CASH GONE

Banker Bows To Extortion Threats

CELESTE, Tex. (AP) — The only bank in Hunt County which was open Saturday got taken for an undetermined amount of cash through threats of a bomb and a machine gun.

The victim was the First National Bank of Celeste, a town of 736 persons about 15 miles northwest of Greenville in Northeast Texas.

As witnesses related the affair, the crime was accomplished with both the representative of the bank and the extortionist screaming into the telephones. The phone line was so bad they could hardly hear each other.

The caller first asked if the bank was open. Assured that it was, he ordered the money placed in a bag and thrown over a bridge railing at a designated point west of Celeste.

If this wasn't done, the extortionist assured the bank, a bomb already in the building would be set off.

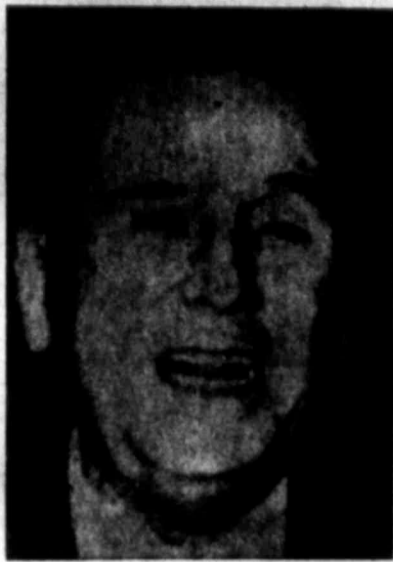

Besides, he said, a machine gun was trained on the bank at that moment and shooting would start if orders weren't obeyed.

President Albert Granberry put some money in a white canvas bag and crawled into a car with Bob Bernard, an assistant vice president. The pair drove to the bridge and tossed the money into Colech Branch, dry despite fairly recent rains.

As they drove on, the pair noted a station wagon meeting them and driven slowly. It was occupied by a lone white man.

Meanwhile the sheriff dashed to the bridge but too late to save the money.

The short time that elapsed and absence of other road traffic led officers to believe the station wagon driver got the loot.

ON AIR — Former President Juan Peron speaks on national television Friday night, after Argentina's Parliament accepted the resignation of President Hector Campora earlier in the day. Peron indicated he would accept the opportunity to become president of the country again.

Nixon Shows 'Very Slight' Improvement

WASHINGTON (AP) — President Nixon was reported showing "very slight" improvement Saturday on his third day in the hospital under treatment for viral pneumonia.

His doctors said they advised him he must rest for a week or 10 days after he leaves Bethesda Naval Hospital.

They preferred that he recover at one of his vacation homes, but Press Secretary Ronald L. Ziegler said it would more likely be at the White House.

White House physician Dr. Walter Tkach said the President is impatient under work restrictions and insists that he remain in the capital "in the thick of it."

He described the President as "still a sick man."

His four doctors examined the President at 10 a.m. Saturday morning and reported the President was suffering less chest pain and his temperature had dropped a bit to 100 degrees. They said he had gotten a good night's sleep of 6½ hours but had required another analgesic injection to lessen the pain.

SEE, 'I TOLD YOU SO'

"I told you so" is of little comfort to "Lois" of Lois Grocery who reported to police on Friday that somebody had attempted a burglary of her grocery store by trying to enter the storage unit.

She told friends and associates that she wanted to spend the night at the grocery, but they talked her out of it.

Then on Saturday morning, she discovered that somebody had entered the store through the roof, stolen \$25, \$15 worth of beer, \$10.34 worth of weiners and chili and two radios.

'Third Man' May Claim In Dark On Spy Plans

WASHINGTON (AP) — Frederick C. LaRue, the third man at a critical meeting before the Watergate break-in, is reported ready to testify he can't be sure whether John N. Mitchell approved or rejected the Watergate bugging scheme.

Mitchell and Jeb Stuart Magruder, the other two at the meeting, have sworn before the Senate Watergate committee to opposite accounts. Magruder said Mitchell approved the plan; Mitchell said he rejected it.

LIDDY'S PLOT
It is generally agreed there were three meetings at which G. Gordon Liddy's political espionage plans were discussed in the presence of Mitchell, President Nixon's campaign chief, and Magruder, the campaign deputy. It is also agreed that Liddy's plans were rejected at the first two meetings.

LaRue attended only the third meeting. The meeting took place on March 30, 1972, in a house in Key Biscayne, Fla., where Mitchell was on vacation after accepting the leadership of President Nixon's re-election campaign.

DISPLAYS OF INELEGANCE Spittin', Belchin', Cussin' Triathlon

CENTRAL CITY, Colo. (AP) — The beer garden at the Gory Hole Tavern was more or less back to normal Saturday after an exhibition of unparalleled inelegance known as the Third International Spittin', Belchin' and Cussin' Triathlon.

The spectacle, held annually in this old gold camp 30 miles west of Denver, drew a crowd of 400 on Friday to watch the unabashed contestants.

Harold Fielden, a 23-year-old University of Colorado student from New York, spit 34 feet to break a world spitting record and out-cussed 11 other contestants to win the traveling trophy — a chrome Rolls-Royce radiator cover.

BANDANNA GANG
Fielden fired the record-breaking expectation in the first section of the competition to win a gold spitoon and then let go in the third section with some well-chosen, unprintable words to win the event and the championship. Fielden got a case of soap for his performance in the cussin' contest.

Taking top honors in the belchin' competition was Paul Woodhams, 26, of Denver. He won a free dinner in a Black Hawk, Colo., restaurant. Spectators came from as far as New York City, Portland, Ore., and Los Angeles to witness this year's spectacle, sponsored by the "Red Bandanna Gang," a group of habitués of Central City bars.

Lew Cady, editor of the weekly newspaper Little Kingdom Come, and Max Robb, the newspaper's publisher, judged the spitting contest.

They had some difficulty measuring at times when con-

testants hit the spectators by accident.

NOT GOOD ENOUGH
Fielden's performance broke the world record of 31 feet, 9 inches held by a Mississippi long-distance spitter named Don Snyder.

In the belchin' contest, judgment was based on tonal quality and raw volume. Contestants warmed up with beer and alkalizers. Two members of the Denver Symphony Orchestra and a violinist for the Central City Opera Association judged the competition.

Highlight of the afternoon was the cussin' competition, judged by representatives of area news media on the basis of venom, originality, neatness and aptness of thought.

DALLAS (AP) — Two Dallas women tried on murder charges received opposite opinions from the juries during the weekend.

Mrs. Juliet Pickett Sloan, 44, a honey blonde socialite, was ruled guilty of the murder of her husband with a switchblade knife.

Her lawyers claimed she was insane when she plunged the knife four times into Archie Y. Sloan, 57, last Jan. 27. The stabbing was the climax of a family fight. Sloan was insured for \$462,000.

The jury, convicting her Friday, returned Saturday and set her sentence at 20 years in prison.

Mrs. Helen Cundiff, 49, a grocery store owner, walked out of

the courtroom, free of charges that she murdered art supply dealer Bryan R. Stout.

Prosecutors sought to prove that she was the trigger woman who shot Stout six times while he was in his residence.

Earlier, Mrs. Stout and John Thomas Singletary, a policeman when Stout was shot, were convicted of being accomplices in Stout's murder. They were assessed 25-year prison sentences.

The prosecution sought to prove a torrid love affair between Mrs. Stout and the policeman. The state's lawyers claimed there was a long-standing feud between Mrs. Cundiff and the victim.

Singletary's police-issue revolver was used to kill Stout.

al Committee headquarters in the Watergate.

The proposal showed "the basics of the plan, the number of people (Liddy) would have to hire, the number of electronic surveillance equipment and amounts he would have to purchase and so on," Magruder testified.

OH, SO TIRED

Mitchell, he said, "did some markup on some of it — I cannot recall what he marked on these papers — indicated his approval, did not indicate it in any formal sense by initialing it or writing, just indicated the

project was approved."

But Mitchell, when asked what his recollection of his decision was, testified: "Well, it was very simple... We don't need this. I am tired of hearing it. Out. Let's not discuss it any further... In my opinion, it was just as clear as that."

LaRue has not yet testified before the Senate Watergate committee, where the other two participants swore to opposite accounts of the crucial decision.

But in a brief courtroom statement on June 27, when he pleaded guilty to conspiring to

obstruct justice in the Watergate cover-up, LaRue said the proposal was discussed at the meeting.

"I recommended against the plan," he said. "It was not approved in my presence, and I have no personal knowledge of its approval by anyone."

POSSIBLE

The phrase "in my presence," however, is a significant one because Magruder testified that, although LaRue was in on part of the discussion of "pros and cons" of the plan, he "was acting as the telephone answering service at that time."

'The Golden Hippie' Kidnaped By Thugs?

ROME (AP) — Italian police say J. Paul Getty III, 16-year-old grandson of the American oil billionaire, is a "child of the night."

His mother says he's a sensible boy who "always checks in at home to let me know where he is."

But he hasn't checked in at home in nearly a week now. He is missing, possibly kidnaped, the object of a nationwide police search.

He was last seen by friends Monday night leaving a Roman discotheque with a French girl. They drove off in her sports car. She is also missing.

His mother returned to Rome from her country home Wednesday and didn't find her son home. She told police that on Thursday she received an anonymous telephone call telling her the boy had been kidnaped.

She said the caller told her he would call back but never did.

"Maybe he did run off with the girl," Mrs. Getty said. "But I can't understand why he wouldn't call."

With freckles and red hair, until recently shoulder-length, young Getty was a well-known figure in Rome's hippie sections in Trastevere, Piazza di Spagna and Piazza Navona.

Italian newspapers call him "the golden hippie."

Tornado Threat Just Bush League

A shower this afternoon brought .13 of moisture to Big Spring and a tornado threat passed unnoticed.

A tornado touched down 20 miles east of Big Spring and 22 miles southwest of Colorado City, touching the ground and picking up a few bushes but not causing any damage.

This occurred shortly before 6 p.m.

CLOUDY

Continued cloudy and partly cloudy through Monday. Chances of showers today 30 per cent, slight chance of rain through Monday. High today in mid 80s, low tonight in mid 60s. Warmer Monday.

Reviewing the ... Big Spring Week ... with Joe Pickle

Give the weatherman A for effort. Good cloud cover hung over our area at intervals during the week, and some showers actually fell. A few places got an inch or more, but for most it was less than that amount, with large sectors falling under half an inch. All of which leaves a question mark hanging over the progress of the crops.

The city and county came in for another piece of the revenue sharing action. Big Spring got \$98,889 in this type federal funds, and Howard County added \$68,666 to its portion.

Add to the list of home-towners who made good the name of Robert N. Miller, son of Mr. and Mrs. E. A. Bailey, who last week was announced as one of Skelly's group vice presidents. That puts the Big Spring native in the very top echelon of Skelly. And Lt. Col. Jan Dickerson, daughter of Mr. and Mrs. J. W. Dickerson, will become Aug. 1 the first woman reservist to be (See THE WEEK, Page 2-A, Col. 1)

ATTEMPTED AIR PIRACY CHARGED

DALLAS (AP) — The FBI had in custody today a man arrested on a warrant charging him with attempted air piracy in connection with Wednesday's hijacking of a helicopter.

J. Gordon Shanklin, special agent in charge of the Dallas field office, said Danny Clark, 20, of Richardson, was arrested on a Dallas street Friday afternoon. Shanklin said Clark is an airman stationed at Sheppard AFB in Wichita Falls.

The arrest, stemmed from the hijack of a J-D-J Flying Service helicopter at Gainesville. The pilot, Douglas Sinor, said a man chartered the helicopter for a flight to Marietta, Okla., but while en route ordered Sinor at gunpoint to Wichita Falls.

YOUNG AND OLD — Everybody enjoyed the Old Settlers reunion in Stanton Saturday. The small fry were busily draining the lemonade keg before the parade started

and one of the star attractions in the parade was J. J. Peters, born in Martin County 82 years ago. Close to 600 attended the all-day event.

'Soreheads' Tough To Find At Reunion In Stanton

By MARJ CARPENTER

STANTON — "Hello there, John Carlson, how you been?" J. J. Peters, who is well past 80 and whose mother was "the first white woman to come to Martin County" reached from his horse to shake hands with John Carlson Mott, another old settler at the Settler's Reunion in Stanton Saturday morning.

Both men were getting ready to ride in the parade at 10 a.m. Mott was riding in a buggy wagon and Peters was on horseback. "Just like I've been every year."

The two recollected that their families came to Stanton — or what was then Marienfeld in 1881 with the railroad.

There were a lot of old timers riding horseback in the parade because Martin County started out as a ranching county and

all of the early settlers know how to ride horseback.

SAUNDERS RIDES
Sheriff Dan Saunders and his posse were also in the parade, along with a group of Shrimers, a group dressed like Indians, a float featuring an old buffalo, numerous dotage automobiles, and many other attractions.

In the middle of town, the Old Settlers were registering and the group anticipated five or six hundred by barbecue time last night.

In the square, sidewalks were jammed with young and old waiting for the parade and Stanton children were quickly draining a wooden keg filled with lemonade which was sitting on the back of a wagon.

One elderly man told a woman, back for the event, "This here is Bill. Betcha

wouldn't have known him."

And the woman answered laughingly, "You're right. In fact, I've got to ask... Bill who?"

"Two ranchers in the crowd were comparing rain measurements from the night before, glad of the shower and hoping it would wait until Sunday before it rains again.

Merchants were holding an old-fashioned sidewalk sale and clerks wore old-fashioned garb. Window displays in the stores were of early-day Martin County relics and pictures of pioneers. An art show was held at the scene of the registration.

MARKERS DEDICATED
Two historical markers were dedicated after the parade. One marker was unveiled at the St. Joseph Catholic Church. This was the first church and the

beginning of the little German Catholic settlement of Marienfeld. It is near the former convent.

Guy Brown was master of ceremonies with Mott, historical survey committee chairman, unveiling the marker, along with L. C. Hazlewood, Sr.

Mrs. Jacob Williams, M. J. and, formerly Angela Peters, was the speaker.

School buses filled to overflowing went to the second dedication ten miles northwest of Stanton at Mustang Springs. This is an old Centennial Marker, erected in 1936 by the State of Texas. However, there was no public road at that time and it was placed on private property on the east side of the springs.

Recently it has been moved (See Stanton, P. 2-A, Col. 5)

Building Boom Bolsters Business In Big Spring

By ANN STEVENS
The first six months of 1973 proved kind to merchants and kept the Big Spring economy on a sure footing, according to local businessmen and an account of economic indicators.

Building permits during the first six months were cited as responsible for much of the upward trend as they soared ahead in January and by April had topped the total for the entire 1972 year.

Bank deposits also showed a healthy increase during the first half of the year over the same period in 1972. A bank call on June 30 showed deposits in the three Big Spring banks and one in Coahoma to be \$67,019,662, a new mid-year record some 8.4 per cent over last year.

Among projects begun were apartment complexes, a YMCA addition and a teacher's credit union building.

THE WEEK

in the Army's war college at Carlisle Barracks. Once she was the first girl "paperboy" — for The Herald.

Another link with the past was snapped with the death of Earle A. Read, who was born here Dec. 19, 1887, six years after his father, H. Clay Read, came here with the T&P railroad as it pushed westward.

Speaking of old timers, the City of Big Spring lost its senior hand when C. E. (Perry) Johnson retired after 38 years — 27 of them in charge of the tax office. Perry was a fine football player for Big Spring High, and one of his sons, (Dr.) Charley, did it even bigger with the St. Louis Cardinals, Houston Oilers and Denver Broncos.

One of the first chores for Perry and wife Dorothy will be a bit of kid-keeping for Charley and wife, and for their other son, Kenny, now at Fort Worth. Friday was "Perry Johnson Day" at city hall, appropriately so, for he was a devoted, faithful servant.

Oil interest in this area has shifted somewhat to northern Sterling County where there has been a flurry of activity in the wake of a 300-barrel Ellenburger strike in Capataz No. 1 Collins. The No. 2 Collins is preparing to test for completion, and No. 3 Collins has been staked.

The city gained another year's grace from a Texas Water Quality Control Board crackdown on its sewage plant effluent. There were two reasons: First, the city thinks it has found the source of heavy metals which have wrought havoc on the digester process (will dump its contents and start over); second, time to evaluate efforts of the CRMWD pump off to reduce the collection of salt water and reduce the head of the saline underflow which intrudes into the city's main sewer outfall line.

Someone with his head in the game can always find a better way to do it. Hence suggestions at Webb AFB tallied up to an estimated savings of \$103,000 per year. Other ideas for conservation saved another

\$75,000.

Here are half a dozen young men with white hats: Bruce Campbell, Gary Tidwell, Mark Glass, Mike Storen, Tim Parker and Kelly Allen, who received their Eagle badges last week. All of them are members of Troop 16, led by Bill Mims, who has turned out 15 Eagles in five years.

Nine cases were filed by J. C. Thomason, representing the Texas Wildlife and Parks Commission, against people who disregard state laws about boat safety. Every individual 12 and under must wear life preservers while in a boat, and all others must have one within an arm's length. That law can save a lot of lives.

And while talking about lakes, a fisherman pulled out a \$700 electric typewriter stolen previously from Webb AFB. Now what sort of a mentality is it that steals a typewriter and dumps it in a lake?

The Texas Highway Department gave prompt service last week after attention was called to a hump in a downtown Big Spring street. Next morning the department had a crew on it.

"A Subscriber" sent in clippings from our Guidebook of a couple of years ago, suggesting "Why not do this again?" Perhaps this was overlooked; we did it March 28 and we have extra copies for those who need them.

ELECTRONIC MAGAZINE Local Cable TV Station To Change Format Monday

Beginning Monday, KHCC Channel 3, the local cable television station run entirely by students of Howard County Junior College, will begin broadcasting from 9 a.m. to 11 p.m. five days a week.

Previously, KHCC programming was limited to a half-hour news show at 6:30 p.m. All news, except for local and college happenings, will now be eliminated.

"We're changing our whole format," said Rodney Hammon, program director. "We're not going to try to imitate other TV stations or to keep up with the news coverage of the paper and radio stations."

He indicated that the station will instead take on the role of an "electronic counterpart of

a magazine," broadcasting feature stories rather than straight news.

"We can't broadcast live from a spectacular fire like radio stations are capable of but we can video-audio tape the tragedy for a showing that evening or the next day," he said.

The station will sign on each weekday at 9 a.m. with "Good Morning," a series of public service announcements and a run-down of the day's program schedule.

From 9:15-10:30 a.m. every day (except the initial Monday) the station will play easy listening music and intermittent public service announcements.

Music will be played each day from 11 a.m. to noon and from 3 to 6 p.m. A special 7:30-10 p.m. music broadcast, "Concept Rock," will feature seldom-heard album cuts by many top recording artists.

Featured programs include "Mass Media in Big Spring," a weekly series at 6 p.m. Mondays which will study the various people and departments making up local radio stations and The Herald. The first program will focus on Doug Ables, news director of KBST in his job.

"Big Spring Happening" will be a 6:40 p.m. daily program of feature stories video-taped around town by the KHCC staff. The show will be repeated at 10:30 a.m., 2:30 p.m. and 10:10 p.m.

Monday's "Happening" — "What's Going On at Gamco?" — will focus on manufacture of blackboards. Tuesday's "Draft Boards Are Still Around" interviews the new Selective Service director recently transferred here from Lamesa.

Wednesday's "Happening," will show demonstrations of palm reading by the Yugoslavian palm reader on Second and Gregg. Thursday's show will concern occupational safety and Friday's will be a guided visual tour through the Heritage Museum.

College news will be aired at 6:30 p.m. and 10 p.m.

A man on the street type program, "What Have You Got to Say for Yourself?" will allow people shopping in Highland Center mall to voice comments on any subject. It will be aired at 7 and 10:30 p.m.

KHCC staff members include Glenn Everett, engineer; Kim Finley and Johnny Sharp, video tape technicians; Preston Harris, cameraman, and Coach Harold Wilder, sponsor.

LUFKIN, Tex. (AP)—Two cars collided head-on Friday night near this East Texas city, killing four teen-agers.

Public Safety Department of Lufkin said the wreck occurred in the far right lane of U.S. 69 eight miles from Lufkin.

Investigators identified the dead as Bennie Richard Prode, 19; Patricia J. Morehead, 13; and Gzell Lowery, 13, all of Huntington, Tex., and Stephanie Blackstock, age and address undetermined.

G. B. Shelburne presented a memorial of the deceased and Glenn Sargent, Belvue Church of Christ, gave the benediction.

This was the 40th annual "Old Settlers Day" and as they say every year in Stanton "one of the best."

The sign that made Stanton famous a few years back on Old Highway 80 has been placed billboard sized, on IS 20.

Mountain Lions 'Mean' When They Are Hungry

Sabrina, two-month-old mountain lion, arrived in Big Spring Friday from Huron, S. D.

The young mountain lion's home is 50 miles removed from where the mountain lion leaped through the window of a trailer home this week and mauled a baby before the lion was knifed to death by the infant's grandmother.

Charles Driver, who owns Sabrina, says that "the animal was probably hungry. This small gentle looking kitten will eventually turn out to be wild."

Driver added: "In working with wild animals, I always remember that no matter how much of a pet they are, they will probably eventually turn on you."

Driver does not believe in starting a small zoo of his own. Sabrina, who now appears to be a harmless kitten, may turn out to be quite an attraction.

Thieves Think Big

The average break-in will see thieves take items easy to carry such as radios, televisions, stereos, and money.

Not so the burglary of the Cliff Carpenter trailer at the Flying W. Trailer Court.

When Carpenter checked his trailer after being away a couple days, he found missing a \$100 bed, and a \$250 refrigerator as well as two dining chairs.

Dirk Smith at 519 Hillside reported a burglary with \$802.20 worth of property stolen, including an amplifier, speaker, turntable, clock radio and cartridge head.

HCJC Athlete Escapes Injury

Taylor Williams, Howard County Junior College basketball player, escaped serious injury in a freak accident at Cosden Refinery Thursday afternoon.

Williams was overcome by fumes when a blowline released its pressure and sprayed a plastic product on him. He was temporarily overcome by the fumes, and for a moment had trouble seeing, according to officials at the plant.

A fellow employee kept Williams from walking off a 40-foot catwalk. Williams also had trouble with his breathing while en route to the hospital, but was checked over and released.

False Alarm!

The Jonesboro firemen had a false alarm fire Friday night, but it wasn't called in as a joke.

A passing motorist saw the gas flare at Reef Field with a house silhouetted in front of it and called the Big Spring sheriff's office to report a house 12 miles out on the Snyder highway on fire.

being shipped by Texas International and ended up in Albuquerque. An attendant in the New Mexico airport called Driver and asked what to feed the cat.

The young lion eats Espallic which is a formula food similar to baby formula. Eventually, Sabrina will be a meat-eater.

Driver, who is interested in starting some kind of zoo in Big Spring, has some monkeys and Kinkajou bears from South America at his home. The young lion was getting along fine with the other pets, Driver said Friday.

Driver is seriously considering starting a small zoo of his own. Sabrina, who now appears to be a harmless kitten, may turn out to be quite an attraction.

Many Once-Banned Books Now In Local Library

By JOHN EDWARDS
 You can check out "Das Kapital" by Karl Marx and writings of Black radical Eldridge Cleaver, but the Howard County Public Library does not have a copy of the children's book containing pictures of a "very naked little boy."

These bits of information were discovered by comparing the exhibit of "banned books" at the library to the library book card files.

The Texas Library Association is exhibiting a showcase of books once banned here. Under each book, a card tells where, by whom and sometimes why the book was once banned.

Through this exhibit, the association illustrates its official opinion about restricting public access to books.

Draft Dead, Recruiting Drives Drag

WASHINGTON (AP) — Pentagon officials, citing poor recruiting results for the Army and Navy in June, are concerned the two services may not be able to attract enough volunteers to maintain their strength now that the draft is dead.

In the first month of what was called a critical summer recruiting drive, the Navy fell more than 40 per cent short of its goal and the Army, which has failed consistently to meet its enlistment objectives, missed its mark by 9 per cent last month.

The Air Force and the Marines, which have met their quotas in recent months, both went over 100 per cent again.

Pentagon officials have been counting on a summer surge of enlistments by high school graduates. There was an increase in June, but it was not big enough for the Navy and Army.

The Navy results were a particular disappointment to Pentagon officials. The Navy has had the services in relaxing dress and hair restrictions and otherwise moving to make service life more desirable.

But the preliminary results or June show the Navy gained only 8,357 volunteers, or 59 per cent of its 14,200-man goal for the month.

A Navy Recruiting Command spokesman said "the Navy is being very selective in maintaining our high quality and we sacrificed numbers to get quality."

However, the other services also claim they are concentrating on quality in their recruits.

The Army enlisted 15,019 new men in June, about 1,500 fewer than its goal.

And once again a special \$2,500 enlistment bonus failed to lure enough young men into the Army's combat arms—the infantry, artillery and armor. A total of 2,310 men signed up for the bonus in return for a four-year enlistment in combat jobs. This was nearly 700 below the quota.

The combat arms have been the Army's most difficult problem in moving into an all-volunteer force.

GM Will Post Price Warning

LOS ANGELES (AP) — General Motors cars beginning with model year 1974 will bear a price warning to California consumers under an agreement reached in Superior Court and announced by state Atty. Gen. Evelle J. Younger.

In a statement here, Younger said GM agreed to post this message near the manufacturer's retail price sticker on each car:

"Notice to Buyer: The manufacturer's suggested retail price is not necessarily indicative of the price at which dealers in this area have been selling this automobile."

A spokesman for Younger's office said the state contended that a selling price lower than the suggested retail price led consumers to believe they were getting a bargain.

The spokesman added that GM agreed to posting the notices on cars without admitting a violation of law and paid the state \$30,635 in attorneys' fees and court costs.

Air Force Brass Win Nominations

WASHINGTON (AP) — The Senate today confirmed the nominations of John L. McLucas as secretary of the Air Force and Gen. George S. Brown as Air Force chief of staff.

Action was by voice vote without dissent.

It also confirmed several dozen military nominations, including one placing Gen. Alexander M. Haig Jr., President

Nixon's new White House chief of staff, on the retired list as a full general.

Haig, named earlier this year as vice chief of staff of the Army following service as Henry A. Kissinger's deputy, has replaced H. R. Haldeman at the White House in the wake of the Watergate scandals.

Other nominations confirmed included the promotion to four-star rank for Lt. Gen. Richard G. Stilwell, who is scheduled to become U.S. commander in Korea.

Everything Tastes Or Smells Awful To 500,000 Americans

By FRANK CAREY
AP Science Writer

WASHINGTON (AP) — A government medical researcher says possibly 500,000 Americans are undetected sufferers of a disease whose victims have lost their sense of taste or smell, or everything tastes or smells awful.

Dr. Robert I. Henkin, who first described the strange disease in medical literature two years ago, says only a relative few of the nation's doctors have so far shown awareness and concern "about the importance of the problem."

NOT LONE KILLER

Thus, he says, while a highly effective and simple treatment is available, few patients have had their ailment definitely diagnosed and been placed under treatment, most of them at the government's National Heart and Lung Institute, (NHLI).

The malady is not a killer itself, he says.

But he says that some patients, prior to being treated, have reported an inability to distinguish spoiled from fresh food, or to smell smoke or escaping gas — a situation which "provides a hazardous basis for normal life," he says.

The scientific name of the disease is itself pretty awful: "Idiopathic pharyngosmia, with dysgeusia, hyposmia, and dysosmia."

PERVERTED TASTE?

Hypogeusia means "decreased taste acuity"; dysgeusia stands for "decreased smelling acuity"; hyposmia means "perverted taste"; while dysosmia means "perverted smell."

Here are some examples of sufferers who showed significant improvement once they were diagnosed and treated:

—A middle-aged Italian pizza-maker in New Jersey who suddenly found he had lost ability to taste or smell any kind of food, including his beloved pizzas.

That was bad enough, but a week or so later, he found that virtually all foods, again including his pizzas, "smelled and tasted like manure or decaying garbage."

—A professional soldier who, at age 48, suddenly found all food, especially beef and pork, was foul or disgusting to taste and smell. Moreover, the only liquid he found tolerable was a tropical-fruit-flavored drink.

SPIT IT OUT

Water tasted so foul that he had to spit it out.

—An elderly male building contractor to whom nearly all foods, especially cooked ones, became so obnoxious to taste and smell that he was reduced to eating raw vegetables — mainly carrots, cabbage and artichoke plants. He lost 30 pounds over a period of two years.

Dr. Henkin, 43, chief of his institute's neuroendocrinology section, which studies the influence of bodily and other chemicals on the nervous system, says he and his associates have treated about 1,000 sufferers from the newly recognized ailment in the last three years.

He says between 40 and 66 per cent of them "get significantly better" after being placed on treatment, depending upon certain factors preceding onset of their taste-and-smell abnormality.

The treatment consists of daily doses of zinc sulfate capsules, to be continued throughout the patient's life, as far as doctors now know.

The zinc pills are designed to make up for deficiencies in zinc and other bodily "trace" metals which Henkin and his colleagues believe are the triggering cause of the disease.

Henkin indicates that many of the 1,000 male and female patients treated so far at his institute were ones whose own doctors had told them their symptoms would disappear within a short time, or referred them to other doctors.

Failing to get relief, he says, many of these people sought psychiatric help, without beneficial results.

SEX WANES

Meanwhile, he said, most of them suffered loss of appetite and weight losses up to 50 pounds in relatively short periods, and some suffered severe depression, with a few even contemplating suicide.

Some also suffered vertigo, decreased sexual desire, hearing loss and unexplained high blood pressure.

Some of the women, he said in his initial report to the Journal of the American Medical Association two years ago, "reported serving rancid food to their families due to their inability to recognize food spoilage."

He said in an interview that during the two years since his initial report, there's some evidence that additional private doctors are beginning to pay attention to the disease and to treat patients.

REAL PUZZLERS

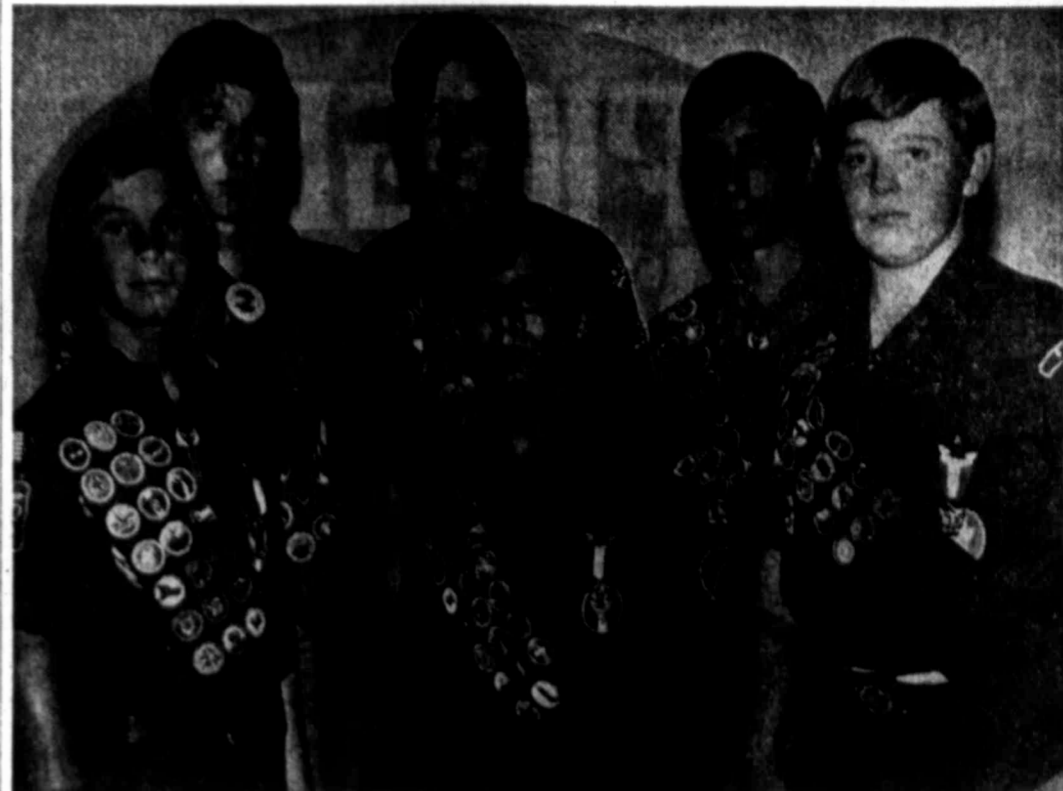

But he says the nation's doctors should not really be blamed for their alleged inattention so far, because, he contends, little or nothing is being taught in the country's medical schools about abnormalities of taste and smell.

"You can't blame them (the doctors)," he says. "They used to be educated through scientific articles and press reports."

Henkin says decreased taste acuity is found in all patients; perverted taste occurs in 60 per cent; decreased smelling acuity in 80 per cent; and perverted smell in about 45 per cent.

Some patients have all four. The researcher says about 60 per cent of patients develop their symptoms immediately after, or concomitant with, an attack of influenza of "flu-like illness; another 6 per cent, throat or mouth; while the remaining cases appear to have no connection with any known preceding event.

The latter type, he said, constitute the real puzzlers and the hardest to treat.

Six In Troop 16 Receive Highest Rank In Scouting

Scout Troop 16's record of major advancement and achievement received another boost last week when six members received their Eagle rank, highest in Scouting.

The presentation drew a large crowd in the Elbow school cafeteria where Bob Wash, official of the sponsoring Forsan Oil Well Service Company, made the Eagle charge.

Receiving the Eagle award were:

Bruce Campbell, 15, son of Mr. and Mrs. Buddie Campbell, assistant patrol leader; Gary Tidwell, 14, son of Mr. and Mrs. H. C. Tidwell, chaplain; Mark Glass, 15, senior patrol leader, son of Mr. and Mrs. Bob Glass; Mike Storen, 15, son of Mr. and Mrs. John Storen, librarian; Tim Parker, 14, son of Mr. and Mrs. A. B. Parker, scribe; and Kelly Allen, 15, son of Mr. and Mrs. W. A. Allen, quartermaster. All of these are members of the troop leadership corps and have served as patrol leaders. Gary, Mark, Mike and

Kelly attend Forsan school, and Tim and Bruce attend Big Spring schools.

The Eagle class equalled the second class awards, Bob Glass number of one recently at Coahoma and is one less than the class of seven two years ago by Troop 16, which has produced 15 Eagle Scouts in five years. The troop is headed by Bill Mims, scoutmaster; Bill Cregar, assistant; Bob Wash is institutional representative. The special Court of Honor also was the occasion for a

Scholarship Winner Takes Aim At Metropolitan Opera

Carrie Wheeler, daughter of Mr. and Mrs. Robert Wheeler, celebrated her 17th birthday in Budapest, Hungary and returned to Big Spring Friday with a \$1,500 scholarship.

Miss Wheeler, to be a senior at Big Spring High this fall, was one of 50 Meistersingers who performed at the Festival of Three Cities in Vienna, Austria, Budapest, Hungary and Prague, Czechoslovakia.

In solo competition, Miss Wheeler was rated one of the top three individuals. In a vocal recital before a three-judge panel, she sang a German song and a French song leading to her top rating.

She and the two other winners, both girls, were awarded \$1,500 scholarships by the Dr. Lara Hoggard Foundation. Dr. Hoggard, a music professor at North Carolina University, was chairman of the music festival.

A mezzo soprano, Miss Wheeler said she intends to use the scholarship to major in voice probably at either the University of Texas in Austin or North Carolina University.

"The most exciting part of the whole trip for me was the day of the competition. I woke up at 3:30 a.m. and the concentration had begun. It all built up until the performance at 3:40 p.m.," she recalled.

"The best advice I have ever had was 'whatever you do, be musical.' I had a few technical slips in my performance, but I came back twice as musical," she said.

An interesting highlight to her trip was that she turned 17 July 7 while in Budapest. "We and some members of other choirs went to a Hungarian goulash party that night. All of a sudden, these Hungarian violins began playing 'Happy Birthday' and two chocolate cakes came down the aisle," she recounted, adding that she thought her best friend, Janice Gregg, was responsible.

Among things she brought back from Europe was a set of crystal from Czechoslovakia which she said came very "cheap," some dolls and a new dress.

Miss Wheeler, a voice student since the eighth grade, said she has her sights set on a career as a professional opera singer, hopefully ending up at the Metropolitan Opera.

Of her European trip, she said with a mysterious gleam in her eye, "I have a feeling I'll get to go back someday."

Kindergarten Confab Slated

A public meeting to answer questions concerning the school's kindergarten program for the coming year will be held Thursday at 7:30 p.m. in the rear of the high school auditorium, according to Lynn Hise, assistant superintendent of instruction.

LOCATIONS TOLD

Decisions as to the location of the kindergarten units were made according to number of children involved in each school, size of classrooms and availability of teachers and aides.

NEW REQUIREMENT

The state of Texas decreed public kindergarten for all children five years old on or before Sept. 1.

The state says it is optional to the five year olds whether or not their parents want them to attend, but it must be made available for all five-year-olds.

The option allowed by the state included the possibility of full-day sessions, with the school paying for half a day for all instruction and costs, which was out of reach of the Big Spring budget at this time.

The other two choices were either half day sessions or allowing part of the group to go one semester all day and part the other semester. School administrators decided that half

day sessions were better educationally for kindergarten children.

There will be four units of kindergarten taught at Lakeview with children from Bauer Green, school's transportation director, will explain busing.

At Kentwood, a morning unit will have students from Boydston, College Heights, bus students from Park Hill and all Gay Hill students. This totals 72 for two units.

The afternoon session will include the in-town Park Hill students and students from Washington, Kentwood and Moss.

Marcy will sustain a morning and afternoon unit with the split to be made on an age basis.

Students will be bused from the elementary school in which zone they reside. Only rural students will be picked up at their homes.

Stab Death Charge Filed

TUCUMCARI, N.M. (AP) — Dist. Atty. Norman Runyan said here that John Wayne Lee 31, who gave a Ft. Bragg, N.C., address, was charged with armed robbery and murder in the death of an elderly Glenrio, N.M., woman.

Runyan said Lee had waived extradition from Texas, where he was arrested near Vega Tuesday afternoon. Vega is about 40 miles east of Glenrio.

Lee was arraigned before Magistrate Jess Goldston of Tucumcari, who set bond at \$25,000 on the murder charge and \$25,000 on the armed robbery charge, Runyan said.

Runyan said Lee was brought from Vega to Tucumcari by state policeman Joe Wages and Quay County Sheriff Francis Isler of Tucumcari.

Lee was held in the Quay County jail in lieu of bond, Runyan said.

Oldham County Sheriff's Deputy Jack Walker of Vega said Lee was arrested near there by sheriff's and Texas Department of Public Safety officers.

The Potter County sheriff's office in Amarillo said Lee was taken there for questioning and then back to Vega.

New Mexico state police said Dessie Leach, believed to be in her late 60s, was stabbed to death Tuesday during an apparent robbery in Glenrio, a small community east of Tucumcari on U.S. 66 and near the Texas line.

She and her husband owned the Longhorn Bar, where the slaying occurred.

State police said Mrs. Leach was stabbed four times.

Walker said he, Oldham County Sheriff Bill Olsen and Texas Department of Public Safety officers stopped Lee about 4 1/2 miles west of Vega on Interstate 40.

Lee offered no resistance and officers found a .38 calibre pistol, a pellet gun and "more than one knife" in his possession, Walker said.

NEW FLOOR — Workmen putting in a new floor in the Goliad Junior High School band hall include Pedro Carrillo, J. C. Holguin, Jim Norman and Santiago Valencia. Much work is being done in the school system for maintenance and repair during the summer months.

School Maintenance Men Stay Busy During Summer

Just getting the schools in shape for another school year can take a major part of the summer months for school maintenance men.

This year, one of the main projects, that is probably the most noticeable to the public, is the paving of the west parking lot at the football stadium.

The Big Spring School board and Howard County Junior College first thought they might only be able to pave half of one side, but since the county has offered the services of their equipment, they have been able to pave the entire western parking lot and include a three inch curbside base, according to Don Crockett, assistant superintendent of buildings.

Another major summer project has been in the Goliad Junior High band hall and choir room. They have torn out the built-in risers, which were no longer desired by the band and choir directors and leveled the floor and refurbished it with tile.

Just to show the idiosyncrasies of keeping school buildings up to date, according to modern educational standards, they are also busy installing a riser for the instructor in the high school science labs so that he can oversee experiments from a "higher level."

There is also work on the laboratory tables in the high school science labs.

Other work at Goliad is a refinishing of the gymnasium floor. All of the floors in school buildings in the entire school district are being stripped and refinished.

Other paving projects, in addition to the high school football stadium is a paving project at Goliad and at Boydston.

At Airport Elementary, the stage at the end of the all-

purpose room is being removed and flooring put down. Out at the stadium press box, there will be some painting and replacement of seats. This will be done in addition to a repainted scoreboard and needed electrical repairs.

One project this summer is a complete renovation and reworking of all school buses. The two dozen buses are having seats upholstered where needed and the motors overhauled.

All of these items are budgeted items in last year's budget and will total close to \$25,000, according to Crockett.

Maintenance men are working throughout the summer, but in addition, four students are working in a special work study program.

At Airport Elementary, the stage at the end of the all-

couple arranged their work schedules before their separation 10 days ago.

In New York, Burton's lawyer, Aaron Frosch, said friends expect the Roman reunion to end their split. "They expect the two of them, Mr. and Mrs. Burton, to return to Rome and rent a villa there where they will stay during the filming," he said.

A hospital spokesman said on Friday that tests were being made to determine the nature of O'Donnell's illness.

The 48-year-old O'Donnell collapsed Thursday night here. He was here for an autograph party for his book, "Johnny, We Hardly Knew Ye."

Miss Taylor came to California soon after she announced the separation on July 3. Her spokeswoman, Donna Quinn of John Springer Associates, said she is staying at the home of costume designer Edith Head.

Miss Hawn, who won an Academy Award in 1970 as best supporting actress for her role in "Cactus Flower," said her picture had been used by the companies without authorization. It's use was thwarting manufacturers' offers for product endorsements, invading her privacy and damaging her career, she said.

She said in the suit, which asked for \$1.5 million damages when filed in 1970, that she had left the cast of television's "Laugh-In" primarily to discard her role as a comedienne and become a serious actress.

BSSHS News Staffers Win Many Honors

All of the 10 Big Spring High School students participating in the Texas Tech University 16th annual summer high school publication workshop won citations for outstanding performances.

In addition, Cindy Taylor was picked as Miss Workshop, the top honor for a girl participant, and shared with Leigh Jones a trophy for best cover design.

She had a hand with Leigh, Bruce Abby and Doug Robison in earning one of the trophies given for the best four over-all yearbook designs.

All of the BSSHS newspaper staffers were chosen for places on one of the five workshop newspapers.

The students were supervised by Mrs. Erma Steward, BSSHS publications sponsor and the dean of workshop adults. Mrs. Steward not only is the only sponsor who has made all of the 16 workshops, but she made four or five annual sessions before they were organized formally as a workshop.

Cindy, the daughter of Mr. and Mrs. John L. Taylor, had No. 27 in the field of 27 contestants for Miss Workshop, but that didn't deter her. She was first picked as one of five finalists on the basis of poise, beauty and personality. Cindy carried an arm bouquet of red carnations, and her picture will appear in the workshop yearbook, "Together." First runner-up was Margie Ballard, Colorado City.

Two BSSHS photographers, Jerry Trevino and Raymond Torres, earned positions as staff photographers on the summer yearbook.

Cynthia Dennis was co-editor of one of the five workshop newspapers and Brenda Tynes was associate editor for another. Druanne Priddy was reporter on still another, and Joe Griffith was page editor and sports editor.

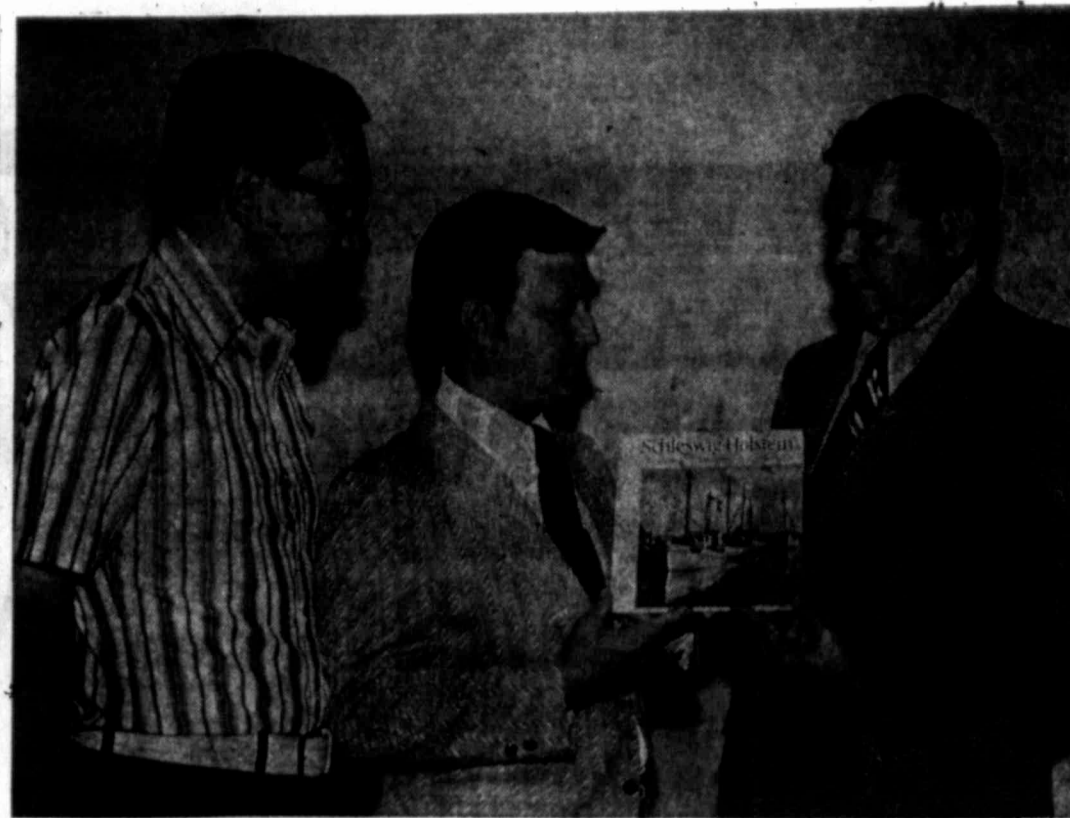

This year's workshop cut down on lectures and increased the one-to-one teacher-student relationship. There were more than 250 students from Texas, New Mexico, and California schools.

Ex-Kennedy Aide Enters Hospital

CLEVELAND, Ohio (AP) — Kenneth O'Donnell, a White House aide for the late President John F. Kennedy, remains in fair condition in a local hospital.

A hospital spokesman said on Friday that tests were being made to determine the nature of O'Donnell's illness.

The 48-year-old O'Donnell collapsed Thursday night here. He was here for an autograph party for his book, "Johnny, We Hardly Knew Ye."

FAR WEST TEXAS Dry Land Crops, Ranges Need Rain

COLLEGE STATION, Tex. (AP) — Continued high temperatures remained with the Texas farm and ranch scene this week, a situation that is pushing harvesting and raising the usual summer drought worries in some areas.

Dr. John E. Hutchison, director of the Texas Agricultural Extension Service, said the overall crop and livestock picture is still favorable. However, the northern and western regions are on the little-too-dry side, while southern areas are troubled with high humidity in harvesting operations, grain sorghum in particular.

District Extension Agents report the following conditions: COTTON SQUARING: These worries are balanced by top livestock and pasture conditions. Citrus orchards look promising, and the melon harvest is almost complete with some rain damage reported. Cotton insect activity is increasing.

SOUTH PLAINS: Cotton is growing well and squaring in early-planted fields. Although surface moisture is dwindling fast, the crop can tolerate another week to two weeks of dry weather without serious yield reduction. Early grain sorghum is making good progress, and some fields are in the boot stage.

Soybeans are coming along fine, but will need irrigation soon. Corn is tasseling and showing up well. Onion, potato and cucumber harvesting is underway. Rain is needed on ranges, but livestock are doing well.

NEED RAIN FAR WEST: Dry land crops and ranges are very dry and need a general rain, although livestock are still progressing. The hot weather is favorable for cotton, and vegetables are producing good yields. Some hail damage was reported on crops in the Odessa and Stanton areas.

WEST CENTRAL: Most counties in the San Angelo region have short to very short soil moisture. Yet, there are good yields of wheat, oats and hay. Peanuts are doing well. Peaches are coming off in Gillespie and Freestone Counties. San Saba and Sterling Counties report a short pecan crop and almost no peaches. Livestock are in good condition, but a general rain would help ranges.

CENTRAL: Moisture is mostly adequate, pastures are average, and livestock are still in good shape. Fine crops of small grains and hay are being har-

vested, and cotton and grain sorghum look solid. Peanut planting is complete, and stands appear promising. Soybeans and corn are 50 percent harvested, and the sor-

MELON HARVEST SOUTHWEST: Moisture is adequate, with pastures and livestock in good to excellent condition. Hay harvesting is producing high yields and quality. Cantaloupe, corn, watermelon, cucumber and late onion harvesting is still going on, and land is being prepared for green peppers and cabbage.

SOUTH: Recent and persistent rains in this region have caused grain sorghum harvesting problems, such as head sprouting and moldy grain.

These worries are balanced by top livestock and pasture conditions. Citrus orchards look promising, and the melon harvest is almost complete with some rain damage reported. Cotton insect activity is increasing.

Roman Reunion Expected To End Liz-Burton Split

LOS ANGELES (AP) — Actress Elizabeth Taylor will leave July 21 for Rome, the city where her romance with Richard Burton blossomed and where friends say their ailing marriage will mend.

Burton, who flew to Rome Thursday, and Miss Taylor are scheduled to begin separate movies there this month. The

couple arranged their work schedules before their separation 10 days ago.

In New York, Burton's lawyer, Aaron Frosch, said friends expect the Roman reunion to end their split. "They expect the two of them, Mr. and Mrs. Burton, to return to Rome and rent a villa there where they will stay during the filming," he said.

A hospital spokesman said on Friday that tests were being made to determine the nature of O'Donnell's illness.

The 48-year-old O'Donnell collapsed Thursday night here. He was here for an autograph party for his book, "Johnny, We Hardly Knew Ye."

Miss Taylor came to California soon after she announced the separation on July 3. Her spokeswoman, Donna Quinn of John Springer Associates, said she is staying at the home of costume designer Edith Head.

Miss Hawn, who won an Academy Award in 1970 as best supporting actress for her role in "Cactus Flower," said her picture had been used by the companies without authorization. It's use was thwarting manufacturers' offers for product endorsements, invading her privacy and damaging her career, she said.

She said in the suit, which asked for \$1.5 million damages when filed in 1970, that she had left the cast of television's "Laugh-In" primarily to discard her role as a comedienne and become a serious actress.

These worries are balanced by top livestock and pasture conditions. Citrus orchards look promising, and the melon harvest is almost complete with some rain damage reported. Cotton insect activity is increasing.

PAY AMENDMENT FOR LAWMAKERS

Chance To Make Nine Changes In Constitution Of Texas

(EDITOR'S NOTE: Texas legislators are trying with one hand to make a bunch of changes in the old state Constitution and with the other hand to write a new or revised constitution. Here, briefly, are the nine proposed changes that will be before voters Nov. 6.)

By GARTH JONES
Associated Press Writer

Texas voters get a chance Nov. 6 to make nine more changes in the old state Constitution just a few weeks before the historic Constitution Convention meets to write an entirely new document.

The proposed changes on the November ballot were made by the recent legislature whose 181 senators and representatives also have the task of rewriting or revising the 1876 document in 1974.

Sponsors of these nine changes did not think their pet projects could wait until the 1974 convention — particularly the major constitutional change that would raise legislators' salaries from \$4,800 to \$11,000 and provide annual legislative meetings.

VETERANS LAND PROGRAM
Five other proposed changes involve tax laws. Another pertains to creation of conservation and reclamation districts. Another concerns court jurisdiction and still another would authorize more bonds for the Veterans Land Program.

If any or all of these should be adopted by voters there is a possibility they might be changed or eliminated when the legislators become constitution writers next year. Of course, voters also will have a change to finally approve any result of the Constitution Convention, probably in 1975.

Just how arguments will develop on the annual sessions and pay raise bill is uncertain but there's certain to be plenty of controversy. There always has been.

Among the first proposed amendments to the present Constitution was one in 1881 concerning legislators' pay. It was defeated by voters.

PAY RAISES DEFEATED

There were other unsuccessful pay hike attempts in 1887, 1889, 1906, 1907, 1914, 1921, 1927 and 1945.

The first combination annual sessions and pay amendment was defeated in 1958. Finally in 1960 the present \$4,800 annual salary was voted, in place of the former \$20 a day pay while in session. In 1968 an increase to \$8,400 was turned down by voters. Another combination annual sessions and pay raise was defeated in 1969. In 1972 voters turned down another attempt to pay senators and representatives \$8,400 a year.

The amendment submitted to voters by the 63rd Legislature would require the legislature to meet in regular session every year. However, in odd-numbered years the session could not exceed 180 days, instead of the current 140-day limit, and in even-numbered years the session would be limited to 60 days of debate on fiscal matters and any emergency matters submitted by the governor.

PERSONAL EXPENSES

The increase in pay from \$4,800 to \$15,000 annually would carry with it an increase in personal expense allowances of each of the 181 legislators to \$18 a day while in

legislative session, instead of the present \$12. There also would be increased travel pay.

Lt. Gov. Bill Hobby and several senators have said they thought it was a mistake for the last legislature to try to write a set amount of legislative pay into the constitution. Hobby approved annual salaries but did not think one session should be limited to money matters.

Speaker Price Daniel Jr. has said that "annual sessions and higher pay are absolute musts in our constitutional effort." He told of one House member who slept in his office because he could not afford a hotel room.

A committee of the Texas Constitutional Revision Commission, which will offer the 1974 convention a draft of a new constitution, has recommended that legislative salaries be dropped from the constitution. The commission will decide later if lawmakers themselves or a special independent group should set the pay levels.

The committee also would have the constitution require that the legislature meet only once every two years but would let a majority of legislators call a special session at any time. Now, only the governor can call a special session.

\$100 MILLION IN BONDS

Two of the tax measures on the Nov. 6 ballot would extend property tax exemptions to unmarried persons who are heads of households. Married heads of household already have such exemptions. One SJR13 would let

unmarried adults — which now means 18 years or older — get a \$3,000 exemption from local property taxes on their homestead property — actual residence and its land. The other HJR 7 would prevent the homestead property of any unmarried adult from being seized and sold for payment of debts.

Another proposed change would allow cities and counties along the Texas Coast to issue bonds, after voter approval, for the construction of sea walls.

One amendment would allow regular ad valorem taxes to be used as security for certain bonds issued by cities instead of restricting the bonds to special revenue sources.

Another tax-related change would exempt certain water supply corporations and cooperatives from the property tax on water storage and distribution facilities.

The amendment concerning the Veterans Land Program would give the state authority to issue another \$100 million in bonds to be used in buying land and reselling it to military veterans on a long-term, easy-payment basis. The change, if approved, would make a total of \$500 million the state has spent on the program.

Another amendment would require involved cities and counties to be notified before creation of any new conservation and reclamation districts.

The ninth proposed change would give district courts jurisdiction over probate courts.

Officer Shoots When Menaced

DALLAS (AP) — A Dallas police officer fatally shot a Pleasant Grove man who was coming at him with a kitchen knife Friday, the Dallas Police Department said.

The officer, Patrolman J. R. McEnturff, had answered a domestic disturbance call about 4:40 p.m. at the home of Richard Arlan Purvis, 31, a police department spokesman said.

The dead man's 30-year-old wife Charlotte told police her husband had come home drunk and was threatening their six-month-old daughter with a kitchen knife.

McEnturff said he saw Mrs.

Purvis knock a knife from her husband's hand as he approached their door. The police officer then broke the man's grip on the baby, and Mrs. Purvis fled with the child to a neighbor's house.

After a scuffle with McEnturff, Purvis rose from the floor with the knife again in hand. The police spokesman said Purvis backed the officer against a door.

When Purvis refused to stop after several warnings, the officer shot him with a .357 magnum pistol, the department spokesman said.

First Fem Reservist Chosen For U.S. War College Course

Jan Dickerson will become on Aug. 1 the first woman reservist ever to take the 10-month U.S. Army War College course at Carlisle Barracks, Pa.

She was one of four reservists chosen for this high-level training, and, as mentioned, is the first woman so chosen. Between 150 to 200 high-ranking military and civilian personnel will be in the college.

Lt. Col. Dickerson is the daughter of Mr. and Mrs. C. W. Dickerson, 1700 Yale. She is a graduate of Big Spring High School and Hardin-Simmons University, did graduate work at Wisconsin and holds her masters in journalism from the University of Missouri. For 10 years she was on the Kansas City Star as reporter and later art editor.

She has been recalled to temporary active duty on several occasions as a reservist.

Several years ago she retired from her newspapering to do what she enjoys most, working with horses. Between training and conducting clinics on horsemanship and care, she has found time to write books (her first was "Making the Most of

your Horse," Doubleday) and articles which have found wide acceptance. She maintains her home on a 4½-acre place she has at Stanley, outside Kansas City.

Maj. Gen. J. Milnor Roberts, chief of Army Reserve, has talked her into directing several projects since he took over his post in 1971. This included one five-months tour of active duty in 1971.

She has been used on frequent occasions for special assignments at the Pentagon,

Western Bounces AL Stars

Midland Western scored three unearned runs in the fourth inning Saturday and rode them to a 4-3 triumph over the Big Spring American League Stars in the District 3 Little League Tournament opener.

In the second game, Jimmy Zackay tossed a no-hitter as Midland Southern blanked Midland Northern 2-0. Bill Wade was the losing pitcher. Sammy Villareal had a double and a single in pacing the Southern squad's six-hit attack.

In a late game Saturday, La-mesa met the Texas League Stars.

AL pitchers held the Midlanders to just two hits, but a streak of wildness on the part of starter Danny Richards gave the visitors free runs in the fourth.

Mark Timmons went the distance for Western, scattering six AL hits, including a solo home run off the bat of Big Spring catcher Mike Gomez. Midland had gone ahead 4-0 after three and a half frames before the American Leaguers battled back for single runs in the bottom halves of the fourth, fifth and sixth innings. Gomez' blast gave the hosts their final mark.

Jody Sessom and Timmons were the only Midland batters to hit safely off Richards, Jimmy Marquez and Terry Howell. Dustin Calloway scored twice in the victory.

For Big Spring, Mark Burris had a pair of hits and Scott Vick, Brad Martin, Eugene Alexander and Gomez had one each.

Midland's Western and Southern Leagues will collide in a second round battle Thursday at 8 p.m. for a semifinals berth. 20th losing teams were eliminated.

Other first round games this week send Midland Eastern against Midland North Central Monday, Midland Tower against Big Spring National Tuesday and Big Spring International against Midland North-Western Wednesday. All games are at 3 p.m. at the AL Park.

Revson Claims 1st Grand Prix

SILVERSTONE, England (AP) — Peter Revson, a 34-year-old handsome bachelor from Redondo Beach, Calif., won the British Grand Prix Formula I auto race in a Yardley-McLaren today after a multiple pile-up after only one lap had caused the race to be restarted.

The triumph was the first Grand Prix victory for Revson, who was chased across the line by Ronnie Peterson of Sweden at the wheel of a JPS-Lotus.

New Zealand's Dennis Hulme finished third in another Yardley-McLaren.

Nine cars were sidelined after the multiple crash, but only one driver, Andrea De Adamich of Italy, suffered injuries resulting in hospitalization. He suffered a broken ankle.

Wreckage from the cars was strewn across the track and the race was stopped. It was restarted 1 1/2 hours later with only 18 of the record entry of 28 vehicles fit to be driven again.

It had been expected that the British Grand Prix, the ninth race in the world championship series, would be a renewal of the battle between reigning world champion Emerson Fittipaldi of Brazil and Scotland's Jackie Stewart for first place in the point standings. But things didn't work out that way.

Both drivers were among the leaders in the early stages of the race. Fittipaldi, driving a JPS Lotus, retired with gearbox trouble before the halfway mark. Stewart, who lost a lap after spinning out in his Tyrrell-Ford and then stopping at the pits for a check, finished 10th. As a result, the Scot still leads Fittipaldi by one point in the 1973 World Drivers' Championship.

The 67-lap race was dominated early by Peterson, winner of the French Grand Prix two weeks ago. Revson, better known in the U.S. for his Can-Am and TransAm racing, caught him on the 39th lap, then withstood pressure from both Peterson and Hulme to win the race.

Revson's time for the 196.11-mile course was one hour, 29 minutes, 18.9 seconds—an average speed of 131.75 miles per hour. Hulme had the fastest lap, completing a circuit in 1:18.7 at a speed of 133.89 m.p.h.

Thomas-Reynolds Team Triumphs

Mr. and Mrs. Jackie Thomas and Mr. and Mrs. Don Reynolds captured first place in the Scotch foursome play at Big Spring Country Club Friday evening.

Tied for second were Mr. and Mrs. Walton Morrison and Weldon Bryant and Vergie Rees with Mr. and Mrs. Omar Jones and Mr. and Mrs. Alton Underwood.

In a putting tournament, winners for the men were Dr. James Matthews, followed by a three-way tie for second between Bud Pickett, Bill and Weldon Bryant, and a four-way tie for third between Alton Underwood, Morris Rhodes, Pete Cook and Jackie Thomas.

In the women's division, Mrs. Bill Bell was the winner, followed by Mrs. Walton Morrison and Mrs. Flo Hallam in a tie for second.

The club will have a Scotch foursome Louisiana draw event starting each Friday at 5:30 p.m.

First Nazarene Team Tops Field

Johnny Mize shot a 35 to lead the First Nazarene Super Stars to a 152 total and first place tie in the week's Church League Indoor golf. The Midway Baptist Queens were second at 161, and the Midway Pros stood third with a 164.

The week's results:

First Nazarene Super Stars, 152 (Johnny Mize, 35); Midway Baptist Queens, 161 (Joyne Meacham, 37); Midway Baptist Pros, 164 (Jody Bennett, 37); Midway Baptist Hawks, 165 (Joy Snow, 43); Midway Baptist Queens, 195 (Janine Harris, 45); Midway Baptist Kittens, 199; Grace Baptist Angels, 200 (Neil Hampton, 46).

The 'Seed Corn'

The world of science is experiencing one of its recurring periods of schizophrenia forced on it by the world of eminently practical men. Research dollars are scarcer as businessmen ask the persistent question to which there is seldom an informed answer: Will it work?

In the best of all possible worlds, of course, X dollars in research would produce X dollars in results, as in profits. In practice, though, the scientific process cannot be contained by the ring of a cash register.

This is most evident in the field of basic research. There can be no guarantee that such research can produce a single practical application. It may, or it may not. At worst it ends in failure. At best it contributes something to the sum of our knowledge.

No one claims that medical researchers seeking a cure to cancer are not anxious to find

one. The difficulty is that they do not know the way to follow. There are so many possible approaches. With luck the answer will come. But the fundamental fact remains that the cure, if there is one, can never be found unless each avenue of approach is carefully explored.

The basic researcher is seldom concerned with the practical application of his work. Yet we

And Now The Longer Glow

Fifty-one young singers who made up the Meistersingers troupe, plus their sponsors, are back from a three-city tour in Europe.

From all accounts, they performed admirably in Vienna, Budapest and Prague, blending in also with one of the master concert choirs. More important, reports indicate that they were splendid representatives of our school and community, and

cannot dispense with his search. It is the "seed corn" of every highly developed society. If, indeed, his research produces a significant breakthrough, then there are plenty of applied scientists or technologists who can relate his discoveries to the more mundane world of every day.

Nothing could be more disastrous than to stunt basic research.

most of all for our nation. The choir drew praise and one of its members, Carrie Wheeler, won a scholarship for her solo work.

This is the pleasant, warm after-glow, but perhaps the enduring virtue of the trip will be the education which they received in exposure to other people and other cultures, and thus in promoting real understanding between peoples.

Ether Bunny, Oooh!

Around The Rim

Walt Finley

My wonderful aunt, Mildred Ladd, she celebrates her birthday Wednesday, asks:

"Did you hear about the rabbit who wouldn't let his dentist give him novocain because he was an ether bunny?"

Unfortunately, now I have. And it sounds as if he needs a new front tooth.

MY WOOD chopin' aunt, Alta Harris, who celebrates her birthday Monday, says she is impressed by the politician who leaves his \$80 a day hotel suite to climb into a \$9,000 limousine which takes him to a \$20 million jet which delivers him to a city where he delivers a speech on economy in government.

MY BANKING aunt, Leona Factor, tries to ignore her birthday July 25, reports the principal of a Medford, Ore., school wrote to the parents of one of his students:

"Perhaps your son does have a spark of genius, but he also has ignition troubles."

My mother, it's her birthday next Sunday, writes:

"When I was in school my teacher said I was a dismal failure in math. I guess it was because I never could figure out where to put the dismal points."

YEP, JULY is a REALLY BIG month down 'round Durant way.

Talented Janice Tallant, moving on to bigger tasks and more holidays, complains:

"All my prurient interests are turning pure."

DEAR PASTE-POT MAN: Is the love of money the root of all evil? ELI

Not necessarily. The lack of it doesn't help a whole lot either.

DEAR PASTE-POT MAN: Is there anything good you can say about Don Rickles? JOHNNY

Yes. He's got crass.

DEAR PASTE-POT MAN: Remember the good old days when the good guys emerged triumphant in the movies? AUBREY

Yeah. Now they don't even go.

DEAR PASTE-POT MAN: Do you have a life style or a plan for your declining years? METHUSELAH

Yes. I'm sort of planning on growing old disgracefully.

"If one counted a billion dollars at the rate of one bill per second for seven eight-hour days a week, it would take six years and three months.

Maybe, and maybe not. Wouldn't it depend on the denomination of the bills? And if you say "No, because it says they are dollars," then I say if you know they are a billion dollars, why waste all that time counting?"

My Answer

BILLY GRAHAM

I am a 16-year-old girl who would rather stay at home with her parents than date or go anywhere. I get along fine with people and have plenty of friends at school. I live in a little world of my own, and strive everyday to live for Christ. My question is: Is this wrong? J.H.

My first reaction is that it is never wrong to do the right thing. Love of parents, enjoyment of the home, the making of friends and a life committed to Christ are praiseworthy activities.

A world "of our own" is also a requisite in coming to maturity. Indeed, where young people are prohibited from structuring life as they want to live it, there follows frustration and even despair.

But now, the plan of God with His human creation is similar to that in nature. Just as the fledgling leaves the nest, and is even pushed out by the mother bird, so ought the teenager, coming of age, seek to establish herself in the wide world of social and commercial responsibility. The easiest and most comfortable setting is "doing your thing" in your own home, but your future is hinged to a wider frame of reference.

The Bible city of Nain is only known because of the Lord's raising a widow's dead son there to life again. While the Scripture says, (Luke 7:15)

Slow Trading Pinches Exchanges

By STEPHEN H. MILLER

NEW YORK (AP) — There were more signs this past week of continued bad times on Wall Street, where brokers and exchanges are struggling against a profit squeeze and a sluggish bear market.

Merrill Lynch, Pierce, Fenner & Smith, Inc., the country's biggest brokerage house, disclosed that about 140 of its top officers were taking pay cuts of 10 to 20 per cent.

And relations between the nation's two biggest stock exchanges took a bad turn when the New York Stock Exchange announced a plan which might bolster its sagging profits at the expense of the American Stock Exchange, where times have been particularly tough.

Merrill Lynch, like virtually all other brokers, has been trying to cut costs to compensate for profit declines brought on by slow trading. The giant firm reported profits of \$10.82 million for the first quarter this year, down from \$23.25 million a year before. Its second-quarter figures are due next week and aren't expected to show major gains.

CUT FAT CATS
The pay cuts extended from Chairman Donald T. Regan down to regional directors and all executives making more than \$50,000 a year. The firm said the action was required by "continuous lowering of profits."

The New York Stock Exchange, in an effort to increase its own sagging volume of trading, proposed a loosening of listing standards for warrants—certificates which give holders the right to buy common stock at a set price within a set period. Only 13 warrants are now traded on the NYSE, but about 80 are listed on the American

Stock Exchange. The NYSE charging the companies could draw some of those issues away from the Amex.

Chairman Paul Kolton of the Amex described the NYSE proposal as "ill conceived" and hinted that the move threatened the viability of his exchange.

Big Board profits for the first quarter were only \$947,000, down from \$5.29 billion a year earlier. Trading volume at the end of June came to 1.94 billion shares, down from 2.18 billion a year before. Of that, 23.16 million was in warrants, down 23 per cent from a year before.

AMEX HURTING
The American Stock Exchange is traditionally more of a haven for small investors. Those investors, however, have been doing little trading, and the Amex has suffered. It lost \$107,000 in the first quarter, compared with a profit of \$245,000 a year earlier.

Volume on the Amex totaled \$95.53 million shares, down from \$62.62 million for 1972's first half. Eleven per cent of that was in warrants, up from 8.4 per cent a year before.

The proposal still has to be cleared by the Securities and Exchange Commission.

Florida officials this past week filed an anti-trust suit against 15 major oil producers,

The Show Goes On

Marquis Childs

WASHINGTON — The still photographers are groused just in front of the witness, a large pack ready to spring. And when John Mitchell breaks momentarily the impassive, stolid countenance he presents to the committee and puts his hand to forehead they jump with a click of shutters.

STRUNG ON a cable high above are a series of color-tran lights blazing down on the scene for the benefit of the television cameras, the red eyes basilisklike on the left. This is a show, a spectacle, a performance put on as though with professional actors and professional direction. Committee Chairman Sam Ervin squiggles his black eyebrows up and down, and how many million viewers see this unconscious (or conscious) bit of character acting the agencies that check these matters will determine.

We have had these shows before — once or twice even more sensational than this Watergate spectacle. In 1933 when a Senate committee was investigating the rigging of the stock market, J. P. Morgan, the banking tycoon of the century, was the witness. A shrewd public relations man suddenly put a female midget on his

lap. It broke up the hearing.

NO TELEVISION in that primitive time, but Morgan and the midget provided a field day for the stills. So far as what the public got out of the searching investigation, directed by Ferdinand Pecora, one of the ablest interrogators ever to function here, the midget was the principal memory.

In my own recollection was the spectacle in 1941 when Wendell Willkie was to be fed to the lions, the lions in this instance being isolationist senators wreaking vengeance on him for supporting Franklin Roosevelt's policy of aiding the beleaguered Allies. The Senate Caucus Room then, as today, was packed to the rafters. Willkie made the headlines by dismissing as "campaign oratory" what he had said in the 1940 campaign about staying out of foreign wars.

THE GREATEST spectacle in recent times was the Army-McCarthy set-to. That was followed on television with the same fascination as Watergate. Joe McCarthy, the brass strait fighter from Wisconsin, was out to get the top-brass civilian and military. CBS is shrewdly doing a replay of that big show.

Honest Election

Art Buchwald

WASHINGTON — The United States is having a very difficult time trying to figure out how to celebrate its 200th anniversary. Many ideas have been suggested for the bicentennial but few have grabbed the American people. The President's commission on the anniversary is bogged down in red tape and no one is certain we will have a celebration at all.

THE OTHER day a man walked into my office and said he had a revolutionary plan for Americans to celebrate their country's 200th birthday.

"Make it brief," I said. "Well," he said hesitatingly, "I have this idea to celebrate 200 years of independence, and it won't cost the country a cent."

"Get to it," I said impatiently.

"WHY DON'T we, in 1976, hold the first honest presidential election in the history of the country?" "You're out of your mind," I said. "I've got it worked out here on paper. There would be only one fundraising committee in each party, and no one would be allowed to contribute more than \$25 to a presidential candidate."

"Impossible," I said. "What would happen to your \$1,000-a-plate dinners? What about people who want to buy ambassadorships and jobs in the government? How about the oil companies, the airline companies, the labor unions and milk producers? Are you going to be able to keep them from giving more than \$25 to a presidential campaign?"

"I KNOW it's a wild idea," the man said, "but it could work. No one would be permitted to give any donations in cash. Every gift would have to be by check or money order. All moneys would have to be accounted for, and if there is any hanky-panky committed by the finance committee of either party, the presidential candidate of that party would automatically forfeit the election."

"Have you lost your senses?" I said, trying to hold my temper. "Do you know what it costs to run a presidential campaign?" "WELL, IF IT costs too much," the man said, "then let's eliminate a lot of it. Why should money be the decisive factor in electing a President of the United States?"

Don't Let Boils Spread

Dr. G. C. Thosteson

Dear Dr. Thosteson: What causes boils? And how can they be prevented?—K.D.

Boils are caused by bacteria—usually either staphylococcus or streptococcus—that get a foothold in the skin and then multiply.

They are not, as so many people have been told, "from something in the blood."

It may well be that some folks are better supplied with antibodies in the blood which suppress these germs before they get a good start, but that's beside the point.

Boils develop from common bacteria on the skin.

Let's say that you have a single boil to start with. The boil represents a battle between the multiplying germs and the defensive forces of the body which are trying to keep the infection isolated and destroy it.

If some of those germs escape, and find some other nesting place on the skin, (in a pore, beside a hair root, or in some tiny scratch or abrasion) they may start another boil. These new boils, or infections, do not start instantly. It takes a bit of time.

Therefore, the first rule of preventing more boils is to keep germs from spreading to new areas. Keep a dressing on the boil. Use an antiseptic or germicidal preparation on and around the area. Burn or otherwise safely dispose of old dressings. Except in the process of applying a dressing, keep fingers away from the boil—because fingers can pick up the germs and transfer them to some new area.

A hot wet compress will help the boil to point or "come to a head." As this occurs, it is wise to see your doctor. If the boil ruptures by itself or you attempt to squeeze out the core, the danger of spreading the infection increases.

In some instances a particularly virulent or resistant germ may require special laboratory cultures to determine its nature and select the most suitable medication, but that is unusual. The simpler methods usually suffice.

Troubled with varicose veins? To make sure you are doing all you can to relieve the problem, write to Dr. Thosteson in care of the Big Spring Herald, requesting the booklet, "How To Deal With Varicose Veins," enclosing a long, self-addressed (use zip code), stamped envelope and 25 cents in coin to cover the cost of printing and handling.

It's All Over

William F. Buckley Jr.

A shrewd observer in these parts says about Watergate that it is all over. I am not committed to his conclusion, but I find it interesting. Surely the salient datum, tending to corroborate it, is the Gallup Poll. It is quite startling on the subject, reaching to a decisiveness seldom seen in the polls. It says simply this: Nixon is guilty and should not be removed. Seventy one per cent of the people believe that Nixon knew about Watergate and the cover-up. But only 18 per cent believe that the condign punishment is removal from office.

ASSUMING THAT the figures stand at more or less that level, it wouldn't make any difference if Mr. Nixon appeared on television and said that he had just come out of a bout of paranoia that had so disordered his memory on all matters that pertained to Watergate, that come to think of it he had commissioned the bugging, and decommissioned the investigation. It wouldn't appear to matter, according to Gallup, except that conceivably the public would be all the more pro-Nixon in gratitude for his confirming their intuition that he was guilty.

IT WOULDN'T matter, according to Gallup, if the Senate Committee uniformly concluded that Nixon was guilty. Granted, the House of Representatives would have the power to hand down a bill of impeachment, which the Senate would be required to try. But the people's spokesmen are unlikely to proceed awhirl the wishes of a people so resolutely aligned against impeachment. The people seem to be saving what I have contended for several months, namely that the impeachment clause of the Constitution is to be used nowadays only in order to remove a President, not to punish him: because to punish him, in most circumstances, is to punish the republic at large, and the republic at large is not guilty of Watergate.

COULD it be that the dilemma is in some way responsible for a certain listlessness that has overtaken the Committee? Is it the imagination

that sees an overlay of tedium coming down on the proceedings? It isn't seriously suggested that the senators' interest in legislative reform justifies all that commotion. All that commotion is justified only by the people's curiosity on the question: will Nixon be brought down? If it is pre-established that he will not, for the simple reason that the public doesn't want him to, then the whole of the Watergate investigation becomes something of a venture in supererogation, a vast enterprise in ordering and re-ordering the footnotes to a drama already consummated.

IF ONE HAD to put it on a fever scale, I would say that by the end of the first day of John Dean's testimony, the anti-Nixon fever chart reached, say, 85 out of a possible 100. It had reached, say, 60 the day Nixon fired Haldeman and Ehrlichman, gave a television address affirming his innocence, which had the result of increasing by 20 per cent the people who thought he was guilty. Jeb Magruder ran it up to 65, or 70. But by the time Dean was through, it had already begun to slide.

And then the Committee, in another fit of insouciance, gave itself one of those prodigious holidays they give themselves every fortnight or so, and when 10 whole days later John Mitchell was examined, the business seemed headed for a hopeless ambiguity. A single issue of the New York Times transcribed no less than five times (in five different stories) Mitchell's high emotional moment of the day, when he said that Magruder's testimony to the effect that he, Mitchell, had read the transcript from the first Watergate bugging, was "a palpable, damnable lie."

WELL, IT may very well have been a lie. And it may very well have been a damnable lie. But a palpable lie it most certainly was not. Because there is no apparent way of disproving what Magruder said, certainly no concrete way of doing so.

Oilers' Vets Begin Work

KERRVILLE, Tex. (AP) — Houston Oilers head coach Bill Peterson greets the rest of his veterans at their Shreiner Institute training site Monday, many of them for the first time.

In addition to a large group of incoming rookies, new General Manager Sid Gillman kept busy making at least 19 player trades before camp started.

Among the new arrivals are center Bill Curry, obtained in a trade from Baltimore, New Orleans quarterback Edd Hargett, New Orleans tight end Dave Parks.

Hargett, a former Texas A&M standout, came to the Oilers in an off-season trade with the Saints that sent defensive tackle Ron Billingsley and quarterback Kent Nix to the Saints.

Still missing from Oiler workouts, which got underway when rookies reported last Monday, are three draftees who are playing for the college all-stars against the world champion Miami Dolphins.

They include No. 1 draft choice John Matuszak, Houston's second first round choice, George Amundson of Iowa State and eighth round draft choice Joe Blahak from Nebraska.

The Oilers, who had the worst record in the National Football League last season at 1-13, will play their first exhibition game Aug. 3 in the Astrodome against the New York Jets and Joe Namath in a Houston Post charities game.

EIGHT-POUNDER — Jackie Hewitt, a noted Texas black bass fisherman from Austin, landed this eight pound striped bass while fishing with top water lures at Lake Spence near Robert Lee last week. Biggest catch of the week was made by Roy Lee Ford of Robert Lee, who brought in a nine-pounder. Two months ago Ford caught a 10½-pound striper.

SUPER BOWL CAST GONE Cowboy Rift Increases

DALLAS (AP) — Mike Ditka . . . Chuck Howley . . . George Andrie . . . Dan Reeves . . . Lance Alworth . . . Herb Adderley . . . and now perhaps Craig Morton and Dave Manders.

That's the list of departed all-star players from the Super Bowl VI champion Dallas Cowboys—all in the off-season.

Tight end Ditka became a coach; linebacker Howley entered the uniform rental business fulltime; defense end Andrie left with a bad back for the real estate business; running back Reeves and receiver Alworth also checked out to sell land; cornerback Adderley was picked up by New England.

And now the disgruntled quarterback Morton, who is still chaffing from the fact Coach Tom Landry picked Roger Staubach over him in the 1973 National Conference title game against Washington.

Morton has asked to be traded because the Cowboys won't renegotiate his contract. Despite Landry's statement that "The Cowboys are basically the same team that won the Super Bowl two years ago," the perennial contenders for the National Football League title appear to be unraveling like a ball of yarn.

Even the cohesive anchor of the defense—all-time great tackle Bob Lilly — hints at the dissatisfaction running through the team when he said at Santa Fe, Colo.: "This will probably be my last year of football. I plan to retire at the end of the season."

Morton's contract, squabble with Cowboy general manager and president Tex Schramm isn't the only one involving a veteran on the team.

Cornerback Charlie Waters said he has been treated unfairly. Center Manders, one of the steady Cowboy regulars said "I've had no contact with management lately."

Dallas QB Morton Leaves Camp Following Squabble

THOUSAND OAKS, Calif. (AP) — Craig Morton, one of the two ace Dallas Cowboys quarterbacks, demanded Friday that he be traded and walked out of the team's National Football League training camp here.

Club sources said Morton met with General Manager Tex Schramm for about 10 minutes Friday morning to renegotiate his contract.

There had been no previous public notice that Morton was not happy with his contract. Cowboys' Coach Tom Landry has used various combinations of Morton and Roger Staubach.

Harding Bows To Lions, 7-6

COAHOMA — Fabian Ontiveros scored on Steve Hale's sixth inning single Friday as the Lions defeated Harding 7-6 in Coahoma Baseball League play.

Phillip Ritchey and Kenny Fulgham smacked two hits apiece in support of Mike Ritchey's five-hit pitching as the Lions lifted their record to 6-8.

Harding fell to 5-7, as Jerry Roever suffered the loss. Higgins had two hits in the losing effort.

For What It's Worth

Jack Cowan

I thought it would never end. Elation overtook my soul when the 18th flag at last showed itself during the Dist. 5-AAAA Coaches and Sportswriters Golf Tournament at Abilene's Maxwell Municipal obstacle course Friday, and partner Robert Starr and myself limped in. Fortunately, we limped better than most, and our not-so-impressive eight-over par 80 was good enough for fourth place, six shots off the winning pace of Abilene Cooper assistant coach Chester Dougherty and Midland track coach Ed Nixon.

The rest of the Big Spring delegation didn't fare quite as well, however. Steer head coach Bob Burris teamed with Abilene Reporter-News sports writer Mark McDonald and ended up with an 84, good enough for 8th in the standings. And defensive backfield coach Tommy Jackson, who shouldn't have caroused the night before, had an 87 playing with KTXS-TV announcer Randy Keith.

Originally, the tournament was set up to improve relations between the press and coaches, but most were so cranky after walking the four miles that it might have been the Last Annual event. For instance, I could have cared less what kind of offense partner Starr planned to have his Abilene Cooper troops running through this fall. And he may never read a newspaper again.

Then, I could have sworn I heard Burris tell McDonald to "Shut up and shoot." Task, task.

Personally, I felt I probably had the most original round of the entire meet. After winding up the first nine with a hot 44, I ripped up the back nine with two triple bogies, two birdies, one bogie and four double bogies. And not only that, I lost three balls.

Needless to say, a good time was had by all . . .

E. J. Todd, an eighth grade coach at Goliad Junior High in 1970-71, got his break last week. Todd, who had been a junior varsity coach at Denver City since leaving here, was named head basketball coach at Kermit at a salary of \$10,850. The coach replaces Ronnie McDonald, who resigned his post at Wink to take the job, but after four months resigned to accept a position with Austin Reagan.

During his one-year stay at Goliad, Todd led his charges to a 12-0 cage standing. At present, he is doing graduate work at Southwest Texas State in San Marcos.

Tigers Throttle Indians By 5-2

Keith Stone drilled a double and two singles and Jody Bennett stopped the Indians on three hits as the Big Spring Hardware Tigers dumped the Indians 5-2 in a Hi-Junior baseball game Thursday.

Bennett added a double and Kelly Ragland and Boyd Harrington managed singles as the Tigers upped their season mark to 10-4.

For the Tribe, Tracy Thompson, Tim Brewer and Billy Don Whittington contributed singles. David Spence was the losing pitcher.

RN'S AND NURSING SUPERVISORS
WHERE: Uvalde County (P. 19,000) is horses, trails, crystal clear rivers, deer, turkey, javelina, dove, quail, trees, hiking, camping, farming and ranching. The city of Uvalde (P. 12,000) is ideal for anyone who dreams of living or rearing a family away from the metropolitan rat race, traffic jams, smog, noise, and deconcentration.

WHY: The professional opportunity for learning a variety of nursing skills and medical-surgical nursing, emergency, intensive and obstetrical care as well as supervisory skills is available under a highly competent Director of Nursing in a new, well-equipped, 70-bed hospital.

HOW MUCH: Wages are competitive with other Texas hospitals and living expenses are less than in large cities. Wages are negotiated in relation to the experience of the applicant and the responsibility of the position assumed.

Stolen Goods Are Recovered

Deputy sheriffs arrested a 31-year-old Coahoma man and recovered goods stolen from two Coahoma area residences Friday, Sheriff A. N. Standard said.

Paul Allen, who lives on McGregor Road south of Coahoma, has identified an 8mm movie projector, 7mm magnum rifle with scope, another rifle with scope and semi-automatic 12 gauge shotgun. Value is estimated at \$800.

These items were reported stolen on the night of June 17, the same date of the burglary of the old McGregor home. Silverware for a 12-place setting, about three dozen glasses and a portable cooler were stolen and have been recovered, Standard said.

While declining to say anything which might affect a trial, Standard indicated the goods were found in the weeds near a vacant Coahoma residence.

Area Cotton Is Blooming

Area cotton is blooming and squaring and reptant fields of feed are generally good but dry in some spots, Bruce Griffith, county extension agent, said Friday.

He said pasture land is still relatively good but more rain would be welcomed. A slow rain of two or three inches would greatly help the recent intermittent precipitation.

There has been no serious insect damage but there are reports of cabbage loopers north of Coahoma in scattered areas.

There is scattered grasshopper and bollworm damage, he said.

Recent rain has amounted to one inch to two-tenths in the area, he said.

Food Budget Tops Agenda

Among the top items to be discussed at the school board meeting Monday at 5:15 p.m. will be the school cafeteria budget, and bids on gasoline and lubricating oils.

They also will accept resignations and employ new personnel, discuss food service at the West Side Day Care Center, approval of the proposed building trades project for the coming year and amending the current Title I migrant program.

They also will hear reports on the Memorial Stadium parking lot and the kindergarten program and set a time for a second meeting in July, if needed.

The board is also to grant an audience to R. E. McKiski, McKiski Music Company and again to Donald N. DeLesauv, president of the City Council PTA. Last time he appeared he discussed school air conditioning.

Pre-Trial Date For Schools Set

The pre-trial hearing for the Big Spring schools with the Department of Health, Education and Welfare will be held in Dallas, July 24.

Guilford Jones, school attorney, will represent the schools at the meeting, at which time, both sides must agree on what may be submitted as evidence.

The actual hearing will be in Midland, Aug. 20. School administrators and board members will attend this session.

"There is nothing to be gained by us attending the pre-trial hearings," Supt. Sam Anderson stated here Friday.

Auditors Meet

Mrs. Virginia Black, county auditor, and Miss Jackie Perkins, assistant county auditor, attended an area meeting for county auditors in Pecos Friday.

Wallet Woes

NAISSJOE, Sweden (AP) — Herman Sjeberg found in a telephone booth a wallet containing the equivalent in Swedish crowns of \$13 and took it to a police station. He discovered he left his own wallet containing \$600 in the booth and rushed back. The wallet was gone.

THE AMP

It's a high-voltage fashion look for the stylish woman who is not quite ready to give up her long tresses

THE CAMP COIFFURE

The progressive look, for campus or campsite

THE SCAMP CUT

Worn wavy or straight, it's young and sexy

Headlines For Fall

By JO BRIGHT

Four hair fashion impressions, each with a character-filled name, have been created for this fall and winter by the National Hairdressers and Cosmetologists Association. The association's hair fashion committee presented the new hairstyles as a prelude to the NHCA's annual convention which starts today in Washington, D.C.

According to the committee, the names of the four new hair fashions — The Amp, The Scamp, The Vamp and The Camp — reveal the "character" of the styles which are designed to complement four different areas of this fall and winter's clothing fashions.

Bernard Desjardins, styles director, describes the hair fashions as "individual styles for four different female personalities that have different life styles."

THE AMP

The Amp cut promises to keep the fashionable woman "vibrating" when she switches on to the coming season's big skirts, long sweaters and knits. This power-filled style is developed by a special short cut on the front and top. A permanent wave is almost a must for easy upkeep of the short top section and the longer sides and back.

The cut is a natural transition for the long-haired Miss, Mrs. or Ms., who is not yet turned on to shorter hair.

THE SCAMP

The Scamp — a short cut that can be worn wavy, close to the head or straight — is designed to bring out the feminine, "mischievousness" in the woman who scampers around in the new shirt dresses and straight legged pants. The coming emphasis on plaids, accented in reds and greens, is in tune with The Scamp look.

THE VAMP

Flirty evening dresses, both short and long, will give this hair style a total vampy appearance. Fur-trimmed jackets will also make great vamping material.

The lady with natural curls can take full advantage of this cut, and the lady with straight hair may achieve this temptress look with a permanent wave. The short length of the back, and the moderately long sides, give The Vamp a variety of hair styling possibilities.

THE CAMP

New fall-winter sweaters and the "high water" pants look will be enhanced by The Camp cut. This new hair style suggests a total "camp" style, especially when worn with the funky, new twin-sweater sets and sis-boom-bah "fanny sweaters."

The backbone of this sporty, carefree cut is a permanent wave, and precise cutting will give the head an attractive form and shape, thus, an appealing silhouette which is a must for a shorty hair style.

THE VAMP LOOK

This sophisticated lady's style is called sassy and sultry, to capture the air of bewitching feminine charm.

MRS. GLENN A. MATLOCK

Wedding Rites Held Saturday

The First Presbyterian Church provided the setting Saturday afternoon for the wedding of Miss Lynne Louise Puckett and Glenn A. Matlock.

The couple stood before an altar flanked by pedestal arrangements of white chrysanthemums, daisies and greenery. The rites were performed by Dr. R. Gage Lloyd.

Traditional nuptial selections were played by Frank Wharton, organist, and the featured vocalist was Miss Charlotte Marsh, San Antonio.

The bride is the daughter of Mr. and Mrs. Olen L. Puckett, 1207 Rannels, and Matlock is the son of Mrs. Bertha Matlock, 3222 Auburn, and Jim Matlock, 4208 Birch.

For her attire, the bride chose a Spanish design gown of white tuck cotton, trimmed with bands of hand-embroidered colored flowers and lace. The floor-length gown was fashioned with three-quarter dolman sleeves accented with bands of embroidery and lace. The bodice featured a round neckline, and a white satin sash highlighted the waistline. Her mantilla veil of illusion was bordered with lace, and she carried a nosegay of white daisies.

Serving as matron of honor, was the bride's sister, Mrs. Ann Knightstep, El Paso. She wore a lime-colored, floor-length skirt topped with a tailored white blouse and complemented by a matching lime sash.

Miss Betty Johansen, Lubbock, was maid of honor, and bridesmaids were Miss Patrice Hensley, San Antonio; and Miss Wanda Simpson, Houston. They wore formal-length skirts in rainbow colors, with matching sashes and tailored white blouses. Their white picture hats were adorned with ribbons to match their skirts, and they carried nosegays of multi-colored daisies.

Party Celebrates 78th Birthday

FORSAN (SC) — Mrs. L. B. McElrath was in Odessa Thursday for a dinner honoring her sister, Mrs. R. G. Edwards, on her 78th birthday. The dinner was in the home of another sister, Mrs. Jodie Rowe. Also present were two other sisters, Mrs. Clyde Bennett and Mrs. H. D. James, Mrs. Charley Langlitz and Harold Vance, all of Odessa.

Episcopal Ceremony Performed Saturday

Miss Polly Diane Wade and Gary Stephen Lancaster were married at 7 p.m., Saturday in a ceremony performed by the Rev. Harland B. Birdwell in St. Mary's Episcopal Church. Mrs. Walter Wallace, organist, accompanied the vocalist, Charles Durward McDonald.

The setting was enhanced with altar vases arranged with yellow spider mums, white carnations and babies'-breath interspersed with greenery.

Parents of the couple are Mr. and Mrs. Conny D. Wade, 1751 Purdue, and Mr. and Mrs. James A. Lancaster, 610 Colgate.

The bride was attired in an empire-style gown of silk organza over white satin peau de soie accented with rows of Venice lace flowers which marked the high-rise waistline, square yoke and bishop sleeves. Rows of the lace were repeated on the high stand-up collar and formed a deep border at the bottom of the slender skirt. Her mantilla veil, which flowed to chapel-length, was edged with a band of Venice lace daisies. She carried a cascade of white roses, babies'-breath and greenery.

Mrs. Bobby Baker of Houston attended her sister as matron of honor. Another sister, Miss Cynthia Lee Wade, was bridesmaid, and Mrs. Mike Marchant was bridesmatron. Dressed identically, they were attired in formal gowns of yellow peau de soie overlaid with yellow and white lace. The gowns were styled with empire waistline, gathered skirt, high neckband and short, puffed sleeves. They wore yellow straw picture hats, and each carried a nosegay of yellow daisies and babies'-breath tied with yellow ribbon streamers.

Melissa Fuller, flower girl, wore a dress identical to the bridesmaids' with a circlet of yellow net as a headpiece. Keith Jenschke was ring bearer, and Chris Burnett served as acolyte. Pat Weaver, Lubbock, was best man, and groomsmen were Richard Pettis, Jonesboro, La.; and Howard Hall, Brent Womack and Mike Hall were the ushers.

RECEPTION
Miss Terry Bull presided at the guest registry during a reception in the parish hall.

The reception table was covered with white satin

Dining Table Has Several Chores

Ever stop to think how many different uses your dining table serves? A manufacturer of dining furniture notes that the table often serves for preparing meals, sorting out ironing, pursuing hobbies, figuring out the budget, the children's homework, mom's sewing and mending and dad's late night office work.

On top of all this, the table is expected to look stylish at mealtimes.

Dining furniture is available in a wide range of styles and price ranges to suit any need, and serve all the functions that a dining set is put to.

MRS. GARY STEPHEN LANCASTER

overlaid with tiers of white lace and tulle. A silver, branched candelabrum holding white tapers and dual arrangements of yellow daisies, white roses, babies'-breath and greenery, centered the table. The tiered wedding cake, pale yellow and white, was topped with satin wedding bells, and the bride's bouquet was placed near the cake. Appointments of crystal and silver were used. The register table, draped like the reception table, held the attendants' bouquets.

Serving were Miss Elizabeth Phelan, Mrs. Sonny Monroe, Miss Ruth Payne and Miss Judy Rhymes. The house party included Mr. and Mrs. Wayne Burns, Dr. and Mrs. Josh Burnett, Mr. and Mrs. Jerry Mancill, Mrs. Helen Dawson, Mr. and Mrs. Robert A. Fuller, Mr. and Mrs. Odell Womack, Mr. and Mrs. R. H. Weaver, Mr. and Mrs. Charles Sweeney and Mr. and Mrs. Ernest A. Welch.

Relatives attending from out of town were Mr. and Mrs. Dudley Wade, Mrs. Margie Engelke, Mrs. Larry

Nering and Mr. and Mrs. C. H. Dickens, all of Waco; Mr. and Mrs. W. L. Herrington and Mark Renfro, all of Arp; Mr. and Mrs. R. M. Rogers, Tyler; Mr. and Mrs. William R. Pettis, Jonesboro, La.; Mrs. Dora Dorsett and Mr. and Mrs. A. W. Donaldson, all of Odessa; Bobby Baker, Houston; and Mr. and Mrs. A. R. Vernon, DeSoto.

WEDDING TRIP
After a wedding trip to San Antonio and Corpus Christi, the couple will reside in Big Spring.

Mr. and Mrs. Lancaster are graduates of Big Spring High School. He attended Howard County Junior College and is employed by Bettie and Womack Pipeline Construction Company. Mrs. Lancaster is attending HJJC and works at Webb Federal Credit Union.

The bridegroom's parents hosted a rehearsal dinner Friday evening at the KC Steak House. The table was centered with an arrangement of orange zinnias and babies'-breath in a green vase, and pictures of the newlyweds were placed at intervals along the table.

Classes For Expectant Mothers

Dora Robert Rehabilitation Center is offering special classes for expectant mothers beginning Tuesday at the center. The classes will begin at 1 p.m. for four consecutive Tuesdays, and at the end of each four-week period, a new class will be started.

This will be a continued program for as long as participation warrants it. Expectant mothers must be enrolled before class begins, and no applicants will be accepted into a class already underway. However, they may enroll for the next class.

The program teaches prenatal and postpartum exercises, with emphasis on proper body mechanics and muscle strengthening. It is taught by a licensed physical therapist. A physician's referral is required from applicants.

Anyone interested in the classes should contact a physician who can refer her to the center. Information and registration may be obtained by calling the center at 267-6387.

Forsanites View Palo Duro Show

FORSAN (SC) — Paul Green's "Texas," a musical-romance story of Panhandle history, was seen recently by the J. W. Overtons, the Tom Evanes and Mrs. J. H. Cardwell. The group saw the show at Palo Duro Canyon, which was the first stop on a ten-day trip. Other places visited included Cimarron Canyon, Red River and Tucuman, N.M.; Gunnison and Durango, Colo.; Amarillo and "Four Corners."

The Bob Sledges have returned to El Paso following a visit with her mother, Mrs. J. W. Griffith. The J. L. Overtons and children are in Cloudcroft, N.M. for a week's vacation.

The Ted Henrys have returned from a week in Corpus Christi.

Long Hemline Still Available

There are indications some pace-setting designers on the American scene may be trying to make the mid-calf hemline a fashion point for fall and winter.

Not a fashion statement or dictate. Just a point — meaning women who want the longer hemline for whatever reason will find it available among others in the stores.

Cruel Mate

Dear Abby

Abigail Van Buren

DEAR ABBY: I am a 40-year-old woman. People tell me I look 25, and I'm not bragging. I've been married for 23 years to a man who must be crazy. We had three daughters who all left home the day they turned 18 and I can't blame them. Their father used to threaten to kill their pets while they were in school just to upset them.

One of the girls had the lead in the senior class play, and she wanted to get there early so she could relax, so my husband drove 15 miles an hour all the way there on purpose and she was nearly late. She was so shook up she forgot her lines and burst into tears. (Her father laughed.)

This man makes \$1,000 a month, but refuses to buy me a washer-dryer. He takes me to the laundromat twice a month. I don't drive and he won't let me learn. All the girls worked since they were 16. They had to buy all their own clothes.

I don't know what he does with his money, but he doesn't save it. He's taken out several large loans. I learned this accidentally. When I ask him what for, he says as long as he makes the house payments and buys the groceries, it's none of my business.

He also calls me vile names and doesn't even trust me with my own father (he is 80) or my brothers. Do I have grounds for divorce? He says as long as he's never laid a hand on me, I haven't. My daughters are happily married and are begging me to leave him and come and live with them. What should I do?

PRISONER

DEAR PRISONER: Your husband is either a very sick man or a very cruel one. If he doesn't see a doctor, you should see a lawyer.

DEAR ABBY: I am 14 and for the last two years I have been in love with the boy who lives two houses down from me. He is 18, and living so close I see him coming and going, and it just tears me up.

Last week he lost control of his car and hit a tree on our property. (He wasn't hurt.) I ran outside, thinking how much I love him, but he just looked at me and asked if I thought maybe my dad would pull him to his house with our truck! It was like somebody turned a knife in my heart.

How can I let him know how I feel about him, Abby? He told a friend of mine (when she asked him what he thought of me) that I was a "good kid."

Please help me get the word to him. "GOOD KID" DEAR KID: You'd better cool it for a year or two. In time you might have a chance with him but if you chase him, you'll only chase him away.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 6970, Los Angeles, Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 6970, Los Angeles, Calif. 90069.

The rush to get away from it all — or get with it — is in full swing, with more Big Springers than ever finding their fun in European resorts or island hideaways.

Mrs. Doris Mason has returned from two weeks of traveling with her daughter, Sheryl Gambill, stewardess for American Airlines. First, they spent three days in Mexico City, then on to Acapulco for soaking up the sun. Next came Washington, D.C., with its historical sites, and Boston where they traveled the "Freedom Trail." In New York City, they saw the Broadway shows, "Irene" and "Greece," and spent the days touring Rockefeller Center, Chinatown, etc. In all, they traveled more than 7,500 miles by air and "half that much by foot."

Mrs. Lamar Green, who jokes about driving her Mark IV to work as a waitress at their KC Steakhouse, is still enjoying memories of a cruise to Port-au-Prince and Montego Bay, Kingston and Port Antonio, Jamaica which was part of a recent Florida vacation.

Others back from an island jaunt are sisters, Mrs. Mary Jenkins and Mrs. Kathleen Williams, who took in the BPO Does convention in Hawaii. Their brother, James Morgan, drove them to Los Angeles where they were reunited with another brother, Eddie Morgan of North Hollywood. They had a ball and are ready to go again.

Keeping tabs on fast-moving John Otis Cole isn't easy, but he was due back July 5 from Tokyo, Hong Kong and other exotic ports of call. His mother, Mrs. Doris Cole, took a day off recently for a business trip to Lubbock, and while there, visited with ex-Big Springer, Vic Alexander.

The Bob Wrens have enjoyed the week as they were entrusted with the care of their grandchild, Kristi, 6 months. The baby's parents, the Fred Overtons of Fairfield, and their other children, Kelly and Kent, joined former local residents, Joe and Ruth Connally of Monahans and their children for a trip to Red River. (Ruth is Fred's sister.) The Connallys were a popular couple here when he was engineer for the TV station and she was a teller at First National Bank.

Handsome Sam Shamson of San Francisco lingered here a few days on his way to the West Coast and visited with old friend, Will Inkman. While here, he joined Mrs. R. L. Tollett and daughter, Iris Ann, for dinner at Big Spring Country Club. Ray Tollett and Blake Tollett will both be entering law school this fall — Ray at Trinity in San Antonio and Blake at the University of Texas.

TIDBITS: Franchelle Moore of Stanton, women's editor of the Midland Reporter-Telegram, due to leave today for Geneva, Hamburg, etc. for a two-week spree. Janice and Louis Tallant joined Mr. and Mrs. Charles Butts this weekend to explore Del Rio and Fort Clark Springs, then the Tallants will continue their vacation in Hot Springs and Dallas. Janice, with the Herald for five years, will become a receptionist for the school business office July 23. Didn't the Ernie Boyds just get back from Washington, D.C.? Mrs. Floyd Mays and children, along with their houseguest, Gisele Barros of Brazil, saw a lot of the Midwest when they visited Polly's mother, Mrs. Edward Schultz in Holton, Kans. Dr. Floyd Mays went the other direction, to visit his mother who is hospitalized in Cleveland, Miss. Deadline. Call me?

Miss Foster Weds William Schraeder

St. Lawrence Catholic Church was the setting Saturday afternoon for the formal wedding of Miss Linda Ann Foster and William Schraeder. The nuptial rites were performed by the Rev. Augustine Lucca, with Miss Laurie Lange serving as organist.

The bride is the daughter of Mr. and Mrs. Arlis L. Foster of Lubbock, and parents of the bridegroom are Mr. and Mrs. Arnie W. Schraeder, St. Lawrence Rt., Garden City.

Carrying a bouquet of white daisies and baby's-breath showered with satin streamers, the bride was attired in a white satin wedding gown fashioned with scooped neckline and A-line skirt. The shaped bodice and short sleeves were overlaid with Alencon lace. Her veil of sheer illusion fell from a satin Juliet cap sprinkled with seed pearls.

Miss Cynthia Kay Foster of Lubbock attended her sister as maid of honor, and bridesmaids were the bridegroom's sister, Miss Antonette Schraeder, and Miss Paula Halfmann. Mrs. Gary Seidenberger of Big Spring was bridesmatron.

The attendants were identically attired in formal, empire-style gowns of light blue dotted Swiss trimmed in eyelet ruffles. Each carried a nosegay of white daisies tied with picot streamers.

Dennis Schraeder, brother of the bridegroom, served as best man, and groomsmen were Gary Seidenberger, Big Spring; George Schraeder, the bridegroom's brother; and Arnold Braden.

Serving as ushers were Buddy Foster, Lubbock; Doyle Burkemper, Slaton; Donnie Halfmann, Rowena; and James Seidenberger.

Theresa Schraeder, sister of the bridegroom, was the flower girl, and ring bearers were Larry Batla and Garry Batla.

Immediately after the

Mrs. Schraeder, a graduate of Texas Tech University, is an English teacher for Glasscock County Independent School District.

The bridesmaids were Miss Cindy Wade, Mrs. Bobby Wayne Baker, Houston; and Mrs. Mike Marchant.

Miss Wade was attired in a two-piece, peach polka-dot dress with white trim.

Yellow linen cloths were used on the U-shaped table arrangement, with the head table accented with a centerpiece of yellow and white daisies. Matching nosegays were placed on the other tables, and placecards were adorned with white daisies.

Out-of-town guests were Mrs. Dudley Wade and Mrs. C. H. Dickens, both of Waco; Mrs. Pat Weaver, Lubbock; Mrs. R. M. Rogers, Tyler; Mrs. W. L. Herrington, A.P.; Mrs. William R. Pettis, Jonesboro, La.; and Mrs. Bill Crutcher, Lubbock.

Halston Leads Fashion World

Most worldly affairs demand a leader. Fashion at the moment has Halston. He's the man who restored elemental good taste to a business beset by doubts after the mini-mid-hot pants fracas. He made the shirtdress the snappiest thing to wear by day and the caftan the uniform by night.

So what is he up to for fall? "I like things a little fuller, a little longer," he explained. There's a little more of everything because, as he says, "I'm one of those nuts who wants to dress everyone."

So, in addition to tent coats, there are fitted ones and straight ones. There's more attention to construction, but not enough to detract from the simple, throwaway, no-gimmick look he's known for.

'Song Of Fashion' Is Theme Of 4-H Revue

"Song of Fashion" set the theme for the 1973 Howard County 4-H Dress Revue Thursday evening in the county fair barn. The 41 participants modeled to contemporary music in a setting of a white wrought iron trellis decorated with summer flowers and musical notes.

Ladies Can Be Foxy In Fall

If John Anthony has his way, you won't go anywhere next fall without a red fox something. He's enamored of red fox borders, boas, collars and cuffs. That's not all. He also

concentrates on colors that blend nicely with red fox. Apricot and cinnamon are his special favorites; occasionally he throws in a touch of brown for a sharper accent.

Anthony's favorite form of fox is a boa that he loops around the neck of almost anything or has the manne-

quin carry over her arm like a security blanket.

His forte is coats and suits, the coats often narrow affairs. Suits have pleated skirts or pants. There are any number of soft sweater dresses, including some floor length ones for evening. They have their red fox companions.

Wash Silverware Right After Use

Some foods, especially eggs, salad dressings and vinegar, may cause dark spots on sterling if left on too long. It's best to wash sterling silver promptly after using — don't stack in dishwasher overnight.

11-Year-Old Beatles Tape Worth Bundle

LONDON (AP) — "King-Size" Taylor, an old buddy of the Beatles, has an 11-year-old tape of the lads from Liverpool he made when they were a group of unknowns playing for peanuts in a Hamburg dive. Music industry people believe it could be worth as much as \$20 million.

Taylor says he bought the rights to the tape from the Beatles for "the price of a few drinks." Now he hopes to get them to market it and make him a fortune.

One writer who heard it, William Marshall of the Daily Mirror, said: "The financial potential is tremendous. There's enough material for two albums."

"It's one of the most exciting sounds I've ever heard from them. Their hard-driving rock 'n' roll from the golden period of 1962 is all there and more."

One show biz source commented: "There doesn't seem to be any chance of the Beatles getting together to record again in the near future, so the stuff on this tape would be a surefire bet. It's historic."

Burly 6-foot-plus Taylor, who led a band that played alongside the Beatles in their early days made the tape during the hard winter of 1962 at the Star Club in Hamburg. The group, short-haired and living in a squalid apartment with no heat, was just starting on the road to stardom with 12-hour sessions on stage for a few dollars a night.

Pregnant Idea

ROME (AP) — President Giovanni Leone ordered police to quash the conviction of a 39-year-old woman. She gave birth to four children and was pregnant with her fifth in an apparent attempt to keep from going to jail for two months on a theft conviction. She already had five children. Italian law says a woman convicted for a minor crime cannot be jailed if she is pregnant.

SERENADED, PRIMPED, GORGED 'Quiet' Village Wedding

LERESTI, Romania (AP) — Harry W. Morgan and Catherine Devlin of New York wanted a quiet, simple Romanian village wedding.

They got the Romanian wedding in this picturebook village at the foot of the Carpathian Mountains. But it wasn't quiet, and it wasn't simple.

From musical harlots Sunday morning until the dawn last Monday, Morgan and "Cappy" were serenaded, stared at, primped and gorged. Adding to the fanfare, Romania's top tourist officials attended, and government television crews filmed the festivities for a documentary.

OH, WHY?

Morgan, 39 and a former editor of the Readers Digest, runs a project backed by the magazine called Ambassadors for Friendship. This summer it is bringing 2,000 young Americans in musical groups to sing and play their way around Romania. The new Mrs. Morgan has her own public relations firm.

The nuptials started Sunday with the arrival of a gypsy band at the house where Morgan was staying. The gypsies fiddled and sang "Oh, Oh, why did I do it, get married and give up all those pretty young girls?" while Morgan was coiffed in a pale blue hairnet, shaved and given a facial massage.

In another house, local women teased the bride's hair while more gypsies played.

Morgan was administered an eye-watering belt of tsuica, Romanian plum brandy, and marched to the bride's house with the nonstop gypsies and a whooping escort of young people in traditional peasant garb.

'Breathtaking' Beauty Must Die

BEIRUT, Lebanon (AP) — A "breathtaking" Egyptian beauty has been secretly sentenced to death in Cairo for the biggest espionage coup for Israel since the 1967 war, the magazine Al Hawadess reported today.

The girl's fiance, an engineering colonel in charge of the Egyptian army's installations department, was also sentenced to face a firing squad, the magazine said in a dispatch from Cairo.

The two were identified only as Hiba A.S. and Col. Farouk A.F. The report said the death sentences were awaiting President Anwar Sadat's approval.

American wedding guests commented.

The ceremony was performed by the village priest, Father Virgil Suseanu, and four others. Morgan and his bride stood with silver tiaras on their heads while the priests and the local choir chanted. Incense burned below the hot television lights.

There was more music, more dancing and more tsuica at the wedding banquet. After dinner, according to tradition, the Morgans should have retired for three hours, then returned to drink red tsuica signifying the marriage had been consummated. Instead they danced through the night, then left for good.

A crowd of villagers looked on giggling as the pair, smiling bravely, did the "bride's dance" on the main street. After a festive lunch of trout from the mountain stream that runs through Leresti, the gypsies and folk dancers performed outside the houses where Morgan and Miss Devlin dressed for the wedding.

Money To Burn

TOKYO (AP) — A butcher placed about \$2,000 in Japanese currency in a toaster for safekeeping. His wife turned on the toaster by mistake and the money went up in flames, the police said.

Juco Tuition Ruling Made

AUSTIN, Tex. (AP) — Junior colleges can charge non-residents of their districts higher tuition than residents but would lose their state aid money if they do, Atty. Gen. John Hill ruled.

Hill's opinion, which has the force of law unless reversed by the courts, went to Dr. Bevington Reed, state commissioner of higher education.

The attorney general said state law requires junior colleges to charge the same tuition as tax-supported four-year colleges as a condition for receiving state aid, a major part of their budgets.

"A public junior college which charges a greater tuition of a Texas resident than that authorized . . . is disqualified just as is one which charges a lesser tuition," Hill said.

If a district chose to sacrifice its state aid money by charging non-residents higher tuition, it could even establish different charges for students living in other junior college districts and for those who do not live in such a district, Hill said.

WEEK'S PLAYBILL Cosmo Star In Dancing

RISE TO THE OCCASION — Japanese actress Adele Yehickka, 5 foot, 4 inches tall, found it a problem to do an effective kissing scene with actor Clint Eastwood, 6 foot, 4 inches tall, in the movie "Magnum Force." The solution to the problem—Miss Yehickka stands on a metal box (bottom). The camera, of course, will only show the two from the waist up, and they'll appear the same height (top).

"It's a nice bonus when you actually like your leading lady. Some I've liked and others I'd rather not talk about. Believe me, the first way is best."

These are the sentiments of Burt Reynolds, the gentleman appeared unadorned "Playboy" style in "Cosmopolitan."

"Take Sarah Miles," he continues, referring to the Oscar-nominated actress who stars opposite him in Metro-Goldwyn-Mayer's "The Man Who Loved Cat Dancing." "She's a brilliant performer, but more than that she's cooperative and wants to work with others in the cast so that all the parts are developed properly. She doesn't think only in terms of herself. Her professionalism is extraordinary."

"Personally, she's also a pleasure to be around. A very unique lady, very special. She's one of the few women — or men, for that matter — that I know who honestly doesn't give a damn what other people think. Human respect doesn't mean anything to her. Her own respect for herself means everything, and I think she's quite demanding in this regard."

The admiration is mutual. About Reynolds, Miss Miles comments: "Believe it or not, I had never seen Burt on the screen or even in a magazine before I started making the film with him. And, frankly, I was amazed. I don't know what I expected — a muscle man or something. Anyway, actors and their theatrical skills don't impress me as much as the kind of men they are — whether they're real and their own men and have some wit about them. Burt has all these things. He rates very high on the list, indeed."

Back to Reynolds, who has more to say about the importance of being harmonious when one is working on a picture that is photographed completely on location, as was "The Man Who Loved Cat Dancing."

"Unless you've experienced it yourself, you can't know how vital it is to work with compatible people when you're away from home and usually out in all kinds of weather from sunup to sundown. On this picture, we started filming in Arizona and endured freak frosts and floods. Then we moved to Utah where one day might be crisp and sunny and the next snowy or hailing."

"You can't get out from under the pressures by going home — really home — or getting together with the chums you left behind. A company on location is a group of people with a common artistic objective temporarily set adrift from their normal lives. And if they don't get along it can be terrible."

Happily for Reynolds, a couple of good friends — Bob Hopkins and James Hampton — are also in the cast of "The Man Who Loved Cat Dancing," a Martin Poll Production with Lee J. Cobb, Jack Warden and George Hamilton also in starring roles. Poll and Eleanor Perry produced, and Ms. Perry also adapted the screenplay from Marilyn Durham's best-selling novel.

"Richard C. Sarafian, our director, kids me about having my own repertory company," Reynolds remarks. "It is rather good to look up and see a couple of buddies off in the distance, and it would be totally wonderful to do only pictures with people you're fond of, but the dice don't always fall that way."

"Movie-making is an unusual profession in more ways than one. Take 'Cat Dancing,' for instance. We put 10 weeks into a concerted effort, spend what little free time we have together, then the picture ends and each of us goes our separate way. We might not see one another again for three or four years, not until another project reunited us. The busi-

ness we're in pulls us off in different directions."

Pollution Costly

NEW YORK (AP) — American business estimates it needs to invest \$22.3 billion — or 3.5 times what it is planning to spend this year — to bring existing facilities up to the present pollution control standards. This was the key finding of McGraw-Hill's Sixth Annual Survey of Pollution Control Expenditures.

"This year's total investment in pollution abatement will represent 5.9 per cent, or \$6.2 billion, of all capital spending — up from 5.1 per cent in 1972."

ITACOARA, Brazil (AP) — Mayor Carlos Faria Souto approved a woman's request to buy a plot in the municipal

"KID BLUE" IS THAT MARVEL OF MARVELS — a western that deals with contemporary values and emotions instead of old-fashioned cowboy movie cliches. An original, off-beat, touching and often very funny movie that shows a new side of Dennis Hopper's unpredictable talent you've never seen before. 'KID BLUE' is one of the nicer surprises of the season.

CONSERVATION STRIP — M. L. and Marion Lea Snell, who farm in the Ackerly area, planted grain sorghum last August in the fallow strip between their cotton. This did not interfere with the cotton harvest, and it also provided protection against wind and water erosion as well as organic mulch for this year's crop, they told Mike Bogard, Lamesa, of the Soil Conservation Service. Herbicides control early weed in the strip, cutting down moisture loss and facilitating easier planting.

MILLION FOR SECURITY Panel To Investigate Presidential Residence

WASHINGTON (AP) — A congressional subcommittee plans to investigate \$1.3 million worth of security installations at President Nixon's private residences — apparently without any comparable figures from past presidencies.

The General Services Administration already has told another House panel that no statistics are available for security expenditures at the private homes of the late Presidents Lyndon B. Johnson, John F. Kennedy or Dwight D. Eisenhower, and said that it would be almost impossible to develop the data.

Controversy has flared in recent weeks over expenditures on the Nixon residences. Reported outlays increased several times as the White House and then the General Services Administration updated their figures.

"We fully recognize the need to provide extensive protection for the security of the president," said Rep. Jack Brooks, D-Tex. "However, it is essential that expenditures made in the name of security be reasonably related to that purpose."

He said his House government activities subcommittee would hold hearings at a date yet to be set.

A House appropriations subcommittee under Rep. Tom Steed, D-Okla., held hearings

Wanting To Dig Into Grave To See If It Contains UFO

DALLAS (AP) — Unidentified flying object investigator Walter H. Andrus Jr. of Quincy, Ill., has appealed to the Aurora, Tex., Cemetery Association to allow digging into a spaceship crashed with a wind-torn body of a pilot of an unidentified flying object.

However, Aurora Cemetery Association lawyer William A. Nobels said the association does not have the authority to give permission to dig the grave.

SPACESHIP? Nobels said the investigators will have to get a court order before "they go digging people up."

Investigators began looking at the Aurora graveyard several weeks ago after reports of the crash of a spaceship in 1897.

Also, the reference to his size fall into the 'little green man' category," he said.

The investigator said his group has doctors and pathologists standing by in case exhumation is allowed.

"We have to have the body of course," he said, "and that's been a difficult point from the very beginning."

Bans Pablito From Tomb

ANTIBES, France (AP) — The attorney for the late Pablo Picasso's son, Paulo, says his client has refused to allow the painter's grandson to be buried in the family tomb.

Pablito Picasso died Wednesday, three months after he swallowed bleaching fluid in despair over being refused permission to see his grandfather.

Pablito lived with his sister, Marina, and his mother, Emilienne. She has been separated from Paulo for 15 years.

Paulo is the son of Picasso's first wife, Olga Kokhlova, who is buried in a family grave in Cannes.

Paulo Picasso's attorney, Roland Dumas, said Paulo has agreed to pay for Pablito's burial expenses but that he turned down Emilienne's request that Pablito be buried beside Olga.

Dumas said Pablito's grandfather had paid for the education of his grandchildren but refused to allow Pablito to return to the painter's residence at Mougins after an incident in 1972 when the young man picked the gate of the Picasso property with a placard protesting that he was not allowed to see his grandfather.
