L. R. MUNDT

WWI Vets Name Mundt

L. R. Mundt of Big Spring was elected district commander of the Veterans of World War I at the annual spring convention of the 19th District of Texas in Lubbock Saturday. The Ladies Auxiliary also took part in the convention.

The meeting was held in Hodges Community Center with around 20 persons attending from Big Spring.

Barracks Commander Sid A. Lourey presided at the opening session with Mrs. Anna Belle Tyson, auxiliary president of the Lubbock organization assisting.

The welcome address was given by Lubbock Mayor Morris Turner with Mundt of Big Spring giving the response.

State officials present included E. Dale Davis, legislative officer, Fort Worth; E. Art Northrup, junior vice commander, Department of Texas, Mineral Wells, Texas Commander and Mrs. Karl Bonneau, Merkel, and the state auxiliary president, Mrs. Jett Russell, Seymour.

A noon dinner was served to 110. A memorial was held during the morning session. Poppies and small United States flags were placed on the altar in memory of the departed buddies and sisters.

District officers were elected and will be installed at the state convention in July in Abilene. District President of the Ladies Auxiliary is Mrs. Mary Forrest, Lubbock, and Mundt will serve as district barracks commander.

Controversial Amendments On Insanity To Be Offered

AUSTIN (AP) — The first complete revision of the Texas Penal Code since 1856 is headed for the House floor, where the main controversies are expected to center on insanity and search warrants.

The House Criminal Jurisprudence Committee approved the measure Monday night, 12-0. The committee first postponed consideration of disputed amendments until more members of the 23-man committee could be present.

Then it decided the issues would have to be debated on the House floor no matter what the committee did, so they voted to go ahead and send the bill to the floor.

Under the present code, a man must prove he did not know the difference between right and wrong or did not know the nature and consequences of his act. If he cannot show one of these, his criminal act cannot be excused on the grounds of insanity. This is known as the M'Naghten Rule, first established in an 1843 English murder case.

The proposed code would excuse criminal behavior if the defendant is shown to have suffered from a mental disease or defect that prevented him from conforming his conduct to the requirements of law.

Some House members are expected to argue for the restoration of the M'Naghten Rule.

The other controversial amendment is one that would permit evidentiary searches. Under the present code, search warrants are authorized only for "the fruits of the crime." This amendment would permit law enforcement officers to go beyond that.

The proposed code divides crime into three classes of felony and three classes of misdemeanor. Each class carries a specific punishment range. Unlike the present code, which sets a separate penalty for each crime, the new code would simply classify each crime as one of the felonies or misdemeanors, automatically giving it the punishment authorized for that category.

Capital punishment, abortion and drugs are not handled by the new code because of their controversial nature. They will be dealt with as separate measures.

Coleman Named Prexy Of Dorm

Bill Coleman, son of Mr. and Mrs. Bill C. Coleman, 1100 Lloyd, was named to several freshman honors recently at Texas A&M University, where he is a political science major.

He was named dormitory president, civilian student council representative and dorm representative to the Residence Hall Association.

Perfect Gift Selection Available At Hester's

When you shop at Hester's Supply Company at 209 Runnels, you will probably find an absolutely perfect graduation gift. Some of their many suggestions include smart new picture frames as a gift idea. Graduates treasure pictures. A memory book is also a thoughtful gift. The graduate can thereby recapture every moment of the occasion. An oft-purchased graduation gift is a typewriter for that very special graduate and Hester's suggests that you look at the Smith-Corona electric in various colors. Stationary is also a great gift for the graduate and Hester's has a varied selection. They have photograph albums and scrap books. They also have a selection of billfolds and purse organizers, unique travel clocks and beautiful pen and pencil sets. You might also be interested in their selection of inspiration books. Bibles are available at Hester's and include the Zondervan Parallel New Testament, King James Version, Amplified, Living Testament and the Revised Standard texts. The Bibles are available in all sizes and colors.

Cleaning Carpets Is Easy

If you have always wanted to clean your rugs and carpets with less work and little cost you can do it now with the Blue Lustre electric carpet shampooer. This handy and efficient machine is the answer to getting a carpet cleaning job done in no time at all. You don't have to buy one — you can rent this machine for only \$1 per day with the purchase of Blue Lustre Rug Shampoo.

Music In Home

MuTex is a local owned background music and sound electronics company. MuTex furnishes background music, sound equipment and installation work throughout the West Texas area in a dozen or more counties. This past year MuTex has added a new service in the field of intercommunication. They are factory distributors for seven major companies selling intercoms for commercial and residential use. MuTex features Seeburg background music. Seeburg is one of the oldest companies in the field of music, but they offer an exciting new approach in the field of background music for offices, retail businesses and industry. MuTex plays many of the songs we have enjoyed for years, but each 90 days new music is added that was popular only three months ago. This adds spice to the program and is played in good background music style which is appealing to youth and older people alike. This music is not passed from one distributor to another. You hear it first in all Seeburg locations in the United States. MuTex with Seeburg is innovative and first in quality. If you have a need for background music, paging intercoms or sound equipment and service, call MuTex, 263-8300, found in the directory under Music, by MuTex or in the yellow pages under Intercommunication, Music.

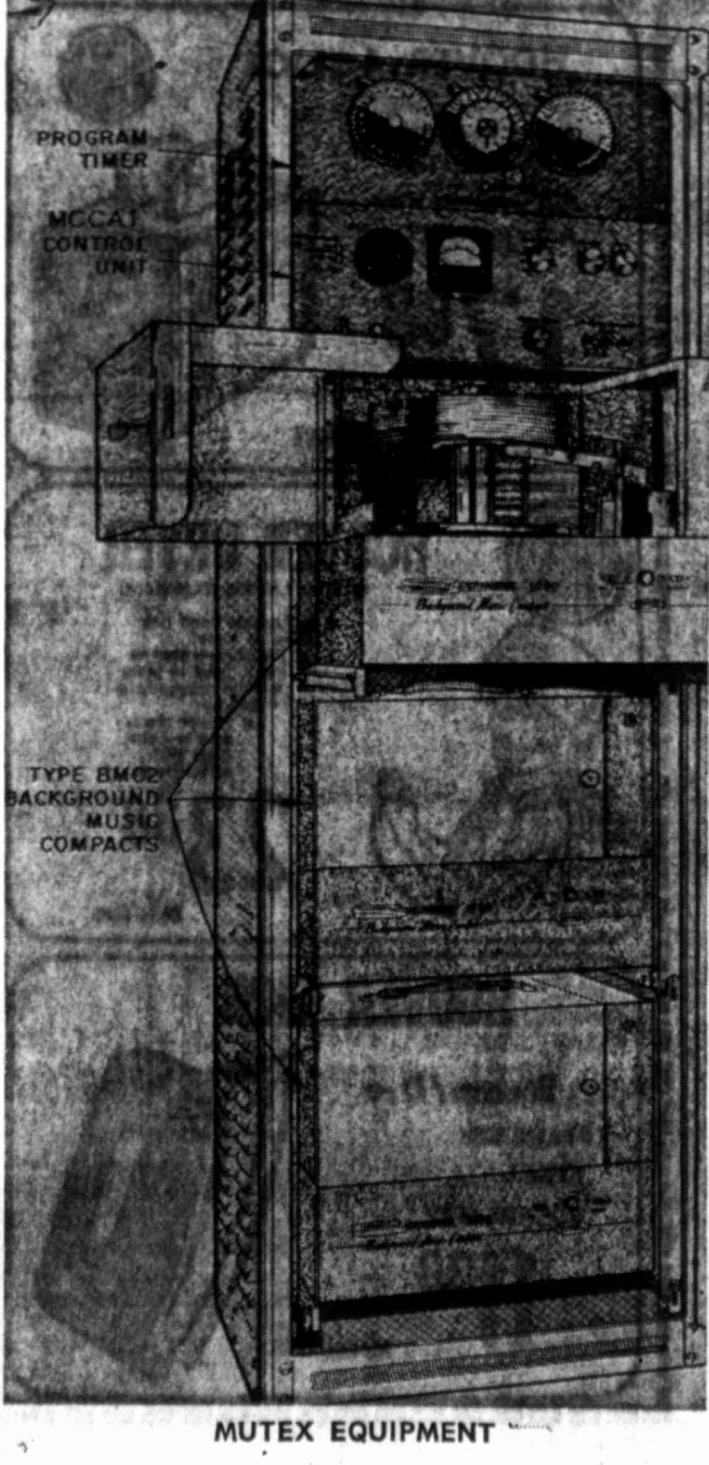

Blue Lustre has become famous as a premium quality foam cleaner for fine carpeting and orientals — it's a gentle yet thoroughly efficient cleaner. Blue Lustre instantly brightens colors and provides deep down cleaning for all types of rugs and carpets. It is a liquid concentrate and only one half gallon is sufficient to clean three 9 x 12 rugs. Try Blue Lustre and the hand electric shampooer for quick and easy cleaning of your carpets and rugs. You'll be surprised and pleased with the new look of your carpeting and with such little cost and effort. The Blue Lustre electric shampooer is available at Big Spring Hardware.

Work Attitudes Are Stressed

AUSTIN — Proper "work attitudes and habits" are great concerns shared by employers as cited in a report submitted to Gov. Dolph Briscoe Friday by the Advisory Council for Technical-Vocational Education in Texas. Entitled "Education for Living and Making a Living," the report summarizes concerns shared by nearly 2,000 citizens "on all aspects of education" at a February Governor's Conference in Austin. Employers say "a lack of proper attitudes and habits about work contributes to 'absenteeism' which in turn contributes to 'cost overruns' and 'losses in productivity.'" One employer stated "two-thirds of all people who get fired do so because of improper work attitudes and habits."

Students must also know how to fill out job applications, the importance of proper grooming and how to conduct themselves in job interviews. In interviewing applicants for an executive job, an employer commented, "I had a college graduate come into my office wearing no shoes and no shirt and expecting to be hired."

It must be the role of the schools to instill these "employability skills" in each student, says employers. "People cannot change 'attitudes' or 'habits' overnight and people without these skills will not last long on the job whether they be college graduates, vocational-technical products, or whatever," the report said.

Nuptials Held In Kerrville

Mr. and Mrs. Paul P. Sartwell are at home at 608 Lois, Kerrville, following their marriage April 25 in the First Presbyterian Church, Kerrville. The Rev. James McCall officiated at the double ring ceremony.

The bride is the former Mrs. Mary Hampton Cochran, rehabilitation director at Kerrville State Hospital, and formerly volunteer coordinator at Big Spring State Hospital. The bridegroom, retired from the Federal Prison Service, formerly resided in San Antonio.

Attendants were the

bridegroom's brother-in-law and sister, Mr. and Mrs. Charles Silverthorn of Bozeman, Mont.

The bride wore a Gatsby-style suit of navy and white with a corsage of pink and magenta roses. The matron of honor's yellow dress was accented with an iris corsage.

Following a trip to the Northwest in mid May, the couple will enplane for Greece July 4 and remain in Europe for a year. Their main residence will be in Spain where they plan special studies of that country's history and art.

The bridegroom was named in Who's Who in the Southwest, Midwest and West, in successive publications, for creative programming in prison reform. He worked out of the central office in Washington, D.C., as a consultant to federal and state institutions, and his last assignment, prior to retirement, was warden at the Federal Correctional Institution at Milan, Mich.

Mrs. Sartwell has been active in the Kerrville Art Club, Kerrville Arts and Craft Club, Business and Professional Women's Club and has served on the state board of directors of the Texas Public Employees Association.

ENGAGED — Mr. and Mrs. C. R. Bruton, Route 1, Box 636, announce the engagement and approaching marriage of their daughter, Lisa Vera, to Nathan H. Baker, son of Mrs. Audie Baker, 407 Donley, and Alvin E. Baker of Coahoma. The couple plans to marry June 15 at Sand Springs Baptist Church with the Rev. Jim Fields officiating.

Use These Tips When Cooking

Pan-cook shredded green cabbage and then add canned stewed tomatoes. Good combination for a weight-watcher.

Recipes sometimes call for a tablespoon or so of dry onion soup mix. Shake the envelope of soup mix to blend the contents before opening and measuring.

Antique Dealer Tells Trends In Collecting

Mrs. Mable Kountz, collector and antique dealer, brought a program on "Family Heirlooms" for the Women's Forum at the Friday meeting held in the home of Mrs. E. B. Compton with Mrs. E. P. Driver as cohostess.

"All people are collectors of something either from a sentimental or monetary standpoint," said the speaker. She pointed out that many beginning collectors think signed pieces are more valuable than unsigned ones when, perhaps, the opposite is true as the earlier craftsmen seldom signed their works.

Valuable pieces of glassware and china can be repaired by workers in Philadelphia and Palestine, Tex., according to Mrs. Kountz who also pointed out that a piece should be of real value before going into the expense of repair.

Various types of carnival glass were discussed as well as 'depression' glass which was at a time valuable but has now lost its interest to buyers.

Mrs. Kountz also told the group that many times old silver pieces could be made more beautiful by stripping away the silver and using the pewter or copper base

upon which the piece was made. She also reminded the women that pieces made in Occupied Japan are gaining in value because Japan is no longer occupied.

Mrs. Paul Kionka took the office of president and Mrs. Charles Harwell is to be vice president for the 1973-74 club year. Other officers will be Mrs. D. D. Dyer, recording secretary; Mrs. Compton, corresponding secretary; and Mrs. Bert Shive, treasurer.

It was announced that Mrs. Charles Harwell's report on Ethnic Culture and Folklore took a second place in reports submitted at the TFWC District meeting in Midland in March.

Club books will be audited by Mrs. Cecil McDonald and Mrs. Johnny Stewart. The May meeting will be hosted by Mrs. Clyde Thomas and Mrs. Omar Jones at a place to be announced.

Community Fun Night, Supper Held At Forsan

FORSAN (SC) — Sixteen people attended the Forsan Community covered-dish supper and games night held recently at the club house.

Recent guests of Mrs. J. W. Griffith were her daughter and grandsons, Mrs. Bob Sledge, El Paso.

The Frank Jacobs' of Rising Star were recent guests of her brother and family, the Ted Henrys. Guests of Mrs. Vera Harris recently were Mrs. Katie Lewis and the Everett

Neils, all of Lubbock, and Mrs. Joe Gilmore, Gail.

The J. B. Andersons and their son and family, the Jimmy Andersons, have returned from a vacation trip to Weslaco, Kingsland, Brownsville and Matamoros, Mexico. The group fished in the Gulf of Mexico while in Mexico.

Mrs. F. E. Davidson was in Hico to attend funeral services for her grandson, Rodger Meek, who was killed in a car accident in Fort Worth.

Psychiatry Wins

Dear Abby

Abigail Van Buren

DEAR ABBY: A wife complained that her husband, a psychologist, was being intimate with some of his women patients. (He said it was "in the line of duty.") You told her that her husband needed to see a psychiatrist.

Why didn't you recommend a psychologist? Some psychologists are as competent as psychiatrists to treat individuals with emotional problems.

WANT TO KNOW DEAR WANTS: A psychiatrist is first a physician, which qualified him to rule out a physical problem that could be responsible for the emotional problem. Furthermore, only a physician is able to prescribe medication, should it be needed.

A psychologist who behaves in an unethical manner (and engaging in intimacies with patients is indeed unethical) should, in my opinion, see a psychiatrist. And I'd make the same recommendation for a lawyer, C. P. A., or any other professional person who gets carried away in the line of duty and appears hell-bent on destroying his family and livelihood. If the psychiatrist decides that only psychotherapy is indicated, a referral to a clinical psychologist could then be made.

DEAR ABBY: I am a 14-year-old boy with an unusual problem. For the last two years I have had

a paper route and done odd jobs. I have saved \$500 to do with what I please.

My sister lives in Belgium and has asked me to visit her during vacation time. She is 28 and teaches school there.

My mom said I may go, but my father hit the ceiling. He said I was too young to learn anything, that it would be a waste of time and money for me to make that trip at age 14. Abby, I do well in school and I think I would learn a lot if I made this trip. I earned all the money myself and saved it, and I think I should be allowed to go. What do you think?

YOUNG READER: YELM, WASH. **DEAR READER:** From your letter I would say you are a responsible young man and would learn a great deal from the trip. Furthermore, a 14-year-old boy who can earn and save \$500 should be permitted to spend it as he sees fit. I vote with Mom. (P. S. If you go, send me a postcard.)

DEAR ABBY: You advised someone to "go the 70x7 route," and no one in our office can figure out what you meant. Please clarify.

STUMPED AT KRUPP'S DEAR STUMPED: I meant that however many times — 7, or 70x7 — someone trespasses against you, if he asks forgiveness, forgive him. (New Testament Matthew, XVI-11, 21-22.)

Deanery Meet Slated Sunday

Plans for a deanery meeting were made Sunday afternoon when the Big Spring Deanery Board, Diocesan Council of Catholic Women, met at the home of Mrs. Sam Wilkerson, Stanton.

Mrs. Mildred Ward, Big Spring, presided. Others attending from here were Mrs. Keith Thompson and Mrs. L. D. Jenkins. The deanery meeting is scheduled from 1:30 p.m. to 5:30 p.m., Sunday at St. Joseph's Church hall, Stanton.

Purpose of the meeting will be to discuss what the deanery women want to study in months ahead. Registration will be \$2.

Busy Bees To Hear Program

Bill Huffaker will demonstrate how to decorate candles at 9:30 a.m., Thursday at the Hobby Center and Frame Gallery, 1005 Eleventh Place. Anyone interested is welcome to attend.

The program is being sponsored by the Busy Bee Hobby Club. Huffaker will show how to put roses and other flowers on candles using a substance called "Fiesta Dippy." He also plans to demonstrate how to make scented soap using glycerin as a base.

Following the program, club members will meet for a luncheon at Fuff's Cafeteria.

Local Club Receives District Art Award

The first place trophy in art competition went to Ever Ready Civic Art Club, Big Spring, during the weekend convention at Midland of Stokes-Parker District, Texas Association of Women's Clubs. The club took a second place award in the yearbook contest. Miss Rosetta Brown, Big Spring, was art chairman.

The keynote speaker Saturday morning was Mrs. W. M. Bell, a teacher in the Midland public schools, whose theme was "The World is a Stage." She urged the women to become involved in activities centered in "cooperative community involvement".

In encouraging active participation in various areas, she said what is needed is inner desire, cooperation, personality, thoughtfulness, faith, love and leadership.

"Each player will have a role", she said. "Get on the stage; it is big enough for many."

The Sunday morning breakfast was hosted by the Midland City Federation at the home of Mrs. Ruthie Felix where prizes were awarded to women wearing the most unique attire. Winners were Mrs. Clemmie Johnson, Mrs. Una Merje Evans, Mrs. Patsy Barton and Mrs. Minnie Floyd.

The title of "Miss Stokes-Parker" was won by Miss Sherrie Randolph, sponsored by Odessa Social Civic Art Club, who will now compete for the state title. Winners in the financial contest were Miss Archia Giddings, Midland, first; and Miss Paulethia Michelle Crawford, Lubbock, second.

The district president, Mrs. Glenn L. Person of Big

Spring, urged the delegates to "accept challenges which confront us in today's society." She was introduced by Mrs. Gladys Penny of Big Spring.

Mrs. Bobbie Williams, Big Spring, served as scholarship chairman, with \$300 scholarships going to two senior girls: one from Midland and the other from McCamey. During Saturday's banquet, Mrs. Williams presented a \$10 gift certificate to Mrs. Doris Randle, Big Spring.

Mrs. Person was elected delegate to the state convention at Dallas in July and the regional convention at Shreveport, La., in August. The 1974 district convention will be held in Lubbock. Miss Shirley Thomas, Big Spring, was named district program chairman.

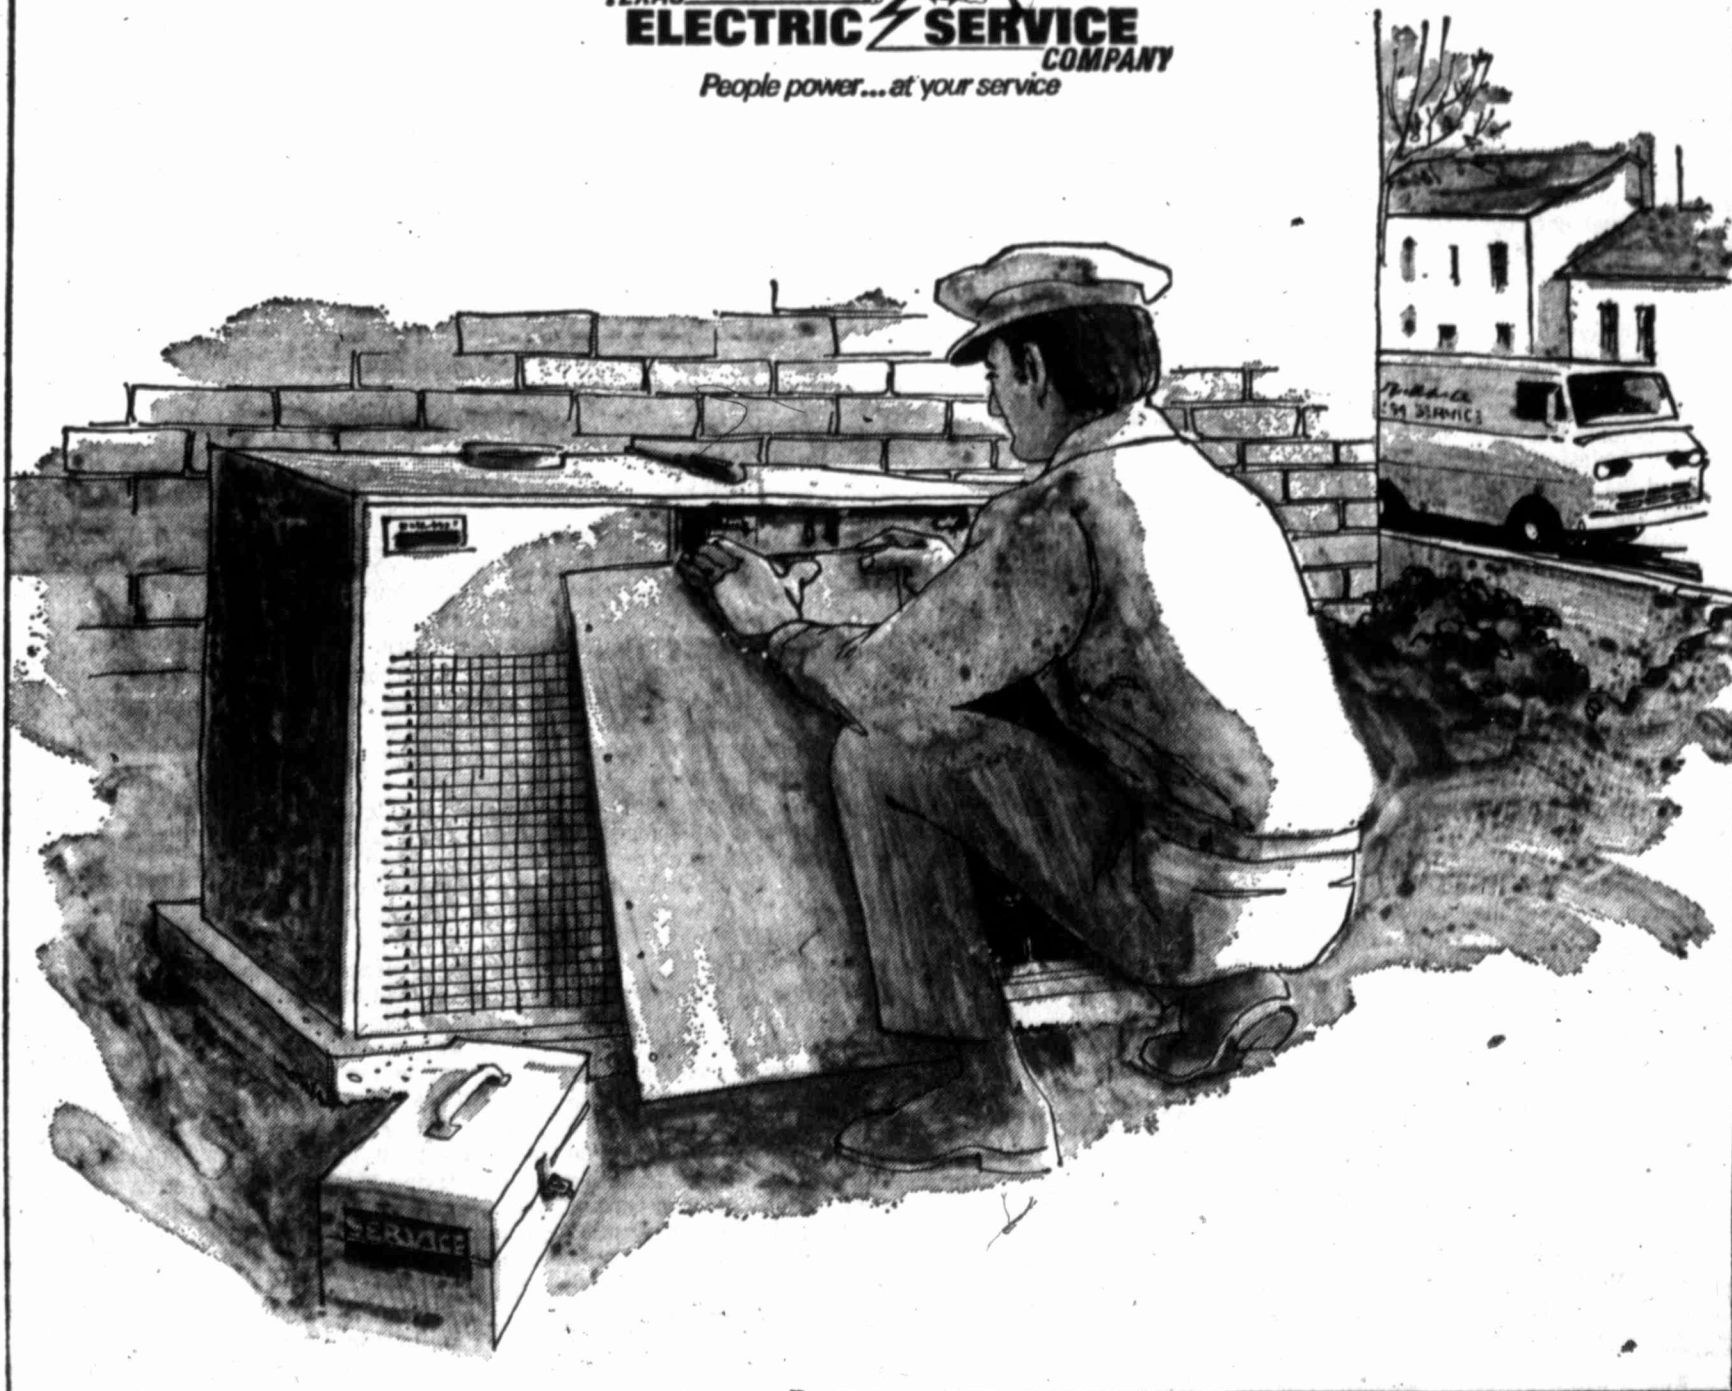

Get an air conditioning checkup before the heat's on.

Now's the time to call your air conditioning serviceman. Because right now he can work your call into his schedule. And get your unit ready to deliver dependable, efficient cooling through the summer ahead.

We know that many people wait until the heat's on to have their units serviced. Later on, your dealer or serviceman may have a waiting list. Although Texas Electric does

not service, sell or install air conditioning equipment, we do want you to get full value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.

Stick With Age

Jean Adams
TEEN FORUM

FLIRT: (Q.) I always find myself liking a grown-up man. I am 14 and an eighth grader, but I could pass for 19. When I get around a grown man that I like, it seems like I am flirty. I am a Gemini and naturally flirtatious.

It isn't any heavy flirting — just a smile or something like that. Right now I find myself liking two men. Both of them are cute and not married — Help in Virginia.

(A.) Many 14-year-old girls tend to be flirtatious. But those who are wise restrict their attentions to boys their own age or a little older — boys they know. These boys do not misunderstand them. Stick with boys your age. Leave the grown men to women their age.

see some dresses instead of the sloppy jeans they always wear. — Nauseated in New Jersey.

(A.) You have some very good points, but you are a little preachy in presenting them. Girls like to be talked to honestly and frankly. It is not necessary, though, to be "holier than thou" when you talk to them.

I also wonder, too, if there aren't quite a few clean and decent girls — worth dating — in your school.

Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 2482, Houston, Texas 77001.

Constantine Not Shown On Coins

Athens (AP) — New coins went into circulation today which for the first time in 26 years do not depict the Greek monarch's head.

King Constantine, living in self-exile in Rome since his abortive counter-coup in December 1967, is not shown on the new 20-drachmae — 66 cent coins.

One side depicts the emblem of the military backed regime — a phoenix rising from the ashes and a bayonet-bearing soldier. The other side of the coin carries symbols inspired by Greek mythology.

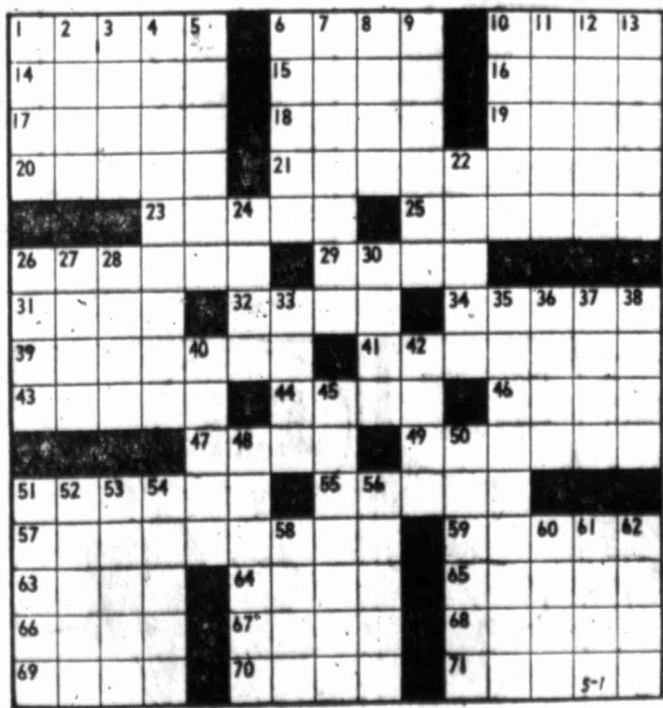

The coins are the first to be minted since re-establishment of the monarchy in 1947 which do not carry the bust of the reigning king.

Two Ex-Texas International Officials Granted Immunity

SAN ANTONIO (AP) — Two former Texas International Airlines officials have been granted immunity in a federal antitrust grand jury probe, it has been reported here.

The San Antonio Express-News says the immunity order was signed by U.S. District Court Judge Adrian Spears and was reflected in court documents entitled "Grand Jury Investigation of Braniff Airways, Inc., and Texas International Airlines, Inc."

According to the documents on file with the U.S. district clerk here, immunity has been granted Robert L. Sicard of Houston and Walter A. Rollins of Clear Lake under the Organization Crime Control Act of 1970.

The records say each of the men "has refused under oath to answer certain questions propounded to him or give testimony on the basis of his privilege against self-incrimination."

airways between San Antonio, Dallas and Houston. The routes are serviced by Texas International, Braniff International and Southwest Airlines.

Besides airline officials, court documents show subpoenas have been issued for Charles Pierce Sr. and Charles Pierce Jr. of Rauscher-Pierce Securities Corp. of Dallas, George A. Nicoud Jr. of First National Bank of Dallas and Ronald Robertson of Avis Rent-A-Car in Houston.

The grand jury involved in the investigation of airline business was empaneled last September. There have been no indictments.

Many of the records on file in federal court here are signed by John Anderson, an antitrust division trial attorney and two other Justice Department attorneys.

The Express-News said it has been thought for some time that the antitrust division has been eyeing the competition of

One Charged In Accident

James Gregg, city attorney, plans to return home tomorrow from Val Verde Hospital in Del Rio where he is being treated for injuries received in a two-car collision near Ciudad Acuna, Mexico Friday night.

District Attorney Investigator Arturo Hernandez of Ciudad Acuna said there were three persons injured including Gregg in one vehicle and Domingo Molina Rosales and Luis Castillo of Ciudad Acuna in the second vehicle.

He said Molina Rosales was arrested and charged with reckless driving for making an illegal U-turn on the Acuna-Amistad Dam road about 2.4 miles east of Ciudad Acuna. Castillo was with Rosales in the same car.

"He turned without looking and another car coming in the opposite lane hit him," said Hernandez. Gregg and James Campbell were in the other car, which belonged to Campbell.

None of the other persons were held, Hernandez said.

Gregg was taken to the Del Rio hospital while Campbell returned to Big Spring with Harry Nagel, city manager and Vance Chisum, police chief, who also were along on the fishing trip, but not involved in the accident. The car was impounded in Acuna, Hernandez stated.

Legislators Will Pay Respects To State's Returned Prisoners

AUSTIN, Tex. (AP) — Texas legislators pay their respects to the state's returned prisoners of war today as the lawmakers bucked down for another long, hard day of debate and committee work.

The special joint session, with Gov. Dolph Briscoe as the main speaker, was scheduled for 1:30 p.m. A number of Texas' POWs were expected to attend.

Senators and House members worked long hours Monday as they began their last month of the 63rd Legislature's regular session which must end at midnight May 28.

FISHING COSTS

Two major legislative issues and a number of secondary law changes were finally settled Monday and sent to the governor.

House members accepted Senate changes in a bill raising hunting and fishing license fees for the first time since 1957. If the bill is signed into law by the governor a fishing license after Sept. 1 of this year will cost \$4.25 instead of \$2.15 and a hunting license will be \$5.25 instead of \$3.25. A combination

hunting and fishing license will cost \$8.75, a saving for Texas residents of 75 cents over the separate license prices.

The House also approved a compromise bill giving firemen and policemen collective bargaining rights if local voters approve, and sent it back to the governor. The Senate approved the compromise last week.

Briscoe had threatened to veto the bargaining rights bill as passed a first time unless it was recalled and several changes made. The major change the second time around added the local option election instead of allowing a city council

to grant collective bargaining rights.

INSURANCE BILL
House members also accepted Senate changes to three other bills and sent them to the governor. They included:
—A bill to give 18-year-olds the right to serve on juries but they could be excused if still attending school.
—A bill giving the state consumer credit commissioner authority to regulate companies that have installment plans for payment of insurance premiums.
—A bill to put school districts on the same July 1-June 30 business year as the federal government.

Senators sent to the House a bill setting up Texas' first statewide bilingual education program, estimated to cost \$5.2 million over the next two years.

The senators also sent the House a bill that would allow sliced bread to be sold in packages of 8 ounces or less, instead of the usual 16-ounce loaf.

Two other bills approved by the Senate would let the state, including the University of Texas, take oil and gas in lieu of money due on royalties from state-owned mineral leases.

Senators passed and sent the House a bill that lets county governments contract for legal services for the poor.

Notaries Start Filing Today

The 648 notary publics in Howard County may start filing their bonds in the county clerk's office today, Mrs. Margaret Bay, chief deputy county clerk, said.

May 15 is the deadline for notary publics who wish to continue serving in that capacity.

The bidding:
North East South West
Pass 1 ♠ 2 ♠ 4 ♠
5 ♠ 5 ♠ Dbie. Pass ♠
6 ♠ Dbie. Pass Pass

Opening lead: Seven of ♠
In competitive sequences where each side has a long suit and a good distributional fit, it is very difficult to calculate the ultimate offensive capabilities of the opposition. As a matter of pure practical insurance, it frequently pays to "bid just once more" in order to avoid an extreme loss. Today's hand presents a sound illustration of the principle.

East opened the bidding with one spade, choosing to treat his major suit holdings as equals in order to show both of them in the most economical manner. South overcalled with two diamonds. West's jump to four hearts is a preemptive measure announcing considerable playing strength in the suit bid, but very little on the side.

North raised his partner to five diamonds and East supported West's hearts. South

had significant defensive values and, convinced that his side had reached its offensive limit, he doubled five hearts. North overruled this decision and proceeded to six diamonds; since he had great length in his partner's bid as well as a void in hearts, East doubled and the bidding subsided.

West was skeptical of the prospects for cashing a heart trick, so he opened the seven of spades and East's ten forced out the ace. South led the queen of diamonds and when the deuce appeared from West, he promptly went up with the ace felling the king.

A club was led and the jack was successfully finessed. The dummy was reentered via a heart ruff in order to repeat the club finesse. When the king fell under the ace on the next round, North's ten of clubs became established for the discard of a losing spade. South cheerfully conceded a spade trick to his opponents and claimed the double slam contract.

East's double of North's six diamond bid was unsound. Holding no aces, a worthless king of diamonds and great length in the suit where his partner had made a preemptive call, he should have been sufficiently skeptical of defensive prospects to at least pass the decision back to his partner.

Had West been given some latitude in the matter, he might have elected to take the save, and unless North gets off to the somewhat unlikely lead of a club, the damages can be restricted to 500 points.

We've done something good at Pearl, so you can do something great for Texas.

We've switched to an all-aluminum can because it's the best answer to the litter and solid waste disposal problem that plagues our state.

Pearl's new container is 100% recyclable. And it's a better package because it protects the flavor and quality of Pearl.

When the brewing industry embraced the tin plate metal can more than a decade ago, it was in response to public demand. It was convenient to buy, to store, to open and to use. But, it was just as convenient to toss out of car window onto a highway, or to leave in the park or on the beach. Since it had no deposit, it had no value.

Even when these cans were thrown in the right place, the trash, they created a problem. Our solid waste has continued to pile higher while we've groped for better ways to dispose of it.

Pollution of this type has gone unchecked, despite the programs underwritten by Pearl

and other brewers appealing to the public sense of pride.

So, we've switched to a better container. A recyclable can made from 100% aluminum. It's better for our product and it's better for Texas.

But, there's more to the story than that.

We're not the first beer in Texas to have an aluminum container. But, no one has done what we're doing statewide to get empty cans off the streets and highways, out of the garbage and back into circulation through recycling.

We've committed our entire organization to making the Pearl recycling program work. Our 81 distributors across Texas have become hometown collection centers. They're outfitting their facilities with the necessary equipment to receive, sort, weigh, package and prepare cans for pickup. Pearl will bring them back on the same trucks that deliver fresh beer.

Your local Pearl distributor will pay a dime a pound for all the aluminum cans you can carry in.

And, because we'll pay to get them back, we expect about 50 million cans to be returned and recycled the first year. That amounts to nearly 2 million pounds of aluminum put back into circulation.

Look for this symbol at our can collection centers.

The Pearl Distributor in Big Spring is: Pearl Beer Distributing Company Highway 80 East For surrounding localities, contact your local Pearl distributor.

Ours is the oldest major brewery in Texas, and we feel a deep obligation to help keep this beautiful state clean. We want the countryside to look as good in 1986 as it did in 1886 when Pearl opened for business.

We care. And we're backing up our concern with a million dollar investment in a new, recyclable package... a network of collection centers... and a system for getting empties back to our recycling plant.

"We want our Pearl aluminum cans back, and we'll pay to get

them. A dime a pound."

'Bill Moyers' Journal Victim Of Censorship?

By JAY SHARBUTT AP TV Writer
NEW YORK (AP) — "Bill Moyers' Journal," one of four public affairs series that have lost the financial support of the Corporation for Public Broadcasting, expires at the end of this month—maybe.

Whether it returns next fall on national public television depends on two key issues, says Moyers, the former presidential press secretary for the late Lyndon B. Johnson.

One is whether the CPB in the future wants its officials to "prescreen" all public affairs shows for signs of unfairness and imbalance prior to allowing them on the air, Moyers said.

He said he felt a majority of the CPB board now appears bent on controlling all program selections for public television. In past years, the board generally approved the recommendations of PBS officials.

During the last three months officials from CPB and local public television stations worked out a compromise in which stations with privately-funded programs would have access to the PBS interconnection.

The CPB board last month voted 10-4 to defer action on the plan. The situation still is unresolved; but even so, John Jay Iselin, WNPT's president, has high hopes Moyers' show will be back in the fall.

Talks Clean Air Choice

DALLAS, Tex. (AP) — Americans still have time to choose between clean air and exorbitant cost and clear air at reasonable cost," John J. Riccardo, president of Chrysler Corp. said Monday.

The automobile company executive also called upon Congress to appoint an independent body to conduct a review of evidence developed since the Clean Air Act was passed and to recommend new automotive emission standards.

Riccardo spoke before the convention of the Texas Automobile Dealers Association.

"Since the Clean Air Act of 1970 was passed," Riccardo said, "A great deal of scientific and medical research has been conducted into the effect of automobile emissions on health, and while there can be no doubt of the need for federal laws on air quality, the overwhelming preponderance of the evidence shows that the federal emissions standards are more strict than they need to be for the protection of the American people."

He pointed to the recommendation already made to Congress by the administrator for the Environmental Protection Agency that the standards for the control of one of the three automotive emissions, oxide of nitrogen, be relaxed.

"That has been our position all along," Riccardo said. "And now that one of the three standards is under official questioning we also believe that it would be fair to suggest that the other two, carbon monoxide and hydrocarbons, should be examined in the same way."

"We are proposing that Congress commission the National Academy of Sciences, or any other appropriate body, to make a thorough review of all the new evidence."

Said Riccardo, "Surely there can be no quarrel with the need for such a study, the evidence continues to mount that the current federal standards were set up on the basis of insufficient and faulty measurements. There is nothing to lose and a good deal to gain ..."

Cheerleaders Named At HC

Three coeds from Big Spring and one from Midland have been elected Howard County Junior College cheerleaders for the 1973-74 school year.

Head cheerleader will be Gala Williams, daughter of Mr. and Mrs. Robert F. Williams of 902 East 15th Street, Big Spring. She is a business administration major.

Also from Big Spring is Nancy Graves, niece of Mr. and Mrs. Tommy Gage and daughter of Mr. and Mrs. G. C. Graves of 602 Star, Hereford. Miss Graves' major is physical education.

Paula McClendon, daughter of Mr. and Mrs. J. W. McClendon of 2510 East 24th Street, Big Spring, has been elected alternate. She is a business administration major.

Linda Dennis, daughter of Mrs. Ruth Roberts of Midland, completes the list of sophomore cheerleaders for next year's Jayhawk season.

THOSE CRAZY EPISCOPALIANS

are they living in the past?

Outwardly, Episcopalians are pretty steeped in tradition. But in their relations with the world about them, they're a "today" sort of bunch.

They're usually among the first to address a compassionate ministry to "people problems" wherever those problems crop up.

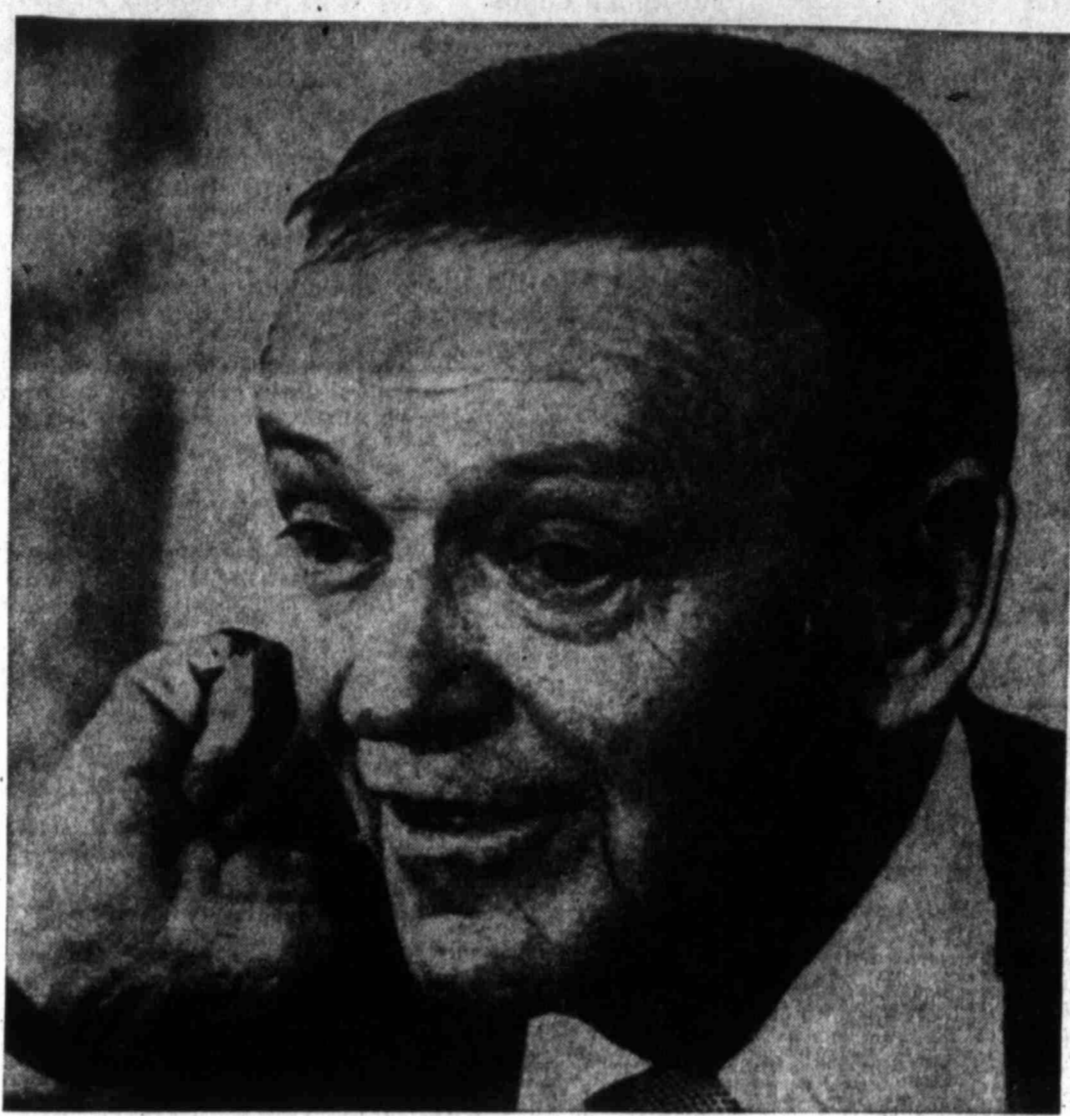

Take alcoholism. It's no accident that one of the founders of Alcoholics Anonymous was a sympathetic Episcopal minister, Sam Shoemaker...and some folks, today, make jokes about "Whiskeypalians."

It's true that this denomination is a bit more tolerant than some. They nourish a strange belief in guidelines—not straight-jackets—for a Christian life. They're not interested in condemning... but in helping people.

It isn't really a new idea. Just a timely one.

Episcopalians believe they have good reason for many of their views. Maybe some of the reasons would make sense to you, too. It costs you nothing to contact the nearest Episcopal minister and find out. He won't even twist your arm.

JUST LIKE IN THE MOVIES — Asked how the debonair, clever, sophisticated Fred Astaire of movies of the '30s and '40s compares to the live Fred Astaire, the 74-year-old famed dancer replied, "Right on the nose." Astaire was in New York Monday to be honored by the Film Society of Lincoln Center, with the showing of 29 film clips of him dancing from 1933 to 1968.

Ector County DA Says He Welcomes 'Branding' Probe

ODESSA, Tex. (AP) — Ector County Dist. Atty. John Green says he would welcome a probe into allegations that convicted killer Johnny E. Meadows was branded while held in Ector County jail.

District Court Judge John Vance in Dallas ruled that four confessions given by Meadows had been obtained by coercion, leaving the question of branding charges to further investigation.

Green said Monday he will move for dismissal of two of the murder charges against Meadows because, with the confessions ruled out, he could not introduce corroborating evidence.

PAID WIFE
Vance's ruling came after testimony that former Ector County Sheriff Slim Gabriel paid Meadows's wife, Delouris, \$2,200 in exchange for Meadows's alleged confession in the Gloria Sue Nix Green murder case, for which he has already been convicted and given a life sentence in Fort Worth.

The defense contended at a pre-trial hearing that Meadows was branded on his back with an outline of the shape of Texas and with the initials of four women, about whose deaths he had been charged or questioned.

Green said he will contact the FBI and the state attorney general in a move to get the investigation speeded and might call a special session of the grand jury for Tuesday.

Vance ordered state and federal investigation of the alleged branding Saturday.

CONFESSIONS
The cases in which Green said he will move for dismissal involved the murders of Linda Ann Cougat and Mrs. Ruth Maynard. The district attorney added that, although the Cougat and Maynard cases will be dismissed, he will fight to have the life sentence for the Mrs. Green case upheld.

"The ruling by the judge holding these confessions inadmissible makes it possible that this killer may be released," said Green.

He also said he had no knowledge about any money being paid to find the body of Mrs. Green. He would not say whether his investigator Tom Barker—a former Dallas sheriff's deputy accused by Meadows of taking part in the branding—would go before the grand jury as a witness. Barker has called the charge "ridiculous."

Meanwhile, two Ector County

Hail Whacks El Paso Area

By The Associated Press
After about a week's respite from turbulent weather, Texas again was beset by storms Monday as a tornado hit in the Panhandle, hurricane-force winds slammed the El Paso area and hail, heavy rains and blowing dust struck elsewhere.

During heavy thunderstorm activity in the Panhandle, White Deer, a small town 14 miles southwest of Pampa, was hit by a tornado just before sundown.

At least three persons were injured and several homes and buildings were damaged.

A resident said baseball-sized hail accompanied the storm that spawned the tornado. He said White Deer suffered considerable damage to roofs and windows because of the hailstones.

Tornado watches were in effect most of the evening because of the turbulence and thunderstorms in West Texas and North Central Texas.

Early today, weather was less stormy throughout the state due to a trough line that brought clear skies west of a Wichita Falls-Ableene-Del Rio line.

Skies at sunrise generally were overcast east of that line, with drizzle being reported in Central Texas around Waco and San Antonio and light rain closer to the coast in the Victoria area. Some fog was reported by the weather service in the College Station and Lufkin areas.

Early temperatures ranged from 47 degrees under cloudy skies at Dalhart and Amarillo under clear skies to 77 at McAllen, a predawn high for the nation.

The trough line was expected to dissipate in West Texas later today, causing increasing cloudiness with a chance of showers and thundershowers. The remainder of the state was expected to remain cloudy with a chance for mostly afternoon showers and thundershowers. Temperatures were to become cooler.

Southwest Airlines Wins Love Field Fuss

DALLAS (AP) — Southwest Airlines of Dallas won its battle to remain as a regular intrastate carrier based at Love Field despite strong pressure by Dallas and Fort Worth to have the airline move to the new regional airport.

U.S. District Judge William M. Taylor ruled in favor of Southwest in a suit brought by the two cities.

The judge disclosed his four-page decision in letters to lawyers for Southwest and the two cities.

The two cities immediately announced they will appeal the decision.

"I have concluded that judgment should be rendered for the defendant," the judge said. Siding with Dallas and Fort Worth in their battle to compel Southwest to move to the new airport were Braniff International and Texas International Airlines, both Southwest rivals in the Texas com-

muter flight business. Braniff contended that if Southwest is allowed to remain at Love Field, it also will stay there.

The cities, which are relying on airlines to help pay the municipal bonds that are financing construction of the new airport, said they feared a mass exodus of airlines from the new facility would result if some airlines are allowed to remain at Love Field.

Judge Taylor explained in his decision that Love Field is a public airport and has been supported by federal funds. He said that the airport is subject to the restrictions of federal laws with "prohibit granting of an exclusive right in its use and, in addition, prohibits unjust discrimination."

Judge Taylor also noted that Southwest is an intrastate carrier and the Texas Aeronautics Commission, not the two cities, has jurisdiction over its routes.
