

UNION REPRESENTATIVE ASKED TO ATTEND

## Commissioners Mull Labor Pains

**By BRIAN PEAY**  
Employee complaints, supervisors' problems and conflicts were mullied in a special personnel meeting of the sanitation department and the city commission Tuesday in city hall.

City fathers met with all the members of the department and their supervisors in the meeting that might possibly result in the city departments shifting toward union organization.

Departmental employees were given an opportunity by the Acting City Manager, Roy Anderson, to state their complaints without fear of being held responsible for what they would say.

Problems ranging from employees having to work too many hours to alleged negligence and discrimination in work policy on the part of sanitation department supervisors were aired by the employees in the meeting.

Kenneth Howell, business manager of the Local 826, of the International Union of Operating Engineers, AFL-CIO was present in the meeting.

"I have not solicited the membership of any of the sanitation department employees toward a union set-up. I was in the meeting at the request of a few members of the department," said Howell.

Department supervisors, Grady Grantham and Dick Nichols, were also given a chance to explain to the administration and the employees the reasons on which they based their work policies.

Grantham said that a small portion of the department employees was beginning to disregard orders and neglect work.

"I am tired of these men neglecting what I tell them to do and then threatening to go to Commissioner Eddie Acri with their problems," said Grantham.

"If I am sanitation super-

visor, and if I continue to be after today's meeting, I will run the department as I see fit and will take my orders from the city manager and not from a single commissioner," Grantham told the commission.

The supervisor cited a recent incident in which an employee had threatened him three times about going to Acri with his problems. The employee was later fired from the department for disregarding orders.

As tempers and emotions heated, Grantham turned to Acri and said: "You have told many of the men at the city

barns that if they could get no satisfaction with their supervisors to come to you to get the job done."

Acri yelled across the room: "That is a lie."

Grantham then told the commission that if they were not satisfied with his work, he would be glad to resign his position with the city.

"If you can't take care of your department, I suggest you take a long look at your own faults. If your department was handled right, the employees would not be coming to me," said Acri.

Grantham then presented a

memorandum to the city manager and commission.

"I, as sanitation superintendent, know better than anyone else the problems in this department. As most of you know and all should know that no department from the smallest to the biggest can be run by men outside of the department," Grantham said in the memo.

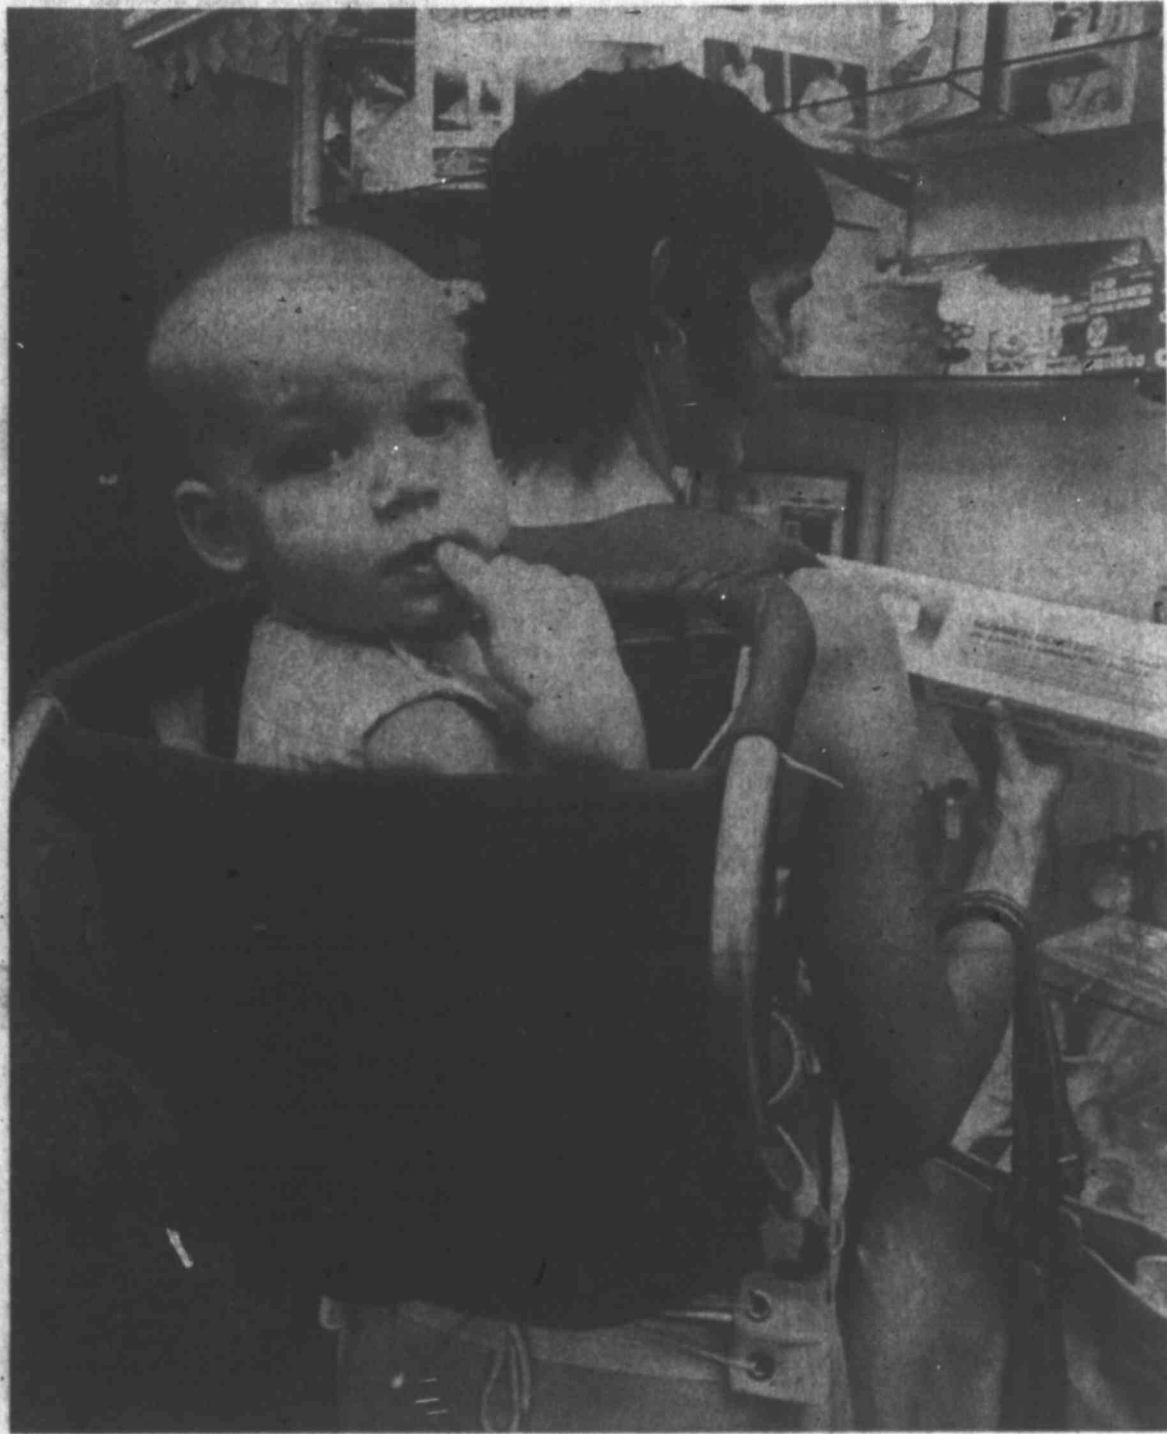

"Of the seven years I have worked for the city of Big Spring, I have never known of a commissioner taking the job of personnel manager on himself."

"Men who only a few months ago were good enough employees to get promotions in their department for their good work and willingness to take orders, are now on the verge of being laid off for unwillingness to take orders."

"This is the situation, gentlemen, and unless there is backing and understanding from the city officials and department heads, the confusion will soon be in all city departments."

Tom Dignon, street supervisor, backed Grantham's statements saying that many times he had heard Commissioner

(See PAINS, Pg. 6-A, Col. 4)

**DON'T LOOK NOW, MOM, BUT . . .** — Mrs. Richard McAllister has solved the problem of what to do with 11-month-old Andy on a downtown shopping trip. Andy is held safely at bay from the merchandise in a tote on his mother's back. His father is a student pilot in Class 72-03 at Webb AFB.

### Unwrap Trash Troubles For Local News Media

A difference in opinion developed among city commissioners Tuesday afternoon on whether a special personnel meeting of the sanitation department employees and supervisors should be a formal commission meeting and closed to the news media and public.

Mayor Arnold Marshall and M. R. Koger, commissioner, were of the opinion that the meeting was not formal, because of the manner in which it was called. Commissioners Eddie Acri and Jack Watkins said that the meeting should be a formal session and that it should be closed.

Various city personnel were aware of the called meeting last Wednesday, but no formal announcement of the session was made public. Thirty minutes before the meeting Tuesday, Roy Anderson, acting city manager, posted a formal agenda on the request of Wat-

**NUMBER 0001** — H. E. Tubb, left, and Gerald Miller show off the tag for the first bale of cotton ginned this year in Howard County. Tubb won the \$500 prize offered by the Big Spring Chamber of Commerce for the first bale, which is on display at Third and Main. Miller heads the agricultural committee of the chamber.

### EDGAR SAYS: Most Teachers Will Get Raises

**AUSTIN (AP)** — Most Texas school teachers will get their pay raises, State Education Commissioner J. W. Edgar said Tuesday.

However, Edgar's interpretation of the nation's wage-price freeze controls is subject to review by federal authorities before it goes to local school districts Sept. 8.

Edgar also stressed that each local school board will have to interpret his guidelines to determine which teachers get the scheduled pay raise that is part of a 10-year salary plan approved by the 1969 legislature.

Some teachers may draw raises provided in the portion of their salary paid by state funds but not local "supplementation" raises.

### Nixon Slaps Secrecy On Military Aid

**WASHINGTON (AP)** — President Nixon, claiming executive privilege for the second time since taking office, has denied the Senate Foreign Relations Committee data on military-aid plans.

The action brought to a head an already bitter battle over secrecy with committee Chairman J.W. Fulbright, D-Ark., who sought a document he said detailed a five-year plan of military assistance.

Secretary of Defense Melvin R. Laird said such a document never existed, but U.S. Comptroller General Elmer E. Staats looked into the dispute and ruled on Aug. 17 the Pentagon has such a plan.

Fulbright had threatened to withhold pending funds for direct grants for military training and equipment unless the plan was sent to the committee, or the President claimed executive privilege.

"I am concerned," Nixon responded Tuesday, "as have been my predecessors, that unless privacy of preliminary exchange of views between personnel of the executive branch can be maintained, the full, frank and healthy expression of opinion which is essential for the successful administration of government would be muted."

Nixon's statement was in a memo to Laird, marking the first time since June, 1970, the President claimed the need for executive privacy. At that time, the White House said, Nixon invoked the privilege to guard certain FBI records.

Fulbright said he found his President's decision hard to understand, "especially since the information was requested on a confidential basis and in the light of earlier statements about the desire of this administration to be open and forthcoming in its relations with the American people and the Congress."

### FIRST BALE H. E. Tubb Wins Second Year In Row

The first bale of 1971 cotton was ginned Monday afternoon at the Big Spring Co-op Gin.

H. E. Tubb won the \$500 Chamber of Commerce prize for the first bale of cotton ginned in Howard County for the second year in a row with a 560-pound bale of Northern Star 5 cotton.

The prize money is donated every year by local businessmen as a way of showing appreciation for the contribution the cotton industry makes to the economy of Howard County, according to Tom Eastland, Chamber of Commerce, manager.

The 560-pound bale came from about 15 hand-picked acres on a 724-acre farm about 12 miles north on the Andrews Highway, where Tubbs has about 600 acres of cotton planted. The cotton is all dry land and was put in April 17.

The cotton was again ginned by C. G. Benningfield, manager of the Big Spring Co-op Gin. The cotton was processed free of charge, as is customary among ginners in the area for the first bale.

"The cotton looks like it will run a bale an acre or better this year," said Tubb. "It looks about the best it ever has."

This is the third time Tubb has had the first bale of the year. He won in Howard and Midland Counties last year.

## School Finance Ruling 'Opens A Pandora's Box'

**By The Associated Press**  
Government and school officials cross the nation say a precedent-shattering California Supreme Court school finance ruling could lead to similar suits in other states and ultimately revolutionize American public school education.

"The California decision could be as precedent-setting as the one-man, one-vote ruling of the U.S. Supreme Court," said Michael J. Bakalis, state superintendent of public instruction in Illinois.

**REVOLUTION**  
A spokesman for Vermont Gov. Deane C. Davis said the decision "opens a Pandora's box." If the ruling is upheld in the federal courts "it could revolutionize education in this country," he said.

M. Carl Holman, president of the National Urban Coalition, predicted the ruling would "ultimately . . . be as momentous" as the 1954 U.S. Supreme Court school desegregation decision.

The California court ruled Monday that the local property tax form of public school financing is unconstitutional on the ground that it discriminates against the poor. It did not spell out what would be an equitable tax structure.

With the exception of Hawaii and to some extent Utah, every state in the union uses a school finance system like California's. Over the last three years, similar suits and legislation in at least eight states had failed

### The . . . INSIDE . . . News

**NO WAY**  
Edgar said there was no way of estimating the number of teachers affected in the 1,200 districts.

"We have no idea how many school boards approved their budgets and finished their teaching contracts by Aug. 15," he said. "We'll just have to wait and see."

"It is the desire of the Texas Education Agency to operate within the spirit and intent of the executive (wage-price freeze) order," Edgar told Arnold R. Weber, executive director of the Cost of Living Council, in a letter that accompanied Edgar's interpretation.

"We will assume that our interpretations are accurate if no-

tification to the contrary has not been received by the (Sept. 8) date scheduled for transmission to local school districts."

TEA officials said Edgar's ruling would cover 80 to 90 per cent of all Texas public school personnel.

### Police Sergeant, Two Black Civilians Shot

**PITTSBURGH (AP)** — Three persons, a white police sergeant and two black civilians, were shot today in a furious exchange of gunfire outside a precinct station in the city's predominantly black Hill District.

The policeman, identified as Sgt. Harold Friedman, 27, was in critical condition at Mercy Hospital with a stomach wound, police said.

Also at Mercy was a man identified as John Mangum, 26,

### Hair Heir Apparent

**SUTTER CREEK, Calif. (AP)** — Nick Godman, a 5-year-old, is confronting an issue that has stirred up high school students and collegians.

Principal Stanley Kelly has ordered Nick suspended from the first grade at Sutter Creek Elementary School because of his long hair.

His two brothers also have been suspended for long hair, one from the fifth grade and one from high school.

The boy's parents say they will see a lawyer before they see a barber.

- Bible Fund Still Short**
- While staunch supporters pushed the Bible Class Fund upwards Wednesday, the rate of gain is far short of what is needed to reach the goal before deadline for the annual appeal.
- Today's addition was \$110, pushing the financing for the high school Bible instruction past the \$2,000 mark and about halfway of what is needed. The Bible is taught for its ethical, historical and literary qualities and carries credit although, under state law, no tax funds may be used for the purpose. Hence, it is dependent upon the gifts you mail or send The Herald.

# Time For Weed Cutting

City crews have promised a program of getting after weeds in rights of way and spraying as a means of combating an upsurge of mosquito population.

They should be joined by every resident of the city in this commendable enterprise. The city can clean the right of way in streets and alleys and cut down on harborage for breeding places for mosquitoes and flies, but unless this is extended to private property, the total effort will fall far short of effectiveness.

The blessings of the unusual season of rain in August are tempered by the nuisance if not threat of the mosquitoes because high grass and weeds shield little pools of water that make ideal breeding places for the insects. Moreover, cans, bottles, old automobile tires and battery cases provide even more enduring places for producing this unwanted population. Most of these have been allowed to accumulate on private property.

So only residents can do something about this, and perhaps only they can go on to neighboring lots and clean up as a purely defensive gesture.

Yet there is more than health and comfort to be considered in a community-wide weed-cutting. For one thing, weeds are growing at such a tremendous rate that by the time frost comes they will be ready-made tinder for spreading fires to fences and buildings. The least anyone can

do is to cut and clear a strip around fences and buildings. The second thing about this sudden growth is that, despite a normal paucity of greenery in West Texas, it looks terrible. And that goes for downtown, shopping centers as well as homes.

## Four-Day Week

The four-day work week has been enthusiastically accepted by most German workers affected, despite union and some management disapproval.

A West German poll showed that 55 per cent of the workers would prefer working 10 hours a day, four days a week. This year, a small number of German industries followed the examples of about 100 American companies who have gone to the shortened work week. So far about 20,000 Americans are thus employed. The resulting 30 per cent increase in production prompted the German experiment.

So far, none of the workers involved have

asked to be returned to the five-day week. Doctors have questioned the effect of the longer day on employees' health, though so far fewer days have been lost due to sickness.

Other industries have resisted the move, since management suspects that the four-day week will, in the final analysis, lead to a reduction in total working hours.

Three days for loafing proves to be a very attractive idea for employees though a small percentage have used the extra day for moonlighting. Also, the returns are not yet in on whether more time off means more spending, and if so, where's the money coming from?

# Cutting It Thin

## Around The Rim

Joe Pickle

This isn't one of those "now it can be told" stories, for the public had been told and was well aware of how critical was the water supply the-forepart of this summer. Perhaps this may be described as a refresher, for the fact that no rationing had been asked or imposed left many with the impression that the only problem with the water supply was taste.

THE OVER-POWERING problem was supply, but now that is all changed, thanks to an unprecedented amount of rainfall and runoff during August, a month noted for its dryness and heat.

A year before the situation deepened to a near-crisis, officials of the Colorado River Municipal Water District charted projections under assumptions which included no runoff, hardly dreaming that this is exactly what would happen.

STEADILY WATER levels shrank, faster and faster, for when you draw out of a tapered bowl, the same volume of water in the top inch may be equal to two or three inches in the bottom.

Adding to the problem was accelerated evaporation. Figures at the U.S. Experiment Station showed that for the period December through April the average evaporation was 21.49 inches. Owing to the drought, this same period this year was 31.50 inches, or nearly 50 per cent more than average.

So on May 30, Lake E. V. Spence was down to elevation 1807.50, dry for all practical purposes; Lake Thomas was down to 2206.42, six feet from bottom in the channel at the dam and contained 5,000 acre-feet. This would take care of Big Spring for perhaps the remainder of sum-

mer. Snyder could make it on wells with a little help from the lake.

THERE WAS never danger of running entirely out of water, but there was a real prospect of being critically short. District officials, committed to keep the cities supplied if humanly possible, cut off oil companies, whose purchases keep city rates from being prohibitively high. Then they pushed a crash program costing \$6 million to develop a 24-million-gallon daily supply from a new well field in Ward County. This would remove pressures on the west end of the system, namely Odessa and Midland. Conversely, relieved of the west-end volume, city and district wells as well as meagre lake supplies, could satisfy the bare needs of the east end.

BY NORMAL criteria, the district would have been down to the rationing lick log a year ago, but by literally stair-stepping water from the shrinking lake levels back to the main pump station, the district utilized 11½ billion gallons (two-thirds of a year's supply) which would have been irretrievable had bottom levels at the pump stations been accepted as the cut-off point.

The heroes of this piece could be those who did the planning and execution; the cities which accepted higher rates to finance the emergency well development program; and a kind Providence who suddenly turned a bare-bone 5,000 acre-feet into 155,000 acre-feet.

THE UNSUNG hero may be the people who good-naturedly put up with some bad quality water which was hard on the taste buds and the plumbing. So what, they said: "It's wet."

And now it's both wet and good.

# Problems In Utopia

E. Forrest Copeland

General unrest and discontent once again spread across the nation . . . in spite of the new constitution just passed by Congress on their return to session after summer vacation. Brought on by heavy pressure from special interests . . . both at home and abroad . . . Congress took heed of the prevailing mood . . . changed the name of this country . . . The Utopian States of America . . . wrote . . . passed . . . and ratified the new constitution . . . with due regard for their constituents . . . in that voters did not have to bother going to the polls.

TROUBLE FIRST cropped up in the Utopian State of Kansas. Seems some clod just couldn't let well enough alone . . . planted a whole garden of vegetables . . . when everybody knows . . . China was assigned the privilege of flying in fresh vegetables daily. Admittedly shipments have been a bit sporadic. Rumor has it the Chinese farmers have voiced opposition to accepting any more hulley-gulley tokens as payment. Hulley-gulley tokens still carry the full backing of 1/1000 gram of moon dust however . . . and pictures of our treasure are being sent via satellite . . . to reassure the Chinese. Then this chap in Philadelphia . . . got on the national T.V. . . complained for an hour . . . that this country no longer provided a scene for him to make. Seems he resented being retired . . . at age twenty-two . . . on a full government pension. Authorities promise to pursue a vigorous investigation . . . some time next year . . . to determine how this unauthorized tape was inserted into the computer scheduled programming.

IN REVIEWING some of the more important provisions of the new constitution . . . all the current discontent is a bit hard to swallow. First off . . . it provided for a two day work week . . . with a five day weekend. This seemed to be the consensus . . . as to the proper mix of fun and games . . . and coffee breaks. Naturally there are provisions . . . for sick leave and vacation . . . of sufficient length that no one need

work . . . if they're so inclined. MINIMUM HOUSING was also provided . . . twelve room . . . choice of split level or ranch style . . . with three car garage occupied by vehicles of the tenant's choice. Tennis courts and putting green . . . available on request . . . to be located beside the swimming pool and patio. Mortgages financed . . . and paid for . . . by the government.

All factories were naturally closed. Not only did they pollute the ecology . . . but it was felt we were incurring the displeasure of too many foreign nations . . . that they should be provided every opportunity . . . to supply us with our wants and needs.

AND THERE WAS more, but complete and comprehensive as it all was . . . there is one amendment. It was a rush job . . . and as such turned out to be the only negative statement in the entire act . . . Under the first amendment . . . dogs are no longer permitted to have fleas.

Although the administration is pressing hard to keep a lid on things . . . it looks like the heavy pressure from special interests . . . will once again prevail. Congress has agreed to meet . . . and consider some further changes.

SERIOUSLY NOW . . . an awful lot of people seem to be taking the new economic program as some kind of spectator sport . . . where they can root for the home team . . . cuss the referee . . . and jeer the other side . . . but don't have to play. Best take a look at the scoreboard. It says 21 to 0 . . . in favor of the visitors . . . and the fourth quarter is just starting.

(The foregoing is the opinion of the writer.)

## LSD Offenses

LONDON (AP)—A huge increase in the number of people convicted of offenses involving the hallucinatory drug LSD was reported in Britain in 1970 with 744 convictions, compared with 161 in 1969.

## 283,000 Jobs Available

John Cunniff

NEW YORK (AP) — Unemployment is not always a problem of too few jobs.

Sometimes it results from geographical imbalance, with the jobs in one place, the workers in another. Often it reflects a disproportion in the talent to job ratio, with employers seeking skilled help but not finding it.

Nowhere is it more obvious than in the health care field. While millions seek jobs and cannot find them, the American Hospital Association claims that 283,000 jobs are available right now in health care.

The problem is that the skills available hardly match the needs, a very common occurrence for which some critics blame as educational system that doesn't always prepare students for the realities of life. The importance of correcting this situation is made all the more important by the forecast of Dr. Edwin L. Crosby, AHA executive president, that the number of health care workers needed will nearly double to six million in 1980.

A few examples in the most highly skilled areas:

—The need for licensed practical nurses is forecast to reach 600,000 by 1980 compared with 370,000 today.

—The number of radiological technologists needed by the same year will be 120,000, compared with 75,000 now.

—To serve a population that is expected to grow by 29 million persons by 1980 about 50,000 more doctors will be needed in addition to 300,000 who serve the existing population.

One of the most challenging and rewarding of the careers, AHA says, is that of physician's assistant. The assistant does many of the more routine chores of a doctor, including physical examinations.

Training ranges from 15 months to 4 years beyond high school. The 15-month program includes three months at a university and one year under a doctor's supervision. Good opportunity for former medical corpsmen and nurses. Salaries begin at \$10,000, go as high as \$18,000.

Some others:

—Nursing. To become a registered nurse the individual must graduate either from a hospital school of nursing, a junior college program or a baccalaureate program. Salaries range from \$7,500 to as high as \$20,000 for supervisors.

Licensed practical nurses can learn their skills in high school or in a one-year junior college program. Income ranged from \$4,500 to around \$7,200 a year, with some receiving \$10,000.

Nurses also can specialize. The career of nurse anesthetists, which requires graduate training, can command a salary of \$18,000 a year.

—Cytotechnologists. Studies body cells for abnormalities, especially in cancer research and detection. Two years of college and a year of specialized schooling needed. Pay begins \$6,200, goes to \$10,500.

Dental assistant. Prepares patients for examinations, handles paper work. High school or equivalent required, plus a year or two of training, sometimes on the job. Salaries rise from \$4,500 to \$7,500.

# The Old Spy Story

Andrew Tully

WASHINGTON — The State Department, which often goes to inordinate lengths to suppress a good story, is frantically trying to persuade a Congressional investigating team to hush up a tale of high sexual jinks by U. S. diplomatic personnel in three Iron Curtain countries.

AS TOLD BY defectors who have been given asylum here, the story involves several American staff members, both male and female, who have been compromised by romantic adventures with Communist intelligence agents. In at least one case, it is claimed, the victim of a frameup was a secret operative for the Central Intelligence Agency who sought to employ his charms to wheedle information from a female government official.

Armed with names, dates and spicy detail, the Hill probers are prodding the State Department for information concerning the recall of six diplomatic staffers from Iron Curtain posts in the past two years. So far, Congressional sources say, State has declined even to discuss the cases.

THIS POSITION could prove to be a mistake. If State can come up with a good argument, a Congressional big wheel has offered assurances that information on the cases will be treated confidentially. "But after three

months of bugging those guys at Foggy Bottom, we still haven't gotten any cooperation," said one investigator. "We may have to publish a few names to get some action."

IN THE ONLY case made available in substantial detail, for example, a lower-level male diplomat fell for what is probably the oldest confidence game in the espionage dodge. He allegedly agreed to deliver a few documents of less-than-routine importance to a beautiful redhead when she threatened to commit suicide in his apartment.

Fortunately, the poor devil had second thoughts and told all to his superior before he could make delivery to his girl friend. He was recalled to Washington a few days later.

ALL THE CASES for which the investigators claim documentation involve the use of foreign nationals in the role of irresistible seducer.

Whether these gay dalliances will become a matter of public record apparently is now up to Secretary of State William Rogers. The probers' material has been bucked up to Rogers' office, and a source at State says the Secretary probably will decide within a few weeks how much cooperation the department can afford to give the Capitol Hill sleuths. (Distributed by McNaught Syndicate, Inc.)

# Who's On First?

Hal, Boyle

NEW YORK (AP) — Questions which never seem to meet with satisfactory answers:

Why can't you whip City Hall?

When will the millenium ever get here?

Why does a dropped cufflink always roll under a bed or heavy sofa instead of an easily moved chair?

Can you see anything besides free advice that is more blessed to give than to receive?

If everything that goes up has to come down, what keeps holding taxes and prices aloft?

Is the generation gap caused by the fact that we have given

our children so much latitude that all we have left to live by ourselves is longitude?

After Vietnam—what next?

Why is a man who has drunk excessively said to be three sheets to the wind—but never four or five sheets to the wind?

Was Diogenes really searching for an honest man? If so, what for?

Why is it that when you've been the life of the party the night before, you feel like walking death all the next day?

How many women cancel trips abroad because they can't stand to show their passport photos in public?

If charity begins at home, why do they seem to take up more collections in the office every year?

Who's on God's corner?

Who's on first?

If life begins at 40, what kind of a life?

Do psychiatrists talk to themselves more than other people?

Can a man better his environment before he betters himself?

Thinking back over the movies you've seen recently, can you name one that is better than "King Kong"?

If you had it all to do over again, wouldn't you at least want to do it with a better class of people?

Billy Graham

Isn't it true that most psychiatrists are humanists or atheists? Does this mean that in the therapy of minds, God is irrelevant? This disturbs me, that one of the newest sciences makes no room for faith in God.

I.F. I have not made a personal survey of all psychiatrists, but I believe you will find that many of them are professing Christians. I know many who are, and regularly refer their patients to the therapy of mind and soul found in Jesus Christ.

You probably have been reading about Sigmund Freud who insisted religion was not important, and believed (or at least claimed to) that spirituality was nothing but repressed sexuality. When he was challenged because of this view, and asked if he

believed the whole human race was hypocritical, he said: "Yes, I believe it is. It's just a curse of fate we cannot help."

But Freud has been discredited in many areas of psychiatry. Though most consider him the father of modern psychiatry, many practicing psychiatrists believe he erred in many of his concepts and procedures.

Karl Jung, the eminent Swiss psychiatrist, who improved on many of Freud's techniques, after a lifetime of careful study declared: "All I have learned has led me step by step to an unshakable conviction in the existence of God . . . I do not take His existence on belief alone. I know He exists."

It was Jung who first discovered that religious beliefs, or the lack of them, had great bearing on psychological health.

## A Devotion For Today . . .

I am the door. —John 10:9

PRAYER: O God, who hast set before us an open door that no man can shut, direct us to make the decision to turn from dead-end ways and take the road that leads to life through Jesus, Amen.

(From the 'Upper Room')

FIRST MOTORIZED FIRE ENGINE

Students Learn Area History

By STEVE HULTMAN
History comes alive to students in Big Spring when they visit the Heritage Museum.

Tuesday seventh grade Texas history students from Runnels Junior High School took a trip to the museum and saw the early ranch exhibit instead of going to class.

"We try to show the students what it was like in the early days of Howard County," said Mrs. C. W. Tanner, history teacher at Runnels.

"We have tried to increase the teaching materials, and have such things as tape recordings of Ed Fisher and Joe Pickle talking about the area history, film materials and the museum tour."

EARLY PHOTOS
"The museum lets the students see photographs of the early days of Howard County and look at some of the actual equipment used by the early settlers," said Bob Zellars, the other seventh grade teacher at Runnels.

Mrs. C. L. Atwell Sr., museum curator, talks about the early history of the area and shows pictures to the students.

"Our first settler was W. T. Roberts, who settled at Moss Springs. Then in 1882 the town of Big Spring was formed," she said.

FIRST COURTHOUSE
"In 1883 the first county courthouse was built out of white limestone on land donated by the railroad, which came here for the water in 1881. The only stipulation was that a door of the courthouse had to face the railroad."

As Mrs. Atwell spoke she showed pictures of the area and early events to the children, including the first motorized fire engine in Texas.

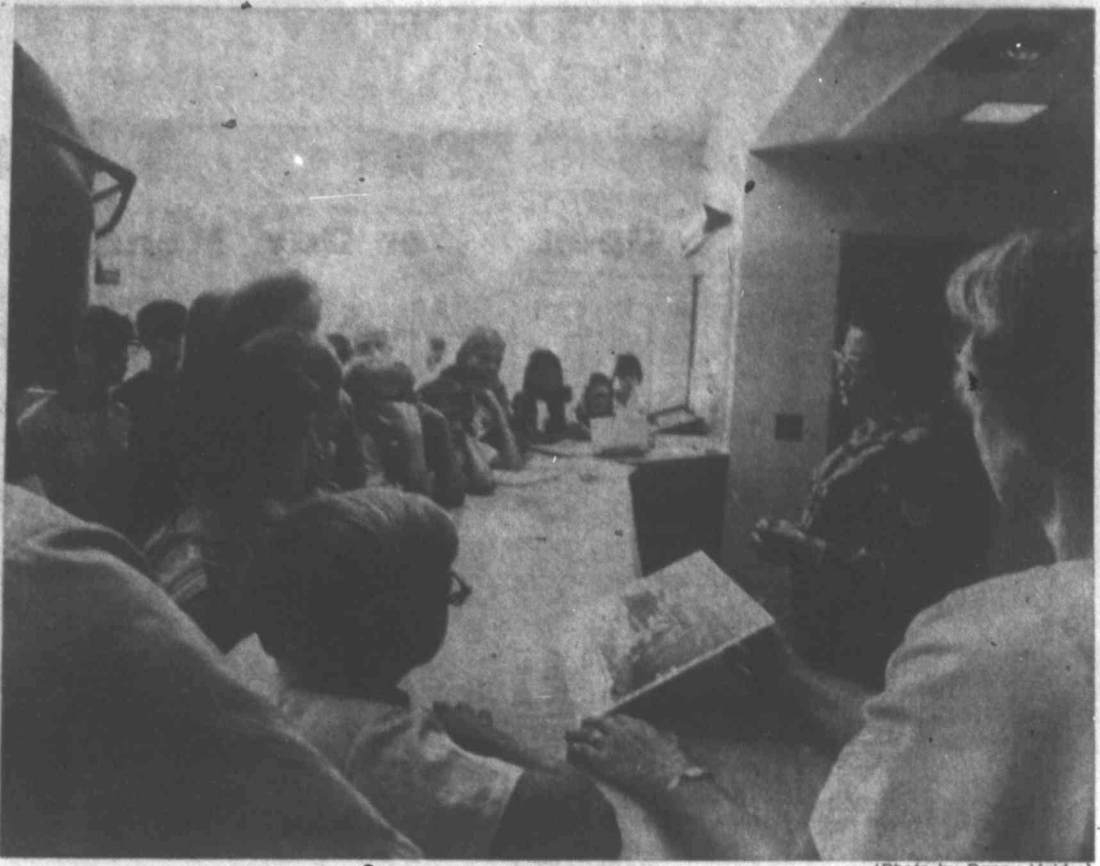

"Big Spring in 1809 had the only motorized fire engine in Texas," she said. "We beat even Dallas and Fort Worth."

A series of schools were built, starting in 1882. The first graduating class was of three students.

"The first YMCA was built in 1902 down by the railroad tracks," said Mrs. Atwell. "And it had the county's first library."

In 1906 John Birdwell built the Birdwell Hotel by the railroad tracks, but the hotel burned down in 1908.

1902 FLOOD
"Before it was gone, the hotel served as the temporary home of many of the people stranded

MUSEUM HELPS AREA HISTORY COME ALIVE

in Big Spring during the 1902 flood. At one time there were 38 trains stopped waiting for the waist deep water to recede," she said.

"Boats were used to take the passengers out of the train windows. It was three days before the water went down," she said.

After the lecture by Mrs. Atwell the students wandered around the museum, looking at more pictures and descriptions of the area, old saddles and guns, chairs, horseshoes and other equipment of the early days of Howard County.

BARBED WIRE
Of particular interest was a display of hundreds of types of barbed wire, the invention that brought an end to the great open range cattle herds.

"I like coming here," said Diane Davis, 12. "It's fun, you learn how people lived in the past."

Gala Teague, 12, agreed. "I like the museum. I have always enjoyed history, and the museum gives me an idea of how Big Spring started."

More than 275 students visited the museum Tuesday, and more will visit before the year is over.

PAINS
(Continued From Page 1)
Acri tell men at the city barns to come to him with their problems.

"I think the main thing involved in this issue is that of attitude. We all need to have a more cooperative attitude toward our work and working with others in the city," said Marshall.

"I feel that this is a personal attack by Grantham on me for the incident which I made public upon taking my place on the commission 16 months ago," said Acri, after the session.

An affidavit was prepared and presented in a commission meeting 16 months ago by Acri, stating that the sanitation supervisor was using a department truck, a city employee and city time to conduct his private business on a rent house.

Grantham said that at that time he had been on duty for 23 hours and was on the way back to the barn when he passed the house and took 10 minutes to repair a porch at the house.

No other commissioner would make a statement about the special meeting.

Killed Fighting
WASHINGTON (AP) — Army Sgt. Bobby F. Limerick from near Elkhart, Tex., has been killed fighting in Southeast Asia, the Defense Department reported Tuesday. He was the son of Mr. and Mrs. Gaylord H. Limerick, Rt. 2, Elkhart.

Smith's Pal Named Secretary Of State

AUSTIN (AP)—Gov. Preston Smith announced Wednesday the appointment of his legal aide, Robert Bullock, as secretary of state to succeed Martin Dies Jr.

The disclosure came while the governor was in Mexico City.

Bullock is a graduate of Hillsboro High School and Hillsboro Junior College. He received his BA degree in management and economics from Texas Tech in Lubbock in 1955, and graduated in the top five per cent of his class at Baylor University Law School in 1958.

Bullock is a graduate of Hillsboro High School and Hillsboro Junior College. He received his BA degree in management and economics from Texas Tech in Lubbock in 1955, and graduated in the top five per cent of his class at Baylor University Law School in 1958.

He was a member of the Texas House for two terms from 1956 to 1959. Bullock was on the Revenue and Taxation, Oil and Gas, Game and Fish, Labor, Constitutional Amendments and Highways and Roads committees.

Bullock was partner in a Hillsboro law firm from September, 1958, to August, 1959, when he resigned to take partnership in the law firm of Tunnell, Bullock & Jeffus in Tyler.

Bullock was general counsel of the Texas Automobile Dealers Association from June, 1961, to January, 1963, when he returned to the private practice in Austin.

He was in private practice until July, 1967, when he was named division chief, anti-trust and consumer protection division in the office of the attorney general of Texas. He resigned in February, 1968, to work in Smith's first campaign for governor. Bullock has been legal counsel to the governor since Smith was inaugurated.

Ballard-Davis Trial Scheduled Sept. 20

Sept. 20 has been set as the trial date for Whitmer Jean Ballard, 45, and Orville Davis, 51, according to 118th District Judge R. W. Caton. Ballard and Davis are charged in connection with the Dec. 2, 1970, shotgun murder of Glasscock County rancher Steve Currie, 71.

Trial will be held in 142nd District Court, Midland. Judge Caton will preside in the case and not be replaced by 142nd District Judge Perry Pickett. The trial was ordered held in Midland on the case's second change of venue from Glasscock County.

Judge Caton ordered the trial held in Ballinger, Runnels County, when attempts in June to select a jury in Glasscock County failed. At that time, Judge Caton overruled a request from

Bobby Bearden, Midland, defense attorney, that Midland be the site of the trial.

Bearden had earlier objected to Garden City, Big Spring, Midland, Odessa and San Angelo as sites for the trial because of publicity given the murder case in those areas. In his request for the Midland site, he retracted his earlier objections.

Prosecution attorneys, 118th District Attorney Wayne Burns and Gil Jones, local attorney, later said that they had no objections to the Midland site, and the change of venue to Midland was formally arranged in a hearing in Garden City Aug. 20.

Ballard and Davis have been transferred to Midland County jail to await trial.

\$140,000 FOR TICKETS Flying Grandmother Dies In Amsterdam

AMSTERDAM (AP) — Sarah Krasnoff, the 74-year-old Cleveland, Ohio, woman who flew back and forth across the Atlantic nearly every day this summer with her 14-year-old grandson, died today, her son-in-law reported. She died at the hotel where she had been ordered to rest after suffering a slight heart attack Tuesday.

"I have just been informed by the manager of this hotel that grandmother passed away in her sleep at 1 a. m. today,"

said Leonard Gelfand from Cleveland.

THAT'S ALL
"That is really, all I have to say right now, until I have seen my son."

Gelfand arrived early today from Cleveland to take Mrs. Krasnoff and his son Howard, 14, back to Ohio.

The elder Gelfand had been trying to locate his son and Mrs. Krasnoff since early July, his attorney, Gerald B. Chatman, said in Cleveland.

DEATHS

Grover Kirk, Funeral Pends
Grover Kirk, 45, died in his home Tuesday evening. Justice of the Peace Jess Slaughter ruled death due to natural causes.

Funeral is pending at Nalley-Pickle Funeral Home.

Mr. Kirk was born Aug. 11, 1926, in Corsicana. He married DeLois Sherfy June 1, 1962, in Odessa. They moved to Big Spring in 1968. He worked for the Odessa police department before coming to Big Spring.

He was a member of Goldsmith-Lodge No. 1276 A. F. & A. M., the El Paso Consistory Scottish Rite Masons, American

Legion Post No. 355 and the East Fourth Baptist Church. He served in the Navy during World War II.

Survivors include his wife; four daughters, Mrs. Betty Jones-Cullough, Odessa, Mrs. Bertha Bradley, Dallas, Dorothy Kirk, Big Spring, and Mrs. Judy Sheppard, Albuquerque; one stepson, Ronald Sherfy, Texas City; three stepgrandchildren; his mother, Mrs. Jewel Kirk, Big Spring; one sister, Mrs. Mary Gentry, Odessa; and three nephews.

Funeral will be at 3 p. m. Friday in the Nalley-Pickle Rosewood Chapel for Harold L. Bell, 47, who died early Tuesday at his home. Justice of the Peace Jess Slaughter ruled death due to natural causes.

Officiating will be Chaplain Clayton Hicks, Veterans Administration Hospital, with burial in Trinity Memorial Park.

Mr. Bell was born May 21, 1924, in Coleman, and had lived since 1951 in Big Spring where he operated Bell's TV & Radio Sales & Service.

Survivors include his wife; one son, one daughter, one brother, his mother and stepfather.

WEATHER

NORTHWEST TEXAS: Clear to partly cloudy tonight and Thursday. Little warmer afterwards. Low 46 to 70. High 92 to 96.

SOUTHWEST TEXAS: Partly cloudy and warm tonight and Thursday. High 88 to 98. Low 45 to 75.

WEST OF THE Pecos: Partly cloudy and warm tonight and Thursday. High 85 to 100. Low 55 to 70.

Dallas Transit Execs March To Stand Today

DALLAS (AP) — Dallas Transit officials were to march to the witness stand today to explain why they refused school district pleas for help in a court-ordered school busing crisis.

U.S. Dist. Court Judge William Taylor, in a hearing Tuesday requested by Dallas District officials, asked why the district had stalled for 21 days before it began trying to find buses needed to implement its own desegregation plan.

Supt. Nolan Estes said he assumed the necessary buses would be provided by the city transit system but found his pleas for help rebuffed.

The district had asked for the hearing in an effort to stave off the busing order, primarily because of a lack of buses and the funds needed to purchase them.

Taylor granted a motion by the city to intervene in the case which, presumably, opens the door for a court order directing the transit system to provide whatever buses the school district needs to implement the desegregation plan.

When the district found it was short the extra buses to transport about 7,000 pupils to schools across Dallas, school officials

turned to the transit system for help. Transit officials said they could not provide buses for desegregation and still maintain regular neighborhood school bus routes.

Estes said his staff had exhausted every possibility for securing the needed buses.

"We wouldn't want to be a party to increasing the hazards of bus transportation," he said in explaining why he had rejected the use of church buses and those offered by private bus companies.

Estes had said they did not measure up to safety standards.

"The school board said when it filed this plan it could implement it. Where did you think you would get the buses then?" Taylor asked.

Estes said although his letter to the DTS requesting buses was dated Aug. 25, he had spoken with transit officials immediately after the Aug. 2 court order. This came by way of explaining the apparent delay in seeking buses.

Judge Taylor was expected to rule today on the district's motion that the busing order be stayed.

Additional safety equipment will be required instead of the single tail light required presently. A white light for the license plate may be used in combination with one of the tail lights.

Trailers more than 80 inches in height must be equipped with two amber reflectors in front, one reflector mounted at the top on each side of the trailer.

After Jan. 1, two stop lights will be needed on farm trailers.

Electric turn signals will be required on all vehicles and trailers after Jan. 1.

Farm trailers with gross weight exceeding 30,000 pounds and towed at speeds in excess of 30 miles per hour must be equipped with brakes. Farm trailers under the gross weight maximum will not be required to have brakes.

Cotton trailers will be required to have brakes if the gross weight exceeds 10,000 pounds and exceeds a speed of 30 miles per hour.

Farm trailers may be exempted from the brake requirements if they meet some or all of the exemptions for vehicle registration.

**WATER POLLUTED BY TWO DUMMIES**

CHICAGO (AP) — Two canoeists who said they threw two dummies bloodied by red dye into the Chicago River to protest West Pakistan's treatment of the East Bengalis, were arrested for polluting the water.

The Rev. Bill Hogan, 27, and Richard C. Murray, 30, both of Chicago and both members of the Chicago Friends of East Bengal, were demonstrating against a lease between World Airways Inc. whose offices overlook the river, and Pakistan International Airlines.

The men, dressed in hooded black robes, contend the lease allows the transportation of troops and supplies to and from east Bengal.

**JOB HUNTERS IN FORT WORTH**

WASHINGTON (AP) — Eight areas have been added to the Labor Department's list of major labor areas with an unemployment rate of 6 per cent or more.

They are Boston; Philadelphia; Fort Worth, Tex.; Dayton, Ohio; Shreveport, La.; Charleston, S.C.; Hazelton-Wilkes-Barre, Pa.; and the Davenport-Rock Island-Moline area of Illinois and Iowa.

**TRASH COVERING \$1,000 CASH**

SAN BERNARDINO, Calif. (AP) — Three hundred tons of rubbish and dirt covering \$1,000 cash in a box translates to zero.

That's what searchers told Grace James when they ended an unsuccessful two-day treasure hunt for a money-filled stationery box the 80-year-old woman accidentally discarded. The box wound up in the county dump.

Mrs. James said she had withdrawn the money from the bank for moving expenses and temporarily stored it in a box.

"It's worse than hunting for a needle in a haystack," said Supt. Raymond Powers of the San Bernardino refuse department.

**MILLS MAULS NIXON**

**Roberts Cut From Same Cloth As Sam Rayburn**

TYLER, Tex. (AP) — Arkansas Democratic Rep. Wilbur Mills used a barbecue honoring Texas Rep. Ray Roberts Tuesday night as a stage from which to take verbal pot shots at President Nixon.

Mills said Roberts was "cut from the same cloth as the late House Speaker Sam Rayburn" then opened both barrels on the President's revenue-sharing plan.

Mills called the plan the "most dangerous to come on the political scene since I have been in Congress."

Speaking about Nixon, Mills said, "I admire the courage of any man who will admit a mistake in attempts to get back on the right track."

"I'm not minimizing the need for getting out of Southeast Asia or anything else, but we are eating up that which has made us what we are," he said.

**TAX CREDIT**

Mills said earlier at a news conference that something akin to the old Office of Price Administration will supervise prices and wages after expiration of the current 90-day wage-price freeze.

Mills said that if he had been Nixon, he would have included interest rates in the freeze order but would not have asked for an excess profits tax at this time.

Nixon's order did not include interest rates nor an excess profits tax. The President did

say he would ask Congress to approve a 10 per cent investment tax credit.

"You do not need a 10 per cent investment tax credit for purposes of stimulating business purchases of capital assets and turn around and put an excess profits tax on business to dampen the business side of the economy," Mills said. "The two things are not consistent."

He said he is not opposed to an excess profits tax but thinks it a mistake to impose it now "because the business sector of our economy is the sector that is feeling the greatest drag."

"The excess profits tax is a deflationary device," Mills said. "The investment tax credit is an inflationary device. Which do you need?"

**MAKE A CHOICE**

"The whole argument is that you need acceleration or inflation of business. You can't have both inflation and deflation of the business sector at the same time. We've got to make a choice."

"I do think there is an element perhaps of demagoguery, in the approach that some take in insisting on the imposition of an excess profits tax right now. Maybe at the end of three months it will be necessary. I don't know."

Roberts was asked how he would rank the Texas Legislature on its restricting of congressional seats by which Fanjin County was removed from his district.

**Innocent Of Bombing Raps, Guilty Of Owning Weapons**

TYLER, Tex. (AP) — Fred Lloyd Hayes was free on bond today after being found guilty of illegal possession of and failure to register prohibited weapons.

A U. S. District Court jury found him innocent of bombing a vacant house owned by a Longview Negro woman.

U. S. District Judge William Justice did not set a date for sentencing Hayes. He could receive up to 10 years in prison and/or a \$10,000 fine.

He was found guilty Tuesday night, specifically of possession of a homemade mortar, a pipe bomb, a machine gun and a homemade muzzle-loading cannon.

Hayes also is faced with an 11-year prison term for bombing school buses at Longview July 4, 1970. That conviction is on appeal.

The Longview caterer delivered a one-hour summary to the jury and asked for justice.

He began defending himself midway through the trial, all the while maintaining he did not have sufficient legal counsel at the bus bombing trial last year.

He told the jurors that "I am not a well-educated man and to assume my own defense could have been a great fallacy."

His "desire for justice" and "necessity" required him to go ahead with presenting his defense, he said.

Appearing confident, Hayes took each of the seven charges against him and attempted to raise questions of reasonable doubt.

He was charged with setting an explosive device June 25, 1970, in a house bought by Mrs. Magnolia Jackson, a Negro.

Hayes also was charged with failing to register and possession of illegal weapons.

In reference to a machine gun which the government had introduced, Hayes questioned why there had been no fingerprint tests introduced if he had been the last person to handle it, as the prosecution alleged.

Holding up an "American Right" book containing a section about guerilla warfare, Hayes asked, "When in our country is it wrong to write or compile something?"

He asked the jurors to consider his position he was in by defending himself and the difficulties he had in raising questions of reasonable doubt.

Government prosecutors presented each of the weapons that had been in Hayes possession and repeated their charge that Hayes had bombed the house in Longview.

Hayes, a catering service owner, and Kenneth Ray McMaster, also of Longview, are under conviction on charges of bombing 36 Longview school buses. That case is on appeal.

**Loot Believed In Oklahoma**

Two deputies from the Howard County Sheriff's office were dispatched to Hollis, Okla., this morning to retrieve articles believed stolen in a series of recent rural burglaries, according to Sheriff A. N. Standard.

A man suspected of at least three rural burglaries in Howard County is in custody in Martin County charged with burglaries there. He is also believed to have been connected with burglaries in Glasscock and Midland counties, according to Sheriff Standard.

"We have not filed charges against the suspect, but charges are pending following completion of the investigation," said Sheriff Standard. Deputies Robert Puente and Sam Roberts are making the trip to Oklahoma.

DR. ROBERT HOBBS

**Local Man Art Chairman For College**

CLARION, Pa. — Dr. Robert D. Hobbs, son of Mrs. Rosa Hobbs, 1103B Runnels, has been named chairman of the Clarion State College Department of Art, according to Dr. James Gemmill, college president.

Dr. Hobbs has previously been the associate professor of art at West Texas State University since 1968. He received his B. S. degree at West Texas State, his M. A. degree at Colorado State College and his D. Ed. degree at Pennsylvania State University.

A native of Big Spring, he was educated in the public schools from 1954-58.

Dr. Hobbs also has held positions as geophysical draftsman for the Standard Oil Company of Texas and as Civil Engineering draftsman for the city of Big Spring.

He is a member of the National Art Education Association, the Western Art Association, the Texas Art Teacher's Association, the Texas Association of Schools of Art, and the Texas Association of College Teachers.

His father was the late R. B. Hobbs, of Big Spring. He is married to Sandra Peckham, of Borger.

**ROTC Officers**

ABILENE — Hardin-Simmons University's Reserve Officers' Training Corps has announced the cadet leadership positions for the fall semester. The new battalion commander is Cadet Col. Nathanael M. Haas, a four-year ROTC student from Seattle, Wash. Tony Arriolo, Big Spring, will be first sergeant in B company. He is a junior.

8-A Big Spring (Texas) Herald, Wed., Sept. 3, 1971

**School Aid Bill Blooms**

WASHINGTON (AP) — A Supreme Court, held that use of California court decision striking down the state's system of financing its public schools has generated new steam behind a push for increased federal aid to education.

"The prospects for a general school aid bill never looked better," Rep. Roman C. Pucinski, D-Ill., chairman of the House general education subcommittee said Tuesday.

Pucinski is sponsor of one of three general aid bills now before the full Education and Labor Committee. He said he will hold hearings on them as soon as possible after Congress returns from its summer recess Sept. 8.

The California ruling, which is subject to appeal to the U.S. Supreme Court, held that use of local property taxes to finance public schools is unconstitutional because it provides more money for rich children than for poor.

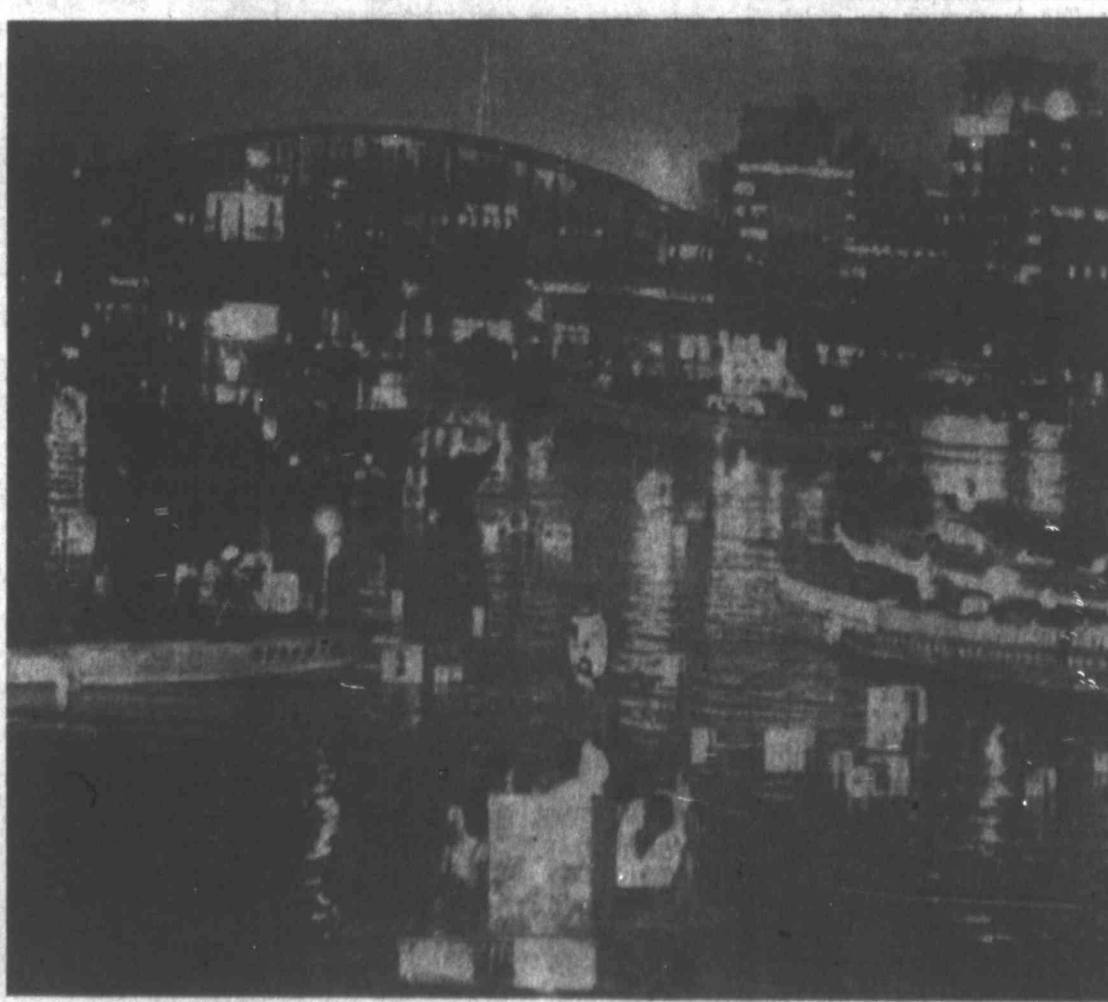

Every state but Hawaii, which has a fully state-funded system, relies heavily on the local property tax to raise school funds. Thus the California court decision, if upheld, could revolutionize the financing of education.

The most likely alternative to the present system would be for the states to assume the major responsibility for providing school funds, in which case they undoubtedly would look to the federal government for help.

WORSHIPING THE GOD OF WATER — Boats maneuver among floating lanterns on Tokyo's Sumida River, part of a traditional River Festival in honor of the god of water. The festival was suspended five years ago by city authorities who claimed the river was being polluted by the debris of the lanterns, but was revived this year. All 500 lanterns were recovered from the water after the festival ended.

# Reception Will Mark Golden Anniversary

Mr. and Mrs. G. (Eddie) Criswell, 3414 Bristol Drive, Arlington, Texas, will celebrate their 50th wedding anniversary with a reception from 2 to 5 p.m., Sunday at the home of Mr. and Mrs. Homer C. Criswell, 2608 Black Oak Lane, Arlington. Their daughter and daughters-in-law will host the event.

Mrs. Criswell is the former Ara Miller who was married to Criswell Sept. 4, 1921 in her father's home near Ackerly. The couple moved to Mt. Olive to teach school, and Mrs. Criswell later taught at Ackerly and Knott.

In 1926 they moved to Ackerly where Criswell was the rural mail carrier for Rt. 1 for 38 years. After retiring to Lamesa in 1960 they moved to Arlington in 1965. Their five children are Mrs. Doris Titsworth, Austin; Marion Edward Criswell and Harold W. Criswell, both of Dallas; Homer C. Criswell, Arlington; and Forrest E. Criswell, Houston. There are 14 grandchildren.

The couple have been active community and church workers wherever they have lived. They helped organize the First Methodist Church in Ackerly where Mrs. Criswell supplied the music for many years, and her husband held every office in the church from custodian to district lay leader. Criswell also helped organize the first Boy Scout troop in Ackerly, serving as Scoutmaster, and was a charter member of the

MR. AND MRS. G. E. CRISWELL

Lions Club. Since moving to Arlington, the Criswells have been active members of the First Methodist Church, the World War I Veterans Post 2025 and the

American Association of Retired People. Mr. Criswell is a member of the Arlington Masonic Lodge.

## Mrs. Dan Allen Is Honored At Party

Mrs. Dan Allen was honored with a baby shower Saturday morning in the home of Mrs. Clyde Johnston, 2811 Rannels, with Mrs. John B. Knox as co-hostess.

Mrs. Allen, the former Miss Nancy Thomas, was presented a corsage of pink rosebuds. She was accompanied by her mother, Mrs. Clyde Thomas.

The 25 guests were served refreshments from a polished table appointed with a brass coffee service. The centerpiece was an arrangement of roses, petunias and dahlias.

## 'ROUND TOWN

BY LUCILLE PICKLE

If you are up and out early enough these mornings you will have noticed a definite change in the sun rising . . . some of the laborers are on their way before the old sun ball gets up. It's getting nearer that day in October when we no longer need to save the daylight.

From what I gathered listening to recent vacationers the main attraction for most visitors to the cities were the fabulous new shopping centers and their interesting ways of bringing in the lookers. Having been among the many who chose the last of the summer for taking off, we enjoyed browsing through several in Houston, one of which was far different from the ordinary. This is Westbury Square which is a giant of a complex that houses shops that sell just about everything one could imagine.

There are shops for those who are looking for basket work and anything needed in that line; one shop has kitchen gadgets enough to make supremely happy a cook that needs very unusual equipment. There is a Chinese store that sells everything Chinese from fortune cookies to elaborate inlaid-pearl decorated chests of teakwood as well as beautiful hand-decorated screens that sell for several thousands of dollars. Some storekeepers cater to the Mod crowd and have nothing that wouldn't attract one of the number. The young men who like the bright new shirts, ties and slacks are not left out and the young women can find what they are seeking in the way of the latest for them. In fact, about the only ones that the shops aren't aiming for are the middleaged and older. But, those of us who could, managed to hobble about and see what the young folks like.

MR. and MRS. RAY McMAHEN have returned from Wichita, Kan., where they have spent a week with their son and his family, CAPT. and MRS. JERRY RAY McMAHEN and Melissa.

Had an interesting chat with MRS. BOONE POWELL who was over from Abilene with her family. She told us of her sister's new venture in the world of art. MRS. PAT (JANET HOGAN) LARKIN who lives in Ann Arbor, Mich., makes jewelry and had a very successful June by making personalized wedding bands. . . .

Back here for a short visit are MR. and MRS. R. E. BLOUNT who live in New Braunfels. They will be at the home of the A. W. MOODYS until Thursday when they will go to Amarillo to visit MRS. LESS WHITAKER and other

## Miss Cox Honored At Shower

Miss Nita Cox was honored with a bridal shower Friday evening at the First Federal Community Room. She is bride-elect of Gary O'Dell, and the couple plans a Sept. 17 wedding at the Carl Street Church of Christ.

Hostesses were Mrs. Charles Buckner, Mrs. Steve Crane, Mrs. Al James, Mrs. Victor Jackson, Mrs. A. R. Jones, Mrs. Muri Williams, Mrs. Jeryl Dunn, Mrs. C. L. Kirkland and Miss Beverly Hooser.

Attired in a red and white A-line knit dress, the honoree was presented a white carnation corsage, as was her mother, Mrs. Jack Cox, and the prospective bridegroom's mother, Mrs. Cecil O'Dell.

The honoree's chosen wedding colors of blue and white were used in decorations. The refreshment table was covered blue. White candles in a blue blue. White candles in a blue candelabrum centered the table and were flanked by two-blue miniature lovebirds and a miniature cupid.

## Board To Meet

The Howard County Chapter of the American Cancer Society will hold a board meeting at 12 noon Thursday in the Downtown Tea Room.

# Budget, Activities Are Aired By Westside Center Board

The Westside Community Center board of directors focused its attention on activity programs at the center during a meeting Monday with Peter A. Stone presiding.

The proposed budget of \$4,542.20 was discussed, and it was emphasized that only \$1,800 of the amount would come from the United Fund. Immediate equipment needs were listed as a record player, records appealing to teenagers and dominoes for the men's program which is being started. Persons who have such articles which they would donate are asked to call Mrs. Teresa Bauch at the center, 267-6680.

It was announced that Paul Perez will be the center's worker this fall from the Neighborhood Youth Corp. Rev. Caleb Hildebrand, building committee chairman, reported that the tentative date for receiving a donated building from Webb AFB is Nov. 1.

The schedule of fall programs, which begin the second week in September, include sewing class for women at 7:30 p.m. each Monday and an arts and crafts class for girls aged 9 to 12, will be held from 4 to 5 p.m. on Mondays and Wednesdays. The arts and crafts for boys aged 9 to 12 will be held Tuesdays from 4 to 5 p.m.

On the first Wednesday of the month, at 7:30 p.m. will be the Calorie Counters program for women. Two events are slated on

Thursdays. From 4 to 5 p.m. will be the children's choir for boys and girls aged 9 years through the eighth grade, and from 5:30 to 6:30 p.m., there will be piano lessons for both boys and girls.

Every Friday, girls aged 13 through 16 will meet from 4:30 to 5:30 for the Teen Social Club. The men's domino games will be held at 7:30 p.m. one Friday each month, and every Saturday from 2 to 3 p.m., bingo games will be offered for school-age boys and girls.

Sunday from 9:45 to 11 a.m. is reserved for non-denominational Sunday school classes for boys and girls.

Volunteer workers are still needed for some of the

programs. The women's sewing class needs leadership as does the Calorie Counters Club and the men's domino night. Persons wishing to help with these events are asked to call Mrs. Don Wiley, 267-7955.

Six new directors were elected, these being Stone, chairman; Mrs. Ben A. Boadie, vice chairman; Mrs. M. B. McPaul, secretary; and Mrs. Herbie Smith, secretary. Committees will be announced at the next meeting, Oct. 4.

## Alpha Beta Omicrons Begin Fall Programs

Three new residents of Big Spring who were Beta Sigma Phi members in other cities, were guests at the "Beginning Day" of Alpha Beta Omicron Chapter of Coahoma, BSP, Sunday in the home of Mrs. Roe Fulgham, Sand Springs.

The guests were Mrs. S. S. Simpson, Okinawa; Mrs. Cliff Riley, Kermit; and Mrs. Fred Burgess, Riverside, Calif. A green linen cloth trimmed with white lace covered the refreshment table which was centered with wicker baskets

filled with orange pyracantha berries. Crystal and silver appointments were used to serve home-made ice cream.

Mrs. Fulgham announced that the study theme for the year is "Beauty". Members received new yearbooks and program books. Two members who had been on leave of absence from the chapter returned to active status. They are Mrs. Mike Dow and Mrs. Clarence Hays. The next meeting is at 7:30 p.m. Sept. 14 in the home of Mrs. Jack Parrott, 605 George.

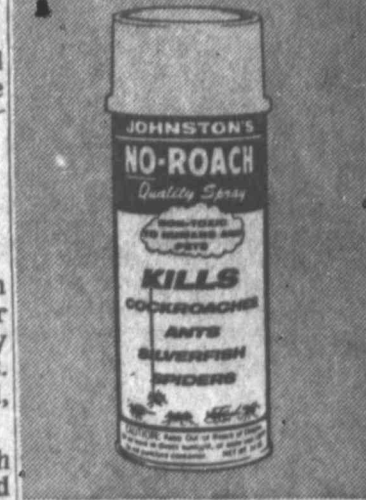

## Dinner Meeting Held By Lodge

The Big Spring Rebekah Lodge No. 284 met for a dinner and business session Tuesday evening at the IOOF Hall. Mrs. A. R. Cadzow, noble grand, presided.

The table was covered with a white lace cloth and centered with an arrangement of pink carnations. Hostesses were Earl Hughes, Mrs. Morris C. Patterson and Mrs. Beulah Morrison.

Hostesses for September will be Mrs. E. V. Cockerham, Mrs. Melvin Newton, Mrs. Mary Brown and Mrs. Ruby Simpson.

# Joe Torre Unloads; Cards Win Another

By The Associated Press  
Joe Torre has bunted once this season and the way he's swinging the bat once is enough. Torre's St. Louis Cardinals were locked in a 1-1 tie with the

New York Mets Tuesday night—Torre singled home a first-inning run and took over the major league RBI lead from Pittsburgh's Willie Stargell 113-112—when Matty Alou opened the ninth inning with a

bunt single off reliever Danny Frisella. That brought up Torre.

"I was looking for the bunt sign," said the slugging third baseman. "I really was. I looked down at third base coach Vern Benson for a long time but he didn't give it to me. I got the fork ball three times and I happened to hit the last one up the middle."

### SIMMONS HELPS

Actually, it was a line drive to center field, sending Alou to third, from where he scored the winning run in a 2-1 victory when Ted Simmons laced an 0-2 pitch from Tug McGraw to left.

That kept the Cards five games behind Pittsburgh, which rallied from a five-run deficit to beat Philadelphia 7-5.

Elsewhere in the National League, the Chicago Cubs edged Montreal 7-6 in 10 innings in the first game of a doubleheader. The nightcap was suspended with the Expos leading 8-1 after six innings and will be completed today. San Francisco trounced Atlanta 9-0, Los Angeles whipped Houston 6-1 and Cincinnati nipped San Diego 2-1.

In the American League, Boston shaded Baltimore 4-3, Detroit downed Cleveland 6-1 but the Indians came back to take the nightcap 6-3, Washington squeezed past the New York Yankees 6-5, Oakland defeated California 4-1, Kansas City beat Milwaukee 6-4 and Minnesota turned back the Chicago White Sox 4-3 in 10 innings.

Torre credited the St. Louis Astro turf and the fact that Simmons bats behind him for the fact that he leads the NL in batting average and hits as well as RBIs.

The ex-catcher also made a fine play on Don Clendenon's slow hopper to end the Mets' ninth with two runners aboard, grabbing it on the short hop and firing to first.

Jerry Reuss went the route for the Cards, striking out 10, New York's Nolan Ryan fanned 12 in six innings.

### BUCS FIGHT BACK

Deron Johnson and Oscar Gamble drove in two runs apiece as the Phillies piled up a 5-0 bulge over the Pirates. But Rennie Stennett smacked a two-run single in the fifth, Milt May drove in a run in the sixth and Pittsburgh rallied for four in the seventh to win it.

Gene Clines' two-run pinch double tied the score and Manny Sanguillen stroked a bases-loaded single for the final two runs.

Don Kessinger's fifth hit of the game, a bases-loaded single in the 10th inning, gave the Cubs their opening game triumph over the Expos. Brock Davis' RBI single in the seventh tied the score.

Chicago's Ken Holtzman was breezing along on a one-hitter in the nightcap when the Expos exploded for eight runs in the sixth inning before darkness forced the carryover.

The Expos loaded the bases and Ron Woods' double and Ron Hunt's triple produced four runs, Bob Bailey singled a run home, Boots Day delivered a two-run single and John Boccabella, who started it all with a single, singled Day across. Ken Henderson's three-run homer and two-run singles by Dave Kingman and Chris Speier backed Gaylord Perry's seven-hit hurling as the Giants crushed the Braves and remained eight games in front of Los Angeles in the NL West.

Wes Parker socked a two-run homer as the Dodgers scored three times in the first inning and trounced the Astros behind rookie Doyle Alexander's nine-hit pitching. Alexander also scored the last two Dodgers runs on hits by Willie Davis and Bill Russell.

## Motocross Slated At 2 p.m. Sunday

The Hi-Noon Optimist Club will kick off its fall motocross schedule at its track northeast of the city at 2 p.m., Sunday.

Plans now are for the races to be run the first Sunday in each month through December. Admission prices for Sunday's action will be \$1.50. Children under 12 will be admitted free, however.

Six Big Spring riders took part in a two-hour Enduro race at Odessa Sunday, with good results.

Craig Hodnett of Big Spring finished first in minibike

(AP WIREPHOTO)

## NO LONGER AN 'UNTOUCHABLE'

Smiling Carl Yastrzemski, talking to sports writers, before Boston-Baltimore game and before Red Sox owner Tom Yawkey issued a statement saying "it would take one hell of a deal" to get Carl Yastrzemski in a trade. Yastrzemski has been considered an "untouchable" on the Red Sox throughout most of his 11-year career, especially after leading them to the pennant in 1967, winning his third American League batting championship in 1968, then hitting 40 homers in 1969 and again in 1970. He has slumped badly this year.

## Mitchell Lakes Yielding Fish

Recent rains apparently have improved fishing conditions at the Mitchell County lakes.

Among Big Spring residents who reported catches at Lake Colorado City last week were E. S. Morgan, who reeled in 27 channel cat while trying his luck off the Fish-A-Rama; and L. E. Smith, who caught 15 channel cat fishing nearby.

One of the largest catches reported was by Mr. and Mrs. J. A. Honea of Sundown, who harvested 118 channel cat on the Fish-A-Rama. Don Standley, Odessa, reported 75 channel cat catches at that spot.

Mr. and Mrs. L. R. Shaw, Colorado City, reeled in 185 channel cat at the Fish-A-Rama. Blue gill and black bass seemed to be striking lines better at Lake Champion.

One of the largest fish caught was by a Stanton party which included Irene Rice. It reported catching a 21-pound yellow catfish, along with a 2 1/2-pound channel cat and an eighteen-pound yellow cat with a trot line.

# Cowboy Potential Is Great, Says Landry

DALLAS, Tex. (AP) — Coach Tom Landry of the National Conference champion Dallas Cowboys is living by the theory that you can't win the Super Bowl unless you have a pass offense.

Dallas won seven consecutive games and barely lost 16-13 to Baltimore in the Super Bowl in 1970 with all their apples in the basket of a sore-armed quarterback, Craig Morton.

It was simple how the Cowboys got as far as they did: Defense and Duane Thomas, now no longer in the Dallas picture.

In the off-season, Dallas grabbed Lance Alworth from San Diego, one of the most productive receivers in professional football history, and clutch-catching tight end Billy Truax and fleet Wendell Tucker from Los Angeles. Throw in Bullet Bob Hayes and another top tight end, Mike Ditka, and

you have a good set of receivers.

### DECISION DELAYED

Morton and Roger Staubach are battling for the starting job. Staubach is much improved this season and Morton's arm appears healed. At the end of the preseason games the No. 1 man is expected to be named.

"The potential has to be great," says Landry. "The chance for the easy touchdown is there again."

Dallas all but abandoned its big play offense in 1970, sticking overland behind the thrusts of fullback Walt Garrison and Thomas, whose off-season feud with the Cowboys made headlines across the country. Now Landry says, "Our whole offense has to rejell. It's completely different now with the new personnel. We've got to

adjust to the strengths of our people."

The forgotten man of 1970—running back Calvin Hill who is now up to a hefty 235 pounds—could also be a rejuvenated spark to the offense.

The offensive line—tackles Rayfield Wright and Ralph Neely and guards John Niland and Blaine Nye—and center Dave Manders returns intact.

All 11 starters are back from a defense Landry called in 1970 the "best we've ever had."

Actually, only one job is open on defense—free safety where two tremendous athletes, Charlie Waters and Cliff Harris, are battling. The other 10 defenders include ends George Andrie and Larry Cole; tackles Bob Lilly and Jethro Pugh; linebackers Chuck Howley Lee Roy Jordan, and Dave Edwards; cornerbacks Mel Renfro and Herb Adderley, and strong safety Cornell Green.

As far as the quarterback battle is concerned, Landry says he will come to a judgment probably after the final pre-season game Sept. 11 against the Kansas City Chiefs.

The Cowboys face a tough division fight against St. Louis, Washington and the New York Giants in the NFC East, and Landry says it won't be easy to go to the Super Bowl again.

"You can't live in the past or on potential," he says. "You have to live out there this season."

## Forrest Gregg Will Try Again With Dallas Club

DALLAS (AP) — After an incredible 15-year career with the Green Bay Packers, tackle and coach Forrest Gregg retired from professional football determined to stay physically fit.

"I didn't want to get fat," he said. "It's not healthy and it's not comfortable."

Gregg, a former Southern Methodist University player, began running three miles a day three times a week last April at a suburban Dallas high school track.

Monday the Packers discovered that the 37-year-old retiree was still on their active list, and placed him on waivers.

Head coach Tom Landry of the Dallas Cowboys, a longtime Gregg fan, spotted his name and called him.

Landry says Gregg, was was

all-National Football League eight seasons, including one year on the honor list at both guard and tackle, will play about half of Friday night's game against the Baltimore Colts.

Gregg has agreed to a two-game commitment.

"If I can't make a contribution to the team, I'll know it and I won't go on," he said.

"Sure it was a surprise," Gregg said of the Cowboys' offer. "It was also a thrill. I got kind of excited. I've always had so much respect for the Cowboys, and I've really admired the things they do on offense."

"I couldn't resist trying to be a part of it. They're a great team, another reason I had to try."

## Y Swim Program Starts Sept. 13

Because the YMCA pool is being repainted, the start of the Y's swim education program has been moved back to Sept. 13.

Anyone interested in learning to swim can sign up now, Eddie Trice of the Y staff stated this morning.

The program will extend through Dec. 16. The registrants will be assigned to minnow, fish, flying fish or shark classes — depending on their progress in swimming.

**HAIRY SITUATION** — Dick Gordon, wide receiver for the Chicago Bears, displays his "pincurl" look during practice session at Chicago's Soldier Field. Gordon, renowned as a mod dresser, knots the hair with rubber bands after washing to render a fuller, more natural look when he combs it out.

**LOOKING 'EM OVER**  
With Tommy Hart

Harold Wilder, the Howard County JC basketball coach, will have part-time use of the school's new stop-action camera, which could prove useful during a game but which should be especially valuable in practice.

Wilder, incidentally, has had to make minor changes in his 1971-72 schedule. Mountain View JC, a new college, has been added to the Hawks' lineup of games, replacing Fort Worth Christian.

Perhaps you haven't heard the story of Duane Thomas' aborted interlude with the Boston Patriots.

The ill-advised firebrand from West Texas State reported to the training camp of the New England Patriots a few days after the deal with the Dallas Cowboys was consummated.

Thomas was tardy for team meetings his first two days in camp. When the team took the field for what was to be his first day of practice, his teammates were in battle gear. He wasn't wearing pads.

The Patriots were working out in the rain at one end of the field but Duane remained aloof at the other end. A photographer dutifully went over to get his picture but Thomas barred at him:

"Get away, man, you're bothering me."

At the end of the workout, coach Johnny Mazar kept several taxi squaders around to work with Thomas in the Pats' manner of doing things.

Mazar asked Thomas to run through a few maneuvers while firing out from a three-point stance.

Thomas lined up in a two-point stance. Mazar tried to make his order clear but Thomas snapped:

"This is the way I was taught at Dallas. They said you could see the linebackers better from a two-point stance."

"Well, Duane, we feel the three-point stance is better. This is what we use," Mazar said.

"That may be so, but I'm doing it my way," Thomas persisted.

Mazar blew his cool and pointed in the general direction of Texas, barking:

"Get off the field and get the hell out of here."

And that little episode encompassed Duane's entire adventure with the New England Patriots.

A growing phalanx of Big Spring athletes are enrolled at UT-El Paso this fall, following in the footsteps of some stellar Big Spring boys who have played there in the past.

Grady Ray, who came on fast for the Steers late last fall, is already working with the Miner football team. David Englert and Randy Wameck will be playing baseball at the El Paso school in the spring.

Charley West, Jimmy Evans and Buster Barnes are among Big Spring exes who were outstanding for UTEP in other years.

District 5-AAAA schools will have to wait until about Oct. 15 to get the word on whether it must make room for Snyder. The Tigers, from all indications, will have to fit into Class AAAA somewhere, since the school has enrolled a record number of students on the high school level.

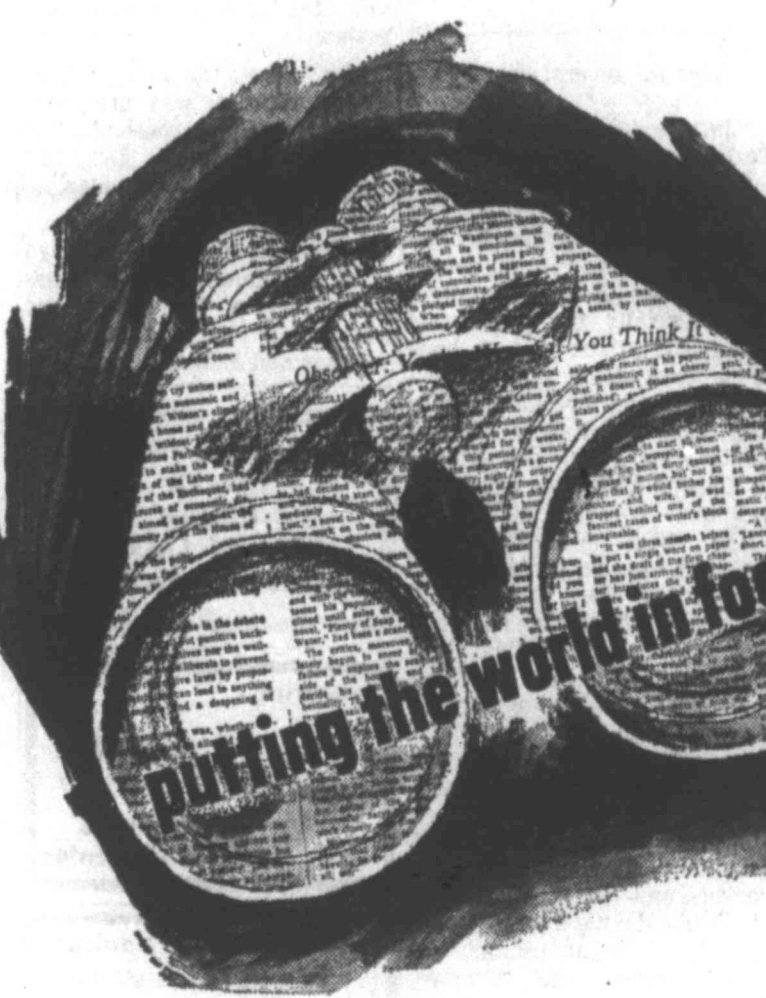

Unless the number of students needed to qualify for admission into Class AAAA is moved upward, Class AAA throughout the state is likely to yield a lot of teams. Even now, it has only 16 districts, less than any other 11-man classification in the state.

At 23 years of age, Mitch Robertson, the former Abilene Cooper great, is the oldest member of the Texas A&M football team.

The youngest is Odessa High's able Mark Green, who will be 19 tomorrow.

The San Angelo Bobcats will be the baby elephants of District 5-AAAA football this fall but the Big Spring Steers have a nice uniformity of size.

In heft, they compare favorably with last year's Steer club and most certainly will be bigger at some positions.

# Give Her A Raise

Dear Abby  
Abigail Van Buren

DEAR ABBY: My husband has been acting funny for the last few months, so I finally worked out of him what was bothering him. Willie said it all started when he gave his bookkeeper a few kisses because he couldn't afford to give her a raise.

Willie says now she isn't satisfied with a few kisses, and she's after him to meet her someplace. He swears he doesn't want to get involved with her, and I believe him because she is pushing 60 and still an old maid.

Willie says he can't let her go because she's an excellent bookkeeper and he couldn't run

his business without her. How should this be handled?

WILLIE'S WIFE: Tell Willie the cheapest solution would be to give the woman a raise.

DEAR ABBY: Seeing as how I was new in town, I stopped a nice-looking man on the street and asked him for directions. He said it wasn't far and since he was going that way he would walk me there. Before we parted he asked if he could see me again and I said yes.

To make a long story short, George and I started going together, and now, six months later we are very much in love.

and have even talked about marriage some time in the future.

Abby, George never talks about his parents, his life or anything to do with his past. He says he has no living relatives. No parents, no sisters or brothers. He doesn't talk about his job either. He just says he "sells" for a living.

I am 28 and have never been married either. He has been to my flat but I have never been to his. (I don't even know where he lives!)

Is it possible that he has no living relatives? WONDERING

DEAR WONDERING: Possible, but not probable. Before you invest more time in this mysterious character, find out what it is he "sells" and for whom. Then check up on him. I have a hunch it's a line you don't need.

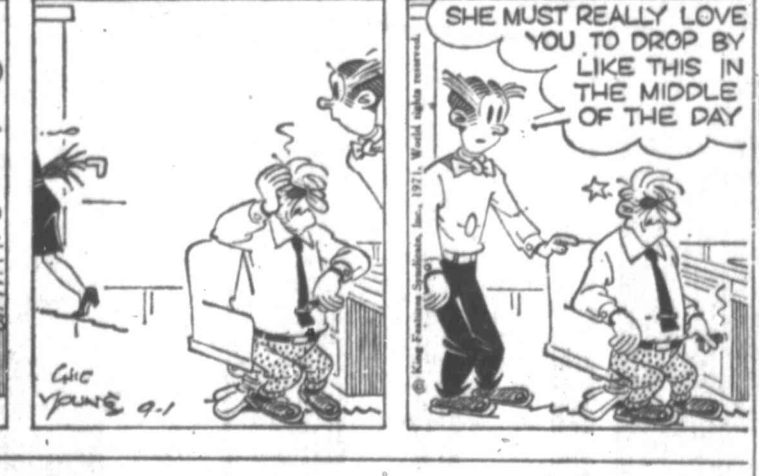

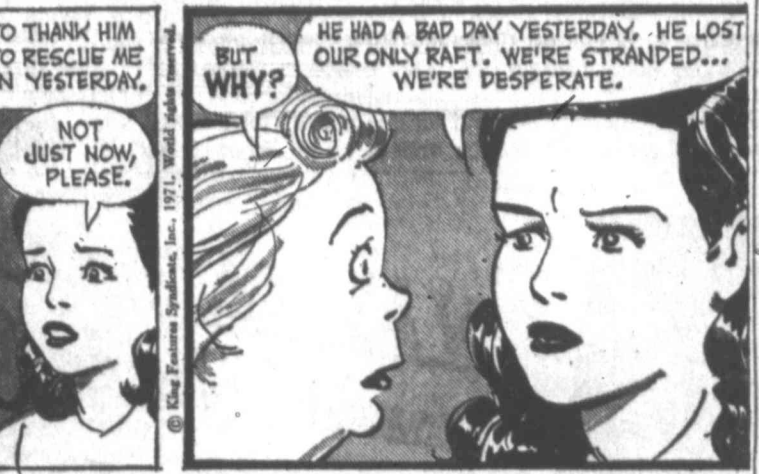

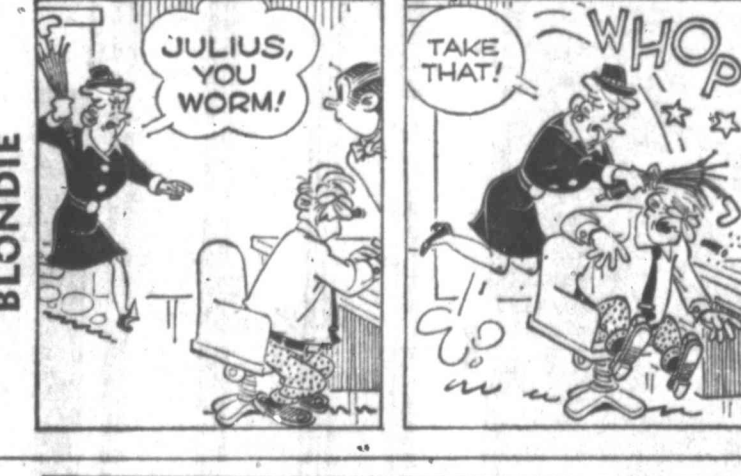

LEACOCK THOUGHT THAT SINCE HE had had some first aid training, he would try to help the lady — and perhaps get to know her better, so he rushed to the injured lady, but alas, he was too late. Two Doctors of Divinity and an Optometrist got there ahead of him. G.R.E.

DEAR ABBY: Shall we write "finis" to the foolish squabble about whether a "Ph.D." should use his title with this amusing story.

The late Stephen Leacock had just received his Ph.D. in economics and being quite proud of his new title, listed himself as "Dr. Leacock" on the passenger list of the ship on which he sailed for England.

One morning, the steward burst into Leacock's cabin and said, "Dr. Leacock, come quickly, there's been an accident!" Leacock was about to explain that he wasn't a medical doctor when the steward added, "A beautiful young lady passenger fell and hurt her hip."

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

## Black Or White

Your Good Health  
Dr. G. C. Thosteson

Dear Dr. Thosteson: Please discuss whiteheads, causes and cure, I am 60.—B.H.K.

The essential difference between a whitehead and a blackhead is just air.

The skin is equipped with myriads of tiny sebaceous glands, which secrete sebum, a rather oily substance that lubricates the skin.

If the outlet from a gland becomes plugged with the sebum, this oily or waxy matter accumulates, and where the air comes in contact with it, a chemical change takes place. The sebum becomes dark — and you have a blackhead.

But if the outlet is plugged by a thin layer of skin, as can occur, you may have the same

accumulation of sebum but since it doesn't come in contact with the air, it doesn't turn dark. That's a whitehead.

With either, scrupulous but gentle cleansing of the skin is important — as, of course, is true of youngsters who are troubled with acne, which basically is an extreme surge of blackheads, complicated by infection of some or many of them.

As to your case, when a whitehead is large enough to be unsightly, you can express it, or squeeze it out, with gentle pressure. I do mean gentle pressure. A simple little gadget called a "blackhead expressor" is useful for this. Sometimes it's found in one of these gadgets on the "wrong end" of a nail file — a small cup-like depres-

sion with a hole in the center. I don't recommend trying to squeeze whiteheads (or blackheads) out with your fingernails because of the risk of damage to the skin.

There also are acne lotions which tend to soften the skin and prevent, or at least inhibit, plugging of the small glands. You may find them helpful.

However, at 60 the secretion of the sebaceous glands ordinarily begins to lessen — while in the early teens, the secretion suddenly becomes greater causing acne troubles.

Dear Dr. Thosteson: What is wrong when one cannot get an X-ray picture of the gall bladder? I had four, and none of them took. I have belching and sickish feelings sometimes. Does it appear to you that I should have my gall bladder out? I feel well generally, and cannot see the need of it myself.—M.G.H.

X-rays of the gall bladder are achieved by giving the patient a substance which, under normal circumstances, will be carried to the gall bladder to make it visible.

When films do not show the gall bladder, it is because the gall bladder is not functioning; that is, for one reason or another, the substance given does not flow into the gall bladder. It is blocked in some manner.

A non-functioning gall bladder is a potential cause of future trouble — and obviously you have had sufficient symptoms to send you to the doctor already.

It's up to you to decide whether you want the operation or don't. (Evidently your doctor has recommended it.) If you don't, (Evidently your doctor along all right. But you may not. If you don't have the operation, and the gall bladder causes serious trouble later on, then you'll have lost the gamble.

I think that the percentages are in your favor if you follow your doctor's advice.

Are you having a gall bladder problem? To find out how the gall bladder works and what types of trouble to look for, send for Dr. Thosteson's booklet, "You And Your Gall Bladder."

'70 PLYMOUTH Duster, automatic transmission, air conditioned, V/8 engine. Don't pass this one. Was \$2595. Now **\$2291**

'71 NOVA Coupe. Economical 6-cylinder engine, but has automatic transmission and radio. Was \$2595. Now **\$2367**

## SPORTY CARS

for the Young, and the Young at Heart

'67 CAMARO. Get both sports and economy with this one. 6-cylinder engine, standard transmission. It's nice... it's ready... was \$1475. Now **\$1283**

'71 CAMARO. Pretty red finish with white vinyl top. Power steering and brakes, air conditioned. Was \$3995. Now **\$3797**

'63 FORD Sport Coupe. This one is well worth the money. Was \$395. Now **\$325**

'68 THUNDERBIRD, 4-door Landau. It's loaded with all the equipment. Call it sports... call it a family car... call it luxury. Was \$2795. Now **\$2344**

'71 MALIBU sport coupe. Loaded... power, air conditioned. A sharp looking white with green vinyl top. Was \$3795. Now **\$3694**

'69 GTO by Pontiac. It's Pontiac's hottest... power and air conditioned, green with matching vinyl top. It's worth the money. Was \$2695. Now **\$2589**

'67 CAMARO Convertible, V/8 engine, three-speed transmission, stereo. This one's sharp. Was \$1695. Now **\$1584**

'69 MUSTANG. Three-speed transmission, stereo. This is one good buy. Come drive it. Was \$1995. Now **\$1876**

'70 NOVA Coupe. V/8 engine, automatic transmission, hooker headers, traction bars, wide tires. This one needs a driver. Was \$2395. Now **\$2267**

'67 FORD Convertible, automatic transmission, power steering and brakes. Come drive it... it's nice. Was \$1495. Now **\$1236**

'64 PONTIAC 2-door hardtop... there's a lot of good miles left in this one. Was \$315. Now **\$396**

'71 MUSTANG Mach I, this one is sure to please, air conditioned, power steering and brakes. A beautiful machine. Was \$3695. Now **\$3574**

'71 DODGE Demon, automatic transmission, V/8 engine, this is a fresh trade-in, just put on the line. Only **\$2655**

'67 CHEVROLET Impala SS 396, sport coupe, air conditioned, power steering and brakes. Save \$120. Was \$1710. Now **\$1590**

'65 CHEVROLET Impala SS. It's loaded. Here's a car that's in top condition and at a low price. Just traded for it. Only **\$784**

**A FEW '71 DEMOS LEFT SPECIAL BUYS ON NEW CAR TRADE-INS**

'71 BUICK Sports Wagon. 6 passenger. It's brand new inside and out. Shows extra good care... this man just wanted a bigger wagon. Fully equipped with power steering and brakes, factory air conditioned, automatic transmission. It's sure nice at a big savings.

'71 OPEL Station Wagon. Very few miles. Most of the new car warranty left. Gold with all custom interior. Bucket seats, fold down back seats, lots of luggage room. Fully equipped with Opel's custom features. Power front disc brakes, large engine, factory type air conditioner, automatic transmission, radio. Real economy, priced to sell.

'70 BUICK Electra Custom 4 door hardtop. Buick's best... locally sold, very low mileage. Lots of new car warranty left. White with brown vinyl top... all custom interior. It's a real buy.

'70 CADILLAC Sedan DeVille. Number One luxury car, beige with dark brown vinyl top. Custom luxury interior. Fully equipped with 600 front seat, loaded with Cadillac's custom features, all power and air. A like-new car... you can save hundreds.

'70 BUICK LeSabre Custom 4 door sedan. Gold finish, it shows extra good care. Less than 14,000 miles. Fully equipped with power steering and brakes, factory air conditioned, automatic transmission, sure nice... what a buy.

'70 BUICK Wildcat 4 door sport sedan. It's new inside and out. Very low mileage, lots of new car warranty left. Need an almost new car? Pretty gold with dark brown vinyl top. All luxury custom cloth interior. Loaded with equipment. Boy... what a nice car.

'70 LINCOLN Continental Sport Coupe. Blue with black vinyl top and all custom luxury interior. This low mileage Luxury car is fully equipped with full power and air conditioner. Lots of new car warranty left.

'70 BUICK Riviera Sport coupe. It has class... drive... easy ride... handling... a real sports car. Pretty gold with dark brown vinyl top, all custom vinyl interior. It's loaded... full power and air... drive it today.

'68 CADILLAC Sedan DeVille Hardtop. Locally owned and driven. Very low miles, drives and runs like a '71. It's loaded with Cadillac's fine custom features. Turquoise with white vinyl top. All luxury interior. Drive it today.

'69 BUICK Wildcat. 4 door hardtop. One owner, shows good care. Beige with brown vinyl top. Custom interior. Sure nice... and the price is right.

'69 CADILLAC Sedan DeVille. Choice of two... one a beige with white vinyl top... the other a gold with beige vinyl top. Both are loaded with all Cadillac's fine custom features. Drive them today, you can save hundreds.

'67 BUICK Riviera, GS sport coupe. Looks and drives like a new car. Locally owned, full length console, bucket seats, power windows and seats. Loaded... sports car red with white vinyl top. Better hurry.

'68 & '69 OPEL, 2 door. Want low cost transportation... 2nd car... they're ready and what a bargain.

'68 BUICK Skylark, 4 door custom hardtop. Locally sold and driven... extra clean. Beige with white top, all custom interior. Fully equipped with power steering and brakes, factory air conditioned, automatic transmission. What a nice car for so little.

### Shorthand Reporters Are Stumped

SAN ANTONIO (AP) — The national wage-price freeze has raised a dispute over raises for district court shorthand reporters here.

Three county commissioners claimed local district judges violated the freeze by ordering an annual \$1,200 raise for their 11 court reporters, effective Jan. 1, 1972.

Dist. Judge Peter Curry defended the move, saying a new law required the judges to issue such an order by Sept. 1.

"If we didn't issue the order by Sept. 1, there wouldn't be any way of them getting the raise," Curry said. "I'm surprised they (the commissioners) are unhappy about it. We worked it out together."

Curry also said court reporters here are among the lowest paid in Texas. Those in Houston, for example, earn about \$16,000 a year, he said.

The reporters are paid with county funds.

Local commissioners and judges approved annual pay hikes of \$2,000 for the 11 district and four county court reporters last month, raising their salaries to \$17,000, but the freeze halted the raises.

County Judge Blair Reeves said the district judges' latest move, taken Monday, may be illegal since the new law giving the judges mandatory authority to raise the reporters' salaries does not go into effect until Jan. 1, 1972.

Commissioner Albert Pena said he felt that "all pay increases and requests for pay increases are frozen at this time."

"I don't think you can circumvent the direct freeze on wage increases by an indirect procedure," he said.

**INTERCHANGE CHANGE** — The traffic interchange between Wasson Road and West Marcy (FM 700) immediately west of the Westover intersection is being altered. A new trap to feed traffic from Wasson into the Marcy eastbound stream is being installed by the Texas Highway Department.

It is designed to provide a safer, quicker means of moving across Marcy into the left-turn lane for the Westover turn, and it also pushes further west the point of entrance from the cross traffic going to and from Coronado apartments.

## 'Big' Minh Fires Another Blast At U. S. Diplomat

SAIGON (AP) — The government announced tonight that the presidential election will be held Oct. 3 as scheduled with President Nguyen Van Thieu as the only candidate.

The announcement appeared to dash all U.S. hopes and efforts by U.S. Ambassador Elsworth Bunker to make the presidential election a multiple race. Bunker had met two straight nights with Thieu in seeking a solution.

The announcement from the office of Acting Premier Nguyen Lau Vien noted that the Supreme Court on Tuesday had removed the name of Vice President Nguyen Cao Ky from the presidential ballot, making the election a one-man race.

Ky had been on the ballot on a technicality, but had asked that his name be removed. He charged that the election was rigged by Thieu and he would not participate.

The communique from Vien was read by an announcer on national television in advance of the official start of the presidential campaign Friday.

"The government agencies concerned must go ahead with preparations for the election scheduled Oct. 3," the communique said.

Thieu told newsmen Sunday that the election would go ahead as scheduled. The announcement put the official stamp on it. It undoubtedly had the approval of Thieu himself.

In another development, Gen. Duong Van Minh fired another blast at Bunker, accusing him of slander, insolence and having a colonialist attitude.

Resolutions pertaining to the two Chinas are due to reach the convention floor Thursday.

Rogers said no move in recent years has struck the world with more stunning force than President Nixon's announcement of plans to visit the People's Republic of China "and I know you are vitally interested."

"That visit will be a dramatic step toward reestablishing communication with the government of over a quarter of the world's peoples," Rogers said.

"For the world's most advanced nation and the world's most populous nation, the People's Republic of China, to contemplate living for the rest of the century without contact for ourselves and for the world. An improvement in relations, would have been dangerous for ourselves and for the world. An improvement in relations, on the other hand, offered long-range prospects for peace in Asia."

**SUSPICION**  
Rogers said many Americans have a lingering suspicion of summit conferences such as is planned in Red China.

"We all know things of the past have caused this suspicion," he said, "but that should cause no concern in this case."

He then drew applause when he said:

"In Richard Nixon the American people have a representative who is idealistic enough to believe that a generation of peace is possible, and who is realistic enough to know that the only way it can come about is for a strong America to take the lead in achieving it."

At a dinner Tuesday night, Adm. John S. McCain Jr., chief of the Pacific Command, said Nixon's South Vietnam policy is sound.

"The current plan for reduction of men is both safe and reasonable, particularly in view of our success in Cambodia," McCain said.

## PEKING AT NEW ONES Rogers Says U. S. Will Stand By Its Friends

HOUSTON (AP) — American Legionnaires listened quietly as Secretary of State William P. Rogers said the United States will remain firm in its commitments to friends and allies while seeking to normalize relations with Red China.

The Legion traditionally has opposed admission of Red China to the United Nations. Rogers discussed the administration's new foreign and economic policies at Tuesday's opening session of the war veterans' 53rd national convention.

The principal speaker today was James C.H. Shen, ambassador from the Nationalist Republic of China.

**STUNNING MOVE**  
Rogers made no direct reference to Red China and the U.N. but said, "We will do our utmost to retain a seat for the Republic of China in the United Nations."

Rogers said no move in recent years has struck the world with more stunning force than President Nixon's announcement of plans to visit the People's Republic of China "and I know you are vitally interested."

"That visit will be a dramatic step toward reestablishing communication with the government of over a quarter of the world's peoples," Rogers said.

"For the world's most advanced nation and the world's most populous nation, the People's Republic of China, to contemplate living for the rest of the century without contact for ourselves and for the world. An improvement in relations, would have been dangerous for ourselves and for the world. An improvement in relations, on the other hand, offered long-range prospects for peace in Asia."

**SUSPICION**
