SLAIN DIPLOMAT'S FIANCEE — Dominique La Croix, center, French fiancée of Belgian diplomat Guy Eid, who was murdered by Palestinian guerrillas in Khatoum, Sudan, is comforted outside Cairo's Notre Dame de la Paix Greek Catholic Church after funeral services for Eid Monday. He and two U.S. diplomats were slain by the terrorists. With Miss La Croix are two unidentified friends of Eid's family.

Foreign Airlines Boycott France

Property Taxes Investigation

AUSTIN (AP) — Sen. H. J. Blanchard, a one-man Senate investigating committee, recommended today that the controversial Legislative Property Tax Committee be continued.

There have been demands, fanned by reports of alleged improprieties in handling of financial matters, that the committee be disbanded.

"I can say generally that charges of impropriety in handling funds are incorrect," the Lubbock senator said in making his report. He made a number of recommendations concerning contracts made by the committee and of committee personnel.

Blanchard said that "in view of the complexities of ad valorem taxation and the fact that a billion dollar tax delinquency exists, I firmly believe the work of this committee should be continued."

LI. Gov. Bill Hobby, who named Blanchard a one-man investigation for the five-member group, said he agreed completely with Blanchard's recommendations. "I plan to continue to give the work of this committee my closest scrutiny and give my utmost cooperation so that our state may benefit by its work," Hobby said.

The committee adopted Blanchard's report and accepted the resignations of Jack Hart of Midland, a committee member, as committee secretary — for which he was paid \$2,100 a month — and staff director Jeff Davis. Hart remains on the committee.

Another meeting was set for April 6.

Moss Lake Lures Upwards To 2,000

The first weekend of warm, sunny weather in months attracted from 1,500 to 2,000 people to Moss Creek Lake Saturday and Sunday, according to Ronald Robey, lake caretaker.

Robey said he is expecting 15,000 people to visit the lake this year to fish, picnic and sightsee. About 65 per cent of the lake patrons are from outside Howard County, he added.

He said he is expecting a larger number of visitors this year because of the high water level which is about five feet above normal due to the large amount of precipitation this winter.

"The lake is fuller than it has ever been and is better stocked this season," he said. The lake is stocked three times a year with game fish such as bass, catfish, perch and carp from the state hatcheries in San Angelo.

Robey said he doubts that an ordinance being drawn up by city officials to outlaw hunting at the lake site will affect attendance much, as few people hunt in the area anyway.

JOYFUL BIRTHDAY FOR FOUR POWs

CLARK AIR BASE, Philippines (AP) — This was a special day for four newly freed American prisoners of war released by North Vietnam. They celebrated their birthdays at a party.

The four are Navy Cmdr. Collins H. Haines of Morristown, N.J., born March 6, 1932, captured June 5, 1967; Air Force Maj. John C. Blevins of San Antonio, Tex., born March 7, 1939, captured Sept. 9, 1966; Air Force Lt. Col. Norman L. Wells of Unionville, Va., born March 7, 1933, captured Aug. 29, 1966; and Marine Maj. Orson G. Swindell II of Camilla, Ga., born March 8, 1937, captured Nov. 11, 1966.

T.Sgt. John F. Clayton of New Bedford, Mass., his wife and two sons made a special cake which was shaped like the United States. It measured three feet in length, two feet in width and was four inches thick.

Talk, Talk, Talk Looms

AUSTIN, Tex. (AP) — Texas senators came back to work today facing the same filibuster threat that postponed all their lawmaking business Monday.

"We've got lots of books to read and lots of amendments to offer," Sen. Tom Creighton, D—Mineral Wells, said Monday shortly before the Senate adjourned.

House members, meanwhile, planned a final vote on a bill giving judges the power to deny trial delays sought by legislator lawyers under certain conditions. The measure advanced Monday night on a voice vote.

The bill, by Rep. DeWitt Hale, D—Corpus Christi, would end the present automatic delays—or continuances—of trials during legislative sessions when a lawmaker is involved as an attorney.

LEGAL RIGHTS

Creighton talked for about half an hour Monday against any further debate of a bill sponsored by Sen. Bob Gammage, D—Houston, that would give 18-year-olds their full legal rights.

He hinted broadly that he, along with Sen. Bill Moore, D—Bryan, and Don Adams D—Jasper, were prepared to argue at length against the bill. All three have big stacks of law books on their desks.

"I never participate in a filibuster, although at times I do make extended remarks," Creighton said, grinning.

The Mineral Wells senator began Monday by offering an amendment to Gammage's bill that would remove everything except the title. "What this

amendment is designed to do is kill this bill," he said. "The people of this state don't have adequate knowledge of what's in this bill."

KIDS MOB POWs

'These Are Boys?' Asks Navy Officer

CLARK AIR BASE, Philippines (AP) — Eighty of the 106 American prisoners of war released by North Vietnam this week will be flown to the United States on Wednesday, Operation Homecoming officials announced.

The announcement said planes carrying 20 men each would fly to Andrews Air Force Base in Washington, D.C., Scott Air Force Base at Belleville, Ill.; Kelly Field at San Antonio, Tex., and Travis Air Force Base at Fairfield, Calif.

They were due Wednesday afternoon, between 2:30 and 5:30 p.m. local time.

GOING AHEAD

Their departure will leave 56 American POWs and two West Germans still at Clark Air Base awaiting transfer. Two Thai sergeants freed in Hanoi on Sunday were flown to Bangkok today, and two Filipinos re-

leased Monday were transferred to a Philippine military hospital in Manila.

Officials at the base hospital reported that most of the men released Monday and Tuesday were in good condition and their medical checks and other processing were going ahead without any hitches.

A number of the men visited the base schools for Air Force children today to get an idea of what their children will be like; a 17-man choir organized in one of the prison camps sang for newsmen; and many of the men planned a visit to the base exchange.

BOYS BLUSH

"These are boys?" asked Navy Capt. Robert B. Fuller, 45, of Jacksonville, Fla., as he saw a couple of long-haired youths standing in a hallway at Wagner High School. The boys blushed.

Satellite May Be Weapon For Fighters Of Pollution

WASHINGTON (AP) — Tell-tale imagery recorded by a satellite 560 miles above the earth may be used in a lawsuit against a paper mill accused of dumping waste into Lake Champlain, space scientists say.

The photographs taken by the Earth Resources Technology Satellite (ERTS-1) clearly show pollution from a paper mill on the New York side of the lake, scientist A.D. Lind said Monday.

He said Vermont is seeking an order to prevent further pollution. The satellite photographs of the pollution plume in the lake have been turned over to Vermont's attorney general for possible introduction into the lawsuit now under way, Lind said.

ACID WASTES

Other ERTS photographs

have shown that acid wastes are being dumped into the ocean off New York harbor "a few miles closer to Jones Beach than should be permitted," the scientists said at a government-sponsored symposium.

This also is a matter for possible future litigation, they said in reporting on usage of ERTS data.

The pictures and data, as described at the opening of a four-day National Aeronautics and Space Administration symposium in suburban New Carrollton, Md., also showed that:

EROSION

—The railroad track that arrows through Utah's Great Salt Lake, in effect, has divided that lake into two bodies of water, with the area to the north showing up red in satellite imagery, and that to the south blue. The satellite results indicated that additional culverts should be cut through the rail bed to provide circulation and prevent further deterioration of the lake's mineral resources and brine shrimp.

—There has been no obvious

damage to the Alaskan landscape from oil-well drilling in that area over the last two decades.

Teen Charged In Burglary

William Jack Martin, 18, of Coahoma, was charged with burglary in connection with the break-in of Carver's Pharmacy over the weekend.

Mike Olson and Donald Prescott, who were held for investigation, were released with no charges filed. Martin's bond was set by \$10,000 by Corporation Court Judge John Coffe.

Albert Huey O'Neal's bond has been set at \$2,500 by Judge Coffe in connection with assault with intent to murder in the stabbing of Glen Gray, who is hospitalized here.

Cecil Murrell Odell, who was arrested in Odessa Saturday night, had not yet been transferred here Tuesday morning.

Odell was picked up in a car belonging to Mrs. H. T. Page. Her daughter, Mrs. Adele Posey, went before Justice of the Peace Gus Ochotorena Saturday to sign a complaint. She was accompanied by a police sergeant. Mrs. Page was out of town.

Investigation continues in a break-in and beating which also occurred here over the weekend.

FAIR

Fair this afternoon. Increasing cloudiness Wednesday. West to northwesterly winds. High this afternoon, mid to upper 60s. Low tonight, mid to upper 30s. High Wednesday, near 70.

(AP WIREPHOTO)

EASTER SEAL CHILD WITH GOVERNOR AND ROGER STAUBACH — Mark Roberts, 7, of Big Spring is shown with Gov. Dolph Briscoe, right, and football star Roger Staubach as the first sheet of 1973 Easter Seals was presented to the governor Monday. Staubach is the 1973 Texas State Easter Seal chairman. Mark is the son of Mrs. Natalie Roberts of Big Spring, who made the trip with her son.

FRAUD

Pick Jurors For Carr, Osorio Trial

DALLAS (AP) — Jury selection resumed in federal court here today at the trial in which former Texas Atty. Gen. Waggoner Carr and former Texas Insurance Commissioner John Osorio face a 12-count indictment alleging mail and wire fraud.

INNOCENT?

Both plead innocent. Joe P. Novotny, 32, former president of Frank Sharp's Sharptown State Bank, who was charged with them, dropped from the case Monday after suddenly switching his plea from innocent to guilty. Novotny pleaded guilty to one charge of mail fraud involving a \$550,000 loan. He will be sentenced later to a punishment which could range up to five years in prison and a \$5,000 fine. The other 11 counts against him are unlikely to be prosecuted.

A motion that Waggoner Carr be tried alone, because Osorio had just been convicted of embezzlement in Amarillo and Novotny had switched to a guilty plea, was dismissed by U.S. District Court Judge William M. Taylor Jr. A similar motion seeking a change of venue because of publicity in Dallas will not be considered until after a jury is selected.

Poverty Report

AUSTIN (AP) — Twenty-two per cent of all Texans are poor and are likely to stay that way unless the legislature provides leadership in social services reform, a House interim study committee said Monday.

"It has become apparent that too few poor are receiving any benefit from the millions of dollars being spent," declared the report of the House Interim Committee on Poverty, chaired by Rep. Joe Wyatt Jr., D-Bloomington.

"If the present level of programs continues, Texas will have a large poor population years from now."

The report said the legislature should set policy guidelines for poverty programs in the state, and make state agencies report annually how they implemented the policy.

"The state legislature has heretofore provided neither leadership nor control in poverty-related programs," Wyatt said.

"The extent of poverty in Texas is so great and its causes are so complex and inter-related that a solution to poverty requires a comprehensive state policy."

Recommendations to the legislature to revamp the poverty programs included:

- Creation of a policy regarding children, manpower development and aging.
- Elimination of the \$80 million ceiling on appropriations for welfare assistance.
- Changing the name of the Department of Public Welfare to the Department of Human Resources.
- Establishment of multi-purpose service centers to coordinate state and federal programs.
- Enforcement of immigration laws to safeguard jobs for Texans.
- State funding of bilingual education.

Tough Ethics Bill Advances

AUSTIN (AP) — Elected officials and certain non-elected state officials with policymaking power would have to file annual financial reports under a bill approved by the House State Affairs Committee.

The bill, co-sponsored by Reps. Larry Bales, D-Austin, and Jim Nugent, D-Kerrville, was sent to the House floor for debate on a 17-1 committee vote Monday night. Rep. Hillary Doran, D-Del Rio, cast the negative vote.

The bill was amended over the weekend to meet objections raised by Atty. Gen. John Hill, who said the measure was generally constitutional, including a provision requiring the disclosure of holdings as well as income and source of income.

Sniper-Death

NEW ORLEANS (AP) — A New Orleans police sergeant wounded by a sniper last New Year's Eve died in a local hospital Monday night.

Authorities said the 44-caliber magnum carbine used to shoot Sgt. Edwin Hoshi, 30, was the same one recovered after police killed Mark Essex atop the Downtown Howard Johnson's hotel Jan. 7. The sniper killed seven persons before he was shot on the hotel's roof.

Hoshi was hit Dec. 31 while checking a burglary report at a warehouse.

Accused Strangler Of Girls Trial

EDINBURG, Tex. (AP) — Trial has been set for May 14 for a San Benito man accused of strangling two San Benito high school girls and dumping their bodies in irrigation canals. The trial date was set Monday in 92nd district court.

Antonio Rios Zepeda Jr., 21, is charged with murder with malice in the April 11, 1972 strangulation deaths of Patricia Segura and Maria Normal Delgado, both 15.

Curbing Hazardous Drivers

Gov. Briscoe has lent his support to the Habitual Traffic Offender Bill in a move to reduce hazardous drivers on Texas highways.

The bill, by Sen. John Traeger of Seguin, would provide for conviction as a habitual offender when a motorist has four major traffic violations or 12 moving violations in five years. Major violations would be negligent homicide, driving, or driving without a valid license. Moving violations include speeding, collision, running traffic signals and similar infractions.

The bill is aimed at the estimated 30,000 Texas drivers who fit terms of the proposed legislation. That many dangerous drivers constitute a menace that can be managed and should be.

The bill was the result of work by members of the Texas Association of Insurance Agents. It is one effort to peg costs of casualty insurance by reducing the probability of losses.

Meantime, the House accepted quickly the State Bar of Texas' "reform" bill on damage claims from wrecks. It is called comparative negligence, and it would replace contributory negligence as a basis for collecting on damage claims. Both concepts encourage litigation. Com-

parative negligence makes the contest more interesting by requiring juries to determine percentage of fault in splitting insurance claims that are paid — after legal fees and court costs come out.

The insurance agents' plan has promise for curbing costs of liability coverage; the lawyers' plan seems to complicate the pay-off, and as such could be a tailor-made short-cut to some form of no-fault.

Sinking In A Sea Of Paper

Small businessmen are being drowned in a flood of federal paperwork, and Sen. Thomas J. McIntyre (D-N.H.) wants to first stop and then reduce the flow.

In Illinois last year, a typical "Mom and Pop" store had to file 52 different forms. In New Hampshire, the annual cost of accounting services for a Mom and Pop restaurant was put at \$820.

Sen. McIntyre estimated the government required small businesses (any business doing \$5 million in business or less) to fill 10 billion sheets of paperwork annually.

It costs government, at all levels, about \$18

billion a year to print, process and store all the forms. And it costs the small businessman another \$18 billion to get the forms completed, McIntyre said.

McIntyre and 28 co-sponsors are pushing a bill to require all congressional committees to determine in advance whether any new law would require more forms. He is drafting a second bill to cut down on the number of forms required.

The senator's efforts deserve action and support. The tide of paperwork should be reversed before the country sinks under the weight of paper.

What's On Dollar Bill?

Around The Rim

Barbara Lord

How many one-dollar bills do you handle in a week's time? Could you write a 200 word essay about what is found on a dollar bill without looking at one first?

Several years ago, a 2,000 word dissertation was inserted into the Congressional Record about quotations and symbols on the bill. The commonly used currency is filled with bits of our country's heritage.

THE REVERSE side of the bill is the most interesting. On it, both the front and back of the Great Seal of the United States appear. The seal was accepted by Congress in 1782 following our war of independence. It took Thomas Jefferson, Benjamin Franklin and John Adams, plus two other committees, six years to design the seal.

The face of the seal, on the right-hand side of the back of a one-dollar bill, shows the American bald eagle with wings and claws outstretched. Above the eagle's head is a "glory" containing 13 stars. The eagle's breast holds a shield with 13 stripes. The right claws hold an olive branch with 13 leaves, representing peace. Left claws hold a bundle of 13 arrows, symbolizing war. The head of the eagle is turned toward the olives, indicating a desire for peace, even during war. A ribbon held in the beak of the eagle reads, "E Pluribus Unum," or "Out of Many, One."

The back of the great seal is an unfinished pyramid, symbolizing material strength with a solid foundation for future growth and a goal of perfection. Above the pyramid is another "glory" or burst of light with an eye inside a triangle. This refers to the eternal eye of God or Providence, and placing the spiritual above the material. At the top and around the edge, in Latin, is the motto, "Annuit Coeptis," meaning "He (God) has favored our undertakings." The base of the pyramid bears the numerals MDCCCLXVI, or 1776, and below is the motto, "Novus

Ordo Seclorum" or "A new order: of the ages."

"IN GOD WE TRUST" is engraved across the upper center of each bill, and was first introduced on a U.S. coin in 1864 due to appeals to recognize the Deity on our money. It wasn't until 1957 that all denominations of U.S. coin and currency were printed with the motto.

The front of the bill, in addition to Washington's picture, includes various numbers and signatures. Every bill bears a series identification to the right of Washington's portrait. This shows the year the design was first used on a note.

In the upper left is a check letter, often followed by a quadrant showing the position of the note on the printing plate. The check letter in he lower right is followed by a number which tells from which plate the note was printed.

The serial number appears in two places; on the upper right and lower left. Serial numbers include eight digits plus a prefix letter which corresponds to that shown in the bank seal; and a suffix letter which designates district in which the bill was issued. No two notes of the same denomination and series have the same serial numbers, which is helpful in detecting bogus bills.

TO THE LEFT of Washington's portrait is the seal of the federal reserve bank which issued the note. Inside the circular seal is a district letter which corresponds to the letter preceding the bill's serial number. The seal of the Treasury is at the right of Washington.

All of the currency of our country includes a picture of a distinguished American Statesman, and the reverse sides show famous buildings, monuments or ornate numeral emblems. I'm told James Madison appears on the \$5,000 bill. Unfortunately I've not had the opportunity to find out for myself.

My Answer

BILLY GRAHAM

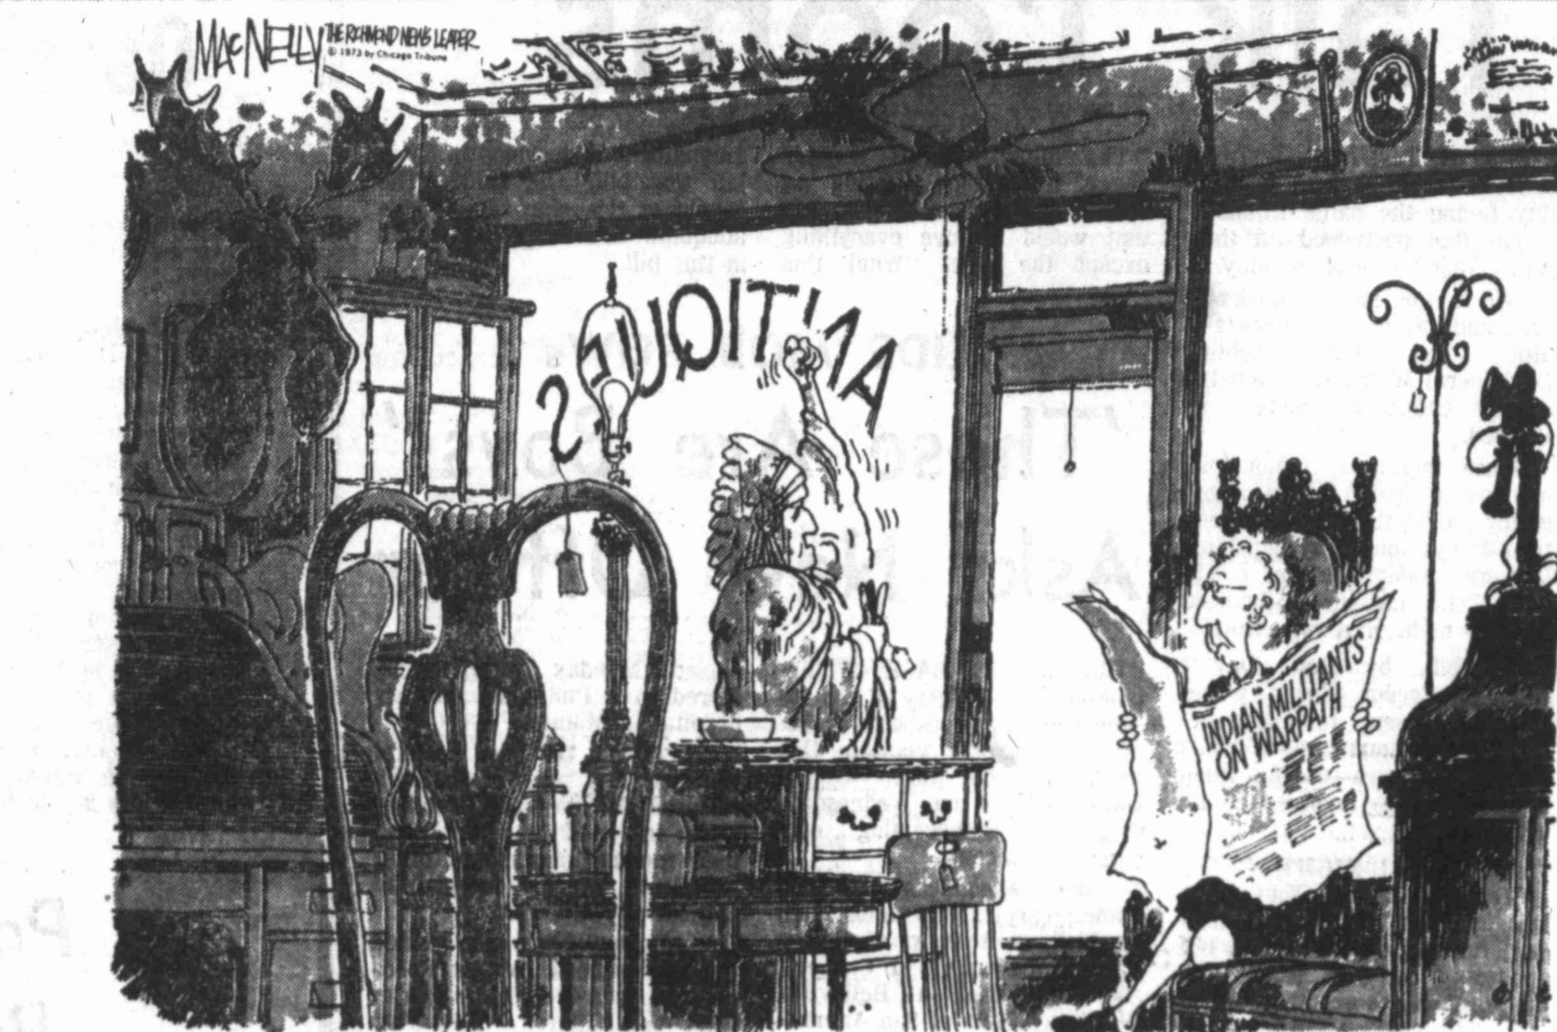

How can we love God when we see what He has done to His people? What sort of divine love permits human misery? Don't tell me people make the evil in this world. It is the human nature He gave us, isn't it? I need an answer before I become a real cynic.

W. W. You are right in saying that God created us because He wanted someone to love. You are wrong when you then blame all human ills upon Him. The Psalmist (chapter 118, verse 6) had the right perspective when he wrote, "The Lord is on my side."

Now look, a wise parent is one who says to his child: "I want you to love me — not because you have to, but because you want to." Then, if that child freely chose to disobey the parent, it wouldn't be accurate to say that the parent gave his child a bad nature, would it?

With that analogy, you can see what happened with mankind. God created man, making him a free moral agent. History is the evidence, however that man chose to, disregard God's love, and he carries the responsibility for that decision.

Compare Joshua 6 and Luke 15:20. I assure you God is more concerned with man's turbulent and sin-prone nature than you are. In the whole universe, no one has done more to provide a remedy than He has. Someone has aptly said that God

drags His feet in judgment, but rushes to provide forgiveness and restoration.

What makes the Gospel so wonderful is that besides assuring us of the future bliss of heaven, faith provides us now with the only proven method to change human nature. Furthermore, it's rather unique and totally effective exchanging a whole new nature for the old.

Hal Boyle

Some Mice Can Sing

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail: Obese women have one health advantage over their slimmer sisters. They suffer less anemia. But they are more likely to get diabetes, have gallbladder and heart attacks — and to live shorter lives.

Vampire bats, which sometimes spread rabies, are no myth. Spread from Mexico to Argentina, they prey on wild and domestic animals, birds and sometimes man. They drink an average of two gallons of blood a year each, and one can consume as much as 50 percent of its body weight at a single feasting. This is equiva-

lent to a 200-pound man eating a 100-pound meal at a sitting. Quotable notables: "Do not strive to understand the mystery of life. Strive to live it." — Jacob Klatzkin. What will youth try next? According to the National Geographic Society, teen-age boys among the little-known Mru people of Bangladesh wear earrings, tie blossoms in their hair, blacken their teeth, and paint their foreheads. Why? For the same reason teen-age boys here wear long hair and corduroy trousers — to attract the girls. Worth remembering: "For-

bidden fruit is often responsible for many a bad jam." Items to make your bartender's mouth fall agape: Murray Dickson, pitching for the St. Louis Cardinals, had 39 home runs knocked off him in the 1948 season. Swordfish can't see a hole in a boat but they have been known to get angry enough to pierce even a copper-lined hull with their long, pointed snout. Some kinds of mice can sing. They make twittering sounds not unlike those of birds.

It was Mark Twain (quoting an asylum inmate) who observed, "Forgiveness is the fragrance the violet sheds on the heel that has crushed it."

N. Vietnam Aid

William F. Buckley Jr.

There are mixed feelings, of course, concerning the proposed economic aid to North Vietnam by the United States. Hanoi loathes calls it "reparations," thereby giving aid and comfort to those in this country, who, viewing it as such, are opposed to it. Reparations after all signify one of two things: either the acceptance of a moral debt; or, in the absence of a morally completed formula, the acceptance of defeat. A country can pay reparations — as it is universally hoped Israel will do to Libya, in the case of the destroyed airliner, no final military point having been proven. France, after 1870, paid over huge reparations to the Kaiser's Germany in simple recognition of France having lost the war.

THOSE IN AMERICA who are sensitive to the implications of our paying reparations are quite rightly sensitive to the symbolic meaning that might be inferred by the transfer of money to North Vietnam. We do not by any means concede any moral obligation to North Vietnam, and we do not by any means concede a military defeat by North Vietnam.

So what is the meaning of a proposed economic aid to North Vietnam? In a curious way, it would have been easier to swallow having decisively beaten North Vietnam. Under such circumstances it might have been accepted as work-a-day charity by the victor for the vanquished such as was shown by the U.S. a generation ago toward Germany, Italy and Japan.

BUT WE FIND ourselves now in the equivocal position; we are a power neither humiliated morally, nor defeated by the enemy. Nor vanquisher of the enemy and yet, they talk routinely about giving North Vietnam \$2 or \$3 billion, a huge per capita outlay, and huge in its potential implications.

There are those whose opposition is based primarily on the deteriorated balance of payments — we cannot, they thunder, increase our economic debt abroad. This argument, though

statistically useful, is deflected, and will not carry the weight of the argument in a controversy in which passions are the primary tender. Those who favor aid to North Vietnam have got to make the point that we are investing via that aid in a stability which is otherwise far less easy to attain, and here is where a little Yankee ingenuity is in order.

THERE MUST BE a dozen and a half ways of infusing money into North Vietnam of a sort that will not assist it in remounting its war of aggression.

Obviously the \$2 billion in aid should be channeled towards the construction of facilities in North Vietnam which are proof — vulnerable in the event of North Vietnamese treachery. For instance, vast new facilities for Halphong Harbor combined with a pledge not to put anti-aircraft installations within X number of miles of such installations: this is merely suggestive.

AND ABOVE ALL: we should call on China and the Soviet Union to contribute equally not only in North Vietnam but in South Vietnam. Granted the likelihood of success particularly in South Vietnam is slight, still, the cogency of the suggestion could very well put the Russian and the Chinese aggressors on a significant defensive, and that is worth a very great deal. We should not let the subject go in the United Nations. We should keep it alive through speeches by our diplomats around the world, at meetings of the World Bank — everywhere.

Finally, on the moral problem: Do we advance the cause of peace and stability by doing so? We must proceed with stark reference to the real objective.

Phone First

Long-distance telephone was opened between New York and Chicago on Feb. 7, 1892.

Parethesia—Distorted Feeling

Dr. G. C. Thosteson

Dear Dr. Thosteson: Would you discuss parethesia? I am 75 and otherwise in excellent health. It developed as severe pain in my arms up to the elbows, and I even had to place pillows on the arms of a chair to rest my arms on.

The pain in my arms gradually disappeared but the pain in my hands remained intense. It felt like a hundred needles stuck in my hands and fingers or like having continuous electric shocks.

This pain now has disappeared except for the third and fourth fingers.

What causes this disease? Is it dangerous? How is it treated? — M.L.H.

Parethesia is a perversion, or distortion, of feeling. This does not always take the same form. It may be sharp pain, may be aching, numbness, or burning.

It isn't really a disease; it is a symptom, just as pain in the lower stomach isn't a disease but a symptom caused by ulcers or other conditions.

As you may well guess, parethesia means that some abnormality is having an effect on the sensory nerves. This may be a kind of disorder of the nerves themselves, or it may be pressure on the root or some other part of a nerve system.

Or there may be toxicity (poisoning) that affects the nerves, or it can even be a result of impaired circulation which is due to hardening of the arteries.

Thus you can understand why I cannot give you specific answers to your question about treatment, which would vary

depending upon the cause. Too many people have been concerned solely with cholesterol, but there are five classifications of blood fat disorders, including cholesterol and triglycerides, and I think total preoccupation with cholesterol has been overdone.

Some of the disorders require a reduction of fat in the diet, some a reduction of carbohydrate. All require limitation of total calories. The booklet will give you added insight.

Dear Dr. Thosteson: Recently I had a fourth heart attack and my doctor tells me that my triglycerides count is 383, cholesterol 175. I am unable to get much information on diet, etc., to correct the triglycerides. Enclosed is a long, self-addressed, stamped envelope and 25 cents for any information you could give me. — C.D.N.

I'm sending you my booklet, "Control Cholesterol Sensibly," because it deals with triglycerides as well as cholesterol.

Commuter Cycling

CAMBRIDGE, Mass. (AP) — Although sale of bicycles in the United States in 1971 exceeded factory sales of cars by more than 2 1/2 million 8.9 million bikes versus 6.5 million cars, the bicycle has had negligible impact on commuter traffic. Arthur D. Little Inc. reports. The automobile still accounts for 82 per cent of trips to and from work, while public transport and walking accounts for most of the remainder.

But, adds the research firm, for trips in city traffic, the bicycle may be the fastest mode of travel. In one recent study with 25 bike-car commuter time trials over different routes averaging five miles, bicycles won 21, cars 3 and there was one tie.

Don't take chances with "kidney trouble." It may be only minor, but it can be dangerous. Read Dr. Thosteson's booklet, "Your Kidneys — Facts You Need to Know About Them." Write to him in care of the Big Spring Herald, enclosing a long, self-addressed (use zip code), stamped envelope and 25 cents in coin to cover cost of printing and handling.

For Status Quo

By Rowland Evans And Robert Novak

WASHINGTON — A secret White House decision to take a new, highly exploratory look at prospects for settling the Arab-Israeli dispute in the Middle East is the only tangible result thus far from what President Nixon called his "Middle East Month" of February.

THE NEW STUDY, the first comprehensive probe on the Mideast to be made by Henry Kissinger's National Security Council staff, could take weeks. Even after it is finished and President Nixon has analyzed the findings, there is absolutely no assurance that a serious new settlement effort will be made by the Nixon administration.

Thus, the "Middle East Month" ended with no firm conclusions of any kind — but several potentially significant surprises, to wit:

1. **A NEW PROPOSAL**, which Jordan's King Hussein privately transmitted to the U.S., offering Israel the right to place defensive military posts along the west bank of the Jordan River for a period of up to several years. That offer is an extraordinary concession to Israel

in terms of delaying complete Arab sovereignty over the west bank which Israel seized in the 1967 war. The offer is contingent on Israel, in turn, giving the Arabs sovereignty over at least part of Arab East Jerusalem.

2. **THE SUDDEN** decision of Egyptian President Anwar Sadat to establish direct contact at a high level with President Nixon by sending a top Sadat adviser, Hafez Ismail, to the White House.

But neither of those surprises came close to dispelling the deep pessimism over an early solution — or even a much-delayed solution — of the Israeli seizure of vast portions of Arab lands in the six-day war.

To the contrary, the visit here last week by the intrepid Israeli Prime Minister, Golda Meir, strongly indicated that Israel has no intention of saying or doing the diplomatic things that Sadat and Jordan's King Hussein insist on as essential conditions for any political settlement.

SO LONG AS that refusal persists, King Hussein's apparent eagerness to make a separate west bank settlement with Israel will go unrequited.

The Grave Robber

Art Buchwald

WASHINGTON — There is a big brouhaha going on at New York's Metropolitan Museum of Art about a rare Etruscan vase which The Met paid \$1 million for. The question now being raised is was the vase bought from a legitimate source or was it smuggled out of Italy through a black market operator? If the latter is true, Italy may try to reclaim it.

WHEN I READ the story, I recalled that 12 years ago in Italy I had the honor of interviewing the chief of all the Etruscan grave robbers in the town of Cerveteri, the capital of Etruscan tomb robbing. I called him Paolo, though that was not his name.

Robbing Etruscan graves in the hills around Cerveteri was one of the most honorable professions in the area, and Paolo was treated with great respect by everyone except the Italian police.

THE BIG MARKET got Etruscan art work in those days was not museums, but tourists. Paolo had great contempt for most of his tourist customers who were only interested in obscene vases, for which the Etruscans were famous.

He also was outraged that a whole industry had sprung up in Italy making forgeries of Etruscan vases, which was hurting the grave robbers' market.

Paolo told me you could tell the difference between a legitimate Etruscan grave robber and one who sold phony artifacts by the callouses on his hands. A legitimate grave robber was also known by how much time he had spent in jail for robbing tombs. Paolo did 18 months when he was caught one midnight scurrying away in a pit that the Italian police had declared off-limits.

Most of the grave robbers of Cerveteri learned their trade digging for archaeologists for \$1 a day. Once they discovered how to unearth the Etruscan tombs, they decided to go into business for themselves.

PABLO TOLD ME the most trouble the grave robbers ever got into was when the king of Sweden, an amateur archaeologist, was given the honor by the Italian government to make a dig for an Etruscan tomb. He found one, drilled a hole and photographed the interior of the tomb which had rare and marvelous things in it. But the king made a mistake. He decided to wait until the next day to actually open the tomb. He returned to Rome to invite his family and government officials back to watch him dig out the tomb the next morning. Alas, when everyone arrived the next day, the tomb had been completely picked clean.

(Copyright, 1972, Los Angeles Times)

A Devotion For Today

"What is man? for you think of him; Or any man? for you care for him." (Hebrews 2:6, Goodspeed translation)

PRAYER: O Master Musician, thank You for hearing real beauty in the little melodies of our childish lives. We know that You want them to become radiant themes in the music of life. Help us, we pray. Amen.

Regional Meeting Is Set On Problem Of Alcoholics

By MARJ CARPENTER

A Permian Basin public hearing will be held at 7:30 p.m. Thursday in the 163rd District Court room on the third floor of the Ector County courthouse for all persons interested in the regional problems of alcoholics.

Bob Von Rosenberg, director of alcoholic services at BSSH and Dr. Robert B. Sheldon, director of the psychiatric division, said this week that they, along with Dr. Preston Harrison, superintendent of the facility, were the persons who made the decision on the recent policy change.

Law officials in the area are upset about a new BSSH policy which permits admission of alcoholics by appointment only during certain hours of the week. Von Rosenberg said that they would still take real emergencies at other hours, if recommended by a physician or a judge.

But they do need food and care." According to officials here, all the state mental hospitals, Big Spring was the only one which attempted a walk-in policy and law officers and families in this area learned to count on it.

Austin, San Antonio, Terrell, Wichita Falls, or Rusk have no such policy," according to Dr. Sheldon. They also said that they have only one medical doctor assigned to the alcoholic unit. "And we have 150 beds," Von Rosenberg added.

Stolen Checks Passed Here

At least six of 36 payroll checks stolen from the Woolman Gin Co. in O'Donnell on Feb. 22 have been passed in Big Spring, Sheriff A. N. Standard Jr. said today.

Caton Receives Mail From Jail

District Judge R. W. Caton Monday received a hand-written letter from a man accused of theft over \$50 and being held in county jail in lieu of \$50,000 bond.

FFA, 4-H Members Set For Show In Dawson

LAMESA - The annual Dawson County Junior Livestock Show will be held Thursday, Friday and Saturday at the Dawson County Fair Barns here.

Over 500 entries are expected by some 200 4-H and FFA boys and girls. Entries will include approximately 225 lambs, 225 barrows and 50 steers. All animals must be in place by 8 p.m. Thursday, March 8.

Man Who Fired Gun Charged

After receiving a complaint that a man was shooting a gun about 4 p.m. Monday, the sheriff's office arrested a 53-year-old Coahoma man for being drunk in public and disturbing the peace.

DEATHS

J. O. Jarman COLORADO CITY - James Odis Jarman, 74, died at 9:20 p.m. Monday in Rood Memorial Hospital after an extended illness.

HELP NEEDED

The interested citizens probably need to get more concerned and form some type of volunteer group to eye the problem. There is a volunteer group that attempts to work with local drug problems, but none for the alcoholic, which is a bigger problem statistically.

SOMETHING NEEDED

A speaker from Maryland here yesterday for a workshop said that Maryland provides dehydration facilities. "Certainly, we need something," the hospital officials here stated. "Alcoholics can not afford a \$42 private hospital room each day.

UTPB Bids To Be Asked By Board

The University of Texas System Board of Regents, meeting in Houston Monday, decided to call for new bids on the central energy plants at UT-Dallas, UT-San Antonio, and UT-Permian Basin.

Mitchell Faces Surgery Here

County Judge A. G. Mitchell, who recently underwent an unrelated multiple operation, has returned to the hospital today for an ear operation, Mrs. Billie Barron, his secretary, said.

MISHAPS

Birdwell and Hooser: Mamie Wickson, Carlsbad, N.M., and a vehicle that left the scene; 2:10 p.m. Monday.

Local Delegation Bound For Show

Howard County will be well represented at the San Angelo Junior Livestock Show, which is being held from Wednesday through Sunday.

WEATHER

NORTHWEST AND SOUTHWEST TEXAS: Partly cloudy to clear through Wednesday. A little cooler tonight with low 30 to 40. High Wednesday 58 to 60.

More Tools Are Stolen Monday

Monday night, \$250 worth of tools were taken from the back of a pickup parked at the Road Runner Club at U.S. 87 and IS-20, the sheriff's office has learned.

W. C. Smith

W. C. Smith, 86, a one-time resident of Big Spring, more recently owner of a floral company in Abilene, died at 2:30 p.m., Monday in an Abilene hospital.

Mrs. Cantrell

LAMESA - Longtime resident Mrs. Hattie Earle Bell Cantrell, 77, died at 9:20 a.m. Monday in the Medical Arts Hospital.

D. B. Armistead

Services were to be held at 2 p.m. today for Daniel B. Armistead, 89, who died Sunday morning.

J. P. Tunnell

STANTON (SC) - Johnny Preston Tunnell, 43, died at 4:10 a.m. Monday in Corpus Christi following a short illness.

Little Lies Grow

Jean Adams
TEEN FORUM

NOT TRUSTED: (Q.) My parents think I am a liar. They don't trust me. This hurts me very much.

If I do lie, it is only about little things, like saying I didn't talk to a boy when I really did. You see, they don't like the boy.

Their trust means a lot and I need it back so bad. Please help me. — Hurting in Alabama.

(A.) One of the problems about "little" lies is that they are not always little. When you tell your parents, for instance, that you did not talk to this boy, you are really giving them the false impression that you have marked him off your list.

And that, from their viewpoint, is a pretty big lie. Don't tell them any lies, little or big, about the boy from now on. Instead, talk to them about him. Tell them about his good points. Listen to their complaints about him. Ask them to let you invite him to dinner,

so they can see how he honestly is.

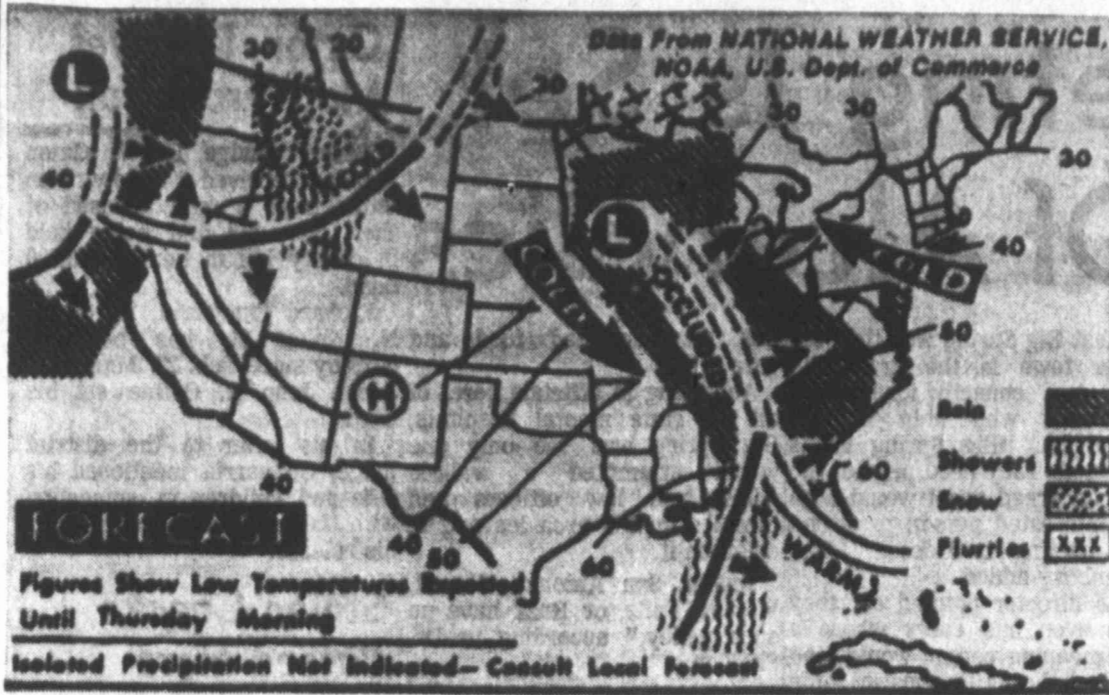

STEPS: (Q.) I like this guy. He talks to me, but that is all. Could you tell me how a boy acts when he likes a girl? — Hopeful in Wisconsin.

(A.) Talking briefly before or after school or at lunch or between classes is one of the first steps a boy takes in getting to know a girl he is interested in.

In later stages the talks get longer and he usually asks her for her phone number and calls her at home. He also may walk home with her, if that is possible.

This boy you like may be shy and not sure exactly what to do next. When he talks to you, be warm and friendly, but don't overdo it. Overdoing it can scare a boy away.

(Jean Adams reads and considers every letter, but she requests that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 2402, Houston, Texas 77051.)

Post Office Will Sell Envelopes To Public

In an effort to provide improved service, the local post office will begin selling large plain and padded envelopes to customers, according to John Gee, foreman of the mails.

"For years, people have bought things downtown and had to take them home to wrap and bring back down to mail," said Gee. "Now they can just slip small items in these padded envelopes and mail them at the post office all at once."

He said the sale of the envelopes is a part of the new "service-consciousness" of the Postal Service.

Sizes and costs of the plain envelopes will be 9x12, seven cents and 10x13, nine cents. Padded package envelopes will be 6x10, 21 cents; 8 1/2 x 14 1/2, 26 cents; and 10 1/2 x 16, 32 cents.

To be available soon are copies of the 1972-mini-album of collector's stamps. The book, at a cost of \$3, includes examples of the 31 different stamps issued in 1972.

Copies of another book, "Stamps and Stories," will also be available soon in paperback or clothbound. The 224-page

Vance Is Given Probated Term

James R. Vance, 21, pleaded guilty Monday in 118th District Court to burglary and was given five years probation.

One of the terms of his probation requires payment of \$25 in restitution to Bennett's Drive-In Pharmacy.

Vance was arrested inside Bennett's Drive-In Pharmacy in July, 1971.

Friedrich will give you a brand new \$50 bill, if you add Friedrich Central air conditioning before March 15

Ask us for details—and a free estimate of your central air conditioning needs.

Jackie Visits Rose Kennedy

PALM BEACH, Fla. (AP) — Aristotle and Jacqueline Onassis have arrived here for a visit with Rose Kennedy, a spokesman for the Greek shipping magnate said.

Onassis and his wife, the widow of President John F. Kennedy, sailed to Palm Beach from Haiti aboard their yacht Christina. They arrived here Saturday night and plan to fly to New York within a few days.

Local People Are On List

Twenty-three Big Spring students were among 2,377 in the College of Arts and Sciences of Texas Tech University who qualified for the dean's honor list for the 1972 fall semester.

To qualify for the honor list a student must be enrolled in 12 hours of courses, excluding pass-fail courses, and have at least a 3.0 grade point average on a 4.0 scale.

Local freshman students recognized for academic

achievement were Dwayne Blalack, Julia E. Rhymes, Lydia D. Hayworth, Cornelia F. Gary, John S. McEntire and Julie A. Seay.

Upperclassmen honored were Steven L. Hughes, sophomore; Kenton H. Fish, sophomore; Mary B. Dirks, sophomore; William Lepard, sophomore; Wanda E. Faubion, junior; Ellen M. Gossett, junior; Jessica E. Patton, junior.

Also, Robert E. Settles, junior; Robert V. Bryant, junior; Janice T. Majors, junior; Janet Toland, junior; Sabra G. Fuller, junior; Craig R. Campbell, junior; Douglas Brandon, senior; Elicia Keele, senior; Charlie S. Voight, senior; and Stanley D. Elrod, senior.

Also, Tommy P. Hopper, of Knott, freshman.

Puzzle of Monday, March 5, Solved

Get an air conditioning checkup before the heat's on.

Now's the time to call your air conditioning serviceman. Because right now he can work your call into his schedule. And get your unit ready to deliver dependable, efficient cooling through the summer ahead.

We know that many people wait until the heat's on to have their units serviced. Later on, your dealer or serviceman may have a waiting list. Although Texas Electric does not service, sell or install air conditioning equipment, we do want you to get full value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.

To Help A Child

Dear Abby
Abigail Van Buren

DEAR ABBY: Since you mention of WAIF (an agency for adopting a child from Viet Nam) a few days ago, this office has been inundated with requests for information and applications — particularly from unmarrieds.

We do not generally handle single-parent adoptions, and presently have a long waiting list of

approved couples who get preference.

The sheer physical work of answering these thousands of inquiries is overwhelming since we are a nonprofit organization operating on public funds. So thanks to the tremendous response from Dear Abby readers, we have a serious problem. We are understaffed, underfinanced, and swamped. Please, help! MAUREEN O'BRIEN WAIF, PUBLIC INFORMATION

DEAR MAUREEN: What a great opportunity to inform those in the New York area that you could use some temporary volunteer office help (Phone 687-2747) as well as contributions in any amount. And hopefully those who seek information about adoptions will enclose at least the postage for a reply.

DEAR ABBY: I did a terrible thing, and now I can't sleep nights. I am not a thief, but for the first time in my life I stole something from a store.

I am in my eighth month of pregnancy and went to the store to buy some diapers. That took all the money I had, but I happened to see a beautiful pink baby sweater lying right out where I could pick it up, so when the clerk turned her back to me, I picked up the sweater and put it in my coat pocket.

I was sorry the minute after I did it, but the clerk turned around and I couldn't put it back, so I walked out with it. Abby, I shook like a leaf all the way home.

That night I dreamed my baby was born without hands. Now I am afraid God will punish me for stealing by giving me an imperfect baby. I'm afraid if I return the sweater they will put me in jail. I love the Lord and have always tried to live by His commandments. Please help me, Abby.

PRAYING HARD
DEAR PRAYING: Return the sweater to the clerk and tell her what you told me. First offenders who return stolen merchandise are dealt with generously.

(AP WIREPHOTO)

CONQUERS HER HANDICAP — Beautiful Linda Light is shown at left in 1962 when she was Miss Kansas and runner-up in the Miss Universe beauty contest. At right, she shows her fashionable wheelchair design which she created for a national wheelchair decor competition. A victim of multiple sclerosis, Miss Light, who has been a wheelchair occupant since 1967, is the 1973 MS Poster Girl.

Home Demonstration Members Will Assist At Fat Stock Show

A concession stand at the 4-H and FFA fat stock sale March 22-24 will be operated by the Howard County Home Demonstration Council. Members were reminded of the sale Monday at the HD agent's office. Each club will furnish workers and baked goods for the concession.

Mrs. Waymon Etchison presided, and members of Lomax Club were hostesses. It was announced that Mrs. Clyde E. Thomas will present a book review March 28 at the county fair barns. A covered-dish luncheon for all home demonstration club members and their guests at twelve o'clock noon will precede the review.

Rebekahs At Meeting In Kermit

Eleven members of John A. Kee Rebekah Lodge were in Kermit Saturday evening when Mrs. John Adams of San Antonio, state president, was present for a district meeting.

Mrs. Adams gave instruction in lodge work and reported on what the assembly hopes to accomplish this year. She described improvements which have been made at the orphan's home and home for the aged, noting that one of her objectives is to send two of the orphans on a United Nations tour. All lodges in the state contribute to the projects.

Climaxing her talk with a call to community service, she administered part of the lodge's secret work to 29 members.

Mrs. J. F. Skalicky, council recreation chairman, asked that club recreation chairmen meet at 2 p.m., March 12 at the agent's office to finalize plans for the review and luncheon.

A District 2, Texas HD

Party Fetes Bride-Elect

Miss Robyn Renee Hooper, bride-elect of Charles Smith Jr., was honored Monday evening with a shower in the home of Mrs. Stanley Lewis, 1205 E. 18th.

Cohostesses were Mrs. James Baird, Mrs. Charles Arbuckle, Mrs. L. M. Cunningham, Mrs. Brent Womack, Mrs. David Grifford, Mrs. J. R. Parichman and Mrs. Marsha Barnes.

White candles centered the candelabrum holding refreshment table which was laid with a lavender linen cloth and overlaid with white lace. Crystal and silver appointments were used.

The honoree was attired in a yellow empire style gown fashioned with an A-line skirt with highlights of blue embroidered flowers on the bodice and cuffs. She was presented a corsage of lavender carnations, as was her mother, Mrs. Johnnie Hooper, and the prospective bridegroom's mother, Mrs. Charles Smith Sr.

Miss Hooper and Smith plan to marry Friday in the home of Mr. and Mrs. Ronny Moser, Gail Route, Richard Williams, Odessa, a Church of Christ minister, will officiate.

Association, meeting is slated April 5 at First Baptist Church, Colorado City. Workshops will be conducted on recreation, safety, health and citizenship. Registration will begin at 9 a.m. A fee of 35 cents will be charged. Programs will last until 3 p.m., and lunch will be available at the Civic House for \$2. Anyone interested in attending may make reservations by calling Mrs. J. C. Williams, 267-8868, by April 1.

In other business, it was announced Mrs. June Williams, a representative of Pioneer Natural Gas Company, will present a program, "How to Use Herbs and Spices," for HD Club food leaders at 2 p.m., March 19 in the pioneer Gas Flame Room.

Devotion was by Mrs. Russell Tidwell. The next meeting will be at 2 p.m., April 2 at the agent's office.

Sheriff Tells AAUW About Jail Facilities

A tour of Howard County jail was conducted Monday by Sheriff A. N. Standard for members of the day study group, American Association of University Women.

Sheriff Standard outlined security, food, sanitation, medical care and recreational procedures of the jail. He discussed advantages of regional jails such as the one now located in Palestine, and said these jails can offer more opportunity to inmates. One advantage mentioned was the availability of educational farming within a fenced area at the regional jails.

Standard told the group that paperback books and magazines are needed at the jail, and stressed the need for appropriate fiction.

Following the tour, members met for a business meeting at the home of Mrs. Pete H. Rhymes, 1300 Douglas. It was announced that volunteers are needed to serve in teaching and testing in the learning

center at Big Spring State Hospital. Persons available to help between 1 p.m. to 3 p.m., Mondays through Fridays, were asked to call Mrs. Star Warford, educational coordinator at the hospital.

The group will meet again April 2 at the home of Miss Helen Ewing, 709 E. 15th, to discuss local welfare organizations and community needs. Mrs. Paul Klonka is study coordinator for the study group.

Single Parents Planning Two Events This Week

The local chapter of Parents Without Partners, a national organization for widowed, divorced or single parents, has scheduled two meetings this week.

At 7:30 p.m. today, there will be card games, dominoes and '42' at 1745 Purdue, and Friday evening at 7:30 o'clock, a chicken dinner will be held at the

home of Mrs. Mae Mooring, Space 4, Hillside Trailer Court, with Troy Durham as host. This will be a family affair, and members are encouraged to bring their children.

At 9 p.m., Sunday, the group will have a social gathering at the American Legion.

Items Are Needed By Council

A piano and a small public address system is needed for use at events sponsored by the Howard County Council on Aging.

Miss Bessie Love, president, stressed these needs, along with others, during a recent meeting with council officers. The council would be able to pay a small amount for the piano, but it must be in good enough shape that it would cost little to put it in working order.

Monthly luncheons for senior citizens are held in the Howard County Fair Barn, and a public address system would be desirable for use at that time. Anyone having such equipment which they would donate, rent or loan is asked to call the home demonstration agent's office, 267-8469. People are needed who could transport others to the luncheon, and these volunteers are asked to call the same number. The next luncheon will be March 21. Those who can, are asked to bring a covered dish, but it is not required.

A specialist on aging, Mrs. Vivian Blair, will be in the HD agent's office March 15 to answer questions pertaining to problems of older persons. Mrs. Blair, who is a representative of the Governor's Council on Aging, invites any interested person to come by and talk with her.

The next council meeting will be at 10 a.m., April 5 in the HD agent's office.

A LOVELIER YOU

Style Checklist Aids Proper Clothes Fit

By MARY SUE MILLER
Flattering lines and colors in clothes are not the entire measure of fashion success. You neither look nor feel well in a garment unless it fits. Checkpoints that help to prevent "misfits" follow:

1. Does the neckline graze? If so, have the garment altered. But think twice about alterations that require tinkering with the shoulderline in the back.

2. Are the buttons correctly spaced? Not if gaps occur at waist or abdomen. In such instances, chances of adjustment are slim.

3. Does the garment's waist meet your figure in the right place? This is not easy to judge today, when the waist of fashion wanders. Proportion becomes the yardstick. For example, if the designer intends his waistline to ride high on the diaphragm, be sure it so encircles yours.

4. How about the hipline? Beware the tight span.

5. Is the length correct? A fraction of an inch up or down from the norm can make it so.

6. Does the garment hang properly? The new look is soft — never limp, certainly not constricted.

When new clothes appear less well fitted than at tryons, check your posture. Think how tall you stood in the fitting room. Your everyday carriage has to be just as good. Otherwise the fit of your clothes will develop flaws.

TIPS FOR TEENS
Fifty ways to ideal skin and natural makeup for young adults — ages 13 to 19 — are detailed in my booklet, "Model Tips For Teens." Advice covers corrective skin care; how to use makeup to accent good points and play down problems; fashion model makeup tricks. For your copy, write Mary Sue Miller in care of the Big Spring Herald, enclosing a long self-addressed stamped envelope and 25 cents in coin.

For What It's Worth

Jack Cowan

I can't remember being this flustered in, well, I can't remember how long. Three, four days maybe. Pepsi-Cola has expanded and ventured into the polling business, and all they want out of me is the ten greatest sports news stories in the last 75 years. That's all.

It's sort of like a judge trying to name his favorite Bill of Rights or a preacher picking his favorite commandment or something.

Needless to say, I had trouble getting my thoughts together when it came to the earlier parts of the time period, since July 3, 1950 wasn't quite 75 years ago. So I got fellow employees Tommy Hart and Walt Finley to help me. Boy, do they know that history. Who's Bill Tilden, anyway?

We all agreed on a few things — like Oklahoma's 47-game win streak in football, the Jack Dempsey-Gene Tunney fights, UCLA's all-time basketball record and Jesse Owens' 1936 Olympic performance. But that was it. After that we strayed from Wilt Chamberlain's 100-point NBA game to the 1945 Army-Notre Dame football game to the Bill Tilden tennis bit. Guess which two weren't mine.

Personally, I'm having trouble separating this sort of deal from one that names the greatest individual feats. Some of them sort of overlap, you know. There are some things in this category that you might not consider the greatest stories, like Don Larsen pitching a perfect game in the World Series and that Greek guy with the name that's hard to say, much less spell, going 18-0 in the pole vault the first time.

Baseball buffs will be irate at the exclusion of the New York Yankees' dynasty and Lou Gehrig's farewell speech at Yankee Stadium. Golfers get uptight if you leave out Bobby Jones, Arnold Palmer and Jack Nicklaus. Others wouldn't be satisfied if you listed 380 events. But this is my column. You can make your own list when you get to be a sports editor. So there.

It's difficult, but I think I'll do it this way. (1) Owens' 1936 Olympic sweep, (2) Green Bay's third straight NFL championship, (3) the Tunney-Dempsey title fights, (4) Roger Maris' 61st home run, (5) Oklahoma's 47-game grid streak, (6) the Soviet Union's controversial basketball victory over the U.S. in the 1972 Olympics (7) Bob Beamon's 29-foot plus long jump in the 1968 Olympics, (8) UCLA's current basketball streak, (9) Ty Cobb's career batting average of .367 (10) the Miami Dolphins' perfect 17-game season of 1972.

Steers Seek 3rd Win In Pecos Today

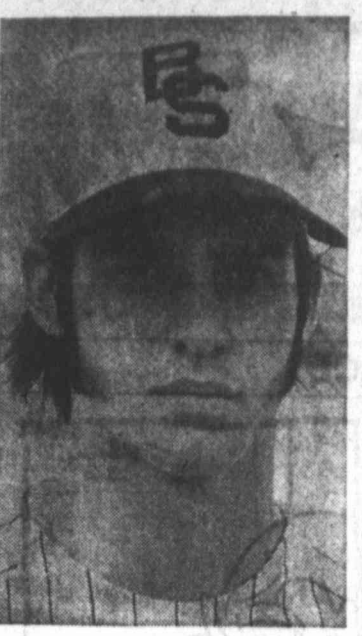

PECOS — The hard-hitting Big Spring Steers play their fifth game in five days today at 7 p.m. when they visit the Pecos Eagles in a non-district baseball game.

Coach Larry Horton's Steers, 2-2 in the early going, have produced 41 hits and 32 runs in four games, three of them extra inning affairs. The team batting average so far is .297.

Shortstop Ricky Steen has been the big man at the bat, gathering seven hits in 16 trips, including two home runs and nine RBIs, while Orlando Olague, Mike Tredaway and John Morellon have also been hitting well.

Earl Reynolds will be on the mound today, with Olague scheduled to catch. Tredaway will be at first base, Willie Williams will be at second, Steen at short, Morellon at third, Gilbert Pesina in left field, Jerry Knoepfel in right and Bruce Felts in center.

Reynolds, a right hander, hurled the Steers' opening victory over Lubbock Coronado Thursday and had a three-run homer in the 16-10 triumph.

EARL REYNOLDS

Coahoma Names QB Club Slate

COAHOMA — Jackie Rinard was re-elected president of the Coahoma Quarterback Club last week, while Robert Kelso was selected vice president of the group.

Mrs. Bobby Dotson was named secretary and Mrs. Dennis Greenfield treasurer at the meeting. New members of the executive board are Mrs. Bobby Gee, Jim McCain and Bill Fryriar.

Also at the meeting, it was decided that the Bulldog Athletic banquet will be held April 13 in the Howard County Junior College cafeteria at 7 p.m. Coahoma head coach Norman Roberts will be the speaker.

Bruins Roll On; Record Stays Clean

UCLA's powerful Bruins, steamrolling toward their seventh straight NCAA championship, are keeping their record unscathed and again lead this week's Associated Press college basketball poll.

The Bruins beat California 90-55 and defeated Stanford 51-45 last week, making the Indians their 70th consecutive victim. UCLA, 25-0, polled 33 of 36 votes for first place and 714 points from the nationwide poll of sports writers and broadcasters who make the selections.

North Carolina State, 25-0, after beating North Carolina 82-78 and Wake Forest 100-77, collected the remaining first-place votes and retained its second-place ranking with 592 points.

The Top Twenty, with first-place votes in parentheses, season records and total points. Points tabulated on basis of 20.

1. UCLA (33)	25-0	714
2. No. Car. St. (3)	25-0	592
3. Minnesota	20-2	568
4. Long Beach St.	24-2	487
5. Providence	22-2	414
6. Marquette	22-3	320
7. Houston	22-3	284
8. No. Carolina	22-6	265
9. Indiana	18-5	175
10. Maryland	20-5	173

Gophers Upset Again; Chance At UCLA Dims

Because they can't beat lowly Iowa, the Minnesota Gophers may blow any chance of meeting mighty UCLA.

The Hawkeyes, 5-8 in Big Ten play and only 12-11 over-all, upset third-ranked Minnesota 65-62 earlier in the season at Iowa City and did it again 79-77 at Minneapolis Tuesday night on Kevin Kunnert's three-point play with four seconds left. It was only Minnesota's third setback in 23 games but dropped them into a first-place tie with Indiana. The Gophers, who are dying for an NCAA Tournament shot at UCLA, play at Northwestern while Indiana entertains Purdue Saturday in their respective finales.

and it likely will take a playoff. The Associated Press' latest Top Ten came through with victories, though. Fifth-ranked Providence trimmed St. Bonaventure 103-88, No. 6 Marquette trounced Creighton 61-49 and seventh-ranked Houston crushed crosstown rival Rice 116-72.

Ector Tips Steer JVs

ODESSA — Four errors in the fourth inning did damage in the form of four runs, and the Odessa Ector Eagle Junior Varsity rode it to a 7-5 victory over the Big Spring JVs here Monday.

The Steers slapped seven singles as their record fell to 1-1, with John Thomas Smith getting two safeties in three trips to the plate. Gary Evans, Sammy Rodriguez, Barry Canning, Kit Grice and Albert Alvarez also managed hits.

Wayne Dickens took the loss for the Steer JVs, and had relief help in the sixth inning from Albert Alvarez. Dickens struck out six Eagles while walking five, and gave up five hits. Next action for the JVs is Thursday, when they host Midland Lee's Junior Varsity at 4 p.m.

TEAMMATES SWAP MATES — New York Yankee pitchers Fritz Peterson, foreground, and Mike Kekich sit on the bowsprit of a schooner sailing on Long Island Sound last August with their wives Mrs. Peterson, left, and Mrs. Kekich. Peterson and Kekich said that they had exchanged wives and families through a mutual agreement.

Yankees Peterson, Kekich Reveal Wife, Family Trade

FORT LAUDERDALE, Fla. (AP) — Teammates Fritz Peterson and Mike Kekich of the New York Yankees have "traded lives" through a mutual agreement that calls for the pitchers to exchange wives and families.

"It was not a wife swap," said Peterson, "but a life swap. The situation developed last summer when the Petersons, Fritz and his wife, Marilyn, and the Kekiches, Mike and his

wife, Susanne, were drawn together and began discussing the possibility of an exchange. "There have been laughs, screams and tears throughout this whole thing," said Kekich.

Marilyn "Chip" Peterson and her two sons, Gregg 5½, and Eric, 2½, changed places with Susanne Kekich and her two daughters, Kristen, 6, and Reagan Leigh, 2½. The arrangement apparently has worked for Peterson and Mrs. Kekich, who are still together, but not

for Kekich and Mrs. Peterson, who have separated.

In Rockford, Ill., Mrs. Arthur Monks, Marilyn Peterson's mother, said: "Marilyn is not happy about this at all. She has started proceedings for a divorce, but only because he (Fritz) wanted her to. Mike Kekich has made no plans for a divorce."

"Susanne was a perfect person for me," said Peterson. "We will file for divorce in New Jersey under the no fault clause."

"Pete and Susanne are great for each other," said Kekich. "I thought Chip and I were perfectly suited but things developed and we began to butt heads. She would have been the first of her family to get a divorce. It became too much for her and she began to worry."

The two families first switched places at the end of last season and then briefly returned to their original situations. After about 10 days they exchanged places again, this time permanently.

Peterson and Kekich have been Yankee teammates for four years and the two families have always been close.

When the exchange developed the two players advised the Yankees of the situation and General Manager Lee MacPhail asked if they felt they could still function as teammates. They said they did and that satisfied the club.

Big Springers Win Four Races In Series Opener

Big Spring riders won four of the nine events Sunday as 121 riders gathered at the Hi-Noon Optimist club track for the first week of the three-month point standing series.

Kelly Guinn won the 125cc action to highlight the day for local riders and David Guinn won the 100cc event. In the 250cc junior competition Skipper Spencer of Big Spring claimed the top honors, while Brian Farrell won the minibike event.

Danny Weir was second behind Jay Henry of Carlsbad, N.M., in the 250cc expert division. Carlsbad racers dominated

the Open Expert event, won by Greg Shaner of Carlsbad. Richard Rose of Midland placed second and was followed by three Carlsbad entries.

Other winners were John Ford of Abilene in the Open Junior competition, Bobby Willis of Midland in the 125cc junior action and Terry Swanson of San Angelo in the 100cc junior run.

One rider was injured in the Sunday races. Lance Reed, 15, of San Angelo was run over by a motorcycle when his bike went down and he suffered a slight concussion. He was admitted to the hospital here but transferred to San Angelo.

Staub, Murcer Ink \$100,000 Pacts

Baseball's \$100,000 salary club has two rookie entries today and a veteran member of the elite group appears to be moving closer to agreement. New York's two teams, the Mets and Yankees, both added expensive autographs Monday with Rusty Staub signing a three-year \$330,000 package with the Mets and Bobby Murcer getting six figures from the Yankees.

Runnels Scores Second Victory

LAMESA - Big Spring Runnels scored its second volleyball victory of the season Monday, thumping Lamesa's eighth graders 15-17, 15-13. Kelly McCary served 25 points in the series, including 15 straight in the second game. Kathy Foreman and Deborah Scott also shined as the team topped its record to 2-8. The B team was beaten by Lamesa 8-15, 15-12, 15-5 despite the efforts of Elma Abrero and Laura Bickford. Next action for the two teams is Thursday in Snyder when they visit Lamar Junior High.

Golf Tournament Set For Sunday

The Big Spring Golf Association will hold its first tournament of the year Sunday at Municipal Golf Course, an 18-hole Louisiana Draw event. The time is 1:15. Golfers may register at the pro shop any time before 12:30 p.m. Sunday. Entrance fee is \$3. The club also set May 5-6 as the tentative date for the annual Partnership meet.

Bulldogs Try Spring Branch

AUSTIN - District 5-AAAA champion Midland Friday at 8:30 p.m. in first round action at the state schoolboy basketball tournament. Houston Wheatley and Corpus Christi Carroll meet at 4:30 p.m. Friday in the other AAAA semifinal. The winners will battle at 2:05 p.m. Saturday. Midland 30-3 on the year, defeated El Paso Austin and Irving in regional play last week to gain the state berth. The Bulldogs have won 10 games in a row.

Arencibia Wins

AUSTIN - Big Spring handballer Tito Arencibia scored a first round victory in the National Handball Tournament here Monday by defeating Chuck Beisborn of Chicago 21-5, 21-11. Arencibia plays a second round match today.

HOROSCOPE

WEDNESDAY, MARCH 7, 1973
GENERAL TENDENCIES: Try to use more patience in getting a new plan into operation, otherwise your actions could indicate an impatience that annoys others. Obtaining facts and figures are necessary if you are to make a success of your project.
ARIES (March 21 to April 19) Your ideas are fine but you have to become successful in your life. Anything of importance should be thought out in advance before proceeding.
TAURUS (April 20 to May 20) Confide only in trusted advisers concerning secret aims you have. Forget fun until you have problems well handled. Make this a day of great accomplishment. Take it easy tonight.
GEMINI (May 21 to June 21) You are not feeling up to par and may want to ignore good friends, which is a warning thing to do at this time. Group affairs are fine but do little talking for best results.
CANCER (June 22 to July 22) Handle vocational matters in a most efficient way. Don't irritate a higher-up who you've been putting off. Don't take chances with your credit.
LEO (July 23 to Aug. 21) You think you have some fine ideas but it's best you study them first. Don't invest money in an operation. Take no risks with your money. A plan of a newcomer is not for you to turn down.
VIRGO (Aug. 22 to Sept. 22) Further analysis of your obligations makes possible for you to discharge them with efficiency. Find a better way of pleasing others. Avoid arguments and add to present harmony.
LIBRA (Sept. 23 to Oct. 23) If you don't impose on associates, you can come to a far better understanding, and be more cooperative than in the past. One who opposes you is in an irate mood, so avoid this person.
SCORPIO (Oct. 24 to Nov. 21) Plan your time wisely so that you can handle those important duties ahead with efficiency. Use a new method to improve your health. Do something of a philanthropic nature tonight.
SAGITTARIUS (Nov. 22 to Dec. 21) Taking time off for fun is fine, but don't be extravagant in any way. Plan to use your talents more so that you get better results. Think along constructive lines. Relax tonight.
CAPRICORN (Dec. 22 to Jan. 19) Don't cause friction of home by bringing up old arguments. Strive for more harmony instead. Try to eliminate the cause of any trouble and gain the respect of all concerned.
AQUARIUS (Jan. 20 to Feb. 19) This is not the right day to do anything. You will be helpful to associates so wait for a better time. Don't take chances in travel or in dealing with those in trouble.
PISCES (Feb. 20 to March 20) Instead of getting deeper in debt, be sure to pay whatever bills you have. Obtain professional advice if a small investment could be successful.

PEARL BUCK

Pearl Buck, Noted China Expert, Dies

DANBY, Vt. (AP) — Pearl S. Buck, the daughter of missionaries, who won the Nobel and Pulitzer prizes for her writings on China, died today at her home here. She was 80.

Beverly Drake, Miss Buck's private secretary, said the author died quietly about 7:25 a.m. today. She underwent gall bladder surgery last fall.

Born in West Virginia June 26, 1892, Miss Buck was raised in China and learned to speak Chinese before she learned English. It was that upbringing, she said, that influenced not only the subject of her writing but her style as well. She spent the first 17 years of her life in China, returned to the United States for a stay and then worked as a Presbyterian missionary in China from 1914 until 1935. The Chinese government refused her request to revisit the country last October.

She won the Pulitzer Prize in 1932 for "The Good Earth," a book detailing the rise to power of a Chinese peasant which was cited for "its epic sweep, its distinct and moving characterization, its sustained story interest, its simple and yet richly colored style."

In 1938 she became the first American woman to win a Nobel Prize for Literature. The award made special mention of two 1936 biographies — "The Exile" and "Fighting Angel."

Receipts Low Due To Rain

Receipts were very low at the USDA's Abilene Cotton Classing Office, reports B. B. Manly. Boggy fields kept the harvest at a standstill in all but the sandy land areas. Cotton on gin yards and cotton from ricks accounted for most receipts. Only 4,039 samples were classed compared to 14,000 last week. To date, the office has classed 414,000 samples.

Cotton qualities were the lowest for the season. Most cotton classed was ginned in Howard, Martin, Mitchell and Scurry Counties; where most of the low mike and a lot of late planted cotton is being harvested. Cotton ginned wet, combined with the low mike factor, caused grades to be lower.

A brief summary of predominant statistics shows: 11 per cent white; 53 per cent light spotted; 34 per cent spotted, and 72 per cent were bary. Staple showed little change with 59 per cent stapled 31 and 232 per cent staple 32. Micronaire readings were lower, with the following breakdown: Category 2.6 and below, 21 per cent; categories 2.7-2.9, 3.0-3.2, and 3.3-3.4 had 11 per cent each, and 46 per cent miked 3.5 and better.

Prices paid for low mike cotton continues about the same as most of the season. The lowest range 2.6 and below bring 2 to 4 cents per pound above the government loan or 13 to 15 cents per pound. The 2.7 to 2.9 range brings about 3 cents above loan price or 16 to 18 cents per pound. Mike range 3.0-3.2 brings 7 to 9 cents over the loan or 19 to 22 cents per pound. Mike range 3.3 and higher brings from 9 cents to 10 cents above loan, or 22 to 28 cents per pound. These price ranges include different grade and staple qualities.

New Courses Will Start

Cake decorating, flower arranging and crocheting will be taught as special interest mini courses at Howard County Junior College beginning at 7 p.m. Thursday.

All three courses are six weeks in length and carry a \$10 fee. Interested persons may call the college at 267-6311 Ext. 32 to pre-register.

Cake decorating, taught by Mrs. James Harmon, will show beginners the proper techniques of both domestic and commercial baking. The class meets in the Science Building, Room 102.

Flower arranging will meet in the Adult Education Building Room 1. Mrs. Penny Hill will teach skills for household arranging as well as floral design for customer service.

Crochet will be taught by Mrs. Susan King in the Administration Building, Room 5. Supplies for the first night will be furnished, and the text for the class will be the magazine, "Crochet for Beginners," available at local stores.

CIVIL PREPAREDNESS DISCUSSED — W. D. Berry, Big Spring-Howard County Civil Defense director (second from right), discusses disaster planning with training specialists from the Texas Department of Public Safety in Austin. They are Larry Skiles (left), Al Armstrong and Robert L. Orton (right). These DPS representatives presented a program on emergencies to local leaders Monday afternoon at the Dora Roberts Community Center.

Planning Action Helpful In Times Of Disasters

By JOHN EDWARDS
About 55 local leaders attended a Civil Defense program Monday afternoon in the Dora Roberts Community Center.

Training specialists with the Texas Department of Public Safety (DPS) in Austin spoke at the conference presented by the Big Spring-Howard County Department of Civil Defense.

NOAH AND CD
"Noah was the first civil defense planner," Al Armstrong, one of the DPS representatives, said.

He stressed planning before a natural or man-made disaster like in the case of Noah. Armstrong explained that the mayor is the Civil Defense coordinator in incorporated areas during disasters. The county judge is in charge of disaster activities in non-incorporated areas. In natural and man-made disasters, there must be only one boss, he said.

Requests to call out the National Guard or to obtain state equipment and personnel should be directed to the local DPS officer, Larry Skiles, another DPS trainer specialist, said.

Going through the local Texas Highway Patrolman or other DPS officer is the fastest way to get state help.

An emergency operations center should be established, Armstrong said.

Armstrong emphasized the difference between a tornado watch and tornado warning.

Announcement of a tornado watch indicates the possibility of a tornado in the area. A tornado warning means that existence of a tornado has been verified.

WARNING DEVICES
Skiles explained the National Warning Service serves to detect nuclear attacks but the Emergency Broadcast System gives out information after an attack.

A receiving device which can be attached to televisions and radios is being tested in the East, Skiles said.

The President, governors, county judges and mayors would all be able to activate these sets in case of disaster in their territorial jurisdiction, the speaker said.

Talking on day-today Civil Defense programs, Skiles told about the difference between excess federal property that is loaned out for five years and surplus property.

City, county and school districts may obtain surplus federal property by paying the Texas Surplus Property Agency a handling fee.

The handling fee is eight per cent of original property cost but will not exceed \$500 in itself, Skiles said.

GETTING U.S. GOODS
Through the excess property program, agencies may borrow federal government equipment which tends to be in better condition. Equipment is loaned for five-year periods. The U.S. Government may take the loaned property back, though.

Organizations represented Monday afternoon included County Commissioners Court, Webb Air Force Base, the DPS, Red Cross, Post Office, City of Forsan, Big Spring State Hospital, Veterans Administration Hospital, Colorado River Municipal Water District, Medical Center Memorial Hospital, Big Spring Independent School District, Texas State Guard, Police and city officials, Big Spring Experiment Station and industry.

County Judge A. G. Mitchell gave a short welcoming speech.

Foreign Students Tour Washington

Twenty-six foreign students from Webb, representing Nigeria, Saudi Arabia, Norway, Iran, Denmark, Vietnam and the Philippines visited our nation's capital from Feb. 21 through 25.

The trip was arranged by the office of Foreign Military Affairs under the Department of Defense's Informational Program. The Informational Program is set up by the Department of Defense to give foreign military trainees and military sponsored visitors every opportunity to obtain a better understanding of United States society, institutions and ideals. Funding for the program comes from yearly appropriations from Congress.

The trip to Washington afforded Webb students a chance to visit a variety of sights including the State Department, Capitol Building, Smithsonian Institute, Arlington Cemetery, the White House, Washington Cathedral, Library of Congress and their respective embassies.

The Webb AFB housing office is conducting a survey to determine if trailer court space is needed on base, according to Robert L. McCullough, chief of the housing management branch of the Civil Engineering Division.

All military personnel who own their own mobile homes, he said, are asked to stop in the housing office of building 486, room 18, between now and 3 p.m. Wednesday to fill out a survey form.

Results of this survey may determine if the base should program future construction of a mobile home parking facility.

Woman Enters Trustee Race

Mrs. Billie Carr is the fourth candidate in the school race, filing for a position on Monday afternoon.

Wednesday is the deadline for filing for the election which will be held April 7.

Roy Watkins, incumbent, is seeking re-election. Delnor Poss, the other incumbent, hasn't revealed his plans.

Charles L. Reeves and Al Valdes filed earlier. Mrs. Carr operates a Fabric Shop out of her home at 1000 E. 16th.

She grew up in Big Spring, moved away and returned three years ago. She has a married daughter and two sons, Ben, a high school senior, and Brad a freshman.

She stated she is interested in running because she is interested in the field of education, having taught home economics for three years at Anson and one at Silvertown. She holds a B.S. degree from Texas Tech.

Among the professional organizations which she belonged to while teaching were the Texas State Teachers Association, American Vocational Association, American Home Economics and the American Dietetic Association and the AAUW.

Two More Enter Council Race

COAHOMA — Two more men entered the city alderman's race here Saturday, according to Mattie Miller, city secretary.

They are Tommy Aberegg, an incumbent who will be seeking his third term on the board, and Steve Dick.

Already in the race were Jack Cauble, who will be running unopposed for the office of mayor, incumbent C. C. Harrison and D. C. Lee.

The election is scheduled Tuesday, April 3, at which time two aldermen and the mayor will be elected. Harrison will be seeking his second term on the council.

The voting will take place at the Coahoma Fire Station.

HC Livestock Show Is Slated Here Mar. 22-24

James (Buddy) Barr is president of the 37th Annual Howard County Livestock Show which will be held March 22-24. Bruce Griffith, Howard County extension agent, expects 60 steers and 75 lambs to be entered.

Aubrey Langford is vice-president; Sue Robinson, secretary; and M. A. Snell, treasurer.

Barr and Langford also will serve as steer superintendents. Raymond Phillips will be lamb superintendent.

Lamb and steer classifier and sifter is Bobby Lemmons, Mitchell County extension agent. Dub Simms, Nolan County extension agent, has been named steer judge.

Judging showmanship will be Billy Reagor, Martin County extension agent.

Dub Day, Upton County extension agent, was designated lamb judge.

Gerald Miller, district conservationist with the Soil Conservation Service, will be official weigher.

Fred Davis will be announcer. The Howard County Home Demonstration Council will operate the concession stand.

Howard County Show Barns are the site of the livestock show, which is restricted to Howard County 4-H and FFA organization members.

Following is the schedule of events:
THURSDAY, MARCH 22.
7 p.m. Lamb judging.
9 p.m. Steer judging.
SATURDAY, MARCH 24.

Disaster Drill Set April 19

A simulated disaster exercise is scheduled in Big Spring on April 19. W. D. Berry, Big Spring-Howard County Civil Defense director, announced Monday.

Also, he mentioned replacement of the siren on top of City Hall on the first of April.
