ARRIVING AT INQUEST — Film producer Raymond Chow, left, and Linda Lee, widow of actor Bruce Lee, arrive at the inquest today into Lee's death. A Hong Kong

coroner opened the inquest by reporting that Lee probably died of a brain edema and that it may have been brought on by marijuana. Lee died July 20 in Hong Kong.

Actor Lee's Death Linked To Marijuana

HONG KONG (AP) — A coroner reported today Chinese-American film star Bruce Lee probably died of a brain edema and that it may have been brought on by marijuana.

Opening the inquest into the death of the 33-year-old kung fu star on July 20, coroner C. K. E. Tung explained that a brain edema is a swelling caused by an excess of fluid in portions of the brain.

He said there was no evidence so far to determine what caused this in Lee's case, but he said it could have been caused by a physical condition or illness not yet identified or possibly by "drug intoxication or sensitivity." And he added that an autopsy showed traces of marijuana residue in Lee's stomach and small intestine.

District Attorney Joseph Duffy told the inquest court that the inquest would be adjourned for two weeks to permit introduction of new medical evidence that had come to light in the past 24 hours and might alter the findings. But later the coroner explained that the adjournment applied only to medical testimony, and nonmedical testimony would continue.

Prison Riot In Indiana

MICHIGAN CITY, Ind. (AP) — Dissident inmates held three persons hostage and occupied three of five cell blocks at the Indiana State Prison today, Warden Russell E. Lash said.

Officials said there were no injuries and the hostages were believed to be unharmed. Lash said the other two cell blocks were secure.

Gov. Otis R. Bowen said he would communicate with the prisoners but called for the release of hostages and "an end to further damage to property" before he would consent to a meeting.

Everything was reported calm late Sunday. A spokesman said there were no fires or rioting, but there was a report of damage to the commissary.

INMATE STABBED
"We're playing a standoff game," the spokesman said. "All of our off duty people have

been called in. But it's still a waiting game."

A prison spokesman said the takeover was believed to have been sparked by inmates in sympathy with four prisoners put in solitary confinement after an inmate was stabbed Saturday night.

25 DEMANDS

Inmates were barricaded inside three cell blocks that each house about 300 prisoners. Total inmate population is about 1,600.

A spokesman said it was not known how many inmates were involved in the takeover.

The takeover caught most prison officials and guards away for the Labor Day weekend. State police and Michigan City police rushed to the 113-year-old prison. Later they were replaced by returning guards.

Early this morning, inmates

played a tape recording of 21 demands from the top of one of the occupied buildings. News-men outside the walls were able to hear many of them.

One was for the immediate dismissal of Lash, his deputy and a guard captain. Inmates also said they wanted an end to blatant racism.

The recording said: "It is not our intention to harm the hostages, but our previous experience that in the interest of our safety we cannot let them go until we get some concessions from the prison administration. We must be assured there will be no reprisals against any inmate involved in the protest."

GUARD ON DUTY

Lash had met earlier with the inmates, reportedly to discuss the 10 demands the prisoners issued shortly after they seized the one guard on duty in each of the three cell blocks Sunday.

Fed, State Fight Seals Fate Of Seal

BOOTHBAY HARBOR, Maine (AP) — A wounded seal which lay unattended on a beach for 14 hours Sunday because of a jurisdictional dispute between state and federal officials died early today.

Authorities said the animal, which had been shot in the stomach, died at the laboratory of the state Department of Sea and Shore Fisheries.

The seal was originally thought to be a baby, but later was identified as an adult mammal. It went uncares for because state wardens said they couldn't aid the animal due to a new federal law placing jurisdiction for marine mammals with the U.S. Marine Fisheries Service.

The state wardens said that when the bleeding animal was spotted on a resort beach Sunday morning they called Kendall E. Morse, a federal Fisheries official based in Portland. Morse reportedly arranged with the New England Aquarium in Boston to come pick up the animal.

By 9 p.m., however, no one had arrived and Spencer Appolonio, state commissioner of sea and shore fisheries, finally put the seal in his car and drove to the laboratory.

Morse said the state officials could have picked up the animal earlier, because federal law allows them to come to the aid of a marine mammal for the good of the animal or the public.

Patricia Rodgers, a guest at the Newagen Inn, a resort near where the seal was beached, said, "It was really disgusting the way everyone kept saying the federal government wouldn't let them touch the seal."

SIEGE LSD-User Sprays Rifle Fire

NORTH AMITYVILLE, N.Y. (AP) — The 33-year-old gunman, using his three children as shields inside their suburban home, yelled obscenities and sprayed rifle fire at two dozen policemen.

"I am God. I can hurt you but you can't hurt me," shouted the man, described by his mother as a chronic LSD-user.

One police officer was shot and seriously wounded Sunday while responding to the report about a father gone berserk. Another 10 policemen suffered cuts and bruises during the two-hour siege.

Do Relatives Have Better Memory?

A technical sergeant at Webb Air Force Base is less than impressed with a computer at an airport in Alabama.

He checked with the airlines where his wife was supposed to have boarded an airline last Thursday night. They told him that law officials would have to call to receive information.

When the local police called the airport, they were told that the computer for the airlines only had a memory bank of 24 hours. As a result they have no record of anything that happened Thursday night.

The sergeant was attempting to contact relatives today at the other end in an attempt to locate the missing woman. He was hoping the relatives would have a better memory than the computer.

It Takes A While To Climb Down

From the roof to the windows at Bauer Elementary apparently takes 31 minutes in time.

Police received a report Sunday at 7:18 p.m. that children were seen on the roof of Bauer Elementary. A check by police failed to show anyone at the scene.

At 8:01 p.m., the burglary alarm went off at the school and three windows had been broken. Again, there was nobody there and police notified school officials of the vandalism.

Sihanouk Says It Is 'Fight To The Finish'

WASHINGTON (AP) — Exiled Cambodian ruler Norodom Sihanouk says fighting between Communist and government soldiers in the Southeast Asian country never will be settled by negotiations.

He said from his exile in Peking that it is a "fight to the finish. Even if we have to spend 10 years ahead, 20 years, 30 years, we shall never renounce our aim," to make Cambodia independent.

"So we must wipe out... the U.S. imperialism and neo-colonialists established in Phnom Penh," Sihanouk said in an interview taped by CBS-TV in Peking and broadcast Sunday.

He said there will be war until "we can wipe out the Lon Nol regime as a puppet of the U.S. imperialism."

Sihanouk was deposed in March 1970 by former military chief Lon Nol, now the president of the American-backed government in Cambodia.

Lon Nol has also said little hope exists for a negotiated settlement.

"In the face of the flagrant bad faith of our aggressors and their accomplices, we have decided to drive out the invaders by force of arms in order to defend our independence and to reach peace, our final objective," he said last week.

Gen. Sirik Matak, second most powerful man in the Lon Nol government, says no negotiations are underway outside of Cambodia to end the fighting.

In the television interview, Sihanouk ruled out the possibility of a coalition government between the Communists and Lon Nol.

He said the insurgents will launch a major attack on Phnom Penh as soon as they have stockpiled enough ammunition from the North Vietnamese.

NO HOLIDAY IN GIVING

Friends didn't take a holiday Monday in support of the Bible Fund, although the volume of giving did slow a bit.

Investments of \$130 boosted the fund to \$4,268, still a long way from the \$5,800 target set by the Howard County Ministerial Fellowship. Every penny of the funds goes to finance the teaching at Big Spring High School for its great moral, ethical, historical and literary treasures. This is a credit course, but it cannot be financed out of tax money, hence its continuance is dependent upon your support.

Please mail or bring your gift to the Herald for grateful acknowledgment.

550 TO 650 TO DIE

Last Fling Of Summer For Many Americans

By The Associated Press

As much of the Eastern Seaboard and Midwest kept sweltering amid a prolonged heat wave, millions of Americans took to beaches and the mountains today for a last fling of summer.

Few traditional Labor Day parades were planned, but labor leaders fired off their customary blasts at politicians — with the Nixon administration and its economic controls a prime target.

The National Safety Council in Chicago estimated that the long weekend would claim 550 to 650 lives in highway crashes, drownings and other accidents.

Muggy 90-degree weather continued to predominate east

of the Mississippi, but cold rains and icy temperatures were reported in some plains and mountain state areas. There was snow above the 8,000-foot level in Utah.

In Miami, forecasters at the National Hurricane Center kept close watch on two rapidly developing tropical storms. One storm, Delia, was reported moving northward toward the central Gulf of Mexico states.

Leonard Woodcock, president of the United Auto Workers, was among labor leaders lashing out against current economic policies. He noted that food prices have gone up 21 per cent in the past year.

"The 'business of the people' has fallen on hard times — the business of the great corpo-

rations prospers as never before," said Woodcock.

Secretary of Labor Peter J. Brennan conceded that "there are still problems facing our economy that we must work together to solve." But Brennan said "we can look back over a year of real gains — for all Americans." He cited an employment rise of nearly 3 million jobs.

In Chicago, some 100 Wobblies showed up for a convention of the Industrial Workers of the World, a left-oriented union founded in 1905. Most of the delegates from the United States and Canada were college graduates in their 20s, but old-timers didn't seem to mind.

'IT'S LIKE A HURRICANE IN THE OFFICE'

Forecasters Try To Keep Tabs On Tropical Storms

MIAMI (AP) — "It's like a hurricane in the office," says an official of the National Hurricane Center as forecasters try to keep tabs on two rapidly developing tropical storms.

TRACKING DELIA

"We've split the staff in two to follow the storms, and we're stretched to the very limit," Dr. Robert Simpson added Sunday night.

He and his forecasters at the

Inmate Father Murders Baby

SAN LUIS OBISPO, Calif. (AP) — A 16-month-old baby died after being hurled against steel-framed windows by his prison inmates father, authorities report. The child died Sunday after undergoing surgery the day before, a police spokesman said.

Authorities said the child was with his grandmother on a visit to his father, Cecil E. Richardson, 25, who was serving a sentence at the Men's Colony on a second-degree murder conviction in the death of his wife, the baby's mother.

The motive for the assault, which took place in view of other visitors and inmates, has not been determined, authorities said.

hurricane center on the University of Miami campus were tracking Delia, moving northward toward the central Gulf of Mexico states, and Christine, which was due to brush the Leeward Islands today.

Early this morning, Delia had maximum steady winds of 45 to 50 miles per hour. As of midnight EDT, Delia's center was reported at latitude 24.5 north, longitude 88.1 west, or about 420 miles southeast of New Orleans, moving northwest at 10 m.p.h.

Christine had been losing strength late Saturday but started regaining it Sunday.

Early this morning, Christine was packing maximum sustained winds of 60 m.p.h. about 1,600 miles southeast of Miami and was moving west-northwest

about 9 m.p.h. At 3 a.m., Christine was at latitude 16.1 north, longitude 88.9 west.

Simpson said Christine was expected to pass north of Guadalupe later today. Delia developed rapidly from a depression that formed Saturday between Cuba and Mexico's Yucatan Peninsula and moved into the southern Gulf early Sunday. Simpson said Delia was expected to hit land within two days.

SHE'S FAST

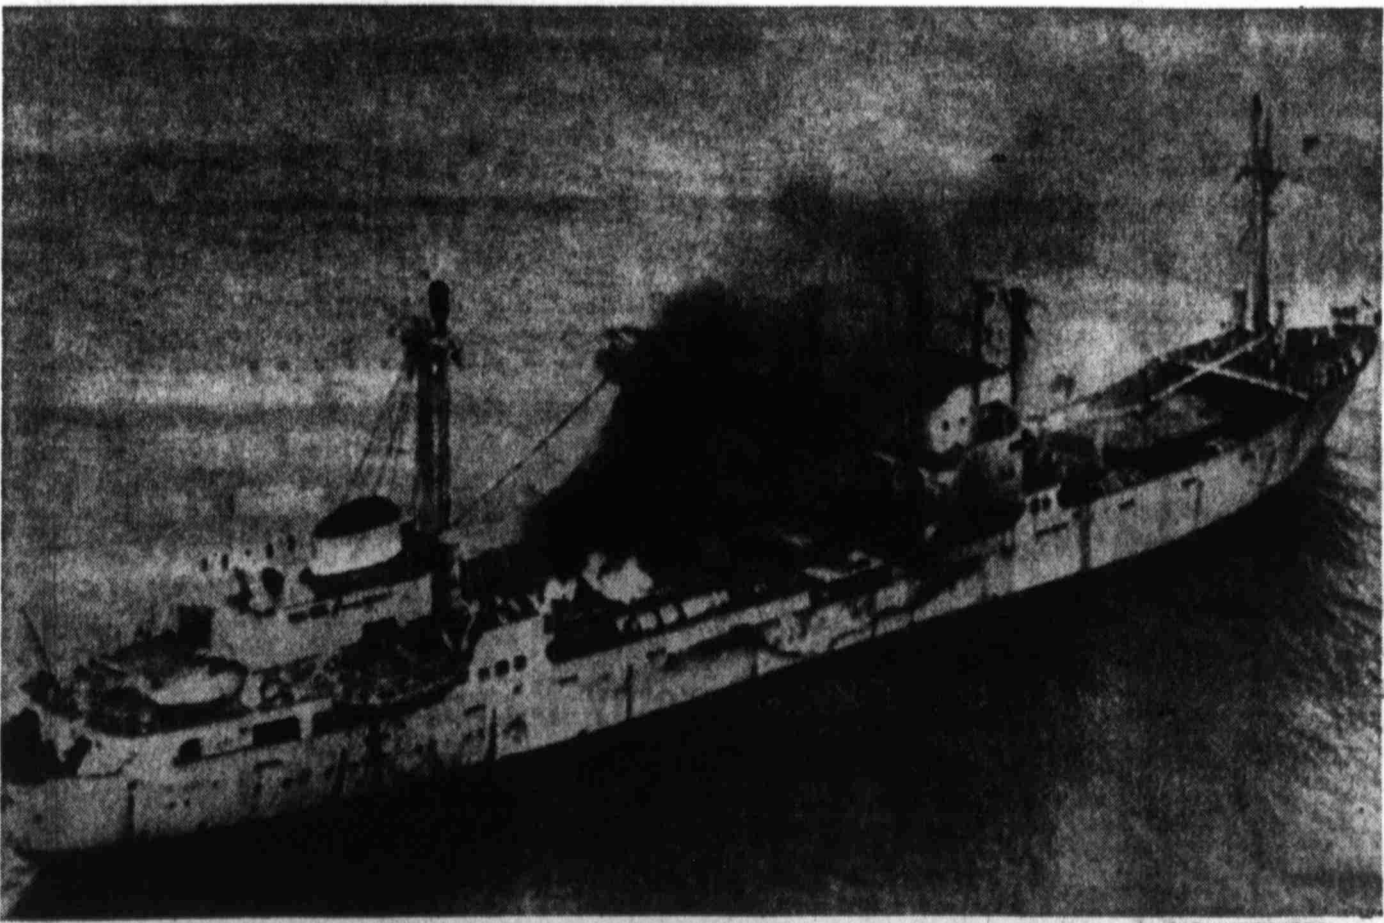

"Delia is of more critical importance right now," Simpson said. "She's a fast developer and her chances of her becoming a hurricane before she reaches the coast are very good. But one can never be sure."

A tropical storm becomes a hurricane when its sustained winds reach 74 miles per hour.

The National Weather Service said it likely would issue a hurricane watch for the northern third of the Texas Gulf Coast later today as tropical storm Delia intensified and moved northwest toward Texas.

The storm this morning was about 400 miles southeast of Galveston, moving northwest at 12 miles per hour, with top winds at 60 miles an hour.

Weathermen said the Texas coast from Orange to Wharton likely would be threatened later should the storm continue on its present course. Since a tropical storm or hurricane often changes course with little warning, coast dwellers were advised to keep close watch on the situation. At the same time a new cool front was starting to shove southward through the Texas Panhandle, touching off thundershowers in that section while other were scattered from the coastal plains into Central Texas.

FREIGHTER AFIRE—The freighter Key Largo burns in the Mississippi River 50 miles south of New Orleans. The ship run aground and the crew evacuated as flames

threatened highly volatile tetra-ethyl lead. No injuries were reported.

Cooler

Clear to partly cloudy with slight drop in temperatures Tuesday with high expected to be around 85 degrees. Low tonight is 65 degrees and high today, near 90. Slight chance of showers tonight and Tuesday. Humidity high at 62 per cent and winds from the south at 10-20 miles per hour changing to northerly tonight.

WEATHER FORECAST—No relief was forecast today for the hot, humid weather affecting most of the eastern third of the nation. Showers are forecast for the Gulf coast and part of the Midwest to the Upper Great Lakes. Showers are also forecast from the mid-Atlantic region to New England. Cooler weather is expected for the Plains.

**Beg Waldheim
 To Help Them**
 AMMAN, Jordan (AP) — leave Amman for Algiers Tuesday. U.N. Secretary General Kurt Waldheim conferred with King Hussein, took a helicopter trip over the Jordan River ceasefire line and visited a Palestinian refugee camp near here today.
 Some refugees at the Scheller camp north of Amman begged Waldheim to help them regain their homes in the Israeli-occupied West Bank. Waldheim replied:
 "I came here to study your problems and situation and I will do my best to serve you and restore your legitimate rights."
 Government officials said King Hussein reiterated Jordan's endorsement of U.N. Security Council Resolution 242 calling for Israeli withdrawal from occupied Arab territories. Crown Prince Hassan and Jordanian Prime Minister Zaid Rifai attended the talks and a luncheon.
 Waldheim's afternoon helicopter ride took him over agricultural development projects in the Jordan River Valley. Israeli fortifications in the occupied West Bank were clearly visible from the helicopter.
 Waldheim is scheduled to

DEATHS
Mildred Schuetz
 Funeral services will be held at 11 a.m. Wednesday in Kingman, Ariz., for Mrs. Mildred Schuetz, sister of Mrs. M. C. Grigsby of Big Spring, who died Tuesday.
 Mrs. Schuetz often visited Mr. and Mrs. Grigsby in Big Spring. Other survivors include two brothers, Frank Wyatt, Dallas and Ira Wyatt, Farlington, Kans., one niece, Mrs. Merline Pierce, Big Spring and two nephews, M. C. Grigsby Jr., Abilene, and Wes Grigsby, Des Moines Iowa.
Bill Garrett
 Last rites were said at the Resthaven Funeral Chapel in Lubbock Saturday for W. Y. (Bill) Garrett, 70, who died Friday in Methodist Hospital there. Burial followed in Resthaven Memorial Park.
 Among survivors is a sister, Mrs. A. L. Byrne, Big Spring.
Sister Dies
 Services will be held in Melvin at 10:30 a.m. Tuesday for Mrs. Bill (Edna Lee) Hutto, 60, who died Saturday of an apparent heart attack. Rites will be at the Wilkerson Memorial Funeral Home. Survivors include a sister, Mrs. Troy Drinkard, Big Spring.

**Fatally Injured
 By Second Car**
 YARDLEY, Pa. (AP) — The first car failed on the curve and slammed into a tree in front of Michael Madak's home. Madak, 52, rushed out to check the car and found the driver unhurt.
 Moments later a second car sped into the curve, failed to make it and struck and fatally injured Madak.
 Police said the driver of the second car, Joseph McKissock, 25, also uninjured, was charged with drunken driving in the early Saturday mishap.
 Madak died of multiple injuries about seven hours after the accident.
**At Least 25
 Persons Drown**
 TAIPEI (AP) — At least 25 persons were drowned today when a harbor ferry capsized at Kaohsiung, on the south coast, and 44 were rescued, police reported. They said a search was continuing for two persons who might have been aboard.
 Most of those aboard the boat were girls on their way to work in factories at the Kaohsiung export processing zone.

**Phenomenon Of
 'Loser' Names**

ATLANTA, Ga. (AP) — Your child is likelier to be an A student if he's named David than if you named him Elmer, according to a pair of psychologists studying the phenomenon of "loser" names.
 Unpopular names such as Elmer, Otto, Hubert, Percy, Gladys, Gertrude and Rhonda tend to trap pupils into stereotypes as losers among their peers, say Drs. John McDavid and Herbert Harari.
 McDavid, an educational psychology professor at Georgia State University, said he and his associate stumbled onto the name phenomenon while investigating relationships among elementary school children in South Florida.
 Harari is pursuing the study in California.
 The psychologists asked fourth and fifth graders to make a list of the names they felt were most desirable and then compared the lists with the students judged most popular by their peers in other classes.
 "The children found to be most popular were in general the ones with the most popular names," said McDavid. "These were names like Susan, Sally, Elizabeth, David, Michael and Stephen."
 "From this, we began to wonder if teachers have the same sort of bias," he said, "and sure enough, they have the same stereotypes."
 "They thought Elmer, Maude, Hubert and Oswald sounded like names of dull or 'dumb' children and they thought of Michael, David and Stephen as more attractive in the classroom."
 In account of the research published recently in a professional journal, Harari noted:
 "Teachers know from past experience that a Hubert or an Elmer is generally a loser. Because he is taunted by other children, he reacts by becoming belligerent, aggressive and antagonistic toward others, including his teacher."
 "One thing he doesn't do is study."

LABOR DAY MESSAGE
**Work Harder, Spend
 To Preserve Rights**
 TYLER, Tex. (AP) — To dictate our rights, invade our privacy and jeopardize our freedom.
 "American workers, union and non-union alike, have already suffered severe inequities. Profits and prices continue to soar while wages have been controlled. Unemployment is grave, taxes are inequitable, and so many of the programs President Kennedy and Johnson struggled for have been taken away."
 "And if we let them they'll take some more. If we don't work harder, dig a little deeper into our pockets and accept the responsibility that is ours to preserve the rights it took so long to achieve, surely we shall lose them," Hubbard said.
 "I ask you, workers everywhere, on this day, our day... to get involved, to join labor's cause to retain the dignity that has made Labor Day what it is today."
 State AFL-CIO President Harry Hubbard spoke to a Labor Day picnic crowd at Tyler, one of several appearances he made during the holiday.
 "Texans, at least the workers of Texas, have different reactions about Labor Day. To some it means picnics, parades and a day of relaxation. To others, it reminds them of hardships and heartaches they have suffered in waging the battles for justice in the factories and fields," Hubbard said.
 "We are faced today with our great democracy being turned into a plutocracy, an administration that wants big business, corporations, and the wealthy

VIOLENT DEATHS

Four Motorists Die In Shattering Crash

By The Associated Press
Four motorists died in a single shattering highway crash and the violent death toll mounted steadily for the Labor Day weekend in Texas.

With some of the heaviest traffic yet to come before the holiday period ends at midnight, the toll stood today at 34 fatalities since 6 p.m. Friday. It included 21 deaths in auto accidents and 11 homicides.

The worst single accident, half a mile east of Chillicothe in the Texas Panhandle took four lives as a head-on collision fused two vehicles into a single piece of wreckage late Sunday. Barry Summers, 18, and Gary Baker, 19, both of Chillicothe, and Billy Dodson, 18, of Van Horn died in one car and Bill Hicks, 47, of Pampa in the other. Hicks' wife Ina, 46, suffered critical injuries.

BLAME WOMAN
These were among the other victims: Police reported John Mittlemdorf, about 40, was killed by a .38 caliber bullet at a residence in Southwest San Antonio shortly before 2 a.m. Monday in an argument over a woman. They held a man, 28.

Theldon E. Palmer, 55, of Dallas was killed late Sunday as his car hit a telephone pole in the north part of the city. A sister, Creasy Smith, found Cora B. Anderson, 87, burned to death at her Beaumont home Sunday while taking lunch to the elderly victim. Police said the flames apparently started from Kerosene.

FIST FIGHT
Police said a fist fight ended in the fatal shooting of Clarence R. Bennett, 30, early Sunday in Port Arthur. They sought his assailant. Authorities said Rick Lathrop, 21, apparently drowned Sunday after his motorboat caught fire and he tried to swim ashore in Lake Texoma northwest of Denison Dam. A search was being made for the body.

Camilo Daniel Jr., 17, of Abilene was found dying of a gunshot wound Sunday night in an Abilene park. Police said they were seeking three suspects.

A collision Sunday at San Leon in Galveston County killed Jack Snow, 53, and his wife Willie, 57, of Huffman in Harris

County. The accident occurred at the intersection of Farm Road 517 and Texas 146.

SHOT TO DEATH
Myrtle Lee Preston, 82, of San Antonio was struck and killed Sunday afternoon by an automobile in a San Antonio shopping center. Police said she may have been the victim of a robbery attempt.

Billy Wayne McWherter, 25, was killed Sunday about half a mile east of Devers in Liberty County as his car ran off a road and overturned.

Frank Keese, 38, of Ballinger was shot to death Saturday at his residence. Police, who said Keese was hit by four shots from a .22 caliber rifle, arrested a 57-year-old man in connection with the shooting.

John D. King, 13, of White Oak near Longview died in a motorcycle accident about a mile north of Live Oak in East Texas. Steve Cain, 17, also riding the motorcycle, was taken to a Longview hospital in serious condition.

HIT BY CAR
Ben Sustaita Camareno, 41, of Corpus Christi was killed Sunday when his car slammed into a tree five miles east of Dripping Springs in Hays County.

Charlie Grims Sr., 78, of

Sheppard was killed Saturday night when he was hit by a car as he tried to cross U.S. 59 about two miles north of San Jacinto in Southeast Texas.

Carson Backstrom, 63, of Galveston was shot to death late Saturday during an all-night barbecue in the island city. Police said the shooting climaxed an argument over a woman. They arrested a 32-year-old man.

Gerald Wayne Tension, 15, of Big Rock in the Nacogdoches area drowned Saturday in the Neches River while on a family outing near Maydell.

Sandy Caton, 20, of Pasadena, was killed in a car-truck collision on the Pasadena Freeway just outside the city limits of Houston.

Vincent Clot, of Alvin, was killed instantly when he was struck by a pickup truck while riding his bicycle across Brazoria County Road 163 about 2.5 miles northeast of Alvin.

SPORTS CAR
A 6-year-old girl, Lisa Kay Franklin, died late Saturday of injuries she suffered when she was in Fort Worth Jesse Sanders, 23, of Alvord, died when his sports car collided with a truck on Highway 287.

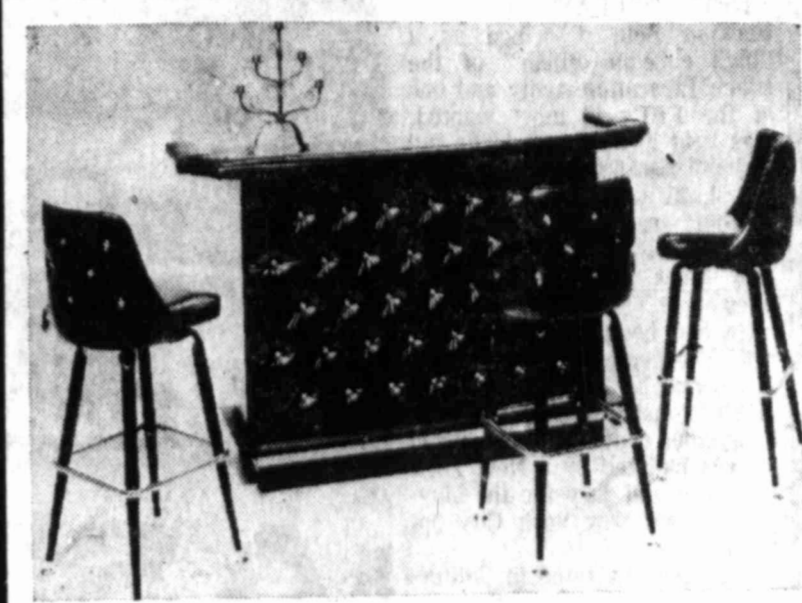

In Tomball, O Neal Crocker, 48, was shot to death Friday night with a shotgun.

Author Dies

LONDON (AP) — J.R.R. Tolkien, 81, author of bestseller trilogy, "Lord of the Rings," died Sunday. He retired as professor of English language and literature at Oxford University in 1959.

Two Russians Are Handed Sentences

MOSCOW (AP) — Pyotr Yakir and Viktor Krasin, two prominent Soviet dissidents, were sentenced to three-year prison terms today on charges of "anti-Soviet propaganda."

Tass, the official news agency, announced the sentence at the end of a six-day trial.

One Of FBI's Most Wanted Now In Jail

NEW ORLEANS (AP) — Herman Bell, described as a "high echelon officer" of the Black Liberation Army and one of the FBI's 10 most wanted, was held in a New Orleans jail under a \$500,000 bond today.

Bell, 25, was arrested Sunday without resistance by FBI agents, New Orleans police and New York City police detectives.

He had been sought on various charges involving three states and has been the subject of an intensive nationwide manhunt since Nov. 24, 1971, when he was indicted by a New York County grand jury for the slayings of two New York City policemen.

Bell also is wanted in California in connection with the robbery of a branch of the Bank of America in San Francisco on Sept. 20, 1971.

He was wanted in Louisiana in connection with the Nov. 14, 1972, armed robbery of the First National Bank of St. Bernard and the 1972 armed robbery of the Merchants Bank and Trust Co. in Metairie, La.

Police also booked Judy O'Neal, 23, who lived at the same address as Bell, on charges of harboring a fugitive and possession of stolen property. Two children, ages 2½ and 5, were turned over to juvenile authorities.

IN CONTROL—Three participants in this year's Miss America Pageant try out the controls of a Coast Guard launch during early activities for the show in Atlantic City, N.J., Sunday. The girls, are from left; Miss Arizona, Susan May of Kingman; Miss Texas, Judy Mallett of Haltom City; and Miss New Mexico, Patti Helms of Roswell.

Astros Book Camera Work

SPACE CENTER, Houston (AP) — Skylab 2's astronauts scheduled their first earth resource camera work over Europe today on the 38th day of their 59-day space journey.

The 9,000-mile pass starts over South America and passes over Chile, Paraguay and Brazil before crossing the Atlantic to Spain, France and northern Italy.

Alan L. Bean, Dr. Owen K. Garriott and Jack R. Lousma have made several resources runs over South American countries, but today lighting conditions are right for the first time for a European mission.

The European photo and sensor objectives included geology surveys in Spain and France, a study of relationships between the Pyrenees and Alps mountains, observation of a volcano in Tuscany, Italy, and an examination of the distribution of a terrace system that contributes sediment to a shelf surrounding the island of Elba.

The astronauts also planned continued observations of tropical storms Christine and Delia, taking pictures that might help meteorologists better understand the nature of these massive disturbances.

Also on schedule were medical experiments, including the drawing of blood from each astronaut, and seven hours of telescopic observations of the sun.

Enrollment Up At Midland

MIDLAND — Enrollment in the Midland schools is slightly higher than at a comparable period last year. The increase is attributed to the extension of kindergarten to all schools.

Friday's enrollment was 16,216. One the same day in 1972, a total of 16,174 were registered.

The city's two high schools had a total enrollment drop of 200 — down to 3,967. Midland High has 1,748, Lee 2,218.

Hopes For End To All Economic Lids Voiced

WASHINGTON (AP) — Hopes for an end to controls on the economy were expressed over the Labor Day weekend by two of the nation's most powerful labor leaders.

"Let's go back to a free economy. Let's get rid of all controls," said AFL-CIO President George Meany in an appearance on ABC's "Issues and Answers."

Meany said he would like to see a return to the economic conditions that existed in August of 1971 when Nixon first imposed wage-price controls.

"He may not agree publicly, but I am sure Richard Nixon would like to be back on the economy where he was in August of 1971," Meany said.

Watergate investigation. However, he added: "I don't believe he will defy the Supreme Court."

HCJC Signup Tomorrow

Freshmen and other beginning students at Howard County Junior College will report 9 a.m. Tuesday for orientation at the college auditorium.

Officials are hoping for a large turnout at this session, which precedes the start of registration at 1 p.m. in the college library. It continues to 4 p.m. and then recesses until a 6 p.m.-8:30 p.m. signup.

The registration schedule for Wednesday is 9 a.m.-12 noon, from 1 p.m. to 4 p.m., and from 6 p.m.-8:30 p.m. Classes will begin Thursday morning, said Dr. Thomas Salter, president, who urged all who can to register during the regular times — either for day or evening courses — in order not to miss class sessions.

Gallup Poll On Watergate

PRINCETON, N.J. (AP) — The Gallup Poll says a recent survey shows 52 per cent of Americans think the Senate Watergate committee's hearings are good for the country but 41 per cent hold the opposite view.

The Aug. 17-19 survey also showed 57 per cent believe the committee is more interested in gathering facts than in discrediting the Nixon administration. However, 23 per cent said the committee wanted more to discredit the administration. Nine per cent had no opinion.

The 1,052 adults from across the nation also were asked if news coverage given the Watergate hearings would make it "less likely for these men (the witnesses) to get a fair trial or don't you think it will make any difference?"

Thirty-six per cent said the news coverage would make fair trials less likely, and 56 per cent said they thought it wouldn't make any difference. Eight per cent had no opinion.

DEFY BACK-TO-WORK

Railway Strike Ends In Eastern Canada

TORONTO (AP) — Railway workers began returning to work across Canada on Sunday following orders from Parliament to end their nationwide strike. But not all were prepared to obey the back-to-work order.

Trains in eastern Canada warmed up and got rolling. But west of Ontario, service was

slow to resume. Seven of the eight striking unions agreed to return to work. But leaders of the Canadian Brotherhood of Railway, Transport and General Workers, which represents about 18,000 of the 56,000 striking non-operating employees, said no general decision among all its locals would be reached until midnight tonight.

The brotherhood includes ticket sellers, clerks, truck drivers, janitors and other employees, most of them employed by Canadian National Railways.

The legislation ordering all rail employees back to work at 12:01 a.m. Sunday was signed by the governor general Saturday. The main change in the original bill was a Conservative amendment raising the minimum average hourly wage to

\$4.19 by July 1, 1974 from the \$4.15 proposed by the Liberal government. The current rate is \$3.54.

Officials of Canadian National in the Atlantic provinces reported trains and ferries running again and CN's bus service back on the road in Newfoundland.

CP Rail commuter travel in Montreal was back to normal. Most CP Rail and CN Ottawa-to-Montreal trains were expected to be running soon.

Rock Music Festival Ends On Sour Note

HOLLAND, Vt. (AP) — A rock music festival disrupted by gate crashers and gunfire ended a day early Sunday when promoters ran out of money.

State Police Sgt. Arthur Yeaw said several fires were set shortly before midnight Sunday in wooden latrines and an old barn on the festival site at this tiny northern Vermont farming community.

He said the fires were started by a crowd of about 2,000 — all that remained of the 36,000 persons who had attended the festival at its peak.

"The group that's left is the rowdy element," Yeaw said. "There was a big exodus... of the people who are peace loving."

Yeaw said state troopers and fire equipment at the scene did not move in because the structures would have been dismantled after the concert anyway and police would have been outnumbered 100 to one.

"Mac's Party," which had crashing incident Saturday been scheduled to last three days, was marred by a gate-crasher that left nine injured, at least four with shotgun wounds.

None of the injuries reported was serious. Four persons suffered superficial shotgun wounds, authorities said. Only two remained hospitalized Sunday, and both were listed in good condition.

Vermont state police, in a statement quoting Orleans County State's Atty. John Howard, said no law enforcement officers were involved in the shooting.

'Oldest Man' In World Dies

MOSCOW — Shirali Mislumov, 168, an Azerbaijani farmer claimed to be the oldest man in the world, died Sunday, Tass reported. Mislumov died after a severe illness in the Caucasus mountain village of Barzavu where he lived all his life, the Soviet news agency said.

Mid-Management Program

The best entry into the world of business or industry is through the doors of Mid-Management. Mid-Management is offered at Howard County Junior College for the full time student in our regular daytime program and to the part-time student in the evening school.

Mid-Management provides on-the-job training combined with highly relevant college level courses for those who desire an associate degree and the opportunity to succeed in business or industry.

Areas of study include retailing, wholesaling, fashion merchandising, food store management, real estate, personnel management, industrial management, and many other areas.

Veterans should talk to Mr. Theron Lee about full time work and full G.I. benefits in our evening Mid-Management program.

Those interested should contact Mr. Lee, Horace Garrett Center, Office A-4, or phone 267-6311, extension 78.

Hunt For Man Who Shot Couple Guards At Rice

HOUSTON (AP) — Police armed security guard on campus, was shot once in the head. He was listed in critical condition early today at Ben Taub General Hospital.

Cecil Tipton, 65, an unarmed night watchman, was shot in the leg. He was reported in good condition.

Officers said they obtained this account of the shooting from Tipton:

Both officers were standing outside the Rice Memorial Center when a man stopped his car and asked directions to a dormitory.

After being told the directions, the man pulled over his face a ski mask he had been wearing as a hat and drew a pistol.

AUSTIN, Tex. (AP) — Relatives sought unsuccessfully Sunday to obtain an official ban against William R. Barron, charged in a \$125,000 extortion plot, talking with newsmen.

U.S. Commissioner Philip Sanders did direct, however, that Barron consult doctors before permitting him to go free under \$35,000 bond.

Barron, 36, a mild mannered bachelor, was jailed last Thursday when authorities accused him of trying to extort \$25,000 to \$50,000 from three federal and state air pollution officials. He was suspended as information director for the Texas Air Control Board.

PROTECTION

Sanders released him to custody of his stepfather and his mother, Mr. and Mrs. Fletcher Barron of Houston. Lawyer Charles Richards said, however, that the defendant intended to stay in Austin pending trial.

"One of the conditions of the bond is that he consult with medical personnel," Sanders told Barron's mother at an unusual Sunday morning bond hearing. "He can't be released unless he agrees to that."

"This has nothing to do with the criminal charges. This is just for the protection of everybody, to be sure that he is ready to come to court."

Mrs. Barron asked Sanders to order also that Barron not hold any news conferences.

"No, I can't do that," the commissioner said. "That is none of my business."

Barron's aunt, Rowena Kimmy of Austin, said, "For his own protection and good we don't want him to have any press conferences."

"I'm not going to talk with anyone," Barron told his aunt in a low voice.

Richards said later that for the present he would advise his client not to talk with the reporters.

HEARING SET

Barron, dressed neatly in a blue and white sports shirt and checkered slacks, sat quietly at the hearing. He and Mrs. Kimmy held hands at times.

A formal hearing will be held Tuesday, when the federal court clerk's office reopens and bond papers and certified checks for the bond are placed on file.

A preliminary hearing on the charges is set for Friday.

Barron is accused on one charge of trying to extort \$50,000 from Arthur W. Busch, Dallas, regional administrator of the Environmental Protection Agency, and on another charge of attempting to extort \$25,000 from Austin Banker Cad E. Williams in March 1972. Dr. Herbert McKee, Houston, chairman of the Air Control Board, reportedly also received a letter asking \$50,000.

Both complaints allege that Barron used the mails to threaten "to injure the reputation" of the officials.

Barron has denied writing the letters.

GOES FREE ON BOND Publicist Charged In Extortion Case

AUSTIN, Tex. (AP) — Relatives sought unsuccessfully Sunday to obtain an official ban against William R. Barron, charged in a \$125,000 extortion plot, talking with newsmen.

U.S. Commissioner Philip Sanders did direct, however, that Barron consult doctors before permitting him to go free under \$35,000 bond.

Barron, 36, a mild mannered bachelor, was jailed last Thursday when authorities accused him of trying to extort \$25,000 to \$50,000 from three federal and state air pollution officials. He was suspended as information director for the Texas Air Control Board.

PROTECTION

Sanders released him to custody of his stepfather and his mother, Mr. and Mrs. Fletcher Barron of Houston. Lawyer Charles Richards said, however, that the defendant intended to stay in Austin pending trial.

"One of the conditions of the bond is that he consult with medical personnel," Sanders told Barron's mother at an unusual Sunday morning bond hearing. "He can't be released unless he agrees to that."

"This has nothing to do with the criminal charges. This is just for the protection of everybody, to be sure that he is ready to come to court."

Mrs. Barron asked Sanders to order also that Barron not hold any news conferences.

"No, I can't do that," the commissioner said. "That is none of my business."

Barron's aunt, Rowena Kimmy of Austin, said, "For his own protection and good we don't want him to have any press conferences."

"I'm not going to talk with anyone," Barron told his aunt in a low voice.

Richards said later that for the present he would advise his client not to talk with the reporters.

Average Politician

Around The Rim

Tommy Hart

This and that: **THE AVERAGE** politician divides his time between running for office and running for cover. He can stand up and rock the boat, then make you believe he is the only one who can save you from the storm. You can count on him laying down your life for his country. He fills the air with speeches, and vice versa. If he asks you to vote for him and good government, he may be asking you to vote twice.

HE HAS a very straightforward way of dodging issues. He shakes your hand before and your confidence afterwards. "Economy" becomes his slogan, provided it is not in his own district.

He gets campaign contributions from the rich and votes from the poor on the pretense that he's keeping each from the other.

He finds which way the crowd is headed, then jumps in front and waves his banner.

He has a given name but he also has an alias. Just call him "Available Jones."

A 747 airplane uses approximately 60 gallons of fuel per minute. That's enough to keep the average family

runabout in operation for six weeks.

If rationing comes, however, the do or die rule will be: Buy a car on blocks and you'll ride a bicycle.

The easiest way to go into debt is by keeping up with people who are.

I DATE WAY back. I can remember when people who wore coveralls and had missed a turn or two at shaving worked.

One sure sign of middle age: When your weightlifting consists merely of standing up.

I'VE BEEN trying to figure out for a long time where the automobile industry finds all those empty stretches of highway to film commercials on.

A husband can no longer get a sympathetic ear when he says he's treated like a dog at home. The family pet occupies an exalted position in the family scatter. We talk to him as if he understands every word. The helpmeet might eat leftovers but the pup gets specially prepared food, if he doesn't like what the wife is serving. And he sleeps where he wants to when he wants to.

The Brighter Side

Not since World War II "victory garden" days have garden seeds been so popular. Garden patches are producing in big cities and small towns alike. There even have been reports of garden thefts.

Another old favorite, the Mason Jar, also is having a big revival. Used for canning the garden's produce, the jars are having their biggest year since World War II and, inevitably, the demand is exceeding the supply.

There are no indications that prices will return

to the cheap old days any time soon. They may settle, but a big sag is unlikely.

Gardening and canning probably will increase. More Americans will get a feel of at least a patch of soil. Gardening is exercise. Homegrown produce is healthy. Reduced intake of rich, and expensive, foods could peel off layers of fat.

The good old days, if there ever were any, are gone. But some of their methods are useful, and healthful, in dealing with modern-day problems.

Let's look on the bright side of high food prices. It's there, if one will look hard enough and bend a bit.

First there's the matter of fat people, and there are plenty of those in this country. George Gallup's Sunday poll reported that 46 per cent of American adults consider themselves overweight (55 per cent of the women, 38 per cent of the men.)

The high cost of food could encourage some of these people to attack the major cause of overweight: overeating. Careful shopping, not only for lower prices, could lead to the use of nutritious but less fattening foods.

Many Americans have been eating, high on the hog for years. And it shows. (None of this logic applies, of course, to the poor and many elderly who find it more difficult to buy any type of food.)

Another positive side of the high cost of eating is the revival of the family garden. The ecology movement and organic gardening had made a start, but the spiral of fresh fruit and vegetable prices has given a big push.

Lo, The Buffalo

A buffalo comeback is a possibility. That's what the National Buffalo Association may have in mind in view of recent findings: Buffalo steaks were \$3.98 a pound in a Washington supermarket.

Dr. Wayne Johnson, director of nutrition and food science, South Dakota State University, said buffalo meat is higher in protein and lower in cholesterol than beef.

Bill Neff of Harrisonburg, Va., is expanding with a herd he bought last February in South Dakota for \$27,000.

And buffalo herds are reported thriving in Vermont, New York and Massachusetts.

Many historians will argue that if one sits on his front porch long enough, the parade will come back around. And does that mean the Indians are coming back?

In Need Of Rest

Rowland Evans

WASHINGTON — "What he really needs is a one month vacation, without any interruption."

THAT CAREFUL recommendation from an intimate of President Nixon reflects a view, now widening into the political consciousness of many politicians ranging from very friendly to hostile toward President Nixon, that the President should take a long breather from the heavy pressures of the Watergate crisis these past six months. The toll has been enormous.

Politicians accustomed to watching the President — any President — for signs of mood, direction or work habits are flabbergasted at the extraordinary changes of scenery which now seem such an essential part of Mr. Nixon's regular life.

THE RECORD of the peripatetic President's last three weeks of travel reads like a man searching for a peace he cannot find: Aug. 9 at the White House; Aug. 10 and 11 at Camp David; Aug. 12 back at the White House; Aug. 14 back at Camp David; Aug. 15 back at the White House for two nights; Aug. 17 at Key Biscayne for three nights; Aug. 20 at San Clemente for 10 days; Camp David Aug. 31.

AS ONE presidential ally told us: "The President says he wants only to get on with the job of being President and leave Watergate behind, but how is that possible under the travel schedule that keeps pulling him away from the Oval Office?"

The President has consumed vast amounts of time studying the transcript of the Senate Watergate hearings, not cursorily but in un-

wholesome detail. Aides justified this study as inescapable cramming for his Aug. 22 press conference, stating further that Mr. Nixon's ability to come up with names and dates during his hostile questioning proves the time was well spent.

PRESIDENT NIXON is even more inaccessible than he used to be for the kind of rambling, gossipy political talk with top aides which other Presidents have found invaluable to sharpen political perceptions about what is going on outside in the real world. Instead, Mr. Nixon's ability to let down his hair seems limited to old crony Charles G. (Bebe) Rebozo, heightening his role as a "loner."

PREOCCUPATION with his own descent on the slippery Watergate sluceway from last November's heights of popularity has also taken a heavy toll in the President's legislative planning for his second term. Fundamentals of the New American Revolution, including special revenue-sharing and an aid-to-education bill that administration officials regard as extremely important, have gone unnoticed by Mr. Nixon.

Yet, intimates of the President are not surprised at this, considering the deep and ruthless cut Watergate has made in his presidency. Not blaming Mr. Nixon, they are hoping he has a realistic understanding of the fearful toll he has had to pay. Only when associates believe, will Richard Nixon cease his ubiquitous wanderings, take the long vacation he requires and begin to restore his tainted presidency.

Radio Liberty Debate

Hal Boyle

WASHINGTON (AP) — Continued federal funding of Radio Free Europe and Radio Liberty will be the first of a series of foreign policy issues confronting Congress when it returns from a month-long summer recess Wednesday. The Senate has scheduled four hours of debate on a bill to authorize \$50.2 million of financial assistance to the two radios for the 12 months that began July 1.

Other foreign policy issues awaiting final decision are the size and shape of the foreign aid program, operating fund authorization for the State Department, and legislation to limit the war-making powers of the President.

The bill to fund Radio Free Europe and Radio Liberty un-

der a new Board for International Broadcasting was approved 13-3 in July by the Foreign Relations Committee.

Those voting against it were Chairman J. W. Fulbright, D-Ark., Senate Majority Leader Mike Mansfield, D-Mont., and Sen. Stuart Symington, D-Mo., acting chairman of the Senate Armed Services Committee.

Fulbright has offered an amendment to require the two radios, to get at least half their operating money from non-federal sources, beginning next year.

The two radios, long financed secretly by the Central Intelligence Agency, began their broadcasts of news and political commentary to listeners in the Soviet Union and Eastern Europe in the early 1950's.

Fulbright views the radios as a perpetuation of cold war irri-

tants in an era of increasing normalcy in Soviet-American relations.

Congress uncovered CIA involvement in the radios January 1971 and last year, for the first time publicly provided \$39.7 million to fund them through the year. At the same time, a presidential commission headed by Dr. Milton Eisenhower was appointed to examine their activities.

The commission determined that the radios still are performing a worthwhile function and recommended continued federal support to supplement meager non-governmental contributions.

Later this month the Senate will act on a \$1.2 billion foreign economic aid program with priorities on food production, population planning and health, education and human resource development.

Reasonable Wear And Tear

Because the rent for his apartment was high, Henderson figured he could do pretty much as he pleased with the elegant furnishings. During his occupancy he broke two valuable lamps, lost a costly pitcher and a painting, and spattered the antique furniture with unremovable stains.

WHEN THE landlord demanded reimbursement for the damage, Henderson said he could not be held liable for "reasonable wear and tear." But a court saw things the landlord's way and ordered Henderson to make good.

IF YOU ARE renting a house or an apartment, chances are that somewhere in your lease there is a clause about reasonable wear and tear. This puts commonsense limits on the use you can make of the premises. In other cases, courts have held it wrongful when:

- 1) a man chopped wood indoors, ripping the wallpaper, splintering the woodwork, and punching holes in the plaster;
- 2) a woman let her bathtub overflow, causing extensive water damage;
- 3) a man, trying to chisel open a stuck window, gouged great holes in the sill;
- 4) a couple permitted their pet

poodle to soil the living room rug at will.

ON THE OTHER hand, the law recognizes that a certain amount of deterioration — scuffed floors, worn carpets, nicked chairs — can come from normal, everyday use.

Nor is the tenant usually liable for harm done by the elements. Accordingly, in another case, the weathering and weakening of porch railings and outside shutters were held not the tenant's responsibility.

AS ONE judge put it: "Reasonable wear and tear contemplates that deterioration will occur by reason of time and use despite ordinary care. A tenant is not required to renovate the premises at the expiration of his lease."

Working To Clip Industrial Noise

BATTLE CREEK, Mich. (AP) — An echo-free chamber to test trucks for noise emission levels has been constructed by Clark Equipment Co.'s Industrial Truck Division at its plant here.

This chamber is one of the first of its kind to be used to assist in the design and manufacture of material handling equipment. It is a generally accepted fact that lower noise levels create less fatigue and a general working environment more conducive to productivity, officials of the company note.

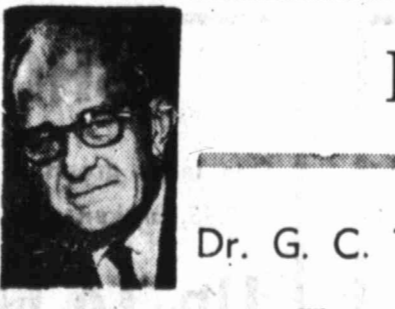

Cones inside the chamber absorb sound so it is not reflected back to give inaccurate readings. A "silenced" ventilation system completely changes air in the chamber every minute, allowing the instruments to be monitored while a truck is running.

- (A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.)

Wonder Where Heirlooms Went?

WINDSOR, England (AP) — Antique dealers have been asked to stop buying silverware, jewelry and bric-a-brac offered them by schoolboys of Eton College here.

The boys had been adding extra pounds to their pocket money by selling off family heirlooms sent with them to school by their well-to-do parents.

Dr. G. C. Thosteson

Bath Doesn't Help

Dear Dr. Thosteson: When you have taken a bath four hours after intercourse, may you still get venereal disease? N.M.P.

If you mean, "Will taking a bath prevent V.D.?" the answer is no. Not even if you take the bath four minutes after.

You certainly wouldn't ask whether a bath would prevent you from catching a cold, or protect you after being exposed to scarlet fever, tuberculosis or hepatitis, would you?

Well, the venereal diseases are diseases caused by germs, and the diseases are caught by infected people passing the germs on to someone else.

V.D. is important enough so I feel a responsibility. There is a great deal of V.D., and it is spreading even more now. There is also a vast ignorance about V.D. among the young people who are the ones most likely to get it.

Sometimes when I answer questions like the one today, I have the futile feeling that I am trying to bail out our country with a teaspoon. I wish all our

young people would take the time (like half an hour!) to learn what they need to know.

I have, for example, written a booklet on V.D., available by mail, in return for 35 cents and a long, self-addressed, stamped envelope. I wish all the people who write to me about V.D. would send for the booklet AND READ IT. Anybody who can read well enough to get through junior high school can read the booklet in half an hour.

Or, of course, if some comparable booklet is available through schools, health departments or wherever, I'll be well satisfied if you'll read that instead of mine. The point is that V.D. will continue to spread until more young people learn the simple facts about what it is, how it is transmitted and what tests will tell whether you have one of the diseases or you don't.

I've just been reading some new statistics on V.D., showing it is still increasing. For one frightening example, in San Francisco there are 2,200 reported cases of V.D. per 100,000 population — that is,

MY ANSWER

Billy Graham

For some, Labor Day may be a happy occasion, but for me it signals the blues. I mean the vacation is over, the kids are back in school, my job grinds on and all life seems to return to its boring routines. What is your answer for the blues?

R.O. First, let me say that we all have our emotional peaks and valleys. Perhaps if there was no fall and winter, with which to contrast the carefree summer, we'd even grow tired of that. It's not surprising that the blues come. The important thing is how we handle them, and I suggest Christian mysticism. Now don't stop reading.

Mystics, well, we've always had them with us — people who see beyond the material world to a hidden something of wonder and mystery. The poet alluded to this when he wrote: "Little flower — but if I could understand — what you are root and

all, and all in all, I should know what God and man is." The only trouble with this is that it doesn't go far enough.

Now the Christian mystic comes along and simply makes room for Jesus Christ. He knows life must have greater significance, and he discovers it in his faith relationship with Jesus Christ.

The Christian sees himself now as an eternal being with purpose and destiny. He can handle temporary frustrations because he looks beyond to what Jesus called the "Father's house." Loneliness becomes just a recurrent opportunity to discover the friendship of Christ.

Said the Apostle Paul, "To me to live is Christ." Philippians 1:21. The answer to the blues then is to live in the spirit, where all human activity is seen against the meaningful beauty of the divine.

A Devotion For Today . . .

"Above all, keep your love for one another at full strength, because love cancels innumerable sins." 1 Peter 4:8 (NEB)

PRAYER: Dear Lord, thank You for calling us to follow You. We pray that more and more people in all countries, and of all generations, of all races, and from all classes receive your light, your love, and life so that they can pass it on to others. For Jesus sake. Amen.

THE VICTOR—Craig Stadler, 20, of LaJolla, Calif., winner of the U.S. Amateur, flashes a victory sign during play Sunday in the final round of the 73rd U.S. Amateur at Inverness Club in Toledo, Ohio. Stadler won the championship by defeating David B Strawn of Concord, N.C. 6 and 5, in the match play event.

Jurgensen Bearing Up Well Under Pressure

FOXBORO, Mass. (AP) — Sonny Jurgensen was THE story of the Redskins during the exhibition game of the Washington Redskins declined to talk, as usual, and nobody really cared. Quarterback Thomas turned in another fine effort, but Jurgensen overshadowed everybody on the field Sunday night in rallying the Redskins to a 35-14 National Football League exhibition victory over the New England Patriots.

TROY: NO PRESSURE Texas Is Rated Third In Poll

LOS ANGELES (AP) — The Southern California Trojans say they feel no great pressure as the No. 1 team in the preseason college football poll. "The good part about defending the championship," said J. K. McKay, junior split end, "is that somebody has to take it from us. If we win, we deserve to remain No. 1. If we lose, we don't deserve it." Pat Haden, junior quarterback: "I don't feel pressure. I feel we are as good as anybody going to the Rose Bowl, then we'll think about the national championship." Anthony Davis, junior tailback: "I feel they have to out-play us. We're a tight unit, the type it takes to win." Lynn Swann, senior flanker: "I personally feel no great pressure. We're just another team, except we're not starting out on the bottom. We have an excellent chance to repeat as national champions if we don't let things run wild, if we don't look ahead to games against UCLA and Notre Dame."

Green, Devlin Share Lead

WETHERSFIELD, Conn. (AP) — Billy Casper exaggerated: "There're a hundred guys within five shots of each other. Any one of them could win it." But that's not true. There were only 30 within five shots—and nine within one—bunched at the top going into today's final round of the \$200,000 Sammy Davis Jr.-Greater Hartford Open Golf Tournament. Casper was among them. So was Arnold Palmer and Gary Player and Lee Trevino. All are within two shots of the top spot, but the lead is shared by Hubert Green and Australian veteran Bruce Devlin.

They had matching scores of 199-14 under par on the 6,588-yard Wethersfield Country Club course and just one stroke off the best 54-hole total of the year. But it was just one stroke in front of Palmer, Player, Casper, second-round leader Jimmy Wiechers, John Mahaffey, Bob Payne and Dave Eichelberger, tied at 200. The erratic Green continued to have a 16-stroke swing each day. He went from 63 on the opening day, to 73 in the second round and back to a 63 in the third round. Devlin, who has been struggling since winning two titles last season, came out of the pack with a string of three consecutive birdies beginning on the 14th hole.

Cards Regain Lead In Red-Hot Race

By The Associated Press — The Cubs, 3 1/2 games back after leading the division by as much as 7 1/2 games, topped Pittsburgh 5-3, defeating a team that had been 10 1/2 games behind on June 27. —Meanwhile, Montreal, also 3 1/2 games off the pace, got a homer, two triples and a double from first baseman Hal Bredener to rout the Philadelphia Phillies 12-0. And don't forget the Mets, still in striking range at 5 1/2 back, or the Phils, who still have a chance at seven games back. In other National League action Sunday, the San Francisco Giants swept a doubleheader from the Atlanta Braves, 5-4 in 10 innings and 11-3; the Cincinnati Reds blasted the San Diego Padres 6-1, and the Houston Astros crushed the Los Angeles Dodgers 9-0.

Morgan Plays Bryant Today

E. V. Morgan and Weldon Bryant moved into the finals of the championship flight in the Big Spring Country Club membership golf tournament Sunday. The two tangle at 1 p.m., over 18 holes to determine who succeeds Dan Wilkins as the club king. Wilkins did not enter play this year. Morgan decided Harold Hall, 1 up, Sunday while Bryant turned back Jackie Thomas' bid, 2-1. In championship consolation, Bill McClelland and Jack Cook have it out in today's final. McClelland measured Don Reynolds Sunday, 2-1, while Cook fanned out Gil Jones, 2-1. The likely winner in the Senior Flight is E. L. Powell. Entries in this division are engaged in medal play and Powell's 36-hole score gives him a ten-stroke bulge over second place Alton Underwood. Virgie Rees is the pace setter in women's competition while Rosemary Matthews is dominating the nine-hole flight. A total of 41 players entered the tournament.

Ranger Knuckleball Ace Handcuffs Twins, 2-0

ARLINGTON, Tex. (AP) — although he allowed only five hits in 7 2/3 innings. The Rangers scored their first run without benefit of a hit. Toby Harrah walked to open the fourth inning, stole second, went to third on a grounder and scored on Alex Johnson's RBI grounder that was mishandled by Minnesota third baseman Eric Soderholm. Harrah knocked in Texas' other run after Dave Nelson reached first on a force play and stole second, his 34th theft of the year. "I threw about 80 to 85 percent knuckleballs again," Hudson said after shutting out the Minnesota Twins 2-0 on six hits Sunday. "I had a good enough fastball to back a few hitters out of there and I feel that is one of the biggest advantages I have as a knuckleball pitcher. Most of the other knuckleball pitchers can't throw as hard as I can." The performance was Hudson's second victory in a row in a starter's role. He broke Baltimore's 14-game winning streak Tuesday night in his major league debut as a starter. "Hudson pitched probably the best game we've had pitched all season other than Jim Bibb's no-hitter (against Oakland)," Ranger manager Whitey Herzog said. "He never had much of a lead to work with so there was constant pressure, but he never got himself into much trouble, either." Hudson, now 4-1 on the season, outdueled Twin starter Joe Decker, 9-6, who took the loss

WORLD WIDE CRUISES

Possible ports of call to include: Singapore, Dakar, Las Palmas, Bangkok, Athens, Barcelona, Beirut and many more. This exclusive travel agent will handle all ticket, passport and visa arrangements, furnish room and board while at sea and give cash allowance for days spent ashore, furnish life and hospitalization insurance and will pay you hundreds of dollars for services rendered. We even offer a retirement program for those wishing to make this worldwide cruise a career. Only requirements for immediate departure are good health, basic electronics and experience operating DFS III or DFS IV seismic systems. We also have similar packages for those who desire inland tours to such exotic places as South America and Africa. THIS OFFER IS LIMITED TO A SELECT FEW. DO NOT DELAY. Martin Is Fired

DETROIT (AP) — Billy Martin was fired Sunday by manager of the Detroit Tigers, three years after he had taken over the job and three days after he had ordered two of his pitchers to throw illegal spitballs in a game against Cleveland.

QBC Club Meets

COAHOMA — The Coahoma Quarterback Club will meet at 7:30 p.m. Tuesday in the Coahoma High School Cafeteria, at which time a scouting report on the Bulldogs' first opponent, Sonora, will be given.

Wadley Will Draw Fire

TEXARKANA, Ark. (AP) — A probate court will consider Tuesday a will and trust agreement filed after the death of J.K. Wadley, industrialist, oil man and philanthropist believed to have been very wealthy.

Wadley died Jan. 28 at the age of 95. His wife died several years earlier. One of his best-known charities has been the Wadley Central Blood Bank of Dallas, connected with Baylor Medical Center and noted for its research.

He particularly gained public notice when research he financed produced a drug which gave great promise as a cure for leukemia. Wadley himself called it a cure, although researchers were more reserved in their statements.

The document filed in the Arkansas court here is dated June 18, 1970, with an amendment dated Aug. 27, 1971. There are indications that the documents will be contested, although no one has said publicly that they plan to fight the will.

The rest of the estate, according to the document, is to be used to establish the J.K. Wadley Revocable Trust. The complicated documents call for the dividing of the revocable trust with three-fourths of the trust to be formed into the J.K. Wadley Charitable Trust and the remainder to become the J.K. Wadley Non-charitable Trust.

The non-charitable trust income is to be distributed among 33 beneficiaries until the distribution totals \$1,057,000, "provided however, that such distributions shall in any event cease as to all trust income accruing after the 15-year-period next following grantor's (Wadley's) death."

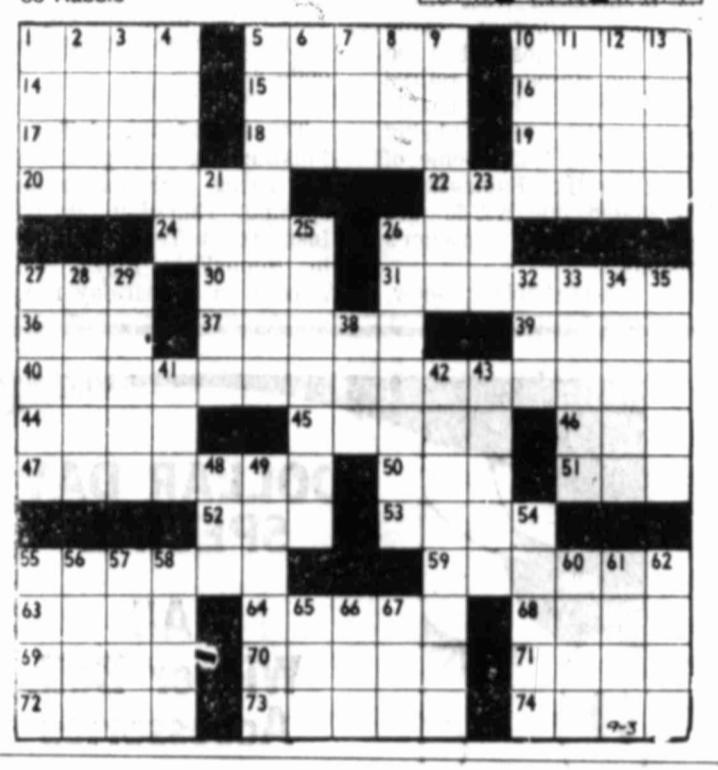

LEGAL NOTICE NOTICE TO BIDDERS Sealed Proposals addressed to Mr. O. H. Ivie, General Manager, Colorado River Municipal Water District, P.O. Box 869, Big Spring, Texas 79720, for the construction of a pipeline designated as WATER QUALITY ENHANCEMENT PROJECT.

MISSING (Q.) Rick comes to me when he needs me and I'm always there. But when I need him he's never there. He's always off with some other girl.

SUSPICION: (Q.) I have never done anything wrong with Cindy, but her father thinks I am using her for sex. He has sent her off on a vacation and told me to go away and not come back.

That is not possible. Cindy and I are 15 and we have many problems to solve. We love each other. How can I talk to her parents and prove to them that I am trustworthy?

If I can't, we will have to sneak behind her backs. We have already decided to do it if her father doesn't let me see her. — Victim in Virginia.

(A.) You can go to Cindy's parents and tell them the truth — that you respect Cindy and love her and do not want to love her. This way you will be handling your problem out in the open, honestly and correctly.

If you and Cindy start sneaking, you are likely to end up in real trouble. So don't start.

Soviet Grain Crop Forecast

WASHINGTON (AP) — A record grain crop has been forecast for the Soviet Union but the Agriculture Department says the harvest will be smaller than had been expected. The prediction comes despite reports of severe weather conditions in some areas where threshing had not been completed.

Nevertheless, it does not appear that conditions have been sufficiently bad to date to have caused serious problems with respect to harvesting losses or to grain quality. The Foreign Agriculture Service said in a report Sunday.

Forecasts call for record 195 million tons gross weight of grain to be harvested, less than the 1974 million that had been Moscow's goal for its wheat, rye, oats, barley and corn crops.

"That's still good as far as the information we have now is concerned. From the little hints coming through, things sound pretty good," said Roger Euler, chief of the Communist countries branch in the Economic Research Service.

The 1972 grain harvest in the Soviet Union grossed 165 million tons, a low yield that led to massive purchases of U.S. grain. The Foreign Agricultural Service said that as of Aug. 20, about 55 per cent of the Soviet grain acreage had been cut in the first phase of Soviet harvesting procedures.

The second step would be to use combines to thresh the grain from windrowed plants. Windrowing means to shape the plants into long ridges over which the combines will travel during threshing.

As of Aug. 20 the Agriculture Service said 23.5 million acres of crops were formed in windrows, "significantly more than on these dates in any of the past three years."

And, despite heavy rains in some areas causing some dete-

rioration, the report says indications were that no serious problems had developed for the harvest.

They're Popping Their Eardrums PORT OF SPAIN, Trinidad (AP) — Musicians in Trinidad's famous steel bands are going deaf, an ear-nose-and-throat specialist here has determined.

Dr. Mohammed Aziz said the high frequency sound of steel band music permanently damages the players' ears, especially those of the drummers, called pannem-

Uncle Samantha Wants You All BOONVILLE, Mo. (AP) — The Kemper Military Academy here will admit girls this fall for the first time since the Civil War, school officials have announced.

The coed enrollment will be limited to 30 this fall. The school expects about 1,000 boys. Girls were accepted during the Civil War when the war depleted the male enrollment. The school opened in 1844.

JANEY BRISCOE

Briscoes Announce Daughter's Betrothal

AUSTIN (AP) — Gov. and Mrs. Dolph Briscoe announced Friday the engagement of their eldest daughter, Janey, to Edward Vaughan of Hillsboro.

The announcement from the governor's office said the wedding was planned for Dec. 29 at the governor's mansion.

Janey, 23, is a graduate of Uvalde High School and a 1972 graduate of the University of Texas where she majored in secondary education. She was a member of Zeta Tau Alpha sorority. She was presented

by the Martha Washington Society in Laredo, made her formal debut in New York in 1970, and was duchess to the San Antonio Fiesta, the Buccaneer Days of Corpus Christi and the Austrian Ball of the Silver Rose in Vienna.

Vaughan, who currently is a junior law student at St. Mary's University in San Antonio, is a graduate of Hillsboro High School and a 1972 graduate of the University of Texas with a bachelor's degree in finance. He was a member of the Sigma Nu Fraternity.

Things are shaping rapidly for the first edition of the Howard County Fair Association in 20 years. Thanks to the Big Spring Rodeo Association and to Howard County, grounds are being put in shape for a variety of events from carnival to tractor pull; from pets to motorcycle rodeo; from livestock to needlepoint. Dates are Sept. 17-22. Johnnie Walker, president, and James (Buddy) Barr, general superintendent, indicated that division chairmen are well along. Catalogues are out, along with advertising. Ron McNeil is handling the rental of exhibit space, and so far he is having good response. Those wanting to tie down these choice spots should call him at Montgomery Ward Co.

Saturday brings the September fest at the Museum of the Southwest in Midland. The fifth annual German jubilee unfolds on the grounds from 5 p.m. to 10 p.m., 705 West Missouri. There will be music by Frederick Pohl's oom-pah band, dancing, mountains of food (sausage, sauerkraut, dark bread) and drinks in the Lancaster house "garten." Midland's Lions Band will play, and the Permian Civic Ballet will present "Beethoven's Country Dances." There will be a showcase by 15 outstanding artists and craftsmen.

The great metal triangles rang out last weekend to close the eighth season of "Texas," the musical pageant staged in the Palo Duro Canyon amphitheatre. This year 86,282 people took in the colorful production, more than a third of them coming from over 500 miles distance. After the show, performers changed to work clothes, putting up props and lights, storing make up, preparing costumes for cleaners, but they're already talking about the 1974 presentation of "Texas."

Tom Rayburn and Debra Love, two new faculty members at Rannels Junior High, accompanied Mrs. C. W. Tanner and Bob Zellars, who sponsored 272 students

viewing the oil development exhibit and the H. W. Caylor paintings at Heritage Museum. Other teachers are urged to book tours with Gerri Atwell, curator.

Miscellaneous museum items included visits by Mrs. Leora R. Flanagan, daughter of W. T. (Bud) Roberts, first permanent settler in the county; also visitors from California, Missouri, Connecticut and Louisiana. "Taitwisters," a Caylor original consigned to Museum, was sold to a fan in Alexandria, Va. The Big Spring Antique Car Club made a \$25 gift to the museum. Memberships included Dr. and Mrs. Clyde E. Thomas Jr. and Mr. and Mrs. Merrill Creighton.

Dr. Robert J. Rhome, nephew of the late Mrs. Mary Bumpass, founder of the predecessor West Texas Memorial Museum, came from the VA Hospital to see Heritage Museum. A retired dentist, he has been unable to practice since being disabled in 1932. Some of the items Mrs. Bumpass accumulated in 1932-33 are still in the museum's custody.

A remarkable show,

composed of bronze sculpture by Una Hanbury and acrylic and oil paintings by James Butler, mark the opening of the fall season of the Baker Gallery of Fine Art, 13th and Ave. L, Lubbock, Sunday, Sept. 9. There will be a public reception from 1-5 p.m. Mrs. Hanbury is internationally known for her sculpture not only in bronze, but also in stone, cast stone and polyester metals. Butler, a transplanted West Texan now residing in Houston, widely known as a landscape and seascape realist, will have about 40 paintings on display.

Star gazers may have an excellent view of one of the planets visible in September. Mars rises about two hours after sunset, and it will be in its best viewing area since 1968. Also, Uranus will be close to Venus (the brightest object in the southwestern sky) on Sept. 6.

The second annual Texas Folklife Festival gets into full swing with its formal opening Thursday at the Institute of Texas Cultures in HemisFair Plaza, San Antonio for a four-day run.

The huge variety show will feature foods, songs and dances, games, demonstrations, crafts, etc. At least 24 cultures will be represented. The festival will cover four acres, and free bus service will shuttle visitors from downtown parking lots. The first festival drew 100,000 visitors.

John Giodano, conductor of the Fort Worth Symphony, has been named chairman of the jury for the fourth Van Cliburn International Piano Competition Sept. 17-30 in Fort Worth's civic center. Seventy-two contestants are entered from all over the world.

The Permian Basin Petroleum Museum is offering tickets (\$10) for the annual Hall of Fame dinner Sept. 27. Morgan J. Davis, one of this year's honorees, will speak. Others who will be on hand are D. W. Davidson, Fort Worth, H. B. Fuqua, Fort Worth, Paul Kayser, Houston, Mrs. Charles Beyer, Arlington, who is prevented by illness from attending.

Manhuff Loses

Dear Abby
Abigail Van Buren

MANHUFF DEAR READERS: On July 23, the following item appeared in my column:

DEAR ABBY: It seems I have a problem. I am 47 years old, and last year I married for the second time and my wife is expecting soon. Since this is the first child I have ever fathered, and probably my last, I want him to have a special name. No argument, please. I KNOW it will be a boy.

My surname is "Huffman," so I would like to name our son, "Manhuff." My wife's maiden name is Wolfe, therefore, I want his middle name to be "Wolfgang," his full name being, "Manhuff Wolfgang Huffman." (His nickname would of course be, "Manny.")

My wife objects strenuously. She says it will be a burden to the boy and people will make fun of him.

What do you think, Abby? If you feel the boy will be handicapped by such a name, please let me know, as I have his best interests at heart.

JACK (OF ALL TRADES) DEAR JACK: Never mind what I think. Since your wife objects strenuously, forget the "Manhuff Wolfgang," and name him "Jack Jr." (P. S. If he's a "she," you'll have no problems.)

For an interesting follow-up, please read on: This morning, I received this delightful letter:

DEAR ABBY: The dilemma of "Manhuff Wolfgang" has been solved. We are pleased to announce that our baby arrived, three weeks early. After I was assured that both mother and baby would be all right, I realized that nothing else mattered — including the fact that it was a GIRL!

We have decided to name our beautiful, four-pound red-haired daughter "Heather Ann Huffman." JACK (OF ALL TRADES)

DEAR ABBY: We just received a beautifully engraved wedding invitation which included (in engraving, mind you!) the name of the store where the bride was registered.

Don't you think the establishment that engraved it is just as much at fault as the bride for not having advised her that this is in the worst possible taste?

FLABBERGASTED DEAR FLABBER: Don't blame the engraver. He may have advised the bride against it, and she may have insisted on it anyway. Engravers can only make suggestions. In the final analysis (with very few exceptions), the engraver will defer to the wishes of the customer.
