

Fed Officials Probing Commuter Train Crash

CHICAGO (AP) — Federal safety officials investigating the commuter train collision which killed 44 persons raised questions today about the strength of the lightweight steel cars used by commuter lines.

In addition to the dead, more than 300 were reported injured Monday when an Illinois Central Gulf Railroad commuter backing into a South Side station was rammed by a second IC electric commuter during the morning rush hour.

Transportation Secretary John Volpe inspected the wreckage in a 40-minute tour. He and Henry Wakefield, director of the department's Bureau of Transportation Safety, said the strength of the lightweight steel and aluminum cars would be studied.

It took six hours to extricate the last of the dead and injured from the crumpled wreckage of two of the cars, which were crushed like empty beer cans.

President Nixon expressed his sor-

row and canceled plans for a downtown campaign motorcade scheduled for today in Chicago.

Sen. George McGovern, campaigning in Pittsburgh, called off a torchlight parade scheduled for Wednesday in Chicago.

Volpe headed a federal investigation team dispatched from Washington to study the collision, the nation's worst rail disaster since 1958 when 48 persons were killed in Elizabethport, N.J. Gov. Richard B. Ogilvie ordered a state investigation.

Railroad officials said they could not immediately determine how fast the second train was traveling when it struck the rear of the first commuter.

The first commuter, a shiny, four-car, double-decked High-Liner overshot the 27th Street station and was backing up when it was rammed by the second train.

The second train was made up of six 1926 vintage coaches. Each train carried about 500 passengers.

KILLING AT LEAST SIX PERSONS

Gas Blast Rips Variety Store

LAKE CITY, Minn. (AP) — A search ended today for more victims of a gas line explosion that leveled a variety store about the time several children were going in and out to collect prizes for a Halloween coloring contest. Six people were killed and nine injured.

Three of those killed in the accident Monday were children. Five other youngsters were among the injured.

More than 100 police, firemen

and volunteers searched throughout the night for other possible victims, but that was temporarily called off at dawn and a Police Department spokesman said there was no indication any others were trapped in the rubble.

There were 10 to 15 persons in the store when the explosion occurred shortly before the 5 p.m. closing time.

"I happened to be looking across the street when I saw a

flash of light, the roof coming down and dust blowing out," said Jerry Nihart, a clerk at a store across the street. "Then the noise came."

The dead, all of the Lake city area, were identified as Mrs. Ray Kehren; her son, Timothy, 10, who died in a Rochester hospital; Kristine McElmury, about 4; Mrs. Ray Rodewald; and two clerks at the store, Marjorie Freiheit, about 40,

and Elaine Dammann, about 32.

Linda Farrington, who operated the two-story concrete block-brick Ben Franklin store with her widowed mother, Mrs. M.G. Farrington, said both were standing near an entrance when the blast occurred.

"There was the boom," she said. "That's about it. That's all I want to say ... all I can say now."

City representative for the Northern States Power Co., said the explosion was triggered when a bulldozer working on a nearby power company construction project ruptured the power firm's gas main.

Volunteers and fire fighting units from surrounding communities converged on the little industrial town which sits along the Mississippi River.

GRUESOME TWOSOME — A mannequin's leg and hand extend from mock graves with the Halloween mood prevalent in the community today. This scene was created at 404 Ryan St.

AIR-BORNE SCOLD — Witches like this might be seen anywhere in Big Spring between now and midnight. The well-groomed bedlam is displayed at 608 Highland. She'll prove an appropriate greeter for the tadpoles who go Trick or Treating in the neighborhood.

RECORD AT SPENCE Rain Is Spotty Within Area

The continued rain has set a new all-time record at Lake Spence of 125,200 acre-feet of water, one-half inch in elevation more than ever before.

This is after the lake has caught 4,000 acre-feet in ten days, raising the elevation to 1,858.98 feet. At Robert Lee, it rained .2 in the past 24 hours, four inches at the dam over the past ten days.

At Lake Thomas, some .7 fell during the past and no runoff and virtually no evaporation. The lake now has 88,800 acre-feet, with a new elevation of 2,235.06.

The Colorado River divisionary channel reported 1.1 inches of rainfall during the past 24 hours and Moss Creek Lake recorded one inch.

Apparently the hardest shower in the county fell at Forsan around 4 a.m. today when a resident reported that rain swept in suddenly from the north and that 1 1/2 inches fell in 30 minutes in the sudden downpour.

At the W. W. Wilkinson ranch west of town, they reported close to three inches since last Thursday, but only a mist in the past 24 hours. Mrs. John Couch at Luther reported only a mist this morning, but said it rained 3/4 of an inch four miles east. The Coahoma agriculture department also said there was no measurable rain this morning.

The experimental farm reported rainfall this morning of .16 and a temperature low of 36 degrees. Texas Electric's switching station recorded 15.

Farmers, who had been hoping for several more weeks of hot, dry weather to harvest their cotton crop, have no comment on the unseasonable cold, wet weather.

Icing Spreads In Panhandle, Heavy Rains

An ice storm hit sections of the Panhandle early today, cutting utility lines and partly isolating several communities.

Freezing rain and sleet covered about 70 per cent of the Texas and Oklahoma panhandles north of Plainview. Amarillo reported half an inch of sleet on the ground at 10 a.m.

At Groom, 40 miles to the east of Amarillo, trees were badly damaged by an ice storm and electrical power was cut for a time. Maize crop heads were down under the weight of ice and it was feared there would be considerable damage to the crop.

Canadian, Lefors, Claude and Groom reported utility lines out. Schools were closed at Tulla, Groom and Claude.

Roads remained open and traffic continued to move throughout the area, though driving conditions were hazardous. Ice covered all highways in the Amarillo area and many accidents were reported in the city. At one time Interstate 40 was blocked by icing accidents at an interchange.

Firemen fought a fire at Amarillo's Line Avenue Baptist Church in 20-degree temperatures.

Meanwhile, heavy rains of one to two inches in 24 hours soaked West Central Texas, causing flooding in low lying areas around Abilene. Flash flood warnings were issued.

Four 18-Year-Olds Named In Charge

The four Dallas Negroes charged with kidnapping of Stanley Shawn of Colorado City were housed in the Colorado City jail Monday, after being returned from Eastland over the weekend.

Charles Manoy, Lawrence Leavelle Jackson, Jesse Renz Sledge and Gary Jerome Mallord were charged with kidnapping and auto theft. All four are 18 years old.

No bond had yet been set late Monday. They were charged and arrested on a warrant from Judge Leonard Henderson's justice of the peace court in Mitchell County.

The four men were alleged to have forced the Colorado City college student into his own car at noon Saturday and took him to Loraine, leaving him in the car trunk of an abandoned car there. He later escaped from the trunk of the car and reported the incident to the Mitchell County sheriff.

The quartet were apprehended near Cisco.

Ex-Senator Weeps During Testimony

AUSTIN (AP) — The wife of an Abilene car dealer testified today she never knew former state Sen. David Ratliff of Stamford carried her on his payroll for 30 months.

Mrs. Virginia Moser said Ratliff told her last April. "There has been a lot of newspaper publicity that was crucifying him, and that I probably would be contacted by the Houston Chronicle. He asked me to say I was employed by him."

Ratliff is accused of stealing

one of the paychecks made out to Mr. Moser. He cannot be tried on more than one check at a time because the law prohibits trial on more than one

Ratliff, 60, began weeping and his shoulders trembled during the testimony of Mrs. Moser's husband, Sam.

The ex-senator's wife reached over and put her hand on his shoulder to comfort him. He wiped his eyes with his hands and then with a tissue.

Local High School Choir Places 37 On Regional

The Big Spring High School choir came away from regional choir tryouts in Midland Saturday with the largest number making regional choir and the largest number being in the first 10 in their section and eligible to compete in area competition.

The local choir placed 37 members in the regional choir, out of 55 from here who tried out, more than any other school in the entire region. Of these, 23 are eligible to compete in area competition, which will be held in Big Spring Jan. 5.

Those who will compete in area competition include in the first soprano section, Mellanie Hayworth; in first alto, Carrie Wheeler, Carol Boyd, Barbara Dierkes, Jane Stoker and Donna McDaniel; in second alto, Pam Wheeler and Pat Pearson; in first tenor, Joe Gonzales and Kenneth Platt.

In second tenor, there are Joel Dyer, Pat Ray, Bobby Rogers, Kenneth Scott and Randy Taylor; baritones, Roy Lee Osborne, Danny Roundtree, David Duggan and Dick Conley;

U. S. Funds Available

By CHARLES TEAGUE
Construction of a community and convention facility could be financed with the aid of matching federal funds, provided the structure is used also for classroom use on the Howard County Junior College campus, according to HCJC president Dr. Thomas Salter.

The announcement came today as a committee of about 30 Howard County citizens met in the Chamber of Commerce office to discuss the possibilities of constructing such a structure in this community.

"If designated for classroom use, federal monies are available. As much as one-third of the cost can be obtained, if the total project cost is not over \$2 million," Dr. Salter said.

Chamber President R. H. Weaver noted the possibilities of constructing a facility capable of meeting community needs were explored several years ago. At the same time, a bond election for the airport failed, discouraging a request for further bonds on a community center.

"The matter has now been resurrected. The possibilities are to be looked at again," Weaver said, asking for comments from the group.

Nothing should be done until financial matters have been arranged, stated Harold Davis. Relating results of research performed earlier, he said a building which could accommodate 5,000 persons could

million. The cost estimate when the idea was first discussed was around \$1.2 million.

Davis urged that the facility be conceived as a property of the junior college, because many convention structures stand unused three-quarters of the time, encouraging vandalism. A structure used daily will be maintained more efficiently and completely and will pay for its up-keep, he said.

Asking for a positive attitude toward the convention center idea, Davis noted that no town in the area which compares in size to that of Big Spring is without a center. He pointed out that both Snyder and Brownwood have such facilities, both

of which are smaller cities than Big Spring.

County Judge A. G. Mitchell moved that the structure be studied from the agricultural angle, as well, whereby rodeo and stock show events could be staged in the coliseum. The non-urban resident needs to be attracted to the idea of a center before he can be expected to vote in favor of a bond issue.

A vote was called by Weaver toward forming a study-work committee for the purpose of exploring the problems of financing and locating the construction.

Unanimous approval for the center and the formation of a work committee was indicated by a show of hands.

Hospital Authority Case Moved Forward

A motion by the Howard County Hospital Authority requesting a speed-up on the hearing of the appeal of the case of Ray Thomas vs. the hospital authority in the Court of Civil Appeals, Eleventh Supreme Judicial District of Texas in Eastland, was granted Friday.

Oral arguments were set to be heard in the case in Eastland on Dec. 8 rather than waiting until after the first of the year.

Thomas, as a citizen, filed an appeal that the hospital authority was unconstitutional and his cause was defeated in a hearing in district court here. The decision was then appealed to the state civil appeals court.

The question arises around the authority's plans to construct a hospital on North Main near the location of the present Medical Center Memorial Hospital.

AN ABUNDANCE OF SWEETS AND GOOD CHEER — James A. Martin of Hobbs, N. M., a patient at the Veterans Administration Hospital here, seems pleased to greet an army of costumed children from the St. Mary's Episcopal 1 Day School Monday. The small fry were delivering candy for patients in the various wards.

Britons Bid To Take Tea With Headhunting Tribe

LONDON (AP) — Eighteen Britons flew off to New Guinea Friday night for a 23-day hike through the jungle in an attempt to have tea with a tribe of headhunters.

Crazy Play Day Set Saturday

A Crazy Play Day is scheduled by the Howard County Sheriff's posse to be held at 1 p.m. Saturday at the posse arena three miles west on the Andrews highway.

The regular posse meeting will be held next Tuesday, Nov. 7 at 7 p.m. in the Flame Room of Pioneer Natural Gas.

County Planning 2 More Bridges

Howard County built one small bridge on a county road leading to private property last week and plans to build two more.

Monday. Built is a 18 by 8-foot bridge for the Cline Place one and one-half miles west of the Fairview.

Bridge Tax Funds Rule

AUSTIN, Tex. (AP) — Atty. Gen. Crawford Martin said today that money collected for special county road and bridge funds cannot be used for any other purpose.

The opinion was asked by Criminal Dist. Atty. Tom Ham-

na, Beaumont. The attorney general noted that the state constitution allows property taxes collected for the four constitutional funds of a county—general, permanent improvement, roads and bridge fund and jury fund—to all be placed in the general fund. However, the attorney general said, the special 15 cents per \$100 valuation tax, where authorized by voters for further maintenance of public roads may not be transferred into the general fund and used for other purposes.

Strings Attached To \$20 Million

WOODRUFF, Wis. (AP) — The board of directors of the Lakeland Memorial Hospital has cleared the way for the hospital to receive \$20 million from the estate of the late Howard Young, a New York art dealer.

The board agreed over the weekend to three stipulations in Young's will. He had a summer residence in the Woodruff area

Big Spring (Texas) Herald, Tuesday, Oct. 31, 1972 3

and had been treated at the hospital. The stipulations were: —That the hospital be renamed the Howard Young Medical Center; —That a new administration building be constructed along with a museum which would contain art works from his personal collection; —That the new board of the hospital be composed of members he named, including the administrator of his estate, J.C. Thompson of New York.

All 27 Aboard Airliner Perish

BARI, Italy (AP) — All 27 persons aboard an Italian airliner were killed Monday night when the plane crashed and burned near an isolated farmhouse, airline officials said. The 24 passengers and three crewmembers were all believed to be Italian.

SOUTH		SOUTH	
♠ A K 6 5 4	♥ J 10 5 4 3	♠ A K 6	♥ J 5
♦ A 3	♣ A	♦ A 3	♣ Void

The bidding:
South West North East
1 ♠ Pass 2 ♠ Pass
4 ♠ Pass Pass Pass
Opening lead: Seven of ♠
The shrewd investment of a trick came back with interest in today's hand and enabled South, the declarer at four spades to salvage a seemingly lost cause.

The bidding was routine and West opened the seven of hearts against the final contract. East played the ace and continued the suit. Declarer played the jack, West covered with the king and dummy ruffed. A club was led to the ace and South returned the four of hearts which he trumped with North's eight of spades.

East overruffed with the nine and chose to exit with the three of spades. West followed with the seven and North was in with the queen. The queen of clubs was led, East covered with the king and declarer ruffed.

Altho South was in position to pick up the remaining trump with the ace-king of spades, the loss of a diamond trick as well as a heart appeared inescapable. Presently, it occurred to him, that by deliberately surrendering a trump trick to East, he might reap a substantial benefit provided

that the latter held the king of diamonds. This was the position that had developed with all hands reduced to seven cards:

NORTH		NORTH	
♠ Void	♥ Void	♠ Void	♥ Void
♦ Q 10 7 5	♣ J 10 8	♦ Q 10 7 5	♣ J 10 8
WEST		WEST	
♠ Void	♥ 9 8	♠ Void	♥ 9 8
♦ 9 6	♣ 7 6 4	♦ 9 6	♣ 7 6 4
EAST		EAST	
♠ J 10	♥ K J 8 4	♠ J 10	♥ K J 8 4
♦ K J 8 4	♣ 9	♦ K J 8 4	♣ 9
SOUTH		SOUTH	
♠ A K 6	♥ J 5	♠ A K 6	♥ J 5
♦ A 3	♣ Void	♦ A 3	♣ Void

South cashed the ace of spades and then, deliberately surrendering a trick that he did not have to lose, declarer exited with the six of spades to put East on lead with the jack as North discarded two diamonds. A club return was an obvious give up play since dummy had three tricks in that suit, so East exited with a diamond. South played the deuce from his hand and won the trick with dummy's ten. A heart was discarded on the jack of clubs and declarer's hand was high.

Observe that South regained his lost trick immediately because East was endplayed and the latter's diamond return created an entry to dummy that provided declarer with the discard required to avert defeat.

East could have averted the fatal end position by saving the three of spades. Observe that after overruffing dummy's eight of spades with the nine, if he exits with the jack, he is in position to subsequently drop the ten under declarer's ace and then underplay South's six with the three. Left in his own hand, declarer must eventually surrender a heart and a diamond.

Hopefuls Swap Verbal Shots

Republican gubernatorial candidate Henry Grover, stepping up the pace of his campaign, is predicting that his Democratic opponent, Dolph Briscoe "is in for a Harry Truman surprise in November."

In another development on Texas political fronts Monday, Raza Unida's candidate for governor, Ramsey Muniz, called for a reform of the state welfare system and for appointment of minority members to the Welfare Board.

And at the national level, Texas figured again in politics with a visit today to Amarillo by Vice President Spiro Agnew and a two-day visit beginning today by a prominent McGovern supporter, actress Shirley McLaine.

Miss McLaine appears at a teach-in at the University of Houston today and later in Austin. On Wednesday she will attend a fund-raising cocktail party in San Antonio.

Grover declared in Waco that he is not depending on President Nixon's coat-tails to get elected. He said Briscoe "is insulting the people of Texas by refusing to let them know what he stands for."

Muniz said "those who have known poverty can best administer the programs which

theoretically are supposed to get other people out of poverty."

Speaking before a group of Laredo businessmen Muniz called for industrialization of South Texas and said, "If we can subsidize big business, such as airlines, shipbuilders, railroads, and others, we can certainly come up with a plan which would make the state and federal governments partners in the task of eliminating poverty by providing jobs."

In the U.S. Senate race, incumbent Republican Sen. John Tower repeated his support for strong measures to prevent aircraft hijacking.

"I supported the aircraft hijacking bill which passed the Senate and then died in conference during the final days of the 92nd Congress," he said in San Antonio.

Tower said the bill would have authorized the President to suspend air services to any other nation which encouraged hijackings, and to revoke or limit the operating authority of any foreign carrier that does not maintain adequate security measures.

His Democratic opponent, Barfoot Sanders, was in Edinburg, where he said he has asked the U.S. Justice Department for an investigation of Tower's free mailing privileges.

Lamesa Band In Contest

LAMESA (SPL) — The Lamesa High School Golden Tor Marching Band will journey to Lubbock for the annual UIL Marching Contest Wednesday.

The contest is being held in Lubbock's Jones Stadium this year as Lamesa has been moved to Region 6 from Region 1A.

The Golden Tor Marching Band will not be competing against the UIL State-wide standard, by which all bands are judged. A first division rating will be given only to those bands which put on superior performance; a second division is for an excellent performance while a third division is for an average performance and a fourth division is for a below average performance.

According to Bill Brown, director, "The band has shown marked improvement over the year and we're hoping for a top rating. We certainly appreciate the support of the community and reception we have had with our half-time shows. It really helped us. We have been working very hard to represent our town, our school and our band in the very best of ways."

The Golden Tors will perform at 1 p.m. Judges for the performance will be Bill Dean, band director at Odessa High School; Warren Thaxton, band director at Abilene Cooper and Fred Prentice, supervisor of music at Wichita Falls.

All bands are allowed five to eight minutes in which to perform.

Dozen Clubs At College Plan Halloween Ripoff

More than a dozen clubs at Howard County Junior College will combine efforts tonight to bring together what has been tagged the "ultimate Halloween Rip-Off."

Designed for high school and college students, the carnival will get under way at 7 p.m. in the Student Union Building.

The cafeteria area of the SUB will be lined with fun booths, food concessions, and prize games. The recreation room will be decorated in a Las Vegas casino motif, with coed "dealers" in hot pants and visors head serving as hostesses, while participants use play money.

KBST Radio will do a live remote from the center of the carnival, playing records and promoting the affair.

The choir and Hawk Players plan on turning the parlor of the SUB into a House of Horrors, while the choir alone will sponsor a wet sponge throw at instructors.

Wacky, spooky Halloween photos will be available from the El Nido staff, with 8x10 prints delivered in half an hour.

The Lass-O Club will have a balloon dart-throw, the Art class will provide an artist to do quick sketches, the Future Teachers will host apple bobbing, and the yearbook staff will man the bingo booth.

Burritos will be on hand furnished by the Spanish Club, and the Spirit Club will sell candied apples and popcorn balls.

Kapki Chi will put pretty coeds up on the platform and allow baseball throwers to drop them into the dunking pool, while the student senate will let "marks" throw balls at pyramids of cans.

Other booths on hand will be the kissing booth, coin into plate, and ball into basket.

Quality Food Service will keep the Snack Bar Open for the evening to serve drinks, and Jack McCormick, manager, will kick the gala event off at 8 p.m. with a special Halloween feed with faculty and staff invited.

The climax of the evening will be a doorprize of a A.M.-F.M. Radio and cassette tape recorder combination, which will be given away at 10:45.

Lamesa Service Station Robbed

LAMESA — An armed robbery took place at 1 a.m. today at an Enco Service Station at N. 4th and Bryan Avenue.

The robber apparently arrived on foot and left the same way, running away from the back of the station, according to the lone attendant, held up at the business.

The attendant described the robber as a Negro male around 28-29 years old, six feet two inches tall, weighing about 190 pounds with an Afro hair style. He carried a snub nose revolver and took approximately \$65 in cash.

Resume Search

PHOENIX, Ariz. (AP) — The Arizona Wing of the Civil Air

Patrol resumed a search today for a light plane missing since Sunday on a flight from Corpus Christi, Tex., to Phoenix. However, CAP officials said bad weather was hampering search efforts in Arizona, New Mexico and Texas.

Read any good clothes lately?

You'll find some very interesting reading on the labels in the new clothes you buy.

After July 3, 1972, all garments manufactured that require care and maintenance for their ordinary use must carry a permanent label giving instructions for care and

you'll find electric dryers are designed for a wide range of modern materials — including polyesters and other permanent press fabrics.

This is just one of many reasons why the flameless electric dryer is America's favorite.

Here are a few tips on permanent press clothes looking their best without spending hours ironing:

1. Never dry more than one washer-load at a time.
2. For truly wrinkle-free clothes, try drying half a load, so they'll have lots of tumbling room.
3. Try fabric conditioners. They not only make clothes softer, but they cut down on the static electricity that makes clothes cling together and wrinkle while drying.
4. Clean your dryer's lint
5. Read your instruction book carefully to get the most out of your dryer's unique features. File instructions for future reference.

Any questions you have about whether to wash and dry or to dry clean will be answered right on the label.

For home laundering,

TEXAS ELECTRIC SERVICE COMPANY

Childless

Dear Abby,
Abigail Van Buren

DEAR ABBY: Please print this open letter to friends and relatives of a childless couple: Dear People: We are in our late thirties and have finally accepted the fact that we cannot have children. It's due to a medical problem one of us has (and please don't ask which one, or what kind, because it's none of your business.)

Don't tell us "to never give up hope." It would be better if we did, so that is what we are doing.

Don't suggest we take in foster children. Have you ever known the heartache of having to give up a child you've grown to love like your own? Well, we have. And we'd never do it again.

Don't suggest adoption. Where we live you need \$700 just to start proceedings. And you have to be buying or building your own home, have an excellent credit rating and money in the bank. Then there is the chance that the child will be taken away from you during the first year before the final papers are signed.

And don't say, "You don't have any children? Boy, you're lucky, we have four you can have." Or, "Gee you're smart. If we could live our lives over we wouldn't have any."

Some people are too stupid for words.

"CHILDLESS AND SICK OF QUESTIONS"

DEAR CHILDLESS: You may not speak for all childless couples, but I'll wager a good number of them are on your wave length.

DEAR ABBY: I am going with a wonderful guy, and he is the first one I have ever felt this deeply about. He's 21 and so am I.

He says he loves me, but there is one big problem. He always falls asleep on me!

He has done this from the beginning of our relationship. I have tried everything to cure him, including just leaving him and going home (if we're out), getting angry, and going to bed and just letting him sleep in the chair at my place.

I know he has to get up at five o'clock in the morning and go to work, but he could get some rest before seeing me in the evening.

He says he wants to marry me someday, but Abby, I need a guy who's awake. His problem could be medical, but if it isn't what do you suggest I do?

LONELY IN INDIANAPOLIS

DEAR LONELY: First find out if it is medical. If it is, it's no joke, and should be treated promptly. If it's not medical, you'd better look for another boy friend. He's much too passive when he should be active.

DEAR ABBY: How do you tell a 30-year-old single woman to change her clothes and use some deodorant, or some kind of fragrance to mask the odor? For the last year she has worn TWO soiled pants suits to work, and would you believe, we have not seen her in a dress for two years?

She happens to be obese. We feel there is no excuse for appearing so sloppy and careless in a business office. Also, we haven't seen her own hair in two years. She wears a dirty wig every day!

Please, please, help us. We are...

SUFFOCATION IN CLEVELAND

DEAR SUFFOCATING: If this woman has one friend in the office, ask her to have a heart-to-heart talk with her. If the company employs a nurse, you might ask the nurse to talk to her. The woman may not be aware that she is offensive. It would be a kindness to tip her off.

Problems? Trust Abby. For

\$200,000 Bail Set

LAS VEGAS, Nev. (AP) — District Court Judge Howard Babcock has set bail at \$200,000 for one person in the slaying of Las Vegas businessman Abe Schwartz. A district court preliminary hearing for two others was continued until Wednesday.

The bail was fixed Monday for Irwin Fish, 41, of Rancho Bernardo, Calif. It is believed to be the highest set recently in a local court.

Justice of the Peace Robert Legakes continued the hearing of Benjamin Lee Shoemaker, 20, of Wichita Falls, Tex., and Douglas Webb, 25, of Los Angeles after testimony by two sheriff's detectives.

Fish, Shoemaker and Webb are accused of killing Schwartz May 15 and burying his wife in a desert grave. The body was discovered Sept. 16.

City, County Has Good Bond Rating

The City of Big Spring and Howard County led the list of good credit ratings for bonds.

Mrs. Virginia S. Black, county auditor, quoted a Fort Worth bank executive saying:

Mrs. Black said she heard this at the National Association of Counties meeting in Fort Worth last week. Local government officials from five states were briefed on revenue-sharing at this meeting.

Try To Identify Pair Seen In Car Of Man Found Slain

FORT WORTH, Tex. (AP) — Police sought the identity today of two long-haired youths who drove Elbert E. Leggett's car into a car station a few days before his bullet-riddled body was found in an auto parked behind a nearby restaurant.

Leggett, 56, a semi-retired

painting contractor from Lake Providence, La., was found about 4 a.m. Monday by a coffee shop employee. He had been dead at least eight days, officers said.

He had been shot four times in the chest, wrapped in blankets and placed in the back seat of his car. Many people

use the area for parking, and the body was not found for several days.

An attendant told police a pair of youths pulled into the gas station sometime last week and bought \$1 worth of gas. He said he tried to buy the car's luggage rack from them but they declined to sell it.

WE'VE MOVED

To Our New Address
202. SCURRY

Carter's Furniture

We're changing the Enco name to Exxon.

To celebrate, we proudly present a designer collection by

David Douglas

Free coaster-glass with fill-up.

Here's a beautiful gift to celebrate our new name: coaster-glasses by designer David Douglas. Stylish 11-ounce glasses with removable coasters. Collecting is easy. You get one free with a gasoline fill-up at participating stations, and most of our stations are participating. To complete your set,

you can get the matching ice bucket for only \$3.95, and the serving tray for \$1.65 (suggested prices) — little more than half what they've sold for elsewhere. An unusual offer? You bet.

But then we don't change our name every day. Drive in, start your collection, and celebrate with us.

An old friend has a new name.

EXXON MOBIL CORPORATION

'Let Them Boo,' Says Morton

Dallas QB Leads Cowboys Past Lions, 28-24

DALLAS (AP) — "Let 'em boo," said satisfied Craig Morton, "When I'm throwing the 29-year-old Morton. "It's a touchdowns and the Dallas free country. I'm not telling them who to vote for . . . and live without the cheers."

The longtime No. 1 whipping boy when pro football fortunes wilted in Big D, Morton passed for three scores Monday night and set up a fourth in a 28-24 beating of the Detroit Lions.

"Sure, I heard them boo when I was introduced," said Roger Staubach, engineer of Dallas' world championship of 1971, is healed from his pre-season shoulder separation. He's ready to play, hungry for a comeback. But, Morton has the job and won't let go.

"As long as Roger and I are in competition, there will be Staubach fans and Morton fans," said the 6-foot-4 Californian. "It's a way of life for me in Dallas, but all I can do is perform."

Coach Tom Landry has said it was a "must game" for his Cowboys. Morton said so. Everyone in gap-in-the-roof Texas Stadium seemed to sense that a defeat might deflate their world champions.

Morton was a point machine, heaving a 38-yard touchdown bomb to Billy Parks, one of 33 yards to Calvin Hill and a 15-yarder to heretofore unknown running back Mike Montgomery.

A 27-yard screen from Morton to Montgomery set up a one-yard touchdown smash by the second-year man who came from San Diego in the deal for the controversial, untalkative, idle Duane Thomas.

Dallas, 5-2, pulled within a game of Washington's Redskins in the National Conference East, while Detroit plunged back into a tie at 4-3 with Green Bay in the NFC Central.

"I know you guys want to write about me," said Morton, toweeling his shower-wet hair. "But give the offensive line a line or two. That's a tremendous bunch that deserves recognition. They gave me time enough to have a picnic back there on some plays."

As Morton talked, Staubach scrambled silently away. He had to know the starting quarterback job was farther away from him than earlier in the rainy evening.

Morton was 11 of 19 for 206 yards in a game where Landry's articulate plan was to control the ball and pass less

than 20 times. "Detroit is better on offense than defense," said Morton, "so we tried to play keepaway."

Landry echoed his quarterback's comments about the Dallas line.

"They did a spectacular job," he said. "We ran the ball well. Craig handled the team fine. He was overshooting some, but those were great hits to Parks and Montgomery."

Montgomery was all alone when he hit the end zone on the 15-yard TD pass. The kid from Kansas State did a victory dance, the kind that the Kansas City Chiefs' Elmo Wright made famous.

"I hadn't been there in so long," Montgomery said, lacing on his lumberjack shoes. "I had to do something to show how happy I was."

Hill, the 235-pound veteran from Yale, rumbled nakedly past as reporters pressed Montgomery. Hill had been lifted after a fumble, giving the youngster his chance.

COMIN' RIGHT AT YOU — Walt Garrison, Dallas Cowboys fullback (32), charges straight for Detroit's Lem Barney (20), cornerback, in the second quarter at Texas Stadium Monday night. Other players in the picture are Dallas tight end Mike Ditka (89) and Detroit's linebacker Mike Lucci (53), partially obscured by Garrison.

Southern California Holds Onto Top Spot

By The Associated Press

Southern California, which survived nine fumbles in beating Oregon 18-0 Saturday, retained the top spot in The Associated Press' weekly college football rankings.

The Trojans, 8-0, received 41 first-place votes and 980 of a possible 1,000 points from the nationwide panel of sports writers and broadcasters.

Alabama, 7-0 after thrashing Southern Mississippi 48-11, retained the second spot with 311 points and three first-place votes. Defending national champion Nebraska held onto the No. 3 spot with four first-place votes and 750 points after registering its fourth straight shutout, a 34-0 romp over Oklahoma State.

Michigan climbed one spot to fourth with 694 points after overpowering Minnesota 42-0. Big Ten rival Ohio State dropped from fourth to fifth with 629 points after edging Wisconsin 28-20.

Louisiana State, 6-0 and idle Saturday, stayed in sixth place, but Colorado, seventh last week, dropped all the way to 15th after being upended by Missouri 20-17.

Oklahoma, UCLA, Texas and Penn State round out the top ten, each moving up one notch from last week.

The second ten consists of Auburn, Notre Dame, Tennessee, Iowa State, Colorado State, Missouri, Texas Tech, Oklahoma State, Arkansas, Texas A&M, and North Carolina State.

do, Missouri, Louisville, Texas Tech, Air Force and Arkansas. Florida State, Southern Methodist and West Virginia dropped out of the top twenty as Missouri, Louisville and Texas Tech made their season debuts among the elite.

Quarterback Club Meets Tonight

The Big Spring Quarterback Club will hold its weekly meeting tonight in the high school cafeteria. The meeting will get underway at 8 p.m.

Club co-sponsor Al Valdes said that members of the BSHS Key Club will be honored at the meeting. The Key Club members pulled a bell from Big Spring to Odessa for the Steer-Perman game Oct. 21.

Films of the Big Spring-Midland Lee game will be shown and a scouting report on Abilene Cooper will be presented.

The Top Twenty, with first-place votes in parentheses, season records and total points. Points tabulated on basis of 20-18-14-12-10-8-7-6-5-4-3-2-1:

1. USC (41) 8-0 811
2. Alabama (3) 6-1 750
3. Nebraska (4) 7-0 694
4. Michigan (1) 4-0 659
5. Ohio State (1) 4-0 629
6. LSU 4-1 621
7. Oklahoma 4-1 617
8. UCLA 4-1 579
9. Texas 4-1 578
10. Penn State 4-1 569
11. Auburn 4-1 538
12. Notre Dame 4-1 519
13. Tennessee 4-1 512
14. Iowa State 4-1 512
15. Colorado 4-2 512
16. Louisville 4-2 505
17. Mississippi State 4-0 500
18. Texas Tech 4-1 497
19. Air Force 4-1 477
20. Arkansas 5-2 470

Other teams receiving votes, listed alphabetically: Arizona State, Florida State, Georgia, North Carolina, North Carolina State, Purdue.

Coahoma QBC Sets Meeting

COAHOMA — The Coahoma Quarterback Club will meet in Room 202 of Coahoma High School at 8 p.m. today. Films of the Bulldogs' 20-14 win over district foe Ozona will be shown.

A scouting report of Big Lake will be presented by the Bulldog coaching staff. Coahoma will meet Big Lake in Big Lake Friday night.

'GOOD EFFORT' Utah Drops Kentucky, 117-106

SALT LAKE CITY (AP) — Coach LaDell Anderson credits his bench depth and rebounding for the Utah Stars' 117-106 victory over the Kentucky Colonels.

"We had a good effort from all of our people," Anderson said after Monday night's game here. "I was especially pleased with the way the substitutes came in and kept up the pace."

"If there was any particular turning point, I would have to say it was when we started to hit the boards better in the second half," Anderson added.

Utah led 34-30 in rebounding after the first half and finished with a 65-40 margin. Veteran center Zelmo Beatty had 21 rebounds and 27 points to lead the Stars in both categories.

Ron Boone came off the bench to spark the fourth-quarter surge which gave Utah the edge. He only scored 13 points, but he came at key times of the final period and thwarted Kentucky's attempts to rally.

Kentucky's Dan Issel and Louis Dampier kept the game close, but couldn't hold the pace. Issel led all scorers with 33 points. Artis Gilmore had 20 and Dampier 19.

The game was the only one in the ABA on Monday.

The National Basketball Association had no scheduled games, but did see its second coaching change in three days. Bill Van Breda Kolf was fired as coach of the Phoenix Suns with Jerry Colangelo, the team's general manager, taking over the coaching duties for the second time in two years. On Saturday, Earl Lloyd was replaced as coach of the Detroit Pistons by Ray Scott.

Suns Fire Van Breda Kolf; Colangelo Takes Coach Post

PHOENIX, Ariz. (AP) — For the second time in two years, general manager Jerry Colangelo has taken over the coaching reins of the Phoenix Suns of the National Basketball Association.

Colangelo, 32, announced late Monday that he had fired Bill Van Breda Kolf as coach. The night before the Suns had lost 133-123 to Los Angeles, putting their record at 3-4.

"It was a matter of a breakdown in communications with the players, not any specific instance," said Colangelo. "It was worse than if there'd been some specific grievance but it was just a loss of respect among the players."

Colangelo said he had discussed the matter with several players and intended to have "a talk with them today after practice."

Colangelo came to Phoenix with the NBA franchise in 1969 after spending two years as general manager of the Chicago Bulls. He got his first coaching experience the same year when he fired Johnny Kerr and piloted the Suns to a 24-20 mark during the last half of the season.

Big Spring And Howard County Need

JOHN TOWER

In The **U.S. SENATE**

He Is For A Strong Oil Industry

Nobody can question the importance of the oil industry to Howard County. Hundreds of people directly are employed in this industry locally. Hundreds and hundreds of others are dependent upon the oil industry to a great degree. It accounts for 64 per cent of our county tax roll. It's the backbone of our county's economy.

Senator John Tower is intimately acquainted with the problems of the oil industry. He knows it must remain strong, or else we will see a drastic decline in income . . . and also we will see a drastic decline in the tax revenues from this industry that go into the treasuries of our state, our counties, our schools.

The policies concerning the oil industry as advocated by those opposing Senator John Tower are such that any individual, or company, deriving income from leases, production, drilling, oil-well servicing, royalties, school taxes, or state and county taxes will receive less money. We cannot afford such policies.

If this vitally important industry is to survive and be strengthened, it is vital that we keep John Tower in the Senate. It is vital to us right here in Howard County. Think about this when you mark your ballot.

HCJC Volleyball Team Captures Twin Victories

ABILENE — The Howard County Jr. College volleyball team took matches from McMurry College and Abilene Christian College here Monday night.

Howard County clipped McMurry, 15-9 and 15-7. Kay Lou Caffey and Arlene Henderson were the high scorers in the first and second games respectively. Both players had five points.

Howard County defeated Abilene Christian, 15-5, 11-15 and 15-10. Isabel Juarez was the leading scorer in the first game with five points. Marion Hobson was the high scorer in the second game with four points and Pam Habr took high point honors in the third quarter with six points.

LOST FOR SEASON

Sonny Under Knife

WASHINGTON (AP) — Billy Kilmer has stepped into the Washington Redskins' job of No. 1 quarterback for the second straight year following injuries to Sonny Jurgensen.

"I feel bad for Sonny, honest to God," Kilmer said. "I didn't want the job this way."

Jurgensen, the National Football League's top career passer, was lost for the season when he underwent surgery Monday to repair a ruptured Achilles tendon heel cord.

Dr. P. M. Palumbo Jr., the team physician who performed the one-hour, 45-minute operation, said the injury was "fairly extensive. I had to sew the ends together."

The 38-year-old Jurgensen was injured in the first period of Sunday's 23-16 victory over the New York Giants. He had just thrown his first pass of the game, a 13-yard completion to Roy Jefferson, when he crumpled to the ground. "I just seemed to slip," Jurgensen

said. "It felt as if somebody kicked me in the heel, yet nobody was close to me."

A Washington doctor said he knew the extent of Jurgensen's injury as soon as it happened.

"He looked down and back like he thought somebody kicked him," the doctor said. "The same thing has happened to squash players, tennis players, soccer players and skiers. They all look back to see who did it when it happens."

Several orthopedic surgeons agreed that age was one cause of the injury.

"Our connective tissue gets brittle with age, no matter what kind of physical condition we're in," a Georgetown University doctor said. "Jurgensen's injury sounds like a classic example of an aging athlete whose legs were suffering from battle fatigue."

Dr. Palumbo said the quarterback's left foot will be in a cast for 10 to 12 weeks, followed by rehabilitation for two or three months.

"We are optimistic about his coming back next year," he said.

Greenwood Edges Sands IHS, 30-25

ACKERLY — Richard Womack poured in 19 points to pace Greenwood Junior-High past Sands Junior High, 30-25, in a basketball "triple-header" here Monday night.

Womack had seven points. Ronnie Kennemer and Martin Nichols contributed six and five points respectively to the Sands cause.

In the junior high girls, Renee Roman had 15 points and Jayna Gregg had 13 points to lead Sands past Greenwood by a 34-15 margin.

David Moseley had 10 points to lead the Sands pee-wees to a 24-15 win over Greenwood in the opening game.

Big Spring Duo Finishes Second

ODESSA — The Big Spring team of Tito Ariencibia and Ray Thomas was defeated by Oscar Villareal and Joe Otero of El Paso, 21-17, and 21-19, in the championship round of the Bill Noel Invitational Handball Tournament here Sunday.

The second-place finish in the tournament netted the Big Spring pair silver mugs.

Injury-Riddled Rice To Meet Red Raiders

HOUSTON (AP) — Rice head Coach Al Conover, whose Owls have lost three straight games, got up to address his weekly Quarterback Club meeting and the microphone fell off the rostrum.

"Even my microphone is injured," the quick-witted Conover quipped.

That's how life has been for the Owls recently. After beating Houston and Clemson and tying Georgia Tech in their first three games they have lost three straight to LSU, Southern Methodist and Texas by increasingly larger margins.

"And they've dropped a few

more starters with each loss. In Saturday's 45-9 loss to the 10th ranked Longhorns, there were only four defensive starters on the field that opened the season against Houston.

Conover didn't use injuries as an excuse for the loss to Texas but he's hoping to have some of the wounded back in action for Saturday's conference match against Texas Tech in Rice Stadium.

"They're strong on offense," Conover said of the once-beaten Red Raiders. "Last year they had a hard time deciding who to put under the center. This year (Joe) Barnes has given them some consistency."

Linebacker back and losing another for the Raiders, Middle linebacker Rodrigo Barnes, who has been out since the LSU game with a kidney injury, is expected to return.

But linebacker LaRay Brasher will be out with a back injury. Defensive tackle Larry Medford, out since the Clemson game, also may return to action.

Reviewing the loss to Texas, Conover was asked how to beat Texas. He walked to a blackboard and drew some Os to represent Texas' wishbone offense.

"People keep asking me about the conference race," Conover said. "I think the race is over. It's just a matter of (Texas) playing out the schedule."

Conover said the Owls would be facing a good football team in Tech "but they've not what was played Saturday night. That was the finest team I've had the displeasure of coaching against."

Kuhn Dampens City's Hopes For Franchise

NEW ORLEANS (AP) — This Deep South city's hopes for a baseball franchise—or even a part of one—weren't given any boost by Commissioner Bowie Kuhn, who was here Monday.

Kuhn said expansion of major league baseball is nowhere on the horizon.

Kuhn, in town for a baseball general managers' meeting, told newsmen that he would like to see a team in the Louisiana Superdome when it is completed in 1974.

"However, realistically, I don't see a chance with expansion and I can't see any expansion at this time."

Asked about reports that Charles O. Finley, owner of the world champion Oakland Athletics, might be eyeing New Orleans as a possible new home, Kuhn said as he understands it, Finley is happy in Oakland.

Kuhn also indicated he takes a dim view of franchise transfers.

"My basic philosophy about transferring franchises from one city to another is that baseball would be best served by having as much stability as possible."

He also said he was against the split-franchise concept, something which New Orleans had hoped to achieve if it couldn't get its own.

linebacker back and losing another for the Raiders, Middle linebacker Rodrigo Barnes, who has been out since the LSU game with a kidney injury, is expected to return.

But linebacker LaRay Brasher will be out with a back injury. Defensive tackle Larry Medford, out since the Clemson game, also may return to action.

Reviewing the loss to Texas, Conover was asked how to beat Texas. He walked to a blackboard and drew some Os to represent Texas' wishbone offense.

"People keep asking me about the conference race," Conover said. "I think the race is over. It's just a matter of (Texas) playing out the schedule."

Conover said the Owls would be facing a good football team in Tech "but they've not what was played Saturday night. That was the finest team I've had the displeasure of coaching against."

News of Big Spring Business and Industry

COMPLETE FINANCIAL SERVICES ARE AVAILABLE
 At Big Spring Savings Association, Seventh and Main St.

Funds On Hand To Finance Any Home Improvement Idea

Big Spring Savings Association is a home-owned, home-operated institution dedicated to building a bigger, better Big Spring so people at the Big Spring Savings office are anxious to help plans of people come true.

This service extends not only to the actual business of making a loan, but assistance in planning when requested.

Moreover, experts say there's no point in waiting on improvements — the best time is now.

Recent acceleration of the economy, as reflected in increased deposits, etc., has manifested itself in greater savings which had put the association at new record levels at mid-year.

This means that sound loan application funds are available

to finance home improvement ideas.

The customer is welcomed to discuss remodeling of the home, addition of floor space, reroofing, laying of new carpet, landscaping of the yard, repainting inside or out or addition of new major appliances.

When the ideas and plans have crystallized, Big Spring Savings Association stands ready to finance the project.

Loans for the purchase of mobile homes are also available at Big Spring Savings, making home ownership easy for everyone.

Friendly, helpful personnel are at the disposal of the customer — at the home improvement center of Big Spring, Seventh at Main Street, phone 267-7443.

How Many Items On Sale At Your Favorite Store?

Ever try to count 'em? If you shop in the average supermarket — there are about 6,000 to 8,000 items to choose from — probably even more if you shop in a large department or discount store. Confusing isn't it — You know generally what you need, but which particular brand to buy.

Selection is important in everything you buy for your home but it's especially important when you choose an insecticide. Don't just pick up any can or bottle — pick up the brown amber bottle with the brush attached — which has been on your sales shelf for more than 20 years — Johnston's No-Roach.

No-Roach gives you everything you want in an insecticide—

1. Easy to use.
2. No insecticide odor.
3. No powder or spray or mess.
4. Stays effective for months.

No-Roach is effective against all crawling insects — cockroaches, ants, spiders and silverfish. One application stays effective for months. Try a bottle of Johnston's No-Roach today. Follow directions and your home will be bug-free for months.

Available at: Safeway, Furr's, Piggy Wiggly, Gibson's, Foodway, Giant Discount and all grocery stores, distributed by Kimbell.

Complete Selection Of Yule Cards At Hester's

The Christmas season is just around the corner and Hester's Supply Co., 209 Runnels, has one of the most complete selections of tasteful Christmas cards in the area.

Fine Christmas cards are available at a modest price and Hester's has a large selection of both modern and traditional Christmas cards. Hester's will imprint all of your Christmas cards with your name in gold for small additional charge.

Hester's also can provide you with a tasteful gift from their selection of leather goods, imprinted in gold free when purchased at Hester's, or one

of the fine Bibles in their stock. Free gift wrapping is provided at Hester's.

Selection of Bibles includes the popular new Living Bible paraphrase, as well as the Zondervan Parallel New Testament, with the King James, Amplified, Living New Testament and Revised Standard texts side by side. It is of special value to the student.

Bibles are available from Cambridge, Holman, World, Collins, Zondervan and Oxford in all sizes and colors.

Pens and pencils, all kinds of stationery items, wrapping paper, desk calendars, lighted

magnifying glasses, diaries and picture albums make Hester's Christmas gift headquarters.

There's a gift to suit anyone in the family. From ash trays and paper weights to wallets and purse organizers, the selection is sure to make shopping easy.

Party favors and decorator supplies make shopping for Christmas party supplies a simple task, too.

Hester's Supply Co. is open from 9 a.m. to 5:30 p.m. Monday through Friday and 9 a.m. to 1 p.m. Saturday, at 209 Runnels, phone 263-2091.

Don't Chase

lean Adams

TEEN FORUM

These two brothers live across the street. One is 18 and one is 17. I am 14. They are nice. I have tried to be friendly with them, but not aggressive. I say "hello" and once in a while we talk a little.

But my little sister, who is 12, is butting in. She goes over to their house and visits with them, inside. Or she calls them on the phone and asks them to come see her. They don't, but she is ruining everything.

I tried to talk to our mother about it, but she said "Don't bother me." I need help. — Sidetracked in South Carolina.

(A.) It is time your little sister knew that nice girls don't chase after boys. They do not visit boys without invitations and they do not call boys on the phone except in emergencies.

Talk to her, heart to heart. Explain the rules to her. If this does not stop her, ask for a family conference and let your parents know what is going on.

and told me that he loved me. "I mean it, I really do," he said.

Well, when I told Cathy what he had said to me, she said he had told her exactly the same thing, in the same words. I like him. What do you think I should do? — Interested in Texas.

(A.) Some boys like more than one girl and have a limited vocabulary. I think that is Larry's problem. I do not believe he is trying to mislead either you or Cathy. I believe that is just the way he talks to girls he likes.

(Jean Adams reads and considers every letter, but she requests that mail your questions and comments to Jean Adams, care of the Big Spring Herald, P. O. Box 2402, Houston, Texas 77011.)

Mitchell Health Club Is Planned

COLORADO CITY — The Root Memorial Hospital District board of directors has voted to establish a health club in the hospital's recently completed physical therapy unit.

Under a schedule approved by the directors, there will be a separate time for men and women to use facilities of the department six days a week.

Registration begins with an open house of the physical therapy department to be held from 2:30 p.m. to 5 p.m., Nov. 5.

Had To Be Heist

OAKLAND, Calif. (AP) — Police sleuths are hunting clues in the strange case of the scarlet macaw.

Stan Shane reported the bird — valued at \$500 — stolen from his home Sunday night.

"It had to be a heist," said Shane. "The bird can't fly."

World Can Hope For Peace

The secret negotiations are public now and Henry Kissinger advises that "peace is at hand." That is a useful prospect and the diligent, if belated, labors toward this point seem to be bearing fruit.

Kissinger verified Hanoi's version of the agreements reached so far. One of the most revealing remarks he made at a quickly-called news conference following Hanoi's announcement of the agreement terms dealt with "among other problems" that need final solution includes one of whether Washington should sign for South Vietnam.

That is a peculiar problem only when viewed from the intransigent attitude of President Thieu. We may be reading too much into the remark but it sounds much as if Kissinger was saying that if Saigon doesn't sign, Washington will.

As Kissinger confirmed the agreements announced by Hanoi, the inevitable question arises: Is this a return to Geneva 1954?

Those agreements, some signed and some not, set the stage for "free" elections in South Vietnam. The war broke out two years later with American

support. The elections were cancelled because, in the popular view of the day, the north sent thousands of persons south to stuff the ballot boxes.

Historians will be sorting out the facts of that era for years to come but President Eisenhower said at the time that had the elections been held, the Communists would have won.

For 19 years the American government supported the view that South Vietnam had to be "defended." When the 1968 Tet offensive drove into Saigon, the Saigon government finally decreed

a military draft of men for war.

It was finally decided in Washington that the "domino theory" was fiction; that the South Vietnamese themselves had to fight their own battle; and that America no longer had a reason to remain there.

Since then, the United States has attempted to give the government a chance to survive.

The Geneva formula is the essential form of the new agreements. The world can hope they hold this time.

Cruel Situation Ends

Whatever its other deficiencies and failures, the special session of the Texas Legislature just concluded did manage to accomplish one bit of business of a truly emergency nature.

By a unanimous vote in the House and a 77-1 vote in the Senate, the legislature voted to restore medical benefits to welfare recipients who suddenly found themselves without medical protection as a result of Social Security payment increases.

The Social Security board voted by Congress lifted 19,243 Texans above the income limit for

receiving state medical assistance. Thus they would have paid a price for the "boost" in benefits, suffering instead of getting any help. The vote now corrects that cruel situation.

Although the measure was not part of the governor's original call for the special session, it is fortunate the session was held to allow for passage of the bill. Otherwise, many Texans would have been deprived of adequate health care for many months until the legislature met in regular session.

Version Of Shootout

Around The Rim

Jo Bright

Breathes there a western history buff who hasn't been fascinated, at one time or another, with the famed shootout at the OK Corral? There have been many versions of that gunfight, and it's doubtful that anyone knows where the truth lies.

However, a man named A. M. King, who was a deputy to Wyatt Earp in the 1900's, hoped his version would be accepted when he wrote the following:

"THE FAMOUS OK Corral Gunfight at Tombstone, Ariz., in 1881, has been the basis for arguments for more than a half century. It's about time somebody stopped it or tried to. Wyatt Earp told it (the story) to me on several occasions, and in a few words.

"The Earps did not enter from Allen Street, but from the rear of Fremont Street, with Doc Holliday carrying a sawed-off shotgun, then Wyatt, Morgan and Virgil (town marshal) Wyatt Earp's brothers. Tom McLowery was killed, and his brother Frank McLowery was shot and killed by Wyatt himself, and Billy Clanton was shot by Doc. Billy's cowardly brother, Ike Clanton, threw himself at Wyatt's feet begging for mercy and then ran for Fry's studio to hide with Sheriff Johnny

Behan and coward Billy Claborn who never fired a single shot.

"The dead from this fight: Billy Clanton, Tom and Frank McLowery. The wounded: Morgan and Virgil Earp. The lucky: my old friend, Wyatt Earp, who got it in the coattail along with Doc. (Doc did not get hit.)

"THE FIGHT OR shootout was the result of a feud between the Clanton outlaws and the Earp faction of lawmen which had been festering for some time. Wyatt sent a little half-breed boy into town to watch the Clantons, who belied the bars, and when he came back telling Wyatt what they thought of the local lawmen, that set off the battle. The Earps and Doc moved into the Corral first and lay in wait of the Clantons and rose up and let 'em have it when they came in from Allen Street and all started to mount up near the Assay Office wall.

"The battle only lasted thirty seconds according to my friend Wyatt Earp. That's all there is to it. I don't know how fellows make movies and write books about it. There wasn't that much to it."

So said Mr. King. And that's another version. You pay your money and you take your choice where western lore is concerned.

Terms Clarified

David Lawrence

WASHINGTON — There is going to be peace in Vietnam — maybe not next week but within a short time. The agreement, however, may be signed soon, as a final settlement is worked out which is acceptable to North and South Vietnam and arrangements are made with the governments which will participate in supervising the cease-fire and the elections which are to follow.

OUT OF THE White House itself came a transcript of seven pages of single-spaced typewritten text covering the statement to the press on Thursday by Dr. Henry Kissinger, assistant to the president for National Security Affairs. He outlined in great detail the long negotiations which he has been helping to bring to a successful close. He said:

"We believe that peace is at hand. We believe that an agreement is within sight."

"We have taken the view, from the earliest private meetings on, that rapid progress could be made only if the political and military issues were separated; that is to say, if the North Vietnamese and we would negotiate about methods to end the war and if the political solution of the war were left to the Vietnamese parties to discuss among themselves."

The demand for a coalition government "which would absorb all existing authority" was dropped by North Vietnam earlier this month, according to Dr. Kissinger. He commented that for the first time a formula which permitted a simultaneous discussion of Laos and Cambodia was included in the frame-

work of the peace project. He declared:

"I want to take this opportunity to point out that from that time on, the North Vietnamese negotiators behaved with good will and with great seriousness. And so did we. We have no complaint with the general description of events as it was given by radio Hanoi. However, there grew up the seeds of one particular misunderstanding. The North Vietnamese negotiators made their proposal conditional on the solution of the problem by Oct. 31, and they constantly insisted that we give some commitment that we would settle the war and complete the negotiations by Oct. 31 . . .

"IN ORDER to avoid an abstract debate on deadlines, which at that time still seemed highly theoretical, we did agree that we would make a major effort to conclude the negotiations by Oct. 31, and it is true that we did, from time to time, give schedules by which this might be accomplished."

Dr. Kissinger went on to say it was always clear to him — and he had sought to make it clear to the other side — that the agreement would be signed by that date if any details remained unresolved, even though an effort would be made to conclude it by a certain time. He asserted it was always understood that anything negotiated would have to be discussed first in Washington and then in Saigon. He described the progress achieved thus far, and added:

Insiders Information

John Cunniff

NEW YORK (AP) — Investors and analysts have been trying to pin a label on the stock market for many months now, but nothing seems to stick.

And so, like a shopper who declines to buy an unlabeled can of beans, investors wait for the market to identify itself. What is it made of? What makes it move?

When analysts concluded that the market was below a proper level, they tabbed it the McGovern market and said the presidential candidate had scared away investors.

When controversy struck the McGovern campaign, however, the market barely nodded its recognition. Presumably, if the label were accurate, the market would have risen on news

adverse to the candidate, but it did not.

Similarly, recurring peace rumors during the year invariably produced little upward jiggles. And, in the absence of an explanation for other small rises, analysts were inclined to attribute them to peace prospects.

But, when Henry A. Kissinger announced that "peace is at hand," the Dow Jones industrial average went up a few points and then collapsed into a minus position for the day. The rally was but a hiccup.

Perry Wysocky disdains labels such as these, and he thinks everyone else should also. Rather than attempting to link market movements to news events as if the market were rational, he studies only the insiders.

Working out of Fort Lauderdale, Fla., Wysocky publishes The Consensus of Insiders, a popular publication whose contents are based on the trading activity of stock exchange specialists and corporate insiders.

If specialists sell short, then the market will drop, he believes. If they reduce their percentage of total short selling, it could be a signal for an upturn, according to his reasoning.

Similarly, if the inside owners of 10 percent or more of a company's stock—the directors, officers and major shareholders—are buying, he maintains, it is a strong suggestion that the stock will be strong in months to come.

Simplified, his rationale is this: "The insiders ought to know. You cannot know what they know, but you can do what they do."

More Memories

Hal Boyle

NEW YORK (AP) — Memories are like the seasons of the year.

They are recurrent miracles and each has its own pageantry.

The more memories you have to summon up on the days when your heart needs a little cheer, the more fortunate your life has been.

You've been exposed to a lot of living yourself if you can

look back and remember when; Before the women's liberation movement made the feminine sex so serious and self-conscious, girls rather liked being called chicks.

It was considered indelicate to speak of your glands in mixed company.

A jewelry store always kept in the window a clock that had been wound up and told you the right time.

A man outdoors without a hat on looked funny.

It was so unusual for anyone to drink anything except straight whisky that when anyone ordered a Martini he met a barful of sneers, and the bartender would tell his wife later when he got home, "I don't know what the world's coming to."

Men who chewed tobacco or smoked cigars looked down on younger men who smoked cigarettes as weaklings or worse.

No woman who valued her reputation would think of going out in public unless she was firmly girdled by the sanctuary of a tight-fitting corset.

The only thing most people knew about the planet Mars

was that it had canals on it — and now that has turned out to be wrong.

Any political candidate who wore sideburns was regarded as a leftover relic from the 19th century.

Everyone felt the neighborhood would go down when the first guy in the block let it be known that he had put one of those new-fangled rumpus rooms in his basement.

A man could go through his whole life and never buy more than one pair of shoes or one necktie in a single day.

Children were just the opposite of what many are today. They had dirty ears and clean minds.

Those were the days — remember?

Don't Bother

WEATHERSFIELD, Vt. (AP) — According to recent advertisements, if you want to know a zip code number, call your post office. The people in Weathersfield don't bother trying. The post office doesn't have a telephone.

The Money Draft

Art Buchwald

WASHINGTON — As the war comes to an agonizing, screaming halt, great minds are at work in this country trying to figure out a way we can avoid getting ourselves into such a mess again.

MANY SOLUTIONS have been offered. My favorite is the Haak Plan, suggested by Leo Haak of East Lansing, Mich.

Mr. Haak told me, "The reason the war lasted so long was that only the young people in the country were truly involved in Vietnam. While the rest of the country grew rich and fat, this small minority of the population, with no political clout, was shipped off to Indochina to hold back Communist aggression. This made it rather easy for the rest of the Americans to show no urgency to end the war."

"That's true," I said. "But what do you propose?"

"The Haak Plan provides that if you draft young men to fight a future war, then you must also draft the money of the men too old to go, to pay for it."

"How would it work?"

"When a man became 40 years old, he would register for a wealth draft. His peak earning years are from 40 to 55, just as the peak physical years of a young man are 18 to 26. A lottery would be held and the man would be assigned a number according to his birthday. Those with low numbers would have to turn over all their money to the government to finance the war."

"THOSE WITH high numbers could go about their lives just as young men with high draft numbers go about their business without fear of being called up."

"Would you have draft boards?" I asked.

"Yes," Haak replied. "They would

be composed of young men under the age of 26."

"Why young men?" I asked.

"Well, you have older men sending off young men to die in a war, so you should have young men deciding who must give their money to pay for it. The draft board could give exemptions in hardship cases and deal with conscientious objectors."

"By conscientious objectors you mean those who refuse to give money to a war because it's against their religion?"

"Yes, exactly. If a man can prove he is a serious conscientious objector, we would let him donate his wealth to a hospital or an educational institution."

"WHAT ABOUT MEN over 40 who would flee to Canada to avoid having their money drafted?"

"The Haak Plan does not provide for amnesty. We think it's the patriotic duty of every American to proudly serve his country, if not with his body, then with his fortune."

"How much of his fortune?"

"Everything," Haak said. "When we draft young men we ask them to give up everything, don't we?"

"It sounds like a crazy plan," I said.

"No crazier than what we've been doing for 10 years. Had the Haak Plan been in effect when we first got into Vietnam, the howls of the money draftees would have been heard from Maine to California. Picture, if you will, millions of well-dressed men in their 40s descending on Washington demanding the President and Congress to end the war. How long do you think any politician could survive if the country were drafting the entire wealth of its middle-age citizens?"

"Not very long," I admitted.

Starch Eater

Your Good Health

Dr. G. C. Thosteson

Dear Dr. Thosteson: I am 50, a widower, and have been a diabetic for nine years. I have been taking two Diabinese tablets and one D.B.I. daily to control my blood sugar. I joined a widows and widowers club which has gotten together dinners and parties. Several times I have taken an alcoholic beverage, just one, and have gotten a reaction. My face gets flushed and my ears get bloodshot and I have to labor to get my breath and I get very sick. I have been told that I am sensitive to alcohol and to taking oral drugs. Which oral drug am I sensitive to? Or does that mean I am sensitive to all drugs taken by mouth? I also enclose 35 cents and

a long, self-addressed and stamped envelope for your booklet, "Diabetes, the Sneaky Disease." — J.J.

You've been told correctly. Some individuals are sensitive to certain diabetes drugs and get a reaction like yours from even one drink.

This doesn't mean you are sensitive to all drugs taken by mouth. These reactions occur with diabetes drugs of the sulfonylurea family — which happens to mean three of the ones that are commonly used for diabetes.

I am not familiar with any such trouble with D.B.I., but the point is that changing from the Diabinese to any of the others wouldn't do you any good.

Sorry, but you'll have to drink to the ladies with a sugar-free pop, tea, coffee or something.

Martha Sanders Visits Lamesa

LAMESA (SPL) — Martha Kay Sanders, 18-year-old daughter of Barefoot Sanders, will visit Lamesa Wednesday between 12 and 2 p.m.

Nothing formal has been planned for the young lady, who is actively helping her father's campaign for election to the U.S. Senate. Barefoot Sanders is attempting to unseat incumbent Republican Sen. John Tower. Earlier this year Sanders won the Democratic nomination for the post in the primary elections, defeating Ralph Yarborough.

According to Ray Renner, local Sanders campaign chairman, Miss Sanders will visit several friends and Dawson County voters during her brief stop here.

Yellow Fever Fears Voiced

HOUSTON (AP) — Unless steps are taken to clear breeding places around the port of Houston of mosquitoes which carry yellow fever the port could be closed in the future, Robert Barnett, director of the Harris County (Houston) mosquito control district, said Monday.

Barnett told county commissioners that the Aedes Aegypti mosquito, which carries yellow and dengue fevers are increasing around the port.

While there are no cases of the fever reported in the United States, he said the diseases are prevalent in some South American countries and Mexico and a sailor coming into the port from those countries might spread the disease.

Agreements between the United States and other countries require that ports of call be kept free of the pest so the fevers will not be transported across international borders.

Because the mosquitoes breed in artificial containers, Barnett said, the usual spraying process is ineffective.

City county and port authorities should draw up plans as soon as possible to eliminate breeding sites of the mosquito in the port area, he said. Since the mosquito is capable of traveling only 150 yards in its lifetime, he said, the cleanup area would have to extend only 400 yards from the port.

He attributed the spread of the mosquitoes to an increasing number of abandoned tires along roads and streets.

The city has stopped picking them up with garbage, Barnett said, and since they are hard to bury most sanitary landfill operators no longer will accept them.

Area Man Will Help To Draft Farmer Policy

Ronnie Deatherage of Tarzan and Wilburn Bednar, Garden City, will be in Waco on Nov. 13-14 to participate in preparing a rough policy draft for consideration by delegates attending the 60th annual Texas Farmers-Union state convention. The farm organization's annual convention will be held at the Inn of the Six Flags in Arlington, Texas on December 7-9. At that time, the rough policy draft will be given thorough consideration by delegates representing approximately eighty Texas counties.

Deatherage and wife Jostie have three children and are active farmers in Martin County. Deatherage farms 1600 acres, of which cotton and milo are his principle crops, as well as running a cattle operation. Deatherage is currently the President for the local Farmers Union organization, is active in the Flower Grove Baptist Church.

Bednar and wife Bonnetta have three children and are active farmers in Glasscock County. Bednar farms 1500 acres, of which cotton and milo are his principle crops, as well as running a cattle operation. Bednar is currently the president for the local Farmers Union organization, is active in the Church of Christ, Local Draft Board, Secretary on Board of Directors of Glasscock County Cooperative Gin, and several cotton commodity organizations.

Texas Press Women Support Continuing 'Professionalism'

By JOE BRIGHT

"I hung by a spider's thread; no one knew if I'd get one vote or six, least of all me," recalled State representative Frances (Sissy) Farenthold when she was guest speaker for the 80th annual convention of Texas Press Women, held Friday through Sunday at the Highlander Inn at Burnet.

"Things have happened since the campaign that we didn't anticipate," continued Mrs. Farenthold. "We've seen some changes in women's attitudes in regard to politics, and an impressive increase in the percentage of women delegates to both national conventions. The figures reflect a new awareness in women, and this comes out in a new assertiveness. The myth that women will not support other women has been dispelled, but I hasten to add that no one woman represents all women."

"During the past six weeks, I have been in 22 states campaigning for the national Democratic ticket, and I have seen women's participation that is long overdue. Women all over the country are following the campaigns and women candidates. Being a woman is, of course, not a necessary quality but, at the same time, it should not be a hindrance in the political arena. Politics is no longer considered unfeminine for a woman. We're all concerned about our government."

"A free press is as essential as any other element to the kind of government we say we want to preserve," Mrs. Farenthold, who urged support of Amendment 7, and voiced opposition to Amendment 4 as proposed, received a standing ovation from the press women and a number of distinguished guests who attended the banquet.

The pre-convention events included a tour Friday of the Lyndon B. Johnson Library and School of Public Affairs in Austin, and after registration at Burnet, Edith King of District 7, the host area, was featured in "An Evening with Edith."

HATS OFF — It was "hats off" to Frances (Sissy) Farenthold and other women political candidates during the Texas Press Women's convention over the weekend. Shown at the dinner where Mrs. Farenthold was guest speaker are, from left, Mrs. Danella Parnell, Fort Stockton, Dist. 2 president; Mrs. Martha Henphill, Beaumont, state president; and Mrs. Jo Bright, Big Spring, newest member to TPW.

Martha Henphill of Beaumont, TPW president, presided for the "Early Bird Edition" opening session Saturday, with Marge Miller, program chairman, speaking on "Professionalism: Attitudes and Motivation."

The morning's first panel, "Continuing Education and the Professional Communicator" was moderated by Holly Wood, editor of the Seguin Enterprise. The panelists were Dr. Alice E. Whitley, director, College of Continuing Education for Women and Men, University of Texas at Austin, and Maxine Elam, executive director, Theta Sigma Phi, national headquarters, Austin.

Dr. Whitley discussed "The Fringe Benefits of Education,"

Phillips Reunion At Fair Barns

About 65 descendants of the late Mr. and Mrs. (Lora Ethel) J. J. Phillips met for a family reunion Oct. 21 in the Howard County Fair Barns. In addition to direct descendants, there were 14 nieces and nephews and six guests in attendance.

Those present spent the afternoon playing games and visiting. Attending from Big Spring were Mr. and Mrs. V. E. Phillips, Mr. and Mrs. Charles Ray Phillips, Mr. and Mrs. Raymond Phillips, Mr. and Mrs. Ervin Bridge, Mr. and Mrs. Mike Bridge, Mrs. Sandra Pannell, Mr. and Mrs. Melvin Choate and Mr. and Mrs. Milton Newton.

pleasure, she will find that literacy is not enough.

"It is then she'll be liberated to appreciate all types of people, can gain from those she opens herself to, and she'll become increasingly irritated with gossip and unkindness. She will encourage other women and will realize that work should have the dignity of being a spiritual force. And she will know that women who have not prepared themselves are doomed to long years of loneliness."

"The older woman student will expand her capacity for wit and wisdom, and she will have a new tenderness associated with understanding, as well as the uses of delight and joy. Getting to know ones self is seldom done without tears, but when one overcomes the human aversion to thinking, boundless growth is possible. Woman has been a victim of the ages, fearful of failure but yearning, and now she is emerging as a responsible force in the world. The purpose of continuing education is to free and guide the mind."

The second panelist, Mrs. Flam viewed "The Professional Image" of the Woman Communicator" noting that the difference between amateur and professional is in attitude.

"An amateur participates when he feels like it, but a professional has consistency of attitude," she said. "We are seeing more and more women emerge as professionals, but what we see now is only the tip of the iceberg. There is an increasing consciousness of what is required to be a fulfilled woman, and women must have the choice of rewarding and challenging work to make use of their potential as equal citizens. Women are doing professional jobs today without the pay they deserve, and only about one per cent of women in newspaper, radio and television today have been allowed to rise to top managerial levels."

"There is not one job in communications that a man can do that a woman can't do as good or better."

(NOTE: Excerpts of convention speeches by Dr. Dewitt Reddick, Dean Emeritus and Professor, School of Communication, Department of Journalism, University of Texas at Austin, and Richard J. Samson, managing editor, Austin American-Statesman, will appear in Wednesday's Herald.)

Open House Hosted By T. Salters

More than 100 guests attended an open house Sunday afternoon in the home of Dr. and Mrs. Thomas Salter, No. 8 Coachman Drive. Dr. Salter is president of Howard County Junior College. Members of the board of trustees, administration and faculty at the college were invited.

Hostesses were Mrs. Charles Hays and Mrs. Ralph Smith. Decorations were done in a Halloween motif. The refreshment table was decorated with an arrangement of yellow gladioli and orange carnations with accent figurines of black cats and witches.

Retired Teachers Luncheon Slated

All retired and former teachers in the area are invited to attend a Retired Teachers luncheon meeting Nov. 6 during the District 18 Texas State Teachers Association Convention at the Regal Inn, 3838 W. Wall, Midland.

Mrs. Grace Carter Keeling of San Antonio, state director of National Retired Teachers Association, will be the featured speaker. Reservations may be made through Thursday by calling Mrs. Mary Kathryn Cox, Midland, 694-7145, or Mrs. Ruth Wenck, Midland, 694-7226. Luncheon price is \$3.

Swim Can Rules Are "All Wet"

In case you haven't noticed, the swimming cap is supposed to be going the way of all those things over the hill.

The American Public Health Association no longer recommends their use in pools.

Caps originally were mandatory. Wearing them reduced hairy deposits in pools' recirculatory pumps.

China's 'Lib' Version Is Controlling Births

By ALTON BLAKESLEE

AP Science Editor
SAN FRANCISCO (AP) — The Chinese version of "women's lib" is helping control births among the 800 million people of China, the world's largest population, says Dr. Lin Ch'ou-chih.

Ninety per cent of Chinese women now are engaged in work or study, rather than staying home and bearing many children, she says.

Dr. Lin, 71, a gynecologist, is one of 12 physicians from the People's Republic of China who today will wind up a nearly three-week tour of medical institutions in the United States.

All were guests Monday afternoon at Syntex Research in Palo Alto, Calif., one of the

world's major producers of contraceptive chemicals, and questions put to the visitors in the main concerned China's practices in planned parenthood.

"Before liberation, it used to be the family wanted lots of children," Dr. Lin said. By liberation, she made clear she meant the formation of the People's Republic, but in her remarks in other cities the physician has also indicated she has meant a different role for women.

Infant mortality formerly used to be "very high," but "now has gone down tremendously. Mothers and grandmothers once wanted to have 10 children so that two would survive," but changes in pre-natal and allied health care

are keeping more infants alive," Dr. Lin said. Another factor in China's efforts to control population is that all contraceptive devices, whether "the pill" or intrauterine devices, or operations to tie off a woman's tubes, are free.

Still another factor is the present trend for later marriage, with rural girls delaying marriage to the age of 19-22, and city girls "not marrying until 23 to 25, or among the highly educated many do not marry until age 30," Dr. Lin said. Previously in the countryside girls married as early as 14 to 15, she said.

There is some concern in China as well as elsewhere about side effects from birth control pills, but Dr. Lin said most of the complaints seem to disappear after a few months of use.
