FOUR MONTHS AFTER TAKING OFFICE

## LBJ Rejected Recommendations To Move Against Red Viet

WASHINGTON (AP) — Four months after taking office President Lyndon B. Johnson turned down recommendations to move against North Vietnam as premature, the secret Pentagon papers disclose.

However, he called for building a strong military and political base in South Vietnam for possible later action against the North.

The documents, made public by Sen. Mike Gravel, D-Alaska,

say that Johnson on March 17, 1964, told Saigon Ambassador Henry Cabot Lodge:

"Our planning for action against the North is on a contingency basis at present, and the immediate problem in this area is to develop the strongest possible military and political base for possible later action."

Both presidential adviser McGeorge Bundy and policy planner Walt W. Rostow were urging Johnson to combine mil-

itary pressure against North Vietnam with pacification efforts in the South.

Bundy urged "selected and carefully graduated military force against North Vietnam."

During the same period Lodge's successor, Maxwell Taylor, was expressing fears the South Vietnamese government might collapse or be replaced by neutralists.

By September, 1964, after a series of coups had shaken the

Saigon government, Taylor reported to the White House that the Saigon government "would probably be incapable of galvanizing the people..."

But, added Taylor, "If we leave Vietnam with our tail between our legs the consequences of this defeat in the rest of Asia, Africa and Latin America would be disastrous."

Taylor returned to Saigon from consultations with President Johnson in November, 1964,

with this proposal:

"With respect to Laos, the U.S. government is prepared in conjunction with the Royal Lao government, to add U.S. airpower as needed to restrict the use of Laotian territory as a route of infiltration into South Vietnam. With respect to the sea, the U.S. government would favor an intensification of those covert maritime operations which have proved their usefulness in harassing the enemy."

The United States would regard the combination of these operations as constituting Phase I of a measured increase of military pressures directed toward warning the government of North Vietnam of the risks it is running."

The bombing of North Vietnam already was under way, and its tempo increased through 1965.

At least one plan was sug-

gested to immobilize the North, the secret documents disclosed.

John McNaughton, then an assistant secretary of defense, said in a memo North Vietnam's intricate lock and dam system was particularly sensitive.

Destroying it, flooding rice fields and raising the specter of national famine, if correctly handled, could "offer promise," McNaughton suggested.

**SPLISH-SPLASH** — A little rock makes a big splash — as Ray Kasserman, 6, learned this morning in Birdwell Park. Ray, the son of Mr. and Mrs. David Kasserman, Houston, is in Big Spring visiting his grandparents, Mr. and Mrs. Homer Kasserman, 2600 Lynn.

### Big Springer Charged In Odessa Death

A Big Spring man, along with two from Odessa, was charged today with murder and robbery by assault following robbery of a 7-Eleven Store in Odessa early Friday morning.

Charged were Robert Walseth Bell, 21, of Big Spring, and Dennis J. Strawn, 17, and Randall J. Chatham, 18, both of Odessa. They were taken into custody about 9 a.m. today at a trailer park in Odessa.

Sophia Giovanni, 50, Westmoor Road, a clerk at the store on 42nd and East County Road, was stabbed to death about 5 a.m. today.

"The woman was stabbed numerous times by her assailants and was left in a back room of the store," said Detective Capt. Lynn Snyder, of the Odessa police department.

"The men left on foot from the store. Missing were some food and the victim's wallet. No money was taken from the store," said Capt. Snyder.

Sources revealed that Odessa police received a tip concerning the murder that led to the location of the three men when a woman noticed some bloody clothing burning in a trash can in an alley. Upon checking the clothes the woman found Mrs. Giovanni's wallet and notified the police.

Police arrested the men in an Odessa trailer park near where the burning clothes and wallet were found, police said.

Charges against the three men were filed in Justice of the Peace J. A. Purifoy's court, Odessa, and bond was set at \$50,000 for the robbery by assault charge against each man. No bond was set for the murder charges.

## Jobless Quirk In U. S. Cited

WASHINGTON (AP) — The nation's unemployment rate dropped sharply in June to 5.6 per cent of the labor force, even though more than a million more workers lost their jobs, the government said today.

The Bureau of Labor Statistics attributed the sharp decline in the jobless rate to a statistical quirk. It said the drop "may be somewhat overstated" because more young workers than usual were still in school — and not seeking work — when the unemployment survey was taken the week of June 6 through June 12.

Nevertheless, the fall was moderately good news for the Nixon administration, which has set a goal of reducing unemployment to 4.5 per cent of the labor force by the middle of 1972.

The Labor Department said the number of unemployed persons climbed by 1.1 million over May, to 5.5 million last month. In May, the unemployment rate was 6.2 per cent.

The department noted the unemployment rate usually increases sharply between May and June, but added the rise was much less this year as a smaller than usual number of young people entered the labor force at the end of the school year.

By using a statistical method of adjusting unemployment for seasonal influences, the department figured the level of unemployment was down by 530,000.

It was an inconclusive report in terms of the economic expansion pursued by President Nixon in an effort to reduce joblessness. The statistical quirk in June possibly meant the unemployment rate would show a greater rise next month.

## Tighter Security Ordered By Laird

WASHINGTON (AP) — Secretary of Defense Melvin R. Laird announced today he has ordered stricter security measures for the protection of classified information following the disclosures of the top-secret Pentagon study of the Vietnam war.

Laird said these measures, to be announced later today, would have "far-reaching action" in dealing with the Rand Corp. and the "security compromises which took place."

The defense chief made the announcement in a planelide news conference at Andrews Air Force Base as he set out on a 17-day trip to the Far East.

No details were given immediately on the new security measures which Laird said he ordered into effect Thursday night.

The Rand Corp. is a private non-profit think tank for which Dr. Daniel Ellsberg formerly worked. Ellsberg has said he leaked the secret Pentagon Papers to several newspapers.

On other subjects, Laird said it would be unfair to young men if Congress delayed much longer in approving the draft extension bill. The secretary said he has been getting calls from many youths who want to make their plans but don't know which way to turn because of the doubt now over the draft.

Extension of the draft has been held up by Congress as Senate and House conferees tried to work out differences in the bill. The current draft law expired Wednesday night.

Laird said the latest peace proposal by the Viet Cong announced Thursday in Paris is being looked at very carefully by the Nixon administration. However, he said any response would have to be made by the U.S. negotiators in Paris.

Asked if it would be possible to withdraw all U.S. troops from Vietnam within six months, Laird replied that the personnel could come out in this time but this would mean leaving behind billions of dollars worth of equipment and material which would have to be replaced at further expense.

"We have a plan; we are on schedule," he declared.

The troop withdrawals, he noted, are well over 14,000 a month and will continue.

## Skyjacking To Monterrey

SAN ANTONIO, Tex. (AP) — A Braniff International passenger plane carrying 102 passengers and a crew of five, landed today in Monterrey, Mexico, after being hijacked by a small, plump woman and a man wearing a "Castro-type" beard, officials said.

Both hijackers were armed. San Antonio Airport Director Tom Rafferty said the plane landed in Monterrey at 12:59 p.m. CDT after it was diverted while en route from Mexico City to San Antonio.

He said the plane left radio contact after it landed. Rafferty said the airplane was kept in a holding pattern near San Antonio for about 20 minutes.

He said the hijackers then demanded that they go to Monterrey, the closest point the plane could reach.

He said there were no reports of injuries. The plane was scheduled to arrive in San Antonio at 11:50 a.m.

## Three Navymen Rescued As Sub Pops To Surface

GOSPORT, England (AP) — Three submariners trapped in the torpedo room of their sunken ship early today talked on the telephone, played cards and listened to records while the Royal Navy worked to free them.

Rescue teams early this morning righted the stricken 1,120-ton Artemis in the thick mud of England's south coast, and the three men shot to the surface through an escape hatch after a 10-hour ordeal.

Leading Mechanical Engineer Robert Croxon, 22, Chief Petty Officer David Guest, 36, and Mechanical Engineer Donald

Beckett, 24, all were reported well after a checkup.

The Artemis, a 25-year-old, conventionally powered sub, was sunk in 30 feet of water alongside a dock, and salvage men said all but her forward compartment was believed flooded. But they had several lines around her and anticipated little difficulty in raising her.

The Artemis was moored alongside the submarine Ocelot at the sub base near the entrance to Portsmouth harbor Thursday night when, with no previous indication of trouble, the Artemis suddenly dropped below the surface. Twelve men

leaped off as their ship plummeted to the bottom.

"The first thing I knew," said 23-year-old Alan Turvey, "I heard a rushing noise and looked over the side to see the water frothing up. I didn't have time to think—I just made a leap for the jetty."

Croxon, Guest and Beckett couldn't get out as the water flooded in. They sealed themselves in the forward torpedo room, illuminated by dim emergency lighting.

"Sit tight and keep your spirits up—you'll soon be out," they were told over an underwater telephone link from the neighboring Ocelot.

## 'Things Are Moving' To End Vietnam War

### Many Observe Monday Holiday

Most city employees will receive a holiday Monday, as will city hall employees.

"We will use only a skeleton crew to maintain the necessary functions of the city, water, etc.," said Roy Anderson, acting city manager.

The fire station, police station and fire department will maintain regular crews, however.

All offices in the Court House will be closed except the Sheriff's Department and Highway Patrol.

Most Post Office employees will take a holiday, also.

"Only special delivery mail and lock-box service will be provided," said Frank Hardesty, postmaster.

Webb AFB personnel will observe a Sunday schedule Monday in observance of Independence Day.

Civilian and military personnel will receive a holiday with the exception of essential personnel such as security policemen and dining hall personnel.

The VA Hospital will have a skeleton crew on duty Monday with most of the staff on a holiday. The hospital will be open for admissions, and visiting hours will be as usual.

The State Hospital will have part of its staff off duty, but most normal functions of the hospital will continue.

First National, Security and State National Banks observe Monday as a holiday and will be closed.

## Bells, Fireworks, Parade Set For Fourth Of July Weekend

The 155th anniversary of the adoption of the Declaration of Independence by the Continental Congress in Philadelphia in 1776 will be celebrated in Big Spring with the traditional fireworks, a re-enactment of the delivery of the document to the Congress and a children's parade.

Fireworks will be shot off of Scenic Mountain Sunday at 9:30 p.m. The viewing area is the valley area north of Scenic

Mountain behind the National Guard Armory just off FM 700.

The fireworks are a joint venture of the Chamber of Commerce and Webb AFB. "We plan to have a 30-to-45 minute show this year," said Lt. Raymond Kellog, Webb project officer.

The highlight of the Independence Day activities is the "Let Freedom Ring" program Saturday at 8 p.m. at Memorial Plaza, on the east side of the

Howard County Courthouse.

Against a background of a replica of the old Independence Hall in Philadelphia and Betsy Ross making her 13 stars and stripes flag, a re-enactment of the delivery of the Declaration of Independence will take place.

The show will begin at 7:45 p.m. with a concert by the Collegians of College Baptist Church, with David Norville directing. Ralph Dowden will direct the Hand Bell Chorus of

the First United Methodist Church. The concert will end with "Let Freedom Ring."

The invocation will be by Chaplain Ken Summy, Webb AFB, the call to the colors by Elaine Dekle, and the presentation of colors by the Webb Color Guard.

The traditional "Spirit of '76" group will be re-enacted by Mona Boadle, flute, Sue Forten-

## Deadly Rains In El Paso

EL PASO (AP) — Three persons were feared drowned today when two cars and a camper truck plunged into a canal here at the height of a torrential rainpour which dumped 2.19 inches.

The heavy rains began before dawn and in a three-hour period had rained .81 inch.

Rain continued at mid-morning, flooding streets, stalling cars and traffic and causing numerous accidents.

**TAKING A WELL-DESERVED REST** — Mrs. Leonard Broderick, who gave birth to non-uplets June 13 in Australia, arrives in Honolulu Thursday with her husband and two daughters for an island vacation. None of the nine babies survived. Daughters are Jacqueline, 4, and Belinda, 5, at right.

## House Panel Requests CBS Contempt Citation

WASHINGTON (AP) — Trying to settle a subpoena dispute over "The Selling of the Pentagon" without a full House showdown, congressional peace-makers are seeking what one calls "a better way out of this mess than an unfortunate high noon on the floor."

In what could cause another court clash between government and the news media following the Pentagon-papers publication fight, the House Commerce Committee recommended Thursday that the Columbia Broadcasting System and its president, Frank Stanton, be held in contempt of Congress.

**HE'S SORRY**

But the full committee split 25 to 13 in favor of the leadership-sponsored attempt to punish the network for refusing to supply raw material gathered during preparation of the news documentary.

"I'm awfully sorry this occurred; this confrontation should never have taken place," Chairman Harley O. Staggers, D-W.Va., said as he announced the action taken at a

closed committee session.

At this point, compromise-seekers say their admittedly delicate contacts with both sides, to encourage an easier settlement, are keyed to keeping the case from debate on the floor—with political risks of either a tight vote or even unprecedented rejection of a contempt recommendation.

Furthermore, saying they feel some leaders would prefer avoiding a direct confrontation between Congress and the broadcasting industry, accommodation-advocating congressmen consider Staggers has made his point and has substantial backing for possible new laws against deceptive practices.

**DEAD AIM**

Defending again his decision to refuse the subpoena demands, Stanton said in a statement issued in New York he hopes the House "will not confirm a citation of contempt which, though directed at CBS, is in effect taking dead aim against the 1st Amendment."

But Staggers repeated his argument that the 1st Amend-

ment press freedom is not an issue in his attempts to obtain material edited from the program. The documentary criticized Pentagon public-relations spending.

Staggers contends the network must supply so-called outtakes for study in connection with charges that electronic manipulation rearranged questions and answers.

**FIRST TIME**

If the citation move is brought to the floor as expected within the next few weeks, it would be the first time the House faced a request to hold a television network or one of its officials in contempt. Veteran congressional observers and a House historian could recall no case involving a newspaper or newsman being cited for contempt over the free-press issue.

Generally, the House goes along with committee requests that contempt charges be pressed. If the House approves and the Justice Department prosecutes, conviction in court could bring maximum punishment of a year in prison and \$1,000 fine.

## FTC Slaps Tobacco Firms Pretty Girls, Roundups

WASHINGTON (AP) — U.S. tobacco companies have been given six months to agree on a health warning to accompany the bubbling brooks, pretty girls and cattle roundups in their cigarette advertising.

The Federal Trade Commission wasted no time in its ruling Thursday. The 3-1 vote with one abstention came as a con-

gressional prohibition on cigarette advertising expired.

**WARNING**

The tobacco companies were given six months to sign a legally binding consent agreement requiring them to include in advertisements a "clearly and conspicuously displayed" note saying: "Warning! The Surgeon General has determined that cigarette smoking is dangerous to your health."

That warning already is required on cigarette packages and cartons.

All cigarette advertising has been banned from radio and television since Jan. 2 this year.

Some provisions of the proposed consent agreement are still open for negotiation, including the standards for "clear and conspicuous display," such as the size of type that would be required.

**SEDUCTION**

However, Gerald Thain, assistant director for food and drug advertising in the FTC's Bureau of Consumer Protection, said the advertisements should not be "a symphony of seduction with only a flute of warning."

The FTC action Thursday accused two of the six tobacco companies of alleged deception by failing to include any warning message in print advertisements and charged the other four with inadequate caution messages.

and Myers, the FTC said, include no health warnings at all in their advertisements.

Brown and Williamson, R.J. Reynolds, P. Lorillard and Phillip Morris advertisements show a cigarette package with the warning printed on the side, Thain said.

**WHY ME?**

All six proposed complaints charge it is "unfair and deceptive" for the firms to advertise without the disclaimer because they should know or at least have reason to believe that cigarette smoking is dangerous to health.

However, a spokesman for

## Boy Scouts To Japan

LAMESA (SC) — Jay Cox, son of Mr. and Mrs. Don Cox, and Vic Dyer, son of Dr. and Mrs. Royce Dyer, will help represent the 20-county area of the South Plains Council and will join more than 7,000 Boy Scouts from throughout the United States at the 13th World Scout Jamboree in Japan this summer.

The group will board a chartered jet airliner at the Lubbock Regional Airport July 27, arriving in Tokyo several hours later.

While in Tokyo, the group will stay at the Olympics Youth Center, touring part of Japan before arriving at the actual Jamboree site near Osaka Aug. 2.

The Jamboree will conclude activities Aug. 10, and the South Plains Council delegation will leave Japan on Aug. 14.

## 'Rough Riders' Bar Purchased

SAN ANTONIO (AP) — The American National Insurance Co. of Galveston will assume ownership of San Antonio's historic Menger Hotel.

The change, expected by next Tuesday, is the result of foreclosure procedures initiated by the insurance company, the spokesman said.

The landmark hotel stands next to the Alamo and in years past served such famous guests as Robert E. Lee, Oscar Wilde and O. Henry.

Teddy Roosevelt recruited members of his Rough Riders in the Menger bar, which is still in use.

The American National spokesman said the transaction "will be merely a change in ownership."

He said the hotel will continue to operate as in the past, "with no changes in its management personnel, operational procedures or especially in its commitments to groups and individual guests."

He said there will be a public auction, a formality under the law, but that the insurance firm would be the buyer.

## Grueling Slate Of Rodeos Set For July 4th

DENVER, Colo. — The upcoming Fourth of July weekend will be the most gruelling part of the professional rodeo season, the Rodeo Cowboys Association said here today.

More rodeos are scheduled around the Fourth than at any other time of the year, and prize money runs into hundreds of thousands of dollars.

There are 25 association-sanctioned rodeos across the country beginning Wednesday.

The winningest cowboy so far this year is Phil Lyne, George West, Tex., who has gathered \$21,901 in bareback, saddle bronc, bull riding, calf roping and steer wrestling, part of that in the Big Spring Cowboy Reunion and Rodeo. The top money-winner for the past five years, Larry Mahan, Brooks, Ore., is trying to catch Lyne but only has \$14,818.

Event leaders are:

All-around — Phil Lyne, George West, Tex., \$21,901, and Paul Mayo, Grinnell, Iowa, \$17,919; Saddle bronc riding — Bill Smith, Cody, Wyo., \$11,366, and Mel Hyland, Surrey, B.C., \$9,338; bareback bronc — Paul Mayo \$13,001, and T. J. Walter, Watkins, Iowa, \$10,974; bull riding — Bob Berger, Norman Okla., \$8,546, and Bill Nelson, San Francisco, Calif., \$8,239; calf roping — Phil Lyne \$12,908, Junior Garrison, Marlow, Okla., \$11,720.

## 'Dead' Pilot Back From Watery Grave

LUBBOCK, Tex. (AP) — Michael Wayne Hubbard, whose friends thought he died 12 days ago when his plane crashed into Lake Bridgeport, is alive in Lubbock today.

Hubbard, 27, turned up Thursday. Memorial services which had been scheduled for 3 p.m. today were hurriedly cancelled.

A family statement issued Thursday said Hubbard's plane did go down in Lake Bridgeport and is still there.

But, the statement continued, Hubbard crawled out of the plane and onto a wing, but the aircraft sank and Hubbard swam about 200 yards to shore.

While trying to hitchhike, Hubbard walked nearly to Decatur and finally reached Oklahoma City "where he sought professional help after wandering the streets for several days."

After talking it all over with doctors and lawyers, the family said Hubbard returned to Dallas from where he contacted relatives Wednesday night.

The statement said that Hubbard, reported missing June 21 on a flight from Fort Worth to Lubbock, encountered turbulence including lightning and rain. Clouds closed in and he could get no help by radio.

He dipped below the clouds, and there was Lake Bridgeport.

The family said Hubbard was preoccupied by business problems and that the weather frightened and disoriented him. He ditched.

## Valuations Are Decreased On Most Property Studied

By LINDA CROSS  
Some local residents received the welcome news this week that their property valuations were reduced, with the reductions ranging from 5 to 20 per cent, depending on the amount of depreciation of the property.

Earl Dean, property valuator for the county, city and Big Spring Independent School district, said that approximately 4,500 separate properties had been reviewed this year, and 70 per cent of these were recommended for reduced valuations.

The reductions followed the normal pattern of depreciation. Increases were basically in line with the rate of decreases, and were more often land value increases than in building valuations, he said.

"Both the increases and decreases comprised a cross-section of the properties in Big Spring. There was no heavy concentration in any one area," said Dean.

Increased property value and building improvements resulted in increased valuations on some commercial properties, according to Dean.

"On residential properties, about the only time there would be an increase in valuations on the homes would be if there was an addition or any other physical change. Land value increases accounted for most increased valuation," said Dean.

Based on current valuations, Howard County and the school district can expect slight rises in income for 1971-72 over 1970-71, according to Dean. He added that he expected the city income to be equal to last year's or slightly above.

The tax rate for each taxing agency is based on a percentage of 100 per cent property valuation.

Howard County taxes are based on 25 per cent of the total valuation, city taxes on 60 per cent, and school taxes on 75 per cent of the total valuation.

The county had a total property assessment of \$80,000,000 for 1970-71. Taxes were levied on \$32,000 of this, and \$748,800 was the projected yield.

School taxes were based on a total assessment of \$180,216,850. Taxes were levied on 75 per cent of the valuation of \$144,727,610. The projected

income for 1970-71 was \$2,330,082.

Based on a total property assessment of \$70,509,750, city taxes were levied on \$987,137, and the projected income was \$390,000.

Valuations on farm properties will remain for the most part as they were valued for 1970-71, according to Dean. Increases in the county's property tax income resulted from more

rural properties being added to the tax rolls, and from more homes being built outside the city limits, added Dean.

County, city and school boards of equalization will meet Wednesday, Thursday and Friday to hear any problems or questions residents and business owners may have about their taxes. Coahoma and Forsan equalization boards have completed their meetings.

## FDIC Alleges Stock Maneuvering By Sharp

DALLAS (AP) — The Federal Deposit Insurance Corp. accuses Frank W. Sharp and maybe one other man of maneuvering much of \$6 million in now worthless stock of two Dallas companies into his Sharpstown State Bank before its collapse.

In federal court papers filed Thursday, the FDIC claimed the Houston bank was the "victim" of a conspiracy existed to artificially inflate the value and manipulate the stock of the Dallas companies and a third firm.

The FDIC for the first time publicly stated its views about what led to the failure of the bank last January. This was done in answers to two private damage suits naming the bank among the defendants.

The FDIC noted that Sharp "and-or" Joseph Novotny caused SSB to make "numerous loans" secured by a pledge of stock of National Bankers Life Insurance Co. and RIC International Industries Inc., both of Dallas.

The FDIC is now holding notes for loans of more than \$6 million made by SSB and secured by the now "valueless" stock of NBL and RIC, the federal agency said.

NBL is now in receivership under the State Insurance Board and RIC is being reorganized in U. S. Bankruptcy Court. Both firms were controlled by Sharp before they were shifted under government supervision.

The debtors of the majority of the loans backed by more than \$6 million in stock "are and will be unable" to pay back the money, the FDIC said, resulting in a "complete loss to SSB and its depositors and creditors."

Fraudulent schemes or conspiracies as described in the private suits were "not revealed

## 'Pistol Packin' Padre' Dies

SAN ANTONIO (AP) — The Rev. Henry Hug who once ministered in the tough parts of town here and became known as the "Pistol Packin' Padre," was buried Thursday.

Father Hug died Monday at 65. He spent the past four years as chaplain to the Incarnate Word Sisters at their convent here.

He was 35 when assigned here in 1943. He quickly discovered his parish included many young toughs. Some belonged to gangs. He began, working with the youngsters in the area, helping to form ball teams and scout troops. He also established a clinic for children and pregnant mothers in the city's poor sec-

tion—one of the first in the area.

He was called by some "the shepherd of the west side," but not by everyone. There were some tough youths who didn't see things his way.

It was after several narrow escapes that Hug received a visit from a policeman who gave him a pistol and a billy club. The priest packed the pistol under his clerical robes when he

went out on night calls.

A friend recalled Hug once had a confrontation with several neighborhood thugs. He said to them, "Just because my collar is on backward doesn't mean I can't be as tough as you are."

He gained instant respect. Hug left his growing parish for other assignments in 1948, receiving a tearful and rousing sendoff.

The program will conclude with the singing of the National Anthem by the young people.

Saturday morning the Highland South Independence Day neighborhood parade will kick off at Goliad and Highland and the multitude of gaily decorated children, bikes and antique cars will proceed to the cul de sac on Highland Cove.

There will be a brief ceremony featuring short addresses by Mayor Arnold Marshall and Ken Carter.

The parade will form on Goliad at 9:30 a.m. and will move promptly at 10 a.m. east on Highland, led by the twirlers in Kelly Carlie's class, David Wrinkle is assembling a small band to march in the parade, and this unit will be followed by children on decorated bicycles, by antique cars, and by anyone who wants to march, in costume or in regular attire.

At Highland Cove, in addition to the short talks, free records will be given by KBST, and there will be free refreshments, just like the old days.

All youngsters who want to decorate their bikes are invited to take part, said Mrs. Raymond Torp, in charge of preparations for the celebration.

Armed Bandits Unidentified

Local police were still investigating today the armed robbery which occurred at the Kwikie Store No. 1 at 510 Lamesa Drive, early Thursday but were stalemated on the identification of the two armed men.

"We have had some leads on the case, one being a woman who had seen two men in the alley behind the store that morning. However, she was not able to identify them," said Detective Capt. Jack Jones.

Jones said that the department will continue searching for the men but said he felt that they had already left the city. The vehicle the men used after the hold-up has yet to be identified.

The two men forced at gunpoint Mrs. Roger Avant, wife of the manager of the store, and a clerk, Willie Pook, to lie on the floor of a bottle room in the store and then proceeded to take an undetermined amount of money from the drive-in.

Fireworks Outside City Please, Say Officials

By BRIAN PEAY

As the July 4th weekend and festivities come into focus the shooting and display of fireworks will most likely be an integral part of the activity as it has been in the state of Texas over the past years.

"If a person must shoot fireworks, please ignite them outside the city limits with the utmost caution in the handling of the minor explosives," said Fire Chief A. D. Meador. He said that even though the fireworks look safe, they can be very dangerous if handled carelessly.

Persons may be fined from \$5 to \$200 for shooting fireworks inside the city limits, Meador said.

Noticing the important role that fireworks play in the July 4th celebrations, but also being aware of the possible danger of the small hand explosives, city and state officials have set forth laws governing the sale and use of fireworks.

Only Class C type fireworks can be sold by retailer to the general public, says state laws. The Class C fireworks include, Roman Candles, Sky Rockets, Helicopter Type Rockets, Cylindrical Fountains, Cone Fountains, Wheels, Illuminating Torches and Colored Fire, Sparklers and Dipped Sticks, Mines and Shells (not to exceed forty grams each in weight), Firecrackers and Aslutes, Whistles without report, Railway Fuses, and items composed of two or more articles of the above enumerated approved items.

State law also sets forth that a retailer must purchase a \$2 annual license to possess and sell fireworks to the general public and that no person or firm can put the fireworks up for sale before June 24 or after July 4.

The Big Spring city ordinance also governs the location of fireworks stands for sale to general public and the location of display or ignition of fireworks.

As stated in the city ordinance "no person can sell or display fireworks within the city limits," and this ordinance will be enforced by the local police department with investigations made by the local fire department, according to Chief Meador.

As another safeguard against the possible dangers of fireworks, twice annually Wayne Dye, deputy state fire marshal, comes through town checking the firework stands.

"I have heard that the state is trying to outlaw fireworks in general because they are too dangerous, partially from the standpoint of fires, but mainly due to the harm done to children every year," said Meador.

"I suggest that parents buying fireworks for small children be very careful in the type fireworks they buy and always be with them while igniting the fireworks," said Meador.

John P. Chase, internationally known economist, sportsman, author, investment counselor and financial advisor to Presidents, will be in Midland, Tuesday to present an address discussing the current investment climate and an investment philosophy for the 70's under the sponsorship of Rauscher Pierce Securities Corporation.

The seminar on "Current Investment Outlook" will be at 8 p.m. in the Lee High School auditorium, announced Joe P. Liberty, manager of the Midland office of Rauscher Pierce. Free reservations may be made by calling MU3-5671.

Chairman of the board of John P. Chase, Inc., Boston-based investment counsel, a firm he founded in 1932 on the day the Dow-Jones stock market averages skidded to their lowest mark, Chase now operates on a multi-national level through a number of companies and has served as financial advisor to Presidents Eisenhower, Kennedy, Johnson, and Nixon.

His comments as author of "Trade Winds" a periodic treatise on the economic climate, are widely circulated and cited. His recent book, "Eight Keys to Growth," has been acclaimed by the investment community.

Chase's broad business and financial interests include directorships of more than a dozen corporations both in the United States and abroad.

Local Law Enforcement Officers Ask Safe Fourth

Before setting off on a motor trip this long, holiday weekend, local residents are asked to pay careful attention to the condition of their vehicles and themselves. The Texas Department of Public Safety is predicting 48 traffic deaths during the July 4th holiday, and no one wants any of them to be from Howard County.

County Sheriff A. N. Standard said that his men will be patrolling the county roads during the holiday period in an effort to prevent any mishaps.

"We will have men patrolling the city streets in order to make local drivers traffic safety conscious," said acting-Police Chief Stanley Bogard.

Texas Highway Patrolman Arvin Henry said that members of the local highway patrol units will be keeping watchful eyes on all highway traffic. Radar will be used in an effort to curb excessive speeding.

All local law enforcement officers warn motorists that a fifth and the Fourth do not mix.

Fighter-Bombers Attack Gunners

SAIGON (AP) — The U.S. Command disclosed today that American fighter-bombers attacked gun positions in North Vietnam's half of the demilitarized zone two days ago.

A spokesman said one 37mm anti-aircraft gun was destroyed, seven North Vietnamese troops were killed and 10 secondary explosions were triggered in the raids Wednesday morning by a dozen Air Force, Navy and Army strike and support aircraft.

"There was no damage to U.S. aircraft," the spokesman said. "As the command has often stated, protective reaction is the inherent right of self-defense."

The spokesman, Capt. James D'Entremont, said U.S. forward air controllers on a mission in South Vietnam's half of the DMZ received enemy anti-aircraft fire from the northern half.

"As a defensive measure," D'Entremont said, "aircraft were diverted to engage the hostile guns."

D'Entremont said American observation aircraft had been flying a visual reconnaissance mission at the edge of the southern half of the DMZ, about 15 miles west-northwest of Dong Ha, where a North Vietnamese buildup and heavy fighting has been reported.

"The observation aircraft located enemy troops violating the southern half of the DMZ," he said. He added that the decision was made to engage the enemy with air strikes rather

than artillery, but gave no reason for the decision.

The U.S. strikes into the northern half of the DMZ were the first reported by the U.S. Command since March 30 when four fighter-bombers attacked long-range 152mm artillery guns that had been firing on allied bases along the northern frontier.

The U.S. Command said that allied reconnaissance has detected more than 15,000 "sightings" of enemy activity inside the DMZ since the halt in the bombing of North Vietnam on Nov. 1, 1968. These include movement of troops and war materials across the DMZ into South Vietnam and the emplacement of artillery and anti-aircraft guns.

The command acknowledged that American forces have engaged North Vietnamese targets inside the DMZ more than 7,000 times since the bombing halt, but said that only about 40 of these strikes have been in North Vietnam's half of six-mile-wide zone.

# Don't Overbuy Says Designer

By ANN HENCKEN  
AP Fashion Editor  
NEW YORK (AP) — Know yourself and keep your clothes simple. This advice is from designer Halston, cowerner with Betsey Johnson of the "Winnie" award, for excellence in fashion design announced at the 1971

Coty American Fashion Critics' Awards presentation Tuesday.

Designer Anne Klein was elected to the Coty Hall of Fame, and Larry Kane of Ruffles Wear took the Menswear Fashion Award.

"Sit down and analyze yourself. Don't overbuy," Halston said.

"People need fewer clothes today, not such a vast dress wardrobe," he said, noting the trend toward home entertainment instead of a big night on the town.

Halston noted that his customers — often rich, chic fashion leaders — look for washable, packable, wearable clothes. Among his customers are Jacqueline Kennedy Onassis, Mrs. William Paley, actress Ali McGraw, Marisa and Barry Berenson and Lauren Bacall.

Halston's clothes are famous for their sleek sinuous lines. His fall collection is filled with skinny, body-hugging styles with some blouses, draped very low in front.

Halston shared the "Winnie" honors with Betsey Johnson, designer for Alley Cat, a junior sportswear manufacturer, and for her New York boutique, Betsey, Bunkey and Nini.

This year's Coty awards were elected by a vote of more than 400 fashion editors across the country. Coty, Inc., has sponsored the presentations since 1943.

# Hints From Heloise

Dear Heloise:

I have a very dear friend who is bedridden and even with an air mattress and gentle care, still is very uncomfortable at times.

I made her pillows of all sizes and shapes to use wherever she needed them for more comfort.

I made two small rolls for under her knees, two triangle ones for under her arms, a rectangular one for under her back and two small round ones for

under her heels.

I covered these pillows with terrycloth but later found out that covering them with soft flannel was better.

These can be dumped into the washing machine and are so easy to keep clean. ... A Friend

Dear Heloise:

I've found in storing important papers, receipts, etc., that if I fold them so that the writing is to the outside it makes it much easier for me to find the particular paper I want.

I don't have to open up each one separately but can readily tell at a glance whether it is the one I'm looking for. ... Lillian Drophm

Dear Heloise:

Don't worry any more about buying or making appliance covers because I have the perfect solution.

Just use those new plastic trash bags. Do you know that they come in all sizes? You are sure to find the right size for any appliance and besides that they come in white, green and beige — and that should go with almost any decor. ... Judy

Dear Heloise:

Soon it will be "Back to the ol' swimming hole" time! And I wanted to be ready.

I'm expecting a summer baby and just priced maternity swim suits — need I say more?

It seemed such a lot for an item I'd only be wearing a short time.

So, I decided I'd kind of "construct" one.

I bought an inexpensive Bradress (the kind with spaghetti straps and a built-in bra) at a local discount store.

Simply by cutting and hemming it to the right length it was perfect.

The pants for underneath were no problem. I used a matching pair of maternity shorts and I was ready for the water. ... Mrs. D. Sluman

Dear Heloise:

If you make noodles on a damp rainy day, turn the fan on them.

You'll find that they will really dry in a hurry. ... A Friend

Dear Heloise:

This hint adds a nice, nutty flavor to any cake.

When the recipe calls for a greased and floured cake tin, I use wheat germ instead of flour. This can be purchased at any health food store.

I put the wheat germ in a large-hole shaker and sprinkle the bottom and sides of the greased tin.

I also grease the pan with a vegetable oil for low-fat diets. Try it the next time you bake a cake. You'll love it. ... Nina Beauchamp

Dear Heloise:

I found a great solution to making a better boxed pizza. Just add milk instead of water. It leaves the crust crispy and very tasty. ... Jane Ann

## Resolution Read By Rebekahs

A resolution of sympathy was read in memory of Dewey McDonald, father of Larry McDonald, a member of the John A. Kee Rebekah Lodge No. 153, Tuesday evening at the IOOF Hall.

Mrs. K. C. Webb presided at her last meeting as noble grand, and presented her co-officers with gifts of appreciation. Certificates of perfection were presented to Mrs. A. I. Johnson and Miss Juanita Hamlin. The 28 members present reported 26 visits to the sick.

Serving refreshments were Mrs. Gray Beck, Mrs. Brian Frigmore, Mrs. W. R. Loftis and Mrs. Alton Allen. The new officers will take over their duties at the next meeting, at 7:30 p.m. Tuesday at the hall.

## G. L. Monroneys Note Anniversary

## Normal Women 'Twice As Fatty'

DEAUVILLE, France — During the medical convention on obesity here, Dr. Robert Codaccioni assured Frenchmen that their women will never have the natural, slim figures that are the heritage of males.

"The average adult male carries enough fat to represent 14 per cent of his total weight," explained the Marselles specialist. "This figure rises to 28 per cent for the normal woman. In other words the normal woman is fatty and should learn to treat chubbiness as health and beauty."

He added that women who insist upon looking slim generally weigh from 8 to 10 per cent less than they should in their full flow of health.

# Mrs. Stephen Smith Honored At Gift Tea

A gift tea honoring Mrs. Stephen Ray Smith, the former Miss Glynda Lewis, was held Thursday from 3 to 5 p.m. in the home of Mrs. John Richard Coffee, 601 Avondale.

Cohostesses for the affair

were Mrs. O. J. Bohannon, Mrs. Paul Allen, Mrs. Tippy Anderson Jr., Mrs. Gerald Harris, Mrs. Bill Estes, Mrs. Gerald Oakes, Mrs. L. K. Gladden and Mrs. J. W. Tipton.

Junior members of the house party were Miss Lynette Coffee and Miss Karen Coffee. Miss Suzanne Smith, sister of the bridegroom, presided at the guest register, along with Miss Gloria Dodd.

Guests were served refreshments from a table covered with an ecru linen cut work cloth and adorned with a centerpiece of mixed spring flowers. Appointments were crystal and silver.

The honoree was attired in a blue dacron dress with long, full sleeves and accented with a wide white sash. Her corsage was a green orchid. She received guests with the bride-

groom's mother, Mrs. Jimmy Ray Smith, who was presented a cymbidium orchid corsage, and Mrs. Coffee.

The bride's colors of blue and white were carried out in cake decorations and in the hostesses' corsages.

The couple will reside in Big Spring where both plan to attend Howard County Junior College in the fall.

## Westbrook Class Elects President

WESTBROOK (SC) — Mrs. Emery Sweat was elected president of the J.O.Y. Sunday school class during a recent meeting in the home of Mrs. Rex McKenney. Mrs. Sweat led prayer, and Mrs. McKenney presented the devotional, "Joy in Service."

As a class project, the women will consider providing drapes for a guest room in the church parsonage. The president will appoint a committee to check on cost of the drapes.

A report was heard from the card committee, and refreshments were served.

# Religion Given Vital Role In America's Beginning

By GEORGE W. CORNELL  
AP Religion Writer  
NEW YORK (AP) — From the first, the United States staked its destiny on religious premises.

They were the cornerstone of the American Revolution, which the nation celebrates this weekend, July 4, and the basis of its founding manifesto, the Declaration of Independence. "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights . . . Liberty, said Thomas Jefferson, is 'a gift of God.'"

**WHAT PART?**  
Yet just what part religion should play in governmental operations has been a keenly sensitive issue ever since, as shown again this week in the U.S. Supreme Court ruling barring state payments to church schoolteachers.

While forbidding what was called "excessive entanglements between government and religion," Chief Justice Warren E. Burger said the Constitution does not demand "total separation between church and state."

This "is not possible in an absolute sense," he said.

It is a fine, difficult and variable line, rooted distinctively in the tensions of American history. While the country found justification for its founding revolt from British domination in the greater sovereignty of God, the new nation also embraced another basic concept that has permeated the world.

It is the idea of religious freedom, that men's faith must be

free of governmental controls. "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof," says the First Amendment.

**SEPARATION**  
The U.S. Constitution set a new pattern of religious freedom which gradually has spread through much of the world. It is what Jefferson first called a "wall of separation between church and state."

"We are a religious people whose institutions presuppose a Supreme Being," Supreme Court Justice William O. Douglas has said, although he is one of the strictest interpreters of church-state separation.

Through the years, the stress and pull of both values, both prime rudiments of the nation, have produced varying approaches. Schools themselves remained largely under Protestant auspices, with state support, until 1840 when public schools got started.

But in the last quarter-century, with growing diversity in America, the issue has brought

a continuing line of court battles.

**BANS AND SANCTIONS**  
In that time, the high court has banned officially sponsored prayers and Bible reading from public schools, rejected religious laws, and prohibited requiring belief in God as a criteria for conscientious objection to war or for holding state office.

But the court also has sanctioned teaching "about" religion in public schools, has upheld the phrase "under God" as part of the pledge of allegiance, has approved states paying for transportation and textbooks for church school pupils, and allowed "released time" from public schools for religious instruction.

While the latest ruling bars state payments for church schoolteachers, it leaves undetermined the propriety of various other state programs, such as educational grants to pupils or parents and "dual enrollments" in public and church schools.

A score of court cases about such programs are under way.

THE REV. JAMES COLLIER

## Rev. Collier Named Pastor Of St. Paul's

St. Paul's Presbyterian Church has selected the Rev. James Collier as pastor. The Rev. Collier and his wife, Janelle, arrived in Big Spring Monday.

They came to Big Spring from Pleasanton where the Rev. Collier was pastor of the First Presbyterian Church. He has been in the ministry for two years.

A native of Houston, the Rev. Collier graduated from Kinkaid High School, obtained his bachelor's degree from Southwestern University, Memphis, Tenn., and his divinity degree was earned at the Presbyterian Theological Seminary, Austin.

## Ministers Freed Of Imprisonment

RUSCHLIKON, Switzerland (AP) — Two Baptist pastors from Cuba, the first allowed to go abroad in the last five years, told a meeting here that the majority of Baptist pastors who had been imprisoned have now been released and have resumed preaching.

The Revs. Manuel Salom and Humberto Dominguez, of the Baptist Convention of Western Cuba, said the Cuban churches now can hold worship services as often as they wish within their own buildings, but not outside them. There are about 16,000 Cuban Baptists, the ministers said.

## All-Day Activities Set For Independence Day

time First Baptist Church, Iredell, Tex., and First Baptist Church, Groveton, Tex. Since coming to Hardin-Simmons, he has supplied and interim pastored several churches in the Abilene area. He was interim pastor of College Baptist Church nine years ago.

He is married to Nancy N. Greer. They have three children, Billy Neal, Bobby Ray and Nancy Ruth.

MRS. GEORGE WANNER

## Kindergarten Head Named

Mrs. George J. Wanner is the new director of College Baptist Church's Kindergarten, which opens Aug. 24.

She came to Big Spring last September. She has been active in work with four and five year olds since 1964 when she became director for the Beginner Sunday School Department of Morningside Baptist Church, Sultland, Md.

She has earned her BA degree from the University of Maryland and is currently working on her masters degree in elementary and Kindergarten Education at Texas Tech, Lubbock.

Before coming to Big Spring, Mrs. Wanner taught and supervised at the Yokota-Johnson Kindergarten Nursery School in Japan for two years where the average enrollment was 200 three, four, and five year olds. From October through May of this school year she was a substitute teacher for the Head Start program in the Big Spring school district.

Her husband is Staff Sgt. George J. Wanner who is with the Medical Supply Section of the USAF Hospital at Webb. They reside at 1617 Harding with their two children, Jean, 9, and Jimmy, 7.

"I am looking forward to the '71-72 school year at Kollege Kindergarten. We have an exciting and worthwhile program planned for all four and five year olds," said Mrs. Wanner. Children may be registered in the church office through August.

It's easy to become enamored of the "woods and templed hills" . . . to fall in love with the "rocks and rills" . . . to hear freedom ringing "from every mountainside." But look at the boy in our picture. See him not only silhouetted against a valley in the Great Smokies . . . see him in a Kansas cornfield . . . on a Brooklyn street. The day has long passed when America could believe that her mountains and prairies were fitting evidence of her greatness.

Even the pride of the historic Pilgrims has little impact on this atomic age. MEN—they make a nation great! And this boy is one of them . . . young . . . eager . . . ready for destiny. He's one of the free—yes! But one of the NOBLE free? That depends—on the truths we teach him . . . on the Faith we share with him . . . on the part that God, the Author of Liberty, is to have in his life.

# Decisions To Be Made

Congress has been asked to support a non-decision by the Pentagon.

Deputy Secretary of Defense David Packard, the No. 2 man in the Pentagon, personally led a study of plans to develop three separate aircraft for close air support of ground troops. Congress has asked for such a review.

As a result of the review, Packard asked Congress to approve continued purchases of the British-built Harrier vertical takeoff plane for the Marines, and continued development of the Cheyenne helicopter gunship for the Army and the new AX attack plane for the Air Force.

The three aircraft have the same function. Some congressmen, including several powerful committee chairmen, had expressed the view that perhaps one or two of the planes could do the job for all the services.

Instead of reaching a decision, Packard wants

to keep doing what has been done before. Collectively, the three projects could involve production of more than 1,000 planes and more than \$3.5 billion.

The real decision which the Pentagon must eventually make involves more than aircraft. That

is whether the Army or the Air Force will have the mission of close support for Army ground troops. That role has been disputed for years; thus the duplication of close-support aircraft.

Postponing the decision is insupportable, because eventually it must be made.

## Lacking In Logic

In reversing the death penalty assessed James Speck, charged with murdering several nursing students in Chicago, the Supreme Court held that venemen opposing the death penalty were excluded from the panel.

This strains the bounds of logic, for if jurors opposed to the death penalty are accepted on

a jury, how can the death penalty ever be invoked? Is the court saying that the death penalty is unconstitutional because it might be regarded as cruel, harsh and tyrannical punishment? If this is the issue it ought to be decided, but until then the reversal on the ground cited above doesn't follow the patterns of logic.

## The Issues In '72

David Lawrence

WASHINGTON — With the Presidential election a year and four months away, the political analysts can't resist the temptation to appraise the outlook in the various states and hazard a prediction as to which party is likely to get a majority of the electoral vote.

But in 16 months many things can happen. In the first place, the Vietnam war will have been reduced in importance as a political issue. The main factors in the campaign will be the economic condition of the country and the chances that the American people may be taking if they change administrations.

IF INFLATION is being held in check and unemployment figures show a decline and profits in business are rising, the situation will be regarded as a sign of progress toward recovery and economic stabilization. The big question before the nation then will be whether putting a new administration in office would help or hurt the existing trend.

Public confidence also will be involved. For any change in administration means a period of uncertainty between election day in early November and inauguration day in January. During this hiatus of nearly three months, doubts prevail as to what new policies will be introduced and what old policies will be retained.

HISTORICALLY, a change of administration usually has not occurred when there was stability in the economic life of the country and no disturbing factors were causing apprehension. So the real issue next year could become whether it is wise to turn to a new executive without experience related to the office.

THE QUESTION which the Republicans will be asking the voters is: "Do you want a change now, and

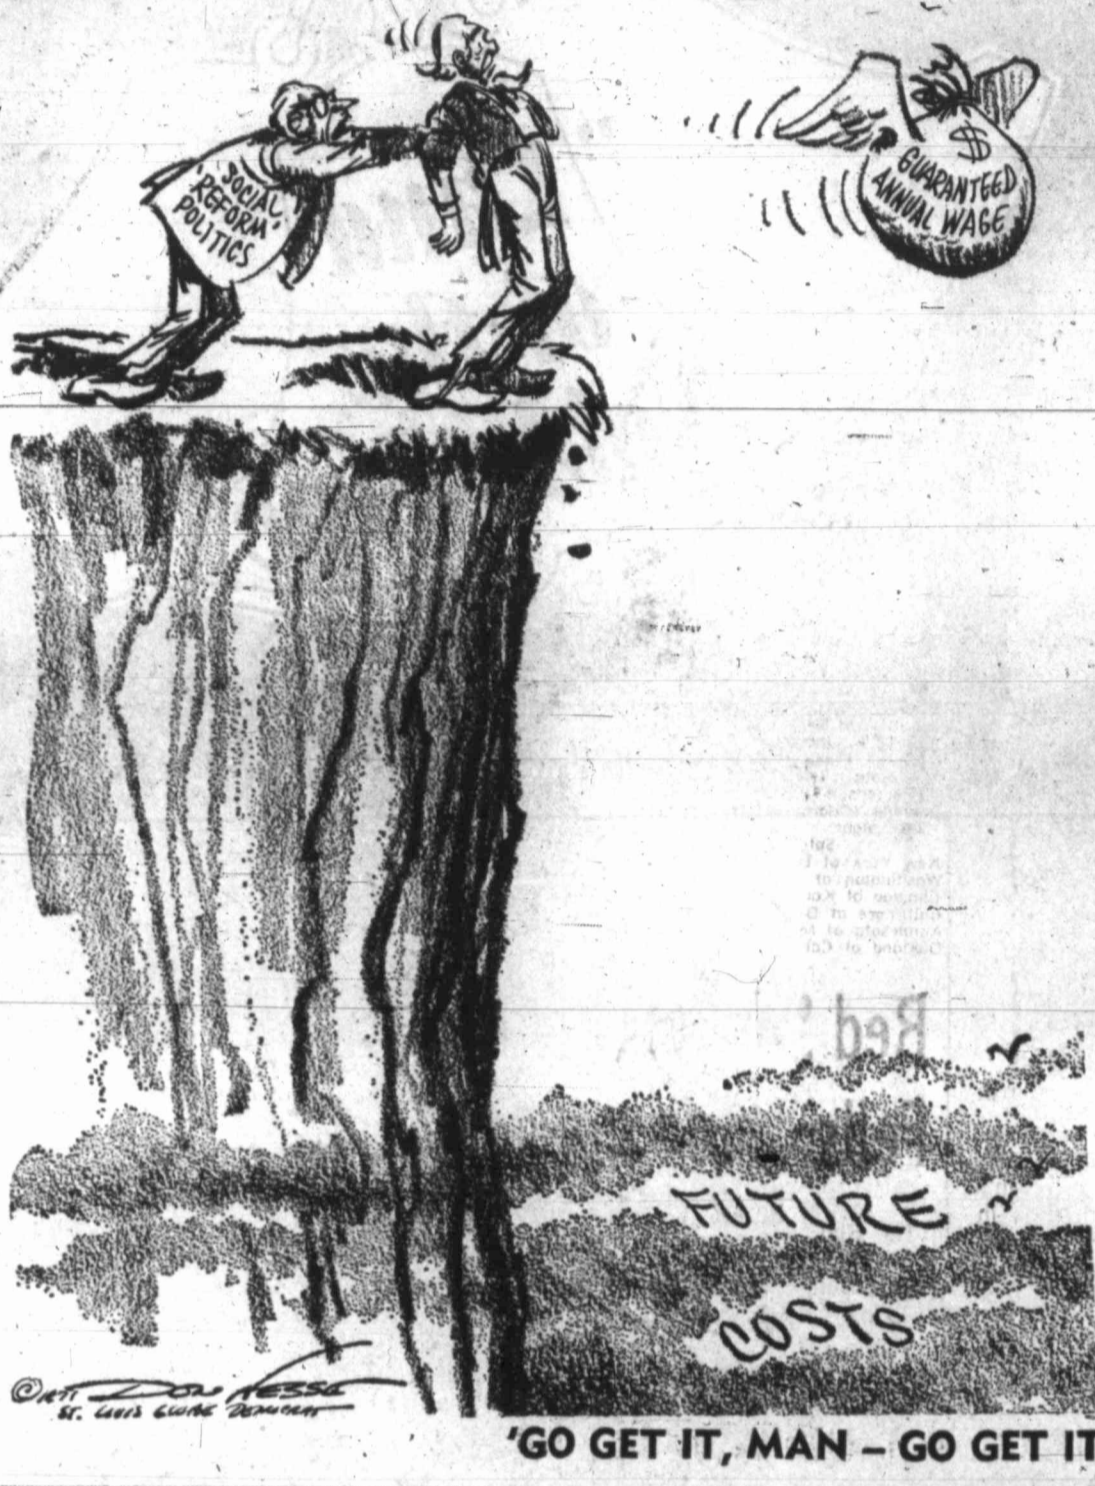

if so why?" If there is such a demand, the Democratic candidate, to be successful, will have to be someone who is knowledgeable about the problems of the presidency. Currently, about the only potential Democratic nominee who would qualify in that respect is Senator Hubert Humphrey. Yet the latest Gallup Poll indicates that he is the first choice of just 15 per cent of the Nation's Democratic county chairmen, while Senator Edmund Muskie is favored by 37 per cent.

IN THE ELECTION itself, a good deal will depend on whether there is a third-party ticket in the field. In 1968 George Wallace of Alabama got more than 13 per cent of the popular vote and kept Nixon from obtaining a majority. Because he carried several states by close margins, however, Nixon was able to get enough electoral votes to win the election.

If, in 1972 the international horizon is devoid of any likelihood of military action by the United States, and if unemployment is low and business conditions have improved, the incumbent administration will have a good chance of succeeding itself. If, on the other hand, the recovery has not made enough progress and there is discouragement about the whole economic outlook, the Republicans would be in trouble.

EVERY NATIONAL election, to be sure, is influenced to a large degree by the kind of organization each political party is able to put together for the campaign. There are signs that the Republicans and Democrats are both trying to raise more money than ever before to finance the 1972 campaign, which undoubtedly will be the most expensive in history.

'GO GET IT, MAN - GO GET IT!'

## Who Is To Blame?

John Cunniff

NEW YORK (AP) — One of the most obvious and distressing domestic problems these days is the failure of many white collar and service industries to produce the quantity and quality of work desired of them.

Transportation, power and communications break down, letters contain typos, repairmen decline house calls, men's suits take three weeks to alter, municipal workers are disgruntled, sanitation jobs are scorned.

And while the situation has long existed and has been the fuel of countless blarney columns and threats, it might possibly get even worse in the next few decades because of two persistent factors: 1. The economy is steadily becoming more service oriented. Relatively more people work in supplying services today than work in agriculture, mining and production of goods. Demand often exceeds supply, pushing up costs.

2. The productivity of service workers is lagging, and in some instances is declining, putting a graduated and not clearly

measured drag on economic growth.

Who is to blame? To begin with, everyone. Individuals at every level of the economic scale are demanding more services. Secondly, educators who have failed to make such jobs attractive. And thirdly, managers who fail to motivate and reward such workers in order to increase their productivity.

You might also blame the industrial engineers. These are the people—once called time and motion study men—who analyzed America's factories, measuring each task in an effort to improve work flow, to methodize, to systemize.

They did a good job. There is no mystery to how much work is expected of a production line worker. It's all down on paper. And the work flow is constantly studied in order to eliminate waste motion.

But until the past decade or so, many of these engineers ignored the service areas, one of the reasons being the difficulties involved in measuring performance. Precision is much more difficult to achieve. Service people don't always do

repetitious jobs; they may do five separate jobs in an hour.

Now the industry has the tools but, its members say, they still need to educate management on the necessity of using them. "Unless the top management people are interested, there can be very little real effect," says Joseph Quick, chairman of Science Management Corp., one of the biggest in the business.

Top management often knows about the situation and still doesn't act, Quick says, even though he maintains it is quite obvious that a worker deprived of pride, without a sense of urgency, or without clear goals, doesn't do as much work as he might.

The job as he sees it is one of education. Many executives fear that the industrial engineers might have a dehumanizing effect on their workers, but the engineers themselves claim they know when to stop.

"Treat a worker like a machine and his productivity will fall off," says Quick, reminding the listener that this is precisely the opposite of what his men seek.

# More To Maturity

## Around The Rim

Walt Finley

THERE'S A report that our attorney general, John Mitchell, is resigning to run Nixon's 1972 campaign, but both the White House and Justice Department deny it.

We'll probably not know the truth until Martha picks up her telephone early some morning and calls the Arkansas Gazette.

Lead of the week, by Joyce Haber of the Los Angeles Times (and I hasten to say it's copyrighted, so you can't use it without giving credit):

Rita Hayworth is back in Hollywood and roaring mad (or "angry," as English teachers are wont to say).

THERE'S A LOT more to maturity than I realized. It doesn't end at 21 or 31 — or ever, I suspect, unless you let it.

And a large part of maturity is realizing that you (1) aren't really special, that many of your strongest principles are regarded by others as nutty, that you disagree with your closest friends on any thing, and that you'd better learn to disagree with them and remain friends, or look forward to a lonely old age.

In fact, you'll find that friends who agree with you a lot are sort of dull and your conversation lags.

That's why you may walk into the newsroom and find a group of us going at it, hammer and tongues, then calling the argument off and going out for coffee together.

TO BOIL it down to a sentence, I suspect more progress results from disagreement argued to its completion than from pleasant conversation.

The important phase is "disagreement argued to its completion." If

you depart angrily or mid-argument you lose face and, probably, a friend or two.

MY PRICELESS COUSIN, Price Everett, Bridgeport, says a country preacher in her area announced one Sunday that there are 726 sins, and ever since he's been answering calls for copies of the list.

The Beatles who, Paul McCartney says, are broke have been found to have a net worth of \$15.7 million by a British court.

Anybody can make a little mistake like that.

NEW YORK ROCK impresario Bill Graham, 41, is getting out of the business.

He says it had degenerated "from a youthful flower-power rejection of adult materialism to a full-fledged embracing of 'get all the money you can'." — News Item.

Don't trust anybody over 40.

Attention fast and flashy Frank Brandon:

The cleverest advertising phrase extant is the one for a photographic service which promises quick developments as opposed to some slow workers who cause the customer to complain:

"Some day my prints will come."

What do 1776 and 1492 mean to you? They are adjoining rooms in a dormitory at Texas A&M.

## HHH 'Looks Ahead'

Andrew Tully

WASHINGTON — Eloquent as ever and, as ever, preoccupied with tomorrow, Sen. Hubert Humphrey insists upon sounding like a candidate for President even while he is denying it. Perhaps that explains why Maine's Sen. Ed Muskie has trouble prying money out of big Democratic contributors of the past.

PRESSED DURING a private conversation, Humphrey will admit that he is looking ahead to early next year. That is to say, he says that should he decide to make another run for the White House he would have to announce around that time. "There may be room for a man who says what he means," says the former Vice President, the old gleam in his eye.

THAT IS Humphrey speaking like a candidate. Then, with a put-off grin, he allows that he is "less ready now" to seek the Democratic nomination than he was a month ago. "I like being a Senator again," he says, "and I find myself not so willing to play footsie with everybody" in order to get the nomination. "This time," he says, "I'd want to call the shots. I'd want to run on my own terms, in my own image. I'd want the people to know it's Hubert Humphrey running, and not somebody's man."

ALTHOUGH HE doesn't say so, the impression given is that the principal reason he remains undecided — or says he does — is personified in the political ghost of Lyndon Johnson. Clearly, Humphrey does not recall with any pleasure the 1968 campaign in which many observers cast him as a candidate burdened with the influence of a secretive, sullen President holed up in the White House.

Humphrey will not admit he might be that non-candidate. But he is careful to note that three men now have "major support" — Muskie, Sen. Ted Kennedy and Hubert Humphrey.

At any rate, the total impression is a joyous politician who wants to run and who is likely to do so when, as Humphrey puts it, "the bells start to ring and the lights go on."

THIS SEEMS obvious in the words of a man who describes himself as "a man for tomorrow," and who hammers on the theme that the voters "are tired of hearing about yesterday; they want to know where we've been, and who speaks of 'the politics of hope.'"

Listening to Hubert Humphrey, the reporter is convinced he is sincere in denying that he is not now a candidate. He doesn't have to be. He has plenty of time to enjoy the Senate while the various announced and all-but-announced candidates risk cutting themselves up in the cross-country maneuverings of the next several months. Humphrey puts it comfortably: "I'm not going to join the candidates running around the country, but I'm always willing to go out and raise money for the party."

THAT, OF COURSE, is the most felicitous way to run for President, as Sen. Barry Goldwater and Richard Nixon discovered in the period leading up to the 1964 and 1968 Republican conventions. In the meantime, it does Humphrey no harm to express the expert opinion that no candidate is likely to go to the Democratic convention with a commanding lead, and thus a deadlock is possible that could wind up with the delegates choosing a non-candidate.

Humphrey will not admit he might be that non-candidate. But he is careful to note that three men now have "major support" — Muskie, Sen. Ted Kennedy and Hubert Humphrey.

## Blount's New Job

Marquis Childs

WASHINGTON — Down at the Post Office Department they have changed hats. William M. (Red) Blount has exchanged his cabinet hat as Postmaster General to a business hat as head of the United States Postal Service, a semi-autonomous government operation.

If ever a man had an opportunity to show what business methods can do free of the political pressures of the old system, it is Blount. Nothing touches the average citizen so directly as the mail service or lack of it.

IN RECENT years screams of rage have arisen over delays in delivery, lost mail, indifferent or hostile postmen — a whole catalogue of sins accumulating over many years. It took a letter two to four days to go from Washington to New York or from New York to Boston. Even with air mail and special delivery the pace was a crawl.

Blount now works with a nine-member Board of Governors, named by President Nixon, all impressive big-business names. As Postmaster General under the new dispensation, he is the tenth member of the board. The reorganization provides a subsidy from the Congress for the transition period. An independent postal rate commission will fix rates — first-class mail has already gone from six to eight cents.

IT COMES down really to how quickly, in view of all the built-in obstacles, the favoritism, the prerequisites, the barnacles of 200 years Blount can show improvements. He has already set a standard, in effect guaranteeing that an air-mail stamp will assure next-day delivery within a 600-mile radius. A similar standard is being worked out for first class mail.

The chief complaint against Blount is that his whole thrust is on economy, and the cutbacks have further slowed service. According to

a report to the Senate Post Office Committee, the average time for delivery has increased by almost one day.

CERTAINLY, Blount has a wealth of business expertise. He founded a general contracting company operating out of his home town of Montgomery Ala., that has made him many times a millionaire. The Blount firm had an important piece of the Kennedy Space Center and in military contracts such as the hardened bases at missile sites. In his first public office — he had himself appointed Postmaster General of the public service operation, so that his critics say he is now reporting to himself — Blount has shown a flair for putting himself before the public. He stands high in the Administration.

THE CATCH is that he may not stay too long in the post he assumed in the new business operation he helped to bring about. It is widely felt that he will return to Alabama next year to run as a Republican against Sen. John J. Sparkman, who is serving his fourth term in the Senate after 12 years in the House. Sparkman is 71.

Blount, aged 50, would be a formidable candidate, appealing to independents and Democrats as an Alabamian who has made it in business and government. But before he leaves his present job he had better show some conspicuous gains in mail service.

## Santa Claus In July

NEW YORK (AP) — Merry Christmas!

What's this—Santa Claus in July?

Well, why not? Only old fogies and sportsfans want to cramp the jolly yuletide season. It used to start soon after we caught our breath after celebrating Thanksgiving Day. Now Thanksgiving and Pilgrim fathers are only footnotes to the swelling pageantry of Christmas, which is becoming a year-long industry.

The wise shopper—if he didn't buy all his Christmas presents at the Washington Birthday sales last February—will be able to get plenty of last-minute bargains over the Fourth of July holiday weekend.

It may seem odd to try to team up Santa Claus and Uncle Sam, but, after all, odd couples

are in vogue nowadays. —Anyway, what with the population explosion, the work is piling up for the Jolly Old Saint and it takes him longer to get it done.

So if you want to be sure old Santa reads your letter and still has time to get the presents you ask for, you'd better write him now in July.

Here's what I'm asking him to bring:

A "not-secret" stamp for government officials to mark on official documents which nobody but the printer will read anyway.

Something in metal from Ft. Knox.

A right number from the telephone company.

A pension from my draft board.

A free tooth from my dentist.

An interesting new wonder

drug. It's called money, is guaranteed to cure most cases of depression, and has no bad side effects.

A wallet that will self-destruct 10 seconds after a mugger takes it from a victim. The mugger will be turned into ashes too.

A film so clean that my 83-year-old mother can take me to without either of us worrying about having to explain to the other what it's all about.

A boy friend for my teen-age daughter whose hair doesn't look like a mop covered with long fishing worms.

A deflatable inflation. An official government misinformation official to weed out any unofficial information that might creep into any official misinformational announcements.

# Stan Smith Gains Wimbledon Finals

WIMBLEDON, England (AP) — Stan Smith, the lanky soldier from Pasadena, Calif., will face John Newcombe Saturday in a bid to break Australia's hold on the Wimbledon tennis title. But he will be the underdog.

Most players and critics predict the final could be a long match, with sets perhaps going to 8-8 and a tie-breaker. Newcombe is favored to win for the third time in five years.

Australians have won the title nine times in eleven years.

Ken Rosewall, the little 36-year-old Australian master who lost 1-6 1-6 3-6 to Newcombe in the semifinals Thursday said "Smith is a dangerous player and he must have a chance. But Newcombe is much safer off the ground, and I make him favorite to win."

Smith reached the finals Thursday with a 6-3, 8-6, 6-2 victory over Tom Gorman of Seattle, Wash., who was handicapped by a back injury.

Today was women's finals day.

Fans slept all night on the sidewalks outside the All England Club, hoping to see Evonne Goolagong, the 19-year-old Australian, dethrone the reigning queen, Mrs. Margaret Smith Court.

If Mrs. Court wins today and Newcombe wins Saturday they will make Wimbledon history. Since the challenge round was abolished in 1922, and the

champion has had to play through from the first round, the two reigning singles champions have never retained their titles in the same year.

The tie-break, introduced this year, is the first major change at Wimbledon since the challenge round was scrapped. When any set except the deciding one reaches 8-8, it is decided on a "sudden death" game of 12 points, with each player serving alternately.

**SMITH, A MIGHTY-MAN IS HE** — Stan Smith of Pasadena, Calif., stretches to make a backhand return to fellow American Tom Gorman in their semifinal match of the men's singles at the All England Lawn Tennis Championships in Wimbledon Thursday. Smith, 24, won, 6-3, 8-6, 6-2 and will meet Australia's John Newcombe in the finals on Saturday.

## Houston Bids For '75 NCAA

MYRTLE BEACH, S.C. (AP) — Interests from Houston, Tex., who are bidding for the 1975 NCAA basketball tournament, say they would move the playing court to the home plate area of the Astrodome.

They told the NCAA University Division Tournament Committee Wednesday that his arrangement, coupled with elimination of many court-side seats, would result in a better seating arrangement than this year's tournament, also held in the Astrodome. It would reduce capacity to 50,000 from about 55,000. This year's two sessions drew about 62,000.

Bids also came to have the tournament played in the 17,500-seat Freedom Hall at the University of Kentucky in Louisville, and in the 15,000-seat San Diego International Sports Arena.

The 1972 tournament will be in Los Angeles, the 1973 in St. Louis and the 1974 in Greensboro, N.C.

## Cycle Race Due Sunday

Sports fans will have an added bonus this weekend with the running of the West Texas Motocross cycle races here.

The Big Spring group decided on a Sunday series of races when San Angelo canceled out its holiday card. Riders are expected from Abilene, San Angelo, Midland, Odessa and other points as well as Big Spring.

The track, off FM 700 North, east, will open at 10 a.m. Sunday, and race competition will begin at 2 p.m.

There will be classes for senior and junior minibikes; 100 cc; the 101-25 cc; the 124-250 cc; and the 250 plus or open event.

In addition to prizes to the winners of Sunday's races, there will be a presentation of the trophies for the West Texas Motocross season series.

**Red Sox Rally Fells Giants**

The Red Sox put on a stretch finish in a Sophomore League game Thursday evening that blew the Giants right out of the saddle, 13-11.

They were trailing 11-7 when the top of the last inning rolled around, then proceeded to score six runs. The Giants had started strong, getting seven runs in the first two innings.

Spence got credit for the win, allowing 12 hits, the same number yielded by Skanks as the losing pitcher.

For the Red Sox, Spence had two for four, Guthrie three for four and Box three for five. Shanks had two for five, Holton two for four, Thompson two for four and Broughton one for one for the Giants.

**Dawson Polo Meet Opening**

LAMESA (SC) — Eight polo teams were to arrive here today in preparation for the three-day Dawson County Polo Tournament beginning Saturday.

Teams from Fort Worth, Buckingham, San Angelo and Snyder are expected to participate in addition to the Dawson County club.

Each team will bring here some 10-15 players.

The Lamesa team is defending champion.

There will be no admission charge for the matches slated for the Lamesa Rodeo Arena near Forest Park, and the Dawson County Polo Club, hosts for the event, urged a good turnout of fans.

**Team E, Team A Win Cage Games**

Team E overcame Team D in the Citywide Summer Recreations program basketball league Thursday evening, 76-64. Fallon set the pace with 26 and Shafer added 20. For the D's Pierce led with 20, followed by Olague with 18.

In the second game, Team A poured on the coal and defeated Team F by 106-88, although Beall was top scorer with 27 points for the F's, aided by 18 from Clements. For the victors, Frontz, who will be on the HCJC squad this autumn, had 23 and Carter 20.

**Poss Paces Pirates**

Nate Poss homered in the first with one on and then Bruce Felts protected the lead with a sterling mound performance as the Pirates defeated the Optimists 5-2 in a Hi-Teen League baseball game Thursday.

Gregg Crawford, relieved by Roy Osburn in the third, was charged with the loss although they gave up only six hits and did Felts. Snickie Beal slugged a double for the Optimists, while Don McKee contributed a couple of hits to a losing cause. Allan Hill had two for three for the Pirates, who now are 5-5.

**Catholics Capture Title In Church Loop Tourney**

Westside Baptists attempted a super-man achievement Thursday evening, but in the end the even-handed Immaculate Heart of Mary Catholic team came through and won the Church League softball tournament championship.

After Westside had lost its bid in a two-inning replay of a protested game and lost a run in the process to Immaculate Heart, it squared off against First Assembly of God and won the losers bracket 4-1.

That put the team in with the Catholics, who were undefeated, but not for long. Westside upended the Catholics 4-2 and made necessary another game for the title. In the final game, however, Oldfather set the Westside team down with only two hits, both by Williams, and won the game 6-0.

(All-tournament selections and highlights will be listed in Sunday's Herald).

## Semi-Finals For Regatta

HENLEY-ON-THAMES, England, (AP) — World champion Alberto Demiddi from Rosario, Argentina, meets England's David Sturge, and Jim Dietz of the New York Athletic Club takes on Pat Delafield of England today in the semifinals of the prestigious Diamond Challenge Sculls of Henley Royal Regatta.

Demiddi, brimming with confidence after an easy victory Thursday over England's Ken Swan, said he was "feeling very happy."

Dietz, a former world youth champion, was equally delighted after his victory Thursday over Niels Secher of Denmark in 8:21 in the mile, 550-yard River Thames course. That was five seconds faster than Demiddi's time.

"I feel a lot better now," said Dietz as he recalled his last visit here in 1969.

Harvard beat Aberdeen University of Scotland by four lengths in 6:57 Thursday. Columbia scored by 1 1/4 lengths in 7:09 over the London Rowing Club.

**SWIMMING POOL FOR HORSES** — Thoroughbreds at Hollywood Park get a "workout" in the Inglewood, California's \$35,000 swimming pool for horses, just completed. One trainer says a 3-minute swim is the equivalent of a 1 mile track drill, adding that no horse ever broke an ankle or bowed a tendon swimming.

## Bosox Creep Up On Orioles

The on-again, off again race in the American League East is on again.

The Boston Red Sox, given up for dead a week ago, are back on their roller coaster, going at full tilt and bearing down on the dragging Baltimore Orioles.

Rico Petrocelli of the Red Sox and Cleveland's Vada Pinson provided the latest ups and downs Thursday night with ninth inning home runs that pulled Boston within 2 1/2 games of Baltimore, a surprising turn of events.

Petrocelli's homer, a three-run shot with one out in the ninth, sent the Red Sox winging past Detroit 8-7 for their seventh consecutive victory, about one hour after Pinson's blast with two out in the ninth gave the Indians a 3-2 conquest of the Orioles.

Now, after starting the season behind the heavily-favored Orioles, then overtaking them only to fall back again, Boston's latest upswing has put new fire into the race.

The same can't be said in the West where the Kansas City Royals beat the California Angels 7-3 and still stand a distant 9 1/2 games behind the idle leader, Oakland.

**Talons Get 21 Runs While Pitchers Hurl No-Hitter**

Junior Foster, aided by Fred Pickett and Steve Thornton, threw a no-hitter at the Sabres in the International Little League Thursday evening, and they might as well have saved this sparkling performance for a tighter situation. The Talons won 21-0.

The Talons are now even at 10-10, while the Sabres stand to 6-14.

Richard Thornton blasted a double and a triple, Steve Thornton got a triple, Jim Craver had two doubles, Mike Year-arough and Billy Hurst a double each. The Talons sank their claws early, getting eight in the first then erupting for 12 runs in the fourth.

## Five Tied For Lead In Canadian Open Tourney

MONTREAL (AP) — Rolf Deming is a former mathematics instructor at the University of Minnesota who admits to "an aversion against adding up large numbers."

He didn't have to Thursday. The addition came to 67, five

under par, and gave the relative newcomer to the golf tour a share of the first round lead in the \$150,000 Canadian Open Tournament.

Deming, 31, but only two years on the pro tour, was tied at that figure with four veter-

ans Rod Funseth, Phil Rodgers and Lou Graham going into today's second round in the chase for the \$30,000 first prize.

Canadian George Knudson and little Rod Curl were one stroke back at 68. Veteran Lionel Hebert and Canadian Ben Kern headed a group of seven at 69, three under par on the 6,920-yard Richelieu Golf Club course.

Arnold Palmer, one of the favorites despite a balky putter, was at 70. But the 41-year-old giant still had his problems on the greens, three-putting twice and using 34 putts.

South African Gary Player and United States Open king Lee Trevino had even more difficulties and were well back at 73.

Deming, a pleasant, hard-working player, hasn't come close to winning in his brief time on the tour. His best finish was a tie for fourth in the satellite Azalea Open.

He didn't make expenses last season, has won only \$7,500 this season and admitted he has been "scrapping the bottom of the barrel a couple times" after his sponsors had given up on him.

He chipped in from off the green for two of his birdies, needed only 28 putts and said it is "one of the luckiest days I've ever had in golf."

Nate Poss homered in the first with one on and then Bruce Felts protected the lead with a sterling mound performance as the Pirates defeated the Optimists 5-2 in a Hi-Teen League baseball game Thursday.

Gregg Crawford, relieved by Roy Osburn in the third, was charged with the loss although they gave up only six hits and did Felts. Snickie Beal slugged a double for the Optimists, while Don McKee contributed a couple of hits to a losing cause. Allan Hill had two for three for the Pirates, who now are 5-5.

**Catholics Capture Title In Church Loop Tourney**

Westside Baptists attempted a super-man achievement Thursday evening, but in the end the even-handed Immaculate Heart of Mary Catholic team came through and won the Church League softball tournament championship.

After Westside had lost its bid in a two-inning replay of a protested game and lost a run in the process to Immaculate Heart, it squared off against First Assembly of God and won the losers bracket 4-1.

That put the team in with the Catholics, who were undefeated, but not for long. Westside upended the Catholics 4-2 and made necessary another game for the title. In the final game, however, Oldfather set the Westside team down with only two hits, both by Williams, and won the game 6-0.

**Talons Get 21 Runs While Pitchers Hurl No-Hitter**

Junior Foster, aided by Fred Pickett and Steve Thornton, threw a no-hitter at the Sabres in the International Little League Thursday evening, and they might as well have saved this sparkling performance for a tighter situation. The Talons won 21-0.

The Talons are now even at 10-10, while the Sabres stand to 6-14.

Richard Thornton blasted a double and a triple, Steve Thornton got a triple, Jim Craver had two doubles, Mike Year-arough and Billy Hurst a double each. The Talons sank their claws early, getting eight in the first then erupting for 12 runs in the fourth.

**Team E, Team A Win Cage Games**

Team E overcame Team D in the Citywide Summer Recreations program basketball league Thursday evening, 76-64. Fallon set the pace with 26 and Shafer added 20. For the D's Pierce led with 20, followed by Olague with 18.

In the second game, Team A poured on the coal and defeated Team F by 106-88, although Beall was top scorer with 27 points for the F's, aided by 18 from Clements. For the victors, Frontz, who will be on the HCJC squad this autumn, had 23 and Carter 20.

**Petraglia Leads Pro Bowler Race**

AKRON, Ohio—Another high finish, this one a fifth-place in the Portland (Ore.) Open last weekend, has enabled Johnny Petraglia, Brooklyn, N.Y., to pull still farther ahead in the Professional Bowlers Association (PBA) official money race.

The \$1,100 he won at Portland upped Petraglia's record-breaking total earnings to \$72,028, a margin of nearly \$30,000 over second-place Don Johnson, Akron, Ohio, Johnson, who did not cash at Portland, has won \$44,908.

Portland winner Don Helling, St. Louis, Mo., won \$4,050 at Portland and, as a result, jumped into the top 20 in 16th place with official earnings of \$14,480 for the year.

The \$50,000 Winston-Salem Open highlights Fourth of July activity for the world's best bowlers: Meib's Bowl in Redwood City, a suburb of San Francisco, hosts the event from July 2-5 and the winner will receive \$6,000.

# Cruelty To Birds

Dear Abby  
Abigail Van Buren

**DEAR ABBY:** I am only in the 5th grade but I have some strong feelings about life and death. Today while walking down the main street in our town I found a bird's nest that had fallen out of a tree. There were some baby birds in the nest that looked like they were just born and couldn't fly yet. I asked some people who were walking by what I should do with the birds, and one man said, "Shove them down the sewer." Another man said, "Step on their heads." And someone else said, "Either feed them to a cat or get a B.B. gun and when the mother comes, use it on all of them." Please tell me, Abby, what is the matter with people? What would you have done?

**FIFTH GRADER**  
**DEAR FIFTH:** Some people think it's smart to talk a cruel game, but they wouldn't actually behave that way. I would have borrowed a ladder and with the help of an adult put the nest and the birds back in the tree. Or called the humane society.

**DEAR ABBY:** Do you think a 22-year-old girl should be expected to keep a kosher kitchen for her husband?

**DEAR ROSALIE:** Only if he's Jewish.

**DEAR ABBY:** A lonely widow

of 57 wrote to you for advice on how to bring some excitement into her life and you told her to get involved with volunteer work for some charitable organization, political group, or service club.

Abby, what have you against these organizations that you would wish a woman like that on them? If a woman hasn't become involved with her community by the time she's reached her early forties, she is a "taker," not a "giver," and she'd become the kind of deadwood these organizations get bogged down with.

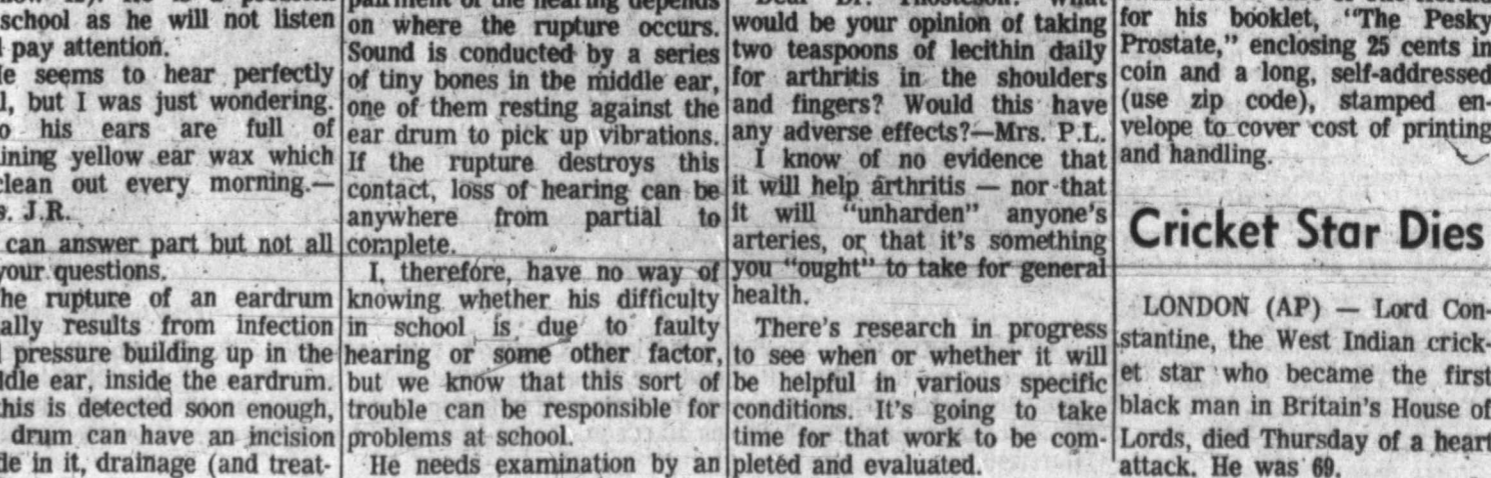

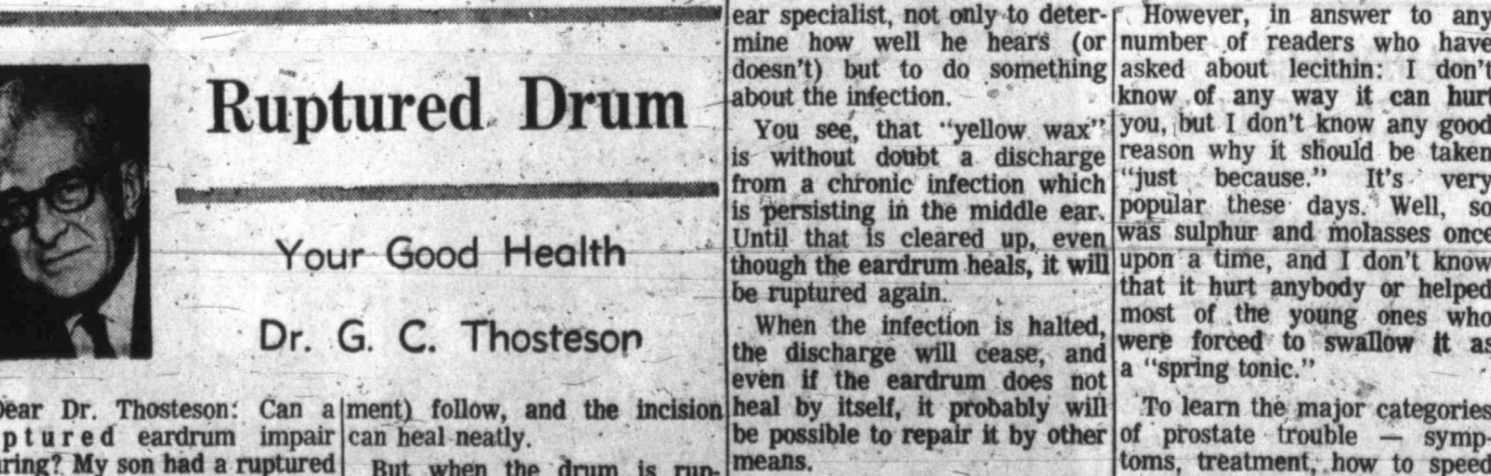

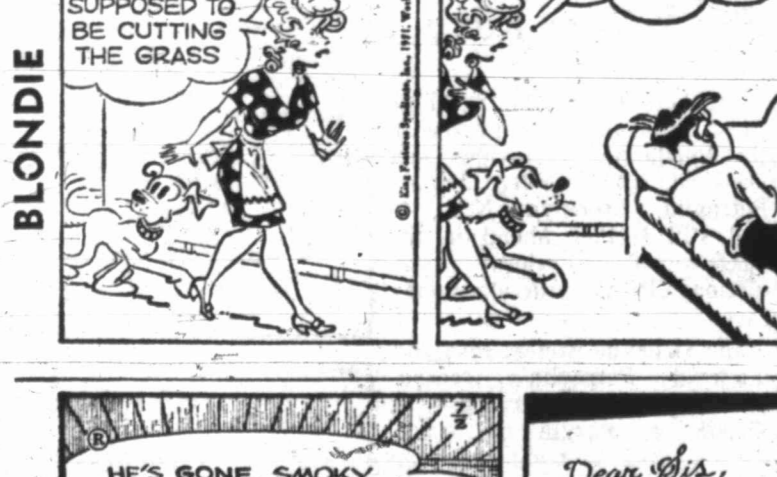

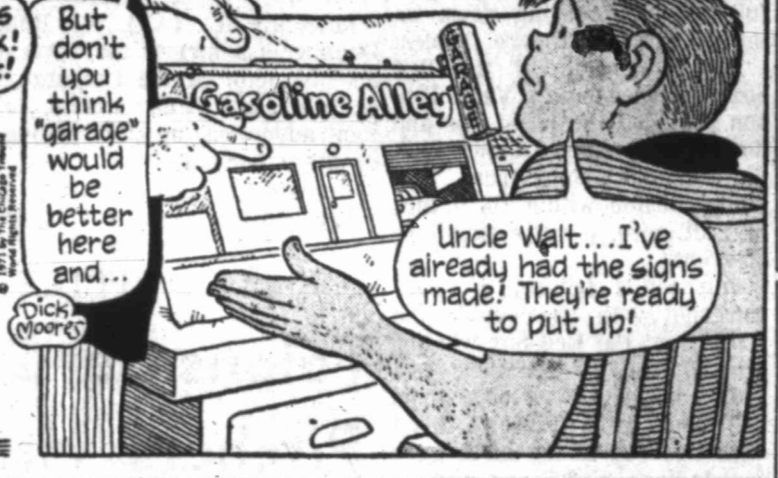

I like the song, "People who need people are the luckiest people in the world." They are also the busiest. Sign me.

**DEAR BUSY:** Some "givers" have been so busy giving to their families they haven't had the leisure to get involved elsewhere until they're widowed. Widows are people. There are all kinds.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 89700, Los Angeles, Calif. 90069. For a personal reply enclose stamped, addressed envelope.

**CONFIDENTIAL PLEASE**  
**DEAR CONFIDENTIAL:** There is nothing you can — or should do. Any interference on your part might permanently damage the relationship between you and your son. Perhaps your suspicions are wrong. They could be perfect for each other.

**DON'T FORGET. HIRE THE VET!**

## Ruptured Drum

Your Good Health  
Dr. G. C. Thosteson

Dear Dr. Thosteson: Can a ruptured eardrum impair hearing? My son had a ruptured drum at a very early age (he is now 12). He is a problem at school as he will not listen and pay attention.

He seems to hear perfectly well, but I was just wondering. Also, his ears are full of draining yellow ear wax which I clean out every morning — Mrs. J.R.

I can answer part but not all of your questions.

The rupture of an eardrum usually results from infection and pressure building up in the middle ear, inside the eardrum. If this is detected soon enough, the drum can have an incision made in it, drainage (and treatment) follow, and the incision can heal neatly.

But when the drum is ruptured by the pressure, impairment of the hearing depends on where the rupture occurs. Sound is conducted by a series of tiny bones in the middle ear, one of them resting against the ear drum to pick up vibrations. If the rupture destroys this contact, loss of hearing can be anywhere from partial to complete.

I, therefore, have no way of knowing whether his difficulty in school is due to faulty hearing or some other factor, but we know that this sort of trouble can be responsible for problems at school.

He needs examination by an ear specialist, not only to determine how well he hears (or doesn't) but to do something about the infection.

You see, that "yellow wax" is without doubt a discharge from a chronic infection which is persisting in the middle ear. Until that is cleared up, even though the eardrum heals, it will be ruptured again.

When the infection is halted the discharge will cease, and even if the eardrum does not heal by itself, it probably will be possible to repair it by other means.

Dear Dr. Thosteson: What would be your opinion of taking two teaspoons of lecithin daily for arthritis in the shoulders and fingers? Would this have any adverse effects? — Mrs. P.L.

I know of no evidence that it will help arthritis — nor that it will "unharden" anyone's arteries, or that it's something you "ought" to take for general health.

There's research in progress to see when or whether it will be helpful in various specific conditions. It's going to take time for that work to be completed and evaluated.

However, in answer to any number of readers who have asked about lecithin: I don't know of any way it can hurt you, but I don't know any good reason why it should be taken "just because." It's very popular these days. Well, so was sulphur and molasses once upon a time, and I don't know that it hurt anybody or helped most of the young ones who were forced to swallow it as a "spring tonic."

To learn the major categories of prostate trouble — symptoms, treatment, how to speed recovery — write to: Dr. Thosteson in care of The Herald for his booklet, "The Prostate," enclosing 25 cents in coin and a long, self-addressed envelope to cover cost of printing and handling.

# UNDERNOURISHED, SCARRED Sisters Back With Mother Year After Being Kidnaped

SAN ANTONIO (AP) — Two small kidnap victims, so thin from malnourishment that their mother didn't recognize them, were recuperating at a hospital today.

Trini Esquivel, 6, and her sister, Paula, 3, were reunited with their mother after police found them at a residence here. Officers said they were kidnaped nearly a year ago near Chicago and had bad scars on their wrists, where they apparently had been bound.

"I couldn't recognize them. They look like they never ate," said Mrs. Victoria Esquivel, 23. When she first saw them at a hospital here, Mrs. Esquivel

## Lamesan Is Nominated For State Rotary Post

LAMESA (SC) — Stansell Clement has been nominated by the local Rotary Club for governor of District 573 for the 1973-74 year.

Clement is a past president of Lamesa Rotary Club, as well as former vice-president and former director.

He was also chairman of the Interact Committee which organized the Lamesa Interact and has served as chairman of the District Interact Committee for Rotary District 573.

He has had perfect Rotary attendance since he became a Rotarian in 1952.

Before coming to Lamesa, he served as Childrens County Judge in 1939. Clement came to Lamesa in 1941 as district attorney and later served as a special district judge.

He is a past president of Lamesa Chamber of Commerce, past president of the Dawson County United Fund. He is a member of the Dawson County Library Board, and has been a member of the Dawson

attendants they were not her missing children. But Trini apparently recognized her mother and began crying.

Mrs. Esquivel pushed back Trini's hair and found a scar, then realized the children were hers and began crying with joy.

Police said the youngsters were kidnaped last August in Aurora, Ill. Their mother said she moved there to get away from a man there who "kept bothering her."

A hospital spokesman said the two children had scars a fourth of an inch wide on their wrists, and that they were badly malnourished and frightened.

He said Trini told officials their wrists and ankles had been bound with ropes.

By Thursday, both were listed in satisfactory condition.

Police said they located them Wednesday after a man was arrested here June 20 on traffic warrants.

Charged in the case was Jose Aureliano Sifuentes, 35, who police said has 11 children of his own.

In Illinois, Kane County officials said Sifuentes was charged with kidnaping and the FBI had charged him with unlawful flight to avoid prosecution. He was freed Wednesday on \$10,000 bond.

Police said they were still investigating the case. The children had been staying with a woman in her 80s, officers said.

County Juvenile Board since its inception.

Clement has been a director of the Dawson County Industrial Foundation, serves on the board of trustees for Wayland Baptist College, is a member of the Lamesa Planning and Zoning Commission and was one of the original directors of Education Service Center, Region XVII in Lubbock.

He is a member of the First Baptist Church and serves as a deacon. He is past chairman of the Board of Deacons. Clement teaches a young adult Sunday School class, and he is also a past director of Church Member Training of the congregation.

He served as an enlisted man in the Army Air Force in World War II, and was in Judge Advocate General's Officers Candidate School at the time of his discharge in October, 1945.

He served as guest speaker at the officer installation of the Midland West Rotary group Tuesday.

Altho the duplication of distribution in the diamond suit apparently presented South, the declarer at six hearts, with a hopeless cause, he capitalized on a compensating feature in his opponents' holdings to overcome adversity and emerge with a substantial profit.

The opening bid and response are routine and East's overall of three no trump is an obvious attempt to interfere with the normal course of events. Since South has announced game in hand and North has given a positive response, the three no trump call can hardly have a natural meaning. East intended his bid to be a request for partner to show a minor suit—in other words, East was making an unusual no trump overcall.

South's four club call was a cue bid and a slam try. West freely bid four diamonds and North persisted to four hearts. Altho East attempted to sacrifice at five diamonds, South leaped to six hearts, which closed the auction.

West opened his singleton three of clubs and East put up the jack to disclose declarer's ace. The duplication in the minor suits that was revealed when the dummy was spread, came as a distinct disappointment to the declarer. If, for example, North had put down two diamonds and two clubs, South can virtually claim his contract, announcing his intention to concede one club trick and ruff the remaining two clubs in dummy.

As matters stood, declarer had his work cut out for him. He cashed the ace and king of hearts first to draw trump and followed this by leading the ace of spades. When the queen dropped from East's hand, South paused to reflect. East's spot had all the appearances of a legitimate play which was reinforced by the bidding.

East's vigorous activities during the auction on an aceless holding strongly suggested that his holding was highly distributional. On this basis, South decided to play his opponent for a singleton spade. He therefore continued with the six of spades and when West followed with the four, the seven was played from dummy. East showed out discarding a diamond.

Declarer cashed the king of spades, discarding a club and continued with the ten of spades on which he shed another club. West was in with the jack of spades, and since he had no more clubs, his next play could only serve to provide assistance to his opponent.

A spade return would enable South to get rid of his remaining club. A diamond shift would permit South to ruff in dummy while he shed his last club. In either case, his loss on the deal would be restricted to one trick.

South's four club call was a cue bid and a slam try. West freely bid four diamonds and North persisted to four hearts. Altho East attempted to sacrifice at five diamonds, South leaped to six hearts, which closed the auction.

## Road And Bridge Troubles Aired In Thursday Meet

By LINDA CROSS

The question of a 25-cent per hour raise for one road-and-bridge employ caused dissension among the county commissioners Thursday when they met with Hollis Randell, road and bridge administrator.

Commissioners found themselves in a quandary over finding a way to raise Clifford Hart's salary without raising the ire of Local 826 of the International Union of Operating Engineers. It was finally agreed upon to confer with Kenneth Howell, Local 826 business manager, on the technicalities involved in raising the rate of pay for one employ.

If the discussion with Howell is satisfactory, Hart's salary will be raised from \$280 per month to \$305, retroactive to July 1.

"If Kenneth's going to run it (the department), you don't need me," said Randell. He added, "As I understand the union, they've got grievances not placed on the next meeting's agenda for action."

CLARIFICATION  
Randell attempted to soothe some ruffled feelings in his department by clarifying J. D. Nixon's position in the department.

"Jay's title is road superintendent, but I want to use him on blades. His salary will stay at its present rate, but I want him to work any place he's needed," said Randell.

Randell and Nixon told the court that at present Nixon is the only man in the department qualified to run a maintainer machine in road construction. Nixon agreed to do the job as long as it is clear that he is still to be considered in a supervisory capacity. Prior to Randell's employ, Nixon had headed the county road department.

Randell said that it was to be made clear to the men that both Nixon and Hart were to be regarded as supervisors. Nixon also is to be granted the use of a pick-up truck to enable him to more effectively supervise construction when he isn't running the maintainer.

## Bernadette Devlin Expecting Baby

DUBLIN (AP) — Bernadette Devlin, Northern Ireland's Roman Catholic firebrand, expects a baby in the fall, a Dublin newspaper reported today.

The pregnancy was reported by the Irish Times. Mary Cummins of the paper said Miss Devlin told her in London: "My morals are a private matter. When I'm a member of Parliament, I represent a political program."

Miss Devlin is 23 and the youngest member of the British House of Commons. She represents an Ulster district.

A man answered the phone at Miss Devlin's London apartment today and said she was out of town. She was scheduled to speak tonight at a political meeting in Essex, near London.

Miss Devlin refused to identify the father of her child. She said she was pregnant when she went to the United States for a lecture tour earlier this year but did not get a medical diagnosis until she returned.

She said motherhood would not keep her from running in the next general election, which must be held not later than 1974. But she told the reporter from the Irish Times that she is not at all certain of the reaction to her pregnancy among the Irish Catholics who sent her to Parliament.

"After all the people of Ireland have many reasons for being concerned," she said.

"Whatever they think of my being pregnant, it ought not for a moment distract them from facing up to the real menaces of bad wages, exploitation, slum houses and oppressive landlordism."

"My moral position on abortion is that I would not be able to justify it to myself," she added. "This is something that people have got to decide for themselves. My decision is no."

**Lamesa Girl Is Sweetheart Of DeMolays**

LAMESA (SC) — Nancy Barron, daughter of Mr. and Mrs. Norris Barron, was crowned the new West Texas DeMolay Sweetheart at the annual conclave in Midland.

Miss Barron represented the local Vernon W. Bryant Chapter.

Reward for her efforts will be a trip to the State Conclave in Houston this August. She will reign over this area for the next year.

Miss Barron is an 18-year-old 1971 graduate of Lamesa High School. While in high school she was a member of the National Honor Society, student council, secretary of the Booster Club, social chairman of the senior class, and was a member of the a cappella choir the last two years, including an appearance with the group at state convocations.

She was active in the Spanish Club, the Future Teachers of America and the Girls Athletic Association. Miss Barron was selected by her teachers as the outstanding student in the English and Social Studies departments.

Other honors have included selection as princess of the South Plains Livestock Show in 1968 and was county 4-H Club Gold Star girl.

## COUNCIL BACKS AWAY FROM INTEGRATION SUIT Black Ejected At Big D Hearing

DALLAS, Tex. (AP) — The City Council stood neutral in the school desegregation suit Thursday, after a 2-hour hearing weighted with pleas for action from white citizens and included the ejection of a black speaker.

Acting on the advice of City Atty. Alex Bickley, the council passed a resolution expressing "concern and desire that quality education be afforded" to each citizen.

It urged "all segments of the community to cooperate in seeking to achieve this goal for all our citizens and that we make such adjustments as might be necessary to accomplish this task."

The action came after the council heard 25 speakers from an overflow crowd, predominantly white. Most asked the council to take a position supporting the neighborhood school concept and opposing busing.

After nine speakers were heard, former black candidate for mayor Albert Lipscomb took the rostrum.

"I am completely appalled at all of these militants sitting here," he said. "I have been busied all my damn days."

When Mayor Wes Wise admonished Lipscomb to keep his language clean, according to the rules set down for the meeting, he drew objections from Lipscomb and from Clarence Huginnie (a former black candidate for council), seated in the audience.

"You changed the rules for those white folks but you don't want to be flexible for black folks," Huginnie shouted. "That's white racism." He referred to council approval a few minutes earlier to permit a list of white citizens to speak out of the prescribed order set up in the meeting guidelines.

After shouts of "racism" from both, Wise threatened to have them ejected.

"You shouldn't even be here. This is unprecedented action," Lipscomb continued. "G-D—you all. Damn all of you white racists."

Lipscomb turned on leaving to hurl a charge at Councilman Jesse Price, and Wise motioned for two plainclothesmen, who escorted Lipscomb into the hall where he was released.

Wise advised at the outset that, according to City Atty. Alex Bickley, the city had no legal position to intervene in the suit. He asked that remarks be directed to matters over which the council has jurisdiction, but most concerned neighborhood schools and busing.

Mrs. Leonard McDonald urged the council not to "hide behind the ideas of the city attorney that nothing can be done."

Bill Brice, after introducing five speakers supporting neighborhood schools, proposed a resolution which would have placed the council on record as vigorously opposing any plan that forces a child to attend a school outside of his immediate neighborhood.

Manning served 18 months as city manager at Chanute and also served as city manager of Palacios for a time. He is a graduate of Texas Christian University with a degree in public administration and has worked four years as an administrative analyst for the city of Fort Worth.

**VA Hospital Employees Are Presented Awards**

Awards were made to seven persons in the Big Spring Veterans Administration Employee Recognition Ceremony held at the VA Hospital Wednesday.

John Clancy was presented the Public Service Award for Improving Communications and Service to the Public by Jack D. Powell, hospital director, for his active participation in the Howard County Committee on Aging, of which he is presently serving as president.

Salary increases and certificates of appreciation for outstanding work performance went to Julian Patterson, chief, Social Work Service; Mrs. Billie Y. Mize, chief, Professional Support Section; Mrs. Dene Sheppard, secretary to chief, Medical Administration Service; and Miss Wanda Ford, dental assistant.

John W. Watkins, nursing assistant, received a cash award and a certificate of appreciation for superior performance and Joe A. Puga, nursing assistant, received a cash award and a certificate of appreciation for outstanding performance.

Refreshments were served to the group, which included hospital employees and relatives of the recipients: Bill Brooks, Personnel Division, was in charge of the arrangements.

**Wrong Number**

CAPE TOWN, South Africa (AP) — Postmaster General Louis F. Rive banished an advertisement containing a bikini clad girl from the Southwestern Cape Telephone Directory.

Rive said he had "never seen the girl and it is not her that I object to. It is the principle involved... In future all post office publications will need my approval before we start printing."

**'Good Luck Fifth Army'**

SAN ANTONIO (AP) — "Good-bye Fourth Army," said a sign on a helicopter, that churned over Ft. Sam Houston. Another helicopter bore the message, "Good Luck Fifth Army."

On the ground, a band played "Auld Lang Syne" as the 4th Army folded its colors and the fort officially became headquarters of the new 14-state 5th Army.

The 4th Army was merged with the 5th in an economy move that officials say will save \$10 million a year.

Territory of the new 5th Army covers more than one million square miles, from Minnesota and Michigan to the Gulf of Mexico.

Ft. Sam Houston was the 4th Army's headquarters and the 5th was based at Ft. Sheridan, Ill.

Gen. Ralph Haines Jr., who heads the U.S. Continental Army command, told a crowd of several hundred soldiers and civilians:

"Despite allegations to the contrary, the Army is a flexible organization attuned to changing circumstances, but determined at the same time to preserve the basic values we all cherish."

The 4th Army came into being nearly 39 years ago. The new command was named the 5th because of its World War II combat role.

Haines said this may be the last merger for the Army.

"I do not think we can prudently go much further in reducing the Army's command and control apparatus and geographical coverage of the continental United States for such functions as natural and man-made disasters," he said.

Lt. Gen. George Underwood Jr., 4th Army commander since April 12, assumed command of the 5th.

**Livestock Feed Program Extended**

The livestock feed program in Howard County, due to expire Wednesday, has been extended to Sept. 30, according to J. G. Hammack Jr., Howard County Agricultural Stabilization and Conservation Service office.

"The haying and grazing set-aside has been extended to the same date," said Hammack. "An application is required for the feed program, but unless the land will be leased, no application is necessary for the haying and grazing set-aside."

**Dance Group Tours Europe**

NEW YORK (AP) — "The Nikolaus Dance Theater is making its third foreign tour under the auspices of the Department of State.

There will be 90 performances during the 16-week tour, with engagements in 20 cities in 11 countries. Major festivals at which the company will appear include Teheran Biennale, International Ballet Festival of Weisbaden, Vienna Festival, Holland Festival, Tunis Festival and Dubrovnik Festival in Yugoslavia.

On completion of the tour in August the company will vacation several months in Europe. It will perform in North America from November through next March, then go to Asia next spring.

**Horoscope Forecast**  
TOMORROW  
—CARROL RIGHTER

**GENERAL TENDENCIES:** It's an adverse day and evening for taking any chances. You would indeed have a very hard time getting an associate to go along with your wishes once the mood is made up. No one wants to be thwarted in gaining aims and goals that are important. So do your thing alone, and be alert!

**ARIES** (March 21 to April 19), instead of complaining, which could end up in trouble, get busy and keep whatever promises you have made. Just keep on the alert for troublesome situations and then, all is fine.

**TAURUS** (April 20 to May 20) You are in a mood for arguing with a good associate, but this would only bring trouble that is best avoided. Show gentility when dealing with others. Prepare for the holiday carefully.

**GEMINI** (May 21 to June 21) You must use extreme care in travel or there could be trouble of one kind or another for you. Do as much relaxing as you can and gain a feeling of peace which you lack. Think constructively.

**MOON CHILDREN** (June 22 to July 21) Don't give in to a temptation to do only the things that appeal to you, some of which could be very dangerous. Try not to spend more money than you can afford. Show affection to those you love.

**LEO** (July 22 to Aug. 21) Do nothing that will start a quarrel at home. Make this a happy weekend for all. You have energy that needs to be used constructively. Make little repairs around the house that are important.

**VIRGO** (Aug. 22 to Sept. 22) Show understanding to others and avoid anything of an adverse nature. You have many troubles and anxieties, but show others you are cheerful. Thoughtfulness is the key.

**LIBRA** (Sept. 23 to Oct. 22) Do nothing that will jeopardize your present financial standing. It is wise to plan a bigger savings account. A business expert is best contacted next week for advice. He is busy and irritable today.

**SCORPIO** (Oct. 23 to Nov. 21) Try not to be forceful with others to have your own way at whatever the cost.

See what you can do to help other persons with difficult problems. Show that you are a humanitarian.

**SAGITTARIUS** (Nov. 22 to Dec. 21) Keep out of trouble in every way that you can. Don't force your views on others, which could be very irritable to them. You have secret worries that need to be taken care of now. Happiness can be yours tonight.

**CAPRICORN** (Dec. 22 to Jan. 20) You know to find fault with a friend who you believe has not been acting right, but you had better be sure of your facts before you do anything. Know what your true ambitions are. Start boiling along such lines.

**AQUARIUS** (Jan. 21 to Feb. 19) Make sure you follow every rule and regulation that concerns you or do anything that will disturb others. A bigwig is not in a good mood, so keep away for the time being. Show kindness to all.

**PISCES** (Feb. 20 to March 20) You have good ideas that you think will improve your mood since you are in a state of depression, but don't jump into them. Study them more thoroughly first, then weed out the bad ones. Avoid drastic changes.

**IF YOU STEAL, STEAL BIG!!**

DALLAS (AP) — Police reported the recovery on an Oklahoma farm of a giant tractor-trailer loaded with a 38-ton bulldozer which was stolen here May 26. Five men were arrested.

Dallas detective Marshall Furr said the equipment, valued at \$113,500, was found outside Bennington, which is 30 miles northeast of Durant, Okla.

An Oklahoma truck driver, Jack Kerr, had reported the disappearance of his rig and cargo off a street outside his motel.

Furr said the men taken into custody by Oklahoma officers included one from Irving and one from Farmers Branch, both in this area.
