

PAKISTANI COMMANDER APPEALS FOR CEASE-FIRE

# India Orders Bombing Halt

The Pakistani commander in East Pakistan has appealed to the Indian army chief of staff for a cease-fire, the government in New Delhi announced today. India ordered a halt to the bombing of Dacca and gave the Pakistanis 16 hours to surrender.

Gen. Sam Manekshaw, the Indian chief of staff, replied that he would order a cease-fire as soon as the Pakistanis confirmed their surrender, an Indian spokesman said. The appeal was from Lt. Gen. A. A. K. Niazi, who previously had vowed to fight to the last man.

The exchange between the two generals came as an Indian

army spokesman reported Indian troops fired mortars into Dacca from less than two miles away and the battle for the East Pakistani capital "is in its final stages."

Indian troops also were reported within four miles of Chittagong, East Pakistan's largest port. Its harbor area was hit Tuesday by an air and sea bombardment.

Manekshaw warned that "if you do not comply with what I have stated you will leave me with no other alternative but to resume my offensive with the utmost vigor at 0900 Dec. 16."

This is 10:30 p.m., EST, today. Manekshaw told Niazi he had ordered the bombing pause

at Dacca as a "token of my good faith."

The Indian army chief made clear a surrender would be required before India would agree to a cease-fire.

Radio Pakistan conceded that Indian troops were putting pressure on Dacca after opening up with an artillery shelling Tuesday.

In New Delhi, members of Parliament demanded a government statement of reports that ships of the U.S. 7th Fleet, led by the nuclear-powered aircraft carrier Enterprise, are headed toward the Bay of Bengal.

Shipping Minister Raj Bahadur told members "not to be

unnerved or give undue importance" to the reports. Washington sources said the ships had been ordered to mark time short of the Bay of Bengal until it was decided whether an evacuation of East Pakistan was necessary.

The Army spokesman in Calcutta told newsmen Dacca is surrounded and leading elements of Indian columns, advancing from the northwest, north and south, have opened up with mortars on the city from 3,000 to 6,000 yards.

The spokesman said waterways east of the city have been crossed and no further waterways remain between Indian forces and Dacca.

A doctor in a Dacca hospital said the wounded Pakistani soldiers being brought in were "more than we can deal with." But despite a pledge from the Pakistani commander in the east to fight to his last man, there were no reports of military activity by the defenders.

An Indian spokesman in New Delhi said Indian advance units were six miles from Dacca and that all three attacking columns were within artillery range of the provincial capital. India's heaviest artillery has a range of slightly more than 15 miles.

As the Indian forces closed on the city, A. M. Malik, East Pakistan's governor, and his

council of ministers resigned and took their families to sanctuary with the Red Cross at the Hotel Intercontinental.

Jack Folsie of the Los Angeles Times and Dan Cogan of Time magazine reached the front-line fighting Tuesday at Demra, on the Lakhya River seven miles southeast of Dacca, and reported a Pakistani rear guard unit retreated across the river under fire as Indian and rebel East Pakistani forces entered a village on the west bank.

The Pakistanis settled into defensive positions for a delaying action and soon came under artillery, mortar and machine-gun fire from across the river.

The newsmen reported East Bengali guerrillas armed with

Sten guns were operating along the road between Demra and Dacca.

Dacca's Bengali policemen were reported disarmed Monday night to prevent them from attacking the Pakistani troops. Red Cross officials reported a growing shortage of food even though the city's population of 1.5 million was estimated cut to less than half that by residents fleeing to the countryside.

In West Pakistan, the figurehead civilian government which President Agha Mohammad Yahya Khan hurriedly put together last week issued an urgent appeal to President Nixon and Premier Chou En-lai of Communist China for "practical help."

DACCA SCENE — This is a scene from recent years of Dacca, capital of East Pakistan. Today the city is under heavy attack by Indian forces.

### Child Dies, Three Hurt In Car Fire

A 1½-year-old boy died and three other children were injured in a fire inside a car on the parking lot of the Veterans Administration Hospital about noon today.

The children and one woman were taken to Cowper's Clinic and Hospital for treatment. Hospital officials identified them as Mrs. Douglas (Linda) Bailey, 21, of 1508 Bluebird, Douglas Bailey, 4, Rodney Bailey, 3, and Jeff Alton Ford, 3, son of Mrs. Frances Ford, 908 N. Runnels, who is Mrs. Bailey's mother. Mrs. Bailey was reported in shock. She was not in the car when it burned.

The dead child was identified as the son of Mrs. Bailey. He was taken to River-Welch Funeral Home.

A witness said the voltage regulator on the car was stuck open and may have been the cause of the fire.

Mrs. N. C. Petty, 2202 Cindy, said she drove into the parking lot and noticed smoke boiling up inside the car, and then she heard children screaming. She said she got out of her car and ran over to the burning auto, from which she saw a small boy crawl out through a window

and fall on the pavement. Mrs. Petty said she wasn't sure whether she opened a door or the children opened the door, but at about this time two other children came out of the car through a door.

Inside the hospital Mrs. Jo Ann Stalcup heard the car horn blowing, looked out and saw smoke and sounded the fire alarm. At about the same time Faustino T. Aguilar, an off-duty employe of the hospital, ran inside to the front desk and told employees to sound the fire alarm.

Two other employes, Vick Wrye and Mike Leash, grabbed fire extinguishers and ran out to the car. Wrye said the windshield had been blown out of

the car, and he got upwind of the car because he thought the gas tank might blow up.

Wrye said that while he was spraying the car with a fire extinguisher, a woman (later identified as Mrs. Bailey) came running out of the hospital screaming that there was another child in the car, but the entire inside of the car was aflame and smoke was too thick for him to see inside, he said. The woman collapsed and was taken to the hospital where she was being treated for shock.

The fire was extinguished by members of the Big Spring Fire Department and the child's body was found on the floor between the front and back seats against the door.

### U.S. Planes Hit Targets North Of DMZ

SAIGON (AP) — American fighter-bombers made their deepest attack into North Vietnam this year on Monday, hitting a missile battery 210 miles north of the demilitarized zone, the U.S. Command reported today.

It said two Navy A7 jets fired two missiles at the anti-aircraft site about 145 miles south of Hanoi after a surface-to-air missile was fired at them.

There was no damage to the American planes, the command said, and they returned safely to the carrier Constellation in the Tonkin Gulf.

Results of the attacks were not known because of low clouds, the command said, but the U.S. missiles homed on the enemy's radar signal. The raid was the 96th inside North Vietnam this year. It was carried out 50 miles northwest of the coastal city of Vinh "in the vicinity of Quang Lang air field," the command said. Anti-aircraft batteries on the field were attacked by U.S. planes Nov. 8 in a strike 48 miles northwest of Vinh.

Meanwhile, South Vietnam's commander in eastern Cambodia claimed today that his forces and America's B52 bombers have badly mauled two North Vietnamese regiments and drawn a third away from Cambodian troops to the west.

### Gunman Hits Ambassador

LONDON (AP) — A gunman shot and wounded Jordan's ambassador today with a burst of fire from an automatic weapon.

Ambassador Zaid al Rifai, 35, was hit in the hand while being driven in a limousine from his home to his embassy.

Rifai has been mentioned often as a future Jordanian prime minister.

Prime Minister Wasfi Tell was slain by three gunmen in Cairo Nov. 28. Three Palestinians are being held by the Egyptians.

Rifai was taken to a hospital. The gunman escaped.

Police ordered a check on Arab extremist organizations in Britain and put on added security measures.

### Corpus Christi Crash-Theft

CORPUS CHRISTI (AP) — A Corpus Christi man suffered critical injuries Tuesday night when struck by a car. While the driver was helping the victim, her car was stolen, police said.

William White was knocked on the hood by a car driven by Mrs. Gracie K. Ensey, patrolman T. E. Jenkins said.

The man was carried 135 feet before he fell off and was struck by another car.

Officers said Mrs. Ensey's car was stolen when she parked it and ran back to help White.

### Quake Triggers Wave Watch

PALMER, Alaska (AP) — An earthquake measuring 7.8 on the Richter scale was recorded Tuesday night off the east coast of Siberia's Kamchatka Peninsula, the Palmer Observatory reported.

The observatory issued a seismic sea wave watch for Alaska's Aleutian Island chain, about 800 miles east of Kamchatka, and the National Weather Service in the Hawaiian Islands alerted its stations to watch for signs of a sea wave.

But a spokesman at Palmer said, "At this time we really don't think there will be a Pacific sea wave." He said the quake was centered about 1,700 miles west of Anchorage and was not felt in Alaska.

### Panther Leader 'Beats' Charge

OAKLAND, Calif. (AP) — A judge dismissed a manslaughter charge today against Black Panther Party leader Huey Newton after the district attorney said it would be useless to try Newton a fourth time.

Newton, the 29-year-old Panther minister of defense, had been charged in the 1967 slaying of an Oakland policeman, John Frey.

"We can't try this case for a fourth time because we lack any new evidence and because it would be fruitless to have another hung jury," Dist. Atty. Lowell Jensen told Superior Court.

### FORMER ILLINOIS GOVERNOR INDICTED

WASHINGTON (AP)—Otto Kerner Jr., federal appeals court judge and former Illinois governor, was indicted by a federal grand jury today on charges of bribery, mail fraud, tax evasion, perjury and conspiracy as a result of race track stock transactions while he was governor.

Three appointees to Kerner's administration, which ran from 1961 to 1968, and a Chicago businesswoman also were named in the 19-count indictment handed down in U.S. District Court in Chicago.

Kerner, a Democrat, and the others were accused of conspiring to obtain about \$356,000 worth of race track stocks for \$7,158. The grand jury said the money was used as a bribe to influence Kerner's administration of horse racing in Illinois.

### CHEER FUND KEEPS GOING

The Christmas Cheer Fund slowed a mite today, but the important thing is, it kept going.

Your help is needed to make sure that needy families are not overlooked at Christmas. The Herald is working with the Salvation Army toward this goal, so if you can lend a helping hand, please mail or bring your gifts to the Herald.

15 DECEMBER 1971

MUCH HAPPINESS — These were the expressions of Mr. and Mrs. Gene Harbert and their daughter, Mrs. Sue Carlington, Tuesday as they saw first pictures of daughter and sister, Mary Ann, just returned to U. S. after three years in captivity in Red China.

# Two Freed Captives Face Series Of Medical Tests

PHILADELPHIA (AP) — From a 10,000-mile trip that rested and nourished on such fare as ham-burgers, French fries and steak, Mary Ann Harbert and her sister, Miss Harbert, are scheduled to begin Tuesday a series of medical tests to determine the effects of captivity in Communist China.

# U.S. OFFICIAL CALLS HALT ON TALK Joint Space Mission Muzzle

SPACE CENTER, Houston (AP) — Engineers who met with the Soviets last week to discuss a possible joint U.S.-Soviet spaceflight were instructed by a Washington official to halt talks.

John P. Donnelly, assistant administrator for public affairs of the National Aeronautics and Space Administration, said he made the decision because there was a need for "ratification, verification and review" of the discussions in Moscow.

# Texas Stock Quiz Figure Crash Victim

SAN ANTONIO, Tex. (AP) — Graveside services were held today for Christopher Goldsbury Sr., the president of a firm named as a defendant in the Texas stock scandals.

Goldsbury, 55, who had headed Olympic Life Insurance Co. of Fort Worth for nearly a year, died in the crash of his twin-engine plane here Monday night.

# School Air Conditioning Study Tabled By Board Of Trustees

By STEVE HULTMAN  
Action on a proposed air conditioning feasibility study was tabled Tuesday night until a later meeting of the school board.

A proposal for an air conditioning feasibility study was received from Roberts & Higgins, a Lubbock engineering firm. The cost of the Roberts & Higgins study would be \$3,300, which is \$300 more than the study by Cowan, Love & Jackson, Inc., a Fort Worth engineering firm.

The total cost of air conditioning all the schools would be about \$1,000,000, with \$50,000 per year in utility and maintenance costs.

"I think we would get more value from Roberts & Higgins," said Jim Bill Little, board member. "But I have no recommendation yet."

"If we go to the next step," said Jerry Jenkins, board

member, "the Roberts firm will be much cheaper, because time, travel and expenses would have to be paid then. It is a lot closer to Lubbock than to Fort Worth."

**NO AGREEMENT**

The board discussed the possibility of having Don Crockett, business manager, and Walter Alexander, head of the district's maintenance program, do a rough survey of the schools so "ballpark" estimates of cost could be made.

No agreement was reached, and Jenkins moved to table action until a later meeting.

The board heard a request by John Scott, a Cabot employee, asking that the Lakeview School gymnasium be made available to a YMCA men's basketball team for practice sessions.

The board decided to postpone the matter until the next meeting, when they hope to have a policy set on the use

of school gymnasiums by outside parties.

"I would like to see all the gyms in use by the public every night," said Ralph McLaughlin, board member.

**WORK IT OUT**

"So would I," said Roy Watkins, board president. "But find the best way to do this."

Resignations of Mrs. Phyllis Carr and Mrs. Susan Simonet were accepted, and the death of Herman Roy Baird was reported to the board. Trustees approved the employment of Mrs. Dorrace June Smith, Mrs. Suzanne I. Swann, Miss Shirley Ann Thomas and Mrs. Martha E. Tucker.

The board received official notification from the Texas Education Agency of maximum grants from Title I and II, ESEA, and Title III, NDEA. The grants total almost \$135,000. The next board meeting was set for Jan. 11, 1972.

## SCHOOL HOLIDAYS

Christmas holidays for Big Spring students begin Friday at 2:45 p.m., and classes will resume Monday, Jan. 3, 1972.

**HOPE HONORED, AND HUGGED** — Bob Hope gets a cheek-to-cheek squeeze from Zsa Zsa Gabor at a \$500-a-plate dinner honoring him in Hollywood Tuesday night—as he prepared to leave for his 21st overseas Christmas tour of U. S. bases. The affair raised about \$300,000 toward the building fund of a \$1 million Los Angeles USO club.

## Rape Trial Punishment

GOLIAD, Tex. (AP) — A five-man, seven-woman jury today begins deciding on the punishment for convicted rapist Richard Alton Littles, 26, but the panel will not be able to consider assessment of the death penalty.

Littles, of Goliad, was found guilty Tuesday of the April 17 rape of a 5½-year-old girl, who testified she was enticed into his house after he told her that her sister was inside.

Judge Joe E. Kelly of 24th District Court refused to allow the state's application to seek the death penalty. He pointed to appellate court decisions disallowing capital punishment in cases in which the life of a rape victim was not taken.

## School District To Host Confab

The Big Spring Independent School District will be one of 30 Texas school districts to host a day-long community conference in cooperation with the Advisory Council for Technical-Vocational Education in Texas.

The school board Tuesday night approved the meeting, which will be held Feb. 7, 1972, in Big Spring.

The purpose of the meeting is "to establish a climate conducive to the development of technical, vocational and manpower training in educational institutions in Texas to meet the needs of industrial and economic development of the state," according to the Advisory Council.

More than 30 types of local organizations are suggested as participants in the conference, which will be organized locally.

The local conference will rely heavily on local participation, but a team from the Advisory Council would present part of the program and participate in

other aspects of the conference.

The conference will help formulate recommendations on technical-vocational education that will be representative of other similar communities in Texas and provide recommendations that will apply specifically to Big Spring. The Advisory Council will present the recommendations to the State Board of Education.

A meeting has been set for 5 p.m. Thursday by Roy Watkins, board president, as an organizational meeting with other local groups to be involved with the meeting.

The only objection to the conference was made by Jerry Jenkins, board member, who said, "I don't think we have enough time to get organized for this type of meeting. It would take four to six months to organize properly."

The conference, to be organized by the school district with the help of other groups, was approved unanimously.

## Cup Could Become Unifying Symbol

If each family had a special drinking cup, known as the Family Cup to pass from member to member in a ceremony to celebrate holidays and other events, it could become a tangible symbol of family unity.

The cup ceremonies as a tradition would help open up new patterns for communication and break down the sense of separation that creeps in as each goes his own way.

These views are expressed by Jack W. Lundin in a new book, "Celebrations for Special Days and Occasions," published by Harper & Row.

"Throughout man's history the cup has played its part in services to show unity for a tribe, a community, or a family," he says. "It has long held prominence in special ceremonies such as weddings, especially Eastern Orthodox."

"You'll want to take time to get just the right cup to symbolize your own family's life style," he writes. "Maybe you'll want to buy a basic cup and then add drawn symbols or paste-ons. It is better to select

it as a family, and after you have purchased or created what you want, then dedicate it together as a family."

He gives a simple dedication ceremony which can be followed, or varied, to initiate the Cup for its future purpose, in which the leader speaks solo, and the rest respond as a chorus.

To climax the ceremony, the cup is filled and passed for all to share. "A napkin may be passed with the cup," the author adds.

Ceremonies are given in the book for 35 other occasions including holidays and special events, such as the birth of a baby, an engagement, a wedding anniversary, welcoming overnight guests and welcoming new neighbors who are invited to participate.

"Likewise, the Family Cup should be used as a symbol to draw members together both in joy and in sorrow," he adds, "and for insight into each other's lives. We all need some bond to help us maintain a sense of common destiny and a fresh hope for our future."

## Infantry Museum To Honor Soldier

The colorful and exciting history of Texas fighting men, including the famous "T Patchers" of the 38th Infantry Division, will be enshrined in a museum honoring the American foot soldier, and Texans are working to make it possible.

A statewide campaign to raise money to support the National Infantry Museum, to be built at Ft. Benning, Ga., is being headed by John W. Dixon, a former infantryman and now chairman of the board and president of LTV Electronics, Inc.

"The new Infantry Museum will be a monument of which every man and woman who has ever served in the U. S. Armed Forces can be proud," Dixon said. "Our goal in Texas is to raise enough of the \$6 million needed for the museum to show the rest of the nation that Texans care about the history

and heritage of their fighting men."

Nationally, the National Infantry Museum campaign is being chaired by Winthrop Rockefeller, former governor of Arkansas, and James W. Woodruff, a Columbus, Ga., television executive.

Artifacts, photographs and written histories of the Texas 38th Infantry Division will be displayed in the museum, along with other units. The role of gallant Texans in every war, including the Civil War, back to 1846 will be exhibited.

The new museum, scheduled for opening in 1972, will replace the present small museum which is housed in antiquated World War II barracks. Staffed by U. S. Army personnel and open to the public, the new museum will be 10 times larger than the present one and feature more than 71,000 square feet of exhibit area.

## New Witness In Diamond Case Talking

CORPUS CHRISTI, Tex. (AP) — The pre-trial hearing for state Sen. James Bates, expected to last several days, ended abruptly in 10th District Court Tuesday, when the prosecution agreed to make a copy of certain testimony available to the defense lawyers.

Bates was indicted by the grand jury last September on a charge of receiving a stolen diamond from Adrian Lambert, a man formerly convicted of both burglary and murder.

Lambert is a principal witness in the case. Asst. Dist. Atty. Phil Westergren said the Lambert testimony before the grand jury would be made available to the defense to save time.

The only new witness to testify Tuesday was Jack Miles of Houston, attorney for Mrs. Dianne Martin. He testified that Dist. Atty. William Mobley made a statement that was "a nature of a threat" after Mrs. Martin's testimony to the grand jury differed in parts from a statement earlier given in the district attorney's office.

He testified that Mobley was "upset" after Mrs. Martin's testimony to the grand jury and told him "Your client just blew my case."

Mrs. Martin testified Monday that she "took back" some things she had said earlier and that she had been confused at the time she gave the statement in the district attorney's office.

Mrs. Martin was secretary to Bates in his Austin office. She testified that she "had gone" with Adrian Lambert.

## Death In Orient

WASHINGTON (AP) — The Defense Department announced Tuesday the death of a Texas serviceman in the Orient. He is Army Spec. 5 Billy R. Coffey of Dallas.

# 'WE NEVER GET ANYTHING DONE' Parks, Recreations Chairman Discusses Board

By BRIAN PEAY  
Interest concerning the city Parks and Recreation Board is beginning to build in the city, and city commissioners Tuesday night were given an eye-opening view of some of the things with which the board is faced.

## Survey Shows Marginal Wells Are Significant

Texas' oil producing industry, while watching with keen interest the development of super-deep gas reserves in the Delaware basin, has a significant "stripper" or marginal well segment. The magnitude of this branch of the industry is evident in a nationwide study jointly released last month by National Stripper Well Association and Interstate Oil Compact Commission.

The state, in the survey, is shown to have 85,117 marginal wells, leading the nation in this category. A stripper is customarily defined as a well which produces 10 barrels of oil daily, or less. In Texas, the average stripper makes 3.98 barrels daily compared with the national average of 3.37.

During 1970, the period covered in the survey, these wells accounted for a total of 123,736,000 barrels of oil with a wellhead value exceeding \$400 million.

Of this gross income approximately one-eighth or \$30 million went directly to farmers, landowners or others holding mineral interests.

Substantial amounts then went to meet oilfield employee payrolls, toward state and federal taxes, to purchase replacement equipment for worn-out units, to treat or clean out wells and to oil-related

that the board needs support, and that some of the business items currently facing the board needed to be acted upon by commissioners.

## VANDALISM

Vandalism at the golf course was the main topic Horton discussed with the council, but also new mats and carpet in the clubhouse and addition of outdoor toilets for the course were high on the list.

Horton also mentioned the current move in the city to replace the FM 700 ball field in another location in the city.

## RELUCTANT

Each time the request has come before the board, once last summer and once in a recent meeting, some of the board members have been reluctant about the proposed site and undecided about where to move it, although they agree it should be moved.

Horton told the commission that there have been no concrete suggestions concerning where to move the park and presently the item is under study, like all the rest of the business items that are overdue some action.

## GOLF COURSE

In other business concerning the city parks board, Bill Brooks, president of the Big Spring Golf Association, asked the council to give serious consideration to implementing some of 26 improvements on the golf course requested in a letter to the city manager from the

association in November. In particular the association president requested that the commission approve the building of 20 additional golf cart sheds at the club house. Brooks pointed out that the golf course is the city's eighth largest revenue maker, and the commission is going to have to invest money to make money.

Earlier the commission had agreed to consider building the additional units, if the association could produce 20 golfers willing to pay \$150 each

as two-year advance rent to finance the building.

This will make the second or third such study on the facility. Commissioners also approved a fishing charge at the lake, similar to the charge at Moss Creek Lake. Charges there are \$10 per couple per year, \$5 per single per year, and 50 cents per day.

"We have not developed this facility to its full use yet, and I think it could be used as a public convention center with a full time caterer also acting as caretaker of the facility," Nagel said.

Presently the facility is being rented through the Chamber of Commerce for dances and meetings, and Nagel said that the city can capitalize on its development as a first rate civic and public center and fishing lake.

Commissioners also approved a fishing charge at the lake, similar to the charge at Moss Creek Lake. Charges there are \$10 per couple per year, \$5 per single per year, and 50 cents per day.

"We have not developed this facility to its full use yet, and I think it could be used as a public convention center with a full time caterer also acting as caretaker of the facility," Nagel said.

Presently the facility is being rented through the Chamber of Commerce for dances and meetings, and Nagel said that the city can capitalize on its development as a first rate civic and public center and fishing lake.

## MEN COMMITTED

Brooks told the commission that already there were seven men committed, and city dads decided that they should take steps to hold up their side of the bargain.

Cosden Lake and club also was discussed in the regular session. Commissioners gave the city manager authorization to make a study on how the facility can best be utilized.

## Band Holds Bake Sale

The Big Spring High School Steer Band will have a bake sale Saturday in the Highland South Mall.

On sale will be 18 kinds of candies, 169 cakes, 18 pies, eight kinds of bread, dozens of cookies, six kinds of Mexican food and "Mr. Bradley's world famous pumpkin bread."

**BIRTHDAY GIFT** — Soviet Agricultural Minister Vladimir Matskevich holds a new Weatherby Mark IV .30 caliber hunting rifle he received during a party in Des Moines, Iowa, Tuesday, to note his 62nd birthday. Matskevich, who is on a tour of American agricultural facilities, quipped, "Can I take it with me?" His hosts said he could. H. B. Wallace, one of his hosts, said ammunition for the weapon could be taken from the country by diplomatic pouch.

## Sanity Verdict Frees Texan After Beating Of Tiny Girl

SAN ANTONIO, Tex. (AP) — Charles L. Jennings was free for the first time in nearly 10 years today after a jury declared him sane.

"I can't believe it yet," said Jennings, now 27, who was arrested on Feb. 20, 1962, in the beating death of a 9-year-old girl.

Jennings was charged with murder with malice, but a jury ruled on June 13, 1962, that he was insane at both the time of the slaying and his court hearing.

A state district court jury deliberated 50 minutes Tuesday

and found him sane.

The tall, thin former high school track star smiled and shook the hand of his lawyer. Moments later, he hugged his brother and shook his father's hand.

Two women teachers from the Rusk State Hospital for the criminally insane and a Rusk minister also embraced Jennings.

Because he was found legally insane at the time of the crime and hearing, state law prohibits his being tried for murder with malice.

Jennings was charged in the

slaying of Suzanne Elizabeth Frisby of San Antonio, whose battered body was found dumped on a hill here. She had come to visit Jennings' sister, 10, when she was killed on Feb. 17, 1962.

Until Jennings' arrest, parents escorted children to schools and patrolled streets.

Testimony at his hearing Tuesday included that of Rusk doctors, who said Jennings completed high school at the hospital, earned top marks in two college courses and was permitted maximum freedom and privileges at the hospital.

## White House Wants To Fix Fences With GOP Liberals

WASHINGTON (AP) — Amidst a boast about his occasional breaks with the administration, the White House wants to mend pre-election fences with Republican liberals, efforts for President Nixon's 1972 campaign open this week in two more states.

GOP organizations in Maryland and Oregon, both states with liberal Republican senators, will announce formation of committees to run Nixon's all-but-certain campaign. Despite the absence of an official candidacy announcement, a re-election committee already has been established in New Hampshire.

Reports have been circulating in recent weeks that Maryland Sen. Charles McC. Mathias Jr. is on a White House list of those to be purged.

But Mathias, who does not

will be named chairman of the drive and Hatfield said Henry Flemming of the Washington-based national Committee for the Re-election of the President asked him beforehand about naming Wyatt.

"They were very solicitous," Hatfield said, "and most anxious to work together. They couldn't have got a better man than Wendell Wyatt."

The liberal fears date back to the 1970 congressional election when Sen. Charles Goodell, R-N.Y., a liberal, had to run without White House support. He was defeated.

Liberal Republican Mark Hatfield of Oregon, whose term expires next year, also said he is happy with arrangements for the campaign announcements being timed to end talk of purges, said "certainly that will be one effect."

## Nixon Slated To Sign Land Claims Bill

WASHINGTON (AP) — President Nixon is expected to sign into law a bill to give Alaska natives \$962.5 million and 40 million acres in settlement of their aboriginal land claims.

The bill, sent to the White House by Congress Tuesday, is a compromise worked out by a Senate-House conference committee, and is almost as liberal as one proposed by the administration.

The administration had recommended \$1 billion and 40 million acres to settle the claims of the 55,000 Eskimos, Aleuts and Indians.

The claims to most of the vast Alaska land mass are based on ancestral use and occupancy and have been recognized since the U.S. purchased Alaska from Russia for \$7.2 million in 1867.

The conference report, a compromise of bills passed earlier by the Senate and the House, sailed through the House, 307 to 80, and passed the Senate quickly by voice vote.

This climaxed 20 years of consideration by congressional committees of land-claim-settlement proposals. They began with a few million dollars and a few million acres, but increased sharply after discovery of oil in Alaska.

The compromise calls for federal appropriations totaling \$462.5 million in 11 years and \$500 million in royalties on mineral production in Alaska public lands. The latter otherwise would go to the state.

Most of the 40 million acres would be used for expansion of native villages in Alaska.

The money and land selections would be handled by native corporations. Funds would be used for grants, loans, schools, hospitals, investments

## Special Tax Rule For Parent Aid

Special tax rules apply when children jointly provide more than half of the support of their father or mother, Ellis Campbell Jr., district director of Internal Revenue for North Texas, said today.

Even though none of the children provided more than half of the parent's support for the year, tax law permits one of the children to claim the parent's exemption for tax purposes, Campbell said. The child claiming the exemption must have contributed at least 10 percent of the parent's support, and the other dependency requirements must have been met.

In these circumstances, the children can decide among themselves which will claim the tax exemption. The others are then required to fill out a special form stating that they will not claim the exemption. These forms (available at the IRS office here) are filed with the return of the person claiming the exemption.

and projects to benefit the natives.

The bill also calls for a joint federal-state land-planning study and the reservation of up to 80 million acres of Alaska land for possible inclusion in national park, forest, wildlife refuge and scenic river systems.

**NEW POST** — William Zale has been elected to the newly created post of vice-chairman of the board of directors of Zale Corporation. A co-founder of the company which expanded from its one store in 1924 to a national diversified chain doing nearly \$400 million annual business, Zale has served as vice president of the corporation, established its advertising office, and headed its life insurance division since 1968.

### Tax Refunds For Buyers Of New Cars

DETROIT (AP) — Buyers of new cars began receiving excise tax refunds this week after President Nixon signed repeal legislation, knocking out the tax retroactively to last Aug. 14.

Ford Motor Co. anticipated congressional and presidential approval of the excise tax refund—amounting to an average of about \$200 a car—and had refund checks prepared in advance.

Some 200,000 went into the mail Monday, the company said, and up to 50,000 more will be sent out daily until about one million are distributed to those who bought Ford cars or light trucks between Aug. 14 and Dec. 10.

The other major domestic automakers—General Motors, Chrysler and American Motors—said they are asking new car buyers to sign applications for refunds before sending out checks.

Potential new car buyers who walk into a dealership today should begin by having the dealer deduct the excise tax—roughly five per cent of the sticker price or a full seven per cent of the wholesale price—before dickering on the sale price.

### San Antonio Crime Probe

SAN ANTONIO, Tex. (AP) — The chief counsel of the House Select Committee on Crime will meet early next month with a county grand jury probing organized crime here, officials have disclosed.

Rep. Henry Gonzalez, San Antonio Democrat, and Dist. Atty. Ted Butler made the announcement Tuesday.

Gonzalez said Rep. Claude Pepper, D-Fla., chairman of the crime committee, had agreed to send chief counsel Joe Phillips to offer aid to the grand jury, probably Jan. 6.

The jury began its probe last month after a series of incidents here, including an alleged threat against Gonzalez and the beating of a Senate racket committee investigator.

Gonzalez, contacted in Washington, said Pepper's committee has been probing operations of organized crime on a national level. He said Pepper had "indicated they have information about Texas."

Butler called Phillips a "knowledgeable witness on the workings of organized crime" and said he understood that as a result of his nationwide investigations, Phillips "might be in a position to give valuable information to the grand jury."

### Execs To Discuss 'The Public Purse'

AUSTIN, Tex. (AP) — An eight professional development program for Texas state agency executives ends today with Gov. Preston Smith and Dr. John A. Gronouski as star performers.

Smith and Gronouski, dean of the Lyndon B. Johnson School of Public Affairs and former U.S. Postmaster General, will discuss "The Public Purse: Policy and performance." The final lecture—discussion of the eight-week course will be conducted by Associate Professor of Finance Lynn F. Anderson.

Almost 100 key state agency executives have been attending the series.

## MAY OPEN WAY TO MONETARY PACT Nixon Agrees To Devalue Dollar

WASHINGTON (AP) — President Nixon has agreed to devalue the dollar for the first time since 1934, a move that could bring a speedy settlement to the simmering international monetary crisis, perhaps before Christmas.

The agreement, reached Tuesday in a nine-hour meeting with French President Georges Pompidou in the Azores, stripped away a major obstacle to settlement of worldwide monetary disruptions.

No percentage devaluation was mentioned in the Nixon-Pompidou communique, nor was the method of devaluation. But a high administration official said an 8-per-cent devaluation was "about the highest figure mentioned" and was "very much in the ballpark."

Should devaluation be accomplished by congressional action raising the price of gold, an 8-per-cent change would result in a gold price of \$37.80 an ounce. The official price of gold has

held at \$35 an ounce since the United States stopped redeeming paper money for gold in 1934.

In simple terms, devaluation would make U.S. products more competitive in foreign markets and imported products more expensive in the United States.

Treasury Secretary John B. Connally said in an NBC interview Tuesday night: "I don't think the average American will ever really be conscious of it... The average American probably will not know it."

The formal communique was released as finance ministers and central bankers of the 10 richest non-Communist nations prepared to gather in Washington Friday and Saturday to discuss solving worldwide monetary disorders.

High-level U.S. officials indicated that firm agreement on currency revaluation will result in dropping the 10-per-cent sur-

charge the United States levied on imports Aug. 15.

The high administration official said the accord with Pompidou envisions a settlement along these lines:

—The value of the French franc would remain the same.

—West Germany would be expected to revalue its mark upward and an even greater upward revaluation of the Japanese yen would be expected.

—Exchange rates of major currencies would be allowed to fluctuate over a broader range than the present 1 per cent up or down. This, said the administration official, represented a major concession by the French.

The communique said France and other Common Market countries would move to start negotiations with the United States to settle "short-term problems currently pending."

The U.S. official said the short-term problems referred mainly to trade matters, although he would not get specific. The United States has long complained about trade barriers erected by the Common Market against U.S. goods.

Reaction on Capitol Hill to the Nixon announcement was favorable. Senate Democratic Leader Mike Mansfield and Republican Leader Hugh Scott said a modest devaluation would be a good thing.

### Action Council

LAMESA (SC) — The Lamesa-Dawson County Community Action Committee will meet at 7:30 p.m. Thursday in the Flame Room of Pioneer Gas Company to consider the appointment of a new executive director. The council also will name a second vice president and consider other regular business, according to A. J. McDaniel, president.

### CAP Holds Christmas Party

The Big Spring composite squadron, Texas Wing, of the Civil Air Patrol held its Christmas party Monday evening at the Webb Aero Club.

Lt. Col. Connell Taylor, commander, projected two film strips — one dealing with the first Christmas, the other

providing background on familiar Christmas carols. Cadets in the squadron exchanged gifts. Attending were 11 cadets and three adult members.

ORDINANCE DUE AT NEXT MEETING

# Delinquent Bills May Cost \$1

By BRIAN PEAY  
Steps toward eliminating delinquent city utility bills were taken by the city commission in regular session Tuesday night at city hall.

Harry Nagel, city manager, reported to commissioners that between 1,000 and 1,200 delinquent utility bills are outstanding every month, and he requested assessment of a \$1 late charge on each bill that is delinquent over 15 days.

"At present we are carrying on at least 10 per cent of the utility accounts delinquent, and this way we will be encouraging citizens to pay their bills on time," said Nagel.

**ISSUE TABLED**  
City fathers tabled the issue until the next regular session but directed that an ordinance be prepared to initiate the late charge on the bills. The ordinance will be presented for adoption in the next regular session.

In other areas of delinquent accounts, Nagel said that currently the city is collecting only 91 per cent on over-all tax assessment.

"If we can raise this collection average by 5 per cent, we are talking about an additional \$50,000 to the city in revenues," the manager said.

Nagel recommended that the city attorney start filing law suits against those with delinquent tax accounts, and asked the city commission's feelings on the matter.

**FILE SUITS**  
City dads agreed that suits should be filed immediately, recommended that the city attorney "file on them today, and we will read about it in the paper tomorrow."

The city attorney, James Gregg, will receive 15 per cent of all collections.

"We will probably start filing the suits after the first of the year, so that the city attorney will have time to get his cases together," said Nagel.

In other city business the commissioners discussed the revision of portions of the city personnel policy.

Nagel suggested that Chapter 5, paragraph 5 of the personnel policy be amended to read all city employees that work over 40 hours per week will receive compensatory time for the over-

time hours, instead of time-and-a-half overtime pay. Commissioners approved the request.

**SELL LAND**  
City councilmen also discussed the development and sale of lots in Section 17, Silver Heels Addition, which is city owned property.

A recommendation that a professional developer be retained by the city for the best development of the lots was approved by commissioners.

Jack Watkins, commissioner, pointed out that the county government and the school district are interested in the development and sale of the land, because it will broaden their tax bases. He said that the county will also build the roads into the property at no charge.

"This is also to be phase 2 of the current budget operation and recommendation. The sale of the land will be used as revenue for capital improvements to which the city already is committed, such as the sewage plant renovation," said Watkins.

The commissioner projected that the city will realize \$300,000 to \$400,000 in revenues from the sale of the land.

**GAS CONTRACT**  
Gulf Oil Corporation received the city's gasoline contract for the next eight months with a bid of .1614 cents per gallon of regular and .1809 cents per gallon of ethyl.

Normally the gasoline contracts have been awarded on six-month bids, however this year the bid was changed to eight months to allow the school system to enter into a gasoline agreement with the city.

Watkins said that the Junior College agency also is interested in joining in the agreement and the eight-month bid will accommodate each agency.

**RR AGREEMENT**  
Two resolutions authorizing the city to enter into an agreement contract with the Air Force and Corps of Engineers and a maintenance agreement with the Industrial Foundation and Intech were approved by the commission on the railroad spur serving the foundation's industrial park and Intech.

Commissioners were reluctant to approve the resolutions before receiving the signed

agreements from the foundation and Intech, however decided to approve the resolutions with the stipulation that Intech and the foundation make their signature available Friday.

John Currie, representative of the foundation, assured this would be done. Dec. 19 is the deadline for transfer of the spur, from Webb AFB to the city and foundation.

In other business the commission:

**DAMAGE CLAIM**  
—Approved a claim for damages by Eida Evans, who was in an accident with a city vehicle at the intersection of Sixth and Nolan Nov. 19.

—Approved a certificate of occupancy authorizing the sale of beer and wine for on-premises consumption at Kay's Bar, 3308 U.S. 80 west, being requested by Kay Green.

—Passed a resolution authorizing the hiring of Dan Almond and Company, of Dallas, as fiscal agent for the city.

—Approved a resolution amending Ordinance, Article 4, Section 23-77, and authorizing the sale of alcoholic beverages in local pool halls with three or under pool tables.

**QUITCLAIM DEED**  
—Authorized the mayor to sign a quitclaim deed for the Sacred Heart Church, transferring city-owned property to the church for use in building additions.

—Approved the appointment of Lois Turpin as the assistant city secretary, and directed the city attorney to amend the ordinance authorizing the assistant city secretary to sign city checks.

—Approved vouchers paid by the city through Dec. 14, with the stipulation that purchasing of specified city materials be done on a bid basis.

—Passed a resolution authorizing the mayor to sign an easement with Gulf Refining Company and Gulf Oil Corp. and receipt of payment for laying of additional lines in Section 17, city-owned property in the Silver Heels Addition.

## Bank Sale At Brady

BRADY, Tex. (AP) — A business associate of Lt. Gov. Ben Barnes was among three men announced Tuesday as purchasers of controlling interest in the Commercial National Bank of Brady.

Fred Wulff, chairman of the board of the bank, named the purchasers as Herman Bennett of Brownwood, Jack Pilon of Brownwood, and Carlton Beal of Midland. Bennett is the Barnes' associate.

Purchase price was not disclosed.

## Wind, Rain Kill One, Hurt Dozen

By The Associated Press  
Wind and rain lashed wide areas of the nation from the Southern Plains to New England today and snow and sleet coated scattered Northern sections.

Rain and wind, possibly including a tornado, caused at least one death and injured more than a dozen persons in southwest Missouri Tuesday night.

The storm raked the communities of Anderson, Newtonia, Republic, Springfield, Willard and Buffalo, killing one person in Republic and causing hundreds of thousands of dollars in property damage.

A tornado at Western Grove, Ark., brought extensive property damage, but no injuries were reported.

Flash-flood warnings were issued for portions of west-central Missouri and Southern Illinois as heavy rains swelled tributaries of the Mississippi.

Snow fell from the Northern Plains to the northern Great Lakes, while heavy rain mixed with sleet brought travel warnings to western New York State.

Snow also piled up in northern Rockies and the eastern Great Basin, while showery weather soaked in the Pacific Northwest.

Clear skies were confined to the Southwest from Southern California to West Texas and the Southeast from Georgia to Florida.

Early morning temperatures ranged from one below zero at Havre, Mont., to 77 at Key West, Fla.

# BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, WEDNESDAY, DECEMBER 15, 1971 SEC. B

(AP WIREPHOTO)

**ANNOUNCES TAX PROPOSALS** — Gov. Nelson Rockefeller announces proposals to increase New York state taxes at press conference Tuesday in New York. The governor's tax package calls for an additional \$236 million in income taxes, and increases in taxes on alcohol, cigarettes and motor fuel. He said the tax hike would be necessary to meet a projected \$1.5 million state budget gap over the next 15 months.

## Decoration Contest Deadline Friday

Two more entries have been received in the Chamber of Commerce Christmas Lighting and Decoration contest.

Richard Deal, 106 Lincoln, and Paul Sweatt, 3308 Drexel, both entered the entire yard and home division.

This brings to 14 the number of entries in the annual contest. The deadline for entry is Friday.

Prizes offered in the entire yard and home contest are an outside electric light, a coffee percolator and a dual control electric blanket. Special plaques will be awarded in the other divisions.

Chamber officials are urging

more Big Springers to participate in the contest, since "the contest will provide pleasure for everyone participating and will help beautify our city at this season of the year and will foster a friendlier community spirit."

The contest is open to all residences in the city limits, including Webb Village and the barracks facilities on Webb AFB.

Judging will be done the night of Dec. 22, with winners announced immediately.

Entries may be made by calling the Chamber of Commerce, telephone 263-7641.

## Galveston Bay Waters In Good Shape, Doc Says

HOUSTON (AP) — The director of the city health laboratory says the waters of Galveston Bay generally are in good shape and in some ways approach drinking-water quality.

Dr. R. D. Wende said his opinion is based on the results of four years of bay water analysis.

Looking at the results from a public health standpoint, Wende

said Tuesday that the bay waters in general are almost low enough in coliform bacteria and heavy metals to meet drinking water standards.

The coliforms are a key indicator because they often include disease-causing coliform from the intestines of warm-blooded animals, including man.

Wende showed coliform bacteria counts for October bay samples, the latest available, which frequently were less than 2 per milliliter. A scattering of higher counts ranked up to 130 to 230 per milliliter.

## Must Release Flood Water

HOUSTON (AP) — A spokesman for the Trinity River Authority says floodwaters resulting from rains in the upper Trinity River watershed now are entering Lake Livingston at an estimated rate of 40,000 cubic feet a second.

Albert Hall, an engineer for the authority, said Tuesday Lake Livingston presently is at full designed capacity and "therefore all flood water entering the reservoir must be released."

Lake Houston, situated in the San Jacinto River watershed, where less rain has fallen, was still 2 3/4 feet below the spillway level Tuesday.

In contrast to the bay samples, Wende said, Houston Ship Channel samples ranged from 500,000 to 10 million coliform bacteria per milliliter (roughly one-thousandth of a quart). Some samples have hit 24 million.

He said the heaviest counts are found near the outfalls of municipal and industrial sewage treatment plants.

Wende was asked why coliform counts drop so rapidly in the bay waters.

"It's simply the dilution factor," he said. "Then, too, the industrial pollutants in the channel no doubt kill quite a few of the bacteria before they get into the bay."

## JOAN OF ARC HAD REASON TO WEAR MEN'S GARB?

LONDON (AP) — An Oxford University investigator has concluded that Joan of Arc had reason to wear men's garb. "Despite the French heroine's transvestitism, physical prowess and apparent masculine drive," says F. E. Kenyon, "there is no very convincing evidence in her history of overt Lesbianism."

Transvestitism is the tendency to wear clothing of the opposite sex.

"In fact there is no necessary connection between female transvestitism and homosexuality and she appeared to be much more masculine than she really was," Kenyon says. He concedes that Joan had a very intense friendship with a girl called Halvierte. But their habit of sleeping together was "a common custom at the time, particularly with girls who had made their first Communion together."

The warrior saint's predilection for men's clothes may have been for protection "when with troops and in predominantly male company."

Kenyon, a clinical lecturer at Oxford, presents his views in a medical magazine, The Practitioner.

## Cotton Classing Samples Drop Off

Classing dropped off at the USDA's Pecos Classing Office last week. L. L. Wells, in charge, said that 4,050 upland samples were classed for the week ending Dec. 10. This brought the season's total to 44,460. Strict low middling was again predominant, with 22 per cent, closely followed by strict low middling light spotted, with 18 per cent.

Staple 34 was the leading staple length with 32 per cent, followed by staple 33 with 26 per cent, and staple 32 with 12 per cent.

Most samples continued to mike 3.5 to 4.9, with 62 per cent in that category for the week. The breaking strength averaged 80,000 psi. The market was very strong with the basis 150 to 200 points higher than a week ago. Rood harvested cotton sold for 25 to 28 cents per pound.

# HURRICANE FORCE WINDS HIT OTHER AREAS Twisters Rip Parts Of North Texas

By The Associated Press

Tornadoes too numerous to count battered much of North Central and Northeast Texas during the night, inflicting damage expected to run into millions of dollars.

Although the vicious winds and violent thunderstorms which also accompanied a cold front's eastward sweep across the state inflicted injuries in many areas, there was no word of any deaths and most persons apparently escaped with minor hurts.

### LIGHT RAIN

By this morning the boiling turbulence had surged out of state and skies were clearing rapidly in its wake. A little light rain lingered along the Upper Texas Coast and overcast conditions remained only at scattered points on the coastal plains and in South and East Texas.

Tornado watches went up for a wide stretch of North Central Texas and were extended over much of East Texas after

winds well above minimum hurricane force smashed at the El Paso and Alpine areas in far West Texas.

Parked airplanes and hangars suffered heavily as the tornadoes kept popping out. Mobile homes went tumbling and downed power lines blocked streets and highways.

Winds hitting velocities up to 100 miles per hour raced through El Paso, forcing the Army's William Beaumont Hospital to use emergency power for five hours, knocking down utility poles and uprooting trees.

### CABIN WRECKED

At Alpine, where the winds also reached 100 m.p.h., roofs suffered considerable damage in town and a summer cabin on a mountain slope was wrecked.

Farther east, as the advancing cold front triggered briefly torrential rains over a wide area, some of the heaviest losses were reported in Fort Worth, Dallas and the suburbs clustered around them.

Sightings of at least four tornadoes were reported at Lake Worth, and the punishing weather flailed at Arlington, Hurst, Grand Prairie, Irving, Duncanville, Carrollton, Mesquite, Garland and Lewisville. Trailers were overturned in nearly all those places.

Roofs covering several business places collapsed and others sailed away in Fort Worth itself. The Weather Service reported wind velocities up to 78 m.p.h. there and said gusts probably went to 100 m.p.h. in parts of Dallas, where 15 portable metal buildings were smashed on a sales lot.

Aircraft losses were especially severe. At Sulphur Springs alone, a hangar and at least 10 planes were destroyed or damaged. There was similar destruction at Keller.

Another hangar was wrecked and a second damaged at Sherman, and at least one dwelling was torn apart.

In the area east of Temple and Waco, a twister slashed

into a mobile home park at Copperas Cove and tossed a new trailer 50 feet. The loss was placed at about \$50,000. Five homes were torn off their foundations.

At Tonsey, in Coryell County, the writhing winds tore up a camper truck and shipped the roofs off smaller buildings on the Jim Ellis farm. Near Eddy, in McLennan County, four big trailer trucks were overturned.

Downed power lines brought traffic to a halt for a time over about a mile of Interstate 30 at Greenville.

### POWER DOWN

Still other tornadoes spun through the Cleburne area, menacing the Lillian community, causing a utility building to blow into pieces at Mansfield and upsetting a block of trailers.

Hail accompanied the thunderstorms at many points. Pieces of ice as big as baseballs bent in the roof of a truck at Corsicana. Power was interrupted at neighboring Dawson.

## Time For Correction

The Senate Armed Services Committee has been hearing some bad things about the Pentagon and its policies. The committee is trying to find out what to do about the enormous cost and complexity of American weapons.

Two experts from Rand Corp., the government think tank told the senators that for years France and Sweden have been turning out top-notch fighter planes for a fraction of the cost the U.S. pays. England and Russia, to a lesser extent, do the same.

Labor costs alone aren't to blame, the witnesses said. The difference is simpler designs, a strict "fly before you buy" policy, and small teams of design experts.

The testimony made Sens. Barry Goldwater and Stuart Symington "ashamed" of the American performance. It should be noted that the Senate panel, headed by Sen. John Stennis, is not hostile to the military. It is, at last, extremely concerned with the costs and poor results.

One striking example, from Air Force magazine of August, 1970, is sufficient. Avions Marcel Dassault, a private, non-subsidized French airplane maker, specializes in fighters. Dassault developed the Mirage G fighter prototype in 16 months at a cost of \$35 million. The first prototype, flying at twice the speed of sound, was in the

air only 16 months after the "go" decision. Compare this to the immense problems in time and money of F111 (TFX), the C5 and the Navy's F14 (the gap is so wide as to defy comparison).

Dassault uses small research and development teams for each plane. Members of the team are forbidden to write memos to each other. They work on planes, not paper.

Pierre Sprey, a former Pentagon analyst and developer of the superb air-to-air Sidewinder rocket, had more bad news for the committee. The Pentagon, he said, pays \$1 million each for aircraft radar while commercial airlines pay about \$40,000. The commercial versions work better and much longer, he said.

This is another example of the Defense

establishment's penchant for expensive perfection which doesn't work. American warplanes are so laden with complex systems that their ability to do the job is impaired.

The Aerospace Industries Association also is deeply concerned. It gets billions in taxpayers money, but realizes little profit, it claims. The association recently called for clearly defined principles on procurement and objected to the "incredible morass" of paperwork involved.

Changes must be made in U.S. weapons development and procurement. The taxpayer must get more for his money. It is up to Congress to change the rules and force the Pentagon focus on results instead of gadgetry. This is pro-defense of the largest order.

## Bargain Incompassion

Charity begins at home, but it doesn't have to end there, CARE reminds us. So if you're wanting to do something for the ideal of brotherhood, universally expressed, you may do well to consider giving CARE packages.

The current Care food Crusade seeks to feed 28,350,000 people, primarily children, during next year. This will require \$7,500,000 from people like

you, each giving one or as many dollar packages as possible.

At a dollar a unit, here's what your gifts can do: \$5 can give 1,500 children a nourishing bowl of porridge; \$10 serves school lunches to 10 students for three months. Yes, CARE is still the biggest bargain in compassion. If you want a piece of the action, mail your gifts to CARE's regional office at 109 N. Akard, Dallas 75201.

## Eskimo Bonanza

E. Forrest Copeland

By KENT STURGIS (Subbing for Forrest Copeland) ANCHORAGE, Alaska (AP) — Alaska's native peoples, many of them poverty-stricken, are close to getting back 40 million acres of the land they claim.

THE LAND and \$962.5 million will go to them under legislation approved by Congress Tuesday and it means "no poverty pockets for Alaska's future," said Don Wright, president of the Alaska Federation of Natives.

The 55,000 Eskimos, Indians and Aleuts whose ancestors roamed this land before white men arrived may be able to acquire as much as 160 acres of land each, but under the provisions of the bill they won't be able to sell the land for 20 years.

THREE YEARS ago, a federal study showed the state's natives held only 500 acres in private ownership — but 97 per cent of Alaska's 586,412 square miles is federally owned.

The natives, who make up about one-fifth of Alaska's population of 241,000, had claimed more than 80 per cent of the state's land.

For the most part, they live in

of only 34½ years, half that of other Americans.

MOST OF THEM live in small, isolated villages. About 1,000 live on two small reservations.

Wright estimated as many as 100,000 persons ultimately might be beneficiaries under the bill's definitions, including Alaskan natives who live outside of the state.

Participation in the settlement will be through shares in native corporations, he said. There will be no lump sum distribution of cash to individuals.

WRIGHT envisions an ambitious corporate investment program in which "there will be gainful employment to every able man, woman and young person over 18 within the business structures."

One native group, for example, is considering construction of a tannery in Nome for reindeer hides now processed in Germany.

"EACH INDIVIDUAL will be a stockholder in a corporation on the village level, no matter where he is in the world," Wright said. "He will enroll back to the village for the purpose of getting his stock certificate to entitle him to a fair share."

Natives also will have a share in regional corporations.

**WHY IS IT...**

...THE BIG NATIONS CAN SPEND YEARS ARMING DESTITUTE NATIONS TO THE TEETH WHO COULDN'T OTHERWISE BUY A POPGUN...

...THEN GET HYSTERICAL WHEN THEY START TO USE THEM?

One Of The Strange Facts Of Life!

## Running The Gauntlet

David Lawrence

WASHINGTON — Maybe the custom is not here to stay, but at present one of the most uncomfortable experiences anyone could have would be to be nominated as a justice of the Supreme Court of the United States. Once that happens, everything he has said or written on every subject is carefully scrutinized to determine whether he ever had a "prejudice" of any kind and, nowadays especially, what his views have been on the complex problems of civil rights.

WILLIAM H. Rehnquist, whose confirmation as an associate justice has been debated for the past several weeks, has received widespread praise for his knowledge of constitutional law. He worked as a clerk for the late Supreme Court Justice Robert H. Jackson, and has been head of the office of legal counsel in the Department of Justice. The President is confident he will make an excellent judge, and the Senate confirmed the appointment.

Looking back over the years, it will be found that many of the justices who were expected to be radical or conservative didn't always conform to the predictions. They decided cases on the merits.

EVER SINCE Mr. Rehnquist was nominated, his critics have been busy trying to dig up some memorandum or statement that he was reported to have made at one time or another which could be regarded as partisan on the racial question. They didn't find anything very convincing.

But no matter what ideas an individual might have had several years ago on controversial questions, is it fair to argue that he will be guided by the same concepts when he is named as a justice to the highest court in the land and is confronted each week with the responsibility of agreeing with or dissenting from a decision of the court?

ABOUT THE only real test should be whether a man named as a justice

is really honest and will perform his duties with the impartial mind a judge is supposed to have or whether he will be a partisan on the bench. Most of the critics are involved in politics, and they seem to think that everybody, including justices of the court, are somehow entangled in political chicanery.

Many a justice has signed an opinion whose conclusions or consequences he might not have liked. When, however, he examined what the constitution says and what past decisions had declared, he found himself required to go against views he may have previously held.

THE JUSTICES of the Supreme Court have been devoted to their work and have been dedicated men. Now and then, they have been under attack for their decisions, but they have refrained from answering. They do not participate in debates about court decisions.

Justice Lewis Powell, 64, who was confirmed as an associate justice a few days ago, was the recipient of hardly any criticism. This was because he is widely known for his fair-mindedness and highly regarded by the legal profession, as he was formerly president of the American Bar Association.

MR. REHNQUIST is 47 years of age — a much younger man than Mr. Powell. Since he is likely to be on the court a longer time, his critics took a closer look at his record and his view. The majority of the Senate concluded he has no prejudices on any question but follows the Constitution in the strictest sense of the word. (Copyright, 1971, Publishers-Hall Syndicate)

## Electric Power Puzzle

John Cunniff

NEW YORK (AP) — High corporate executives sometimes use the final months before retirement to express their deep beliefs or to leave a lasting impact on matters they consider of great national importance.

The chairmanship of General Motors, the world's biggest manufacturer, at the end of this month, is deeply concerned about productivity. In an article for members of the National Association of Manufacturers, Roche observed that over the past five years output per man-hour increased at an average annual rate of only 2.1 per cent in the United States.

This rate, he said, was the lowest of any of the 11 leading industrial countries. The com-

parable figure for West Germany was 5.3 per cent, for Sweden 7.9, Switzerland 6.2 and Japan 14.2.

In contrast, he said, hourly compensation in the same period rose 6 per cent a year in the United States, which meant that unit labor costs rose 3.9 per cent a year compared with 3.2 in Germany, 2.5 in Sweden, less than one per cent in Japan and no change in Switzerland.

—Don't expect any remission in the debate between ecologists and the power company people. It doesn't seem to be in the cards or in the planning of want peace; the forecast is based on the expectation that they simply aren't likely to get it.

Hal Boyle

NEW YORK (AP) — The future is a guessing game.

The past is not. That's why so many people often prefer it to the future. You have been enriched by the pleasant things that happened to you in the past. The more memories you have, the greater is your life. You've had a pretty full life if you can look and remember when—

It took a kid with a pretty good stomach to digest a dime's worth of penny candy.

One of the delights a little girl had in searching through the attic was to find and play with an old-fashioned painted fan.

Practically every other prosperous farmer in the Midwest had a tin box in which he kept his worthless shares of oil and mining stocks—paper testimonials of collapsed get-rich-quick dreams.

One of the certainties of a 10-

year-old boy's life was the belief that, if he picked up a hot-pot under a street light at night, when he woke up the next morning his fingers would be covered with warts. But frogs didn't do that to a fellow.

Everybody in town felt sorry and kind of startled when the undertaker's wife died of pneumonia during the great flu epidemic. Somehow you had never thought death would touch the member of an undertaker's family.

Grandpa thought the younger generation had gone to hell when his son bought an alarm clock to be sure he got to his factory job on time. All Grandpa had ever needed to wake up and face his farm chores was the sound of a rooster in the barnyard saluting the rising sun.

The average man in America was more likely to inherit debts than dollars.

## Thrill Of A Lifetime

Around The Rim

Joe Pickle

One of many goofs (and I will say it for others, I have made more than my share) is not having had the perception to lead a crusade to preserve a locomotive steam engine in the days they were being phased off the railroads. I always will regret that we did not somehow preserve one of those masterful 600s for posterity.

HAVING SAID this, I plead nostalgia to the iron horses of a generation ago. Granted, the Diesel electric era was more flexible and efficient, and perhaps far less expensive to maintain, the steam locomotive nevertheless had a romanticism and a majesty which no fog-horn grumbler can ever match as it grinds over stretches of track.

GEE, NO lad has really tasted the highest joys of life if he has not perched on a hill and watched a steam engine, with a long train tied on behind, snake its way up a grade or glide down a slope, a plume of smoke trailing like a tassel, and puffs of steam heralding the approach of a steam whistle.

NO BOY has experience the maximum thrill until he hears a locomotive grunting and growling, pouring out black clouds with the agony of heavy breathing from the smoke stack as the engineer tried to ease his charge into beginning to pull a heavy train.

No youngster has felt the peak of exhilaration until he has thrilled to the sudden whoosh, whoosh, whoosh-whoosh as drivers churned and the engineer gave her the sand, then eased the engine off to a less-labored effort.

NO YOUTH has tasted of greatest excitement until he has stood on the station platform and craned his neck to catch the first glimpse of the engine rounding the bend, then watch as if entranced while the majestic monster pranced up the track with powerful strides when running a bit late, or seemed to wallow like a lazy whale if on the dot or a trifle ahead of schedule. And then, to feel the pulsations, the vibrations as the drive wheels pounded by, steam hissing from the engine, dust flying in little wisps from the track, and the squeal of brake bands against steel and steel wheels crying in pain against the steel rails.

AND FINALLY, the sense of watching the completion of some historic event when the engineer and fireman swung down from the cab, metal covered and truncated suitcase in hand, turning the panting monster over to successors who soothed its joints with oil from long stemmed cans, and tested valves, and tapped here and there to make sure the old horse was sound for the next dash across country.

## Uneasy Assumption

Marquis Childs

HONG KONG — "Does it really matter whether those people kill each other off?" That question posed by one of Hong Kong's merchant princes says a lot about still another Asian war.

THE COMFORTABLE conviction is that the India-Pakistan conflict will be confined to the subcontinent and that it will be of comparatively short duration. The principal Pacific powers — the United States, China and the Soviet Union — such is the comforting conviction, will stay out. They want no part of a war that neither side can win and that can only result in chaos and suffering in both countries.

This may all prove true and yet the impotence of the so-called big powers — their failure to prevent still another war — is a terrifying phenomenon in a nuclear world. The often-touted rule of law and the elaborate apparatus of the United Nations seem a farce.

CHINA IS closest to the conflict and in many respects Peking has more to lose by an Indian victory. But the guessing of the specialists is that the People's Republic will be careful not to become involved.

Pakistan rates China as best friend and Peking Radio constantly spews out attacks against India and Prime Minister Indira Gandhi. A recent broadcast accused her of using "gangster logic" in launching forays across the border into Pakistan. Yet no one expects, now the war is on, that Peking will do much more than keep up the propaganda barrage.

WHILE SOME military hardware may be forthcoming, the prospect of

Chinese ground troops is ruled out for at least two reasons. One is the difficulty, with winter setting in, of the high mountainous terrain on the Indochina border. A far more important reason is the massive threat of the Soviet Union on China's other border.

On that border of more than 4,000 miles are 40 Russian divisions. They are for the most part full strength, although normally in peacetime they would be under par. Highly mechanized, they could quickly overcome anything China has positioned against them.

INVOLVEMENT in the new Asian war, with all the accompanying sound and fury, would make China a tempting target for top Russian military who must speculate on a preventive strike to knock out the Chinese nuclear center at Lop Nor and an adjacent oil field.

The India-Pakistan war casts a shadow of doubt on the Nixon visit to Peking.

BEFORE THE India-Pakistan conflict the measure of President Nixon's success was widely debated in Asia.

Success was cautiously defined within the White House as an exchange of peoples and an opening for trade with Americans free to compete with other Westerners. But with the peril of a new Asian war this must seem timid to the point of absurdity. There is an urgent need to reconsider the Peking agenda so that the issues of life and death will not simply be hidden from sight. (Copyright, 1971, United Feature Syndicate, Inc.)

## My Answer

Billy Graham

I guess I am a born worrier. I seem to live in an atmosphere of discouragement, and I must confess I am miserable. Does Christianity offer any cure for discouragement?

R.G. It is interesting that the adverb "discouraged" does not appear in the Bible, but "encouraged" does. That should tell you that the Bible offers help for the discouraged.

Discouragement is a negative frame of mind brought on by a negative outlook toward life. Sometimes Christ's disciples got discouraged, but He said to them: "Let not your heart be troubled; you believe in God, believe also in me." John 14:1.

There are two words in this statement I would have you notice: "let" and "believe." First, in conquering discouragement, you must recognize that you can control it. Christ said, "Let not your heart be troubled," and this shows that we can change the slant of our hearts, just like a sailor can control the set of the sail. The human heart can endure great pain, disappointment and sorrow, when the heart is properly set against the

winds of adversity. I know people whose suffering has brought them closer to God, and actually made them better people. While others are crushed by adversity, blame God for everything, and become agnostics. The difference is in the attitude of the heart and mind toward trouble.

Jesus put his finger on the cure for discouragement when He said, "You believe in God, believe also in me." Faith, believing, gives you a positive attitude and the knowledge that "all things work together for good to them that love God." Romans 8:28.

## Empty Mansions

HOLLYWOOD, Calif. (AP) — Film stars are deserting their palatial mansions for modest and less expensive apartments, says real estate broker Mike Silverman in the National Enquirer.

It has been estimated that about 450 lavish mansions in the \$400,000 to \$500,000 bracket are empty, waiting for rich buyers to snatch them up.

## A Devotion For Today . . .

Bless those who persecute you; bless and do not curse them. (Romans 12:4, RSV)

PRAYER: Father of infinite mercy, I thank Thee for one more day added to my life. Give me a contrite heart, and help me live my life in love. In the name of Jesus. Amen.

(From the "Upper Room")

# Texas Judges May Allow Race Hatred Testimony

AUSTIN, Tex. (AP) — Texas judges may allow testimony about extraneous crimes involving race hatred in order to prove malice in murder cases, the state Court of Criminal Appeals ruled Tuesday.

The decision was a departure from the usual rule that prosecutors cannot introduce evidence about crimes other than the one for which a defendant is being tried.

In so ruling, the court upheld the murder conviction of David Randall Dillard, whom a Houston jury sentenced to 15 years in prison in the pistol slaying of Wanda Martin.

Miss Martin was identified in testimony as a Negro prostitute.

According to case records, Dillard and a companion "dated" Miss Martin and another prostitute March 10, 1968.

Dillard, a white, was 16 at the time.

The two youths sped away in a car with Miss Martin. Her body was found the next morning. An autopsy showed she had been shot twice through the

head with a .22 caliber weapon. The prosecution's star witness testified Dillard told him the girl was shot accidentally

## Sentenced For Raping Girl, 10

HOUSTON (AP) — William Oliver Nicholas, 68, found guilty of the Aug. 15, 1970, rape of a 10-year old girl, has been sentenced to 35 years in prison.

State District Court Judge Lee Duggan Jr. assessed the punishment for the incident which police said occurred during a picture taking session that also involved the child's mother.

Police said they found pictures of the girl and the girl's 32-year-old mother in Nicholas apartment when they went to arrest him on a fugitive warrant from New Mexico.

Police said the mother signed a statement in which she said Nicholas offered her \$500 if she and her daughter would pose for pictures with him showing various sexual acts. She said the pictures were to be sold in Mexico to decorate the backs of playing cards, police related.

## Triple Catch

DALLAS (AP) — Mr. and Mrs. Augustus B. Green believe they may have the champion 49-cent mouse trap of the world.

It caught three mice with one piece of cheese and one snap recently.

when Dillard fought with his companion. The witness said Dillard told him he "got out and finished killing her."

The witness also said he was in a car with Dillard around May 31, 1968, when the defendant fired five or six shots at two Negro men and shot a Negro man twice in the stomach after summoning him to the side of the auto.

Dillard's lawyers sought a new trial on grounds the testimony about the two May 31 shooting incidents should not have been allowed.

But the high court disagreed.

"Where the accused has threatened or shown a feeling of ill-will and animosity towards all parties of one class, then these threats or offenses may be admitted into evidence even though they show extraneous offenses," the court said.

"We find this testimony shows ill-will and animosity of the appellant (Dillard) towards members of the Negro race. The deceased was a member of this race, and the testimony of these extraneous offenses was admissible on the issue of malice toward the deceased as a member of the Negro race."

Police said the mother signed a statement in which she said Nicholas offered her \$500 if she and her daughter would pose for pictures with him showing various sexual acts. She said the pictures were to be sold in Mexico to decorate the backs of playing cards, police related.

The mother will be tried on rape charges at a later date, state prosecutor John B. Holmes Jr. said.

### Piano On Move

SANTA ANA, Calif. (AP) — If you've ever worried about moving a piano, consider the travel history of a massive, hand-carved grand that was contributed by Bertha Lindel Goodwill.

It first was shipped from Boston to Iowa City, Iowa, where Miss Lindel's mother resided. That was in 1887 and over the next half-decade it followed the music-loving Lindels on their gradual move westward. In a whistle-stop prairie town in South Dakota it was an object of fascination to the Indian population, among them Chief Rain-the-Face.

It eventually was brought to California by Miss Lindel, who gave it to Goodwill because of lack of space.

## Four Counts Of Forgery Hit Lawyer

DALLAS (AP) — The Dallas County grand jury has indicted attorney Leon C. Horton on four counts of forgery. The Dallas lawyer is in Randall County jail after he earlier was sentenced to 10 years imprisonment on a Canyon conviction of theft by conversion.

In the indictment, Horton was charged with passing a forged power of attorney paper purporting to show that missing investor Robert L. "Tex" Roberts had authorized him to handle an estate.

Roberts disappeared last Aug. 15. The power of attorney paper was dated July 25, 1970. Still pending against Horton are 10 similar charges stemming from the Roberts case. Two of the latest indictments allege that forged deeds were used to transfer ownership of eight tracts of land belonging to Robert Horton's Heritage National Property Management Services, Inc.

Horton also is accused under another forged deed charge of transferring 14 acres of land belonging to Robert Leon Roberts, a Grand Prairie resident not related to the missing investor.

## Lone Stand

Jean Adams' TEEN FORUM

OUTSPOKEN: (Q) One day my health class discussed free love. I said I believed I could go all the way with a guy I really loved, even if we weren't married. Everybody disagreed with my attitude.

I was a virgin then and I still am, and a decent girl in every way I know. But after I said that some of the boys began calling me a prostitute.

Now boys follow me around and make nasty remarks. It scares me. What can I do? — Misunderstood in Ohio.

(A) A person who takes a

strong stand in opposition to majority opinion is very likely to be talked about.

Your discussion ended in what amounted to a vote of 25 or 30 to one — you being the one.

In your actions, however, you are abiding by the majority vote. Continue to do that, and make sure not to do anything that could be misunderstood, and the furor will die down.

BANGS: (Q) I wear bangs and like them, but I have the most awful time keeping them straight. Can you help me? — Too Much Curl in Pennsylvania.

(A) Go to a beauty shop and get them straightened by an expert.

## Heartless Thugs

ALBUQUERQUE, N. M. (AP) — Police said burglars broke into the Bruce Campbell home recently and took jewelry, cash, clothing and appliances valued at more than \$1,500.

Then, police said, the burglars left in Mr. Campbell's automobile parked in the driveway.

**A NEW SPRING LOOK** — Fashion designer Scott Barrie revealed his fashions for spring during a show in New York last week. Three of the outfits unveiled are, from left, a black tuxedo with short jacket and pleated slacks, dolman sleeved sweater with high bound waist and slacks and, at right, white slacks suit with short jacket featuring black and white polka dotted trim.

## Home Owners Should Know Lumber Quality

By ANDY LANG  
Associated Press Writer

Buying lumber in a haphazard fashion can cost you money. When you walk into a lumber yard, you should have a good idea of what you want from three standpoints — the kind of wood, the grade and the dimensions. You should know, too, about the standards for lumber sizes recently adopted by the softwood industry. When you buy a piece of lumber these days, its actual size will be constant — smaller than the nominal size, as in the past, but without the variations that previously existed. A 2 by 4, for instance,

is 1½ by 3½ inches. A 1 by 4 is ¾ by 3½ inches. There are two groups of lumber, softwood and hardwood. The softwoods, the kind you will buy for most purposes, come from coniferous or needle-bearing trees, such as pines, firs, hemlocks, cedars, redwoods and spruces. The hardwoods used mostly for joists, studs, posts, sheathing, shingles and siding, often for shelving and certain interior trim, and occasionally for furniture. Hardwoods, which are from the broadleaf trees, such as maples, oaks, walnuts, poplars and like, are used mostly for fine

## Miss Martin To Be Feted

Miss Ann Martin of Santa Barbara, Calif., formerly of Knott, will be honored Thursday from 3 to 7 p.m. in the Pioneer Gas Flame Room. Friends are invited to attend. Miss Martin is visiting her sister, Mrs. Shirley Fryar, and will be in the area through Christmas. She formerly taught school in this area and served as county superintendent prior to moving to California in 1952.

## Hyperions Mark First Anniversary As Club

Members of the 1970 Hyperion Club celebrated its first anniversary Tuesday morning in the home of Mrs. Garland Braun, 2512 Lynn. Co-hostess was Mrs. Ronald Medley. The club scrapbook was displayed, and the Christmas theme was carried out in decorations. Plans were made for a progressive dinner beginning at 7 p.m., Saturday in the home of Mr. and Mrs. Jimmy Anderson, with other courses served in the homes of the Raymond Torpe, Robert Knights and Lorn McDowell III. Favorite holiday foods of each family will be served.

## Suggests Formula For Fertilizing

A formula for fertilizing on a small scale was outlined by Dr. Paul Koshi and Mrs. Eva Nail Monday evening for Organic Soil Makers in the home of Mr. and Mrs. J. B. Leonard, 2310 Roberts. Reading from Farmers Digest, Dr. Koshi said 100 pounds per acre equals one-half cup per square foot. "Home owners often want to fertilize or lime a flower bed, lawn or small garden," the Digest said, "but the rates recommended for fertilizer are stated in pounds per acre. As a rule of thumb, remember that for each 100 pounds of fertilizer or lime recommended per acre you need 2.3 pounds for each 100 square feet of garden. This equals 3.7 ounces, or about one-half cup per 100 square feet. If your rows are spaced three feet apart, the amount would be 2½ tps. per 100 foot row. If the recommendation is for 400 pounds of fertilizer per acre, multiply the above figures by four to get the proper amount to use." The group will meet again at 7:30 p.m., Jan. 10 at Experiment Station.

## Altrusans Hear Christmas Songs

Mrs. Warren Wise sang Christmas songs when she was guest entertainer for the Altrusa Club Christmas party Thursday evening at Big Spring Country Club. She was accompanied by Mrs. Leslie Green, pianist. Dinner tables were covered with green holiday cloths and accented with strands of holly leaves with miniature red bells. Red candles in white holders completed the decorations. Mrs. Willard Hendrick gave the invocation. After dinner, Mrs. Wise led the group in Christmas carols. Other guests were Mrs. Sol Bledsoe and Mrs. Fred Hyer.

**SCOUTS TURN TABLES** — Girl Scouts from all area troops gathered at Highland Center Mall Saturday, and were giving away cookies rather than selling them. The scouts decorated more than 300 coffee cans and filled them with homemade cookies for patients at Big Spring State Hospital. Shown above, Daniel Dais, left, accepts a can from Sandy Kuykendall, while Chris Baker, right, is presented his cookies by Amy Kruse. The girls are both members of Junior Troop 209.

## Bridal Shower Held For Deborah Starr

Miss Deborah Gay Starr, future bride of Charles Denning, was honored recently with a bridal shower in the home of Mrs. A. E. Hyden, 1725 Yale. Co-hostesses were Mrs. Patterson, Mrs. Joe Boyd, Mrs. Alvin Vieregge, Mrs. G. C. Ragsdale, Mrs. Sam Starr and Mrs. Travis Mazy. The refreshment table was covered with a lime green cloth overlaid with a white lace cloth, and silver candle holders held lime green candles. The floral centerpiece was in green and white. Miss Cindy Mounce and Miss Andrea Fowler assisted in opening gifts.

The honoree, her mother, Mrs. H. G. Starr, and her fiancé's mother, Mrs. Olive Denning of Midway, were presented white carnation corsages. Miss Helen Ewing played musical selections on the flute, accompanied by Mrs. Hyden at the piano. Out-of-town guests included the prospective bridegroom's sister, Mrs. Harvey Keel of Midland, and the bride-elect's sister, Sharon Fowler, and Miss Andrea Fowler, both of Colorado City. The couple will be married Friday evening in the Colorado City home of Mrs. Fowler, and after a brief wedding trip, will reside at 1707 Jennings, Big Spring. The bride will graduate from Big Spring High School in January. The prospective bridegroom is employed at Eagle Homes.

## Mu Kappas Host Party At Hospital

Patients on the sixth floor of Veterans Administration Hospital were given a Christmas party Tuesday evening by members of Mu Kappa Chapter, Epsilon Sigma Alpha. The men were each given a personalized Christmas stocking for their door and two other gifts furnished by members. The white flocked Christmas tree was decorated by chapter members and featured red apples and gold tinsel. Refreshments were served.

**165**  
**Nehru Blouse Is Easy To Make**  
Nehru collar is a favorite note for this easy-to-knit blouse. Directions are given in sizes 10 to 20. Ask for No. 165. Send 30 cents plus 10 cents for postage and handling to "Martha Madison" (care of the Big Spring Herald), Morris Plains, N.J. 07950.

## VFW Auxiliary Has Anniversary

The first anniversary of the Midland Tall City VFW Auxiliary Post 7208 was observed with the gift of a portable television set from the auxiliary to the Big Spring Veterans Administration Hospital. Mrs. Laura Reinhardt and Mrs. Vera Leigh, co-chairwomen of the hospital committee of the Auxiliary were accompanied to Big Spring by Mrs. Ana Harper, Auxiliary president. The 48-member club presented the gift to Jack Powell, director of the VA Hospital, as a Christmas present to the patients. The Auxiliary raises money through sales of jewelry, cakes and at a snack bar. They have donated almost \$400 worth of gifts to the gift shop at the VA Hospital.

## A LOVELIER YOU Ye Old Manners Basically Unchanged

By MARY SUE MILLER

A century-old Manual of Good Manners, written to guide the young, demonstrates that the essential rules of behavior at the table still hold. As proof of their common sense and continuing value to us all, a selection of quaintly-phrased quotes from the Manual follows:

Come not to table without having your hands and face washed, and your hair combed . . . Eat not too fast, nor with greedy behavior . . . Make not a noise in eating or drinking . . . Speak not with victuals in your mouth . . . Grease not your fingers nor napkins more than necessity requires . . . Throw nothing under the table, and dirty not the table cloth . . . O t h e r rules of good table manners in the mid-Nineteenth Century, while axiomatic today, are amusingly quotable:

Cough not, if it can be avoided . . . Blow not your meat when too hot . . . Scratch not your head . . . Stuff not your mouth so much as to fill your cheeks . . . Endeavor so to eat as that none can see your victuals whilst chewing . . . Bite not your bread, but break it . . . Drink not with anything in your mouth . . . Lean not your elbows on the table.

Unlike many other customs the basics of table manners are not much changed. We can be thankful for it, for this facet of pleasant and graceful conduct.

### WINNING MANNERS

To open a door on increased poise and popularity, send for my booklet, "Winning Manners." Topics included are Introductions, Invitations, Table Manners, The Charming Hostess, You — The Guest, Dating

Manners, Formal Dances, Travel Tips and Tipping, Small Points, like when to wear a hat or check your coat. For your copy, write to Mary Sue Miller in care of The Big Spring Herald, enclosing 25 cents in coin, and a long self-addressed, stamped envelope.

## Elect New Officers

New officers for the Men's Garden Club were elected Tuesday at the U.S. Experiment Station, with Johnny Johansen presiding.

The officers are L. R. Saunders Jr., president; Grady Randle, vice president; and Bill Sneed, secretary-treasurer. The men will be installed at the club's annual "ladies' night," at 6:30 p.m., Jan. 11 at Furr's Cafeteria.

Plans were made for a spring plant sale, date and place to be announced. L. R. Saunders showed a film, "New Guidelines for the Well-Landscaped Home," and the group then discussed their own landscaping problems or suggestions.

## Chinese Influence

With reference to the Chinese influence, Donald Brooks, now York designer, even copies the coolie hat. These outsize numbers with their wide brims sloping slightly downward were featured in the Brooks collection in airy looking straws in black or white. Brooks made them with open crowns.

## Recitals Will Be Thursday

Two recitals will be presented by piano and voice pupils of Mrs. Chesley Wilson Thursday evening at Howard County Junior College auditorium.

The first performance will begin at 7 p.m., featuring Steve Wilson, Robin Snodgrass, Debra Verner, De'Aane Verner, Julianne Raines, Christy Clanton, Stacy Wilson, Karen Bell, Laurie Boadle, Laura Bartosh, Dana Workman, Judy Cox, Joe Goodwin, Valerie Wilson, Debbie Shroyer, Amy Kruse, Deborah Franklin, Melinda Priddy, Lois Curtis, Carla Clanton, Michael Bartosh and Sheri Snodgrass.

## TOPS Announce November Queen

Members of TOPS Plate Pushers named Mrs. Grady McCrary "November Queen" Monday evening in the Pioneer Gas Flame Room. Mrs. Harold Bell presided, and plans were made for a Christmas party at 7 p.m., Monday at Coker's Restaurant. Members are to bring gifts for their secret pals and for a regular gift exchange.

## Decorations Stress Use Of Candles

Original and creative decorations made by Mrs. J. E. Smith were displayed for After Five Garden Club at its annual Christmas party and buffet supper Tuesday in Mrs. Smith's home, 2805 Navajo.

The arrangements emphasized use of candles. The serving table was covered with a white cutwork cloth and centered with Christmas greenery and candles.

Mrs. Ed Shives, pianist, played Christmas music and led the group in carol singing. Guests included Mrs. Harold Bell, Mrs. O. O. Craig and Mrs. Leslie McNeese.

Cohostess was Mrs. Dealon Stanley. The next meeting is at 7:30 p.m. Jan. 18 in the home of Mrs. Huey Rogers, 429 Dallas.

## Who's Got Button

For the button-collecting teenager, a variety of hip messages can be found to surprise him on Christmas morn.

WEAR AND COMPARE

**MONTGOMERY WARD**

your Christmas store

## Come See Santa's New Store

Sherry Phillips shows Mrs. Dale Ferguson the fine selection of ladies' western suits and ensembles from H-Bar-C, Prior, and Lasso which say in a very lively way, "Merry Christmas."

Also many fine styles and colors of ladies' pants make the pleasing gift for those you love. Sherry can help the most particular Santa find the style, color and fabric suitable to anyone on his list.

## Bride-Elect Honored At Shower

A pre-nuptial shower honoring Miss Deborah Ann Wash, bride-elect of John William Rutherford, was held Saturday in the First Federal Community Room.

Hostesses were Mrs. Bert Harris, Mrs. Royce Griffith, Mrs. L. R. Fortenberry, Mrs. Craig E. Campbell, Mrs. Melvin Shroyer Jr., Mrs. Bennett Brooke, Mrs. Don Barnes, Mrs. G. E. Anderson, Mrs. Tommy Hubbard, Mrs. Douglas Hedges, Mrs. Mel Stinson, Mrs. Walter Trim, Mrs. Marshall Cauley, Mrs. Betty McAdams, Mrs. B. W. Hinds, Mrs. Horace Rankin, Mrs. T. J. Wall, Mrs. F. W. Williams and Mrs. Tommy Hutto.

The honoree, attired in a white crocheted dress, was presented an orchid corsage. White carnation corsages were presented to her mother, Mrs. Charles Wash; her fiance's mother, Mrs. Glen Hughes; her grandmothers, Mrs. O. D. Young and Mrs. C. V. Wash; and his grandmother, Mrs. Frank Rutherford.

The refreshment table, appointed with crystal and silver, was laid with a pink cloth overlaid with gathered white silk organza. The centerpiece was a tall white cupid arranged with spider mums in shades from pink to deep rose and interspersed with white pompons and leather leaf fern. The arrangement was centered with small satin wedding bells tied with silver.

The couple will be married Dec. 28 at College Baptist Church.

## Combined Efforts For Fashion First

For the first time a scientist, a fashion designer, and a master textile print technician have combined their talents to bring a technological first to the fashion stage — the laser light art print.

The resultant print has been reproduced in Fablon's Wonderwool jersey. It becomes one of the first non-nostalgic directions of the '70s. It was shown at the California Fashion Creator's National Press Week.

## Big Band Beat Sets Style Mood

Let in the mood for the big band beat part of the fashion flash back to the '40s.

Seventeen magazine says it's done by adding a short sleeved creamy satin blouse to a circular black "new look" skirt. Another '40s look: a long and hippy blazer. Wear it with a pointed collar, white shirt and high-waist black satin pants — with pleats, please.

## Navy Bows, St. John's Winner In Overtime

**By The Associated Press**  
In this holiday season of huge dinners and luscious desserts, turnovers are nice to have. Unless, of course, you happen to be the coach of the college basketball team serving them.  
Navy, Columbia and South Florida all gave their coaches tough moments from too many turnovers Tuesday night.

Navy bowed to 18th-ranked Princeton 73-58, Columbia went down, 88-70 against Fordham and Florida whacked South Florida 98-77 on a light schedule Tuesday night. Eighth-ranked St. John's, the only member of the Top Ten teams in action, needed an overtime period to subdue American University 83-76.

(AP WIREPHOTO)

**THE CHAMP DISHES IT OUT** — Welterweight champion Jose Napoles of Mexico City swings with both hands as he moves in on challenger Hedgemon Lewis of Los Angeles in their title fight in Los Angeles Tuesday night. Napoles won a 15-round decision.

## Pimentel Waits Too Long For Bout With Champion

**INGLEWOOD, Calif. (AP)** — Jesus Pimentel, 116½, from Jose Naples and Ruben Olivares, the two boxing world champions from Mexico City, could be forced into higher weight divisions unless there's a surge of talent in their divisions.  
Napoles, weighing 145½, outpointed fleet Hedgemon Lewis, 144½, of Los Angeles, Tuesday night to successfully defend his welterweight title. Olivares, the bantamweight champion, knocked his foe into retirement.

"That was his last fight," said Manager Harry Kabakoff who had rushed into the ring to declare. "Ruben, you're still the champion."  
Pimentel, 31, had waited nearly a decade for his title shot and his punches hurt Olivares early in the fight but after the champion decked him in the sixth, the issue wasn't much in doubt.

Now Napoles and Olivares must look to new foes after collecting their \$90,000 each for this title defense before 14,713 fans.  
Coco Conde, the manager of Napoles, said they'd wait two or three months for any decision but the 31-year-old king of the 147 pounders has said he'd like to meet middleweight champion Carlos Monzon of Argentina.  
Olivares could next meet Rafael Herrera of Mexico, the No. 2 rated challenger in the 118-pound division, but he's also indicated interest in meeting Japanese featherweight Kuniki Shibata and moving up a notch in the weight classes.

## Stanton Cagers Win Two Of Three Exhibitions

**STANTON** — Stanton's boys lost a heartbreaker to Iraan here Tuesday night, 82-61. A goal in the final 12 seconds of play swung the issue the visitors' way.  
The same two teams meet in the first round of the Iraan Tournament at 8:30 p.m. Thursday.  
Dwayne McMeans bucketed 13 points and Rick Wilson 11 for Stanton while McKelby had 20 for Iraan.  
The Buffaloes now have a 2-4 record.  
Stanton won the girls' game, 40-34, Darla Sawyer leading the way with 17 points. Betty Smith chipped in with 14.  
In the boys' B game, Stanton prevailed, 66-55. Mark Elland had 15 points and Ray Conners 12 for the winners while Lopez tallied 13 for Iraan.

The Stanton girls also play Iraan at 7 p.m. in the Iraan Tournament Thursday.  
Boys' game:  
STANTON (61) — McColister 4-8; McMeans 5-3; Wilson 3-1; Pagonis 0-2; Springer 2-3; Swanson 5-7; Standefer 2-4; Davoport 1-2. Totals 25-1141.  
IRAAN (62) — Burnam 5-3; McKelby 10-20; Thorp 1-2; Cox 1-1; Hale 2-16; Dickerson 0-1; Borrero 0-1; Weatherly 0-2; Elliott 1-2. Totals 25-1242.  
Girls' game:  
IRAAN (42) — Burnam 5-3; Stanton (40) — Sawyer 3-11; Lambert 3-9; Smith 4-2. Totals 19-36.  
IRAAN (34) — Beckhoff 11-22; Teel 5-12. Totals 16-24.  
Stanton 9 17 30 40  
Iraan 12 20 26 34

## Grady JH Splits In Garden City

**GARDEN CITY** — Junior high teams representing Garden City and Grady split two basketball games here Tuesday.  
Grady's boys came back to win their fifth game in 11 starts by defeating Garden City, 27-17, after the Grady girls had lost, 33-27. The Grady girls are now 3-8.  
J. C. Tunnell led the Grady boys with 12 points. Joanna Sawyer had 17 for the Grady girls.  
Skipper Driver's Grady boys play Garden City at 2 p.m., Thursday in the Stanton Tournament. The girls wait until Friday to launch play in the meet, taking the floor at 2 p.m., against Stanton.

## Cisco Triumphs

**CISCO** — Cisco College measured the HSU Buttons, 72-56, here Monday night. The win was the fourth in 12 starts for the Wranglers.  
Girls' game:  
GRADY (27) — Sawyer 6-5; Cruz 3-6; Welch 2-4. Totals 11-5-27.  
Garden City 8 16 26 33  
Hf 6-8; Hoffmann 5-11; Totals 12-33.  
Grady 4 12 15 27  
Garden City 8 16 26 33  
Boys' game:  
GRADY (27) — Tunnell 4-12; Rangst 4-9; Parra 2-4; Gutierrez 1-0-2. Totals 11-5-27.  
GARDEN CITY (17) — Preich 0-1-1; Talley 3-6; Botto 1-0-2; Bruce 3-2-8. Totals 7-3-17.  
Grady 12 17 25 27

# BGCT Wins Hospital Suit

HOUSTON (AP) — A Houston businessman's request for a temporary injunction to halt the Baptist General Convention of Texas from relinquishing control of the Memorial Baptist hospital system has been denied in state court.

District Court Judge William M. Blanton refused Tuesday to approve the request by J. B. Bumgardner, 48.

Bumgardner filed the suit for himself and all other Baptists who gave tithes and offerings to the hospitals.

He claimed donations of individual Baptists built the hospital system to a worth exceeding \$40 million and an Oct. 28 vote by the convention diverted those assets from use by intended donors.

The BGCT vote to give up control of the four-hospital system allowed the system to accept federal and community funds for planned expansion.

B. G. Bradshaw, lawyer for the BGCT, the hospital and its trustees, said Bumgardner had no legal standing to bring the suit. He said the convention's release of the hospital was a "matter of internal management and not reviewable."

Bumgardner said he would "pray thoughtfully" before deciding whether to pursue his suit through regular court channels.

(AP WIREPHOTO)

**WHAT ICE? WHAT DANGER?** — Paddling around in Crenadier Pond in Toronto's High Park, wintering ducks ignore the sign warning that the nonexistent ice is unsafe. And it's likely to remain nonexistent for the next few days as the weather is expected to be miserable with wet snow or rain and temperatures reaching a high of about 45 degrees.

# No Real Winners In India-Pak War?

By WILLIAM L. RYAN  
AP Special Correspondent

In the long run perhaps there will be no real winners in the India-Pakistan war. Whatever the goals of the big powers and their client states in the subcontinent, the conflict can generate enormous problems for all.

—For India, military defeat of Pakistan could one day prove to have been a Pyrrhic victory, bringing more woe than gain.

**BIG STAKES**  
—For Moscow, India's patron and source of military muscle, involvement creates difficulties in areas where the Russians have made immense investments. It also raises a touchy internal problem.

—For Pakistan, the nation's very survival as an entity is at stake.

—For Pakistan's current sponsor and putative protector, Red China, there are also special problems. Peking, in poor shape now to risk confronting armed Soviet power, probably is considering other means of dealing with a new situation in the subcontinent.

—For the United States, trying to extricate its military from Southeast Asia, the new conflict threatens complications.

India seems about to solve one problem—that of the 10 million refugees from Pakistan who can now return from Indian soil—by creating a new Bengali nation. It is on India's northeast flank, squatting on the strategic Bay of Bengal and bordered by India's own Bengali territories. Yet Bangla Desh—the new Bengal nation—will be incomplete if it does not

encompass all Bengalis. What could be more natural than eventual development of a movement to join all of them together?

**FISHING BAIT**  
For China, seeking new ways to deal with a new situation, Bengal offers enticing fishing grounds. A potent Maoist movement for years has been causing major headaches for New Delhi among India's Bengalis. A "Marxist" Communist party, often pro-Chinese in outlook as opposed to the tame pro-Soviet Indian party, almost won the last election for the West Bengal assembly.

It seems logical that radical change would heat up the atmosphere. The whole Bengali area is alive with ferment. Unemployment has reached vast proportions. Intellectuals are restless. The Maoist promise of surgical attack on human problems has great appeal to young men frustrated by the pace of parliamentary government.

**PROFITS**  
If war-borne problems hamper efforts to improve the economy, counter soaring prices, increase grain harvests and improve industrial production, India will be in for big trouble. She could then prove an expensive client for the Russians, a huge economic burden while still needing and demanding military help. The cost for the Russians could be well beyond prospective geopolitical profits.

The subcontinent has had plenty of factors seeming to invite Soviet opportunism. Yet the Kremlin may have been unhappy about the risks involved. An extensive war only a little distance from their southern

frontiers was an unwelcome prospect.

The whole thrust of Soviet diplomacy in 1966 was toward removing the fuse from the Asian powderkeg. Thus the Russians sponsored the Tashkent Declaration and brought Indian and Pakistani leaders together in Soviet Uzbekistan to sign a pledge renouncing force. But Moscow wanted to play both sides of the street.

Busily courting and arming the Indians, Moscow began to worry about Peking's rising influence in Pakistan after the Americans, in the wake of the Kashmir war, cut off arms aid.

**INDIAN SIDE**  
Before long, Moscow was committed to giving military aid to Pakistan. India protested officially and with public demonstrations. Pakistan, meanwhile, began to disengage from the Southeast Asia and Central Treaty organizations. And the Russians, to calm New Delhi, again stepped up arms aid to India.

Pakistan called for "jihad"—holy war—and that has strong emotional appeal to Islam's faithful. It seems bound to create strong reaction in the Middle East, where the Russians have a big stake in keeping their Arab friends happy.

# Marching Orders For U.S. Doctors

WASHINGTON (AP) — Government-paid physicians, dentists and nurses will get their marching orders Thursday to begin providing health care in doctor-poor city slums and rural areas.

The National Health Service Corps, a pioneer effort to cure lack of medical treatment in high-crime and low-income regions where private doctors hesitate to practice, hopes to place health professionals in 20 areas by the end of January, with another 20 in March and between 20 and 60 by July.

Secretary of Health, Education and Welfare Elliot L. Richardson has approved regulations to be published Thursday in the Federal Register, implementing the 1970 Emergency Health Personnel Act.

The regulations provide for free care for poor people and a sliding-fee scale for others unable to pay the full cost of medical treatment.

"It is not socialized medicine," said Dr. H. McDonald Rimple, interim director of the corps. "The program is designed to alleviate the critical manpower shortages in these doctor-starved areas."

Rimple emphasized that no final decision has been made concerning the first 20 communities to receive the Public Health Service professionals. The law sets out a complicated paperwork procedure, in which the assistance must be requested by public or private health agencies and the need must be certified by state and local medical and dental societies.

"We hope to begin placing people in the field before the end of this month and during the first week of January," Rimple said. "By the end of January we should have a good many of these 20 communities staffed."

# Horoscope Forecast

TOMORROW  
—CARROL RIGHTER

**GENERAL TENDENCIES:** A wonderful day and evening for you to get out of your own special rut and to expand and extend your activities far beyond present boundaries. Discuss with the most powerful man you know just how you want to live and what you want to be in the future so he can give you his highly desirable assistance and views.

**TAURUS (April 20 to May 20)** Good day to plan your financial structure for the future and to make contacts you want to have in your life for some time. This can be a most interesting day for you. Tonight good for romance.

**GEMINI (May 21 to June 21)** If you sit down with partners and exchange views, you can make excellent arrangements for the future. Get into whatever public duties are important. Much good can come of this.

**MOON CHILDREN (June 22 to July 21)** If you handle your duties to the best of your ability, you can now make the progress you want. Impress experts who are observing you. Join with fellow workers of amusements, too, during spare time.

**LEO (July 22 to Aug. 21)** Once your work is completed, you can enjoy the entertainments you like so much with congenials. Take mate along with you and show generosity as well. Have a wonderful time tonight.

**VIRGO (Aug. 22 to Sept. 22)** If you make family happy and comfortable, you increase the harmony of your home and are a happier person yourself. You need affection and can get it. Don't forget to pay that important bill.

**LIBRA (Sept. 23 to Oct. 22)** An ideal day to do that visiting either for business or social purposes, so plan this early. Selling or buying can work out well for you today. Show you have a good head for business.

**SCORPIO (Oct. 23 to Nov. 21)** You want to enjoy more security in the future and now is a good time to plan for such in a most practical fashion. Listen to what business experts have to suggest. Follow the best of these ideas.

**SAGITTARIUS (Nov. 22 to Dec. 21)** If you have been following your planetary influences, you are now dynamic and can do much to advance in your field of endeavor. Out to the group affairs that are worthwhile. Enjoy people you like.

**CAPRICORN (Dec. 22 to Jan. 20)** You have to do some work privately if you want to achieve and enjoy that place of leadership you are working towards. Ask for right pointers from advisors. Put them in operation quickly.

**AQUARIUS (Jan. 21 to Feb. 19)** Do whatever will please good friends, especially when selecting gifts for Christmas. Attend group affairs that can bring benefits to you. Show particular devotion for those who dwell with you.

**PISCES (Feb. 20 to March 20)** Know what your true position is in the world, or what it is you desire to achieve. Then plan toward such ends or improve present status. Take part in civic affairs that you are good at. Use your intellect wisely.
