREENING**  
Mills said the measure would make it harder to get on welfare and easier to get off. He cited federal regulated screening and uniform national standards for eligibility, and job training and financing of public service jobs.

The proposed Social Security benefit increase next year would impose no immediate payroll tax hikes beyond those already contained in the measure to pay for the boost passed earlier this year. That would mean a \$145 tax increase next year for a worker earning \$10,200 or more, and an equal amount to be paid by his employer.

The bill provides for automatic increases whenever the cost of living exceeds 3 per cent, which, under economic projections, would occur Jan. 1, 1973, Mills said. But another provision would put off the automatic increase until 1974 if the 5-per-cent raise is enacted.

## German Says Presence Of Yanks Prevent War

DUISDORF, Germany (AP) — "The presence of the Americans prevents a war," says the commander of West Germany's army, arguing against Sen. Mike Mansfield's proposal to bring home half the U.S. troops in Europe.

Gen. Ulrich de Maiziere said in an interview Monday American troops provide more protection against attack by the Soviet Union than the same number of West Germans or Dutch because "no one else could play the same role."

"The difference is this," said the inspector general of the Bundeswehr. "No Russian will attempt an attack, if, when he attacks, he meets an American... The Soviets would not risk such a meeting because they would run the immediate risk of coming up against American nuclear power."

soldiers as the Senate majority leader proposes, de Maiziere asserted: "I would have to ask myself if the Americans then would be ready to respond with their nuclear power if it became necessary."

De Maiziere added: "I have complete confidence in the acceptance by the Americans of their alliance responsibilities... But another question is whether a potential aggressor also has this confidence... Every weakening of the U.S. presence in Europe could lead to a miscalculation by Moscow that the Americans had weakened their interest in Europe."

Should American forces be reduced from 300,000 to 150,000

# Tally Indicates Move To Revive SST Will Fizzle

WASHINGTON (AP) — The American supersonic transport, revived last week by the House will find no comfort in the Senate, a survey shows.

Only 42 senators are committed to federal subsidies for SST development, according to an Associated Press poll, while 52 are firmly against the project.

The tally could rise even more against the plane by the time the Senate votes Wednesday because some members who supported the SST in the past indicate they are strongly considering switching positions. Since the last SST vote, March 24, when the roll-call was 51-46 to cut off spending,

one senator has switched publicly while no SST opponent has gone to the other side.

While the same elements are at work against the SST as in the past—environmental protectionists and critics of government spending practices—a new and apparently telling argument has been picked up from an unlikely source: William Allen, board chairman of Boeing Co., prime SST contractor.

Again and again in Senate debate opponents have pointed to Allen's statement that a start-up for renewed SST production will cost between \$500 million and \$1 billion.

Allen made the estimate after last week's 201-197 House vote to turn the SST termination fund into revival money. Last March the House joined the Senate in stopping development subsidies after previously supporting the spending.

Previous SST supporters who said they would vote against the project or were wavering cited Allen's statements as prime reasons.

Sen. Allen J. Ellender, D-La., chairman of the Senate Appropriations Committee, was an SST leader in previous Senate rounds but said Monday he will be against the project "from here out."

Ellender said he believes the House had voted "more or less in the dark" to revive SST and would have taken the opposite action had it heard Allen's cost estimates.

Among those who said they were considering moving to the SST opposition were Sens. Mike Gravel, D-Alaska, and William E. Brock R-Tenn.

## An Unmeaty Haul

PATENSIE, South Africa (AP) — Thieves stole traffic cop W. J. Deyzel's official station wagon, and used it to haul off a butcher shop's safe. The vehicle was recovered undamaged and the safe emptied of \$36.

## Houston Urban League Funded

HOUSTON (AP)—The Houston Urban League has been funded through its national office by the U.S. Department of Labor for a one-year, \$93,000 on-the-job training program for the unemployed and the underemployed.

League officials said five companies have already agreed to do help on training programs and 15 more have tentatively agreed to do so. They hope to place 200 trainees this year.

# Revenue Sharing Fuss Cross-Country Affair

WASHINGTON (AP) — The running debate over President Nixon's \$5 billion revenue sharing plan is becoming a cross-country affair.

The leading long-distance runners, each with his own style, are Vice President Spiro T. Agnew and House Ways and Means Committee Chairman Wilbur D. Mills.

Mills says there is no master plan for him to follow the vice president around and try to demolish his arguments for the administration's prime fiscal proposal.

AGNEW'S VIEW  
"But I'm always glad, when invited to give people the other point of view," he added.

Agnew boosted revenue sharing before the Tennessee legislature in Nashville May 5. One week later, Mills delivered to the same audience his strongest attack to date on the plan. "Some said I changed their minds," he said.

Agnew spoke to the North Carolina legislature in Raleigh

## Attack Virtually Wipes Out Small Laotian Town

SAIGON (AP) — A heavy rocket attack virtually wiped out the small Laotian town of Ban Dong Hene on the western edge of the Ho Chi Minh trail, in the second day of stepped-up assaults by North Vietnamese forces in the Laotian panhandle, authorities reported.

BLACKMAIL  
Some veteran observers of the Laotian scene said the surge of attacks may be an attempt to pressure Premier Souvanna Phouma into demanding an end to U.S. bombing of the North Vietnamese supply routes through southern Laos.

While action in South Vietnam and Cambodia was generally light and scattered, one official commented that "the Communists are hitting more places at the same time in Laos than I can remember ever before."

The North Vietnamese on Sunday seized the towns of Pak Song and Ban Houei Sai, giving them control of almost all of the Bolovens plateau, at the southern end of the panhandle.

Dong Hene is about 100 miles northwest of the plateau, on Highway 9 between the Laotian government's regional military headquarters at Savannakhet and Muong Phalane, on the western edge of the Ho Chi Minh trail. The North Vietnamese took Muong Phalane two weeks ago.

Dong Hene had a population of about 1,500. An official in Vientiane, the Laotian capital, said soldiers and civilians began fleeing when the first barrage of rockets came in Monday afternoon.

UP IN FLAMES  
"About 75 per cent of Dong Hene went up in flames," he reported, but he said he had no information on casualties.

At least 50 Laotian government troops were reported killed in the battle Sunday for Pak Song.

In another rocket attack in Laos, enemy gunners blew up an ammunition dump and damaged the airstrip at Paksane, on the Mekong river 75 miles northeast of Vientiane. Three civilians and three government troops were reported wounded.

In Saigon, South Vietnamese headquarters reported an attack against a government position on the eastern edge of the A Shau valley. A communique said that North Vietnamese sappers moving behind a 40-round mortar barrage attempted to penetrate the position but were driven back and five were killed. There were no South Vietnamese casualties, the communique said.

South Vietnamese infantrymen reported killing 12 enemy soldiers in a clash 35 miles southeast of Phnom Penh, in Eastern Cambodia. Three South Vietnamese were reported killed and six wounded.

### Public Zone Hearings Set

Two public hearings are to be held by the zoning board of adjustment in the city commission room at city hall May 25 at 5 p.m. on two requests for variances.

Dean Holland, 1217 Ridgeroad Drive, is seeking permission to build a carport attached to his residence to come to within 23 feet of the front property line.

J. W. Neece, 1302 Lincoln, is asking permission to build a carport attached to his residence to come to within one foot of the property line on the side of his lot. These requests require that a variance for each be granted by the board.

All persons who own property within 200 feet of either man's property are requested to attend this meeting and will be given the opportunity to state approval or disapproval of the requests.

### Horoscope Forecast

### Brownouts, Blackouts Are Feared This Summer

WASHINGTON (AP) — The federal government announced Monday a major program to persuade the nation to conserve electric power, as the best way of avoiding power shortages this summer and in the future.

The Office of Emergency Preparedness, a branch of the White House, and brownouts and blackouts may result this summer from a shortage of electric generating capacity

and bottlenecks in transmission facilities.

OEP director George A. Lincoln, chairman of a presidential board on fuel and energy problems, said the board would coordinate efforts to achieve power conservation by the public, by industry, and by government at all levels, on a voluntary basis.

As the Federal Power Commission reported earlier this month, Lincoln pointed out potentially inadequate generating capacity throughout most of the nation, with particular problems in the area from the Midwest to the Atlantic seaboard. Lincoln, who has recently been emphasizing the need to develop the nation's fuel resources, admitted that more fuel would not solve this summer's electric problems, as power plants already appeared well-stocked.

The OEP report said "electric power conservation during times of peak usage is the key to avoiding major power interruptions this summer."

It said most of the nation would face "an especially tight power capacity problem unless normal summer temperatures prevail and in general, system capacity performs as scheduled."

"Equipment breakdowns or unscheduled outages similar to those which have occurred so far in calendar 1971 could aggravate the situation."

Under the energy conservation program, efforts by the public will be led by the President's special assistant for consumer affairs, Virginia Knauer, aided by the Environmental Protection Agency and the National Bureau of Standards.

### Soap Box Derby Clinic Is Thursday

Boys between the ages of 11 and 15 years interested in the Soap Box Derby will have a chance to learn all about the contest here Thursday.

Robert Williams, general chairman for the Midland Jaycees, sponsors of the area event, and James Yakshaw, director, will be at Pollard Chevrolet, 1501 East Fourth, at 8 p.m. Thursday for a Soap Box Derby clinic.

In addition to answering questions about participation and construction, they will discuss the advantages and disadvantages of lay-down racers (where the driver is practically lying down rather than sitting up). They also will project a film about the 1970 race, which was won by Steve Suter, Midland.

Parents of interested boys are invited to attend the clinic with their boys so they can learn more about it.

The bidding:  
East South West North  
3♥ Pass Pass Dble.  
Pass 4♣ Pass 5♣  
Pass Pass Dble. Pass  
Pass Pass

Opening lead: Ace of ♥ Holding six winners and a worthless hand defensively, East took advantage of his first seat position to preempt with an opening bid of three hearts. The next two players passed, and North properly reopened the proceedings with a takeout double. South dutifully responded with four clubs and now North took the club by the horns and carried on to game. There was no way to determine how much or little his partner had because the preempt had consumed so much space. There appeared to be more to gain than loss by trying for game. West doubled the final bid.

West opened the ace of hearts and continued the suit. South winning the second trick with the king after he discarded a spade from dummy. West's double pretty well marked him with the missing high card strength — which indicated that declarer could expect both the queen of diamonds and the king of spades to be favorably located for him. There appeared nothing more to the

hand than to draw trumps.

A club was led and when West followed with the five, the king was put up from dummy, a small club was returned and South put up the ten after East showed out. West ducked again and now declarer had something to think about. If he continued with the trumps, West could put up the ace and then return a diamond to lock his opponent in the dummy. South would be obliged to run the diamonds while West still retained the nine of clubs. On the fourth round declarer would have a choice of losing plays. If he discards a spade, West ruffs for the setting trick. If South ruffs the fourth diamond with the seven, he subjects himself to an overruff. If he ruffs with the queen, it establishes West's nine as the master trump.

South solved his problem by temporarily abandoning trumps, to lead a diamond and finessing North's jack. He then proceeded to cash the ace and king of diamonds in order to remove West's holding in that suit. Now a club was led to the jack and West was in with the ace.

Since West had only black cards left, there was no way he could prevent South from getting back in to draw the last trump. West chose to exit with a small spade. Declarer played the nine from dummy and when East followed with the five, South overtook with the jack of spades and drew the last trump and claimed the balance with good spades and diamonds.

Observe that if South does not play three rounds of diamonds before continuing the trump drawing, he will leave West with a diamond for an exit card that locks him up in the dummy before he has finished drawing trump.

# Happy Divorce

Dear Abby  
Abigail Van Buren

**DEAR ABBY:** Have you ever heard of a divorce party? Albert (my "ex") and his new wife are giving it to celebrate the anniversary of his wife's divorce. Albert says he has never been happier in his life. I am about to marry a terrific guy and I've never been happier. Albert says they aren't inviting anyone who hasn't been divorced. (No sense wasting good liquor on people who can't appreciate the happiness a divorce brings," he says.) My fiance says he'll go if I want to, but it sounds kooky to him. What do you think?  
**DIVORCED AND HAPPY**  
**DEAR DIVORCED:** It sounds kooky to me, too. But then I've never been divorced.

**DEAR ABBY:** My boy friend will soon receive his Ph.D. When he gets it should I start introducing him as "Doctor"? I don't want to ask him because I am ignorant. NOT SURE.

**DEAR NOT:** Not every Ph.D. wants to be addressed as "Doctor." Ask your boy friend how he feels about it. It's not a matter of ignorance. It's a matter of preference.

**DEAR ABBY:** I am 18 years old and have been married for three months. My problem is that both my husband and I overslept one morning and we were late to work, so now my mother-in-law calls us every morning to be sure we are up. I have asked her not to, but

she calls anyway. She blames me because my husband overslept. Abby, it happened only once, and that was because we forgot to set the alarm. She says it's a wife's duty to get her husband up in the morning. How can I get her to quit calling us? I am pregnant and don't feel so hot anyway. And my husband is about to tear his hair out. YOUNG WIFE.  
**DEAR WIFE:** Your mother-in-law is correct. It is a wife's duty to get her husband up — not his mother's. She may mean well, but she should respect your wishes when you ask her not to call. If you want to put an end to it, when the phone rings — don't answer it.

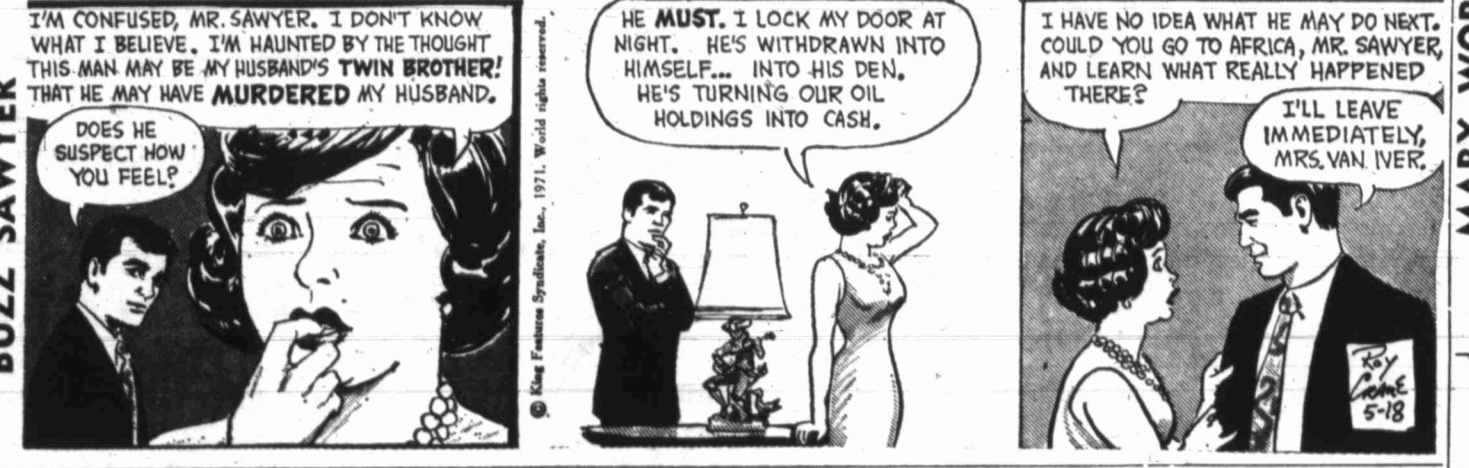

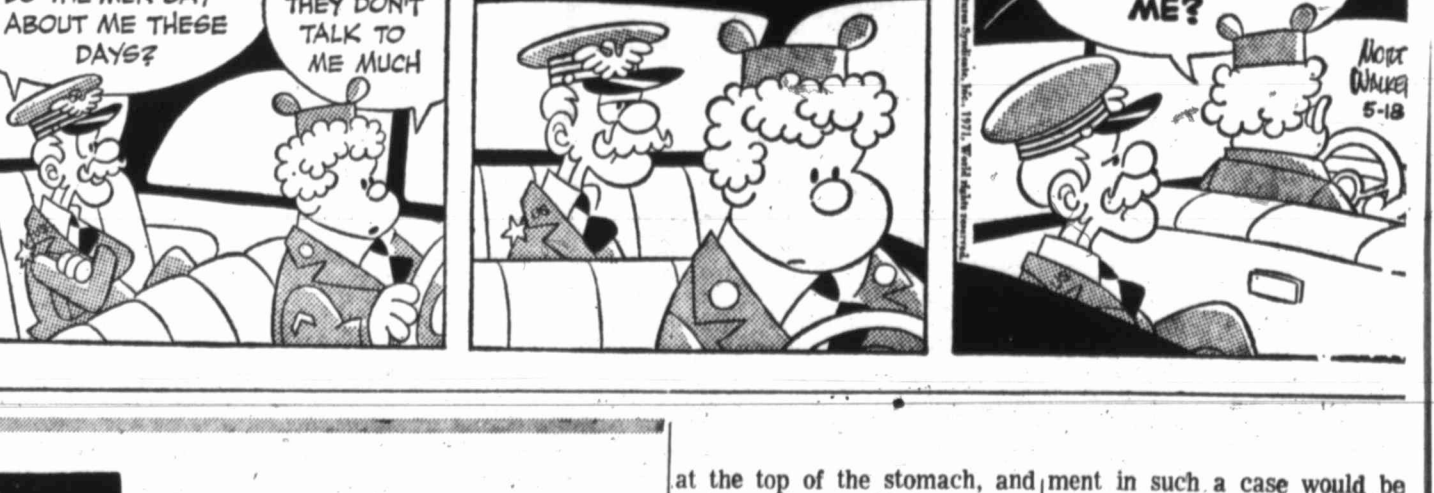

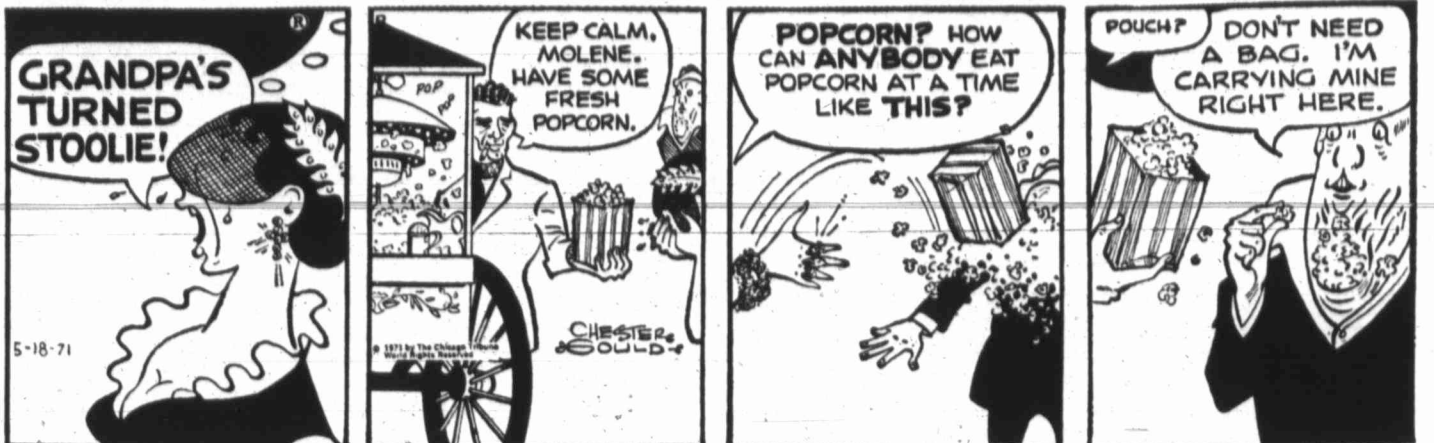

**DEAR ABBY:** I have a 15-year-old son who is in the 10th grade. A few years ago when he made his confirmation he received a birthstone ring with five diamond chips in it. It's worth about \$100. Well, my son gave that ring to a girl he went with for only two weeks. I told him that ring was a gift and he had no right to give it away. He got very angry at me and said he would get it back but he would not wear it again. He says the ring

## No Tomatoes

BUENA VISTA, Colo. (AP) — The Head Lettuce Days celebration here every August pays tribute to the vegetable raised in the fertile river bottoms and marketed nationwide.

## Old Fashions?

NEW YORK (AP) — Many of today's "hot" fashion numbers can be found in the Traphagen School of Fashion museum which includes items dating back to 1862. "This proves there's nothing really new under the fashion sun," says school director Wanda Wdowka.

### Damage To Ears

Your Good Health  
Dr. G. C. Thosteson

Dear Dr. Thosteson: A few months ago on the bus someone threw a firecracker that exploded near my ear. Since then there has been a continual humming in my ear, and when someone speaks, the words seem to echo back. Whenever I take a deep breath or swallow, the ear pops, and in cold weather I had a continual earache. There is also some loss of hearing.

Will time take care of this, or is it possible that the ear has been damaged? I am 48, had no ear trouble before.—E.J.

Unfortunately, this is the sort of problem that I cannot try to answer. Such a loud, close noise can damage the mechanism of the ear. This may be temporary, but it can also be permanent.

The only thing I can suggest is that you have an ear specialist evaluate your condition. If you haven't done that already, do so at once. You must not postpone treatment — if that is necessary — too long, and "a few months" has been a long time already.

Dear Sir: I am 84 and have had a hiatal hernia for quite some time. Is there any support for the abdominal region that would help a hernia of this type? I have heard of abdominal binders, etc.—R.G.B.

A hiatal hernia is quite different from the hernias in the groin or abdominal wall. It is at the top of the stomach, and is internal, so a binder or support of that type would not help. If you are fat, weight reduction is very important. To understand what a hiatal hernia is, and where, take the time to read my booklet, "Hiatal Hernia and Eight Ways to Combat It." Send 25 cents in coin and a long, self-addressed, stamped envelope.

Dear Dr. Thosteson: For 40 years or more an old violet-ray, high-frequency generator has been lying around the house and very seldom used.

Now I have a very severe skin rash on both hands, and would like to know whether it is a safe machine to use on the body. Do high-frequency violet rays affect the body in any way?—R.L.R.

I certainly would not trust or use a 40-year-old gadget of that type.

First of all, the rash on your hands may well be a contact dermatitis, resulting from contact with oil, soaps, detergents, metals, or quite a variety of things, and the proper treatment in such a case would be to avoid contact with the offending material.

It would be the sheerest guesswork whether ultra-violet would benefit your hands in any way.

Leave the machine alone, and go to your doctor or to a dermatologist for a diagnosis of your trouble.

Diverticulosis is a bulge in the digestive tract. To become more familiar with the subject, write in care of The Herald for Dr. Thosteson's booklet, "Don't Let Diverticulosis Throw You," enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

### It's Slack Mail

PRETORIA, South Africa (AP) — The post office polled its 15,000 women workers and found that 99 per cent of them favored wearing slacks during working hours. Permission was duly granted.

# Former Big Springer Gets Five-Year Probated Term

ANSON — Robert Marvin Lindley, 46, of 1705 S. 3rd in Abilene and formerly of Big Spring, was given a five-year probated prison term Monday in the Nov. 8, 1970, death of Mrs. Linda Elizabeth Ramos DeLeon, 23.

Lindley, charged with murder with a motor vehicle under a plea of guilty in 104th District Court in Anson. He admitted to being intoxicated when his car, pointed in the wrong direction, collided with another on U.S. 83 in the Hawley city limits. Mrs. DeLeon, an expectant mother, was killed.

Lindley, the operations manager for KTXS-TV said he had had a "few beers" and then stopped at a private club for "a couple of drinks." He said he remembered being on the highway but not the accident.

Two witnesses testified he was "very intoxicated." A Department of Public Safety chemist testified that Lindley's blood alcohol content was .21 per cent after being brought to the hospital and that "anyone above .10 is intoxicated. In my opinion, an individual would be staggering drunk at this point" (.21).

Lindley was hospitalized for five weeks and off work three months as a result of a crushed knee, broken arm, and broken leg he received in the accident.

Tom Neely, Wichita Falls attorney and nephew of Lindley, told the jury that his client was "a mental and physical cripple as a result of this accident."

Assistant District Attorney Lynn Ingalsbe recalled Lindley's testimony that he had been convicted of driving while in-

toxicated in the wrong lane on IS 20 near Merkel (and in Howard County in 1947) and added "I couldn't be proud of a verdict that turns a man like this back on the public. I'm ashamed that five years in prison is the most you can give him."

Lindley stood with the aid of crutches as he told Judge J. Neil Daniel that he wished to

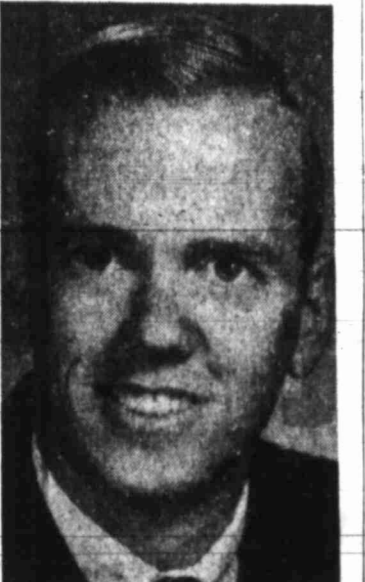

MELVIN C. HARBIN

# Angelo Man Speaks Here

Melvin Carroll Harbin, Sa Angelo, will address the monthly meeting of the Big Spring Life Underwriters here Thursday.

He will speak at the luncheon at the Downtown Tea Room at a meeting which also will include election of officers and a report from the Medic Alert project. Jim Carleton, president, will be in charge of the meeting.

A veteran of World War II, he graduated from Hardin Junior College at Wichita Falls and took his BBA from Baylor in 1949. He started a real estate and general insurance agency, then joined American-Amicable Life as agent in July, 1964. For the past six and a half years, he has been in the company's top producers club and has qualified five years for National Quality Awards. His (San Angelo) association named him "man of the year" in 1970. Presently he is president of his association and is active in the state organization.

JACKIE E. HIPPI

# Local Man Gets Doctorate

Jackie E. Hipp, son of Mr. and Mrs. N. M. Hipp, 500 E. 13th, received his doctorate in electrical engineering Saturday from Texas Tech University.

Hipp is a 1962 graduate of Big Spring High School, and he attended Howard County Junior College where he was named to Who's Who for two years. He received his bachelor of science degree in electrical engineering in 1966 and his masters of science in electrical engineering in 1968. Both degrees are from Texas Tech.

A member of the Institute of Electrical and Electronic Engineers, Hipp is presently the senior research engineer at Southwest Research Institute in San Antonio.

Hipp and his wife, Kathy, have a daughter, Kristi, one-year-old. Mrs. Hipp is the former Kathy Love, daughter of Mr. and Mrs. Bill Love, Lamesa.

# IRS Withholding Can Be Exempted

DALLAS — Students who work this summer may be entitled to exemption from income tax withholding, Ellis Campbell Jr., IRS district director for North Texas, said today.

Forms for claiming the exemption are available from Internal Revenue Service office if employers do not have them, he said. An employee who had no income tax liability last year and anticipates none for this year should use a Withholding Exemption Certificate, Form W-4E, to claim the exemption. For 1971, a single person who makes less than \$1,700 owes no tax.

# Scotland Yard Detective Dies

LONDON (AP) — William Hughes, 70, a Scotland Yard detective who was Sir Winston Churchill's bodyguard during the last part of World War II, died Monday. Hughes also guarded President Dwight D. Eisenhower when he visited Britain.

# Man Behind 8-Ball Fails To Post Bail

SAN ANTONIO (AP) — A young Brooklyn man, charged with threatening to hijack a passenger plane to Cuba, remained jailed today in lieu of \$25,000 bond.

Alexander Joseph Masucci, 21, a student at the University of the Americas in Mexico City, was arrested Saturday and arraigned on the charges before a U.S. magistrate, officials said. He was accused of telling stewardess Leslie Redinger of Dallas aboard a Braniff flight, "I've got a gun and I'm taking you all to Cuba," court records showed.

A deputy U.S. marshal arrested him at the airport but reported he was unarmed. Officials said he was carrying a case containing only an un-assembled pool cue stick.

The plane was en-route from Mexico City to Dallas and New York.

# \$15,000 Ring Of Wife Stolen

CHICAGO (AP) — Singer Billy Eckstine reported Monday that a ring valued at \$15,000 was missing along with other items from his hotel room.

Eckstine, who is appearing at a local night club, said the ring belonged to his wife and that the full loss had not been determined. He said the items apparently were taken sometime last week.

Charles Spurgin is with Sun Oil Company and was transferred to Delhi in October of last year.

# Scouts To Clean 'Big Spring' Site

A clean-up project for the Cosden-Lake and "big spring" area has been scheduled for 9:30 a.m. Saturday by Boy Scout Troop No. 1, sponsored by the Rotary Club.

All other troops in the Lone Star District are asked to join in this project, as well as other interested people. The clean-up is a public service project or good turn planned by the troop. The meeting place for all who will help is in front of the Cosden Country Club building.

# Water Is Flowing From Ward Wells

Water from the new Ward County well field should reach Odessa Wednesday, O. H. Ivie, general manager of the Colorado River Municipal Water District, said today.

Since last week water has been going into the main transmission line and was pushed eastward as rapidly as the booster stations were brought on. The third booster station was due for activation today which would push water over the high point of the line between the well field and the Odessa terminal storage. From that point the water can flow by gravity into Odessa.

Eight wells have been put into production in the well field southwest of Monahans, and these have a capability of filling the line. By the end of the week when Ivie said the district hopes to have water flowing on an operational basis into the Odessa reservoir, 15 wells will be operative. One other is in the process of completion, while the last well is to be drilled during early production.

By the end of the week, barring any hitches, the district should be in a position to meet the daily requirements of Odessa.

This will relieve pumping pressure on Lake F. V. Spence which is being pinched back gradually, and on Lake J. B. Thomas, Ivie added.

The new well field supply with a potential of 24,000,000 gallons a day, was ordered last December by the CRMWD

board as a hedge against prolonged drought. Bulk of the work to bring about the development of 17 wells, a 45-mile 33-in. supply line, and three booster pump stations has been accomplished within four months. The project is financed by \$6,750,000 in revenue bonds.

# Gen. Taute Takes Post At Lackland

Brig. Gen. A. F. Taute, formerly wing commander at Webb AFB, has been named deputy commander of the Lackland Military Training Center, Lackland AFB, it has been announced.

Gen. Taute was wing commander here from February, 1965, to December, 1965, and previously had served a tenure as deputy commander here.

His most recent assignment has been chief of the Military Assistance Advisory Group in Oslo, Norway. He is due to assume the Lackland assignment immediately.

# 'Red' Reappointed

HOUSTON (AP) — R. H. "Red" Fruel was officially re-appointed a commissioner of the Port of Houston Monday by the Harris County commissioners Court

# Plane Crash Cause Traced

WASHINGTON (AP) — The light plane that crashed at Tyler, Tex., May 14, 1970, killing all three occupants, had been damaged six hours earlier in a hard landing at Henderson, Tex., the National Transportation Safety Board said today.

The board said the 35-year-old pilot knew that the plane's left wing and aileron were damaged in the Henderson landing.

It attributed the fatal crash during an attempted landing at Tyler, to the previous damage and to the pilot's poor judgment in attempting to operate the flight with known deficiencies in the equipment.

The computerized report in the accident clause did not include the names of the victims.

# 'To Thine Own Self Be True'

KANSAS CITY (AP) — Harry S. Truman is a man who "never turned away a friend or backed away from a fight," the governor said. "He appeared in much better health than I expected."

# King's Checkup

OSLO, Norway (AP) — King Olav V enters a hospital today for a checkup following his ulcer operation last year.

A spokesman for the state hospital here said he expected the king to remain there about two days.

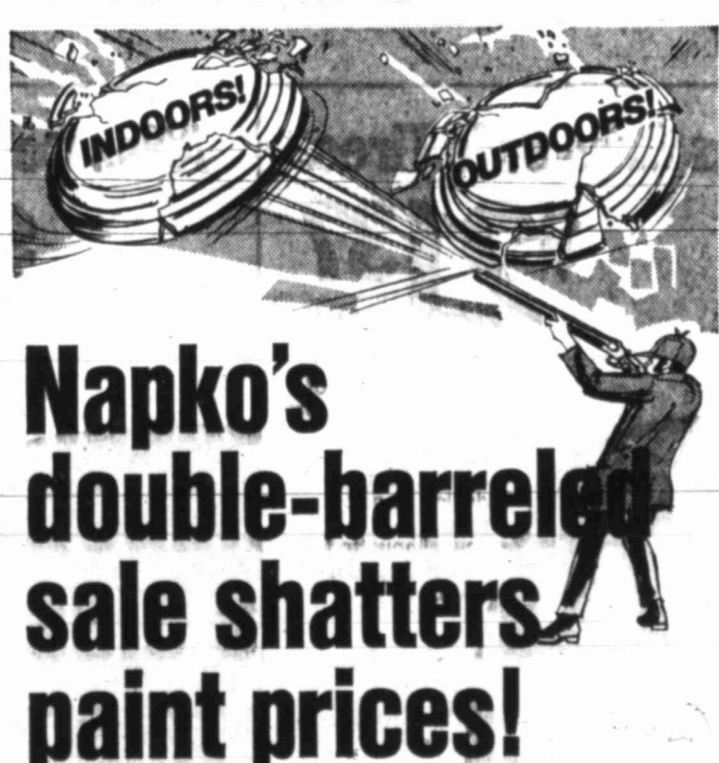

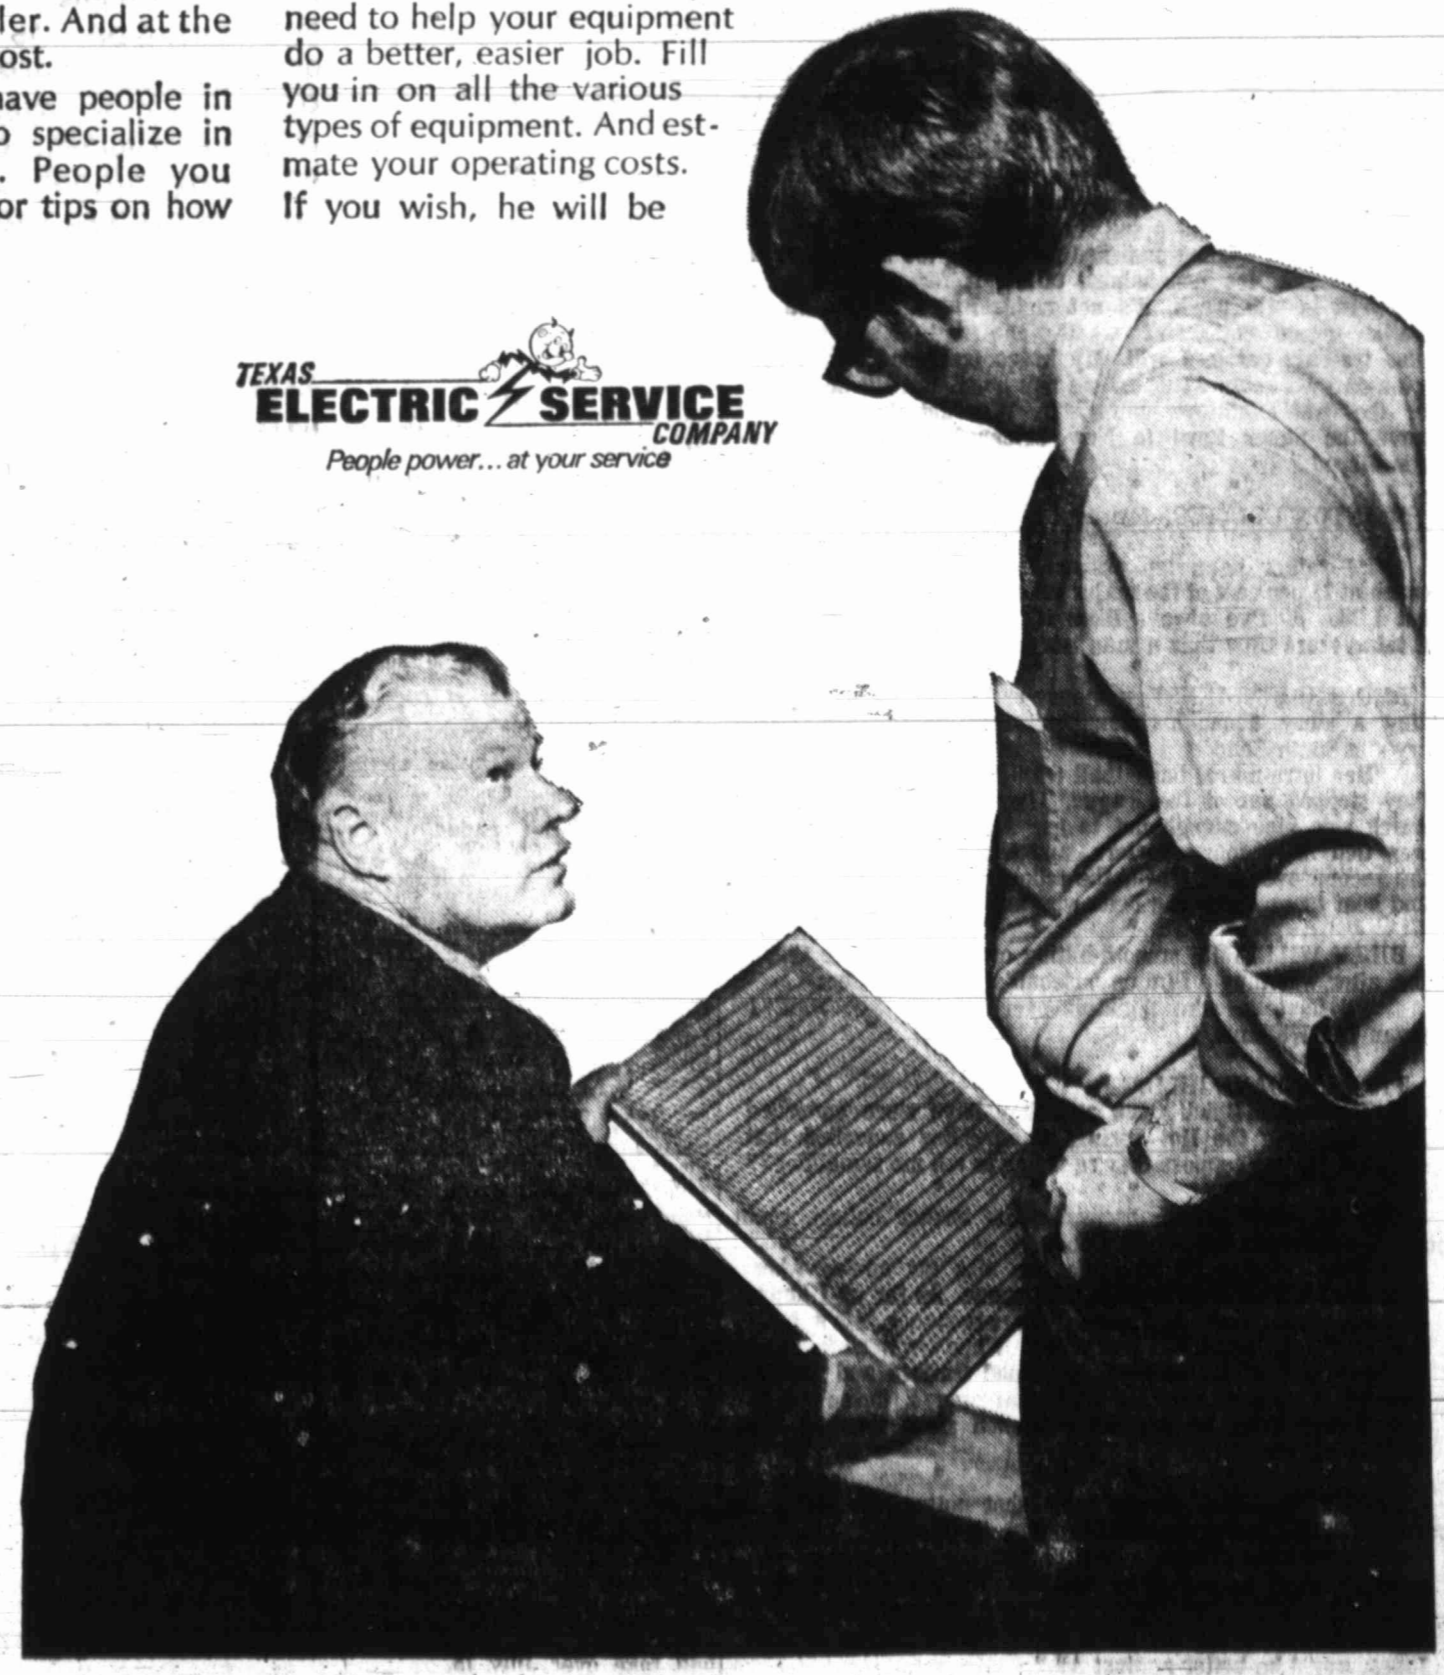

# At Texas Electric, People Power is at your service.

## Can one of our air conditioning specialists help you?

We can't sell you any air conditioning equipment. Or install it. Or service it. Because our business doesn't include doing any of these. Our business is selling electricity. And we want you to get the most value from every dollar's worth you buy from us. This means helping you get maximum comfort from the equipment you buy from your electric air conditioning dealer. And at the lowest operating cost. This is why we have people in the company who specialize in air conditioning. People you can call and ask for tips on how

to operate your air conditioning equipment with the greatest efficiency. Building or remodeling? Then an air conditioning specialist at Texas Electric can give you really helpful facts and advice, whether you're considering refrigerated window units or a central installation. He can tell you about the kinds and amount of insulation you need to help your equipment do a better, easier job. Fill you in on all the various types of equipment. And estimate your operating costs. If you wish, he will be

pleased to consult with the contractor of your choice in planning your air conditioning system. There is no charge for our help. It's yours for the asking. At Texas Electric, People Power is at your service.

# Twins' Blade Shaves Californians Clean

By The Associated Press  
Minnesota got three smooth shaves from one Blade and the California Angels were left with nothing but the nubs.  
Tom "The Blade" Hall came out of the Twins' bullpen in the ninth inning Monday night and struck out three successive pinch-hitters, stranding the tying run on third base and saving a 3-2 Minnesota victory over the Angels.  
The 155-pound fireballer working in relief of Bert Blyleven after singles by Ken McMullen and John Stephenson put the Twins in a deep hole with nobody out, fanned Billy Cowan, Ken Berry and Jim Fregosi to end the game.  
Elsewhere in the American League, Boston nipped Detroit 3-2, the New York Yankees downed Baltimore 6-3 and Cleveland beat Washington 6-3.

**OVERCOME LEAD**  
At Anaheim, the Twins overcame a 2-0 California lead on George Mitterwald's two-run homer and Jim Nettles' run-scoring single in the fifth inning.  
Blyleven, nipped for two unearned runs in the second went on to strike out 12 and started the Angels on five hits until the ninth, when McMullen stroked a leadoff single and scored to third on Stephenson's single.  
Hall, who struck out 184 batters in 155 innings last season, then came on to snuff out the rally.  
Rod Carew put the Twins started in the fifth with a bunt single—their first hit off left-hander Rudy May—and Mitterwald blasted his first homer of the year to tie it 2-2. Jim Hall followed with a double and Nettles, recalled from the minors over the weekend, stroked the decisive single.  
Alex Johnson, benched for two games by Angels' Manager Art Phillips because of his lackluster play, returned to the lineup and poked one hit in four trips to the plate.  
The Red Sox widened their East Division lead over second-place Baltimore to 2½ games, coming from behind on George Scott's two-run double in the fifth and then staving off the Tigers with the help of a sensational catch by left fielder Carl Vas 17,000.

(AP WIREPHOTO)

**CONTRACT FOR NOLAN**  
Dick Nolan, who coached the San Francisco 49ers to their first ever NFL divisional title last year, has been awarded a new five-year contract by the club. No salary terms were disclosed.

# ABA Crown Will Be Decided Tonight

SALT LAKE CITY, Utah only two hours after Kentucky (AP) — The Utah Stars and the Kentucky Colonels, bruised and exhausted after six rowdy games, will be telecast locally and back to Kentucky Basketball Association. Both teams were runners-up in their divisions, Kentucky losing out to Virginia in the East and Utah placing second to defending ABA champion Indiana in the West.  
The Stars took the first two games against Kentucky in the Salt Palace, lost the next two at Louisville, won at the Salt Palace and then lost at Louisville.  
The games at Louisville were decided in the closing seconds; the ones at Salt Lake, where Kentucky has yet to win in six games—including regular season, were not close.  
The winning team in tonight's game will split \$48,130 and the losing team, \$10,130.  
The coaches, Frank Ramsey of Kentucky and Bill Sharmann of Utah, played together for the Boston Celtics and they use the same plays. Both teams live by the fast break. And Ramsey and Sharmann have the same aims going into the final game.  
"We can't stand around," says Sharmann. "We play better when we run."  
"We've got to avoid turnovers and not slow down in the last quarter," Ramsey says. "That has happened to us in Utah."

# Wilson Fires 2-0 Shutout

HOUSTON (AP) — The Houston Astros pitcher Don Wilson's last shutout was his no-hit victory over Cincinnati on May 1, 1969.  
Monday night in the Astrodome, many games later, he repeated, silencing the San Diego Padres 2-0 on four hits, and his teammates were ready to dance in the streets.  
If there is one thing the Astros needed to get going, it is the old Don Wilson, the pitcher he used to be before tendonitis invaded his right shoulder.  
"It was his third straight victory this season, making his record 4-2.  
"The last three games I think I threw just as hard as any time before I hurt my arm," he said.  
You won't have to convince the Padres. They didn't get a runner past second base.

## QUARTERBACK CORNER Two Events Need Your Support

By PAUL SHAFER  
EX-GBC Co-Captain  
Just a few comments to get back in circulation. The end of the 1970-71 school year is near and there are two remaining high school events of real importance to the sporting community.  
Thursday night at 7:30 p.m. in the high school cafeteria, the second annual All-Sports Banquet will be held to honor all sports other than football. Our first banquet last year was an unqualified success with an overflow crowd.  
Highlight of the evening was the presentation of the year's best all-around athlete. Winner was Jimmy Farris.  
The award this time will be made by Estelle Bristow, wife of the legendary Obie.

event. We trust that you will preserve this fine event with your support.  
The second event is the annual Black-Gold game the following night (Friday) at Memorial Stadium. Game time is 8 o'clock. The freshman contest is scheduled for 5 p.m.  
The coaches and boys have all been working very hard and want to show you what we'll have for next year. If you missed the scrimmage last Saturday morning between the graduating Seniors and the Steers, you missed a real contest.  
The game was full of Bold Gold spirit, the Seniors proving they are still the best and the upcoming Steers proving they will be able to fill their shoes with no apologies.  
If you choose to stay away Friday you will be the loser.  
The Gold, the Quarterback Club and the coaches deserve your support. Shall we prove that we're more than an ordinary town?  
Sure, Big Spring is a fine place to live, but it could be better and you can help make it better. Take the trouble. See you at the arena.

SHAFER

## BS Merchants, Chippers Win

Morton's Chippers continued unchecked in City Softball league play Monday night, defeating Goodyear Tire, 3-0, behind the five-hit pitching of Cotton Mize.  
Jerald Cox scored the run Mize needed in the second after walking. He moved around on two misplays.  
The Chippers collected their other two runs in the fifth when Roy New and Bernard McMahan crossed the plate. New had doubled while McMahan reached base on a base on balls.  
Francis Johns and Danny Clendenin hit safely for Goodyear in the first but to no avail. In the sixth Gary Akins doubled and Clendenin singled for the losers but couldn't make it home.  
The Merchants scored in each of the first four innings but couldn't stay the Merchants' power.  
Steve DeValle had a big night for the Merchants, crashing out four hits in as many trips.  
Pitching was Steve DeValle (2-1), 7 2/3, 11 hits, 1 run, 1 error, 1 walk, 10 strikeouts. Catchers Mize and Jerald Cox. Relief pitcher, Francis Johns.

## Chippers Awarded Trophy In Meet

FORT WORTH — Wiegand Sorley's hit after walking and moving up on a wild pitch, championship honors in the Sorley and Jimmy Roger each drove out two hits in that national Fast Pitch Softball tournament here the past week end by defeating Clark's of Levelland, 6-0, in the title game.  
Third in the tournament was Pal's Waffle Shop, which turned back General Electric for the honor.  
The Big Spring Chippers won three of five starts in the tournament and wound up with the coveted Sportsmanship Award.  
The Chippers defeated the Wichita Falls Merchants, 3-1; Randolph AFB, 2-1; and Approved Electric, 7-3, while losing to Wiegand, 5-3, and University Baptist, 6-5.  
Wiegand edged the Chippers despite the fact that the Big Spring team outhit the champions-to-be, 10-7.  
The Chippers started off like the proverbial house afire against Wiegand, scoring three runs in the initial canto. They continued to hit but couldn't score again.  
Larry Powell banged out a double and a single and Roy New had two singles for Big Spring in that pivotal game Jimmy Roger and Jerald Cox crashed out two hits each for Big Spring in the opener against Wichita Falls. Powell hurled a two-hit game for the Chippers against Randolph but the Chippers couldn't nail it down until the seventh, when Morris Smith crossed the plate on Herb

Against Approved Electric, Al Oldfather and Roy New paced Big Spring's ten-hit offensive with two safeties each. One of Oldfather's blows was a home run.  
The Chippers again started fast against University Baptist, getting two runs in the first, one more in the second and two in the third but the Baptists banded four in the third to offset the early rallies.  
Roger again had two hits for Big Spring in that game to give him seven for the tournament.  
Mack Self of Wiegand was declared the best pitcher in the meet. David Hackney of the same team emerged as the leading hitter, with ten for 19 and a .526 average.  
Jimmy Pegigo of Pal's was declared the Most Valuable Player in the tournament.  
In all, 34 teams took part in the double elimination meet.

## B-B Shootoffs Set Saturday

The Texas Jaycee State B-B Gun Championships will be held Saturday in Irving.  
The shootoffs will be staged at the Twin Trails Ramrods Gun Club Range.  
Youngsters between 7-14 who have successfully completed a shooter education program sponsored by the Texas Jaycee Club are eligible to compete. Each state Jaycee chapter may enter one team (five shooters) and as many alternates as they desire.  
The course will be fired in the prone, standing, sitting and kneeling positions.

# Now in Big Spring: the beer that tastes as great as its name.

Milwaukee is the city that means beer. That's why it takes a lot of nerve to name a beer Old Milwaukee. It's a tough name to live up to. Unless you've got the beer. This beer has it. Old Milwaukee. The beer that tastes as great as its name. Pick up a 6-pak today.
