

SINCE HE GOT FED UP WITH HIS 'LEMON' AND BURNED IT TO A CRISP

## Eddie Campos Becomes Folk Hero To Some Car-Owners

WHITTIER, Calif. (AP) — Eddie Campos was talking about the problems he's had with his car when the phone rang. The caller was a man in San Bernardino who wanted to talk about the problems he's had with his car.

Campos didn't know the caller, but listened anyway. Then he shrugged his shoulders and said: "Well I feel sorry for you. I solved all my problems with one match."

Campos' problem was his 1970 Lincoln Continental Mark III.

He got so fed up at the things he said went wrong with it he burned it to a crisp on Aug. 31 with a great deal of ceremony and five gallons of gasoline. On the front lawn of a nearby Ford assembly plant.

Since then, Campos, married and the father of three, has become sort of a folk hero to some car-owners. His car trouble started about seven

miles after he bought the auto in October, 1969. His wife, Carletta, says the entire ignition assembly fell out when she tried to start the car.

From then on, says Campos, it was back and forth to the dealer with power windows that wouldn't go up or, if up, wouldn't go down, an air conditioner that wouldn't condition, a battery that wouldn't electrify, and more.

"It seemed like every time we took it in, something would go wrong with

it two weeks later," said Mrs. Campos.

Campos, described by a deputy sheriff after the Great Car Burn as "perfectly sober, perfectly rational and completely disgusted," denies he's on a one-man vendetta against Ford.

"I don't think it's that," he says. "It's more of a service to the consumers to help them stand up and demand their rights. As long as they remain silent I'll remain active."

A local spokesman for Ford would only say that a check with the dealer from whom Campos bought the car showed only one complaint had been received from Campos and that it had been handled satisfactorily.

Campos, meanwhile, put the charred black and rust-brown hulk of his \$10,300 Lincoln — he's still making payments on it and has \$1,812.43 to go — on display on the front lawn of his plastering business here. A five-foot lemon tree sprouts from

a hole he chopped in the car's roof.

Campos says he's at least saved another car maker, Chrysler, from an even gaudier display of consumer wrath.

"This lady called me up and said she'd been having trouble with a Barracuda she bought," he recalled. "She wanted to drive the car back to the dealer's showroom, set it on fire and burn the whole place down."

"Thank God I managed to talk her out of that."

## Auto Dealership Changes Hands

American Motors and Jeep dealerships have changed hands in Big Spring with Jack Lewis Buick and Cadillac, 403 Scurry, taking on the additional auto sales.

The dealerships were transferred the latter part of last week, and according to Lewis the American Motors and Jeep cars will be handled at the same location on Scurry Street.

"This will enable us to span the market and to give a better choice to our customers," said Lewis.

The dealership was changed due to G. C. Broughton, owner of Broughton Truck and Implement Inc., taking on new business interests.

"With these new interests, I did not want the truck and implement company to get too big," said Broughton.

A full line of sales and service facilities will be offered on the two dealerships, and the autos are on hand for immediate delivery, said Lewis.

"We hope that the extra load will cost us nothing in overhead and in turn the savings can be passed on to the customers," said Lewis. Warranties will be honored at the new location also.

Broughton said that the truck and implement company will continue in the sale of International trucks.

# War Of Words Looms Over Arms Money Bill

WASHINGTON (AP) — Senate Democratic Leader Mike Mansfield expressed hope today the House will approve a new Senate move to set a date for U.S. withdrawal from Indochina.

The Montana Democrat said he was unable to say when the new proposal would be offered, but Senate sources said it would likely be presented next week.

A previous Mansfield amendment to the draft bill directed total withdrawal of U.S. troops in nine months if American prisoners are freed. It passed the Senate 61 to 38 but was diluted in conference after House rejection and sent to the White House as part of the draft measure on Tuesday.

### REAL CRUNCH

The sources said the new amendment, to be offered to the \$21-billion measure to authorize military hardware and research for the armed forces, would probably carry a six-month deadline but that its full text is still being drafted.

In the final version of the draft bill sent to President Nixon on Tuesday, Mansfield's watered-down amendment calls on the President to negotiate a to-

tal withdrawal from Indochina "at the earliest practicable date."

But one Senate war critic, Democrat Mike Gravel of Alaska, said the vote Tuesday means any further effort this year to set a deadline for withdrawal will be futile.

"I don't think there is any real clout or muscle or backbone in the Senate this year to do anything," he told reporters.

He noted conferees on the military procurement bill are senior members of the Senate and House Armed Services committees, likely to be the same as those who watered down the earlier Mansfield Amendment after the House rejected it.

"When it comes down to the real crunch," Gravel said, "we'll have a reoccurrence of what went on today."

Sen. John C. Stennis, D-Miss., chairman of the Armed Services Committee and floor manager of both the draft and procurement measures, predicted the debate on the latter would take quite a while too.

In the past two years, consideration of the measure, which

authorizes funds for major weapons systems and research and development, has lasted well over a month.

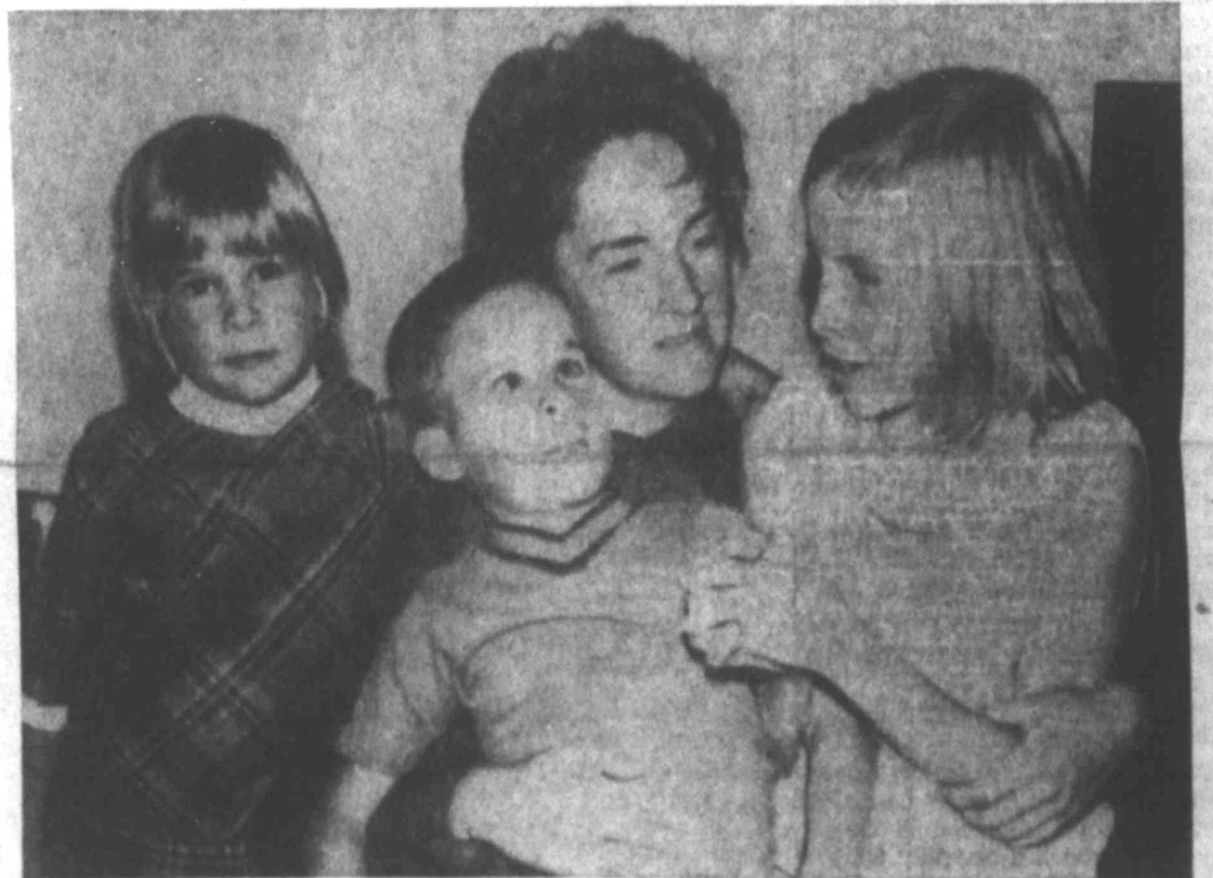

The long draft debate, which began in the Senate May 5, came to a surprisingly swift end.

Senate leaders had predicted it would take at least two tries to produce the two-thirds needed to invoke cloture and limit debate on the draft measure.

But the vote was 61 to 30, giving supporters of the draft bill

victory by a single vote.

Then, as Gravel and Sen. Alan Cranston, D-Calif., conferred on the floor on whether to fight further, the Senate went promptly into a second vote — on the draft measure itself — and passed it 55 to 30.

SHE REFUSES TO GIVE UP — Mrs. Jacqueline Collum, 34-year-old divorced mother on welfare whose eldest child has died of Batten's disease, poses with her three other children, Crystal, Charles and Kathleen, left to right. She says she was told three years ago that all four children were doomed to early death from Batten's disease, but she refuses to give up. Her case has come to light because San Mateo County balked at paying cremation expenses for the dead child during a San Francisco cemetery workers strike.

# Living Costs, Wages Spiral

## MURDER TRIAL

## Three Jurors Named, Nine Left To Go

MIDLAND — Two more jurors were selected this morning in Midland to serve in the trial in connection with the murder of Glasscock County rancher Steve Currie.

Joel W. Chappell, a draftsman for Union 76 Oil Co., and Quentin T. Wilson, a petroleum engineer with Getty Oil Co., will join Mrs. Joe D. Eads, selected Monday, on the jury panel.

One other juror was interviewed this morning, but rejected by prosecution attorneys because the juror objected to the death penalty. Jurors are not being sequestered.

Attorneys in the murder trial of Orville Davis, 51, interviewed 11 persons Tuesday, but Mrs. Eads, Midland, remained the sole juror to be selected in the case.

Davis is being tried in 142nd District Court in connection with the Dec. 2, 1970, shooting death of Steve Currie during an armed robbery attempt at his ranch home near Garden City in Glasscock County. Four other persons are also charged in connection with the murder.

By the end of Tuesday's proceedings, a total of 17 persons had been interviewed in two days of jury selection. Courtroom sources are predicting that it could take all week to complete the jury panel.

Prosecuting attorneys, 118th District Attorney Wayne Burns, 142nd District Attorney James A. Mashburn and Gil Jones, special prosecutor and former 118th District Attorney, rejected most of the jurors interviewed Tuesday because the jurors were unable or reluctant to assess the death penalty, which the state is seeking against Davis.

Attorneys for the state have used three peremptory challenges, for which they do not have to give reasons for to the court, to eliminate jurors. Defense attorney Vern Martin, Midland, has used four peremptory challenges in rejecting jurors.

Difficulties in jury selection in June in Garden City, which is in the 118th Judicial District, resulted in the trial of Davis and Whitmer Jean Ballard, 45, Odessa, being moved first to Ballinger and then to Midland on a change of venue. When the trial began in Midland, 118th District Judge R. W. Caton, presiding judge, granted a defense motion that the two men be tried separately, and it was decided to try Davis first.

WASHINGTON (AP) — The government said today in its first consumer price report since President Nixon ordered the wage-price freeze that both living costs and wages rose in August.

Living costs increased three-tenths of one per cent, largely because of a sharp boost in gasoline prices, but the Labor Department's Bureau of Labor Statistics said the report did not reflect the price freeze because many of the figures were compiled before it was announced Aug. 15.

### GROCERY PRICES

Wages of some 45 million rank-and-file workers rose two cents hourly and \$1.43 weekly to \$129 per week. Purchasing power after deduction for price increases was up seven-tenths of one per cent for the month and 1.1 per cent from a year earlier and was only five-tenths of one per cent under the 1968 all-time high, the report said.

The rise in living costs, slightly larger than in July, pushed the government's consumer price index up to 122.2 per cent of its 1967 base of 100. The figure means that it cost \$12.22 last month for every \$10 worth of typical family purchases four years ago.

On a seasonally adjusted basis, the August rise was four-tenths of one per cent, double the size of the July increase, but still well below the increases in May and June, the bureau said.

Grocery prices were unchanged in August, the first time since January there had been no increase.

### CLOTHING LAGS

In other major price categories, housing costs rose five-tenths of one per cent, transportation was up five-tenths, including a 3.7 per cent hike for gasoline, medical care increased five-tenths, and recreation rose one-tenth of one per cent.

Clothing prices declined three-tenths of one per cent but there was a rise of five-tenths of one per cent for shoes.

The bureau said future price reports during the freeze are likely to show change because some items are not frozen and others are not priced every month and will later show changes from before the freeze.

# Military Pay Raise Battle

WASHINGTON (AP) — The Cost of Living Council is reportedly opposed to allowing a congressionally-approved \$2.4 billion military pay raise to go into effect during the wage-price freeze.

Although the council declined official comment, sources familiar with the group's thinking said it regards the huge military pay hike as inconsistent with the freeze.

Although the pay boost is more than twice what the Pentagon originally proposed, Defense officials said they favored putting it into effect on the congressionally-decreed date of Oct. 1.

The pay raise was included in a bill passed Tuesday extending the Selective Service System, and needs only President Nixon's signature before going into effect.

Recalling one rebuff by the council last month, Pentagon officials indicated they expect the council to reject implementing the higher military pay scales until after the freeze ends Nov. 13 and to rule out any retroactivity.

A council ruling to delay the pay increase almost certainly would be challenged by Chairman F. Edward Hebert, D-La., of the House Armed Services Committee. Hebert has insisted there is no legal way for Nixon to put off the higher pay beyond Oct. 1.

## Calling Car 469

CATONSVILLE, Md. (AP) — Car 469 was missing overnight until Baltimore County police officers found it abandoned on a city street.

Patrolman Raymond Sherman said he lost the 1971 police cruiser when a suspect knocked him down and drove it away.

# National Day Parade Canceled By Red China

LONDON (AP) — Red China announced today the cancellation of its traditional parade on National Day Oct. 1 for economy reasons, the British Foreign Office reported.

The Foreign Office got word from its charge d'affaires in Peking. Cancellation of the parade was confirmed by a spokesman for the Chinese Embassy in Paris. He said the parade was called off as part of a decision to change the way of celebrating the holiday.

### RUMORS FLY

As for reports that Mao Tse-tung was ill, he said the party chairman was "in excellent health."

The decision to cancel the National Day parade, reviewed

by Mao and other high officials, was unusual. The parade had been held annually since the Chinese Communists wrested control of the mainland from the Nationalists 21 years ago.

The Japanese Kyodo news service distributed a Peking-detained dispatch saying that Chinese officials in the mainland capital "scoffed at reports that some sinister developments are afoot in the Communist party hierarchy."

Kyodo reported the Chinese officials, who were not named, "said the parades will be held as scheduled."

Monitors of Chinese broadcasts said they had heard nothing to suggest that Mao is dead or ill.

The stories in French news-

papers were based largely on a dispatch Tuesday from the Peking correspondent of the French news agency Agence France Presse, one of the few Western news services permanently in the Chinese capital.

### TWICE BEFORE

The dispatch said the National Day parade, reviewed annually by Mao since 1949, had been canceled.

In Taiwan, well informed sources said civilian and military aircraft had been grounded on the China mainland between Sept. 13 and 15 and flights had just resumed. Such action is believed to have taken place only twice before in Communist China, during political crisis.

CHINESE LEADER REPORTED ILL OR DEAD — The French national radio speculated Tuesday that Mao Tse-tung may have died or is gravely ill. He is pictured above on various occasions in the past, from left: greeting an Indian delegation in Peking in 1954; in Moscow in 1950; a radio speech in Peking in 1949; and again in 1949 during a tour of Peking.

MODELS BEST IN HISTORY

# Quality Is Watchword For 1972 Chevy

While Chevrolet has made quality the watchword for its 1972 models, it nevertheless has given up nothing in its penchant for sleek styling.

John Z. DeLorean, general manager for Chevrolet, pledged that the models "will be the best in Chevrolet's history." To implement this objective, the company has embarked upon motivational programs to achieve added pride of workmanship among Chevrolet's 100,000 employees, and at the same time has launched a program to guide Chevrolet dealers in giving improved customer service.

Chevrolet has a new tailored look to appear as the most luxurious car Chevrolet has ever

built. The hood is squared off and the low-set grille is flanked by individualized twin headlights and recessed front fender lights. Mounting of the license plate on the right front of the car gives the grille a more open look.

The increased front and rear bumper protection on the models for 1972 is provided by a bumper-within-a-bumper design. Heavy gauge beams

reinforce the bumper and are firmly attached to the frame. Turn signals are built into the front bumper, and traditional Chevrolet triple taillight units are built into the rear bumper.

All full-sized Chevrolets for 1972 have new front and rear styling. Smaller models have new front end styling refinements. All models have engine, chassis and durability improvements. The newest car the Vega, has added a glovebox

and made turbo-hydraulic three-speed transmission optional. The 1972 offering has the industry's largest assortment of wagons, replete with disappearing tailgate.

All Chevrolet engines for 1972 have improved exhaust emission controls. As was the case in 1971, all engines have been designed to operate efficiently and with lower exhaust emissions on regular, low-lead or no-lead gasoline.

A 400-cubic inch V-8 engine is standard on all Caprice

models. Turbo-hydraulic automatic transmission is standard on all V-8 equipped models. The 121.5-in. wheelbase has more durable and better-tuned shock absorbers. Power brakes with front discs and variable ratio power steering are standard on all regular Chevrolets.

Chevrolet offers 15 magic mirror colors for 1972, of which 10 are new. There are six two-tone color combinations, and there is a "wet look" for five vinyl roof colors.

**DISTINCTION PLUS** — The 1972 regular Chevrolets have added distinction plus strong emphasis upon quality. This luxury Caprice has a special large grid grille, full length side moldings with a color insert plus exclusive interior appointments. The new Chevrolets are now on display at Pollard Chevrolet Co., 1501 E. 4th.

2-A Big Spring (Texas) Herald, Wed., Sept. 22, 1971

## 1972 Chevrolet. Building a better way to see the U.S.A.

Caprice Coupe illustrated at Mt. Rushmore in South Dakota.

**We want your new Chevrolet to be the best car you ever owned.**

The best. No qualifications. No reservations. We want it to be the most beautiful, most trouble-free, most comfortable car you ever owned.

So we've given the 1972 Caprice (above)

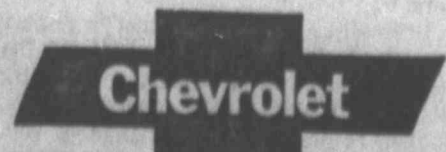

power steering, power front disc brakes, refined power ventilation and an improved front bumper to provide added front-end protection.

Plus a 400-cubic-inch V8 engine and Turbo Hydra-matic automatic transmission.

All standard, as you expect with a luxury car. And Caprice is but one of the new Chevrolets. There are 45 in all: pictured below (left to right) are the 1972 Monte Carlo, Chevelle, Nova, Camaro and Vega.

There's bound to be a Chevrolet just right for you, your family, your budget and your kind of driving.

Whatever your choice, we want your new Chevrolet to be the best car you ever owned. No less.

### Congressman Draws Praise At McAllen

McALLEN, Tex. (AP) — Texas political leaders, including former President Lyndon B. Johnson, and Lt. Gov. Ben Barnes, gathered at McAllen Tuesday to honor U.S. Rep. Eligio de la Garza of Mission.

The former President drew loud standing ovations as he entered the McAllen Civic Center dining room and when he was introduced.

Hundreds of South Texans from the nine counties of the 15th congressional district turned out to honor de la Garza.

Johnson appeared to enjoy himself as he spent the evening eating barbecue, embracing old friends from the Lower Rio Grande Valley and signing hundreds of autographs.

In addition to Lt. Gov. Barnes, others who turned out for the celebration included U.S. District Court Judge Reynaldo Garza of Brownsville, South Texas civic leader Lon C. Hill of Corpus Christi, four members of the Texas delegation to the U.S. House of Representatives and dozens of officials from the nine counties.

The former President drew laughs and loud applause when he told de la Garza, "A man in public life needs some appreciation once in a while. I speak from experience."

"We have ridden the river together. Some of you have been persecuted and even prosecuted for supporting me," Johnson told the huge crowd.

Johnson described de la Garza, a Democrat, as a man with "20 years of solid, fruitful experience who has sincerity and a capacity for hard work."

"Texas is very proud of you," Barnes told de la Garza.

"You know our people. You know their needs," Judge Garza said.

Joe Kilgore of Austin, who represented the South Texas district before de la Garza, was master of ceremonies.

"When I was shining shoes in Mission, I never thought I would go much further than that," de la Garza said in a brief speech following the honors.

### 'Shot Just For The Heck Of It'

DALLAS (AP) — Gunfire killed Morris Friedman, 59, during a holdup Tuesday at his neighborhood food store in South Dallas.

Police said a woman accomplice of the male gunman emptied the cash register before fleeing.

Friedman ran a few feet and collapsed after an employe who was in a back room, Clarence Vaughn, heard a shot. The bullet struck the storekeeper in the heart.

Police said they found no signs that Friedman was shot for resisting. One officer said, "It looks like he was shot just for the heck of it."

Vaughn told officers a second couple in the store at the time walked outside quickly after the robber pair and the four left together on foot.

# Untouchability Of Agencies

Addressing the El Paso Chamber of Commerce, Sen. Lloyd Bentsen, among many other things, touched on what he called the "largely unchecked growth of the executive branch (of government) and a diminishing influence of the Congress in national decision making."

His reference, which repeats a thesis he has espoused since taking office, was to the proliferation of independent bureaus and agencies which become power kingdoms unto themselves.

"I believe we have to reverse that trend and return the power to the duly-elected representatives of the people where it belongs," Bentsen said.

Article I, Section I of the Constitution says, "All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and a House of Representatives."

But that isn't the way it is working. Bentsen says "independent agencies and bureaucracies flourish in Washington in a state of limbo with an increasing ability to set up their own rules, enforce their own decrees, and distort the will of Congress when Congress doesn't agree with what they want to do."

"I have found," said the senator, "that the nearest thing to immortality is a temporary government agency. They are self-perpetuating — unlike old soldiers, they never fade away."

Bentsen notes that the ordinary citizen has little recourse from agency rulings. Courts may occasionally overrule one, and the President can sometimes influence one. But for the most part, Bentsen says, Congress has been reluctant to do anything about the agencies except to give them more power.

Congress over several decades created these monstrosities. Only Congress can rein them in. What is needed is a continuous oversight of the operations, policies and actions of this multitude of agencies to see how well they are performing

in the public interest, and whether they are carrying out the intent of Congress for which they were created, or exceeding it. Or, indeed, whether they still are needed.

The Senate and House each has a Government Operations Committee. If the present jurisdiction and staff resources of these committees are not sufficient to do this job, either they should be augmented, or a separate joint committee of both houses should be set up for this purpose.

Until some such actions are taken to put these agencies literally under the direct supervision of Congress, the problems will get worse instead of better. But in setting up watchdog machinery, Congress risks yet another agency.

## Still Elusive As Ever

President Nguyen Van Thieu, obviously under pressure from U. S. Ambassador Bunker, has hit upon what he hopes is a method to make his rubberstamp re-election meaningful.

He now says the vote will be a referendum on his performance in office. A sufficient vote will be taken as a mandate for his leadership; an insufficient one will be grounds for his resignation.

But Thieu himself will determine what's good enough and what isn't. And of course, the Thieu government retains control of the election machinery.

Whatever self-imposed ground rules Thieu wants to adopt, it remains an "election" in name only, and our goal of self-determination for South Vietnam as elusive as ever.

# Nudging The Cycle

## Around The Rim

Joe Pickle

The idea of several cities banding together to seek solutions to water problems which would have overwhelmed any single one of them was somewhat novel when, 25 years ago, J. B. Thomas (then Texas Electric Service president) proposed this step to communities in this area.

IT TOOK another five years for this to start on the road to reality through construction. The Colorado River Municipal Water District, which grew out of the original idea, has done nothing but expand successively as new areas of service were opened to it. Today, the basic concept is widely employed in Texas and elsewhere, because whatever else communities have to have, water is at the top of the list. Moreover, the miracle about water supply is one of mechanics.

HAVING LAID this predicate, let me move on to the next conclusion. The day may well come when the handling of liquid wastes may become almost as much of a common problem, crying for cooperative action, as water is today.

The reasons seem rather obvious. Water, certainly in this area, is seldom in surplus supply except as a temporary condition. The character of water may be altered, but it remains water, hence it lends itself to recycling. That means that it may be used over and over, given the proper treatment.

ACTUALLY, this is what happens to all water in one way or another, as in the case of the hydrological cycle which sees water drawn from the seas as vapor, transported by the atmosphere, condensed as rain, and returned to the seas through percolation, streams and plant transpiration.

So what's wrong with man giving nature a nudge and handling some of this recycling nearer at the points of need? This makes sense because it stretches supplies of existing water

in semi-arid territories such as ours. It reduces the expense of transportation, or pump-back of water from lower or distant points. It permits us to enjoy some of the pleasures and benefits associated with sizable volumes of water.

THE CURRENT anti-pollution campaign is no passing fad, hence communities which have thought they could dump their wastes into steam beds or let them seep into soil formations will find increasing pressures to do something about this. Here to do something about this, and not economics enter the picture, and not every community will be financially able to do the clean-up job necessary for increasingly rigid standards. But most of them will be able to do an elemental job of separation of sludge and effluent so that the liquid, being easy to handle, can be piped to area or regional treatment centers which can process the water so that it is virtually as good as that which falls from the skies.

HOW CAN this be done? By cooperative efforts, much like the CRMWD (which, conceivably some day might find itself as a logical vehicle for doing this sort of thing), and by the help of other agencies, and by industries. A case in point: Nearly 15 years ago plants at Green Bay, Wis., discharged a tremendous amount of waste water from paper mills. Proctor and Gamble perceived the handwriting on the wall and started researching, suggesting that the community join in the effort.

RECENTLY, a huge, cooperative project was started to reduce oxygen-demanding substances in liquid wastes by about 95 per cent. The company is applying funds which it otherwise would have had to spend, and Green Bay will get by at 20 per cent less cost than if the company had not joined the program. This is the sort of thing even high, dry West Texas may someday embark upon for the sake of waste treatment and reclamation and sound economics.

# Monday Windsock

E. Forrest Copeland

Science tells us . . . the human body is about 98 per cent water. In my opinion . . . the stock market is about 98 per cent emotion . . . and Monday's stock market performance . . . or more properly a series of Mondays . . . pretty much reflects whether this nation is on balance . . . going to work after the weekends . . . or pessimistic and blue. Dotted throughout the past several months are a series of Mondays . . . in which the market was either weak . . . or tried to rally and couldn't . . . only to be followed by a sell-off. The President's economic message announced over the weekend in mid August seemed to turn the tide . . . temporarily.

THE SIGNIFICANCE of Monday's price action in the stock market . . . to the financial community . . . didn't start just yesterday. Back in the clear-eyed pre-conglomerate days . . . when you could still read a financial statement . . . announcements out of Washington affected the financial community very slowly. Both corporations and government agencies released news . . . willy nilly. But traders and speculators . . . in bull markets . . . had long developed the habit of taking a position on Monday when the news was good . . . and selling out on Thursday or Friday . . . just in case news unfavorable to their position might develop over the weekend.

TRAFFIC THEN began to pick up in the stock market. Instant communications developed instant clout . . . on the prices of both individual equities . . . and sometimes the stock market as a whole. This began to

create disorderly markets . . . or at least extremely volatile price action. With some urging from the regulatory bodies . . . corporations began to announce news of importance . . . after the stock market was closed. And when it was known that significant news might be released during market hours . . . it became fairly common for the New York or American Exchange to suspend trading in an issue . . . pending the release of news.

GRADUALLY the trend has grown . . . so that news of really major importance . . . more and more is being released after the close on Friday . . . or over the weekend. Actually . . . in my opinion . . . it's not a bad idea. It all tends to prevent hasty action based on rumor . . . or at best incomplete information . . . to give time for the dust to settle. The net result has been however . . . to compact the importance of public reaction to weekend news . . . as reflected by the stock market's performance on Monday.

THERE ARE other pieces to the picture but space does not permit further elaboration . . . other than to conclude . . . the stock market has been tied to the news ticker for some time now . . . particularly news out of Washington. For this reason . . . many brokers across the country will be watching closely . . . the stock market's performance on Mondays in the weeks ahead . . . for signs of significant strength . . . reflecting public optimism . . . that things are getting better . . . that the public is again beginning to plan ahead . . . long term . . . with confidence.

BOUND TO BE WRUNG DRY

# Gearing Up For A Boom

John Cunniff

NEW YORK (AP) — Now that new housing is rising at a record rate of more than two million units a year, the furniture industry is gearing up for a boom such as few other industries can look forward to.

Maybe the boom will never be heard; similar forecasts have been made for other industries only to be thwarted by reluctant consumers and unforeseen twists in the market. But the prospects are unusually good.

Everything considered, a number of different factors are falling into place.

The population mix, savings rate, incomes, and personal styles are important elements in the outlook. Internal changes, such as mergers and new distribution methods, are exploiting these elements.

The most important factor, as usual, is the number of housing units going up. Traditionally, furniture sales have shown a curve similar to housing after a lag of one to 1½ years.

Now there are indications that furniture sales may rise

even more than housing starts. Among the reasons: —Should the economy be re-balanced and inflation wrung out, the buying power of many Americans may rise even faster than incomes.

—The savings rate is at an unusually high level, better than 8 per cent of take-home pay. While consumers remain reluctant to lower that rate—spend the money, that is—experience suggests they cannot hold out much longer.

—Compared with recent years, the ratio of installment debt to income is relatively low. Just as there are savings in the bank, there is credit at the bank too.

Moreover, a study by the Chase Manhattan Bank notes: —The number of households in the 25-34 age group, the highest spenders on home furnishings, will increase by 52 per cent in the decade of the 1970s.

—The percentage of families with incomes of more than \$15,000 will almost double from 22 per cent in 1970 to 38 per cent in 1980. And those are com-

parable—not inflated—dollars. —The number of families in the 25-34 age group with incomes of more than \$15,000 is projected to surge from 1.6 million to 6 million in 1980.

Presented with such demographic and income factors, the industry is gradually modernizing. Attempts are being made to speed deliveries which, as most purchasers know, can be maddeningly slow and inefficient.

Delays of three months or so are still common, partly because of the small size of many manufacturers. The Chase study found 6,700 companies making carpets, beds and furniture, and three-fifths of them employed fewer than 20 workers.

New marketing methods already are evident in newspaper ads. Entire rooms are being sold instead of individual items.

Because of their greater size, single manufacturers soon will be able to market pictures, rugs and lamps as well as the bed, dresser and nightables.

# The Tax On Autos

David Lawrence

WASHINGTON — The motor vehicle industry is urging Congress to repeal the 7 per cent excise tax on automobiles and thereby give the economy its biggest stimulus. Leaders in the industry say that a drop in vehicle sales generally is the first indication of economic decline while renewed sales volume usually is a sign that a recovery period is beginning.

ARTHUR E. SUMMERFIELD, who was Postmaster General in the Eisenhower administration and who has been an automobile and truck dealer in Flint, Mich., for 42 years, testified before the House Ways and Means Committee on the importance of removing the excise tax. His son, who is a motor vehicle dealer in Gary, Ind., joined in his testimony. The statement read in part as follows:

"More than 13 million persons — holding one of every six jobs in the nation — are employed in highway transport industries. Over 800,000 businesses are directly dependent on motor vehicle use for their continued existence . . .

"ON JULY 7 unsold new 1971 automobiles in dealers' hands reached a record high of more than 1,800,000 cars in a declining market. Many dealers, already stretched financially, certainly were in no position to order and arrange payment for additional new cars . . .

"The impact and problems of our present situation are beyond the control of the business community alone. During the past year, sales of cars from abroad rose to 14 per cent of total U.S. sales and are now running about 16 per cent. On the basis of a 10-million car year, this

means 1,600,000 vehicles.

"THIS PERCENTAGE shows definite signs of increasing at an even faster rate, and without help from you the aggressive distribution plans of foreign car manufacturers could well cause them to actually dominate the American car market.

"As dealers of domestic cars and trucks, we must compete against vehicles built in Japan where labor wage scales are about one-quarter of ours. We must also compete with vehicles built in West Germany where wages approximate half of ours. This, of course, results in unequal competition and is reflected in the automotive employment trend in each of the three countries."

MR. SUMMERFIELD pointed out that direct employment in this country in the manufacture of motor vehicles declined by 91,000 jobs last year. But in West Germany, jobs in the motor vehicle industry climbed from 560,000 in 1969 to 731,000 this year. Similarly, Japanese employment in transportation manufacturing rose from 514,000 in 1969 to 754,000 in 1970.

MR. SUMMERFIELD'S statement declared that repeal of the automobile excise tax would mean that an average of \$200 would be rebated "to the car buyer, not to the dealer, and not to the manufacturer, and it would not be inflationary." In summing up, Mr. Summerfield said:

"We strongly feel that repeal of these automotive excise taxes in total would have the great all-around benefits of any single action to stimulate our economy."

# Editorials And Opinions The Big Spring Herald

Robert N. McDaniel President and Publisher

Joe Pickle Editor

4-A Big Spring (Texas) Herald, Wednesday, Sept. 22, 1971

Hal Boyle

NEW YORK (AP) — Remarks that an author gets tired of hearing:

"Why don't you just dash off a book on sex? They all make money."

"So you're an author? That's funny. You don't look like an author. I thought all authors had beards and wore thick-lensed glasses."

"I hear you've written a new book. I love to read. Why don't you send me a copy when you can get around to it?"

"Since you're a writer, I suppose you must have been a boss buddy of Ernest Hemingway. Tell me what he was really like? Was he mostly a bully, a bull thrasher or a boozier?"

"If my wife read one of your books once, I don't read much myself—never did have much of a taste for literature."

# So You're An Author?

"If you want to get rich, write a book on sex. Everybody this side of the cemetery is interested in sex."

"Do you live in a garret and believe in free love?"

"As your publisher, Harry, I can't account for this. We printed only 5,000 copies of your last novel, but already we have had 6,000 returned."

"Oh, yes, I browsed through one of your books in the public library only last year. I forgot the name of it and what it was all about, but I remember thinking at the time that it sure had a lot of deep thoughts in it."

"For writing books like this you get paid?"

"I have a nephew who used to be an author. Now he's in real estate and says he's eating a lot more regularly."

"I admired your last book very much, but confidentially Mr. Inkwell and just between us, what were you really trying to say?"

"What else do you do for a living, Mr. Inkwell, besides just write novels?"

"Shall I pour you another martini, Mr. Inkwell? I've heard that most authors would rather drink than write."

"As your publisher, Harry, I'm not asking you to sell your soul by putting sex in every page of your next novel. So let's compromise. How about every other page?"

Billy Graham

About a month ago I was replaced by a new teacher for the Sunday School class I taught for many years. Since then I have lost the desire to attend church and haven't been able to pray. What is wrong with me?

Naturally, you were disappointed when for some reason or other you were thrust out of a place of service, which obviously you enjoyed. But, as Christians, we have a higher interest than a conspicuous place of service — we owe our allegiance to Christ. Many people are in the church for the wrong reasons: for sociability, for prominence, for reasons of pride. Our

love for God should be the motivation for attending the house of the Lord; not position, not influence, and certainly not selfishness.

You ask God to forgive you for acting childish. Evidently you have great gifts and great influence. If you remain away, your influence will be jeopardized. But most of all, God will not be honored by your peevishness, and your absence from His Presence. Christianity makes us big, not petty, and God has given you the opportunity of showing how magnanimous you can be, and thus glorify Him.

# A Devotion For Today . . .

Jesus saw the crowds and went up a hill, where he sat down. His disciples gathered around him, and he began to teach them. —Matthew 5:1-2 (TEV)

PRAYER: Dear heavenly Father, help us not to be afraid to do Thy will, and help us to carry Thy word to others, Amen.

Schiemenz Spraberry—Southland Royalty No. 1 Tubot, 1,230 from the north and west lines section 26-28-1N, T.47, R. 13 miles west of Knott; total depth 8,150, set 5 1/2-in. bottom, plugged back 8,120, perforations 8,045-8,273, acidized 2,000 gallons, fraced plus 24,000 gallons; pumped 135 barrels oil per day, 45 barrels water, gravity 37.4, gas oil ratio, 817-1. This is the second well in the field and five-eighths mile southeast extension.

## Two Submit Resignations As Directors Of YMCA

The Big Spring YMCA board of directors presided over by Mrs. Clyde Thomas, Tuesday acknowledged the resignations of board members Don Farley and Maj. Phil Raigo, both of whom have moved from the city.

Capt. Jay Miltstead was appointed to fill the vacancy of Maj. Raigo, whose term expires in 1972. Farley's term expires at the end of this year. The board expressed appreciation for the two men's service to the YMCA and the community.

The finance reports for June, July and August were presented by treasurer Jack Worsham, as was an audit report prepared by Max Green. The audit report was accepted by the board of directors.

Eddie Trice, YMCA physical director, was presented with certification as a YMCA senior director by Curt Mullins, YMCA executive director, representing the national board of the YMCA of the United States.

Committee reports included the physical education committee report by Eddie Trice summarizing the summer recreation program sponsored by the city of Big Spring, the Big Spring Independent School District, the United Fund and the YMCA.

According to Trice the learn

to swim program had an attendance of 455; the summer fun program in the parks, 2,907; the basketball program, 775; and the Lakeview summer fun program, 4,533. Enrollment in the YMCA summer program at the central YMCA was 957.

The current program, which started in September, has an enrollment of 464 in the physical education programs and 195 in the club programs to date.

Reports were heard from Sam Dawson, program director of the Lakeview division; Ray

Thomas, buildings and grounds committee; Curt Mullins, on the fall program; and Frank Hardesty, on his attendance at the national council of YMCAs meeting held in Washington, D.C., in the latter part of May.

Dr. Floyd Mays was re-appointed to serve a five-year term as a trustee of the YMCA trust fund.

The board members were urged to take an active part in the upcoming United Fund drive to help secure funds for the United Fund and the YMCA.

## Bond Denied In Assault Of Teenage

LAMESA — Bond has been denied in the case of the three Brownfield men charged with the rape-beating of a 14-year-old Lamesa girl Friday.

Peace Justice A. L. Standifer had originally set their bonds at \$50,000 each, \$25,000 on the rape charges and \$25,000 on the charges of assault with intent to murder. Peace Justice Standifer denied the men bond Monday.

Two juveniles are also in custody in connection with the attack. Dawson County Sheriff Guy Kinnison said today that the two juveniles will be taken to juvenile court for disposition of the case against them.

Denise McSchooler, 14, daughter of Mr. and Mrs. Fred Smith, 1510 N. 9th, is listed in serious condition today in the Lubbock Methodist Hospital intensive care unit.

The McSchooler girl was found on a dirt road approximately three miles northwest of Lamesa Friday by a local farmer and taken to Medical Arts Hospital. The girl was then rushed to the Lubbock hospital.

A description of the car the men were driving given to Dawson County authorities led to the arrest of the five suspects Saturday in Brownfield.

Charged are Christoval Alcora, 25, Ernesto Garcia, 19, and Jess Garcia, 17.

## Snyder Burglary Suspect Arrested

Snyder police have in custody a suspect in the burglary at Rogers Mens Wear Inc. which occurred on Sept. 15, and is similar to the burglary of Prager's Men's Store here Sept. 6, according to Big Spring police.

The arrest was made Friday night in Lubbock by authorities there. The arrest was made possible due to a Snyder patrolman seeing the car which the suspect was driving in Snyder the night of the burglary, and taking the license plate number.

The car fit the same description as one seen by a witness of the burglary, according to Avery Falkner, local police detective.

Over \$10,000 worth of mens suits, trousers and sports coats were stolen in the local burglary.

The burglary in Snyder made the fourth burglary of that type this month in the West and Northwest Texas area. On Sept. 6 burglars broke into a shop in Merkel, and burglary of a shop in Borger, north of Lubbock, was reported Sept. 8. In each of the burglaries the method of operation has been the same and the same merchandise has been taken.

"We hope that through the questioning of the suspect in Snyder, all the burglary cases can be solved. Three other suspects have

## Couple Gives Ranch Items To Museum

Heritage Museum had two interested visitors Tuesday — among the latest donors to the exhibit.

Mr. and Mrs. Nat Shick, who live only a block from the museum, had not been able to visit because of health reasons, but this did not prevent Shick from giving several items which have fit into the current ranch exhibit.

Included were a weathered example of a handmade wagon wheel with a lock pin instead of the later hub nut; a pair of leather saddlebags used to carry the mail (Mr. Shick was for many years postmaster here); an old chukbox used in early-day roundups; a number of early brandons; an oxen yoke used by his family in coming from Illinois to Texas.

He and Mrs. Shick said they were amazed at the items on display and were particularly fascinated by reproductions from the collection of pictures of pioneer Big Spring.

The ranch exhibit will continue through September and October and will be succeeded by one honoring pioneer women. Those who have materials which they will give to the museum, or which they will loan for the duration of the women's exhibit, are asked to contact the museum, at Sixth and Scurry.

## HCJC Slates Flower Class

Response to a short course in flower arrangement has been so good that the class has been scheduled to start Thursday evening at Howard County Junior College.

Dr. Charles Hayes, administrative dean and in charge of the community adult program, said that his response also reflected keen interest in other short courses. One has been booked for cake decorating as a result. This will begin Oct. 5 at 7 p.m. in Room 102 Science Building, Mrs. Marilee Myers, who has 16 years experience in this art, will be the instructor.

Those interested in these two courses, or in having a short course offered in any other subject are asked to call Dr. Hayes at the college. A short course will be offered in any legitimate subject if there is enough to sign to justify an instructor, he said.

## Bullet Entered Jackson's Back, Autopsy Discloses

SAN RAFAEL, Calif. (AP) — Black militant George Jackson was killed by a bullet which entered his back, not his head, during an alleged escape attempt at San Quentin Prison in which six men died, a final autopsy report says.

A preliminary report by Marin County Coroner Donovan O. Cooke had said the bullet entered Jackson's head and exited through his back.

Responding to the final report issued by Cooke Tuesday, prison authorities repeated their original report that Jackson was shot to death by a tower guard as he attempted to escape the prison.

During the Aug. 21 violence, three guards, Jackson and two other convicts were killed. Prison officials say a gun was smuggled into the prison by attorney Stephen Bingham, who is being sought on a murder warrant. Jackson hid it in an Afro-style wig and pulled it out to start an abortive escape attempt, they said.

The prison said at the time Jackson was shot by a guard in a 20-foot high tower. San Quentin Warden Louis S. Nelson, responding to newsmen's questions about the new

autopsy report, said the tower guard reported Jackson was hit as he ran in a crouched position with his back to the tower.

"It seems perfectly logical to me he might have been hit low in the back and the bullet coursed upward," Nelson said.

"According to our reports, Jackson was struck by a bullet fragment and was knocked down and he got up and was running in a crouched, bent-over position."

Nelson again denied allegations that Jackson was murdered by guards—shot on the floor and his body dragged outside.

The mother of the 30-year-old convict-author said in New York Tuesday that her family is seeking to petition the United Nations to investigate the death.

"We haven't heard anything from any official about George's death—only what I read in the newspapers," said Georgia Jackson. She claimed that neither the U.S. government nor the State of California would conduct an unbiased investigation.

autopsy report, said the tower guard reported Jackson was hit as he ran in a crouched position with his back to the tower.

"It seems perfectly logical to me he might have been hit low in the back and the bullet coursed upward," Nelson said.

"According to our reports, Jackson was struck by a bullet fragment and was knocked down and he got up and was running in a crouched, bent-over position."

"We haven't heard anything from any official about George's death—only what I read in the newspapers," said Georgia Jackson. She claimed that neither the U.S. government nor the State of California would conduct an unbiased investigation.

## Enrollment Gains, But Still Low

Enrollment in Big Spring schools gained seven children last week to amount to 7,128, which is 226 less than the comparable time a year ago.

Secondary schools were down 106 and elementary schools were off 172, but there were 34 more in the kindergarten program and 52 more in the special education classes.

In the elementary level, the first grade was off 106 from a year ago, the second grade down 82, third down 39, but the fifth grade was virtually static and the sixth grade up 23.

Goliad Junior High is down 39 at 662, Runnels is off five at 558, and senior high is down 62. Totals as of Sept. 17 showed 3,624 elementary, 3,258 secondary, and 247 special education.

Three other suspects have

## ACCUSED OF STEALING SCREW, ASKS \$150,000

DALLAS (AP) — A man allegedly arrested for shoplifting a screw filed a \$150,000 damage suit in federal court Tuesday.

George W. Slater claimed he carried the screw from his home to match it up with the kind of screw he needed. He bought some screws and a light bulb and had just left a Montgomery Ward store when he was stopped and challenged by store detectives, the suit states.

A woman detective allegedly accused him of stealing the screw he had in his pocket and a man detective with her was said to have ordered him to shut up because "he had been caught red-handed stealing."

Slater, an electrician, was charged with theft but no one appeared for Montgomery Ward when the case came to court and it was dismissed.

The suit states Slater was exposed to "public hatred, contempt, ridicule and financial injury" causing him to suffer "severe mental distress . . . severe headaches and insomnia."

## Scout Council Meeting Here

District chairmen and chairmen of the operating committees in various districts of the Buffalo Trail Council will convene here at 6:30 p.m. Thursday in the Fellowship Hall of First Methodist Church.

They will also join with council operating committees for planning sessions.

The meeting will be preceded by the quarterly session of the executive board, headed by Dr. Bill Shaw, Odessa. The meeting here marks the beginning of a new practice by Steve Odum, council executive, in rotating the locale of the quarterly meetings into the principal area of the council.

## DEATHS

### E. E. Baker, Thursday Rites

E. E. Baker, 79, died early today in a Lubbock hospital. Funeral will be at 2:30 p.m. Thursday in the Church of Christ of Coahoma, with Ralph Beistel, officiating, and burial in Trinity Memorial Park under direction of River-Welch Funeral Home.

Mr. Baker was born July 17, 1892, in Kerr County, and had ranched in Howard County since 1932, moving here from McCulloch County. He was married July 17, 1910, in Coleman to Lora Rose.

Survivors include his wife; two daughters, Mrs. Jess Watts, Littlefield, and Mrs. Truman Rich, Stanton; four sons, Boyd Baker and Rube Baker, both of Coahoma, and R. B. Baker and Alvin Baker, both of Big Spring; 23 grandchildren; 23 great-grandchildren; and one sister, Mrs. Maggie Briggs, San Angelo. Grandsons will be pallbearers.

BUSINESS END OF MOSQUITO — The stinger or proboscis of a mosquito may have felt this big as it penetrated your skin on a summer night. This greatly magnified photograph of the member of the Culicidae family was made by biologists at Argonne National Laboratory using a scanning electron microscope. The proboscis is inserted into a victim to suck blood.

## WEATHER

NORTHWEST TEXAS: Mostly cloudy through Thursday. Scattered showers and thundershowers tonight, becoming widely scattered Thursday. Hot quite to cool Thursday. Low tonight 47 north to 62 south. High Thursday 62 north to 76 south.

SOUTHWEST TEXAS EAST OF THE PECOS: Cloudy and cooler in extreme north portion with occasional rain through Thursday. Elsewhere cloudy and mild at night and in morning hours, becoming partly cloudy in the afternoon. High this afternoon and Thursday 76 to 84. Low tonight 58 extreme north to 74 southwest.

SOUTHWEST TEXAS WEST OF THE PECOS: West of the mountains partly cloudy and mild except north portion and turning cooler with chance of showers through Thursday. Elsewhere partly cloudy with chance of showers or thundershowers with occasional rain tonight through Thursday. High 78 to 86. Low tonight 49 to 60.

# Connally Says Nixonites Will Continue Import Tax

WASHINGTON (AP) — Secretary of the Treasury John B. Connally says the Nixon administration will keep the 10 per cent import tax surcharge in effect until the balance of payments deficit shows signs of improvement.

Connally appeared Tuesday before a closed session of the House Ways and Means Committee amid reports President Nixon would in mid-October unveil his proposals for what the administration calls Phase Two of the new economic program. Nixon has not revealed what policy will be when the freeze ends Nov. 13.

## PRICE INDEXES

Connally told newsmen after the House session, however, the surcharge would have to be kept in effect "pending further developments at least until they give us substantial hope that the payments can be balanced over a period of years, a relatively short period."

The latest consumer price index was to be announced today,

and Secretary of Labor James D. Hodgson scheduled a news conference to discuss behavior of price indexes during the Nixon met Tuesday with representatives of consumer organizations, the sixth of his sessions with major economic groups.

## Says Nixon 'Game Plan' Too Little, Too Late!

DALLAS (AP) — President Nixon's economic "game plan" was a case of too little too late, Lawrence O'Brien, chairman of the Democratic National Committee, said Tuesday. O'Brien spoke at a political forum week gathering of students at Southern Methodist University. The former postmaster general said Nixon's major failing has been the "failure to lead."

"It took him an inordinate amount of time to determine that his game plan was not working. The next 60-90 day period will give us some evidence and guidance as to whether this government is competent to govern," O'Brien said.

After the meeting, Senate Republican Leader Hugh Scott of Pennsylvania said Nixon would probably go on nationwide radio and television to announce the measures that will form Phase 2.

Scott spoke of the tentative mid-October date, saying this would "give everyone 90 days to prepare themselves" for the next phase.

"BETTER BE FAIR" Representatives of consumer organizations told Nixon his post wage-price freeze stabilization program "better be fair" to wage earners and that big business should share the economic sacrifice, a spokesman said.

The groups urged controls on interests, profits and dividends and asked for full participation in the program so consumers "once more will not be left holding the bag."

CLASSIC ELDORADO CONVERTIBLE — Introduced in 1971, the classic Eldorado Convertible shows the crisply sculptured individual front and rear fender treatment. This and other models in the Cadillac's 1972 line are available at Jack Lewis Buick and Cadillac, 403 Scurry.

# Cadillac Adds To Durability, Safety, Luxury For 1972 Cars

Significant engineering improvements, distinctive styling refinements and an increased impact resisting bumper system add emphasis to the durability, safety and luxury of all 1972 Cadillacs, available at Jack Lewis Buick and Cadillac, 403 Scurry.

In 1972, Cadillac's 70th Anniversary Year, the division will offer nine models in three series—Calais, De Ville and Fleetwood.

The 1972 front bumper impact capability has been increased on all Cadillacs to withstand a five mile-an-hour car-to-car situation. Bumper bars, vertical bumper guards with rubber impact strips, mountings and reinforced frame are standard on all Cadillacs.

The new Cadillac impact resisting system significantly increases protection of the front end sheet metal, lights and other components. Optional rubber impact strips extend the full width of the bumper face for still greater protection. These strips, with a fine white bead, complement the horizontal motif and add to the styling newness.

The traditional Cadillac cross-hatch grille has horizontal accent bars, and appears to float within the bold new molding that frames the grille.

The side view of the car highlights the tubular shape of the body. A strong design line from the top of the front fender blends into the sculpture of the body and sweeps to the rear bumper. A bright body molding gives a fine accent to the long side view and adds paint protection in parking lot situations.

Side marker lights are blended in the front fender cornering lamp and are a part of the side body molding at the rear.

Maintaining its top of the line position, the Sixty Special Brougham has the padded roof center pillar seam eliminated and the rear window molding is bright chrome.

In the rear the bumper is refined and features an optional rubber impact strip across the width of the bumper bar face. The vertical tail lamps contain the stoplight, directional signal and taillight with a winged crest on each lens.

The Eldorado for 1972 will be as exciting as ever and feature the tailored and chiseled lines that set this luxury personal car apart from all others.

The vertical character of the fender ends in the front and rear and crisp profiles throughout the entire car highlight the Eldorado.

# Cadillac '72

**Sedan de Ville, more luxurious than ever. There's every reason to believe that Sedan de Ville will continue to be the most popular Cadillac of them all—the luxury car model enjoyed by more motorists than all others. It has the look of luxury—from its distinctive new grille to the new jewel-like finish on interior metal surfaces. It has the feel of luxury—with even more comfortable seating. It has more of what adds up to lasting value. Like Cadillac's new bumper system for increased front-end protection. Sedan de Ville—more than ever the popular choice.**

## One great car after another.

**Eldorado, even more distinctive for '72. There's the incomparable Eldorado Coupe, shown here, and the stunning new Eldorado Convertible, the only luxury convertible built in the land. With a massive new grille design, they are even more elegant, even more exciting. Some things we didn't change. Such as the 8.2 litre V-8 that happens to be the world's largest production passenger car engine. The precise handling of front-wheel drive and variable-ratio power steering. The Eldorados of 1972 are, more than ever, the world's most elegant personal cars.**

Out of a 70-year tradition of excellence come nine great Cadillacs for 1972. In addition to the models above, you can choose from the magnificent Fleetwood Sixty Special Brougham... the new Coupe de Ville and its luxury with the youthful touch... the exciting new Calais Sedan and Coupe... and the most aristocratic of automobiles, the new

Fleetwood Seventy-Five nine-passenger Sedan. Finally, there's the Seventy-Five limousine, the only limousine built in America specifically designed as a limousine. Year after year. Model after model. Time after time. Cadillac '72 is one great car after another. Because Cadillac does not reject the past, but builds on it. Carefully.

Beautifully. With Fleetwood coachcraft by Fisher. With that rare blend of styling continuity and contemporary flair that tells you at a glance that this is Cadillac. You'll see what we mean when you see your authorized Cadillac dealer. The Standard of the World still stands alone.

## 'The Jesus Revolution' Applauded By Graham

DALLAS (AP) — Dr. Billy Graham, the Southern Baptist evangelist, applauded Tuesday night what he describes as "the Jesus revolution" among young people.

As a soft breeze flipped the pages of a Bible balanced on his outstretched hand, he declared, "Every American should thank God for this new breath of fresh air that is sweeping the country among the youth."

A crowd of 41,300 heard him preach at Texas Stadium in suburban Irving, bringing the total at this midpoint of his Greater Southwest Crusade to 226,000. Singer Ethel Waters and the New World Singers, a young trio from Chicago, joined the minister on a platform erected at the 20-yard line in the new sports arena.

"Five years ago," Dr. Graham said, "the majority of the people attending the Crusades

were middle-aged and older. Today it is the reverse. . . .

"I find myself preaching almost exclusively to young people, and the older people who attend respond to it as well."

Declaring that "technology does not satisfy the human heart," the evangelist observed that at "no time in the history of America have so many children turned to Jesus Christ as now."

Dr. Graham said that through spiritual awakening, young people are finding means to cope with drugs and "vicious habits."

"Spiritual renewal is coming among the young," he said. "Perhaps the prophecy 'A little child shall lead them' will come true. . . .

"Unless America has a spiritual awakening, I see very little hope for our survival as a free democracy. The young people of our generation give me tremendous hope."

## PARKS, WILDLIFE MEMBERS NAMED

AUSTIN (AP) — Gov. Preston Smith named the three new members of the Parks and Wildlife Commission Tuesday that will increase the size of the agency to six members.

The new members are Max L. Thomas, 50, Dallas oil producer and president of the Dallas Gun Club; Joe K. Fulton, 40, vice president of the Plains National Bank at Lubbock, a rancher and investor; and Robert Burleson, 33, of Temple, chairman of a joint committee on air and water pollution of the Bell County Medical Society and the Bell-Lampasas-Mills County Bar Association.

The present three members are Pearce Johnson of Austin, chairman; Harry Jersig of San Antonio and Jack R. Stone of Wells.

The commission, which has been divided over several issues in recent years, was increased to six members in the recent legislature with the support of the governor.

Smith also appointed Robert C. Keppler of Dallas a member of the State Board of Pharmacy. He succeeds the late Sam G. Wood.

## No Rush To Call Special Session, Says Gov. Smith

AUSTIN (AP) — Gov. Preston Smith says he is in no hurry to call a special spending and taxing session of the legislature, despite the state comptroller's worries about timing.

"He's not the governor," Smith told reporters with a grin. Only Smith can set the date for a special session.

June—the governor's preferred month for the session—would be

too late to pass taxes that must be in the treasury to cover Sept. 1 welfare expenditures, a member of Comptroller Robert S. Calvert's staff said last week.

**DON'T PANIC**

"We're not going to panic," said a Smith aide, who said he was given a crash course on the cash flow problem Tuesday.

Smith said Tuesday that the longer the session can be delayed the more accurate will be Calvert's estimate of state revenue—a crucial feature of tax decisions.

## Let 'Em Leave If They Want To, Says Pen Guards

SACRAMENTO, Calif. (AP) — A group representing California prison guards wants the state to let self-proclaimed revolutionary inmates leave the country if they want to, but the state's prison boss is cool to the idea.

The California Correctional Officers Association directors voted unanimously to urge state and federal officials to look into the mechanics of letting the revolutionary inmates renounce their U.S. citizenship and go to any country which would accept them.

## Upholds Laws Barring Labor-Agencies Pacts

SAN ANTONIO (AP) — State laws barring collective bargaining contracts between public agencies and labor groups were upheld by a three-judge federal panel Tuesday.

"While it is clear that public employees have a constitutionally-protected right to self-organization, this right has never been extended to include collective bargaining through a recognized group representative," the panel ruled.

## Upholds Laws Barring Labor-Agencies Pacts

The law also bars public agencies from entering into collective bargaining contracts.

The judges held that public employees, in contrast to those in the private sector, do not need the right of collective bargaining to protect them from "arbitrary and discriminatory action" of employers, since public employers are prohibited from such actions under the U.S. Constitution.

## Uncle Sam Should Drop Drawers?

WASHINGTON (AP) — Rep. Larry Winn Jr., R-Kan., says, "The government should drop its drawers."

Winn says the government could save at least \$50,000 annually by buying conference tables without drawers.

"How many times have you used a conference table drawer for other than discarding chewing gum and cigarette wrappers?" he asked in a statement released through his office.

## Horoscope Forecast TOMORROW —CARROL RIGHTER

**GENERAL TENDENCIES:** The early part of the day has some influences which can stir up arguments or other inharmonious conditions that could cause harm or accident if you are not careful. However, the afternoon and evening are fine for making up your mind, going data, building a new awareness of what is helpful to you.

**ARIES (March 21 to April 19):** A friend and an advisor are at loggerheads, so avoid them both and get busy keeping promises you have made to others. You have hurt another's feelings. Do your best to make amends.

**TAURUS (April 20 to May 20):** Try not to get into that quarrel between a partner and an official, or they both turn their anger on you. Busy yourself with matters of hand. Don't spout off about politics.

**GEMINI (May 21 to June 21):** You had better continue with important work at hand instead of flying off for some attractive pleasure which could result in nervous frustration, anxiety. Show you are a sensible person.

**MOON CHILDREN (June 22 to July 21):** Listen to what a money-minded associate has to say in a.m. and get busy with work at hand. The life of a woman is best time for recreation and desire. Your hunches are off base, so forget them. Use logic.

**LEO (July 22 to Aug. 21):** Associate

## Sen. Harris Mulls Tough Uphill Fight

HOUSTON (AP) — U.S. Sen. Fred Harris, D-Okla., said Tuesday he is making up his mind about formally announcing for the Democratic presidential nomination and will disclose the decision Friday in Washington.

**If the 7% excise tax is repealed, and you bought a Volkswagen after Aug. 15, you're entitled to a refund. If you bought one before, you're saving money anyway.**

If Congress votes to repeal the 7% federal excise tax on automobiles, and makes it retroactive, and you bought one of our cars after Aug. 15, lucky you. It means you'll be getting back a nice amount of money from Volkswagen of America. (Something like \$103-\$171 depending on which car you've bought.) But if you happened to buy a Volkswagen before August 15, don't feel deprived. You're still saving over the average car about \$1500 on the car itself, \$135 a year on gas, and \$who-knows-how much on repairs.

# Black Caucus Names Two Solons To Its Purge List

WASHINGTON (AP) — The congressional Black Caucus has begun a purge list of white congressmen it says are voting against the interests of blacks in their districts. The target congressmen are those from closely-contested districts where black voters hold the balance of power. The first two members to make the list were Nick Galifianakis, D-N.C., and Romano Mazzoli, D-Ky., who voted last week against a tough job equality enforcement bill backed by civil rights groups. It lost by five votes.

**CIVIL RIGHTS**  
"The Black Caucus considers this bill to have involved the most fundamental civil rights issues yet to be resolved," said the 13 House members who make up the Black Caucus in a statement Tuesday. "Those members who refused to vote in support of this bill simply do not deserve voter support from the black community," they said.

Galifianakis, whose district is one-fourth black, was re-elected to a fourth term last November with a majority of 52.3 per cent of the vote. Mazzoli, with a 15 per cent black district, won a first term by 211 votes—a 50.1 per cent margin.

"The black community overwhelmingly supported both," the Caucus said.

In last week's vote Galifianakis and Mazzoli supported a Republican-backed substitute which was adopted by a vote of 202 to 197. It is now awaiting Senate action.

## AFTER SLAUGHTER Henderson Recommended U.S. Propaganda Campaign

FT. MEADE, Md. (AP) — After the slaughter of civilians at My Lai, Co. Oran K. Henderson recommended a propaganda campaign to counter Viet Cong claims that "American devils" killed "500 people with empty hands," his court-martial jury has been told.

Henderson's report of April 24, 1968, read into his trial record Tuesday, concluded that Viet Cong allegations of 450-500 killed at My Lai "was obviously a propaganda move to discredit the United States troops."

Henderson, 51, a career officer who commanded the America's 11th Brigade, is being tried on four charges: that he failed to conduct a proper investigation, did not report allegations of war crimes to superiors and that he lied twice to the Army board of inquiry led by Lt. Gen. William R. Peers.

**RECESS**  
Wilson, now stationed in Spain, was in the inspector general's office when he first began investigating the My Lai attack. He later was assigned to the Peers panel.

Wilson was asked about the adequacy of Henderson's investigation. He replied: "I wasn't conducting an investigation to see if any investigation had been made, I was looking for facts about My Lai."

Under cross-examination by Henderson's civilian lawyer, Henry B. Rothblatt, Wilson said that during his investigation he did not feel that Henderson had done anything wrong.

### OTHER NAMES

The caucus called the vote, "a devastating blow for those who seek equality of opportunity in employment." It said 35 members from districts with large black constituencies voted for the substitute, but Mazzoli and Galifianakis were singled out at this time because they had such narrow election victories. Neither congressman was available for comment on the action.

A caucus spokesman said other names will be published after future votes. The caucus has been compiling voter registration information by districts for months in preparation for a campaign to make Congress more responsive to the needs of blacks. It has determined there are 171 districts in which blacks make up at least 10 per cent of the electorate.

### LOOKING FOR FACTS

The trial is in recess today. Thursday and Friday will be taken up with nonjury sessions to continue a hearing into the circumstances of a missing document.

Col. William V. Wilson, who conducted the Army's original investigation into the March 16, 1968, My Lai assault, testified that Henderson sent him a copy of the April 24 report.

"At no time were civilians gathered together and killed," Wilson read from the colonel's report to Samuel Koster, then a major general and commander of the Americal Division. The report said "128 Viet Cong soldiers were killed in action. Twenty noncombatants were inadvertently killed by artillery and cross-fires between U.S. and enemy forces."

Testimony has shown that U.S. troops who swept through the South Vietnamese hamlet met no enemy. Lt. William L. Calley Jr., a platoon leader, was convicted of murdering 22 Vietnamese civilians.

## 'Tex' Watson Capable Of Murder Plot?

LOS ANGELES (AP) — Although Charles "Tex" Watson was mentally ill when he participated in the Sharon Tate murders two years ago, a psychiatrist says he was capable of premeditation.

Dr. Grosvenor Bailey, a psychiatrist called by the prosecution to rebut testimony by other doctors that Watson could not have plotted the slayings, said Tuesday psychotic persons have premeditated murders.

Watson's capacity to plan murder, Bailey said, was illustrated by the fact that in the Tate killings he "met each task in the murders rapidly and with appropriateness to his purpose."

The psychiatrist said no one could have coached Watson to kill Stephen Parent because no one knew Parent would be at the Tate house. Parent was slain departing the quarters of the Tate home's caretaker.

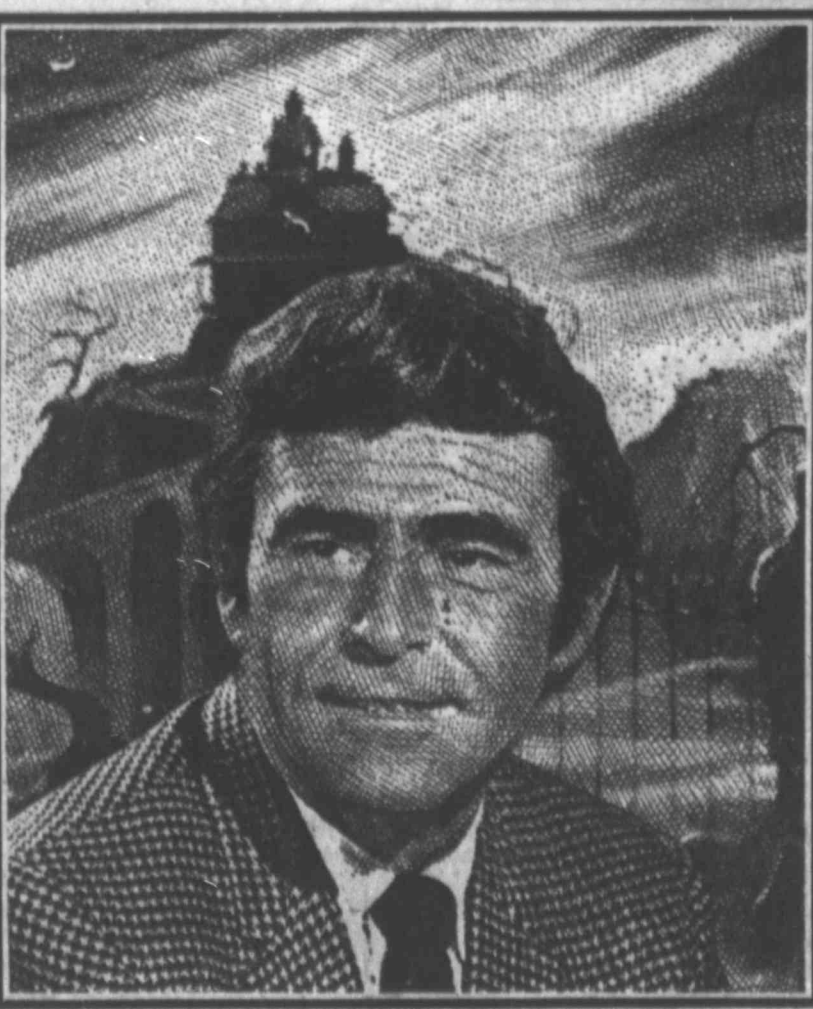

Defense attorneys, who rested their case, admit Watson's role in the killing of actress Tate and six others in 1969 but they contend Watson, 25, was a helpless robot following the will of cult leader Charles Manson.

## New Quarantines To Control Ants

WASHINGTON (AP) — New federal-state quarantines to control fire ants have been extended to 17 more southern counties, says the Agriculture Department.

The quarantines place restrictions on movement of certain products, including soil, plants with roots, grass seed, hay and straw, logs and second-hand earth-moving equipment.

Counties placed on the quarantine list included: Arkansas—Bradley and Lafayette; Florida—Collier; Georgia—Washington; Mississippi—Bolivar; South Carolina—Aiken, Edgefield, Georgetown, Kershaw, Marlboro, Sumter and Williamsburg; and Texas—Collin, Harrison, Panola, Rush and Shelby.

**CUTLASS INCLUDED IN RESTYLING** — Oldsmobile this year incorporates improved bumpers, smog-control and front and rear improvements in its 25 models. The 1972 line of Oldsmobiles is now on display at Shroyer Motor Co., 424 E. 3rd.

## Oldsmobile Incorporates Major Auto Advancements

Oldsmobile's beautifully restyled 1972 cars incorporate several major engineering advancements, including an innovative spring steel bumper support system designed to greatly reduce low impact collision damage. The line is now being shown at Shroyer Motor Co., 424 E. 3rd.

The new system is being introduced initially as the front bumper of the 1972 Delta 88's, 98's and the Custom Cruiser station wagon. An Oldsmobile exclusive, the spring steel bumper support system permits these 1972 Oldsmobiles to strike a stationary object or another car at minor (parking lot) speed without damage to the bumper bar itself, the surrounding sheet metal, or any other part of the car.

The spring steel supports yield upon impact and spring back to their original position.

In addition, both front and rear bumpers of the 88's and 98's, and the front bumper of the Toronado are equipped with protective rubber strips for better light impact per-

formance. Bumper guards continue optional on the 1972 Cutlasses, Delta 88's, 98's, and Custom Cruiser.

In other areas of public concern, the 1972 Oldsmobiles are being built with an even more intensive quality control system. The company has expanded its reliability recheck program to cover 100 per cent of production at its main assembly plant in Lansing, Mich. All cars undergo hundreds of inspection checks during assembly, but, in addition, are now re-inspected upon completion as they pass through a brand new 45,000 square foot facility. In the reinspection process, the car's electrical and mechanical operations are fully rechecked, as are the dial and gauge functions, lubricant levels, and the underhood, underbody and trunk areas.

A third area of public concern is the control of automotive emissions. Here, too, Oldsmobile engineers have more than met the increasingly stringent Federal and California exhaust emission requirements. All of Oldsmobile's 1972 engines

are equipped with valve rotators on both intake and exhaust valves, a feature pioneered by Oldsmobile in 1970. Compared to uncontrolled engines, the 1972 Oldsmobile power plants emit less than 1/6th the amounts of hydrocarbons and carbon monoxide.

In styling, all 1972 Oldsmobiles have undergone substantial front and rear improvements with specific exterior appearance changes and bright new interiors.

The number of Oldsmobile models in 1972 is reduced from 28 to 25. The Delta Custom series has been discontinued, leaving the Delta 88 and an expanded Delta Royale line of cars. The Delta Royale is produced in four models: hardtop coupe and sedan, a pillar sedan and a convertible.

The 4-4-2, formerly marketed as a separate series, is now optional in the Cutlass coupes and Cutlass Supreme convertible. The handling characteristics of the 4-4-2's suspension system and power train are now more widely available.

**HAMPTON, Va. (AP)** — Two young servicemen will launch a 9,000-mile motorcycle tour of the United States Thursday in an effort to convince the nation's youth that today's military really is changing.

The tour was the idea of Spec. 4 Douglas Reitmeyer who says he once considered fleeing to Canada to escape the draft. He said he finally enlisted with the idea that "if I didn't like it I'd go AWOL."

Reitmeyer and Spec. 4 Michael Speegle, both 22, start their tour in New York Thursday.

"They were in Hampton Tuesday after a briefing by officials at the Army Recruiting Command, but they are adamant on one point—they may be the Army's motorcycle missionaries, but they are not motorized recruiters."

**CIVILIANS AT HEART**

"I told them that if they won't let me say exactly what I want to say then I don't want to go on the trip," Reitmeyer said, explaining he doesn't want the young people he meets to associate him with recruiting.

"I'm a civilian at heart and I want to approach these kids on that level," he said.

Reitmeyer's view of the **UF Workers Hold Meeting**

Bob Hickson, chairman of the employe division of the United Fund, held a meeting for his workers at the Chamber of Commerce conference room Tuesday.

The workers picked up their cards and Mr. Hickson urged them to begin working them as soon as possible in order to have them finished by the last of October.

The United Fund drive will officially kick off Oct. 4 and this year's slogan is "If you don't do it, it won't get done. Give the United Way."

Army changed drastically a month after he enlisted. That he changed his mind about going AWOL and decided the Army could not only be toler-

ated, it could be enjoyed. The changes in Army life, he said, "came so quickly that they kind of stunned everybody."

**FANTASTIC**

Instead of standing five formations a day, he was standing four. Then only one. And weekend passes were extended to allow more travel, two-man rooms became the rule rather than the exception and "the food was getting fantastic."

About that time he began to hatch the motorcycle missionary idea, but the clincher came last Christmas when he suggested to his company commander at Redstone Arsenal, Ala., that the unit should hold a Yule party.

The commander agreed, everybody chipped in and the unit brought 42 cases of beer.

"I thought this was really fantastic," Reitmeyer said. "Here I am a private in the Army, a veteran of two months and I'm having a big Christmas

party."

He wrote letters to friends about it, but "they didn't believe it."

So he approached Lt. Col. Robert Hill at Redstone and told him: "Americans ought to know about this."

Five days later, Reitmeyer was in Washington telling his ideas to Pentagon brass. He met Speegle there and the two teamed up for the trip."

**COMPETING DAILIES DIP**

**Newspapers Never More Profitable**

**NEW YORK (AP)** — Trade journals report that U.S. newspapers have never been more profitable and the number of newspapers has remained constant since World War II, but the number of competing dailies has decreased.

Now there are but 15 cases of directly competing daily newspapers—either morning or evening, according to an unpublished Editor & Publisher survey.

In the 15 instances, 12 involve evening newspapers. Some are in urban centers such as Baltimore and Washington, but others in such less likely places as Fremont-Newark, Calif., Mount Pleasant, Texas; Crowley, La., and Morristown, Tenn.

The Editor & Publisher survey also listed 26 instances of competition between Sunday papers and 52 cities in which separately owned morning and evening papers battle for advertising dollars.

The American Newspaper Publishers Association reported this year weekly circulation, advertising revenue and newspaper jobs rose in 1970, despite a general economic downturn.

Circulation rose 47,938 to a national daily total of 52,107,527, the ANPA said. Even though Sunday circulation dropped 458,245 to 49,216,602, circulation revenue was up \$86,668,000 to \$2,598,112,000. The number of jobs on newspapers was up 1.9 per cent, the ANPA said.

## COMPETING DAILIES DIP Newspapers Never More Profitable

**NEW YORK (AP)** — Trade journals report that U.S. newspapers have never been more profitable and the number of newspapers has remained constant since World War II, but the number of competing dailies has decreased.

Now there are but 15 cases of directly competing daily newspapers—either morning or evening, according to an unpublished Editor & Publisher survey.

In the 15 instances, 12 involve evening newspapers. Some are in urban centers such as Baltimore and Washington, but others in such less likely places as Fremont-Newark, Calif., Mount Pleasant, Texas; Crowley, La., and Morristown, Tenn.

The Editor & Publisher survey also listed 26 instances of competition between Sunday papers and 52 cities in which separately owned morning and evening papers battle for advertising dollars.

The American Newspaper Publishers Association reported this year weekly circulation, advertising revenue and newspaper jobs rose in 1970, despite a general economic downturn.

Circulation rose 47,938 to a national daily total of 52,107,527, the ANPA said. Even though Sunday circulation dropped 458,245 to 49,216,602, circulation revenue was up \$86,668,000 to \$2,598,112,000. The number of jobs on newspapers was up 1.9 per cent, the ANPA said.

Conditions in the service changed so radically, he said, he changed his mind about going AWOL and decided the Army could not only be toler-

ated, it could be enjoyed. The changes in Army life, he said, "came so quickly that they kind of stunned everybody."

**FANTASTIC**

Instead of standing five formations a day, he was standing four. Then only one. And weekend passes were extended to allow more travel, two-man rooms became the rule rather than the exception and "the food was getting fantastic."

About that time he began to hatch the motorcycle missionary idea, but the clincher came last Christmas when he suggested to his company commander at Redstone Arsenal, Ala., that the unit should hold a Yule party.

The commander agreed, everybody chipped in and the unit brought 42 cases of beer.

"I thought this was really fantastic," Reitmeyer said. "Here I am a private in the Army, a veteran of two months and I'm having a big Christmas

party."

He wrote letters to friends about it, but "they didn't believe it."

So he approached Lt. Col. Robert Hill at Redstone and told him: "Americans ought to know about this."

Five days later, Reitmeyer was in Washington telling his ideas to Pentagon brass. He met Speegle there and the two teamed up for the trip."

## The '72 Oldsmobiles are here.

# You'll like the changes you see in the showroom. The ones you feel on the open road. And one you may discover in your local supermarket parking lot.

**DELTA 88 ROYALE** There's more built-in toughness. A new front bumper absorbs minor parking lot impacts: it flexes, gives a little—then returns to position. On the road, its "G-Ride" System helps deliver exceptional ride and handling, with Supershocks, computer-matched springs, and other interrelated components. And Delta 88 now includes more standard equipment: power steering, power front disc brakes, power ventilation, automatic transmission—and a long list of GM safety features. Delta 88: Strong. Tough. Smooth. Not just another pretty car.

**CUTLASS SUPREME** You want real luxury, comfort and room—but not a big car. You want handling and maneuverability, but not a compact. Cutlass Supreme gives you what you want on a 112-inch wheelbase. Formal roofline. Room for six. Deluxe interiors. Under the hood, a Rocket 350 V-8. A "little limousine"—priced within your reach... that's Cutlass Supreme. What a step-up, holy cow! If your friends could see you now.\*

**TORONADO** The one personal luxury car that puts it all together in quite a different way. Toronado's Rocket 455 power goes to the front wheels to pull the car over the road with superb traction, ride and handling. Inside, Toronado is spacious and comfortable. There is ample room for six, including their feet—for there is no hump on the floor. In luxury, in styling, in quality, it is uniquely Toronado. There's nothing common about it.

Front drive pulls the car along instead of pushing it.

## Jurors Accuse Sen. Bates Of Receiving Stolen Ring

CORPUS CHRISTI, Tex. (AP) — State Sen. Jim Bates of Edinburg was under a felony indictment today, charged with receiving a stolen diamond ring from a man now charged in Houston with murder.

Bates was indicted in 105th District Court by jurors who heard his testimony earlier in the day then issued a true bill alleging he had harbored the stolen diamond ring reportedly valued at several thousands of dollars.

The indictment was returned shortly after 6 p.m. and Bates left the courthouse immediately, freed on his personal recognizance.

The indictment said Bates had received the ring from Adrian Lambert, a man now under a murder indictment in Houston on charges of killing his wife's ex-husband in 1967.

### GEM DANDY

The indictment against Bates said he received the ring on or about May 6, 1969. The ring, the indictment said, had been stolen from Edmond Ford, a Corpus Christi attorney.

Bates was sought under a subpoena issued Monday, however, it was not served until he appeared at the courthouse voluntarily Tuesday morning.

Others testifying earlier included his secretary, Kitty Hudson, and several persons Dist. Atty. W. B. Mobley said were in the jewelry industry.

Bates refused to talk with newsmen and said he would issue a formal statement Wednesday from his Edinburg home.

Bates was freed on his personal recognizance after the indictment was issued.

Lambert, 35, a former Corpus Christi fireman, was convicted of burglaries in Corpus Christi in 1968. Through an apparent legal oversight he remained free after the appeal was denied.

### JUMPED BOND

Lambert jumped bond and was apprehended earlier this

year in Athens, Ala., and taken to Houston where he was charged with murder.

At that time, he reportedly began giving statements which implicated others in crimes.

Bates at one time served as

Lambert's attorney in the Corpus Christi burglary cases. He and his law partner, E. G. Henrichson, submitted a \$5,025 check to Nueces County last February as Lambert's bond forfeiture.

(AP WIREPHOTO)

**INDICTED** — State Sen. Jim Bates, wearing a neckbrace covered by a scarf, is shown accompanied by his wife, Tuesday as he prepared to testify before a Nueces County grand jury in its fourth day of deliberations. Mrs. Bates waited in the court house lobby while Bates testified.

## Two Welcome Army Errors

FT. HOOD, Tex. (AP) — Charges against two Army privates have been dropped because of an administrative breakdown, military authorities revealed.

Pvt. John K. Priest, 18, and Pvt. Kelvin Harvey, 19, were both charged with assaulting an officer and taking part in a riot at Ft. Hood Dec. 20. There was an additional charge of arson against Priest.

Lt. Gen. C. P. Seneff Jr., Ft. Hood commander, dropped the charges because of excessive delay of a court-martial as "the result of a breakdown in Army administrative procedures," a base spokesman said.

Priest and Harvey were awaiting transfer to Ft. Leavenworth, Kan., at the time of the disturbance. Priest had been convicted of selling marijuana and Harvey of assault and possession of a dangerous weapon.

The Army said the men are in the Ft. Hood stockade awaiting disposition of a new and undisclosed charge stemming from incidents which occurred since their return here from Ft. Leavenworth in July.

## GRAND VILLE TO VENTURA II Pontiac Has Big, Little Cars

For 1972 the Pontiac model line-up ranges from the Grand Ville, the flagship of the division's fleet, to the Ventura II, Pontiac's mini full-sized car. All 32 models can be checked out at Joe Hicks Motor Co., 504 E. 3rd.

**PONTIAC'S NEWEST** — Pontiac Motor Division's all-new Luxury LeMans features a distinctive grille, lower body side moldings, rear wheel opening covers and special interiors. The Luxury is available at Joe Hicks Motor Co., 504 E. 3rd.

The top-of-the-line Pontiac is the Grand Ville. Available in two-door and four-door hardtop models as well as a convertible, the Grand Ville is equipped with Turbo Hydramatic transmission, power steering, power front disc brakes and the 455 four-barrel V-8.

The Grand Ville custom interior includes durable cloth with piping on the seat back that extends up and over the top of the seat, special door trims, a fold down rear seat armrest (in sedans), rear passenger assist straps on the rear of the front seats and cut pile carpeting.

The Bonneville is offered in five models... four-door sedan, four-door hardtop, hardtop coupe, and two and three-seat Grand Safaris.

All Bonneville, except Grand Safaris, have measurements identical to the Grand Ville.

The Catalina comes in six body styles... two-door hardtop, convertible, four-door sedan, four-door hardtop and two and three-seat Safaris. The

luxury Brougham is offered as a two-door hardtop, four-door sedan and four-door hardtop.

The Brougham includes the following not standard on the Catalina: wheel opening moldings, deluxe wheel covers, body colored inserts in outside door handles, a distinctive interior and Brougham nameplate on the sail panel.

The Catalina and Brougham are equipped with Turbo Hydramatic transmission, power steering and power front disc brakes.

Available in a two-door hardtop, Grand Prix again features elegant styling, comfort and driving convenience.

The Grand Prix SJ offers more luxury and power, including vinyl pin stripes, body colored outside mirrors, rally gauges with clock, door courtesy and trunk lamps, special SJ identification, an integral charging system and the recently-introduced unitized ignition system.

In addition to the Grand Prix SJ, the unitized ignition system is standard on all cars with the 455 HO and optional on the Grand Ville and Grand Safari.

Smooth performance, driving ease and a wide choice of models highlight Pontiac's stylish intermediates for 1972.

The available models are:

LeMans — Two-door coupe, two-door hardtop, sport convertible, four-door sedan, two and three-seat station wagons with dual-hinged tailgate.

Luxury LeMans — two-door hardtop and four-door hardtop. The LeMans Sport will be offered as options on the LeMans series.

Distinctive styling that includes a new grille protected by the energy-absorbing Endura bumper, a choice of suspensions, easy handling and top performance are blended into each of the four Firebird models.

Available as a two-door hardtop are the Standard, Esprit, Formula and Trans Am.

## IRS Says Osorio, Wife Owe \$54,973 In Taxes

DALLAS (AP) — Efforts are being made by the Internal Revenue Service to collect \$54,973 in income taxes from John Osorio and his wife from a Dallas company now in bankruptcy.

Court records show the IRS has served a writ of levy on the trustee in bankruptcy for RIC International Industries, Inc., seeking payment.

Osorio, a former state insurance commissioner and business associate of Houston financier Frank Sharp, has been accused by another government agency of contributing to the failure of RIC International.

### FRAUD SUIT

Another writ served on the trustee, John L. King, seeks \$35,317 in income taxes from a former Austin law partner of Osorio, E. Eugene Palmer and his wife from any funds ordered paid by the federal bankruptcy court from RIC assets.

Osorio has said a stock fraud suit brought against him and 27 other defendants by the Securities and Exchange Commission "ruined me socially, economically and every other way."

The SEC said RIC, a holding company, "was in serious financial condition in the summer of 1970 when Osorio directed the pledging of about one million unregistered shares of RIC to obtain bank loans totaling \$1 million."

Almost half of this \$1 million was used, the SEC said, to support the market price of stock in the Sharp-owned National Bankers Life Insurance Co. of Dallas, of which Osorio had been president.

### SHARES PLEDGED

Shortly before the last of the one million shares was pledged — illegally, by ruling of U.S. District Court Judge Sarah T. Hughes — RIC filed for voluntary bankruptcy Sept. 17, 1970.

RIC reported a net loss of \$2.5 million in 1969, the first full year that Osorio and former Texas Atty. Gen. Waggoner Carr were in charge of RIC operations as majority owners of the stock in South Atlantic Co., parent firm of RIC.

### Killed In Asia

WASHINGTON (AP) — The Defense Department reported Monday the death of CWO 2 Alenandro Makintaya of Texas in action in Southeast Asia. He was the son of Mr. and Mrs. Benito Makintaya, 6309 Prince Drive, Corpus Christi, Tex.

King said in a report as trustee that RIC and its subsidiaries had consolidated losses of \$1.3 million for the first nine months of 1970 before filing for bankruptcy.

The IRS said it seeks to collect \$90,290 in taxes from Osorio, Palmer and their wives in the view that they were "creditors" of RIC. It noted that the two men filed proofs of claim last April 3 for \$44,111 from RIC as fees owed their law firm.

## JUST ARRIVED!

## Large Shipment Double Knit SLACKS

Since our unauthorized midnight sale a couple of weeks ago (we were robbed, if you remember) we have been seeking new merchandis and our first shipment arrived yesterday. It is double knit slacks to replace those stolen and what an array we have. Belt loops or beltless models in regular or flare legs. Select from this all-new stock before the thugs return.

\$15 to \$25

# Prager's

Fashion Monogramming Available

102 East 3rd

Grand Ville 4-door Hardtop

**1972 Grand Ville. Our most luxurious Wide-Track ever... with a new kind of bumper to help protect it.**

As on all full-size '72 Pontiacs, the new Grand Ville has an advanced front bumper system that actually "gives" on minor impact and then returns to position. Grand Ville also features an elegant formal roof. Our smoothest, quietest ride. Our richest appointments. A 455 V-8. Power steering. Power front disc brakes. And Turbo Hydramatic transmission.

**1972 Grand Prix. You'll have to decide what's better... the style or the ride.**

It won't be easy. The styling's timeless. The ride, smooth and stable. There's a cockpit-styled interior, a 400 V-8, power steering, power front disc brakes and Turbo Hydramatic. So it's quite a choice. Maybe that's what makes

Grand Prix so interesting to drive. **1972 Luxury LeMans. All the luxury you want without buying more car than you need.**

Time was, the only way to get a truly luxurious car was to buy big. No more. Now there's Luxury LeMans—a new mid-size Pontiac with full-size luxury. A distinctive grille, deluxe wheel covers, rear-wheel fender skirts, generous chrome accents, plush carpet, unusually rich fabrics and the look of teak on the dash.

**1972 Firebird. Pontiac has taken the rough ride out of the road car.**

For good. Considering Firebird's low-slung good looks, that's quite an accomplishment.

But Pontiac engineers redesigned the suspension to help provide a big-car ride and created fantastically comfortable bucket-type seats. You'll also appreciate Firebird's new low price.

**1972 Ventura II. The new small Pontiac with the small-car price.** Lots of people build small cars.

But Pontiac offers you a small car with prestige and great styling—all at a small-car price. What's more, Ventura II is tough, roomy, stingy with your gas money, and with Body by Fisher, it's built to last. If you like small cars, you'll love the new Ventura II.

That's what keeps Pontiac a cut above. Don't forget to buckle up for safety.

They're all at your Pontiac dealer's now!

TWO-YEAR LETTERMEN AT GAIL — These five boys have each won two varsity football letters at Borden County High School, which is unbeaten after two starts. Back row, from the left, they are Charles Billeck, Mike Toombs and Randy Crittenden. Front row, Mike McHenry and Ken Don Jones. The Coyotes, coached by Bob Dyess, play in Whitharrel Friday night.

# Short Wins In Effort To Transfer To Texas

BOSTON (AP) — Owner Bob Short and his financially troubled Washington Senators are headed for the lush Dallas-Fort Worth area and the nation's Baltimore Orioles and Chicago White Sox.

## LOOKING 'EM OVER

With Tommy Hart

Big Spring was working on a \$1,500 guarantee in its game with Bel Air in Ysleta the other night, otherwise the Steers might have had to float a loan to make the trip.

There are 12 schools in the two Class AAAA districts in the El Paso area, plus a few that play without benefit of sanction from the University Interscholastic League.

Misty weather, no doubt, kept the crowd down for the Big Spring game. Although the Bel Air people obviously take a lot of pride in their stadium, it compares poorly with the facilities found around District 5-AAAA.

In order to save money, the Ysleta school system had game programs printed in neighborhood Juarez. Obviously, the printers have developed a "mañana" attitude. They didn't arrive at the stadium until Big Spring and Bel Air had played three quarters.

Officiating in the Steer-Highlander game was better than any I've seen in El Paso involving 5-AAAA and Border City teams.

The defeat of the Steers can't be blamed on the arbiters. If anything, they may have leaned a little to give Big Spring a break or two. However, they had problems lining up the ball.

When the struggle with Big Spring started, coach Gene Odell of Bel Air was planning on resting his ace quarterback, Bobby McKinley, on defense, because Bobby's brother, Eddie, is such a splendid defensive back.

When Eddie was injured early in the contest, Bobby started playing both ways. He's about as good a defensive player as he is on offense, and that is saying a lot. Bobby must be regarded as a real blue-chipper. He does much to dissipate the talk that District 2-AAAA teams are inferior to 5-AAAA clubs.

Of course, Bobby McKinley has plenty of help. In running back Eugene Moore and ends John Mason and Art Pacheco, the Highlanders have athletes who can play with anyone in high school circles. Pacheco would fire in and wrap himself around Big Spring ball carriers before Steer blockers had time to untrack.

The Bel Air cheering section has an unusual way of reacting when kicks occur. If their own Highlanders are receiving, the student body stands up and give the "thumbs up" signal, with arms outstretched. When the opposition gets the ball, the students extend their arms with thumbs down, signaling the way the ancient Romans did in the Circus Maximus days when they wanted their gladiators to show no mercy.

Big Spring is still having trouble with its passing game, and that was supposed to be its strong point this year. The blocking breaks down too often and the receivers are not getting open. Unless and until the Bold Gold improves its aerial game, the local team's running attack will experience its problems.

Odessa's three high schools sold more than \$49,000 in season football tickets but practically all of those were snapped up by Permian rooters. Permian buffs bought 3,577 season books, whereas only 719 were distributed at Odessa High and another 39 at Ector.

Lubbock is a city where friends of high school apparently are hard to find. There are five Class AAAA and AAA schools in the city of 150,000, yet less than 50 season ducats were sold throughout the city.

The veteran Paul (Bear) Bryant seems to be out to prove that football hasn't passed him by.

Already an upset winner over Southern California this year, Bryant's Alabama team appears headed for another bowl game after this season.

His career record shows 201 wins, compared to 66 losses and 16 ties. He gave championship teams to schools which hadn't had them before and haven't returned to the throne room since — Maryland and Kentucky.

He's also developed title winners at Texas A&M and Alabama. In 13 years plus at Alabama, Bryant has watched the Tide post a 109-27-8 record. He's developed 18 All-Americans since moving back to Alabama.

Among football greats who have played under him are Joe Namath, LeeRoy Jordan, George Blanda, John David Crow and Kenny Stabler.

# Dave McNally Could Pitch In Opener

By The Associated Press

If the Baltimore Orioles win the American League's East Division title for the third straight year—and their clinching number now has been reduced to three—it is likely they will pitch Dave McNally against Oakland's fighting West Division champions and A's ace Vida Blue in the league's opening playoff game Oct. 2 at Baltimore.

Baltimore Manager Earl Weaver indicated his preference toward using McNally in the first playoff game after the veteran left-hander tamed the New York Yankees 5-0 on five hits Tuesday night for his 20th victory of the season.

McNally, the winningest pitcher in Oriole history with 134 victories, is the first American League to win at least 20 games in four consecutive seasons since the Yanks' Red Ruffing did it from 1936-39. And the Orioles' southpaw did it this year despite missing 35 days of the season because of an inflamed muscle in his pitching arm.

The Orioles' victory, coupled with Detroit's 3-2 10-inning loss to Boston reduced Baltimore's title-clinching number to three over the second-place Tigers.

The Orioles lead Detroit by 7 1/2 games. They have eight games remaining to the Tigers, seven.

Meanwhile, Oakland, having already wrapped up the West title, lost a fight-marred twilight doubleheader with Chicago, the White Sox winning the opener 5-1 and the second game 6-2.

## BASEBALL STANDINGS

Table with columns: NATIONAL LEAGUE EAST DIVISION, WEST DIVISION, TUESDAY'S RESULTS, WEDNESDAY'S GAMES.

Table with columns: AMERICAN LEAGUE EAST DIVISION, WEST DIVISION, TUESDAY'S RESULTS, WEDNESDAY'S GAMES.

# Atlanta Refusing To Concede Flag

By The Associated Press

The San Francisco Giants and Los Angeles Dodgers continue to play like broken records, spinning around in circles and going nowhere very fast.

It is possible the Atlanta Braves can still wait away with the National League's Western title? Well, it's highly unlikely—but not impossible—considering the way the Giants

and Dodgers have been playing lately.

The Giants held onto a 1 1/2-game lead over the Dodgers in the wild, wild West despite themselves as they lost their 13th game in the last 16, a 3-1 decision to the Houston Astros Tuesday night.

The Dodgers also continued their inept play as they dropped a 9-3 contest to the Cincinnati Reds for their fifth

loss in seven games.

The third-place Braves, meanwhile, kept their dim title hopes alive with a 5-2 victory over the San Diego Padres. The Braves moved within six games of San Francisco and in order to win the West, must take all their remaining six contests while hoping the Giants lose their last eight and the Dodgers slump badly.

## ALSTON CONFIDENT

Los Angeles Manager Walt Alston was rock-steady despite the latest loss.

"We're going to beat the Giants," said Alston. "I don't care what the margin is—one game or six. We'll still beat 'em."

San Francisco Manager Charlie Fox, meanwhile, wasn't so confident. "We're just not hitting the ball, period."

In another top National League game, the St. Louis Cardinals beat Pittsburgh 6-4 as the Pirates failed for the second time to nail the Eastern Division pennant. The Pirates still need just one victory to clinch the title.

Elsewhere, the Chicago Cubs downed the New York Mets 3-0 and the Philadelphia Phillies whipped the Montreal Expos 5-4 in the first game of a two-night doubleheader before losing the nightcap 4-3.

## MAY RAMPAGES

Cincinnati's Lee May murdered Los Angeles with a home run and double, good for five runs batted in.

## Longhorns 70th In Grid Ratings

Big Spring has slumped to 70th place in the Class AAAA ratings of the Harris Rating System and may be more comfortable there.

The Steers never did like the thought of being front runners. When they climbed to 36th last week, it probably made them uneasy.

Other 5-AAAA teams and their spot in the ratings included:

Permian, third; Abilene Cooper, fourth; San Angelo, 18th; Midland Lee, 52nd; Odessa, 54th; Abilene High, 131st; and Midland, 136th.

# SAYS COACH HALE Snyder To Pose Problem Friday

Snyder's Tigers, next football foe of the Big Spring Steers, will field a team comparable in size to the Bold Gold and have the potential to deal Big Spring its second loss in three outings.

The two teams clash here Friday night in Big Spring's Homecoming contest.

Snyder's record is unimposing—the Tigers have been tied by Stamford and lost to Monahans. However, the Bengals are slowly adjusting to new coach Maurice Hodges' style of play and are getting better.

In fullback Sammy Harrison, a 145-pounder, the Tigers boast the leading scorer in District 3-AAA. Harrison, a little man who runs not unlike Eugene Moore of Ysleta Bel Air, has crossed the goal line four times. Give him the ball outside and he's apt to go all the way.

Butch Buchanan, 175 pounds, is the Snyder quarterback. Buchanan is considered to be an excellent ball handler and throws the ball with authority. He runs the bootleg play very well and has shown much improvement in all phases of the game since last year.

Jackie Murray, 186 pounds, and Jimmy Dyess, 180, are the other Snyder backs. Murray is the best blocker in Snyder's backfield and runs the sweep

well. He also makes a nice passing target for Buchanan.

Dyess is considered a strong runner and he likes to use his power. He will go up the middle, forcing the opposition to keep its defensive strength deployed on the inside.

Best pass receiver on the Snyder team is the 167-pound Gary Patterson, who anchors the Tiger line at right end. He is possessed of good hands and can go all the way.

Biggest player in Snyder's forward wall is Albert Hernandez, 210 pounds, who has the reputation for cleaning out his side when a play is aimed his way.

On defense, Buchanan switches to rover and he's particularly poisonous on running plays. Snyder's nose guard, a boy who plays it real tough, is Chris Covey, who reads a play well and pursues down the line.

This could be another typical Snyder-Big Spring game. The Tigers are still boiling over that 46-7 defeat suffered at the hands of Big Spring last year. They intend to do something about it Friday night, coach Clovis Hale has warned his Big Spring troops.

This game winds up pre-district play for Big Spring. The Steers open 5-AAAA competition against Abilene High next week.

# Houston Astros Vanquish San Francisco, 3 To 1

HOUSTON (AP) — Manager Charlie Fox gets tired of people asking if his San Francisco Giants are tightening up in their run for the National League West championship.

He blames the teams the Giants have been playing for having something to do with their slump, now 13 losses in the past 16 games.

"You're just going to find that everybody plays wonderful against us," Fox said. "San Diego (holding last place in the western division) did a heck of a job against us."

So did the Houston Astros as Jack Billingham maintained his mastery over the Giants with a five-hit 3-1 victory Tuesday night, aided by a two-run homer from catcher Larry Howard in the seventh inning.

Despite the loss, San Francisco kept its 1 1/2-game lead over the Los Angeles Dodgers, since the Dodgers also lost, 9-3 to Cincinnati. The Giants have eight games left and the Dodgers have seven.

Fox bristles at a suggestion the Giants are feeling the effects of the tightening race.

"You didn't see anybody mishandling the ball out there tonight, did you?" he asked. "We're just not hitting the ball—period."

San Francisco got five hits off Billingham, which equaled the club's average in its last 17 games. The Giants' great Willie Mays has a .176 average, but he has struck out 17 times in his last 33 at bats.

Wilson Game Will Start At 7:30

FORSAN — Persons planning to attend Friday's football game here between Wilson and Forsan are being reminded that the starting time will be 7:30 p.m.

Forsan's previous two contests got under way at 8 o'clock. Wilson opened with a 30-0 loss to Anton but rebounded last week to smack Lubbock Christian High School, 26-0.

# Duane Thomas Opens Drills

DALLAS (AP) — Running back Duane Thomas was to begin workouts with the Dallas Cowboys today in the wake of an announcement by Commissioner Pete Rozelle of the National Football League that Thomas' request for reinstatement from the retired list had been approved.

The Cowboys said Thomas had not been officially accepted by the team because of pleuritis in his left leg.

Thomas was to work with the team "until such time as he is well."

Dallas does not have to take any action on Thomas' status for 10 days and he will not be activated for the Philadelphia game Sunday.

Thomas returned to the Cowboys last week after announcing his retirement during the exhibition season. He was traded to New England but turned down by the Patriots who didn't like his physical condition.

Thomas called Coach Tom Landry a "plastic man" during a tirade against the Cowboy management.

The Cowboys also announced they have traded for veteran linebacker Lee Roy Caffey. Dallas gave Chicago an undisclosed draft choice for the 30-year-old Caffey, a former star at Green Bay who was demoted to the Bears' taxi squad.

# Auburn, Texas, Irish Favored This Weekend

By HERSCHEL NISSENSON  
Associated Press Writer  
NEW YORK (AP) — Around the University of Tennessee this week the password is "War Eagle."

Normally, "War Eagle" is the battle cry of the Auburn Tigers—the origin is kind of fuzzy and you can hear a number of histories—who invade Knoxville

on Saturday for an early season Southeastern Conference showdown with the Volunteers.

The Tigers are fifth and the Vols ninth in The Associated Press rankings. A year ago, Tennessee finished fourth and Auburn 10th, but the Tigers spoiled UT's otherwise perfect season with a 36-23 triumph.

"That loss has stuck in their

throat," says Shug Jordan, Auburn's coach, "and you can't ever rule out the psychological, emotional side of football."

It will be Auburn's explosive Pat Sullivan-Terry Bensley aerial attack against Tennessee's veteran defense. Armed with the knowledge that it's usually suicide to pick against the home team in the SEC... AUBURN.

## TOP TEAMS VIE

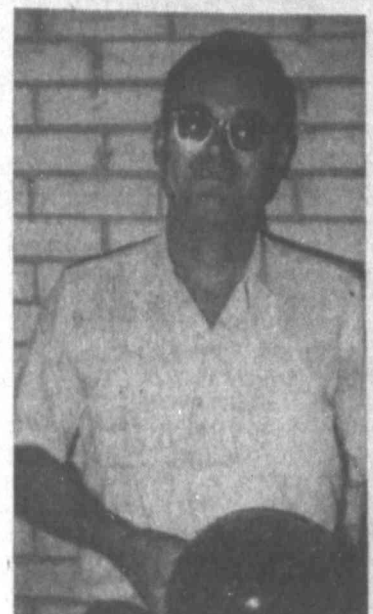

Colorado at Ohio State—the first-ever meeting between the Buffs and the Bucks pair two more Top Ten teams, No. 6 Ohio State and No. 10 Colorado. New quarterbacks have been impressive, Don Lamka for Ohio and Ken Johnson and Joe Duenas for Colorado. The Buffs beat LSU in Baton Rouge so they shouldn't be awed by... OHIO STATE.

Notre Dame at Purdue—the Irish closed out the 1960s with three straight losses to Purdue and dropped seven of 10 to the Boilermakers during that decade. In addition, the Irish haven't won at Purdue in the last four tries. However, this is the '70s, as last year's 49-0 rout proved. NOTRE DAME.

Texas Tech at Texas—the Red Raiders thought this was their year, but the offense hasn't been able to get untracked against Tulane or New Mexico. Texas could be in trouble if quarterback Eddie Phillips, on crutches early in the week with an injured toe, is sidelined. TEXAS.

Texas Christian at Washington—Look for aerial fireworks with TCU's Steve Judy and UW's Sonny Sixkiller on the firing line. The scoreboard may never be the same. WASHINGTON.

Alabama at Florida—What's wrong with the Gators? "Fumbles, interceptions and missed tackles," says Coach Doug Dickey. With revenge in mind after last year's 46-15 battering, here's the upset special of the week. FLORIDA.

**BOWLERS OF WEEK** — The two kegglers have been declared Bowlers of the Week by the Big Spring Bowling Association, the first of many to come. Lee McMurtrey (left), won the honor at the Bowl-A-Rama with a series of 698. Leon Howard (right) earned the nod at the Webb AFB lanes with a 695.

# Super Mex Enters Robinson Open

ROBINSON, Ill. (AP) — Super Mex Lee Trevino hasn't added to his money total in almost two months but he's back in shape and the solid favorite against a watered-down field in the \$100,000 Robinson Open Golf Tournament that starts Thursday.

"Oh, you know me," Trevino chuckled before a practice round today over the 6,585 yard, par 71 Crawford County Country Club course. "I've got to play a lot before I'm going to do anything."

The squat, swarty 31-year-old stunned the golfing world with a never-before-accomplished sweep of the American-Canadian-British Open titles two months ago.

But since then has come a slump, vacation, emergency operation, time off, slow recovery.

He pushed his money total to \$197,219 with a victory in the Canadian Open, more than two months ago. He won the British Open the next week, but that prize doesn't count on his money winning total.

He missed a couple of cuts, had that emergency appen-

dectomy, came back, missed some more cuts, won \$5,000 in the World Series of Golf. But that doesn't count either. He collected \$1,000 last week in the Ryder Cup victory against Great Britain—but that doesn't count either.

But Trevino, weak and wobbly from the after effects of the operation, served notice he's ready to go again in his performance against Britain's best in the Ryder Cup competition last week.

He played 36 holes both of the last two days, scored three victories in two days and stamped himself as the man to beat for the \$20,000 first prize in this growing event in a village in eastern Illinois.

The field is far from the strongest.

Besides Trevino, there are only two other members of the 12 man U.S. Ryder Cup team on hand—J. C. Snead and Mason Rudolph.

Arnold Palmer, Jack Nicklaus, Gary Player, Billy Casper and Masters champion Charles Coody all are taking the week off for one reason or another.

# Pro Cage Leagues Close To Parity, Says Coach

DALLAS (AP)—Tom Nissalke has been on both sides of the fence now and says, "Give us Kareem Jabbar and we would be the team to beat for the world championship."

As expected, Jabbar, formerly known as Lew Alcindor, was the difference Tuesday night in a historic first meeting between regular National and American Basketball Association teams.

The 7-foot-2 Jabbar scored 32 points and gathered 16 rebounds to lead hard pressed Milwaukee to a 106-103 victory over the scrappy Dallas Chaparrals of the ABA.

Nissalke, an assistant at Milwaukee last year, said, "It didn't surprise me that the game was close. As soon as we have a common draft, the leagues will be fairly close."

Nissalke said, "There was some real professional basketball being played out there in the second half. The ABA has grown up."

Milwaukee, without Oscar Robertson who was in Washington testifying before a congressional committee on the proposed ABA-NBA merger, was hurting at guard.

Chaparral guards Steve Jones and Donnie Freeman time and

again out-quicked their opponents.

Larry Costello, coach of the Bucks, said "I wasn't surprised" the game was close.

"They have two real good guards," Costello said. "But we weren't really in shape. We've only been working out since last Thursday."

A crowd of 7,710 fans jammed Moody Coliseum for the long-awaited fray.

The game was played under NBA rules in the first half and ABA rules in the second half, including the ABA red, white and blue ball.

Willie Burton is Scoring Leader

Willie Burton, Abilene Cooper, leads all scorers in District 5-AAAA football after two games with 30 points, all the result of touchdowns.

Eddie Richardson, San Angelo, is runnerup with a total of 24 points.

The leaders:

# Hawks Sixth In Golf Meet

CLARENDON — New Mexico JC of Hobbs and Odessa JC tied for first place in a Western Conference golf match here the past weekend.

The Thunderbirds and Odessa each posted scores of 446.

New Mexico JC of Roswell was third with a 448, South Plains JC of Levelland fourth at 454, Amarillo College fifth at 455, Howard County JC sixth at 462, Clarendon JC seventh at 467, Western Texas of Snyder seventh at 474, and Frank Phillips College of Borger ninth at 492.

Medalist for the day was Kent Hale of New Mexico JC, who posted an even par 107 for 27 holes. Three others tied for second at 109, one of whom was Pat O'Donnell of Odessa.

The teams return to action in Hobbs, N.M., Sept. 21.

Howard Stewart of Big Spring, competing as a member of the Odessa team, finished with a 114.

Each of the top two teams received 8½ points in the standings. Rain marred the final 18 holes of play.

RESULTS LAST WEEK  
Coahoma 24, Colorado City 0; Ozona 23, Eldorado 8; Crane 41, Jol. 18.M; Big Lake 21, Bollinger 0; Roton 14, Stanton 6; Rankin 26, McCamey 16.

# She's A Crier

Dear Abby  
Abigail Van Buren

DEAR ABBY: Can you help me? I cry easily, and once I get going, I can't control myself. My son is getting married soon and I don't want to start crying.

Sermons in church make me cry. By mistake I went to a graduation mass and didn't know anybody graduating, but I cried just as if one of my kids was graduating.

And when I go to a wedding, the minute I step inside the church I start to cry, and I cry all the way through the reception. At funerals and wakes nobody cries but me. A couple of times I went to funerals with my friends and

I hardly knew the deceased, but I cried so hard everyone thought I was a relative.

In school here a parent-teacher conference is necessary even if your child has no problem, so while the teacher was telling me good things about my child I started crying. Now they don't even ask me to come to school for conferences.

I went to a doctor six years ago about this, and after listening to me for half an hour he said, "So everyone knows you're a crier. Just don't let it bother you. Think this way, you will never have an ulcer or a nervous breakdown

because you express your emotions." Can you give me any advice, Abby? CRIES A LOT

DEAR ABBY: I can't give you any better advice than the doctor gave you. Take it.

DEAR ABBY: Ellen, my 8-year-old daughter, was recently released from the hospital and confined to her bed, so I asked my regular sitter to come over while I did some shopping and errands.

When the sitter arrived, I noticed she had her needlepoint with her. Before I left, I instructed the sitter to read to Ellen and then play some quiet games with her.

When I returned home, the sitter was working on her needlepoint and Ellen was practically in tears, watching television.

After the sitter left, Ellen told me the sitter didn't read to her at all — she had played only one game with her, and then told her to watch television because she wanted to work on her needlepoint.

This really burned me, Abby, exactly what is a sitter supposed to do? ELLEN'S MOTHER

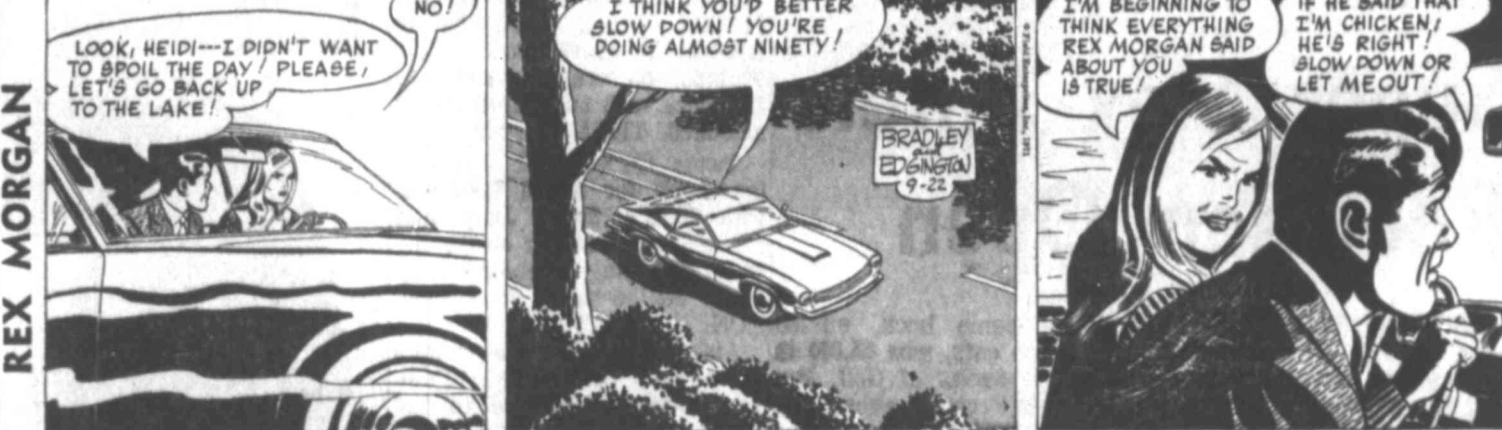

DEAR MOTHER: She's supposed to sit — unless she's asked to do something more and has agreed to do it.

DEAR ABBY: My mother, my married sister and my best friend who is married all tell me no matter how well a woman treats a man, or how good the man is, he will be unfaithful to his wife or girl friend sooner or later.

They say it is something every woman must accept, and know how to deal with. Is this true, Abby?

Maybe I'm too idealistic, but it is hard for me to believe all men are too shallow to carry on a pure relationship with only one woman. I am engaged to be married soon, and absolute faithfulness means a great deal to me. So, if what they say is true, how should it be dealt with? HAS FAITH

DEAR HAS: They are wrong. And don't worry about how to deal with a problem until it's a reality.

### Breech Birth

Your Good Health  
Dr. G. C. Thosteson

Dear Dr. Thosteson: What is first, and the rest of the body follows easily — and lengthwise. This is the situation about 97 per cent of the time.

However, if the baby is not head downward, but the buttocks or a foot come first, that is a breech presentation. (It is also possible, occasionally, for an arm to come first, and that involves complications, too.)

In modern circumstances, it is unlikely that mother and baby would die, because there are plenty of ways of meeting the emergency. However, it is necessary to take proper measures, because a breech presentation means a prolonged labor, which is hard on the mother but is distinctly serious

for the baby. Risk to the mother is not great, though.

The major danger to the baby is that blood supply through the placenta and cord can be easily interrupted, and there can be brain damage as well as other injuries to the baby.

In some instances, attempts can be made to change the baby's position before birth. (This manipulation is called external version.) This is not always possible; opinion is divided as to how much effort in this direction should be attempted. Certainly it is not always successful.

In a goodly number of cases, a breech delivery is completed normally, but when it cannot be or there is some indication that the birth must not be further postponed, a C-section, or Caesarean section, is employed, and the baby is brought into the world via an abdominal incision.

Dear Dr. Thosteson: Is there any operation possible for a cystocele? I have had this condition for several years. At first my doctor fitted me with

a pessary, but this helped only temporarily. My doctor has not suggested surgery and I wondered if this was because it can't be done. —Mrs. C.L.N.

Yes, a cystocele (sagging and bulging of the urinary bladder) can be repaired by surgery, and this is done quite often. I'm in no position to judge why your doctor did not suggest surgery, since there may be other circumstances quite beyond my knowledge.

Except in unusual conditions, a cystocele should be repaired not only for the sake of comfort but because this situation is a factor in chronic urinary tract infection.

Dear Dr. Thosteson: I am in the ninth grade and have a big problem. I am 5 feet 6 and weigh 146, and have done more exercises than I care to mention and haven't lost one pound.

Why not keep on exercising, but also cut down on sweet stuff, and fats—including gravies, pastries, fried food of all kinds? Food restriction must accompany exercise to reduce weight.

**FASHIONABLE SMALL FRY** — The Paris Leather Show brought out some bundled looks for youngsters, as designers apparently borrowed ideas from the Eskimos. These young models show overcoats and boots of skin.

## 'ROUND TOWN

By LUCILLE PICKLE

In case you haven't looked lately, summer is going to be over in the morning. Of course, this doesn't mean that we are not going to have any more hot days. This, in spite of the fact that we have converted our cooling system to heat, the earliest ever. But who could have predicted the cool turn of last weekend? Did the weathermen?

Frankly we were caught with our windows open, light clothes, green grass and the assorted other things left over from summer.

CAPT. and MRS. KEN LORD met winter head-on on their 'late summer' vacation trip to Colorado Springs. Their plans were to climb mountains which they did until the temperature got past comfortable climbing conditions. They didn't go prepared for skiing which they could have done by the middle of the week. Eight inches of snow fell, and they brought back beautiful pictures to prove it.

MR. and MRS. HERMAN JEFFCOAT are vacationing in the southern New Mexico resort city of Truth or Consequences, N.M.

An Alabaman, stationed at Sheppard AFB, Wichita Falls, found some home state hospitality... in fact, it was home town hospitality when he visited here over the weekend. ISAAC NEWTON HACKWORTH JR. came to Sheppard from Florence, Ala., for training and his longtime friends, MR. and MRS. TOMMY STEPHENS who are about to move back to Florence, found out where he was stationed and invited him over for a visit.

When he left his base it was warm weather and in a matter of a few hours it seemed winter had set in. If it hadn't been for the warm hospitality of friends he would have been a little chilly in the late summer snap.

Mrs. Newell installed the new officers, Mrs. Smith, president; Mrs. Harold Bell, vice president; Mrs. John Hollingsworth; and Mrs. J. C. Thames, treasurer.

All interested persons are invited to attend the next meeting which will be at 7:30 p.m., Oct. 4 at Moss School cafeteria. There will be a talk concerning vocational counselors and plans for the sheltered workshop.

### Women Discuss Home Products

The effects of ingredients in detergents and several other household products were outlined by Mrs. Carl Bates for the TOPS Slender Benders Tuesday afternoon at Rick's Store in Coahoma. Mrs. E. A. Richters presided. A salad supper for members and their families is scheduled at 6 p.m. Tuesday at the store. Greeting cards are being sold by the women as a fund-raising project.

## Association Presents Plans For Retarded

Goals for the coming year were presented by Mrs. Maurice Smith, new president of the Howard County Association for Retarded Children during a recent meeting at Moss Elementary School.

The membership established the Bell Scholarship Fund with the memorials that were given to the association in memory of Harold L. Bell. The fund will enable a TAR (Teens Aid the Retarded) to further his or her education in the fields of Special Education.

Another goal, will be to establish a sheltered workshop here, and a committee will be named to investigate the feasibility of establishing such a project. Information on the sheltered workshop was presented by Mrs. Roscoe Newell, coordinator for Special Education. During the year, the HCARC will work to bring about more correspondence and visitation between local families and their children who are in Abilene State School or Lubbock State School.

Mrs. Smith reported on the membership and leadership workshop which she and seven TARS attended in Midland.

Doug Percy reviewed TARS' summer activities and said that in October they will take some of the children to a farm where they can see animals. Annamaria Smith described the TARS' week at Prude Ranch, noting that four adults, six TARS and nine retarded children attended from Big Spring. Of the 100 attending, 57 were from this area. Activities

included swimming, horseback riding, crafts, hikes, dances, a participation rodeo, camp-out and ball games.

Mrs. Newell installed the new officers, Mrs. Smith, president; Mrs. Harold Bell, vice president; Mrs. John Hollingsworth; and Mrs. J. C. Thames, treasurer.

All interested persons are invited to attend the next meeting which will be at 7:30 p.m., Oct. 4 at Moss School cafeteria. There will be a talk concerning vocational counselors and plans for the sheltered workshop.

## Miss Hutto Marries Alvin Vern Blake II

Mr. and Mrs. Thomas Louie Hutto, 801 W. 15th, announce the marriage of their daughter, Tommie Lou, to Alvin Vern Blake II, son of Mrs. A. V. Blake of New York City, N.Y., and the late Mr. Blake. The couple was married Saturday in the home of the bride's parents, in a ceremony performed by Dr. Jordan Grooms, district superintendent of the Northwest Conference, United Methodist Church. Attending the couple were Miss Diane McEwen of Dallas and Bruce Hutto of Austin, brother of the bride. Mr. and Mrs. Blake will reside in New York City where he is associated with the Bank of America, and she is a stewardess with American Airlines.

## Announce Marriage

The marriage of Miss Debra Gail Dever to Steve Brant is being announced by the bride's parents, Mr. and Mrs. John Dever Jr. of Coahoma. They were married Saturday in Ciudad Acuna, Mexico. Brant is the son of Mr. and Mrs. O. G. Brant, Route 1, Big Spring.

Both Mr. and Mrs. Brant attended Coahoma High School. They will reside in Big Spring where he is employed with Eagle Mobile Homes.

## EASY WAY TO KILL ROACHES AND ANTS

Brush Once—Lasts Months Control roaches and ants the safe way—brush on Johnston's No-Roach. This colorless coating is effective for months, easy to use. Harmless to pets. No need to move dishes. Use new spray applicator for "hard to get at" places.

## WHAT'S FOR SUPPER?

# Nutritionist Predicts Pizza, Peanut Butter For Future

NEW YORK (AP) — Cooking menu of the future may be founded on such things as peanut butter and pizza.

"Deplorable," said one cooking teacher; "purgatory," said another. "A rash statement," commented a gourmet shop manager; "impossible," sneered a restaurant owner.

The suggestion came from Dr. George C. Graham of Johns Hopkins University. He predicted that modern technology would enable women to spend less time in the kitchen and to serve nutritional diets composed of "hand foods"—sandwiches, pizzas, rolls and pastry.

The forerunners of the future, Graham contended, are hamburgers and peanut butter and jelly sandwiches.

A spot check of professional cooking experts, gourmet shops and others dealing in fancy foods showed reaction ranging from dismay to outrage.

The national convention is being hosted by the Texas Home Demonstration Association and is to be attended by approximately 2,000 Extension Homemakers from across the nation. It began Monday and will conclude Thursday.

The state THDA convention will begin Thursday evening and will conclude at noon Friday. Mrs. Williams, Mrs. Roberts and Mrs. Shepherd are Mitchell County's delegates to the state meeting, while the other women are going as visitors.

The group will return Friday.

Julia Child, whose syndicated show introduced thousands to the intricacies of haute cuisine, commented:

"What a deplorable, miserable situation to live in—peanut butter sandwiches and pizzas. Cooking is a creative art and people, particularly young people, are beginning to find it out."

Maurice Moore-Betty, a Briton who runs a cooking school in New York and who recently authored a cookbook, said of the suggestion: "My reaction is horror. I don't see why fine cooking should die out any more than people should give up painting or music."

What does he think of a diet of peanut butter and pizza? "It would be purgatory," said Moore-Betty. "I can't imagine anything worse."

One of the few exceptions to the general dismay was Graham Kerr, the "Galloping Gourmet" television chef with the casual approach to complicated recipes.

In a telephone interview from Bournemouth, England, Kerr said of the new food, "It's got to happen. If we don't take some sort of rational approach to in-depth agriculture, only the very, very rich will be able to eat natural food. What is considered good food today is going to be prohibitively expensive."

Besides, he said. "I predict

## 'School' Theme Dominates Party For VA Patients

Twenty-five patients in the Nursing Home Care Unit of the Veterans Administration Hospital were entertained during the monthly birthday party Monday at the hospital.

Mr. and Mrs. A. E. True and Mrs. Alfred Moody were in charge of planning the party, and they were assisted by other volunteers.

A "Back to School" theme was carried out in decorations, with Mrs. Moody attired as an old fashioned school teacher whose desk featured a plumed pen, lunch pail and hand bell.

Patients were presented tablets and pencils, along with refreshments in lunch sacks. Punch was served with such things as sandwiches and oranges. The refreshment table was accented with a "little red schoolhouse."

The program theme was emphasized by a medley of songs presented by an employe choir, and cheer leaders from Goliad Junior High School appeared to demonstrate their routines.

## Kentwood PTA Breaks Record For Membership Enrollment

The Kentwood Parent-Teacher Association broke all previous membership records by exceeding its goal of 200 members, it was announced Tuesday at the school cafeteria. The room with the highest percentage of PTA enrollment will receive a prize. Mrs. Martin Landers' sixth grade class presently leads with 100 per cent enrollment.

Excerpts from books by Erma Bombeck and Jean Kerr were given by Mrs. Clyde Angel to illustrate how the end of summer effects various people. The books used were "Car Pool Allergy", "Why Mommas Can't Read", "The First Day of School is Rough on Mothers", "Reflections at Summer's End" and "New Principals." Mrs. Dan Shockey presided,

and the proposed budget of \$465 was approved. The only new entry was an allotment for a teacher appreciation award at the end of the school year. Plans were made for a Halloween carnival Oct. 23 at the school. Mrs. Shockey introduced her executive committee members. They are Mrs. Wayne Henry, vice president; Mrs. Jerry Avery, treasurer;

and Mrs. Jerry Snodgrass, secretary. Teachers and classroom assistants were introduced by Jim Holmes, principal. Devotion was by the Rev. Kenneth Patrick of First Baptist Church. Sewing Club Plans Holiday Parties

Members of the Pioneer Sewing Club made tentative plans for Christmas parties and projects Tuesday in the home of Mrs. Dan McRae, 603 Goliad. Mrs. Maggie Pittman of Odessa, Mrs. McRae's mother, was a guest. Secret pal names were revealed. The next meeting is at 2 p.m., Oct. 5 in the home of Mrs. D. L. Knight of Forsan.

## 4-H Sees Film Of Washington

Caria Perry showed a film of the highlights of her summer tour of Washington, D.C. for the Lomax 4-H Club Monday in the home of James Moore. Miss Perry was in the nation's capital with a group of 4-H members from all areas of Texas. Newly-elected officers who assumed their duties at the

meeting were Gary Posey, president; Buttons Moore, vice president; Miss Perry, treasurer; and Ralph Newman, reporter. Members agreed to change meeting days to the second Monday of each month. Preliminary plans were made to host a Halloween carnival Oct. 23 at the Lomax 4-H club house.

## BSP Sets Style Show

Plans for a coffee and style show for prospective members were made by the Alpha Eta Upsilon Chapter of Ackerly, Beta Sigma Phi, Tuesday in the home of Mrs. Dan Shortes. The coffee will be at 9:30 a.m., Oct. 1 in the home of Mrs. Jerry Hall.

In other business, members agreed to participate in house-to-house marches for United Fund and Muscular Dystrophy. They will canvass the Ackerly community for MS Monday. Cookbooks will be sold by chapter members as a fund-raising project to finance rushing activities. Regular meeting days were rescheduled for the second and fourth Tuesday of each month, the next one being at 9:30 a.m., Oct. 12 in the home of Mrs. Derrell Bearden.

## Bed Sheets Can Rejuvenate Rooms

The lady of the house might match her refurbishing skills to those of the family do-it-yourselfer.

For example, she can rejuvenate a bathroom in a day using her seamstress skills, bed sheets and tape. There is nothing to saw, hammer or drill. Sheets go on windows, walls, ceilings, shower and basin area and they might even hide some wall blemishes. Best of all, they can be removed easily, washed and put back in place.

**NEWEST BUICK MODEL** — The Sun Coupe in the Skylark series is the newest model in the Buick line for 1972. It features a folding vinyl roof covering an opening 42 inches wide by 50 inches long. The sun roof is operated by releasing the latch and sliding the header to the rear where the vinyl forms three low profile folds. The new Buicks are now on display at Jack Lewis Buick and Cadillac, 403 Scurry.

## 1972 Buicks Show Improved Safety Qualities, Good Looks

The 1972 line of Buicks featuring strong emphasis on im-

proved bumper protection, reduced exhaust emissions and numerous styling refinements, including a new Sun Coupe model, are now on display at Jack Lewis Buick and Cadillac, 403 Scurry.

All series — Riviera, Electra, Centurion, LeSabre and Skylark — have distinguishing features for 1972 including new grilles and attractive new styling in the rear.

All 1972 Buick models will offer as optional equipment bumpers that have protective rubber impact strips to prevent scuffing in minor collisions and heavier, rubber-faced bumper guards. A rigid reinforced all-steel front bumper system on LeSabre, Centurion, Estate Wagon and Electra provides additional protection for grilles, lamps, fenders and other parts of the car.

A new Sun Coupe model based on the Skylark 350 sport coupe will be offered for the first time. The Sun Coupe includes a folding vinyl sun roof with gold-colored nameplate, and is available in bright gold or bright red carpeting.

The sun roof is manually operated and consists of a vinyl material covering an opening 42 inches wide and 50 inches long. The top is operated by releasing the latch and pushing the header to the rear where the vinyl forms three low profile folds on the rear of the top.

A power-operated steel sun roof will be available on the 1972 Riviera. This sun roof consists of an electrically-powered

sliding steel panel 36 inches wide and 30 inches long which is operated by a switch on the instrument panel.

The Skylark Custom coupe, featuring a chrome-plated die-cast grille, offers as an option a specific vinyl top with a distinctive halo molding. The Skylark 350 coupe has a specific short vinyl top with a unique wrap-over stripe that outlines the vinyl.

Each series in the new Buick line has its own distinctive grille and ornamentation, and the optional protective rubber impact strips tailored to each bumper for additional protection.

Electra, Centurion, Estate Wagon, and LeSabre have front bumpers with heavier face plates backed up by additional steel reinforcement.

All 1972 Buicks will offer a number of other significant advances in the product, particularly in the areas of engine and chassis improvements.

Smoother engine operation using low octane, unleaded fuel is achieved with a new solenoid actuated throttle stop, faster opening throttle linkage and modified camshafts.

# U. S. Bombers Follow Up Massive Strikes In Viet

**SAIGON (AP)** — U.S. bombers followed up massive strikes in the southern panhandle of North Vietnam with raids today against enemy positions in the southern half of the demilitarized zone and Laos.

**GUN SIGHTS**  
The U.S. Command said it still had no assessment of damage caused by 200 strikes by Air Force tactical fighter-bombers Tuesday in an area from the DMZ 35 miles into North Vietnam. The planes bombed missile and gun sites and supply depots. Some sources said poor weather hampered an assessment.

North Vietnam claimed today that it downed two of the fighter-bombers and damaged many others, but this was immediately denied by the U.S. Command.

All of our aircraft were recovered safely and there was no damage," said Maj. Robert O'Brien.

The Radio Hanoi broadcast also said the planes bombed and strafed "a large number of civilian populated areas" in Quang Binh Province, just north of the DMZ. O'Brien said the strikes were directed

against military targets.

In the followup raids, Air Force B52 bombers and fighter-bombers from bases in Thailand and Navy warplanes from a 7th Fleet carrier in the Tonkin Gulf launched heavy strikes against storage depots and rocket positions in the southern half of the DMZ and against the Ho Chi Minh trail supply network in eastern Laos.

**DELTA BATTLES**  
Two 7th Fleet destroyers with five-inch guns also kept up their bombardment of North Vietnamese positions along the eastern flank of the DMZ. The thrust of the B52 bomb-

ing strikes was switched back to Laos two days ago after South Vietnamese forces closed out operation Lam Son 810 below the western flank of the DMZ on the Vietnamese side of the Laotian border.

The South Vietnamese command reported an eighth day of fighting in the U Minh forest, in the Mekong Delta 145 miles southwest of Saigon.

Headquarters said infantrymen and rangers backed by U.S. helicopter gunships killed 21 North Vietnamese and Viet Cong troops and captured seven weapons and a quantity of munitions in a series of

clashes Tuesday. One South Vietnamese soldier was killed and six were wounded, a communique said.

## Crooks Keep Up With News

**SAN ANTONIO (AP)** — Even crooks like to keep up with the news, police records show.

Nine-year-old Tom Gonzales told officers he was selling papers recently at a street intersection when he was robbed of \$1.45.

The robber also took five newspapers.

10-B Big Spring (Texas) Herald, Wed., Sept. 22, 1971

## Dallas Prisoners Stage 'Hot' Show

**DALLAS (AP)** — Prisoners quoted as saying they wanted to call attention to grievances broke windows and burned mattress covers and paper Tuesday night during a two-hour uprising in the jail atop the Dallas County courthouse.

Sheriff's deputies said the disturbance started in two holding cells, called tanks, where 97 inmates were housed on the 12th floor and spread downward to the 11th.

Flames were visible for a time from the street below and smoke billowed from the southwest corner of the downtown building. Burning pieces of paper and cloth were tossed through the windows.

Prisoners yelled and banged steel tables against cell bars as the revolt widened. Officers estimated up to 500 were involved at its height. The jail's current population is about 1,600.

City policemen and sheriff's deputies in bullet-proof jackets and riot helmets, moved up armed with nightsticks but no guns. They were reinforced by four police dogs.

Firemen manning four pieces of equipment ran hoses into the jail. Sheriff Clarence Jones said the trouble started dying down, however, after he told some of

the demonstrators that "this situation was not conducive to discussion" of their complaints.

He reported the prisoners surrendered crude knives fashioned from metal strips from window louvers, broken broom handles and socks weighted by cakes of soap.

There was no word of any injuries.

After calm was restored, the sheriff met with spokesmen for the prisoners. They were quoted as wanting to tell him about grievances over restrictions on visitors, medical attention, use of the telephone, food and "shakedown" searches of their cells for weapons or other contraband.

Officers massed to rush the rebellious inmates found doors to tanks inside the cellblocks roped shut with strips torn from mattresses and blankets.

City policemen said they were notified earlier in the day about a telephoned tip to the sheriff that the uprising would occur.

For beauty and convenience this lovely little shag . . . style as you please with just a flip of the brush . . . 100% Dynel that you shampoo and drip dry . . . in all colors . . .

## For the price of a new Skylark 350 you can own a Buick.

You'll find Buick's Skylark in a price class you're very used to. But with a lot of things that might be very new to you. Like Buick comfort. The rich cloth seats standard in our new Skylark 350. Thick carpeting. Even a deluxe steering wheel. And the Buick ride. Smooth and quiet. Plus Buick engineering and performance. A standard 350-cubic-inch V8 that's responsive, yet economical. With Buick technical advances like nickel-plated engine exhaust valves and a semi-closed cooling system. This year, perhaps more than ever before, you ought to consider getting all this Buickness. Especially when you can get it Skylark-priced.

**1972 Buick Skylark. Something to believe in.**

See all the 1972 Buicks now at your Buick dealers.
