## WAR OF '98 Few Alive Who Recall Edict

There are very few still alive who remember the discord and events that led to the Declaration of War on April 25, 1898 against Spain by the United States. It was 75 years ago today.

The declaration revolved around the discord in Cuba where patriots were seeking their independence. The Battle Ship Maine, which was sent to Havana in January of that same year on a goodwill tour, was blown up Feb. 15 with 264 men and two officers killed.

During the United States inquiry that followed, Capt. Wm. T. Sampson blamed external explosion and Spain blamed an internal explosion.

But the explosion finally came in Congress on April 25, after Spain had declared war against the U.S. on April 24.

The most oft-remembered battle in the war was the tales of Teddy Roosevelt's Rough Riders and the battle at San Juan hill which actually occurred the following July 1.

The best recalled quote from the war was Commodore Dewey's "Damn the torpedoes, full speed ahead" when he destroyed the Spanish fleet in Manila Bay May 1.

The Veterans Hospital in Big Spring still has one out-patient from Abilene who is a veteran of the Spanish American War. He comes to the local facility every few months for treatment. There is no knowledge of a single Spanish-American War veteran still living in Big Spring.

## 'Beef Sheet' Obscene?

AUSTIN (AP) — The conviction of a Dallas man charged with making obscene phone calls was reversed today because the state used too much of the wrong kind of evidence.

The Texas Court of Criminal Appeals said a Dallas court should not have allowed introduction of a "beef sheet" — a police complaint record — in its entirety.

The "beef sheet" was used to obtain a one-year jail sentence for Robert Dee Allen. He was charged with calling a Dallas woman several times and suggesting obscene actions. He was also charged with going to her home and performing obscene acts in front of her.

Allen acknowledged the calls and visits, but denied doing or saying anything obscene.

The court said the "beef sheet" contained things not connected with the charge and therefore constituted reversible error.

## Shot Swaps Kill Indian

RAPID CITY, S.D. (AP) — An Indian wounded last week in an exchange of gunfire with federal officers at Wounded Knee died today.

It was the first death since militant Indians took over the reservation village 58 days ago in a protest that has been marked by sporadic gunfire.

Frank Clearwater, 47, died today in a Rapid City hospital of a head wound suffered last Tuesday during what federal officials called the heaviest gunfire exchange during the occupation.

Eleven persons, including two federal marshals, have been reported wounded since followers of the American Indian Movement took over the town.

Clearwater's widow, Morning Star, 37, told authorities in Rapid City she wants her husband's body buried at Wounded Knee.

## 'Copters Crash Kills Eight

FT. HOOD, Tex. (AP) — Eight soldiers died and five others were injured Tuesday in an inflight collision of two Army helicopters participating in maneuvers.

The public information office at Ft. Hood listed the dead as WO Joseph A. Nosky of Brownsville, Tex.; CWO Steven B. Mans of Vancouver, Wash.; Spec. 4 James D. Brown of Staten Island, N.Y.; Pfc. Allan Mandes of Leavenworth, Kan.; WO William A. Shank of Joplin, Mo.; Spec. 4 John Persinger of Wyoming, Ill.; and CWO William M. Holmes Jr. of Philadelphia, Pa.; Pfc. Donald C. Woodard of Seattle, Wash.

Critically injured were Spec. 4 Robert L. Douglas and Spec. 5 James Vogt.

## Midland Murder Conviction Flip

AUSTIN (AP) — A jury in a murder trial should not be told the accused may have killed somebody else at some other time, the Texas Court of Criminal Appeals said today.

The appeals court reversed the 35-year murder conviction in Midland of Julian C. Alvarez.

"The sufficiency of the evidence is not challenged," the court noted, but insisted part of Alvarez' confession may have wrongfully influenced the jury.

The appeals court objected to the admission of this statement by Alvarez: "I always carry a pistol with me because I shot and killed a man in Lubbock not too long ago and I am afraid of his people."

The court said that statement was not directly related to the slaying for which Alvarez was being tried.

There is a fundamental rule, the court said, "that one accused of a crime is to be tried for the offense charged and none other."

The court said the severity of the sentence indicated the statement probably was a factor in the jury's consideration.

## Two Officers Try To Sell Seized Pot?

HOUSTON (AP) — Two police narcotics division officers were indicted on felony conspiracy charges Tuesday for allegedly trying to sell 79 pounds of marijuana which had been confiscated by the department.

They and a third officer, who was not indicted but refused to testify before a state grand jury, were promptly given indefinite suspensions by Chief Herman Short. The suspensions under civil service rules are the same as firings.

Indicted were Carlos Avila, 28, and Antonio V. Zavala, 30. The third narcotics officer, Patrolman Everett D. O'Brian, 29, was also fired.

The two indicted officers are accused of making arrangements to sell the marijuana to a woman, investigators said, and an undetermined amount of money changed hands. The marijuana came from a seizure of 1,100 pounds of the drug April 14 in which 10 persons were arrested by narcotics agents.

The grand jury which returned the indictments also charged Avila on a separate count of selling marijuana. Bonds of \$10,000 were set for each of the men.

Chief Short said the investigation began on a tip from other officers and outside sources. No charges were filed against the woman who contracted to buy the marijuana. It is believed she was the source of the tip.

# Floor Fight Over Texas Industrial Commission

AUSTIN (AP) — The House moved toward a life or death judgment on the Texas Industrial Commission today, amid plans to attempt to inject a little hustle into the sluggish debate on state spending.

Rep. Dave Finney, D-Fort Worth, offered an amendment to take \$7 million from the State Building Commission budget and appropriate \$6 million of it to the commission.

A motion to table the amendment failed 60-80.

### MOST IMPORTANT

The House Appropriations Committee killed the commission's budget, but Gov. Dolph Briscoe and others want the agency to stay in business.

Its business is attracting industry to Texas and finding markets for Texas products—something the agency's opponents believe should be left to chambers of commerce.

Finney said the commission is "one of the most important" agencies and it would be a "great disservice" to Texas to shut it down.

Rep. Arthur Temple, D-Dallas, said people in his district tell him it is "a waste of money and they didn't know what it did."

Rep. Carl Parker, D-Port Arthur, said building commission funds could not be diverted for

other purposes and that Finney's amendment would amount to a drain on general tax funds.

### NOT SURE

"Don't you think the industrial commission is more interested in getting jobs for people than building monuments?" Finney asked.

"I'm not so sure about that," Parker said.

Earlier, Rep. Neil Caldwell, D-Angleton, House Appropriations Committee chairman, announced he would move later today to limit consideration of amendments to those on the speaker's desk at the time of his motion.

He said debate yesterday started out with 92 amendments on Speaker Price Daniel Jr.'s desk, and while 10 came to a vote, there were 91 changes piled up this morning.

### SELF RESTRAINT

Caldwell urged the House to "exercise a little bit of self-restraint" and move with "greater dispatch" toward a final vote on the bill, which has now tied up the House for five days.

"I think we are jeopardizing consideration of other important legislation because consideration of this bill has taken such a long time," he said.

"... We are just not going to ever finish."

Caldwell said that "there are a few people in this state that would like us not to finish. I suppose they are the people who don't want to see us pass a death penalty bill, who don't care about drug law reform, the family code, water district reform, mass transit. These are issues that may not be considered if we don't finish this bill."

### 'RIDERS'

Rep. DeWitt Hale, D-Corpus Christi, said part of the problem has been amendments adding new special provisions or "riders," declaring policy through the \$9.5 billion appropriation bill.

Most amendments offered Tuesday were defeated, as in the previous three days of debate.

One would have allocated about \$900,000 to buy 6 acres of land and two vacant buildings

in San Antonio and renovate the structures for state offices.

Rep. G. J. Sutton, D-San Antonio, said the buildings had an insured value of \$1.2 million.

"Burn it down," one member shouted.

The Sutton amendment was tabled, 105-36.

Also tabled late in the day was an amendment to eliminate \$5.5 million to buy property north of the Capitol for more state office buildings and \$1.5 million to build a parking garage for state employees.

### IT WILL COST

"We've certainly got enough buildings and enough property in Austin, Tex.," said Rep. John Wilson, D-LaGrange, who also asserted the land would still be there if the state wanted to buy it later.

"It will still be there, but it will cost twice as much," said Rep. Neil Caldwell, D-Angleton,

appropriations committee chairman.

The House voted to strike a \$4.6 million item to buy the United Services Automobile Association Building in San Antonio and use \$3 million of the money saved to add 200 beds to the Fort Worth State School for the mentally retarded.

## Spence Level Shows Gain

Lake E. V. Spence inched upward today on the strength of dwindling flows from Monday's spotted but hard showers.

Thursday morning, the lake had reached elevation 1861.80, which made it 64 of a foot higher than the beginning elevation Monday morning. This represented nearly 4,000 acre-feet of water.

Most of the inflow came from intense rains in separate locations in southern Mitchell and northern Coke counties, although that from Beal's Creek, which drains the Big Spring area and empties into the Colorado River, reached the lake Tuesday evening.

The river at Silver above the lake had dropped from five to 3 1/2 feet this morning.

Rainfall reports Monday showed 1.2 at the pump station, .70 of an inch at the dam four miles to the southeast. Rain gauges kept in connection with the weather modification project showed 1.20 inches south of Westbrook and 2.40 six miles south. This dwindled gradually to 1.2 at the entrance of the Spade Ranch. From Colorado City south there was a gradual increase from .4 of an inch to 1.75 and 2.00 at Silver, just above Lake Spence. From Big Spring to Westbrook, the rain ranged from a quarter to an inch, but three mile west of Westbrook it increased to 1.6.

### Rain

Chance of rain increasing from 30 per cent this afternoon to 40 per cent tonight and decreasing to 20 per cent Thursday. High today, mid 70s. Low tonight, upper 40s. High Thursday, upper 60s.

## SAYS CONG. OMAR BURLESON Government 'Needs To Get Financial House In Order'

U.S. Rep. Omar Burleson expressed his doubts about the entire system of revenue sharing and said the most important thing the government needs to do is "get its financial house in order."

Burleson, on a goodwill trip throughout his West Texas district this week, held a press conference this morning at the office of attorney R. H. Weaver.

"Revenue sharing has been a mistake. I'm not sure the federal government had the authority. Fundamentally, this is the question: What revenue does the government have to share when it's running huge deficits?" the Democratic congressman asked.

"We have got to find ways and means to increase our exports and decrease our imports," Burleson said, com-

menting on the devaluation of the dollar and the imbalance of trade.

He said he advocates a measure to require that automatic tax increases result from any excess expenditure by Congress over "acceptable" limits. "That would be a great deterrent to those who are big spenders," he claimed.

Confronted with the energy crisis and the shortage of butane in once-plentiful West Texas, the representative said we could attempt to limit the export of natural resources across state lines. But, he said, he could find no direct authority to control interstate transport of oil and gas.

He said he sees great opportunities ahead for West Texas to develop its natural resources. He called specifically

for more development of the Colorado River to the north and west, and said he has already put in a request for such surveys by the Army Corps of Engineers.

"Water is foremost in everyone's mind," he said. "We've got to get water somewhere and we eventually will. Early efforts overlooked the political implications — when you get to messing with someone else's water, you get into a nest of horns," he said of prior efforts to import Mississippi River water to Texas.

The congressman was scheduled to speak at a Lions Club banquet at noon open to members of all service clubs. From 4:45 p.m. he will be available to his constituents at a reception at the First Federal Savings and Loan community room.

## Zale's Officials Visit Here For Youth Banquet

Sidney Lipsky, vice president of Zale Corp., and Jean Compton, a Zale public relations

agent, will be present to hear a winner of four Olympic medals talk to winners of Zale-Hearld Youth Achievement awards here Thursday.

Swim star Jerry Heidenreich and the other two guests are coming here from Dallas. Heidenreich set two world records and won two gold, a silver and a bronze medal as part of the U.S. 1972 Men's Swimming team at Munich, Germany.

He is the first Texan to win four Olympic medals. While a member of the U.S. swim delegation to East Germany and Russia, he set two world records. Another world record went to Heidenreich for his performance in Calif., Columbia, as a member of the U.S. Pan American swim team.

He was graduated from Hillcrest High School in Dallas and then Southern Methodist University with a bachelor of business administration in 1972.

The dinner and awards program is scheduled at 7 p.m. Thursday at the Big Spring Country Club. Attendance is by invitation only.

Winner of the achievement award will be announced.

HOW TRUE ! —The route marker "Great River Road" typifies problems as National Guardsmen assist in evacuation of Grafton, Ill., residents, Grafton, at the confluence of the Illinois and Mississippi Rivers, was ten and a half feet above flood stage Tuesday, and still rising.

## Council Acts To Negate Beer Sales On Sundays

By ANN STEVENS

City commissioners unanimously approved an ordinance completely prohibiting Sunday sale of alcoholic beverages within the city and okayed preliminary planning for an alcoholic detoxification unit at Tuesday's meeting.

Approved on first reading, the ordinance doing away with the one currently allowed hour of sale of beer and wine on Sunday, noon to 1 p.m., was passed after local church leaders presented petitions signed by some 2,500 persons urging total prohibition of Sabbath sale.

Penalty for violation, deemed a misdemeanor, was set at a fine of not less than \$5 nor more than \$200.

### FEDERAL FUNDS

Commissioners instructed City Manager Harry Nagel to head a committee of local citizens to begin studying the needs and specifications for an alcoholic rehabilitation center in Big Spring.

Nagel said if the commission approves, the city can apply through the Regional Planning Council for an 80 per cent federal grant. He estimated a 10-to-12-bed unit to cost \$14,000-\$18,000 in all, with federal funds financing all but \$3,600 of the cost.

### HABITUAL OFFENDERS

The committee when appointed will include representatives of the city and county governments, industry, the churches, local hospitals and

former alcoholics.

Nagel explained that the unit would deal mainly with habitual offenders arrested for being drunk in public. Instead of being put in jail, the alcoholics would be able to sober up at the unit staffed by a full-time administrator and volunteer helpers who can provide care and counseling.

The unit can probably be housed in a rented house, with cooking and household chores done by the alcoholic patients themselves as they sober up, and with many of the household necessities, beds and food donated by local industry, hospitals and grocery stores.

Nagel said the unit is necessary because jail personnel lack the time to provide sufficient attention to the alcoholics and due to the new admittance of policy of the State Hospital under which alcoholics are not admitted on weekends or if they are not sober at the time.

Ed Mitchell, former alcoholic and worker with the State Hospital, said he has established and worked with detoxification units throughout the country and "they are working beautifully." He cited Midland, Odessa, Abilene and Snyder as having good detoxification programs.

### MOTEL TAX TABLED

In other action, the Commission tabled consideration of a motel occupancy tax after hearing testimony to pros and

cons of the tax voiced by Chamber of Commerce leaders and motel owners respectively.

Arnold Marshall, chairman of the Chamber's tourism committee, called for the three per cent tax on occupancy in order to generate money to promote the city through advertising and encourage tourism.

Marshall said the tax, which would be derived from visitors to Big Spring, could produce some \$25,000 a year to be used to upgrade city tourist attractions and municipal facilities.

Motel owners, represented by Richard Fleener, expressed "violent opposition" to the tax calling it unfair to them, unfair to visiting tourists and an inefficient method of raising money for tourism promotion.

### ONLY \$8,000

"This tax is not going to raise anywhere near \$25,000 a year," Fleener said, pointing out that the state with its three per cent occupancy tax on motels collects only \$8,000 a year from local owners and that the city could do no better.

"Just because the law is on the books to let you tax doesn't mean you have to tax. And this tax is not going to collect itself. If you get \$8,000 a year, is it going to cost you \$12,000 a year to collect?" he asked.

Commissioner Eddie Acri moved to table the matter, instructing Nagel to study results of the hotel-motel tax

(See BEER, Pg. 2-A, Col. 1)

CUBISM?—Terry Shaw, a science teacher in Phoenix, Ariz., found himself the object of a kingsize likeness made by his eighth grade students. Each student was given a 1-inch square of a photo and was told to draw an enlargement. Students were unaware of whose picture they were drawing until it was completed and assembled.

### BEER

(Continued from Page 1)

In other towns of comparable size.

In other action, the Commission:

—Asked the city manager to set a date for a special commission meeting to study amending and updating the City Charter.

—Granted purchasing officials permission to advertise for bids on the upcoming street seal-coat program. Expected to cost near \$40,000, the program will seal 160 blocks of streets torn up by rainy, icy weather this winter.

—Instructed Nagel to meet with members of the Disabled American Veterans to choose a site to be leased for a future DAV hall. A DAV spokesman said the hall, to be sited somewhere near the VFW Hall, would provide a recreation area for veterans in the VA Hospital.

—Voted to appoint a committee to work with the Parks and Recreation Board and architect Daryl Hohertz to develop a plan for improving the historic "big spring" and Couden Lake area.

—Awarded contract to Squeaky Thompson to carpet the Dora Roberts Community Center pro shop at the cost of \$15 per square yard. Nagel noted that the bid will require less money than was originally budgeted.

—Awarded contract to Russ Chemical Co. for a year's supply of liquid aluminum sulphate for \$13 a ton, the low bid.

—Gave permission to bid on a jet pump machine for the Water and Sewer Department. Expected cost is \$10,000.

—Allocated \$300 for dedication ceremonies of the new tennis center during May.

—Granted specific use permit to Isabel Ramirez to sell beer at Ramirez's Restaurant and to Jerry Ford Jones to sell beer and wine at the Roadrunner Club.

### MISHAPS

1505 E. 5th: Barbara P. Roberts, 1505 E. 5th, and Kirby L. Brown, 1603 Stadium, 7:30 a.m. Tuesday.

106 Gunter: Ann Sewell Patterson, 2201 Cecilia, Kevin McGinty, 106-B Gunter, properly parked.

1206 Wood, Charles Madry, 1206 Wood, and a vehicle that left the scene. 12:32 a.m. Tuesday.

5th and Gregg: Ruth Findley Garden City, Charles Sheborne, Ft. Worth, and Thomas Blewell, Sterling City Route, 12:50 p.m. Monday.

IS 20 service road and San Antonio: Ernest Burns, Irving and Lloyd Arnold, Sterling City Route, 2:14 p.m. Monday.

905 Mt. Park Drive: concrete block fence and a vehicle that left the scene. 3:30 p.m. Monday.

15th and Johnson: Jack Broughton, 1014 Nolan, Terry Allen Treiner, 1408 Donley, 4:24 p.m. Monday.

10th and Gregg: Richard Lang, 2100 Merrill Dr., and Rudolph Crane, 1429 E. 6th, 6:00 p.m. Monday.

Sonic Drive in parking lot: Phoebe Barns, 812 W. 3rd, and Terry Roby, 232 Langley, 6:20 p.m. Monday.

## Rehab Center Outlook Good

Board members of the Dora Roberts Rehabilitation Center voted Tuesday to honor volunteer workers in July and to establish a committee to study long-range objectives for the center.

Volunteer workers will be presented certificates after the board's July business meeting. President Lanny Hamby named Rich Anderson (chairman), Dallas Nash, Jack Powell and Dr. Pete Rhymes to the committee to study long-range objectives.

The board also adopted a resolution to honor the late Robert W. Whipkey, the first board president and an honorary board member at the time of his death, March 31.

Jimmy Taylor was named to the endowment committee to replace Whipkey, and Capt. Ed Morton was named to the board to replace Jimmy Dykes.

In other action, the board reaffirmed its policy of non-discrimination in admittance of patients.

It was also announced that the center is in considerably better financial condition than was anticipated. The shortage for the entire fiscal year was anticipated at \$30,000 but the deficit for the first half of the year amounts to only \$7,218.

The slighter shortage for the six-months' period was attributed to the dismissing of an occupational therapist and a physical therapist. The center has not yet had to touch its \$18,000 special fund.

Physical therapy programs served 2,819 persons in the second quarter as compared with 2,443 in the first.

Over-all service during the second quarter was down from 3,532 at the same period last year to 3,447 this year. This was said to be due to schools taking over the learning disability program.

Physical therapy programs served 2,819 persons in the second quarter as compared with 2,443 in the first.

Over-all service during the second quarter was down from 3,532 at the same period last year to 3,447 this year. This was said to be due to schools taking over the learning disability program.

### "LIBERATED" TICKETS

SAN ANTONIO, Tex. (AP) — "We played the nice guy for awhile and the tickets just mounted," says a Trinity University spokesman of the student parking ticket situation.

Then the school decided to crack down on parking offenders.

Now, the Trinity spokesman confirms, the school is without any records of the parking tickets issued during this scholastic year because the tickets disappeared in a break-in of school offices over the weekend.

James Harford, head of the Trinity University's public relations office, said a note was left in the nearby office of the school newspaper, The Trinitonian.

The note was in the form of an "announcement," he said.

It said the tickets had been "liberated" and it was signed "Bonnie and Clyde," said Harford.

"We view this more as a student prank," said Harford, who said expensive office machines which could have been taken were bypassed in the break-in.

It said the tickets had been "liberated" and it was signed "Bonnie and Clyde," said Harford.

"We view this more as a student prank," said Harford, who said expensive office machines which could have been taken were bypassed in the break-in.

## Fund Okayed For Program

Although the tennis center at the Dora Roberts Community Center may not meet its original May 1 completion deadline, the City Commission plans to start off its operation "with a bang" later in May.

Commissioners approved expenditure of \$300 to fund an exhibition match, probably May 20, as part of dedication ceremonies for the new tennis courts.

City Manager Harry Nagel told the Commission Tuesday that newly-hired pro-manager Novice Kniffen may be able to schedule an exhibition match of the Central Texas College (Killeen) tennis team, the number two college team in the nation.

Local tennis players might also play exhibition games to coincide with official opening of the courts and open house at the community center itself which is now being renovated.

Nagel said floors of the center are now being sanded, and fencing will be put in during the week.

Plans and date for the opening have not yet been finalized.

## Museum In Need Of More Help

The Heritage Museum needs your help in rounding out the next major exhibit which spotlights oil development in this immediate area.

Particularly needed are pictures and other items which will tell the story between 1920-30. It was during this period that much wildcatting preceded the completion of the first commercial oil producer and the subsequent oil boom. Pictures of oil personalities of that period, oilfields, or other things reflecting growth of the town are needed.

Anyone who can give or loan these things to the museum are urged to call Gerri Atwell, curator, or Edith Gay, assistant curator, at the museum, or J. W. Purser and Will Barron, co-chairmen for the oil exhibit.

## Burglars Depart With Firearms

Wayne Hulme Tuesday reported a chain saw and rider lawn mower were stolen from a tool shed at Box 603 on Route 1 in Sand Springs.

Burglary of the J. W. McDonald Coahoula residence recently resulted in loss of numerous firearms, the sheriff's office reports.

Hunting gear included a 12-gauge pump shotgun, 243 rifle with scope, single-shot .22 rifle with scope, 22 bolt-action rifle, 22 magnum derringer, .243 shells and buckshot.

Also lost were four fishing rods and reels, two silver dollars and a portable stereo.

## Fall From Auto Hurts Man Here

Pedro Armando Lopez was hospitalized at the Cowper Hospital after falling off the fender of a car driven by Jesse Manuel Ramirez, 1700 W. 2nd, at North Street and Goliad Tuesday morning.

Ramirez was cited by the investigating officer for no driver's license. Lopez fell off the fender and was injured as the car negotiated a turn at the intersection.

## Woman Is Jailed On Traffic Raps

Karen Ann Trawick, 410 E. 18th St., was in city jail this morning pending paying fines for two traffic violations and posting \$3,000 bond set by Peace Justice Gus Ochotorena Jr.

Bond was set in connection with a complaint charging her with theft of a 1969 model car belonging to Don R. Davis on April 15.

## Pack 100 Gives Several Awards

Pack 100, sponsored by St. Paul Presbyterian Church, held its monthly pack meeting Tuesday evening at the church.

Jody Dawdy was presented with his Wolf badge and a Gold Arrow point to wear under the badge.

Dale Little was given the Denner Cord and Lee Wallace earned the assistant Denner Cord. Michael Hodnett was awarded a Gold Arrow point along with Dale Little.

Dewayne Hodnett and Michael Gilbert were presented Silver Arrow points.

Webelo Den members reaping awards included Jimmy Tow, Sky Hart, Kris Allen and Jay Cooper.

Cooper and Bill Kothman were graduated from the Webelo Scouts to the Boy Scouts. The pack gave "The Scout Hand Book" to each. Bill Kothman had also earned the highest award in Cub Scouting, the Arrow of Light. He also has earned the Citizenship and Sportsman awards.

Den 4 put on the skit, "The Litter Bug." The pack is planning to participate in the project "Soar" program Saturday.

The pack is planning a marshmallow roast for the next pack meeting May 19 at the Scout Camp Ground south of town.

## Rampaging Mississippi Breaking Through Dikes

By The Associated Press  
The rampaging Mississippi River continued rising today toward the worst flooding in 200 years after breaking through water-logged dikes and levees and topping others.

Some 30,000 acres of land were added Tuesday to the tens of thousands already under water. Thousands of persons have been affected from Missouri to the Mississippi Delta.

The Army Corps of Engineers ordered parts of the city of Elsberry, Mo., evacuated Tuesday as the river burst through nearby dikes and levees. The American Red Cross estimated that at least 6,000 families have been affected since the Mississippi, Missouri, Illinois and Meramec rivers began rising in early March.

"God knows how many there are," said Maj. Gen. Charles C. Noble, head of the Mississippi River Commission. "A couple of weeks ago I made a guess of 6,000 but I've flown up and down this river many times and it's got to be a lot more people than that."

Noble said an estimated \$40 million damage was caused when the Mississippi hit its previous high mark on April 6. A regional director of the Office of Emergency Preparedness said Tuesday that damage in Missouri alone could exceed \$50 million but added that the continued high waters made any estimate difficult.

The city of St. Louis was bracing for the highest crest of the Mississippi there in history—43.5 feet predicted for Thursday—but the Corps said the river was not rising as fast as expected.

## Senators Take Up Their Version Of Money Bill

AUSTIN (AP) — Texas senators took up debate of their \$9.5 billion state spending bill today as both houses of the legislature discussed Texas' cost of government in 1974-75.

House members spent most of their morning session in a life and death debate on continuation of the Texas Industrial Commission.

The Senate appropriations debate, which began shortly before 11 a.m., was concerned, for the first time, with more than \$316 million in federal funds under President Nixon's revenue-sharing plan.

The House, which got a headstart in debate on the 1974-75 spending bill, maintained its slow pace through nearly 200 proposed amendments for the fifth day. The House version totals \$9.7 billion.

LT. Gov. Bill Hobby says the main difference in the two bills is that "our bill is heavy on education and the House bill is heavy on welfare."

EXTRA TAXES  
Both bills purportedly could be financed without levying extra taxes.

The Senate spending bill includes \$1.94 billion from general revenue fund, an increase of \$29 million over the current two-year fiscal period. This fund usually is used as the yardstick for measuring increased state spending.

The bill also contains: —Salary increases for all state employees, ranging from 10.2 to 13.6 per cent over two years.

—An increase of \$144 million for community mental health, mental retardation centers, and money for construction on the Brenham and Fort Worth schools for the retarded.

—A first-time appropriation of \$2.3 million to take care of patients critically ill with kidney disease.

—An additional \$2.6 million for food stamps for the poor.

—An increase of \$78 million in aid to families with dependent children.

JUNIOR COLEGES  
—Money for 100 more highway patrolmen over the two years and 12 new narcotics agents and 12 new Texas Rangers, all in the Department of Public Safety.

—6.8 per cent increase for faculty at state-financed senior colleges.

—Funding for new junior colleges in Austin and Harris County and for the University of Texas at the Permian Basin; UT-Dallas; UT - San Antonio; Texas A&I at Corpus Christi; Texas A&I at Laredo; University of Houston at Clear Lake; UH-Victoria and Tyler State College.

## Rain, Hail Fall

Around 3 to 5 inches of rain and some "pea-sized" hail fell on an area from north of Ackerly to south of Gay Hill School this morning. The storm ended at 7 a.m., about minutes after it started.

## DEATHS

Shepard Funeral Home, Crane, Ed. Earle, Tulsa, Okla., and Mrs. Ed Warren, Hereford; and two grandchildren.

## H. A. Moore

Services were set at 2 p.m. today in Nalley-Pickle Rosewood Chapel for Herbert A. Moore, 53, who died Monday afternoon.

Pete Hanks of the Brownwood Church of Christ officiated. Burial was in Vealmoor Cemetery.

Pallbearers were A. B. English, Aspermont; Paul Boggy, Lamesa; Haskell Autry, Sterling City; Max Zant, Vealmoor; John Waddell and Chester Koffmann, Big Spring.

## R. A. Fletcher

Services were held this morning for Robert A. Fletcher Jr., 43, who was found dead at his home Tuesday.

Rev. Bill O'Dell, chaplain at the VA Hospital, and Rev. Gary Higgs, pastor of Berea Baptist Church, officiated at the service at Nalley-Pickle Rosewood Chapel.

Services will also be held at 2 p.m. Thursday at the Varnie Keel Funeral Chapel in Gainesville with burial in Alvord Cemetery.

Pallbearers today were Bernard Giamster, Allen Gerhart, Charles Leek, William Spencer, L. Richard Ferguson and Sgt. Mike Yick.

## Bill Randle

Mr. Randle was born June 21, 1903, in Hall County and was married to Josie Reed Higgenbotham Dec. 31, 1922, in children. They moved to Gee City in 1925 where he opened and operated a grocery store until 1950.

He was then a security broker and recently retired. He was a Methodist, 32nd degree Mason, member of commandry of the Shrine and Eastern Star, former president of the hospital district, former school board member, past president of Lions Club and secretary of the industrial team.

Survivors include his wife; a daughter, Mrs. Ann Davis, Colorado City; two sisters, Mrs. S.

## Parks' Study Undertaken

Dale Robertson of the Parks and Recreation Planning Association of Austin met with the Commission at City Hall with the city's parks and recreation consultant.

Robertson's firm has been contracted by the Permian Basin Council of Governments to study parks in the area upon request. The study in Big Spring will project needs of the city in parks and recreation to the year 2,000.

An itemized list of the available parks was presented to Robertson, including the Comanche Trails Park, Dora Roberts Community Center, Little League parks and other city parks.

The list does not include the state park or school recreation facilities which are not included in the study. The firm, throughout the state, devises plans for long-range improvements for municipal parks, golf courses, tennis parks and other facilities.

The group here is eyeing the possibility of several possible park improvements for the City of Big Spring, but has not yet made any concrete decisions as to what improvements they will attempt.

## Thieves Chased But Get Away

A wild chase after a stolen vehicle resulted in a wreck and the escape down Scenic Mountain of two apparent thieves.

Mrs. Roberts at 34-B Ent. Webb Village, called Air Force Security complaining that somebody had just stolen a 1972 Scout from her yard at 1:47 a.m. today. The security police were in pursuit and summoned the help of city police.

They pursued the vehicle into State Park where the vehicle was wrecked at the entrance and two subjects fled on foot down the south side of the mountain, eluding arrest.

At 4:19 a.m. Tuesday, Jimmy Kelley at 3918 Hamilton reported that a motorcycle had just been stolen. These two thieves escaped by running through a trailer park.

## Commission Meets

County Judge A. G. Mitchell said County Commissioners Court will hold a closed session on personnel at 3:30 p.m. today.

# AWAITING SUPREME COURT DECISION Antibusing Stall In Congress

WASHINGTON (AP) — Antibusing measures are at a standstill in Congress, awaiting a Supreme Court decision in a key case involving consolidation of urban and suburban schools.

The case was argued before the court Monday, and a decision is expected before the justices start their summer recess in June.

**BLACK, WHITE**  
At issue is whether political boundaries may be set aside to bring about school desegregation by merging predominantly black big-city school districts with those in surrounding counties that are overwhelmingly white.

This is what a U.S. District Court judge in Richmond, Va., ordered, but he was overruled by the 4th Circuit Court of Appeals. However, a similar order

by a district judge in Detroit was upheld by the 6th Circuit Court.

The case from Richmond is the one now before the Supreme Court. The way it is decided may determine what happens to the antibusing measures pending in Congress.

## Many People Still Wait To File Income Report

By MARJ CARPENTER  
"Most of the same people who used to file income tax returns on the final day when the deadline was March 15, still file on the final day, now that it is April 15," said J. P. Gordon, administrative officer at the Internal Revenue office here for 24 years.

He said that the addition of a month to allow filing time had made very few changes in the number who file late. "Very few persons actually file late, but quite a few file at the last minute," Gordon added.

**LESS LIKELY**  
However, Sen. James B. Allen, D-Ala., and other sponsors look for no committee action until after the Supreme Court's ruling in the Richmond case. No House hearings have been scheduled.

## Mind Control Seminars Set

A course in mind control will be offered locally through the Academy of Beauty. Two seminars will be held at 7:30 p.m. Thursday and Friday nights to introduce interested people to the course.

Taught by Sonny Molina of the Silva School of Mind Control and ESP, the instructor claims to offer mental exercises that will work for everyone and "teach you to utilize more of your intelligence."

They claim to be able to help with such things as "headaches, pain, self-control, losing or gaining weight and determining what the other person is thinking."

The school was begun in Laredo and reports to have over 125,000 graduates.

The instructor, currently in Big Spring, claims there are several Big Spring citizens who are graduates of the school and urges anyone interested in learning more about the subject to come out to the seminars here Thursday and Friday.

## One-Car Wreck Fatal To Man

SNYDER — Charles D. Walker, 42, was killed early Tuesday in a one-car mishap on US 180, about four-tenths of a mile west of the city limits here.

Walker's vehicle struck a guard rail and turned upside down in four feet of water.

A native of Arkansas, Walker had only recently moved back here from Del Rio.

The funeral will be at 4 p.m. today in the Bell-Seale Funeral Home Chapel. A second service will be conducted at 2 p.m. Friday in Melbourne, Ark., with burial to follow there.

Until recently, Mr. Walker had been a member of the U.S. Border Patrol.

Survivors include his wife, Clarissa; two daughters, Mary Ann and Sheri Ann, all of the home; and his parents, Mr. and Mrs. O. B. Walker, Snyder.

However, work continues all year in that office. From January to April 15, they offer assistance to the taxpayers filing their returns.

Then from April 15 until the following January, Gordon audits reports sent by the computer center for auditing. The ones he is now working on are from 1971 and he will soon be to 1972's, but it will be next year before any reports from 1973 are audited.

A. A. Wadle is collection official and he seeks information concerning persons who failed to file a return or collect delinquent returns.

It is apparently an endless task and an all-year job that goes on and on for those who work for the service.

To put it bluntly, it takes four months to get them all in and then eight months to check them out.

Those who work for the internal revenue are used to hearing jesters tell them "I guess you don't have anything to do now until next year."

Gordon and Wadle only have to return to their desk where there's a pile of work waiting for them to know better.

## Diaz Probation May Be Revoked

District Attorney Bob Moore Tuesday filed a motion to revoke probation being served by Martin Diaz.

Diaz pleaded guilty Aug. 1972, to burglary of the Deep Rock gasoline service station, 808 Lamesa Drive.

He is now accused of burglarizing property of F. G. Saldivar Monday.

A hearing on the motion to revoke probati on is scheduled for 2 p.m. Thursday. Diaz was in county jail Tuesday afternoon.

## Now Many Wear FALSE TEETH With Little Worry

Do false teeth embarrass you by coming loose when you eat, laugh, or talk? A denture adhesive can help. FASTENTURE gives dentures a longer, firmer, steadier hold. Makes eating more enjoyable. For more security and comfort, use FASTENTURE Denture Adhesive Powder. Dentures that fit are essential to health. See your dentist regularly.

## Coed Slaying Might Make Campus Safer

LYNCHBURG, Va. (AP) — Randolph — Macon Woman's College is moving to make its campus safer while city police continue a search for the slayer of a 19-year-old student.

The body of Cynthia Hellman, a freshman from Houston, Tex., was found lying face down beside a science building the night of April 8. An autopsy showed she suffered severe head and internal injuries.

Police said they have few clues. Tipsters have telephoned frequently, but the tips have not been fruitful in the college's first murder in its 8-year history.

The college says it added more security measures and is surveying campus lighting to be certain its students have maximum protection.

Dr. William F. Quillian Jr., college president, said Randolph-Macon switched two years ago from a campus police force to Pinkerton detectives and now has additional plainclothesmen.

Police said it was not known whether Miss Hellman was brought there back from a slain on or off the campus.

## VA Doctors To Discuss Alcoholics' Problems

Approximately 75 physicians and citizens from Big Spring and the surrounding area are expected to attend a seminar Friday on alcohol withdrawal and treatment of organic complications from alcohol abuse at the Veterans Administration Hospital.

Drs. Samuel Goldfein and C. D. Eskelson from the VA Hospital in Tucson, Ariz., will conduct the one-day seminar which will begin at 10 a.m. in Room 219 on the second floor.

Among topics covered in a series of short talks will be effect of alcohol on the heart, drug interactions, alcoholism and infections, coma states, and

atherosclerosis in relation to alcohol.

Dr. Goldfein is staff physician and assistant chief of medicine at the Tucson VA Hospital and serves as attending physician at the University of Arizona Medical Center.

He was educated at the University of Notre Dame and the University of Chicago School of Medicine. He is president of the Arizona Heart Association.

Dr. Eskelson is a physician at the Tucson hospital. He received his education at the University of Utah, University of Louisville and University of Nebraska College of Medicine.

The seminar will end at 3 p.m. The public is invited, and there is no charge.

## Tulsa Managing Ed's Wife Dies

TULSA, Okla. (AP) — Mrs. Travis Walsh, wife of the managing editor of the Tulsa Daily World, died Monday of cancer in a Tulsa hospital.

Mrs. Walsh, 44, had been hospitalized April 12 for tests.

She and her husband moved here in 1956. They lived in Oklahoma City for eight years, where he was bureau chief for the World, returning to Tulsa in 1968.

She had attended the American Institute of Merchandising and New York University and was employed by a New York advertising firm before her marriage to Walsh in 1955.

Mrs. Walsh was a native of Plainfield, N.J.

## Peacocks Puzzle

DETROIT (AP) — Stan Pilarski reported a prize pair of peacocks had been stolen from his turkey farm in the Mio area, about 200 miles north of here.

On Sunday, Detroit police called to say they had his birds.

The pair was found in a garage in Detroit when a man called to report his son had brought them back from a slain on or off the campus.

## NOTICE OF AVAILABILITY OF EDUCATIONAL FUNDS

ELIGIBILITY—Those eligible to apply are descendants and spouses of persons who were employed for a minimum of one year by either the late Mr. Sid W. Richardson or by an organization in which he had a substantial business interest during his lifetime, or who subsequent to his death have been employed for a minimum of one year in a business enterprise which is a continuation of a business in which he had a substantial business interest.

Limited funds are available to assist in defraying cost of college education, and of vocational training.

Eligible persons applying for aid for the school year beginning in the fall of 1973 must apply prior to May 15, 1972.

Direct inquiries to Sid Richardson Memorial Fund, Attn: Secretary, 1105 Ft. Worth National Bank Building, Ft. Worth, Texas 76102, and include information establishing basis for eligibility.

# Trevino Eyes 'Wet' Nelson

DALLAS (AP) — "Wear your old shoes," Ken Still told Lee Trevino. "It's ankle deep out there. No kidding, the whole course is under a half inch of water."

Still had just finished a practice round over the 6,932 yards of goosy quagmire that make up the Preston Trail Golf Club course and Trevino was just getting ready to test the par 70 layout that is the site for the \$150,000 Byron Nelson Golf Classic.

The 72-hole chase gets underway Thursday—weather permitting—with Trevino the solid favorite for the \$30,000 first prize.

"I play pretty good here," Trevino admitted while working on his clubs, then looked over and spotted fellow golfer Jim Jamieson.

"Stay close to me, son," he said. "Just keep your round little body close to me and you're going to make a lot of money this week."

Trevino, who grew up in Dallas, was busy wrapping coils of black tape around the grips of a new-old set of clubs, a set he may use this week.

"These are my old clubs," he said. "I just got 'em back from the factory. I'd ruined 'em when I drilled the heads out in Hawaii. Now I've got 'em reshawed and the heads plugged to 'em in practice. I don't know whether I'll use 'em or not. The old ones have been pretty good to me. You know, except for the Masters, I haven't shot

**SOME WATER HAZARD**—Golfer Lee Trevino picks his way through a flooded walkway at the Preston Trail Golf Club in Dallas Tuesday. Trevino was touring the course in preparation for the Byron Nelson Golf Classic that gets underway Thursday. Heavy rains in the area flooded a creek running through the course and parking areas are mud holes.

# Rebs Trip Big Spring, Retain Shot At Crown

MIDLAND — The Midland Lee Rebels stayed well in the running for the District 5-AAAA baseball crown at the expense of the faltering Big Spring Steers Tuesday, pounding out a 4-2 decision.

With the victory the Rebels stand 3-0 in the second half and 9-9 on the year, while Big Spring slumps to 1-3 in the second half and 11-10 on the season.

The Lee win avenged an 11-5 defeat at the hands of the Steers in first half play as Richard Koenig went the distance in limiting the Long horns to five hits. Steer hurler Mike Tredaway and Orlando Ogle also allowed just five safeties,

# Teen League Sign-Up Set

Teenage Baseball League sign-up has been set for Thursday, Friday and Saturday at Johnny Stone Park, according to loop president Al Valdes.

Registration will be from 5 to 7:30 p.m. on Thursday and Friday, and from 9 a.m. to 5 p.m. Saturday at the field. The season won't begin until late in May.

Players from 12-18 years of age are eligible, and will be divided into three leagues: sophomore (12-14), Hi-Junior (15-16) and Senior (17-18). If enough senior leaguers enroll, there is a possibility that Big Spring will have two teams. Coahoma and Colorado City also will have entries.

Valdes emphasized that all boys must sign up, regardless of whether they have played in the league before, and that each boy must pay a \$6 fee for insurance. Valdes also said that boys who have not participated in the league before must present birth certificates when they register.

# Bobcats Surprise Bulldogs By 4-2

San Angelo's Bobcats ended a ten-game streak of frustration on their home field Tuesday by knocking off first half champion Midland 4-2 in a crucial District 5-AAAA upset.

Bobcat hurler Lanny Layman walked 10 batters and hit another while stranding 15 runners, but he struck out nine and allowed just four hits as the Orange won their first league game in 11 starts. On the year the Bobcats are 4-13. Midland, meanwhile, dropped to 2-2 in the second half and 15-8 on the season.

San Angelo scored all four of its runs in the first inning.

# Kentucky Advances To Finals In ABA

CHARLOTTE, N. C. (AP) — The Kentucky Colonels made it decisive, leading all the way as they finished off the Carolina Cougars to join Indiana in the American Basketball Association's championship finals.

Dan Issel paced the 107-96 victory with a game-high 31 points and he added 17 rebounds to his scoring barrage Tuesday night as the Colonels won the best-of-seven Eastern Division playoff series four games to three.

Kentucky and Indiana will meet in a nationally televised opener at Louisville Saturday to open their series for the ABA championship. The defending-champion Pacers won the West title over Utah in six games.

"I was delighted with the win," said Colonels' Coach Joe Mullaney. "It was a tough game against a good team away from home and I'm very proud of our guys."

Carl Scheer, president and general manager of the Cougars, said it was "a great season abruptly ended." But he added, "I suppose on reflection it was an outstanding season."

One in which Carolina jumped to a division lead right at the start and never relinquished it.

Meanwhile, only one game stands in the way of settling both the Eastern and the Western Conference playoffs in the National Basketball Association.

The New York Knicks lead 3-1 going into tonight's Eastern game with the Celtics at Boston Garden and the Los Angeles Lakers lead by the same margin as they play host to the Golden State Warriors at the Forum.

# Black Hawks Halt Rangers

CHICAGO (AP) — The Chicago Black Hawks, having settled one score with the New York Rangers, now take dead aim at the mighty Montreal Canadiens in the finals of the National Hockey League's Stanley Cup playoffs.

The underdog Black Hawks, after losing the home opener to the Rangers, roared back with four straight victories, including a clinching 4-1 triumph Tuesday night as Stan Mikita pulled home two goals and Dennis Hull and Cliff Koroll added one each.

Once again it was the superb goaltending of Tony Esposito which helped the Hawks gain the finals.

Two years ago the Hawks lost the Stanley Cup finals to the Canadiens. Last year Chicago didn't even get that far. The Rangers bounced them out with a four-game sweep in the semifinals.

Now, having gotten sweet revenge for last year's debacle, the Hawks have a chance to make amends for the 2-year-old defeat. The Canadiens reached the finals, which begin Sunday in Montreal, with a 5-3 victory over the Philadelphia Flyers Tuesday night to capture their series in five games.

In the World Hockey Association playoffs, the Winnipeg Jets defeated the Houston Aeros 4-2 to take a 3-0 lead in their best-of-seven West Division finals.

"It was hard work and dedication," said Chicago Coach Billy Reay following the Black Hawks' triumph. "Skating off those two penalties in the first period also helped. When you go through a game without a power-play goal against you, you have to give a lot of guys credit."

# Newsom Enrolls In Baseball Camp

Kent Newsom has been accepted for enrollment at the Ted Williams Baseball Camp in Lakeville, Mass., in July and August.

Youngsters from all over the U.S. and the world attend the camp.

Newsom, 15, is the son of Mr. and Mrs. Don Newsom of 529 Hillside. It is his second year to attend the camp.

# Jets Score AL Win Over Stars

The Jets smacked the Stars 8-2 Tuesday in an American Little League baseball clash.

Pearce hurled the win for the Jets, while Minchew slapped three hits and Rosson two triples in leading the way at the plate. Cordes and Floyd also had hits.

B. Martin suffered the loss for the Stars. D. Martin had two hits and Horton, Garcia, Baklehan, Hutchins and Burris all added one.

Stars: 002 00-2 7  
JETS: 002 03-4 7  
Bradley, B. Martin, D. L. Martin, Pearce and Cordes. W.—Pearce. L.—Martin.  
2B — Patterson 2 and Keith Duvall.  
3B — Rosson, Jets, 2.

# 76ers Swear Vengeance

NEW YORK (AP) — The 1973 National Basketball Association's college draft is over but the bitter taste of the Brisker affair remains.

Philadelphia, foiled in a last-minute attempt to delay the draft, announced before the first pick Tuesday that it planned further action to get a first-round choice it feels it should have because of Seattle's signing of John Brisker.

The 76ers then opened the draft by picking Olympian Doug Collins of Illinois State, whom some pro scouts describe as having "the quickest hands and feet in college" basketball.

Three All-Americans also were first-round selections—guard Ernie DiGregorio of Providence, by Buffalo; Kermit Washington of American University, by Los Angeles; and guard Ed Ratleff of Long Beach State, by Houston.

It was a day of apprehension and annoyance for NBA commissioner Walter Kennedy.

At 10:30 a.m. EST, famed central lawyer Louis Nizer, representing the 76ers, went before a judge in the Second U.S. Court of Appeals here asking for a temporary restraining order that would stay the draft.

The 76ers sought the injunction so that they could initiate action in an attempt to restore a ruling made by Kennedy last November that awarded Philadelphia Seattle's first-round draft pick as a payment for signing Brisker, a former American Basketball Association player who was the NBA

property of the 76ers. Seattle, picking fourth, took Mike Green of Louisiana Tech.

At 11:30 a.m., the NBA announced that a judge had refused to issue a restraining order and that the draft would start as scheduled at noon.

At noon, Kennedy had to fret for 65 minutes because of difficulty in hooking up a telephone conference call, the means by which the draft was conducted.

Then came the first pick of the draft, which Philadelphia earned by having the worst record in the Eastern Conference and by winning a coin toss with Portland, which had the worst mark in the West.

But before picking Collins, Philadelphia General Manager Don DeJardin announced, "We exercise this pick under protest before these proceedings commence. He also said that an effort would be made to get a re-

# 'Kats, Cougs NBA Choices

By The Associated Press

The University of Houston and Sam Houston State were the prime picking grounds in Texas for the National Basketball Association Tuesday.

The Cougars sent two players to the big leagues while the Bearkats, No. 1 rated small college team, had three players selected by NBA clubs.

Olympian Dwight Jones of Houston was the first Texan chosen, going to Atlanta in the first round. Jones was a hard-pitch case and could be drafted although he had not finished his college eligibility.

Steve Newsome of Houston was plucked by the Chicago Bulls in the third round.

James Lister, the small college All-American for Sam Houston State, was a third round choice of Cleveland. Robert White of SHS was selected by Boston in the eighth round while Ron Battle of SHS went to Los Angeles in the tenth round.

The Rockets, who finished out of the playoffs after high hopes at the start of the season, chose four forwards, two guards and one player to come in and start ward. The Rockets did not have a second round choice and they skipped rounds nine and 10.

Coleman, who averaged 12.6 rebounds and 20.6 points for

# Houston Bypasses Centers; Ratleff Is No. 1 Selection

HOUSTON (AP) — The Houston Rockets ignored the centers and went for depth in the National Basketball Association draft—and Rockets Coach John Egan is happy with what he got.

"I'm very pleased with the way the draft turned out," Egan said Tuesday after picking Long Beach in the first round and Houston Baptist's E. C. Coleman in the third round.

"I feel Ed Ratleff is a very sound basketball player," Egan said. "We took the best player available when it was our turn. He was the best player available based on what I like to do. He is intelligent, poised and a patient. He doesn't take poor shots."

The Rockets, who finished out of the playoffs after high hopes at the start of the season, chose four forwards, two guards and one player to come in and start ward. The Rockets did not have a second round choice and they skipped rounds nine and 10.

Valdes emphasized that all boys must sign up, regardless of whether they have played in the league before, and that each boy must pay a \$6 fee for insurance. Valdes also said that boys who have not participated in the league before must present birth certificates when they register.

# Houston Bypasses Centers; Ratleff Is No. 1 Selection

HOUSTON (AP) — The Houston Rockets ignored the centers and went for depth in the National Basketball Association draft—and Rockets Coach John Egan is happy with what he got.

"I'm very pleased with the way the draft turned out," Egan said Tuesday after picking Long Beach in the first round and Houston Baptist's E. C. Coleman in the third round.

"I feel Ed Ratleff is a very sound basketball player," Egan said. "We took the best player available when it was our turn. He was the best player available based on what I like to do. He is intelligent, poised and a patient. He doesn't take poor shots."

The Rockets, who finished out of the playoffs after high hopes at the start of the season, chose four forwards, two guards and one player to come in and start ward. The Rockets did not have a second round choice and they skipped rounds nine and 10.

Coleman, who averaged 12.6 rebounds and 20.6 points for

# Rebs Trip Big Spring, Retain Shot At Crown

MIDLAND — The Midland Lee Rebels stayed well in the running for the District 5-AAAA baseball crown at the expense of the faltering Big Spring Steers Tuesday, pounding out a 4-2 decision.

With the victory the Rebels stand 3-0 in the second half and 9-9 on the year, while Big Spring slumps to 1-3 in the second half and 11-10 on the season.

The Lee win avenged an 11-5 defeat at the hands of the Steers in first half play as Richard Koenig went the distance in limiting the Long horns to five hits. Steer hurler Mike Tredaway and Orlando Ogle also allowed just five safeties,

# Teen League Sign-Up Set

Registration will be from 5 to 7:30 p.m. on Thursday and Friday, and from 9 a.m. to 5 p.m. Saturday at the field. The season won't begin until late in May.

Players from 12-18 years of age are eligible, and will be divided into three leagues: sophomore (12-14), Hi-Junior (15-16) and Senior (17-18). If enough senior leaguers enroll, there is a possibility that Big Spring will have two teams. Coahoma and Colorado City also will have entries.

Valdes emphasized that all boys must sign up, regardless of whether they have played in the league before, and that each boy must pay a \$6 fee for insurance. Valdes also said that boys who have not participated in the league before must present birth certificates when they register.

# 'No Decision At All' By Nixon On Whether To Fire Top Aides

WASHINGTON (AP) — The White House says President Nixon has made "no decision at all" on whether to fire top-level aides as a result of the Watergate affair.

Nixon spokesmen deny reports that Secretary of State William P. Rogers has been asked to head a post-Watergate shakeup of the White House staff and that the President was in any way involved in a reported offer of executive clemency to conspirators already convicted.

### RE-ELECTION DRIVE

The chief spokesman for the Nixon re-election drive, DeVan L. Shumway, said he was not told the whole truth at the time he was issuing blanket denials of high-level knowledge of political-espionage plans.

And Sen. Robert Dole, R-Kan., past chairman of the Republican National Committee, said that, from his observation of "the players involved," it is entirely conceivable the Watergate plot could have been hatched without Nixon's knowledge.

The Washington Post reported, meanwhile, that the Nixon campaign committee spent \$8,400—mostly in \$100 bills—on a publicity drive aimed at fabricating bipartisan support for the President's decision last spring to mine Haiphong harbor.

It said \$4,400 was spent on a

"deceptive, apparently illegal" advertisement in The New York Times rebutting that paper's editorial position. The Post said that, although the half-page ad appeared to have been prepared and purchased by a nonpolitical citizens' group, it actually was paid for with Nixon campaign funds.

### TELEGRAMS

Stating the expenditures never were reported to the General Accounting Office as required by law, the Post said the campaign also included writing and paying for telegrams of support to Nixon as well as for rallies and an organized telephone campaign supporting the decision to mine North Vietnamese harbors.

The Post said the expenses were authorized by Nixon's deputy campaign manager, Jeb Stuart Magruder. It quoted an unnamed former Nixon campaign official as saying the

Committee for the Re-election of the President was "totally mobilized for the biggest piece of deception—we never do anything honestly."

"Imagine the President sending himself telegrams, patting himself on the back," the Post quoted the official as saying.

As the President flew back to Washington Tuesday night after a secluded four-day Florida holiday, White House Press Secretary Ronald L. Ziegler told newsmen aboard Air Force One that, although Nixon had conferred by telephone with Rogers, the two had not discussed Rogers' spearheading an effort to revamp the White House staff.

### RUMORS

ABC News had reported that Nixon had asked Rogers, a former attorney general and longtime presidential friend, to restore an "impeccable integrity" to the White House staff. State

Department sources also denied that report.

Ziegler said Nixon has kept in daily contact with Watergate developments and added: "There are all sorts of rumors, but the President has made no decision at all regarding staff resignations."

He was asked specifically if Nixon is considering seeking such resignations as one course of action, but declined to comment further.

Earlier, Deputy Press Secretary Gerald Warren said there was no involvement by the President in an alleged offer of executive clemency to convicted Watergate burglar James W. McCord Jr. and others who pleaded guilty or were convicted in the case.

McCord's account came in an apparent transcript of his secret testimony before the federal Watergate grand jury furnished The Associated Press by columnist Jack Anderson.

**SATURDAY REVIEW HALTS PUBLICATION**—Frederick S. Wyle, chairman of the executive committee of the Review's board of directors, said, "this is simply a reorganization. We are continuing in business, but we're simply suspending publication for the time being." This small solace to the staffers, many of whom had moved from New York when the magazine shifted operations to San Francisco last August.

## Bankruptcy Petitions Filed By Publishers

SAN FRANCISCO (AP) — Saturday Review's publishers said the four monthly magazines would suspend publication until completion of the reorganization under the federal Bankruptcy Act.

In New York, Cousins called the merger "a natural one" and tentatively set the first issue for early summer.

Cousins said the biweekly will be called "World-Saturday Review" until he withdrew from view. "Saturday Review of it in a dispute with the publisher of the World" or something similar in 1971.

END OF THE LINE — Construction worker appears to dangle from crane line at Chicago construction site Tuesday.

# Pot Possession Penalty Pared By Panel In House

AUSTIN, Tex. (AP) — After weeks of building up pressure in committee hearings and debates, marijuana reform laws rose like smoke Tuesday night.

The House Criminal Jurisprudence Committee voted 12-5 for a bill that would reduce first offense marijuana possession from a two-years-to-life felony to a misdemeanor punishable by up to six months in jail and a fine up to \$1,000.

A Senate Jurisprudence subcommittee voted 4-0 for an even more lenient bill. Possession of up to four ounces would carry a maximum jail term of seven days and a fine up to \$200.

**FOUR CHARGES**

The House bill now goes to the House floor for debate. The Senate bill goes to the full Senate Jurisprudence Committee for debate.

Four major changes were made in the House bill that once had, but may not now have, the support of Gov. Dolph Briscoe.

—The penalty is the same for any amount of marijuana.

—Persons previously convicted on marijuana charges could ask for resentencing.

—The state no longer would be required to seize and sell the car or other vehicle in which an offender carried marijuana.

**NO CRIME**

—Possession of marijuana paraphernalia such as pipes no longer would be a crime.

Briscoe has said he supports reduction of first offense marijuana possession from a felony to a misdemeanor but only as part of an over-all drug reform law that cracks down on pushers.

 4 ♠ Pass 4 NT Pass  
 5 ♠ Pass 5 NT Pass  
 6 ♠ Pass 6 ♠ Pass  
 Pass Pass

Opening lead: Nine of ♠

When North raised South's one spade response to four, which showed at least 20 points in support of spades, the latter had ample values to proceed to slam via the Blackwood route.

When North responded to four no trump by bidding five spades which accounted for all the aces, South then asked for kings.

North showed one king and South was obliged to sign off at six spades. If his partner happened to have a long diamond suit headed by —say the K-Q-J—then he might be in position to bid a grand slam himself.

West opened the nine of clubs against six spades. Although a heart lead would have placed heavy pressure against South from the outset, West is hardly open to criticism for his choice. The seven of clubs was played from dummy and declarer won the trick in his hand with the king and proceeded to draw trump in two pulls.

With 11 tricks in plain view, South observed that there were two chances to develop a 12th. An even division in diamonds would serve to establish dummy's long card in that suit, or if that didn't materialize, he could fall back on the heart finesse. Declarer played the ace, king and another diamond. East showed out on the third round, however, and West exited with the queen of diamonds. South took the heart finesse next, but suffered disappointment once more when East scored with the king of hearts for the setting trick.

West's opening lead provided declarer with a clue to the winning line of play. Inasmuch as the nine of clubs is clearly the top of nothing, East becomes marked with the queen of that suit. This makes it possible to keep West out of the lead while South is working on the diamond suit and provides him with an additional opportunity.

After drawing trump, it is suggested that declarer cash the two top diamonds, followed by the ace of clubs and then the jack. East covers with the queen and should be permitted to hold the trick while South discards his remaining diamond. If East has another diamond to lead, declarer ruffs in his hand. If diamonds do not divide evenly, he may still fall back on the heart finesse.

When East is in with the queen of clubs, however, he finds himself with no safe card of exit. If he leads back a club, it presents South with a ruff and discard. A heart return, on the other hand, is right into the ace-queen. In either case, declarer obtains his 12th trick.

## 20,000 ON PAROLE

But the resentencing amendment, approved by a 10-8 vote, was too much for Maloney. He asked that his name be removed as co-sponsor. Mattox will lead the debate for the bill on the House floor.

The resentencing amendment would affect more than 800 prisoners at the state penitentiary at Huntsville and 20,000 persons on parole, Mattox said.

However, it might infringe on the powers of the governor and the Board of Pardons and Paroles, he said, and the committee voted 14-3 to ask for an attorney general's opinion on it.

The committee rejected or tabled amendments that would: —Break down marijuana possession into amounts: up to 90

## Free Press Fuss Boils

By LOUISE COOK  
A-Associated Press Writer

The action in the conflict over a newsman's right to protect his sources has shifted from the courts to the legislative chamber.

Federal and state lawmakers are debating a wide variety of bills that would give newsmen partial or complete immunity from being forced to disclose sources of confidential information.

The House Judiciary Committee ended hearings last month on the subject of newsmen's privilege, and a subcommittee headed by Rep. Robert Kastenmeier, D-Wis., has met twice to try to reach a consensus.

**FOR EXAMPLE**

The Senate Judiciary subcommittee on Constitutional Rights, headed by Sen. Sam J. Ervin Jr., D-N.C., also held committee on constitutional lengthy hearings last month but has taken no action.

Most of the bills fall into two basic categories—one group provides newsmen with unequal immunity from testifying about their sources before any grand jury or legislative investigation; the other offers limited immunity.

In the House, for example, a bill cosponsored by five Republicans — William S. Cohen of Maine, Tom Railsback of Illinois, Henry P. Smith III of New York, Charles W. Sandman Jr. of New Jersey and Lawrence Coughlin of Pennsylvania — would provide absolute privilege for newsmen with regard to investigative proceedings before government

agencies, federal grand juries or congressional committees. It would provide only limited privilege in civil or criminal proceedings in federal courts. Newsmen could be required to disclose confidential information or sources if the court found that the material was relevant to a significant issue in the case and could not be obtained elsewhere.

**NEWS SOURCES**

Another House bill, introduced by John B. Anderson of Illinois, also a Republican, would give professional newsmen unqualified protection from federal or state court orders to reveal confidential news sources or information. Anderson said any qualifications in a press shield bill would provide loopholes for attorneys on "fishing expeditions."

The American Newspaper Publishers Association and other press groups have urged approval of an unqualified shield law.

Congressional sources say, however, that chances for such a measure are slim. "They're not going to get anything strong out of the subcommittee," said Lawrence Basker, counsel to the Senate subcommittee. Ervin said earlier, "I don't believe Congress will pass an unqualified privilege bill."

The U.S. Supreme Court ruled last year that the First Amendment to the Constitution does not give newsmen a special exemption from testifying before a grand jury about information gained in confidence. Several reporters have gone to jail for contempt of court rather than disclose their sources.

## Law Requires Registration

Col. Melvin N. Glantz, state director of Selective Service for Texas, has issued a statement reminding young men of their responsibility under federal law to register with Selective Service. This is incorrect," Glantz said.

"The recent nationwide announcement that the draft has ended has misled some of our young men into thinking they no longer are required by law to register with Selective Service. This is incorrect," Glantz said.

The state director pointed out the fact that Selective Service is being reorganized into a stand-by operation to keep draft machinery operative and ready in case of a national emergency that requires the drafting of young men again in the future.

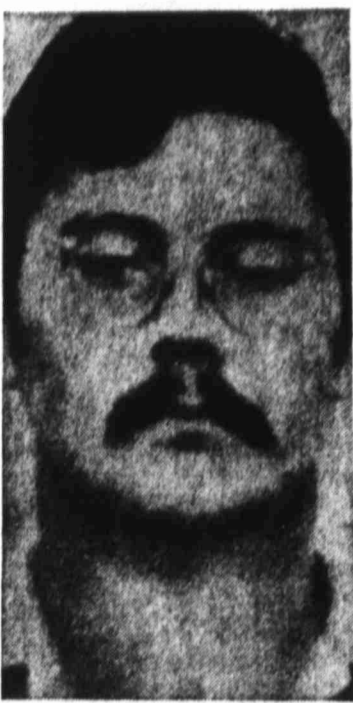

He pointed out that although inductions have ended — the Selective Service System continues to operate and the law continues to require each young man to register with Selective Service within 30 days before or after his 19th birthday.

Failure to register makes a young man subject to prosecution under Federal Law with a severe penalty upon conviction.

Registrars for Local Board 71 in this area are: Mrs. Billie Barron, Room 207, County Courthouse; Grady Tidol, Coahoma High School; and Herbert D. Smith, Forsan High School.

### On Dean's List

Chris Edward Creighton, son of Mr. and Mrs. Merrill Creighton, earned a place on the Dean's Honor List for the fall semester at Baylor University. He rated over 3.60 on a 4.0 scale while taking over 16 semester hours of credit work. Chris is a graduate of Big Spring High School.

**SUSPECT** — Edmund Emil Kemper III, above, of Aptos, Calif., was arrested in Pueblo, Colo., Tuesday while telephoning Santa Cruz, Calif., police and allegedly confessing that he had killed his mother and a woman visitor. Police had traced the call and arrested him while he was still talking. Pueblo authorities said Kemper, 24, 6 foot 9, and 280 pounds, told them he had killed six other women in the Santa Cruz area. Dist. Atty. James R. Henhart of Madera, Calif., said that when Kemper was 15 he shot and killed his grandparents.

## Forest Service Office In Albuquerque To Close

ALBUQUERQUE, N.M. (AP) — U.S. Forest Chief John McGuire said Tuesday the regional U.S. Forest Service office in Albuquerque, with its estimated 300 housekeeping employees, will be closed by July 1974.

McGuire told a news conference the phaseout will affect regional offices in Missoula, Mont., and Ogden, Utah, as well as experimental stations at Ogden and Asheville, N.C.

About 1,000 employees will be affected for an annual savings of \$10 million to \$12 million, McGuire said.

He said close to \$2 million would be saved by closing the Albuquerque office.

The reorganization is part of an administration plan to have federal agencies conform to standard regional boundaries.

McGuire said the New Mexico region, which also will include 12 southern states, will be headquartered in Atlanta, Ga.

He said Atlanta was chosen because "we already had people there and it was cheaper not to move them."

He said the Albuquerque office would retain most of its other Forest Service functions, principally research.

The new region will include some 20 million acres of land administered by the Forest Service. Nine million acres are in New Mexico.

New Mexico will share the Atlanta-based region with Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Kentucky, Tennessee, Alabama, Georgia, Florida, South Carolina and North Carolina.

## Good Investment

The "main event" of this session of the Texas Legislature is now under way with House debate on the \$9.7 billion spending bill for 1974 and 1975.

Size alone does not determine the importance of its items. For example, one item that takes less than 2 cents out of every \$100 to be spent is so important to the pocketbooks of the people of Texas.

This is the appropriation for the Texas Tourist Development Agency which is asking for \$1.6 million for the two years, an increase of \$500,000.

Since the establishment of the tourist agency in 1964, spending by Texas visitors has increased an average of 15 per cent each year. It topped \$1.8 billion in 1971, the last year for which detailed figures are available.

For the state government itself, it's a good deal. Estimates are the state collected \$165 million in taxes from visitors in 1971.

Increasing the money put into this profitable effort would seem to be smart business.

It's smart business, too, for operators of service stations, motels, restaurants, etc. to follow up on the work of the Tourist Development Agency. For instance, it has distributed 245,000 red, white and blue decals proclaiming "Visitor to Texas." Smart operators will see that all customers are treated courteously, but we all should go the second mile to let these out-of-staters know Texas is happy to have them.

## Beautiful Dreamer

This week's Beautiful Dreamer Award goes to Rep. John Myers (R-Ind.) who is pushing legislation to collect money owed the United States by foreign governments.

Myers wants quarterly reports on these debts

totaling \$46 billion and negotiations for prompt repayment of delinquent debts. This would be great for our national budget deficit, trade deficit and balance of payments deficit.

Judging on past performance, it will only remain a beautiful dream.

## Time To Turn

### Around The Rim

Joe Pickle

Come Sunday, you turn up your clock and swing on to six months of Daylight Savings Time. For some this is confusing, despite the jingle "spring forward" (turn your clock up an hour in the Spring) and "fall back" (turn it back in the Fall). But if you think this is confusing, consider that less than a century ago nearly everyone had his own time, presumably based on the sun. In the United States for instance, there were about as many times as there were cities and hamlets.

**THE MEASUREMENT** of time stems from two celestial phenomena — the revolution of the earth on its axis (days) and rotation of the earth around the sun (years). Obviously, when the earth has made one revolution, that is a complete day. But where does measurement of time begin and how?

Greenwich, England being on the 0 meridian, is the accepted point. There came to be general agreement that when the sun crossed a meridian (which mark the earth's longitude), that precise moment was noon. So every community (theoretically) sets its own noon.

**LATER THE** beginning of the day was conceived to be 12 hours after "noon," hence midnight. But this did not cure the confusion of times as the sun sped westward, especially when railroads came into being and speeded movement of man.

In May 1872, according to Santa Fe News, an association of railroad superintendents was formed at St. Louis and became the Time-Table Convention, the General Time Convention and eventually the Association of American Railroads. Oct. 11, 1883, the General Time Convention at Chicago voted to adopt Standard

**THE COUNTRY** was divided into five primary time zones starting 90 degrees west of Greenwich with Atlantic time, the 75 degrees (Eastern), 90 degrees (Central), 105 degrees (Mountain), and 120th meridian (Pacific). Eastern corresponded roughly with the Philadelphia meridian, Central with Memphis, Mountain with Denver, Pacific with Fresno, Calif. It was simple: when you crossed the time zone line, just change your clock an hour. Interestingly, this was all done on a voluntary basis without any necessity of federal law, which nevertheless became a reality May 19, 1918 with passage of the Standard Time Act.

**THIS SAME** act also provided for "daylight saving" time as a move to conserve fuel, the nation being in the midst of producing everything it could for its World War I effort. That extra hour of daylight in the evening (it didn't do much good in the morning before people had started to work) enabled more to be done with less drain on electric power resources. Anyhow, the idea has persisted until it has become generally accepted, although there are those who equate it with atheism and idiocy.

**WHICH BRINGS** me to an anecdote recalled with great glee by the late Wayland Yates. A befuddled patron called the paper one Saturday evening hours before the Sunday morning date to change. Wayland explained that the official moment was 2 a.m., then, making conversation, said "just turn your clock up an hour before you go to bed."

"You mean you don't have to get up at 2 o'clock and change it?" said the relieved voice.

## Matter Of Time

Robert E. Ford

That most controversial day of the year is approaching like a galloping horse.

It is the day when drive-in movie operators, for instance, shake their fists at the sun and demand that it set earlier.

**IT EVEN** causes one of the Texas Legislature's more conservative members to engage admittedly in civil disobedience.

For on April 29 — always the last Sunday in April — most of the nation goes on Daylight Saving Time.

So at this point everyone asks — do you set your clock forward or backward?

The rule: Spring forward, fall back. As any worker will tell you, it's great to get off that first Monday in what seems like the middle of the afternoon — it's as joyous as sneaking off early when the boss isn't looking.

That is, it's a nice feeling unless he is facing an extra hour of yard work when he gets home.

**DAYLIGHT SAVING** Time remains in dispute even after all these years. A drive-in movie operator once said he had to start showing those comic films because children couldn't stay up late enough for the regular picture fare and he had no customers for them.

It must be hard on farmers, too, if they will arise at 4:30 a.m. and work until sundown. That's an extra hour of labor.

Pros and antis have argued their position well before various public bodies.

Yet the people who should be at the hearings and sounding off their industries and Daylight Saving are lawn mowers and lawn fertilizer manufacturers, hobby shops and fishing and boating-related companies. The extra hour is good for work around the house or outdoor recreation and thus money in the pockets of some people.

A NEW proposal popped up in Congress this year. This one calls for Daylight Saving Time all year, not just in the summer.

This approach came from Rep. Craig Hosmer, R-Calif. His argument is that year-round DST would help the fuel crisis since all those workers in government buildings would not have to keep the lights on so long.

You could have fooled us. Didn't know government workers labored that long and late.

Another of Rep. Hosmer's arguments is that there will be fewer muggings if people can get home in daylight hours.

This is based on the theory that no respectable mugger would start work until darkness descends.

**IT IS SURPRISING** that the candlemaking industry hasn't fought Daylight Saving Time tooth, nail and wick.

For instance, suppose you plan a romantic candlelight dinner. Under DST you may have to wait until 10 o'clock at night for the candles to be noticed. By that hour, everyone is ready to forget the whole affair and settle for a bite at the nearest hamburger joint.

## MY ANSWER

Billy Graham

I read your column regularly, but I do not understand the Scripture given today. "We know that whosoever is born of God sinneth not." Now, a sinless person would be perfect, wouldn't he? Didn't Jesus say "there is none good but God?" Please clarify this.

O.S. It is often said that when a person claims to be sinless, you had better claim with his spouse or business associates. Obviously, there would be no more foolish claim a mortal could make than to say that he or she is without error.

The Bible says there was only one person who ever lived who was sinless. That was Jesus Christ. If you read the Bible carefully, you will discover sinlessness is never ascribed to anyone else.

Even Paul, a great follower of Christ said he was the chief of sin-

ners. Peter, denied Christ, and even cursed his Lord. John, the beloved disciple wrote, "if we say we have no sin, we deceive ourselves." (1 John 1:8)

The quotation in your question comes from the third chapter of 1 John. Perhaps the best explanation arises out of the errors that John was attempting to combat. He has false teachers in mind. These were people who suggested a man might be righteous even though he did wrong. John declared then absolute opposition between sin and holiness, between lawlessness and righteousness. He is saying that if we have our hopes set on Christ, we will strive to be like Him in His own "perfect" relationship to God.

The happiest thing I can say in a crusade is that there is hope and forgiveness for sinners. I hope you've discovered that too.

## A Devotion For Today..

"The word of the Lord abides for ever." That word is the good news which was preached to you. (1 Peter 1:25, RSV)

PRAYER: O God, we thank Thee for the assurance of Thy constant care and guidance. We look to Thee in these troubled times for help and courage to proclaim the good news of salvation through Christ. In His name. Amen.

## Ace In The Hole

Marquis Childs

WASHINGTON — Mr. Nixon has a lot of time before he packs his bags for that projected European tour. In the interval a great deal must be done if it is to be anything more than a television spectacular with prime ministers and presidents as the supporting cast for the American star.

**FIRST AND** foremost on the agenda must be the effort to negotiate an agreement covering the export of American farm products to Western Europe. If the Common Market countries, with France and Germany calling the tune, hold out for barriers against low-cost American feed grains, the hope of any equitable trading arrangement will be out the window.

Nor can this be done by personal diplomacy at the summit level. Hard, intensive preparatory work is essential if any settlement is to be arrived at. American farm production is the ace in the hole in the tough poker game aimed at reversing America's disastrous trade deficits, which over two years have amounted to \$9.5 billion.

AS AN emissary of good will the President can counter a rising tide of suspicion and distrust. One reason is the Vietnam war. The Christmas bombing of North Vietnam started a new wave of distrust of America's motives. An interesting footnote is Sweden. On Dec. 23, as the bombing of the north reached a crescendo, Prime Minister Olof Palme compared President Nixon's action to the genocide ordered by Hitler against the Jews, Poles and Russians. This outraged opinion not only in this country but among many Swedes.

The then Swedish Ambassador Hubert de Beche was called in by Under Secretary of State U. Alexis Johnson and informed that on direct orders of the President a new ambassador, expected to replace De Beche, would not be received. Furthermore, the No. 2 American in Stock-

holm, John Guthrie, acting since the retirement of Ambassador Jerome H. Holland, would be recalled.

**IN ONE OF** his biting, satirical columns Art Buchwald described the President's concern over the fact that America no longer had any enemies. China was now arms around the neck; Russia was on the way to being a working partner; Cuba, well, Cuba would hardly do. So he set one of Henry Kissinger's aides to come up with a suitable enemy. The answer was Sweden — an enemy anyway you looked at it — pornography, socialism, neutrality, the gamut of emotions guaranteed to raise the hackles.

The immediate reaction in Sweden was to increase Palme's popularity in the polls. Nevertheless the guessing is that he will be defeated in the elections in September.

**THIS IS,** of course, a footnote reflecting presidential pique as much as anything else. The undercurrent of resentment on the continent is a matter for real worry. In West Germany Chancellor Willy Brandt had to use all his authority and his skill in political maneuver to quiet a revolt at the Congress of his Social-Democratic party. The young leftists staging massive demonstrations in Bonn insist the Brandt government stop underwriting the presence of 220,000 American troops in Germany 25 years after the end of World War II.

This is a beautiful illustration of action and reaction on both sides of the Atlantic. Influential officials here, not least among them Senate Majority Leader Mike Mansfield, want to cut back or withdraw entirely the U.S. forces in Germany.

A TOUR of Europe means extensive coverage on the nightly news shows. But will it mean any improvement in the present deteriorating relationship between the two worlds? (United Feature Syndicate Inc.)

## SETTING IMPORTANT ENOUGH TO WAG THE DOG!

## You Can Go Home Again

Hal Boyle

NEW YORK (AP) — You can't go home again — with one exception.

The exception is memory.

In memory you can go home anytime by a thought. In fact, you are at home there all the time. Memory is man's chief home actually. He dwells there longer than he does in any hut of wood or mansion of marble or brick.

And your own memory house has a lot of rooms in it if you can look back and remember when —

Nothing was longer or lovelier than a nice summer day.

You could get to work quicker on a 1920 streetcar than you can drive through traffic and find a place to park now.

When you saw someone walking fast, you figured he must have a real emergency. The normal pace of life was slower.

A policeman could spend his whole career on the force and retire without ever having given out a traffic ticket.

No matter how big your family was, you were expected to know who all your cousins were — and keep track of what happened to them. Blood was a lot thicker than water and kinkfolk felt more responsible for each other.

A gang of boys felt cheated if they caught and killed some innocent snake and found it had no rattles at the end of its tail. But they still thought they had done the world a favor. There was to them no such thing as a guiltless snake.

But children themselves never felt entirely guiltless either. There were so many precepts to guide them: that they always were in violation of some. Even when they had to go to the dentist they felt it must be because

they had unconsciously done something wrong.

You could tell a grandmother by the way she looked and dressed.

If the head of a family could afford to buy a new suit every two years, he was doing pretty well.

When a man died, his clothing wasn't sent to the Salvation Army. It was passed on to his son or divided among his "poor relations."

A man with \$100,000 was a kind of magnate, and he could live well off the income from it the rest of his life without working. And raise a family on it, too.

Women weren't formally liberated, but they were more admired, respected and deferred to than perhaps they are now.

Those were the days — remember?

## 'Hyperlipoproteinemia'

Dr. G. C. Thosteson

Dear Dr. Thosteson: I would appreciate a few words on "hyperlipoproteinemia." I am 60, recently had a complete check-up and the doctor said it was the only thing wrong with me. I don't really understand its meaning. — V. M.

If that's all the doctor could find wrong with you at 60, congratulations. Not that you shouldn't do something about the hyper-etc., for the sake of your long-term health.

Let's break down that jaw-breaker of a word into chewable mouthfuls. "Lipo" means fat. In this case, it's the fatty substances that are present in the blood — cholesterol, triglycerides, or fats in combination with protein, which are "lipoproteins."

All this is normal. But the "hyper" on the front end of the term means that you have amounts that are above normal.

Since excessive blood fats appear to play a part in hardening of the arteries (and the ailments that go with it), you would do well to get the levels back down to normal. And since you have no other health problems, this shouldn't be difficult to do.

There's one technical point. There are five classifications of lipoproteinemia, depending on which of the various fatty substances is dominant.

A special battery of tests (not too extensive or costly) can be run to determine which classification you are in, and what treatment program is appropriate.

Treatment often consists of — nearly always includes — restrictions of saturated fats and — or carbohydrate. This generally means limitation on total calorie intake.

Dear Dr. Thosteson: I have had these cast iron skillet for 30 years. Now my husband is retired and all he does is sit and watch TV or when he can't sit still he goes through my cupboards looking for I don't know what.

Then he goes through my pots and pans and says it causes cancer cooking in them because when you wash them there's black on the towel, and he says that's what gives cancer. Are they harmful to cook in? — M.B.D.

I'm sorry for both of you — he's bored stiff when he has to go picking on your innocent skillets, and you aren't exactly happy having him do it.

Iron skillets don't cause cancer, but just convincing your husband of that (if you can do it) isn't going to solve your troubles. As long as he's that bored, he's going to find something else to fuss about. The real cure is for him to

get interested in something. Doesn't much matter whether it's whittling, going down to the fire station to play checkers, etc.

Dear Dr. Thosteson: I have read that ultrasonic rays have been used with good results for arthritis. Would I have to get the treatment from a doctor or could I buy the lamp and use it at home? — Mrs. J. S.

They aren't rays, as from a lamp. They are high-frequency sound waves, produced by a special instrument as a means of inducing heat deep in the tissues, instead of just on the surface.

The treatment has to be administered by an expert in its use. Excessive exposure (and excessive heating) can cause damage. It distinctly is NOT a do-it-at-home technique.

Arthritis sufferers can be helped. Dr. Thosteson's booklet discusses many types of arthritis and related joint diseases as well as effective treatments and medications. For a copy of "How You Can Control Arthritis" write to him in care of the Big Spring Herald enclosing 35 cents in coin and a long, self-addressed (use zip code) stamped envelope.

# NSA Chooses Boss Of Year

Louis G. McKnight, district manager of Equitable Life Assurance Society of the United States, was named Boss of the Year during the 22nd annual Secretaries Week dinner held Tuesday at Big Spring Country Club. The event is sponsored by the local chapter of National Secretaries Association, which also chose Mrs. Joseph Miller as its Secretary of the Year.

McKnight's winning nomination was submitted by Mrs. Conny Wade who wrote, "The key to this man's success lies in his strong feeling of faith, faith in his God and faith in his fellowman as well as devotion to his family and consideration of his co-workers."

A graduate of Texas A&M University with a BBA Degree, McKnight served one year as a second lieutenant in the Air Force and began his business career with an oil field supply business, making Big Spring his home base.

As an active worker for the community, he has held several officer posts with the Jaycees, been a member of the local traffic commission and served on the board of the Kiwanis

Club. At Big Spring State Hospital, he has been chairman of the Circuit Riders Program and an officer of the corporation formed to solicit funds for the Tollett All-Faith Chapel. As a churchman, he is a deacon in the First Baptist Church where he is church training director and active in other areas. He is past president of the Moss Parent-Teacher Association and has participated with his son in the Y-Indian Guides.

Mrs. Miller, who received her honor by vote of the membership, is the wife of SM. Sgt. Joseph Miller of Webb AFB. Beginning her secretarial career during World War II in Washington, D. C., she returned to her family, returning to work in 1957 as a secretary to the management analysis officer, PACAF Hqs., then based in California.

Her business career has meant moving a great deal because of her husband's military career. Through the years, she has been secretary to numerous high-ranking military officers. Currently, she is secretary to the director of personnel, Webb AFB.

Active in the NCO Wives' Club and other base and community organizations, she was recently named Military Wife of the Year nominee from Webb AFB and served two terms as NCO Wives' Club president. Mrs. Miller said she has found membership in NSA to be one of the most rewarding experiences in her career. She has been membership and publicity chairman as well as recording secretary for NSA. She enjoys cooking and bowling.

Sgt. and Mrs. Miller are parents of a son, Jerry, and a daughter, Peggy.

NSA AWARDS—Louis G. McKnight, named Boss of the Year by the local chapter of National Secretaries Association, is shown with Mrs. Joseph Miller who was selected Secretary of the Year.

## Five Join Local Rainbow Group

Five new members were initiated Tuesday evening by the Order of Rainbow for Girls, Assembly No. 60, at the Masonic Temple.

They are Yolanda Goodblanket, Judy Mauppin, Renie Thomas, Marta Whitten and Drucilla Gilbert. Instruction was given to the new members by Susan Smith.

Kay Williams, worthy advisor, presided. It was announced there will be instruction from 9:15 a.m. to 2:30 p.m., May 5 in Odessa. Those attending are to bring a lunch and wear a dark skirt and white blouse. The local girls will meet at 8:15 a.m. in the Hemphill-Wells parking lot, and travel to Odessa as a group.

Zina Johnston announced a bake sale May 19 at Highland Center Mall. In other business, awards were given to Mary Sayers and Kay Sayers for selling the most balloons during the Easter Seal balloon drive. Jodi Grant made the presentation.

Guests were Mr. and Mrs. Jimmy Mauppin. Refreshments were served by Mrs. A. L. Segrest, Mrs. J. A. Patterson, Sidney C.ow and Emily Boyd.

## Beauceants Aid Eye Foundation

The Social Order of the Beauceant made a donation to the Knights Templar Eye Foundation during a meeting Monday evening at Masonic Temple.

Mrs. Ralph La Londe, president, presided. It was announced that Beauceants and Knights Templars attended Easter worship services Sunday at Wesley United Methodist Church.

Refreshments were served by Mrs. Alden Ryan, Mrs. Tom Helton and Mrs. Hattie Everett.

The next meeting will be May 4.

## Weekend Bore

Dear Abby  
Abigail Van Buren

DEAR ABBY: Neil and I have been married for three years. It's the second time around for both of us and I am determined to make a go of this marriage. Neil is 33 and I'm 50.

My problem: Every weekend Neil wants to entertain another couple on our boat. The other couple always turns out to be a cute young female employe and her husband.

Now, I can see that the purpose of these weekend outings is to impress the new employe. But last weekend was the last straw. The girl (about 22) wore skintight pants and sheer blouse, to show off her figure, which was beautiful. (I am not bad for my age, but I can't compete with that.) My husband kept calling her "Honey," "Doll," and "babe." The young husband sat like a

bump on a log and tried to make small talk with me. Should I go along with entertaining such couples? We have plenty of friends our own age, but my husband prefers these kids. Please advise me.

JEAOUS IN NEWPORT

DEAR JEALOUS: Tell your husband that if he wants to entertain his employe, you will go along with an annual Christmas party, but weekends on a boat with that kind of foursome is boring.

DEAR ABBY: My first letter to any kind of newspaper, but I feel so strongly on the question raised by "Dad in Hackensack." I must express myself. Believe me, the money loaned to anyone in a family (or a friend for that matter) should be accompanied by a cold hard note. It may seem unfriendly, but once it is an established fact, it is the most friendly way to handle a loan, and avoids a lot of problems in the future.

When my husband and I borrowed from our parents, it was a businesslike only 3 per cent interest, and it was all on paper in case something happened to any of us.

I know elderly people who have only their Social Security to live on because they foolishly "loaned" their own children money, never dreaming they needed a note, and of course they never got one penny back.

Please print this, Abby. Some people are much too trusting.

PASADENA PARENTS

## Forsanites End Visits In Area

FORSAN (SC) — Mrs. L. B. McElrath, who recently attended the wedding of her grandson, Buster White, in Austin, was accompanied home by Mr. and Mrs. George White and son of San Angelo.

The Pat Bruntons have returned to their home in Skitook, Okla., after visiting the T. R. Camps.

Recent guests of Mrs. M. M. Fairchild were her daughter, Mary Ann Digby, and Teresa Digby, both of Odessa; and Mrs. Louise Webb of Jal, N.M.

The Boyd Braweyes of Odessa have been guests of the L. S. Camps.

J. W. Overton, who underwent surgery Friday, is due to leave Medical Center Memorial Hospital today.

Guests of Mrs. H. H. Story have been the Robert Stroms, Glenn Stroms and Mrs. Bob Scott, all of San Angelo; the Stockton Cannons and Mrs. Era Lee Davis, all of Menard; and the Jeff Barbers, Midland.

## Mrs. Lamar Green Honored By Xi Mu

Mrs. Lamar Green was named Girl of the Year for Xi Mu Exemplar Chapter, Beta Sigma Phi, at a dinner meeting Tuesday at the American Restaurant. The

award was presented by Mrs. Oscar Johnson.

New club officers were installed by Mrs. Don Bailey, outgoing vice president. The new slate includes Mrs. Green, president; Mrs. Bill Stockton, first vice president; Mrs. Don Statham, second vice president; Mrs. Gerald Wooten, secretary; Miss Beverly Jones, treasurer; and Mrs. Bill McDonald, corresponding secretary.

Members will meet again at 8 p.m., May 22 at First Federal Community Room.

## Origin Told Of African Violets

The African Violet is not, in fact, a violet, according to Mrs. O. S. Womack who spoke recently to Texas Bouquet African Violet Club in the home of Mrs. C. Y. Clinkscales, 705 W. 18th.

Mrs. Womack said the African Violet is related to the viola and since it originated in Africa it acquired its name. Many strains of the African Violet were originated by Germans.

The main method of propagation for the African violet is leaf rooting, and Mrs. Womack said a leaf can be re-rooted more than once, thereby giving off more plantlets. She said new plants should be left on until four to six leaves appear, and then moved to smaller pots.

Crisp foliage denotes a good healthy plant. Mrs. Womack said newly purchased plants should be isolated from others for a few weeks until it is determined the plant isn't diseased. This will keep a diseased plant from spreading to other plants.

Mrs. Clinkscales presided, and Mrs. Womack was introduced by Mrs. Adrian Westbrook. The group will meet for a luncheon in May at the Big Spring Country Club, date to be announced. New club officers will be installed.

## Club Sees Terrariums

The art of making terrariums was demonstrated Monday evening by Mrs. Ruby Bruns of D&M Garden Center, guest speaker for Howard County Young Homemakers.

Mrs. Bruns said a terrarium should have from one to three inches of moist soil, and that almost any type of flower can be used. She suggested ceramic figurines and animals for accents, as well as colored gravel and moss around the edges.

As she made a terrarium for the group, Mrs. Bruns said some terrarium jars come with lids, but that a clear plastic wrap can be used to make the garden air tight. She said experiments have shown that all dried or all fresh flowers can be used, but that the two should never be combined in a terrarium.

The meeting was held in the home of Mrs. L. R. Saunders. The group will meet for an ice-cream social at 7:30 p.m., May 3 in Birdwell Park.

## Have Right Attire For Honeymoon

Planning a honeymoon by car? Be sure to include a lot of attractive "play clothes," casuals and well-fitted jeans along with the trousseau items.

And be sure to have at least one long hostess gown or festive blouse and skirt that can be worn for special dinners with candlelight and wine in public places, and for evenings alone together on a balcony or strolling on a beach or watching television.

## McCRORY'S Baby Portrait Special!

Thursday — Friday — Saturday  
April 26, 27, 28

## A BODY NEEDS A LITTLE EXERCISE

It's true. Muscles that don't get exercise get weak. Then they get soft. Then a few extra pounds creep in. Pretty soon you're in trouble with your figure. It doesn't take a lot of exercise to keep trim and fit—but it does take the right kind of exercise. Magic Mirror has the right kind, with great machines, "Happy Hour" group workouts and professional advisors to guide your fitness program. Do a body a favor. At Magic Mirror.

MEETS MISS APRIL EASTERDAY—Little April Easterday made her debut into the world, appropriately enough, on Easter Day. The proud parents are Mr. and Mrs. Dennis Ray Easterday of Houston. April weighs 7 pounds 1 ounce.

Cooler Air Spreads In Northwest Texas

Maintaining an almost daily pattern, showers with sometimes heavy thunderstorms mixed in kept parts of Texas under siege today. Cooler air was spreading slowly across Northwest and North Central Texas, meanwhile, with a little added push. It followed a weak frontal system which had moved southward across the southeast and central parts of the state near the coast.

There also were showers from around Temple to near Palestine and from close to Junction toward Killeen in the state's midsection, and will other scattered showers near Galveston on the coast.

Skies were generally clear over North and West Texas aside from the shower areas while low clouds and fog covered the south and east parts of the state.

One of the more severe thunderstorms pummeled the countryside around Idalou, 15 miles northeast of Lubbock, and radar spotted a tornado about five miles northeast of Idalou before midnight. There was no report of damage.

Temperatures reached early summer levels at some points Tuesday afternoon, climbing to 91 degrees at Cotulla, 92 at McAllen and 93 at Del Rio. Amarillo was the coolest spot with a high of 68.

Readings early today ranged from 43 at Dalhart up to 74 at McAllen.

By The Associated Press

National Weather Service observers spotted storms they described as intense here and there among thundershowers from southern portions of the Panhandle-Plains sector into West Central Texas. Hall accompanied the storms in some localities.

U.S. PRESSURE

Lon Nol Says He Will Share Power

PHNOM PENH, Cambodia (AP) — In another apparent concession to the Nixon administration, President Lon Nol announced Tuesday night that he will share power with three of his chief anti-Communist opponents.

The president said he also was suspending for six months both the National Assembly and the Senate, which were dominated by his Social Republican party.

Lon Nol said he was creating a "high political council" made up of himself and the three most important opposition politicians in Phnom Penh—former Premier Sisowath Sirik Matak; In Tam, former president of the National Assembly; and Cheng Heng, who was chief of state after the coup three years ago in which Lon Nol and Sirik Matak overthrew Prince Norodom Sihanouk.

"This committee's main function will be to help the president lead the country," Lon Nol said.

In Tam, leader of the Democratic party, said the purpose of the council was to broaden the political base of Lon Nol's one-party government and unite Phnom Penh's rival political forces. He said he, Sirik Matak and Cheng Heng were "very satisfied" with the new distribution of authority promised by the president.

Sirik Matak heads the Republican party.

The Nixon administration hopes that the Communist and pro-Sihanouk guerrillas who now control most of the country will agree to cease-fire negotiations with a broader-based regime.

Following the cease-fires in Vietnam and Laos, the Nixon administration has been under increasing pressure in the U.S. Congress to abandon Lon Nol and stop the bombing by the U.S. Air Force that is the chief factor preventing a Communist military victory.

Washington has been urging a sweeping reorganization of the Phnom Penh government to bring in other factions since the antigovernment guerrillas have said repeatedly they would never negotiate with Lon Nol.

POWER STRUGGLE: The chief obstacle to the broadening of Lon Nol's regime has been his younger brother and chief adviser, Brig. Gen. Lon Non, who bested Sirik Matak in a power struggle 13 months ago. Last week the government announced that Lon Non had been dropped from the cabinet and would go to the

United States on an official visit, but there was much doubt among Western observers that he was bowing out of the political scene.

Communist forces drove government forces from two more posts Tuesday on opposite banks of the Mekong River 28 and 30 miles from Phnom Penh and shelled the navy base and ferry crossing two miles farther down the river at Neak Luong, along with four nearby posts.

Communist attacks also were reported on Highways 2 and 3 to the south coast and Highway 5 to the northwestern rice country.

## Tom Mix Needs Help Of Visitors

DEWEY, Okla. (AP) — For a generation, Tom Mix, the "good guy" of Western movies, triumphed over all his enemies. But an effort to keep his story alive has fallen on hard times in this small northeastern Oklahoma town. Unless more visitors can begin attending the Tom Mix Museum, it faces being closed.

Mix, a native of Dunford, Pa., and his horse, Tony, were movie heroes when many of the present establishment were children. He died in a 1940 car crash in Arizona.

Before his movie days, he had been a marshal in Dewey. "What it boils down to, is that we must attract more attendance at the door or sell off what we own to take care of the present indebtedness," Bill Halter, president of the museum's board of directors, said today.

The \$250 monthly rent on the neat-looking building is past due, utility bills keep pouring in and there's a note at the bank that needs attention.

Fortunately, landlord Ray Bowersock is "understanding" and banker Glenn Schubert is on the museum board.

A lot of wooden white hats are being made by a shop class at Dewey High School as advertisements.

The markers will be put up over the countryside leading to Dewey, according to Halter.

What it amounts to is that unless 10,000 persons have visited the museum by September, the museum will be closed.

## News: Man Is Hit By Brick Wall

JACKSONVILLE, Fla. (AP) — Paul Jones, 22, told police he was driving along minding his own business when his station wagon was hit by a brick wall.

An investigation by police officers showed Jones' vehicle indeed was struck when a line of old buildings being demolished collapsed, sending hundreds of bricks flying into the street.

Jones was not hurt, but the rear roof of his station wagon was crushed.

Puzzle of Tuesday, April 24, Solved

# Base Closing Rocks Playground Of Rich

NEWPORT, R.I. (AP) — A banker expresses optimism for the future. But grocers, gas station owners, shopkeepers and others who relied on Navy business are gloomily awaiting the worst.

Newport, the fabled playground of millionaires and socialites, has been rocked by a Pentagon order that will wipe out nearly 14,000 military and civilian jobs at the Newport Naval Base.

### ANGER

Though other military installations in the area will remain in use, the transfer south of men and ships from the Newport base will mean the loss of an annual payroll of \$116 million. That is half the total wages of Newport and the two other communities on the 44-square-mile island, Middletown and Portsmouth.

The cutback is scheduled to be completed by July 30, 1974. Navy schools and laboratories at Newport will not shut down, leaving several thousand men at the base.

As news about the cutback sinks in, anger and anxiety replace the initial wave of disbelief.

"I'm so mad," says Mrs. Morton Socks, whose husband says he will have to close one of his two men's shops that cater to the military. "There is no cut in military. There is no cut in defense spending, they're just shifting everything elsewhere."

Harold and Peter Petropoulos, owners of a camera store, say they expected cutbacks as the war wound down "but they hit us with a home run rather than a double. This is the Pearl Harbor of Newport."

### NO SALES

The sales manager of a large real estate firm says that, since the cutback announcement a week ago today, "it's just a story of one cancellation after another. The market has gone absolutely stone deaf. There's no phone calls for sales."

In nearby Middletown — where a string of gas stations, car washes, hamburger joints and two shopping centers have grown up outside the Navy's gates — a clerk for a dry cleaner says, "We're going to suffer. We probably won't be here next year."

The future looks equally bleak to furniture store owners and used-car dealers, who do up to 80 per cent of their business with the Navy.

A developer already has cancelled plans to build a new \$10 million shopping center near one of the base's areas.

William A. Perry, president of the Newport National Bank, says marginal business probably will go under and Newport into industrial areas.

"It's going to depress it for

while, but it's going to bounce back," he says emphatically. "If you have a labor force available, industry will come in."

## FRESH FUEL FOR FEMINISTS

MEDFORD, Mass. (AP)

Anthropologist Ashley Montagu says his studies have convinced him "that the female in the human species is in all respects superior to the male."

Montagu told an audience of some 300 faculty and student members at Tufts University that the female "is very much more resilient, more able to take stress and strain."

This includes, he said, "the biggest strain of all, running the American household."

Women, said the London-born anthropologist, do not suppress their emotions as do men.

Men, by suppressing their emotions, develop acne, "wheezes and whines," ulcers and nervous disorders, he said.

"For every female who became a psychological casualty in World War II, there were 70 males," he said.

## A Little Bottle Goes A Long Way

PETALUMA, Calif. (AP) — The bottle Jack Brewer tossed into the Pacific Ocean at Pt. Reyes on the California coast 18 months ago has been found in the Philippines.

Jack, a 15-year-old Petaluma High School student, reports he recently received a letter from Cecilia Escuyos, who said she found the bottle and its note on a beach near her home.

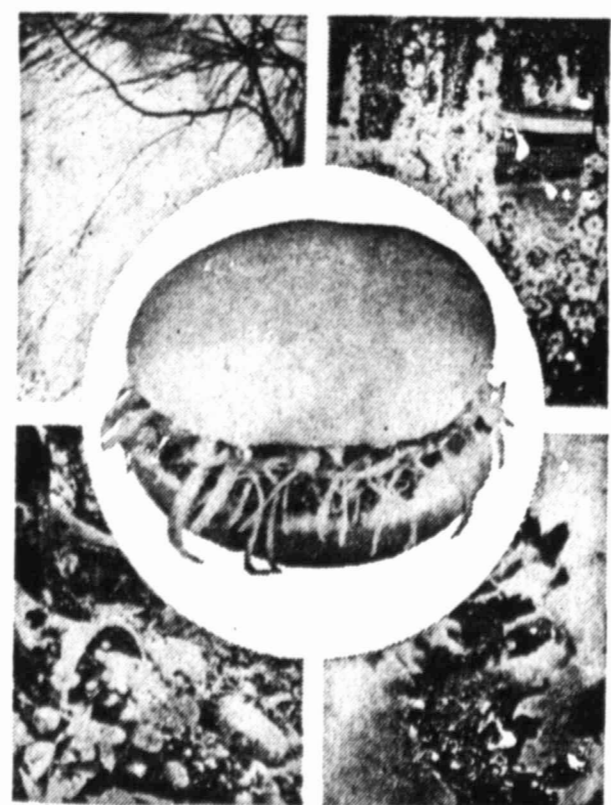

Cecilia wrote that she lived at Pilar, Surigao del Norte, the Philippines.

## Don't Worry

Jean Adams  
TEEN FORUM

DECISION: (Q) I am a senior in high school and so is my boy friend. We've been going steady for seven months now and love each other very much.

Right now things couldn't be better. But when we talk about the future he says we should break up after we graduate because he will be going away to college and I will be going away to a school close to home.

Every time I think about it I become really upset because I don't want to lose him. I know I would be really lost without him. I don't think he wants to break up either. I think he is getting a lot of pressure from his parents because the same thing happened to his brother and they don't want to see it happen again. I really love him. Please help me. — Dreading It in Indiana.

(A) Your friend is exercising good judgment. It is sensible not to be tied down over an extended time and a long distance. Enjoy the weeks you have left close together instead of worrying about the uncertain future.

MARRIAGE? (Q) My friend has a boy friend. I think they love each other. They do too. This guy wants to marry her very soon. But she isn't sure. I think she is scared to death about getting married. I tell her if I had the same chance I wouldn't wait a minute.

(A) Having the ages of your friend and her friend would help me give a better answer. If they were each 19, for instance, the answer would quite possibly be different from an answer I would give two 15-year-olds. But there are two facts that

outweigh the age factor in this case and make it mandatory for me to say no, definitely:

1.) They have known each other about four months. That is much too short a time. Four years would be better; 2.) She is not sure what to do. A girl who is not sure whether to get married should not get married. You didn't ask for any advice for yourself, but here is some: Quit trying to push your friend into a marriage she is not ready for.

(Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 3602, Houston, Tex. 77001.)
