

"By Helping Business You Help Yourself"

The Floyd County Plainsman

FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, JUNE 1, 1944

NUMBER 25

NUMBER 15

Open Letter from the War Finance Division

May 22, 1944.

The Fifth War Loan, which comes at a time when there will be considerable discussion of politics, candidates and issues, it might be stated the fact that the war campaign is completely non-partisan.

The winning of the war is everybody's job and everybody's responsibility, so is the promotion of War Bonds. Numbering the 5 million volunteer salesmen are people of all races, and creeds, with a common denominator—they are Americans.

It is important that there be a mutual understanding as to the status of the War Finance Division. Consequently, the official Treasurer, radio transcribers, newspaper ads, radio transcribers, and magazine panels and magazines should not be sponsored by any political candidate, committee, or party.

Cooperation in this matter is very much appreciated.

Sincerely,
TED R. GAMBLE,
National Director War Finance Division.

Vegetables Home Import-Factor

Vegetables are coming of age and soon will be time to dig for the potatoes, says J. F. Smith, horticulturist for the M. College Extension Service. Change of food articles is an important factor in the economy this year. Rail transportation and packaging materials, two vital links in the food chain, are congested and that account he believes people who produce and consume their own stocks will be best off.

The potato patch with Roscoe says that they can be harvested before the tops die but that they should be mature if they are to be properly stored. To determine the maturity of the potatoes, he suggests the thumbs against the stem and if it does not break the crop may be harvested.

In case of excessive rain before digging, small electrical spots or water blisters, which form on the skin. Delay harvesting until the spots have dried; otherwise excessive rotting may result.

Place the potatoes as tenderly as possible and place them in the bin as soon as dug. A turning or middle buster run eight inches deep may be used for the potatoes from the others.

well ventilated cellar is necessary for storage provided with overhead vent to allow for warm air and moisture. The vent should be open during the day and closed during the night. Buildings or the area around farm house are used for storage ventilation is essential. Spreading potatoes directly on ground or floor. Protected false floor with at least six inches of air space. Even better on willow poles or straw to allow air to completely dry each potato. Air keeps the potatoes from rotting.

John A. Hollums is Chosen Pioneer President

John A. Hollums was elected president of the Floyd County Pioneer Association at the close of their annual gathering last Friday, when they celebrated the county's 54th birthday. Mr. Hollums succeeds J. M. Massie, who served the association the past year. Mrs. Ella B. Starks was made vice-president, Mrs. Maud Hollums secretary, and G. L. Fawver, treasurer. Directors elected were A. T. Swepston, Tom McClain, Glad Snodgrass, R. C. Scott, Roy Snodgrass, Buck Sams, and C. L. Anderson.

Many old timers were in attendance and plans for the day was carried out as nearly so as possible. On account of rain the speaking was held in the district court room.

The parade which took place at 11:30 was made up mainly of the Texas Defense Guard and local horses and riders together with various kinds of individuals in pioneer costumes.

Registration started at 9 o'clock and was in charge of R. C. Scott, Mrs. Ethel Graham and Mrs. Walter Collins.

At the noon hour the Home Demonstration Club served lunch to the pioneers. The tables were decorated with wild flowers.

Judge G. E. Hamilton, of Matador, was the main speaker. J. M. Massie, president, called on Joe McCollum, of Lockney, to be master of ceremonies.

Speakers in the afternoon included Mrs. Gertrude Braidfoot Arnold, who gave two original readings. Short talks were made by Rev. R. E. L. Muncy, Judge G. C. Tubbs, Glad Snodgrass, Mrs. Nellie Witt Spikes, and Judge Tom W. Deen.

WAC Recruiting Office is Opened at Lubbock

According to word received here today, headquarters for Women's Army Corps Recruiting is now in the Post Office Building at Lubbock.

Fifteen surrounding counties will be included in the recruiting territory of this office and every eligible woman in the district will be contacted.

More than 239 different jobs are open to women to serve side by side with Uncle Sam's soldiers. The need for women to serve as Medical Technicians is urgent and a call has been issued to all eligible women to enlist to serve as Dental, X-Ray, Laboratory and Surgical Technicians. This call coming from the thousands of doctors who are working short-handed at every post in the nation, offers a chance for a splendid job both during the war and after, according to Sgt. Helen R. Cunnison, Sub-Station Commander of the Lubbock office.

For complete information as to the splendid advantages offered women in the WAC, women are invited to visit the Army Recruiting Office in the Post Office Building at Lubbock, or to write and members of the recruiting staff will visit them personally.

Miss Bernice Bishop, of San Diego, California, arrived home last week for a months vacation visit with her mother, Mrs. Jennie Bishop and other relatives.

Let Cavanaugh Do Your Printing.

The battle for the World is on!

NOW THAT the chips are down . . . now that our men are writing decisive history with their blood . . .

There can be no halfway measures for us.

The greatest battle in the history of the world must be matched by the greatest war loan in the history of the world.

That's what Uncle Sam says . . . the same Uncle Sam for whom your brothers and sweet-

hearts and husbands are fighting and dying this very minute.

They, in the front lines, are throwing in everything they have.

We, behind the lines, must do the same.

Remember, this is the battle for the WORLD. Our world. And we've got to win it. That's why Uncle Sam expects every dollar, like every soldier, to do its duty.

Put this Fifth War Loan over . . . buy more War Bonds than you think you can!

Back the Attack! - BUY MORE THAN BEFORE

County Assessors Elect Officers in Meeting Tuesday

Austin, May 30—County tax assessors-collectors in convention here Tuesday, elected these officers to serve for another year:

President, P. E. Dickson, San Antonio; first vice president, William M. Petmecky, Fredericksburg; second vice president, H. B. Bryan, Lubbock; secretary-treasurer, George McCullar, Kleberg County.

20 SOUTH PLAINS 4-H CLUB BOYS INVITED TO VISIT ARMY AIR FIELD

Plans are being completed for the visit of more than 300 4-H Club boys of 20 South Plains counties Thursday and Friday, June 8 and 9, at South Plains Army Air Field.

The young men will be guests of the field for their two days as SPAAF pays tribute to them for their outstanding records. Each one of the young men has produced enough food to feed a soldier for an entire year, 4-H Club officials said in making plans for

CARLOADINGS FOR WEEK ENDING MAY 27, 1944

The Santa Fe System carloadings for week ending May 27, 1944 were 24,024 compared with 22,837 for same week in 1943. Cars received from connections totaled 12,112 compared with 13,849 for same week in 1943. Total cars moved were 36,136 compared with 36,686 for same week in 1943. Santa Fe handled total of 34,699 cars in preceding week this year.

Miss Anna Sims, of Plainview, spent the week end with Mrs. Maud Merrick.

Locker Increase In Texas Illustrates Food Preservation

College Station, June 1.—Before 1939 there were only two freezer locker storage plants in Texas. There now are 201 in the state, and an additional 121 new plants are under consideration, according to a survey just completed by the Texas A. and M. College Extension Service.

These 201 locker plants are located in 120 counties. Dallas County leads the state with six, while Tarrant has five. Lynn, Lamb, Hidalgo and Xexar counties have four each, county Extension agents reported. The average plant has 330 boxes. Total boxes for the state number 66,31 which serve 65,262 families.

During 1943, approximately 25 million pounds of food, or an average of 372 pounds per family, were stored in these boxes, the report showed.

Tremendous popularity of locker service is evidenced by the 121 new plants under consideration and by plans of 58 plants for enlarging their operations, Extension Director J. D. Prewitt points out. This should add about 13,000 boxes to those already available. Within recent weeks REA Co-ops at Trenton and Center have been allotted funds for construction of plants with slaughtering and food processing facilities. A cooperative at Littlefield likewise has been granted funds for expansion. Because of this interest the Extension Service is increasing its efforts to help farm people with their frozen food problems, he says.

Increase in Texas home freezer units also was indicated by the survey, and agents said there now are 2,000 in the state. During the year these have held nearly a million pounds of frozen food, or an average of about 433 pounds per home.

Hidalgo County has the most outstanding record in this respect, reporting 503 units with a capacity of from 200 to 500 pounds of frozen food each.

B-2 and C-2 Gasoline Stamps are Invalid

On June 1 all B-2 and C-2 gasoline rations will become invalid for consumer use, the District Office of Price Administration announced today.

Persons holding B-2 and C-2 rations which will not expire until after June 1 must present the coupons to their Ration Boards before June 1 in exchange for valid coupons of equal value.

District officials announce that gasoline dealers have until June 10 to turn their ration evidence over to distributors. Distributors must give their ration evidence to ration banks by June 20.

These old-type B and C rations without serial numbers were invalidated as a means to cut down black market operations, officials explained. Serially numbered coupons give a permanent identity to each coupon, and are more difficult to counterfeit than the old type.

At the same time it was pointed out that serial numbering does not make endorsement of coupons any less necessary.

Exposed to direct sunlight potatoes turn green and become undesirable for eating.

Many Texans are Serving in Navy Branches

Dallas, June 1.—Enough Texans to man a good-sized invasion fleet—144,234 officers and enlisted personnel from the Lone Star State—were serving in the United States Navy, Marine Corps and Coast Guard as of January 31, 1944, the Navy Department has announced.

Members of the Navy Nurse Corps are not included in the tabulation, which is based on the states men and women in Naval service listed as their place of residence.

New York has the most persons in Naval service—272,373. Other ranking states are: California 237,292, Pennsylvania 218,968, Illinois 181,863, and Ohio, 156,047.

Food Situation Should Be Guarded by Everyone

Producers and consumers should not be lulled into a feeling of security by the current favorable situation regard food, cautions War Food Administrator Marvin Jones in a recent statement. A food supply is temporary and must be replenished constantly, he points out.

Just now there is no serious shortage of any kind of food. Eggs and potatoes, for example, are more abundant than consumption capacity, and the production achievements of farmers and livestockmen has made it possible to suspend point rationing temporarily on all meat except beef steak and roasts along with many other food items. Milk, however, is not as plentiful as many other food staples.

"Because we have plenty now it does not necessarily follow that we will have plenty later," Judge Jones says. "Too many persons are prone to take a food supply for granted. It will be even harder to meet our needs this year than it was last."

Citing the tax on American food supplies, the administrator says that WFA at present is buying for war needs 25 to 35 million pounds of pork weekly, and 40 per cent of the major cuts of beef are being set aside for the armed forces.

Among his reason for prophesying greater difficulty in meeting this year's food needs, the WFA head recalls the delay in spring plantings due to unfavorable weather, fewer young men available for the hard work on the farms and deterioration of farm machinery.

Despite the greatly increased feed production and imports of all the feed which transportation facilities would permit, he continues, there still is not enough feed to supply the present livestock population. It will be necessary to adjust livestock and poultry numbers to the available feed supplies. This will necessitate marketing through the year a greater number of cattle, hogs and poultry, and culling dairy herds, thereby leaving more feed for the better producers.

From the Texas viewpoint, maximum production of farms and gardens, conservation of home products and rigid avoidance of waste are the most effective contributions to easing the difficulties ahead.

Chocolate beans were once used as currency in Mexico.

There's Trouble Ahead For the Japs

Photo by Sgt. Robert N. Howard (Marine Corps Combat Photographer). Maj. Gen. William H. Rupertus, right, commanding general of a Marine division, and Gen. Douglas A. MacArthur, supreme commander of Allied forces in the Southwest Pacific, discuss plans for an offensive against the Japs during a conference somewhere in the South Pacific. At left is Maj. Gen. S. J. Chamberlain, U. S. Army.

Large Percent of Texas Farmers Borrow Money

College Station, June 1.—Eight of every 10 farmers in the state will borrow short-term money for production, marketing and living expense, this year. The average farm family will borrow about \$500.

Furthermore, T. R. Timm, economist in farm management for the Texas A. and M. College Extension Service, says more than one-half of the farms in Texas are using long-term credit with an average loan of more than \$2,000 per farm.

This extensive use of credit warrants considerable pains to employ it wisely, Timm says. Naturally, every borrower must determine for himself how he can best use his credit. Obviously, borrowing money for speculation, or for luxuries is unsound in war-time. And it is unwise to go into debt for equipment or breeding stock when the loan cannot be repaid during the productive lifetime of the article purchased.

For example, on a tractor with a normal life of ten years, the loan should be required within 10 years or less. And because of possible breakdowns and deterioration, it would be much better if the debt were repaid in five or six years.

On the other hand, if equipment will increase or maintain production and will help pay for itself quickly, this use of credit is justifiable. Borrowing to reorganize or consolidate debts sometimes proves advisable, also.

If credit is needed to expand farm production and this can be done with profit to the operator, its use is as valuable and patriotic in war time as the use of machinery or labor on the farm.

PREPARATION OF BOX CAR SUPPLY IS UNDER WAY TO HANDLE WHEAT CROP

Advance preparation of box car supply is already under way to take care of the annual rush of grain loading, which begins with opening of the harvest season in the great winter wheat area of the Southwest, officials of the Santa Fe Railway announced today. Present orders are for movement of a minimum of 18,000 box cars

by July 1st from eastern and southern roads to supplement the supply already on western lines. No other mass movement of cars compares with that to the grain fields. In normal years, a minimum of 25,000 box cars is concentrated in the Southwest in advance of harvest. Last year only 6,700 were moved from eastern and southern lines, however, so the advance supply this year will be better than a year ago, according to officials of the Western Railways.

FLOYD COUNTY POULTRYMEN PRAISED AS LARGER USE OF EGGS URGED

Floyd County poultrymen are asked by the government to produce approximately 1,002,135 dozen eggs this year as their part in the Food for Victory program, the National Poultry Defense Committee announced today.

This county goal can best be reached if housewives take full advantage of the present egg surplus and plan more menus calling for greater use of eggs, thus encouraging farmers to maintain high production, declared Committee Secretary Leon Todd.

In urging poultrymen to meet the 1944 quota, Todd pointed out

the current egg abundance may be followed by a serious shortage if farmers liquidate some of their laying flocks because of inability to dispose of eggs at profitable prices now.

An aid to producers is the concerted effort of distributors to keep the supply of eggs flowing steadily into consumer channels as a nutritious wartime food, Todd said, adding that aggressive merchandising has thus proved an important factor in increasing egg consumption.

CEILING PRICE IS PLACED ON OATS PRODUCED IN TEXAS

Oats produced in Texas have a ceiling on track price of 83 cents per bushel for No. 3 red oats and 84 cents per bushel for No. 2 red oats at any Texas common point where produced, the Office of Price Administration has announced in clarification of the regulation governing Texas oats.

Delivered prices are figured by adding cost of transportation, plus normal markups allowed.

Mrs. Maud Merrick is visiting this week in Honey Grove with her grandson, Walter Merrick.

Chemical Industries Invest in Texas Plants

Austin, Texas, June 1.—Several dozen chemical industries have already invested more than three hundred and fifty million dollars in Texas, according to Elmer H. Johnson, University of Texas Bureau of Business Research industrial analyst.

While many of these are government-financed war plants, most of them have already indicated that they plan to convert to peacetime civilian production after the war, he said.

Products manufactured include synthetic ammonia, ammonia-soda, bromine, superphosphate fertilizer, toluene, styrene, acetylene, butadiene, synthetic rubber, formaldehyde, chlorine, caustic soda, catalysts, acetic acid, acetic anhydride, acetone, methanol (synthetic wood alcohol), magnesium, magnesium alloys, hydrogen, various hydrocarbons, alcohol, phenothiazine, serum albumen, activated carbon from lignite, sodium silicate, glycerin, and various ingredients for aviation gasoline.

Sergeant Earl Crow, of San Diego, California, arrived Monday on a fifteen day leave. Mrs. Crow, who has been employed in the First National Bank, is arranging business matters and will return to California with her husband.

James Buchanan was the United States' only bachelor president.

Political Announcements

Those whose names appear below have authorized the Floyd County Plainsman to announce their candidacy for nomination for the office under which their name appears, subject to the action of the Democratic Primary Election of July 22, 1944:

GRANDMOTHERS LEAGUE**

WASHINGTON, D. C.: General George C. Marshall's wife founded the Grandmothers League as a roll of honor for grandmothers who buy War Bonds for their grandchildren. Mrs. Marshall herself buys Bonds and stamps regularly for her three grandchildren, Tupper Brown, age 1, Jimmy Winn, 2, and Jimmy's sister Kitty, 9 months.

The most disastrous flood in recorded history occurred in 1887 when China's Hwang river burst through its levees, flooded an area of 50,000 square miles and drowned 1,000,000 people.

Because every particle of fog usually has a minute nucleus of dust, fogs in cities, where dust is comparatively thick, are denser than fogs in the country.

\$1,000 Reward Posted in Amarillo Slaying

The Amarillo Globe News Tuesday posted a reward of \$1,000 for information leading to the arrest and conviction of the slayer and the recovery of the instrument with which Mrs. Dorothy Snelson was almost decapitated.

Mrs. Snelson, 22, mother of two children, was found dead on a street in Amarillo Sunday morning.

Her husband, R. D. Snelson, in the navy, stationed in Oakland, California, arrived in Amarillo Tuesday.

Mrs. Snelson was a former resident of Clarendon, Texas.

Cowboy Rodeo to be Most Outstanding Feature

Stamford, June 1.—From the Grand Entry, which opens each rodeo performance and which is a colorful show within itself, to the final closing event, the Cowboy Rodeo will be the most outstanding feature of the Texas Cowboy Reunion to be held here July 3 and 4.

Three performances are scheduled each day. Morning matinees will start at 8 o'clock, afternoon shows at 2 o'clock, and night shows at 8 p. m.

Lubbock District Leads in Liquor Law Fines

Austin, May 30.—The liquor control board reported early this week that the Lubbock district led the state in the amount of liquor law violation fines assessed during April, with \$4,946.

Next was the Paris district with \$3,601 and Longview district was third with \$3,251. The 16 enforcement districts reported a total of 286 criminal complaints with 177 convictions resulting in 21 jail terms and \$24,754 in fines.

There were 138 convictions in dry areas compared with 39 convictions in wet areas.

Control board inspectors seized and destroyed 14 illicit stills during the month, including five in Harrison County and two each in Morris and Bowie Counties.

ERISMAN TO RUN FOR STATE OFFICE

Fred Erisman of Longview, who is serving his third term as District Attorney of Gregg County, has announced his candidacy for Attorney General of Texas. Long prominently identified in Texas Junior Chamber of Commerce activities, Erisman is now serving as president of the District and County Attorneys' Association of Texas.

LARUE HALL BECOMES BRIDE OF LT. HINSON THURSDAY AT LUBBOCK

In a double ring ceremony read Thursday night at the First Methodist church by Dr. H. I. Robinson, Miss Frances LaRue Hall, daughter of Mr. and Mrs. Buel Hall, 2111 Twenty-first street, became the bride of Lt. Emmett Earl Hinson, Jr., son of Mr. and Mrs. E. E. Hinson, Floydada.

Candelabra and basket of calla lilies decorated the altar.

Mrs. Mamie Neal played "At Dawning" and "Ah Sweet Mystery of Life" before the ceremony and "I Love You Truly" during the ceremony. She also played the wedding marches.

The bride wore a white wedding gown with a finger tip veil, edged with a tiny double ruffle of net. She carried a colonial bouquet.

Miss Jeanne Stovall, maid of honor, wore a yellow net gown with a fitted waist and gathered skirt. She carried a colonial bouquet tied in yellow ribbon.

SISTERS IN BRIDAL PARTY
Bridesmaids were Miss Opal Hall, bride's sister, and Miss Beth Hinson, bridegroom's sister. Miss Hall wore an orchid net dress and Miss Hinson wore peach net. Both carried colonial bouquets.

Mrs. Hall, mother of the bride, wore an RAF blue dress with white accessories and red rose corsage. Mrs. Hinson, mother of the bridegroom, wore a dress of luggage tan with white accessories and a yellow iris corsage.

James Hall, bride's brother, and Bill Nelson were ushers.

Following the ceremony, a reception was held in the home of the bride's parents.

For traveling the bride wore a two piece dress of aqua and white with white accessories.

The bride graduated from Lubbock High School and attended Texas Technological college where she pledged DFD social club. Lt. Hinson was graduated from Floydada High school and attended North Texas State Teachers college and Tech where he was a member of Kemas fraternity. He graduated as a Marine Air Corps flyer from Corpus Christi Air field May 17 and is to be stationed in New Orleans, where he will attend an instructor's school.

Out of town guests were from Floydada and Levelland and Mrs. T. W. Whigham of Denton.—Sunday's Lubbock Avalanche-Journal.

Late roasting ear corn may be planted between the row of potatoes which are about mature. If desired late green beans, or black-eyed, cream or purple hull peas may be planted in the space after the potatoes are dug.

Most of America's rubber is actually stored in the nation's garages—over a million tons of it.

When changing into steam, water expands 1700 times its original volume.
