

Parole Bids By Berrigans

WASHINGTON (AP)—The U.S. Board of Parole has announced it will hear parole applications July 28 by imprisoned antiwar priests Philip and Daniel Berrigan.

The Berrigans are in the Federal Correctional Institute at Danbury, Conn., for destroying draft records.

Philip, who began serving his sentence July 5, 1968, becomes eligible for parole Sept. 14. He is serving concurrent six-and-three-year sentences.

Daniel, who began serving his three-year sentence Aug. 11, 1970 is eligible for parole Aug. 2.

Philip was named in a federal indictment as the mastermind of an alleged plot to kidnap presidential adviser Henry A. Kissinger. He refused to plead to the charges and a plea of innocent was entered for him in proceedings in Harrisburg, Pa.

Daniel was named a coconspirator but not a defendant in the original indictment but his name was dropped when the grand jury drew up a new indictment.

2-A Big Spring (Texas) Herald, Thurs., July 15, 1971

Bill Legalizing Brothels Killed

SACRAMENTO, Calif. (AP)—A California Assembly committee has decided there won't be any licensed homes for prostitution in California for a while at least, but the author of a bill legalizing brothels says he'll try again next year.

"I'm not through," Assemblyman Leroy Greene, D-Sacramento, said Tuesday after the Assembly Criminal Justice Committee killed his bill to allow state-licensed brothels. "I feel that the situation we're presently in is not satisfactory as far as prostitution is concerned."

Greene said he would attempt to get legislative permission for a statewide referendum to change the statute outlawing houses of prostitution.

The mild-mannered Greene, a civil engineer by profession, married and the father of a daughter, said he introduced the prostitution bill in the first place because a poll in his district showed nearly 70 per cent of those responding favored legalized prostitution.

The measure was killed on a split voice vote after members heard a series of witnesses, mostly preachers who quoted from the Bible and from the talks of evangelist Billy Graham.

Greene said he had not yet explored the technicalities of how he might set up a statewide vote on prostitution but felt it should be a change in statute, rather than an amendment to the state constitution.

He said he may also introduce legislation next year providing penalties for customers of prostitutes.

"If you're going to bring charges, you should bring charges against both," he said. Answering charges by witnesses that prostitution made women into "sex objects to satisfy male lust," Greene said: "It's the prostitute who sees the male as a sex object because she sees a chance to get some money."

FINDING IT HALF THE FUN

WENATCHEE, Wash. (AP)—Mr. and Mrs. Floyd Simpson were helping his mother move to another residence Sunday, when a secret compartment on a dresser drawer popped open and \$6,580 in cash dropped out.

"We were stunned," Mrs. Simpson said Tuesday, "but we knew it wasn't ours."

After staring at the windfall for a long moment, the Simpsons called the Chelan County sheriff's office and reported they had purchased the dresser and other furniture from a woman's estate three years ago.

The cash 100, 20, 10 and 5 dollar bills — is being returned to the estate.

"The money was nice to look at," Mrs. Simpson said, "but we knew we couldn't keep it. Besides, finding it was half the fun."

Costly Storm

MIAMI, Fla. (AP)—A hurricane off the Florida Keys on July 15, 1733, wrecked 17 ships of a Spanish fleet carrying an estimated \$68 million in gold and silver from Havana to the royal treasury in Madrid, says National Geographic.

WEATHER FORECAST - Warm, sunny weather is forecast today for most of the nation. Exceptions are the lower Great Lakes, the Ohio River Valley, and the Southeast, which can expect showers. The southern Rockies are due also to receive showers.

Two Little Known Agencies Draft School Mixing Plans

AUSTIN (AP) — Whispers of "TETAC" in one of about 40 Texas and Louisiana cities suffering — schools — desegregation pains and you've probably started an argument.

The Texas Education Desegregation Technical Assistance Center (TETAC) is one of two little known agencies in Austin asked by school officials and federal judges to draw up school mixing plans—many with cross-town busing. It is technically a division of the Department of Extension at the University of Texas.

ALMOST A MYSTERY

The other agency, almost a mystery within the vast Texas Education Agency (TEA), is listed merely as the TEA's "technical assistance" team.

"We do the things that nobody else wants to do," says Gilbert Conoley, who has the title of "program director" of the TEA group Conoley spent 15 years as county schools superintendent of Williamson County at Taylor and all his five staff members are former teachers or administrators in Texas schools.

"We give them something to work with besides emotions," says Pete Williams, head of TETAC and a former lawyer and former school teacher and administrator at Del Rio, Austin and Del Valle. His 12 staff members, all former teachers and administrators, are from Texas except one from Northeast Louisiana. The staff is almost equally divided into white, Negro and Mexican-American members.

NOT EASY

And their work is not easy. "It's not a comfortable feeling to return from a school board meeting and find someone has pasted a sticker on your car saying: 'The KKK (Ku Klux Klan) is watching you,'" said Conoley.

Both agencies are financed by federal funds provided under Title IV of the 1965 Civil Rights Act, but both stress they are separate and apart from the U.S. Health, Education and Welfare Department, which administers the Civil Rights Act, and the Justice Department, which enforces it.

Their duty is to help schools involved in desegregation programs, both before and after. They accept requests for help only from school board presidents, school superintendents or federal judges.

"Despite what you've heard, we do not step into any school desegregation situation without being invited," Williams said.

Actually only about 20 percent of TETAC's time is spent in drawing up desegregation plans.

RESENTMENT

Conoley said the Texas Education Agency group has spent much of its time investigating school boycotts and alleged violations of civil rights in Texas schools.

Much of the resentment against the desegregation plan designers arises because they usually are not called in until school officials and the HEW have argued long and loud without success. The staffs of Williams and Conoley inherit these hurt feelings.

"There's nothing magic about it," Conoley said. "The courts say mix them up and you've got to move kids to meet the requirements. No one wants to do it."

"It's not a job for a computer," said Williams. "You have to know what the situation is in every school building. We have a cardinal rule that one of our staff members physically visits every single school involved in a mixing plan and looks over the neighborhood. We get the feel of the building, the teachers and the children. As teachers themselves our staff members say whether they think moving a pupil to that school would be for his own good and the school's good. Some of our recommendations are highly subjective."

HIRE UP TO 20

"It is not our aim to get our plans adopted totally," Williams said, "but it gives school officials and HEW something to work with, something besides emotions. It gets them talking together again. And they have always ended up using something of our plan."

There are changes ahead. TETAC received authorization July 1 to hire up to about 20 "independent consultants" to augment the present staff. After a school system adopts a desegregation plan, a consultant will be assigned to that school and will remain with that system as long as needed. Williams says many of these consultants will be veteran school administrators who have already been through desegregation procedures and are experienced in dealing with the problems.

LOSE UGLY FAT
You can start losing weight today. MONADEX is a flay tablet and easy to take. MONADEX will help curb your desire for excess food. Eat less, weigh less. Action Requires All Texas Counties To Use Jury Wheel

AUSTIN (AP) — All counties must adopt the jury wheel system, beginning Thursday, despite a 1971 law purporting to allow district judges to let smaller counties use jury commissions, Atty. Gen. Crawford Martin said Wednesday.

Martin's official opinion affects Texas counties under 10,000 population which, previously, had been allowed to use jury commissions.

about which system is to be followed. Martin's opinion was requested by Dist. Atty. Murray Jordan of Brady (McCulloch County).

Damone Singing Poor Man Blues

LAS VEGAS, Nev. (AP) — Singer Vic Damone says one reason he filed for bankruptcy was that he was duped into signing a \$25,000 bank note.

"Unfortunately, I put considerable trust in people who took advantage of my position—both socially and financially," said Damone after the bankruptcy petition was filed in U.S. District Court.

Damone, who reportedly makes \$25,000 a week for his frequent appearances here, said he faced \$784,000 in debts and had only \$35,371 in assets. The Internal Revenue Service was listed as his largest creditor—\$277,197.

BAD TRIP FOR OFFICER

GARLAND, Tex. (AP) — Police Chief Ed McCreary said he is investigating one of his top narcotics officers who has been in a hospital after a drug overdose.

Manson Says 'I'll Admit I Chopped His Head Off'

LOS ANGELES (AP) — Charles Manson, saying "I'll admit I chopped his head off," asked Wednesday to be allowed to plead guilty to two more murders.

Manson, onetime leader of a hippie-style clan, was convicted along with three women followers of murdering actress Sharon Tate and six other persons. The four were sentenced to death.

Manson made the remark during jury selection at his trial on charges he murdered Malibu musician Gary Hinman and movie stuntman Donald "Shorty" Shea. He didn't identify the victim. Hinman's head was not cut off and Shea's body was never found.

After Manson's attorney declined to allow him to plead guilty the judge asked if he would confer with another attorney about the consequences of doing so. Manson said he would.

\$20,000 CROP-SUBSIDY LIMIT NIXED Senate Farm Fight Developing

WASHINGTON (AP) — A Senate floor fight is developing over Appropriation Committee rejection of a lowered \$20,000 crop subsidy limit narrowly approved by the House last month.

The committee voted 14 to 6 Wednesday to keep the ceiling at \$55,000 and water-down another House provision denying subsidy payments to farmers who permit marijuana to grow on their land.

ANNUAL BOOTY
Sen. Birch Bayh, D-Ind., said he will propose the Senate accept the \$20,000 ceiling passed by the House 214 to 198.

This year, for the first time, farmers are limited to annual \$55,000 subsidies for cotton, wheat and feed grains.

But Bayh said that is not low enough to prevent large corporate farms from receiving "their huge annual booty of payments from the government."

ILLEGAL POT
The total is about \$1 billion more than President Nixon recommended and \$871 million more than approved by the House.

Last year the Agriculture Department listed nine farms collecting more than \$1 million each, including the giant J. G. Boswell Co. farm in California which received \$4.4 million.

HEALTH HAZARD
"It will not contribute on iota to better health in this nation, but it will be harmful to the economy of this nation," Talmadge said. "It is designed only to punish the tobacco grower in this country."

2 LOCATIONS

Multiple Listing Service

(1) BUYERS AND SELLERS receive the benefit of cooperation between Realtors rather than being restricted to the offerings of a single agent or a series of agents. (2) Buyers, by contacting only one Realtor, may have access to the listings of all Realtors who participate. (3) Current market information, which is readily available through Multiple Listing, means that Realtors, their clients and the public are better served and informed. (4) Negotiations are carried on under rules of procedure designed to assure ethical practice, thus furthering the interest of clients and the public while extending adherence to high standards of practice.

12-A Big Spring (Texas) Herald, Thurs., July 15, 1971

HELPING HAND — Camilo T. Ramirez, 310 Tyndall, Big Spring, recently named driver of the month for July in the Transportation Division at Webb AFB, opens the door for Mrs. Donna Carey as she leaves his base taxi. Ramirez has driven at Webb for five years, following 13 years' experience as a vehicle operator at the Veterans Administration Hospital here.

800-Mile Trek
By Satin The Cat

FOREST LAKE, Minn. (AP) — Satin the cat now is content to lounge around the Lauri Tiala household here after an 11-month, 800-mile trek from Illinois to Pennsylvania.

One year ago the Tiala family moved from Towanda, Pa., to Forest Lake. Curled up in a traveling cage in the car was Satin with his owner, 12-year-old Sylvia Tiala.

The one-year-old cat's adventure began at a motel in Illinois. Satin chewed a hole in the cage and disappeared.

"She was heartbroken," Mrs. Tiala said of Sylvia. "We searched through cornfields for three hours for that cat. Little did we know that by that time he was well on his way back to Pennsylvania."

The family continued its journey and settled down in Forest Lake, about 25 miles northeast of Minneapolis-St. Paul. Many times during the winter Mrs. Tiala found Sylvia crying for her lost pet.

But it was last month that a former neighbor in Towanda called the Tialas to report Satin had come home.

Horoscope
TOMORROW
—CARROL RIGHTER

GENERAL TENDENCIES: The early part of the day brings the chance of a pleasant social invitation but the rest of the afternoon and evening could be difficult because a person is intractable in his opinion. If you are unable to cooperate it is necessary to studiously sidestep any possible arguments.
● You need a secure foundation for your operations now so don't jeopardize monetary security in any way. Don't permit a friend to be so ambitious your toes are stepped on. Show loyalty at home.
● TAURUS (April 20 to May 20) In the morning tell others what your ambitions are and get their support. Do not do anything to ruin your fine reputation. Upsetting present concord in any way could be bad. Show that you are restful.
● GEMINI (May 21 to June 21) Make plans for the future but don't make radical changes that could get you in trouble. Much care must be exercised in travel. Make sure that you are thinking straight.
● MOON CHILDREN (June 22 to July 21) Try to do nothing that will lose the favor of good friends who could do you harm. Show that you are fair and just. Being affectionate with others brings the right results.
● LEO (July 22 to Aug. 21) Handle outside affairs in a diplomatic way and the right results will come. If you are undecided about something, sleep on it first. Make sure your bills are paid; do not jeopardize your credit.
● VIRGO (Aug. 22 to Sept. 22) Do not permit a secret anxiety to spoil good steps you have for handling problems well. Stop worrying and carry through nicely. Discuss with new contacts how to have greater success in the future.
● LIBRA (Sept. 23 to Oct. 23) You must strive for better cooperation from good friends if your affairs are to work out better. Show devotion and loyalty to a good friend who is having trouble. Meditate.
● SCORPIO (Oct. 23 to Nov. 21) Family could be a little demanding of you today. It is wise to cooperate more with associates and add your income. Don't make errors that could be costly. Offending others is not wise.
● SAGITTARIUS (Nov. 22 to Dec. 21) Do your work more carefully so that you need not be done over. Show courtesy to co-workers instead of being demanding with them. Study new interests well. Do something constructive about improving your health.
● CAPRICORN (Dec. 22 to Jan. 20) Do something worthwhile if you want to gain the favor of one you highly respect. Don't get into expensive recreations and then regret you spent too much money. May sober.
● AQUARIUS (Jan. 21 to Feb. 19) Engage in personal duties that are important. Keep out of trouble, especially if you like higher-ups who have a real problem now. See what you can do to have better rapport in the future. Work hard.
● PISCES (Feb. 20 to March 20) Only if you are objective can you solve problems that you worried. Make sure there are no errors in reports and statements. See that your savings account balance is being kept correctly.

Dallas Judge Holds Racial Segregation Established

DALLAS (AP) — Plaintiffs in the Dallas school suit have established that there is segregation among both blacks and Mexican-Americans in public schools here, a federal judge says.

U.S. Dist. Judge William M. Taylor Jr. denied Wednesday a request by school board lawyers for a dismissal, which would have ended a hearing on Dallas school desegregation.

"I find that a prima facie (self evident) case has been made on the point of segregation of blacks," Taylor said. He drew a similar conclusion on apparent segregation of Mexican-Americans.

School Supt. Nolan Estes testified that private housing patterns have produced predomi-

nantly black or white schools, not the school board or administration.

DUAL SYSTEM
He said the district stepped up its court-ordered plan for stair-step integration so that by 1967 a dual school system was eradicated.

All school faculties will be proportionately integrated this year—75 per cent white and 25 per cent black—with Mexican-Americans counted as Anglos, he said.

Majority-minority pupil transfers would be permitted with the district providing busing and staff development programs aimed at sensitizing teachers to all races would be doubled.

Estes argued that wholesale movement of pupils would de-

stroy \$3 million in special programs for economically deprived youngsters, terminate a free breakfast program and destroy a proposed \$750,000 biling program aimed at reaching large concentrations of Mexican-American pupils.

The plaintiffs, Mexican-American and Negro parents represented by Dallas Legal Services, also called the chief of the Mexican-American division of the U.S. Civil Rights Commission, Henry Ramirez, to the stand.

He said Mexican-Americans are "victimized" by public schools.

Ramirez directed an exhaustive \$1 million government survey on Mexican-American edu-

cation in five Southwestern states. He said Texas has the worst record of the five.

"Mixing two groups whose education barriers are high and both from low socio-economic classes is asking for trouble," he said.

School board lawyers contended that Ramirez statistics were not relevant in this case because Dallas was not one of the cities studied in the survey.

Ramirez said none of the principals or superintendents he and his staff surveyed had any trouble identifying a Mexican-American.

Estes had said earlier that he was unable to identify Mexican-Americans and they should be counted as Anglos for desegregation purposes.

JUST PLAIN TIRED — Five-year-old Elizabeth Evans rests along the sidewalk of the Bell Telephone Co. in Miami, Fla., and lets the grownups do the walking. Elizabeth's parents, Mr. and Mrs. Charles Evans, left, brought her along because they cannot afford a baby sitter during the strike. Picket lines went up in Miami Wednesday after communications workers went out on strike.

Most Of Texas' Phones Ringing

By The Associated Press

Most of Texas' five million telephones have kept on ringing — although some of them don't answer immediately — as communications workers for Southwestern Bell Telephone Co. stay off their jobs.

The highly automated system kept the phone lines open, spokesmen said Wednesday.

Western Electric Co. employees, who make and maintain components for the telephone system, went on strike as members of the Communication Workers of America.

Southwestern Bell employees honored the picket lines, which went up at 5 a.m. Wednesday at Western Electric and Bell offices.

Non-striking supervisory personnel replaced strikers at the switchboards in most instances and company officials urged the public to use direct distance dialing.

Contracts with some locals do not expire until Saturday, so some union members will not strike until then — but they will not cross picket lines of others. The union's contract with Western Electric expired two months ago.

In Dallas, more than 3,500 Bell employees were refusing to cross the lines and 38 of 57 company buildings were affected. In Houston supervisory personnel took over as another 500 left work.

There were 2,700 reported out in San Antonio as 200 Western Electric employees members of CWA local 6290 stationed pickets at Bell facilities. Members of the other CWA local will join them Saturday if there are no new contracts.

Southwestern Bell said repairs would be carried out when possible by management personnel, but there would be no new installation of telephones except in emergencies.

Record Judging In Lamesa 4-H

LAMESA (SC) — The Dawson County 4-H Record Judging will be held Wednesday in the County Extension office.

Deadline for records to be in the County Extension office is Wednesday at 5 p.m.

Elinor Harvey, County Home Demonstration Agent and Calvin Holcomb, County Agricultural Agent from Gaines County will judge records with the adult leaders of the five clubs.

Special License Plates For Vets

AUSTIN — Details of a new program which will provide free 1972 automobile license plates to some disabled veterans were revealed today by the Texas Highway Department.

The program was set up by an act of the 62nd Legislature.

To qualify, an applicant must: Be a Texas resident; be a veteran of the armed forces of the United States; have a disability rating of 70 per cent or more; be drawing compensation from the federal government as the result of service-connected disability.

A qualified veteran is entitled to register one passenger car or light commercial vehicle with a manufacturer's rated carrying capacity of one ton or less for his own use without paying the prescribed registration fee. There is a statutory fee of \$1 which must accompany each application.

Specially designed license plates will be issued with the letters "DV" appearing as either a prefix or suffix to the license number. The words "Disabled Vet plates will be exempt from paying parking fees charged by any governmental authority other than the federal government. This includes parking meters. Plates will not be available until the beginning of the 1972 license year, but applications must be made by Oct. 1, 1971.

TEXAS PRESS NOT TELLING TRUTH ABOUT EDUCATION?

COLLEGE STATION, Tex. (AP) — The editor of the Waco News-Tribune accused the Texas press of not telling the public the truth about higher education in the state when he addressed a seminar for university and college administrators at Texas A&M University.

"Newspapers and broadcasters are too busy looking at something else and don't tell the education properly," said Harry Provenza, who is also a member of the Texas College Coordinating Board.

Provenza said newsmen are ignoring stories that "involve the lives and pocketbooks of just about everyone in town."

Suggesting that the 62nd Texas Legislature's refusal to grant faculty salary raises "may be a straw in the wind," he observed: "There are some who feel money spent on doctoral programs should be spent on vocational-technical schools, especially since the demand for doctoral graduates is small while the demand for trained workmen is high."

Second Day Of Telephone Strike Waged

By The Associated Press

Effects on telephone service were minimal today as a strike by some 400,000 members of the AFL-CIO Communications Workers of America against the highly automated Bell System entered its second day.

"If my wife wants me, just tell her to dial 0," one Southwestern Bell executive told his staff as he and thousands of other management personnel took over the striker's jobs after the 6 a.m. walkout Wednesday.

The result was minor inconvenience—a male Washington Information operator did not know the area code for Denver, callers waited up to 50 rings for a long distance operator in Miami.

MATTER OF TIME

Direct-dialled calls generally went through normally but both sides agreed that in a matter of time service would begin to deteriorate. Repairs and installations were slowed or halted in the strike-affected area.

The union said its complex strike ending procedures guaranteed that the walkout would last at least two weeks.

CWA President Joseph A. Beirne said late Wednesday that formal and informal talks on a variety of issues had been going on in New York and Washington since the strike began.

A spokesman for the Federal Mediation and Conciliation Service said its director, J. Curtis Counts, had been in touch with both sides and that "there have been discussions of matters which are in controversy."

NO PRICE

Union demands include wage increases, improved health insurance, an agency shop, better pensions and an end to geographical wage differentials and what the CWA calls an "anti-feminist" wage scale.

It put no price tag on the package. Last May 23 the union rejected a wage-benefit package the company said was a 30 per cent increase.

Less than 18 hours before the strike deadline, the company announced a new offer of "more than" 30 per cent, but Beirne said that too was unacceptable to the union's leadership.

Average pay for all Bell workers is \$3.43 an hour, ranging from tops of \$118 weekly for operators to \$193 a week for craftsmen, lower outside the big cities.

There were scattered incidents of violence and vandalism and the strike began. Twenty pickets were arrested in Fort Lauderdale, Fla., for blocking entrances to company buildings.

Club Members 'Get-Acquainted'

Downtown Lions had a get-acquainted day Wednesday at their weekly meeting at the Settles.

Jerry Roach, program chairman, had each member give a thumbnail biography of himself and of his year's connection with Lionism. Joe Pond, a past district governor, topped them all with a record of 45 years as a Lion in Colorado City and in Big Spring.

Hughes said that he and the directors are working on committee assignments and plans for the year and will have these completed soon.

ALEXANDER'S DREAM COMES TRUE

UN Aids Greeks With River System

SALONIKA, Greece (AP) — Nearly 2,300 years after Alexander the Great died in Babylon while planning a

drainage and irrigation system for the plains of the river Euphrates, the United Nations is aiding a similar project to develop a river system that flows from Yugoslavia through Greece close by the birthplace of the former Macedonian king.

Alexander, a scientist as well as a military adventurer, was born in 356 B.C., less than 10 miles from where the Greek side of the project is planned.

Work began in June on the two-nation multipurpose study of the hydro-electric potential, and irrigation and flood control projects on the river. Called the Vardar at its source in Yugoslavia and the Axios (worthy) in Greece, the river eventually drains into the Aegean Sea after its long meandering course.

to increase its agricultural output providing greater amounts of fresh produce for export.

The Vardar finds its source not far from the southern Yugoslavian city of Skopje and flood risk is found essentially in the Yugoslavian portion of the basin. The UNDP already has assisted a flood control project to protect the city and its 28,000 inhabitants.

Limited irrigation schemes already are under way or have been completed along the river. The UN-aided project aims for major new storage works to retain enough water to irrigate all arable lands on both sides of the river basin.

The increase of supplies of water will provide a major impetus to agriculture in both countries, and particularly in Greece which is emphasizing the export of fruit and vegetable crops and animal husbandry.

The project will also investigate the hydro-electric potential of the river since the demand for power in Yugoslavia and Greece is expected to increase dramatically in the next 20 years. Hydro-power will help supplement thermal production in Yugoslavia and Greece, but the total power availability will depend on the final relationship between the irrigation, regulation and power aspects of the over-all scheme.

The project will also investigate the hydro-electric potential of the river since the demand for power in Yugoslavia and Greece is expected to increase dramatically in the next 20 years.

Hydro-power will help supplement thermal production in Yugoslavia and Greece, but the total power availability will depend on the final relationship between the irrigation, regulation and power aspects of the over-all scheme.

The project will also investigate the hydro-electric potential of the river since the demand for power in Yugoslavia and Greece is expected to increase dramatically in the next 20 years.

SLIMMING SIMIAN — Most of the animals at the San Diego Zoo are in fine shape, says veterinarian Charles Sedgewick, but there are exceptions. One of them is Mary Fred, this pot-bellied orangutan who is on a restricted diet which includes low-calorie drinks. Like most dieters, Mary Fred doesn't look very happy about the situation.

Snyder College Bonds Sold

SNYDER — Revenue bonds of \$1,070,000 have been sold to Rauscher, Pierce and Co., Inc., to finance construction of dormitories for Texas Western (Junior) College.

The underwriters bid the issue in for an effective interest rate of 7.2481. Rauscher, Pierce and Co. Inc. part of a syndicate which included the First South-west, also Paine, Webber, Jackson and Curtis, Inc. Proceeds from the bonds will finance a complex of four dormitories with an aggregate of 192 beds. Highest of the bids ranged up to 8.25280 per cent. Net cost of the bonds to the successful bidder will be \$1,664,662.

Good Fences, Good Neighbors

SAN ANGELO — In his famous poem, "Mending Fences," the poet Robert Frost, describing the annual repair of stone fences between homesteads observed: "Good fences, good neighbors make."

Monday, six teenagers from West Texas Boys Ranch helped mend a rock fence in a gesture of neighborliness toward another institution by restoring the stone fence of St. Johns Hospital grounds.

Included was John Shippy, 16, of Stanton.

Howard Teens Asked To Party

LAMESA (SC) — The Teenage Party for the month of July will be held Tuesday in the Forrest Park Community Center at 8 p.m.

Tennagers from Howard County have been invited to be guests in Lamesa. The Caprock 4-H Club will be responsible for refreshments.

Engineer Dies

WILMINGTON, N.C. (AP) — Col. George William Gillette, 83, internationally known engineer, died Tuesday. He retired from the Army Corps of Engineers in 1948 and later became an economic consultant for ports, harbors and waterways.

Trustees Talk About Paving

LAMESA — Lamesa school trustees met in special session Wednesday evening to discuss possible paving projects at the new Middle School site that might begin in the near future.

Board members visited the Middle School in order to map out a possible busing area to run between the new building and the existing gym and single-story remains of Central Elementary. This street, if constructed, would be used only for loading and unloading of students on the buses.

The addition of parking lots to the northeast was also considered, in the area where the old junior high building once stood.

The board will meet in regular session Monday night to discuss problems with the brick structure in relations to the expansion of some of the steel beams, approve new appointments and announce the new band director for Lamesa High School.

LONG HAIR TROUBLES — John Russell, 21, bought a short-haired wig because employers were reluctant to hire a longhair. The blonde wig got him the job, a week in jail accused of robberies he didn't commit, and a pile of legal bills for his parents. Because of his troubles John is leaving Broward County in Florida and will pursue a career in music.

ECONOMIC DEVELOPMENT BILL

Demos Fall Five Votes Short Of Overriding Nixon's Veto

WASHINGTON (AP) — Senate Democrats have fallen five votes short of overriding President Nixon's veto of a \$2-billion public works bill, despite support from a handful of Republicans.

The vote was 57 to 36, with a two-thirds majority needed for passage.

Only one vote to sustain the veto came from the Democratic side of the aisle. It was cast by Sen. Harry F. Byrd of Virginia, re-elected last year as an independent.

Wednesday's action apparently was the death knell for a \$2-billion building program designed to create 200,000 jobs but rejected by President Nixon on grounds it would do no lasting good and could prove both un-

necessary and inflationary. Nixon signed a bill Monday establishing a \$2.2-billion program to create emergency public-service jobs, calling it a temporary step that will offer training designed to lead to permanent employment.

But he said the building proposal would have created only WPA-style dead-end jobs that, for the most part, probably wouldn't have become available for another 18 months.

Nixon has indicated he has no objections to other provisions of the vetoed bill — a \$1-billion extension of the Appalachian regional development program and a \$2-billion renewal of the Public Works and Development Act. The stepped-up building program would have been "an

effective mechanism for placing the unemployed back to work on worthwhile projects," said Sen. Jennings Randolph,

D-W.Va., chairman of the Public Works Committee.

But Sen. Howard Baker Jr., R-Tenn., said the cost would have been \$20 million for every job created.

Sen. Lowell P. Weicker, R-Conn., said he voted to override the veto, because of increasing unemployment in his home state.

Other Republicans voting to override were Sens. Edward Gurney of Florida, Clifford P. Case of New Jersey, William Saxbe of Ohio, Richard P. Schweiker of Pennsylvania and Theodore Stevens of Alaska.

MISHAPS

West Seventeenth and Gregg: Edith E. Murphree, 2515 Broadway, and Norman G. Brown, 803 Lorilla, 12:07 p.m. Wednesday.

VANDALISM

Thomas L. Cannon, 2204 Grace, Wednesday reported several screens had been torn on his house. Police officers advised the screens had been torn by vandals, and no damage estimate was reported.

Homosexuals Issue Flares

DALLAS (AP) — A Methodist newspaper editor has questioned the effectiveness of a homosexual serving as a minister to other homosexuals.

The Rev. Sargeon Dunnam III, editor of the Texas Methodist, said in next Friday's issue he feels that in the perspective of the gospel, homosexuality is unnatural and not an acceptable form of human behavior.

He added, however, "we must be much more compassionate and tolerant" in restating the traditional church stance on the issue.

Dunnam reviewed disruptions by the Gay Liberation Front at the recent Southwest Texas Conference meeting in San Antonio.

"We question whether a practicing homosexual can any more effectively provide a Christian ministry for other homosexuals than can a drinking alcoholic minister to other alcoholics," he wrote.

(Photo by Danny Valdes)

AN OPEN WINDOW from her kitchen to the living room allows Mrs. Preston Myrick to watch television or keep an eye on the kids while she prepares the family meals. The Myricks all keep busy with redecorating projects in their new home, and Mrs. Myrick's arts and crafts abilities have added many items to the decor.

Extra Spices Satisfy Family's Tastebuds

By BARBARA LORD

It takes a lot of spices for Mrs. Preston (Babe) Myrick to satisfy the tastebuds of her husband and children, Ma'Lynda Lynn, 7, and Carrie Yvonne, 5, but generally speaking, the spices are added to meat and potato dishes rather than fancier or foreign foods.

"If I were to put a soufflé in front of Babe, he'd just wonder where his gravy and potatoes were," said Mrs. Myrick. "He and the kids aren't hard to cook for because they prefer simple foods. They'd probably like steak every night, but I try to get the necessary vitamins and proteins in."

The Myrick meals offer a variety of meats, fish and poultry; usually with potatoes and a vegetable, and sometimes with a dessert. Mrs. Myrick enjoys preparing desserts, but a unique and attractive touch to the decor, and as time permits, they have many more plans for the house. They enjoy living away from the city, although when they first arrived, the girls couldn't understand why there weren't sidewalks leading through the pastures.

Mrs. Myrick is a self-taught cook; learning the art in high school when her mother decided to go to work. The Myricks are people on the go, and most of the nightly meals are "fast and simple" ones that can be prepared ahead of time.

"I guess you would call me a stealer," said Mrs. Myrick. "Most of my recipes come from friends and relatives, but I change them quite a bit. I put about everything but the kitchen sink into some dishes before they have enough spices for us."

The Myricks moved into their home just off Old San Angelo Highway about seven months ago, and have been busy remodeling and decorating. Items which have been decoupage, painted, molded in ceramics or refinished by Mrs. Myrick already add a unique and attractive touch to the decor, and as time permits, they have many more plans for the house. They enjoy living away from the city, although when they first arrived, the girls couldn't understand why there weren't sidewalks leading through the pastures.

Mrs. Myrick, born in Hobbs, N.M., and raised in Forsan, is used to country living and felt at home immediately. Her parents, Mr. and Mrs. M. L. Prescott, now live in Junction. Myrick is a native Big Spring; the son of Mr. and Mrs. R. L. Myrick, 1109 E. 17th. He works at the Cosden refinery laboratory and also operates an independent appliance repair service.

Mrs. Myrick is also a seamstress and makes all of her own and the girls' clothes. In addition, she is a member of the Jaycee-ettes, Elbow Parent Teacher Association and Beta Omnicron Chapter, Beta Sigma Phi.

Oversized Recipe Of Favorite Dish

Makes a bigger-than-usual amount of this delicious dish.

YORKSHIRE PUDDING

3 large eggs
1 1/2 cups milk
1 1/2 cups unsifted flour, stir to aerate before measuring
3/4 tsp. salt
1/2 cup rendered beef fat

In a medium mixing bowl beat eggs slightly; add 1/2 cup of the milk, the flour and salt; beat gently until combined. Gradually beat in the remaining 1 cup milk, keeping smooth. Start preheating oven to 375 degrees. Turn the beef fat into a 3-quart oblong glass baking dish (13 1/2 by 8 3/4 by 1 1/4 inches) or similar utensil and place in preheating oven until fat is very hot. Pour batter into dish. Bake in the 375-degree oven until puffed and golden-brown — about 40 minutes. Cut in squares and serve at once. Makes 8 servings.

RECOMMENDED RECIPES

Of Mrs. Preston Myrick

WHIPPED CREAM

1 can pie cherries, well-drained
1 can condensed milk
1/2 pint whipping cream
1 cup chopped nuts
Juice of two lemons
Whip cream and combine with milk, cherries and nuts. Stir in lemon juice and pour into a pastry or graham cracker crust. Chill about 2 hours. No cooking necessary.

DOUBLE CHOCOLATE MERINGUES

2 egg whites
1/2 cup sugar
1/4 cup finely chopped filberts
1 12-oz. pkg. semi-sweet chocolate pieces
2 tbsps. butter
1/2 cup light corn syrup
1/4 cup milk
1/2 cup rum
Chocolate ice cream
Beat egg whites to soft peaks. Gradually add sugar, beating until very stiff peaks form and sugar dissolves. Cover a baking sheet with foil and outline six 3 1/2-inch circles on it. Divide meringue among the circles, shaping with a spoon to form a shell. Sprinkle each shell with filberts and bake at 225 degrees for one hour. Cool.

Prepare a chocolate rum sauce by melting the chocolate pieces and butter over low heat. Gradually stir in corn syrup and milk, stirring until mixture is smooth. Cook and stir 10 minutes longer. Remove from heat, cool, and stir in rum. Fill each meringue with a scoop of ice cream and top with the sauce.

CREME DE MENTHE PARFAIT

24 large marshmallows

2 1/2 cup milk
4 tbsps. creme de menthe
2 tbsps. white creme de coco
1 1/2 cups whipping cream
Melt marshmallows and milk in a small saucepan, stirring constantly. Stir in creme de menthe and creme de coco. Whip one cup whipping cream and fold into marshmallow mixture. Pour into a flat pan and freeze for three hours. Whip remaining half cup of whipping cream and alternate it with layers of marshmallow mixture in parfait glasses. Top with mint leaf and freeze. Set out five minutes before serving.

CHOCOLATE SOUFFLE WITH GRAND MARNIER SAUCE

3 tbsps. butter
1/4 cup all-purpose flour
1/4 tsp. salt
1 cup milk
2 ozs. unsweetened chocolate, cut up
4 eggs, separated
1/2 cup sugar
1/4 tsp. cream of tartar
Melt butter in a sauce pan and blend in flour and salt. Add milk all at once. Cook and stir until thick and bubbly. Add chocolate and stir until melted. Beat egg yolks until thick and lemon-colored. Beat sugar into yolks gradually. Blend chocolate mixture into yolk mixture. Beat egg whites and cream of tartar until stiff peaks form. Carefully fold egg whites into other mixture. Pour into ungreased five-cup souffle dish with a foil collar. (Measure a length of foil to go around the dish, and fold in thirds so foil extends 2 inches above the rim. Butter top two inches of foil well. Sprinkle with sugar and secure to dish with

tape). Bake at 325 degrees for one hour to one hour and 10 minutes.

GRAND MARNIER SAUCE

1/4 cup sugar
1 tbsps. cornstarch
3/4 cup orange juice
1/4 cup Grand Marnier Liqueur
1/4 cup toasted slivered almonds
Combine sugar and cornstarch. Stir in orange juice and heat to boiling, stirring constantly. Add liqueur and toasted, slivered almonds. Serve over souffle.

HAMBURGER STROGANOFF

(Serves six)
1/2 cup minced onions
1 minced garlic clove
1/4 cup butter
1 lb. ground beef
2 tbsps. flour
2 tbsps. salt
1/2 tsp. pepper
1 10 1/2-oz. can cream of chicken soup, undiluted
1 8-oz. can sliced mushrooms
1 cup sour cream
Saute onion and garlic in butter over medium heat. Add meat and brown. Add flour, salt, pepper and mushrooms. Cook five minutes. Add soup and simmer uncovered for 10 minutes. Stir in sour cream. Heat throughout and serve over buns or noodles.

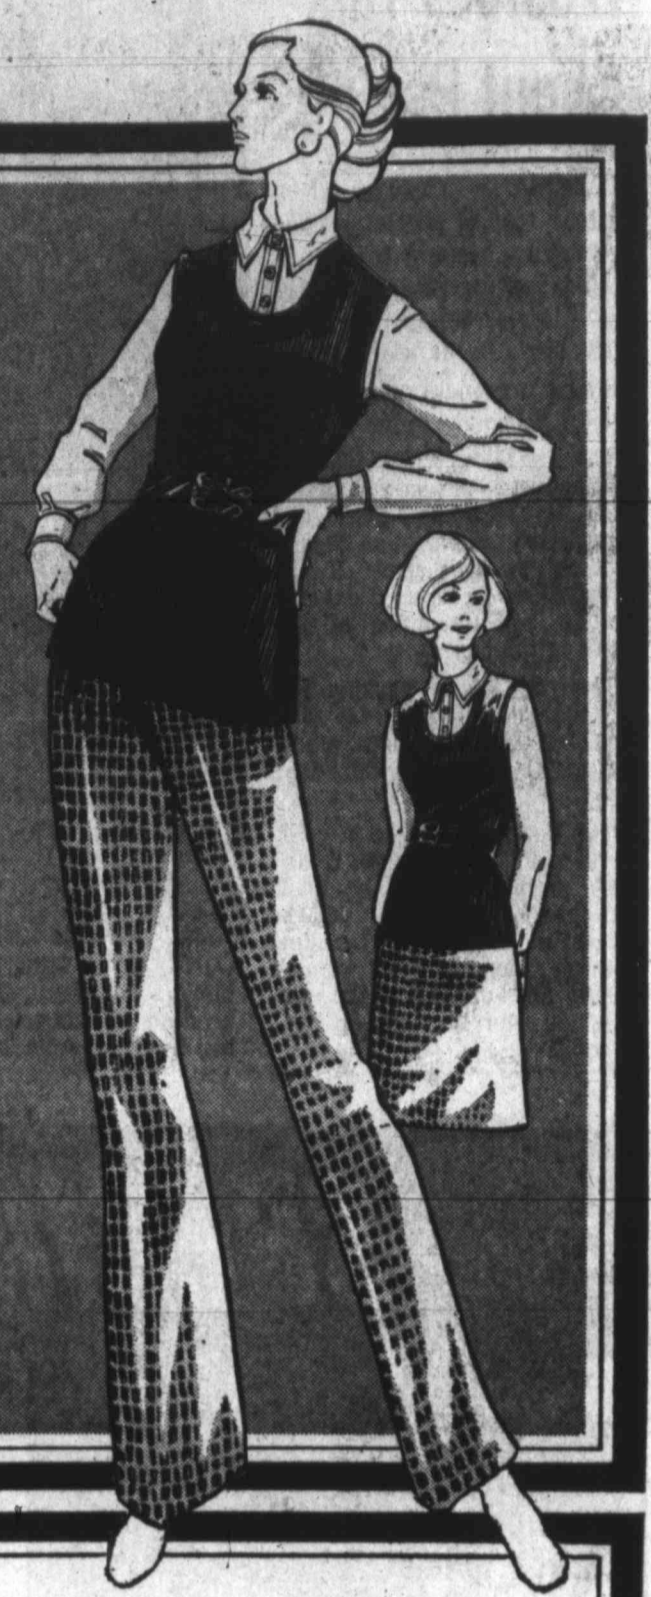

Sausage Is Good With Chick Peas

Sausage with chick peas is quick and tasty.
PEAS WITH SAUSAGE
4 Italian sweet sausages or 2 sweet and 2 hot
1 small onion, chopped
1 can (8 ounces) tomato sauce
1 can (about 1 pound) garbanzos (chick peas or ceci)
1 tablespoon minced parsley
In a 10-inch skillet fry sausages until they are cooked and browned. Remove excess fat. Add onion; cook gently until wilted. Add tomato sauce; bring to a boil; add chick peas and parsley and heat. Makes 4 servings.

BUTTERMILK COOLER

It's orange juice and buttermilk, and it's just a little wild. And delicious. Just mix these things together until the sugar melts, and serve up four tall, cool Foremost buttermilk coolers. Perfect for a sizzling July afternoon.

1 1/2 cups chilled Foremost buttermilk 1 1/2 cups chilled orange juice
1 tablespoon lemon juice 1/2 cup sugar
One more thing. Be darned sure the buttermilk is Foremost.
Foremost. The Freshmost.

SHAG COAT FOR AN OLD FAVORITE
Kids can do it themselves

Kids Have Fun With Crunchy Marshmallows

If you prefer sweets for the youngsters that are foods as well as confections, try these Marshmallow Cereal Crunchies. They would be fun things for the children to do while the grown-ups are barbecuing in the yard.

Finely broken shredded wheat biscuits form the interesting shaggy coating for marshmallows. dipped in melted chocolate and butterscotch bits. Besides making good nutritional contributions, breakfast cereals

are handy recipe ingredients. Try them and see! Use a small chafing dish or water jacketed fondue pot for the sauce. And double or triple the recipe as your crowd requires.

MARSHMALLOW CRUNCHIES

1/2 cup semi-sweet or milk chocolate bits
1/2 cup butterscotch bits
1 tsp. shortening
30 large marshmallows
2 to 2 1/2 cups finely broken shredded wheat biscuits (oblong or bite size)

Combine first 3 ingredients in small heavy saucepan. Place over very low heat and allow to melt; stir until smooth. Spear each marshmallow with a long bamboo skewer or fondue fork and swirl it in chocolate mixture until bottom and sides are evenly coated with mixture. Roll in crushed cereal; press additional crushed cereal onto marshmallow, if needed. Remove from skewer or fondue fork and cool on buttered baking sheet or waxed paper. Yield: 30 crunchies.

Summer Treat Of Custard, Peaches

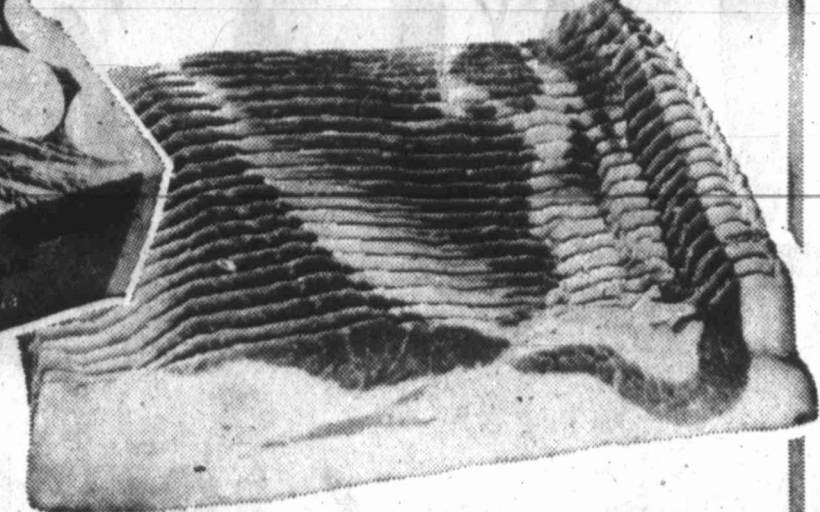

When you prepare a soft custard sauce with egg yolks, you can beat the egg whites to the soft peak stage and fold them into the cold sauce. Do this just before serving. In summer, the custard is delightful over sliced peaches or blueberries or a combination of the two fruits.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

(Answers tomorrow)

Yesterday's Jumbles: AMITY THINK MAINLY BESTOW
Answer: What he said when he wanted to attract the seamstress's attention—"A-HEM!"

Unusual Personalities Presented In Texas Star

A talented teenage singer, a wildcatter who found oil with the help of wildflowers, and a flying preacher with an amazing collection of warplanes are spotlighted in this Sunday's edition of The Texas Star magazine. The Texas Star is a feature of The Sunday Herald. Marsha Karstedt of Austin is hailed as a "rising star" in the galaxy of country and western performers. Joan Puckett writes entertainingly about the 18-year-old who organized her own band and worked fulltime in a department store while attending high school. Frank X. Tolbert tells the

fascinating story of Edgar B. Davis who found fame and fortune around Luling by depending on flowers and faith to discover fabulous oil fields.

Isaac Newton Burchinal, Jr. is a Paris crop duster who fills the pulpit at a Baptist church and collects World War II planes. "The Flying Preacher's Warbirds" is a most unusual article by Bill Inglehart.

Also in this Sunday's Star, Wanda J. Campbell tells where to find itemized expense accounts filed by Texas state senators and representatives. L. A. Wilks fishes for bass in Lake Amistad, and Mary Faulk Kooch stirs up some great shrimp gumbo.

Political Boss Kenny To Retire

NEWARK, N.J. (AP) — John V. Kenny, long-time Hudson County Democratic boss, has retired three times before, but this time he says it's for good.

"This time it is different," the 70-year-old Kenny said in a statement released in Newark. "I am taking this action at the insistence of my doctors. The matter involved is greater than politics. It concerns my health and perhaps my life."

Kenny is in Pollak Hospital in Jersey City recuperating from hernia and prostate operations.

He is free on bond after having his case severed for health reasons from a trial in which he and eight others were accused of extorting \$182,000 from contractors doing business with Hudson County and Jersey City. The other eight were found guilty.

HONG KONG FLU FEARS

DALLAS (A P) — Dr. Hal J. Dewlett, Dallas director of public health, predicts that the city will have an epidemic of Hong Kong flu this coming fall and winter.

"The same virulent strain of flu that first appeared in Hong Kong in 1968 then girdled the globe with disastrous results has broken out in that city again," Dr. Dewlett reported. "And nothing can stop it from spreading as it did before."

The 1968 outbreak hit thousands in Dallas in that year and the following one. Nearly 6,000 persons died of the disease in the United States.

Big Springer Cited On Army Career

Sgt. I.C. Joe J. Gilmer, a native of Big Spring, has retired from the Army after 30 years of service.

He was awarded the Certificate of Achievement by Maj. Gen. Francis W. Nye, commander of the Defense Atomic Support Agency's field command in Sandia Base, Albuquerque, N. M., recently.

The presentation took place at the parade ground of Sandia Base, a joint service installation signalling the end of Sgt. Gilmer's long Army career.

Sgt. Joe John Gilmer is the son of the late Mr. and Mrs. John B. Gilmer, Big Spring.

He was cited for his outstanding work as senior supply sergeant in the Technical Equipment Management Office, and supply sergeant in the Office of Financial Management, for DASA's Test Command.

According to the certificate, "Sgt. Gilmer approached all assigned tasks with drive and enthusiasm. He established procedures which ensured supply economy while providing prompt service."

Sgt. Gilmer is a 1937 graduate of Big Spring High School. He is the brother of Mrs. Jewel Green, Jack Gilmer and Bill Gilmer, all of Big Spring, and of Mrs. Iva Mae Willis, Sweetwater.

SGT. JOE J. GILMER

Sgt. Gilmer is married to the former Ana Zamora, daughter of Mrs. Lucy Zamora, 3003 W. Gerald Avenue, San Antonio. They have a daughter, Mrs. Shirley Richards, residing at 2043 Treewood Lane in San Jose, Calif., and another daughter, Mrs. Betty Mollis, living in Erlanger, Ky. A stepson, William Davis, lives in Valencia, Calif.

The Gilmers plan to make their retirement home in Erlanger, Ky.

Okie Leads Cowboys In Championship Race

DENVER, Colo. — The hottest cowboy in professional rodeo for the second straight week is Barry Burk, who has won more than \$3,000 since the Fourth of July, the Rodeo Cowboys Association said here today.

Burk, 29, of Duncan, Okla., Sunday left the Emerald Empire Roundup rodeo in Eugene, Ore., with \$1,128. He finished first in calf roping, with a time of 20.6 seconds on two calves, and also placed in steer wrestling. He's won more than \$10,000 so far this year.

The closest race for a world championship event title this season is in bull riding, where only \$817 separates the first four men. Bob Berger, of

Norman, Okla., is in the lead with \$9,935.

Event leaders are: All-around cowboy — Phil Lyne, George West, Tex., \$24,298, and Paul Mayo, Grinnell, Iowa, \$20,080; saddle bronc riding — Bill Smith, Cody, Wyo., \$12,507, and Mel Hyland, Surrey, B.C., \$10,746; bareback bronc — Mayo \$20,080, and T. J. Walter, Watkins, Iowa, \$11,803; bull riding — Bob Berger, Norman, Okla., \$9,935, and Bill Nelson, San Francisco, Calif., \$9,421; calf roping, Lyne \$13,873, and Junior Garrison, Marlow, Okla., \$11,720; and steer wrestling — Billy Hal, Checotah, Okla., \$14,803, and Walt Linderman, Belfry, Mont., \$11,759.

The bidding:
North East South West
1 ♠ Pass 2 ♠ Pass
3 ♠ Pass 4 ♠ Pass
4 ♠ Pass 5 ♠ Pass
6 ♠ Pass Pass Pass

Opening lead: Jack of ♠

Observe that North's jump rebid to three spades is unconditionally forcing to game after partner has responded in a new suit at the two level. This permitted a relaxed investigation of slam prospects subsequently, and even the South signed off at five diamonds, North had enough in reserve to carry on to six.

West realized however, that declarer was marked with the high clubs to warrant his original response at the two level.

West finally decided to switch to a club anyway—but as part of a scheme to throw South off the track and try to induce the latter into choosing a losing line of play. The deuce of clubs was led and dummy's jack won the trick. South proceeded, with scarcely a moment's thought, to cash the ace of clubs, followed by the ace and king of spades—on which he discarded a club. He ruffed himself in with a spade, belatedly observing that that suit divided evenly, and he played the king of clubs. When the queen did not drop, however, he was obliged to concede a trick to West in clubs, at the end.

South should have taken measures from the outset to establish enough spade discards—three—to provide a parking place for his losing clubs. At trick two, it is suggested that he play the ace of spades, followed by a spade ruff. Now the ace of diamonds is cashed, followed by a diamond to the king.

This play gives up on the diamond finesse, but succeeds with any three-two division in diamonds plus the possibility of dropping a doubleton queen in the West hand. Now another spade is ruffed and if the suit divides no worse than four-two, South has the king and two small spades in dummy available to discard three clubs from his hand. A trick is conceded to the queen of diamonds and the ace of clubs provides access to the North hand to cash the fulfilling tricks.

South could still have salvaged his contract after West's club switch by first playing the ace of spades, followed by a spade ruff. The last trump is drawn, dummy reentered with the ace of clubs and the king of spades is led. When the suit divides evenly, South is home. If it doesn't, he can still try for the even division in clubs.

Connally's Jobless Analysis

Treasury Secretary Connally made his debut as the administration's chief economic spokesman lately with an impressive performance. He said the economy is moving along quite well. More significantly, he called attention to the nature of the unemployment index.

He noted the influx of former military servicemen moving into employment, dislocations of people moving out of defense plants, young people out of school. That accounts for half the jobless. He said that among heads of households in the country, the jobless rate is 3.3 per cent.

That compares with 6.2 per cent unemployment — counting everybody. He wasn't happy with the fact that some people don't have jobs. He was consigning the "norm" of 4 per cent unemployment as the minimum acceptable figure, as some have done, to the realm of myth. He said 4 per cent never was the norm, that we never achieved that much employment in the past 25 years except in wartime.

Connally was plugging for time to let present policies work. He said the economy is expanding: building permits are higher, retail sales are "very high." Industrial production is up and the money supply is running at about 11 per cent increase on an annual basis.

These things are stimulative but there's a new

deficit coming: "in excess of \$18 billion" that has been anticipated.

His point is that policy to hold the line on taxes and spending aims to reduce inflation. It's a point well taken. Long-haul inflation is the worst course open to us. The economy is robust but the dollar is relatively puny.

Quality Is Public's Business

The federal government, with its taste for secrecy and bureaucracy undiminished, is cutting the public out of the results of controls over water pollution.

Under an 1899 law, now being enforced, the Army Corps of Engineers is requiring data on and issuing permits for industrial waste discharge into the nation's waters. The Environmental Protection Agency (EPA) sets the standards and holds veto power over the permits. Under Public

Law 89-487 as amended in 1966, withholding data has to be under a finding of "national security."

However, the discharge standards are set in terms of an industry's input of raw materials or its output of products.

There may be some validity to the claim of protecting business secrets, and to this extent the terms of reference need to change to permit the public to know about the end quality of the effluent. This is what the public is entitled to.

Ungalopped Gourmet

Around The Rim

Jean Fannin

I have a feeling that single-handedly I could deal with all the anti-liberationists in town. All I would have to do is serve them one good meal — well, one meal anyway.

THOSE MEN who say a woman's place is in the kitchen would change their minds in a hurry after eating at my table. It's not that I'm a bad cook . . . I don't think. I just have trouble following directions.

I certainly will never have a child who is tied to his mother's apron strings — because first I would have to have enough confidence to put on an apron. Besides an apron never does me much good. When you spill an entire pan of water the apron doesn't afford your clothes much protection. Grease splatters up — not down. And flour tends to fly up about shoulder level.

BUT, CONCERNING directions, have you ever noticed that recipes are never as explicit as they should be? Now I'm not complaining about those recipes that say "add a pinch of salt," because usually you can add salt at the table, and it doesn't make that much difference. (I learned the value of that while eating in a college cafeteria.)

THE DIRECTIONS which really get to me are those which say things like "allow mixture to thicken." How thick? Do they mean so thick that

it takes both hands to stir it — or just a little thick? Believe me it does make a difference in the finished product.

OR HOW about "add one cup whipping cream." Whipped or not whipped? Maybe you would assume that because the recipe says "whipping cream" instead of "whipped cream" that it would be unwhipped. Believe me after some of the recipe experiences I have had I take nothing for granted.

I even have trouble with the "one-cup" ingredients. Did they mean one cup as is indicated on my measuring cup — or one cup as is indicated in granddad's old coffee cup. Did they mean to fill it to the brim, or do they want me to fill it about as full as I would if I were pouring myself a cup of coffee.

THERE ARE a lot of things to consider when following a recipe.

There are times when I have followed a recipe to the letter and the result is a gigantic flop. I don't think it's my fault. Do you suppose it's really supposed to taste like that?

Cooking something you've never tasted before can be really bad. You don't know if there's something wrong with the recipe or if you've just added another item to your menu of dislikes.

Arms To Mideast

David Lawrence

WASHINGTON — There are many senators and representatives in Congress who insist there should be no military involvements abroad by the United States.

But some of these members of the Legislative branch evidently believe exceptions should be made. Thus, for instance, one who has been outspoken in his criticism of the military aid this government has given during the last decade to South Vietnam now is becoming sensitive about the inadequacy of the military help being provided to Israel by the United States.

SENATOR BIRCH Bayh, Democrat of Indiana, has been critical of American assistance to South Vietnam. He has just issued a statement based on weekend reports which quoted Moïse Dayan, the Israeli defense minister, as saying that deliveries of war planes by the United States to Israel were stopped in June because of Egyptian pressure. Senator Bayh stated:

"I am most concerned about General Dayan's charges. Neither the current state of negotiation in the Middle East nor what we know about the continued delivery of Soviet aircraft to the Arabs would justify suspension of aircraft deliveries to Israel."

THE STATE Department has refused to give out any details but merely contends that the United States has had "our own continuing supply to the Government of Israel."

Meanwhile, Soviet shipments of military equipment to Egypt and Syria during the past ten months are described by American spokesmen as larger than what had been supplied in the previous year. Since September 1970, Egypt has received nearly 100 of the most advanced MIG-21 jet planes from Russia. This compares with a total of only 90 MIG-21's delivered to Egypt from the end of

June 1967 Arab-Israeli war up to the middle of 1970.

OFFICIALS FURTHER confirm that Egypt received 16 large troop-carrying helicopters in June, and now has about 80 of them. Syria, too, according to reports, has been given during the last three months 30 jet fighters, five fighter-bombers and 22 troop-carrying helicopters by the Russians.

It is difficult to understand why there would be any rumors of a suspension of deliveries of military supplies to Israel except that the American government seldom makes public the details of its shipments of weapons to foreign countries until some time after they have been made, and then only in vague summaries. Customarily, during a crisis such as is going on in the Middle East, information about military supplies provided by America is not publicized. But it has been officially confirmed that the United States is furnishing military planes to the Israeli government.

NATURALLY, senators who have opposed any American military operations in Southeast Asia would be expected to apply the same doctrine with respect to the situation in the Middle East. Many of the critics of our Vietnam policy, however, have not raised their voices against the assistance given to Israel, though they continue to demand that all troops be withdrawn from Southeast Asia and aid be ended.

AS MATTERS stand today, the advice of the American government to Israel and the Soviet's concept of what Egypt should do will be the basis for a peace conference in the not-far-distant future in which Moscow and Washington will play an important part — largely because they will have helped each side and thus are in a position to avert a war. (Copyright, 1971, Publishers-Hall Syndicate)

HARRIS OCCUPATIONAL HAZARDS

Taxes Will Always Rise

John Cunniff

NEW YORK (AP) — Experience teaches us that it is always wise to take a long, hard look at assumptions widely taken for granted. To name a few:

— BIGGER IS BETTER. During much of the 1960s this notion was pursued by hundreds of corporate enterprises, most of them convinced that the sum really could be bigger than the parts.

— CONGLOMERATING was the name of the game, the route to bigger profits, the remedy for deficits and most other ills. Mold 5, 10 or 20 companies into one and they'll all be better for it.

— THE RATIONALE generally was that bigness makes possible easier access to financing, reduction in duplicate efforts and so on. There were enough successes to imply that the idea was correct.

— NOW THERE is growing suspicion that while bigness might be better, it might be better only to a point, after which it becomes bad. References to dinosaurs are constantly made in

speeches and articles. The bankruptcy of the Penn Central Railroad, the inefficiency of huge utilities, the impaired borrowing capacity of Lockheed Aircraft and the dependence of other aerospace firms on government contracts are fueling the criticism.

— DOUBTS are being raised about the ability of centralized management to know what is going on in its divisions, about its ability to retain the loyalty of worker and community. Concern is expressed about lagging productivity and thwarted initiative.

— AND ONE of the areas in which solutions are being sought is, of all things, smallness. Smaller units allow for more imagination and innovation, it is said, as well as better identification with worker and community.

— TAXES WILL ALWAYS RISE. It would seem so, because the upward pressure has continued to grow relentlessly, despite efforts to control or lower them.

The Tax Foundation calculates that per capita tax pay-

ments rose from \$365 in 1950 to \$1,348 in 1970. Even with inflation wrung out, that 1970 figure totals \$850, or more than double the 1950 tax toll.

— "NOR IS THE END IN SIGHT," said the chairman, Alger B. Chapman, in the foundation's annual report on government finance.

— "DESPITE the indisputable need for prudence in fiscal affairs, expenditures at all levels of government continue to climb without halt. Taxes and public debt inevitably follow."

— CHAPMAN MAY, however, be too close to the statistics to detect what other observers hear, at town meetings, for instance. There appears to be a growing resentment against waste and inefficiency, pressure for priorities in spending and more accountability by those who spend.

— THE VIETNAM experience has convinced many Americans that the country cannot afford to spend for a foreign war and attempt to maintain a "peacetime" economy at home.

Man With No Secrets

Art Buchwald

WASHINGTON — After being away from Washington for 17 days I found the town completely changed. Everywhere I went people were trading secret Pentagon papers to each other.

The first place I stopped was the National Press Club bar. It was jammed with correspondents holding up Xeroxed copies of their hands.

"I'll give you two Henry Cabot Lodge memos for one McNamara position paper," someone yelled.

"I'VE GOT a Walt Rostow pre-Tonkin Gulf evaluation I'll trade for a Tet offensive report."

"How about a Joint Chiefs of Staff contingency plan for the invasion of Manchuria?"

I drank in embarrassed silence. Finally a New York Times man next to me said, "You don't have any Dean Rusk memos to Maxwell Taylor to complete my collection?"

I replied, "I don't have any papers at all."

I TAPPED him on the shoulder. "You wouldn't let me see one, would you?" I asked. "I should say not," he said indignantly. "These are classified documents."

I saw a friend of mine from the Washington Post.

"Murray," I said, "I don't know how to put this to you, but I was wondering if I could borrow a stolen Pentagon paper until I get paid on Thursday."

Globe man. "Healy," I said, "I'm plumb out of Pentagon papers. Could you spare a couple until I can make contact with a traitor from the Rand Corp.?"

"You know I'd do anything for you," Healy said, "but according to Atty. Gen. John Mitchell, these papers could compromise the government."

Look, we're dealing with 'top secret' stuff here. I know you wouldn't do anything with the papers, and Murray knows you wouldn't do anything to compromise the country. But does J. Edgar Hoover know it?"

A MAN from the Los Angeles Times said, "Does anyone want to trade the CIA's estimate of Madame Nhu for the plans of a military coup in Laos?"

"I'll do it," the bartender said, bringing out some papers from behind the bar.

"You have papers, too?" I asked in surprise.

"Sure," he said. "All my tips for the past month have been in stolen Pentagon papers."

"You wouldn't sell any, would you?"

"Not on your life. These papers were given to me on the condition I would never show them to strangers."

HISTORIC SITE

LITTLE ROCK, Ark. (AP) — Arkansas' capitol was completed in 1916 on grounds where the state penitentiary formerly was located. The penitentiary served as a military prison during the Civil War.

Editorials And Opinions

The Big Spring Herald

8-B Big Spring (Texas) Herald, Thursday, July 15, 1971

Are You An Old-Timer?

Hal Boyle

NEW YORK (AP) — Are you an old-timer? You are if it makes you sigh to look back and remember when —

— A street had more tied up horses and buggies on it than parked cars.

— Few girls expected to work outside the home after marriage. It was expected that the husband could bring home by himself all the bacon the family needed.

— A man could live a long life without paying more than \$100 to either a dentist or a doctor.

— More floors were swept with brooms than vacuum cleaners.

— A woman always tied her hair up in a white rag before starting a real housecleaning.

— Newspapers rarely printed the word cancer except in medical articles. In obituaries, you could safely predict that any diner that charged more

than a nickel for a cup of coffee would soon go out of business.

— Relatively few people were robbed on the streets after midnight, because in most towns there wasn't any real reason to stay up that late most nights.

— When a son reached an age where he started criticizing his father aloud at the dinner table, it was tacitly accepted that he would probably be leaving home soon.

— A telephone was thought of as something of an emergency instrument, and sometimes you'd go days without making a call.

— It was so quiet in the home that you could sit in the living room and hear the kitchen clock ticking.

Billy Graham

Many people say that all politicians are crooked. In your opinion, is this a fair generalization? G.V. You might as well say, "All doctors are quacks, all lawyers are dishonest, and all preachers are hypocrites." You can mark it down that when you hear a sweeping generalization, that it is unfair and untrue. Generalizations come cheap, and are usually made by unthinking people. Unfortunately, however, there are no federal laws against them, and there is no known way of keeping people from making them.

To be a national leader is not an easy job. You live in a glass cage; your life is not your own, and you are open to every carping criticism, justified or unjustified. In my opinion, a man who serves his city, his state, or his country well, must have a definite dedication and integrity. True, there are a few, just as there are in other professions, who are unworthy of the name, "public servant." Great pressures are put upon them by their constituencies, who naturally contend for their selfish and personal advantage. But a public servant, worthy of the name, must walk the tight wire between the interests of his constituency, and the greater interest of his city, state or nation. Read "Profiles in Courage" if you think all politicians are crooked. A close study will show they are not.

A Devotion For Today . . .

Humble yourselves in the sight of the Lord, and he shall lift you up. (James 4:10)

PRAYER: O Lord, teach us to be humble both in the victories and defeats of life. In our weakness, support us by Thy strength this day. In Christ's name we ask. Amen.

Long Hair

Dear Abby
Abigail Van Buren

DEAR ABBY: My father and brother are having a go-around about my brother's hair. Sam is 18 and wears his hair below his collar. My father says he is going to buy him some ribbons and curlers if he doesn't get it cut. He's not kidding. (Yesterday he gave him a hairbrush with jewels on it.)

DEAR ABBY: I realized how ridiculous I looked. What can you advise fathers who have sons who like long hair?
SAM'S SISTER: DEAR SISTER: To paraphrase a columnist who said it beautifully: "If Jesus returned today, He would probably be stopped, searched and carted off to the precinct station by the first cop who spotted Him. Shoulder length hair, bearded, with sandals, a dropout from school, hanging around with dubious characters and a notorious frequenter of low places, what chance would He have today? Even less than the Romans gave Him."

DEAR ABBY: My suggestion to that woman whose friends call her early in the morning when they know she likes to sleep late: Call THEM late at

anti-hair phobia is in some mysterious, but deeply-fixed way connected with the Bible and religion; that it serves as an unconscious reminder of the way we have lost, the message we have ignored. Nothing less than this can explain the ugly and irrational rejection and contempt we express for the ancient tresses."

DEAR ABBY: We are about to have our first litter of Abyssinian kittens and with your permission we would like them to be officially named "Dear Abys." Have you any objections?
MRS. B. R. S., DOWNEY, CALIF.

DEAR MRS. B.R.S.: I have had baby girls (Abigails), baby boys (Abners), race horses, greyhound dogs, parakeets, white mice and even a baby ape named after me. So be my guest and call your Abyssinian kittens "Dear Abys." I think it's the cat's meow!

The society recommends thorough professional eye examinations for children when they are 3 years old.

night when you think they are asleep, and repeat their exact words: "Oh, did I wake you up?" It works? MILDRED IN MUSCATINE, IOWA
DEAR MILDRED: It will also help you to lose friends and alienate people.

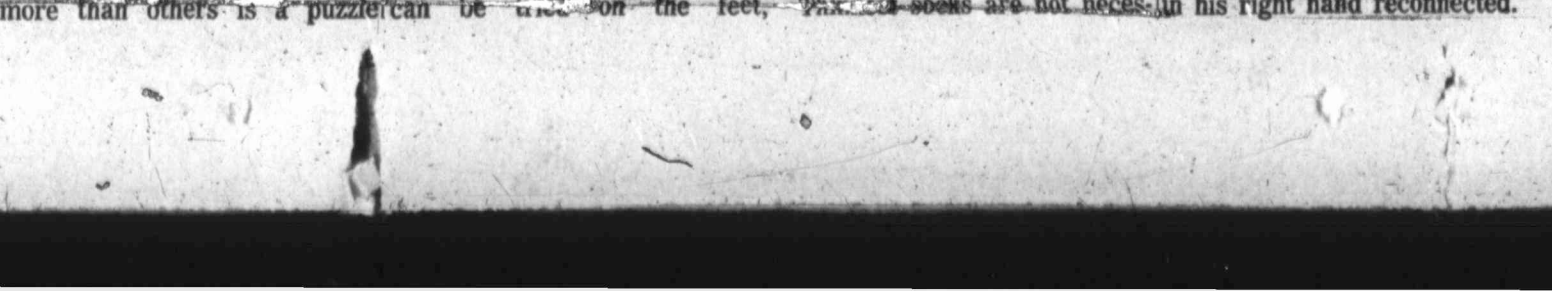

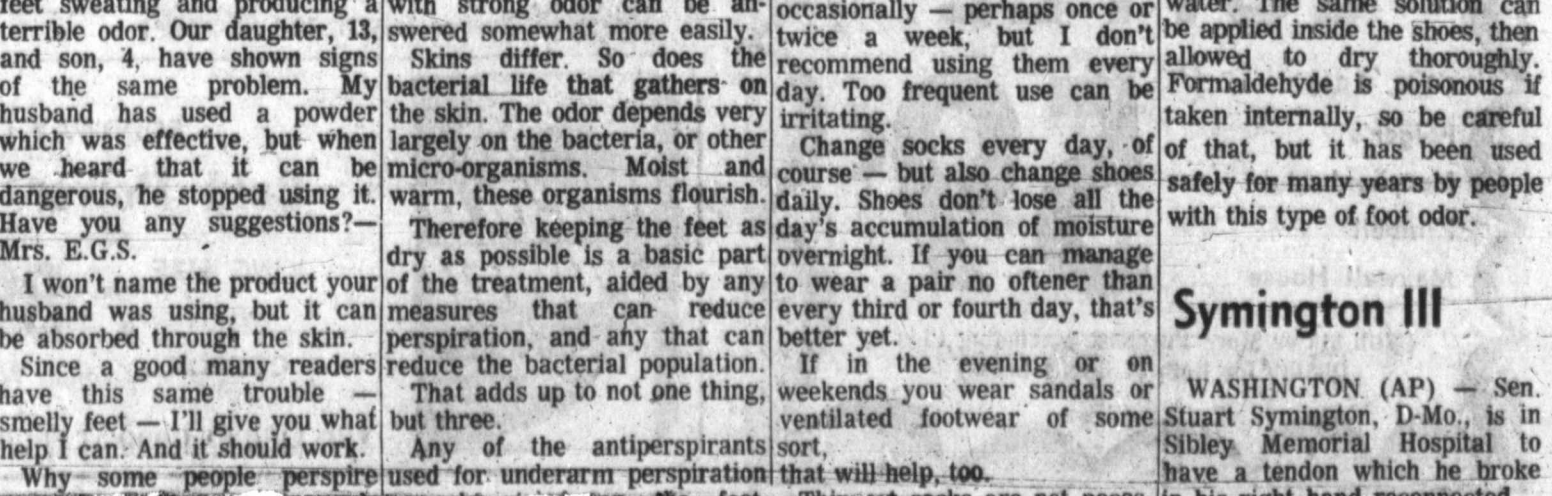

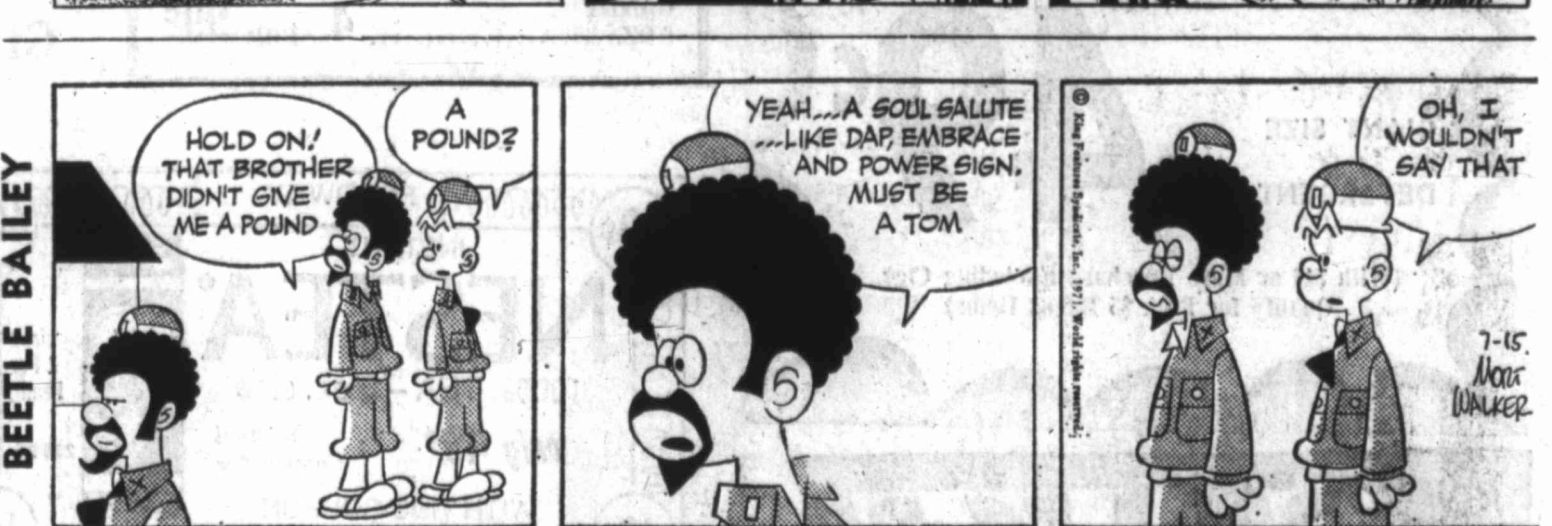

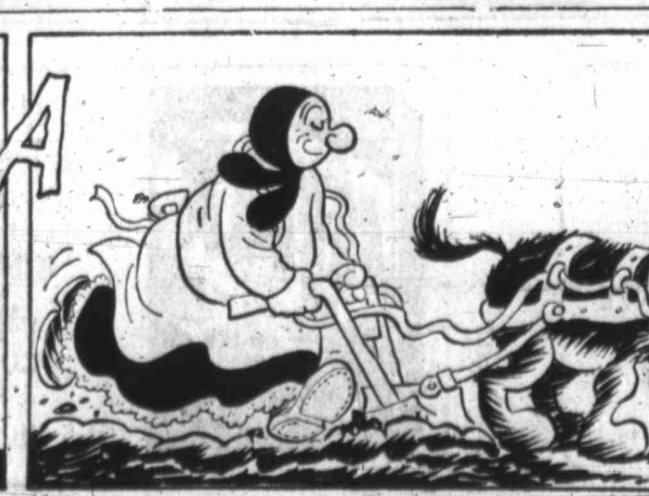

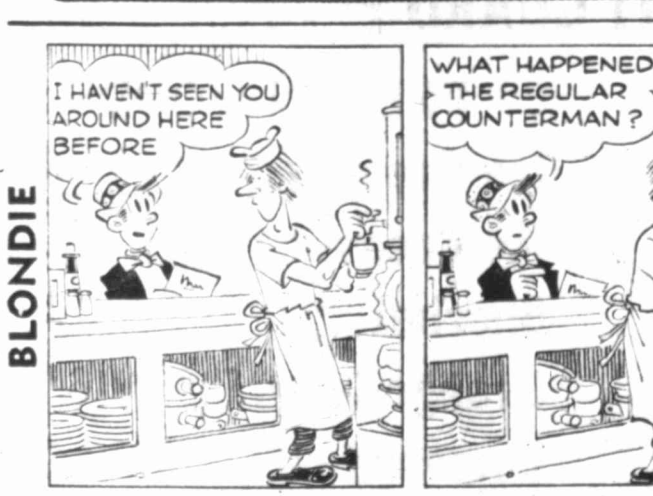

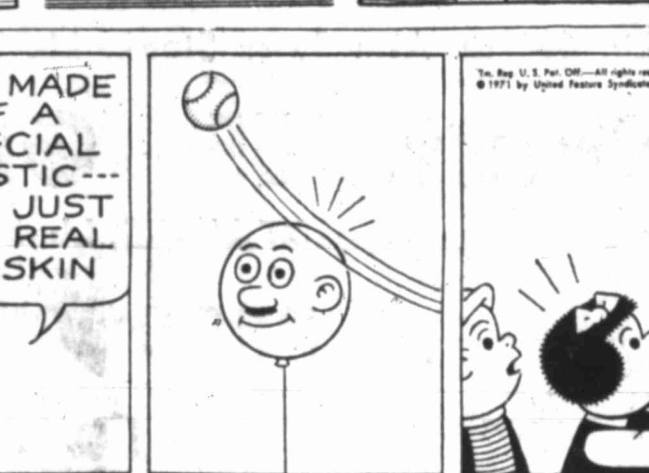

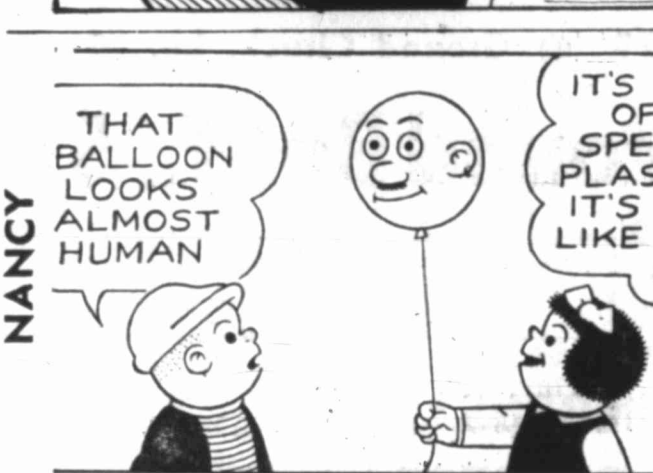

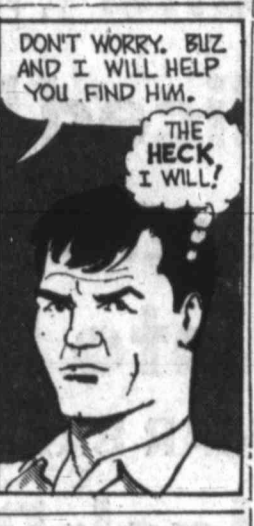

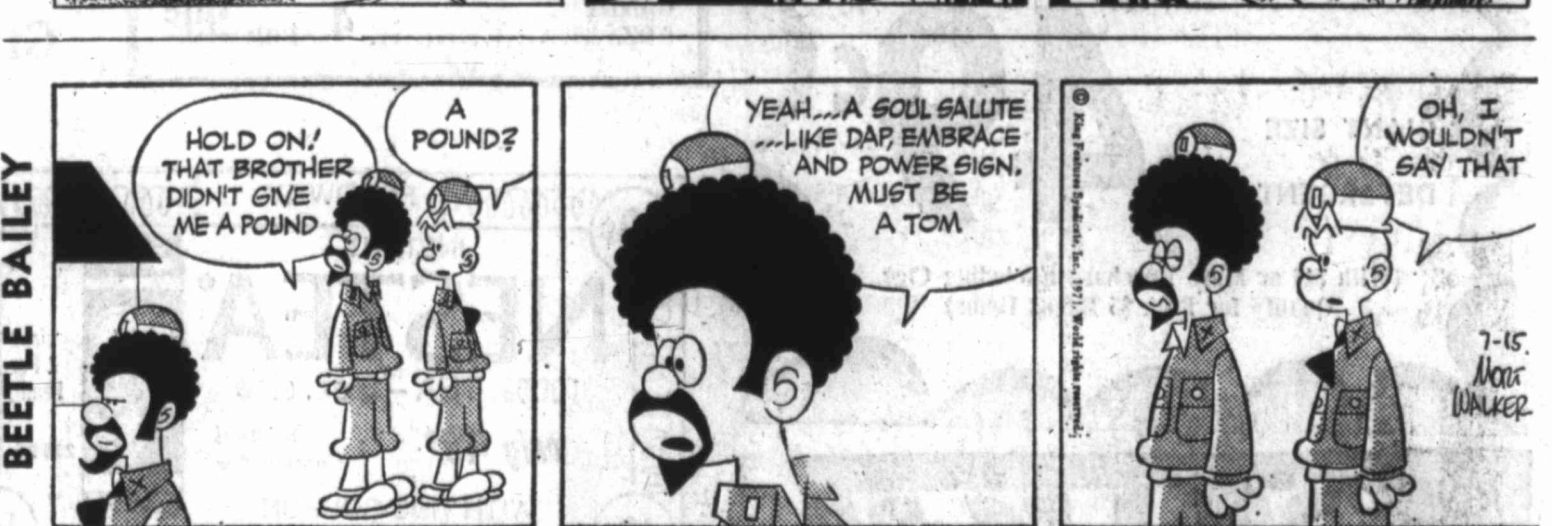

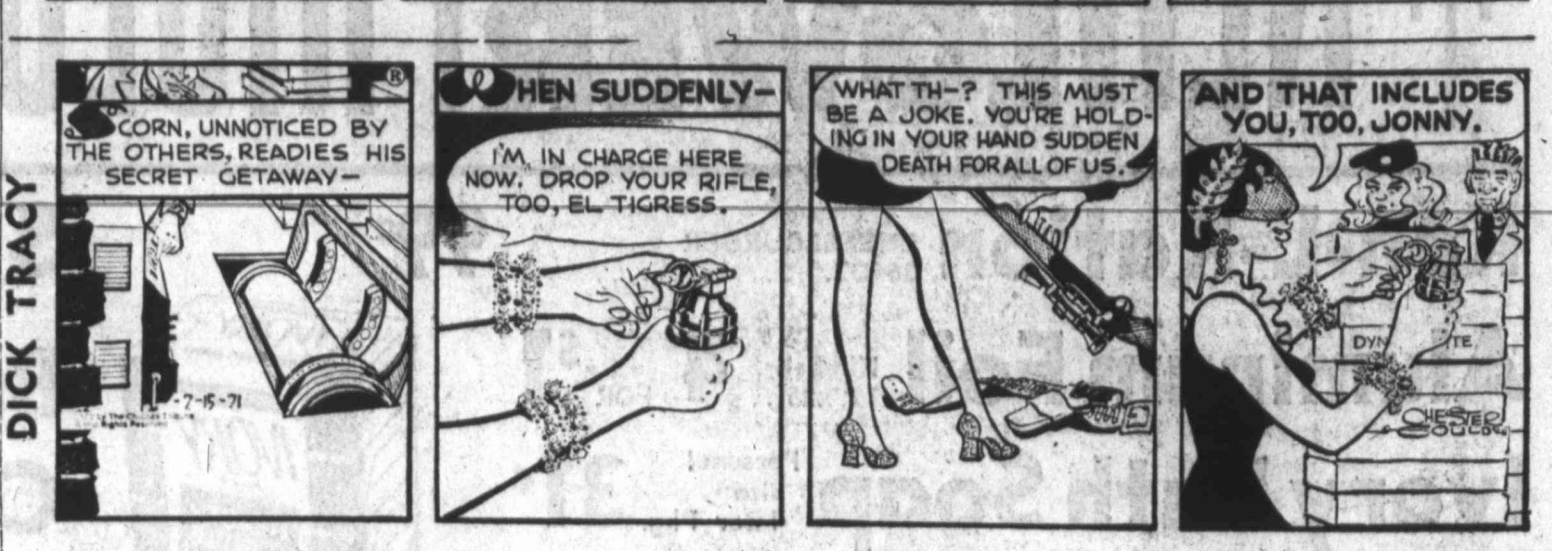

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069.

Blinkin' Babes

NEW YORK (AP) — An unborn baby blinks his eyes and moves his eyelids three months before birth, reports Dr. Alden N. Haffner, optometric consultant to the Society for Visual Care.

The society recommends thorough professional eye examinations for children when they are 3 years old.

Sweating Feet

Your Good Health
Dr. G. C. Thosteson

Dear Dr. Thosteson: My husband has a problem with his feet sweating and producing a terrible odor. Our daughter, 13, and son, 4, have shown signs of the same problem. My husband has used a powder which was effective, but when we heard that it can be dangerous, he stopped using it. Have you any suggestions?—Mrs. E.G.S.

I won't name the product your husband was using, but it can be absorbed through the skin. Since a good many readers have this same trouble—smelly feet—I'll give you what help I can: And it should work.

Why some people perspire more than others is a puzzle that can be traced to the feet. The feet are not necessarily best. Some people have found that wool socks, because they can absorb more, are best. Some trial and error on this can be worthwhile.

Cotton is pretty absorbent, too, but beware of the synthetic fibers which don't absorb—so the moisture is trapped on the skin, and that's where you don't want it to be.

Finally, a weak solution of formaldehyde, painted on the feet, is effective. Use a strength of one ounce in six ounces of water. The same solution can be applied inside the shoes, then allowed to dry thoroughly. Formaldehyde is poisonous if taken internally, so be careful of that, but it has been used safely for many years by people with this type of foot odor.

Symington III
WASHINGTON (AP) — Sen. Stuart Symington, D-Mo., is in Sibley Memorial Hospital to have a tendon which he broke in his right hand reconnected.
