## Lost School Days May Be Made Up At Easter

An official low of 14 degrees in the Big Spring area brought about another day of closed schools, stalled trucks and trapped motorists.

Light snow fell again this morning and added to the woes of the area. Vance Chisum, police chief, said that they worked only nine wrecks Monday, which wasn't bad for the condition of the city streets. He credited the fact that there were no more wrecks to the fact that the schools were closed and many people were staying home.

School Supt. Sam Anderson said Monday afternoon that the two days that the schools were closed would probably have to come off the Easter week holidays. "This won't be too popular, but we have to consider first the safety of the children now." The state sets up the standards as to the number of days that students must attend school.

Other schools in the area were also closed in Howard County and Mitchell County. Motorists were trapped in Big Spring, Colorado City and Sweetwater and unable to travel any further, as were truckers.

**DRIVERS WAIT**  
Big Spring truck stops continued to have a couple hundred truck drivers waiting for the thaw.

One of the biggest problems in the area developed from power failures. Lyntegar Electric Cooperative in Tahoka had massive problems, with over 100 poles reported down and power failures on Monday in Dawson, Garza, Lynn, Terry and Borden counties.

Included in this area were some of the customers around Ackery, Gail and Lamesa who were without electricity. In this same area, many were without telephone service as well.

Cap Rock Cooperative in Big Spring had a three hour power failure Monday morning from 6-9 a.m. which affected many rural customers who were without utilities for those hours.

**POWER RUPTURE**  
Texas Electric here experienced only minor problems but did have some crossarms break and very brief power failure in the country club area and a few other areas.

A few water lines broke in the city, but they also reported minor damages.

Two funerals were postponed here due to the fact that relatives could not arrive for

the services. A number of persons were injured in falls including one man found in the alley behind the Downtown Motel, who was taken to a local hospital suffering from a broken hip.

Frank Hardesty, postmaster, said no mail arrived from Dallas Monday but a little arrived today. Elsewhere, quite a few mail runs were cancelled but he expects most mail runs to resume today.

The Texas Highway Department reported today that icy conditions continued in the Abilene, Odessa and Lubbock areas with ice and snow cover

on all highways. This also applied to Brownwood, Amarillo, and San Angelo with ice reported on bridges as far south as Corpus Christi.

The Big Spring Experiment Station computed the 11-12 mile per hour wind speed and noted a minus eight degree chill factor, according to Bill Fryrear, location leader.

The wind speed indicator at the station had been frozen since the weekend and the wind speed was obtained from the Big Spring Cable TV.

Weather bureau experts called the icy conditions in the Texas Plains area a low pres-

sure bubble caught between low pressures in South Texas and the Dakotas.

**RANCHERS FRET**

Area ranchers were beginning to worry about livestock and many were taking feed to the cows due to the icy ground conditions. The cotton harvest is at a standstill with cotton stalks covered with ice. Many farmers still need to get into the fields for stripping of the final third of the crop.

Cap Rock Elect Co-op Inc. reported men working on a few poles and lines broken by ice and wind in the area north of (See LOST, Page 2-A, Col. 4)

(Photo by Danny Valdes)

**A DISASTER FOR SOME, A FUN TIME FOR OTHERS** — While most of their elders were complaining about the bitter weather which descended upon the area several days ago, the youngsters were having the time of their lives. School had been called off

and the ice and snow made it possible for this group to bring out their sleds. This happy gathering assembled near Webb AFB.

## The ... INSIDE ... News

Alabama's Sen. John Sparkman predicts early legislation will mitigate impact from President Nixon's freeze on government-subsidized housing starts. See Page 2-A.

Winter tightens grip on Texas and forecasters look for still more snow or freezing rain through this week. See Page 2-A.

## Wholesale Farm Prices Post Biggest Increase In 26 Years

WASHINGTON (AP) — Wholesale farm prices posted the biggest monthly increase in 26 years last month with a climb of 6.8 per cent, the government reported today.

The report, by the Labor Department's Bureau of Labor Statistics, blamed weather damage to crops as the main reason for the big increase.

**FOOD PRICES**  
The sharp climb in food prices boosted the government's over-all wholesale price index 1.8 per cent in December, the largest in 22 years. The increase was slightly less, 1.6 per cent, on a seasonally adjusted basis.

Prices of a broad range of industrial raw materials rose three-tenths of 1 per cent while wholesale consumer finished goods ready for market at retail had climbed 1.2 per cent,

the report said. The big increase in prices of farm products, largely uncontrolled by federal price regulations, included boosts of 21.1 per cent for grains, 16.9 per cent for eggs, 13.6 per cent for hay and oil seeds, 9.4 per cent for livestock, 7.8 per cent for plant and animal fibers, eight-tenths of 1 per cent for

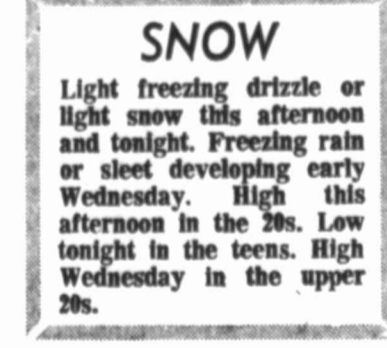

poultry and one-tenth of 1 per cent for milk.

**SINCE 1951**

The only declines was 5.1 per cent for fruits and vegetables. Grains were 44.1 per cent higher than a year ago, livestock was 22.4 per cent above last year and eggs were up 25.8 per cent over the year.

The rise in prices of farm products was the largest since March 1947 and the over-all rise in all wholesales prices was the biggest since January 1951, the bureau said.

The report said wholesale prices have risen at an annual rate of 6.6 per cent during the 14 months of President Nixon's Phase II wage-price controls compared to a 5.2 per cent rate in the eight months before any controls were imposed in August 1971. The rate of increase in the past six months accelera-

**SNOW**  
Light freezing drizzle or light snow this afternoon and tonight. Freezing rain or sleet developing early Wednesday. High this afternoon in the 30s. Low tonight in the teens. High Wednesday in the upper 20s.

## NUMEROUS QUESTIONS UNANSWERED

### Hunt 'Supersmart' Sniper

NEW ORLEANS (AP) — Police, seeking clues for a possible second gunman in a sniper incident that left six persons dead, kept a downtown hotel closed today and checked records and leads in other places.

Numerous questions remained unanswered, and Police Supt. Clarence Giarrusso said he would meet with newsmen to discuss some of them, particularly those he refused to talk about Monday night after police searched the hotel and failed to find a second gunman they had thought was on the roof.

**NEW SHOOTING**  
Among reports checked out, police said, was one at midday Tuesday that there had been a new shooting in another building. The reports proved erroneous, a spokesman said. A major unsolved question in-

volved what evidence police might have that there was more than a single sniper at the hotel.

Giarrusso acknowledged Monday night there could have been just one, but he also said there could have been two or three that police let get away — or that escaped because they were supersmart. He would not talk about other evidence at the time.

Among potential evidence being checked, apparently, were comments by police sharpshooters who said they had seen more than one sniper.

Policeman John E. Fields, who was in the 10th floor of City Hall, three blocks from the hotel, with a 12-power telescopic sight on his elephant gun, told The Associated Press, "I could see two others. One of them I saw clearly enough to tell what he looks like. The oth-

er figure was less distinct, but I could see it clearly enough to tell it was another guy."

**NOSE OUT**

Fields, who was not allowed to fire the powerful, 300-caliber weapon for fear of killing police in buildings behind the target, said of the sniper who was killed, "I saw him before he got shot, sticking his nose out and looking around."

Capt. Edward LaPorte, beside Fields with less powerful binoculars, also said there "appeared to be another guy firing with" the sniper.

Policeman Frederick O'Sullivan, wounded Monday morning in a stair well near the roof, said he saw the man, or at least the muzzle blasts from his weapon.

If the sniper killed Sunday night by police gunfire was not alone, how did any other sniper get away?

"There's a gamut of possibilities, ranging from police negligence to a superbrain sniper," Giarrusso said. He would not elaborate.

Meanwhile, activity around the hotel was almost normal, with traffic-filled streets and people on the sidewalks beside the building. Except for the charred upper-floor windows, blackened from fires that police say the sniper — or snipers — set, it was normal.

The lobby of the hotel was cleaned up, but police guards kept newsmen from reaching even the hotel registration desk.

The activity was in sharp contrast to the downtown situation Monday when about 50 square blocks of the central business district were virtually paralyzed while an army of police officers crouched about the hotel.

## 63rd Texas Legislature Funds Listed

AUSTIN (AP) — Texas lawmakers assembled today for a 140-day session and quickly learned that the state treasury is healthy and that one potential source of legislative conflict has been erased.

The 63rd Texas Legislature was to convene officially at noon.

Shortly after Secretary of State Larry Teaver gavelled it to order, the House was expected to elect Rep. Price Daniel Jr. as its speaker.

The possibility of an opening day floor fight over seating Rep. John Allen of Longview, recently convicted of mis-general nepotism, vanished. Rep. Larry Bales of Austin, who previously had threatened to move for Allen's expulsion, said he had decided to offer only a resolution setting up a five-man committee to investigate Allen's conduct.

"I have talked with a lot of members, including freshmen, who are not acquainted with the facts. And there is a lot of sentiment not to do anything. That accounts for the compromise," Bales said.

Such a resolution probably would take weeks to reach the floor.

State Comptroller Robert Calvert issued a report to the lawmakers, estimating that \$1.8 billion in general revenue will be available for expenditure during the two years starting Sept. 1. That more than covers the two-year state budget which the Legislative Budget Board has recommended, a board official said.

Calvert's report means new taxes would be required only if the lawmakers embark on new spending programs or are forced by federal court decisions to pump more state funds into local school districts.

## Webb Annex Is Released

A 206-acre parcel of land, known as a part of Webb Training Annex, and located in Martin County 18 miles northwest of Big Spring, has been declared surplus by the federal government, according to an announcement from the office of Sen. John Tower.

Tower's office received information from the General Service Administration that the parcel of land was surplus to federal needs. State and local government units and eligible non-profit institutions will be given the opportunity to make an application with GSA to acquire the property for public use. There are no buildings at the site.

The triangular section of land, 12 miles northeast of Stanton, was obtained in 1968, according to Webb information office, for an explosive ordnance disposal plot for the Air Defense Command, not as a part of HEC.

It was apparently never used for the purpose of burying underground explosives and has been judged to be surplus.

## SLIGHTLY LESS City, County Get Second U.S. Checks

Although there was a shortage of mail coming into Big Spring on Monday due to inclement weather, the City of Big Spring received a top item of mail Monday when it got its second revenue sharing check for 1972 for an amount of \$164,017. The first Big Spring city check was for \$170,931.

This brought the year's total to \$334,948. The next revenue sharing checks are scheduled to come quarterly during 1973, with an application required ahead of each quarterly payment, which will list the projects that the city proposes to use the funds for at that time, according to Harry Nagel, city manager.

Jack Cauble, mayor of Coahoma, which made nationwide publicity by sending back its first check for \$1,889, said he received a second check this morning for \$1,813.

"We will decide in Thursday night's council meeting what we will do about this one. I don't want to speak for the council. The check is smaller than the last one, which was \$1,589. Guess they need more in New York," Cauble added.

Howard County got its second revenue sharing check for 1972 today, Mrs. Virginia S. Black, county auditor, said. The amount was for \$114,469, bringing the total for 1972 to approximately \$233,000.

County Commissioners Court has discussed using the money to replace road and bridge department equipment.

Telephone service to Forsan was out this morning.

## Peace News Blackout

PARIS (AP) — Henry A. Kissinger conferred with Le Duc Tho for six hours today in the second session of their Vietnam peace talks as Hanoi declared in a broadcast that "there has not been any sign showing that the negotiations will reach any results."

President Nixon's national security adviser was the host of the meeting in an American-owned villa in suburban St. Nom la Breteche. As at Monday's meeting on Communist ground, there was no public handshaking between the two sides, reflecting the apparent chilly atmosphere of the talks following the massive American bombing raids on North Vietnam.

But Tho and his advisers emerged smiling from the villa at the end of the meeting, in marked contrast with their grim expressions when the meeting began. Kissinger also directed a wan smile toward waiting newsmen and photographers when he left the villa a few minutes later.

## Can Continue Paddling

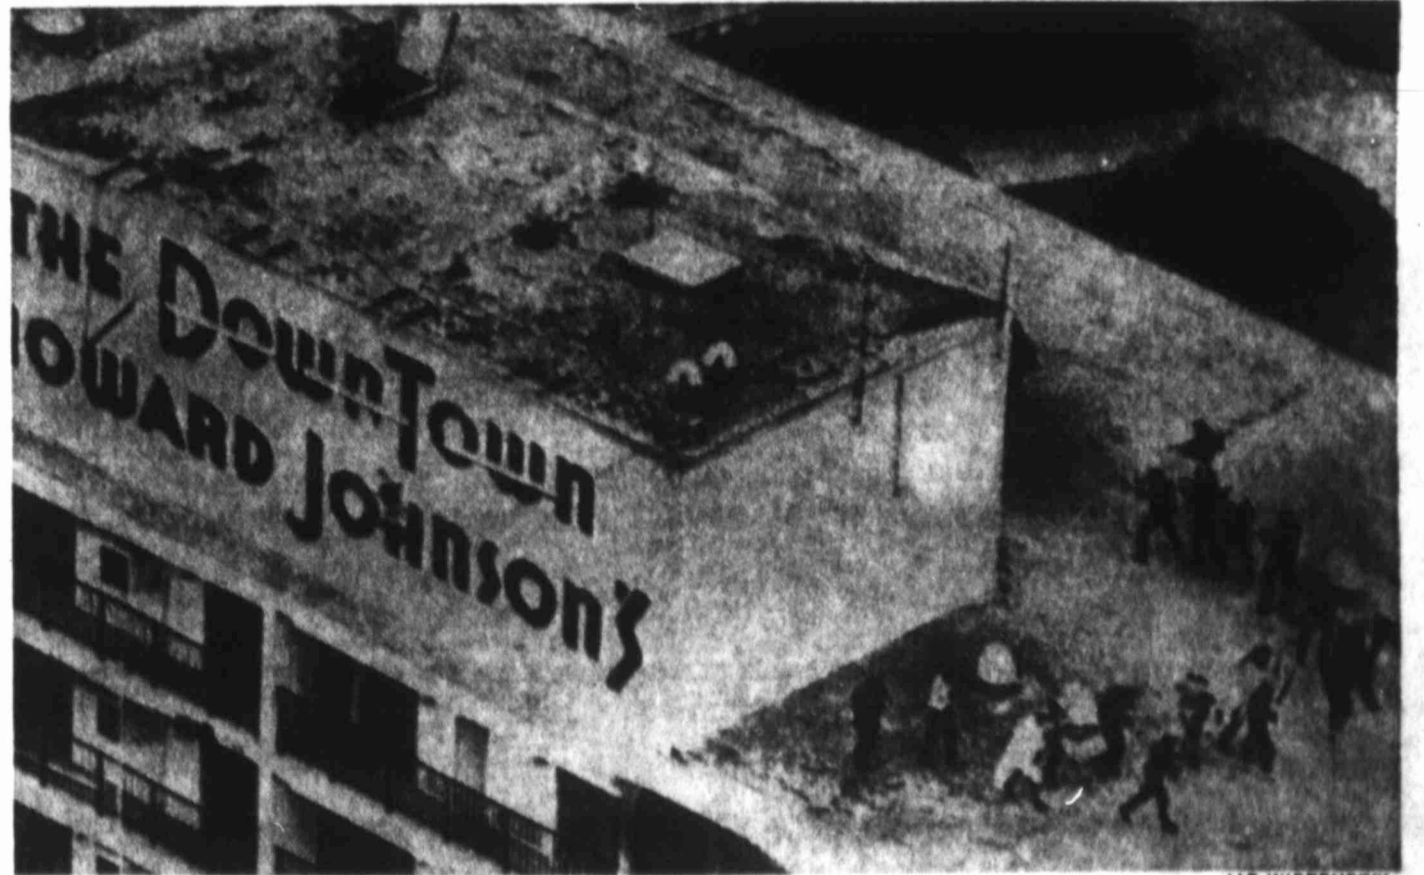

HOUSTON (AP) — Teachers in the Houston Independent School District can continue to paddle pupils as a punishment of last resort.

The corporal punishment policy adopted by the district Monday night was a compromise between what most board members wanted and what teachers sought.

While trustees generally favored abolishing corporal punishment, the Houston Teachers Association, and some administrators argued that paddling is often the only solution to misbehavior.

However, parents still may write a letter forbidding teachers or administrators to paddle their children.

When Supt. George Garver was asked what would be done if a parent forbids paddling and no other punishment seemed appropriate, he said the teacher would have to contact the parent. However, he did not elaborate.

**POLICE CHARGE BLOCKHOUSE** — New Orleans policemen fire into concrete cubicle atop the Howard Johnson Hotel where they thought snipers were holding

up. The effort by police failed to flush out any additional snipers other than the one shot and killed Sunday night atop the building.

# MORE SNOW Winter Tightens Clamp On Texas

By The Associated Press  
Numbing cold clamped an even tighter grip on Texas today as snow and freezing rain thickened and icy sheath on approximately the northwest third of the state.

Official forecasters posted ice storm watches calling for sleet or freezing rain mixed with snow to spread eastward into North Central and Northeast Texas, and light rain in only slightly warmer portions of South Central and Southeast Texas.

**BITTER COLD**  
And to Texans already weary of winter's early severity, long range predictions added this discouraging note: Bitter cold with still more snow or rain can be expected nearly everywhere in the state the rest of this week.

Up to four inches of snow blanketed most of the Panhandle-Plains sector, the National Weather Service reported.

**Fuel Supply Is Reduced Here**  
Pioneer Natural Gas Co. reduced the amount allowed for some major industrial users including Cosden Oil and Chemical Co., W. R. Grace, Sid Richardson and Cabot, Deard Pittman, district manager, said. No firm has had its gas cut off.

ed, and additional accumulations of as much as three inches were predicted. From that area toward the south and east, freezing rain or drizzle was mixed with light snow as far as a line linking Paris, Brownwood and Marfa.

Observers renewed warnings against all but emergency travel in the ice belt, where conditions were expected to grow even more perilous tonight and Wednesday.

**2 ABOVE ZERO**  
Early morning temperatures skidded to 2 above zero at Perryton in the Texas Panhandle, where there was 3 1/2 inches of snow on the ground and more was falling briskly.

It was 5 above at Dalhart with snow falling, 7 at Amarillo, where fog was mixed with snow and freezing drizzle, and 9 at Childress and Lubbock, also blanketed by snow, readings elsewhere dropped to freezing or below as far south as Beaumont, Port Arthur, Houston and Corpus Christi, and the warmest spots were Brownsville and El Paso at 40 and Kingsville at 46.

Among other readings near dawn were Wichita Falls 10, Abilene 14, Big Spring and Mineral Wells 16, Dallas, Fort Worth and Midland 20, San Angelo and Wink 22, Waco 23,

Tyler 25, Austin 26, College Station, Longview and Marfa 27, Texarkana 28, Lufkin 29, San Antonio 30, Beaumont-Port Arthur 31, and Corpus Christi, Houston, Palacios and Victoria 32.

Outside the areas of subfreezing or freezing weather, rain already was starting again around Brownsville and McAllen in the Lower Rio Grande Valley—a semitropical zone where the mercury dropped to 36 at McAllen and 39 at Brownsville.

Temperatures were expected to stay well below freezing at many points today and overnight lows were due down to 8 in the Panhandle, 16 in North Central and Northeast Texas and 29 in South Central and Southeast Texas.

**Council Meeting Is Called Off**  
Today's city council meeting, scheduled to begin at 5:15 p.m., has been cancelled according to an announcement by Mayor Wade Choate.

There will be an announcement made later as to a time for the meeting.

Ernie Crawford, executive director of the Regional Governmental Council, is to speak to the council. He reported that he would be unable to come from Midland due to the condition of the highways.

## LOST

(Continued from Page 1)  
Big Spring said there was no major problems.  
The last Texas International flight coming to Big Spring arrived Saturday. Tom Marlow, manager of Texas International here, does not anticipate another flight until possibly tomorrow afternoon and called that doubtful.

Equipment was available to clear runways at the Midland-Odessa Air Terminal, and flights were arriving there.  
Telephone lines leading to Ackerly, St. Lawrence, Garden City and Vincent have broken and were being repaired by four construction crews, Harry G. Sawyer, local manager for Southwestern Bell Telephone Co., said.

As soon as one break is repaired another pole and its line snaps under the weight of ice, Sawyer said. This results in spasmodic telephone service between these locals and elsewhere.

"I just hope for some sunshine," he said.  
**MINOR PROBLEMS**  
Texas Electric Service Co. reported minor problems with lines down in Forsan and Coahoma. Crews were expected to be available around Coahoma by noon today.

## Curtice Quits College Post

SANTA BARBARA, Calif. (AP) — "Cactus" Jack Curtice, the well-known veteran football coach with the sharp wit, has decided to retire after 44 years in athletics.  
The 61-year-old Curtice, ailing for some time with a heart condition, has been athletic director at the University of California at Santa Barbara here since 1966.

Curtice, who turned out such fine quarterbacks as Lee Grosscup at Utah and Dick Norrgan at Stanford, started his football coaching career in 1928 as an assistant at West Texas State. He took over as head coach there in 1940 and subsequently was head man at Texas Western, Utah and Stanford before taking over as head coach at UC-Santa Barbara in 1963.

While still at Stanford in 1961, he was voted president of the American Football Coaches Association.  
His 1965 UCSB team went 8-1, the second best record in the school's history. The mark earned him a team berth in the Camella Bowl, where the Gauchos lost to Los Angeles State 18-10 on a rain-soaked field. He was named NCAA college division coach of the year that season.

Curtice said he will remain active, coaching football clinics during the summer.  
**Airman Is Burned In Home Mishap**  
A Webb Air Force airman was severely burned while lighting a fire in the fire place at his home. The Webb office information declined to release the name of the burn victim.

He was reported to be starting a blaze with lighter fluid when flash burns caught his shirt on fire, causing second degree burns on his hands and chest.

**Theater Program Will Be Delayed**  
Rotary Club cancelled its regular Tuesday noon luncheon due to the weather, according to president A. J. Statser.  
The program was to have been presented by the Midland Community theater and will be scheduled at a later date, Statser said.

## COMPLETIONS

**HOWARD**  
Howard Glasscock Basin Oil Co., No. 24 R. C. Scott, located 990 from the north, 2,210 from the east, Sect. 16, Block 29, A&A Survey, total depth 2,700. Set 7-inch casing at 2,700. Perforations from 2,625-2,635. Acidized with 1,000 gallons and fraced with 80,000 lbs. No report on fluid, initial potential pumpset 30 barrels of oil to barrels of water, gravity 28, gas-oil ratio, too small to measure.

**LOCATIONS**  
**HOWARD**  
Howard Glasscock, exception to Rule 21. Oil well plug back, Colorado Oil Co., Big Spring, 1-28 Road 227 from north, 352 from west, Sect. 141, Block 29, W&N Survey, six miles east of Forsan, going to 2,410.  
Howard Glasscock, San Andres, Rule 27, Colorado Oil Co., Big Spring, 2-8 Road, 236 from the north, 1,547 from the west, Sect. 141, Block 29, W&N Survey, going to 2,410.  
Howard Glasscock, San Andres, Colorado Oil Co., Big Spring, 3-8 Road, 823 from north, 352 from west, Sect. 141, Block 29, W&N Survey, going to 2,410, Rule 27.

## DAILY DRILLING

**DAWSON**  
Continental 3 Barlett, total depth 8,770, shut down on account of weather.  
Continental 1-Maxwell, total depth, 8,815, preparing to DST from 8,738-8,815.  
Continental 1-Howard, total depth 4,418, running.

## ABUSE BY EXECUTIVE BRANCH OF FUNDS POWER?

# Causing Freeze Draws Fire

HOUSTON, Tex. (AP) — Sen. John J. Sparkman says he is hopeful that Congress will negate the last 12 months of an 18-month freeze on subsidized housing starts ordered by President Nixon.  
The freeze was announced Monday by outgoing Housing Secretary George Romney as both he and Sparkman spoke at the 29th National Association of Home Builders convention.

Romney said a temporary holding action on new commitments for water and sewer grants, open space grants and public facility loans also has been ordered.

**IMPACT**  
"The time has come to pause, to re-evaluate and seek out better ways," Romney said. He emphasized, however, that projects already in the "pipeline" and those necessary to meet statutory or other specific commitments will be approved.

But Sparkman, U.S. Rep. Wright Patman, D-Tex., and home building officials viewed the actions as abuse by the Executive Branch of its power to impound appropriated funds.

Sparkman, chairman of the Senate Banking, Housing and Urban Affairs Committee, said the housing freeze will have serious impact the next six months or the remainder of the current fiscal year.  
"But I am hopeful Congress will have acted on legislation by then that will negate the last 12 months of the moratorium," Sparkman told newsmen prior to appearing on the same platform with Romney.

**IT IS SILLY**  
"I should think we could get legislation through pretty early. We passed a good housing bill in the Senate last year and I think we can use that as a basis. With full support of public and the Congress, I believe we can present to the President a legislative package he would find impossible to turn down."

Patman, chairman of the House Banking and Currency Committee, spoke before Romney's announcement but commented on rumors of an 18-month moratorium on new subsidized housing starts.  
He said waste and corruption may be involved in some of the housing programs but added "It is silly, and destructive, to think these ills can be cured by a meat-ax."

"Some of this meat-ax approach to cutting government spending is not fiscal responsibility, but fiscal irresponsibility of the highest order—fiscal irresponsibility which threatens the very future of the nation," Patman said.

"Housing has been made the scapegoat of a confrontation between the Executive Branch and Congress," was the reaction of Stanley Waranch, the association's president from Norfolk, Va.

Directors of the association earlier had approved a resolution saying the rumored moratorium would result in the loss of at least one million man years in jobs and over \$10 billion to the economy on 12 months.

At a news conference last Wednesday, Romney said he thwarted the contemplated freezes or cutbacks before Christmas and that negotiations were continuing. He said Monday the final decisions were made last Friday afternoon.

Romney reminded the home builders Nixon the past two years has urged federal revenue sharing participation in housing and community development projects.

"The President remains firm in his commitment to this approach at a significant level of funding, and will so indicate in his forthcoming budget message," he said.

**FIRST STEP**  
Sparkman said Congress cannot let stand such arbitrary exercise of Executive power taken in violation of the intent

of Congress and in complete disregard of the housing needs of the poor and ill-housed.  
"We have two courses of action and we will probably pursue both of them," Sparkman said.  
"We will join other Congressional leaders in seeking through the courts or by legislation a remedy to the abuse by the Executive power to impound congressionally appropriated funds. The Missouri case on impoundment of Highway Trust Funds is the first step in this direction."

The other course, he said, is through the legislative process while working with graft roots support from the people.

"We propose to hold public hearings with the purpose of reestablishing need for federal assistance and community development for housing and to come to an agreement on the best federal progress to remedy these needs," Sparkman said.

**C-City Council Okays Radio Item**  
COLORADO CITY — The city council Monday evening gave its blessing to a project beefing up the police radio communications.

Commissioners approved expenditure of \$4,300 as the city's one-fourth share toward adding four mobile units, two portable units, a master station, two chargers and other items. The balance will come from a federal grant through the West Central Texas Council of Governments.

Also approved were the expenditure of \$6,143 for a fire truck chassis, and \$17,827 for resurfacing of one block on 12th Street and eight on Hickory.

**Lusk Graduates**  
Joe Clayton Lusk, son of Mr. and Mrs. Earl Lusk, 1309 Lincoln, is among the mid-winter graduates from the University of Texas. He received a degree as bachelor of business administration. Also receiving a BBA degree from this area was Amador Guerra Tijerina, Star Route 2, Lamesa.

**Hardeman Chief Of Water Panel**  
Dorsey B. Hardeman, former legislator and member of the Texas Water Rights Commission, has been named chairman of the commission by Gov. Preston Smith.

He succeeds Otha Dent as head of the three-man panel. The chairman is named at the pleasure of the governor. Hardeman served in the House from 1931-42 and the Senate from 1944-68.

**Prisoners Protest Idea Of Cutting Of Postage**  
County commissioners Monday thought about cancelling postage stamps for jail prisoners, and the mere thought evoked a letter of protest from inmates of the pokey.

How much was being spent on stamps for the prisoners was not clear because the stamps were furnished through the sheriff's office, said Commissioner Bill Crooker. This might amount to two or three stamps a week in some instances, said an office spokesman.

Doctor, hospital and dental bills for prisoners are paid by the county, Crooker said. Monday, a bill for one prisoner's glasses ran around \$40.

During a tour of the jail Monday afternoon, the court members saw several televisions. Crooker said he got the feeling prisoners were "pampered."

## DEATHS

**W. L. Weatherman**  
W. L. Weatherman, 96, father of Mrs. Wanda Scown and Enoch Weatherman of Big Spring, died in Roscoe Monday after a long illness. Arrangements are pending because of the icy roads.

Mr. Weatherman would have been 99 on April 11. He lived in Roscoe the past five years and prior to that in Loraine. Arrangements are pending at McCoy Funeral Home in Roscoe.

Survivors include three sons, Enoch Weatherman, Big Spring, A. L. Weatherman, Lubbock, Leon Weatherman, Comas, Wash.; four daughters, Mrs. Wanda Scown, Big Spring, Mrs. Essie Herron, Lubbock, Mrs. Catherine Simmons, Abilene, and Mrs. Jadie Lee Christofson of Oregon.

**Mrs. D. Ruddick**  
COLORADO CITY — Funeral services will be held at 2 p.m. today in Kiker-Rains-Seale Funeral Home Chapel for Mrs. Dollie Mae Ruddick, 77, who died at her home in Fort Worth Saturday following a two week illness. She is a former Westbrook resident.

The Rev. Glen Roenfeldt, pastor of the First Baptist Church, will officiate with burial in the Westbrook Cemetery.

Born May 14, 1895 in Merkel, she married John I. Ruddick in Westbrook in 1922. He died in 1965.

Survivors include three sons, John Ruddick, Greenville, Paul Ruddick, Fort Worth and Howard Ruddick, Burleson, one sister, Mrs. Gilbert Leach, Colorado City, and two brothers, Sherman Morris, Hurst and Leonard Morris, Colorado City three grandchildren and three great-grandchildren.

**Oscar Mitchell**  
Services had been set for 11 a.m. Tuesday in Stevens Memorial Chapel for Oscar Mitchell, 82, who died Sunday in a nursing home in Big Spring. The Rev. Ray Martin, pastor of the Valera Baptist Church, officiated, and burial was in the Valera Cemetery. He was born April 27, 1890 in Coryell County and lived in Coleman since 1920.

Survivors include one son, Joe G. Mitchell, Big Spring, and four grandchildren.

**T. Westbrook**  
Funeral services will be held today at 2 p.m. at Valley-Pickle Funeral Home Rosewood Chapel for Thomas P. Westbrook, 68, who died at 7:30 p.m. Monday in a local hospital.

The Rev. James A. Puckett, pastor of Baptist Temple Church, will officiate. Burial will follow in Oakwood Cemetery in Corsicana with a time to be set later, pending a change in weather conditions.

Born Oct. 25, 1904 in Kerens, Texas, he married Birdie Smith on April 30, 1930 in Corsicana. He was in the U.S. Air Force during WW II and a Monahans resident from 1941-1966 when he moved to Big Spring to work for the civil service at Webb AFB in field maintenance. He was a member of Baptist Temple Church.

Survivors include his wife Birdie, one sister, Mrs. P. O. Charlton, Orange and one brother, Robert Westbrook Plano, four nieces and five nephews.

**Mrs. Carpenter**  
Funeral services are still pending for Mrs. R. L. Carpenter, due to inclement weather conditions, with relatives unable to arrive for the services.

She died Sunday night in a local hospital. Services were originally set at Nalley-Pickle Funeral Home for 10 a.m. Wednesday but will be rescheduled.

**Mrs. J. King Sr.**  
COLORADO CITY — Last rites for Mrs. J. W. King Sr., 77, Loraine, were set for 2:30 p.m. Tuesday for the First Baptist Church in Loraine.

Mrs. King died Sunday apparently of a heart attack.

Services were to be conducted by the Rev. Jimmy Roberts, pastor, assisted by the Rev. A. N. Mote, pastor of the Loraine Methodist Church. Burial was to be in the Loraine Cemetery under direction of Kiker-Rains-Seale Funeral Home.

Mrs. King, wife of the late publisher of Mitchell County News and mother of J. W. King, former band director at Big Spring High School, was born Oct. 12, 1895 in Merkel. She married Mr. King June 27, 1920 in Roscoe. They had lived here since 1931. She was a Baptist, and a member of the Order of Eastern Star.

Surviving are her two sons, J. W. King Jr., Canyon, Melvin King, Seattle, Wash.; two sisters, Mrs. Edith Mae Hughes Panhandle, and Mrs. Evelyn Woodard, Roscoe.

## To Rule On Merger Of Credit Unions Completed

WASHINGTON (AP) — The Supreme Court Monday agreed to rule on the power of Wisconsin officials to put down bars that feature nude dancers.

A three-judge court in Milwaukee last August held state officials could not close the bars without giving the owners an adversary hearing "to disprove damaging charges and demonstrate that they are deserving of being licensed."

The state then appealed to the Supreme Court, saying tavern owners already had "meaningful hearings" during which they could present evidence to support their license requests.

On Dec. 5, in a case from California, the court ruled 6 to 3 that the states can shut down and other "baccchanalian revelries."

The court's taking of the Wisconsin case indicates the justices will modify the California ruling in some respects.

### Former Kentucky Congressman Dies

WASHINGTON (AP)—Maurice H. Thatcher, 102, former Kentucky congressman from 1922 to 1933, died Saturday.

The merger between Fort Wolters Federal Credit Union and Webb AFB Federal Credit Union has been completed according to Richard Keathley, assistant manager of finance.

Keathley reported Monday that final processing was completed in late December. A branch office of Webb Credit Union is now operating at Fort Wolters with Warren McFall, who was manager of Fort Wolters FCU prior to the merger, as branch manager.

Assets of Webb FCU prior to the merger stood at \$12,930,526.86. After-merger figures show a total in assets of \$13,712,394.53, as of Dec. 22. This is an increase of \$772,867.67.

Loans as of Dec. 22 were \$13,175,393.88 and shares were \$12,290,379.64.

Total membership with the merger increased to 13,628 with 1,594 of the members being served by the Fort Wolters branch.

"We are very happy and

pride to be able to serve Fort Wolters and Mineral Wells," said Wade Choate, Webb AFB FCU general manager. "We will provide our Fort Wolters members the same fine service that Webb Credit Union members are accustomed to."

"The growth potential at Fort Wolters is excellent," added Keathley.

### Water, Inc., Meeting Due

The Sixth Annual Membership meeting of Water, Inc., will be conducted Feb. 17 at Amarillo.

More than 300 of the more than 2,200 members of the two-state non-profit organization are expected to be on hand for the session according to D. G. (Bill) Nelson, Amarillo, chairman of the membership meeting committee. He said a detailed program will be released in the near future.

New officers will be named at a board meeting following the annual meeting on Saturday. Gaston Wells, Dumas, will be retiring as president following a two one-year term.

In extending a special invitation to all Water, Inc., members to attend the Amarillo meeting, Wells noted that membership participation takes on a vital air during the coming year, pointing out that reports on the Mississippi River Import Study will be handed to Congress by the Corps of Engineers, the Bureau of Reclamation and the Mississippi River Commission.

"If we are serious about wanting to import water to the High Plains, now is the time for us to unite as never before. We have a tremendous selling job ahead, and the job will take all of us working together."

### Attendance Gain Noted At Club

The Boys' Club of Big Spring closed the calendar year with 450 members compared with 300 members at the end of 1971. Daily attendance continues to gain, the average attendance is 85 boys and some days during December it exceeded 100.

The basketball program is going well and plans are being made for a basketball tournament to be held with the Lamesa Boys' Club during the month of January.

This was the report made by Bert Andries, director, at the monthly board meeting of the Boys' Club.

The West Texas Area planning session meeting date has been changed to Jan. 18 and will be held at the Boys' Club Building. This is to plan the annual meeting for all West Texas Boys' Club directors.

The next regular board meeting will be held Feb. 1.

### Bridge Test

♣ K J 3 2

The bidding:  
West North East South  
Pass Pass 3 ♣ Pass  
Pass Dble. Pass 4 ♣  
Pass Pass Pass

Opening lead: Five of ♠  
East's opening bid of three diamonds is a shade unorthodox, inasmuch as he has only a six card suit and slightly more high card strength than is usually associated with a preemptive call. Occasional liberties may be condoned in third position. South and West passed and North reopened with a balancing double. Inasmuch as he had passed originally, partner could hardly play him for more than he had. South's holding was worth 13 points and he jumped directly to four spades. Observe that a mere call of three spades is apt to be passed.

West opened the five of diamonds and East played the king which won the trick. He continued with the ace of diamonds and dummy ruffed. The ace and king of spades were cashed, East showing out on the second round.

The closed hand was reentered with the ace of hearts so that South could ruff out his remaining diamond with the seven of spades. Declarer had lost one diamond

trick and with West having possession of the two master trumps—the queen and jack—it appeared to South that he must guess the location of the queen of clubs in order to salvage his contract.

Inasmuch as East had made a preemptive opening bid, declarer reasoned that he was not likely to hold an additional honor on the side. A club was therefore led to the king and the jack was returned for a finesse. When East turned up with the queen, South's contract went on the rocks.

Declarer was the victim of an optical illusion, for it was in his power to score 10 tricks without making any guess in the club suit. He has six top tricks, two each in spades, hearts and clubs to which may be added two diamond ruffs in dummy. All that he requires to supplement the total is to ruff two hearts in his hand.

After East leads a second diamond to force the dummy, declarer cashes the two high trumps and then stops. Next comes the ace, king and another heart which is trumped with the five of spades. He ruffs his remaining diamond and leads a fourth heart which is trumped with the nine of spades. If everything lives, then nothing remains except to cash the king and ace of clubs for tricks nine and ten.

If West shows out on the fourth heart and overruffs declarer then it means that he started with four spades, three hearts, three diamonds and, therefore, three clubs. After West cashes his remaining spade he is down to clubs only and must lead that suit himself which eliminates the guess for South and enables the latter to win the three remaining tricks in clubs—again bringing him up to the required total of 10.

### Princess In Love?

LONDON (AP) — Princess Anne and Lt. Mark Phillips, a member of the Queen's Dragoon Guards, are reported by a London newspaper to be in love.

But the mass-circulation Sun today quoted an unidentified source as saying that the couple can reveal nothing until the royal family gives the word.

Citing protocol, the Sun reported: "In this sort of unreal situation, a romance that would normally blossom into marriage is conducted in a goldfish-bowl atmosphere."

Although the two have been seen together frequently, Phillips, 24, persistently has denied rumors that he and the 22-year-old daughter of Queen Elizabeth II would become engaged.

"A young serving officer in this position is faced with many problems of protocol," the Sun reported. "He can never betray by any gesture, either in private or in public, what his true feelings are."

### VANDALISM

Mrs. A. Paul reported \$100 worth of damage when rock hurled through car windshield at 504 NE 10th.

# Train Wrecks Kill Eight

MEXICO CITY (AP) — At least eight persons were killed and 23 injured in two train wrecks Monday.

Five hoboes died and three others were injured as 12 cars of a freight train jumped the track near Encarnacion de Diaz, in Jalisco state, Federal Atty. Manuel Romo Trujillo reported in Aguascalientes.

None of the victims was identified. All were in one of the derailed cars, Romo Trujillo said.

The train was en route from Aguascalientes to Irapuato.

One report blamed the derailment on excessive speed and another said a maintenance crew working on the track had failed to put out warning signals.

In the second pileup, which left three dead and 20 injured, a freight and a passenger train collided between Paty station and La Pedra in Michoacan state. Both engineers died.

The freight train included three Pullman cars which caught on fire in the crash.

A railroad spokesman said the engineer of the freight took his train from Paty station without permission and for some unknown reason had left behind the train's conductor, David Urena.

# Bath No Curt

Dear Abby  
Abigail Van Buren

DEAR ABBY: Germaine Greer is going to crucify you. She went on record as saying that a woman's natural odor is nothing to be ashamed of, and any man who didn't like it could go jump in the lake. And now you come along with your bathe daily and a woman can't bathe enough!

As the world's most widely read columnist, how are you going to defend yourself against Germaine Greer, the most outspoken proponent of Women's Lib?

ABBY FAN IN BOSTON  
DEAR FAN: Germaine Greer can go to her mikveh and I'll go to mine. (P. S. Mikveh means bath.)

DEAR ABBY: I am mystified over your remarks on bathing. Thanks for enlightening me. I had always heard that all men were created equal. I never realized that women were born "dirtier" than men. I knew that a woman is paid less for doing the same job as a man, but until now I didn't know it was because she is offensive. I'm amazed at you, Abby.

# Curtailment Rules Posted

AUSTIN, Tex. (AP) — The Texas Railroad Commission Monday issued standards of natural gas curtailments which, in effect, give top priorities to needs of homes, hospitals, schools, churches and other "human needs" customers.

The order says each gas supplier must submit its own scheme of priorities for commission approval, along with information on its reserves and the demands on its system.

But until a company's priority list is approved, it must follow these priorities set up by the commission, in descending order of importance:

—Residences, hospitals, schools, churches and other human needs customers.

—Small industry and regular commercial loads of less than 3 million cubic feet per day.

—Pilot lights and accessory equipment necessary to avoid serious damage to industrial plants.

—Large users of gas as fuel or raw materials where there are no alternative fuels or materials and plant production would be reduced or shut down if gas supplies were curtailed.

—Large users for boiler fuel, or other fuel users, where an alternate fuel can be used, regardless of whether the customer has installed equipment to use an alternate fuel.

—Sales under contracts giving the gas supplier sole discretion over whether service can be interrupted.

# It's Your Affair

Jean Adams' TEEN FORUM

CHRIS CONTEST: (Q.) I like Chris. I think he likes me. We talk a lot, laugh and mess around.

best friend, Meg, says Chris likes me but just doesn't know how to show it. He doesn't call me and we don't do things together — except church activities. Every time Chris pays

attention to me at church, Becky and Marianne get mad at me. They say I'm a flirt.

How do I show Chris I want to be his girl friend? — almost 15 in Massachusetts.

(A.) If you ARE following Chris around, stop. If you ARE being a flirt, stop.

But more important, stop discussing your feelings for Chris with Becky and Marianne. Be friendly with Becky and Marianne, but keep Chris out of your conversations with them.

Ask Chris to call you at home some time. This will do two big jobs for you. It will show him you are definitely in-

terested in him. And, if he is interested in you, it will give him and you a chance to talk on a one-to-one basis, without someone else listening in.

(Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 3482, Houston, Texas 77061.)

People of  
Jan. 6,  
Solved

DEAR ABBY: I am one man who wants to thank you for taking the stand you did regarding women bathing.

Several years ago I had a secretary who splashed on cologne several times a day. (She probably couldn't stand her own odor.) Between the cologne and her body odor, she turned me against one of the world's loveliest fragrances.

I knew she didn't bathe much because her elbows were always dirty, and her filthy feet showed through her hosiery!

She was the talk of the office and although her work was excellent I had to let her go. I frankly told her why, which didn't seem to bother her.

I have let men go for the same reason. Some men may shower daily but they never use deodorant to take care of the perspiration acquired during the stress and strain of the daily routine, which is unfair to their coworkers. Forgive my typing. I typed this myself while my secretary was out for lunch.

THE BOSS MAN IN COLUMBUS, OHIO

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 69700, L. A. Calif. 90069. Enclose stamped, self-addressed envelope, please.

From one end of town to the other, electricity is hard at work for you. Directing traffic. Lighting streets. Purifying and pumping water. Electrically operated traffic lights control the orderly flow of traffic and help prevent accidents. Street lights provide safer conditions for both driving and walking at night. Electricity helps purify water and moves it to your home

for drinking, bathing and laundering. Electricity pumps water to hydrants for fire protection. All over town, you'll find electricity plays an important role in just about every service that helps keep the town running smoothly. And the use of electricity for municipal services is expected to increase in the years ahead.

When additional power is needed, we'll be ready to provide it for municipal uses and for all our customers' needs. But getting ready and staying ready is an increasingly

expensive, never-ending job at Texas Electric. Our construction expenditures are at a record high for facilities necessary to keep an adequate and reliable power supply at your service.

THEY CAME KNOCKING ON THE DOORS — Although the weather was bad and the footing treacherous, the people turned out in droves for Hemphill-Wells' semi-annual sale, a three-day event which started Monday. Some of the potential customers are pictured here.

## Major Changes In Jails Urged

AUSTIN, Tex. (AP) — The Texas Legislative Council approved a report Monday that calls for major changes in the state's jails, including a work-release program for certain inmates.

The report is one of five forwarded by the council to the 63rd Legislature, which convenes Tuesday.

More than half the states now have programs in which jail inmates, after conviction can work at their jobs during the daytime and return to jail at night, a council committee said.

This enables an inmate to continue supporting his family maintain "a greater amount of respect in the community" and keep his family off welfare, the committee report, approved by the council, said.

Also recommended was the creation of a State Commission on Jail Standards to issue and enforce regulations for county jails, with power to prohibit

confinement of prisoners in jails with uncorrected deficiencies.

Texas now has jail standards, and the State Health Department has inspection authority but no power to force compliance with the standards.

"Only five jails in Texas have been found to be in compliance with these standards," reported the committee, headed by Rep. Hilard Doran of Del Rio.

Also recommended was a new provision in the law permitting release of defendants who pay 10 per cent of their bond to the court, to be refunded when they appear for trial. The committee said many inmates remain in jail pending trial because they can't afford to pay a bondsman a non-refundable 10 per cent of their bail.

Because of this, 71 per cent of county jail inmates in Texas are awaiting trial, compared with a national average of 51 per cent, the committee said.

### Arrest Two Men With Ton Of Pot

AUSTIN, Tex. (AP) — State narcotics agents arrested two Dallas men Sunday with a ton of marijuana valued at \$250,000 to \$300,000 in what the officers claimed was one of the biggest marijuana operations in Texas.

Charged with marijuana possession were James C. Mapes, 23, and Karl S. Wesch, 22.

Officers said they found the pair on Lake Travis, about 30 miles west of Austin.

### CR '73 Program Offers Something For Everyone

CR '73 "Believe in Music" Bumble Bee" Campus Revue features numbers from such hits shows as "Music Man", "South Pacific", "Hello Dolly," and "No, No, Nanette." The finale for this year's Campus Revue was written by the students of the Steer Band.

"76 Trombones" opens CR '73 with full chorus and specially choreographed dances performing to the exciting March Number. "Lida Rose" follows, featuring Joe Gonzales, Ricky Mitchell, Buster Green, and Billy Nugent, with soloist Donna Woods. Kelly Carlile then performs in the musical number "Trouble", concluding the "Music Man" feature in CR '73.

Richard Kitchen is featured in the beautiful but difficult trumpet solo, "Flight of the

**OVER ONE HUNDRED Free! GIFTS**

**UNBELIEVABLE, BUT TRUE!**

We've arranged with leading American companies and importers of exciting foreign merchandise to make FREE valuable gifts available to you. Companies like Lever Brothers, Best Foods, Colman's, Hershey Chocolate and many others are all anxious to give you FREE merchandise samples, helpful information on better homemaking, fantastic recipes and much, much more, just to introduce you to their products. They know the best way to convince you to become a regular customer is to have you try their merchandise.

**YOU CAN SELECT OVER 100 PRODUCTS WITH NO OBLIGATION, EVER.**

You choose the products you want (or take them all, if you like) from a listing of fabulous offers which we have compiled for you. There's never any obligation to buy, no salesman will call and you won't be bothered in any way. The companies offering these gifts only ask that you try their products in your own home and judge for yourself. They hope you will be pleased enough to become a regular purchaser.

**AN ALMOST ENDLESS STREAM OF FREE GIFTS.**

You'll be receiving FREE cosmetics to experiment with, FREE leather accessories for your wardrobe, FREE color film for your camera, FREE information on how to travel and how to get more out of your vacations for less money, FREE pantyhose (an incredible \$2.50 value... just so you can try them out), FREE recipes and household hints to make you a whiz in the kitchen. You'll get FREE jewelry to sparkle with and FREE fashion guides to let you know the latest in style. There are FREE books and FREE music and so much more that the list seems to go on for ever and ever.

**START YOUR FREE GIFTS POURING IN.**

We know you will be as pleasantly surprised as we were at the incredible values which are available for FREE. We've carefully selected over 100 of the most attractive FREE offers and put them all together in an easy to use publication called The Consumer Gazette. It evaluates and discusses all these offers and tells you how to start receiving package, after package, after package of valuable merchandise for yourself, your family and all of your friends.

**YOU RISK NOTHING.**

Yes, other people would probably gladly spend as much as \$40-\$50 for all the exciting gifts, product samples and other merchandise you'll be receiving FREE through the Consumer Gazette! Yet this incredible publication doesn't cost the \$3-\$4 you'd expect to pay—it's yours for only a single dollar bill! So just send \$1.00 to get your copy. Order all the gifts and samples you want. Then, if at the end of 30 days you are not completely satisfied, just let us know and we'll refund that \$1.00 immediately! You may still keep the Gazette AND the free gifts! You have absolutely nothing to lose by sending in your \$1.00 today. Start your FREE gifts and samples pouring in NOW!

### Strike Threat At Refineries In Two Cities

PORT ARTHUR, Tex. (AP) — Refineries in Port Arthur and Beaumont are under strike notice from the Oil, Chemical and Atomic Workers union. Officials of Gulf and Texaco here and Mobil Oil in Beaumont were told Monday they had 48 hours to sign new two-year contracts or face a walk-out.

A.F. Grospron of Denver, president of the union, said any contract must focus "on new health and safety provisions for the protection of our members and work in the oil industry."

Texaco employs about 4,000 workers, Gulf has about 3,000 and Mobil 1,500. Company spokesmen said they plan to operate their plants with management personnel if the strike comes.

Federal mediators conducting talks between the union and the three firms confirmed that one of the big hangups is over health and safety provisions of the contract.

The union wants a joint union-management committee at each plant to oversee health and safety conditions. Management spokesmen have said they fear such a committee would allow the OCAW to shut down their plants at will.

Federal mediator Ed Koenig, who is participating in the Mobil talks said the company feels the deadlock in talks "centers on union demands to expand the language of health and safety clauses."

In Texas City, meanwhile, members of OCAW Local 4-449 voted Monday night to ratify a contract reached earlier with the giant American Oil Co. refinery there. The contract contains the disputed health and safety issues as well as an immediate 6 per cent pay raise and a further 27 cent an hour general increase in January of 1974.

In Port Arthur, a strike by 320 OCAW employees at the British Petroleum Co. plant continues today.

### Man Who Wears Many Hats Is Honored By Chamber

A top citizen award went Monday to Clyde McMahon Sr., for many years an indefatigable community worker.

R. H. Weaver, retiring Chamber of Commerce president, presented McMahon with a handsome plaque, reflecting the feelings of "the board, and I am sure, the entire community." The presentation occurred at the Directors meeting at Holiday Inn.

The plaque inscription was to McMahon, whose immeasurable contributions in time, talent and leadership to the betterment of his community mark him as a truly exemplary citizen.

"During the past year — and in any year — there are individuals who are unselfish in everything that has to do with the betterment of the community," said Weaver. "If a poll were taken I believe that the one individual who stands out in unselfish service and contribution, in dedication and leadership, would be Clyde McMahon."

Over the years McMahon has been active in many roles — school board president, Chamber of Commerce president, United Fund president, YMCA president, Chamber industrial team leader, and many others.

At the meeting George A. McAlister, who took over as president of the Chamber, named four vice presidents to head the divisional activities — J. D. Nelson, public affairs; Ralph McLaughlin, community development; Dub Pearson, economic development; Don Reynolds, Organizational Development.

Clyde Hollingsworth continues as secretary and treasurer; Clyde McMahon Sr. as industrial team chairman; R. W. Whipkey, base-community council; Harold Davis, coliseum task force.

McAlister was to meet Tuesday with his divisional leaders and key chairmen, who

#### RECOGNITION FOR FAITHFUL WORKER R. H. Weaver cites Clyde McMahon Sr.

constitute the executive committee. They were to consider a preliminary budget; receive the annual report, set up some new by-laws, and talk about drafting a program of work.

Tom Fetters, Ambassador

#### Negro President Of School Board

HOUSTON (AP) — The Houston school board elected its first Negro president Monday night.

Dr. Herman Barnett, a surgeon, defeated another black, the Rev. Leon Everett II, for the post.

Dr. Barnett was also the first member of his race to have graduated from the University of Texas medical branch at Galveston.

Club president, said that his group — the official greeting and the membership recruiting arm of the Chamber — will name new officers within the next two weeks.

In retiring, Weaver expressed appreciation to his vice presidents, Mrs. Roy Cederberg, Harold Davis and Joe Pickle, and to all committee chairmen and members. Weaver was given a personalized desk set by McAlister on behalf of the board.

#### GOP Editor Dies

WASHINGTON (AP)—Robert M. Grannis, 69, newspaper editor, died Saturday.

### Amtrak Ban Untrue, Says Customs Boss

LAREDO, Tex. (AP) — Charges that U.S. Customs officials will not allow trains to cross the border here between the United States and Mexico for the new Amtrak service with the National Railways of Mexico were denied Monday by U.S. Customs district director Walter Seawell.

"This is completely untrue and you can quote me that it isn't true," Seawell said. "For many years passenger trains crossed the international railway bridge at Laredo and some pullman cars were used for this service between the two countries."

The charge against U.S. Customs came out of Chicago last week. It said Amtrak plans to launch the new train between Chicago and Mexico City Jan. 19, but Amtrak officials are not happy about it because the plans call for passengers to leave the train at Laredo and be bused across the border to the Mexican train at Nuevo Laredo.

Planned layovers were given as 18 hours on southbound trains and nearly 24 hours north-bound.

Seawell also denied another suggestion in the Chicago report that "one Amtrak official said customs agents threatened literally to dismantle the upholstery on each trip north if the train crossed the border."

Seawell said that before international passenger service to Laredo was discontinued a few years ago, he knew of no incidents in which upholstery had been dismantled on any train.

He said that for the 15 years he was involved, inspections had been carried out by regular inspectors assigned to train duties and there had been no trouble.

WANTS FEWER MEETS Global Tour Is Seen By Jack

RANCHO LA COSTA, Calif. (AP) — Jack Nicklaus sees big-time tournament golf going global with the United States providing only a segment of a rich tour that will lap over to other continents.

"Personally, I would like to see golf played on a seasonal basis in this country with more competition in foreign lands," the game's top player told Pacific Coast golf writers Monday night after they had honored him as the No. 1 player of last year.

"I don't know what that season is but I am in favor of fewer and more select tournaments. That way, we would be able to provide a more representative field for most of the sponsors."

Nicklaus, who won more than \$320,000 on the U.S. tour last year while playing in about half of its 40-odd tournaments, said he wouldn't be surprised to see the Mexican Open and rich tournaments in Japan and Great Britain added to the tournament program in future years.

"I support the American tour but I think we should also support tournaments in other countries," the blond bomber from West Palm Beach, Fla., said in an interview.

"After all, the American tour was not built by Americans alone but no one can say that fellows such as Roberto DeVicenzo, Gary Player and Tony Jacklin haven't made tremendous contributions to our tour. We owe them something."

Nicklaus was presented a silver crown proclaiming him the "King of Golf." He spent the day playing with writers over the La Costa course, annual scene of the MONY Tournament of Champions.

"I don't like to go home and hear my wife and family say, 'Who is that fellow?' I fix major goals, try to prepare myself properly but want to be fresh at the end of the year so that my family can tolerate me. We like football and other things."

maintained second place today in the poll covering games through Saturday. North Carolina State, 9-0, tallied 689 points, moving from fourth to third place and exchanging places with Marquette, 10-0 and 656 points.

Missouri, 11-0, moved from seventh to fifth place with 495 points.

Providence, 7-1, earned 11th place followed by San Francisco, 10-1, Southwest Louisiana, 7-1, Alabama 7-1, and Jacksonville, 10-2.

Rounding out the Top Twenty are: Indiana, 8-2; Kansas State, 9-2; Florida State, 8-3, St. John's, 8-2, and Louisville, 10-2.

The Top Twenty, with first-place votes in parentheses, season records and total points (points tabulated on basis of 20-18-14-12-10-9-8-7-6-5-4-3-2-1):

'KING OF GOLF' Jack Nicklaus

'KING OF GOLF' Jack Nicklaus

LCC Game Is Called Off

Tonight's basketball exhibition between Howard County JC and Lubbock Christian College JV, which was to have been played in the Jayhawk Gym here, has been postponed.

Coach Harold Wilder of HC said that the Wednesday night contest with Concordia Lutheran of Austin likely will be played. Travel conditions from Sterling City to Austin are said to be good.

The HCJC-LCC Game was not immediately reset but Coach Wilder indicated it would be played. The two teams also have a game booked for Feb. 2 in Lubbock.

The Hawks are scheduled to reopen Western Conference play in Amarillo next Monday night. Now 4-0 against league teams, the locals could go a long way toward nailing down a league championship by beating the Badgers.

The Hawks won two of three starts in the recent ABC Olympic Classic Tournament here and now boast a 12-9 record.

Frank Conner Leads By 2

SAN ANTONIO, Tex. (AP) — Frank Conner, known locally as a former collegiate tennis hero, rolled to an opening round 67 to capture a two-stroke lead Monday in the ninth weekly \$30,000 Professional Golf Management tourney.

Conner's card was 32-35 for the tough, par 71 Pecan Valley Golf Club.

A Houston golfer, Richard Killian, also started with a 32 in clear and cold weather, but he faltered to a 37 on the back nine for sole possession of second place. His 69 puts him two strokes back of Conner, who played tennis for Trinity University here.

Jim Barker, a Pecan Valley pro, and Chris Blocker, a tour veteran from Austin, share third place with 70s, going into Tuesday's final round. Barker won the \$5,000 top money in one of PGMs previous tourneys.

Pact Extended

PHILADELPHIA (AP) — Keith Allen, vice president and general manager of the National Hockey League's Philadelphia Flyers has had his contract extended for three years.

Allen's current contract is due to expire at the end of the current season. The new pact extends through the 1975-76 season.

11-B CHART

Table with columns: TEAM, W, L, T. Lists teams like Bronie, Sterling City, Forson, etc.

GAMES TONIGHT: Water Valley of Garden City; Bronie of Sterling City; Blackwell of Greenwood; Forson, not scheduled.

GOODYEAR SERVICE STORES LOW PRICED BELTED TIRES \$25.95. Includes details about tire features, prices, and service options.

# Highway Trust Fund

A lawsuit to challenge the President's authority to impound funds from a dedicated tax will be an interesting test of the constitution's separation of powers provisions.

Target of the suit is the Highway Trust Fund. Among the challengers is Sen. Sam Ervin of South Carolina, who is regarded as a constitutional expert.

One would be naive to assume, however, that the primary reason for the challenge is constitutional concern. The fund currently generated about \$6 billion annually. The fund's income from highway user taxes (on fuels primarily) has nearly doubled in the past half dozen years.

Current appropriations amount to about \$4.8 billion. They are used to help states build roads. The 1972 road building budgets (state, local and federal) total approximately \$22 billion.

That is enough money to excite a strong challenge of President Nixon's announced spending policy. He says he intends to hold federal spending below \$250 billion. (The income for 1972 was \$197.8

billion; yet the 1972 deficit was \$38.8 billion, the 1971 deficit \$23 billion, the 1970 deficit \$2.85 billion — \$66 billion in three years.)

Failure of Congress last session to pass a highway bill weakens its position in its contest with the President.

Congress ought to resolve the issue of funding a transportation system — not merely to build highways. However, we feel that taxes dedicated to a purpose by highway users ought to go to

that purpose — the building of roads. To divert highway taxes will result in an accelerating attrition of highway revenues. If, for instance, they go to development of mass transit systems, these will drain off more and more highway user tax, while doubtless increasing the pressures or subsidization of these systems from the Trust Fund. In time, there will be less and less revenue into the fund as well as, more immediately, less and less money for road building.

## Let It Rest In Peace

Sen. William Proxmire is keeping his powder dry for another battle over government-built supersonic passenger aircraft. He led the fight to stop the SST in 1972 and has said he fears a new attempt.

Proxmire said the industry continues to lobby for the project and noted that Presidential Adviser

John D. Ehrlichman told a pre-election crowd in Seattle that "the SST isn't dead."

Progress, or lack of it on the British-French and the Russian models of the SST is the strongest argument against the project on economic grounds. Environmental considerations are still valid. If yet another reason is needed, then add the need to control government spending.

# 'Feat In Journalism'

## Around The Rim

Jo Bright

The Port Arthur News celebrated its 75th anniversary in 1972, and to commemorate the occasion, reprinted some copies of its first edition.

WHAT AN exciting day that must have been — March 18, 1897, when the first edition of the newspaper was being printed in the baggage car of a K.C.P.&G. Railway excursion train as it sped toward the new terminal at Port Arthur. To celebrate the opening of the Port Arthur Route, the train carried a large and festive party "which embraced men of high station in political affairs, capitalists, business men, inventors and artists" accompanied by their ladies.

Billed as "an entirely new and novel feat in journalism" the first copy of the Port Arthur News was written, type set and printed en route to Port Arthur on the Missouri-Kansas excursion train.

"Voluminous salutations are not only unnecessary but to a certain degree at least show a lack of sense, for the reader is not expected to believe half the glittering promises made. The news will be intensely and unreservedly dedicated to the interest of Port Arthur first, last and all the time. Its editor is, and always has been, a republican. Now, let's get down to business."

"BEING A stranger in the city, the editor of the News will most highly appreciate any favors that may be shown him in his work of collecting all the news of importance. If you want to keep posted in the growth and development of Port Arthur you should subscribe for the News. The truth, and nothing but the truth, shall appear in its columns. This is all that needs be told and known to place Port Arthur in its proper position among the seaport cities of this country — that is at the head and far in advance of them all."

"PORT ARTHUR is a city of destiny. This fact needs no adornment. The editor of the News would be pleased to meet any of the citizens who are interested in the organization of a military band, orchestra or the study of vocal music. We are with you to stay. We are in with the promotion of every enterprise for the upbuilding of the good city of Port Arthur."

"The News can be found in the K.C.P. and G. baggage car for two or three days. Call and shake our hand."

"The subscription price of the News is \$1 per year, fifty cents for six months, strictly in advance."

AS EDITOR D. L. Stump described it, "a complete printing outfit will be put on the train at Asbury, Mo., in charge of three printers, who will put in type as the train rolls along, a description of the country traversed, mention of the principal towns and cities, and personal mention of the excursion party. Arriving at Port Arthur, a few hours will be taken to gathering the local news, writing up the city and collecting matter of special interest to the visitors. The date of issue will be Thursday, March 19, the day the excursion arrives at its destination."

NOT ONE to waste words when there was a deadline to meet, Editor Stump introduced the new publication:

## The In, The Out

David Lawrence

WASHINGTON — Does the United States government keep its word? Does it fulfill its moral obligations under treaties which it signs and which the Senate ratifies?

THIS IS THE type of questions that may be asked soon in view of the threat by members of both houses of Congress to cut off certain military appropriations and compel the President to suspend all support to South Vietnam.

Yet on Feb. 1, 1955, by a vote of 82 to 1, the U.S. Senate ratified the Southeast Asia Treaty providing for the collective defense of the area. The pact had been signed at Manila on Sept. 8, 1954, by Secretary of State John Foster Dulles and two United States Senators — Michael J. Mansfield (D-Mont), who is at present the Democratic leader, and the late H. Alexander Smith, (R-N.J.)

THE PURPOSE of the "Southeast Asia Collective Defense Treaty" was to reiterate support for the concepts set forth in the charter of the United

Nations. The preamble of the pact declares the signatories were reaffirming that "they uphold the principle of equal rights and self-determination of peoples" and that they would strive to promote self-government and "to secure the independence of all countries whose peoples desire it and are able to undertake its responsibilities."

Section 1 of Article IV of the treaty says: "Each party (country) recognizes that aggression by means of armed attack in the treaty area against any of the parties or against any state or territory which the parties by unanimous agreement may hereafter designate, would endanger its own peace and safety, and agrees that it will in that event act to meet the common danger in accordance with its constitutional processes. Measures taken under this paragraph shall be immediately reported to the security council of the United Nations."

(Copyright, 1972, Publishers-Hall Syndicate)

## Bombs Away!

Art Buchwald

WASHINGTON — The Pentagon insists that its bombing raids have been targeted only for military installations. Some people scoff at this, but I know for a fact it is true.

BEFORE EACH B-52 mission, the bombs are lined up on the runway in front of their planes with their fuses armed and ready. An Air Force colonel on a platform with maps briefs them:

"American Bombs, your mission today is to destroy all military targets in the Hanoi and Haiphong areas. This includes railroads, truck depots, gasoline storage tanks and SAM missile sites. You have been set to explode at 100 feet and cause as much havoc as possible on the enemy. Are there any questions?"

"NOW, IF you will observe this map closely, there is a large communications facility right next to the Indian Embassy in the center of Hanoi. You are to fall on the communications facility without damaging the Indian Embassy."

"Any bomb that goes astray will be court-martialed. Is that understood?"

"Please, Bombs, may I have your attention. Over here is Gia Lam International Airport. That, of course, is a military target. It is located next to a large housing project. I don't want any wise guys taking it into their heads to explode in the housing project. If you find yourself falling into a civilian area, release your fuse and become a dud."

"SINCE YOU'LL be falling in clusters, keep your eye on the lead Bomb. If you see it is falling astray onto a populated area, try to correct your own drop with your tail fins. If you can't hit a military target, then dump yourself into the river. Are there any questions?"

"Now, over here is the Bach Mai Hospital, or at least what the North Vietnamese claim is a hospital. It, unfortunately, is located next to a petroleum storage dump. Now for God's sake, if you're going to go for the petroleum dump, stay away from the hospital."

I don't want some smart Bomb telling me tomorrow it didn't know where the hospital was.

"BOMBS, THIS is the big day you have waited for. President Nixon is counting on you to bring an honorable and just peace to Vietnam. Millions of dollars have been invested, and thousands of people have worked to make you the finest and best Bombs that money can buy. We have provided you with the most advanced bombers to bring you on target. Trained technicians have been provided for your comfort and safety. The entire Air Force has only one purpose — to see that you arrive at your destination in one piece."

"I CAN only add my own wishes for a successful mission. America expects every Bomb to do his duty. God bless you, one and all."

(Copyright, 1973, Los Angeles Times)

## Dropped Bladder

Dr. G. C. Thosteson

Dear Dr. Thosteson: I have never read in your column about a dropped bladder. I am past 65 and lifting, etc., caused my bladder to drop down into the vagina, and is very uncomfortable.

This happened five months ago, and I was wondering if it goes on unattended what the results will be. Does it ever repair itself without surgery? I do some exercises for it which the doctor gave me, but it still drops. I would like to hear from you before I resort to surgery.

— Mrs. T.M.

This condition is called cystocele, too, and I'm rather surprised that you haven't read prior comments about it. It is a rather common problem in women.

It is involved with a loss of strength in the tissues which normally support the bladder, so gravity lets it descend where it doesn't belong. (Strain of childbirth earlier in life often has a bearing on development of the trouble later.) I doubt that lifting had anything to do with it.

Exercises may help a little but the condition is not one that can ever "repair itself." The answer is surgery — which, I gather, you doctor has recommended, but you want somebody else to say the same thing. Well, I do. Surgical repair is not a serious undertaking, but it is something that needs to be done. If you don't have it attended to, the discomfort will go on, and there is the possibility of developing inflammation of the bladder and very possibly other urinary tract infections.

Dear Dr. Thosteson: I would

like to know the difference between high and low blood pressure. Are the symptoms the same? If not, what is the difference. I look forward to seeing it in your column soon.

— E.A.

Blood pressure is simply the amount of force of pressure which pushes blood through our arteries. When we are young and our arteries are supple, the blood flows easily, and pressure is moderate. As arteries harden, it takes more pressure, and high blood pressure develops. (There are other factors involved in this, too.)

The symptoms of high or low blood pressure are distinctly different, but I hesitate to attempt an explanation in the available space here. Why don't you send for my booklet, "Controlling Your Blood Pressure"? You can get it by mail. Send 25 cents and a long

self-addressed, stamped envelope to me in care of Big Spring Herald. You'll find both high and low blood pressure explained, not to mention normal pressure.

Dear Dr. Thosteson: I have heard that the correct way to shave the legs is with a downward stroke. I have been using an upward stroke because it seems easier. Would this affect hair growth? — L.W.

Direction makes no difference, with the possible exception that if a person is subject to ingrown hairs, one direction or the other may be preferable.

Dear Dr. Thosteson: I am 15 and a diabetic. I was told by some people that: Diabetics do not grow in height after age 15; female diabetics have premature babies. If true, I would like to know why. — S.A.

First statement wrong. Not true.

Second: not true of all. Female diabetics, it is true, do not handle pregnancy as well as non-diabetics. Premature births and stillbirths are frequent but with good medical supervision many births are normal.

Never take a chance on diabetes! For better understanding of this disease, write to Dr. Thosteson in care of the Big Spring Herald for a copy of the booklet, "Diabetes — The Sneaky Disease." Please enclose a long, self-addressed (use zip code), stamped envelope and 25 cents in coin to cover cost of printing and handling.

## Mrs. Meir Sets Date With Nixon

WASHINGTON (AP) — President Nixon will meet with Premier Golda Meir of Israel on March 1.

The announcement was made Sunday at Camp David, Md., the presidential retreat, shortly before Nixon returned to Washington.

Mrs. Meir will be in the United States for a private visit at the time, a White House spokesman said. This will be the fourth meeting between the two leaders since 1969. They last met in December 1971.

The announcement made no reference to topics of discussion.

## Picked Day He Would Die

Hal Boyle

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Cancer is the disease people dread the most, but heart disease takes twice as big a toll. The No. 1 killer, it claims each year the lives of 358.4 out of every 100,000 Americans. Cancer kills 160.9.

Natural disasters often take a greater toll of bird life than of animal or human life. For example, flights of migrating Lapland longspurs were caught in a vast, blinding, wet snowstorm over Minnesota and Iowa in 1904. Naturalists estimated that more than a million birds died.

Quotable notables: "No man is justified in doing evil on the grounds of expediency." — Theodore Roosevelt.

Quality not size: So much genius and knowledge spread from ancient Athens that many people have the idea it was a gigantic metropolis. Actually, however, even during its golden age under Pericles, Athens had a population of only 300,000 — smaller than that of Omaha. This is no knock on Omaha. It hasn't been around as long as Athens.

Worth remembering: "The three ages of man are: school tablet, aspirin tablet — and stone tablet." — Definition of management: love one another."

The art of getting five men to do the work of ten.

Death comes to people in odd ways: Agathocles, tyrant of Sicily, was killed at 95 when he swallowed a toothpick.

Robert Burton, author of "That Anatomy of Melancholy," astrologically picked the day he would die — and did.

On the other hand, Chalcas, the soothsayer, died laughing because he thought he had outlived the predicted hour of his death.

It was Jonathan Swift who observed, "We have just enough religion to make us hate but not enough to make us love one another."

## My Answer

BILLY GRAHAM

I heard you say on one of your telecasts that Jesus was a brown man. Now, if he was born of the Hebrew maiden, Mary, how could that be so. All of the Jews I have ever seen are of the Caucasian race. I couldn't believe my ears when you said Jesus was brown. Please explain. M.P.B.

You'll be amazed at the statement of the Encyclopedia Britannica in this regard (Vol. 12, page 1054). It states that "the findings of physical anthropology show that, contrary to the popular view, there is no Jewish race." Apparently, measurements of Jewish groups from many parts of the world indicate "they differ greatly from one another in all the important physical characteristics — stature, weight, skin color, etc. . . ."

Evidently, Jews come to resemble the local populations in which they live. The Chinese Jews of K'ai-feng looked Chinese; the Ethiopian Jews have a mixture of Negroid features; and the Yemenite Jew has a dark olive complexion.

The Bible gives a few details on the Virgin Mother or the specific physical characteristics of Christ. Indeed, his whole childhood, from the standpoint of Biblical revelation is confined to a few sentences. We have to deduce certain things from the geography and history of that time. It seems a safe assumption to say Jesus was swarthy in skin color, certainly not white-skinned as American Caucasians.

Don't miss, however, the higher truth I intended to convey in that telecast. That is that Jesus belongs

to all people, to the black, to the yellow, to the red, the white and the brown. He is the true generic man, the Man for all seasons, the God-man for all needs.

The new life of faith needs no more certification than John's statement, chapter 1, "Christ became a human being, and lived here on earth among us, and was full of loving forgiveness and truth."

## New Winds

William F. Buckley Jr.

The word in New York is that Nelson Rockefeller intends to run for President in 1976, and that John Lindsay intends to run for re-election as Mayor in 1973. If it is so, it is a matter of local and national interest what these gentlemen have learned from their experience in office.

CONCERNING THE education of the Governor, I pledge something in due course. Concerning the education of the Mayor, it is instructive that on a single day, in New York, two things of symbolic importance happened. One was a wisecrack. Committed by a hyper-liberal political columnist, Mr. Pete Hammill, who is just unpredictable enough to be interesting. He said that the next mayor of New York should "be from one of the boroughs, either a Catholic or a Jew, and not too tall. He should also not have gone to Yale." The significance of that quotation, for the uninitiated, is that there is a liberal saying that anyone who hopes to succeed John Lindsay as Mayor of New York must on no account resemble John Lindsay. I.e., the people desire something quite different.

THAT VERY day, Mr. Lindsay swore into office a new Commissioner of Parks, Richard Clurman, who is immensely talented. He is much more in the tradition of Robert Moses, who during his long service to New York City and State specialized in doing things, rather than in elaborating civic or municipal ideologies. Mr. Clurman is a renowned doer. He was given by Henry Luce the job of administering the Time-Life News Service, making him for a period of time the man in charge of the largest news-gathering system at the disposal of a single journal. In this job he excelled, showing always the tough curiosity of his boss.

THERE ARE several points of interest in the appointment of Clurman by Lindsay. Clurman is a no-nonsense anti-ideologue. His speech, on taking the oath of office, was of

course humane, but it was conspicuously lacking in the sentimental styfoam that kept John Lindsay afloat for years and years. Mr. Clurman said, simply, that the parks and other recreational facilities which he now controls are going to be run on a very tough basis.

HE WILL DO everything reasonable to keep them in good order — clean, useful, and beautiful. But in those sections of the city in which the common unity shows indifference, or hostility, or persistent neglect, he will quite simply say — the hell with it, and let the facilities turn to weed and ashes.

"We will not contribute to the ideology of irrationalism," said Mr. Clurman, in the presence of Mayor Lindsay, "by over and over again rebuilding what is instantly destroyed."

EIGHT YEARS ago such talk would not have gone unchallenged in the earshot of Mayor Lindsay. Urban policy is changing. The anything-goes of the 1960's with its deep roots in permissive egalitarianism, is withering, and the politicians are not giving it transfusions from the romantic-revolutionist textbooks of the last decade. Richard Clurman that day shared the headlines with Nelson Rockefeller — who was proposing life sentences for heroin pushers. Never mind whether Rockefeller will prevail over the pushers, or Clurman over the litterers. There is movement in the air, and when mayors of cities like New York reach in and get people like Clurman into their tents, the movement is in an encouraging direction.

(Washington Star)

## A Hard Case

An advertisement in a Surrey, England paper read: "Child's cot suitable for young baby with solid bottom and four strong wooden legs."

# HOROSCOPE

CAROL RIGHTER

**WED. HOROSCOPE JAN. 10**  
**GENERAL TENDENCIES:** This is one of those days when you should be able to combine your mental and physical energies. You can see clearly your own, why and when to put in motion a new course of action which can bring to you the results you desire.

**ARIES** (March 21 to April 19) A good day to take with experts the ideas you have for getting ahead much faster in the future. First make sure you are well dressed and feeling fine, and then make a fine impression on others.

**TAURUS** (April 20 to May 20) Relax your position in life a more affluent and impressive one. Then get busy obtaining the data you need. A new associate can be most helpful in aiding you to advance.

**GEMINI** (May 21 to June 21) Find the right methods for handling daily responsibilities more wisely and efficiently so you have greater profit. Show more affection for mate and get better results. The evening can be a fine one.

**MOON CHILDREN** (June 22 to July 21) You are in the mood to vary your civic matter and this can lead to very fine things. Take care of your own and of an important business matter without fail, even if it means foregoing fun. Leo will be done in a more efficient way for a better system of operating so that you can become more successful and attain greater income. Being most helpful to workers brings you their appreciation and quick response tonight.

**VIRGO** (Aug. 22 to Sept. 22) You can get all those responsibilities handled well and early in the day so that you can later go out to the amusement that appeal to you. Use your intuition and please good friends and mate.

**LIBRA** (Sept. 23 to Oct. 23) Listen to an associate who has fine ideas for improving conditions at home. An adviser can help you in a business way, also. Get together with this person and make future plans, be wise.

**SCORPIO** (Oct. 24 to Nov. 21) Find a better system for handling your regular duties and give more support to fellow workers for better results now and in the future. Avoid a troublesome situation at home tonight.

**SAGITTARIUS** (Nov. 22 to Dec. 21) You have fine creative ideas that need to be put into active expression so that you can get the benefits. The evening can be amusing of whatever delights you like the most. Don't be too extravagant.

**CAPRICORN** (Dec. 22 to Jan. 20) Showing that you are truly devoted to the harmony now existing at home. Anything that stands in the way of progress should be eliminated. The social side is most productive in the evening.

**AQUARIUS** (Jan. 21 to Feb. 19) You are taking very clear and can get all the way along with your ideas, but don't confuse in others. Routines should be done in a more efficient way. Become more energetic and enthused.

**PISCES** (Feb. 20 to March 20) You have an opportunity to add to your present abundance and should not procrastinate or you will lose. Talk with experts and gain the benefit of their good advice. Avoid one who steals you down.

## Baer Quintuplets Doing Fine, Dad Is Calming Down

EVANSTON, Ill. (AP) — The Baer quintuplets are "doing fine and the father is calming down," says a spokesman at Evanston Hospital.

Even Thomas Allen, the first born who had developed a respiratory problem, was being fed orally and was being given oxygen just once in a while, the spokesman said Sunday night.

The three girls and two boys were born Friday to Mr. and Mrs. James Baer of Northbrook. Thomas Allen, Elizabeth, Douglas Edward, Leslie and Vickie were moved from Highland Park Hospital to Evanston Hospital, a referral center for premature and high-risk babies.

The father has shuttled back and forth from Evanston to Highland Park, where his wife Lynn, 26 was recovering from 10 hours labor.

Dr. Melvin Cohen, medical director of Fertility Institute, Ltd., said Sunday he had treated Mrs. Baer daily with the fertility drug Pergonal before she became pregnant. He declined to discuss her case further.

WHAT'S THIS? SLEDDING COUNTRY? — A group of youngsters in Kentwood mysteriously produced sleds Sunday and took to the glassy streets nestled against South Mountain. And down the long slopes toward town, too. Only they found what others in any climes already knew — it's a long way back.

# County Dads Add Half Per Cent To Pay Scale

In a surprise move late Monday morning, the County Commissioners Court decided to increase the pay hike for the about 100 county employees from five per cent to five and one-half per cent.

## Old Ridge Lee Did Work Well

WELLINGTON, N.Z. (AP) — Fifty thousand daughters of the late Ridge Lee Master Owl are living in New Zealand, and perhaps not surprisingly his friends are claiming old Ridge Lee was a world beater.

The poor old fellow died recently, seven years after joining the New Zealand airmen's pedigree Jersey bull team of sires.

In his day Ridge Lee was responsible for the insemination of 290,000 dairy cows.

County Judge A. G. Mitchell, who is recovering from an operation, was absent, and Commissioner Jack Buchanan did not vote.

Half of one per cent more will cost Howard County \$2,187 yearly.

This five and one-half per cent is the largest amount permitted for the county under federal wage controls. But William H. Eysen Jr., county attorney told them an attorney for the Internal Revenue Service in Dallas had informed him that the extra one-half per cent could be used for individual employees.

Eysen and Robert H. Moore III, district attorney, requested the court allocate an extra \$200 yearly for his secretaries.

The court had allocated \$4,704 yearly for Miss Dorothy Love, secretary to Eysen, and \$4,068 for Mrs. Nelda Jones, secretary

to Moore. This was before another half per cent was added.

Sheriff A. N. Standard dropped his plans to request \$15 per month more for officers with intermediate certificates and \$25 per month more for those in the advance category.

In other business, the court discussed approaching the city about contributing to county welfare expenses. Almost all welfare recipients live inside city limits. Ruby Phillips, department head, said. Also the rate paid daily for foster care was considered. The current rate is \$3.50. The contract for office supplies was awarded to Hester's Supply Co., low bidder, at \$302.95.

Marvin Hanson, road administrator, told the court about caliche contributed by Leland Wallace. The caliche is being used to improve a county road.

## Honey Of An Idea — Honeybee Nominated

KERNERSVILLE, N.C. (AP) — A state insect? North Carolina already has a state flower (dogwood), state shell scotch bonnet, state tree (pine) and state mammal (grey squirrel).

Now the state legislature is being asked to name a state insect.

A Kernersville man, Brady W. Mullinax, says Rep. Lawrence Davis, D

### JUMBLE — that scrambled word game

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

**FRIGE**

# Miss Crockett Weds David Manly Yeats

Wedding vows were exchanged by Miss Caren Lynn Crockett and David Manly Yeats at eight o'clock Monday evening in the Wesley United Methodist Church.

The ceremony was performed before an altar flanked with arrangements of white gladioli and carnations, and the setting was illuminated by branched candleabra holding white wedding tapers. The Rev. Caleb Hildebrand officiated.

Nuptial music was provided by Miss Arlene Henderson, pianist, who accompanied Roger Dixon, vocalist.

Miss Crockett is the daughter

of Mr. and Mrs. Don Crockett, 101 Lincoln, and Yeats is the son of Mr. and Mrs. Thomas Yeats, Silver Heels.

The bride wore a wedding gown fashioned in ivory eyelet with a floor-length skirt and long sleeves ending in wide lace cuffs. Heavy ivory lace trimmed the empire bodice which featured a high round collar accented with small covered buttons. She carried a nosegay of pink roses.

Miss Marcia Staggs served as maid of honor and wore a formal-length gown of blue crepe with pink trimming. The gown featured long fitted sleeves and a high collar. She carried a nosegay of pink carnations.

Alton Callihan served as best man.

The couple was honored at a reception in the home of the bride's parents immediately following the ceremony.

The bride's table was covered with a white organza floor-length cloth and centered with a silver epergne holding an arrangement of white gladioli and pink rosebuds. Milk glass and silver appointments were used, and the tiered cake was topped with miniature white satin wedding bells.

MRS. DAVID MANLY YEATS

# Activity For All Ages At Westside Center

Through the work of about 20 adults and seven teenage volunteers, the activities at Westside Community Center are back on regular schedule following the holidays. Mrs. Douglas Williams, program director, announced the following group activities.

Arts and crafts for boys (ages 6 to 12) 4 to 5 p.m., Tuesdays, coordinated by Mrs. Don Wiley and directed by Mrs. Clyde Thomas and Mrs. Clyde Johnston.

Arts and crafts for girls (ages 6 to 12) 4 to 5 p.m., Wednesdays, directed by Mrs. Neil Norred with assistance from Woman's Forum members and four high school girls, Wana Rybolt, Carla Greenhill, Cathy Greenhill and Terri Thompson.

The children's choir, directed by Mrs. Joseph Dawes, meets at 4 p.m., Thursdays, and now has approximately 30 participants. Private piano lessons are being given to 10 students by two volunteer teachers, Miss Helen Ewing and Mrs. Fay Newman.

The pre-teen girls' club meets at 4 p.m., Tuesdays, for instruction in homemaking and creative crafts under the direction of Mrs. Jim Collier and Mrs. Wiley.

Young people from College Baptist Church conduct a non-denominational Bible study and activities for children from 10 to 11:30 a.m., Saturday mornings. Average attendance is 20.

Plans are being made for another cooking class for pre-teens, to be conducted by advanced 4-H club girls.

Adults meet for sewing, knitting and crocheting at 7:30 p.m., Thursdays and 9 a.m., Fridays; the classes taught by Mrs. Robert Garcia, Mrs. Ben Boadle, Mrs. Joe Cox, Mrs. Kenneth Summy, Mrs. M. B. McFall, Mrs. Dimingo Abreo, Mrs. Willie Alexander and Mrs. Williams. Through the generosity of local people, the sewing room now has seven

machines.

At 7:30 p.m. on the third Tuesday night of each month, Miss Sherry Mullin, county extension agent, teaches a course in cooking (in the kitchen at the center) for the Westside Women's Club.

The new building has provided needed space, and the center's equipment is used daily by scores of children who gather there to use the library and recreation equipment or watch television under the supervision of Mrs. Ernest Bauch, director. Mrs. Bauch

has been commended by the center's board of directors, headed by Mrs. Caleb Hildebrand.

The board invites and encourages all interested persons to participate in the center's programs or take advantage of the supervised play in the buildings or the park adjacent to them. Visitors are welcome. Since attendance at the center has increased in all age groups, more adult and teenage volunteers are needed. Those wishing to help are asked to call Mrs. Williams, 263-6406.

## Weather Forces Clubs To Postpone Meetings

Due to weather conditions, most women's club meetings scheduled today or tonight have been cancelled. A listing follows of the ones known to be cancelled.

The Jaycee-Ettes meeting at the Webb AFB Officers Club is cancelled, and a make-up meeting date will be announced.

Lees Home Demonstration Club cancelled and will meet Jan. 23, place to be announced.

Xi Mu Exemplar Chapter, Beta Sigma Phi, has rescheduled its meeting for 8 p.m., Jan. 23 in the home of Mrs. Jerry Snodgrass.

Installation at John A. Kee Rebekah Lodge No. 153 is set at 7:30 p.m., Jan. 16, instead of tonight.

The 1970 Hyperion Club has cancelled its meeting and will resume on regular schedule with a meeting Feb. 13, place to be announced.

Business and Professional regular dinner meeting at 7 p.m., Jan. 23 at Coker's Restaurant. Tonight's meeting is cancelled.

Center Point HD Club has rescheduled its meeting for 2 p.m., Jan. 16 in the home of Mrs. J.R. Petty.

Gay Hill and Kentwood

Parent-Teacher associations will not meet tonight.

Alpha Kappa Omicron, Beta Sigma Phi, will meet at 7:30 p.m., Wednesday in the home of Mrs. Sandra Tubbs.

Tonight's meeting of Howard County Historical Survey Committee will be rescheduled, date to be announced.

Election of officers for Non-Commissioned Officers Wives Club at Webb AFB has been rescheduled for 7:30 p.m., Jan. 16 at the NCO Club.

Tonight's meeting of the Order of Rainbow for Girls is cancelled, and the group will meet at 7 p.m., Friday at the Masonic Temple.

College Park and Fairview HD clubs have both cancelled their meetings. Fairview will meet Jan. 16, and College Park is scheduled to meet Jan. 23. Places will be announced.

The couple's meeting of Child Study Club, originally scheduled tonight at the home of Mr. and Mrs. David Elrod, is now set at 7:30 p.m., Jan. 16 in the home of Dr. and Mrs. W. A. Riley.

The Texas Delta Delta Chapter, Phi Sigma Alpha, cancelled its meeting. Time and place for a make-up meeting will be announced.

## A LOVELIER YOU Don't Let Wintery Air Spoil Ski Slope Fun

By MARY SUE MILLER

Five million Americans will be heading for the ski slopes during the next months in such favorite spots as Vermont, Colorado, California, New Jersey, Pennsylvania, Washington and Idaho. The sport of skiing has been growing at the rate of 10 per cent a year. Men outnumber women skiers; the ratio is something like 6 per cent-40 per cent.

Along with the fun, the chances are you get a skin reaction. The male is as prone as the female to windburn and chaf. The drying effects of sun, cold and dry air at high altitudes are inescapable. Unless, that is, you take precautionary measures.

Use of an intensive care lotion, rich in emollients and moisturizers, keeps the skin out of harm's way. Applications should be made before and after skiing and upon retiring. Just a few drops soften on contact and slow down the moisture loss that induces dryness.

Hands and lips also respond to intensive care lotion. Men and children willingly submit to applications because there is no greasy or tacky residue, no heavy perfume.

Other pluses accrue to the staff side. Makeup may be worn, if desired, over care coatings. The one indispensable makeup item is lipstick, with

a super creamy formula. Hold the color to a healthy natural shade for outdoor wear. Reserve the hot hues for apres-ski by the hot fireside.

**LOVELIER HANDS**

Do you have a hand problem? Send today for "Lovelier Hands," a leaflet that covers every step in a quest for hand beauty. It tells how to keep the skin and nails groomed; how to overcome weak nails, polish chips, discolored knuckles, prominent veins, wrinkles; how to use the hands with poised grace. To obtain your copy, write Mary Sue Miller in care of the Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 20 cents in coin.

A red cloth covered the bridegroom's table, which featured a silver coffee service. Red candles in a silver candelabrum centered the table.

Mr. and Mrs. Yeats will reside in Austin where both will attend the University of Texas. She is a sophomore majoring in special education, and Yeats is a junior majoring in psychology. Mrs. Yeats graduated from Big Spring High School and attended Howard County Junior College. The bridegroom is a graduate of Fossan High School and attended Howard Payne College and Angelo State University.

## Rhymes Aid Mom In Toddler Care

A fun way to teach and encourage a toddler to wash his hands is to combine the washing with a nursery rhyme. It goes this way. While helping him lather up by rubbing the bar of soap between his palms, back and forth from fingertips to over the wristline, slowly say, "Rubadubdub, three men in a tub, and who do you think they be?"

## Quotable Women

"Unfortunately, at this time in history, we are the only people who can get you here. Let's face it, if the real organizers were here, none of you people would show up." Actress Jane Fonda telling reporters why she called a news conference to further the movement of antiwar activists.

"I can't fight the inequities, nor can I imagine that my small check can stop the suffering. But I do what I can and hope that if we all together do what we can — maybe the world will smile again." Ellie Henkind in a note to the New York Times Neediest Cases Fund.

## Fathers Get More Leisurely Times

A Japanese government survey on leisure showed that fathers with the youngest child in high school or above have more free time than bachelors.

Unmarried men have about four and a half hours of free time each weekday, compared with more than five hours for married men with children of high school age or older, the survey reported.

# KRAZY DAYS

## Wednesday and Thursday

JANUARY 17 AND 18

Featuring Ridiculous Prices At Participating Merchants

The Big Spring Herald will publish a special Krazy Days section in the Tuesday and Wednesday, January 16 and 17, editions. No two sections will have the same number printed on the front. If the number on your section matches the number of any participating Krazy Days advertiser, you can buy the advertised item at the ridiculously low price.

Numbers will change each day . . . so,
