TO: The American People FROM: The Secretary of the Treasury

A report on the most tremendous financing
task in history - - - the Second War Loan

DURING the three weeks between April 12 and May 1, the American people tackled the biggest job of financing in the history of the world.

In these three weeks it was proposed to raise the sum of 13 billion dollars, or more than half as much as was raised by five drives in the first world war.

It was obvious that the task was hopeless unless the people of the nation were desperately in earnest about the war. And it was equally obvious that here was, so to speak, a thermometer by which the fervor of the people could be measured with reasonable accuracy.

This is why we believe you, as an American citizen, can take pride in this report. For it was written solely by you, the people.

The result, in dollars

Our goal was 13 billion dollars. Actually, the American people subscribed 18 billion, 500 million dollars.

This was 90% as much as was raised in all five drives of the first world war combined.

It was, I think, as much a victory for America and the free American democracy as any military triumph.

Where did the money come from?
You will be interested in where this 18½ billion dollars came from—for every dollar invested in War Bonds is more than a purchase; it is a demonstration of faith.

The chart below shows the portion of the 18½ billion that came from commercial banks. They were eager to buy more, but were limited to set amounts:

Insurance Companies and other Corporations know that there is no sounder investment than a U. S. Bond. The chart (top of column) shows their purchases:

Naturally, it was your money that bought the bonds in the two groups above—for you are the people who put your money in banks and invest in insurance.

But how about what might be called your "personal" money.

That is a very important question, for it is vital that Americans, as individuals, buy War Bonds with all they can spare.

Our goal, here, was 2½ billion dollars. The chart below tells the story:

50 million bondholders

To review your record to date, almost half our entire population own at least one bond—including infants, children, the lame, the halt and the blind.

Or, to look at it in terms of those best able to buy bonds, see the chart below:

Who gets the credit?
The credit for the 2nd War Loan goes to the people.

It goes to the children who put dimes and quarters into war stamps. To everyone who bought a bond. To thousands of patriotic banking people. To advertising people who donated their creative talents. To patriotic merchants and companies who paid the bill for war bond messages. To radio stations, newspapers, movies, outdoor advertising companies, and publications.

But chiefly, perhaps, to those who turned voluntary bond salesmen—a loyal legion of patriots.

What lies ahead?
Yes, America's record is good. But we cannot become complacent—for our biggest financing job lies ahead.

In the first 4 months of this year, we raised 25 billion dollars. During the balance of this year we must raise 45 billion dollars more.

The war is costing us 100 billion dollars this year. Part of this will come from taxes, and the balance must come from War Loans.

You, as an American, can take pride in what you have done. You have shown the Axis that Americans on the home front, like Americans on the battle front, will do all that is required of them—and more.

But our need is great. Dig as deeply as you possibly can and invest it in War Bonds now—either through the Payroll Savings Plan or through special purchases. Don't wait for "drives."

We must win this war with bayonets—and with dollars. We who stay home in safety must provide the dollars—all that are needed. It is the very least we can do.

Henry Morgenthau Jr.

Judge and Mrs. Tubbs Visit in Pampa Sunday

Judge and Mrs. G. C. Tubbs and daughter, Miss Mary Louise, of Lubbock, visited in Pampa Sunday with their son and daughter, Mr. and Mrs. Richard Tubbs, Cadet and Mrs. Tubbs moved to Pampa last Tuesday from Independence, Kansas, where he had trained several weeks. He will train nine weeks at Pampa, and will receive his wings July 29.

Miss Murelagan, who has been a student in Lubbock Tech the last semester, spent the week end with her mother, Mrs. Pearl Fagan. She returned to Lubbock Monday where she will enroll for the summer term.

M. L. Solomon Re-opens Business at Former location

M. L. Solomon, who has been in San Antonio the past six months, returned to Floydada about three weeks ago, and has opened up his jewelry and watch repair business in his former location, with the Radio Electric Company, on West California Street, where he had been located for a number of years before going to San Antonio. Mr. Solomon started to work June 1, and invites his old customers as well as new ones to see him at his location.

Miss Mary Lee Thacker, who has been attending school in Amarillo the past term, returned home Friday. Mrs. Thacker and Miss Louise Hyatt went to Amarillo after Mary Lee.

Work on Hard Surfacing Highway 207 Completed

Hard Surfacing of Highway 207 from the end of the pavement north of Floydada to a point one mile north of South Plains to the Briscoe County line was completed last Friday by the State Highway Department.

This work has been underway since April 1, when requisition to complete the job was approved by the war department.

LOANS OFFERED

Producers desiring to plant tomatoes, sweet potatoes, or carrots for processing purposes or dehydration are being offered a loan to encourage such food production. For further information see W. H. Nelson or Paul Snodgrass at the AAA Office.

.56 Inches of Rain Falls Here Saturday Afternoon

Floydada and nearby territory received .56 inches of rain Saturday afternoon. Part of the county reported as much as two inches. Many farmers who had finished planting cotton fear they will have to re-plant due to the heavy rain and high winds since the rain.

90% PLANTING REQUIREMENT OFF

On May 31, 1943 the local ACA Office received the following telegram: "Penalty for failure to plant 90% war crop goal eliminated." This means the \$15.00 penalty per acre for failure to plant at least 90% of the war crop goal is eliminated. Further clarification will be made at a later date.

Mrs Sarah Mickey Buried at Lockney Saturday

Funeral services were held Saturday for Mrs. Sarah Mickey, 79 years old, who died Friday morning at her home at Plainview. Mrs. Mickey had been in ill health the past few years but had been seriously ill only a few days.

The service was at the West Side Church of Christ in Lockney with J. T. Corder officiating.

Surviving are five sons, Everett of Plainview; G. S., of Gallup, New Mexico; R. L., of Plainview; C. S., of Plainview; and L. R., of Seymour. There are 15 grandchildren and eight great grandchildren. One sister, Mrs. Viola Wales of Glen Rose, also survives.

Throw your scrap into the fight.

Floyd County Men In May Call of Local Board

To fill the May Call for men the Local Board forwarded to Lubbock for induction the following registrants, who will go to Ft. Sill this week, for assignment in the Armed Forces:

Silas Duncan Hollums, Floydada; Emmitt Earl Crow, Floydada; Haskell M. Redd, Floydada; A. J. Ryals, Jr., Floydada; James M. Willson, Jr., Floydada; Victor E. Green, Floydada; John Charles Porter, Floydada; Lester E. Green, Lockney; Virgil H. Boteler, Jr., Floydada; George E. Goodgion, Floydada; N. E. Tyler, Jr., Floydada.

Boteler was a volunteer into the Naval Reserve, and will be subject to call at a later date. Hollums, drew naval service, and Crow and Tyler were assigned to the Marines.

The Board will fill a Call for three Colored Selectees this week.

Keep The Victory Garden Producing Food Stuff

College Station.—Conscientious Victory gardeners, especially those living in areas having suitable moisture, plant and harvest throughout the growing season. But J. F. Rosborough, horticulturist for the A. and M. College Extension Service, cautions against planting any but heat resisting varieties in summer. English peas, head lettuce, mustard greens, bush beans and radishes are not suited to a hot weather garden.

After the white potatoes are dug plant blackeyed or cream peas in the same rows, Rosborough suggests. When early mustard greens go to seed, follow with okra, green pepper plants, or even swiss chard. Incidentally, swiss chard has more vitamin A than any of the other greens. Leaf lettuce, which is tolerant of warm weather, is an excellent successor to early radishes, but gardeners should be careful not to confuse the leaf variety with head lettuce. Grand Rapids or Black Seeded Simpson are recommended for good summer growth.

Eggplant does well in hot weather, with Florida Highbush or Purple Beauty well suited to Texas growing conditions. Allow three feet of space between plants, but watch out for potato bugs. When this pest gets a start on potatoes it will move to eggplants and eat them up in a few days. On the first appearance of the bugs dust the plants with calcium arsenate and they will give no further trouble. A second planting of sweet corn may be made now in order to provide roasting ears over a long period. When it is up 10 to 12 inches thin the stand to two feet apart. All hot weather vegetables need more room for moisture and plant food than the early ones.

The horticulturist warns against digging potatoes in the morning and allowing them to lie in the sun all day. Dig in the evening and place them in a cool, shady spot immediately to dry for a day or two. Then spread them out on poles or straw in a cool, dark place where air circulates freely. Never have the potatoes more than two layers deep and, if there is room, a single layer is even better. Remove all bruised potatoes before storing them.

Dr. and Mrs. C. M. Thacker and daughter, Mary Lee, are in Dallas this week on business.

EVERY DRIVER CAN HELP

KEEP 'EM ROLLING

WAR, 1943 style, is war on wheels. Men, weapons and materials vital to victory must be moved swiftly, safely and without delay.

But each day accidents at grade crossings in America injure or kill 19 motorists and delay 38 trains a total of 22 hours—a drain on manpower and time that a nation at war simply cannot afford.

Will you, as a patriotic driver, enlist in the nationwide campaign now under way to stop these accidents? Here's how you can help:

1. Be extra careful—warsime careful—in all your driving.
 2. Be especially alert when approaching a grade crossing.
 3. Be sure the way is clear before you cross the tracks.
 4. LOOK, LISTEN and LIVE!
- Help keep 'em rolling for victory!

NATIONAL SAFETY COUNCIL

Information From Navy Recruiting Station

A new call has been sent out by the U. S. Navy Construction Battalions—the Seabees—for cooks, stewards, and bakers, it was announced today by Lieut-Comdr. L. H. Ridout, Jr., officer in charge of the Dallas Naval recruiting district.

A new plan of voluntary induction is open to men between the ages of 18 and 37, inclusive, and those who qualify are definitely assured of assignment to the Seabees, where their civilian occupations will be put to greatest use in vital war service.

Men between the ages of 18 to 50 and a half with experience as cooks and bakers are urgently needed in the Seabees at the present time. Those 38 and over are eligible for the Seabees through regular voluntary enlistment.

In either case, a visit to the nearest Navy recruiting station will give the applicant the complete story, and allow him to determine if he is qualified for the Navy's fighting construction units. The army engineers also offer opportunities for men with experience in construction work.

Those accepted for the Seabees have an opportunity to qualify for any one of 84 construction trade jobs and the higher pay grades that go with them. Not only cooks and bakers are needed, but all types of construction workers as well.

However, applicants living out-

side the Dallas area may visit their nearest Navy recruiting sub-station for information. Lubbock sub-station is nearest to Floyd County.

J. W. PEARSON, OF JAL, NEW MEXICO HERE FOR PIONEER REUNION

J. W. Pearson, of Jal, New Mexico, one of Floyd County's pioneers, was here Friday for the Pioneer Celebration, the first time he has attended.

Mr. Pearson lived for a number of years in the Northeast part of the county on Quitaque draw. His father settled there in 1892. He moved to Jal, New Mexico in 1915 and has only been back to Floyd County twice, in 1926 and 1935, until Friday.

Mr. Pearson visited relatives in Amarillo last week who were ill, and decided that he would make the Floyd County celebration before returning home. He said he met quite a few of the old timers that he knew when he was a boy.

Mr. Pearson lives on a ranch and has it stocked with ranch cattle.

IN MARKET THIS WEEK

Mrs. Mollie A. Morton left Sunday for Dallas where she will attend the wholesale market, and purchase merchandise for the Style Shoppe. She will return home the latter part of this week.

Mrs. Jim Hardgroves and daughter, and Mrs. Alma Smalley, of Clovis, New Mexico, visited relatives in Floydada Sunday.

Throw your scrap into the fight.

No second chance...no other choice

FOR THOSE who fall and freeze on the lime-covered floors of the cattle cars that carry them to German labor camps—there is no other choice.

For the little children of Tepelini and Salonika and Athens who wait with swollen stomachs for the food ship that never arrives, there is nothing else to do—but wait.

For the Russian peasant with no choice but to burn his home before the Nazis reached it, for the Chinese of Nanking who suffered the terrorism of the Japs; for all of those in nameless graves and numberless cells—for all of them—there was no second chance, no other choice.

But for you—a choice still remains. For you—among all the peoples of the world, the road to freedom is still clear.

Never before have we been able to measure the price of freedom for ourselves and our children in such tangible terms. Will you help to keep the road to freedom open? Will you invest—all you can—in War Bonds?

It's not so much to ask. Many of us are making more money than we have for years. The things we'd like to buy with that money are scarce—or unavailable. So, we're asked to loan money at good interest—\$4 for every \$3 when the Bonds mature. Money to help pay for the war—keep prices down—provide peacetime jobs and peacetime goods and a generally decent world for all of us when the war is won.

Chances are you're already in the Payroll Savings Plan—buying War Bonds—doing your bit. But don't stop there. Raise your sights. Do your best!

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

BOOST YOUR BOND BUYING THROUGH THE PAYROLL SAVINGS PLAN

This space is a contribution to America's all-out war effort.

Billy Nell Eubank Bride of Lieut. Charles Mathews

From the Dallas Morning News:

Miss Billy Nell Eubanks, daughter of Mrs. George M. Eubanks, 408 South Mont Clair, was married to Lieut. Charles Drayton Mathews of Fort Sill, Oklahoma, son of Major and Mrs. Luke G. Mathews of Colorado Springs, Colo., at 9 p. m. Saturday at the Caivary Baptist church. The ceremony was read by the Rev. W. O. Barnett and the music was given by Mrs. H. M. Woodward, organist, and Mrs. Tom Moore of McKinney, vocalist.

P. K. Carmichael gave his niece in marriage. The bride wore a white faille gown made with a marquise yoke, a long fitted bodice and a full skirt which formed a short train. The fingertip-length veil of illusion was caught to an orange blossom halo. The bride's prayer book was topped with a white orchid.

Mrs. B. E. Stratman of Magnolia, Ark., was matron of honor and Miss Patricia Carmichael was junior bridesmaid. W. D. Benson Jr., of Lubbock was best man and Jan Eubanks, brother of the bride, and James C. Stewart of McKinney were ushers.

The ceremony was followed by a reception at the home of the bride's mother. Mrs. Bill Eubanks presided at the tiered wedding cake, assisted by Miss Jane Carmichael and Mrs. Peyton Chenault. Mrs. Warren Cooper of Waco was in charge of the bride's book.

As the bride and bridegroom left for a wedding trip to Colorado Springs, Mrs. Mathews was wearing a coffee-colored suit with a natural-colored straw hat and navy accessories. She had an orchid corsage.

Out-of-town guests for the ceremony were Mrs. Stratman, Magnolia; Mr. and Mrs. Cooper, Waco; Mr. and Mrs. Benson and Mr. and Mrs. Allen Ebnott, Lubbock; Mr. and Mrs. J. C. Stewart, James Stewart, Mrs. A. H. Eubanks, Mrs. Lois Troclair, Mrs. Earl Ragsdale, Mr. and Mrs. Tom Moore, Mr. and Mrs. Anthony Geer, Mr. and Mrs. Isaac Crouch, Miss Betty Crouch, all of McKinney; C. F. Pete, Mrs. Lela Reaves, Miss Georgia Lou West, Miss Sybil Dickinson, all of Austin; Mr. and Mrs. L. W. Eubanks, Mrs. Barnay Martin and Miss Joyce Lacey, all of Fort Worth.

Lieut. Mathews, a former resident of Floydada, was graduated from Floydada High School with the class of 1929. He later attended law school at the University of Texas finishing the course and was associated with a law firm in Lubbock before moving to Austin.

Wayne Collins, of Lubbock, spent the week end with his parents, Mr. and Mrs. W. G. Collins.

Farm Woman's Letter Can Win Trip

The best letter telling a woman's story of wartime use of electricity on the farm will win for the writer an all-expense paid trip to a shipyard to christen a Liberty Ship to be launched about the middle of July, Melvin Henry, manager of the Floyd County Rural Electric Cooperative, Inc. announced today. Mr. Henry invited women on farms obtaining electric service from the REA-financed system to submit letters telling what they have done to increase food production for the war.

The Liberty Ship christening ceremony will be sponsored by the Rural Electrification Administration, in cooperation with the U. S. Maritime Commission and other agencies of the government. REA Administrator Harry Slattery and other high dignitaries will be on the program, which will have food production and food transportation as its major theme, with special emphasis on the farm woman's part in the war.

Electricity in food production and public power in munitions production will also be featured. The ship is to be named the SS J. D. Ross, in honor of the late Pacific Northwest public power leader who was the first administrator of the Bonneville Power Administration.

Mr. Henry said: "The christening of this ship by a farm woman will epitomize the splendid role that public power is playing in the production of food. Agricultural workers are using power to produce fighting tools.

"Every woman who has found a way to contribute to increased food production on her family's farm may have, in her own experience, material for the kind of letter that can be used to dramatize the farm woman's part in the war.

"I know that dozens of women on farms served by the Floyd County Rural Electric Cooperative, Inc. have had experiences from which others could profit. The woman who has learned to organize her household tasks for greater efficiency, through use of electrical equipment, so that she has had more time to devote to raising chickens, tending a victory garden, canning fruits or vegetables, or working with a dairy herd, should tell her story in a letter. Literary style is not important; the kind of story the woman has to tell about her own wartime work is all-important. Every woman who can report increased food production despite the loss of a worker on the farm—and there are many on the lines of the Floyd County Rural Electric Cooperative should tell how it was done."

All letters submitted by farm women of this section should be addressed to Floyd County Rural Electric Cooperative, Inc. and the best will be forwarded to the committee which will select the woman who will have the honor of christening the SS J. D. Ross.

All letters should be in the office of the Floyd County Rural Electric Cooperative, Inc. by June 15, 1943 so that they can be mailed to the St. Louis office.

FARM MACHINERY QUOTAS LIFTED

All County quotas on farm machinery were cancelled this week by the Texas USDA War Board.

Under the new program, eligible producers may purchase machinery from any dealer in the state instead of restricting purchases to the county in which they carry out farm operations.

It will be necessary to locate the machinery and obtain a purchase certificate from the Farm Machinery Rationing Committee before making purchase. Before a certificate for purchase can be approved by the Rationing Committee, the applicant must certify that the machinery is available.

What Is Inflation?

Do you have excess cash? You will answer, "No." But the fact remains that you do. For almost every wage earner these days has an income, in checkbook or pocketbook, well above the cost of his living, taxes, insurance and debt repayments.

You never actually "spend" against anybody for a port-house steak, but when you take the spending of all average Americans as a group, it's a different story. So it is important that excess money be saved rather than used collectively to bid up prices. If it is spent, instead of saved, prices soar. . . That's inflation.

Ideally, it should be invested in Government securities during the Second War Loan.

"They give their lives . . . You lend your money."

What You Buy With WAR BONDS

Down in the Solomons and on the African coasts the Crocodile Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light and fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them. U. S. Treasury Department

What You Buy With WAR BONDS

The Bofors anti-aircraft gun is designed for greater range and heavier calibre than the average anti-aircraft or rapid fire gun. They are mechanically intricate and more costly. The two-gun Bofors mount costs approximately \$98,000 while a Bofors quad-mount runs up to \$140,000.

We want our fighters to have the best equipment possible and your purchase of War Bonds will help pay for these guns, giving them an advantage over our enemies. Buy War Bonds every payday. At least 1% percent of your income, or as much as you can buy will help pay the war cost, provide you with a nest egg for the future, and pay you good interest. U. S. Treasury Department

Texas' New Insecticide Law is Enacted

Hereafter it will be unlawful to adulterate, misbrand or misrepresent agricultural insecticides and fungicides sold in Texas. The state legislature at its recent session enacted a law providing for the branding or labeling of all such products placed on sale within the state. The law also requires attaching to each package a printed statement showing the minimum percentage of active ingredients, and the maximum percentage and names of inert ingredients it contains.

According to Dr. H. G. Johnston, entomologist for the A. and M. College Extension Service, the act provides for the examination and analysis of agricultural insecticides. It will be administered by the state commissioner of agriculture and analyses will be made by the state chemist, located at the Texas A. and M. College. The law exempts household insecticides from these restrictions, and through the definition of "agricultural insecticides" also eliminates insecticides used for controlling insect parasites of domestic animals, Dr. Johnston says.

The law provides for taking samples of any agricultural insecticides offered for sale within Texas for analysis by the state chemist. Under its provisions any corporation, firm or person may be prosecuted if they offer for sale insecticides which are found to be misbranded, adulterated, or intended to deceive the consumer.

Pasture Demonstrations Show Increase

College Station.—Doubling pasture productivity is worth more than the value of the land for grazing. R. R. Lancaster, pasture specialist for the A. and M. College Extension Service, believes that doubling the yield instead of the area cuts by one-half such expenses as taxes, interest, stock water and equipment, and fencing and mowing.

"Let's get at the job, whatever it may be, and make the land produce its best," he suggests. "Once we learn the utmost possibilities the means may be more practical than we supposed."

As a practical starting point for east Texas and the Gulf Coast, Lancaster proposes making pasture demonstrations one acre for every ten tons of manure available. For depleted pastures and old cropland it should be plowed under in late winter or early spring. For good sod disk it in without plowing. Forty pounds of 20 per cent superphosphate per ton of manure will double its value. Mere solid matter of manure without the liquid will need eight pounds of muriate of potash for every poor soil. This suggests 10 tons of manure, 400 pounds of 20 per cent superphosphate and 80 pounds of muriate of potash an acre. Highly acid, heavy soils may need a ton or so of pulverized limestone per acre, but less for lighter soils and none for deep sand. Apply lime and phosphate separately as the land is worked, but potash in the spring.

Upon such soil preparation, within 40-50 inches rainfall, plant bermuda and dallis grass with mixed lespedeza (preferably common also mixed white dutch and

What You Buy With WAR BONDS

Many of the women of the Women's Auxiliary Army Corps are already overseas serving in various capacities to help win the war. The WAACS go through a strenuous training to fit them for the arduous duties they must perform.

A uniform for a WAAC, complete costs approximately \$170.00. The quartermaster's department must provide thousands of them. Your purchase of War Bonds helps pay for these uniforms. Invest at least ten percent of your income in War Bonds every payday through a Payroll Savings plan at your office or factory. U. S. Treasury Department

What You Buy With WAR BONDS

While we have not heard so much about them, our air-borne command is inferior to none. We have thousands of these especially trained troops and the glider is a necessary factor in their successful operation.

We build gliders in three types and their capacity is a military secret. The type shown here costs about \$19,000 each. Buy War Bonds with at least ten percent of your income every payday and help pay for these gliders for our intrepid fighting men. U. S. Treasury Department

What You Buy With WAR BONDS

Women at War today are saving for Women at Peace when the War is won. They are buying War Bonds as thrifty housewives, saving to buy those handy, convenient and necessary electrical appliances when their Bonds mature.

Women know that money saved now will help win the peace, putting their menfolk to work in our domestic factories when the war is over. They know purchase of War Bonds today will help their family and the whole country tide over the readjustment period from War to Peace. U. S. Treasury Department

What You Buy With WAR BONDS

Nurse that heating plant along for it must do you for the duration. Metal... every bit we can rake and scrape up is going into War Production to provide the tools for our Boys on the fighting fronts.

But start saving now for that heating plant by your purchase of War Bonds every payday through a Payroll Savings plan. War spending goes on month after month. So War Savings must keep pace, month after month. Put at least ten percent of your income in War Savings through War Bonds. U. S. Treasury Department

Federal Land Bank to be Decentralized

Houston.—Federal Land Bank activities in Texas will be decentralized—strengthening both the local national farm loan associations and the Federal Land Bank of Houston, according to plans announced here by President Sterling C. Evans of the Land Bank. Under new plans the 76 impaired associations (out of the total of 294 in the state) can be rehabilitated, all associations put in strong financial position, and nearly \$2,000,000 worth of member-stock in previously insolvent associations can be restored to par value.

"The Land Bank will be in position to pay \$450,000 in cash to redeem withheld stock of 3,400 farmers who have paid their loans in full through insolvent associations," Mr. Evans said. "It can also restore to par value \$1,500,000 worth of stock held by 16,600 member-borrowers through such associations."

The reorganization program and consolidation among some associations will decentralize part of the Land Bank functions by putting more duties and responsibilities on the local associations. Losses suffered during the early 1930's in some areas brought insolvency to the associations affected, although the system as a whole in Texas has made a remarkable record, Mr. Evans said. "This new plan is expected to provide more efficient operations, a better farm loan service close to the farmers, and to make possible savings in Land Bank operations estimated at \$195,000 annually."

The Land Bank, started during the first World War, is now in its 27th year. The Federal Land Bank of Houston is one of the strongest of the land banks," Mr. Evans said, "with all Government capital retired and with its \$10,170,000 capital stock owned by Texas NFA's. The bank has been able to perform its services, cover losses and build up an earned surplus and legal reserves total of more than \$32,600,000. This has been done on a margin of one per cent between the interest rate on Farm Loan bonds sold to the investing public and the rate charged borrowers.

"The Land Bank System pioneer in long-term, low-rate farm mortgage loans is realizing its goal in that more than a third of all borrowers have paid their land debts in full. New records in debt retirement ahead of maturity are being made this year. This vindicates the bank's courageous policy of basing loans on normal agri-

cultural production value during the depression and thereby saving many thousands of farms and ranches."

The Federal Land Bank of Houston today has more than \$203,300,000 in Land Bank and Land Bank Commissioner loans on its books.

IRISH POTATOE GROWERS MUST APPLY

In order to be eligible for incentive payments on Irish Potatoes, growers will be required to file prior to July 1, a notice of intention to participate in the incentive payment.

The necessary forms are available in the county office.

Mrs. I. D. Grundy, who has been in Mineral Wells for several weeks receiving treatment, returned home Monday night. Mr. Grundy went to Mineral Wells after his wife. Mrs. Grundy's condition is much improved.

Mrs. P. G. Stegall spent the week end in Amarillo visiting her daughter, Mrs. J. P. Williamson and Mr. Williamson.

Aid to Enemy

"Any American who willfully neglects to pay his taxes on time or to invest every cent he can in War Bonds is surely giving aid and comfort to the enemy. . . . We have a job to do and we are all called for service to our country. Our dollars are called to service too. Let us all ask ourselves, 'Shall we be more tender with our dollars than with the lives of our sons?'" — Secretary Morgenthau.

SHOE REPAIRING IS NOT RATIONED!

With the proper care, your shoes will last much more than four months—and immediate repairs help! You use up no precious ration coupons when you have your shoes repaired—and our expert work makes for newer looking, more comfortable and longer lasting shoes. Our prices are thrifty, too.

"Foot Comforts, Our Motto."
