NUMBER 23

NUMBER 15

U-C Men Will Called for Physical

Board is in receipt of letter from National Board of Selective Service, regarding the Production Physicals to be given to all Class 11-C men who are under twenty-one years of age, the same as other registrants.

These men are under twenty-one years of age, the same as other registrants of that age. They will be reclassified out of Class 11-C, and made available for the war effort.

Our hope is that those registrants classified in 11-C, as a result of their operations that are essential to the war effort, can be released from the war effort, and in that way discontinue their operations as little as possible.

Our hope is that those registrants classified in 11-C, as a result of their operations that are essential to the war effort, can be released from the war effort, and in that way discontinue their operations as little as possible.

The question of how many registrants will be required in the next few months naturally depends on the fortunes of war, it is expected that the pool of young men made available by calling from the age group 18 to 26 from Class 11-C, and those reaching the age of 18, will provide sufficient men without calling too many above the age of thirty.

Work in essential occupations is subject to Call for extension the same as the younger men. The emphasis is going to be on the young, mentally and physically fit men.

Changes announced in rationing affecting procurement of sugar for home canning were announced today by the Foods Administration of the District Office of the Department of Agriculture. The first period for which consumers may purchase sugar will be from May 15 to June 30, and the issuance for this period will not be over 10 pounds per person. The second period for which consumers may purchase sugar will be from June 30 to August 31, and the issuance for this period will be over 10 pounds per person. The change in procedure is in accordance with the request made earlier by the Foods Administration. Consumers not applying for home canning sugar until some home use fruit was available in the local market.

Funeral Services for Bobbie Jean Smith at Silverton

Last rites were held Friday afternoon at 2 o'clock at Silverton by Elder Tolley Corder for Miss Bobbie Jean Smith, who was killed in a car accident Thursday afternoon northeast of Silverton. After funeral services burial was made in the Floydada cemetery with Harmon Funeral Home in charge of arrangement.

Bobbie Jean Smith, 15, was instantly killed last Wednesday afternoon in a car-truck wreck at a road-side park, just below the cap rock between Silverton and Quitaque. She was with a group of students of the Freshman class of the Silverton public school and they were on their way to attend the annual class picnic at the park.

Survivors are the parents, Mr. and Mrs. T. M. Smith, of Cedar Hill Community, and three sisters. They are Miss Neomi Smith, Floydada; Mrs. Tom Fortenberry of Cedar Hill community, and Mrs. George Taylor of South Plains.

STATE QUOTA SET AT \$464 MILLION DOLLARS FOR FIFTH WAR LOAN

A state quota of \$464 million dollars for the Fifth War Loan, June 12 to July 8, has been announced by State Chairman Nathan Adams of the War Finance Committee of Texas. This is the largest sum yet and the drive will be "a big and vital effort," Adams said.

Of the total, \$236 million has been set for individual Texans alone, \$125 million of this to be in Series E Bonds.

Counties throughout the state are announcing their quotas now.

"It is going to be big and tough—the biggest and the toughest drive," Adams said in warning that all of the nearly seven million people of Texas must favor the facts.

But "it can be done," Adams insisted. "It has been proved."

He pointed out that during the Fourth War Loan more was raised than the total quota for the Fifth. The over-all goal for the Fourth was \$395 million and Texans subscribed \$430 million.

"No one is exempt," Adams said. "Our boys are dying for you and for me. Think of the invasion and you cannot think of not buying war bonds."

"Our victory volunteer must, of course, do a large part in cutting out the great Texas market," he said in praising the past efforts of the victory volunteers.

"It will be a severe home-front test for every person in the state," he said.

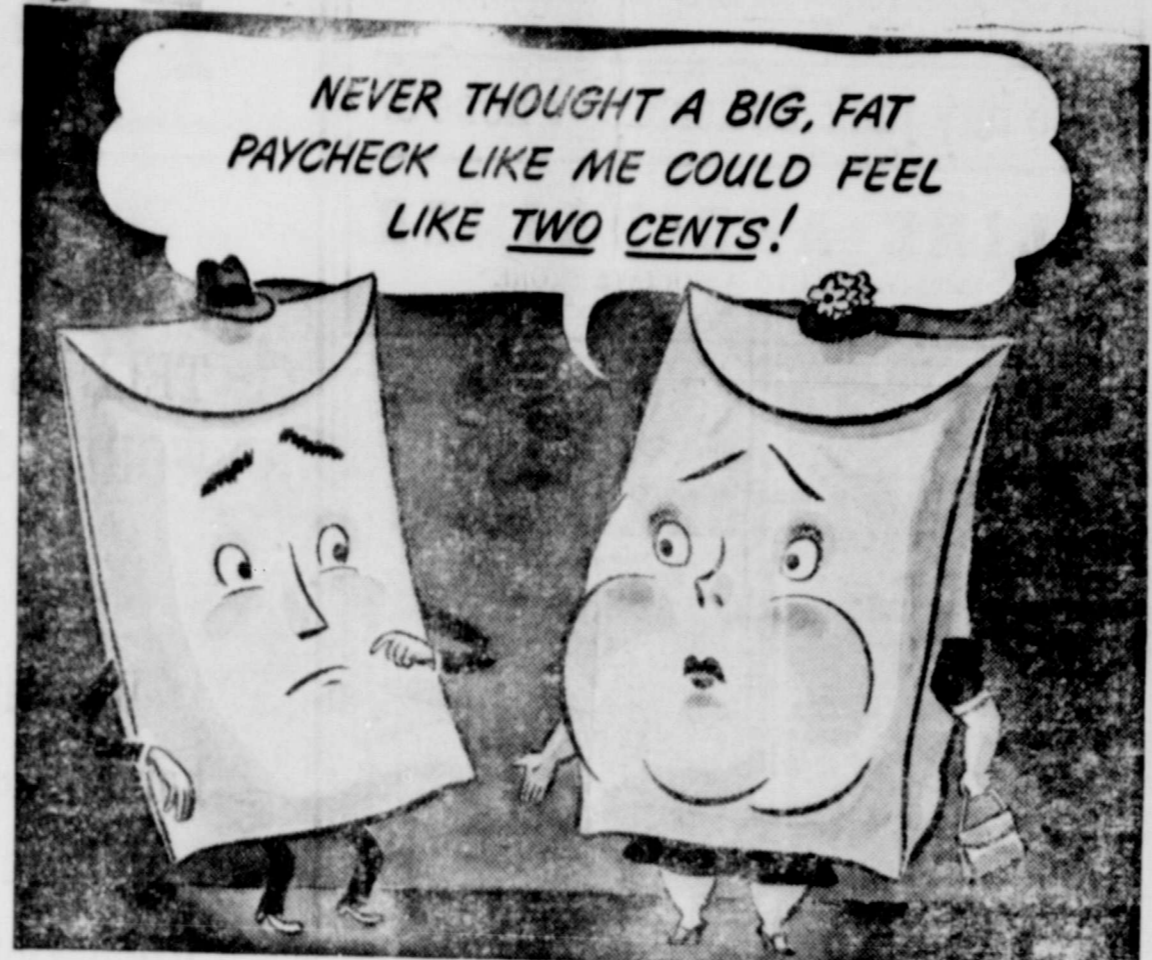

COUNTY'S QUOTA IN FIFTH WAR LOAN DRIVE SET AT \$335,000

Floyd County residents have been asked to purchase \$335,000 worth of federal war securities in the Fifth War Loan Drive, June 12 to July 8.

The quota set for the county is \$47,000 greater than the quota of \$288,000, set for the Fourth War Loan Drive early in the year.

County chairman J. M. Willson explained that of the quota set for the county, \$195,000 has been asked in series E Bonds.

In the Fourth War Loan Drive, in Floyd County, under the leadership of chairman J. M. Willson, the county oversubscribed the quota.

JOE'S PAY CHECK: Say, you're blushing. What happened?

Think of 10 years from now!

SUE'S PAY CHECK: I just got a peek at Harry's pay check—it's smaller than I am! He's putting over 15% of his salary into War Bonds!

SUE'S PAY CHECK: Don't rub it in. If I had more to say about it, I'd give myself a big Bond raise. Because how do I know I won't be just a blank piece of paper after the war—remembering the boom days of '44?

JOE'S PAY CHECK: Smart idea. But part of you goes into War Bonds, doesn't it?

JOE'S PAY CHECK: You don't know—and neither do a lot of people who are getting pay checks like you. The wise ones are paring down their checks, getting ready for the future. And the next time I see you, I hope you're thinned down plenty—with all that extra weight on the War Bond side!

SUE'S PAY CHECK: W-e-l-l... I hate to admit it, but I'm only a 7-percenter.

SUE'S PAY CHECK: That's terrible! Don't you know that you're missing the greatest chance in the world to make some money?

JOE'S PAY CHECK: That's terrible! Don't you know that you're missing the greatest chance in the world to make some money?

JOE'S PAY CHECK: That's terrible! Don't you know that you're missing the greatest chance in the world to make some money?

Let's all KEEP BACKING THE ATTACK!

This is an official U. S. Treasury advertisement—prepared under auspices of Treasury Department and War Advertising Council

Funeral for William Thomas Johnson Held Sunday

Funeral services were held Sunday afternoon at the Harmon Funeral Chapel for William Thomas Johnson, age 51 years, by Rev. Eugene Wood, assisted by Rev. N. E. Tyler and Rev. Phil H. Gates. Interment was made in Floydada Cemetery with Harmon Funeral Home in charge of arrangement.

Mr. Johnson was born August 26, 1892 at Forst, Texas. He moved to Floyd County in 1925.

He is survived by his mother, Mrs. Ella Johnson, two brothers, Mrs. Ella Johnson, two brothers, Mrs. Ella Johnson, two brothers, Mrs. Ella Johnson, two brothers, Mrs. Ella Johnson, two brothers.

Honorary Pallbearers were: John Reagan, Clyde Farris, Pink Maxwell, Bill Sisson, N. B. Stansell, Henry Wyatt, and T. P. Collins.

COUNTY JUDGE AND COMMISSIONERS GO TO AUSTIN ON ROAD BUSINESS

G. C. Tubbs, County Judge, and Commissioners E. R. Harris, R. B. Calhoun, W. H. Brock, and W. C. Plumlee, went to Austin Tuesday where they met with the State Highway Department on road matters. They returned home Wednesday night.

PREMIUM LIST IS DOUBLED FOR PIONEER DAY EVENTS

At a recent meeting of the Floyd County Pioneer Association it was decided to double the premium list that was published early in the month, for pioneer day events. This is being done to create more interest in the pioneer parade on that day.

The pioneers will meet on Friday, May 26, for their annual celebration.

Application of Lacquer is Helpful on Brass Fixtures

Apply lacquer to clean brass fixtures eliminates frequent polishing, and when articles are treated this way they require only dusting and washing.

Mrs. Bernice Claytor, specialist in home improvement for the A. and A. College Extension Service, outlines this procedure for the job: Dust with a soft cloth, wash in hot sudsy water and dry. Remove spots with a mild acid such as hot vinegar and salt or tomato juice. Wash the fixture again and rinse thoroughly. Apply brass polish with a soft cloth, rub with polishing cloth until the surface is bright as you wish, and finally apply the lacquer.

Mrs. A. N. Ward and Mrs. Sapho Henderson, visited in Amarillo and Canyon Monday and Tuesday with relatives.

Educational Aid to Future Farmers Is Gratifying

The plan of President E. J. Engel of the Santa Fe Railway System to continue its educational aid to the young Future Farmers of America today received widespread commendation from agricultural representatives in Colorado, New Mexico and Texas.

In responding to the announcement, Frank E. Wimberly, state supervisor of agricultural education for New Mexico said:

"It is gratifying that the Santa Fe is making the educational awards again this year. The spirit and morale of these young farm boys has been shown so remarkably this year that as State Advisor of the FFA Association I have made a special report on it. The offer of the Santa Fe is quite helpful at this time in maintaining FFA morale and maintaining an organization which will be more useful after the War than before."

Six of the New Mexico State FFA officers have entered military service but Supervisor Wimberly advises that there are enough boys holding State Farmer degrees to provide a complete set of acting State officers.

Although covered with snow, parts of the polar regions are as arid as the Sahara Desert, having an annual rainfall of less than ten inches.

Milton F. Smith Dies Friday Afternoon

Milton F. Smith passed away Friday afternoon about 4 o'clock at the home of Mrs. W. M. Dorsey, 220 South Second street, after an illness of several days. Funeral services were held Saturday afternoon at 2:30 o'clock May 13, at the First Methodist Church, Rev. Phil H. Gates, officiating. Interment was made in the Floydada cemetery, with Harmon Funeral Home in charge of arrangement.

Mr. Smith was born in Nebraska, August 20, 1865 and had lived in Floydada for nine years. He is survived by one brother, Rev. I. A. Smith, Post, Texas, former pastor of the First Methodist Church. Members of the Masonic Lodge attended as pallbearers.

Plan for More and Better Roughage for Dairy Stock

College Station, May 13.—Hay crops cut at the proper stage may enable Texas dairymen to have a bigger supply of better quality roughage this year.

"Proper storage," says E. R. Eudaly, dairyman for the A. and M. College Extension Service, means when it still is leafy and green. Harvested at that stage hay will contain three to four times as much protein, eight or ten times as much mineral matter and, of course, much more vitamin A than if cutting is delayed until full maturity.

Shortage of labor may handicap dairymen in putting up larger quantities of roughage this year. But, Eudaly suggests, if they cut their hay at the stage for making the highest quality they will, in effect, have produced more hay because it will contain several times the feed value of the kind they have been making. Consequently they will get a larger production of milk from the same acreage of hay.

The proper stage for cutting will vary with local conditions, but for most crops the largest tonnage of good quality hay can be obtained when it is cut in the bloom stage. Harvested later it will be coarser and stemmier, with consequent loss of color and palatability, and low in feed value. Earlier cutting might give a better quality, but the loss in tonnage perhaps would not offset any gain in quality. It's a safe rule to cut the hay crop when it will yield the largest amount of nutrients per acre.

Eudaly emphasizes that dairymen should put up all of the silage they can. Silage is feed insurance, and more milk per acre can be produced from most feed crops in the form of silage than if fed as dry bundles.

"Dairymen who furnish all of the good quality hay and silage that cows will eat, along with plenty of temporary and permanent pasture will not have to worry much about scarce and high priced concentrates," Eudaly says. "They won't need much. They will make a lot more profit than men who depend upon concentrates for most of their milk production because of poor quality or lack of roughage."

Heavy boulders in the bottom of river beds have been known to be raised to the surface and floated downstream by ice which has formed around them.

Cowboy Reunion Expected to Draw Many People

Stamford, May 13.—Indications at this early date are that the Texas Cowboy Reunion, to be held here July 3 and 4, will surpass any of the 13 annual affairs held in the past. Many inquiries from rodeo contestants, entrants in the Quarter Horse show, and other events are being received, according to W. C. Swenson, president.

The two-day celebration will open with a big down-town parade. Horseback riders, chuck wagons, and relics of the days of the wide-open range will unite with the effects of a nation at war to make this parade one of the highlights of the Reunion.

New officers of the Texas Cowboy Reunion Association will be elected at the annual meeting of this organization in the Will Rogers Memorial Bunkhouse on Monday morning, July 3.

Old Fiddlers and "fiddlin," fans will gather in the Bunkhouse Tuesday morning, July 4, for their annual contest. The only requirement to enter this contest is that the contestant be not less than 50 years old.

Two full arena rodeo performances will be given each day. Each performance will open with a colorful Grand Entry Parade. Cowgirl sponsors from West Texas towns and cities will add still more color to the rodeo shows when they compete for the prizes to be given the sponsors having the best mount, the most attractive riding outfit, and showing the best horsemanship.

Square dances in the Coombes Roundup hall will attract hundreds of folk dance fanciers, while the sponsor dances, held in the Pavilion, will furnish entertainment for modern dancers.

The American Quarter Horse show, which has grown in popularity each year, will again be one of the feature attractions.

The cutting horse contest, a unique feature of the Texas Cowboy Reunion, is scheduled for a spotlight place in the show. This event is judged on the performance and ability of the horse and the performance and ability of the rider.

REMOVAL OF TIRE INSPECTION CAUSES MUCH CONFUSION

Removal of periodic tire inspection has led many to believe that tire inspection records may be done away with. This idea is causing the Local Boards to have to handle many applications for new inspection records, according to the Office of Price Administration.

Tire inspection records must be kept, for a motorist making application for a tire replacement or for gasoline rations must present the record.

"B-4" GASOLINE COUPONS TO BE ISSUED IN FUTURE INSTEAD OF "B"

"B-4" gasoline coupons will be issued to fill future applications for "B" gasoline rations and will be valid immediately, the Office of Price Administration announced today.

The early validation of "B-4" coupons is due to a shortage of "B-3" coupons in the region and gasoline dealers are being notified of the validity of these coupons. It was also pointed out that outstanding "B-3" coupons are still valid.

**HOW ABOUT THIS
FOURTH TERM?**
By J. E. Jones

Washington, D. C., May 18.—When George Washington refused to continue as President of the United States after serving two terms, he established a precedent that was followed until four years ago, when the Democrats nominated and the people elected Mr. Roosevelt for a third time.

Evidently, public opinion has changed, and the proof that it has changed is shown in the State primaries, where the Democrats are choosing Roosevelt delegates who will nominate him for a fourth term. Unless there is a change in the situation, Mr. Roosevelt will receive practically the unanimous endorsement of his party. The facts are that nobody can stop Mr. Roosevelt.

History has been made, and is being fortified, which breaks down George Washington's precedent regarding two terms.

As matters stand, President Roosevelt and Governor Dewey are practically certain to be the nominees of the two great political parties. The peculiar thing about Dewey's candidacy is that he isn't a candidate, which—after all—turns out to be the best way to run for office.

Of course either one of the gentlemen may refuse the nomination; but that never has happened.

The only question that remains unsolved is whether the country will elect Mr. Roosevelt or Mr. Dewey. Your Washington correspondent will have to offer an alibi. The alibi is that he doesn't know, and he refuses to record a "guess" in cold type.

**CARLOADINGS FOR WEEK
ENDING MAY 13, 1944**

The Santa Fe System carloadings for week ending May 13, 1944 were 23,238 compared with 21,004 for same week in 1943. Cars received from connections totaled 12,048 for same week in 1943. Total cars moved were 36,054 compared with 33,052 for same week in 1943. Santa Fe handled total of 36,223 cars in the preceding week of this year.

Miss Mary Louise Thurmon, of Lubbock, spent the week end with her parents, Mr. and Mrs. Sam Thurmon.

**Sellers Announces
For Attorney General**

Grover Sellers

Grover Sellers, Attorney General of Texas, has announced he will be a candidate for a second term in that office in the 1944 primary election.

In announcing his candidacy, Mr. Sellers declared:

"I am grateful to Gov. Coke Stevenson for appointing me attorney general, following the resignation of Gerald C. Mann, with whom I had served four years as first assistant.

"To the people of Texas I now submit my candidacy. When elected my one effort will be fair and impartial administration of all laws and the constitution as written by the people. I shall continue to work in complete harmony with other officials and state departments in the efficient operation of our state government.

"All Texans have one common thought today—winning the war as quickly as possible. This department, as in the past, shall continue full cooperation with military authorities in prosecution of the war. During the absence of our men in uniform, their welfare always shall be my first concern. In fact, I am the first ever to hold that Texans in uniform can vote.

"I base my candidacy on a background of experience gained as your Attorney General, first assistant Attorney General, judge of the Eighth Judicial District and as an associate justice of the Court of Civil Appeals."

**IT'LL COME OUT ALL RIGHT
IF THE PEOPLE ARE
LEFT ALONE**

Congressman Patman of Texas told the House a few days ago that in his daily mail from soldiers and sailors overseas, "the thing which strikes me so favorably in the majority of these letters is the desire of the senders to stand on their own feet and be able to become businessmen themselves in a number of the fields for which their wartime or prior training has prepared them." He said that "these are not, in many cases, letters from men who are humbly pleading for jobs. Instead they are from men who say, 'we are competent and able to take our places in our home towns as citizens capable of running our own individual business.'"

Why a Farmer Should Buy and Keep War Bonds

by Gabriel Lundy
Head, Dept. of Agricultural Economics
South Dakota State College

Willingness to purchase War Bonds is a sign of patriotism and a desire to build up a reserve of power which will impel the farmer to buy and keep War Bonds.

War loyalty will express itself in a maximum production of necessary food and fiber for the winning of the war. Farmers will also express their loyalty by investing cash with the government and purchasing both food and war equipment. Fortunately farmers are receiving higher prices and larger profits. This has enabled many of them to reduce old debts to negligible amounts or to acquire cash for Bond purchases.

Responsibility toward the nation for funds which carry on the war is a duty of the farmer. It is the limit of their responsibility.

Both direct self-interest and patriotism dictate the purchase of War Bonds as a means to prevent inflation. During our large wars we have had high war prices followed by very low prices and depression some years later. During World War I many farmers and their families used the enlarged money supply to bid up the prices of farm land. As a result the farm mortgage debt was more than doubled. Then when post-war prices dropped very low many farmers were unable to pay, and lost their farms through foreclosure.

Prevention of this calamity can be avoided by investing in War Bonds instead of buying land at inflated prices and on credit.

The danger of inflation, however, is not limited to land. It is also present in the prices of other things. Price inflation and mortgage debt in every line are harmful. Such harm can be avoided by diverting surplus funds from the markets for scarce commodities and into War Bonds.

Winning the war by means of higher taxes would be more anti-patriotic, but since Congress has decided in favor of Bonds it is the duty and privilege to invest in War Bonds.

Good farm management and interest as well as patriotism urge the farmer to buy and keep War Bonds. If prices fall

after this war as they did after our other large wars, the farmer with a reserve in Bonds will be in an ideal economic position. Farm buildings and machinery are wearing out faster during the present war period than during normal times due to difficulties in obtaining needed material and labor for repairs and replacements. Farmers should now be putting money in Bonds to cover these costs. About 10 percent of the total machinery investment and about 4 percent of the total farm building investment should be saved each year to cover wear and depreciation. With lower prices, farm equipment, new buildings and furniture and household equipment will be at the farmer's disposal for less money after the War than now.

Furthermore, if he holds his Bonds until maturity, his money will be increased by one-fourth. With more money and lower prices, the Bond-investing farmer will then have cash to make his farm work easier and more productive. His money will also yield him more in home comforts, education for the children, or in the purchase of a farm for the son.

The danger of war-induced inflation does not end with the actual fighting. Post-war inflation is fully as threatening. Large-scale conversion of Bonds into cash for the purchase of articles, commodities, etc., before industry has had time to convert fully to peace-time production, will be undesirable. By holding his Bonds longer, the farmer or other Bondholder will contribute to the elimination of both a wild "boom" and a subsequent depression.

Agriculture and industry are intimately interrelated and interdependent. The government is now industry's big customer. After the war, farmers will be big buyers of industrial products. If the accumulated purchasing power is released gradually, and if income is widely distributed, industry can furnish full and continuous employment. In turn this will give farmers a profitable market for their products. Thus, both patriotism and far-sighted self-interest will induce farmers and others to buy and keep their War Bonds until after peace is achieved.

U. S. Treasury Department

Used Containers Order of Day for Many Shipments

Reminding growers and shippers of fruit and vegetables of the necessity to order used containers, the War Food Administration also advised them to be prepared this year to use substitutes for their customary sizes and types of containers.

The War Production Board has announced that restrictions upon the use of new wooden containers, embodied in its recent limitations order, will go into effect on July 1. The order still prohibits the use of new wooden containers for cabbage, green corn, dry onions, white potatoes, rutabagas and root turnips.

For some other vegetables the use of wooden containers still is restricted to definite per centages of the amount packed or shipped in 1942. These restrictions permit 100 per cent for carrots; 80 per cent for cantaloupes and melons, cauliflower, celery and lettuce, and 50 per cent for cucumbers and radishes.

A recent WFA survey of the basket and hamper output indicates that the nation this year may have 10 per cent smaller production of round stave baskets and 20 per cent fewer hampers than in 1943. The prospective decrease in production in the southwest of round stave baskets (used for both fruit and vegetables) are 10 per cent, and a similar per cent for hampers, which are used for such vegetables as beans, peas, lettuce and radishes.

The WFA points out that if the nation has fruit and vegetable crops as large in the aggregate as those in 1942, which appears likely, in some districts of the state, producers will need at least 10 per cent more new containers than they had the past year.

FLIES AND MOSQUITOS ARE TWO DANGEROUS PUBLIC ENEMIES IN SUMMER

Two dangerous public enemies, the house fly and the mosquito, are abroad. They spread disease and annoy persons and should be destroyed wherever found.

According to Mrs. Bernice Claytor of the A. and M. College Extension Service, families should not delay in protecting their homes from these harmful pests. People have an added responsibility this year because they will have to make their protective fight with the material they have on hand. This applies principally to screening for porch, windows and doors. New metal screen generally cannot be bought, and probably will not again be on the market until after the war.

As the first line of defense, screens should be guarded carefully against damage and deterioration. Mrs. Claytor, who is the specialist in home improvement, advises seeing to it that all frames fit doors and windows tightly. Galvanized screens should be dressed once yearly with a thin PERMANENT WAVE, 59c!

GRANDMOTHER'S BOND WITH THE FUTURE - WAR BONDS

EMBLEM OF THE GRANDMOTHERS LEAGUE

WASHINGTON, D. C.: "Grandmother's Bond with the Future—War Bonds" is the slogan of the country's new campaign urging grandparents to buy Bonds and gifts for their grandchildren. The official emblem is the old-fashioned sampler reproduced

The Grandmothers League was founded by Mrs. George C. Marshall, wife of the Army Chief-of-Staff, who bought Bonds from Secretary Morgenthau for her three grandchildren. Mrs. Marshall suggests that grandparents insure their grandchildren's future by buying Bonds or starting stamp albums for them.

GRANDMOTHERS' SALARIES BUY BONDS FOR GRANDCHILDREN

Mrs. Elizabeth Taggart (left) and Mrs. Edna Neff

NEW YORK, N. Y.: The slogan of the Grandmothers War Bond League, "Grandmother's Bond with the Future—War Bonds," is a common bond among two hard working grandmothers at the Aero Spark Plug Corporation in New York. Mrs. Elizabeth Taggart (left) and Mrs. Edna Neff (right) are the grandmothers who have bought part of their salaries in War Bonds every pay day.

The 10-year-old grandson, John Taggart, is co-owner of the Bonds. Mrs. Taggart buys to back her fighting stepson, James Taggart. Mrs. Neff's 10-month-old grandchild, Barbara Ann, receives Bond gifts as part of her grandmothers' "back the attack" program. Barbara's father is a Marine sergeant, the

PEPPERS, OKRA AND LATE TOMATOES ARE SUGGESTED FOR REPLANTING

College Station, May 18th.—Spaces are appearing in the rows of early planted gardens and gardeners are giving thought to suitable selections for replanting. With the idea of simplifying this problem, J. F. Rosborough, horticulturist for the A. and M. College Extension Service, suggests setting out or planting peppers, okra or late tomatoes in the skips in cabbage rows.

Summer tomatoes can be planted directly in the row, sowing three to four seed per foot. When six to eight inches high thin the plants to one about every three feet. Porter, Bison, Danmark or Cherry are the best hot weather tomato varieties. The plants should not be pruned or staked because the foliage is needed to protect the fruit from hot sunshine.

CHARLEY WAGNER DIES WEDNESDAY MORNING

Charley Wagner passed away at his home about 4 o'clock Wednesday morning. Mr. Wagner had been in ill health for several months, and had been at Wichita Falls for sometime for treatment. His wife, Mrs. Eva Wagner, went to Wichita Falls the first of the week and brought her husband home.

Funeral arrangements are pending word from Mr. Wagner's relatives who live in Illinois and Nebraska.

Mrs. Rachel Ivey, of Big Spring, is visiting her mother, Mrs. C. Surginer.

Mrs. A. S. Hollingsworth, of Midland, visited with friends here Sunday and Monday.

DENSON SCHOOL OF COMMERCE
CLOVIS, NEW MEXICO

To Our Friends and Customers

A growing city is almost invariably a city with a friendly and hospitable spirit. Sometimes a city achieves a sudden growth as a result of an oil boom or the discovery of other wealth hidden beneath it's soil. But these instances are only rare. Most cities are man made.

Small cities become great cities through the vision and energy of it's citizens. Such a city constantly seeks new capital investment in its development, new enterprises, new industries, new payrolls and new citizens.

This program of city building, featuring the welcoming hand of friendship to new citizens and new enterprises and accompanied by the fullest possible support of the industries it already has, brings rich rewards. The great cities of the Southwest were built and are being further built in just such manner.

The Southwestern Public Service Company is an independent company operating wholly under local management, since it has no holding company over it whatsoever. Thus it's officers and managers are in position to conduct the operations of the Company under a policy of cooperation with the people of the cities and communities it serves.

This policy means the finest possible service to the public at the lowest possible rates consistent with such service. It also means the fullest cooperation with the citizens in all matters leading to the development and up-building of the cities and communities served by the Company.

Hooded Milk Pail Is Recommended to Dairymen

College Station.—Families who still cling to the old practice of using syrup or lard bucket as milk pail are inviting trouble, for these are difficult to clean and furnish hiding places for bacteria. In addition, these buckets with a rim around the top rust easily.

A seamless, small-topped or hooded milk pail is recommended by the Texas A. and M. College Extension Service. If a hooded pail is not available, a seamless straight-edge one certainly should be provided, says Gladys Martin, Extension specialist in home dairying.

Another important piece of equipment necessary to clean milk is the strainer. Select one which can be cleaned easily and which is large enough to take care of the milk produced, Miss Martin advises. She considers preferable the strainer in which a cotton filter par can be used. The pad should be used only once, then discarded.

Use of chlorine water to act as a sterilizer also is essential to the proper handling of milk. Following their use, milk utensils first should be rinsed with cool or lukewarm water, Miss Martin explains. Using hot water cooks the casein in the milk and makes the containers hard to clean. Next, wash the buckets, strainers, and bottles with hot water and an alkaline washing powder. Use a stiff brush, for it will clean much better than a dish rag and soap.

After the bucket, strainer, and milk containers have been washed they should be rinsed with boiling water and turned wrong side up to dry. They should not be wiped. Just before starting to milk, rinse the utensils in the chloride solution to sterilize them. This practice cost only about a half cent a day, Miss Martin estimates.

No. 599

NOTICE IN PROBATE THE STATE OF TEXAS

To the Sheriff or any Constable of Floyd County—Greeting:

You are Hereby Commanded to cause to be posted for ten days, exclusive of the day of posting, before the return day hereof, at the Court House door, in Floydada, Floyd County, Texas, a copy of the following notice:

THE STATE OF TEXAS,

To All Persons Interested in the estate of H. B. Early, Non Compos Mentis, Sula A. Julian, Guardian of said estate has filed in the County Court of Floyd County, on the First day of May, 1944, her final account of the conditions of the estate of said H. B. Early, Non Compos Mentis, numbered 599 on the Probate Docket of said court, together with an application to be discharged from said Guardianship Bond. Said account and application will be acted upon by said Court on Monday, the 29th day of May, 1944, at the Court House of said County, in Floydada, Texas, at which time all persons interested in said account and application may contest the same, should they desire to do so.

Herein Fail Not, but have you before said Court at the time aforesaid, this writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Floydada, Texas this First day of May, A. D. 1944.

(Seal) MARGARET COLLIER, Clerk, County Court, Floyd County, Texas.

By Maurice Burton, Deputy.

I hereby certify that the above is a true copy of the original writ now in my hands.

21-3tc LEE HOWARD, Sheriff.
