LEGISLATORS START WORK ON SPENDING BILL

Preston Smith's Secret Revealed

AUSTIN, Tex. (AP) — Gov. Preston Smith's secret was out today as the legislature resumed hearings on requests for state government spending.

The secret, unknown even to Lt. Gov. Ben Barnes and House Speaker Rayford Price, was that Texas was going to get an extra \$125 million in federal welfare money.

Smith told a joint session about it Wednesday, an hour

after the legislature convened to write a budget for the fiscal year starting Sept. 1.

After the governor's 40-minute speech and a lunch break, Senate-House committee hearings began on proposed government spending, and a full schedule of hearings was planned through Friday afternoon.

Approximately half of Smith's 361 appointments were

on the agenda for the first meeting of the Senate Nominations Committee, but controversial appointments such as Secretary of State Bob Bullock were to be heard later.

The governor presented a \$4.1 billion budget which would include \$822.9 million from the general revenue fund and emphasized again that "there will be no new taxes signed into law."

He said he first made that commitment June 30, 1971. "It was a pledge that had nothing to do with politics. And, it is a pledge which will be honored," said Smith, who was defeated for re-election.

His proposed budget, which he claimed would leave a balance of \$11.2 million in the state treasury, contained specific provisions for "breaking the welfare cycle."

Smith recommended a \$1 million appropriation for the Department of Public Welfare to develop experimental child development and day care centers and a \$1.7 million appropriation to study childhood development and to deliver health and nutritional care to the poor.

"It is absolutely imperative that we do whatever is necessary to insure that the 300,000

children of welfare families in Texas do not become the second and third and even fourth generation of welfare recipients," the governor said.

The governor also recommended spending \$7.7 million for a state-funded food stamp program to improve the "quality of life for poor people." His proposal provides for the state taking over the cost of the 28 county food stamp programs

now in operation and adding the other 226 counties at the rate of about 20 a month.

It had been expected that Smith would have to recommend welfare financing for only eight months to avoid a tax bill, but the governor said the federal government had agreed to funnel \$125 million to Texas for social services to past, present and future welfare recipients.

\$125 Million Fed Windfall

Two Boys Abandoned

ODESSA, Tex. (AP) — Two small boys handsome and well nourished — are looking for a home after being abandoned by their mother at a day care center here.

The older boy, Mike, 4, cannot tell authorities his last name and refers to his younger brother as "Woss," which may be Ross.

They were left at a West Odessa day care center two weeks ago by a woman who said she would return in a couple of hours.

Ector County Atty. Bill McCoy has filed a petition in state district court to have the children declared dependent and neglected so the county can obtain legal custody of them.

If relatives are not located, the children will be placed with temporary foster parents for two years before they may be legally adopted.

The supervisors of Children's Services, Phil Moser, said they could give no further details except that the woman spoke English and had a fair complexion. Moser said the nursing home violated state standards by not getting the mother's name and address and the children's medical history.

The older boy has mentioned "Momma" and when asked who she is, replies, "Hope." This leads foster supervisors to speculate the mother's name might be Hope.

Moser said he only is looking for information now and that well wishers should not offer to help or possibly adopt at this time.

Rolling Stones Nets Violence

TUCSON, Ariz. (AP) — About 400 persons who tried to crash a rock concert by the Rolling Stones broke windows and clashed with police Wednesday night. It was the second night violence has accompanied a Stones' concert.

The confrontation started after nearly 10,000 concert ticketholders had been admitted to the Tucson Community Center. Those left outside without tickets began to "surge forward," trying to find ways to enter the hall, said Police Lt. Robert Grant.

Police officers reported they were hit with bricks, stones, cans and bottles. Tear gas was eventually used to disperse the crowd which had fanned out around the center complex.

Six persons were reported arrested. Community Center director Robert Thompson said damage was approximately \$3,000.

In San Diego, Calif., Tuesday night rioting broke out after holders of counterfeit tickets to a Rolling Stones concert were turned away. Fifteen persons were injured and 80 were arrested.

The Rolling Stones' public relations manager, Bob Gibson, said the English group was not responsible for the problems which have followed their concerts.

"These things have nothing to do with the Rolling Stones," Gibson said. "The incidents happened outside and involved people who did not have tickets. The concerts are high energy performances. The kids really get excited. It's direct communication with the audience. They want to dance and sing, but this shouldn't bring about violence. They're having a good time. The trouble is from people outside the building."

Mail Fraud Conviction

AUSTIN (AP) — A federal jury found Donald L. Estes, 42, San Antonio, guilty on 22 of 24 counts of mail fraud in connection with publication of a magazine called *The Fireman's Journal*.

Testimony showed that the magazine was chartered in 1969 with no financial assets and advertisements were sold by telephone from a Houston office. Solicitors gave prospective advertisers the impression the magazine was the official and sole publication of the state's firemen.

Two former employees, Leon Schumacher and Joseph M. Holley have pleaded guilty and await sentencing in the case.

SAVES PUPPY — "My name is Yvonne and I'm five years old and I saved my puppy," said this Little Rapid City, S.D., girl after she, her mother and grandmother rode out the flash flood last weekend in the second-story bedroom of their home. The house was swept off its foundation by the flooding Rapid Creek and sailed several feet before coming to rest against some large trees.

Nixon Asks Arms Curb By Sept. 1

WASHINGTON (AP) — President Nixon asked Congress today to approve by Sept. 1 the arms curbs he initiated in Moscow so broader disarmament talks can begin in October.

Speaking informally, Nixon appeared before dozens of congressmen at what he termed an unprecedented briefing session in the State Dining Room of the White House. He had invited 122 legislators to attend and to question the sometimes elusive Henry A. Kissinger, Nixon's national security advisor.

Most of the invited Senate and House members showed up.

In urging approval by Sept. 1 of a treaty with the Soviets limiting defensive strategic arms and a companion executive agreement to curb offensive missiles, Nixon added he was not suggesting it should take that long.

But in any case, he said, he was hopeful the way could be cleared for the beginning of talks in October on broadening limitations on offensive weapons.

The chief executive also urged his audience to fund a bigger defense program, saying the Soviets have made it clear "they are going forward with offensive programs."

Should the United States stand pat, or disarm unilaterally, the Soviets no longer would have any incentive to negotiate.

CLOUDY

Chance for late afternoon and night time thunderstorms, otherwise partly cloudy through Friday. A little cooler this afternoon and a little warmer Friday. High this afternoon upper 80's, low tonight low 60's. High Friday in the low 90's.

FROM 'TOO DRY TO PLANT' 'Too Wet To Plow' Lament Of Farmers

Farmers changed their lament today from "too dry to plant" to a happier one — "too wet to plow."

A surprise thunderstorm, accompanied by high winds in certain areas and a violent electrical display, covered most of this area in falls ranging from an inch to three and a half inches.

Even the previously marginal areas in a strip across the center of the north half of Howard County apparently had enough now to insure getting seed up to a stand.

But there was one catch. Many of the fields were waterlogged and the calendar was standing at mid-June. It may be days before tractors can get into fields, in a few sectors, it could be a week or more.

HEAVIEST HERE

The rainfall appeared to have been heaviest in the Big Spring-Sand Spring area. Most of Big Spring received from an inch and a half up to 2½ inches. The Texas Electric Service Station gauge at the northeast edge of town shed 3.4 inches. Reports from Sand Springs virtually matched this, and at mid-morning Beal's Creek crossing was under three to four feet of water on the Moss Creek Road. This water eventually will go into Lake E. V. Spence, but it will take a day and a half.

Lake J. B. Thomas was due to get some increase. The Colorado River was 11 feet deep in the channel at the upper end of the lake, but rainfall over the watershed did not appear to be too heavy — mostly on the order of an inch.

Caprock Electric Cooperative reported loss of three poles in the Knott area, which had been one of the stubborn drought spots. There, and elsewhere, a number of poles were left leaning by the high winds and downpour. One line went down north of Big Spring, and the highway department put flares out to warn of high water coursing across the Gail road.

The Snyder highway a mile northeast of the Airport was

impassable for a time due to the high water.

Mrs. Lola Fletcher reported a trailer house blown off blocks near Coahoma, and H. M. Parnell, Odessa, reported that the top of a camper had blown off near Stanton. There were no injuries.

In the Luther area, where an inch and a half fell, the wind was high enough to knock a few limbs off trees and shudder homes.

HEAVY FALL

One woman was washed into a ditch near Elbow, and in the same area, Col. Bowden Hampton, USAF Ret., had 2.3 inches, which pushed his total since the weekend to about six inches.

In northern Glasscock County the McDowell ranch had 1.8 inches, which makes 4.2 inches since last Friday.

Stanton had about two inches,

with the amount varying upward. Some young cotton was covered. Lomax had two inches with some washing. A few of the fields looked like lakes this morning.

In Big Spring Boyce Hale reported 1.3 inches at the south edge of town, and this ranged up to two inches or more. On the Snyder highway, the gauge at Price Construction Company had 3.2 inches, making 7.2 inches since last Friday. Terraces in the area were damaged.

Reports from Coahoma, one of the dry sectors, said that the rain amounted to an inch or more, and to the northwest, another dry spot, an inch and a half was recorded, giving farmers ample planting moisture provided they have time.

Vincent, in the northeast corner of the county, reported 1.8 inches, leaving pastures and fields there in excellent condition.

West of Stanton there was a reported 2.9 inches, and in Tarzan, in the west central part of Martin County the fall was measured at 1.4 inches.

The ... INSIDE ... News

The government is peddling a billion dollars. But it's having a hard time finding a buyer because the cash has been ground up in Int. See Page 4-B.

Presidential adviser Henry A. Kissinger heads once again to Peking, under the cover of a barebones announcement that raises many questions about the purpose of his mission. See Page 5-B.

NO COVER CHARGE?

SAN DIEGO, Calif. (AP)

— That nude photo of actor Burt Reynolds was posted on a wall by an enlisted Wave since sailors have had pinups for years. But the Navy reaction was as untypical as the male undraping.

The pinup, clipped from a recent issue of *Cosmopolitan* magazine, was ordered taken down from an office wall at the San Diego 32nd Street naval station Wednesday.

A small group of Waves complained that the action was unfair.

"I don't know why this is being questioned," a base spokesman responded. "I don't see pinups in office spaces that are open to the public."

Aggies Serve Annual Meal

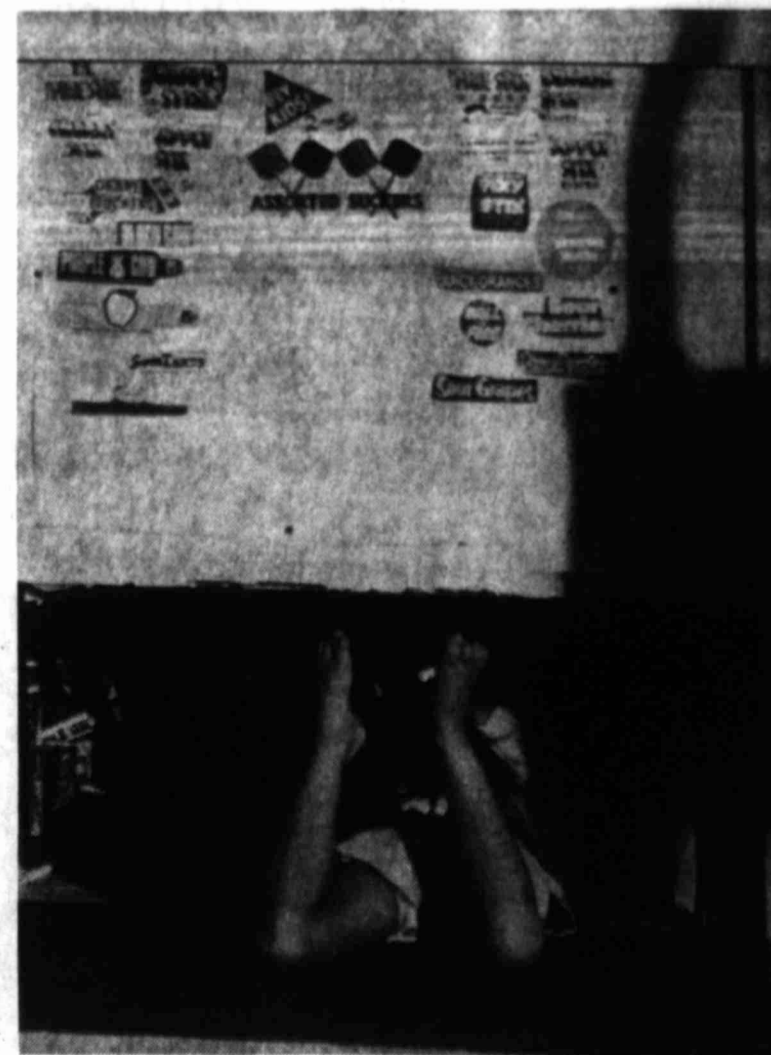

Barbecue with all the trimmings will be served at the Texas A&M Club's Scholarship picnic at 7 p.m. today in the Amphitheater in City Park. Bob Wright, sports recruiting coordinator at A&M, will be the speaker.

Cost of the dinner will be \$1.75 for adults, and children under eight can gain admission free if they are accompanied by their parents.

Proceeds from the barbecue will be added to the scholarship fund to send a worthy Howard County area high school graduate to Texas A&M.

Wright, a popular after-dinner speaker who has addressed the Quarterback Club here, is the former vice president of the Texas High School Coaches Association.

In addition to his current recruitment work with Aggie head coach, Emory Ballard, Wright has been a high school coach and athlete. He coached at Cleburne, Tex., and participated in football at Ballinger where his father, Pooch Wright, was coach.

PATIENT SHOPPER — A little girl relaxed on the counter of the concessions stand at a small-fry baseball game here Wednesday night, waiting to place her order. Happiness for the young comes at that time when one can go unshod and possessed of enough money for a snowcone. The game can wait.

ENVIRONMENTAL DEMONSTRATION — Some members of "Hog Farm" dressed in hippie style, participate in colorful demonstration in connection with world environmental problems in the streets of Stockholm Wednesday. "Hog Farm" is comprised of a few hundred Californians living in tents at Skarpnack Airfield outside Stockholm, Sweden. They are demonstrating against pollution of the world, claiming in general that the U.N. is unable to solve any world environmental problems. The U.N. is holding a World Environmental Conference in Stockholm this week.

United States, Mexico Swap Diplomatic Notes

WASHINGTON (AP) — The United States and Mexico exchanged diplomatic notes today bringing into effect a series of bilateral agreements in the scientific, technological and cultural fields.

The notes were signed by Mexican Foreign Minister Emilio O. Rabasa and Secretary of State William P. Rogers shortly after the White House arrival of Mexican President Luis Echeverria and his party.

An agreement for scientific and technological cooperation will establish a mixed commission for the formulation, orientation and review of programs in these areas with a view to contributing to the greater mutual progress of the two countries.

It envisions the strengthening of economic and social development.

The intensification of relations between the two countries' scientists and technicians and an increase in the exchange of persons, ideas, skills, experience and information.

A White House statement said a separate agreement providing for exchange of technicians is an outgrowth of President Echeverria's deep personal interest in developing Mexico's technology to match and give impetus to its economic growth and to provide employment opportunities for its young people.

The United States offered to provide training for some 100 Mexican technicians and scientists, largely in government facilities.

Mexico is prepared to offer a similar number of training positions to young technicians and scientists from the United States.

A new cultural agreement revises and streamlines the procedures of a 1949 accord and calls for annual meetings by a Mexican-U.S. commission on cultural cooperation.

The commission will orient and review the cultural exchange programs between the two countries and provide advice and recommendations to organizations which conduct activities in this field.

Another agreement represents the extension until July 1, 1974, of a 1968 accord covering cooperative research in remote sensing for earth surveys.

Martin Reports A New Wildcat

Martin County got a wildcat location today, a plugged-back venture. Originally drilled to 11,717 it was plugged back to 10,809 and presumably will test for the Strawn. It is seven and a half miles northeast of the Sale Ranch Strawn field.

Dawson County had an abandonment in the Timmerack No. 1 Myers, a wildcat re-entry two miles northeast of Patricia.

There were two locations in the Spraberry Trend area of Martin County.

LOCATIONS

MARTIN
Spraberry Trend, 9,400 — John L. Cox No. 9 Schencker, 1,320 from the north and west lines section 13-36-10 T&P, 10 miles northeast of Midland and a half a mile west of Bradford.

Straberry Trend, 2,400 — John L. Cox No. 10 Schencker, 1,320 from the south and west lines section 13-36-10 T&P.

Wildcat (old well plugged back to 10,809) Adobe No. 3-B Lenoroch Elevator 600 from south line and 1,480 from east line, section 7-36-10 T&P, four miles southwest of Lenoroch. Originally drilled to 11,717, and plugged and abandoned. It is seven and a half miles northeast of the Sale Strawn field.

DAWSON
Wildcat re-entry — Timmerack Petroleum Inc. No. 1 Myers, 1,200 from the north and east lines section 13-36-10 T&P, two miles northeast of Patricia. Total depth 9,335.

DAILY DRILLING

MARTIN
Adobe No. 3-A Stinson Burlew moving in and raising up.
H. Purvis No. 1 Cox total depth 4,000, still waiting on completion unit.

BORDEN
H. L. Brown No. 1 Smith total depth 7,370, pumped 101 barrels fluid out 115 barrels water and 76 barrels load oil. Perforations 7,200-7,400, fraced with 20,000 collars and 6,500 pounds some.

Brown No. 1 Cormack drilled to 5,092 shaft and line.

HOWARD
Amoco No. 2-D Clev total depth 4,364, waiting on completion unit.

City Prepares For Invasion

With the onslaught of rains felt in Big Spring this week, the future of mosquito population is good, at least for the mosquitoes.

City manager Harry Nagel reports, however, that the longevity of the population hasn't such a bright future. When the rains supposedly subside and the mosquito problem is initiated, city fogging devices will be employed to destroy the insects.

Citizens may not be aware of the fogging procedures, explained Nagel, because of the nature of the chemical involved. The compound presently used by the city for killing mosquitoes is not visible as was the older compounds which appeared as thick clouds of smoke billowing from the fogging machine.

Whereas the older chemicals were harmful to flora, the one presently dispensed throughout the city presents no danger to greenery, according to Nagel. This chemical forms a slight residue on plant life. When mosquitoes light on the plants, the poison then attacks their life-support systems.

Fogging procedures are not begun until the rains subside or the mosquito problem begins, because of the expense involved in the chemical. Nagel reports that the compound is too expensive to dispense until the mosquito problem is apparent, because rains subsequent to the fogging will merely wash the plants clean of the residue, thereby allowing the pest safe passage among plants.

School Adopts New Budget

Trustees of Howard County Junior College approved a budget of \$1,562,659 at their meeting Wednesday evening, then set Aug. 10 as the date for a public hearing.

The budget compares with \$1,552,176 for the revised budget for the current year and \$1,511,114 for the original budget.

(A more detailed analysis of the proposed budget will be carried in the Sunday Herald.) Trustees also approved the resignation of Tommy Rutledge as men's dormitory supervisor and selected Eddie Trice as his replacement there. Rutledge remains on the faculty as a full-time instructor.

The board also approved payment for a general repair program to the auditorium, authorized the purchase of 3,000 feet of fencing materials to put around the open areas east and south of the Horace Garrett Applied Science Building.

The contract of Wayne Bonner, guidance director, was put on an 11-month basis and Wanda Reece was added to the summer faculty to handle the reading program.

Trustees also approved air conditioning for the reading instruction room, then approved a contract for use of a car for the law enforcement technology instructor.

MISHAPS

West 3rd St.: Manuel G. Chavarria, 1318 Utah, and Jimmie Edward Rose, 207 San Jacinto; 9:40 a.m. Wednesday.

Main and 4th: Roxford Eugene Dobbins, 2600 Crestline, and Chona D. Ramirez; 2:31 p.m. Wednesday.

Gregg St. at FM 700: Jimmy Jackson Bryant, Sterling City Rd., and a light pole; 8:33 p.m. Wednesday.

11th and Birdwell: Juanita Kirkpatrick, 524 N. 13th, Ponca City, Okla., and Lonnie Clement Caffey, 601 E. 13th; 12:55 a.m. Thursday.

8th and Union: Cindy Cannon, 2604 Apache, car was washed off street; 1:48 a.m. Thursday.

60 Ears Of Corn Sold For \$5,000

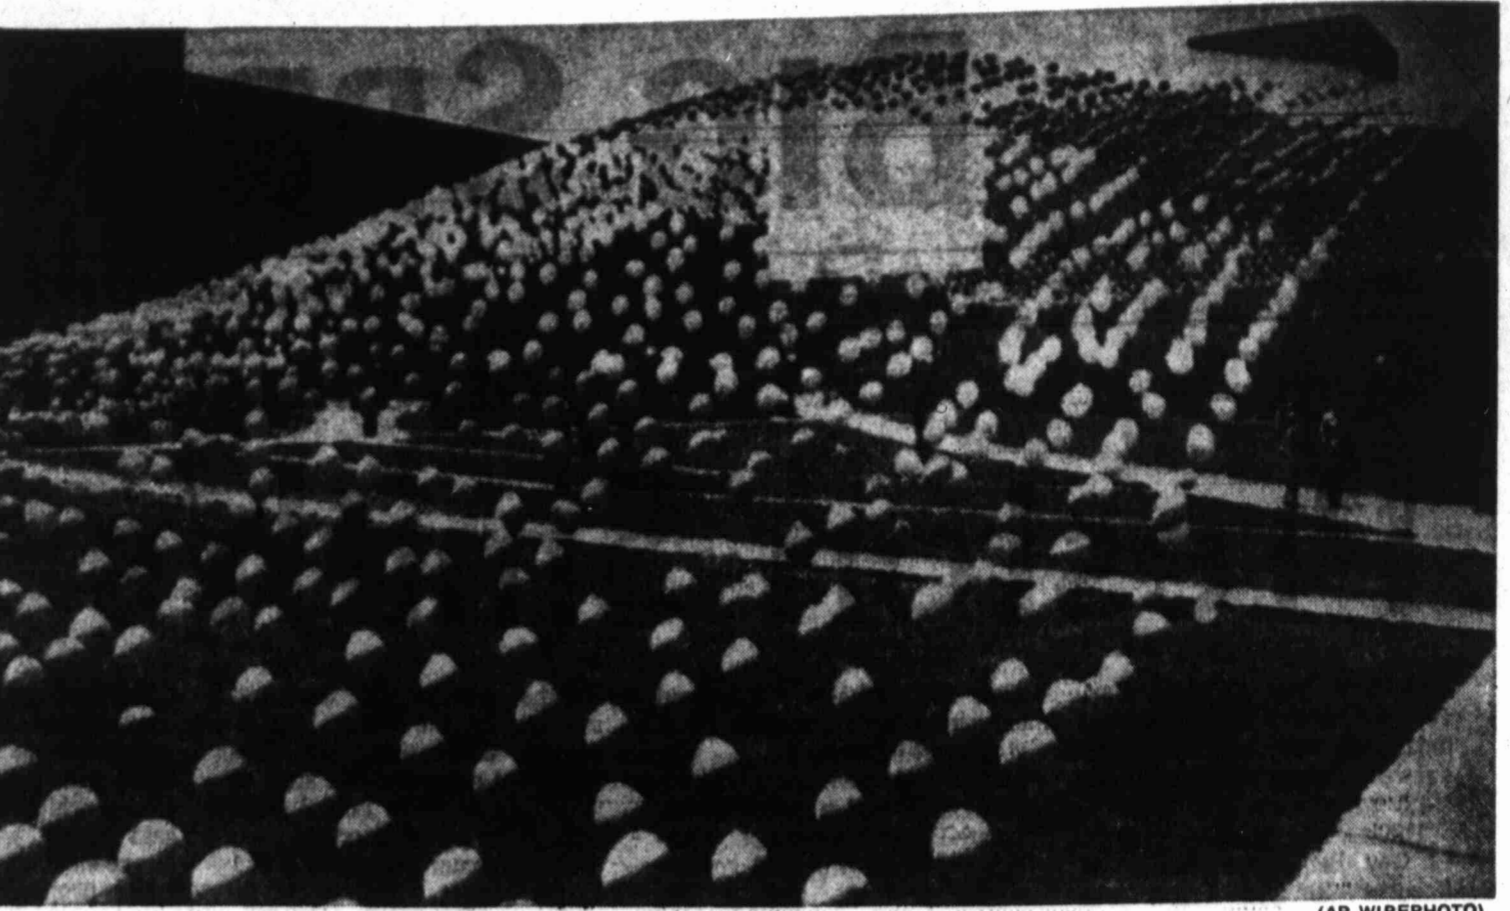

HOUSTON (AP) — Homer Roth of Spring, Tex., sold 60 ears of corn Wednesday for \$5,000.

The roasting ears were the grand champion of the 28th annual Harris County Vegetable Day.

The record price of \$83.33 each was paid by Theiss and Associates Realty of Westview.

Roth, 28, was born on the 20-acre vegetable farm he now operates.

The auction sale price was a record for Vegetable Day.

(AP WIREPHOTO)

PRETTY PICTURE — About 5,000 balloons, tied to a nylon-cord grid, float above a quadrangle on campus of Rochester Institute of Technology. The "floating ceiling" was a project in a three-dimensional design course and cost about \$300.

It Is Impossible To Stop Movement Of Men, Rifles

SAIGON (AP) — Intensive U.S. bombing has severely impaired North Vietnam's capabilities for continuing the conventional war it has been waging recently with tanks and heavy weapons.

But U.S. officials acknowledge that it is impossible to stop the movement south of men, rifles and bullets. Even if the North Vietnamese have to stop using tanks and heavy artillery, they can still fight the hit-and-run, now-here-now-there war they engaged in before March 30.

Some U.S. officials count on the methodical destruction of North Vietnam's industrial plants and transportation systems, coupled with the mining of its ports, to bludgeon Hanoi into negotiating a settlement.

But this appears to be more of a political decision than a military one, with the outcome hinging on talks between Hanoi and its Soviet and Chinese allies who have provided it with military aid. The decision could be influenced by such political moves as Soviet President Nikolai Podgorny's visit to Hanoi this weekend and Henry Kissinger's trip to Peking next week.

U.S. officials claim that because of technological improvements—mainly the introduction of the laser-guided precision bombs—the American air campaign against North Vietnam has accomplished more in one three-week period than it did in a year during the 1968-69 campaign.

One senior U.S. Air Force official says that if the bombing of North Vietnam continues for three or four more months, "there won't be a worthwhile target left up there."

One significant factor that U.S. officials apparently fail to take into account is that North Vietnam is predominantly a rural nation with few industrial plants except in the Hanoi-Haiphong area. Hanoi has shown no signs of bucking under this far, and Hanoi watchers in Saigon believe the central committee of North Vietnam's Communist party has resolved to continue the offensive in South Vietnam despite the U.S. bombing.

The North Vietnamese in the south seem to have more food supplies available than ever before, having won control of large areas including Quang Tri Province and a large chunk of northern Binh Dinh Province along the central coast. They also control other large segments of the population, giving them work forces to carry supplies and dig trenches.

It has become evident that the Saigon government can survive only with U.S. air support. It appears that as long as the North Vietnamese continue to fight, even on a limited basis, the United States will have to choose between an air and naval commitment or abandoning the Saigon government.

Texas Misses Rapid City Flood

Mrs. Phil (Estalita) Nelson, daughter of a former Big Spring couple, Mr. and Mrs. O. C. Hart, was in Rapid City, S. C., only hours before the destructive flood occurred there last week—and probably would have been caught there had not her small children become restless.

Mrs. Nelson is the wife of an instructor at Spearfish Normal College in Spearfish, S. D., which is about 20 miles removed from Rapid City.

The family went shopping in Rapid City the day the heavy rains began. They drove through heavy thunderstorms on the way home but thought nothing of the storm's potential until long after the tragedy because their telephone service had been disrupted. In addition, the flood washed out television service.

The bakery which supplied her family's bread and the dairy producing the family's milk were both washed away.

Mrs. Nelson reported her doctor's office in Rapid City was swept away in the flood and the x-ray rooms and lab equipment of the hospital they have patronized were all ruined by the raging waters.

More than 200 persons perished in the flood.

Bomb Threat Against Queen

NEW YORK (AP) — A second bomb threat within a month against the Queen Elizabeth 2 sent police bomb section operatives and specially trained dogs to meet the luxury liner when she docked here today.

The vessel's captain, William Law, said a bomb threat against the QE2 was received in London.

The 65,000-ton ship berthed at 9 a.m. with 1,248 passengers, most of whom departed without knowing of the threat, Law said.

The purported bomb had been set to go off at noon today, Law said, but gave no other details about the threat.

On May 18, a midocean search for a bomb on the ship turned up no explosive.

"I can't imagine why anyone would want to blow it up at noon," Law said.

THEFTS

Don Harkey reported an attempted burglary at Hoppe Auto Electric, 211 W. 4th to police Wednesday. Officers reported an attempted entry through the backdoor, two small windows broken, but no entry gained.

Also reported by the officers was an attempted entry next door at Frank's Garage where a wooden door panel was kicked out.

STRANGLING HOME-BUILDING INDUSTRY

FHA Red Tape Stirs Wide Criticism

By EDWARD NEILAN
Copley News Service

WASHINGTON — Record housing starts, massive new deposits to mortgage lenders, new housing opportunities for minorities, and fat profits for everyone in the housing business are common themes in real estate columns this spring.

But there is a dull side to the otherwise shiny coin.

Housing starts are uneven across the country, financial institutions are being charged with conspiring to undermine ghetto neighborhoods, the lenders' role in federal housing subsidies is being roundly criticized, builders are accused of charging prices that are too high and the same builders are replying that government regulations are choking development and raising prices.

DEEP TREMORS

This undercurrent of charges and countercharges — unnoticed by most of the general public — has caused deep tremors within the housing industry,

among mortgage bankers and within various governmental agencies and financial institutions that deal with housing.

Groups of builders in various parts of the country are among the most outspoken critics. They are saying that new Federal Housing Administration (FHA) regulations make it almost impossible to do business.

Among these regulations are stipulations on minority participation in everything from site selection to advertising.

SNOOPING
Rather than submit to what they characterize as "federal over-control" and "snooping" some builders have simply ended their participation in federal subsidy programs altogether.

The feeling has been particularly intense in California and Florida, where massive home building was a major fact of life throughout the 1960s.

The National Association of Home Builders, headquartered in Washington, late in May sent a resolution to housing and

Urban Development (HUD) Secretary George Romney pleading that proliferating red tape be minimized in future FHA programs.

"There are a lot of specific criticisms," a NAHB spokesman told Copley News Service. "But the main point we want to get across is that red tape is strangling the home-building industry and causing costs to go up and up."

PRIVATE LENDING
At the root of all the confusion — which in recent weeks has seen accusations of widespread fraud by both private lending agencies and government officials — is a subtle transformation over the last few years of the nature and character of the venerable FHA itself.

FHA's reputation over the years has been that of a relatively low-key government office (part of HUD) which gave low-income middle American John Doe the guarantee to become Harry Homeowner in the suburbs.

Today, with only those in the

business noting the change, FHA has become the leading agency in the government's battle to stop urban decay.

FHA's mandate has been to guarantee long-term loans extended by private lenders — banks, thrift institutions and insurance companies. In the change in FHA's role, these institutions have also been drawn into the urban fight without quite realizing why or how they got there.

ANOTHER BIND
Legitimate builders were caught in another bind: caught in another bind: deprived of opportunities (in many areas) to build FHA guaranteed homes in the suburbs they came into the urban subsidized programs only to find that FHA and HUD regulations made it almost impossible for a legitimate builder to operate.

On top of all this came a massive pattern of defaults on FHA loans extended to poverty-fringe families that had no experience with financing.

One California banker summed up the dilemma this way: "We have been trying to accommodate social pressures by making mortgages available to marginal risks in inner-core areas. But at the same time we have to fulfill an obligation

to keep a man from drowning himself in debt service that he cannot possibly meet."

It is almost a case, the banker said, "of being damned if you do and damned if you don't."

KICKBACKS
The kickbacks, payoffs, fraudulent appraisals and windfall profits that have been hallmarks of some of the most glaring cases of abuse under the program seem to be — many observers contend — symptoms of basic design faults in the government's housing subsidy program.

careful review shows that in many cases the subsidy programs have been very successful and have indeed lived up to the goals of

providing better housing for inner-city dwellers, many of them from minorities.

Much seems to depend on how the FHA guidelines are administered. This appears to vary from region to region and is the essence of what the NAHB is complaining about.

PUBLIC SERVICES

In February, the final version of HUD's project selection criteria went into effect following its publication in the federal register. Under its terms, each project application is graded by HUD officials

under standards for the site location that include such factors as availability to jobs and public services, absence of environmental hazards, orderly urban growth and participation in the project by members of minorities.

But implementation has been uneven. In some areas builders have turned their backs on the FHA altogether rather than even attempt to comply with regulations they feel are inconsistently applied and that will inevitably be superseded.

Assault Against Child Lodged

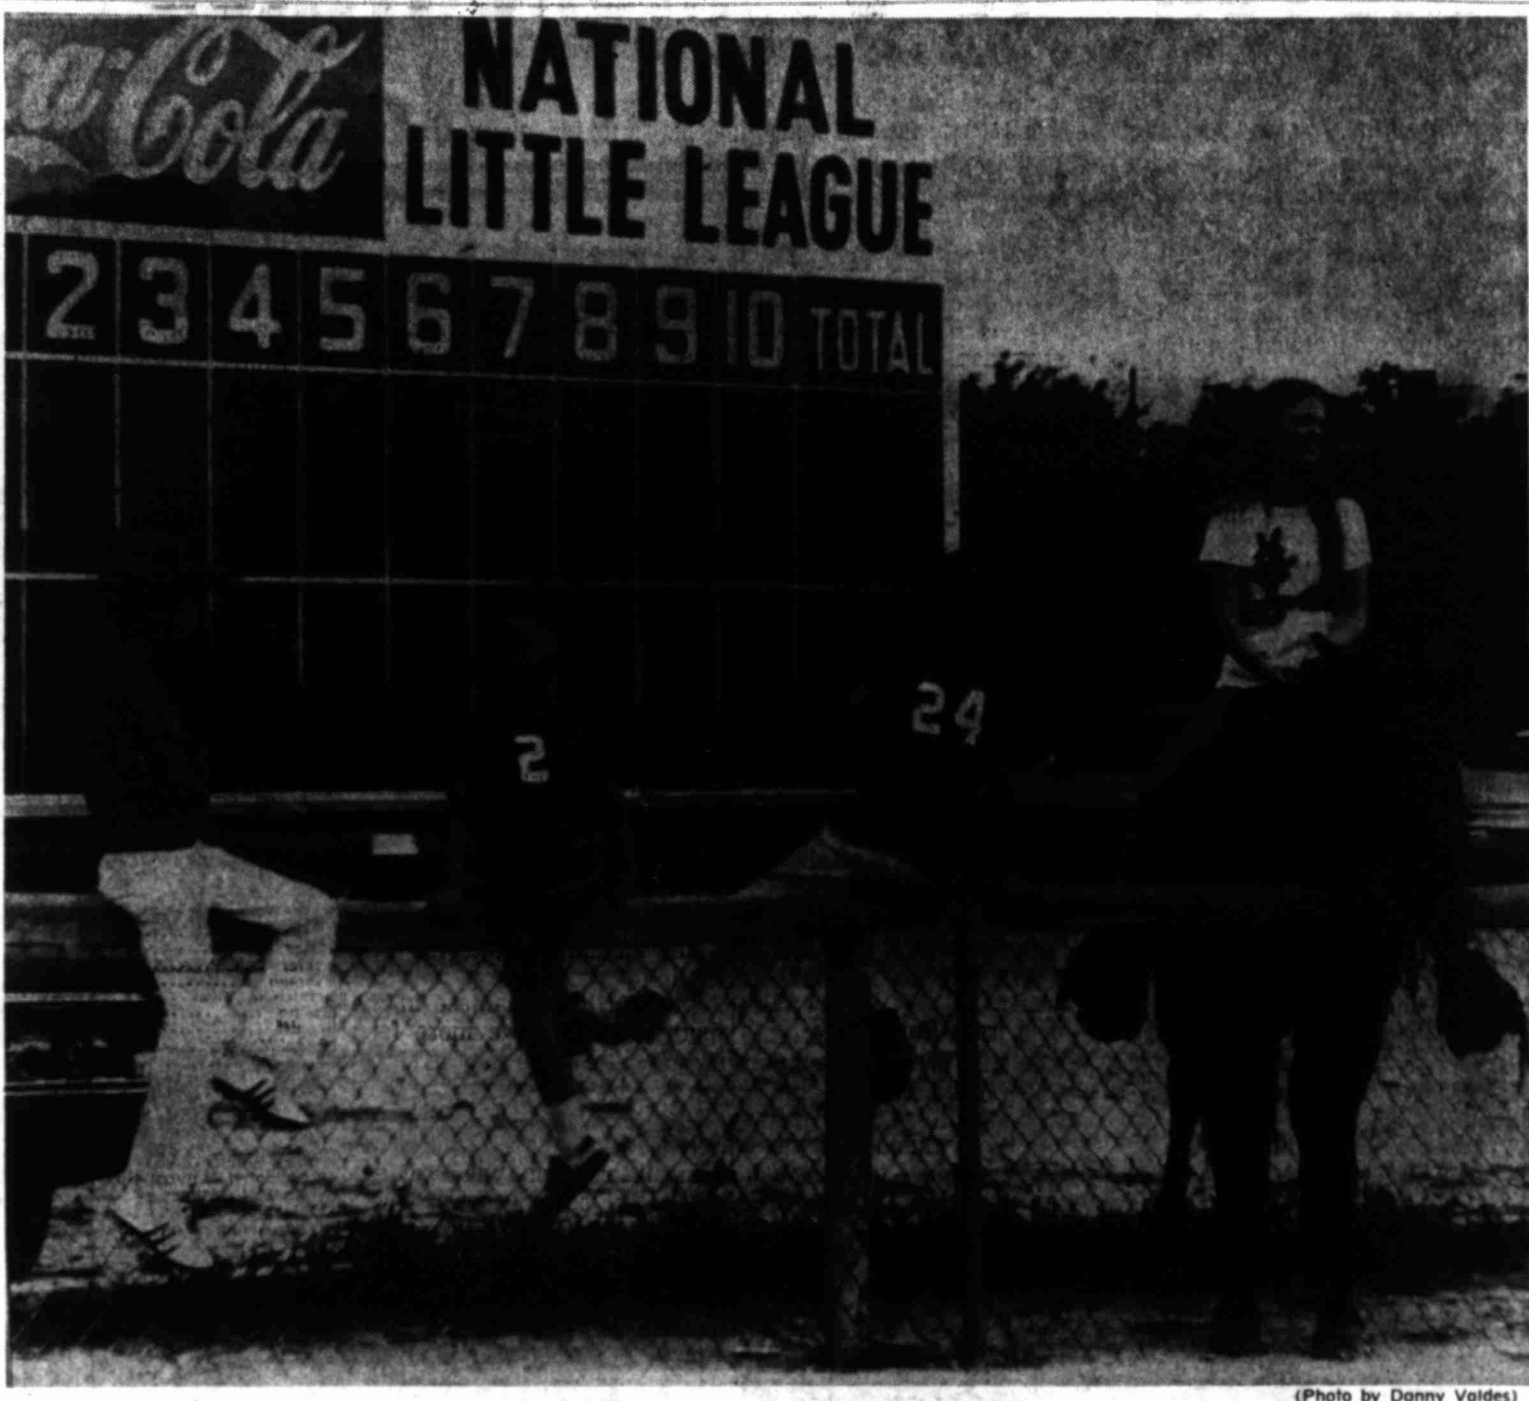

Afanacio (Ennis) Gutierrez, 41, Star Route, Ackerly, is free on \$7,000 bond set by County Judge A. G. Mitchell following Gutierrez' arrest Wednesday on a charge of aggravated assault in connection with an attack on a nine-year-old girl.

Gutierrez was arrested by the Howard County Sheriff's department, and the charge was filed in county court.

NOTICE

An additional 3/2% penalty will be added to all 1971 Tax Roll Assessments which are unpaid as of July 1, 1972. This charge may be avoided by remitting payment to this office prior to the above date.

DIVIDED ATTENTION — Three boys who had been engrossed in a Little League baseball game here Wednesday night fiveted their attentions on a youthful equestrienne who paused behind an outfield fence to watch the game's action before continuing on her way. The horse ignored the game to concentrate on some turf on the other side of the upright he considered to be greener than that available to him along the bridge path. (Photo by Donny Valdes)

\$35,535,000 In Bonds Sold

HOUSTON (AP) — The City of Houston has sold \$35,535,000 in bonds.

City officials said the interest rate of 4.7505 per cent is the lowest the city has received since at least 1969.

A syndicate headed by Morgan Guaranty Trust Co. of New York bought the 20-year general obligation bonds Wednesday.

'We're Never Going To Find All The Bodies,' Mayor Says

RAPID CITY, S.D. (AP) — "We're never going to find all the bodies," says the mayor of Rapid City, which is digging out from a killer flood that left more than 200 dead.

Mayor Donald Barnett said Wednesday, "We'll probably find about 50 more bodies in the city limits and some bodies will be recovered hundreds of miles from here in the Cheyenne and Missouri rivers."

Civil Defense officials set the death toll at 204 Wednesday. Barnett said he estimates about \$100,000 in contributions has been sent to Rapid City. The money, plus \$500,000 in the city budget transferred from other projects which have been set aside, will be used to help families find housing.

"There are 2,400 unusable homes in Rapid City," Barnett said. "In addition, 300 mobile homes were totally destroyed and 300 others are temporarily unusable."

Preliminary estimates of the flood damage topped \$100 million.

Several thousand of Rapid City's 43,000 residents were left homeless by the raging waters of Rapid Creek which flashed through this Black Hills resort city near midnight Friday.

Hundreds remained on the missing list.

One crisis passed Wednesday when the Army Corps of Engineers announced it succeeded in reducing the stress on a partially collapsed dam at Sturgis, a community of 4,500 located 25 miles north of Rapid City. The dam, holding back 22 million gallons of water, was pumped by the corps to reduce the water level.

Hunt Rapist In Houston

HOUSTON (AP) — Police sought today a middle-aged man after a 16-year-old girl said she was imprisoned and raped when she answered an advertisement in a newspaper.

The victim, a high school pupil, said the man attacked her Tuesday after she went to an apartment to answer the advertisement for a handicapped girl.

She told police the man took her to a nearby apartment, bound and raped her and then photographed her.

She said she escaped and ran to another apartment and called police.

Police said one apartment was rigged with metal rings and ropes.

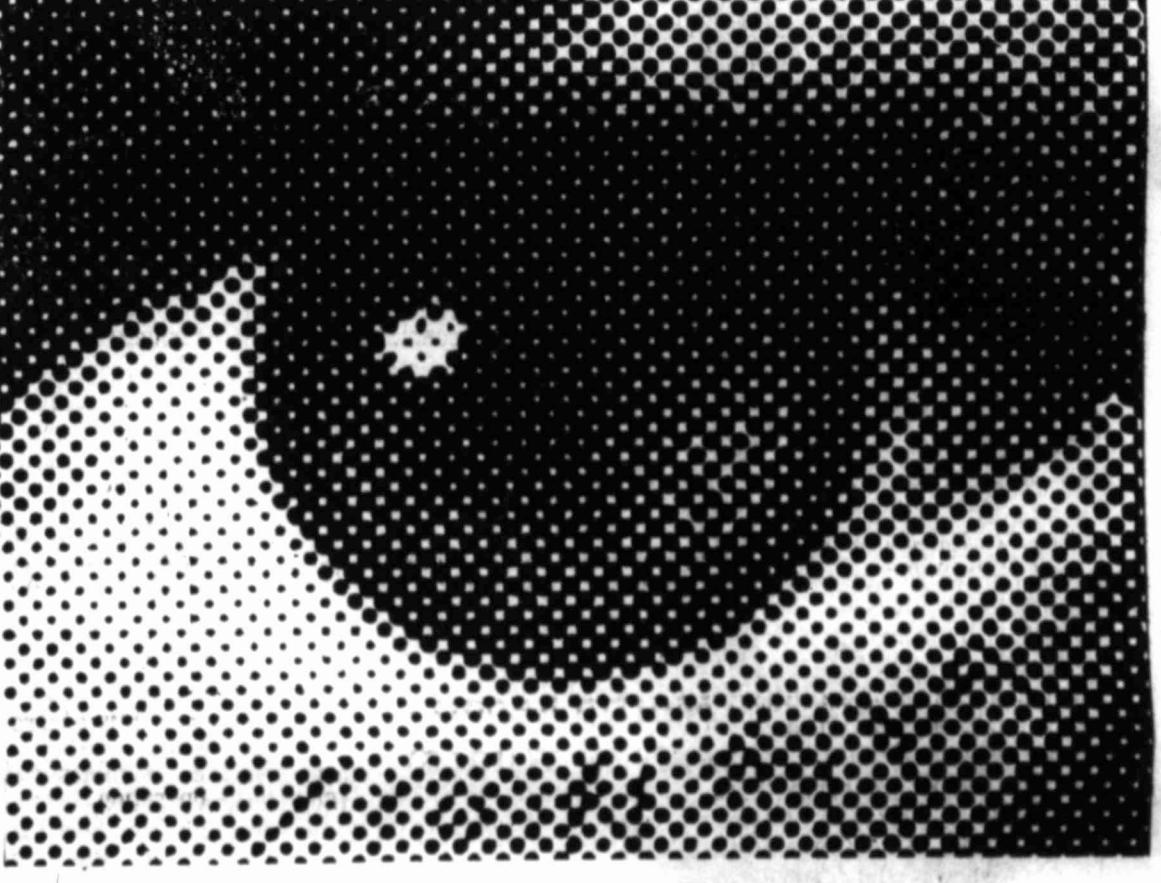

No Great Damage To Local Streets

City officials today reported no serious damage to streets, which sometimes occurs during heavy rains.

Street department employees will be sweeping dirty streets and clearing away boulders of varying circumference, city manager Harry Nagel said, but no increase in the cost of operating the department is expected.

Some projects will be delayed during the cleaning procedure, Nagel reported, but the loss of time involved is expected and can easily be absorbed.

Glaucoma

It can steal you blind.

Glaucoma occurs in 2% of all people over 35, and increases in incidence with age. It often results in the destruction of precious vision.

When the examination reveals the need, the Doctors of Optometry associated with TSO use an electronic tonometer to accurately measure intra-ocular pressure for indications of glaucoma.

One of the warning signs of encroaching glaucoma is increased pressure within the eye.

than normal, patients are referred for medical observation.

Guard against eye disease, eyestrain and poor vision with an annual professional eye examination by a Doctor of Optometry associated with TSO.

In cases where intra-ocular pressure is higher

30-DAY FORECASTS — The National Weather Service forecasts theme 30-day outlooks for precipitation, top, and temperatures, bottom.

(Photo by Danny Voldes)

IMPROVISING — Paul Cameron, 11, of San Antonio, found a nifty way to trap water during a recent shower here — by dipping his umbrella. The gear usually is used to shield people from the rain but Paul seemed to enjoy getting wet. Young Cameron is visiting his grandparents, Mr. and Mrs. Delbert Lee, at 617 Tulane.

Briscoe Spent \$2,275,587

AUSTIN, Tex. (AP) — In two tries to reach the governor's mansion, Dolph Briscoe has spent \$2,275,587, including \$697,182 of his own money. And he still must face Republican Henry Grover in the November general election. Briscoe's final report Wednesday to the secretary of state for the May 6 and June 3 primaries shows he spent \$1,579,407. In his unsuccessful race in 1968, he spent \$496,179. The Uvalde rancher-banker received more money in gifts—\$619,141—after gaining this year's runoff than he spent on that runoff—\$452,713. That reduced the amount he spent from his personal fortune from \$341,348 in the first primary to \$174,920. Briscoe spent \$22,262 of his own money in running fourth in the 1968 Democratic primary. Briscoe's defeated opponent in this year's Democratic runoff, Rep. Frances Farenthold of Corpus Christi spent \$672,441, or \$906,986 less than Briscoe did. Mrs. Farenthold received gifts of \$590,004, which means she spent \$82,437 of her own money. She received \$252,211 in gifts for the runoff, or \$366,930 less than Briscoe received. She spent \$346,775 in the runoff. In the lieutenant governor's race, Bill Hobby reported expenses of \$1,076,681 and gifts of only \$188,814. He borrowed \$252,500, including two loans totaling \$250,000 from Houston's First City National Bank in May. He listed debts of \$362 in his final report. Subtracting Hobby's gifts

from his expenses, the total for his own money spent and debts incurred comes to \$887,867. That means he spent \$712,947 more of his personal fortune than Briscoe did of his. Hobby's defeated opponent, Sen. Wayne Connally of Floresville, reported expenses of \$445,965 and gifts of \$494,245. Albert Fay, defeated candidate for the Republican nomination for governor, reported expenses of \$67,178, gifts of \$21,191, loans of \$53,857 and debts of \$53,057. Grover's report had not been received in the secretary of state's office. Neither was the report of Barefoot Sanders, who beat Ralph Yarborough for the Democratic nomination for the U.S. Senate. Yarborough reported expenses of \$389,244, gifts of \$385,167 and debts of \$222,693.

Crash Takes Lives Of Trio

GREENVILLE, Tex. (AP) — A Louisiana woman clung to life today in a local hospital, the survivor of a head-on car-truck collision Wednesday near here that took the lives of her three daughters. The mishap was one of three unrelated crashes which occurred in less than 24 hours along a six-mile stretch of U.S. 69, taking a total of four lives. Mrs. David C. Hamitor, 62, of Plain Dealing, La., was injured critically 19 miles from Greenville in the same accident shortly after noon in which her three daughters perished. The three daughters were identified as Linda Sue, 22, Patricia Kay, 15, and Bobbie Sue. The driver of the truck, which was pulling a mobile home, was uninjured. About mid-afternoon, Mrs. Beulah Simmons Pollard of nearby Lone Oak, Tex., was killed when her car rammed a tree.

Bible Remains Best Seller In Book Stores Locally

By DAVID PICKLE
People are reading more books than ever before. At least, that appears to be the case in Big Spring.

Book sales at local book stores are up, and the circulation of the Howard County Library has jumped remarkably.

From January, 1970, to January, 1971, the circulation for the local library was 53,618. During the same period the next year, it rose to 76,472.

Larry Justiss, the new librarian at the Howard County Library, said the rise in book reading here can be attributed primarily to the new building the library is in.

"There's an increased interest in the library now," he said. "The new location is helpful. The other one wasn't very convenient."

FICTION TOPS
Justiss said the most popular books are adult fiction or, as they are more commonly known, novels. People like to read them for pleasure and for their escape value.

Marie McDonald, manager of The Book Stall, said fiction is not nearly as popular as it was five years ago. Although novels are still her best sellers, religious books are coming up fast.

Chance To Reach Zero Draft Status

HOUSTON (AP) — Secretary of the Army Robert F. Froehike says the nation's draft mechanism must be maintained although a zero draft is the objective.

"We would not rely on the mechanism for personnel but in case of hostility it would take two or three months to restore the mechanism," Froehike said Wednesday.

He said the army has a fighting chance to reach zero draft status by July 1, 1973.

"Our effort to recruit high quality young men is working very well," he said.

"Last December we enlisted more men in combat arms than in the entire 1970. The number was not enough to satisfy needs but the trend indicates a fighting chance to have a zero draft army by July 1, 1973."

Froehike discussed the zero draft at a news conference and during a speech before the Downtown Kiwanis Club.

Froehike said he was confident President Nixon's goal of reducing the number of combat troops in Vietnam to 49,000 or less by this July will be attained but he would not predict a timetable for further cutbacks.

"Until there is a negotiated peace there will be war in Southeast Asia," he said.

Instead, it was the rule at most book stores throughout the country.

"They sell nationwide," she said. "I'm quite encouraged that we sell so many."

LATE DEVELOPMENT
The different translations are a fairly recent development. Five years ago, the New English translation came out in the New Testament. Several years before, the Revised Standard Version had made its first appearance.

Those two started the trends in translations. Many different ones have come out since then, the newest of which is the American Standard Bible. It is written in very contemporary language.

Mrs. Read said people buy the translations because they provide comparisons to the established King James Version and also because they are easier to understand.

All of the latest bestsellers are available at Modesta's, but, generally, they can only be obtained in hardback form.

"We don't have the space for a complete supply, and if we can't have a complete supply,

we don't want to have one at all," she said.

Besides the Bibles, the individual books that probably sell the most at Modesta's are dictionaries. The most impressive one is the Merriam-Webster unabridged version. It is exceptionally large and costs \$54.50. A Random House unabridged dictionary costs \$30.

"These are all priced according to the publisher's price," Mrs. Read said. "We don't mark anything up."

Encyclopedias are a popular source of information at the library. "People know how to use them," said Rebecca Taylor, an assistant to Justiss.

"They're not really sure how to use the other sources, but if they come and ask, the person at the desk can point out where to look for more."

Some of the patrons at the library are almost not old enough to ask for help. Miss Taylor told of an 18-month-old girl who would come in with her parents and demand certain books. Her parents would then check out the book and take it home and read it to her.

The child had 26,000 books from which to choose. They are all arranged according to the Dewey Decimal system and can be found fairly easily by the use of the card catalogue.

However, Miss Taylor said not everybody knows how to use it. She said people, especially young people, go straight to the catalogue, but once they have found the number of the book for which they are searching, they don't know what to do with it.

PROBLEM ENDURES
Some people know what to do with the number, but they still can't find the book. This is due to faulty organization, but Justiss said that problem is being corrected.

Justiss has only been at the library since June 1, coming from the Dallas Public Library in Dallas.

He would like to see the record collection at the local library expanded. Preferably, he said it would include more jazz and contemporary music. Justiss said approximately 80 per cent of the records are donations. Last year was the first time records were included in the budget.

One little known area at the library is the film collection. Sixteen millimeter films are available for everything from travelogues to W. C. Fields movies. They can either be checked out on a one-day basis or for the weekend.

Motorcycle Is Not Car, Court Rules

AUSTIN, Tex. (AP) — A motorcycle is not a car, the Texas Supreme Court ruled Wednesday.

The issue arose when Ronald Lee Randolph, 14, was hit by a motorcycle in Houston Sept. 29, 1967, while attending a birthday party. The motorcycle's driver said he was uninsured.

Randolph's father tried to collect for his injuries under the uninsured motorist coverage provided by his car insurance policy issued by Members Mutual Life Insurance Co. A jury rendered a \$10,000 verdict against the insurance company, plus a similar amount against the cyclist.

Members Mutual appealed. The Houston Court of Civil Ap-

peals agreed with the insurance company that the words "uninsured automobile" in the policy did not include motorcycles.

"Unless the vehicle involved in the accident on which the claim is based is a trailer or an automobile, it does not come within the policy definition of an 'uninsured automobile,'" the Supreme Court said it found "no reversible error" in that finding.

Evel Knievel Sued For Bundle

LOS ANGELES (AP) — Evel Knievel, daredevil motorcyclist, and actor George Hamilton are among those being sued for more than \$6 million in connection with a 1971 stunt about Knievel's life.

Robert Hinkle and Hinkle Pictures Inc. filed a breach of contract suit Tuesday, claiming they were hired to produce and take film footage for the movie "Evel Knievel," starring Hamilton but have not been paid or given photography credit.

'Semiwads More Efficient'

NEW YORK (A lice department that it is issuing policemen — a fl known as a "st which officials say ricochet in cro ditions.

The new bullets Tuesday, also a ficient in "anti-p because they t through bone bounce off it.

A SCREECHING AND A TWEETING — Any day in the week is Veterinary Week at the Ron Meyer family in suburban White Oak. Already loaded with three screech owls, two dogs, four turtles and a mynah bird, a new addition—a mocking bird—flew in recently and landed atop Mrs. Meyer's head. This is what you might call a yelling, barking, grunting and talking situation and Cincinnati inquirer photographer Bob Free was glad to get away from it all after recording part of the family on film.

Glue Sniffing Among Young At Houston

HOUSTON (AP) — A Houston juvenile officer says it will take concern and education—not laws—to break the tragedy of glue sniffing among the young.

"We think that it is and will continue to be impossible to control intoxicant sniffing by law," said Lt. Joe Skipper.

"We believe that our only hope of control is through public education that is attractive to children and through steps by all community agencies dealing with children to refer sniffers to psychiatric personnel."

In a report to Sam Houston State University, Skipper said Houston, like most other large cities, has a spiraling rate of youngsters inhaling volatile substances.

Houston juveniles arrested for sniffing intoxicants in 1967 totaled 51. Last year 193 were arrested for the same offense.

Only one girl under 18 was arrested for sniffing intoxicants in 1967. In 1971, the number increased to 37.

Skipper said arrests probably show only a trace of young people in Houston who are using the intoxicants.

An arrest can be made only if a person is seen sniffing or if there is evidence that the person has been sniffing.

The ordinance bases persons from selling or delivering volatile solvents, glue or plastic cement to anyone under 21 years of age. Violators can be fined up to \$200 for each offense.

Grant To Upgrade School Teachers

HOUSTON (AP) — A grant from the National Science Foundation has been received by the University of Houston for a program to upgrade elementary school teachers in their knowledge of the physical sciences.

The program is being funded with \$234,615 for a two-year program. It is under the direction of Dr. Robert Walker, associate professor of physics. Dr. Howard Jones, associate professor of curriculum and instruction, will coordinate the education phase of the training. While the program is specifically oriented to the training of pre-service teachers, persons already practicing the profession will have an opportunity to attend a special workshop during the second semester.

Three courses, a total of nine semester hours, are needed to complete the program.

'Semiwadcutter' More Efficient

NEW YORK (AP) — The police department has disclosed that it is issuing new bullets to policemen — a flat-tipped type known as a "semiwadcutter" which officials say is less likely to ricochet in crowded city conditions.

The new bullets, officials said Tuesday, also are more efficient in "antipersonnel" work because they tend to punch through bone rather than bounce off it.

Her Fingerprints On Lots Of Walls

DALLAS (AP) — If the police ever want Maud Bowman, they won't have to look far. Her fingerprints are on lots of people's walls.

Maud Lingren, as she was then, came to the United States from her native Stockholm in 1961, took a sociology degree at Pasadena City College in California and studied art at Barnsall Art Center in Hollywood.

Then she married a Texan and came to Dallas.

Although she works mainly with enamel on copper, she started experimenting by using her own fingerprints as the nucleus for colorful bird and animal scenes.

Now she can turn out the little pictures at the rate of 25 an hour, selling them for \$5 apiece, framed and ready to hang on the wall.

Mrs. Bowman said she first got the idea of using fingerprints this way when studying criminology at Goteborg, where her family now lives.

"I was the first of two women rookies in the police department and was fascinated with it," she said.

But she left the police to take up welfare work and later to come to America.

Mrs. Bowman first decides her subject, then places the appropriate number of fingerprints on a small filing card.

Using colored inks, she portrays the subject over the fingerprint—maybe an owl, a cat, a penguin, a rabbit, a raccoon, or even an ostrich with its head buried in the sand.

When she showed her work at the State Fair of Texas last year, two men from the Dallas Police Department stopped by and asked to be shown the technique. "All I could say is that it's simple and you just have to practice," she said.

Mrs. Bowman's fingerprint pictures were on sale at the first Texas State Arts and Crafts Fair in Kerrville, where she was invited to a barbecue picnic by Lady Bird Johnson, wife of the former President.

But she fell ill and was unable to go.

Mrs. Bowman's pictures are sold in stores and adorn hundreds of Texas homes.

She has a 7-year-old daughter named Tina, who speaks fluent Swedish and acts as interpreter for her grandmother, Mrs. Hil-dur Lindgren of Goteborg. Mrs. Bowman's late father was a Swedish Amerika Line purser on the Drottningholm, which brought the American diplomats home from Europe in World War II.

But she left the police to take up welfare work and later to come to America.

Mrs. Bowman first decides her subject, then places the appropriate number of fingerprints on a small filing card.

People In Sports

PANCHO GONZALES, 44, defeated Australia's John Bartlett, 7-5, 6-4, to reach the last eight in the Green Shield Championship at Beckham, England. Gonzales is seeded to meet Alexei Metreveli of the Soviet Union June 17.

DAVID SWARTZ, 11, donated \$1,800 to the Arizona Kidney Foundation. The youth donated the money to the Foundation so he would not be considered a professional and be prevented from playing baseball in school. The money is royalties he received for doing a television commercial.

CRAIG SWAN pitched a two-hitter and gave top-ranked Arizona State a third straight shutout win, eliminating Temple, 1-0, Wednesday night in the 28th annual College World Series.

DICK STOCKTON of Trinity University faces UCLA's Jeff Austin in today's quarter-finals of the 88th annual NCAA Tennis Tournament. Stockton was among three Trinity players Wednesday to make the eighth-round matches being played at the University of Georgia.

BILLIE JEAN KING is a step closer to another title in her illustrious career today after an easy victory in the semifinals of the West of England Tennis Championships. Mrs. King of Long Beach, Calif., defeated Laura Rossouw of South Africa, 6-0, 6-3.

MARVIN FISHERMAN, head of a business group which is acquiring the National Basketball Association's Chicago franchise, has submitted his resignation as Milwaukee Bucks vice president. Fishman also holds an estimated two per cent of Bucks' stock, which he is expected to relinquish.

VINCE ZACCHETTI of Slippery Rock (Pa.) College holds a three-stroke advantage at the halfway point of the NCAA College Division Championship Golf Tournament at the Taponic Golf Club in Williamstown, Mass. The LSU-New Orleans team leads the team competition, four strokes ahead of South Florida University.

Bingham Wins Race

Despite the threat of rain and blowing dust, stock car racing got underway at Big Spring Raceway Saturday night. Billy Bingham, driving his Bingham Brothers Chevrolet, to a first-place finish in the 15-lap feature race. Nineteen cars were entered in the feature race. Bingham is currently leading all drivers in total points. Perry Govern of Stanton and Jerry Jones of Big Spring are in second and third place respectively.

Saturday's Winners: Feature Race - Billy Bingham (Chevrolet), Big Spring; Truck Race - Glen Slater (Ford), Hobbs, N.M.; Class - Glen Slater (Ford), Hobbs, N.M.; Class - Fred Preston (Plymouth), Big Spring; Class - John Austin (Buick), Big Spring; Class - Garv Wootton (Mercury), Big Spring; Class - Chuck Oale (Chevrolet), Big Spring; Class - Wendell Maxey (Oldsmobile), Midland; Class - Ronnie Gaskins (Chevrolet), Ackerly.

READY OR NOT, HE'LL PLAY — Lee Trevino, weakened by bronchitis and a touch of pneumonia, looks anything but fit to begin defense of his U.S. Open golf championship at Pebble Beach today as he rests during Wednesday's practice round, but he says he will play. "I didn't come out here to gallery these other cats," he said.

WATER COOLER GETS A BREAK

Doug Rader's Hit Sparks Houston Comeback Win

HOUSTON (AP) — Houston Astros third baseman Doug Rader gave the water cooler in the dugout a rest this time, cooling the Montreal Expos instead. Rader, who has gone through several weeks of slugging line drives that end up as outs, clubbed a two-run single in the bottom of the ninth inning Wednesday to set up Houston's come-from-behind 5-4 victory over the Expos.

During this frustrating, luckless string, Rader tried to control his temper—at least until he got back to the dugout. That's when sparks flew. Rader had a much higher average swinging at bat ricks, throwing batting helmets and kicking the water cooler. "The water cooler is one of my favorites," the wisecracking Rader said. "Its kind of a sentimental thing we've had going for a long time."

Montreal took a 4-1 lead in the bottom of the ninth. Ron Hunt's double and Mike Jorgensen's single produced three runs in the fifth and Boots Day batted home another with a single in the eighth. Lee May had homered for Houston in the seventh.

Montreal starter Bill Stoneman, who had yielded only five hits going into the ninth, loaded the bases on two walks and a single and left after pinch hitter Jimmy Stewart sacrificed home the first run of the inning for the Astros.

Scoreboard for Houston vs Montreal game. Columns for Montreal and Houston, rows for individual players and totals.

TIGERS TRIP TWINS, 3-2

Lolich Gains 10th Victory

Mickey Lolich can't wait until his next start. Sparky Lyle can. "I've only missed one start in 10 years and that was in 1970 because my back was killing me," Lolich said after pitching Detroit to a 3-2 victory over Minnesota Wednesday night and joining Cleveland's Gaylord Perry and Wilbur Wood of the Chicago White Sox as the only 10-game winners in the major leagues.

he'll ever be a starter with this club." The Tigers' victory kept them tied for first place in the American League East with the Baltimore Orioles, who nipped Oakland 2-1 in 10 innings. Elsewhere, California downed Cleveland 4-3, Boston drubbed Kansas City 11-3 and Texas whipped Milwaukee 7-1.

National League scores: New York Mets 8, Atlanta 3; San Francisco 3, Pittsburgh 1; Chicago Cubs 12, San Diego 9; Cincinnati 2, Philadelphia 1; Houston 5, Montreal 4; Los Angeles and St. Louis were rained out.

"My job is to pitch every four days. That's what I get paid for. That's what the other guys on the club are counting on me to do."

KILLEBREW BELTS 52ND Lolich had to overcome a touch of the flu and Harmon Killebrew's two-run homer, a 442-foot smash in the fourth inning. It was the Minnesota slugger's 52nd career homer, moving him past Ted Williams into sixth place among all-time home run hitters.

Although the A's dropped their fourth in a row, they maintained their two-game lead over Chicago in the AL West. The Yankees, who had been shut out twice in a row and three times in their last four starts, reversed the tables on the White Sox as Kekich and Lyle combined for a four-hitter and Johnny Callison and Bobby Murcer homered off Tom Bradley.

Lyle came on with one out in the seventh after Rick Reichardt doubled and Bill Melton walked. The Sox never got another baserunner.

Lolich finished with a five-hitter and nine strikeouts. He also scored the tying run in the fifth after blooping a single, taking second on a walk and barreling home on Gates Brown's single.

NBA Meet

Opens Today

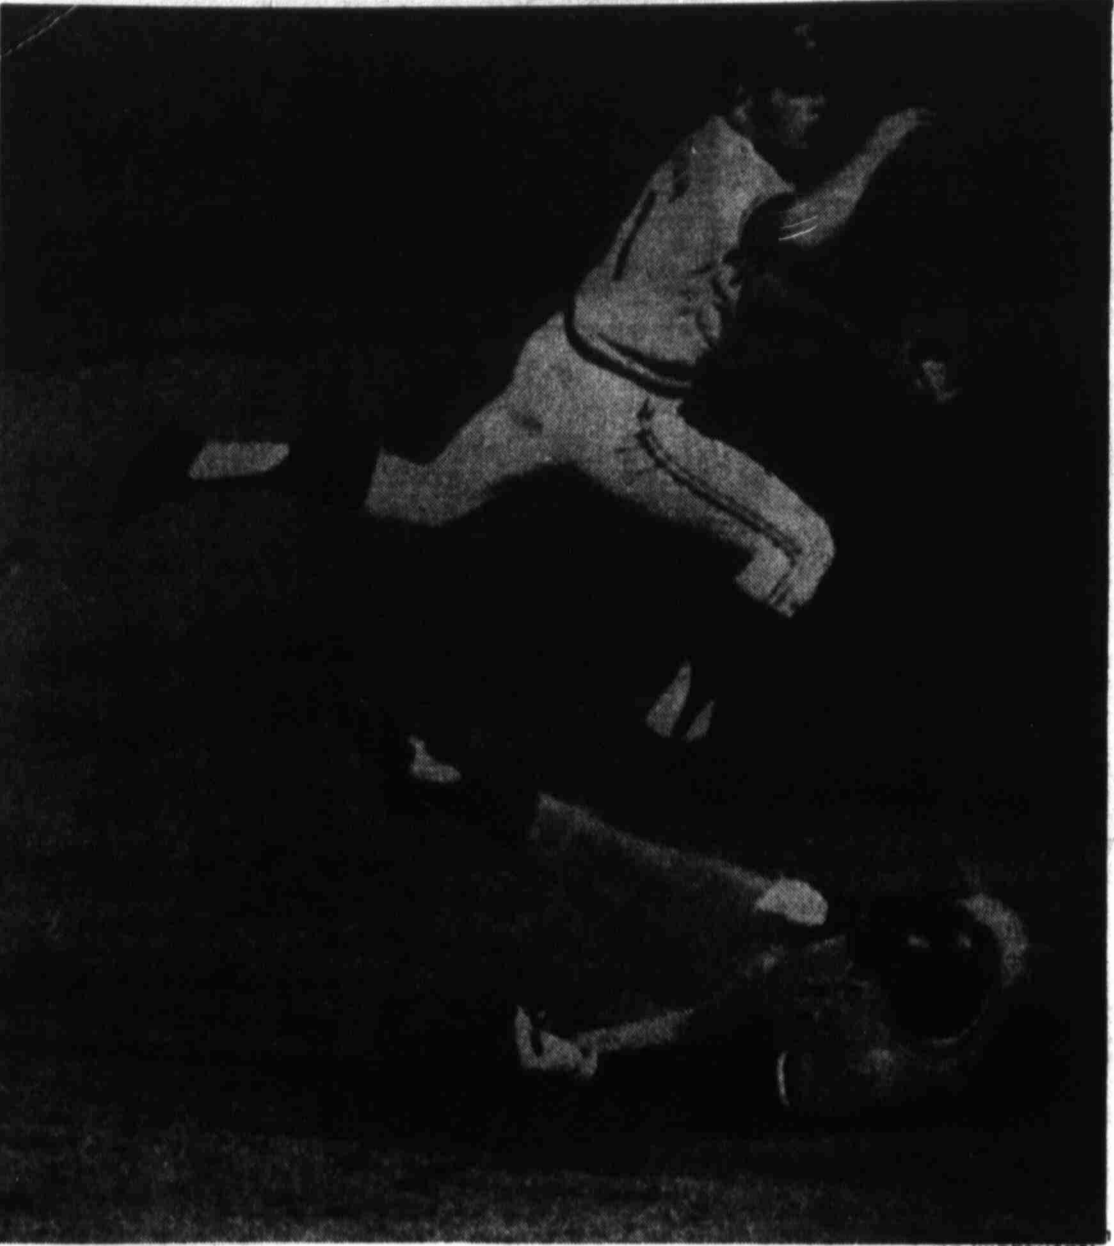

WHITE SULPHUR SPRINGS, W. Va. (AP) — What could be a momentous meeting of the National Basketball Association's board of governors was set for today, with reports circulating about a possible "consolidation" of the NBA and American Basketball Association.

While NBA Commissioner Walter Kennedy said Wednesday he didn't think there would be any discussion of the ABA at the governors' two-day meetings, he did emphasize that "there'll certainly be talk about a merger."

How he could manage to separate the two was being questioned by some observers. Reportedly, one step in favor of a merger was solved Tuesday night when the ABA dropped its two weakest franchises, Pittsburgh and the Floridians, and announced it would operate with its nine strongest teams next season.

There were, however, some roadblocks that could continue to stall the merger. One is that the merger bill has been tied up in a Senate anti-trust subcommittee since last September. The chairman of the subcommittee, Sam J. Ervin Jr., D-N.C., has continually voiced his opposition to the bill.

The House is also preparing to tackle the matter. On Wednesday, the chairman of the House judiciary subcommittee, Rep. Emmet Celler, D-N.Y., said his subcommittee would begin hearings during the week of July 24. The bill was introduced by Rep. Jack Brooks, D-Tex.

IT'S ALL OVER — Milwaukee's John Briggs is tagged out at second by Texas Rangers' second baseman Toby Harrah in the ninth inning after Bill Conigliaro hit into a double play. The Brewers ended a three-game stand with Texas Wednesday by dropping the game 7 to 1.

HAND TAKES WIN

Rangers Arrest Brewers

ARLINGTON, Tex. (AP) — far as I can remember only two of them went for balls. Every other one was a strike. That was the story for me. It's kinda been that way all year, too," said Hand after the Texas Rangers' 7-1 win over Milwaukee Wednesday night.

Hand, a 6-2, 195-pounder obtained in an off-season trade with Cleveland, allowed only three hits in seven innings. He fanned five and walked four while running his record to 3-4.

"This is the hottest it's ever been when I've pitched. It was miserable," Hand said, referring to the 90-degree Texas heat and 70 per cent humidity. Johnny Briggs' fifth homer, coming in the fourth inning, was the only low note. "I made a good pitch. I have no remorse about it. It was a slider down and in, just where I wanted it. Of course, Briggs always hits me good."

NFL Czar Pete Rozelle Rules

Saints' Owner Mecom Clean

NEW YORK (AP) — National Football League Commissioner Pete Rozelle says John Mecom Jr. is clean—but he's not so sure about some real estate transactions in which the president of the New Orleans Saints was involved. On Wednesday, Rozelle cleared Mecom of any alleged underworld associations. But he added that Mecom, also the principal owner of the Saints, had agreed to divest himself of his holdings in the two deals. Rozelle's action followed an investigation by the NFL of May 3 accusations by Aaron Cohn, director of the New Orleans Crime Commission, who told Congress' House Select Committee on Organized Crime that Mecom was associating with people who had undertaken world connections, a statement which, Rozelle said, "evoked banner headlines."

The NFL probe, the commissioner said, "shows participation by Mr. Mecom in both of the real estate transactions cited... but no underworld association of Mr. Mecom in these matters."

Scoreboard for NFL game between Milwaukee and Texas. Columns for Milwaukee and Texas, rows for individual players and totals.

TREVINO WHEEZING

Jack Nicklaus Solid Favorite In Open

PEBBLE BEACH, Calif. (AP) — Wheezing, coughing Lee Trevino is so pumped up with pills he feels light enough to walk on water. "I got so much antibiotics in me, it makes you want to smile after a double bogey," he says.

Big Jack Nicklaus, the overwhelming tournament favorite, is so calm and relaxed his attitude borders on arrogance. "I'm much more confident of my game and swing than I was at the Masters," he confides. "I have my game just about where I want it."

And standing there in the wings is Gary Player, the meticulous, gutty little giant from South Africa, rated by many of the more knowledgeable competitors as possibly the man to beat for the 72nd U.S. Open starting today.

"I never go into a tournament thinking Jack Nicklaus can beat me," Player said resolutely. "I have beaten him in too many matches head to head—6 and 4 and 6 and 5 in two World Match Play Championships in England."

The South African, without specifying, dropped what might be construed as a slight dig at the exhaustive pre-tournament preparations of his two longtime rivals, Nicklaus and Arnold Palmer. "It's silly to come to a tournament a week in advance," he said. "All you do is build up tensions and staleness. Two practice rounds are enough for anybody."

Tensions were building and nerves were wearing thin—in every case except that of Nicklaus and Trevino—as 150 of the world's finest golfers prepared for the 7:30 a.m. EDT, first round teeoff in the most prestigious of the big pro title events. The Pebble Beach course, scene of familiar Bing Crosby events every January, is a relatively short but treacherous layout that winds along the rocky beaches of Carmel Bay and the Pacific Ocean. On a clear day, giant whales may be seen frolicking in the foamy surf. The distance is 6,812 yards and par is 36-36-72. Nicklaus has predicted that the winning score could range from 275 to 300 depending on the capriciousness of the weather. Frequently heavy fog pours in from off the ocean and in the afternoon winds whip up gusts of 20 and 30 miles an hour.

Iba Takes UTEP Post

EL PASO — Gene Iba has been named assistant basketball coach at the University of Texas at El Paso, according to George McCarty, athletic director. The appointment will be effective July 1.

Iba, 31, replaces Ed Sparring who will take over the duties of athletic director and head basketball coach at Steubenville (Ohio) College, July 1. Sparring had been assistant at UTEP for the past three years.

Iba is currently the head basketball coach at Roosevelt High School in St. Louis, Mo., where his team compiled a 20-6 mark last winter, best in the school's 14-year history, and won a share of the Public High School League championship.

He began his athletic career as a basketball player at Tulsa (Okla.) Central High School where he was named All-State his senior year. After graduation he attended Tulsa University where he participated in basketball four years.

He then served three years in the Navy as a Naval Reserve Supply Officer (Ltjg) and coached the Naval Supply School basketball team to a 24-4 record in 1964. Then he served as a graduate assistant at Oklahoma State University for 18 months while earning his master's degree in business education.

HALTS 3-GAME LOSS SKEIN McDowell Hurls SF By Bucs

By The Associated Press

There's nothing like a visit home to get you out of the dumps. Look what it's done for Sam McDowell. First he saw his relatives and then he treated the Pittsburgh Pirates like cousins.

Pitching in his hometown Pittsburgh for the first time in his career, the San Francisco southpaw halted a personal three-game losing streak with a five-hit, 3-1 beauty over the Pirates Wednesday night.

"I've lived here all my life and I like throwing here," said McDowell who spent eight seasons in the American League before coming to the National League in a trade this year. The Giants' star, although

wearing a visiting uniform, wasn't faced with a completely antagonistic house at Three Rivers Stadium. There were more than 20 relatives on hand.

"Nice to have some support, anyway," said McDowell, who won his seventh game in 11 decisions by doling out merely five singles to baseball's best-hitting team.

The Pirates dropped out of the lead in the National League East as a result of the loss, falling a half-game behind New York after the Mets whipped the Atlanta Braves 8-3.

Cincinnati's hot Reds won their 26th game in their last 32 by beating the Philadelphia Phillies 2-1 to move their lead to 2½ games over Los Angeles

in the West. TThTeT T Dodge game was rained out at St. Louis.

In the other National League games, the Chicago Cubs defeated the San Diego Padres 12-9 and the Houston Astros trimmed the Montreal Expos 5-4.

American League results: Boston 11, Kansas City 3; New York 3, Chicago 0; Detroit 3, Minnesota 2; Texas 7, Milwaukee 1; Baltimore 2, Oakland 1 and California 4, Cleveland 3.

McDowell surrendered the lone Pirate run in the fourth on a single by Gene Clines, an infield error that allowed Roberto Clemente to reach first and Manny Sanguillen's base hit.

Chris Speier knocked in one run and Bobby Bonds came home from third on a rundown play to give McDowell a 2-0 lead in the third inning and all the runs he needed Wednesday night.

Duffy Dyer smacked a three-run homer and Cleon Jones drove in two runs as New York defeated Atlanta and climbed back into the driver's seat in the East. The victory, only the Mets' fourth in the last 12 games, was fashioned despite Hank Aaron's 651st home run for Atlanta. The blow moved the great Atlanta player into a tie with Eddie Collins for fifth place on the all-time hit list at 3,311.

LGA Slates Tourney

The Comanche Trail Ladies Golf Association will sponsor a Scotch Foursome tournament Sunday afternoon.

The tournament will have a 1:30 p.m. shotgun start. Entry fee, which is \$1, is due by 11 a.m. the day of the tourney.

The teams, which will consist of a man and a woman, will have their scores determined by taking their total handicaps, dividing by two and subtracting the figure from their total score.

If a lady has a problem getting a partner, she should contact the Comanche Trail Ladies Golf Association.

KID BASEBALL Falcons Vault Into First

The Falcons vaulted into first place in the International Minor League standings Wednesday with a 5-4 victory over the Ravens.

The Falcons now lead the league by one game over the second-place Ravens with two games remaining on the schedule.

Edward Eyre picked up the win for the Falcons. He went the last three innings of the game relieving starting pitcher Brian Hunt. Eyre gave up three runs on three hits and three walks.

Eyre and Alan Hunt led the Falcons offensively with two hits apiece.

The Falcons took a 5-3 lead into the bottom of the last inning, but the Ravens started a rally and almost won the game. A brilliant two-out catch by third baseman Rusty Taylor with the tying run on second saved the game.

The Ravens gave the Falcons a 9-4 record while the Ravens dropped to 8-5.

Jim Parks and Brett Morton had the hits for the Stingrays while Steve Seward was the batting star for the Elks.

Oscar Garcia got the win, and Seward was given the defeat.

The Mustangs jumped off to a quick 6-0 lead and then had to fight off the Elks, 12-7, to capture an International Minor League contest Wednesday afternoon.

Johnny Reed, who had two hits, led the offense for the Mustangs. Keith Barron walked four times he came to the plate and scored three of those times.

Winning pitcher Danny Weatherman had one of the other hits for the winners while Scott Shortes picked up the remaining one.

Doug Horton led the Elks with a fifth-inning triple.

Ricky Robertson was tagged with the loss.

YMCA Sets Tournament

Invitational Handball Tournament is scheduled June 23-25. There will be competition in three classes. The entry fee for the tournament is five dollars which will entitle the participant to a YMCA t-shirt, a new handball and a ticket to a barbecue Saturday night, June 24.

Deadline for entering the tournament is June 18.

Trophies will be awarded to winners and runners-up in each division. Trophies will also be awarded to winners in the consolation rounds.

Sponsors of the tournament are First National Bank, State National Bank, First Federal Savings & Loan, Big Spring Savings & Loan, R&R Theatres and Hemphill-Wells.

The trophies have been purchased through funds donated by Cosden Oil & Chemical.

Racing Board Starts Probe

LEXINGTON, Ky. (AP) — The Kentucky State Racing Commission has launched an investigation into two races run at Churchill Downs May 6, the same day as the Kentucky Derby.

Each race was won by a thoroughbred who was a longshot on the morning line, but who won after receiving heavy betting support at the track.

Commission Chairman William H. May told a Lexington press conference Wednesday that the commission is particularly concerned about examples of "inconsistent wagering ... and handling of the (winning) horse in the 10th race."

That race, a \$3,500 claiming race, was won by Postal Milagro. The horse was quoted by the morning line as being a 15-1 longshot, but raced as the 9-5 favorite.

May said the commission is also investigating the second race held at the Downs on Derby Day. He said the commission "knows less about this race," but noted that the winner, Scotch Thorn also won at 9-5 odds after being a 10-1 shot in the morning line.

Blues Grab Top Spot

By The Associated Press

While they twiddled their thumbs in the Texas Panhandle, the Memphis Blues slipped into first place Wednesday night in the torrid East Division of the Texas League.

The Blues were idled by a rain storm which hit the Amarillo baseball park but still took over the top spot by five percentage points thanks to Arkansas' 6-5 loss to lowly San Antonio of the TL West.

In other games, Midland outlasted Alexandria 6-5 in 12 innings and Shreveport spanked El Paso 6-3.

Mr. Midland In Debut

RUIDOSO DOWNS, N.M. — Mr. Midland, expecting to loosen up his muscles for the forthcoming \$225,000 (est.) Rainbow Derby at Ruidoso Downs, makes his seasonal debut in Thursday's topper at the mountain track.

The colt looks like the wagering choice in a full field of sophomores slated to travel 400 yards.

Owned by Mr. and Mrs. Clarence Scharbauer Jr. of Midland, the colt went to the post 10 times last year, racked up four wins and earned just over \$40,000. At the tailend of the year, he emerged as the top qualifier in the \$60,300 Fall Quarter Horse Futurity at Sunland Park, but ended up third to Savannah Swinger in the futurity finale and had to be content with a purse of \$8,295.

Last summer at Ruidoso Downs, Mr. Midland was good enough to qualify for the consolation of the rich All-American Futurity, and ended up third for a paycheck of \$12,891.

In Thursday's dash for a purse of \$1,600, Mr. Midland will carry Willie Lovell, the current leader in jockey standings. The impost is 116 pounds.

De Roon, owned by Rallas Jones of Tatum, N.M., may well be the prime spoiler for Mr. Midland. The filly finished a good second last time out as an 8-1 longshot. The spin was her first of the season. Last year, the filly built up a record of 1-3-2 out of seven starts.

Another one to watch in Thursday's headline is Hankins Girl. The filly failed to get a share in her seasonal debut earlier this month. But at the recent Sunland Park meeting, she turned in some close efforts against top stakes-winning company.

First post, Thursday through Sunday, is 1:30 p.m. Two stakes are on this week's calendar. On Saturday, three-year-olds will knock heads in the \$3,000-added Aspen Stakes at six furlongs.

Arizona State U. One Win Away From Baseball Crown

OMAHA, Neb. (AP) — Pitching-rich Arizona State stands one victory away from denying Southern California an unprecedented third straight NCAA World Series baseball title.

The top-ranked Sun Devils, 64-4, flashed another brilliant mound performance Wednesday night in ousting No. 6 Temple 1-0, while Southern Cal stayed alive by nipping Texas 4-3 in 10 innings.

"We'll go with our best: we want to end it, although there is a tomorrow," mused Arizona State Coach Jim Brock of the re-meeting with Southern California.

Arizona State, which won titles here in 1965, 1967 and 1969, beat USC 3-0 Sunday night behind a shutout pitching performance by Jim Crawford.

An Arizona State victory tonight would end the tournament which started with a field of eight last Friday. A USC triumph would force a rematch Friday night.

All-America senior right-hander Craig Swan (16-1) allowed Temple two singles, struck out 12 and did not walk a man in pitching the Sun Devils 24th shutout of the season.

and third straight of the tournament.

"We didn't fall apart after Texas took the lead," noted USC Coach Rod Dedeaux after the ousting of No. 5 Long Horns.

Daryl Arenstein's single drove home the winning run against Texas (40-9). It was his second game-winning hit of the double-elimination series.

Greg Widman and Russ McQueen (8-3) combined for a four-hitter for USC. Sophomore McQueen was making his third series appearance.

An unearned run let No. 3 Southern Cal (48-13-1) tie the game in the seventh and Tim Steele drilled a one-out double to set up the winning run in the 10th.

Either Southern Cal or Arizona State has grabbed the title in the tournament the past five years and six of the last seven.

A crowd of 12,829-th largest ever for a session—saw the doubleheader and attendance for the 23 years the tournament has been held here passed a million.

Texas Teams Meet Tonight

HOUSTON (AP) — The Houston Astros of the National League and the Texas Rangers of the American League meet in an exhibition game in the Astrodome tonight in a game billed as for the Texas major league championship.

It will be the first meeting ever between the only two big league baseball teams in the state.

Pitcher Jim York is slated to start for the Astros and George Culver also may see action. It will be Bill Gogolewski (3-6), Jim Shellenback (1-3) and Casey Cox (1-0) for the Ted Williams-led Rangers.

Culver has had a hot hand of late. In his last five outings, he has allowed one earned run in 10 innings for a 3.60 ERA and he has struck out 13 batters in that span.

Love Revolution Speaker's Theme

DALLAS (AP) — The Rev. Bill Bright preached revolution—a revolution of love—Wednesday night from a podium in the storied old Cotton Bowl.

"Love is the greatest power in the world," the San Bernardino, Calif., evangelist said. "There is no force known that can resist the supernatural agape, the Love of God," the founder-president of the Campus Crusade for Christ said.

About 85,000 persons crammed into the stadium for the second night rally of EXPLOR 72.

The Rev. Ed Hill of Los Angeles carried on with the love theme.

"We're going to take the world for Jesus Christ, and we're going to do it because we love one another and because we love Jesus Christ and because we would have all men know Him who set us free."

Cheers from the predominantly youthful crowd went up at pronouncements of both Bright and Hill.

"Amen!"

"Right on!"

"Praise the Lord!"

Dr. Hill commented that

those attending the conference are "not perfect people because most of us are still under construction. God is not through with us yet . . . We can testify tonight because many of us are solved problems."

He said he did not come to Dallas to argue theologically or philosophically, but "to tell those who will hear that Jesus Christ saves."

"We know now that Jesus of Nazareth—Mary's little baby boy—is the answer to the problems of the world . . . when he's manifested in and by and through us," he added.

"The love of God is so rich and sweet that it flows to the highest mountain and to the deepest valley; it penetrates the hardest heart."

"I love Him (Jesus) tonight because He changed my life. Oh! How I Love Jesus!" the minister shouted.

Love was the theme Wednesday night, ranging from a rock group called Love Song, to emcee Bob Horner reading the 13th Chapter of First Corinthians—the Love Chapter of the New Testament—to the songs and testimonies.

Only one incident marred the otherwise smoothly staged production.

MEN IN SERVICE

FLOYD B. TURNER

Floyd B. (Rocky) Turner, Big Spring, will be on leave in about five weeks, after which he will be stationed at Fort Hood, Tex. Turner is now undergoing schooling at Fort Belvoir, Va.

He went into service with the U.S. Army Feb. 28, 1972, and did his training at Fort Polk, La.

Rocky is the son of Mrs. Nell Yocham of 1108 W. Sixth St., Big Spring.

Army Pvt. Thomas S. Prideaux, 22, son of Mrs. Willard Anderson, Lamesa, recently completed a six-week supply clerk course at the U.S. Army Training Center, Infantry, Ft. Ord, Calif.

The soldier was graduated in 1971 from Worthington High School, Worthington, Ohio, and received his BA degree in 1971 from Texas Technological University at Lubbock.

Pvt. Prideaux's wife, Marihelen, lives at 1600 Renee, Hurst, Tex.

LEONARD A. AKEN

Robert Broadie of 2505 Fisher, Big Spring.

Airman Leonard A. Aken, son of Mr. and Mrs. John W. Aken of 2725 E. 25th St., Big Spring, has completed his U.S. Air Force basic training at the Air Training Command's Lackland AFB, Tex.

He has been assigned to Sheppard AFB, Tex., for training in the communications-electronics system field. Airman Aken is a 1971 graduate of Big Spring High School.

Army Pvt. Thomas S. Prideaux, 22, son of Mrs. Willard Anderson, Lamesa, recently completed a six-week supply clerk course at the U.S. Army Training Center, Infantry, Ft. Ord, Calif.

The soldier was graduated in 1971 from Worthington High School, Worthington, Ohio, and received his B.A. degree in 1971 from Texas Technological University at Lubbock.

Pvt. Prideaux's wife, Marihelen, lives at 1600 Renee, Hurst, Tex.

Navy Fireman Recruit Thomas H. Myers, son of Mr. and Mrs. Samuel R. Myers of 2409 Cheyenne, Big Spring, has graduated from recruit training at the Naval Training Center at San Diego.

He attended Forsan High School.

Captain Steven B. Rogers, son of Mr. and Mrs. A. Barde Rogers of 7955 Oak Ridge Drive, Palos Park, Ill., has arrived for duty at Keflavik Naval Air Station, Iceland.

Captain Rogers, a pilot, has completed 13 months of duty at Tan Son Nhut AB, Vietnam.

His wife, Jane, is the daughter of Mr. and Mrs. N. W. Womack of 608 Aylford St., Big Spring.

Airman Louis B. Evans, son of Mr. and Mrs. Thomas J. Evans of 909 Burrell St., Big Spring, has graduated at Sheppard AFB, Tex., from the U. S. Air Force aircraft mechanic course conducted by the Air Training Command.

The airman, who was trained to repair current Air Force jet fighters, is being assigned to Kadena AB, Okinawa, for duty with a unit of the Pacific Air Forces, headquarters for air operations in Southeast Asia, the Far East and the Pacific area.

Airman Evans is a 1971 graduate of Big Spring High School.

JERRY L. NICHOLS

First Lt. Jerry L. Nichols, son of Mr. and Mrs. Cldys L. Nichols of Rt. 5, Columbia, Mo., has deployed with his Dyess AFB, Tex., squadron for temporary duty at Mildenhall RAF Station, England.

Lt. Nichols is a C-130 pilot with the 348th Tactical Airlift Squadron, a component of the Tactical Air Command (TAC).

His wife, Martha, is the daughter of Mr. and Mrs.

Man Was Here Centuries Ago, Lions' Guest Says

Archaeological finds indicated the presence of man in this area 15,000 years ago — possibly 20-25,000, according to Tom Adams in an address to the Downtown Lions at the Wednesday noon meeting in the Settles.

Adams long has been interested in archeology and is a member of the Midland Archeological Society, which he rated as perhaps the outstanding amateur group of its type in the state.

He exhibited spear points which he picked up in town and which date back to the paleolithic times, he said. One point came from the Alibates quarry near Amarillo.

Amateur archeologists have surveyed more than two score archeological sites in the county, principally along Wildhorse Creek, Morgan Creek, and in the southeast portion of the county. These are cataloged through the University of Texas as

reference material for archeologists.

One of the objectives of the archeological society, he said, was the preservation of sites so they may be excavated only according to strict procedures. Another is to salvage early artifacts where they are in danger of destruction.

Adams traced man in this area from the paleolithic when primitive tribesmen hunted long horn buffalo and elephants. Later man learned to hurl a spear, grind seed, make pottery and fashion a bow and arrow. Then came the Spanish horse, and that changed the picture, converting Indians into more nomadic people.

Derby Is July 22
MIDLAND — The Midland Jaycees will stage their annual Soap Box Derby here July 22. The winner goes to Akron, Ohio, for the 35th annual All-American Derby Aug. 26.

Uncle Sam Secretly Weakens Its Orders To Fed Hospitals

WASHINGTON (AP) — Caught in a dollar squeeze between hospital administrators and antipoverty lawyers, the government has secretly weakened its charity-care orders to federally built hospitals.

The result may be that fewer poor people receive free medical help in thousands of hospitals and clinics built with federal Hill-Burton funds.

Such facilities have been required by law since 1946 to provide "a reasonable volume" of free services to poor people. Lawsuits filed by antipoverty lawyers prompted HEW to try and define "reasonable volume."

The partial retreat was confirmed Wednesday by the Department of Health, Education and Welfare although one official, reluctant to disclose details, declared that even the number of members on a public advisory committee was confidential information.

The new proposal, scheduled to be published in the Federal Register before July 1, prescribes that all health-care institutions built or modernized with Hill-Burton funds should

provide free care to indigents at the rate of three per cent of operating costs or 10 per cent of the original loan or grant.

An undetermined number of the 6,308 hospitals and other facilities which have received a total of \$3.7 billion would be exempt, however, because the obligation is limited to the period of the original 25-year loan or 20-year grant.

The first proposal made public in mid-April would have applied a formula of free-care equal to at least five per cent of operating costs or 25 per cent of net income, whichever was higher.

The American Hospitals Association estimated that the government received up to 2,000 letters, all but five per cent opposing that plan.

The AHA, with a membership of about 7,000 hospitals, had warned that private patient rates might be forced up nationwide to cover the costs of

expanded free care.

David F. Drake, the AHA's associate director in Chicago, said he is not totally satisfied with the compromise but thinks it averted a legal challenge.

About 85 per cent of the hospitals involved already meet the compromise requirements, he said.

The compromise was approved by the Federal Hospital Council at a secret meeting Tuesday night. It emphasized that the proposal was not a rigid requirement, because state Hill-Burton agencies could raise or lower the free-care level based on each hospital's financial footing.

The issue was brought to a head by the National Legal Program on Health Problems of the poor, partially supported by federal funds, which filed federal court suits against hospitals in Louisiana, Colorado, West Virginia, Florida and the District of Columbia.

Evangelists at Gospel Tabernacle . . . The Rev. Royce and Judith Collier

Collier Revival To Last Over Weekend At Church

Revival will continue through Sunday at Gospel Tabernacle, 1905 Scurry. Evangelists Royce and Judith Collier are helping to conduct the services.

The Rev. Collier will minister at each service, and Mrs. Collier will assist him in presenting special songs and instrumental numbers.

Services begin at 7:30 p.m. today through Saturday, and services Sunday will be at 11 a.m. and 7 p.m.

Several pastors and members of out-of-town churches will attend the services, according to the Rev. Dorothy Brooks, pastor of Gospel Tabernacle.

The public is invited to attend the services.

\$1 Million Fish Industry Threat

LOS ANGELES (AP)—Southern California's \$1 billion a year fishing industry is threatened by a new Mexican law requiring at least half of the crew of commercial crafts operating in Mexican waters to be citizens of that country, asserts a fishermen's union spokesman.

James Royal, executive secretary-treasurer of the International Longshoremen's and Warehousemen's Union fishermen's local, said Wednesday the Mexican law to protect proposed could end commercial fishing in the area.

Royal said fishermen would not take the Mexican law "lying down, but will appeal to every government level to intercede with Mexico and will solicit the massive support of all organized labor in its opposition."

Mexico claims jurisdiction on waters 25 miles from its coast, Royal said, and the West Coast tuna fleet fishes within that limit.

New Prexy At ETSU

COMMERCE, Tex. (AP)—East Texas State University will inaugurate its seventh president, F. Henderson McDowell, during 1972 homecoming activities.

McDowell, first ETSU alumnus to be named president, earned both his B.S. and M.S. at ETSU. Ceremonies will take place Oct. 28 prior to the ETSU vs. Southwest Texas State football game.

Woodrow L. Kelley will succeed McDowell in the post of vice president for administration. Kelley holds bachelor's and master's degrees from ETSU and has been a staff member for 24 years.

Charles Morrow was promoted to business manager to succeed Kelley.

'DEAR ABBY' OF LOLLYPOP SET — Angel Maria Gavaliere, 10-years-old becomes the "Dear Abby" of the lolliipop set as "Dear Angel" — and probably the youngest newspaper columnist of a big-city newspaper in the United States. In three-times-a-week column beginning Tuesday Angel will try to reply to letters sent to her by young readers. Mal Deans, The Philadelphia Bulletin's assistant managing editor, says they will not censor ed the incoming mail or make suggestions about replies — just weed out the crank and obscene mail.

Flag Ritual Held By Elks
Members of the local B. P. O. Elks Club gathered Wednesday evening at the lodge for an observance of Flag Day.

According to the ritual, led by exalted ruler C. E. Milam, Flag Day is practiced through "an authorization that is distinctly American."

The first unofficial Flag day ceremony was in July, 1908, in the Grand Lodge of B. P. O. Elks in Dallas. The only lodge which perpetuates the memories of the flag through prescribed ritual is the Elks.

Since that first ceremony, the Elks, with the aid of President Harry Truman (also an Elk), placed sufficient pressure on Congress to recognize Flag Day.

The Elks' ritual describes the significance of the flag as "emblematic of the democratic virtue — charity," "an emblem of justice," "a symbol of brotherly love," and "a symbol of fidelity," each of significance also in the history of the nation and practices of the Elks.

Other officers participating in the ceremony were Ron Egger, Sam Mellinger, Andre Arcand, Bill Ragsdale, Matthew Mooney, C. Roscoe Cone and Oliver Cofer, Jr.

GOP Now Packaging 'Speech Of The Week'
WASHINGTON (AP) — For high-ranking Republicans who find themselves at a loss for words, or quips, the Republican Congressional Committee is now packaging a "Speech of the Week."

Suppose, for example, a GOP congressman wants to have a little fun with the opposition. There's this canned quip:

"If the Democrats are smart, they'll nominate Hubert again. That way they won't have to break in a new loser."

Quips are furnished in a "political punchlines" report that includes suggestions for "acknowledging an introduction," "handling hecklers" and "handling sticky questions."

There are also comments for those moments when the microphone is too low—"Who were you expecting, Mickey Rooney?"—or when it's too high—"Who were you expecting, Rogers Morton?"

Secretary of Interior Rogers C. Morton, a tall, rangy man, is, as a Cabinet member, among those who have access to the weekly speech material.

On political issues, the material includes these suggestions:

"School busing is a very simple idea. It's when 20 million kids and 60 million tax payers get taken for a ride."

Or, "We've been hearing from the press about what a great country Red China is. I won't believe it until its people are allowed to leave on their own. Freeing is believing."

"Our Moving President, Our Sitting Congress." It carries the explanatory note: "This text has been prepared to protect the president from a possible double tragedy."

Texas Takes Feedlot Lead Over Iowa
WASHINGTON (AP) — The Texas-Iowa cattle fattening race continues, with the lead changing hands again June 1, according to Agriculture Department feedlot inventories.

On June 1, the USDA figures show, Texas had 2,045,000 cattle being fed for slaughter, compared with 1,819,000 for Iowa. A month earlier Iowa led 2,003,000 to Texas' 1,848,000.

Early last year Texas jumped ahead of Iowa for feedlot cattle honors and remained in the lead for several months, until the big 1971 corn crop gave the traditional big Midwest feeding area a boost.

The feedlot race was indicated in an inventory report for half a dozen major beef producing states. The total inventory for those on June 1 was more than 7.9 million head, up more than 100,000 from May and 12 per cent or more than 800,000 head above a year earlier.

Kansas, which did not show up in year-earlier inventories, had 1,150,000 in feedlots June 1, making a seven-state total of 9,075,000 cattle.

Looking ahead, the June 1 figures show Texas may continue in the lead for a while. Placements of cattle in feedlots during May—which will affect the July inventory—totalled more than 1.6 million head, up 17 per cent from the month last year.

Double Tragedy
BATON ROUGE, La. (AP) — Albert W. Barker, 52, of Friendswood, Tex., and his wife Mineola, 52, were killed Wednesday when their auto hit a guard railing.

State police said the accident occurred west of Baton Rouge.

TOO LATE TO CLASSIFY

LEGAL NOTICE
The Commissioners' Court of Howard County will receive sealed bids on the 17th day of June, 1972 at 10:00 a.m. in the Commissioners' Courtroom of the Courthouse in Big Spring, Texas, for a yearly contract to exterminate the Howard County Courthouse, extermination to be done monthly.

Specifications may be obtained from the County Auditor's Office, Howard County Courthouse, Big Spring, Texas.

The court reserves the right to reject any or all bids.

SIGNED: VIRGINIA BLACK, County Auditor (June 28, 1972)

THREE FAMILY / Garage sale, 400 Vicky, Friday 9:00-4:30 p.m., Saturday 9:00-6:00 p.m., Father's Day items.

FOOT PAIN: (Q.) This may sound pretty funny, but it's not to me. This girl who is my best friend just loves to take her shoes off the minute she comes inside, and her feet smell awful.

Left Out
Jean Adams' TEEN FORUM

"LEFT OUT" (Q) Today this ice-cream truck came around. I was with these two girls (I will call them Girl 1 and Girl 2). I bought some candy. Girl 1 bought some candy. Two boys came up. One started talking to Girl 1. The other started talking to Girl 2. I was left standing there alone.

This is not the first time this has happened. Don't get me wrong. A few are nice but mostly all they want to talk to me about is sex. I am cute and have a nice shape, but I dress nice and I don't give them any cause to talk about sex.

What is wrong with me? I want to be me, but I don't want to be alone. — Girl Number 3 in Maryland.

(A.) Keep being yourself. Keep being natural. When a boy prefers another girl don't assume he dislikes you. When a boy talks to you about sex don't assume that he talks about sex only to you.

If you are friendly and cheerful, a boy who prefers you and whom you prefer will come along.

Don't spend your time being left out. Spend your time watching out for the right boy — the boy with whom you will be Girl No. 1.

Two-Car Garage Theft Charged
ROCHESTER, N.Y. (AP) — Police have charged a man with grand larceny in the theft of an abandoned two-car garage that was going to be demolished to make way for an expressway.

Harold Mackie, 31, of Kent was arrested Tuesday night in suburban Macedon, state police said Wednesday.

Pentagon Papers Party Sparkles
LOS ANGELES (AP) — Daniel Ellsberg, Anthony Russo and 50 friends, lawyers and supporters celebrated the first anniversary of the leak of the Pentagon Papers with sparkling wine and a pentagonal cake.

The party Tuesday followed a federal court hearing in which prosecution and defense received one more day to file pretrial motions.

Ellsberg and Russo are scheduled for trial June 26 on charges of stealing and disseminating the secret Pentagon-commissioned documents on the origin of U.S. involvement in Vietnam.

At the party Ellsberg handed out pieces of the cake, on which was written: "The Pentagon Papers belong to the people."

IT BEGINS
It begins: "The season of the feather merchant is upon us."

For Republican who were asked for a few patriotic words to honor the nation's war dead, there was a speech entitled "Memorial Day 1972—What It Means."

The speeches are written by compiled by the committee's public relations staff of four male writers and two female secretaries.

"We get good reception from them," said David LeRoy, publications director who also supervises the committee's Newsletter Notes. "What we do with the speech of the week is take one that looks interesting and send it out to members to use or for gist for their news letters."

Double Tragedy
BATON ROUGE, La. (AP) — Albert W. Barker, 52, of Friendswood, Tex., and his wife Mineola, 52, were killed Wednesday when their auto hit a guard railing.

The bidding:
 West North East South
 1 ♠ Dbie. Pass 2 ♥
 2 ♠ 3 ♥ Pass 4 ♥
 Pass Pass Pass

Opening lead: King of ♠
 When South responds with two hearts to partner's take-out double of West's opening one spade bid, it is a forced action and may be based on little or nothing. When West rebids two spades, therefore, North can do no more than raise to three hearts even though he has 18 points in support.

By the same token, South's holding which is worth eight points—warrants carrying on to game since the doubler has bid at the three level on his own initiative.

West opened the king of spades and the ace was played from dummy. Declarer could see nine tricks once trumps were drawn—one

spade, four hearts, and four clubs. The 10th apparently would have to come from the diamonds, however, West's vulnerable activities during the auction convinced South that the opening bidder had the ace of that suit and nothing was to be gained by leading toward the king.

The only legitimate chance was to compel West to lead diamonds. This would require finding the latter with the lone ace of trumps and then putting West on lead at a time when he had nothing but spades and diamonds left in his hand.

First it was necessary to strip out the clubs. North's ace and king were cashed on which West followed with the three and four. South decided to lead a third round to the queen in his hand and—fortunately for him—both opponents followed suit again. Now a small heart put West in with the ace. The latter played the queen of spades, felling declarer's jack.

West was reluctant to present his opponent with a ruff and stuff, so—*in desperation*—he underled the ace of diamonds in the hope that East had the king. When South turned up with that card, the contest was over. The king and queen of hearts drew the remaining trump and the ten of clubs provided a parking place for the seven of diamonds. One diamond trick was conceded to the opposition, limiting South's losses on the deal to one spade, one heart, and one diamond.

Texas Death Rule Upheld

AUSTIN, Tex. (AP)—The Texas Court of Criminal Appeals denied Wednesday a motion for rehearing in the death penalty conviction of Clarence Prejean Jr. of Houston.

Prejean was convicted in the slaying of an 8-year-old girl, whose body was found in the closet of his apartment in October 1968.

"The little girl's neck had

been fractured and dislocated," the court said in its opinion upholding the conviction last month. "A towel was stuck in her mouth. Her dress was pulled up, her legs were apart and she had on no panties or shoes."

"Blood was visible in both her vaginal and rectal areas, where the skin had been torn. Her left eye was black and blue and swollen."

"There were marked bruises on her neck indicating manual strangulation. The medical examiner testified the girl's skull had been fractured, resulting from a heavy blow."

Keep Trying

Your Good Health
 Dr. G. C. Thosteson

Dear Dr. Thosteson: What can be done about almost unbearable vaginal itching? There is no discharge. I am 71 and my doctor only said to use white petroleum jelly, but it doesn't help much. Wish you would advise something. — A.F.

With menopause, there is a decrease in production of the female hormone estrogen.

It is possible well after that (as at your age) for the estrogen deficiency to cause changes in the vagina and related structures, with severe itching as a result.

This problem is usually most effectively corrected by the use of ointments or lotions consisting of the best solution I have found.

Before leaving this topic, I note all vaginal itching is from the same cause. Vaginitis (from various types of yeasts or other infections) causes a good many cases.

In today's case, the patient's age, plus the lack of any and not some or form.

Dear Dr. Thosteson: Please possibility of turning into a cancer. Do you have a booklet on it? — Mrs. G.W.D.

Hithertofore I have not heard of anything that "turns into cancer." It can, however, lead to ulceration if not treated. Mainly, it is a matter of discomfort rather than danger—but it can be just as annoying as, for example, peptic ulcers, and the symptoms can very much resemble such ulcers.

Ordinary conservative treatment is adequate to keep the patient comfortable. Occasionally, but not usually, surgery is necessary.

Yes, I have a booklet covering this: "Hial hernia and Eight Ways to Control It." Send 25 cents and a long, self-addressed, stamped envelope for a copy.

In view of the frequency of this trouble, it is surprising that people don't know more about it. Of course, once they get it, they rightly study up on it.

Dear Dr. Thosteson: Can you DOCTOR? My leg is sore all the time from the knee to the ankle. bearly painful. When the leg it or, sometimes during the

night, when I move it to get the circulation back, the pain is terrible. What could cause this? — Mrs. G.E.D.

Lots of things could cause it; the likeliest is probably some circulatory disorder. If it's even of course you should see a doctor.

Dear Dr. Thosteson: Tow months ago I gave birth to a baby weighing 9 pounds 8 ounces. A friend informs me that this was a sign that I would develop sugar diabetes because of the baby's size. Is there any truth to this? — Mrs. S.M.B.

Some. Having large babies is a suspicious (but not positive) sign that a mother may be predisposed to diabetes. With that much warning, have your sugar tested from time to time, and keep your weight down to a reasonable level. That's all you can do about it.

Never take a chance with diabetes! For better understanding of this disease, write to Dr. Thosteson in care of the Big Spring Herald for a copy of a booklet, "Diabetes — The Sneaky Disease." Please enclose a long, self-addressed (use zip code), stamped envelope and 35 cents in coin to cover cost of printing and handling.

Jaywalks Into Robbery Charge

LOS ANGELES (AP)—Officer B. R. Wallace was cruising on his police motorcycle when he saw a man jaywalking across the street to a car.

When Wallace wheeled over and prepared to give him a ticket, the man quickly raised his hands in surrender. The surprised officer soon learned that the Bank of America branch across the street had just been robbed of \$700.

The man, who refused to give his name, had the \$700 and was booked for investigation of robbery, authorities said Tuesday.

BIG Six 84

NEW DELHI (AP) — Americans were among the 84 people who died in the crash of a Jap plane as it was preparing to land in New Delhi Wednesday.

Six persons—three Americans and three British—were killed, but one of the survivors was believed to be an American.

One Indian passenger was reported to have been killed in the field in which the plane crashed was hit by a piece of wreckage during a critical condition.

A passenger list from pan Air Lines names for the plane as Curtis, E. Curtis, G. Marquardt, E. Weishaupl, A. W. Weishaupl, an infant B. Weishaupl, L. Myers, C. Myers, Mrs. Hennessy, Mrs. Hennessy and F. Hennessy.

Home addresses were available.

Ten of the 78 were Japanese, and 11 Japanese in the airline said.

CLEARED FOR

Among those reported was the first secretary of Canadian Trade Commission Hong Kong, Wayne He was flying to marry a Canadian works in the India.

The plane was from Tokyo to London stopped in Hong Bangkok. It had for landing by the control tower and

Six Survive Crash, 84 Reported Killed

NEW DELHI (AP) — Sixteen Americans were believed to be among the 84 persons killed in the crash of a Japanese jetliner as it was preparing to land at New Delhi Wednesday night.

Six persons—three women and three small girls—survived, but one of the women died in a hospital. None of the survivors was believed to be an American.

One Indian casualty was reported. A farmer working in the field in which the plane crashed was hit by a burning piece of wreckage. He was in critical condition.

A passenger list issued by Japan Air Lines gave these names for the Americans: A. Curtis, E. Curtis, E. Weatherly, G. Marquardt, E. Nemei, F. Weishaupl, A. Weishaupl, R. Weishaupl, an infant listed as B. Weishaupl, L. Heydorn, E. Myers, C. Myer, A. Hennessy, Mrs. Hennessy, Miss H. Hennessy and F. Hennessy, a 4-month-old.

Home addresses were not available.

Ten of the 78 passengers were Japanese, and there were 11 Japanese in the crew, the airline said.

CLEARED FOR LANDING
Among those reported killed was the first secretary of the Canadian Trade Commission in Hong Kong, Wayne Hubble, 37. He was flying to New Delhi to marry a Canadian woman who works in the Indian capital.

The plane was on a flight from Tokyo to London and had stopped in Hong Kong and Bangkok. It had been cleared for landing by the New Delhi control tower and was descend-

ing into its landing pattern when it plunged to the ground in flames near the village of Jaitpur, 15 miles from the airport, said Yasuteru Matsui, regional manager for JAL.

LOST CONTACT
"The pilot said 'Roger,' and then lost contact," Matsui said. "Until then, nothing appeared wrong."

It was 8:20 p.m. and still daylight, but a heat haze hung over New Delhi, and dust storms made the visibility poor. The temperature has been around 110 most days.

The president of the airline, Shizuo Asada, said in Tokyo that there had been no bomb threat to the plane. He added that JAL has taken maximum safety measures since the airport massacre in Tel Aviv by three Japanese terrorists on May 30.

The Japanese government and the airline sent a plane load of experts and officials to New Delhi to investigate the crash.

NO WONDER SHE NEEDS AN ICE BAG — Ginger, a spaniel owned by John Burns of Salinas, Calif., has good reason for the ice bag at feeding time. She had a litter of 14 pups earlier this week and this is how it looks at feeding time.

'Free-Wheeling Global Corporations' Giggled

HOUSTON (AP) — The presiding actions of corporations operating internationally," he said.

He said the global companies should be developed by governments of the world to control what he called "free-wheeling global corporations."

Leonard Woodcock said the problems posed by "free-wheeling, globe-straddling, high-technology multinational corporations" are considerable to the working men and women.

He told delegates to the 63rd annual convention of Rotary International Wednesday the multinational corporation should be made to respond positively to public needs.

"The difficulty lies in the near-vacuum of international policy and law governing the

actions of corporations operating internationally," he said.

He said multinationals have the capability to treat host countries "as roughly as they can treat their workers."

"They can play government off against government as a means of escaping national laws," he said. "They can make a mockery of foreign exchange controls... they can engage in damaging speculation against the currency of their own countries."

Link Odessa To Murder Case

BAKERSFIELD, Calif. (AP) — A 20-year-old Odessa farm worker is being investigated in connection with the death of an unidentified man in California.

Jose Guadalupe Miranda was booked Tuesday for investigation of murder by authorities in Kern County, Calif. Miranda was staying at the Rodriguez labor camp near Lamont.

Investigators believe the dead man, whose badly beaten body was found alongside a country road, was also staying at the camp.

RECOMMENDED RECIPES Of Mrs. Tony Sims

LAMB PAPRIKASH
2 lbs. lamb, cubed
2 tbsps. cooking oil
1 16-oz. can (2 cups) tomatoes, cut up
1 cup chopped onions
2 tbsps. snipped parsley
1 tsp. salt
1/2 tsp. paprika
1 cup sour cream
1/4 cup red wine
Hot cooked noodles
Brown lamb in oil. Drain tomatoes, and save 1/4-cup juice. Add tomatoes, onions, parsley, salt and paprika to lamb. Cover and simmer 1 to 1 1/2 hours until meat is tender. Spoon off excess fat. Stir in sour cream and reserved tomato juice. Add 1/4 cup red wine. Cook just until hot. Serve over drained, cooked noodles and garnish with additional parsley and paprika.

MOTHER'S RUBARB CREAM PIE
1 1/2 cup sugar
3 tbsps. flour
1/2 tsp. nutmeg
1 tbsps. margarine
2 eggs, well beaten
3 cups cut rhubarb
Pie pastry
Blend sugar, flour, nutmeg and margarine. Add eggs and beat until smooth. Pour over rhubarb in a 9-inch pastry lined pie pan. Top with pastry cut in fancy shapes or lattice work. Bake in hot oven (450 degrees) for 10 minutes. Lower heat to 350 degrees and bake 30 minutes longer.

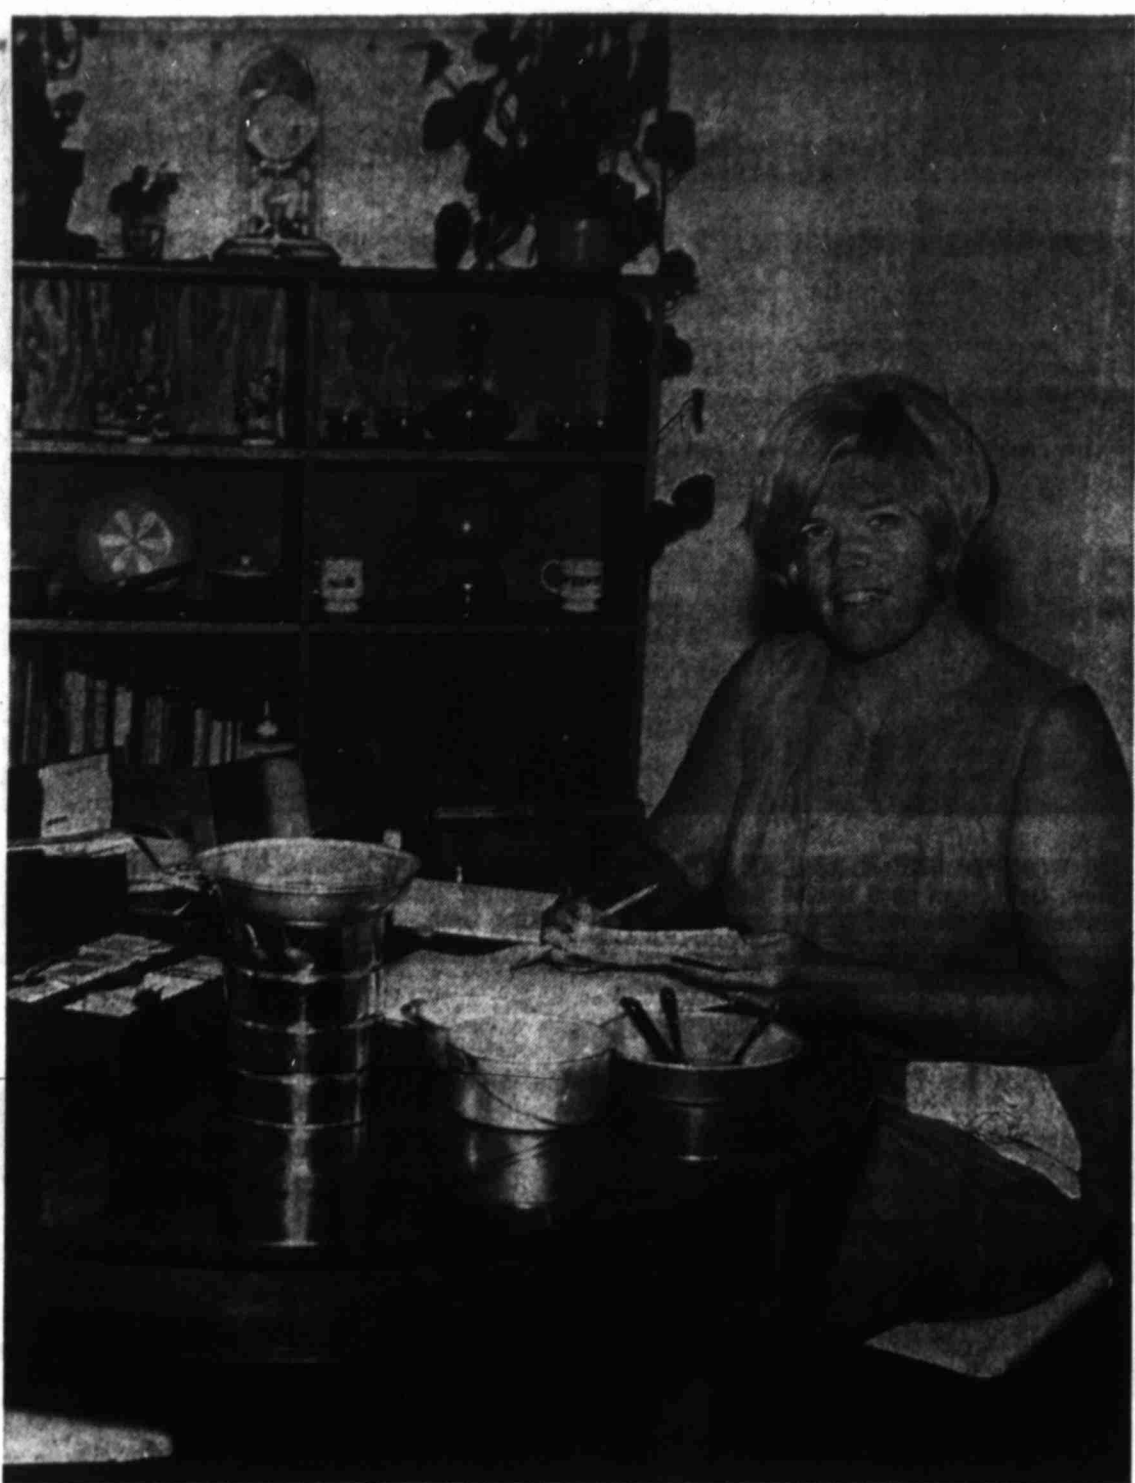

SOUR CREAM CHICKEN ENCHILADAS
2 cans cream of chicken or cream of mushroom soup
1 cup water or milk
2 tbsps. flour
1 small can chicken
1 cup fresh chopped green chilies
1 1/2 cup grated cheese
1 medium onion, chopped
1 cup sour cream
Shredded lettuce and chopped tomato
Garlic salt to taste
12 tortillas
Combine soup with water or milk and add flour. Blend well and bring to boil in saucepan. Remove from heat and stir until thickened. Add chicken pieces and green chilies, and season with salt, garlic and pepper. Lightly fry tortillas and keep warm. Combine one cup grated cheese with sour cream and chopped onions. Place one tortilla on a plate, cover with

generous spoonful of chicken mixture, top with sour cream mixture and cheese. Continue layering until desired height is reached. Three in a stack is good. Garnish with lettuce and tomato.

CHILI RELLENOS
12 large chilies with stems, parched and peeled or
3 4-oz. cans whole green chilies
1 lb. cheddar cheese, cut in thick strips
1 cup all-purpose flour
1 tsp. baking powder
1/2 tsp. salt
1 cup milk
1/4 cup cornmeal
2 eggs, slightly beaten
Combine flour, salt and baking powder. Add cornmeal. Blend milk with eggs and then combine with dry mixture. Beat until smooth paste is formed. Set aside.
Peel chilies, open small slit below stems and remove seeds. Fill chilies with thick strips of cheese, using care to avoid breaking chili. Lightly flour each chili. Dip stuffed chilies in batter and fry in hot fat (360 to 365 degrees) until golden brown. Drain on paper towel. Serve with extra cheese sauce or salsa.

FLAMING CHERRY JUBILEE CAKE
1 pkg. 2-layer size red Devils' Food Cake mix
1 8-oz. pkg. cream cheese
4 tbsps. sugar
2 tbsps. milk
1 pkg. whipped topping
1 16-oz. can dark cherries
2 tbsps. cornstarch
1/4 cup water
1/4 cup burgundy
Bake cake as directed on package in a Bundt pan. Cool and remove from pan. In mixing bowl, beat together cream cheese, sugar and milk until fluffy. Prepare topping according to package directions. Fold into cream cheese mixture. Chill. Drain cherries and reserve syrup. In small pan, combine cornstarch and 2

tablespoons sugar. Mix well. Gradually stir in cherry syrup and water. Cook and stir until thick and bubbly. Stir in cherries and burgundy. Remove from heat. Spoon cheese mixture into center of cake. Top with some of the cherry sauce and douse with brandy. Flame and bring to table. Serve with more warm cherry sauce.

(Photo by Danny Valdes)

ROUGHING IT — Mrs. Tony Sims has left her modern conveniences behind for the week, as she helps area Girl Scouts learn how to get along in the out-of-doors. As director of the scout day camp, Mrs. Sims hopes the girls will learn that you can make more than hamburgers and hot dogs over a campfire. She does equally well whether using an open fire or a modern range.

Natural World Outside Is Her Favorite Domain

By BARBARA LORD

This is a busy week for Mrs. Tony (Darcie) Sims. As director of Girl Scout Day Camp which started Monday and lasts through Friday, Mrs. Sims is at the Scout grounds from 7 a.m. until 2 p.m. each day, and goes from there to the YMCA where she teaches swimming. Then it's home to prepare dinner for her husband, a lieutenant student pilot at Webb AFB.

The hectic schedule is not unusual for Mrs. Sims, a lady who is happiest when she's involved in some activity outside. Both she and her husband are amateur archeologists, and whenever they find some leisure time, they go searching for, of all things, sea shells. They have found quite a collection of them in this area. Most of them are imbedded solidly in large rocks, because it was thousands of years ago that this part of the country was completely submerged in water.

The hard part of day camp is over for Mrs. Sims, who was responsible for training the leaders who are now teaching at the camp. The last remaining hurdle is tonight when the Scouts and leaders will spend the night "under the stars" — without even a tent.

"As director, it's now my job to sit under a tree and see that things go according to the program," said Mrs. Sims. "I tried to plan it with activities the girls can't do at home, so I emphasized outdoor cooking, first aid and nature more than the arts and crafts phase." Recruiting and training the staff for the camp, as well as preparing the program, turned out to involve more work than Mrs. Sims thought it would, but she is well-versed in Scouting procedures and goals. Counting her own time in Scouting programs, Mrs. Sims has worked with Scouts for 18 years, and she said it is a lot more involved than when she was a member. At that time there were just Brownies and Senior Scouts, without the various divisions within the two.

At the Sims' home in Kentwood Apartments, Mrs. Sims is an orderly and conscientious homemaker. Mr. and Mrs. Sims are expecting their first child in November, and Mrs. Sims is already making plans for the baby's room.

Lt. Sims' schedule as a student pilot has him reporting for work anywhere from 4 a.m. to 1 p.m., and getting home anywhere from noon to midnight or even later. Consequently, it's difficult to plan meals on a regular basis.

"I haven't resorted to TV dinners yet, but the time may come," warned Mrs. Sims. "I've always enjoyed cooking, but never had time for it when I was in college, so now I feel like I'm still learning. I'm game to try anything that somebody suggests, and we've gotten a lot of good recipes that way."

The Sims' favorite cuisine is New Mexican cookery, which she explained is much hotter than Mexican cooking. One

reason is that they don't remove the seeds from green or red chilies.

"New Mexican cooking is the kind that gives you a suntan from the inside out," said Mrs. Sims. "The Indian influence is why it's so hot. Whenever we go home (New Mexico), we come back with a big supply of chilies, but if we're having guests for dinner we give in and remove the seeds."

Lt. and Mrs. Sims both claim New Mexico as home. They attended the University of New Mexico where he received a degree in political science, and she earned an undergraduate degree in radio and television, as well as a master's degree in special education. She taught one year at the Albuquerque, N.M., Job Corps for problem girls, and spent one semester teaching adults to read at the UNM.

Mrs. Sims is also a guitarist, and plays and sings with a folk singing group of student wives

at Webb. Lt. Sims plays base and tuba. She is also a seamstress, and finishes or refinishes furniture that her husband builds.

As the daughter of a retired Army colonel, Mrs. Sims "gets edgy" and ready to move after about two years in any one place. Some of her restlessness between moves is eased by the couple's camping trips which they take as often as possible. They also do a lot of bicycling and enjoy any type of sports.

PANTRY PICK-UPS

When you buy lamb riblets count on having about 1/4 pound per serving.

Garlic crostons taste good atop pea soup. The easy way to make the crostons is to sprinkle buttered toast cubes with garlic salt.

Good enough for company: coffee gelatin cut into cubes and topped with soft custard sauce.

Chicken wings make an economical dish. Count on two pounds of the wings yielding 12 to 16, enough for 4 eaters.

To make a delicious tartar sauce (to serve with fish) mix together 1/2 cup mayonnaise, 1 tablespoon lemon juice, 2 tablespoons sweet pickle relish (or finely chopped dill pickle) and 1/2 teaspoon Worcestershire sauce. Makes about 3/4 cup or enough for 6 servings of fish.

Ever serve baked custard with a sauce of maple syrup and chopped walnuts or pecans? Good!

Some cooks like to add a pinch of cinnamon when they are preparing a package of chocolate-flavor instant pudding mix. This combination of chocolate and cinnamon comes from Mexican cuisine.

A little maraschino cherry juice and some of the finely chopped cherries may be added to Hard Sauce to serve with a steamed pudding.

If there's a jar of Italian seasoning on your herb shelf, you'll find it's good added when you are cooking zucchini.

Win Dad's Heart With Sweetness

That special day for Dad is just around the corner. And the lady of the house, well aware of the old adage that the "way to a man's heart is through his stomach," is probably already planning the menu for that special dinner on June 18.

If Dad has a "sweet tooth," something extra special in the way of dessert should be in the offering. Right in line with a plentiful supply of milk and dairy products. For milk is the key to many special dessert concoctions to please Dad and the rest of the household, too. Here is a real Father's Day treat.

RICE CREAM WITH STRAWBERRIES

2 cups whole milk
1/4 cup uncooked rice
2 tbsps. unflavored gelatin
3 tbsps. sugar
1/4 tsp. salt
1 cup whipping cream
1 cup fresh strawberries, sliced
3 tbsps. sugar
1/2 tsp. vanilla
Heat milk in the top of a double boiler. Add rice and cover. Cook over boiling water, stirring occasionally, until rice is tender, about one hour. Mix gelatin, 3 tablespoons of the sugar and salt. Add to rice mixture, mix thoroughly and cool.
Whip cream until stiff. Combine strawberries and 3 tablespoons of sugar. Fold strawberries, vanilla and whipped cream into rice mixture. Chill 1 1/2 to 2 hours, then serve. Makes six servings of about 3/4 cup each.
If you prefer, use 1 cup of sliced fresh peaches instead of strawberries and add 1/4 teaspoon almond extract.

Quick, Easy 'Penny' Dough

Cheddar Pennies are easy to make and delightful to eat. Freeze the dough until it's needed.

CHEDDAR PENNIES
cheese spread
1/4 lb. (1 stick) butter or margarine
1 jar (5 oz.) sharp cheddar
1 cup flour
Blend butter and cheese spread. Add flour. Shape into balls about 1/2-inch in diameter. Freeze. Remove from freezer to baking sheets, spacing 2-inches apart. Bake at 425 degrees for 8 to 10 minutes. Makes about 80.

APPROPRIATE GIFT FOR FATHER'S DAY
Man-sized steak, favorite menu

Steaks Help Make Dad's Day Delicious

Thick and juicy, flavorful and tender, steaks deserve an important occasion like Father's Day to be the star attraction. If you haven't made steak traditional for this occasion, by all means, do it this year.

There are many fine steaks from which to choose. If you want individual steaks, you might select from rib eye or Delmonico T-bone, rib, club or strip.

Porterhouse is a versatile steak as far as the number of servings go. Some fathers with good appetites would consider a 1-inch porterhouse steak enough just for the man of the house. A 2-inch thick porterhouse will serve from 2 to 4 people.

BEEF PORTERHOUSE STEAK

Beef porterhouse steak, cut 1 to 2 inches thick.
Salt
Pepper
When broiling in the range set regulator for broiling. Place steak on broiler rack so the top of 1-inch steak is 2 to 3 inches from the heat, and 2-inch steak is 3 to 5 inches from the heat. When one side is browned, season, turn and finish cooking on the second side. Season. Steaks cut 1 inch thick require 8 to 20 minutes for rare steak and 20 to 25 minutes for medium-done steak. Steaks cut 2 inches thick require 30 to 40 minutes for rare and 35 to 45 minutes for medium-done steak.

Shrimp Is Good Prelude To Dinner

Here's an appetizer fit for a king and his queen and all their guests. Shrimp is always a hit.

SHRIMP INEZ
1 1/2 lbs. large shrimp
1/4 cup butter or margarine
1 garlic clove, minced
1/2 tsp. salt
Freshly ground black pepper
1/4 cup chopped parsley
Peel, devein and wash shrimp. Pat dry with paper towel. Melt butter or margarine in large skillet. Add garlic and salt. Cook until garlic is golden brown. Add shrimp; cook until pink on underside. Turn; cook until pink (about 8 minutes). Sprinkle with freshly ground black pepper. Add chopped parsley. Cook 1 minute longer. Serve hot. Makes 12 servings as an hors d'oeuvre or 4 servings as a main dish.

FONDUE SANDWICHES WIN AWARDS
Calls for repeat performances

Fast, Light Supper For Mid-Week Moviegoers

Movie lines are enormous if you wait until eight. Why not avoid the crowds by catching the early show?

Like most hungry families, you'll probably want to grab a quick, light supper before you leave the house. Try open-faced sandwiches made with tomatoes and bacon on toasted French bread, and smothered all over with a warm fondue-style sauce of Swiss cheese and Buttermilk — a perfect answer to the mid-week movie menu dilemma.

To make easy-to-prepare Buttermilk Fondue Sandwiches, start by blending shredded Swiss cheese with cornstarch. Stir in buttermilk and seasonings, and then heat this mild, cheesy sauce until it's thickened and smooth. You can keep it warm over hot water while you toast thick pieces of fresh French bread and top each slice with a few strips of crisp bacon and two ripe tomato slices.

Now you're ready to pour the warmed buttermilk fondue sauce generously over the top, letting its smoothness cover the bread and spill over the sides. For Mom and Dad, freshly brewed coffee is a natural accompaniment. And for the younger set, how about a tall, cold glass of milk — or maybe even buttermilk — to comple-

ment this tasty fondue sandwich.

You'd better have some extra sandwich ingredients waiting at home when you return — for you'll discover that you've produced the real Oscar winner of the evening when your enthusiastic family comes back from the show and requests a "repeat performance."

BUTTERMILK FONDUE SANDWICH

1/2 lb. process Swiss cheese, shredded
2 tbsps. cornstarch
1 cup Foremost Buttermilk
1/4 tsp. garlic salt
1/4 tsp. dry mustard
1/4 tsp. white pepper
Dash cayenne
4 slices French bread (or other bread)
8 slices crisp cooked bacon
8 thin tomato slices
Radishes, olives and lettuce for garnish
Mix shredded cheese with cornstarch in a heavy saucepan. Stir in Foremost Buttermilk and seasonings. Heat, stirring frequently, until smooth and thickened. Keep warm over hot water. Toast bread. Top with crisp cooked bacon and tomato slices. Pour cheese sauce over top of each sandwich. Garnish plates with radishes, ripe olives and crisp lettuce. Serves 4.

PROPERLY DISPOSING of an outdated United States flag is a new experience for all Scouts. Here Cadettes Jenise Thomasson, Donna Bauer and Debbie Fryrear practice for the flag-burning ceremony which will climax the open house this evening at the Day Camp being held in Silver Heels Addition. Visitors are welcome to tour the camp at 7 p.m., see the campers in action and view the initial part of the ceremony.

Astrological Gardening Discussed

Astrological gardening was discussed by Miss Shirley White for members of Texas Bouquet African Violet Club Tuesday afternoon in the home of Mrs. Odell Womack, 1601 Tucson. Miss White told what Zodiac signs indicate the best time for planting, transplanting and rooting flowers and for destroying weeds. She said flowers planted during the Libra sign will be larger, with more color and more scent. "The Pisces sign is best for root crops and for rooting plants such as African Violets," said Miss White. "Cancer and Scorpio are best for transplanting, and Aries, Leo and Gemini are good times to destroy weeds." Miss White also stressed the importance of planting certain herbs and flowers in a garden to help destroy nematodes and other pests. Mrs. Womack used African Violets in decorations throughout the room. A salad buffet was served from a table centered with assorted flowers around an African Violet, and individual tables held African Violets in terrariums. The group will meet again at 4 p.m., July 18 in the home of Mrs. Johnny Johansen.

OES Rite Held At Coahoma

The installation of officers for Coahoma Chapter 499, Order of Eastern Star, was held Saturday evening in the Masonic Hall. The officers for 1972-73 are Mrs. Gerald Culpepper, worthy matron; Gerald Culpepper, worthy patron; Mrs. H. E. Heaton, associate matron; Lowell Brown, associate patron; Mrs. D. S. Phillips, secretary; Mrs. Fred Adams, treasurer; Mrs. Jimmy Swan, conductress; Mrs. Lowell Brown, associate conductress; Mrs. C. J. Engle, chaplain; Mrs. E. A. Richters, marshal; Mrs. John Westmoreland, organist; Mrs. Ernest Garrett, Adah; Mrs. Don McKenney, Ruth; Mrs. David Grant, Ester; Mrs. A. C. Collins, Martha; Mrs. O. A. Madison, Electa; Mrs. A. K. Turner Sr., warden; and Melvin Tindol, sentinel. Mrs. Norman Read was mistress of ceremonies. Mrs. Melvin Tindol was the installing officer, and H. H. Tanner was a s s i s t a n t installing officer. Other installing officers were Mrs. Garrett, marshal; Mrs. A. D. Martin, chaplain; Mrs. John Davis, organist; and Mrs. Joe Rogers, secretary. Grand officers are Mrs. Read, past grand matron; Tanner, Masonic ambassador; Mrs. Garrett, co-chairman of Star visitation; and Mrs. Fred Beckham, home endowment. Mrs. Davis opened the program with music selections, after which the Bible was presented by Gary Culpepper. The emblem presentation was by Joe Culpepper. Grant called the group to order, and the Bible was opened by Mrs. Richters. Gary Culpepper worded the invocation, after which Grant led the Pledge of Allegiance. Introductions were by Mrs. Engle and Mrs. Tindol. After the ceremony, the Bible was closed by Mrs. Swan, and the new worthy matron and worthy patron addressed the group. Musical selections were by Mrs. Gary Culpepper, and Gary Culpepper pronounced the benediction. The evening was climaxed with a reception. Assisting Mrs. Engle on the refreshment committee were Mrs. Leon Mencer, Mrs. Adams, Mrs. Phillips, Mrs. Madison, Mrs. Charlie Wolf and Mrs. W. A. Steagald. Mrs. Rogers and Mrs. Mencer were in charge of registration, and decorations were by the past matrons.

Mix Yams, Fruit

Mashed sweet potatoes taste extra good when they are mixed with crushed pineapple and slivered dates. Nice to serve with baked ham or smoked boneless pork shoulder butt.

An Information Service For Consumers

BY MARGARET DANA

This week I am going to provide concerned consumers some information to help separate fact from fiction about food additives. This has become a tangled, confused situation, and many people have asked me to find out the truth to help them form sensible opinions. Two points are important as a start. One is the question, "What are food additives?" The other is the question, "Why are they used?"

The official definition of the term food additive: A substance added either directly to food or which may reasonably be expected to become part of food through surface contact with equipment used in packaging. Furthermore, even some things which will not become part of any food but may affect it are considered additives. Radiation as used on some foods is one of these last types of additives.

WHY ADDITIVES?

Why are they used? The broad general answer is simply this: (1) to put back into foods the characteristics which today's processing may remove, or which are needed in larger amounts to make it possible to provide great volumes of foods; (2) to let foods travel long distances safely; and (3) to have a longer and safe shelf life.

Even cooking foods in our own kitchens removes certain amounts of vitamins and minerals and other natural factors from those foods. Today's commercially prepared foods have to be prepared under higher temperatures, higher pressures and greater stirring motions, especially the convenience or quick-to-prepare foods. These methods curiously enough, did not originate with the food industry just as a profit-maker, but with the demand from modern consumers for foods to last longer and stay fresher, richer on shelves before use. To accomplish these goals the food science specialists had to discover how to replace or add to the natural chemicals and nutrients in foods that new processing methods might remove.

The word "chemical" disturbs many people because it sounds foreign to pure food. But chemicals are a natural part of all goods. Orange juice, for instance, has more than 100 chemical substances in it just as it comes from the oranges, with nothing added anywhere along the line.

The trouble is that while the law says food additives must be stated on labels according to their common or usual names, most chemicals don't have any common or usual name other than their technical names. Items like hydrogen oxide and sodium chloride happen to have common names—water and salt. But monoglycerides, propyl gallate, propylene glycol, calcium propionate, and so on can't be translated into familiar words.

What specifically do all these 2,500 or so currently used additives do for your food? Some bolster up the vitamins, minerals and nutrients. Others prevent oils and fats from turning rancid during transportation and shelf life. Some keep the ingredients from separating, or from getting moldy, or acquiring "ropy" conditions.

FLAVOR, COLOR

Still other additives are flavorings — both natural and synthetic — and colorings. As you can see, some additives really serve us by returning foods to their original nutrient conditions after severe processing, and others simply make foods taste better or look more attractive.

Are they safe? This is the big question concerning most of us. The answer is neither simple nor complete. We simply do not have the technical or scientific know-how, yet, to say anything is 100 per cent safe under all circumstances and for unlimited time.

What the Food and Drug Administration has done to use the most advanced science to analyze and control these various additives, is to set up its "GRAS" list — meaning "Generally Recognized As Safe."

This means that the FDA, after reviewing all available evidence, from all kinds of impartial research sources as well as test data supplied by any company wanting to use a particular additive, concludes there is no significant risk of harm from using the substance as intended.

This is not the perfect solution. Changes will undoubtedly be made in the GRAS list as more is known and as we advance science.

(Margaret Dana welcomes opinions and questions on buying and will use them in her column as rapidly as research and space permit. Personal answers are impossible due to large volume of mail from readers. Address: Margaret Dana, care of the Big Spring Herald.)

Rebekah Lodge Gains Member

Mrs. Dwight McCann was reinstated as a member of John A. Kee Rebekah Lodge Tuesday evening, and Mr. and Mrs. Jake Robertson, who now live in Plainview, withdrew their membership.

Winners Named For Bridge Play

Mrs. Joe Horton and Mrs. Ralph Caton were high scorers during La Gallina's bridge play Wednesday at Big Spring Country Club. Tied for second and third places were Mrs. Hayes Stripling Jr. and Mrs. Anriell LaFond, and Mrs. M. A. Cook and Mrs. John Davis. Taking fourth place were Mrs. Jerry Jenkins and Mrs. Granville Hahn. Also, Mrs. Dan Patterson won first place last week, rather than Mrs. Ray Patterson as reported.

GRAND OPENING

Open House

Arguello's Imports

Thursday, Friday, Saturday

Arguello's Imports cordially invite the public to attend their open house anytime between the hours of 9 a.m. and 9 p.m. on these special 3 days. We promise you a unique shopping experience in the tradition of Old Mexico.

ALL ITEMS REDUCED 15% DURING OUR 3-DAY OPEN HOUSE

You will save on Father's Day gift items such as genuine leather hand tooled golf bag, decorative lamps, onyx chess sets and bookends and marble statues. We have a fine selection of wrought iron doors, patio tables, coffee tables, fences and firescreens. Dealers and contractors are welcome.

Bridal Coffee Honors Miss Jo McMillan

A bridal coffee honored Miss Jo McMillan Saturday morning in the home of Mrs. Jerry Snodgrass, 3704 Crestline. Miss McMillan is bride-elect of Lynn Adams.

Cohostesses were Mrs. Lamar Green, Mrs. Lynn Glass, Mrs. Herbert Johnson, Mrs. Horace Rankin, Mrs. Eugene Smith, Mrs. Louis Tallant and Mrs. Jackie Touchstone. All hostesses wore long gowns.

The honoree, attired in a yellow hot-pants ensemble with a multi-colored long skirt, was presented a corsage of white carnations. Also given corsages were her mother, Mrs. Harry McMillan, and the prospective bridegroom's mother, Mrs. Preston Adams.

The refreshment table was covered with a light yellow cloth and overlaid with white lace. An arrangement of white gladioli, yellow carnations, apricot-colored daisies highlighted the table, and crystal appointments were used.

Out-of-town guests included Mrs. Dehli McMillan, Plainview; Mrs. Eual Akin, Lamesa; Mrs. Larry Rawlings and Mrs. David McMillan, both of Lubbock, all aunts of the bride-elect.

Miss McMillan and Adams will be married June 24 at First United Methodist Church.

A LOVELIER YOU

Don't Go Too Heavy In Selecting Scents

By MARY SUE MILLER

A teen Lovely writes: My father and kid brothers criticize any perfume I use. Father says that nothing smells as good as soap and water. If my brothers took the remark to heart, it would be a step in the right direction. I'm soon to be sixteen. How should I handle this? My mother tells me this is an instance where silence is golden.

The answer: At least one sudsy bath or shower daily, just as your father claims, makes a good beginning to good grooming. At your age an underarm deodorant is mandatory. This need not be a subject for family discussion, but a matter between you and your mother.

As for fragrance . . . Perhaps you have been choosing a scent that is too heavy for you. Scents react differently on individual skins. What smells airy when you first apply it may turn oppressive shortly thereafter, especially in warm weather. What's wanted is light and bright, like a Sun Shower in June. Nature's own. A shaker of talc for after baths and a spray mist to use as a refresher would turn the trick.

But no matter how delicate and delightful a fragrance, be careful not to douse it on. Use just enough to surround yourself with a clean, clear air.

Afterthought: Refrain from asking male opinion. You'll know it when you receive a bottle for your birthday with a card from dad and the boys.

Put aside your grooming doubts and worries! Send today for "Your Grooming — A to Z," a leaflet that covers every step in achieving smooth looks. It tells how to manicure and pedicure, use deodorants and depilatories, bathe for beauty, tend feet, hands, teeth and eyes, polish skin and hair, care for clothes, apply perfume, overcome personal posers. To obtain your copy, write Mary Sue Miller in care of the Big Spring Herald, enclosing a long, self-addressed stamped envelope and 25 cents in coin.

Rainbow Girls Collect Hosiery For Hospital

More than 10,000 hose were collected for Big Spring State Hospital by the Order of Rainbow for Girls, Assembly No. 60. The announcement was made by Zina Johnston at a meeting Tuesday evening in the Masonic Temple. The hospital staff uses the hosiery for patients therapy work in making pillows and stuffed animals.

Sandra Dickenson presided, and guests were 15 members of Norman Reed Assembly of Midland, including Brenda Evans grand representative from Mississippi to Texas, and Sharon Andrews, grand representative from Vermont to Texas, and Sharon Andrews, grand representative from Vermont to Texas, and Sharon Andrews, grand representative from Vermont to Texas.

Jets Smash Fuel Depots, Radar Vans

SAIGON (AP) — U.S. jets smashed 14 more bridges in North Vietnam Wednesday, left fuel depots in flames and wrecked scores of warehouses, supply trucks, railroad cars and radar vans, the U.S. Command announced.

More than 230 strikes were flown, the command said. It reported a Navy A7 Corsair was shot down by a surface-to-air missile during a night raid, and the pilot is missing.

U.S. B52 bombers began their second week of saturation raids around the North Vietnamese port of Dong Hoi in a campaign to wreck war materials believed destined for an attack on Hue.

More than 200 B52s dropped 500 tons of explosives on three sides of Dong Hoi. Hue is 90 miles to the southeast.

In South Vietnam, fighting was reported light around An Loc, 60 miles North of Saigon, but North Vietnamese gunners doubled their fire on the provincial capital. Field reports said about 600 shells hit the city during the 24-hour period ending at dusk Wednesday, double the daily average for the past several days.

One American adviser said there is no longer any serious fighting at An Loc.

"The South Vietnamese can move two or three kilometers out from An Loc without much resistance," he told Associated Press correspondent Richard Blystone at a command post on Highway 13 south of the town. "At An Loc, there's nothing left. The North Vietnamese are dead or they're gone."

"An Loc is a rubble pile. But it never was a symbol. Psychologically and militarily, the fact that An Loc held, that's what counts."

The adviser said the South Vietnamese are in the final stage of lifting the siege of An Loc now in its 70th day, by opening Highway 13, the only overland route to the city, and running a convoy through.

In the central highlands, South Vietnamese infantrymen battled along Highway 14 midway between Pleiku and Kontum. Sixty-three North Vietnamese were killed, the Saigon command said, and three government troops were killed and 12 wounded.

Military sources confirmed that a big South Vietnamese helicopter loaded with refugees crashed south of An Loc two days ago with all aboard killed.

One unconfirmed report said an estimated 80 refugees from An Loc were aboard.

14 Americans Are Missing, Six Killed

SAIGON (AP) — The number of U.S. troops killed in action in Vietnam dropped to six last week, but 14 Americans were reported missing, according to the U.S. Command's weekly casualty summary issued today.

Most of the missing were believed to have been aboard a C46 transport plane that sources said disappeared in the central highlands nearly two weeks ago with 14 Americans, 11 Vietnamese and a crew of six Chinese aboard.

They were members of a clandestine operations group, and the U.S. Command has never acknowledged the loss.

The total of South Vietnamese casualties and the number of North Vietnamese and Viet Cong killed also dropped last week, reflecting a general decline in the level of ground combat.

The U.S. Command reported six Americans killed in action, two missing in action, 12 missing not as a result of hostile action, three dead of non-hostile causes and 32 wounded.

South Vietnamese casualties last week were 632 killed, 2,302 wounded and 167 missing, the lowest totals in five weeks, the Saigon command said. It claimed 3,719 North Vietnamese and Viet Cong killed and said all but 20 were killed by government forces.

The allied commands now report these total casualties for the war:

American—45,782 killed in action, 33,116 wounded, 10,194 dead from non-hostile causes, 146 missing from non-hostile causes and 1,598 missing, captured or interned.

South Vietnamese — 145,782 killed in action 374,082 wounded.

North Vietnamese and Viet Cong—848,942 killed.

NOT WHOLLY OUT OF IT EITHER Kennedy Isn't Exactly In Race For Spot On Ticket

WASHINGTON (AP) — Sen. Edward M. Kennedy never has been in the race for a spot on the Democratic presidential ticket this year, but neither is he wholly out of it.

Kennedy's standing with the party and his future as a national contender are at stake every time he's asked whether he would accept the nomination for president or vice president.

Perhaps that explains why he never seems to fully answer the question.

On Tuesday, the Boston Globe quoted the Massachusetts senator as saying he would "not exclude the possibility" of accepting the vice presidential nomination on a ticket headed by Sen. George S. McGovern if that seems to be the only win-

ning combination. On Wednesday, Kennedy added, "But I don't believe that's a reasonable situation or a foreseeable one. I can't foresee any circumstances under which I might accept."

A Kennedy aide said privately, "You could postulate some considerations under which he might do it and you're bound to arrive at one to which he would have to say 'Yes.' He also has said that he might run for president if it looked like George Wallace was going to get the nomination.

"But that's not the same as saying he's running, or even interested," the aide said. The remote possibility that Kennedy might consider a vice

presidential invitation on a ticket with McGovern seemed significant in that it came at the time of a struggling "stop McGovern" movement within the Democratic party.

Last Sunday Rep. Wilbur Mills, himself an announced presidential candidate, predicted McGovern would fail to win the nomination and the convention was likely to turn to Kennedy instead.

"FLATTERED" Mills said he might even be willing to accept a vice presidential nomination on a Kennedy ticket. Kennedy said he was "flattered" but still wasn't running.

Kennedy probably has it within his power to stop this move against McGovern, but he

seriously questions whether it is necessary. And running for vice president would hardly be the way.

"What 'stop McGovern' movement?" one Kennedy staff member asked. "You hear a lot about it, but I don't see it. It's a movement without a leader."

Kennedy himself said he felt McGovern was "within an eyelash" of winning the nomination. "History teaches that anyone who is this close is virtually certain to succeed."

If he felt there was a possibility that the party's Southern and conservative wing could scuttle McGovern, Kennedy most likely could beat it by seriously offering himself for the vice presidency.

Police Trial... Deliberations

HOUSTON (AP) — A federal court jury was expected to begin deliberations today in the civil rights trial of two former Houston policemen.

Arthur N. Hill and Jack A. McMahon are charged with violating the civil rights of two black prisoners by beating them April 4, 1970 in the Galena Park Police Station.

Bobby Joe Conner, one of the prisoners, died en route to a Houston hospital. Larry Taylor, the other, underwent surgery.

Conner and Taylor were stopped by Galena Park police on a traffic violation and Houston police responded to a call for help from the Galena Park officers.

Government attorneys closed their case Wednesday in the six week old trial and said they had no more rebuttal witnesses.

A jury in U.S. District Judge Woodrow Seals' court is hearing the case.

U.S. Peddles Chopped Cash

WASHINGTON (AP) — The David Mud and Chemical Co., Treasury officials say, is buying ground-up dollars from the Dallas Federal Reserve Bank for \$10 a ton and using it as well-drilling mud.

The ground-up money, turned into a thick slush, is used in the boring process.

The Treasury says it is also investigating selling the former greenbacks to a roofing company for use as roofing felt, but no deal has been worked out.

The only problem is there aren't many commercial uses for worn-out money.

The government destroys about 2,500 tons of currency a year, about two billion notes with a face value of \$12 billion.

Treasury officials say they would like to make old dollars into stationary, but it is out of the question because of Secret Service regulations. Someone might get the idea that they can use the paper for counterfeiting.

It killed the carried mala of the world insects that man's food c But it upst nature, and things worse first. It turned out the world winds, move food chain, Antarctic pen-

DDT Proved It Could Kill Disease-Carrying Insects

NEW YORK (AP) — DDT, once hailed as one of man's greatest weapons against disease and crop damage, turned out to be a time bomb.

It killed the mosquitoes that carried malaria in many parts of the world and it killed the insects that destroyed much of man's food crops.

But it upset the balance of nature, and sometimes left things worse than they were at first. It turned out to be so persistent that it spread throughout the world, perhaps on the winds, moved quietly into the food chain, resting finally in Antarctic penguins and in man.

JUBILANT DAY

The fight against the use of DDT became the symbol of the new environmental movement and the decision on Wednesday by the Environmental Protection Agency banning virtually all uses of DDT in the United States is a landmark victory for the environmentalists.

"This is a jubilant day for us," said Roderick Cameron of the Environmental Defense Fund on Long Island, N.Y., a prime mover, with the National Audubon Society, in the fight.

"The important thing now," Cameron said, "is to have government and scientists educate farmers on the many safe and effective alternatives to DDT, the integrated control techniques."

The federal decision allows a few uses estimated at requiring less than 1 per cent of the 1.6 million pounds of DDT now sold annually in this country. DDT shipments abroad, some 26 million pounds yearly, are not affected.

Both product formulators and environmentalists immediately went to court over the EPA ruling.

CAUSED CANCER

The formulators asked the federal appeals court in New Orleans to set aside the EPA order, and the environmental-

Ranger Zeno Smith Dies

SAN ANTONIO, Tex. (AP) — A man who became a near legend during his 34 years as a Texas Ranger was found dead at his home Wednesday, the apparent victim of a heart attack.

Zeno Smith, 70, was found lying in the backyard of his San Antonio home by his neighbors, police said.

Smith, who had been working as a Wilson County deputy sheriff, retired from the Rangers in July 1969.

Long identified by the broad-brimmed black western hat he frequently wore, Smith, a familiar San Antonio figure, helped solve some of the biggest criminal cases in South Texas.

Following his retirement the Texas House of Representatives passed a resolution urging the DPS to defer his retirement because he was "irreplaceable."

He was cited for his "notable record and outstanding service."

ANNOUNCEMENT RAISES QUESTIONS Kissinger Heads To Peking

WASHINGTON (AP) — Henry A. Kissinger, President Nixon's super envoy for secret and not-so-secret missions, is heading for Peking under cover of a barebones announcement that has raised more questions than answers.

With Soviet President Nikolai V. Podgorny en route to Hanoi, word of Kissinger's departure late today or early Friday spurred speculation of a new Vietnam peace move.

White House press secretary Ronald L. Ziegler publicly denied any link between Kissinger's trip to Peking, his fourth, and Podgorny's journey. And he said the Nixon strategist plans no side trips or meetings with non-Chinese representatives during his talks with Peking leaders June 19-23.

WIDE OPEN

But the White House spokesman left wide open the probability that Vietnam will at least be discussed, as did the brief joint announcement of Kissinger's visit issued Wednesday here and in Peking.

Kissinger is going, it said, "for concrete consultations with Chinese leaders to further the normalization of relations between the People's Republic of China and the United States and continue to exchange views on issues of common interest."

Kissinger's first, secret journey to China last July set up Nixon's summit session seven months later. He led an advance team to Peking in October and accompanied Nixon there in February. Meanwhile he went on a series of secret trips to Paris for Vietnam negotiations. Those trips were disclosed in January.

NEW MINING

The presidential aide's five-man entourage this time includes a Vietnam specialist, John D. Negroponi, along with China experts. Yet Ziegler said "I would not relate it (the trip) to any particular topic."

Administration sources ruled out Nixon's new mining and bombing of North Vietnam as prompting the parley, despite Peking's charge Monday that the air raids threatened China's security.

They said the Kissinger visit was agreed on last month, and that Peking could have canceled it if the Chinese intended to follow up their anti-U.S. rhetoric with tough deeds.

And Podgorny's call at Hanoi, the sources said, had been expected as the Kremlin reports to its allies on the U.S.-Soviet summit. The United States has held similar sessions with its allies, including Kissinger's just-concluded trip to Japan.

Nonetheless these administration sources are not discouraging speculation that Peking and Moscow might be prevailed upon to influence Hanoi toward a peace settlement.

They say: "Both the Chinese and the Soviets have shown Vietnam is a secondary issue with them, running below their other priorities including their dispute with each other."

—North Vietnam is hard hit by Nixon's seal-off and bombing measures. Because Chinese and Russian supplies are choked down, Hanoi may be more inclined to negotiate.

TABLE TENNIS

Other guesswork about Kissinger's mission suggests that the Peking meeting will pick up where Nixon's talks there left off, covering a broad range of topics from Taiwan to trade but not necessarily reaching much new agreement.

The February summit provided for visits by "a senior U.S. representative" from time to time. The U.S.-Chinese ambassadorial contacts set up in Paris in March are described as satisfactory, though they haven't produced much to date.

A Chinese table tennis team has visited the United States, and Peking is reported to be considering sending medical groups and more athletes. A small but increasing number of Americans has been allowed to visit China.

There is speculation too that Kissinger will be discussing some of the results of Nixon's Moscow talks. But, as one official put it, this topic must be treated delicately in Peking because of the deep animosity of the two Communist giants toward each other.

Humor In Law Spelled Out

VANCOUVER (AP) — Gouging humor out of the law is like digging for gold — tough but rewarding, says David Huberman, professor of law at the University of British Columbia.

He's devoted years to sifting out what little humor there is in the mills of justice and plans to write a book about it.

At one time he was chairman of admissions to the UBC law faculty and he recalled a couple of answers to admission questions, turned in by law students and student accountants.

Question: Define union check-off dues.
Answer: "A famous European author."

Question: "Define a quorum."
Answers: "A place for crushing rock," "A place where the Romans used to sacrifice the Christians," "For a quorum, the directors have to be odd."

"If you really want to laugh," he said, "you'd better remember that some of these people might be your lawyers, your accountants."

Huberman also has a file devoted to letters addressed to lawyers. One says: "Thank you for offering to represent me in court, but I don't need a lawyer. I'm going to tell the truth."

Tragic Death Of Delegate

DALLAS (AP) — Ned Harris, 14, a delegate here for Explo 72, drowned at a Dallas motel Wednesday night.

He was the son of Elizabeth Harris of East St. Louis, Ill., and came here with a sister, Linda, 24, to attend the Christian youth training conference which has drawn more than 85,000 people.

Young Harris went swimming after an Explo night rally in the Cotton Bowl. His sister saw him go down at the deep end of the pool and jumped into the water in street clothes but was unable to pull him out in time.

"We are shocked and saddened at the tragic death of Ned Harris," said Bill Bright, president of Campus Crusade for Christ International which is sponsoring the evangelistic conference.

After telephoning the East St. Louis mother, Bright directed that his organization fly Miss Harris and the body of her brother home today.

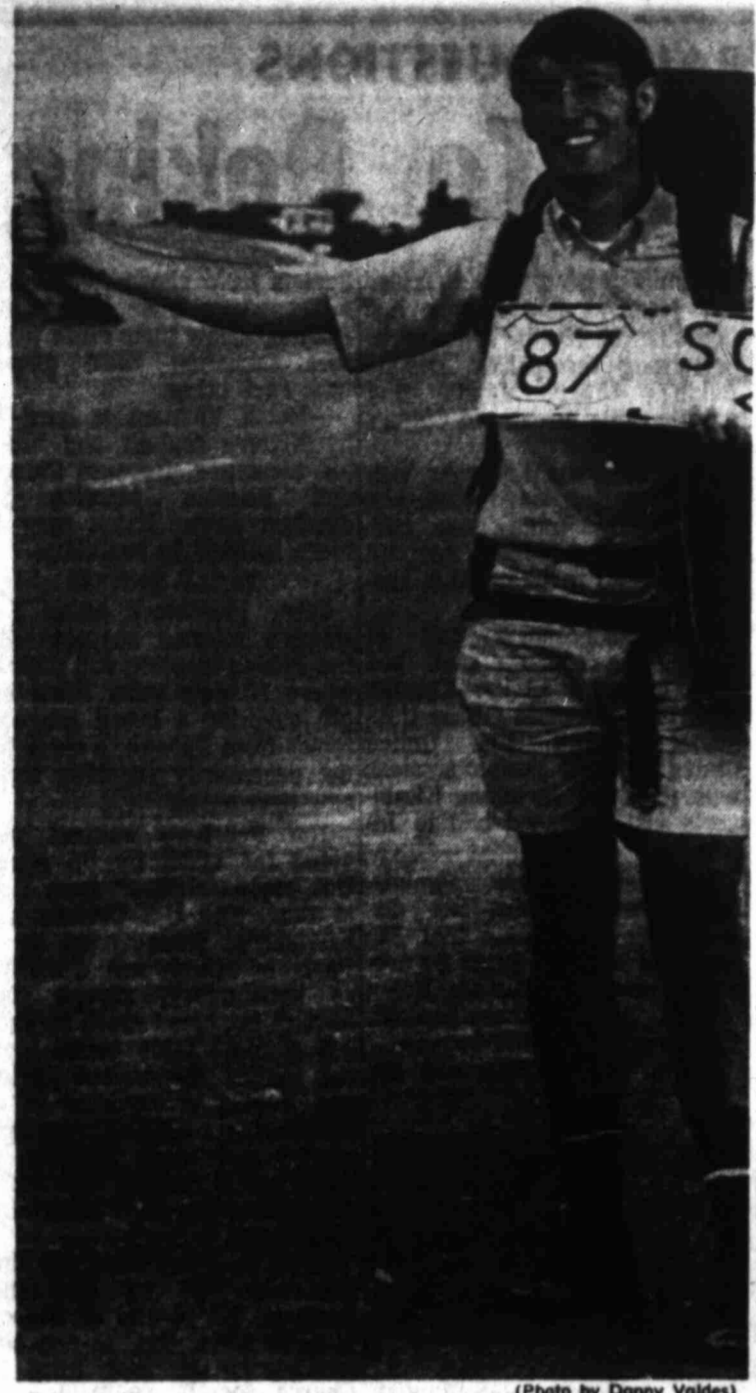

Shissler Murder Suspect Charged

WASHINGTON (AP) — Now two persons have been charged in the mysterious slaying of an executive of the Pillsbury Co.

Houston, Tex., police said they arrested a man Tuesday night in connection with the death of John L. Shissler Jr., 48, of Minneapolis, Minn., whose body was found in a Virginia river two weeks ago.

Police identified the second suspect only as James Daniel Vittioe.

15 JUN 1972

MEXICO-BOUND PETER PAYNE
One of highways' happy travelers

Student Passing Through En Route To Mexico City

The highways through Big Spring are alive with hitchhikers this time of year. Motorists, warned that there is an element of danger in offering rides to strangers, pass most of them by. One ambulatory individual drivers found hard to ignore was Peter Payne, who swang through the city this morning on his way to Mexico City.

Young Payne, native of San Francisco and a senior Philosophy major at Stanford University in Palo Alto, rewarded each passing motorist with a wave and a smile as big as all outdoors. Payne flagged a ride all the way from San Francisco to Amarillo and from there worked his way to Big Spring. He'll be in Mexico City for two months, helping with a Latin-American mission there. The job should prove to be invaluable experience toward his college major. He has the money (in traveler's checks) for transportation to the Mexican capital but prefers his mode of travel. He wants to hitchhike all the way to the front door of the mission.

Appaloosa Competition

COLUMBUS, Ohio (AP) — Top honors in the youth division of the 25th annual National Appaloosa Horse Show being held at the Ohio State Fair grounds went to Texans Wednesday. Michele Pearson, 13, of Dallas won the all-around youth championship after taking a first place in the 12-14 age group competition. Mark Wood, 11, of Houston claimed first place in the 11-and-under division, and Danny Alexander of Friendswood, Tex., earned top honors in the 15-17-year-old class. First runnerup in the 12-14 group was Pennie Sue Wood, 14, of Midland, Tex. In a sale held Tuesday night, 57 horses sold for an average price of \$1,335.

McDaniel To Set Up Trash Unit

HOUSTON (AP) — The Houston City Council has appointed B. Jack McDaniel to set up a separate garbage department for the city. McDaniel has been director of public works in Corpus Christi since 1966. McDaniel, 47, will be paid \$25,000 a year to direct the Department of Solid Waste Management, the official name of the department chosen by Mayor Louie Welch when the council created it last Aug. 10.

Local Pastor Is Foundation Prexy

By MYRNA McFADIN
 The Rev. Roy E. Honea, pastor of Big Spring's Grace Baptist Church, was recently elected president of the Arlington Baptist Schools' Christian Service Foundation — a service arm of the World Baptist Fellowship.

REV. ROY E. HONEA

This presidency is for a period of three years. Others elected for the term were the Rev. J. Charles Dunn, pastor of the Deer Park Baptist Church in Houston, vice president, and the Rev. Paul Henderson, pastor of the Central Baptist Church in Bowie, Tex., secretary-treasurer.

The Rev. Mr. Honea's first responsibility as president of this foundation is to enlist churches and their members to support the Arlington Baptist Schools' Christian Service Foundation. He is also responsible for appointing state chairmen in all 50 states and for appointing chairmen in all mission fields of the World Baptist Fellowship.

He will correlate all activities of the foundation and serve as an ex-officio member of all boards and committees. It shall be his responsibility and duty to formulate plans and policy for this foundation.

Along with the many other duties, this job entails considerable staffing, printing, mailing, writing and traveling during the first year.

The Arlington Baptist Schools' Christian Service Foundation is a non-profit Texas corporation. During the Rev. Mr. Honea's tenure as president, the depositary of the funds of the foundation will be placed in Big Spring. This depositary is presently in excess of 1 1/4 million dollars. It will be bid for by the city's local banking establishments.

The general purpose of this foundation is three-fold:
 1. Assistance of needy full-time students in the Arlington Baptist Schools in the form of grants, not loans.
 2. The endowment of the Arlington Baptist Schools.

3. The future growth and expansion of the schools, both financially and in their building and material growth.

ON BOARD LATER
 The Arlington Baptist Schools are a liberal arts college and an approved theological seminary. At the end of his term as president of the foundation, the Rev. Mr. Honea will automatically serve on the executive board of the schools for a period of one year.

He has pastored the Grace Baptist Church for 12 years. The Rev. Mr. Honea resides with his wife, Edna, and son, Jonathan, at 3600 Parkway in Big Spring. His daughter, LaDonna Jo, is married to Lonnie Clanton of Big Spring.

The Grace Baptist Church, in its 13-year history, has grown from a small building to a 15,000 square foot edifice on a three-acre tract of land valued at \$50,000. The church has 700 members.

The Rev. Mr. Honea has been in the ministry for 25 years and is presently a member of several service clubs in Big Spring. He is a 32nd degree Mason, president of the Town and Country Center here and has served on the mayor's committee.

Folk Art Continues To Develop In Soviet Union

CHICAGO (AP) — Regional folk art continues to develop in the Soviet Union alongside a professional art reflecting the entire country, a Soviet cultural official says.

There is some cross-influence among the more than 100 peoples of the 15 Soviet republics, but the arts and crafts in each republic maintain their own unique characteristics, Piotr Yutkin, chief of the department of arts and crafts of the Soviet Ministry of Culture, said Wednesday.

Yutkin spoke at a news conference held in conjunction with a press preview of an exhibition, "Soviet Union: Arts and Crafts in Ancient Times and Today," at the Field Museum of Natural History.

VIVID COLORS
 The 1,500 pieces in the exhibition represent the work of artisans from 4000 B.C. to the present. It opens to the public in Chicago Saturday, then goes to Boston and New York. An estimated 250,000 persons visited the show earlier in Los Angeles, Washington, D.C., and Minneapolis-St. Paul.

In stating that each republic maintained diversity, Yutkin was answering a question on whether mass communications had an effect in the Soviet Union similar to the decline in folk art that they appear to have brought in the United States.

Yutkin said that, for example, Georgians work in vivid colors compared to the more conservative Baltic peoples' work. This diversity is apparent in the exhibition, which features glassware, majolica, lace tapestry, brasswork, jewelry, icons, ceramics, lacquerware, tiles embroidery, porcelain, wood carvings and folk sculptures.

PRIMITIVE WHIMSY
 The exhibition, commemorating the 50th anniversary of the Soviet Union, is part of the cultural exchange program. A U.S. technological display called "Research and Development U.S.A." is touring six Soviet cities.

Abstract art is seen in the tapestries. Among these is an enormous purple-eyed owl wall hanging. The tapestries also

demonstrate experiments with other than traditional materials.

Some of the ceramic animals and other decorative figures and toys display a primitive whimsy.

Among the antique pieces are an elaborate brocade and jeweled saddle for the Czar Ivan the Terrible in the 16th century and a pair of velvet boots covered with pearls for a czarina.

\$2 Million Braniff Suit
 DALLAS (AP)—A Dallas man and a Galveston woman have filed suit here against Braniff Airways, seeking more than \$2 million in damages for the deaths of five persons in a 1970 airplane crash in Austin.

Mrs. Maryanna Dickens is suing Braniff for \$2.3 million for the death of her husband, Jimmy Dickens, on behalf of herself and her two daughters, ages 2 and 3.

Dickens, a student at the University of Texas Medical Branch in Galveston, was returning to Austin from Washington in a Beechcraft plane owned and piloted by Dallas dentist Edward T. Farris.

Farris asked for \$70,000 from Braniff in the suit for the deaths in the crash of his brother and sister-in-law, Mr. and Mrs. Robert G. Farris of Austin, and their two daughters.

The suit contends a Braniff airliner landing at Austin's Mueller Municipal Airport at the same time as Farris' plane caused air turbulence that caused the smaller craft to crash.

Tax Adjustments To Be Studied

Howard County Commissioners were to meet at 3 p.m. today in county commissioners courtroom as the oil and utilities properties board of equalization.

County Judge A. G. Mitchell said that the board is to discuss the tax adjustments requested Wednesday by the representatives of oil and utility companies in the county.

Judge Mitchell said all adjustments, if any were to be made, would be enacted at today's meeting of the equalization board.

Singing Driver

A Middlesex, England, mother of four was recently convicted of speeding but was said to have told police: "I was busy singing carols with my little girl. I wasn't thinking; we were so happy singing together."

Plan To Exit X

Dear Abby
Abigail Van Buren

DEAR ABBY: Everybody keeps talking about how dirty the movies are nowadays, but nobody does anything about it. I think that every time we see an "X" or "R" rated movie advertised, we should write to the president of the studio that made that movie and tell him that this is one movie our family will not be seeing. And when they start making clean movies, we will be glad to see them.

If you printed this letter, Abby, and people all across the country started writing letters, do you think it might help to get all this raw sex out of the movies?

DEAR DISGUSTED: It might. But how do we get the "raw sex" out of the balconies and drive-ins?

DEAR ABBY: We are grandparents in our sixties. We have two married children who live in a city not too far from us. We never go there uninvited, so it cannot be said that we make pests of ourselves.

We have heard that they have come to our city to stop, or visit, but they haven't even bothered to call us. We have the usual family get-togethers at our home for Christmas and Easter, but they never stay very long, and we are made to feel that they regard it more a duty than a pleasure to be with us.

We send them and our grandchildren gifts, which are seldom acknowledged.

What has happened to the manners and Christian love we taught them? We denied ourselves many things so they could both have good educations to prepare them for the fine professions they now practice so successfully.

On those few occasions when we go to their homes they do

not even have the courtesy to see us to the door when we leave.

Please, Abby, tell us where we have failed?

UNAPPRECIATED AND NEGLECTED DEAR U AND N: Don't assume that YOU have failed. THEY have failed. Occupy yourself with other things and don't dwell on their lack of appreciation and neglect. If the calamity doesn't overcome you, feeling sorry for yourselves will.

DEAR ABBY: While at the grocery store this morning, a woman struck up a conversation with me about my baby girl, who was in the infant seat of my shopping cart.

The lady asked me how old she was and when I said "Two and a half months," she acted horrified and then she went into this long-winded speech about how fat she was, and asked if my doctor had put her on a diet yet because her grandson had the same "problem!"

Abby, my baby got a very healthy start in life (11 pounds, three ounces at birth), and she weighs 14 pounds now and doesn't look like a slob. On the contrary, my doctor is very pleased with her progress.

I admit that my baby does look older than she is, because she's larger than most babies her age; but I don't appreciate hearing that I should "do something" about her "infant obesity." This isn't the first time this has happened. If it happens again, what should I say to shut them up?

PROUD MOMMA DEAR PROUD: Say, "Thank you, but my doctor tells me my child is just fine." Then head for the frozen food section.

CONFIDENTIAL TO YOU: The person who says he isn't "interested" in politics is like the drowning man who says he isn't interested in water. NOW is the time to make sure you are registered so you can vote. And if you aren't happy with the way things are going in this country, and you haven't voted, don't complain.

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, Los Angeles, Calif. 90069 and enclose a stamped, addressed envelope.

Cheer Leaders Seeking Funds

LAMESA (SC) — Lamesa High School cheer leaders are selling tickets this week to help finance their participation in a four-day cheer-leader school at Texas Tech. The tickets are for the 8 p.m. show, Thursday through Saturday, of "Bedknobs and Broomsticks," a Walt Disney film.

Puzzle of Wednesday, June 14, Solved

Trial Date For Bremer

BALTIMORE (AP) — A federal judge has set July 17 for the start of the trial of Arthur Herman Bremer on assault charges in the attempted assassination of Gov. George C. Wallace of Alabama.

U.S. District Court Judge Edward S. Northrop set the date Tuesday at a hearing during which he modified his earlier order permitting the government to have the 21-year-old suspect undergo psychiatric examinations.

The trial date is five days after the date state officials have set for Bremer's trial in Prince Georges County Circuit Court on 24 state charges lodged following the wounding of Wallace and three other persons during a campaign rally May 15 at a Laurel, Md., shopping center.

Prosecutors in both jurisdictions say they have reached no agreement whether Bremer, a former busboy from Milwaukee, will be tried first in federal or county court.

Officials Identify Boy Without Name

KEY WEST, Fla. (AP)—The teen-age boy without a name who has puzzled officials since he swam ashore here 10 days ago and said he had lost his memory was identified today as Kim Basil Kadas, 16, of East Chicago, Ind., authorities said.

Key West Police Sgt. Earl L. McCain and Salvation Army Capt. Minard F. Chapman both said there was no doubt as to the youth's identity.

His parents, Mr. and Mrs. William Kadas, arrived by plane in Key West at midmorning, and greeted the youth later at the police station.

"It was a moment of great anxiety," Capt. Chapman said, "and stimulating enough that it brought tears to my eyes."

Police Sgt. Lazarus G. Laster said the boy showed no re-

Rodney Hyatt Is Sent To Pampa

LAMESA (SPL) — Rodney Hyatt, soil conservationist, has been transferred from the local Soil Conservation Office to Pampa.

Hyatt, and his wife, Kay, have been residents of Lamesa since August, 1970. He and his wife have been active members of the Downtown Church of Christ and both have taught Bible classes. Hyatt has also been active in 4-H work, coaching a grass judging team.

action when he first saw his parents, but after looking at some family pictures, "acknowledged to the fact that he recognized the mother."

Capt. Chapman quoted the parents as saying the boy left home April 11, but could give no other details on why or where he may have been during the nine weeks.

The Kadases learned of their son's mysterious appearance in Key West through phone calls from a friend, Richard Hazer of Dubuque, Iowa, and Mrs. Kadas' sister, Mrs. Liss Thomas of Hammond, Ind., McCain said. Both had seen the teen-ager's picture carried in the local newspaper.

The youth turned up in Key West June 4. Highway Patrol officers who saw him then said he looked like a prune because of prolonged exposure to the wa-

Lovelorn GI Tank(ed) Up?

GELNHAUSEN, Germany (AP) — The 19-year-old GI asked the German waitress for a date, and she said no.

So Sgt. Robert Paschall, of Newark, Calif., went back to the motor pool at Coleman Barracks, grabbed a tank and drove it back to the bar, police said.

Along the way he knocked over a fence and damaged some steps, police said.

At the bar Paschall reportedly pointed the tank's gun at the doorway. But an American major and some other soldiers hauled him from the tank and turned him over to the MPs.

He was charged with misappropriation of government property, damage to government property and damage to personal property.

The Army said Paschall was reported to have been drinking.

"He couldn't have been too drunk," said a German police spokesman, "or he couldn't have driven a tank through these narrow streets without doing more damage."

Loose Estimating

The Defense Department needs to have a post-graduate course in cost estimating. Estimates of the cost of almost everything, from rifles to submarines, are almost a laughing point, not even remotely connected with the true cost.

The Safeguard antiballistic missile system is an instructive example. When the Nixon administration and the Pentagon were trying unsuccessfully to sell the 12-site program to Congress three years ago, the price tag was confidently set at \$10.3 billion.

Just the other day the Pentagon estimated that the two Safeguard sites permitted under the U.S.-Soviet arms-limitation agreement reached during President Nixon's trip to Russia would cost \$8.5 billion to complete. This is just \$1.8 billion less than the previous estimate for 12 sites made three years ago.

The Pentagon explained that inflation, construction delays and design changes have since pushed the total estimated cost for the planned

12 sites to \$16.3 billion. But Congress has never granted authority to build more than two sites. Nor is there any agreement in the scientific community that the program offers more than a marginal prospect of providing an effective defense against incoming missiles.

Inflation is the standard excuse for cost over-

runs. But the people must suspect by now that estimates either are deliberately and arbitrarily set at a lower figure to make a program more palatable in the beginning, or else defense planners need to get a new crew of estimators. It's the old case of the camel getting just his nose in the tent.

Down South Talk

Some of the more liberated womenfolk are using the title "Ms." before their names on grounds it is a better counterpart to "Mr." Why should women have to designate whether they are married or not when men enjoy the all-inclusive "Mister"?

The answer to that should come from those bachelors who might not catch the name of a new female acquaintance the first time around

but are sure to note whether she is a Miss or a Mrs. The old titles, after all, do have some functional value.

The word from the liberation camp is that Ms. is pronounced like "Miz." So be it, but gals who identify themselves as "Miz Jones" or "Miz Smith" should get used to being asked what part of the South they are from.

'Practical' Gifts

Around The Rim

Linda Cross

Remember when you were dating, before your spouse became your spouse? If you exchanged gifts then, it was usually to give one another useless little things that had no meaning to you, if not to anyone else.

ALL THAT CHANGES somewhere between the "I do's" and the first anniversary.

For my birthday, I think I am going to receive an electric, three speed, utility jigsaw. This will conveniently match the 1/4-inch, variable speed power drill my husband received for his birthday.

IT REMINDS ME of what I used to do for my folks on birthdays, anniversaries, Mother's Day and Father's Day. I'd get them something I wanted — that way I wasn't being stingy.

My father was never afraid of receiving another tie when I was a child. He had to figure out what he was going to do with the fifth yo-yo he had received that year.

OUR "GIFTS" to one another are going to turn us into super carpenters so that we can build our own furniture at low cost. That'll work so long as we don't figure in the cost of the power tools and the bandages and

liniment needed by the weekend carpenter.

For Christmas, a gift to be purchased in mid-July, one of us is going to receive a circular saw. The other is going to receive a set of parsons tables require elaborate bracing under their plain exteriors.

WE'VE SOLVED the problem of "what to sit on, eat off of, etc" until we master the art and craft of carpentry.

Saturday, we purchased a room-full of furniture for \$9.20. Not even thirty, nifty Heloise can top that.

"American Inflation" is my husband's punny name for our inflatable couch and two chairs. While we visited San Antonio last weekend, a store there thoughtfully put all its inflatable furniture on sale for approximately one-quarter of its usual price.

AS OUR CARPENTRY improves, the inflatable furniture will be moved from living room to family room to patio. All we have to do is train our guests to share our aversion for sharp objects and cigarettes. With furniture like ours, you are either very careful or you land abruptly on the floor.

My Answer

What did Jesus mean when He said: "Think not that I am come to send peace, but a sword?" J.B. The peace that Jesus came to bring was not the peace of appeasement, or the peace of compromise and conformity. It was a spiritual peace. He said to His disciples: "My peace I give unto you; not as the world giveth, give I unto you." The world doesn't give peace, for it doesn't have any peace to give. It fights for peace, it negotiates for peace, it maneuvers for peace, but there is no ultimate peace in the world. But Jesus gives peace to those who put their trust in Him.

He also brings a sword. Not a sword of steel dripping with blood, but a sword that divides men into two camps: the saved and the lost; the world and the church; children of light and children of darkness.

He said, "I have given them thy Word; and the world hath hated them, because they are not of the world, even as I am not of the world." That is the sword He came to bring. It is a divisive sword that separates the sheep from the goats and the tares from the wheat. If you have received

MANLEY

© 1972 by The Chicago Tribune.

His peace, then you are in His camp. But if you have rejected it, then you are against Him. His peace is available for everyone who will receive it.

Ad Industry Feels Heat

John Cuniff

NEW YORK (AP) — It would be difficult to single out any one industry as being more on the defensive than another today, as government, consumers, environmentalists and others challenge "old" prerogatives.

But you can say with confidence that the advertising industry at the moment is high on the list of those arguing the case most vociferously, if only because articulation is its product.

Paul C. Harper, Jr., chairman of Needham, Harper & Steers, Inc., summarized the industry's attitude toward attacks from government and consumers in a speech earlier this year to the Hollywood Radio & Television Society.

He called it "A Fireside Chat With Commissioner X," who could be a member of the Federal Trade Commission, the Federal Communications Commission, the Federal Drug Administration or staff members of these groups.

"Let's take the six most common complaints about advertising," said Harper, "and ask whether they are justified and, if so, who should take corrective action."

The first complaint, as he sees it: "Much advertising is untruthful."

His response to Commissioner X: "Very little advertising tells overt lies, and that which does should be stamped out."

Second complaint: "Advertising affects overt behavior adversely."

In respect to the charge that violent ads promote violent behavior in children, Harper claimed the area needs additional study. "If there is clear evidence of a cause and effect relationship, then advertising and/or programming should be modified by self-regulation, or by government action if necessary."

Third complaint: "There is too much advertising."

"Yes," said Harper, "there is. Too much for me. Too much for our industry's good. And too much for the public." In the past five years, he states, there is evidence that the 60-second commercial has declined in effectiveness by 25 per cent, "presumably due to clutter."

His conclusion: "I believe that increasing clutter is having a devastating effect on public confidence in, and acceptance of, advertising, and unless voluntary measures are taken it remains a wide open area for

government intervention."

Fourth complaint: "Much of advertising is in bad taste." True, he said. It applies "all the way from irrelevant sexual allusions to the discussions of stomach disorders at 'meat' time."

His solution: "A matter for the industry's conscience. 'When the government sets standards of taste, it preempts the editorial function, and freedom of speech will ultimately be impaired.'"

Fifth complaint: "Advertising fosters monopoly." Said Harper: "Here the proposal is that a ceiling should be imposed on advertising dollars—or that after a certain share level, allowable advertising dollars should be decreased."

"Sheer tinkering," was his answer. These forbidden ad dollars, he argued, would merely be spent in other forms of promotion "and the effect on economic concentration will remain roughly the same."

Sixth complaint: "Advertising is wasteful economically."

"What this theory totally ignores are the intangible values of the free market. If you believe in competition, you have to let producers compete."

"The economic cost of dampening this process by excessive retulation would, I suspect, be far greater than the cost of brand proliferation as we now have it."

Why Talks Stall

David Lawrence

WASHINGTON — People who wonder why peace negotiations have not been successful at Paris need only read what the official newspaper of North Vietnam is saying these days about American politics. According to radio Hanoi, the newspaper praises Sen. George McGovern and declares that "McGovern's words on the war originate from the wish for the end of this nonsensical, antivirtue and man-and-money wasting war." The broadcast went on to quote the newspaper as follows:

"FOR MORE THAN 10 years, Mr. McGovern has been famous as the earliest and the most tenacious opponent of the Vietnam invasion war."

The newspaper adds that Sen. McGovern has won a chain of successes in the primaries, that "his power and influence has been growing rapidly," and that now many Americans are voting for McGovern because of "their indignation . . . over the Nixon administration's dangerous and adventurous acts." It contends that the senator will be the presidential nominee of the Democratic party in November.

The foregoing is typical of the propaganda from Hanoi. It is based on a belief that inside the United States most of the people do not support the president's policies. North Vietnam's leaders feel that on election day here the citizens will by their votes determine to stop our participation in the Vietnam War, and

thus enable Hanoi to take over South Vietnam without any further difficulty.

THERE SEEMS no question that, if 1972 had not been an election year, the Vietnam War would have been ended. But the Hanoi government has been relying on the dissenation within this country in the hope that for political purposes the incumbent administration in Washington would not be able to carry on its program of assistance to the South Vietnamese.

Although President Nixon has shown his resoluteness to meet the bid of offensive begun by North Vietnam by effective counteraction — such as the mining of Haiphong harbor and intensified bombing of the North Vietnamese still think that for political reasons all this will be stopped by Congress before election day.

THERE IS NO likelihood, however, that Mr. Nixon intends to weaken his policy in any way and turn South Vietnam over to the Communists. The President has made it clear he is seeking an internationally supervised cease-fire throughout Indo-China and the release of American prisoners of war. Once this has been done, the U.S. would stop all acts of force and all our troops would be withdrawn from Vietnam within four months. But there has thus far been no sign of the part of Hanoi for meaningful negotiations at Paris.

(Copyright, 1972, Publishers' Mail Syndicate)

Convention Scenario

William F. Buckley Jr.

They talk about stopping George McGovern, and who knows they may succeed in getting William Scranton to present himself at Miami to spearhead the effort. But let's face it, it isn't going to work. But between you and me, I hope that the effort itself to stop McGovern fails, and here are my labyrinthine reasons why.

WELL OVER ONE-HALF of the people going down to Miami are quite conventional Democrats, decent, law-abiding, paunchy New Dealers. But about one-third of them are political Hell's Angels bound and determined to rip off tradition, the Constitution, the whole thing. These are young people who have burned with enthusiasm for George McGovern for months, some of them for over a year. They have undergone the most extraordinary privations in order to bring out the vote for McGovern.

NOW THIS ARMY of zealots doesn't want to arrive in Miami and find nothing to do, no walls to push against, nothing to save their ideological passions. They need a good fight, a good victory. They need to crush, let us say, a last minute attempt by Hubert Humphrey to take the nomination away from George McGovern. Or they may need a dark horse to vanquish: a desperate move, say, to give the nomination to an establishmentarian dreamboat: an Earl Warren Jr. type.

FAILING THAT, what will they do in Miami?

What they will do is fight the old order via the credentials committee, of course. But primarily they will fight over the platform.

And that is what we Republicans want to see. Hour after hour of it on national teevee.

How about a raging floor fight on the question of permissive abortion vs compulsory abortion? I suppose I'd want, under the circumstances, permissive abortion to win out, but I'd want the victory to be narrow. A real squeaker.

OR HOW ABOUT a demand by the leader of the Massachusetts delegation, who for all we know is only a year or two older than Shirley Temple when she discovered the good ship Lollipop, delivering a rousing call for Free Marijuanna? Why should marijuanna go only to the privileged few? Those who make use of tax

loopholes? Those landowners who have the wherewithal to grow grass? Those super-educated who alone can afford to buy catalogues telling them how to grow it? Who says marijuanna should be smoked only by people who can read instructions?

As regards foreign policy, why not get somebody to stand up and say that the time has really come to close down on tax loopholes. I can hear it now: Stop the tax exemption for the United Jewish Appeal!

SECRETARY LAIRD has testified that to adopt the defense budget proposed by George McGovern would be quite mad. Instead of spending the proposed \$0 billion dollars per year on defense, said Mr. Laird, we might just as well spend one billion to buy white flags which we could hoist all over the world.

THAT, AS I SAY, is the likely scenario if the delegates don't find themselves caught up in mundane movements involving the naming of a candidate. That is why, if I were George McGovern, I'd be spending my time urging Hubert Humphrey to stay in the race and to try to make a tough fight out of it. Already we have seen that Humphrey's resolution has gone to the point of publicly considering the possibility of George Wallace as a running-mate. A complementary gesture, by George McGovern, would be the public consideration of Shirley Chisholm.

(Copyright, 1972, The Washington Post Co.)

Jazz Festival

WASHINGTON (AP) — John Lewis, pianist and musical director of the Modern Jazz Quartet, has been appointed music adviser for the 1972 American College Jazz Festival, scheduled for Kennedy Center.

The festival, in its third year, is presented this year by the center and the National Association of Jazz Educators.

Nearly 200 colleges have been represented at eight regional festivals held to select the bands to perform at the national festival.

Lewis, who has led the Modern Jazz Quartet for 20 years, also is on the faculty of the North Carolina School for the Performing Arts and is musical director for the Monterey Jazz Festival.

Hal Boyle

NEW YORK (AP) — What is hell?

Well, between its occasional heavens, life holds more than a scattering of hells.

Each man comes in time to feel that he has been through at least 10,000 private hells of his own. But that is a delusion of grandeur.

And as we go through our lives, our hells change. Here are a few hells that some particular unlucky rascals have had to confront at different ages:

At one month old, hell is a dark room with no one else in it, and an open safety pin stuck in your side.

At two years, hell is a spanking for successfully climbing out of a high crib.

In kindergarten, it is being told by the only other red-haired girl in the class that you are even uglier than the first one

seen you were.

Hell at seven is being caught by your mother stealing a dime from her purse.

Hell at 18 is drawing a draft lottery number under 10.

Hell at 20 is having empty pockets every Saturday night.

At 21 it is marrying the wrong red-haired girl.

At 29 it is marrying the second wrong red-haired girl.

Hell is turning 30 if you're a woman and turning 40 if you're a man.

Hell at 41 is having to ask for a job sweeping out the office of the former high school pal who was voted most likely to succeed—and who did.

Hell at 45 is having your daughter jilted by the rich boy you had counted on becoming your ace in the hole.

At 50 hell is having your older son turn down your request to lend him \$5 in walking-around money because he has

just been fired from his job, too.

And at 65 hell is trying to live on a forged Social Security check you never earned in the first place.

What about 70? Well, hell then is finding half a cockroach in the plate of birthday soup served you in the penitentiary.

But the worst hell of all is to wake up in some smoky place at 80 and be handed a hot shovel by a red-eyed guy with a long forked tail who tells you they only have a coffee break there once every hundred years.

Of course, all along these hells may not be your fault at all. Sometimes we don't get to pick either our hells or our heavens. They simply descend on us by chance. You can always explain that to the chaplain—and let him punch your old Army tough luck card.

EXCITING WROUGHT IRON FURNITURE
... the brightest colors and patterns

Meadowcraft Is Now At Carter's

Carter's Furniture, 100-110 Runnels, has just received a boxcar of outstanding Meadowcraft outdoor furniture. See it on their corner lot. This is lovely wrought iron furniture — in white, antique green and daffodil — with several bright floral patterns. Meadowcraft has become a trade symbol of the finest creative manufacturing in the field of metal furniture, just like Carter's has become a trade symbol to the people of Big Spring.

Meadowcraft is a deeply-felt trust assumed by a closely knit corps of skilled people. Throughout Birmingham Ornamental you'll find son working alongside father — with pride of workmanship and a high degree of conscientiousness passing from one generation to the next.

During the years they have been producing Meadowcraft, in every effort of the company, they have recognized only two standards — the finest in quality and the ultimate in eye appeal.

Though they work at a trade which is centuries old, their plant is equipped with the most modern metalcrafting equipment available. Skilled hands and age-old manual operations are given every possible modern assistance to guarantee unquestionable and outstanding quality.

At Carter's Furniture you'll see this exciting design in chaise lounges, sofas, barbecue wagons, glass top tables and end tables and various chairs.

The price is unbelievably economical. For example, you may purchase the glass top ice cream table and two chairs for just \$54.50.

Another new item that has just arrived at Carter's is bentwood rockers, in black and walnut. These are priced at a low \$89.50.

Stop by Carter's soon, 100-110 Runnels — Big Spring's quality furniture store, offering their reputation as your safeguard.

FAYE'S FLOWERS — They show dedication in each sympathetic arrangement.

Flowers Relay Your Deepest Thoughts

Flowers are one of the oldest expressions of sympathy known to man. Faye's Flowers strives to make your expression one of deep meaning.

Faye's Flowers makes each wreath or arrangement with loving tenderness, knowing the message it must impart. They know the meaning each arrangement must convey.

They realize that when you send flowers of sympathy, the message is meant for those who remain — to comfort them and assure them that they are not alone in their grief.

Faye's Flowers has tried to improve each of their services over the years, and this is one of the most important. They have dedicated themselves to this end. Whatever your desire concerning a floral message of comfort, they will do their best to fulfill it.

Faye's carries the freshest cut flowers and will deliver them looking their very best. They are artists in the field of floral design and can offer a variety of wreaths. Oftentimes they are called upon to create a special arrangement that will bring comfort in the home.

Dignified service and heartfelt care are trademarks of this fine floral establishment.

Being a member of Floral Transworld Delivery, Faye's can aid you in sending ex-

Motorcycle Buffs Depend On Cecil Thixton Service

The growing roar in Big Spring these days comes from motorcycle buffs enjoying the biggest season of them all.

Motorcycling is not limited to the warmer months, but it is now that most cyclists get out on the trails for any length of time.

Cycling is one of the fastest growing popular sports in America, as well as being a most economical method of transportation. Big Spring's motorcycle and bicycle center for the past 43 years has been and is Cecil Thixton's. You can depend on his well-known reputation.

Cecil Thixton's is the place that can keep your motorcycle in tip-top shape for those long-range or short-hop overland trips.

Their workshop can service all brands of cycles, lawn mowers and bicycles, where parts are available. Factory trained personnel are ready to iron out your problems.

Recently arrived at Cecil Thixton's is a new bicycle with disc brakes. What a great idea for your summer recreation. See it today.

Of course, Cecil Thixton has been Big Spring's Harley-Davidson distributor for each of his 43 years in business. Thixton calls the Harley-Davidson "the"

safest thing on wheels. He has been riding Harley-Davidson motorcycles throughout the Southwest since the 30's.

The Harley-Davidson line at Thixton's includes all models — everything from the Harley-Davidson Mini-Bike to the ultimate in powerful models.

The season is in full swing, and Cecil Thixton is the man to see. If you already have a suitable motorcycle for the season let him check it out and tune it.

See Cecil Thixton at 908 W. 3rd for a new or used motorcycle, a bicycle or a lawn mower. You're always welcome.

Metro Government Plus, Minus Sides

By MICHAEL J. SNIFFEN
Associated Press Writer

Linking cities and suburbs in a metropolitan government, once hailed as an answer to urban ills, has made some public services more efficient but left some key structural problems untouched in the three major cities where it has been tried.

In the past nine years, Nashville, Tenn.; Jacksonville, Fla.; and Indianapolis, Ind., have consolidated city and surrounding county governments, the only cities to do so in this century.

On the plus side, they can point to new sewer lines, newly paved streets, lower purchasing costs, coordinated planning and less buck-passing in government.

TAX BURDENS

But on the minus side, tax burdens of inner cities and suburbs have not been equalized, some enclaves and services remain outside metro's control and some blacks see the whole scheme as an attempt to keep them from attaining political power.

full in areas where theorists had the greatest hopes for metro and some can be traced to political compromises struck to get metro approved.

In these three cities with metro governments, suburban resistance to paying for the inner city's problems has prevented the levying of equal tax burdens on the suburbs and the cities, though in theory metro is advanced as a way for central cities to recapture tax revenues that fled to the suburbs in the 1950s and 1960s.

In Nashville, what was once Davidson County is now known as the general services district. It's where most of the wealthy suburbs are located and the property tax there is \$4.11 per \$100 assessed valuation. In the old city, known as the urban services district, the tax rate is \$6.00.

CENTRAL CITY

In Jacksonville, the general service district pays \$2.415 per \$100 while the urban services district pays \$2.965. Consolidation, achieved in 1968, was authorized by referendum and an act of the legislature, which

forbade tax rate increases. So, tax rates went down but increased assessments pushed nearly everyone's tax bill up.

In Indianapolis, where metropolitan government established in 1970 is known as Unigov, there are so many different taxing jurisdictions than an urban-suburban comparison varies from neighborhood to neighborhood, a confusion that Unigov has aggravated by increasing the taxing units from 61 to 75.

Nevertheless, Indianapolis Corporation Counsel Gary Landau says that no suburban tax money has been funneled. Some blacks in Nashville and Indianapolis still complain of the loss of political power. In the Tennessee city, black voting power was reduced from 33 per cent in the old city to between 20 and 25 per cent in metro. Blacks made up 27 per cent of Indianapolis' old population but only 17 per cent of the new city.

BLACKS COMPLAIN

In all three cities, some blacks complain that lack of complete consolidation is in part responsible for failure of metro to significantly increase racial or economic integration of schools or housing, depending on the city involved.

The consensus among urbanists about metro has changed. While still endorsing metro, they now also call for "units of government small enough to enable the recipients of government services to have some voice and control over their quality and quantity," as the prestigious, private Committee on Economic Development put it in 1970.

Indianapolis is beginning an experiment called Mingov with elected, neighborhood councils that have some limited powers. Finally cities considering consolidation, like Portland, Ore., which votes two years hence on combination with Multnomah County, might also consider the problems of New York, which like Boston, New Orleans and Philadelphia, consolidated city and county governments in the 19th century.

Now 74 years later, New York has new independent suburbs and no longer looks like a metro government.

SO LONG, EAGLE — A pretty girl waves good-bye as the Coast Guard training ship Eagle, the last three-masted square-rigger to carry the American flag, leaves dock at New Orleans and heads down the Mississippi River for a cruise to Galveston for a four-day stay.

Eye On Cuba: Castro Seeks More Help From Russians

By THEODORE A. EDIGER
Copley News Service

MIAMI — When Premier Fidel Castro visits Moscow in the late June shadow of one of Cuba's worst sugar harvests, economic problems may loom uppermost in his mind.

Cuba, dependent upon the Soviet Union for just about everything, already is \$3 billion in hock to Moscow, and apparently is trying to sink deeper.

Nevertheless, a rousing welcome, eclipsing that given President Nixon, can be expected for the Cuban premier from his Russian comrades.

Cuba's economic decline began 13 years ago — an unlucky 13 for many — when Castro confiscated privately owned land. A radical agrarian reform law was promulgated in May, 1959. Production has never been the same since.

American-owned property, including land and industries seized by Castro, is estimated by U.S. authorities at between \$1.25 billion and \$1.5 billion. In addition, Cuban exiles who have become U.S. citizens have entered claims for seized property totaling another \$2 billion.

As the 1972 sugar harvest lower. Yet, in a speech on the eve of his departure on the current 10-nation tour, Castro promised heavily rationed Cubans more things to buy. So he undoubtedly will try to bargain with Brezhnev for even more "deliveries."

The University of Miami report said that in 1968 the Kremlin assured Castro of continued aid in return for his endorsement of the Czechoslovakia invasion by Warsaw Pact nations. Soviet restrictions were lifted shortly thereafter, the report added, and an agreement for trade totaling \$1 billion yearly was signed.

In a recent study, two researchers for the University of Miami Center of Advanced International Studies reported: "By the end of 1971, Cuba's cumulative debt (to the USSR) approached the \$3 billion mark."

The study by Leon Gouré and Julian Weinkle continued: "Yet despite this fact and the lower Cuban sugar production as compared to 1970, the Soviet Union had agreed in 1971 to increase its deliveries to Cuba by more than \$100 million for a total of \$750 million for that year."

This year's sugar crop is even

Ex-Money Whiz Guilty

HOUSTON (AP) — Michael A.S. Makris, convicted of three counts of perjury in connection with a Securities and Exchange Commission probe into the Frank W. Sharp empire, will be sentenced Aug. 7.

U.S. District Court Judge Carl O. Bue found Makris guilty of three counts of perjury Wednesday. He gave the defense until June 30 to submit post-trial motions.

Makris, 44, a onetime financial whiz and former associate of Sharp, was accused of lying to SEC investigators during a 1970 probe into Sharp's affairs.

According to a statement he allegedly gave SEC investigators, Makris said he had no dealings with Sharp or with a Roman Catholic order which operates a preparatory school here.

During the trial Sharp and two Jesuit priests said they discussed a trust fund with Makris contrary to Makris' alleged statement to federal officials.

Defense lawyers had contended Makris was not responsible for any statements made to the SEC because of a brain tumor operation he underwent eight months before.

Makris' passport was ordered turned in and his \$50,000 bond continued. A federal perjury conviction can bring up to five years in prison and a \$2,000 fine.

Vote Probe

SHERMAN, Tex. (AP)—A Grayson County grand jury was due to start an investigation today into accusations of irregularities in the May 6 primaries in the North Central Texas county.

An investigating group claims that there were over 150 voting violations in the primary, including double voting and persons who voted in both the Democratic and Republican primaries.
