RETURNED FOR RANSOM — Charlotte Berset, 10, sits with her parents in Paris today after being released by kidnapers in return for a \$27,000 ransom. The girl was kidnaped Saturday and was released Sunday afternoon.

Plans For Giant Gas Pipe Link

handle Eastern Pipe Line Co. plans Monday for a \$60 million, 300-mile line to link new natural gas reserves in Northeastern Colorado with its main transmission system in Kansas. The line of 24-inch pipe would

extend from the Wattenberg Field northeast of Denver southeastward to Liberal from where the existing main line extends across Kansas, Missouri, Illinois, Indiana and Ohio

to Michigan. R. L. O'Shields, president, said committed reserves from Wattenberg and five smaller fields discovered the past year by Amoco Production Co. approximately 1 trillion cubic

Panhandle invested about \$9 million in the Amoco exploration program that resulted in the completion of 70 gas wells.

The Monday announcement said that with Federal Power Commission approval of the pipeline, a \$15 million developmental drilling program of up to 200 wells will be started promptly.

These development wells would achieve a planned initial production rate in excess of 100 million cubic feet of natural

gas a day. From the 300,000 areas involved in the Amoco agreement, Panhandle said it has enlarged its holdings in the area to include dedication of gas

from about 1.3 million acres. Initial service from the pipeline is anticipated late this year. The project also will include about 300 miles of small diameter pipe for a field gath-

ering system. O'Shields said the Rocky Mountain region is an important new source of supply for Panhandle'a Midwest market area in Michigan, Ohio, Indiana. Illinois and Missouri.

The appointment of Orr to the county job started an immediate political fight. \$27,600 JOB

State Rep. Dick Reed of Dallas claimed Orr was unacceptable to many in the southwest Dallas precinct Orr represents and said he possibly will run for the \$27,600 a year job in this year's elections.

Rep. Reed said, "A man in the banking and insurance business has enough to do without taking on a full-time job as county commissioner, and personally, I have doubts about his ability to make independent judgments."

Orr announced that he had appointed Jack Gaubert as executive director of the party and that he already was in the state Democratic office in Austin carrying on his duties. Gaubert is a resident of De Soto. Orr is the brother of Rep. Fred Orr of De Soto.

Docket call will be held at 2 p.m. Tuesday in 118th District Court for defendants in seven criminal cases and principals in three civil cases. Trials are to be scheduled for Jan. 24.

Scheduled for docket call on three cases is Jody Hilliard, 19, Monahans. Hilliard was indicted Jan. 28, 1971, on two counts of robbery by assault and one count of assault with intent to murder. Hilliard allegedly took part in Dec. 11, 1970 robberies of two Big Spring service stations which resulted in the wounding of one service station attendant, James Gregory. Hilliard has been in custody in Howard County jail since his arrest Dec, 11, 1970.

Guadalupe Ramos, 20, last reported address, 308 N.E. 6th, is scheduled for docket call on three counts of burglary. He was indicted April 19, 1971 on two counts of burglary, and on a third count Nov. 17, 1971. He was arrested Dec. 15, 1971 and remains in Howard County jail in lieu of bond.

Lorenzo Pineda, 28, of 509 N. Lancaster (last reported address), is the defendant in the final criminal case on the docket. Pineda was indicted Sept. 10, 1971 on a charge of burglary, repeater. He was arrested July 29, 1971 and released on \$1,500 bond set by Municipal Judge John Coffee.

Civil cases on the docket concern two damage suits resulting from automobile collisions and a tax suit filed jointly by city, county and school taxing agencies against Kent Morgan et al. The suit concerns \$7,570.39 in back taxes Morgan allegedly owes the agencies on property owned by himself and others.

Supreme Court Will Hear Denver Segregation Suit

WASHINGTON (AP) - The Supreme Court agreed today to decide whether property owners who claim their homes were damaged by sonic booms may sue the Air Force.

Sonic Booms

Case Accepted

The case accepted for review concerns members of a Nashville, N.C., family who say sonic booms from military planes caused masonry cracks and other damage to their home.

Last May, the U.S. Circuit Court in Richmond, Va., ruled the Air Force could be sued. The government then appealed to the Supreme Court for the hearing now granted.

At issue is a federal tort claims law that provides the government must pay damages to persons injured through negligence of government employes but releases the government from claims based on discretionary acts.

The Air Force had argued that the flight in question was ordered by the Strategic Air Command and the wing commander and that the flight had been carried out at the correct height and altitude. It said the order of the SAC commander was discretionary and thus could not be

FURNITURE FIRE IN ABILENE

ABILENE, Tex. (AP) - More than 50 off-duty firemen were called out as reinforcements when a large furniture store on the southside of town burned to the ground early today.

There was no immediate estimate of the damage caused to Uncle Ralph's Furniture Store, although it was expected to run into many thousands of dollars.

Police said arson was suspected and two young men were arrested for questioning. The store was described as a complete loss.

SAN ANTONIO, Tex. (AP) - Lt. Gov. Ben Barnes says the showing of Sen. Edmund Muskie, D-Maine, in presidential primaries early this year may solve the question of whether Texas delegates will go to the 1972 National Democratic Convention

Barnes, a candidate for Texas governor, said it is still too early to say if he will support an uncommitted delegation.

"However, after we see the support Muskie has after the presidential primaries, I doubt if there will be that question at all," he told newsmen. He was here Sunday night for a county Democratic party fund-raising dinner.

Libraries Share In U.S. Grants

AUSTIN (AP) - Grants totaling \$1,514,400 were distributed to 158 Texas libraries from funds allocated to Texas in 1971 under the federal tibrary Services and Construction Act.

Distribution was announced by Dr. Dorman H. Winfrey director of the Texas State Library, the state agency that administers the program.

In order to receive grants, libraries must meet criteria for local support, Winfrey stressed. In 1970, the last year for which data are available, local funds for public library service amounted to slightly more than \$20 million.

The grants range in size from \$129,500 to Houston Public Library, which serves nearly a million and a quarter people, to grants for \$1,500 to a number of libraries serving a few thousand. In no case did a grant total more than 20 per cent of the local funds. A number of libraries which did not qualify for cash grants will receive books from the extension loan

"It is a complete fabrication," he said when contacted Sunday at his Washington home. "There is not one iota of truth in that statement. It had to be made up out of whole cloth."

Noah Detrich, a former Hughes aide, said in California that the loan, which was reported in 1960, was made bu that a company lawyer handled it and Clifford had no knowledge of it. Irving declined in a television interview Sunday to say what Hughes got in return for the 1956 loan. But he said the "quid pro quo" is described in his soon-to-be published book which he claims to have put together out of a series of interviews with Hughes.

LOST RACE

The Dayton (Ohio) Journal Herald today quoted San Francisco attorney Melvin Belli as saving that the loan was a payoff for Richard Nixon's supposed effort to obtain the St. Louis-to-New Orleans route and other favors for Trans World then owned by Airlines, Hughes.

The loan figured in Nixon's unsuccessful 1960 presidential campaign. Both Nixon and his brother, Donald, have denied that Hughes obtained any favors as a result of the loan.

Irving's book has been a subject of controversy since it was announced on Dec. 7. The voice of a man claiming to be Hughes said in a recent longdistance telephone news conference that he did not know Irving and denounced the book as a hoax.

Newsmen at the conference said they were convinced that the voice was that of Hughes. Irving says it was not Hughes' voice because the man had too memory lapses and talked longer than Hughes can without a break SOUR GRAPES

Irving talked about the loan during an interview with Mike Wallace on the CBS television

'60 Minutes'' program The late columnist Pearson first reported the loan shortly before the 1960 election. Pearson said Hughes made the unsecured loan to Donald Nixon in 1956, while Richard Nixon was vice president, and afterward Hughes' problems with various governmental agencies

termed a "smear" by Nixon's campaign manager.

Donald Nixon said he had sought the loan through his friend, lawyer Frank J. Waters. then a lobbyist for Hughes, in an unsuccessful effort to save his chain of restaurants. He said the loan was secured by his mother's lot in Whittier

OVER 65 ONLY: ENROLLMENT PERIOD ENDS MIDNIGHT THURSDAY, JANUARY 20, 1972

Here's when most folks over 65 find out...too late.

what Medicare

does not pay.

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care pays you up to **\$50,000 Tax-Free Cash!** It covers every hospital expense that Hospital Medicare leaves out,

except the initial deductible! only \$3 a month after the first month!

■ no age limit ■ no health questions ■ all pre-existing conditions are covered!

Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

MEDICARE IS GREAT-BUT! ...

Wake up friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has Gaps-deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those Gaps. The Government pays less and you pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long seige of illness in the hospital could leave you with crippling financial

DON'T LEARN THE FACTS THE HARD WAY! After you're laid up, It's a little late. Under Medicare today you pay the initial deductible for each 'benefit period'. That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day - \$238-a-week, \$1020.00a-month-that you must pay. Plus you start dipping into your Hospital Medicare 60-day 'Lifetime Reserve'. And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean-the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... force you into borrowing (at today's rates)... selling your home... even turning to your children for charity!

THIS PLAN IS A MUST FOR ANYONE OVER 65 If you feel Medicare Gaps are confusing, you're right-they are! Worse-they're expensive! Part 'A' of Medicare is Hospital Insurance, designed primarily for in-hospital costs. 'Part B' is Medical Insurance, for doctors and medical service bills. This Plan supplements 'Part A' to protect you for every eligible Medicare hospital expense that Hospital

Medicare doesn't pay. After your initial deductible, you're covered for all the Hospital Medicare Gaps-100%-with no time limit-no matter how much or how often you collect-up to \$50,000.00 tax-free cash! And no matter how Hospital Medicare Gaps widen in the future, you needn't worry. This Plan fills in automatically. There's no finer Plan in America today!

MEDICARE GAPS KEEP GETTING WIDER

The law requires that Hospital Medicare costs must be reviewed each year-and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times-in '70, in '71 and again in '72. In fact, hospital costs have TRIPLED in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much

ARE YOUR PARENTS OVER 65? READ THIS!

Right now you have an opportunity to help protect your parents against today's skyrocketing hospital bills. A long illness can easily exhaust their savings. That's why we urge you to bring this plan to their attention immediately-and help them get \$50,000 worth of lifetime maximum benefits. Or better still, just complete the form below for them using your address and we will send the Policy and payTHE COMPANY BEHIND YOUR ELDER-CARE

Elder-Care is issued to citizens over 65 no matter what their present state of health by Union Fidelity Life Insurance Company of Philadelphia, a progressive old-line legal reserve company. Union Fidelity is recommended by both Best's and Dunne's, the insurance industry's leading independent rating authorities.

> **MEDICARE COSTS** JUMP AGAIN!

Now You Must Pay 13 1/3% MORE!

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply - up 13 1/3%! Fortunately ELDER-CARE owners need not worry! Once again this Plan automatically adjusts to cover increased hospital charges . . . yet it still costs just \$3 a month. Today your Initial Deductible is \$68 (up from \$60!); after the 60th day you must pay \$17 per day (up from \$15!); and your "lifetime reserve" contribution is now \$34 per day (up from \$30!). These continuing annual increases make it more important than ever to protect yourself at today's rates! Send your Application NOW - before the

EVERY GAP IS ANOTHER PROBLEM FOR YOU:

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so vital. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

ANY CONDITION YOU HAVE NOW IS COVERED NOW!

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your policy is in force. Here are the only exceptions: Federal or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3. rate cannot be raised, unless a general rate adjustment - up or down - applies to everyone in your state.

SEND \$1 FOR YOUR FIRST MONTH'S PROTECTION ...

while you examine your Elder-Care Plan. It's yours with a money-back guarantee. Examine it carefully in the privacy of your own home. There's no "fine print". Show it to any trusted advisor. Indeed, show it to your doctor. He knows about the limitations of Hospital Medicare. He'll tell you how valuable this Plan really is. Even then, if you're not completely satisfied, return the policy within 30 days and we'll promptly refund your money-no ifs, ands or buts! It makes sense to protect yourself now for such a low amount-while. you make up your mind! If you decide to continue, your regular monthly premium is only \$3 per person. A small premium for so much peace of mind!

ENROLL AT ONCE-NOW IS THE TIME!

Everyone over 65 automatically qualifies during this mass enrollment period-with no medical questions asked! The closing date, however, is definite! We cannot accept applications after the postmark deadline. So please don't hesitate. You are protected by an iron-clad 30-day money back guarantee. Mail your Application Form, with only \$1, regardless of the number of people to be covered, before the midnight deadline. Act now, while the thought is uppermost in your mind!

9 IMPORTANT QUESTIONS AND ANSWERS

Q. If I have Medicare, why do I need this Plan? A. Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end? These widening Gaps could cost you thousands of dollars. But Elder-Care relieves your hospital money worries-up to \$50,000 security in tax-free cash!

Q. How do I collect my benefits once I'm in the hospital?

A. There's a simple form to be completed by you and your doctor-and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency

of Union Fidelity's claim service.

Q. Can I enroll if I'm not in good health? 3 Q. Can I enroll it I in the second medical questions to answer. No matter how poor your health, any health condition you have right now is covered. There is no waiting period. And of course, any accident or future health condition is covered too.

O. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of

A. Absolutely not! Your Plan cannot be canceled as long as you keep up your low premiums-no matter how often, or how much, you collect - up to the \$50,000 maximum. And you'll never pay more than \$3 per month, unless a general rate adjustment is made on all policies of this class (Form 1-919) in your state.

Q. Does this plan cover doctor bills? A. No. Private doctor bills are not covered by Elder-Care because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

Q. How can it cost only \$3 a month?

A. Because the initial deductible is not insuredthat's still your responsibility. Without this one provision Elder-Care would be too costly to afford. With it, however, this Plan is exceedingly reasonable. Hospital Medicare covers most expenses in the first 60-day hospital benefit period. Then Elder Care fills in the rest of the hospital benefit Gaps-100%-provides up to \$50,000 long-range protection. In addition, mass-enrollment by-mail-only-plus no medical questions to process-keeps policy-issue costs at a minimum. And since no salesman will call, there are no sales commission costs. All these savings are passed on to you!

Q. If I have other hospital insurance, doesn't it cover these Medicare Gaps?

A. Unfortunately no! Many other plans specify exclusions, riders, and limitations on Medicare. They don't bridge all the Gaps, particularly as benefits are adjusted. But with Elder-Care you know that hospital Gaps are covered automatically with up to \$50,000 protection. There's no waiting period-you're covered immediately for pre-existing conditions. And note: this Plan pays in addition to any other coverage you may have. It's your money to spend as you wish.

Q. What other advantages are there to joining this

During this period there is no red tape of any kind. Just fill in the simple Application Form here, And you enjoy a 30-day approval guarantee! You're protected for only \$1 while you examine your Elder Care Policy. If you're not completely satisfied return the Policy within 30 days and we'll promptly refund your money. In the meantime, you're still protected!

O. How do I enroll? A. Complete the Application Form at left and mail with only \$1 for the first month's protection, Your spouse, if over 65, may also be enrolled on this form. But do not send more money! \$1 covers you both during your 30-day approval. Be sure to sign your name and mail before the postmark deadline

STATE'S ONLY SCOTTISH RESTAURANT

Scotsman Climbs From Coal Pits To Owning Plush Cafe

DALLAS (AP) — A former miner from Fifeshire has rallied the Texas clans by opening the state's only Scottish restaurant and night spot.

The story of J. Scotty McGovern is the kind of Horatio Alger tale most Americans like. He didn't exactly start out from the traditional log cabin, but his parents' onefloor miner's cottage at Bowhill, near Kirkcaldy, was humble enough.

Scotty left school in Cowdenbeath at 15 to go down the pit as the family's eldest son after his father died following a coal mining accident. During the next five years, he broke an arm and a wrist, had six stitches in his head and was hauled by the heels from under a roof fall before he decided that mining wasn't really for

Drifting south to England, he worked as a laborer in the automobile factories at Coventry. Then a part-time evening job as bartender got him interested in the catering business. He's been at it ever since,

Now an ambitious 35, Scotty has secured the support of a group of young Texas businessmen who have invested in Tartan Inns Inc., of which he is president and holds 75 per cent of the stock.

His first venture is a \$120,000 restaurant, with separate club and entertainment facilities, in a new office block just opened in the fashionable northern section of the city.

The decor is authentically Scottish from the red and green tartan carpet, specially woven here in Texas, to the oak plaques bearing clan crests and

Social Security Taxes

Congress recently passed and the President signed a bill reducing income taxes for most

Yet despite this, during 1972 many Americans will pay more to the federal government in taxes than in 1971.

This is so because Congress also approved an increase in the Social Security tax base. Previously, those covered by Social Security were taxed on the first \$7,800 of their annual income. Effective Jan. 1, that base was increased to \$9,000. The reason? A 10 per cent across-the-board increase in Social Security benefits also has been

So, many workers — all those in the \$7,800 to \$9,000 bracket - will pay more this year than before. They won't feel the effect until late in the year, however; deductions will not increase but will simply continue for a longer portion of

All of which spotlights another move afoot in Congress which would change the Social Security taxing rules.

The proposed change would eliminate the taxable wage ceiling entirely, and tax all wages for Social Security purposes at the same rate, allowing personal exemptions. In other words, it would put Social Security taxes on the same basis as the income tax.

The proponents argue that the current method is regressive, since it falls heaviest on those of lowest incomes, At present, the 5.2 per cent Social Security tax is paid in full by all those earning up to \$9,000 and covered by the program; highlevel wage-earners, those most able to pay, escape a levy on part of their income - thus, it is argued, they are taxed at a lesser percentage then the smaller taxpayers. Backers of the change say it would reduce Social Security taxes for 63 million Americans while 8 million would pay more and that has political appeal.

Originally, Social Security benefits were to at least equal the amount of an employe's contributions; this connection is now lost. Instead of exceeding payments and building up a surplus for future benefits, Social Security taxes now are on a pay-as-you-go basis, with a reserve of only about a year's benefits. The original intent of the program would be further lost if another proposal being bandled about - to finance payments partially from general revenue funds - is adopted.

Hearings on the plan to impose Social Security taxes on total wages, not on a ceiling basis, will be conducted soon by the House Ways and Means

But if there it to be a tax on total wages, would it not be logical to argue that this should also carry higher benefits?

. . Or No Bridle At All

The Pay Board has rejected a 12 per cent pay hike proposal and challenged Big Labor to do its part in the war on inflation

It said no to aerospace workers. Leonard Woodcock, auto workers chief, cried "foul." He said a part of the 12 per cent is "catchup" money. He said it was immoral to refuse the raise. He charged "cynical perversion" of the board's authority and said that labor members

on the board had been "doublecrossed." The board noted aerospace industry's money problems, its own 5.5 per cent guideline, and the workers' arguments and voted no.

If nobody is willing to help restrain the wageprice spiral, that part of the inflation problem will remain unsolved, and there will really be no bridle on inflation at all.

Advantage Of Office

Marquis Childs

WASHINGTON — A President in 43 per cent subsidy was passed with office running for re-election has a great advantage over his challengers, as Mr. Nixon is already demonstrating. On the West Coast just now he made two announcements that put him on the evening televisions news shows and in the headlines.

IT IS THE President exercising the long reach of the most powerful office in the world. That is just what Mr. Nixon intends to do for the first six months of the year. The Republican National Committee, for all its swollen coffers, pays nothing for television time and the complex business of getting the candidate around the country and in position before the cameras is the task of the elaborate White House apparatus.

Mr. Nixon announced at San Diego the award of a \$54.6 million contract to the National Steel and Shipbuilding Co. for three 38,300 ton steam tankers. The company gets a construction subsidy of 43 per cent of the total cost under a law passed in 1970. Speaking to the hard hats in the shipyard on a brilliant sunny day, the President said he was fulfilling the pledge he made in the '68 campaign to revive American shipbuilding and the merchant marine. The decision covered also "conditional contracts" for nine 25,000-ton tankers. four to be built at the Todd Shipyards in Sand Pedro, Calif., and five at

the Bath Iron Works in Bath, Me. THE FOLLOWING day Mr. Nixon announced the go-ahead for the \$5.5 billion space shuttle . This drew another fanfare on television. It would mean, and here was the political ad loud and clear, 50,000 jobs in the aerospace industry. For southern California, where aerospace employment has dropped by about 200,000, this was welcome rain in a parched

Franklin Roosevelt, running for reelection in 1936, set the classic model for this type of campaign. He went around the country dedicating dams and visiting public works projects, with only glancing references to the fact that there was a political opposition. At San Diego Mr. Nixon was careful to point out that the maritime

a bipartisan vote. Here was another leaf out of the Roosevelt book with the New Deal president conveying the benign impression that he was acting for all Americans, regardless o

IN THE foreign field even more than the domestic the above-the-battle approach will work for Mr. Nixon. For a solid week in February the President will be on prime television time relayed by satellite from the ground station which the working party arranged in Peking. This will be both history-making and a fascinating travelogue in a hithertoclosed world.

Take that first shot of the Nixon arrival. Word has come from Peking that several thousand children will be on hand to greet him. They will be banging drums and clanging cymbals in welcome. Could any director beat that?

MOSCOW in May will be similarly telegenic. It seems all but certain that a strategic arms limitation agreement will be ready to sign with due pomp and ceremony under the Klieg lights.

Despite the best-laid plans, things can go wrong. Yet that master planner, Henry Kissinger, is fully confident that both Peking and Moscow will be pluses. Whatever the final result, the five months before the election in November will hardly be time enough to prove a triumph

THE PEKING mission is in itself a major breakthrough. The two previous Democratic Presidents, John F. Kennedy and Lyndon Johnson, made no move in this direction, rejecting even the abortive two-Chinas proposal of Chester Bowles. Working for peace is a powerful slogan.

Population Up

LONDON (AP) - The population of England and Waies reached 48,815,000 in 1971 — an increase of 2.6 million in 10 years, according to construction law making possible the a government estimate.

The Law And The Polls

Science has long played a vital role in the courtroom. X-rays, blood tests, photographs, fingerprints - all are familiar ingredients in the judicial

BUT WHAT about the data provided by a modern public opinion poll? Are polls considered scientific enough to be trusted?

To a growing degree, yes. As polling has become more skillful, courts have become less skeptical. The fact remains, however, that the law will take a hard look at any particular poll before putting faith in its findings.

TO BEGIN with, the poll must be extensive enough to be significant.

In one case, an accused felon sought a change of venue on the ground that the local populace was prejudiced against him. But the only proof of prejudice was a poll of a few dozen individuals. The court decided that such a poll did not carry enough weight to make its point.

NOR WILL the results be persuasive if the questioners used "leading questions." A soap company claimed in court that the name of a new chewing gum was so similar

to the name of its soap that the public would be confused.

a survey that seemingly did show such confusion. But the questions had been slanted to induce the desired answers. The court decided this poll wasn't worth much either as a means

ON THE other hand, in a case involving a charge of false advertising, a carefully conducted poll was accepted as good evidence of how the ad was understood by the average

And in a case testing the use of radios on buses, a poll helped to prove that most of the passengers liked the

MOST SUCCESSFULLY, polls have been used in trademark cases to ascertain how familiar the public is with a brand name.

Of course, polls will never be as scientific as fingerprints. But when the state of the public mind is at issue, polling can give justice a kind of help it can get in no other way.

All segments of the media are too stereotyped. All seek out the extreme. The intellectuals profess to speak for the working man, when they are in no way qualified to do it. BOTH THE blacks and the whites

must be polarized if they want to be heard. The atheists are quoted but the voice of the turtle is not heard in the land. Intellectuals quote intellectuals but the muted workmen, the real producers, ignore such conversations.

On television, they turn off the documentaries and politics and watch the pro football games. They lose themselves in the sports pages of the family newspapers. The disk jockeys on radio quote from the Top 40 surveys, yet no one understands what they're talking about.

CASUALTY LISTS are quoted like stock market reports and no one listens to them, unless a person is directly involved in such tragic news.

Headline writers in newspapers, just like anchor men on television, get in a rut and are prone to lead with the same stories each day when it is the little items filling up some corner in the news periodical or the human touch on television that count. People dearly love to identify with an individual, if he is sharing the same misery or the same enjoyment they are, but an account of a summit meeting leaves them cold.

TELEVISION focuses attention on a long-haired college kid who says the old order must go. Prepare for the revolution, he screams. Yet you know he can't tie his own shoelaces. He wouldn't be in school in the first place, if the parents he regards as dull weren't forwarding him a regular check.

Delegate Systems

David Lawrence

WASHINGTON — Millions of voters are reading about several prominent individuals who are aspiring to the presidential nomination of the Democratic party and who are announcing their entry into various state primaries. But very few people under-stand how the candidates are really chosen. Each party, of course, holds a national convention. But how are the delegates picked and what obligations, if any, do they assume to their

GENERALLY speaking, delegates to the national conventions of both major parties are selected by one of two systems: Either in primary elections or in a series of state and local conventions. But there are many variables in these two systems, ac-

cording to state laws or party rules. This year, more states than even before - 22 states and the District of Columbia - will be holding primaries which will elect convention delegates or allow voters to express a preference among the various presidential candidates. A majority of all the delegates to the democratic convention will be chosen in these primary states.

THE DEMOCRATS have adopted new rules — which the federal courts now have upheld — on the allocation of convention delegates among the states. The rules provide that delegates shall be apportioned on a formula which takes into account two things: (1) The total population of the state or congressional district, and (2) the percentage of the vote in the state or district that was cast for the Democratic ticket in the last three presidential elections.

The Republicans base their delegate allocation on the electoral college, which in turn is based on the population in the states, plus the two U.S. senators from each state. Republican delegates are alloted by congressional districts, with a certain number of statewide delegates according to a "bonus" system. Each state gets a bonus of six delegates if the Republican nominee for president, U.S. Senator or governor won the state in the last election or if the state has a Republican majority in its House delegation.

BOTH PARTIES rely on the rimaries and the state-local con vention system in appointing the delegates to the national conventions, who determine the national ticket and party platforms. But even in the primary states, there are differences. In some states, the delegates are bound to vote for the presidential candidate who wins a majority of the popular vote in the preferential primary. In other states, they are not required to do so. Some states elect convention delegates in the primaries without reference to the presidential contenders. Some states allow those who are running for delegate positions to express their preference among the presidential contenders on the ballot, while others

NOT AS MUCH publicity is given to the states with convention systems, where the delegates are named in a series of party meetings, starting usually with precinct caucuses at the grass-roots level and going on up through a series of county or district meetings to a state convention. There the entire delegation is finally completed before the national conventions. But backers of the various candidates always are active at every step of this process, seeking to make sure that delegates are picked who will be favorable to their candidate.

THE SIMPLE fact is that the manner of selecting delegates is not uniform. Some delegates are chosen on the basis of their influence inside the political party, while others get their posts because of their political offices or their financial contributions to the party.

I don't quite see how a "guilty conscience" could cause you to enter he ministry. But, let's approach this from another angle

Who is better qualified to minister to "sinners" than one who has led a sinful life? What compassion you would have for those who have fallen into temptation, for you have tasted so often of temptation yourself! What wise counsel you could give to those who are struggling against evil, for you have battled the "enemy," and with Christ have won! One thing you say concerns me.

You say, "My sinful past is what I am concerned about now." Now, God has forgiven you - you must now forgive yourself. The Lord doesn't expect you to perform endless penance, spending the rest of your days weeping over the wrongs of the past. You have been snatched as "a brand from the burning." You must invest your life in helping to salvage other lives around you for whom Christ died.

Take by "faith" the fact that you are forgiven! This is the first step - then pray for guidance as to the

13,000 Set To Walk Out At 24 Ports

SAN FRANCISCO (AP) - An a.m. strike renewal deadline passed today with no word from a marathon session of West Coast dock negotiators.

With 13,000 workers poised to strike at 24 Pacific ports, negetiators broke up a joint meetng without comment and began separate caucuses.

The Nixon administration has warned it would ask Congress to intervene and direct a settlement of any renewal of a walkout that shut West Coast ports for 100 days last year. Negotiators for the employ

ers' Pacific Maritime Association and the International Longshoremen's and Ware nousemen's Association met jointly with federal mediator J. Curtis Counts prior to midnight Sunday and then went into separate sessions which continued into the early morning hours. Counts kept moving between

the separate meetings, which started after the longshore union made a new offer. "Hopefully, we'll go all night because that will mean we're accomplishing something," said Counts, chief of the Federal
