## LAST OF AMERICA'S PROUD APOLLO FLIGHTS TO MOON

# Astros 'All Charged And Ready'

CAPE KENNEDY, Fla. (AP) — Seventeen, the last of America's proud Apollo flights to the moon, lifts into darkness on a column of fire tonight—a dazzling windup to an epoch of lunar exploration.

**TONIGHT THE MOON**  
Astronauts Eugene A. Cernan, Ronald E. Evans and Harrison H. Schmitt slept late to be fresh for the 9:53 p.m. EST blastoff—the first American nighttime launch of a man-carrying rocket. Launch crews,

too, got in some late sleep with the countdown in a planned hold period until noon.

Crowds arriving for the spectacular fireworks were greeted by bright blue skies and unseasonable warmth. But the forecast was for considerable high cloudiness and lower-scattered clouds at launch time.

The astronauts were pictured as "all charged and ready" for the 13-day journey that may be man's final visit in this century to his celestial neighbor. This is

the day for which they've trained for 16 months—and even so, there was some launch-eve practice in simulators.

As always, there were some hitches as crews readied and tested the spacecraft and prepared the loading of the liquid hydrogen and liquid oxygen that fuel the 36-story Saturn 5 rocket. But officials called the countdown one of the most trouble-free in the 11-flight Apollo series.

The skyscraper-tall Saturn 5 rocket and its cargo of men, scientific equipment and sacrificial mice will rise with a hellish roar on a 2,200-foot tail of flame that may be visible 500 miles away.

For the half million or more people expected in the area, weather conditions were not perfect. The forecast called for considerable cloudiness at 12,000 feet—the altitude the rocket reaches in less than a minute.

Weather posed less problems for space officials. Launch director Walter Kapryan said there would be a threat to on-time liftoff only if upper-level clouds contain ice particles that might create lightning strikes as the rocket slices through. He discounted the possibility.

**YOU'RE KIDDING**  
The wives and children of Cernan and Evans said goodbye to the astronauts across a glass barrier Tuesday night. Schmitt, a geologist and the first scien-

tist to go to the moon, is a bachelor.

Most of the Apollo astronauts, including many of the 10 men who have walked the moon, are at the cape to watch the historic last.

"There's a lot of good natured kidding between the veterans and the youngsters," said Adm. Alan Shepard, chief of the astronaut office and the first man in space.

"They're anxious to go," he said of Cernan, a two-flight

veteran, and space rookies Evans and Schmitt. "They all seem to be feeling confident. They are all charged and ready for their part of the countdown."

The Apollo 17 astronauts have been sleeping later each day to adjust their biological timeclocks for an early afternoon wake-up. Their schedule calls for a light snack on arising, a medical examination in early evening and dinner 3½ hours before launch.

## HOWARD FRANKLIN Man Must Be Tried Anew, Court Says

The Texas Court of Criminal Appeals today reversed the conviction of a man charged in a Big Spring service station robbery in which an attendant was shot at close range.

The case of Howard Franklin, who was assessed 100 years in prison in the Dec. 11, 1970 holdup, was sent back to Big Spring for retrial.

The court said the trial judge should not have permitted testimony about another service station robbery that had taken place shortly before the one Franklin was accused of committing.

"There is no blanket rule that extraneous offenses are admissible if committed close to the same time and in almost the same manner. There must be a reason for the admission of the evidence such as it tends to rebut a defense offered or establish identity where the identity of the accused is a controverted issue," the high court said.

Franklin was charged with robbing James Gregory, an attendant at the DeWees Encó Service Station in Big Spring.

Gregory said Franklin and two others drove into the station. As Gregory squatted down to find the hood latch on their car to check the oil, he said Franklin held a gun within three inches of his chin and said "money."

Before the attendant could answer, he said, Franklin shot him.

## THIS CONTEST NOT LIGHTING UP TOWN

Christmas spirit in Big Spring is a little bit slow as far as decorating and lighting contest entries according to Ron Mercer of the Chamber of Commerce.

Deadline for entries is Dec. 16 and the committee in charge is hoping for a large number. Categories include over-all yard and home, or a single window, door, or special feature.

Anyone interested should call the Chamber at 3-7841 or mail in their name to Box 1381. Judging for prizes will be on the night of Dec. 21. "Help make Big Spring sparkle for Christmas" is the motto of the contest.

## Minus 20 Degrees

Low temperature this morning fell short of setting a record at the Big Spring Experiment Station.

Temperature dropped to 13 degrees, and, with 17 miles per hour winds, this created a chill factor equivalent to minus 20 degrees.

Lowest recorded at the station on this date was 10 degrees recorded in 1950. The station has records dating back to 1900.

Six years ago the all time high temperature for this date occurred with an 80. Even if it warms up today it is not likely to reach that height.

Thankfully, for the sake of the thin-skinned West Texan, there was no moisture added to the cold weather today. Top moisture on this date was in 1926 when it rained .53.

## Butz, Dent Are Named To Cabinet

CAMP DAVID, Md. (AP) — President Nixon announced today that Earl Butz will remain as secretary of Agriculture but that Peter G. Peterson is leaving his post as Commerce secretary and will be replaced by South Carolina textile magnate Frederick B. Dent.

White House press secretary Ronald L. Ziegler said Peterson would take on a temporary special mission for Nixon, traveling to Europe, Japan and other countries to discuss economic matters with U.S. trading partners. Then, Ziegler said, Peterson will return to private life.

**ATTORNEY GENERAL**  
Shortly before the official announcement, the choice of Dent was reported in Washington by Sen. Strom Thurmond, R-S.C.

Dent has been president of Mayfair Mills in Arcadia, S.C., since 1947. Dent, 50, is a graduate of Yale and a leader in state and national textile associations.

Nixon is expected to announce soon that he will retain Richard Kleindienst as attorney general.

The reappointment of Butz had been expected.

**ITALY NEXT**  
John Volpe is slated to step down as Transportation secretary

and to be nominated as ambassador to Italy, land of his ancestors.

Nixon announced Tuesday that he will nominate Undersecretary of Commerce James T. Lynn to succeed George Romney as secretary of housing and urban development, and that he will keep Rogers C. B. Morton as secretary of interior during his second term.

The White House also disclosed Tuesday the resignations of two key Treasury Department officials—Deputy Secretary Charles E. Walker and Asst. Secretary Eugene T. Rosides.

**REGRET**  
A spokesman said Nixon accepted their resignations "with reluctance and regret" and took pains to stress that their departures were not connected with Nixon's request that all his appointees submit pro forma resignations.

**A MAN OF EXPRESSION**—Former President Harry S. Truman, who was reported in serious condition today in a Kansas City hospital, presented these expressions at a banquet in New York on April 13, 1966. The occasion was the 25th anniversary Freedom House Dinner. Truman was hospitalized Tuesday with what was described as a congestion of the lungs.

## Cold Made More Cutting By Gusty Northerly Winds

By The Associated Press

Bitter cold, made more cutting by gusty northerly winds, brought sub-zero temperatures to parts of the Texas Panhandle today and caused thermometer readings below freezing almost to the coast.

The cold came with destructive winds in the western part of the state.

Late readings today showed minus-one degrees at Amarillo and Dalhart.

Other low temperatures included Lubbock 6, Childress 9, Abilene and Wichita Falls 13, Big Spring 15, Midland 16, Wink

and Mineral Wells 17, and San Angelo 19.

Also Dallas 22, Fort Worth 23, Tyler 26, Longview and College Station 28, Waco 29, Del Rio, Texarkana and Lufkin 31.

The front crashed into the state Tuesday with 88 mile-per-hour winds in Guadalupe Pass and severe winds almost everywhere in the west. The winds kicked up sandstorms.

One Brownwood resident said Texans had a choice of "freezing or blowing away."

The community Christmas tree at Levelland was blown down with winds clocked at 57 m.p.h.

Power lines snapped and walls and windows were blown away in the severest-hit region of the storm.

Two mobile homes were destroyed in Sierra Blanca, near El Paso, and at least 10 power poles were snapped just east of Ysleta.

Cotton trailers and mail boxes were blown about at Levelland. Temperatures dropped almost 30 degrees in Lubbock in 20 minutes.

A narrow band of showers and thundershowers extended along the cold front as it moved across the upper and middle Coastal Plains.

## HELLO THERE! Car Rams House

Jimmy Jennings, who lives at 1811 Main, was sitting in the den of his home Tuesday morning where he is currently recovering from hip surgery when he heard a car crash into the front bedroom.

A car driven by Martha Kay DeVore of 431 Edwards apparently ran a stop sign, struck a car driven by Billy Ray Owen, continued through the intersection of 19th and Main, ran across the top of a stop sign and came to rest with the radiator of the car sitting under the front bedroom window of the Jennings home. She was cited for disregarding a stop sign.

Her five daughters—Avarey, Dianna, Deanna, Dana and Beth, were passengers for the wild ride but there were no apparent injuries.

Twenty minutes earlier, another bad crash occurred at 1811 Nolan when a car driven by Bessie N. Glass of 1808 Johnson collided with one driven by Angelita Flores Foster, 2415 Main.

The Glass vehicle struck the other car as both started through the intersection. Bobby Glass, 11 and Debbie, 12, were taken to a hospital emergency room, checked and released.

## Cheer Fund Past \$100

The Christmas Cheer Fund passed its first hundred dollar mark today with receipt of more gifts.

All money given to the Fund will be used to purchase toys for kiddies in needy families, and anything left over will be applied to providing food for baskets and other Christmas projects. The Herald is cooperating with the Salvation Army in taking your Christmas remembrances to those in need.

Mail or bring yours to The Herald for grateful appreciation.

## STRIPPER SAYS COURT RULING 'RIDICULOUS'

# Topless - Bottomless Woes

SACRAMENTO, Calif. (AP) — California's topless-bottomless entertainment industry is girding for a battle over an antinudity ruling by the U.S. Supreme Court.

The court's decision gives state liquor authorities the power to begin enforcing regulations against topless waitresses and topless-bottomless entertainers.

Peter Sexton, deputy director of the California Department of Alcoholic Beverage Control, said topless-only dancers still are allowed if the entertainer stays at least six feet away from the nearest customer on a stage at least 18 inches high. Topless waitresses, said Sexton, are out.

**NUDE NEWS**  
"Nude entertainment per se is on its way out," Sexton added.

The 6-3 Supreme Court ruling said that states can shut down bars that feature nude dancers and other "bacchanalian revel-

ries on grounds that First Amendment freedom does not go beyond books and movies to "gross sexuality" in public.

Edward J. Kirby, director of the state Department of Alcoholic Beverage Control, said the ruling will affect all other states, too. It was issued Tuesday in a California case.

**'KAT PATCH'**

Nude-bar owner Tammy Heath said there is going to be a struggle if Kirby's department starts moving to revoke liquor licenses on the basis of the type of entertainment offered.

"They've got one hell of a fight on their hands," she said.

"It's ludicrous to think the Supreme Court or the supreme anything is going to regulate people's morals," said Miss Heath, who owns the "Kat Patch" and "Sand Box" nude bars between San Francisco and Sacramento.

Sexton says his department is planning an immediate state-

wide drive to lift liquor licenses of nude bars or bars that permit sex acts ranging from intercourse to flagellation or that display genitalia — whether in the flesh or on film.

State lawmakers could overrule the liquor department's regulations against mixing liquor and full nudity. But such action would require the signature of Gov. Ronald Reagan, who endorsed a recent unsuccessful statewide antiobscenity initiative.

Carol Doda, the statuesque blonde who pioneered topless dancing in San Francisco's North Beach area in 1964, said nude bars may quit serving alcoholic beverages to avoid coming under jurisdiction of the state's liquor licensing agency.

"I think the whole thing's ridiculous," Miss Doda said. If the midie night clubs lose their liquor licenses, she added, "we'll serve fruit juice and nuts."

**MAKING A RETURN**—Actress Jean Peters, former wife of billionaire recluse Howard Hughes, presented these expressions Tuesday at a news conference in Hollywood where she announced her return to acting after a 17-year lapse. Miss Peters, 46, will star in "Winesburg, Ohio," a play that will appear on the Public Broadcasting Network March 5, 1973. She said she hopes to avoid the tag "the former Mrs. Howard Hughes."

### Trumpeters All-State

Two members of the Big Spring High School band have been chosen for the all-state orchestra. They are Ricky Mitchell, son of Mr. and Mrs. Richard E. Mitchell, 1505 Stadium, and Mark Prather, son of Mr. and Mrs. Gerald McCasland, 603 Bucknell. Both are trumpet players.

This is the first time for either to qualify for the orchestra, which will perform at the annual meeting of the Texas Music Educators Association in San Antonio Feb. 9-12. Ricky is a senior, a member of the Meistersingers, the Golden Horns and in the chorus of CR 73. Mark, a junior, is in the Golden Horns and will be in the pit orchestra for CR 73.

They were among the band members who made tapes back in September. These tapes were auditioned by a panel of judges during the Thanksgiving holidays.

Triouts for the area band will be held Saturday in Odessa, and Director Bill Bradley said that BSHS would have about 45 entries. Those who win area places will be eligible to try out for the all-state band.

### Hearings Slated

Peace Justice Walter Grice will hold administrative hearings for 20 driver's license owners facing possible license suspension or probation at 10 a.m. Wednesday.

### Final Appeal For Reservations

Bill Bradford, ticket chairman, issued a final appeal Wednesday for volunteer Scout leaders to make reservations for the annual Lone Star district Appreciation Dinner. It will be held Thursday 7 p.m. in the SUB at Howard County Junior College.

Workers with boys will be recognized, training awards presented, and awards for Order of Arrow and other activities will be given. There will be a recognition for all boys who have attained Eagle rank during the year. Reservations may be had from Bradford, or Chaplain A. C. Hicks or Gene Bobo at the Chamber of Commerce office.

### Thief Could Be Better Prophet

There may be a Big Spring thief that is a better weather prophet than the weather service.

Tuesday, somebody stole an electric heater from Frances Florez, at 1805 1/2 Nolan. On Wednesday was the coldest day of the year.

Other thefts in the last 24 hours were not quite as prophetic and included a billfold, with about \$100 in it, taken from a woman at Furr's, and a pair of black boots and a 22 rifle taken out of a car belonging to Oscar Ovalle at 1309 Utah.

### DEATHS

#### William Renfro

COLORADO CITY — Services will be 2 p.m. Friday in the Mount Olive Baptist Church for William Renfro, 64. He died here Monday in Root Hospital, two weeks after he was wounded in a shooting. Rites will be conducted by the Rev. Henry Lee, pastor of the church, and burial will be in the Mitchell County Cemetery under direction of Kiker-Rains-Seale Funeral Home.

He was born in Rusk County June 2, 1908, and had farmed in Mitchell County for 45 years. He was married in 1942 to Julie Mae Bonne. They resided at 1877 Mulberry.

Survivors include his wife, five daughters, Mrs. Jesse Mae Tellis, Gracie Mae Rogers, and Mrs. Ruby Tyron, all of Fort Worth. Mrs. Bobbie Jean Smith, Houston, and Mrs. Wanda Laverne Page, Portsmouth, N.C.; two sons, Albert Renfro, Henderson, and William Renfro Jr., Fort Worth. He also leaves a sister, Mrs. Zaida Louis San Francisco, Calif.; three brothers, J. D. Renfro, Sand Springs, Okla., Luke Renfro, Amarillo, and Harvey Renfro, San Jose, Calif.; 26 grandchildren and five great-grandchildren.

#### L. J. Davidson

Funeral services were to be held at 2 p.m. today in Nalley Pickle Rosewood Chapel for L. J. Davidson, a former county commissioner, who died Monday.

Palbearers were Curtis Tomlin, D. H. Griffith, Jerry Musgrove, Phillip Riddle, Carol Walker and Dean Holland.

#### Harry A. Pond

Last rites were held Monday 2:30 p.m. in Kiker-Rains-Seale Funeral Home for Harry A. Pond, 85, retired former district clerk of Mitchell County. The Rev. Glen Roentfeld, pastor of First Baptist Church, officiated, and burial was in Colorado City Cemetery.

Mr. Pond was born Aug. 7, 1887, in Anderson, Ind., and

#### Mrs. G. Heredia

Graveside services for Guadalupe Heredia, 80, will be at 2 p.m. today in the Big Spring State Hospital cemetery, Chaplain Lee Butler officiating.

Mrs. Heredia formerly resided in El Paso. She died in Kermit Sunday and was an outpatient at the local hospital.

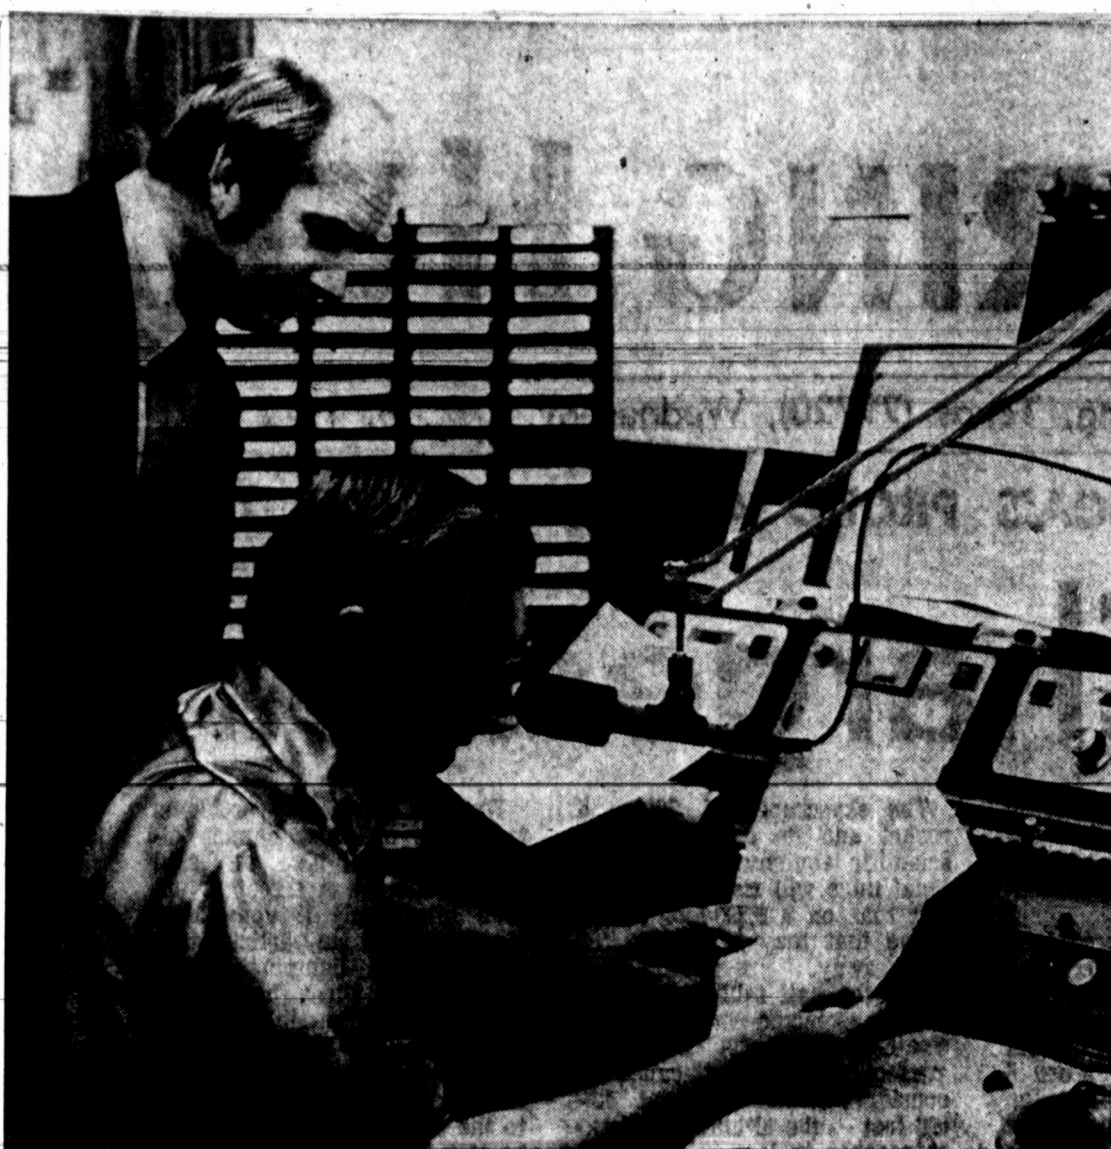

There are no known survivors.

#### Daniel G. Arnold

Services will be held Thursday at Grove, Okla., for Daniel Glen Arnold, brother of Big Spring residents. He died Tuesday morning in the VA Hospital in Fayetteville, Ark., after a long illness.

Arrangements are in charge of Cosby Funeral Home in Grove, and burial will be in a cemetery near Jay, Okla. Mr. Arnold, who was one of seven brothers who served from Big Spring during World War I, had been retired from the U.S. Army six years. One brother, Hubert C. Arnold, was killed in an air crash near Albany while he was stationed at Del Rio in World War II.

Mr. Arnold was born May 7, 1910 in Coleman County and was reared in Hawley before moving here. He was married to Modena Matlock January, 1944. She survives him as does his mother, Mrs. D. A. Arnold, Abilene; three sisters, Mrs. Gladys Harden, Martinep, Calif., Mrs. L. E. Laune Beene, Big Spring and Mrs. O. E. (Lillian) Holland, Portales, N.M.; five brothers, Curtis Arnold, Big Spring, Lewis Arnold, Lampasas, Abner Doyle Arnold, Wilson B. Arnold and Walter N. Arnold, all of Abilene. Mrs. Benne and Curtis Arnold will be unable to attend the last rites.

OVER THE TOP—Don Norman, announcer at radio station KBYG, ended his successful marathon at 6:03 p.m. Tuesday when the United Way total went over the \$13,640 goal. Norman had been on the air for 36 hours and three minutes when Class 73-09 at Webb turned in a \$40 collection. Watching is Jim Baum, station manager. Norman was so excited that he hung around for a few more hours.

## Thanks To Announcer, Campaign Is Success

The Howard County United Way for 1973 is over the top. The \$13,640 goal was exceeded at 6:03 p.m. Tuesday in climaxing a marathon appeal on radio by Don Norman, who had been on the air continuously for 36 hours and three minutes.

By coincidence, it was an additional gift from Webb AFB Federal Credit Union which kicked off the continuing wind-up appeal over KBYG; it was a \$40 collection of Class 73-09 from Webb AFB that pushed the total over the top.

In between were some 140 individual, business and organizational gifts which accounted for nearly \$3,500 to write success to the 1973 campaign.

While Norman kept up a constant appeal on the air, several of the old faithfuls of the United Way were out beating the bushes to get people to respond to the appeals with substantial gifts.

EVERYONE HAPPY—Norman himself was so keyed up at the end that he couldn't go home and to bed. Instead, he hung around for another three or four hours.

Robert Hickson, UW campaign chairman, was delighted. "We are so grateful to the people for helping us reach the goal," he said, "and to Don Norman for fringing in there to give us a vehicle for finishing the job when the chips were down. There were a number of volunteers who have worked for the United Way in years past who got out and made appeals to individuals and business operators to go the second mile. And, in perspective, it wouldn't be fair to forget all the work done by the division chairman.

Hickson said that a second-mile brigade composed of J. D. Campbell and spearheaded by Curtis Witte, did yeoman service in picking up contributions called to Norman at KBYG. When Witte had to go out of town, Mrs. Witte took over and continued the pickup until 9 p.m. Tuesday.

The momentum of the final effort continued Wednesday. At noon the total was \$113,665 and more was trickling in.

### Abandonments

Wildcat Monitor Petroleum Corp. of New York City No. 7-C Jones-Holton 2,299 from south and 4,814 from east lines league 246, Wheeler CSL, seven miles northwest of Tarzan; total depth 4,307; plugged and abandoned.

MARTIN — McClellan North (Pennsylvania Reef) — Desond No. 1 McDonald, 467 from the south and 2,173 from the west line of section 19-33-30, T&P, 13 miles northwest of Luther; total depth 2,112; plugged and abandoned.

### Caton Overrules Court Motion

District Judge R. W. Caton overruled motions for continuance filed for one defendant and agreed to motions for continuance filed in connection with eight indictments against another Tuesday.

Overruled were three motions filed for John Howard Smith, who was indicted three times by the last grand jury for possession and — or sale of marijuana.

James William Brown, who faces eight separate indictments for sale of dangerous drugs, was granted continuance to allow more time to prepare for trial.

Talbot will become special investigator effective Jan. 1 over and Moore will be sworn in as present special investigator, and Moore will be sworn in as present special investigator, and Moore will be sworn in as present special investigator.

At last report, she was still running free.

## Charles H. Webb New Dean Of Music At Indiana U.

Charles H. Webb Jr., associate dean of the Indiana University School of Music, has been appointed by the I.U. Board of Trustees to succeed Wilfred C. Bain as dean of the school, next July 1. The announcement was made during the weekend.

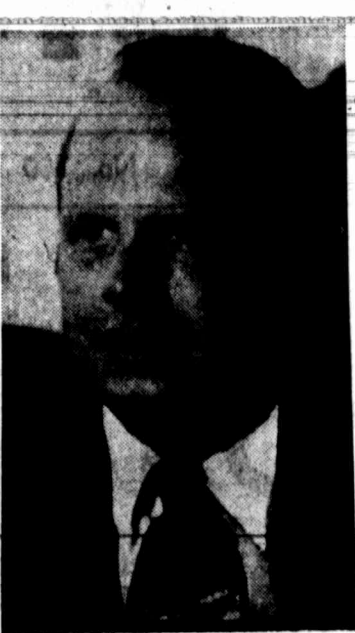

Dr. Webb is the son-in-law of Mr. and Mrs. K. H. McGibbon. Dr. Bain will then have reached the age of 65, at which I.U. deans and department heads must relinquish their administrative posts. Bain holds the rank of professor of music and will continue in the general instructional program of the school.

Indiana is the largest music school in the world, training 1,600 students annually. Adorning the faculty roster are such names as Jorge Bolet, Eileen Farrell, Margaret Harshaw, Josef Gingold, Franco Gulli, Marina Svetlova, Anton Dolin, Sidney Foster, Janos Starker, Ruggiero Ricci, and William Primrose. The school's Opera Theater stages full-scale productions every Saturday night during the school year.

Dr. Webb's appointment to the deanship was recommended by a faculty-student screening committee which worked for the past year and considered numerous persons for the post. "During his years at Indiana University," said I.U. President John W. Ryan, "Dr. Webb has worked closely with Dean Bain in every facet of the School of Music and has proved himself both an able administrator and a person dedicated to academic excellence. We are confident that Webb shares the ideals for high quality musical education so prominent in the career of Dean Bain, and that consequently our great School of Music will maintain its eminence under Webb's deanship."

Dr. Webb, who has been a member of the I.U. faculty since 1960, is equally noted as an administrator and as a musician. He was appointed assistant dean of the School of Music in 1964 and associate dean in 1969. He has served the central administration of I.U. since 1969 as associate dean of academic affairs.

Webb also is chairman of the department of the School of Music and serves as administrative liaison for the Student Advisory Committee. He was coordinator of the Musical Arts Center last spring. In the summer of 1969, he

DR. CHARLES H. WEBB JR.

He has been conductor of the Indianapolis Symphony Chorus since 1967, and has conducted the choir and the Indianapolis Symphony Orchestra in many major choral works, including Handel's "Messiah," Haydn's "Creation," Mendelssohn's Oratorio, and the Stravinsky "Symphony of Psalms." In 1969, he directed the world premier of Dave Brubeck's cantata, "Light in the Wilderness." At Indiana University, Dr. Webb has conducted performances of such major works as Berlioz's "L'Enfance du Christ," Handel's "Messiah," the Verdi "Requiem," and the Brahms "Requiem," as well as full-scale productions of Tchaikovsky's "Nutcracker," Delibes' "Coppelia," and

Giordano's opera, "Andrea Chénier." During the 1972-73 season, he conducted the Philharmonic Orchestra with Van Cliburn as piano soloist.

CONCERT PIANIST — As a pianist, Webb has appeared as soloist on several occasions with the Dallas and Indianapolis Symphonies and Hornbrook also a faculty member of the I.U. School of Music, he continues to tour major orchestras. The duo team recitals and concerts with 15 concerts in Australia has been invited to play a tour coast to coast playing duo-piano during June, 1973.

Dr. Webb has made several recordings, including two recitals with James Pellerite on Coronet Records, and another with Hornbrook on the Indiana University Faculty Series. Dr. Webb's publications with the Shawnee Press include "O For a Thousand Tongues to Sing," a collection of free harmonizations and descants to well-known hymns, and "Choral Sentences for the Worship Service."

STATIONED HERE — Dr. Webb, who is 39, is a native of Dallas, and received bachelor and master's degrees from Southern Methodist University and the Doctor of Music degree from I.U. He was winner of the 1949 "Hend Award" and was soloist with the Dallas Symphony under the baton of Walter Hendl.

Dr. Webb also has appeared in recital with many internationally recognized faculty artists of the I.U. School of Music.

He is married to the former Kenda McGibbon of Big Spring, and whom he met while stationed here. They have four sons: Mark, 11; Kent, 9; Malcolm, 5, and Charles III, 3.

### Forcing Poor To Accept Menial Jobs Not Answer

HOUSTON (AP) — Forcing poor Texans in 1971, about 22 unemployed poor persons to take menial jobs will not solve the problems of poverty in the state, a report prepared for the Texas House Interim committee studying the problem says.

The report, which surfaced here Tuesday, says that the present 38 per cent of the state's adult poor are working and another 31.1 per cent are retired, for a total of 69 per cent. Ninety per cent of all adult males are either retired or employed.

"These data suggest that poverty in Texas is not likely to be reduced very much only by providing similar additional employment for the poor," said Dr. Ray Marshall, chairman of the House of Representatives Department of Economics, in the report.

The study was prepared by the Texas Office of Economic Opportunity, and is the first comprehensive study of its kind in Texas. It was taken from a survey done in 1971 by the TOEO and designed to provide detailed information about poverty in the state to help in preparing anti-poverty legislation, said Samuel L. Price of Houston, one of the citizen members of the House interim committee.

The report said more than half of all poor persons in Texas were either 14 years of age or younger or 65 years of age or older. One-quarter of Texas children and 40 per cent of its elderly live in poverty. There were about 2.5 million

It also said that nationally, 19 per cent of persons with elementary school educations live in poverty while in Texas the figure is 43 per cent. Among college graduates, the national figure is 2 per cent, compared with 3.5 per cent in this state.

Others included: Car on fire, south of the Ritz Theatre, 3:13 p.m. Tuesday. Grass fire on 3rd between Runnels and Johnson, 4:13 p.m. Tuesday. Grass fire in the alley behind 1205 Pennsylvania, 4:42 p.m. Tuesday.

Meet Thursday — The Howard County Farmers Organization will have a business meeting at 8 p.m. Thursday in the Howard County Show Barn. Rodney Brooks, president, urged all those connected with the organization to be present for the session.

### CONCERT PIANIST

As a pianist, Webb has appeared as soloist on several occasions with the Dallas and Indianapolis Symphonies and Hornbrook also a faculty member of the I.U. School of Music, he continues to tour major orchestras. The duo team recitals and concerts with 15 concerts in Australia has been invited to play a tour coast to coast playing duo-piano during June, 1973.

## Plans To Build \$2 Million Shrine Of Virgin Of San Juan

SAN JUAN, Tex. (AP) — Bishop John J. Fitzpatrick of the Brownsville Roman Catholic diocese announced plans Tuesday to build a \$2 million shrine of the Virgin of San Juan.

The first shrine was destroyed by fire Oct. 23, 1970 when a San Juan man crashed a light plane into the church after first broadcasting a warning to churches and schools in a wide area of the Lower Rio Grande Valley. The pilot, Frank Alexander, died in the crash. More than 100 priests and school children escaped without injury.

**INSURANCE**  
Bishop Fitzpatrick said the new shrine, to be modern in design, will be built on recently purchased farmland northwest of the original shrine site. The shrine will seat 2,000 persons, compared with 800 in the old one, and will be surrounded by landscaped grounds, the stations of the cross, prayer areas and shrines to various saints.

### Yule Basket Will Be Given Needy

The Northridge 4-H Club met Monday evening in the home of Richard Yarbar. Plans were made for providing a Christmas basket for a needy family, named to select a family and deliver the basket Dec. 23 were Randy and Jim Bob Phillips, Carol Arbuckle, and Scott Davis.

He said the shrine will be isolated from the rest of the church complex to keep "crass commercialism" from interfering with the worship of pilgrims.

Predicting the shrine will become one of the greatest religious sites in the southern United States, Bishop Fitzpatrick said he believes it will be visited by tens of thousands of pilgrims each week.

Construction of the new parish church, he said, will take about six months. The new shrine is expected to be complete in about two years.

The parish church, will be dedicated to St. John the Baptist, he said.

**Poet Fein Dies**

BROOKLINE, Mass. (AP) — Harry H. Fein, 74, author, poet and translator of Hebrew poets, died Monday.

## Will Take First Steps On Moon Without Whole World Watching

**SPACE CENTER, Houston (AP)** — In a break with the tradition of past lunar missions, the Apollo 17 astronauts will take their first steps on the moon without the whole world looking on.

Apollo 17 astronauts Eugene A. Cernan and Harrison H. Schmitt will work on the moon's surface for more than an hour before the television camera beams a view to earth.

On all previous moon-landing missions, a television camera mounted on the side of the lunar module was activated as the commander came down a ladder toward the moon's surface.

For Apollo 17, the camera is stowed and will not be turned on until Cernan has mounted it on the astronauts' electric lunar car.

**RADIO SIGNALS**  
The first television view from the lunar surface will probably show Cernan and Schmitt unloading equipment from the lunar module.

Apollo 17's lunar surface camera will be remotely controlled by radio signals from earth.

A total of 21 hours and 17 minutes of television is to be beamed to earth from Apollo 17, although much of it will not be seen live on home television.

Here is a timetable of the television from space on Apollo 17 — all times are Eastern Standard:

Dec. 7, 2:05 a.m. — Twenty minutes of television showing the docking of the Apollo 17 command ship with the lunar module.

Dec. 11, 7:49 p.m. — Five hours and 19 minutes of the first moon surface excursion.

Dec. 12, 5:31 p.m. — Six hours and 21 minutes showing the second surface exploration.

Dec. 13, 4:58 p.m. — Six hours, 35 minutes of the final lunar surface excursion.

Dec. 14, 5:41 p.m. — Twenty-five minutes. The camera, remotely controlled, will focus on the moon.

Two minutes showing the moon receding as Apollo 17 streaks out of lunar orbit toward earth.

Dec. 17, 3:19 p.m. — One hour and four minutes showing the space walk of astronaut Ronald E. Evans. The view will be of Evans floating to the back of the spacecraft to collect film and data tape cassettes from a bay of the service module.

**SPACE WALK**  
Dec. 16, 6:46 p.m. — Thirty-

minutes showing the moon receding as Apollo 17 streaks out of lunar orbit toward earth.

Dec. 17, 3:19 p.m. — One hour and four minutes showing the space walk of astronaut Ronald E. Evans. The view will be of Evans floating to the back of the spacecraft to collect film and data tape cassettes from a bay of the service module.

Dec. 18, 6 p.m. — The final TV transmission from Apollo 17 will show the astronauts inside the spacecraft as they answer newsmen's questions relayed to them from Mission Control.

The times of the television from space often will differ from the time of viewing on home television sets. Home viewing will depend upon the scheduling of the TV networks.

**DOGMATISM**  
At a news conference, she and two top theologians criticized the present way of teaching evolutionary theory, saying it often is presented as fact, rather than an unproved hypothesis.

**WAGE SCALE**  
This would not mean to stop forming new religious communities, he said, but alternative buildings are always available — homes, schools, community halls. He said congregations also could share existing facilities.

At the same time, he proposed that the assembly recommend that its member denominations set a maximum salary for all church employees — with money saved this way used to increase pay of those at the low end of the wage scale.

"This action would serve to symbolize our seriousness about reducing excessive consumption while at the same time emphasizing the need to redistribute the limited resources available," he said.

Noted anthropologist Margaret Mead told the assembly that modern knowledge and technology enabled the humanity to "really carry out the injunction to love thy neighbor as thyself."

Some scientists are as dogmatic about evolution as some preachers are about religion," said Dr. Mead, an Episcopalian. "I don't approve of dogmatism of either."

**FRUITS OF SPIRIT**  
The most crucial tendency that must be confronted is the materialism that pervades American life.

Instead of acquiescing to western preoccupation with material products, the church must again work to focus human energies on what Paul (the apostle) calls the fruits of the spirit — on enterprises which only minimally deplete re-

sources and cause pollution."

He proposed that the representatives of 33 denominations with about 43 million members "go on record as opposing all further construction of church buildings."

"It seems to me that only a moratorium on the church's expansion in physical plant can render credible our rejection of indefinitely continued economic expansion."

**WAGE SCALE**  
This would not mean to stop forming new religious communities, he said, but alternative buildings are always available — homes, schools, community halls. He said congregations also could share existing facilities.

## Buxom Actress Weds Executive

**HOLLYWOOD (AP)** — Actress Marnie Van Doren has married a corporation executive she met while both were campaigning for President Nixon's reelection, says a spokesman for the couple.

Miss Van Doren, 39, and Ross McClintock, 51, were married last week in a Las Vegas church, the spokesman said Monday. It was the third marriage for both.

McClintock is a senior vice president of the Fluor Corp. and president of the subsidiary Fluor Drilling Services.

The blonde, buxom actress was previously married to baseball pitcher Lee Meyers and band leader Ray Anthony. She has one son by Anthony.

## Urges Churches To Put Fixed Limit On Pay Paid Employees

DALLAS, Tex. (AP) — A California theologian urged the nation's churches to stop construction of new buildings and a fixed limit on salaries paid church employees — as part of an effort to trim consumption of the earth's resources.

"Simplicity, frugality and self-sacrifice" are demanded in the times ahead, says the Rev. Dr. George Rupp, of the University of Redlands.

Declaring that the planet cannot sustain indefinitely continued economic growth, and that justice demands more equitable distribution of available resources, he told a general assembly Tuesday of the National Council of Churches:

"The most crucial tendency that must be confronted is the materialism that pervades American life.

Instead of acquiescing to western preoccupation with material products, the church must again work to focus human energies on what Paul (the apostle) calls the fruits of the spirit — on enterprises which only minimally deplete re-

sources and cause pollution."

He proposed that the representatives of 33 denominations with about 43 million members "go on record as opposing all further construction of church buildings."

"It seems to me that only a moratorium on the church's expansion in physical plant can render credible our rejection of indefinitely continued economic expansion."

**WAGE SCALE**

# Brain Sensing Device May Monitor Tumors

HOUSTON (AP) — An experimental device to sense the buildup of internal pressure on the brain may in the near future be adapted to continuously monitor the growth of brain tumors in man, a scientific conference was told here Tuesday.

The buildup of pressure brought by tumors, injury or bleeding. A 14-year-old girl with severe head injuries in June was the first patient on whom the device was implanted, he said.

## Gunned In Head By Narc Agent

Ruscetta, vice president of Bio-Tel Western, Inc., of Salt Lake City, spoke at the 1972 National Telecommunications Conference being held here.

Since the brain is enveloped by the skull, any swelling may press it against the bone, doing irreversible brain damage, he said.

Ruscetta said the device is implanted by cutting a flap in the scalp and drilling a tiny hole in the skull. The sensor is put between the skull and the dura, a tough leathery membrane that protects the brain.

The transmitter for the device is put on top of the skull, and the whole thing is then covered with the scalp, he said.

The device can run for about 400 hours, he said, sending out signals to be recorded in graph form and read by the doctor, who can judge at any moment

signs that pressure was rising dangerously, the comatose girl was treated with drugs and other methods to reduce pressure. Ruscetta said she suffered only mild brain damage and her prospects for complete recovery are considered quite good.

Rudolfo S. Vela, 29, died about five hours after he was shot in the head Tuesday by Federal Narcotics Agent Tom H. Walters, 30.

Walters told homicide detective he shot Vela after a high speed auto chase and after Vela threatened him with a .45-caliber automatic pistol.

## Marijuana Rap Jails Fannin

Elbert Lloyd Fannin Jr. was arrested by city police and charged with possession of marijuana. City Judge John Coffee set bond at \$10,000. Fannin was transferred to the county jail Tuesday, and released after bond was reduced to \$2,500.

## Rep. Wright Makes Plea For \$1.2 Billion Canal

FORT WORTH (AP) — Rep. Jim Wright, D-Tex., said Tuesday the federal government should move ahead on the \$1.2 billion Trinity Canal Project because it would help humans

the canal would affect wildlife in the Trinity Valley between the Dallas-Fort Worth area and the Gulf of Mexico. But Wright said the long-discussed barge canal would improve "the environment of man" and said that is far more important than arguments advanced by environmentalists "who rather indiscriminately fight all water development projects."

# Hi-Y, Tri-Hi-Y Groups To Meet Here Saturday

Howard County YMCA Hi-Y and Tri-Hi-Y groups will host one of eight Texas Youth and Government programs and district conferences here all day Saturday at Howard County Junior College.

Over 150 persons are expected including 40 Big Spring Hi-Y and Tri-Hi-Y members, 70 from Abilene and 25 from San Angelo along with several adults assisting with the event.

Martha Perry, president of the Big Spring Y Council will preside. Dr. Thomas Salter, president of HCJC will give the official welcome and Harold Bentley, vice president of the YMCA will extend the welcome on behalf of that organization.

Martha will introduce the officer candidates. Seeking the governorship are John Taylor, Big Spring and Richard Floeck, Abilene. Patti Womack, Big Spring and Juanita Jackson, Abilene, are candidates for secretary of the Senate.

**IN CONTEST**  
In the judicial branch, Larry Crittenden, Big Spring and Mike Stowers, Abilene, seek the chief justice post while Teresa Stewart, Big Spring and Kim Vickers, Abilene, seek the district judge.

Kathy Meek will be named district editor. She pointed out in an article that she submitted

that the local Hi-Y and Tri-Hi-Y clubs have been busy for weeks preparing for what they call "pre-ledge."

"Both the legislative and judicial delegates have been working. Youth attorney teams have been busy meeting with local attorneys learning just what to object and what questions to ask," according to Miss Meek.

Curt Mullins, executive director, will review the agenda. The groups then separate into judicial, legislative and legislative hearing committees.

In the judicial section, three local attorneys will assist including Lanny Hamby, Ben Bancroft and Wayne Burns. They will hold a trial with a district judge and chief justice candidates presiding.

**ACT PROPOSED**  
In the legislative section, there will be an assignment of bills to hearing committees.

Bills presented must be something that is not presently a law. Craig Little of Big Spring will present an act requiring the establishment of a basic rate for the computation of auto insurance premiums and requiring that penalties resulting in altered rates be based solely on driving records rather than age, sex, or marital status of the driver involved.

Another Big Spring proposed law is from Chetnam Brazel proposing an act to make it lawful that all new babies shall be given blood test for the purpose of typing the blood which shall then be recorded on birth certificates and the county record.

Ray Grantham of Big Spring proposes an act amending Section 15 (a) of Article 42.12 of the Texas Code of Criminal Procedure to increase the amount of time to be served before eligible for parole.

Assisting with the legislative hearing committees in session will be Bob Moore, Fred Coleman and John Ferguson, local attorneys and Jack White of the Department of Public Safety.

Hearing committee chairmen will include Martha Perry assisted by Bennett Robb as clerk and Grady Harris, assisted by Pam Priddy.

Miss Hannah Harrison, program supervisor of Hi-Y and Tri-Hi-Y will preside over the election committee. Following lunch in the student union building cafeteria, a legislative session will be held in the auditorium with Grady Harris, presiding. The judicial section will be presided over by justice and chief justice candidates.

Questioning of witnesses by youth attorney teams will include two Big Spring attorney teams of Sharon Jenkins and Diana Owens and Randy Grimes and Donna McDaniel. They will then elect the chief justice and district judge and select two outstanding youth attorney teams.

At 3:30, the election of governor nominees will be held to conclude the assembly.

(Photo by Danny Valdes)

**HONORED**—Named outstanding Adult Education teachers at the Big Spring State Hospital during the past year are Mrs. Frances Johnson and Mrs. Annie Abney. The presentations are made every six months at a covered dish supper for all of the teachers in the program.

## Houston Ship Channel Is Being Cleaned Up

**HOUSTON (AP)**—While pollution in the Houston Ship Channel still exceeds acceptable limits, for the first time in years marine life has been found in its mid-reaches, a joint federal-state pollution conference was told Tuesday.

The public meeting here was an update on a 1971 pollution conference called to abate pollution in Galveston Bay, at the mouth of the ship channel.

Dick Whittington, deputy executive director of the Texas Water Quality Board, said checks about mid-way in the winding, 50-mile channel to the

# Airport Security Funds Puzzle Texas Officials

Officials at Texas airports were wondering today where their money will come from to pay for all the additional anti-jack security measures ordered Tuesday by the federal government.

It seemed, however, that in most cases the cost would be passed on to the airline passenger.

The additional measures were announced by Secretary of Transportation John A. Volpe and they include increases in security personnel at passenger checkpoints and electronic screening of all passengers before boarding.

Volpe said that airport operators must submit within 30 days plans for the new measures and that full implementation would be required within 60 days.

**HEAD TAX**  
Volpe's action prompted a revival in Dallas of the old question of a controversial head tax on departing passengers to raise the estimated \$1 million needed annual income to pay for the added security.

Councilman George Allen, who has advocated the head tax, said the security effort "should be a total obligation of the plane-riding public using the facilities of Love Field."

City Manager George Schrader said tax funds or a new source of revenue might be needed to avoid serious disruption of a planning program for the future of the airport.

**TOO LATE**  
In Houston city aviation director Joe Foster said the new security measures should be solely the responsibility of the federal government.

"Unless someone can tell us some way to find the funds to hire the fleet of guards we would need, I'm not overly enthusiastic about the (Volpe's) plan," Foster said.

Foster said that Houston has between 280 and 300 departures a day and that under the new rules, the additional security would mean a daily manpower requirement of 150 hours.

He also questioned the order that guards be placed at the entrance to the aircraft instead of some other point in the airport.

"In my opinion," he said, "the point of confrontation must be made at some point other than the entrance to the aircraft. In some instances, that's simply too late."

**LOCAL LEVEL**  
In San Antonio city aviation director Tom Rafferty said: "I am still simmering about the decision. We will comply with the new federal requirements, of course, but we are greatly concerned with the matter of cost at the local level."

Rafferty said the total cost of the program at the local level would be in the vicinity of \$200,000 annually.

He added that he thought the primary reason for the change

in regulations was "an attempt by the federal government to cut federal expenditures."

In El Paso officials said they were still waiting for the official word from Washington, but added that they presumed the new regulations would mean "more guards."

Volpe said the new measures were being enacted because "air pirates are showing an increasing disregard for human life."

**HIGHER FARES**  
He said that federal funds would be used to acquire the electronic detection equipment in a program already under way.

But he placed the cost of the passenger screening program and the use of armed guards in the hands of the air lines and airport operators.

# Union Boss Urges Defeat Of Strauss

**AUSTIN, Tex. (AP)**—Texas AFL-CIO President Roy Evans and Secretary of State Bob Bullock have asked all members of the Democratic National Committee to reject Robert S. Strauss' bid for the party chairmanship because of his ties with John Connally.

The two urged Strauss to get out of the race "if he truly puts his party above his personal ambition."

They co-signed a "Dear Fellow Democrat" letter to each national committee members in a move designed to counter what Strauss calls his image of "being the candidate of organized labor and the South."

"While Strauss is undoubtedly a shrewd politician, his most consistent use of his talents over the years has been to advance the political fortune and carrier of his close lifelong friend, John B. Connally," the letter said.

Strauss, a Dallas attorney, was national party treasurer until the Miami Beach convention that nominated Sen. George McGovern for the presi-

dent. Connally, former treasury secretary and Texas governor, was national chairman of "Democrats for Nixon" during the recent campaign, while Evans and Bullock worked for McGovern.

## Lions Buried In Clothes

Response to an appeal for good, used clothing has been so great that the Evening Lions Club has been obliged to ask people to hold up for now.

The club asked that these items be brought to Thompson Furniture for relay to Big Spring State Hospital where many patients did not have serviceable clothing.

"You can't imagine how generous people have been," said Squeaky Thompson, chairman. "We've literally been covered with clothing — and I mean good clothing that any of us would be proud to wear. We've had big bundles brought in from as far away as Garden City. There have been all kinds of clothing, including good shoes."

But after seven or eight truck loads have been taken to the Big Spring State Hospital, storage is exhausted and needs of patients have been met for now. Thompson said the club wanted to express its gratitude to everyone who responded so promptly and generously to the appeal.

## Sample Flow Has Boomed

The USD cotton classing office in Abilene classed approximately 22,000 samples for the week ending Dec. 1, bringing the seasons total to 84,000. This compares with 7,893 classed at the same date last year.

Snow and rain stopped harvesting one to three days, but failed to slow the flow of samples received by the classing office, reports B. B. Manly, officer-in-charge.

Cotton prices improved last week. Grade 4131 brought from 21.70 to 23.75 cents per pound. Grade 5131 brought from 20.35 to 22.35 cents, grade 4231 brought from 20.95 to 22.75 cents. Grades reduced on account of bark were reduced half a cent per pound.

Samples improved with 55 percent in the white grades 39 per cent light spotted and 5 per cent spotted grades. Thirty-two per cent was reduced on account of bark.

Staple lengths continued good with 16 per cent staple 30; 48 per cent staple 31; 27 per cent staple 32; and 10 per cent longer than 32.

Micronaire readings showed little change with 84 per cent in the premium 3.5 to 4.9 category. Three per cent read higher than premium; 12 per cent below premium.

Fiber strength was about average. Tests showed 20 per cent in 70,000 to 74,000 pounds per square inch (PSI); 46 per cent 75,000 — 79,000 PSI; per cent — 80,000 — 84,000 PSI; and 7 per cent higher.

## Wire Is Pilfered

Between Oct. 15 and Dec. 4, two rolls of galvanized bull wire worth an estimated \$156 together were stolen from the FIA Barn two miles north of Coahoma, Deputy Sheriff S. K. (Sam) Roberts was informed Tuesday.

## United Unit Eyeing Bank

**ODESSA** — The board of directors of the First State Bank, Odessa has announced it had taken action to join with The First National Bank of Fort Worth as a member of the First United Bank group. The First United Bancorporation, Inc. is a multi-bank holding company headquartered in Fort Worth, and with assets of \$687 million. It has eight other banks in its group.

According to the joint announcement by Paul Mason, president of First United Bancorporation, Inc., and James R. Perry, board chairman and president of the First State Bank, First United will make an offer to purchase for cash all the stock in First State Bank.

The acquisition plan is subject to final approval of the Board of governors of the Federal Reserve System and other applicable regulatory agencies.

"The First State Bank looks forward to working with the First United to strengthen this bank's range of services and complement the industrial growth of the Odessa area," Perry stated. He also said that no changes in the bank's management structure would occur as a result of the merger.

First State Bank has total assets of over \$30.8 million and total deposits over \$27.6 million as of October 10, 1972. The bank was established in 1945 and is located in the center of the Permian Basin — a rich oil producing area of west Texas.

## Right To Die If That Is Their Wish

BOSTON (AP) — Persons suffering terminal illnesses should be confronted with the facts and given the opportunity to die if that is their wish, a welfare conference has been told.

"When a terminal patient is either comatose, or in great pain, the physician is morally right to hasten his death, but legally he may face homicide charges," the Rev. Jack W. Jensen said.

The Rev. Mr. Jensen, Protestant chaplain and associate professor at Colby College in Waterville, Maine, told a seminar on the "Right to Live or Die" at a welfare conference that the time has come for society to permit doctors to end the terminal illness of persons who want to die.

"Day in and day out the physician is faced with patients who ask him to allow them to die," he said. "And in many cases it is as simple as pulling a plug."

The Rev. Mr. Jensen recommended that a review board—made up of the patient, his family, his physician and a lawyer—be set up to decide whether or not a terminally ill patient should be allowed to die.

Dr. Melvin Krant of the Shattuck Hospital in Boston criticized the attitude which most families and medical workers have toward the dying person.

One of the larger problems the patient faces, he said, is that no one is willing to tell him that he is dying.

In many cases, he said, the doctor does not inform the patient that he is dying, and nurses and social workers often evade the patient's questions, because they are afraid of offending the doctor.

"But," he said, "this is just passing the buck. It is also the responsibility of the nurse or social worker to tell the patient he is dying."

## Waterway Uncovered

SYDNEY (AP) — Sydney's Tank Stream is to flow through one of the basement floors of a 33-story building being built in Pitt Street.

The Tank Stream, the colony's first fresh water supply, has been little more than an underground storm-water channel since 1926. Then convict gangs enclosed it with handwoven blocks of sandstone and the buildings of the day were put on top of it.

In recent years as new buildings with deep foundations have gone up, the Tank Stream has been put in various forms of new channel. It flows generally between George and Pitt Streets, and parallel to them, and empties into Sydney Harbor at Circular Quay.

The latest uncovering of the waterway—usually a trickle but a torrent after heavy rain—has come in the building of the Exchange Center, a \$40-million proposition on a one-acre site at the corner of Pitt and Bond Streets and taking in part of Hamilton St.

Curious crowds watch the relocation of the stream and admire the tight-fitting stone work done 146 years ago.

In the first step, the stream is being relocated in a channel of 5-foot-diameter pipes which has been laid beside it. The original stream channel will go as foundations are deepened. In the building construction the permanent channel will be put on one of the higher of the six basement floors. It will pass through a ceiling of the car park ramp.

The development, which will house Sydney's Stock Exchange, is expected to be finished in 1975.

## Studying Roswell Track For Horses

ROSWELL, N. M. (AP) — The Eastern New Mexico State Fair Board is studying the possibility of establishing a year-round quarterhorse training track at Roswell with pari-mutuel wagering during the annual fair.

Fair board president Rosland Tessier said in Roswell Monday the proposed \$400,000 training facility could make Roswell and the Pecos Valley the quarterhorse center of the nation.

He said, "The immediate and successful establishment of a track will depend in part on the outcome of a professional feasibility study to include pari-mutuel racing in the fair, which is held every fall."

Tessier said the track should not offer serious competition with the state's current tracks because racing dates would be requested only for the six-day fair. The 1973 fair is set for next September.

3 ♠ Pass 4 ♠ Pass  
Pass Pass

Opening lead: King of ♥

West was forced to surrender the game fulfilling trick to his opponent today, when he failed to take the necessary measures to avert an

endplay.

West opened the king of hearts against South's four spade contract, and continued with the queen, as everyone followed. With all the hearts now accounted for, there might be a temptation to shift the attack; however, in view of South's aggressive bidding, West was afraid to break another

suit. Without any further reflection, he chose the apparently safe exit of the ace of hearts which declarer ruffed.

A club was led to the ace and South ruffed the club

continuation. The North hand was reentered with the ten of spades, and declarer ruffed the remaining club with the nine of spades. The jack of spades was overtaken by the queen to draw trump and complete South's stripping operation.

Now a diamond was led, East put up the jack in an attempt to avert the oncoming endplay, but his brave effort was to no avail. South covered with the queen of diamonds and West was in with the king. Declarer now held a tenace in the suit with the ace-nine. Whether West returned a diamond away from his jack, or shifted to a heart—which gives his opponent a ruff and discard—he must surrender the game fulfilling trick to South.

Altho West could hardly be expected to anticipate the precise end position, his holdings in the side suits should have suggested the desirability of retaining a safe exit card. Instead of leading a third heart, it would have been better to get out with a trump which is equally safe.

Had South not been given the benefit of a heart ruff by his opponent, he would have been unable to strip out dummy's side cards and would have been obliged to play diamonds himself. After the finessing of the queen loses to West's king, the latter can now exit with the third heart if he chooses, and wait to score the setting trick with the jack of diamonds.

## Mayor's Son Hit With Pot Charge

BROWNSVILLE, Tex. (AP) — The son of a Lower Rio Grande Valley mayor was free on \$10,000 bond today after being charged with smuggling marijuana and with possession of marijuana with the intent to distribute it.

Adams is the son of San Benito Mayor C. T. (Pete) Adams Jr.

John William Adams, 20, and Thomas Gray Medders, 19, both of San Benito, were arrested near the Rio Grande north of Hidalgo late Friday by U.S. Customs officers who said they found 92 pounds of marijuana.

U.S. Magistrate William Mallet set bond at \$10,000 each.

## Holiday Mailing

WASHINGTON (AP) — The U.S. Postal Service today reminded customers of the recommended deadlines of Dec. 10 for mailing holiday parcels and Dec. 15 for cards and letters to be delivered within the contiguous 48 states.

## Not Worth It

Jean Adams  
TEEN FORUM

**HOOKED: (Q.)** John takes me out. But about 8:30 he starts fooling around with Sara. She's my girl friend and we double date with John and his friend.

"When I complain about what he does with Sara, John says: 'Don't bother me. We are not going steady. I've never got hooked on a broad before, and you are not going to be the first one.'"

Please tell me what to do. I asked my parents and they told me he isn't worth it and I should drop him. I can't. — John's Girl in Georgia.

(A.) You are hooked on John and he, either knowingly or unknowingly, is warning you that he is not hooked on you

and isn't planning to be. I am afraid that I will have to agree with your parents that, besides not loving you, John isn't worth it.

**ATTRACTING BOYS: (Q.)** I'm in the ninth grade. Everyone says I have a cute face and figure. My friends say boys like me, but they hardly ever talk to me.

They talk most to girls who flirt with them. But they also talk about the flirts behind their backs. I am not a flirt and don't want to be one. I am not snobby either.

How can I get boys to pay attention to me without putting on a show? — No Boy Friends in Alabama.

(A.) Most boys do not really

like girls who are show-offs. They like girls who are real and honest and sincere and clean and naturally attractive.

Be that way. Be your authentic self. Then when boys do begin to notice you it will be for what you are, not what you pretend to be.

(Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 2462, Houston, Tex. 65 77001.

# BANKS AND CROOKS — 1

## War Between Thieves, Banks Never Stop

By JACK WEBB  
Copley News-Service

On the night of Friday, March 24, 1972, a charge of plastic explosives was set off inside the United California Bank building in Orange County, just south of Los Angeles.

The bomb blast ripped open the big vault, laying bare a fortune in money, securities and jewels.

### BOMB BLAST

The men surrounding the vault waited a few minutes, then congratulated one another. The bomb blast hadn't been heard.

By Sunday night they had carted off \$4 million in currency and other valuables. So far only three of the estimated five burglars have been caught, and little of the money recovered.

It was one of the biggest bank burglaries in history.

For those who thought the days of big-time bank burglaries were over, the Orange County caper was a rude awakening. Stunned bank spokesmen bitterly claimed that the Federal Bureau of Investigation had told them that bank burglaries had become so uncommon they could be ignored.

According to several bank of-

ficials and law enforcement officers, however, there have been other big bank burglaries around the country in the last few years, and they have been kept hush-hush.

### HARD LOOK

"Since learning of this job, and of the other jobs that took place without our knowing about them, you can be sure we are going to take a good, hard look at our security systems," said an official of another bank.

No one suspects that the 1930s are back, complete with "syndicate"-inspired burglars and flashily dressed gunmen holding the police at bay with submachine guns.

The trigger-quick gangs of the 1930s have been replaced by cool, professional burglars skilled in electronics and explosives.

Though they are pulling fewer jobs these days (471 in 1971 compared to 651 in 1968), they seem to enjoy increasing success.

At the same time, bank robberies are soaring. Stickups, of banks, usually by lone gunmen, are up 122 per cent since 1968.

### EXTRA MONEY

And the robbers' ranks — which have included a 12-year-old on a bicycle who robbed

an eastern bank, and professional men trying to pay off gambling debts — have recently been swelled by extremists trying to pick up a little extra money.

"A number of these robbers have been extremist groups," said Rex Schroder, an FBI expert on bank thefts.

But the men and one woman who allegedly burglarized the Orange County bank belong to a more elite group — the traveling professional bank thief.

"Some of these groups are active throughout the country," said Schroder. "They'll knock off an East Coast bank and then catch a plane west and rob another."

"We had a bank rolled in Baltimore, Md., recently. The guy got on a plane and flew to L.A. and rolled another, then flew to a northwestern city and rolled another."

"He might also be part of one of these extremist groups," Schroder said.

### ALARM SYSTEMS

Bank burglars are becoming increasingly sophisticated. In the old days, all they needed was a big charge of explosives; a quiet night and a quick getaway car.

Now they have to have an electronics expert to cut out the sensitive burglary alarm systems. The biggest banks, for example, might have as many as three or four systems. They can have a sound detector, which will pick up noises anywhere in the building. Then they often have heat-and-pressure detectors in the vault itself, which will detect a hard blow or the burn of a torch.

An alarm will usually ring when the vault door is opened, too.

If the burglar can get around these systems, the easiest part is getting into the vault itself.

"I can get into any vault in 45 minutes or an hour," said one veteran safe expert, Tom Demont of the A-1 Lock and Safe Co., in San Diego, Calif.

Burglars usually will hit branch bank offices, since they are often isolated and not as well protected. The Orange County burglars (who reportedly hit an eastern bank earlier for a cool \$2 million, though the details were kept confidential) hit a branch office.

### FBI CITY

A vault in a branch bank is usually made up of a foot or two of concrete with hardened steel shell inside. Vaults at the

main office of a bank may be larger — with the largest being the vault of the Chase Manhattan Bank in New York. The Chase vault has six doors weighing 40 tons apiece, compared to the five-ton weight of the vault door of the looted Orange County bank.

This is a far cry from early bank vaults.

One such vault was made of granite blocks, scooped out so cast-iron balls could be put inside. Easy meat for a burglar with dynamite.

Burglars nowadays have sophisticated tools to aid them. Increasingly, they are using the recently developed and perfectly legal "burning bar," an eight-foot-long metal tube made of various alloys that burns at a temperature approaching that of the sun. It will burn through steel as if it were butter, and will also melt concrete — something earlier torches had a hard time doing.

### FIGHTING BACK

But the banks are fighting back. The search to foil the professional burglar, as he develops new tools, will continue. The recent bank burglaries seem to insure that.

Next: Cops, Robbers And Expanding Money.

## BIG SPRING HERALD

SEC B BIG SPRING, TEXAS WEDNESDAY, DECEMBER 6, 1972 SEC. B

### Planetarium Program Set

"The Star of Wonder", a phenomenon that has puzzled astronomers and Bible scholars for centuries, will be presented in a Christmas program at the Big Spring High School Planetarium on three dates.

The programs are set for Sunday, Dec. 10 at 2:30 p.m., Tuesday, Dec. 12 at 7:30 p.m. and Sunday, Dec. 17 at 2:30 p.m.

The program will examine the historical setting at the time of Christ's birth. Special attention will be given to natural occurrences that have been present since His birth as possible explanations for the Christmas Star.

The planetarium is best reached by taking the west entrance off Tenth Street, according to Gary Carlson, high school science department.

Only the north door of the planetarium will be open. These programs are for the general public and no admission is charged. However, limited seating is available and all seating is on a first come basis.

### Young 'Hero' Dies

RICHMOND, Va. (AP) — Charles Edward Elliott Sr., 30, the youngest American taken prisoner during the Korean War, died Monday. He was 17 when he joined the Army, 18 when captured by the Chinese in 1951. He was released in 1953.

### Lee Roy Colgan's Work Is Cited By Director

Lee Roy Colgan came to Dawson County in 1948, 24 years ago, as the county agent. He's still there, serving in the same capacity. He served one year as assistant county agent in Lubbock County prior to arriving in Lamesa.

Today at the week-long State Extension Conference at the HemisFair Convention Center in San Antonio, Dr. John E. Hutchison, director of the Texas Agricultural Extension Service, recognized Colgan with the Texas Superior Service Award for outstanding educational programs.

His work in demonstrations with crops and livestock has resulted in over a million dollar boost for the county's economy.

The citation accompanying the award stated: "For providing dynamic leadership for youth development, designing specific educational programs for agriculture, agribusiness and community groups and for the advancement of modern technology for the citizens of Dawson County."

Colgan holds a B.S. degree from Texas A&M University. Under Colgan's leadership Dawson County was one of the first to begin demonstrations with hybrid grain sorghum — a move that has increased county agricultural income by more than one-half million dollars each year. During the past five years, he has been involved with county producers in a nearly complete changeover in cotton varieties.

### Carsickness

Your Good Health  
Dr. G. C. Thosteson

In my remarks about carsickness children, I made no mention of faulty vision, which may well have been the most serious omission of the year.

A couple of readers pointed out instances.

Dear Doctor: My daughter went through the same torture. I even carried garbage bags for her to throw up in. Someone told me to let her wear dark glasses, sit up, and look straight ahead, not to either side. It worked. — Mrs. A.L.G.

And another:

Dear Doctor: As a child I got carsick and never outgrew it. Even with three children of my own, I still got sick in a car or swing. My children also had the problem but outgrew it. I only found relief when I started wearing glasses. — Mrs. V.T.

The explanation for this came from another source, an ophthalmologist with whom I had worked some years ago. Oliver L. Richards Jr., M.D., now of Ogden, Utah, estimates that as many as 60 to 70 per cent of carsick children have a certain amount of astigmatism — neither too much nor too little! To quote from his letter:

"We find that when the astigmatism error is between 0.75 and 1.25 diopters that the

child is very frequently carsick. Less astigmatism than this causes no trouble, and more simply causes a blurring of vision which the person gets used to."

But with a low degree of astigmatism, the eye muscles attempt to adapt by rapid motion, and this rapid motion, trying to achieve clear vision of the passing scenery, leads to the carsickness. While, obviously, some carsickness (motion sickness) can occur from other sources, this clearly is too important a cause not to keep firmly in mind.

Another point in the same letter advises:

"Another thing is that women or men in the age 42-to-50 bracket who start complaining of sleepiness in the evening when reading the paper, or start complaining of headaches when they wake up after a full night's sleep, or wake up in the middle of the night with headaches, or have headaches over the brow, these are similar symptoms are almost always, in this age group, due to the fact that they are starting to need bifocal or reading glasses."

Dear Dr. Thosteson: If you had rheumatic fever in past years, is it possible that you could develop a mental illness later? — Mrs. N.S.

There would be no relationship. The big danger of rheumatic fever is that repeated attacks of it can inflame the heart valves, damaging them by the resultant scar tissue.

Dear Dr. Thosteson: People tell me they have colitis, others have diverticulosis. What is the difference between the two ailments? Can they be cured by diet? What causes these ailments? — Mrs. J.K.

Diverticulosis is one form of colon trouble; colitis covers quite a variety of troubles in the same organ.

The essential difference is that bulges (few or many) develop in the wall of the colon and that is diverticulosis. It is extremely common, but in many cases it causes no trouble, and unless severe, it can be quite readily controlled by proper diet.

Colitis in its various forms ordinarily is much more difficult to control, although it is true that in some cases diverticulosis can be complicated by inflammation, and in extreme cases can require surgery. Those, as I said, are extreme cases.

Colitis does not necessarily involve those bulges, as in the case with diverticulosis, but if the bulge becomes inflamed, one has diverticulitis which is a form of colitis.

Diverticulosis is a bulge in the digestive tract. To become more familiar with the subject, write for Dr. Thosteson's booklet, "Don't Let Diverticulosis Throw You," enclosing a long, self-addressed (use zip code), stamped envelope and 25 cents in coin to cover cost of printing and handling.

# Riddle About Taxes

How can President Nixon fulfill his pledge not to ask for new taxes when Congress convenes in January? He may be able to do it with a meat-ax approach, but auxiliary problems must trouble him.

The President's goal is to keep expenditures within a \$250 billion ceiling for the 1973-74 fiscal year. This would be helpful in reducing a budget deficit, but economists estimate that even if he reached that goal, the budget would still register a deficit of \$20 billion to add to the \$100 billion deficit accumulated during his first four years in office. The \$20 billion anticipated deficit would indeed be an improvement over this year's estimated deficit of \$33 billion.

The military budget appears to be an attractive area for expenditure cuts for some observers, but not for the President. He told Garrett D. Horner of The Washington Star-News that he planned little change in that budget, except for some "thinning" of civilian Pentagon employees. Other defense cuts, he said, would be "minimal."

In view of the outcome of the election, the President can hardly believe that Congress will make any cuts in that 50 per cent of the budget which goes towards welfare, income security (Social Security, etc. and certain other related programs). Cutting expenditures therefore becomes a do-it-yourself project for the President.

He may, as some of his associates suggest, simply refuse to spend appropriated funds for some programs. This would anger Congress, although its recent permissiveness indicates it might not react with anything more lethal than rhetoric.

Alice M. Rivlin, an economist with the Brookings Institution, isn't beguiled by the President's promise.

"The real question is not whether federal taxes

will go up, but which taxes, and how much," she wrote in a New York Times article.

Of course, the President can refuse to recommend any new taxes, wait until the Democratic Congress levies them, and then label the Democrats as spendthrifts. But this seems too negative an approach for an activist President. The riddle seems unsolvable at this point in time. The people will have to wait patiently for the President to produce a rabbit out of his hat.

# Justice Of Peace

The Howard County Commissioners Court has named Gus Ochotorena to be Justice of Peace, Precinct 1, Place 2, for the remaining two years of the term of the late Jess Slaughter.

He deserves the support and good will of all in fulfilling the duties of this office. There is no point reading into his selection that he has a Latin surname; indeed, Commissioner Simon Terrazas has demonstrated that this does not count with voters in selection of public officials. Mr. Ochotorena, however, does have the ability to render bi-lingual service in dealing with defendants and others who speak Spanish. What counts is doing the job effectively.

During the next session of the legislature, proposals for reform of the judicial system will be considered, and it is possible that there will be a revision of the system of courts, particularly at the lower level. This may mean replacing peace justices with magistrates having a great deal more latitude and jurisdiction. In the interest of justice in a contemporary setting, this needs to be done. Knowing the uncertainties of the legislature, this is no cinch, however. Regardless, during the next two years, the county's second member of the justice of peace team merits the cooperation and good wishes of all.

# Family Crisis

## Around The Rim

Joe Pickle

Few things are more exasperating than car trouble, particularly when you're way out from nowhere, or when you're facing an emergency so far as time is concerned, or when one thing after another seems to beset the family chariot.

MERE MAN, before a balky machine, seems utterly helpless. If he were a mechanic, the contraption wouldn't act this way in the first place, but since the average person is completely mystified by a collection of moving parts, he settles for raising the hood and peering upon the engine. He doesn't understand what's down there and what's not happening, but like passing the collection plate in church, raising the hood is part of the ritual.

IT'S ENOUGH to make one wish for the "good old days" when you could always depend on Old Dobbin to get you where you were going, even if a little slower and maybe not too comfortable or smooth.

But not really. I remember — though vaguely — one reason why Old Dobbin had his troubles, too. And if you haven't seen a sick horse, or cow, or any domestic animal for that matter, you don't know what anguish this can cause. It's worse than a member of the family, for people can talk.

ONE HORSE of a team belonging to a family which lived near us came down sick one evening. In addition to being almost a pet, the poor horse represented also a part of the family's potential for a livelihood. You can understand the crisis.

There wasn't a veterinarian in the town, and only home remedies could be applied. Neighbors came in and offered advice and help, but still the poor creature continued to swell and to suffer.

DARKNESS CAME on, and it deepened the tragedy. The family huddled around, comforted by friends in the neighborhood. The children spoke comforting words and patted on the agonizing brute. The mother of the family, joined by her friends now and then, sobbed when all else failed.

Men tried to get something down the animal, but now collapsed, he was unable to raise his head. So a tripod was rigged overhead and a rigging put around the horse to lift up his head and front end. A long-necked bottle, filled with some concoction, was poured down the horse's gullet. He was lowered to his side, and a greased rubber hose was inserted in the other end.

STILL THE faithful friend labored as though each breath was his last. Some of the men watched, by the light of a kerosene lantern, the eyes which seemed to bug and roll back. Others huddled around a flickering fire, and the kids, with mama, bunched under a quilt.

Finally, after an eternity, there was a faint spew of gas, and soon it became substantial. One man pressed on the rib cage as if to expedite the lessened pressure. The father clapped the horse gently on the neck and stroked tenderly; the mother again sobbed softly, this time in thanks.

# Crazy Measurements

Robert E. Ford

Now and then someone comes up with the idea of converting the United States to the metric system. It just will not work in Texas and the South-west.

This whole part of the country was laid off by first one sort of measurements and then another. If you add a new one, we can just see all the surveyors jumping off the tallest buildings in their vicinity to avoid the new paper work.

THEN WHO would measure all these housing developments and lake recreation lots? Nobody. The land business would end, the building industry would collapse, the hardware stores would close, and so on until everybody would be in bad shape.

The Indians, French, Spanish, English, Irish and Scotch all brought their personal measurements with them. Some they stole from the Romans and the Egyptians and other foreigners.

How many of these can you identify and measure? Arpen, vara, league, acre — bet you can't — barrel, sleep, rod, perch, mile, hand.

Asking how long is a mile or how big is an acre is like asking "How long is a piece of string?"

AN ARPEN is an Old West measurement brought from France and is about an acre.

An acre is based on how much land a man can plough in a day. This was established before the tractor, naturally.

But the definition does not say whether the plowman used fast or slow mules, or bullocks or one animal or two, and whether the beasts really worked at it or doped off by stopping now and then to nibble a little grass.

The matter has settled down so that an acre in this part of the country is 160 square rods or perches equal to 4,840 square yards.

The contrary Irish have 7,840 square yards in their acre, and the Scotch, naturally, refuse to agree with the Irish and have an acre of 6,150 2-5 square yards.

A perch and a rod are the same, equal to 3 1/2 yards.

A VARA is defined rather loosely as 32 to 43 inches. That's pretty loose.

Hand is applied mainly to horses and is about four inches.

"League" is another indefinite distance equal to about three miles.

"Sleep" is an old Indian distance measurement, meaning how far a man could travel in one day. Today, automobile travelers often use the Indian system, estimating travel time from place to place rather than miles.

The oil industry had a terrible time in its early stages. No one knew how big a barrel was.

Barrels in those days were of wood and were hand made, and the size depended on the mood of the cooper, that's a barrel maker, the dictionary says and the size of the wood he had on hand.

It didn't make much difference, anyway, because oil wasn't worth much then.

Well, the oil barrel finally became a standard 42 gallons, based on the wine, fish and sprucebeer barrels.

But what is a gallon?

TAKE YOUR choice. The English "imperial" gallon is the same as 10 gallons of water. We use a smaller gallon based on the Queen Anne gallon used to measure wine.

Seems like every measurement grew smaller in the United States like the gallon and the acre. Yankee trading ingenuity is what it was.

The mile was invented by the Romans and was equal to a thousand paces — a pace is two steps or five feet in this instance.

That was smaller than the U.S. mile. Yet you might know that the free-handed Irish mile is 1.2737 times the U.S. distance of the same name, while the Scotch mile is 1.127 times the American distance.

People in early times were somewhat casual about measurements. The digit, ancestor of our inch, was with width of a forefinger. But was it a skinny or fat forefinger?

The foot — guess what? It was based on the human foot. The mysterious Stonehenge ceremonial stone arrangement in England was constructed 4,000 years ago using a foot of 11.7 inches.

The Greeks had a "foot" a little larger than the U.S. one. Their big toe, must have come from running around in the hot sand in the Greek Islands like our Beautiful People do now.

THE "CUBIT" the Bible talks about was about 20 1/2 inches, based on the distance from the elbow to the longest finger.

Even in our time, we have seen women measure a "yard" by the old method. This from the nose to the thumb. If you're buying some of the current expensive cloth and want to buy by that method, get Will Chamberlain to go with you. He'll measure your money's worth.

The argument for turning all America to the metric system is that it will help foreign trade with those countries now on metric measurements.

Another is that calculations will be easier with a system based on the numeral 10.

Did you know that we probably still would be counting on our fingers if someone hadn't invented the zero about 1,100 years ago. That made mathematics possible as we know it today.

BUT GUESS we'll just have to learn how to measure in meters eventually.

W. A. Wilson of KBOR in Brownsville tells a story about how close we are.

Almost all the Brownsville football fields were laid out in meters this year because the workmen used the wrong side of a tape measure.

Some games were played on these fields before anyone discovered the difference.

# A Devotion For Today..

From that time many of his disciples went back, and walked no more with him. (John 6:66)

PRAYER: Dear God, we want to live the Christian life, but so often anxieties, the cares of everyday living, desire for power, fame, or popularity lure us away. Forgive us and help us. Amen.

(From the "Upper Room")

# My Answer

BILLY GRAHAM

I am troubled about sex and my attitude toward it. If a person prays nightly to be healed from the desire for sexual relations, will he ever be healed? N.J.M. You speak of sex as though it were a disease.

This is not true. It is not an affliction, but rather, an asset. It is one of God's greatest gifts — if properly used. No, God will not heal you of sex, but if you have "sick" ideas about it, as so many today do, he will heal your mind. The Bible says, "Let this mind be in you which was also in Christ Jesus." Philippians 2:5. Jesus Christ, our Lord, was a single man, and obviously, had all the sex potential of a virile young man. He sublimated this great power, however, and diverted it to creative living, in the service of God and man.

Since He is our example, He offers the greatest illustration of how to handle sex for the single person. Sex is an important component of human personality, but God certainly has given us other traits of even greater importance. Jesus used these other gifts, and developed them as no living man has ever done.

Instead of letting his mind concentrate on passion and sex, His love went out to others. He found joy in service. He said, "whoever wants to be great must become the slave of

all." Mark 10:44. He spent His days profitably, helping people find the forgiveness and love of His Father. He spent His nights in prayer and communion with God.

Don't pray to be delivered from sex, but that you may be released from its bondage.

# Americans Going Into Debt

John Cunniff

NEW YORK (AP) — Americans are going heavily into debt again after imposing a Spartan-like regimen on themselves beginning in the summer of 1969, when economic and other fears overpowered the buying instinct.

In October alone they added credit of \$1.92 billion, a record for any month. Excluding home mortgages, it brought consumer credit to nearly \$150 billion and the peak of the surge may still be many weeks away.

The greatest single category of credit is for the purchase of automobiles, although the more recent increases quite likely reflect in part the activities of early Christmas shoppers. Regardless of how the money is being used, it is considered significant because it indicates a fundamental change in consumer psychology — from fear to confidence, from lethargy to enthusiasm.

The disease that afflicted consumer buying had been accompanied by a surge in the rate of savings that peaked at 8.6 per cent of take-home pay in the second quarter of 1971. Since that time the rate has been declining, although there were indications it was leveling off at a rate around 6.4 per cent. A drop of that magnitude adds at least \$15 billion a year to sales.

It is because of this enormous market power that retailers in recent years have been especially attendant to consumer moods and why the study of consumer attitudes and expectations has risen in importance.

Just a little more than three decades ago relatively few Americans had what is called discretionary spending power — that is, a choice in how their money was to be spent. For millions of people, all money earned was committed to necessities.

Consumers today have an increasing amount of discretionary income and, as a result, their behavior is less predictable in retail markets. Even when able to spend, it has been found, they may not be willing to spend.

Many explanations for re-sumption of spending have been offered, and to some degree all may be factors: —The rise in real buying power as inflation abates and more people are at work.

—A feeling by many Americans that domestic and international tensions are easing which, say consumer psychologists, may be translated into a greater willingness to make long-term spending commitments.

—A feeling of affluence, or at least of greater financial security, resulting from the buildup of savings.

# Former Texas Publisher Dies

HOUSTON (AP) — Charles R. Gilbert, 81, former Texas newspaper publisher, died Tuesday in a Houston hospital.

Gilbert once owned the Waxahachie Herald and later the Yoakum Herald.

He began his news career as a reporter in Dallas and moved to Cleburne in 1911 as the manager of the Cleburne Enterprise.

He served as an aide to U.S. Rep. Oscar Galloway of Texas and while in Washington was a correspondent for several Texas newspapers.

He came to Houston in 1928 and organized a real estate firm. He joined the Houston Chamber of Commerce in 1931 and became editor of the chamber's magazine, Houston.

He left the chamber in 1945 to form a printing firm.

He is survived by his widow. Funeral services were pending.

# Publisher Dies

STRASBURG, Va. (AP) — Elmo Earl Keister, 82, publisher of the Northern Virginia Daily and founder of a series of church advertisements now printed in more than 1,000 newspapers in the United States and Canada, died Tuesday.

Hal Boyle

NEW YORK (AP) — Remarks that a dentist gets tired of hearing: "I can't keep my appointment today, Doc. We're having the apartment painted, and I wouldn't dare leave these painters alone with all the Christmas gin I've got stored in the closets."

"Tell me the truth, Doc. Do I have bad breath? How bad would you say it is? Worse than most of your other patients?"

"This is my son, Sidney, Doctor. While you're straightening his teeth, is there anything you can do about his ears? They stick out too far for a boy only 10 years old."

"I had a dream last night, Doc. I dreamt that you were

sitting in the chair, and I was drilling on you, and you screamed so much I finally woke up. Wasn't that a silly dream?"

"Yes, I know I need a bridge, and I know they're expensive. But you're not selling me the Brooklyn Bridge, are you?"

"What do you think about while you're putting in fillings? Doesn't your mind ever wander far afield?"

"Go ahead, Doc, do any darned thing you want to me—I just finished a four-Martin lunch."

"I can't keep my appointment today, Doc. Our cat's having kittens in the basement — right now."

# Letters To Editor

Sir: The other day we received our first issues of the Big Spring Herald that we have since July 28 when we retired from the Air Force at Webb AFB. You will never know what pleasure we received from reading the papers, thanks to arrangements made by Jeff Brown.

Now that we've been away for four months, we realize what the 14 years that we lived in Big Spring meant to us; we fully intend to return there, at the completion of our contract here in Alkoham Saudia, Arabia, to spend the rest of our years. It is a community comprised of good people with respect and concern for their neighbor. We look forward to the days when we can once again take our place Sunday at Baptist Temple, also resume activity in Masonic work, and service in the Civitan club.

We want again to take our place in Big Spring to come to the aid of those who suffer a loss of a dear one, as the city did when our oldest son was killed in Cambodia May 1970. How do you thank a town for its tenderness and kindness in a trying time such as that, except to repay in depth to those who suffer similar losses? I am an Arizonian by birth, but we now are Texans by adoption. Thanks to Webb AFB and Big Spring for 14 wonderful years. God bless you and keep all of you... until we meet again as is said in Arabic "Ma salom, salom Alekum."

HENRY D. BREWER  
Northrop Peace Hawk (291)  
APO NY, NY 09616

Sir: We, the members of the Disabled American Veterans, Chapter 47, wish to thank all the people in Big Spring, especially Jack Bowers and Miss Judy Storm and her Runnels Junior High choir, for helping us pull through with great success our annual Forget-Me-Not sale for the DAV.

YSABEL LUNA  
Commander

Dear Editor: I am one of those residents of Kentwood Addition that, according to

Friday's paper, deludes myself into thinking scattered litter in the back alley is better than a sanitary bag on the front yard. But does it have to be an "either-or" situation?

I called the city manager to voice my opposition to the plan, and told him if he wanted my garbage gift wrapped in a plastic bag I would not object, but do not understand why it must be placed on the front lawn.

Trucks and trailers can get down the alleys easily in that particular part of town, and I see no reason why they can save any time or city funds by having it placed in front of the house. These bags attract dogs that will scatter the rubbish in the front yard. I was told that the city employees have been instructed to clean up any such mess. I was not told what happens after the 60-day trial period. How long will they continue to clean it up?

I would also like to know what I am supposed to do with the garbage that accumulates from Thursday until the next Tuesday. I am going to have to put that five days accumulation somewhere because garbage will only be removed on Tuesdays and Thursdays. Why can't it be placed out of sight in the alleys?

DUKE BAKER  
2504 Cindy Lane

My Daily Paper: Isn't it time that someone recognizes and salutes the "Christian Soldiers" whoever they are that financed and erected — that great sign — PRAISE THE LORD — in Downtown Big Spring, on Third Street?

Many campaigns have been launched, with much publicity, to clear up pollution in our air, water, food and etc. But this is the first visible attempt to clear up our most prevalent pollution — pollution of the mind. God would have spared Sodom and Gomorrah, if He could have found only 10 righteous there.

Let us and our Fair City heed the sign and Praise The Lord — (It has a Future)

V. A. MOORE  
703 Galveston

## Shoe Sharing

Dear Abby  
Abigail Van Burèn

DEAR ABBY: Apropos the amputee who voiced complaint two shoes when only one was over the necessity of purchasing needed: She (or he) should have mentioned her shoe size and which appendage had been pruned — and the chances are that several shoe-mates might have responded.

I'm an amputee myself, and I'm always on the prowl for a female, minus her left leg, who wears a size 6-B. Sharing shoes can be the basis for a beautiful friendship. Her effort for my right is a profitable swap. Since the demise of the shoe exchange — originally in St. Louis and then Santa Monica — amputees are pretty much on their own. Of course, an amputee can have a custom-designed shoe made, but this is usually more costly than purchasing a pair and discarding one.

I'm an old hand — or I guess I should say an "old foot" — at this business. I've used crutches for almost 55 years.

LOUISE  
DEAR LOUISE: I have some wonderful news for you. If you

want to know where in your area you can buy one shoe, write to me. One shot in my column asking readers if they knew of such a place brought hundreds of responses. Unipeds of the world — unite. It's a shoe-in!

DEAR ABBY: Let "AFRAID OF DOGS" try this: If a dog approaches in a menacing manner, says, "Shalom" in a firm but cordial way. Keep repeating it until the dog retreats and stops barking.

I tried this once, by accident, and it worked, so now I do it every time a dog looks like it is going to attack me. As many as three barking dogs have come toward me at once, and I kept repeating, "Shalom, Shalom," and, thank goodness, it's always worked.

SHALOM IN LOUISVILLE  
DEAR SHALOM: Those dogs must have honed up on their Hebrew!

DEAR ABBY: If your recent column on fire safety saves even one life, its worth becomes priceless. May I add to it?

The day I arrived home from the hospital, virtually helpless in a heavy cast, the fire chief paid me a visit. He noted the nature of my disability, and pointed out alternate escape routes. He then placed a large red fluorescent sticker on my front door to notify the first responding fire fighter that there was an invalid in the house.

When I could walk again, I notified the fire department. They came and removed the sticker to prevent firemen from risking their lives and wasting precious time on a needless search.

Thank heavens, nothing happened in the interim, but it was most reassuring to know that somebody cared and was prepared.

W.K., ALAMEDA, CALIF.  
DEAR W.K.: Many other communities also take such precautions, but congratulations to Alameda for having received the highest national award for its fire-prevention efforts.

DEAR ABBY: The letter in your column from the woman who said she was looking for a man who put God first in his life, his family second, and his business last, interested me. I once knew such a man. He's now a Catholic priest. Sign his "LOST OUT" or

NUMBER TWO

## Television Ad Claims Shot Down

WASHINGTON (AP) — A study of advertising claims for new television sets says 32 of 50 and it concludes that the consumer receives little reliable information.

This report amply demonstrates that, at least as of 1971, most television manufacturers were not adequately checking either the veracity or the meaning of their advertisements before release," the report said.

It was prepared by the Institute for Public Interest Representation of the Georgetown University Law Center in Washington at the request of the Federal Trade Commission.

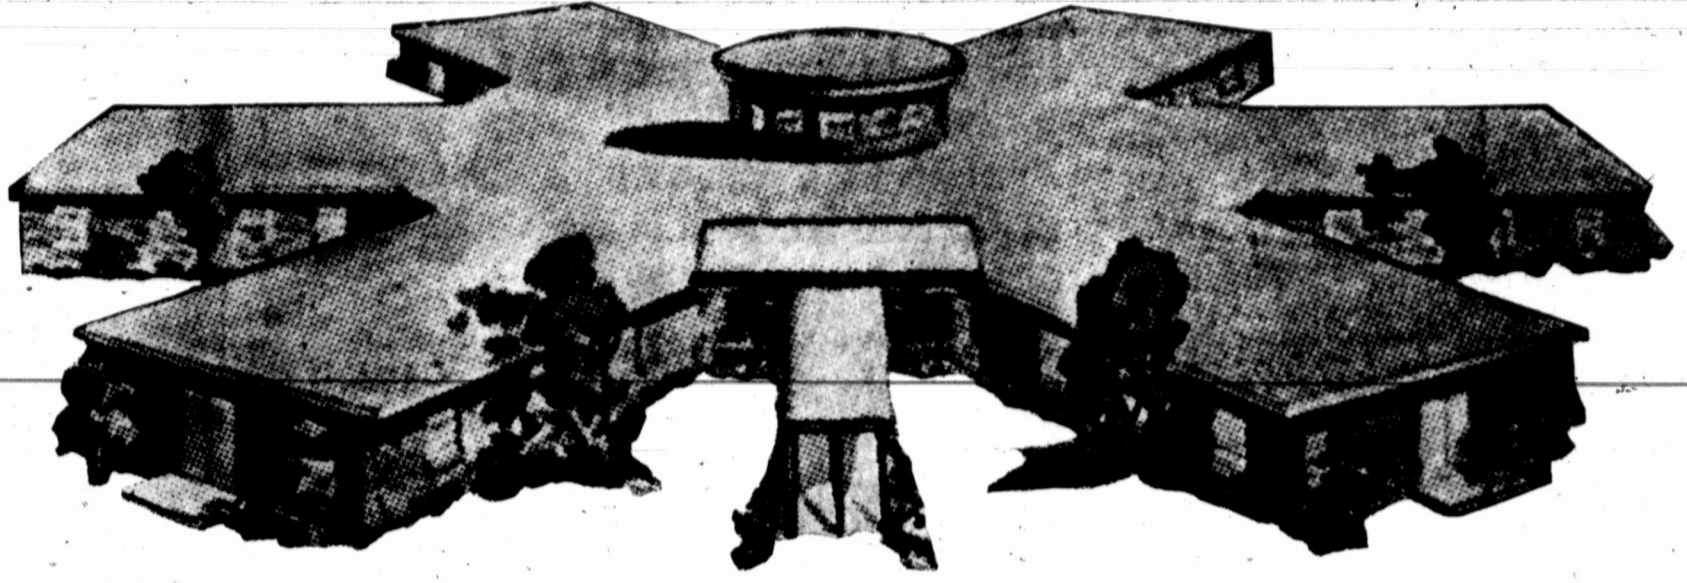

The report recommended that the FTC establish guidelines for advertising of television sets.

The FTC said it wished to review the findings. The report said Sears, Roebuck had the largest number of unsubstantiated claims for television sets. Out of 15 claims, the report said, 11 were unsubstantiated, and four were substantiated but were not unique.

Radio Corporation of America had three unsubstantiated claims out of eight, the report said. It praised RCA for instituting a policy of requiring engineers to review its advertisements. This was said to have been done shortly before the FTC asked for substantiation of the claims.

## FOR BEST RESULTS USE HERALD WANT ADS

It Costs No More To Have The Best!

Our new nursing center combines efficiency with comfort and safety in its design, as well as in its appointments. It will accommodate 102 residents, and has 10 private rooms and one suite. The other quarters are for two residents each. The lodge is licensed by the Texas Department of Public Welfare, whose requirements in design and construction have been fully met. Residents may qualify for state assistance as well as being privately financed. Come by and see our facility and the many fine services we have to offer.

## \$150,000 Bond Lost

HOUSTON (AP) — Federal officers have started a search for Jesus C. Santoy, 39, who did not show up Monday for his trial on charges that he is a heroin seller.

U.S. District Court Judge Albert P. Hannay ordered Santoy's \$150,000 bond forfeited, issued a warrant for his arrest and set a new trial of \$250,000.

Santoy is accused along with Louis Eugene Roper, 45, and Donald C. Berlanga, 33, of conspiring to possess and sell heroin and the sale of the drug in the Houston area.

Roper and Santoy were scheduled to go on trial Monday but Judge Hannay reset the trial for Thursday because of Santoy's absence.

Santoy's attorney, Jack P. Leon of San Antonio, said he spoke to his client Sunday and was assured that he would be at the trial.

The \$150,000 surety bond was posted for Santoy by Solemon Abdo Jr. in San Antonio on Aug. 11, court records show.

AREA BASKETBALL

# Leah Roman Leads Sands Past Loop

ACKERLY — Leah Roman's 20 points paced Sands to a 66-45 win over Loop in district competition here Tuesday night. The win gives Sands a 2-0 mark in the league and a 7-6 season record. Loop is 0-2 in district play.

Also in double figures for Sands were Jill Hunt with 18 points and Ann Nichols with 16 points.

**Sands-Stanton**  
ACKERLY — Renee Roman led 22 points to lead Sands Jr. High to a 27-18 win over Stanton here Monday night in the first round of an eight-team tournament.

In the semifinals, Sands defeated Coahoma, 28-13, with Miss Roman collecting 20 points. Sands claimed the championship of the tournament when Miss Roman scored 16 points and Jody Batson had 14 points to lead Sands past Grady, 32-25. The three wins gives Sands a 5-0 record for the season.

**Coahoma-Travis**  
COAHOMA — Coahoma's freshmen put three players in double figures, but it wasn't enough as Snyder Travis claimed a 66-49 win over Coahoma here Tuesday night.

Charles Tindol led Coahoma with 16 points. Joining him in the double figures column were Gary Roberts with 14 points and Ricky Patterson had 12 points.

Coahoma will meet Seminole at 2 p.m. Friday in the Garden City Tournament.

**Garden City-Greenwood**  
GARDEN CITY — Lisa Hirt scored 24 points to lead Garden City to a 56-45 win over Greenwood here Tuesday night. She was joined in the double figures column by Debra Plagens with 21 points and Linda Batla with 10 points.

**Becky Cranford led Greenwood** with 22 points. Terri Smith added 17 points for Greenwood.

The win gives Garden City a 1-0 district record. On the season, Garden City is 7-3. Greenwood is 0-1 in district.

Garden City will face Merton at 7 p.m. Thursday in the first round of the Garden City Tournament.

**Garden City-Greenwood**  
GARDEN CITY — Garden City overpowered Greenwood, 81-46, behind the 35-point effort of David Smith here Tuesday night. Guy Newell had 22 points and Charlie Puga had 12 points to break into the double figures column for Garden City. The win evens the Bearcats' season record at 2-2.

Wayne Womack had 17 points and Danny Pruitt had 19 points for Greenwood.

Garden City will meet Grand Falls at 8:30 p.m. Thursday in the opening round of the Garden City Tournament.

**Forsan-Bronte**  
FORSAN — Bronte opened up a 10-0 lead early in the game and Forsan was never able to overcome the early deficit as Bronte grabbed a 52-36 win in the district opener for both teams.

Kathy Reed led the Forsan scoring with 18 points. Janet Ellis added 12 points for Forsan.

Michelle Golson led Bronte with 26 points. She was joined in double figures by Sue Lee with 12 points and Sherri Coalsion with 10 points.

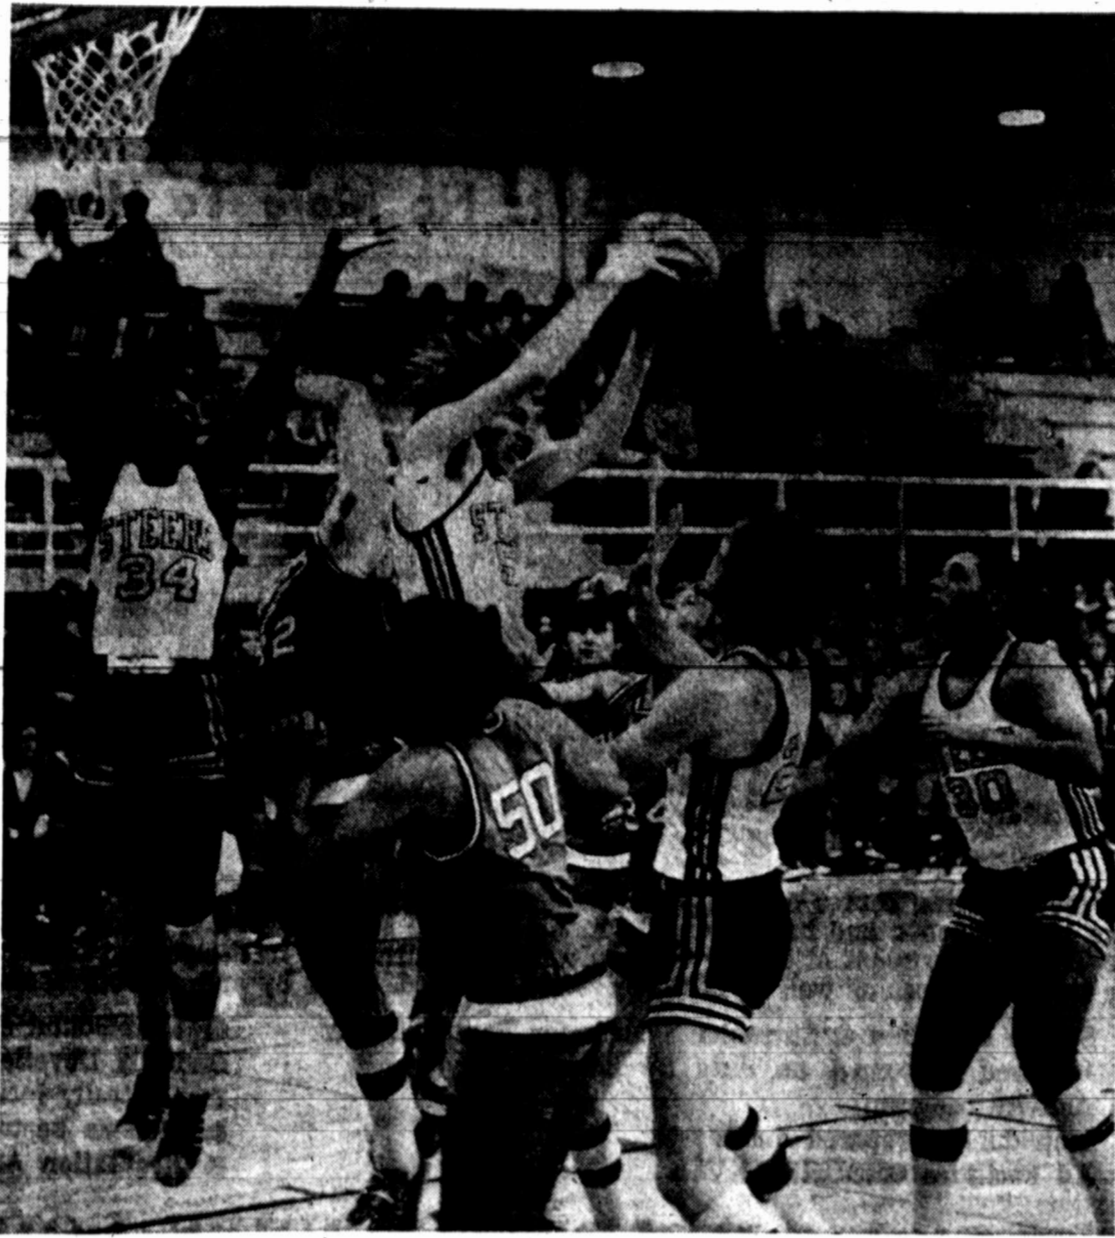

Forsan will meet Westbrook at 10 a.m. Thursday in the opening round of the Garden City Tournament.

**Forsan-Bronte (JVs)**  
FORSAN — Forsan claimed a 48-29 win over Bronte in junior varsity action here Tuesday night. Theresa West led Forsan with 18 points. Also in double figures for Forsan were Letha Strickland with 17 points and Karen Woodley with 11 points.

Kim Capperton had 11 points for Bronte.

**Lakers-Longhorns**  
GOLIAD — Lakers defeated the Goliad Longhorns, 32-20, in seventh grade basketball action Monday afternoon. Cited for outstanding play for the Lakers were Mike Thompson, Del Poss, James Dunbar and Tommy Worsham.

The Lakers will visit the Runnels No. 1 at 4 p.m. Thursday.

**WEBB GRABS REBOUND**—Big Spring's Bobby Webb (50) pulls down a rebound during first quarter against Crane Tuesday night. Other players in the picture are Charlie Brown (34), Kevin Miller (20) and Orlando Olague (30) of Big Spring and Crane's Tony Morgan (32) and Efran Primera (50).

## CAN CLINGH PLAYOFF SPOT

# Cowboys To Meet Washington

DALLAS (AP) — Tom Landry said "We don't want a loss and a tie in our final two games to get into the playoffs. We want to win them both."

Dallas plays the New York Giants in a season finale Dec. 12 in Texas Stadium.

Landry said the Cowboys, who own a 9-3 record, "have been judged as not playing well we have now (three losses), we haven't backed into anything."

Landry said Tuesday, Miami and the Redskins.

"The standards are different this year," Landry said. "We usually come into the playoffs with three or four losses."

The Cowboys have been in the NFL playoffs for seventh consecutive seasons.

Landry admitted the Cowboys haven't played as well as they did in their Super Bowl stretch

of 1971 and 1972.

"We've got to eliminate the errors," Landry said. "You will notice that we had very few mistakes in our stretch drives the last two years."

He said the Domsday Drive was just beginning to recover from a series of injuries that have hampered the Cowboy pass rush.

# Steers Trample Crane

## Marshall Sparks Third Period Outburst

By DON COOPER

A sudden burst of scoring by Randy Marshall early in the third period enabled the Big Spring Steers to break the game wide open and race to an 82-63 win over the Crane Golden Cranes here Tuesday night.

With both teams missing almost as many shots as they made in the first half, the Steers had moved to a slim 33-30 lead at the haltime intermission.

With the Steer second unit seeing almost as much action as the first string in the first half and the Golden Cranes trying to avenge an earlier 126-69 humiliation at the hands of the Steers, Crane moved out in front, 11-5, early in the contest.

The Steers went in front to stay with 7:52 left in the second

period on a layup by Johnny Tonn. Tonn's basket gave the Steers, who had trailed 13-12 at the end of the first quarter, a 14-13 lead, and, although Crane was able to stay close through the rest of the first half, the Steers were out in front to stay.

With the Steers nursing a slim lead early in the third period, Marshall, who had 18 points for the night, went to work. He hit on five straight baskets while the pressing Steer defense shut out Crane and Big Spring rolled to a 57-42 advantage at the end of the quarter.

The two teams virtually matched shot-for-shot in the fourth quarter as the Steers held as much as a 26-point bulge during the final period; however, Crane was able to cut the margin down to the final 19-point bulge.

Both teams substituted freely throughout the contest as Crane was trying to find the right combination and the Steers' coach Ron Plumlee was letting as many players as possible see action.

Marshall's 18-point effort paced the Steers. He was joined in double figures by Kevin Miller with 14 points and Johnny Tonn with 12 points.

Tony Morgan and Carl Milam

led Crane with 10 points apiece. In the junior varsity clash, Big Spring rolled to an easy 91-30 win over Crane. Larry Stanley's 21 points led the Steer JVs. Tom Sorley and Albo Smith added 18 and 11 points respectively.

Randy Ford led the Crane JVs with 11 points.

The Steers will participate in the Snyder Tournament Dec. 8-9.

## Bench Set For Surgery

CINCINNATI (AP) — Johnny Bench will enter a hospital here Saturday to undergo surgery for a lesion discovered in his right lung three months ago during routine Cincinnati Reds physicals.

"They really don't think it's anything malignant, but it might be necessary to remove it," said the catcher who was voted the National League's Most Valuable Player in 1972.

Bench said the "spot" was discovered on an X ray in September, prior to the National League playoffs in which the Reds defeated the Pittsburgh Pirates. The Reds lost the World Series to the Oakland Athletics.

Bench said he had no physical trouble during that period and expects to be well enough to play this spring.

"I'm going to be 100 per cent," said the 24-year-old bachelor. "That's what the doctors say and that's what I have to believe. I have to think of it that manner."

## Barker Wins Tournament

SAN ANTONIO, Tex. (AP) — Local linksman Jim Barker struggled home with a 73 Tuesday to tie Frank Conner at the finish of the fifth weekly \$30,000 Professional Golf Management tournament and then bogeyed the first hole of sudden death to take the \$5,000 first prize when Conner fell apart.

Barker's win broke a string in the PGM series reeled off by touring pro Orville Moody, who had won the three tournaments immediately preceding this one and finished second in the one before that. This week, Moody shot 71-72-143 to tie for ninth place with five others.

## 'ROAD'S BEEN BUMPY'

# Rodgers Cops Heisman Award

NEW YORK (AP) — Johnny Rodgers knew he'd come a long way. From the coldness of the Lincoln Jail, to the warmth of the Heisman Trophy.

"My road's been bumpy," said Nebraska's football hero. "I aim to make it smoother for my brothers. Nobody deserves the route I took."

Rodgers won the Heisman in a landslide. Oklahoma running back Greg Pruitt was a distant second. Johnny's fellow Cornhusker, middle guard Richard Glover, was third.

Tuesday's announcement came amid controversy over the 21-year-old Rodgers brushes with the law, including

a \$90 gas station holdup not far from the Nebraska campus in 1970.

"I'm a better man today," said Rodgers. "It's no secret I've been in trouble. I feel I've overcome this. The award gives me a great deal of pride."

Rodgers received 301 first place votes and 1,310 points from newsmen voting for the Heisman Trophy. Pruitt got 117 first and 966 points. Glover's totals were 99 and 652.

Rodgers is a slender 175-pounder who caught 147 career passes for 2,667 yards and 26 touchdowns. He also returned kicks for a 16-yard average and ran the ball 133 times for 838 yards.

During the "Rodgers Era" at Nebraska, the Big Eight powerhouse won national titles in

1970 and '71 and went 8-2-1 this fall. Johnny will end his collegiate career New Year's night against Notre Dame in the Orange Bowl.

"Coach Bob Devaney should get a lot of credit for this," he said when receiving the Heisman. "When I would get going astray, he'd set me down for a talk. He was a stand-in father for the real father I never had. I love him and owe him a lot."

Quarterback usually the dominant position in Heisman balloting, didn't fare so well this time. The Big Eight kids scored a 1-2-3 sweep and quarterbacks had to settle for the next four positions with Louisiana State's Bert Jones, Alabama's Terry Davis, Penn State's John Hufnagel and Iowa State's George Amundsen.

(AP WIREPHOTO)

**HUGGING THE BIG PRIZE**—Johnny Rodgers, Nebraska's all-purpose back, holds his arms around the coveted Heisman Memorial Trophy which he won in a landslide, Monday in New York. Oklahoma running back Greg Pruitt was a distant second.

THIS SUNDAY THE FALL SEASON ENDS WITH ITS BIGGEST THOROUGHBRED RACE!

**The Fall Thoroughbred Futurity!**

This is the big one! The season ends with the ninth running of Sunland's greatest fall race for Thoroughbreds. An outstanding field of magnificent two-year-olds compete over six spectacular furlongs for the season's biggest Thoroughbred purse. Even if you've never been to the races before, now is the time to go.

Friday post time—1 p.m.  
Saturday and Sunday, post time—1:30 p.m.

**YOU COULD WIN A '73 GRAN TORINO SUNDAY!**

There is still time to register for this beautiful cherry-red hardtop! Just fill out the coupon in the racing program and drop it in one of the boxes in the Clubhouse or Grandstand. The drawing to pick the winner will be held after the last race this Sunday. You could drive home in this fine car!

There is free admission after the 7th race Friday, the 9th race Saturday and Sunday.

Looking on are Lakers' Wilt Chamberlain (13), and Bucks' Kareem Jabbar (33) and Chuck Terry (31). Lakers won, 116-94.

HEARD SCORES 24 Chicago Rips Detroit, 130-108

By The Associated Press

Chicago Bulls Coach Dick Motta couldn't say enough about Garfield Heard and the hustling forward couldn't do enough. "He's probably the most amazing player I've ever had," Motta said after Heard led a second-half shooting spree and finished with 24 points as the Bulls romped to a 130-108 National Basketball Association victory over the Detroit Pistons Tuesday night.

Minutes and extinguished a Houston threat after the Rockets had pulled to within one point at 95-94. Rudy Tomjanovich led Houston with 22 points. The Knicks moved into a first-place tie with Boston in the NBA Atlantic Division after Bill Bradley and Dave DeBusschere engineered a third-period rally. DeBusschere posted a game-high 28 points while Walt Frazier added 27 for the Knicks. Nate Archibald, the NBA's leading scorer with a 34.3 average, had 26. Pete Maravich, held to only

four points until 1:48 left in the third quarter, found the range. Bob Kauffman tallied 27 points and snared 17 rebounds for the Braves. He hit the go-ahead basket early in the second quarter and exploded for 20 in the final period. Lou Hudson added 23 for Atlanta while Jeff Petrie had 39 and Sidney Wicks 29 for the Blazers. He scored seven points in the second half and then, with Buffalo ahead only 100-97 with three minutes remaining, tossed in six points to seal the victory.

Majors Starts Interviews

DALLAS (AP) — Iowa State Coach Johnny Majors, who led his team to a tie with powerful Nebraska and a berth in the Liberty Bowl, began a series of country-hopping interviews with Southern Methodist Tuesday. Majors also will be interviewed for the Michigan State post Friday.

Robert H. Stewart III, a member of SMU's Board of Governors, is heading the committee to find a replacement for Hayden Fry, who was fired each scored 12 points during the eruption and each finished with 24 points. The Lakers controlled the action from the start and then insured the triumph with a third-period binge led by Gail Goodrich, who bucketed 10 of his 24 points during that stanza. The Bucks trailed 64-58 until Goodrich hit three jump shots as the Lakers outscored Milwaukee 16-8 for an 80-56 advantage after three periods. Kareem Abdul-Jabbar of Milwaukee managed 29 points.

The Bullets employed a strategy to maneuver Phil Chenier into scoring position and he made 23 points of his opportunities. Chenier scored nine of Baltimore's last 11 points and passed Wes Unseld the Hebecker after the Cavs rallied for a 93-92 lead with 2:53 remaining. Rick Barry poured in eight of 30 points in the closing five

COLLEGE CAGE ACTION

Marquette Whips Tennessee Vols, 56-30

By The Associated Press

What's this? Ray Mears, Tennessee coach, comes right out and says Marquette would beat the mighty UCLA Bruins, who have ruled college basketball for six straight years and won 49 in a row. "No ifs, maybes or buts about it," Mears made his surprising comment after the nationally fifth-ranked Marquette Warriors had whipped the 14th-ranked Vols Tuesday night in Milwaukee 56-30. "Their pressure defense is better than anything I've seen UCLA play," declared Mears.

who has coached Tennessee for 11 years. "If they played UCLA here at the Milwaukee Arena they'd beat them. They might even beat them out there." He referred to UCLA's home court in Los Angeles. The Vols, who upset South Carolina 55-45 in their opener on Saturday, stayed in a zone for nearly the entire game while the Warriors forced them into numerous turnovers in chalking up their 74th straight victory at the arena. "You can't chase the ball against this team when you have big guys like we have," Mears said. "All I can say is that's the most devastating team we've played since I've been at Tennessee."

scored 20 points, the Warriors doomed to 16-4 lead and were never in danger. Louisiana State upset 11th-ranked Memphis State 94-81. No. 13 North Carolina swamped Dartmouth 128-86 in other games involving teams in the Associated Press Top Twenty. Louisville beat Dayton 75-55. Indiana humbled Kansas 72-55. DePaul took Northwestern 88-80. New Mexico downed New Mexico State 88-67 and the Air Force turned back Tulane 81-59. Also, it was Fordham over Yale 95-81, Cornell over Penn State 74-65, Boston College over Rhode Island 85-75, Jacksonville over Florida Tech 70-50, Gonzaga over Washington State 54-52 and Baylor over Abilene Christian 72-69.

Eddie Talubinskas, a native of Australia, scored 32 points to lead LSU over Memphis State. He might have scored more, but he fouled out with five minutes left. Soph. Don Washington tossed in 28 to spark North Carolina over Dartmouth as the Tar Heels set a school scoring record. Another soph, 5-foot-9 Greg Boyd, paced DePaul over Northwestern with 32 points. New Mexico reeled off 13 straight points at the start of the second half in downing New Mexico State before 15,139 at Albuquerque. Allen Murphy scored 18 points in leading Louisville over Dayton and Steve Downing was high for Indiana as the Hoosiers whacked the Jayhawks.

Davis Takes AP Honor

LOS ANGELES (AP) — "Without people I am nobody," says Anthony Davis, a somebody these days on the University of Southern California campus.

The 20-year-old sophomore tailback finds himself much in demand. He's The Associated Press Back of the Week for his sensational six-touchdown performance in the top-ranked Trojans' 45-23 victory over Notre Dame Saturday. He enjoys the recognition but "I can't say myself ego-tripping off," says Davis, who exudes self-confidence. "I tell it like it is," says Davis. "I know I can play football. In high school it was the same thing, but it means a lot more now. I'm in the limelight. I'm nationally known. Newspapers and people who read them can make you and they can break you."

Davis doesn't take his accomplishments for granted yet he believes there's quite a bit more to life than scoring touchdowns. "It wasn't that long ago, only four years, that he and I were common to 16-year-olds growing up. It was then that he lacked confidence. "When I was in high school, I went through that thing of being a thug. You know, stealing and causing trouble. I was involved in a car theft. I did grow up in an area where police were always around and it was very easy to get in trouble."

Sports... In Brief

GENERAL ATLANTA—Georgia Tech assistant football coach Joe Pittard died at the age of 72. FOOTBALL NEW YORK—Johnny Rodgers, Nebraska's all-purpose back, was awarded the Heisman Trophy as the outstanding college player of 1972. FOXBORO, Mass.—Upton Bell was fired as general manager of the last-place New England Patriots of the National Football League's American Conference. CLEMSON, S.C.—Cecil Ingram resigned from his head coaching position at Clemson University. Jim Parker will succeed Ingram. BASKETBALL SALT LAKE CITY—The Utah Stars of the American Basketball Association sent guard Larry Jones to the Dallas Chaparrals for guard Bobby Warren.

PATS AXE GM Bell Out; Garrett Back In

FOXBORO, Mass. (AP) — General Manager Upton Bell of the struggling New England Patriots is out and star running back Carl Garrett is back in. In a hectic day for the front office of the National Football League team Tuesday, the board of directors and Patriots' owner William Sullivan fired the 34-year-old Bell, a former professional football commissioner's son who started out as a week dressing room attendant. Bell had one year remaining on a reported rich three-year contract.

The Patriots, whose record is the second worst in the league with two games left, said in a statement they are seeking "the best available coach in America." They said that the new coach will be given full authority to run the team. In another move, NFL Commissioner Pete Rozelle ordered the Patriots to put Garrett back on the team. Garrett, the leading ground gainer on the team,

had been suspended indefinitely for missing practices by interim coach Phil Bengtson. Garrett, his representatives and Bell met with Rozelle in New York Monday for a six-hour hearing on the running back's situation. Bengtson, who suspended Garrett two days after he had been called to replace Pats' coach John Mazur, said he declined to say whether Garrett would be in the huddle or on the bench for the Patriots' remaining games at New Orleans and Denver on Dec. 17. Sullivan said later Tuesday that the Patriots feel they need a coach in America. They said that man should be coach first and general manager second. He said the team does not want a strong general manager without a major league baseball team since the Washington Senators of the American League were moved to Texas by owner Robert Short in 1971.

Executive Wants Padres In D.C.

WASHINGTON (AP) — A Washington supermarket executive says he has offered nearly \$12 million to buy the San Diego Padres baseball team and move it to Washington, D.C. "Washington has a good chance of getting the team," Joseph Danzansky, the president of Giant Food Inc., told The Washington Post Tuesday night. "The nation's capital has been without a major league baseball team since the Washington Senators of the American League were moved to Texas by owner Robert Short in 1971."

READS OF BIG DAY—Anthony Davis, running back for the University of Southern California Trojans, holds newspaper telling of his six touchdowns against Notre Dame last Saturday. Davis was named national College Back of the Week by The Associated Press. Davis is a sophomore.

## Miss Campbell Feted At Party

**TO MARRY** — Mr. and Mrs. Claude Tidwell Jr., Austin, announce the engagement of their daughter, Patricia Anne, to George A. White, son of Mr. and Mrs. Al White, Austin, and grandson of Mrs. L. B. McElrath and late Mr. McElrath of Forsan. A spring wedding is planned.

Miss Chris Campbell, bride-elect of David Faulkenberry, was honored with a bridal shower Tuesday evening at the Pioneer Gas Flame Room. The couple plans to marry Dec. 17 at Baptist Temple.

Refreshments were served from a table covered with a pink linen cloth and overlaid with a white cutwork cloth. A large pink candle in a base of greenery centered the table, and crystal and gold appointments were used.

The honoree was presented a corsage of white carnations. Her mother, Mrs. R. D. Campbell, Rotan, and the prospective bridegroom's mother, Mrs. S. D. Faulkenberry, received pink carnations. Also attending from out-of-town was the bride-elect's sister, Mrs. Donald Hull, Rotan.

Hostesses for the occasion were Mrs. C. B. O'Neal, Mrs. Lewis Hamrick, Mrs. Mary Greenwood, Mrs. E. G. Patton, Mrs. R. G. Dunnam, Mrs. Willis L. Voss, Mrs. George Thomas, Mrs. N. R. Holcombe, Mrs. Fred McGowan, Mrs. J. W. Turner, Mrs. Houston Zinn, Mrs. Ray Pipes, Mrs. Donald Trapp, Mrs. Mike Callahan and Mrs. David Yater.

## Westside Choir Sings For Club

The Westside Community Center Choir, directed by Mrs. Joseph Dawes, entertained the 1955 Hyperion Club Tuesday

Christmas program for the Women's Club by reviewing "Merry Christmas, Mr. Bay," and also presenting her own "Decorate Your Heart For Christmas." She was accompanied to Abilene by former Big Spring, Mrs. LESTER MORTON, who now lives in Midland. She also visited with other home town folk that included Mrs. HARRIET HALL, REAVES of Midland, Mrs. L. B. MAULDIN and Mrs. BOONE POWELL.

Also, while in Abilene Mrs. Annet visited briefly with the ROY REEDERS at Hendricks Memorial Hospital where he is undergoing treatment.

D. R. and MRS. ROSS REAGAN and their two sons from Oklahoma City have been visiting his parents, MR. and MRS. H. B. REAGAN, and his sister and her family, MR. and MRS. WALTER WHEAT.

As of Wednesday, GEORGE W. PASLEY, JR. wasn't sergeant anymore. He has just completed a one-year tour of duty in Iceland and is now back home with his wife, the former SUSAN BOYD. The couple will make their home in Dallas where Susan, who has recently completed courses at the Columbia Secretarial School in Odessa, will be employed by Dallas Federal Savings and Loan. This incidentally, is the company that employed her mother, Mrs. ERNIE BOYD, 22 years ago. Pasley will enter the University of Texas at Arlington at the beginning of the spring semester.

Mrs. Peter Gregg and Mrs. W. Rees tied for high score at Newcomers club bridge play Tuesday in the Pioneer Gas Flame Room. "Bridge" was won by Mrs. Owen Gee, and Mrs. John Wilmes won the attendance prize.

Officers for 1973 were elected: Mrs. Peter Gregg, president; Mrs. Wilmes, vice president; Mrs. Daniel Roybal, secretary; Mrs. Gee, treasurer; and "sunshine" chairman; Mrs. Rees, hostess committee; and Mrs. Ken Murgatroyd, bridge chairman.

A Christmas party for members, their husbands and guests will be at 6:30 pm Dec. 20 at First Federal Community Room.

MRS. TROY KEITH NICHOLS

## Ceremony Performed In Ackerly Church

Wedding vows were exchanged Saturday morning by Miss Gwen Kay Skinner and Troy Keith Nichols at the First Baptist Church, Ackerly.

The Rev. Jim Mosley performed the rites, and a prelude of traditional wedding music was provided by Miss Janette Nichols, organist.

## Pianist May Play For Concert Here

Members of Piano Teachers Forum agreed Monday evening to assist Music Study Club in seeking to obtain Lucien Lienfelder, pianist, for a concert here sometime in the spring.

Mrs. Robert Thompson, secretary, presided, and also served as cohostess for the meeting in the home of Mrs. Fred Beckham, 1107 Sycamore.

Mrs. Beckham discussed several late classic composers and their styles.

A brief life history of Hyden, Mozart and Beethoven was provided by Mrs. Beckham, and she said the three all wrote in sonata form which is taught by the piano teachers.

Refreshments were served from a pink laid table centered with pink and red poinsettias in a white container.

## Christmas Traditions Told By Study Club

Family Christmas traditions were described by members of the 1941 Study Club of Coahoma

## Birthdays Observed By Lodge

Three women were honored Tuesday evening for their birthdays when Big Spring Rebekah Lodge No. 234 met at the IOOF Hall.

They were Mrs. E. V. Cockerham, Mrs. Earl Wilson and Mrs. Logan Grider.

Mrs. C. C. Cunningham presided, and the 31 members present reported 24 visits to the sick. The women agreed to have a Christmas party following the regular meeting next Tuesday at the hall. Families of members are invited to attend.

It was announced the Past Noble Grand Club has changed its Christmas party from Dec. 11 to Dec. 7. The party will be held in the home of Mrs. Earl Wilson, 2304 Roberts.

New officers were elected, with installation scheduled in January.

## BOOK REVIEW SLATED SUNDAY

Mrs. D. L. Coleman, Midland, will review "The Hiding Place" at 2:30 p.m., Sunday at Howard County Library under the sponsorship of Friends of the Library. Written by Corrie ten Boom, the book is a true narration of her life during the occupation in Europe by Nazis and her subsequent life in prisoner of war camps. It is described as a story of faith — and miracles in everyday happenings. The review is free and open to the public. Refreshments will be served.

Miss Ann Nichols served as maid of honor, and Martin Nichols, the bridegroom's brother, was best man; Miss Nichols wore a street-length gown fashioned in pink crepe and styled like the bride's. She carried a nosegay of pink carnations.

Following a short wedding trip the couple will reside in Knott.

during its annual Christmas party Monday evening in the home of Mrs. Rob Ethridge. Mrs. Don McKinney was cohostess, and Miss Robin Ethridge assisted in serving refreshments.

Mrs. O. J. Bohannon, president, requested that members bring gifts to the home of Mrs. Jack Cagle by Thursday. The gifts will be donated to nursing home patients.

Mrs. Edward Engel was accepted as a new member, and a letter of resignation was read from Mrs. David Stubblefield.

Mrs. Bob Read introduced the speaker, Mrs. Charles Murphy, who is the wife of the new Presbyterian minister in Coahoma.

Mrs. Murphy based her talk on the importance of women having a "daily personal relationship with Jesus Christ." She said such a relationship aids a person in growing up, choosing a mate, having a happy home and facing death. In closing, she urged the women "to be able to truly forgive."

Mrs. James Renfro led prayer, and gifts were exchanged. The next meeting will be Jan. 8 with Mrs. Wendell Shive as hostess.

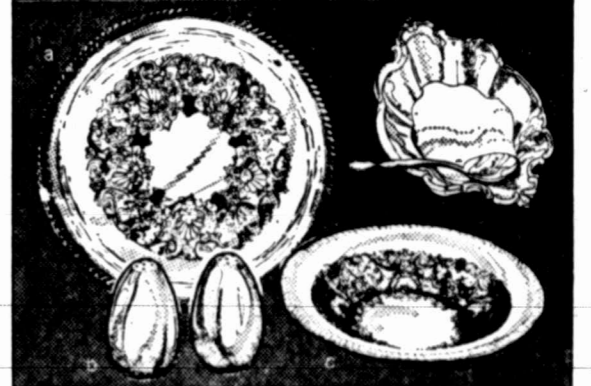

## Pocket Keeps Glasses Handy

Attach a pocket on the side of your clothes basket and keep your sun glasses in it. They will be at hand to use when hanging out the clothes, saving your eyes from sun glare.

## 'ROUND TOWN

BY LUCILLE PICKLE

If a bell clapper ever froze I haven't heard of it but if there is that possibility, it had a good chance this morning in Our Town. The Christmas bells are trying to ring merrily but something is happening to the tone. Either the clapper is not hitting with its customary bonor or the ringer is freezing in his swine. In other words, people its cold outside!

RENEE SCOTT, elder granddaughter of the COY NALLEYS, has recently been selected to play with the All Southern California Orchestra. Renee is the daughter of the RUSSELL SCOTTS and is a junior at Palos Verdes, Calif. high school.

Recent guests of MR. and MRS. CLYDE ANGEL have been her cousins, MR. and MRS. GEORGE TATE of Longview. Prior to their visit Mrs. Angel had been in Abilene where she presented the

## Toothbrush, Soap Clean Furniture

Discover what that old finish really looks like. An old toothbrush and mild soap will quickly strip away dirt around carvings and moldings, revealing the true condition of the finish. You can use a damp rag on other surfaces. Just make sure it's not dripping wet, or it may loosen the joints or the glue or veneer.

## BPO Does Plans Installation Of New Officer Slate In January.

Mrs. Annie Mellinger was elected president of Benevolent and Patriotic Order of Does Tuesday evening at the Elks Hall. Installation is scheduled at 8 p.m., Jan. 2.

Serving with Mrs. Mellinger will be Mrs. Bill Rogers, first counselor; Mrs. Rip Smith, senior counselor; Mrs. Alma George, junior counselor; Mrs. Harvey Clay, conductor; Mrs. Betty O'Brien, outer guard;

Mrs. Roscoe Cone, inner guard; State Hospital. Mrs. George is elected president of the hospital representative.

Mrs. A. D. Jenkins, secretary, and Mrs. Don Carpenter, treasurer. Trustees will be Mrs. James Vines, Mrs. L. D. Jenkins and Mrs. Robert Boadle.

Mrs. A. D. Jenkins and Mrs. Bill Rogers will conduct the January installation.

Mrs. Boadle presided at Tuesday's meeting, and announced members are to help serve refreshments Dec. 14 for a Christmas party at Big Spring
