No Tax Cuts Sought

BUDGET WRITTEN IN RED INK

WASHINGTON (AP) - Pres- ward our goal of a balanced dent Nixon handed Congress today a \$246.3-billion budget for fiscal 1973 written in deep red ink. He announced two huge deficits-\$38.8 billion this fiscal year and \$25.5 billion next-and said they will help speed up the nation's economic recovery. His budget message asked

neither for further tax cuts to stimulate the slack economy nor for tax increases to meet the climbing costs of government, although his deficits are the two largest since World War II.

MEDICINE NECESSARY "Deficit spending at this

time, like temporary wage and price controls, is strong but necessary medicine," Nixon said. Yet his message slapped repeatedly at the Democraticcontrolled Congress for spendng more than he had asked. Revenues will rise "as the new prosperity takes hold," Nixon promised. This trend makes possible the smaller deficit for fiscal 1973, starting next July 1, he said, and "brings us strongly forward to-

(AN EDITORIAL) HOSPITAL NEEDED

Community Cannot Afford To Tarry

By BOB McDANIEL, Publisher

We believe the majority of citizens of Big Spring and Howard County have little or no interest in the whys and wherefores of seemingly longstanding quarrels within the medical profession of this community.

We believe the citizens of this county are more interested in the welfare of their families, friends and neighbors than in petty jealousies that could have disastrous affects on the building of adequate medical facilities for Howard County.

Howard County and Big Spring are in dire need of one central hospital equipped to accomodate this growing community. Our needs will increase as new industry and new families veariv to this West Texas area. We cannot afford to play 'catch-up' when it affects the health of our families. We hope those in this community who would cause the undue delay and possible death of this much needed expansion of hospital facilities would look objectively at their motives.

BERRIGAN PREPARES FOR TRIAL—Father Philip Berrigan, a Roman Catholic priest, smiles behind the outside gate of Dauphin County Prison in Harrisburg as he prepares to leave for the start of his trial in federal court. Asks Congress To Stop Raids On Treasury

PRESIDENT

WASHINGTON (AP) - President Nixon urged Congress today to "stop raids on the Treasury" by imposing a rigid ceiling to keep the federal spending within the \$246.3 billion requested in the new red-ink budget.

He described as "rubbery" previous congressional ceilings on spending, contending they were riddled with loopholes.

Shultz said the administration would prefer no ceiling at all to a "sieve-like" limit which would give only the illusion of controlling federal spend-

In his statement, read to newsmen by Shultz, Nixon said his fiscal 1973 budget, "requires spending more than we will collect in taxes."

"It will be a job-creating budget and a noninflationary budget only if spending is limited to the amount the tax system would produce if the economy were operating at full employment," the President continued.

"We urgently need an absolute limit on government spending," Nixon said in a statement released as his fiscal 1973 budget reached Capitol Hili.

HOT SPRINGS HOT AS FIRECRACKER

HOT SPRINGS, Ark. (AP) - Fire broke out in downtown Hot Springs early today, destroying two buildings and damaging two others.

Authorities said firemen were called to the scene about 2 a.m. Traffic on Central Avenue was still blocked at 8 a.m.

The fire destroyed the three-story building that housed the Diamondhead Corp. and an adjoining building that contained the Casa Blanca nightclub.

Rob Candidate For Sheriff

AUSTIN, Tex. (AP) - John Dyess Sr., candidate for Travis County sheriff, reported to Austin police that his campaign office was burglarized during the weekend and considerable valuable campaign material taken.

The burglars also took \$120 in cash, Dyess said.

Dyess said the material taken included signed statements he had taken from 44 county jail prisoners on conditions in the jail.

Dyess said it had taken him about two months at a cost of about \$1,000 to collect the information. He said he had no copies of the information.

Police said they took several fingerprints from the scene.

BY LINDA CROSS Heated words were exchanged between county commissioners today concerning a proposed paving policy for rural roads for the coming year. Commissioners Bill Crooker

and Jack Buchanan opposed a motion by Commissioner Simon Terrazas because, they said, it was "a complete departure from the unit system" which. according to Crooker and Buchanan, calls for rural roads to be paved to the basis of need, regardless of commissioner precinct lines.

Six On Trial

HARRISBURG, Pa. (AP) - The Rev. Phillip Berrigan and six codefendants go on trial today on antiwar conspiracy charges which include an accusation that they plotted to kidnap presidential adviser Henry A. Kissinger.

Berrigan urged his followers to use the trial as a vehicle to revive the anitwar movement.

And at 8:30 a.m. today a group of stop-the-war advocates held a news conference a block from the federal building and read a statement signed by five prominent figures in the movement.

'What is on trial here in Harrisburg is the conscience of America," the statement said.

'The people of this country will be watching to see if energetic opposition to war will be considered a crime, when the greatest crime is war itself

Signatures on the statement were those of Dr. Richard Falk, Princeton law professor; Anthony J. Russo, recently indicted with Daniel Ellsberg for leaking the pentagon papers on the Vietnam war: Dr. Howard Zinn, a Boston University professor who went to Hanoi with Daniel Berrigan, Philip's brother, in 1968; Carlos Feliciano, a Puerto Rican charged with bombing 35 public buildings in New York and Puerto Rico, and Michael Ferber, a Harvard teaching fellow who stood trial with Dr. Benjamin Spock.

Martin Asks Remap Delay

AUSTIN, Tex. (AP) - Atty. Gen. Crawford Martin said today he has asked the U.S. Supreme Court to delay implementation of a Texas congressional redistricting plan ordered Friday by a three-judge federal court in Dallas.

He said Asst. Atty. Gen. Sam McDaniel filed the state's motion with the court about 8:30 a.m. EST.

One justice can order the plan's execution stayed. Newly appointed Justice Louis Powell is the judge for the area of the country that includes Texas.

Martin's motion asks the court to hold off implementing the new congressional district lines until after this year's elections.

In the alternative, Martin wants the court to delay the plan at least until after the Supreme Court rules on appeals in redistricting cases from Illinois and West Virginia.

Both cases involve the issue of how close the population of each congressional district must come to mathematical equality, Martin said. In the Illinois and West Virginia cases, he said, the judges said that once population is nearly equal, legislators can consider other criteria in drawing district lines.

The three-judge court in Dallas said the legislature's congressional redistricting plan did not come "as close to equality as it might have come.'

Martin also said he plans to submit a formal appeal of the three-judge court's decision to the Supreme Court "just as soon as we can. We are working on it right now."

The Dallas court threw out the legislature's plan for congressional districts and ordered this year's elections held on the basis of a plan drawn by Dan Weiser, an oil company mathematician and liberal Democrat.

said he hoped the state attorney general would see a 60-day delay while the case is appealed to the Supreme Court.

The redistricting plan put forth by Dallas mathematician Don Weiser and accepted by the judges puts Purcell against Democrat Omar Burleson of Anson and Kazen against Democrat O. C. Fisher of San Angelo.

WHAT RULES?

Burleson and Fisher missed Sunday's reception. But Wright and Roberts faced each other bravely as potential competitors. Burleson criticized the new plan from Abilene.

"I'll play by the rules, whatever they may be, but I'd like to know what they are," Wright told Roberts.

Roberts told Wright goodnaturedly, "I'm not going to run against you, Jim," but when he saw a reporter taking down the conversation he said:

"Now don't print that because I might end up running against him."

Wright said the judges might have been correct in assuming that the legislature passed a of most incumbent congressmen

THOUSANDS IN THE PAST **TWENTY YEARS** When children discover that a playmate

wets his bed, the result can be merciless teasing and serious psychological problems.

The entire family can be effected. The cost and work of taking care of a bed-wetting child can cause friction and irritability among parents.

It is quite possible that your child will EVENTUALLY outgrow bedwetting, but what happens until that time comes? Medical authorities have stated that a bedwetting child feels that he is a disgrace to his family. Statistics prove that a bedwetting child achieves below his real ability in school. And the child is embarrassed and ashamed.

But, now, bedwetting, when not caused by organic defect or disease, can be end-ed. Safely. Permanently. Our method is endorsed by many doctors. HOUSTON (AP) - The Houston Post says three state representatives and a former member who now is a Harris County judge are partners with six registered legislative lobbyists in an Austin-area land firm.

The Post said in its Sunday editions said the legislators who are limited partners in the venture are Reps. Dean Cobb of Dumas and Don Cavness of Austin and Hilary B. Doran Jr. of Del Rio.

The judge is F. Lee Duggan of Houston who served in the legislature before he was appointed a Harris County criminal court at law judge in July, 1967, the newspaper said. Duggan now is a district judge.

The Post said the firm is a limited partnership known as Three Hundred Bee Caves, Ltd. It bought 300 acres on the western edge of Austin.

The Post said the lobbyists who are among 17 other limited partners in the venture are Benner Dowe, Ed Stumpf, Del Diamond and James Nance, all of Houston, and David Irons of Dallas.

The general partner in the venture is lobbyist Cletus A. Davis of Houston. Davis, a lawyer, is a former legislator. Reps. Cavness and Doran said they saw nothing wrong with their investment in the venture.

"If the lobbyists or somebody, had given me a share in it, it would be different, but they certainly didn't," Cavness said. "As far as I'm concerned, it is just a business investment,"

Doran said the lobbyists had nothing to do with his getting into the partnership.

"I financed my own part and I assume everybody else paid for his, too," Doran said. Davis said "there is nothing illegal, immoral and unethical about it."

Soviet Ships Fish Charges May Be Filed

ADAK ISLAND, Alaska (AP) A federal fisheries official says that if two Russian herring boats seized in U.S. waters are not found guilty of violating the U.S. 12-mile fisheries zone, the result could weaken the American position in negotiations with the Soviet Union on fishing rights. The Soviet ships are accused

of illegal "fisheries support activities"-transferring fish or supplies-some nine miles off St. Matthew Island, in the Bering sea about 200 miles off the coast of western Alaska.

James Branson, an enforcement officer for the National Marine Fisheries Service said the 362-foot processing ship Lamut and the trawler Kolyvan were seized Monday within the 12-mile continguous fisheries zone only 10 to 15 miles from an area where they could have entered the zone legally under a U.S.-Soviet agreement.

If they are not made to stick to precise terms of the agreement, the United States might lose some bargaining power next winter at the U.S.-Soviet fisheries talks, Branson said.

Meanwhile, U.S. Atty. G. Kent Edwards said in Anchorage he probably would decide today whether to file charges against the Soviet vessels.

The Coast Guard had planned to fly two Soviet officers from Adak to Anchorage Sunday, but high winds, heavy snowfall and a low cloud cover grounded planes at Adak.

Bates Trial Will Feature **Cross-Exams**

CORPUS CHRISTI, Tex (AP) - Cross-examination of a Rosenberg jeweler gets underway today in the trial of state Sen. Jim Bates of Edinburg.

John Herfort, owner of Herfort Diamond Ring Factory, testified in 105th District Court Friday that Bates came to his factory May 6, 1969, to get some diamonds, including a large unusual stone, appraised. Bates is being tried on a charge of receiving a diamond stolen in the burglary of the home of Corpus Christi lawyer Edmond J. Ford

Adrian Lambert, a convicted slaver and self-proclaimed professional burglar, testified earlier he burglarized the Ford home and took 36 diamonds to Austin where he sold them to Bates for \$4,400

Nueces County Dist. Atty. William Mobley then put Mrs. Dianne Peterson Martin, a former secretary to Bates, and Herfort on the stand to back up Lambert's testimony

Mrs. Martin, an attractive Houston housewife, testified she was in Bates' office when Lambert, her former boy friend, brought the diamonds. She said one of them was the same one Bates is accused of receiving from Lambert.

Herfort testified he had been told that Bates associated with diamond and jewel thieves. He said Bates hurriedly left the factory after Herfort told him the large diamond, described by Herfort as "beautiful" and 'unusual," was worth about \$2,000. Ford had earlier testified he paid \$5,800 for the diamond

The jeweler said a woman identified only as Mrs. Olson took down the description and license number of the car driven by Bates.

Cross-examination of Herfort will be by Austin defense law-

strike - A NOTE

Record Highs Across Texas

By The Associated Press A massive cold front howled down from the Rockies early today but promised little in the way of relief from the summer heat wave which has gripped Texas the past few days.

The cold air was to begin pushing through the Panhandle this morning but little change in the weather picture seemed evident for the rest of the state.

Temperatures rocketed to ecord highs across Texas Sunday - more like June than January. Readings in the low 90s were registered in South Texas.

The National Weather Service said cloudiness would spread today across the northern part of the state with little or no rainfall. Temperature reductions will be minimal despite blizzard conditions brought on by the new storm in Wyoming.

OVER 65 ONLY: ENROLLMENT PERIOD ENDS MIDNIGHT THURSDAY, JANUARY 27, 1972 Here's when most folks over 65 find out...too late what Medicare SPITAL BILL* PATIENT MUST does not pay. ARRANGE PAYMENT BEFORE DISCHARGE **NEDICARE** PATIENT 6990.00 3230.00

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care[®] pays you up to \$50,000 Tax-Free Cash! It covers every hospital expense that Hospital Medicare leaves out, except the initial deductible! only \$3 a month after the first month! ■ no age limit ■ no health questions all pre-existing conditions are covered! Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

MEDICARE IS GREAT-BUT! ... THIS PLAN IS A MUST FOR ANYONE OVER

IMPORTANT ANNOUNCEMENT

TOTAL

MEDICARE COSTS JUMP AGAIN! Now You Must Pay

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply - up 13 1/3%! Fortunately ELDER CARE owners need not worry! Once again this Plan automatically adjusts to cover increased hospital charges . . . yet it still costs just \$3 a month. Today your Initial Deductible is \$68 (up from \$60!); after the 60th day you must pay \$17 per day (up from \$15!); and your "lifetime reserve" contribution is now \$34 per day (up from \$30!). These continuing annual increases make it more important than ever to protect yourself at 13 1/3% MORE! today's rates! Send your Application NOW - before the postmark deadline.

Wake up friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has Gaps-deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those Gaps. The Government pays less and you pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long seige of illness in the hospital could leave you with crippling financial debts.

DON'T LEARN THE FACTS THE HARD WAY!

After you're laid up, It's a little late. Under Medicare today you pay the initial deductible for each 'benefit period'. That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day - \$238-a-week, \$1020.00a-month-that you must pay. Plus you start dipping into your Hospital Medicare 60-day 'Lifetime Reserve'. And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean-the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... force you into borrowing (at today's rates)...selling your home ... even turning to your children for charity!

ARE YOUR PARENTS OVER 65? READ THIS!

& DELIN

Right now you have an opportunity to help protect your parents against today's skyrocketing hospital bills. A long illness can easily exhaust their savings. That's why we urge you to bring this plan to their attention immediately-and help them get \$50,000 worth of lifetime maximum benefits. Or better still, just complete the form below for them using your address and we will send the Policy and payment notices to you.

If you feel Medicare Gaps are confusing, you're right-they are! Worse-they're expensive! Part 'A' of Medicare is Hospital Insurance, designed primarily for in-hospital costs. 'Part B' is Medical In-surance, for doctors and medicat service bills. This Plan supplements 'Part A' to protect you for every eligible Medicare hospital expense that Hospital Medicare doesn't pay. After your initial deductible, you're covered for all the Hospital Medicare Gaps-100%-with no time limit-no matter how much or how often you collect-up to \$50,000.00 tax-free cash! And no matter how Hospital Medicare Gaps widen in the future, you needn't worry. This Plan fills in automatically. There's no finer Plan in America today!

MEDICARE GAPS KEEP GETTING WIDER

The law requires that Hospital Medicare costs must be reviewed each year-and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times-in '70, in '71 and again in '72. In fact, hospital costs have TRIPLED in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much sense!

OWES

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so vital. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

ANY CONDITION YOU HAVE NOW **IS COVERED NOW!**

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your policy is in force. Here are the only exceptions: Federal or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3. rate cannot be raised, unless a general rate adjustment - up or down - applies to everyone in your state.

9 IMPORTANT QUESTIONS AND ANSWERS

Q. If I have Medicare, why do I need this Plan? 1 A. Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end? These widening Gaps could cost you thousands of dollars. But Elder-Care relieves your hospital money worries-up to \$50,000 security in tax-free cash!

Q. How do I collect my benefits once I'm in the hospital?

There's a simple form to be completed by you and Α. your doctor-and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency of Union Fidelity's claim service.

> Q. Can I enroll if I'm not in good health? 3 A. Yes you can. There are no medical questions to answer. No matter how poor your health, any health condition you have right now is covered. There is no waiting period. And of course, any accident or future health condition is covered too.

Q. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of dollars?

A. Absolutely not! Your Plan cannot be canceled as long as you keep up your low premiums-no matter how often, or how much, you collect - up to the \$50,000 maximum. And you'll never pay more than \$3 per month, unless a general rate adjustment is made on all policies of this class (Form 1-919) in your state.

Q. Does this plan cover doctor bills?

5 A. No. Private doctor bills are not covered by Elder-Care because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

SEND \$1 FOR YOUR FIRST MONTH'S PROTECTION

while you examine your Elder-Care Plan. It's yours with a money-back guarantee. Examine it carefully in the privacy of your own home. There's no "fine print". Show it to any trusted advisor. Indeed, show it to your doctor. He knows about the limitations of Hospital Medicare. He'll tell you how valuable this Plan really is. Even then, if you're not completely satisfied, return the policy within 30 days and we'll promptly refund your money-no ifs, ands or buts! It makes sense to protect yourself now for such a low amount-while, you make up your mind! If you decide to continue, your regular monthly premium is only \$3 per person. A small premium for so much peace of mind!

ENROLL AT ONCE-NOW IS THE TIME!

Everyone over 65 automatically qualifies during this mass enrollment period-with no medical questions asked! The closing date, however, is definite! We cannot accept applications after the postmark deadline. So please don't hesitate. You are protected by an iron-clad 30-day money back guarantee. Mail your Application Form, with only \$1, regardless of the number of people to be covered, before the midnight deadline. Act now, while the thought is uppermost in your mind!

Q. How can it cost only \$3 a month?

6 A. Because the initial deductible is not insuredthat's still your responsibility. Without this one provision Elder-Care would be too costly to afford. With it, however, this Plan is exceedingly reasonable. Hospital Medicare covers most expenses in the first 60-day hospital benefit period. Then Elder-Care fills in the rest of the hospital benefit Gaps-100%-provides up to \$50,000 long-range protection. In addition, mass-enrollment by-mail-only-plus no medical questions to process-keeps policy-issue costs at a minimum. And since no salesman will call, there are no sales commission costs. All these savings are passed on to you!

Q. If I have other hospital insurance, doesn't it cover these Medicare Gaps?

Unfortunately no! Many other plans specify exclu-Α. sions, riders, and limitations on Medicare. They don't bridge all the Gaps, particularly as benefits are adjusted. But with Elder-Care you know that hospital Gaps are covered automatically with up to \$50,000 protection. There's no waiting period-you're covered immediately for pre-existing conditions. And note: this Plan pays in addition to any other coverage you may have. It's your money to spend as you wish.

Q. What other advantages are there to joining this 8 Plan right now?

During this period there is no red tape of any kind. Α. Just fill in the simple Application Form here. And you enjoy a 30-day approval guarantee! You're protected for only \$1 while you examine your Elder-Care Policy. If you're not completely satisfied return the Policy within 30 days and we'll promptly refund your money. In the meantime, you're still protected!

Q. How do I enroll?

A. Complete the Application Form at left and mail with only \$1 for the first month's protection. Your spouse, if over 65, may also be enrolled on this form. But do not send more money! \$1 covers you both during your 30-day approval. Be sure to sign your name and mail before the postmark deadline.

Good Advice From Bentsen

Sen. Lloyd Bentsen, just returned from a 17day trip to the Middle East, has delivered some well-aimed advice for President Nixon.

The Texas Democrat has urged the administration to recognize the new nation of Bangladesh at once, in an attempt to recoup as much as possible the losses incurred as a result of the administration's misdirected India-Pakistan policy.

This is sound advice. Bangladesh is a reality; there is no way West Pakistan can recapture its rule. Indeed, the new government in Pakistan is in a mood of concilliation, recognizing the right of Bangladesh to determine its own future. It is highly likely Pakistan itself will soon grant recognition to the Bangladesh nation - which would leave us in a most embarrassing position.

The administration's "tilt" toward Pakistan as revealed in the leaked papers recounting deliberations leading to that decision - was a have given a stamp of approval to the murderous repression heaped upon then-East Pakistan by the

military regime then in power in West Pakistan, foreign policy blunder. By following that line, we including the voiding of a democratic election which touched off the trouble leading to revolt. And we managed to alienate the government of India which, despite frequently acting at crosspurpose with Washington, is after all the largest democratic state in all of Asia.

Our policy was wrong, disastrously so. Only by acknowledging it was, and by now granting recognition to Bangladesh, can we begin to repair the fences torn down as a result. Sen. Bentsen's advice is sound; it would only compound the Nixon administration's mistake to prolong the present situation.

Primary Vote Expenses

The federal decision against filing fees in primary elections has tossed a bombshell into primary financing. Heretofore, the estimated costs have been divided among candidates.

Right now party chiefs are scratching their heads for ways to overcome this problem, which for Howard County Democrats, for instance, amounts to \$4,000 to \$5,000. County Demo Chairman Dave Brazel conjectures on the alternative of volunteer contributions from the candidates.

While the state is being called upon to absorb

more and more expense, this is an area in which it might properly consider action. Virtually all our neighboring states consider primaries as part of the election process and therefore, regard financing the counting of primary votes as a public expense. Texas recognizes the primaries as part of the general election by fixing legal codes, but not picking up the checks.

Government Jobs Not So Bad

WASHINGTON (AP) - The government's highest - paid employe can summon a helicopter to his lawn, go through stoplights, have the Marine band play at his parties and leave a magnificent public-owner mansion to weekend in a public - owned mountain hideaway.

THE REST OF America's 2.8 million government employes aren't as well off as Richard M. Nixon, but compared with the rest of us, they have it pretty good.

Their pay, thanks to a pliant Congress, ranks favorably with private industry; their retirement benefits are the envy of unions; their vacations and sick leave are better than most.

And then there's job security; not as enduring as commonly thought, but certainly no worse than in the outside world.

he said, if the enormous diversity in the work force. "We have guys who predict weather, deliver mail, build ships, repair airplanes, ship goods, run hospitals."

> SAID JOHN GRIMER, president of the American Federation of Government Employes: "One of the drawbacks of the federal service, ever since we've been a nation, was the concept that 'father knows best." management was not to be questioned - it's always right and the employe is always wrong.

A fearful word to government employes is "riffed," a term that stands for "reduction in force." The possibility of being riffed - belying the myth of total security - is what keeps Washington's large private employment agency industry hum-

WASHINGTON - More than 73 mil- happen to be. This information i lion citizens voted in the 1968 national election, and it is expected that with

the 18-year-olds now eligible there could be a total of at least 85 million who will go to the polls next November.

BUT WHAT are they all voting for? Ask any of them how to define "Democrat" or "Republican" and they hesitate. Basically votes are cast for individuals who make spectacular campaigns or who get a lot of publicity on television and seem to be worthwhile personalities.

The difficulty about the American political system today is that throughout the country there is very little known about party principles or programs. Much of this is due to the fact that national conventions have been reluctant to deal with the changing conditions that may arise. Who can foresee the critical developments in the international arena? Who can tell what the big questions will be on the domestic scene?

SO THE TWO major parties do not condense their views so that they are understandable, as used to be the case many years ago. The net result is that a large number of voters are influenced by independent candidates in national campaigns. Also, one finds many voters in the South known as moderates and conservatives who are paralleled by similar voters in the Northern states. Even to this day, the Wallace vote of 1968 is not easily explained. It was a protest vote. But how much of it came from the Democrats and the reasons for their defections will never be known. It was a chance merely to break away from an established party. Independent parties afford just such an opportunity.

of course, frequently outlined by the national headquarters, but it doesn't seem to get across at the local level so that new voters can decide whether to become Republicans or Democrats. It is an expensive thing to carry on educational campaigns telling voters about party principles, and probably neither of the major parties can afford the expenditure of huge sums of money to teach local groups just what party platforms really mean.

IT LOOKS as if the coming election will be another one of those coalitions of groups and factions. The candidates themselves will be telling the country what to expect and will, by their speeches on television and in the press, arouse fears in some instances and give assurances in others. But, in general, the public will not know too much about the subjects covered in the speeches. For in political campaigns the objective is to win, and the party on the outside uses every kind of strategy to make it appear that the incumbent has failed to carry out his promises and that

a new man will perform wonders. The Republicans, on the other hand, have a big argument this time that change is dangerous and the government had better be left alone in a delicate period in history.

Coming Campaign

THE LEADERS of each party ought to be carrying on educational activities in all parts of the country defining what a Republican or a Democrat really stands for and what the party promises or pledges or policies

IT IS GOING to be a hard cam paign for the Democrats, but even more difficult for their local nominees, as the people have not built up a clear impression in their minds just what the Democrats can accomplish if there is a change. This gives the Democratic party a real task. President Nixon, by his trips to Peking and Moscow, will have an opportunity to produce news concerning the measures that will be taken to usher in an era of peace in the world.

While the campaign is going on, the voters will be wondering which party can best achieve the results all citizens desire - peace and prosperity.

Scene: a college classroom. The had described in his lectures professor is delivering a lecture on philosophy. Most of his listeners are not use the professor's language at paying only intermittent attention to all - and used his data only in his pearls of wisdom

But one alert young man is zealously taking down every word. For he has a great idea. He will gather the lectures together, publish them in book form, and then sell them to students who are less energetic than he is.

Could the professor block the young man's project if he so desired? This question arose not long ago when a professor actually did go to court against a classroom copycat. He claimed that publication of the lectures would violate his "common law copyright."

The defendant retorted that the professor had lost the copyright by uttering his words in public, thereby making them "free for all."

But the court sided with the professor and granted him an injunction. The court pointed out that he had spoken not to the general public, for general use, but to a limited group for limited use.

Other courts have agreed that a professor does not lose his common law copyright merely by delivering lectures to his students. By the same token, a minister probably retains rights in his sermons after delivering them to his congregation.

However, a copyright generally protects only the mode of expression, not the information itself. For example

A professor of medicine complained in court that a new book contained certain details about surgery that he announced.

Those factors alone would indicate that the man who draws his pay from Uncle Sam is in an elite class. Sometimes it's so; often it's not. The government giveth and the government taketh away.

FOR INSTANCE:

-President Nixon announced last August his three-month wage-pricerent freeze and ordered that Jan. 1 pay raises for federal employes be postponed untl July 1 "to check the rise in the cost of government. Federal workers howled they were being made sacrificial goats.

-The Cost of Living Council exempted them from controls, leaving the matter to Congress which restored the 5.5 per cent raise at an added cost of more than \$1 billion in the January-June period.

American writers often portrayed the public servant as sucking from the public trough, an incompetent hanging on for his pension, rising routinely through others retirement and unfit to compete in the work-aday world.

THE TAINT lingers. In a work force of millions it undoubtedly exists in dismaying numbers. But today's federal civil servant often is something more.

"There are people who are so dedicated about what they are doing they get their rewards from the job,' said Raymond Jacobson, director of the Bureau of Policies and Standards in the Civil Service Commission.

Frequently forgotten in Washington,

A SENATOR'S assistant, who got the job after she was riffed from Civil Service, said "if you have any initiative at all, a large government office isn't the place for you. It's always routine. These who have long tenure coast along because nobody

NEW YORK (AP) - The Police Department has adopted a gold and blue shoulder patch designed to make it easier to distinguish the 31,000 members of the city force from other policemen, such as housing or transit police and private patrolmen.

Abortions Look

LONDON (AP) - More than 175,000 women had legal abortions in Britain between April 1968, when the Abortion Act was passed, and the end of 1970. More than half of 92,000 abortions in 1970 were performed on unmarried women.

My Answer Billy Graham

In your book "The Jesus Generation" I found the prayer you wrote on becoming a Christian, and I sincerely prayed it. The week after that went perfect for me. But, Dr. Graham, I have to keep coming back to ask forgiveness. Is that normal, or is it just that I don't have enough faith? M.G.H.

One of the marks of one who has received Christ is his sensitivity to sin. Christ was the epitome of holiness and purity, and when He comes to live within us, we develop a revulsion toward evil, especially when it crops up within our own hearts.

You are normal. Every day I leave off doing some good I should have done, or do some wrong I should not will hot despise." Psalm 51:17.

have done. I claim the promise in the Bible: "If we confess our sin he is faithful and just to forgive our sin, and cleanse us from all unrighteousness." I John 1:9.

Christ is our advocate. He stands between the sinner and a holy, righteous God. If we have received Him, and retained Him as advocate, He pleads our case before God effectively. The Bible encourages us to ask and receive forgiveness. It says, "Let us come boldly to the throne of grace, that we may obtain mercy and find grace to help in time of need. " Hebrews 4:19.

Confession, far from being a sign of spiritual weakness, is in fact a sign of strength. David said, "A broken and contrite heart the Lord

past deficits Nixon has blamed his own problems with inflation, recession and the soaring federal debt.

The rich red ink, \$38.8 billion worth in fiscal 1972 and \$25.5 billion in the coming government year, could prompt demands for higher taxes and traditional Republican "fiscal responsibility" from the conservative wing of the President's own party. Conservatives have shown rising irritation with the Nixonian economics. **DID HIS BEST**

Nixon did his best to minimize a political backfire. The deficits are just the right tonic for the tired economy, he contended, and he implied that it is the Democratic-controlled Congress which needs to show fiscal discipline, not the Republican administration.

The message gives his administration credit for \$22 billion in income tax relief gained by Americans since 1969, omitt-

COSTLY MISTAKES Congress has made "costly mistakes" in past reductions of defense budgets, Nixon said in advocating more money for the Pentagon. Older people "have waited long enough," he said, for Congress to provide Social Security reforms. He complained that his plan to aid needy students is stalled: There it sits, in Congress, while thousands of young people miss their chance. On the other hand, the message bespeaks the President's
