

BOMB PRINTING PLANT Dubliners Reject Plea For Demonstrations

DUBLIN (AP) — Dubliners rejected an appeal from IRA commander Sean MacStiofain to take to the streets in protest against his detention. Less than 500 turned out for a rally Thursday night held by Sinn Fein, the political arm of the outlawed Irish Republican Army.

"In the name of God, I want the people out on the streets protesting on my behalf," said the guerrilla chieftain in a statement issued by his attorney. The failure of his appeal reflected an apparent groundswell of anti-IRA feeling in the Irish Republic, once the underground army's sanctuary in its war to drive the British from Northern Ireland.

FIERY ORATORY
On Wednesday night, only 2,000 to 4,000 of Dublin's 600,000 people turned out for another protest rally, and it had Bernadette Devlin's fiery oratory as an attraction.

Opposition is growing in the republic to the bloody bombing campaign that MacStiofain's Provisional wing of the IRA is waging in the North. The belief is also spreading that unless the guerrillas are crushed, their attacks will spread to the South.

The Dail, the Irish parliament, was expected to vote tonight on a government bill increasing its powers

against the IRA, and there were signs that the opposition Fine Gael party was ready to compromise after two days of heated debate.

Fine Gael for a long time has pressed Prime Minister Jack Lynch to take tougher action against the IRA. But it charged that the new legislation, which puts the onus of proving innocence on those charged with being IRA members, goes too far.

HUNGER STRIKE
The government on Thursday gave Fine Gael an ultimatum — support the bill or Lynch will dissolve the Dail and call an election before Christmas. Political observers believe Lynch's Fianna Fail party would win handily on the law and order issue.

MacStiofain, sentenced last Saturday to six months in jail, continued the hunger strike he began 12 days ago. He is in a military hospital, and there was no indication that his condition was any worse.

In North Ireland, meanwhile bombs wrecked a printing plant in Belfast and a community center in Lurgan, but no one was hurt. A 20-year-old man from the republic visiting friends in the border village of Clady was shot in both legs by a group of men believed to be Protestants.

Viet Envoy, Kissinger Meet For Fourth Time

WASHINGTON (AP) — South Vietnam's special envoy, Nguyen Phu Duc, met for the fourth time today with national security adviser Henry A. Kissinger on the final shape of a U.S. Vietnam peace settlement.

The meeting was announced at the Florida White House in Key Biscayne by press secretary Ronald L. Ziegler, who said Saigon's ambassador to Washington, Tran Kim Phuong, also participated in the session.

Ziegler said Kissinger will fly to Florida Friday night and see

President Nixon there Saturday.

DUE TO FLY
Kissinger is due to fly to Paris Sunday to resume peace talks with Hanoi's Le Duc Tho.

Asked if Duc might accompany Kissinger on the Paris flight, Ziegler said, "I don't anticipate they will fly together but I don't know for sure."

Ziegler, asked about a broadcast report that Nixon has told South Vietnam to go along with the proposed peace settlement or face the loss of U.S. economic aid, replied: "I would cate-

gorize it as rumor and speculation."

Ziegler declined to confirm or deny a report that Nixon has agreed to meet with South Vietnamese President Nguyen Van Thieu after a settlement.

There were indications the United States is growing impatient with Saigon's misgivings about the proposed peace pact and may not wait for South Vietnamese to give approval before signing a final agreement with the North Vietnamese.

Informed sources said Saigon is not now ready to initial the modified draft agreement worked out between Kissinger and the North Vietnamese in secret Paris talks.

Nixon, who along with Kissinger, met with Duc twice before flying off to Key Biscayne, Fla., Thursday, is reported as determined as ever to settle the Vietnam war on honorable terms as quickly as possible.

Before his meeting with Duc, Thursday, Nixon also called in the Joint Chiefs of Staff for

what deputy press secretary Gerald L. Warren called "a review of the entire situation in South Vietnam."

WITHDRAWALS
Kissinger is scheduled to join the President in Florida today whether or not there is a fourth meeting with Duc.

The White House and the Pentagon said, meanwhile, there will be no formal announcement in the future of large troop withdrawals from Vietnam, although the Pentagon said small withdrawals would continue.

BIG SPRING HERALD

Price 10¢ Vol. 45 No. 156 BIG SPRING, TEXAS (79720), FRIDAY, DECEMBER 1, 1972 20 Pages 2 Sections Price 10¢

Big Changes Develop Since 'Peace At Hand'

WASHINGTON (AP) — Five weeks have passed since Henry A. Kissinger said "peace is at hand" in Vietnam. That passage of time seems to have brought only confusion and shadow about the real chance of a settlement.

The one thing that is clear is the war. It goes on much as it did before the Oct. 26 disclosure by the North Vietnamese and Kissinger of a nine-point tentative ceasefire agreement.

42 WOUNDED
From Oct. 29 to Nov. 5, the last period for which figures are available, 27 U.S. servicemen died in action, 42 were wounded and nine confirmed taken as prisoners of war.

U.S. B52s resumed raids in North Vietnam and Hanoi's forces kept up steady pressure

in the South. The United States counted a B52 among the 28 aircraft it lost in the fighting, the first time one of the giant bombers was shot down.

The fighting keeps on even though Kissinger coupled his peace-at-hand assessment with another saying an agreement could be reached in one more meeting with North Vietnamese negotiator Le Duc Tho, "lasting three or four days."

That meeting took place in Paris from Nov. 29 to Nov. 25 without a final agreement. The next step will be resumption of the Kissinger-Tho talks Monday.

PROMISE
Here is an account of some of the major changes and other developments between the Oct. 26 announcements and Kissin-

ger's departure this weekend for Paris.

Almost immediately after Kissinger gave the American view to newsmen, North Vietnam opened a dispute by saying there was no need for a new round of talks. Hanoi charged President Nixon with reneging on a promise to sign an accord by Oct. 31.

The United States denied such a promise and pledged not to be forced into a settlement that was not just. Hanoi said the United States should sign by the 31st or see the agreement fall.

In the time from Oct. 26 to Oct. 31 the South Vietnamese started developing what became one of the most important aspects of the peace effort and made Saigon at times appear more of an adversary than Hanoi.

NO SETTLEMENT
On Oct. 27 South Vietnamese President Nguyen Van Thieu said he would accept no ceasefire without a total withdrawal

from his country of all North-ern troops.

The following day Tran Van Lam, Saigon's foreign minister, added a call for re-establishment of the demilitarized zone at the 17th parallel.

Neither of these conditions is addressed directly in the tentative agreement.

Oct. 31 went by with no settlement, but U.S. officials began what continues to be the official line—they were confident

Astronauts Pass Physical Exams

CAPE KENNEDY, Fla. (AP) — Apollo 17's astronauts received their final major physical examinations today while the space agency said there was a chance that a threatened strike by 60 documentation workers could force a postponement of the moon launching.

However, most NASA officials felt the odds were low that a strike would affect the launching, scheduled Wednesday night.

an agreement would be reached soon.

About that time the military actively stepped up with the North Vietnamese and Viet Cong evidently trying to pick up as much territory and population control as possible in the event of a quick ceasefire.

The turn of the month also saw the outlines of the plan for an international commission to supervise a ceasefire.

The B52 raids resumed in the North and an enemy concentration below the DMZ. The United States also began increasing shipments of military supplies to South Vietnam to strengthen Saigon's forces.

WARNING
By Nov. 5, a shift in Hanoi's thinking became public when Xuan Thuy, a leading North Vietnamese negotiator at the Paris peace talks, said his government was "not creating any difficulties about a further meeting."

He did warn that Hanoi would not accept any effort by Kissinger to negotiate substantive changes in the previous draft accord.

Schultz To Remain In Treasury Post

KEY BISCAYNE, Fla. (AP) — The Florida White House announced today that George Schultz will remain as secretary of the Treasury in President Nixon's second term and will have chief responsibility for coordinating all economic policy as a presidential assistant.

Press secretary Ronald L. Ziegler announced the unusual move to have a Cabinet member serve simultaneously as a member of the White House staff and said Schultz will be chairman of a new Cabinet-level Council on Economic Policy.

Talking to newsmen here, Schultz acknowledged that, in some respects, he will play in economic affairs a role similar to that assigned in foreign policy to presidential assistant Henry A. Kissinger.

Ziegler made two other announcements in the economic

area: Herbert Stei, will retain his post as chairman of the Council of Economic Advisers and Nixon assistant Peter M. Flanagan will continue as chairman of the Council on International Economic Policy.

Schultz, who served as secretary of the Office of Management and Budget before becoming Treasury secretary earlier this year, said the new economic council he will head will be composed of chiefs of the Labor, Commerce, Agriculture, Transportation and State departments, the Office of Management and Budget, Council of Economic Advisers, Cost of Living Council and Council on International Economic Policy.

He told reporters, however, that much of the council's work will be done by working groups composed by agency representatives who may rank below Cabinet level.

The Treasury chief said he will have an office in the White House and "a very small staff."

Alien Says He Shot Man

LAMESA — Juan Abila, 21-year-old Mexican alien, has been jailed here, charged with murder in connection with the death of Daniel Munoz Martinez, 47, of Welch.

Abila walked into the Lamesa police station at 3 a.m. today and told them he thought he had shot a man and gave them the location of the shooting.

Dawson County sheriff's officers went to the farm house northwest of Welch and found Martinez, lying dead on the floor from a gunshot wound in the chest, with a .22 calibre gun, according to Chief Deputy Bill Horton. Martinez had apparently been dead about five hours.

The men worked on the same farm. Martinez has been a Dawson County resident for several years, having moved there from Roma.

Odessa Firm Has Apparent Low Bid For YMCA Work

Basin Construction Co., Odessa, submitted the apparent low bid of \$147,000 for construction of a 5,500 square foot addition to the Big Spring YMCA, it was revealed at a bid opening Thursday afternoon.

The board of directors is expected to award the contract at a meeting starting 5:15 p.m. Monday in the Robert Piner Room. They will consider four bids.

Next lowest bidder was Snody Construction Co. at \$148,000. Snody gave the shortest time period needed for construction, 180 calendar days compared to 210 for Basin.

Kasch Brothers Inc., Big Spring, offered to do the work in 249 days for \$157,400, and

D. D. Johnston Construction Co., Big Spring, proposed to accomplish the task for \$169,500 in 220 days.

The Y plans to add a women's exercise room, a men's exercise room, and also men and women locker rooms, which will be separate from those for girls and boys.

Easily accessible to the exercise rooms will be a health service center of steam baths, sauna baths, a therapeutic pool and massage facility.

Separating the shallow teaching pool from the existing pool will be a moving door. Removing a partition dividing the existing women's exercise room and snack bar will double snack bar space.

IN THE ARMS OF THE LAW—Linda Starkey, 22, one of the Wells Fargo Bank employees held hostage during robbery and chase Thursday, is carried away from the capture scene by a police officer. The young lady and another employee, Nancy L. Valentine, were forced into an auto by two men police said robbed the bank. Neither were injured and the robbers were captured. The robbery occurred near San Jose, Calif.

HS Play To Open

John Holloway and Kim Paxton have the featured roles in the play, "Flowers for Algernon," which will be presented in the high school auditorium for two nights beginning at 8 o'clock this evening.

The Drama Department of Big Spring High School is presenting the two-act play, which last about two hours. Others in the cast of 18 include John Lipscombe and John Hicks, who portray the doctors who operate upon the featured male actor.

The play is based upon the best seller of the same name, from which the prize winning movie, "Charley," sprang.

Admission prices will be \$1.25 for adults, 75 cents for students and 50 cents for children of preschool age.

The high school drama teacher is Georgia Martin. Proceeds from the play will be used to defray departmental expenses.

Skills General

SAIGON (AP) — A plane carrying four crewmen and a joint 18-man U.S.-Vietnamese team visiting refugee camps crashed in bad weather on the central coast today, killing seven persons including a Vietnamese general. The 15 others were injured.

Man, That Was Close!

ST. LOUIS (AP) — Police patrolman Lawrence Freeman, a witness in a case, approached the bench when his name was called in the Court of Criminal Corrections.

"How do you plead?" Judge David Fitzgibbon asked the startled policeman.

"But, your honor, I'm not here to plead. I'm Freeman protested.

"What do you mean?" the judge said. "You're Lawrence Freeman. You're charged with robbery."

The conformation ended when a second Lawrence Freeman, late in arriving, stood up to face the charge.

Cease-Fire Directive

SAIGON (AP) — Premier Tran Thien Khien has issued a secret directive to Cabinet ministers and other department heads telling them to prepare for a cease-fire, official South Vietnamese sources said today.

These sources reported the directive was circulated a few days ago but they did not know whether it was tied to meetings in Washington between President Nixon and Nguyen Phu Duc, a special emissary of President Nguyen Van Thieu.

Reports from Washington said there were indications that the United States is growing impatient and may not wait for its South Vietnamese ally to approve before signing a final peace agreement with the North Vietnamese.

Holiday Offer Is Made By Herald

By subscribing to The Herald for the annual special rate of \$23.10, now being offered; one actually pays for only 11 months. He gets the 12th month free. Furthermore, the paper is delivered to his door.

DIG THIS QUIET VILLAIN

Jack Palance Abhors Violence

By JAMES MEADE
Copy News Service

HOLLYWOOD — Jack Palance is a private man who prefers to keep his thoughts to himself, a privilege hard to come by for a public performer. Although Palance tries, an impromptu set-side interview can be like a telephone conversation with a busy signal.

Palance set the modern standard for villains in his hired gunfighter role in "Shane" (1953). He received an Oscar supporting nomination for that

and "Sudden Fear" (1952). Palance has an Emmy and a Sylvania Award for portraying Mountain Rivera in television's "Requiem for a Heavyweight" (1965).

PRIVATE LIFE

Like most movie villains, Palance in private life is an erudite, soft-spoken gentleman who abhors violence. His avocations are salad-making, antiques and accompanying himself in a self-written ballad on a guitar.

He has cut a Warner Bros. album, "Palance Sings."

Currently Palance is portraying in Dickensian black frock coat, bowler hat and bow tie — a tough enforcer hired by a major oil company to buy or beat Faye Dunaway out of her gusher. The picture is "Oklahoma Crude" being filmed near Stockton, Calif., by producer-director Stanley Kramer and Columbia Pictures. "Villains can be effective

when played quietly. It depends on the heavy," Palance said. "A quiet villain can be more dangerous because he has time to think, too."

"Villains in today's movies do the same things the old-time heavies did but they get away with it," Palance said. "It used to be that movie villains had to pay for their wrongs, usually by dying. Now they can do almost anything in real life, too, with the death penalty abolished by the courts."

Even so, Palance has some ideas of roles he would like to play and they include "Richard III" and "Lincoln in Illinois" on the stage. Palance said production depends upon his making up his mind to do them.

"Production would be no problem," Palance said. "The producer interest is there."

"I'd also like to portray Jesus Christ as man. There's no rule that says He's got to be esthetic

and walk around with the vestiges of a halo. I don't like Jesus being portrayed as weak. It could be done in any period, including the Crucifixion."

"John Barrymore Jr. had an interesting idea about playing a physical Christ," Palance said. "Barrymore concluded Christ and Judas could be played as one, a combination of good and evil. No one ever saw them together."

School Switch

HOUSTON (AP) — Houston Baptist College's name will be changed to Houston Baptist University next June 1.

Trustees of the institution, which opened in 1963, also announced the school will switch to a four-quarter system.

'OKLAHOMA CRUDE'

Other interests are the Lancaster, Pa., farm where he was born and his ranch near Bakersfield, Calif., Hollybrook. First and foremost, however, are his children. Daughters Holly, 22, and Brook 21, reside in London where Brook is studying acting. Son Cody, now in high school, also is aiming at acting.

Named Editor

CONROE, Tex. (AP) — W. R. "Dick" Laughlin, news editor of The Daily Courier since May, has been named managing editor of the newspaper.

Willis Webb, Courier editor, said Laughlin succeeds Tom Bacon, who has been named press aide to U.S. Rep-elect Charles Wilson. Bacon will remain with the paper through Dec. 23 on special assignment and as editorial advisor.

FATALIST

"I try to get her (Miss Dunaway) to sign for \$5,000 plus 10 per cent," Palance said. "She answers that she'd lose money since she already owns 100 per cent."

When asked what roles he would like to play, Palance replied, "I'm fatalist enough to know that I'm not going to get the great roles — they go to a handful of people of whom I am not one."

Will Retire

HOUSTON (AP) — Clifford Potter, regional director of the National Labor Relations Board here, will retire next month.

Potter, 64, was the first man to join the Houston office of the NLRB when it was created in 1948. He has been regional director since 1959 of the center, which handles labor-management disputes in a 79-county area.

Tant Lindsey Gave Tarzan Its Name

By MARJ CARPENTER
Tarzan, Texas 79783. That's the way the sign reads on the front of the Post Office.
Most persons who quickly pass through the small town pause a second to wonder "Why is it named Tarzan?"
There's nothing junglelike about the small West Texas town located halfway between Big Spring and Andrews.
There's no zoo, no trees, no swinging vines, no Tarzan, or Cheeta and no Jane.
NOW DEAD
Tant Lindsey, early citizen who built a store there in 1924 which held the first Post Office, named the town. Lindsey died in Tarzan in recent months.

Citizens recall that he had to have a name for the town to have mail delivered to the Post Office. Lindsey submitted several different names that he thought were suitable. He kept getting notices, "You can't name it this and you can't name it that. Texas already has a town by that name."
Finally, he came up with the name "Tarzan". "Nobody would name a town that," he added.
Later, around 1952, a post office was built on the highway. Mrs. Doris McMorris is postmistress and Mrs. Joe Glaze is an assistant clerk.
Across the highway lives Jesus Brisen, a fixture in the

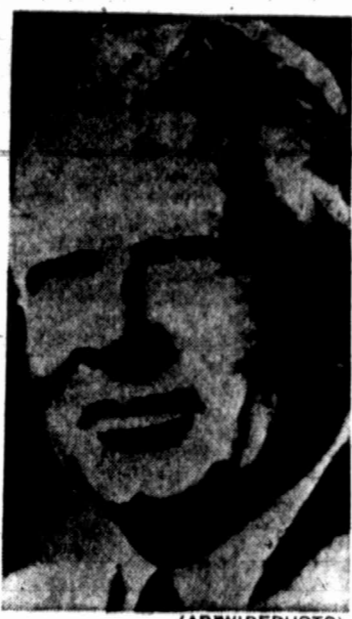

area since 1928. He recalls that the school, Grady Elementary, which is located halfway between Tarzan and Lenora was named for Grady Standifer who sold the land to the school district and then moved away.
Several areas in the heavy farming area combined for the school including Wooland, Walcott, Valley View, Moorhill, Lenora and Tarzan. They didn't have enough persons who wanted a high school, so students have a choice of going to Stanton or Flower Grove for secondary school education.
The town of Tarzan is quite small, so they do a lot of their shopping elsewhere.
SHOP HERE
"We have a wide choice," one Tarzan citizen declared. It's almost equal distance to Big Spring, Midland, Lamesa, or Andrews and a little closer to the county seat of Stanton.
"A lot of times, we shop in Big Spring," one old-timer stated. "We've gotten into that habit." Whatever the reason for the name of the town, Tarzan citizens are satisfied with it.
They are satisfied with rural life, too. "It's quiet out here. We're safe walking down the road. We have close ties and friendships. And it's not too far to several towns. Living in Tarzan's all right."

Residents Fret Over Crossings

STANTON — Stanton citizens are concerned about their railroad crossings.
For the second time in a month, the Jaycees have held a meeting to discuss possible safety measures for the crossings.

Last month two persons were killed in a railroad crossing accident inside the city limits.
Last Tuesday, a truck driver from Midland was seriously injured in another railroad crossing accident.
They have had one meeting with the city council and railroad officials and discovered the high cost of blinking lights. They are trying to find another answer.
One civic group is advocating trying to seek state or federal funds for an overpass.
In the meantime, there are other crossing problems. Just yesterday morning, a Booth Services truck out of Houston pulling a trailer with a piece of heavy equipment on it hung on the crossing on the Garden City highway as he was entering Stanton.
The trailer with the dozer on the back was sitting across the tracks and wouldn't go forward or backward.
The driver was out of the truck placing boards under the trailer such as are used to get out of the mud and was struggling against time to get unhinged from the track. He made it ten minutes later, a train whistle sounded out as it passed the crossing.

Several Webbits will be putting on their first stripe, since most airmen are graduating from Basic Training now with no stripes. They are: Nancy L. Rowe, Lewis R. Dillon Jr., Scott D. Morton, and Gary M. Roth.
Adding their second stripe as airmen first class are: Phillip J. Vilar, David C. Garyson, Robert M. Wadle, Mark C. Lester, Robert M. Sexton, Richard D. Axlerad, Larry D. Wilson, Daniel S. Ashton, Gary

McELROY DIES — Neil McElroy, 68, former U.S. Secretary of Defense in the Eisenhower administration and president of Procter & Gamble Co., died late Thursday night in Cincinnati.

Seventy People At Webb Are Given Promotions

Santa Claus is coming to Webb with a sack full of new stripes and silver bars. He's scheduled to visit Webbits who will enjoy promotions in December.
Twenty-nine officers will trade new rank for old, while 41 enlisted personnel are going to add stripes.
Topping the enlisted promotions was Richard D. Rogers of Field Maintenance, who will jump to technical sergeant.
Staff sergeant stripes will go to Ronald G. Stancill, James E. Harvey, Charles D. Kenner and Vernell C. Martin.
To be sergeants are: Ronald K. Slater, Michael C. Monohon, David M. Balkus, Luther V. Yale Jr., Robert F. Hull, Lester L. Laursen, Terry A. Bostic, Jimmy W. Barber, Lionel Valdez, Venerand D. Calleyo, Evere L. McClintock, Claude J. Owens, Jack J. Yarbrough, David P. Adams, Bruce A. Hanley and Huey T. Taylor.
Several Webbits will be putting on their first stripe, since most airmen are graduating from Basic Training now with no stripes. They are: Nancy L. Rowe, Lewis R. Dillon Jr., Scott D. Morton, and Gary M. Roth.
Adding their second stripe as airmen first class are: Phillip J. Vilar, David C. Garyson, Robert M. Wadle, Mark C. Lester, Robert M. Sexton, Richard D. Axlerad, Larry D. Wilson, Daniel S. Ashton, Gary

A. Mickleson, Guy M. Landry, Richard L. Villareal, Daryl W. Sprague, Michael D. Donley, David R. Faust, Edward T. Padilla Jr., and Jay L. Beam.
In the commissioned ranks, promoted to captain are: Jeffrey P. Muchow, Dennis M. Howard, and William J. Seitz.
To be first lieutenants are: Ronald C. Hill, Richard B. Waite, Jon H. Zwanziger, Nathan R. Bard, Jr., Patrick McCullough, David C. Murchison, Thomas G. Backley, Howard K. Simmons, John G. Kelly, Thomas A. Watson, Richard E. Gausmann, James R. Hooper, Gary C. Huckaby, John R. Kramer, Mac L. McCrory, Jr., Anthony Nardecchia, Mark A. Stevens, Roland Vandenberg, Thomas A. Natson, David A. Anderson, and Robert C. Brown.
Also Douglas J. Hearne, Ronald W. Herre, Russell Huffer, David S. Reay, and James G. Weaver.

Report Is Delayed

Mrs. Arthur Vickers of Atlantic Richfield Oil Co. in Coahoma informed the sheriff's office Thursday afternoon that a tubing head worth \$258 was stolen. The theft occurred the night of Nov. 17 at a Texas Lang Mortgage well.

Gas Firm Buys Rights

Pioneer Natural Gas Company announced today that the company has acquired the right of purchase of over \$80 million worth of natural gas from 60,000 prospective acres in Ward, Reeves, Loving, Winkler, Crane and Pecos counties in the Delaware Basin of Texas.
"Pioneer is confident that the acreage will contain more than the 200 billion cubic feet dedicated to this right of purchase," said Burton P. Smith, president. He pointed out that in addition, the series of contracts with a producer provide for the purchase or exchange of an additional 18 million cubic feet per day of existing production.
"These contracts, together with other previously dedicated but undeveloped acreage in the same general area, will constitute a major addition of future reserves to the gas supply of Pioneer," Smith said.
It was further stated that Pioneer has advised the Texas Railroad Commission by letter that the company foresees no unusual curtailments in the near future.

Kiwanians Plan Christmas Party

Kiwanians — if they recover in time from their Saturday football game with the Key Club — will have their annual Christmas party at the Westside Center Dec. 14.
The regular club meeting that day will be at the center.
This Saturday Kiwanians will take on the Key Club members, who are high school lads, in a pass-and-touch football game at Blankenship field.
Since this was Key Club Week, two Key Clubbers, John Taylor and Bill Sanders, put on a skit "Guests for the day" included a delegation from the Kiwanis club on an inter-club visit; also Dr. Ross Reagan; Oklahoma City, Ronnie Jordan, Midland, and Jack Williams of the Aflene Key City Club.

Three From Here Attend Meeting

Bruce Griffith, county agent; Ronnie Wood, assistant county agent; and Miss Sherry Mullin, home demonstration agent, will be attending a state-wide meeting of Texas Agricultural Extension Service representatives in San Antonio Monday through Friday.
Mrs. Jan Nichols, secretary, will keep the office open.

PT Wing Is Re-Named

The 3560th Pilot Training Wing at Webb AFB will be redesignated the 78th Flying Training Wing on Dec. 1, it was announced today by Colonel Stanley M. Umstead, wing commander.
This change comes as a part of an over-all U.S. Air Force program to preserve unit designations which have a history of combat operations.
The 78th designator was first used by the 78th Fighter Group during World War II, and in later years was reactivated as a fighter wing in the Aerospace Defense Command.
The 78th Fighter Wing continued its mission of air defense until inactivation in December, 1969.

THE HOOT OWL

THE CHRISTMAS PRESENT KIDS OPEN ALL YEAR LONG.

"The Hoot Owl" is America's newspaper for children. By children. And it's a gift kids won't get tired of, because there's a new one every two weeks. That means 26 Christmas gifts for the price of one — only \$6.
"The Hoot Owl" is for kids, but it isn't kid stuff. Their stories have prompted Congressional action in behalf of the American Indian and saved one of the oldest buildings in Texas from being torn down. They sponsored a nation-wide "under 18" Presidential election that received National TV coverage. And they feature a sportswriter whose football predictions have proved to be more accurate than Jimmy the Greek's. You might mention that to Dad.
Harte-Hanks Newspapers act as a big brother to "The Hoot Owl," helping with financial backing and counseling. But the kids speak for themselves. And the list of awards they've won proves they know what they're talking about.
This year, give your kids a Christmas gift that will keep them happy while it helps them learn. Give "The Hoot Owl."

EXTRA! EXTRA!
Order within two weeks and receive a bonus of two special editions.
Send me 26 issues of "The Hoot Owl" for only \$6.
() Enclosed is my check or money order.
() Bill me later.

TIGHT SQUEEZE — Rich Jones (33) of the Dallas Chaparrals is caught in a tight spot as Dan Isell (44) and Artis Gilmore (53) of the Kentucky Colonels go for the ball. The two teams met in Dallas Thursday night, the Colonels took the game 107-102.

Southern Miss U. Snaps Loss String

Let's forget about UCLA's achievements in college basketball for a few minutes and talk about Southern Mississippi. Whereas the national champion Bruins have won 46 in a row, the Golden Eagles from Hattiesburg had lost 31 straight. Until Thursday night, that is, when the Eagles made it all a bad memory by whipping Spring Hill 111-82. Royce Woolever and Glenn Masson each scored 25 points for USM as the Eagles, ahead by only 66-63, went on 12-2 burst to take a commanding lead. The Citadel owns the longest losing streak among major schools with 37 while in the college division Olivet holds longest averse mark at 46. Southern Mississippi's losing streak started with the last six games of the 1970-71 season. The Eagles lost all 24 of their games last year and were beaten by Houston last week in their opening game of this season. Back to UCLA. The country's top-ranked Bruins are heavily favored to make it 47 in a row against the Bradley Braves tonight. Florida State, runnerup to UCLA in the Associated Press preseason poll, opens against Georgia Southern as the new collegiate season goes into its first heavy weekend. Louisville, No. 20 and the only team in the AP Top Twenty to play Thursday, was beaten by Vanderbilt 66-57. In other games, Creighton whipped St. John's of Minnesota 67-48. Pepperdine downed Whittier 88-73 and U. of Pacific tripped Hayward State 102-68 in its last outing before Saturday's clash with UCLA. Terry Compton tallied 22 points to lead Vanderbilt over Louisville. A three-point play by Rod Freeman with 7:12 left put the Commodores ahead for good. All of Louisville's starters were making their first varsity start, but Coach Denny Crum asserted "They're going to get there before the season is over. They have a long way to go as far as poise is concerned." Terry Howard was high for Louisville with 14 points.

Sooners, Cowboys Renew Hot Rivalry

NORMAN, Okla. (AP) — Oklahoma and Oklahoma State collide in the 67th renewal of the Bedlam Series here Saturday, an always heated football contest that has added significance this year. For third-ranked Oklahoma, 9-1, and coming off a thrilling 17-14 conquest of Nebraska, the game represents a chance to win the Big Eight title outright for the first time since 1967. The Sooners also must win to retain any hopes of a shot at the national championship going into their Sugar Bowl clash with Penn State. For Oklahoma State, 6-4, the contest affords an opportunity for a second-place tie with Oklahoma in the Big Eight, a chance for a final-season national rating and the satisfaction of defeating four bowl-bound teams. It would also add icing to a brilliant debut by Cowboy coach Dave Smith. The Pokes clinched their first winning season since 1969 last week by pasting Liberty Bowl-bound Iowa State, 45-14. The victory pushed the Cowboys to 20th in the Associated Press rankings. "The state rivalry is always big but this time it's even bigger," says Sooners Coach Chuck Fairbanks. "It's great. It places football interest in Oklahoma at an all-time high. There's never been more interest in the game since I've been here."

OU ranks first in the conference in rushing yardage with 367.9 per game. OSU is second with 329.1 yards per outing. OU is tops in total offense with 473.6 yards; OSU is fourth with 383.7. Both teams have strong defenses. OU leads the league in rushing defense and total defense, allowing only 91.8 yards per game and 5.9 points. The Cowboys are third in the league in rushing defense, allowing 154.7 yards per game and rank fourth in scoring defense, giving up just 16.5 points each time out. The Sooner attack has Dave Robertson at quarterback, Leon Crosswhite at fullback, All-American Greg Pruitt at right half and Joe Wylie at left half, along with freshman sensation Joe Washington. Robertson, Crosswhite, Pruitt and Wylie will be playing their final game in Owen Stadium. Just the opposite is true for OSU, whose two big offensive guns are junior quarterback Brent Blackman, possibly the nation's best wishbone quarterback, and rampaging George Palmer, only a sophomore. Palmer rushed for 155 yards against OSU and ranks third in the Big Eight behind Pruitt with 844 yards.

Houghton Re-elected WESTBURY, N.Y. (AP) — Billy Houghton, one of harness racing's leading drivers, has been re-elected president of the Standardbred Owners Association, it was announced Thursday.

ROBERTSON, PRUITT AND WYLIE will be playing their final game in Owen Stadium. Just the opposite is true for OSU, whose two big offensive guns are junior quarterback Brent Blackman, possibly the nation's best wishbone quarterback, and rampaging George Palmer, only a sophomore. Palmer rushed for 155 yards against OSU and ranks third in the Big Eight behind Pruitt with 844 yards.

DOWN AND OUT — Piston trainer Harold Shrockre and Dave Bing hover over fallen star center Bob Lanier who was injured on play against Buffalo Braves in the first quarter of Thursday night's game. Lanier, the Pistons' leading scorer and rebounder, was taken to hospital with what doctors called an extension of the neck.

Rodriguez Grabs Lead

LAKE BUENA VISTA, Fla. (AP) — Chi Chi Rodriguez, who has abandoned his role of clown for a more serious approach to golf, was discussing his strategy after establishing the first round lead in the \$150,000 Walt Disney World Open. "Any tournament I'm in," said the 37-year-old Puerto Rican, "I figure there's five guys I've got to beat—Jack Nicklaus, Arnold Palmer, Lee Trevino, Gary Player and Billy Casper. "If I can beat them all the time, then I'll be No. 1."

"That's my goal. I may not make it, but that's what I want." Rodriguez, winner of the Byron Nelson Classic and some \$112,000 this season, took first place in Thursday's rain-plagued first round with a seven-under-par 65. George Archer, a two-time winner this year, and Ed Snead followed at 66. Andy North, a 22-year-old rookie playing in his first professional event, and Tom Kite followed at 67. The group at 68 included defending champion Nicklaus, Mason Rudolph, Frank Beard, Bob Dickson, Steve Reid and Kermit Zarley. Palmer had a 69. Casper, Trevino and Player are not competing in this last event on the 1972 tour.

The round was marred by occasional heavy showers which delayed play on the Palm course, one of two layouts near the Disney World amusement extravaganza. Rodriguez and most of the leaders with the exception of Kite played the 7,222 yard Magnolia course, which will be the site of the final two rounds Saturday and Sunday.

Los Angeles shaded Cleveland 3-2 and Winnipeg skated to a 3-3 overtime tie with Alberta in other WHA games. In the two National Hockey League games scheduled, Boston edged Buffalo 5-4 while Atlanta and Philadelphia tied 5-5.

TIDE MEETS AUBURN Trojans To Host Notre Dame

When unbeaten Southern California plays Notre Dame Saturday it will be the fifth time in nine years one of the two schools has gone into the rivalry with a perfect record. An unbeaten record and high ranking also will be placed on the line at Birmingham, Ala., where second-ranked Alabama will meet once-beaten and ninth-ranked Auburn, while third-ranked Oklahoma will be rooting for Notre Dame and Auburn and trying to get past rival Oklahoma State. The national championship or rankings will not be at stake in Philadelphia, but the service academy title will be when Army and Navy meet in one of college football's fiercest and most colorful rivalries. Louisiana State and Tennessee will be the only other members of The Associated Press Top Twenty playing Saturday, and both will be meeting traditional rivals. No. 12 Tennessee will be at Vanderbilt, while No. 11 LSU will play at Tulane at night.

Notre Dame went into the Southern Cal game with a 9-0 record in 1964, Ara Parseghian's first as Fighting Irish head coach, and was beaten 20-17. In 1970 the Irish again were 9-0, only to have Southern Cal win 38-28. Southern Cal took a 9-0 mark into the 1968 game and had to settle for a 21-21 tie. The next year the Trojans won all of their games but the fifth one—a 14-14 tie with Notre Dame.

Southern Cal is 10-0 this year and headed for a Rose Bowl game against Ohio State. Notre Dame is 8-1 and head for the Orange Bowl against Nebraska. Alabama, 10-0, will have to guard against thinking about Southern Cal losing and concentrating on the task at hand against Auburn, a team that has only one loss against nine victories and one that will be out for revenge. The two schools went into last year's game unbeaten and Alabama won 31-7. Alabama is headed for the Cotton Bowl against Texas while Auburn will meet Colorado in the Gator Bowl. Oklahoma, 9-1 and set for a Sugar Bowl meeting with Penn State, also will have to be on guard against a visiting Oklahoma State team that is only 6-4 but dangerous. The Cowboys beat Colorado and Missouri and last week smashed Liberty Bowl-bound Iowa State 45-14. Army, 5-4, and Navy, 4-6, each have beaten Air Force and lost to Penn State and Syracuse. Army won last year 24-23 and leads the series with 25 victories. Navy has won 31 and there have been six ties. Other traditional rivalries to be renewed Saturday include Georgia Tech-Georgia, Holy Cross-Boston College, Rice-Baylor and Southern Methodist-Texas Christian.

Table with columns: WHA East, W, L, T, Pts, GF, GA. Lists teams like Cleveland, New York, Quebec, etc. with their records and goals.

WARD LEADS WHA Raiders Claim 5-2 Victory

Every time Ron Ward scores a goal for the New York Raiders in the World Hockey Association, he probably mutters, "Shucks." The leading goal scorer in the WHA with 21 has a contract that doesn't include a bonus clause for goals. "Shucks," Ward said after he had scored twice to lead the Raiders to a 5-2 victory over the Minnesota Fighting Saints Thursday night. "I signed as a defenseman and there's no bonus clause for goals in my contract." Los Angeles shaded Houston 6-3, Ottawa defeated Cleveland 3-2 and Winnipeg skated to a 3-3 overtime tie with Alberta in other WHA games. In the two National Hockey League games scheduled, Boston edged Buffalo 5-4 while Atlanta and Philadelphia tied 5-5.

Gerry Odrowski and Bartles has beaten Houston. Crashley each scored a goal and made two assists to lead the Sharks over the Aeros, the fourth straight time Los Angeles. A power-play goal by Steve King on assists from Wayne Carlton and Rick Cunningham, at 4:02 of the third period gave Ottawa its victory over the Crusaders. Ron Walters scored the tying goal in the third period as Alberta erased a 3-0 deficit to deadlock the Jets. Boston extended its unbeaten string to eight games in the NHL when Don Marotte took a pass from Bobby Orr with 2:10 to play and scored the winning goal for the Bruins over the Sabres. Third period goals by Bob Letier and Ray Comeau wiped out a 3-1 Philadelphia lead and earned the Flames their draw with the Flyers. Comeau's tally was his second goal of the game. Bobby Clarke and Bill Flett each scored twice for the Flyers.

Steelers Favored Over Cleveland In Top Central Clash

NEW YORK (AP) — Pittsburgh will crack the Cleveland Browns' six-game victory streak 27-20 in Sunday's showdown, almost assuring the Steelers of a National Football League playoff invitation.

Grinning from last week's 12-1 prediction record, that's our call on the American Conference Central Division showdown where even the loser has a shot at a post-season berth.

Los Angeles-San Francisco is a Monday night game and, being a Steve Spurrier believer from his 1966 Heisman Trophy year at Florida, I go with the 49ers 27-20.

Here's a game-by-game look with a pumped-up percentage of 737 after missing only the New Orleans upset of the Rams last weekend:

STEELERS 27, BROWNS 20 — Pittsburgh hasn't lost at Three Rivers Stadium this year and the combination of Franco Harris' running and a bullish Steeler defense will make me go with them over Cleveland every time.

FORTY-NINERS 27, RAMS 20 — The heat won't get to Spurrier and the guy is a born winner. San Francisco will blow it if John Brodie is returned to duty at quarterback.

PACKERS 17, LIONS 14 — Another showdown and Green Bay will take it on a Chester Marcol field goal. Now doesn't that sound positive?

FALCONS 27, OILERS 10 — Poor Bill Peterson. The likeable former Florida State and Rice coach doesn't deserve to be No. 26 in a 26-team league.

RAIDERS 34, CHARGERS 21 — Oakland wraps it up amazingly early in the AFC West.

DOLPHINS 27, PATRIOTS 0 — Minutemen are flailed by the 60-minute men as Miami bags its 12th straight en route to a possible 14-0 regular season.

REDSKINS 37, EAGLES 10 — No contest as Washington inches nearer NFC East crown and host role for a first-round playoff game Christmas Eve.

VIKINGS 21, BEARS 10 — Chicago long ago wasted away and Minnesota still clings to hope for playoffs despite loss to Steelers last week.

COWBOYS 27, CARDS 10 — St. Louis is almost to hopeless stage and Dallas can't afford to think about losing before rematch with Redskins.

BENGALS 10, GIANTS 7 — New York's playoff hopes perish.

JETS 28, SAINTS 21 — But, Jets alive for another week. CHIEFS 24, BRONCOS 17 — Kansas City has to save face now since it'll be watching the playoffs on TV.

COLTS 20, BILLS 14 — The Marty Domres Era folks from Baltimore make it three straight as General Manager Joe Thomas keeps saying, "I knew I was right."

Sports... In Brief

Tennis BRISBANE, Australia—Four Australians, led by top-seeded Ken Rosewall's 6-0, 6-1, 6-4 triumph over Jean Couillies, crushed the French raid on the Queensland Lawn Championships by scoring a quarter-final sweep over the invaders.

BARCELONA, Spain—Stan Smith, U.S. Davis Cup star from Sea Pines, S.C., hammered Jan Kodes of Czechoslovakia 6-1, 6-0 and moved into the semifinals of the Commercial Union Masters Tournament at Barcelona's Palau Blaugrana.

Baseball HONOLULU—The Minnesota Twins obtained pitchers Bill Hands, Joe Decker and Bob Maneely from the Chicago Cubs for relief pitcher Dave LaRoche.

Screamers

Jean Adams' TEEN FORUM

TOSSED SALAD: (Q.) Yesterday my mother asked me to make a salad. So I worked for a half hour on it and when I was done I was very proud of myself. But my mother was mad. She said it was too fancy. I told her I would do it over. I was mad by then, so I just threw everything

in a bowl. She said it was a beautiful salad, but yelled at me because I made it angrily. This happens to me all the time. No matter how much I try, she yells. What can I do to stop her from yelling so much? I'm only 12 and I think she expects too much from me.

Always on the Spot in Pennsylvania.

(A.) Two problems are involved here. One is your mother's. The other is yours. She is impatient and belligerent. You are belligerent and impatient. The result is that you butt heads too often over matters that are too small. You both need to be more understanding and forgiving toward each other. Both of you should continue to be honest and earnest with each other, but it would help each of you if you could ask yourselves before you speak out: "Is this really worth making a big noise over? Most of the time, I believe, you'll find it isn't."

(Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 2402, Houston, Texas 77001.)

Judge Not

Dear Abby
Abigail Van Buren

DEAR ABBY: The letter from the pastor's wife who complained because her husband ogled the cute young things in miniskirts tickled my funny bone. I, too, am a man-of-the-cloth who gives more than a passing glance to the scantily clad girls of my parish — for purposes of preparing and delivering a scathing hell's fire sermon against such further displays. I am also fiftyish and capable of having "turned on" feelings, but when such thoughts knock on the door of my imagination, I do not invite them to be entertained.

My wife is neither a qualified observer of my conduct nor an accurate interpreter of my actions, and unless that pastor's wife who wrote to you can attest to her husband's intent (in which case she should be exorcised) she had better fall on her knees and ask the Lord's forgiveness for entertaining such presumptuous thoughts as she conveyed in her "sick," lack-of-faith letter to you.

ANOTHER PASTOR
DEAR PASTOR: Only a man-of-the-cloth who has been acculturated could be holier than thou.

DEAR ABBY: This year I didn't have any great big Thanksgiving meal for my husband's family like I did last year, and I will tell you why. Last year I worked like a horse for two days to prepare a really nice Thanksgiving dinner for my husband's parents, his two sisters, three brothers, and their kids, which numbered 19, including my own three children. (I don't have any family.)

Williams' Play To Be Offered

ALPINE: — Two people searching for a common ground of understanding in an effort to share their lives, never remain the same. This basic human precept is portrayed in the startling dramatic production of "Summer and Smoke" by Tennessee Williams and scheduled as the next presentation of the Sul Ross State University Theatre.

Scheduled to be presented Dec. 6 through Dec. 9 in the University's Little Theatre, the production is directed by Dr. James Maloon, chairman of the University's speech and drama department.

All the men filled up on egg nog before dinner and they hardly ate anything. My sisters-in-law were dieting, so they just picked. My mother-in-law is on a salt-free diet and my father-in-law has ulcers, so they didn't eat much. One 4-year-old nephew got restless at the table, so his mother let him leave the table and run around. Naturally, all the other kids wanted to do it, too. What a madhouse!

I was so disgusted I was ready to scream.

This year I just told everybody I wasn't planning anything — I was just feeding my husband and kids — and should have heard the complaints. Was I wrong? My husband has been sulking ever since.

HAD IT IN MILWAUKEE
DEAR HAD IT: Let him sulk. I'm with you.

DEAR ABBY: Regarding your advice to the divorcee who wants to meet the eligible attorney: your suggested "appointment at the office" approach would be successful only with an attorney of doubtful eligibility. Instead, why not use a mutual acquaintance? Furthermore, she may have a difficult time finding a lawyer who meets her qualifications — one "who puts God first, family second, and his job last." Usually the order is reversed.

NON-LOOKING (AT THE OFFICE)
LAWYER IN MERCER, CAL.

DEAR NON: A mutual acquaintance is not always easy to find.

It may be only a coincidence, but I know a beautiful, unhappily married woman who took her marital problems to an eligible attorney. He not only separated her from her husband — he separated her husband from his money. Then he married his client.

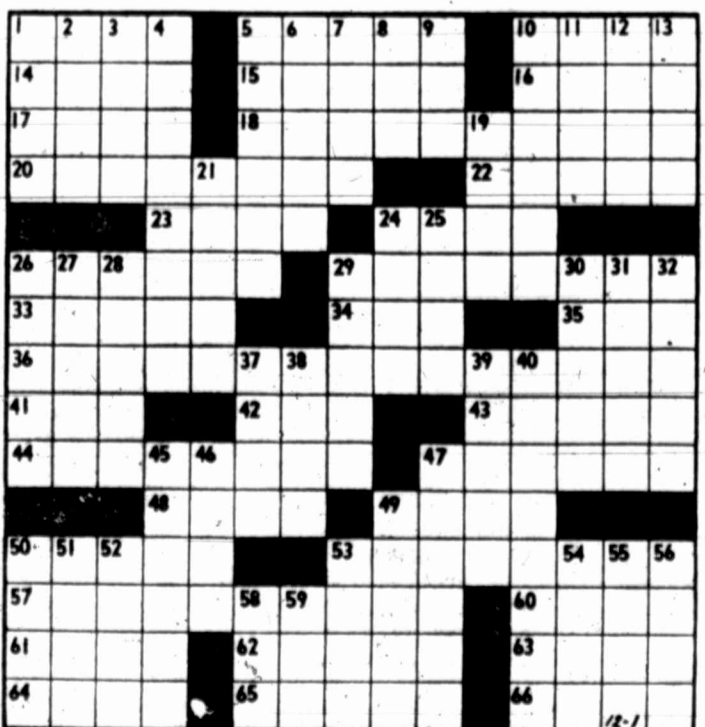

DEAR ABBY: My husband and I want to donate our bodies after death, but don't know how to go about it. Can you help us?

GETTING ON IN YEARS
DEAR GETTING: To donate your eyes after death, contact your local Lions Club. To donate special parts (kidneys, etc.), contact your nearest university medical school.

Hate to write letters? Send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069, for Abby's booklet, "How to Write Letters for All Occasions."

Hammer Toes
 Your Good Health
 Dr. G. C. Thosteson

Dear Dr. Thosteson: Is it possible to correct hammer toes without surgery? I am 15 years old and am wondering if special shoes will correct this at an early age. — C.S.

Hammer toe (and I assume you are referring to the angularity of the second and third toes into a clawlike configuration) can be brought about by such a simple thing as ill-fitting shoes in childhood. Most often, though, it results from some inherent deformity.

Sometimes, splitting in a stretch the overflexed tendons and correct things.

At your age, it might be worth while attempting something short of surgery at least for a few years. If better fitting shoes or splitting (for example) doesn't work, then surgery will probably be your only hope.

Allowed to continue, hammer toe can be more than a cosmetic nuisance, since it can result in callus formation and possibly ulcers on the tips of the toes and the humped joints.

Dear Dr. Thosteson: I am 19 and have an irregularity problem. I have been taking epsom salts every morning to make me regular. Would this hurt me in any way? — C.J.

Yes. That is a harsh cathartic which forces the colon to act by sheer irritation.

First of all, you will never become "regular" that way — but may wind up with colitis, or with a colon that finally won't behave normally but comes to depend on this harsh treatment.

If you eat ample bulk (fruits and vegetables) you will establish a regular — and normal — movement. Also be sure you get ample liquids. Don't get in a panic if you go a day or two without a movement. The incorrect notion that everybody has to have a daily movement to be healthy has scared too many people into resorting to laxatives that they don't need.

If you want to understand more exactly — and I think you need to — how the colon behaves and how to keep it

healthy, I suggest you carefully read my booklet, "The Way To Stop Constipation." Send 25 cents and a long, self-addressed, stamped envelope in care of Big Spring Herald for the booklet, and give it a thorough reading.

Dear Dr. Thosteson: I had a hysterectomy and repair work, and my tubes cut and tied. A friend had the same operation by another doctor. He tells her a Pap test is not necessary and mine says it is. — Mrs. R.W.

I don't want to get in the middle of that argument, but the details of the surgery can be significant.

If the cervix was NOT removed, then a routine Pap test afterward is wise. If the cervix WAS removed, the Pap test is of less significance, but is of some use. Reason: The Pap test is highly effective in detecting early cancer of the cervix; it is less efficient in detecting cancer of more remote tissues, but at times will disclose a case.

Danger of cancer is much lower when the uterus and cervix have been removed, as those tissues are more likely to harbor malignancies.

Dear Dr. Thosteson: One of my breasts is larger than the other, almost a whole cup size. Could this be some form of cancer? What could have caused it? Should I see a doctor? — L.B.

Not nearly as unusual as you may think. Few people are perfectly symmetrical. Some, for example, even have feet of different sizes. Best solution in your case is a bit of padding in your bra for the smaller breast.

To learn of the many factors that can be involved in the treatment of hiatal hernia, which concerns the esophagus, write to Dr. Thosteson in care of Big Spring Herald for a copy of his booklet, "Hiatal Hernia and Eight Ways To Combat It," enclosing a long, self-addressed (use zip code), stamped envelope, and 25 cents in coin to cover cost of printing and handling.

Smash Aliens Racket
 SAN FRANCISCO (AP) — Two San Jose residents have been charged with operating a firm that provided Mexican aliens with phony documents showing they were born in the United States. U.S. immigration officials said Wednesday that Ginie Sandoval, 45, and Ravier Morales, 30, were accused of selling for \$300 false birth certificates, baptismal certificates, draft cards and social security cards. They were arrested on charges of "conspiring to aid aliens who falsely claim American citizenship," authorities said. District Director Richard L. Williams said the two operated out of a firm called International Tax Services and Translators, Inc., in San Jose where officers found duplicating equipment and blank birth certificates. He said at least 50 aliens had been provided with the phony documents and possibly as many as several hundred. He added that additional people are being sought in connection with the operation. Mrs. Sandoval was freed on \$10,000 bail set by U.S. Magistrate Owen Woodruff Jr. Morales was being held pending \$5,000 bail.

Heiken Puppets To Give Concerts In San Angelo

SAN ANGELO — The ancient art of puppetry will combine with the newer art of symphony when the famed Heiken Puppets, created by Jack and Mary Heiken of Indianapolis, appear in two concerts with the San Angelo Symphony Orchestra Monday in City Auditorium. Charles Black an, musical director, will conduct both concerts. Youth concert will be at 1:45 p.m., evening concert at 8 p.m.

The Heikens create their own, almost lifelike, puppets and create the stagings for the performances they do with symphony orchestras across the country. They have performed with the Indianapolis, Chicago, Glendale, Calif., and Dallas symphonies, among others.

On the program for both the afternoon youth concert and the evening concert is "The Emperor's Nightingale," with a score by Herbert Donaldson of Los Angeles who studied composition with Boulenger in Paris. "The Emperor's Nightingale," is based on the Hans Christian Andersen story and was originally conceived as a ballet. The presentation by the Heiken Puppets has the puppets interpreting the action, with a narrator telling the story. The Heikens employ black

light in some of their presentations and will do two black light productions with the San Angelo Symphony. The afternoon youth concert will feature a black light show with the puppets to Saint-Saens' "Danse Macabre." The program, derived from a poem by Henri Cazalis, is followed by the music. The hour of midnight strikes. Death follows and Death contributes a dance of his own as a xylophone simulates the rattle of bones. Suddenly, a cock crows, announcing dawn—the dance dies out and the dancers fade.

Mussorgsky's "Night on Bald Mountain" is the fantasy for orchestra which the Heikens will perform at the evening concert with the black light. The evening concert also will include the performance by the orchestra of the "Coronation March" from "The Prophet" by Myerbeer and selections from "My Fair Lady" and "La Vie Parisienne."

Tickets are \$4 for adults and \$1 for students. They may be purchased at McMillan Music Co. or the lobby of the First National Bank. They will be available at the City Auditorium before the concerts.

College Board Seeking To Head Off Deficit

Faced with the prospect that state appropriations to junior colleges may be on the same per capita basis for the biennium, Howard County Junior College trustees Thursday moved to avoid a deficit which might arise from lower full-time enrollments.

The board instructed Dr. Thomas Salter, president, to take such steps as necessary to avert a deficit situation in the next school year, even though the following year faculty members.

DECREASE

The college currently is in sound financial condition, Dr. Salter pointed out in an analysis requested by the board. But the anticipated lower state support, unless offset by cost reductions, could yield a deficit next year.

Under the existing state

MILITARY CODE

Black Gls Don't Get 'Fair Shake'

WASHINGTON (AP) — A new Pentagon report acknowledges that black members of the Armed Forces don't get a fair shake when compared with how the military justice system treats whites.

Among other things, it found company commanders hand out tougher punishments for blacks than for whites accused of minor violations of the Uniform Code of Military Justice.

Prepared by a 14-member racial task force, the study recommends that racial discrimination itself be punished within the military justice system.

The panel, releasing its report Thursday, called for

steps as standardized punishment for minor offenses and recruitment of more black military lawyers. It suggested that helmets be redesigned to conform to modern hair styles, such as the afro favored by many blacks.

The military system does discriminate against its members on the basis of race and ethnic background," the study said. "The discrimination is sometimes purposive; more often it is not.

Indeed, it often occurs against the dictates not only in policy but in the face of determined efforts of commanders, staff personnel and dedicated service men and women."

Since the numerical strength of the faculty has held steady in the face of the enrollment decline, this means that the average teaching load has gone down about 23 per cent. Some faculty members have actually had increases in average pupil load, but by and large these had gone down. The range is from an average of 26 pupils per teacher to 5.2 in the academic-vocational areas.

Several of the lower ratios are in advanced sciences or certain vocational-technical fields.

In another action, the board also established a retirement age of 65 years, effective in the academic year in which a faculty member may attain that age. This does not preclude employment of faculty members 65 and older on a part-time basis. Under the "grandfather" clause, faculty members past the mandatory retirement age will be permitted to teach to the usual retirement.

The tax appraiser contract between the city-county-schools and college was approved as amended. Earlier the college had approved, the minor changes had been made.

WT Farm Equipment Theft Ring Smashed

LUBBOCK, Tex. (AP) — Peace officers in Texas and New Mexico said seizure Wednesday of farm equipment valued at up to \$100,000 was one of the first steps in breaking up a ring of thieves.

Declining to say how many persons may be involved, authorities promised further moves to confiscate such equipment. They said it was believed the ring had its headquarters at Littlefield, northwest of Lubbock.

A spokesman for the Texas Department of Public Safety said several new model farm tractors, truck tractors and a big combine were among the recovered items. He put their value at \$80,000 to \$100,000.

Pending further investigation, no charges were filed at once. Officers said members of the theft ring knew what had been done, however.

Near Clovis, N.M., city and state police arrested a farmer in whose possession they told of finding a \$14,000 grain truck reported stolen off a farm near Petersburg, Tex., north of Lubbock.

Jack Mizon, 38, whose farm place is northwest of Clovis, was charged with possessing stolen property. He pleaded innocent and went free under \$3,000 bond.

Authorities said the farm equipment recovered at other

places in West Texas and New Mexico was stolen from points west of Dallas.

Fined For Having Sex Intercourse With His Wife

NORWICH, England (AP) — Walter Worts was fined 50 pounds — \$120 — Thursday for having sexual intercourse with his wife in their side yard.

Only a row of flowers separated the loving pair from the garden next door, and the neighbor's two young children saw them. They told their mother, who telephoned the police.

"I love my wife and I cannot see why we should not show some affection to each other," said Worts, 39. "The children may have seen us, but it was not intentional."

Prosecutor John Bates argued that an Englishman may do what he likes in his castle, but it shouldn't be necessary for his neighbor to put up a fence to avoid seeing him do it.

The magistrates convicted Worts of indecent exposure. His 33-year-old wife was acquitted — on condition she doesn't do it again — on a charge of aiding and abetting her husband.

District Court Judge Orders Recount Of Votes

HOUSTON (AP) — A state district court judge has ordered a recount of some 16,000 punch-card votes cast in the governor's race at 10 Harris County

precincts during the Nov. 7 general election.

The order by Judge Arthur Lesher followed testimony that a computer which counted the punches in County Clerk R. E. Turrentine's office contained program errors.

Mrs. Auzzane Ealy, a computer program expert, testified earlier Wednesday that Turrentine's computer counted only unopposed races when a voter

punched a straight ballot and then punched votes for individual candidates.

She said this voided all votes cast for individual candidates with opponents while the Texas Secretary of State's office had instructed counties to count the individual votes in such cases.

Democratic and Republican volunteers began the recount by hand immediately.

Lesher's order results from a request made by Nancy Palm, chairman of the Harris County Republican Executive Committee, and 28 other citizens.

A recount would not change the outcome of the governor's race in which Democrat Dolph Briscoe defeated Republican Hank Grover, Mrs. Palm said, but she expressed hope the recount can be used while seeking changes in the Texas Election Code.

LOOK AT MENTAL ILLNESS — II

There's An Excellent Chance Of Recovery

Editor's Note: This is the second of two stories on one of America's most tragic problems: mental illness.

By ROBERT BETTS
Copley News Service

Seventy per cent of patients now in mental hospitals, providing they receive proper treatment, have a good chance of coming out either totally recovered or, with adequate aftercare, able to take up a useful life again.

Twenty-five years ago a victim of schizophrenia, the most prevalent mental crippling disease, faced a 50-50 chance of being hospitalized for more than a year. Today, providing he enters an adequately staffed institution, his chance of release within a period ranging from a week to a year is increased to four out of five.

Such is the measure of

progress in the treatment of mental illness since the dark days when victims were locked away in insane asylums and treated as social outcasts.

New therapeutic techniques, aided by advances in neurobiological and biochemical research, are bringing relief to thousands.

Many of the more moderate cases can now be greatly improved as a result of short-term therapy, often involving no more than a series of "talking-out" sessions with a psychiatrist. Many other psychiatric disorders are helped by tranquilizers and antidepressants.

"Modern drugs have made possible tremendous advances in the treatment of emotionally disturbed individuals," said Dr.

Bertram S. Brown, director of the National Institutes of Mental Health.

SHOCK TREATMENT
Electric shock treatment has had considerable success with certain depressive disorders, although since the advent of newer therapeutic drugs, the utilization of shock therapy has declined to a considerable degree.

Still the most baffling of mental disorders, one which each year hospitalizes more than a quarter of a million persons, is schizophrenia.

Commonly known as "split personality," it is characterized by hallucinations, delusions, generally disorganized thinking and impairment of emotional response.

For those who have failed to respond to conventional psychotherapy, drugs or shock treatment, an operation may be effective. Advances in microscopy have led to the uncovering of vital information about the location and function of key structures, and enabled surgeons to probe the human brain in an increasingly successful attempt to correct serious mental disorders.

DEPRESSION
Practitioners report improvement rates as high as 80 per cent among patients who have been institutionalized for long periods, suffering from schizophrenia, acute depression or anxiety and periodic outbursts of uncontrolled violence. In many cases where psycho-surgery has been used, such symptoms have disappeared or been brought under control to such an extent that the persons have been able to resume normal lives.

Brain surgery is still a highly controversial subject, however. To many people, it smacks too much of "mind control." It is used only as a last resort, or in about one out of every 100 serious cases.

BRAIN CELLS
Modern research also is being directed at ways of treating serious mental illness which do not involve cutting into brain tissue. One method that is reported to have brought temporary relief to some patients is the use of high-

frequency sound waves to interrupt the electrical conductivity of brain cells, thus impeding the reception of emotional impulses in the cortex.

Meanwhile the search for underlying causes of mental illness continues. As well as the laboratory work devoted to uncovering more secrets about the chemical makeup and functioning of the human brain, sociological factors also are being taken into account.

The extra stresses put on individuals by a modern, industrialized urban society, the fading of the family concept, which leads to "impersonal" living and difficulty in relating to society, are frequently cited as contributing causes.

BEHAVIOR
Dr. David Rosenthal of the National Institutes of Mental Health has reported there is growing evidence that all kinds of abnormal behavior might be heritable.

The genetic evidence is not always clear and final, he said, and the contributing effect of family and other environmental influences is not well understood, but "there is sufficient evidence for genetic factors in all the behavioral disorders for us to take the genetic hypothesis seriously."

He emphasizes the role of genetics in a recent book, "Genetic Theory and Abnormal Behavior," but he also suggests that the high frequency of

schizophrenia may be due to the erosion of the psychic resistance of individuals under the stress of modern society. Improvements achieved in public attitudes toward persons who have received treatment, we have to acknowledge that as yet we know little about the causes and initial prevention of mental illness.

(Photo by Danny Valdez)

EAGLE SCOUT—The top award in boy scouting, the coveted Eagle Scout badge, was presented to Ron Mercer Jr. of Troop 33 in special ceremonies at the First Christian Church, Thursday night. The 14-year-old freshman received the first Eagle award in the Lone Star district this year.

Fire Can Make Tragedy Of Christmas Holidays

Big Spring citizens are reminded that Christmas holidays can become a terrible memory if a holiday fire is included in the activities.

"There are usually more fires during the Christmas holidays because there are more fire hazards during that period of time," according to Gene Patton, fire marshal.

The fire official reminds citizens to be careful about dry trees. For a natural tree, he points out that the citizen should pick a fresh-looking, firm-needed tree and keep it in water until it leaves the house. Citizens are urged to check the water level daily since the tree will absorb large quantities while it is indoors.

FIRM SUPPORT
He also stressed that the tree be firmly supported and as far away from source of heat as possible.

He reminded the Christmas tree purchaser that artificial trees also need care in selection and handling since plastic and metalized plastic trees can burn. Metal trees that are not

a fire hazard may be a shock hazard. Only indirect lighting should be used with them as lighting strings on a metal tree may become charged and dangerous.

Decorations and wrappings should be of noncombustible materials if possible. The fire marshal especially reminds the Christmas decorator that untreated cotton batting, flock and paper ignite easily and may burn intensely.

The marshal also urged that polystyrene foam for candle holders should not be used, or should it be used for table or mantle decorations where wax candles are also used.

Purchasers are also urged to select flameproof Santa Claus masks and whiskers.

NOT SAFE
The marshal also stated that the fire place is not a safe place to burn gift wrappings.

Under toys, the marshal stressed that pyroxylin plastic toys and dolls are dangerous. Toys operated by alcohol, kerosene or gasoline are especially dangerous as they may upset and set fire to children's clothing.

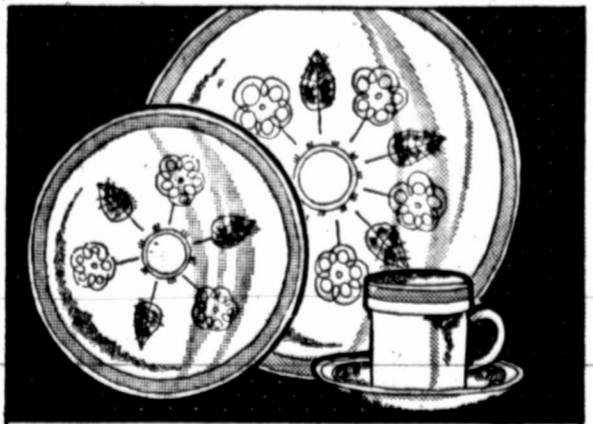

Electrical toys should be listed by Underwriters' Laboratories to show they have met shock and fire hazard standards.

Other reminders are that wax candles on trees are dangerous, tree lighting sets should be checked for frayed wires, loose connections and broken sockets. Citizens are also reminded to turn off all tree and indoor holiday lighting before retiring or leaving the house.

Other reminders included not smoking near the tree, supervising small children under the tree and to double all ordinary fire precautions.

Elders Can Participate

Senator Lloyd Bentsen followed the announcement of Congressman Omar Burleson yesterday when he announced that ACTION approved \$23,062 grant to the Big Spring State Hospital for Volunteer Advisory Council.

The council will start and operate a retired senior volunteer program.

The RSVP offers people over 60 the opportunity for parttime volunteer service to the community.

Authorized by Congress in 1969, it has been in operation since 1971 with a goal of 25,000 elderly volunteers in the nation by the end of this year.

Persons over 60 may serve in schools, parks, courts, museums, hospitals, libraries, nursing homes, city, and other organizations under ACTION. This is a new agency which combines the services of several former agencies, such as the Peace Corp, VISTA and many others.

Down In The Dumps?

By FRANK MACOMBER
Copy News Service

If you live in a town where the city fathers have refused to do anything about the unsightly public dump, you may be in luck.

The U.S. Environmental Protection Agency has published a pamphlet designed to help citizen groups participate in Mission 5000, a cooperative project of local, state and federal governments to close 5,000 of the nation's open dumps. Private organizations can participate, too.

PAID OFF

The publication, "Mission 5000 — A Citizen's Solid Waste Management Project," offers suggestions to residents and community groups on how to take active roles in moves to

cover up open dumps. So far, says William Ruckelshaus, boss of EPA, the project has paid off well.

More than 2,200 of the nation's 16,000 open dumps used by cities and towns for waste disposal have been closed and replaced with sanitary landfills, he points out.

"We're going to keep going until the figure reaches at least 5,000 and other communities realize these ugly, unhealthy areas can be cleaned up if local organizations will just get together with authorities and do something about them, with our help," Ruckelshaus emphasizes.

SAME METHODS
Copies of the Mission 5000 pamphlet are available from the Public Inquiries Branch, Office of Public Affairs, U.S. Environmental Protection Agency, Washington, D.C., 20460.

The Rev. Charles Filson learned all about multiple listings while he was selling real estate on a part-time basis. Why not use the same methods for placing unwanted children in adoptive homes?

The Rev. Filson kicked that question around for a time and then decided to try it.

Today the Child Care Association uses the multiple listing technique and has placed more than 200 children in homes during the last year.

The Rev. Filson is adoption coordinator for this Illinois organization, to which nearly 90 state, county and church-affiliated adoption centers now belong.

Children listed in a booklet similar to those used by many real estate agencies to sell homes — usually are the unwanted youngsters from minority groups, older children or those with physical or mental handicaps.

NO SUCH THING

"We have found there is no such thing as an unadoptable child," says the Rev. Filson, on loan to the nonprofit association from the Illinois Synod of the United Presbyterian Church. "Somewhere there is someone who wants to and can give one of these hard-to-place children the love and family he or she needs."

The Presbyterian minister founded the multiple listing service in September, 1971.

Rehab Center Is Scene Of Clinic

The next orthopedic clinic will be held starting at 9 a.m. Saturday at the Dora Roberts Rehabilitation Center in cooperation with the Howard County Easter Seal Society.

Parents may pre-register children by calling 267-6887 or may register until noon the day of the clinic. The family physician should be contacted for a referral to the clinic.

The CAA booklet goes out to member agencies, adoption centers in 18 other states and one adoption service in Canada. It includes a picture of each child and personal information about age, race, personality and medical history.

The booklet also lists families looking for children, and the type of child each family wants to adopt. It is updated weekly, as new children are added and those adopted are removed from the listings.

PUBLISHED FREE

To give the listing service a three-year test, CAA raised \$150,000 through private contributions and donations from corporations and their foundations. The listing booklet is published free by the Springfield, Ill., Board of Realtors.

The Rev. Filson has firsthand proof the service is working. He has adopted two daughters, a black and a Chinese.

The service has helped more than unwanted children, he points out.

"We've been able to change hopelessness to hope for many social workers trying to place children in adoptive homes," he points out. "They see that we're getting results, and that it's not as tough to place a child as they thought."

Elderly Will Get Break In Harris

HOUSTON (AP) — Persons 65-years and older will get a \$3,000 county tax exemption on their homesteads in Harris County, county commissioners decided here.

The homestead exemption was authorized in an amendment to the Texas Constitution passed by voters in the November general election. The commissioners had urged acceptance of the amendment before the election.

The commissioners also voted to urge the Texas Legislature

to pass legislation made possible by another amendment approved in the election, to give disabled veterans the same exemption.

County Tax Assessor-Collector Carl Smith said he estimated the action could removed as much as \$100 million in assessed value from the county tax rolls.

Kothmann Is Gr'd Champ

Bill Kothmann won the grand championship in a rocket derby Tuesday night held by Cub Scout Pack 100, sponsored by St. Paul Presbyterian Church.

Matt Taylor was first runner up; David Anderson, second runner up; and Steve Drake, third runner up.

First place winners were: Kirk Allen, Kris Allen, Steve Drake, Bill Kothmann, Dewayne Hodnett, David Bordofski, Matt Taylor, Mark McKnight and Stan Fraley.

Entered were 26 rockets. Mike Hicks received his "arrow of Light" award and was graduated to the Boy Scouts with the presentation of a Scout handbook.

Permian Campus Is Shaping Up

ODESSA — Construction progress on Phase I of The University of Texas at the Permian Basin campus is running well ahead of schedule, according to resident construction manager James C. Hunt.

In a report to President B. H. Amstedeck Hunt noted, "Labor earned to date is at 19.2 per cent. An average progress curve for a project of this duration shows 15.6 per cent, so we are running almost 4 per cent ahead of schedule."

UTPB is cooperating with the UT System Office of Facilities Planning and Construction in a pilot project to computerize construction schedules, and Hunt receives regular computer print-out information on the construction progress.

Phase I construction consists of classroom-laboratory buildings and gymnasium facilities scheduled for completion in December 1973.

Classes at the new upper-level university will open next September in three buildings now under construction on the south campus. Two of the buildings will accommodate classes and laboratories, and the third will house the library.

RELIGION IN THE NEWS

Big Spring Presentation Of Messiah To Be Held Sunday

By MARJ CARPENTER
The annual Big Spring presentation of the Christmas portion of Handel's "Messiah" will be presented Sunday at 5 p.m. at the First United Methodist Church.

God find me worthy of preservation into the new order? If the answer is "yes," then this life is not all there is."
Watkins said that all the local representatives thoroughly enjoyed the program and are now beginning their regular schedule with renewed enthusiasm.

city will probably announce their special Christmas programs and pageants as the holiday draws nearer.
In church news in the world, an interesting item appeared this week when Mrs. Belle S. Spafford, president of the worldwide women's auxiliary of the Church of Jesus Christ of Latter Day Saints, said that the modern extension of women's rights goes too far.

D. Beasley Named State Youth Group Officer

A Big Spring youth, David Beasley, has been named vice president of the Texas Youth Fellowship of the Church of God.
He was named at the state convention in Austin last week-end. David is the son of the Rev. and Mrs. Edwin R. Beasley, and is a sophomore in Big Spring High School.

DAVID BEASLEY

Selling Bibles Can Even Be Dangerous Nowadays

By GEORGE W. CORNELL
Associated Press Religion Writer
Selling Bibles can be dangerous. So can extending friendship to a prisoner. Or even entering an empty church.
In all of these circumstances, religious workers in recent times have encountered threats of death. The incidents reflect what philosopher-psychologist Erich Fromm calls the "mood of violence" in America.

Local Pastor Tells Of Resigning Post

The Rev. R. Bartlett Mills has resigned the pastorate of the Midway Baptist Church after serving there for three years.
Some of the accomplishments during these three years have been: 93 baptisms, some 5 additions by letter, a youth choir organized, organ purchased with gifts in memory of Walter Robinson and Maggie Richardson, west side of the building bricked, folding partition installed in the educational building.

Hillcrest Baptists Set Three-Day Revival Here

The Hillcrest Baptist Church weekend revival will feature Mickey Warwick, Semole Baptist preacher.
Warwick was formerly pastor of the Northside Baptist Church in Midland and head the RA camp program at the Permian Basin Baptist Encampment for several years.
Back in the 50s, he was a football player at Howard Payne. In recent years, he has undergone two brain tumor operations, one as recently as July.

Ecology Talk Given 4-H

COAHOMA — Paul Koshi, Big Spring, said that modern man uses 20 times more water than did people in pioneer days in a talk made before members of the Coahoma 4-H Club here Monday night.

For that reason, Koshi added, man needs to conserve water every way he can.

Koshi used slides to illustrate his talk on ecology. He said it took a thousand years to build up an inch of top soil but one sandstorm, unless the land were properly treated, could rob the land of six times that amount.

The speaker also stated that the state pays out \$2 million annually to pick up the litter on its highways. He also revealed that part of the smog in the Big Spring area originates in Houston and environs.

Eighty per cent of the rainfall can be saved in any one area, Koshi pointed out, through proper distribution of mulch on farm land.

Julie Hall gave the prayer at the meeting. The motto and pledge were offered by Emmi Buchanan while Patricia Fryar offered the pledge of allegiance to the U.S. flag.

Thirty-one members and 12 parents attending the session, which was held at Coahoma Junior High.

DEPRESSION-ERA FAMILY Television's 'Good Guys'

HOLLYWOOD (AP) — The mail pouring in to "The Waltons," a gentle, believable television show about a Depression-era family, falls into three categories:

Parents write that they don't have to worry about their children watching this show. Others say they don't let their children stay up to watch television out are making an exception of "The Waltons." And mail comes from those who are aware of ratings and say they hope this show won't be lost.

Despite the formidable opposition of Flip Wilson and "The God Squad," this show is not being lost. CBS picked it up for the rest of the season and ordered two additional shows, for a total of 24.

OLD VALUES
"When you look at the competition and its ability to generate an audience I would equate the Waltons' with any successful show on television," said Robert D. Wood, president of the CBS Television Network.

Although "The Waltons" articulates the old values rather than the new morality, it is not inconsistent with the sense of reality seeping into television this year. The family is believable, the characters are credible, the stories are realistic.

Characterization plays an important part in this show, and it

is developed at a pace that is downright leisurely for television. Little side plots involving the children, or like Godsey, the grocer, or the Baldwin sisters with their "rec-

ipe," meander nowhere, but offer interesting insights.

SEEING LIFE
Contributing mightily to the believability is the fact that Earl Hamner Jr., the executive

More Sexual Activity Than They Really Want

HOUSTON (AP) — A Chicago psychiatrist says teen-agers, trying to live up to adult fantasies, seem to be pushing themselves into more sexual activity than they really want.

Dr. Daniel Offer said he drew his impression from questionnaires answered by some 3,500 teen-agers who were considered to be average among white suburban teen-agers.

'FANTASIES'
"Thirty per cent of the kids told us they had more sexual activity than they really wanted," Offer said in an interview.

He said the boys felt the girls wanted sex more often and the girls felt the boys did.

Offer believes each got his impression from the things said and written by adults about teen-age sex—the "fantasies" adults have about a sexual revolution.

He feels the situation is damaging to teen-agers because

each feels that he somehow falls below the expectation and must be inadequate or under-sexed.

Offer, associate director of the Psychosomatic and Psychiatric Institute of Michael Reese Hospital, feels the hottest of emotional turmoil is "junior high school which he called "a psychological catastrophe" because it concentrates children with the most problems.

The junior high pupil is too old to control like a child, yet does not have his own controls internalized as an older teenager does, Offer said.

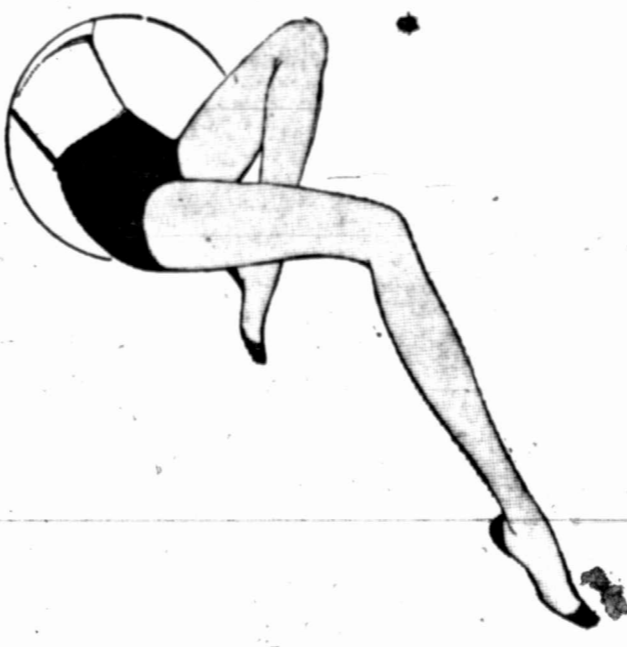

PENT-UP
As for the high school pupils he has studied, Offer said males cope with the aggressive feelings mostly through sports.

"Unfortunately, because girls don't have sports as freely available, they are more introspective, more depressed, and talk on the phone more," he said.

LOOK AT THE BIRDIE—These are "The Waltons" of television—a depression-era family that articulates the old values rather than the new morality and plays up the goodness of people. The show's producer says "People are fed up with modern living." CBS likes the public's response and has ordered the show continued.
