Coal Weather Ahead In U. S. ?

WASHINGTON (AP) — "It is no longer a problem," said Arkansas Gov. Dale Bumpers after meeting with President Nixon on the fuel shortage. "It is a crisis of major proportions."
"We are heading toward the most acute shortages of energy since World War II," Nixon told the American people in a nationally televised address Wednesday night.
Just three weeks after Arab oil nations cut off oil shipments to the United States, Americans have begun to realize just how serious the fuel situation may be this winter.
GRIM LIGHT
Nixon, seeking emergency powers from Congress to cut down on energy demand and preserve petroleum supplies, recognized the Arab oil weapon in his speech, saying it will mean more than two million fewer barrels of oil daily by the end of the month.
Petroleum supplies will be at least 10 per cent and maybe 17 per cent short of needs, the President said.
A few weeks ago, however, few people inside or outside the government saw the situation in the same grim light that Nixon saw it in his speech.

Before the Arab nations decided to wield the oil weapon, the administration was saying the nation would be able to survive the winter despite an already tight supply situation.
It didn't become clear to the administration until about a week ago just how serious the shortage would be.
GAS RATIONS
Emerging from a meeting with the White House energy adviser John A. Love last Thursday, Sen. Henry M. Jackson, D-Wash., said the "crisis is much worse than all of us had anticipated a week ago."
Love conceded to reporters Wednesday night, "We have an emergency now." He and Nixon said the administration is going ahead with developing plans to ration gasoline.
The arithmetic of the crisis has changed dramatically in a few short weeks.
Less than a month ago, U.S. officials were saying that the nation gets only about 6 per cent of the oil used by Americans from Arab nations. But that amount, it turns out, is in direct shipments.

Two Fugitives Give Up After Hostages Escape

WADENA, Minn. (AP) — Two jail escapees surrendered today after their three hostages slipped away from them during the night, authorities said.
'KILLER'
The two escapees, one an accused murderer, apparently fell asleep in the farmhouse where they had held Mr. and Mrs. Elmer Wegscheid and their 15-year-old son hostage since Tuesday night, an FBI spokesman said.
There were no reports of any injuries. The two gunmen, who had threatened to resort to whatever means necessary to escape, had been holed up in the farmhouse for 36 hours. They released three other Wegscheid children Wednesday night.
The FBI spokesman said deputy sheriffs captured the two

gunmen but gave no further details.
The two gunmen escaped from a Wadena jail Monday night after wounding a jailer with a gun.
WILD IDEA
John P. Morgan, who had been jailed on murder charges in a double slaying, told police earlier today he would resort to any means necessary to escape.
"If I have to, I'll tape a gun to Mr. Wegscheid's neck to assure that police don't try anything on the way to the airport," Morgan, 37, said. "That way, if I'm shot, my reflex action will trigger the gun and my hostage will be killed, too."
The other gunman was William L. Winans, 18, who had been jailed on a burglary charge.

The fugitives had been negotiating with law enforcement officials on details of a plan to have them flown to freedom today in a Minnesota Highway Patrol plane.
SNOWSTORM
A snowstorm thwarted the escapees' plans to flee by plane Wednesday. They had said they expected to fly out of Wadena today under conditions they had negotiated with authorities for the release of Mr. and Mrs. Wegscheid and their son, Ed.
Wadena, a town of less than 5,000 persons, is about 170 miles northwest of Minneapolis.
The plan was to take Wegscheid to the Wadena airport, where a state highway patrol Cessna 182 sits fueled and ready. A highway patrol pilot would replace Wegscheid as hostage.
A newsman who talked with Morgan and Winans in the Wegscheid house said they were armed with two rifles and a pistol.
Philip Enlow, an FBI agent, said after the release of the three children — Becky, 16, Ricky, 12, and Joel, 10 — that he had spoken with the two fugitives and they had offered to surrender if certain demands were met. One of those was that Morgan's two murder indictments be reduced to second-degree murder.

KISSINGER CRITIC — A group of Israelis, critical of foreign countries' actions in connection with the Middle East, picketed outside the Knesset (Israeli Parliament) in Jerusalem Wednesday. The man in the foreground carries a sign comparing Secretary of State Henry Kissinger's initiatives to those of British Prime Minister Neville Chamberlain before World War II.

Leaders Vow Prompt Action On Proposals

Energy Ideas At-A-Glance

WASHINGTON (AP) — Here at-a-glance are President Nixon's legislative proposals to conserve energy.

- TRANSPORTATION**
—Allow transportation agencies to adjust carrier schedules and service points after summary hearings.
—Lower speed limits on the nation's highways to 50 miles an hour.
- POWER**
—Open the Elk Hills Naval Petroleum Reserve in California to increased oil production.
—Impose "energy conservation fees or taxes," perhaps on the consumption of natural gas or the excessive use of electricity.
—Authorize the Federal Power Commission to suspend price regulation on new natural gas.
—Authorize the Atomic Energy Commission to grant without public hearings temporary operating licenses lasting up to 18 months for atomic power plants.
- TIME**
—Extend Daylight Savings Time throughout the year.
- POLLUTION**
—Allow the Environmental Protection Agency to exempt for one year power plants and factories from air and water quality laws on a case-by-case basis.
—Exempt such federal action from the Nation Environmental Policy Act, which requires prior preparation and review of environmental impact statements.
- BUSINESS**
—Curtail outdoor electrical advertising and ornamental lighting.
—Reduce commercial operating hours.
- RATIONING**
—Develop standby plans to ration gasoline and home heating oil if necessary.

Rally Kicks Off Homecoming Event

A super-pep rally at 8:30 p.m. today will blast the lid off of a round of spirited events packed into the first homecoming of Big Spring High School in several years.

Jane Smith, high school instructor who holds an unofficial title as the school's pep kylester, will deliver the talk at the east side of the courthouse lawn. Officials of high school and the Exes Association are hoping for a big turnout.

Bill Bradley and the Steer band, backed by the Goldiggers (pep organization) will join with the cheer leaders in stirring the members for a victory over Odessa on the gridiron Friday evening. Craig Fischer, assistant principal working with the student affairs, urged the public to attend the big rally.

Rose Mary Says Tapes Very 'Bad'

WASHINGTON (AP) — President Nixon's personal secretary testified today that parts of the subpoenaed Watergate tapes are very poor in quality, and that it is humanly impossible to hear every word on them.
Rose Mary Woods, Nixon secretary for more than two decades, said that it took her nearly a month, working off and on, sometimes on weekends and far into the night, to type a rough transcript of seven conversations between President Nixon and Watergate figures.
Miss Woods said the first saw one of the controversial tapes Sept. 29, 1973, when, at Nixon's request, she began the task of transcribing them at the President's mountaintop retreat at Camp David, Md.

Nine Executed By Real Pros?

VICTOR, Calif. (AP) — Authorities say the nine persons slain in a luxury ranch home near here were executed in "professional style." They want to question two men being sought on an Arizona murder warrant.
The victims, including two children, were all shot in the head and left in a bedroom and closet of a new \$60,000 home surrounded by vineyards in the San Joaquin Valley 80 miles east of San Francisco. The seven adults had been bound and gagged.
San Joaquin County Sheriff Michael N. Canlis said the bodies of the adult victims were found Wednesday in a semi-circle in a blood-splattered closet. He said powder burns indicate the killer or killers pressed high-powered weapons against the heads of some of the victims and pulled the trigger. The bodies of the two children were found in a bedroom.

GOING, GOING, GONE — Stuntman Dar Robinson, 26, dives off the top of an uncompleted 10-story building in Los Angeles Wednesday as part of a scene from an upcoming TV movie, "Smile, Jenny, You're Dead." Robinson fell 126-feet and landed on an 18x24-foot jet air bag seven feet high (bottom, right picture). He was falling at about 90 miles an hour. The stunt was successful.

Israel Accepts Five-Point Plan

The Israeli state radio said Israel has accepted a five-point plan worked out through the United States for a settlement with Egypt.
The radio quoted government sources in describing the plan, reached in talks between Secretary of State Henry A. Kissinger and his aides in sessions in Egypt and Israel. It said the points were:
—A prisoner of war exchange "as soon as possible."
—A supply corridor for the encircled Egyptian 3rd Army that would be U.N.-supervised and run through Israeli lines. But it would include no weapons.

United Way Goes Over Its Target

The 1974 United Way campaign has exceeded its goal, but there remains work to be done to complete the job, J. D. Nelson, campaign chairman, announced today. This is the earliest the Howard County campaign has gone over the top in years. Nelson reported at a press conference this morning that the Howard County United drive had reached \$120,658; three per cent over the \$117,140 goal.
"There are several divisions which are incomplete and many unreported cards," said Nelson, "and these are needed urgently to create a margin of safety for unpaid pledges."
"Two outstanding performances contributed largely to exceeding the goal," said Nelson. "One was the \$26,872

turned in by the combined Federal Campaign (Webb AFB, and all area federal employees) against a quota of \$17,435 for an over goal percentage increase of 54 per cent. The other was the 46 per cent increase in giving by Cosden Oil & Chemical Company employees over their 1973 contributions.
"While there is hope that this can be sustained in future years, we must assume until it becomes an established pattern that it is an unusual achievement. Were it not for the remarkable record of the CFC division, the impressive increase from Cosden people" said Nelson, "we would still be about \$13,000 below our goal. So you can see why it is a must that we complete the whole job."
The United Way will need all

MAYOR URGES FIREMEN TO RETURN TO WORK — Milwaukee Mayor Henry Maier asks firefighters to end a work slowdown they began Sunday as he holds up a picture Wednesday showing a Milwaukee fireman carrying an infant from a burning home. The mayor said: "The question is, where is he now?" The picture won the 1970 picture of the year award from the Associated Press in Wisconsin.

RISKY TO READ Real Message May Be In Ballots Not Cast

By WALTER R. MEARS
AP Political Writer
WASHINGTON (AP) — For politicians seeking omens in the scattered elections of 1973, the real message may be in millions of ballots that were not cast.

DISINTEREST
It is a simple one: Disinterest. With some exceptions the trend was a decline in voter participation in the odd-year state and municipal balloting.

Patterns are difficult to discern and risky to read in any odd-year elections, particularly when the voting is limited, widely scattered and generally local as was the case Tuesday.

Democrats emerged with the advantage, and some of their state and local leaders said Watergate was a significant factor in the showing. But the national chairmen of both parties, Democrat Robert Strauss and Republican George Bush, said they doubted the scandal had shaped the outcome.

FEW EXCEPTIONS
Bush did say that Tuesday's

voter verdicts might signal trouble for office holders in the state and congressional elections two years hence.

Sen. Charles H. Percy, R-Ill., said Watergate did damage the Republican party and "the very electoral process itself."

A sampling of voter turnout in two states and some of the cities that held elections shows with few exceptions a decrease in voter turnout compared with similar elections two or four years ago.

Whether that is a product of dissatisfaction produced by the scandals no one can say for sure. In some cases, dull campaigns without real contests were more likely to blame.

In Tuesday's elections, the most dramatic decline in voter participation came in New Jersey, where Democrat Brendan Byrne was elected governor. Fifty-seven per cent of the eligible voters cast ballots, compared with 74 per cent in the last gubernatorial race four years ago.

In Virginia, the other state that elected a governor, 50 per

THEFTS

A thief, who apparently found keys to a mobile home in the mail box, took a quadra-phonics stereo system belonging to Andrew C. Burkhardt, the sheriff's office reports. Burkhardt lives at Mountain View Trailer

Park Lot 45.
A burglar took three credit cards and a dozen sticks of beef jerky from the Premier Service Station in Sand Springs, reported the sheriff's office. Credit cards were for Sun Oil Co., Eagle Transport Co. and W. D. Caldwell Co. A cigarette machine also was entered.

Affairs Honor Sen. Hightower

Two appreciation events honoring State Sen. Jack Hightower of Vernon are scheduled in Plainview and Wichita Falls.

Mayor John Stoneham, Plainview, announced that Gov. Dolph Briscoe will attend a steak dinner for Hightower there next Thursday.

U.S. Sen. Lloyd Bentsen Jr., will be a special guest, according to committee chairman Rhea Howard, at a reception for Hightower in Wichita Falls on Friday, Nov. 30.

Plainview's dinner will be in the Hale County Agriculture Center, starting at 7 p.m. The Wichita Falls reception will be at Midwestern University's Clark Center from 5:30 p.m. to 7:30 p.m.

The state's top Democrats are joining in the double-barreled tribute to a man who has served in the Texas Senate since 1965 and who is being boomed as a candidate for Congress.

Hightower was elected president Pro Tem of the Senate in 1971 and served as governor for a day in April that year. Representing 29 counties in District 30, he is one of five senators on the important Constitutional Convention planning committee. He was chairman of the Senate's administration committee during the 63rd Legislature. Expenses of the function were cut more than \$100,000 from the previous session. Computerization of the bill filing and recording process was instituted.

Among his 24 bills passed, second highest in the Senate, was an air pollution control measure. He also pushed an oil pooling bill which unexpectedly failed.

Sen. Hightower served one term (1953-54) in the Texas House of Representatives before he was appointed and then re-elected twice as district attorney of the 46th Judicial District.

Kissinger Unable To Accept Peace Prize In Person

WASHINGTON (AP) — Secretary of State Henry A. Kissinger says he will be unable to accept the 1973 Nobel Peace Prize in person "because of the press of business in a world beset by recurrent crisis."

Kissinger, who won the Peace Prize jointly with Le Duc Tho of North Vietnam for their Vietnam peace negotiations, said the award will be accepted for him in ceremonies at Oslo Dec. 10 by Thomas Byrne, U.S. ambassador to Norway.

Tho has declined to accept the award on the grounds that peace has not been fully restored in Southeast Asia.

In a letter of Nov. 2 addressed to Mrs. Aase Lionaes, chairman of the Nobel Peace prize committee, Kissinger said, "I am deeply moved by the award of the Nobel Peace Prize, which I regard as the highest honor one could hope to achieve in the pursuit of peace on this earth."

Burning Coffin Costs Two Men

LOS ANGELES (AP) — Two men who pleaded guilty to charges connected with the theft and burning of a coffin containing the body of rock singer Gram Parsons have been given 30-day suspended jail sentences and fined \$300 each.

Philip C. Kaufman, 38, of Van Nuys, and Michael D. Martin, 28, of Hollywood were sentenced on misdemeanor theft charges.

They were ordered also to pay \$708 in expenses to the funeral home involved in the burning. The coffin was found in the desert east of Los Angeles after it had been burned.

Puzzle of **Wednesday, November 7, Solved**

Developer Calls Off Zone Plea

An Odessa developer withdrew his request for rezoning of land in the Coronado Hills Addition after 30 residents of that neighborhood protested his request at the Planning and Zoning Commission meeting Tuesday night.

Louis Rochester of Tepee Development Co. originally had scheduled the public hearing before the P & Z to request rezoning of some 20 acres of undeveloped land behind the First Baptist Church from single family to multi-family.

Rochester's plans were to build new apartments and condominiums. He owns the Coronado Apartments just west of the proposed site and was the developer of the Coronado Hills Addition.

Rochester withdrew his request after residents of the addition presented a petition with 54 names stating "our strong objections" to the proposed zone change.

The P & Z then went on to deny the request.

James Campbell, city public works director, said the residents were opposed to the apartment development on the basis that it would create more traffic and possibly litter in the area. Residents also claimed they were under the impression when they bought homes in the addition that the zoning would remain single family.

As a public hearing on the measure has already been set for Tuesday's City Commission meeting, the whole issue is expected to come up again in spite of Rochester's withdrawal of his request.

Funds Okayed For Historical Brochure

The Tourism and Development Council, which includes representatives of the City, Chamber of Commerce and hotel-motel interests, voted Wednesday to pay the cost of printing 10,000 copies of a Howard County historical brochure.

A draft of the 10-page brochure worked up by the Howard County Historical Survey Committee was presented to the council by Polly Mays. At first she asked that 5,000 be printed.

Several years in the planning, the brochure highlights early history of the county, Big Spring "firsts" and facts about the native plants, animals and birds.

Featured in the booklet is a piece about early cattleman C. C. Slaughter and another about a pioneer character Earl of Aylford, English nobleman who settled here.

Art work for the brochure will be done by Mike Paul.

In other action Wednesday, the council, formed to supervise use of revenue from the new hotel-motel occupancy tax, tabled action on commissioning a filmmaker to create a 12-15 minute promotion film of the city.

Tabling came after a discussion with Don Luttrell of Creative Films of Midland. Council members decided to wait until they can review other community films including those of Midland and Denton.

Tabled identifiately was a proposal to have Big Spring attractions listed on an interstate travel guide. Doing so would cost some \$70-90 a month, according to Chamber Manager Ron Mercer who called the cost "prohibitive."

The council requested more information before making a decision on whether to underwrite \$2,500 in prize money for a regional or district chess tournament here. Local chess enthusiast Mike Craddock asked for the underwriting in case registration fees for the tourney do not make up the total prize money needed.

To a lost child, a phone call means home

If your youngsters get lost, find they're going to be late or need to reach you in an emergency, can they phone you? Or, can someone call home for them? We're offering an Emergency Phone Card. For children's use and parents' peace of mind. No charge. It's a billfold-size card with room for your child's name, address and home phone number. If you can't be reached there's space for the numbers of a trusted friend or relative, and the family doctor. There's also a slot for a dime.

To order your card—or cards—write: Southwestern Bell, P. O. Box 972, St. Louis, Missouri 63188.

More Paving For Coahoma

COAHOMA — Price Construction Inc., Big Spring, has been contracted to lay new paving on four blocks and seal-coat

streets already paved in Coahoma, Mayor Jack Cauble said Thursday.

To be paved are three blocks of South Second Street and one block of Ramsey Street. Total cost, including seal-coating, will

be about \$15,000.

The entire dump grounds have been covered, Cauble said. Under the landfill concept being employed here, trenches are dug for trash and covered periodically. City Council meets today at 7:30 p.m. in City Hall. Only routine business is slated.

Chaparral Named Dealer For Delta Building Systems

Chaparral Contractors of Big Spring have acquired the Delta Building Systems dealership for the Big Spring, Midland and Odessa areas. Announcement was made by Kelly Graves, Delta district sales manager, and Paul L. Shaffer, general manager of Chaparral.

Shaffer said he believes the new Delta dealership will enable his firm to offer area businessmen an attractive alternative to conventional construction.

"I am impressed with the versatility of Delta's buildings systems. From a design standpoint these systems fulfill the needs of any business or any type of property, he observed."

He also cites the dollar savings attached to mass metal fabrication techniques and the custom-tailored aspects of Delta buildings as advantages.

Chaparral Contractors is also

engaged in the general contracting business. Shaffer, who was reared in Big Spring and

Building Permits Show Gain

Construction costs during January-October this year have more than doubled those during the same 10-month period last year.

The 50 projects begun last month at a total cost of \$146,065 brought building permits for the year as reflected in city building permits to \$2,984,562 as compared to \$1,479,309 at the end of October, 1972.

Permits issued by the city during October included one new residence, four for moving buildings, four enclosures, six additions, 13 reroofings, three foundations, seven carports and garages, one new business, two fences, one mobile home park, three remodelings, two utility buildings, two sign erections and one home siding.

is a graduate of Texas A&M, has more than 16 years experience in the architectural construction and contracting business. Haral G. Jones and Hayes I. Stripling Jr., both partners in Chaparral are well known businessmen in this area.

Delta is a primary prefabricator of one of the nation's largest selling metal buildings systems, with over 5,000 buildings erected and in use in all types of business and industry. Customers range from local retailers to manufacturers and warehousemen throughout the country.

Former Harvard Professor Dies

BOSTON (AP) — Dr. Duncan Earl Reid, 67, president of the American Gynecological Society and a retired professor of obstetrics at Harvard Medical School, died Wednesday in Tucson, Ariz. He taught at Harvard for 36 years, retiring in 1971. He continued to teach three remodelings, two utility buildings, two sign erections and one home siding.

Coahoma Class Builds Home

COAHOMA — Students in construction and building trade classes are building two tennis courts and a three-bedroom, brick-veneer house here.

"All the help we've had so far is with rough-in plumbing and concrete finishing," said Weldon Weaver, instructor of 18 high school students building the home.

"We've bent a lot of nails," he noted, jokingly.

When his students install something wrong, Weaver makes them pull it out and start over. He says he has been watching work closely and believes the 1,500 square foot structure will be better built than many commercially constructed.

A totally electric home located north of campus, the structure will have a market value of \$20,000 when complete, Weaver said. Materials will cost approximately \$14,000.

Original plans call for selling the structure.

R. D. (Doc) Tindol is supervising construction of two new tennis courts near two already existing high school courts.

Luther Coleman, Big Spring, was contracted for concrete work. Students will do the rest.

Chaparral Contractors to handle Delta Building Systems

This Delta builder is an idea man you can trust. He meets Delta's high standards of experience, ability and knowledge. And most of all — he has the desire to perform well for his customers.

He can help you with your building program from initial planning right on through finished construction and landscaping. Delta metal building systems save you money and time. Efficient design adapts to your specific need — and is easily expandable whenever you need more room.

Delta has spent a business lifetime living up to its basic theme: "The Delta Difference is Particular People." Chaparral Contractors are particular people.

That's important to us. And we think it's important to you that your new building be designed and built by particular people.

So, you're particular too. Call on Chaparral Contractors for your business building needs.

Letter Writing Clinic Slated

How to make business letters clear, concise, convincing and courteous will be covered by W. H. Butterfield during the business letter clinic set for Big Spring on Monday.

Scheduled to run from 7:10-8:30 p.m., the clinic will be conducted in the Chamber of Commerce office.

The \$15 registration fee includes a set of 15 letter-improvement charts that cover the fundamentals of good business correspondence.

A widely known authority on letter writing, Butterfield has written 16 books and some 200 magazine articles on this subject. He is also author of the section on "Letter Writing" in World Book Encyclopedia, and formerly edited the Better Letter Service of the International Consumer Credit Association.

The clinic undertakes to show how to make even routine letters build good will, how to

avoid trite phrases, how to write clearly and concisely and how to use effective selling psychology by mail. Actual letters are analyzed to show why some "click" and others fail.

Registration for the clinic can be made by calling the Chamber at 263-7641. The program is open to all.

Four Killed Near Alice

ALICE, Tex. (AP) — Four persons died Wednesday in the fiery collision of a carnival truck and a car near this South Texas town.

Three Hebronville women in the auto were killed. They were identified as Marcia B. Carject, 71; Eufancia Bustamante and Alberta Rivera.

Lucano G. Loyal of Hugo, Okla., was killed when his truck burst into flames after the crash.

The crash occurred at the intersection of U.S. 281 and road 14 miles south of Alice.

GOLDWATER CITES DANGER

People In The News

POCATELLO, Idaho (AP) — Sen. Barry Goldwater has called the House override of President Nixon's veto of a war powers measure "one of the most dangerous things that has ever happened to this country."

"Since the Revolutionary War, the dangers of Congress meddling in military affairs have been recognized," the Arizona Republican told students at the Idaho State University Wednesday.

"We came very close to losing that war for that same reason and the founding fathers recognized Congress should have nothing to do with it."

"If I was an enemy of the United States and knew I could provoke the United States to war and have 60 days to prepare internal pressure, I'd be the happiest man in the world."

WESTBROOK, Minn. (AP) — Roger Klasse had perhaps the most successful day of any candidate, winning two offices for which he was not even running.

Klasse was elected to both at-large vacancies on the Westbrook Village Council in Tuesday's election. No one filed for the seats, but Klasse received 84 write-ins for one and 53 for the other.

Runnerup in both cases was Roger Boutmann, with 52 and 30 votes, respectively.

Mayor Harold Schmidt, who also was elected on a write-in vote after no one filed for mayor, consulted with attorneys and then notified Klasse and Boutmann that they had been duly elected.

WINSTON-SALEM, N.C. (AP) — R.J. Reynolds Industries says it will forego Christmas lights this year for the first time since World War II in an effort to conserve energy.

Reynolds announced plans Wednesday for a company-wide program expected to save the equivalent of 5.5 million gallons of oil annually.

The effort includes reducing the number of staff vehicles, recycling waste oil for plant heating, shutting off air conditioning and heating for longer periods and informing employees how to save fuel on the job.

DENVER (AP) — Doctors say sextuplets Catherine and Nathan Stanek, the only two of the surviving five babies still in a hospital eight weeks after their birth, may go home next week.

Their three brothers—Steven and John, who went home 10 days ago, and Jeffrey, who went home Wednesday — are all reported doing well at the family's suburban Lakewood home.

Father Eugene Stanek, 31, an accountant, said he and his wife Edna, 34, are starting to get used to taking care of the babies. They were born Sept. 16 about six weeks premature.

Doctors at Colorado General Hospital said earlier that each of the sextuplets was being sent home as well as weighed 5½ pounds. Jeffrey weighed 5 pounds just prior to his dismissal.

ARCHAMP, France (AP) — Olym-

pic ski champion JeanClaude Killy, who won three gold medals in 1968, has married actress Damele Gaubert.

The French state radio reported on Wednesday that Killy and Miss Gaubert were married in a civil ceremony in this Swiss border town last Friday.

Killy is now a professional skier.

WATERVILLE, Maine (AP) — Washington Post publisher Katharine Graham will be given the 1973 Elijah Parish Lovejoy award here March 20.

Colby College announced on Wednesday Mrs. Graham would be given the journalistic achievement award during a convocation.

The award is named for an 1826 Colby graduate killed in Alton, Ill., in 1837 while defending his presses against a mob which opposed his editorial stand opposing slavery.

LAS VEGAS, Nev. (AP) — Entertainer Frank Sinatra has signed on for two appearances at Caesars Palace hotel here in his latest emergence from a self-imposed retirement.

In recent weeks, Sinatra taped a television special and appeared at a live performance at Fresno, Calif. He also has a new album and an upcoming television special.

Sinatra will make his first appearance here for one week starting next Jan. 25. The date for the second and the financial arrangements were not announced.

Plane Crash Wreckage

LEAKEY, Tex. (AP) — Civil Air Patrol investigators hoped to check the wreckage of a light plane near here today and said it is believed to be that of one here.

missing since Sunday night. According to the flight plan, the aircraft was en route from El Paso to Fort Worth. The men aboard were identified as Thomas Reese and Danny Cole, both of Fort Worth.

Dr. James Fleming of Com-fort, Tex., a CAP pilot, discovered the wreckage Wednesday when he flew near the Flying Bull Ranch near here.

Officials Seek Traffic Study

Members of the Public Officials Support Group on Traffic decided Wednesday to request a Texas Highway Department survey which may lead to installation of a traffic signal at Third and Birdwell.

The request, which needs City Commission approval, is for a survey to see if the need justifies installation of a light at that location.

According to a list compiled by Susan Thomas, traffic safety coordinator, the intersection at Third and S. Birdwell had the largest number of accidents in town during January-July this year.

Fourteen mishaps occurred at that intersection during those seven months, an average of two a month. Projected figures are that 24 will occur there by the end of the year, four more than during 1972.

The seven members present today for the group's second meeting also discussed problems and possible solutions at the 10 other intersections determined by past accident reports to be worst trouble spots.

These included FM 700 at Gregg, S. Service, FM 700 at U.S. 80, 12th at S. Gregg, 4th at S. Gregg, 7th at S. Birdwell, 3rd at N. Gregg, 4th at S. Birdwell, 3rd at S. Gregg, 4th at S. Main.

Innocent Until Proven Guilty

GREENCASTLE, Ind. (AP) — Former Sen. Margaret Chase Smith of Maine says she believes President Nixon is innocent of Watergate involvement, "except for failure to give full disclosure."

"I had hoped against hope that following the (1972) election the President would take to the air and give the people a full explanation (of Watergate)," the Maine Republican told a class at DePauw University.

"I was very disappointed that he didn't," said Mrs. Smith, a visiting lecturer at DePauw.

But she added, "I go on the theory that people are innocent until proven guilty. And I believe the President is innocent except for failure to give full disclosure."

It Didn't Take Her Long To Get Involved In City

By BARBARA LORD
"It's hard to learn how to swim at the top," said Mrs. Jimmy Townsend about her job as president of College Heights Parent-Teacher Association. At the

first PTA meeting she attended in Big Spring, she was told the group needed an officer. She said she would take the position, and later found out the office was for president.

Mrs. Townsend (Vonda) refers to her presidency as "on-the-job-training," and she said she'd never be able to handle the position without the help of a "fantastic bunch of women working with me."

The Townsends came to Big Spring about a year ago. He is a buyer for Atlantic-Richfield Company, and covers an extensive area, purchasing oil field materials. The couple's sons, Mark, 9, and Brent, 7, attend College Heights Elementary School.

Mrs. Townsend has taken an active interest in the city and its activities. She belongs to the Newcomers Bridge and Handcrafts Clubs and says the clubs are "a great way to welcome people to the city and make them feel at home." Also, she works for 5 1/2 hours every Monday at Veterans Administration Hospital, and is considering adding another day of volunteer service.

"I really enjoy what I'm doing now," said Mrs. Townsend, "but I don't want to become one of those people who is involved in so many things, that she doesn't have time to do a good job at any of them."

As soon as Mrs. Townsend arrived in Big Spring, she felt it was "her town." She said people made her feel welcome and useful. "You don't learn how a town works until you jump in and help," she said. "So I jumped in to help. I'm an oil field girl, I grew up in oil cities, and I feel somewhat out of my habitat with all of the Air Force people around here, but I think they account for much of the friendliness of the city."

MRS. JIMMY TOWNSEND

With people moving in and out so often, residents have to be outgoing.

Other interests for Mrs. Townsend include oil painting, a hobby she took up about three years ago. She also sews most of her own clothes, "partly because I like sewing, and partly because clothes cost so much to buy." Any time she has to watch television, she also uses the time to crochet. As a family, the Townsends enjoy camping trips, music and football. Townsend likes to hunt and fish.

In the kitchen, Mrs.

Townsend is a qualified cook, learning the art early in life.

"Mother insisted I know how to cook, but it's not really something I enjoy doing on a day-to-day basis," she said. "My sons are learning to cook, and they enjoy it. I decided long ago that I wasn't going to turn two spoiled and completely dependent men over to my future daughters-in-law. They especially like to make cookies, but they're not too keen on cleaning up."

Mrs. Townsend likes making homemade bread and biscuits. She gets help with many meals from her husband who does a lot of outdoor barbecuing, both winter and summer. Mr. and Mrs. Townsend were reared in Denver City. They moved here from Andrews, and hope to remain for several years.

Richness Of Napoleons Will Satisfy Anyone's Sweet Tooth

Simple to make and delicious too, quick Napoleons made with semi-sweet chocolate morsels are a must for any occasion.

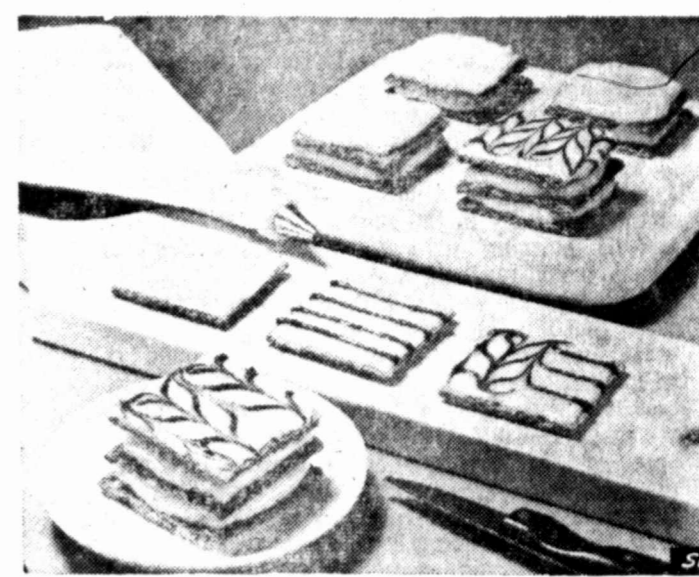

QUICK NAPOLEONS

1 3 1/4-oz. pkg. vanilla instant pudding
2 cups milk
1 cup heavy cream
1 6-oz. pkg. (1 cup) semi-sweet chocolate morsels
24 cinnamon graham crackers

Prepare instant pudding according to package directions using 2 cups of milk. Beat heavy cream until stiff; fold into prepared pudding and chill. Melt over hot (not boiling) water chocolate morsels. Spread each of 16 cinnamon graham crackers with 1 teaspoon of melted morsels. Reserve remaining melted chocolate for frosting. Line a 13x9x2 inch pan with aluminum foil and arrange 8 chocolate covered graham crackers in bottom of pan. Spread half of pudding mixture evenly over crackers. Repeat with a layer of 8 more chocolate covered graham crackers and remaining pudding. Use chocolate feathered frosting on 8 remaining crackers.

CHOCOLATE FEATHERED FROSTING

In small bowl combine 1 1/2 cups sifted confectioners' sugar, 2 tablespoons milk, 1 teaspoon corn syrup; blend well. Take remaining 8 graham crackers (one at

DELICIOUS AND SIMPLE
Chocolate, vanilla combine

a time), spread each with confectioners' sugar glaze. To make feathered look, pipe reserved melted chocolate through pastry tube over glaze in lengthwise lines about 1 inch apart. Draw toothpick or

knife through lines, crosswise, in alternate directions, about 1 inch apart. Place frosted graham crackers on top of final pudding layer. Chill overnight. Cut in thirds. Makes 24 pieces.

RECOMMENDED RECIPES Mrs. Jimmy Townsend

UPSIDE DOWN CAKE

1/2 lb. butter
1 cup brown sugar
Pineapple or apricot halves
3 eggs
1 cup sugar
5 tbsps. fruit juice
1 cup flour
1 tsp. baking powder
Melt butter in heavy skillet (preferably black cast iron), and sprinkle with brown sugar. Place pineapple or apricot halves on top of butter and brown sugar. Beat eggs; add sugar and juice. Sift flour with baking powder and add to egg mixture. Pour mixture over brown sugar and fruit mixture, and place skillet in 350-degree oven for about 30 minutes, or until brown. Turn out upside down on cake plate.

CHERRY PIE

1 stick margarine
2 1/2 cups sugar
1 cup plus 2 1/2 tbsps. flour
1 tsp. baking powder
Pinch of salt
1 cup milk
Red food coloring
2 cans cherries
Melt margarine in saucepan. In another bowl, mix one cup sugar, one cup flour, baking powder, salt and milk. Spread mixture over melted butter. In another pan, combine remaining 1 1/2 cups sugar, cherries, 2 1/2 tablespoons flour and a few drops red food coloring. Cook over medium heat until juice begins to thicken. Pour cherry mixture over batter, and cook at 425 degrees for 35 to 40 minutes, or until brown.

APPLESAUCE SALAD

1 tbsps. gelatin
3 tbsps. cold water
2 cups applesauce
1/4 cup sugar
3 tbsps. red hot candies
1/4 tsp. nutmeg
1 tsp. lemon juice

In saucepan, combine applesauce, sugar, red hot and nutmeg. Stir over medium heat until candies dissolve. Dissolve gelatin in cold water and let stand until jelled. Add to applesauce mixture. Mix thoroughly. Remove from heat, and add lemon juice. Refrigerate several hours before serving.

MEAT OR SALAD DRESSING

1 qt. salad dressing
1 med. bottle catsup
1/4 tsp. garlic salt
1 med. onion, grated
3 tbsps. Worcestershire sauce

Combine all ingredients, mix well, cover and store in refrigerator. May be used over all types of meat or salad dishes.

BARBECUE SAUCE

1/2 cup shortening
1/4 cup brown sugar
1 med. bottle catsup
2 tbsps. tabasco sauce (optional)
1/4 cup Worcestershire sauce

1 onion, chopped fine
4 tbsps. mustard
Combine all ingredients, and cook slowly over low heat until thick (about 30 minutes). Sauce is good on meats and in baked bean dishes. Will keep indefinitely in refrigerator.

ENCHILADA CASSEROLE

1 can enchilada sauce
1 can mushroom soup
1 cup evaporated milk
2 lbs. ground beef
Salt, pepper and garlic salt to taste

Chili powder to taste
1 can cheddar cheese soup
1 lge. bag tortilla chips
Brown meat with salt, pepper and garlic salt. Add mushroom soup, milk and chili powder. Bring to a boil, and let cool. Add tortilla chips and cheese soup. Heat until cheese soup melts, and serve.

QUICK PARTY PUNCH
Everyone will enjoy it

Having Party? Do It Simply

Punch was introduced in England from India. The word punch is derived from the Hindi word panch, meaning five. Traditionally, punch was made with five ingredients. However, nowadays there is no limit to the number of ingredients a punch may have.

Here is a cool refreshing Tea Punch served with a pound cake covered with a delicious icing made with semi-sweet chocolate morsels as a special ingredient. The combination is one everyone will like.

QUICK PARTY PUNCH

6 cups water
1 cup sugar
1/2 cup instant tea
2 6-oz. cans frozen orange juice, reconstituted (6 cups)
1 6-oz. can frozen pineapple juice, reconstituted (3 cups)
1/2 cup lemon juice
1 28-oz. bottle ginger ale, chilled

In large bowl combine water, sugar and tea; stir until dissolved. Add reconstituted orange and pine-

apple juices. Stir in lemon juice. Before serving, add ginger ale. Serve in a large bowl with ice. If desired, garnish attractively with halved fresh strawberries, orange and lemon slices. Makes 40 1/2-cup servings. Serve with chocolate frosted pound cake.

SOFT CHOCOLATE FROSTING

1/2 cup milk
1/4 cup butter
1 6-oz. pkg. (1 cup) semi-sweet chocolate morsels
2 1/2 cups sifted confectioners' sugar

In saucepan combine milk and butter; bring just to a boil. Remove from heat; add semi-sweet chocolate morsels and stir until morsels are melted and mixture is smooth. Beat in confectioners' sugar; continue beating until smooth. Chill until thick enough to spread (about 30-40 minutes). Spread frosting on packaged pound cake. Frosts one 11 1/4-oz. pound cake.

Broiler Prices Decline As Demand Lessens

COLLEGE STATION — Broiler supplies are beginning their seasonal decline, but prices may also drop as demand normally lessens in the fall. However, the outlook for 1974 indicates that more broilers will be on the market, says Dr. David B. Mellor, poultry marketing specialist for the Texas Agricultural Extension Service.

"Broiler producers were faced with a number of uncertainties this summer when prices were frozen and feed costs continued to spiral," points out Mellor. "Some took drastic action to limit their flocks, but for the most part production continued on a normal scale. On the other hand, demand soared due to rumors of food shortages and the extended price freeze on beef. As a consequence, broiler prices also climbed."

Mellor cites a report from the U.S. Department of Agriculture that shows broiler production at the end of 1973 will surpass 1972 year-end levels. However, over-all production for 1973 should be down about two per cent from 1972 levels. Production the first half of 1974 should exceed production during the first six

months of 1973 by three to five per cent.

September marketings will be down about five per cent while October marketings should drop only two per cent from 1972 levels. Marketings during the last two months of the year should be about equal to last year.

"Despite the higher prices for broilers, these prices are now lower than they were 20 years ago," notes the Texas A&M University average factory worker today can purchase eight pounds of broilers (at 50 cents a pound) with wages from one hour of labor compared to 5.2 pounds in 1959. So, broilers continue to be a good buy."

Spatulas Have Many Functions

Flexible rubber spatulas, sometimes called scrapers, come in two sizes — wide and narrow. The wide spatulas do a good job of scraping out a large bowl; the narrow spatulas are used for small bowls or cups. Using these spatulas will help you conserve every bit of batter, soup, sauce or whipped cream!

Nursing Field Is No Longer Strictly 'Woman's Vocation'

By BARBARA LORD
Nursing is becoming a two-gender profession. Since the late 1960's, more and more men have entered the traditionally female-dominated profession.

Big Spring is representative of the change. Four male registered nurses are employed at Veterans Administration Hospital; two RN's are assigned at the Webb Air Force Base Hospital and an RN and a Licensed Vocational Nurse are on the staff at Big Spring Nursing Inn. Several others work at the city's hospitals as anesthesiologists.

Men actually preceded women in the nursing profession. Up until the time of Florence Nightingale, it was the men who cared for the wounded and sick during war and plague. Except for hospitals operated by female religious groups, men provided much of the care in public hospitals.

In the second half of the 19th century, training schools spread across America and nursing became a "woman's profession." Now the pendulum is swinging back. At the turn of the century, males made up about eight per cent of the national nursing force. By 1970, the figure dropped to one per cent. However, since 1970 male nursing graduates have increased so much that the previous high percentage is expected to be reached or surpassed within five to 10 years.

MR. & MRS. B. M. NEWTON

Couple Will Be Honored

A 50th wedding anniversary reception will be held in honor of Mr. and Mrs. B. M. Newton from 2 to 5 p.m., Sunday in the fellowship hall of Prairie View Baptist Church, seven miles northwest of Big Spring on the Lamesa Highway. All friends and relatives are invited to attend.

Although Mr. Newton enjoys horseback riding and always participates in the rodeo parade, they list their hobbies as "home, family and church."

Hosting the event will be the couple's sons and daughters-in-law, Mr. and Mrs. David Newton, Coahoma, and Mr. and Mrs. Norman Newton, Big Spring; and four granddaughters, Mrs. Phil Hall, Tucumcari, N.M.; Mrs. John Gibson, Corpus Christi; Mrs. Jerry Schrieber, Mesquite; and Miss Betty Carol Newton, Coahoma.

The honorees are parents of another son, Bill Newton, who is deceased. There are two grandsons, David Lynn Newton and Timmy Newton, and six great-grandchildren.

Mrs. Newton, the former Bernice Andrews was born north of Westbrook, and Mr. Newton was born in Neiaender. They were married Nov. 14, 1923 in the home of the late James Willie, a Methodist minister from the Center Point community.

The Newtons have lived in Howard County all their married life, except for five years spent in Martin and Dawson counties. They have made their home in the Fairview Community since 1936, and they still farm in that area.

Mr. Newton, a deacon at Prairie View Baptist Church, is also a director of Howard County Farm Bureau. Mrs. Newton teaches the ladies' Sunday school class at the church.

Nude Nuisance?

Dear Abby

Abigail Van Buren

DEAR ABBY: A 40-year-old man who is a neighbor of mine, and also a friend, goes out to get his morning paper in the nude. I have told him that this is against the law, but he says as long as he is on his property they can't arrest him. I told him, it didn't make any difference, it was still against the law.

I am afraid they will catch him and lock him up. Will you please print this. There are lots of children in the neighborhood, and I don't think this is very nice. Sign me

WORRIED IN FORT PIERCE, FLA.
DEAR WORRIED: Laws differ, but your neighbor should find out if he's within the law to be without clothes even on his own property in view of the neighbors. (What could they charge him with? Indecent exposure, or being an attractive nuisance?)

DEAR ABBY: A woman wrote that she had been married 27 years, and all she was good for was sex. One is struck by her incapacity to realize that she must be one fantastically creative, imaginative, responsive female to have made sex so exciting for the same man for 27 years.

She says she's "the world's worst cook and housekeeper, and not good at anything except sex" — as if sex was a bad thing to be good at. One could easily change the letter around. A woman may have written in saying all she was good for was

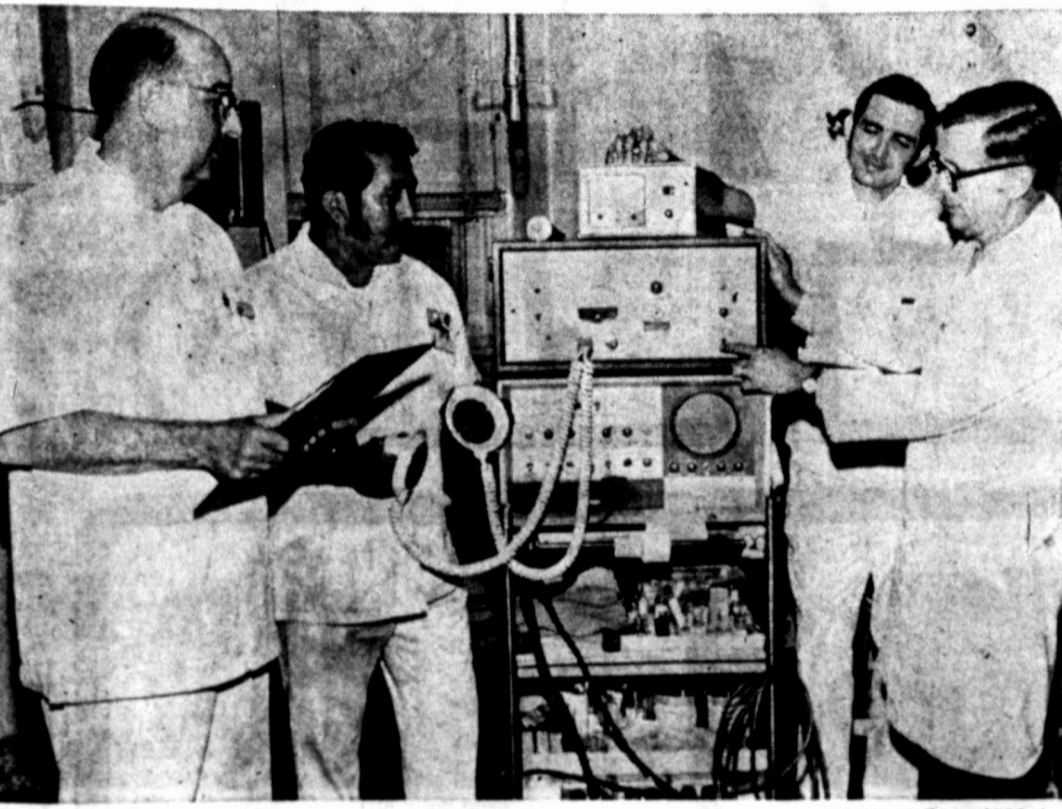

LVN's Meet For Holiday Dinner
Mr. and Mrs. Hugh Rhyne were hosts Tuesday evening for a Thanksgiving dinner for members of Licensed Vocational Nurses Association, District 25. Husbands of members were guests. The dinner was held in the Rhyne home at 1313 Stadium.

During business, members agreed to help with Christmas parties Dec. 17 for patients at Big Spring State Hospital.

Miss Gresham To Be Married

Mr. and Mrs. E. E. Gresham, 4025 Vicky, announce the forthcoming marriage of their daughter, Elizabeth, to Ronny Pope, son of R. L. Pope of Sand Springs. The couple will be married Nov. 24 in the home of the bride's parents.

CHANGING ATTITUDES — The idea that nursing is a woman's calling is no longer valid. The influx of men in the profession is increasing steadily. Male nurses employed at the Veterans Administration Hospital include, from left, G. Kendall Dobbs, John Rodriguez, Terry Sims and Maurice Smith, all registered nurses.

(Photo by Danny Valdes)

FORMER MEDICS — Many male nurses served as medical corpsmen in the military prior to becoming nurses. That was the case with Raymond Tanis, left, director of nurses at Big Spring Nursing Inn; and Lt. Carl Walsh, seated, and Stanley Nesbitt, not shown, is employed as a Licensed Vocational Nurse at the nursing inn.

Kenneth Roaches Announce Birth

Mr. and Mrs. Kenneth Roach, 3422 Hummingbird, Denton, formerly of Big Spring, are announcing the birth of a son, Don Kenton, Oct. 7 at a Denton hospital. The infant weighed 8 pounds, 7 ounces. Roach was librarian at Howard County Junior College for about 10 years prior to moving to Denton. He is now associated with Texas Women's University.

MAJOR DEFEAT FOR PRESIDENT

Congress Overrides War Power Veto

WASHINGTON (AP) — Congress has enacted over President Nixon's veto a bill limiting the power of the president to wage undeclared war.

The action Wednesday was the first successful override of a presidential veto in nine years.

Termed unconstitutional by President Nixon, the bill bars the President from committing U.S. troops to combat for more than 60 days without specific approval from Congress.

Backers of the war powers measure, first introduced three years ago, attributed the vote to overwhelming public support in the wake of the Vietnam war.

The house voted 284 to 135 to override, four more than the two-thirds needed.

The Senate completed the action by 75 to 18, or 13 more than required.

In the House, 86 Republicans voted to override and 103 were against. Among Democrats, 198 were for and 32 against overriding.

In the Senate, 25 Republicans voted against the President's position and 15 supported it. Fifty Democrats voted for overriding and three against.

After the vote, Nixon said the bill "seriously undermines this nation's ability to act decisively and convincingly in times of international crisis."

TOWER TALKS
Sen. John Tower, R-Tex., said that to involve Congress, with its cumbersome procedures, in war-making decisions would cause "rejoicing in the streets of Moscow."

Tower expressed hope that the constitutionality of the bill will be challenged in court "at the earliest possible opportunity."

Sen. Jacob K. Javits, R-N.Y., leader of Senate backers of the bill, denied that the bill changed the constitutional powers of either the President or the Congress, but simply provided "a methodology" by which the President and Congress can concur in war-making decisions.

DEEPLY FELT
Javits said recent events involving the President may have been a factor in the override.

but Sen. Charles H. Percy, R-Ill., said there should be no interpretation that any vote in the House or Senate was influenced by Watergate-related incidents.

The congressional action, Percy said, reflected "a feeling deeply felt by the American people that there should be no further undeclared wars without the concurrence of Congress."

Rep. Gerald R. Ford, R-Mich., House Republican leader and vice president-designate, urged the President not to turn against the President at a time of diplomatic effort to attain a Middle East peace.

Wednesday night, said emphatically that he would not resign.

Mills Arkansas Democrat who is chairman of the House Ways and Means Committee, said in an interview after Nixon's speech that he believes events will "force the President to step down," possibly within three months.

He said he did not think it would take impeachment proceedings to force Nixon out of the White House. He added that the Watergate scandal alone was not sufficient to bring a successful impeachment against the President.

Will Force Nixon To Quit?

KENSETT, Ark. (AP) — Rep. Wilbur Mills predicts that pressure from news media, Congress and the public will force President Nixon to resign within a short period of time.

Nixon, departing from a prepared nationwide television address on energy problems

Baker's Chapel To Resume Barbecue

Baker's Chapel is having a barbecue Saturday at the church annex, Northwest Tenth and Lancaaster, to which the public is invited. Serving will begin at 11 a.m.

Charlie Merritt will be cooking beef, chicken and ribs. The dinners will be \$2 per plate, with a choice of one of the three meats, plus beans, potato salad, onions, pickle and bread. Dinner may be ordered for delivery by calling 267-2940. Sliced beef will be sold by the pound (\$2.75).

The barbecue, traditionally held weekly at the church, had been discontinued for several months.

FIRES

False alarm, 9:13 p.m. Wednesday.

House fire at 1503 E. 6th, stove on fire; 8:32 p.m. Wednesday.

Errant Wheel Damages Car

A white bobtail truck headed the wrong way on E. 3rd Wednesday night, went into a broadside slid, lost a tire and rim off the back, and headed east on IS 20 at a fast clip around 9:12 p.m.

Mrs. Howard Walker, 900 W. 2nd, reported to city police that the wheel struck her vehicle and damaged it.

Local law officials alerted the Colorado City unit of the Texas Highway Patrol, but apparently the truck had not yet been located this morning.

THEFTS

Linda Hawkins at Big Spring Mobile Lodge 15 reported assorted stereo equipment valued at \$600 stolen.

NO SCHOOL HERE FRIDAY

All Big Spring schools will be closed Friday so that teachers may attend the district meeting of the Texas State Teachers Association in Odessa.

The general session begins at 10 a.m. at the Ector Coliseum and sectional meetings will be held the rest of the day.

Some of the sectional meetings, however, precede the general meet and are held as breakfasts. Others will be luncheon meetings. Jim Holmes, Marcy Elementary principal of Big Spring, is the immediate past district president and a member of the executive board, which meets this evening in Odessa with the house of delegates.

Guilty Of Murder

AUSTIN (AP) — A Texas Ranger's testimony that the suspect in a Lubbock murder case told him he killed the victim was legal, despite the usual ban on oral confessions, the Court of Criminal Appeals ruled today.

The court upheld the murder conviction of Ronnie Weedon, sentenced to 10 years in the Sept. 29, 1970 pistol slaying of George McGann of Big Spring.

Another body, Mike Meshell's, also was on the floor of Weedon's home when officers arrived. Spent shells from a .38 and a .45-caliber pistol were found at the scene.

Weedon at first told officers the two men had an argument and shot each other.

But Ranger James Singleton said Weedon took him aside and told him he had shot McGann, "possibly with both pistols."

Weedon's lawyers sought a new trial because of Singleton's testimony.

The high court said, however, the testimony was admissible because Weedon "was not under arrest or in custody, nor was he deprived of freedom of movement in any significant manner at the time of the above conversation."

In fact, the court noted, Weedon was not arrested until March 15, 1971 more than five months after the killing.

Professor Dies

CAMBRIDGE, Mass. (AP) — Alfred Sherwood Romer, 78, an authority on vertebrates and noted for his reconstruction of the nerves of long-extinct fishes, amphibians and reptiles died Monday. He was professor of zoology emeritus at Harvard University.

Plane Crash Claims Two

EULESS, Tex. (AP) — Two men died Tuesday night as a private plane crashed just north of Greater Southwest International airport between Dallas and Fort Worth.

Authorities identified them as Leonard Paul Meyers, 65, of Grand Prairie and Don E. Spradling, 47, of Dallas. They were flying from Cincinnati, Ohio, and attempted to land at GSW. Both were thrown clear of the wreckage.

Federal Aviation Administration officials attributed the accident to low visibility. They said the plane apparently struck treetops and nosedived into the ground.

Heights Parents Ask For Project

AUSTIN, Tex. (AP) — A Houston Heights parents group has sought Gov. Dolph Briscoe's help in keeping youngsters off the streets, saying the city had ignored their plea.

Administrative assistant, Ken Clapp, and planning director, James Rose, talked with the group. "They are going to cooperate with us. If there is any help they can give us, they are going to give it to us," Mayhew said.

NO POOLS
"They are going to explore several channels, including private ones," the Rev. Mr. Abraham added.

Mayhew said the governor had called him at home to express his concern. Briscoe recently inaugurated a hotline for runaways to use in contacting their parents indirectly.

Waters and Mayhew said the Heights had no swimming pools, and the two neighborhood parks had no recreational equipment. The community center provides movies, pool tables, refreshments, music and assistance with such problems as finding work.

ROCK OR NOT TO ROCK

C-City Calls Town Meet Over Proposed Festival

COLORADO CITY — To have a rock festival or not to have a rock festival. That is the question, and not exactly the one Shakespeare raised.

This city hopes to resolve the issue in a Townhall type meeting Saturday at 10 a.m. at the City National Bank.

Members of the industrial team, the chamber board, the city council and the county commissioners court are expected to be on hand as well as any others interested in the outcome of the decision.

The music festival, which some estimate would attract "as many as 300,000 persons to Mitchell County was proposed Oct. 20 to Mitchell County leaders.

DATE SUGGESTED

Date set for the proposed event is April 19-20, 1974. Sam Geisenberger, Houston, vice president of a Houston contracting firm and son of Mrs. Louise Geisenberger of Colorado City, revealed his plans to hold the festival next spring on the Geisenberger Ranch south of Colorado City.

According to state law, county commissioners in the county where such a music festival is planned must approve a permit before a festival of such gigantic proportions can be held.

Geisenberger indicated that an investment of some \$1 million would be necessary before the gates could be opened on such an event. He said it was necessary to have support of the com-

Legislative Reform Noted

Rep. Charles Fennell, Holliday, touched on some of the reforms of the 63rd Legislature and on some of the challenges of that body, sitting as a constitutional convention, next January. He spoke Wednesday noon to the Downtown Lions Club.

He credited Speaker Price Daniel with "dismantling" what he felt had become arbitrary power of the speakership. Rep. Fennell said he, too, favored the one-term principle for speakers, whom he said should be presiding officers, not all-powerful rulers of the house.

The greatest single procedural reform enacted by the Legislature, he ventured, was a bill (which he helped author) which required anyone introducing a bill to also attach to it a certified estimate of how much it will cost over a 10-year period.

Th 63rd Legislature, he noted, was the first since 1948 which was able to adourn without having passed a bill imposing additional taxes.

When the legislature convenes as a constitutional convention, he said he would push for retention of the pay-as-you go principle, the right-to-work clause, and the protection of public employe retirement systems.

"These retirement funds are in trusts and must not be to the mercy or whims of the legislature every two years," he said. Rep. Fennell was introduced by Aubrey Bryans.

He had been guest at an industrial appreciation banquet in Plainview and went from here to Sweetwater, and then to Baird for a Lions Club pancake supper affair.

'H' Charges Hit Two Men

OKLAHOMA CITY (AP) — Federal charges of conspiracy to distribute heroin were filed here against two young men.

State and federal officers arrested the two along with another man and two young women near Wynemwood Monday night in what was described as one of the state's largest heroin cases of the year.

The charges name James McCowen, 25, of Sherman, Tex., and Alan Rice, 21, of Ardmore, Okla.

U.S. Magistrate Charles R. Jones, before whom the two appeared, set bond for McCowen at \$35,000 and for Rice at \$25,000.

Oklahoma officers said the arrests were made as an undercover agent purchased one ounce of heroin from a parked car beside Interstate 35 near Wynemwood. They said a pound of heroin, valued at more than \$50,000, was confiscated.

The other three prisoners had not been charged.

Inland Press Hires Boykin

CHICAGO (AP) — The Inland Daily Press Association announced Tuesday night that William G. Boykin of Austin, Tex., will become its general manager next spring.

Boykin now is executive director of the Texas Press Association and formerly held similar posts with the Florida Press Association and the All-Florida Newspapers of Seattle. He also was assistant manager of the Oklahoma Press Association.

Boykin will succeed William F. Canfield, who will complete 37 years with Inland April 30. He has been manager since 1945.

The selection of Boykin was announced by Edward Lehman of the Longmont (Colo.) Times-Call, president of the regional association with 499 member newspapers in 25 states, Canada and Bermuda.

Inland's offices are in Chicago.

Blame Oysters For Hepatitis

HOUSTON (AP) — As many as 1,000 local and out-of-town persons may have eaten oysters here which are causing an epidemic of hepatitis, health officials here said.

Late Wednesday the epidemic count had reached 110 victims in Houston, an outbreak the U.S. Center for Disease Control in Atlanta calls major. There have been no reported deaths.

The contaminated oysters came from Louisiana and state health officials said two Texas boats may have slipped into East Louisiana waters that are posted as polluted to harvest oysters illegally for sale to a Louisiana plant.

The oysters were sold here to a single distributor and sent to some 18 area restaurants.

"Chances are that no case can be made unless we can find a witness, since the oysters were all sold over a month ago and the evidence has been eaten," said James Anderson of the U.S. Food and Drug

Administration in Dallas.

HUNT POACHERS

Fishermen on the Texas coast were reported working with authorities to find the poachers.

"There is no way of knowing how many visitors to Houston may have contracted hepatitis," said Dr. Robert MacLean, director of the communicable disease office of the Houston Health Department.

"The problem is that Houston is a visitor city," he said. Thousands of people arrived in Houston the last weeks of September for conventions and for the Billy Jean King-Bobby Riggs tennis match.

The oysters were shipped in two lots to Houston on Sept. 18 and 21. Because of the long incubation period of the disease, the hepatitis cases began appearing this week, MacLean said.

A third shipment of 79 bushels from the same lot was sent to Georgia and Alabama and hepatitis has reportedly broken

out in Calhoun, Ga., federal officials said. WEAK LINKS A spokesman for the Houston distributor of raw oysters, The Dutchman's Seafoods, said seafood companies are easy prey for illegal harvesters. "State game wardens patrol the polluted areas, watching for fishing boats. The plants that receive the oysters are inspected regularly, and the distributors are, too."

Finnell Blasts Chemical Delays

AUSTIN — Rep. Charles Finnell of Holliday claims state government should take the lead away from the federal government in many aspects of agricultural problems.

Finnell, a member of the Texas House Committee on Agriculture and Livestock, is chairman of a subcommittee looking into agricultural equipment and supply shortages and into the use and regulation of herbicides and pesticides. The Holliday lawmaker, who is an unannounced candidate for state senator, criticized the federal Environmental Protection Agency for holding up decisions on new agricultural chemicals for as much as 10 years in some cases — 10 of the 17 years for which chemical manufacturers are protected by patent rights.

Texans Move To Implement Energy Plan

By The Associated Press
President Nixon's call for conserving energy drew ready endorsements and some quick steps to put it into force from Texans today.

In a nationwide speech, the President appealed Wednesday night for such measures as lowered speed limits for government vehicles, reduced central heating levels in homes and elsewhere and smaller fuel allocations.

'IT'S GOT TO WORK'
Gov. Dolph Briscoe, in a statement issued by an aide, mentioned a briefing with Nixon on the national crisis earlier in the day in Washington and

appraised the President's ideas as "basically a good program, very much needed." Voicing a hope that other states will cooperate, the governor said, "It's got to work."

Local officials and industry leaders were among those promising to back the Nixon proposals.

City commissioners at Harlingen and San Benito, in the Lower Rio Grande Valley, were among the first to move toward implementing the program. They decided to dispense with Christmas lights on downtown streets.

And in Corpus Christi, City Manager Marvin Townsend said a memorandum already had been sent to municipal department heads directing them to seek more efficient ways of using fuel, power and people.

SILENCE

Briscoe said he would wait until the return of James Rose, his energy conservation specialist who was still in Washington, before calling for any meetings to begin detailed work on Texas' response to Nixon's appeal.

Briscoe was quoted as very pleased to see Nixon recommend a "Manhattan project" for development of non-petroleum energy sources such as coal.

"We were the first ones to call for that at (Lake) Tahoe (during a national governors' conference)," the governor said. "We had gotten nothing but silence and are very pleased the administration called for that now."

Railroad Commissioner Jim Langdon, who also attended the Washington briefing, was quoted as responding to a notion there that Texans had plenty of surplus oil to meet the energy crisis.

SPIGOT IN SKY?

"They seemed to have the idea that we can increase production," the Briscoe aide said. "Both the governor and Langdon said there was no great spigot in the sky down here. We are running at full capacity now."

He said it will be the first of next week before the governor's office begins to consider ways of approaching Nixon's recommendations.

"While expressing doubt that Briscoe holds authority to limit speed on highways, which Nixon wants to reduce to 50 m.p.h., he nevertheless said he was sure "We are going to do everything we can with state vehicles."

M. A. Wright, chairman of Exxon Co. U.S.A., said in Houston, "We support the President's call for sharp curtailment in energy use as soon as possible. Unless the nation begins immediately to reduce its consumption of energy substantially, shortages that go beyond the inconvenience level can easily result this winter."

President W. T. Barnhouse of Southern Union Gas Co., a natural gas retailer, said at El Paso that his company is going to turn its office thermostats down a few degrees and recommend that its customers follow suit. He voiced a belief that most Americans heat their homes more than is necessary.

STRONGER STEPS

R. I. Galland, president of American Petrofina, Inc., said in Dallas he hoped that members of Congress now would "adopt their part of the program for the long term increase of supply, a program President Nixon has been urging since last April."

Suggesting that stronger steps than a request for voluntary cooperation would be necessary, Galland said, "I think we will be into contingency plans before the winter is over."

Speaking for El Paso Natural Gas Co., John McFall said the steps advocated by Nixon "are things we have to do." He observed that wholesalers could sell two to three times as much gas if they could find adequate supplies, and added that natural gas has been underpriced since 1954 when the federal government began regulating interstate wellhead prices.

SPEED LID

In Houston, retiring Mayor Louie Welch said city vehicles, except for police and ambulances, now travel under 50 m.p.h. and governors hold most of them down to 50 as the maximum speed.

Asked whether he would consider lower heat settings on the thermostats in city buildings as recommended by Nixon, Welch said, "My term expires in January. I'll let the next fellow worry about it."

"Our Big Little Recipe Contest is coming!"
"Watch for our ad!"

Vickie Babcock's Applesauce Raisin Bread

1 1/2 cups flour
1 tsp. baking soda
1 tsp. baking powder
1 tsp. salt
1 tsp. cinnamon
1/2 tsp. nutmeg
1 cup Quick Oats

1/2 cup firmly packed brown sugar
2 eggs
1/3 cup salad oil
1 cup applesauce
1 cup raisins

Combine dry ingredients. Add eggs, salad oil, and applesauce and stir 'til well combined. Stir in raisins and fill greased 9x5x3 loaf pan. Bake at 350°F one hour. (note: a cracked top is normal) This recipe is from Vickie Babcock of Cedar Rapids, Iowa. She bakes with 3 Minute Brand Oats because "It adds a lot of food value for the money."

ONE FOR FOOD, TWO FOR WATER AND THREE FOR BED — This 9-week-old miniature Dacshund sits in a food dish that she turned into her bed in a Dallas pet shop. The store had to supply an additional bowl as the puppy began sleeping in her food dish. Of course she wouldn't sleep while all the action of picture taking was going on.

Questions, Answers On Energy

WASHINGTON (AP) — Here are questions and answers on the scope and impact of the "energy emergency" program announced Wednesday night by President Nixon:

Q. Will homes and offices be colder this winter because of energy shortages?

A. The President asks that home thermostats be reduced by six degrees so the average daytime temperature will be 78 degrees. Operators of offices, factories and stores are asked to cut their heating needs by 10 per cent through lowering thermostats or adopting shorter working hours.

Home owners and businesses that heat with electricity or natural gas are expected to make the same sacrifices as those using oil and the federal government will set an example by lowering thermostats in its buildings to 65 to 68 degrees in daytime.

RATIONING

Q. Will there be rationing of gasoline and home heating oil?

A. The federal government is developing a gasoline rationing plan that will be put into use if needed, and a proposed plan to ration heating oil will be announced in about four weeks.

Q. Will there be restrictions on the use of automobiles?

A. The President has suggested that states lower maximum speed limits to 50 miles per hour and asked Congress for emergency authority to cut speed limits through federal action. He also suggested parking taxes be raised, vehicles with but a single occupant be barred from designated sections of each city and preferential parking be provided for participants in car pools. All federally owned vehicles will observe a 50 mile-an-hour speed limit.

Q. Is thought being given to adopting year-around Daylight Saving Time?

A. Nixon asked Congress to authorize adoption of Daylight Savings Time throughout the year, saying it could reduce electricity and heating demands by as much as three per cent.

'CONTROL FEES'

Q. Will there be curbs on use of energy for lighting?

A. Nixon seeks congressional authority to order a curtailment of outdoor electrical advertising and ornamental lighting, including gas lamps to be found in front of many homes. He also wants power to limit store hours, which would save on both heat and light. None of his proposals would affect use of lighting in the home.

Q. Will any of the administration's proposals result in higher taxes?

A. Nixon said the government is considering imposing "control fees" or surcharges to discourage excessive use of natural gas and electricity and asked Congress for authority to levy them.

BEFORE THE COMMITTEE — Former lobbyist Robert Winter-Berger, who has made a series of allegations against Gerald Ford, leaves the Capitol Wednesday night after testifying before the Senate Rules Committee. The committee is hearing Ford's qualifications to become Vice President. Committee Chairman Sen. Howard Cannon, D-Nev., said there are indications perjury was committed by Winter-Berger during his testimony before the committee.

Reject Testimony Of Ex-Lobbyist

WASHINGTON (AP) — The Senate Rules Committee has rejected the testimony of a former lobbyist who claims to have paid cash to Vice President-designate Gerald R. Ford in exchange for "an ear at court."

But the former lobbyist, Robert N. Winter-Berger, said he stands by his story, even though conceding that his original version was wrong.

"We did not consider him to be a credible witness," Rules Committee Chairman Howard W. Cannon, D-Nev., said Wednesday after the panel spent a full day with Winter-Berger behind closed doors.

Cannon said the committee will review the transcript of Wednesday's session before determining whether to ask the Justice Department for a perjury investigation of the former lobbyist.

Cannon said Winter-Berger's allegations had been the only negative testimony against Ford. The committee is considering Ford's nomination to succeed Spiro T. Agnew, who resigned.

The chairman said it is conceivable that the committee will vote by late next week on referring the Ford nomination

to the full Senate. Only one more day of public hearings on Ford is expected in the Rules Committee; the House Judiciary Committee plans to open hearings on the nomination next week.

By a unanimous vote, the Rules Committee agreed to make public next week the transcript of Winter-Berger's testimony, and decided against having the former lobbyist testify in public.

Cannon said Winter-Berger's oral testimony contradicted his sworn affidavit on several points, including the allegation that the former lobbyist gave Ford, the House Republican leader, \$15,000 in cash in the late 1960s.

In addition, Cannon said, Winter-Berger's tax records made clear that the \$15,000 could not have come from his own account.

Rooms Should "Say Something"

When you go to pick out furniture, you should keep in mind that to achieve really effective decorating, your rooms should have an atmosphere, a mood, a personality, a character.

Rooms can be dramatic, or romantic, or nostalgic, or cheerful, or comfortable looking, or whatever you want them to say — if you select the right furnishings.

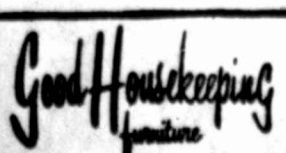

And, you can create different feelings in different parts of your home. For instance, your living room could have one kind of feeling, while the family room could have another, the bedroom another, etc.

In this way you can have distinctive decorating, bringing not only new beauty to your home, but the feeling of comfort or happiness or whatever it is you want in particular rooms.

How do you really go about achieving this?

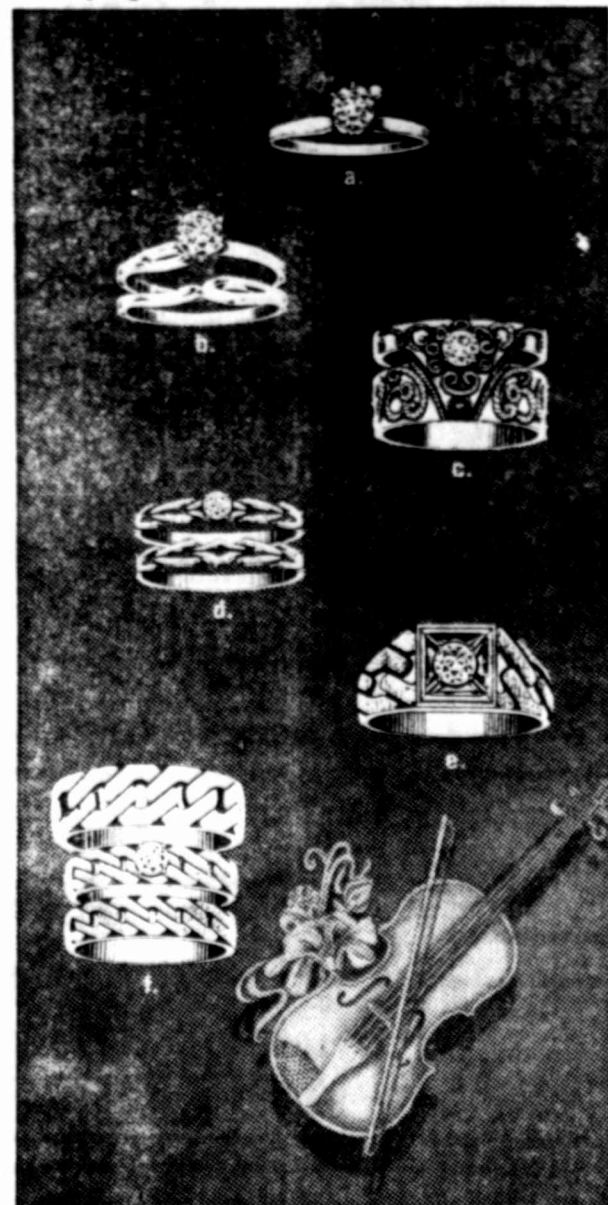

Well, after finding the kinds of atmosphere or personality you want various rooms to have, we can suggest certain types of furniture and specific pieces that will help you accomplish that goal. Then, there are other considerations such as the scale of furniture, the textures, the use or non-use of patterns, the over-all color contrasts and the accessories that will be used to complement and point up your decorations. With it all, you can have a home that has the character you want, and we are here to help you create it.
