

DETONATOR IN HIS TEETH—Bank robber top photo, wearing stocking mask and holding a dead man's detonator in his teeth walks from a Kenora, Ont., bank behind a policeman stowing money into a truck Thursday. One step later, a shot was fired, the robber loosened his grip on the detonator and was blown to bits by the six sticks of dynamite around his waist. In the lower photo, injured Constable Donald Millard sits in street and is comforted by officer and surrounded by money.

Watergate Burglar Puts Mitchell's Logs On Fire

WASHINGTON (AP) — James W. McCord Jr. has testified under oath that he never would have participated in the Watergate operation without assurances that Atty. Gen. John N. Mitchell had approved it.

ARRESTED
McCord said Liddy had told him Mitchell urged the wiretaps to get started in mid-April

1972, and later prodded the bugging crew to make its second entry into Democratic headquarters on June 17, when five of them were arrested.

There were other developments in the Watergate case Thursday:

'GET' HIM
—Ousted presidential Counsel John W. Dean III issued a statement saying unnamed persons are trying to "get" him and limit his testimony about White House involvement in the wiretapping of Democratic headquarters and the subsequent coverup.

—Florida investigators said Felipe DeDiego, a Cuban exile, told them how he and convicted Watergate conspirators Eugenio Martinez and Bernard L. Barker broke into the office of a Los Angeles psychiatrist and photographed files.

STANS INDICTED
Dade County State Atty. Richard Gerstein quoted DeDiego as saying he was unsure whether a file on Pentagon papers defendant Daniel Ellsberg was among those photographed. Testimony at the Pentagon pa-

pers trial in Los Angeles indicated Ellsberg's file could not be found in Fielding's office.

—Mitchell and former Commerce Secretary Maurice H. Stans were indicted in New York for conspiracy to defraud the U.S. government, obstructing justice and perjury in a case involving fugitive financier Robert L. Vesco and \$200,000 he gave to the Nixon campaign last year.

WILLING TO ACCEPT \$5 FROM ALL SENDERS

Hopes To Raise \$50,000 From Ad

FORT WORTH, Tex. (AP) — Remember the guy who puts an ad in the paper saying, "Send me \$5 and I'll tell you how I make my money?"

Then anyone who sends the money gets a letter back saying, "That's how I get my money."

That guy had no class. Morton Adelson, on the other hand, has both class and style. Adelson, a Fort Worth insurance agent, is politely asking people all over the state to send him \$5 bills.

In return, he is promising absolutely nothing except his gratitude.

THANK YOU
He doesn't even offer himself as a charitable cause. He just says he'd like to have some more money and he thinks it would be nice if people sent it to him.

Last Monday, Adelson, who lives in affluent Wedgewood area here, sent a "letter to the editor" to newspapers in 14 medium-sized cities—Abilene, Amarillo, Beaumont, Corpus Christi, Denison, El Paso, Galveston, Lubbock, Odessa, Port Arthur, San Angelo, Temple, Texarkana, and Victoria.

The letter says: "If you'd like to add to your good deeds,

send \$5 to Morton Adelson, 4913 Wheelock Dr., Fort Worth, Texas." He thanks donors in advance for their gifts, especially those who mail the money anonymously.

MONEY, MONEY
Adelson's answers to the obvious questions are matter-of-fact and completely logical.

"I thought it would be a way to get some money. You know, without hurting anybody and in a clever way," he said.

Why should people consider it a good deed to send him money?

"I just think it would be nice if they did."

Asked if he is particularly hard up for money, Adelson said he would prefer to say that he would simply like to have some more money.

The way he sees it, he could get quite a lot of money in response to his letters.

"It could be a good chunk of money because if as few as one person out of 10,000 who read it send me the money to me, I'd have maybe \$50,000."

NOT A GAG
"There are 200 million people in the country and if one out of 10,000 is nice, I'll end up with a lot of money. That's all," he said.

Are you offering yourself as a charitable cause? he was asked.

"Oh, no. That's the last thing I want to do," he said.

No particular reason, he said, unless just because he thought up the fund-raising approach.

"Other than that... there's a lot of people no different from me."

Is he, the ever-suspicious reporter asked, really doing this as research for a master's thesis or something similar?

No, he swears. It's not a gag. It's not research. It's just for money.

IT'S ALL RIGHT
Adelson said he sent the letters to newspapers with circulations between 12,000 and 45,000 in the medium to smaller sized towns because he believes the people in the smaller towns would be more likely to send money.

18-YEAR-OLDS
House members then took up a proposed constitutional amendment giving 18-year-olds full adult rights and obligations, a subject covered in a bill that advanced Thursday 109-29 and could come up for a final vote today.

The chief item on today's calendar was a bill by Rep. Dan Kubiak, D-Rockdale, completely restructuring the way Texans pay for their public schools.

Leland's bill would require pharmacies to post conspicuously their prices for the 100 most commonly prescribed drugs. It represents a compromise worked out with the Texas Pharmaceutical Association, which originally had opposed the measure. The compromise includes a strong provision against deception in drug price advertising. It also says that drug store licenses—not those of individual pharmacists—would be suspended for violating the posting law.

SPECIAL ELECTION
Thursday was one of the session's busiest days in terms of major legislation passed.

A proposed constitutional change raising lawmakers' pay from \$4,800 to \$15,000 a year and requiring annual legislative sessions received final approval and will be submitted to the voters at a special election Nov. 6.

Senators accepted House changes in a bill raising maximum workmen's compensation benefits from \$49 a week to \$70 a week and sent it to Gov. Dolph Briscoe. The new maximum would be reached in two steps, starting with \$63 in September and arriving at \$70 a year later.

The House passed to the Senate, 97-38, a bill requiring the death penalty for certain categories of murder.

RAPE, ARSON
Execution would be mandatory for murder of on-duty firemen and policemen, if the killer knew they were carrying out their official duties; murder for hire; murder of jailers and prison guards during escape attempts; and murder in the course of a kidnap, rape, arson, robbery or burglary.

A Senate committee has approved a milder version, allowing life imprisonment as the only alternative to death in the electric chair.

Class 73-08 entered preflight training June 21, 1972. Forty-five officers began in the T-41 Mescalero June 28. On Aug. 3, 1972, the class entered primary training in the T-37 trainer aircraft in L and O flights.

Capt. William R. Poindexter Jr. served as class commander during the T-37 phase.

Advancing to basic training in the T-38 Talon, Nov. 30, 1972, class members were assigned to A and E flights. Capt. Warren J. Hodges served as T-38 class commander.

Second Lt. Clinton E. McNabb will return to Air National Guard units, four will be assigned to Air Force Reserve, and three foreign students, training under the Security Assistance Program will return for flying duty in their native countries.

Beaten Women Two Charged In Burglary

SAN ANTONIO (AP) — A woman, found Thursday in the back of her car badly beaten, was in critical condition at Bexar County Hospital today and a man accused of the attack was held in county jail.

The woman, identified as Marene Snow Smith, 55, of San Antonio, was found in the car, which was perched on the edge of a 30-foot drainage ditch. She had multiple skull fractures, cracked ribs, a crushed chest, and an ear torn off, police said. Lighter fuel had been poured over part of her body and set afire.

Later, Guadalupe Valero, 25, of San Antonio, was arrested and taken before night magistrate Phil Chavarria Jr. Valero was charged with assault to murder and jailed pending \$35,000 bond.

Two men were arrested early Thursday in Waxahachie and charged with burglary of Lucelle's at 1001 S. Scurry on the night of April 20.

Over \$3,000 in stolen articles from Lucelle's were recovered in the garage of the apartment where the two men were apprehended, officers said.

Ernest William Annabele III, 24, of Waxahachie and Darby Pa. and Fred William Brown, 51, from Ft. Worth and Lester, W. Va., were arrested by Big Spring City Police Det. Avery Faulkner, and Texas Ranger Charley Hodges.

The two suspects have been placed in the county jail here, and Justice of the Peace Gus Ochotorena fixed bond at \$5,000 each on charges of burglary.

Window Shattered By Wine Thief

A thief in a hurry did more damage leaving the scene of the Premier Station on Wasson Road than he did in the actual burglary.

The Coke machine had been broken open and a small amount of money taken. Damage to the machine was \$40 and a \$100 damage to a gas tank that was run over in the process.

The crime occurred around 1:30 a.m. on April 20. Neighbors reported "hearing lots of noise at that hour."

The first list of items taken totaled in value of \$3,587.05 and later \$615 more was added.

The list included sewing machines, calculator, typewriters, antique silver, candle sticks, an antique silver vase, assorted tools, assorted sewing appliances, and additional decorative items. There also were missing two oil paintings, valued at \$460.

Thursday, road department employees knocked out a wall in the basement of the Howard County Library.

Larry Justiss, librarian, said they are enlarging a room for magazines. A contractor will finish rough edges, and shelves will be installed.

By Budgeting More, HC Can Join State System

Adding \$9,000 to the \$46,000 library budget would make the Howard County Library eligible for membership in the State Library System, Larry Justiss, librarian, said County Commissioners Court will consider the increased yearly expenditure at their meeting starting at 9 a.m. Monday.

On Aug. 31, no more federal funds will be available for the teletype communications network used for borrowing books and obtaining information from libraries all over Texas, Justiss said.

BOOKS BORROWED
The State of Texas will be paying for the loan system when federal funding stops, Justiss said. Only members of the State Library System will be eligible for book loans.

"It makes your library unlimited," Justiss explained about the loan program.

Other benefits will depend on whether the state legislature increases appropriations from \$50,000 this year to \$1,700,000 for next budget year, Justiss said.

In order to become eligible for State Library System membership, Howard County needs to spend \$1.50 per capita for the library. Now, about \$1.25 goes toward the library for every county resident.

Justiss mentioned revenue sharing funds as a source of the additional \$9,000.

County Commissioner Jack Buchanan will report on the newly-formed Howard County Alcoholism Commission. This group plans to establish a detoxification center for "drunk drunks." The Big Spring State Hospital does not accept drunks unless they are other enough to sign for extended alcoholic treatment.

The court will consider replacing the sheriff's office station wagon. The vehicle's frame was bent in a recent accident, and the court considered straightening the frame this week.

Marvin Hanson, road administrator, will meet with the court, and Mrs. Virginia Black, county auditor, will present bills for approval.

Gritty Grey Spiders Get Wings At Webb Saturday

Thirty-three Gritty Grey Spiders will receive their silver wings and aeronautical ratings as jet pilots in graduation ceremonies Saturday, May 12.

The Gritty Grey Spiders are better known as Undergraduate Pilot Training Class 73-08, and will have a dinner-dance at the Officers' Club Friday night.

The graduation is scheduled for 10 a.m. in the auditorium of Withycombe Hall, with Maj. Gen. Gordon Fisk Blood, commander of the Twelfth Air Force (Tactical Air Command), Bergstrom Air Force Base, Tex., as guest speaker for the group.

The general has served previous assignments in many commands throughout his career. His last assignment prior to his current one was with the Deputy Chief of Staff for Operations and Intelligence, Allied Forces Central Europe (Supreme Headquarters Allied Powers Europe).

Following graduation, 23 of the graduating officers will receive active duty assignments with the U.S. Air Force, three will return to Air National Guard units, four will be assigned to Air Force Reserve, and three foreign students, training under the Security Assistance Program will return for flying duty in their native countries.

Rain

Chance of rain this afternoon, tonight and Saturday 20 per cent. High today, mid 90s. Low tonight, mid 60s. High Saturday, high 80s.

111 MAY 111

FREE RIDE—It looks as though these truckers may have gotten more of a load than they bargained for—it would take a lot of man to handle the rider they appear to be accommodating. But they'll have the last laugh, since this girl will be left behind. She's just a billboard along a freeway in Dallas, Texas.

Rios Zepeda Trial Motion Is Denied

EDINBURG, Tex. (AP) — District Court Judge J. R. Alama overruled today a defense motion for a mistrial in the murder hearing of a San Benito man accused of strangling two high school girls.

Antonio Rios Zepeda Jr., 21, is being tried for murder in 92nd District Court in the April 11, 1972, death of Maria Norma Delgado, 15, of San Benito. He is also charged in the death of her classmate, Patricia Segura, also 15.

PHOTO ISSUE
Defense lawyers Joe Cisneros of McAllen and Johnny Dominguez of Mercedes filed the motion on grounds its was improper for jurors to be allowed to carry pictures of the two victims into the jury room during the mid-afternoon break.

Both Alama and the prosecution pointed out that the defense did not object when it was proposed that the jurors take the pictures with them.

The mistrial motion climaxed a long series of defense objections concerning the admission of the photographs.

Cisneros said the prosecution was admitting the pictures, which included enlargements of each photo, only for the purpose of inflaming the minds of the jury against Rios Zepeda.

RIGHT WRIST
Justice of the Peace Romeo Garza of San Benito testified Segura girl's body found April 11, 1972, in an irrigation canal, was fully clothed except for

shoes. He also said a rope was tied around her right wrist.

Garza also testified the Delgado girl's body found the following day floating face down in another canal, was not wearing panties and had a pale blue towel wrapped around her neck.

Garza testified that he did not make a ruling in the deaths, but ordered Dr. David Flory, a Harlingen pathologist, to perform autopsies. Dr. Flory is expected to testify later.

19-Year-Old Is Checked Out
Deputy sheriffs arrested a 19-year-old local man on suspicion of possession of marijuana at 12:30 a.m. this morning.

But Sheriff A. N. Standard said they would confer with District Attorney Bob Moore before deciding whether to file a felony complaint.

Standard authorized releasing the suspect on a \$1,500 bond. Sgt. Robert Puente and Deputy Sheriff Buster McCartney arrested the man at Tgax 176 and IS-20.

Two cigarettes identified as marijuana were discovered.

Mitchell Enters Teams In Meet
COLORADO CITY — Mitchell County entered three teams in the junior division of the 4-H district contests at Lubbock.

Their names, topics and placements are: Dawn Lemons, Jana Bassinger, Community Improvement — second place; Randy Anderson, Ray Richey, Field Crops — second place; Brad Fincher, Kirk Stubblefield, Safety and Emergency Preparedness — no placing.

During the awards assembly, Bruce Hill of Mitchell County installed the new officers of the District 2 4-H Council. He had served as chairman of the organization for the 1972-73 year.

Doctors, Nurses Attending Clinic
Around 70 nurses and doctors are attending a two-day cardiac care clinic today and tomorrow at the HCJC auditorium for the spring meeting of the American Heart Association, Region XIII.

Physicians and registered nurses from Big Spring and throughout West Texas are hearing lectures and panel discussions on the various aspects of the theme "The Myocardial Infarct: Challenge to Creative Care."

The meeting will end at noon on Saturday.

Mother Dies
AUSTIN — Mrs. W. M. Condra, 77, mother of a former Big Spring man, died at an Austin hospital Wednesday.

Services were held this afternoon in Austin. Among survivors is a daughter, Mrs. Cliff (Joetta) Riley of Big Spring.

Mrs. J. Bourgoyne
SAN ANGELO — Services were held at 4 p.m. today for Mrs. Joe (Mary Etta) Bourgoyne, 47, who was dead on arrival at a local hospital Wednesday.

Burial was in Calvary Cemetery. Among survivors is a daughter, Mrs. Cliff (Joetta) Riley of Big Spring.

Dawson Farmers Planting Cotton
LAMESA — Dawson County, which awaiting final figures on last year's crop to determine whether it is the No. 1 or No. 2 cotton producing county in the United States is too busy to worry about it.

From sunup to sundown and from one border of the county to the other, farmers are reading their land and planting.

There has been enough moisture for the dry-land areas to plant as well as the irrigated cotton fields, agriculture observers noted.

Some recent years have had severe spring droughts that forced farmers to plant way up in mid-June.

"We're hoping to have cotton out of the ground by this time this season," farmers said, adding ruefully.

"Then we have to worry about early summer hail storms."

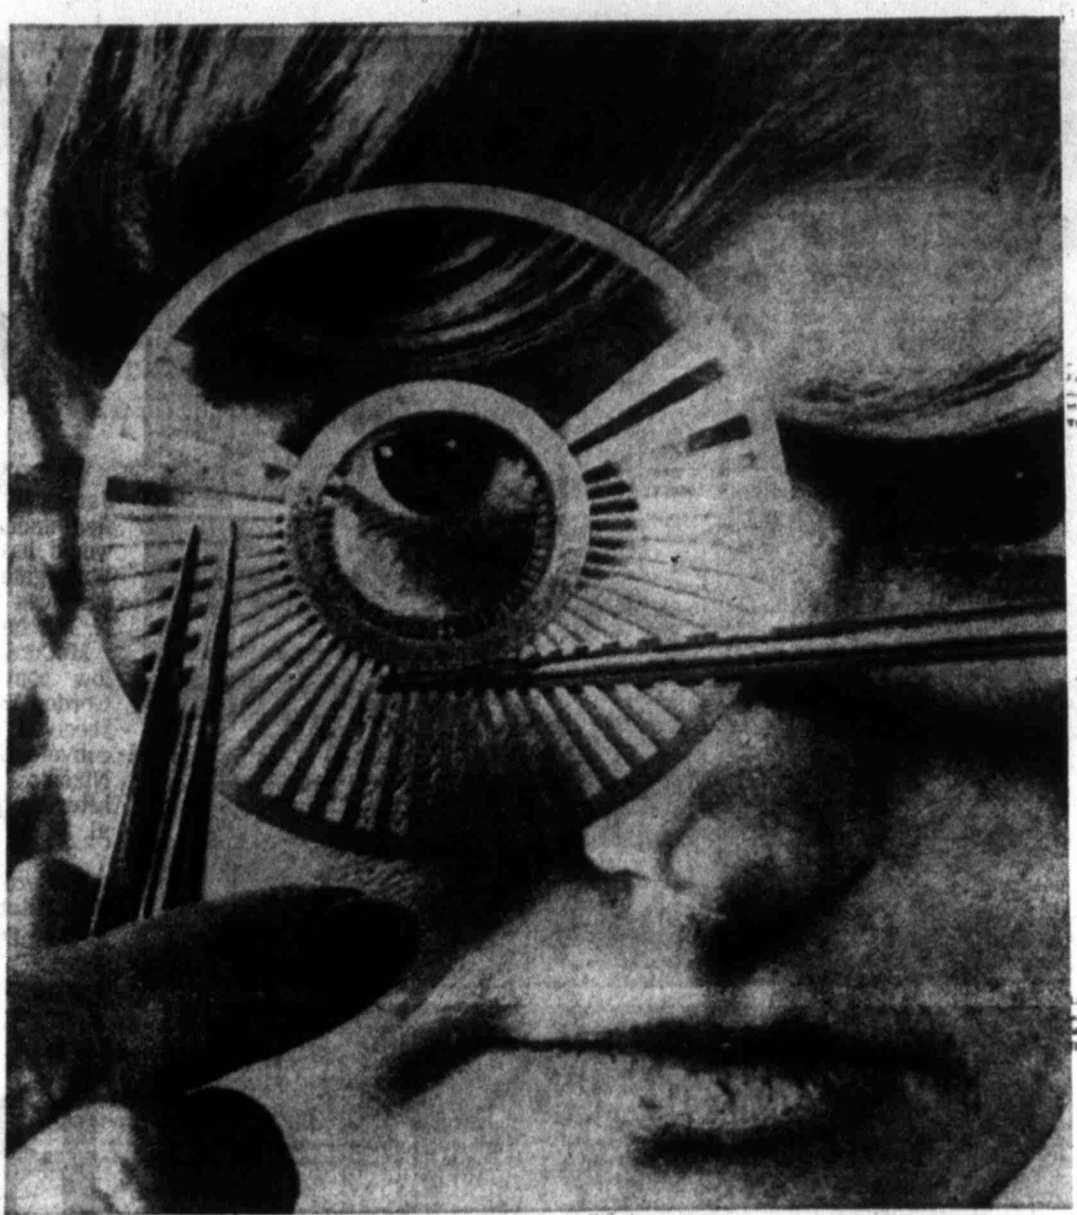

Turnout Is Good For EEO Seminar
Response to Thursday's Equal Employment Opportunity Commission seminar was better than advance registration indicated, according to Ron Mercer, Chamber of Commerce manager.

While only seven local businessmen had pre-registered, 21 attended the clinic conducted by Andy Lopez of the EEOC office in Albuquerque, N.M.

After spending an hour giving background on the Fair Employment Act, Lopez answered questions from those attending concerning employment of female and ethnic minority persons.

Group Heading For Convention
Don Worthan, president of the Big Spring Jaycees, headed a local delegation today to the state convention being held in Austin this weekend.

Big Spring has entered several projects in the state competition.

MOD MONOCLE?—No, that's not a fancy monocle the lab technician Pat O'Connor is examining at the Lexington, Mass. Honeywell Radiation Center. The device is actually part of an infrared sensor assembly to be used aboard the forthcoming Skylab space vehicle. It will help search the earth for new sources of oil, gas and minerals.

Guerrillas From Syria Shell Post In Lebanon

BEIRUT, Lebanon (AP) — Palestinian guerrillas from Syria shelled a border post in northern Lebanon today, but returned the fire. The army said the guerrillas withdrew into Syria, and there were no Lebanese casualties.

Under "an intensive attack by rockets and mortars" before dawn, and the Lebanese troops returned the fire. The army said the guerrillas withdrew into Syria, and there were no Lebanese casualties.

District's Evaluation Project In State Bill

Rep. Renal B. Rosson, Snyder, advised the Colorado River Municipal Water District today that \$100,000 per year will be included in the appropriations bill for evaluation of the district's water modification project.

Rep. Rosson, the only member of the House-Senate conference committee to come from West of the Brazos River, earlier had succeeded in getting the amount put in the House bill. The Senate had included \$25,000 in its version of the appropriations bill.

O. H. Ivie, general manager of the CRMWD, was in Austin Thursday when the conference committee took up the water development portion of the bill. He conferred with Rep. Rosson and with Sen. Tom Creighton, Mineral Wells, also a member of the committee named to work out differences in the bill.

Rep. Rosson said that the final version of the bill, funds will enable the TWDB to scientifically determine what effect the cloud seeding program has on inducing rainfall.

Rep. Rosson also served on the House appropriations committee which spent over 300 hours in hearings before passing the House version. The bill appropriated \$9.5 billion for the next two years. Both houses must approve the House-Senate conference report; then the bill goes to the governor.

Zone Social Is Held Wednesday

Representatives from half a dozen Lions clubs and their ladies participated in the annual Spring zone social at the Big Spring Country Club on Wednesday evening.

Here for the occasion were Ewart Phillips, District 2A-1 governor, and Mrs. Phillips from Brownwood; Tom Nipp, Midland, governor-elect, and Mrs. Nipp; and Mr. and Mrs. Ken Bozeman, Midland. He is zone-chairman designate.

The stage band from Big Spring High School, directed by Gene Curry, furnished music and Dr. B. Gage Lloyd was the speaker. Jim Lemons, president of the Big Spring Downtown Club and a member of the governor's cabinet, presided. The Lions Auxiliary provided decorations.

Virgil R. Clark Helps In Study
Virgil R. Clark, president of the local unit of the National Association of Retired Federal Employees, will be one of ten men in the state to serve on a legislative constitution study group who are meeting this weekend in Houston.

He was selected at the monthly meeting here Thursday morning at the First Federal Savings and Loan club room.

Mrs. Bessie Love spoke to the group on the services of the Howard County Council on Aging.

John H. Samuel displayed a rock exhibit which was collected overseas, in Mexico and the United States.

The group planned their June meeting to be a covered dish luncheon in the park on June 14 and cancelled July and August meetings.

Allen denied that the company contributed to the campaign. He said the \$100,000 was his personal donation. Allen also said the money was asked for and returned in January.

Justice Department criminal division lawyers Walter Barnes and Craig de Santo from Washington are directing the probe.

Subpoenas for Liedtke, Winchester, Allen and Urech were issued about two weeks ago, along with one for some corporate records from his sources.

Liedtke and Winchester, Southwest regional fund raising co-chairmen for the Nixon campaign, have acknowledged transferring the money from Mexico to Washington but have said there was nothing illegal about their actions.

Three witnesses testified Thursday, including William C. Liedtke, president of Pennzoil Co., Pennzoil lobbyist and vice president Roy Winchester and Gulf Resources treasurer Arthur Urech.

Allen denied that the company contributed to the campaign. He said the \$100,000 was his personal donation. Allen also said the money was asked for and returned in January.

DEATHS

Mother Dies
AUSTIN — Mrs. W. M. Condra, 77, mother of a former Big Spring man, died at an Austin hospital Wednesday.

Services were held this afternoon in Austin. Among survivors is a daughter, Mrs. Cliff (Joetta) Riley of Big Spring.

Mrs. J. Bourgoyne
SAN ANGELO — Services were held at 4 p.m. today for Mrs. Joe (Mary Etta) Bourgoyne, 47, who was dead on arrival at a local hospital Wednesday.

Burial was in Calvary Cemetery. Among survivors is a daughter, Mrs. Cliff (Joetta) Riley of Big Spring.

W. W. Bailey
COLORADO CITY — Former Cee City resident Woodrow Wilson Bailey, 57, of Oakland, Calif., died Saturday in a San Francisco hospital.

Services will be at 2 p.m. Saturday in Mt. Zion Baptist Church with H. H. Lee officiating. Burial will be in Mitchell County Cemetery under direction of Kiker-Rains-Seale Funeral Home.

Mr. Wilson was born July 28, 1915 in Smith County and moved from Colorado City to Oakland 20 years ago. He was an employe of Southern Pacific Railway Co., a World War II veteran and a Baptist.

Survivors are his wife, Mrs. Thelma Bailey, Oakland; two daughters, Mrs. Hattie McPherson, Pittsburgh, Calif., and Mrs. Rosetta Davis, Oakland;

assisted by Dr. Claude Craven, pastor of Trinity Baptist Church. Burial will be in Mount Olive Cemetery.

Mr. Rainey was born June 12, 1901 in Henderson. He came to Howard County in 1922. He was a retired carpenter and a member and deacon of College Baptist Church.

Survivors include his wife, the former Delza Coates, Big Spring; a daughter, Mrs. William A. (Marie) Steagald, Big Spring; two brothers, Elmer Rainey, Colorado City, and Emrie Rainey, Lake Thomas; a sister, Mrs. Joe Hull, Big Spring; four grandchildren and six great-grandchildren.

E. L. Barron
Services were held this morning for E. L. (Tony) Barron, 58, who died in a local hospital Thursday morning. Burial was in Trinity Memorial Park. Pallbearers were James Duncan, Mickey Carroll, Louis Helms, Buel Wood, Carl Brock, Justin Holmes, Nathan Brock and Richard Pachall.

Julia Webb
POST — Services were to be held this afternoon for Mrs. Julia Viola Webb, 92, who died Wednesday in Lovington, N.M. Burial was to be in Terrance Cemetery.

Among survivors is a sister, Mrs. Ista Huddle of Big Spring.

Ernest Rainey
Ernest Austin Rainey, 71, died at 10:54 a.m. today in a local hospital after a long illness. Services will be at 3 p.m. Saturday in Nalley-Pickle Rosewood Chapel with Dr. Jimmy Law, pastor of College Baptist Church, officiating

House Approves Bill To Reinstate Death Penalty

AUSTIN, Tex. (AP) — Bible verses as well as legislators contended Thursday before the House voted to pass a death penalty bill to the Senate.

Two bearded black representatives failed to turn House opinion around, and the bill was passed 97-38.

Shortly before that, the Senate Jurisprudence Committee sent a somewhat milder death penalty bill to the Senate floor for debate after rejecting a measure similar to that approved by the House.

Rep. Mickey Leland, D-Houston, a Negro pharmacist, read two Bible passages to the House: "Thou shalt not kill" and "Blessed are the merciful for they shall obtain mercy."

The bill's sponsor, Rep. Dean Cobb, D-Dumas, also came prepared with Bible verses.

He read two Old Testament passages which he said prescribed death for murderers, including Numbers 36:30— "Whoso killeth any person, the murderer shall be put to death by the mouth of witnesses as soon as someone is sentenced to death."

Cobb said the death penalty is a deterrent to murder in the same way that a lighthouse prevents shipwrecks.

"There is no way statistically that you can know how many lives have been saved by having the death penalty," he said.

The legislature is trying to write a death penalty bill that will satisfy the U.S. Supreme Court, which probably would get an opportunity to rule on it.

Last year the high court ruled in Texas and Georgia cases that the death penalty was applied so randomly and inconsistently that it was unconstitutional.

The Senate committee wrestled with the problem of what to do about a "Godfather" who hires someone else to do his killing.

EXECUTION

The House bill would require execution in the Huntsville State Prison electric chair for murder for hire; murder of an on-duty policeman or fireman with knowledge that he was performing his official duties; murder of a jailer or guard during an escape attempt; and murder in the course of a kidnapping, burglary, robbery, forcible rape or arson.

In contrast, the Senate committee bill would allow life imprisonment as an alternative to execution, while applying to basically the same categories of murder.

The House bill was tentatively approved Tuesday afternoon.

"I couldn't go home and sleep the other night knowing you voted for it without having your conscience appeal to," said Craig Washington, D-Houston, a Negro lawyer.

DULL ROAR

Usually operating at a dull roar, the House fell silent as Washington spoke.

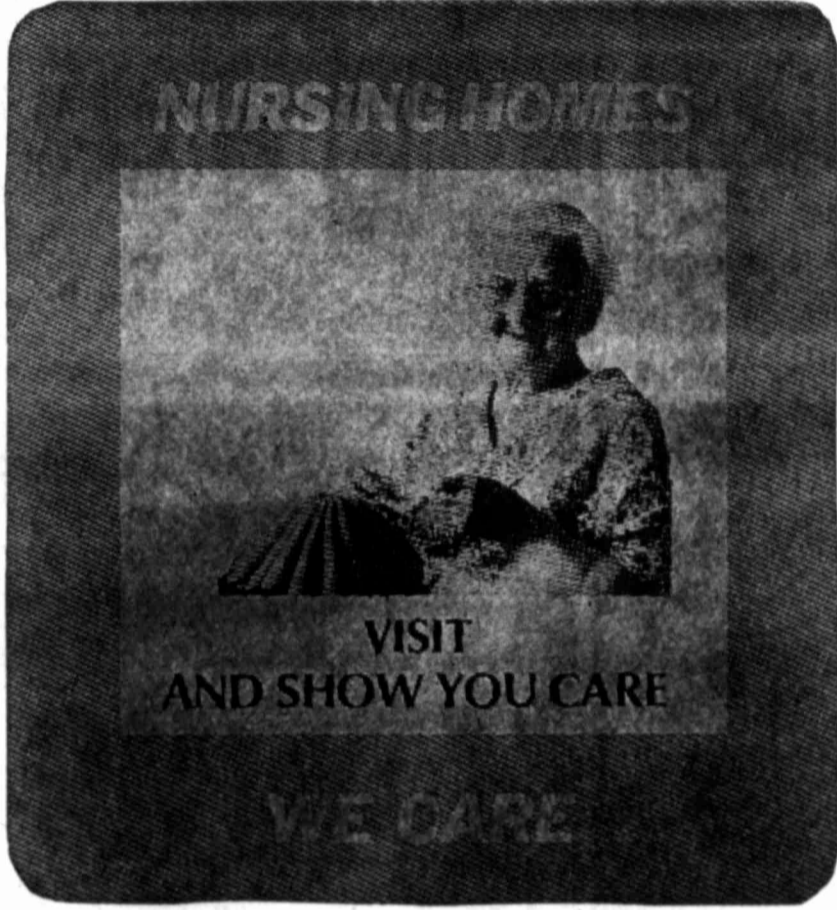

"All the documentary evidence indicates there hasn't been an increase in capital murder since we've had a moratorium on the death penalty. In fact, we've had a decrease," he said. "... If we make a mistake (in executing a convict) there is no way on God's earth it can be rectified."

He quoted the prescribed death sentence which judges must read to condemned men, ordering a "current of electricity" to be passed through their bodies at Huntsville before dawn of a given day.

VICIOUS CRIME

"That, in my opinion, is murder—the most vicious crime, when you tell a man the day and hour of his death and you do it in the name of the state and the name of justice," Washington said.

REPLAYING SOUNDS OF PATIENT'S BRAIN

Key To Headache Relief

EDITORS NOTE: A San Antonio psychologist believes mental control is the key to eliminating chronic tension headaches and even more debilitating migraine headaches, as long as the pain does not stem from an organic condition such as a tumor. A step in the treatment is the replaying of sounds of the patient's brain when it is relaxed. AP writer John Lumpkin, although not necessarily a biofeedback expert, reports on the psychologist's treatment.

By JOHN LUMPKIN
 Associated Press Writer

SAN ANTONIO, Tex. (AP) — Dr. Richard McKenzie's medicine chest of headache remedies includes a cassette tape recording for home use and electronic laboratory gadgetry that allows a patient to "hear" his own brain.

There are no pills in McKenzie's treatment plan for patients plagued by stress-related head pain.

The foundation of the plan is mental control.

JANE'S PAIN

According to McKenzie's records, the plan worked for a 31-year-old school teacher who told medical authorities, "I live with a headache." It did not work for a "plain Jane" college coed who, McKenzie said admitted her headaches were a way to receive attention from others which she might not have gotten otherwise.

McKenzie, 48, a staff psychologist at the University of Texas Medical School at San Antonio, says the principle of the treatment "is a simple-minded thing. It is based on the fact that you can't be tense and relax at the same time."

He says headache-prone persons can be taught to recognize stress buildup and abort the subsequent pain by successfully instructing their bodies to relax.

"We are retraining you. We are teaching you a way of teaching yourself to cope with your mental stress," McKenzie said. He concedes the retraining of a chronic jaw-clenching executive may not be simple.

-DON'T DO IT

"The problem is that the headaches are useful." In a sense, he says, it may be better for a man to allow stress to increase to the point of a headache, rather than to relieve the stress by telling the boss where to go and thereby losing a job.

"Therefore, our treatment goals are conservative," McKenzie says. He says the goal is to reduce the frequency, severity and duration of the headaches, rather than eliminate them entirely.

Patients come to McKenzie only by referral from medical practitioners, who have ruled out organic causes such as tumors or concussion. The patients can expect to pay about \$250 to \$300, depending on the time spent with them, McKenzie says.

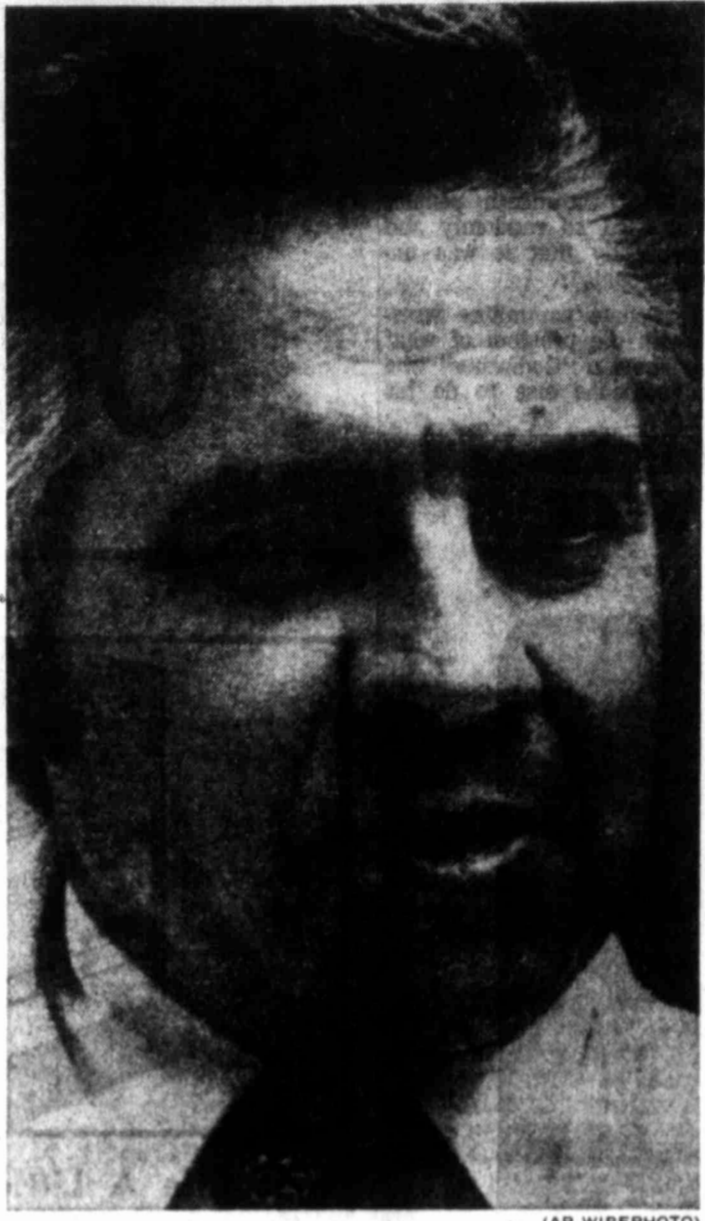

They are given a series of physical exercises which consist of tensing various muscle groups such as the face or an arm. The patient tightens a muscle group for 10 seconds then relaxes it as a part of a 12-minute program repeated three times daily.

The schoolteacher, who McKenzie said responded best to treatment, had 35 hours weekly of headaches of medium intensity, 16 hours of more severe headaches and 30 hours of incapacitating headaches.

BRAIN WAVES

The medical staff measures the patient's brain waves with an electroencephalogram, and muscle tension with an electromyogram to determine physiological parameters.

McKenzie suggests ways to produce relaxation by what he calls mental exercises.

(AP WIREPHOTO)

HEADACHE DOCTOR—Dr. Richard McKenzie, a psychologist at the University of Texas at San Antonio, has established a treatment routine for headache patients which includes allowing them to listen to their own brain to "hear" tension subside.

"Visualize the number 3," the doctor tells the patient, whose eyes are closed as he slumps in an easy chair after undergoing the series of physical exercises. McKenzie tells the patient "to enter a deeper state of both mental and physical relaxation" by discarding one numeral and visualizing another and then another in descending order.

At another point, the patient may be told to recall "a scene, perhaps from your childhood, in which you experienced total mental and physical relaxation," such as a pastoral scene or a scene by a beach on a sunny day.

ALMOST HYPNOTIC

McKenzie's slow, agreeable voice has an almost hypnotic effect. That same voice is available to patients on a cassette recording tape, which they can take home to help them practice relaxation control.

Another element of the treatment plan is called auditory biofeedback. The idea, says McKenzie is to "enhance" the production in one's brain of the frequency range of electrical impulses which is associated with relaxation. Such a frequency range is designated Alpha by scientists.

"Alpha production and the state of relaxation go hand in hand. It is extremely difficult to produce alpha during tension," McKenzie says. An apparatus in McKenzie's

laboratory translates the Alpha frequency range shown on electroencephalogram charts into sound impulses that can be heard by the patient. In other words, the patient hears his own Alpha production.

RELAX

McKenzie puts the patient into a reclining chair and fits him with a headset instrumented with the sensors of the electroencephalogram. The patient is covered with a blanket because his body temperature drops when he relaxes.

The lights in the laboratory are extinguished. If the biofeedback procedure works, the patient finds that the sound impulses become more numerous as he relaxes. In the background is McKenzie's voice, praising the patient with each increase in Alpha production.

Each biofeedback session lasts 10 minutes. "Somehow, our patients have lost control. We're teaching them how to regain control with an external reward system which leads to internal control. This is just one way of doing it," says McKenzie of biofeedback.

5-To-15 Years For Rap Brown

NEW YORK (AP) — Black militant H. Rap Brown has been sentenced to 5-to-15 years in prison for his role in the armed robbery of a Manhattan bar and the assaulting of a policeman in the shootout that followed.

Two co-defendants received similar sentences Wednesday and the sentencing of a third was postponed to give his attorneys a chance to produce new evidence.

Brown was on the FBI's "10 most wanted" list when he was arrested on a rooftop after the bar holdup on Oct. 16, 1971.

Area Has Forester, No Forest

FORT WORTH (AP) — The Dallas-Fort Worth area, which never has had a forest, now has a forester.

The Texas Forest Service of the Texas A&M University System has noted that over the past few years about half of the 150,000 private, non-industrial owners of East Texas timberlands now reside in urban areas. The majority of these landholders live in the larger metropolitan areas of Dallas-Fort Worth, Houston and San Antonio.

This increased urban ownership of forest land has caused the service to extend its program closer to the people who visit the forest only occasionally.

Texas' first urban forester is Bobby Young, a 1969 graduate of Louisiana State University and a native of Alexandria, La. Young's major responsibilities in the Dallas-Fort Worth area will be to serve as liaison between urban timberland owners and public and private foresters regarding the protection and proper management of their timberlands.

Although homeowners may call on Young for advice on tree problems, most will be referred to local specialists.

Pentagon Papers Trial Moves Into New Legal Entanglements

LOS ANGELES (AP) — The Pentagon papers trial moves today into new legal entanglements following disclosures that Daniel Ellsberg was overheard by federal wiretappers whose records have vanished.

The FBI revealed the government researcher was heard on a wiretap up to two years before he released the Pentagon papers to the news media.

WIRETAP ISSUE
U.S. District Court Judge Matt Byrne, demanding that the government answer to him today about the disappearance of 1969 and 1970 wiretap logs, also has told attorneys for both sides to be prepared for legal arguments on the wiretap issue.

The team of defense attorneys urged questioning of former Atty. Gen. John N. Mitchell and perhaps President Nixon about the secret wiretaps at the home of Ellsberg's friend Morton Halperin, a one-time White House official.

With legal grounds apparently mounting for possible dismissal of the case against Ellsberg and Anthony J. Russo, Byrne has the choice of deciding for or against dismissal after today's arguments or of waiting for more evidence from the government.

Ellsberg and Russo are accused of espionage, conspiracy and theft for copying the Pentagon papers, a top secret study of U.S. involvement in Vietnam, in 1969.

Byrne's two-week probe of possible government violations in connection with the trial spread to two fronts as a result of Thursday's wiretap disclosures. He was probing not only Watergate and White House links to a burglary of the office of Ellsberg's psychiatrist, but also sought to bring out missing records of the apparently suppressed wiretap evidence.

While the wiretap dispute deflected attention from the central Watergate-White House involvements, the judge kept an eye on that probe. He released to the defense team a document involving former presidential counsel Charles W. Colson. The government prosecutor opposed making the Colson document public, calling it irrelevant to the trial.

FORD QUESTIONED AFTER MEETING—Henry Ford II, left, chairman of the board of Ford Motor Co., gestures as he answers newsmen's questions behind stage and at the end of the 18th annual Ford Stockholders meeting in Detroit Thursday. At right is Lee A. Iacocca, Ford Motor Company president. Ford said that 1974 automobile prices will go up substantially but the sales will drop from this year.

Conferees Hope To Eliminate Big Differences In Budget Bill

AUSTIN, Tex. (AP) — A fast-working negotiating team of the House Appropriations Committee. "Ain't no way I can go back to the House without this. I think Indians have been abused long enough."

The committee argued over funds from the Alabama-Coushatta and Tigua tribes. The Senate money was several thousand less than what the House put up.

"Let's don't talk about fiscal responsibility to people we've robbed, raped, pillaged and burned," said Caldwell.

He had to convince Sen. A. M. Aikin Jr., D-Paris, the 67-year-old "dean" of the Senate, and part-Indian himself.

When told the committee was discussing the Indian appropriation, Aikin said, "send 'em to the Rice Hotel."

That referred to Aikin's long-standing quip that the state could put every Indian up in the Houston hotel for what it appropriates each year.

EMOTIONAL
"I'm pretty emotional about this," Caldwell whispered to Aikin.

"I am, too," Aikin replied. "My grandmother was a Cheyenne."

Aikin subsequently agreed to the House funding levels.

The committee delayed action on a multi-million dollar budget for the Texas Industrial Commission after several committee members complained of around-the-world junkets.

RENT QUEEN
"We feel that the commission has departed from its intended goal," said Caldwell.

"They have no business renting the Queen Mary — that's what they're going to do — and sailing around the world. Let's get them out of the foreign trade business," he added.

House Members asked to delete the \$335,000 foreign trade allowance from the nearly \$3 million dollar appropriation, but Sen. Tom Creighton, D-Mineral Wells, and other senators asked to delay a vote until they talked the deletion over with other senators.

HEART WOUNDS
Conferees voted Thursday night to include \$3.9 million to pay for next year's primary elections, which the state must finance. The money was included in the Senate bill but not in the House version.

A stubborn representative talked an economy-minded veteran senator into spending \$200,000 on Texas Indians.

"I read 'Bury My Heart at Wounded Knee' twice," said

UTPB Complex To Be Opened

The five-building South Campus Complex of the University of Texas at the Permian Basin in Odessa will be officially opened in a two-day series of events which began this morning.

Representatives of nine Permian Basin museums simultaneously cut ribbons opening their exhibits in the South Campus classroom building at 11 a.m. today.

At noon, A. B. McNeese, UTPB board of regents chairman, was presented keys to the new buildings.

Saturday has been declared UTPB Library Day with ceremonies at 9 a.m. to dedicate the university as a regional historical resource depository of the state archives. The library will be opened at 10 a.m. by UT regent James Baurele.

Dad Of Newsmen Cronkite Dies

ST. JOSEPH, Mo. (AP) — Services are scheduled Saturday afternoon for Dr. Walter L. Cronkite, a retired dentist and father of Columbia Broadcasting System newsmen Walter Cronkite, who died Thursday at the age of 74.

Cronkite was stricken at his home and was dead, apparently of natural causes, on arrival at a St. Joseph hospital.

FBI Is In Trouble

The Federal Bureau of Investigation is in deep trouble. Not since J. Edgar Hoover took over the hack-ridden agency and made it into a model of law enforcement efficiency has the FBI been caught in so many damaging cross-currents.

Hoover was partly to blame in that he did not bring up a man from the ranks to succeed him. President Nixon is to blame in part because of his selection of L. Patrick Gray III as acting director, but for only two months of service.

The dangers of politicizing the FBI were only too apparent during the hearings on the nomination of Gray. One of the most chilling disclosures was that after reassurances were given some employees of the Committee to Re-Elect the President that their statements would be kept confidential, then the statements were turned over to officials of the committee. Also disturbing were the activities of Gray during the presidential campaign last year, when he seemed to be acting as one of the President's surrogates. Finally, the disclosure that Gray destroyed papers germane to current investigations is shocking.

During his long reign, Hoover managed as well as any one could to insulate the FBI from politics. Yet it is idle to imagine that an equally commanding figure can be produced, so to speak,

out of a hat. The politicization of the FBI is thus well along. Nothing could be more damaging to morale within the agency, where agents have long prided themselves on the independence of their agency and its insulation from politics.

At least two more months of uncertainty under the temporary direction of Ruckelshaus is in store

for the agency. Yet delay can only magnify problems of morale, making it much harder for a new director to take charge and gain the respect of his subordinates. The President should move promptly and decisively to name a permanent director of the FBI, and that person should act decisively to remove the FBI as far from political influence as possible.

A Wise Decision

The Texas House, in adopting a resolution urging Congress to establish a Big Thicket national park, wisely turned aside efforts to fix the acreage of that park. The resolution now is before the Senate.

The resolution, if adopted by the 63rd Legislature, will represent no more than an opinion of legislators transmitted to members of Congress. But it can serve to solidify sentiment among members of the Texas delegation.

Congress is the sole authority for deciding how big the Big Thicket should be. Congressional committees who have toured the area and heard recommendations from residents and proponents have not decided on the size of the park.

Suggestions range from 35,000 acres to 100,000 acres.

There can be no question about the need for preserving a part of that wilderness area, with its unique flora and fauna. Those who have visited the area, with its great trees, its lakes, its cathedral-like quietness broken only by the calls of birds, feel a compulsion to preserve a part of that wilderness for the enjoyment of future generations of Americans.

But time is running out. Logging crews are cutting through the Big Thicket at the rate of at least 50 acres a day. Congress should act promptly, lest there be no Big Thicket to save.

My Answer

BILLY GRAHAM

I have been wondering about how much man is worth. I mean intrinsically. Some chemist suggested about \$2, considering the amount of iron, sulphur, lime, etc. in the body. Do you have any figures on this?

H.P.V. Estimates of our chemical worth are really of little value. Nothing demeans or diminishes a person more than expressing humanity in terms of chemistry or biology.

If it's dollars you're interested in, however, consider a man's automatic worth. I read recently where from an atomic energy standpoint man theoretically has a potential of 11,400,000,000 kilowatt hours per pound. At the current rate that means value over 500 million dollars per pound. From that computation, even a lightweight is a multi-billionaire.

But the most accurate and touching story about the worth of man is the parable our Lord told about the sheep on the mountain. Ninety-nine of the 100 sheep were all right, but the single lost one was provocative for the Shepherd to seek it out. In Matthew 12:12, Jesus asked, "How much more valuable is a person than a sheep?"

It is not coincidental that history reveals godless nations operation on the premise that man is of little worth — a sort of commodity which the state can handle, use and abuse. The ultimate of this perverted view were the ovens and the concentration camps in World War II Germany.

McNelly

Take a look at the cross, and you'll see how much man is worth. Said Paul (Romans 5) "But God showed His great love for us by sending Christ to die for us while we were still sinners." Because Christ came, no one need ever feel of little consequence.

Hal Boyle

Poor Taxpayers

(Substituting for Hal Boyle) WASHINGTON (AP) — Taxpayers are spending between \$50,000 and \$100,000 a day in subsidies for at least 20 huge tankers waiting in U.S. ports, often for weeks, to be loaded with wheat and corn for the Soviet Union.

And even larger subsidies will be paid while the ships are at sea, an Associated Press survey shows.

In all, government officials say, 83 U.S.-owned ships have qualified for the special subsidies to haul grain to the Soviet Union.

"We don't know what the total subsidy bill will be," says R. A. Coonin, a spokesman for the Federal Maritime Administration. "Any figure I give you now would be understated."

Coonin said in an interview the waiting time in ports is "of growing concern" and that efforts are being made by the government, the shipping industry and the grain trade to speed schedules.

Meanwhile, he admitted, it still is common for ships to wait for weeks at Gulf ports, where

most of the grain is loaded. In all, he said, the total time involving federal subsidies, including actual shipping and return, is commonly 60 to 90 days.

The subsidies vary according to size of ship and cost factors. While at sea the subsidy rate usually is \$500 to \$1,000 per day more than when the ships are in port waiting to take on grain.

Few of the larger tankers reportedly qualify for subsidies in excess of \$10,000 at sea. Officials say most receive less.

The subsidies are paid so that U.S. ships, much more expensive to use than foreign vessels, can haul part of the \$1 billion worth of wheat, corn and soybeans sold to Russia last year.

The ships — nearly all tankers — begin earning subsidies as soon as they reach the port where they take on grain.

An example is the Gulf Queen, a tanker with a capacity of 35,000 tons. Many are larger. At least two U.S.-owned tankers used for grain hauling since the subsidy arrangement began last October are in the 70,000-ton

class. According to Maritime Administration officials, the Gulf Queen arrived in Port Arthur, Tex., on March 12. For nearly seven weeks, at a federal subsidy estimated at \$4,200 per day, the ship stood idly by while others took their turns at elevator grain-loading spouts.

Finally, on April 24, the Gulf Queen sailed for a Soviet port on the Black Sea with 32,500 tons of grain. While making the round-trip voyage — estimated at about 20 days "sea time" each way — the Gulf Queen will draw approximately \$4,800 a day in federal subsidies for her owners, identified by the Maritime Administration as Blackships, Inc., a subsidiary of Gulf Oil Corp., New York.

The ocean-freight subsidies involving grain sold to the Soviet Union last year — some 19 million tons of wheat, feed grain and soybeans — are part of an arrangement worked out with Moscow so that U.S.-owned ships could participate in the unprecedented shipments.

Dr. G. C. Thosteson

Tremor Or Palsy?

Dear Dr. Thosteson: A friend has developed palsy in the last two years. He asked me to write — he is 65 and his hands shake so he cannot write.

He went to a doctor who gave him some pills which had a tendency to make him feel doped but only made his hands shake worse.

What causes palsy and what treatment would you suggest? —R.E.D.

Let's split hairs for a moment over terms. "Palsy" implies weakness or paralysis — which may or may not include shaking or tremor.

A tremor, however, is an involuntary movement — this can be of the extremities or of the head. And I gather that your friend's problem is a tremor rather than a real palsy.

As to "the cause," there are several. Parkinson's disease is a likely possibility at your friend's age. L-dopa and a number of other medications have been pretty useful; no single medication has proved

satisfactory in all cases. There is also a tremor of old age that resembles Parkinson's disease but is not accompanied by other symptoms of that disease.

An overactive thyroid can cause a fine tremor. This, too, can be treated successfully.

Finally, there are various disorders of the nervous system, much less common, but to be considered when the more common causes have been ruled out.

Since your friend's medication did not help him, he should return to his doctor for further diagnosis, or seek the help of a neurologist.

Dear Dr. Thosteson: What is the cause of cramps in feet and legs at night? — Mrs. G.

Common reasons are faulty footwear or defects in the feet which subject the leg muscles to excessive strain during the day; lack of sufficient calcium; impaired circulation. For information on the

various causes and how to prevent them, I suggest that you send 25 cents and a long, self-addressed, stamped envelope to me, in care of the Big Spring Herald for a copy of my booklet "How to Stop Leg Cramps and Foot Pains."

Dear Dr. Thosteson: Could cooking with aluminum utensils possibly be harmful to the body? — A.S.

Not unless you burn yourself by grabbing a hot pot.

Acne is one of the most terrible problems of growing up. If you are afflicted with this aggravation, or if you have children who are, write to Dr. Thosteson in care of the Big Spring Herald for a copy of his helpful booklet, "Controlling Acne, Blackheads and Pimples." Please enclose a long, self-addressed (use zip code), stamped envelope, and 35 cents in coin to cover cost of printing and handling.

'Swallow A Camel...'

Around The Rim

John Edwards

Members of the County Commissioners Court did not hold a secret meeting before the regular Monday morning meeting this week, they should have.

With no prior notice, bids were authorized for more than \$100,000 in vehicles and equipment purchases with revenue sharing money. (Tradesmen were mentioned.) County Judge A. G. Mitchell had told an inquiring reporter earlier that county revenue sharing funds probably would go toward road department equipment and paving.

NO PUBLIC indication, however, was made before the meeting of the impending bid authorizations for road equipment and vehicles. Questioned minutes before the meeting about late breaking topics for court consideration, Mitchell mentioned none.

As I remember it, Commissioner Simon (Cy) Terrazas started the list suggesting dump truck replacements. Every time I looked up, another item was proposed.

No one was more surprised than Sheriff A. N. Standard when he learned Mitchell had suggested buying a long-desired jeep for the sheriff's office. Later, advertising for bids on two new patrol cars was authorized.

A few weeks earlier, the court had indefinitely tabled consideration of \$100 to get Deputy Sheriff Richard Doane to bomb training school.

STANDARD, WHO frequently complains about employ shortages, was willing to allow Doane the three weeks and have other employes fill in without adding temporary help.

In support of his request, Standard talked about a couple of courthouse bomb threats which turned out to be unfounded.

Mitchell, a former deputy sheriff under Standard and Big Spring police chief, said Standard should have told him so he could have grabbed his budget and run.

But back to the planned spending spree. In approximately two hours, the court had ordered advertisements for not only the \$100,000 plus in machinery and vehicles but about \$50,000 in airport improvements.

C. R. Crim, a local engineer, had mapped out airport improvements and started paper work for a 50 per cent federal grant.

Commissioners Bill Crooker and Jack Buchanan were chosen to aid in preparing specifications businesses must follow to obtain the county's revenue sharing stash.

AN UNANNOUNCED meeting was posted about two and one-half hours before it was held Tuesday afternoon. And the committee brought up the matter of air conditioning the assistant road administrator's next pickup.

"If you got enough gumption to amount to something, you're supposed to get the goodies," Mitchell said in the Harry Truman tradition. The three non-committee members voted through the air conditioning with the committee men opposing.

Mitchell proceeded to poke fun at members of the court even pausing to congratulate Crooker when the lone Republican made a successful motion — to adjourn.

"If you can't stand the heat, stay out of the kitchen," is approximately what the former president said. Buchanan said the kitchen will be a lot warmer than it was Tuesday when the court meets as a board of equalization June 28, 29.

War Hangover

By Rowland Evans
And Robert Novak

PHNOM PENH, Cambodia — The Nixon Doctrine, failing here in its most critical test, is the victim of crippling restrictions imposed by Congress and a numbing hangover from the Vietnam war.

THE CONGRESSIONAL prohibition against U.S. military advisers dooms the Cambodian army (FANK) to inept leadership and steady deterioration. Washington's attempt to maintain a profile here has permitted a comic-opera Cambodian despotism with tragic consequence. Thus, as we reported earlier, Cambodian independence from Hanoi is maintained only by U.S. bombing, which Congress now threatens to end.

This suggests that the Nixon Doctrine, pledging help to any country willing to fight for its survival, is a dead letter when a Communist neighbor exports revolution. Ironically, while the memory of Vietnam bars a vigorous U.S. role here, turning Cambodia into a satellite of North Vietnam would threaten all the blood and treasure invested by the United States in South Vietnam.

THE SHACKLES were imposed by

Congress shortly after the 1970 Cambodian incursion by U.S. troops: a ceiling of 200 U.S. officials in Cambodia and absolutely no military advisers. Nor are U.S. Army officers assigned to the embassy here serving as clandestine advisers.

These restrictions doom the FANK to perpetual incompetency and perhaps eventual destruction. Its officers, used by Prince Norodom Sihanouk before his fall in 1970 mainly for palace entertainment, are militarily illiterate. They cannot control artillery fire or direct air support. With U.S. officers barred as ground observers for U.S. bombers, much of the massive bombing is wasted.

THUS, THE three years since the Cambodian war began have been wasted. Less than 1,000 professional U.S. advisers — perhaps CIA paramilitary experts with experience in Laos — might have transformed the FANK into irregular light infantry capable of confronting the Communist insurgents. Instead, the FANK, though better armed, is no better led than in 1970. What's more, its will to fight has noticeably diminished.

Food Price Theories

John Cuniff

NEW YORK (AP) — Here are some observations that might change some of your pet theories.

—One of the common explanations for higher food prices is that Americans are seeking greater amounts of processed foods in order to save time in the kitchen and perhaps even to serve a tastier meal.

WHEN WE buy raw foods and prepare them at home we expend a certain amount of time and effort. We must call on skills developed over the years, skills for which we don't ordinarily charge the family.

But when we buy foods that are partially or fully prepared, we must pay for the time and artistry of the factory cook. We generally conclude that such a bargain is fair enough, especially in this day of working wives.

But a check of retail food prices in at least one area, New York-northeastern New Jersey, shows that the rise in the prices of some processed foods is much smaller than for the raw products.

GOVERNMENT figures show that a 10-pound bag of potatoes, for example, rose from 93.9 cents in March 1972 to \$1.33 cents in March 1973.

But a seven-ounce can of instant mashed potatoes rose only from 38 cents to 38.7 cents. And a nine-ounce package of frozen French fries barely

rose at all — from 17.3 cents to 17.5 cents.

While the comparisons between raw and prepared foods didn't always show the same result, it does suggest that while processed foods generally do cost more than raw, there are some offsetting factors, such as volume buying, mass production and the ability of preparers to buy raw foods at their seasonal lows.

—Washington insists that inflation will be brought under control, and that it isn't unreasonable to expect a 2 or 3 per cent rate by the end of the year, compared with a rate triple or double that during the first quarter.

A SURVEY by the McGraw Hill economics department of basic industries — the ones that affect the prices of many companies who use their products or who supply raw materials — indicates a lot of businessmen don't believe it. They expect their prices to rise 4 per cent this year.

The survey showed, for example, that manufacturers of automobiles, trucks and parts expect their own prices to rise 3 per cent this year over last, and to rise another 18 per cent by the end of 1975.

Airlines are said to anticipate a 2 per cent rise this year, but a 19 per cent increase in the 1973-1975 period. And truckers are listed for increases of 7 per cent and 21 per cent, respectively, for the two periods.

A Devotion For Today..

The Lord is my shepherd; I shall not want. (Psalm 23:1)
PRAYER: Heavenly Father, we thank You for the assurance that You are always with us to strengthen, to challenge, if we will open the door. May we experience this reality as we sincerely pray, "Come in today, come in to stay." Amen.

NEW TRUSTEES WELCOMED—J. A. Gilmore, president of the Howard County School Board, welcomes newly appointed trustee-at-large, Noah Levva. Levva fills the vacancy left when Bill Johnson moved to Dallas. Greeting Levva are R. L. Heath, Gilmore; County Judge A. G. Mitchell (seated), who serves as ex-officio county school superintendent; and Al Bagwell. Trustee Hayes F. Stripling Jr. was not present.

Twisters Kill Four Persons, Injure Scores

By The Associated Press
Heavy thunderstorms hit parts of the Northeast today after cutting a swath across the Midwest. Tornadoes killed four persons and injured scores of others late Thursday.
A dozen twisters touched down in Ohio. Three persons were killed at Willard and a woman died near Republic when a tornado swept her car off a road.
Sheriff's deputies in Willard said several persons, including children, were unaccounted for hours after a tornado flattened two 60-unit house trailer parks.
Dozens of funnel clouds were sighted over Ohio. The National Weather Service reported 27 within one hour along 75 miles from Akron south to Cambridge. Others were sighted in Indiana and Kentucky.
The tornado attack began in the afternoon with reports of sightings near Fort Wayne, Ind., near the Ohio line. Funnel clouds touched down at Defiance, Maumet, and Deshler, Ohio, causing some damage. Several also struck between Akron and Youngstown near the Pennsylvania line.
Several twisters hit Kentucky. Three persons were hurt in McCreeky County when a funnel cloud carried a pickup truck 100 yards.
A weaker version of the storm moved across Pennsylvania with heavy rains, strong winds and hail in the southwestern part of the state. Power lines were knocked out in places and trees ripped up, but no injuries were reported.
Other tornadoes were sighted in Tennessee and Missouri.
Clusters of heavy thunderstorms remained early today in Tennessee and the Carolinas. Other showers and a few thunderstorms were scattered from the northern Rockies to the central Plains and northern Mississippi Valley.
Fair skies prevailed from the Pacific coast to Florida in a wide band across the middle Mississippi Valley region.
In the nation's midsection, the Mississippi River was expected to crest today and Saturday at key points along its flooded path from St. Louis to the Gulf of Mexico.
In Mississippi, officials said Thursday that backwaters of the swollen Yazoo River basin continued to rise, with no relief expected until the Mississippi River crests on Saturday at Vicksburg.
This was the 63rd consecutive day the Mississippi has been above flood stage at St. Louis.
More than 12 million acres of normally dry land remained covered by water along the Mississippi's course. An estimated 39,000 persons have been forced from their homes.

House Speaker Talks Softly About Ethics Bill Rewrite

AUSTIN, Tex. (AP) — Speaker Price Daniel Jr. was speaking softly today about a Senate Committee's revised version of his code of ethics bill, keynotes of his "reform" program.
"While the substitute is not as comprehensive or strong as I would like, I would prefer to withhold comment until it is considered by the full Senate," Daniel said Thursday night.
This contrasted with previous strong statements about Senate handling of his "reform" bills.
The important thing, he said, was for the Senate to act quickly so a final compromise bill

Patrick Murphy Earns Degree

Patrick W. Murphy, son of Mr. and Mrs. W. L. Murphy, 408 E. 11th Street, is among the 3,200 candidates for degrees at the University of Houston Saturday. Mrs. Anne Armstrong, counselor to President Nixon, will deliver the commencement address. Murphy has earned the bachelor of science degree in industrial education.

Zale's Chalks Up Record Sales

DALLAS — Zale Corporation announced today that its preliminary figures showed fiscal 1973 sales reached a new high of \$499 million, following a record final period which ended March 31, 1973. The company also expects record year-end earnings, on target with earlier projections of \$2.01 to \$2.07 a share.
Th preliminary figures were announced in response to investor inquiries by Ben A. Lipshy, board chairman, who dismissed concern over gold and diamond price increases and said, "Our business has never been better. Fourth quarter sales were \$93.8 million, or 10 per cent ahead of last year's final period even though this year's comparable period did not include the Easter season."

COMIC DIES — Comedian Jack E. Leonard died Thursday at New York's Mt. Sinai Hospital. Leonard, 62, a veteran of the New York and Las Vegas night club circuit, died of diabetic complications, the hospital said.

TRADED — The Cleveland Indians announced Thursday that they traded pitcher Steve Dunning, right, to the Texas Rangers for pitcher Dick Bosman, left, and outfielder Ted Ford, center. Dunning was the Indians' No. 1 college draft pick in 1970.

Game Of Giveaway Played By Texas

When you manage the Texas Rangers, you have to scramble sometimes to find a silver lining. So it was with Whitey Herzog Thursday night.

"It was embarrassing," he conceded, "but we gave them six outs in the first inning and got five runs down and that was the game. If they only score two runs like they should have, we're in good shape."

True. Then the final score would have only been 14-2. Elsewhere in the American League, the Chicago White Sox edged California 4-3 in 12 innings. Kansas City trounced Detroit 8-2 and Boston nipped Cleveland 4-3. In the only Na-

Oakland Series To Be Resumed

ARLINGTON, Tex. (AP) — For the past few days, Oakland Athletics manager Dick Williams had been experimenting with an unusual combination of second basemen.

and that's the reason I went back to the shuffle the previous few days. "I don't think it's a cure-all, but it does not hurt—although my preference is starting Green at second and letting him play."

Pat Kelly singled home Jorge Orta from second base in the 12th inning to give the White Sox and Wilbur Wood their victory over California. After Bill Singer held Chicago to three hits over 11 innings, Ron Peranowski came on in the 12th and walked Orta. Luis Alvarado sacrificed before Kelly delivered his winning hit.

Colts Rack Up 7th Straight

The Colts won their seventh straight American Little League game here Thursday night, blanking Cabot, 8-0, behind the six-hit pitching of Ricky Daniels.

"This was one of those nights where everything we did went perfect," said Williams.

Ken Holtzman, now 6-2, pitched seven effortless innings, allowing one unearned run and only three hits before giving way to reliever Horacio Pina.

Dolphins Trade Stowe For Star Receiver

MIAMI, Fla. (AP) — Coach Don Shula has boistered his already talent-rich receiving corps on the National Football League champion Miami Dolphins by obtaining Ron Sellers from the Dallas Cowboys in a trade.

The Dolphins also picked up the Cowboys' second draft choice of next year by sending unhappy wide receiver Otto Stowe to Dallas.

Shula said obtaining Dallas' second-round draft choice was the determining factor in making the trade.

Goliad Triumphs In Fems' Track

Goliad Junior High's girls won both divisions of a dual track and field meet from their cross-town rival, Rannels, in competition which ended Thursday at Memorial Stadium.

On the eighth grade level, Goliad counted 112 points in Thursday's running events to win with a two-day field of 185 points. Rannels settled for 43 Thursday and a grand total of 94.

In seventh grade activity, Goliad barely won with a total of 118 points. Rannels settled for 106.

Bobby Norwood Pitches Odessa To 7-0 Victory

ODESSA — Bobby Norwood pitched the Blue Bonnet Mirror team of Odessa to a 7-0 victory over Morton's Chippers of Big Spring in Odessa Softball League competition here Thursday night, surrendering only four hits to the losers.

Over-all, the Chippers are now 10-5. In league play, the loss was their first in three assignments.

Juniors Golfers Will Stop Here

The West Texas Junior Golf Tour, which gets underway June 4 at the Muleshoe Country Club, includes stops in Big Spring Aug. 2-3.

Linistors will play the Big Spring Municipal Course Aug. 2 and move to the Big Spring Country Club the following day. The tour ends Aug. 13, with the Tournament of Champions to follow at the Hillcrest Country Club in Lubbock Aug. 16-17.

Brownfield Host To Tornados

BROWNFIELD — The best-of-nine series for the District 3-AAA diamond title resumes here today with Lamesa holding a 3-2 edge.

However, the visiting team has yet to win in this series. Lamesa won the opener 5-4 in 14 innings. Brownfield took the second 10-4. Lamesa the third 6-5 in eight innings. Brownfield the fourth 6-5 by scoring twice in the seventh and Lamesa won Tuesday 5-3.

Leonard Named Coach At Anton

ANTON — Donnie Leonard, assistant coach at Roosevelt, has been named head football coach and athletic director at Anton, Superintendent of Schools John P. Jones announced Wednesday.

Anton officials still are accepting applications for the position of head basketball coach. Persons interested should contact Jones or Leonard.

Midland To Host Hurst Bell In 2

MIDLAND — Midland High baseball coach Gary Hinds won the coin flip and Bulldogs will host two of the three bi-district games with Hurst Bell next week.

Bell, now 14-4, captured the 6-AAAA title Tuesday by whipping Castleberry 8-1, 2-0 to win its league mark to 11-2. Midland finished with a 19-8 mark.

Herd Talent To Collide

An hour and a half scrimmage session Saturday morning will climax the first week of spring football drills for the Big Spring Steers.

The practice, set for 9:45 a.m., will be an unofficial unveiling of Coach Bob Burris' new multiple offense which will feature a wide open passing game.

Maxey Ware Is Tourney Winner

COLORADO CITY — Winners of the 1973 Fishing Tournament were announced by Bobby Sparks, chairman.

All the winning bass were caught at Lake Champion with Maxey Ware of Westbrook top winner with a bass weighing 6 lbs. 8 oz.

Angelo Is Scene Of Motocross

SAN ANGELO — The starters flag will open the 1973 Texas season of European style motocross racing under the lights this Saturday night at San Angelo Raceway Park.

The San Angelo facility is one of two in the state offering motorcycle racers an opportunity to beat the heat while competing in the popular sport of motocross racing during the summer months.

Few GOP Governors Predict Tough Times For Connally

NEW YORK (AP) — Several moderate Republican governors say former Democrat John B. Connally faces a difficult task in establishing his Republican credentials sufficiently to win the 1976 GOP presidential nomination.

That view was expressed in interviews during the Republican governor's conference by Govs. Daniel J. Evans of Washington, Francis W. Sargent of Massachusetts, Christopher S. Bond of Missouri, Robert D. Ray of Iowa and John A. Love of Colorado.

NO NEWSMEN

However, two conservatives, Govs. Stanley K. Hathaway of Wyoming and Jack Williams of Arizona, said they thought the former Texas governor, named Thursday as a part-time White House consultant by President Nixon, won't be at any disadvantage if he challenges more established Republicans for the 1976 nomination.

The three-day GOP governors' conference winds up tonight with a state dinner at the Metropolitan Museum of Art.

The governors scheduled a day-long political discussion today at New York Gov. Nelson A. Rockefeller's Pocantico Hills estate in suburban Westchester County. Newsmen were excluded.

The Watergate case is one subject that presumably won't be on the agenda as the governors discuss ways to assume a larger role in the GOP. The governors decided Wednesday night against issuing a joint statement on the scandal now shaking the Nixon administration.

FAIR TRIAL

However, Watergate and the indictment of former Nixon cabinet officers John M. Mitchell and Maurice H. Stans dominated much of the conversation of the governors on Thursday.

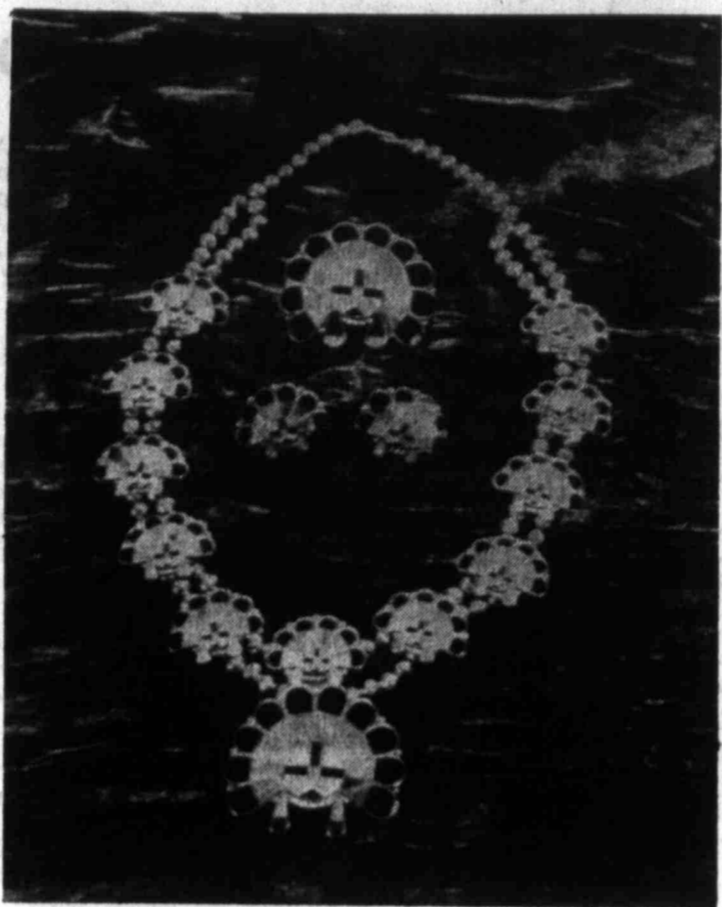

Gov. Winfield Dunn of Tennessee, vice-chairman of the Republican governors, commented "how tragic it is." Bond said, "I hope they'll have a fair trial and, if they are found guilty, that they will be appropriately punished."

Some of the governors mixed their statements that Watergate wouldn't hurt Republican candidates in 1974 with fears that failure to get to the bottom of the scandal could be damaging.

Ray said it could be damaging in 1974 if it is not completely cleared up.

Confidence that President Nixon is moving to clear up the Watergate matter was expressed in speeches Thursday by Republican National Chairman George Bush and presidential counselor Anne Armstrong.

"Without downgrading the ugliness of Watergate, the Republican party is alive and well," Bush said.

BIG SPRING HERALD

SEC. B BIG SPRING, TEXAS, FRIDAY, MAY 11, 1973 SEC. B

ALL-AMERICA—Carefree geraniums are a recently introduced race of hybrid geraniums which gardeners can grow from seed. These "All-America Winners" make strong, rapid growth; and, unlike other geraniums, they come true to color.

New Race Of Geraniums Comes In Three Colors

"Carefree" — a welcome word for home gardeners — is also the name for a new race of geraniums of which three different colors have won All-America Selections awards: two silver medals and one bronze medal.

What makes these geraniums carefree? First, their freedom from the usual geranium diseases. Because they are grown from seeds rather than from cuttings, they do not inherit troubles from the parent plant.

Next, their strong and rapid growth. You never saw geraniums grow so fast! These characteristics are results of their hybrid parentage.

Third, their self-branching habit. As they grow they produce numerous side branches without any help. There is no need to pinch out tips in order to make plants grow bushy and compact.

Fourth, their bloom production. This after all, is the main reason for growing geraniums. The Carefree will produce two or three flower heads for every one that grows on an ordinary geranium. Individual flower heads are as large as those of the finest geranium varieties; flower heads often are larger.

Fifth, their color range. There are salmon, scarlet, pink, and white in the range of Carefree geraniums. In addition, there's the prettiest picotee, white with pink petal edges.

Geraniums seeds are very fine. Scatter them over the surface of a flower pot filled

with one-third sand, one-third granulated peat moss and one-third good garden soil, then sprinkle over them a thin layer of sand to cover. Finally, with the palm of your hand, firm the seeds gently into the soil.

Water after planting and as often as is needed by setting the planted pot in a container of water and allowing the moisture to permeate to the soil surface. Don't allow the soil to dry until after seeds have sprouted — from two to eight weeks from time of sowing.

The pot should be covered with a sheet of glass or popped into a plastic bag and set in a shady place in a 60 degree temperature until seeds sprout.

After that, remove glass or plastic. As soon as seedlings are large enough to handle, plant each in a two-inch pot in a mixture of half granulated peat moss and half good garden soil. Shift to larger pots as needed.

Never leave pesticides where children or irresponsible persons can reach them. Place them out of reach as soon as the sprays or dusts have been prepared.

Always keep pesticides in their original containers. Make sure they are tightly closed and plainly labeled. Never put a pesticide in an empty food container of any kind. This is the major cause of human deaths from pesticides.

Cleanliness. Never drink, smoke, or chew gum while handling pesticides. Avoid inhaling sprays, dusts, or vapors.

Have soap, water and a towel available. Should you spill concentrated pesticide on yourself, wash immediately.

When you have finished using a pesticide, or before eating or smoking, wash hands and face thoroughly and remove contaminated clothing.

Do not leave mothballs where children can get them. Mothballs resemble candy.

Use a separate sprayer for applying herbicides to avoid accidental injury to sensitive plants.

Do not leave mothballs where children can get them. Mothballs resemble candy.

Using Pesticides? Make It Point To Follow Tips

If you are planning to use pesticides to enhance your lawn or garden, there are some safety tips you should observe.

The New York State College of Agriculture recommends the following:

Label
Read everything on the label and follow directions exactly. Re-read each time before using. Observe the cautions, especially those to "Keep Out of Reach of Children," and those to keep residues on edible plants within the limits permitted by law.

Use
Use the proper pesticide at the proper time to control a pest.

Measure accurately. Overdosage seldom kills more insects or diseases.

Work in a well ventilated area.

When spraying inside the home to control flying insects, cover all food and utensils, close windows and doors tightly. After spraying, leave the room, close the door. Do not re-enter the room for half an hour or longer. Aquariums, birds, dogs, cats, and other pets must be removed before spraying.

Outside, remove or cover food and water containers used by pets. Do not contaminate fish ponds or streams.

Never spray with children near by. Do not leave mothballs where children can get them. Mothballs resemble candy.

Use a separate sprayer for applying herbicides to avoid accidental injury to sensitive plants.

Never leave pesticides where children or irresponsible persons can reach them. Place them out of reach as soon as the sprays or dusts have been prepared.

Always keep pesticides in their original containers. Make sure they are tightly closed and plainly labeled. Never put a pesticide in an empty food container of any kind. This is the major cause of human deaths from pesticides.

Cleanliness. Never drink, smoke, or chew gum while handling pesticides. Avoid inhaling sprays, dusts, or vapors.

Have soap, water and a towel available. Should you spill concentrated pesticide on yourself, wash immediately.

When you have finished using a pesticide, or before eating or smoking, wash hands and face thoroughly and remove contaminated clothing.

Work cloths should be laundered before they are used again.

Storage
Store pesticides and pesticide equipment only in a locked cabinet or room. A cool, dry, well-ventilated storage area is best.

Never store pesticides with or near food, medicine, or cleaning supplies.

Do not store 2, 4-D or silvex with other pesticides, since the vapors may be absorbed and sensitive plants injured.

Volatile herbicides, such as 2, 4-D, and silvex should be stored outside the house if you have sensitive house plants.

Disposal
Do not dispose of empty

containers or surplus pesticides where they may be a hazard to fish or wildlife or, where they may contaminate water.

Empty containers and surplus pesticides should be wrapped in thick layers of newspaper and placed in a trash can just before the trash is collected. Until then, keep them locked up.

Purchase only what you need, or a little less, for one season. Some pesticides lose their effectiveness from one season to the next.

Never burn 2, 4-D or silvex herbicides or their containers.

If the label is no longer readable, dispose of the pesticide and the container.

Pressurized Cans
Do not discard empty containers into a fire or incinerator. They are likely to explode.

Do not leave them on a stove, radiator, in direct sunlight, or in the trunk or glove compartment of your car. Temperatures of 120 degrees F or above may cause explosions. Do not puncture and do not use near open flame. Do not spray near face. Do not inhale fine sprays for flying insects.

To dispose of pressurized cans, exhaust all gas through the release valve and place in trash can.

Accidental Poisoning
If you seem to have a special sensitivity to pesticides, consult an allergist, and, if necessary, avoid further exposure to the offending chemicals.

If you experience headache, nausea, or blurred vision, or you accidentally swallow any pesticide, call a physician immediately. Read the label to him, naming the active ingredients. If it is necessary

to go to the doctor's office or hospital, take the pesticide container so the doctor can properly identify the pesticide.

In every case of human death from pesticides, the cause has been accidental misuse. Whenever a small child is poisoned accidentally, an older person has done something wrong.

Insects Increase

The California Department of Agriculture identified 39,201 insect specimens from throughout the state during 1970 — a 17 per cent increase over 1969. The most serious pest new to the state was the Gypsy Moth, which has been found on shipping crates and house trailers entering California.

Insect and mite pests caused an estimated \$281 million in crop losses in California last year. Structural pests cost California an estimated \$118 million in structural repairs, control work and inspections.

Do not leave them on a stove, radiator, in direct sunlight, or in the trunk or glove compartment of your car. Temperatures of 120 degrees F or above may cause explosions. Do not puncture and do not use near open flame. Do not spray near face. Do not inhale fine sprays for flying insects.

Cub Awards Go To Six Webelos

Six WEBELO Scouts of Pack 179 received awards in a recent ceremony.

Awards included Joe Hicks (citizen, geologist, showman, scholar, naturalist), Vincent Ingram (geologist, engineer, naturalist, outdoorsman, sportsman), Tim Freeze (scholar, sportsman and citizen).

Also, Jim Freeze (sportsman scholar), Daryl Taylor (engineer, sportsman, athlete, two-year pin); and Craig Chandler (citizen and naturalist). Joe Hicks also earned a prize for selling the most exposition tickets.

All boys participated in the living circle during the closing ceremony, and refreshments were served by Craig Chandler and Hicks.

Indoor Plants Require 3 Ingredients To Live

Three ingredients of success in the continuing health of indoor plants in a home or office are: light, humidity, and temperature.

The American Association of Nurserymen counsels that the amount of light required by an indoor planting depends on the type of plant itself. The garden center will recommend the density of light required for each plant. For some, the natural light available will suffice; others will require additional illumination.

Magnesium Unit Settles Case

American Magnesium Co. paid the state \$15,000 for alleged past emissions violations and has agreed to keep its Snyder plant closed until it meets air pollution standards set by state law and the Texas Air Control Board, according to Atty. Gen. John Hill.

Ordered by the Air Control Board in July 1971 to close its Snyder plant, the company resumed limited operations last September "for testing and experimental purposes."

Club Council Plans Events

Mrs. Bob Wren was named chairman of a nominating committee for Howard County Home Demonstration Club Council during a Monday meeting at the HD agent's office. She will work with Mrs. L.

Consider Family In Landscaping

In planning the landscape around your home, list family needs and study the site. Consider the driveway and turnaround space, off-street parking, play space for children, an outdoor living area, a vegetable garden, privacy and windbreaks. Use landscape plants that grow naturally near or on the site and use building materials that blend well in the natural environment.

L. Soles and Mrs. L. A. Griffith to prepare a proposed slate of officers for presentation at the next meeting, June 4.

Mrs. Alton Underwood, vice chairman, presided. Mrs. J. C. Williams, Texas HD Association chairman, reminded delegates to elect a nominee for delegate to the state meeting, Sept. 19-21 in Waco.

Miss Sherry Mullin, county HD agent, announced a food demonstration on salads will be held at 2 p.m., Monday at the Pioneer Gas Flame Room. All HD club members are invited to attend. Also, she reminded members of the county fair scheduled Sept. 17-22.

Refreshments were furnished by Mrs. Waymon Etchison.

(AP WIREPHOTO)

TO BE MARRIED — Randy Agnew, son of Vice President and Mrs. Spiro T. Agnew, will be married Sunday to Conelia Angelos, 25, daughter of the president of a trucking firm. It will be the second marriage for Agnew and the first for Miss Angelos. His parents will attend the private, family ceremony at the Greek Orthodox Church of the Annunciation in Baltimore, Md.

Slate Is Named For Society

Mrs. Helen Earley was elected president of the Genealogical Society of the Big Spring Thursday evening at Howard County Library.

Serving with her are Mrs. Jack Horn, first vice president; Mrs. G. C. Barnett, second vice president; Mrs. Leon Davis, secretary; A. A. Porter, treasurer; Mrs. Chester Burton, reporter-historian; Mrs. John Damron, editor; and Miss Bernice Cason, librarian.

Miss Cason and Mrs. Damron were elected to the board of directors.

A research workshop was held using materials furnished by members, loan libraries and the county library. Miss Cason presided, and announced the library will be open from 1-5 p.m. Sundays for the convenience of members who want to continue research projects.

Some Helpful Cooking Hints

To give yeast breads a rich glossy color, brush with beaten egg about 15 minutes before end of baking time.

Pleasant change: crumbled blue cheese or finely diced cheddar cheese added to a Waldorf salad.

Full House

Dear Abby
Abigail Van Buren

DEAR ABBY: I am a 45-year-old divorcee who is engaged to marry a 33-year-old widower I'll call Sam. Sam has two daughters in college. Sam's wife, Sylvia, died of cancer a year ago. Sylvia's mother, a widow, had made her home with Sam and Sylvia for the last 20 years.

Abby, I know this woman only slightly but she has been cool to me. She is understandably heartbroken over the death of her daughter, and when Sam and I told her we were being married, her disappointment was obvious.

Sam plans to sell his large home and move into an apartment after we marry. His daughters want their own apartment. The problem is Sylvia's mother. We surely can't have her living with us. Sam can well afford to provide her with a lovely home elsewhere, but she has grown so dependent on him I doubt that she could live alone. She never learned to drive, and since her widowhood she's spent her life raising Sylvia's daughters and running Sylvia's home. She has no other family.

Sam and I have discussed it and he thinks I should tell her that our plans do not include her. I think he should tell her. (He insists he can't do it.) What do you think?

TOUCHY PROBLEM
DEAR TOUCHY: She shouldn't have to be told, but if she does, Sam should tell her. It would be an act of kindness if you made a real effort to be friendly with this heavy-hearted woman. Investigate senior citizens' residences and try to help her relocate in the most pleasant and happy surroundings. If she rejects your friendship, you will have at least tried.

DEAR ABBY: When I started going with Henry he used to show up so drunk he could hardly walk, so I'd let him sack out on my couch. It happened so often we finally started living together. After two years we decided to get married.

He buys two quarts of vodka on Saturday, and by Monday it's all gone. That's in addition to three cases of beer. Henry drinks every night, but goes to work in the morning, comes home

Breakfast Club Gains Member

Mrs. J. C. Pye was hostess Tuesday for a meeting of the Friendship Breakfast Club in the Patio Room of Holiday Inn.

Mrs. C. C. Forrest was welcomed as a new member.

Each member gave a thought about friendship, and cards were signed to mail to the sick.

The next meeting will be June 12 at the inn and, at that time Mrs. O. G. Burns and Mrs. O. L. Rodricks will be honored on their birthdays.

Ceremony Scheduled In June

St. Paul Presbyterian Church will be the setting June 2 for the wedding of Miss Crisseda Anne Cowan of Big Spring to Robert Michael Kelly of North Little Rock, Ark.

The future bride is the daughter of Mr. and Mrs. Gordon E. Cowan, Kingsland, and Mr. and Mrs. C. B. Baker, Colorado Springs, Colo., formerly of Big Spring. Parents of the prospective bridegroom are Mr. and Mrs. Jim Layman, 3223 Cornell.

Miss Cowan is a dietitian at the Veterans Administration Hospital. Her fiancé attended Big Spring High School and Howard County Junior College.

Newcomers Set Welcoming Tea

Newcomers Handcrafts Club is planning a welcoming tea for both bride and handcrafts club members, at 9:30 a.m., May 30 in the First Federal Community Room.

Tentative plans for the tea were made Wednesday in the home of Mrs. Larry Denning, 1302 Wood. Members will meet again at 11:30 a.m., May 23 for a salad luncheon at the Pioneer Gas Flame Room. Mrs. Robert Hendrix will be hostess.

Women Meet For Luncheon

A luncheon meeting of Susannah Wesley Class, First United Methodist Church, was held Thursday at the Downtown Tea Room. Mrs. H. T. Sefton gave the invocation, and benediction was by Mrs. Desire Keith.

Guests were Mrs. E. J. Cass, Mrs. Elizabeth Taber and Mrs. J. E. Peters. Members reported 18 visits, 158 calls and 36 cards had been given to the sick.

The next meeting will be at noon, June 14 in the Tea Room.

Garden Clubbers End Year With Luncheon

Arrangements of wild flowers, interspersed with decorative butterflies, were used for table accents when the Big Spring Garden Club met for a luncheon Wednesday at Big Spring Country Club. Hostesses were Mrs. Norman Read and Mrs. John B. Knox. Yellow table cloths were used.

Mrs. Knox presided during the brief business session, and the program was a general discussion of wild flowers that grow in this area.

Mrs. O. T. Brewster, installed the 1973-74 officers. All are beginning a second term except Mrs. Clyde Angel, new to the slate as first vice president. Other officers are Mrs. Knox, president; Mrs. John I. Balch, second vice president; Mrs. D. S. Riley, recording secretary; Mrs. D. O. Gray, corresponding secretary; Mrs. John Coffee, treasurer; Mrs. L. B. Edwards, parliamentarian; and Mrs. J. C. Pickle, council representative.

Farewells were said to a member, Mrs. Norman Picquet, who is moving from the city.

Mrs. Riley presented a resume of the recent district convention here, and Mrs. Knox reported on the state convention last week in Dallas. The club won first place in yearbooks at the district convention and was sponsor for Miss Susan Smith of Big Spring who took first place in the Youth Communication competition at the state event.

Miss Lana Karnes Honored At Shower

Miss Lana Karnes, who will be married May 19 to Marcus Swann, was honored recently at a bridal shower in the Midway Baptist Church fellowship hall.

Attired in a brown and beige pantsuit, the honoree was presented a corsage of white camellias. Her mother, Mrs. Raymond Karnes, and the prospective bridegroom's mother, Mrs. J. R. Swann, each received a corsage of yellow camellias.

The refreshment table was covered with a yellow linen cloth and overlaid with white lace. Appointments were of crystal and silver, and the centerpiece was an arrangement of assorted yellow spring flowers and candles.

Guests were registered by Miss Kay Frazier. Hostesses were Mrs. Walter Barbee,

Mrs. Bill Bennett, Mrs. Bill Butler, Mrs. Theo Earnest, Mrs. W. A. Fishback, Mrs. J. D. Fortenberry, Mrs. Fred Franklin, Mrs. Carl Frazier, Mrs. James Herm, Mrs. Weldon McAdams, Mrs. Larry McDonald, Mrs. Hershel Mathies, Mrs. Vera Sandlin, Mrs. Roosevelt Shaw, Mrs. Dick Stone and Mrs. Rufus Wilson.

Bake Sale Set

A bake sale will begin at 10 a.m. Saturday at the Piggly Wiggly Super Market in Highland Center Mall, sponsored by Spring City Chapter, American Business Women's Association. All proceeds will be used to provide scholarships awarded by the chapter.

ON THE TOWN — Three entries in this year's Miss U.S.A. take in the sights of New York City Thursday. The girls, left to right, are Miss Arizona, Sherry Nix, 21; Miss Louisiana, Storm Hensley, 22; and Judy Gregory, 26, Miss Massachusetts. Storm is a sergeant at Barksdale AFB in Louisiana. Girls from all the states and the District of Columbia will find out who is fairest of the n all May 19.

Decisions, Decisions! Who'll Wear Crown?

By MALCOLM CARTER
Associated Press Writer

NEW YORK (AP) — Wisp of hair fall correctly into place. Every fingernail gleams with the season's brilliant tints. Their lips part readily into practiced smiles.

These are the 51 entrants to this year's Miss U.S.A. Beauty Pageant who have begun arriving here for 10 days of parties, press interviews, rehearsals and fittings that will almost certainly end in tears of victory or disappointment on May 19.

Like brides bubbling with anticipation, they represent the 50 states plus the District of Columbia. With them come the evening gowns, the ensembles and the cosmetics calculated to show the contestants at their very best.

"Just getting here is an accomplishment," said Judy Gregory, 26, of Boston. An elementary school teacher and fashion model, she became Miss Massachusetts less than a month ago.

"I don't know what I'm doing here," she said after looking over the field. Storm Hensley, a 22-year-old sergeant at Barksdale Air Force Base in Louisiana, expressed similar doubts. But not in words. She simply groaned, long and anxiously.

However, Sherry Nix, who at 21 is Miss Arizona, said she was going into the pageant optimistically.

"It just depends how hungry the judges are that night — maybe they had a bad day," the blonde-tressed student from Phoenix said.

"I'm still going to be the same person when I leave,

whether I win or not," she said.

Shepherded by a public relations man, the three girls spoke of their hopes and displayed the poise that has helped make them beauty queens.

They have found the road to success paved with

money — theirs — for their wardrobes. And they have found shopping and appearance and modeling commitments so time-consuming that their social lives have suffered. But they agreed unanimously it has all been worth it, just for the exposure the pageant brings.

Webb NCO Wives Plan Coffee

A hi-bye coffee for all wives of non-commissioned officers at Webb Air Force Base is scheduled at 7:30 p.m., May 22 at the NCO Club. Plans for the event were made by the NCO Wives Club Tuesday.

Mrs. John Denton presided, and Mrs. Charles Johnson was elected club treasurer. Committee

chairmen appointed were Mrs. Nan Buske, nursery; and Mrs. Loretta Jennings, hospitality.

Members agreed to contribute \$20 to a fund set up to assist a young girl whose parents were killed in an automobile accident. Also, \$10 was awarded to Kathy Seabolt for her participation in the March

of Dimes Walkathon.

Other projects agreed on by members include assisting the Texas Lions Clubs with locating names, addresses and other information about retarded children for the Lions Camp for Retarded Children. Members are also collecting magazines for the Webb hospital.

RELIGION IN THE NEWS

Refineries Bring Together Two Men Who Work For Christ

By MARJ CARPENTER

Franz Streit, who works for the Shell Refinery in Hamburg, Germany and Rafoad Dunningan, who works for Cosden, have gotten together with a "work for the Lord."

Through contacts between the two, through business, Dunningan contacted Streit's pastor in Germany to see if there was any way the East Fourth Street Baptist Church in Big Spring could help their church.

The contacts led to more contacts with the National Evangelical Foundation and in June of this year, 10 Big Spring citizens from the East Fourth Street Church will be among 400 persons in Texas going to Germany to help with an Evangelical Crusade.

Streit has been in Texas since Good Friday visiting congregations in Big Spring, Houston, Dallas, and other locations. He talked to the congregation here on Monday night in connection with plans for their trip.

Going from Big Spring will be Dunningan, along with the church pastor, the Rev. Dale

Cain and Bob Jones, Jerry Oliphant, Don Dyess, Mrs. H. J. Rogers, Mrs. Jess Blair and three teen-agers, Randy Tonn, Tom Sorley and Kendra Dewess.

Streit pointed out that in Germany, 49.6 per cent of the Christians are Lutheran, 45.5 are Roman Catholic and the Evangelical Churches which include the Baptist and Methodists have only .6 per

cent. He also stated that the two big denominations have long-standing treaties with the government whereby they receive tax funds but that the Evangelical Churches "are free and stand on their own."

He recalled that during World War II, the churches often served as a propaganda voice for the government, "more or less out of necessity." He said

that during the war years, the top heads of the church were often in contact with the government.

"It was not a good time," and then when asked about East Germany today, he stated, "It is not a joy to see it." And he showed a booklet that showed the border guards and elaborate fences and mine fields that separate East and West Germany.

Bridges are cut in half so that the rivers between the two countries can no longer be bridged and railroads are made into dead ends with fences.

Streit, who has learned his English in school, said with difficulty, "The reason we want people to come from Evangelical churches in other parts of the world — how do we say it, 'A prophet doesn't count in his own county.'"

Streit indicated that they would have interpreters at the Crusade when he was in Germany to emphasize that "People throughout the world believe in Jesus Christ."

In speaking of the refinery for which he works, he admitted that they too were now importing crude from the Middle East. He said their refinery was 60 per cent Dutch owned and 40 per cent English and that both the British and Holland queens owned stock in it. He smiled and said, "I guess we're a royal refinery."

He said that his greatest difficulty in English was in transferring tons to barrels and

centigrades to fahrenheit.

Streit was very knowledgeable on the subject of German history, and the history of the church in Germany, but he kept returning with longing to his hopes for the "coming crusade."

He had traveled to Texas at his own expense to help prepare the groups that are making the trip.

The two planes, carrying some 400 will leave on June 6, exactly 29 years after D Day and plan to return on June 19. Among the group will be the Hardin-Simmons Choir.

They are hoping to make an impact on the Evangelical Church in Germany and are equally sure that the trip will make an impact on their own lives.

WESLEY METHODIST women last week and announced the selection of two scholarship recipients.

Sue Pohl, daughter of Mr. and Mrs. David Pohl, and Mike Beardon, son of Mr. and Mrs. Elvin Beardon, will each receive \$200 scholarships to McMurry College in Abilene.

The scholarship committee who made the report included Mrs. W. B. Morris, Mrs. Caleb Hildebrand, Mrs. Robert Masengale and Mrs. Joe Ramsay. The women also set their bazaar date for next fall on Oct. 13.

The program was a book review given by Mrs. Carl Elliott

on the book, "Will of God" by Leslie Weatherhead.

DR. ARLO F. NEWELL, chairman of the General Assembly of the Church of God, has announced the policy-making body will meet June 19-21 during the week-long 84th International Convention here of the movement that chose Anderson as its world headquarters in 1906.

Other highlights of the convention, expected to attract some 25,000 persons, will be three daily mass meetings featuring key leaders of the church and other nationally known speakers.

Program arrangements for the weekend circuit assembly of Jehovah's Witnesses have been completed, according to local presiding minister, James Watkins. The two-day spring meeting will be held at the new Brownwood Coliseum in Brownwood. Pervading theme of the assembly will be "Do All Things For God's Glory."

A program schedule, given by Watkins, will include a Theocratic Ministry School which is modeled after one of their weekly meetings and represents the manner in which members are trained for their ministerial activity. The school will be conducted Saturday afternoon by John P. Sutherland, Texas District Supervisor for Jehovah's Witnesses.

The Big Spring Baptist Association will have a men and boys meeting at Crestview Baptist Church Monday 7 p.m.

Highlight of the program will be passing out athletic awards earned by the boys during the year. There also will be a brief explanation of men and boys work. Afterwards there will be homemade ice cream and cake. In charge are Sam Robertson, associations men's president, and the Rev. Don Bradley, RA director.

Former Resident Back From Congo

A former Big Spring resident presently serving as a United Methodist lay missionary in Zaire (the Congo) will return to his former church to preach Sunday.

Carroll French, supported by the United Methodist Church as an agricultural technician in Zaire in Africa, will preach at the morning and evening worship services Sunday at the First United Methodist Church which he attended when he lived in Big Spring some 20 years ago.

"We are looking forward to renewing our acquaintances with old friends and to meeting you and the new members," wrote French to Rev. J. B. Sharp, pastor. French and his wife, Tove, will arrive Saturday and stay until Tuesday or Wednesday next week as part of a furlough stay in the U.S.

Word from our church in Zaire is both discouraging and encouraging. As funds from overseas are decreasing, there

is a great need for increased stewardship on the part of our members there," he wrote.

The Frenches first went to Africa in 1957. During his first two terms in Africa, French was in charge of the agricultural programs at the Kapanga and Mulungushi Methodist Centers.

Since 1968, he has been on the staff of the agricultural and technical high school in Sandoa which has an enrollment of 100 students. French teaches agricultural courses and is responsible for the agronomy section of the school farm.

French was assigned to Webb AFB from 1954-56. He visited the local church before leaving for the field in 1957 and during furlough in 1962 and 1967.

CARROLL FRENCH

Rev. Patrick Will Receive Doctorate

The Rev. Kenneth G. Patrick, pastor of the First Baptist Church, becomes Dr. Patrick this evening in ceremonies at Luther Rice Seminary in Jacksonville, Fla. He will receive the doctor of ministries degree.

Accompanying him to Jacksonville for the commencement rites were Mrs. Patrick, also his mother, Mrs. J. E. Patrick, Alba. He and his wife will return here Saturday.

He began work on his doctoral studies in 1969 through the Jacksonville seminary, which conducts its work largely through supervised correspondence, and has continued them here.

Dr. Patrick is a native of Malakoff, a graduate of Stephen F. Austin High School in Houston, took his BA at Baylor University in 1958 and his master of religious education at Southwestern Baptist Seminary in 1962. He also has done graduate work through Austin Presbyterian Theological Seminary. At Baylor, he was in the ROTC and as a reservist became a captain.

In his denomination, he has served as moderator of the Brady, Coryell and Big Spring Baptist associations; has been on the Baptist General Convention of Texas executive board four years; was president of the Heart of Texas and the Latham Springs Baptist encampments; a trustee of Mary Hardin-Baylor College; has

DR. KENNETH G. PATRICK

Howard County Junior colleges, taught in Henderson Junior and the Big Spring center of Southern Baptist extension seminary.

Licensed in 1951, he was in evangelism work during student days, was ordained in 1956, and has held pastorates in Cameron, Granger, Chandler, Seagoville, Eden, and Gatesville before coming here in the summer of 1970.

He is a Scottish Rite Mason and Shriner; was president of Lions Clubs at Eden and Gatesville, and is a member of the Rotary Club. He was married in 1954 to Wanda Marie Smith and they have five children.

Local Youth To Receive Master Of Divinity Degree

Monty Carl Clendenin, who attended schools here, received his master of divinity degree from Southwestern Baptist Theological Seminary Friday morning.

He has been invited by an Atlanta, Ga., church to appear with a view to a call as associate pastor.

The Rev. Clendenin graduated from Big Spring High School in 1964, attended Howard County Junior College three semesters in 1964-66, then transferred to Dallas Baptist College where he earned his BA degree in 1970.

While in seminary, he pastored a small church in Fort Worth and for a time one at Valley View, north of Denton. As a high school student, he occasionally filled pulpits in this area. One summer, while he was in HCJC, he teamed with Donnie Anderson and Charlie Price to do evangelistic work in the northwestern part of the country.

His wife is the former Candye Combs, and they reside at 4208-B William Fleming, Fort Worth 76115. She is the daughter of Mr. and Mrs. Gene Combs,

who resided in Big Spring but who now live in Irving. Rev. Clendenin is the son of Mr. and Mrs. R. A. Clendenin, Vincent Route, Coahoma.

Speaker for the seminary graduation was Owen Cooper, Yazoo, Miss., president of the Southern Baptist Convention.

JUMBLE — that scrambled word game

by HENRI ATINOLE and BOB LEE

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

REHKI

PROOD

BELNAG

NAHVIS

WHY IT'S CHEAPER TO EAT OUT OF DOORS.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

What the SURPRISE ANSWER has

Jumbles: BOOTH CREEK MODEST BUTANE

Answers: It's HARD to get as low as this — ROCK BOTTOM

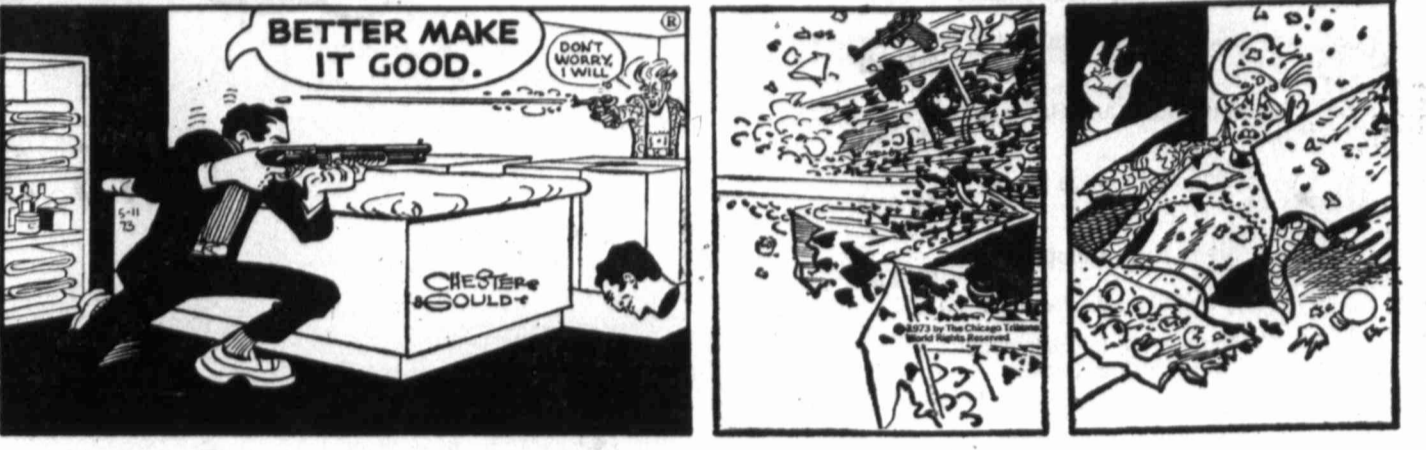

"I'll be due for retirement in a couple of months, chief! ... In it time I was told what I've been in training for!"

HOROSCOPE

CARROL RIGHTER

Saturday, May 12, 1973
GENERAL TENDENCIES:
See now how to handle money affairs satisfactorily, come to a better understanding with others. Listen to an expert concerning stocks and bonds. LIBRA (Sept. 23 to Oct. 22) You are highly magnetic now and should get out of the most of this day. You can make the most of this day, accomplish much. Dress well. Avoid one who makes you nervous.
SCORPIO (Oct. 23 to Nov. 21) Plan more time for being with that person you like so much and be happy, gain your fondest aim, and please make, also. Evening is fine for increasing happiness with mate. Avoid bickering, though.
SAGITTARIUS (Nov. 22 to Dec. 21) State your aims to good pals and allies so you gain their assistance and goodwill as well. Being very pleasant now is pleasant and profitable. Avoid some situation that leads to trouble, expense, and worry.
CAPRICORN (Dec. 22 to Jan. 20) Wear your nicest clothes and go out for social pleasures that can lift your spirits. Make a fine impression on a bigwig. Something of a civic nature can also bring excellent results. Grow home much more attractive and smooth running. Kite is cooperative, and you do some entertaining. Heed pleases all. Make a good impression on friends.
AQUARIUS (Jan. 21 to Feb. 19) Ideal day to make plans for a vacation in the near future. Get the data you need for such. Being mild and more open-minded with others gets good results. Avoid that stumbling block that is in the path of your progress.
PISCES (Feb. 20 to March 20) Plan for social pleasures that can lift your spirits. Get into the activities that you mutually like, since the planets are very favorable. Follow your hunches. Steer clear of an irate associate.

Cambodian Bombing Funds Plea Rejected

WASHINGTON (AP) — To a backdrop of cheers and chants, the House has turned against administration Indochina war policy for the first time by rejecting a presidential request for more funds for Cambodian bombing.

The House rejected President Nixon's spending proposal 219 to 188 Thursday. Then, by a 234-172 vote, the House added a prohibition against using any of a \$2.8-billion supplemental appropriation for bombing in Cambodia.

The actions came during consideration of the supplemental appropriation, which was passed 284 to 96 and sent to the Senate.

"We've gotten out of South-east Asia," said Rep. Robert N. Gaijano, D-Conn. "Let's stay out."

Secretary of Defense Elliot L. Richardson said that Congress' rejection of the spending authority would not halt the Cambodia bombing because the Pentagon can use other funds for it.

House antiwar forces cheered and chanted during a roll call as the House approved an amendment by Rep. Joseph P. Addabbo, D-N.Y., to deny \$430 million in military spending authority, including at least \$175 million for Indochina.

Approved later was an amendment by Rep. Clarence D. Long, D-Md., to prohibit use of any of the \$2.8-billion supplemental bill for "combat activities in, over or from off the shores of Cambodia by U.S. forces."

LOCK THE DOOR
"I want to put another lock on the door," Long said. Supporters of President Nixon were dismayed.

"This is a very, very sad day in the House of Representatives," said Republican Leader Gerald R. Ford. "We are backing away from our responsibility."

Clean Break

Jean Adams
TEEN FORUM

BREAK? (Q.) Tina and I have a fantastic relationship. I am like a father to her because she feels rejected by her real father.

She had an abortion four months ago and has been on birth control pills since then, so there is no problem there. But I have this feeling of wanting to break loose, just for a little while, to see what else there is in this world. After that we could get married. I am 17 and she is 15.

When I talk about breaking up, Tina cries, and says she can't go on without me, and I say things I don't mean.

We are talking to a school counselor. But he is no help. He thinks we are just two kids having sex. What else can I do? — No Freedom in Pennsylvania.

(A.) You and Tina have wandered into water that is much too deep. Your wish to head back for shore and save yourself is the right wish.

But you should do even more than you propose. You should make a definite and permanent break and both of you should start over.

Tina will say this is cruel,

but in reality it will be kind, because she must learn to depend upon herself and not hang onto you.

Urge her to talk to her mother, or her minister, or her family doctor, about professional help. I believe she needs it.

Whether she agrees to or not, make the break.

BOTHERED: (Q) George is black and I am white. He likes me a lot. I don't like him except as a friend. He follows me around. The other day he walked me home from school.

I would tell him to get lost but I don't want to hurt his feelings. We are both 13. — Pursued in Indiana.

(A.) Talk to George honestly but kindly. Tell him you want to be his friend but not his girl friend. Ask him to respect your wishes. If he does not, ask your parents to help you.

All this is a procedure you would follow with any boy who bothered you — not just with George.

(Jean Adams reads and considers every letter, but she regrets that she cannot answer each personally. Mail your questions and comments to Jean Adams, care of The Big Spring Herald, P.O. Box 2402, Houston, Texas 77001.)

Corvaire Gets Clear Bill

"Unsafe at Any Speed," an attack by Ralph Nader on the Corvaire automobile, has been labeled as unreliable and unfounded by the Department of Transportation's highway traffic safety administration.

Nadar's attack was credited by some as having driven the Corvaire from production, but the DOT report now made public says:

"Based upon its analysis of all available data, its own comparative vehicle testing, and the recommendations of its advisory panel, the NHTSA concluded that no safety related defect exists with respect to the handling and stability characteristics of the 1960-63 Corvaire."

Part of the claim against the air-cooled car was that it had a potential for loss of control or rollover. The DOT tests, however, showed that its handling and stability performance was at least as good as the performance of other contemporary vehicles both foreign and domestic. Actually some of the foreign compacts rolled when Corvaire did not.

Part of Nader's accusations had been based on a film and report which showed the Corvaire rolling over; what it did not show was that comparable other models also rolled when subjected deliberately to this test by professional test drivers.

The DOT report mailed to Corvaire owners did offer advice on steering in hard terms, namely to rapid jabbing applications of the foot brake was superior to hard constant application, which could lock wheels. However it made plain that "transition from understeer to oversteer in the Corvaire does not result in an unusual risk of loss of vehicle control." Regarding heater fumes, it urged checks on the system if this occurred.

Suspect Held In Shooting

A suspect has been arrested in the shooting death of Earsie Miller, who was found dead Tuesday night on the corner of Northwest Fourth and North Bell.

The suspect is being held for interrogation and no charges have been filed at this time.

Justice of the Peace Gus Ochotorena has not ruled on the death other than "dead at the scene."

Miller's funeral services will be held Saturday 10 a.m. at Mount Bethel Baptist Church, with burial in Mount Olive Cemetery.

THEFTS

Tricycle and wagon combination stolen at 1107 Stanford. Mrs. Martha Tate at Park Inn reported money taken from the cigarette machine.

Johnny Sharp at Continental Trailways reported 20 tapes and a tape deck case stolen. Value: \$130.

Bank Directors Sell Their Stock

ODESSA — Six directors of the National Bank of Odessa who also serve as directors of the First National Bank, have sold their stock in NBO, it was announced at Thursday morning.

NBO President Kenneth Jumper said the change in ownership "will not affect the management, operation or philosophy of the bank since the majority of the board of directors will remain unchanged."

NBO was chartered in 1959 as an affiliate of First National. The six directors sold their shares to Jumper and associates.

VANDALISM

BB shot through the bedroom window at 2600 Carlton. Value: \$15.

Forsan's Board Meets Monday

FORSAN — The Forsan school board will discuss the budget for 1973-74 and setting the tax rate at 7 p.m. Monday.

Prices for cafeteria meals also are listed for deliberation. Other topics include:

—Appointing Bill Mims as an alternate to the board of equalization.

—Discussing participation in Educational Media Services next school year.

—Scheduling the next school board meeting.

—Considering ordering a new school bus with delivery in four to six months.

—And repairing or replacing the football field clock.
