Count Down Begins For Moon Trip

CAPE KENNEDY, Fla. (AP) — The launch team fed electrical power to a Saturn 5 rocket today to start the lengthy count down for Apollo 16, man's fifth expedition to the surface of the moon.

The count down clock began ticking at 8:30 a.m. EST, aiming for a liftoff of the giant rocket at 12:54 p.m. Sunday.

The clock read 104 hours, 30 minutes as it started. It will be halted at several planned points for launch crew rest periods and catchup time for any item that might fall behind schedule.

Key events in the count down include activating batteries, loading the spacecraft's power-producing fuel cells and pumping more than one million gallons of fuel into the rocket's huge tanks.

Astronauts John W. Young, a veteran of four space trips; Charles M. Duke Jr. and Thomas K. Mattingly II planned to spend most of today in spacecraft simulators, rehearsing descent to the lunar surface, liftoff and rendezvous maneuvers.

Young and Duke are to attempt man's first landing in the moon's mountainous highlands. The touchdown point is near the crater Descartes, just southeast of the center of the moon's visible face.

McCoy led away after arraignment — Accused hijacker Richard F. McCoy, left, is led from a federal building in Salt Lake City following his arraignment on charges of hijacking a United Air Lines jetliner during the weekend and extorting half a million dollars from the company. McCoy is flanked by unidentified federal agents.

Big Bombers Hit Targets In Vietnam

SAIGON (AP) — U.S. B52 bombers returned to the air war over North Vietnam today for the first time in more than four years and hit targets around the big coastal city of Vinh, 145 miles northwest of the demilitarized zone. It was the deepest penetration of North Vietnam ever made by America's biggest warplanes.

Meanwhile, South Vietnam's commander on the northern front said his forces had crushed the spearhead of the 12-day-old Communist offensive across the DMZ and turned the tide of battle.

But there was no letup in the enemy attack north of Saigon and the South Vietnamese command ordered another 20,000 troops into the battle for An Loc, 60 miles north of the Capital.

Official sources said the use of the eight-jet B52s over North Vietnam for the first time since Nov. 27, 1967, was a show of force by President Nixon.

The U.S. Command gave no details of the B52 operations, saying in a communique: "In response to the Communist invasion of South Vietnam through the demilitarized zone, U.S. air and naval operations continue south of, in and north of, the DMZ. These operations include naval gunfire, tactical aircraft and B52s throughout the battlefield area."

The command said it now considers North Vietnam part of the battlefield area.

Other official sources said that because overcast skies for the third day curtailed raids by the small fighter-bombers

POLICE RECOVER PORTION OF COIN COLLECTION
Det. Lt. Sherrill Farmer, (L), Vance Chisum Police Chief

New Mayor To Be Named Tonight

Newly elected city commissioners will be installed, and a new mayor and mayor pro tem will also be elected in the regular session of the city commission Tuesday evening.

New commissioners Eddie Acri, Wade Choate and Harold Hall will be sworn in by City Secretary Rogers Nanny. Mayor J. Arnold Marshall will officially step down from the post he has held for the past 10 years.

First order of business of the new commission will be to elect a new mayor and mayor pro tempore. Commissioner Acri has already stated he will nominate Choate for the mayor's position during that time.

None of the other commissioners has committed himself on the nomination. Canvassing of returns and declaring results of the election will also be a main item of business in the session, which will be Hall's first.

Other business on the agenda will include the review of bids and awarding of contracts for a city bank depository. Commissioners will also hear

recommendations from the city Planning and Zoning Board on five public hearings and an ordinance for annexation of 10 acre tract adjoining Crestwood Mobile Home Park.

A special meeting of the planning and zoning board was held Friday evening for study on two requests concerning mobile home sales in the city.

Teddy Dietz and Joe Matthews both requested zone changes to allow them to sell mobile home units at the Highland Center and College Park Shopping Center, respectively.

In the last meeting of the board, Dietz told members there was no provision in the current mobile home ordinance setting forth policy regarding the sale of mobile homes. He had earlier met with members of the city Zoning Board of Adjustment, who recommended the planning and zoning board establish a zone for trailer sales.

However, in the special meeting of the board Friday, members moved to table both requests until further study can be made.

Both requests have been added to the city commission agenda for Tuesday's meeting.

Three Nabbed, Coins Recovered

Two juveniles and a 17-year-old have been arrested, and police have recovered a major portion of a coin collection, which was stolen from the residence of Mrs. Virginia Younger and her daughter, Miss Viola Younger, 2602 Carol, Feb. 27.

Robert Kevin Penner, oldest of the three, 2610 Carol Drive, has been charged in Justice of the Peace Jess Slaughter's court for burglary in connection with the theft of the collection, which was listed at face value to be worth \$1,500.

The three arrests were made Saturday and Sunday. One juvenile was charged in juvenile court with concealing stolen property and the other in connection with the actual burglary, according to police this morning.

Judge Slaughter set bond on Penner at \$5,000, and the youth has been released.

"A large amount of the coin collection was recovered Saturday in the possession of one of the juveniles. Also we are expecting to make further recovery of portions of that which was spent," said Det. Lt. Sherrill Farmer, investigating officer.

The arrests and recovery ended 1½ months of intensive investigations by the police department, according to Farmer. Four of the five metal boxes, which contained the coins, were recovered from Cosden Lake Saturday with the assistance of a diver.

The coins were stolen from the Younger residence sometime between 6:45 p.m. and 8:30 p.m. Feb. 27, while the women were away at church services.

Police reported there was a burglary at the residence approximately a year prior to the current burglary, in which \$1,000 worth of coins were stolen.

Several of the coins in the collection recently stolen were worth \$400 and \$500 apiece, but police said most of the missing collection was spent at face value, and not sold for actual worth.

The portion of the collection recovered will be retained by police as evidence in the pending trial, according to Farmer.

Two Boys Slain By Same Bullet

ALICE, Tex. (AP) — Two boys were killed by the same bullet at their home near here Sunday when a foreign-made pistol accidentally discharged, striking both boys.

The dead are Higinio Acuna, 9, and his cousin, Bernardo Acuna, 13.

Jim Wells County Sheriff Halsey Wright said an older boy had handed the smaller boys a .32 caliber automatic pistol when it fired, the bullet passing through Higinio and lodging in the body of Bernardo Acuna.

1,000 Die In Quake

TEHRAN, Iran (AP) — A devastating earthquake crumbled mud brick villages in southern Iran early today and the national radio-television network reported more than 1,000 persons perished. Unofficial reports from the area 500 miles south of Tehran estimated from 2,000 to 4,000 died.

Gov. Manuchehr Pirooz of Fars Province said after flying over the region that about one-fifth of the houses had collapsed.

ONE OF BIGGEST

The quake, starting at 5:38 a.m. — 9:08 p.m. EST Sunday — "is one of the biggest ever to hit Iran," registering 7 on the Richter scale, a spokesman for the Geophysics Institute at Tehran University said.

A 1968 earthquake with the same reading killed more than 10,000 persons in eastern Iran. But the latest tremor hit an area highly populated, Pirooz said.

Dust columns rose from the villages of Qeer and Kazerun, near the quake center. The surrounding mountains apparently were still sliding, officials reported after viewing the scene from the air.

Reports reaching Tehran indicated most of the victims were women and children caught in their primitive mud brick houses. Many of the men apparently were en route to the fields when the quake struck.

Prime Minister Amir Abass Hoveida set up relief headquarters in his office and was reporting hourly to the Shah, a government spokesman said. Prince Mahmoud Reza, who was traveling in southern Iran, was named to supervise operations at the scene.

RUSHED BY COPTER

Medical supplies were rushed by helicopter to the stricken villages. Army engineers from Shiraz were ordered to look after the water supply and open road and radio links between the villages and rescue operation centers at Shiraz, Jahrum and Fitoozabad.

The quake area is 120 miles from Persepolis, where world figures gathered last October to celebrate the 2,500th anniversary of the Persian monarchy.

The region is mainly agricultural. After four years of drought, they recently suffered a record snowfall that buried farmers and their cattle in drifts up to 20 feet.

Slayer Tries To Break Out

CORPUS CHRISTI, Tex. (AP) — Sheriff Johnny Mitchell said Monday that a youthful convicted slayer made an unsuccessful attempt to break out of his jail cell Sunday night.

The sheriff said Richard Ridyolph, 17, succeeded in removing several bricks from a wall in his cell.

The sheriff said that even if Ridyolph had succeeded in making a hole in the wall, it would have led only to another cell. The area from which the bricks were removed was being covered Monday by a steel plate.

Ridyolph was given a 50-year prison term last week after being convicted of the sniper slaying of policeman John Sartain last August.

Find \$499,970, Parachute, Gun

SALT LAKE CITY, Utah (AP) — The FBI informed a U.S. magistrate today that it had found \$499,970, a parachute and a pistol on the "premises" of a man charged with a \$500,000 extortion-parachute hijack of a jet liner Friday night.

GUN ON

The Utah man is one of two persons under arrest in separate hijack-extortion-parachute

schemes occurring in the western United States two days apart.

The money, parachute and gun were on a list which the FBI turned over to Magistrate A. M. Ferro in Salt Lake City as evidence from search warrants. It was described as taken from "the premises of Richard Floyd McCoy Jr."

U.S. Atty. C. Nelson Day said the money and other items would be held in Salt Lake for evidence in McCoy's trial. A preliminary hearing has been set for April 19.

CRASH HELMET

The FBI report said that items found in addition to the money, the parachute and pistol included a green military-type flight suit, two aerial flare cartridges, a parachute harness, a military bag, a black crash helmet and a green military jump helmet.

FBI agents spent most of Sunday searching in and around McCoy's Provo house, and were seen taking out a large cardboard box and two black suitcases. But the FBI had declined comment on

whether the money was recovered.

McCoy, 29, a Vietnam veteran and amateur skydiver, was arrested at the house without incident early Sunday. He was charged with air piracy in the hijack of a United Air Lines jet Friday over Colorado.

In the second hijack attempt, a man identified as Stanley Harlan Speck, 31, of San Francisco, was captured less than an hour after a Pacific Southwest Airlines Boeing 727 was ordered by a would-be hijacker to set down at Lindbergh Field in San Diego, Calif. The hijacker made ransom and parachute demands similar to those used two days earlier in the case in which McCoy was charged.

Commissioners Mull Raises For Deputies

By LINDA CROSS

All raises or salary "adjustments" granted by the county commissioners court are to be shelved until commissioners have had time to confer with all elected officials in connection with salaries paid to all county employees.

Commissioners called for a meeting at 2 p.m. today with all elected officials in reference to salary matters. One of the officials to meet with the county was to be District Clerk M. Fern Cox, who is seeking a salary raise for his employees equal to that of the one given last week to two female deputies in the county sheriff's department.

The raises granted last Monday are no longer in effect as a result of the commissioners' action this morning until further action is taken following a series of salary conferences with each elected county official.

Howard County Commissioners were involved in salary discussions on whether or not to grant raises to clerks in the 118th District Clerk's office, equal to those granted last Monday to two deputies in the sheriff's office, or to do away with all raise requests until budget time in July.

"You have either got to put the district clerk's office salaries like the sheriff's, or put the two deputies in the sheriff's office back to the level the clerks are receiving now until budget-setting time," said County Judge A. G. Mitchell.

Last Monday the commissioners court approved raises for Deputy Sheriffs Bernice Nail and Rachel Shaffer to the positions and salaries of first and second office deputies, respectively. Salaries designated for those positions on March 6, 1972, are \$4,992, annually for first deputy, and \$4,404 annually for second deputy.

COX SUGGESTION

District Clerk M. Fern Cox submitted a request that the salaries of the two clerks in his office be raised to the level granted the deputy sheriff because commissioners court signed an order March 6, designating Mrs. Glenda Brasel as first deputy and Mrs. Jeanette Nichols as second deputy.

Both women currently draw an annual salary of \$4,104. In other action, commissioners canvassed and approved the voting results of the April 1 Howard County School Trustee elections.

Water Rates Going Up

COAHOMA — For the first time since the water district serving Coahoma and Sand Springs was created 17 years ago, rates to customers will be raised this month.

The April billing will reflect an increase in the minimum charge from \$5 for the initial 4,000 gallons to \$5.40 for the same base quantity. The rate for all water over 4,000 gallons also is being raised from 75 to a new level of 85 cents per thousand gallons.

Mayor Jack Cauble said that the increase, which customers will feel on their April 15 statements, was necessitated by higher charges by the City of Big Spring, from which Howard County Water Control and Improvement District No. 1 gets its treated water, and by steadily increasing maintenance costs.

The district services 417 customers in Coahoma and 480 in Sand Springs.

The district was created in 1955 because Coahoma's source of supply (from wells) was both inadequate and of poor quality. The initial billing Dec. 1956 involved delivery of 1,838,300 gallons to customers. At that time, the district paid the City of Big Spring 25 cents per thousand gallons. The latest billing showed the district's monthly billings were on 5,813,000 gallons, for which it paid the City of Big Spring 41.58 cents per thousand gallons.

A parallel line was laid in 1962, because of the growth in the Sand Springs-Coahoma area, but this was financed by a bond issue, for which the district levied 80 cents per \$100 assessed valuation, the same rate in force today. The district contains about 12 sections of land.

Dispute Might Black Out Tube Coverage Of Oscars

HOLLYWOOD (AP) — The ballots are counted and it's Academy Award night, but a labor dispute could black out television coverage of tonight's 44th annual Oscar presentations in the United States and 38 other countries.

Five hundred members of a stagehands union, Stage Employees Alliance Local 33, voted Sunday to strike the television networks, including NBC, which is showing the Academy Awards. But the union members were waiting final authorization today from their national headquarters.

CAN'T SAY

An NBC spokesman said the telecast would go on without the stagehands. But if related behind the scenes unions also walked out as the stagehands predicted, "we can't say what the impact would be," the spokesman said. NBC estimates the audience for the 10 p.m. EST show at 75 million in the United States alone.

A record 39 countries were scheduled for the telecast, five more than last year. Live broadcasting was planned for

eight countries, delayed showing in the rest because of time differences.

In any case, the two-hour Academy of Motion Picture Arts and Sciences show will go on before a live audience of 2,900 at the Los Angeles Music Center Pavilion.

'FIDDLER ON THE ROOF'

Charlie Chaplin, 83 next Sunday, will get an honorary Academy award. George C. Scott and Glenda Jackson, winners last year, are up for repeats. And the best-picture race is a bewildering mix with no sure-fire favorites.

Winners of the Oscars are chosen by secret ballots of the academy's 3,968 voting members. Nominees for the best picture of 1971 are:

"A Clockwork Orange," X-rated, hectic and advertised as "about a man who loves violence, rape and Beethoven." It won the New York Film Critics' awards for best picture and direction, by Stanley Kubrick.

"Fiddler on the Roof," a rollicking musical with tragic overtones at the time of the

Russian Revolution.

"The French Connection," a slam-bang contemporary melodrama about two New York detectives on the trail of smuggled narcotics.

HOMO DOCTOR

"The Last Picture Show," a nostalgic, black and white film about a small Texas town and teenagers discovering sex.

"Nicholas and Alexandra," which depicts the life and turbulent times of Russia's last czar.

Peter Finch, who plays a homosexual doctor in "Sunday Bloody Sunday," is among the best-actor nominees. Others are Gene Hackman, a relentless detective in "French Connection"; Walter Matthau, unwanted widower of "Kotch"; George C. Scott as the harassed medical chief of "The Hospital"; and Topol as the milkman philosopher of "Fiddler on the Roof."

Scott refused his Oscar last year for "Patton," and an academy spokesman says, "We assume that he's not coming."

Scott has denounced the Oscar presentations as "a two-hour meat parade" and the vot-

ing as encouragement to undesirable competition among actors. Many of them, as well as studios, do indeed advertise heavily in movie trade papers at Oscar nomination and voting time.

'WOMEN IN LOVE'

Glenda Jackson, who won last year for "Women in Love," is again a best-actress nominee as the love competitor in "Sunday Bloody Sunday."

Favored in the category is Jane Fonda as the call-girl in "Klute." Her competitors are all British—Mrs. Jackson; Julie Christie as an Old West madam in "McCabe & Mrs. Miller"; Vanessa Redgrave in "Mary, Queen of Scots," and Janet Suzman in "Nicholas and Alexandra."

Director nominees are Kubrick, for "A Clockwork Orange"; Peter Bogdanovich, "The Last Picture Show"; Norman Jewison, "Fiddler on the Roof"; William Friedkin, "The French Connection" and John Schlesinger, "Sunday Bloody Sunday."

This viewer's predictions: "The Last Picture Show," Hackman, Fonda, Bogdanovich.

MISHAPS

Edwards and Pennsylvania: James Mitchell Anstett, CMR Box 3647, Webb AFB, and Debra Sue Haller, 516 Edwards; 1:42 p.m. Saturday.

500 block of E. Seventeenth: Charles F. Arnold 510 E. 17th, and parked vehicle owned by George Heckler, 100 E. 18th; 6:30 p.m. Saturday.

7-Eleven Store, East Fourth, parking lot: James Russell Brown, Vincent Rt., Coahoma, and other vehicle left scene; 1:55 a.m. Sunday.

500 block of West Third: Gary Davis Blount, 1507 E. 5th, and Emma Marquez Hernandez, 311 NE 11th; 2:03 p.m. Sunday.

Premier Station, Wasson Road, parking lot: Gandy Elmer Kilgore, Box 445, and Connie Castillo Gomez, 3215 Auburn; 5:20 p.m. Sunday.

Eighteenth and Goliad: Leroy Forrest Stillwell, 1107 State, and Larry Michael Stanley, 613 Tulane; 7:14 p.m. Sunday.

Relics Of 'Shelter Age' Are Gathering Bugs And Dust

By LINDA CROSS

Dust and insects are the only things sheltering now in the "bomb" shelter at 1301 Sycamore.

Built during the shelter phase of the late 50's and early 60's, the shelter has fallen into disrepair and is no longer used.

"It's a real conversation piece for all our friends," said Mrs. Jean Hawkins, "We've only lived here about six months, and we don't know too much about the shelter."

A look into the shelter revealed that it was not proof against that ever-seeping West Texas dust, much less atomic radiation.

Mrs. Hawkins said that a lot of her and her husband's friends are amused by the green shelter with the grim grey doors and jokingly ask for accommodations in the circular structure in case of emergency.

Her husband, L. Samuel M. Hawkins, is a student pilot in the T-38 training phase at Webb AFB.

STORM SHELTER

Ted Brown, who resides at 1303 Sycamore, can recall when the shelter was built.

"It was built really as a storm shelter. It wasn't meant as a bomb shelter at all. The man who originally owned the house built it back in the 50's," said Brown.

"I've never been in it, but some of the women in the neighborhood went down into it once when there was a storm," added Brown.

"You mean the storms in Big Spring get that bad?" queried Mrs. Hawkins.

Mrs. Hawkins, a native of Florida, added that she had been through hurricanes, and that she thought she could take a West Texas windstorm.

"You haven't seen anything until you've seen some of the storms we've had here. Don't worry, I'll wake you up in time to get into the shelter if a storm ever hits," said Brown with all the nonchalance of a long-time West Texas resident.

CIRCULAR AFFAIR

The shelter acquired by the Hawkins' is a concrete structure with metal doors and is built in their front yard. It's circular, and was mostly of the shelters, and only partially submerged in the ground with steep steps leading into a circular room furnished with a semi-circular wooden bench.

The bench is constructed along the walls and occasionally a section of it is broken away to show a toothy expanse of nails.

COAHOMA PETS DUE FOR INOCULATIONS

COAHOMA — The annual service of inoculations against rabies for pets, sponsored by the City of Coahoma, will be provided Tuesday, April 18.

Dr. Joe Neff, veterinarian, will be at the City Fire Station from 9 a.m. to 12 noon and from 3 p.m. to 6 p.m. to give dogs and cats the anti-rabies shots. Charge is \$3 per pet, said city officials.

only "bomb" shelter built specifically as such is the one at the Eighteenth and Main Fire Station. The shelter was built at the approximate time as the Sycamore Street shelter and was for demonstration purposes.

"The boys keep the shelter in good shape, and it's always ready in case of emergency," said Fire Chief A. D. Meador. It has been used during tornado alerts.

According to Chief Meador, the shelter isn't used much any more.

"People aren't afraid of bombs any more, and it seems they aren't as much afraid of tornadoes as they once were," said Chief Meador.

"People always think it won't hit here," said Chief Meador as part of the reason why more persons don't use the shelter because of the frequent tornado watches in the area during the tornado season from April to June.

Several buildings in town, such as the City Hall, Big Spring High School and Howard County Junior College, are designated as Civil Defense emergency shelters, but the

shelter that's been turned into a giant ivy planter as a sign of the times.

Somehow, there may be a shelter that's been turned into a giant ivy planter as a sign of the times.

Fiesta Week Attractions In Alamo City

SAN ANTONIO (AP) — A festive air is already in the wind here as organizers prepare for 10 days of merriment called Fiesta Week.

Two major attractions have been added to the tradition-filled festival—bullfights and a statewide beauty pageant.

A show dubbed "Fiesta Brava," featuring bloodless bullfights and three Mexican matadors, will kick off Fiesta Week on Friday night.

San Antonio will be in the spotlight throughout Texas in a television broadcast Saturday night as the reigning Miss Texas University, Brenda Box of Amarillo, crowns her successor.

A panel of judges, including quarterback Craig Morton of the Dallas Cowboys will select the new beauty from 40 contestants.

The new Miss Texas Universe will begin the first of her year-long round of public appearances by riding on floats in three Fiesta Week parades.

Thousands of residents and visitors will flock to the San Antonio River Monday night, April 17, for the annual promenade of barges featuring jazz bands, fancy costumes and pretty girls such as the newest Playboy Magazine "Playmate of the Month."

Then comes the 77th Battle of Flowers Parade on downtown streets Friday afternoon, April 21, in memory of the men who died fighting for Texas freedom at the Alamo and San Jacinto.

The streets will light up with flares and tiny lights Saturday night, April 22, as floats and bands weave through the city in the Fiesta Flambeau.

Fiesta Week, a tribute to the Battle of San Jacinto, offers a wide variety of entertainment, ranging from art shows to carnivals to a performance of "Jesus Christ Superstar." The San Antonio Brewers have chosen Friday night, April 14, to open their 1972 Texas Baseball League campaign amidst the Fiesta festivities.

One of the most popular attractions is "A Night in Old San Antonio," featuring food and entertainment in La Villita, a re-created Mexican village. More than 120,000 visitors are expected for its four-night run, April 18-21.

Gonzalez Books Money Hearings

SAN ANTONIO (AP) — Rep. Henry Gonzalez, D-Tex., says he plans to hold hearings on the dollar crisis and international monetary reform before his subcommittee on international finance.

The San Antonio Congressman discussed the plans in a letter to Rep. Wright Patman, D-Tex., chairman of the House banking and currency committee.

He said the subcommittee will hold the hearings April 25-27, with witnesses to include Treasury Secretary John Connally, Federal Reserve Board Chairman Arthur Burns and several academic experts.

(AP WIREPHOTO)

HIJACK CAPTURE — Man identified as Stanley Harlan Speck, 31, center, of San Francisco is taken off a Pacific Southwest Airlines passenger jet after he reportedly hijacked the aircraft. Men taking Speck into custody at San Diego are FBI agents and Steve Gardella, at right of Speck, who is an airline security official. The plane was on a flight from Oakland, Calif., to San Diego when it was commandeered.

Charge Of Air Piracy Socks California Man

SAN DIEGO, Calif. (AP) — A California man tried unsuccessfully to pull off a jetliner hijacking Sunday, making ransom and parachute demands similar to those used two days earlier by a man who commandeered a passenger jet.

Arrests were made in both cases.

Arrested here Sunday was a man identified as Stanley Harlan Speck, 31, of San Francisco, who was captured shortly after a Pacific Southwest Airlines Boeing 727 was ordered by a would-be hijacker to set down at Lindbergh Field here.

BAILED OUT

Speck, nabbed by federal agents as he stepped off the plane, was booked for investigation of air piracy and interfering with a flight crew. He was found to be unarmed, authorities said.

Earlier Sunday, a man arrested in Provo, Utah, was charged with air piracy in the hijacking of a United Air Lines jet Friday over Colorado. In that hijacking, the sky pirate bailed out over Utah with \$500,000 in ransom money.

Charged in the Friday hijacking was Richard Floyd McCoy, 29, an amateur skydiver.

The \$500,000 ransom was still officially listed as missing.

Sunday's attempted hijacking was the eighth involving parachutes in just under five months. The only parachute skyjacking in which there have been no arrests was one involving a man known as D.B. Cooper, still sought after bailing out over Eastern Washington with \$200,000 he got from Northwest Airlines.

NEEDED MAPS

The Sunday night hijack attempt of the Pacific Southwest plane by a man who wanted to fly to Miami began during a 500-mile flight from Oakland to San Diego. The plane had 92 persons aboard. The hijacker

threatened to blow up the jet with a hand grenade, officials reported.

The FBI said that pilot Arthur Steck told the hijacker that he needed flight maps to go to Florida.

After landing Steck said he or the hijacker would have to leave the plane to get the charts. The 86 passengers, meanwhile, were allowed to deplane.

The hijacker stepped halfway down the ramp to get the maps and was seized by two FBI agents dressed as mechanics.

The aircraft was the same model as the United craft seized Friday night by a pistol-wielding man and diverted to San Francisco. There the passengers were released in exchange for \$500,000 and two parachutes. Then he took off and bailed out over Utah.

YOU DON'T SAY

The Boeing 727 is one of the few large passenger jets that can be safely bailed out of because of its rear exit.

In Salt Lake City, FBI agents were holding two suitcases and a large cardboard box in connection with the arrest of McCoy and Friday's hijacking. The contents were not disclosed.

Asked if the \$500,000 extorted from United had been recovered, the airline and FBI declined comment.

McCoy, a law enforcement student at Brigham Young University and a skydiving enthusiast who said he was a Green Beret and helicopter pilot while in Vietnam, remained today in the Salt Lake County jail without bond. He was formally charged with air piracy and interfering with flight crewmen.

HEARD TALK

McCoy is accused of commandeering the United flight from Newark, N.J., to Los Angeles shortly after it made a scheduled stop in Denver, Colo.

The complaint against McCoy said the FBI was led to him by a highway patrolman, Robert Van Ieperen.

Ieperen knew McCoy, according to the complaint, and heard him talk about the possibility of hijacking an airplane.

When he was again arrested and charged April 3, District Attorney Frank Ginzel urged an increase in the bond.

The bond was raised to \$7,500 by Peace Justice Henderson, and Shannon stayed safely tucked away in jail.

New Beer Tax?

ANNAPOLIS, Md. (AP) — Delegate Isaiah Dixon has introduced a bill to raise the state's beer tax from 3 cents to 11 cents a gallon.

"The cliché, 'beer is a poor man's champagne,'" went out with the nickel beer," Dixon told the legislature.

"It's been a long time since you could buy a bottle of beer for a nickel, but we have not raised the beer tax since those days."

Maryland's 3-cent beer tax, one of the lowest in the nation, has been in existence 33 years.

Blackleg Cattle Deaths In Gain

Blackleg cattle deaths are a little above average this year, according to Howard County veterinarians, but there is no cause for alarm.

"The summer rains last year helped the rangeland and we have a lot more fat cattle," said one spokesman.

"The disease seems to hit fat cattle more than the scrawny ones, so deaths have been up. But we are far from having an epidemic."

One report attributes Blackleg as the cause of death of as many as 200 cattle in Dawson County, but the report is unofficial.

Vaccination is recommended for any rancher worried about his cattle, but "we are more concerned with getting the annual vaccinations of horses for Eastern and Western sleeping sickness started," said one veterinarian.

Persistency Is Costly To Man

COLORADO CITY — Three strikes and you're out—at least in the case of a Colorado City man.

Shelby Chester Shannon languishes in the Mitchell County jail after he was charged with driving while intoxicated for the third time in four weeks.

Shannon was first charged May 6, and as the complaint alleges he was convicted of DWI March 3, 1953. The complaint was filed as a felony.

He was released on \$1,000 bond, but was back in court March 27 on the same charge. He was released on a \$1,000 bond.

VANDALISM

Ollie McDaniel, 103 Lincoln, reported vandalism to his car Sunday. Officers reported someone had written obscene words in paint all over the car. No damage value was listed.

Ask For Jim, Jesse Or Jeff

Win 22 days in Europe and a VW to bring home. Free.*

You could be the winner in this area.

We're having a contest.

If you win we'll give you Holland, Switzerland, Germany, Belgium, Austria, Luxembourg, And France.

We'll give you twenty-two days, with deluxe and first class accommodations, and breakfasts and dinners on us.

We'll give you a Volkswagen Super Beetle for sightseeing. And afterward we'll bring it home as your souvenir.

We'll give you all this, free, if you do two things:

One, come in and test drive a new '72 Volkswagen. You'll discover it's ahead of its time.

And two, come up with the winning entry in the contest to name our new computer plug.

That's the plug that will connect every new Volkswagen to your VW Computer Self-Analysis System. It's the service system of the future.

Every '72 Volkswagen is already equipped for it, and the first computers will begin operation soon. Come in and let us tell you about it. And about the contest.

After all, it's probably the first time you've been able to enter a contest with a bug in it. Don't wait any longer.

JAMES D. NICHOLS

Sgt. James D. Nichols, wife, Pauline, is the husband of Mrs. Jannie L. Lamesa, is participating in a joint service exercise being conducted through April 1.

Sgt. Noblin is a Force aircraft technician with Tactical Air Force Station, Dyess AFB, Texas.

Sgt. Noblin, who in Vietnam, is a 1st Lt. of Cotton (Ala.) High School, is a graduate of the University of Texas at Austin.

KILLEEN, Texas. Mrs. C. L. Nichols, 5, Columbia, Mo., in a joint service exercise conducted through April 1.

Lt. Nichols is Force C-130 Hercules of the 516th Tactical Transport Squadron, Dyess AFB, Texas.

Lt. Nichols, a 1st Lt. of Hickman High School, received his B.S. degree from the University of Texas at Austin. He was commissioned as a second lieutenant in the Air Force at Lackland Air Force Base. His wife, Mrs. M. Nichols, is a daughter of Mr. J. B. Nichols.

James F. Byrnes school at the age of support his widowed mother. Later he became a U.S. Supreme Court justice.

Byrnes, who was born in a coma for days, died Sunday here. He was 92.

His body will lie in state at the Trinity church.

RAN FOR GOV

Even to the end of his life, Byrnes remained an opponent of school desegregation. He said the U.S. Supreme Court "did not interpret the Constitution properly."

It was Byrnes' support for the U.S. tax to finance equal schools for whites.

He won the election of the House of Representatives in 1926. Born in the port town of Byrnes, Byrnes was a law office newspaper vendor who rose until he became president.

TRUMAN P

President Frank Roosevelt referred to Byrnes as "the man who ran for Governor of Missouri." It was the head of the Office of Management and Organization during World War II.

Byrnes was on a possible run for the U.S. House of Representatives in 1964. But in that a Southern candidate would have a chance for re-election.

Sen. Harry S. Truman, who won Missouri for the ticket.

The death of Byrnes is an order from President Johnson that flags be flown at half-staff for 30 days.

Gov. John West of Missouri said he will have an official day of mourning for Byrnes.

Jimmy Byrnes' mother died in 1904. He and his mother both began school and began their lives.

COURT RE

He later became a court reporter in 1900, studying at the same time. By 1924, he was a bar.

Sergeant Dennis W. Roten, son of Lewis Roten of Stanton, has been recognized for helping

DONALD R. MOORE

his Strategic Air Command division earn the U.S. Air Force Outstanding Unit Award.

Sergeant Roten is a fuels specialist with the 1st Strategic Aerospace Division at Vandenberg AFB, Calif., which received the award for exceptionally meritorious service from January 1, 1970 to June 30, 1971.

The sergeant, who attended Permian High School, Odessa, has completed a tour of duty in Vietnam.

His wife, Karen, is the daughter of Mrs. Wanda Lee of Lompoc, Calif.

Airman Michael D. Wiggins, son of Mr. and Mrs. James C. Wiggins of 3613 Connally, Big Spring, has graduated at Sheppard AFB, Tex., from the U.S. Air Force medical laboratory specialist course.

The airman, who learned to prepare and analyze biological specimens, is being assigned to Lackland AFB, Tex., for duty.

Airman Wiggins, a 1969 graduate of Big Spring High School, received an A.A. degree in 1971 from Howard County Junior College. His wife is the former Mary T. Reid.

Way Of Life

LUSAKA, Zambia (AP) — Zambia will continue to declare seven-day periods of national mourning despite a complaint by athletes that a week-long break interferes with training. Sportsmen protested the latest mourning period which marked the deaths of 35 Zambians when an explosives train blew up. A government spokesman said such mourning periods must take place "in accordance with the African way of life."

Zanzibar's Revolutionary Council Appears In Control

DAR ES SALAAM, Tanzania (AP) — Tanzanian officials report Zanzibar's revolutionary council has received a pledge of army support and appears in firm control of the island following the assassination of its leader, Sheik Abeid Karume. Karume, 66, was gunned down Friday night by assassins who burst into his political party headquarters. About Jumbe, his 52-year-old protege and minister of state, has been speaking for the revolutionary council since the killing and is believed to have taken charge. The 35-member council broadcast a pledge to continue the authoritarian leftist regime which Karume set up on the

spice island about 20 miles off eastern Africa. Though Zanzibar is a part of Tanzania, its local government retains broad autonomy and differs sharply from the mildy Socialist regime of President Julius Nyerere on the mainland. Authorities reported two members of the assassination squad were killed in a gun battle with security forces Sunday at Bumbwini, 15 miles from the city of Zanzibar. Informed sources in Dar es Salaam said security police on the island captured a fifth man also believed to have assisted in Karume's killing.

Officials in Nyerere's government believe the assassination was directed at Karume himself and was not an attempt to overthrow the government or steer Zanzibar away from Karume's Chinese-backed socialism.

'Assistant President' James F. Byrnes Dies

COLUMBIA, S.C. (AP) — James F. Byrnes, who quit school at the age of 14 to help support his widowed mother and later became a congressman, a U.S. Supreme Court justice, U.S. secretary of state, and governor of South Carolina, has died after a long illness.

Byrnes, who reportedly had been in a coma for the past few days, died Sunday at his home here. He was 92.

His body will lie in state in the rotunda of the Statehouse Tuesday and Wednesday. The funeral will be held Wednesday at the Trinity Episcopal church.

RAN FOR GOVERNOR

Even to the end Byrnes remained an opponent of court-ordered school desegregation, saying the U.S. Supreme Court "did not interpret the Constitution. The court amended it."

It was Byrnes who at 71 ran for governor of South Carolina to push through a state sales tax to finance separate but equal schools for blacks and whites.

He won the election and instituted his tax and his school plan.

Born in the port city of Charleston, Byrnes was a one-time law office messenger boy, newspaper vendor, and odd-job worker who rose step-by-step until he became "assistant president."

TRUMAN PICKED

President Franklin D. Roosevelt referred to Byrnes by that title because of the South Carolinian's far-ranging power as head of the Office of War Mobilization during World War II.

Byrnes was once considered as a possible running mate for Roosevelt. But in 1944, fearful that a Southern vice presidential candidate would hurt his chances for re-election, Roosevelt made a last-minute choice of Sen. Harry S. Truman of Missouri for the Democratic ticket.

The death of Byrnes brought an order from President Nixon that flags be flown at half-staff.

Gov. John West said the day of the Byrnes funeral would be an official day of mourning through South Carolina.

Jimmy Byrnes was only 10 months old when his father died. He said he watched his mother toil as a dressmaker day and night, until he left school and began work to ease her burden.

COURT REPORTER

He later became official court reporter in Aiken County in 1900, studying law at the same time. By 1903, at the age of 24, he was admitted to the bar.

For the next four years,

JAMES F. BYRNES

Byrnes edited and published the Aiken Journal and Review. When he was 29, he became solicitor for the judicial circuit—his first elective office.

Byrnes was first elected to Congress in 1910 and served in the House for 14 years. After his defeat in a 1924 Senate race he moved to Spartanburg to practice law. But in 1930 he

was elected to the first of two Senate terms.

Roosevelt appointed Byrnes to the U.S. Supreme Court in June 1941. One year later he was asked to take over the economic stabilization directorship.

SUPPORTED IKE

Just before the German surrender, Byrnes retired but was called back to government service in the summer of 1945 as secretary of state.

He resigned in 1947. Byrnes' views on school integration caused him to break with the Democratic party and in 1952 he supported Republican Dwight D. Eisenhower.

Eisenhower named Byrnes a delegate to the U.N. General Assembly during his term as governor, 1951-1953.

Byrnes dropped Eisenhower in 1956 to back the late Sen. Harry F. Byrd, D-Va., for president. He took this stand, he said, because Eisenhower's views on integration had not been explained fully in 1952.

Byrnes lived in a fashionable, but unpretentious home in Columbia with his wife of 63 years, the former Maude Perkins Busch of Aiken. They had no children.

Johnson Has Few 'Danger Signals'

CHARLOTTESVILLE, Va. (AP) — Former President Lyndon B. Johnson "has few serious danger signals" lingering from last weekend's heart attack and is showing "definite signs of improvement," his doctor says.

Dr. John Willis Hurst, the heart specialist flown here to treat the former president after his attack early Friday morning, said Sunday he felt confident enough in Johnson's condition to leave his bedside and return to his home in Atlanta.

Dr. Hurst treated Johnson in 1955 when, as a senator from Texas, he was stricken by a nearly fatal heart attack. Dr. Hurst diagnosed the latest illness as a myocardial infarction, a closing of the blood vessels into the heart.

Johnson is in "very, very good hands," Dr. Hurst said, noting that "now is a safe time to go or I wouldn't go." He said Johnson wants to return to Texas and will be moved as soon as possible. He would not give any estimate when that might be.

During the weekend, Dr. Hurst said, the chest pains that had brought the former president to the University of Virginia Hospital subsided. He had been visiting the home here of his son-in-law and daughter, Mr. and Mrs. Charles Robb, when he was stricken.

Dr. Hurst refused to speculate on how much heart damage Johnson may have suffered, but said some would be permanent.

Johnson's condition, he said, has become "satisfactory with some signs of improvement."

The former president was "in a very good mood" Sunday, Dr. Hurst said, noting that Johnson now is receiving "standard treatment, nothing unusual," and is no longer being given intravenous medicine.

Horace Busby, a presidential aide during Johnson's administration, also described him as being in good spirits. Asked for an example, he smiled and said: "You all know Johnson humor doesn't travel very well."

Waste, Corruption Mark Law Enforcement Programs

WASHINGTON (AP) — A House subcommittee has described the government's top federal-state crime-fighting program as riddled with "inefficiency, waste, maladministration, and, in some cases, corruption."

And, the program—which has cost nearly \$1.5 billion to states

to upgrade law enforcement—has had no visible impact on the incidence of crime in the United States, the subcommittee concluded.

A copy of the report by the legal and monetary affairs subcommittee on the block-grant program of the Law Enforcement Assistance Administration

was obtained Sunday by The Associated Press. It will not be made public officially until approved by the parent House Government Operations Committee.

'60 MINUTES'

The study also was the subject of a "60 Minutes" report on CBS-TV Sunday night.

Set up under the Safe Streets Act of 1968, LEAA received

\$698.9 million from Congress for the current fiscal year, most of which was passed on to the states in block grants.

State law-enforcement planning agencies are supposed to distribute most of that money to communities for projects designed to upgrade operations of police, courts and corrections systems.

The subcommittee said "no federal grant-in-aid program has ever received a more rapid increase in appropriated funds than LEAA" yet "there also has been a startling under-utilization of funds . . .

"Considerably less than 25 percent of the action-grant funds disbursed to subgrantees

has been used to fight crime," the report said. "Large amounts of action funds disbursed to local governments lie idle in local banks or in side-investments. LEAA cannot supply information on the amounts which local governments have actually spent to fight crime."

The subcommittee said the effectiveness of LEAA's block grants had been diminished by the following factors:

- "Diversion of funds for political purposes;
- "Waste of funds on ex-orbitant consultant fees;
- "Expenditure of excessive amounts for equipment, often without proper bidding procedures;

Wild Car Kills Mother, Hurts Pregnant Daughter

LAKE TENKILLER, Okla. (AP) — A runaway auto with a three-year-old child inside killed a 49-year-old woman here Sunday and injured her 24-year-old daughter, who was seven months pregnant.

The auto was on a 45-degree incline that led into Lake Tenkiller, and the unidentified child released the emergency brake.

Louise L. Corry, 49, of De-

wey, and Karen Douglas, 24 of Tulsa, rushed the auto trying to hold it back.

But Mrs. Corry slipped and a front wheel rolled over her head 11 feet from the shoreline, the Oklahoma Highway Patrol said. She was dead before she arrived at a Tahlequah hospital.

Mrs. Douglas, Mrs. Corry's daughter, kept trying to stop the car by pushing on the front

as it roiled. But the car moved into the water about 10 feet and pinned her against a boat dock.

Her unborn child was not lost and she was reported in satisfactory condition at a Tulsa hospital. She suffered internal injuries and scratches and bruises to her legs.

The child in the car was not hurt, the patrol said.

Gary Douglas, the young woman's husband, was on the dock stowing a boat motor when the incident occurred on private property about two miles south of Pettit Bay on Lake Tenkiller.

Apollo Why

CAPE KENNEDY — Apollo 16's astro definite ideas about should continue to a moon and why their superior to Russia's soil collectors.

John W. Young, Duke Jr. and Thomtucky II were asked views why astronaut to go back to the moon compare the Apollo with that of Russia and Luna 20, each returned to earth with ounces of lunar soil.

EXTRA KNOW

"I just say go to the community around and I'll guarantee one outside of Earth would trade his Apollo moon material brought back by Lunas," Duke declared. "It's not that the not remarkable features and we have pounds of careful and documented," said. "We have knowledge based on observations when the samples."

Young, who will moon with Duke, ad "In addition to mented rocks collect the Apollo crews ha a science station struments in these send back inform years and enable much about the moon. From the moonquakes, we what causes earthq learn more about the properties of the moon."

FOR EXAM

"You can't find like that with an elite that brings grams of lunar Young said. "Ten spacecraft couldn't one of our Apollo crew."

Mattlingly said he ate an elaborate ar areas and scientific while orbiting the moon.

"I'll be able to i vations and judge un m a n n e d s a t make," he noted. 15, for example, spotted and photog appeared to be c and provided a go that volcanoes on the moon."

Apollo 16 is s launching April 1 back?

"You hear a lot comment from the 'Man, it's just ano rocks," Duke replie just another bag of a bag of rocks that vel the secret of creation of our sola

"These rocks hav on the lunar sur turbed in most resp lions of years," he there is a history in that we would neve uncover from ear cause of erosion a namic processes g earth."

MOON RO

"From the stud moon rocks we ca derstand the com ment that we live best to plan for the cause we are lo went on in the said.

Phil Vogler, 21-year-old Lamesa, a awarded a F Grant to study beginning in October.

Vogler, an Eng. TLC, said he p attend the Giessen. His stud be on German World War I. A Klondike High Sch (Lutheran) Vogler date for a bachel Texas Lutheran is the son of Mr. and F. Vogler of St. Lamesa.

Annette Citzler, La Grange High received a Fore study in Switzerland.

Both she and Grant active in cart ions at Texas i have maintained averages. Vogler a 3.91 grade aver point system, wh has a 3.72.

Apollo 16, Why Go-Go?

CAPE KENNEDY, Fla. (AP) — Apollo 16's astronauts have definite ideas about why man should continue to explore the moon and why their method is superior to Russia's unmanned soil collectors.

John W. Young, Charles M. Duke Jr. and Thomas K. Mattingly II were asked in interviews why astronauts continue to go back to the moon and to compare the Apollo exploration with that of Russia's Luna 16 and Luna 20, each of which returned to earth with a few ounces of lunar soil.

EXTRA KNOWLEDGE
"I just say go to the scientific community around the world and I'll guarantee there's not one outside of Russia who would trade his sample of Apollo moon material for the material brought back by the Lunas," Duke declared.

"It's not that the Lunas were not remarkable feats, but they ounces and we have several pounds of carefully selected and documented rocks," he said. "We have lots of extra knowledge based on crew observations when they pick up samples."

Young, who will land on the moon with Duke, added:

"In addition to the documented rocks collected, each of the Apollo crews has emplaced a science station. The instruments in these stations will send back information for years and enable us to learn much about the properties of the moon. From the study of moonquakes, we might learn what causes earthquakes. We'll learn more about the magnetic properties of the moon."

FOR EXAMPLE
"You can't find out things like that with an unmanned satellite that brings back a few grams of lunar material," Young said. "Ten unmanned spacecraft couldn't match what one of our Apollo crews does."

Mattingly said he would operate an elaborate array of cameras and scientific instruments while orbiting the moon alone.

"I'll be able to make observations and judgments that no unmanned satellite could make," he noted. "On Apollo 15, for example, Al Worden spotted and photographed what appeared to be cinder cones and provided a good indication that volcanoes once existed on the moon."

Apollo 16 is scheduled for launching April 16. Why go back?

"You hear a lot of critical comment from the public like, 'Man, it's just another bag of rocks,'" Duke replied. "It is not just another bag of rocks. It is a bag of rocks that helps unravel the secret of the whole creation of our solar system."

"These rocks have been lying on the lunar surface, undisturbed in most respects for billions of years," he said. "And there is a history in those rocks that we would never be able to uncover from earth rocks because of erosion and other dynamic processes going on on earth."

MOON ROCKS
"From the study of these moon rocks we can better understand the complex environment that we live in, and how best to plan for the future because we are learning what went on in the past," Duke said.

"Apollo 16 will be the first landing in the moon's highlands," Young stated. "Here we hope to find definite evidence that the moon once had volcanoes which could in turn tell us a great deal about the origin of the moon and our solar system."

Overseas Study Grant To Vogel

Two students at Texas Lutheran College in Seguin have been awarded grants for a year's overseas study beginning next fall.

Phil Vogler, 21-year-old senior from Lamesa, has been awarded a Fulbright-Hays Grant to study in Germany beginning in October.

Vogler, an English major at TLC, said he probably will attend the University of Giessen. His study project will be on German literature of World War I. A graduate of Klondike High School (Dawson County) Vogler will be a candidate for a bachelor's degree at Texas Lutheran in May. He is the son of Mr. and Mrs. Henry F. Vogler of Star Route 4, Lamesa.

Annette Citzler, graduate of La Grange High School, has received a Foreign Grant to study in Switzerland.

Both she and Vogler have been active in campus organizations at Texas Lutheran, and have maintained high scholastic averages. Vogler has recorded a 3.91 grade average on a four-point system, while Miss Citzler has a 3.72.

"You have to go to geologically different areas on the moon if you are to understand its total history," he added. "What we learn from these rocks and from our study of the moon probably won't mean a great deal to the man on the street for a long time. But it'll certainly mean something to his children. And it may even make the difference between making it and not making it for his grandchildren."

"The study of the moon's geology one day is going to help us better know where mineral and energy resources can be found on earth," Mattingly said. "It's a long-term proposition, but the more man knows about what's going on in the universe, the more we're going to be able to handle problems like an energy crisis on earth."

"I think the first four landing missions have really posed more questions about the moon than they've answered," he continued. "Each time we raise a new question, we seek an answer. Once you get all the little answers, you can finally arrive at the complete answer."

PIGEON-PURSUER — Playing the endless game of futile stalking, a cat near New York's Times Square watches in close pursuit but is too late to pounce as its pigeon quarry takes to the air. Bystanders say the frustrated feline is always several wingbeats too late in catching the birds.

Gangland Killings Continue To Mount

NEW YORK (AP) — A Brooklyn restaurant owner, who police said had underworld ties, was shot and killed early today. It was the fifth gangland-style slaying in the city in two weeks.

Police said Gennaro Ciprio, 31, had left his restaurant about 2:45 a.m. and was walking to his car when he was shot several times. Detectives found \$1,300 in his wallet and a .38 caliber pistol which had not been fired.

Today's death followed the Friday slaying of Brooklyn mobster Joey, "Crazy Joe" Gallo who was shot three times while he was celebrating his 43rd birthday at a restaurant in Manhattan's Little Italy.

Queens Dist. Atty. Thomas J. Mackell called then for a meeting of the city's five district attorneys "because of the recent upsurge of gangland killings."

Police sources said Ciprio's slaying apparently was in retaliation for Gallo's death.

Ciprio was reputed to have close ties with the Colombo underworld faction, rivals to the Gallo mob, police said.

Ciprio's police record showed Chicago grand jury indicted eight arrests on charges ranging from malicious mischief to dealing in stolen securities.

Mackell cited the March 30 He was arrested here last murder of Conrad Greaves, a September and charged with Queens nightclub owner he de-conspiracy in the sale and in-scribed as an "indispensable interstate transportation of stolen witness" in a grand jury probe securities. Last November a of organized crime.

can either be repaired or replaced.

A 1968 Ford truck with a 1,900-gallon capacity is to be furnished the department. The unit had been used as a spare by county volunteer departments.

Kenneth Howell, union representative, reminded the commission this morning of the need for cooperation between the city and the county in handling fires. Howell used the recent death of Mrs. E. E. Blankinship to illustrate the need for a coordinated effort.

Howell contended that, if the city had been authorized to go into the county to fight house fires, such a fatality might have been avoided.

According to Judge Mitchell, city manager Harry Nagel has assured him that the city will help the county at any time, so long as they do not need to take city fire units off paved roadways in handling rural structure fires.

Mitchell said the city's hesitation in going to the Blankinship fire was probably due to a break-down in communications between the city manager and the fire chief, and the members of the fire department.

(AP WIREPHOTO)

A HAIRY MATTER — Sen. William Proxmire, D-Wis., smooths the back of his head today just before holding a news conference in Washington. His recent hair transplant above his forehead is evident.

BOMBERS

(Continued from Page 1)

over the North, the high-altitude B52s which fly above the weather and bomb by radar were sent to hit rear bases at Vinh and supply routes leading south along Highway 1 to the DMZ.

When the B52s last flew over North Vietnam in 1966-67, their deepest penetration was the Mu Gia Pass region, on the western border about 70 miles above the DMZ.

Radio Hanoi reported that a "huge wave" of U.S. planes began attacking Vinh about 3 a.m. and claimed North Vietnamese gunners shot down two U.S. jet-fighter-bombers.

The U.S. Command announced only one plane loss, an F4 Phantom which it said was shot down while escorting other bombers attacking the Ho Chi Minh trail through Laos. The command said the two crewmen were rescued with minor injuries.

The United States also unleashed more naval power against North Vietnamese positions, but the results were not spectacular. Nine cruisers and destroyers bombarded troops and artillery in the southern half of the DMZ and below it, and enemy shore batteries hit two of the destroyers, the John R. Craig and the Roman. A Navy spokesman said there were no casualties, but the Craig sustained hull and equipment damage while the Roman took light shrapnel hits.

Happy Marriage

ST. MARTIN'S, Md. (AP) — Mr. and Mrs. Pierce A. Beam recently celebrated their 76th wedding anniversary.

Beam, 100, was asked how he and his wife, Della, 92, get along.

"We do not fuss much anymore," Beam replied. "We can't hear each other."

Phantoms On Alert For Flight To Asia

WASHINGTON (AP) — The United States appears to be preparing substantial new builds of its air and sea power in Southeast Asia in response to the continuing North Vietnamese offensive in South Vietnam.

Sources Sunday said two more aircraft carriers, the Midway and Saratoga, are hurriedly preparing for departure to the Far East, and three or four squadrons of F4 Phantom fighter-bombers are on alert for possible flight to Southeast Asia.

Another Location Made In Martin

The Phoenix (Grayburg) field seven miles north of Lenorah gained another location today in Martin County.

The Phoenix (Grayburg) field seven miles north of Lenorah gained another location today in Martin County. There also were five completions in the Spraberry Trend area of Martin County.

LOCATIONS

MARTIN
 Phoenix (Grayburg) 4,000 — Belco Petroleum Corp. No. 5 Woodward, 1,960 from the north and east line, section 25-36-30, T&P, seven miles north of Lenorah; one and one-eighth miles south-west of production.

The 7th Fleet added two carriers and a number of smaller ships last week to the two carriers and support vessels already on station off the Vietnam coast.

The reports that three or four Phantom squadrons of about 18 planes each had been alerted came from Pentagon sources who denied reports of widespread alerts at air and naval bases in this country. The sources said only a small number of units had been alerted.

Within the past week, about 75 Air Force and Marine aircraft, including B52 heavy bombers and F105 and F4 fighter-bombers have been ordered to Southeast Asia from the United States and Japan. The buildup has marshaled more than 700 American warplanes within striking range of North and South Vietnam.

The military buildup committee said a minimum of 50 planes, many of them apparently unreported earlier, were sent to Indochina during the past few days. The group said it also had learned that Army troops based at Ft. Hood, Tex., and Ft. Dix, N.J., and a number of transport planes at McGuire Air Force Base, N.J., had been placed on alert.

Slaying Of Petty Officer Puts Club Dancer In Jail

NAPLES, Italy (AP) — Police arrested a Spanish night club dancer today in connection with the slaying of a U.S. Navy petty officer stationed in Naples.

Donald B. Eastwood, 25, an American citizen born in the Philippines, died shortly after entering a hospital before dawn Saturday. He had been shot twice in the back with a pistol at his apartment on the beach. Police said they were called by Brigitte Charlier, 30, a dancer from Barcelona who had been living with Eastwood since they met in a local night club several months ago. Police arrested her as a suspect.

They said she told them she and Eastwood came back from a party with friends after midnight and she went to the beach for a swim. After hearing two shots, she hurried back to the apartment and found Eastwood dying, the dancer told officers.

Police said they found a miniskirt on the beach and Miss Charlier said it was hers. But, they added, two neighbors said they heard one or two shots in the Navy before midnight.

A Navy spokesman said Eastwood's father, Willie H. Eastwood, lives in Fort Worth, Tex., and his mother lives in Angeles City, in the Philippines.

(AP WIREPHOTO)

HONEYMOON INTERRUPTED — Newlyweds Mr. and Mrs. Tom Mead found their honeymoon slowed when two friends handcuffed them during their wedding reception in Tulsa. It took 20 minutes to cut through the cuffs. Mead did not identify their "friends."

Punishment Squad Beats Housewife?

BELFAST (AP) — A "punishment squad" of the Irish Republican Army was blamed today for beating, painting and feathering a pregnant housewife and tying her to a lamp-post while her three young children screamed in terror.

Police said six youths and two women carried out the Sunday night attack on Philomena McGuckin, who is five months pregnant.

Mrs. McGuckin, 24, a Roman Catholic, was dragged from her kitchen in Belfast despite the screams of her children, aged 3, 3 and 8 months. The attackers beat her with hockey sticks, shaved her head, poured red paint and feathers over her and tied her to a lamp-post.

She was treated at a nearby hospital for shock and multiple bruises but insisted on returning home to look after her children. Doctors said it was too early to tell whether she would lose her unborn baby.

Police who questioned Mrs. McGuckin about the motive for the attack said, "She was too frightened to tell us. She wouldn't say anything."

Neighbors said it had been carried out by an IRA punishment squad. They said the woman had been taking drugs for medical reasons. Taking drugs is an IRA "offense."

The IRA has a strong grip on the Catholic district where Mrs. McGuckin lives and often metes out its own punishment if its code is violated. The organization has admitted tarring and feathering 20 people in Belfast and Londonderry for alleged petty crimes, including girls who went out with British soldiers.

Texas Shows Jobless Dip

AUSTIN, Tex. (AP) — Unemployment in Texas showed a marked decline in February, the Texas Employment Commission said today. The agency credited "an improved economy."

The agency said 3.7 per cent of the labor force was looking for work in February, compared with 3.9 per cent in January and 4.2 per cent in February 1971.

An estimated 175,000 were unemployed, compared with 185,000 in January and 197,000 in February 1971.

"The most of the 10,000 drop in the jobless total (from January to February) occurred as temporary seasonal workers withdrew from the active job market following the employment peak in December," the TEC said.

"The change from last year can be credited to an improved economy with an increased number of job opportunities."

ITT 'Pledge' To GOP Spelled Out

WASHINGTON (AP) — Rep. Bob Wilson, R-Calif., said today the International Telephone and Telegraph Corp. guaranteed to underwrite half the \$800,000 which San Diego had to commit to obtain next summer's Republican National Convention, but the ITT figure was lowered two months later.

Wilson, the key figure in bringing the convention to his home city, told the Senate Judiciary Committee that ITT's commitment was just a working figure and that he had assured Harold S. Geneen, ITT president, "we could soon work the underwriting down to a reasonable figure as far as Sheraton's (an ITT subsidiary) obligation was concerned."

BID PACKAGE

In a prepared statement, he said that he told Geneen last May that San Diego could come up with sufficient financing if it were given a little time but that the deadline was past due.

"We kicked the idea around of my going to leading businessmen and getting commitments from them and putting together a bid package," Wilson said. "He then suggested if I would take the lead he thought Sheraton would underwrite up to \$300,000, and of course, he is willing to actually commit for their fair share of the total amount of money needed."

"I told him I thought it would

College Probe

COLOMBO, Ceylon (AP) — A three-man royal commission has been appointed in Ceylon to discover how one of the country's major universities was turned into an arsenal prior to the abortive insurrection in the country last year.

Molotov cocktails, homemade firearms were among the weapons stockpiled at Peradeniya University.

DEATHS

L. H. (Homer) Rutledge; Services At 10 Tuesday

L. H. (Homer) Rutledge, 88, pioneer ice cream manufacturer and bottler, died Sunday at 12:20 a.m. at his home at 1208 East 16th. He had been in failing health.

Services will be held at 10 a.m. Tuesday at the Nalley-Pickles Rosewood Chapel with the Rev. Kenneth Patrick, pastor of the First Baptist Church, officiating. Burial will be in the Trinity Memorial Park.

He is survived by his wife; two daughters, Mrs. Jack Y. (Edna Faye) Smith, Big Spring, and Mrs. Ray W. Fesmire (Ruth), Odessa; four grandchildren, including Mrs. Louis McKnight and Steve Smith, Big Spring; five great-grandchildren. He also leaves two sisters, Mrs. T. G. Story, McGregor and Mrs. G. L. Butts, Florence; and one brother, W. E. Rutledge, Florence.

Mr. Rutledge was born Sept. 14, 1883, to Mr. and Mrs. W. A. Rutledge, pioneer residents of Florence, and was married there Nov. 13, 1904, to his high school sweetheart, Nora Savage. (They recently observed their 67th anniversary.)

He began a career as an ice cream manufacturer and set up a business in Lampasas in 1910 where he at first used hand power to turn the freezer, then employed a horse driven device, and finally employed the first electric motor in the city to turn the machinery.

In 1922 he moved to Sweetwater where he operated an ice cream factory, along with the Coca Cola bottling plant, shipping ice cream all over West Texas. He branched out in 1926 and built a plant here east of what is now Cook's Appliance, and which was operated by his brother W. E. Rutledge. Later he set up a third branch plant, then sold his business in 1929.

The family lived briefly in Abilene from 1929-32. They came to Big Spring in 1942 and for a number of years Mr. Rutledge was associated with the security division at Cosden,

Mrs. Eason Dies On Saturday

LAMESA — Mrs. Thelma Eason, 56, died at 11 a.m. Saturday in a local hospital.

She had been a resident of Lynn County and O'Donnell for 20 years. She was born in Dawson County in 1915.

Services are scheduled for 2 p.m., Tuesday, at the First Baptist Church in O'Donnell. The Rev. O. R. Bowman will officiate. Burial will follow in the O'Donnell Cemetery under the direction of Bronon Funeral Home, Lamesa.

Survivors include her husband, Cleon Eason, O'Donnell; two daughters, Mrs. Joyce Hall, Brownfield, and Mrs. Charlene McGlath, El Capitan, Tex.; four sisters, Mrs. Harry Cato, Three Rivers, Calif., Mrs. C. L. Anderson, Tahoka, Mrs. Jerry Samples, Lawdale, Calif., and Mrs. H. L. Lawson, O'Donnell; five grandchildren and one great-grandchild.

Askew To Head Civitans' Club

New officers of the Big Spring Civitan Club have been elected for the new year. Elections were held at the first of this month and each officer will serve a one-year term.

Those elected were Robert N. Askew, president; Darrell Morgan, president-elect; Ronnie Reeves, treasurer; and Jerald Wilson, secretary.

Mrs. Alsobrook Is Death Victim

LAMESA — Mrs. Geneva Lucille Alsobrook, 77, died here at 9 a.m. today.

She had been a resident of Dawson County for 46 years. She was born in Arkansas in 1894. Services are set for 4:30 p.m., Tuesday, at the First Baptist Church here. Officiating will be the Rev. Dorman Kinard, pastor of Crestview Baptist Church.

Burial will follow in Lamesa Memorial Park under the direction of Bronon Funeral Home.

Survivors include a daughter, Mrs. Jim Hardwick, Lamesa; and a half-brother, John C. Vaughan, Twin Falls, Idaho; and two grandchildren.

Charles Lynch Dies Sunday

STANTON (SC) — Charles A. Lynch died at noon Sunday in San Augustine, after a lengthy illness.

Services are pending at Gilbreath Funeral Home in Stanton.

Mr. Lynch was preceded in death by his wife Jannie Mae Bentley Dec. 18, 1971. Survivors include two

AT MONTHLY LUNCHEON

OWC Members View Fashions, Candidates

Spring and summer fashions for all women, including the expectant mother, were modeled by Officers Wives Club members during the monthly luncheon held Thursday at Webb Air Force Base. Clothing was from Action West, with Mrs. Steve Baker serving as commentator.

Models were Mrs. Geoffrey Brougham, Mrs. Ernest Lindberg, Mrs. Don DeSantis, Mrs. William Freeman, Mrs. James Calm, Mrs. Larry Windingland, Mrs. Robert Pettit, Mrs. Porter Medley, Mrs. Richard Norris, Mrs. Leo Balthazor, Mrs. M. J. Karaffa, Mrs. Henry Rinmer, Capt. Wayne Saukko, Mrs. Helen Grisham and Mrs. Charlene Walker.

Hostesses for the luncheon were wives of the Air Base Group, with Mrs. Charles Walker as general chairman. She was assisted by Mrs. Austin Bryan, decorations; Mrs. Joe Gill, publicity; Mrs. Eugene Welsh, menu; Mrs. Kenneth Summy, prizes; and Mrs. Porter Medley, treasurer.

The fashions were fresh and colorful, ranging from the briefest of shorts in bold red and white stripes to an elegant evening dress in stark black crepe. Pants were very much in evidence, worn with short-sleeved tops or body suits, and several hip-hugger types sashed with multi-colored scarves. There were cool-looking, casual dresses for street or leisure-time wear, as well as dressier attire for more social occasions. Fabrics included natural fabrics as well as the dependable polyesters and acrylics. Of particular interest was the practical "weekender," featuring blazer, pants, skirt and coordinated toppers.

Background music was by Mrs. Gail Bonner, pianist.

Mrs. David Little extended the welcome to members and guests, and the guest list was read by Mrs. John Wilson. Guests were Jeanne Tilucci, Alice Williams, Dorothy Patterson, Shirley Cline, Pearlene Renault, Fran Mones, Sandy Marshall, Joyce Miller, Nesi Steinerde, Terah R. Stearns, Elaine Ellis and Debbie Agnew.

Newcomers welcomed were Mrs. Nancy Cole, Mrs. Sherri Stilwell, Mrs. Alice Ratzel, Mrs. Judy Day, Mrs. Barbara Beicher and Mrs. Janie Ward. Farewells were said to Mrs. Balthazar and Mrs. Pettit.

The 1972 candidates for OWC offices were introduced as resumes were read of their past activities. The offices and candidates are president, Mrs. Janet Barr, Mrs. Joan Wertz and Mrs. Carolyn Welsh; first vice president, Mrs. Leslie Bridwell and Mrs. Ardis Dennison; second vice president, Mrs. Barbara Karaffa, Mrs. Ruth Craig and

4-H Club Hears About Snakes

WESTBROOK (SC) — Bobby Moody showed the film, "Magic Valley" for members of Westbrook 4-H Club at a recent meeting in Westbrook School. The film gave information about poisonous snakes.

Martha Martinez read thoughts concerning love and hate. A report on the recent Mitchell County 4-H show was given by Julie King. Curtis Thomason, Mitchell County game warden, was a guest.

Says Young Adults Are Affluent

"Young adults between 13 and 21 make up more than 12 per cent of the population, and they earn and spend about \$12 billion annually," said Mrs. George Weeks for Big Spring Credit Women's Club, Thursday at Settles Hotel.

"Everyone is trying to get their business," continued Mrs. Weeks, "but they have become much more knowledgeable. They are not just a mass market that can be lead. They project influence as much as they are influenced."

Mrs. Weeks, of the local Gibbs and Weeks Men's Store, said the store has always had a policy of giving young people a chance on credit. In the many years of the store's operation, only \$118 has been lost from this practice. She said many of the people, even those who have moved out of town, will wait to do their shopping when they are here, because they appreciate the first credit they were given.

YOUNG MARKET

"The people in the youth market are worth pursuing as customers," said Mrs. Weeks. "They are a very special breed with minds of their own. They won't buy what you want them to just because you say it is 'in.' They are very selective."

Mrs. Weeks encouraged offering credit to young people. She said they will be better credit risks than their parents, because they grew up in a period of great affluence when credit was a way of life. They know the bills must be paid.

PAY ON TIME

"These people will reward your best efforts," said Mrs. Weeks. "Don't be afraid to hold out your hands and hearts to them." The program was taken from an article entitled "Youth Market in the 70's" by Sara Salzer, who operates a consultant service in California. She was west coast editor of "Seventeen" Magazine prior to starting her own business.

Miss Katherine Homan won the attendance prize, and Mrs. J. B. Apple reminded members that the annual club breakfast will be May 7 at her home.

Mrs. Noel Hull presided and announced the state convention is slated May 20-22 in Dallas. Mrs. Apple will be club delegate, and others may attend.

MRS. KENNETH RAY PLEW

Plew-Ford Ceremony Performed Saturday

Miss Betty Ann Ford became the bride of Kenneth Ray Plew in a Saturday afternoon ceremony in the Church of Christ at Antioch, Calif.

Elton R. Garretson officiated for the rites before an altar flanked by baskets of white gladioli and stock on white wrought iron pedestals.

Music was provided by Larry G. Ford, Mrs. Bob Baldridge and Miss Shara Baldridge, vocalists.

Plew is the son of Mr. and Mrs. Earl Plew, Route 1, Big Spring, and the bride is the daughter of Mr. and Mrs. L. V. Ford, Antioch, Calif.

The bride wore a white formal-length gown of silk organza, net and taffeta. The round neckline was edged with appliqued white lace, and matching lace highlighted the long sheer sleeves which reached a point at the wrists. Her veil, trimmed with appliqued lace, was held with a scalloped crown of sequins and pearls. She carried a bouquet of white carnations and pink rosebuds.

Mrs. Tracy Ward of Sacramento, Calif., was matron of honor, and bridesmaids were Mrs. Larry G. Ford, the bride's sister-in-law; and Mrs. Dan Wenrick of Rio Vista, Calif.

The attendants wore aqua blue floor-length gowns and carried arrangements of matching carnations.

Tracy Ward of Sacramento, Calif., was best man. Serving as ushers were Vernon Garretson of Graton, Calif. and Phillip Garretson of Lodi, Calif.

Nicole Ward was flower girl and wore a dress identical to the bride's attendants. Devon Ward was ring bearer.

A reception honored the couple in the Antioch Women's Club, where refreshments were served by Mrs. Jesse Stormes, Mrs. Harlan Stormes and Mrs. Jay Ruddick.

After spending some time in Northern California, the couple will reside in Big Spring. Plew is employed at the Cosden Oil and Chemical Company refinery. Mrs. Plew formerly worked as a receptionist.

Dr. Clarence Kincaid Will Judge Art Show

The Big Spring Art Association feels fortunate in having secured the services of Dr. Clarence Kincaid of Lubbock as judge for the Open Exhibit which will be held Friday through Sunday in the First Federal Savings and Loan Association Building.

Dr. Kincaid is Professor of Art at Texas Tech where he teaches figure drawing, watercolor and art education. He also serves as departmental coordinator for the graduate programs in art. He holds degrees from West Texas State University and Pennsylvania State University and did graduate study at the University of New Mexico.

Dr. Kincaid's watercolors are in several museums and in many private collections throughout the country, and his work is handled by the Baker Company of Lubbock, the Talisman Gallery of Bartlesville, Okla., and the Missions Gallery, Taos, N.M. Besides his teaching and painting, he has directed many-concept films and film strips depicting processes and techniques of various art media.

DR. CLARENCE KINCAID

Awards will be made at 4 p.m. Sunday with \$50 being awarded for "Best in Show," and division winners will receive cash or merchandise prizes and ribbons. Efforts will be made to sell works shown in the exhibition.

The exhibition hours will be from 2 to 5 p.m. Saturday and from 1 to 5 p.m. Sunday.

The divisions are (1) Professional: Art teachers,

college art majors, or those who have won recognition in state or national exhibitions. (2) Non-professional: Amateur, those with limited training and experience who have not won recognition in state or national exhibitions. (3) Student: three divisions, primary, junior high and high school. (4) Sculpture: for Big Spring secondary school students only.

Each artist may submit six entries. Professional and Amateur Division fee is \$2 per entry. Student Division fee is \$1 per entry.

Paintings in oil, water color, acrylic, ink charcoal, pencil or any of these mediums mixed will be accepted. Work must be framed or matted and wired for hanging. Collages using any of the above mediums will be accepted.

Any artist is eligible whose work is original in design and executed solely by the exhibitor, completed in the past two years and not previously exhibited for competition locally. Any work not in good taste or considered a craft may be rejected by the committee.

Further information may be obtained by calling Mrs. Daryl Hobertz, chairman, or Mrs. Bowden Hampton and Mrs. DeForest Craizer, co-chairmen.

Bride-Elect. Honored At Shower

Miss Debrah Rybolt, bride-elect of Geary Underwood, was honored at a shower Friday evening in the Wesley United Methodist Church parlor.

Attired in a light blue dress, the honoree was presented a corsage of blue carnations, as was her mother, Mrs. Bob Rybolt, and the prospective bridegroom's mother, Mrs. Dolores Underwood. Also given corsages were Miss Rybolt's grandmothers, Mrs. Maggie Cross and Mrs. Marvin Rybolt, and Underwood's grandmothers, Mrs. H. H. McPherson and Mrs. J. E. Underwood.

Hostesses were Mrs. Harold Knapp, Mrs. Ben Boadle, Mrs. Dale Fox, Mrs. R. L. Merrell, Mrs. C. L. Woods, Mrs. Bert Smith, Mrs. Bert Harris, Mrs. Dub Bryant, Miss Regina Fox, Mrs. M. O. Hamby, Mrs. Ben Daugherty and Mrs. James Household.

The serving table was covered with a white cloth and centered with an arrangement of blue and white flowers in a milk glass vase.

Miss Rybolt and Underwood will be married May 27 at Wesley United Methodist Church.

Piano Students Audition Tuesday

Piano students of Mrs. Robert Lee will audition for the National Guild of Piano Teachers Tuesday at Howard County Junior College music building. Those playing will be Jill Dunnam, Elizabeth Swindell, Kathy Russell, Tommy Lee Aberegg, Robbi Rogers, Shauna Hill, Lisa Warren, Tanga Cain, Nancy Porter, Todd Conroy and Laura Allen.

Family Reunions Bring Visitors To Westbrook

WESTBROOK (SC) — Recent guests of the T. A. Reeses were Michael Westfall and children and Mrs. Harold Funk and children, all of Odessa, and Mrs. Jodi Williamson of Denton.

Mrs. Ben Oglesby and daughter of Bronte were Saturday guests of the J. W. McCulloughs of Midland. Visiting the McCulloughs Sunday were Mrs. A. L. Young and her grandchildren, Beth and Don Geiger.

Assisting with the 1972 Cancer Crusade here are Mrs. Gerald Rollins, chairman; Mrs. W. E. Smith, Mrs. Charles Ranney, Mrs. L. R. Messimer, Mrs. J. K. Williamson, Mrs. Jimmy Moody, Mrs. Frank Oglesby and Mrs. Hoyt Roberts.

Mrs. Marvin Hale is a patient at Midland Memorial Hospital. Guests of the Gwan Stranges during Easter holidays were their son and daughter-in-law, the Clay Stranges of Austin. They also visited his grand-

mother, Mrs. Ollie Bird. The Tommy Bryants of Odessa visited relatives here Sunday.

Recent guests of the B. D. Taylors were the Dean Taylors and Mrs. Vera Davis, all of Phoenix, Ariz.; and the Robert Woods of Abilene.

Easter guests of the Forrest Whitesides included the Charlie Herriages and son, and Kay Wilson, all of Minden, La.; the Arthur Wilsons and the Kenneth Wilsons, all of Colorado City; and the Roy Wilsons.

Park Hill PTA Plans Installation

Officers for the 1972-1973 school year will be installed for Park Hill Parent-Teacher Association at 7:30 p.m. Tuesday in the school cafeteria. Mrs. David Hodnett will conduct the installation.

For All Needs

Sportswear includes clothes for gardening, for streetwear, for the multitude of activities that occupy women.

OVER 65 ONLY: ENROLLMENT PERIOD ENDS MIDNIGHT THURSDAY, APRIL 13, 1972

Here's where most folks over 65 find out...too late... what Medicare does not pay...

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care® pays you up to \$50,000 Tax-Free Cash! It covers every hospital expense that Hospital Medicare leaves out, except the initial deductible!

- only \$3 a month after the first month!
- no age limit ■ no health questions
- all pre-existing conditions are covered!

Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

IMPORTANT ANNOUNCEMENT

MEDICARE COSTS JUMP AGAIN!
Now You Must Pay 13 1/3% MORE!

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply — up 13 1/3%! Fortunately ELDER-CARE owners need not worry! Once again this Plan automatically adjusts to cover increased hospital charges... yet it still costs just \$3 a month. Today your Initial Deductible is \$68 (up from \$60!); after the 60th day you must pay \$17 per day (up from \$15!); and your "lifetime reserve" contribution is now \$34 per day (up from \$30!). These continuing annual increases make it more important than ever to protect yourself at today's rates! Send your Application NOW — before the postmark deadline.

MEDICARE IS GREAT—BUT!... Wake up friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has Gaps—deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those Gaps. The Government pays less and you pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long seige of illness in the hospital could leave you with crippling financial debts.

DON'T LEARN THE FACTS THE HARD WAY! After you're laid up, it's a little late. Under Medicare today you pay the initial deductible for each 'benefit period'. That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day — \$238-a-week, \$1020.00-a-month—that you must pay. Plus you start dipping into your Hospital Medicare 60-day 'Lifetime Reserve'. And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean—the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... force you into borrowing (at today's rates)... selling your home... even turning to your children for charity!

THIS PLAN IS A MUST FOR ANYONE OVER 65 If you feel Medicare Gaps are confusing, you're right—they are! Worse—they're expensive! Part 'A' of Medicare is Hospital Insurance, designed primarily for in-hospital costs. Part 'B' is Medical Insurance, for doctors and medical service bills. This Plan supplements 'Part A' to protect you for every eligible Medicare hospital expense that Hospital Medicare doesn't pay. After your initial deductible, you're covered for all the Hospital Medicare Gaps—100%—with no time limit—no matter how much or how often you collect—up to \$50,000.00 tax-free cash! And no matter how Hospital Medicare Gaps widen in the future, you needn't worry. This Plan fills in automatically. There's no finer Plan in America today!

MEDICARE GAPS KEEP GETTING WIDER The law requires that Hospital Medicare costs must be reviewed each year—and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times—in '70, in '71 and again in '72. In fact, hospital costs have **TRIPLED** in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much sense!

EVERY GAP IS ANOTHER PROBLEM FOR YOU:

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so vital. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

ANY CONDITION YOU HAVE NOW IS COVERED NOW!

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your policy is in force. Here are the only exceptions: Federal or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3. rate cannot be raised, unless a general rate adjustment — up or down — applies to everyone in your state.

SEND \$1 FOR YOUR FIRST MONTH'S PROTECTION...

while you examine your Elder-Care Plan. It's yours with a money-back guarantee. Examine it carefully in the privacy of your own home. There's no "fine print". Show it to any trusted advisor. Indeed, show it to your doctor. He knows about the limitations of Hospital Medicare. He'll tell you how valuable this Plan really is. Even then, if you're not completely satisfied, return the policy within 30 days and we'll promptly refund your money—no ifs, ands or buts! It makes sense to protect yourself now for such a low amount—while you make up your mind! If you decide to continue, your regular monthly premium is only \$3 per person. A small premium for so much peace of mind!

ENROLL AT ONCE—NOW IS THE TIME!

Everyone over 65 automatically qualifies during this mass enrollment period—with no medical questions asked! The closing date, however, is definite! We cannot accept applications after the postmark deadline. So please don't hesitate. You are protected by an iron-clad 30-day money back guarantee. Mail your Application Form, with only \$1, regardless of the number of people to be covered, before the midnight deadline. Act now, while the thought is uppermost in your mind!

ARE YOUR PARENTS OVER 65? READ THIS!

Right now you have an opportunity to help protect your parents against today's skyrocketing hospital bills. A long illness can easily exhaust their savings. That's why we urge you to bring this plan to their attention immediately—and help them get \$50,000 worth of lifetime maximum benefits. Or better still, just complete the form below for them using your address and we will send the Policy and payment notices to you.

THE COMPANY BEHIND YOUR ELDER-CARE

Elder-Care is issued to citizens over 65 no matter what their present state of health by Union Fidelity Life Insurance Company of Philadelphia, a progressive old-line legal reserve company. Union Fidelity is recommended by both *Best's* and *Dunne's*, the insurance industry's leading independent rating authorities.

NO SALESMAN WILL CALL

- Q. If I have Medicare, why do I need this Plan?**
A. Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end? These widening Gaps could cost you thousands of dollars. But Elder-Care relieves your hospital money worries—up to \$50,000 security in tax-free cash!
- Q. How do I collect my benefits once I'm in the hospital?**
A. There's a simple form to be completed by you and your doctor—and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency of Union Fidelity's claim service.
- Q. Can I enroll if I'm not in good health?**
A. Yes you can. There are no medical questions to answer. No matter how poor your health, any health condition you have right now is covered. There is no waiting period. And of course, any accident or future health condition is covered too.
- Q. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of dollars?**
A. Absolutely not! Your Plan cannot be canceled as long as you keep up your low premiums—no matter how often, or how much, you collect — up to the \$50,000 maximum. And you'll never pay more than \$3 per month, unless a general rate adjustment is made on all policies of this class (Form 1-919) in your state.
- Q. Does this plan cover doctor bills?**
A. No. Private doctor bills are not covered by Elder-Care because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

- Q. How can it cost only \$3 a month?**
A. Because the initial deductible is not insured—that's still your responsibility. Without this one provision Elder-Care would be too costly to afford. With it, however, this Plan is exceedingly reasonable. Hospital Medicare covers most expenses in the first 60-day hospital benefit period. Then Elder-Care fills in the rest of the hospital benefit Gaps—100%—provides up to \$50,000 long-range protection. In addition, mass-enrollment by mail—plus no medical questions to process—keeps policy-issue costs at a minimum. And since no salesman will call, there are no sales commission costs. All these savings are passed on to you!
- Q. If I have other hospital insurance, doesn't it cover these Medicare Gaps?**
A. Unfortunately no! Many other plans specify exclusions, riders, and limitations on Medicare. They don't bridge all the Gaps, particularly as benefits are adjusted. But with Elder-Care you know that hospital Gaps are covered automatically with up to \$50,000 protection. There's no waiting period—you're covered immediately for pre-existing conditions. And note: this Plan pays in addition to any other coverage you may have. It's your money to spend as you wish.
- Q. What other advantages are there to joining this Plan right now?**
A. During this period there is no red tape of any kind. Just fill in the simple Application Form here. And you enjoy a 30-day approval guarantee! You're protected for only \$1 while you examine your Elder-Care Policy. If you're not completely satisfied return the Policy within 30 days and we'll promptly refund your money. In the meantime, you're still protected!
- Q. How do I enroll?**
A. Complete the Application Form at left and mail with only \$1 for the first month's protection. Your spouse, if over 65, may also be enrolled on this form. But do not send more money! \$1 covers you both during your 30-day approval. Be sure to sign your name and mail before the postmark deadline.

10 APR 10

Clarer Scrutiny

The Navy encountered a new attitude toward weapons systems in the Senate Armed Services Committee the other day. The attitude is one of wariness and caution.

Previously, the committee was an almost unquestioning friend of the services when it came to approving new planes, tanks or ships. Those days apparently are gone, and with good reason.

An Armed Services subcommittee, chaired by Sen. Howard Cannon, reflected the changing approach in hearings on the controversial and increasingly expensive new F14 Navy fighter.

When Chief of Naval Operations Elmo Zumwalt and a platoon of admirals showed up for the hearings they were surprised to find them being held in public. Normally military budget work is done behind closed doors.

Sen. Cannon said the purpose was to lay out on public record the anticipated costs of the F14 project before Congress approved any more production funds.

After a slideshow briefing on the Navy's needs, Sen. Barry Goldwater, long a friend of the military, told the admirals the problem was not to convince the Senate the F14 would fly well but rather that it would be worth the cost, now estimated at \$5

billion and rising for 301 planes.

The admirals found resistance in plans to pay Grumman Aerospace Corp., the plane's builder, \$40 million for loss of a test model.

The senators' wariness is understandable. They have approved too much money for complex weapons systems that either didn't work or which far exceeded the estimated costs. The C5A transport plane is the most flagrant example. Congressional investigators are still probing the C5 costs and charged that its maker was knowingly overpaid \$1 billion by the Air Force.

Sen. Cannon said "we do not want to be confronted with another C5A situation" where Congress piecemeal gets committed to a project and then has to bail it out.

The service chiefs must adapt to this attitude, which reflects taxpayer concern. America needs good weapons. Relatively simple but effective planes are developed rapidly by countries such as Britain, France and Russia. We can do it too, if Congress sticks to its new attitude, which is not anti-military but is one which balances practicality against a desire for sophistication.

Archie Is Archie

The Teamsters Union is taking Archie Bunker too seriously. A Teamsters publication said many Teamsters and other union members resent the TV portrayal of Bunker as an "average" worker — fat, dumb, racist and funny.

Bunker is not typical anybody. He is an invented character which happened to attract the attention of a lot of viewers, some of whom might even sympathize with his views. The Bunker show

will have its run of success, then like all other top-rated shows, fade away to be replaced by another popular gimmick.

By taking Bunker personally, the Teamsters are stretching things. It's like being sore at Jackie Gleason for portraying an "average" bus driver as fat, dumb and funny; or Art Carney for presenting the "average" sewer worker as tall, dumb and comical.

Joe Hinds

We are Americans. And America is only a shell without us, the people of the United States of America.

Americans with all our specialties are like jumbled parts of a jigsaw puzzle. If these parts are united, America is solid; if they are divided, America crumbles.

Mary is a housewife in Abilene. She read about American male, chauvinist pigs in several national magazines. Now she wonders if her husband treats her with less respect than husbands in other countries.

John owns a grocery store in Monahan. He makes his son get a haircut every other week. John is a conservative because he almost lost his life, the only thing he owned at the time, when American forces stormed the Normandy beaches on D-Day.

George is just a face among many walking down a crowded sidewalk in Dallas. He goes to work, comes home, drinks a beer and watches television every weekday. On weekends he tries to see either the Cowboys or the Chaparrals or the Rangers. He stands up during the national anthem at the games, but that's what everybody else does; He doesn't know why he does it, but he does it.

Jimmy is a student at the University of Texas. He is emotionally involved with what he considers the evil within our system, but he hasn't considered the evil without it. Yesterday he joined a group of students harassing a local policeman who had arrested a drugpusher on the campus. Jimmy didn't think about the time the police drove around his off-campus apartment all night long after he had reported a man trying to break into his apartment.

Is the average American a freckled, brown-haired, blue-eyed boy who plays on the Little League baseball team? Will he want to be the 48th President of the United States? Or is he a freckled, brown-haired, blue-eyed boy who plays on the Little League baseball team? Will he organize a revolution to destroy America?

But these labels within our society are like magnets. Sometimes we are attracted to these labels. Sometimes we forget who we really are. Then we are divided. We think we are young or old, liberals or conservatives, hawks or doves, labor or management, rich or poor, men or women, black or white.

But we are Americans.

We as Americans must answer these questions as members of a nation that must be united.

Young and old, liberals and conservatives, hawks and doves, labor and management, rich and poor, men and women, black and white... All Americans are welded together into the free American society.

Open End Spending

Omar Bureson

WASHINGTON, D.C. —After three days of debate the U.S. House of Representatives last week passed a bill on environmental protection with a price tag of \$24.6 billion. Knowledgeable estimates indicate that the cost will soar to \$35 billion before the provisions are fully implemented.

THE ENVIRONMENTAL protection agency, created to administer the program already has over \$2 billion appropriated to it and has yet to really get off the ground. To use these sums of money it will have to spend as if it were going out of style.

Of course everyone is for cleaning up and preserving our environment. The effort should have been started in an orderly way long ago but since present conditions didn't get that way overnight, corrections and remedies can't be made to work overnight either.

THE EXPERTS HAVE yet to agree on the many approaches to curing the problem. Wide disagreement exists on what pollutes our air and water and about what should be done. For instance not long ago certain phosphate detergents were blamed and condemned. A few weeks later other experts said not so.

Another example is the emissions from leaded gasoline. Last year the Administration proposed a \$4 per pound tax on lead to eliminate its use for octane support in gasoline. Something called aromatics was to take the place of lead to maintain the octane level until automobile engines can be built to run as efficiently as leaded fuel. This was supported by a group of "experts," but another group of seemingly qualified scientists came along and claimed, after research and testing, that aromatics are more polluting than lead.

THE GOALS FOR a clean and wholesome surrounding are indeed laudable. Conditions in some places in the country are deplorable and to some degree or other threaten human and animal life. There should be both scientific and common sense efforts at eliminating these useless hazards. It can be done without

squandering billions of dollars and doing needless injury to property and industry. Money alone is not going to clean up our surroundings.

While inflation continues to eat away at the economy, some things being proposed can have no other effect than increase the price of things to pay for costs of meeting required standards. Just as safety requirements for automobiles, some of which have dubious value, run up the price, so will some of the demands on industry increase costs of many products we all have to buy.

THE ANNUAL budget of the federal government has committed to it 72 per cent in uncontrolled costs. In other words, the Congress has discretion over only approximately 28 per cent of total expenditures. One of the best examples of fixed spending is the \$22 billion interest on the public debt. And so on and on the Legislative branch has abdicated its responsibility over the purse strings. Our friend Congressman George Mahon, chairman of the Appropriations Committee, agrees that those of us who claim fiscal responsibility can protect our credibility only by opposing the procedures followed in the measure passed last week.

The bill as passed does not permit a year-to-year appropriation, as is the case in most all other programs. There is no annual review of whether the program is working or whether it needs more or less money. A lump sum of \$24.6 billion is provided for a three-year period with little or no control by the Congress which is responsible for these purse strings of this Nation. With a public debt of \$423 billion; a \$23 billion red ink balance last year; a prospect of at least \$26 billion for the coming 1973 fiscal year, this sum is added in sort of a panic atmosphere, because to oppose any part of it is inviting condemnation by those who say if you are not for galloping full speed ahead, and in the dark in many aspects, you are not for a healthy environment. Small wonder the vote was 380 to, 14 against.

Bleak Facts Polished Up

John Cunniff

NEW YORK (AP) — One of the more interesting analyses of the present economic expansion was presented recently by the senior economic adviser to the nation's largest brokerage house. It is also bullish and original.

The outlook is, in fact, very rare for a nonadministration economist, because instead of painting the facts a dull gray, as so often is done, it presents some rather bleak facts all polished up with hope.

In the view of Albert H. Cox Jr., the caution of consumers and businessmen, the so-called sluggishness of the advance, the bearish sentiments held by some economists, the very moderateness of the advance are bright signs.

Note that these are the very reasons given by other economists for being bearish. Month after month they are offered by retailers who can't understand why their sales aren't growing 10 per cent a year.

But Cox reasons that these allegedly negative factors are keeping growth from getting out of hand. Instead of firing the fuel all at once, with a resulting lull boom, he suggests, we are using it sparingly, economically, like a test driver trying to get long mileage. "In fact," he told a Los Angeles meeting of Lionel D. Edie & Co., the economic research and consulting arm of Merrill Lynch, "I think you can make a strong argument that this expansion will be a long one."

"It is one-year-old now," he said, "and it may well last three or four more years, at least."

As Cox analyzes the economy, "I think the major thing, the most important thing of all is the caution that prevails; this 'feeling your way along attitude' which pervades both the consumer sector and the business sector."

"This kind of behavior doesn't give you the fastest ex-

panion... It makes everybody a little unsatisfied. We often hear it said that 'these economists are saying there is expansion but I can't quite see it.' "On the other hand, this kind of climate can mean a much longer expansion. It increases the odds on longevity. I also think that this wage-price control that we are having is increasing that state of caution and uncertainty and keeping a curb on the over-planning and any tendency to commit excesses."

Summarizing, Cox told his audience of businessmen, researchers, brokers and others:

"I do think that the odds favor one of the longer business expansions in our history, perhaps lasting to 1975 and beyond. I think the odds favor that."

"And as long as most of you don't believe it, I think the odds will remain on that side. That's right. I don't think many of you believe it and that's why the odds are good."

Contest Judges And The Rules

"Decisions of the judges shall be final."

SO SAID Rule Number Seven in the dot-counting contest sponsored by a neighborhood store. But when the judges rejected Myrtle's entry on grounds of neatness, she took the matter to court.

"Their announcement didn't say a word about neatness," she complained. "Not even the judges can make decisions that are outside the rules of the contest."

THE COURT agreed with Myrtle, and her entry went on to victory.

Contests create a legal contract between the sponsoring company and the contestants. Accordingly, the basis principles of contract law will apply. Once the terms of the agreement are fixed, neither side can arbitrarily make changes.

HOWEVER, IF the contest judges keep within the limits of the original contract, they generally do have broad discretion.

In another case, contestants were supposed to deposit their entries in person at the showroom of a local automobile dealer. One contestant, disqualified by the judges for having mailed in his entry, insisted that this was too flimsy a reason for him to be barred.

But this time, the judges' ruling was upheld in court. The court said

they had acted within the reasonable scope of their authority.

WHAT ABOUT a rule against participation by company employees and their families? Again, the specific wording is crucial. In one case, the father of a company salesman submitted an entry in a football pool contest.

According to the rules, "no employee or member of his immediate family" could compete. Was the father a member of his son's "immediate family"?

IN A COURT hearing, he pointed out that the son lived in his own home, on his own income, with his own wife and children. The court concluded there was enough separateness between the two men to leave the father eligible.

He took first prize. A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Fair Books

NEW YORK (AP) — Seven years after the 1964-65 New York World's Fair ended the books finally have been closed.

Robert Moses, president of the fair corporation, said the bondholders would get back 62.4 cents on the dollar.

Hal Boyle

(Substituting for Hal Boyle)

LIVINGSTON, Tex. (AP) — At the James Jenkins General Store, customers can play a game of checkers around the pot bellied stove, check up on the reward posters or maybe even buy something, like a handmade sunbonnet for the wife.

Along busy U.S. 190 west of Livingston and not far from the shores of Lake Livingston, a few square yards of yesterday's store have been preserved in the form of the old-fashioned general store.

Today, sanded and refinished, it's the centerpiece of the Jenkins' store, so shiny and new-looking that the company which manufactured it even tried to buy it back.

"We have been in the grocery business before," said Mrs. Jenkins, who helps her husband

tend the store. "But I'm an antique bug, too — got the disease for collecting — and this store was just the place for me to put all my old relics."

It was only a few months ago that the couple acquired the store, originally established by Mrs. Russel Stone, who, like Mr. and Mrs. Jenkins, had a soft spot for antiques.

Mrs. Stone salvaged the 20-foot-long counter which for years had gathered dust in a store in Bryan.

However, the counter, with its

rows of windows to show samples of seed and feed, isn't for sale.

Neither is the side-saddle which hangs along the wall, the coffee grinder, the cheese slicer, the pioneer cooking utensils, the blacksmith tools, the branding irons or the old posters. All are museum items that help to make the store unique.

The owners like to think that they are doing their part to help teach history to the younger generation.

"They have no idea how things were," Mrs. Jenkins said, chucking. "They'll walk in here and point with amazement at the old stove and say, 'Does that thing really hold fire?'"

General Store

Billy Graham

I have been a good mother and faithful wife for 27 years, and taught my children reverence for God. Now, after all these years, the sins of my youth are on my mind; I was promiscuous with many men. My family know nothing of this, but lately I have been thinking about it until I believe that I am going out of my mind. Will you please help me? O.B.

I have scores of letters like yours in my mail. First of all, don't think for a minute that you are very much different than the average person. This kind of early behavior is very common. You see, the Bible teaches that we are all sinners by nature, and we are. "We have all sinned and come short of the glory of God." Any minister or psychiatrist could tell you the most sordid tales of people,

who committed exactly the same sins as you, in their youth.

What has happened is this: you saw the error of your ways, and in your own strength tried to make a new way of life. And humanly, you have done a creditable job, and are to be commended. But these guilt feelings have built up in your life, and will continue to build up, until you accept the forgiving grace of Jesus Christ. Yes, you have taught your children reverence for God, but you, yourself have never done what the Bible says to do: come to Christ in repentance and faith, and let Him live His life through you. When you cast yourself upon His mercy, the weight of guilt will be lifted from your heart. Then, of course, you must forgive yourself, too.

A Devotion For Today...

"Let the children come to me, and do not hinder them." — Matthew 19:14 (RSV)

PRAYER: Dear Lord, we are responsible for the unprotected and frightened children they are precious to You, and You want them to live peacefully. Forgive us when grown-up fighting scares children. Amen.

Look Younger

Dear Abby
Abigail Van Buren

DEAR ABBY: The letter from Patty in Tacoma, the 25-year-old who looks like a teenager, has prompted me to write my first Dear Abby letter.

My problem is the reverse. I look much older than I am, but to make matters worse, my husband looks much younger than he is. John and I are both the same age, but I am constantly mistaken for his mother.

Don't tell me to touch up my hair because John says he likes gray hair. (His mother was prematurely gray.) And I know I am overweight, but John says he likes me this way, and he keeps pushing the food at me. I would like to wear more youthful and stylish clothes, but they don't come in my size. Believe me, Abby, I don't enjoy looking like my husband's

But there are cases (I am one) where no hearing aid can be of any help. I am not guessing. I have been to the best audiologists in the world, and they agree that the hearing aid that can help me with my kind of deafness has not yet been made.

So what do I do when I cup my ear and strain to hear until I am nearly exhausted, and people look at me as though to say, "I'll give this cheap dumb-cluck who's deaf and won't wear a hearing aid a hard time and I'll refuse to speak up?"

HARD OF HEARING
DEAR HARD: Say, "I am hard of hearing. And if there were a hearing aid made to help my kind of deafness, I'd be wearing one, so if you have something to say to me, please speak up and let me hear it."

DEAR ABBY: How does one introduce step-parents gracefully? My parents are divorced and they are both married again to wonderful people. Using the term, "stepmother" or "stepfather" seems so unfeeling.

I love my parents very much, and I truly love their new mates, but introductions are so awkward for me. Can you help?

mother, so what should I do?

FORTY-TWO AND LOOKS LIKE 60
DEAR FORTY-TWO: You may not enjoy looking like your husband's mother, but apparently your husband enjoys it. If you really want to look younger, announce that you are going on a diet. Then, with your doctor's help, go on one. And wash that gray out of your hair! Your husband may like the new you better. And if he doesn't, you'll be stuck with a lovely figure and a dye job which doesn't last very long, anyway.

DEAR ABBY: Much has been said about thoughtless stingy selfish people who impose their hard-of-hearing problem on others by refusing to wear a hearing aid.

Your Good Health
Dr. G. C. Thosteson

Dear Dr. Thosteson: What to eat his dinner, the best thing to do is let him stop eating when he's had enough — but with the understanding there won't be any snacking to make up. He'll have to wait for the next regular meal. It doesn't take a bright child (or even a dumb one) long to learn good eating habits.

As to forcing foods a child just doesn't like — well, aren't kids as entitled to consideration as much as anyone else? What do adults do when they are served something they truly don't like? Here again I must insert a warning that wise parents will see the difference between a genuine dislike and an occasional child's contrariness just for the sake of being contrary.

If a child persistently refuses

Being forced to eat, and particularly being whipped and forced to sit at the table for cruelly long periods, certainly won't do a child's stomach any good — but the big damage will be to his emotions, building up resentment and even hatred.

Common sense and kindness will solve most of the questions of children's meals.

Folks who whip or otherwise force children to eat should examine their own motives. Why do they do it because it is really "good for you?" If so, how? Or do they do it because they are angry people who insist on showing who's boss?

With all the "lib" movements these days, maybe we need a "children's lib" for some cases.

Dear Doctor: I am 10 years old and have a pet turtle. I have heard that turtles carry diseases. Is this true? What causes the disease? How do you tell if you have it? What is the treatment? — J.C.

Turtles are likely to carry a germ called salmonella, the germ that causes most of the outbreaks of "food poisoning."

(Cramps, loose bowels, feeling miserable.) Best rule, if you have a turtle, is to wash your hands thoroughly after playing with it.

Dear Dr. Thosteson: I've had my tubes tied since my last child was born almost six years ago. Now that I've remarried, I'd like to have another child. Is there any chance the tubes can be repaired? — G.B.G.

Sometimes they can, sometimes they can't, and there isn't much you can do except try it and fine out. In fact, there isn't anything else you can do.

Dear Dr. Thosteson: I went to a practitioner for back pain, and also told him I thought I was allergic to something, possibly a food substance. He told me if it was food all I have to do is hold the food in my hand, and with a machine he can determine if I am allergic to it or not. Is this possible? — L.L.

Would that it were! But no such simple determination of food allergy is possible. Steer clear of that fellow!

WAVE FROM MASTERS CHAMP JACK NICKLAUS That's 1971 King Charles Coody at left WINS FOURTH MASTERS TITLE Jack Is Nimble

AUGUSTA, Ga. (AP) — Jack Nicklaus, savoring his fourth Masters golf title, is not prepared to regard it as the first leg of a potential grand slam. "It is silly to talk about it at this stage," the man with the golden golfing touch said late Sunday as he fingered the threads of a size 42-long green jacket that symbolized a cautious three-struck victory in the year's first major golf spectacle.

Jamieson Pleased With His Play

AUGUSTA, Ga. (AP) — "People will say I choked," said cherub-faced Jim Jamieson, "but I feel like a winner." The stubby, round man from Moline, Ill., called by some the bargain basement pro, arrived at the flowery Augusta National Golf course Sunday looking for the first victory of his pro career in one of the game's four major tests—the prestigious Masters.

Lakers Routed By Milwaukee In Playoffs

By The Associated Press Was it Milwaukee's good defense or Los Angeles' inept offense that made the Lakers score only eight points in one quarter of their National Basketball Association playoff game? It was good defense, says Milwaukee Coach Larry Costello. It was inept offense, says Bill Sharman of Los Angeles.

THEY PROSPER AT BORGER — Pictured are the weight men on the Big Spring High School track and field team. The Steers made one of their finest showings in years at Borger over the weekend, scoring 94 points, good for second place. Front row, from the left, they are Bill Coleman and Louie Smith. Back row, Mike Carl, Joe Pessina and Craig Brown. The Longhorns will compete in the 5-AAAA meet at Abilene Friday.

Steers Wind Up Second In Borger Track Meet

BORGER — Big Spring finished second to Borger in the annual Borger Relays here Saturday night. The host school wound up with 186 1/2 points while Glenn Petty's Steers accumulated 94. Third was Dumas, with 92, while Pampa was fourth with 76 1/2 and Canyon fifth, with 37.

Arch Myers 2nd In The Nation

Archie Myers of Howard County JC wound up as the leading junior college basketball scorer in the nation the past season with 1,279 points. In addition, Myers finished second to J. Boye of Englewood Cliffs College, New Jersey, in averaging scoring.

Peewee Players Must Sign Today

Today is the final day for eight-year-olds to sign up for play in the American Little League peewee baseball program, vice-president Van Brown has reminded parents. The league is for boys who will be eight years of age on or before Aug. 1.

Girls' Meet Here Emerges As One Of Best In State

The second annual Permian Belle Relays, which wound up here Saturday night, was declared a success in every way. Both meet director Jack Woodley (Forsan) and the sponsoring group, the Big Spring Jaycees, came in for unstinting praise. A total of 34 teams competed in the event, compared to 17 last year. It is developing into one of the biggest events of its kind in Texas.

New Stumbling Block Occurs In Baseball

By The Associated Press With President Nixon keeping an eye on the situation and buoyed by the first progress in months, talks aimed at settling the 10-day-old baseball strike moved from New York to Washington today, where both sides were to meet with a federal mediator. But even should the dispute, which centers around the amount the major league club owners will contribute to the players' pension fund and which has delayed the opening of the season, be settled, a new stumbling block loomed over whether the players would be entitled to full salaries.

Lamesa Trips Locals Twice

The Big Spring Tiger Cubs got off on the wrong foot Sunday in their season's opener, dropping a doublebill to the Lamesa Eagles at Steer park. Whopper innings in each case won the games for Lamesa, the first 10-8, the nightcap 8-6. In both games the Tiger Cubs outthrew the visitors, but their fielding was ragged when it hurt the most.

Jean Adams' TEEN FORUM

FIRST TIME: (Q) I am going steady for the first time. I am very much in love and I put my boy friend first in nearly all of my considerations. We have been dating five months. In the past month I have not been so close to my other friends as I used to be. My best friend says all I care about is myself and him. She has never gone steady, though, and she does not know what it is like. I am 14 and my boy friend is 16. Do you think I am too young to be going so steady so seriously? — He comes First in Florida.

(A) You are quite young to be going steady. Seeing less of your girl friends is not the only danger in a situation like yours. The big danger is that you are making yourself more and more liable to being badly hurt. This could happen if your boy friend dropped you. It could also happen if he asked more and more of you, and refused to be told no. You can go steady and not put everything into it. You can keep old friends and interests. Then when a break comes you have something to hang onto. See if you can't balance your

life a little more evenly.

EAR PICKER: (Q) I like my boy friend a lot, but one thing he does bothers me. He constantly picks the wax out of his ears. My friends notice it and it embarrasses me. Should I mention this to him or clam up? If I say anything, he may drop me. He is very sensitive. — Wax Worry in Texas.

(A) Suggest in a sympathetic way that maybe he should see a doctor about his ear problem. If he says he doesn't have an ear problem, tell him you've noticed his ears seem to bother him. I am reasonably sure his ear picking is just a nervous habit. He may not even be aware of it. Mention of it may help him to see what he is doing and maybe stop it.

(Want personal answers to your questions? Write to Jean Adams, c/o of the Big Spring Herald, P.O. Box 2402, Houston, Tex. 77001. Only letters that include a stamped, self-addressed envelope can be answered.)

Women Lawyers Have Same Rights

CLEVELAND (AP) — Women lawyers have the same rights as men lawyers and must be allowed private conference room meetings with clients in the Cuyahoga County Jail, U.S. District Court Judge Ben Green ruled here.

His ruling came on a suit filed by Alice Henry, who said she holds a blue belt in judo and karate and is able to defend herself as well as a male lawyer. She said that Sheriff Ralph Kreiger's aides would not allow her to interview clients privately. In an affidavit, one of Kreiger's aides said a woman nurse was once scratched on the throat by a male inmate and a female grand juror touring the jail had to be sedated when a male inmate stripped before her. The judge said Miss Henry could have the same rights as male lawyers at her own risk.

Ready-to-Wear

Horoscope Forecast TOMORROW —CARROL RIGHIER

GENERAL TENDENCIES: A time to look at both sides of whatever question arises and then to sleep on it before coming to any definite conclusion which you can do much better tomorrow. You now would be wise to engage in good close companions with their problems. Also, take care of own personal problems.

ARIES (March 21 to April 19) Making right preparations now for what is very important in your life, particularly where intimate matters are concerned, is wise. Listen to the voice of your conscience before acting.

Taurus (April 20 to May 20) Handling those matters that will benefit both you and friends is best today. Engage in group affairs that can be most helpful. Enjoy harmony at home with kin tonight.

GEMINI (May 21 to June 21) A day to attend to business matters and show your line talents to those who can help you to advance more quickly. Show others that you are concerned about their welfare. Be generous.

MOON CHILDREN (June 22 to July 21) You can now obtain information needed to round out your knowledge so that you can pull ahead in your line of endeavor. Take the time to study new avenues of expression in the evening.

LEO (July 22 to Aug. 21) Keeping promises you have made can now wipe the slate clean so that you can make greater progress in the future. Strive for greater harmony with mate. Kindness is the key.

VIRGO (Aug. 22 to Sept. 22) Associates seen to be thinking in a radically different way from you, so study the situation and come to a perfect understanding. Then be more cooperative. Be careful in travel.

LIBRA (Sept. 23 to Oct. 22) Planning to make your surroundings more charming and delightful is time well spent now. Add to wardrobe only those items that are really necessary. Throw away unwanted clutter.

SCORPIO (Oct. 23 to Nov. 21) Engaging in recreations that are not expensive is fine. The money saved will come in handy in the days ahead. Look into a new activity that appeals to you. Study all the angles.

Refuse To Indict Captain Of Boat

CAMERON, La. (AP) — The grand jury has refused to indict a Texas boat captain charged with manslaughter in the shooting death of a deckhand on a shrimp boat here.

A no bill was returned in the case of Captain Carroll Wolfe, charged in the death of Willie Hamilton, 38. Both were from Freeport.

Hamilton was killed March 27 during an argument aboard the boat. Wolfe turned himself in to the sheriff and was taken to a hospital for a heart condition.

Newark News 'Good' Today

NEWARK, N.J. (AP) — The presses were geared to roll off the first copy of The Evening News of Newark in 11 months today, but the presses were in another newspaper's plant. The Star-Ledger, the state's largest newspaper, took over printing the News as part of an agreement reached last October. The Star-Ledger is a morning newspaper.

The way was cleared last month for the News to resume printing when the last of five craft unions ratified contract proposals.

Bruce Mair, president of the News, said an initial press run of 220,000 papers was planned. The physical assets and Sunday edition of the News were sold to the Star-Ledger of Newark in October. Mair said that although the editorial offices would remain at their site on Market Street, printing will be at the Star-Ledger plant about half a mile away.

Sanity Hearing For Moody Due

SAN ANTONIO (AP) — A sanity hearing was scheduled here today for Michael Lee Moody, a Vietnam veteran charged with the suffocation slaying of a two-year-old Midland girl.

A jury found Moody insane in a trial held here on a venue change on Oct. 28, 1969, and he was remanded to the Rusk State Hospital for the Criminally Insane.

Now 26, the former rookie Midland policeman was charged with the August 1968 slaying of Lori Margaret Gunn, a neighbor, whose partially nude body was found wrapped in a sleeping bag in a bedroom closet of his home.

Improved Services

TEL AVIV (AP) — Electricity and water services have been extended to all parts of Arab East Jerusalem with the assistance of a municipal subsidy.

Before the 1967 Mideast War, 30 per cent of East Jerusalem's houses were without electricity and 60 per cent without running water. Israel captured the city in the 1967 war.
