Ships Heading For Viet Ports Change Course

WASHINGTON (AP) — The Pentagon reported today that several merchant ships heading for North Vietnamese ports have apparently changed course because of the American mine blockade.

Summit Meet 'Still On'

WASHINGTON (AP) — A cordial 50-minute meeting between President Nixon and two high-ranking Soviet officials on trade matters indicates Nixon's Moscow summit meeting will take place as planned May 22.

Three-County Area Has Induction Call

Five induction orders will be issued in Howard, Martin and Mitchell counties for the months of April, May and June, according to John W. Hughes, chairman of Local Board No. 71, Selective Service System.

Army Helicopters Due For Parade

Two Army gun ships and one reconnaissance ship will perform maneuvers over Big Spring May 20, as the Army participates in the Armed Forces Day Parade.

MARTHA DIGS 'RAT RACE'

OMAHA, Neb. (AP) — Former Attorney General John Mitchell will return to his private law practice if President Nixon is re-elected, Mrs. Martha Mitchell said Thursday.

FLOOD WATERS BEGIN TO RECEDE

Six Drown In New Braunfels

NEW BRAUNFELS, Tex. (AP) — A cloudburst struck this region of Central Texas during the night and the Texas Public Safety Department reported eight confirmed deaths today.

He could give no immediate figures on the number of homes washed away or damaged. A man about 30 who refused to identify himself told how he and his wife, 2-year-old daughter, sister and two dogs got out.

and tennis shoes, said he and his family and dogs tried to walk to higher ground but didn't get very far because of the swift current.

DESTRUCTION OF THE GUADALUPE — Houses were completely destroyed on the Guadalupe River in New Braunfels today by one of the worst floods in history.

It's Four-Way Battle At Demo Conventions

By RAYMOND HOLBROOK Associated Press Writer Texas Democrats head into their county and district conventions Saturday in the second round of a continuing battle to determine the composition of the state delegation that will go to the national convention in Miami.

It's a four-way battle between the supporters of three presidential hopefuls—Sens. Hubert Humphrey and George McGovern and Alabama Gov. George Wallace—and a coalition of liberals and conservatives who want the delegation to be in a better bargaining position by going to Miami "uncommitted."

A sampling of last Saturday's precinct conventions across the state indicate that the "uncommitted" forces will dominate many of this Saturday's conventions although Wallace supporters will be in control in many East Texas counties and in some of the larger cities.

Humphrey, on a recent visit to Texas, urged his supporters to vote for the "uncommitted" delegations but in a number of precincts they ignored his advice and pledged their delegates to him.

The national party has outlawed the old "unit rule" that has dominated Texas Democratic politics for decades. No longer can the "winner take

all" with a simple majority forcing the entire delegation to vote for majority's choice.

Under the new rules the delegations to the county, state and national conventions must reflect the presidential preferences of party members.

While most Wallace supporters consider them conservatives, the veteran Democratic conservatives in Texas are more interested in party control than individual candidates.

Hence they find themselves as strange bed fellows with many liberals who also favor the "uncommitted delegations."

They argue that it will be to the benefit of the Texas delegation to keep its "options open" and to be in a better position to "wheel and deal" at the national convention.

Saturday's conventions will determine the makeup of the state convention in June which in turn will pick the delegates to the national convention.

Counties which are in multi-county state senatorial districts will hold their own county conventions. But in the heavily populated counties which encompass more than one state senatorial district, the delegates from the precinct conventions will go to the district meetings.

Texas Republicans will also hold their county and district conventions Saturday but with Richard Nixon already in the White House there won't be any fights over who will be the presidential nominee. But in some Saturday conventions there may be some party infighting for control and for district committeemen and committeewomen.

The Howard County Democratic convention is set for 8 p.m. Saturday in the Howard County Courthouse, according to an announcement from D. A. Brazel, county chairman.

Delegates to the convention were named at precinct conventions last Saturday evening and about half the delegates appeared to be uninstructed, while about one fourth were instructed for Hubert Humphrey.

Henry Jackson was next and then George Wallace, with about a ninth of the total. Brazel will call the convention to order and ask for election of the permanent chairman.

CLOUDY Partly cloudy to cloudy through tonight, cooler tonight. Fair and mild Saturday. High today 78; low tonight 58; high tomorrow 82.

Protests Over Nixon's Vietnam Policy Mount

Arrests continued to mount today as protests against America's new Vietnam policy moved through a fourth day.

The demonstrations centered mainly on college campuses as they have since beginning Monday night with President Nixon's announcement of plans to mine North Vietnamese ports. More than 1,000 persons have been arrested so far.

As the protests were renewed this morning, police arrested 44 more people blocking access to the Institute for Defense Analysis building at Princeton University in New Jersey. Most of those seized were students.

A crowd of 300 surged across the Cornell University campus at Ithaca, N.Y., early in the morning and smashed about 130 windows. Police drove them back with tear gas after a window was broken in a bank just off the campus.

In Lawrence, Kan., a crowd estimated at from 500 to 1,000 walked about 10 miles around the University of Kansas campus but was turned away from the downtown area by police, who arrested 27. Some windows were broken in the military sciences building.

A demonstration at Ohio

State University in Columbus ended with 76 arrests and some 30 people injured, including 18 policemen. Windows were broken in the ROTC building and several shops bordering the campus.

About 1,000 protesters, mostly high school pupils, chanted anti-war slogans on the steps of the Capitol in Washington.

Ferrel Heady, president of the University of New Mexico in Albuquerque, called off a state of emergency after a campus demonstration broke up about 1:30 a.m.

It was quiet this morning at the United Nations headquarters in New York, which was closed to tourists because of what officials termed "the rising tide of demonstrations."

Reports from across the country showed significant anti-war activity in at least 23 states and the District of Columbia. Violence appeared to ebb somewhat, however, and though there were more than 500 arrests most demonstrations were peaceful.

Despite the demonstrations, a poll conducted for the American Broadcasting Co. and aired on a special Vietnam program Thursday night indicated a majority of Americans support the president's decision.

The survey based on 991 telephone interviews by Lieberman Research, Inc., found 59 per cent agreed with the mining, 28 per cent disagreed and 13 per cent had no opinion.

Commies Sock An Loc From All Sides Again

SAIGON (AP) — North Vietnamese troops and tanks smashed into An Loc again today despite saturation bombing by 70 U.S. B52s that rained more than 1,700 tons of explosives on the devastated provincial capital 60 miles north of Saigon. It was the war's heaviest concentration of B52s.

The U.S. Command reported one American adviser killed, a second wounded and two small Air Force spotter planes shot down in action around An Loc and Chon Thanh, a district capital 15 miles to the south. Two of the four crewmen aboard the planes were missing.

The North Vietnamese appeared determined to turn An Loc into another Quang Tri, the northernmost provincial capital that fell May 1 after similar heavy assaults.

An Loc, under siege since April 7, is 85 per cent destroyed, but its capture by the North Vietnamese would be another blow to prestige of the Saigon and President Nixon's Vietnamization program.

The North Vietnamese hit An Loc with the heaviest artillery bombardment of the war Thursday, firing more than 7,000 rounds and following up with tank and infantry attacks.

The North Vietnamese resumed their heavy shelling and ground assaults from all sides shortly before 9 a.m. today. At least five tanks smashed into the northern end of the town, and enemy infantrymen fought their way into the western sector.

Government forces were reported to have retaken one

block in the northeastern part of town. Field reports concerning the situation were confusing, with

the defense lines rapidly changing. Fighting also erupted closer to Saigon.

MOVING — Dr. Pat Smith checks an elderly Montagnard patient Thursday in her medical facility at Kontum. The woman doctor, originally from Seattle, ran the facility in the Central Highlands city for 13 years, but with a North Vietnamese attack feared imminent decided to move the hospital to Pleiku. The evacuation began today.

Factories Here Pollute Only To Minute Degree

By BRIAN PEAY

Questions have been raised by various people for several years now on whether Cosden Oil and Chemical Co. and other industries around Big Spring are causing air pollution.

Many of the interested parties have gone as far as to investigate the question through meetings with Cosden officials and through other means, but now a solution to the problem, if there is definitely a problem, will not have to be sought by individuals.

Partly because of the national controversy surrounding all types of pollution, and mainly because of a definite problem in the state, the Texas Department of Health has recently taken steps to combat air pollution, even in our own area.

Tests are being run every week on the content of air pollution in the air in Big Spring and reports are forwarded to the Department of Health on the findings.

Buck Kirksey, agent with the Howard County Health Department, makes air analysis tests every six days to determine the particulate content in our air. He has also done extensive research on the air pollution problem, which helps him carry on his work in Howard County.

ATOP POLE

The apparatus Kirksey uses

ACE — Lt. J. G. William Driscoll (above) of Framingham, Mass., helped to shoot down three MIGs over North Vietnam Wednesday to become one of America's first two aces in the Vietnam war. Driscoll, 25, is the radar intercept officer for Lt. Randy Cunningham. Together they have downed five enemy planes to qualify for the elite fraternity of aces.

Nurses Aides To Graduate

Howard County Junior College has graduated its first class of nurses aides.

Response to the instruction — 25 graduates — has prompted the college to announce that the course will be repeated, possibly in the autumn.

Students were trained by Mrs. Mary McClelland, RN, in skills associated with the assistance of RNs and vocational nurses in care of patients and room services.

Several of those who completed the courses had jobs at the time the course was over this week.

Members of the initial class were Viola Allen, Ann Beck, Ella Brown, Roxie Cherry, Jessie Domino, Francyse Gatliff, Sandra Gibson, Eileen Gilbert, Minna Hank, Edna Hopper, Betty Kovacks, Lillie Lewis, Juana Limon, Ethel Minter.

Thelma Manuel, Lucy Newborn, Wanda Nelson, Patsy Padilla, Christine Riordan, Ida Mae Ross, Jewell Sheppard, Sarah Traylor, Faye Warner and Byrdice Wiley.

ANNUAL AIR POLLUTION IN U.S.

	Carbon Monoxide	Sulfur Dioxide	Hydro Carbons	Particulates	Total
90 Million Automobiles	64	9	17	1	91
Factories & Power Plants	12	42	5	17	76
Refuse Disposal & Misc.	24	3	10	11	48
TOTAL	100	54	32	29	215

(All numbers represent millions of tons)

to detect air pollution is located on a pole above the fire substation at Eleventh and Birdwell Lane.

It is a small box housing a vacuum device which pulls 44 cubic meters of air an hour through filters placed over an open end.

Every six days Kirksey places a new filter in the device and leaves it running for 24 hours. After that period the filter is taken out, examined and sent to Austin for laboratory tests.

There are many areas in the state worse than the Howard County area concerning air pollution. And according to Kirksey, the state health department's standards on the minimum amount of pollutants in the air for safe conditions is 60 micrograms of pollutants per cubic meter of air.

Tests on the filters from Big Spring indicate that Howard County is well under the minimum requirement, at less than 20 micrograms per cubic meter. Therefore, if factories around Big Spring such as Cosden are polluting the air, apparently it is to a minute degree.

FILTERS CHECKED
Every filter is checked for the quantity of particulates and every quarter the state department checks the filters for sulfate, nitrate and lead compounds.

Kirksey's activity is in con-

junction with a statewide program being conducted by the department of health, in which the pollution count is being taken in every city and county across the state.

With the average person breathing 35 pounds of air daily, the 215 million tons of pollutants being added to the air each year in the U.S. alone could soon become a disastrous act of self destruction if it is allowed to go unchecked.

To further the campaign against air pollution the state health department has based small work forces in various districts around the state.

Kirksey said his work is also in conjunction with the work of a team of air pollution experts in the state in Odessa. The team will survey this area to pinpoint current polluters and potential polluters such as industry, cotton gins, oil well fields, etc.

The local health agent said all the factories like Cosden will be examined by the team at various intervals and programs will be initiated to help the industries cut down on their own pollution factor.

However, according to the national figures illustrated in the graph, the biggest air pollutant is the automobile. Because the area around Big Spring is not a metropolitan area, the air pollution factor here is so small.

War Against Drug Traffic Being Won?

HUNTSVILLE, Tex. (AP) — The director of the Federal Bureau of Narcotics and Dangerous Drugs has told a judges convocation here that the war against drug traffic is being won.

Despite increases in crime, "We are winning the war against drug trafficking," said John E. Ingersoll in an address to the third annual Texas Criminal Justice Conference.

Ingersoll, a former Charlotte, N. C., police chief, said that last year the bureau seized a record amount of drugs. He said that more than 3,784 pounds of heroin were captured in the agency's foreign and domestic operations — a 138 percent increase over the 1970 figure of 1,593 pounds.

"Still, we could do the job faster if we could eliminate the curse of revolving-door crime," Ingersoll said. "For large numbers of criminals are constantly being returned to the streets to commit the same crimes again."

He said the drug pusher who is "not himself addicted but who preys on the addict is the most despicable of criminals. Narcotics is a big-money trade.

"It is not uncommon; therefore, for a street pusher to be arrested with thousands of dollars in his pocket."

He said sums soaring into the hundreds of thousands of dollars have been produced in court to obtain the release on bail of top drug dealers.

Ingersoll said "experience dictates that the time has come to review the question of bail in narcotics cases where the chance of flight is so great and the need of conviction of guilty parties so paramount to the interests of this nation."

"In the whole field of criminal law, the speedy prosecution of drug traffickers must receive top priority," he said.

The conference closes today when the featured speaker will be Superior Court Judge Joe Weisberger of Providence, R.I.

The three-day conference is a joint venture of the Criminal Justice Council, Sam Houston State University and the Texas Department of Corrections.

Wild Chase Ends With Tot's Death

HOUSTON (AP) — Police said a car carrying two persons accused of shoplifting collided with another vehicle Thursday, killing a four-year-old girl.

The dead child was identified as Connie Lopez of Corpus Christi.

Shoplifting and aggravated assault charges were filed against Manuel Lopez, 42, who police said was the father of the child. Mrs. Beatrice Lopez, 37, identified by officers as the

child's mother, also was charged with shoplifting. Mrs. Esmeralda Trevino, 19, of Houston, another daughter of the Lopez, was another occupant of the car, police said.

Police said the Lopez car was being chased by a department store security officer.

Donna Robinson, 25, the guard, said she saw a woman shoplifting at the store and chased her to a parked car where she was grabbed by a man and thrown to the ground.

The car drove away, she said, and she ran to a nearby pickup truck and told the driver what happened and they raced after the car.

Police said the Lopez car was in collision with a panel truck driven by Jimmy Johnson, 68, of Houston.

Johnson, Mrs. Trevino and Mrs. Lopez were injured. Johnson was listed in poor condition, the others in fair condition.

Lopez was treated at a hospital and then placed in city jail.

Amarillo Mayor Sorry 'Bout That

AMARILLO, Tex. (AP) — The Mayor of Amarillo, L. Ray Vahue, said today he will offer official apologies to the school board of Santa Fe, N.M., for alleged discrimination against board members and members of the city's school band here last week.

School board members complained in Santa Fe that band members were refused service at "one or two restaurants in Amarillo" during the celebration of the Greater Southwest Music Festival.

One report in Amarillo said a festival official had commented that "Santa Fe has a pretty good school band even if they are a bunch of Mexicans."

Mayor Vahue said he will offer official apologies to the Santa Fe board. He added that the apology will be drafted at the next meeting of the city council.

Get-Tough Orders Response Of Chief To Cop Killings

DALLAS (AP) — Angered by having five of his men gunned down within six months, Police Chief Frank Dyson has hit back with a get-tough policy which could set a pattern for other cities across the nation.

PROTECTION

"It's my men first," he says. "I want the criminal elements in this city to understand the full meaning of this statement."

Ordering all patrolmen to answer burglary calls, shotgun in hand, Dyson urged on them "a positive attitude about protecting themselves."

At the same time he set up a grassroots committee of field personnel to conduct an in-depth analysis of the rash of assaults against police officers in the city. That committee submits its first report to him today.

SHOT DOWN

Three Dallas policemen have been shot dead and two seriously wounded while engaged on routine police work since November. Two of those killed were answering burglary calls. The third was gunned down when he stopped what he thought was a traffic violator. Arrests followed in all cases.

Since Dyson ordered his men to use shotguns, instead of handguns that previously were optional, one burglar suspect has been shot dead by a patrolman and a second one wounded. Shotguns are more deadly, especially at close range.

Because two of the police victims were rookies—one newly out of the Police Academy and one killed while doing four weeks of field work in mid-course—some changes in police training are likely.

Rookies presently receive 56 hours of gun training in a 17-week course. Two hours are spent in class and the rest out on the range. There are classes in handling pistols and shotguns, and night firing.

'SILENT' ALARM

Patrolman Johnny T. Hartwell, 32, was shot dead on the street by the driver of a vehicle he stopped last November. The officer with him was wounded. Patrolman Allen Perry

Camp, 22, and newly wed, went alone March 25 to answer a "silent" burglar alarm at a South Dallas school. He found two teenage boys rifling the candy and soft drinks machines. During a scuffle, his gun fell from its holster. A 15-year-old grabbed it and shot him dead.

Patrolman Carl J. Cooke, 20, and newly out of the Police Academy, was fatally shot answering a night burglary call in South Dallas May 1. The older officer with him escaped unhurt.

ADDED TO LIST

Their names were added to the list of 32 on small copper plates affixed to the department's roll of honor just by the door of Dyson's office. One of the names on that board is J.D. Tippet, gunned down by Lee Harvey Oswald within a couple of hours of President Kennedy's assassination in 1963.

Dyson, obviously disturbed at the effect the sudden rash of cop killings could have on morale in the department, made his feelings known directly to the men in a taped statement which was played back to all on the force, instead of through the usual memorandum.

He said his special committee "will look into every facet of officer shootings since January of 1971." "They'll look into the backgrounds of the officers and suspects involved, microscopically searching for any clues into why these shootings have occurred," he pledged.

Dyson said this week that today's report of his task force could only be preliminary. "They asked for more time and

I'm going to give it to them," he said.

Meanwhile he is pushing ahead on other fronts.

He called for "a groundswell of public support" to back two bills he is submitting to the Texas legislature, which would drastically increase the current penalties for assaults on officers.

Dyson wants the penalty for assaulting a peace officer with intent to murder upped from its present two years to life in prison, to a maximum penalty of capital punishment and a minimum one of 10 years. And he wants the penalty for aggravated assault on an officer raised from a misdemeanor to a felony. At present a Texan convicted of this may be fined as little as \$25 with or without a county jail term of one month. Dyson would make it five years in the penitentiary.

The public has responded with an avalanche of mail to the Police Department and the newspapers.

SHOT DOWN — A daring U.S. Air Force test pilot and fiercer since 1949, Lt. Col. Joseph W. Kittinger Jr. has been shot down over North Vietnam. In the 1950s he was hailed as the "first man in space" when he rode a gondola under a balloon to an altitude of 96,000 feet in 1957.

Ghana Women Are Studied

"Women of Ghana" was the topic of study Monday evening when the Wesleyan Service Guild met at 7:30 in the church parlor. Mrs. B. M. Keese, president, presided.

Edith Gay briefly traced the heritage of Ghanaian women from the time of ancient Ghana until its emergence on the world scene at the United Nations General Assembly in 1957, when Dr. Kwame Nkrumah, head of state, appeared. Mrs. W. R. Yates gave the devotional.

Mrs. H. H. Stephens, president of the Women's Society for Christian Service of the Southwest Conference, reported on the jurisdiction meeting in Atlanta, Ga., and tentative plans for the merging of the WSCS and the Wesleyan Guilds. She read new by-laws and instructions from the board of missions for local societies and guilds to follow.

Mrs. Keese reported on the Big Spring district meeting at Snyder Sunday, May 7, where Mrs. Leon Batchelor of Midland, district chairman, presided. Attending were Mrs. Keese, Miss Ruth Gay, Miss Helen Willard, Mrs. Cass Hill, Mrs. Bert Atteck, Mrs. W. E. Moren, Mrs. H. M. Rowe and Mrs. H. H. Stephens.

If Opposites Attract, Pandas Will Get Along

WASHINGTON (AP) — If opposites attract one another, Ling-Ling and Hsing-Hsing should get along famously when they finally meet.

"They're as different as night and day," says Larry Collins, zoologist who cares for the two gift pandas from China. "She's an extrovert and he's an introvert."

Ling-Ling, the female, likes to charge her keepers whenever they enter her cage at National Zoo, Collins said. Hsing-Hsing, the male, just retreats quietly into a corner.

"He's kinda shy while she's the rough-and-ready type," he said.

Thousands of persons have trekked through the panda house since the rare animals arrived almost a month ago from Peking.

However, many visitors fail to glimpse the pandas because they spend much of their time napping in darkened cubicles out of sight of spectators.

And, though they live in adjoining cages, the 18-month-old pandas have never seen one another.

The tractable Hsing-Hsing keeps a clean cage, said Collins, but rambunctious Ling-Ling likes to make a mess.

"She tears bamboo out of the pots so that we have to replace it every few days," Collins said. "We've never had to replace Hsing-Hsing's."

The pandas probably will be introduced to one another when the garden adjoining their cages is completed and they can go outside. They'll be weighed then, too.

"They've both gained weight

but we don't know how much (them)," Collins said. "because we haven't been able to get them outside to weigh health, he added. Both seem to be in excellent health, he added."

BECOMING ACCLIMATED — Ling-Ling, female of the pair of Chinese giant pandas at Washington's National Zoo, munches a carrot while on view for thousands of tourists. The pandas arrived from Peking nearly a month ago, but haven't been introduced to each other yet.

Warns Against Foreign Oil Dependence

The head of a large oil association has warned against dependence on foreign oil following President Nixon's decision to increase oil imports. Chairman Byron Tunnell of the Texas Railroad Commission and another member of the agency praised the action by Nixon.

"An energy crisis is getting closer every day," declared Robert A. Buschman of San Antonio, president of the Texas Mid-Continent Oil and Gas Association.

"It will arrive suddenly when suppliers in the Middle East and Latin America decide to shut us off or drastically increase prices." He said it is unfortunate there is a "necessity for increasing dependence on 'unstable foreign sources.'" He said such dependence has resulted from taxes, regulatory, environmental and political policies and other actions which "inhibit the development of oil and gas resources within this country."

"I don't think there's any question but that's the logical step," said Tunnell in endorsing Nixon's action. He said the first step in meeting the nation's "energy crisis . . . obviously is increasing the level of imports." Tunnell said the Railroad Commission at the same time constantly "warns against becoming overly dependent on foreign sources for domestic needs. We think there should be a balance between domestic supplies and imports."

Jim Langdon, a member of the agency, noted that Texas is operating at its maximum potential flow now and that this is the case of other states with the possible exception of Louisiana.

"As long as foreign oil supplements domestic production and does not supplant it, I certainly approve of the increased imports," he said.

Huge Honeycomb Of Burial Plots

SAN FRANCISCO (AP) — A gigantic honeycomb of concrete cells has been laid in the earth of Holy Cross Cemetery to provide prefabricated burial plots. Gravediggers and the individually dug grave are things of the past, said Tom McGrath, cemetery superintendent.

The 2 1/2-acre honeycomb containing 5,000 cells will accommodate 10,000 persons, with two burials for each cell.

Still awaiting completion are the placement of individual cover lids over each grave and the lawn cover over the honeycomb.

Protesters At SMU Win Major Goal

DALLAS (AP) — Southern Methodist University's week-long anti-Vietnam war student dissent cooled rapidly Thursday after three school trustees promised protesters they will "re-evaluate" the University's stock purchases in war-related industries and strengthen communication lines with students.

Trustees and university officials stood firm, however, against taking an official stand against the war—one of the protesters' primary goals.

Approximately 100 students sat in Thursday night outside a dinner for the school's new president, Dr. Paul Hardin III. Before entering the invitation-only dinner with student assembly members, faculty and trustees, Hardin paused outside to shake hands and exchange greetings with protesters.

During the banquet, Chancellor Dr. Willis M. Tate read a statement condemning Nixon's strategy which the protesters had given him. The demonstration, meanwhile, moved to another part of the campus where plans were made for activities next year.

Following the dinner, trustees Dr. Charles W. Ferguson, Bishop W. McFerrin and James Denman met with protesters, who had grown in numbers to about 150.

To the issue of war-related industrial stocks, McFerrin said, "We are very sensitive to the fact that these are in existence. We are going to have to examine our portfolio in the light of these facts."

\$2 Minimum Pay Measure Sent To Senate, 330 To 78

WASHINGTON (AP) — The House has voted to increase the minimum wage to \$2 next year, instead of making an immediate boost as called for by the Democratic leadership.

A conservative Republican-Southern Democratic coalition also dealt the leadership a setback by refusing to bring any new workers under the protection of the minimum-wage law.

HIGH HOPES

The bill, passed Thursday by a vote of 330 to 78, goes to the Senate, which is working on a bill that would raise the minimum to \$2.20 this year and extend coverage to nearly six million new workers.

The House bill would increase the present \$1.60 minimum to \$1.80 within two months of enactment and to \$2 a year later. The \$1.60 rate would be retained for youths under 18 and students under 21.

Rep. John M. Dent, D-Pa., who managed the rejected bill of the Democratic leadership, said he hopes to restore many of its provisions when House and Senate conferees meet to work out a compromise.

The bill Dent brought to the floor was quickly riddled by two Republican amendments which had the almost unanimous support of Southern Democrats.

One, by Rep. John B. Anderson, R-Ill., stretched out the increase to \$2 until next year. It was approved 216 to 187.

TWO-STEP BOOST

The two-step increase would apply to 34.3 million workers covered by the minimum wage

law before 1966, when the last increase was enacted, most of whom are already making more than that. The 11.2 million workers newly covered by the 1966 act would get \$1.70 this year, \$1.80 next year and \$2 a year after that. The other amendment, by Rep. John N. Erlenborn, R-Ill., added the youth differential and stripped Dent's bill of provisions that would have brought three million state and local government workers, 1.7 million federal workers and 1.1 million household domestics under the minimum-wage law. It was adopted 218 to 192. Erlenborn's amendment also

provided a two-step increase for workers on farms employing an average of eight men. They now get \$1.30 an hour and the amendment boosts that to \$1.50 this year and \$1.70 next year.

Sheriff, Two Men Hit In \$20 Million Suit

DALLAS (AP) — Businessman Clyde Skeen has filed a \$20 million damage suit against two men and a Houston sheriff's officer in connection with charges of theft by false pretense filed against him. Skeen, board chairman of the Dallas Transit System, accused the defendants of libel and malicious prosecution.

The suit arose from a theft by false pretext charge filed against Skeen on April 20, which was later dropped, alleging he and two associates, Gary Berger and Robert J. Ringer of Beverly Hills, Calif., had conspired to steal \$2.5 million from a Houston-based trucking firm, American Associated Vanlines.

QUINTS CELEBRATE THEIR FIRST — The Rychert quintuplets from Udansk, Poland, get some lighthearted instructions from their nurse, perhaps on how to ring up some friends for a birthday celebration Saturday, their first. They are, left to right: Agnieszka, Roman, Eva, Adam and Piotr. Nurse is Danuta Mokrzycka.

Process To Get Water Back In Ground Being Studied

LAMESA — A process well-known to petroleum engineers working to get oil out of the ground could prove a help to the West Texas plains by providing a means to get water back into the ground, according to an engineer who addressed the Lamesa Rotary Club Thursday.

Texas Tech University Prof. Philip Johnson, a member of the petroleum engineering faculty, said that by giving playa water an extra push at the well head a research team last summer pumped 125 acre-feet of the water into the underlying Ogallala aquifer at five lake sites. An acre-foot is equal to one foot of water covering an acre.

Recharge of the Ogallala by gravity has been attempted for several years, Johnson said.

"Almost without exception these wells have had low recharge rates and eventually they plug near the well bore," he said.

In the new research, a well completion technique is used on

all wells to permit pumping the water into the aquifer under pressure.

"One of the most encouraging aspects of the project," said Johnson, "is that we have observed no decrease in the rate of recharge with prolonged pumping."

Maximum surface pressures observed to date have not exceeded 80 pounds per square inch recorded by the wellhead gauge. Injection rates have come up to 2,000 gallons per minute.

Johnson and Prof. Duane Crawford, also of the petroleum engineering faculty, are the principal researchers for the project which is supported by Texas Tech's International Center for Arid and Semi-Arid Land Studies. Working on the project are students of chemical engineering, geosciences, biology, agricultural engineering and petroleum engineering. Most are graduate students.

Johnson told his Lamesa audience that rains during the past

week will provide supplies of water for a continuation of the research.

Although some of the lake water always is used for irrigation, he said, most of it evaporates. The new recharge technique is fast enough to prevent most of this evaporation loss.

He said that observation wells have been drilled at each experimental site so that researchers can check the effects of the recharge on underground water levels and monitor the chemical and biological quality of the water.

Johnson said the returned water moves out radially through the more permeable sections of the Ogallala, creating a water mound at least temporarily around the recharge well.

Recharge wells are 20-inch holes with 10 1/2-inch casing. Lower portions of the well are gravel-packed with upper portions cased in cement to surface level. This design permits water recharge as pressure is applied at the casing head

Chicago 7 Contempt Sentences Reversed

CHICAGO (AP) — Contempt sentences imposed against eight defendants and two lawyers during the controversial Chicago conspiracy trial have been reversed by a federal appeals court.

The 7th U.S. Circuit Court of Appeals on Thursday ordered the charges returned to the U.S. District Court for jury trial. The court cited a 1971 Supreme Court decision which held that a trial judge should disqualify himself from contempt proceedings if the citations are not made until the end of the trial.

Judge Julius J. Hoffman sen-

tenced Bobby G. Seale, chairman of the Black Panther party, to four years on 16 charges of contempt after he severed Seale's case and declared a mistrial six weeks after the trial began in September 1970.

Hoffman waited until Feb. 14, 1970, the day the jury adjourned to consider a verdict, before he cited the other seven defendants and two lawyers for contempt.

Five defendants were convicted Feb. 18, 1970, for crossing

state lines to incite a riot at the time of the 1968 Democratic National Convention in Chicago. They were acquitted of conspiracy to do so. Two other defendants were acquitted of all charges, and the government did not retry Seale on the conspiracy charges.

The appeal of the riot convictions is still pending.

Leonard I. Weinglass of Newark, N. J., one of the defense lawyers cited for contempt, said in California he was disappointed by the appeals court ruling. The defendants had hoped the appeals court would overturn the sentences and not order a new trial.

A spokesman for the Justice Department said in Washington it is undecided whether the government would try the 10 on the contempt charges.

Don't Blame Me, Trudeau Pleads

TORONTO (AP) — Prime Minister Pierre Elliott Trudeau says "don't give me hell" over the United States' policy in Southeast Asia.

"In an election year if anyone is going to influence President Nixon it will be the American voter, not me," Trudeau told about 900 persons Thursday night at a town hall meeting.

A few persons had heckled Trudeau, accusing Canada of "complicity in Vietnam."

Trudeau said that when Nixon says he is prepared to get out of Vietnam in four months if he can take American prisoners of war with him, he is saying, "We want to get the hell out of there."

The prime minister added that Canada would be willing to help in any way it could to end the war.

Nixon Visits His Valet In Hospital

WASHINGTON (AP) — President Nixon made a quick trip to Bethesda Naval Hospital to visit his valet, Manolo Sanchez, before flying to his Camp David retreat in Maryland's Catoctin Mountains.

Nixon spent about 10 minutes Thursday at the hospital visiting Sanchez, who is recovering from an operation to repair a torn cartilage in his left knee. Sanchez, a Spanish-born Cuban refugee, underwent surgery Tuesday.

Nixon later flew to his mountain retreat, presumably for the weekend. When the President's helicopter left the White House south lawn Nixon was accompanied by C.G. "Bebe" Rebozo, a Florida friend and neighbor.

'I've Had Enough,' Says Silver Miner

KEILOGG, Idaho (AP) — "I've had enough," said Ron Flory, a 28-year-old silver miner who never has known another trade.

"I'm taking Gov. Cecil Andrus' offer to relocate and be retrained for another job," Flory and his buddy, Tom Wilkinson, 29, are the only miners rescued among 93 miners trapped by fire, gas and smoke when flames erupted in the Sunshine mine on May 2. Flory and Wilkinson were found one week later and the governor then made his offer.

Rescue crews found 44 bodies in a 24-hour period from Wednesday to Thursday night, bringing the death toll to 91. Another 108 of the original 201 working in the mile-deep Sunshine complex got out quickly when the fire struck.

Wilkinson has said he probably still would be a miner. But Flory was adamant.

Some of his despair was reflected throughout Kellogg's 7,000 population when the last seven bodies were discovered Thursday night.

Worried people at the mine entrance dispersed. What had been an area of intense activity and intense concern suddenly turned into desolation, barely illuminated by the dim lights of the deserted mine buildings.

Grieving families returned to their homes or joined relatives for consolation.

Federal and state mining authorities pursued inquiries into the cause of the disaster and particularly into the mine's safety regulations.

General Manager Marvin C. Chase of the Sunshine Mining Co., had said he was unable to

release his key personnel for testimony before a House Labor subcommittee in Washington on Monday until "the men are out" and the fire extinguished. His staff was reportedly recon sidering this decision.

What caused the flash fire still has to be established.

(AP WIREPHOTO)

MORE GRIEF FOR FAMILIES — With tears in their eyes, families leave the Sunshine silver mine Thursday in Kellogg after hearing that 26 more miners were found dead. A May 2 fire now has claimed 91 lives with only two survivors.

Scout Leader Training Sessions Set Saturday

Boy Scout leaders will have an unusual opportunity of crowding three key training sessions into one here next week.

Bill Priebe, in charge of the Scout leadership training program, said that two indoor sessions will be telescoped into one, and that participants then will move immediately into the highly important outdoor session.

Sessions will start at 9 a.m. Saturday, May 20, at Room 216 in the VA Hospital. At the conclusion of the two hour in-

MISHAPS

Third and Johnson: Oliver B. Nichols, Garden City R.L., and Henry J. Whitehurst, 1812 Ave. E., Snyder; 10:36 a.m. Thursday.

Eighteenth and Rannels: Larry Gene Ringener, 1502 Chickasaw, and Bruce Minor Hatfield, 1200 Wood; 8:55 p.m. Thursday.

400 block of West Fourth: Donna Smith McCann, 510 Goliad, and Marilyn Burchell Owens, Rt. 2, Box 25A; 2:36 p.m. Thursday.

Wagon Wheel Drive-in parking lot, Fourth and Birdwell: Jerry Ray Meyer, 1104 Douglas, and Johnny Rameriz, 1113 N. Scurry; 11:31 p.m. Thursday.

DEATHS

Saturday Rites For A. Juarez

Funeral services for Apolonia Juarez, 66, who was found dead in the back of a house at 509 NW 7th Wednesday, will be at 10 a.m. Saturday at the Sacred Heart Catholic Church. The Rev. James Delaney will officiate. Burial will be in Mount Olive Cemetery.

Arrangements are under the direction of Nalley-Pickel Funeral Home.

Mr. Juarez was born Aug. 19, 1905, in Atlanta, Tex. He came to Big Spring as a small boy. He had been in ill health for a number of years. Mr. Juarez was a member of the Sacred Heart Catholic Church.

Survivors include two brothers, Nazario Juarez, Big Spring, and Pete Juarez, Westbrook; and two sisters, Mrs. Maria Belasquez and Mrs. Maria Lopez, both of Big Spring.

Lane Services To Be Saturday

Funeral services for J. C. (Blondy) Lane, 80, have been set for 3 p.m. Saturday in the Nalley-Pickel Rosewood Chapel with burial in Trinity Memorial Park. The Rev. Dr. R. Gage Loyd will officiate.

Mr. Lane was born Feb. 4, 1892. He was married to Miss

Kiwanis Club Honors Taylor

Leon Taylor, faculty advisor for the Key Club at Big Spring High School, was cited by the Kiwanis Club this week for the commendable job he has done in developing the high school club over the past six years.

Don Lovelady, Kiwanis president, presented Taylor with a plaque and gift certificate in the noon meeting Thursday.

When Taylor took over the position six years ago the organization was very weak, according to Lovelady's presentation speech Thursday. The club had less than 20 members.

Currently the club has over 50 members and is one of the most active clubs in the high school and has been recognized as one of the best Key Clubs in the state.

Speaker for the noon meeting was Harry Nagel, city manager. He spoke on the business of running the city, and enlightened the club members of the recent budget sessions the city has undergone.

This was the first time for Nagel to speak to the Kiwanis Club. He said he and his family are enjoying living in Big Spring and that the people here are great to work with.

Nagel ended his talk by encouraging the club and all other civic clubs and citizens to become involved in their city.

Guests at the noon meeting were Don Stone, Webb Credit Union, and Roy Southern, an instructor at the Big Spring State Hospital.

Local Residents Will Get Bars

Fourteen Southwest Texas State University Air Force ROTC cadets received commissions as well as degrees Friday afternoon.

Scheduled to receive commissions as second lieutenants in the U.S. Air Force Reserve are cadets, including David and Don Bradford of Big Spring, also Michael D. Flynn of Snyder.

These cadets also were in the regular graduation exercises of the university.

Rebecca Taylor Earns Degree

Rebecca Taylor, daughter of Mrs. Bessie Taylor, 1107 Ridge Road, graduates today from Angelo State University.

Miss Taylor, after receiving her bachelor's degree, plans to teach. The Big Spring girl was born here and graduated from Big Spring High School.

Committee Honors Retiring Leader

Thursday was Monty Stokes' Day for the Lone Star district committee, which suspended its monthly business meeting to pay tributes to the retiring veteran Boy Scout executive.

On hand to join in the tributes was Steve Odom, Midland, Buffalo Trails Council executive.

Stokes took early disability retirement for reasons of health May 1, and within a month is due to move to Longview. From Cubs, Scouts and Scouters came an expression of appreciation in the form of a \$280 check presented by Clayton Hicks, district chairman. (He said others may have a part by mailing gifts to Bill Brooks, VA Hospital by June 1.)

Jack Powell, former district chairman who worked closely with Stokes, presented the retiring Scout executive with a

plaque commemorating his service in the district. Gary Gillihan, acting for the Order of Arrow, a Scout camping and service fraternity, gave Stokes a reel for his fishing rod.

Fishing, said Stokes, was something he had wanted to do but never had time while he was working with boys.

A brief eulogy on behalf of the district committee was paid Stokes by Joe Pickle, public relations chairman, who said that the characteristic thing about the executive was that he always kept "the little boy" in the center of everything he did.

The meeting at the VA hospital had a record attendance. Stokes responded by thanking the committee for the privilege of allowing men to work with boys, and most of all my wife, Georgiyann, for letting me have that privilege.

(Photo by Danny Valdes)

BIBLE AWARDS — Outstanding Bible Class students were honored Thursday at Big Spring High School by Chaplain Ken Summy, president of the Howard County Ministerial Fellowship, who gave Bible encyclopedias. At left is Raymond Burchett, named for having shown exemplary progress during the year. In the center are Jarrell Hedrick and Lisa Harrington, who, in addition to high grades, have been most active in class extracurricular projects during both semesters. Mrs. Elizabeth Johansen is the instructor, and class is made possible largely through public contributions. Registrations for the 1972-73 term are now under way.

Prayer Band Circle Is Thanked By VA's Powell

The Prayer Band Circle held its regular meeting at Mt. Bethel Baptist Church Wednesday evening at 6:45. The chairman, Beatrice Person, presided. Devotion was led by Mrs. Johnny Mitchell and the choir.

Communications included a "thank you" letter to the circle from the VA Hospital director, Jack Powell, for the contribution they had made baking cakes and serving them once a month to the veterans.

A spray was sent to the bereaved Weatherall family. Congratulations were extended to circle member Mrs. Faye Warner for having received an achievement award for her work as a nurse's aide from Howard County Junior College.

The assistant teacher, Miss Shirley Thomas, brought a lesson on Christian marriage. She stated that marriage is holy and was ordained by the Creator, upheld by Jesus and taught by Christian leaders like Paul.

A comparison was made of the church family and the married family, emphasizing that

"love is the answer" for both. Without it there is no tolerance, consideration, cooperation or companionship.

Closing remarks by the chairman were that "where there is love there is no confusion. We should keep our hands in God's hand." The meeting adjourned with a song and the motto.

Increase In Gas Rate Approved

FORSAN — The Forsan City Council agreed at its regular session to a rate increase by Pioneer Natural Gas of 6 of one per cent per thousand cubic feet of gas.

The new rate brings the per thousand cost to 90.8 cents. The minimum monthly charge has remained set at \$2.25.

According to Pioneer Natural Gas, the rate increase should average about five cents per month to the average homeowner. The rate increase was justified by higher gas costs in the field.

Brother Of Local Fem Flooded Out

The seriousness of the extent of the floods occurring around New Braunfels was brought home to Mrs. John C. Irwin of Big Spring this morning.

She received a telephone call from her brother, C. A. Page, a teacher in the New Braunfels school system, who told her his house, located near the Guadalupe River, had washed away.

The residence was practically new, having been built only two years ago.

Rainfall Light In Most Areas

Very little rain was reported in Howard County Thursday evening. Most points received just a trace, while Ackerly reported .10 of an inch.

Lamesa received .29, and Snyder gathered in .04.

At the Big Spring experiment station they gauged .17, but one resident on the east side of town said he had to hire two Indians for a rain dance to get .10.

Nursing Home Names Chief

An administrator has been named to operate the newly constructed Big Spring Nursing Center at FM 700 and Virginia. Rev. Billy Hendrix of Denison, a former pastor of Hillcrest Baptist Church in San Angelo, will be in the city soon to open the new convalescent facility.

Rev. Hendrix moved from San Angelo to Denison in 1970 to administer the Denison Nursing Center, which was built by the same construction company that is building the facility in Big Spring.

He was also the pastor of Crescent Heights Baptist Church in Abilene, where he attended Hardin Simmons University. Rev. Hendrix's wife, Doris, will assist him in the operations of the new center.

When opened, the new facility will have a 102-bed capacity and will feature 10 private rooms. A large dining area, a parlor with an entertainment center and a chapel are also housed in the modern nursing center.

The \$450,000 convalescent home is being constructed by McDonald Construction Company of Lubbock.

Meistersingers Offer Program

Monday night's concert in the high school auditorium, featuring the meistersingers, will be free to the public.

An orchestra from Lubbock will accompany the singers, who recently returned from a trip to Corpus Christi. The program gets under way at 8 p.m.

Because of the program, the regular meeting of the Big Spring Choir Bo-sters has been delayed until 7:30 p.m., Monday, May 22, at which time it will be held in the high school choir room.

Thirsty Burglars Leave With Beer

Burglars, apparently thirsty after their efforts to burglarize Crow's Grocery on the Snyder Hwy., satisfied themselves by breaking into the cooling vault and taking two cases of beer.

Mrs. Travis Crow reported the burglary at 3:20 a.m. today to the Howard County Sheriff's office, and Big Spring police were also notified. A deputy sheriff and a police unit were dispatched to the scene.

At the scene, officers found a tire tool, and they discovered that a door latch had been removed in an attempt to gain entry into the store.

It was not until later this morning, after an inventory, that Mr. and Mrs. Crow were able to determine what had been taken in the burglary.

Response Good In Art Exhibit

Response to the art exhibit being sponsored at Heritage Museum by the American Association of University Women has been excellent, directors of the museum were told at the monthly meeting Thursday.

Mrs. Clyde Angel, president, received a report of 1,144 visitors to the art exhibit through Thursday afternoon. It opened last Sunday afternoon and will continue through May 18. Baker Gallery of Lubbock has brought examples for more than a score of artists, including a number of famous names such as Peter Hurd, Henrietta Wyeth (Mrs. Hurd), Frank Gervasi, Thomas Hart Benton, etc.

The exhibit will be open Saturday from 2.5 p.m. and the same hours Sunday, as well as most of next week.

The exhibit will give way May 20 (which is Armed Forces Day) to one honoring the Air Force and recognizing the 20th anniversary of an air base in Big Spring.

This will continue to the end of the month while materials are being gathered for the summer display, "Winning of the West."

Other reports at the meeting reflected membership gains, particularly among the endowment and sponsor categories.

Webb Man Helps Recover Truck

James T. McDonald, Box 4475, Webb AFB, brought about the recovery early today of a stolen truck through his prompt report of "suspicious" actions of two motorists.

McDonald reported to the Howard County Sheriff's office at 2:30 a.m. today that he had helped two men to start their truck which had stalled on Lamesa Drive. McDonald told officers that he had become suspicious of the men because they acted "very nervous," had no ignition key for the truck, and had "hot-wired" the vehicle to start it.

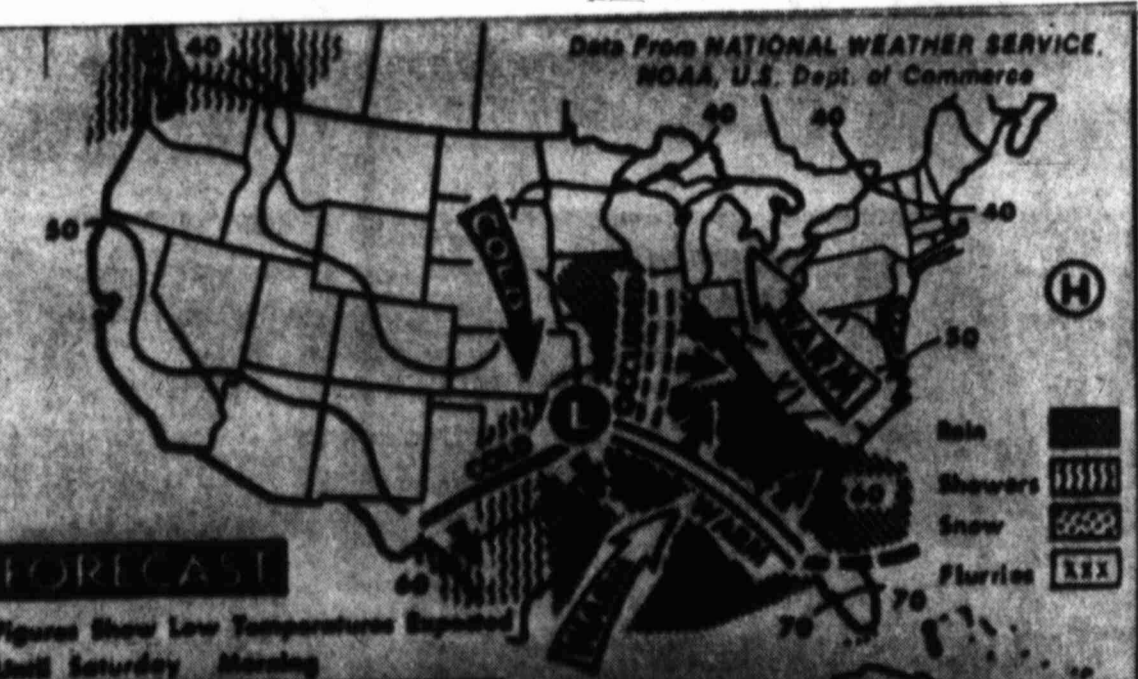

Deputy Sheriff Walt Birdsong, furnished with a license number and description of the vehicle, pursued it to the county line near Ackerly.

Lamesa authorities were alerted, and Lamesa police arrested the men. A license check revealed the truck to be one reported stolen in Houston Tuesday. Further disposition in the matter will be made by Lamesa authorities.

Steph Trial Deliberations

GALVESTON, Tex. (AP) — A seven-man, five-woman jury was expected to begin deliberations today in the trial of Thomas G. Steph, 48, former Texas newspaperman charged with murder in the death of his wife.

The body of Patricia Ann Steph was found floating in English Bayou here last August. A ruling of death by drowning was returned. Steph, former managing editor of the Galveston Daily News, was charged the next day.

Mrs. Steph was socially prominent, active in politics and once a copy desk editor on the Time magazine's staff. Testimony ended Thursday when Asst. Dist. Atty. Ron Wilson abruptly announced the state would rest its case.

After a short recess, defense lawyer William D. Bonham of Houston announced there would be no defense witnesses presented. District Court Judge Donald M. Markle, with the jury out of

the courtroom, denied a defense motion for an instructed verdict of innocent. Dr. Robert Bucklin of Houston, former Galveston County medical examiner, testified Mrs. Steph's death was due to drowning in salt water. He said she had a massive injury on the left side of the head and he believed it was caused by a "large hard object, with a broad flat surface."

James Harris Scott of Dallas, a brother of Mrs. Steph, testified Mrs. Steph had about \$1 million in land and received from \$4,000 to \$7,000 a month oil royalties. He said under Mrs. Steph's will, her husband is to receive half of the community property and half the oil royalties. The remainder is to go to the three children of Mrs. Steph.

Channel 4 News Director Quits

DALLAS (AP) — Eddie Barker, news director of KDFW-TV, Dallas Channel 4, has resigned the post he has held since 1957 to become associated with a public relations firm. Barker will join the firm of Van Cronkite and Maloy as an executive vice president, he said, at the end of the month.

Popularity Hits All-Time High

JERUSALEM (AP) — President Nixon's popularity with the Israelis has hit an all-time high, according to a poll. A sampling of Israeli opinion released Thursday showed that 70.6 per cent of the people were pleased with the President's policy toward Israel. Another 23 per cent were "more or less" pleased.

Antibusing Sentiment Endangers Education Bill

WASHINGTON (AP) — Antibusing sentiment erupted in the House again Thursday, endangering passage of a \$20 billion higher education bill in which the busing issue is snagged. By a 275 to 124 vote, the House for the second time insisted that three tough anti-busing amendments it added to the bill be retained in a House-Senate conference now trying to work out a compromise.

Rep. Carl Perkins, D-Ky., chairman of the conference, said the action would make a compromise difficult, if not impossible to achieve. "YOUR DEAL" "To instruct us again to stand by the House amendments is to say we don't want a higher education bill," said Perkins.

Humble No. One Producer In '71

HOUSTON — Humble Oil & Refining Co. was the leading producer of both crude oil and natural gas in Texas in 1971, according to an annual report published by Petroleum Information Corp., a subsidiary of A. C. Nielsen Co. Humble produced 165,397,676 bbls. of crude from 9,121 oil wells and 1.548 trillion cu. ft. of gas from 1,784 gas wells in Texas in 1971.

DEATH WINS THE ARGUMENT — Salvatore Patti, 61, clings to roof of his house, left, and falls, right, after a four-hour stay atop building, following a quarrel with his wife, Thursday in downtown Milan, Italy. Firemen tried to persuade the man to come down, but his fall ended in death. He ran through the spikes of a fence, was rescued but died later at a hospital.

Connally Seeks To Stamp Liberal Brand On Hobby

AUSTIN, Tex. (AP) — Sen. Wayne Connally has painted seven large letters on his runoff opponent: L-I-B-E-R-A-L. Connally's target at a Thursday news conference was Houston publisher Bill Hobby, who describes himself as a social moderate and a fiscal conservative.

Hobby stances as opposition to a corporate profits tax. He said Hobby's endorsement by the Texas AFL-CIO proves Hobby is a liberal. "SHOCKING?" Hobby's support for unionization of public employees "is shocking evidence of the deal he made" to get labor's support, Connally said in a written statement.

Dean Martin Hit With Damage Suit HOLLYWOOD (AP) — Actor Dean Martin has been hit with a \$6 million damage suit charging that he refused to continue working on the film "Showdown."

Asked if he was correctly quoted as favoring the 11 per cent sales tax West Germans pay, Connally said he didn't know what the limit on the sales tax was. "It's really what the people of this state are willing to pay. I just used the 11 per cent sales tax in West Germany as an example," he said.

lays in the effective date of court busing orders to schools covering more than one school district. "SOME LATITUDE" Perkins said the House conferees had already voted in conference to stand by the House position, but that there had to be "some latitude" if a compromise was to be reached.

She said some of the agreements reached in the conference on a desegregation bill that is also part of the huge education package could lead to a requirement that school districts establish racially balanced schools. She said the way the conference is going, even without the

Does this mean Connally thinks Hobby took different stands on the same issues before different groups in little-publicized meetings around the state? "THAT'S CORRECT" "That's correct. That is correct," Connally said. Connally said he would oppose unionization of public employees.

Housing Scandals Inquiry Pressed

WASHINGTON (AP) — The Veterans Administration continues to guarantee GI home loans for a New York mortgage company that was indicted for fraud and barred from Federal Housing Administration programs six weeks ago.

Pending completion of a VA investigation of the firm, low-down payment mortgages guaranteed by the VA are available to Eastern Service Corp., Hempstead, N.Y., said Edward A. Echols, director of the VA loan guarantee service.

Eastern was indicted by a federal grand jury March 29 in an alleged multimillion-dollar, New York City housing fraud scheme. The company and its top officers were charged with submitting false credit reports to the FHA that allegedly enabled speculators to sell low-income families decrepit, overpriced houses they couldn't afford to maintain.

FHA's subsequent debarment of Eastern as an approved lender did not automatically apply to the government's companion mortgage program for veterans, Echols said, because the VA does not approve mortgage companies, only the applications they submit.

But the VA would have stopped doing business with Eastern if the FHA's disciplinary action had been suspension rather than debarment, Echols said. He conceded there was no substantive difference between the two penalties.

Each removes mortgage companies from participation in FHA programs. "We are examining all of the cases Eastern submitted to us

in recent years," Echols said in an interview. "The results of this investigation are not in and there is no basis for suspension from the program."

Crampton Avoids His Lake To Share Colonial Lead

(AP WIREPHOTO)

SHARING THE LEAD — Bruce Crampton, Sydney, Australia, blasts out of the trap on 18 and pars the hole to share the lead with Fred Marti on the first round of the Colonial National Invitational in Fort Worth. The water hazard behind Crampton is nicknamed "Crampton Lake" — in 1962 he double bogged the hole to lose the tournament.

FORT WORTH, Tex. (AP) — It was something like a scene from out of the past, a bad dream of sorts. "I know you all thought it was headed for Crampton's lake," quipped Bruce Crampton. "Let's all get together and make it official and put a plaque up there." "I tell everyone in Australia that I'm the only Australian who has a lake in Texas named after him." Crampton flirted with his lake on the final hole Thursday but salvaged a par and captured a share of the first-round lead in the \$125,000 Colonial National Invitational Golf Tournament. The 36-year-old Aussie stripped four shots from par 70 and stepped with Texan Fred Marti into a one-stroke lead over a quartet of challengers at 67. Crampton, one of the hottest items on the tour this year, blew a victory here 10 years ago on the 18th hole, collecting double bogeys on the third and fourth rounds with approach shots into the lake beside the green.

The water hazard since has been named "Crampton's Lake." His second shot at 18 Thursday was off target, but caught a trap on the crest of the lake. He blasted to within four feet and dropped the par putt. Marti, winless in nine years on the tour, said he had "one of the best rounds I've ever played" as he spliced a 31-35-66 with six birdies and two bogeys. "Anytime you shoot under 70 on this course you're doing well," the rangy, drawing Texan said. "I just played safe today. If you play bad here there is no telling what you'll shoot." The former University of Houston ace from Baytown, Tex., and his Australian colleague were a shot ahead of Bert Greene, Dave Stockton, Len Thompson and Deane Benam. Six players in the field of 102 were locked at 68, including Phil Rodgers, Bob Lunn, Billy Maxwell, Jerry McGee, Dave Marr and Bobby Mitchell. One stroke back were John Miller, Charles Coody, Lee Elder, Miller Barber and Jerry Heard.

Thompson, a rookie, hit the unique shot of the day, putting his approach shot at the sixth green into the slacks pocket of a television newsmen. "I couldn't believe the ball went into his pocket," he said. "I don't know how it got there. I had to call for a ruling. I told him I'd play it, but I was afraid I'd break my club on the bone in his leg." He bogeyed the hole after getting a drop. FORT WORTH, Tex. (AP) — First-round scores Thursday in the \$125,000 Colonial National Invitational Golf Tournament on the 7,142-yard, par 70 Colonial Country Club course (6-denotes birdie): Bruce Crampton 34-32-66 Fred Marti 33-32-66 Deane Benam 34-32-67 Leonard Thompson 33-32-67 Dave Stockton 34-32-67 Bert Greene 33-34-67 Bobby Mitchell 33-32-68 Jerry McGee 33-35-68 Billy Maxwell 34-33-68 Bob Lunn 33-35-68 Phil Rodgers 34-34-68 Jerry Heard 34-34-68 Miller Barber 33-33-69 Lee Elder 33-36-69 Johnny Miller 34-35-69 Charles Coody 35-34-69 Rolf Johnson 35-35-70 Marty Fleckman 36-34-70 George Archer 35-35-70 Chi Chi Rodriguez 35-35-70 Bob E. Smith 35-35-70 Chris Blocker 34-36-70 Tom Kite 34-36-70 Kermit Zarley 34-36-70 Ken Still 34-36-70 Larry Wood 35-35-70

(AP WIREPHOTO)

RIESEN ADVANCES — Marty Riessen, of Chicago, returns a volley against Cliff Drysdale in the World Championship of Tennis Tournament in Dallas, Tex., Thursday night. After losing the first sets to Drysdale, 5-7, 4-6, Riessen rallied to win the match 6-2, 7-5, 6-3, to advance to the semi-finals in the \$100,000 tournament.

Marty Plays Best Without Sleep

DALLAS (AP) — Marty Riessen thinks a night out with the boys just may be the tonic to carry him to the World Championship of Tennis title.

"I'm learning to control my nerves, said Riessen after he outlasted Cliff Drysdale 5-7, 4-6, 6-2, 7-5, 6-3 Wednesday night to advance to tonight's semifinals against favored Rod Laver. "I've been staying out late and the later I stay out the better I seem to play," Riessen said. "It takes all the nervousness out."

While Riessen was playing better on sleepless nights, Arthur Ashe got 11 hours of winks and thrashed Holland's Tom Okker in straight sets 6-4, 6-1, 6-3 to set up a semifinal match tonight with defending champion Ken Rosewall of Australia.

The nationally televised finals for the \$50,000 first prize will be played at Moody Coliseum at 2 p.m. CDT Sunday. Ashe ripped off 18 aces in a masterful serving performance. "I know how to serve and all I have to do is just concentrate and go out and do it," Ashe said. "You did it," interjected Okker, shaking his head. Riessen has had surprising success against Laver, beating him two out of three times on the WCT tour this year and three out of five matches last year.

"I get excited when I play Laver because he's always the favorite," Riessen said. "He makes mistakes just like everyone else. I've always done well against the Rocket. I've won more than I've lost. I think I'll go out tonight and have a few beers." Ashe said his blinding serves won't work against Rosewall because "You know the ball is going to come back. He's the toughest player for me to play. Rosewall jerks you around and really keeps the ball low." While Ashe had an easy time against Okker, Riessen seemed all but beaten against Drysdale, who ran out of gas in the third set.

Reuss Throws Duece, But Cards Cut Loose

ST. LOUIS (AP) — Lanky Jerry Reuss was sailing toward a triumphant homecoming when fatigue and an old nemesis, fielding, overhauled him Thursday. The 6-foot-5 lefthander, leading 3-1 in the ninth, did himself in mostly with an error as the Houston Astros bowed 4-3 to the St. Louis Cardinals.

When Ted Sizemore bunted perfectly down the third base line, the elongated Reuss fired hard and wild to first base permitting Simmons and Clendenon to score and Sizemore to reach third. Wade Blasingame then spelled Reuss on the mound, but Marty Martinez spanked a delivery into right field for the hit climaxing the Cards' comeback. A disconsolate Reuss, plagued by poor fielding and erratic control in two St. Louis seasons, refrained from remarks on his demise in the Houston clubhouse. But Simmons, his ex-battery mate, lavished praise for an in-shooting fast ball and a tantalizing slow curve which befuddled the Cards until the late innings. "He was throwing that duece," Simmons said in refer-

ence to Reuss' curve. "The darn thing drops straight down at the plate, but you can't look for it or he'll throw the heat." "He had good control," Cards manager Red Schoendienst said, referring to Reuss' eight strikeouts and three walks, "but Sizemore laid down a heckuva bunt." Rick Wise, 3-2, the winner over Reuss, 2-2, in the matinee duel, was less than exultant over a route-going, 10-hit performance. "I felt better in the first couple of games than I have since," reflected the 6-foot-2 right-hander, who lost his first two starts. "But then there aren't any easy ball games," he added, "and Houston's darn tough. They just don't have any easy outs in the lineup anymore."

'SAY HEY'

Willie Mays Traded To New York Mets

NEW YORK (AP) — "It pleases me," said Willie Mays, "that people still want me." With those modest words Thursday, the baseball great began a "new career" at age 41 with the New York Mets. The San Francisco wonder player, acquired in a much-publicized deal, responded with enthusiasm at the idea of playing in New York. "I love baseball and I love this town," said the second best home run hitter in history. "I'm looking forward to playing—I'm not looking forward to embarrassing myself. I'm glad the Mets didn't worry about how old I was. That tells me something. It tells me that maybe I've got something left." For awhile, it looked as if the Mets weren't going to get the great center fielder at all. News of the prospective deal broke last week, but it was reportedly cooled when the Giants' asked too much. Interested in one of the Mets' starting pitchers, the Giants' settled Thursday for minor league right-hander Charlie

Williams and an undisclosed amount of cash. The deal was quickly closed Thursday morning after Mays was personally brought in on the talks. "We wanted to make sure that Willie would be happy in New York," said M. Donald Grant, chairman of the Mets' board of directors. Other than the sentimental reason of returning to the city where he started his playing career with the old New York Giants in 1951, Mays will be happy in other ways, Grant pointed out. "As soon as Willie decides that he doesn't want to play anymore," said Grant, "he has a three-year contract from that day on with the Mets' organization. He'll probably be a coach, but he could do other things." New York Manager Yogi Berra acknowledged that Mays had lost some steam out of his throwing arm, but still could play centerfield with the best because "he knows all the hitters in this league. He knows where to play them. I'm sure he'll help our

team. Maybe some of his knowledge will rub off on the other 24 guys. He should make a good example for our players to follow." Berra doesn't expect Mays to revert to his power-hitting form of 646 career homers, second only to Babe Ruth. But the manager insisted that his new player would be tough in the clutch situations both at bat and in the field. Coahoma League Has Cleanup Day Coahoma is having a workday in its Little League baseball park to prepare for the upcoming Little League season. The clean-up will start at 8 a.m. Saturday. Stan Griffin asks citizens to turn out in force to help paint and to refurbish the park. He also indicated a need for managers in the peewee league. The Coahoma Little League program gets under way May 25 with four leagues: major, minor, peewee, and girls' leagues. For further information, contact Griffin at 394-4554. To Honor Stengel LOS ANGELES (AP) — Joe Dimaggio, the outstanding former New York Yankee outfielder, was added Wednesday to the list of players who will salute Casey Stengel June 4 at Dodger Stadium in an old-timers game.

(AP WIREPHOTO)

AHEAD OF THROW — Lou Brock of the St. Louis Cardinals makes it to third Thursday ahead of a ninth inning throw from outfielder Jim Wynn to Doug Rader of the Houston Astros. Cardinal outfielder Jose Cruz started the action with a single to right field. The cards won, 4-3.

Area Fishing

Runoff into Lake E. V. Spence slowed fishing somewhat during the past week, but those fishing for channel cat reported good luck. The lake increased nearly two feet in level and picked up some 7,500 acre-feet of new water. Mr. and Mrs. Earl Collins, Robert Lee, reported 12 channel cat up to three pounds, and Mr. and Mrs. Howard Edmondson, Odessa, caught 15 channel cat with the largest weighing three pounds. The best of a 15-string of channel cat for Martin Casey and Cliff Calder. Robert Lee, was a 4½-pounder. Hank Baker, Robert Lee, went this one better with a 6-pounder on his string of 13 channel cat. On their fishing junket, Walter Basse and Charley Jackson, Odessa, reported catching 40 channel cat. Just to change the pace, John Paige, Robert Lee, came in with a 11½-pound yellow cat.

City Softball League Ready

Since there is only one Miss Teenage Softball League in the state of Texas, it looks as if the Big Spring all-star major league team will represent Texas at Anaheim, Calif. Big Spring has the only girls' softball team in the state, and the state-representative team receives an all-expenses paid trip to Disneyland. There are only 34 girls registered for the city's major league of the Miss Teenage League and they are the only players eligible for the trip to Disneyland. So competition for the trip may be rather light. Jane Upton, organizer of the league in Big Spring, said tryouts for the league will be at 7:00 p.m. May 15 at Comanche Trail Park for the minor league and at 7:00 p.m. May 18 at the park's softball field for the major league. Sponsors are still needed for teams and youngsters who can't afford the entry fee.

Girls who are still interested in joining the league should call Don Mincey at 3-8534 or Wendell Payte at 3-6469.

Foreman Cripples And Pounds Paez

OAKLAND, Calif. (AP) — Unbeaten heavyweight contender George Foreman scored the 33rd knockout of his professional career — and one of the quickest — Thursday night by stopping Argentine veteran Miguel Paez at 2:39 in the second round of a scheduled 15-round bout. Foreman, weighing 217 pounds, trapped the 32-year-old South American in a corner and pounded him with combinations of punches throughout the second round. Paez dropped to his knees once and took a nine-count. About half a minute later, he went down to his knees again and couldn't make it up before referee Tony Bosnich counted him out. The 23-year-old winner from nearby Hayward made his pro record 36-0. He is ranked third among the heavyweight challengers to champion Joe Frazier.

Dynamic Duo Sets Motorcycle Show

The dynamic duo in the world of motorcycles, Gary Davis and Rex Blackwell, will present a lecture and demonstration at 2 p.m. Saturday at Webb AFB around hangar T-19. The holders of the world's record in daredevil motorcycle jumping will promote Webb's ground safety program. Admission is free and the public is invited.

Catholic Schoolboys Play Ball In Houston

HOUSTON (AP) — Four, and possibly five games, were scheduled today in second day activity in the Texas Catholic Interscholastic League state baseball tournament. In the open game Thursday, St. Thomas of Houston came from behind to defeat Central Catholic of San Antonio, 3-2. St. Pius of Houston was to meet Class 2A state champion Victoria St. Joseph's in the second round of the double elimination, three-day affair. Other second round games scheduled are Laredo St. Joseph's versus St. Mary's of Fredericksburg in a second Class 2A game; Central Catholic versus Bishop Dunne of Dal-

Skyjacker Who Bailed Out Over Honduras 'Home Free'

TEGUCIGALPA, Honduras (AP) — The Eastern Air Lines hijacker who bailed out over Honduras with \$303,000 in ransom apparently landed safely and escaped into the countryside.

The government said Thursday night that a parachute harness and jumpsuit believed discarded by the hijacker were found by government agents Wednesday on Mt. Sorocón, on the border of Atlántida and Yoro counties in northern Honduras.

Capt. Carlos Rene Sagastume, director of the National Investigation Department, said the parachute itself was probably carried off by poor farmers in the area and that he doubted the hijacker had left the country.

Residents told Sagastume's men they had seen a man with a back pack and small suitcase sitting on the ground counting money and using tissues to wipe sweat from his face and that he had disappeared into the jungle. Agents said they

found used tissues in the area. The residents also said the man's shoulder and hands were injured, but a search of hospitals and clinics in the area produced no information on him.

The hijacker, described by the Eastern crew as a Vietnam war veteran about 45 years old, hijacked the plane shortly after it took off from Allentown, Pa., last Friday morning on a flight to Miami. He collected the ransom from the airline in Washington, D.C., where he allowed the 48 passengers to get off. Then the pilot flew to New Orleans, but a mechanical failure developed, and the crew and hijacker switched to another plane.

The hijacker had said he wanted to go to Belize, capital of British Honduras. The plane did fly over British Honduras, apparently on orders of the hijacker, who had in his possession a gun, two bush knives, two crash helmets, food, drink, and cigarettes.

A \$25,000 reward has been offered for information leading to the hijacker's capture.

HONORED AT WESTBROOK — Julia Sweatt (left) emerged as the valedictorian of the eighth grade class at Westbrook this spring with a grade average of 97.833. She is the daughter of Mr. and Mrs. W. L. Sweatt. Salutatorian is Pandora Moore (right), who had a grade average of 97.700. She is the daughter of Mr. and Mrs. Royce Moore. The eighth graders graduate into high school in a ceremony planned for 8:15 p.m., Thursday, May 25.

Groups Vow To Fight Pipeline In Alaska

WASHINGTON (AP) — Oil companies planning to build a pipeline across Alaska said they would not start construction, despite a favorable decision by the Interior Department, until pending court challenges are cleared up.

The announcement came after Interior Secretary Rogers C.B. Morton said Thursday he would grant the right-of-way for a pipeline across Alaska, in preference to an alternate route through Canada.

U.S. environmental groups vowed to continue fighting the project.

Environmentalists got two new legal allies when a three-judge federal appeals court allowed David Anderson, a Canadian member of parliament, and the Canadian Wildlife Federation, to intervene in the case.

The Canadians argued the threat of oil spills from tankers carrying oil from the proposed pipeline past their west coast justified their intervention to defend their interests.

He said the choice of the Alaskan route was a "very, very foolish move" and that Canada would fight it.

NO PREDICTION

Alyeska Pipeline Service Co., the consortium of seven oil companies proposing the project, said it would await the outcome of pending court challenges by environmental groups and Alaska fishing interests before starting construction.

Alyeska said it was "extremely gratified" with Morton's decision.

Morton made no prediction when construction permits would be granted, saying only they "will be issued as soon as that can be done without violating any cou. order."

Dennis Flannery, Wilderness Society, Friends of Earth and Environmental Defense Fund, stated they will oppose the decision in court. The Sierra Club also announced it would continue opposing the pipeline.

Rep. Nick Begich, D-Alaska, who favors the project, estimated the legal battle could take another year, but seemed relieved that the case was going back to court, "out of the arena of emotionalism."

LEGAL ALLIES

Attorneys for both sides scheduled informal conferences but no formal legal action was

Nudes Beginning To Be Seen On Beaches In California

By LYLE W. PRICE
Associated Press Writer

LOS ANGELES (AP) — Nudes may not outnumber scuba drivers and surfers on California's public beaches, but they definitely, ah, are beginning to be seen.

On warm weekends, hundreds show up at semisecluded spots along the coast. They're generally ignored by authorities and, for that matter, by bathers in suits.

One such beach is Pirate's Cove, near Malibu, north of Los Angeles. It can be reached by walking over a small hill.

On a recent weekend, the crowd hit 1,000 at Pirate's Cove. Most of the bathers were nude. Men outnumbered women about 2 to 1. There were many families, their children cavorting on the sparkling white sand and playing in the surf.

"It feels good to have the sun

Dance Scheduled At Webb Tonight

A free dance, open to military personnel and guests, will be held at the Webb AFB recreation center today from 9 p.m. to 1 a.m.

The Uniques, a female vocal group, will provide the music.

To reach the recreation hall, enter at either the Webb Village of the main gate and ask directions.

all over your body," observed a young man with shoulder-length blonde hair, lounging with a group of other nude youths. "you go up and talk to a chick and you're naked and she's naked, so you make nothing of it."

Nude sunbathing has always been popular in sunny Southern California but, until recently, usually in private. Robert G. Johnston, head of the 20,000-member American Sunbathing Association, estimates at least 100,000 people attend nude get-

Port Director On Sales Trip

PORT ARTHUR, Tex. (AP) — Port Director Dow Wynn embarks on a trade mission to the Soviet Union next week under auspices of the National Export Expansion Council.

Wynn is scheduled to leave Tuesday on the three-week sales trip. Visits include Austria, Russia, Poland, Germany and Czechoslovakia.

The mission is the outgrowth of the first American trade conference held with the Soviet Union last November in Arizona.

Wynn says he sees no reason to believe President Nixon's recent Vietnam policy statement will effect the status of the Arizona Trade Mission to Europe.

He indicated the prospect that a wide range of commodities, both for import and export, could be shipped through Port Arthur in the near future by Iron Curtain trade groups.

Panes In Barnes' Car Broken Out

AUSTIN (AP) — An aide to Lt. Gov. Ben Barnes has revealed that windows in Barnes' car were broken out the same night a fire destroyed Sen. John Tower's state campaign headquarters.

A hammer apparently was used to knock out the back window and two side windows of the 1971 Buick Tuesday night, Jason Perlman said Thursday.

The car was parked beside a curb outside the Capitol. The curb marking reads: "Lieutenant Governor."

Barnes was in his Capitol apartment reading at the time and heard the sound of glass breaking but thought it was a soft drink bottle, Perlman said.

Investigators still have not said whether the Tower headquarters fire was set by an arsonist.

U.S. Officers Seize Two Planes, Cocaine

HARLINGEN, Tex. (AP) — U. S. customs officers have arrested three men and seized two airplanes, about \$10,000 worth of cocaine and an undisclosed amount of cash in trying to break up what they described as an international smuggling ring.

Norman Glickman, 51, and Robert Raines, both of Detroit, Mich., and Alfredo Salazar, 22, of Saginaw, Mich., were ordered held in the Cameron County jail at Brownsville in lieu of \$100,000 bond each.

U. S. Magistrate William Mallett set the bond at an arraignment for the men, who are charged with smuggling cocaine.

Officers said the 16 ounces of cocaine would be worth \$600 per ounce on the underworld market.

Federal officers, giving few details about the case, said more arrests were expected.

They said some of the money and the cocaine were found Wednesday when Glickman and Raines were arrested at the Harlingen Airport, where the two planes were seized. More money was found later in an apartment rented by one of the men, officers said.

Salazar, a former resident of Mercedes, Tex., in the lower Rio Grande Valley, turned himself in to federal authorities Thursday, officers said.

School In Moscow Trains Clowns, Specialty Acts

MOSCOW (AP) — When the pupils start clowning around in class at the yellow brick school on Yamskovo Polya Street, it's probably part of the curriculum.

The school is the state Academy of Circus and Variety Arts. It's the only one in the Soviet Union and turns out virtually all the clowns, acrobats, jugglers and aerialists who perform in this country's 56 permanent big tops from Minsk to Vladivostok.

During its 43 years of operation, the school has produced such famous Russian clowns as Mikhail Romyantsev (Class of '30), who used the name "Karandash" in his Chaplinesque routines, and Oleg Popov (Class of '48), currently a top attraction with the Moscow State Circus.

UNIQUE SCHOOL
"Our school is unique not only in the Soviet Union but in the whole world," boasts its director, Alexander M. Voloshin, 65, who has spent 23 years on the school's faculty. He said other schools may teach circus skills but his is the only one which offers an all-round secondary education as well.

Russian youngsters may enter the school at around age 11 after completing four grades of a regular primary school, Voloshin said, and they stay at his school for seven years.

"They take all the subjects they would have in a normal school plus their specialty as a circus performer or a variety show artist," he added.

The academy also has a four year program for pupils who enroll after 8 or 10 years in a regular school. These teenagers usually study the comic arts of slapstick, pantomime and mimicry, Voloshin said, because they take less time to acquire than the precise skills and superb physical conditioning of a high-wire or trapeze aerialist.

Strolling through the school's corridors it is not unusual to

see among students with text and notebooks other students rushing off to dress rehearsal with rouged cheeks and bulbous noses or wearing sequined leotards.

Voloshin said his 450 pupils

Lloyd Named Prexy Again

ST. LOUIS — John H. Lloyd, executive vice president of the Missouri Pacific Railroad, was elected president and Downing B. Jenks was re-elected chairman of the board at a meeting of MoPac's directors here Tuesday.

Jenks, who relinquishes the presidency, continues as chief executive officer. He has been president of the Missouri Pacific since 1961, and chairman since September 1971. Jenks is also president of the Mississippi River Corporation, which controls MoPac, and chairman of the board of the Texas & Pacific Railway and the Chicago & Eastern Illinois Railroad.

Lloyd, who is also president of the Texas & Pacific and the Chicago & Eastern Illinois railroads, became executive vice president of the Missouri Pacific in 1968, after serving as vice president-operation since 1961. Starting as a brakeman after he was graduated from the University of Pennsylvania, he joined the Rock Island Lines in 1951 as assistant superintendent and was named vice president-operation 10 years later. He also was general manager of the Alaska Railroad from 1956 to 1958.

Among those elevated to the MoPac board were Richard A. Goodson and J. T. Suggs, Dallas.

spend about half their day in regular classrooms with academic subjects and the other half in the school's exercise halls, gymnasiums and main ring practicing their specialties.

In one classroom, a matronly teacher led a German recitation before a class of youngsters dressed in the traditional Soviet school uniform—gray suits and smocks, white shirts and blouses and red scarves.

GRACE TAUGHT

Down the hall, a former Bolshoi ballerina coached a group of teen-agers dressed in shorts and leotards in a course called "musical rhythms," designed to teach pupils how to move gracefully, whether entering a ring or dangling from a trapeze.

In the main ring, a high-wire artist soon to graduate streaked across the wire on a unicycle. Acrobats, jugglers and clowns of varying ages practiced in a big exercise hall just off the main ring.

Because of its uniqueness and limited facilities—to be expanded next year with new dormitories and four more rings—the school is one of the most exclusive in the Soviet Union.

"This year there were 3,000 applications and only 80 people were accepted," Voloshin said. "Desire alone is not enough to enter our school. One must have certain qualifications."

He said a special state commission, all circus specialists, chooses those applicants who have the proper temperament, handsome facial features and the right weight and musculature for circus work.

The student's grades will determine where he will work in the Soviet Union. The most talented may get an early chance to travel abroad with the celebrated Moscow State Circus. Others are assigned to circuses or variety theaters in the provinces.

Land Conspiracy Raps Hit Couple

HOUSTON (AP) — Charges of conspiracy to swindle were filed against a man and a woman Thursday in what police alleged to be an attempt to sell 1,008 nonexistent acres of Louisiana land for \$435,000.

Jack Williams Jackson, 47, Harlingen, and Mrs. Eliza Mae Mouton, 40, Denver, were arrested in an office building, police said, after a purchase agreement had been drawn with an undercover police agent.

A third man who said he was Mrs. Mouton's attorney also was arrested but was released without being charged.

Mark Vela of the district attorney's new division on organized crime said the case will be presented Monday to a Harris County grand jury.

Police would release few details of the case but said it has been under investigation a month by the district attorney's office and by city and state intelligence agents.

Sound Achievement

The City Commission has adopted a revised budget to see it through to the end of the fiscal year Sept. 30. It will be recalled that it was not practical, because of a change in administrators and other reasons, to firm up a budget at the conclusion of the last fiscal year (which, by the way, was an extension from the previous April 1 start of the year). The council took a more practical method of going forward under "continuing appropriations," that is continuing the previous budget until changed.

Now that has been accomplished midway into the fiscal year, and with the action comes the good news that the budget promises to finish in the black. For several years, we have been living off our reserves, and this reflects a singular achievement in getting back to the normal procedure of operating within current revenues.

Members of the commission have performed a good service in this turnaround, while, at the

same time, not crippling essential services of constricting replacements and additions unduly.

Indefensible Position

The U.S. Treasury has put itself in an indefensible position by refusing to let Congress see the records of the federal loan guarantee for Lockheed Aircraft Corp.

Lockheed was granted \$250 million in emergency loan guarantees last summer. Congress acted at the Nixon administration's pleading to keep the troubled aerospace company solvent. Lockheed might have gone under without the loans.

Now the Treasury will not let the General Accounting Office, the congressional watchdog agency, see the books and economic analyses

prepared for the special board which administers the loan guarantee.

Treasury Secretary John B. Connally has refused to tell Congress why he is keeping the records secret. Treasury counsel Samuel Pierce claims it is a matter of separation of powers.

The GAO, by law, has access to all federal agency records. The special board is no exception. The government's first claim on Lockheed's assets, should it go bankrupt, must be protected.

By maintaining secrecy, the Treasury makes it appear that there is something to hide. Public business should be made public.

My Answer

By BILLY GRAHAM

I am considered one of the best lawyers in our state, and everyone respects me except my own children. Why can I succeed with everyone but my children?

H.K. I once attended a funeral, and the widow of the man, as she turned tearfully away from the bier, was heard to say, between sobs: "He was such a good provider." She had lost, not a good husband, but a good provider. She was sad that her provision was gone — not her husband.

What does it matter if you become the best lawyer in the whole world, if you lose the respect and love of your own family? That is exactly what Jesus was getting at when He said: "What shall it profit a man if he gain the whole world and lose his own soul?" He was saying, "Don't achieve the lesser at the sacrifice of the best." Don't you see that your main drive and concern is to be a good lawyer, not to be a good father, nor a good person. This is where you have failed with your children. You have unwittingly tried to get them to worship the unworthy "gods" of success and materialism, and they may have refused. They may be wiser than you.

It is tremendously important to excel in your profession, but not at the expense of everything else. The craft of parenthood is more important

than that of an attorney. The Bible says that the things that abide are, "Faith, hope, and love." Start dealing in the commodities that abide, and your children will respect you more.

'I'M QUITTING AGAIN, (COUGH) BUT THIS TIME I REALLY MEAN IT.... GOT A LIGHT?'

Inflation Is Sin

John Cuniff

NEW YORK (AP) — One of the hangups that makes inflation intolerable for Americans and Canadians is that they consider it a moral issue. Inflation is sin, they feel, and conscientious people don't like to live in sin.

The solution, it is suggested, might be to learn to live with inflation rather than to continue to battle it head-on—to break the bonds of Anglo-American morality and try a little Latin philosophy.

Let us, for example, take a tip from Brazil. Now there's a country that knows inflation, its 92 per cent rate as recently as 1964 making puny by comparison our present 4 or 5 per cent.

In the final analysis, the question is posed, isn't it better to live with inflation than to keep high unemployment and compulsory controls? Isn't it merely a choice of the lesser evil?

These are some of the ideas that a professor of international business presented to a seminar on inflation at the University of Toronto School of Business this week.

The professor, Stefan H. Robock of Columbia University, is completely serious on all points and has tried to persuade the Nixon administration to listen. Instead, it has been "extremely consistent" in ignoring him.

In presenting his argument, which he immediately concedes is not a new one, Robock asks

that we list the reasons for thinking inflation is harmful. And to aid us, he provides this checklist:

It discourages private savings, adds to a balance of payments deficit, leads to economic inefficiency and social injustice, distorts and unbalances the investment structure...

But, he asks, do harmful results have to occur? Why not

instead try to neutralize the potentially harmful effects? But how?

Says Robock, a variety of neutralizing techniques exist, such as index-linked loans which provide for readjustment in the amount of the loan on the basis of changes in prices.

"Many countries, such as Israel, Brazil, Chile and Uruguay have discovered the technique of readjustable mortgages, which are to be repaid in currency of equal purchasing power..."

Robock wouldn't limit his adjustments to mortgages only. All payments in the entire economy would be linked to a price index, such as the cost of living.

In Brazil, where such a plan is in effect, the annual rate of inflation peaked at 92 per cent in 1964 but still averages 20 to 25 per cent. But that nation also has grown by 9 to 11 per cent a year during the past four years, a growth rate that probably exceeds that of any other nation.

In principle, he adds, "no one is expected to be in a worse position because of the loss in purchasing power over time..."

"The principle of inflationary correction has been applied to government bonds, long-term mortgages, public utility rates, insurance, pensions, savings deposits, legal judgments for damages and minimum wage rates."

Find Few Gods After 35

Hal Boyle

NEW YORK (AP) — Jumping to conclusions:

Any human being who can't learn to enjoy paranoia today is out of his mind. He is out of step. He is also living in the wrong century. The natural trend of a crowded civilization such as ours is toward paranoia, just as frightened horses run back into their burning barn.

Man finds few gods after 35, literary or otherwise. But you are probably still growing mentally if you can name offhand five books you've enjoyed reading since your 35th birthday. Sometimes older people who take up new enthusiasms and enlist in passing fads may seem foolish to others, but one

of the things that make youth such a memorable period of our lives is not only its ability to scorn but its capacity to be impressed.

Man needs to find new things to admire and accept as much as he wants something new to deride and reject. When time's moss obscures one of his heroes, he immediately searches for a fresh one to replace him.

The safest man to lend money to is the office hypocrite. Your chances of getting it back are 10 times better than if you lend it to the office alcoholic.

Isn't it odd that emergencies rarely happen if we are prepared in advance to cope with them? Thus, if you always car-

ry an extra pair of shoelaces in your pocket, the ones in your shoes will never break. This is known among students of self-aid as Boyle's Law.

A girl never really becomes a top secretary until she has worked for at least three bosses—and fallen in and out of love with one of them.

A reader has written to object to my contention that there is no real place for breaded veal cutlets on a decent menu. He says he knows at least half a dozen recipes for making them tasty and zesty. Well, as a matter of fact, I already have a recipe for making breaded veal cutlets about as endurable as they can be. The recipe begins, "First, you put on the blindfold, and then..."

Life Back In '08

Around The Rim

Steve Hultman

TIMES HAVE changed. Something we all know, but seldom think about.

A few days ago while poking about in a store room at The Herald office, I ran across some copies of the The Enterprise, a weekly newspaper here long before The Herald arrived on the scene.

Some examples of the news available July 10, 1908 are:

Stokes-Illughes Co. wanted 100 men who wore size 16, 16½ or 17 shirts. On half of the front page, their advertisement offered the shirts for 45 cents each.

A big new business building was to be constructed covering a block at the corner of First and Main. Cost, \$10,000.

"Midland, our beautiful little neighbor to the west," was the lead on a story describing the fine efforts of that metropolis on July 4.

COUNTY TREASURER J. C. Baird asked that the citizens support him for re-election, and the city council appointed Mayor Geo. D. Lee, J. I. McDowell, R. P. Jackson and R. T. Piner to a committee on streets and alleys.

Miss Theodora Becker, of New York, opened the first stock broker's office ever run by a woman in America.

Mrs. Joseph Munster, aged 24 years, died in a dentist's chair while having a tooth extracted, at Austin. M. D. Preston, who was serving a

25 year sentence in the Nevada prison for murder, was the socialist nominee for President of the United States.

In London, when the Premier refused to consider the proposition of the Suffragettes, the women commenced rioting, and the police were required to keep order.

A large wood cut picture of William Jennings Bryan decorates page five. A story of the first day of the Democratic National convention in Denver accompanies the picture.

ON THE FACING page, ads for Lydia E. Pinkham's Vegetable Compound shared space with a story of a parlor table that sprouted green leaves — apparently because the wood used had not been cured.

On page six, the subscription price of The Enterprise, W. V. Ervin, editor, was announced as \$1.50 per year.

An editorial said, "The Enterprise is not rabid on the question of strong drink. But we have seen enough to know that demon rum is an almighty destroyer of human endeavor and human industry, and we desire to go on record for state-wide prohibition."

The Federal government had inaugurated a crusade against the white slave traffic. A resort was raided in Chicago and 19 girls freed.

Sheath bathing suits had made their appearance at Atlantic City. Two women wearing the new beach suits created a sensation.

A rich man is one that dresses as well as his wife does.

Crucial Time

David Lawrence

WASHINGTON — There is worry inside European governments and worry inside Asian lands as well. The big question is: What is Soviet policy really going to be and will President Nixon be able to reach an agreement with the leaders of the Moscow regime?

POSSIBLY SOME of the concern arises from the sudden turn in the Vietnam War. Why did the Russians, instead of working with the United States to end the conflict there through peace negotiations at Paris, supply more arms and weapons to the North Vietnamese?

Certainly the United States is the one nation on which many countries in the world depend for defense. The North Atlantic treaty organization, for example, is being urged by Russia to cut down its military establishment, but the United States is not likely to agree to this unless there is a corresponding reduction in the size of Soviet Armies in Eastern European states controlled by Russia. Meanwhile, the feeling persists that the power of the Soviets is being asserted.

PRESIDENT NIXON'S mission, if it comes off, is regarded in every country as a crucial affair. Will the President of the United States accomplish agreements that show a new trend in Soviet policy, or will he find there has been no shift in the sternness of the Communist attitude toward the non-Communist world?

Governments are speculating about the future, and hope is being expressed that Mr. Nixon will be able to turn the tide. But nobody knows

just how such a change will be effected, and most governments are pessimistic. They believe the Soviets' continuing support of Hanoi in the Vietnam War is evidence of how Russian policy is going.

THE BIG QUERY, however, is why the Soviets are not ready to join in the worldwide effort to stop all wars, including the Vietnam War.

The Soviets have their hand in the midst situation, where they are supporting and supplying Egypt. They played a part in the India-Pakistan trouble and doubtless believe they now have a right to bases in the South Pacific for naval purposes.

MILITARY EXPERTS point to the slow process of negotiations to limit the use of nuclear weapons. So it may be said that if diplomatic processes fail, it is conceivable that circumstances may arise that could lead to a third world war.

The people of the United States never believed they would get involved in World War I or World War II, but they eventually found themselves in both.

THE PRESIDENT has other cards to play. He is sure that the Soviet Union can participate in world trade on a larger scale and that the people of Russia could receive the benefits of a greater production, making possible the purchase of necessary goods. Mr. Nixon feels that commercial relationships with Russia can be substantially improved. Above all, however, the President wants the assurances that Moscow will join with the rest of the world in eliminating war. (Copyright, 1972, Publishers-Hall Syndicate)

Letters To The Editor

Dear Sir,
I live on Scurry Street... on "beautiful Scurry Street. Have you ever driven on our patch work street?... you surely do not want to miss seeing such a beautiful patch work pattern.

Since Scurry Street is the most noticed street in Big Spring, it gets more attention than any other. Every week the city comes out and puts more patches on the patches.

Now Scurry Street has a beautiful patch to it, as it is high in the center and low on either side. It is paved, but don't turn off because you will have to jump a ditch along either side the pavement.

Last year the city fixed all the level streets on our side of town, but Scurry was so beautiful they did not touch it. Now they keep two men busy just patching, patching, patching. If you are a newcomer, visit our most beautiful Scurry Street, but be sure to hang on to that steering wheel, or you may just run off.

Dessie Turner
2107 Scurry

To the Editor,
Concerning your newspaper's coverage of (Monday's) action taken by President Nixon has disappointed me greatly. It seems to imply that the greater majority of the people in the United States and in Texas are in favor of the Communist North

Vietnamese killing United States Soldiers and the United States to do nothing to protect themselves. In other words, people like Humphrey and McGovern seem to be favoring the other side. I support Nixon's idea to get Hanoi to the peace table and to a quick settlement now. Please support something American for a change.

Charles E. Ham Jr.
1405 Lincoln

Dear Editor:
I feel led to offer a word of thanks to the Herald staff as well as the radio stations for helping with publicity concerning our Teenage Baseball League. We know this draws attention to your media and helps you continue in business, but we also know that it takes your time and space and programming. Most of us are prone to take from others the good and give little in return — not even a thank you most of the time.

What if we didn't have a newspaper or radio station? It would be hard to communicate without them in a city our size.

I want to say that I really appreciate the willingness and ability of you people to convey messages, whatever they be. You do a great service to our community, and we should show our appreciation to you often.

Byron Smith Jr.
2404 Alabama

A Devotion For Today..

Ho, every one that thirsteth, come ye to the waters, and he that hath no money; come ye, buy, and eat; yet, come, buy wine and milk without money and without price. (Isaiah 55:1)

PRAYER: Thank You, Lord, for the love, blessings, and care that cometh through our faith in Christ, Thy Son, our Redeemer, in whose name we pray. Amen.

Just Cool It

Jean Adams' TEEN FORUM

OLD FRIEND: (Q.) I went to high school with this guy. He seemed to like me, although we never dated. He was very friendly and we talked a lot.

A. Then he turned up in a freshman class of mine in our community college. Two of my old girl friends are also in the class. They know I like him and they make nasty remarks out loud, like "Linda likes Jim." And they laugh. You know how 18-year-old girls can laugh.

A. Now Jim won't say a word to me except "hi" and "bye." How can I get him to talk to me again like he used to? — No Talk in Wisconsin.

A. Jim is older. He knows that you have more in mind now than just friendly talk. He is not sure about himself or about you.

A. Keep on being friendly with him, but not pushy, not grabby.

SWEET FEET: (Comment) I read your answer to the clean girl who perspired and had a bad odor. I had a similar problem, only it was with my feet. He asked me about my diet. When I told him I hated green leafy vegetables he told me, "You don't have any chlorophyll in your body."

A. I had always thought "rabbit food" like that was for girls and women. But I started eating it. In three days my feet quit smelling.

A. Lettuce Eater in Louisiana.

A. Every teen-ager needs green leafy vegetables. They are a part of a balanced diet. They are basic to health. So no one can go wrong eating them, whether they help keep feet sweet or not.

Puzzle of Thursday, May 11, Solved

Educators Wind Up 3-Year Study

Local educators recently completed a three-year project study in media utilization and production sponsored jointly by the West Texas Education Center, University of Texas and the Texas Education Agency.

Marlon A. Barber Sr., Margaret Reid, Polly Adams, C. L. Carlisle, Charlene Driver, W. M. Irwin, Elizabeth Schattel, Louise Spradling, Mary Newell, and Wendell Ware were among 35 educators participating in the project.

Began in 1969, the project consisted of 12 sessions spread over three years in which educators were instructed in media specialties including graphics, audio tape utilization and production, transparency utilization and production bulletin boards, dry mounting and laminating skills, photographic slide production and television utilization and production.

Odessa Luncheon Slated Monday

A number of area students will attend a luncheon in Odessa Monday to receive Scholarship Award Certificates from the West Texas Chamber of Commerce.

The presentation of the awards to the outstanding students will be made by O. R. Clements, Odessa, vice president of District VI of the West Texas Chamber of Commerce.

Winners include Lydia Dawn Hayworth, daughter of L. D. Hayworth, 1700 Donley, Big Spring; Bobby Gene Maines, son of L. D. Maines, Colorado City; Lori Carroll, daughter of Joe Carroll, Lamesa; Richard Jackson, son of Clarence Jackson, Lamesa; Doyle J. Doggett, daughter of James R. Doggett, Stanton; and Lyn Herzog, daughter of George Herzog, Stanton.

Accused Slayer Of NTSU Coed

MIDLAND, Tex. (AP) — Stephen Combs, accused of the slaying of Vicky Berniethi, 20, a North Texas State University, co-ed in August of 1970, has

been returned here from the Rusk State Hospital for a sanity hearing.

A jury found that at the time he was first charged that he was insane. Rusk Hospital pronounced Combs sane last January and the jury must now decide if he is to stand trial.

Explosion Fines Loom

DALLAS (AP) — Some \$21,000 in fines have been proposed by a federal agency against the Pennwalt Corp., where an explosion claimed eight lives in April.

Occupational Safety and Health Administration regional administrator John Barto said three violations of safety standards were found, one of which had nothing to do with possible explosions.

The general manager of the Dallas food processing firm, Peter Higgs, said the alleged violations and proposed fines are under study by his firm and that "we will be seeking advice."

The company can pay the proposed fines within 15 working days or take the matter into federal court. Barto said the investigation indicates two willful violations occurred.

These include use of electrical circuits and equipment not approved for hazardous locations, and use of an underground dust collector system and overhead space heater.

Barto's agency assessed the maximum \$10,000 fine in each of these allegations because "we believe that there is a substantial probability that the existence of these violations caused the explosion."

Barto said in a news conference that the firm had been informed by its insurance company in 1971 that the electrical circuits were hazardous.

The agency said other violations were use of a forklift truck in a hazardous area, proposed fine \$650, and lack of proper skin and respiratory protection, proposed fine \$325.

Use of a forklift in a hazardous area is a "potential source of ignition," said Barto. Barto said the company had scheduled to receive his PhD in agricultural economics in Oklahoma State University Saturday. White is a graduate of Big Spring High School where he was named the top FFA student.

Physical damage to the plant and building was estimated at \$500,000.

Horoscope Forecast

TOMORROW

—CAROL RIGHTER

GENERAL TENDENCIES: A day and evening when there is a considerable amount of activity, especially in connection with your desire to get all errands done, to improve your appearance, and to enjoy recreations. Make sure that you do handle all of those property matters well, also.

ARIES (March 21 to April 19) If you get about seeing charming and interesting friends, you get the fine ideas you need for the weeks and months ahead. Dive into that hobby that brings you more robust health, also.

TAURUS (April 20 to May 20) This is the day to plan improvements for home and to increase both value and appearance of any property you have. Show you are wise where budgeting is concerned. Stay within limits thereof.

GEMINI (May 21 to June 21) Be active with personal interests that are most vital to your welfare right now. Some good friend has the right ideas for you, so be sure to listen to what is being said. A fine alliance can come of this, too.

MOON CHILDREN (June 22 to July 21) You have to meditate quietly if you want to visualize the future more accurately. So keep out of the public eye and make important decisions. Study duties and documents and double check on facts and figures.

LEO (July 22 to Aug. 21) You are socially minded now and can make big headway socially today. Tonight, know what your personal goals actually are. Take the right steps to attain them with relative ease.

VIRGO (Aug. 22 to Sept. 22) A good day to find out what higher-ups expect of you and just how you are going to accomplish in the near future what has been impossible before. Become involved in whether it is of a civic nature. Use tact, diplomacy.

LIBRA (Sept. 23 to Oct. 22) Find the right outlets that will help you expand and show you have exceptional ability. You are able to get the information you need from an expert. Use tact in going after it, though.

SCORPIO (Oct. 23 to Nov. 21) Make good use of your intuition, and you get ahead faster in both personal and business life. An expert in your line of endeavor can be of tremendous help to you now. Contact this person early.

SAGITTARIUS (Nov. 22 to Dec. 21) Instead of thinking you know, it is all set down with associates and have an exchange of ideas that are helpful to all concerned. Listen to what those in the business world have to suggest. Follow best ideas.

CAPRICORN (Dec. 22 to Jan. 20) You can complete that work ahead of you in a most efficient way now, so persevere and all the time. Doing whatever during spare time. Try not to get yourself in Dutch with a blowup.

AQUARIUS (Jan. 21 to Feb. 19) A good day to be with associates for the fun and nonsense you enjoy with them. Plan just how to make the one you love much happier and thereby increase your own happiness. Avoid one who likes to stir up things for the fun of it.

PISCES (Feb. 20 to March 20) You may be that a close tie does not understand your ideas, so explain them carefully and you increase harmony at home. Plan to get more goodwill in the world of business, also. Think.

Bomb Hoax In Houston

HOUSTON (AP) — The 12-story federal courthouse building was emptied for 40 minutes Thursday as security guards and police searched for a bomb reported in the structure.

None was found and about 1,000 workers and others were permitted to return to the building.

A spokesman for the General Services Administration said the evacuation was ordered after a man telephoned the Houston Post and said a bomb hidden in the federal building was set to explode.

Students Win Top Awards

Ben Johnson, editor of the Howard County Junior College newspaper, "El Nido," and Kathy Wright, "El Nido" staff member, are individual first place awards winners in the Texas Junior College Press Association 1971-72 contest.

Awards will be presented to all winning junior college journalism students and winning publications at a conference Oct. 9-10 at Texas A&M University, College Station.

Johnson received first place honors for his page composition for the "El Nido," and Miss Wright her prowess in advertising.

Local students competed against students from 19 junior colleges for individual honors.

White Top Student

Freddie Cad White is scheduled to receive his PhD in agricultural economics in Oklahoma State University Saturday. White is a graduate of Big Spring High School where he was named the top FFA student.

Perry Cotham Leaves To Enter Full-Time Evangelistic Work

By MYRNA MCFADIN
 Perry Cotham, for nine years minister at the 14th and Main Church of Christ, has resigned to enter full-time evangelistic work.
 Mr. Cotham will be preaching mainly in mission areas of the United States and overseas. This is something he has been planning for a long time. He has waited for his children to reach adulthood before making a definite move.
 Mr. and Mrs. Cotham have three children. Dr. Perry Cotham is in the speech department of David Lipscomb College, Nashville, Tenn., a school operated by members of the Church of Christ. Their daughter, Nan, is a graduate

of Abilene Christian College and lives in Austin. She is a home economics teacher. Their youngest, Harry Don, is a student at David Lipscomb College. He will graduate in June, 1973.
ACTIVE COMMUNITY LIFE
 Since beginning his work here Sept. 1, 1963, Mr. Cotham has been active in civic functions. He has worked in the Rotary and Lions clubs and on the United Cerebral Palsy Fund. During his ministry the church has had a good missions program supporting a man in Brazil, Walter Kreidel. He visited Brazil in 1968 and made a six-weeks evangelistic tour of South Africa in 1969. He plans to return soon to Africa,

Rhodesia and Brazil.
 He and his wife regret leaving Big Spring. "Big Spring has been the most wonderful place I have ever lived. Some of the finest people I have ever met live right here. I love them," he said.
 He has been called upon for many weddings and funerals here. He has participated in lectureships at Abilene Christian College and Freed-Hardeman College in Tennessee and has authored and published several religious booklets during his local ministry. He began local work in 1934.
 He has written a total of 13 booklets, some of which have been translated into foreign languages and are in use by foreign missionaries in all Spanish countries. His latest is "After Death, What Then?"

SPECIAL ACTIVITIES
 The church has planned a special day in his honor May 21, his last Sunday as minister. There will be a Bible school attendance drive and homecoming for all former members. At noon there will be a basket dinner at the Fairgrounds Building. They will be moving Monday, May 22. Ladies of the church have planned a special party for Mrs. Cotham Monday, May 15, at the home of Mrs. D. S. Riley, 505 Hillside.
 This summer he will be in Arizona, Oklahoma, Washington and Utah. This fall he will visit Iowa, New York, Michigan,

REV. BOBBY L. EKLUND

Church Calendar

CATHOLIC — IMMACULATE HEART OF MARY — Sunday masses of 8 and 10 a.m. and 6:30 p.m., Saturday confessions from 5:30 p.m. and 7 to 7:30 p.m.

CHRISTIAN SCIENCE — The Lesson-Sermon "Morals and Immortality" will be read in all Christian Science churches Sunday.

METHODIST — KENTWOOD UNITED METHODIST — Rev. Melvin R. Mathis, 10 a.m. "Three Triangles".

NORTH BIRDWELL LANE UNITED METHODIST — Rev. Melvin R. Mathis, 11 a.m. "Three Triangles"; 7 p.m. "The Deep Is For Christians".

PRESBYTERIAN — FIRST PRESBYTERIAN — Dr. R. Goetz Lloyd, 11 a.m. "The Measure of Man".

WEBB AFB CHAPEL — Catholic masses of 10 a.m. and 12:30 p.m., Protestant contemporary worship 9 a.m., Protestant general worship 11:15 a.m.

INTER-DENOMINATIONAL — BIG SPRING GOSPEL TABERNACLE — Rev. Dorothy Brooks, 11 a.m. "Three Periods of Change in the Church"; 7 p.m. "Essential Elements of Perfection".

BAHA'I FAITH — 7:30 p.m. each Tuesday, Informal discussions on Bahai Faith, 1517 Tucson.

The Rev. Mr. Eklund is pastor of the Park Heights Baptist Church in San Angelo and will stress the importance of laymen in the service of evangelism.

Also on the program will be presentations to the Royal Ambassador groups for participation in the associational track meet won by Forsan, with Baptist Temple as runner-up. There will also be a representative from the annual board of the Baptist General Convention of Texas.

Sam Robertson, president, will be in charge of the meeting. Dan Shirley, East Fourth Baptist, and David Norvell, College Baptist, will be in charge of music.

"The Great Passion Play," an annual event on Mount Oberammergau, Eureka Springs, Ark., opens the fourth Friday in May. The play is presented approximately 100 nights each summer through the fourth Saturday in October.

Thousands of people from all over the world are planning to see the play this summer, and you are encouraged to make reservations early. Write the Elva M. Smith Foundation, Mount Oberammergau, Eureka Springs, Ark., 72632.

James C. Royle is the new minister of the Christian Church of Big Spring. The congregation meets at 7th and Rannels each Sunday and Wednesday for worship, Bible study, Lord's Supper and prayer.

Said Mr. Royle, "This is a New Testament Church. Where the Bible speaks, we speak; and where it is silent, we are silent. We are Christians only, but not the only Christians. We are not connected in any way with the National Council of World Council of churches. We do not support them in any way."

The Elders of the Christian Church in Crane are the spiritual overseers of this congregation.

SUNDAY SERVICES
 Sunday at 10:45 a.m. Mr. Royle will bring a message entitled "To Whom Shall We Go?" His 7 p.m. message is "Don't Keep the Faith, Give it Away." You are invited to attend all services.

James Royle is a graduate of Dallas Christian College. He has held ministries in McKinney and Dallas prior to his most recent two and one-half-year ministry in Orangefield, Tex. He and his wife, Joyce, have two sons — Jamey, age three, and John, age one.

Dr. David M. Logan, associated with the medical staff at Medical Center Hospital, was guest speaker Sunday at the Baker Chapel A.M.E. Church.

He spoke on Sickle Cell Anemia and Sickle Cell Disease. This disease is now prevalent among black people only. Very little is known about the disease and its symptoms.

He was introduced by Earlene Frierson, a vocational nurse at Hall-Bennett Hospital. The program was part of the Baker Chapel Missionary Society work.

Saturday, May 6, Church Women United celebrated their May Fellowship at Baker Chapel with a short program and a covered dish luncheon. Mrs. Irene Moreland presided. Mrs. Welsh, president, gave a report on the tasting tea. Mrs. Mary Vaughn worded the thanksgiving prayer, and Mrs. Artice Berry worded the fellowship prayer. Mrs. Freddie White presented the Scripture.

Baptist Men of the Big Spring Association will meet Monday at Prairie View Baptist Church with the Rev. Bobby L. Eklund, San Angelo, speaker.

The Rev. Mr. Eklund is pastor of the Park Heights Baptist Church in San Angelo and will stress the importance of laymen in the service of evangelism.

Also on the program will be presentations to the Royal Ambassador groups for participation in the associational track meet won by Forsan, with Baptist Temple as runner-up. There will also be a representative from the annual board of the Baptist General Convention of Texas.

Sam Robertson, president, will be in charge of the meeting. Dan Shirley, East Fourth Baptist, and David Norvell, College Baptist, will be in charge of music.

"The Great Passion Play," an annual event on Mount Oberammergau, Eureka Springs, Ark., opens the fourth Friday in May. The play is presented approximately 100 nights each summer through the fourth Saturday in October.

Thousands of people from all over the world are planning to see the play this summer, and you are encouraged to make reservations early. Write the Elva M. Smith Foundation, Mount Oberammergau, Eureka Springs, Ark., 72632.

FASHION NOTE — Fashions for men and women were revealed Thursday in New York. At left is an Oscar de la Renta item for men, a wool two-button sports coat in chocolate, black and natural patterned plaid with coordinated tweed trousers. The ensemble was part of de la Renta's Designs for Men, a division of After Six. At right is a number from the Shannon Rodgers collection for the Jerry Silverman line; grey coat and matched dress with white patterns.

DKG Holds Founder's Banquet

Big Spring Country Club was the scene of the recent annual Founders' Day banquet of Delta Kappa Gamma. A ceremony conducted by Mrs. Frank Milligan honored the memory of Dr. Annie Webb Blanton as leader, and 11 other women who established the society in 1929 to recognize and encourage key women teachers.

The occasion also included initiation of Mrs. Judith Blick, Mrs. Mary Jean Byrd, Mrs. Charlene Driver, Mrs. Rebecca Hagood, Mrs. Virginia Hicks and Mrs. Janice Rosson as new members of the society.

Officers for the ensuing two-year period were installed. Mrs. E. Y. Buckner will serve as president; Miss Movelda Rhine, first vice president; Mrs. John Smith, second vice president; Mrs. Trevor Crawford, recording secretary; Mrs. Charles Phillips, corresponding secretary; and Miss Eulalia Mitchell, treasurer.

Music was provided by Mrs. Carl Bradley, vocalist, and Mrs. Lynn Hise, accompanist.

Hostesses were Mrs. James Wilcox, Mrs. Paul Sweatt, Mrs. Ola Mae Robertson, Mrs. Virgil Smedley, Mrs. W. M. Irwin and Mrs. Bernice Slater.

Beta Kappa chapter will not meet again until Sept. 9. This meeting will be held at the First Federal Community Room.

Slate Installed At Banquet

The installation of 1972-73 officers for the Business and Professional Women's Club was held during a banquet Tuesday at Coker's Restaurant.

Miss Movelda Rhine, District 8 director, conducted the ceremony, using a "tossed salad" as the theme. The slate includes Mrs. Charles Summers, president; Miss Helen Willard, first vice president; Miss Wilrena Richburg, second vice president; Miss Edith Gay, recording secretary; Mrs. Robert Smart, Cass Hill, treasurer; and Mrs. J. B. Apple, parliamentarian. Mrs. Summers presented a past president's pin to Mrs. Apple.

The program embraced a patriotic theme, with appropriate decorations in red, white and blue. Mrs. Apple gave a humorous presentation, "What is an American?", and place favors were small silk American flags.

The club officers were hostesses, and Mrs. Joe McFadin was a guest. The next meeting will be a salad supper, June 13, at the Pioneer Gas Flame Room.

Hyperion Club Adopts Installation Ceremony

Mrs. Larry Carrington conducted officer installation ceremonies for 1970 Hyperion Club Tuesday at Big Spring Country Club. The service, written by Mrs. Carrington for the club's first installation in 1970, was adopted as the permanent ceremony.

Taking office were Mrs. O. H. Ivie, president; Mrs. Curtis Strong, vice president; Mrs. Don Kruse, secretary; Mrs. Ronald Medley, treasurer; and Mrs. Howard Carleton, reporter. Retiring officers were each given a red rose, and incoming officers and chairmen were given work folders decorated with roses.

Mrs. Carrington presented the 1971-1972 scrapbook to Mrs. Robert Knight, outgoing president. Hostess for the luncheon meeting was Mrs. Lorin McDowell III. The group will not meet again until September.

Mother-Daughter Dinner For FHA

WESTBROOK (SC) — The Future Homemakers of America held a mother-daughter salad supper recently in the school cafeteria where Mrs. Joy Culwell, guest speaker, discussed relationships between girls, their mothers and grandmothers.

The FHA members presented red corsages to Mrs. Culwell and to the class sponsor, Mrs. Ather Ellis. During a short program, Linda Ranne and Kim Sullivan sang "Pass It On" and led group singing. Guests, other than the girls' mothers, were Mrs. Macey Ware and Mrs. L. M. Dawson.

Packaging Scene

Plastics are bottling up the wrapping scene, says a trade source. Foods that will begin to be, or will increasingly be, packaged in plastic bottles in the 1970s are soluble coffee, peanut butter, pancake syrup, salad dressing, cooking oil and mayonnaise, according to Arthur B. McCamey Jr., chairman of the Plastics Industry, Inc.

Couple Recites Vows In Home Ceremony

Mr. and Mrs. Richard Alan Pitts are on a wedding trip to Albuquerque, N.M., following their marriage May 9 in the home of the bride's parents, Mr. and Mrs. John A. Jones, Star Rt. 1, Knott. Mrs. Pitts is the former Rita Merle Jones, and Pitts is the son of Mrs. A. F. Pitts Jr. of Ackery and the late Mr. Pitts.

The nuptials were performed before an improvised altar accented with a basket of yellow and white chrysanthemums. The officiating minister was Wallace Bradberry of the Ackery Church of Christ.

The bride was attired in a street-length dress of white lace styled with a white satin bow marking the Empire waistline. The bodice featured a high ring collar and long sleeves of pleated lace, and the A-line skirt was of pleated lace. Her headpiece was a bandeau of flowers attached to a shoulder-length veil, and she carried a bouquet of white daisies and pompon chrysanthemums circling an orchid.

Mrs. Robert Carl Nichols of Big Spring attended her sister as matron of honor, wearing a street-length yellow crepe dress trimmed with white lace. Her

nosegay was of yellow daisies. The bridegroom's brother, Tommy Pitts of Dallas, served as best man.

Immediately after the ceremony, the newlyweds were honored at a reception in the home. Mrs. Stephen Poitevin and Mrs. Nichols presided at a refreshment table covered with a white lace-trimmed cloth and appointed with crystal. Centering the table was a Bible flanked by gold candle holders with yellow candles. The tiered

wedding cake was decorated in yellow. Out-of-town guests were Mr. and Mrs. W. A. Jackson of Seminole, the bride's grandparents; Mrs. Tommy Pitts, Dallas; H. W. Wright, Big Spring; and Mr. and Mrs. Donald Grigg and Mrs. Wallace Bradberry, all of Ackery.

Upon returning from New Mexico, Mr. and Mrs. Pitts will reside at 1505-A Lincoln, Big Spring. Both are graduates of Sands High School. Pitts attended West Texas State University and is now employed at the Farmer's Co-op Gin in Ackery. Mrs. Pitts, who attended Howard County Junior College for one semester, is employed by West Texas Title Company.

PINK ELEPHANT BALL TONIGHT

The Pink Elephant Ball, sponsored by West Texas Republican Women's Club, is slated to begin at 9 o'clock this evening at Couden Country Club and will be highlighted by a floor show and attendance prizes. Prior to the dance, those couples' having \$25 tickets will be guests at a champagne reception in the home of the Robert Knights, Silver Heels.

Feminists' Movement Focusing Primarily On Pay, Legal Rights

"There are 20 million people in the United States who live in households that are supported by women who work," said Mrs. D. G. Thomas to members of Potpourri Club Monday evening in the home of Mrs. Ray Thomas, 1300 E. 18th. "Are You A Liberated Woman?" was the program title, and she said the main goals of the new feminist movement are equal pay for equal work; equal job opportunity and equal treatment by law. She said the goals will

be hard to achieve because many women fear they will lose the privilege of having their cigarettes lit and the car door opened for them by men." She distributed a questionnaire for women to answer to determine if they are liberated or complacent with the status quo.

Mrs. Jimmy Ray Smith was elected president at the club's last meeting of the year. Serving with her will be Mrs. Terry Anderson, vice president; Mrs. D. G. Thomas, secretary; and Mrs. Clyde E. Thomas Jr., treasurer. Regular meetings will resume in September.

Miss Walker Is Feted At Shower

Miss Vickie Walker, bride-elect of Jeff Mitchell, was honored at a shower Tuesday evening in the home of Mrs. Marshall Day, Sand Springs.

The honoree was attired in a red and white dress and was presented a corsage of gold carnations accented with green ribbons. Also given corsages were her mother, Mrs. Perry Walker; and the prospective bridegroom's mother, Mrs. Glyn Mitchell.

The serving table was covered with a ruffled, white sheer cloth and centered with a large artificial floral arrangement in shades of green and gold. Crystal appointments were used.

Cohostesses were Mrs. Ernest Garrett, Mrs. Thomas Shirley, Mrs. E. W. Patterson, Mrs. Cecil Drake, Mrs. Clois Snell, Mrs. Bert Smith, Mrs. James V. Cook, Mrs. Carroll Choate, Mrs. Hezzie Read, Mrs. Bobby Cathey, Mrs. Ronnie Walker, Mrs. B. L. Mason, Mrs. LeRoy Headrick, Mrs. T. F. Sheedy and Mrs. B. E. Reagan.

Guests included the honoree's grandmother, Mrs. Alvin Walker, and her great-grandmother, Mrs. Stella Walker. The couple will be married at 7:30 p.m. tonight in the home of Mr. and Mrs. Alvin Walker, Center Point Community.

Mrs. C. Summers Attends Meeting

Mrs. Charles Summers of Big Spring represented the Permian Basin Dental Assistants' Association at the recent state meeting in San Antonio. The retiring state president is Mrs. Lula Wilson, Lamesa, and the new president is Miss Eleanor Lathrop, Dallas. Following clinics and lectures, a memorial was held for the late Mrs. Dub Smith, Midland. Mrs. Dusty Willingham, Lubbock, won first place in the "table clinic".

Let It Lie

Dear Abby
Abigail Van Buren

DEAR ABBY: How much should a girl tell a fellow about her past? I have been dating a very wonderful man for the past five months and he is getting serious, talking about marriage, etc. He knows I am not lily white, but he doesn't know how many and who, and he would be shocked and disappointed if he knew. I am 24, and I have thought I was in love about ten times in my life. I am not too proud of my conduct, but I've grown up a lot since then, and I'm really not a tramp; I've just had a lot of experience for my age. What is your advice? LIBRA

DEAR ABBY: We are loyal Abby fans and have patiently gone through the problems of smokers, non-smokers, knitters, non-knitters, swingers, non-swingers, and so on. Now, we are asking you to please give us a short list. This is on behalf of all METER MAIDS who would like to answer nationwide, a few questions we are asked every day by at least a dozen people. 1. No. We do not have a "quota" of tickets that we have to meet every day. 2. No. We do not work on commission. (I wish we did.) And while we are writing to you, Abby, will you please tell the public that we don't appreciate those cute little "otnk" noises some people make behind our backs. Ours is a job just

like anybody else's. MISUNDERSTOOD METER MAIDS DEAR Ms. M. M.: Will do. But every meter maid I've ever seen looked well able to defend herself.

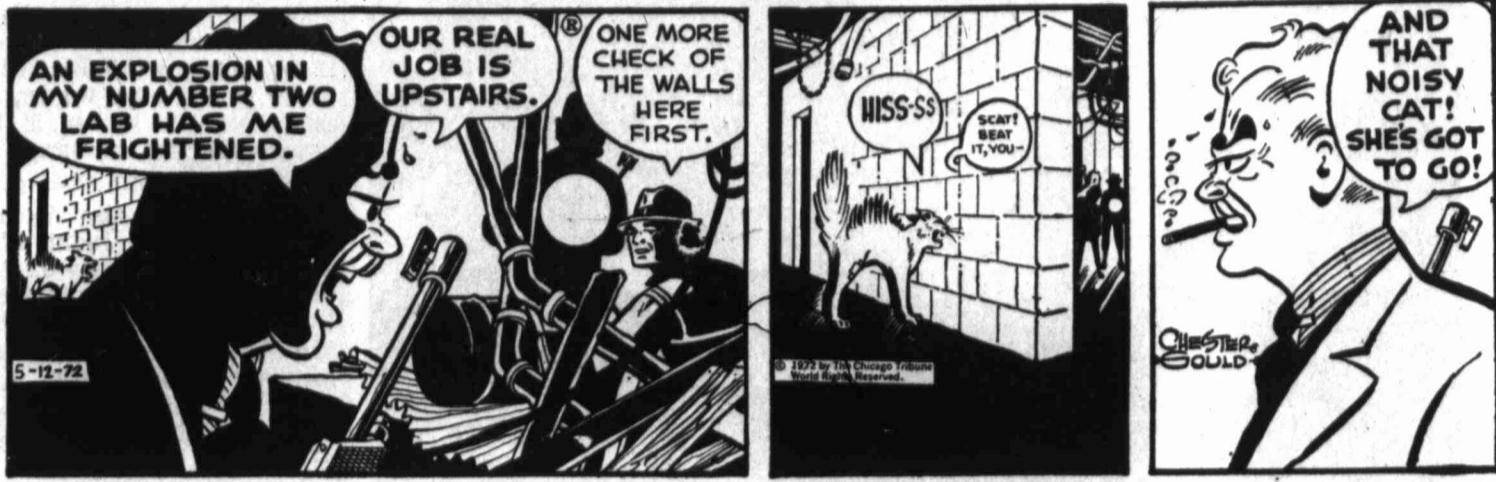

DEAR ABBY I saw a letter in your column not long ago which reminded me of my own situation. My in-laws are also continually giving us financial help, and to tell you the truth, I despise going over there anymore. It's gotten to the point where there is just no hope for us to ever pay them back but they keep on giving. Maybe I am too independent, but I feel that once you are married you are on your own. My husband doesn't see anything wrong with accepting a lot of things we can't afford. This situation has caused a lot of quarrels between us. The more people give you, the more obligated you feel to that person, and you really don't want to see much of a person you feel obligated to. I wish parents would leave their young married kids alone. I'm sure too much giving has caused many a marriage to split up. It certainly is working out ours. YOUNG WIFE

DEAR WIFE: From the mouths of babes many well-intentioned and generous parents don't realize how heavy is the burden of gratitude. DEAR ABBY: I play the trumpet in the high school band. I also play with a brass band for dances. The other day I saw an article in the local newspaper which stated that trumpets and brass instruments cause heart trouble. What I want to know is, do I have anything to worry about? HOT LIPS DEAR LIPS: Not if you have a healthy heart to start with.

Problems? Trust Abby. For a personal reply, write to ABBY, Box 69700, Los Angeles, Calif. 90069 and enclose a stamped, addressed envelope.

Portocaval Shunt

Your Good Health
Dr. G. C. Thosteson

Dear Dr. Thosteson: I have been a lifesaving technique in many cases because a great amount of blood can be lost sometimes when such veins break down. The operation may be advised as soon as the varicose veins are discovered in the esophagus (as a preventive measure) or may be done after a bleeding episode has occurred. Your low-protein diet is required because of the extensive damage that has occurred in your liver, and it must not be overburdened. The amount of protein that you can handle has to be determined on the basis of the way you react, so you'll have to be guided by your doctor as to the types and amounts of protein that you can safely eat.

Dear Dr. Thosteson: I have had a portocaval shunt operation. Can you give me any information on it? I am on a low-protein diet because I get food intoxication. — E.A.C.

In severe cases of cirrhosis of the liver, a patient may develop internal varicose veins. These occur in the lower part of the esophagus, or gullet, and can be detected by X-ray. If these varicose veins rupture, there can be a dangerous amount of bleeding. The portocaval shunt is an operation by which a share of the circulation to the liver is sidetracked, or bypassed, and the purpose is to relieve the pressure on those varicose veins in the gullet. It can, therefore, be a lifesaving technique in many cases because a great amount of blood can be lost sometimes when such veins break down. The operation may be advised as soon as the varicose veins are discovered in the esophagus (as a preventive measure) or may be done after a bleeding episode has occurred. Your low-protein diet is required because of the extensive damage that has occurred in your liver, and it must not be overburdened. The amount of protein that you can handle has to be determined on the basis of the way you react, so you'll have to be guided by your doctor as to the types and amounts of protein that you can safely eat.

Dear Dr. Thosteson: I have hypoglycemia, or low blood sugar. Please send me your booklet on that subject, and answer the following questions for me. I enclose 25 cents and a long, addressed, stamped envelope for the booklet. Will the small amount of sugar in ordinary bread, soup, canned stew, spaghetti sauce, etc., warrant not eating these things. Is syrup or molasses harmful? — Mrs. R.F.

Specifically, the amount of sugar in the items listed in your first question would not be harmful — but after you have read the booklet, it will be clear to you that, while you must avoid sugar, you must also be careful not to eat too much carbohydrate. Spaghetti, for one, is starchy — so go easy. Syrup and molasses should not be used. They are concentrated sugar.

Dear Dr. Thosteson: I am willing to confess that I was a sucker. Reading in a book on nutrition about massive doses of vitamin C as a remedy for arthritis, I made a trial. Negative results. Is there anything whatever to this vitamin C business, or is it just another false alarm? — J.S.M.

No evidence whatever that it will help arthritis. There's some feeling that massive doses of vitamin C may even do some harm. Arthritis being the deceptive sort of disease it is, folks sometimes have spontaneous remissions, and think that whatever they happen to be taking or doing at the time is the reason. So, of course, being utterly convinced themselves, they put up convincing — but misleading — arguments that they "have found the cure for arthritis." Vitamin C is essential to a well-balanced diet. Exorbitant claims for massive doses for specific diseases are not warranted.

Dear Dr. Thosteson: Would a clout above your ear with a heavy instrument cause a ringing and loss of hearing? — E.G.

It could. Better see an ear specialist.

"VOLKSWAGEN SEDAN 111 SUGGESTED RETAIL PRICE, P.A.E., LOCAL TAXES AND OTHER DEALER CHARGES, IF ANY, ADDITIONAL."
 "If an owner maintains and services his vehicle in accordance with the Volkswagen maintenance schedule any factory part found to be defective in material or workmanship within 24 months or 24,000 miles, whichever comes first, will be repaired or replaced by any U.S. or Canadian Volkswagen dealer, and this will be done free of charge."

\$1999*
 That's the price you pay now that the tax and money situation is back to normal.
 That's the price you pay for a rear-mounted, air-cooled engine that's anti-water and anti-antifreeze.
 That's the price you pay for a car that won't let you assemble much of a glass, silverware, or green stamp collection from your local gas station.
 That's the price you pay for 9,160 inspectors that stand behind it (and under it, and inside it, and throughout it) to make sure it's fine.
 That's the price you pay for four free diagnosis check-ups and one free maintenance to make sure it stays fine.
 That's the price you pay for the longest warranty* in the automobile industry (with the exception of Rolls-Royce).
 That's the price you pay for one of the highest resale values in the automobile industry (like the Cadillac).
 That's the price you pay for our twenty-four years of perfecting and improving one single model (with the exception of nobody).

John Taylor Wins Award

The Big Spring Key Club staged its annual installation and awards banquet in the high school cafeteria Thursday night, with an estimated 100 persons present.

Carl Smoot was elevated to the presidency, succeeding Bobby Carlisle.

John Taylor of 614 Highland, a junior in Big Spring High School, was given the Garland Helton Service Award for outstanding contributions to his school and community.

The late Mr. Helton was the member of the Kiwanis Club who served as a consultant and advisor of the Key Club.

New faculty advisor of the Key Club is Harvey Rothell, vocational counsellor at the local high school, who succeeds Leon Taylor.

Many Could Live In Public Shelters

Most communities now have public fallout shelters that would protect many of their residents against fallout radiation. Where there are still not enough public shelters to accommodate all citizens, efforts are being made to provide more.

Most of the existing public shelters are located in larger buildings and are marked with a standard yellow-and-black fallout shelter sign. Other public shelters are in smaller buildings, subways, tunnels, mines and other facilities. These also are marked with shelter signs, or would be marked in a time of emergency.

Individual preparations for a nuclear emergency should include finding out the locations of those fallout shelters designated by local government for public use. If no designations have yet been made, learn the locations of public shelters that are nearest to home, work, school, or any other places where much time is spent.

This advice applies to all members of the family. Children especially should be given clear instructions on where to find a fallout shelter at all times of the day, and what other actions they should take in case an attack should occur.

A fallout shelter does not need to be a special type of building or an underground bunker. It can be any enclosed space, provided the walls and roof are thick or heavy enough to block many of the rays given off by the fallout particles and thus keep dangerous amounts of radiation from reaching the people inside the shelter.

In addition to protecting people from radiation, most fallout shelters also would provide some limited protection against the blast and heat effects of nuclear explosions that were not close by.

WHAT TO TAKE TO A SHELTER

Many public fallout shelters are stocked, or are being stocked, with emergency supplies which augment whatever supply of food and liquids that are found in large buildings. These shelter supplies include water, emergency food rations,

sanitation items, basic medical supplies, and instruments to measure the radiation given off by fallout particles.

People using a stocked public shelter may wish to supplement these emergency supplies with additional food and liquids. Those with special dietary or health problems should take special medicines or foods, such as insulin, heart tablets, dietetic food or baby food. Other useful items not furnished in public shelters include a blanket for each family member, a battery-powered radio, a flashlight, and extra batteries.

If the public shelter to be used does not contain emergency supplies, it is even more important to take the above items plus as many potable liquids (water, fruit and vegetable juices, etc.) and ready-to-eat foods as can be carried to the shelter.

LIVING IN A PUBLIC SHELTER

The people gathered together in a public fallout shelter for a few days, or possibly for a week or two, probably would find life difficult and unpleasant, but still bearable.

In the shelter, water and food may be scarce, and the available supplies of these necessities may have to be "managed"; that is, taken care of, kept clean, and rationed to each person. Sanitation also

may have to be managed and controlled, perhaps by setting up emergency toilets and rules to insure that they are used properly. All shelter occupants would have to observe fire prevention precautions, and know what to do in case a fire occurred.

Occupants of a public fallout shelter in a time of attack would not need to know a great deal about handling these problems. A shelter manager and his assistants would cope with them, with the cooperation of all persons in the shelter. He would make the best use of whatever water, food, and sanitary supplies were available, establish fire-prevention and fire-fighting procedures, set up rules for living in the shelter, see that sick and injured persons were taken care of, and arrange for the shelter occupants to carry on various activities necessary for health and well-being.

Using special radiation-measuring instruments, or depending on official information received from outside sources, the shelter manager also would decide when it was safe for the group to leave shelter, and for how long at a time.

For the most part, occupants in a public fallout shelter would be called upon to support, assist and cooperate with the shelter manager and his staff.

Ex-Officer Will Return As Witness

HOUSTON (AP) — A former Houston police officer, who has testified he saw two policemen beat and kick two prisoners two years ago at the Galena Park Police Station was to return to the witness stand today.

John Gough, 21, was cross-examined by the defense for the second straight day Thursday in the civil rights trial of Arthur N. Hill and Jack McMahon.

Hill and McMahon are accused of violating the civil rights of Bobby Joe Conner and Larry Taylor. Conner died en route to a hospital April 4, 1970. Taylor recovered following surgery.

McMahon and Hill were acquitted June 10 of murder charges in Ronner's death by a state court in New Braunfels. They subsequently were indicted on federal Civil rights charges.

Gough has testified he saw Hill and McMahon kick the prisoners in the stomach.

Dozen BS Women Will Graduate

Twelve local women will receive degrees from Angelo State University during commencement exercises at 7 o'clock tonight. Dr. Gordon Welch of the school's staff will conduct the ceremonies.

Bachelor of science degrees in elementary education will be presented to Mrs. Laura Springer, Mrs. Donald Carlisle, Mrs. Billy Bryant, Mrs. Ted Thomas, Mrs. D. Ball, Mrs. Robert Bradshaw and Mrs. Kay Hopper.

Receiving BS degrees in secondary education will be

Mrs. Jerry Barron, Mrs. Roe Fulgham and Miss Rebecca Taylor. Degrees in business administration will go to Mrs. Roy Hester and Mrs. Ruby Woodley of Forsan.

A reception will be held following commencement in the university center.

Aim Of Doctors: Keep People In Good Shape

A cynic, it has been said, is a man who knows the price of everything and the value of nothing. The witticism was brought to mind by an announcement from Medical Center Memorial Hospital that this is National Hospital Week.

This is an age of cynicism, and hospitals have been the target of their share. Hospital costs and how they've grown is a topic that has been a favorite target for many, and the occasion for criticism will become even more frequent as the subject of national health insurance receives increasing national attention.

No one — certainly not the hospital people themselves — denies that hospital costs have gone up at an unprecedented rate, as have the costs of all service-oriented businesses which must allocate the major

portion of their budgets to wages and salaries.

A perhaps less readily understood reason for the increase in hospital costs is hinted at in the slogan adopted by the American Hospital Association for National Hospital Week. The theme — "We Want You . . . In the Picture of Health" — is said to "express not only hospitals' traditional dedication to making sick people healthy but also their modern commitment to providing the framework for keeping all people healthy." That's a big order and experience indicates that it cannot be filled cheaply.

This isn't to suggest that the cost of hospital care should not be subject to scrutiny and close monitoring. It should and will be, and often it has been the spokesmen for the nation's hospitals who have been the first to tell us so. But, if the American people want a health care system that will provide all the services for all the people all the time — and the action in Washington certainly leads us to think they do — then perhaps it is only realistic to temper discussions of pride with determinations of value.

Lamesa Partners Hit With Charge

Olan Wise and D. J. Dean, partners in Lamesa Hog Co., a buying station at Lamesa, have been charged with violating scales and weighing requirements of the Packers and Stockyards Act, the U. S. Department of Agriculture said in Washington, D.C. today.

USDA's division charged in an administrative complaint that Wise and Dean, in purchasing livestock in commerce on a weight basis had issued inaccurate scale tickets.

Also, P&S charged that the scale was back-balanced eight pounds.

The partners have a right to a hearing on the charges, which must be proven.
