\$30,000 VOTED Funds OKed For City's Campaign

By ANN STEVENS

After an hour of discussion and debate this morning, the City Council allocated \$30,000 in revenue sharing funds to finance the Clean Up Shape Up beautification campaign for a year.

The \$30,000 came in addition to \$10,000 allocated earlier this fall to get the project on its feet.

While originally expected to request \$75,000 for the project, campaign co-chairman Jack Watkins asked for a total of \$40,000 for the year.

In requesting the funds, Watkins asked that the number of employees to be hired in the project to maintain conditions in the city's alleys be cut from the original 12 to six, lowering the cost of labor in the drive to \$28,800.

'CITIZENS THEMSELVES'

Debate on funding of the program which Watkins called the city's number one priority need began when Councilman Harold Hall said, "It looks like we're getting into the alley care business perpetually."

Hall said most of the citizens probably do not care about conditions of the alleys and that any move to beautify the city must come from the citizens themselves and not from the city government.

"To do this (alley cleanup) on a day to day basis would eventually break our backs and aggravate the situation," he commented, arguing that some citizens will stop cleaning their alleys if they think the city will do it for them.

His motion to table the matter for two weeks failed on a 3-2 vote with Hall and Charles Tompkins voting for.

Councilman Eddie Aciri's motion to outlay an additional \$30,000 to fund the drive for a year then passed.

WARNING LETTER

Watkins told the council that the cleanup committee has prepared a warning letter which can be sent to property owners found to be in violation of the city ordinances against weedy lots, junk cars, etc. which are tied in with the Clean Up Shape Up drive.

The letter calls for voluntary cooperation with the cleanup drive and with the various ordinances.

Concerning the planned alcoholic detoxification unit, the council moved to proceed immediately with its establishment at the present site of Firehouse Six.

In doing so, the council voted to begin proceedings to regain control of the Firehouse Six building which City Manager Harry Nagel said is too large for the drug center's use.

DAMAGE CITED

The action came after Nagel presented to the Council a letter from Firehouse Six stating a willingness to relinquish the building if the city will locate another one for the center

(See FUNDS, Pg. 2-A, Col. 7)

Flights Cut, Lay Off 950

WASHINGTON (AP) — United Air Lines announced today it is eliminating more than 100 flights in January and laying off at least 950 employees immediately because of the fuel shortage.

The cutbacks will put United about 5.5 per cent below its 1972 fuel usage level, United President Edward E. Carlson said. But, he said, the cutbacks are not enough to meet the new fuel allocation levels announced by President Nixon Sunday night.

FUEL USAGE

Under the program announced by Nixon, all airlines must cut back their fuel usage by 15 per cent.

Carlson said United had not yet decided what flights would be eliminated. He said the figure of 100 flights was arrived at by determining how much aircraft flying time would have to be eliminated in order to get below 1972 fuel levels.

FLIGHTS

On Nov. 1, United cancelled 29 flights through agreements

with Trans World Airlines and American Airlines although it reinstated 10 of those flights after TWA went on strike. United has announced plans to cancel 20 other flights in December and January through agreements with TWA, Western Airlines and Frontier Airlines.

The cuts announced today were made unilaterally and will go into effect Jan. 7. They do not have to be approved by the Civil Aeronautics Board.

Carlson said United had informed all employees that it was furloughing 300 pilots and 650 flight attendants immediately. He said manpower levels also would be adjusted in other employment areas but had no figure on what jobs would be cut in those areas.

WORK HARD

Although agreeing further flight cutbacks would be needed, Carlson said he would work hard to keep from laying off any more employees.

He said United may cut back on the amount of time employees can work, thus reducing their wages, rather than fur-

lough other employees.

Carlson said United had estimated a profit this year of \$45 million but said the energy crisis could wipe out part of those earnings.

He said United estimated it would pay about 25 per cent more for fuel in 1974 than this year. United will pay \$220 million for fuel this year, he said.

ZERO GROWTH

In addition, Carlson said, cutbacks in pleasure travel could adversely affect the airlines profit picture. He said United had predicted a four per cent growth in its traffic but said "we're looking at zero growth now."

The nation's airlines were granted a five per cent fare increase last week by the Civil Aeronautics Board but Carlson said another increase could be needed if fuel prices continue to rise.

He said United had held informal discussions with the CAB over the possibility of the agency's granting authority for the airlines to pass on fuel price increases to passengers.

IN THE NECK OF TIME — This bird is getting too nose with three-year-old Johnny Ennis and may be sticking his neck out in the affair at a lake on South Haven, N.Y., wildlife sanctuary in Long Island's Suffolk County. The lake is a stopover for wild ducks, geese and swans heading south from Canada for the winter. The youngster is from nearby Manerville, N.Y.

Rose Mary Thinks She Pushed Wrong Button

WASHINGTON (AP) — Spectators in a packed, hushed federal courtroom heard today the first public playing of part of one of the subpoenaed White House Watergate tapes.

But they heard very little they could understand.

Played in court was a copy of the tape of June 20, 1972 meetings involving President Nixon and John D. Ehrlichman and H. R. Haldeman.

After 20 minutes of mostly inaudible conversation, first between the President and Ehrlichman and then between the President and Haldeman, the transmission was interrupted by a clear steady buzzing.

U.S. District Judge John J. Sirica let the tape play on for the full 18 minutes during which the buzzing obliterated all other sound.

For the first five minutes of the obliterated section the buzzing was loud and clear, then it changed and became markedly lower in volume and tone.

BELIEVE IT

Rose Mary Woods, the President's personal secretary, has testified she believes she might have caused the gap by pushing the wrong button on a recording machine on which she was listening to the tape last Oct. 1. But Miss Woods has said she

does not believe that she could have caused the full 18-minute interruption.

During the first section of the tape spectators rarely were able to hear more than a few words at a time and also had difficulty determining whether the speaker was the President or one of his aides.

Haldeman was White House chief of staff and Ehrlichman was Nixon's chief domestic adviser.

At one point a voice referred to the 1968 presidential campaign and said, "The press was violently pro-Humphrey," a reference to Sen. Hubert H. Humphrey, the Democratic candidate Nixon defeated that year.

Moments later a voice was heard saying, "The press was in love with Humphrey."

One of the clearest portions was the President's voice saying, "I'd like a little of that consomme today."

That was followed by a lengthy period during which the only sounds appeared to be those of individuals moving about and, at one point, someone whistling.

Throughout the tape there was the sound of a low pulsating buzz, even when people were talking.

After the long gap, when conversation resumed, it appeared to concern delegates to the Democratic National Convention.

WATERGATE COMMITTEE

Through For The Year

WASHINGTON (AP) — Voting to cancel all further public hearings this year, the Senate Watergate committee decided today to broaden its investigation by seeking to subpoena a new list of presidential tape recordings.

The committee also ordered six officials of the Hughes Tool Co. to show cause why they should not be held in contempt for their refusal to appear before the committee in executive session.

HARD PROOF

Chairman Sam J. Ervin Jr., D-N.C., said the committee staff says it needs more time to produce hard proof to support

public hearings on two major controversies: a \$100,000 payment by billionaire Howard Hughes to a close personal friend of President Nixon and large contributions given to the Nixon 1972 campaign by the nation's dairy industry.

The committee voted unanimously to postpone the hearings but Sen. Lowell P. Weicker Jr., R-Conn., was reported to have voted against the staff recommendation that they be postponed indefinitely, "subject to the call of the chair."

Vice chairman Howard H. Baker Jr., R-Tenn., said he does not believe the post-

ponement means the committee's investigation is fizzling out.

"It's my view that it would fizzle out if we kept it in session without good hard proof," Baker said.

But Baker acknowledged that new hard facts may not be forthcoming and "if not, we won't have any hearings."

Baker and Ervin told a news conference the committee has authorized the issuance of subpoenas for all of the Watergate tapes sought by the special Watergate prosecutor and for any others that Ervin and Baker decide are relevant.

Stickup Nets Thug \$337

"This is a stick-up. If you make any noise, I will shoot you," a bandit wearing a stocking over his head told Mrs. Francis Smith at the Westward Ho Motel Monday shortly after 8 p.m.

Mrs. Smith told police that the armed robber, who was between 5 feet 8 inches and 5 feet 10 inches tall and weighed close to 200 pounds, shut her in a closet and told her not to come out.

"He then went into my room and rummaged through drawers and a purse to steal the total of \$337.64.

Mrs. Smith was not sure what type of gun he was carrying.

After everything became quiet, she ventured out of the closet to notify police. The wires on the telephone switchboard had been cut and the robber was nowhere in sight.

Skyjackers Snubbed

DUBAI (AP) — Snubbed by Arab regimes and disowned by Palestinian guerrilla leaders, three young Arab gunmen zigzagged across the Middle East today in a hijacked Dutch jumbo jet.

After releasing 244 passengers and eight stewardesses in Valletta, Malta, the hijackers forced the KLM Boeing 747 to land at the tiny Persian Gulf sheikdom of Dubai.

The plane spent more than two hours on the ground in Dubai, then took off again in the direction of Aden in South Yemen on southwest tip of the Arabian peninsula. The Dubai airport control tower said the hijackers gave no destination.

While the plane was on the ground in Dubai the hijackers talked by radio to Prime Minister Sheikh Maktum Bin Rashid, son of the ruler of Dubai, and Khalifa Nabooda, an assistant to the defense minister of the United Arab Emirates.

"We have our aims and everything is being done for us," said one of the hijackers during the conversations.

He added that they had asked President Makarios of Cyprus to release seven of their comrades imprisoned in Nicosia "and he promised compliance."

Defense Bill Whacked

WASHINGTON (AP) — After slicing \$2.8 billion from Pentagon requests, the House Appropriations Committee Monday approved a \$74.5 billion defense spending bill.

The committee also decided to require minimum intelligence and education quotas for servicemen and urged the military to weed out 6,500 poor performers and disciplinary problems.

Owner Of Dog Which Bit Child Sought

Another youngster has been bitten by a dog here and the mother of the victim needs to find the owner of the animal, a fully grown cocker spaniel which was captured and is now being examined by veterinarians.

The incident occurred in the front yard of Mr. and Mrs. Tommy Young, 1404 Ayilford. The victim was Deeg Young, age 5, their son. He was bitten just below the lower lip and the skin was broken.

The dog wore a collar but no name tag and the Youngs have been told they need to know if the dog has had rabies shots. Otherwise, the victim faces the prospect of having to undergo a series of painful rabies shots.

Mrs. Young can be reached at 7-8252 (First Federal Savings) during working hours or 3-6941 (her home phone).

9-Year-Old Fells Deer Near Mason

While other deer hunters are out tramping around hunting for a buck, young Speight Grimes, 9-year-old son of Lt. Col. and Mrs. Jerry Grimes, Webb AFB, shot an eight-point buck out the kitchen window near Mason last week.

The youth, who is the grandson of Dr. and Mrs. Clyde Thomas, was at the family ranch in Mason with a hunting party. This was the first deer for Speight.

(AP WIREPHOTO)

WAR-TIME ROMANCE? — Kay Summersby, above, a British woman assigned to drive Gen. Dwight D. Eisenhower around London during World War II, is the subject of a letter Eisenhower reportedly wrote to Gen. George Marshall asking if he thought divorcing Mamie Eisenhower to marry Miss Summersby would ruin his war-time career.

'Very Stupid Thing To Do'

WASHINGTON (AP) — A letter that Gen. Dwight D. Eisenhower reportedly wrote years ago to Gen. George C. Marshall seeking advice on a possible divorce from his wife Mamie may still exist, claims a former aide to the late President Harry S. Truman.

GOOD DRIVER?

Retired Army Maj. Gen. Harry Vaughan, who was Truman's top White House military adviser, said that Truman sent the letter to Marshall for Marshall's private files and to keep it out of the hands of Eisenhower's political opponents.

Vaughan denied a published

account that Truman had destroyed both Eisenhower's letter and Marshall's reply.

Eisenhower, who at the time was World War II supreme allied commander, reportedly informed Marshall that he was considering divorcing Mamie to marry Kay Summersby, a British woman assigned to drive him around London during the war.

"Gen. Eisenhower asked Gen. Marshall if he thought a divorce would hurt his military career," said Vaughan Monday in an interview. "Marshall told him it certainly would, and would be a very stupid thing to

do." Marshall at the time was Army chief of staff. He later became secretary of state. According to Vaughan, the Eisenhower Marshall letters wound up in Pentagon files. Marshall died in 1959.

'I SAW THEM'

Vaughan said when Eisenhower was running for the presidency in 1952, rumors of the letters leaked out. He said those supporting Sen. Robert A. Taft, Eisenhower's opponent for the GOP nomination, "wanted to get hold of the letters and have them published."

Vaughan said Truman, who

HC Gun Show Is Nearing

Bargains will be found at every table.

At least that's what rodeo club members are saying about the gun show and related articles that they will be sponsoring Dec. 8-9, from 9 a.m. - 6 p.m. at the Howard County Fair Barns in Big Spring, according to Bryon Hedges, club sponsor.

Dealers and collectors may buy, sell, or trade, and awards will be given for display in all categories.

There will be door prizes said Hedges. Food and concessions will be served in the building. Tables for display are \$8, and those interested should contact Coy McCann 267-6476 or Box 2271 in Big Spring, 79720.

Kuhfuss Urging Drive's Support

William J. Kuhfuss, president of the American Farm Bureau Federation has called for support of the 1973 Christmas Seal Campaign in its drive against lung disease.

In a letter to Dr. Wendell L. Van Loan, president of the association, he said: "I am sure that many rural people in America will support the 1973 Christmas Seal campaign which provides the money to carry out the vital activities of the American Lung Association."

Some 35,000,000 men, women and children throughout the country suffer from various forms of lung disease, he noted.

"That is why the lung association's Christmas Seal campaign is a matter of life and breath."

Stewart Udall Is Speaker At UTPB

Stewart Udall, former U.S. Secretary of the Interior and one of the country's leading conservationists, will speak Dec. 4 at the University of Texas at the Permian Basin.

His appearance is the initial event in the University Lecture-Concert Series at UT Permian Basin, sponsored by the Office of Student Life.

Udall served as Secretary of the Interior during the Kennedy and Johnson administrations.

The lecture is scheduled for 8 p.m. in the Rare Book Room of UT Permian's Learning Resources Center. Tickets, priced at \$1, will be available to the general public at the door.

DUE TO LACK OF MARKINGS Much Stolen Property Goes Unclaimed, Says Sheriff

By JOHN EDWARDS

The variety of stolen goods yet to be claimed emphasizes the need for marking valuable property, said Sheriff A. N. Standard.

Investigation into recent burglaries and thefts resulted in the recovery of numerous stolen goods.

Hand tools, a gun, a television and stereo equipment are among the unclaimed property, Standard said.

Work on cases has reached a "bottle neck" because of lack of property-owner identification, Standard said.

Deputy sheriffs have contacted retail distributors and factories in attempts to find owners.

Valuable electronic equipment like radios and record players should be engraved with the owners' name and address, he said.

Serial numbers of guns should be written down or given to local law enforcement agencies.

Sheriff A. N. Standard said his office has located suspects and taken statements in connection with two more burglaries.

A calculator and large number of assorted hand tools were stolen from the Mobil Oil Camp in the Chalk Community Oct. 1.

Now, the sheriff's office has recovered the calculator and taken a statement.

THEFT AT LAKE

Another suspect gave a statement to the Howard County Sheriff's Office concerning a burglary of a lake cabin in Borden County, Standard said.

Stock Warnings Being Sought

With two incidents of cows hit on Farm Road 821 recently, Sheriff A. N. Standard said he has requested the Texas Highway Department install additional signs warning of livestock.

Part of this highway runs through open range. Because fences do not separate cattle from the road, motorists could be sued in connection with accidents, Standard said.

The house of Raymond Hamby, Big Spring, on Lake J. B. Thomas was cleaned of numerous household and personal goods on Oct. 8, Standard said.

Information uncovered by the

Texas Charged By Government

WASHINGTON — Sam Odom, operator of the Odom Cattle Company of Cross Plains, has been charged with violating payment, financial, accounting and recordkeeping requirements of the Packers and Stockyards Act, the U.S. Department of Agriculture (USDA) said today.

The USDA's Packers and Stockyards Administration filed an administrative complaint charging that Odom, in connection with his livestock business: — Had current liabilities exceeding current assets by more than \$592,000 as of July 31, 1973, had failed in payment on livestock purchases and had consigned livestock for sale at various markets under fictitious names.

USDA Pointed out that filing of the complaint does not prove that Odom has violated the Packers and Stockyards Act. He has a right to a hearing.

MISHAPS

3rd and Birdwell: Shirley Smith, 104 N. 4th, Coahoma, Billy Martin, Midland, 3:57 p.m. Sunday.

Westover and Pennsylvania: Laura Brooks, 2908 Hunters Glen, Edward Cross, 1801 Winston, 4:07 p.m. Sunday.

1801 Gregg: William Horace McMillen, 4116 Bilger, Thomas Edward Brewer, Knott, 12:24 p.m. Saturday.

Dairy Queen on N. 87: Sammie Tarbet, Austin, Rosalio Calderon, 502 NW 5th, 7:11 p.m. Saturday.

Howard County Sheriff's Office is being given to Borden County Sheriff Norman (Slick) Sneed.

Three men recently have been arrested on Howard County felony warrants in other locations.

Arthur Lee Harding, 25 Snyder, was in the custody of the Scurry County Sheriff's Office and due to be returned to Howard County later.

Harding is charged with defrauding with a worthless check.

TO BE EXTRADITED

In Tucson, Ariz., James R. Grant, 31, Big Spring, has declined to waived extradition proceedings. Grant is accused of forging and passing a check in Howard County.

Saturday, Edward Damon Hughes, 53, Llano, was transferred from custody in Llano to the Howard County Sheriff's Office. Accused of defrauding with a worthless check, Hughes was in county jail today in lieu of posting \$5,000 bond set in Llano.

Suit Over Rent Is Filed Here

Mr. and Mrs. J. L. Monday have filed suit for damages in 118th District Court, claiming their landlady had harassed them for already paid rent.

They said they paid J. C. Robinson and showed receipts to their landlady, Roxie Baker, who "continued to vex and harass the plaintiffs."

The plaintiffs alleged that the property owner attempted to have Monday fired from his job. A judgment for \$30,000 plus attorney's fees was requested.

Betty Buckley Has Star Role

Betty Buckley, 26, daughter of the former Betty Bob Diltz, (Mrs. Ernest Buckley) now has the femme lead in the Broadway production of "Pippin."

Mrs. Diltz lived here as a child and now makes her home in Fort Worth. Miss Buckley, who played in the Broadway production, "1776," several years ago, has been married to a year.

Miss Buckley also plays the guitar and is now composing music, one of several young musical performers along Broadway now engaged in this activity.

She broke into semi-pro composing recently with songs for a couple of feminist entertainments at the Manhattan Theater Club and the Westbeth Feminist Collective. None of her work has been recorded, but there's a contract in the offing.

"I'm just learning — when I'm a musician I'll say so," Betty said recently. Miss Buckley has been around show business since she was 11. For several years she starred in Casa Manana roles in Fort Worth.

Only recently has she begun taking music lessons. Her creating thus far has been limited to plucking out chords on a guitar, taping them on a cassette recorder and having someone else do the scoring.

Also featured in the play, "Pippin," is John Rubenstein, 26, son of piano virtuoso Arthur Rubenstein.

Cost Of Living In Houston Up

HOUSTON (AP) — The cost of living in the Houston area jumped by 3.6 per cent between July and October, the biggest cost of living hike since January of 1947, the U.S. Bureau of Labor Statistics said.

Dealing With Fuel Crisis

The President's announcement of measures and proposals to deal with the fuel shortage confirms what has been predicted for months and what has come to be a consensus in recent weeks.

Much of what he proposed in ways of conserving or stretching existing and potentially dwindling supplies will require statutory action, either at congressional or state legislative levels. Yet, the severity of the situation demands that there be a maximum of voluntary compliance in the interim. Even compulsory regulations — if it comes to that — are dependent upon voluntary acceptance of necessity for their effective functioning. In short, everyone will do well to enter into the spirit of the thing, whether this makes sense or not (as it undoubtedly won't in some cases).

The most critical test will be in lowering heating and operating temperatures, for none can enforce this (although in the North and East the dearth of supplies will dictate a lesser temperature). People must be kept from suffering or needless discomfort if possible. Moreover, every gallon of oil or cubic foot of gas saved may mean that much less that can be diverted toward mitigating

or preventing industrial production cutback. If factories have to shut down, that means less jobs, and lost income to families will pose a more serious problem than less heating oil.

A conscious effort to reduce travel, to form car pools, or to walk short distances, will do more to save gasoline than the reduced speed levels, which have so many imponderables that their savings are conjectural, and may be psychological. Most of us make two or three unnecessary trips a day, and if these are cut out, the aggregate savings can be appreciable.

The problem is immediate, and what the President proposed may deal in part with this. Every effort should be made by everyone to make them achieve maximum effect.

What has been enunciated so far does not deal too much with the intermediate situation, namely one of supplies. This matter must be faced with vigor and foresight. Somehow, we need to step up exploration, and historically it has been the independents who have discovered most of our oil and gas. The majors must be induced to take their foot off the neck of the small operator;

they must be forced to stop cornering the steel tubular market and to share their stockpiles of casing and downhole pipe. The wildcatter is faced with an impossible situation when he can't even get a driller to move on site unless and until the pipe is on the ground.

In the long range, as the President outlined, the goal is self sufficiency of energy. This means not only more liquid fuels, but a vastly increased list of alternatives. Here, the commitment to research must be much more than before; also, there must be realistic surgery on bureaucratic tape which impedes the progress toward more atomic plants, and as, indeed, there needs to be with regulations which stipulate devices which require twice as much fuel to cover the same distance. It never was the new cars which caused the pollution problem, but rather the ancient oil burners.

Thus, the problem is a total one. It involves people doing all they can; it must involve government doing all it can — including getting out of the way in many instances.

Close At Hand

Around The Rim

Jo Bright

Three weeks ago, when gasoline rationing seemed imminent, I suggested several short trips for would-be travelers who find themselves with time off — but little petroleum power to take advantage of it.

Seeing Texas first is fine (and preferable) but, when mileage must be considered, we in West Texas can also take advantage of our proximity to New Mexico.

OUR SISTER state has much to offer, combining a rich historical background with year-round recreation facilities. During a quick swing through the southeast last week, I found fascinating people and places at La Mesilla, Las Cruces and Alamogordo, as well as the smaller towns of Tularosa, Carrizozo, Ruidoso, Mesalero, Cloudcroft and Lincoln.

Las Cruces, the largest city of Southern New Mexico, is the seat of Dona Ana County and is just 45 minutes from the Mexican border. One of the most historic cities in New Mexico, it is also the center of a prosperous agricultural area and is the home of New Mexico State University. At an elevation of 3,800 feet, it is surrounded by the picturesque and historic communities of La Mesilla, Tortugas, Dona Ana, Radium Springs, Hatch and Organ.

To the north of Las Cruces are the Caballo Mountains, to the west the foothills of the Goodnight Mountains, to the east the Organ, San Andres and Franklin Mountains. These jagged mountains, reflecting the days of the west gone by, tower over two installations mirroring the days of the future.

The National Aeronautics and Space Administration's "Man to the Moon" Apollo site lies north and east of the city. Just east of NASA are the 4,000 square miles of White Sands Missile Range.

THE MESILLA Valley is especially enchanting at Christmas time when Guadalupe Pueblo (generally known

as Tortugas) honors its patron saint, Our Lady of Guadalupe. Luminaria bonfires along the slopes of Tortugas Mountain announce the coming celebrations on Dec. 10-12 by the Tigua Indians. The rituals, including a pilgrimage up the mountain, have been held by the villagers for generations.

The feast starts on the evening of Dec. 10 when the image of the Virgin is carried, in candlelit procession, to the Casa Del Pueblo, the village ceremonial house. An all-night wake follows, with special dances by Los Danzantes, until 5 a.m. the next morning. At dawn, Dec. 11, everyone joins in the singing of glad tidings to Our Lady, as her image is being carried back to the sanctuary, and preparations begin for the day-long pilgrimage to the shrine at the top of Tortugas Mountain.

As they descend the mountain, the pilgrims' way is lighted by the twinkling flames of small bonfires that announce to the world the nearness of Christmas — and that religious traditions have survived the many changes that progress brings.

ON DEC. 12, activities begin with high mass at 9 a.m., afterwards dancing begins and lasts throughout the day. The Danzantes wear colorful costumes adorned with lace, ribbons and silk scarves, and the Malinches wear white dresses and veils, the symbol of innocence. The dancers carry rattles made of decorated gourds.

At noon a meal is served by the women who have planned and prepared the simple, but delicious, food. At 4 p.m., a procession winds around the Pueblo boundaries and, at 6 p.m., there is a reception at Casa de Comida, followed by a few dances at Casa de Pueblo.

Everything closes then, until the first of the year, at 3 p.m., when in candlelit procession, the image is again carried back to the little chapel where it remains until next year's Feast.

My Answer

BILLY GRAHAM

I recently read a book written by a minister entitled "Man's Right to be Human." I was upset by a statement that read: "Many religious conversions are prompted by an impending or actual mental illness." Have I really been reborn, or is my faith the result of a mental disorder? J.W.

While it is true that some mental illnesses take on a religious aspect, to link the two as cause and effect would be as unfounded as claiming that because a cat likes the warmth of a fire, she could ignite one of her own.

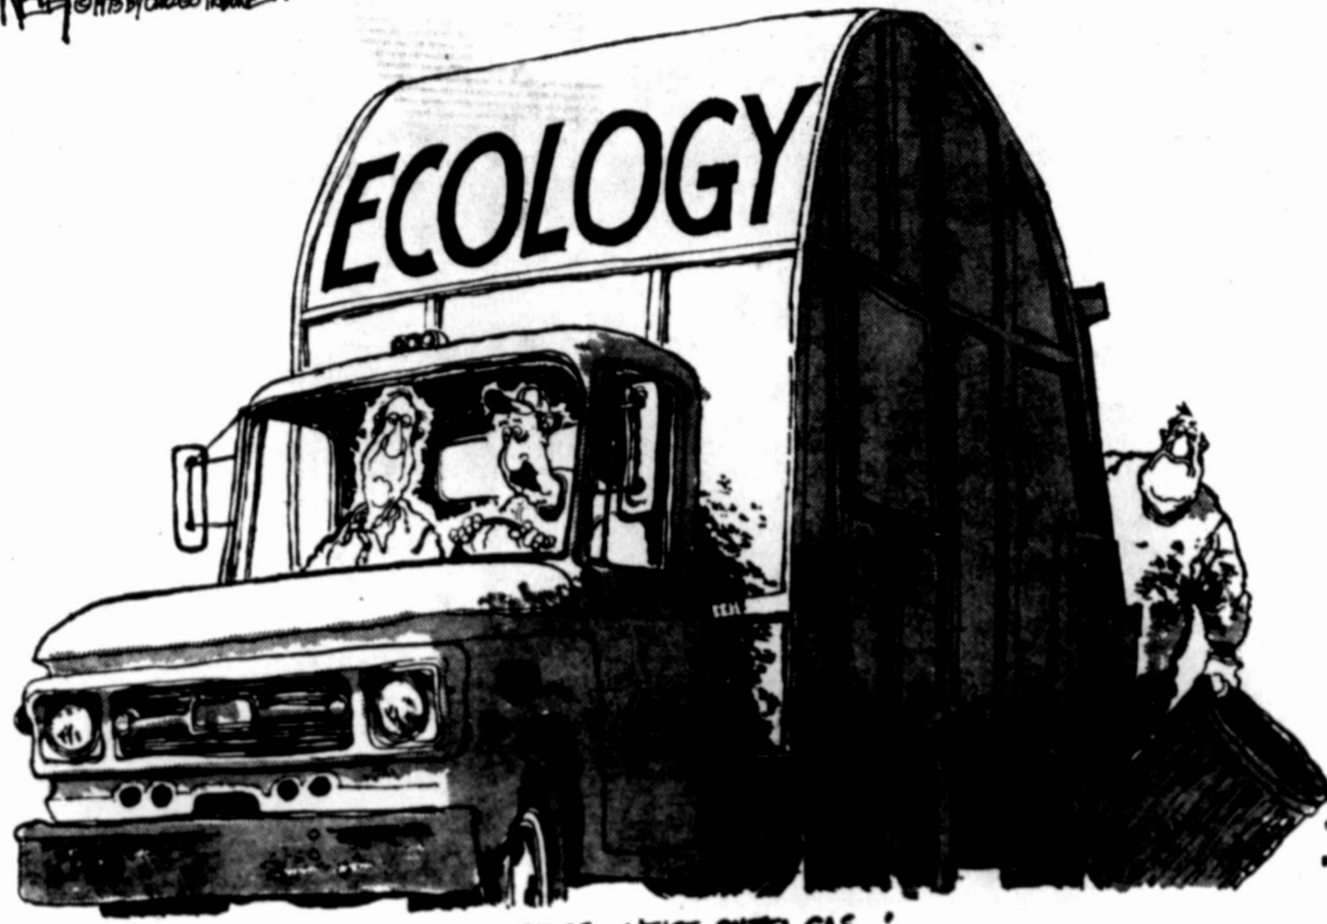

It may well be that some emotional upset sets the stage for a surrender to God. I assure you, however, that the new life of the Spirit is a miracle, not a malady. The Scripture presents Jesus as the physician (Luke 5:31,32) who heals the sick soul.

Christian conversion is a phenomenon which has been well-documented by such eminent psychologists as William James and Carl Jung.

In his study "Varieties of Religious Experience," William James says: "To be converted, to be regenerated, to receive grace, to experience religion, to gain assurance, are so many phrases which denote the process, gradual or sudden, by which a self hitherto divided, and consciously wrong, inferior and unhappy, becomes unified and consciously right, superior and happy, in consequence of its firmer hold on religious realities." (P. 186, par. 1) A key word there is "realities."

I believe so strongly in the power of Christian conversion to change lives for the better, that I have devoted my life to that task. God is careful to assure us that: "His Holy Spirit speaks to us, and tells us that we really are God's children" (Romans 3:16.) No book, psychiatrist, or inner doubt can stand up against that.

MAN'S RIGHT TO BE HUMAN... WRITTEN BY CHICAGO TRIBUNE

Worth Remembering

Hal Boyle

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

One way to save power and cut down on your electricity bills as well is to use low-watt bulbs in areas where bright lighting isn't required. A 100-watt light bulb equals the lighting output of 129 candles.

Is President Lincoln wearing a bow tie on the penny? It looks like he is, doesn't it? Can you name the only bird known to hibernate? It is the poorwill, a southwestern cousin of the whippoorwill.

Fog is made up of an infinite lot of little things that sometimes add up to an infinite lot of trouble for motorists, ships and airplanes. The droplets in fog are so tiny that it takes seven billion to fill a teaspoon. The more fog droplets there are in a given volume of air, the lower is the visibility.

Men complain today that women ape them in many

things, but when it comes to the use of cosmetics, men seem to be aping women. Remember when a man ordinarily used only a soap and perhaps a dash of bay rum or witch hazel after shaving? Well, a current 1973 trade catalogue lists more than 220 brands of men's colognes, after-shave tonics, facial cleansers, skin conditioners and eye-s-wrinkle creams.

His choice of scents includes: "a lasting blend of citrus," "musk and spices," "mossy," and "exotic woody." Quotable notables: "A fly may sting a stately horse and make him wince, but one is but an insect, and the other is a horse still."

The busy kidney: Considering their size, your kidneys are a far more complex filtering unit than those that serve a metropolitan city. Shaped like a lima bean and weighing only half a pound apiece, each kidney contains about 70 miles of tubing

and several million minuscule filtering units. The body's entire blood supply is washed by the kidneys 25 times a day, and, in case injury or disease strikes one kidney, the other can usually do the work of both.

Sign at the Onondaga Cave in Missouri: "Geology Spoken Here."

Worth remembering: "Ever notice how much more abuse a woman can take from a poor husband than a rich one?"

Old folk remedies: To cure hiccups, spit on the forefinger of the right hand, and then make the sign of the cross with it over the left shoe three times, while repeating the Lord's Prayer backwards. To get rid of a stye, rub the inflamed eye with a gold wedding ring.

It was Oscar Wilde who observed, "A gentleman is one who never hurts anyone's feelings unintentionally."

Won't Wear Out Faster

Dr. G. C. Thosteson

Dear Dr. Thosteson: I am a 35-year-old male and the doctors say I have a fast heart. I have checked it many times at rest and it beats slightly over 80 beats a minute.

The doctors will not confirm my suspicion, but won't a heart wear out faster at the faster rate? If so what difference

would it make on a life span or am I more susceptible to heart trouble? — R.W.

Why should your heart "wear out faster"? Do your legs "wear out faster" if you happen to walk briskly?

The heart beat can speed up a bit because of anxiety, as when you are having it checked,

and the rate is likely to be faster, for the same reason, when you check it yourself. And you are, as your letter so clearly indicates, a man who is inclined to be overanxious about his health.

Even at the rate of about 80-plus, I doubt that you have anything to be concerned about. If the somewhat rapid rate were due to some such condition as an overactive thyroid or other organic disease, then the underlying condition should be treated, but that's another matter.

Dear Dr. Thosteson: Mrs. M.K. complained of hurting and bloodshot eyes. She mentioned that she wears contact lenses.

If the discomfort began suddenly and for no apparent reason, ask her to check the type of contact solution she is using. — Mrs. C.G.

An observant suggestion on your part and I thank you. Perhaps Mrs. M.K. will, too.

Much heart trouble is preventable. Write to Dr. Thosteson in care of the Big Spring Herald for a copy of his booklet, "How To Take Care of Your Heart," enclosing a long, self-addressed (use zip code), stamped envelope and 25 cents in coin to cover cost of printing and handling.

Blasts Sirica

William F. Buckley Jr.

Now that Judge Sirica has handed down his final sentences on the Watergate Seven, it is appropriate to remark the singular cruelty of this judge. It is curious that our culture asks us to dull or minds to the deficiencies of individual justices. Yet one must suppose that no one resents this categorical synecdochism more than the judges themselves, who must be particularly appalled at the slovenly work of some of their delinquent brothers.

DOCTORS RESENT quacks more bitterly than other men do, and for the same reason that judges who struggle to be fair and patient and even-handed must resent the unfair, impatient, and volatile behavior of those few members of their fraternity who nevertheless dispose of the great powers and prestige of the judiciary. Thus even President Nixon was constrained, in referring to Judge Sirica in one of the Watergate broadcasts, to compliment the judge. No doubt the Vatican at one point in history felt constrained to compliment Torquemada. But we are not all bound by ritual.

DURING THE WATERGATE trial, Judge Sirica snapped, "I couldn't care less about what happens to this case on appeal..." "I couldn't care less what the Court of Appeals does, if this case ever gets up there."

Obviously he doesn't care. On Nov. 17, one more time, the Court of Appeals reversed a ruling of Judge Sirica, commenting that he had "exceeded his discretion," which is rather like issuing a bulletin to the effect that Leo Durocher had exceeded his knowledge of English.

A COURT-WATCHER was quoted by the Washington Post as noting that Sirica's rate of reversal in the appeals court "is among the highest of the District Court judges." His recent lionization is purely ideological, and has brought reproof from such as the ACLU's Joseph L. Rauh Jr.,

who said "it seems ironic that those most opposed to Mr. Nixon's lifetime espousal of ends justifying means should now make a hero of a judge who practices this formula to the detriment of a fair trial for the Watergate Seven."

That to be sure is the view of a liberal doctrinaire. The "Washingtonian," a magazine of similar leaning, recently listed judges who should be removed from the bench, and prominently included Judge Sirica. But the analysis stressed that the case against Sirica is hardly philosophical. Rather, it is based on "Sirica's careless legal errors, his short temper, his inattentiveness to court proceedings, his misguided view of the purpose of judicial power, his lack of compassion for his fellow human beings, and, strange as it now seems, his lack of interest in the truth."

IN THE WATERGATE case, the magazine claimed that Sirica "badgered, accused, and castigated witnesses, prosecutors, and defense lawyers. He read transcripts of confidential bench conferences to the jury. He used the threat of lengthy sentences to force defendants into abandoning their constitutional rights. He turned the trial into an inquisition, and justice into a charade."

When that kind of thing was done in Chicago, by Judge Hoffman, at the (temporary) expense of the Seven Gentlemen of the Left, the outcry was all but universal. Not now, Sirica gets thanked by Liah Heep himself.

SO NOW THE judge has turned the key tighter on the Watergate jailhouse. His most conspicuous victim, my friend Howard Hunt, is to be put away for two and a half to eight years. Never mind that his family of four children is left utterly adrift, that his wife was killed, that he did a lifetime's honorable service for the United States Government, that he never before was guilty of double parking.

The Fuel Brass

Rowland Evans

WASHINGTON — The federal agency exerting life-or-death power over the American economy through allocation of scarce gas and oil is being run by a crusty three-star admiral who privately vows the program will work "the military way" no matter what the public wants.

VICE ADM. Eli T. Reich, 60, last month quietly retired from the Navy (ending 38 years' service), left his Pentagon job as Deputy Assistant Secretary of Defense for logistics and the next day came downtown to take over the new Office of Petroleum Allocation in the Interior Department. Since then, Reich (pronounced "rich") has brought in more than 15 retired or active duty military officers (colonels and above). A Prussian complexion for what is now the government's most important people program seems dubious.

DOUBTS WERE fueled by Adm. Reich's first days on the job. Gathering Interior Department staffers about him, Reich declared: "I don't give a damn for the public image. We're not here to create an image. We're to do a job — my way. And that's the military way." Reich then launched into what civilians at the Interior Department describe as a series of "old sea stories."

Interior Department civilians were suddenly in Coventry, cut off from what was happening. Simultaneously, the brass migration began. Navy Capt. Robert C. (Bing) Gillette became acting executive director, Air Force Lt. Col. R. D. (Deek) Hensley is Reich's administrative assistant, retired Air Force Maj. Gen. James Curtin was named director of operations.

RETIRED OFFICERS will be in charge of regional offices in Atlanta, Dallas and Denver. Col. James Scanlan was put in charge of personnel with a Navy captain as his deputy. A retired major general was scheduled to become permanent executive director but bowed out because of poor health. Four officers, active and retired, were assigned to the Office of Planning and Policy. Nor has the underground railway from the Pentagon yet run its course.

The reason for the topside military invasion is given as dire necessity. The allocation office was struggling along with some 200 nondescript bureaucrats detailed from the other program, utterly irrelevant to the energy program. With the crisis at hand, following months of White House procrastination, the office was incapable of doing the job. So, presidential counselor Melvin R. Laird suggested that Reich, take over.

Arab Hijackers

Art Buchwald

WASHINGTON — "This is your pilot speaking. I wish to announce that the Arabs have just hijacked the world. The next voice you hear will be that of one of the hijackers."

"THIS IS FAISAL. I have a gun pointed at the head of the pilot and all of you will do exactly as I say. First, there is an Israeli passenger on board, and I want someone to throw him out the door."

"We can't do that," an American passenger cried. "That's blackmail!" "Alors! Why can't we do it?" a French passenger asked. "If we don't, we'll all go down in flames." "It's giving in to terrorism," the American replied.

FAISAL'S VOICE came over the loudspeaker. "I have just received word that a Dutch passenger was seen talking to the Israeli passenger. I want the Dutchman thrown out of the plane as well."

"I say," a British passenger said, "that's rather a drastic measure. But

then again one must think of oneself. I guess we have no choice."

THE WEST German passenger chimed in. "Ve haf to do vat he asks or ve'll all be dead. Who is going to miss vun Israeli and vun Dutchman?"

"But if we dump the Israeli and the Dutchman, Faisal may insist on our dumping someone else," the American said. "Our only chance is to stick together. If he kills all of us he will have to kill himself."

An inscrutable Japanese passenger bowed. "If it were just myself, I would spare the Israeli and the Dutchman, but I must think of all transistor radios I have on board."

THE ISRAELI AND Dutchman refused to budge from their seats. "Zut. If you cared anything about your fellow men," the French passenger said to them "you would jump out the door and spare the rest of us."

Trial Of Lonnell Banks Is Ended Unexpectedly

About 15 minutes after testimony began in a heroin sale jury trial Monday afternoon, the 118th District Court case came to an abrupt end.

Jurors had been selected, and D. Bruce Kiser, a San Angelo policeman working as an undercover agent in Big Spring, had identified himself.

District Attorney Bob Moore asked the witness if Kiser had known Lonnell Banks previous to April 17, the date Banks is accused of selling heroin.

"I had bought heroin off him supposedly before," Kiser said, stunning the court.

Wayne Basden, attorney for Banks, made a motion and District Judge R. W. Caton granted a mistrial.

With some exceptions, Caton said later, "You cannot put in extraneous or unrelated offenses. If you do, the case would be reversed."

Banks, 34, 505 NW 4th St., was returned to county jail, and the jury dismissed.

Banks still may be tried on this indictment for sale of heroin. But another jury is not scheduled for two weeks.

Common Cause Meeting Friday

Common Cause, the independent political group seeking reforms, primarily in congressional and election procedures, will meet Friday 7:30 p.m. in the First National Bank Building, 303 West Wall, in Midland. All interested persons, as well as members, are invited.

Borden Well Is Completed

A Pennsylvania outpost, Myra B. Robinson of Big Spring No. 1-C Zant, has been completed northwest of Vealmoor, just over in Borden County.

Testing was due to begin today or Wednesday on Fowler No. 1 Morgan, north edge seeking to extend Fusselman production southeast of Big Spring.

Myra B. Robinson No. 1 Barber, south of Westbrook in Mitchell County was bottomed at 3,700 prior to testing.

Robison No. 1-C Zant, 467 from the north and 2,173 from the west lines of section 23-33-3n, T&P, a mile and a half north and west (but separated by an 8,310-foot failure) of the Oceanic (Pennsylvanian) field, completed for 16.25 barrels of 37.3 gravity oil, and a gas-oil ratio of 1.331-1. Production was from 8,387-92, treated with 10,000 gallons of acid.

Southeast of Big Spring Fowler No. 1 Morgan had run casing, perforated and was awaiting storage before trying for production tests. To the east of Fowler No. 1 Morgan Ranch, original Fusselman producer, Fowler No. 1 Flanagan was well below 8,310.

LUCKY HOME AWAY FROM HOME — Ray Etheridge of Irving, Texas, won the 100 silver dollars given away weekly by local merchants during the Christmas season. He registered for the contest at his "home away from home," the Settles Hotel. He is presented his prize here by W. J. Lyons, manager of the Settles Hotel and Coffee Shop.

Farmers Getting \$100-116 For Seed

Cotton sample receipts continued moderate at the Pecos Classing Office last week. The USDA's Agricultural Marketing Service office classed 4,635 for the week ending Nov. 23, bringing the season's total to 24,037. This compares with 4,331 the week before and 36,124 for this same period last year, according to Max Medcalf, in charge.

predominant with 51 per cent of the samples classed and Grade 41 accounted for 28 per cent. Staple 34 was predominant with 53 per cent of the classings, while staples 30 through 33 accounted for 28 per cent and staples 35 through 38 for 19 per cent.

Mike readings were in the 3.5-4.9 range on 84 per cent of the samples. Breaking strength of fibers as determined on the Pressley zero gage averaged 78,000 psi for the week and 80,000 psi for the season.

Grade 31 continued

Ways To Reduce Use Of Fuel Are Discussed

"We sat down this morning, admitted the energy crisis is real, and discussed ways and means that the school can help the situation," Supt. Sam Anderson reported to the Big Spring school board in a called meeting Monday at noon at Goliad Junior High.

He told the board that top school administrators and the athletic department head man visited briefly Monday and discussed changes in the future which may be needed.

Among the items discussed were such things as the possibility of a cutback on athletic trips and the immediate determination of how to avoid school groups in buses returning late Saturday nights.

They also discussed such items as needs to conserve lighting and heating, and the possibility of completely closing the schools during the Christmas holidays with no rehearsals or meetings in the school so that it would not have to be lighted and heated during that period.

The administrators talked about eliminating part of the lighting in unneeded areas, and many other possible phases of the program.

In discussing a crisis which may last several years, they also expressed the reality that

such things as afternoon sports events and other energy saving matters might arise in the future.

Board members expressed the opinion that they should be prepared for "drastic action if needed."

The board accepted the retirement announcement of Supt. Sam Anderson and set up a means of selecting a new superintendent.

A four member screening committee was named, including Jim Bill Little, Ralph McLaughlin, Jerry Jenkins and Delnor Posa.

The committee will set up criteria for applications for the superintendency and then begin contacting sources of possible applicants that meet the criteria.

Roy Watkins, board president, also read a letter from the high school student council which expressed appreciation to the board for their participation in homecoming activities.

All board members were present including Watkins, Little, Jenkins, McLaughlin, Posa, Dan Wilkins and Thomas Fetters. Administrators attending included Supt. Anderson, Lynn Hise, Don Crockett, Noel Reed, and Soc Walker, Goliad principal.

Hydrogen Truck Tests

LOS ALAMOS, N.M. (AP) — Increasingly aware that world petroleum supplies are not limitless, scientists working at several laboratories are experimenting with vehicles powered by hydrogen.

Some of them believe that in several decades, when fossil fuel supplies are badly depleted, the nation will run almost exclusively on hydrogen, a virtually inexhaustible source of energy.

They see hydrogen not just as the fuel that will keep vehicles moving but as the power source for generators, heating cells and everything else that keeps a modern society mobile and comfortable.

BIG SPRING HERALD

SEC. B BIG SPRING, TEXAS, TUESDAY, NOVEMBER 27, 1973 SEC. B

Local College Made \$5,000 From '72-73 Investments

EDITOR'S NOTE: This is the second part of a two-part series about how local public officials invest reserve and temporarily idle tax dollars. Sunday, we looked at Howard County, the City of Big Spring, Big Spring Independent School District, Colorado River Municipal Water District, City of Coahoma and By JOHN EDWARDS

Howard County Junior College made \$5,000 in interest from investments the last fiscal year, Ralph B. Smith, business manager, said.

"We're probably going to make a little bit more this year, because we got much more favorable interest rates," Smith said.

Trustees awarded the depository contract to Security State Bank this summer after opening bids.

Under the contract, the college invests most of its money for 90-day periods. Sums totaling \$100,000 or more and pledged for 90 days bring 8 per cent interest, Smith said.

Security State pays 7 1/2 per cent for funds of this size promised for 180 days. The business manager said smaller amounts draw smaller interest rates but noted most investments made by the college fall within one of these two categories.

BIT LEERY
"Running as close to breaking even as we are, we're a little bit leery of putting that much money out and running short somewhere," Smith said of investing for long periods.

Excluding some funds, such as athletic and dormitory money, which are unrelated to investments, spending for the current fiscal year at HCJC is budgeted at \$1,333,724.

Total receipts will equal the same amount, it is anticipated. HCJC does not invest in treasury bills although the contract does not prohibit this alternative, Smith said.

At this time, a peak time for total receipts, HCJC has \$385,000 in CDs. Local property tax money and state appropriations recently have been received, he explained.

Lowest month for reserves is August. "I'm going to guess. By the end of August, we probably... oh, \$75,000, maybe even as much as \$90,000."

FORSAN SCHOOLS
The Forsan County Line Independent School District invests in CDs but not treasury bills.

During the last fiscal year, State National Bank, Big Spring, then the school depository, paid \$5,529 in interest on CDs. H. D. Smith superintendent, said.

Highest invested at any time was in December, when the school district counted \$145,000 drawing interest.

CDs reached their lowest level, \$25,000, in August.

First National Bank, Big Spring, school depository since start of the new budget year in September, pays "slightly" higher rates, Smith said.

Because of inflation, Smith said, "I believe we'll be investing less. As of today (Wednesday), I have \$125,000 on deposit" in CDs.

Forsan schools, under the new depository contract, get 5 per cent interest on amounts under \$100,000 invested for 30 days to a year. The school district most frequently purchases this category of CD, Smith said.

Higher interest rates have been promised for sums more than \$100,000 and for CDs with later maturity dates.

In the under \$100,000 category, First National will pay 5 1/2 per cent for CDs pledged for one to two years. This size of investment will pull 5 1/2 per cent if pledged for two years or more.

In the more than \$100,000 range, interest rates promised range from 6 1/2 to 7 1/4 per cent, depending on the maturity date.

Forsan school district budget this year totals \$585,000 both in projected spending and anticipated revenue.

This figure does not include athletic and cafeteria funds, usually accounted for separately by schools.

CITY OF FORSAN
Before all bonds were paid off, the City of Forsan drew

interest on idle funds, Mayor C. J. (Jack) Lamb said.

In the budget year ending Sept. 30, 1971, the city earned around \$700 in interest, he said. "That's when we paid off our bonds."

The City of Forsan, which last year received \$12,635 and spent \$11,311, does not plan to issue more bonds until a government grant for a sewer system is approved, Lamb said.

Voters have okayed issuing bonds totaling \$65,000 to help pay for the proposed sewer system.

Fire Is Snuffed

FORSAN — Forsan firemen went to the scene of a fire on U.S. 87 Sunday afternoon. A mattress in a trailer, apparently ignited by a cigarette butt, burned.

Equipment Found

Three new thermostats found near the intersection of Wasson Road and Martin Street have been found and turned over to the sheriff's office.

Giants' Matthews Named Top Rook

NEW YORK (AP) — The San Francisco Giants have produced some sparkling baseball diamonds ... Willie Mays ... Orlando Cepeda ... and now, Gary Matthews.

Following in pretty illustrious company on the Giants, Matthews was named Monday the National League's Rookie of the Year for 1973.

Matthews beat out Montreal pitcher Steve Rogers to become the fourth Giant to win the prize. Mays won his when the Giants played in New York.

A total of nine players received votes — the largest field ever — as the National League produced one of its best crops in history.

Others named in the voting were catcher Bob Boone of Philadelphia (2 points); pitcher Elias Sosa of San Francisco (2); Cincinnati third baseman Dan Dreissen (2); Los Angeles third baseman Ron Cey (1); second baseman Dave Lopes of Los Angeles (1); Cincinnati outfielder Johnny Grubb (1) and Zisk (1/2).

Matthews, a 23-year-old outfielder from Pacoima, Calif., helped make the San Francisco outfield one of the most explosive this year.

Teaming with sluggers Bobby Bonds and Garry Maddox, Matthews had a .300 batting average, hit 12 home runs and collected 58 RBI in 148 games.

Matthews' average was second on the club to Maddox' .319 and his offensive figures produced 22 doubles, 10 triples and 17 stolen bases.

Matthews, a 6-foot-3, 180-pound right-handed hitter, was the Giants' No. 1 draft choice in 1968 as a senior at San Bernardino (Calif.) high school.

Only Arkansas State, Lamar University and the University of Texas at Arlington can win the 11th SLC title because the three other teams have been penalized by the NCAA and the conference.

Southwestern Louisiana cannot even field a team for two years, Louisiana Tech is on probation for three years and out of title contention for one and McNeese is living out a conference-imposed judgment dating back to September 1972.

The Louisiana Tech and McNeese State status will be altered next weekend when the SLC fall meeting is held in Shreveport, La.

The season for conference members opens Friday when UTA goes against Ohio State in Columbus, Lamar engages Northwestern Louisiana on the road, and Louisiana Tech and McNeese State participate in the two-day Shreveport Classic along with Stephen F. Austin State and Centenary.

Arkansas State appears to be the strongest team in the league on paper with the return of two-year all-conference star Steve Brooks along with four holdover starters from last year, including all-conference returnee Don Scafe. Brooks missed all of last season with a broken wrist.

McNeese State, which could still escape exclusion from the conference race with a favorable ruling at the conference meeting, returns four starters led by 7-foot Edmond Lawrence.

'Bear' Flattered--Crimson Tide No. 1

By The Associated Press

Flattery is great, says Alabama Coach Paul "Bear" Bryant. But there is no substitute for results.

The Crimson Tide of Alabama replaced Ohio State as the nation's top-ranked college football team in this week's Associated Press poll.

"I'm highly flattered, of course, and I certainly hope we can prove deserving," Bryant said. "Right now, though, it doesn't mean a thing unless we can beat Auburn. The squad has worked hard to attain the No. 1 ranking and it's up to us to show we deserve it."

One man who didn't agree with the poll's results was Oklahoma Coach Barry Switzer, whose team finished second in the balloting.

Switzer thinks the Sooners — not Alabama, should be No. 1. Ohio State's 10-0 tie with Michigan realigned the poll results with Oklahoma, which had

supporters of the late Jim Pittman, but not enough. "I've had a certain amount of people who have been very close to me. Pitt and I were so close, that a lot of people that made promises to him stuck with me," he said.

"But it was a minority of the people." Tohill's comments came in his final post-home game social with newsmen in a suite high atop a downtown Fort Worth hotel.

It lasted nearly four hours. Tohill disclosed that he had been contacted by Southwestern Louisiana of the Southland Conference and that he planned to discuss the head coaching job with school officials this week.

"I want to be a head coach," he said, "but I would take an assistant's job at a real good football school such as Alabama, Nebraska, Oklahoma ... it depends on the offer."

"I don't think I'm going to have any trouble getting a job. I just hope I can get the job I want, a place where my family and I can be happy."

Looking back over his three years at TCU, Tohill was asked, would he have done anything differently?

"If I could get rid of that one night, the night of the wreck ... other than that, no." He referred to the automobile accident last spring in which he lost a foot and nearly his life.

Noting the way things have gone this year, he was more than concerned during Saturday's Rice game when lightning struck the near-empty stands and sent both teams scurrying temporarily for the dressing rooms.

"The year 1973 has been so bad," he quipped, "I didn't want to get struck by lightning, too ... it was too damn close for comfort."

With a steel brace on his leg, he was something of a walking lightning rod.

"Al (Rice Coach Al Conover) had a steel brace touching the ground," he laughed, "but he was on my side. A football game's not worth somebody getting killed."

Commenting on other topics, Tohill said: "The toughest thing about getting fired was facing his three tearful children last Monday night. 'It's not so hard on me, but it's sure hard on the family.'"

Although TCU will honor his contract financially for two more years, if he's jobless, he wants to find a new job quickly. "I got to have something to do. I got to have work. I don't want to sit back and draw something ... I want to give them something in return."

He was baffled by Saturday's 14-9 loss to Rice. "We outgain Rice 281 yards to 100 and lose the game. That's ridiculous. How the hell can you lose a game like that? You tell me."

"If we'd been able to keep our kid healthy, there's no way we'd be 3-7. We'd have beaten three other teams, maybe four. But you can't evaluate it. And you can't beat anybody with a crippled team."

The best teams he faced while at TCU were Ohio State this year and Penn State in 1971 when he was Pittman's assistant. "Of course, you can't leave out Texas. They're good every year."

He never coached against anybody better than Bill Wymann (Texas center). "If Mike Luttrell (TCU back) had been playing behind an offensive line like Ohio State, Alabama or Oklahoma he'd be All-America."

"You're not going to out-coach anybody these days. You've got to have the people ... you've got to have the recruiting."

"If our kids had 45,000 people out there cheering for them, they'd have child bumps from head to toe ... and they'd be playing better."

Three Alive In Southland

BEAUMONT, Tex. (AP) — Only three teams have a definite shot at the Southland Conference basketball title this year, and it's not because the rest of the league has poor entries.

Only Arkansas State, Lamar University and the University of Texas at Arlington can win the 11th SLC title because the three other teams have been penalized by the NCAA and the conference.

Southwestern Louisiana cannot even field a team for two years, Louisiana Tech is on probation for three years and out of title contention for one and McNeese is living out a conference-imposed judgment dating back to September 1972.

The Louisiana Tech and McNeese State status will be altered next weekend when the SLC fall meeting is held in Shreveport, La.

The season for conference members opens Friday when UTA goes against Ohio State in Columbus, Lamar engages Northwestern Louisiana on the road, and Louisiana Tech and McNeese State participate in the two-day Shreveport Classic along with Stephen F. Austin State and Centenary.

Arkansas State appears to be the strongest team in the league on paper with the return of two-year all-conference star Steve Brooks along with four holdover starters from last year, including all-conference returnee Don Scafe. Brooks missed all of last season with a broken wrist.

McNeese State, which could still escape exclusion from the conference race with a favorable ruling at the conference meeting, returns four starters led by 7-foot Edmond Lawrence.

HIGH SCORER — Thomas Bledsoe tossed in 32 points Monday night to pace the Howard County Hawks to an 87-72 decision over the Cisco Wranglers. The 6-72 sophomore hit a career-high 35 points Saturday in a 121-92 win over Schreiner, and is now averaging close to 30 points a game.

Hawks Topple Cisco In Last Tuneup Tilt

CISCO — Thomas Bledsoe broke loose for 26 points in the second half here Monday night and sparked the Howard County Hawks to an 87-72 victory over the Cisco Wranglers.

It was a final tune-up prior to Western Conference play for the Hawks, who carry a 9-2 record into Thursday's WC opener with New Mexico Military Institution in the HCJC gym.

The Hawks had a fairly easy time with the Wranglers, who ranked as a national junior college power last year. Howard County led 38-26 after a wild first half that saw just five fouls called, and the hosts never got closer than 15 points in the final 20 minutes.

Both teams pressed the entire game, and Cisco played a ball control game once it got the ball down court. That was the main reason for the relatively low score, only the third time

this year the Hawks have been held below 100 points. Taylor Williams added to the scoring show with 20 points, while Mike Randle hit 11 and Lumzy managed 10. Hawk coach Harold Wilder said that Lumzy and Randle turned in one of their best overall games this year.

For Cisco, Robert Daniel tossed in 20 points, Irving Wesley notched 16 and Don Woodard hit 15 points. Cisco is now 3-3.

Table with 4 columns: Player Name, Points, Rebounds, Assists. Lists players like Bobby Beall, Thomas Bledsoe, Taylor Williams, Leroy Lumzy, Mike Randle, Alfred Gladden, Willie Young, Keith Lewis, Johnny Harris, Telma, Mike Doust, Irving Wesley, Mike Dougherty, Don Woodard, Robert Daniel, Kirk Hanaway, Jim Murphy.

49ers End Skid, Nab 20-6 Win Over Pack

SAN FRANCISCO (AP) — The San Francisco 49ers, blessed by perfect weather and timely Green Bay mistakes, pulled out of the four-week slide which took them to the National Football League oblivion.

"I feel like we've just won the Super Bowl," tight end Ted Kwalick said after Monday night's 20-6 nationally televised victory over the Packers, illustrating just how bad things had become.

The Packers, another team on the skids, produced enough misplays to match some recent Super Bowls, and Coach Dan Devine moaned, "I'm sick to my stomach."

But 49ers Coach Dick Nolan attributed the victory to good defense, a strong running attack led by Vic Washington and some timely late passing by Steve Spurrier. The team produced 268 yards on offense and suffered just one turnover in breaking its four-game losing streak.

"The weather conditions were perfect for passing," said Spurrier, as if apologizing for his 20-yard fourth period touchdown pass to Kwalick which put the 49ers safely ahead, 17-6.

Despite the calm weather, something Candelstick Park ballclubs and fans pray for and seldom get, the 49ers' offense chose to stay mainly on the ground. Spurrier's touchdown pass was just the sixth San Francisco completion of the night.

Rookie Joe Reed, who moved ahead of Spurrier and 38-year-old John Brodie in the quarterback picture three weeks ago, completed just five of 16 passes for 44 yards before leaving with a pulled groin muscle.

COAHOMA — Kermit's Yellow Jackets handed the Coahoma Bulldogs their second season setback here Monday night, halting the hosts by a 70-42 count.

Kermit raced to a 40-10 halftime bulge, and only a 23-point outburst in the final stanza by the 'Dogs kept the score respectable.

Green hit 20 points for the winners and Phillips had 12. For Coahoma, Jody Bennett was high point with 16, while Keith Stone followed in the scoring with seven.

Kermit also won the junior varsity game 50-46. Hunter hit 12 points in the victory, while Kenny Barber paced Coahoma with 15 points.

Coahoma's boys and girls junior varsity and varsity teams host Westbrook tonight. Action starts at 5 p.m.

Coahoma Gridders 2 Way Standouts

ODESSA — A pair of Coahoma Bulldogs, Puff Choate and Kyle Kiser, managed to cut into some of the glory hogged by Reagan County's Owls on the Dist. 7-AA All-Star team selected here Monday.

Choate, a 200-pound junior, made the first team as a running back and linebacker and Kiser, a 170-pound senior end, tackled Frank Coates and defensive lineman Robbie Tindol. A pair of Stanton gridders, defensive lineman H. A. Schuelke and running back Elvin Brown, also gained first team mention.

Schuelke is a 200-pound junior and Brown is a sophomore. Five other Stanton Buffs earned second team mention, and seven rated honorable mention. Schuelke was honored as a second team offensive tackle, while Ronnie Dickinson made it at guard and Vernon Brown was named a second team back.

Defensively, lineman Steve Cook and linebacker Mark Eiland were honored Buffs named to the honorable mention list were center-in-liner Dennis Ireton, tackle Roger Gutierrez, back Mitchell Irvin, and David Stander, and defensive backs Bill Howard and Gordon Eiland.

Coahoma landed three on the second unit and six more as honorable mention. Wood made the list as an offensive end, while Steve Wolf was honored as a defensive lineman and Randy Gee as a defensive back.

Honorable mention selections were Coates as a down lineman, Gary Roberts and Tim Tindol at defensive back and Eddie Padron and Glen Washburn at linebacker on defensive, along with running back Ricky Patterson on the offensive unit.

But it was too late to make much difference this season. The 49ers, winners of the Western Division of the National Football Conference the past three seasons, are 4-7 now and tied for third with New Orleans.

Choate and Kiser were named as a guard and linebacker to the squad dominated by 10 Owls selections.

The two were joined on the first team by teammates Dean Wood, a 170-pound senior end, tackle Frank Coates and defensive lineman Robbie Tindol. A pair of Stanton gridders, defensive lineman H. A. Schuelke and running back Elvin Brown, also gained first team mention.

Schuelke is a 200-pound junior and Brown is a sophomore. Five other Stanton Buffs earned second team mention, and seven rated honorable mention. Schuelke was honored as a second team offensive tackle, while Ronnie Dickinson made it at guard and Vernon Brown was named a second team back.

WITH A FEW PARTING SHOTS Tohill Offers Farewell

FORT WORTH, Tex. (AP) — Ousted Coach Billy Tohill says Texas Christian must somehow win the support of the public and its own people if it hopes to restore its football fortunes.

In a farewell fireside chat of sorts, and suggesting that "a fella who has been fired hasn't got much more to lose," Tohill said:

"Football is mental. It's all in the mind. It's that sort of game, and you've got to have the support of your own people."

"It's Fort Worth's football team. It's not mine. They've got to get out there and holler and scream and support the team."

"If the people would band together and help the new coach, whoever he is, they can overcome this situation. But you've got to have everybody together fighting for a cause."

Tohill, who closes out an abbreviated TCU career Saturday against Southern Methodist in Dallas, said he inherited some

eight graders over Runnels. Cornell Kimble dropped in 19 points as the Brahmas scored their second win in as many outings, and Casey Wilder helped the cause with 14 points. Bubba Stripling chipped in 12 and Bill Arencibia 10.

The Brahmas hit 29 of 70 from the field for 39 percent and 17 of 29 from the foul line, but the story was in the rebounds, as the Big Springers held a 56-32 edge. Arencibia had 12 caroms and Stripling 10 to lead the way.

For Goliad, Mitch Harris' 13 points topped the effort as the Mavericks lifted their season mark to 2-0. Mike Egan and Del Pass each had seven points and Mike Thompson hit eight for the winners, while Lambert scored 19 for Lee.

The Toros hit 45 percent of their shots from the field, but it wasn't enough against the Lamar cagers, who raced to a 30-22 halftime advantage. Mike

Harris burned the nets for 18 points in the loss as the Toros slipped to 1-1.

Lamar hit on 11 of 26 free throws, while the Toros got just five shots and made two. Harris and Randle Jones each grabbed down seven rebounds for the Toros.

Runnels couldn't generate any kind of offense until the fourth stanza, mainly because of 36 turnovers. Lamar let 35-4 at the intermission, and 42-6 after three quarters.

For Runnels, Enrico was high point with nine markers.

GREENWOOD (71) — Bill Arencibia 42-10; Cornell Kimble 8-10; Bubba Stripling 4-12; Casey Wilder 7-8-14; Mike Wood 3-3-7; Phil Woods 4-6; Arthur Ologue 1-0-2; Gary Howell 0-1-1; totals 27-17-71.

LEE (55) — Mark Hudson 1-7; Martin Scott 3-17; Joe Brahmatt 2-4; John Alexander 2-1-3; Floyd Franklin 3-6-6; Lloyd Franklin 3-6-6; Stanley State 1-3-3; Roy Young 1-3-3; Tommy Worsham 1-0-2; William White 2-4-4; totals 21-13-56.

Score by Quarters: 19 20 19 23-71. Lamar 55-35. Score by Quarters: 13 17 11 14-55.

GREENWOOD (45) — Courtney 11-23; Moore 2-5; Williamson 1-0-2; Peterson 4-9; Bailey 1-0-2; Longbottom 0-1-1; Ship 1-2-4; totals 18-36.

Kermit Racks 'Dogs, 70-42

COAHOMA — Kermit's Yellow Jackets handed the Coahoma Bulldogs their second season setback here Monday night, halting the hosts by a 70-42 count.

Kermit raced to a 40-10 halftime bulge, and only a 23-point outburst in the final stanza by the 'Dogs kept the score respectable.

Green hit 20 points for the winners and Phillips had 12. For Coahoma, Jody Bennett was high point with 16, while Keith Stone followed in the scoring with seven.

Kermit also won the junior varsity game 50-46. Hunter hit 12 points in the victory, while Kenny Barber paced Coahoma with 15 points.

Coahoma's boys and girls junior varsity and varsity teams host Westbrook tonight. Action starts at 5 p.m.

"WHERE GOOD SERVICE IS STANDARD EQUIPMENT"

HOW TO WRITE A GOOD WANT AD

- 1-IT'S ALWAYS BEST to start your advertisement with the name of the article or service you have to offer. If you have an apartment or room for rent or property for sale, start your advertisement with the location.
- 2-BE CLEAR. Readers respond more quickly and favorably when given complete or definite information. One of the very most important aspects of any advertisement is to include the price.
- 3-MAKE IT EASY for the reader-prospect to reach you. Always insert your telephone number or your name and address. If you do not have regular hours, give a preferred time to have prospects contact you.
- 4-THE GREATEST READER ATTENTION can be secured for your advertisement by using consecutive insertions. Play safe - a six-day order is best and costs less! There are also special monthly rates for those who are desirous of keeping their names and offers before the public every day. You can stop your ad in the event of results, and then you pay only for the days it is published.
- 5-PLACE YOURSELF in the reader's position and ask yourself what you would like to know (about your offer). The answer you give will make a good Classified Ad.
- 6-CLASSIFIED readers are already interested in buying your used or new merchandise. These people have the money and are already in the market to buy. So give them every advantage you can with good ad copy.
- 7-WANT ADS THAT FAIL to bring satisfaction do so, not through any lack of readership, but because they are often carelessly worded and do not contain enough information to get prompt action.
- 8-TO PLACE YOUR ADVERTISEMENT in The Big Spring Herald, where you reach Howard County's greatest Classified Want Ad audience, call 263-7231. It's easy as calling a friend because our Ad-Takers are schooled to be helpful in such matters.

Two great ways to get more car for your money.
